Chapter 421: The True Essence of Martial Arts

"God, what did I hear, study this colorful barrier?"

"Puff, who does he think he is, Jiutian Wudi?"

"Hahaha, don't brag and don't write drafts. He is a heavenly martial artist, and he wants to study the mysterious power of this ancient ruin. Think too much?"

The crowd exploded, and everyone laughed more vigorously, and several warriors of the mighty dynasty leaned forward and backward, almost rolling on the ground.

This is so funny.

Such relics as the ancient southern capital came from ancient times. Even the top Nine Heavens Martial Emperor of the mainland dare not say that he could study it. He is a heavenly martial artist, actually said he wanted to study? Are you afraid of making people laugh out loud?

At this moment, everyone couldn't help but wonder if Qin Chen had a brain problem?

Earlier, the young master of Emperor Xinxin and Zongzi Liuxian were angry. Now, they said they wanted to study the ruins of the ancient southern capital.

I have to say that if this kid wants to be funny, then the effect has been achieved.

Qin Chen naturally ignored the ridicule of the outsiders, he became more and more interested, running the true essence with his right hand, slowly diving into the colorful light.

Hum!

Sure enough, under the rotation of the true essence, this colorful barrier was immediately torn apart, and when Qin Chen's arm penetrated into the colorful barrier, Qin Chen felt like there was a gap in the sky. The invisible force scanned his body.

This power is extremely mysterious. It is different from the power of true qi and blood, nor is it the power of spirit and soul, but a certain kind of special power that sweeps through his body.

Under this force, Qin Chen felt that he had no secrets at all, and everything was scanned thoroughly in an instant. Except for the mysterious ancient book in his mind that did not respond, the rest of the secrets were almost invisible.

"What a weird power."

Qin Chen was shocked.

He was also able to vaguely sense this mysterious power only after his soul power reached the point of gathering souls, otherwise he would not be able to detect it at all.

puff!

As the real air turned, Qin Chen easily broke through the colorful barrier and entered.

"Hey, this kid is in."

"Unexpectedly, I was not blocked again. It seems lucky."

"Hahaha, little brother, have you found out anything?"

Someone yelled, and suddenly laughed again.

Too lazy to pay attention to these boring guys, Qin Chen flickered and fell into the ancient southern capital.

Seeing Qin Chen coming in, Princess Zi Xun, Zhao Lingshan and others were relieved.

At this time, as a famous genius flew by one after another, almost under the age of twenty-four, the cultivation base reached the heaven level, and the geniuses who passed the examination of the ancient southern capital all entered the ancient southern capital.

Hum!

Not long after the last genius entered the middle of Gunan Capital, it seemed that when the time came, the whole Gunan was shocked. The colorful lights on the outside ceased to flow in an instant, becoming a wall of light, and no one was allowed to enter. .

Since then.

All the geniuses who participated in the Gunan Capital Examination this time gathered together.

Originally, the number of places for the five countries to pass the first round of assessment was 236. Adding the previous and past geniuses, the total number of zero and zero is less than 400.

However, because of the genius of the Dawei Dynasty, the number of people who entered the ancient southern capital soared to about 600, which became the most ever.

The place where everyone is located is an empty space, which seems to be a square in the ancient southern capital. There are colorful streams of light lingering around the square. After everyone enters it, they cannot leave. They can't go anywhere except stay in this square.

"boom!"

A genius from the mighty dynasty hit the mask with a punch. He felt his arm hit an iron wall. The mask didn't move. On the contrary, it was himself. His right hand was shocked by the force of the violent counter-shock. .

"What the **** is this place? Didn't it mean to participate in the inheritance assessment? Why did you send us here and nothing happened?"

The man's face was gloomy, and he drank coldly, staring coldly at a genius of five nations beside him.

The five geniuses were taken aback, and said: "Gunan's assessment is very complicated. First, the pre-selection assessment will be conducted. Only those who pass the preliminary assessment can enter the arena and enter the final arena, and in the arena The person who wins will have the opportunity to pass on."

"What pre-selection assessment is messy."

The man frowned, his heart was impatient, and he threw a punch at the five-nation genius, "Haha, look, it's better to have a direct comparison like this."

boom!

However, this person's fist had not yet hit the opponent. Suddenly, a rainbow of light suddenly fell from the sky, and it instantly struck the Dawei Dynasty genius who shot his hand. Only after hearing a puff, the Dawei Dynasty genius broke apart and his body exploded. Broken and turned into blood mist.

This sudden scene shocked everyone, and looked at the disappearing Dawei Dynasty genius in amazement, with a fright flashing in his eyes.

A martial artist at the peak of the late stage of the heavenly ranks was so easily obliterated, making people feel frightened.

"What exactly is going on?"

The three great arrogances of the Dawei Dynasty who have never spoken, finally couldn't help but swept their eyes, with a cold tone.

"In the ancient southern capital, no one is allowed to do it privately before being assessed, otherwise he will be bombarded and killed on the spot by the power of the ancient southern capital."

There are people from the five nations, speaking in a low voice.

"Why didn't you talk about it earlier?"

The burly young man who had previously come from the same force as the slain man, sneered coldly, his eyes cold.

They hurt people with their hands, but they blamed the people of the Five Nations for not reminding them.

The people of the five nations suppressed their anger and said, "You don't ask yourself, and you want to do something to us, can you still blame us?"

"you....."

The burly young man had indifferent eyes, and a mere five-nation ant even dared to talk back to him. Could it be that he didn't dare to move him because of the barrier.

"Well, don't make any noise, what is this preselection assessment?"

Hua Tiandu's eyes were cold and interrupted the conversation between the two.

"I don't know this. The content of each pre-selection assessment is different. However, it is no wonder that the assessment of true energy, speed, strength, comprehension, etc. are all extremely common assessment content on the mainland." People speak.

Hum!

At this moment, an invisible force suddenly came, and the ancient Nandu, which had never been moving, finally shook, and black stone chambers suddenly rose above the square.

These black stone chambers are very peculiar, like a weird instrument, with an entrance and a spiritual lamp above the stone chamber.

"This look... is it a test of the true meaning of martial arts?"

"In this ancient southern capital, there is a test of the true meaning of martial arts. Is it really a relic before the dark age?"

"It is rumored that the test of the true meaning of martial arts can give martial artists a comprehensive understanding of martial arts. This is actually it!"

Except for Qin Chen, the crowd exploded, and everyone's faces were full of surprises.

Chapter 422

Not only the people on the square, but even outside the ancient Nandu, countless people from the Five Kingdoms and the powerhouses of the Dawei Dynasty showed an expression of surprise on their faces.

"Unexpectedly, the assessment this time turned out to be the assessment of the true meaning of martial arts."

"Unbelievable."

"Is it because the quality of the players this time is obviously better than the previous ones, that's why this martial art test appeared?"

Everyone present showed surprises on their faces. Obviously, this examination of the true meaning of martial arts was an extremely important examination for them.

Hum!

During the discussion, suddenly, an invisible force descended, and a human-shaped black shadow suddenly condensed above everyone's heads. This black shadow, like a god, looked down at everyone below.

This sudden scene made everyone stare and stare away.

"Welcome everyone to the Ancient Nandu Arena. I am the referee of the Ancient Nandu Arena." The black figure, unable to see his face, just a cold voice echoed on the square: "This competition is divided into three The first round of pre-selection assessment, the first round of pre-selection assessment-the true meaning of martial arts, I will select the first batch of 100 contestants and take turns to conduct the assessment. Only those who pass the first round of pre-selection assessment can enter the next round."

"Sure enough, it is an assessment of the true meaning of martial arts!"

"This black figure only appeared when it won the victory and entered the ancient southern capital to accept the inheritance. Why did it appear here directly this time?"

"It seems that this time the Gunan Metropolis Competition is indeed different from the past, unprecedented."

Among the five countries, some geniuses who have won the victory have seen this black figure. It only appeared when the inheritance was accepted. This time, it appeared directly on the pre-selection assessment. This shows the big comparison. , Is indeed extraordinary.

