

Valkyrie 4241

Chapter 4241 Human Race Enemy Attack

When he reached his realm, he generally wouldn't dare to underestimate his own intuition. For a strong person of this level, any trace of soul throbbing is most likely caused by an external object.

However, this is the territory of his ancient space beast clan, why is there such a shocking feeling.

Could it be that a strong enemy is coming?

impossible!

Void Tianzun shook his head.

The territory of his ancient space beast clan is very secretive, and most people can't know it at all, and even if they enter, it is impossible to escape the surveillance of their space array.

But what is this faint crisis feeling?

Void Tianzun frowned.

He carefully perceives the surroundings, and indeed, there is a calmness all around, and in the mountains of the Space Ancient Beasts, a small space ancient beast is frolicking, a peaceful and peaceful atmosphere.

If under normal circumstances, he must have returned to his palace and continued to practice, and occasionally abnormal perceptions are also normal.

But this time, Void Tianzun did not dare to be careless.

Because the ancestor just came back a few days ago, he was going to do a sensational event and let him guard the base camp of the space ancient beast clan, so...

Whoosh!

Void Tianzun soared into the sky, and quickly came to the sky above the space ancient beast clan mountain range, staring around.

The void above the space ancient beast clan.

The gazes of the ancient craftsman Tianzun and others were all condensed.

This Void Heavenly Venerable, so keenly aware, seeing this, it should have discovered something.

"Master Tianzun Shen Gong."

Ancient craftsman Tianzun said softly.

"Hehe, the ancient space beasts still have some means."

Shen Gong Tianzun chuckled.

On the side, Qin Chen is speechless. Are you okay with the means?

At this moment, an invisible aura escaped from Shengong Tianzun, enveloping Qin Chen and the others, hiding them in this void, and the entire space ancient beast clan could not find their trace.

What kind of means is this?

However, now Void Tianzun clearly noticed something. Om, an invisible spatial fluctuation filled his body, rumbling, and the spatial ripples above the entire space space ancient beast clan were violently surging, surging in all directions. Moving away, at the same time, he also diffused towards the gods and the others in the sky.

"Hey, what is the patriarch doing?"

Boom boom boom!

The actions of the Void Heavenly Sovereign also instantly shocked many powerful people in the space ancient beast clan. A powerful aura rose up, and they all looked at the Void Heavenly Sovereign in the sky with doubt.

"Patriarch, is there a problem?"

Whoosh!

A strong Tianzun flew over, and Rumble said, his limbs are thick, his tail is like black iron, exuding terrible power, and the void rumbling and trembling while flying.

"It's okay, just check it out. These days are more critical. Everyone must be vigilant and don't leave our territory easily until the ancestor returns."

Void Tianzun said.

When the void swept across, he didn't feel any abnormality, he couldn't help but breathe a sigh of relief. It seemed that he was worried.

However, he still didn't stop, and continued to expand outwards, and he checked all of them again, which was more at ease.

But at this moment, this wave of fluctuations is already filling the place where Godgong Tianzun them are.

"unlucky."

Shen Gong Tianzun chuckled, "It looks like he can't hide."

Shen Gong Tianzun shook his head, his eyes suddenly became cold and severe.

"Do it."

With the voice of Shen Gong Tian Zun falling, Boom, Shen Gong Tian Zun suddenly started, and a magnificent palace flew out of his hand suddenly, and it landed on this world in an instant.

Immediately afterwards, six Shengong Tianzun people appeared at the same time, showing their bodies.

"That is....."

Void Tianzun's heart that was originally raised was about to fall, but suddenly, he felt such a terrifying breath, and then saw a huge palace standing between the heavens and the earth appeared. This palace is magnificent, rising in the wind, and instantly At that moment, it became a star-like, majestic, vast and infinite, and crashed down towards the space of the ancient beast clan below.

Boom!

The sky collapsed and the earth disappeared, the entire space of the ancient beast clan's mountains rumbling, countless peaks collapsed, and huge rocks pierced through the sky, forming a doomsday-like scene.

"Not good, enemy attack."

Void Tianzun's eyes widened suddenly and roared in anger.

While he roared, he madly urged the great formation of the Space Ancient Beast clan, the great formation of the Space Ancient Beast clan roared fiercely, and the power of the Dao Dao space was permeated, obviously to resist the suppression of the Tianzun Treasure Hall of God.

Hum!

Two terrifying forces collided, bursting out a shocking roar.

"Boom boom boom!"

In the next moment, frightened figures flew out from the mountains of the ancient beast clan in the space below, and six terrifying auras rose. It was the six Tianzun-level powerhouses who rose up at the same time, and there were countless spaces. Venerable of the ancient beast clan.

"Human race!"

When Void Tianzun saw the Godgong Tianzun and the others in front of him, he suddenly roared in anger: "The Godgong Tianzun is you? My space ancient beast clan has always been neutral, and has never violated your human race. How dare you treat my space ancient beasts? One clan starts, is it your job to start a war with my space ancient beast clan?"

The angry roar, like thunder, shook the world.

Hearing this, several people of Shen Gong Tian Zun couldn't help being stunned. Is this Void Tian Zun a bit stupid?

Shen Gong Tianzun chuckled, "Void Tianzun, your tribe's Xugu Supreme has already hit my day work camp, and are still talking about inviolability? It's a bit too much."

boom!

The huge hidden treasure hall vibrated crazily and smashed, bursting out chains from it, instantly penetrating the void and piercing into the vast array of void.

"What? The ancestor went to work in the human race?"

Void Tianzun and other strong men changed their expressions after hearing this.

Although he knew that the ancestor was going to do a big thing, he didn't know that the ancestor actually went to the Heavenly Work Camp of the Human Race, and if the ancestor really went to the Heavenly Work Camp, why did he come back? The God of Human Race?

"Supreme?"

Void Tianzun raised his head and felt the vast oppressive aura of Shengong Tianzun, and his heart sank completely.

Did the ancestor...

A bad idea came to their minds.

Shengongtianzun stands proudly in the sky, stepped out in one step, and smiled faintly: "The space ancient beasts, colluding with the demons, and working on the work of my human race. Today, my work of God, on behalf of the human race, on behalf of the work of heaven, destroy your space A family of ancient beasts."

"kill!"

Shen Gong Tianzun's voice fell, and he waved his hand suddenly, rumbling, rumbling, the world collapsed, a monstrous supreme aura, suppressed, and blocked the entire space of the ancient beast family's mountain territory, majestic and boundless.

"Shen Gong Tianzun, don't be arrogant and stop me."

Void Tianzun roared, and many space ancient beasts roared together, and the power of the space surged into his body, and he merged into the big formation, trying to resist the erosion of the divine worker.

[Chapter 4242: Play with me](#)

A supreme, too terrifying, as strong as them, can't help but change color, for the present, only by using the big formation of the space ancient beast clan can resist the erosion of the opponent.

But at the corner of Shen Gong Tianzun's mouth, a smile was drawn.

"The space formation is really interesting, but unfortunately, have you forgotten who is this seat? Ha ha, playing array in front of this seat? Have you ever played this seat."

Shengong Tianzun stepped out, hum, he instantly turned into six arms, and on each arm, there was a pinnacle Tianzun treasure. In addition, Shengong Tianzun suddenly raised his hand.

Wow!

The hidden treasure hall trembled violently, and the billowing supreme aura permeated. From the hidden treasure hall, pieces of supreme treasures quickly flew out. These supreme treasures were all of the heavenly rank.

One piece!

Two pieces!

three item!

...

In an instant, a full eighteen treasures flew out, and each one was a treasure of the Heavenly Sovereign, and even, it gave Qin Chen the feeling that these treasures, although they did not reach the peak of the Heavenly Sovereign in the hands of Shen Gong Tianzun. The treasure is so exaggerated, but compared to the average Tianzun treasure, it is much more terrifying.

Many of them, even at the same level as his own Wanjianhe, belong to the top heavenly treasure.

"hiss!"

Qin Chen sucked in the air and looked at Shen Gong Tianzun.

Isn't this... too tyrant?

The top treasures of Tianzun are extremely precious. For the masters of Tianzun, they are all top treasures. They are better than the ancient craftsmen Tianzun. As the deputy master of the heavenly work, they need to spend a lot of energy to get them. A top-level Heavenly Sovereign Treasure, I'm afraid it will take a lot of energy.

But now?

Shen Gong Tianzun threw out 18 pieces, although this was probably a treasure accumulated by Zhongtian Work in the Treasure Hall for hundreds of millions of years, but it still shocked Qin Chen.

