

## Valkyrie 5171

### [Chapter 5171: all worlds perish](#)

At this moment, Qin Chen bowed his head. The more than 20 top-level Tianjiao experts in the dark and secluded mansion with the branch in the dark secluded area were actually encouraged by Fang Muling, and all of them detonated the origin of his body in an instant.

Boom!

Thunder struck the world, and between heaven and earth, a blossoming robbery cloud formed.

One!

Two!

Three!

...

Almost in an instant, more than twenty tribulation clouds formed in the sky above this dark forbidden land.

These robbery clouds vary in size, either like fire clouds floating in the sky, or like an abyss staring at the sky, some as large as the sky, and some as vast as an abyss.

Who would be an ordinary person who could enter this dark and forbidden place? Even the weakest one on the field is ranked in the forefront of the Dark Nether Mansion, which is the best in the Southern Thirteen Star Territory, and has a legendary life.

But with their cultivation base and realm, if there is no baptism in the dark and forbidden land this time, perhaps they will not even have a 10% chance of stepping into detachment.

Now, they have entered this dark forbidden area because of Qin Chen, and they have also seen a higher chance of crossing because of the wildness of the young master of the four sides and the specialness of Qin Chen, which makes them not floating in their hearts, trying to seize this best opportunity .

Who is an ordinary person who can achieve this achievement? Almost all of them have supreme wisdom, and naturally know that seizing fleeting opportunities is the core of transcending ordinary people and achieving supreme achievement.

Boom boom boom! At this moment, on the endless sky, rolling thunderclouds formed, and the entire dark forbidden area was boiling. It was visible to the naked eye. The sky above the dark forbidden area was already shrouded by the monstrous robbery clouds, and the ink-like pitch-black thunder tribulation seemed to have formed. one slice

The endless abyss is upside down above this dark forbidden land.

A roaring thunder that can shatter everyone's soul, resounded through the heavens and the earth, and shook everyone's mind.

"This thunder cloud is too terrifying, can Qin Chen block it?"

At this moment, in the dark forbidden area below, many strong people were shocked, and there was a trace of hesitation and regret.

Because, the Thunder Cloud of Reincarnation Fate Tribulation formed in the sky is too terrifying and shocking.

The thunderclouds formed when Young Master Sifang broke through detachment were already extremely terrifying, but compared with the breath in the sky today, it was like the difference between a firefly and a bright moon, a mortal dust and an immortal cloud.

Such a thunder tribulation, even a trace of breath, is enough to make their souls fly away and turn into ashes.

How can they not panic?

"Everyone, this time has come, what are you still hesitating about?"

And at this moment, a cold voice resounded through the world.

Fang Muling suddenly stood proudly in the sky. She danced all over her robes, like a goddess of the Nine Heavens.

At this moment, she is shining brightly and catches everyone's eyes. She really blooms like a pearl, which is soul-stirring. On the endless sky, Fang Muling said proudly: "This is a catastrophe and an opportunity for you. If it weren't for this dark and forbidden place, if it wasn't for Qin Chen here, most of you would never want to be detached in your life. , but now the machine

The meeting is right in front of you, the reincarnation of the calamity, that is the most terrifying catastrophe for the strong like me, because the will is like iron, unshakable. "Now, all of you have triggered the reincarnation thunder tribulation, and there is absolutely no possibility of turning back. When you move forward without turning back. Only in this way can one go all out and become supreme, but if there is any hesitation, you will fall into purgatory forever, and you will never be able to live forever.

Go back, don't get out of it. "

"What are you hesitating about?"

boom!

Fang Muling's words instantly shook like a thunderbolt, a thunderbolt from the blue, resounding in everyone's mind.

Like daigo empowerment, let everyone wake up.

yes.

Since you have already embarked on this road, you should continue to walk, how can there be any hesitation?

Cultivation is to go against the sky, how can there be half a point to retreat.

"Hahaha!"

At this moment, Tiangu and others suddenly woke up.

No wonder, the most outstanding arrogant in this Darkness Mansion will be Miss Fang Muling, not the soldiers of the Darkness Mansion who have fought for eternity.

It's true that in terms of fighting, they are all extraordinary, but in terms of firm will, they may not be comparable to Fang Muling.

It's ridiculous that they have always had some ideas before, thinking that the reason why Fang Muling has achieved such success is because of her identity. Now it seems that the eldest miss's mind and talent are definitely far beyond them.

boom!

In an instant, everyone triggered the endless thunder tribulation again, and the power in the body was raised to the extreme in an instant.

Boom!

In an instant, the entire dark and forbidden area trembled wildly, as if it was about to shatter on the spot, falling into the Eternal Demon Abyss.

More than 20 half-step peak detachment broke through the detachment realm together, not to mention in the Southern Thirteen Star Territory, even in the entire universe sea, it is unheard of, unprecedented.

"Everyone."

At this moment, a thunderous voice resounded between the heavens and the earth, echoing rumblingly.

Everyone looked up and saw the sky above the endless abyss, in the vast thunder cloud, Qin Chen's figure appeared majestically, like a god, covering everything.

He lowered his head and looked down, his eyes fell on the many powerhouses below, his eyes were very peaceful, but there was a sense of transcendence over all things, which made Tiangu and others tremble, trembling all over, and a feeling of soul collapse.

It's just a glance.

"You guys have helped me this time, this young master has remembered, this young master has always been unwilling to owe others, this breakthrough, you can use it to your heart's content, this young master can block the endless thunderclouds for you, and help you break through detachment."

Qin Chen's voice rumbled in this world.

"But before that, I will only do my best. If you can't bear it, you can take the initiative to withdraw from the breakthrough, and I will save your life. This is the promise made by Miss Fang Muling to you, and I will too. Keep it in mind."

Qin Chen looked down and said rumblingly.

"Thank you, Young Master Qin, I'll keep it in my heart." Tian Gu and the others shouted in unison, their breath soaring into the sky.

With Qin Chen's promise, they instantly felt at ease. Although they were not familiar with Qin Chen, how could such a genius like this easily deceive others, even under the prying eyes of this breakthrough and detachment?

In the crowd, Qin Chen glanced at Fang Muling, while Fang Muling smiled at Qin Chen and nodded slightly.

"Then, let's get started."

Qin Chen turned his head and suddenly looked at the endless sky tower.

"Boom!" A terrifying power of reincarnation surged from Qin Chen's body. At the same time, in the chaotic world of Guyu Tower, Qianxue, Ruyue, Sisi, Wan'er, Honghuang Ancestor Dragon, Blood River Sacred Ancestor, etc. , is also a moment to motivate his own

origin.

Countless forces gathered together, and under Qin Chen's urging, they blasted into the sky in an instant.

Boom!

The world-shattering roar resounded, and the endless thunderclouds above the dark forbidden area suddenly rolled and became furious. The thunderclouds rolled and converged quickly. Above Qin Chen's head, a terrifying thunderstorm like an abyss of thunderclouds was formed directly.

The abyss swirled rapidly, and the tribulation clouds that were originally formed around it were quickly pulled over, forming a huge vortex covering the entire forbidden area.

The abyss will destroy the world, and the thunder will destroy it.

The power of endless reincarnation and calamity fell directly on Qin Chen's head in an instant.

boom! The world is gone!

[Chapter 5172: one reincarnation](#)

now!

Outside the dark place.

The shocking roar in the forbidden area has already shocked everyone in the outside world.

"What's going on in here...?"

Even across the dark forbidden area, everyone clearly felt the terrifying changes in the entire dark forbidden area. An aura that suffocated many of the powerhouses present was transmitted from the forbidden area, shaking the universe.

"Is that, beyond the thunder tribulation?"

God Venerable Zheng Kong muttered to himself, looked up at the dark forbidden area, and looked shocked.

He is also a strong man who has survived the Thunder Tribulation, and naturally felt a familiar thunder Tribulation breath from this breath.

However, although detachment from the thunder tribulation is terrifying, if the power born when the young masters of the four sides broke through is already the limit, how can such a terrifying thunder tribulation aura be transmitted?

Although such a terrifying thunder tribulation aura is separated from the dark and forbidden area, it gives the feeling to God Venerable Zheng Kong that if he, a master of the first-level transcendence peak, is enveloped by this power, his soul will be scattered, and there will be no bones left.

In this world, will there be such a terrifying detachment of thunder tribulation?

"Lord Palace Master."

Venerable Zheng Kong looked at Palace Master Anyou.

However, he saw that Palace Master Anyou looked solemn, his eyes as deep as an abyss looked into the forbidden area, and endless doubts and shocks were also surging in his eyes.

