

Valkyrie 5221

[Chapter 5221: mistress is in](#)

"Don't worry, Young Master Chen's background is definitely bigger than you think, you, you, you are still the ancestor of the Tuoba clan, and the triple detachment has never seen the world!"

Honghuang Zulong shook his head slightly, and his heart was completely put down.

I thought that this Tuoba ancestor recognized the origin of Chen Shaoniang's relatives, but who knew that he only recognized the guy in the tidal sea of the void.

Although the guy in the void tidal sea is also quite extraordinary, but he has been banned in the void tidal sea over the years, and he is so humble when he sees the young mother of Chen, what kind of power can he be?

Even the strong ones are limited, or in other words, they are definitely not ranked in front of Chen Shaoniang.

The people of this universe have never seen the world!

At this moment, Tuoba Ancestor saw that Honghuang Zulong's previously unhappy expression became extremely relaxed in an instant, and he was not worried about Qin Chen at all, and his heart was suddenly startled.

This... what's the situation?

This idiot, haven't you heard of the abyss? That is the existence that even the oldest family in this sea of cosmos would be horrified by. There is no force in the entire sea of cosmos that would despise the abyss, but now...

boom!

Just when Tuoba's ancestor was puzzled, not far away, a terrifying force emerged from Qin Chen's body again, and an endless thunder light burst out from Qin Chen's body in an instant.

Just saw the endless thunder light coming into the world, turning into a vast ocean, and in an instant, the void within a radius of ten thousand miles around Qin Chen's body instantly turned into a sea of thunder.

Each of these thunderbolts was like an angry dragon, roaring and roaring, slowly squeezing away the power that escaped from the Ten Tribulations Hall around Qin Chen.

"What? What kind of lightning is this?"

Tuoba's ancestor was shocked, and the thunder light in front of him actually crowded out the power of the abyss from the outside world little by little.

How is this possible?

How can there be power in this world that can resist the legendary power of the abyss?

boom! In an instant, endless thunder surged around Qin Chen's body, and the ocean was vast. These thunder lights carried the aura of judgment, annihilated all the matter around them, and collided wildly with the power of the abyss.

The Lord and the others retreated in horror, unable to even look directly at Qin Chen's location.

"This...this...this..." At this time, Tuoba's ancestor was completely stunned. From his cultivation base, it can be seen that the thunder light released by Qin Chen did not completely eliminate the power of the abyss, but the two A strange balance has clearly been reached between

, this is extremely terrifying and unheard of.

What is the origin of this child?

Ancestor Tuoba stared at Qin Chen in a daze, while Honghuang Zulong smiled, Chen Shao's trump card is not something that ordinary people can see through.

Compared to the self-confidence and excitement of Honghuang Zulong, Chen Sisi and the others looked serious.

Because they all know that Qin Chen will not easily use the power of adjudication divine thunder, but once it is used, it means that Qin Chen has reached a state of extreme crisis.

in fantasy.

Qin Chen madly stimulated the power of thunder in his body, and the rolling thunder annihilated everything in the world. In Qin Chen's soul realm, it reached a relatively balanced state with the power of the abyss.

"This power can actually resist the power of the Judgment Divine Thunder?" Qin Chen was shocked. Although his cultivation base is not strong, now his Judgment Divine Thunder power has been integrated with the final calamity of the ten-fold reincarnation when breaking through detachment. The power of thunder can be said to be comparable to the power of thunder that Qin Chen possesses today.

Has it increased tenfold?

But now, although his thunder power has resisted the invasion of this strange power, it has not completely eliminated this strange power. Does this mean that this strange power is as terrible as his thunder bloodline power?

In Qin Chen's shock, the Temple of Ten Tribulations also seemed to feel the terror of the power of the Thunder Bloodline on Qin Chen's body. Rumbling, the entire Hall of Ten Tribulations seemed to be furious, shaking wildly, and an invisible force exploded in an instant.

boom! In an instant, the entire dark and forbidden area collapsed in an instant, and a force that was countless times more terrifying than before erupted from the Ten Tribulations Hall, and you could vaguely see the ten faces of the Ten Tribulations Hall. a pair of eyes

However, they merged together in an instant, forming a huge pupil of the abyss, suspended above the Ten Tribulations Hall.

The pupils are extremely indifferent, like the eyes of the **** of death, without a trace of emotion, where the pupils reach, the void is torn apart, forming terrifying cracks and gaps.

The solid void of the cosmic sea simply cannot withstand this force.

With a puff, the invisible power of eye light rippled out. Palace Master Anyou and the others couldn't bear this power at all. They flew out like straw, their whole body cracked and blood shot out everywhere. .

