

## Valkyrie 5051

### [Chapter 5051: well-deserved reputation](#)

Is the transcendence of the strong.

As soon as this figure fell, many people were now alarmed, and they all walked out of their caves and stared at the figure. Any detachment powerhouse can be regarded as a master in a place like Cosmic Sea, which should not be underestimated, and it is still in the land of return to the ruins, although before the return of the secret realm of return to the ruins, the detachment powerhouse can't do anything to the people present, but Bi Ruins.

After all, everyone is in a competitive relationship and has to be guarded.

At this time, Qin Chen was also shocked. Could it be that the master of the dark and detached family found here?

But when he saw the other's face, he couldn't help but breathe a sigh of relief.

Although the person in front of him was wearing a black robe, with a hawk-like face, and a gloomy aura, it was not the detached powerhouse of the dark family who was chasing him, but other detached powerhouses. This made Qin Chen sigh with emotion. He had been in the initial universe for so long, and he had also seen the three detachment of the Black Demon Ancestor Emperor, the Ancestor of the Dark Clan, and the terrifying existence in the tidal sea of the void.

I saw two transcendental powerhouses.

As soon as the detached powerhouse fell, his eyes quickly glanced around, as if he was looking for something.

"Let's go, let's go back to the cave."

At this moment, Fang Muling, who was beside Qin Chen, suddenly said something in a panic, and then hurriedly stood with Qin Chen, facing the detached powerhouse with gray hair and beard, as if he was avoiding something.

Although Fang Muling concealed it well, the panic in her eyes could not be concealed.

Qin Chen frowned. Could it be that Fang Muling knew this gray-bearded detachment powerhouse?

"You..." Qin Chen was just about to speak, but Fang Muling didn't wait for Qin Chen to speak, he grabbed his hand, and then half of his body leaned on Qin Chen's body, and said weakly: "I'm a little uncomfortable, you help me I'll go back to the cave, and, hug

Follow me, don't let go. "

Qin Chen: "..."

If he couldn't see that something was wrong with Fang Muling at this time, then he had been fooling around for so many years, but he didn't say anything, just put his arms around Fang Muling's waist, and then helped her to walk forward.

Fang Muling was lying in Qin Chen's arms, as if she was extremely weak, but Qin Chen could sense that she had been sensing the surroundings all the time, and seemed to be guarding against the detached powerhouse with gray beards.

Qin Chen's head suddenly ached. He had not recovered from being chased and killed by the dark clan, but unexpectedly, he encountered such trouble again.

But it is absolutely impossible for him to throw Fang Muling here.

"Go ahead, I have a cave in front of me, be careful, don't show anything strange, and can you hold me tighter? Anyone like you can see that you and I are not a couple..."

Fang Muling was vigilant about the surroundings, while transmitting sound to Qin Chen, and even pulled Qin Chen to make him hug him a little stronger.

At first, Qin Chen just held Fang Muling's waist, but when he heard the words, he immediately put his palm on Fang Muling's waist. In an instant, the woman's soft waist was reflected in Qin Chen's perception.

so soft.

It has to be said that Fang Muling looks average from the outside, but when Qin Chen really touched it, he realized that the other party was like a devil. Through the robe, he could clearly feel the elasticity of the skin transmitted from the other party's waist.

Moreover, the opponent's waist is extremely slender, and it is really like a Yingying grip. However, Qin Chen's mind was not on the other party, but looked at the detached powerhouse behind him. After this person fell, he didn't seem to be interested in this place, but was looking for something. The tyrannical consciousness spread directly, and he even wanted to

Infiltrate into some cave houses on this floating island.

This unbridled feeling made everyone present look ugly. Just as his divine consciousness was rampaging, there was a sudden bang, and in a cave in the center of the floating island, a terrifying aura suddenly came out.

, immediately triggered an amazing spiritual whirlpool.

"My friend, this is the place of return to the ruins. Everyone is waiting for the secret realm of the ruins to open to find opportunities. There is no need to be so arrogant, right? Why don't you be calm?"

A deep voice came out from the cave and echoed on the floating island, causing bursts of roars.

"It's a \*\*\*\* from afar!"

"The Venerable Yuandao has spoken."

There were bursts of excitement from the crowd, and it was obvious that many people present knew the detached master who spoke in the cave.

"Distant God Venerable?" The gray-bearded old man glanced at the cave where the voice came from, his eyes flashed coldly, and then he looked up at the black hole at the entrance to the Secret Realm of Guixu above his head. After a moment of silence, he did not continue. Explore with consciousness, but

When he came to a cave at the center of the floating island, he said coldly, "I want the seat of this cave."

In front of this cave, a strong man was standing there, with a trace of detachment lingering on his body. He was obviously a master who had reached the peak of detachment by half a step, and he was even only one step away from detachment.

None of the people who can be in the center of this floating island are ordinary people, all of them are top experts.

"It's the King of the Golden Sword. He is a strong man in Tianjian Continent. He has reached the peak of half-step detachment a million years ago. It is said that he can enter the detachment realm at any time."

"The location of the Golden Sword King's cave mansion is excellent. This is the cave mansion that has been favored by others."

The crowd couldn't help but discuss.

"What? If you haven't left yet, why don't you want to be invited by this seat?"

The gray-bearded detachment powerhouse said coldly.

King Jinjian turned blue and white for a while, and finally turned around and left his cave.

He didn't dare to bet on whether the other party dared to do something, because even if the other party was afraid of space suppression and did not do it for the time being, it would not be worth the harm to offend such a master for the sake of a cave dwelling.

This gray-haired man was detached from seeing the King of the Golden Sword leaving, and directly occupied the cave that belonged to him.

"King Jinjian is also known as the master of Tianjian Continent. He was occupied by people in the cave, and he didn't even dare to let a fart."

In the crowd, someone sneered.

puff!

Suddenly a sword light came, and with a bang, the person who opened the mouth instantly enveloped the person who opened his mouth. The person's eyes showed a look of horror, and he hurriedly said:

"Rao..."

Before the words fell, with a bang, his body shattered directly, and was cut into nothingness by the golden sword energy. All the people around watched in horror as the sword energy swept out, only to see the Golden Sword King snorted coldly, walked directly to the man's cave, picked up the man's space magic weapon, and then directly broke the restriction of the man's cave. , into the man's hole

Fuzhong.

The crowd was silent. The man just now was considered a master who had touched the realm of detachment by half a step, but in the hands of the Golden Sword King, he could not even take a single move. The Golden Sword King's strength was well-deserved.

#### [Chapter 5052: Black smoke cloud dark stone](#)

At this moment, everyone on the field was shocked.

The fear of the Golden Sword King is even more than that of the detached powerhouse. After all, the detached powerhouse cannot do anything in this floating island, and it doesn't matter how a half-step peak detached powerhouse like the Golden Sword King does it. .

"Okay, don't waste time here, go back to the cave first."

Fang Muling sent Qin Chen a sound transmission, and he was obviously relieved to see that the detached powerhouse with gray beards did not continue to search.

As she spoke, she led the way, and soon came to a cave.

hum!

As soon as Fang Muling raised his hand, he saw that the ban outside the cave was instantly opened, and then Fang Muling walked in quickly with Qin Chen.

This is a rather delicate cave mansion, there is no space in it, Qin Chen looked at the cave mansion in astonishment, and said, "This cave mansion is..."

"This is the cave I set up here before." Fang Mu Ling said, and then quickly released Qin Chen. After coming to this cave, she relaxed a lot and patted her chest. Qin Chen glanced outside the cave mansion. The location of this cave mansion is quite good. It is located not far from the center of the floating island. Here, you can clearly see the space crack in the middle of the floating island. , you can

Immediately see the movement there, you can go there as soon as possible.

"Won't your cave dwelling be taken away from you if you put it here?"

