

Valkyrie 4931

[Chapter 4931: Become stronger](#)

"what!"

At this moment, a large amount of power poured into Qin Chen's body, causing him to roar in pain.

It hurts, it hurts too much.

His whole body seemed to be pierced crazily by billions of hot red steel needles, and it was as if he was strangling by blades. The intense pain caused people like Qin Chen to scream and distorted his face.

Unprecedented torture.

Qin Chen's body was convulsing.

The power of darkness is the power of another world. Now that Qin Chen controls the blood of the King of Darkness, he can indeed absorb the power of darkness. When he was in Heiyu Continent before, Qin Chen absorbed the power of the dark origins of several dark forces.

But that's just absorbing part of the source of darkness.

But here, it was the main entrance of the Dark Continent's invasion. It is rumored that the other side is located in a forbidden area in the Dark Continent world. The power of the billowing darkness fills the entire mirror world. The quantity and richness are beyond the reach of ordinary people. Bearable.

Stronger than the high priest, dare not absorb the power of darkness in such a place.

Only Qin Chen who has the blood of the Dark King.

In addition to the power of darkness, there is also a lot of power of the origin of the devil here. These two powers are mixed together, which is definitely not something ordinary people can bear.

"what!"

Qin Chen roared, and his body was constantly cracking. Such a scene was very scary. With countless blood and energy, Qin Chen instantly turned into a blood man.

But he clenched his teeth and insisted, because he knew that he was too weak now.

He wants to become stronger.

Become stronger.

Only by becoming stronger can you protect the people you want to protect.

This mirror world, for him, is a crisis and an opportunity.

Only in this place filled with endless power can his cultivation be one step closer.

Click!

Under the eyes of everyone, Qin Chen's body kept blasting, and his body collapsed, and he forcibly swallowed the power of darkness and the power of the origin of the demon. What a crazy thing?

Not far away, Sisi clenched her hands, she could feel Qin Chen's pain, but also Qin Chen's heart, the heart of working hard for them.

boom!

In Sisi's body, the colorful power bloomed, and the power of the long river of origin of the whole demon began to agitate.

Shangguan Wan'er also turned into a frenzied way, the wisps of power in her body blended into this world, to alleviate Qin Chen's pain.

In the distance, with a bang, the high priest urged the altar, countless dark runes bloomed, and the ten-tailed magic fox flew out.

The high priest disdainfully said: "Ancient Chaos Demon God, but so."

"Hmph, if I haven't been weak for so many years, how can I be humiliated by you?"

The ten-tailed magic fox has an ugly face, and his eyes are cold.

Although she got the last tail and recovered her previous life cultivation base, at this moment, she is actually the same as the great ancestor dragon, and her strength has not been restored to the peak state of the previous life.

Having been weak for too many years, how can it be restored to its peak all at once?

Huluoping was really bullied by dogs.

The high priest glanced at Qin Chen who was not far away, with a disdainful smile at the corner of his mouth: "I thought that what this kid is going to do is actually wanting to directly swallow the power breakthrough here. It's ridiculous, if the power in this mirror world is so good to swallow, but it's the kid's turn to take it? The old body has already absorbed all of it."

"The power of darkness and the power of the origin of the demon are the power of two worlds. Although people in this universe can control part of the power of darkness after being recognized by the dark clan, they are only controlled by external forces. , Can't be absorbed directly at all and turned into our own strength."

"The universe is different, the origin is different, and the rules are different. How can they be compatible?"

The high priest was originally worried about what Qin Chen would do, but now that he saw Qin Chen's actions, he was completely relieved.

It's just a guy who doesn't know how to live or die.

Of course, although he didn't believe that Qin Chen could swallow the power in the mirror world, the high priest would not just watch Qin Chen just practice.

"Kill this kid first, and control the treasure of this kid. This world will be completely controlled by me."

"go."

The high priest screamed, and the altar in his hand was thrown away suddenly.

Boom, this altar, which was originally only the size of a palm, rose in response to the storm.

A wave of black aura, madness descended.

The ten-tailed phantom fox rose into the sky, she shot, and the ten phantom tails were constantly dancing, and they constantly shot against the sky, trying to withstand the suppression of the altar.

But the high priest sneered and pressed his hands down.

With a bang, the void vibrated, the altar was crazily suppressed, the ten-tailed phantom fox breathed, her face instantly turned pale, and her figure was constantly being suppressed.

"Boy, what are you doing? What do you think of cultivating at this time?"

The ten-tailed magic fox looked at Qin Chen and said anxiously.

However, Qin Chen was indifferent, just closed his eyes and his face was grim and terrifying.

The countless dark powers in his body and the power of the long river of demon origins were violently stirring, and the whole body was covered with blood, which had reached the most extreme moment.

In his body, countless powers of darkness and power of the origin of the magic river clash with each other madly. After entering Qin Chen's body, these two powers cannot be completely integrated together. Instead, they are constantly in conflict. Explosion.

Qin Chen's physical matter continued to collapse.

"dust."

"Breaking dust!"

Sisi and Shangguan Wan'er gritted their teeth, their bodies bloomed with colorful light and dark light, blending into this world, trying to relieve Qin Chen's pressure.

But it's useless. The two forces in Qin Chen's body are extremely violent, like a ball that keeps growing, but it can't be absorbed and digested. Then there is only one result in the end, that is, explosion and destruction.

In the distance, Honghuang Ancestor Dragon, Blood River Saint Ancestor and others also watched nervously. The situation Qin Chen is facing now cannot be solved even if they rush into the mirror world. The only thing Qin Chen can rely on is himself.

At this time, the power in Qin Chen's body had already reached a limit state.

May explode at any time.

And just when these forces are about to explode completely violently.

"Thunderblood!"

In Qin Chen's body, a special bloodline burst out suddenly.

It is the blood of Thunder.

boom!

The power of the endless thunder bloodline surged in Qin Chen's body, and the power of darkness and the power of the origin of the demon, which had always been unable to merge, merged quickly under the influence of the power of the bloodline.

Rumble!

Between the heaven and the earth, endless forces gathered and quickly poured into Qin Chen's body.

And this strength, constantly improving, finally reached an extremely terrifying point, continuously expanding Qin Chen's body.

But Qin Chen's original cultivation base stuck in the bottleneck was broken in an instant.

[Chapter 4932: Come again](#)

boom!

An extremely terrifying breath erupted from Qin Chen's body.

And this breath is constantly improving.

Mid-term supreme.

The mid-term peak is supreme.

The aura on Qin Chen's body increased at an astonishing speed.

In a short moment, from the original initial peak to the supreme state, in an instant it was promoted to the mid-term peak supreme realm.

And, this is not the end.

In the entire mirror world, all the powers were aroused and madly instilled into Qin Chen's body.

This mirror world is where the power of darkness and the power of the origin of the magic have fought for hundreds of millions of years, and the power in it has gathered to an extremely terrifying point.

It can be said that the power of this space, due to years of confrontation, has reached an extremely terrifying nature.

It is definitely not the ordinary dark power and the power of the origin of magic from the outside world.

Now, these two forces are crazily entering Qin Chen's body, continuously.

What an amazing scene is this?

According to the truth, under the impact of such a terrifying force, a pinnacle supreme can't bear it, and the later supreme will be instantly shattered.

But Qin Chen's body is like a bottomless pit, constantly absorbing the power surging from the heavens and the earth, as if it is endless, never ending.

The mid-term peak supreme power in his body is consolidating to an astonishing level, and it is still improving faintly.

A large amount of power was crazy to change his physical body. Under the fusion of Thunder's blood, these powers turned into the most primitive power of origin, which made his breath continue to improve.

Such a scene stunned everyone present in an instant.

And the most shocking is naturally the high priest.

impossible.

This is impossible.

The high priest looked at this scene in disbelief, his expression mad.

This kid is able to absorb so much of the power of the mirror world, and he is still absorbing it continuously. How did this guy do it?

Monster?

There were countless doubts in the high priest's heart, but at this moment, she felt a strong sense of crisis emerging in her mind, but she knew clearly that she had no time to think too much.

