

## Valkyrie 5041

### [Chapter 5041: Cosmic crystal](#)

Qin Chen's consciousness has already reached a certain level. Although he came here, he felt that his magical powers seemed to be limited, and he was not fully in the initial universe, but it was extremely terrifying.

This sword went out, and the terrifying killing force around him instantly rolled up, and collided with this black shadow instantly.

"boom..."

There was a violent explosion in the void, and Qin Chen felt an extremely powerful impact, and he was immediately knocked out. And that powerful force tried to disintegrate his body, and slammed into his chest in an instant.

With a bang, Qin Chen only felt a sharp pain in his chest, a bitter taste in his throat, and he almost spat out a mouthful of blood.

Qin Chen's expression changed greatly, if it wasn't for his fleshly body being elevated to a level comparable to detachment by Gu Yuta, this blow alone would be enough to penetrate his fleshly body.

Qin Chen didn't dare to be careless, and immediately pushed the mysterious rusty sword to the extreme, and his consciousness swept towards the black shadow that suddenly rushed, for fear that the other party would kill him again.

However, Qin Chen's worry was obviously unnecessary. Although he was hit by the shadow in a hurry, the shadow didn't take advantage of it. He was hit by Qin Chen's mysterious rust sword, and he let out a miserable scream, which flew in the air. Leaving a faint shadow behind, he turned around and fled into the crack, disappearing without a trace.

"What the hell?"

Qin Chen was shocked, there are such strange creatures in this space crack?

But at this time, he could no longer be shocked. He must not be seriously injured here. He hurriedly urged the source in his body to repair his injury.

But at this time, Qin Chen was shocked to find that there were cracks and ravines around him. These space killing blades had already covered him and were shrouded towards him.

Qin Chen's face changed drastically. He had already felt the power of these space killing blades in the wormhole before, and with his current cultivation, if he fell into it, he would surely die.

Only by entering the ancient tower can resist the attacks of these space killing blades.

Thinking of this, Qin Chen subconsciously wanted to display the Guyu Pagoda to enter it, and at this moment, a white light suddenly rolled over. Qin Chen's consciousness came into contact with the white light, and he knew that the white light was to pull him away, rather than hurting him.

He immediately grabbed the white light, and with the help of this white light, he escaped the space killing blade in the void ravine in an instant.

Qin Chen fell on the open space to the side and found that it was a woman who rescued him, or it could not be said to be a rescue, but just helping him. After all, he would be fine if the other party didn't help him.

"Thank you for saving your life."

Qin Chen immediately saluted the other party.

He didn't expect someone to exist here, and he was overjoyed immediately, and the other party was quite kind to him.

At the same time as he opened his mouth, Qin Chen also looked up at the other party. He saw that the woman was not very old, and her appearance was average. There was a strange long rope wrapped around her waist. , apparently a treasure.

The white light that wrapped him before was this long rope.

What surprised Qin Chen was that he did not have the cultivation level of the other party.

He can feel that the other party's cultivation base has definitely not reached the detachment level, and the breath is not strong, but he can't feel the other party's cultivation base.

When Qin Chen looked at the other party, the woman also turned to Qin Chen at this time and said, "Why did you almost run into the space gully? If I hadn't rescued you just now, you would surely die if you fell into the space gully. And you are What cultivation base? Why can't I perceive your realm? The aura on your body seems to be very unstable?"

This woman, who looked like a girl next door, looked at Qin Chen and said in confusion.

Unstable breath?

Qin Chen was speechless, it was the first time he heard others say that his breath was unstable.

With his current cultivation base that is close to half-step detachment, he can fight against detachment powerhouses in the sea of cosmos. How can it be unstable?

"And you don't have half the breath of the cosmos sea. What's going on? Are you not a person in this cosmos sea?"

The woman frowned.

Qin Chen was immediately startled, and quickly said: "I have been cultivating in our group for too long, and I just left the group recently. Thank you for your life-saving grace just now."

It was obvious that the volume just now could not be regarded as a life-saving grace. In order to divert the topic, Qin Chen had to say that it was a life-saving grace.

Unexpectedly, the woman nodded and said: "I did save your life just now, otherwise you will die if you fall into the depths of the space gully, and there is an extremely terrifying \*\*\*\* owl in the space gully in

the land of return to the ruins, those gods. Even if you are a detached powerhouse, you will have a headache, and with your cultivation base, you will definitely die when you encounter that god."

Qin Chen was stunned. Could it be that the black figure was the God Xiao this woman said before?

Moreover, this woman clearly couldn't explain her realm before, and now she says that she will die if she encounters a \*\*\*\* with her own cultivation. Isn't this too much for her?

The woman continued: "You said you just left the clan not long ago, which clan are you from? Didn't your clan ancestors use the universe crystal for you to practice? Otherwise, why wouldn't you have the aura of the universe sea? And the aura is so unstable. ?"

The woman asked casually.

Qin Chen immediately understood why the other party said that he had no cosmic sea breath.

Cosmic Crystal Qin Chen heard Xiaoyao Supreme say that it is a common currency in the cosmic sea, which contains amazing cosmic sea energy, and can be used for cultivation.

Generally, the cosmic sea forces will be used by his disciples for cultivation, and he has never used this kind of thing in the initial universe. In addition, he has not cultivated here for too long, so he will naturally not have the aura of the cosmic sea.

He didn't reveal the other party's cultivation base, and it was probably because of this reason, not because the other party hid his cultivation base.

At this time, Qin Chen looked at the very casual woman in front of him, but his heart was stunned. He had a feeling that the other party obviously had some doubts about him.

"I'm from the dark race, maybe it's because I'm poor, my ancestors didn't give me a universe crystal to practice, saying that young people should rely on themselves..."

Speaking of this, Qin Chen became a little embarrassed, and it seemed that this matter was a little unspeakable: "I have never absorbed cosmic crystals before, I don't know if you can lend me a few, I heard that this cosmic crystal can be quickly consolidated. Xiuwei, when I have it in the future, I will definitely give it back to you."

The woman looked at Qin Chen with a dull look, and said speechlessly: "I saved your life, and I still think you will give me some reward? I didn't expect that you not only didn't give me the reward, but also asked me to borrow the universe crystal? I didn't listen. wrong?"

#### [Chapter 5042: cheated](#)

Qin Chen suddenly looked embarrassed, and he realized that the other party rescued him in order to ask him for a reward, but Qin Chen was relieved after this, and felt a lot more reasonable.

He has always heard that there are many dangers in the sea of cosmos, and suddenly there is such a kind guy who is full of goodwill to help him. If there is no requirement, Qin Chen will always feel that the other party has other purposes.

What's more, the other party is a woman.

"I just came out of the group, and I'm still very poor. I really don't have much, otherwise I wouldn't even absorb the cosmic crystal."

Qin Chen said with an embarrassed expression, the other party wanted a reward, and he had nothing on him, and all the things on his body came from the initial universe.

The woman glanced at Qin Chen, nodded and said, "I've already seen it even if you don't say it, you are indeed a poor ghost, so I don't want you to take any cosmic crystals and divine pills as compensation, so, I Seeing that you have just come to this place of return to the ruins, you might as well be my follower."

"Follow the class?"

Qin Chen widened his eyes.

"Why, why are you still not happy?"

Do you think I really want you to be a sidekick?

I see you're a newcomer, where are you from?

Dark race?

I've never heard of it before, it must be a small tribe, and I let you follow me because I was afraid that you would be bullied.

You follow me, with me protecting you, no one will dare to bully you. "

The woman said disdainfully.

"I" Qin Chen was speechless: "Have you never heard of our dark family?"

"What, are you famous?"

The woman frowned.

Qin Chen was a little stunned. How miserable is the dark family in this universe, no one has heard of it? wrong.

The cosmic sea is extremely vast and has many forces. In my opinion, the dark clan is already an extremely powerful force in the cosmic sea, but for the entire vast cosmic sea, maybe it is just an ordinary force, and it is normal that some people have not heard of it. .