Qin Chen couldn't help but ask when he thought of the Golden Sword King plundering other people's caves before. "Hehe, others don't know if there is anyone here, so how could they come to take my cave so easily?" Fang Muling said easily: "Don't think that you can do anything here, but in fact, before you are fully sure, most people will not

Do it casually, after all, everyone is sent in immediately, who knows who lives in this cave? "

"Moreover, being able to enter the Secret Realm of Returning Ruins is an opportunity. Who would offend others for a small cave at this time. It was just a special situation just now."

"Okay, I'm going to rest next time, you help me maintain the operation of the Dongfu ban."

Fang Muling said, lying directly on the bed in his cave, stretched comfortably, then took out a chicken leg, nibbled it directly, and couldn't help nodding: "Well, I really want to."

"Did you know the detached powerhouse just now?"

At this moment, Qin Chen suddenly asked.

"Uh."

The chicken leg in Fang Muling's hand suddenly froze, and then she shook her head and said, "How can I know such a powerful character as the detached powerhouse, I don't know, I don't know..."

Qin Chen glanced at Fang Muling, and at a glance he could see that Fang Yan was not sincere.

However, since Fang Muling was reluctant to say it, Qin Chen would not dismantle it either. He thought for a while and said: "The detachment powerhouse just now is very strong, and his body is cold, obviously he is not a simple guy, if you have a grudge against the other party, try to be careful, if you need anything, you can also tell

I, I'll do it for you, try not to expose it. "

After saying this, Qin Chen turned around and left the cave.

Fang Muling looked at the back of Qin Chen's departure, a little dazed, as if he knew Qin Chen for the first time, and a happy smile appeared on the corner of his mouth: "This fool."

Outside the cave.

Qin Chen took out the jade slip from before, and felt it carefully. Soon, information about various treasures and materials appeared in front of him.

While Qin Chen was memorizing, he was also comparing the materials in the space magic weapon of the two people before. When he saw a few of the materials, he immediately showed joy. Black smoke cloud dark stone, the top material for refining magic weapons, magic weapons refined with this material have the advantage of tearing the opponent's true essence. The whole body of the black smoke cloud and dark stone is dark, and there is a cold feeling in the hand. Qin Chen didn't know this before.

The material is now finally clear. Silver Light Feather is the top material for refining flying magic weapons. This thing is added to the flying magic weapons to improve the ability of flying magic weapons to break through the air. Moreover, it contains a special power of space, and it also has a certain effect on the martial artist's perception of the laws of space.

help.

Divine Illumination Stone, a white jade stone, is used to warm the consciousness and strengthen the soul. It can not only restore the consumed consciousness very quickly, but also help to improve the cultivation of the consciousness. It is a rare soul material in the Cosmic Sea, and it is extremely difficult to obtain.

It's no wonder that when I checked this stone earlier, my consciousness and soul realm had a very comfortable feeling.

...

After a brief scan of the jade slip, Qin Chen found that the materials he obtained from those two guys were all top-notch materials.

However, the best of these materials are only half-step detached peak-level materials, and there is no detached-level material.

Think about it too, detachment materials are extremely precious, and generally few people get them.

After understanding the use of these things, Qin Chen immediately put away the jade slip and moved his perception to the black jade. Black smoke cloud dark stone, the top material for refining magic weapons, can tear the true essence of warriors. If such a treasure is in the universe, it will definitely attract many experts to spy on it, but at present, this stone is the most useless to Qin Chen.

of. Because many of other people's weapons are half-step detachment weapons, if you can add such a black smoke cloud and dark stone, you can definitely improve your strength a lot, but Qin Chen has a detachment treasure like the mysterious rust sword, and such materials are useless.

.

After repeated weighing, Qin Chen decided to sell this black smoke cloud dark stone.

He came to the outside of the cave, set up a booth directly, and then put this black smoke cloud dark stone on it.

Although this jade slip introduced the information about the black smoke cloud dark stone, Qin Chen did not know its specific price, but he guessed that the black smoke cloud dark stone was definitely worth two hundred middle-grade cosmic crystals. After setting up his booth, Qin Chen arranged a ban to restrain the black smoke cloud and dark stone, and he could only watch it, but could not take it away, so he shouted loudly, "I got a 'black smoke cloud dark stone' by accident, Want to sell now

Those who want 'Black Smoke Cloud Dark Stone' can bid..."

Qin Chen didn't need to call the second sentence at all. As soon as he said the five words of black smoke cloud and dark stone, a bunch of people rushed in immediately, and there were even many people who surpassed the peak level by half a step.

The only luck is that it did not attract a master of detachment.

After all, this is only a half-step detachment-level material, and it should not attract detachment-level masters.

"Hey, is it really a black smoke cloud dark stone? And the quality is not low."

"This is a good thing. This guy is actually willing to sell it. Incorporating it into a weapon can at least increase its destructive power by 20%."

"Friend, how do you sell this black smoke cloud dark stone? In a moment, all kinds of discussions are ringing around, and several eager warriors have begun to inquire Qin Chen constantly.

### [Chapter 5053: Black Eagle King](#)

Qin Chen didn't know the exact price of the Black Smoky Cloud and Dark Stone at all, and where could he quote the real price, so he clasped his fists and said, "I got this Black Smoky Cloud Dark Stone by chance. I took advantage of everyone's presence today, so I want it. Sell at a good price.

As for the price, I won't give it myself. Looking at the quotation, I will only sell it to the one with the highest price, and only the mid-grade cosmic crystal. "

"I produced three hundred middle-grade Cosmic Crystals."

As soon as Qin Chen's voice fell, someone immediately made an offer.

Qin Chen was suddenly pleasantly surprised. He didn't expect the price of Black Smoke Cloud Dark Stone to be so precious. The first price was 300 middle-grade Cosmic Crystals, which was a little more than he originally imagined.

Whether or not anyone has added the price, he is satisfied.

It's just that the voice has not completely fallen, and someone on the side sarcastically said, "How dare you buy a black smoke cloud and dark stone in a mere 300 middle-grade cosmic crystal?"

I will give out five hundred mid-grade cosmic crystals." "Wait, I will give out six hundred. "

A gloomy voice interrupted the surrounding discussions.

When everyone looked up, they saw a thin, eagle-eyed man approaching.

Seeing this person, the faces of the others around him showed a hint of horror.

"It's the Black Eagle King!"

"He's actually here too."

"This person is rumored to be extremely cruel, so it's better not to fight with him."

Many people were discussing in secret, and they all gave way.

"Everyone, this black smoke cloud and dark stone seat has already taken a fancy to."

After Hei Ying Dharma King said this, he looked at the others around him, his eyes were cold and severe, and the two people who had offered the price before his eyes lowered their heads one after another.

This Black Eagle Dharma King is a lunatic. It is really unnecessary to offend such a master for a piece of black smoke cloud and dark stone.

"This is the six hundred middle-grade universe crystal, bring the black smoke cloud dark stone."

The Black Eagle King took out a storage ring and said coldly, his eyes fell on Qin Chen, and his eyes were like a knife on Qin Chen's body.

Qin Chen frowned, the other party's eyes made him very uncomfortable, but this place was originally for the high-priced person, Qin Chen naturally wouldn't challenge the other party for this matter.

It is the kingly way to get the middle grade universe crystal.

Just when Qin Chen was about to trade, "I will issue a thousand middle-grade cosmic crystals."

An indifferent voice came. This man had a square scarf on his face, and even a man with a hazy cultivation base came over and offered a thousand for the first time.

It is hard to say whether the Black Smoke Cloud Dark Stone is worth a thousand middle-grade Cosmic Crystals, but everyone knows that it is definitely not easy for those who dare to grab something from the Black Eagle King.

As soon as Qin Chen saw this person, he knew that this person's cultivation had definitely reached the peak of half-step detachment, and he was only one step away from entering the existence of detachment.

He was very satisfied with a thousand middle-grade cosmic crystals, and he didn't want to continue selling it at all.

The face of the Black Eagle Dharma King immediately turned gloomy, looking at the man, he said coldly: "My friend, are you not giving me the Black Eagle Dharma King face?"