At this time, through exchanges, many powerhouses of the Dawei Dynasty also understood this, and smiled complacently on their faces.

"Hmph, we said long ago that this ancient southern capital remains in these five countries. It is really a waste. With the strength of the five countries, it is impossible to inspire the true level of this relic."

"Yes, listening to what these five countries said, in the five northwestern countries in the past 100 years, there has never been a scene where the will of the ancient southern capital has come directly, and as soon as the genius of our Dawei Dynasty arrives, the will of the ancient southern capital will come on its own. It can be seen that the ancient Nandu will recognize our Dawei Dynasty genius cultivation base before it will appear."

"I just said that these lowly people are not qualified to own such relics, and giving them to them is just a waste."

All kinds of ridicule voices are endless, making the people of the five nations irritable in their hearts, but they are powerless to refute.

As they said, in every previous Grand Tournament of Ancient Nandu, there has never been a phenomenon where the will of Gu Nandu directly descended. This time, when the powerful of the Dawei Dynasty came, such a situation appeared. This represented The content is indeed thought-provoking.

"Now that all the players have arrived, the first round of pre-selection assessment begins now!"

Buzzing buzzing...

As the voice of the black figure fell, from the sky, the next rainbow light descended directly, covering a hundred people on the field.

The colorful lights seemed to fall randomly. Many people from the Five Kingdoms and the Dawei Dynasty were selected, and Qin Chen was directly enveloped by that beam of light.

The first batch of one hundred people.

"Haha, I turned out to be the first batch to be selected. Young Master Dixin, Zongzi Liuxian, and Young Master Lengshu were also selected in the first batch. Does this Gunan think that my talent is in the top 100? "A genius of the Weitian Dynasty couldn't help but said excitedly.

"Hmph, I think you are thinking too much. Didn't you look at the five nations, have many people been selected?" Someone snorted coldly.

"Uh, okay, but I didn't expect that the relics of these five countries can be tested for the true meaning of martial arts, which is really unexpected."

"Yeah, I heard that this martial arts test can enable martial artists to comprehend the martial arts of all levels. Once passed, they will improve their perception of martial arts by a lot, and we have encountered them."

"The people of these five countries are really lucky."

Among the crowd, many people who have been selected are excited and full of expectations.

Only Qin Chen, confused and puzzled, looked at the black stone chamber in front of him. In his understanding, this pre-selection assessment should be a certain kind of competition or test, such as the control of Zhen Qi, body style, speed, strength, etc. , But what is the black stone room in front of him?

Seeing the clear and excited gazes of countless geniuses around, Qin Chen felt extremely depressed.

Born in the martial arts in the previous life, he was reborn a hundred years later, he didn't know the true meaning of the so-called martial arts? I have never heard of it before.

"All the selected people in the first batch, please come to the black stone room in front of each other and prepare for the test of the true meaning of martial arts."

At this time, above everyone's heads, the indifferent voice of black figures descended from the sky.

Everyone finds their own black stone room and stands in front of the stone room.

"Now, do you have any questions?" The cold voice, like a god, sounded again.

No one spoke.

A joke, the true meaning of martial arts, although many people present have not experienced it personally, they all know it very well. At this time, they can't wait to enter it, so there is no problem.

"Excuse me..."

Just when everyone thought the assessment was about to begin, a voice suddenly rang from the square.

Everyone turned their heads and looked, and saw Qin Chen standing in front of his black stone room, looking at the black figure with a puzzled face, and said: "What is the assessment of the true meaning of martial arts, and what are the assessment rules?"

Silence, the whole audience was silent for an instant. Everyone who occasionally looked at Qin Chen like an alien creature, they all froze there.

"Has this Qin Chen never heard of the true meaning of martial arts?"

"You're asking how to evaluate the true meaning of martial arts?"

"My God, is this person really a warrior in my Tianwu Continent?"

"Isn't he really an idiot?"

"Hahaha, I really laughed at me, there are people who don't even know the true meaning of martial arts."

The crowd was stunned, and immediately burst into a huge burst of laughter, all dumbfounded, speechless.

The essence of martial arts is a kind of assessment that has been widely spread in Tianwu Continent in the past 100 years. It is said that this assessment comes from ancient relics before a certain dark age, allowing a martial artist to experience from the first-order human level to the nine-day martial emperor. The infuriating composition.

Therefore, all warriors who have received this kind of assessment, regardless of the final result, will have an amazing improvement in the perception of true Qi, which is an assessment that countless warriors dream of.

However, this type of assessment is usually controlled by some powerful forces in the mainland. It is almost impossible for people from the Five Nations to accept this type of assessment.

Not only the Five Nations, but even the geniuses of the Dawei Dynasty, there are very few who have personally experienced the assessment of the true meaning of martial arts.

But this does not prevent them from understanding it.

Now, seeing that Qin Chen didn't even know the assessment of the true meaning of martial arts, it naturally attracted everyone's ridicule.

Chapter 423

"Is this guy really the genius of the Five Kingdoms? According to the truth, the genius of the Five Kingdoms shouldn't be an assessment of this ancient southern capital. Does he know this very well? How could this guy ask such a question?"

"I don't understand, I don't understand."

While many people ridiculed, they also felt extremely puzzled.

But the black figure did not have the slightest emotion. It just looked at Qin Chen quietly and said: "The true meaning of martial arts is an assessment of the martial artist's ability to understand true qi. After entering the black stone room in front of you, everyone's spirit strength, will be raised to the extreme, and then observe the change of true qi from human level to martial emperor level in an illusory space, and use mental power to control it. What tests the martial artist's control and understanding of the form of true qi ."

"The assessment of the true meaning of martial arts is divided into nine stages. Every time you pass a stage, you will proceed to the next stage. The magic lamp outside the black stone will show the number of assessment stages you are currently in, the first round of pre-selection assessment standards. It is to pass at least four levels. If you fail to reach the four levels, you will fail the assessment and will be moved directly out of the ancient southern capital. Do you have any questions?"

The black figure bowed his head. Although he couldn't see his facial features and didn't have eyes, Qin Chen could feel that the other party was staring at him.

"It turns out that it is such an assessment that allows the martial artist to observe various levels of zhenqi. No wonder these people are so excited."

Qin Chen nodded.

He finally understood the true meaning of this martial art and what the assessment was.

But there was still a doubt in his heart. He raised his head, looked directly at the black figure, and said, "Can you only comprehend the true meaning of martial arts to the level of Emperor Nine Heavens? Can you also understand the realm after Emperor Nine Heavens?"

Past life.

Qin Chen was originally an eighth-order martial emperor, and he knew the realm of the nine-day emperor, so he was not as excited as other geniuses.

And what he wanted to know most was the holy realm after Emperor Wu, which came from the remains of the ancient dark age, whether it could be simulated.

"puff!"

Upon hearing this, the audience laughed again.

Immediately one by one was speechless.

"You are a heavenly martial artist, thinking about whether the true meaning of martial arts can realize the realm of Empress Wu, right?"

"This guy, there is a problem in his mind. With his cultivation base, he can get to the fourth level. I am afraid it is already very impressive. Maybe he can't even pass the fourth level. He can't pass the pre-selection assessment. Worrying about things after the ninth level here."

"Are people from the five northwestern countries as arrogant as him? He just laughed out loud."

"I bet that this kid will not even pass the third level."

"I think so."

"Haha, hahaha!"

All of a sudden, the crowd exploded, ridiculing again and again, as for the many powerful dynasties outside the ancient southern capital, they even sneered and were speechless.

The land of the Five Kingdoms is very remote, and its development of martial arts is extremely general. It is said that the assessment of these five truths is extremely difficult. Then Qin Chen, who does not want to pass the pre-selection assessment, is actually considering what it will be after the nine levels. , It is really speechless.

Facing everyone's ridicule, Qin Chen was expressionless, just staring at the black figure above.

"The true meaning of martial arts can only be reached to the realm of Emperor Wu Tian, and you will not be able to comprehend it if you surpass Emperor Wu Tian."