With their cultivation base, they couldn't even resist the aftermath of this pupil.

And this is just the aftermath. If these pupils stare at them, they will lose their souls in an instant, and they will not even stay behind.

"Not good, dust!"

Seeing this, Chen Sisi and the others' expressions changed drastically, and they rushed up one by one without turning back.

"Several mistresses, stop now."

Honghuang Zulong was shocked when he saw this, and hurried forward to leave Chen Sisi and a few people, but how could he stop Chen Sisi and the others with his cultivation base, he could only watch Chen Sisi and the others rush to Qin Chen's place.

"Ugh!"

Honghuang Zulong is extremely anxious, why are the mistresses so stupid? With Chen Shao's background, even if they are in a desperate situation, they will definitely save themselves from danger, but if they go up, once they are injured, then Chen Shao blames them, then...

Honghuang Zulong hurriedly turned around, hurriedly looked at Tuoba Ancestor, and said anxiously: "Old Tuoba, quickly stop a few mistresses. If a few mistresses are injured, it will be troublesome."

There was no need for Honghuang Ancestor Dragon to speak, and Tuoba Ancestor also knew the seriousness of the matter, and his subconscious hand reached out, and the power of the Eternal Order Realm rose to the sky in an instant.

However, just after his big hand was formed, a terrifying force descended, instantly crushing and crushing his big hand, and the order he condensed collapsed instantly, like a dream bubble, which could not last at all.

"No, the power of the abyss is too strong, my power can't be continued..."

Ancestor Tuoba said with an ugly expression.

"Then how did Mistress and the others get in?"

Honghuang Zulong couldn't help but said, looking at Tuoba Ancestor's eyes full of doubts.

Ancestor Tuoba raised his head and was instantly stunned. I saw Chen Sisi's body blooming with divine light, and they walked into the direction of the Ten Tribulations Palace step by step. Each body burned

the source, and a layer of terrifying aura rose into the sky, and quickly merged into Qin Chen's body in front of him.

In his body, help him fight the invasion of the power of the abyss together.

boom!

The four of them were suspended in the sky, like goddesses, their hair fluttered, their eyes bloomed with divine rainbows, and they released an endless terrifying aura.

"This is..." Ancestor Tuoba's eyes suddenly widened, as if he had seen a ghost.

Chapter 5222 The power of the moon

Just saw the sky in the distance.

Chen Sisi, You Qianxue, Ji Ruyue, and Shangguan Wan'er were suspended in the void, with endless terrifying auras blooming all over their bodies. The power of the four of them merged with each other. In the body, it shakes in all directions.

They are using their own source power to protect Qin Chen's source power.

In addition, an invisible aura rose up from Chen Sisi and the others, slowly lingering. This trace of power was extremely subtle, but it was this power that protected them and allowed them to approach Qin Chen, so that they would not disappear in an instant. .

"What kind of power is this that can fight against the power of the abyss?"

Ancestor Tuoba was shocked.

This power of the abyss, even his triple detachment power can't resist, but the power of Chen Sisi's four people can allow them to enter Qin Chen's position, safe and sound, which is far beyond anything he has ever seen. over a force.

boom!

When the ancestors of Hong Tuoba were shocked, the Ten Tribulations Hall continued to shake, and an invisible power of the abyss quickly entangled Sisi and the others, annihilating them completely.

However, Sisi's eyes were indifferent, without the slightest emotion, in the face of this life-and-death crisis, they did not retreat.

"Chen, you used to protect us, and today, we will protect you."

hum!

Chen Sisi and the others suddenly burst out with an endless terrifying aura. The four of them did not hesitate to burn their own origins, and the power of their origins was almost fatally integrated into Qin Chen's body, strengthening the endless sea of thunder around Qin Chen's body.

"Mad, these lunatics, don't they know that the source is the most important thing for anyone? Without the source, they will all die."

Ancestor Tuoba said in shock.

Chen Sisi and the others are equivalent to burning their own lives to extend Qin Chen's life, which is a life-for-life practice.

"Is this the mistress's love for Young Master Chen?" Honghuang Zulong on the side had tears in his eyes, "Only the supreme love can make people so crazy, and only the greatest love can make people willing to give up everything ."

Honghuang Zulong was very excited.

On the side, Tuoba ancestor looked at Honghuang Zulong foolishly.

Is this guy an idiot? What time has it been, still thinking about this?

boom!

At this moment, the aura in the Ten Tribulations Hall seemed to sense Chen Sisi's actions, and they became more and more angry, hum, the Ten Tribulations Hall shook, and the terrifying power of the abyss eroded wildly.