"face?"

The man with the black mask on his face looked at His Holiness the Black Eagle coldly and sneered: "The face is earned by myself, not given by others. If you have the ability, you can pay a higher price yourself, or shut up."

"You" King Black Eagle's face sank, bang, and a terrifying aura surged from his body, while the man with the mask looked indifferent, looked at King Black Eagle with disdain, and the same terrifying aura surged from his body again. The breath collided violently in the void, forming a terrifying hurricane.

Hei Ying frowned, obviously feeling that the other party was not easy, he turned to look at Qin Chen, and said coldly: "Your Excellency, this seat made the bid first, if you believe me, I am also willing to pay. A thousand middle-grade cosmic crystals, but I don't have that many middle-grade cosmic crystals on my body for now, I will give you more when this seat returns, and I can even give you dozens more."

"Sorry, I don't have any credit rules here."

After Qin Chen said a plain sentence to the Black Eagle Dharma King, he turned his head and said to the man wearing the mask, "Pay a thousand middle-grade cosmic crystals, and the black smoke cloud dark stone is yours."

The masked man glanced at Qin Chen and threw out a storage space for Qin Chen. Qin Chen's consciousness swept a little, and he could already see that there were a thousand middle-grade cosmic crystals in the storage space, and there were not many of them. .

He immediately took out the black smoke cloud dark stone from the ban, packed it in a jade box, and threw it to the masked man.

Heiyong Dharma King's face was livid, his eyes gloomy as if he could kill someone. He could not have imagined that Qin Chen would dare to reject him, a kid from nowhere who dared to reject him Black Eagle Dharma King, he didn't know whether to live or die.

"Boy, you are courting death."

His Holiness the Black Eagle glanced at so many people at the scene, his face instantly flushed red, and suddenly his palms turned into sharp claws and snapped at Qin Chen.

Seeing this, everyone around them changed color and hurriedly backed away. This Black Eagle King was too arrogant, and he actually started to do it directly. However, under the detachment here, the Black Eagle King is indeed not afraid of anyone.

That kid is going to be out of luck.

With a bang, I saw the entire void vibrate directly, and the black claws of the Black Eagle Dharma King directly slammed into the ban in front of Qin Chen. To break the ban in front of Qin Chen, Qin Chen must be killed.

Qin Chen's face sank. He didn't expect these guys to be so immoral here that they would kill people if they didn't shoot.

As soon as his mind moved, Qin Chen immediately prepared to take out the epee, just at this moment— Boom! A terrifying detachment aura swept through the heavens and the earth, and another black figure came from outside the floating island.

Dharma King Black Eagle was shocked when he saw this, and even stopped his hands to restrain his breath, and the others looked over in horror.

Just saw above the distant sky, a figure fell, and the whole body was haunted by darkness.

"It's him."

When Qin Chen saw that person, he was immediately shocked, and he immediately saw that the person who came was the detachment of the dark family who were chasing him.

Hei Ying Dharma King did not dare to do anything when he saw the emergence of detachment. At this time, it was easy for the dark detachment powerhouse to regard him as provoking the opponent. He immediately restrained his breath, and then glanced at Qin Chen coldly. , said coldly, "Boy, wait for this seat."

"what happened?"

At this time, Fang Muling also felt the fluctuating aura of the outside world, and came to the outside of the cave for the first time.

Everyone was stunned for a moment. Obviously, they didn't expect that there were two people in this cave, and the other party was a woman.

It seems that these two are Taoist couples.

Everyone's eyes fell on Fang Muling's face for the first time, and after seeing Fang Muling's appearance, they all turned their attention.

"It's okay, there is another detachment."

Hearing Fang Muling's question, Qin Chen replied directly, and then ignored the threat of the Black Eagle King, turned around and entered the cave.

He dare not continue to stand outside, if he is seen by the dark detachment powerhouse, it will be troublesome.

Seeing Qin Chen's hurried look, Fang Muling looked at Qin Chen's back suspiciously, and then looked at the dark detachment in the distance, thoughtfully.

#### [Chapter 5054: Roast Leg of Lamb](#)

This dark detachment glanced at the situation at the scene, his eyes narrowed slightly, and then his eyes searched around the market.

"I wonder if those two boys are here?"

Boom!

A terrifying dark aura quickly spread out, ramming in all directions.

The faces of the others around them turned pale.

"Friends of the Dark Clan, this is the Secret Realm of Returning Ruins. Now that the Secret Realm is still open, there is no need to make such a big move, right?"

A rumbling voice resounded, and it was the voice of the God Venerable from afar.

"Distant God Venerable?"

The dark detachment frowned and glanced at the other party. This is a loose cultivator detachment in the sea of cosmos, and it is also somewhat famous. He snorted coldly and was just about to speak, when another detachment aura slowly rose up, causing the dark detachment to narrow his eyes slightly. Then

Turning around and walking towards a cave mansion on the side, the person at the entrance of the cave mansion did not wait for the darkness to escape, so he hurriedly left here and let it out as soon as possible.

The dark detachment directly occupied this cave and walked in.

Everyone breathed a sigh of relief.

"Dark clan?"

On the other side, Fang Muling also turned around and entered the cave thoughtfully.

The Black Eagle Dharma King glanced at the cave where Fang Muling was, with a hint of coldness flashing in his eyes, and slowly turned away.

Everyone left one after another, and soon returned to normal.

Dongfuzhong.

Fang Muling came to Qin Chen and wondered: "Didn't you just say that you are from the dark family? The detachment outside just now seems to be from the dark family, right? You don't know him?"

"I know, but he and I are not from the same tribe, and the tribe I belong to does not deal with the tribe he belongs to. If he sees me, he will definitely attack me."

Qin Chen stood up: "If you think there is a risk, I can separate from you."

Just before Qin Chen walked to the entrance of the cave, Fang Muling suddenly stopped him: "Am I letting you go again?"

Qin Chen was taken aback and looked at the other party.

"You are my sidekick now, I don't care what you have to do with that dark detachment, since you are with me, how can you just leave, hurry up, get me something to eat, this girl starved to death. "

Fang Muling stretched his waist and lay on the bed with a graceful curve and said.

"Aren't you afraid of that dark detachment? If he sees me, he will definitely do something to me, and maybe he will do something to you!" Qin Chen wondered.

"It's just a detachment, this girl will not be afraid, don't worry, I will protect you."

Fang Muling slapped his chest loudly.

Qin Chen: "..."

I really don't know if this girl has a big heart or what.

Suddenly, as if thinking of something, Qin Chen said: "By the way, you and the detachment that came before should also have a conflict, right? I think you have been hiding from each other before."

"You see it?"

Fang Muling looked at Qin Chen in surprise.

Qin Chen was speechless.

You've been so obvious before, as long as you're not an idiot, you can see it, okay?

"Well, there is indeed some misunderstanding between me and him, if you are afraid..."

"You are not afraid, what am I afraid of?"

Without waiting for the other party to finish speaking, Qin Chen walked aside and took out a leg of lamb and started grilling it. Soon, the smell of grilled meat filled the entire cave.

"Wow, it smells so good."

Fang Muling came to Qin Chen's side in an instant, and saw Qin Chen rolling the lamb shank in his hands. At this moment, the lamb shank had been grilled golden and crispy, with oil flowing everywhere, and it looked very appetizing.

"Give it to me, give it to me quickly."

Fang Muling hurriedly snatched the leg of lamb from Qin Chen's hand and took a bite. His mouth was full of oil, and the deliciousness filled her taste buds.

Qin Chen smiled, he just made the simplest roast leg of lamb, is it so delicious?

"Ok?"

Suddenly, Qin Chen swept across Fang Muling's face. For some reason, he always felt that the muscles on Fang Muling's face moved strangely when he was eating.

"Why, haven't you seen beautiful women?"

Seeing Qin Chen staring at him, Fang Muling couldn't help but snorted.

"Uh."

Qin Chen is speechless. With your appearance and beauty, where does your confidence come from?

