[Chapter 4991: Dabu](#)

boom! At this moment, the two supreme powerhouses rushed towards the ancestor of Yuanmo at the same time.

Like a hungry tiger rushing for food! "Hahaha, there is actually a soul body descending, and when a living being falls, it will be reincarnated in the reincarnation pool of the underworld, why does this person appear here?

No matter, swallow him, my immortal body will definitely be stronger. "

The death knight was burning with darkness and death energy, and the dark energy burst into the sky, laughing and killing forcefully.

boom! The long spear he held in his hand was billowing with ghostly energy. This spear seemed to be able to pierce this side of the world. With the power of terrifying piercing, it instantly came to the ancestor of Yuanmo.

On the other side, the huge dark dragon also flew over quickly.

Roar! Minglong opened his mouth wide, and instantly spit out the deadly dragon flames. These dragon flames directly scorched the void and distorted it, turning it into a vast ocean, and instantly enveloped the ancestors of Yuanmo.

Naturally, he couldn't let the death knight swallow his prey.

Great supplement! The soul body is definitely a great supplement to these underworld creatures.

Although the soul body in front of them does not seem to be weak, as the underworld creatures, they will not care about the existence of the soul body at all.

In the underworld, no soul body can resist the attacks of these underworld creatures.

Not only their two supreme beings at this time.

The underworld creatures that were originally hidden in the nearby Nether Mountains were all exposed one by one. In the void, there was a palpitating breath everywhere, and they were all powerful people in this underworld territory.

In the face of a soul body like the ancestor of Yuanmo, none of them are willing to give up.

At this time, there was a strong man in the underworld, his pupil suddenly opened one eye, and a terrifying divine light burst out, covering the ancestor of Yuanmo.

This is a Kui Niu-like creature. This pupil opened, and the misty light immediately enveloped the ancestor of the ancient demon. In an instant, the aura of the ancestor of the ancient demon was completely seen by him.

"The power of transcendence."

This Kui Niu-like creature from the underworld suddenly burst into ecstasy at this time, and couldn't help exclaiming, without hesitation, he rushed directly to the ancestor of Yuanmo.

What?

Transcendence?

At this moment, all the underworld creatures present shook.

Is the soul body in front of you detached?

At this moment, almost no underworld creature can calm down.

Depend on! detachment! This is the top powerhouse in the underworld.

In this vast universe, there are countless universes and forces, but in most universes, there is not even a single detachment. Only some powerful universes, or universes that have escaped reincarnation, will there be detachment levels. The strong is born.

This also means that almost the vast majority of the creatures reincarnated in the underworld are below detachment, and any detachment in the underworld can achieve a lord-level existence.

And a detached soul body is an indescribable supplement to any underworld creature. As long as they devour each other, there will be a great probability of becoming detached.

boom! At this moment, countless underworld creatures rushed towards the ancestors of Yuanmo like crazy.

At this moment, there is only one thought in their minds - that is to swallow the ancestors of Yuanmo! Of course, there are also some powerful supreme beings who have also used their magical powers to spy on the ancestors of Yuanmo, and they can see some clues.

It is the power of half-step detachment! It seems that the other party is not yet a detached powerhouse.

However, the power of half-step detachment is enough. For these creatures who only have the supreme level, the soul body of half-step detachment is already an absolute supplement. Once swallowed, it is enough to become one of the lords of the underworld region. Staff General.

boom! The underworld creatures like the ocean completely surrounded the ancestors of Yuanmo.

This made the death knight and the dark dragon's faces change greatly.

Damn, these **** are actually here to grab food.

The two powerhouses were the closest to the ancestors of Yuanmo, and they couldn't do it eagerly. The attack accelerated in an instant, and the ancestors of Yuanmo were solemnly held in an instant.

This guy is mine! At this time, the ancestor of Yuanmo was surrounded by endless attacks, but he did not panic, but a sharp light burst out from his pupils.

These guys, are they treating Lao Tzu as prey?

snort! Lao Tzu was forced by that Qin Chen boy and Xiaoyao Supreme to self-destruct, so he could only escape into this underworld. You guys also want to beat the underdog, do you really take yourself as a character?

Ancestor Yuanmo's heart was cold, but he instantly activated a secret of death.

With a bang, the endless energy of death gathered around, and immediately completely enveloped the ancestor of the ancient demon. Then, these auras of death quickly gathered into the body of the ancestor of the ancient demon.

A breath of half-step detachment from the peak erupted in an instant.

The whole process sounds long, but in fact it was only in an instant, the ancestor of Yuanmo appeared from the black hole, and immediately gathered the endless energy of death, forming his powerful body.

At this time, the attack of the death knight and the dragon finally fell on the ancestors of Yuanmo.

Then I heard a bang, and the attacks of the two supreme powerhouses vanished in an instant, like a sea of stones, and did not bring any harm to the ancestors of Yuanmo at all.

"What's this?"

Both the death knight and the dragon are shocked?

Obviously, this soul body was only a soul before, why did it suddenly use death energy to condense a body?

How can this be?

Generally, after the fallen powerhouse in the universe falls, the soul will be quietly resurrected in the reincarnation pool of the underworld, but there will only be a void soul with no memory left. This guy is not only the two of them, but the other underworld powerhouses who are rushing in are also startled.

They were shocked, but the ancestor of Yuanmo looked at his recondensed hands lightly: "The undead emperor formula given by this guy, the undead emperor, is indeed useful."

The next moment, the ancestor of Yuanmo suddenly raised his head, and his eyes fell on the two underworld powerhouses who attacked him.

The bodies of the Death Knight and Minglong, who were about to start again, suddenly froze, and a cold air rushed into their minds from their whole bodies, as if they were stared at by some terrifying existence.

What kind of eyes are these?

Cold and high, as if the gods were looking down at the ants.

In the eyes of the two, the ancestor of Yuanmo suddenly raised his hand, bang, a terrifying aura shot into the sky, turned into a majestic big hand, and slammed down towards the two of them.

"not good!"

The two powerhouses had goosebumps all over their bodies, and their bodies hurriedly retreated. At this moment, they felt a strong sense of fear in this lower realm.

At this moment, there is only one thought in their hearts, and that is to run.

But the space around them seemed to be suppressed in an instant, and no matter how they dodged, they could not escape from this world.

boom! Ancestor Yuanmo's huge palm enveloped them in an instant.

[Chapter 4992: Lord of the Underworld](#)

puff! Blood is flying! Under the eyes of the public, the death knight and the giant dragon were pinched in the palm of their hands, and the bones all over his body made a crackling sound, blood flew, and his tendons were broken and fractured.

"Sir, forgive me."

"Sir, forgive me!"

The death knight and the ghost dragon screamed at the same time, looking terrified.

Ancestor Yuanmo pinched the two of them and looked at the two powerhouses of the underworld with interest, "Well, this is the creature of the underworld, but that's it."

puff! Under the eyes of the public, the two powerful men were instantly squeezed apart, and the billowing aura of the underworld was instantly swallowed into the body by the ancestors of Yuanmo.

boom! The breath of Yuanmo's ancestor rose instantly.

"Well, it's good to devour it."

The ancestor of Yuanmo smashed his mouth. Now, what he needs most is to devour the Qi of the Underworld, which is much faster than his own cultivation.

In the distance, countless underworld powerhouses all stopped, their eyes terrified.

The two powerhouses, the Death Knight and the Underworld Dragon, were killed directly?

What kind of monster is this guy?

Under the shock of everyone's eyes, the ancestor of Yuanmo raised his head slightly, and looked at the other underworld powerhouses around him, his eyes seemed to be looking at the prey head to head, making countless powerhouses present chilled.

escape! These strong figures hurriedly retreated.

Ancestor Yuanmo grinned: "Since you're here, why go?"

Talk down! boom! An earth-shattering dark aura suddenly erupted from the body of the ancestor of Yuanmo. This dark aura, with a terrifying power of detachment, enveloped the world, and then gathered suddenly.

"No, kill it."

Many underworld powerhouses roared together, and they finally understood that what they were besieging and killing at the moment was not a prey at all, but a raptor.

kill! One after another terrifying attack was like an ocean, slamming on the big hand barrier of the ancestor of Yuanmo.

