

## Valkyrie 4341

### [Chapter 4341: Ancestor](#)

The universe is vast.

In a hidden void in the depths of human territory.

A series of vast rules shrouded, the world rules, turned into a vast river, shrouded the void.

Here is where the Human Race Council is located.

The Terran Council is where the major issues are discussed within the Terran Alliance and represents the supreme will of the Terran Alliance.

The Human Race Council is divided into two levels, one is the Human Race internal council and the other is the Alliance Council. The internal parliament is the parliament of the top forces within the human race, discussing the human race's own affairs, while the alliance parliament is the parliament of the entire human alliance. Once a major event occurs, the entire human alliance, including the monsters and other races will also participate

.

At this moment, the Human Race's internal council is seated.

A deep vortex revolves, in which, the starry sky swams, exuding a terrible breath.

The internal world of the Human Race Council has been silent all year round. Only when there are major issues will it become lively. Normally, there is only endless emptiness.

But today, the land of the Human Race Council is noisy.

Hum!

One after another magnificent stone pillars were born around the whirlpool, and the stone pillars reached the sky. On the stone beads, thrones appeared one after another, and on the throne, magnificent figures emerged.

There are seven or eight phantoms, and each phantom exudes an aura that reaches the sky and the earth. The supreme rules of the universe are all retreating.

"You should already know what happened today. Let's talk about your opinions."

A towering figure said indifferently.

"The gods are supreme, bold and reckless, trespassing into the ancient world, killing the Star God Palace Master and the Dayu Mountain Master, and even capturing the ancient Xiao family ancestor Xiao Wudao, bold and reckless, destroying the peace of our human race, this matter, we must not give up."

A figure with a terrible breath surging all over said, the voice rumbling, the road trembling. "This is what my ancestor meant. The Giant King has formally written a letter to the Human Race Council, demanding severe punishments for the Supreme Master. Although the Supreme Master has not yet joined our council, as the Supreme, he must also abide by the guidelines of our Human Council.

If you rush to kill the strong man, otherwise, what will my human race be like? "

"He is a newly promoted Supreme, and he doesn't know when he broke through. He has been hidden until now. He has not reported to my Human Race Council. Once he takes action, he will destroy many of my Human Race forces. What does it mean?"

"Huh, in my opinion, the Supreme Master of God's work kills the Star God Palace Master and other top heavenly powers. This is the power that compromises my human race. The Supreme Master of God's work is not a spy of the demons, right? Work for the demons and destroy my human race ."

There are a few strong men, Leng Hun said, dissatisfied.

"Ahem."

Suddenly, someone coughed.

This is a reminder, don't say that the Supreme Master is a spy of the Demon Race.

Shengong Zhizun is the founder of Tianwork, inherited from craftsmen. In order to kill the craftsmen for inheritance, the Mozu lost how many powerful people, and finally returned.

In the past countless years, the Mozu has not given up its plan to work against the sky, and has organized several operations. All the top powers of the human race are present, how can they not know these secrets.

If it weren't for the divine work supreme desperately to die, some of the craftsmen's work would have been destroyed by the demons long ago, and they could still be retained to this day.

To describe the Supreme Being of God as a spy of the Demon Race, this... is really too much. If you say it, you don't believe it, but you think you treat him as a fool.

And at this moment, one of the few people exuded the breath of the weather, and the figure seemed to be deep in the void, like a giant figure, and suddenly said indifferently: "Well, what the old man said."

As soon as this person opened his mouth, there was silence on the court. "The Supreme Master of God's work destroys the rules of my human race, whether it is destroying the Ji family and Xiao family of the ancient world, or beheading the Star God Palace Master or the Dayu Mountain Master, it is against the rules of my Human Race Council. According to the old man, no matter what, it is to calm the restlessness of the human race. , Also for the Terran

All the major forces explain one by one, and first bring back the supreme divine workmanship. "

"The ancestral \*\*\*\* said that, first bring back the supreme divine work, and then make a decision."

"That's it, send the Human Race Council law enforcement team to bring back the Supreme Master."

A famous strong said.

boom!

Numerous phantoms disappeared one after another, and the heaven and the earth returned to peace again.

At this moment, in a vast chaotic land, a figure resembling a god, quietly opened his eyes.

"Interesting, dispatching a law enforcement team? Is the ancestor \*\*\*\* trying to use this incident to draw the Xiaoyao Supreme behind Shen Gong Zhizun?"

"Is the ancestral \*\*\*\* going to be able to hold back? Having been oppressed by Xiaoyao's name for so many years, can't help but come out and do something? Haha, Xiaoyao's supreme, how can it be so easy to be restrained, afraid not to steal chickens? There will be no eclipse."

This figure chuckled, sank into chaos, disappeared.

Things in the ancient world are not only spread in the human race, but also spread to the universe.

Naturally it caused quite a stir.

Even Mozu also got news.

When the ancestor of Yuanmo heard the news, he sneered: "Human, still like internal fighting so much, fight, it's best to fight until you die."

Naturally, Qin Chen and others didn't know the sanctions imposed by the Human Race Council on Shengong Supreme, and they just stayed in the treasure hall of Shengong Supreme.

A few days later.

"Arrived."

Shen Gong Zhizun chuckled, Qin Chen and the three people only felt that a flower in front of them had flied out of the hidden treasure hall.

"this is....."

Seeing the scene in front of him, Qin Chen's eyes narrowed.

The void in front of him gave Qin Chen an extremely familiar feeling, and Qin Chen could tell at a glance that it was actually a human heaven.

The place where Qin Chen soared back then was the Eastern Heaven Realm, and the Human Heaven Realm was his base camp, so he was naturally very familiar with it.

"Master of the Divine Work Hall, is this Human Heaven Realm where you want to bring us?" Ji Ruyue asked in surprise.

Ji Wuxue was also a little surprised.

He was also curious about what place the Supreme Master of God had said, and now he saw it, and he was a little confused.

Only Qin Chen flashed his eyes thoughtfully.

"Haha, Qin Chen, you should have guessed it?" Shengong Supreme glanced at Qin Chen and said with a smile.

Qin Chen nodded: "I guessed some, but I'm not sure."

Divine Worker Supreme smiled: "Then you know, what is the purpose of my bringing you here?"

Qin Chen was silent.

Ji Ruyue and Ji Wuxue also all looked over, Qin Chen actually guessed it? They were all curious whether Qin Chen had guessed the purpose of the supreme divine work.

Qin Chen pondered for a moment, and said in a deep voice, "If I guessed right, Lord Hall, do you want us to repair the heavens?"

"Hahaha, you deserve to be a little slippery head." Shen Gong Xingzun smiled, "Repairing the heaven is indeed one of the purposes of this trip."

Repair the heavens.

On the side, Ji Ruyue and Ji Wuxue both sucked in air, let them repair the heaven? Can they do this project?

#### [Chapter 4342: Repair the heaven](#)

Suddenly, Ji Wuxue's eyes flashed, as if thinking of something.

"Oh? What do you seem to think of too?" Shen Gong Zhizun looked at Ji Wuxue with a smile.

Ji Wuxue hurriedly saluted, and said: "Hall Master... You asked us to collect the original power from the ancient world. Was it just for repairing the heavens?"

Ji Wuxue thought of Lord Jinlin of the demon race at the time. If he wanted to repair the heaven, he needed the origin of the universe. Back then, Lord Jinlin brought the original power from the battlefield of ten thousand races back to the heaven and repaired it.

And the origin of the ancient world, similar to the origin of the universe, can naturally restore the heavens.

"That's right." The master of Shengong Hall nodded and said with a smile: "It seems that you are also very smart."

He raised his head to look at the distant heaven. At this moment, looking at the edge of the heaven, the heaven in front of him was like a chaos, like an egg shrouded in chaos.

The chaos is the eggshell, and the heaven is the egg white and yolk in the eggshell.

"Heaven is a very special place." The master of the Palace of Gods murmured: "Back then, the demons aimed at Humans, and the first thing they did was to break the heavens. Now, although the human heavens have been repaired a lot, they are still It's broken."

Qin Chen nodded: "I heard that the heavens have been restored, thanks to Xiaoyao Supreme and the Master of the Palace of Gods."