"Sir, why don't you open the forbidden area..."

God Venerable Zheng Kong just opened his mouth, but was interrupted directly by Palace Master Anyou: "Life and death are a matter of life. Since they have entered the forbidden area of darkness, how can we easily break the rules."

Palace Master Anyou's eyes are deep and firm.

"But..."

"Nothing but."

Palace Master Darkness shook his head.

Seeing this, Venerable Zheng Kong just sighed, and then looked suspiciously into the forbidden area.

What exactly happened in the forbidden area?

Such doubts not only came from the mind of God Venerable Zheng Kong, but also echoed in the hearts of everyone present.

Among them, the most shocking one is the Sifang God Venerable. Feeling the roaring forbidden area in front of him, the expression on the Sifang God Venerable's face is constantly changing, from joy at the beginning, to suspicion, then doubt, and finally anxiety.

"Big Brother!" He turned his head, just about to speak, but saw Palace Master Anyou looked at him lightly: "Sifang, you said earlier that since the forbidden area has been opened, I must not interfere, otherwise, what justice is there? do you think so?"

The words of the gods from all directions were frozen on his face for a moment, his eyes changed, and then he nodded: "Brother said yes."

Turning around, he clenched his fists and stared at the dark and forbidden ground.

"Sifang, you must have had an adventure, right?" he murmured in his heart.

With the movement in front of him, the God Venerable Sifang believed that it was definitely his son, who had obtained some adventure in the dark and forbidden land.

As the first powerhouse to break through the detachment among the crowd, no matter what happens in this forbidden area, his son can come out safely.

In a dark place.

at this time.

Qin Chen's body surged with the power of endless reincarnation.

Boom!

The terrifying power of reincarnation and fate is like a vast ocean, constantly rushing into Qin Chen's body.

In this world, almost the power of the ninth layer of reincarnation was absorbed by him alone, and the remaining 10% was scattered into the bodies of everyone else below.

Kaka!

Qin Chen felt as if something was broken in his body. The next moment, he was already in a vast world.

"This is..."

The next moment, Qin Chen saw a scene that terrified him.

At this moment, he seems to be detached between this world, like an outsider, staring into the distance. In the forbidden area in the distance, under the vast thunder calamity, he was struggling to overcome the calamity, and with the smashing of the power of reincarnation, his fleshly body was like a porcelain tile, and it shattered in an instant. , in the endless cycle of fate

Down slowly collapsed.

boom!

Countless cracks were born, and his fleshly body could not bear such power at all, and was directly shattered by endless thunderstorms.

"I... died in ashes under the thunder calamity?"

Qin Chen was horrified and horrified.

Before he knew it, his body had collapsed, and what was left now was probably just one of his divine souls.

When did this happen? Qin Chen looked up at the sky, and saw the sky above the sky, like a vortex of thunderstorms, exuding an aura like destroying the sky and destroying the earth. This represents the terrifying reincarnation of fate that can only be condensed by more than 20 detached powerhouses.

Power represents the supreme force in the entire universe.

With such a terrifying power, wouldn't it be easy to destroy his body?

Under the bombardment of such power, even the powerhouse of the first-level peak detachment is also going to smash the bones, what does he count?

Boom!

The roar of thunder, like a giant drum, struck Qin Chen's heart violently, causing him to be in a trance.

Countless years of struggle, countless years of hard work, he was bent on breaking through detachment, but he did not expect to be defeated here.

ridiculous.

sad!

A wave of despair lingered in Qin Chen's heart.

No, not right!

At this moment, Qin Chen was suddenly shocked.

A feeling of blessing to the soul filled his body in an instant.

Qin Chen suddenly raised his head, his eyes bursting with radiance.

I am the supreme being in charge of time and space, and the messenger who controls the thunder.

My success or failure is related to the life and death of the entire primitive universe, and it is related to the life and death of hundreds of millions of beings.

How can I fall here?

How can I destroy my invincible body in the mere reincarnation of life tribulation and thunder tribulation?

boom!

In Qin Chen's mind, a series of magnificent voices echoed.

next moment.

Qin Chen woke up suddenly, he lowered his head, the power of time and space circulated above his body, and the powerful power of space easily resisted the power of reincarnation.

"I'm... all right."

"By the way, I am transcending the calamity. This is a reincarnation of life and death."

Qin Chen woke up in an instant, showing an unbelievable color.

Everything before was simply an illusion. It was him who fell into reincarnation and experienced a life and death.

If he is immersed in the reincarnation of the illusion, he will really sink, be annihilated by the power of endless reincarnation, and become part of the reincarnation of the heaven.

"Why, would I enter the reincarnation directly at this time? Reincarnation, isn't it possible to cross the reincarnation only after breaking through the realm of detachment?"

Qin Chen murmured, shocked.

Through the previous breakthrough of Young Master Sifang, Qin Chen knew very well that only after a warrior has passed the thunder tribulation and entered the realm of detachment, will he enter the first reincarnation, and the reincarnations represent life and death again and again.

But now, he has not yet stepped into detachment, but he has fallen into reincarnation?

what on earth is it?

However, before Qin Chen could figure out the situation, the second thunder robbery had already smashed down and slammed into Qin Chen.

boom! The endless reincarnation lightning flashed, engulfing Qin Chen in an instant.

Chapter 5173 Earth, water, fire and wind

Under the endless thunder, Qin Chen was instantly in a vast world.

Between heaven and earth, is an endless loess.

The yellow sand filled the sky, and layers of sand like angry dragons swept in, forming a terrifying storm that covered the entire world.

"If I guessed correctly, this should be the second reincarnation test."

Qin Chen raised his head.

Above the sky, it turned out to be a thick piece of earth, rolling down rumblingly.

Earth crushing?

At this time, Qin Chen already had a little understanding of this reincarnation of life tribulation and thunder tribulation.

Although he doesn't know why others experience reincarnation after breaking through detachment, but he directly enters the reincarnation of life and death, but the current scene is very likely that he has entered the second reincarnation.

"The first time, it was the robbery of the physical body. What is this second reincarnation?"

Qin Chen looked up at the sky.

With a bang, above the sky, the vast sky was directly suppressed, like a mountain, pressing down on him fiercely.

His fleshly body creaked and trembled in an instant, trembling constantly, as if it were about to burst.

"What a terrifying power of oppression!"

With Qin Chen's current strength, even a powerhouse with a level of detachment from the peak would never think of breaking through his defenses easily, but under the pressure of this terrifying sky, Qin Chen's body actually made an ear-piercing clicking sound, as if it was collapsing. Porcelain in general.

This kind of power, the strongest and the strongest, is as strong as Qin Chen, and there is also a sense of heavy breathing.

"This is... the law of the earth?"

Qin Chen trembled in his heart.

Such terrifying power is by no means ordinary loess, but the most top-level earth law in this cosmic sea.

The law of the earth is one of the top laws in the universe, and it is not inferior to the space avenue.

"This is an opportunity."

Qin Chen's eyes flickered and his heart was ecstatic.

If he were an ordinary person, he would be directly crushed by the laws of the earth, but Qin Chen was not afraid at all.

He can even control time and space, so why fear the laws of the earth?

boom!

In an instant, Qin Chen stood upright, and countless laws of the earth poured into his body crazily. Qin Chen actually used his terrifying physical body to endure the power of the laws of the earth, and then went to comprehend the refining process. .

If such a practice spreads out, it will definitely cause a sensation in the sea of cosmos.

The law of the earth is extremely terrifying, and it is as heavy as the sea of stars, which is enough to blast a detached powerhouse.

But Qin Chen has such courage.

boom!

The rolling laws of the earth continuously washed into Qin Chen's body, and were squeezed and refined by him frantically.

For others, this reincarnation is an extremely dangerous exercise of life and death, but for Qin Chen, this kind of detachment from reincarnation is an excellent opportunity for him to improve himself.

"With my current strength, if I want to break through detachment, I need to absorb too much energy, and this law of the earth just helps me."

With a bang, Qin Chen stepped on the ground with his right foot, and terrifying earth fluctuations spread out in an instant.

The endless aura of the law of the earth soared into the sky, not only failed to bring any harm to Qin Chen, but was devoured by Qin Chen madly.

I don't know how long it took.

With a humming sound, a mark of the law of the earth was born above Qin Chen's eyebrows.

The ruler of the earth.

boom!

When Qin Chen took control of the law of the earth, the world composed of the aura of the law of the earth exploded in an instant and returned to the dark forbidden land.