Boom! Violent turbulence surged, as if there was a big explosion between heaven and earth, terrifying fluctuations impacted the world and swept the four directions.

Just no matter how these underworld powerhouses make a move, the heaven and earth of the ancestors of Yuanmo always stand still. Boom, the big hands of the ancestors of Yuanmo grabbed these underworld powerhouses in their hands, and finally, with a bang, countless underworld powerhouses. In the screams, they burst open, turning into dust and dissipating the void.

A large number of the origins of the underworld entered the body of the ancestor of Yuanmo in an instant.

boom! The aura of the ancestor of Yuanmo increased rapidly, and there was a faint aura of a half-step transcendence rising up.

"Well, I'm not satisfied with the recovery."

Ancestor Yuanmo closed his eyes and exhaled, showing a look of enjoyment.

boom! He raised his hand, and between heaven and earth, a transcendent aura rose up, and dark auras lingered around him, setting him off like a dark god.

"The power of detachment is indeed the power of detachment."

The ancestor of Yuanmo looked excited, showing a hint of excitement: "The underworld, it's a wonderful place, this world really won't limit the breakthrough of detachment, and now I have obtained a trace of the origin of detachment from the ancestor of the black devil. My cultivation base only needs to have enough resources to absorb it, and it is not difficult to break through the realm of detachment."

"And the countless powerhouses in this underworld are the source of energy for me to break through the realm of detachment."

The ancestor of Yuanmo felt the power in his body, and his eyes gradually became cold.

"Unfortunately, you can't become a true cosmic reincarnation without devouring the origin of a universe. Even if you become detached, you will start out a lot worse than those cosmic reincarnations. Damn, it's all that Xiaoyao Supreme and that Qin Chen" Yuanmo Lao An endless murderous aura suddenly erupted from Zu.

Although he can easily break through the realm of detachment in this underworld, if he can devour the origin of the universe and achieve detachment, he can lead the entire universe through the era of reincarnation. In this way, the universe he was in before can become a sea of cosmos. Holy Land, no longer restricted by reincarnation.

That is the case with the dark family.

And the detached powerhouse who leads a universe through the era of reincarnation has a name in the universe sea, that is, the cosmic reincarnation person. The future growth possibility of such a character will far exceed that of ordinary detached powerhouses.

This is also the reason why the dark race will invade this universe.

It is not only the origin of this universe that allows them to break through the realm of detachment, but also because the benefits of becoming a reincarnator of the universe will be enormous.

But now, because of Qin Chen's appearance, everything was ruined.

"Xiaoyao Supreme, Qin Chen, you wait, one day, the ancestor will come again and kill you completely."

The eyes of the ancestors of Yuanmo burst out, and they were full of murderous aura.

Suddenly, his eyes narrowed, and he even raised his head to look at the distant sky, where a powerful breath was coming.

"Someone is here, this breath is half-step detachment?"

The ancestor of Yuanmo frowned: "It should be a master under the lord of this underworld domain. Before the cultivation base is restored, it should not be exposed too much for the time being, otherwise once the lord of this domain perceives it, it will be troublesome" Underworld, is divided into vast territories, each vast territory has a lord sitting in charge, and each lord is a detached master.

Under the lord's command, there are usually many half-step detachment masters sitting in town to patrol.

If it was in its heyday, the ancestor of Yuanmo would not be afraid of any half-step detachment master, but now that he is just entering the demon world, he naturally does not dare to be too presumptuous.

"The undead emperor is absolutely not allowed to go. If I don't break through detachment, otherwise once I enter his territory, it will be like a sheep entering the tiger's mouth, and I will leave here first."

With a thought, the ancestor of Yuanmo suddenly turned into a black shadow and disappeared into the vast void.

He didn't go to the Immortal Emperor Venerable's territory where he had cooperated, not to mention that the Immortal Emperor Venerable's territory was quite far from here. With his current cultivation base, he rushed to the Immortal Emperor Venerable's place, fearing that he would immediately become the other party's meal in his mouth. Food.

Let's talk about wretched development first.

And it was not long before the ancestors of Yuanmo left.

Boom! A terrifying breath descended, and a strong man wearing pitch-black armor and haunted by the heaven-shattering aura appeared in this world.

He stared at the void around him, and his expression suddenly became solemn.

Here, a top powerhouse just appeared.

boom! He reached out his hand, and in the endless void, one after another dark energy gathered and fell into his hands. After careful perception, his pupils shrank slightly.

"Darkness?"

Moreover, it is at least a half-step detachment-level aura, and even, there is a hint of detachment power faintly, hiss" The underworld powerhouse's eyes suddenly became solemn: "Could it be that here, a detached powerhouse from the fallen dark family just appeared?"

No, this matter must be reported to the lord as soon as possible. "

boom! The figure of the underworld powerhouse flickered and suddenly disappeared into the void.

[Chapter 4993: first three races](#)

At this time, in a world far away from here.

The figure of the ancestor of Yuanmo appeared quietly, looking at the back of the strong man who had left before, his eyes were slightly solemn.

He quietly felt the breath of the previous man before, and his strength is definitely not weak, even if it is not half a step beyond the peak, it is not far behind.

According to the information he received from the undead emperor when he cooperated with the undead emperor, in the underworld, there are many such strong men under the command of a lord.

"The underworld is worthy of being a well-known force in the universe. It is really powerful, and it seems that the strong are like clouds."

Ancestor Yuanmo squinted his eyes with a solemn expression, but immediately laughed.

But isn't that what he wants?

The underworld is strong, and he has a lot of room for development. Otherwise, what is the meaning of him running to such a place from his own universe and leaving such a back path?

The stronger the underworld, the greater the probability that he will return to the universe and defeat Xiaoyao Supreme after he breaks through detachment.

"Hmph, Xiaoyao Supreme, Qin Chen, both of you should wait for the ancestor's arrival."

The words fall.

The ancestor of Yuanmo swayed and disappeared in this world.

This time, he left completely.

As the ancestor of the Yuan Demon Clan, he has been in charge of the powerhouse that has existed for hundreds of millions of years in the Demon Clan Alliance, colluded with the dark clan, the undead emperor of the underworld, and almost devoured the demon head of the origin of the universe where he lives. The ancestor of Yuan Mo is not. What a little sheep.

As long as he is given a chance, he can definitely rise rapidly.

Of course, he can't be too revealing now. After all, he is not a normal birther of the underworld, but a stowaways.

Stowaways naturally have the consciousness of stowaways.

And when the ancestors of Yuanmo developed in the underworld wretchedly, they were in the universe.

Qin Chen constantly travels through the world, perceiving the existence of Xiaoyao Supreme.

With the current strength of Qin Chen, although it is only the peak of the supreme, he has already realized a trace of detachment, and he has a detached origin of the Black Demon Ancestor in his body.

"I feel it."

Suddenly, Qin Chen raised his head, looked into the distance, and suddenly disappeared into the void.

After a while.

The endless cosmic starry sky cracked open, and a figure came out of the void, it was Qin Chen.

What appeared in front of Qin Chen at the moment was a vast starry sky, with worm nests standing like honeycombs, and each worm nest was huge and incomparably majestic with hundreds of millions of kilometers.

This is the territory of the powerful race Zerg in the universe - the Zerg World.

The Zerg were also one of the top races on the list of all races in the universe back then. In ancient times, they even reached the top three at one time. Although they are much weaker now, they are also regulars in the top ten on the list of all races in the universe.

It is one of the top races under the Demon Race.

At this time, in the insect world, one after another terrifying Zerg powerhouse appeared, and I saw the Zerg clan leader, the Zerg Emperor, standing in the sky and the earth, and beside him, numerous Zerg powerhouses emerged one after another, these Zerg powerhouses. The number of them is simply uncountable, densely packed, one by one urging their own worm nests to form a terrifying large formation to resist the attack of Xiaoyao Supreme.

Boom boom boom! Xiaoyao Supreme urged the Desolate Sky Pagoda, and the towering tower fell down, like an ancient sacred mountain, ruthlessly suppressed over the insect world, and a violent roar erupted over the entire insect world, as if it were about to collapse at any time.