After all, this is not even the stronger peak heavenly treasure in the hands of Shen Gong Tianzun.

In the eyes of outsiders, it is the most precious treasure, how come it reaches the hands of Shen Gong Tianzun, it is almost like Chinese cabbage.

Does this still make sense?

More than 20 peak heavenly treasures are displayed together with the top heavenly treasures. Void Tianzun is also dumbfounded. As the patriarch of the space ancient beast clan, he has only one peak heavenly treasure.

Boom boom boom!

Many Heavenly Venerable Treasures flew out one after another, combined with the chains exploded from the hidden treasure hall, and then stuck firmly on the space formation of the ancient space beast clan.

"boom!"

Suddenly, the large array roared, and the Treasure Hall violently vibrated, and a powerful breath filled out, visible to the naked eye, cracks appeared one after another on the large array of Space Ancient Beasts.

"not good!"

Void Tianzun couldn't help but numb his scalp.

Roar!

He turned into his body, and the other five heavenly venerables also changed color and turned into ancient space beasts, and then powerful spatial fluctuations spread out from his body, trying to strengthen the formation.

But it's useless.

Shen Gong Tianzun chuckled, his eyes indifferent: "Compared with the way of space, perhaps your space ancient beast clan is stronger, but compared to the formation method, your space ancient beast clan will live for another million, tens of thousands of years, and it will not be as good as the original. seat."

As the voice fell, Shen Gong Tianzun's eyes suddenly burst into the rainbow, and the peak Tianzun treasure among the six arms was suddenly inserted.

Boom!

A violent roar resounded.

In the next moment, the entire space formation of the ancient beast clan burst into pieces and turned into powder.

"not good!"

Void Tianzun roared, his face frightened.

"kill!"

Shen Gong Tianzun said indifferently.

No need for him to take action, the ancient craftsman Tianzun and others have already moved.

"escape!"

"Run away!"

Void Tianzun showed despair and roared in anger.

Accompanied by his roar, the ancient craftsman Tianzun and others, each facing a Tianzun of the space ancient beast clan, broke out a strong attack.

Rumble!

The ten Heavenly Venerables quickly fought each other, and in an instant, the entire space ancient beast clan's mountains rumbling and roaring, the peaks shook violently, and exploded and collapsed everywhere.

"Do not!"

Void Tianzun showed desperation. It was too late and couldn't escape. Heavenly work, the strong came out, the five great heavenly veterans shot, and the heavenly work strong, each possessed many treasures, each of the five great heavenly veterans had top-level heavenly treasures. .

On the other hand, his space ancient beast clan, the five great heavenly superiors, four of them possessed the heavenly treasures, but they were all inferior to the heavenly treasured ones, and there was even one who didn't have the heavenly treasured weapon, how could they be able to confront each other.

"Flee, don't fall in love with war, run away quickly, all the space ancient beasts are ordered, all flee, don't stay, flee to the demons."

Void Tianzun roared, while he roared, while slaying out, he wanted to leave a fire for their space ancient beast clan.

Shen Gong Tianzun chuckled, stepped out, raised his hand, "Bind!"

boom!

A chain of colorful rules burst out from the Treasure Hall, quickly wound around the Void Heavenly Venerable, the Void Heavenly Venerable was furious, and the power of the space surged in his body, rushing, and the void shocked, trying to avoid the attack of the Divine Worker Heavenly Venerable.

But how can he escape.

It is as strong as Xugu Supreme, and can't escape the shackles of such Supreme Treasures like the Treasure Hall. How can he resist the Supreme Heaven?

"what!"

The screams resounded throughout the world, and the Void Sky Master roared and screamed, struggling frantically, but was a little bit imprisoned.

"Qin Chen, don't you do it yet?"

At this moment, Shen Gong Tianzun chuckled and looked at Qin Chen.

Because, the five deputy hall masters all faced a Celestial Venerable of the Space Ancient Beast clan, and only Qin Chen had yet to take action.

Upon hearing this, Qin Chen moved.

Whoosh!

He shook his body and swept towards the mountains of the ancient beast clan in the space below.

"kill him."

"Everyone else flees, the elders follow me and kill this person."

Ho Ho Ho!

Upon seeing this, some of the strong masters of the space ancient beasts at the earth-sovereign level suddenly changed their color, their eyes were fierce, emitting fierce light, and they furiously fought towards Qin Chen.

Wow!

Several powerful masters of the space ancient beast clan of the earth-sovereign level instantly became extremely large, each of them resembling a mountain, swinging their giant claws at Qin Chen, displaying magical powers.

Because they knew that they had to stop Qin Chen, and if they didn't stop Qin Chen, none of their Space Ancient Beasts could escape death. Only by encircling Qin Chen, some of their young tribes could have a chance to survive.

Therefore, even though Qin Chen's aura was not strong, as soon as these powerhouses of the Space Ancient Beast clan came up, they all madly burned the power of the venerable in the body, bursting out the strongest murderous intent.

Facing this terrible murderous intent, Qin Chen looked indifferent and just waved his hand.

Hum!

In front of Qin Chen's eyes, a golden small sword suddenly appeared, smashed, and then the golden small sword instantly skyrocketed and turned into a vast golden river, booming, the golden river surging, covering the sky and covering the sun, the ancient beast A clan of earth-sovereign powerhouses rushed up and swept them instantly.

"Do not!"

The earth-sovereigns of these ancient space beasts roared, but were quickly wrapped up by Wan Jianhe and directly suppressed them.

Chapter 4243 Space Ancient Orcs Annihilated

Immediately afterwards, Qin Chen used the Wanjian River, crashing, and the billowing sword river, like a vast ocean, wrapped all the disciples of this space ancient beast clan in the vast golden Wanjian River.

"Do not!"

One of the heavenly beasts of the space ancient beast clan is completely broken.

He could feel that the golden river displayed by Qin Chen was vast and boundless. It was not only powerful, but also able to seal off a world. In this way, their space ancient beast clan might not even be able to escape.

"Patriarch, no, if this happens, my clan will die here."

A Tianzun of the ancient space beast clan roared.

Desperate in heart.

Yes.

Too desperate.

Facing the top powerhouse of Heavenly Work carried by Shen Gong Tianzun, despair emerged in the hearts of all the Space Ancient Beasts.

too difficult.

Shengong Tianzun broke through the supreme, a supreme powerhouse, and clearly also carried a supreme treasure, and he was still in control of the extremely terrifying Shengong Tianzun.

The spatial formations in their territory have no effect at all.

What made them even more desperate was that even Qin Chen, an apparently incomparably young disciple of Heavenly Work, possessed a top-level Heavenly Sovereign Treasure.

despair!

anger!

regret!

Yes, they regret and regret why the ancestors wanted to cooperate with the demons. They don't know what the ancestors are seeking. However, their space ancient beast clan has been neutralized for so many years and has been neutralized for hundreds of millions of years. Why should they take refuge? Demon?

"Ahhhhh..."

This powerful expert of the ancient space beast clan roared, "If you want me to die, if you want my clan to be annihilated, don't think it is so easy, explode to me!"

boom!

This powerful person of the ancient beast clan with a body of thousands of miles and vast space exploded in an instant, without any hesitation.

A Tianzun, and also the Tianzun of the ancient space beast clan, how terrible is the power of the Tianzun? It exploded in an instant, and the power of the self-detonation was so powerful that it even surpassed the strongest attack of a later Tianzun powerhouse.

boom.....

The endless space and the power of the Venerable exploded crazily, and the terrifying energy wave instantly impacted in all directions.

"not good!"

The one who fought with this space ancient beast clan Tianzun was the Absolute Weapon Tianzun, who suddenly changed color, and was frightened by the explosion of this space ancient beast clan, and his body retreated crazily.

That tens of thousands of li Tianzun's body exploded, causing the endless energy to explode in an instant, and the endless impact was like the thousands of times the power of a star exploded... to wipe out all obstacles!

Bang bang bang! ! !

Some of the void around him instantly turned into a stream of particles, while the Absolute Weapon Tianzun retreated in anger, frantically burning the power of Tianzun in his body, forming a huge barrier, and covering his body with his strongest defensive weapon.

"Block!"

He was horrified that this ancient clan of space beasts was too perverted, saying that they blew themselves up, and without watching them, his heavenly sovereign would also fall and die on the spot.

puff!

The rolling force struck, and the Absolute Weapon Tianzun immediately vomited blood. Seeing that he was about to be enveloped, a terrifying supreme power struck, and a chain appeared, resisting him, blocking the blow.

It is the God of God.

"Xuye Tianzun!"

