

Valkyrie 4711

[Chapter 4711: Waiting for you](#)

Qin Chen couldn't think of anything other than the Demon Soul Source Artifact that could be called the Demon Realm's Most Treasure, and could devour the Demon Realm's Heavenly Dao.

"Master, it should be the Demon Soul Source Device."

The Lord of the Abyssal Demon said awe-inspiringly: "The Demon Soul Source Device is the treasure of our Demon Race. The history is even longer than that of our Demon Race. It is rumored that if you control the Demon Soul Source Device, you can control the entire Demon Race."

"And the birth of the Demon Soul Generator was almost accompanied by the Demon Realm. Therefore, what this predecessor said must be the Demon Soul Generator."

The Lord of Abyss Demon affirmed.

Qin Chen also nodded.

Because, now the Demon Soul Source Device is in this Infinite Demon Prison, which is most in line with what the Promise Supreme said.

"Yes, it is the Demon Soul Source Device. I didn't expect you to know the existence of the Demon Soul Source Device." Wuji Supreme glanced at the Yuanmo master: "Your Excellency is a member of the Yuanmo tribe, but not all members of the Yuanmo tribe know it. As for the existence of the Demon Soul Source Device, it seems that your Excellency also has a considerable position in the Yuan Demon Race. Since you know the Demon Soul Source Device, it is easy to handle."

Yes, I thought it would take some words. "

The Blood River Saint Ancestor sneered and said: "Little guy, what to pretend, this is the descendant of the Abyss Demon Clan in your mouth, the descendants of the Abyss Demon Ancestor, he knows no less than you."

"What? The descendants of the ancestor of the deep demon?"

Wuji Supreme was taken aback and looked at the Lord of Abyss Demon.

With a moved expression, he glanced at Qin Chen: "The descendant of the ancestor of the deep demon was actually subdued by you? It is indeed the one that the lord of the master estimated that year."

"Master Sect Master estimated it?" Qin Chen frowned slightly: "What do you mean?"

"Ahem, nothing." Wuji Supreme hurriedly said, "It's not the time to talk about this." He looked at the Lord of Abyss Demon: "Back then, I did hear that the ancestor of Abyss Demon cultivated a descendant, but , His descendant was not even the Supreme, so I didn't care about it. Later, I heard that the descendant of the Yuanmo clan had disappeared unexpectedly."

Fallen. Unexpectedly, hundreds of millions of years have passed, but this seat can still be seen. "

The Lord of Abyss Demon was a little sullen.

He was indeed only the pinnacle of heaven, not even the supreme.

No matter how noble his status is, he didn't even have the qualifications to enter the mainstream powerhouse's field of vision if he wasn't supreme in the situation back then.

Because this is a battle between the races of the universe, and even the ordinary supreme is not very important.

Only the top-level supreme powerhouses can really decide where the battlefield belongs.

"Since there is a descendant of the Abyss Demon Clan, it would be easier to handle it."

The Promise Supreme said solemnly: "The purpose of the Dark Clan to establish the Dark Ancestral Land is to not only integrate the Heavenly Dao, but also to refine your Yuan Demon Clan's Supreme Demon Soul Source Artifact and directly devour the Demon Heavenly Dao."

"At that time, the people of the dark clan can freely enter the demon world, and rely on the demon world's heavenly path to swallow the entire universe."

"Fortunately, the ancestor of the abyssal demon is not a fool." Speaking of this, Wuji Supreme said with emotion: "Even though he gave the Infinite Demon Prison to the Dark Clan to survive back then, he also left the Demon Soul Source Device in this world. , But, the ancestors of the deep demons should have also sensed the purpose of the dark clan, here

In addition to the Demon Soul Source Tool, an extremely powerful restriction was left to prevent the refining of the Dark Clan. "

"As a result, the Dark Clan hasn't succeeded yet."

Hearing this, Qin Chen couldn't help frowning: "With the strength of the Dark Clan, can it be impossible to break through the prohibition of the ancestors of the Abyssal Demon?" Wuji Supreme smiled: "If the Dark Clan has a detached power coming, it will naturally break open, but The ancestors of the deep demons deliberately left behind. In this Infinite Demon Prison, there is no way to descend into the detached dark clan powerhouse, even half a step beyond.

Even if they are unable to come, using the methods of the ancestors of the deep demon and the demon soul source device can naturally prevent the invasion of the dark race. "

"However, hundreds of millions of years have passed, the dark clan has gradually controlled some of the devil's heavenly path, and with the cracking of these years, the dark clan is about to succeed."

"So, you must stop this dark clan, otherwise it will be troublesome after the dark clan succeeds. By then, it will not only be the end of the demon world, but also the end of the universe."

Wuji Supreme looked solemn.

Qin Chen said solemnly, "Does the senior know where the Demon Soul Source Tool is?"

"Naturally know that my true origin is in that place, this place was swallowed by the Asura Supreme, but I deliberately separated a source." Wuji Supreme sighed: "My purpose is to pass this way. Divide the

source to try to control the will of this Asura supreme, who knows that this Asura supreme was killed by you. But it doesn't matter, this dark clan resurrection technique is very strange, even

If you don't be beheaded by you, I'm afraid I won't be able to succeed. "The will of this seat cannot stay longer. Although you previously swallowed the source of the Asura supreme, but light swallowed the source of the dark race, you cannot make the source of your body transparent. You must absorb the source of the human race of the same level. ,only

The two can be completely integrated. "

"This source of this seat cannot last forever in the heavens and the earth, and if it continues to be retained, the people of the dark race will surely detect the abnormality and give it to you." "Other than that, this seat will take the demon soul. The location of the source device is also told to you. But you have to be careful, because where the source device of the demon soul is located, there are the source guardians of many supreme powers of the dark clan. If you want to enter the location of the source device of the demon soul, you must be careful.

Act, it's best, think of a way. "I won't say much else, what you have done has already caused the Dark Ancestral Land to change. This seat has a feeling that the supreme powerhouse of the dark clan who guards this Heiyu Continent is afraid that it will soon come. The darkness that came with you before

The woman of the clan can take advantage of it. "

"This seat is where the Demon Soul Source Device is located, waiting for your arrival."

The voice fell.

With a bang, the white shadow of Wuji Supreme collapsed and disappeared into the void.

Immediately after that, the Supreme Origin also blasted toward Qin Chen with a bang.

"My lord, be careful."

Saint Ancestor Blood River stepped forward with a vigilant look, trying to prevent the invasion of the Supreme Origin, but was stopped by Qin Chen.

"Nothing."

Qin Chen said, letting that supreme source instantly enter his body.

There was a boom.

Qin Chen felt an extremely terrifying source of origin, and instantly entered his body, and the power of this supreme source of origin began to collapse in his body.

"Nothing Karma Fire."

Qin Chen urged the Void Karma Fire, booming, a terrifying flame burned by the strength of this source.

Qin Chen perceived it carefully, but didn't find any problems before nodding.

Void karma fire is the top flame in the universe. If there is any problem, the power of karma fire can definitely see some clues. Although Qin Chen trusted the other party, he would not believe it foolishly.

[Chapter 4712: sentimental](#)

After discovering that there was no problem with the other party's supreme source.

Qin Chen allowed this supreme power to spread all over his body.

There was a boom.

An extremely transparent feeling rose from Qin Chen's body.

Qin Chen saw that this supreme source in his body began to merge with the supreme source of Asura.

The two forces merge with each other and complement each other.

The faint feeling of isolation before, also slowly dissipated, so that the power of darkness in Qin Chen's body was completely integrated with himself.

"That's it."

Qin Chen carefully observed this process, and suddenly realized that he finally understood why he felt that sense of isolation before.

The source of the Supreme Asura, after hundreds of millions of years, has two powers, the source of darkness and the source of the devil, but the core of his source is the source of the dark race.

As a creature of this universe, Qin Chen simply absorbed the origin core of the Dark Clan, and couldn't fully integrate into it.

The core origin of this universe must be absorbed at the same time.

The Wuji Supreme is the Human Supreme. Although he has a dark aura in his origin after hundreds of millions of years in the Heiyu Continent, his core is actually the origin of the Dao of Human Race.

Only by combining the origins of the Promise Supreme and the Asura Supreme, can the two realms of the Heiyu Continent be truly integrated.