The black figure said plainly, making Qin Chen regretful.

"If there is no doubt, then start the assessment."

With the announcement of the black figure, the stone chamber in front of Qin Chen and others opened automatically, and a group of people walked in.

In an instant, the scenery in front of Qin Chen's eyes immediately changed, and he fell directly into a vast expanse of white space. In this area, nothing could be clearly seen, but nothingness.

"This is, formation plus illusion?"

When he was puzzled, suddenly, the scenery in front of Qin Chen's eyes changed again. The air currents of different shapes, attracting and repelling each other, slowly appeared in front of Qin Chen.

After these air currents appeared in front of Qin Chen, they immediately blended and combined with each other, entwining each other, creating new air currents between each other, and violent conflicts occurred at the same time.

Qin Chen felt it slightly, and suddenly realized that his perception was limited to the level of a first-order human level. Compared with his previous fourth-order mental power, his perception ability was more than a hundred times thousands of times different.

"Limit everyone's perception to the human level, so that everyone's ability to control true qi is at the same level. In this way, it is clear how strong each warrior's ability to control true qi is. Up."

"Then, the air currents of various shapes in front of them should be first-order zhenqi."

With a thought in his mind, Qin Chen immediately controlled the true energy in front of him and merged with each other. Only two of the airflows merged with each other, and a violent conflict broke out immediately. Every scene in the conflict between the two airflows was incomparable. Clear, as if magnified countless times, appeared in Qin Chen's perception.

"This...this is... the microscopic manifestation of the mutual reaction between Zhen Qi particles!"

Qin Chen was shocked, his eyes rounded.

"It turned out to be like this, it turned out to be like this. Every true qi is composed of particles with one or innumerable attributes, and the process of fusion and confrontation of true qi is the combination and confrontation of various true qi particles, but , The true microscopic performance of Zhen Qi is impossible for any warrior to see, but in this stone room, everyone can intuitively understand the operation of human-level Zhen Qi. This ability is terrible. It turns out that this is martial arts. No wonder those geniuses before were so excited."

Qin Chen was shocked, even he couldn't achieve this kind of ability.

Being able to watch the movement of Zhen Qi intuitively had a huge effect even for Qin Chen.

With Qin Chen's shock and uncontrollable perception, there was a hint of chaos in the real energy in front of him.

"Om!"

Outside the black stone room where Qin Chen was, the originally dark lamp suddenly flickered.

Except for Qin Chen's black stone room, there was no change in the rest of the stone room, so the first change occurred and immediately attracted the attention of everyone around.

All were taken aback.

"No, Qin Chen can't do it so quickly?"

"The change of the spirit lamp means that the true energy inside is controlled, and there is an accident. This Qin Chen can't even control the human-level true energy, right?"

"Hahaha, just this guy, I asked what will be after the nine levels before, puff, you see, two minutes have passed, he is the only one who made a mistake in the entire square, it is a laugh."

"Haha, hahaha!"

There was a big laugh from the crowd, and the others quickly slid across the square. As expected, except for Qin Chen, there was no problem with the black stone chamber of the others.

Chapter 424

Where the Great Qi Kingdom was located, Xiao Zhan's brows suddenly wrinkled, and there was worry in his eyes.

According to reason, with Qin Chen's strength, at the human level, it is impossible to have an accident.

But now, no one else has any problems, but Qin Chen's stone room is lit up with a spiritual lamp, which obviously means that in the stone room, Qin Chen has a problem with his control of human-level true energy.

"It should be just an accident."

Xiao Zhan shook his head. He didn't believe in Qin Chen. What problems would happen at the human level. In his opinion, with Qin Chen's talent, even if he broke into the profound level, it would be fine. How could he fail the assessment at the human level?

It's just that Xiao Zhan is so confident that others may not think so.

One after another mocked.

Moreover, they are also very puzzled, to what extent the control power of a heavenly martial artist is so low that it can't even control the innocence of the human level.

This is totally unreasonable.

"Actually, I heard that this Qin Chen was originally a waste that couldn't even awaken his bloodline. It was only a few months ago that he suddenly awakened his bloodline, his cultivation base advanced by leaps and bounds, and with the help of the blood spirit pool, he became human in one fell swoop. Break through to heaven."

There were people from the Five Nations who knew Qin Chen's details, whispering in secret, immediately attracted everyone to a sudden.

"No wonder you can't even control the human-level true qi. In a few months, you have broken through from the human-level to the heaven-level. Such progress is tantamount to facilitating growth, and the foundation must be unstable."

"These five northwestern countries are really poor and remote, and they don't even understand the truth. They did such a thing."

"Warrior breakthroughs, such as stumbling steps, need to be done step by step. Taking a large number of breakthrough pills will help them. Although it can make a breakthrough in the cultivation of the warrior in a short period of time, it is not the king's way after all. It will only appear in this situation."

"Just like this Qin Chen, even though he is a heavenly level, he can't control even a human-level innocence."

"Look, this person may not even be able to break through the first level, and he will be eliminated immediately."

"Haha, hahaha!"

The crowd talked and ridiculed, especially those of the Dawei Dynasty, who had a strong sense of superiority.

Qin Chen, who was in the black stone room at this time, naturally couldn't hear everyone's discussion, his body was entering a peculiar state at this moment.

"The fusion of true Qi is actually the process of fusion between particles. The fusion of particles with different attributes naturally consumes more energy and may even cause conflicts, but as long as the balance between the two is controlled, even They are two utterly conflicting true qi, and they can also reach a stable state."

Qin Chen concentrated his mind, staring at the void space in front of him, and his mind was empty. Under his control, his powerful mental perception quickly combined the primal energy particles in different shapes and conflicting with each other, like Stroking a familiar thing that can no longer be familiar, the whole movement is full of beauty.

Although Qin Chen in the previous life had reached the realm of the eighth-order martial emperor, he had an incomparably amazing control over the true energy of the human level.

However, it is still incomparable with the current scene.

The scene in front of people directly observing the microscopic performance of Zhen Qi particles gave Qin Chen a more intuitive understanding of Zhen Qi's control.

At this moment, he was completely intoxicated and integrated into the reaction between the true energy. Each step was combined with Qin Chen's original understanding, one by one confirmed and complemented each other.

If Qin Chen in the past had reached a peak in his control of True Qi, then Qin Chen now has a more thorough understanding on top of this so-called peak.

In the past, I knew it, but now I know it.

In an instant, every strand of True Qi in the entire black stone chamber was driven like an arm. No matter how many strands appeared, it was skillfully controlled by Qin Chen. Every step of the fusion reached the most perfect state, becoming Qin Chen's proof of truth. An experiment of qi attributes.

Outside, those who wanted to see Qin Chen's jokes were extremely disappointed at this time.

"Hey, Qin Chen actually stabilized."

"Tsk tusk, it seems impossible to see him fail in the first level."

"Hehe, I think too much, no matter what, this person is also a heaven-level martial artist, and he won't even be able to control the human-level innocence."

"That's the case, but based on this person, he wants to challenge Liuxian Zongzi, and he doesn't know whether he lives or die."

The crowd sneered.

suddenly--

beep!

During the discussion, there was a soft sound, and a spiritual lamp was lit on all the black stone chambers.

The first pass, all passed.

In the black stone room, the scene in front of Qin Chen changed, and the perception of the whole person also suddenly improved.

The zhenqi in front of him has obviously become much stronger.

"This is... Earth-level true energy?"

The earth-level true energy is obviously stronger than the human-level true energy, and the power between the true energy particles has become even more terrifying.

Qin Chen fell into sentiment once again, and the whole person blended into the scene in front of him, analyzing and understanding the essence of Earth-level Zhenqi.

After entering the Earth-level Zhen Qi, there were people immediately, and they entered a state of error.

Although those who can enter the ancient southern capital are all martial artists above the sky level, not all martial artists at the sky level have the ultimate control over the true energy of the earth level.

"Hey, it was not Qin Chen who made the mistake first, but the warriors from the five northwestern countries."

