

Valkyrie 4331

[Chapter 4331: Tyrannical](#)

Patriarch Ye Family Patriarch, Patriarch Jiang Family, his face flashed with hesitation.

"Why, what are you two waiting for?" Qin Chen smiled, but the meaning in that smile made people shudder.

"Two, don't you want to continue surrendering to the rule of the Xiao family?" Qin Chen squinted and smiled.

Ye Family, Jiang Family glanced at each other, and a trace of determination flashed across their eyes.

Both of them are heroes, how can they not know Qin Chen's intentions? "Yes, the Ye family and the Jiang family have been dissatisfied with the tyranny of the Xiao family for a long time. My Ye family and the Jiang family have suffered from losing to the ancestors of the Xiao family, so we can only swallow our anger. Today, the Xiao family is tyrannical and innocent. My Ye family, Jiang family, as an ancient

The world family should have the responsibility to resist tyranny and uphold justice. "

"Today, I would like to thank the master of Tiangong's Divine Workers' Hall, the Deputy Hallmaster of Qin and others for their kind help. My Ye family and Jiang family are very grateful."

When the voice fell, the Ye Family, the Jiang Family Patriarch, suddenly turned around and looked at the strong man of the two clans.

"The Ye family, the Jiang family listened to the order, let me kill the enemy, suppress the Xiao family's rebellion, and restore peace to our ancient world."

Boom boom boom!

In an instant, among the ancient world, the Ye Family and Jiang Family masters all rose up into the sky, and instantly killed the Xiao Family in the distance.

A tragic fight broke out suddenly.

"what!"

Although the members of the Xiao family are strong, they have lost the blessings of the top powerhouses such as Xiao Wudao and Xiao Wujin. How can they be the opponents of the two great families of the Ye family and the Jiang family? In an instant, many strong men fell, and the sky was bloody.

In the distance, the Lord of the Void God Hall and others saw this scene, and their hearts were trembling.

terrible.

Unscrupulous.

Whether it is the Master of the Divine Work Palace or this Qin Chen, it is too terrifying. In this ancient world, the ancient world is not considered at all, and the ancient family is mobilized to deal cruelly against the Xiao family.

What a vicious method.

The Master of the Void God Hall looked at Qin Chen, their hairs horrified and fearful.

This kid, although young, is extremely hot and has extraordinary methods.

If it was said that the Lord of the Void God Palace was only shocked by Qin Chen, then now they have even born a slight fear of Qin Chen.

Because Qin Chen is indeed too vicious and sophisticated.

Heavenly work, after all, is an external force. On the one-third acre of the human race in the ancient world, you must not kill wantonly, otherwise, you will inevitably be punished by the Human Race Council.

If Qin Chen and the Master of the Palace of Divine Work directly deal with the Xiao Family and look back, there will definitely be trouble in the Human Race Council.

However, if the Ye Family and Jiang Family did it, it would be different.

Because the Ye family and the Jiang family belong to the ancient world, they can be regarded as the ancient world's own business. Even if there is a shadow of heavenly work behind them, there is still room for change.

"No, ancestor."

"Ye family, Jiang family, you are looking for death."

Here, Xiao Wujin and the others had bleeding from the corners of their mouths. Seeing the Ye Family and the Jiang Family slaughter their Xiao family members, they felt violent and furious.

Xiao Wujin roared, and took the Xiao family masters to go to support.

But Qin Chen flickered and stopped directly.

"Boy, dare you stop me, die!"

At this time, Xiao Wujin didn't have the desire to talk nonsense with Qin Chen. During the roar, he directly urged the Origin, broke Qin Chen's Wanjian River, and blasted Qin Chen away.

Humph!

Qin Chen snorted, his body vibrated.

The pinnacle Heavenly Sovereign was indeed extraordinary. Under Xiao Wujie's desperate death, Qin Chen couldn't resist for a while.

What's more, in addition to Xiao Wujin, the Xiao family also has many powerful celestial beings, and there is even no shortage of later celestial beings.

However, Qin Chen didn't care at all on his face, he just looked at the Void God Hall Master, Kunpeng Valley Master and others.

Being stared at by Qin Chen's gaze, the Hallmaster of the Void God and the top powers of the human race shook in their hearts, they were all clever, and felt a little bit of badness. "You all are the top powers of our human race. Today, the riots in the ancient world, the Xiao family's violence and injustice, undermined the unity of our human race, and wantonly slaughtered the people of the ancient world. I work as a top human race and helplessly intervene. It's the top of my human race

Level forces, seeing this tyranny, why not take action together and return the ancient world to a bright universe, the vast sky?" Qin Chen stared at the Void God Hall Master and others, with a smile on his face: "Everyone, I also cooperate with my daily work. I work daily and contribute many treasures to the human race. You are not only my daily work allies, but also justices if you want to come." Generation is the middle-class of my human race

Zhu, why not take action to help the weak and weak of the ancient world, fight the riots, and maintain the peace of my human race? "

Qin Chen said with a chuckle, but with a smile on his face, the Hallmaster of the Void God and the others were awe-inspiring.

They all saw that Qin Chen was forcing them to do something.

The Void God Hall Master and others all had their eyes flickering.

As long as they do it, they will surely be passed into the ears of the Human Race Council.

but.....

The Lord of the Void God Hall looked up. Nowadays, one is the Xiao family of the ancient world, and the other is Tianwu. The ancient world has always been hidden from the world and rarely participates in human affairs, and has nothing to do with their major forces. On the contrary, Tianwu is the holy place of human refining. The forces have cooperated

.

In addition, if work has the absolute upper hand today, if you disobey day work...

The Void God Hall Master's heart was stunned. If nothing else, it is inevitable to be suppressed by Heaven's Work in the future, and don't think about treasures in the future, unless you go to the battlefield of ten thousand races to fight and seize it, it is almost impossible to buy.

On the contrary, if you shoot now, you will be able to form a good bond with Heaven.

Moreover, it is rumored that the relationship between Tiangong and Xiaoyao Supreme is irreversible, and the master of the divine worker breaks through the supreme, even if the news is returned to the Human Race Council, it is extremely difficult to sanction the master of the divine worker.

The most important thing is that Tianjiao has a genius like Qin Chen, and the future is bound to be extraordinary...

The pros and cons of each, quickly swept in the hearts of several major forces.

"Hahaha, what the Vice-Hallmaster Qin said is that the Xiao family is a family in the ancient world, but it is violent and innocent. Over the years, oppressing many families in the ancient world has caused the people in the ancient world to panic and waste their lives."

The Master of the Void God Hall laughed: "Although we are not from the ancient world, we are also one of the top powers of the human race. We should contribute to the peace of the human race."

"Everyone, follow me to suppress the Xiao family."

The voice of the Void God Hall master fell, and he flew out directly, rumbling, and the terrifying aura of the peak heaven swept across, suppressing Xiang Xiao Wujin and others.

"Hahaha, I'm here in Kunpeng Valley. The Xiao family is so inhumane, everyone gets it."

The Kunpeng Valley Lord also laughed and shot directly, and Kunpeng went straight for 90,000 miles, horizontally and horizontally.

Rumble!

Many of the top human race forces present have taken action to suppress the Xiao family.

If it were the work of the past, the Void God Hall Master would naturally not care about it, but now the Divine Work Hall Master is a supreme powerhouse. With the strength of the Divine Work Hall Master and his refinement skills, I am afraid that the Human Race may even have a supreme level. Master Mixer.

If you don't seize this good opportunity for work, when will you wait?

Amidst the roar, many top Human Race powerful people instantly suppressed the Xiao family powerhouse.

"You..." The Xiao Family was bloody, angry, but miserable.

[Chapter 4332: Giant King](#)

now.

The Xiao family was very sad and desolate.

It is so miserable that a large ancient tribe is besieged by many forces.

"you guys....."

Xiao Wujie roared and led the Xiao family's strong to resist, but how could he withstand the attack of so many strong under the leadership of many top forces on the scene.

"Void God Hall Master, Kunpeng Valley Master, are you not afraid of sanctions by the Human Race Council when you take action against my Xiao family? My Xiao family has stood in the ancient world for many years and has been operating in the Human Race Council for many years. If you dare to move my Xiao family, the Human Race Council will not be light. Rao."

Xiao Wujin shouted fiercely, motivating the power of the ancient world, trying to rush out.

But it's useless. Just a Void God Hall Master is enough to not fear him. What's more, there are many top human race forces such as Kunpeng Valley Master on the court. Xiao Wujin himself was seriously injured in the Yin and Yang Hall. How could he resist so many? The strong?

Rumble!

The terrible banning power came, and Xiao Wujin and others were besieged.