He smiled, but he didn't feel anything about the other party. He just felt that Fang Mu Ling was a kind person.

"Go on, keep roasting."

Fang Muling said excitedly while eating.

Next, Qin Chen continued to roast the leg of lamb for Fang Muling. It has to be said that Fang Muling is a big foodie. After eating ten legs of lamb, he stopped, and then lay on the bed and fell asleep.

Qin Chen shook his head with a wry smile, and walked to the cultivation place in the cave house to start cultivating.

When the darkness came to detachment, Qin Chen felt a sense of crisis in his heart. Although his cultivation had already made a breakthrough, Qin Chen could not guarantee that in the hands of a detachment master, he would definitely be able to defeat the opponent.

Inside the cave.

Qin Chen sat down, and after setting up the barrier, the mysterious rust sword appeared in his hand, and then he began to realize the killing intent in the mysterious rust sword.

After absorbing the cosmic crystal and transforming the source in his body into the source of the cosmic sea, Qin Chen found that his resistance to the killing intent in the mysterious rust sword had improved a lot.

Can withstand more killing intent.

All Qin Chen's goal now is to integrate more mysterious rust sword killing intent.

However, it's really hard! The killing intent in this mysterious rusty sword is really terrifying. With the improvement of Qin Chen's cultivation, he also feels the terror of this killing intent. If it is not for the sword art taught by his mother, I am afraid that he will not be able to integrate at all. In this mysterious rusty sword

terrifying killing intent.

At the same time as the fusion of killing intent, Qin Chen is also madly absorbing the energy in the middle-grade cosmic crystal.

Can improve some is some.

Time passed, and half a month passed in the blink of an eye.

On this day, Qin Chen was merging the killing intent in the mysterious rust sword, and suddenly there was a rumbling sound, and the entire cave shook.

what happened?

Qin Chen woke up from his practice in an instant, suddenly put away the mysterious rust sword and restraint, and quickly stood up and rushed to the entrance of Dongfu.

At this time, Fang Muling and Qin Chen rushed out together.

Outside the cave, as soon as Qin Chen and Fang Muling came out, they saw the huge vortex in the center of the floating island trembling rapidly, and at the same time, a passage of nothingness appeared from it.

If the space vortex at the beginning is extremely terrifying, and anyone who enters it will be strangled and cut into pieces, then this void passage is very gentle, and you can't feel the crisis at all, so you don't have to worry about being strangled.

"The Secret Realm of Returning Ruins has opened."

Seeing this scene, Fang Muling said excitedly. At this time, the countless powerhouses on the entire floating island who saw this change were also excited. They waited here for so long, just waiting for the return to the ruins secret realm to open, and now it is finally open.

[Chapter 5055: it's here](#)

"Go, hurry in."

Many people were all pleasantly surprised, and they rushed to the vortex in the sky one by one.

Boom boom boom! In an instant, countless figures rose into the sky one after another.

Qin Chen glanced at the several caves in the center of the floating island. The dark detachment was in those caves before, but it seemed that he never saw the departure. If they were still here, and Qin Chen rushed over, maybe will be discovered.

"Come on, let's go in too."

While Qin Chen was thinking, Fang Muling dragged Qin Chen and swept towards the entrance of the secret realm.

Qin Chen hesitated for a while, but followed up. Although the dark detachment did not seem to have entered the secret realm, but now that the secret realm has been opened, everyone rushed to the secret realm frantically. If he stayed here, it would also be easier to be discovered.

It's a fight anyway.

Whizzing.

Qin Chen and Fang Muling were extremely fast, and they were mixed in the crowd and swept towards the vortex in the center of the floating island.

But at this moment, Qin Chen suddenly felt a figure suddenly approaching not far away. This figure seemed to be coming towards him, exuding a fierce killing intent, the next moment, Qin Chen suddenly felt a Strong murderous intent lingers.

Someone is attacking.

Qin Chen woke up in an instant, even turning his head to look, he saw a guy with an eagle face looking at him coldly, with a trace of disdain killing intent in the depths of his eyes, and with his killing intent, The three nothingness needles suddenly burst into his body along the void.

In an instant, the three nihilistic needles came to his waist.

Qin Chen's face sank, and the epee suddenly appeared in his hands, slashing at the three magic needles like lightning, and resisting the moment when the three illusory needles were about to hit him.

With a puff, the three nihilistic needles were directly strangled by Qin Chen, and Qin Chen even looked at each other coldly, with murderous intent in his eyes.

The person who shot was none other than the Black Eagle King.

"Boy, I didn't expect your reaction to be quite sharp, and you could actually find this seat's shot, but if you dare to let this seat lose face, don't even think about entering the secret realm of returning to the ruins today."

The dark and cold voice of the Black Eagle Dharma King directly entered Qin Chen's mind. With his strength, the Black Eagle Dharma King directly stretched out his palm and grabbed it towards Qin Chen.

With a bang, the cold palm turned into a huge sky and appeared on top of Qin Chen's head, trying to squeeze Qin Chen directly.

And the movement here also instantly alarmed the others around.

"That is the Black Eagle King."

"What is he doing?"

At such a time, you still start killing people? "

"It's that kid. No wonder, he offended the Black Eagle Dharma King for a black smoke cloud and dark stone before. This Black Eagle Dharma King is not a good person to be with. He is a guy who does not take revenge overnight."

"Unfortunately, being targeted by the Black Eagle King is like being targeted by a mad dog."

Those who knew the ins and outs of the past all shook their heads in regret.

"Hey hey hey."

The Black Eagle Dharma King let out a giggling sound, and his big hand landed directly on Qin Chen's head and slapped it down.

Before, because of the arrival of the detached powerhouse, he did not dare to act too hastily, so as not to cause a sensation and be targeted by the detached powerhouse.

But now that the secret realm is open, everyone is rushing to the secret realm, and the Black Eagle King naturally seized the opportunity.

At this time, the detached powerhouses are afraid that all of them can't wait to enter the secret realm of returning to the ruins, so how can they care about the little things here.

So he had been secretly staring at Qin Chen and the others in the cave, and when he saw Qin Chen and the others rushing out, he immediately followed up to perform the strongest move, and wanted to kill Qin Chen in an instant.

"you wanna die."

Seeing this, Qin Chen's eyes instantly became extremely gloomy. Before Fang Muling could take action, the epee in Qin Chen's hand had already been sacrificed by him. With a bang, the terrifying sword intent rose into the sky, and the majestic epee seemed to be able to pierce the sky, and smash it on the palm of the black eagle's swung down palm.

"Boy, how dare you resist."

King Black Eagle sneered, but before his laughter fell, his face changed suddenly.

With a bang, after Qin Chen's heavy sword slammed into the big hand of the Black Eagle, the Black Eagle only felt an extremely terrifying killing intent to tear open his palm in an instant, and then moved towards him fiercely. Chop and come.

This killing intent was extremely terrifying, and in an instant, the cold hairs all over Black Eagle's body stood up instantly.

Not good, kicked the iron plate.

Hei Ying Dharma King was shocked, he suddenly woke up suddenly, never thought that Qin Chen's strength would be so strong, and the breath he showed at this moment was definitely not under his half-step detachment.

At this time, Fang Muling also looked at him angrily, boom, the long whip around his waist quickly moved, exuding a terrifying aura.

Hei Ying Dharma King shouted that it was not good. A Qin Chen had already put pressure on him. If he had another helper, even if he could resist it, he was afraid that he would fall behind when he entered the secret realm of Returning Ruins.

When Dharma King Black Eagle understood this, he immediately retracted his claws, and turned around to rush to the entrance of the Secret Realm of Returning Ruins. Obviously, he already had the intention of retreating and did not want to continue entanglement with Qin Chen and the others.

But how could Qin Chen let the Black Eagle Dharma King leave? At the same time that the power of the source was stretched out, the epee had already split out, killing intent supernatural powers.

"presumptuous."