This is why the Asura Supreme has to absorb the Supreme Origin of a Human Race while devouring countless half-step Supreme Origins of the Dark Clan.

boom!

After Qin Chen had completely absorbed the source of Wuji Supreme, the aura on his body finally reached the point where it was round and round.

An extremely mellow and dark half-step supreme aura escaped from him.

At this time, Qin Chen, in terms of the origin of the two realms of Heiyu Continent, had truly stepped into the half-step supreme, flawless and innocent.

Moreover, in Qin Chen's mind, the location of the Demon Soul Source Tool also appeared.

"Om!"

Qin Chen opened his eyes, booming, and in his pupils, there seemed to be two dark divine rainbows bursting out, penetrating the endless dark void, and seeing the depths of the dark ancestral land.

In front of Qin Chen, an extremely magnificent world of void appeared before Qin Chen's eyes.

This is an empty world, located in the deepest part of the Dark Ancestral Land. In that void, there was a huge dark ball-like existence.

Above that dark orb, countless restraining powers lingered crazily, bursting out with a shocking aura, even if it was stronger than Qin Chen now, he was a little frightened.

These bans, constantly surrounding, exude a palpable atmosphere of the abyss, and beyond this aura of the abyss, there are a series of dark bans, constantly lingering on the ban of the abyss, trying to penetrate into the circle. Inside the ball.

"My lord, this is the original restriction left by the ancestors."

Seeing the restriction on the dark orb, the Lord of Abyss Demon was surprised.

Qin Chen's eyes narrowed.

He also saw that this original prohibition is no small matter, and it is easy and unbreakable.

And the dark restraints that are constantly infiltrating from the outside world are infiltrated from the blood graves under the dark orb.

These blood tombs are all extremely magnificent and exude an astonishing dark atmosphere. Each one is no weaker than the previous Asura Supreme, and it is obviously a dark clan powerhouse who has fallen in ancient times.

"Trouble."

Qin Chen frowned.

Originally, he thought that as long as he found the Demon Soul Source Tool, he could rely on the Lord of Abyss Demon to take it away.

At this moment, Qin Chen realized that it was not so easy to take away this demon soul generator.

First of all, it is necessary to bypass those dark powerhouses who have fallen in the blood grave.

This is by no means an easy task.

Withdrawing his gaze, Qin Chen lowered his head in thought.

It is impossible to force it.

Have to think of a way.

Thoughtfully, Qin Chen turned his head and looked out of the cave.

Sikong Anyun should still be waiting outside.

"Yes."

Qin Chen's heart moved.

boom!

He raised his hand and brought the Blood River Saint Ancestor and others into the Chaos World.

then.

Qin Chen began to clean the battlefield.

The previous battle here still left a lot of clues, and the beginning and the end must be cleaned up.

After doing all this, Qin Chen breathed a sigh of relief.

"It's almost there. The movement here may have already alarmed the top powerhouses in Heiyu Continent."

Qin Chen raised his hand and directly opened the cave restriction previously laid.

Outside the cave.

Sikong Anyun was waiting there anxiously.

She looked at the restriction in front of her, with faint worry and anxiety in her heart.

Just as she waited anxiously.

suddenly.

With a bang, the originally closed restriction in front of him was directly opened, and a terrible breath permeated from it.

"Is it the young master?"

She opened her eyes wide, clenched her fists, and stared carefully.

If the Asura Supreme walked out alive, he would be afraid that he would call his father.

In the endless darkness and chaos, a tall and straight figure slowly walked out.

"Master."

Seeing the face of the incoming person, Sikong Anyun's eyes suddenly rose with ecstasy.

Whoosh.

She came to Qin Chen and looked at Qin Chen, only to feel a majestic aura that made her face flushed.

"The breath of the young master..."

She sucked in air, and her small mouth became round, as if she could swallow something.

Because, it didn't take long to see, Qin Chen's breath became deeper and deeper, and the surging strong masculine aura made her feel soft and unable to extricate herself from the impulse.

She resisted the shock of her heart, looked inside the cave, and said excitedly: "Master, are you okay?"

Qin Chen smiled, "What can I do?"

Sikong Anyun hesitated: "The Asura Supreme..."

"He? Naturally it has been solved by Ben Shao."

Qin Chen smiled, "By the way, Ben rarely has a gift for you."

When the voice fell, Qin Chen suddenly raised his hand and directly penetrated a source of origin into Sikong Anyun's body.

It is the remaining source of that Asura Supreme.

boom!

As soon as this source of origin entered Sikong Anyun's body, Sikong Anyun's body aroused an astonishing supreme breath.

"Master, this is..."

Sikong Anyun's eyes widened.

"This is the origin of that Asura Supreme. You enter the cave and take this opportunity to swallow it. Maybe, there is hope to snoop to the threshold of the Supreme." Qin Chen said with a smile.

"No, Master, this is too precious, I..." Sikong Anyun didn't know what to say.

A supreme source, although it is only a part of it, it is by no means easy to obtain.

Moreover, this is the origin of the Asura supreme, the supreme powerhouse who was once the peak of the initial stage is no small thing.

"If you treat me as a young master, you will just assimilate it. If you are mothers-in-law and mother-in-law, this young man will be angry." Qin Chen looked upset.

Chapter 4713 Lord Mo Lin

"Furthermore, a supreme source is nothing but a precious thing." Qin Chen said casually.

"I..."

Sikong Anyun smiled bitterly.

Such treasures, even in the clan, can't easily be obtained by themselves, the young master actually said that it is not a precious thing.

But she also saw that Qin Chen really wanted to give it to her.

She couldn't refuse such a gift.

The origin of an asura supreme is definitely of great benefit to her.

It can save her years of hard work.

"You go to the cave to practice, and Ben Shao will protect the law for you."

Qin Chen raised his head to look at the sky above the ground, and said lightly.

"Yes."

Sikong Anyun faintly sensed the movement of the outside world, did not dare to neglect, turned around and entered the Asura Supreme Cave, the next moment, a faint supreme aura slowly dissipated in the cave.

"Sir, are you too kind to this little Nizi? This person is from the Dark Race."

Blood River Saint Ancestor said in doubt.

"Hahaha, Old Blood River, I didn't expect your strength to recover a bit, but your brain didn't recover at all." Honghuang Zulong sneered, "It is precisely because the opponent is a member of the Dark Clan that I have to treat him better, don't you know, If you want to defeat your opponent, do you have to break into the enemy's interior first?"

"Hmph, the old immortal Ancestral Dragon, do you think you are very smart? If you were smart, you wouldn't have been physically disintegrated back then, only the soul is left."

"It's better than you."

The two primordial beings began to quarrel again.

"It's all quieter." Qin Chen gave a low voice, looked at the outside world, and sneered at the corner of his mouth.

He faintly felt that at this moment, there were already powerful auras approaching.

But the better thing is that there is no supreme aura for the time being.

now.

Over the Dark Ancestral Land.

A series of terrible breaths came one after another.

This is a group of strong men wearing armors, each of them has a terrible aura.

When they came, they saluted the two figures in the dark ancestral land: "The law enforcement team under the Shihen Emperor has seen the emperor and the old man."

This group of masters are just the many powerhouses commanded by the Shihen Emperor in this Heiyu Continent.

"You are here just right."

Emperor Shihen's eyes flashed cold, he glanced at everyone, frowned: "Where are the four leaders of your law enforcement team? Why haven't they come?"

"Master Hui Dizi, because the commanders are investigating the disappearance of the previous leader Gu Yi, they are all patrolling elsewhere. However, after receiving the message from the Emperor, they are all rushing, and they will arrive soon if they want to come. "

This group of dark guards said one after another.

"Huh, nothing."

Emperor Shihen's face was unhappy.

After being startled by Qin Chen, he had already sent the information back to the Shihen Emperor for the first time, and even passed the information to his father.

However, his father did not come in person because he was in a retreat. Instead, he gave him the control of the strongest dark law enforcement team under the Shihen Emperor gate, and he could order anyone in the entire dark law enforcement team.

The Dark Law Enforcement Team of the Shihen Emperor Sect has countless strong people, which gives the Shihen Emperor a lot of confidence.

But I didn't expect that the four strongest leaders could not arrive in time.

However, even if the four commanders did not come, so many powerful players were enough.

now.

Except for the powerhouse of the Shihen Emperor.

In the distance, many powerful people also gathered, and they all stood far away, looking at the vast stone-marked emperor gate powerhouse in front of them, all of them were surprised.