Qin Chenlian said: "Our ancestors have always told us that our dark family is a well-known force in the universe, so" "Cut, it's okay to be poor, and you love to brag so much, your ancestors are enough."

The woman glanced at her mouth.

"But you really haven't even heard of it?"

Qin Chen continued to be shocked.

The woman said speechlessly: "Do you know how many forces there are in the sea of cosmos?"

It's still too little to say that it's too much. It's alright, have you considered it? "

The woman urged.

Qin Chen thought about it and said, "I can follow you temporarily, but when I want to leave, I will leave. Moreover, the cosmic crystal you mentioned just now." Qin Chen was worried about what would be exposed by pretending to be a dark family. Now It seems very safe.

Before Qin Chen's words were finished, the woman threw a dozen white crystals to Qin Chen, "These are more than a dozen low-grade cosmic crystals, I have convinced you, I saved you, yours Before the reward is given, ask me for the universe crystal first."

Qin Chen grabbed these cosmic crystals and found that these cosmic crystals really contained extremely amazing energy, which was more than a hundred times stronger than the spar in the initial universe, and the energy in it was very solid, with the breath of the cosmic sea, absorbing it all year round. This kind of breath can definitely bring the breath of the cosmic sea to oneself, and the suppression by the cosmic sea will also be greatly reduced.

Without hesitation, Qin Chen began to absorb the energy in the cosmic crystal.

A huge force completely different from the origin of the original universe was immediately felt by Qin Chen. Although this amount was still small, it had already benefited Qin Chen endlessly.

At this time, Qin Chen was sure that as long as he had enough cosmic crystals, it would not take long to reach the peak of half-step detachment.

Devouring this kind of thing is equivalent to continuously absorbing the origin of a universe.

However, Qin Chen felt at the same time that it was absolutely impossible to break through the detachment realm just by relying on this cosmic crystal. The transcendence realm was a completely different realm, and it was by no means simply absorbing the cosmic crystal to break through.

It is no wonder that the dark family will invade the initial universe, and the easiest way to achieve detachment is to directly swallow the source of an initial universe.

"You don't need to absorb cosmic energy here. It's very dangerous here. There are gods everywhere. Once the group of gods comes, the two of us will never be able to escape."

Seeing that Qin Chen was only interested in absorbing the cosmic crystal, the girl immediately opened her mouth, and at the same time took the lead in flying ahead.

Qin Chen embarrassedly put away the universe crystal, then followed, curiously: "What is this \*\*\*\* owl?"

The girl glanced at Qin Chen, and said speechlessly: "It seems that your ethnic group really didn't tell you anything, and it's a pity that you are still alive in the Land of Return to Ruins, Shen Xiao is a unique creature in the Land of Return to Ruins. , I like to hide in these space cracks and sneak attack on others, and they are extremely fast, and sneak attacks are silent, unless they are detached from the strong, ordinary people can't resist the sneak attack of this \*\*\*\* owl.

Therefore, many warriors who have experienced in the Land of Returning Ruins will often die under the sneak attack of the \*\*\*\* owl. You should be lucky and have not met the \*\*\*\* owl. Otherwise, with your small body, you must have died long ago. "

Qin Chen silently absorbed the meaning of the other party's words. It sounded that many of the warriors who had been trained in this return to the ruins were not the opponents of the Shen Xiao.

Thinking of the speed and attack power of the God Xiao before, Qin Chen thought about it, if his physical defense was improved by Gu Yuta, otherwise, he would never be able to resist.

And with his current cultivation and strength, he can still survive under the attack of Shen Xiao.

Earlier, the girl said that many warriors would die under the sneak attack of the \*\*\*\* owl. In this way, many of the cosmic sea powerhouses in the land of return to the ruins may not necessarily be their opponents.

Thinking of this, Qin Chen couldn't help but breathe a sigh of relief.

At least I'm safe here.

But think about it, the detachment of the strong in this sea of cosmos is still considered to be a top master.

Today, many of the powerhouses in the universe are from the half-step detachment of the major forces, even the peak of the supreme, because they live in the universe all the year round, or absorb the energy of the universe crystal, they can still resist the erosion of the universe. .

"Where are we going now?"

"Of course I'm going to the Secret Realm of Returning Ruins in the Land of Returning Ruins!"

The girl glanced at Qin Chen curiously: "Didn't you come to the secret realm of Guixu?"

"Returning to the Ruins Secret Realm?"

Qin Chen said a little embarrassedly: "I just came here, but I don't know much about this place of return to the ruins."

"I have convinced you."

The girl was speechless, she took out a jade slip and threw it to Qin Chen, saying: "This is the introduction to the land of the ruins, you can take a look, I don't know what the ancestor of your dark ethnic group asked you to come. What are you doing here, you don't know anything, are you going to die?"

The girl sighed.

I'm afraid it's not a burden that I deceived this time, right?

[Chapter 5043: I believe you](#)

Qin Chen took the jade slip, and his spiritual power immediately penetrated into it, and he quickly sensed it.

Soon, he learned about the situation in the land of return to the ruins. This land of return to the ruins is not the fixed residence of a certain ethnic group, but a secret realm of barren ruins.

Among them, the most attractive is the Secret Realm of Returning Ruins in the Land of Returning Ruins. There are some special treasures in this secret realm, and some people even realize the strange divine fruit that transcends its origin. Every time it is opened, it will attract a lot of strong people's attention.

However, this place of return to the ruins is very magical. Under normal circumstances, people cannot enter it at all. However, once it is opened, many spatial passages leading to the place of return to the ruins will be opened. If you are lucky, you will have the opportunity to enter this place. in the ruins.

Once you can enter the land of return to the ruins, it means that the secret realm of return to the ruins will be opened.

For those who can enter the land of ruins, this will be a huge opportunity.

It's just that the space passage leading to the land of the ruins is very random, often encountering a space passage when practicing in the universe sea, and some accidentally entering after entering some wormholes. In short, it is very random, even if it is the top Even the strong man cannot predict the entrance to the Land of Ruins since Anger Returns.

Therefore, those who can enter here are considered extremely lucky people, and it is an opportunity for anyone who enters here.

And because the Land of Return to Ruins is so famous, almost everyone who comes here can instantly understand that they are entering the Land of Return to Ruins.

Therefore, it is not surprising that this woman did not understand anything when Qin Chen appeared here, because many people entered this place after accidentally entering a vortex of space.

"After entering the land of the ruins, you can't leave at all until the secret realm of the ruins is over?"

After receiving a message in the jade slip, Qin Chen's eyes narrowed.

He is now being hunted down by the detached powerhouse of the dark clan. He came here by accident through a wormhole, and if the dark detachment has been following him, it is very likely that he will come here in a very short space.

Once encountered, it will be troublesome, this place of return to the ruins can't leave at all, that is, I don't know how to hide.

"Yes, if you want to leave the Land of Ruins, you have to wait until the Secret Realm of Ruins is over, but why are you leaving in such a hurry?"

The woman couldn't help but turned her head to look at Qin Chen, "In the secret realm of Returning Ruins, there are not only a large number of cosmic crystals and various ore materials, but if you are lucky, you can also find some divine fruits of transcendence, as well as supernatural powers to comprehend the laws of space. treasure."

"Why are all space divine fruits and treasures that comprehend space divine powers?" Qin Chen asked inexplicably.

"Because the Secret Realm of Returning Ruins is composed of various space laws, there are many places in it are some space cracks and gaps, which are extremely terrifying, and there are some gods and owls,

and in some places you can feel that the space is endlessly compressed or stretched. .But if people with low cultivation base encounter this situation, not many people can survive. You can imagine that once you feel the rapid extension of space, the space spans too far, and you haven't been able to get out of that space. The whirlpool, your body has been divided into several places by the stretched space, because your body can't resist that kind of space stretching force." The woman said solemnly.

"Is there such a place?" Qin Chen said in shock.

