

Valkyrie 5111

[Chapter 5111: mysterious powerhouse](#)

How terrifying is the self-destruction of a detached powerhouse?

It is possible to turn this world into ashes in an instant, even if Qin Chen's physical defense is strong, under such a blow, he is afraid that his body will be shattered.

"Hahaha, let's die together."

God Venerable Yuandao made a ferocious roar, and the whole person had turned into a scorching sun, bursting with blazing rays of light.

A force capable of destroying the entire world suddenly erupted from the body of the distant god.

Under this blow, even if he is as strong as Qin Chen, he is afraid that he will be seriously injured. Under the strong crisis, Qin Chen violently urged the ancient tower in his body, ready to enter the tower at any time, but before he could enter the tower, suddenly a sigh that seemed to come from ancient times suddenly sounded in this world. thorough

stand up. "This seat has been sleeping here for hundreds of millions of years, how peaceful and serene, you can just fight and kill here, but why do you want to destroy this seat's habitat? You know, this seat finally found a place to live. ground, after all

How easy is it? "

This voice suddenly echoed in the ears of everyone, as if it was born suddenly, silently, and echoed in the ears of everyone in an instant.

"who?"

At this moment, everyone's heart palpitated, and a strong sense of horror emerged in their hearts, and they trembled all over.

What did they hear? When this distant God Venerable wanted to self-destruct and unleash his strongest attack, there was such a voice that suddenly resounded in everyone's mind, so suddenly, so directly resounding in everyone's mind,

How can people not be surprised?

Heck.

This voice is very calm. If it is normal, no one will care, but at this moment, it is so sudden. At this moment, everyone was concentrating, and they had already sensed that this voice came from the dead place behind the God Venerable Far Dao. From the dead place, everyone vaguely saw a pair of huge eyes, which were like two eyes.

A scorching star is like the sun, blooming with endless light and heat.

boom! At this time, the self-destruction of Yuandao God Venerable has been motivated and cannot be stopped. the power of space

Peeked out from that endless dead place.

The power of this space turned into a sky, with amazing space power, and imprisoned the gods from afar in an instant.

"what!"

The God Venerable from afar roared. At this time, his fleshly body was blooming with a divine rainbow, his source was surging, and he was releasing terrifying power.

However, under the aura of such a space, the fleshly body of Yuandao God Venerable who was about to self-destruct was forcibly suppressed back, and with a puff, the source of his self-destruction was actually stopped.

In the distance, the pupils of Dangmo Shenzun suddenly widened. Such a scene is really too frightening and creepy.

The self-destruction of a detached master, in front of this mysterious powerhouse, there is not even the slightest strength to resist, is this still human?

"Qin Shaoxia, go back."

Dangmo Shenzun let out a startled roar, and without hesitation, he hurriedly brought Fang Muling and Linglong Goddess into a streamer, and he was about to leave here in an instant.

And Qin Chen didn't need him to tell him, he also knew the danger, his scalp was numb, his body swayed, and even the power of endless space, the power of flickering, was about to leave this place.

However, without waiting for him to move, his figure seemed to be imprisoned in this world, always stagnant in place, unable to escape this world at all.

"hiss."

Qin Chen couldn't help but **** in a breath of cold air.

How is this possible? His current spatial attainments have already surpassed the detached powerhouses on the side, but under the confinement of the other party's space, he can't even move. Reached

An extremely terrifying level.

Who is the other party?

"what?"

When Qin Chen tried to escape, the owner of this voice also sensed the space aura emanating from Qin Chen's body, revealing a hint of surprise.

"interesting."

A low-pitched voice sounded, and the next moment, an invisible force of space was born, and a black hole suddenly appeared beside Qin Chen, swallowing him in an instant, and instantly disappeared in this world.

In this piece of heaven and earth, there are only four people left, Yuandao Shenzun and Dangmo Shenzun, and all four of them were imprisoned here and could not move.

Even a detached powerhouse like Dangmo Shenzun has no chance to resist.

"Elder Mo, who is this person? Where did Qin Chen go?"

Seeing Qin Chen disappear, Fang Muling couldn't help but said anxiously.

"Miss, this old slave doesn't know that there is such a strong person in the land of the ruins. The strength of this person is extremely terrifying. I am afraid that compared with the palace master, he is only stronger or weaker."

Dangmo Shenzun said in a deep voice, worried.

You must know that Palace Master Anyou is the second realm in the detachment realm, the Vientiane God Phase Realm, and has reached the peak of the Vientiane God Phase Realm, and even touched the last level of the transcendence realm. Eternal Order Realm.

But even the palace lord, it is impossible for a strong man who is beyond the first level to stop self-destructing, and the strength of the person in front of him may even surpass that of the palace lord.

This kind of guess made Demon Dangzun's heart sink, and he couldn't help but worry.

While guessing in the mind of Dangmo Shenzun.

Qin Chen entered the black hole, and there was a change in front of him, and the whole person had already appeared in an ancient starry sky.

This starry sky is incomparably gloomy and full of dead silence. Looking around, all around are dead and dead, and there is no life at all. In front of him, a figure is slowly sitting cross-legged, this is a dead figure, suspended in this dead world, without the slightest vitality, if not for the sound he heard before, Qin Chen would never believe his eyes.

The former person will be a living person.

"Junior Qin Chen, I have seen the senior, the junior did not intend to disturb the senior's sleep, please forgive me."

Qin Chen hurriedly cupped his hands at the other side.

However, the person in front of him did not move at all.

"I don't know what the seniors ordered to bring the juniors here. I also asked the seniors to make it clear that as long as the juniors can do it, they will not refuse."

Qin Chen said respectfully again.

For such a strong man, Qin Chen naturally did not dare to be careless.

"How do you master the space Dao on your body?"

Finally, the figure in front of him spoke, and the voice sounded in this deadly place, like the sound of the avenue.

"The younger generation is from the feeling of the space canyon in the secret realm of returning to the ruins." Qin Chen continued.

[Chapter 5112: that one](#)

"Space canyon?"

The ancient voice with the vicissitudes of life sounded, echoing between the heavens and the earth, a terrifying aura shocked the universe, exuding heart-pounding power.

Moreover, this breath is extremely gloomy, making people shudder, as if being stared at by something unclean.

This made Qin Chen tremble, and his hair stood up in an instant.

The powerhouses in this world have completely different temperaments because of their different cultivation techniques and avenues.

Some are blazing like the scorching sun, some are quiet like the cold moon, some are gentle like the spring breeze, and some are as dead as a stubborn rock.

Different breaths and different Taoisms represent a person's different character and behavior.

As soon as the person in front of him opened his mouth, the gloomy aura rushed towards his face, which made Qin Chen instantly feel that the person in front of him was not easy to provoke, and he instinctively felt terrified.

In the endless gloomy atmosphere, there was even a trace of death, and it was just one breath, which made Qin Chen feel like he was going to die on the spot.

This made Qin Chen tremble, unbelievable.

Today, although he has not broken through the realm of detachment, his strength has truly reached the detachment level, and even an ordinary detachment master, he is fearless and ready to fight.

Otherwise, Emperor Heiyu would not have died tragically in his hands.

But now, the other party is just a breath that has been silent for hundreds of millions of years, which makes Qin Chen's soul feel a sense of tearing, and he wants to fall into death on the spot, as if he was stared at by the **** of death. This feeling is too terrifying and shocking. .

"I can't believe that the space scar left by the other party can be controlled by others. Why is that one's luck so good? In this case, can a successor be found?"

boom!

A terrifying murderous intent suddenly surged, and in an instant, the world was dead, and an astonishing dead aura filled Qin Chen in an instant.

"senior."

Qin Chen was shocked and hurriedly spoke.

"Hahaha, boy, if you break into this place, you are considered unlucky. This seat will never allow anyone to get his inheritance and survive, even if it is only to master the other party's spatial supernatural power."