Especially when they saw that the dark law enforcement team under the Shihen Emperor's gate had all assembled here, such news had to shock people.

Could it be that this Shihen Emperor Gate is going to go to war with other holy places?

"What happened? Is this stone-marked emperor gate crazy? So many dark law enforcement teams actually gathered in the dark ancestral land, this is a big scene that has not been seen in many years?"

A strong man frowned.

This person has white hair, extremely long eyebrows, and long white eyebrows down to his chin. The strong men from the surrounding forces dare not approach this person at all.

Because this person is the powerhouse of Linyuan Holy Sect.

The three top powers of Heiyu Continent are the masters of this world, and no one dares to disobey its authority.

"Master Mo Lin, this Shihen emperor is afraid that he came to avenge him." A strong chuckled, walked up and said with a smile.

This is a middle-aged man, his breath is not weak, and this old man with white eyebrows seems to be familiar.

"Oh? Junxie, do you know the reason?" Mo Lin frowned, the old man with white eyebrows.

He came from the information that the Dark Ancestral Land had changed, and he didn't know what had happened before here.

"Master Mo Lin didn't know that Emperor Shihen had encountered the Sigong Sage of the Sacred Land here before, and clashed with a young woman who was next to Siko Sigong. As a result, she ran away in embarrassment. It should be that she had eaten the boy. At this moment, the dark law enforcement team is called, it should be to find the young man to avenge his grievances."

"juvenile?"

"Yes, this person doesn't know any origin, and even her Royal Highness Sikongzun is quite respectful of her."

"Is there such a thing?" Mo Lin, an old man with white eyebrows, thoughtfully: "Could it be that the movement of this dark ancestral land was caused by this Sagong Anyun and that young man?"

"It's impossible, isn't it?"

The middle-aged man Jun Xie had doubts on his face: "Although the young man took the Sigong woman into the half-step Supreme Blood Tomb that was previously ruined, whether it is the Sikong woman or the young man, although the cultivation level is above the sky, after all It's just Tianjiao, how can the Dark Ancestor Land make such a noise?"

"impossible?"

The white-browed old man Mo Lin sneered: "Jun Xie, although you are somewhat capable, you still don't understand the rules of the Holy Land."

The old man with white eyebrows turned his head and looked at the depths of the Dark Ancestral Land with solemn expression: "These dark law enforcement teams are controlled by Lord Shihen under the command of Emperor Shihen. If there is no order from Lord Shihen, how can they come to this dark ancestor? Is it just because of the call of the Emperor Shihen?"

"Master Mo Lin, you mean, these dark law enforcement teams were sent by Master Shihen?"

"Otherwise?" Mo Lin, the old man with white eyebrows, said with solemn eyes: "Secondly, as you said, after the female Sikong and the young man had entered a **** ruined grave, this dark ancestral land had such a movement, if saying that it has nothing to do with those two people, I don't believe it anyhow."

"According to the rumors, Sikong Zhen of Sagong Holy Land has been operating in this dark ancestral land for many years, and maybe he has discovered some secrets in this dark ancestral land, but that may not be true."

The white-browed old man's expression became solemn.

He must pass this news back to Linyuan Sacred Gate as soon as possible and tell the adults.

"Master Emperor, what shall we do next?"

At this moment, countless experts from the Shihen Emperor Sect gathered to respectfully say to the Shihen Emperor.

[Chapter 4714: Dark Law Enforcement Team](#)

"Just break in, the emperor wants to see what happened in this dark ancestral land!"

Emperor Shihen narrowed his eyes and said.

"inappropriate."

At this moment, Elder Yi hurriedly stepped forward to stop it.

"Emperor Prince, the Dark Ancestral Land is full of dangers. Among them, there are the strengths of my dark clan elders who have rushed in. It is very likely to encounter an accident."

Old Yi said in a deep voice.

"Accidents, what can be unexpected, didn't Sagong Anyun and that kid enter it?" Shihen Emperor's face was ugly.

Old Yi stopped him over and over again. If it weren't for his father who arranged to guard him, he would have been angry.

Old Yi's face was heavy, and he sighed, "Because Sikong Anyun entered it, I have to be more careful."

Emperor Shihen was startled.

Also instantly understood what Yi Lao meant. Sagong Holy Land is the force most familiar with the Dark Ancestral Land, because Sikong Zhen has a palace in this Dark Ancestral Land itself. The route he took seems to be very close to this Dark Ancestral Land, and his father's stone marks. Clear direction different.

In this dark ancestral land, if you rush into it, you might actually encounter the trap of Sagong Holy Land.

"Then what to do?"

Emperor Shihen said with an ugly face.

"You can attack below the dark ancestral land and test each other. It is best to force the Sagong female and them out." Elder Yi suggested.

He looked at the Tieqing face of Emperor Shihen, and sighed slightly.

He knew that if the Emperor Emperor was not satisfied this time, the Emperor Emperor would not give up.

However, the Shihen Emperor Sect made such a big disturbance, not just to vent the anger for the Shihen Emperor, but also to find a place for the Shihen Emperor.

Otherwise, outsiders said that the Shihen emperor son of the Shihen Emperor was actually forced to bleed into the grave by the female Sikong Zun of Sagong Holy Land, and spread out, which would have a considerable impact on the reputation of the Shihen Emperor.

"Then what are you waiting for? Everyone listens to the order, forms an array, and does it."

Emperor Shihen screamed.

"Om!"

Suddenly, between the world and the earth, countless Shihen Emperor's law enforcement team powerhouses formed a large formation in the void and attacked the dark ancestral land below.

Boom!

Countless dark forces quickly gathered together, turned into a thunderous roar, and slashed down violently.

"This stone mark emperor gate is really crazy."

In the distance, many strong men saw this scene, their eyes widened, and they backed away frantically.

next moment.

boom!

That amazing dark beam of light blasted directly into the ground, and immediately burst out with a thunderous roar, and the entire dark ancestral land was directly burst open, exposing huge gaps.

After all, although the Dark Ancestral Land is terrifying, the half-step origin of this place has been swallowed by Qin Chen, and the guarding power has naturally become extremely weak.

"Master Emperor, nothing happened."

Someone said respectfully.

"If there is no movement, continue to shoot, the emperor doesn't believe it, they can't come out."

Emperor Shihen gritted his teeth and said, "Attack the opponent with the strongest fluctuation before."

"Yes!"

Countless dark law enforcement team powerhouses gathered one after another, making strong shots one by one.

I heard the constant roar of roars resounding through the world, and this dark ancestral land was instantly riddled with blasts.

In the depths of the Dark Ancestral Land, Qin Chen frowned and looked up at the sky. This stone-marked emperor was really crazy.

And at this moment...

boom!

A dark attack rushed towards an instant.

Qin Chen turned the sword with his right hand and suddenly slashed it out with a bang, instantly annihilating this dark attack, preventing it from affecting the cave where the Sikong lady was.

"My lord, I found it."

In the sky of Dark Ancestral Land, a dark law enforcement team guard said solemnly.

"Keep doing it."

Emperor Shihen's eyes showed coldness, and he kept attacking in that direction.

"Yes!"

Boom boom boom!

He heard the roars constantly resounding, countless dark attacks, rushing towards Qin Chen's location.

Qin Chen frowned, buzzing, an invisible restriction spread to protect the world.

Countless attacks fell crazily on his prohibition, but he could not break through his defenses.

"My lord, the opponent seems to have established a certain defense underneath."

Many deputy leaders of the dark law enforcement team said.

"Some kind of defense? Huh, what are you waiting for? It's the master to attack the opponent directly." Shihen Emperor Zi coldly shouted.

He sketched a mocking smile at the corner of his mouth.

With so many masters from the law enforcement team, he didn't believe that the kid could resist it.

In an instant, countless dark law enforcement teams gathered together. Each of these powerhouses was at the Heavenly Sovereign level, and the deputy commanders were all Peak Heavenly Sovereign level powerhouses. Under the attack, the world was simply discolored.

Rumble!

The entire underground world evoked an astonishing roar.

Just when Qin Chen resisted.

boom!

From the cave of that Asura supreme, an astonishing breath permeated.

"Master."

Sikong Anyun quickly flew out from the cave.

Her body exudes a palpitating breath.

Qin Chen glanced at Sikong Anyun and said with a smile: "You are only one step away from Supreme, right?"

