

Valkyrie 5001

[Chapter 5001: call the ancestors](#)

Above the sky, Qin Chen also looked at this scene in shock.

He never imagined that the Myriad Realms Demon Tree would have such divine power, even more effective than his shot.

At this moment, the countless roots penetrated into the worm world, and the entire worm world could not be resisted at all. No matter how the worm emperor urges the power to repair the worm world, the rolling force will be absorbed and swallowed by the roots of the magic tree of all realms, as if in the Be nourished in general.

Simply divine.

Xiaoyao Supreme said with a smile: "Kid Qin Chen, the origin and extraordinary history of this Myriad Realm Demon Tree is an ancient divine tree that was born when the universe opened up. There are rumors that this tree was born with the birth of this universe. , There are also rumors that this Myriad Realm Devil Tree actually came from the sea of cosmos and is the treasure in the sea of cosmos."

Cosmic sea treasure?

Qin Chen frowned and looked at the Magic Tree of Ten Thousand Realms, but he didn't know there was such a rumor about the Demon Tree of Ten Thousand Realms.

Xiaoyao Supreme said: "These are just rumors, but no matter which one it is, there is a rumor that is certain."

Qin Chen looked at him and listened carefully.

"That is, the demon god, the founder of the devil world, was indeed the devil who realized the Tao under this tree, and the devil was founded. The reason why the devil world can be formed is because the devil **** used the power of this thing back then."

Supreme Xiaoyao looked up at the Demon Tree of Myriad Realms with a sigh of relief.

"This thing can create a world, and naturally it can also swallow the power of a world."

As Xiaoyao Supreme's voice fell, the entire insect world was already under the roots of the Myriad Realms Demon Tree and began to collapse little by little.

Countless worm nests that were originally under the defense of the Great Array now clearly appeared under the gazes of Qin Chen and Xiaoyao Supreme.

Xiaoyao Supreme smiled lightly: "If the Zerg don't play other cards, I'm afraid they won't be able to hold it."

The words fell, Xiaoyao Supreme waved his hand violently, the barren sky tower above his head was directly suppressed, and with a bang, the countless worm nests below began to collapse.

Without the protection of the Great Array of Insect Worlds, how can these worm nests resist the power of the Happy Supreme?

"Damn."

The Insect Emperor spit out a mouthful of blood, looking at the scene in front of him with anger and despair.

If Xiaoyao Supreme just destroys the countless groups of the Zerg like this, then his power will gradually be weakened, and eventually, the entire Zerg World will be completely wiped out.

Thinking of this, the Insect Emperor finally gritted his teeth, and his eyes became extremely ferocious.

"Call Ancestor!"

With the roar of the worm emperor, the eleven ancient worm nest fortresses were silent for a moment, and then, there was a loud shout: "Call the ancestors!"

"Call Ancestor!"

"Call Ancestor!"

In the worm nests, the sound of fierce roars was transmitted.

Boom boom boom boom boom! I saw that the eleven worm nest fortresses glowed together, and ancient runes and powers rose from them. These powers did not directly integrate into the body of the worm emperor as before, but directly converged into the worm world. above the sky.

The power of the countless groups of the entire Zerg were gathered by them, and beams of light rose into the sky in the originally riddled insect nests.

In the blink of an eye, a huge light curtain disc appeared in the entire sky, and the entire disc covered the entire insect world. On the light curtain disc, there were all kinds of strange runes. At the same time, one after another, ancient and ancient. A mysterious chant suddenly resounded from the heavens and the earth.

Boom! Suddenly, the entire worm world began to tremble, and a terrifying force escaped from the light curtain disc. This force did not attack Qin Chen and the others, but quickly penetrated into the depths of the worm world. some mysterious place.

boom! The mysterious void in the depths of the worm world suddenly trembled, and a terrifying breath was transmitted from the deepest part of the worm world. The next moment, a huge phantom slowly appeared in this world.

As soon as this phantom appeared, the void of the entire insect world began to tremble, unable to withstand this force at all.

Half-step detachment from the strong.

This phantom turned out to be a half-step detachment powerhouse, and it was also the leader in half-step detachment, otherwise it would not have released such a terrifying power.

In the distance, the powerhouses of the ten thousand races all sucked in the cold air.

They never thought that there was a powerhouse among the Zerg who had surpassed the peak by half a step.

Hidden very deep.

Qin Chen also looked at each other intently, but he did not expect that the Zerg would have such a means.

At this moment, this phantom exudes an incomparably ancient aura, and it is obviously not a person of this era at all.

"Hehe, I finally called my ancestors."

Xiaoyao Supreme smiled lightly, but it was not surprising at all.

"Ancestor."

Seeing the phantom, the insect emperor hurriedly saluted respectfully, and the remaining eleven worm nest fortresses also brought countless worm nest powerhouses to respect the phantom.

The phantom's face was dignified, looking at the Myriad Realms Demon Tree outside the Insect Realm, his pupils could not help shrinking slightly: "Myriad Realms Demon Tree?"

Then, his eyes fell on Xiaoyao Supreme and Qin Chen, and he frowned even more.

"What exactly is going on?"

The phantom said coldly, "Could it be that my Zerg is an enemy of both the Demon Race and the Human Race?"

He is the last resort of the Zerg. Once he is awakened, it obviously means that the Zerg has come to life and death.

The Insect Emperor hurriedly said: "Old Ancestor, this is how it is." A spiritual sense quickly entered the phantom, and the Insect Emperor Old Ancestor also learned the truth of the matter in an instant.

"I didn't expect such a strong person to appear in the human race."

The Zerg ancestor sighed and turned to look at Xiaoyao Supreme and Qin Chen, "You two, my Zerg has been defeated now, can I give the old man a face, and this matter has been revealed?"

In the future, my Zerg will no longer be enemies with the Terran, how about that? "

Qin Chen blinked his eyes and looked at Xiaoyao Supreme.

Can this be reconciled?

What is the brain of this Zerg ancestor?

Is your face too thick?

"Win the king or lose the bandit, the Zerg wants to live, but it can be exchanged for life."

Xiaoyao Supreme looked at the entire Zerg: "As long as all the strong people from the last era of the Zerg disperse their origins and return to the world, at the same time, the Zerg Emperor of this generation also apologizes for death, and the Zerg will become a subsidiary race of our human race in the future. , this seat can leave the Zerg a way to survive."

boom! The entire Zerg was agitated and furious.

All the powerhouses of the last era dissipated their origins, doesn't this mean that all the ancient powerhouses of the Zerg are going to die?

If even the worm emperor slaughtered himself, then the entire zerg might not even have a supreme master left.

The Zerg will drop from the top ten of the original list to at least one hundred.

No! If it is added that the Zerg is dependent on the human race, I am afraid that there will be no such a group as the Zerg in this universe.

"Insanity."

boom! On the Zerg ancestors, the terrifying murderous intention broke out in an instant, and the endless murderous aura instantly covered the sky and the sun, and rushed straight towards him.

[Chapter 5002: sacrifice array](#)

"Although your Excellency is a half-step detachment powerhouse, the half-step detachment born in the universe is not one or two. In the most glorious era of the year, the half-step detachment that died in the hands of this ancestor was not without it. It's the ancestor who brought the Zerg to the top three on the list of ten thousand races, do you really think that you are invincible?"

The Zerg ancestor rumblingly said, murderous.

In the era he was in, the powerhouses in the universe were like clouds, and he single-handedly brought the entire Zerg to the top three on the list of all races. What kind of brilliance was this?

In the most glorious period of the universe, there were not a lot of people who were half-step detached from powerhouses. Just from the human race, such as the sect master of Tianji sect, the swordsman of Tongtian sword pavilion, the ancestor of craftsman, etc...

In his era, ten thousand clans were competing for glory. As long as they were in the top ten of the ten thousand clans list, they were almost half a step away from their positions. How could it be comparable to the current era of the end of the law?

Xiaoyao Supreme smiled coldly: "It was then, now is now, and now there are only two paths in front of you, surrender, or die."

"Okay, very good, it seems that there is no negotiation."

"Sacrificial formation!"

The Zerg ancestor suddenly roared, and terrifying rainbow lights suddenly rose into the sky on his body.

Let the entire Zerg surrender, it is better to let him die, how can he accept it?

"Arrogant human kid, I want to see what your abilities are."

Along with the roar of the ancestors of the Zerg race, terrifying formations of light shot up into the sky, and quickly gathered into a huge disc of light between the heavens and the earth.