Xiao Wujie urged the power of the ancient world to try to rush out, but the Void God Hall Master appeared in front of him with a flash, and he blasted out with his huge fist.

There was a loud noise, and Xiao Wuxi was blasted out immediately, but with this force, he immediately rushed out from another direction.

Before he had time to rush out, a Kunpeng appeared on the other side, covering the sky and the sun. Kunpeng's giant wings flapped and shook Xiao Wujing away.

The Master of the Void God Hall said indifferently: "Xiao Wujin, your Xiao family is perverted. I won't kill you. I just help the ancient family to correct the chaos. The Human Race parliamentary system does not sanction and has nothing to do with me."

The Lord of the Void God and the others are not idiots. Although he and the Lord Kunpenggu and others obeyed Qin Chen's orders, they never killed the Xiao family. They only blocked Xiao Wujin and others from interfering with the Ye family and the Jiang family against the Xiao family. That's all for cleaning.

And without the assistance of Xiao Wujin and other strong Tianzun Xiao family members, how could the people of the Xiao family resist the joint siege of the Ye family and the Jiang family.

"what!"

Xiao Wudao looked up to the sky and roared, thinking that his Xiao family was the top family in the ancient world, and he was also the supreme powerhouse. He didn't expect to be so embarrassed today.

"Great work, stop quickly, otherwise, Xiao Wudao will never give up. If I get out of trouble in the future, I will kill you who work forever."

Xiao Wudao roared, his supreme aura exploded and went straight into the sky.

"The other day? Huh, there is no other day. If you fall into the hands of this seat, do you want to have another day?"

The master of the Divine Work Hall urged the hidden treasure hall, taking Xiao Wudao into the hidden treasure hall little by little, and suppressed it.

He is not an idiot. Since he had taken the shot, how could he give Xiao Wudao a chance to get out of trouble. "You..." Xiao Wudao struggled fiercely, but to no avail. He lost his ancestor scales, and was suppressed by the power of the ancient world chaos on Ji Ruyue and Ji Wuxue. The blood of the ancient celestial snake in his body also flowed away, and he was seriously injured. , How to have supreme treasure

The master opponent of the magical tool.

This supreme-level powerhouse was pulled into the treasure hall little by little, as if pulled into an abyss.

Not far away, the Master of the Void God Hall and the others were shocked and frightened.

The master of the divine work is too domineering.

Breaking through the supreme, hiding for an unknown period of time, today broke out, not only killing the Star God Palace Lord and the Dayu Mountain Lord, but also destroying the ancient Xiao family, suppressing and taking the supreme Xiao family ancestors.

How terrible are these methods?

Once it spreads out, it will inevitably shock the human world and the tens of thousands of people.

And it's a terrible mistake.

The ancestor Xiao Wudao was furious, angry, and roared.

He felt that his strength was suppressed a little bit, and he couldn't get out of it.

The entire ancient world seemed to be against him, and countless ancient powers in the ancient world seemed to oppress him.

Xiao Wudao looked at Ji Ruyue and Ji Wuxue. He knew that it was the two of them who were motivating the power of the ancient world and oppressing him.

Why?

He should be the unique king in this ancient world.

Unwilling, angry.

More desperate, because he knows that once he is captured by the treasure hall of the God of God, he will be involuntarily, and all the glory and wealth, the domineering smoke and clouds, will disappear.

"Why haven't you come?"

Xiao Wudao raised his head and was about to be taken into the treasure hall.

Suddenly, joy flashed in the depths of Xiao Wudao's eyes.

coming!

He suddenly raised his head, as if perceiving something, showing ecstasy.

At this moment, the Master of the Divine Works also seemed to feel something, suddenly raised his head and looked beyond the ancient world.

Qin Chen also felt something, and suddenly raised his head.

"Boom!"

I saw that beyond the void of the ancient world, a terrible aura suddenly descended, rumbling, and the entire ancient world was rioting. A figure like a sky-reaching figure appeared outside the ancient world, like a giant, overlooking the ancient world.

This is a projection, with the supreme majesty, the deity has not arrived yet, just a silhouette, the sky of the ancient world that has been suppressed seems to be bursting, and the sun, moon and stars are all ruined.

Supreme!

Another supreme.

At this moment, the Void God Hall Master and others stopped, and looked out of the ancient world in horror. The majestic breath was suppressed, as if the sky was about to collapse.

As soon as this majestic giant projection appeared, it roared, "Hall of Divine Craftsman, stop, do you want to violate the agreement of the human race and act on the strong people of the human race itself? What a courage, who gives you the power. "

This roar and rumbling, the entire ancient world was shaking, the sky was surging, the earth was cracking, and the countless ancient chaotic beasts in the ancient world roared, shivering under this terrible breath, and felt the aura of destruction.

"So strong, but also a supreme strong."

Qin Chen's eyes condensed, and his heart was awe-inspiring.

The actions of the ancient world finally attracted the attention of the strong humans, and there are the strong ones of the supreme level, projected to stop the master of the gods.

"The Giant King, take action quickly, suppress this human rebellion, and help me."

Xiao Wudao showed ecstasy, and shouted Lihou, his voice rumbled with resentment.

The words fall.

Everyone present was shocked.

"It's the giant king of the giant tribe." "It was actually the giant king. The giant tribe belonged to the human race with a special bloodline just like this ancient tribe in ancient times. It belongs to the branch of my tribe. In this era, like the ancient tribe, Return to my human race, be regarded as a member of my human race,

The relationship with the ancients is irreversible. "It must have been Xiao Wudao who had previously communicated to the Giant King. Both the Ancient Race and the Giant Race are branches of my human race, and they have similarities. In this way, the private relationship between Xiao Wudao and the Giant King is definitely good, so it will be the first. Time uses special methods to send

King of Giants. "

The Void God Hall Master and others opened their mouths, their eyes flickering.

The ancient race and the giant race belong to the human race, but they are two branches of the human race, and both have special bloodlines, and they are not the purest human race. Therefore, the ancient Xiao Wudao and the Giant King will definitely have some connections with each other. In the Human Race Council, or in the Human Race Alliance, they need to unite and take care of each other in order to have a greater right to speak.

[Chapter 4333: Smart work](#)

Now, Xiao Wudao of the ancient clan is in trouble, the giant king of the giant clan rushed to help immediately.

not good!

At this moment, many people changed their colors and turned to look at the Master of Shengong Hall.

The King of Giants arrived, which is in trouble.

The King of Giants is the premiere of the Giants. He possesses terrifying giants' supernatural powers. He is the supreme power of the human race. He has a great reputation in the universe.

Once the Giant King arrives and joins forces with Xiao Wudao, even if the Master of Divine Work is strong, with his own power, he may not be the opponent of the Giant King and Xiao Wudao.

Even if the master of the divine work hall suppressed Xiao Wudao, as long as the giant king arrived, the ancient clan could change again in an instant.

This changed the colors of the Ye Family, Jiang Family and others.

The Xiao family's background is too strong, and it has been in charge of the ancient world for hundreds of millions of years. Even if Xiao Wudao was suppressed, some of the friends he made were definitely not the Ye Family and Jiang Family, these pinnacle Heavenly Venerable forces can resist.

This is a gulf in class, which cannot be bridged at all. The deity of the King of Giants has not arrived yet. What has arrived at this moment is only a phantom clone, but it is this phantom clone, which is projected at this moment, like the same giant who has raised the universe, high above it, like a god, Quickly

Projected into the ancient world.

The Giant King is arriving quickly, but for the time being, he can only use the projection to intervene. "Master of the Holy Works of God, you are also the supreme human race, let go of the ancient Xiao Family Xiao Wudao quickly, there is still a chance to defend, otherwise, as a member of the Human Race Council, the old man will convict you of betraying the human race today. , Let you work day, from now on

Terran was removed from the list and was hunted down by our Terran Alliance forever. "

The Giant King Projection Rumble said, terrifying power is slowly infiltrating the ancient world.

Many people changed their colors and looked at the master of the divine work hall.

It has to be said that what the Giant King said is very vicious. As a Human Race Member, once the Master of the Divine Work Palace is identified as a Human Race rebellion, it will indeed make Heavenly Work into a state where it will be impossible to recover.

"Hahaha? I am characterised as a rebellious human race? Giant King, I don't know who gives you the power?"

Unexpectedly, the Master of Divine Work sneered, ignoring the opponent at all, pulling Xiao Wudao's body frantically and suppressing it forcefully.

"No, Giant King, help me quickly and break the blockade."

Xiao Wudao changed color and struggled frantically.

Once he is taken into the treasure hall, he will be completely finished. His life and death will be completely controlled by the master of the divine work hall, even if the giant king arrives, it will not help.

"Holy Master of Magical Work, you are looking for death!"