The boy in front of her gave her too much shock. If she continues to let the other party go on like this, then she will definitely be in danger.

Thinking of this, a fierce look flashed in the high priest's eyes, and his right hand was suddenly lifted, a terrible breath swept away from her body, and the dark altar was like a burning continent facing downward. The suppression came down.

With a bang, the huge phantom of the ten-tailed phantom fox trembled directly, and the body made a creaking sound, and the power in the body churned wildly, as if it was about to shatter at any time under this blow.

"Boy, are you alright?"

The ten-tailed magic fox looked at Qin Chen speechlessly, and if this continued, she would almost be unable to hold on.

But Qin Chen didn't answer her, countless vast ocean power continued to crazily enter his body.

Oh shit!

Fight.

A fierce look flashed in the eyes of the ten-tailed magic fox, she looked up at the sky, and the aura on her body burned directly.

Burn the source.

The high priest in front of her has gone mad, and she can withstand the opponent's attack only by burning her source.

Ten-tailed magic fox never expected that he had just restored his previous cultivation base, so he would fight so desperately.

You know, in ancient times, there were countless guardians around her, and there were not many opportunities for her to act personally. Many times when she encountered a battle, there were many male primordial spirits fighting for her.

But now, she is desperately defending the road for a human man. If it reaches the ears of the ancient Chaos Gods and Demons, I am afraid that these Chaos Gods and Demons will cry bitterly and crawl out of the grave.

"Perplexed."

The high priest looked at the ten-tailed magic fox with cold eyes, and a fierce color flashed in her eyes. When she raised her hand, with a bang, a **** rune rose directly from the burning altar.

This **** rune was a thousand feet in size, and as soon as it appeared, a terrifying aura broke out, and the entire time and space boiled directly under this aura.

"Original rule rune."

The ten-tailed magic fox's eyes widened.

This rune turned out to be the original rule rune, containing the ultimate rules for the operation of the universe.

The high priest ignored her, just waved and banged, and the **** rune was directly suppressed. The next moment, the ten-tailed phantom fox couldn't hold on anymore. Her countless phantoms of ten thousand feet high burst open in an instant. Come, fragmented.

puff!

A mouthful of blood spurted out, and the ten-tailed phantom fox flew upside down under the suppression of this **** rune. There were dense blood patterns everywhere on the flesh, which was extremely terrifying.

"Come again."

The ten-tailed magic fox made a long roar, and her eyes became **** in an instant, and she became mad, and rushed up again.

At this time, countless forces gathered in Qin Chen's body and finally reached a limit.

Click!

Qin Chen felt as if some shackles had been broken in his body.

boom!

A breath that was so powerful that it was heart palpitating directly swept away.

Broke through.

After breaking through to the mid-term peak supreme realm, Qin Chen made another breakthrough and directly reached the late supreme realm.

After breaking through the late supreme realm, Qin Chen's aura growth finally slowed down.

With so many breakthroughs at one time, no matter how strong the power here is, Qin Chen also needs to digest the power previously absorbed.

Of course, the more important thing is that after reaching the supreme realm in the later stage, if you want to improve, it is not only an increase in strength, but also an increase in the perception of rules.

Qin Chen let out a long roar, and a series of terrible auras rushed away.

The horrible scene made everyone look at it with amazement.

"This kid..."

After the high priest flew the ten-tailed phantom fox once again, he also looked over in anger, feeling the breath of Qin Chen's body, and there was endless horror in his eyes.

Qin Chen's gaze fell on the high priest in an instant.

However, he did not act on the high priest, but turned to look at Chen Sisi and Shangguan Wan'er.

At this time, Qin Chen clearly saw the connection between Sisi's body and this piece of heaven and earth.

A series of veins emerge between the heaven and the earth.

It is the force of rules formed by the mirror world.

If the power of such rules is directly broken, it will definitely affect the safety of Sisi and Shangguan Wan'er.

However, it is not without a solution.

Qin Chen raised his hand and boomed, the Ten Thousand Realm Demon Tree and Demon Soul Source Device instantly appeared beside Qin Chen, and the power in Qin Chen's body instantly poured into these two treasures.

Hearing a boom, the Demon Tree of Ten Thousand Worlds swelled crazily and turned into an ancient tree that stood tall between the sky and the earth, supporting the entire mirror world.

Immediately afterwards, a mysterious rust sword appeared in Qin Chen's hand, and he slashed out at the void above Chen Sisi in front of him.

puff! The sword light flashed, and the void split directly. The terrifying force that had been suppressing Chen Sisi was cut off in an instant and collapsed in an instant.

[Chapter 4933: Darken](#)

In an instant, the smoke disappeared, and countless causes and effects disappeared.

"dust!"

Sisi's body shook and spit out a mouthful of blood.

These years of suppression made her feel quite embarrassed, but at this moment, she looked at Qin Chen with a smile, and everything fell on Qin Chen.

Countless years of waiting finally came to fruition.

"dust!"

Sisi smiled.

At this moment, everything in the sky and the earth lost its color, and only Sisi was left. She stood in this endless void universe with sad blood on the corner of her mouth. It was so sacred and stunning, as if nothing in this universe could match. Just in case.

"Sisi."

Qin Chen also muttered, moving towards Sisi step by step, and hugged Sisi vigorously under the eyes of everyone.

This is his only thought at the moment, and countless efforts, isn't it just for this moment?

The two didn't say much, and didn't need to say much, they all understood each other's hearts.

Feeling the warm body temperature of Qin Chen's body, Sisi felt extremely relieved for a moment, she just lay in Qin Chen's arms like this, not wanting to be separated for the rest of her life.

Rumble!

At this time, the power of darkness and the origin of demon surging between heaven and earth and the power of the long river of magic originated, interrupting the two of them from immersion.

Such a scene is terrible.

The whole mirror world is boiling.

When Sisi was brought here from the trial of the heavens, it was precisely because of some changes in this mirrored world that Sisi needed to be suppressed here. Now that Sisi has lost its power, the world boiled instantly. It seems that the end is coming.

Qin Chen raised his head, facing the terrifying power above his head, suddenly cut out with a sword.

Boom!

A vast sword that stretches across the sky crosses the sky and the earth, and the entire mirror world is actually split into two distinct worlds under Qin Chen's sword, and the power of darkness and the power of the origin of the devil are actually separated by a little bit. , The rules of this piece of heaven and earth couldn't withstand his power, and was cut by Qin Chen.

This kind of scene horrified everyone, as if he had seen a ghost,

This is really terrifying. One sword cut off the power of darkness that had resisted the origin of the demon for hundreds of millions of years, and spread it out, enough to shake the entire universe.

Such a method cannot be done by brute force, it is really scary.

On the dark power side, the violent power fluctuates, and the endless dark aura rolls, as if a demon **** is about to come, furious and roaring.

In this force, a figure undulated.

"Dust, Master she..."

Sisi hurriedly spoke.

That figure is Shangguan Wan'er.

"give it to me."

With thoughts and thoughts, Qin Chen walked towards the endless wave of darkness step by step. Following Qin Chen's footsteps, the power of darkness around him retreated madly, as if a courtier had met their king.

Then, the Dark King's blood in Qin Chen's body broke out in an instant, and a shocking force of darkness soared into the sky, like a mountain torrent, like a tsunami, and suddenly raised his hand to Shangguan Wan'er.

With a bang, Shangguan Wan'er, who was in the process of transforming the Dao, was actually slowly solidified and slowly appeared under the power of Qin Chen's blood.

"Hua Dao reunion, how is this possible?"

In the distance, the high priest and others looked stupid.

The person who transforms into the Tao is equivalent to integrating himself into the heaven and the earth, and becoming one with the heaven and the earth. This is an irreversible process.

But now... what did they see?

What they didn't know was that Shangguan Wan'er had the seed of life left by Qin Chen in her body. It could be said that Shangguan Wan'er's life had been combined with Qin Chen's breath. If it is not completely completed, Qin Chen will be able to retrieve Shangguan Wan'er from the process of transforming the Tao.