The Insect King's face was ugly, and his expression was frightened. Although his Insect Realm was strong, Xiaoyao Supreme was the only half-step detached peak powerhouse in the universe today. If he continued to fight, the Insect Realm would be broken by Xiaoyao Supreme sooner or later.

If there is no master who can resist Xiaoyao Supreme, then the final result of the Zerg will only be one, which is broken by Xiaoyao Supreme.

A powerhouse who has surpassed the peak by half a step is by no means so desirable.

When the worm emperor tried his best to resist, the universe in the distance suddenly cracked open, and then the worm emperor saw Qin Chen, who was exuding a terrifying aura, walking out of the void passage.

another one?

Seeing Qin Chen appear, the Insect Emperor's face suddenly turned pale.

You must know that when they retreated before, only Xiaoyao Supreme was chasing out, and Qin Chen was left to conquer the demon world. Now, Qin Chen has also come to the Zerg. What does this mean?

It obviously shows that the devil world is very likely to have been pacified by the other party.

How long has it been?

The devil was actually pacified?

Insect Emperor's heart immediately rolled up a stormy sea.

How can this be?

Even if the ancestor of Yuanmo has sneaked to the underworld, the devil can become the boss of the alliance of the demons, and he has fought in this universe for hundreds of millions of years, and his background is definitely behind him. At the peak of the supreme level, there are many people in the demon world, such as the ancient supreme.

But now, even such a powerful demon world has fallen so quickly, which completely sinks the heart of the insect emperor.

He knew that the Zerg was over.

In the void, Qin Chen stepped out and came to Xiaoyao Supreme's side.

He looked at the vast and boundless world of insects with countless insect nests in front of him, and couldn't help feeling very emotional.

The Insect World is worthy of being the top ten big clans on the list of the ten thousand clans in the universe, and it is indeed powerful.

The territory alone is not much smaller than the human heaven or the demon world.

Even, it seems to be a little bigger.

After all, the Zerg is a race that wins by numbers.

Seeing Qin Chen's appearance, Supreme Xiaoyao couldn't help turning his head to look at him, and said with a smile, "Oh, you have calmed down the demon world so quickly?"

Qin Chen said with a smile: "Without the ancestors of the demon, the demon world is all scattered soldiers and defeated. In addition, with the master of the demon, it is not difficult to pacify the demon world."

Xiaoyao Supreme smiled: "I forgot about this."

The Lord of the Abyss Demon is the descendant of the ancestor of the Abyss Demon. Now following Qin Chen, with him around, it will indeed be much easier to conquer the Demon World.

At this time, Qin Chen looked at the large formation above the worm world and frowned, "Senior Xiaoyao Supreme, why don't you directly enter such a worm world?"

Qin Chen was a little puzzled.

Although the big formation in front of him is powerful, Qin Chen is very clear that such a big formation cannot stop Xiaoyao Supreme's footsteps.

Just like the Great Demon Sealing Formation in the Demon Realm, in the presence of Yuanmo Ancestor, Xiaoyao Supreme dare not enter rashly. As long as there is no half-step detachment powerhouse like Yuanmo Ancestor, the strength of Xiaoyao Supreme is completely useless. fear.

And in this insect world, there is no half-step detachment powerhouse at all, and it should be easy to solve.

"Hehe, boy Qin Chen, the Zerg were also the top three races in the cosmos list of all races back then, and even now they are ranked in the top ten, which must not be underestimated. However, you have never experienced ancient times, so you don't know the meaning of this. "

Happy Sovereign laughed.

"meaning?"

Qin Chen wondered, is there any reason for this?

[Chapter 4994: It's finally out](#)

Xiaoyao Supreme smiled, did not answer, just turned his head to look into the insect world.

Boom boom boom!

At this time, in the insect world, one after another terrifying streamer rose, and countless insect nests swarmed densely, and these insect nests continued to gather together.

In front of these large and small insect nests, the small ones are only tens of thousands of kilometers, while the large ones are hundreds of millions of kilometers. Each insect nest represents a branch of the Zerg.

Such as the Oirat tribe, the multi-eye tribe, the hundred-foot tribe, the unicorn tribe, etc...

Head after head of Zerg warriors swarmed out from the insect nest like ants, with different shapes, and their icy eyes stared at Xiaoyao Supreme and Qin Chen outside the insect world, making squeaking sounds.

The Zerg, like the Monster Race and the Demon Race, are not only one race, but are condensed from countless Zerg races. They are one of the most terrifying big races in the universe.

At this time, these worm nests are constantly gathering, and countless zerg warriors have turned into a long river, standing in the sky and the earth, and their powers are gathering crazily.

"Xiaoyao Supreme, don't you have to kill your human race today?"

The Insect Emperor stood between the heavens and the earth, said Longlong.

Xiaoyao Supreme smiled lightly: "To kill them all? Let me ask you, what will happen if my human race is defeated today, will your Zerg let my human race go?"

Hearing this, the Insect Emperor's face suddenly became difficult to look at.

King and loser.

Indeed, if the Demon Race Alliance wins, then the fate of the Human Race will definitely be extremely miserable, and the Demon Race Alliance will never let the other party go.

"That's not good? Insect King, you are not a child, what more do you say?"

The words fall.

boom!

Xiaoyao Supreme's figure moved forward, and instantly became hundreds of millions of feet, standing on the ground. His body was so big that it seemed to be able to break through the entire universe.

Magical powers of law.

After the body became incomparably majestic, the right hand of Supreme Xiaoyao suddenly lifted up, and the big hand was like a pillar of optimism, and it was instantly crushed down.

boom!

Under the big hands, the stars were destroyed, like a sky, shrouding the field of the insect world.

"Xiaoyao Supreme." The insect emperor roared, and the sharp blades on his body like a serrated sickle burst out with a cold light, cutting the void of the universe into gaps. At the same time, behind him, countless countless

The energy of the Zerg warriors quickly gathered.

swoosh swish...

Hundreds of millions of energies converged and turned into dense skynets, protecting the entire insect world.

boom!

Xiaoyao Supreme pressed down with his big hand, and the entire insect world was shaking violently.

A layer of power permeated, and countless Zerg warriors roared in pain.

The Insect King changed color and said: "Xiaoyao Supreme, my Zerg is willing to admit defeat today, now that the demons are extinct, and the demon alliance has long been broken, my Zerg is willing to join the human alliance, how?"

"Join the Human Race Alliance? Hahaha." Supreme Xiaoyao couldn't help laughing, and then his eyes suddenly became cold: "Do you think it is possible to admit defeat at this time?"

Xiaoyao Supreme urged the body to detach from the peak source by half a step, bang, the infinite detachment power agitated down.

Ka Ka Ka!

I saw countless chaotic energy rushing around, and a force that was about to surpass this universe rippled. Outside the worm world, countless stars collapsed directly under this shock wave and turned into powder. .

This force is too strong, even the large formation of the insect world, it is difficult to completely resist it for a while, making a creaking sound, and constantly appearing one after another cracks.

boom!

At the same time, the barren sky tower behind Xiaoyao Supreme appeared, and it was crushed with a bang. In an instant, the countless insect nests in the insect world made a loud noise, and the bodies of hundreds of millions of Zerg warriors exploded in an instant, dripping blood. long sky.

Such power is enough to crush everything.

"Great, this barren tower is at least half a step beyond the treasure."

Qin Chen looked at Huangtian Tower and sighed.

With his current strength, he can naturally feel the extraordinariness of the Barren Sky Tower.

The power that this thing erupts is unbearable even for the Zerg world, and it must definitely surpass the supreme treasure.

Is it a treasure of transcendence?

While Qin Chen was contemplating, the Insect Emperor's face changed completely.

If Xiaoyao Supreme were allowed to continue to attack like this, then his worm world would be in danger.

"Xiaoyao Supreme, do you really think that my Zerg has no backers?"

The Insect Emperor roared, his eyes instantly turned red, and a terrifying shock wave quickly spread out from his body, spreading across the entire Insect World with a unique frequency.

"Please come out, seniors," said the Insect Emperor Longlong.

"Please come out, seniors."

"Please come out, seniors."

Countless Zerg powerhouses roared, and their voices rumbled in the universe, shaking the world.