He also heard that when the heavens were broken, it was Xiaoyao Supreme and the master of the gods, who spent a lot of money and energy to restore the heavens. For this reason, the master of the gods also fell into a deep sleep for many years and was said to have been deeply hit. . "Hehe, me? What am

"I?" The master of the Palace of Gods smiles slightly, with emotion, "In fact, thanks to the restoration of the heavens, all thanks to Master Xiaoyao, he owns the Huangtian Tower, and that Huangtian Tower, in fact, was formed by a fragment of the heavens. He used the power of the wild towers and his own strength to forcibly repair the heavens. For this reason, his origin was too great and he suffered a lot of trauma. It took countless years to heal his injuries. . Otherwise, with the talent of Xiaoyao Supreme Master

And the strength, the current cultivation base, I don't know how far, how can the ancestor of Yuanmo be arrogant for so many years? I am afraid that a full-scale counterattack has already been launched against the demons. ""As for me. "The master of Shengong Palace laughed: "It was only under the hands of Master Xiaoyao Supreme, but I work hard, and I also own a treasure handed down by the craftsmen of the year, relying on that treasure, Xiaoyao Supreme can repair the sky.

Jie, saying that I have made some contributions, I can't bear it completely. "

"And I also got a lot of benefits in the process of repairing, in fact, the reason why I was able to break through to the Supreme is also greatly related to the restoration of the heavens."

What's the matter?

Qin Chen looked over in astonishment.

They have all heard that the Supreme Master of Xiaoyao and the Master of Shengong spent a huge price in repairing the heavens, and they even fell asleep and were seriously injured. They did not expect that the Master of Shengong broke through to the Supreme because it was because of repairing the heavens. "Are you surprised?" The master of the divine work hall smiled: "Repairing the heavens is a hard work, but it is also a good job. In the process of repairing the heavens, you can see many extraordinary things, even Comprehend some other human roots

Things that can't be understood, because this heaven is very special and extraordinary. "

This is the second time that the master of the Palace of Shengong has said it is extraordinary.

Qin Chen immediately frowned and said, "Master of the Divine Work Hall Master, isn't this Human Race Realm the same as the Ten Thousand Race Realm? Is there anything special?"

He is curious.

All races have boundaries.

For example, the demons have the demons.

The demon race also has the demon world.

Even the ancients have ancient realms.

Are all boundaries, is there any difference?

"Of course there is a difference, and the difference is still very big." The master of the Palace of Gods stared at the heavens, and said in a deep voice, "Because the heavens are connected to countless lower planes. Although all races have boundaries, the heavens are unique. No one's."

"Actually, the reason why this place is called the human celestial realm is because it is occupied by our human race. In fact, the celestial realm is the celestial realm, not the human celestial realm."

Hearing this, Qin Chen's heart shuddered.

"Do you mean? Ten thousand ascendants will all appear in the human heaven?"

Qin Chen was shocked.

"Hehe, otherwise what do you think?" The master of the divine work hall looked at Qin Chen: "You were ascending from the lower plane. Didn't you find anything?"

Qin Chen thought about it carefully and looked startled.

It seems that this is true.

It suddenly occurred to him that he had ascended from the Tianwu Continent and appeared in the heavens, but the skeleton rudder master of the alien demons, Mokara and Lao Yuan, they also appeared in the heavens after they soared from the forbidden land. in.

Logically speaking, alien demons possess the aura of demons and belong to demons. Shouldn't they ascend to the demon world?

In addition, Qin Chen also thought of the \*\*\*\* cat. The \*\*\*\* cat should belong to the demon race. According to the truth, it should also ascend to the demon realm, but in fact, they have come to the heavens just like them.

Originally, Qin Chen thought it was because they had soared from the same place, but now that when I think about it, something is really wrong. The master of the divine work hall whispered: "Of course, now, because the heavens are broken, no one has ascended up for many years, but since the heavens were restored and after you ascended, they should have opened up one after another. Other races such as demons, naturally will not

Let their subordinates ascend to the heavens of our human race, so they should look for weaknesses and set up transfer channels between the lower planes and the heavens. "

"When people of their races ascend, they will directly lead them to their own realm."

Qin Chen and the others were suddenly attentive.

Unexpectedly, the human heaven is so special?

why?

Qin Chen raised his head and looked at the heavens. The heavens were misty and could not tell. "Okay." The Master of Divine Work chuckled: "I know that you have a lot of doubts in your hearts. To be honest, there are some things that I don't know much. Perhaps, only those who once possessed fragments of the heavens know about it. Even I suspect, no

Yes, it should be that many great abilities among the ten thousand races in the universe suspected that the reason why Master Xiaoyao was able to rise to the number one powerhouse in the universe in a short period of time was inseparable from his possession of heaven fragments. "

Xiaoyao Supreme rises too fast.

It's so fast that many people feel incredible.

"However, the rise of the few of you is also unbelievable. Maybe you have some secrets." The Master of the Divine Work Hall looked at Qin Chen and smiled.

"Om!"

He raised his hand, and immediately, two terrifying source powers quickly appeared in his hand.

Among them, one is the origin of the ancient world, and the other is the origin of the realm of the space ancient beast clan. This is the material to repair the heavens.

#### [Chapter 4343: Many benefits](#)

The master of the divine work hall raised his hand, hum, the ancient realm in front of him was quickly divided into two, split, and entered the hands of Ji Wuxue and Ji Ruyue respectively.

At the same time, the space origin of the ancient space beast clan also flew into Qin Chen's hands.

"This is the material you need to repair the heavens, you all take it!" The Master of the Holy Work Hall smiled.

"Yes, Lord Hall."

Ji Ruyue and Ji Wuxue couldn't help but stand in awe.

They also thought that the master of the divine work hall asked them to collect the origin of the ancient world for their own sake. After all, treasures like the origin are very cherished, even if it is integrated into it, it will be of great benefit.

Apart from other things, if such treasures as the origin of the ancient realm are integrated into a supreme heavenly supreme treasure by the master of the divine craftsmanship, it will last for thousands of years and become supreme treasure by then.

Unexpectedly, the Master of Shengong Palace gave it to them without hesitation.

Qin Chen was also awe-inspiring. What Ji Ruyue and Ji Wuxue got was only half of the origin of the ancient world, but what he got was the origin of the entire space ancient beast clan, which contained terrifying space power.

This kind of treasure will inevitably have a huge attraction to the supreme. Compared with a supreme treasure, it will not be too much.

But the master of the Palace of Gods did not hesitate to repair the heavens for him, such a mindset, Qin Chen had to admire.

Whether it is Xiaoyao Supreme or Divine Work Supreme, they are all dedicated to the human heaven, without any selfishness.

"Hall Master, don't you go in?" Ji Ruyue said repeatedly.

"Hehe, today's heaven, even the power of the heavenly sovereign may not be able to bear it. If I enter, the heavenly realm is afraid that it will collapse."

The Master of Divine Work Hall smiled and said: "You guys try to converge your original aura to enter, maybe you can still bear it, I will definitely not be able to enter at present."

Ji Ruyue and the others were startled.

I almost forgot about this.

When Jinlin Tianzun entered the Eastern Celestial Realm, he was bombarded by the Celestial Realm, which almost caused the Celestial Realm to collapse. Later, he took out the origin of the universe to integrate the Eastern Celestial Realm and stabilized the Heaven.

According to what Qin Chen and the others understood, the human heavens at the beginning were afraid that even the earthly deity would not be able to bear it easily. Now, they are all half-step heavenly figures, and they don't know whether this heavenly way can bear it? It seems that he knows Qin Chen and the others' doubts, but the master of the divine work hall smiled: "Don't worry, although your strength is strong, you are not the Heavenly Venerable after all. Not to mention that you carry the original power on your body. Suppress. After all, the guy Jinlin is not

The heaven has been repaired once for a long time, and it has been recognized by the original seal of the heaven. "

"Today's Terran Realm is enough for the pinnacle to enter arbitrarily, you are completely fine."

The master of the divine work hall laughed: "Wait until your repair is completed this time, wait for a while, this Human Race Heaven Realm, I am afraid that even the strong Tianzun can enter."

Qin Chen's heart moved and said, "This is the righteousness you said, Lord Hallmaster?"