"No, it's troublesome now."

Ancestor Tuoba looked anxious, such a terrifying power of the abyss, he would surely die if he were replaced.

He wanted to make a move, but before the power of the abyss, he could only watch the power of the abyss erode, and there was nothing he could do.

"Mother!"

Honghuang Zulong also panicked.

Seeing that the power of the abyss was about to completely drown Chen Sisi and the others, suddenly—

With a humming sound, a vast divine rainbow burst out from Chen Sisi's body. This magical power penetrated the heavens and the earth, shaking the universe, as if it came from the opening of the universe sea, sweeping across the nine heavens and ten places.

boom!

In an instant, the entire cosmic sea was boiling.

"This is..." Ancestor Tuoba and the others suddenly widened their eyes.

Not only Chen Sisi, but Wan'er, Qianxue, and Ruyue also had such a power blooming in their bodies. Among them, Wan'er was the purest darkness. Endless light of darkness.

You Qianxue is endlessly cold, the sky is flying snow, and the eternity is lonely, and the void of the universe freezes for a while.

As for Ji Ruyue, it is like a bright moon, illuminating the universe sea, turning into an endless bright glow, illuminating everything in the world.

The breath of the four people merged with Qin Chen, causing the endless thunder around Qin Chen's body to explode in an instant.

Boom!

The endless thunder surging, turned into a dense ocean of thunder pools, eroded in all directions, and immediately wrapped up the Ten Tribulations Palace in the distance. Struggling, the ten pairs of pupils above show pain.

Under the power of the Judgment Divine Thunder, it is as powerful as the Temple of Ten Tribulations, and it cannot bear it for a while.

hum!

At the same time, the aura of the four Chen Sisi became more and more sky-high, and the spiritual will of the four was integrated into this force, which was instantly projected into Qin Chen's soul realm.

In an instant, Chen Sisi and the four saw the scene of Qin Chen in the illusion.

A naked woman floated in the void, flushed and sweaty. On her body, strange forces condensed into a peculiar pattern, linking to an indescribable existence, exuding a palpating aura. strength.

"That's... Fang Muling, her spiritual power was projected into this illusion?"

Chen Sisi was shocked.

On the opposite side of Fang Muling, Qin Chen was cross-legged in the endless void, his whole body was full of blazing thunder and lightning, and he was madly confronting the strange power that was constantly surging all around him, his expression slightly painful.

Judgment Divine Thunder and the power of the abyss are intertwined, colliding with each other constantly, and the power of the abyss seeps into Qin Chen's soul little by little, transforming Qin Chen's power.

"No, dust is dangerous."

Chen Sisi's expressions changed slightly.

And at the moment when their hearts were throbbing, with a bang, a terrifying force was suddenly born, quickly repelling Chen Sisi and the others.

outside world.

Chen Sisi suddenly opened their eyes and spurted out blood.

At this moment, when they looked at the Ten Tribulations Hall, they saw that the ten pupils of the Ten Tribulations Hall quickly merged together, and an endlessly deep dark eye appeared. The world presents a scene of a vast abyss.

A vast power of the abyss escaped directly from it, trying to assimilate Qin Chen.

Chen Sisi looked frightened and roared, and a special multicolored power suddenly burst out in his body.

She knew that once this force assimilated Qin Chen, Qin Chen would be in danger.

At this moment of extreme crisis and anxiety, Sisi instantly felt as if some power in her body had awakened.

With a bang, her whole body was suspended in the void, and her eyes instantly became dark, like a pair of dark moons, reflecting the appearance of purgatory.

An endless and vast force madly swept out from Chen Sisi's body.

The horror of this power almost illuminated the night sky of the entire Southern Thirteen Star Region. Chen Sisi's whole body glowed, burning his original life, and illuminating Qin Chen's soul realm.

boom!

This force collided with the power of the abyss, and the shock wave formed by the collision of the two terrifying forces shattered the entire dark and forbidden ground into powder in an instant.

[Chapter 5223: source loss](#)

Including the ancestor Tuoba, everyone flew out in horror, covered in scars and blood dripping.

"Sisi!" In the depths of his endless consciousness, Qin Chen's heart palpitated suddenly, as if he felt something. In his mind, a vast power of flame erupted, the power of chaotic green lotus, at the same time, Qin Chen's soul The Power of the Deep Judgment Divine Thunder

completely activated.

Boom!

The thunder destroyed the world, and the endless thunder light bloomed and swept away like a storm. outside world.

Tuoba's ancestor looked at the endless lightning in front of him in horror. Such a force is too terrifying. If Qin Chen reaches the same realm as him, he is afraid that just a little bit will be enough to wipe him out.