Boom!

Accompanied by the roar of countless Zerg powerhouses.

Behind the worm world, the endless void suddenly cracked, and then from the cracked void, ancient fortress-like worm nests slowly rose up.

These worm nests are incomparably huge, like ancient mountain peaks, quietly emerged from the cracks in the space, and then rumbled out.

Originally, the worm nests that appeared in the insect world before were already extremely huge, but when these twelve worm nests appeared, the momentum of the countless worm nests present instantly seemed to be much weaker.

Although, the countless gathered insect nests, some of which are hundreds of millions of miles in radius, must be the mother nests of some of the top races in the insect race today, which can be called unparalleled in the world.

But in front of the twelve worm nests that appeared in the void, it seemed to have become much smaller in an instant. This insignificance was not in size, but in feeling and momentum.

It seems that each of these twelve worm nests is a dark king, rumbled out from the crack in the void and from the endless darkness.

boom!

Where the twelve worm nests passed, ripples rippled from the void of the universe, as if a huge divine boat was flying in this universe, using the void as sea water, slowly floating.

Buzzing... During the fluttering, above the twelve worm nests, every worm nest is flowing with amazing rune aura, one after another rune aura soaring into the sky, turning into twelve heavenly pillars, these symbols The text is inexhaustible and powerful, surrounding twelve ancient

The worm nests, as if nothing can stop them from moving forward, they can easily smash into pieces of the galaxy.

Seeing such a scene, Qin Chen's eyes narrowed slightly.

Unexpectedly, there are such trump cards in this Zerg?

And Xiaoyao Supreme smiled slightly, "It's finally out, I thought that these guys would only appear until the Zerg was destroyed?"

With Xiaoyao Supreme's voice falling. From the fortress, a terrifying and terrifying aura suddenly rose up, and it could be vaguely seen that each of the fortresses contained a terrifying aura that stunned the world, enough to shock the ages.

Chapter 4995 Twelve Forts

The pinnacle of the supreme class?

Qin Chen narrowed his eyes.

At this moment, he felt it.

The breath in these twelve worm nests, each of which is a peak supreme, similar to the ancient supreme, with an ancient and decadent aura.

boom!

In the insect world, a total of twelve fortresses stand between the heavens and the earth, and then from these twelve fortresses, bursts of formations burst out. integrate.

These worm nests are built together like building blocks.

In fact, every worm nest in the worm world was already extremely huge. The smallest one had a radius of tens of thousands of kilometers, and the big one covered the sky and the sun.

But under the union of the twelve worm nests, the countless worm nests in the worm world kept squirming and approaching, and then they slammed together, and finally formed an incomparably huge worm nest, filling the entire cosmos space.

Hundreds of millions of Zerg, united in an instant.

hum!

The universe is shaking under such a force.

Qin Chen stared at the twelve fortresses. At this moment, a terrible aura was slowly awakening in these fortresses.

"Mulikara! Why wait for me to wake up?"

A icy voice broke out from a fortress, and the voice shook the world, sweeping everything with a heart-pounding aura.

However, in this voice, Qin Chen felt a vague uneasiness.

These are the ancient powerhouses hidden by the Zerg, and the existence of their longevity will be exhausted. It can be said that when they are all awakened, it must be the time when an extremely serious event has occurred in the entire ethnic group.

The Insect Emperor looked up and looked at the twelve ancient insect nest fortresses with an ugly face: "Everyone, the Demon Race Alliance has been defeated, and the ancestors of Yuanmo have abandoned us, abandoned the Demon World, and went to the Underworld alone. Now, my Zerg Race It has come to the time of life and death, I can only ask your ancestors to dispatch to protect my Zerg."

"My Zerg actually lost..."

"how come..."

"Ancestor Yuanmo has escaped, this traitor."

One after another angry voices echoed between heaven and earth, and then, the twelve ancient fortresses instantly locked Qin Chen and Xiaoyao Supreme.

boom!

Terrible power eroded, like mountains, ruthlessly suppressed Xiaoyao Supreme and Qin Chen.

This breath was extremely terrifying, but Qin Chen and Xiaoyao Supreme turned a deaf ear.

"Twelve fortresses, you should be the top twelve supreme powerhouses of the Zerg for hundreds of millions of years, right?"

Xiaoyao Supreme smiled and looked at the twelve fortress-like worm nests. The terrifying power scattered from the twelve fortresses suppressed Xiaoyao Supreme, but it did not give Xiaoyao Supreme any impact at all.

"Insect Sovereign, this is the last resort of your Zerg? But a group of **** with their longevity is approaching, hiding in the dark and lingering." Supreme Xiaoyao looked indifferent, and did not pay attention to the twelve powerhouses in front of him.

"Arrogant human race."

Among the twelve fortresses, some Zerg powerhouses screamed in anger.

"Are you arrogant?"

boom!

Xiaoyao Supreme's pupils froze, and with a big hand, the Barren Heaven Tower appeared in his world in an instant, and it was suppressed fiercely.

boom!

The entire worm world vibrated violently, ka ka ka ka, and countless cracks suddenly appeared in the world of the worm world, as if the sky were torn apart, the huge worm nest was shaking violently.

"Half-step detachment power?"

In the insect world, twelve ancient fortresses all shook.

Half-step detachment, this is definitely the most peak force in this universe.

"I can't believe that at the end of this reincarnation era, such a strong man was born. No wonder, no wonder..."

From the twelve ancient fortresses, shocking voices came out: "You... are not the leader of the human race, the ancestor god, could it be that the legendary Happy Supreme?"

"Oh? You old guys have actually heard of this seat? Shouldn't this seat be deeply honored?!" The Supreme Xiaoyao laughed.

At this time, the powerhouses in the twelve fortresses were even more shocked.

Is it really Happy Supreme?

How can this be?

Although the ancient powerhouses of the Zerg have long since declared themselves at the end of the darkness of the universe because their lifespan is about to expire, the current Zerg leader, the Zerg Emperor, will often inform them about the general trend of this universe.

They naturally also knew that there was a peak supreme master in the human race, who had turned the tide and prevented the ancestors of Yuanmo from destroying the human race alliance.

But they never imagined that such a master of the younger generation would break through to the realm of half-step detachment.

This is a powerhouse that was extremely difficult to be born in the ancient times? Now that this universe has reached the end of reincarnation, it stands to reason that it is impossible for a half-step detachment master to appear.

No wonder the Demon Alliance will lose.

On the side, Qin Chen stared at the twelve ancient fortresses and frowned: "Senior Xiaoyao Supreme, the 'meaning' you wanted to me before, could it be these twelve ancient Zerg powerhouses?"

"Who is this person?"

Hearing Qin Chen's opening, another strong man in the twelve ancient fortresses said in a deep voice.

Because they all felt a strange power from Qin Chen, and they were unclear and could not tell.

"My ancestors, this person is a young strong man born in the human race. The reason why the ancestor of Yuanmo lost has a great relationship with this person." Insect Emperor Lian explained.

"Another young strong man in the human race?"

There were Zerg powerhouses in the Twelve Fortresses vibrating, concentrating on feeling the past, and the breath immediately shook: "Peak Supreme? How is it possible? What happened to this universe? It's obviously the end of reincarnation, why is such a Peak Supreme Master born again?"

The Zerg ancient powerhouse was a little stunned.

It should be noted that the closer to the end of reincarnation, the weaker the source power of the universe will be, and the lower the probability of the birth of a strong person will be.

For example, in the chaotic era when the universe opened up, each of the three thousand chaotic gods and demons was a top-level supreme master. Later, the universe gradually recovered, and there were more and more powerhouses.

In that era, the powerhouses were like clouds, more than ten times, a hundred times more than they are now?

And this group of people, almost all of them broke through the peak of the peak era in the universe, when their lifespan was about to end, they used special means to seal themselves in the endless darkness in an attempt to survive the cycle.

Because they know very well that as the universe enters the end of reincarnation, the origin of the universe will become weaker and weaker, and the probability of the birth of a strong person will

become lower and lower. When the universe enters the last node of the end, it will also be their detachment. The universe's last and only chance.

This is also the reason why they want to seal themselves up and hang on.

But now...