An endless breath of death instantly enveloped Qin Chen, annihilating Qin Chen in an instant.

not good!

An endless sense of crisis emerged in Qin Chen's heart in an instant, and his scalp was startled in an instant.

In the crisis, he hurriedly urged Gu Yuta to wrap himself in it.

boom!

Gu Yuta burst out with a vast breath, and it shrouded Qin Chen in a flash, bursting out with endless rainbows, the terrifying death aura surged, and Gu Yuta violently resisted it.

Boom!

Gu Yuta made a violent roar and kept shaking.

"Hey, this thing can actually block the power of this seat, it's interesting, but unfortunately, your cultivation is too low to stimulate the full power of this thing, an ant who is not even detached, or obediently annihilated by this seat... "

Feeling the power in Guyu Pagoda, the voice made a sound of surprise. The next moment, the breath of death became stronger and stronger. Boom, it slowly penetrated into Qin Chen's body through the protection of Guyu Pagoda.

For a moment, Qin Chen's body, which even the detached powerhouse could not break through, began to crack, as if it was about to turn into smoke.

Qin Chen was extremely shocked. It was the first time he saw someone who could penetrate the power of the ancient tower. In the crisis, Qin Chen couldn't care about other things, and all kinds of power in his body were instantly driven to the extreme by him.

The power of darkness, the power of the origin of the original universe, the power of sky fire, the power of one after another is crazy and wanton.

Of course, his most fundamental is the power of the Nine Stars God Emperor's Secret Art. With a bang, an invisible totem force rose into the sky, forming one after another of totem power around Qin Chen's body.

boom!

The other party's cold power eroded, Qin Chen's power of the dark royal family and other powers disappeared in an instant, but the power of the **** emperor's totem oscillated, but it instantly resisted the erosion of this power.

The power of the totem is shaking violently.

"This is..."

Feeling the power of the totem on Qin Chen's body, the cold voice was instantly shocked. "That clan is the power of that clan, how can you have the power of which clan in your body? No, it's not just the power of that clan, that clan alone can't resist the erosion of this seat, it is that clan. the power of..."

"

The voice was full of shock, as if seeing something unbelievable.

However, although the power of the **** emperor totem temporarily resisted the invasion of the other party, the death breath of the other party slowly entered Qin Chen's body.

"what!"

Qin Chen's body began to collapse on the spot, it was just a trace, Qin Chen's body that couldn't even be blown away by a single level of detachment began to annihilate naturally.

Such a scene is too terrifying, completely beyond Qin Chen's imagination.

This is also because he is protected by Gu Yuta. If there is no Gu Yuta, Qin Chen is afraid that in an instant, his soul will be scattered on the spot. "Hahaha, boy, don't resist, this seat was in the universe back then, let alone a little ant who is not even detached, even the detachment of the third realm can't resist the annihilation of this seat, no matter how much you resist ,All

inevitable ending. This voice was full of gloomy and cold colors: "I didn't expect you to not only control a trace of the sky-splitting supernatural power, but also get the inheritance of that person. However, although that person was strong back then, he was famous in the sea of cosmos, but this seat is now. Only

It's a living dead, don't care anymore, Jie Jie Jie. "

boom!

The terrifying death energy entered Qin Chen's body again.

For a moment, Qin Chen felt that his body was about to be wiped out.

"The power of thunder!"

In the crisis, Qin Chen directly motivated seven thunder beads. With a bang, the seven thunder beads instantly turned into a thunder array, shrouding Qin Chen in it. Then, Qin Chen directly motivated his thunder. The power of blood.

With a bang, endless thunder surged out of Qin Chen's body in an instant, to drive this force out.

"The Seven Gods Thunder Orb? Boy, I didn't expect you to have such a detached treasure on your body. Unfortunately, Lei Ting Dao is not afraid of this seat at all..."

This cold voice sneered, but before the laughter fell, a scene that shocked him was born.

boom!

The endless thunder surging turned into a vast sea of thunder, annihilating the trace of death that he entered into Qin Chen's body in an instant and repelling it.

"what?"

He was startled.

"Impossible, what kind of thunder power are you? Even the top thunder law in the universe cannot resist the erosion of this seat, you..."

Suddenly, it seemed to sense something, and the voice was full of terror and awe: "The Judgment Divine Thunder is the power of Judgment, why does your thunder contain a trace of Judgment Divine Thunder power, are you and that one? ..." A shrill roar filled the world.

[Chapter 5113: Underworld power](#)

At this moment, the endless thunder lingered around Qin Chen, frantically repelling the invasion of the death energy, and blocking the death energy little by little.

In the dead void, Qin Chen was like a **** of thunder, towering between the heavens and the earth, with thunder surging all over his body.

boom!

Rolling thunder, like a world-shaking moat, cut through thorns and annihilated everything.

"What is the power of thunder that my father passed on to me? Why is it so powerful?"

While bathing in the thunder, Qin Chen was horrified. Starting from Tianwu Continent and growing all the way, Qin Chen has encountered countless dangers, and many times it was the power of thunder that helped him escape from the crisis, but this time, he never thought that the thunder blood in his body would be like this.

Horror, even the death energy that is enough to annihilate everything can be dissolved.

Boom!

Rolling thunder blooms, dazzling and gorgeous, forming a magnificent scene in this universe.

"The power of adjudication of divine thunder, this is definitely the power of adjudication of divine thunder. You are the descendant of that one. I never imagined that I would travel across the universe for countless epochs, and I would meet that one's descendant today..."

The dead figure made a shocking sound, as if seeing something unbelievable, and the sound was full of incomparable vibrations. At this moment, you can see in the endless void, this dead figure seems to be coming to life, the closed eyes are open and closed, the divine light is terrifying, and it blooms with endless divine power, making this statue fall here for hundreds of millions. Eternal figure

, in an instant, as if it were about to be resurrected on the spot.

boom!

Chaos Qi dissipated, shaking the heavens and the earth in all directions.

"I really didn't expect that I would meet that person's successor before I died, hahaha, it seems that God wants to make this seat famous in the universe."

The rumbling voice resounded, and with a bang, the death energy surged, turning this world into a Senluo hell. "If it was back then, as your successor, how would this seat dare to touch you at all? It's a pity, now that the soul of this seat has been shattered, leaving behind a remnant soul, although you are the successor of that one, but as long as kill you, i'll be enough

It can be famous for the universe sea, and even change the future destiny of the universe sea. The voice became more and more cold, hysterical, and crazy: "I can't imagine that this seat has been traversing the cosmic sea for countless epochs, and when I am dying, I can still have the opportunity to change the fate of the cosmic sea. Jie Jie Jie, it seems that this is God deliberately gave this seat this opportunity to kill you. What will happen to this vast cosmic sea in the future? I don't know, the fate is too vague, but it is certain that if you are really the descendant of that one, as long as you touch you, the reincarnation of fate will surely come

changed. "

"Since this seat is already a dying person, who cares about the floods that flood the sky after his death, Jie Jie Jie."

boom!

Accompanied by the man's hideous roar, endless death energy surged wildly, the heaven and earth roared, and the entire chaotic land trembled violently.

Countless stars trembled and were about to fall, forming a terrifying doomsday scene. At this time, in the periphery of this dead place, Dangmo Shenzun and others looked at the dead place in the distance in horror. , let everyone in a moment

It was like being in purgatory.

"What a strong death energy, a ghostly death energy, this is... the power of the underworld. Could it be that there is an underworld master in this dead land?"

Dangmo Shenzun sucked in the cold air and looked terrified.

"The power of the underworld?"

Fang Muling and Linglong Goddess also looked over in shock, their eyes horrified.

The underworld is a special place in the cosmic sea, and it is the place of reincarnation of the cosmic sea.