The other powerful Heavenly Sovereigns of the ancient space beasts all changed color, with a sad expression.

Xuye Tianzun, the strong Tianzun of the ancient space beast clan, unexpectedly exploded like this. Countless years have not been able to make him fall, and now, he has fallen.

All eyes were red.

"We fought them."

"Children, run away."

"Escape all, don't stay one, run away!"

The remaining four Heavenly Sovereigns roared and rushed to their respective Heavenly Sovereign powerhouses. One of the Heavenly Sovereigns, even closer to Qin Chen's position, rushed frantically, and then...

Boom boom boom boom!

The four earth-shattering roars resounded throughout the world, and the entire space ancient beast clan exploded with gorgeous fireworks in an instant, the power of the regular avenue was roaring, and the universe and heaven were shaking.

The four gods blew themselves together.

Tianzun fell, and the sky avenue roared.

The Venerable is above the heavens and oppresses the universe and the heavens. Therefore, the fall of any Venerable is a repair and a remedy for the universe.

Now, the self-explosion and fall of the four great heavenly veterans instantly caused the cosmic world, the rules to surge, and the visions.

At the same time, the terrible explosion swept away like crazy.

"not good!"

"Block!"

Tianzun Zuo Tong, Tianzun Ancient Craftsman and others all changed their colors, controlling the void one by one, suppressing and resisting this shock wave.

Each of them showed defensive treasures to resist this force.

One of the terrifying forces swept towards Qin Chen.

It is one of the gods who did it deliberately.

As long as Qin Chen is killed, then the space ancient beast clan members under their command will have a chance to survive.

but.

Hum!

Qin Chen instantly showed the Haotian Divine Armor, and at the same time, the Wanjian River surged, wrapping himself up quickly.

"Humph."

The shock wave of the explosion was extremely terrifying, but with the Vast Sky Divine Armor, Qin Chen stood in the air and was only stunned by the shock wave for several kilometers. Wanjian River was bombarded and burst continuously, but he was not damaged at all, and the same ancient craftsman Tianzun The others were also directly rolled and flew away.

"Boom boom boom boom..."

The shock wave flew over a long distance and impacted in front of the common defense of ancient craftsman Tianzun and others. At the critical moment, Tianzun Shengong waved his hands, and the treasures of Tianzun surged and turned into a large formation, imprisoning the void.

Even if there is a layer of defense, the vibration transmitted through the defense still shakes the space into countless particles.

The ancient craftsman Tianzun and the others all turned pale and flew out.

After a while-the shock wave dissipated completely.

"Do not!"

Void Tianzun is desperate.

The five heavenly veners of the ancient space beast clan, all blew themselves up, and they didn't kill even one of them, and they were all resisted.

Everything is because of the divine work Tianzun, otherwise, under the sudden explosion, with the strength of the ancient craftsman Tianzun, even if they do not die, they will be seriously injured. Under normal circumstances, under the sudden explosion, they would have to fall two.

"I knew today, why bother back then."

Shen Gong Tianzun looked indifferent, raised his hand, crashed, and the chain surging, instantly took the Void Tianzun into the treasure hall, and Rumble suppressed it.

Immediately after.

Divine Worker Tianzun flew out and came to the sky above the space ancient beast clan, slamming the hidden treasure hall, banging, the entrance of the hidden treasure hall, the swallowing force surged, below, countless space ancient beast clan members, all They were swallowed in, and screamed bitterly one by one into the treasure hall.

"This hidden treasure hall actually has the effect of suppressing the small world."

Qin Chen looked over attentively.

This hidden treasure hall is so extraordinary, it deserves to be a supreme treasure.

After a half-pillar incense, the entire space ancient beast clan mountain range was located, and all the space ancient beast clan members were swallowed.

Before and after, but half an hour.

The space ancient beast clan, destroy!

[Chapter 4244: All good things](#)

Heaven and earth are dead, eternal.

At this moment, there was silence over the mountain range of the Space Ancient Beast clan, only the frantic spatial turbulence surging, and no strong space ancient beast clan survived.

Everything fell.

Qin Chen's heart jumped wildly, this tribe of space ancient beasts was too decisive. Faced with a crisis, the five heavenly veterans blew themselves together, just to give the group a chance to escape.

It's a pity that they failed, and they were doomed to fail from the time when Shen Gong Tianzun broke through the supreme.

Blasting is useless.

The supreme, carrying the supreme supreme treasure, not to mention the powerhouses such as Shengong Tianzun who possess countless horrible treasures, without the supreme powerhouse, how can the space ancient beasts resist?

Perhaps it was okay for other supreme to come, and the space ancient beast clan could still use formations to resist, but they were facing the heavenly master of divine work, the master of heavenly work, and the powerhouse made by ancient craftsmen.

In the face of such a powerful formation, no matter how strong the formation of the Space Ancient Beast clan, it might not be able to resist it.

Qin Chen stared at this scene in a daze. It was shocking that a group of people died like this.

The space ancient beasts are not weak in the universe, but even so, they still cross the sky like fireworks.

Of course, Qin Chen showed no mercy to the ancient space beasts in his heart.

This is no blame for others, but for their cooperation with the Mozu.

wrong.

Qin Chen suddenly raised his head.

The space ancient beast clan has not yet been destroyed. Although the five great heavenly beasts exploded, the patriarch of the space ancient beast clan is still alive. In addition, many venerables of the space ancient beast clan, and countless clansmen, have been divinely crafted I received it in the treasure hall.

So, it is not a fall.

It's just that Qin Chen doesn't know how Shen Gong Tianzun will deal with them, but this matter does not need Qin Chen to bother.

"Hall Master."

At this time, ancient craftsman Tianzun and others approached with pale faces, and some even had bleeding from the corners of their mouths.

If it weren't for Shen Gong Tianzun's move, the previous self-detonation would have caused all of them to be unlucky. Not to mention the destruction of the entire army, the fall of two is inevitable, and even if you do not fall, the other ones will be seriously injured.

"Are you all okay?" Shengong Tianzun glanced.

"I'll be okay." Ancient Craftsman Tianzun and the others hurriedly answered.

Shen Gong Tianzun nodded: "That's good. There was a lot of movement here just now. There must be people from the Demon Race outside the space ancient beast clan, so we have to hurry up."

Shengong Tianzun looked under his eyes and said, "The previous Tianzuns exploded, and there is still a strong breath of heaven and earth. The ancient space beasts enter the Tao with their physical bodies and condense the space magical powers. The law of space will still disperse between the heavens and the earth, which will be of great benefit to you. You can try to absorb it."

"Yes." Gujiang Tianzun was overjoyed on their faces.

Absorb the essence and blood of the space ancient beasts? They are naturally unwilling. They are not the ancient beasts. It is not good to absorb it, but the spatial rules floating in the void are slowly being absorbed by the supreme rules of the universe, and are gradually dissipating, where these spatial rules

completely dissipate and enter Before the Supreme Rule of the Universe, they could completely improve their spatial attainments through insight.

"The Lord of the Palace, you..." Ancient Craftsman Tianzun hurriedly said.

"I, naturally have my things to do."

Whoosh!

When the voice fell, Shen Gong Tianzun's figure shook, and he swept directly to the space ancient beast clan mountains below.

He sticks out his hands.

There was a boom, the entire mountain range burst into pieces in an instant, and countless spatial forces shot everywhere.

Shen Gong Tianzun seemed to be searching for something.

"Haha, everyone, hurry up and comprehend the rules of this space." The ancient craftsman Tianzun laughed and looked at Qin Chen: "Qin Chen, you also feel the space rules of this space ancient beast clan, that is a good thing."

When the words fell, the five deputy heads of the ancient craftsman Tianzun, one after another, found a place, closed their eyes and realized.

"Kid Qin Chen, you don't want to absorb it. These are all good things. These idiot tribes don't understand anything. They picked sesame seeds and lost watermelons." In the chaotic world, Honghuang Zulong was excited at this moment. Shout.

Qin Chen glanced at Honghuang Zulong suspiciously. Is it necessary to be so excited?

"Little Qin Chen, this so-called space ancient beast clan, if I am not mistaken, it should be the descendant of the ancient chaos ancient beast. It belongs to the descendants of our primordial spirit. Although the blood is thin, there is still chaos in the body. Power, as long as they absorb their power, my ancestor my physical body can definitely condense stronger and recover faster. Moreover, their essence and blood are also of great help to the old things of the blood river ancestor."

Honghuang Zulong's eyes were shining, excited, and he didn't mind Qin Chen's contempt at all.