"Wan'er, you are too stupid."

A trace of distress flashed deep in Qin Chen's eyes, this woman was too stupid.

It was Shangguan Xi'er who betrayed her back then, but she took all the sins, ruined her appearance, and broke with Shangguan Wan'er.

It is for Sisi to reunite with myself and to transform myself.

All the grievances and grievances have disappeared from the time when Shangguan Xi'er fell, and Shangguan Wan'er willingly fell into the Demon Abyss for herself and Sisi.

Now standing in front of Qin Chen's eyes, she was just a helpless, poor woman who was suffering and struggling in her heart.

"Wan'er, come here." Qin Chen called.

"Master."

Sisi also said.

"Breaking dust..."

Shangguan Wan'er stared at Qin Chen and Sisi in a daze. Tears flowed down silently, but she was crying, but she laughed.

Those are tears of joy.

"A bunch of **** guys, die for me!"

At this time, a loud roar rang out, and the high priest roared with a ferocious look in his eyes.

The situation in front of her has completely exceeded her expectations. The layout of hundreds of millions of years is now about to be destroyed. The madness in her heart can be imagined.

"You guys, don't you bow your heads? Climb over and die!"

At this moment, the high priest yelled, causing Qin Chen and others to be slaughtered. She was murderous and slammed the altar into her body.

In an instant, a terrible dark aura surged across the high priest's body, and her original power was directly darkened.

In her, darkness swallows everything, like **** cracks open, and then gradually enveloped the earth.

On her body, a series of dark runes bloomed, evolving to the highest level of profundity, with loose hair, holding a scepter, eyes like vultures, cold and strange, so many powerful people can't help but hairy.

At this moment, she was very powerful, directly integrated with the dark altar, and the dark aura was strong, rising from the Tianling Gai, causing the sky to roar and shake.

She is like a peerless demon, manifested in the world, with a vision, under her feet are many supreme corpses, the whole void is dyed red with blood, killing the sky.

These visions, these terrifying scenes that have emerged, make your scalp numb, and now she is like a dark power coming from those prehistoric years!

The high priest came step by step, and every step forward, the whole world trembled, and the void roared and resonated with it!

This kind of power, this kind of cold breath, makes people feel chilling. All the strong are convinced that they will really be hit. I am afraid that many people in their presence will inevitably explode on the spot.

The current high priest cannot be stunned. She directly integrates the power of darkness. Such a method is equivalent to polluting herself and will be spurned by the universe and heaven.

However, she had no other way, and the situation had reached an extremely dangerous point.

"dust!"

Sisi and Wan'er both looked at Qin Chen nervously and grasped Qin Chen's hand.

The ten-tailed magic fox also returned quickly, staring at the high priest with horror in his eyes.

"Boy, this guy has turned into darkness directly. I'm afraid it will be troublesome now. I will join forces to kill this world. As long as we leave the scope of the power of darkness and enter the demon world, this person will inevitably be confronted by the universe. The aim of heaven." Ten-tailed Magic Fox said eagerly.

[Chapter 4934: Head on item](#)

The ten-tailed magic fox spoke anxiously, with a solemn expression.

Although the former high priest had also controlled the power of darkness, it was only using some special means to control the power of darkness, but now, the high priest is directly darkening his own origin, only to obtain short-term power.

This is equivalent to having an evil trade with the Dark Clan, just to activate one's own potential.

With the layout of hundreds of millions of years, she must not let her fail here.

Qin Chen's complexion was calm, facing the high priest, he was not afraid, and said lightly: "You don't need Senior Ten-tailed Magic Fox, I have troubled you before, you can rest on the side, this high priest, leave it to me."

The ten-tailed magic fox changed color and said anxiously: "No, this person himself is a pinnacle supreme powerhouse. Now he is polluted by darkness. Although your strength has broken through, you can't be hers in this dark world. opponent..."

Qin Chen smiled and interrupted the ten-tailed magic fox: "Senior, don't worry about it, just look at it."

Just look at it?

The ten-tailed magic fox looked at Qin Chen in astonishment, this guy, doesn't he want to single out the high priest?

boom!

Qin Chen stepped out, stepping forward in this void, his expression calm and firm.

"dust."

Sisi called him anxiously.

Qin Chen paused, then he turned his head and looked at Sisi with a slight smile. He came to Sisi, squeezed Sisi's delicate face with a big hand, and smiled: "Sisi, wait for your man and I come back."

At the same time, Qin Chen smiled slightly at Shangguan Wan'er, who looked nervous.

The next moment, Qin Chen's figure shook, and instantly disappeared in place.

With a bang, Qin Chen appeared not far from the high priest, facing the high priest alone.

At this time, Qin Chen's body was towering, like a god, blocking Sisi and Wan'er.

"If you have any means, take it out. Based on what you have done to Sisi, I will not let you go today."

Qin Chen said coldly.

"just you?"

The high priest looked grim and felt a strong provocation.

"Yes, just me."

After Qin Chen finished speaking, the whole person rushed forward, like a comet piercing the sky, blooming with a terrifying light, and many people who stabbed him did not dare to open their eyes.

Qin Chen's aura is also exceptionally strong, slamming across the world!

boom!

The billowing power erupted from Qin Chen in an instant.

"act recklessly."

The high priest snorted coldly. What she was most worried about before was that Qin Chen would leave Sisi with them. If so, with Qin Chen's current strength, it might really be possible for them to escape.

But who would have thought that Qin Chen would take the initiative to fight, which made the high priest's heart immediately a surprise.

Stinky boy, do you really think you will be invincible if you break through?

A trace of hideousness flashed deep in the high priest's eyes, and the next moment, she suddenly shot.

With a bang, the high priest swiftly accelerated, the power of the rolling darkness combined with his terrifying demon origin, like the sky and the earth, the void under his feet continued to explode, and a series of terrible void cracks appeared, and large black cracks. Spread to the entire mirror world!

Immediately afterwards, the high priest shook his body and went straight to Qin Chen, his skinny claws grabbed and shot out like a dragon probing claws.

boom!

The high priest's big hand and Qin Chen's attack collided.

The violent roar resounded, and it could be seen that the two figures collided in the void, an astonishing roar resounded throughout the world, and the entire void was shaking and breaking apart continuously.

The destructive power of the two is too amazing. They are both peak-level powerhouses. With a single blow, the world seems to explode, and the void will be exploded. If this place is not in the mirror world,

but in a certain demon territory, I'm afraid that a whole continent will be bombarded instantly and sink into ruin on the spot.

With a bang, after a huge explosion, the two moved backwards tens of thousands of feet, and the void behind them all exploded.

Tie!

Everyone was shocked.

Before Qin Chen and the high priest fought, they were still at a disadvantage. Unexpectedly, when they fought now, the two sides would be in a tie.

Has this kid's strength improved so much?

Although everyone knows that Qin Chen's current cultivation base has improved by more than before, but no matter what, Qin Chen is now only the late supreme, and the high priest has touched the transcendence realm, and now he has become a dark clan. Believers.

Even some powerhouses at the peak supreme level are far from being an opponent of the high priest, but now, Qin Chen's younger generation has resisted the attack of the high priest, which makes people not shocked.

"Could it be that this son is really the hope of this universe that the Sovereign Lord said back then?"

In the distance, Wuji Supreme, who was fighting against the Great Elder, saw this scene with a hint of wonder in his eyes. At the same time, thinking of a possibility, his heart was shaking.

Not only him, but the ten-tailed magic fox was shocked.

She couldn't understand the strength of the high priest. Even she couldn't easily resist it, but Qin Chen resisted the high priest under the current outbreak. Doesn't this mean that Qin Chen's strength is even more terrifying than her?

"You kid..."

The high priest looked at Qin Chen with a grim expression.

A cold stern flashed in Qin Chen's eyes: "Today, this young man wants to take your head."

Hearing Qin Chen's words, the high priest looked sullen and pointed at Qin Chen angrily, "What are you? A little breakthrough, I really think I can withstand this seat?"