Such a terrifying power, even when he followed the universe to fight against the ancient gods, never felt it. It seemed to be much more terrifying than the power of the ancient families in the universe.

What is the origin of this son?

At this moment, Tuoba's ancestor looked at Qin Chen, who seemed to be a **** in the floating world, and Sisi around Qin Chen. The constant shock had made his heart feel a little numb.

Hundreds of millions of years of practice are not as much shock as today.

boom!

The endless thunder light bloomed, Qin Chen's whole body was blood-red, extremely angry and worried, the ruling thunder in his body became more and more terrifying and terrifying, like a spouting volcano, pouring and overflowing continuously.

Bo bo bo bo!

Under this terrifying endless thunder, the terrifying abyss force that had tried to suppress Qin Chen was finally suppressed little by little, and then a little bit introverted to the depths of those eyes. This pair of magnificent pupils vibrated violently, and it could be seen that an ancient dark world emerged from the depths of the pupils. The whole world was full of ruins, destruction and decay.

There is never peace.

And the power of the abyss is constantly lingering out of the abyss world through this pair of abyss pupils, reflecting in this world.

"Get back."

Qin Chen roared, the thunder light came into the world, and the divine rainbow burst out in his pupils.

The reflected power quickly disappeared.

At this time, the verdict Divine Thunder was like a thunder and lightning dragon that was hundreds of millions of miles long, blasting into the pitch-black world through those deep pupils in an instant.

"!..."

From the abyss deep in the pupils, there was an inexplicable dull roar, followed by a bang, and the pupils shattered in an instant, blocked by endless thunder, and dissipated cleanly.

boom!

The abyss aura in the Hall of Ten Tribulations disappeared in an instant, it rotated rapidly, and the countless rune restrictions on it flickered wildly. Under Qin Chen's aura, he was completely convinced, and an ancient aura escaped from it. This breath is incomparably deep, and it turns into a special breath and merges into Qin Chen's body, which makes Qin Chen's soul quickly connect with the Ten Tribulations Hall. Qin Chen has a feeling that at this moment, he only needs a thought to be able to put these ten

Tribulation Palace to control.

But at this time, Qin Chen didn't have the heart to pay attention to the Ten Tribulations Palace, and a pair of pupils quickly fell on Sisi who was not far away.

At this moment, Sisi was covered in blood, slowly falling from the void, looking at the scene in front of her with a corner of her mouth, with endless relief.

"Sisi!"

Qin Chen's body flickered, and he instantly hugged Sisi, who was slowly falling, and his eyes were full of pain. He could feel that at this moment, Sisi's body was severely injured. Before, Sisi had sacrificed too much to save herself. Her source was polluted by the abyss and her own burning had become riddled with holes. ,

covered in wounds.

"Dust, you'll be fine."

The corner of Sisi's mouth was smiling, and there was blood spilling out. She looked at Qin Chen with endless joy in her heart. In her heart, as long as Qin Chen was fine, everything else was not important.

"Sisi."

Qianxue, Ruyue, and Wan'er quickly gathered around, looking anxious. Several of them were injured in their origins, but there was no doubt that Sisi was the one who suffered the most. When the power of the abyss broke out at the last moment, it was Sisi who used the power that suddenly bloomed in the body to destroy the abyss. force

To block, but in the same way, Sisi is also seriously damaged by this source. At this time, Honghuang Ancestral Dragon, Blood River Sacred Ancestor, Anyou Palace Master and others also quickly surrounded him, including Tuoba Ancestor who also came near. He looked at Qin Chen with shock, obviously not expecting Qin Chen. Can actually pass ten kalpas

Temple test.

"Little friend, her origin is now seriously damaged, and it is slowly decaying, I am afraid it will be troublesome."

Ancestor Tuoba looked at Chen Sisi and said in a deep voice.

No need for Tuoba's ancestor to say, Qin Chen has also discovered such a problem, Sisi's source breath is rapidly decaying, and if it continues like this, I'm afraid that it won't take long for Sisi's source to completely collapse, and the soul will fly away.

"Senior Tuoba, is there any way to do it?" Qin Chen suddenly looked at the ancestor Tuoba and said anxiously.

At this moment, his heart hurts like a knife, and if he can, he is willing to exchange himself for Sisi. "In order to stop the power of the abyss, she awakened a special power. This power directly and completely overdrawn her life potential. Yes, although she is still alive now, there is only a shell that has lost her potential.