At the table, the rest of the Zerg powerhouses also sacrificed their power. As the terrifying power gathered in the disc light curtain, the runes around the disc light curtain suddenly vibrated violently, an extremely Terrible coercion swept down from the sky.

The world trembled!

Below, Qin Chen's expression became a little dignified!

This is a super formation that gathers the power of the entire Zerg powerhouse!

Although the Zerg ancestor was just a remnant soul, when he integrated into all the power of the entire Zerg World today, it immediately seemed to be truly resurrected from the ancient years, and an unprecedented terrifying murderous intention broke out.

"Hahaha, it's good to come."

Xiaoyao Supreme is not afraid, laughing, not retreating but advancing, and immediately stepped forward towards the Zerg ancestor, bang, hundreds of millions of rays of light erupted from the barren sky tower above, facing the Zerg's head. The formation method severely suppressed the past.

bang.

In an instant, the two forces collided together, visible to the naked eye, the surrounding heaven and earth exploded directly, a terrifying force swept away, and everything in the void of hundreds of millions of miles was instantly destroyed and turned into powder.

fear!

Many cosmos powerhouses in the distance looked at this scene, and all of them showed fear in their eyes. This kind of power is really terrible, even if the supreme-level masters are mixed into it, they will be annihilated in an instant.

Supreme, can't even interfere in it.

At this moment, after the huge explosion, Xiaoyao Supreme was instantly shaken back thousands of miles.

"It's amazing, it's worthy of being the ancestor of the former Zerg."

Xiaoyao Supreme smiled, his body swayed, and a terrifying halo instantly surged on his body, which was the power of his martial soul.

The Sovereign of Xiaoyao ascended to the heaven from a place called Profound Sky Continent. In that continent, the most unique means is the martial spirit, and Sovereign of Xiaoyao is the most heaven-defying three-born martial spirit powerhouse on that continent. .

hum!

A khaki light rose up.

This is the earth martial spirit, representing the heavy heaven and earth.

Then, another green halo rose up.

This is the life spirit, which can give endless healing.

The power of two martial souls enveloped Xiaoyao Supreme, causing the aura on Xiaoyao Supreme to skyrocket in an instant.

"Destroy!"

Xiaoyao Supreme drank coldly, stretched out his big hand, banged, and in an instant, a torrent swept out one after another, turning into a long river, rushing out.

On the other side, the ancestor of the Zerg race also had a solemn expression on his face. He took a step forward, his body instantly merged with the light curtain disc, and his big hand grabbed it directly.

tear.

The void was directly annihilated under his capture.

Tough!

At his level, even the supreme rules of the universe can't restrain them, there is no need to practice moves or anything, relying on the pure power of the Dao.

boom!

The two forces were madly against each other.

Ka Ka Ka!

I saw the light curtain disc above the head of the ancestor of the Zerg race, trembling constantly, and it started to crack.

The ancestor of the Zerg suddenly exclaimed in shock: "What?"

His power was actually unable to resist the power of Xiaoyao Supreme.

Xiaoyao Supreme said coldly: "The ancestor of the Zerg, now, it is not your era. You brought the Zerg to the top three on the list of ten thousand races, but you know that in this era of the end of the law, I brought the human race to the list of ten thousand races. First, what qualifications do you have to compare with me?"

"Hmph, don't be arrogant, this is just the beginning, see how I send you on the road."

The ancestor of the Zerg said, his voice was domineering, full of supreme power, and suddenly most people wanted to kneel down, only to feel that their hearts were about to burst.

"Ancestor of the Zerg, do you really think of yourself as detached?" Xiaoyao Supreme sneered, and took the initiative again, pressing it out with one hand, turning it into a grinding disc that covered the sky and suppressing the ancestors of the Zerg.

An ancient rune emerges on this millstone, surpassing the height of the rules, as if revealing the true meaning of heaven and earth.

Those supreme masters suddenly widened their eyes and looked carefully. This was a half-step detachment peak powerhouse showing up to cast spells. If they found a way, they might be able to open the door to detachment.

The detached powerhouse transcends the rules of the universe, but it does not mean that he cannot use the rules.

The Zerg ancestor was naturally not afraid, and waved his fists to meet him.

boom! boom! boom!

Two half-step detachment powerhouses go to war, this is terrible, the universe is torn apart, as if the end of the wild is coming.

And when they fought, the origin of the universe also gathered, forming a terrifying thunderbolt. These thunderbolts were extremely terrifying, and they quickly gathered, bang bang bang, and they were severely suppressed against the two.

The universe can't tolerate such a strong man running wild in this world.

Half-step detachment is a powerhouse that can really destroy this world. If he appears, he will be targeted by the universe, and if he takes a fight, he will be strongly counterattacked by the universe.

But now the two powerhouses are ignoring them and just fighting with all their might.

Boom boom boom.

In the insect world, one after another terrifying power rises, constantly integrating into the body of the ancestor of the insect race, providing him with energy.

The two sides fought against each other, and they were evenly matched for a while.

On the side, Qin Chen looked at it carefully. He could see that in terms of strength, Xiaoyao Supreme was actually above the Zerg ancestor. No matter how strong the Zerg ancestor was, it was only a remnant of the soul. Unite the power of the entire insect world.

This is equivalent to Xiaoyao Supreme fighting against the entire Zerg with the power of one person.

Aside, Qin Chen looked at him, and suddenly his figure swayed and disappeared.

[Chapter 5003: catch you](#)

Swish! Qin Chen's figure suddenly appeared in front of the Zerg ancestor, and a sword was instantly cut out.

boom! Countless sword qi between heaven and earth quickly gathered, visible to the naked eye, sword qi lingered in the entire universe starry sky, and finally gathered in front of Qin Chen, and instantly slashed at the Zerg ancestor.

"Ancestor be careful."

Seeing this, the Insect Emperor changed color and said.

"Hmph, it's just a little human boy, who is also running wild in front of this ancestor, is there no one in your human race?"

When the Zerg ancestor saw Qin Chen's shot, his face couldn't help but sank, but he was not surprised at all.

In his opinion, what kind of waves can Qin Chen make at such a young age?

hum! I saw the countless forces on the disc light curtain gathered, and instantly turned into a huge beam of light and blasted towards Qin Chen in an instant.

In the face of such an attack, Qin Chen sneered, but he didn't dodge or evade, an invisible armor appeared on his body, and the mysterious rusty sword in his hand smashed down.

With a loud bang, the mysterious rusty sword in Qin Chen's hand slashed **** the disc light curtain in front of the Zerg ancestors. He heard a click, and the disc light curtain shook violently, and a terrifying force rushed away instantly. , the terrifying disc light curtain could not stop this power, causing it to rush into the body of the Zerg ancestor.

At the same time, the attack released by the ancestors of the Zerg race had also come to Qin Chen, and with a bang, Qin Chen was instantly engulfed in it.

boom! The next moment, a sword light flashed, the attack that engulfed Qin Chen was instantly split in half, and a figure flew out of it.

It was Qin Chen.

At this time, the power of the **** emperor totem surged on Qin Chen's body, and all the power was isolated from the **** emperor totem, and the whole person was unscathed.

On the other hand, the ancestor of the Zerg race was not so lucky. The ancestor of the Zerg race, who had already parried the attack of Xiaoyao Supreme, was attacked by Qin Chen. He immediately groaned, and the whole person flew out backwards. After retreating for thousands of miles, he stabilized his figure. With a bang, the void behind him trembled violently, and the entire insect world rumbled under this blow.

A burst of pain came, and he looked down at his arm. At this moment, a crack appeared on his arm.

"how is this possible?"

The Zerg ancestor was horrified. A guy who was half a step detached could actually hurt him?

On the contrary, the other party was unharmed?

Heck.

"Ancestor, be careful, this son is the latest rising arrogance of the human race. Even the ancestors of the demons, Yuanmo, could not easily kill him. The destruction of the demons this time has a great relationship with this person."

The Insect Emperor hurriedly reminded.

"what?"

The Zerg ancestor looked at Qin Chen in shock. With his cultivation, he could see Qin Chen's age in an instant, and he couldn't help but be surprised.

Such a young peak powerhouse, what happened to this world?

Swish! At this time, Qin Chen's figure flickered, and he appeared directly beside Xiaoyao Supreme, indifferently said: "Senior Xiaoyao Supreme, I will help you."