The giant king was furious, a huge face appeared in the sky above the ancient world, booming, this towering figure, with the help of the ancient world, would break into the ancient world.

Vaguely, a towering figure slowly formed in the ancient world. Before the figure stared, it exuded an aura that made everyone present palpitate.

"Huh, King Giant, I want to intervene in this seat with your projection? You are the one who is looking for death." The master of the Palace of Divine Art suddenly raised his hand, boom and boom, and instantly the Nine Heavenly Sovereign Supreme Treasure Being blasted out by him, these nine heavenly exalted treasures turned into a torrent of supreme treasures, suddenly blasting on the body that had not yet been projected into shape.

Immediately exploded the body of the Giant King.

"hiss!"

Many people were shocked.

Damn, is the master of the divine work hall crazy?

Not only did it want to suppress Xiao Wudao, but it also exploded the projection of the Giant King. Is this meant to offend the two supreme human forces?

Although the master of the divine work has broken through the supreme, he is also the master of the heavenly work, but so offending the two supreme forces of the human race, is it really not afraid of being punished?

At this moment, many people are shocked.

Sure enough, the projection of the Giant King in the ancient world was exploded before it was condensed, and he immediately uttered an angry roar: "Holy Master of Divine Work, you are so bold."
"Huh, it's just a projection. What garlic? Yes. Skills, first enter the ancient world, then, as the master of

Heavenly Work, what hasn't I seen? Back then, the demon strongmen attacked my craftsman, and my craftsman as the ancestor desperately killed the enemy and fell into his hands.

There is more than one Supreme, so what are you? Want to sanction this seat too? "The master of the divine work hall is tall and tall, like a **** or devil. "If I don't say my craftsman is an ancestor, I'll talk about this seat. Not long ago, I set up a trap to ambush the supreme ancient beast clan supreme. Captured by the human race, the ancient space beasts have taken refuge in demons

Clan, this seat has destroyed the ancient space beast clan, your giant king, as a member of my human race, should take good care of my human clan, don't follow the footsteps of the space ancient beast clan. "

The master of the divine work hall said with disdain, his eyes contemptuous, like a god.

boom!

As soon as this remark came out, one stone stirred up waves!

All the top powers of all races looked at the Master of Divine Work, the Ancient Space Beasts, was actually destroyed by Heaven's Work?

real or fake?

Many people were shocked.

In fact, when they came to the ancient world, they had also vaguely heard that in a secret realm in the universe there seemed to be a terrorist battle erupting, and a realm destroyed, which seemed to be the ancestral land of a certain powerful race.

Rumor has it that it may be the territory of the ancient space beasts.

However, the territories of the ancient space beasts are very secretive. In fact, the territories of the universe and the tens of thousands of races are secret, and they are generally not easily disclosed. Therefore, although the demons have learned the news, the Human race does not.

At least they are absolutely unaware of these top heavenly powers.

But at this moment, the combination with the words of the Master of Divine Work, suddenly changed everyone's color.

The space ancient beasts are the top races on the list of ten thousand races in the universe. The imaginary ancient supreme, contains the original supernatural powers of space, is extremely difficult to deal with, and has always been neutral.

This is a powerful race that is definitely not weaker than the ancients and giants.

But is such a race actually destroyed by Heaven?

If it's fake, it's okay, but if it's true, all races in the universe are afraid that it will shake and cause shocking waves.

"Xiao Wudao, no one will be able to save you today."

The master of the Divine Work Hall snorted coldly, the power of the Treasure Hall was urged to the extreme, pulling Xiao Wudao into it frantically.

"No, King Giant, save me!"

Xiao Wudao roared in anger.

The terrifying power of the Giant King penetrated and roared: "Master of the Holy Work, stop."

He screamed, while passing through the ancient realm passage, a terrible aura, about to enter the ancient realm, to stop the master of the gods.

However, the Master of Shengong Palace did not change his expression. He just urged the hidden treasure hall violently, and saw that a huge ancient beast appeared in the hidden treasure hall, roaring.

This ancient beast, with a majestic figure, tens of thousands of miles, covering the sky and the sun, once it appeared, it exploded with a terrible atmosphere of space.

This is a peak Heavenly Venerate powerhouse, the patriarch of the Space Ancient Beast clan, Void Heavenly Venerate.

"Skillful!" As soon as Void Tianzun appeared, he looked at the master of the magical work with cold eyes, and there was a monstrous anger in his eyes.

[Chapter 4334: Unparalleled](#)

The master of the Palace of Divine Work coldly glanced at the Void Tianzun, and said indifferently: "Void, if you want your space ancient beast clan to continue to survive, then confine the ancient world to the void and prevent the giant king from entering, otherwise, today, This seat slaughtered you empty

All creatures of the ancient beast clan. "

"you....."

Void Tianzun changed color.

"What am I? Don't do it yet? Do you really want you to destroy the clan of the ancient space beasts?"

The master of the divine work hall coldly said.

Void Tianzun's complexion changed, and finally, with a gritted teeth and boom, his towering figure soared to the sky, and he instantly came to the ancient realm passage. In his body, the original atmosphere of space was permeated, blocking the ancient realm passage and preventing the invasion of the giant king.

Because he knows the fierceness and terrifying of the master of the divine work hall, if he is half-wordless, he is afraid that all the members of the ancient beast clan in the space of the divine work hall master will fall.

He cannot bet.

Therefore, even if he has a monstrous hatred with the master of Shengong, he can only follow the orders of the master of Shengong and do things for the other party.

The space ancient beast family contains the power of the origin of space. The Void Heavenly Venerable directly urges the origin of the space. In an instant, the rolling power blocked the passage of the ancient world, preventing the power of the giant king from being transmitted.

"You... Void Tianzun, lift the power of the space blockade, otherwise, don't blame this king for being polite."

The Giant King roared in anger.

The ancient realm is a self-contained realm. Although he is a supreme powerhouse with great strength, but the passage of the ancient realm is blocked, it is impossible for his power to penetrate out of thin air.

But how could Void Tianzun listen to the giant king's words, for the sake of his tribe, he could only madly block the ancient world.

"court death!"

Boom boom boom!

The power of the Giant King continued to bombard the ancient world, and the entire ancient world was roaring and roaring, as if it was about to be bombarded. However, after all, the ancient world is a world of its own and cannot easily be blown away. Besides, if the giant king really dared to explode the ancient world, it would inevitably lead to the destruction of the creatures in the ancient world, and the death of hundreds of millions of creatures. Will be punished by the Human Council

.

"Damn it, Master of Divine Work, this ancient passage can't stop me, when this king's deity arrives, we must let you know the fate of offending this king."

The Giant King roared and was so angry.

The master of Shengong Palace didn't care, and was not afraid.

"Ji Ruyue, Ji Wuxue, leave this Xiao Wudao to me, you two will absorb the origin of the ancient world." At this time, Shen Gong Tianzun spoke to Ji Ruyue and Ji Wuxue.

"Absorb the origin of the ancient world?"

The two of them were taken aback. On the side, the Jiang Family, Ye Family and other strong men stopped the massacre at this moment, their expressions changed slightly.

The origin of the ancient world is the foundation of the ancient world. Once the origin of the ancient world is absorbed, it is equal to the reduction of the ancient aura contained in the entire ancient world, which will cause huge damage to the entire ancient world.

Even, once the origin of the ancient world disappears, the entire ancient world will collapse, and all ancient people will have nowhere to stay.

"Ye family, Jiang family, you have all seen it, Tianjiao has wolf ambitions, and has not made a quick move to save my ancient world." Xiao Wudao roared, his face gray.

The complexions of Ye Family and Jiang Family changed slightly. The master of the Palace of Divine Work coldly snorted, banged, the terrifying force bombarded Xiao Wudao, causing him to continue to wilt, and then coldly said to the Ye Family and Jiang Family: "Don't worry, this seat will not let you collapse in the ancient world. However, this seat needs half of your source of the ancient world,

Not too much? "

"Half of origin?"

The eyes of the Ye Family and the Jiang Family flickered. If it was only half of the origin, the ancient world would really be fine.

What's more, now that the Ji family and the Xiao family have lost their dominance, the Ye family and the Jiang family in the ancient world will be able to control the remaining half of their origin, and they will benefit more than under the leadership of the Xiao family.

"Okay, half the origin."

Ye Family and Jiang Family said.

This is the bottom line they accept. If the Master of the Divine Work Palace really wants to absorb all the source, even if it is fighting, they have to stop it.

The ancient world is the foundation of the ancient race. Without the ancient world, the ancient race will have nowhere to live, and the supreme will not be born.

"My words count."

The master of Shengong Palace said lightly.

Immediately, Ji Ruyue and Ji Wuxue began to absorb the origin of the ancient world with the help of the Ye family and the Jiang family.