"Exactly." The master of the divine work hall glanced at Qin Chen, "Human heaven is extraordinary, but it has been dilapidated for countless years. At most, it can only be accessed by masters of the highest level, plus countless years have not been able to enter. Soaring, that's why the major forces of the human race

Not caring enough about the human world, it became the base camp behind the human race. "

"Once the celestial realm is restored to the point where all the powerful can enter, then the hundreds of millions of lower planes connecting the human celestial realms will open the ascension channel. By then, countless people in the lower planes can ascend, which can greatly expand the foundation of my human race."

"At that time, I am afraid that all the top forces of our human race will re-establish branches in the human world and recruit disciples."

"This is a great achievement. It is related to the hundreds of millions of years of my Human Race. This trip is for the sake of the public. It is undoubtedly ridiculous that the Human Race Council wants to sanction this seat."

Shen Gong Zhizun looked at the three Qin Chen: "And the three of you, as repairers of the heavens, will also get huge benefits. Do you know why Xiaoyao Zhizun let Jinlin Tianzun repair the heavens?"

The master of the divine work hall laughed: "I just want Jinlin Tianzun to enter the realm of supreme as soon as possible."

Ji Wuxue's eyes condensed, this repairing the heaven is actually for the Jinlin Tianzun to step into the supreme realm as soon as possible?

This is incredible.

"So, if you make repairs, as long as you cultivate under the influence of the heavenly realm, you can easily enter the realm of the heavenly sovereign."

The master of the divine work hall tells the truth.

hiss!

Ji Ruyue sucked in the air and repaired the heavens, but they stepped into the heavens realm, is this...really?

Tianzun, this is the person in charge of the top human race. They didn't even dare to imagine a realm before, but they didn't expect to have a chance to break through.

It even feels dreamy.

Ji Wuxue frowned, wondering: "Hallmaster of Divine Work, if repairing the heavens has such a great effect, then why other forces..."

The Master of Divine Workers glanced at him, "You mean, why don't other forces let their peak Heavenly Sovereign, come to repair the heavens, and then break through to the Supreme?"

Ji Wuxue nodded.

That's what he meant.

The Master of Shengong Hall looked at Qin Chen: "Qin Chen, you should know the answer?"

Qin Chen's face was calm, and he said solemnly: "Because...reluctant."

Reluctant?

Ji Wuxue was stunned, and immediately, a little stunned. Qin Chen said: "Wuxue, you should also know where this origin comes from. One is plundered from the ancient world, and the other is obtained from the ancestral land of the ancient space beasts. If the origin is taken away, the realm will collapse. The beast family has been destroyed, and the ancient world has also

The vitality is greatly damaged, and as for the origin of the ordinary small race, it is simply unable to repair the heavens. "

"And such a realm power, at least there are supreme-level powerhouses."

"And if I'm not mistaken, the supreme will use the source to repair the heavens, although there will be benefits, but the benefits should not be compared with the source itself."

Qin Chen is sure.

The master of the divine work hall smiled: "Yes, the supreme can also get benefits by repairing the heavens. This benefit is not small, but it is indeed not as good as the source itself."

"Because, today's heaven has not completely recovered."

"And I want those Supremes to sacrifice their origins for their Peak Heavens, I'm afraid no one wants to do that."

Qin Chen nodded their heads.

For example, the ancient world asked Xiao Wudao to abandon the origin of the ancient world and repair the heaven to Xiao Wujin. Not to mention that Xiao Wudao was unwilling, and other ancient families would not agree. Once the origin disappears and the ancient world collapses, the ancients will have nothing. Home.

Only the master of the divine work hall is willing to contribute many sources. The Master of Divine Work also said: "I heard that you also have some friends in the human celestial realm, and you have also established some forces. When you merge into the origin of the universe, you can let them participate in it. You don't need to lead, you just need to be under the envelope of the origin. ,This

It is of great benefit to each of them, as long as you practice in the human celestial realm, you can be favored by the celestial realm. "Ji Ruyue and Ji Wuxue both nodded.

#### [Chapter 4344: Back to home](#)

"Besides."

The master of the divine work hall looked at Qin Chen and suddenly raised his hand.

Boom!

In the hidden treasure hall, a powerful man with a terrifying aura emerged.

"Holy Master, let me go and wait."

"Quickly let go of me and wait, otherwise the Human Race Council will not take you lightly."

Roars and roars resounded throughout the world.

Boom!

These people exploded, the heavens shook, and Ji Ruyue, Ji Wuxue and others were all discolored. These were unexpectedly strong from the ancient clan such as Xiao Wudao, Ji Tianguang, Xiao Wujin, etc. Besides that, there are still space ancient beasts. Void Tianzun.

The weakest among them are all the strong.

None of them died, and nearly ten strong men appeared in front of Qin Chen.

"Qin Chen, these guys, you can bring them personally. Their power has been suppressed by me. I need you to take them to a place." Shen Gong Zhizun said.

"I understand." Qin Chen nodded.

He had guessed what the Supreme Master wants him to do.

In fact, even if the Supreme Master does not say it, he will do it, but with these guys, it will be easier.

"Yes, chatting with smart people is comfortable." Shen Gong Xingzun smiled: "However, you are also very owed."

Shen Gong Zhizun was depressed, and Qin Chen was too shrewd. Originally, he wanted to pretend to be compelling, but was destroyed by Qin Chen.

Ji Ruyue was a little curious, not knowing what Shengong Supreme wanted Qin Chen to do.

But Ji Wuxue, a little thoughtful, seemed to have guessed something.

"You also have the treasure of space in your body. The origin of these guys has been temporarily blocked than me. If you suppress these guys, there should be no problem, right?" Shengong Hall said.

Hearing this, Xiao Wudao and the others, who were still roaring in anger, stopped talking and their eyes flickered.

Previously, they were all imprisoned in the Treasure Hall, unable to move at all. Now they finally come to the outside world and naturally want to leave.

But now when I heard that the master of the Palace of Divine Workers wanted to hand them over to Qin Chen's custody, each of them moved slightly.

The master of the divine work hall is not an idiot, right?

Qin Chen is a pinnacle earth-sovereign, even if he has the treasure of space, how can he be trapped.

Moreover, this seems to be the human heaven. So, the master of the divine work palace wants Qin Chen to enter the heaven to repair?

If so...

Xiao Wudao and the others all showed ecstasy in their hearts.

It's not that they don't know the benefits of repairing the heavens, and they will get the approval of the heavens.

As long as Qin Chen enters the celestial realm, they will be able to kill them from the treasure of space, slay Qin Chen, and then sacrifice the origin of the ancient realm and the origin of the ancient space beast clan. In this way, the origin of the heaven can recognize them, and even Give them treatment.

They don't say that they can restore their peak state, but they can repair the general injury or it is completely fine.

By then, they could leave safely.

Thinking of this, suddenly, a person stopped talking, his eyes flickered, and they looked at each other. Obviously they all wanted to understand the situation, and secretly conveyed the plan with their eyes. The supreme divine worker couldn't perceive the thoughts of these guys, but he didn't bother to pay attention to it. He just said to Void Tianzun: "Void, if you want your space ancient beast clan to continue, follow Qin Chen's orders, as long as you are obedient. , I can insure

Prove that your space ancient beast clan can still survive in this space, otherwise, your space ancient beast clan will be completely annihilated. "

Void Tianzun's face changed slightly, but he did not speak.

"Okay, it's getting late, wait any longer, I'm afraid that people from the Human Race Council will arrive, Qin Chen, let's go." Shengong Supreme said.

"Yes!"

Qin Chen bowed a salute, and respect emerged in his heart.

I have to say that the Supreme Master of God is really very impartial.

Both the emotion and the reason are worthy of his gift.

Immediately afterwards, Qin Chen raised his hand, and the Chaos World's power surged and swallowed Xiao Wudao and the others in an instant. During the whole process, Xiao Wudao and the others did not resist and let him swallow them.

Qin Chen sneered, how could he not know Xiao Wudao and their thoughts, but he didn't bother to pay attention.

And Qin Chen could also see that the Master of Divine Skills should know that there is a top-level spatial thing on his body. As to whether he knew it was a chaotic world, Qin Chen was not sure.

In that case, Qin Chen didn't bother to hide it.

"go!"

Immediately, Qin Chen took Ji Ruyue and Ji Wuxue into the heaven instantly. Seeing Qin Chen and the others disappeared, the Master of Divine Work murmured: "The layout of the year has gradually become formal. I don't know what the result will be, but no matter what, I have done what I should do. Hope, Those old things, but

do not let me down. "

In the whisper, the master of the divine work hall was cross-legged outside the heavens, guarding this place like a god.