"Okay, let's fight quickly, I'll entangle him, and you can break through this worm world."

Xiaoyao Supreme nodded to Qin Chen, and immediately he stepped out, slammed the barren tower, boom, and saw the barren tower quickly become majestic, between heaven and earth, one after another simple and vast runes rose up, these The runes, each of which has the power to suppress a world, come together at this moment, and immediately make the barren tower burst out with the breath of suppressing the ages.

boom! The huge pagoda slammed down, as if the sky had broken its spine.

With such a hit, the entire Insect World would be instantly crushed, collapsed and shattered.

The expression of the ancestor of the Zerg changed greatly, and he could no longer care about other things. He raised his hands high and shouted angrily: "Open!"

boom! The two huge arms instantly withstood the huge pagoda. Below him, countless masters of the insect world urged the insect nests. In the roar, terrifying power burst out from the countless insect nests, and instantly poured into the Zerg old man. in the body of the ancestor.

Today's Zerg ancestors are just a soul-splitting process. Without the blessings of the entire Zerg World, how could they resist the attack of Xiaoyao Supreme, a half-step transcendence peak powerhouse?

When the two were at a stalemate, Qin Chen swayed and swept to the insect world below.

"Damn, stop him."

The ancestor of the Zerg roared, and with a bang, in the insect world, some insect nests immediately turned their direction, and countless rays of light gathered together and shot at Qin Chen.

"The source of time."

Qin Chen immediately activated the source of time, and with a buzzing sound, the flow of time between the heavens and the earth suddenly slowed down, and everything around seemed to freeze. Taking this opportunity, Qin Chen swayed and instantly appeared in the Zerg. In front of the ancestors.

"cut!"

boom! The mysterious rust sword slashed on the Zerg ancestor, and the Zerg ancestor was instantly blasted out with the amazing explosion.

Without waiting for him to stabilize his body, Xiaoyao Supreme seized the opportunity, he urged the barren tower, bang, the huge barren tower smashed down, the face of the ancestor of the Zerg changed, and he hurriedly put his hands on the top of his head while flying upside down. With a bang, his figure was shaken again, and the violent force made his remnant soul tremble violently.

puff! A mouthful of blood spit out from his mouth, and he was hit hard.

Damn.

The face of the ancestor of the Zerg instantly became extremely ugly: "The two of you should join forces to fight against me, it's too despicable."

"mean?"

Qin Chen stopped and said coldly: "Your Excellency unites the power of all the powerhouses in the insect world, isn't it despicable?"

Besides, what morality is there to deal with a person like Your Excellency? "

As soon as the voice fell, Qin Chen swayed and disappeared again.

"not good."

The Zerg ancestor was shocked. At this moment, he actually lost Qin Chen's trace, and at this time, Xiaoyao Supreme did not give the Zerg ancestor a chance at all, and the Desolate Sky Tower fell down again.

"Fuck!"

The Zerg ancestor was so angry that he was about to curse.

This is so bullying.

He didn't care about anything else, and hurriedly put his hands on the top of his head.

With a loud bang, a huge force was suppressed, and the Zerg ancestor's figure was quickly suppressed, and he clenched his teeth to resist.

At this time, a sharp sword energy flashed behind him, and a strong sense of crisis struck. The Zerg ancestor hurriedly turned around, hum, two strange runes suddenly appeared in his pupils. The composition of insects makes people feel creepy for a moment.

boom! Countless insects gushed out quickly, and instantly enveloped the terrifying sword aura.

These Zerg are not real creatures, but a half-step transcendence in the body of the ancestors of the Zerg.

"Hmph, boy, I finally caught you."

The ancestors of the Zerg know that this is not the way to go, so they deliberately exposed flaws and let Qin Chen take action on them.

However, the smile on his face hadn't fallen yet, but it instantly solidified.

Because what he was trapped in was only the mysterious rusty sword, Qin Chen had completely disappeared.

[Chapter 5004: closed](#)

At this moment, above the mysterious rusty sword, a faint shadow appeared, and it was the sword demon who was urging this thing.

What about the kid?

The Zerg ancestor was startled.

"not good!"

He was suddenly shocked, and before the thoughts in his mind fell, a strong sense of crisis suddenly came from behind him.

He hurriedly turned around to resist, but it was too late, he could only watch as a palm slammed into his chest.

boom! In an instant, a terrifying force that seemed to destroy the world rushed into the body of the Zerg ancestor.

The ancestor of the Zerg was instantly terrified. If he could not block Qin Chen's attack, he would definitely be taken advantage of by Xiaoyao Supreme. At this moment, he could not care about anything else and directly motivated his core source soul power. , a powerful soul force burst out in an instant.

boom! The two forces were madly confronting each other, and the power of the soul of the ancestor of the Zerg instantly penetrated Qin Chen's attack and came directly to Qin Chen's mind.

"Stinky boy, no matter how strong your strength is, your soul is nothing more than a peak, how can you fight against a powerhouse like me who is half a step beyond the peak?"

Even if this ancestor is just a soul split, it is enough to kill your soul realm. "

The Zerg ancestor roared, and along with his roar, his soul power swept directly towards Qin Chen's soul realm like a vast ocean.

boom! Qin Chen's soul realm was instantly rolled up by stormy waves.

"Yes?"

Seeing that the soul of the ancestor of the Zerg race entered his soul realm, Qin Chen was not surprised, but showed a sneer.

"Beyond the source."

He said coldly, as his voice fell, a black source instantly rose up in Qin Chen's mind. As soon as this black source appeared, a suffocating detachment breath instantly covered Qin Chen's entire soul realm.

This detached aura carried a palpitating cold power, which instantly wrapped the soul-splitting power of the Zerg ancestor, and began to quickly devour the power of the Zerg ancestor's soul-splitting.

"How is this power beyond the source, how is it possible for you, a small peak supreme, to have the power beyond the source in your body?"

The Zerg ancestor looked sluggish and looked extremely frightened.

He has already felt that the source of transcendence in Qin Chen's soul realm is a real transcendence force, far superior to his divine soul. Just a breath makes his divine soul tremble.

It's just, how could this kid have the power of transcendence in his body?

At this moment, the ancestor of the Zerg race was completely terrified, and in the panic, he controlled this split soul and hurriedly retreated to leave Qin Chen's soul realm.

Can't afford it, can't afford it at all.

"Want to go?"

Qin Chen sneered when he saw it, he came as he wanted, and left as he wanted. What did he take his soul realm to be?

Kiln?

Qin Chen immediately stimulated the detachment origin in his mind, with a buzzing sound, the endless breath instantly enveloped the entire soul realm, and with a bang, the soul of the ancestor of the Zerg slammed into Qin Chen's soul overseas, the void. , immediately hit dizzy.

The next moment, this transcendence of origin instantly enveloped the division of the soul of the Zerg ancestor, and began to forcibly refine the division of the soul of the ancestor of the Zerg.

"what!"

This soul-splitting power of the Zerg ancestor immediately made a shrill scream, trying to escape Qin Chen's refining.

However, no matter how strong the Zerg ancestor is, even if he is a half-step detachment peak powerhouse, he is not a real detachment powerhouse. How can he resist Qin Chen's refining.

In an instant, the power of the soul-splitting power of the Zerg ancestor was instantly swallowed and refined by Qin Chen.

boom! The aura in Qin Chen's soul realm soared in an instant. After devouring the soul-splitting power of the Zerg ancestors, Qin Chen's soul power was greatly nourished, and a breath of half-step detachment faintly emanated.

The Black Demon Ancestor Emperor is the detached powerhouse of the dark family. Although his origin was penetrated into Qin Chen's body by the mysterious powerhouse of the virtual sea, Qin Chen could not directly refine it. After all, the other party was a detached powerhouse from overseas. .

On the contrary, the power of the Zerg ancestor, a half-step beyond the peak powerhouse, can be directly swallowed by Qin Chen and become his own power.

In an instant, a terrible aura erupted from Qin Chen's body, one step closer to half-step detachment. outside world.

puff! After being swallowed by Qin Chen, the Zerg ancestor immediately spit out a mouthful of blood, and with a bang, there were cracks in his body, and his breath weakened in an instant.

As the ancestor of the ancient times, what he left behind was only a divine soul. Now that the divine soul has been injured, his breath has naturally diminished greatly.

"Ancestor."

The countless powerhouses in the insect world below saw this scene, and they all looked horrified and panicked.