"Unexpectedly, this reincarnation of life tribulation and thunder tribulation actually allowed me to control the law of the earth."

Qin Chen felt the breath of the earth in his body, looked up at the thundercloud of Samsara Fate Tribulation that became more and more angry in the sky, and couldn't help but be pleasantly surprised.

If that's the case, let the reincarnation of life tribulation thunder tribulation be more violent.

Boom!

As if feeling Qin Chen's will, above the sky, the thunder vortex became more and more angry, and the third thunder had already fallen again.

boom!

For a moment, Qin Chen was in a vast water world. All the things in the world were terrifying water currents, forming a strange water world.

"A test of the law of water?"

Qin Chen moved in his heart.

Earth, water, fire, and wind are one of the most basic elements that make up the universe. Combined with the previous laws of the earth, Qin Chen immediately understood that this round of assessment is very likely to be the assessment of the law of water for the four elements of the universe.

"In that case, the next round may be the Law of Fire and the Law of Wind."

Qin Chen was surprised.

If you can control these four laws, it means you have control over the four fundamental laws of the universe sea.

"boom!"

The endless stream of water washed into Qin Chen's body, and was madly comprehended and absorbed by Qin Chen.

And when Qin Chen was carrying out his third reincarnation test.

Boom!

In the world below, Deputy Commander Luan Feng suddenly had an amazing detachment aura. As the first powerhouse to enter the breakthrough stage, Deputy Commander Luan Feng was the first to successfully enter the realm of detachment.

A breath of reincarnation descended from the sky. As long as he passed through this reincarnation, Luan Feng would successfully enter the realm of detachment and become a transcendental powerhouse who had passed through a samsara.

"Luan Feng's breakthrough speed is so fast."

Around, Fang Muling and others suddenly changed color.

Their breakthrough speed was significantly slower than that of Luan Feng. After all, they were trying to break through behind Luan Feng, but once Luan Feng successfully broke through detachment, it would definitely cause some trouble to Qin Chen who was breaking through.

"Miss."

Tian Gulian looked at Fang Muling.

He was suspended in the sky, and his body was full of reincarnation, and he was also one of the leading experts in breakthrough speed among the crowd.

"Don't worry, make every effort to break through, I believe Qin Chen will have plans."

Fang Muling said in a deep voice.

With Qin Chen's shrewdness, since he took the initiative to let Luan Feng and the others break through first, he would definitely be well prepared and would not be easily disturbed by Luan Feng and the others.

boom!

On Luan Feng, the terrifying aura of reincarnation rose, and a detachment force surged directly out, and he had successfully entered the detachment.

And this time.

In Qin Chen's eyebrows, a mark of water appeared, and he had successfully passed the third round of the water test.

Boom!

Without waiting for Qin Chen to react, a terrifying thunder robbery fire suddenly descended above the sky. This thunder and robbery fire seemed to annihilate everything in the world. Wherever it passed, a pitch-black gap was burned in the void, and it instantly slammed into Qin. on dust.

A terrifying flame shock swept away in all directions.

As Qin Chen expected, the fourth round was the flame assessment.

And this flame represents the way of fire, one of the four most basic principles in the universe, and it contains the most scorching power of the sun.

The endless flames instantly engulfed Qin Chen in the terrified eyes of everyone.

"kill!"

At the moment when the flames and thunderstorms engulfed Qin Chen, the deputy commander Luan Feng suddenly let out a loud shout, and his whole body rose to the sky.

boom!

The endless detachment aura instantly enveloped Qin Chen, and along with the terrifying flame and thunder calamity, Qin Chen was completely swept away.

#### [Chapter 5174: golden lotus in fire](#)

Between heaven and earth, Deputy Commander Luan Feng roared, and at the critical moment, he directly launched a terrifying attack on Qin Chen.

Boom!

The endless attacks instantly drowned Qin Chen, and at the same time illuminated the pupils of others around him.

"not good!"

Deputy Commander Tiangu and others all exclaimed. It would be fine if only Deputy Commander Luan Feng took the shot. With the strength Qin Chen showed before, everyone is not worried at all, but Deputy Commander Luan Feng is too good at seizing the opportunity. At this moment, it is Qin Chen who has survived the tribulation of reincarnation. time, Luan

Deputy Commander Feng's shot was made at the moment when the fourth thunder robbery fell.

How dangerous and terrifying is the robbery, especially if such a shocking thunder robbery is not careful, the soul will be scattered, and the bones will be gone.

For a time, everyone's hearts were all clenched, and they shrank violently.

"This vice commander Luan Feng's vicious methods have been dormant until now." "With this person's talent, although he has just entered the realm of detachment, he has only passed through one reincarnation. , but he was willing to give up the opportunity of the second reincarnation, and he decided at this time

waiting to attack. "

"And as soon as he came up, he directly burned his own transcendence origin, which was premeditated."

Everyone was shocked and horrified.

"Boy, you killed the Young Master Sifang, and today Commander Ben is going to avenge the Young Master Sifang and take your life. If you want to blame it, you didn't kill Commander Ben before, and even dared to use Commander Ben to let you break through. "

Luan Feng roared loudly, and the rolling power surged in his body, and a resolute ferocious and fierce flashed in his pupils.

Boom!

An indescribable roar resounded through the heavens and the earth, and the place shrouded in the endless calamity suddenly emitted a violent explosion, as if the heaven and the earth were collapsing and everything was about to be annihilated.

Driven by Luan Feng's power, the already distorted world ripped apart a huge vortex, billowing like an abyss as if it could devour everything between heaven and earth.

The faces of Tian Gu and the others were suddenly pale, and a heart sank deeply.

Under such terrifying power, I am afraid that no one can survive. The terrifying power is enough to tear even the powerhouses who have surpassed the peak of the first-level to shreds and turn them into dust of the universe.

And once Qin Chen fell, it was impossible for this group of people who lost their shelter to survive under this terrifying thunder calamity, fearing that they would all be smashed into powder by the mighty power of the reincarnation life tribulation thunder tribulation.

"Is it?"

However, just when everyone was terrified and didn't know what to do next, an indifferent voice was slowly transmitted from the roar of the violent explosion.

At the next moment, a figure like a demon slowly walked out from the fire, the roar of the sky and the fire were like the rising sun shining behind him, setting him off like an unparalleled god.

"what?"

Such a scene shocked everyone, their pupils widened, and they looked at the scene in front of them in horror. At this moment, Qin Chen is in control of this endless flame, and the roaring fire of calamity falls on Qin Chen's body, but it seems that the courtier is facing the emperor.

Guarding him, it kept pouring into his body.

boom!

In Qin Chen's body, the breath of flames was rising into the sky.

"This is impossible."

Deputy Commander Luan Feng let out a terrified roar, his face twisted.

Such a terrifying power of thunder, coupled with the blow of his burning source, did not cause Qin Chen the slightest harm. Is this guy a devil?

"Kill!" Deputy Commander Luan Feng roared and killed again. At this moment, he not only burned beyond the origin, but also burned his own flesh and life, a force that was several times more terrifying than before. , suddenly attacked Qin Chen

However, Qin Chen just raised his hand at will, and the fire swept out one after another. He heard a roar, and the attack that Deputy Commander Luan Feng spent all his strength exploded in an instant and vanished.

Whoosh!

To everyone's surprise, after the deputy commander Luan Feng performed this move, he suddenly rose into the sky and swept away like lightning towards the distant sky, fleeing wildly.

"Want to go?"

Qin Chen smiled, he just lifted it up, the domain space formed by the terrifying robbery fire around him solidified in an instant, and Luan Feng's whole person was like an insect specimen frozen in amber.

In the endless robbery, Qin Chen stepped forward, and his right hand directly pinched Luan Feng's throat.

click! His throat couldn't bear Qin Chen's power, and it shattered directly, and the terrifying robbery fire that lingered around was only stained with his flesh. of

Like snow, it disappeared in an instant.

"Why? Such a terrifying robbery... Why are you safe and sound..."

Deputy Commander Luan Feng's pupils were full of anger, unwillingness, and hatred.

He didn't understand why he could annihilate the calamity fire of a detached powerhouse with a random touch, but it could not cause any harm to Qin Chen.

"why?"

Qin Chen's eyes were indifferent, then he looked up at the endless robbery around him, stretched out his arm, and the endless flames revolved around him.

"You don't know, the flame is the power that this young master has realized for a lifetime."

boom!

With Qin Chen's voice falling, the rolling fire that could easily annihilate a world poured into his body in a frenzy.

Between Qin Chen's eyebrows, a flame mark floated out.