His Holiness the Black Eagle was so angry that he was too lazy to entangle with the other party, yet the other party dared to do it.

He immediately cast out countless dark claw shadows. These claw shadows turned into one after another of the power of rules and quickly stopped in front of him, blocking Qin Chen's epee, and at the same time rushing to the vortex of the secret realm, thinking into it.

With a bang, the next moment, the Black Eagle Dharma King saw that the claw shadow he displayed was instantly shattered, and Qin Chen's killing intent supernatural power shot out brazenly, how could the Black Eagle Dharma King resist?

The surrounding space has also been shackled by Qin Chen's killing intent magical power, forming a violent and powerful killing force, locking the Black Eagle Dharma King firmly.

The "Boom" epee directly smashed the claws of the Black Eagle King, and the terrifying sword energy slammed into his chest.

"You" King Black Eagle made a sound of alarm and anger, and before the sound fell, Qin Chen's epee reversed halfway, and he wanted to cut the King Black Eagle into two sections in an instant.

At the same time, as soon as Qin Chen raised his hand, he directly grabbed the space magic weapon of the Black Eagle King in his hand, and his figure rose into the sky.

This scene shocked everyone present.

From the Black Eagle King's shot, to Qin Chen's counterattack, and then to the Black Eagle King being killed, there are only a few breaths before and after, and the Black Eagle King, who has a fierce reputation here, has already died in the hands of that kid?

Who is this guy?

Just as everyone was terrified, suddenly, a terrifying detachment aura shot up into the sky from the cave below, followed by a huge palm directly towards Qin Chen and grabbed it.

"Boy, you are indeed here."

Accompanied by this huge palm, the dark and detached incomparably cold killing intent sound came instantly.

#### [Chapter 5056: Heterogeneous space](#)

When Qin Chen killed the Black Eagle King, everyone was shocked, a huge palm suddenly came from the heaven and the earth, and it grabbed Qin Chen fiercely.

Boom! Under the surging of this palm, the world shook violently, as if an unbreakable cage was formed, and Qin Chen was to be pinched to death here.

"It's detachment."

"That one is dark and detached, why did he suddenly act."

"It seems to know the kid who killed the Black Eagle King."

Everyone was shocked, and some of the strong people who were close to Qin Chen were so scared that they turned pale and backed away madly.

Qin Chen was already prepared, his eyes were cold, he knew that once he made a move, he would definitely be detected by the dark detachment. At the moment of killing the Black Eagle King, Qin Chen was already pulling Fang Muling's hand, and the speed skyrocketed in an instant.

boom! Qin Chen's figure transformed into an afterimage, swiftly swept to the sky, and swept away abruptly towards the vortex.

"Want to go, where to go!"

This dark detachment sneered, the tone was furious, and the terrifying palm was even more strongly suppressed.

Seeing that the big hand was about to grab Qin Chen, at this moment, Qin Chen suddenly raised his hand in the process of flying, and slashed towards the surging space force in the sky.

With a bang, the whole world shook, and it seemed to be disturbed by the fluctuations here. The rolling power of space quickly filled the air, and the spatial rules around the entire floating island were activated, and the power of countless spaces quickly enveloped the detachment of the dark clan. .

"Damn."

The detached face of this dark family is ugly. Qin Chen's actions are equivalent to directing the power of space in the floating island to target him.

Under the shock of his anger, his body trembled, and his majestic body was like a pillar of optimism. The power of space that came, slammed into Qin Chen again.

With a loud bang, the huge palm stretched out and grabbed Qin Chen's figure, but this figure was already the afterimage of Qin Chen's flying, and the figure disappeared in an instant under the big hand.

"Rats dare!" The dark detachment saw that he didn't catch Qin Chen, and suddenly became furious, and immediately chased after the fluctuations in space.

Regardless of Fukong Island's targeting of him, Qin Chen was captured here.

Fortunately, Qin Chen had already guessed the other party's thoughts, and immediately teleported immediately. As a result, the dark detachment caught Qin Chen's afterimage. If Qin Chen hesitated for a while, he would have been caught by the dark detachment at this time. .

"Can you escape?"

This dark detachment sneered, and instantly surged in the direction of Qin Chen's flying, even ignoring the bombardment of the floating island on him.

Qin Chen has a lot of experience in escaping, how could he not know that it is not wise for him to fight a detached master here?

So after the dark detachment chased after him, Qin Chen just sneered and swept straight towards the entrance of the vortex of the secret realm of Returning Ruins.

The dark and detached look was frightened and angry. If Qin Chen was allowed to enter the entrance, he would not be able to find each other at all. Thinking of this, he almost regardless of anything, madly stimulated the source in his body, and immediately made his big hand speed skyrocket, madly covering it. Falling.

"cut!"

Seeing that the big hand was about to grab Qin Chen, Qin Chen suddenly turned around and blocked in front of Fang Muling, and then slashed with a slash, and with a bang, the big hand slammed directly on Qin Chen, Qin Chen only felt an astonishing force swept across Come, the throat is sweet, the next moment, Qin Chen has already retreated madly under this huge force.

At this time, the terrifying shock wave swept towards Qin Chen crazily. At this moment, a figure suddenly appeared in front of Qin Chen, blocking the aftermath for Qin Chen, it was Fang Muling.

"go."

Qin Chen let out a low voice, he had already flown to the entrance, and now he was only a moment away from the entrance. Under the watchful eyes of everyone, Qin Chen took advantage of this retrogressive force without any hesitation, and pulled him immediately. Fang Muling rushed into the entrance of the vortex and disappeared in a hurry along the direction of the space.

Boom! The dark and detached big hand also dissipated in the void at the moment, and collapsed in an instant.

It is the oppressive force of this floating island.

On this floating island, it is not easy for the detached powerhouse to do anything. Once he starts, it will definitely trigger the targeting of the floating island. Fortunately, the entrance has been opened now. If the entrance is not opened, the backlash will be more serious.

The dark detachment groaned under the power of this space strangulation, and tried his best to resist the suppression of the power of space, and a trace of blood was already overflowing from the corner of his mouth.

"hateful."

With a flicker of his figure, he suddenly came to the entrance, looking at Qin Chen who had disappeared in the secret realm of Returning Ruins, he was almost furious and terrified.

In front of everyone's eyes, not only did he fail to keep Qin Chen, but he was fled by Qin Chen. What kind of shame is this?

"Hmph, kid, no matter where you escape to, as long as you are in the secret realm of Returning Ruins, you can't escape death."

In the anger, this dark detached figure flickered, and also followed into the secret realm of returning to the ruins, and disappeared in an instant.

At this time, everyone came back to their senses.

"It's amazing, this person can escape from the hands of the detached powerhouse, it's incredible."

"But that kid doesn't know where it came from. Even if he escapes the pursuit now, he will surely die in the secret realm of Returning Ruins."

"Let's go."

One after another figure sighed and entered the secret realm of Returning Ruins one after another. At this moment, a figure suddenly appeared in the place where they fought before. It was the detached powerhouse with gray beard.

"This breath" This person sensed where Fang Muling had shot before, his face changed greatly, then he looked up at the whirlpool, rushed into the whirlpool in an instant, and disappeared.

After Qin Chen pulled Fang Muling into the secret realm of Guixu, he immediately felt the space flowing through his body like water.

He felt as if he had crossed countless voids and countless worlds.

Qin Chen was shocked, the void passage here can pass through countless worlds every moment, and this space aura has completely surpassed his control.

Moreover, he had clearly pulled Fang Muling before, but when he entered the secret realm of Returning Ruins, Fang Muling disappeared strangely, as if he had entered another space.

The two people who are clearly close seem to be in two different spaces.

When Qin Chen was frightened, the feeling of his feet on the ground came, Qin Chen felt relieved, and he knew that he had reached the secret realm of Guixu.

#### [Chapter 5057: with strong](#)

After entering the secret realm of returning to the ruins, Qin Chen immediately looked around vigilantly, only to see an incomparably vast world around him, and a vast mountain forest lingered in front of him, making Qin Chen feel some heart palpitations.