Before, Sikong Anyun had reached the peak of the half-step supreme, now after absorbing this supreme source, he is only one step away from the supreme realm, and even a faint supreme aura escapes.

Of course, the Supreme is not so easy to break through, even if it absorbs more of the original source, it will take some time to settle.

"Thank you Young Master for mentioning it. If it weren't for Young Master, An Yun would not have improved so fast."

Sikong Anyun said excitedly.

In her current state, as long as she returns to Sagong Holy Land and has enough resources, she is afraid that she will be able to break through the Supreme Realm soon.

"The outside world is..."

At this moment, Sikong Anyun also felt the attack from the Dark Ancestral Land.

"Oh, it's just a few ants, jumping around there, Ben Shao was afraid of disturbing your cultivation, so he just resisted it for you, don't worry about it." Qin Chen said casually.

Seeing the restriction under Qin Chen's cloth, Sikong Anyun couldn't help but feel sore in his nose and red in his eyes.

The young master is really kind to himself.

As the young master, how noble it is to protect himself, this made Sikong Anyun extremely moved.

It's too gentleman.

In this world, there would be such a perfect man.

"Master, don't worry, then, leave it to An Yun."

Sikong Anyun gritted his teeth and said.

She looked up at the sky, and there was a cold killing intent in her eyes.

now.

Over the Dark Ancestral Land, the Dark Law Enforcement Team repeatedly attacked, and they were able to force Qin Chen and the others out.

"Form a big array."

The lead deputy commander roared.

boom! I saw thousands of powerful dark law enforcement teams gathered together, and a huge array of shocking sky rose up, and powers gathered together.

[Chapter 4715: Follow the heart](#)

A force that destroys the world is slowly condensing.

Many people in the distance saw this scene with amazement.

Crazy, this stone mark emperor gate is really crazy.

This dark ancestral land is the resting place of the ancestors. By doing this, will they not be afraid to disturb the ancestors to sleep?

boom!

I saw a terrifying attack blast down instantly, the layers of the void in front burst open, and the ground cracked. This void directly turned into dust, and a huge deep pit was blasted out of the Dark Ancestral Land in an instant.

boom!

Without waiting for them to continue to take action, from this deep pit, a figure instantly soared into the sky.

As soon as this figure appeared, it cut off at the great formation in the sky.

With a bang, the large formation of the dark law enforcement team was directly scattered by the blast and retreated one after another.

Immediately afterwards, this figure fell from the sky, and shouted at Emperor Shihen: "Prince Shihen, you, Emperor Shihen, are too much."

It is Sikong Anyun.

And behind Sikong Anyun, Qin Chen flew out slowly, landing on the ground very casually.

Seeing the two, Shi Hen's pupils suddenly shrank, and he couldn't help but sneered: "Huh, it really is you two dog men and women, in the depths of this dark ancestral land, doing some superlative activities, shameless."

Other powerhouses in the distance, including Na Mo Lin and others, all stared.

Somewhat surprised.

It was really the Sagong female of Sagong Holy Land.

This shocked their hearts.

Could it be that Sagong Anyun and the others caused the abnormal movement formed in the dark ancestral land before?

Mo Fei Sikong found some secret to enter the blood grave of the dark ancestral land?

hiss!

If this is the case, it will be troublesome.

The key is that Sikong Anyun's breath at this moment gave them a very strange feeling, as if they couldn't see through.

If so, by virtue of this method, Sagong Holy Land could definitely be superior to the other two powers, which is something the other two powers would never allow to see.

Sikong Anyun looked ugly: "Shut up, you are not allowed to insult the young master."

"Master?"

The emperor Shihen couldn't help but sneered when he saw Sikong Anyun defending Qin Chen in this way.

"Sikong Anyun, this person is of unknown origin. He went wild in my Heiyu Continent, and even sneaked into the dark ancestral land, destroying the blood tombs of your ancestors. This emperor has reason to suspect that this person has ulterior motives."

Emperor Shihen waved his hand: "Come here, take this person for the Emperor."

"Yes!"

Immediately there was a strong from the dark law enforcement team, who flew out quickly and rushed directly to Qin Chen.

"Go away."

Sikong Anyun's face sank, and his figure shook.

"His Royal Highness Sikong, please get out of the way, otherwise we will stop blaming us for being impolite."

The people of the dark law enforcement team said gloomily.

Others are afraid of Sikong Anyun, they are not afraid of the law enforcement team members of the Shihen Emperor.

"Go further and dare to be disrespectful to the young master and die."

Sikong Anyun glanced at Qin Chen and found Qin Chen's expression unhappy, and couldn't help but say with a cold voice.

"Hmph, then no wonder we are."

This team of dark law enforcement team masters sneered, and blasted directly towards Qin Chen.

"court death."

Sikong An Yun said in a cold voice, and suddenly took a palm.

With a bang, this team of dark law enforcement team masters was shocked and flew back in an instant.

what?

These people were shocked in their eyes.

Although they are not half-step supreme-level powerhouses, each of them is the best of the Tianzun. In the later days of the Tianzun-level existence, even with the peak Tianzun leading the team, they were completely repelled by Sikong An Yun's attack?

"The emperor is careful, the strength of Sikong Anyun seems to have improved a lot." Elder Yi said with a frown.

Even he couldn't see through Sikong Anyun.

Only these words made Emperor Shihen's heart even more unhappy.

"What are you all doing in a daze? If you still don't kill that kid, is it because so many of you can't even take a small woman?"

Emperor Shihen roared.

Seeing Sikong Anyun who was guarding Qin Chen, his heart became more and more ferocious.

Although Shihen Dimen is hostile to Sagong Holy Land, we have to say that Sikong Anyun is the most attractive woman in this Heiyu Continent. Even Shihen Emperor is quite coveted. I don't know how many times I have thought about conquering Sikong Anyun. Scenes.

But now Sikong Anyun's behavior made Shihen Emperor seriously suspicious. The Sikong Anyun in front of him was no longer a complete body, and he was afraid that he had already taken it away for the first time.

How can this make him tolerate?

"Yes!"

In the sky, many dark law enforcement team masters descended together and stared at Sikong Anyun.

"His Majesty Sikong, if she doesn't leave, she won't blame me for waiting."

The leading deputy commanders said in a deep voice.

"It should be you who should retreat." Sikong Anyun said solemnly.

Below, Qin Chen frowned slightly: "An Yun, why do you talk so much nonsense with them? Have you forgotten that martial artists practice and go against the sky, you need to follow your original heart? Hesitate, how can you achieve a great cause."

Sikong Anyun's heart shuddered, she knew that this was because the young master was dissatisfied.

"Hmph, there is no place for you to speak here."

Qi Qi from the dark law enforcement team snorted coldly, and with a wave of his hand, a team of strong men immediately killed Qin Chen directly.

"You are looking for death."

Sikong Anyun screamed, and the cold light in her eyes bloomed, and a terrible breath rushed out of her body, directly blocking those strong men who attacked Qin Chen.

Seeing this scene, the leading deputy commander shouted sharply: "Stop her."

The voice fell, and many dark law enforcement team powerhouses suddenly rushed towards Sikong Anyun!

"court death."

At this moment, Sikong Anyun suddenly shouted angrily, buzzing in his hand, and a sharp sword appeared and swept it out.

laugh.....

In an instant, ten heads rose into the sky!

In the next moment, Sikong Anyun appeared in front of those law enforcement team powerhouses rushing towards Qin Chen and blasted out a punch.

boom!

The terrible fist swept through, and the strong dark law enforcement team was directly turned into ashes.

what?

Everyone present had their eyes widened and surprised.

Even Shihen Emperor was taken aback.

With one move, twenty dark law enforcement team powerhouses were instantly beheaded. Are these all Tianzun?

"Trash, what are you doing in a daze?" Shihen Emperor Zi said grimly.

"Yes!"

The leader deputy commander's complexion suddenly became ugly, booming, his figure shook, and he rushed toward Sikong Anyun.

The strength of the pinnacle Tianzun suddenly exploded at a glance.

A terrible dark angry dragon roared out and hit Sikong Anyun.

A cold stern flashed in Sikong Anyun's eyes, she jumped over and cut down with a sword.

laugh!