As the voice fell, the staff in the hands of the high priest suddenly burst out with a heart-palpitating aura, and slammed it at Qin Chen, with a thud, a terrifying dark light slashed directly towards Qin Chen like a sharp blade. Come.

In the distance, Qin Chen's eyes narrowed slightly, and suddenly, he rushed forward, violently spurring the mysterious Rust Sword to slash it down.

boom!

This sword cut down and directly stopped the dark light, which cracked, but it did not disappear. Not only that, countless terrifying powers are still bombarding Qin Chen's mysterious rust sword!

Before the black light, Qin Chen's eyes flashed hideously, he held the mysterious rust sword in his hands and pressed forward again suddenly, and a breath of the blood of the dark king bloomed!

boom!

With this pressure, that dark light shattered directly and turned into nothingness!

Qin Chen retreated a hundred feet!

In the distance, a flash of shock flashed in the eyes of the high priest, "The power of the dark imperial family, moreover, has been perfectly elevated to the late supreme realm?!"

At this moment, she couldn't help being shocked!

Because after she completely took refuge in the Dark Clan, she immediately felt the dark aura on Qin Chen's body, not the power of the ordinary Dark Clan, but the power of the Dark Royal Clan.

No wonder the power of darkness here before can't annihilate the opponent at all. The dark royal family is the controller of the dark continent, and ordinary dark power can hardly cause damage to the royal family.

And what shocked the high priest was Qin Chen's cultivation base.

She didn't expect that Qin Chen, who was only the peak supreme in the early stage, had reached the realm of the late supreme at this moment, and she would perfectly control and integrate the power of the late supreme!

Chapter 4935 Soul Altar

The speed of this cultivation base is too terrifying.

A trace of alert rose in the high priest's heart!

She didn't dare to despise anyone, especially a super enchanting character, this kind of character often has the strength to fight higher, just like the princess Lianxinluo back then!

"This son is obviously a human race, how can he control the power of the dark royal family? There is absolutely a problem in this."

After the shock, the high priest thought of a doubt.

The power of the royal family is extremely terrifying, let alone the people of their universe, even many of the top powerhouses in the dark clan themselves can't control them at all, how does the other party control them?

Huh.

The high priest's breathing suddenly rose. If Qin Chen can control the power of the dark royal family, once this method is controlled by her, then she...

Just thinking about it, the high priest became hot.

But when the high priest was excited and shocked, Qin Chen had already shot again, and a ray of sword light suddenly slashed in front of her!

The high priest yelled, "Get out!"

When the voice fell, she waved her scepter abruptly and blasted out.

boom!

This rod contains countless Dao powers.

Qin Chen didn't dare to be careless, and directly activated the mysterious rust sword and the power of the Dark King's blood in his body. In addition, he immediately activated the power of the six reincarnation sword intent and the origin of the devil.

Slash the gods and demons with one sword.

For a strong man like the high priest who has lived for countless tens of thousands of years, Qin Chen knows that even if he breaks through the late-stage supreme, he can't be careless, because he knows that a carelessness may be fatal.

You must know that the great protector and the great elder are also pinnacle supreme-level masters, but such masters are secretly controlled by the high priest, which shows how vicious the high priest's methods are.

The two are straightforward!

Boom!

With the sound of an earth-shaking explosion, a piece of sword light suddenly burst, and Qin Chen retreated violently!

boom!

As soon as he stopped, the void directly exploded behind him, and cracks appeared in his body.

Invincible!

This time, even if he used his full strength, he actually became invincible.

"you..."

Qin Chen looked at the high priest.

But seeing the high priest sneer directly, a strange force rose in her body.

The power of Shura.

This is the terrifying power of the Asura Demon Race where the high priest is.

In ancient times, the Shura Demon Race was a terrifying and powerful race along with the Abyss Demon Race. Even in a certain period of time, the Shura Demon Race once ruled the Demon Race for a period of time, but later, the Shura Demon Race's dominance was lost. The demons took away.

The entire Shura Demon Race was almost wiped out by the Abyss Demon Race.

But the high priest took refuge in Princess Lianxinluo and found his life back.

This is also the reason why the high priest wants to resist the ancestor of the deep demon.

At this time, not only the power of Shura emerged from the body of the high priest, but also the power of darkness rose.

Hum!

In the entire darkness entrance, countless powers of darkness emerged, and these powers of darkness quickly entered the body of the high priest, and were completely integrated with the power in her body.

As a dark believer, she borrowed the power of the dark race to the greatest extent.

With a hum, countless magical powers boiled over the entire range of the origin of the demon, as if threatened by the universe.

"The power of darkness, you actually attracted the power of the dark race into this universe..."

Qin Chen said in anger.

Once the power of darkness completely enters this world, then the entire inanimate demon realm will be destroyed.

In the past, Princess Lianxinluo transformed the world to block the entrance of the Dark Clan, but what the high priest is doing nowadays is destroying Princess Lianxinluo's seal.

The high priest laughed grimly: "In order to kill you, even if it is to invade the dark clan, what can we do?"

When the voice fell, the high priest slammed a stick at Qin Chen.

Boom!

With this stick out, this deadly void directly boiled!

Qin Chen narrowed his eyes slightly, his eyes slowly closed, the power of darkness and the power of the demon in his body surged crazily, and the two quickly merged together. The next moment, he took a step forward and cut out with one sword!

On the mysterious rust sword, two kinds of power were directly urged!

Boom!

Qin Chen made this sword, and a force that destroyed the sky and the earth swept out of his mysterious rust sword!

And when the two forces touched the moment—

boom!

Countless sword lights shattered, Qin Chen retreated frantically, and at the moment he retreated, the high priest appeared directly in front of him, extremely fast, and then pointed to Qin Chen's eyebrows!

Qin Chen's eyes suddenly shrank, and he was about to take out the sword, but at this moment, he suddenly felt that the movement of the high priest in front of him seemed to have slowed down!

Time and space are chaotic.

Qin Chen was shocked, the secret path was not good, he quickly urged the origin of time, and at the same time cut out with a sword, however, it was too late, and the high priest's finger directly touched his eyebrows!

Boom!

For an instant, Qin Chen was fixed in the void, like a fly nailed to death in the void.

Qin Chen stared at the high priest in anger.

His soul was completely captured and he couldn't move.

Qin Chen furiously said: "You..."

At the center of the high priest's eyebrows, an ancient altar emerged, and on the altar, a cold and cold aura filled Qin Chen instantly.

boom!

Qin Chen was shrouded in endless darkness.

"Hahaha, brat, just because you want to fight with me, the old man has controlled this inanimate demon realm for hundreds of millions of years. Everything here is under my control. You are an outsider, even if you have some special encounters. So, how can you fight me?"

The high priest smiled grinningly, and on the altar, rolling power surged, and this power rushed into Qin Chen's mind with a breathtaking breath, and into Qin Chen's soul sea.

boom!

The terrifying aura directly stirred in Qin Chen's soul sea, like a series of tentacles, continuously deepening into the depths of Qin Chen's soul sea, to control Qin Chen.

This altar is the treasure bestowed by the Dark Clan to the high priest, and is dedicated to controlling the spirits of others.

This thing is rumored not to belong to the Dark Clan, but to the Dark Clan's income in the universe. Relying on this altar, the high priest controlled the Great Protector and the Great Elder, and completely controlled the entire righteous army.

Now, the high priest is taking advantage of the home court to seize the opportunity and directly want to control Qin Chen.

The endless aura completely enveloped Qin Chen and penetrated Qin Chen's soul little by little.

In the distance, Chen Sisi, Shangguan Wan'er and the others saw this scene, their expressions showed horror, and they were about to rush up in a hurry.

But the high priest suddenly sneered, waved, and whirred, the endless dark aura appeared between heaven and earth, and it swept out directly, suppressing the Ten-tailed Magic Fox and others, making them unable to approach in a short time.

Chapter 4936-Anti-Control Altar

At this moment, everyone looked frightened.

No one thought that it would be such a result. The high priest was so despicable that he had already taken advantage of Qin Chen's carelessness and captured Qin Chen in one fell swoop.