In addition to the damage to the source, I'm afraid..." Tuoba's ancestor shook his head with a wry smile. If it was an ordinary injury, he could still help treat it, but the horror of the power that burst out of Chen Sisi's body before was shocking, even the power of the abyss. Resist, with his current cultivation is powerless.

"You nonsense, the mistress must be fine." Honghuang Zulong said anxiously, praying silently in his heart that Chen Sisi must be fine, otherwise he will be out of luck.

"Master, there must be another way." Honghuang Zulong looked at Qin Chen: "You are the one who controls the power of the underworld, and even the underworld can't accept you. The injury on the mistress must be the same."

"Underworld?"

When Qin Chen heard the words, his eyes suddenly flashed.

Nether Emperor!

At this moment, a figure appeared in Qin Chen's mind.

This person is one of the four great emperors of the underworld, and there must be a way.

boom! Think of it and do it. In an instant, an ancient pagoda appeared on the top of Qin Chen's head. It was the Guyu Pagoda. The next moment Qin Chen's consciousness entered the ninth floor of the Guyu Pagoda and came to the location where the source of the Emperor Nether was blocked.

.

Then Qin Chen saw a power of the abyss lingering on the ninth floor of Guyu Tower, and it was this power of the abyss that sealed the origin of the Nether Emperor.

Qin Chen quickly activated the adjudication divine thunder, and the rolling divine thunder power instantly annihilated this rootless duckweed-like power of the abyss.

Losing the suppression of the power of the abyss, a terrifying aura of death instantly shot up from the ancient tower and descended on this world.

boom!

In an instant, the air of death was lingering over the entire dark palace.

"This is..." Ancestor Tuoba's eyes suddenly widened.

[Chapter 5224: stormy waves](#)

At this moment, a terrifying aura of death shot up into the sky from the ancient Yu Pagoda beside Qin Chen. This terrifying aura of death spread out in an instant, and instantly enveloped the entire dark and secluded mansion.

Boom!

All the voids in the entire Dark Nether Mansion were shaking violently, as if they were about to collapse in an instant.

fear! At this moment, a strong fear surged out of all the people in the entire dark palace, as if they fell into **** in an instant, their souls were instantly suppressed by the endless breath of death, and they were about to fall into reincarnation and live forever.

Not to be overborn.

"What power is this?"

Palace Master Anyou, Dangmo Shenzun, Zhengkong Shenzun and others were terrified in their hearts, and they all showed a look of horror.

They are all the top powerhouses in the Southern Thirteen Star Territory, beyond the existence of cosmic reincarnation, and truly unparalleled masters.

But at this moment, they felt incomparably small before this power, as if the ants looked up at the dragon, and they felt like they were about to be annihilated at the snap of their fingers.

This kind of feeling was something they had never felt in the face of the triple detachment of Tuoba Ancestor.

"This kind of terrifying existence..."

Ancestor Tuoba was also stunned, and the waves rolled up in his heart.

"Boom!" In front of everyone's eyes, a thin figure appeared in front of everyone. As soon as this figure appeared, everyone seemed to see a **** who controlled death, and saw the endless torrent and long river of death. There is a kind of rootless.

Duckweed's sense of powerlessness.

It is the figure of the Nether Emperor.

"Boy, how did you get into the abyss? This world is unknown. With your current cultivation, you must not have too much contact with the abyss, otherwise you will definitely be polluted."

As soon as the Emperor Nether appeared, he changed his color and said, with a solemn expression.

Previously, his origin was awakened by a mysterious power, and before he had time to reveal his divine consciousness, he was shielded by the power of the abyss. As soon as he appeared at this moment, he hurriedly warned him.

"Huh?" However, when he saw the scene in front of him and Qin Chen in front of him, he was stunned: "You... have broken through detachment? And you have also broken through to the peak of the first level of detachment, which is only one step away from the second level of detachment. one step away, no

, why is your breath so thick? "Emperor Nether's eyes fell on Qin Chen, and his consciousness carefully sensed it. The next moment, he suddenly showed a look of shock, "You... Did you go through ten reincarnations?" Are there really people in this world who have gone through ten reincarnations? it is true,

This is real. The Great Emperor Nether stared at Qin Chen, with unprecedented excitement in his eyes, and his whole body was shaking: "This seat's eyes are really powerful, and that one's methods are really exquisite, the ten-fold reincarnation represents the highest level of the universe sea. of

Rules, you actually passed, incredible. "

The Nether Emperor has even forgotten about the power of the abyss, and his expression is full of excitement.

boom!

As he trembled, a terrifying aura filled the air. Ancestor Tuoba and the others had difficulty breathing, and their legs trembled, almost kneeling on the spot.