In the heavens.

As soon as Qin Chen and the others entered, a terrible force of repelling was passed on.

Rumble!

The earth shook.

The entire Tianjie Avenue was roaring.

At this moment, in the heavens, countless powerhouses were shocked, and one by one raised their heads in amazement. What happened to the heavens?

In the void area outside the heavens, Qin Chen and others are rapidly approaching the four heavens.

Qin Chen and the others are too strong. Although they have never reached the realm of Heavenly Sovereign, they are far stronger than Heavenly Sovereign in terms of strength, and will naturally bring certain pressure to the broken heavenly realm.

"Go, go back to the Eastern Heaven Realm."

Qin Chen said solemnly.

He knew that the heavens could not last long, although their realm was not high, but the longer they stayed in the heavens, the greater the harm to the heavens.

You must return to the Eastern Celestial Realm as soon as possible and repair the Celestial Realm to relieve the pressure on the Celestial Realm.

Whoosh whoosh!

The three of Qin Chen quickly flew towards the Eastern Heaven Realm. Qin Chen and the others were so fast. In just a moment, they had already seen the outline of the Eastern Heaven Realm. Back then, when Qin Chen and the others left the Eastern Heaven Realm, they were only half-step sages, the pinnacle sage master realm. Now, it has only been ten years, or even less than a few. Bu Tianzun, each

This has become a pivotal figure among the ten thousand races.

"I don't know, what happened to everyone."

Approaching the Eastern Heaven Realm, Qin Chen and the others were excited. Heaven is their base camp. Chendi Pavilion, Tianwu Danpu, and Ten Thousand Clan Sects were all established by him. Here, there are his friends and relatives. Although it has only been ten years apart, it was given to Qin Chen. It feels as though thousands have passed

year.

Whether it is the Vientiane God Store or the experience in the secret realm of the headquarters, it seems extremely long.

And when Qin Chen went to the Eastern Heaven Realm.

In the chaotic world.

Rumble!

After Xiao Wudao and the others arrived here, they were very clever at first, and after waiting for a while, after believing that Qin Chen had entered the heavenly realm, they suddenly rioted.

"Everyone, let me take your action and tear this kid's space. With my strength, even if the origin is sealed, it is enough to easily tear the heavenly-class space treasure."

Xiao Wudao and Ji Tianguang roared. At this moment, the two great ancient clans had actually united to tear apart Qin Chen's space and escape.

#### [Chapter 4345: Too hard](#)

Boom!

In the chaotic world, a terrible void surging, Xiao Wudao and Ji Tianguang, two supreme powerhouses, rioted together, displaying terrible power.

Even if the origin is sealed, as the supreme powerhouse, their physical strength is enough to blast through the general void.

"Hahaha, this supreme divine workman is really arrogant. He actually made me wait to enter that kid's space treasure. Hmph, that kid, the strength is not weak, but no matter what, the strength of the Tianzun level, how can it trap me? Wait."

"Break through the space, escape into the sky, behead that kid, and punish the Supreme Master."

"Kill, kill, kill!"

A powerful person, shaking the void, soaring to the sky, to tear the world apart.

In their view, with their strength, as long as a slight shock is required, they can tear apart the heaven and the earth, descend to the heavens, and get out of trouble.

However, when they really oscillated, they changed color.

Ok?

This emptiness did not move at all.

impossible!

They are all supreme and powerful, even if they only release the power of the flesh, they cannot be trapped by ordinary heavenly treasures. Even if they cannot tear the void, at least they will cause the void to vibrate and cracks.

But now?

Under the shock, the momentum was majestic and mighty, but the inner space did not feel torn at all.

How can this be?

Several people looked at each other, their faces shocked.

Could it be that the treasure of this kid's space is the pinnacle of heaven?

It's really possible.

With the pride of working in heaven, this is not impossible.

hiss!

The Supreme Master of God Workers was so kind to this kid, and he actually gave a treasure of space at the pinnacle of Tianzun, no wonder he was so sure.

The space supreme treasure of the pinnacle Tianzun level is of extraordinary value. Even the supreme powerhouse would not dare to say that it must have it.

"Huh, what about the pinnacle Tianzun Supreme Treasure, rush out."

"Yes, with so many of us, isn't it possible to crush a heavenly space treasure?"

Xiao Wudao and Ji Tianguang both shouted, the number of strong people present was not a minority.

"Void Tianzun, why don't you take action? Do you really want to be at the mercy of the people who work?"

Immediately afterwards, Xiao Wudao coldly looked at Void Heavenly Venerable, because Void Heavenly Venerable hadn't taken any action before, so it was very different.

Void Tianzun just looked at Xiao Wudao and the others coldly, but didn't speak.

His space ancient beast clan has been completely controlled by Divine Worker Supreme. If he dares to make trouble, the space ancient beast clan is really going to be completely destroyed.

He naturally wouldn't toss with Xiao Wudao and them.

The reason why the space ancient beast clan can live now is just because it has use value.

After spending so long in the Treasure Hall, Void Heavenly Sovereign could see some clues.

The Supreme Treasure Hall of Shengong is very terrifying, vast and boundless, such a huge supreme treasure, every time it is activated, it needs to consume astonishing supreme power. The space ancient beast clan, which controls the space, is in fact very compatible with the hidden treasure hall. The reason why Shengong Supreme did not completely destroy the space ancient beast clan, but imprisoned them in the hidden treasure hall. In addition to not wanting to kill too much

, The more purpose is probably to let them help him to store this hidden treasure hall.

Therefore, Void Tianzun has already seen that as long as his ancient space beast clan does not die, then it can be passed on.

Because his space ancient beast clan still has use value.

But if it were to die, it would be hard to say.

With the supreme craftsmanship and fierceness, even if he knew that the ancient beasts in the space had a useful value, he would still swing a butcher knife.

"Hmph, ignore this guy, the space ancient beast clan has been completely frightened by Heaven's work, let him stay here alone, and I will leave."

If the words are not speculative, Xiao Wudao and others snorted coldly, and they didn't bother to pay attention to Void Tianzun.

boom!

A group of strong men all shot together, using the mighty power of the physical body to shake the void, breaking the \*\*\*\* of the treasure,

"a bunch of idiots."

Void Tianzun raised his head, his eyes had disdain.

Can you really be a vegetarian?

Since the other party dared to let you be controlled by this Qin Chen, then we are sure that we can't escape. If this is so easy to escape, how can everyone be easily caught in?

ridiculous.

When you were in the ancient realm of your own territory, you couldn't fight each other. Now that you are imprisoned, can you fight each other again?

However, Void Tianzun naturally didn't bother to say these words.

Boom boom boom!

Xiao Wudao and others attacked the void barrier time and time again, trying to escape.

It's just that, no matter how they impact, the space barrier where they are located remains motionless, like a rock.

This.....

Xiao Wudao and they all changed color.

Even if this is the ultimate treasure of the pinnacle celestial being, it wouldn't be a bit of movement under the impact of their two supreme and many celestial experts?

Isn't this the pinnacle heavenly treasure?

But what is the peak heavenly treasure?

At this moment, the outside world.

Qin Chen was taking Ji Wuxue and Ji Ruyue quickly to the Eastern Heaven Realm.

His eyes flashed, he suddenly felt the movement in the chaotic world, and his face became cold.

Xiao Wudao, these guys, really couldn't calm down.

"Honghuang Ancestor Dragon, Blood River Saint Ancestor, you two, teach these guys a little lesson and let them be honest."

Qin Chen snorted coldly. Although Xiao Wudao, whose source was sealed, could not cause any damage to the chaotic world, it wouldn't be good if Qin Chen encountered any accidents in the process of repairing the heavens.

"no problem."

The excited voices of Honghuang Zulong and Blood River Saint Ancestor suddenly came.

In the chaotic world.

Xiao Wudao and others are still constantly attacking the space barrier.

With repeated shocks, the space barriers remain immobile.

This makes several people discolored.

This... is too hard.

Even the pinnacle heavenly treasure is at least fluctuating, right? But now, there is no fluctuation at all.

Supreme treasure?

Do not!

Absolutely impossible!

They didn't believe that Qin Chen had a supreme treasure at all.