Perceiving Xiaoyao Supreme and Qin Chen, these ancient Zerg powerhouses fell into silence. What happened to this universe?

Chapter 4996 Tianmu Insect Emperor

On the other side, Qin Chen looked at the twelve ancient fortresses in front of him.

Qin Chen chuckled and said, "Senior Xiaoyao Supreme, if this is what you mean by the Zerg being the top three on the list of ten thousand clans, it will disappoint the juniors. All these old things will be exhausted. The peak state cannot be maintained, what Xiaoyao Supreme said should not be this?"

boom!

Qin Chen's voice just fell, and a terrifying aura suddenly rose from the twelve fortresses.

"Arrogant boy, do you think that breaking through the peak of the supreme is invincible? I don't know whether to live or die!"

An icy voice resounded through the heavens and the earth, and a terrifying aura suddenly burst out from one of the twelve fortresses.

With a bang, a void outside the worm world suddenly split open. Above the worm nest fortress, a huge eye suddenly appeared in the void of the universe. This eye is extremely huge, floating in the sky, filling the entire sky, even the biggest stars can't hide it.

Under the eyes of the public, this huge eye suddenly opened, as if the **** of death opened his eyes, Boom, the huge pupil appeared in the sky, exuding a vast breath of death, and shot a death ray at Qin Chen in an instant.

"It's the Heavenly Eyed Insect King!"

at this time.

In the cosmic starry sky, which is infinitely far away from the worm world, terrifying auras gathered together. These were the powerhouses of some other strong clans in the universe. They followed the auras of Qin Chen and Xiaoyao Supreme, and finally arrived, immediately. To see such a horrific scene.

Immediately, they exclaimed.

The Tianmu Insect Emperor, in the ancient era, was the powerhouse who truly ruled the Zerg for an era.

In ancient records, this person should have long since fallen.

But no one thought that this person was not dead, but was sleeping in the hidden time and space of the Zerg. Now he has woken up, and without a word, he launched an attack on Qin Chen.

boom!

The giant eyes opened, and a terrifying death ray burst out, quickly coming to Qin Chen, blocking everything around Qin Chen.

Under the shroud of this death ray, the time and space of this world seem to be frozen. This is the terrifying of the peak supreme, which is above the rules, and the supreme rules of the universe must be affected by this power.

"Boy, you will pay for your arrogance."

And when such a force enveloped Qin Chen, a voice full of icy murderous intent resounded through the heavens and the earth at the same time, as if a **** and Buddha were opening their mouths, uttering verses, and roaring the entire universe.

Before Xiaoyao Supreme was arrogant, he also endured it. After all, Xiaoyao Supreme is a half-step detachment powerhouse, but this kid is just a rising generation of the human race. I am afraid that he is the peak of the Supreme Realm that he broke through not long ago. These ancient powerhouses are disrespectful, so how can these old things be accepted.

So he immediately gave Qin Chen a blow to the head.

Of course, this person's purpose in doing this is also to test the Pleasure Supreme.

In his opinion, once he makes a move, Xiaoyao Supreme will definitely take action to save the rising generation of the human race. At that time, he will be able to perceive the true strength of Xiaoyao Supreme through Xiaoyao Supreme's shot.

Therefore, their perceptions are all placed on the body of the Happy Supreme.

It just surprised him that after he launched an attack on Qin Chen, Xiaoyao Supreme clearly saw all this, but he was indifferent, but looked over with a smile that was not a smile, as if he was watching a play, and had no intention of taking action at all. .

"Senior, stop now."

On the other hand, when the Insect Emperor saw that the Tianmu Insect Emperor actually launched an attack on Qin Chen, his face suddenly changed greatly, and he hurriedly exclaimed.

It's just that he said it too late.

boom!

The vast death ray slammed into Qin Chen in an instant, and a violent roar was heard resounding through the heavens and the earth. A huge mushroom cloud immediately rose from the void where Qin Chen was, and the terrifying explosion was instantly transmitted in the void of the universe. go out.

boom!

This side of heaven and earth directly turned into dust, and a huge void appeared between heaven and earth. In this void, nothing could be preserved. Even the strongest existence would instantly turn into dust and be completely annihilated. .

This is the existence of the ancient giants, who once ruled the Zerg for an era, and in the era he was in charge, the Zerg had always been ranked in the top ten of the list of all races in the universe, suppressing an era under his mighty power.

How powerful is this existence? With a flick of his finger, he can destroy the world and is truly invincible.

"That boy, is he dead?"

Among the Zerg, there are many strong people with wide eyes, looking at the endless void of the universe, and looking at the black hole that is constantly swallowing everything like the abyss of doomsday.

In their opinion, the Heavenly Eye Insect Emperor is an extremely terrifying existence in their Zerg historical records, and is the most supreme powerhouse. Under the power of the ancestor of the Tianmu Insect Emperor, no matter what kind of existence, it is impossible to escape death.

But the next moment, their pupils suddenly shrank.

I saw that where the endless black hole was, the light of countless explosive particles dissipated, and a figure was quietly suspended there, as if it had existed for eternity, and was not affected by the death ray at all, as if such an existence was invincible, no matter what. No amount of attack could shake his body.

"How can this be?"

At this moment, all the Zerg powerhouses lost their voices, unable to believe their eyes.

If a strong man like Xiaoyao Supreme resisted the attack of the Tianmu Insect King, they might still understand, after all, it was the existence that saved the entire human race, but a guy like Qin Chen, they had never heard of it before, why would they ...

Among the Zerg, the group of people who had previously followed the Zerg Emperor to kill the demon world were silent. They naturally saw that Qin Chen was powerful.

But in their hearts, there is still some longing, looking forward to their Tianmu Insect Emperor Ancestor to bring some harm to Qin Chen, after all, the Tianmu Insect Emperor Ancestor is the powerhouse who led their Zerg to become famous for an era in ancient times, there may be some unexpected surprises.

However, the result disappointed them.

boom!

In the endless black hole, Qin Chen looked indifferent, looking at the huge pupils in the sky.

With his current strength, even the ancestor of Yuanmo, who had surpassed the peak by half a step, could not easily kill him. He wanted to kill him even with the mere Tianmu Insect Emperor in front of him? It's too ridiculous.

Although the death ray was strong before, it couldn't cause him any damage at all.

"The Zerg used to be before? That's all." Qin Chen said indifferently.

When the words fell, Qin Chen snorted, his figure suddenly disappeared, and the huge black hole behind him shattered in an instant.

Qin Chen's entire figure turned into a dim light and disappeared into this vast and deep universe.

[Chapter 4997: show up](#)

When Qin Chen disappeared into this universe, everyone just felt a sudden flash of sword light in front of them, and then Qin Chen disappeared.

Many people widened their eyes and searched around, trying to find Qin Chen's trace.

These people are all strong people of various races, and even some other strong races who have heard of the destruction of the demon world and have come here because of their fame are all staring here in the distant universe at this time.

However, no matter how they searched, they couldn't find Qin Chen's shadow at all, and they couldn't feel Qin Chen's breath, as if Qin Chen suddenly disappeared in this universe. There are ordinary supreme masters, and top supreme powerhouses, and even a terrifying aura rises up in the twelve fortresses of the Zerg race, one after another terrifying consciousness swept all over the place, like a shock wave startle

Like a wave, it enveloped this side of the universe.

Under this kind of consciousness, even a speck of dust hidden in the vast void of the universe will be magnified clearly.

But the strange thing is that no matter how strong he is and how he searches, he can never see a trace of Qin Chen.

"Not good, the ancestors of the Tianmu Insect Emperor, fast back and withdraw the power back to the insect world!"

While the Zerg's twelve strong fortresses were searching for Qin Chen, the current Zerg Zerg Emperor hurriedly exclaimed and looked anxious.

He is well aware of Qin Chen's strength. The ancestor of the Tianmu Insect Emperor showed his magical power outside the insect world. This is definitely an extremely risky behavior. Once Qin Chen seizes the opportunity, it will cause irreparable damage. Terrible consequences.

"Hmph, what are you panicking about? This child is indeed capable, but in front of this seat, he can't be shocked by any waves."