"What's the matter, then Qin Chen can't completely control the popular zhenqi, why didn't he make a mistake at the earth-level zhenqi?"

The crowd was stunned, unable to understand one by one.

"Don't worry, this person will make a mistake immediately."

Someone sneered.

However, the ending disappointed him.

By the end of the second level, more than a dozen people made mistakes, but Qin Chen never made any mistakes.

Enter the third level.

The difficulty immediately increased sharply.

In an instant, at least twenty people made mistakes.

"The third level of zhenqi is heaven-level zhenqi. Among the hundred martial artists that are being evaluated, at least half of them are only tian-level fighters. Therefore, the control of heavenly-level zhenqi naturally did not reach the limit. Mistakes are also normal."

"Now it's up to them to see how far they can go."

When the third level was reached, the people on the square and outside Gunan Capital immediately became nervous.

The first two levels, the probability of being eliminated, is extremely low, and this third level will be a demarcation point. Once passed, the first assessment will be completed. Once it fails, it will be eliminated directly. The assessment.

Under the attention of everyone, a series of whining sounds rang, and soon, the number of people who made mistakes climbed to nearly fifty. There were hundreds of black stone chambers on the court, and nearly half of the spiritual lamps flashed crazily.

What makes everyone wonder is that Qin Chen, who made a mistake in the first level, has not made a mistake yet.

Depressed.

boom!

A huge voice came from the side of the square, a black stone room suddenly opened, and a genius of the Five Kingdoms walked out of the black stone room embarrassedly with a frustrated expression.

Hum!

As soon as this person was eliminated, an invisible force enveloped him, and his whole person instantly disappeared on the square.

Chapter 425

"Patter!"

He fell heavily on the open space outside the ancient southern capital, and the eliminated warrior looked at the black figure above his head with a dazed expression, extremely depressed.

Although he was eliminated, Gunan was not so anxious to send him out, so he was not prepared at all.

"Then Qin Chen was not the first to be eliminated? Is this... too lucky, right?"

"Who is this guy? Among the five nations, there is actually someone who has control over Zhen Qi, weaker than Qin Chen?"

"It's a waste."

The warrior of the Dawei Dynasty looked at the eliminated warrior with a depressed expression.

What they want to see most is Qin Chen's jokes, how can they not be annoyed when they are destroyed by such a guy?

Hearing that the eliminated person felt even more depressed, he almost vomited blood.

But he didn't dare to say half a word, so he could only be desperate and return to his own power.

At this time the ancient southern capital is in the middle.

As soon as the previous person was eliminated, a beam of light immediately landed, relocking to a warrior.

Under the command of the black figure, the warrior entered the black stone room and began a new assessment.

There are only one hundred black stone chambers on the field, but there are as many as six hundred warriors who need to be assessed.

Therefore, once someone is eliminated, a new warrior will enter the black stone room until everyone is over.

"Since someone has been eliminated, then Qin Chen should be coming soon."

Everyone once again looked at the black stone room where Qin Chen was located. What made them depressed was that the stone room where Qin Chen was located, let alone being eliminated, did not even make a mistake at this moment.

Everyone wondered, Qin Chen couldn't control even the human-level innocence, how could he have such a high control over the heaven-level innocence?

There have been no mistakes so far.

You know, at this moment, there are more than 60 warriors who have made mistakes in the entire square, and even this number is gradually rising.

Those who can persist until there are no mistakes are basically only the top geniuses of the Dawei Dynasty such as Hua Tiandu, Leng Wushuang, and Ditianyi.

Bang, bang, bang...

In the midst of everyone's doubts, a series of roars once again sounded in the square, and several players were eliminated.

As soon as these people were eliminated, it was like a domino that had been overthrown. On the square, one after another roars suddenly sounded. In the end, one after another, players were eliminated.

However, people did not pay attention to the eliminated players at all, and they still focused on the black stone room where Qin Chen was.

What disappointed them was that the spirit lamp outside Qin Chen's black stone room was always on for the third pass, and the rest remained unchanged.

Finally, after knocking out more than forty people, all the lights on the black stone chamber changed and turned into the fourth level, leaving all the players to enter the fourth level.

"No, did Qin Chen actually pass the third pass?"

"Am I dazzled?"

"Then Qin Chen's character shouldn't be so good that he is too lucky, can this pass the first round of assessment?"

Everyone was stunned.

According to the requirements, in this first round, you only need to be able to enter the fourth level of the truth of martial arts to be considered as passing the assessment.

At this time, of the 100 warriors who participated in the assessment before, there are still 57 people left at this moment. All these 57 people have entered the fourth level. In other words, these 57 warriors are eligible to enter the ancient times. Nandu's second round of assessment.

"Perfectly enter the fourth level, why did Qin Chen make a mistake in the first level before?"

Everyone looked at the black stone room where Qin Chen was in amazement, and murmured in their mouths.

Before, they were still laughing at Qin Chen, but now, many people have faintly felt something wrong.

Since the mistake in the first level, Qin Chen has shown perfect conditions in the second and third levels. People don't think that Qin Chen can pass these three levels because of luck.

Especially this third level represents the true energy of the heavenly rank. Even some veteran late-stage peak martial artists can't say that they will be able to control the true energy of the heavenly rank to the extreme, and Qin Chen has not made any mistakes. This is obviously unreasonable.

People are constantly being eliminated, and people are constantly entering the black stone room. The entire square is extremely lively, but everyone is still paying attention to the black stone room where Qin Chen is.

"It's all to the fourth level, the profound level true energy realm, should I be eliminated?"

"Bang, bang, bang..."

The fourth level represents the profound energy of the profound level. For the vast majority of the sky-level warriors on the field, the difficulty has been increased several times in an instant. Only a series of roars continue to be heard, and people are constantly eliminated from the black. Step out of the stone room.

However, although they were eliminated, they were not sent out, but remained on the square.

"Is that the feeling of Profound-level true power just now? It turned out to be such a process when true qi broke through to true power."

After You Qianxue and others were eliminated, their eyes flickered and they were excited.

After passing the test of the true meaning of martial arts, although they could not persist in the fourth level, they knew the feeling of true power and the nature of the operation of true power.

The cultivation bases of most of them are stagnating at the peak of the late stage of heaven. For them, the real difficulty is that they don't know how to transform their true energy into true power.

But now after passing the test of the true meaning of martial arts, everyone is ecstatic in their hearts, as if they have received countless inspirations.

Suddenly, there was even an urge to break through on the spot.

Immediately sitting cross-legged one by one, closed his eyes and rested, and entered the cultivation.

Ever since, in the entire square, all the geniuses who were eliminated in the fourth pass, they all sat cross-legged and closed their eyes to practice, which was spectacular.

With the continuous elimination of a famous genius, after a while, only a dozen players remained in the first batch of players in the entire square to enter the black stone room.

These more than ten people have basically reached the fourth-order mysterious level, and most of them are geniuses from the Dawei Dynasty. As for the geniuses of the Five Kingdoms, there are only two or three.

At the same time, in the black stone room where these more than ten people were located, except for the four stone rooms, the spirit lamps outside almost all flashed crazily. Obviously, it was a series of mistakes that could be eliminated at any time.

Of these four stone chambers, there is no doubt that three of them are Di Tianyi, Hua Tiandu, and Leng Wushuang, and one is Qin Chen that no one can imagine.

"How is it possible that even many of the early and even mid-stage geniuses of our Dawei Dynasty have made a lot of mistakes in this fourth level, Qin Chen is still perfectly controlled?"

"He is a heavenly martial artist, how did he do it?"

Looking around, apart from Qin Chen, the others broke into the fourth level, and those who have not been eliminated so far are all mysterious geniuses.

But Qin Chen, a heavenly martial artist, was able to persist until now, leaving everyone stunned.

incredible.

Chapter 426: Bright Blind Eyes

"beep!"

In the shock, before he had time to react, he heard a soft sound.

In the black stone room where more than ten people persisted in the fourth level, suddenly the lamp flashed and entered the fifth level at the same time.

"hiss!"

The sound of air-conditioning was inhaled, and it sounded again and again, and everyone in the audience was shocked.