Her purpose was not to defeat Qin Chen, but to control Qin Chen and get everything in him.

boom!

The force of rolling and the universe sea directly wrapped Qin Chen.

The high priest has a hideous face: "Boy, don't resist, you can't resist. This thing is the most precious treasure from the universe and can control the souls of others. Otherwise, do you think the great guardian and the great elders are so easy to control? Although your cultivation is average, with your previous performance, you will be honored to be the third top puppet under my command. This will be your honor, haha, hahahaha..."

The high priest laughed, and the cosmic sea breath continued to enter Qin Chen's mind and seep into his soul sea.

The ten-tailed magic fox had despair on his face, "Damn it, this thing turned out to be the most precious treasure from the universe, I should have thought of it, otherwise, with the strength of the high priest, how could it be that he wants to completely control the great guardian and the great elder? Easy, the most precious treasure in the universe, with the strength of that kid, I am afraid that it cannot be resisted at all."

Desperate, panic.

Once Qin Chen is defeated, everyone present will be controlled by the high priest.

If it were the treasure of this universe, it might still be possible to resist, but if the altar came from the universe, it would be impossible to resist with Qin Chen's current cultivation base.

"No, Chen will definitely be fine." Sisi said anxiously.

boom!

A colorful rainbow suddenly burst out of her body, trying to resist the suppression of the high priest.

But the high priest did not give her this opportunity at all. The billowing dark power turned into a sky, shrouded, thinking about their strength. To break free, at least half a stick of incense is needed, and this half of the incense is enough for her. Completely control Qin Chen.

boom!

He saw the billowing power continuously penetrated into Qin Chen's body and penetrated into his soul sea.

"Become my slave obediently?" The high priest grinned and said, "At that time, everything you have, the Devil Tree of Ten Thousand Worlds, and the Source Tool of Demon Soul, will all belong to me."

"Is it?"

At this moment, Qin Chen, who was originally shrouded in endless darkness and looked painful, suddenly opened his eyes, and a divine rainbow burst out of his pupils.

His body was enveloped by endless black air, but his whole person hadn't completely lost his mind.

"you..."

The high priest was taken aback: "How is this possible?"

The power from the universe sea is extremely special. Although it may not be said that it is completely above the origin of this universe, the people of this universe have never left the universe sea, so there is almost no resistance to the forces in the universe sea. To a certain extent, it is impossible to resist hastily.

This is also the reason why the great guardian and the great elders are under her direct control.

But now Qin Chen... can actually resist?

"Is the power in the universe special?"

Qin Chen looked terrifying, as he tried his best to resist, bang, bang, bang, bang, a lot of terrible power rushed out of him.

The power of the Dark King's blood!

The power of the **** emperor totem!

The power of Anluotian rules!

The breath of death in the underworld...

Heavy forces constantly impacted the control of the high priest.

These powers are all powers from the universe, and they are definitely not owned by this world.

Using the power in the universe to fight against the power in the universe is where Qin Chen's confidence lies.

The high priest looked furious, she felt the various powers on Qin Chen's body at this time, and she looked incredible.

"How can there be so many forces in the universe in this child? Could it be that he has not been to the universe?"

"No, it's impossible."

"This guy's strength is impossible to enter the universe."

The high priest's face instantly became grim.

In her body, the source broke out directly, and when she saw the altar, a dazzling black light burst out in an instant, which became even more terrifying in an instant.

In an instant, the whole person of the high priest seemed to be transformed into a dark demon, as if he had fallen into madness.

The power on Qin Chen's body was layered, and the cosmic sea power broke through Qin Chen's heavy resistance and continuously penetrated into the depths of the soul sea.

"Suppress me."

The high priest screamed, "Boy, no matter how you resist, it is impossible to escape my control."

"Yes?"

Qin Chen raised his head again in difficulty, and said word by word: "Blood of Thunder."

boom!

The endless thunder light suddenly burst out of Qin Chen's mind.

In an instant, the sea of Qin Chen's soul turned into an ocean of endless thunder, and the billowing thunder surged in Qin Chen's mind. Before, no matter it was the blood of the Dark King, the totem of the gods, or the air of death in the underworld, it could not be suppressed. The power of the universe, like white snow, instantly melted into nothingness under the power of Qin Chen's thunder.

What?

The high priest was shocked to feel the power in Qin Chen's body. She clearly felt that the power of her altar controlling Qin Chen was disappearing quickly.

No, it's impossible.

How could this world have the power to resist the power of one's altar?

When the high priest was shocked, with a bang, the thunder light in Qin Chen's mind instantly penetrated into the depths, crackling, and directly flooded into the altar in the hands of the high priest along the power of the universe sea.

"you..."

At this moment, the high priest was extremely frightened, because she clearly felt that her control of the altar was constantly weakening, and Qin Chen was actually using this thunder power to continuously plunder her control of the altar.

At this moment, the high priest is truly terrified. This altar is the key to her controlling the corpse puppet formation, the great guardian, and the great elder. Once this thing is taken away by Qin Chen, then she will completely control the corpse puppet formation. lose.

"boom!"

An endless breath of darkness burst out of the high priest in an instant, trying to regain the altar.

But the opposite Qin Chen sneered, and directly operated the Heavenly Soul Forbidden Technique, hum, a series of terrifying rune powers, along with his soul power, instantly entered the altar.

The power of these souls carried a hint of thunder, and constantly annihilated the mark of the high priest. On the entire altar, there was a faint surging of thunder, which throbbed with Qin Chen's breathing.

"Impossible, this thing is obtained by the dark race from the universe, and it has been completely bound to me, how can it be taken away by you."

The high priest roared hysterically, and his face was twisted and ferocious like tree bark.

She raised her head to look at Qin Chen, and the scepter in her hand struck down towards Qin Chen.

Cang!

Qin Chen's eyes condensed, and a thunder sword aura burst out, blasting the high priest out.

With a bang, the void behind the high priest split open, and countless cracks appeared on her body instantly.

"You...how?"

The high priest looked at Qin Chen in disbelief, Qin Chen's strength was much stronger than before.

[Chapter 4937: The more the war gets stronger](#)

Qin Chen smiled coldly: "Do you think that Young Master is really inferior to you? No, I just want to take away the altar from you, so I will be deliberately restrained by you."

The high priest was furious: "Impossible. You were captured by me because you couldn't avoid my time and space blockade. This is impossible."

"There is nothing impossible. In this world, anything can restrain me, but the time and space blockade can't restrain me at all. Without being controlled by your altar, how can I take control of your treasure so easily?"

Qin Chen looked indifferent.

In this world, any force can deter him, but the power of time and space cannot.

Because Qin Chen possesses the time origin of this universe.

Under the origin of time, how could Qin Chen be constrained by the power of time.

boom!

The endless thunder light bloomed on Qin Chen. In an instant, Qin Chen's whole person turned into a sky-reaching thunder shadow. In an instant, he became extremely tall and towering. The black altar was taken in his hand for an instant.

puff.

The high priest vomited a mouthful of blood.

At this moment, she was really furious, because she had completely lost contact with the treasure of the universe.

At this time, Qin Chen's palm was the most precious, and the powerful thunder power instantly annihilated all the power of the high priest, and at the same time left his mark in the depths of this altar.

In an instant, Qin Chen felt that the countless corpse puppets outside the mirror world, as well as the souls of the great protector and the great elder, were all under his control. He only needed a thought and the other party could be wiped out.

In an instant, the Mantian Corpse Puppet, the Great Elder, and the Great Protector who had fought against the Wuji Supreme and the others all solidified in an instant and stopped attacking.

"this..."

In the distance, the ten-tailed phantom fox looked at Qin Chen with horror. The shock Qin Chen gave her was far more terrifying than any human race.

Everyone looked at Qin Chen in horror. No one thought that Qin Chen could grab the high priest's treasure.

It's a fantasy.

"The power of adjudication, this is the truly invincible power."

Hong Huang Zulong looked at the blue thunder light and couldn't help but said with emotion.