A terrible source was absorbed by the two of them. Among them, part of the power entered their two bodies, but most of the power could not be absorbed. Instead, it condensed into a source ball, suspending the sky.

While Ji Ruyue and Ji Wuxue were absorbing the origins of the ancient world, the master of the divine work hall also completely suppressed Xiao Wudao in the hidden treasure hall, no matter how Xiao Wudao broke free, he could only be suppressed.

Immediately afterwards, the master of the divine work hall raised his hand and leaned towards Xiao Wujin and the others.

"Do not!"

Xiao Wujin and others screamed sternly and were captured directly, and were also suppressed in the Treasure Hall.

Immediately afterwards, the master of the divine work hall raised his hand and absorbed the origin of the ancient world directly into the hidden treasure hall.

Just finished it all.

Boom!

The ancient realm suddenly shook, Void Tianzun suddenly spit out a mouthful of blood, his body was damaged, and the whole person suddenly retreated.

Boom!

The passages of the ancient world were constantly torn open by gaps, and a towering and terrifying breath swept from it.

"Void Tianzun, come back!"

The master of the divine work hall said coldly, and when he raised his hand, the Void Tianzun naturally did not dare to resist, and the master of divine work was taken into the treasure hall again.

next moment.

boom!

The passage of the ancient world burst open completely, and a towering and huge figure that penetrated the sky and the earth finally descended and entered directly into the ancient world.

Is the king of giants.

The Giant King was furious. After entering the ancient world, his icy eyes instantly fell on everyone present. Suddenly, a terrifying supreme will descended, causing the Void God Hall Master and others to shake their hearts and dare not move.

This anger seemed to bomb the universe and ban forever.

"Master of the Holy Work, hand over Xiao Wudao."

After the Giant King entered, he did not directly act, but suppressed his anger, said in a cold voice.

"Sorry, Xiao Wudao, frantic, did something to this seat, and, for wrongdoing, endangering the safety of my human race, today, this seat suppresses it, and will not let it go easily."

The master of the divine work hall coldly said.

"Master of Divine Work, do you really want to be an enemy of my giant clan?" The Giant King stared at the Master of Divine Work, his eyes were like the sun and the moon, with a terrifying aura shaking.

The master of the divine work hall coldly said: "It should be your giants wanting to be an enemy of my heavenly work, right? The ancient world has nothing to do with your giants, and quickly retreat, otherwise you will stop blaming this seat for being polite, even you The Giants suppressed it together."

"The king will want to see what strength you have to say such a big thing."

The Giant King was completely angry.

boom!

The huge popularity soars into the sky, like the ocean, covering the sky and the sun,

Boom! He reached out with his big hand, and in an instant, the entire ancient world was almost burst by his big hand, and the master of the Palace of Gods was severely suppressed, unparalleled in the past.

[Chapter 4335: King of Giants](#)

Boom!

In the void, the giant king reached out with his big hand, covering the sky and the sun, like a curtain of sky, the vast supreme aura permeated, like a vast ocean, pouring out.

At this moment, everyone was shocked and shocked.

Void God Hall Master, Kunpeng Valley Master and other top human powers backed one by one, looking up at the sky.

Between the sky and the earth, a huge giant appeared so majestic that it could almost squeeze the ancient world. His big hand shot out, as if the sky was collapsing and the cover was pressed down.

boom!

This scene was so scary that everyone was discolored and their scalp numb.

The vast and huge palm has not yet fallen, and everyone has a sense of fear of being crushed by a palm, which is transmitted from the soul level to terrible oppression.

How is this not surprising? It should be noted that everyone present is the strongest human being with the highest strength of the human race, and the Tianzun-level figures, even if the sky collapses on the face, there will be no discoloration, but now, it is just a breath, and everyone is shattered. Illusion,

In this palm, there is a terrible will and rule attack.

However, Tianzun Shen Gong was still under this palm, and instead he smiled coldly: "The Giant King, in front of this seat, why arrogant, others are afraid of you, but this seat is not afraid of you, broken."

The words fell, and the treasure hall burst into the sky above the head of Shen Gong Tianzun.

boom!

On the treasure hall, a series of primitive runes appeared. These runes contained the light of the great road. Each rune was as magnificent as a mountain, blooming with terrifying light, and colliding with the palm of the giant king.

With a bang, thousands of runes, glowing glow, smashed into the palm of the giant king, and in an instant, the roar and the sky broke, the entire ancient world trembled violently, as if it was about to burst, shivering.

Under the bombardment of the Treasure Hall, the towering palm of the giant king's terrifying and supreme power was like an egg hitting a stone, instantly shattered, and his energy splashed!

hiss!

The Giant King sucked in air, and his eyes like the sun and the moon burst out with a rainbow: "Supreme treasure? Ancient craftsman as a treasure house?"

"Huh, my vision is good." The master of the divine work hall sneered.

The giant king's face was blue, and he said coldly: "Very good, then let this king have a good understanding of what is so strange about your craftsman's hidden treasure hall."

When the voice fell, the body of the Giant King burst into terrible blood, and above the flesh, a series of terrible supreme auras surrounded, like the same wild ancient savage beast, rumbling over.

Boom!

The giant king collided with the master of the divine work hall, the figure of the divine work hall master swayed, he stepped back a few steps, his steps fell, the earth fell, and the ancient world collapsed.

"The power of giants?"

The master of Shengong Palace changed color.

Although the giants were born from the human race, they contained terrifying divine powers. The tribesmen in the giants were infinitely powerful. Compared with humans, their natural flesh and blood power was terrifying, enough to fight against the monsters and fight against the dragons.

This is a strange force in the human race.

Regarding the strength of the flesh, no one in the human race can fight against the giants, and the giants naturally master the way of the flesh.

"Hahaha, Shen Gong child, come to a battle." Giant Wang Longlong said, crushed and rushed to the sky, breaking through the ancient world.

"Huh, I'm afraid you won't succeed?" The master of the divine work hall hummed coldly, the giant flesh body became holy, so what?

As a refining master, the master of the divine work hall tempers the flesh body, which is calcined with terrible flames all the year round. In terms of the power of the flesh, the refining master is definitely the top batch in the universe.

Boom!

Tianzun Shengong collided with the Giant King, the earth exploded, and the entire ancient world rumblingly roared. In an instant, hundreds of ancient chaotic mountains burst, and the creatures in the ancient world were charcoal, and countless ancient chaotic beasts shattered and annihilated.

"Ok?"

The giant king changed color. At this moment, the master of the divine work hall was full of golden, blood as sacred, hair flying, cutting the void, strong and incredible, actually not weaker than him in terms of physical body.

This miraculous hall master, above the physical body, is so against the sky?

The Master of the Divine Work Palace scanned the surroundings and sneered, "The Giant King, the ancient world can't bear the battle between you and me. It's not as good as the battle against the stars in the universe, dare you?"

"Why not dare!"

"kill!"

The two screamed, rushing to the sky, passing through the ancient realm passage, and instantly came to the dim void outside the ancient realm, far away from the ancient realm.

Now that the ancient world has lost half of its origin, if the ancient world collapses in the battle between the two, then the ancient world will be overwhelmed, and neither of them can bear the consequences.

Outside the void, stars are floating, stars and planets are floating, but in front of the two powerhouses, they are all like projectiles.

The two of them flew across the universe, and along the way, stars were crushed by them and burst apart, like fireworks blooming, splendid.

After a while, the two had arrived in a dead universe.

Many withered stars are suspended and dead, and the two supreme powerhouses are like gods, suspended in the starry sky of the universe, facing each other.

kill!

The two roared, rushing out together, instantly fighting into a ball.

At this moment, in the ancient world.

The expressions of Qin Chen and others were horrified, one by one, they rose into the sky, leaving the ancient world one after another, floating the starry sky of the universe, staring at the battle in the dead starry sky outside the domain.

I saw two towering giants constantly colliding, one by one stars bursting, and one rule after another collapsed.

This scene is too scary.

Even if it was hundreds of thousands of miles away, the power passed from one to the other shook the void, causing the Void God Hall Master and others to change color.

The supreme powerhouse is really too strong.

Rumble!

The battle between the two sides broke the ground.

The giant king stepped forward. In his body, blood was surging, and the whole person was so big that the body was too vast, towering majestic, and the sun, moon and stars in front of him, like bullets, shattered with his fingers.

Bang bang bang!

The giant king stepped on the void, and every step made the void roar and tremble.

He danced with his big hands, easily blasting the stars, seemingly slow, but in fact the speed is so fast that most peak heavens can't catch it. Above his palm, the terrifying physical avenue rules surged, and he came to the master of the gods.