If it wasn't for the Nether Emperor deliberately restraining his breath, Tuoba Ancestor and the others would have collapsed to the ground under such a terrifying breath.

"Senior Nether, please help me take a look at my wife. Her origin is damaged and she has been wearing down, I'm afraid..."

Qin Chen didn't pay attention to Emperor Nether's excitement at all, his eyes always fell on Chen Sisi, and he said anxiously.

"Your wife?"

Emperor Nether's eyes suddenly fell on Chen Sisi, and his expression changed: "What happened to her? Why is the source collapsing? No, she is also polluted by the abyss."

The Great Emperor Nether suddenly appeared in front of Qin Chen and Sisi. In his eyes, he could see the aura of death flowing, and there were thousands of stars shattering. At a glance, he could see the changes in Sisi's origin.

"And you..."

The Great Emperor Youming turned his head to look at You Qianxue and the others who were beside him: "You all have an abyss aura on your body. Although it is very obscure, it was indeed polluted by the abyss aura not long ago." Finally, the Great Emperor Youming's gaze swept over the Tuoba ancestors again. A few people, the others are okay, Tuoba ancestors only have a remnant soul left, although his cultivation base is the highest, but when his body is swept by the eyes of the Nether Emperor, his whole body is completely covered.

With a trembling, there is an illusion that it is about to collapse in an instant.

Fortunately, the Nether Emperor didn't stay on him for a long time at all. He just glanced at it and stopped paying attention. The triple detachment of Tuoba's ancestor was ordinary in his eyes.

"Boy, what's going on?" Emperor Nether looked at Qin Chen and said in a deep voice. "This senior, Chen Shao participated in the test of the Ten Tribulations Temple here before, and as a result, a strange force suddenly appeared in the Ten Tribulations Temple. Heavy

hurt. Also ask seniors to help. "

Honghuang Zulong hurriedly said at this time.

"Hall of Ten Tribulations?"

Emperor Youming was startled, he raised his head, suddenly looked at the ancient palace not far from Qin Chen, and frowned slightly: "Is it really the Palace of Ten Tribulations?"

Swish!

The Great Emperor Nether flickered and came to the Palace of Ten Tribulations in an instant, and his palm was about to touch the Palace of Ten Tribulations.

boom!

Just when his palm was about to touch the Palace of Ten Tribulations, a terrifying aura suddenly lingered in the Palace of Ten Tribulations. It actually blocked the big hand of the Great Emperor Netherworld and shook his entire body out.

"It really is the Palace of Ten Tribulations!"

The Nether Emperor frowned.

"Senior... You are the Great Emperor of Netherworld, and you are in charge of the way of life and death. There must be a way to save Sisi, right!"

Qin Chen hurriedly said.

"Also ask the seniors to rescue Sisi!"

You Qianxue and the others also hurriedly saluted, looking nervous and anxious: "I can't wait to be grateful."

"You don't have to be so generous."

The Great Emperor Youming was startled, and he also saw that these people were obviously Qin Chen's inner chambers, how could he dare to accept such a big gift.

"Don't worry, I already understand the situation of this person, boy, you should tell the story first, don't make mistakes, especially the power of the abyss before, so that I can consider whether there is any way."

Emperor Nether did not dare to be careless and said in a condensed voice.

Qin Chen didn't dare to be careless, and hurriedly told the previous situation little by little.

"Emperor Netherworld? Why is this name so familiar?"

Aside, Tuoba Ancestor couldn't help but wonder in his heart, and felt a little familiar.

"In charge of life and death, there are very few people in this world who dare to say that they can control life and death. Nether... No, is this person..." Suddenly, Tuoba ancestor seemed to think of something, and his eyes were suddenly round and round, and he looked at it in astonishment. Looking at the Nether Emperor in front of him, the waves surged into the sky for a moment.

[Chapter 5225: Meigetsu Empress](#)

"It's him, it's definitely him, the only person in this world who dares to be called a ghost is him..."

Thinking of one person, Tuoba's ancestor couldn't help trembling all over.

"Senior Tuoba, who is this person?" Seeing the expression of Tuoba's ancestor, Palace Master Anyou couldn't help but ask.

"The one in the underworld!"

Tuoba ancestor trembled.

Underworld?

Palace Master Anyou and others were startled. "It is rumored that one of the four great emperors of the underworld is called the Great Emperor Netherworld. This person is in charge of countless powerhouses in the underworld. He is one of the masters of the underworld and controls the endless territory of the underworld. This is a real boss!" Tuoba ancestor

said trembling.

The underworld is a very special realm of this cosmic sea. Once the powerhouses of the entire cosmic sea fall, they will enter the underworld and become underworld creatures.