It is rumored that any powerful person in the universe will be resurrected in the underworld and become a soul in the underworld as long as it is not completely lost, the soul is swallowed or sacrificed and imprisoned.

However, the reincarnated powerhouses could not retain the memories of their previous lives, but became creatures in the underworld, falling into chaos and confusion. It can be said that a place like the

underworld has carried all the powerful souls of the universe since countless epochs, and naturally countless top powerhouses have also been born. The people of the underworld have even become a top force in the universe.

in the cosmic sea.

The power of such a force is more than a thousand times stronger than that of the Darkness Mansion and Tuoba Aristocratic Family where Dangmo Shenzun and their Southern Thirteen Star Territory are located?

It can be said that giant forces like the underworld are the real dominant forces in this sea of cosmos.

"Hahaha, Dangmo Shenzun, you also have today. Today, the old man died here. It's ridiculous that you can't escape death. If the old man can have you company on Huangquan Road, that's a profit."

Yuandao God Venerable coughed blood and said hideously.

He was also imprisoned in the void, and it was difficult to move, but his expression was extremely crazy.

Because he knew that he was going to die, and he had such thoughts in his self-destruction before. Now if there is an underworld power in this chaotic place, he will naturally be ecstatic in his heart.

It should be noted that the people of the underworld have devoured death energy all the year round. They are cruel, cold and evil. It can be said that countless forces in the entire universe are extremely disgusted by the people of the underworld, and even the universe is repelled by the people of the underworld.

As long as the underworld powerhouse leaves the underworld and enters the sea of cosmos, without the replenishment of underworld qi, it will weaken a little bit, which is why the underworld can only be in a corner.

Now, if there is the power of the underworld hidden in this chaotic place, these people will die in front of them. Dangmo Shenzun's heart completely sank, because he knew that what the Yuandao Shenzun said was not a lie, and the underworld power that can exude such a terrifying breath is at least one of the top giants in the underworld. Such a character is cruel.

Spicy, what can't you do?

At this time in the dead place.

The endless death energy boiled, and the rolling force of death madly suppressed Qin Chen.

boom!

The energy of death intertwined with the power of thunder on Qin Chen's body and was constantly annihilated, but there was still a trace of the energy of death that penetrated the power of thunder and slowly penetrated into Qin Chen's body.

"hateful."

Qin Chen looked crazy, desperate to resist the invasion of the breath of death. "Jie Jie Jie, it's useless, boy, don't resist, although you are the descendant of that one, but now you can't fully control this

power, although the ruling Divine Thunder is strong, it depends on who is there. Use, you are even detached

No ants, they can only blame themselves for their bad life. "

The cold voice echoed in the world, with madness and hideousness: "Being able to annihilate such an unparalleled genius like you is really more exciting than killing that space power in the past."

boom!

The endless dead energy boiled and entered Qin Chen's body in an instant. This dead energy is extremely strong, and it even penetrated the blockade of the power of thunder. It is incredibly strong and almost unstoppable.

[Chapter 5114: have a good chat](#)

"Trouble, with such a strong aura of death, is this person a powerhouse in the underworld? But even if this person is a powerhouse in the underworld, this death aura is too terrifying?"

Feeling the infiltrating breath of death, Qin Chen's heart kept sinking. He has also practiced the way of death, and even communicated with the undead emperor of the underworld, and knew the strength of the power of the underworld, but even the aura of death on the undead emperor is worse than this one. too far, even

Not at the same level at all.

"Damn, it's hard to fight, the rules of death, it's not that this young master has not practiced."

At this moment, Qin Chen directly motivated the source of darkness in his body, and the power of the origin of Emperor Heiyu was instilled into his body in an instant.

boom!

A terrifying source of detachment rose from Qin Chen's body. Qin Chen actually wanted to use the source of Emperor Heiyu to break through the realm of detachment. Back then, the **** emperor totem powerhouse in the tidal sea of the void once warned Qin Chen that although he cultivated the power of darkness, if he forcibly devoured the detached origin of the dark family, it would cause irreparable damage to his body.

Injury, and even in this life can not enter the realm of extreme.

But now, Qin Chen can't control so much. Only by breaking through the realm of detachment can he use the power of thunder to block the opponent, otherwise he will die if he continues like this.

boom!

The billows surmounted the origin, shook the heavens and the earth in all directions, and a strong aura of death rose from Qin Chen's body, and the void in the four directions boiled violently like boiling water.

death rule.

At this time, Qin Chen actually wanted to use the death rules he mastered to refine the other party's aura of death.

If Qin Chen's actions at this moment were seen by others outside, he would definitely be stunned.

The power of the underworld power in front of him is far superior to Qin Chen, and even reached a level that Qin Chen could not imagine. With Qin Chen's cultivation, how could it devour the other party's aura of death.

It's like an ant, wanting to swallow an elephant in one bite is simply a fantasy. The underworld master also sensed Qin Chen's actions, and he couldn't help laughing wildly: "The rules of death? Hahaha, I laughed so hard, this is the first time I have seen someone want to use the rules of death to devour me. seated

Breath of death. "Boy, not to mention that your current cultivation is far from being able to absorb the death energy of this seat, even if you devour the dark power in your body that does not belong to you and step into the detachment realm, you will still be unable to devour this body." the origin of death

. This gloomy voice sneered: "You know, although the way of death is one of the avenues of heaven and earth, anyone can comprehend and understand it, but the way of death understood by the powerhouses in the sea of cosmos is only the way of death." a branch

, not the way of death itself. Just imagine, how can a person who has never even experienced death realize the true way of death. "

The gloomy voice laughed loudly, and the rolling death aura became more and more intense.

However, just when he was very disdainful of Qin Chen's actions, he saw that in the endless thunder, Qin Chen's body was surging with the law of death, and a trace of the death energy that he blasted into the opponent's body slowly melted away. stand up.

In an instant, he lost contact with this trace of death energy.

"What? It's impossible?"

He stared at Qin Chen with a look of horror.

"Those who have never experienced death cannot understand the true avenue of death, let alone absorb the aura of death in this seat, but why...impossible." At this moment, the thin figure that had been sitting cross-legged in the dead void, He opened his eyes suddenly, Boom, those eyes were dead, and they didn't look like the eyes of a living person at all.

Every world seems to have entered the era of shattering, and has been threatened with death.

With a single glance, the heavens and the earth feel death, and they are about to enter the cycle of shattering. What kind of terrifying pair of eyes is this?

However, at this moment, these pupils were staring at Qin Chen, and in the pupils, the dark sun and moon were spinning and reincarnating, reflecting the scene of death.

"The avenue of death is the real avenue of death. How can you, a kid, master the real avenue of death?"

The voice of this underworld mighty vibrated, and his mind was horrified.

"Let me see, this is impossible, there must be a problem."

His pupils flowed wildly, staring at Qin Chen, his eyes seemed to see through everything in the world, through the cycle of life and death, suddenly, his eyes widened, as if he had seen a ghost.

"The source of death, you actually have the source of death on your body, have you ever died?"

The gloomy voice jolted violently and sucked in cold air: "A guy who once died but came out alive from the underworld? How did you do it?"

"That's right, it's that one, it must be that one."

"It is not impossible to bring you back from death by means of that one? No wonder, no wonder!"

At this moment, this slender figure who seemed to have been dead for hundreds of millions of years was actually shivering and excited. Looking at Qin Chen's eyes, he was extremely excited for a moment. "The power of that family, the power of adjudicating the divine thunder, and even the origin of death in my underworld, no, there is still a trace of the initial cosmic power in his body, no wonder, this person has not broken through detachment, cosmic reincarnation, this human purpose

The point is to become a cosmic reincarnator. This...Pure jade, this person is definitely a piece of unadulterated jade, a rare piece of jade in the world, a person who gathers great luck in qi, oh..."