A vortex that extends infinitely in space is scary when you think about it. It means that as soon as you enter it, your body will be instantly stretched in countless dimensions of space. How can ordinary people resist it?

"Otherwise?" The woman said in a deep voice: "There are rumors that the Secret Realm of Returning Ruins should have been born after the fall of a certain space department's detachment power. In the land of ruins, it can be said that the place where we are is the remains of the detached powerhouse that year."

"However, this kind of place is dangerous for many strong people, but also has huge benefits, because under some space pressure, it has a great effect on the physical body, and some spaces in the return to the ruins secret realm are interlaced. Cultivation, once you can resist it, you can make the physical body reach the point where it is infinitely close to the realm of transcendence."

Qin Chen listened and remained silent.

If the secret realm of returning to the ruins that the woman said can really understand the laws of space, it is really suitable for herself.

With his current physical body, once he has been tempered by the law of space, he may be able to step into the detachment level. When he encounters the powerhouse of the dark family, he will have more possibilities to deal with it.

While talking, the two flew quickly.

On the way, Qin Chen also knew the name of the woman, Fang Muling. As for the origin of this woman, the other party didn't say it, and Qin Chen faintly felt that when the other party said his name, he paused for a while, as if thinking about it. a moment.

The two continued to fly, and after several days of continuous flying, the terrain in front of them eased, and the messy void cracks and vertical and horizontal ravines gradually decreased, and the surrounding cosmos sea breath gradually became much richer.

The hidden void cracks in the space have become rare, and there is a continent that is somewhat revived ahead.

Qin Chen and Fang Muling just entered it.

"Boom..." A terrifying and powerful spatial aura fluctuation stopped the two of them immediately. Before Qin Chen's consciousness could be fully stretched out, a figure in white stumbled over from the void beside them.

The next moment, a huge handprint appeared in Qin Chen's consciousness, and it shot down directly at the figure. The figure's expression changed greatly, and he punched out immediately. In an instant, a fist not much smaller than the handprint swept out. Formed a terrifying killing intent.

boom!

The huge handprint and fist collided instantly.

The violent explosion exploded, and the surrounding space darkened in an instant. The boundless surging breath surged in the space, sweeping away in an instant, until the man immediately spit out a mouthful of blood, and then came embarrassed. When they arrived at Qin Chen's side.

"You two, I'm from the Dark Nether Mansion. If there are enemies who want to kill me, I would like to ask the two of you to help me. There will be a great reward."

The man in white looked at Qin Chen and Fang Muling, and said hurriedly.

And as his voice fell, a figure flew directly from the void in the distance, wearing a black robe, his eyes instantly fell on Qin Chen and the three, and his brows were slightly wrinkled.

"You two, this is a conflict between us, please don't interfere." The man in black said with a sullen face as he flew over.

Hearing this, the man in white changed his face greatly, and hurriedly said: "As long as the two of you help, I am willing to give 10,000 low-grade universe crystals as a reward."

"Hmph, as long as the two of you kill this person for me, I'm willing to pay double."

The man in black said with a sneer.

"you..."

The face of the man in white changed greatly, and he hurriedly approached Fang Muling and said, "Don't listen to this man's nonsense, the two of you. This man is ruthless, and he will definitely not let you go."

"I will never go back on what I said!" The man in black said.

"Okay, we believe you."

Suddenly, Fang Muling said, and when the voice fell, she did not hesitate, and slapped the man in white directly with a whip.

"Warrior Lord"

Like the \*\*\*\* of war

[Chapter 5044: Fang Muling](#)

boom!

The long whip in Fang Muling's hand was like a soft long snake, and it rolled towards the man in white in an instant. The speed was so fast that people didn't have time to react.

Around this long whip, a terrifying spatial energy swept through, and instantly enveloped the man in white, and the man in white did not expect Fang Muling to act on him, and his pupils suddenly showed shock.

Without waiting for the long whip in Fang Muling's hand to wrap around the man in white, a handprint suddenly came down and slapped on the long whip displayed by Fang Muling at a critical moment, and a bang was heard, the hand of Fang Muling The long whip was instantly rolled backwards.

The man in white was rolled out by Fang Muling's whip shadow, and his body was slammed and rolled out, and fell heavily to the ground, spitting out a mouthful of blood.

If the black-clothed man hadn't shot in time, I'm afraid that the white-clothed man would have been blown away by Fang Muling's whip.

"What do you mean by that, sir?"

The man in white fell to the ground, hurriedly took out a pill and swallowed it, and then frightened Fang Mu Lingdao.

"What do you mean by me? I also ask what you mean."

Fang Muling sneered and turned to the man in black, "Didn't your Excellency say that as long as I kill this person, you will give me double universe crystals? Why did you save that person from this girl, because she was reluctant to give me money? ?"

The black-clothed man was stunned for a moment, his face suddenly became difficult, obviously he didn't know what to say.

"Do you think you can deceive this girl with this trick?" Fang Muling sneered, "If you dare to deceive this girl, even if you don't give this girl money, this girl will kill him."

The voice fell, and the long whip in Fang Muling's hand immediately turned into a spirit snake, which quickly wrapped around the injured man in white.

This long whip swept out, and I heard a "boom" sound, and I saw a light emerging between the heaven and the earth. This world is a whip shadow emerging, it seems that there is an invisible wall of God blocking the whole world.

Under such a general trend, no matter which direction the man in white goes, he seems to be blocked by an invisible barrier. Even if he goes above the barrier, there will be endless whip shadows under his feet. Escape from such a whip shadow.

"Space gods?" The black-clothed man was shocked when he saw such a ban, and said in surprise, "This is a supreme skill, how can you master it."

The man in white was shrouded in countless whips from heaven and earth, and his expression changed greatly, and he said in shock, "Brother, this man should have seen through us long ago and killed him."

As his voice fell, countless runes instantly lit up on the man in white. As soon as these runes appeared, a breath of ancient sky filled the air, as if some terrifying existence suddenly walked away from the ancient times. came out in general.

As soon as this ancient existence appeared between the heavens and the earth, it immediately tore apart the whip shadow ban displayed by Fang Muling, and the whole person rushed out.

And when this person rushed out, he spit out a mouthful of blood again, obviously being seriously injured again under the killing intent of Fangmu Spiritual Qi Machine.

boom!

As soon as the white-clothed man rushed out of the ban, the black-clothed man on the side moved instantly.

"Hmph, stinky bitches, no matter how you came out of our brothers, if you were caught by our brothers today, you would have to die."

"Clang!" A long sword suddenly appeared in the hand of the man in black. The long sword was in his hand. At this moment, his long sword pointed directly at Fang Muling, and the long sword was emitting a cold glow.

In the sound of the sword cries of "Clang!", the man in black spurted out sword beams from his entire body, as if he was about to turn into a giant sword at this time.

Hearing the loud bang of "Boom", in this instant, countless visions appeared behind the man in black, the ups and downs of kendo, dominated the ages, in this vision, the whole world seemed to be refined into an invincible The giant sword, the sword is so big that it can crush the heavens for eternity.

In that instant, the man in black seemed to melt, his swordsmanship spanned between heaven and earth, and the long sword in his hand was also integrated into the supreme swordsmanship.

At this moment, what Qin Chen came to was no longer a man in black, but a sword and a kendo.

"This person turned out to be a sword cultivator!"

Qin Chen, who had been standing by the side silently before, felt a hint of surprise at the sword energy displayed by the black-clothed man.

The kendo aura on the man in black was extremely terrifying, and it was already vaguely comparable to that of the swordsman.

Of course, in terms of cultivation, this man in black is definitely not as good as Senior Sword Ancestor, but this man has a unique atmosphere in the universe, which makes his kendo artistic conception have a meaning of crushing everything.

The kendo displayed by the man in black was as majestic as a mountain and extremely heavy. It seemed that there were thousands of mountains and mountains on top of this divine sword. This kind of kendo seemed to carry an infinite weight.