Just not waiting for their anger to fall, Xiaoyao Supreme has already stepped out, and with a bang, he controlled the barren tower to directly suppress the ancestors of the insect world, and at the same time, Xiaoyao Supreme body A dark martial soul aura rose. stand up.

It is the strongest devouring spirit among his three major spirits.

"Kid Qin Chen, I fished out this Zerg ancestor. I didn't expect you to absorb the opponent's power before me. It's too cheap, right?"

Xiaoyao Supreme said speechlessly, and immediately activated his devouring martial soul, a terrifying devouring power instantly enveloped the Zerg ancestor and began to devour his power.

"what!"

The ancestor of the Zerg roared in anger, his expression terrified.

His dignified Zerg ancestor was actually treated as fish and meat, and let others slaughter, how could he not be angry?

He hurriedly mobilized the power of the entire insect world to break free from the shackles and devour of Xiaoyao Supreme, but before he could succeed, Qin Chen attacked again, a sword slashed on his body, and his soul trembled, and he almost lost his soul.

Originally, the ancestor of the Zerg race was already struggling under the power of Xiaoyao Supreme. Now Qin Chen joined the battle and immediately made him unable to defend.

"You, despicable!"

The Zerg ancestor roared.

mean?

Qin Chen sneered, but ignored the other party and continued to activate the power of the Nine Heavens God Emperor totem. The power of the God Emperor totem combined with the power of the sword demon, like a sharp blade, penetrated into the body of the ancestor of the Zerg race.

puff! The Zerg ancestor suddenly spurted out a mouthful of blood, and with a bang, his body collapsed directly.

If this person was in his prime, he might be able to fight against Qin Chen with the power of the entire insect world. Now that there is only one soul left, how can he resist the alliance between Qin Chen and Xiaoyao Supreme?

"Fen the world, listen to my orders, from now on, the Zerg will seal the world, and you will never be born without a half-step detachment!"

The ancestor of the insect race made a shrill roar. He knew that if this continued, the entire insect world would definitely disappear. He immediately gritted his teeth, and at the same time, the aura on his body fluctuated violently in an instant.

He actually blew himself up in an instant.

boom! A terrifying half-step detachment from the source of the peak exploded in an instant, rushing towards Qin Chen and Xiaoyao Supreme.

Fight the enemy with death.

[Chapter 5005: let him go](#)

boom!

A violent explosion resounded throughout the insect world, engulfing Qin Chen and Xiaoyao Supreme in an instant.

How terrible is it for a powerhouse who has surpassed the peak in half a step to blow himself up? It is simply unimaginable that this force swept away at this time, and the entire world collapsed directly.

At this moment, countless powerhouses in the distance felt this kind of power, and they were all shocked and inexplicable.

Such a force swept away, as if it had suppressed the eternity, and swept the eight wastes. Even if they were separated by hundreds of millions of miles, it was still difficult to breathe, and the soul trembled.

"This worm world ancestor is so decisive, willing to blow himself up?"

"For the sake of the ethnic group, directly self-destruct, ruthless, really ruthless?"

"It's no wonder that this person can become the strongest ancestor of the Zerg in that era, leading the Zerg to the top three positions on the list of tens of thousands of tribes."

Feeling such a force, many strong people changed color, and they all sighed with emotion and looked horrified.

Self-destruction of the origin is equivalent to suicide. No one else dared to do such a move easily, but the Zerg ancestor did it, and there was still no hesitation. How can people not be alarmed?

boom!

In the terrifying explosion, endless power swept across the entire insect world. From all over the insect world, a series of forces rose up one after another. These forces quickly merged with this universe. At the same time, the insect world's The breath began to slowly dissipate in everyone's perception.

It's as if the insect world is going to disappear in this universe.

Seal the boundaries.

Everyone was silent.

Such a word is not unfamiliar to the powerhouses of all races in the universe. The so-called sealing the realm is to hide the entire realm from this universe. Once it is hidden, it will not be able to draw too much energy from the universe. Only basic survival can be maintained.

That is to say, once the realm is sealed, the total amount of origin in the entire ethnic realm can only maintain one amount at most, and cannot expand.

This means that this group will inevitably decline slowly.

It can be said that the closure of an ethnic group represents chronic suicide, gradually disappearing from this universe.

Unless, the insect world can produce another power.

The Zerg ancestor obviously made this plan. He exploded his body, and naturally there will be his origin remaining in the insect world. With the energy left by the Zerg ancestor, if there is an unparalleled genius in the insect world, he may not be able to understand the Zerg elder in the future. The power of the ancestors, so that they can break through.

"Blow yourself up in exchange for a future for the group. From this aspect, this Zerg ancestor is indeed extraordinary and a hero."

Some strong people sigh.

No matter what the Zerg ancestor did, his current move alone is enough to be admired by everyone.

Just then, a sneer sounded suddenly.

"Self-exploding the origin, and wanting to regenerate the ethnic group from the ashes? Your thoughts are too simple."

boom!

Between the heavens and the earth, the Myriad Realms Demon Tree suddenly waved its branches and leaves. The branches and leaves in the sky came quickly like vines, and quickly got stuck in the fluctuations of the explosion. Then, the figures of Xiaoyao Supreme and Qin Chen slowly disappeared in the explosion. appear.

I saw the barren sky tower above the head of Xiaoyao Supreme, the palm devoured the martial soul, and the powerful devouring power madly swallowed the terrifying energy of the Zerg ancestors self-exploded, while Qin Chen controlled the Myriad Realms Demon Tree, the root of the Myriad Realms Demon Tree. Like a net of heaven and earth, covering the sky and the earth, the terrifying energy that the Zerg ancestors exploded themselves could not break free from Qin Chen's shackles.

boom!

Qin Chen's terrifying aura rose, and a half-step detachment-like aura became stronger and stronger.

Great tonic.

I have to say that the origin of this Zerg ancestor is extremely powerful. For Qin Chen, his origin is the most necessary power now.

And after Xiaoyao Supreme also swallowed this power, the breath on his body became stronger and stronger.

The aura swept by the original Zerg ancestor's self-destruction was swept away under the swallowing of the two, and they were all swallowed up.

Such a scene simply stared at the others around him.

This is so special, the goose has plucked its hair.

"call!"

Qin Chen let out a long sigh, the breath on his body became stronger and stronger, hum, the mysterious rust sword appeared in his hand, bursting with terrifying aura.

After a battle, Qin Chen's aura was violently slashed again, and then Qin Chen turned to look at the insect world.

In the worm world below, the worm emperor brought countless strong men from the worm world to see such a scene.

Is this the energy of the ancestor's self-destruction? Such a force is for the birth of a half-step detached powerhouse in the insect world in the future, leading their Zerg to glory again.

But now they have been swallowed up by Qin Chen and Xiaoyao Supreme, leaving them only some scum, making them so depressed that they are about to vomit blood.

"My Zerg, I will come back one day."

The Insect Emperor said in a cold voice, with a murderous aura.

"Hmph, this Zerg still wants to seal the world?"

Qin Chen sneered, a cold light flashed in his pupils, and with a clanging sound, a sword sounded, Qin Chen suddenly mysteriously rusted his sword.

In the sound of "clang", just at this moment, the breath of half-step detachment rose into the sky, and the breath of half-step detachment spewed out in the nine heavens and ten places in this moment,

sweeping the eight wastelands, right here For a moment, it seemed as if there was an unparalleled powerhouse approaching.

After devouring the power of the Zerg ancestors, Qin Chen has been able to fully display the power of the mysterious rust sword.

Everyone looked at it and saw that the mysterious rusty sword in Qin Chen's hand was swallowing a very dazzling black light.

Feeling the majestic and energetic power of detachment, many of the powerhouses present took a sigh of relief, because in this sword, everyone vaguely seemed to see a powerhouse of detachment coming, and the dragon traveled the world. .

"What a lot of detachment power." Feeling such a power of detachment, some strong people looked at Qin Chen in surprise, and said in shock, "How far has this child's strength reached?"

With the sound of "clang", Qin Chen mobilized the mysterious rust sword and slammed into the insect world below.

boom!

A sword energy that seemed to be able to split the universe shook, and the entire worm world trembled violently. At the same time, the void of the universe also trembled violently, as if it was about to collapse under Qin Chen's sword. .

Qin Chen had a feeling that not only would the worm world be destroyed, but also the surrounding cosmos with a radius of hundreds of millions of miles.