At the same time, in Qin Chen's mind, the chaotic green lotus flame that had been accompanying him suddenly soared.

The chaotic green lotus fire turned into a figure sitting cross-legged in a trance.

As an alchemist, Qin Chen has absorbed it, and how many flames has he felt?

There are countless.

The former Void Karmic Fire, the Golden Lotus Fire of Merit, the Black Lotus Fire of Extinguishing the World, the Red Lotus Fire of Karmic Fire, the White Lotus Fire of Purifying the World, or the Primal Chaos Green Lotus Fire, which one was untouchable to Qin Chen back then.

But in the end, they were completely refined by Qin Chen.

It can be said that the flame robbery of the fourth reincarnation is undoubtedly the easiest for Qin Chen to pass through.

Luan Feng simply missed the opportunity to sneak attack.

boom!

At the moment when the flame mark between Qin Chen's eyebrows was formed, the tribulation of the fifth reincarnation had already descended.

The endless hurricanes and Xunfeng fell, turning into sharp blades, covering Qin Chen and the deputy commander Luan Feng in his hands in an instant.

Boom. Deputy Commander Luan Feng let out a scream, and he stepped into detachment just for a moment, and he was already annihilated in this endless wind tribulation, becoming a new detachment shorter than that of the young master of the four sides.

#### [Chapter 5175: life is a practice](#)

The calamity of the rolling wind shrouded Qin Chen in an instant, bang, the endless calamity completely swallowed him.

Puff puff!

I saw a series of terrifying wind blades slashed on Qin Chen, and there was a sound of Jin Ge fighting.

"Earth, water, fire and wind..."

Qin Chen murmured, he stretched out his right hand, and the wind robbery immediately split white marks on his palm, but the white marks quickly dissipated and repaired.

"This wind calamity is much more terrifying than the space cracks in the secret realm of returning to the ruins. Any one is enough to seriously injure and annihilate a first-level detachment master."

Qin Chen sensed the power in it, his whole body glowed, and there were runes circulating all over his body.

The wind calamity is actually the most terrifying of the four catastrophes of earth, water, fire, and wind. Even among mortals, there are three disasters and nine calamities. The three disasters include wind disasters, representing the suffering of mortals.

The so-called wind is not just a terrifying physical attack.

When the wind passes, anyone will fall into the cycle of catastrophe, and those who are not determined will be wiped out in an instant.

But Qin Chen was naturally unafraid.

boom!

His whole body glowed, and his whole body was invulnerable to all evil. For Qin Chen, this endless robbery of wind was like a baptism, polishing his fleshly body even more clearly.

All catastrophe is a practice.

Life is alive, life is short. There is a saying in the mortal world that people are born to suffer in this world. Anyone who lives in this world will have countless sufferings, whether it is an aloof emperor or a commoner in the dust, they each have their own suffering.

Each has its own difficulties.

These sufferings are a person's practice. Every person born is just a piece of rough jade. Only by continuous polishing and carving can they become a real precious jade.

Now, Qin Chen is using the power of this wind to temper himself.

boom!

The endless power of wind tribulation has made his fleshly body even more powerful and terrifying.

At the same time, Qin Chen instantly captured the transcendental origin of the deputy commander Luan Feng in his hands.

This is the source of detachment formed by the opponent just after the breakthrough, and Qin Chen was instantly placed in the wind robbery. With a bang, this detachment source actually burst open in an instant. Under the wind tribulation, the detachment source of Deputy Commander Luan Feng instantly turned into a rolling source of power, and then was continuously baptized by the terrifying wind tribulation, and finally

The pure energy was absorbed by Qin Chen.

With a humming sound, a terrifying aura of detachment surged from Qin Chen's body.

The normal transcendental source Qin Chen cannot absorb. Once absorbed, his own source will become impure.

However, the source of transcendence that Luan Feng had just born is not stable yet. It contains the most pure power of reincarnation, and will be directly baptized and transformed into the purest under the bombardment of the reincarnation fate tribulation thunder tribulation. energy.

In an instant, a mark of the wind appeared in Qin Chen's brows.

The catastrophe of the wind is directly passed.

Without waiting for Qin Chen's reaction, the next moment, boom, the fifth catastrophe had already fallen.

Click!

There were countless cracks in Qin Chen's body in an instant.

Space robbery.

This power of reincarnation contained the power of space that shocked the world, and in an instant, Qin Chen's body collapsed directly.

"Space Thunder Tribulation?"

Looking up at the sky, Qin Chen smiled.

I'm afraid I don't know the power of reincarnation in this universe, but the most powerful thing in his body is the origin of space. The Nether Emperor once said that as long as he can integrate the source of space, he can enter the realm of detachment. Now Qin Chen is worried that he can't completely integrate the source of space. He didn't expect that this reincarnation of life tribulation and thunder robbery would actually descend into space.

force.

hum!

Qin Chen used the space supernatural powers, and his body healed quickly, but the next moment, with a bang, his body broke apart again under the terrifying thunder calamity.

But Qin Chen didn't hum, and continued to run the space source in his mind, quickly repairing his body.

Qin Chen's body was continuously collapsed under this thunder calamity, and then repaired.

The so-called heaven and earth are Yu, and Yu in the universe represents the concept of space, and this space calamity is the sixth catastrophe of reincarnation.

The infinite power of space engulfs the world, and any trace is enough to annihilate this void.

"Ah!" When Qin Chen was struggling to cross the sixth reincarnation, a shrill scream suddenly spread from below. Among the remaining three detachment, a strong man was breaking through the detachment process. In the middle, the flesh body expands rapidly

, With a bang, his physical body couldn't bear this force directly, it collapsed in an instant and turned into powder.

This scene made everyone around them tremble with fear.

It is too difficult to break through the realm of detachment. Although there have been successful cases of Young Master Sifang and Deputy Commander Luan Feng, not everyone can break through detachment.

At the same time that the man's body exploded, the other two strong men under the command of the four young masters also screamed in unison.

The rolling power of reincarnation poured into their bodies, but they couldn't bear the power at all. Under the eyes of the public, they exploded again, leaving no bones.

"This..."

"Beyond the realm, is it really so difficult to break through?"

At this moment, Deputy Commander Tiangu and others were all horrified and fearful.

Among the nearly ten people who had followed the Sifang Young Master, from beginning to end, only Deputy Commander Luan Feng had successfully broken through the detachment, and apart from Luan Feng and the Sifang Young Master, the rest of the group had all vanished into ashes.

Such a scene made them not terrified, and even a trace of fear and retreat, even despair, was born in their hearts.

"Ah!" At this moment, another terrified roar sounded, and everyone hurriedly looked around, and saw a half-step peak detachment suddenly shouting, his whole body was lingered by the power of rolling samsara, and his body began to collapse. Extinction, obviously can not bear

With this power, it will explode with it.

When a martial artist breaks through detachment, he fights to change his life against the sky. Once there is fear in his heart and he retreats, how can he continue to move forward?

"No, Xuling can't hold on anymore."

Everyone's faces changed slightly, showing shock.

Once this Xuling can't hold on, he will definitely be greeted by the same subordinates from the Quartet as before, and it will be the end of death.

"what!"

Accompanied by the man's low roar, on the other side, there were also panic roars, and there were two.

The fear seemed to spread, and it spread in an instant. Among the people who were originally breaking through, three people quickly couldn't hold on, and their bodies began to collapse under the power of reincarnation.

"Do not!"

I saw these three people swell up and crumble a little bit, and they were about to disappear in terror. Suddenly...

boom!

A terrifying aura descended from the sky, and instantly enveloped the three of them.

It's Qin Chen!

In the endless thunder tribulation, Qin Chen actually took the time to go directly to the three of them, and in his big hands, the surging power instantly wrapped the three of them.

Hearing a buzzing sound, the power of reincarnation on the three of them was like a tide receding, quickly dissipating under Qin Chen's swallowing, and then being sucked into their body by Qin Chen.

"I... didn't die?" The three of them landed in the air, watching in horror as their bodies returned to normal, with the surprise of the rest of their lives.

### [Chapter 5176: shocking](#)

Normal people break through detachment, and once they fail, they will definitely only end up falling, but the three of them survived safely, and there was no trace of damage on their bodies.

All this is like a dream.

Swish.

The three of them raised their heads in unison, looked at the magnificent figure above the endless sky, and saluted devoutly.