Only a junior, the Giant King was indifferent. At this moment, it was not only for the ancient clan Xiao Wudao, but also for himself.

Although the master of the divine work hall has an extraordinary position in the human race, he was only a peak heaven after all. As a veteran supreme powerhouse, even if the opponent breaks through the supreme, he should be respectful in front of him, otherwise, where is his majesty?

"expensive!"

Accompanied by the terrifying attack of the physical saint, the giant king shot fiercely, covering the sky with his big hands, and the universe directly shattered wherever he passed, and the universe's highest rule avenue was rejected, becoming his unique domain space. With such a blow, the ordinary supreme would have to retreat, but the master of the gods and craftsmanship was fearless, stepped forward, under his loose hair, his eyes were full of warfare, and he laughed: "Awesome, it also contains strong Soul attack, unfortunately, want

To beat this seat is still too far. "The master of the divine work hall laughed, arbitrarily, a terrible flame rose up in his body, burning the world.

[Chapter 4336: Space source fire](#)

"this is....."

Qin Chen's eyes condensed, as soon as the flame came out, the avenues of fire in the universe were retreating, obviously unable to withstand the power of the flame.

This is amazing.

The avenue of fire is the rule of flames in the universe. It is shocking that it will retreat under the flames of the master of the gods.

"Hey, this is the origin of the universe..."

In the chaotic world, Honghuang Ancestor Dragon and Blood River Saint Ancestor also surprised.

"The origin of the universe?"

Qin Chen asked doubtfully. "Universal source fire is a special flame born in the supreme rule of the universe. It contains a trace of the origin of the universe. It can be said that this kind of flame was born from the origin of the universe and possesses the power of the supreme rule of the universe. Therefore, even in the universe of

Avoid the Avenue of Fire. "Honghuang Zulong explained.

The ancestor of the blood river also said: "If this fire is condensed to the extreme, even the supreme powerful can burn it, and things born under the supreme rules of the universe cannot be burned without it."

Qin Chen sucked in air-conditioning, "Is it so strong?"

Those who can burn the supreme powerhouse are creepy when they think about it.

"Nonsense, can't it be called the Origin Fire of the Universe?" Honghuang Zulong disdainfully, as if he has never seen the world before, curled his lips and said: "But what are you surprised, no matter how strong the Origin Fire of the Universe is, it can't be with you. The flame ratio in my mind."

"You mean, Chaos Qinglian Fire?" Qin Chen was startled.

His eyes flashed, listening to the meaning of the ancestral dragon, Chaos Qinglian fire is stronger than the origin fire of the universe?

"Whatever you call it, it is the flame formed by the four great lotus fires." Honghuang Zulong said: "Tsk tsk, this fire is no small thing, even if the universe source fire is in front of it, it is just a little brother."

Little brother?

Qin Chen was stunned. Is Chaos Qinglian Fire so strong?

"Hmph, what you showed is only a small part of the power of the flame, and it is far from the true power of this thing." Honghuang Zulong said with such a surprised expression on Qin Chen's expression.

It was almost that Qin Chen's strength was too weak.

Qin Chen was speechless, which was embarrassing.

now.

The battle between Shengong Zhizun and the Giant King has reached an extremely fierce level, and the billowing flames swept across, instantly enveloping the Giant King.

"Huh? Cosmic Origin Fire?" The Giant King changed color, "Is this fire, is Xiaoyao Supreme concentrating for you?"

The power of flesh and blood in his body is urged to the extreme, resisting the flame invasion. The power of this cosmic source fire is terrible, and it burns his flesh madly.

"The Giant King, you have the upper hand only once."

The rough voice shocked all parties.

Qin Chen felt slightly relieved.

He was a little worried about the Master of Divine Work, but now it seems that he was worried for nothing. Since he dared to say this, the Master of Divine Work was naturally quite confident in his heart.

The Giant King was really angry.

"It's really arrogant!" The Giant King shouted angrily. "With this cosmic source of fire, you want to completely suppress me?"

The giant king's figure became more and more majestic: "This king is arrogant and arrogant to me. You are a small newcomer. It is ridiculous and arrogant."

boom!

The giant king's body swelled, and in an instant, three heads and six arms grew.

Each arm, like a pillar of heaven, runs through the universe.

The law of the world.

This is the magical powers of the Giant King, the three heads and six arms have the same magical powers, using the avenue of the flesh to mobilize the flesh and blood magical powers, this power is enough to suppress the supreme powerful.

However, the master of the Palace of Gods sneered: "It is not necessarily because of the origin of the universe, but what about these?"

The voice of the master of the Palace of Divine Work fell, frantically urging the hidden treasure hall, wow, in the hidden treasure hall, one after another bright chains burst out.

The Treasure Treasure Hall belongs to the supreme treasure, the treasure of heavenly work, but at this moment, it is fully activated.

Wow!

Countless chains, densely packed, overwhelming, directly enveloped the giant king.

"not good!"

There was a warning sign in the giant king's heart, and he was not very afraid of the cosmic origin fire.

Because his physical sanctification is a bit more terrifying than the average supreme. The supreme divine workman wants to rely on the cosmic source of fire to hurt him. It is almost idiotic to talk about a dream, and it can only say that it caused him some trouble.

Divine Work Supreme is not Xiaoyao Supreme, his cosmic origin is still weak.

In fact, the King of Giants is not afraid of such an attack at all. What the King of Giants is afraid of is an attack of the seal type.

His body is strong and defenses are invincible, but once the body is trapped and can't use his magical powers, it will be troublesome.

And he had seen with his own eyes the Divine Work Supreme using this hidden treasure hall to trap Xiao Wudao of the ancient clan, although his physical body was stronger than Xiao Wudao, once he was restrained, the power to break free would be greater.

But it is still very troublesome to be restrained.

"Go away!"

The giant king yelled, his three heads and six arms danced, and he kept bombarding the chains. That huge fist exploded into the void of the universe, and the chains continued to blast away.

"The supernatural workman, you never want to trap me." The Giant King roared.

"Hahaha, don't you? Do you think these are all of this seat? Look at my treasure sea!"

Shen Gong Zhizun sneered, and suddenly raised his hand, banging, and the Treasure Hall suddenly shook, and then, crashed.

From the Treasure Hall, pieces of top-level treasures flew out. The leading ones were several top-level treasures. Behind them, there were nearly ten top-level treasures, and then dozens of them. Ordinary Tianzun treasure.

Behind these many heavenly treasures, there are densely packed earthly and human treasures.

Heavenly Work is the largest refining force in the Human Race Alliance. Among them, there are no less than a dozen strong Heavenly Sovereigns at the Vice-Hallmaster level. As for the elders at the Earth Sovereign level and the deacons at the Human Sovereign level, they are even more unfamiliar.

For hundreds of millions of years, the many craftsmen of Tianzuo have been frantically crafting crafts, obtaining various resources from the Human Alliance, and selling them after crafting them into treasures.

Many of these treasures were sold to Tianzhuo and placed in the treasure hall to exchange for meritorious service and other treasures they needed.

After hundreds of millions of years of operation, the number of treasures in this treasure hall has reached an astonishing level.

Boom!

I saw the void, densely packed with precious treasures of the Venerable, countless treasures of the Venerable turned into a sea of treasures, swept out, it is impossible to count how many treasures of the Venerable there are.

hiss!

Everyone sucked in air-conditioning, the master of the divine work hall was simply too rich.

Qin Chen was also shocked. He had seen some of these treasures when he used the merit value exchange in the Treasure Treasure Hall. How terrible is it that they are released in a swarm?

Moreover, Qin Chen also keenly perceived that this treasure sea, in fact, as the core, is not the leading treasures of the peak heaven, but the treasure hall.

The hidden treasure hall is the core, the core of this treasure sea.

boom!

Countless treasures turned into oceans and dragons, blasting wildly on the giant king.

"Go away." The Giant King roared, constantly bombarding the heavenly treasure.

[Chapter 4337: Deeper than I thought](#)

Originally, some people respected treasures and earthly treasures, but in fact they couldn't break the giant king's defenses at all. Even with the giant's full force, they could even explode an earthly treasured weapon with one punch.

However, this is the case of a single piece of earthly treasure, but after countless treasures are merged under the power of the treasure hall, the combined power of these countless treasures is not weaker than that of a supreme treasure. Device.

At this moment, it is equivalent to having three supreme powers attacking the Giant King.

The source of the universe fire.

The treasure house itself.

Plus the treasure sea under the blessing of the treasure hall.

"Damn it, you despicable villain, just fight me honestly." The Giant King roared angrily. While resisting the chain attack of the Treasure Hall, he also wanted to resist the sea of treasures transformed into treasures from the sky. At the same time, he had to resist the terrible invasion of the source fire of the universe, and suddenly he was a little confused, and he was attacked several times.