"This space ancient beast clan actually has such a source?"

Qin Chen's heart moved.

Whoosh!

He immediately flew forward, sat cross-legged, and slightly spurred the chaotic world. Suddenly, an invisible force filled the void, and the power of the many space ancient beasts scattered in the void of this space ancient beast clan poured in. In the chaotic world, it was swallowed by the prehistoric ancestor dragon.

As for the power of the essence and blood, Qin Chen didn't let it go, constantly absorbing it and integrating it into the blood river ancestor.

"Haha, cool, so cool."

In the chaotic world.

Both the Honghuang Ancestral Dragon and the Blood River Saint Ancestor were very excited, roaring loudly, swallowing the remaining power after the five heavenly veterans blew themselves, and saw the aura on their bodies, constantly condensing and becoming stronger.

"Kid Qin Chen, hurry up and speed up the absorption, otherwise the power between heaven and earth will be swallowed away by the origin of the universe."

Seeing Qin Chen swallowing slowly, Honghuang Zulong was a little anxious.

Because these forces are gradually dissipating and disappearing between heaven and earth.

"Swallowed away by the origin of the universe?" Qin Chen frowned.

"Otherwise, what do you think? Venerable is a strong man who transcends the universe and heaven. The stronger the Venerable, the greater the pressure on the universe. Once the Venerable falls, the power of the Venerable will return to the universe and be affected by the universe. The origin is absorbed, so if the Holy Lord falls, the heaven and the earth will be sad, and the Lord falls, the heaven and the earth will rejoice."

"Because the power of the Venerable is a great supplement to the origin of the universe."

Honghuang Ancestral Dragon curled his lips, "But these are only Tianzun, you haven't seen the Supreme Fall. If the Supreme falls, it is really the roar of the universe, I am afraid that there will be a vision for hundreds of millions of miles."

"Hurry up, stop talking nonsense, hurry up and speed up the absorption, otherwise all these forces will dissipate."

Honghuang Zulong said anxiously.

Qin Chen glanced down, but saw that Shengong Tianzun had entered the depths of the ancient beast clan mountain range, while the ancient craftsmen Tianzun and the others were comprehending the power of space, immediately spurring the chaotic world and accelerating the absorption of the surrounding power.

Chapter 4245 Secret Realm Origin

While Qin Chen helped the Great Ancestor Dragon and the Saint Ancestor of the Blood River absorb the power of the Space Ancient Beast Clan Celestial Venerable, he himself sat cross-legged, constantly absorbing a stream of strength, strengthening himself, and at the same time feeling the rules of space.

In terms of space rules, Qin Chen is also considered top among the human races, but the space rules of the space ancient beasts are undoubtedly more terrifying, and Qin Chen has constantly felt a lot in the process of absorbing it.

Rumble!

In Qin Chen's body, the surging power surged, and the strength of the essence, blood and flesh of the ancient beast clan in this space also gave Qin Chen a huge improvement, and the power of space was quickly swallowed by Qin Chen.

The three guys, like a whale sucking water, crazy absorbing all the power around them.

And when Qin Chen and the others absorbed the power between heaven and earth.

In a dark void outside the secret space of the ancient space beasts.

"what is that?"

A black shadow suddenly appeared here, looking at the place of the ancient space beast clan in the distance, where the originally dry starry sky was, the space actually emitted violent fluctuations.

Not only this black shadow, but in other places away from here, a cold aura rose up, all looking at the place of the ancient space beast clan in amazement.

"That's... the place of the void of the ancient space beasts, what happened?"

"Could it be that there was a battle among the space ancient beasts?"

The eyes of these powerful demons lurking here are filled with awe.

"No, this matter must be reported to the ancestors as soon as possible."

Immediately, one message after another was quickly transmitted from various channels.

Of course, even though they discovered the mysterious changes of the ancient space beast clan, they didn't dare to go there at all. They could only stay deep in the distant starry sky and did not dare to move.

In the secret realm of the space ancient beast family.

Qin Chen and the others are still absorbing it frantically.

About an hour later.

They all opened their eyes.

What's the matter?

How could the aura that remained after these five heavenly veterans exploded so quickly?

They all looked around in amazement.

Under normal circumstances, a Heavenly Venerable has fallen, and the aura in the body has completely dissipated. It will take at least ten days and a half a month. Even the power of rules left by some powerful Heavenly Venerables can be engraved in the void for countless years.

Only the power of the source will dissipate extremely fast.

But now, for only an hour, the aura of the Heavenly Venerable Powerful of the Five Great Space Ancient Beasts that exploded before has almost disappeared. Not only has the origin gone, even the power of rules, as well as the power of essence, blood, and physical body have disappeared. It was empty, and even the smell of blood could not be smelled at all.

Is this space ancient beast family so special?

Not far away, Qin Chen also opened his eyes, pretending to be unexpected.

No way, the two old things, the Great Ancestor Dragon and the Blood River Saint Ancestor, are too edible. After a while, they swallowed all their power. Qin Chen possesses the secrets of the chaotic world. Naturally, he can't easily expose it. Play dumb there.

Boom!

And at this moment, suddenly, in the mountains below, a thunderous roar suddenly spread, and the entire space shook violently. Qin Chen and the others hurriedly lowered their heads and saw...

The mountains below were torn apart and exploded continuously, and even with this secret space, they trembled violently.

"How can it be?"

Qin Chen and the others looked at them with horror, and saw Shen Gong Tianzun holding the hidden treasure hall in his hands, and chains exploded in the hidden treasure hall, and at the end of the chains, there was still a dazzling white breath bound.

This white breath is not big, but it has the breath that suppresses the universe.

"this is....."

Qin Chen opened his eyes wide, and the breath of this thing was very similar to the heart of space in the Tianwu Continent.

"This is... the origin of the secret realm of this space ancient beast clan?"

The ancient craftsman Tianzun said in shock.

Origin of the Secret Realm?

Qin Chen instantly understood what this thing was. It should be the origin of the ancient space beast clan. This thing is similar to the heart of space in the Tianwu Continent, and it is also similar to the origin of the heavens of the human heaven. It is the origin of the space ancient beast clan. The core thing of Fang Xukong.

Lord Hall, is this going to sweep away the void core objects of the ancient beast clan in this space?

Qin Chen smacked his tongue.

"Come!"

I heard the **** of work Tianzun yelling, that source of light, instantly received by him into the treasure hall.

And as soon as this thing disappeared, immediately, the void between the heaven and the earth began to roar violently, the mountains collapsed, and the void began to shatter.

This is the result of the disappearance of the source and the destruction of the secret realm.

Qin Chen had also seen this scene in the secret realm of Void Tide Sea Sky Poison Pill Venerable.

Under the leadership of Shengong Tianzun, Qin Qinchun and others quickly left the territory of the Space Ancient Beast clan, at the moment they left.

"boom....."

A terrible explosion suddenly sounded. The place where Qin Chen stood before has become a piece of nothingness. The terrifying space particles and the force of collapse directly radiated out, completely engulfing the endless mountains and this space.

Qin Chen and the others appeared in the universe, and where they were, within a radius of tens of thousands of miles, there was a shocking explosion, like an extremely splendid firework. The stunning explosion filled the world, hundreds of thousands of miles away. Everyone can see clearly.

"what is that?"

The explosion here immediately shocked the races and powerful people outside the wider space, and they all looked over in amazement.

From the naked eye, a black hole in space appeared in this universe, and a lot of matter spewed out from the black hole, ejecting hundreds of millions of miles.

The rolling shock wave blasted on Shen Gong Tian Zun and them, but it could not bring the slightest harm to Shen Gong Tian Zun and them.

The entire explosion lasted for a full quarter of an hour, and all the void had turned into nothingness.

"let's go."

Shen Gong Tianzun glanced around, smiled lightly, and shook his body, leading Qin Chen and the others away instantly.

Huh huh!

Not long after Shengong Tianzun and the others left, a group of figures suddenly appeared here, and after seeing the spatial vortex formed here, they were frightened one by one.

"The secret realm of the ancient space beast clan collapsed?"

"hiss!"

These figures looked at each other, and there was endless horror in their eyes.

"Quickly, send the message to the ancestors!"

A message after another, like a squally storm, quickly spread across the universe.

Instantly shocked the entire universe.

The space ancient beast clan was actually destroyed?

now.

In the realm of the demon race, in the endless chaos void.

The ancestor of Yuanmo was practicing with his eyes closed.

But at this moment...

"Old ancestor, ancestor, it's not good, big things are not good."