Because they all knew that the reason why the three of them survived was because of Qin Chen. "Qin Shaoxia, you and I don't know each other, but today, you are willing to take the risk and wait for me in the calamity of reincarnation. This kind of great kindness and virtue, I will never forget it. If Qin Shaoxia has any dispatch in the future, I will Wait until you die.

"

The leader, Xu Ling Hong Sheng said, bowed deeply, looking at Qin Chen with gratitude and admiration in his eyes.

Although Qin Chen had promised them before, but now Qin Chen is in the process of breaking through detachment, they deeply know what kind of risk Qin Chen's previous actions will take.

A careless, but it is definitely the end of the soul and the ashes.

But knowing that there would be such a risk, Qin Chen still took action.

What kind of personality is this?

Compared with Young Master Sifang, Qin Chen's actions were a thousand times stronger.

Qin Chen's actions not only affected the three people in Xuling, but also shocked the hearts of more than 20 other powerhouses such as Tiangu around him, and had incomparable admiration for Qin Chen.

Such a character can really be regarded as a genius of the world. As for the young master of the four sides, what is it?

"Qin Shaoxia's character, I will admire it."

Everyone shouted in unison.

boom!

A power of faith soared into the sky and blessed Qin Chen, making Qin Chen even more heroic.

"It's the power of faith?"

Feeling such a force, Qin Chen showed a look of surprise. He never thought that he would have such an unexpected harvest.

In the endless space thunder calamity, Qin Chen glanced at everyone's eyes and said with a smile: "You are welcome, since this young master promised to protect you, naturally you will not suffer any harm, you can break through with peace of mind."

"Of course, once you feel that you can't break through successfully, please don't be reckless, stop in time, and then withdraw from the scope of Samsara Life Tribulation to prevent you from being locked again by lightning tribulation and encountering a crisis."

Qin Chen's rumbling voice resounded throughout the world.

"Yes!"

With Qin Chen's promise, Tiangu and the others roared in unison, their voices full of excitement.

boom! In an instant, an astonishing aura of will surged out from the bodies of these twenty people, and with a bang, a terrifying power of reincarnation came madly, but the will of these twenty people was extremely firm, and it was unexpectedly strong. become invisible

Like the firmament of the sky, it protects itself.

"I really envy them."

In the distance, the three Xuling, who had retreated far away, looked envious.

The three of them failed to break through before, and the hope of breaking through again in this life is extremely slim. On the contrary, the remaining people, because of the three of them as role models, know that once the breakthrough fails, Qin Chen will help secretly, and their confidence will naturally increase greatly. Under such a mentality, they will have no scruples when breaking through.

, then the probability of entering the realm of detachment will be greatly improved.

"Forget it, I am lucky that the three of them survived, how can I expect too much?"

Xu Ling sighed and smiled, but his expression was quite free and easy.

Although they have never stepped into detachment, they have already controlled some detachment powers, which are several times stronger than ordinary half-step detachment peak powerhouses, and even facing detachment powerhouses, they may not have the power to fight.

At this moment, above the sky. With the help of the power of faith, Qin Chen's body space source quickly exuded a world-shattering aura. When the two forces fused together, he heard a click, and the terrifying space holy light circulated on Qin Chen's body, endless. of

The power of space thunder robbery actually poured into Qin Chen's flesh in an instant.

Boom.

Qin Chen floated in the sky, and the light of space bloomed all over his body. He had completely integrated the power of this space thunder tribulation into himself and became his own power.

At the same time, the origin of space in Qin Chen's mind was completely integrated with him.

Countless space Dao circulated wildly in Qin Chen's mind.

Boom!

Qin Chen raised his hand, and the world in the dark forbidden ground trembled violently, as if it could not bear Qin Chen's power.

"Great, it turns out that this is the real space avenue."

At this moment, Qin Chen's mind was clear, and he instantly understood the true avenue of space.

A detached aura suddenly rose from Qin Chen's body and spread everywhere.

detachment!

At this moment, Qin Chen is stepping into the realm of detachment.

From this moment on, he really began to transform into transcendence.

Boom!

At the moment when the space thunder tribulation dissipated and Qin Chen entered the detachment realm, the power of the seventh thunder tribulation had already fallen again.

hum!

This power of reincarnation is extremely cold, like a black river falling from the sky, with the power of death that is palpitating poisonous light, poured on Qin Chen's body in an instant.

This seventh reincarnation life tribulation thunder tribulation is exactly the source poison black death robbery. The endless toxin power is combined with the breath of death. Everywhere along the way, the void is poisoned with twisted gaps and cracks.

laugh!

The terrifying source poison black death robbery fell on Qin Chen, Qin Chen's body instantly burst into white smoke, this terrifying toxin power, even a drop, is enough to turn a detached power into black ashes.

However, at this moment, the power of toxin falls on Qin Chen, although it can only corrode some impurities on his body, it can't bring real damage to his body at all.

The Four Elements Dao combined with the Space Dao and other powers has already brought Qin Chen's strength to an unprecedented level.

boom!

The power of the billowing poison poured into Qin Chen's body, but instead, it was frantically increasing the power of Qin Chen's body, and the poisonous death runes rose from Qin Chen's skin.

These runes were integrated into Qin Chen's detached aura and spread instantly in all directions.

hum!

Qin Chen's detachment in his body became more and more terrifying under the increase of the seventh thunder tribulation power, and it swept away in an instant, covering the entire dark forbidden area.

"break!"

Under the influence of Qin Chen's terrifying detachment, a roar suddenly sounded in the forbidden area below.

Boom!

What followed was a terrifying detachment aura.

I saw that among the more than twenty detached powerhouses below, someone suddenly roared, and his whole body rose up, his clothes were flying, his hair was flying, and a detached breath bloomed from his body, roaring up to the sky.

It was actually a direct breakthrough and detachment.

Qin Chen's aura of detachment is so terrifying, any trace of it is enough to trigger a change between heaven and earth.

With that person's breakthrough...

"what!"

"boom!"

"boom!"

"boom!"

In an instant, four or five detachment auras suddenly rose from below. These auras towered into the sky, combined with Qin Chen's detachment aura crazily, strengthening Qin Chen's detachment power.

In a short period of time, four or five strong people were influenced by Qin Chen and entered the realm of detachment. Called shocking.

#### [Chapter 5177: Time and space control](#)

A full five detached breaths are passed wildly in this dark and forbidden land.

What kind of scene is this?

Boom!

Between the heavens and the earth, countless transcendental powers surged, shaking the Forbidden Land of Darkness, and even the headquarters of the entire Darkness Palace, there was an invisible rumbling rumbling.

Above the sky, it seems that there are invisible forces swarming towards the location of the dark and secluded forbidden area, not only the headquarters of the dark secluded mansion, but also the entire territory of the secluded mansion, there are some visions.

"What happened to my Darkness Palace headquarters?"

At this moment, the people in the entire dark and secluded mansion raised their heads, and their eyes were horrified.

Although they couldn't see the movement due to the barrier of the dark and secluded place, the invisible force was oppressing the people in the entire dark secluded mansion, making it difficult for them to breathe, and there was a feeling of doomsday.

It seems that the gods of the universe sea are furious and want to smash the entire dark and secluded mansion.

This is the first time that such a scene has occurred in the countless epochs of the Dark Nether Mansion's history.

"What happened in the forbidden area? Why is there such a terrifying aura coming out?"

At this moment, it is dark and forbidden.

God Zun Kong and Dangmo Shenzun also changed their faces greatly, and there was a faint fear in their hearts.

This is simply ridiculous.

It should be noted that they are all detached powerhouses? The leader in the universe sea, no matter where he goes, is a giant-level character, and he will be shocked by a breath, which is simply a fantasy. "According to the rumors, there is some kind of top-level treasure in the dark and forbidden land of my dark and secluded mansion, which was left by my ancestors of the dark secluded mansion, but this thing has never been discovered for countless thousands of years. Is it true? What's wrong with the dark forbidden place?"

Tianbao was born? "

God Venerable Zheng Kong and the others sucked in the cold air and looked at Palace Master Anyou.

On the side, the Anyou Palace Master and the Sifang God Venerable also looked solemn and their eyes flickered.

This rumor is groundless, and it has indeed been circulating. The Darkness Forbidden Land is the inheritance place of the Darkness Palace. It is rumored that there is a treasure of the ancestors of the Darkness Palace. It is the endless power inherited from that treasure that makes the Darkness forbidden land Existing for billions of years, forever

at its peak.

If before, they still suspected that someone was breaking through the breath caused by detachment, then now, this suspicion disappeared in an instant.

Breaking through detachment will indeed produce amazing visions, triggering the tribulation of reincarnation.