The cracking sound of "click" sounded. At this time, even if the man in black hadn't made his move, his boundless epee had already pressed the space where it was located, as if it was about to collapse the void. .

Of course, the void of this world is extremely frozen, and this person's swordsmanship cannot easily be crushed, but that feeling makes the person facing him feel as if the whole person is being held down by millions of divine peaks, unable to move and difficult to breathe. , and even the sound of "clicking" bone fragments came from his ears, as if the bones of his whole body were crushed by such an epee.

"Epee?"

Seeing this, Fang Muling's face was troubled. At this moment, she did not dare to underestimate the enemy, and even whispered, "Open."

hum!

This sound fell, and Fang Muling's head seemed to open a world, and a portal appeared above her head.

"Boom, boom, boom..."

When Fang Muling opened the portal, the world shook for a while, and then, a roar was heard incessantly, and the sky darkened.

Qin Chen looked up and saw a huge continent floating above Fang Muling's head.

This huge ancient land has countless waterfalls, each of which is interwoven by the supreme law. When such a law falls, it is like locking hundreds of millions of creatures between heaven and earth.

Such an ancient continent is filled with the invincible atmosphere of ancient times. It seems that there is a supreme being sitting in it. It seems that it only needs to drop a little to suppress the gods and demons and seal the world.

boom!

The power of this ancient continent collided with the Heaven-reaching Sword Dao in an instant, making a shocking roar, and the two forces were constantly colliding.

"Big brother, you come to deal with this girl, I will deal with that kid!"

When the man in black and Fang Muling were confronting, the injured man in white snorted coldly, his figure turned into an afterimage, and he instantly grabbed Qin Chen and took a picture. Obviously, he wanted to take Qin Chen on the spot with one claws. torn to shreds.

[Chapter 5045: let go of my brother](#)

"kill!"

At this time, the man in white took the lead in attacking Qin Chen and roared wildly. At this moment, his body was full of energy, and his protruding claws were like the claws of a dragon protruding from the sky, blocking Qin Chen's surroundings. Void.

He wants to take down Qin Chen first, and then join forces with his elder brother Mu Ling. Hearing the loud noise of "Boom", the incomparably huge body of the man in white slammed into it. It was crushed like a grinding disc, and the sharp claws were cut like a swirling blade, cutting the void directly. ferocious

"Be careful, you hide first, don't get killed."

Seeing this, Fang Muling's face changed greatly. With a backhand, a terrifying whip shadow swept towards the man in white. Obviously, he also saw the purpose of the man in white. He wanted to attack Qin Chen first and then besiege himself.

I finally found someone to work with, how could I die here?

It's just that as soon as she made a move, the man in black also moved suddenly.

"The heavy sword breaks the sky!"

At this moment, the black-clothed man let out a long whistle, and when he heard a loud "bang", his sword fell, and in an instant the entire earth cracked open and was crushed to pieces.

"Damn, suppress the ancients!" Fang Muling shouted in a low voice, the ancient continent above his head rose directly into the sky, the ancient continent supported by blood slammed into the black-clothed man, and when the ancient land slammed, everything seemed to be frozen. In the same way, the power of Dao is instantly blocked.

Suppression, people can't move, they can only watch such an ancient continent crash down, to be able to smash themselves into blood mist.

"Heavy Sword Refinement!" The man in black shouted angrily, and when the sword was raised, he heard the sound of "bang, bang, bang", and the space around the ancient continent was instantly flooded by countless divine swords.

At this moment, the sea of swords came, like a tsunami in the ocean, sweeping everything. Wherever it passed, everything was swept to ashes, and even the world was swallowed up by such a terrifying sea of swords.

boom!

The ancient sword sea and the ancient continent collided, and a powerful force collided.

On the other side, the man in white had already come to Qin Chen.

"Hahaha, this little girl can't protect herself, boy, let's see how you escape."

The man in white laughed loudly, and his terrifying claws directly grabbed Qin Chen. The terrifying power of this force completely imprisoned the void in all directions.

"Damn."

Seeing this, Fang Muling was extremely frightened and furious. Is a sidekick he finally found dying so soon?

Although they didn't get along with Qin Chen for a long time, Fang Muling and Qin Chen got along fairly well.

However, she was already restrained by the man in black, and she couldn't free her hand at all.

Facing the attack of the man in white, Qin Chen seemed to be dumbfounded and motionless.

"Hahaha, isn't this kid stupid?"

The man in white laughed loudly, seeing that his attack was about to land on Qin Chen. Qin Chen, who had not moved before, suddenly moved in an instant, shuh, a space fluctuation flashed, and Qin Chen's figure disappeared in an instant.

The next moment, with a bang, the man in white attacked and fell, the ground cracked, but fell directly into the air.

"What about the kid?"

The man in white was startled.

"careful."

At this moment, the angry voice of the man in black immediately came: "It's on your head."

The man in white hurriedly raised his head, and saw that a figure had appeared above his head. It was Qin Chen. He lifted his foot and stepped down, as if stepping on an ant. "Boy is courting death." The man in white shouted sharply, his hands were immediately in front of him, and with a bang, he instantly felt an incomparably terrifying force coming, such a force was so strong that his arms instantly excruciating pain

, as if to burst.

The next moment, Qin Chen's feet had already stepped on his arms. Hearing a loud "bang", it was as if the ground had been smashed into pieces. At this moment, when Qin Chen stepped down, the huge body of the man in white slammed heavily on the ground and smashed the ground. all smashed

A crack.

The cracking sound of "click" sounded, and blood sputtered.

Under Qin Chen's feet, the body of the man in white was smashed to pieces.

"Ah!" The man in white screamed and screamed, blood spurting wildly, and in his screams, he was full of unwillingness. You know, he and his eldest brother have been doing this kind of thing for many years, who would have thought that it would be here today.

Moreover, his defense is extremely powerful, but under Qin Chen's foot, his arms shattered directly, and he couldn't resist it at all.

This seemingly inconspicuous boy is so powerful.

Under the severe pain, he let out a shrill roar, like a ghost howl.

Such a scene instantly stunned Fang Muling and the man in black not far away.

"How is this possible?"

Fang Muling's eyes widened, this kid stepped on the man in white with one foot?

"You... let go of my second brother."

The man in black also said angrily: "Boy, let go of my second brother, otherwise, today, this seat will cut your body into tens of thousands of pieces.

"Oh? Are you still threatening me at this time?"

Qin Chen glanced at the man in black, smiled lightly, and then slammed his right foot hard.

"Pfft!" Amidst the screams of the black-clothed man, blood gushed out, and the black-clothed man's body was trampled into meat sauce.

Such a strong man was killed here by Qin Chen.

"you..."

The man in black looked grim: "Kill my second brother, die!"

He roared, and sword lights rose up in his body in an instant. Each of these sword lights had the power to cut apart the stars, and shot towards Qin Chen.

A terrifying sword energy instantly enveloped Qin Chen.

"This sword energy? It's interesting."

Qin Chen's eyes narrowed, the sword energy that contained the breath of the universe sea was indeed extraordinary.

However, the strength of the black-clothed man in front of him is not even as good as the attack of the dark clan Emperor Shitian, so how can he be his opponent?

Qin Chen turned his right hand into a sword, and suddenly slashed out with a sword. A roar of "bang" resounded throughout the world. Qin Chen turned the sword into his palm and cut off everything in the world. Nine days and ten places were destroyed by this sword. broken. The way of the heavy sword of the black-clothed man is unparalleled in the world, but under Qin Chen's blow, he heard the sound of a "bang", followed by a cracking sound of "click". , even if it is the way of the heavy sword that weighs billions of stars,

It was also shattered by one blow.

The way of the heavy sword was smashed to pieces, and the terrifying sword energy blasted directly at the man in black, instantly submerging into his body.

With a bang, the man in black was blasted out, blood spurting wildly, blood dripping all over his body. At this time, Qin Chen had already come to the front of the black-clothed man, one leg was raised, and a whip leg was pulled down heavily, and slammed into the epee that the black-clothed man threw out in front of him.