The voice trembled, no longer evil, no longer ferocious, but it became much gentler in an instant, and the death energy released also became restrained in an instant, and it was actually withdrawing.

"Huh? How did the other party's death aura weaken?" On the other side, Qin Chen was bathed in thunder, and he didn't know the other party's changes. At this moment, he was still madly absorbing the detachment origin of the dark family, so as to break through detachment, because he knew that only true Break through detachment, and only have a trace of resistance to the opponent

possible.

The skinny old man also saw Qin Chen's actions at this moment, and his expression changed, and he hurriedly said: "Stop, stop quickly."

boom!

The endless dead aura disappeared in an instant, and the entire dead land suddenly regained its calm.

"Little friend, stop quickly, misunderstanding, it was just a misunderstanding."

The thin figure hurriedly said.

Qin Chen was stunned and looked at the other party with a frown. Why did the other party's attack suddenly stop?

He was puzzled in his heart, but the devouring action kept going. Who knew what the **** the other party was doing? What if it's a trap?

"Little friend, it's really a misunderstanding, stop, if you absorb this dark source, even if you step into the realm of detachment, the source will be lacking, which will have a huge impact on your future, let's have a good chat ..." The thin figure hurriedly said.

[Chapter 5115: Nether Emperor](#)

"What are you talking about?" Qin Chen frowned and looked at each other, thunder surging on his body.

However, the speed of devouring the source of darkness has slowed down a bit. "Cough, you can stop and swallow it first." The thin figure smiled bitterly: "Don't worry, this seat is not malicious, otherwise I will not take back all the aura of death. In fact, everything was a misunderstanding just now, if you don't believe it. ,Can

Continue to cast the Divine Thunder of Judgment, as long as you stop and swallow the transcendental source first. "

Qin Chen frowned slightly, looked hesitant for a moment, and restrained his swallowing slightly, but he was still extremely vigilant in his heart.

"What do you want to talk about?" Qin Chen stared at the other party and said coldly. Seeing Qin Chen's actions, the thin figure couldn't help but heave a sigh of relief, "Little friend, everything was a misunderstanding just now, this seat is the Nether Emperor of the Underworld, one of the Four Great Emperors of the Underworld, and there is no malice towards you at all, Otherwise, if the old man If you want to kill you, even if you devour that transcendental source, it is useless. "

"No malice? But what were you doing just now?" Qin Chen sneered.

"That's a misunderstanding, because I don't even know that you have the origin of the Avenue of Death." The Nether Emperor hurriedly said.

The origin of the Avenue of Death?

Qin Chen's mind moved, could it be the death rule he controlled?

"Even if I have the origin of the Avenue of Death, it has nothing to do with Your Excellency, right?" Qin Chen said coldly.

In his heart, he was secretly vigilant.

Because the other party's attitude was so abnormal, he was so cold to himself at first, but suddenly he was so humble. Qin Chen didn't believe that a person could have two personalities. It was obvious that the other party was deliberately modest in front of him.

But what was he doing this for?

Could it be that he found that he had mastered the origin of the avenue of death, and wanted to seize himself?

Thinking of a possibility, Qin Chen's expression changed slightly. It's just that he didn't wait for the thought of Qin Chen to come up for too long, the Nether Emperor seemed to know what Qin Chen was

thinking, and said directly: "Don't worry, this seat will not take you away, if this seat wants to take you away, Take home the first time

, and will not wait until now. "Also, although there is only one remnant left in this seat, it is not something that ordinary people can bear. If nothing else, the two embarrassed first-level detachments outside cannot bear the power of this seat at all. to take them away,

I am afraid that without waiting for the success of seizing the house, the other party has already collapsed physically, and together with this last remnant of this seat, the soul is scattered. "As for you..." The Great Emperor Nether sighed, "You have the Divine Judgment Thunder, it's good that this seat is not taken away. Once the remnant soul of this seat enters your mind, it will definitely be trapped by your Judgment Divine Thunder." Stay, I am afraid how will I die?

do not know. "

"With your power, you can't withstand my thunder power?" Qin Chen wondered. The Great Emperor Nether seemed to shake his head: "If you are in the outside world, this seat is naturally not afraid, after all, with your current cultivation base, you can't exert the true power of this judgment Divine Thunder, but once it enters your body, this seat loses its physical body.

The maintenance of power is hard to say. Judgment Shenlei, hey, that is the top-level divine punishment power in this sea of cosmos. Even if the real Judgment Shenlei is at the peak of this seat, I am afraid that it will not be able to withstand it. "

Qin Chen couldn't help being secretly shocked. He had already seen that the cultivation level of the person in front of him was absolutely sky-high, but he said that he couldn't resist his power of thunder in his heyday. How terrible was his power of thunder?

"You keep talking about Judgment Divine Thunder. Could it be that my power of thunder is called Judgment Divine Thunder? Then do you know who the owner of this Divine Thunder is?" Qin Chen even asked.

"Naturally it is the God of Judgment... You don't know the owner of this divine thunder?"

Halfway through the words, the Nether Emperor was suddenly stunned.

He looked at Qin Chen carefully, and a shocking light burst out in his pupils, and there seemed to be sentient beings in reincarnation, as if he could see everything in the world.

"hiss..."

Suddenly, as if he saw something, the Nether Emperor took a deep breath: "You ruled that Shenlei was not cultivated from the external inheritance, but... blood inheritance? Are you..."

Emperor Nether's voice suddenly trembled. Looking at Qin Chen in disbelief, he couldn't help trembling: "Success, that one actually succeeded, he jumped out of reincarnation and deceived everyone..."

Emperor Nether stared at Qin Chen excitedly, incomparably hot, as if looking at a naked beauty, Qin Chen was horrified.

"Unbelievable, it's no wonder that you can control the origin of the Avenue of Death, no wonder..."

The Great Emperor Nether said excitedly, muttering to himself, "The one who hid everyone from his bones, how did he do it? It's amazing, it's amazing..."

At this time, the Nether Emperor was already somewhat incoherent.

Qin Chen frowned: "What are you talking about?"

"I can't say it, I can't say it..." The Nether Emperor shook his head repeatedly, but his expression became more and more excited: "I didn't expect this seat to be able to participate in such a thing, and to spy on the operation of the supreme, what a surprise!"

"Boy!" Suddenly, the Great Emperor Nether stared at Qin Chen, and a dark breath surged out from his eyebrows. This dark breath carried endless death power, and slowly turned into a black bead with heart-pounding power of origin,

Suspended in front of Qin Chen.

This black bead just appeared there, and there was an aura that contained the endless death between heaven and earth blooming, as if it represented the death and reincarnation of the entire universe.

Qin Chen looked vigilant, and suddenly urged the power of thunder to prevent the bead from approaching, and said solemnly: "What is this?"

The Great Emperor Nether said excitedly: "This is the origin of the death road that this seat has mastered, which contains the highest inheritance in this life, and it will be handed over to you now."

"As long as you can comprehend the mystery, you can master the profound meaning of life and death and become a giant."

"Your inheritance?" Qin Chen frowned: "This young master doesn't need it."

He didn't believe that the other party would be so kind. He used to shout and kill, but now he directly handed over his inheritance to himself. Moreover, Qin Chen was not going to go too deep into the inheritance of death.

Who knows what conspiracy might be in it?

"How can you do this." The Nether Emperor suddenly became anxious: "This is the inheritance of this seat, and it contains the hard work of this seat for a lifetime. Hmph, do you know that everyone in the world wants to get the inheritance of this seat and can't? As the emperor of the underworld, lifelong

There is no successor, if you can continue the inheritance of this seat, in the future you can inherit the position of the four great emperors of the underworld, and hundreds of millions of creatures in the underworld will obey your orders. "The Nether Emperor said with a hatred that iron cannot become steel.