Therefore, as one of the masters of the underworld, the Nether Emperor's reputation in the entire universe is by no means comparable to that of ordinary people.

Such a strong man can decide the life and death of countless people.

hiss!

Hearing this, Palace Master Anyou and others all gasped.

One of the masters of the underworld, such a name alone is enough to shock them.

At this moment, the Great Emperor Nether had already learned everything from Qin Chen's mouth, and his face changed slightly. The Great Emperor Nether looked at the Palace of Ten Tribulations and said solemnly: "The Palace of Ten Tribulations comes from the most primitive place of the Universe Sea, and contains the most primitive rules and avenues of the Universe Sea. It will not possess the power of the abyss. through the abyss,

The power of the abyss was infected, leaving a powerful imprint of the abyss. "This mark will stay in the depths of the Temple of Ten Tribulations. Once someone is tested by the Hall of Ten Tribulations and is recognized by the Temple of Ten Tribulations, it will quietly enter the tester's body, change the tester's body and soul bloodline, and make it an abyss." slave,

Unconsciously controlled by the abyss. "

"Unfortunately, the power of the abyss does not know at all. You will be the descendant of that one. Back then, when the abyss invaded the cosmos sea, the entire cosmos sea and all the heavenly races could not resist. It was the one who made the move..."

Speaking of this, the Nether Emperor suddenly glanced at Qin Chen and did not continue. He said solemnly: "However, although you have resisted the invasion of the power of the abyss, your current cultivation base cannot completely resist the erosion of the power of the abyss, so there will still be a trace of the abyss on your body. Yu

Zhou Hai walks, I am afraid that there will be some troubles. "

At this time, Qin Chen was not in the mood to listen to Emperor Youming explaining the abyss, but looked at him anxiously and said, "Senior, Sisi..."

"Don't worry." The Great Emperor Nether came to Chen Sisi's group, sensed the aura on them, and said doubtfully, "You are the descendant of that person, and it is understandable that you can resist the

power of the abyss, but how many of them are you? The body is also infected with the power of the abyss, why?

will be ok? "Emperor Nether Emperor's consciousness came out, and with a sudden bang, a special aura quickly lingered from Sisi and the others. As soon as this aura appeared, Emperor Netherworld's original aura quickly fluctuated, and the whole person was almost at a loss.

Instantly collapsed.

"This is..." The Nether Great Emperor sucked in the air, and the whole person quickly retreated like a snake and scorpion.

"Mother?"

Qin Chen was startled, because this breath was very similar to that of his mother Qin Yuechi.

Yes.

Back in the initial universe, Mother had transformed Sisi and Wan'er's bodies, leaving behind some power. "Mother?" Emperor Nether looked at Qin Chen, as if thinking of something, his face suddenly changed, "It turns out that it is the power of that one, I understand, but which one of these people does not have much power. , can only protect these few people,

It is impossible for them to completely fight the abyss, but as you said before, this one has resisted the power of the abyss for you before, and she should have other powers in her body. "Emperor Nether Emperor's pupils instantly looked at Sisi, and with a bang, a terrifying aura quickly rose up on Sisi's body. This force carried an endless cold force, like a maggot on the tarsus. Immediately wrapped in the ghost

The origin power of the Great Emperor is actually melting the breath of the Nether Great Emperor.

Although the ablation speed is extremely slow, it is indeed dissolving the power of the Nether Emperor.

"The power of the moon, how can she have the power of the moon in her body?"

The Great Emperor Youming stepped back, shocked, and looked at Sisi: "What is the relationship between you and Empress Mingyue?"

Qin Chen frowned at Emperor Nether, Empress Mingyue, who is this?

"senior..."

Qin Chen frowned.

"You don't know?" The Emperor Youming saw the puzzled expressions on Qin Chen and others' faces, and instantly knew that Qin Chen and the others should not know the Empress Mingyue, and said solemnly: "The Empress Mingyue is the same as me, and she is also the fourth member of the Underworld. One of the great emperors, and also the underworld

The head of the four great emperors, it is no wonder that she can resist the outbreak of the power of the abyss. If she has the power of the Queen of the Moon in her body, it makes sense. "

"The head of the four great emperors of the underworld?"

Qin Chen and the others were startled.

When did Sisi get involved with Empress Mingyue?

"Senior, Sisi has never been to the underworld, did you make a mistake..." "There can be no mistake." The Great Emperor Nether shook his head: "The breath of that guy Mingyue is all too familiar to this seat, this seat and her After fighting for so many years, no one who admits mistakes will admit her breath, and her body is not only simple

There is the breath of Empress Mingyue, and more importantly, the blood of Empress Mingyue. Unexpectedly, Empress Mingyue still has descendants. "

This sentence made Qin Chen and the others even more stunned.