#### [Chapter 5046: half each](#)

At this time, the black-clothed man was full of panic, and he never thought that he would encounter such a powerful enemy here.

In the panic, the man in black could only madly throw the heavy sword in front of him. The next moment, Qin Chen's whip leg was already slapped on him. The void collapsed all of a sudden, and I heard a loud "bang". I saw that after the heavy sword like a mountain was hit by Qin Chen's leg, it instantly made a violent tremor, and at the same time, there was an amazing sound. The sword energy passed through the heavy

The sword was suddenly passed to the body of the man in black.

"Killing Intent Sword Art!" Qin Chen suddenly stimulated the power of killing intent in his body.

"Pfft!" Blood spurted up like a waterfall in the sky, and the body of the man in black was instantly shattered.

With a humming sound, Qin Chen reached out with one hand, took the heavy sword directly in his hand, and then swayed and fell to the ground.

boom!

Immediately afterwards, Qin Chen raised his hand, and the power of the source that was rolling on the man in black was absorbed into the chaotic world and disappeared completely.

This black-clothed man has the power of the universe sea in his origin. Although his cultivation is not strong, it is still a great supplement to the current Qin Chen. After doing all this, Qin Chen's perception fell on the epee in his hand. I have to say that this epee is very good, and it contains amazing power. It is a half-step detachment treasure, although it is far inferior to Mysterious Rusty Sword, But Mysterious

It is best not to take out such a magical weapon like the Rusty Sword now, but with this heavy sword, Qin Chen has a weapon that can be used for the time being.

"good."

Qin Chen nodded with satisfaction, put away the epee, and then raised his hand, the space magic weapon of the man in white and the man in black had already fallen into his hands.

When his divine sense swept into the space magic weapon of the two, Qin Chen was shocked. Among the other's magic weapons, there are stacks of cosmic crystals, most of which are low-grade cosmic crystals given to him by Fang Muling before, at least tens of thousands, and some are obviously above the low-grade cosmic crystals. spar,

The number is only about a few hundred, but the breath of these hundreds of cosmic crystals is not much weaker than the breath of tens of thousands of cosmic crystals.

Qin Chen suddenly understood that this should be a high-grade cosmic crystal above the low-grade cosmic crystal, and it is very likely to be a middle-grade cosmic crystal.

Qin Chen was immediately overjoyed. With these middle-grade cosmic crystals, it is very likely that his cultivation will be completely stabilized in a short period of time, and he will not be afraid of the powerhouses in this cosmic sea at all.

In addition, there are some treasures such as medicinal pills and spiritual medicines in the space magic treasures of these two people, but Qin Chen does not know them yet.

When Qin Chen was pleasantly surprised, Fang Mu Ling's head hung on the ancient mainland, holding a spirit whip, the whole person was completely stunned, and looked at Qin Chen in disbelief.

This...

What just happened?

How in the blink of an eye, the two of them both fell?

"You..." Fang Muling looked at Qin Chen dully,

"What's wrong?" Qin Chen looked at her suspiciously.

"These two guys..." "You mean them, maybe they were careless, and I seized the opportunity to sneak and kill them. We were lucky just now. If it wasn't for their carelessness, maybe I would have been killed by them. Killed." Qin Chen was more than happy

said timidly.

Fang Muling: "..."

Can you be more fake? As long as you kill the opponent with three strikes, two divisions, and two, can the opponent kill you?

"By the way, how did you know they were a group just now?" Qin Chen asked with a frown.

In fact, as soon as he came up, he felt that something was wrong between the two of them, but he didn't have time to remind him in time. He didn't expect Fang Mu Ling to recognize it by himself. Fang Muling came back to his senses, put away his treasures, and said disdainfully: "Who told this guy to say that he is a person from Anyoufu? To pretend to be a person from Anyoufu in front of this maiden... girl is really blind. girl so cheating

No, I still want to rob this girl, hmph, I ate the gall of a bear and a leopard. "

"That's right." Then, Fang Muling looked at Qin Chen with fiery eyes: "The things in the space magic treasure of the two of them... can you lend me a look..."

Qin Chen immediately knew that Fang Muling was tempted by the space magic weapon of the two.

After thinking about it, Qin Chen immediately took out a space magic weapon, and instantly handed it to Fang Muling, saying: "Here, the treasures of those two guys just now, we are two and a half."

Seeing that Qin Chen gave him a space magic weapon without hesitation, Fang Muling was stunned: "Are you really willing to give it to me?"

She glanced at the space magic weapon, and immediately saw that there were tens of thousands of cosmic crystals in this space magic weapon, and even one or two hundred middle-grade cosmic crystals. This kid is willing to take it out?

"Of course, after all, we killed those two people together just now." Qin Chen said lightly.

Fang Muling instantly saw some advanced cosmic crystals in his hands, and said, "Do you know what this is?"

Qin Chen said: "If I guessed correctly, this should be a mid-grade cosmic crystal, right?"

"Do you know that you are willing to give it to me? You know that one middle-grade cosmic crystal is equal to one hundred low-grade cosmic crystals, and the energy contained in the middle-grade cosmic crystal is much stronger and purer than the low-grade cosmic crystal." Fang Muling said. road.

"I'm not an idiot, how can I not see it?" Qin Chen said lightly: "But since we killed these two people together, then the treasure will naturally have half of yours, so it's fair."

"But you killed them all."

Qin Chen shook his head: "You did it too, we are together now, so naturally it's up to you."

"Okay, don't talk too much, let's get out of here first, and then find a place, I have to absorb the cosmic crystals I got before."

Qin Chen even said.

In fact, he felt that the remaining tens of thousands of low-grade cosmic crystals and hundreds of middle-grade cosmic crystals in the space magic weapon were enough for him to absorb for the time being, so he took out half of them.

In a place like Cosmic Sea, he was unfamiliar with his life. At least Fang Muling was a good person. With her following him, it was much more useful than some cosmic crystals.

The voice fell, Qin Chen's figure swayed, and he swept away in an instant.

Looking at Qin Chen's back, Fang Muling stared blankly. Suddenly, she smiled, as if thinking of something, and said, "This guy is really an idiot."

Saying that, Fang Muling smiled and chased after him.

"If you want to absorb the universe crystal, come with me and I will take you to a place."

Fang Muling caught up with Qin Chen, and then flew away in one direction with him.

After a few hours, Fang Muling took Qin Chen to a sloping mountain, where he found a cave. The two entered the depths of the cave, and Fang Muling stood at the entrance and said, "This is a cave I found by chance before. You practice in it, and I will protect the law for you."

Chapter 5047 God of Thunder

After saying all this, Fang Muling turned around and left the cave immediately.

Obviously, she knows very well that when others are cultivating, it is best for others not to stand by.

Seeing that Fang Muling was actually guarding the gate of the cave, Qin Chen smiled slightly, raised his hand, and a series of restrictions were formed immediately, forming a hidden formation, which enveloped the cave.

Immediately afterwards, Qin Chen quickly took out thousands of low-grade cosmic crystals around, and the cosmic crystals were suspended in the surrounding heaven and earth, and a strong cosmic crystal atmosphere permeated immediately.

Immediately afterwards, Qin Chen took out hundreds of middle-grade cosmic crystals. The energy of these middle-grade cosmic crystals was more than a hundred times stronger than that of low-grade cosmic crystals. The pure cosmic crystal energy made Qin Chen breathe with pores all over his body. Couldn't help but relax.

Big supplement, really big supplement.

Qin Chen breathed these breaths greedily. With his current cultivation base, it was extremely difficult to improve his strength in the initial universe, but in this sea of universes, there were enough universe crystals, and he could almost be unrestricted before breaking through detachment. .

call!

Qin Chen sat cross-legged quickly, a large amount of cosmic crystal energy was quickly inhaled into his body, and at the same time he began to convert the source power in his body, converting the source into the most suitable cosmic crystal power for this world.