[Chapter 5116: Four Great Emperors](#)

"The position of the four emperors of the underworld?"

Qin Chen frowned.

"That's right." The thin figure nodded: "As you are, you should have heard of my reputation as the Four Great Emperors of the Underworld. As the Four Great Emperors of the Underworld, this old man is in charge of one of the four great domains of the Underworld, and is the top giant in the Underworld. He is proud of his figure: "When this seat stomped his feet, hundreds of millions of creatures in the underworld must obey the orders of this seat. As long as you inherit the mantle of this seat, you will be able to rule the world in the future when you enter the underworld. Whoever dares to disobey your order, you

How about destroying him directly? Are you willing to accept the inheritance of this seat? "

This man looked proud, obviously very proud of his identity.

Qin Chen said indifferently: "So what? Didn't he die here?"

"You..." The skinny old man almost jumped up from his seat and roared, "What do you know, if this seat hadn't been plotted against someone back then, how could he have fallen here? Now that old man Mie Kong is dead. can no longer die, but this seat

There is still a trace of spirit remaining, hum, that is enough to explain everything. "

"Since you are so powerful, why do you want me to inherit your inheritance? Over the years, there have been countless masters who have broken into the secret realm of the Ruins, and there are probably some who are detached and strong. You can't even find a successor, right? ?"

Qin Chen said in a deep voice.

The Secret Realm of Returning Ruins has been in this cosmos sea for so many years, how many powerhouses have come to this chaotic land?

Not to mention anything else, the three of them alone are detached masters, such as Dangmo Shenzun, Heiyu Ancestor Emperor, and Yuandao Shenzun. This guy wants to find a successor, isn't it easy? The skinny old man was proud, with a high expression: "Do you think anyone can inherit the inheritance of this seat? My underworld is proud of the cosmic sea, which is the place of six reincarnations in the cosmic sea, and the principles of life and death contained in it are the most important in the cosmic sea. to

One of the high laws. "Although there are not no strong people in this universe who understand the principles of life and death, but if they do not experience life and death, and do not fall into reincarnation, how can it be regarded as a true master of the power of death in the underworld? It can be said that all people in this universe understand life and death

The powerhouses of the Dao rule all comprehend the false Dao rule, the true origin of death, which can only be comprehended and controlled in my underworld. "

"So even if I hand over the inheritance to them, they can't comprehend and master it. They can only blind the inheritance of this seat, but you are different..." The Great Emperor Nether said solemnly: "You control the origin of death, even if you don't go. Underworld, you can also master the inheritance of this seat, and with your background, identity, and talent, you can go to the underworld in the future to deal with those villains who have overshadowed this seat.

This seat takes revenge. "

"Sorry, I won't take revenge for you, and I'm not interested in taking revenge for you, let alone going to the underworld." "No, you will go." The Nether Emperor smiled, "You have the origin of death, and you want to go to the underworld in the future. To achieve a higher position, you must make a breakthrough in death, and you can only comprehend the real death road in the underworld.

So even if you don't want to avenge me, if you want to understand the origin of death, you will definitely go to the underworld. "

"boom!"

After the words fell, the black beads burst into a terrifying source of power in an instant, and for a moment, Qin Chen's body seemed to be pulled by some force, and there was a feeling of breaking through detachment.

"This..."

Qin Chen was shocked. It was just the power emanating from the black beads that he had the urge to break through, which was too terrifying.

Emperor Nether said: "You should also feel the power of the source of death. If you want to step into a higher realm, you must understand the source of death. Only in this way can you become stronger."

Qin Chen was silent.

He could actually feel that what the other party said was most likely true.

"Why should I trust you?"

Qin Chen said in a deep voice.

"Actually, you have no reason not to believe me. If this seat wants to kill you, you will definitely not survive, let alone you, even if it is your friend from the outside world, I am afraid that it will definitely die."

The voice of the Great Emperor Nether fell, boom, the amazing power in the whole world surged in an instant, forming a terrifying force that made people feel heart-pounding.

At this moment, the entire land of chaos seemed to be boiling. Countless gods were trembling, and they all knelt down in the void in horror, trembling, and did not dare to resist at all.

"The one who blew himself up just now was your enemy, right? I will kill him for you now."

The Great Emperor Nether smiled coldly and waved his hand suddenly.

At this moment, the outside world. God Venerable Yuandao, God Venerable Dangmo and others were imprisoned in the land of chaos. Suddenly, a dark palm came out from the dead place, and with a bang, this huge palm was like a sky, facing the God Venerable Yuandao fiercely. captured

Come.

"Do not..."

Yuandao God Venerable looked shocked and angry, looked at the big hand in the sky, and said in horror, "Who is your Excellency? This seat is a strong man under the Tuoba family. If your Excellency kills me, the Tuoba family will be outraged. Please stop." Yuandao God Venerable roared, and a breath of sky burst out from his body. With a bang, this sky-reaching breath was like an ocean, and the Yuandao God Venerable at this moment was like a god, in charge of the sky, able to smash everything, trying to resistance

Stop the huge palm from falling.

However, with a slight shock of this huge palm, the power of the Yuandao God Venerable burst out in an instant, and then he grabbed the Yuandao God Venerable like a chicken.

"what!"

Gently squeezed this palm, the aura on the body of the **** of the distant road exploded in an instant, and with a bang, his whole person exploded in an instant, and he couldn't even do self-destruction. .

boom! The long river slapped, the avenues flowed, the gods in the distance fell, and a vast avenue of transcendence traversed the world, like a giant dragon lying across the world, was snapped up by the big hand, and brought directly into the dead silence. ,

Disappear.

Between heaven and earth, all the aura dissipated, and the place where God Venerable from afar was empty, and there was nothing left.

Not far away, Dangmo Shenzun and others looked horrified, their bodies were soaked in cold sweat, goosebumps all over their bodies, and they shivered.

terrible.

A detached statue like Yuandao God Venerable is not considered a nameless person in the sea of cosmos, and it is already a master.

But now, in front of this big hand, he has no resistance like a chicken, and is easily crushed, and he can't even do it himself. What kind of power is hidden in this deadly place?

boom!

In the dead place, the huge palm grasped the transcendental origin of the God Venerable from afar, and threw it in front of Qin Chen in an instant. This source is extremely huge, giving people a strong oppression, as if an endless Tongtian mountain range is lying horizontally, exuding a world-shattering atmosphere.

[Chapter 5117: heart of space](#)

boom!

The source of the terrifying avenue soared into the sky, exuding an ancient and tsunami-like aura, shaking wildly in front of Qin Chen.

"Boy, this is the source of that guy's transcendence, this seat has already brought you, and besides..."

Boom!

One after another boundless dead silence erupted between the heavens and the earth, and an aura of death descended. This death aura was ancient and profound, turned into a rune after another, suspended in the heaven and earth, and presented it in front of Qin Chen.

Each of these runes seems to contain the highest level of power in the underworld, giving people a strong shudder.

"This is a necromantic rune condensed by the source of death in the underworld, and the death energy of this person after death. This is the real power of the underworld. Once it is controlled, it can run rampant in the world."

Qin Chen felt the rune in front of him, the death energy in his body kept surging, and there was a faint feeling of wanting to break through. "Boy, whether you believe it or not, this seat does not have any ill will towards you." The thin figure sighed, "You don't know, this seat has been here for too many years, and only this remnant is left. If it wasn't for your arrival, this seat would be will be so silent

Go down, until the last day, it disappears. "

"However, when you are here, everything is different. Not only does the inheritance of this seat have a successor, but even one day in the future, this seat will be resurrected."

The skinny old man said sincerely, "Do you think this seat might harm you?"