Qin Chen seemed to be in a wild world, extremely ancient.

And in this wild world, there are various space rules lingering everywhere. Any of these rules is much more terrifying than the space path in the original universe. If the path in the original universe is a small stream, Then the Dao here is like a vast ocean.

At this moment, Qin Chen finally understands why there are so many strong men in the universe sea. The world in the universe sea is too vast, and the rules contained in it are really too terrifying.

If the birth and death of the initial universe is a cycle, then the sea of cosmos has experienced countless cycles of the initial universe, and it has become an eternal place.

At this moment, Qin Chen was shocked, but he didn't have time to carefully inquire about these space Dao patterns, because he immediately followed in the vortex of the passage he entered into the dark detachment.

Although even Fang Muling was separated from him in the secret realm passage, Qin Chen didn't dare to bet on whether the other party could keep up with him, so the moment he appeared, he

The first time he swept out his divine consciousness, he found that his divine consciousness could only be swept within ten thousand miles in the secret realm of returning to the ruins, while the distance beyond ten thousand miles was blurred.

At this time, Qin Chen didn't dare to stay in place. After the previous fight, Qin Chen clearly felt that there was still some gap between himself and the dark detachment, and the other party was from the dark continent, and no one knew whether there was anything else on him. The hole card, so Qin Chen stormed out immediately after landing.

It is definitely an extremely dangerous move to plunder in an unknown place. Not to mention that Qin Chen does not know the situation here yet, there are so many space rules and crack vortexes here, as long as one accidentally rushes into the crack In the whirlpool, it is definitely a life-and-death situation.

However, Qin Chen had no choice, he had to ensure his own safety.

After flying frantically for a while, Qin Chen kept changing directions. After an hour, Qin Chen turned out to be a canyon in front of him, and there were countless spatial vortices in the canyon.

This space vortex is extremely terrifying. Qin Chen felt that if he rushed into it, he would definitely not be able to hold on for too long, but after hesitating for a while, Qin Chen clenched his teeth and rushed into the space vortex instantly, and when he entered the space vortex For a moment, Qin Chen sacrificed his ancient tower for the first time, and the whole person instantly entered the ancient tower.

And Gu Yu Pagoda, has been submerged in the vast space whirlpool, nowhere to be seen.

After doing all this, Qin Chen breathed a sigh of relief. He was already extremely cautious. If the darkness could still find him, he would have to fight to the death. Now Qin Chen is only worried about Fang Muling's safety. I don't know how she is.

What Qin Chen didn't know was that not long after he entered the space vortex canyon, the dark detachment had already stayed in a place outside the space vortex canyon, and it was only a moment away from Qin Chen's departure from that place.

Obviously, the passage into the secret realm of Returning Ruins is filled with terrifying spatial power, like a small world that is stacked in layers, and it is impossible to perceive the direction at all. Even Qin Chen and Fang Muling are directly separated.

But this dark detachment not only found the place where Qin Chen entered, but also found the place where Qin Chen entered the canyon only a short while later, which is unbelievable.

At this moment, this darkness is beyond the vortex of space in front of him, holding a black jade in his hand, his face becomes extremely difficult.

"I don't believe that you can get away." After searching for a while, the dark and detached consciousness found a direction and chased again toward the vortex of space.

After a stick of incense, the dark detachment who was chasing Qin Chen withdrew from the vortex of space, his face became extremely gloomy, his body was full of tatters, and even some wounds appeared, obviously in this vortex of space Ate some losses.

This spatial vortex, even the detached him, can't easily resist.

"Damn, the treasures given by the ancestors can't be completely consumed here."

This dark and detached face was gloomy, and he directly put away the black jade in his hand, and looked at the canyon in front of him with stern eyes and said to himself: "Boy, the Secret Realm of Returning Ruins will only open for a year at most, I don't believe you can't go out. "

After saying this, this dark detachment has disappeared in this world in an instant.

now.

In a valley in the secret realm of Guixu, a figure was looking around curiously, looking left and right.

"I didn't expect that the secret realm of returning to the ruins was so weird that it actually separated me from that kid. Didn't I find a sidekick for nothing?"

The girl pouted, her face speechless.

It was Fang Muling.

In this secret realm of returning to the ruins, Fang Muling didn't seem to be worried at all, as if he was on an outing.

At this moment, Fang Muling's footsteps stopped, and a figure walked in front of him. This was a thin middle-aged man with a pair of triangular eyes and fierce eyes. After arriving at Fang Muling, he was surprised at first, and then the corner of his mouth was outlined. A sneer.

"Hey, I didn't expect this seat to meet a woman here. It's interesting."

When the middle-aged man finished speaking, his figure instantly came to Fang Muling, his triangular eyes looked at Fang Muling up and down, and said with an obscene smile: "Hey hey, little girl, hand over all the treasures on your body, and then let this uncle play, this uncle will be happy. Come on, maybe I can make you a plaything for this uncle."

Before his words could fall, Fang Muling whipped the whip and said angrily, "You are courting death..."

The middle-aged man smiled, a sword appeared in his hand, and instantly cut off Fang Muling's long whip, and grinned: "The little girl is average, but her temper is quite big. Since this is the case, then the uncle has to use force."

When the words fell, the middle-aged man rushed towards Fang Muling with a smirk.

Fang Muling's face was ashen, just as he was about to summon the ancient continent's treasure to take action, at this moment, with a bang, a giant hand suddenly protruded from the void in the distance, and instantly took the middle-aged man in his hand.

I saw in the void in the distance, a gray-bearded eagle of prey detached from the powerhouse slowly walked over.

"Senior, be merciful."

Seeing this person, the middle-aged man said in horror.

With a puff, before he finished speaking, he was instantly pinched into the void by this gray-bearded detachment powerhouse, and countless blood qi surging and dissipated without a trace, as if this person had never appeared before.

The next moment, the detached powerhouse's gaze suddenly fell on Fang Mu Ling's body.

"Warrior Lord"

Like the \*\*\*\* of war

[Chapter 5058: Miss](#)

Seeing Fang Muling, the old man's eyes softened instantly, like a spring breeze, a smile was drawn on the corner of his mouth, and that smile was actually flattering.

If you let others see this person's expression, they will be stunned, and the dignified detachment from the strong will show such a flattering smile, it's hell.

"Miss, you've been out this time for a long time. If you don't go back, the old slave will not be able to explain to the palace master."

Just saw this gray-haired old man come a few steps to Fang Muling, and said with a wry smile, as humble as he wants.

Fang Muling sat on the ground and said speechlessly: "It's boring, it's boring, you follow me every time you come out, can't you let me be alone for a while?" Fang Muling was speechless, and then she seemed to think of something, suddenly looked at the gray-bearded old man in doubt, frowned and said: "No, this time I came out, I changed all the treasures on my body, and I didn't take any of the house.

A treasure, and I have a disguised treasure on my face, how did you find me? "

"This..." The old man who was called the old man faltered.

Fang Muling snorted coldly and came to the old man's side, looked back and forth, his small eyes rolled, and then suddenly snorted: "Humph, if you don't tell me, I'll tell my father, saying that you didn't protect me well and let people Bullying me." "Hey, my aunt?" Mo Lao was taken aback and hurriedly said: "Miss, you can't talk nonsense about this, if you say that, the palace master will strip the old slave of me. You can't, can't, absolutely can't, miss, old slave

After all, I watched you grow up, you can't hurt the old slave. "

"Then do you say it or not?" Fang Muling snorted coldly. "I said it's not enough?" Mo Lao looked bitter, "Miss, you are the descendant of the palace lord, and you have the blood of the Dark God generation. The palace lord gave the old slave a magic weapon, which can be passed through the magic weapon. find miss, so miss you again

It doesn't matter how you dress up. "

Fang Muling spread out his hands and said, "Hurry up."