Is that... the small world?

Xiao Wudao and Ji Tianguang were furious, no matter what it was, this was their only chance and they had to rush out.

"Listen to my orders, do it together, don't distract your strength."

Xiao Wudao drank coldly.

"Flush!"

Boom!

This time, Xiao Wudao, Ji Tianguang, Xiao Wujin and others, with their respective subordinates, all moved, rumbling, and frantically rushing toward the barrier ahead.

It's just that they haven't hit it yet. Suddenly a terrifying figure condensed in front of them, and their group of people slammed into the sound of this figure, and with a bang, they all flew out.

what?

Xiao Wudao and the others raised their heads in amazement, and they saw a towering dragon and an endless river of blood appearing in front of them.

"You are..." Xiao Wudao suddenly revealed a look of shock.

#### [Chapter 4346: Magic gate](#)

In the chaotic world, the aura of the Primordial Ancestor Dragon and Blood River Saint Ancestor was unprecedentedly terrifying, suppressing their souls like the supreme powerhouse trembling.

Honghuang Zulong's face was hideous, "A bunch of noisy ants, can't you just stay here?"

Do you have to make trouble here?

"Hehehe, a bunch of bastards, since they are so energetic, let Longye, I have fun with you."

Honghuang Zulong grinned and rushed up instantly.

Bang bang bang! Hong Huang Ancestral Dragon and Blood River Saint Ancestor shot again and again, suddenly, the screams of screams remembered, with Xiao Wudao and their original strength, and in this chaotic world, how can they be Hong Huang Ancestor Dragon and Blood River Saint Ancestor 'S opponent was abused in an instant

Battered, begging for mercy.

Honghuang Zulong has been alone for so long, so where he is willing to let go, he keeps teasing, getting more and more energetic.

The dignified supreme and powerful man, at this moment, is like a toy, being played with by the Blood River Saint Ancestor and Honghuang Ancestral Dragon, and it is miserable.

Below, Void Tianzun's body trembled and was frightened.

Fortunately, he didn't make a move before.

Otherwise, I am afraid it will end in the same way.

Outside, Qin Chen swiftly flew past the endless void land and entered the scope of the Eastern Heaven Realm.

As soon as he entered the eastern sky realm, the sky shook and roared.

The entire human heavens, whether it is the eastern heavens, the western heavens, the northern heavens, or the southern heavens, all felt this terrible turbulent power.

A powerful figure raised their heads one after another, looking at the sky in amazement.

Even in some realms, a master of the venerable class rose up.

Since Qin Chen smashed into the void tide sea and attracted the demon corpse ancestors to chase and kill, the eyes of the powerful human forces have also regrouped into the heavens.

Especially when the Star God Palace Lord, Dayu Shenshan, Xushen Temple and other forces went to the Eastern Heaven Realm to try to suppress Qin Chen and inquire about the news, the Jinlin arrived, obliterated the powerful enemy, and shocked the human race.

Countless human top forces have once again gathered their eyes.

This has also led to the fact that there are no top masters in the heavens today, but there are many experts at the venerable level, all of which are sent by major forces to monitor changes in the heavens.

Among them, many of them are the pinnacles.

There is no one who respects the strong.

After all, the strong earth-sovereign first entered the human celestial realm, and the pressure on the human celestial realm was too great. Secondly, among the major forces, he was considered a large figure and would not waste in places like the rear of the heaven.

During this period of time, the venerables of the major forces of these human races have been shut in here one by one, completely boring, but on this day, they have changed their colors, flying across the sky in amazement, staring into the void in the distance.

What happened?

Why is there such a big fluctuation.

"Open your eyes."

boom!

On an island in the Void Tide Sea, a strong man rose up, and between his eyebrows, he suddenly opened an eye. In his eyes, there were vast runes flickering, staring at the distant sky.

This person is a strong man in the magical calculation.

The Sacred Sect is a top power of the Human Race. In ancient times, it was the sect of luck and luck after the Heavenly Machine Sect.

However, after the past dynasties, there has been no supreme power in the divine calculation gate, and the strongest is only the peak Celestial cultivation base, so it belongs to the peak Celestial power.

At this moment, the strong man of the magical arithmetic gate raised his head, urging the magical arithmetic, and his pupil flickered.

He saw three magnificent auras in the sky in the distance. The terrifying aura made him change color, as if he saw three dragons of luck.

"A strong man has entered the heaven."

He immediately took a breath of air-conditioning. This terrible aura is afraid that it will be the strongest person, right?

However, which force dared to send Heavenly Sovereign Power into the heavens, wouldn't it be afraid that the heavens would collapse and fall into destruction again?

He was shocked.

And when he was shocked, he suddenly heard a rumbling voice resounding.

"All the people of Chendi Pavilion, Tianwu Danpu, and Ten Thousand Clan Sects, come back and quickly gather to ask the Eastern Heaven Realm Hantian Guanghan Mansion."

This roar resounded like thunder, resounding throughout the heavens, rumblingly spread, and clearly spread to the ears of many powerful people in the human race.

The strong man of the magical gate suddenly sucked in cold air. What a terrifying force, it was just a scream, as if crossing the void, and even passed to the location of his void tide sea.

How terrible?

"Chendi Pavilion?"

His heart moved slightly, isn't that the Qin Chen forces that made a lot of noise in the Eastern Heaven Realm a few years ago?

In the past few years, the major forces have figured out some situations in the human heavens a lot, and naturally know that the Chendi Pavilion is a force established by Qin Chen.

And Qin Chen is the Son of Heaven's Work.

"No, this news must be passed on."

Immediately, this powerful man of the magical calculation gate immediately spread his voice to where his power was.

Not only him.

In the human celestial realm, many venerables are spreading their voices, and they immediately conveyed what happened in the celestial realm to their sects. They vaguely felt that something major was about to happen in the human celestial realm.

And they were horrified.

Ask Hantian, where the Guanghan Mansion is, where is Dongguang City, and where is the Tiandang Mountain Range in the Southern Heaven Realm.

A strong man raised his head.

"This voice... is less dust."

"Little Chen is back?"

At this moment, the familiar faces were so excited that they flew out one after another, looking up at the sky.

"Qin Chen, there is no time. I am afraid that people from some places such as Southern Heaven Realm will not have time to come back."

Ji Wuxue and Qin Chen frowned as they flew.

The oppression of the Human Celestial Realm on them is getting greater and greater, and there are even terrible rules of heaven haunting them in the void to punish them.

Because the oppression they brought to the heavens was too great, and it had already affected the heavens themselves.

"It doesn't matter if it's too late, it depends on them."

Qin Chen whispered.

He has been sent back for the first time, and Chendi Pavilion, Tianwu Danpu, and even people from the Ten Thousand Clan can come to Guanghan Mansion to enjoy the benefits of repairing the heavens.

However, if it is too late, Qin Chen can do nothing.

Whoosh whoosh!

Qin Chen and the three were extremely fast, and after a while, they had already reached the sky above Guanghan Mansion.

"Qin Chen!"

"Ji Yue."

"And Ji Wuxue!"

Seeing Qin Chen and his party, everyone below was boiling.

I saw below, a large group of people rose up.

There are a group of women from Guanghan Palace Master, Qin Ying, Wei Siqing, Ji Hongchen, Qin Tingting, Ao Qingling, Li Wanxue, among these women, Murong Bingyun is also among them, graceful, with extraordinary aura. Seeing Qin Chen, his face was very ugly.

"Huh, this guy, knows to come back? I thought he forgot all of us."

Murong Bingyun curled his lips and said, pouting his mouth and chest, very dissatisfied.

In addition to this, there are also Chaos Poison Sovereign and others, all soaring into the sky.

"Master." In the crowd, the black slave was extremely excited and trembling.

#### [Chapter 4347: Fill the sky with me](#)

At this moment, everyone was excited and looked at the sky in disbelief.

It's Qin Chen.

However, today's Qin Chen, the aura on his body is too terrifying, the breath of the road is like a vast ocean, sweeping away, everyone who is shocked is shocked and excited.

Rumble!

In the sky, there was a terrible force of heaven to punish it, banging banging, like thunder, constantly splitting and falling, shocking everyone not to approach.

This... How strong are Qin Chen and the others?

now.

Feeling the breath of Qin Chen and the others, everyone was shocked and excited.