However, many of the people present were also detached. Which of them had never survived the lightning calamity of detachment. They deeply knew that no matter how strong the thunder tribulation caused by breaking through detachment was, at most, it was only similar to the previous breakthrough of the young masters of the Quartet.

The breath in front of him, just vaguely conveyed, made the hearts of some of the powerhouses throbbing.

How could there be such a terrifying transcendental thunder calamity in this world?

What cosmic sea joke?

Therefore, even if someone in this forbidden area is breaking through detachment, the power in front of him will never be formed by the other party's breakthrough detachment, but for another reason.

After all, with such a terrifying power, if they were to go up, they would be annihilated. If someone was really motivated by breakthroughs and detachment, they would have been instantly turned into powder, and the dead could no longer die.

For a time, everyone looked at Palace Master Anyou.

"President."

God Venerable Zhengkong couldn't help but speak.

If there are any treasures unearthed in the dark forbidden area, the palace lord is afraid that he will quickly open the forbidden area and get it, otherwise it will inevitably lead to trouble if it falls into other hands.

The hearts of the four gods could not be calm.

He wanted Palace Master Anyou to open the forbidden area and quickly entered it to check, but also wanted Palace Master Anyou not to open the forbidden area, because if there was a treasure unearthed, his son, Young Master Sifang, would definitely be the most promising person to get the treasure.

Among the geniuses who entered the forbidden area, which one has his son, the young master of the four sides, with high talent?

Maybe Fang Muling is not weaker than the young master of Sifang, but in terms of realm and breakthrough, his son is absolutely unmatched.

"Wait."

Under the watchful eyes of the public, Palace Master Anyou's eyes flickered again and again, as if hesitating, but in the end, he held back.

"President."

God Venerable Zhengkong couldn't help but say more. The Anyou Palace Master looked serious and his eyes were deep: "The forbidden area is open, it cannot be destroyed, this is the discipline that my Anyou Palace has inherited for hundreds of millions of years. treasure

Whether it is unearthed or unearthed, it is a chance for the people among them. "In those days, I also entered the dark forbidden land many times, and it was also the detachment of breaking through in it, but I did not trigger such a vision back then, indicating that the treasure did not choose me back then, so what qualifications do I have to forcefully enter?" Among them, the destruction

bear it? "

"Just because I'm the Palace Master of Anyou Palace?" Palace Master Anyou looked at everyone around him: "This Palace Master has been in charge of Anyou Palace for so many years, and what he hates most is bullying others, occupying opportunities, treasures, and those who can know it. , if someone really moved the treasure, it was his chance, this palace master

Nor will it be taken away. "

When the words fell, Palace Master Anyou looked into the forbidden area, not speaking.

However, in the minds of everyone present, the image of Palace Master Anyou became extremely tall in an instant.

In all fairness, if it was them, they would never be able to be as indifferent as Palace Master Anyou.

"This idiot."

In the crowd, only the gods from the four directions smiled coldly, showing disdain.

"It seems that the inheritance in this dark and secluded mansion belongs to my children." He traced a hint of mockery at the corner of his mouth, secretly excited in his heart.

Boom!

At this moment, in the dark and forbidden land.

The eighth thunder robbery has already enveloped Qin Chen.

This time, it was the power of time that landed on Qin Chen.

This eighth thunder tribulation is actually an endless terrifying time thunder tribulation.

boom!

In an instant, Qin Chen's face was constantly changing, from youth to middle age, from middle age to old age, from old age to baby, flashing constantly.

Instant blue silk, instant white head.

What is the scariest thing in the world?

time!

No matter how powerful or invincible a person is, they can't beat the passage of time.

The vicissitudes of life, a thousand years at a glance.

Time is the most ruthless, and can consume everything between heaven and earth.

Even the most incisive things in this world will change under the washing of time.

Without exception.

boom!

The power of endless time between heaven and earth washed over Qin Chen, surging frantically, to completely annihilate him in the torrent of time.

No matter how powerful a person is, and put into the long river of time, he will only be a handful of loess in the end.

However, Qin Chen remained unmoved. He looked at the power of time rushing down like an ocean in the sky, and there was an endless determination in his eyes.

"my heart Will Go On!"

No matter how the heavens and the earth flow, the sun and the moon change, as long as you can keep your original heart and don't forget your original heart, you can live forever.

boom! At this moment, a terrifying power of time shot up into the sky in Qin Chen's mind. It was the source of time in his mind. It had followed his source of time since Tianwu Continent. At this moment, it was finally the same as the source of space before.

, completely merged with his fleshly body.

I am time, time is me.

At this moment, Qin Chen completely controls time and becomes the master of time and space.

boom!

In the entire territory of the Dark Nether Mansion, and even in the entire Southern Thirteenth Star Territory, the endless time and space trembled slightly.

"That's..." At the border of Anyoufu at the moment, a ghost that was rushing towards Anyoufu, exuding an endless dark atmosphere, suddenly looked up at the sky, with a shocking look in his eyes.

#### [Chapter 5178: Judgment Breath](#)

"What kind of breath is this? Why does this ancestor have a feeling of crisis?"

The ghost stopped and stared coldly at the depths of the dark and secluded mansion in the distance, his eyes flickering.

This person is the dark ancestor who came from the dark continent to investigate the truth.

"The crisis in the middle of nowhere, could it be that the kid who sent the message to me is really the one who came out of the initial universe?"

The dark ancestor's heart shook, and the color suddenly changed at this moment.

It can make him feel uneasy, this is definitely some kind of special power that interferes with the power of his life wheel.

Notice.

With his current cultivation base, he has already reached the point of divine creation, and under normal circumstances, he would not feel the crisis at all.

But now, there is a sense of crisis rising in his heart.

This is absolutely not normal. "At the beginning, Emperor Heiyu died in the secret realm of returning to the ruins, and the gods from afar also fell together, all because of chasing and killing the eldest lady of Anyoufu, but with the strength of the Dangmo gods, it is impossible to deal with the two great detachments alone. , there must be something

Stilts. "

The dark ancestor's eyes were deep, as if seeing through the endless fog.

"The only possibility now is that the kid that Hei Yu chased and killed got the inheritance of the Secret Realm of Returning Ruins, and combined with the Dangdang God Venerable, can he kill Hei Yu and Yuan Dao. If this is the case, then the breath escaping from this dark and secluded mansion... "

The dark ancestors dare not continue to imagine. "No matter what the reason is, the plan to swallow the initial universe must be accelerated, and I didn't expect that this time that person would call me and join hands with me. It seems that the behavior of Emperor Heiyu in the secret realm of returning to the ruins has made me black

The dark clan spread in this southern thirteen-star region. "

"That being the case, then this time, this is the time when this ancestor was completely famous in the Southern Thirteen Star Region."

The black demon ancestor burst into the divine rainbow in his eyes, and the next moment, his figure swayed, the endless void shattered, and his whole person had disappeared between the endless world.

In a dark place.

The endless power of time merged into Qin Chen's body, and in an instant, this world seemed to have passed hundreds of millions of years.

boom!

In the heaven and earth below, several detached breaths rose again.

It was Tiangu and Fang Muling.

At this moment, Fang Muling's whole body was blooming with divine rainbow, and her clothes were flying. She stood proudly in this dark and forbidden place, like a goddess unparalleled in the world, descending on this world, absorbing the endless dark energy.

Around her, the rolling dark aura formed a terrifying vortex.

This is the only detachment breakthrough that can form a vortex under Qin Chen's power.

If the thunder tribulation vortex above Qin Chen's head is a vast ocean, then the vortex formed by Fang Muling is a lake. As for the detached aura formed by Tiangu, it is no different from a small stream.

"Humans are really incomparable."

Tian Gu and the others looked at all this with a wry smile.

In the past, they all felt that they were the top talents in this world, but now they saw Qin Chen's breath, and they realized that the world is vast.

boom!

And Qin Chen's strength has inspired their inner desire to become stronger.

A terrifying breath rolled out from their bodies.

"Roar!"

In an instant, in the entire dark forbidden area, including Fang Muling and Tiangu, a full ten strong men broke through to the realm of detachment.

What a terrible scene this is.

After the death of the young master of the four sides and the strong men under his command, there were only more than twenty people left in this forbidden area, but now among the twenty people, ten people have entered the realm of detachment.

This is simply appalling.

When did detachment turn into Chinese cabbage, so worthless?

It should be noted that in the entire Dark Nether Mansion, only a few people have stepped into detachment in these nearly 100 million years.

boom!