A frightened voice resounded between the heavens and the earth, and then, a towering figure straddling the void, suddenly descended into the area of the ancestor of the abyss demon, with a frightened expression, a trembling voice, and extremely frightened.

[Chapter 4246: I hate it](#)

The ancestor of the Abyssal Demon who had just fallen into a deep sleep and had not had time to recuperate and practice was awakened again.

He was frightened in his heart, but this time, he didn't scold the towering figure again, but sank in his heart.

"What happened? Could it be that news came back from the secret realm of Tiangong's headquarters?"

The ancestor of the Yuanmo blasted a cold light in his eyes and hurriedly said coldly.

The most important thing now is the secret realm of Tiangong's headquarters. There has been no news for several days. The ancestor of the Yuanmo always hangs on his heart, always worried about what bad news will come out of the secret realm of Tiangong's headquarters.

Now seeing this towering figure running in such a panic, the first thought that came to his mind was that Xu Gu Zhizun's actions had failed.

"Master Yuanmo ancestor, no, it's not the secret realm of Tiangong's headquarters..." The towering figure hurriedly shook his head.

what?

The ancestor of the Yuanmo was startled. Isn't it the news from the secret realm of Tiangong headquarters?

"Bastard thing." The ancestor of the Abyssal Demon, who was still nervous just now, instantly calmed down, kicked the towering figure out with one foot, and yelled: "Trash, as the leader of the Abyssal Demon clan, a little thing for you I was panicked and panicked, what kind of decent way he is, what is his future."

"Remember, as a true leader-level powerhouse, you must do it without changing your face, knowing if you don't."

The ancestor of the deep demon completely let go of his heart. For him, as long as it is not the failure of the Void Supreme mission, it is not bad news. Really, this guy is not stable at all. How can he inherit his mantle in the future?

Is it better to be the Lord of the Abyss? It's a pity that the Lord of the Abyss doesn't know his life or where he is?

"Yes, ancestor."

The towering figure didn't panic at all when seeing the ancestor, and the inexplicable heart calmed down. In the Demon Race, the ancestor is the real power holder. Since the ancestor is not concerned, he naturally has nothing to worry about.

"Let's go, what the **** is it? Panicking?"

The ancestor of Yuanmo asked calmly.

"It's a clan of space ancient beasts." The towering figure hurriedly said.

A clan of space ancient beasts?

An unpleasant feeling suddenly appeared in the heart of the ancestor of the deep demon, a sensation in the dark, instantly descending on his soul, making his body stiff.

The ancestor of Yuanmo said in a deep voice: "What happened to the ancient space beasts?"

"Previously, the clansmen of our clan lurking outside the space ancient beast clan sent back a message that there seemed to be a big battle in the secret realm of the space ancient beast clan..." the towering figure said.

Before he finished speaking, the face of the ancestor of the deep demon suddenly changed, and the terrible demon energy rose to the sky, and the entire Demon Star Sea rioted in an instant. The monstrous demon energy burst out in an instant, shaking forever.

boom!

The towering figure was suddenly shaken out, and before he could stabilize his figure, the ancestor of the deep demon immediately grabbed him and roared: "A battle has occurred in the space ancient beasts? Why don't you just say such a big thing? Hesitating, a waste, what's the use for you."

The ancestor of the Abyssal Demon was about to explode: "What the **** is going on? Who broke into the territory of the Space Ancient Beasts? Also, what happened to the Space Ancient Beasts today? Xu Gu Supreme should not be in the Space Ancient Beasts. One clan, now the patriarch Xukong Tianzun, who is in charge of the space ancient beast clan, should be the clan leader, what did he say?"

The ancestor of the deep demon roared.

With his wisdom, he knew in an instant that this time must have something to do with Xugu Supreme's preparation for a sneak attack on the secret realm of the Heavenly Work Headquarters, and he thoroughly mentioned it with his heart.

Did the Human Race know that Xu Gu Supreme had taken refuge in his Demon Race and launched a sneak attack on the Space Ancient Orcs?

If this is the case, Xu Gu Supreme will be furious when he returns from the human race and fight him desperately.

The towering figure panicked: "Ancestor, I don't know that."

"What don't you know?" The ancestor of the deep demon was so angry that he was going crazy: "Aren't our people stationed outside the ancient space beast clan? The ancestor has given them the authority to contact the ancient space beast clan. The Void Patriarch of the Ancient Orcs in the space got in touch, naturally knowing the situation, how could he not know?"

The ancestor of the deep demon was furious.

At this moment, he had only one thought, to prevent Xu Gu Supreme from attacking Heavenly Work.

If the territory of the Space Ancient Orcs was actually attacked by the Human Race before, then it is very likely that the Human Race has already known the cooperation between the Space Ancient Orcs and his demons. If the Xugu Supreme forcibly attacked the secret realm of the Heavenly Work Headquarters, then There is bound to be danger.

Terran, already prepared.

The towering figure trembled: "It's not that our people don't contact the Void Patriarch, but the news that the entire clan secret realm of the ancient space beasts has completely collapsed, and the space ancient beasts living inside have no one. Survived, all disappeared, our people have sensed that in the ruined secret space, there is the aura of the great avenue of heaven and the ancient beast clan of space has been completely finished.

"The Space Ancient Orcs, is it completely finished?"

The ancestor of the deep demons was stunned. Even the secret realm of the ethnic group was destroyed. This... is this annihilated?

"and....."

"And what?" The ancestor of Yuanmo looked at the towering figure in anger, this guy is so angry? What can't be said in one sentence?

"Moreover, news came back from the front. They seemed to vaguely saw the powerhouse who broke into the territory of the space ancient beast clan leaving. It seemed that it was a human master, and there was a picture here."

This towering figure hurriedly sent a picture to the ancestor of the Abyss Demon.

"It's the God of God."

The ancestor of Yuanmo saw the picture, his eyes suddenly became savage.

It's too familiar, and the breath of that guy is too familiar to him.

Moreover, the figures around Shengong Tianzun were extremely familiar, and they were actually the Tianzun-level deputy hall masters.

and also.....

Seeing Qin Chen next to Shengong Tianzun, the ancestor of Yuanmo sank completely.

"Shen Gong Tianzun?"

The towering figure couldn't help but froze, "Didn't he practice in other places?"

"I understand."

The infinite demon energy permeated the ancestor of the deep demon, and at the same time, he quickly pinched his fingers, booming, a terrible demon energy instantly penetrated the heaven and the earth, seeming to penetrate into the long river of fate, calculating something.

next moment.....

"Cruel, too cruel."

The ancestor of Yuanmo was furious.

"This time, I am the one who wrote the words."

In the head of the ancestor of the deep demon, there was a flood of information, and the power of fate flowed, and he understood a lot of things instantly.

He was originally the top powerhouse, the pinnacle supreme, even, he has already touched that realm, why is Xiu so terrible? The power of time can be traced back to the long river of all circles.

At the beginning, he was deceived. At this moment, he learned the information and saw this picture. In his mind, it instantly became clear. A face became more and more ugly, and more and more hideous. Getting crazy.

"Ancestor... what is this..."

The towering figure was completely dull, what did the ancestor understand? Why is the body breath so unstable?

"Ah, I hate it!"

puff!

The ancestor of Yuanmo spouted blood and let out a roar on the spot.

Chapter 4247 Universe Vibration

"Ancestor, what's the matter with you? Don't you scare me?"

The towering figure looked terrified, and hurriedly stepped forward, with a thud, and a frightened devilish energy impacted, and instantly blew the towering figure out, splitting the body of the devil, splashing blood.

"Shen Gong Tianzun, Xiaoyao Supreme, you two old bastards, and that kid... conspiracy, this is a conspiracy, I fuck..."

The ancestor of the deep demon roared to the sky.

Rumble!

The entire starry sky Demon Sea was shaking. At this moment, it seemed that the entire Demon Race was in a sensation, and the monstrous demon energy poured out like an ocean.

At this moment, in the entire Demon Race starry sky field, a series of terrible auras rose up, staring at the core of the Demon Race.

What happened to the ancestor of the deep demon?

In the demon starry sky, two powerful auras are lurking in a deep demon sea, absorbing the terrifying power in this demon sea.

Suddenly, feeling the breath that swept the entire magic sea starry sky, the two figures suddenly raised their heads and stared at the sky.

"This is the ancestor of the demon race today, the ancestor of the deep demon?"

A deep voice came from one of the more handsome and tough men.

And the man, with a gloomy look, surrounded by magic light, and said in a deep voice: "Master Luohu Demon Ancestor, this aura is very similar to the aura we felt from the outer starry sky on the battlefield of ten thousand races. It should be the abyss demon of the abyss. Patriarch."