The fifth level represents the true power of the clan level. These more than ten people can enter the fifth level, indicating a problem, that is, the control of the profound level of true energy by these more than ten people has reached an extremely terrifying At the point, although it is not perfect, at least, it is already seven or eight.

And these more than a dozen people, all of them were from the mighty dynasty, the top geniuses of the major forces, and none of them were warriors weaker than the mid-Xuan rank peak.

Except Qin Chen!

Qin Chen was like a monster, becoming the only heavenly martial artist among the dozen people, and even entered the fifth level in a perfect state.

Toot toot...

Upon entering the fifth level, the spiritual lamp outside the black stone where the more than ten people were flickering crazily.

Then, a famous genius, crazy was eliminated.

When they were in the fourth level before, they were already very struggling, and they barely entered the fifth level.

Now as soon as you enter the fifth level, the difficulty suddenly increases, and a lot of mistakes are made immediately, and they are eliminated one after another.

"Zong-level true power is very different from Xuan-level true power. Wuzong and Wuzong are martial arts masters, and not everyone can easily reach them."

Many clan-level powerhouses in the Dawei Dynasty sighed in the square, which attracted a lot of approval.

"However, it is already extremely difficult for them to enter the fifth level of the true meaning of martial arts with a profound level of cultivation. For them, this is a precious experience. With this, they can enter the realm of Wuzong in the future and save money. A lot of effort will save at least a few years of hard work."

"It seems that it won't be long before we Xuanzhou, there will be a few geniuses of the clan level. At that time, it will definitely be a blockbuster in the entire Dawei Dynasty."

"Unexpectedly, there is such an amazing relic in the land of the five countries. It is really a worthwhile trip."

Immediately, everyone was shocked and discussed.

"It's been so long, so why hasn't Qin Chen been eliminated?"

At this time, a depressed voice suddenly sounded.

Everyone looked up and saw that there were only a handful of martial artists staying in the fifth pass on the square. They were Liuxian Zongzi Hua Tiandu, Leng Shu Gongzi Leng Wushuang, and Emperor Xin Young Master Di Tianyi. , And-Qin Chen!

And these four people are still in perfect shape

"What's the matter? It's been so long since the fifth level, so why didn't Qin Chen make any mistakes?"

"Yes, it's normal for the young master of Emperor Xinxin to maintain perfection. The three of them are the three great arrogances of our Xuanzhou. As long as they are in good condition, it may not be impossible, but Qin Chen..."

Everyone was confused and could not understand.

At this time, they were no longer simply questioning Qin Chen from places like the Five Great Kingdoms, but a heavenly powerhouse, facing the control of Zong-level True Qi, it was impossible for them to maintain perfection. Things.

When a martial artist breaks through the profound level from the sky level, the power in the body will be transformed from true energy to true power, and from the profound level to the sect level, it is necessary to control the true power to become superb.

Qin Chen is a heavenly martial artist who has not even reached the profound level. He still has true energy in his body. How to master the true power of the sect level so proficiently is simply impossible.

There must be something wrong.

"How long can Qin Chen remain perfect?"

Now they are only concerned about when Qin Chen made a mistake and was eliminated

All the audience in the audience focused on the black stone room of Hua Tiandu, Leng Wushuang, Di Tianyi, and Qin Chen. I want to see how long these four people can hold on. As for the other black stone rooms, basically No one is paying attention anymore.

As time passed, the four of them were still in perfect condition in the black stone room.

"Perfect, or perfect!"

After a few minutes, almost all the audience were waiting for Qin Chen to make a mistake, but no matter how much they waited, the instrument on which Qin Chen was still lit was a perfect spiritual

lamp. Suddenly, the hearts of these audiences could not help but be excited again. There were waves of wonder.

how can that be?

Even the leaders of the three top forces frowned and looked at the black stone room where Qin Chen was, feeling unbelievable.

Di Tianyi and the others are already Xuanzhou's geniuses, even in the entire Dawei Dynasty, they can be called top geniuses, but they are all due to the later stage of the profound level cultivation base, and they can persist until now.

But Qin Chen? He was at least a few years younger, and his cultivation was even more rubbish, but he was able to maintain the same grades as Di Tianyi. What's a joke?

Even the most defying arrogance of the Dawei Dynasty, I'm afraid it can't do that?

"Beep!" Just when everyone was depressed and confused, a blunder came into everyone's ears.

"Haha, let me just say, then how can Qin Chen remain perfect all the time." Suddenly a loud shout came from the crowd.

"Haha, that kid finally made a mistake, huh, yes, how can he be compared with the young masters of Emperor Heart, a young man from Five Nations.

Some viewers let out a long breath of relief, and couldn't wait to talk.

"Well, it seems that Master Leng Wushuang who made the mistake just now..." A weak voice came from somewhere in the crowd.

"Leng Wushuang? Impossible, what are you kidding about, Master Leng Shu is a genius genius from Tianheng Academy, how could he be the one who made the mistake."

"Yes, yes!" Everyone made a disdainful voice at the man, and then looked up at the square, with a look of contempt for that man on their faces.

But after they saw the scene on the square, everyone's expressions froze instantly, and each one stood there dumbfounded, and Shihua was on the spot.

The spiritual lamps outside the square, Ditianyi, Huatiandu, and Qin Chenshi were still in perfect condition, but outside the unparalleled stone house, the lamps began to flicker crazily.

"how is this possible!"

Everyone was like a ghost, and felt incredible. Even Master Leng Wushuang had made a mistake, and Qin Chen was still perfect. How could this be possible.

Just when everyone was shocked, another blunder came.

"Fortunately, fortunately, Qin Chen made a mistake behind Young Master Leng Shu, luck, it must be luck.

Everyone breathed a sigh of relief, but found that the perfect spiritual lamp outside Huatiandu Stone flashed in the next moment, but the spiritual lamp outside Qin Chenshi remained in perfect condition.

Before he had time to react, another blunder sounded, and the spiritual lamp outside the Emperor Heart Young Master Di Tian Yishi also began to flash.

In the square, except for Qin Chen's stone room, which was still perfect, the stone outdoor spiritual lights of the three great arrogances of Xuanzhou flashed crazily.

It's so glaring.

Brighten everyone's eyes.

Chapter 427

At this moment, everyone was petrified, completely stunned, as if a crash.

Some people even rub their eyes desperately, unable to believe the scene before them.

The three great arrogances of Xuanzhou all made mistakes, and Qin Chen could not make a mistake, this...

What a joke about the mainland.

Doesn't it mean that Qin Chen's talent is actually higher than that of the young masters of Emperor Heart?

This is simply impossible, not to mention that Qin Chen came from the five countries, and the young masters of Emperor Heart came from the top forces of Xuanzhou of the Dawei Dynasty.

Only Qin Chen is only a Heavenly Powerful, this is completely unexplainable.

Think about it, a heavenly powerhouse from the five countries, in the control of true Qi, unexpectedly surpassed the three mysterious late-stage genius powerhouses in Xuanzhou of their mighty dynasty.

This.....

No matter how you think, I feel incredible.

There must be something wrong.

Thinking of this, many geniuses in the Dawei dynasty were excited, and a possibility emerged in their minds.

"It won't be the black stone room where Qin Chen is located. Something went wrong, that's why it's like this?"

Someone said suspiciously.

As soon as these words came out, everyone shook their bodies and nodded like a chicken pecking at rice, and their pale expressions became radiant again.

"Yes, this must be the reason."

"Haha, I'll just say, how could Qin Chen persist until now, if something goes wrong in the black stone room, then it can be explained."

"It's him, with his cultivation base, no matter what it is, it is impossible to rush to this fifth level of sect level real power, and there is no mistake at all."

"He is a heavenly martial artist. He actually made a mistake in the first level. On the contrary, he has not made any mistakes at all. This is not in line with common sense."

"Yes."

Everyone nodded one after another, and their complexions were ruddy, as if a big rock had been dropped in their hearts, one by one relaxed.

It was really scary just now.