On that day, the insect emperor suddenly snorted coldly: "No matter how he disappeared, as long as he is still in this universe, he can't escape the palm of the ancestor." Accompanied by the low and confident voice of the insect emperor, there was a boom. , I saw the pupil that was originally suspended in the sky above the insect world, suddenly shrank slightly, the next moment, from the pupil, an invisible force suddenly rippling

go out.

buzzing buzzing...

Suddenly, thousands of eyes appeared in the void within a radius of tens of thousands of miles around the huge pupil.

Each of these eyes is incomparably huge, like the sun, moon, and stars above the sky, floating between the heavens and the earth, and each pupil contains a unique way of regulation.

Thousands of rules and avenues circulate among these countless eyes.

The powerhouses who have reached the peak supreme level have long been extremely clear about the rules in this universe. At this time, the Heavenly Eyed Insect Emperor displayed his magical powers, and in an instant, hundreds of millions of avenues were evolved.

"Go!" Accompanied by the icy roar of the Heavenly Eyed Insect Emperor, the countless pupils burst into terrifying regular rays in an instant. Each of these regular rays contained extremely terrifying coercion, burst out, and instantly enveloped them. living in a million yuan

All the emptiness of thousands of miles.

Boom! Just heard the heart-pounding voice resounding between the heavens and the earth, the power of countless rules surging from the void, as if the monstrous sea water poured out from the sky and the earth, and every pupil was like a huge decision. embankment,

A terrifying power of rules spewed out.

At this moment.

Countless pupils are suspended in the sky, staring coldly at this world, as if a **** of gods appeared between the heavens and the earth, exerting his divine might, and inflicting terrible divine punishment on the world who violated the will of the gods.

This kind of feeling is really terrible. At this moment, whether it is the countless Zerg in the insect world or the powerhouses of the ten thousand races in the distance, they can't help but feel horrified, and goosebumps all over their bodies.

Seeing such a scene, the countless powerhouses present all gasped. They finally understood at this moment, why the Zerg Tianmu Insect King left such a great reputation in history, and was able to control the Zerg for an era, so that the Zerg always ranked in the top ten among the ten thousand races at that time, and there was no silk.

A drop of centimeters.

I have to say that such an attack is really too terrifying and too amazing. Under the gazes of countless pupils, the universe of hundreds of millions of miles in the void has been completely shrouded in the rules of the Heavenly Eyed Insect King.

It can be said that in the world covered by countless pupils, the Emperor Tianmu is the **** of this world, and can control all the rules and power.

Even if some ancient supreme-level powerhouses rushed in, they would only end up with their hands tied and bloodied.

boom!

Countless pupil light bursts, covering everything, in this pupil hundreds of millions of miles, everything cannot be covered, and his true shape must be revealed.

"Boy, show up."

The Heavenly Eyed Insect Emperor let out a roar, and the ray bursting out of the endless pupils immediately surged in all directions.

However, no matter how these rays of the torrent of the end of the world are stirred up, there is never Qin Chen's figure in this world, as if Qin Chen has completely disappeared in an instant, and does not exist in this world.

"Impossible?!" The Heavenly Eyed Insect Emperor showed a look of shock. He roared, and a terrifying force burst out from the countless pupils. The power that burst out from the

The hair is strong, and wherever it passes, the void of the universe has been corroded into gaps, forming an endless void.

However, Qin Chen's figure still did not appear.

"How can this be?"

Tianmu Insect Emperor is completely stunned at this moment. His big words have been released before, but who would have thought that even the figure of the other party could not be found. What kind of slap in the face is this?

"Senior Tianmu Insect Emperor, hurry back, or it will be too late."

At this time, the current insect emperor was completely in a hurry and couldn't help shouting.

Under the anxious voice of the Insect Emperor, Tianmu Insect Emperor also quietly had a hint of retreat, because he had never encountered such a thing before, had never seen anyone, and could completely disappear under his magical powers.

Inexplicably, there was also a sense of crisis in the heart of Tianmu Insect Emperor, as if he was testing on the edge of death.

Being able to live to this day, Tianmu Insect Sovereign is by no means a reckless generation. When such a sense of crisis emerged in his heart, he hardly hesitated to take back his power directly.

boom!

Immediately, between the heaven and the earth, the countless pupils began to fade slowly, gradually disappearing into the heaven and earth, the endless power, like the ebb tide, was about to retreat in an instant.

However, before he could withdraw his strength, a figure suddenly appeared behind the largest pupil.

"Your Excellency has shot so many times, isn't it a little rude not to let this young master make one shot?" Qin Chen said with a chuckle, and when the words fell, a mysterious rusty sword suddenly appeared in his hand, slamming towards the huge pupil. stabbed out.

[Chapter 4998: live sadly](#)

boom! The sword light in Qin Chen's hand seemed to have traversed the long river of time and space, and instantly slashed towards the huge pupil in front of him.

The Tianmu Insect Emperor was suddenly shocked, and hurriedly wanted to withdraw his magical power, but the sword light in Qin Chen's hand seemed to turn into a light, transcending time and space, and the time and space of this world stagnated in an instant.

puff! The sword light suddenly pierced through the largest pupil, pinning it firmly in the void.

"You" Tianmu Insect Emperor showed a look of horror, looking at Qin Chen in disbelief.

"Stop talking, just die."

Qin Chen's eyes were cold.

boom! A terrifying devouring force was born in Qin Chen's mysterious rusty sword, and a cold aura suddenly poured into the pupil, and through this huge pupil, it was directly transmitted to the emperor of the 12 fortresses below. on the fortress.

"Damn" Tianmu Insect Emperor screamed in anger, bang bang bang, an amazing force burst out in the fortress, and the force passed by Qin Chen blatantly confronted, with a bang, the entire worm world was stunned. Trembling violently.

"No, the ancestors of the Tianmu Insect Emperor are careful, quickly give up their Tianmu body and break their arms to survive." The Insect Emperor hurriedly shouted, and at the same time, he shouted at the other Zerg powerhouses: "Hold on."

hum! Above the sky of the worm world, a series of energies rose into the sky, firmly guarding the entire worm world and preventing Qin Chen's power from entering.

The Insect Emperor knows Qin Chen's strength well, and this is the existence that can fight with the ancestors of Yuanmo. As long as Qin Chen's power cannot enter the insect world, then the Tianmu Insect Emperor may be safe and sound, otherwise, it will be dangerous.

"Want to stop me?"

Qin Chen's pupils flickered coldly, and the power of the **** emperor totem in his body was instantly pushed to the extreme by him. At the same time, Qin Chen suddenly pushed the mysterious rusty sword.

"Senior Sword Demon, take action."

With a humming sound, a cold aura suddenly rose from the mysterious rust sword, and a half-step detachment power vaguely permeated the mysterious rust sword.

It is the power of the sword demon.

Sword Demon was a master of half-step detachment in ancient times, but was sealed in this mysterious rusty sword. Now, after devouring the souls of many strong men and the power of the Black Demon Ancestor Emperor, his cultivation is already fast. Recovery, at this time his power swept out, and immediately entered the Tianmu Insect Emperor Fortress in the insect world along the huge eye pupil magical power.

Boom boom boom! It can be seen to the naked eye that the entire worm world is agitated, and one after another terrifying sword energy continuously penetrates the void, bursting out like lightning, and with the power of half-step detachment, it slams into the fortress of the Tianmu Insect King.

With a bang, the incomparably huge fortress of the Heavenly Eyed Insect Emperor began to collapse in an instant, with a rumble, and a terrifying roar resounded. How powerful and terrifying is such a fortress?

This is almost equivalent to the emperor's body.

For hundreds of millions of years, Tianmu Insect Emperor has been living in this insect nest fortress, reducing his life fluctuations to a minimum and sealing his own power.

This is the top method of the Zerg, which can seal the strong.

If such a worm's nest fortress appeared in the outside world, it would definitely be a top-level supreme treasure.

But now, under Qin Chen's power, the fortress began to collapse in an instant, and countless cracks spread all over in an instant.

"Half-step detachment, how is it possible?"

The Heavenly Eyed Insect Emperor roared loudly, with panic in his voice.

At this time, he clearly felt that the power released from this mysterious rusty sword was extremely terrifying, and it contained a half-step detachment power that was above him.