This man, not someone else, was the magical power who escaped from the battlefield of the ten thousand races, and beside him was the Red Flame Demon Lord, who was enchanting, like a beautiful fairy, and the magical power on the side complemented each other. .

"Hmph, what is this Demon Ancestor going crazy?" Luohu Demon Ancestor sneered: "However, this person is not weak in strength, and this breath is barely mentioned compared to the original Demon Ancestor of the year."

"That's natural, Master Luohu Demon Ancestor, in the ancient times, you must have been rampant and invincible." Mo Li said with a smile.

"All right,? Stop flattering and keep doing it."

Luohu Demon Ancestor snorted coldly: "This Demon Sea contains the origin of the Dao of the Sea Demon Race. This Sea Demon Race can also be regarded as the second-class Demon Race of the Demon Race. When we dig the foundation of their Dao, Just swallow the entire Sea Demon Race directly. When the time comes, the strength of this Demon Ancestor will definitely be restored again, and you can also get the strength of the Sea Demon Race."

Luohu Demon Ancestor's eyes were cold: "Before we were too weak. We only swallowed some third- and fourth-level demons. It was just a small mess. Just when the ancestor of the abyss was furious and

his breath was unstable, Cut his foundation, hum, what kind of ancestor of the deep demon, in terms of inheritance, even the great grandson of the ancestor of the demon.

Mo Li and Chi Yan Demon Lord, instantly sank into the depths of this sea of magic, and quickly realized.
now.

In that endless magical starry sky.

"Ancestor, are you okay?"

The towering figure looked at the ancestor of the Abyss Demon who finally calmed down in horror.

Around, the endless starry sky floated and sank, and the void was shattered into a stream of particles, and the magic stars burst directly, and even hundreds of millions of weak and small creatures fell.

The world is in chaos, and the demonic energy is vertical and horizontal.

The ancestor of Yuanmo coldly glanced at the towering figure, and said coldly: "You can send the message, so that all the spies of our clan who are working in the sky can hide and no longer accept any orders. As for some in the outer fire source secret realm The spies, all evacuate."

"Ancestor, what are you?"

The towering figure hurriedly said, what happened to the ancestor?

The spies in the heavenly work have been developed by their demons for hundreds of millions of years. Today, all the insiders are dormant, not accepting any orders, and all the outsiders are evacuated. This is not a tens of millions of years of hard work. Isn't it a failure?

"The spies in the heavenly work have been exposed. As for the spies in the outer secret realm, they will most likely be exposed with the collapse of the inside. It is meaningless to continue to lurch. It is better to seize this opportunity and directly destroy some days. Work things are timely and thorough, hopefully, there will be some fire left behind."

The ancestor of Yuanmo said solemnly.

"It's all exposed? But Xu Gu Zhizun is still in the secret realm of Heavenly Work, does he need to..." What else does the towering figure want to say.

"No need, Xu Gu Zhizun, there are more ills than good luck."

The ancestor of the deep demon sighed. He went back to the long river of fate. The fate of the space ancient beast clan and his demon clan has been broken, and the imaginary ancient supreme, I am afraid that it is already too bad.

"Hahaha, the layout of hundreds of millions of years, once destroyed, interesting, so interesting."

With a gloomy look, the ancestor of Yuanmo suddenly burst into laughter.

"Ancestor, you are..."

The towering figure was a little dazed, the ancestor became angry for a while, vomiting blood for a while, and why did he laugh again?

"You, do it right away."

"Yes."

The towering figure quickly left.

"Qin Chen? Interesting."

The ancestor of the Abyss Demon looked stern, "In this era, with your appearance, the ancestor will have to see what is different."

And after the ancestors of the deep demons knew what happened here.

The news of the destruction of the space ancient beast clan also spread slowly in the universe like a gust of wind.

However, because of the location of the space ancient beast clan and its secrets, there are not many ethnic groups that know it. As a result, the news is only spread among some top races, and it has not yet reached the point where the ten thousand races have responded.

However, there are also some powerful races who know where the Space Ancient Beasts are, causing endless sensation.

"What? The clan of the space ancient beast clan was destroyed?"

boom!

The Bone Race Bone Sea, Ten Thousand Bone Supreme suddenly stood up, with horror and astonishment in his eyes.

What exactly is going on?

"Is it because of the day's work?"

Eternal Supreme was extremely frightened.

Zerg!

Ghost race!

After the insect emperor and the evil ghost supreme heard the news, they also looked furious.

Because they are the only people who know, they naturally know the hidden secrets of the destruction of the space ancient beasts.

Endless starry sky.

The instigators of the incident, Shen Gong Tian Zun, did not know how much they had done. Under the leadership of Shen Gong Tian Zun, in three days, Gu Jiang Tian Zun and others had returned to the secret realm of Tian Gong headquarters.

"The ancient craftsman Tianzun, the next thing about the secret realm of the headquarters will be left to you."

Putting down the ancient craftsman Tianzun and the others, Shen Gong Tianzun said with a smile.

"Hall Master, don't you go back?" The five ancient craftsmen Tianzun hurriedly said.

"Hehe, Qin Chen and I still have important matters to deal with."

Shen Gong Tian Zun smiled slightly: "After you go back, you five will discuss all matters related to Tian Gong. As for what is important, you will inform me later. As for the blockade of the headquarters secret, you will also unlock it. Now that the general situation is set, I don't need to be blocked for work all day."

"Yes."

The ancient craftsman Tianzun respectfully saluted them, and then frowned: "But once the blockade is opened, if the Demon Race still has spies, then what happened in the secret realm of my headquarters, wouldn't it..."

Ancient Craftsman Tianzun and the others worry about the leak.

[Chapter 4248: Go to the ancients](#)

"Haha." Shen Gong Tianzun chuckled: "Such a thing cannot be blocked by itself. Sooner or later, the demons will know about it, and after this battle, I am afraid that the demons will not dare to send them easily. People have come to work for me now. Besides, this matter is a secret of the Demon Race. As long as we don't spread it at will, the Demon Race will naturally not take the initiative to spread it."

The space ancient beast clan took refuge in the demon clan, and as a result the clan was completely destroyed. If such a thing spreads out, it will only lose the face of the demon clan, and make the demon clan's status in the hearts of all races plummet.

The ancestor of Yuanmo is a smart person, so naturally he would not do such a thing.

"However, you have to persuade us to work our own people every day. What happened in the secrets of the headquarters should not be spread easily. As for other things, such as the fact that I have an additional acting palace master every day, it can be careless. Publicize it to the outside world."

Shen Gong Tianzun chuckled.

Qin Chen looked at Shengong Tianzun strangely, always feeling that Shengong Tianzun was uneasy and kind.

He is a younger generation, Shen Gong Tianzun is putting him on the cusp of the storm.

Next, Shen Gong Tianzun ordered something more, and then he turned Qin Chen away.

Ancient craftsman Tianzun and they soon went to the secret realm of the headquarters.

In the treasure hall.

Shengong Tianzun took Qin Chen and left the secret realm of Tiangong headquarters.

"Master Tianzun, where are we going next?"

Qin Chen asked with burning eyes.

"Hehe, I don't know your thoughts yet. Now that you have fulfilled my requirements, then I will take you to the ancient clan. However, after taking you thousands of ancient clan, the Ji family's matter has been resolved. I have one more thing you need to do?"

Qin Chen wondered: "What's the matter?"

"Hehe, don't worry, you will know when that happens. This is not a bad thing, but a great thing, for you, and for your friends."

Shen Gong Tianzun smiled slightly, but his eyes were looking out of the distant universe.

"God is mysterious?"

Qin Chen murmured aside.

Shen Gong Tianzun smiled: "As the master of my Heavenly Work Agent, you must be able to convince the crowd on the journey of refining tools. It will take a few days to go to the ancients this time. In the past few days, I will assess your Refining knowledge."

Qin Chen looked weird. A few days, is that enough?

Before the doubts in his heart fell, Shen Gong Tianzun had already brought Qin Chen into a hidden void in the depths of the hidden treasure hall.

"Wow!"

In this void, the breath of time was flowing, and Qin Chen could obviously feel that the passage of time here was somewhat different from that of the outside world.

"The time rule?"

Qin Chen was taken aback, it was somewhat similar to the acceleration of time in his chaotic world.

"It is indeed the rule of time. When this treasure hall was refining, there was also a trace of the original breath of time. Moreover, it has experienced the baptism of the long river, so it has the power of time, urging to the extreme, and can accelerate time ten thousand times. ."