Thinking that Qin Chen's talent was higher than that of Young Master Dixin, it seemed that he had just stepped on **** luck and entered a problematic black stone room.

If this ancient southern capital was really a relic before the dark age, it might have been more than tens of thousands of years.

After such a long time, even if it is a high-tech thing, it is normal for something to go wrong.

With so many black stone chambers on the field, one of them had a problem with the passage of time, which was normal.

One by one, calm and relaxed, smiling and talking.

On the side of Great Qi State, Xiao Zhan was puzzled.

What's wrong with the black stone room?

Seeing the so determined appearance of many powerful men in the Dawei Dynasty, he was also a little skeptical.

He knew Qin Chen's talent very well, if he said that Da Qi was the first country, it would definitely be no problem.

However, he himself is not very confident when he can fight against the Tianjiao of Xuanzhou of the Dawei Dynasty.

I can only suppress my doubts and keep watching.

At this time, there was a series of roars on the field one after another.

The remaining ninety-six black stone chambers are constantly being entered, some are eliminated, and some are entered, which is full of excitement.

But no one paid attention, everyone's eyes were focused on the black stone room of Qin Chen's four, wanting to see how far they could go.

"Hold on, you must hold on. If you can enter the sixth level, even if you are eliminated, it will be of great benefit to you in the future."

"Young Master, you must hold on."

The leaders of the three major forces of the Dawei Dynasty, all of them looked nervous, clenched their hands, and felt nervous.

Although it was already an astonishing performance to enter the fifth sect level with the cultivation base of the profound level, they hoped that Di Tianyi and the others could enter the sixth sovereign level assessment.

For geniuses like Di Tianyi and the others, being able to spy on the true power operation of the sixth-order noble-level realm at the mysterious stage is almost irreplaceable for their benefits, allowing them to lead to the strong in the future. On the road, the walk is more smooth, with almost no obstacles.

As if hearing the prayers of the people, there was a beep on the square, the black stone room where the four of Di Tianyi were located, all the spiritual lights outside were lit, and at the same time, they passed the fifth pass and entered the sixth pass.

"It's great, it's really great, finally reached the sixth level."

"Senior, this is the perception of the sixth-order superior realm. Unfortunately, I can't participate in the assessment. Otherwise, it can give me a sense of life. I will be willing to die for ten years."

"The young master made a lot of money this time."

The leaders of the three major forces in Xuanzhou, trembling with excitement and flushing, were about to climax.

Can't tolerate them not being excited.

After this assessment, if there are no accidents, Ditianyi and the others will have a great possibility of entering the realm of noble level within twenty years. What does this mean?

In the Dawei dynasty, Tier VI was already a top powerhouse, even for a large force like Emperor Heart City, it was a force that was hard to ignore.

The rest of the powerful dynasty that I saw were all embarrassed and jealous.

If they enter the sixth level, how good their genius should be, it's a pity...

They are excited, but the situation on the court is not optimistic.

The ear-piercing screams kept ringing, and as soon as Ditian and the others entered the sixth level, the spirit lamp outside the black stone flickered frantically. Obviously, it was extremely difficult to control the real power of the noble class, and there were a lot of mistakes in the first instant.

But the black stone room where Qin Chen was located was still so balanced, still maintaining a perfect state.

"Haha, needless to say, there must be a problem with the Martial Dao True Essence Assessment Stone Chamber."

"A celestial martial artist, no matter how talented it is, it is impossible for him to make no mistakes in the evaluation of the true power of the sixth-order noble level."

"Don't say it's Xuanzhou. Even the entire Dawei Dynasty, even the vast continent outside the Dawei Dynasty, can't have such a genius."

Everyone was completely relieved, extremely relaxed, and there was no more worry.

Thinking that I was shocked by the fact that the kids from the five countries have been perfect all the time, thinking about it now, they all want to laugh.

It turned out to be a malfunction in the assessment room.

For a while, all the audience in the audience did not pay attention to Qin Chen, but they all stared at the stone room where Di Tianyi and the three were located, wanting to see who it was, who was the first to be eliminated, and who it was, and they would persist until the end.

boom!

Without letting everyone wait for a long time, after a moment, there was a roar, and then the stone room where Master Leng Shu Leng Wushuang was, suddenly opened.

"It turns out that Master Leng Shu was the first to be eliminated. It seems that Master Leng Shu is still a little bit behind the Emperor Heart Young Master and Liuxian Zongzi in terms of real power control."

Everyone sighed.

After Leng Wushuang came out of the stone room, his eyes fell on Di Tianyi and their black stone room for the first time. After seeing that Di Tianyi and Hua Tiandu had not been eliminated, his face suddenly became a little embarrassed.

"Damn it, I was the first one to be eliminated."

Leng Wushuang gritted his teeth and said in secret.

Suddenly, his gaze caught a black stone chamber on the side.

"This....."

Eyeballs are round, and the whole person is like a thunderstorm, dumbfounded!

Chapter 428

I saw that in addition to Di Tianyi and Hua Tiandu's black stone room, there were people who had reached the sixth level in this martial art test, and they were still in perfect condition.

how is this possible.

Among these geniuses, how could someone have a cultivation base that was even stronger than him, Hua Tiandu, and Di Tianyi. This is totally unreasonable.

Which genius is it?

Frowning, Leng Wushuang frowned in thought.

"That stone room..."

Suddenly, as if thinking of something, Leng Wushuang's eyes widened, his expression even more startled, as if he was constipated.

Isn't that position the same boy among the five nations who fought against Hua Tiandu and Di Tianyi before? However, that young man is obviously just over a dozen years old, and he is a talented cultivation base, right?

Before Qin Chen fought against Hua Tiandu and Di Tianyi, Leng Wushuang hadn't paid attention to it, so after thinking about it carefully, he remembered that the black stone room seemed to be where Qin Chen was, and the whole person was completely messed up in the wind.

What exactly is going on?

In shock.

"boom!"

At this moment, there was another roaring sound, and the spirit lamp outside the stone room flashed wildly. The stone room where the immortal Zongzi Hua Tiandu was kept making mistakes, there was also a loud bang, and then, full of annoyance, with The excited Hua Tiandu also walked out of the black stone room.

As soon as he came out, he saw Leng Wushuang standing there stupefied.

Seeing that the opponent was eliminated earlier than himself, a triumphant smile suddenly appeared on his annoyed face.

But immediately after seeing that Di Tianyi hadn't come out, his expression suddenly became difficult to look.

Turning his head and looking at Di Tianyi's black stone chamber, it was true that the black stone chamber where Di Tianyi was located flashed wildly, but it had not been eliminated.

"Damn, this Di Tianyi is really lucky, he hasn't been eliminated yet."

His face was gloomy, and Hua Tiandu felt depressed.

Immediately, he cast his gaze and happened to see the black stone room where Qin Chen was. He was taken aback for a moment, and immediately his mouth opened wide, as if he had seen a ghost.

"boom!"

At this moment, the explosion sounded, and the black stone chamber where Di Tianyi was located also made a loud explosion, and then, Di Tianyi walked out of the black stone chamber with an annoyed expression.

The first action he made, like Leng Wushuang and Hua Tiandu, was to look at the black stone chamber of the opponent.

Seeing that both Leng Wushuang and Hua Tiandu had already left the stone room, their eyes suddenly brightened after they were obviously eliminated.

"Two, it seems that you came out earlier than me, haha, hahaha!"

Di Tian laughed, his face full of triumph.

From Di Tianyi's point of view, among all the martial artists, Hua Tiandu and Leng Wushuang, both of the late Xuan rank stage, were his opponents. Now that the opponent was eliminated earlier than himself, then he should be the worthy number one.

"Oh, this sixth level is really too difficult. The Zenith particles are too powerful and complicated, and they collide with each other too fast. If I can hold on for a while, maybe I can enter the seventh level. Guan, that is the realm of King Wu, and the true power in the body is beginning to transform into true essence. If you can understand this process, it will have an infinite impact on my future. Unfortunately, I failed to grasp the opportunity.

Di Tianyi was both excited and regretful.