This dark angry dragon was directly broken and annihilated! At this moment, the commander appeared directly in front of Sikong Anyun, his expression was sullen, his right hand was clenched into a fist, and then he slammed forward and slammed his fist toward Sikong Anyun!

[Chapter 4716: Tough](#)

The commander roared, "Give me to die."

Boom!

The terrifying fist power directly smashed the void, and the void in front of it was annihilated, and the astonishing fist power directly turned into Wang Yang and came to Sikong Anyun.

However, at the moment when the power of the punch was about to hit Sikong Anyun, a hesitation flashed deep in the eyes of the commander, and the movement of his hand paused slightly.

The strength was reduced by one point.

He didn't dare to really kill Sikong Anyun.

After all, Sagong Anyun is the heir of Sagong Holy Land, the real core figure.

Although he was the strongest of the Shihen Emperor Sect, if he really killed Sikong An Yun, the Shihen Emperor Sect would not be able to protect him, and might want to withdraw from him and sacrifice him. After all, he was not the Shihen Emperor.

However, as soon as his power received a point, his pupils suddenly shrank.

boom!

It was seen that Sikong Anyun looked calm under his attack, without any fear. Instead, his eyes were cold, and he slashed out with a sharp sword.

Tough.

No fear of his attack.

Boom!

A terrifying sword light slashed out violently, and instantly smashed on the fist of the commander, like a hot bayonet pierced into the butter, and the commander's attack split instantly.

"not good!"

At this moment, the commander couldn't help being shocked.

Only then did he rang, and what was in front of him was not some garbage, but Sagong Anyun, the heir to Sagong Holy Land.

A real peerless arrogant.

Such a worldly arrogant, need him to keep his hands?

I'm afraid that if you don't keep your hands, you may not be the opponent's opponent.

In panic, the commander roared, and a black air filled his body, instantly forming a black shield in front of him.

Hard block!

At this distance, you can't hide, you can only block.

Soon, this sharp sword of Sikong Anyun slashed on this black shield.

boom!

A deafening blast resounded suddenly.

Boom!

The shield in front of this commander was directly shattered, and his entire body was instantly exploded, dripping with blood, directly flying upside down for tens of thousands of meters, which was terrible.

His physical body is breaking down a little bit.

one strike.

A deputy commander of the pinnacle Tianzun level was directly defeated.

The commander had a horrified look in his eyes, a look of horror, and a sigh of relief in his heart. Although his body was collapsing, he at least saved his life.

As long as the soul is still there, he will be fine.

however.

Before his breath fell, a terrible sense of crisis suddenly lingered in his mind.

He hurriedly raised his head, his pupils suddenly shrank.

Just saw a sword light, violently cut from there without warning.

puff!

This sword light, as fast as lightning, made him too late to react, and it pierced the center of his eyebrows in an instant.

boom!

In an instant, the body of this commander vanished into ashes, and his soul became illusory!

The commander's eyes were full of disbelief, "This..."

The words are not finished.

boom!

His soul was completely annihilated, dissipated in the void, and nothing was left.

hiss!

In the distance, there were bursts of air-conditioning.

With one sword, beheading a peak Tianzun-level deputy commander, this kind of strength is shocking.

The old man with white eyebrows, Mo Lin, said, "It is said that Sikong Anyun from Sagong Holy Land has super talent and is already a top powerhouse at a young age. Now it seems that it is so."

With one sword, killing a peak Heavenly Venerable powerhouse, this kind of strength has definitely reached the half-step supreme level.

And this Sikong Anyun is still very young.

Being young is the greatest capital and represents infinite potential.

"Waste, it's just waste."

At this time, the Emperor Shihen was thunderous with anger.

"Idiot, it's an idiot, who is Sagong Anyun? Need you to keep your hands? Self-righteous."

Emperor Shihen was so angry that his liver hurts.

Their existence at this level cannot be judged by their cultivation base, and even he can fight against the Half-Step Supreme, what can Sagong Anyun not be able to do?

If Sagong Anyun couldn't do it, he wouldn't be designated as the heir of Sagong Holy Land.

It's ridiculous that the deputy commander actually kept his hand at the last moment of the shot. Isn't it an idiot? Emperor Shihen was furious, he even looked at the rest of the dark law enforcement team and others, and said coldly: "What are you doing in a daze? Don't hurry up and take down this Sagong Anyun, and no one is allowed to keep his hands. The emperor saw that he was severely punished and not negligent,

a bunch of idiots. "

"Yes!"

The eyes of many masters of the dark law enforcement team also became cold, and the death of a deputy commander made them all look dignified.

"Finalize!"

Accompanied by the harsh shouts and booms of the other deputy commanders, above the sky, many masters of the dark law enforcement team all gathered together in an instant, and a terrifying dark array emerged in the sky.

Rumble!

An astonishing dark aura began to descend, as if to crush the sky.

although. Many of the strong men of the dark law enforcement team above their heads are just ordinary Tianzun, but the combination of so many strong men and the formation of the battle formation under the leadership of several peak Tianzuns has reached a kind of power. Extremely abnormal

To the point.

Even, it can kill the ordinary half-step supreme.

Perceiving the terrifying aura in the sky, Sikong Anyun's face became extremely ugly.

She looked at Emperor Shihen, and said coldly: "Prince Shihen, do you have to be an enemy of our Sagong Holy Land? If you make a big mess, no one can get it right. Do you have to think about the consequences? "

It's that she didn't want to kill these people from the dark law enforcement team.

But once the battle started, it would definitely cause a conflict between the two top forces, which she didn't want to see.

The Shihen Emperor Gate is by no means comparable to some ordinary forces. The emperor Shihen smiled grinningly: "Sikong Anyun, you are the one who caused the trouble. The origin of this person is unknown. The emperor seriously suspects that his purpose is to destroy the dark ancestral land where the ancestors are sleeping, but you For this person, killed my stone mark

The strong man in the dark law enforcement team of Emperor Gate. "

"Today, this person must die. In addition, your Excellency has to go back to the Shihen Emperor Gate with me to investigate the relationship between you and this kid. If you find that you are innocent, the emperor will automatically You put it back into Sagong Holy Land."

Emperor Shihen's face looked grim, he had already made up his mind, taking advantage of the opportunity of the death of the dark law enforcement team today, to bring Sikong Anyun back to the door of Shihen Emperor.

As for what he will do after taking it back, hehe, it is not up to this Sagong An Yun to decide.

Even if this Sagong Anyun is no longer a perfect body, such a beautiful appearance, presumably it will still be very good.

Moreover, people with experience may be more familiar with and enjoy it.

Thinking of this, the emperor Shihen's saliva almost ran down, staring at Sikong Anyun's eyes, the green light like a hungry wolf bloomed.

"What are you doing in a daze? Sagong Anyun killed your compatriots without taking her down? Isn't the Dark Law Enforcement Team of my Stone Mark Emperor's door a group of cold-blooded beasts? Isn't it a waste of revenge for my compatriots?" Emperor Shihen said viciously.

[Chapter 4717: That's how it feels](#)

Hearing what the Emperor Shihen said, the eyes of many law enforcement palace powerhouses in the sky burst out with cold light.

"kill!"

The leading deputy commanders screamed and banged, and in an instant, a series of terrible attacks, under the blessing of the battlefield, slashed madly towards Sikong Anyun.

Rumble!

Above the head, the void trembled, this force was too terrifying, and the entire dark ancestral land was rumbled.

Although these people are not very strong, the power of so many dark law enforcement teams gathered together is absolutely amazing.

As if the stars are falling, the sky is pouring down, and the heaven and the earth seem to collapse in it.

In the distance, many people stepped back, their faces shocked.

This stone trace emperor gate is afraid to be crazy, this is the rhythm of going to war with Sagong Holy Land.

Facing the terrifying attack from the battle formation above his head, Sikong Anyun's eyes flashed with a sharp look.

She roared: "Since you have to die, then the deity girl will fulfill you."

boom!

When the voice fell, Sikong Anyun didn't evade, and even soared directly into the sky.

Faced with so many attacks from dark law enforcement team powerhouses, she did not evade, but chose to be tough.

As the young master said, warriors should face their original minds, right?

Seeing this, Emperor Shihen couldn't help but his pupils shrank, frowning and said: "This Sagong Anyun, are you crazy?"

Although Emperor Shihen is confident of his own strength, facing so many attacks from the dark law enforcement team, he is afraid that he has only one choice, and that is to retreat.