"Sword Demon, it's an ancient sword demon, and you actually became this person's lackey."

Finally, Tianmu Insect Emperor felt the power of the sword demon in the mysterious rusty sword, and couldn't help but scream.

Sword Demon, the real top powerhouse in ancient times, who challenged ten thousand clans in the past, amazed an era, fighting the sky and the battlefield, and unexpectedly became a sharp blade in Qin Chen's hands.

How could he imagine that?

But the sword demon ignored him at all, and the sword lights slashed down with terrifying power.

"what!"

Under such a force, the Heavenly Eyed Insect Sovereign could not resist at all, and could only watch his physical fortress collapse little by little. At the same time, in the roar, the transmitted power was still spreading wildly, and even spread toward the surrounding worm nest.

boom! Centered on the worm's nest of the Tianmu Insect King, countless worm nests around it still collapsed, and countless locust-like zerg powerhouses were directly turned into powder under such sword energy, and vanished into ashes.

"Damn, at this rate, my entire worm world will collapse, the ancestors of the Tianmu worm emperor, I'm sorry."

The Insect Emperor looked at the Tianmu Insect Emperor, and there was a sudden flash of fierceness in his eyes.

hum! In an instant, the whole world of the insect world waved and wrapped the worm's nest fortress where the emperor of the sky was located. Excluded from the insect world.

"Mlikala, what are you doing?"

The Tianmu Insect Emperor screamed in anger: "Hurry up and stop."

Without the help of the entire insect world, how can he resist the power of Qin Chen?

"Mulikara, stop, you will kill the Emperor of the Eyes."

"Stop."

Among the remaining eleven ancient fortresses, there were also loud shouts.

However, the Insect Sovereign looked cold and stern without any hesitation.

"I'm sorry, seniors, I have already warned the ancestors of the Tianmu Insect Emperor, but he made an assertion and used his supernatural powers to fight against me outside the insect world. He had to be the enemy of Qin Chen, for the future of the insect world, for the sake of the insect world. My billions of Zerg lives, I can only do this."

The Insect Emperor gritted his teeth: "Unless you want to completely destroy my Insect World, or someone can block this person's attack."

silence.

The other eleven Zerg ancestors were silent.

At this time, they all felt the power of the sword demon blooming from the mysterious rust sword, which represented the power of a half-step transcendence-level powerhouse.

In front of such power, if they also act rashly, the end will definitely be exactly the same as that of the Tianmu Insect Emperor, and there will be no other possibility.

With a bang, under the watchful eyes of the public, I saw the worm nest fortress where the Tianmu worm emperor was located, and was forcibly excluded from this huge fortress formed by countless zerg worm nests.

boom! At this time, a terrifying sword energy was like a pillar, directly piercing this huge fortress between heaven and earth.

"Sadly, a dignified Zerg ancestor was abandoned by the younger generation. Your life is really sad."

Qin Chen said lightly.

[Chapter 4999: fish dead net](#)

"Mulikara, you traitor."

The Tianmu Insect Emperor made a shrill roar, then looked at Qin Chen, and shouted: "Boy, if you kill me, my Zerg will not let you go." "At this time, are you still threatening me?"

Even the ancient ancestors of the Zerg, I think you have lived on a dog at your age! "

Qin Chen was too lazy to talk nonsense, the power of the **** emperor's totem was directly activated, and with a bang, the sword light exploded, directly blasting the fortress where the Tianmu Insect Emperor was located.

"what!"

In the shrill screams, this ancient fortress collapsed directly, and an astonishing ancient peak supreme power dissipated, and the whole body of the Tianmu Insect Emperor suddenly disappeared.

With a bang, the universe of heaven appeared, showing the meaning of cheering, and between heaven and earth, the power of the amazing Dao law was surging.

Qin Chen looked up at the sky and suddenly realized something.

Understand why the universe will come to an end.

It is these guys who should have fallen long ago, who have been lingering on, unwilling to die, and constantly absorbing the origin of the universe, which has caused this universe to continue to weaken.

No matter how big or vast the universe is, there is always a limit to his source power, and there is also a limit to the powerhouse that can be born.

However, in the countless eras of the universe, in each era, top powerhouses will be born.

Originally, it was the truth between heaven and earth that all races compete for the front, fight for life and death, and the cycle of yin and yang.

When the strong fall, the origin returns to heaven and earth, and the origin of the universe grows, and when the origin of the universe becomes stronger, more strong people will naturally be born.

Generation after generation, this is reincarnation.

This is the way of heaven.

But for hundreds of millions of years, although there are countless powerhouses who have fallen, there are always some supreme powerhouses who have slipped through the net. They have stolen yin and yang, stolen years, banned themselves, and became immortal.

In this way, their origin will not return to heaven and earth.

This also led to the fact that the power of the origin of the universe was continuously absorbed after epochs, but could not be replenished.

In the end, it entered a reincarnation of the end times.

In fact, if these top powerhouses hadn't stolen yin and yang and took the power of the universe for themselves, the lifespan of this universe would definitely last much longer than it is now.

Boom! At this moment, the Heavenly Eyed Insect Emperor has fallen, the origin of this universe is cheering, the heavenly way emerges, and the heavens and the earth are roaring, as if they are celebrating.

Swish! The mysterious rusty sword flashed and returned to Qin Chen's hands. Qin Chen frowned slightly as he looked at the solid insect world below.

This Zerg is really cautious. In order to protect themselves, they directly abandoned one of their ancestors and ancestors. Otherwise, if Qin Chen was given a little more time, he would be able to directly enter the insect world and kill the Quartet.

"The so-called Tianmu Insect King, but this is the case. No wonder the Zerg has fallen so far, and can only become the lackey of the Demon Race."

Outside the worm world, Xiaoyao Supreme said indifferently, his eyes looked at the zerg below indifferently, and he was high above, with endless disdain: "Obviously, hand over the whole worm world, your zerg may still have a chance of life, otherwise, it is you here today. Zerg cemetery."

Xiaoyao Supreme snorted coldly, stepped out, and with a bang, the world outside the insect world trembled violently.

In the insect world, countless Zerg powerhouses looked at Xiaoyao Supreme and Qin Chen outside the insect world in horror, with despair in their eyes.

too strong.

That is the ancestor of the Tianmu Insect Emperor, the top patriarch who was in charge of the Zerg for an era. It can be said that in the hundreds of millions of years of the Zerg's history, the Tianmu Insect Emperor can definitely be ranked in the top 20.

But such a strong man disappeared like this, and was killed by Qin Chen in an instant. Moreover, the other party was only a rising star of the human race, not a strong man like Xiaoyao Supreme that has long been famous in the universe.

Such a scene made the countless strong people of the Zerg not be deeply affected.

Even the other eleven Zerg ancestors looked at Qin Chen in horror, and the waves rolled up in their hearts.

"Xiaoyao Supreme, do you have to kill them all?"

"Aren't you afraid that my Zerg fish will die and the net will break?"

The Insect Emperor roared, and the rainbows gathered on his body, covering the Insect World.

"The fish died and the net broke?"

Xiaoyao Supreme said indifferently: "You are wrong, your Zerg fish died, but my human race will not break the net."

boom! Xiaoyao Supreme pressed with his big hand, causing the entire insect world to vibrate violently, rumbling loudly.

A wave of power continued to be transmitted, causing the entire insect world to shake violently, as if it were about to collapse at any time.

"Block it."

The Insect King screamed in anger, and the rolling power in his body rose up, combined with the eleven Zerg ancestors and the masters of the entire Zerg to resist the suppression of Xiaoyao Supreme.

The power gathered by a top clan is as strong as Xiaoyao Supreme, and it can't be easily broken.

Not far away, Qin Chen saw this and narrowed his eyes slightly: "Senior Xiaoyao Supreme, I will help you."

In front of Qin Chen, the mysterious rust sword suddenly appeared, hum, the rust sword was agitated, and a breath of half-step detachment also permeated instantly. Around the rust sword, the endless void of the universe collapsed directly, and it could not bear this force at all.

"go with!"