But the corner of his eyes was filled with triumphant smiles.

It is extremely rare to be able to break into the sixth level, and to persist until now, it is just a dream to break into the seventh level, and he himself knows that it is impossible to achieve.

However, he was the last of the three to come out. This is enough to make him proud of Hua Tiandu and Leng Wufang for a long time.

Glancing at the two triumphantly, Di Tianyi was just about to accept the excitement of the crowd and the angry and depressed eyes of the two.

However... the answer to him was a strange silence!

All the warriors on the scene, as well as the powerhouses outside Gu Nandu, as well as Leng Wushuang and Hua Tiandu, all craned their necks and stared at his back, as if he had seen a ghost.

What's the situation? I have come out of the black stone room, what are they looking at?

Di Tianyi was depressed.

These guys, won't be stupid by yourself?

Can't help but turned his head to look.

At this look, he was dumbfounded, his expression immediately became the same as Hua Tiandu and Leng Wushuang, and his eyes almost burst.

Not far behind him, a black stone chamber was shining with a spiritual lamp representing the sixth level, and it was still in a perfect state without any mistakes.

Di Tian suffered endless blows in an instant.

Who is in this black stone room? Even he failed, why is there still someone being tested inside? And, in the sixth level, it can still be perfect?

Di Tianyi's brain stopped functioning for an instant, and he woke up after a while, recalling the location of the black stone chamber in his mind, and a clear face gradually emerged in his mind.

Di Tian opened his mouth suddenly, his eyes widened, a trace of horror and disbelief appeared in his eyes, and he murmured: "Qin Chen, that black stone chamber, isn't that kid from the Five Kingdoms? How could it be him? ?"

The mind was violent, and the depressed people were about to vomit blood.

Even a genius of the late Profound Rank had failed, and the stinky brat of the Five Kingdoms was still insisting.

This is simply incredible. He would rather believe that a sow got on the tree than he would believe what was happening in front of him at the moment.

That is to say, in such a dead silence, I don't know how long it took, the black stone chamber where Qin Chen was located suddenly changed.

"call....."

This change has just happened, and Di Tian breathed a long sigh of relief instantly, and his extremely nervous face also showed a relaxed and relieved expression.

"It made a mistake, that guy finally made a mistake."

"Since we made a mistake, we are not far from failure."

"But, how can this kid persist until now?"

Just when everyone was talking about it, they all breathed a sigh of relief.

With a beep, a familiar call sounded in the audience, and the black stone room where Qin Chen was located, from the original sixth level, suddenly entered the seventh level.

"I....."

At the same time, everyone suddenly rounded their eyes, and stood there with a sigh of relief. There was a oozing creak in their throats, and they were completely stupid on the spot again.

"puff!"

Di Tianyi couldn't bear it completely, and a mouthful of old blood spurted out.

At this moment, everyone was going crazy, Qin Chen entered the seventh level, how to look at it, how to look like a fairy tale, how could this happen.

"Sure enough, there is definitely something wrong with this black stone chamber. Apart from this, there is no second possibility."

At this moment, outside the ancient southern capital, noisy discussions came, making Di Tianyi and the others completely awakened, one by one.

Yes, it is a fault, it is definitely a fault.

Di Tianyi and the others quickly recognized this fact.

This definitely didn't run properly, otherwise, how to explain what happened before me?

can not explain!

Chapter 429 The Eighth Level

The seventh level, what concept is this, none of the people present knows!

They only know that since the examination of the true meaning of martial arts appeared on the mainland, whether it is the Dawei Dynasty or the higher forces that the Dawei Dynasty can reach, they have never heard of that there can be martial artists, and they can break into the realm of heaven. To the seventh level of the truth of martial arts.

Not to mention the heaven-ranked martial artist, even the Xuan-ranked martial artist has never heard of someone who can break into the seventh level.

This is the seventh level, representing the real Yuan control of the seventh-order Wuwang realm.

The cultivation of martial artists, from the first to the third, is true energy, the fourth to sixth, it is true power, and when you break through to the seventh step, the true power will be transformed into true essence. This is a completely different realm and concept, across An oversized level.

When the true power is transformed into true essence, everything in the martial artist's body will be transformed. The true essence in the body is almost endless. Therefore, the seventh rank represents the king of the martial artist.

That's why he was called King Wu.

It can be said unceremoniously that before touching the realm of Dao, let alone Qin Chen, a third-order heavenly martial artist, even a sixth-order martial master, even a sixth-order peak martial master, don't even think about it. Can easily break into the seventh level and try to control the true yuan.

This is a taboo area.

But now, Qin Chen of those five countries not only broke into the seventh level, but after entering, he was still in a perfect state without any mistakes.

This is simply impossible.

"It must be a fault, there is no second possibility."

"Yes, since the examination of the true meaning of martial arts appeared, there has never been a genius at the heavenly level on the mainland, who can break into the seventh martial king level."

"However, why didn't the remaining will of Ancient Southern Capital judge Qin Chen directly as the loser?"

"Perhaps, that black figure is just a remnant of will, monitoring the progress of the assessment, but has no autonomous consciousness, so I didn't realize this. When Qin Chen finishes the assessment, he might feel it."

"Hehe, if Gu Nandu will decide that Qin Chen's assessment result is invalid at that time, I don't know what expression the Five Nations will have."

At this time, all the powerhouses of the Dawei Dynasty were completely relieved and no longer worried.

Before, when they entered the sixth level, although they thought that the black stone room was malfunctioning, in fact, deep down, they were still a little worried.

What if Qin Chen really reached the sixth level by strength?

But now, this worry is completely gone.

why?

This still needs to be asked, there is no one in this world, who can break into the seventh level of Wuwang at the third-order heaven level, and has not made a mistake.

He did not have a powerful dynasty, nor did he have higher-level forces on the mainland, let alone a land of the Five Kingdoms, a land of poor mountains and waters.

"Hehe, it turned out to be a malfunction, which shocked me a lot."

"I thought that Qin Chen really got to the sixth level. I was really confused. I thought it was impossible."

Di Tianyi and the others were also completely relieved.

After learning that the black stone room where Qin Chen was in a malfunction, Di Tianyi's triumphant expression surged again, and he looked at Hua Tiandu and Leng Wushuang proudly, his eyes filled with triumph.

"It just persisted for a while, there is no need to be so excited."

"People who don't know, thought you broke into the seventh level."

"In the following assessment, who wins and who loses is still unknown."

Leng Wushuang and Hua Tiandu hummed coldly.

However, the complacency on Di Tian's face remained undiminished, and he smiled and said, "No matter what, I will stick to the last one, right? Hahaha!"

When Di Tianyi was proud, Qin Chen at this moment was completely integrated into the real Yuan's perception and control.

In that white void, Qin Chen stood there with his eyes closed. Around his body, there were countless tyrannical air currents of true essence. Some of these air currents are like tigers, and some are like real dragons. When they collided, they formed an astonishing roar and chaos.

Such a violent and diverse Zhenyuan operation, let alone some Xuan-level martial artists, even a seventh-order martial king, may not be able to fully control it.

A trace of extremely powerful perception was released by Qin Chen, and each perception affected one or more True Essence airflows.

In addition, Qin Chen's mental power is also frantically stirred in this void, like a vortex, every time it rotates, it drives an astonishing air of true essence, making these air currents look like soldiers under the command of a general. Soldiers lined up in their respective orders.

Under the command of Qin Chen's hands with spiritual sense, no matter how chaotic the True Essence air currents in the sky are and how violent the mutual reactions are, they can be controlled by Qin Chen within a very small range and find each other. The key positions of fusion with each other are changing with each other, such as being driven by an arm.

"This feeling..." Qin Chen closed his eyes, with a faint smile on his face, and his whole body was completely integrated into Zhen Yuan's control.

In the previous life, Qin Chen's cultivation was as high as the eighth-order martial emperor, and he naturally had a good grasp of true essence, such as his understanding of the seventh-order true essence.

But at this moment, with the help of the true meaning of martial arts, Qin Chen's understanding and control of the seventh-order true essence has reached a new peak again.