They have also seen the scene when Master Jinlin made a move. How could this scene be similar to when Master Jinlin entered the heavens?

Could it be said that Qin Chen was already so strong that even the human heaven realm could not bear it?

hiss!

When this idea came out, many people were immediately shocked.

The Chaos Poison Venerable's eyes widened. He was also a character who had returned from the battlefield of the Ten Thousand Clan. He is now the pinnacle of humanity, and he naturally knows how powerful the heavens are now.

Over the past few years, there have been many new top powerhouses in the human world, all of them are the pinnacle human masters from all major forces.

That's because the Jinlin Master of the Demon Race repaired the heavens back then, making the heavens become more important. Today, even the masters of the earthly masters can withstand the heavens, but they cannot withstand Qin Chen, Ji Ruyue, and Ji Wuxue. Human breath.

How far have these three people reached?

At this moment, Chaos Poison Venerable and the others were all shocked and excited.

Not only them.

Whoosh whoosh!

At this moment, outside the Eastern Heaven Realm, faintly, a group of figures exuding a terrible aura appeared.

It is the pinnacle of human beings from the major forces of the human race, and the strong of the fortune-telling gate is also among them, floating in the void outside the Eastern Heaven Realm, staring at this place from a distance, with a look on his face.

"Then...Is it Qin Chen? Didn't this guy just mean the Peak Saint Lord? Why..."

"It can't be that Qin Chen has returned, right? How long has it been? Is it so powerful?"

"Why do I feel that the other person seems to be able to kill me with a single look?"

A man who is known as the pinnacle and strong is shocked.

The Eastern Heaven Realm, because it is the site of the Chendi Pavilion, has also led to the fact that after the masters of these top forces came to the Human Heaven Realm, there were hardly any stationed in the Human Heaven Realm.

But now, the strong forces who felt the fluctuations were shocked, the aura on the opponent's body was too terrifying, so strong that they didn't even dare to look at it.

"However, this person is too reckless to do this. If he breaks into the human world, is he not afraid of the fragile heavens collapse?" "For example, although the world has repaired a lot today, it can't withstand too strong power at all, I wait The forces are just sending the pinnacle people into it. This is the unspoken rule that all the major forces of my human race understand secretly, and they are under the command of work this day.

What is the intention of human beings to allow such a terrifying power to enter? "

"Damn it, aren't you afraid of causing the heavens to collapse?"

"I will send a message now. If it is the person of the Chendi Pavilion that causes an accident in the human heaven, my human race will not forgive."

However, after the shock, there was boundless anger.

Klang Klang!

They all felt that the human heavens were trembling crazily, and the terrifying power of the heavens continued to come and slashed down.

The human heavens are shaking and cannot bear it.

This made them angry, because the appearance of Qin Chen and the others had seriously endangered the safety of the human heaven.

It is a condemnation of the family.

However, they can only be angry here now, because the momentum of the three Qin Chen is too strong, even if they are separated from one another, they will palpitate, knowing that if they dare to go up, they will definitely fall.

"Everyone..."

Above Guanghan Mansion, Qin Chen looked at the people below, feeling excited.

After all these years, Qin Chen returned again, unable to restrain his emotions.

He saw his relatives, his father Qin Batian, sister Qin Ying and others.

I also saw my good brothers, Lin Tian, Zhang Ying, Wang Qiming and others.

I also saw some subordinates, some friends who have been following myself and conquering the heavens.

Black slave, Fu Qiankun, Mo Yuanbai, Skeleton Rudder Lord, Mokara, Chaos Poison Venerable and so on.

Naturally, there are also fellows such as Murong Bingyun, Wei Siqing, Palace Lord Guanghan, Qin Tingting, Ao Qingling and so on.

He has too much to say, and the other person, in his pupils, is also full of his figure, extremely excited and unable to speak.

However, Qin Chen also knew that it was not the time to speak at all.

"Everyone, there is not much time, so listen up."

In the sky, Qin Chen stood proudly in the sky, full of light, like a god.

"Next, I will repair the heavens. All of you will repair it with me. This is a great feat and an opportunity for each of us, so don't miss it."

The roars resounded in the ears of everyone present and shocked them.

Repair the heavens?

hiss!

Palace Master Guanghan was excited.

Just listening, shocked them.

"Qin Chen..."

Suddenly, Ji Wuxue gave a low cry and looked towards the sky in the distance.

"Wow!"

In the void, there are spatial fluctuations passing, and a famous master teleports from the large array across the space.

"It's Huo Lao and Qingxue Futian Patriarch."

Qin Chen smiled.

In the years since he left, under the command of the black slaves, the Ghost Array Lord, Fire Old, Martial Soul Ancestor Xingtianya, Daowang Muzhifeng, Qingxue Family, etc., have been establishing teleportation in the Southern Heaven Realm and the Eastern Heaven Realm. point.

A large teleportation array was built up one after another.

So immediately after Qin Chen sent the information, the Qingxue family led the powerhouses of the Ten Thousand Clan sects, and the Huo Lao and others in Dongguang City quickly sent them.

However, no matter how fast the space is, it will take time.

What Qin Chen lacks most is precisely time.

"The origin of space."

Hum!

Inside Qin Chen, the spatial origin of the ancient space beasts suddenly burst into light.

An invisible force of space was transmitted and connected to the space channel in an instant. The next moment, the old Huo and the others, with a shocked expression, quickly appeared in the sky above Guanghan Mansion.

Originally, it took a few hours, or even longer to transmit, and it arrived in an instant.

"Everyone, follow me to fill the sky."

Qin Chen looked up.

"go with!"

He raised his hand, and immediately, the original power of the space in his body rose rapidly.

Suddenly, the originally vibrating Heavenly Realm Dao suddenly exuded a scorching breath, and the entire Heavenly Realm Dao was focused on this original power.

The space origin of the space ancient beasts is one of the origins of the universe.

The power of one world is even more terrifying than the Rubik's Cube and the origin of the universe brought by the Golden Scales. The origin of the universe of Jinlin was incomplete and very backward. It should have been drawn from a broken universe, and would not be able to snoop too high levels.

#### [Chapter 4348: Fusion of origin](#)

But what Qin Chen has in his hands is the origin of the space ancient beasts that truly bred the supreme-level powerhouses and ranks in the forefront of the ten thousand clan list.

How powerful.

boom!

When the origin of this universe rose up, suddenly the entire human heaven realm was shaken.

"That is... the origin of the universe?"

And in the distance, outside the Eastern Heaven Realm, many powerful humans from the top human race have also seen this scene, seeing the origin of the space ancient beast clan in Qin Chen's hands, and they were shocked one by one.

Things like the origin of the universe are too rare. They are the treasures that can nurture the supreme powerhouse. Who doesn't desire it? Who is not eager?

"What is Qin Chen going to do? Is it because he wants to use the origin of the universe in his hand to swallow the power of the Eastern Heaven Realm and let himself break through?"

Suddenly, a strong person changed color and said in surprise.

This is not impossible.

The human heaven is very special. Its origin is that even the ancestors of the deep demon are desperate and want to swallow it.

"impossible?"

Someone trembled, and if Qin Chen really did this, he would definitely become a public enemy of the human race.

"Could it be that he wants to learn Jinlin to repair the heavens?"

Another person trembled in surprise, thinking of a possibility.

But when this thought came out, everyone shook their heads.

How can this be?

The reason why Jin Lin abandoned the origin of the universe and repaired the heavens before was because the origin of the universe he had obtained was broken, but now the aura of the universe in Qin Chen's hands shook the whole heaven.

The heavens are longing.

It can be seen that this origin is extremely powerful, and it is not much stronger than that of the Demon Race Jinlin Tianzun.

This is most likely the origin of a complete boundary.

Such a source will definitely give birth to a supreme-level powerhouse, who is willing to use it to repair the heavens?

For a time, many people were shaking and furious.

Shocking Qin Chen unexpectedly possessed such a source, and was frightened that Qin Chen was going to swallow the human heaven, which was a heinous crime.

However, when they were furious, the next moment, they were all shocked.

I saw the sky above the Eastern Heaven Realm.

After Qin Chen took out the origin of the universe, he did not display it immediately, but looked at Ji Ruyue and Ji Wuxue.