Mo Lao was stunned for a moment: "What's the hurry?" "Hurry up and hand over that magic weapon, Mo Lao, you were the famous Dangmo Shenzun in the Dark Nether Mansion. Your fame has spread to the sea of cosmos, so you won't be able to hear this girl. You mean, you're not pretending to be stupid here with me, are you?" Fang Mu

Ling hummed.

The old man's expression changed, and he hurriedly said, "Miss, I can't give you that thing."

Fang Muling bared his teeth, "Are you going to pay or not?" "Miss." Old Mo's expression became extremely serious, "Don't embarrass the old slave, if the old slave gives you the magic weapon that the palace master gave me, the old slave has no choice but to inform the Palace Master, and the Palace Master will definitely meet at that time.

Come in person, you know, the old slave will never put you in danger, miss. "

Seeing Lao Mo's serious expression, Fang Muling snorted coldly. She also knew that what Lao Mo said was true. If her father came here in person, it would be troublesome.

"Okay, I won't embarrass you anymore, but don't follow me, I haven't had enough." Fang Muling turned around and left.

Mo Lao hurriedly followed: "Miss, hurry back with me, this place is very dangerous, if you encounter trouble, I am afraid that the old slave will not be able to save it. How can the old slave explain to the palace master."

"Oh, is it so dangerous here?" Fang Muling asked in confusion. The old man said solemnly: "The rumors of the secret realm of returning to the ruins are the relics that were born after the fall of a supreme being. That existence was famous in the universe back then. The relics he formed are extremely dangerous, and the old slave dare not dare. Toda,

Miss, you should leave now. "

"Hmph, that's not good, I have another valet lost here, I have to save him."

"Followers? You mean the kid who was hunted down by the dark clan?"

"You know him?"

"This person is being chased and killed by his dark family. I'm afraid it's more fortunate." Lao Mo hurriedly said, "Miss, if you want to be a follower, this old slave will be your follower."

"What? He is so dangerous, no, I have to save him." After the words were finished, Fang Muling hurriedly said to the old demon, "You lead the way."

"I..."

Mo Lao wanted to cry but had no tears in his heart, how could he be so mean?

"Would you take it or not?" Fang Muling's eyes were cold.

Seeing Fang Muling's cold eyes, Mo Lao was shocked and said, "Yes!" Immediately, Mo Lao flew ahead and led the way. He made up his mind. Since he couldn't persuade the young lady to leave, he would always follow the young lady. Well, if you are in danger, you will have a chance to take action. When the kid is rescued, I will quickly persuade the little one.

Miss left.

When Fang Muling quickly searched for Qin Chen under the leadership of Mo Lao.

In the vortex of endless canyon space.

Qin Chen, who was located in the Ancient Yu Pagoda, was going with the flow at this time, and he didn't know where he was being carried.

It wasn't until the outside world became a little more stable that he threw out a surveillance array, and he had to figure out where he was now. As soon as the monitoring array fell outside, Qin Chen saw a gray world from the monitoring array, or a gray space whirlpool, boundless, without any living life, only occasionally

I saw some huge space whirlpools quickly arise and die.

A series of space vortices are mixed in the space turbulence and fly around, and there are some fine sands composed of unknown things sweeping the sky.

And the monitoring array he threw out only lasted for a moment, and was torn into nothingness by a space vortex, and disappeared in an instant.

Qin Chen already understood at this time that he should have entered a void where space rules are everywhere.

Qin Chen threw away several monitoring arrays one after another, and each array was torn apart in a moment. How to get out of this place? Qin Chen was secretly shocked when he saw it.

After a while, he tried to get out of the ancient tower. He wanted to try again how powerful the outer space vortex was. Qin Chen just stood outside when countless spatial vortices came over, and just the edge of a vortex took him, tearing his clothes into pieces, "chichi" a few times the sound of clothes being torn ringing, this short

In a short period of time, Qin Chen's body has not only disappeared, but also has no complete skin, and the whole body has become a blur of flesh and blood.

Just as Qin Chen was about to hide in Guyu Pagoda, a gray-black space crack swept across his waist. With a 'poof', a blood mist was brought out, and he didn't even have a chance to escape. Qin Chen saw that there were a few more space cracks coming, and he dared to stay here, and hurriedly entered the Guyu Pagoda. If he was slower, he was afraid that he would have been cut into countless segments by this spatial crack.

[Chapter 5059: Space Refinement](#)

What a powerful space killer.

In the ancient Yuta, Qin Chen was lying on the ground. He was naked and scarred, with bloodstains and wounds everywhere.

But at this time, he didn't have the slightest idea of wanting to heal. If there was no Gu Yuta, he would have died at this time. How could he escape from such a place?

You must know that Qin Chen's physical body has reached a level that is not much different from that of ordinary detached powerhouses under the improvement of Gu Yuta. Otherwise, it was impossible to escape from the dark detachment before.

But now even his physical body can't resist the murderous intention of this space whirlpool, what kind of powerful murderous intention is this?

However, after feeling the power of this space vortex, Qin Chen breathed a sigh of relief while being nervous. Since his body can't resist the erosion of this terrifying murderous intention, it means that the dark detachment can't survive in this vortex of space.

It is also to use some kind of treasure. If it is the same ancient Yuta treasure as himself, then the darkness and detachment will not be able to walk safely in this canyon.

That being the case, at least now he is still safe.

The only trouble is that although I am still safe, if I want to get out alive, I have to find other ways, but now I am in this ancient tower, what can I do?

If you want to walk safely here, unless you break through the realm of detachment, can resist the attack of these space vortexes, or your physical body is improved again and enters a new realm.

And breaking through detachment is too difficult, as for the second method...

Suddenly Qin Chen suddenly stood up again, body training?

yes!

Although his physical body has been cultivated extremely terrifyingly, he was still at the peak of the supreme realm, and he broke through with the help of Gu Yuta.

Now, with the help of the cosmic crystal, his own cultivation has reached the peak of half-step detachment, but the physical body has not been cultivated again, and the realm is improved, and the plasticity of the physical body will become stronger under normal circumstances.

Thinking of this, Qin Chen was instantly excited.

This might really be a solution, especially since this place is still a top-level cultivation treasure, and countless space vortexes can make the body grow continuously.

And the Nine Star God Emperor Art that he cultivated already had the means to cultivate the physical body.

Thinking of this, Qin Chen immediately made up his mind. Anyway, he can't leave here in a short time. If so, why not practice here and see if there are any unexpected gains.

With this in mind, Qin Chen immediately began to practice cross-legged. He first took out some healing pills and quickly swallowed them, and began to treat his injuries.

If you want to train your body, you must first repair the injury and restore it to the best state.

Under the operation of the Nine Star God Emperor Art, Qin Chen was surprised to find that he quickly absorbed the remaining space power in his body, which was much faster than he thought.

The Nine Stars God Emperor Secret Art has such a magical effect?

Seeing the changes in this scene, Qin Chen was even more excited, and frantically ran the Nine Stars God Emperor Art. After these space powers were refined by the Nine Stars God Emperor Art, they began to gradually dissipate to various parts of Qin Chen's body.

After a while, the power of space remaining in Qin Chen's body was completely absorbed.

"This is refining?"

Qin Chen looked sluggish. After he tried to run the Nine Stars God Emperor Art several times in amazement, he found that the power of space in his body had indeed melted away, and it was absorbed into every cell by his own body.

The meaning of space rules.

It's just because the power of space absorbed by this part is so rare that it is extremely difficult to detect, and this power does not hinder the slightest in his own body, and it is perfectly combined with his own body.

He actually absorbed the power of the space between the world?

Qin Chen was immediately surprised. This is because he is a body-refining genius, or because the Nine Stars God Emperor Art is extremely special, or because his physical body has already reached a special state under the ascension of the ancient Yuta, so it is very easy to absorb this power of space

? Or is it because of the reason that he is in the ancient tower? Thinking of this, the source of Qin Chen's body stirred up, and he soon discovered that there was a faint ripple in the space around his body. What surprised Qin Chen even more was that all the wounds he had just outside healed automatically.