"Resurrection?" "Yes, although there is only one remnant soul left in this seat, but after all, this seat is one of the four great emperors of the underworld, who is in charge of life and death. When this seat and Mie Kong fought, he disappeared, but this seat has The soul survives because of this palm

Control the source of death. With your talent, background, luck, and that one... Maybe one day in the future, it is not impossible for you to resurrect this seat from the cycle of the underworld. "

"That one... Who is he?"

Qin Chen's heart moved, and when he mentioned his father, he could clearly feel a trace of trembling in the Nether Emperor. With a strong man like him, he still felt trembling? "It can't be said." The Great Emperor Nether shook his head: "It's not that I don't want to tell you, but since he doesn't want to tell you, it shows that he has his reasons. Moreover, in the great destruction in the ancient times, he was alive, and now he is alive. situation

It may not be good either. If I said it, I am afraid that it will affect your future, and even make you irrecoverable, and I cannot afford it. "

"Okay, this seat will give you another thing, so that you can dispel your doubts about this seat."

The words fall.

Om, the void in the far-off land of death instantly opened a door of light, revealing the scene in the depths of the land of chaos.

"This is..."

I saw in the depths of that chaotic land, one after another terrifying death breath surging, constantly squirming, like an abyss tsunami, suppressing a dazzling white light. This black aura of death is the source of death of the Nether Emperor, which is enough to suppress the world. But above this white light is surging with the breath of endless space, as if it has passed through all the ancient times, under the oppression of the source of death, although it seems

Quite dim, but like the candle in the wind, it never goes out.

Qin Chen's eyes fell on the white light, and a faint breath of space was transmitted. As soon as Qin Chen sensed this power, the source of space in his body had an urge to break through.

"What a terrifying power of space?" Qin Chen was shocked.

With his current cultivation, this trace of space aura actually made him feel like he was going to break through the realm of detachment. The Great Emperor Nether smiled and said: "This thing is the origin of space left by Mie Kong after his fall. The guy Mie Kong has a bad character, but his space path is one of the best in this universe. When he fell back then the void left

In the heart, this seat has spent hundreds of millions of years, and it has not been completely wiped out. If you want to completely annihilate it, it is estimated that it will take countless years. "But it's alright now, since you have comprehended a trace of the space rule of annihilation, you might be able to take it. The practice is very good

place. "

"Now, it's up to you if you can get it to approve."

After the words fell, countless death-like auras were tumbling in front of them like evil beasts, and a passage was slowly spread out for Qin Chen to enter.

Qin Chen frowned slightly.

"Don't worry, if I wanted to kill you, why would I use this method?" The Nether Emperor chuckled.

Qin Chen glanced at the other party, but did not speak. With a flick of his body, he entered the passage.

boom!

When Qin Chen entered, the surrounding aura of death kept repelling him.

After a while, Qin Chen came to the origin of this space.

A feeling as if facing the big sun appeared in front of Qin Chen. The white light did not seem to be powerful, but in fact the light radiated was extremely dazzling and had supreme power.

"The origin of space."

Qin Chen murmured, mobilizing his divine sense to attract the origin of space.

When his spiritual consciousness was released from the source of this space, he frowned slightly because he found that the source of space had been severely traumatized, and he had a feeling of dying.

"The origin of death in this seat has been annihilating it. There is no annihilation because this spatial

origin is extremely powerful. If it were replaced by other origins, I don't know how long ago it would have been annihilated, but this spatial origin has never been annihilated.

destroyed, but also severely damaged. "The voice of the Nether Emperor came.

Indeed, it has been a long time since then.

Qin Chen held his breath and focused his attention completely on this space source. He could feel that if he could absorb this space source, it would not be difficult for him to achieve detachment in the future.

Qin Chen's efforts to mobilize the origin of space are too important.

But the origin of this dimension is ignoring him, and has no intention of ignoring him at all.

But when Qin Chen activated the sky-splitting magical power he had learned before, and after mobilizing all the power in his body, the space source suddenly became excited, cheered, and with a bang, he shot directly at Qin Chen. Qin Chen could see clearly that the source of space that dazzled as the sun was actually just a fist-sized, transparent light group that circulated the aura of space. not at all

method to capture.

"This kid, he actually triggered the origin of this space so quickly?"

In the distance, the Nether Emperor was a little shocked.

Although he had expected it, he did not expect Qin Chen to be attracted to the source of space so quickly, which surprised and surprised him greatly. With a humming sound, Qin Chen felt a shock all over his body. This source of space had already entered Qin Chen's body, and an indescribable force spread in Qin Chen's body. He seemed to see the opening of the universe and the Wanwei space.

The formation of space, I saw the reincarnation of the universe, but the only constant is space itself. He has an indescribable comprehension, he just feels that as long as he overcomes this barrier, he will gain the Tao.

[Chapter 5118: got excited](#)

At this time, the power of space lingered around his body, strands and strands, constantly sprinkled, and a trace of the power of space circulated in his fleshly body, making his fleshly body become crystal clear, flowing with the light of the space avenue.

"Is this the Space Dao?"

Qin Chen was shocked and received a great baptism.

Before, he thought that he had attained a very deep level in the first dimension of space, but when he felt the origin of this space at this moment, he realized how small his understanding of the first dimension of space was.

If it is said that his comprehension in space is a small river, then the origin of space in front of him is a big river, and the ocean is majestic, which is simply beyond the reach.

boom!

The power of space oscillates, rolling up thousands of layers of waves, each layer of waves represents a time and era, and each layer of waves represents a cosmic space.

At this moment, Qin Chen is immersed in this endless space, as if he is walking in the endless space and time of the universe. Under the baptism of the power of this space, the whole person vibrates violently.

At this moment, Qin Chen's body dissipated the terrifying light of space, and the whole person seemed to be transformed into the Dao, merging with the four corners of the universe.

However, when he was about to merge, suddenly, a strong aura of death surged in, and the aura of death was like a basin of cold water, pouring it on top of his head, causing him to shudder for a moment.

"not good."

Qin Chen was shocked.

"wake up!"

He shouted loudly in his mind, and one of the rumbling roars kept resounding. With a roar, the ancient tower above his head surged wildly, exuding an amazing space atmosphere, shaking the world. At the same time, in Qin Chen's mind, the sky-splitting supernatural power was also surging rapidly, and the spatial avenues were madly dissipated, and the thunder light one after another spread all over Qin Chen's body, making Qin Chen wake up from the vast power of space in an instant.

come over.

boom!

Qin Chen's consciousness returned, and his entire body instantly became clear.

"so close!"

When Qin Chen woke up, he was shocked to find that several months had passed since he absorbed the source of this space, and he didn't notice it at all.

In addition, at this moment, his physical body was faintly merged with this world, and a trace of the power of space was dissipated, and it seemed to be integrated into the surrounding world and completely turned into a part of the world.

"Almost, I turned into a Taoist."

Qin Chen was shocked in his heart. He looked at his own body, and symbols were formed on his skin and body, as if to be regularized. He couldn't help it, that space source was too powerful. With his current cultivation base and his understanding of space Dao, he couldn't bear such a powerful space power. If he couldn't wake up in time, he would be in conflict with the rules of heaven and earth.

Assimilate and become part of the power of the origin of this space.

In other words, Qin Chen was almost gone just now.

He raised his head, surrounded by the rolling aura of death, constantly circulating, exuding a cold aura, not close to Qin Chen, but just to give Qin Chen some warning. "Boy, you almost transformed into the

Dao just now. With your current cultivation level, you can't completely absorb the source of that space. If you forcefully absorb it, you will only be assimilated by the source of this space. If you say it's assimilation, it's actually yourself being absorbed by this space. origin

Refining it has become part of its power, but fortunately you wake up yourself. "

The Great Emperor Nether looked at Qin Chen with flickering eyes and said in shock. At the critical moment just now, although his aura of death helped Qin Chen to return to reality from the Tao, the biggest credit is Qin Chen himself, because his soul has always maintained a clear and clear, never lost.

in the power of this vast space.