I even remembered the fear of being dominated back then.

In this world, Qin Chen, who also possesses the power of adjudication, has the possibility to **** this universe sea altar from the high priest and transform it into any other person. This is impossible.

The high priest's eyes were full of fear. She looked at the big guardian and others outside the world of spectacles. She shook her body and was about to leave here.

At this time, she had no extra courage to stay.

At this moment, Qin Chen in the distance suddenly took a step forward, and this step was a sword!

Countless sword lights suddenly surged.

And the power this time was completely different from before, and it skyrocketed several times in an instant!

In the distance, the high priest who was fleeing quickly narrowed her eyes. She didn't dare to be careless. For the first time, there was a panic in the depths of her eyes. Her eyes slowly closed. In an instant, the void around her changed directly. It became a huge dark vortex.

The power of darkness burns.

At this time, the high priest's right hand scepter slammed tightly, and then blasted out!

With this stick out, her emptiness immediately became illusory, and immediately afterwards, countless sword lights appeared in her illusory world!

The high priest's eyes were cold, "Broken!"

boom!

This rod collapsed, and countless sword lights directly became distorted. It was not only the sword light that was distorted, but also the time, space, and all matter of this world!

However, the sword light was not broken!

Because there is a trace of time power in the sword light unexpectedly.

At the same time, the powerful force contained in the sword light continued to destroy the power of the high priest's rod!

And gradually, the dark vortex deep in the high priest began to become illusory.

A flash of cold light flashed in the high priest's eyes, and her right hand suddenly spread out and roared, "Darkness!"

The sound fell, and her spread right hand clenched sharply.

Chi Chi Chi Chi!

The time dark vortex where the high priest was located suddenly unfolded, and almost at the same time, the countless sword lights that Qin Chen slashed out exploded, and an extremely terrifying aura instantly swept the surroundings!

The faces of the ten-tailed magic fox and others in the distance changed drastically, and they retreated frantically!

In an instant, the void within a radius of millions of miles was directly erased by this terrifying force. At the same time, a terrifying scepter tore from the field and blasted towards Qin Chen fiercely. Power, just breath, made the ten-tailed magic fox and others frightened!

At this time, the high priest still had the power to fight back?

From a distance, Qin Chen slowly closed his eyes as he watched the attack come!

An invisible force rose from Qin Chen's body.

At the next moment, Qin Chen suddenly turned into a sword light and burst out!

laugh!

Between heaven and earth, a sharp tearing sound resounded suddenly!

boom!

In the eyes of everyone, the sword light slashed directly on the rod shadow. The next moment, the rod shadow shattered directly. However, the sword light was also shattered in an instant, and at the same time, Qin Chen violently retreated. !

In the distance, a look of hideousness flashed in the eyes of the high priest, and she suddenly disappeared in place!

On the other side of the mirror world, Qin Chen suddenly raised his head, and a hideous flash flashed in his eyes. He did not do anything. At this moment, the high priest suddenly blasted Qin Chen's chest with a sword light. High priest's chest!

puff!

boom!

Qin Chen retreated violently, this retreat was tens of thousands of feet, and the void wherever he passed along the way was immediately annihilated!

However, Qin Chen's physical body did not suffer too much damage, and a phantom appeared on the Haotian Divine Armor, which actually blocked the blow abruptly.

But on the opposite side, the high priest was not so lucky. A deep bloodstain appeared on her chest. The sword energy blasted into her body, and a powerful force burst out suddenly, and then continued to destroy her. The internal organs, at the same time, her soul was also hit hard at this moment.

one strike.

The high priest was seriously injured, but Qin Chen was unscathed.

"It's over."

Qin Chen closed his eyes and raised the mysterious rust sword high, gathering infinite power.

"It's not that easy to make me die."

The high priest has a hideous face and slowly closed her eyes. She spread her right hand. In an instant, the entire mirror world trembles violently. Then, countless mysterious dark powers rushed to her from the void. Gradually, she was injured. The place healed quickly, and the breath of the whole person was soaring wildly.

Seeing this scene, the faces of the ten-tailed magic fox and others were extremely solemn!

This is too bad!

Under this circumstance, he could actually rely on the power of darkness to quickly repair himself and increase his combat power again.

However, Qin Chen's expression was very calm.

He held up the mysterious rust sword, and slammed it down.

boom!

The terrible sword light hit the high priest.

[Chapter 4938: Go to death](#)

The high priest looked grim: "If you want me to die, then everyone should go to die!"

boom!

Within millions of miles of the high priest's body, the endless void directly boiled, and the billowing power poured out like an ocean.

The entire mirror world, unexpectedly began to boil.

I saw a series of terrifying arrays of light rising from the endless world. These arrays of light rose up into the sky like pillars of heaven, and each pillar of the heavens lingered in an astonishing darkness amulet light, densely packed, covering the sky and the sun.

This is the darkness!

Qin Chen's sword light smashed above this absolute formation, and immediately seemed to be trapped in a swamp, and the flight became extremely difficult.

The high priest has run countless epochs in this lifeless demon realm, and has long controlled the power of darkness around the mirror world. Knowing that Qin Chen is powerful at this time, he immediately aroused the endless darkness she set up in this mirror world.

In an instant, the entire mirror world boiled.

And from where the dark continent was, a wave of dark power permeated over.

boom!

The entire void boiled, as if it was about to explode in an instant.

"No, this person is going to detonate the entire mirror world, allowing the power of the dark race to infiltrate."

When the ten-tailed phantom fox saw this scene, he immediately expressed horror.

At this moment, Qin Chen in the distance saw this scene and suddenly spread his hands. The next moment, he whispered, "Come on!"

Come!

The voice fell, and the surrounding space trembled slightly.

The ten-tailed magic fox and others frowned, and there was a trace of doubt in their hearts. What came?

At this moment, everyone's eyes suddenly shrank, and the void suddenly boiled. In the next moment, countless dark powers rushed towards Qin Chen like a tide!

The blood of the Dark King erupts!

At this moment, Qin Chen's breath suddenly skyrocketed, and his breath was even close to the high priest!

Countless dark powers rushed to Qin Chen. Qin Chen used the power of the Dark King's blood to directly provoke the power of darkness between the world and the earth to fight against the high priest and fight for the control of the power of darkness.

"what?"

The high priest's pupils shrank, she looked at Qin Chen savagely, and shouted: "No matter what you use, it should be over!"

boom!

The darkness burst out, faintly about to explode.

Qin Chen sneered, "It's time to end!"

When the words fell, Qin Chen disappeared instantly.

boom!

Qin Chen turned his whole body into a sword light, slashing the high priest straight, he used himself as a sword to kill everything.

The high priest stared at Qin Chen, who was getting closer and closer. He slammed the scepter in his right hand, and then swiped it out, "Darkness extinguishes the world!"

boom!

With this punch, a terrifying dark light burst out of her scepter, and as this dark light appeared, the entire mirror world directly trembled.

The power of this rod has been able to destroy the entire mirror world!

However, the high priest's rod was not aimed at the mirror world, she concentrated her strength on one point, and then aimed at Qin Chen.

Facing the terrifying blow of the high priest, Qin Chen's mouth was filled with hideousness. Above the mysterious rust sword in his hand, a cold breath filled with it, and accompanied by this cold breath, there was even more subtle. The thunder light passed away in a flash.

Thunder blood!

This is Qin Chen's most powerful trump card.

Because he knew the horror of the high priest and wanted to defeat the opponent, he had to use the blood of thunder.

At this moment, Qin Chen instantly poured the power of Thunder's blood into the mysterious Rust Sword, and then slashed down frantically.

A series of terrifying powers erupted from Qin Chen like a cosmic explosion.

When that stick and Qin Chen's sword light with the blood of thunder were just hard together...

boom!

Suddenly, a blast resounded through the entire mirror world, and countless people were terrified and looked up at the mirror world, their eyes full of horror.

And the ten-tailed magic fox took Sisi and Shangguan Wan'er into a frantic retreat early, far away from Qin Chen and the high priest!