The ten transcendences rose together, and the rolling power of reincarnation rushed into their bodies like a torrent.

The remaining dozen or so people were instantly blown away, unable to withstand the power of reincarnation, they hid in the corner, watching the scene in front of them in horror, their hearts were full of bitterness.

Under such an opportunity, they failed to break through, which is too pitiful.

The only good thing is that although they failed to break through detachment, with the help of Qin Chen, after absorbing enough power of reincarnation, they were not annihilated by the power of reincarnation, but survived.

They did not leave in a hurry, but sat down one after another, felt the breath of reincarnation, and strengthened themselves.

Such an opportunity can be said to be rare in the world, and how can it be wasted.

Most importantly, how terrible is Qin Chen's aura of detachment? As long as they absorb a little bit, it is enough to make them have an amazing transformation.

And when everyone broke through the realm of transcendence.

in a chaotic world.

With a bang, Honghuang Zulong and others were also suspended, and a breath of detachment surged.

Motivated by Qin Chen's breath, Sisi and the others stepped into the realm of detachment one after another.

hum!

As soon as I saw the sky above, several vortexes appeared. Some of them were extremely terrifying. They were like several rounds of dark scorching sun. They were suspended in the sky. They were even more terrifying than Fang Muling's vortex. .

"What's going on? Where did the detachment come from?"

Tian Gu and the others raised their heads in horror.

The sudden appearance of several detached breaths in the sky shocked them all.

Especially these few breaths of detachment, even more terrifying than Mu Ling.

what on earth is it?

in a chaotic world. Sisi, Qianxue, Ruyue, Wan'er and others are suspended. They can fully appreciate the terrible thunder calamity that Qin Chen has experienced in the chaotic world. If they can't step into detachment under this circumstance, then they will be too much. weaker

.

Boom!

When everyone broke through the detachment and began to pass through the reincarnation, Qin Chen finally faced his ninth reincarnation life tribulation thunder tribulation—

Yuanshi Soul Tribulation!

One after another terrifying soul thunder struck down, and Qin Chen's soul realm trembled violently with each strike.

However, even this thunder calamity that fell directly over the Soul Sea couldn't bring harm to Qin Chen.

From the beginning of Tianwu Continent, Qin Chen's soul power has always been above the same level. After two lifetimes, countless trials and opportunities, his soul has long been immortal and is as solid as a rock.

One after another soul thunder robbery bombarded Qin Chen, and at the same time, it also strengthened Qin Chen's soul realm.

When Qin Chen experienced the ninth thunder calamity, the others began to pass through the cycle one after another.

At the same time as the rolling power of reincarnation fell, most of it was swallowed by Qin Chen, and only a small part of the remaining entered the bodies of these people.

One turn.

Twice rounds.

Three rounds.

Because of Qin Chen's protection, the weakest of the ten detached powerhouses had all gone through three reincarnations, and finally when it was the fourth reincarnation, the reincarnation aura on the heads of three people disappeared instantly.

By the end of the fourth reincarnation, five more people were evacuated from the reincarnation.

The fifth time, Tiangu evacuated out of Samsara.

As for Fang Muling, he just took it to the seventh reincarnation.

The seventh cycle is over.

boom!

Fang Muling just woke up from the reincarnation, the detachment aura in her body quickly restrained, and a terrible detachment aura swept out from her body.

At this time, Qin Chen finally survived his ninth thunder tribulation.

The tenth thunder tribulation quickly formed above the sky. A terrifying aura of adjudication surged throughout the world.

#### [Chapter 5179: breath storm](#)

Boom!

When the terrifying judgment breath condensed and Qin Chen's tenth reincarnation power condensed, the entire dark and forbidden world trembled directly.

The void seems to be constantly boiling with boiling water.

Ka Ka Ka! At this moment, a terrifying aura was surging in the entire dark and confinement place, and it gathered an amazing thunder tribulation force between heaven and earth. call

Breathing becomes difficult.

"This..."

Everyone looked up at the sky in horror, and they were horrified for a moment.

"Boom!"

An astonishing roar resounded through the heavens and the earth, and accompanied by the terrifying thunder, a suffocating breath came down in an instant.

"puff!"

Under this breath, Xu Ling and other strong men who had never broken through detachment could not help kneeling down, opening their mouths to spurt blood, looking up at the sky in horror.

Not only them, but even Tiangu and other ten people who had broken through the realm of detachment, all looked terrified at this moment, their eyes were horrified, and their hearts were beating violently.

"How is it possible, what kind of thunder tribulation is this?"

Tiangu screamed in horror, with endless disbelief in his eyes.

You must know that although he has just broken through the detachment realm, he is a strong person who has gone through five reincarnations after all. Moreover, after breaking through the detachment, his strength is far beyond what he was able to match before.

Compared with the previous breakthrough, it is ten times stronger than before? But under the terrifying thunder tribulation condensed on the top of his head, he was covered in hair, and there was a fear in his heart that could not be suppressed, as if the thunder tribulation gathered on the vast sky could completely obliterate him.

extinguish.

What's going on here?

"I'm a detached powerhouse? A true cosmic giant? But why do I feel like a middle-aged ant looking down at the dragon under this thunderstorm?"

Tian Gu looked unacceptable.

"Qin Chen."

On the other side, Fang Muling also looked solemn, looked at Qin Chen worriedly, and clenched his hands. As a super genius who has survived seven reincarnations, she can deeply feel the terror of that thunder tribulation. Once such a terrifying thunder calamity erupts with all her strength, she is afraid that even her Dark Nether Palace has been inherited for hundreds of millions of years. There is the slightest change in darkness

Forbidden places will collapse in an instant and turn into ashes.

How could Qin Shaoxia attract such a terrifying power of thunder?

Boom!

The heaven and the earth shook, and countless dark and secluded air in the entire dark and forbidden land boiled, forming an amazing tornado storm.

boom! The thunder rumbled, and the terrifying judgment breath came again. Even Fang Muling was pale and staggered. As for those other detachments, the corners of his mouth were bleeding, and those warriors who had not broken through detachment were lying on the ground.

On the ground, he couldn't even move.

"You go out first."

Qin Chen looked up at the endless terrifying aura in the sky, and shouted to Fang Muling and the others below.

"No, Qin Chen, I'll block it for you."

Fang Muling gritted his teeth, and the whole person rose to the sky, trying to resist this last thunderstorm for Qin Chen.

This thunder robbery is too terrifying, if Qin Chen can't resist, then...

"You leave quickly, or you will surely die, don't worry, I will be fine."

Qin Chen looked at Fang Muling. At this time, Fang Muling was unwilling to give up on himself, and even took the initiative to resist this terrifying thunder calamity, which made Qin Chen's heart move slightly.

Although Fang Muling has broken through detachment and his strength has improved by leaps and bounds, he must not stop his tenth thunder tribulation attack.

A careless, will be the end of ashes.

Fang Muling's eyes were firm, and his clothes were hunting: "Qin Chen, I will not give up on you, you can never drive me away."

"Go out."

Qin Chen's eyes were firm, he looked under his eyes, raised his hand, bang, a terrifying aura swept in, wrapped Fang Muling and others in an instant, and then threw them to the exit of the dark forbidden area .

"you..."

Fang Muling was completely unstoppable under Qin Chen's wave. Even though she was already a detached powerhouse, she couldn't resist this power at all. Together with Tiangu and others, Qin Chen was swept into the dark and secluded in an instant. in the export of the land.

"don't want."

Fang Muling exclaimed, the whole person has turned into a light spot, and Tian Gu and the others disappeared into the dark forbidden area.

After sending Fang Muling and others away, Qin Chen looked up at the sky.

"Is it my tenth reincarnation thunder tribulation?"

Qin Chen murmured, his will is as resolute as iron.

This tenth thunder tribulation is extremely terrifying, and it is by no means comparable to the previous nine. Even he has a feeling of trepidation.

But for some reason, when he stared at the tenth thunder tribulation, he felt a sense of intimacy and familiarity.

"Dust, let us help you."

In the chaotic world, Sisi and others hurriedly shouted.

Although they are located in the chaotic world, they clearly feel the horror of this thunder tribulation, which is an aura of power that can easily obliterate anyone.

"Sisi, Ruyue, Qianxue, Wan'er, you all stay in the chaotic world. I will personally carry this thunder calamity. Don't worry, I will be fine."

Qin Chen looked up at the sky with a firm will.

"Qin Chen, you survive the calamity well, we will definitely hide well and not cause you any trouble."

At this time, in the chaotic world, Honghuang Zulong rang loudly, and with a swoosh, he instantly turned into a streamer and hid directly into the depths of the chaotic world.