The source of the universe sea contained in the universe crystal was continuously absorbed by Qin Chen, and soon the original source was compressed and transformed, and a new source was formed.

After Qin Chen had completely used up tens of thousands of low-grade cosmic crystals and hundreds of middle-grade cosmic crystals, most of his source had been compressed and transformed into the source of the sea of cosmos.

Boom!

The source of Qin Chen's body is surging, and he finally has the power of half-step detachment. Under the blessing of this cosmic crystal, his cultivation has truly stepped into the half-step detachment. Realm, the vague aura of detachment permeates him.

Qin Chen was incomparably pleasantly surprised. He never thought that this cosmic crystal would be so powerful, allowing him to directly and completely step into the realm of half-step detachment.

In fact, Qin Chen already had the origin of the detachment of the Black Demon Ancestor in his body. Under the constant insight these days, Qin Chen had a full understanding of the detachment realm, but it was only because it was difficult to break through in the initial universe. As soon as he entered this sea of cosmos, his cultivation was not restricted, and after having enough cosmic crystals, his cultivation immediately exploded, and he entered the realm of half-step detachment in one fell swoop.

At this moment, Qin Chen can clearly feel that his strength has improved a lot.

Qin Chen finally understood why so many people wanted to enter the sea of cosmos. It is really cool to practice in this sea of cosmos.

It's a pity that the cosmic crystals left by himself were enough, so he gave Fang Muling half of the cosmic crystals, but after breaking through the detachment, the cosmic crystals on his body immediately became insufficient.

This is embarrassing.

For the current Qin Chen, it is natural that the more his cultivation is improved, the better. Once the detached powerhouse of the dark clan comes after him again, he will have enough power to protect himself.

But the things have been sent out, so I can't go to others to get them back, can I?

At this moment, some cosmic crystals suddenly floated from outside the cave and fell into Qin Chen's hidden formation. The atmosphere of the cosmic crystals around Qin Chen immediately rose.

These cosmic crystals turned out to be middle-grade cosmic crystals.

Qin Chen raised his head in astonishment.

I heard a cold snort from the entrance of the cave: "I feel that the breath of the cosmic crystal in you is much weaker, is it that the low-grade cosmic crystal can't absorb it? In fact, there are many impurities in the low-grade cosmic crystal, and those who practice in the sea of cosmos all year round are very rare. Few will always absorb low-grade cosmic crystals, not only will they absorb slowly, but they will also accumulate a lot of impurities in the body.

This voice was Fang Muling's.

Qin Chen touched his nose and felt a little embarrassed, but now he really needs to improve his strength, so he's not polite and continues to practice.

boom!

A large amount of cosmic crystal power quickly entered Qin Chen's body.

Outside the cave, Fang Muling glanced at the cave, and muttered a few words at the corners of his mouth, "I don't have money to pay for a big one, cut it!"

Although she said that, the movements in her hands kept on moving. After feeling that the breath of the cosmic crystals in the cave had weakened, she took out some middle-grade cosmic crystals again. directly into the cave.

one.

ten.

One hundred.

...

A middle-grade cosmic crystal entered the cave, but the cultivation in the cave still did not stop.

"What is this kid doing? Why do you need so many middle-grade Cosmic Crystals?"

Fang Muling's face gradually turned ugly.

Originally, she thought that it would be enough to give Qin Chen some middle-grade cosmic crystals. After all, low-grade cosmic crystals absorb impurities, and no matter what, cosmic crystals are more precious. Generally, martial artists will not directly absorb cosmic crystals for cultivation. It is often to absorb the free energy in the cosmic sea.

But now, she has already returned all the mid-grade cosmic crystals that Qin Chen gave her, but the practice inside has not stopped, and he almost doubts whether Qin Chen is engulfing the cosmic crystals.

You must know that a middle-grade cosmic crystal is equivalent to the energy of a hundred low-grade cosmic crystals. For a half-step detachment powerhouse under the general detachment, it is already extremely terrifying to absorb hundreds of them. Those who can absorb hundreds of them, often only those half-step peak detachment.

But now Qin Chen has absorbed hundreds of them, and he is still absorbing them.

But feeling that the cave was still cultivating, Fang Muling sighed, and she continued to transport the middle-grade Cosmic Crystals into it...

At this moment, Fang Muling was a little speechless. He clearly deceived a servant, so why is he now guarding others like a servant? He also diligently sent middle-grade universe crystals to others.

When have you ever done something like this...

In the cave, Qin Chen had completely fallen into the cultivation process. At this moment, the power in his body was surging wildly.

crackling.

When the origin of the universe in Qin Chen's body reached a certain level, the thunder blood in Qin Chen's body immediately surged, and the terrifying thunder surged. Qin Chen was shocked to feel that the thunder in his body was actually changing.

No, it can't be regarded as a transformation, but it seems that the original thunder bloodline is dusty, but under the power of the origin of the universe, his thunder bloodline finally washed away the lead, revealing its original appearance.

boom!

In an instant, Qin Chen turned into a \*\*\*\* of thunder.

#### [Chapter 5048: Blushed](#)

At this moment, terrifying thunders surged out of Qin Chen's body. When the power of these thunders appeared, Qin Chen could clearly feel that his power had increased several times in an instant.

This Qin Chen was shocked to feel the power of thunder in his body. What happened to the power of thunder?

Under the power of the original source of the universe, the power of thunder quickly revealed its original strength, as if the power of the universe was the activator of the power of thunder.

"Could it be that my thunder power comes from the universe sea?"

Qin Chen was stunned.

However, when he thought of the mystery of his father and mother, Qin Chen was a little surprised.

boom! He quickly introverted the power of thunder into his body, not only the power of thunder, but also the totem power of the Nine Heavens God Emperor in his body. It is obvious that the power of the Nine Heavens God Emperor totem has also been greatly improved.

The power of the Nine Heavens God Emperor totem originally came from the power of the universe sea, and immediately showed a more powerful aura under the power of the source of the universe sea.

And when Qin Chen madly absorbed the power of the universe crystal and activated the Thunder bloodline.

Somewhere deep in the cosmic sea.

This is where one of the top forbidden places in the sea of cosmos is located. For hundreds of millions of years, no one or any strong person has been able to break into it and then leave safely. No one knows what this forbidden place contains.

Since ancient times, this place has been a dark and quaint world, deep and cold. For hundreds of millions of years, no one who has broken into this place has been able to survive, and it has been passed down as a forbidden place in the universe.

But at this moment, abruptly, bang, the infinite breath in the entire forbidden area surged in an instant, and under the endless abyss, it seemed that some terrifying existence was awakening.

If a powerhouse sees this scene, they will definitely be shocked, because the surging air flow here is the most terrifying force of destruction in this cosmic sea.

But at this moment, this infinite power of destruction surged, and in this surging power of destruction, a pair of dark golden pupils suddenly appeared between heaven and earth and slowly opened.

A low voice of "Judgment Divine Power" resounded through the heavens and the earth, and with a bang, when this voice sounded, the entire universe sea was roaring, and the rules of the universe sea were shaking, as if it could not bear this force.

This is definitely a peak powerhouse in the universe sea.

Just seeing the dark golden eyes, there are endless worlds circulating, and when the eyes flicker, it seems that a universe is born and destroyed.

The huge voice murmured again, "Interesting, after so many years, the divine power of adjudication finally appeared in this sea of cosmos, it seems that the sea of cosmos that has been calm for many years, finally it is time for the wind to rise again. ?

Let this seat do the math. "

hum! Between the heavens and the earth, the rules of the universe emerge, and they are outlined into a vast rune. This rune penetrates the sky and the earth, as if knowing the past and present, running through the past and future.

Suddenly puff! A muffled sound rang out, and a hint of pain suddenly appeared in the dark golden pupils, and the entire forbidden area boiled in an instant, as if it was about to explode.

"This is a shield from heaven, and yes, with that person's strength, how could there be such an obvious loophole."

The dark golden eyes stared at the heaven and the earth. After an unknown time, the dark golden eyes finally slowly closed and disappeared into the endless abyss, as if they had never appeared.