But Sagong Anyun.

In shock, suddenly, Emperor Shi Hen's pupils suddenly shrank.

Sikong Anyun raised his sword, and countless powers boiled between the heaven and the earth, and the terrifying dark flame avenues condensed on her hands, and then turned into a heaven-shaking dark flame sword.

This Dark Flame Excalibur, which is tens of thousands of feet high, fought against the dark law enforcement team above his head and slashed with a sharp sword.

Two terrifying attacks suddenly collided in the void.

There was silent silence at first.

next moment...

boom!

A earth-shattering roar resounded throughout the world, a mushroom cloud tens of thousands of feet high, soaring into the sky, a terrible shock wave swept away, and the earth was plowed into ravines.

A dazzling light burst out, making people almost unable to open their eyes.

Such a terrifying attack caused everyone to change their colors, and they looked up nervously in response to the impact.

What happened to Sikong Anyun?

In the sky, many dark law enforcement team powerhouses retreated one after another under this shock, and even stabilized their figure and looked down.

do you died?

They are a little nervous.

The place of the explosion was empty, and no one was there.

Could it be that he was bombarded into scum?

Everyone was startled.

Anxiety emerged in my heart, if Sagong Anyun really died here, then...Heiyu Continent would definitely cause a major earthquake, and Sagong Holy Land would inevitably kill him.

At this moment, Old Yi seemed to be aware of something, he suddenly looked up, his pupils suddenly shrank.

Old Yi screamed hurriedly: "Be careful."

The strong men of the dark law enforcement team even looked up.

There, there was a figure standing proudly there, it was Sikong Anyun. Not only did this person withstand their previous joint blow, but at some point, he had actually reached the top of their heads.

At the moment when everyone looked up, Sikong Anyun had already slashed with a sword.

puff!

The sword light slashed down violently, and the many strong men of the dark law enforcement team present did not react at all, so they were directly strangled into pieces by this sword light.

boom!

In an instant, dozens of masters of the dark law enforcement team disappeared.

"Stop her!"

The deputy leader of the dark law enforcement team screamed, and at the same time rose into the sky.

puff!

As soon as his voice fell, a sword light instantly pierced his eyebrows, and his body immediately became illusory and turned into powder. At the same time, his soul was slowly dissipating, and the origin collapsed.

"impossible!"

His eyes widened, his soul frightened, and before he died, his eyes were round, and he couldn't believe his eyes.

With one sword, a deputy commander of the pinnacle Tianzun level died.

"The deputy commander."

Many strong men in the dark law enforcement team shouted in horror.

However, at this moment, they don't have much energy to consider others.

Because Sikong Anyun has already entered the dark law enforcement team.

"Damn it, stop her with me."

A squad leader of the late Tianzun roared, brought a dozen of his men to kill, and blasted out a punch.

boom!

The void collapsed, drowning Sikong Anyun.

The next moment, from the collapsed void, a sword light swept out, puff, and cut the head of the captain into the air. The heads of the remaining dozen team members also rose into the sky.

boom!

At the moment when Sikong Anyun took out the sword, the place where she was was already overwhelmed by countless attacks, but before these attacks came, Sikong Anyun's figure had disappeared.

Puff puff!

I saw the dazzling swords shining brightly across the world.

The sword light is beautiful, gorgeous, and cruel at the same time.

Sikong Anyun made a crazy shot, with her cultivation base, these dark law enforcement team's strong men are not her opponents at all.

Every sword light falls, there must be a dark law enforcement team powerhouse to fall.

Sikong Anyun was here as if he had entered the realm of no one, shooting at will, no one could resist.

"hateful."

"impossible!"

A strong member of the dark law enforcement team roared and resisted, but to no avail, a touch of fear flew from the depths of their eyes.

Sikong Anyun is like a killer god, with red eyes.

In her heart, a transparent thought soared into the sky, and it was refreshing.

Rumble!

The countless half-step supreme origins and asura supreme origins that had been swallowed before, thoroughly integrated and became her own strength.

Her breath is getting stronger and stronger.

At this moment, Sikong Anyun finally understood what Qin Chen meant by following his heart.

Sagong Holy Land and Shihen Dimen are hostile forces. Both sides hate and compete with each other, so there are always conflicts. As the heir to the Sacred Holy Land, in order not to trigger the Shihen Emperor's counterattack, she had been suppressing herself before. It was clear that the other party had always been aggressive, but for the sake of the stability of the Holy Land or considering other factors, she had been tolerant.

Back down.

Until this moment, she couldn't help it anymore, and directly took a strong shot, beheading many of the law enforcement team powerhouses of the Stone Mark Emperor's Gate. These are all enemies of her Sagong Holy Land. When she killed the opponent, her soul was extremely transparent, and her thoughts were extremely accessible. All the power she had absorbed before also became her with the boiling blood. Power in the body

.

That's how it feels.

The warrior, what he wants is this kind of sword-struggling world, life and death bearishness, and the impulse to do it when not satisfied.

She is still young. If she considers too much about her identity, what can she achieve in the future? Young people should be brazen.

[Chapter 4718: Yuhe Commander](#)

With Sikong Anyun's continuous killing, the thoughts in her heart became more and more accessible, her breath became stronger and stronger, and her shots became more and more fierce.

"kill!"

Sikong Anyun screamed and cut out with a sword.

The rumbling, the collapse of the world, and numerous screams, many strong law enforcement teams died.

The dark origins of the strong law enforcement team were invisibly affected by her power and entered her body one after another.

With constant shots, Sikong Anyun's breath not only didn't weaken, but instead continued to grow stronger in the battle.

Sensational!

Under Qin Chen's guidance and training, the Dark Clan finally came out with a killer god.

Sikong Anyun was originally polite and arrogant in her heart. In many cases, she didn't bother to take action with others, and she had always been aloof.

Today, he has become a **** of killing, a **** of killing.

Puff puff!

As if she had entered the land of no one, wherever she passed, a powerful law enforcement team of the dark clan burst into blood fog, screaming again and again.

Below, Qin Chen smiled, with a calm expression.

However, the people of Shihen Emperor Sect could not calm down.

"Damn it, how could this Sikong Anyun be so strong?"

Emperor Shihen let out an angry roar.

boom!

With murderous aura on him, he was about to rise to the sky.

As the emperor of the Stone Mark Emperor Sect, how could he look at Sikong Anyun and continue to slaughter his own Stone Mark Emperor Sect's law enforcement team powerhouse.

However, his figure moved slightly, and suddenly, an arm appeared and stopped him.

It's Yi Lao.

"Old Yi, what are you doing?"

The Emperor Shihen sternly shouted: "Are you going to watch all the people from the Emperor Shihen door fall here?"

He could see that with Sikong Anyun's strength, if the dark law enforcement team teamed up to form a large formation, there might be a battle.

But now, Sikong Anyun has already entered the team. If no one stops her, I am afraid that all the dark law enforcement team powerhouses of the Shihen Emperor will die here.

Old Yi said in a solemn voice: "The emperor's son is safe and restless. If you don't need an adult, someone will stop her naturally."

Emperor Shihen frowned: "Who?"

Suddenly, Emperor Shihen seemed to feel something and suddenly raised his head.

Above the sky, Sikong Anyun, who was slaughtering wildly, slashed towards a powerful deputy commander.

And this powerful commander had been completely imprisoned by the breath of Sikong Anyun, his expression was horrified, and he watched Sagong Anyun's attack abruptly slashed.

Under this sword, this deputy commander is bound to die.

Seeing Sikong Anyun's attack was about to fall.

at this time.

boom!

I don't know when, a figure suddenly appeared in front of this deputy commander.

This is a middle-aged man wearing a pitch-black armor. His body exudes a heart-puzzling aura. On his armor is engraved with a domineering brave, and on his hands, there are a pair of **** gloves with hideous and sharp thorns.

boom!

The middle-aged man blasted out a punch, and immediately exploded the sword light that had been slashed.

The terrible aftermath swept out, and the middle-aged man swept away his fist and protected the seriously injured deputy commander behind him.

"It's Yuhe in charge."

The strong men of the other dark law enforcement teams around saw the people coming, and all of them showed excitement in their eyes.

The visitor was Yuhe, one of the four leaders of the law enforcement team of Shihen Emperor.

"Leader Yuhe."

The deputy commander, who was protected by the middle-aged man, hurriedly saluted, showing excitement.