"Ten Thousand Times."

Qin Chen sucked in air-conditioning. Wasn't it tens of thousands of times outside for a year inside? This is too abnormal?

His own chaotic world, even after the world was opened, was only a hundred times faster, and Qin Chen obviously felt that the power of the years was not enough, and he needed to supplement the power of the years.

Shen Gong Tianzun smiled softly: "In fact, the so-called ten thousand times, it is only below the nobleman. The higher the cultivation base, the greater the power needed to accelerate time. Now that you and I are here, I can accelerate a hundred times. It's already the limit."

Qin Chen breathed a sigh of relief.

A hundred times the time, it was so-so, and it was not much different from his own chaotic world, and it was still under the urging of Shen Gong Tianzun.

In this way, his own chaotic world is even better.

"You have the origin of time. If you achieve something in the rules of time, it is not difficult to speed up time. It is even stronger than the treasure hall. After all, the treasure hall is only integrated into the time origin of the heaven and earth. You have the real source of time. The only trouble is that time acceleration requires a special space, which is not possible with any treasure." Shen Gong Tianzun said.

"When you have the opportunity, let's see if there are such treasures. The treasure of the small world is also extremely precious and cannot be easily obtained."

"Yes!" Qin Chen nodded, but didn't say much.

There is a chaotic world in my young master, would I easily tell you?

Be low-key. Be low-key.

Shen Gong Tianzun said, and brought Qin Chen into the flow of the starry sky. Before he could start, he heard a faint growl in the depths of the starry sky.

Qin Chen changed his color slightly and looked over, and he saw that in the depths of the endless starry sky, there seemed to be a breath of aura, restrained and roaring.

Shen Gong Tianzun immediately waved his hand, covering the void.

"Master Tianzun, that is..."

"The Cage of the Treasure Hall, the Void Sky Venerable and the Space Ancient Beasts were imprisoned there. By the way, all the demon spies I worked for were also imprisoned there." Shen Gong Tianzun said with a light smile.

"Master Tianzun, those tribesmen of the ancient space beast clan..."

Qin Chen hesitated.

Although the space ancient beast clan is only a small clan, it is a race after all. The strong are like clouds and there are many in number. Qin Chen knows that all the space ancient beast clan are collected by this hidden treasure hall, but he does not know how Shen Gong Tianzun is. Disposal, kill all, or...

"Why, your heart is softened?" Shen Gong Tianzun looked over, his eyes were a bit cold, and at this moment, Shen Gong Tianzun was aggressive, like killing a god.

"No." Qin Chen shook his head. He was just a little curious and unbearable. If he was softhearted, he didn't.

"That's good." Shengong Tianzun nodded and said with cold eyes: "There is no softness among the races. Today, it is indeed my work that destroyed his space ancient beast clan, but you know, if the Xugu Supreme breaks through I work in the secret realm of the headquarters, what will he do?"

Shen Gong Tianzun raised his head, his eyes blooming with cold light: "I am afraid that all the creatures in the secret realm of my Tianwork headquarters will become the mouth food of this Xugu Supreme, and you will also die for lunch."

At this moment, Shen Gong Tianzun looked as if he had returned to the ancient times, and his eyes filled with memories and pain.

"Back then, the demons invaded my craftsmanship as the headquarters. What was the result? My craftsmen used as the headquarters for hundreds of millions of creatures, and all of them have fallen. In order to save our lives, our ancestors burned our lives and died together with the enemy. Only then did we retain some of my craftsmanship. But even so, the original magnificence and countless craftsmanship of the disciples have become ash flying, hundreds of millions of creatures, destroyed in one fell swoop."

Chapter 4249 Four Great Families In Ancient World

"This is pretty good. Back then, the demons invaded the heavens of the human race and exploded the heavens and the world. Nearly half of our human race died tragically. Has the demons ever been merciful? Has the ten thousand races been merciful?"

"Therefore, there is no kindness in the fight between the races. Either you die or I die."

Shen Gong Tianzun said with a cold voice, as if admonishing Qin Chen, and as if admonishing himself.

Qin Chen couldn't help but nodded.

He has not experienced that era, and his perception is naturally not as deep as that of Shen Gong Tianzun, but he has also experienced the invasion of Tianwu Continent by alien demons, knowing how terrifying the battle of the races is.

Shen Gong Tianzun's expression softened: "Of course, although there is no kindness in the battle of races, but when it is unnecessary, it may not be necessary to go on a large scale to kill."

"For example, in this space ancient beast clan, noble and above are to be determined, but below noble, if you can surrender to my human race, this seat will naturally leave them a life to serve my human race, but in the future, there may be no space ancient beast clan. And only the people who are enslaved by our human race will completely become the vassal of our human race until they are completely integrated into our human race."

"Well, next, you and I will talk about refining tools."

In this world, time opened up quickly, and Qin Chen and Shen Gong Tianzun immediately began to communicate.

Although Qin Chen's refining attainments are extraordinary, it depends on who is compared. Compared with some ordinary refining masters, Qin Chen, who has obtained the inheritance of Butiangong and others, is naturally extraordinary in his refining attainments.

But compared to Shengong Tianzun, the top crafting master who inherited from ancient craftsmen, Qin Chen naturally still had a big gap.

Apart from other things, the god-worked Tianzun can refining the Tianzun treasures at his fingertips. It is the only craftsman who can refining the Tianzun treasures in the world today. Others such as the ancient craftsmen Tianzun can also try to refine the Tianzun. A treasure, but there are still many shortcomings.

Shen Gong Tianzun did not directly teach Qin Chen how to refine tools, but exchanged some experience with Qin Chen, and conducted some questions and answers. Obviously, he wanted to understand Qin Chen's understanding of tools today.

Shengong Tianzun was also taken aback by this understanding.

Because Qin Chen had extraordinary attainments in the core issue of refining tools, and even in some places, even Shen Gong Tianzun couldn't help but secretly be surprised.

It is because Qin Chen has obtained the inheritance of Butian Palace, has seen the birth of the chaotic world, and has seen the many miracles of the Vientiane Gods. The so-called one method is universal, and many principles are contained in the extremely simple rules of heaven. .

In this regard, Qin Chen is stronger than many top refiners.

For example, Lingfeng Tianzun, who guards the land of inheritance, is also a Tianzun-level craftsman, but on the journey of life perception, he is far from being compared with Qin Chen.

Of course, compared to the specific refining experience, Qin Chen is much worse than Ling Feng Tianzun and Tiangong's many deputy halls.

"This son is extraordinary."

Shen Gong Tianzun looked at Qin Chen, shocked in his heart.

At this moment, he finally understood why Xiaoyao Supreme allowed himself to take care of Qin Chen so much, and also understood why he was able to get the Butian Palace inheritance. Although Qin Chen's cultivation level was still weak, in some respects, it was extremely terrifying.

"On the journey of refining the avenue, everyone has their own understanding. I originally gave you some pointers, but now I find that I can't teach you too much on the journey of refining the avenue. It's not that you are refining the avenue. The Shang has surpassed me, but, to the point where you are, my path is no longer suitable for you, and you need to go on by yourself."

If Qin Chen is still extremely primitive while refining the avenue, then Shen Gong Tianzun can also give Qin Chen some pointers and some reference, so that he will avoid detours.

But after some exchanges, Shen Gong Tianzun understood that Qin Chen didn't need to be much weaker in his understanding of refining tools.

The road is different.

Everyone has their own understanding. If Shengong Tianzun taught Qin Chen his understanding of refining avenues at this time, it would not help him, but would harm him.

However, during the exchange, Shengong Tianzun also discovered that although Qin Chen had an extraordinary understanding of refining avenues, he still lacked a lot in specific refining, and even many of the basic refining techniques of the venerable level could not be used.

It is as if Qin Chen is a master craftsman who has studied in the academy for countless years. In terms of principle, he is a master, but in terms of specific refining techniques, he still lacks.

"What you lack right now is refining experience, but it doesn't matter. Refining experience will naturally improve by refining it more."

Shen Gong Tianzun said with a smile.

Qin Chen also knew where his weakness was. Then, with the help of Shen Gong Tianzun, Qin Chen began to continuously refine.

Refining day and night to improve the level of refining equipment.

Such a refiner needs to consume astonishing Venerable-level materials.

How rare are the Venerable materials?

I am afraid that it is a top power such as the Star God Palace, which can not be used by Qin Chen unscrupulously.

But now Qin Chen is Tiangong's acting temple master, and he has Shengong Tianzun's personal guidance. As Shengong Tianzun, he has accumulated wealth for hundreds of millions of years, no matter what materials Qin Chen needs. Come out, to ensure that Qin Chen won't run out of materials.