Qin Chen's right hand turned into a sword finger. With a bang, the mysterious rust sword suddenly disappeared. The next moment, the mysterious rust sword suddenly appeared on the great formation of the insect world. The dark ancient sword turned into a sword pillar that reached the sky. Incomparably majestic, with a height of a million zhang, it fell down violently.

"not good."

The Insect King's face changed greatly.

I heard a bang, and the entire insect world shook in an instant. The large formation that was slashed by the mysterious rust sword immediately appeared one after another cracks, ka ka ka, countless cracks continued to spread, a terrifying force. Instantly entered the insect world, and passed it to the bodies of countless Zerg powerhouses below.

puff! Under a sword, at least hundreds of millions of Zerg warriors collapsed directly and turned into blood mist, but before Qin Chen could take action, more Zerg warriors emerged and quickly filled their positions.

hum! The Zerg barrier that was originally cracked was healing quickly.

"what!"

Qin Chen let out a surprised, swish sound, and appeared beside Xiaoyao Supreme, looking at the Zerg enchantment below in surprise.

"You see it too?"

Xiaoyao Supreme smiled and looked at Qin Chen.

Qin Chen nodded, frowning and said: "This Zerg barrier is actually constructed from countless worm nests, and countless worm nests can be combined with countless Zerg warriors, no wonder it is so powerful, even my sword, can't be broken."

It should be noted that ordinary large formations, such as the Demon Sealing Formation in the Demon Realm, at most use the origins of the continents from all over the Demon Realm to build a powerful formation, while the warriors of the Demon Realm are at most instilling their own origins into the formation. Among them, it is only to increase the power of the big formation.

[Chapter 5000: Gather sand into a tower](#)

But the big formation of the Zerg in front of him is different. The dense insect nests are equivalent to the formation eyes of the big formation. The countless insect nests have turned into countless formation eyes to form a terrifying formation.

It can be said that these countless Zerg warriors are part of the great formation, regardless of each other.

In this case, Qin Chen and the others want to break through the big formation, which is equivalent to being the enemy of all the Zerg warriors in the entire Zerg World.

Although many of the Zerg warriors in front of them are not very strong, they are even at the Saint level, and only a small number of them reach the Venerable level.

But the number of Zerg cannot be held up.

Hundreds of millions of Zerg gathered together, like gathering sand into a tower, gathering water into a sea, forming a terrifying force that even Qin Chen and Xiaoyao Supreme could not easily break.

Xiaoyao Supreme said with a chuckle: "You can see it. This is where the Zerg can rush to the top three on the list of ten thousand clans."

"A Zerg is not strong, it can be crushed at will, but the combination of warriors in a worm nest will be extremely terrifying." Supreme Xiaoyao sighed: "Different from other races, they all fight independently, at most Squads rely on each other. But the Zerg is different. In the battlefield of the ten thousand races, when the Zerg was dispatched, it was a group of millions, tens of millions of people.

, and even hundreds of millions of Zerg warriors launched an attack together, no matter how strong they were, they could not escape the bombardment of Zerg. "

Qin Chen nodded.

On the battlefield of the ten thousand races, he was not a strong man who had never seen the Zerg, and he even disguised his identity to subdue the Orah in the Zerg.

However, the Oirat tribe is only a small tribe in the Zerg tribe, otherwise, they can use the opponent to break through from the inside. Xiaoyao Supreme continued: "However, the Zerg's fighting method has advantages and disadvantages. The advantage is that it is extremely powerful together, but the

disadvantage is that it is not flexible enough. As long as there are strong people who can escape the salvo attack, they can directly implement the decapitation action.

When the leader of the tribe falls, the Zerg will be headless and into chaos. "

Qin Chen nodded again.

The way of fighting like the Zerg really needs a mother emperor to lead it.

Every attack needs to be extremely uniform. And once the leader of the clan falls, if there are other characters under the clan leader who can surpass other leaders, it will be fine, but if not, then the remaining second-level leaders will be in a panic, and no one will I don't care

who.

Eventually lead to the collapse of the entire tribe. Qin Chen stared at the great formation in front of him, and suddenly said lightly: "However, the strength of the group comes from the group, and in the cosmos, many times, it often needs to rely on the strength of individuals.

Nor can it be the most powerful group. "

Supreme Xiaoyao glanced at Qin Chen in surprise, and said with a smile: "You see it very thoroughly, indeed..." Supreme Xiaoyao turned to look at the Zerg, "The strength of the group is the group after all, and this is also the Zerg in this universe. For hundreds of millions of years, although it has entered the top three of the ten thousand race list, it has never become the first race like my human race.

reason. "

"The real powerhouse comes from his own strength, not from the group."

Xiaoyao Supreme finished his words, stepped out, bang, the breath of his half-step detachment from the peak became more and more surging, and his right hand suddenly pressed again.

boom!

The entire worm world vibrated violently, and the worm nests with a radius of only tens of thousands of miles could not bear this force at all, and collapsed directly.

At this time, Xiaoyao Supreme, with a towering body, like a god, exudes a strong and domineering arrogance and self-confidence.

Qin Chen glanced at Xiaoyao Supreme, he knew that Xiaoyao Supreme did have such confidence.

For example, the human race, under the oppression of the demon race, seemed to be unable to resist it, but at the critical moment, Xiaoyao Supreme appeared, turned the tide, resisted the ancestors of the ancient demon, and gave the human race a chance to breathe and develop.

In the end, I waited until my own arrival.

The power of the individual is small, but sometimes the power of the individual is infinite.

"Haha, cut!"

Qin Chen was also extremely arrogant, and suddenly activated the mysterious rust sword. In an instant, the mysterious rust sword turned into sword shadows one after another, slashing wildly on the Zerg Insect World.

The two powerhouses Qin Chen and Xiaoyao Supreme made a strong shot, and the huge barren tower instantly turned into a universe, which was suppressed fiercely. Press down.

Ka Ka Ka!

Wherever the sword light went, there was a cracking sound on the barrier where the insect world was located, and it was visible to the naked eye, one after another of tiny cracks slowly appeared.

Can't stop. If it was just Xiaoyao Supreme, with the strength of the entire Zerg clan, it might be able to resist, but after Qin Chen joined, the balance of the two sides immediately tilted, and including the sword demon, it was close to the three half-step transcendence. By

, the world where the insect world is located immediately ruptured.

"It must be blocked."

The Insect Emperor was shocked and roared. Behind him, twelve ancient insect nests were suspended together, the ancient insect nest fortress glowed, and countless powers quickly merged into the Insect Emperor's body, converging together.

Zerg's special magic.

boom!

At this moment, the Insect King, whose breath suppressed the ancients, gathered the power of the entire Zerg, his breath was infinitely improved, and the power of the endless people of the Zerg was integrated.

One side is destroying, the other side is repairing, the two forces are constantly colliding, and they have formed an extremely perfect balance.

"Ok?"

Qin Chen frowned slightly, but he didn't expect that the Zerg would be able to withstand this situation.

It should be noted that he and Xiaoyao Supreme are both top-level formation masters. The points they attacked are the weakest places in the entire insect world. It is unexpected that the Zerg can block them.

Sure enough, people are more powerful.

Destroying a family is not that simple.

However, when Xiaoyao Supreme on the side saw this, he smiled coldly and looked at Qin Chen: "Qin Chen, use the Magic Tree of Ten Thousand Realms."

The Magic Tree of Ten Thousand Realms?

Qin Chen was startled.

However, he didn't think much, and suddenly urged his chaotic world to release the Myriad Realms Demon Tree instantly.

boom! In an instant, an ancient tree that reached the sky appeared above everyone's heads. This ancient tree was majestic and towered into the sky. The countless powerhouses in the insect world looked up and saw a magnificent and simple tree that reached the sky, covering the sky. day, piercing the whole

the deepest part of the universe.

The whiskers surged rapidly, like tentacles, and stabbed into the great formation of the insect world.

Ka Ka Ka!

The entire worm world suddenly rumbled, and the enchantment was slowly shattering at a speed visible to the naked eye.

"not good."

The Insect Emperor's face changed greatly. He never expected that Qin Chen would actually display the Magic Tree of Ten Thousand Realms.

boom! Countless roots pierced into the worm world, and the entire worm world was shaking violently, and it collapsed little by little.