"Stop."

At this moment, a voice sounded, and it was Xiaoyao Supreme who came to Qin Chen's side and pressed slightly towards the mysterious rust sword in Qin Chen's hand, otherwise he would continue to shoot.

Xiaoyao Supreme looked at Qin Chen and said indifferently: "The sealing of the world means that it is completely integrated into the universe and no longer absorbs power from the origin of the universe. That is to say, if you force a shot, you can certainly smash the insect world, but this universe Heaven and earth will also suffer huge trauma, and the heaven and earth that the Zerg have nurtured for hundreds of millions of years will collapse with your attack, causing heavy damage to the origin of the universe."

[Chapter 5006: Heavenly Origin](#)

Qin Chen was silent.

No wonder this Zerg ancestor dared to blow himself up so directly and let the Zerg world seal the world.

It turned out that Fengjie was completely integrated with this universe. If you forcibly destroyed the insect world, it would be tantamount to severely damaging the origin of the universe.

And now the origin of the universe has not gone through too much damage.

Fortunately, the self-destruction of the previous Zerg ancestors also restored a lot of the origin of the universe.

"Then do we just let this insect world survive?" Qin Chen frowned and looked at Xiaoyao Supreme. Xiaoyao Supreme looked at the gradually disappearing insect world and smiled, and said if he pointed: "Sometimes, people don't know that when a crisis comes, many times they do everything like an ostrich burying its head in in the sand

, instead, they are cocooning themselves and letting the other side slaughter them! "

"What do you mean?" Qin Chen frowned, Xiaoyao Supreme seemed to mean something.

"Come on, there's nothing to stay here."

Xiaoyao Supreme did not answer, turned and left.

Qin Chen glanced at the gradually disappearing insect world, and immediately turned and left.

Now that the insect world has been sealed off, and attacking the insect world is equivalent to attacking the origin of the universe, it naturally has no meaning to attack.

Boom!

Xiaoyao Supreme tore the void, and a vast river emerged, and Xiaoyao Supreme stepped into it in one step.

It is a long river of space. Through the long river of space, one can travel through time and space and reach other places in a very short time.

Seeing this, Qin Chen walked straight into the long river of space. At the same time, he looked around curiously. It was the first time that Qin Chen entered the long river of space.

boom!

When Qin Chen observed the surroundings, the forces of the terrifying long river of space washed over him instantly.

Such a force is extremely terrifying, like a sharp blade with a handle, constantly cutting Qin Chen's body, even with Qin Chen's current strength, he can feel a trace of resistance.

What a powerful space force!

Qin Chen darkly changed color.

It should be noted that the Space Changhe cannot be easily escaped by the supreme-level masters, so only the powerhouses like Qin Chen and Xiaoyao Supreme can swim in the heaven and earth like the Space Changhe.

"This long river of space is connected to the heavens and regions of this universe. You only need to feel it with your heart, and you can feel the countless locations in this universe." Xiaoyao Supreme explained.

Qin Chen was about to release his consciousness, bang, in an instant, Qin Chen felt a lot of information passed from the long river, and the information that represented each spatial location was transmitted, causing Qin Chen to change color slightly.

In this long river of space, a drop of water may represent a realm, and through the power of these spaces, one can enter any world in the universe.

Boom!

Xiaoyao Supreme led the way in front, Qin Chen followed behind, and the two flew quickly in the long river of space.

After just flying for a while, Qin Chen's brows were slightly wrinkled: "Senior Xiaoyao Supreme, this doesn't seem to be the direction of the Bone Race and the Ghost Race?"

He thought that Xiaoyao Supreme would take him to the other two clans such as the Bone Clan or the Ghost Clan, but now it seems that they are not like two clans at all. Xiaoyao Supreme smiled and said: "We are indeed not the Bone Clan and the Ghost Clan. If I guessed correctly, from the moment the Bone Clan and the Ghost Clan sealed the world in the insect world, I am afraid that the world has already been sealed, and the past is also in vain. , and we are now Huiren League City.

"

"Human League City?"

"Yes, it's time for this universe to change the order again."

Xiaoyao Supreme squinted his eyes and said.

Boom!

The two kept shuttling in the long river of space, and it was unknown how long it took before Xiaoyao Supreme suddenly raised his head, "Here it is."

Xiaoyao Supreme directly tore the void and stepped out, and Qin Chen also followed.

What appeared in front of Qin Chen was a vast void for a year, and a magnificent continent appeared in front of Qin Chen. It was the most important city in the Human Race Council, the Human League City.

The Human League City is the core of the Human Race Parliament, and it is also the most important place for all races in the Human Race Alliance to hold meetings.

"I have seen Master Xiaoyao Supreme."

Seeing Xiaoyao Supreme, many of the powerhouses guarding the scene all changed color and saluted. Since Xiaoyao Supreme defeated the ancestor god, he has been the leader of the Human Race Alliance, and at the same time, they also saw Qin Chen on the side.

"I have seen Lord Qin Chen."

These people also hurriedly bowed.

What happened in the Demon Realm and the Insect Realm had already come to this place for the first time, and now Qin Chen seems to be the second person in the human race after Xiaoyao Supreme.

"No gift, pass my order, the ten thousand tribes under the human race, as well as many powerful people of the human race, immediately come to the Human Race Council to discuss."

Xiaoyao Supreme command said.

"Yes!"

These people hurriedly saluted.

"What about the ethnic groups under the Demon Alliance?"

"Back to Xiaoyao Supreme, the Bone Race and the Ghost Race have already sealed the world. As for other ethnic groups, those who can seal the world have also sealed the world, and those who can't seal the world, Chaos Supreme and Divine Artwork Supreme, they have already gone to battle."

Immediately, the supreme descended, the strong man who stayed behind in the alliance city, and hurriedly reported.

"Very good, let Divine Work Supreme and the others go back to the Alliance City after they are finished."

"Yes."

The human race powerhouse salutes again.

"Qin Chen, let's go."

The voice fell, and Xiaoyao Supreme took Qin Chen away again.

boom!

The two shuttled through the long river of space again, this time, they came to another place after only a moment.

"skyline?"

Seeing the heaven in front of him, Qin Chen was stunned. What did Xiaoyao Supreme bring himself to the heaven?

"Do you know how this heavenly realm came into being?" Supreme Xiaoyao said with some emotion as he looked at the heavenly realm in front of him.

"This..."

Qin Chen was a little puzzled, how did the heavenly realm form?

How could Xiaoyao Supreme ask this question.

As far as he knew, the heaven was once the place where all races in the lower world ascended, and later became the base camp of the human race.

In this way, it is naturally made by the ancient powerhouses of the human race. Is there any other hidden secret?

"You can ask the guys in your body." Supreme Xiaoyao said with a smile.

Inside guy?

boom!

In Qin Chen's body, several people from Honghuang Ancestral Dragon appeared instantly.

"I have seen Senior Xiaoyao Supreme."

As soon as Chen Sisi and Shangguan Wan'er appeared, they bowed slightly.

"You're welcome." Supreme Xiaoyao glanced at Chen Sisi and Shangguan Wan'er, and said with a smile, "A talented man and a girl."

"Thank you, Senior Xiaoyao Supreme." Chen Sisi smiled.

On the side, Wuji Supreme and others also bowed their hands one after another, and even Honghuang Ancestor Dragon and Blood River Sacred Ancestor were a little dignified.

Although Xiaoyao Supreme is their junior, he is one of the strongest powerhouses in the universe today.

"Heaven, in the ancient universe, I have never heard of it." Honghuang Zulong frowned.

"You'll know it if you feel it carefully." Xia Yao Supreme smiled.

[Chapter 5007: a paradox](#)

Perceive?

Qin Chen thought for a while, and quickly diffused the perception, and the powerful perception entered the source of the heaven in an instant, sweeping the entire heaven.

boom!

In an instant, strong messages flooded in instantly. Qin Chen seemed to see the origin of the heavens and the earth, the operation of the heavens, and every corner of the heavens.

When Qin Chen was in this heaven, at most, he could only vaguely feel the existence of the origin of the heaven.

But now Qin Chen, his cultivation base has broken through to the peak of the supreme, and even touched the realm of half-step detachment. In this moment, Qin Chen seems to see the core of the origin of the heaven, and all the rules of the heaven seem to be clearly presented. came out.

"That is..."

Suddenly, Qin Chen opened his eyes, his consciousness quickly diffused out, and he came to a vast world.