Rumble!

In the void of this hidden treasure hall, Qin Chen began to continuously refine pieces of precious soldiers.

And when Qin Chen and the others went to the ancient clan.

Ancient.

Ji family territory.

Although the ancients belonged to the human race, because they had blood from the ancients, they separated their own family's realm from the human world, and only established some external mansions in the human world.

Precisely because of this, when the ancient human celestial realm collapsed, the ancient realm was unscathed. As for some of the residences within the human celestial realm, they were destroyed one after another.

This is also the reason why Qin Chen never found the Ji family's ancestral land in the Southern Heaven Realm.

Because the real ancestral land of the Ji family was not in the Southern Heaven Realm, but in the Ancient Clan Realm, but between the Ancient Clan Realm and the Southern Heaven Realm, there was a plane passage for the ancients to pass through.

Today, the ancient Ji family territory.

There was silence between heaven and earth.

The ancient world where the ancient tribe is located is vast and boundless, and still retains some of the environment of the ancient times, and also has some chaotic atmosphere flowing.

In the ancient world, it is very dangerous, and there are even some wild and wild animals from the ancient times, which are very dangerous.

The Ji family's territory is located in a relatively remote place in the ancient world.

Back then, in the ancient world, the Ji family competed with the Xiao family. As a result, the Ji family was defeated and was boycotted by the Xiao family. The two factions of the Ji family split. One part of the family took refuge in the Xiao family, and the other part was hunted down and almost destroyed.

The Ji family now ranks last among the four major families of the ancients.

now.

In a house in the Ji family territory.

The night is quiet.

Ji Ruyue stared at the sky quietly, her eyes full of longing.

Chapter 4250 Saint Ji Family

After being brought back to the ancient clan by the strong of the Ji family, Ji Ruyue knew that this time things were never that simple.

Although after she returned to the Ji family, the Ji family did not say anything to her and Ji Wuxue, but only let them return to their own courtyard, but Ji Ruyue knew very well that since the Ji family let her and Ji Wuxue go to the sky After work, there must be something important.

However, this kind of thing may not be a good thing.

Standing at the window, Ji Ruyue looked out the window.

"Dust, where are you?"

Ji Ruyue was full of worries and misses.

As soon as the Celestial Guanghan Mansion left, Ji Ruyue lost the news of Qin Chen. She and You Qianxue entered the camp of Tiangong in the Ten Thousand Clan Battlefield to experience and experience the tragedy on the Ten Thousand Clan battlefield.

Later, the Vientiane God Store opened. Although Ji Ruyue and the others failed to enter the Vientiane God Store for experience, they entered the secondary secret realm outside the Vientiane God Store, and they also got amazing improvements.

All of them have stepped into the realm of human respect, and Ji Wuxue has accumulated a lot and became the pinnacle of humanity.

However, there, they also met people from the ancient race, which caused their identity to be exposed and known to the family.

Therefore, halfway back to the work of heaven, he was intercepted by the people of the Ji family and brought back to the Ji family.

Although Tianjiao is the top power in the human race, the ancient race is also a relatively special power in the human race. Although it has not been passed on, not many people know the ancient race, but in fact, the ancient race has an extraordinary status and is very important. Strong, is a super power in the human race.

However, the status of the Ji family in the ancient clan is somewhat special and worrying.

Ji Ruyue sighed and closed her eyes to practice. The only thing she can do now is to continuously improve her strength. In a force like the Ji family, only by improving her own strength can she have enough right to speak.

At the same time, in the conference hall of the Ji family, several powerful men exuding a terrifying aura are sitting here, the leader is an old man, this person is the current ancestor of the Ji family, Ji Tianyao.

"Tian Qi, tell me what you mean, the universe is surging. Not long ago, there was a big battle on the battlefield of ten thousand races. It is rumored that even the ancestors of the Abyssal Demon secretly took action. From my point of view, this time the order was finally restored. For many years of peace, I am afraid that it will be broken again. When the time comes, my ancient clan will not be able to stay out of the matter again. With the sinisterness of the Xiao family, it will surely push my Ji family forward and use it as cannon fodder."

Ji Tianyao's eyes were cold, and he gave a cold snort, exuding a cold and severe aura.

Although the Ji family is still one of the four major families of the ancient clan, the battle that year made the Ji family no longer have the right to speak in the realm of the ancient clan. Today, the ancient clan is the only one of the Xiao family.

The Ji family can only survive by relying on the Xiao family.

Ji Tianqi, the current patriarch of the Ji family, is sitting under the head of Ji Tianyao. He said in a deep voice: "Old ancestor, although my Ji family has depended on the Xiao family over the years, I have been working hard to improve and try to break the Xiao family's Control, but the Xiao family also knows what we think, so not long ago, I deliberately made such a request, asking my Ji family's saint to marry his Xiao family's patron as the 18th concubine, huh, my Ji family How can the saint be a concubine for that old Xiao family."

This saint of the Ji family is the daughter of Ji Tianqi, Ji Xinyi, who is also the strongest arrogant of the Ji family.

"No matter what, I will never allow Xin Yi to marry the Xiao family. You all know that Xin Yi is the top arrogant of my Ji family. She is now at the pinnacle of human respect. What's more, Xin Yi is still young. With the top bloodline of my Ji family, if Xin Yi is allowed to marry the Xiao family, then my Ji family will be completely finished, and never want to get rid of the control of the Xiao family."

Ji Tian Qi Han said.

The other elders on the side nodded: "Xin Yi is indeed the strongest arrogant of my Ji family. It contains the ancient blood of my Ji family. If she marries the Xiao family, my Ji family will be completely finished."

"But if Xin Yi is not allowed to marry the Xiao family, my Ji family will be unlucky. Then the Xiao family will take the opportunity to get angry and take action against my Ji family. The Xiao family's desire to annex all the ancient families has already increased. The stronger, my Ji family is afraid that it is the chicken of his Xiao family who kills chickens and scares monkeys, and is the first one to do it."

The other old man sighed.

Ji Tianqi said in a deep voice, "It's not easy. Isn't it the saint that his Xiao family wants? There are no other girls in my Ji family. Although Xinyi is a saint now, it doesn't mean she has always been a saint. Abolish the identity of Xinyi saint and give it to others."

"Destroy the saint?"

The other elders looked over and their eyes flickered, "Even if the status of Xinyi Saintess is abolished, but someone must marry the Xiao family, otherwise the Xiao family will not give up."

"Hehe, this candidate, Patriarch Tianqi has already been decided." An elder chuckled lightly.

The other elders also raised their eyelids, revealing a clear expression.

Ji Tianqi nodded and said: "Ancestor, yes, Tianqi already has a favorite candidate in his heart."

"Oh?" Ji Tianyao looked over.

"It's Ji Ruyue who soared up from the lower realm." Ji Tianqi said: "This person is a member of my Ji family in the outside world. There is no foundation in my Ji family. Moreover, Ji Ruyue can be regarded as a person of the same line back then. Originally, this Ji Ruyue was no more than a holy master, and I was afraid that the Xiao family would be dissatisfied when it was handed over to the Xiao family.

"But who knows that after Ji Ruyue left my Ji family that time, she actually got in touch with Heavenly Work, entered the Vientiane God Treasure, and even broke through to the realm of venerable, so this person was handed over to the Xiao family Patriarch is a concubine, I am afraid that the Patriarch of the Xiao family is not good to say anything.

"The old thing Xiao Tianxiong, practicing forbidden art, is not one or two concubines who killed him. Asking Ji Ruyue to go there would be considered as a contribution to my Ji family. Otherwise, I can't always use the things of my Ji family. Without paying any price."

Ji Tian Qi Han said.

"Old ancestors, never do it."

At this time, an old Ji family hurriedly said, "No matter what Ji Ruyue is, it is also my Ji family line. If you do this, I am afraid it will chill the hearts of the rest of my Ji family, and Ji Wuxue is already at the peak. Ren Zun, although this person has only been in my clan for more than three hundred years, he has an extraordinary talent. I am afraid that he may be able to become Tian Zun in the future.

"Huh, elder Ji Tiandao, although Ji Wuxue has extraordinary talents, he is an outsider. How can he have a heart is important. Besides, this line back then, in order to fight for the world, made my Ji family fall into this position. What can my Ji family make some contributions? This is what they should do."

"Yes, if it weren't for this line to compete with the Xiao family for hegemony, how could my Ji family end up like this?"

A famous Ji parent always sneered.