The physical body has suffered a little loss.

"You are forcing me!"

"Ahhhhhhhhhhhhhhhhhh..." The Giant King raised his head and roared, and the surrounding space instantly cracked, and even the god-worker Tianzun was directly forced to retreat violently.

For a time...

The master of the divine work hall, the treasure sea, and the source of the universe could not get close.

The monstrous power dissipated by the Giant King... was so strong that it stunned Qin Chen and others from a distance. This Giant King is indeed terrifying, and this is the real supreme power! Previously, whether it was Xiao Wudao of the ancient clan or Ji Jia Ji Tianguang, they were actually in a period of weakness. One was the loss of the blood of the ancient robbery python, the most powerful force of the ancient clan, and the other was that it was itself. The living dead, never recovered, were

Can't move in the hall of sleepy yin and yang.

Therefore, it can be suppressed and subdued by the master of the gods.

But facing the supreme in the heyday state of the Giant King, Qin Chen and the others finally understood the terrifyingness of a supreme, which was definitely not comparable to the Supreme Heavenly Sovereign of the Void God Hall Master.

The gap between them is too big.

Supreme, Supreme.

This is the Supreme Venerable.

"Hmph, King Giant, it's useless, the origin of space, space confinement!" The master of the Divine Worker Hall shouted angrily, and a terrible space power filled the Treasure Hall.

Hum!

In the void, space is imprisoned, and the body of the giant king is affected.

"what!"

The giant king was so powerful that he simply ignored the treasure sea and slammed directly at the master of the Palace of Gods with a punch, but he was bound by space, and at the moment when the space was bound...

Wow!

The hidden treasure hall was radiant, and a golden chain suddenly appeared in the void. The golden chain that emerged from the void was directly tied to the arm of the Giant King, making it impossible to hit the Giant King with this punch.

"No!!!" The Giant King was suddenly shocked.

Another aquamarine chain stretched out from the void, directly tied to the other arm of the Giant King, and a water-blue chain also extended from the void...

I saw a chain of chains born in the void, each chain was silent, but bound to the giant king with irresistible power.

Wow!

These chains, through the original force of space, penetrate the void and directly bind the Giant King.

"Damn it!" The Giant King roared angrily, struggling frantically, banging banging, every chain shook violently, tearing the void, and the chains were gradually broken away.

But the aura on the giant king's body gradually weakened.

This chain actually contains a special magical power.

"The power of giants."

boom!

Finally, with a roar, the Giant King broke free from the chains of the sky, and the chains were flying in the cosmic starry sky like a snake.

Huh, Huh!

The Giant King panted heavily and looked at the Master of the Divine Worker in anger. This chain was so terrible that it could hurt his giant origin.

"Master of the Divine Work Hall, if you hadn't possessed such a supreme treasure as the Treasure Hall, your physical strength alone would not be my opponent at all!" The Giant King looked down and shouted angrily.

"Idiot, I am the Lord of Heavenly Work, and I don't need treasures, can I compare my strength to your giants?!"

The Master of the Divine Work Hall sneered and looked at the Giant King, but he was also a little frightened. This Giant King was indeed terrifying in strength, and he broke free from his bondage.

Otherwise, it will never be so easy to escape.

"The Giant King, do you still want to fight? If you want to fight, I will accompany you, otherwise, just get out."

The master of the divine work hall sneered.

The Giant King stared at each other angrily.

The Master of Divine Work also looked at him and sneered.

The two are far apart. "Very good." The Giant King laughed angrily, "Today, I will not kill you, but you are doing evil in the ancient world, destroying the peace of the ancient world, and even causing unrest in the ancient world, suppressing the leader of the ancient world, Xiao Wudao, this matter, it's never so easy to stop, this king will

Immediately send a letter to the Human Race Council to condemn you as a crime of undermining the unity of the human race. When the time comes, it depends on your sophistry. "

"If you have the ability, just go and sue, how can this seat be afraid of you?" The master of the divine work hall sneered: "If it's okay, just get out of the way. When the strength of this seat is improved, I will definitely discuss with you the giant king."

The giant king gritted his teeth.

But he can only hold back his anger. This Divine Worker Palace Master is too evil, equivalent to possessing several supreme treasures, and he wants to suppress the opponent today, I am afraid it is impossible.

Even if he died desperately, the master of the divine work hall was invincible, it was enough to escape, and the gain was not worth the loss.

"Huh." The Giant King turned his head and looked at Qin Chen and the others in the distance, and snorted coldly. That terrible supreme power was used to make Qin Chen and the others pale.

boom!

The Giant King suddenly rose into the sky, far surpassing light, directly breaking through the obstacles of the rules of the universe, and disappearing instantly.

And the originally chaotic and shattered cosmic space has completely restored its calm, the emptiness in all directions is full of turbulence, and the ancient world in the distance has gradually calmed down.

As if nothing had happened before.

Qin Chen and the others flew towards the master of Shengong Hall, while the master of Shengong Hall raised his head and looked at the quiet void of the universe.

"Everyone, what we are doing today is for the human race. If there is dissatisfaction, you can see it at the human race council."

The Master of the Holy Works of God said lightly.

Qin Chen and others were surprised.

Lian looked around to the void.

Rumble!

In the distant void, there seemed to be several terrifying figures appearing, looming, and then quickly disappearing.

Qin Chen and the others felt that the previous feeling that had always been suppressed in their hearts, this slowly disappeared.

"There are strong ones who are spying and paying attention here."

Qin Chen's heart was stunned, he felt that before, not only the Giant King, but also other powerful people were watching from a distance.

Also, the ancient world fluctuates so much, how can only the giant king perceive it.

Are those also strong in my human race?

Qin Chen felt awe-inspiring. He has always thought that supreme-level figures are extremely rare, and now it seems that the water of this universe is far deeper than he imagined, even among the human race, it is not as he imagined.

[Chapter 4338: All excited](#)

At this moment, Qin Chen felt awe-inspiring.

This universe is definitely not as simple as I thought.

But think about it, the universe is vast. In the ancient chaos era, the number of the supreme powerhouses was as large as the stars. Although the vast majority of them have disappeared, there will not be only a few people in this billions of years.

Human Race is one of the two top powers in the universe, and the number of powerhouses is by no means the only one that I can see.

Whoosh!

Qin Chen, Ji Ruyue, and Ji Wuxue came to the master of the Palace of Magical Work together.

Not only them, but also the Lord of the Void God Hall, the Lord of Kunpeng Valley, the Lord of Tongtian City, and even the Patriarch of the Ye Family and the Jiang Family, all rushed together with respectful expressions.

With the power of one person, repelling the Supreme Giant King of the Giant Race, and shocking the many powerful people of the Human Race, if the former master of the Divine Work Palace is because of the special status of Heavenly Work, he has an extraordinary position in the Human Race.

Then the current master of the divine work hall has used his strength to verify himself.

Supreme strong.

Megatron universe.

"Congratulations to the Master of the Holy Work God, for saving the elder Tiangong."

"The master of the Palace of Gods broke through the supreme realm, and our human race has added another leader, which is gratifying."

"As the master of Heavenly Work Hall, the top crafting master of the human race, breaking through the supreme realm will surely bring great benefits to my human race, and it is indeed the fortune of my human race."

Void God Hall Master, Kunpeng Valley Master, and many other human top heavenly powers, saluted and looked respectful.

His attitude is not flattering, but he is respectful and respectful.

This is the majesty of playing.

They can be regarded as convinced of the master of the divine work hall, completely convinced.

"You don't have to be polite, we are all the mainstay of the human race, and the backbone of the human race against the demons, why do you think so." The master of the divine work chuckled, raised his hand slightly, and suddenly a terrible force supported everyone. He actually lifted the Void God Hall Master and others together, "Everyone is very pleased to help me with the ancient world today. From now on, as long as you and I work together

As you stand on the same front, this seat can guarantee that the forces you are in will have the priority to purchase treasures in our day. "

The master of the divine work hall smiled and said.

hiss!

As soon as this statement came out, everyone in the audience sucked in air-conditioning, and the faces of the Master of the Void God Hall, the Master of Kunpeng Valley and others all showed ecstasy.

"Thank you, the master of the divine work." The master of the virtual **** and others hurriedly saluted, their excited voices trembling.

The right to buy treasures first?

It doesn't sound great, but the Master of the Void God Temple clearly knows how great this benefit is.

It should be noted that although Tianjiao is the top crafting force of the Human Race, it can be used by all forces of the Human Race to purchase treasures with merit.

However, Heavenly Work's speed in refining treasures is limited after all, even if the number of refining masters is large, facing such a huge number of Human Alliance, it is far from enough.