"This guy..."

Blood River Saint Ancestor twitched at the corners of his mouth, his eyelids twitching wildly.

boom!

And at this moment, the endless thunder on the top of the head has already fallen madly.

Boom!

The thunder light surged, and as soon as the thunder light fell, it directly shattered the endless void of the dark forbidden area, and fell on Qin Chen's head like an angry dragon, completely covering him.

Out of darkness.

now.

Palace Master Anyou and others are looking nervously at the dark forbidden area.

The terrifying aura that suddenly dissipated inside made a second-level peak detachment master like Palace Master Anyou feel a sense of heartbreak.

"What's going on in here?"

Palace Master Anyou was terrified.

Just in the midst of everyone's fearful speculation.

With a buzzing sound, a dazzling light suddenly lit up at the entrance of the dark forbidden area, and an invisible large formation emerged, and in the large formation, many glowing figures slowly appeared.

"Someone came out."

"Is it the end of the inheritance?"

Everyone hurriedly looked at the entrance to the forbidden area, watching nervously, but couldn't help but guess.

humming sound.

Under the watchful eyes of the public, they saw more than 20 figures appear quickly, staggering out of them.

boom!

In an instant, the astonishing aura of detachment was like an ocean, swept out from the exit of the dark forbidden area, and instantly enveloped the world.

Bang bang bang bang... In an instant, ten terrifying detachment breaths rose into the sky, forming a terrifying breath storm outside this dark and forbidden place.

#### [Chapter 5180: already dead](#)

How terrible are the ten detached breaths?

With a bang, an astonishing storm aura instantly formed outside the entire dark and forbidden area, swept out frantically, turning this world into a detached ocean.

"Where does so much detachment come from?"

Sifang God Venerable and others were shocked when they saw this.

There are at least ten detached powerhouses in front of the terrifying aura in front of them. When did they have so much detachment in the Dark Nether Mansion?

"The daughter has seen her father."

"I'm waiting to meet the Palace Master."

Under the eyes of the public, the endless detachment aura dissipated, and then this group of people respectfully saluted the place where Palace Master Anyou was, and there was a respectful light in their eyes.

"Miss Fang Muling..."

"And the deputy commander of Tiangu, the young master Zeta, the young master Zuofeng and the others... how are they..."

Seeing this group of powerhouses exuding a detached breath, the powerhouses in the dark and secluded palace, such as the Sifang God Venerable, the Kong Kong God Venerable, the Dangmo God Venerable, and the Ancient War God Venerable, were all stunned.

Because the group of detached powerhouses in front of them were actually Fang Muling and others who had entered the dark forbidden area before.

But how many people have broken through the detachment?

One!

Two!

Three...

Just a little sense of the breath, everyone present instantly saw clearly that ten of the group of people in front of them had broken through to the realm of detachment.

hiss!

Ten people.

It should be noted that breaking through the detachment realm is extremely difficult. In the nearly 100 million years of history of the Dark Nether Mansion, only a few people have broken through to the detachment realm.

Now breaking through ten people at once, this is simply a fantasy.

"You...you all broke through the realm of detachment?"

"Ling'er, how are you?"

Even Palace Master Anyou, such a well-informed person, was a little dazed at the moment, and his face was sluggish.

"Ling'er, what happened inside? How could so many of you break through to the realm of detachment?"

Palace Master Anyou said in shock.

"Father, it's a long story." Fang Muling looked at the forbidden area with some worry, and said with some soul.

"Lord Palace Master, all thanks to Qin Shaoxia, I and the eldest lady can have so many people break through and escape, and they are safe and sound."

At this time someone spoke.

"Zhou Rong, keep your voice down!"

When the deputy commander of Tiangu heard the words, his face suddenly changed greatly, and he hurriedly said to him in a low voice.

And Fang Muling's face changed suddenly.

But it was too late to stop the other party, the voice fell, and the faces of everyone around were full of doubts.

"Qin Shaoxia?"

What does Tiangu's breakthrough have to do with Qin Chen?

"No, where is my son Sifang?"

At this moment, a loud shout sounded, and with a bang, a terrifying detachment aura suddenly permeated the world, instantly suppressing Tiangu and the others.

Swish!

A figure suddenly appeared in front of Tian Gu and the others, and the terrifying double detachment aura was like a giant mountain, and it was ruthlessly suppressed.

"Sifang, what are you doing?" With a bang, a terrifying aura came from the side, instantly blasting the power of the gods from the four directions. Then, a figure appeared in front of Tiangu and the others. It was Anyou. The palace lord took action and stopped the four gods from coming out.

hand.

"Big brother, Tiangu and the others have come out safely, why are there no traces of my son Sifang, and what did they mean when they said that Qin Chen helped them break through?"

The face of the four gods suddenly changed, and he said sharply.

Only then did he come to his senses. Among the more than 20 people who came out on the field, there was not even his son, Young Master Sifang, and besides his son Sifang, Luan Feng, the deputy commander of Sifang Guard, and others were not even there.

This is clearly abnormal.

Vaguely, at this moment, an unpleasant feeling emerged in his heart.

Tian Gu and the others looked at the angry Sifang God Venerable, their faces flickered, but no one spoke.

This further verifies the speculation in the minds of the four gods.

"Tell me, what's wrong with him in Sifang? Also, why are there only twenty of you who came out, and why didn't Luan Feng see any of them?!"

Divine Venerable Quartet said sternly, with a bang, his body moved, and the terrifying double detachment force was ruthlessly suppressed like a vast ocean, instantly pressing down on Tiangu and the others.

"Hey, it's true, the young master of the four sides is not here?"

"There are also a few people, the deputy commander of the Sifang Guard, Luan Feng. These people are all on the side of the Sifang God Venerable."

"None of them appeared. What happened inside? Could it be that the young master of the four sides..."

Others around also found something wrong at the moment, and they frowned and said.

Tian Gu and the others' faces changed, but they didn't say a word.

"Don't say it?"

The gods from the four directions shouted angrily, without caring about anything else, they slapped Tiangu and the others with a slap in the face.

not good.

The expressions of Deputy Commander Tiangu and the others changed greatly, and they hurriedly released the aura of detachment, turning it into an invisible detachment barrier.

"Dare to resist, do you think that you will be invincible after breaking through detachment?"

boom! The square body is majestic, and in an instant, a breath like opening the sky erupted. He stretched out his big hand, like a \*\*\*\* and Buddha sticking out his palm from the clouds. On the palm, the rune aura of double detachment flickered, and he bombarded it. Tiangu et al.

above the detachment barrier.

Hearing a loud bang, the detachment barrier of Tian Gu and others burst apart in an instant, and a terrifying force struck, Tian Gu and others turned pale, and retreated again and again with a muffled sound.

boom!

The huge palm of the Sifang God Venerable is like a mountain sitting on it, pressing down directly.

"Sifang, stop." At the juncture of crisis, Palace Master Anyou snorted coldly, he stepped out, his eyes were faint, and a dark force rose up in his body, like a divine light, illuminating hundreds of millions of mountains and rivers, turning into The supreme sky, the big hands of the gods from all directions

But resisted.

Boom!

The two forces collided, forming a world-destroying storm between the heavens and the earth, shaking everyone around them to retreat.

"Brother, my son Sifang is now missing, do you want to stop me?"

The four gods said sharply.

Palace Master Anyou frowned slightly, and said solemnly, "Sifang, please be safe."

Then, he turned to look at Tiangu and the others, frowned and said, "What happened inside, what about Sifang and Qin Chen?"

Boom!

At this time, from the depths of the dark forbidden area, a terrifying aura still swept in, shocking everyone's hearts.

"Lord Palace Master, Young Master Sifang..."

Tiangu's face was embarrassed. "Sifang is already dead." At this moment, Fang Muling snorted coldly: "Sifang is rampant in the dark forbidden area, leading Deputy Commander Luan Feng and others to attack others, and even launched a siege on Qin Chen. In desperation, I can only react

Accidentally beheaded the Quartet in the forbidden area. "

"As for Luan Feng and the others, they fell inside because they couldn't bear the thunder calamity when they broke through detachment."

Fang Muling said calmly.

"Impossible." Sifang God Venerable's eyes showed fierceness, and he shouted: "My son Sifang is only one step away from detachment. The first thing he does when he enters the forbidden area is to break through the detachment realm, and the old man also feels his breakthrough. breath, how could the first time

To besiege that Qin Chen? "The gods from all directions are murderous and look fierce.