If it weren't for Yuhe to arrive in time, he would almost die.

In the distance, people from other forces also condensed.

Yuhe commander, that is a half-step supreme powerhouse, these three top forces are indeed extraordinary in strength, any leader is a half-step supreme.

"Go back."

Commander Yuhe spoke lightly to the deputy commander behind him, and the deputy commander hurriedly nodded and stepped back.

Then, the leader of Yuhe arched his hands at the emperor Shihen and Yi Lao below to show respect. Then, he glanced at the bloody, heavy-loss dark law enforcement team, and his face suddenly became gloomy.

At this moment, a full one-third of the original dark law enforcement team had fallen, and half of the remaining two-thirds of the law enforcement team members were seriously injured, which was simply horrible.

In the history of their dark law enforcement team, when did they suffer such humiliation? Yuhe looked gloomy, raised his head, and looked at Sikong Anyun, with a strong murderous expression in his eyes, and said coldly: "Your Excellency is also the heir of Sagong Holy Land anyway, are you not afraid of being ruthless against my Shihen Dimen law enforcement team? Trigger the stone mark emperor gate

A battle with Sikong Holy Land? "

Sikong Anyun hovered in the air, glanced at the Emperor Shihen below, sneered, and said coldly: "You did it first, but you are the Emperor of Shihen." Yuhe commander said coldly: "The Emperor has already sent a message before. For me, although the commander did not fully understand the course of the matter, he probably knew that it was your Sagong Holy Land that wreaked havoc on the Dark Ancestral Land, and the Emperor Son was to protect the Dark Ancestral Land.

In order to prevent the ancestors who fell here from being disturbed, she had no choice but to ask Sikong Zun's daughter to go back and investigate. It was enough if Sikong Zun's didn't cooperate, and she killed many disciples of my law enforcement team. "

Sikong Anyun sneered: "I understand."

Yu He frowned at the commander's brow.

Sikong Anyun sneered and said, "You guys at the Shihen Emperor Sect are all nonsense things. If you want to do it, you can do it, there is so much nonsense."

When the voice fell, Sikong Anyun held the sword in both hands.

boom!

A sharp sword light shot into the sky from her body, seeming to penetrate the sky of this dark ancestral land through a gap.

Immediately afterwards, Sikong Anyun screamed, holding the sword in both hands, and suddenly smashed down against the leader of Yuhe.

"presumptuous!"

The leader of Yuhe's face sank, and he gave a sharp stern, his hands suddenly joined together, and with a thud, countless dark auras gathered on his body.

Roar!

Vaguely, as if Pai Yao's roar sounded, Yu He commanded him, an astonishing phantom shot up into the sky, and then he blasted out the sword light that Sikong Anyun had cleaved.

boom!

The heavens and the earth were torn apart and eternally extinguished. This punch was enough to break the sky.

The terrifying fist light poured out like a vast ocean, colliding with the sword light smashed by Sikong Anyun.

Boom!

The next moment, the sword light shattered, but the power of the fist that Yuhe commander blasted was also directly shattered. Under this impact, his whole body flew upside down for tens of thousands of meters.

boom!

The void behind Yu He's commander was directly annihilated under this shock.

On the other hand, Sikong Anyun did not move.

what?

This scene stunned everyone present.

Everyone was stunned.

The leader of Yuhe, that is the leader of the Shihen Dimen law enforcement team, the real top powerhouse, half-step supreme. It was blasted back by a sword.

[Chapter 4719: Devouring Realm](#)

Is Sikong Anyun so strong?

Below, Emperor Shihen's pupils also shrank.

He naturally knew the strength of the law enforcement team under his father. Although it was only a half-step supreme, he was definitely a top-level powerhouse. Even he had to be careful, and he would be forced to retreat by Sikong Anyun.

When has the strength of Sagong Anyun improved so much?

Everyone was shocked, but saw Sikong Anyun mockingly glanced at the leader of Yuhe, disdainfully said: "There are so many nonsense, what kind of master do you think it is? It turns out to be a trash, what is it!"

Sikong Anyun looked disdainful.

"you..."

The leader of Yuhe flushed: "Do you really think that the leader will lose to you?"

Yu He commanded him, a stunned breath rose into the sky, and at the same time, a figure of ten thousand feet bloomed from his body, turned into a phantom of Pixiu, and furiously pounced towards Sikong Anyun.

boom!

Under the shock of the weather, the void trembled, and this side of the dark ancestral land was roaring, as if it could not bear this coercion.

Under such an attack, Sikong Anyun looked calm, holding a sword in both hands, and said coldly: "Cut!"

Jian Guang slashed brazenly.

boom! A terrifying sword light came violently, slashing on the Pixiu phantom for an instant, and the Pixiu phantom uttered a stern roar, which was instantly slashed and exploded. Then, the figure of the leader of Yuhe also instantly retreated. , Has been smashing thousands of miles into the void

.

As soon as he stopped, his figure slowly became emptied, and his physical body was collapsing.

"impossible!"

The leader of Yu He roared, he was a half-step supreme powerhouse, how could he lose to Na Sikong Anyun.

Below, the emperor Shihen and others even breathed in air-conditioning.

With a sword, Yuhe's body directly collapsed.

Is this Sagong Anyun taking medicine?

"Lao Yi?" Emperor Shi Hen looked at Yi Lao.

Yi Lao's face, like an old bark, also wrinkled more severely, and said in a deep voice, "The emperor, the breath of Sagong Anyun is a bit evil."

A sharp light flashed in the eyes of Emperor Shihen, and he took a step forward, raised his palm, and made a head-cutting gesture, and whispered: "Why not..."

Murderous aura passed through his pupils.

Elder Yi shook his head and said in a deep voice: "Lord Emperor, don't worry, let's take a look. Leader Yuhe is not that easy to lose, but this person needs to stare at him. The old slave always thinks that this person is a little weird. It may be more tricky than Sikongzun..."

Old Yi's gaze fell on Qin Chen.

"He?" A cold light flashed in the eyes of Emperor Shihen, "This person is of unknown origin, seize the opportunity, then don't give him a chance to speak, just kill him."

At this moment in the sky, many dark law enforcement team powerhouses looked horrified and watched this scene in amazement.

Isn't even the leader of Yuhe the opponent of that Sikong Zun woman?

Fear emerged from their hearts.

Sikong Anyun looked at the leader of Yuhe, and said lightly: "Is there any means, just take it out."

Before meeting Qin Chen, she might have to be more careful in the face of this Yuhe leader, but now with Qin Chen's help, she has already made extraordinary breakthroughs, and a mere leader Yuhe is not enough for her to see.

In the distance, the leader of Yu He stared at Sikong Anyun, and there was a terrible blood rising from his body.

"Venerable Sikong, don't be arrogant."

As he said, the palm of Yuhe commander spread out, "Ning!"

boom!

Yu He led the physical body directly and began to recover at a speed visible to the naked eye!

"It's not so easy to recover."

Sikong Anyun suddenly raised his hands, and a sword light that could penetrate the stars suddenly soared into the sky from her body.

boom!

That sword light stood between the sky and the earth, and the sword aura was vertical and horizontal, exuding the terrifying pressure that shook the sky. At this moment, the entire void directly began to split.

This piece of void can't stand the pressure from this sword light!

And this is just coercion!

Secretly, countless powerful people were shocked. At this moment, Sikong Anyun's breath was definitely above the average half-step supreme. Could it be that Sikong Anyun had also reached the half-step supreme realm?

Such a speed of cultivation is terrible.

In the void, Sikong Anyun raised his right hand high, and then fell sharply, "Cut!"

This sword light pierced the sky, suddenly violently slashed down, this slash, the void boiled, and then began to die, and when it fell.

boom!

In an instant, the void within hundreds of thousands of miles perished directly, not only that, but the innumerable origins and powers of this void were all annihilated!

At this moment, the void in front of this sword is as small as an ant.

In the distance, the commander Na Yuhe had a look of ferocious eyes, his right hand suddenly clenched, and in an instant, countless mysterious dark runes appeared in the surrounding void. These dark runes were like waterfalls, all over the starry sky.

Each rune contains an unknown mysterious power, and the attributes of each power are completely different. Not only that, each rune contains a terrifying will.

With the appearance of these mysterious runes, the roar of wild beasts appeared in the field. These sounds, as if from a distant abyss, were breathtaking!