With his cultivation level that is not even detached, he can wake up under the assimilation of the space origin left by Mie Kong, such a talent, even the Nether Emperor is shocked.

"Originally, I wanted to wake you up when you were completely lost, but I didn't expect you to wake up yourself. From this, it can be seen that your accomplishments in the first space are indeed extraordinary."

The Great Emperor Nether explained, for fear of causing Qin Chen to misunderstand.

"boom!"

At this time, this space is constantly suspended above Qin Chen's head, reflecting the ancient Yuta, exuding a terrifying space atmosphere, constantly floating.

Although the origin of this space is already extremely weak, Qin Chen has a feeling that if he forcibly refines it, his body will be regularized and become part of the rules of this space. "With your current cultivation level, it is still impossible to completely refine the source of this space. In fact, if this seat has not suppressed the source of this space for the past 10,000 years, there is only a core left, and you have been wiped out just now.

part of the origin of space. The Great Emperor Nether continued: "Fortunately, you have now been recognized by the origin of this space, just like the pearl of inheritance in this seat, you can carry it with you and keep comprehending, one day, you can completely integrate the origin of this space into in vivo , and when it is not assimilated by it, it will be easy to step into the realm of detachment. "

Qin Chen's mind moved: "Can you collect it?"

He looked at the source of space, and the consciousness filled the past. Sure enough, although this source of space exudes a terrifying aura, he can't fully absorb it, but he can already control some and collect it.

"receive!"

As soon as Qin Chen raised his hand, he immediately took this space source into the Guyu Pagoda, and then slammed the entire Guyu Pagoda into his body.

boom!

Qin Chen's body exudes a dazzling space divine light. After accommodating the origin of this space, the breath of Gu Yuta immediately became extremely deep and terrifying, as if it had recovered in an instant.

At this moment, the breath of death in the surrounding world is still surging, but it is no longer easy to approach Qin Chen.

"Gu Yuta seems to have undergone some transformation."

Qin Chen felt the ancient tower in his body. At this time, he had a feeling that after accommodating the origin of this space, the ancient tower seemed to be slowly undergoing some transformation, which made the breath of the ancient tower more profound.

As soon as Qin Chen raised his hand and banged, a terrifying power of space stirred up, and actually repelled the Nether Emperor's aura of death by one point.

"Boy, you can control a trace of power in the source of this space so quickly?"

Emperor Nether looked at Qin Chen in disbelief.

Is this guy still human?

Although it only controls a trace of space power, it is the space origin of the ancient era, and it is one of the top space giants in the universe sea? Qin Chen didn't answer. At this time, he had a feeling that even if he didn't have the power of thunder, he would be able to resist the power of the Nether Emperor for a while.

[Chapter 5119: self seal](#)

"Boy, now you believe that I didn't lie to you, as long as you use the power of space in your body, you can completely suppress the Pearl of Inheritance of this seat, so that even if this seat has any bad thoughts, there is no need to worry about it. can not complete
, you can rest assured. "

The Nether Emperor continued to speak.

He really did his best to make Qin Chen believe in himself. Qin Chen looked at the black beads in front of him, and he had a faint feeling that if he sent the black beads into the Guyu Pagoda and suppressed them with the source of space, it was true that the other party would not be able to do any tricks even if they wanted to.

arrive.

"What's your purpose in doing this?" Qin Chen asked with a frown.

If the other party really has bad thoughts about him, the months before he assimilated with the origin of the space is actually the best chance to get out.

Although he has been prepared for a long time, the other party may not be able to succeed, but this Nether Emperor at least did not do it in the previous process, but secretly helped him.

This made Qin Chen somewhat surprised.

Does the other party really have no bad intentions? Emperor Youming hurriedly said: "I have already said the purpose, because you are the only warrior who can inherit the inheritance of this seat for hundreds of millions of years. the four

The seat of the Great Emperor can return to the underworld in the future, regain everything that this seat once had, let the inheritance of this seat continue to pass on, and let the four great emperors of this seat no longer fall into the hands of others, that's all. "

The Nether Emperor's tone was sincere, for fear that Qin Chen would not believe it. Qin Chen pondered for a moment, and then said lightly: "Although you were going to kill this young master before, but I thought that you stopped the Divine Venerable Yuandao from self-destruction for me, and also helped me kill him, and you gave me the origin of this space. up, between you and me

The grudge was written off. However, if you want me to inherit your four great emperors, you will be exempted from it. I am just a small person who has never achieved transcendence, and does not have such great courage. The Great Emperor Youming hurriedly said, "As long as you don't die, your future will be extraordinary, so why belittle yourself? However, if you do not want to inherit the throne of the four great emperors, I will not force you, I just want to pass on the inheritance,

Secondly, if possible, I would like you to do me a favor, a favor that has nothing to do with inheriting the throne of the Four Great Emperors. "

"Let's talk." Qin Chen nodded. If he could help, he wouldn't care to help. Moreover, he was still in the other party's territory. If he angered the Nether Emperor, it would not be a good thing.

"I have a descendant named Yan Po. If you can, when you go to the underworld in the future, you will also pass on my inheritance to him. Of course, if you don't find him, that's all." Netherworld Emperor said.

Qin Chen pondered for a moment and said, "I can help with this, but I won't take the time to find Yan Po. I can only promise you that if I meet Yan Po, I can help with this."

"Of course, as long as you meet Yan Soul, please help. If you haven't met Yan Soul, then when you go to the underworld, post a message, and Yan Soul will automatically come to you." Emperor Netherworld said immediately.

Qin Chen didn't speak. After communicating with Emperor Nether, Qin Chen realized that if he wanted to understand the real death road in the future, he would definitely go to the underworld.

"I'll do it when I think I'm strong enough." Qin Chen nodded.

Before he has a certain amount of strength, he will never rashly seek the descendants of this Nether Emperor. "That's good. As the emperor of the four great emperors of the underworld, I had a lot of treasures back then, but when I fought against Miekong, I blew up all the treasures in my body. Now, apart from this inheritance, there is nothing. But if someone one day you

When you go to the underworld, you can go to the site of this seat, where there are still countless cosmic crystals, including many top-level divine veins. "

"What? You still have a lot of divine veins?" Qin Chen didn't wait for the Nether Emperor to finish his words, and immediately came to the spirit.

Inheritance, he still has a little bit of vigilance, but he can't care about Divine Veins, this thing is simply necessary for cultivation.

For Qin Chen, the power he wants to absorb every time he breaks through is too much. If there is not enough divine veins for him to absorb, it is too difficult for him to break through.

If he has enough Divine Veins, his cultivation speed can definitely increase a lot.

Qin Chen originally planned to use the Space Divine Veins and Void Divine Mark Fruits he obtained before to cooperate with the understanding of the origin of space, but if he wanted to practice the Way of Death, Qin Chen also needed many Divine Veins.

It is indispensable to him.

When Emperor Youming saw that Qin Chen was finally interested, he was very happy, but also a little helpless.

He is the inheritance of one of the four great emperors of the underworld, and it is a surprise for anyone, even the detached powerhouse of the eternal order. But he happened to meet a freak like Qin Chen, and he didn't care about his inheritance at all. In his opinion, his most powerful thing was inheritance, and it was spread out that all the powerhouses in the entire universe were coveted and madly killed. As for staying

Those treasures in the underworld and the gods of the underworld are not worth mentioning at all.

But who knew that what moved Qin Chen was the divine vein that he thought was nothing, which made the Nether Emperor speechless.

If I had known earlier, I would have collected more Cosmic Sea God Vessels. Maybe this kid might not even worship him directly when he is happy. "My divine veins are all left in my territory in the underworld, but I hide it very well, and ordinary people may not be able to find it, but I have disappeared for so many years, and I don't know if those things are still there, so I have to ASAP find out. "

The Emperor Nether meant that the sooner Qin Chen could go to the underworld, the better.