Not just here.

At this moment, all over the cosmos sea, there are terrifying breaths awakening, and in the dark, I feel a throbbing.

Returning to the ruins, Qin Chen naturally didn't know all of this.

Three days have passed in the cave, and Qin Chen doesn't know how many mid-grade cosmic crystals he has consumed, but in a vague way, Qin Chen can also feel that the cosmic crystals he consumes are definitely an astonishing number.

And after so many middle-grade cosmic crystals were absorbed, the source in Qin Chen's body was finally completely transformed into the source power of this cosmic sea.

At the same time, Qin Chen's cultivation has also quietly entered the realm of half-step peak detachment.

At this moment, Qin Chen felt that his strength had undergone earth-shaking changes. Although he had not yet stepped into the realm of detachment, Qin Chen was secretly frightened by the powerful feeling of strength.

After stopping the practice, Qin Chen glanced at the space magic weapon he had obtained before. It was empty and the cosmic crystal was almost swept away. Except for some remaining materials and medicinal pills, there was almost nothing left.

After putting away the hidden formation, Qin Chen walked outside the cave.

Then Qin Chen saw a figure at the door looking at him resentfully. Who else could it be if it wasn't Fang Muling?

After seeing Qin Chen come out, Fang Muling did not hesitate, and the whip in his hand turned into a black shadow and rolled towards Qin Chen.

Qin Chen was stunned, wondering why Fang Muling would suddenly do something to himself. He frowned slightly and punched out subconsciously. At this moment, the source in his body had been completely transformed into the source of the sea of cosmos, and his magical powers operated more freely, almost At the moment when the long whip swept in, he was blasted away by his punch.

boom! The void vibrated, and the entire cave collapsed directly under this blow, turning into powder.

"What are you doing?"

Qin Chen asked with some doubts, he could feel that Fang Muling didn't show any killing intent when he used the spirit whip.

"Hmph, do you know how many mid-grade cosmic crystals you have absorbed these days?"

In addition to the hundreds you gave me, I have put up thousands of them myself," Fang Muling said speechlessly.

Qin Chen was taken aback: "How many thousands?"

Fang Muling couldn't help but said: "Hey, you don't want to recognize it, right?"

I just tried to see if you have absorbed these middle-grade cosmic crystals. Hmph, how can normal people absorb so many middle-grade cosmic crystals?

Unless you are a detached powerhouse, but now it seems that the breath of your body has been completely transformed into the power of the source of the universe, so you shouldn't lie to this girl. "

Qin Chen couldn't help but touched his nose and smiled bitterly.

In retrospect, he did absorb at least several thousand middle-grade cosmic crystals, and he had only a few hundred in total before, so the rest must be given by this Fangmu Ling.

You must know that one middle-grade cosmic crystal is equal to one hundred low-grade cosmic crystals, and these thousands of middle-grade cosmic crystals are not a small sum in this cosmic sea.

"No, you have so many middle-grade cosmic crystals on your body, why did you just give me a dozen low-grade cosmic crystals?"

Suddenly Qin Chen seemed to have thought of something?

blurted out.

A middle-grade cosmic crystal is equivalent to a hundred low-grade cosmic crystals, but when he borrowed it from the other party before, the other party only gave him a dozen low-grade cosmic crystals in total.

This is too stingy, right?

Hearing Qin Chen's words, the girl's face turned red.

#### [Chapter 5049: floating island](#)

Fang Muling snorted coldly: "It's good enough to give you more than a dozen low-grade cosmic crystals. I rescued you at that time, do you still think it's too little? Let's go, if you don't rush over, the secret realm of returning to the ruins will be opened. It will be troublesome then."

After saying this, Fang Muling flew up and disappeared from Qin Chen's sight in an instant.

Qin Chen shook his head with a wry smile, followed immediately, and also disappeared between heaven and earth.

Just as Qin Chen and Fang Muling were swiftly flying in this return to the ruins...

In a world that is extremely far away from this place, suddenly, a gap in the void suddenly appeared, and then a figure flew out from the gap.

"here is?"

As soon as this figure appeared in this world, he looked around suspiciously. Suddenly, a black afterimage rushed towards him quickly. The man was shocked and punched out.

boom!

The terrifying power of detachment erupted, and the void instantly turned into ripples under this fist, and the terrifying fist swept in all directions like a vast ocean, colliding with the black shadow.

With a squeak, the black afterimage made a fierce hissing sound, and was instantly blasted away, and then stared at the figure in front of him.

It seems that it is not simple to feel the person coming. After the black afterimage screamed, its figure swayed and quickly disappeared between the heaven and the earth.

"God owl?"

The black figure looked around, and there was a hint of excitement in his expression: "Could it be that this is the place of return to the ruins?"

At this moment, his heart was full of excitement. The Land of Returning Ruins, it is a famous mysterious secret realm in the sea of cosmos. There are opportunities for people to break through the realm of detachment. Although he is already a detached powerhouse, if he can get some benefits from the secret realm of Returning Ruins

, it will be of great benefit to his cultivation.

"It is rumored that this secret realm of returning to the ruins is the fallen relic of a top-level detachment from the space system. It has reached the end of the evolutionary road. If I can get this person's inheritance, maybe..." The black figure's eyes and pupils Immediately there was excitement in the middle: "At that time, even if you can't kill those two guys, the ancestor will definitely not blame me, hahaha, go, hurry over, the place of return to the ruins appears, indicating that this

Not long after the secret realm opened, maybe it's still too late." This figure quickly rose to the sky, staring at the distant sky, under his eyes, the distant void instantly became clear, and the end of the endless void could be vaguely seen, there seemed to be an amazing space. Power surge

move.

This person is none other than the dark detachment powerhouse that the dark clan pursued to kill Qin Chen and Xiaoyao Supreme.

"I see, the power of the void space fluctuates most violently, and it must be the entrance to the secret realm."

The voice fell, and the dark detachment powerhouse flickered, disappeared in an instant between heaven and earth, and went to the entrance of the secret realm. On the other side, Qin Chen and Fang Muling flew quickly in the void. This Fang Muling seemed to be very familiar with this place. They led the way ahead. After three days, Qin Chen and Fang Muling finally landed on a floating island with an incomparable atmosphere.

superior.

As soon as Qin Chen landed on the floating island, he felt the strange space atmosphere on the floating island. The entire space on the floating island seems to be confused. You are clearly seeing one side of the floating island, but when you land, you are already standing on the other side of the floating island. what you perceive,

not in one place.

"What a weird space atmosphere."

Qin Chen was taken aback secretly, the rules of this spatial disorder are extremely profound, and even his cultivation base cannot see through. "Be careful, this floating island is the entrance to the secret realm of the return to the ruins, and it is also one of the places with the most serious spatial confusion in the return to the ruins. If you accidentally enter the cracks of the spatial confusion, you will be caught in an instant. torn into

Fragments, follow me, it will be much better when you are inside the floating island. "

Fang Muling said seriously to Qin Chen, and then carefully walked ahead.

Although Qin Chen was extremely confident in his physical defense, he didn't dare to rush in at this time. He immediately followed behind Fang Muling and followed step by step.

The void ahead is chaotic, and what you see in front of you is not reality at all, as if layers of space are folded up.

"I don't know if my eye of creation can see through the things here."

Suddenly, Qin Chen's heart moved, and he suddenly opened his eyes of creation, hum, a trace of invisible fluctuations quietly dissipated.

In an instant, the void in front of him suddenly appeared in front of him, and the world in front of him seemed to be composed of mirrors.

This eye of creation can really see through the void here?

Although many places still look blurry, it is much better than chance.

Qin Chen stared around. At first, he didn't dare to relax too much, but gradually, Qin Chen also felt some of the rules here and began to be bold.