Therefore, many forces will encounter the experience of not having enough treasures in the process of actually buying treasures in Tianjiao, and they need to queue up for appointment.

Even this line is thousands, tens of thousands of years.

This has also led to some forces that are extremely lacking in treasures, and even need to spend a lot of money to go to other forces to purchase Tianjiao's advance purchase rights.

Just buying treasures from heaven, you don't need to wait for this, or you can get the power of treasures within a hundred years. It has become a scarce commodity in itself. It is expensive in the Human Alliance, and even has no market. .

After all, meritorious service can be obtained on the battlefield of ten thousand races, but it is not easy to purchase suitable treasures.

No matter how big the power is, it will be scarce.

Now, the Master of the Holy Work Palace actually gave them these forces the priority to purchase treasures.

day.....

If it spreads out, other top human race forces who have never been here will be mad with jealousy. Seeing the excited expressions of the Master of the Void God, the Master of the Shengong didn't take it seriously, and said with a chuckle: "Besides, as long as you are in the Human Race Council and are on the united front with our heaven workstation, then this seat can guarantee that During the year, everyone present

Lidu will get the right to buy one from my work day, the weakest equivalent to the top-level heavenly treasure. If there are enough treasures, it can even be exchanged for a peak heavenly treasure. "

boom!

Everyone shook.

When these words fell, the Hallmaster of the Void God and others were almost crazy with excitement.

Everyone looked excited and whispered frantically.

"Hallmaster of Shengong, what are you saying is true?" The master of the virtual **** stepped out, his expression excited. If the right of pre-emption is to allow their major forces to overwhelm other forces in obtaining the treasures of the venerable, then the promise of buying a top treasure of celestials is for their peak celestials. A great piece

Alluring things.

Even something that makes them crazy.

This is about their own strength and the hope of survival in the universe.

For example, today, the reason why the master of the divine work is able to suppress the ancestor Xiao Wudao, the ancestor of Ji Tianguang, and repel the giant king is not because of how strong the master of the divine work is.

No matter what, the master of the divine work hall is just a junior who has just broken through the supreme realm.

No matter how strong it is, it is at best equal to the Giant King.

And the real reason why he was able to repel the other party was because of the hidden treasure hall and many treasures on the master of the Divine Work Hall.

When they reach the realm of the Void God Hall Master, each of them has reached the realm of the peak Heavenly Sovereign, and it is difficult to climb to the sky if they want to go further.

Many need to use treasures to defeat masters of the same level.

You have a pinnacle heavenly treasure, if others don't, you are better than others.

It's just that it's too difficult to obtain the Peak Heavenly Venerable Treasure.

Although Tianjiao is open to the purchase right of the top treasures of the Human Race, it is only a treasure of the human and earthly level.

Tianzun-level treasures are strategic materials, and Tianwork will not be sold.

But today, this constraint has been broken.

A pinnacle Heavenly Sovereign treasure is enough to drive an ancestor with the top-level Heavenly Sovereign power crazy.

The master of the Palace of Gods with a smile: "Of course it is true, it's just a pinnacle heavenly treasure. With the current strength of this seat, as long as there are enough materials, it is not difficult to refine one."

hiss!

Everyone sucked in air-conditioning.

It really is.

As the master of Heavenly Work Hall, everyone knows that he can refine the Heavenly Supreme Treasure.

It's just that, in the realm of the former peak of the gods of the gods, it is not easy to refine a top-of-the-line treasure, it takes a lot of time and energy, and the probability of failure is also great.

But now, the Master of Divine Work has already broken through the supreme realm. With his refining skills, as long as there are enough materials, the difficulty of refining a peak heavenly treasure is definitely more than ten times easier than before. For a moment, the Master of the Void God Temple was all excited.

[Chapter 4339: Maka](#)

"Please don't worry, the master of the Palace of Gods, the Xiao family of the ancient clan, perverse acts, the Ji family of the ancient clan, who framed me, are all people who deserve to be killed. Whether here or in the Human Race Council, I think so. There will be no changes."

The Void God Hall Master looked solemnly, and said rumblingly.

Even, there is a hint of swearing, which contains the original will.

When the master of Kunpeng Valley and the others changed their colors, the master of the Void God Hall was using the origin to swear a promise?

If he turns his head and violates it, although there will be no life-threatening, it will definitely affect his Dao Xin.

This is a voucher.

Damn, this Void God Hall Master is too despicable. He used to think he was very upright. At this time, he couldn't wait to express it.

How can he take such a good thing?

Before the voice of the Master of the Void God Temple fell, the Lord Kunpeng Valley also took a step forward, raising his right hand, vaguely swearing by the soul: "Don't worry, the Lord of the Godgong, I, Kunpenggu must stand together with the Lord of the Godgong. Say no to his despicable behavior."

"It's the same with my Tongtian City."

"My Supreme Valley is also looking forward to the master of the Temple of God's Work."

Suddenly, an ancestor of the top powers stepped forward and hurriedly expressed his position.

A top-level heavenly treasure, just relying on them to go out to plunder, I am afraid that it may not be plundered in a lifetime.

If you can buy it directly for work today, what are you waiting for?

What justice?

What justice?

Can you eat?

It is far worse than the top-level Tianzun treasure.

It smells so good!

An ancestor of a top-ranked Tianzun force couldn't wait to express his stance and looked at Qin Chen dumbfounded.

Big buddies.

You are all the ancestors of the top human forces, are you all so unethical?

Even if you are really thinking about treasures, you will always pretend to be? Does it need to be so hard?

Qin Chen and Ji Ruyue and Ji Wuxue looked at each other, both speechless and dumbfounded.

The Master of the Divine Work Palace smiled slightly and said: "I believe that you can stand on the side of justice. For all the righteous people, if you come to work in my day, my work will be warmly welcomed."

"sure."

The master of the virtual gods respectfully said.

When Patriarch Ye, Patriarch Jiang and others saw this, they also stepped forward at this moment, "Ye Lan, Jiang Ya, have seen the master of Shengong, I don't know how the ancient world should develop in the future, please also ask the master of Shengong to express."

The two of them looked worried and respectful.

No way, the Ji family and Xiao family were almost destroyed by the master of the divine work hall, and they were also afraid.

It is not impossible that the master of the divine work hall sees them unpleasant and destroys them casually.

So, don't look at the two great families left in the ancient world, but the two great families didn't dare to be presumptuous.

The master of the Palace of Divine Workers smiled slightly, but didn't care, and said lightly: "How your ancient realm develops, naturally, it should be managed by your ancient family, and it has nothing to do with this seat. Why should this seat intervene?"

Ye Lan and Jiang Ya were startled, and said: "No, no, the master of the divine work is the top powerhouse of my human race, and even the savior of my ancient world. The development of the ancient world naturally needs the correction of the master of the divine work. "

The master of the divine work hall looked over indifferently: "I can't tell the truth, but there is one request."

Ye Lan and Jiang Ya respectfully said: "Please tell me." "The ancient tribe of the ancient world was originally a member of my human race, but for hundreds of millions of years, it has been closed and closed. Under the leadership of the Xiao family, the ancient tribe of the ancient world has been Hidden in the world, I have never made any contribution to my human race against the demons. Therefore, if Ye

The family and the Jiang family are in charge of the ancient world. I hope that the Ye family and the Jiang family can shoulder the responsibility of the ancient world and contribute to our human race. "The Master of Shengong Hall solemnly said.

Hearing that, everyone was solemn, and no one thought that this was the request of the Master of God's Work Palace?

Ye Family and Jiang Jialian respectfully said: "Please rest assured, from today, our ancient world will open up, and all the major forces present are welcome to communicate with our ancient world."

The Void God Hall Master and the others moved in their hearts, if the ancient world were to open up, this would really be a great thing for the human race.

The ancient tribe of the ancient world, inherited from the ancient times, contains the ancient power of chaos, for the strong of any force, you can learn a lot. At the same time, Ye Lan and Jiang Ya immediately said to Ji Ruyue and Ji Wuxue: "The development of our ancient world requires two Ji families to work together. Now that the ancestors of the Ji family are destroyed, the two can be regarded as the rulers of the Ji family. Please also join me with the Ye family and Jiang family

, And contribute to the development of ancient world together. "

"Forget it, the Ji family." Ji Ruyue snorted coldly: "I am no longer a member of the Ji family. You can do anything about the Ji family."

What Ji family, a group of despicable, despicable generation, since this incident, Ji Ruyue has never wanted to get involved with the Ji family anymore.

The only relationship between Ji Ruyue and the Ji family is blood. However, it has been many generations, and I really asked how much Ji Ruyue and the Ji family have feelings, but there was nothing at all.

"This....."