Ji Ruyue and Ji Wuxue didn't wait for Qin Chen to speak, and a terrifying source aura rose up in their bodies. The two ancient realm roots rose up quickly, shining through the ancient and modern worlds, suspending the ten thousand realms.

The origins of these two ancient realms rose up, and suddenly, the heavenly realms of the entire human celestial realm shook even more, rumbling, and the four great celestial realms were all surging, and even the void tide sea surging up, stirring the waves.

Damn, it is the origin of the two universes.

In the distance, the top human race experts were all dumbfounded, and one by one took out the image ball to record.

In the universe, any one of the origins of the universe is extremely rare, but now, Qin Chen and the others unexpectedly took out three.

"Everyone, fill the sky with me, melt!"

Qin Chen drank, he opened his eyes, and the sky patching technique was immediately performed.

Rumble!

In an instant!

The origin of the universe in Qin Chen's hand burst into pieces, and the power of the cosmic origin swept in all directions.

This can give birth to the origin of a supreme powerhouse, who was directly sacrificed by Qin Chen in an instant.

the other side.

Ji Wuxue and Ji Ruyue also gritted their teeth.

Without any hesitation.

Boom!

The origin of the ancient world in their hands also exploded together. They have the blood of the ancient realm and the chaotic blood of the ancestors of the ancient realm. If they keep the origin of the ancient realm in their bodies and bred day and night, maybe after ten thousand years, the two of them can definitely enter the realm of supreme and become a half step. Supreme but light

And easy.

If you get some more adventures and step into the realm of supremacy, it is not impossible.

But at this moment, the two of them did not hesitate at all, directly detonating the origin of this ancient world, without the slightest distress and pity.

boom!

The power of the source swept across.

I saw that the power of the Heavenly Dao of the Eastern Heaven Realm was madly absorbing the power of the origin of the universe that was blasted away.

"God, they actually detonated all the original power."

"This is, repairing the heavens?"

"Mad, a bunch of crazy!"

In the distance, the powerhouses of the top human forces, such as the sacred calculation gate, recorded crazy, unbelievable, and painful.

Even if the origin of this universe is not theirs, when they saw Qin Chen and the three people detonate without hesitation, they felt distressed one by one, as if it was them who had lost it.

This is the origin of the universe, even if you want to repair the heavens, you don't need to detonate them all.

It's okay to keep one.

For a time, these people all beat their hands and feet.

"Ok?"

At this moment, Qin Chen, who had repaired the heavens, turned his head, stared at the powerhouses of these forces, and suddenly waved his hand.

Rumble!

The billowing chaotic aura surging, obscured the sight of these people. Suddenly, these people could no longer see Qin Chen and the others, and there was a mist in front of them.

Fuck, it was actually blocked.

These guys are speechless.

It's just repairing the heavens, there is nothing to cover, the gods are mysterious.

However, feeling distressed, they dare not step forward, so they can only put away the image ball and look up at the sky.

Rumble!

I felt the Heavenly Way of the Human Celestial Realm. At this moment, I was devouring the original aura crazily. With the ingestion of the original aura, the trembling Heavenly Realm gradually stabilized, and the aura was quickly repairing.

"This is... the heavens of the heavens are absorbing the power of this core origin."

Qin Chen's heart condensed.

In the dark, everyone felt that the aura of the entire heaven began to become more stable and stronger, and even the cultivation level in many people's bodies had an urge to break through.

Of course, this is just an illusion, but it shows that the level of the human heaven has been elevated in this moment, becoming more complete.

Hum!

At the same time, an invisible force descended on Qin Chen and the others, and the terrifying aura of Qin Chen and the others quickly closed.

In just an instant, the three of them were no longer suppressed by the heavens.

"This is the heavenly way of the human heaven."

Qin Chen was shocked. At this moment, along with the absorption of the source of power, a wave of power descended and merged into the bodies of the black slaves below.

At this moment, all the strong men who repaired the heavens here have been favored by the heavens.

Rumble!

Especially Ji Ruxue and Ji Ruyue, in the dark, a force of feedback came, and the two of them had reached the breath of half a step Tianzun, and they even loosened again.

This is... to truly advance to Tianzun.

As for Qin Chen, who had already reached the cultivation base of the Peak Earth Venerable, at this moment, he was shocked again, and he wanted to advance to a higher level.

Boom!

The power of the billowing heaven came.

Qin Chen's strength was undergoing transformation. Suddenly, a source of power in his body was combined with the source of the realm of the day.

"how come?"

Qin Chen was shocked. In an instant, he seemed to merge with the human heaven.

#### [Chapter 4349: Long avenue](#)

At this moment, Qin Chen felt that he had merged with the heavenly realm of this human race.

No, it's not fusion, but a feeling of communication between each other.

But... how is it possible?

Qin Chen couldn't believe it.

Because, on the whole, he also vaguely knows what the heavens and the origin are.

The origin of the celestial realm should be the origin of the realm that was produced when the universe was born, the origin that was born in the realm like the ancient space beasts.

The birth of the universe not only formed many stars and worlds, but also transformed into a lot of other origin powers during the process of the origin of the universe dissipating.

These origin powers all contain the origin of the universe, and then gradually form a boundary according to their own characteristics.

For example, the origin of space power has formed the realm of the space ancient beast clan. Under the influence of space power throughout the year, the space ancient beast clan was born that can control space.

And the original aura that contains the rules of the demon way, which formed a realm like the devil world, and also gave birth to a race like the demon race.

At the same time, as the demon race grows and multiplies, its strength becomes stronger and more saints, and the rules and power cultivated by the demon race will also be integrated into the demon world to strengthen the demon world.

This is a complementary process.

The stronger the Demon World, the stronger the Demon Race born, and the stronger the Demon Race will become after cultivation, the stronger the power provided to the Demon World will be, and vice versa, the power of the Demon World will be enhanced.

In the end, an extremely large Demon Realm, an extremely large Demon Race was formed.

But in his own realm, he would actually be oppressed by the supreme rule of the universe, not so strong.

For example, the Venerable has actually surpassed the normal cosmic rules, so if he is not allowed by the cosmic rules, he will be suppressed by the cosmic rules.

As for the supreme, let alone, no matter where he goes, the supreme rules of the universe will oppress him to ascend.

But in one's own realm, this kind of oppression will drastically decrease.

In the demon world, although the demon supreme may not be blessed by the origin of the demon world, at least the suppression of it by the supreme rules of the universe will be much weaker.

For example, in the ancient world before, they were also oppressed by the supreme rules of the universe, but Xiao Wudao and the powerful ancient people can mobilize the power of the ancient world and oppress the supreme gods.

The same reason.

And the so-called origin of the realm can give birth to the supreme, also because of this. The origin of the realm itself is some branch of the origin of the universe. Once it is integrated, first, one can perceive the power of the origin of the universe and understand the nature of the formation of the universe; second, if the origin is integrated into itself, then it will be oppressed by the supreme rules of the universe

Weakened a lot.

In this way, it is naturally easier to enter the realm of supremacy than ordinary people.

But now, Qin Chen actually faintly felt that he was actually fused with the Heavenly Way of the Human Race... No, it should be said that they were communicating together, which surprised Qin Chen.

How can it be?

Because Qin Chen also understood from the words of the Supreme Master of God's Work, that the human heaven is actually not the realm where the human was born, it is a very special place.

Ten thousand races will soar here.

Therefore, no matter which race among the ten thousand races, in the human celestial realm, it will be oppressed by the human celestial realm, and it is not said that like other realms, it will have a special preference for certain races.

Naturally, it is impossible for races and human heavens to communicate.

But now, Qin Chen clearly felt that he seemed to have an inexplicable connection with the Heavenly Realm.

Is it because he repaired the human heavens?

"Ji Wuxue, Ji Ruyue, have you ever felt like merging with the heavenly realms?" Qin Chen turned his head and transmitted the sound to Ruyue and Wuxue.

At this moment, Ruyue and Wuxue's auras rose, and they, who had received feedback from the source of the heavens, were full of energy, and they were already faintly impacting the realm of heaven.

Hearing Qin Chen's question, the two of them were startled: "It feels like merging with the heavenly realm, isn't it?"

"The origin of the heavens seems to give us a kind of power to return, but integration? Not at all."

Ji Ruyue and Ji Wuxue both shook their heads, they did not feel like Qin Chen.

Isn't it because of repairing the heavens?