Qin Chen nodded, he also understood the meaning of the Great Emperor Nether, but even if he wanted a divine vein, he would not put himself in danger.

Seeing that Qin Chen was extremely calm, the Nether Emperor also sighed secretly, this time his temperament was really unusual. "The address is left in the Pearl of Inheritance. Well, the soul of this seat has only a trace of strength left. Next, I will put the soul in the Pearl of Inheritance and sleep, but don't worry, I will take care of myself. The spirit of the soul is imprisoned,

It won't disturb you in the slightest. Of course, if you want to directly destroy my Pearl of Inheritance, then this seat can only be left to you. I've been here too long, and it's time to leave. "

The voice of the Great Emperor Nether fell, and with a bang, the thin figure not far away dissipated in an instant, turning into a cloud of smoke and entering the black beads.

At the same time, dazzling runes appeared on the beads in an instant. These runes were obscure and esoteric, like chains, wrapping the black beads layer by layer.

boom! The power of restraint that originally shrouded the surroundings disappeared in an instant, and countless death auras also dissipated, obviously losing the source of power.

[Chapter 5120: don't fall behind](#)

Qin Chen raised his head, the dead place in front of him was slowly collapsing, constantly fragmenting, and even the entire place of chaos began to vibrate and disintegrate little by little.

boom!

The endless aura of destruction spreads in all directions, and the voids are collapsing and turning into ashes.

The reason why this land of chaos and dead silence exists is precisely because the Nether Emperor is there. Now that the Nether Emperor has disappeared, the land of chaos and the dead silence has finally gradually dissipated, and it began to dissipate little by little into nothingness.

A terrifying force of destruction spreads out between heaven and earth, and this place is like a universe that has come to the end of reincarnation.

"You can't stay here for long."

Qin Chen looked at the Pearl of Inheritance in front of him, thought for a while, and then raised his right hand, the Pearl of Inheritance fell into Qin Chen's hands instantly, and was sent into Guyu Pagoda by Qin Chen. As soon as you enter the ancient tower, the terrifying power of space turns into chains that wrap the pearl of inheritance. At the same time, in the ancient tower on this floor, one after another thunder appears. become endless

The thunder talisman formed a terrifying thunder formation, which sealed the pearl of inheritance here.

Although the Nether Emperor has already sealed himself up, but acting carefully, Qin Chen still imprisoned this pearl of inheritance. As long as the other party has any changes, he will be discovered by himself, so be prepared.

After receiving the Pearl of Inheritance, Qin Chen's figure flickered, and the whole person suddenly disappeared, leaving this world in an instant.

now.

in the land of chaos.

Dangmo Shenzun and others were imprisoned in the void. Suddenly, everyone loosened, and the previous imprisoned power disappeared in an instant.

Before they could react to what happened, rumbling, the entire land of chaos suddenly shook, and a terrifying aura of destruction came from the depths of the land of chaos. Boom, the entire land of chaos began to collapse.

"This... what happened in it?" Dangmo Shenzun looked horrified. In front of him, the place of chaos, which had been standing in the Secret Realm of Returning Ruins for hundreds of millions of years, had not changed. collapsed, like a huge fat

Soap bubbles, in a little bit of destruction, are about to explode.

Behind them, countless **** owls also made a terrified roar at this moment, and they flew wildly in all directions, and fled here in an instant.

"No, this place of chaos is about to be destroyed, miss, let's go..."

Dangmo Shenzun saw the actions of the owls, and his pupils instantly showed a look of horror, and he swayed, and hurriedly took Fang Muling to leave here.

What would happen to a place like Chaos Lands once it was shattered? Not to mention the young lady, even a detached powerhouse like him could not escape death.

escape.

At this moment, there is only one thought in his mind, and that is to escape from here.

"No, Qin Chen is still inside." Fang Muling said anxiously.

"Miss, although Young Master Qin Chen is powerful, you just saw that there is a mysterious powerhouse in the depths of the chaotic land, and even the gods from afar have been crushed by one palm. Young Master Qin Chen is afraid that he has already... "

Dangmo Shenzun anxiously dissuaded him and said, "Although his subordinates are also worried about Qin Chen's young master, Qin Chen's young master is estimated to be very bad. This old slave can't let you die here." Fang Muling looked firm. , said eagerly: "Old Demon, no, Qin Chen came to this chaotic land to save us, how can we just say that and leave, maybe he is just trapped in it, and now this chaotic land is shattered,

There must be something wrong inside, let's go in and take a look..."

With that said, Fang Muling was about to rush in. "Alas." Dangmo Shenzun sighed, hurriedly stopped Fang Muling, and said firmly: "Miss, since this old slave can go in like this, with the old slave's cultivation base, maybe you can leave in time. You two, hurry up and leave first. Here, old slave

I promised that the Palace Master must protect you, otherwise the old slave will have to force you to leave. "

"Okay, Mo Lao, be careful yourself."

Fang Muling heard the words, but she didn't force it. She also knew that her cultivation was too weak, and she didn't know what was going on in the depths of the chaotic land. Forcing in would only bring trouble to the old man.

When the words fell, she and the Linglong Goddess turned around to fly out of the Chaos Land.

"Ugh."

Dang Demon God Venerable sighed, shook his head, and then turned around to swept toward the place where the dead silence was.

It's just that he just moved.

A stream of light suddenly flew out from the dead place.

"Qin Chen."

Seeing the figure flying out from inside, Dangmo Shenzun immediately screamed in shock, and Fang Muling and Linglong Goddess also stopped their bodies excitedly.

Who else could this figure flying out of the dead land be Qin Chen?

Qin Chen swayed and fell in front of Dangmo Shenzun in an instant, frowning and said: "Senior Dangmo Shenzun, you are..." "It was the lady who asked me to go in to find you, you think you should be fine..." Dangmo Shenzun is difficult Looking at Qin Chen with confidence, at this time Qin Chen didn't have any injuries on his body, the whole person seemed to be safe and sound, and he couldn't help but be shocked: "

Are you... all right? What's going on inside? Why did the land of chaos suddenly collapse, and the almighty who killed the gods of the distant road just now? "

"It's a long story, the dead land must not go, we have to leave the chaos land quickly."

Qin Chen's words fell, his body flickered, and he came straight to Fang Muling and the others.

"You're fine..."

Fang Muling's beautiful eyes flickered, and she looked at Qin Chen excitedly, with tears flashing.

"I'm fine, let's go."

Qin Chen picked up Fang Muling and Linglong Goddess, and then said to Dangmo Shenzun, "Senior Dangmo Shenzun, follow me, don't fall behind."

After speaking, Qin Chen's body directly brought a stream of light, and instantly swept out of the chaotic land. Around Qin Chen, countless voids were continuously left behind by him. Qin Chen's whole person seemed to be walking on the avenue of voids. The space under his feet seemed to have no distance, and it was continuously compressed, and it was easy to cross endlessly.

distance.

"So fast."

Dangmo Shenzun followed behind Qin Chen, and he was also carried by Qin Chen's power of space, and couldn't help but say in shock.

The power of such space control is much stronger than his detached powerhouse.

Moreover, Dangmo Shenzun does not know why there is an extremely strange feeling, that is, after Qin Chen came out of the dead land, his accomplishments in the space one seemed to be more terrifying than before.

But how is this possible?

Before the shock in Dangmo Shenzun's heart fell, he felt that the space where the Chaos Land was suddenly swayed, as if all the space was about to collapse in the next moment. Qin Chen's complexion changed greatly, his speed became faster, the endless void was instantly folded by him, and he kept traversing, but the shaking of the space was getting bigger and bigger, and Qin Chen's figure seemed to be getting slower and slower, as if he couldn't stop, it will be rolled back by the center of this chaotic land.