"That's it, this is the feeling!"

At this moment.

In Qin Chen's feeling, he seemed to have become a part of these true essences, participating in every reaction between them, all true essences seemed to have become his friends, his brothers, cheerfully, in He walked around and laughed, feeling their emotions.

"The true meaning of martial arts, yes, this is the true essence of martial arts!"

Qin Chen's whole person has been completely integrated into it at this moment. At this moment, he has forgotten that he is undergoing the assessment, and even the reaction between the true essences. Instead, let these true essence airflows, freely combine with each other, and be free from each other. Collision, and Qin Chen himself, let the flow of these true essences freely merge, let himself become a part of these true essences.

I don't know how long it took, but suddenly all the true essence air currents were swept away, and Qin Chen woke up from this feeling.

"Have you entered the eighth level?"

Not wanting to let this feeling disappear, Qin Chen waited quietly, and soon, a large amount of true essence air currents appeared in front of him again. These air currents were many times more terrifying than the seventh level, a kind of horror like destroying the sky. With coercion, the cover is pressed down.

The power of the Emperor Wu, the eighth level represents the power of the Emperor Wu.

"In my previous life, I was the eighth-level peak martial emperor, and it was even enough to compete with the nine-day emperor, but now I feel that my understanding of true essence in the realm of the martial emperor is still a lot worse. The true meaning of martial arts can just let me In the realm of Emperor Wu, the understanding is more thorough."

Excited, Qin Chen completely integrated into it.

Chapter 430

Boom!

A large amount of Martial Emperor's power lingered around Qin Chen, and the essence of every Martial Emperor's power was clearly sensed by him. That kind of thorough and transparent feeling made him obsessed and intoxicated.

"The Emperor of Wu, the Emperor of Wu, in my previous life, I thought I had a very thorough understanding of the true essence of the Emperor of Wu, and I was even able to leapfrog into battle. But now, when I look at it, I find that the true power of the Emperor of Wu is profound and mysterious. I am already in control."

Qin Chen sighed, shocked at the same time.

Participating in this examination of the true meaning of martial arts, Qin Chen found that his understanding of martial arts was lacking too much.

In his previous life, he was the top genius in the Martial Domain, and he was almost invincible among his peers.

Looking back now, it was so ridiculous. In many places, they have taken detours and went astray.

"The true meaning of martial arts has given me a more essential understanding of true essence. However, it is not an overnight thing to truly grasp. Knowing the difficulties and doing it is even more difficult. However, after this epiphany, at least I am moving forward. On the road, there is a clearer and clearer direction."

Rumble!

A large amount of Martial Emperor's power, under Qin Chen's control, merged and collided crazily, each of which contained astonishing coercion, but without the slightest mistake, it was amazing.

but.

At the level of Emperor Wu, Qin Chen already felt some pressure, and he did not control his true essence as much as he did before.

He knew that it was because he was in the realm of Emperor Wu and had not yet comprehended the essence of True Essence. The reason why he was able to control it now was only because he had rich experience in the previous life and used his powerful experience to force control.

At this moment, he couldn't realize too much, unable to digest all the content.

I can only remember it silently in my heart, and leave it to me after I go out.

"If it were my previous life, I could realize this, I am afraid, I would not be harmed by the two **** Feng Shaoyu and Shangguan Xi'er."

After the last true essence was merged by Qin Chen, some true essences in front of him completely disappeared, and the entire space was calm again.

"Passed the eighth level? Then the next level is the realm of Emperor Wutian..."

At this moment, the blood in Qin Chen's body couldn't help but boil and burn.

Emperor Wu Tian!

What a supreme title, representing the pinnacle of the world on the Tianwu Continent.

In the previous life, due to limited talent, Qin Chen could only cultivate to the peak of the eighth-order martial emperor, but could never break through to the realm of the nine-day martial emperor.

But in this life, he can feel all of this in advance, how he is not excited, how not excited.

Hum!

The scene in front of him was changing, and Qin Chen suddenly appeared in front of him with astonishing true vitality auras. Any of these true vitality auras was more than ten times stronger than the previous eighth level.

At the same time, Qin Chen's perception had also been elevated to the realm of Emperor Wutian in the Nine Heavens. The powerful control made Qin Chen excited and shocked.

"Is this the realm of Emperor Nine Heavens Wudi?"

Excited and trembling all over, Qin Chen was like a very thirsty traveler who was exposed to the scorching sun on a summer day. He suddenly saw a piece of clear water. The excitement was beyond words.

Jiutian Wudi is the pinnacle pursued by any martial artist in Tianwu Continent, and is the dream.

boom!

In this sense, Qin Chen quickly urged the perception and mental power in his body to manipulate a large number of terrifying air currents of true essence.

But because I was too excited.

In just an instant, Qin Chen made a mistake, and the True Essence Airflow in front of him caused violent chaos.

"Sink down, it is hard for me to have this opportunity to fulfill my long-cherished wish that I could not fulfill in my previous life. How can I be eliminated without knowing more about the Nine Heavens Martial Emperor's true essence?"

In the previous life, Qin Chen played against the nine-day emperor Wutian, and as a nine-tier emperor-level pharmacist, Qin Chen also knew the body and true essence of the nine-day emperor very well.

But this kind of understanding is just superficial. It can be said that it is a doctor's understanding of the patient's body.

And now, in the true meaning of martial arts, Qin Chen can personally sense the nine-day martial emperor's true essence of each Dao. This feeling is like turning himself into a part of the human body. This understanding can be said to be straight to the essence. Refers to the origin.

While trying his best to control, Qin Chen was completely immersed in his perception of True Essence. Outside the square.

When everyone saw that Qin Chen had broken into the ninth level of the truth of martial arts, they were already numb.

At this moment, no one thinks that Qin Chen has reached the ninth level by his own strength. Apart from the failure of the black stone chamber, there can be no other explanation.

beep!

Suddenly, the spirit lamp outside Qin Chen's black stone room flickered frantically.

Everyone was taken aback, this kid made a mistake? Isn't this black stone room malfunctioning?

As soon as this idea came out, it was quickly ruled out. What kind of joke, no fault, is it still the ninth level that this kid broke by himself?

I want to come because of the problem of the black stone room itself.

There was a mistake in the first level and a mistake in the ninth level. Everyone felt weird. The way the black stone room failed was really amazing.

As time passed, and soon, nearly 600 people on the field completed the first round of assessment.

Only nearly 400 people passed the first round of assessment, and the elimination rate was almost 40% or more.

Looking around the entire square, Qin Chen was the only one left, still in the black stone room.

Everyone was fainted, this Qin Chen was the first to enter, and when everyone's assessment was over, he couldn't come out, and he asked others to wait for him. This is simply...

Fortunately, he has reached the ninth level. If he wants to come, he should be soon.

Just thinking.

boom!

The black stone room where Qin Chen was located finally made a loud noise, and the door that had been closed since the assessment began suddenly opened.

Immediately afterwards, I saw a figure and staggered out of it.

At this moment, Qin Chen had no gods in his eyes, and his whole person looked very embarrassed. After coming out, he sat cross-legged without saying anything, and closed his eyes to practice.

In the previous assessment of the true meaning of martial arts, he realized that there were too many things that were difficult to digest for a while, so after he came out, he immediately fell into the sentiment, and the true energy in his body surged wildly.

Huhuhu!

A large amount of zhenqi condensed in his body, becoming solid again and again, and even vaguely impacted on the fourth-order mysterious level.

Everyone was waiting for Qin Chen alone, but now that after seeing Qin Chen coming out, they started practicing directly, and everyone was about to vomit blood in depression.

I sneered in my heart: Pretend, continue to pretend, and later, when Gunandu will judge you to fail the assessment, see if you can be so calm.

Some people couldn't help shouting, "Why didn't Qin Chen be judged as a loser."

"Yes, the black stone room where this guy is located is obviously faulty, so it can't be considered that he has passed the examination, right?"

The crowd immediately became agitated, causing a riot.