Ye Lan and Jiang Ya looked at each other. Although the ancestors of the Ji family have fallen, but there are still many people and disciples in the Ji family who are still in the ancient world, don't these two have any desire to rule?

Anyway, the Ji family can be regarded as a top heavenly power in the human race.

Although the Patriarch and the ancestors, as well as many Tianzun elders were destroyed, if the remaining disciples were to integrate, it would be a powerful force.

Moreover, as one of the four great families of the ancient world, the Ji family also occupies a lot of resources in the ancient world, which is not a small amount.

If someone else refuses this way, the Ye family and Jiang family will accept it directly, but Ji Ruyue and Ji Wuxue are both people who work in heaven, and they naturally dare not neglect.

Immediately the two hurriedly said: "No, no, this Ji family still needs two people to control."

If they look back and see that they have taken up everything from the Ji family and want to make trouble, where can they make sense? Seeing the two men so nervous, Ji Wuxue couldn't help being speechless. He thought for a moment, and said, "That's it. Now the human race is in danger. The ancient world is a force of my human race, so I can't slaughter wantonly, and the Xiao family and the Ji family. The matter is basically Xiao Wu

Dao, Xiao Wujin, Ji Tianguang, and Ji Tianyao did not know much about what the remaining disciples had done. If both of them were slaughtered, it would be because of the incompatibility of the heavens and the Human Race Council. "However, I don't have time to manage the Ji family. If that's the case, that's it. Next, the Xiao family and my Ji family will be managed by the Ye family and the Jiang family. I hope the two clans will experience. After this incident, I can understand myself

Responsibility, figure out their status. "

Back then, when the Xiao family defeated the Ji family, they did not completely slaughter the Ji family. It was not unwilling, but impossible.

Today, the Ye family and Jiang family are the same. However, Ji Wuxue was too lazy to manage, and directly pushed the Ji family and Xiao family to the two big families, and let the two big families assist in management.

[Chapter 4340: Righteousness](#)

"This... also works."

Ye Lan and Jiang Ya are bitter, and there are people in this world who arbitrarily manage their own family to other people, which makes the two have a headache.

But since Ji Wuxue said so, the two of them could only respond, frowning, thinking about how to deal with these two big families.

"Now that we have handled it, Qin Chen, Ji Ruyue, and Ji Wuxue, I will leave when I wait."

The master of the Divine Work Hall said, and immediately took Qin Chen and the three people, and suddenly disappeared into the universe.

Seeing that the Master of Shengong and the others left, the Ye Family and Jiang Family were all relieved, and the Master of the Void God and the others were all shocked, looking at each other and sighing.

Unexpectedly, the ancient world and his party finally achieved this result, which is really unexpected to everyone.

"Everyone, then I'll wait, I'll leave first."

"Haha, goodbye."

"Everyone, there will be a period later."

Immediately, the Master of the Void God Hall, the Master of Kunpeng Valley and others gave their hands, and then took their disciples, turned and left, disappearing. Although they were shocked one by one, they were also pleasantly surprised. This trip to the ancient world will not only be able to cooperate

with the ancient world in the future, but also get the right of first refusal to purchase the treasure of Heavenly Work, and even a top-grade Tianzun treasure. Purchase qualifications.

It's a big reward.

The ancestors of these top powers all smiled one by one, their mouths were split, and the smile came out.

On the other side, the Ye family and Jiang family also returned to the ancient world and began to deal with the ancient world.

What happened today has had a huge impact on the ancient world. Although the two ancient families of the Ji family and the Xiao family have fallen, the Ye family and the Jiang family still need to do a lot of things if they want to completely control the ancient world.

However, for the Ye Family and Jiang Family, their gains were even greater than the strength of the Void God Temple.

The Xiao family and the Ji family were not behind. The two big families could control all the resources of the ancient world. Although half of the origin was taken away by the master of the divine work hall, the remaining half of the origin was enough for the development of the two families.

Even if they control the ancient realm, it is not certain that they are expected to enter the supreme realm in the future.

After all, the origin of the ancient world is not static, it will recover slowly.

now.

The void of the universe.

The three of Qin Chen entered into the treasure hall of the Master of Divine Craftsmanship, shuttled through the void and hurried on their way.

Qin Chen perceives the emptiness of the outside world, and slightly reveals a look of doubt: "Hall Master, the direction we are going now does not seem to be the secret realm of Tiangong Headquarters?"

The master of the divine work hall chuckled and said: "It wasn't originally back to the secret realm of the headquarters."

"Then we are going?"

Qin Chen was puzzled. Ruyue and Wuxue had already been rescued, and the affairs of the ancient world would inevitably spread out at an extremely fast speed. For such a big matter, the Human Race Council would definitely punish Heavenly Work.

The secret realm of the Tiangong Headquarters would be the safest place. If you don't go back in time, Qin Chen is really afraid that the so-called Human Race Council will intercept them halfway and do something to them.

"Hehe, don't worry, you are very familiar with the place I am going. When I get to that place, I still need the three of you to do one thing." The master of Shengong smiled lightly.

"Should the three of us do something?"

"Yes, only the three of you can do this, but I can't do it at all." The Master of God's Work Palace chuckled.

Suddenly, Qin Chen was even more puzzled, what on earth was the mysterious secret of the master of the divine work hall? Actually only the three of them can do it, but the master of the divine work can't do it himself?

"Relax, this is a good thing, and it will be of great benefit to the three of you. If it weren't for this seat who couldn't do it personally, this seat would not give such a good opportunity to you three."

The master of the divine work hall seemed to smile but not smile.

Great benefit?

Qin Chen was puzzled, but didn't ask much.

He was quite relieved of the master of the divine work hall.

"Even if it's a great thing, don't you need to be in a hurry?" Qin Chen said again.

After all, their party has just made such a big incident in the ancient world, the Human Race Council will definitely move.

"I know what you are worried about, it must be the Human Race Council, but what you are worried about is not unreasonable. This trip, I wait for such a big trouble, the Human Race Council will definitely not give up, after receiving the request of the Giant King, there will be Move."

The master of the Palace of Divine Workers sneered and snorted coldly: "And this thing I will do next is to make me work hard and stand in an invulnerable position."

Speaking of this, the Master of the Divine Work Hall looked at Qin Chen: "Do you know, what do I need to fight against the Human Race Council?"

"Strength!" Qin Chen said without hesitation.

What sanctions and justice are nothing more than strength.

If a person has enough strength, he can have the right to speak, and no one can sanction it.

The master of the divine work hall smiled, "Haha, you, you."

"But what you said is correct. Sanctions and **** are just names made by some hypocritical people." The Master of the Holy Work sneered, "If there is enough strength, who dares to sanction?"

"However, strength is only one of them, and there must be righteousness!"

"Great justice?" Qin Chen frowned, and Ji Ruyue and Ji Wuxue frowned.

The master of the divine work hall solemnly said: "Yes, it is righteousness, so that others can't sanction your righteousness."

He has deep eyes, a chuckle at the corner of his mouth, and a confident mind.

At this time, Qin Chen was curious, and didn't know what the great righteousness of the master of the divine work hall was.

However, he didn't ask either. Anyway, he could see that the master of the Divine Work Hall was an old yin bi. Since he dared to do something in the ancient world, he would never be afraid of sanctions.

When Qin Chen and the three of them were led by the Master of the Divine Workers, they quickly went to a certain place.

What happened before in the ancient world, like a hurricane, was quickly transmitted through the universe.

Many top forces in the Human League received this news almost at the same time.

boom!

Suddenly, the universe shook, and the human race was shocked.

"What? The master of Shengong broke through the supreme realm, and took the agent of Heavenly Work to go to the ancient world, destroying the master of the star palace and the mountain master of Dayu, killing the Ji family, imprisoning the ancestor of Xiao Wudao, and repelling the giants. King of Giants? Is this news true?"

When the news came out, the human race shook, as if a stone caused a thousand waves, and the entire universe was no longer peaceful.

In the beginning, many people were shocked by the news that the Master of the Holy Work had broken through the supreme realm, but immediately, everyone's eyes focused on what the Master of the Holy Work had done.

Arrogant!

overbearing!

It's impossible!

Killing!

Although the Master of Divine Work has made many contributions to the Human Race, when the news spread, the Human Race was shocked, and the major forces were dumbfounded and could not believe it.

The Master of Divine Work, too arrogant, too arrogant, turned the ancient world into such an appearance, and even killed the ancestors of the pinnacle forces of the two great human races.

How presumptuous.

Star God Palace and Dayu God Mountain, although they are not supreme powers, they are the top two among the human heavenly powers. They are famous and powerful.

But now, they are the ancestors of these two great forces, because they antagonized the master of the divine work in the ancient world, they were directly obliterated by the master of the divine work. This kind of news shocked many people, while others were angry.