This piece of heaven and earth is full of colorful rays of light, and strong breaths are surging. Qin Chen knows that this is where the origin of the heavenly realm is located, but in addition, vaguely, Qin Chen sensed something from the origin of the heavenly realm. A special power.

"That's... the power of transcendence?"

Qin Chen was shocked.

This power is extremely terrifying, and it exudes a detached aura. In this source of heaven, there is actually a detached power.

"What's going on? In the origin of the celestial world, why does the power of detachment exist?"

Qin Chen blinked his eyes and looked at Xiaoyao Supreme in astonishment.

Now Qin Chen is also well-informed, and he has the detachment origin of the Black Demon Ancestor in his body. He is sure that the power hidden in the depths of the origin of the heavens is indeed the detachment power.

"Hehe, you can ask Wuji Supreme."

Xiaoyao Supreme turned his head to look at Wuji Supreme with a smile, and Qin Chen even looked over.

Seeing this, Wuji Supreme hesitated for a while, and said: "In my Wuji sect, there was a rumor that once circulated, that is, the realm of heaven was actually transformed by his origin after the fall of a detached powerhouse."

"Transcendence of the strong after the fall of the source?"

Qin Chen was shocked: "In this universe, are there any detached powerhouses?"

Honghuang Zulong and others also looked over in shock.

Transcendence, this is simply a ranking in legends. It is rumored that as long as you achieve detachment, you will be immortal, not bound by this universe, and roaming the sea of cosmos.

Of course, immortality and immortality must be false, otherwise the Black Demon Ancestor Emperor would not be killed, and this so-called immortality and immortality is actually not bound by the reincarnation of the universe.

The universe has reincarnation, yin and yang revolve, heaven and earth change, this is the natural way and cannot be changed.

And the detached strong person can detach from this cycle, it can be said to jump out of the universe and not in the cycle.

Looking at everyone's astonished expressions, Wuji Supreme continued: "This is just a rumor, but according to the Sect Master, this rumor is very likely to be true."

Saying that, Wuji Supreme even looked at Xiaoyao Supreme.

Obviously, to the level of Xiaoyao Supreme, he must know something.

Qin Chen and others also looked over again.

Being stared at by everyone, Xiaoyao Supreme smiled and said: "This rumor is indeed true."

He looked up at the vast heaven in front of him: "The human heaven is indeed transformed from the origin after the fall of the detached powerhouse."

boom!

When the words fell, Xiaoyao Supreme directly sacrificed the Desolate Heaven Pagoda, a vast pagoda suspended between heaven and earth.

hum!

When this pagoda appeared, the entire heaven trembled faintly, as if being affected.

Xiaoyao Supreme said to Qin Chen: "You will know when you infiltrate your divine consciousness into this barren tower."

Qin Chen looked at Xiaoyao Supreme, and didn't know what medicine this guy was selling in the gourd, but he still penetrated the consciousness.

boom!

Suddenly, a vast continent appeared in front of Qin Chen. What appeared in front of Qin Chen was a vast world. The world was majestic, somewhat similar to his own chaotic world, but somewhat different.

"That is..."

Suddenly, Qin Chen's consciousness came to the deepest part of this barren tower, and he saw colorful rays of light surging, forming a beautiful picture.

And here is the core of this barren tower.

In just a moment, Qin Chen immediately felt that the core power in this barren tower is very similar to the source power of the heavens, and there is a faint surging aura of transcendence, like, in the same line.

"Senior Xiaoyao Supreme, what is going on here?"

Qin Chen's consciousness was instantly withdrawn, and he said doubtfully.

Xiaoyao Supreme smiled and said: "This barren tower is actually made of fragments after the heaven was smashed. It is equivalent to a part of the heaven, and naturally it has a trace of the origin of the heaven."

"However, this thread of origin has been completely stripped from the heavens and formed an independent individual, but even so, this barren tower still contains a trace of detachment at the core of the heavens, and I was relying on this thread of detachment back then. Only by the power can you gain insight and successfully break through the realm of half-step detachment, otherwise, how can half-step detachment be so easy to break through?"

Everyone was stunned, it turned out that Xiaoyao Supreme successfully broke through the half-step detachment realm because of this barren tower.

But it is.

Although half-step detachment is not a real detachment, it is also an extremely terrifying realm. Even the current Qin Chen, although his strength is superior enough to fight against a powerhouse who has reached the peak of half-step detachment, in terms of cultivation, it can only be regarded as the peak. Supreme only.

From the birth of the universe to the present, in countless epochs, there have been countless peak supreme masters born. There are 3,000 primordial chaotic gods and demons alone. As for other ethnic groups, many have been born over hundreds of millions of years.

But the half-step detachment is very rare. Even the entire demon world is reached by the ancestors of Yuanmo, and the high priest can barely touch the half-step detachment, which is slightly worse.

You can see the difficulty.

Xiaoyao Supreme looked at the heavens with emotion, and continued: "And the reason why I was able to repair the heavens back then was also for this reason, part of my strength was born out of the heavens, so my strength naturally has a trace of the heavens. Repairing effect. Of course, the most important thing is that although I am only a half-step detachment, I can condense a trace of detachment, which can nourish the origin of the heavens."

Heaven and earth like the heaven and earth are naturally not easily repaired. If the heaven and earth are really transformed from the fall of a detached powerhouse, then only a half-step detached powerhouse can make some repairs.

Such as the Supreme, it is impossible to do at all.

Supreme and detachment, that is a completely different realm.

"But it's still not right?"

At this time, Qin Chen looked over and said, "Senior Xiaoyao Supreme, I have heard a rumor that transcendence can lead the universe out of the era of reincarnation and will not be affected by the end of reincarnation. If this universe is really born with transcendence powerhouses, why does this universe still come to the end of reincarnation?"

This is obviously a paradox.

[Chapter 5008: is it possible](#)

Qin Chen's voice fell, and everyone looked over.

Indeed, this seems to be a paradox.

The news that everyone has been accepting is that as long as a detached powerhouse is born in a universe, it can be freed from reincarnation and become an immortal force.

For example, the dark clan, etc., they were originally born in a universe, and then the top powerhouse appeared, and the entire clan was freed from reincarnation and no longer affected by the end of the universe.

If the heaven is really transformed from the origin of a detached powerhouse in the universe, wouldn't this universe have been freed from reincarnation and stood in the sea of cosmos?

People are puzzled. Xiaoyao Supreme smiled and said: "The rumors you heard are not false, transcendental powerhouses can indeed prevent the ethnic group from being destroyed when the

universe is reincarnated at the end, but it is absolutely impossible to prevent the entire universe from being restricted by reincarnation. general super

It can be done. "

"What does this mean?" Qin Chen wondered. Xiaoyao Supreme stretched out his hand, and the Barren Heaven Tower was suspended in his hand: "You just saw the world in the Barren Heaven Tower, which is a world of its own, vast and boundless, and has a transcendental origin. Under my countless years of sacrifice, even if it is not super

Taking off the treasure is actually not far behind. "Xiaoyao Supreme looked up: "And if I can achieve detachment and travel in the sea of cosmos, there will naturally be living beings left in my treasure. At that time, the end of the universe's reincarnation will come, and the universe will be destroyed. Those creatures in my barren tower, do I count them?"

Take them out of reincarnation together? "

Qin Chen was startled: "You mean..."

"That's right!" Xiaoyao Supreme smiled: "The so-called detachment from reincarnation is just to let some creatures follow me to survive, just like the small world on you, although I don't know what that small world is. looks like, but

Since they can accommodate Honghuang Ancestral Dragon, they can naturally accommodate some other creatures. "

"If one day, you escape from reincarnation and enter the sea of cosmos, then this part of life will naturally be able to follow you to survive."

"But they will always live in your small world. Unless they reach a certain level of cultivation, they will not be able to leave your small world or enter the universe."

"This is the so-called transcendence of reincarnation." Supreme Xiaoyao's eyes were deep, and he looked at Qin Chen: "And your small world, although it can accommodate Honghuang Zulong and the others, even more people, one hundred thousand, one million, ten million , even hundreds of millions, but your small world can accommodate the entire universe

Is it a creature of the universe? "For example, this heaven was transformed by the origin of a detached powerhouse, and it can accommodate countless creatures in the heaven, but it is only the countless creatures in the heaven. The heaven seems vast, but in fact it is only an extremely small piece of the universe.