Qin Chen was puzzled.

"It doesn't matter, there should be some special reason for this. If that's the case, then take this opportunity to see what the heavens of this heaven are!"

Qin Chen opened his eyes, and while absorbing the power of the heavens and improving himself, he spied the origin of the heavens.

The Demon World is the rules of the Demon Way.

The space ancient beasts are the origin of space.

The ancient world is the origin of the ancient race.

What about this human heaven?

The supreme divine workman said that the heaven is special, then, what is the origin of the human heaven?

humane?

Is there the origin of this avenue?

Qin Chen was curious.

He opened his eyes, rumbling, and using the insight that he merged with Heavenly Dao, he looked over in an instant.

Suddenly, the vision in front of him was dim, and it seemed that he saw something, but it was very vague, and he couldn't see it clearly.

"The Eye of Creation!"

Qin Chen immediately urged the Eye of Creation, an eye that opened between his eyebrows, and everything in front of him quickly changed.

He looked towards the void, the original power of the earth, the power of the heavens, was vaguely present at this moment.

Saw a long river!

Are there years going on?

No, it's not a long river of years, this long river is colorful, beautiful, and contains the highest rules.

In this long river, the power of the rules bloomed out, turned into a avenue, covering the entire heaven.

In the depths of this long river, there is a source like the scorching sun, rising and falling, bursting out with bright light.

At this moment, Qin Chen seemed to see the true meaning between heaven and earth.

boom!

Qin Chen's mind was trembling. Looking at the origin of the heaven, Qin Chen seemed to have returned to the secret realm of the Tiangong headquarters secret realm.

Saw the formation of the universe, the birth of chaos.

The avenues, incomparably splendid, illusory, and real, turned into a long river between the heavens and the earth, surrounding the heavens and spreading all over the heavens.

These avenues and rules formed a network and densely packed, but many places were broken, and every avenue contained a terrible rule. The breath of this rule made Qin Chen horrified.

What shocked Qin Chen in particular was the original aura of heaven in the long river.

"This is the origin of the heavens?"

Qin Chen sucked in air, because the origin of the heavenly realm was very similar to the aura of the Tianwu Continent that Qin Chen had felt in the lower realm.

Yes.

Qin Chen woke up suddenly. He finally understood why he felt that familiarity, or in other words, why he could merge and communicate with the origin of the heavens.

#### [Chapter 4350: Patch Avenue](#)

Because he is the son of the plane of Tianwu Continent, he has been recognized by the origin of Tianwu Continent, and even repaired the origin of Tianwu Continent, possessing the original aura of Tianwu Continent.

However, the Tianwu Continent was a source continent that originated from the same source as the heavens.

Source continent!

Rumor has it that the Tianwu Continent is a source continent that was born with the heavens and contains the power of the source.

It's just that the heavens are located on the higher planes of the universe, while the Tianwu Continent has turned into a lower plane, floating in the void of many planes.

But regardless of high or low level, Tianwu Continent is a source continent, and they are all extraordinary.

Otherwise, the Lord of Abyss Demon would not go to the Tianwu Continent, or the forbidden land of the Tianwu Continent, nor would such a terrible battle erupt, including the origin of time, nor would he appear in the Tianwu Continent.

As the son of the plane of the Tianwu Continent, containing the original aura of the Tianwu Continent, then Qin Chen is naturally very close to the heavens, and only then can he communicate.

It turned out to be like this.

Qin Chen was shocked, looking up at the sky.

The vast river, floating above the heavens, the force of the rules, like the branches of the river, spread out, forming a large net, covering the entire heaven.

This is the way of heaven.

However, this heavenly way is invisible to other people at all, only Qin Chen, who has made some contact with the source of the heavens, has a trace of communication, and has opened the eye of creation, can perceive it.

"A long way?"

Qin Chen murmured, but frowned again.

Because, the power of the rules on this long river seems to be very independent, each of them is extremely terrifying, and contains shocking power.

The entire celestial realm is like an independent universe, with various rules operating and extremely perfect.

But how is this possible?

Whether in the ancestral land of the space ancient beast clan or in the ancient world, although Qin Chen has never seen the heavenly ways of the two realms so clearly, he has actually clearly felt the two realms. The Tao is power.

The space ancient beast family is based on space and contains a rolling space avenue, while the origin of the ancient world is a power of the ancient world, similar to the chaos avenue, containing the aura of ancient chaos.

However, they are all one-sided and incomplete.

Because these realms themselves are some of the original forces escaping from the origin of the universe, and they are naturally impossible to be complete.

But the heavens are different. In the vast river of avenues, there are countless rules surging, the rules of space, the rules of fire, the rules of the sword, three thousand avenues, and hundreds of millions of trails, all exist and are extremely complete.

This surprised Qin Chen, frowning slightly.

Heaven actually has all the complete rules? Why is this?

He was contemplative.

"Could it be that the other realms were formed only by the power of some weak universe origins, so they can only present the main rules, while the heavens have gained a lot of universe origins, so they contain more rules?"

"So, the celestial realm is more like a small universe, and the other realms are just individual individuals in the universe?"

"This is also the reason why all planes will ascend to heaven?"

Qin Chen didn't understand and could only guess.

Perhaps Xiaoyao Supreme knew something, but at least the current Qin Chen could not completely figure it out.

"No matter, let's not think about it so much, let's see if we can do more in the process of repairing the heavens."

Qin Chen raised his head and stared at the origin of the realm that day.

Hum!

The origin of the heavens, like the big sun, blooms with terrifying aura.

At this moment, Qin Chen clearly saw that the origin of the celestial realm in the long river was absorbing the power of the ancient beast clan and the origin of the ancient world. Some of it was absorbed by the origin of the celestial realm to strengthen itself, and the other part was dissipated into the long river of the avenue.

Those originally dilapidated and somewhat broken avenue branches, under the power of these origins, were immediately and slowly repaired.

The heavens are not only repairing the origin, but also repairing the power of these great avenues.

And these great powers all contain different great rules.

However, the entire process was extremely slow to repair.

"It seems that if you want to completely restore the origin of the heavens, you need a lot of the origin of the universe."

Qin Chen breathed out lightly, at least, with the power of the origin of the space that he took out now, there was still too much difference between the origin of the ancient world.

Moreover, in the process of repairing the avenue, many of that trace of the original power were not directly used, but was swallowed by the avenue, resulting in many broken gaps, which were not nourished by enough power.

"This repair speed is too bad, right?"

Qin Chen was speechless.

This efficiency is too low.

For example, the road in front of you clearly has a lot of gaps. According to the truth, you only need to input enough source power to completely repair the road.

But actually? A large part of the original power that entered this avenue was absorbed by the avenue. On the contrary, in the gaps, fractures and other places, not much original power was repaired. This also led to these gaps and cracks. , Only patched

A small part.

But in fact, the original force integrated into this avenue, not to mention the complete restoration of this avenue, but at least, it can still repair many gaps and cracks.

"I can't go on like this."

Qin Chen blinked his eyes.

Although the power of the original source is integrated into the avenue, it may not be wasted, but it is too slow for the restoration of the heavens. The original source needed is afraid that it will increase exponentially.

"Let me try it."

Qin Chen's heart moved.

boom!

He stepped out and came to that avenue in an instant.

"The Art of Patching the Sky!"

Hum!

Qin Chen immediately exuded a terrifying aura, and the sky-filling technique was operating. The power of the original source was instantly drawn by him and slowly merged into the gaps in this avenue.

It was visible to the naked eye that the gaps in these avenues were immediately repaired at a slow speed, and the gaps and cracks became smaller a little bit.

After a while, these gaps and cracks were suddenly filled.

Wow!

The avenue and the river were surging, and this area of the branch of the avenue immediately resumed flowing and was completely repaired.

"hiss!"

"Really."

Qin Chen was excited.

After his patching, he could only patch a little bit, and the rest of the original power that would disperse into the long river of avenues, now after he repaired the gap in the avenue, there are still some left.

The rest can repair several other gaps and cracks.

In this way, the utilization rate of the power of the source has instantly increased by at least ten times.

Moreover, at the moment when the repair was successful, a wave of power swept across this road and entered Qin Chen's body.

Great way to give back! This avenue should be some kind of power avenue, it was very big, and this power feedback immediately made Qin Chen's power faintly improved.