The speed is unprecedented.

Qin Chen felt the faint ripples, and he already knew in his heart that this was indeed some space rule incorporated into his body.

In other words, it only took him half an hour to completely absorb the Space Law that had hurt him before.

After Qin Chen understood this truth, he was immediately overjoyed. According to this progress, he might be able to upgrade his body to an extremely terrifying level in a short period of time.

Thinking of this, Qin Chen immediately left Guyu Tower again and entered the outer space vortex directly.

As soon as he came out, the terrifying spatial murderous intent enveloped him again. The spatial vortex mixed with some spatial turbulence began to frantically pass through his body, and some spatial cracks also began to tear Qin Chen's body.

It's just that this time his body was just torn apart, and before the space vortex hit him, a faint ripple formed on his body.

As soon as the faint space ripples came out, those space vortices and some small space cracks hit the faint ripples, Qin Chen immediately felt that the space vortices and cracks were weakened by a part.

After a slight sound, the light-colored space protective layer was torn apart instantly, but with the flow of Qin Chen's source, it automatically began to repair in a blink of an eye. Qin Chen was overjoyed when he saw this. He actually controlled some of the space rules. He immediately kept pushing the space rules to surge and persisted for a longer time. While he kept resisting, Qin Chen frantically ran his nine-star god. Di Jue

, Immediately, the power of the surrounding space slowly entered his body.

The power of space was slowly absorbed by Qin Chen, and Qin Chen was immediately pleasantly surprised. With just one practice, he could persist for such a long time. If it was before, he would have been completely broken again at this time.

Qin Chen was just overjoyed when he saw that the space defense on the body surface was completely torn apart in an instant. Qin Chen understood that this was because the power of space under his control was not enough.

boom. The power of his body surface collapsed in an instant, and at the same time, countless wounds appeared on Qin Chen's body again. A sense of crisis came, Qin Chen subconsciously entered the ancient tower, and the moment he just left, a A huge crack ripped through.

#### [Chapter 5060: physical breakthrough](#)

In the Ancient Yu Pagoda, Qin Chen lay here again, covered in scars.

But there was no sign of depression on his face, instead it was full of excitement.

At the beginning, when he entered the vortex of space, he couldn't hold on for even a moment, but now, he has been able to hold on for dozens of breaths, which is much better than the beginning.

And he has only been practicing for an hour or two. If he keeps practicing, how far can he improve?

Can you persist in this vortex of space?

Qin Chen doesn't know, but this is undoubtedly a way.

While Qin Chen was excited, he was suddenly stunned, because he felt a special power surged out of this ancient Yuta again, slowly entered his body, and began to transform his body.

hum!

Qin Chen's body, the power of colorful surges.

This is... the power of Gu Yuta?

Qin Chen was stunned for a while.

When he was refining Gu Yuta, he absorbed crystal beads and his body was transformed. He thought that Gu Yuta had transformed his body to the extreme, but at this moment, a trace of power surged out of Gu Yuta and began to transform him. The physical body, and this power is ten times stronger than the power that transformed his body?

How is this going?

"Could it be that the reason why Gu Yuta could not continue to transform my body was because of my cultivation, and the power of this ancient pagoda could not continue to improve. Now my cultivation has broken through and my body has been transformed, so Gu Yuta can continue to transform. ?"

Qin Chen couldn't help but be ecstatic.

If this is the case, then the speed of the improvement of his physical body may be improved a lot on the basis of the original.

Thinking of this, Qin Chen instantly became excited again.

He sat cross-legged, madly turning the Nine Stars God Emperor Art, constantly refining the power of space in his body.

The power of space was quickly inhaled into his body by Qin Chen. Combined with the power of Gu Yuta, Qin Chen felt that his body was rapidly improving.

The power of Gu Yuta is purely to transform the body, and it can continuously push Qin Chen's body to a higher level.

And this space power is to increase the integration of Qin Chen and the space Dao, allowing Qin Chen to withstand a more powerful space killing intent, and allowing Qin Chen to have a deeper understanding of the space Dao of the universe sea.

After about a few hours, Qin Chen had swallowed all the power of space, and his injuries had been repaired again.

Qin Chen opened his eyes and felt his physical body that had been improved again. The next moment, his figure suddenly disappeared and reappeared in the vortex of space outside Guyu Pagoda.

Chi Chi Chi!

This time, as soon as Qin Chen appeared in the space vortex, the tiny space cracks and the power of space distortion shrouded Qin Chen, constantly eroding, but this time, the space ripples on Qin Chen's body were more obvious, and he could already resist. There was a lot of space vortex power, and when the remaining space vortex power came to Qin Chen, part of it was absorbed by Qin Chen, and the other part brought harm to Qin Chen.

If Qin Chen appeared here for the first time, his body was covered in scars, and the second time Qin Chen could hold on for a little while, then after Qin Chen appeared here this time, the injury on his body was extremely slow. Speed is increasing.

Qin Chen was overjoyed, his plan was indeed feasible.

He frantically ran the Nine Stars God Emperor's Secret Art, constantly absorbing the power of space, comprehending the space Dao.

In this dangerous and countless space refining, Qin Chen quickly felt the difference. For some weak places in the body, the source automatically began to repair, and automatically began to correct mistakes.

Qin Chen even closed his eyes. With his understanding of the space avenue, he can even use the power of space to understand the direction of the surrounding space vortex, so that he can always be in a place where the space vortex is not particularly strong, so as not to cause inevitable danger.

In this way, Qin Chen continued to practice.

Puff puff!

After about half a day, Qin Chen couldn't hold on anymore and re-entered Guyu Pagoda.

A few hours later, Qin Chen reappeared outside the Guyu Pagoda.

Next, Qin Chen kept going in and out of Guyu Tower, entering when he was injured, and returning to the vortex of space when his injury was healed.

Gradually, Qin Chen persisted longer and longer.

And as he closed his eyes and realized the power of space, his understanding of the rules of space became stronger and stronger. I don't know how long it took. When Qin Chen woke up again, he found that he had been staying outside Guyu Tower. It's been a day, and his pale-colored space ripples have added a layer of invisible Taoist power. This layer of Taoist power does not need him to urge, and automatically repairs and strengthens the faint space ripples. , as part of his physical defense.

It turned out that this was the space body protector, and Qin Chen immediately understood what he had said.

At this time, Qin Chen turned to another place.

Because this tiny space crack can no longer cause him huge damage. While Qin Chen is constantly absorbing the power of space, his body is constantly repairing. Compared with the speed of his physical repair.

In other words, Qin Chen can now walk safely in this space where the power of the vortex is not much.

However, Qin Chen is not careless, because the place he is looking for now is the place where the power of space vortex and space cracks are the rarest and weakest. Compared with the entire space vortex, he is safe here. If he thinks that he can stay here now If the space vortex area walks sideways, that is the danger.

Immediately, Qin Chen resolutely left the place where he was, and he felt that the space cracks and turbulence here were slightly less.

When Qin Chen came to a denser space crack, he immediately felt the pressure. At the same time, he also felt that there were not only more space cracks and space vortexes, but also the terrifying space deterrence.

In just a moment, the faint space protection ripples outside his body were broken. A space crack swept across Qin Chen's body, bringing up a blood mist.

Qin Chen was horrified. He just wanted to enter the ancient tower, but found that the spatial perception that had been stagnant before suddenly became smooth. In an instant, Qin Chen's perception of the space in front of him seemed to become clear in an instant.

Qin Chen was overjoyed, and violently urged the power of space, but in an instant, the faint ripples on his body were formed again.

Qin Chen was pleasantly surprised and continued to practice here.

Half a month later, the space crack here was no longer able to cause Qin Chen the slightest harm. He moved again to the place where the space crack was more turbulent. He found that the space crack area was simply the best place for body training. Combined with the power of repairing the body in the ancient tower, there is almost no place where there is such a body refining effect.