, There are ten thousand races outside the heaven, and even the detached powerhouse can only protect the billions of creatures in this heaven, and the universe outside the heaven is powerless. "

"In addition, the heaven is transformed by the source of the detached powerhouse. The survival, cultivation, and promotion of countless creatures in the heavenly world actually depend on this person's strength. Although that detached powerhouse is strong, how many people can be improved? "Xiaoyao Supreme looked at Qin Chen: "For example, in your inner world, you can accommodate countless

relatives and friends, but when you reach the sea of cosmos, their cultivation base is too weak, so they cannot leave your inner world. All cultivation and survival must rely on your origin. Of

Power, how many people is your source enough to improve? Cultivation to the supreme realm or even transcendence? "

Qin Chen also understood in an instant. Xiaoyao Supreme sighed: "At that time, for those people in the small world in your body, you are equivalent to the heaven of this universe, they are the creatures living in your universe, and their promotion is equivalent to plundering.

Take away your source, they will fall, and the source will return to heaven and earth, that is, return to your small world. This is the truth of the universe's operation. "

silence.

What Xiaoyao Supreme said was very simple and easy to understand, whether it was Qin Chen or Sisi, they all understood in an instant.

This made everyone silent.

Yes, how many creatures can a detached powerhouse bring to escape reincarnation?

"It turned out that the so-called detachment only brought a small number of people alive? And the entire universe is still in ruin?" Qin Chen was silent.

The others also looked ugly, and their hearts sank.

This truth really makes me unhappy.

"What are you all doing with a sad face? It's good to be happy." At this time, Supreme Xiaoyao suddenly asked with a smile.

"The truth is too heart-wrenching, I really can't be happy." Honghuang Zulong said speechlessly.

"Hehe, I just said that ordinary detachment can only take some people through reincarnation, but I didn't say that detachment powerhouses can't take the entire universe through reincarnation." Happy Supreme laughed.

"This..."

Everyone was stunned.

What do you mean?

"Yeah." Qin Chen suddenly came over: "If the detached powerhouse can only take some people through the reincarnation, how did the dark family get through the reincarnation of their entire universe?" Qin Chen once in Heiyu Continent, Sikong Zhen of Sikong Holy Land and Linyuan Holy Sect have communicated with them, and they also know some things about the Dark Continent. In Qin Chen's understanding, the Dark Clan is the whole universe that has gone through reincarnation, not just

A certain detachment brought some people alive.

"The dark family is indeed their ancestor, who led the entire universe through reincarnation and survived from the entire universe sea." Xiaoyao Supreme smiled.

Qin Chen was stunned, "But just now..." Xiaoyao Supreme laughed, "You just asked why the celestial transcendence didn't let the whole universe go through reincarnation, and I answered your previous question, but I didn't say anything. All transcendence can't make the universe go through reincarnation Ah? "

Everyone looked over in amazement.

What's the meaning? "Just like your question just now, in addition to the possibility mentioned earlier, if the detachment that formed the heaven after the fall was actually a detachment from the universe sea? How could he make this universe go through the cycle of reincarnation?

"

Xiaoyao Supreme said with a smile: "This is also a possibility."

"Transcendence from overseas? Is this possible?" Qin Chen couldn't help but asked.

"What's impossible? Isn't the Black Demon Ancestor Emperor a detachment from the dark clan? Didn't he still fall into this world?" Supreme Xiaoyao smiled slightly.

Qin Chen and the others were stunned.

It's... it's true.

"Then..." Without waiting for Qin Chen to ask, Supreme Xiaoyao looked up at the vast sky: "There is only one way to make the entire universe go through reincarnation, and that is to integrate the origin of this universe and make this universe yours. the inner world,

Let the whole universe go through the cycle. "

Make the whole universe your own inner world?

Qin Chen was stunned.

is it possible?

Chapter 5009 Why is this

"Don't be surprised, as far as I know, the reason why most of the forces in the universe can survive the cycle is through this method."

Xiaoyao Supreme looked up at the vast universe, "Of course, if you want to refine the entire source of the universe, there is a premise that the source of the universe must accept you."

Saying that, Supreme Xiaoyao shook his head: "Actually, if I can refine the origin of the entire heaven, then I have a great possibility to directly break through the realm of transcendence and transcend this universe. Moreover, I myself will be with the celestial realm. The origins are in the same line, and they should be very compatible, but..."

"The origin of the heavens doesn't mean for me to refine it." The Supreme Sovereign sighed.

"Why?" Qin Chen wondered.

The Desolate Sky Tower of the Sovereign of Xiaoyao was transformed from the fragments of this heaven. Moreover, the Sovereign of Happy and Free has also repaired the world of heaven. It stands to reason that the source of the sky should be very friendly to Sovereign of the Happy.

How could he refuse his refining?

Xiaoyao Supreme pouted, "You ask me, how do I know, I was still wondering if once refined, the origin of this heaven will lose its consciousness, just like the origin of the universe, even if it reaches the At the end of reincarnation, as the consciousness of this universe, they will not be willing to become the appendages of others, and how can they be easily refined by others?"

"However, when I saw you later, I vaguely understood the reason." Said, Xiaoyao Supreme looked at Qin Chen with resentment in his eyes.

"What does this have to do with me?" Qin Chen was stunned.

"With your strength, if you forcibly refine this celestial source, you may not be able to succeed, right?"

At this moment, Honghuang Zulong wondered.

Supreme Xiaoyao glanced at him, "It is indeed possible to succeed, but if so, what is the difference between me and the ancestor of Yuanmo?"

heard.

Honghuang Zulong and others were all stunned.

"Okay, let's go."

When Xiaoyao Supreme said this, he stepped out and entered the heaven in an instant, and Qin Chen followed Honghuang Zulong and others.

Boom!

As soon as everyone entered the heaven, the power around the heaven immediately lingered, suppressing Honghuang Zulong and others like a vast ocean, making Honghuang Zulong's breath faintly suffocated.

Heaven is actually suppressing any strong person who enters it.

And at the same time, the Heavenly Dao of the Heavenly Realm is also trembling faintly, this is because the aura of Honghuang Zulong and others is too powerful and terrifying, making the Heavenly Realm unbearable.

After all, the heaven was broken back then, and if it hadn't been repaired by Xiaoyao Supreme, the powerhouse above Tianzun would have been enough to cause damage to the heaven.

However, today's heaven has become much stronger, but the entry of the ancient primordial primordial gods and demons such as Honghuang Ancestral Dragon has brought enormous pressure to the heaven.

boom!

The right hand of Xiaoyao Supreme lifted, the barren sky tower appeared instantly, and immediately a misty power surged out, and countless original breaths emerged instantly from the barren sky tower.

"This is..."

Feeling these source breaths, Qin Chen was taken aback. These source breaths carry the power of the origin of the demon world and the worm world, which is obviously brought back by Xiaoyao Supreme from the devil world and the worm world.

And with the integration of these source breaths into the heavens, the entire heavens and heavens were immediately supplemented.

Rumbling, in an instant, the breath of the heavens skyrocketed rapidly, and in the blink of an eye, it rose to an extremely astonishing level.

The aura that suppressed Honghuang Zulong and others weakened in an instant.

The strange thing is that Qin Chen's strength is far superior to the ancestors of Honghuang Zulong, but from beginning to end, he has never felt the slightest pressure after entering the heaven.

"Let's go."

Supreme Xiaoyao took a deep look at Qin Chen, followed by a flick of his body, and led Qin Chen and the others to quickly disappear between heaven and earth.

"Senior Xiaoyao Supreme, where are you going to take us?" Qin Chen wondered.

"You'll know when it arrives."

Xiaoyao Supreme's voice fell, and he flew quickly. Above his head, the barren sky tower continuously circulated the colorful aura, guiding him forward. After a while, everyone came to a very mysterious place in the depths of the heaven.

In front of you is a vast land of colorful aurora, and one after another terrifying avenue rules are surging between the heavens and the earth, blooming with a heart-pounding aura.

"here is..."

Qin Chen and the others stopped their bodies, their eyes were shocked, and what appeared in front of them was a vast source of power.

"The origin of the heavens."

Wuji Supreme blurted out in shock.

"Yes, this is the origin of the heavens."

Xiaoyao Supreme nodded and looked at Qin Chen, "Go and try to get in touch with the origin of this heaven."

"!?"

Qin Chen was stunned for a while. For some unknown reason, after coming to this place of origin of the heavenly realm, he felt that this place was extremely familiar, as if something was calling him.