In the field, as that terrifying force erupted, Qin Chen and the high priest suddenly flew upside down. The moment Qin Chen flew out, the entire mirror world began to explode under the sudden explosion of darkness. When the explosion exploded, the terrifying power of the explosion instantly swept towards Qin Chen, completely enveloping Qin Chen's body.

boom!

The endless explosion drowned Qin Chen in an instant.

The next moment, Qin Chen flew out from the explosion, and the runes on the Haotian Divine Armor trembled violently, and instantly shattered. At the same time, Qin Chen's face turned pale.

The mirror world contains the terrifying power of darkness and the power of the long river of magic origin. Such a world explodes, just like a meteorite hitting the continent, and the power that erupts out of it far exceeds ordinary power.

In order to prevent the aftermath of the explosion from spreading to Chen Sisi and the others, Qin Chen took this force even more abruptly.

Puff puff!

A torrent of power continuously rushed into Qin Chen's body, making Qin Chen's face pale instantly, and cracks appeared on his body.

boom!

Behind him, the Ten Thousand Realms Demon Tree and the Demon Soul Source Device urged crazily, swallowing the whole aftermath of the explosion and the force that swept away.

Qin Chen's physical body even began to annihilate, but while his physical body was annihilated, he was also repairing itself, causing his physical body to quickly recover and ascend at an astonishing speed.

"dust!"

At this time, Chen Sisi and the others, under the leadership of the ten-tailed magic fox, had already rushed out of the mirror world, and they all yelled nervously.

Under the explosion, Qin Chen's face was as pale as paper, and his whole body was covered with blood!

The power of this explosion has hit him hard!

In the distance, the high priest also stopped, and when she stopped, her body began to annihilate, and her soul quickly dissipated!

However, like Qin Chen, the power of darkness escaping from this world is constantly repairing her body and soul!

At this moment, Qin Chen suddenly raised his head to look at the high priest, and in the next moment, he disappeared in place!

With the blessing of the Demon Tree of the Ten Thousand Worlds and the Demon Soul Source Device, Qin Chen's injury was lighter, and his recovery speed was faster.

In fact, if Qin Chen hadn't forcibly taken all the aftermath for Chen Sisi and the others, with Qin Chen's current strength, he would be able to withstand such attacks without being severely injured.

laugh!

A ray of sword light tore through the field!

In the distance, the high priest was still in annihilation. He looked up at the sword light that was getting closer and closer, and his expression revealed horror!

"Damn it."

The high priest screamed and looked at the location of the dark continent, trying to arouse the power in the dark continent again.

But how could Qin Chen give her this opportunity, the blood of the Dark King surged in her body, and Qin Chen directly cut off the connection between the high priest and the Dark Continent.

At the same time, thunder light surged from the mysterious rust sword in Qin Chen's hand and came to the high priest in an instant.

When the sword light came to the high priest, the high priest suddenly folded his hands together, and an invisible dark barrier stood in front of him.

Chapter 4939 One Sword Guardian

"Dark guard."

The high priest roared.

boom!

The next moment, Qin Chen's sword slashed directly on the dark barrier, the dark barrier trembled slightly, and then exploded under the terrifying lightning sword light.

With a bang, the terrifying sword light directly penetrated the body of the high priest.

puff!

Thunder light shone, and in an instant, the high priest's body slowly shattered under Qin Chen's sword light.

One sword, broken flesh.

However, at the critical moment of life and death, the soul of the high priest directly rushed out of the flesh. The next moment, the flesh of the high priest was directly annihilated by the terrifying light of the thunder sword, and a little bit dissipated in the void.

Everyone was stunned.

"My physical body..."

The high priest let out a horrified roar. At this moment, she no longer had the courage to fight Qin Chen, her figure turned into a stream of light, disappeared in an instant, and rushed beyond the long river of origin of the demon.

She even fled directly.

Qin Chen shook his body and chased straight towards the high priest.

boom!

A terrifying sword light slashed out directly, chasing the high priest's place in an instant.

In the void where the sword light passed, the time rule seemed to become slow in an instant. The speed of the high priest was actually not slow, but the distance between the sword light and the high priest was getting closer and closer.

The origin of time.

Qin Chen directly urged the origin of time and changed the flow of time in this world, causing his sword light speed to skyrocket in an instant.

Seeing Qin Chen's sword light, he was about to strike the high priest, and the spirit of the high priest directly showed a trace of hideous color, and then burst into flames.

She directly burned her own soul.

boom!

At the moment when the spirit of the high priest burned, in the distance, the countless supreme corpse puppets that had lost the control of the high priest, were also burning at the same time.

These corpse puppets are all supreme-level cultivation bases. At this time, all of them are burning, and the power that erupts can almost destroy the world.

The entire void of the long river of origin of the devil is burning.

Qin Chen's complexion changed. He never thought that after the high priest lost his control array, he could actually mobilize these supreme corpse puppets and cause them to explode together.

At this moment, a terrifying force that resembled a volcanic eruption swept away from these corpse puppets in an instant. This force was terrifying and could completely destroy a world.

"not good."

Qin Chen's pupils shrank, and if these corpse puppets were allowed to explode, the entire inanimate demon realm would be destroyed, and even the dark gap would be directly exploded, causing the Dark Clan to invade.

Hum!

Qin Chen didn't care about chasing down the high priest, he slammed the altar in his hand, and the terrifying power of darkness directly permeated the bodies of the corpse puppets, suppressing the explosion in the corpse puppets.

At this moment, Qin Chen discovered that these corpse puppets had not only the mark left by the altar, but also the power left by the high priest.

"Exit!"

Qin Chen screamed, and the power of thunder followed the altar into the bodies of these supreme corpse puppets instantly, annihilating the power left by the high priest in these supreme corpse puppets.

In an instant, the many supreme corpse puppets that were already burning calmed down in an instant.

"You kid..."

At this time, the spirit of the high priest was far away from here, seeing this scene, his pupils shrank.

She never expected that Qin Chen could directly annihilate the power she left in the Supreme Puppet in such a short period of time.

Is this kid a monster?

However, what about the annihilation of the power left in those supreme puppets?

A hideous color was released from the pupils of the high priest.

"The origin of darkness, explode to me."

The spirit of the high priest roared.

Accompanied by the roar of her soul, many strong men of the righteous army on the scene also screamed one after another, and a terrible atmosphere of darkness emerged from their bodies for an instant.

"what!"

The bodies of the many righteous army masters on the scene burned up in an instant.

The screams of screams resounded throughout the world, including the Sword Demon Supreme, the power of darkness gushing out of the body of many of the righteous army masters, and they burned wildly, as if they were about to explode.

In addition, the entire river of origin of the devil also banged, exploding with an aura against the sky.

A terrifying array emerged between the heavens and the earth, and it burned abruptly.

Such a large array caused the entire Wusheng Demon Realm to tremble violently, like a major earthquake, terrifying.

Qin Chen was shocked in his heart. He turned his head abruptly and looked at it. In the depths of the distant void, the entire void was boiling at this moment. Not only that, an extremely terrifying coercion swept over it!

Qin Chen's face suddenly changed!

What is this stuff?

In the long river of origin of the demon, bursts of light emerged, and outside the long river, where the headquarters of the righteous army was located, slices of void began to burn.

This is the endless formation left by the high priest, which exploded directly at this moment.

Boom!

A blast resounded across the entire Wusheng Demon Realm!

In the Wusheng Demon Realm, countless strong men turned their heads and looked at the sky, their eyes full of horror.

Seeing this scene, Qin Chen's eyes suddenly shrank, "Be careful, everyone, gather together!"

Gather together?

Hearing Qin Chen's orders, countless powerful people in the Wusheng Demon Realm gathered here one after another!

Honghuang Zulong and others also quickly gathered together.

But Qin Chen stomped his right foot suddenly, soaring into the sky, and directly slashed towards the endless array!

Boom!