Commander Yuhe suddenly raised his head and roared, "Eternally broken!"

When the sound fell, he hit the sky with a blow!

boom!

In an instant, countless mysterious dark runes between the heavens and the earth directly gathered into a fist print, and this fist print rose to the sky to meet the sword light that was cut down.

A moment of silence—

Boom! Suddenly, a deafening explosion sounded between the heavens and the earth, and then, the sword light and the rune fist mark crashed and a terrifying wave of air instantly swept across the void. At this moment, the entire void directly became a piece of waste

Ruins.

This piece of emptiness, as if it had been abruptly erased, no longer exists!

However, there are still those mysterious low roars between heaven and earth.

At this moment, both leader Yuhe and Sikong Anyun were in the shattered void, both of them disappeared from this space, and instantly sank into a dark world.

As soon as he entered this dark world, Sikong Anyun felt a terrifying force, about to swallow and tear himself.

On the opposite side, the leader of Yu He was pale, and his body was beaten to annihilation again, but there was a hideous look in his eyes. In the void and void, the leader Yu He stared at Sikong Anyun: "Hahaha, the lady of Sikong, this place is the swallowing realm formed by the special supernatural powers of this commander. In this realm, there is no matter, and the rules of heaven and earth are not Re-exist, unable to use any

What strength, but..."

The voice fell, and his right hand slowly clenched.

boom!

Suddenly, in the world of Swallowing, those low roars suddenly became louder, and every voice carried a breathtakingly strange power! Sikong Anyun frowned.

[Chapter 4720: Thoughtful](#)

The leader of Yuhe stared at Sikong Anyun, "This is the will of the many powerful people swallowed by the supernatural powers of this leader, the will of these powerful people, in this swallowing realm, it is not bound and restricted by this realm! "

The voice fell, those wills began to corrode Sikong Anyun.

Outside, everyone saw this scene, and there was a look of horror in their eyes.

In the World of Devouring, the leader of Yuhe still has such magical powers.

Now Sikong Zun is in trouble. The white-browed old man Mo Lin of the Linyuan Saint Gate condensed his eyes and said solemnly: "I have long heard that the four leaders of the Shihen Emperor's law enforcement team are extraordinary. They have been inherited from the ancient beasts in the dark universe and possess the dark ancient beasts. Supernatural powers, it really didn't have the same response.

"

The middle-aged man Junxie also looked terrifying: "The world of Devouring, in this world, if I wait to be trapped, I am afraid that I will not escape death, right?"

In such a world of supernatural powers, there are no ten thousand laws and no obvious rules. Once you enter, you can only be slaughtered by others, which is simply terrible.

On the other side, the Shihen Emperor sneered: "Old Yi, Sagong Anyun too underestimated my Shihen Emperor Sect. How could it be so easy for me to be defeated by the power of the Shihen Emperor Sect."

"That's natural, but the emperor, it's better for us to stare at that kid."

On the side, Old Yi's mouth was smiling, and his gaze was fixedly staring at Qin Chen not far away, obviously to prevent Qin Chen from taking action.

If Qin Chen tried to rescue Sikong An Yun, then he was too afraid to make a move.

However, what puzzled him was that from a distance, Qin Chen looked at the scene in front of him, but he did not do anything, but his expression was calm and steady as a rock.

Old Yi frowned, "This kid is not worried at all, not in a hurry?"

He didn't know that Qin Chen didn't have any thoughts of intervening in his heart.

He had given Sikong Anyun so much help, if even a small dark leader couldn't solve it, it would have disappointed Qin Chen too much. Seeing that Qin Chen was silent and did not move, Shi Hen couldn't help but sneered: "I said Elder Yi, are you worried too much? That kid is so young, and his breath is not so strong, I am afraid that even Sikongan The clouds are not as good as the clouds, how dare you to enter

The world of devouring? "

"If he enters the Devouring Realm, he will be applauded. I'm afraid he will die in it directly. We don't need us to act."

Elder Yi frowned and said: "The emperor, you still can't be careless, have you forgotten the scene where the kid swallowed the origin of the blood tomb in the ruins?"

Hearing what Yi Lao said, the pupils of Emperor Shi Hen suddenly shrank.

Looking back at the original scene, the emperor Shihen still had some palpitations in his heart.

He snorted coldly, and said, "It should be that kid, right? There is a means to subdue the origin of the ruins of the blood tomb?" The Shihen Emperor seemed to have thought of something, and nodded: "I heard my father said, that Sagong Holy Land. Sikong Zhen has a palace in this dark ancestral land. He has been studying this dark ancestral land for many years. Perhaps what he has studied is not necessarily true.

."

"It must be so."

Speaking of this, a rainbow light suddenly burst out of the pupils of Emperor Shihen.

If Sagong Sacred Land has really worked out a method to swallow the origin of the Bloody Tomb in the Dark Ancestral Land, then you really need to pay attention to it. Father must be informed that this Sagong Sacred Land must not be allowed to grow.

In the realm of Swallowing in the distance, Sikong Anyun frowned slightly, because she discovered that her power was fading away bit by bit at the beginning.

Corruption of will!

If it is outside, these little wills can't corrupt him at all, but this is the world of swallowing, and here, any force of rules will be suppressed.

boom!

An aura surged from Sikong Anyun's body. As soon as this aura appeared, it instantly dissipated, as if there was no power to manifest here.

The leader Yuhe said with a grim expression: "Sikong Anyun, don't waste your efforts. In this swallowing world, you can reach the sky by your means, and you will not escape being swallowed by this leader."

"is it?"

Suddenly, Sikong Anyun sneered.

"If your Devouring Realm is so strong, wouldn't it be possible for even the Supreme Power to suppress and swallow it?"

"You are so awesome, why are you just the leader of a law enforcement team?"

"The boss of the Shihen Emperor Sect, it should be you."

Sikong Anyun looked disdainful.

Hearing this, everyone was startled.

Indeed, if this Devouring Realm is so awesome, isn't this Yuhe leader invincible?

The so-called rules are not obvious, there is definitely a limit, at least, this swallowing realm will definitely not be able to trap the supreme-level powerhouse.

The leader of Yu He looked ugly, and said coldly: "It's only the benefit of the tongue, this swallowing realm has a limit, but you can never be included that can break through that limit."

Yu He commanded a hideous face, urging the will of the Quartet, countless wills, and frantically devouring the power of Sikong An Yun.

"is it?"

Sikong Anyun sneered, her eyes slowly closed.

In this swallowing world, what is terrifying is only the will to swallow.

And these wills are nothing more than the will of the strong that Yuhe commanded once refining and beheading, the so-called strong, but only a few heavenly deities, at most half-step supreme.

If the will of these strong people is outside, they can't hurt her at all, it's just that they can swallow her power in this special swallowing realm.

But no matter where it is, the will of the weak is the will of the weak.

Her Sagong respected female, can't she even surrender this kind of will?

There was a roar in his heart.

boom!

At this moment, Sikong Anyun suddenly appeared a mysterious power.

will!

Her own will!

She is fighting against those wills led by Yuhe with her own will!

"I have good thoughts and invincible directions."

"Master said, the road to the strong is to go against the sky and follow the heart."

"My heart is the heart of heaven and earth."

boom!

The aura on Sikong Anyun's body was soaring crazily.

Seeing this scene, the pupils of the leader Yuhe in the distance suddenly shrank.

how can that be?

With his own will, this Sikong Anyun was able to withstand the power of the Devouring Realm.

It is absolutely impossible.

Commander Yuhe is going crazy.

In the realm of his swallowing, except for the supreme powerhouse, other powerhouses would never want to break open.

"impossible!"

He screamed, urging more will to pounce.

"Nothing is Impossible."

Sikong Anyun opened her eyes suddenly, and her corroded power began to return to normal, not only that, but her will became stronger and stronger.

Sikong Anyun raised his head to look at the leader of Yuhe in the distance, "My intention is as solid as a rock!"

The voice fell, and there was a bang, and the will of a large number of strong people in the Devouring World issued a stern roar, which was actually being swallowed by Sikong Anyun.

These wills have become Sikong Anyun's nourishment.

Moreover, the breath of Sikong Anyun's body was also trembling.

To break through!

Seeing this scene, the strong men in the distance showed awe. Elder Yi and Emperor Shihen had even more ugly expressions, their eyes rounded.