Without any hesitation, Qin Chen entered the colorful aurora in front of him in an instant. In front of him, there was a vast power of the avenue, but these powers of the avenue fell on Qin Chen, but they did not bring any resistance to Qin Chen at all.

Gradually, the light ahead became more and more intense, and suddenly, a dazzling light lit up ahead, and an invisible ball floated in front of Qin Chen.

"This is... the origin of the heavens?" Qin Chen was shocked.

boom!

At this moment, a terrifying aura of detachment erupted from the ball. The strength of this force was so strong that even Qin Chen was discolored, and Qin Chen had a feeling that the power of the source of the celestial world in front of him was stronger than his. The origin of the detachment of the Black Demon Ancestor Emperor of the dark family in the body is much stronger.

That level of power is definitely not one level.

It's just, what is the purpose of Xiaoyao Supreme bringing himself here and letting him in?

Do you want to let yourself refine this heavenly source?

And just when Qin Chen was shocked and puzzled.

hum!

In the void in front of him, a colorful light suddenly bloomed, and at the same time, a figure slowly emerged from the colorful light.

This is a beautiful woman, with a graceful figure and full of mature charm, like a ripe peach. Any man in the world who sees each other will be amazed by each other.

However, after Qin Chen saw this woman, his expression was stunned.

"Mother!"

Tears rolled out of Qin Chen's eyes, and he spoke excitedly, unable to restrain his feelings at all. The woman in front of him was his mother, Qin Yuechi.

Tianwu Continent, Qin Yuechi, daughter of Dingwu King Qin Batian, Qin Chen's mother.

"Dust."

Qin Yuechi looked at Qin Chen with a smile, her eyes were full of pampering, and a trace of excited tears also flowed in her eyes, but she forbore herself not to cry, and her body trembled with excitement.

[Chapter 5010: suppressed by the father](#)

At this moment, Qin Chen was so excited that he couldn't say a word.

how many years.

Qin Chen has not seen his mother since the last battle of ten thousand races. He misses his mother very much in his heart. He never thought that he would see his mother in this place of origin of the heavenly realm.

Qin Chen felt extremely excited.

If others see Qin Chen's attitude at this time, they will be shocked.

This strong man in the outside world, enough to shake the entire universe, is now like a child.

For Qin Chen.

In front of his mother, not to mention that his cultivation has broken through the peak and supreme realm, even if he has achieved detachment, he will always be just a child.

Qin Yuechi slowly stepped forward and stroked Qin Chen's cheeks with both hands. Her eyes were gentle, and her warm hands were extremely gentle.

"My son, I have grown up."

Qin Yuechi murmured, his eyes showing doting.

"Mother, why are you here?"

Qin Chen was taken into the warm and comfortable arms by Qin Yuechi, suddenly remembered something, and couldn't help but wonder.

Here, is the origin of the heaven, why is my mother here?

Thinking of this, Qin Chen hurriedly looked at his mother, his consciousness swept over, and to his surprise, he could not feel the existence of Qin Yuechi.

"Mother, why can't the child feel your breath?"

Qin Yuechi was stunned, hesitated for a moment, and smiled: "This... Maybe it should be the same as when he was in Daqi."

"Same as Da Qi?"

Qin Chen was stunned for a moment, and instantly reacted: "Mother means...my cultivation is too weak?"

Qin Chen was stunned for a moment.

When he was in the Great Qi Kingdom, Qin Chen was only at the Xuan level, and naturally he could not detect Qin Yuechi, who had an extraordinary cultivation base at that time, but now, he is already a supreme-level powerhouse, and he is only one step away from the half-step detachment realm, but he still cannot feel the breath of the mother.

What exactly is your mother-in-law?

"Mother, are you already a detached powerhouse?" Qin Chen couldn't help asking.

If you think about it, it really is.

In the battlefield of ten thousand races, the ancestor of Yuanmo wanted to take action against him. It was the mother who shot and directly repelled the ancestor of Yuanmo. At that time, the ancestor of Yuanmo was already half a step away from the cultivation level. Repelling the ancestors of Yuanmo can only be explained by transcendence.

"Transcendence?"

Qin Yuechi smiled and said, "That's right."

Hearing this, Qin Chen was stunned.

Is the mother really a detached powerhouse?

But... how is this possible?

The detached powerhouse will not be able to come to this universe at all, and will be strongly suppressed. Even the dark family wants to invade this universe, and they must try their best to send the powerhouses a little bit, but the mother kisses her...

Qin Chen looked at Qin Yuechi.

Seemingly knowing what Qin Chen was thinking, Qin Yuechi smiled and said, "Chen'er, the mother who appears in front of you is just a clone, and it will not affect the universe in the slightest."

"Just a clone?"

Qin Chen blinked his eyes, it was just a clone, and he couldn't feel the breath of his mother. How strong is the mother's body?

Qin Chen couldn't help but wonder: "Mother, as far as I know, there has been no detachment powerhouse in this universe for hundreds of millions of years. How can you break through detachment?"

Breaking through detachment, the universe will be strongly suppressed, causing the entire universe to fluctuate. Such fluctuations may almost be noticed by the powerhouses in the entire universe, but Qin Chen has never felt such a breath in this universe, so When did the mother break through the detachment?

At this moment, Qin Chen only felt that his mother was extremely mysterious.

"You will know this in the future." Qin Yuechi smiled and touched Qin Chen's head: "Actually, the reason why my mother left a clone here is mainly to worry about your safety, for fear that you will encounter danger here, the darkness After all, the strength of a family is far superior to this universe, and it is unexpected that you will solve the crisis yourself."

Qin Chen smiled, "Thanks to the senior in the virtual sea, otherwise..."

Qin Chen knew very well that if it wasn't for the strong man with the nine-star **** emperor totem, he and Xiaoyao Supreme might not be able to deal with the black demon ancestor, let alone the ancestor of the dark family.

"He?" Qin Yuechi raised his head, looked at the position of the Void Tidal Sea, and said lightly, "That guy knows how to behave."

"Mother, do you know each other?" Qin Chen wondered.

"Naturally understand that this person is not small in the sea of cosmos. He comes from a powerful race. The strength of this family is also considered to be the top in the entire sea of cosmos."

Qin Chen was shocked and said: "In the universe sea, he can be regarded as the top? Then why is he in the virtual sea."

"Of course I made a mistake and was suppressed." Qin Yuechi said lightly.

"Being suppressed?"

Qin Chen was shocked: "Who can suppress such a strong man? Besides, why is he suppressed in this universe?"

Qin Chen couldn't be more clear about the strength of the mysterious powerhouse. Even if he was bound in the virtual sea, he was the ancestor of the dark clan. How could such a person be suppressed, and he was suppressed? In this celestial virtual sea of the universe?

"He? Who else can be suppressed, naturally by your father." Qin Yuechi smiled and touched Qin Chen's face.

"By father?"

Qin Chen was even more dumbfounded.

Such a strong man was actually suppressed by his father. How strong is his father?

"This person was a giant back then. He offended many people in the sea of cosmos, and even caused a **** storm, which caused the entire sea of cosmos to shake. I don't know how many people in the sea of cosmos wanted to put him to death, but This person's strength is too great. Going to target this person's strong man, death and injury, eventually caused the wrath of the entire universe. Later, your father took action to suppress him and sealed it in this universe. "

Qin Yuechi glanced at Xu Hai, "Although your father suppressed him, in fact, your father also saved his life. Otherwise, this person would never end well."

Hearing this, Qin Chen was extremely shocked.

Who is the father?

Judging from what my mother said, my father is afraid that he is powerful in the entire universe.

Qin Chen couldn't help but **** in the cold air.

"Mother, who is father? And why would he kiss you with your mother..."

Qin Chen couldn't help but wonder.

How could a strong man like his father appear in a small place like the Five Kingdoms and give birth to himself with his mother?

Qin Yuechi glanced at Qin Chen with a smile, and knocked on his head, "Little bunny, you think I don't know what you're thinking, you are the best in this universe now, how can you not see something? When my mother was in Daqi, it was just a clone. As for your father... I can't tell you too much for the time being."

Qin Yuechi's expression became serious, "the reason why your father and mother did this is actually for a reason, you just need to know that mother and father didn't hide it from you on purpose, some things can't be told, once they are known, this universe I'm afraid that it will disappear in an instant and turn into dust."