As soon as this sword was slashed out, the entire large formation in the long river of origin of the demon suddenly exploded. In an instant, a force that ruined the world was like hundreds of millions of volcanoes erupting at the same time, and swept all around. Open, at the same time, a huge mushroom cloud directly rises from the origin of the demon Long Hanoi into the sky, straight into the depths of the void, and the entire void is directly wiped out in an instant!

boom!

Immediately after this force, it spread directly to the headquarters of the Righteous Army outside the long river of origin of the devil.

Boom boom boom boom...

The astonishing roar of the explosion continued to resound. In an instant, the countless stars in the headquarters base that the Righteous Army had inherited for hundreds of millions of years turned into powder and nothingness in an instant.

And that terrible impact even permeated the long river of origin of the demon.

At this moment, Qin Chen suddenly appeared before this shock. He looked at the wave of fluctuations that hit in the distance with a calm expression!

Then, holding the mysterious rust sword in his hand, he slashed out again at the terrible impact.

boom!

In an instant, the terrifying force formed by the explosion of the entire Righteous Army Headquarters was directly blocked by Qin Chen's sword light in the sky!

But it did not disappear!

A weird scene appeared.

In front of Jianguang, a wave of terrifying power rolls like a monstrous ocean wave!

Behind Jianguang, the wind was calm and everything was normal.

[Chapter 4940: Meet your Royal Highness the saint](#)

At this moment, Qin Chen was like a god, standing proudly between the heavens and the earth, blocking all shocks.

Behind him, the Ten Thousand Realm Demon Tree and Demon Soul Source Artifacts emerged, vomiting all power.

Rumble!

Qin Chen urged the mysterious Rust Sword to resist the attack in front of him.

The terrifying force erupted from the huge array explosion was constantly bombarding the sword light like a wave, but Qin Chen's sword light did not move at all!

Like a rock.

After all the shock waves hit Qin Chen, they would be blocked by Qin Chen, and then this force was absorbed by the Demon Tree of the Ten Thousand Worlds behind Qin Chen and turned into the power in the Demon Tree of the Ten Thousand Worlds.

boom!

The aura on the Ten Thousand Worlds Demon Tree was frantically skyrocketing.

Between the world and the earth, all the righteous army powerhouses were shocked by the sword light looking at the sky, and their eyes were full of shock!

At this time, Qin Chen's palm suddenly flipped, and the sword light in Tiantian skyrocketed directly, slashing towards the terrifying explosion.

boom!

A deafening roar resounded throughout the long river of origin of the devil!

That horrible array of explosive power was directly cut into countless pieces by this sword light, and that sword light did not disappear, it directly slashed towards the endless array of righteous army headquarters. In an instant, the righteous army The explosive formation of the headquarters was directly annihilated into nothingness under this sword.

At the same time, Qin Chen raised his hand and slammed against the distant Sword Demon Supreme and the others, and a terrifying force instantly suppressed it. At the same time, the Dark King's blood in Qin Chen's body instantly burned.

boom!

The many righteous army powerhouses who originally had the dark aura burning in their bodies, the power of darkness in their bodies seemed to have encountered the flames of ice water, and they were instantly extinguished.

One by one lay on the ground, panting heavily, with lingering fears.

If it weren't for Qin Chen's move, then they would definitely turn into ashes under the burning dark air.

It was Qin Chen who saved their lives.

At this moment, the violent explosion in the void instantly calmed down. Looking around, the original headquarters of the Righteous Dao Army had turned into nothingness and became a deadly world.

However, with the help of Qin Chen, the long river of origin of the devil remained.

"dust!"

Sisi and Shangguan Wan'er quickly flew over and plunged into Qin Chen's arms.

Tears are streaming down.

Honghuang Zulong and others also surrounded them quickly.

"Kid Qin Chen."

Honghuang Zulong looked at Qin Chen with emotion.

When it first met Qin Chen, Qin Chen was only a small earthly respect, and over the years, the young man who had lived and died in the Vientiane God Cang had grown to this level.

Today's Qin Chen, after devouring most of the power in the entire mirror world, his strength has reached the limit of the late supreme, close to the peak supreme realm.

The ultimate limit in the late stage!

Qin Chen now can be regarded as the outstanding person in this universe, an ancient giant.

It should be understood that even the current patriarch of the Yuanmo clan, the eclipse Yuanzhi, is only a late-stage supreme, the pinnacle supreme is already the top combat power in this universe, and the ancestor-level existence of the top ten races in the universe.

Although Qin Chen is only the ultimate limit of the late stage supreme, but combined with his dark king blood, **** emperor totem, mysterious rust sword, ten thousand world magic tree and other treasures, his strength is much stronger than the average peak supreme.

"Boy, it's a pity to let the high priest run away."

Ten-tailed Magic Fox said in a deep voice.

"What a pity, just a broken soul, where can you escape? With the strength of kid Qin Chen, it will not be a matter of minutes to clean up the opponent in the future."

Honghuang Ancestor Long said with disdain, the Blood River Saint Ancestor also flew up.

The three ancient Chaos Gods and Demons looked at each other with emotion and excitement.

Back then, they could be regarded as the best among the Chaos Gods and Demons, but now that they saw Qin Chen's strength, they couldn't help but feel deeply moved. Looking back, it was after the Endless Era, and among the younger generations, such arrogance as Qin Chen also appeared.

Everything is right and wrong.

"Master Qin Chen, I'm really waiting..."

Under the leadership of Sword Demon Supreme, many strong men of the Righteous Dao Army came to Qin Chen one after another, with shame on their faces, all ashamed.

When Qin Chen first came to the Wusheng Demon Territory, they regarded Qin Chen as an enemy, all kinds of targets, but who had thought that the real behind-the-scenes man was actually the high priest.

Moreover, if it hadn't been for Qin Chen, they were afraid that they would all explode directly under the sacrifice of the high priest.

Thinking of this, everyone felt bitter and uneasy.

"His Royal Highness."

After the Sword Demon Supreme bowed to Qin Chen, he bowed respectfully to Chen Sisi, "After I wait, I will obey the orders of His Royal Highness."

"Follow my orders?"

Chen Sisi frowned.

"His Royal Highness, you are the descendant of Princess Lianxinluo. My Righteous Dao Army should have obeyed the orders of Your Highness." Dao Demon Supreme respectfully said.

And at this moment.

boom! boom!

I saw in the distance, two breaths of horror suddenly rose up.

These two forces swept like a vast ocean, instantly spreading over everyone present, and in an instant, everyone present felt that a giant mountain was suppressed on their bodies.

Everyone turned their heads to look over, and their eyes all showed shock.

It was no one else who released these two horrible breaths, it was the two masters of the Great Protector and the Great Elder.

At this time, both of them exuded the aura of the pinnacle supreme, like two black holes.

Honghuang Zulong and they all looked at Qin Chen.

"I have lifted the soul control of everyone on the altar." Qin Chen said lightly.

Although the great guardian and the great elder were refined in the altar by the high priest, Qin Chen didn't need to control the two in this way. As soon as he got the altar, he directly released all the soul marks in it.

And this great protector and great elder had not completely turned into a corpse puppet, and they were no longer under control at this moment, and they immediately regained their freedom.

The eyes of the two gradually became clear, and then their eyes instantly fell on Qin Chen's body.

boom!

A dazzling light burst from the eyes of the two of them, and it instantly fell on Qin Chen.

"Humph!"

Honghuang Ancestor Dragon and Blood River Saint Ancestor immediately snorted and stood in front of Qin Chen, staring coldly at the two of them.

What an arrogant look in his eyes.

However, under the full view of everyone, the two quickly flew over.

"Great protector, great elder."

Sword Demon Supreme and the others looked excited. Anyway, the Great Protector and the Great Elder were also one of the three leaders of his righteous army, but they both looked at Qin Chen and the two in anxiety, for fear of any conflict between the two.

After seeing the great guardian and the great elder came to Qin Chen, they didn't make a move, but bowed down on one knee in front of Qin Chen and Chen Sisi in full view.

"I'm waiting to see His Royal Highness and the Lord."

The expressions of the two were pious, and the aura of the pinnacle supreme class converged in an instant, like two pious courtiers.