The space here looks chaotic, but it is actually determined according to the circulation of space, and it is in constant flow. Gradually, Qin Chen also felt some laws here. In front, Fang Muling walked in front, and couldn't help but look at Qin Chen in surprise. Although she was leading the way, the void here is constantly changing. At the beginning, Fang Muling was worried that Qin Chen would encounter the folds here. virtual

Kong, but after so long, Qin Chen didn't touch the void barrier here at all, but Fang Muling was a little surprised.

"Is this guy still quite sensitive?"

Fang Muling was thoughtful.

The two walked for about an hour, and suddenly, the folded void in front disappeared, and then a lively and vast world appeared in Qin Chen's line of sight.

I saw that in the void in front of the two, there were actually caves stationed, and there was a small market between the caves, and many stalls were also placed in it.

In the middle of this floating island, there is a small market!

In this small market, people came and went, and it was very lively. The warriors who exuded a powerful atmosphere were constantly communicating, as if they were a lively city, and Qin Chen was dumbfounded.

"Haha, are you surprised?" Fang Muling couldn't help laughing when he saw Qin Chen's surprised expression: "The Secret Realm of Returning Ruins is about to open, and now here are all the powerhouses who entered the Land of Returning Ruins, This floating island is the entrance to the secret realm.

Before the secret realm opens, the powerhouses gathered here will trade with each other and prepare something. "Fang Muling explained in detail.

Chapter 5050 The arrival of detachment

Qin Chen looked around attentively.

I saw a lot of booths in front of the caves, and each booth had a lot of things on it, and there were restrictions on the booths. You can watch these treasures through the restrictions, but you can't easily touch these treasures.

In this market, there are many people, but there is no order and chaos. There is a cave house and a booth everywhere, just like a primitive folk meeting place, or it is a folk meeting place. People here come here by accident.

In the sky above the middle of the floating island, there is a dark crack. This crack is constantly rotating, like a black hole, and some space debris is constantly escaping from the black hole.

The aura of this space was extremely terrifying, and Qin Chen felt an extremely terrifying space pressure lingering around him, making him feel suffocated.

"What a terrifying space coercion."

Qin Chen's face changed slightly, and he had a feeling that if he rashly broke into this space crack, he would be directly torn into pieces by this terrifying space crack.

"This is the entrance to the Guixu Secret Realm. Now the entrance to the Guixu Secret Realm is still very dangerous. If you dare to break in, you will surely die, let alone you. Even a detached powerhouse can't resist this tearing. The power will be instantly torn into pieces, so even if the detached powerhouse comes here, he has to wait for the secret realm to open."

Fang Muling explained on the side.

"There are detached powerhouses here?"

Qin Chen was immediately shocked.

Fang Muling nodded and said: "Of course, the opening of the return to the ruins is random, and there will naturally be detached powerhouses brought here, but detached powerhouses are generally not allowed to do anything here, because the power fluctuations of the detachment will lead to The suppression of the land of returning to the ruins is easy to be attacked by the cracks in space. Even if it can withstand the attack, it will be repelled by the land of returning to the ruins. Only after entering the secret realm, the detached powerhouse can take action arbitrarily, so ordinary people like us Martial Artists are actually very safe on this floating island."

Qin Chen breathed a sigh of relief when he heard the words. If the detachment powerhouse couldn't do it here, then he would obviously be much safer. Even if the dark detachment powerhouse could track him down, he would have a chance to turn around.

Thinking in his heart, Qin Chen saw many materials and treasures on the stall next to him at the same time.

He originally wanted to see what good things were here, but when he saw the price of these treasures, he immediately dismissed the idea.

It has been clearly written on the booth that the cheap treasures above are all dozens of middle-grade cosmic crystals, that is, several thousand low-grade cosmic crystals, and the more expensive ones are even worth hundreds of middle-grade cosmic crystals.

Qin Chen's previous practice had consumed the middle-grade cosmic crystals on his body, and there were only a few low-grade cosmic crystals left. Adding up all his money, it is estimated that he could not buy too many treasures.

Qin Chen's eyes fell on one of the supreme treasures. This supreme treasure was priced at 3,000 low-grade cosmic crystals, which gave Qin Chen a general understanding of the value of the treasures here.

Ordinary supreme treasures are the cheapest, slightly more expensive supreme treasures are many times more expensive, and some half-step detachment treasures are almost rare, because half-step detachment treasures are considered a kind of treasure for most powerhouses. It is a treasure, except that it is obtained after killing the enemy, and it is useless for oneself and can be sold, and generally will not be traded.

Compared with the price of Supreme Treasures, the prices of some materials that Qin Chen had never seen were ridiculously high. Qin Chen even saw that there were tens of thousands of middle-grade Cosmic Crystal Treasures priced.

Qin Chen thought of some unknown materials and treasures in the space magic treasure of the two guys he killed before, and his heart suddenly moved.

Through previous training, Qin Chen is very clear that he needs a lot of cosmic crystals to improve, especially middle-grade cosmic crystals, and he no longer has any middle-grade cosmic crystals, and he even owes Fang Muling a lot.

Those materials and treasures do not know their function, and they are generally not used. If they can be sold, they may be able to get a lot of wealth.

The only trouble now is that Qin Chen doesn't know the materials and other treasures in the universe sea at all.

He immediately had an idea in his heart, and the other party immediately asked Mu Ling: "Do you have any jade slips on you that introduce various materials and treasures of the Universe Sea?"

Fang Muling knew what Qin Chen was going to do as soon as he heard it, and said directly: "Do you want to sell the materials in the space magic weapon of those two guys? It's simple, just leave it to me, and I will definitely help you sell it. A good price."

Qin Chen said: "I can sell it to you, but I want to find out what materials these are first."

Fang Muling said disdainfully, "Are you still afraid that I will hack your things?"

"That was not what I meant."

Qin Chen was speechless, he really wanted to know the situation of this cosmic sea.

Fang Muling didn't speak, and went directly to a booth and said, "Do you have any jade slips here that specifically introduce the various materials of the Universe Sea?"

The middle-aged man who set up the stall glanced at Fang Muling, took out two jade slips and handed them to Fang Muling and said, "These two jade slips contain introductions to various treasures and some materials. Each jade slip costs ten pieces. A mid-grade cosmic crystal."

Qin Chen was embarrassed when he heard it. One jade slip was worth ten middle-grade cosmic crystals, which was equivalent to a thousand low-grade cosmic crystals. The price was a bit too expensive.

And he doesn't even have a middle-grade universe crystal on him now.

Fang Muling turned to Qin Chen and said, "You give me two hundred low-grade universe crystals."

Qin Chen was stunned for a while, and immediately took it out. He still had two hundred low-grade universe crystals.

After taking Qin Chen's low-grade cosmic crystal, Fang Muling placed it directly on the other side's booth: "Here, here are two hundred low-grade cosmic crystals, and I want two jade slips."

Qin Chen was taken aback.

The middle-aged man was also stunned, and couldn't help but look ugly, "I'm talking about one middle-grade cosmic crystal. You are not enough, and it's a low-grade cosmic crystal."

Fang Muling said disdainfully: "Okay, this kind of jade slip is worth dozens of low-grade cosmic crystals at most. I'll give you one hundred and one is enough."

The middle-aged man said with an ugly face: "You also said that you are outside, and now you are in the Land of Returning Ruins, not outside."

Fang Muling picked up the cosmic crystal and said, "Forget it if you don't sell it. Although this is the place of return to the ruins, there are many people who sell jade slips of this type. If you don't sell them, people will sell them."

After speaking, Fang Muling turned around and was about to leave.

"Okay, I'll sell you." The middle-aged man hurriedly stopped Fang Muling.

Fang Muling handed over two hundred low-grade universe crystals, and then handed the two jade slips to Qin Chen, "Here."

Qin Chen connected the jade slip, and his divine sense swept into it to check.

At this moment, a terrifying breath suddenly came, and with a bang, a figure descended directly from the periphery of the floating island and landed on the floating island.

As soon as this figure fell, a terrifying detachment aura quickly spread out, instantly attracting the attention of the entire floating island.