Could it be that...

In an instant, Qin Chen thought of a possibility in his mind.

Because Sisi still has an identity in the initial universe, that is, the princess of the demon god, but no one knows who her mother is. In this way, Sisi is very likely to be the descendant of the demon **** and the Empress of the Moon.

It's just that the Demon God Princess should have been born in the original universe, and with the Demon God's cultivation base, it is impossible to have anything to do with the Queen Moon, who is one of the four great emperors of the underworld.

For a moment, Qin Chen, Sisi and the others were full of doubts, and even wondered if Emperor Nether had made a mistake.

"Senior, since the mistress is the descendant of the Empress Mingyue, she must have a way to be fine, right?"

At this time, Honghuang Zulong hurried forward and said. "There are indeed two ways to save her." The Nether Emperor said: "The first is to find an emperor-level powerhouse, suppress the power of the abyss in her body, and then wait for you to break through the triple detachment and use the eternal-level power. The power of the gods and thunder can completely annihilate the remaining power of the abyss, and then find the top treasure and restore her origin, so she will be fine."

[Chapter 5226: Underworld passage](#)

Hearing this, Qin Chen's heart sank.

This first method sounds simple, but it is actually very difficult.

Whether it is to find an emperor-level powerhouse, or to break through the triple detachment, or to find a heaven-defying treasure that can repair the source, it is not a simple matter.

Any one of these three is afraid that it will take countless energy to do it.

"What about the second way?" Qin Chen asked.

"The second method will be simpler, which is to go to the sea of eternal tribulation and evil in the underworld." The Nether Emperor said solemnly: "The sea of eternal tribulation and evil was the core place of the Empress Mingyue back then, possessing the most original essence of the Empress Mingyue, and this person is the descendant of the Empress Mingyue. Once you enter the sea of eternal tribulation, the powerful people in the sea of eternal tribulation will be

The power of the queen's guardian will quickly nourish her body and origin, and restore her to her peak state. By then, the injuries on her body will naturally heal. "

To the underworld?

Qin Chen was thoughtful.

This second method is much simpler, but the underworld is full of dangers, and it is definitely not for ordinary people to enter.

Moreover, the underworld is also the territory of the Nether Emperor.

Qin Chen's eyes narrowed slightly, and he looked at the Nether Emperor.

Feeling Qin Chen's gaze, the Nether Emperor was startled, "Boy, I have no intention of letting you go to the underworld on purpose, but this is indeed the best way."

"Senior, don't be nervous, this young master doesn't doubt you." Qin Chen said in a deep voice, he was thinking about how to go to the underworld.

Entering the underworld is not an easy task.

"That's good."

The Great Emperor Nether breathed a sigh of relief and patted his chest.

On the side, the ancestors of Tuoba were dumbfounded. Isn't this Nether Emperor one of the four great emperors of the underworld? Why do you feel so cautious in front of Qin Chen?

Under the watchful eyes of everyone, Qin Chen kept thinking in his heart.

"Chen, I'm fine, don't risk it for me."

Seeing this, Chen Sisi hurriedly said.

Any of the two suggestions of the Great Emperor Nether, there is a huge risk, and it will bring huge trouble to Qin Chen.

"Sisi, don't worry, I know what I have in mind." Qin Chen said with a smile, and then he looked at the Great Emperor Nether, his eyes instantly became firm: "Senior, how can you enter the sea of eternal calamity?" "It seems that you are doing a good job. It's decided." The Great Emperor Nether nodded slightly: "To enter the Eternal Tribulation Sea, you must first go to the Underworld, and there are generally two ways to enter the Underworld. One is to go to the Sea of Death in the center of the universe.

There is a passage to enter the underworld, but the sea of death is the entrance to the underworld. It is guarded by the strong of the underworld. Only the dead can enter from there. You may not be able to enter directly. "

At this time, Honghuang Zulong wondered: "But senior, aren't you the four great emperors of the underworld? Can't you bring people in?"

The Great Emperor Nether smiled bitterly and said: "If it was the heyday of my previous life, it would be fine, but now there is only one remnant of the soul left in this seat. Once this seat is exposed, not only will it not be able to shelter you, but it will also bring you endless trouble." Feeling the doubts in everyone's heart, the Great Emperor Netherworld shook his head and said: "Perhaps you don't know that the struggle in the underworld is extremely fierce, not only the four great emperors, but even the powerhouses under this seat are fighting all year round to compete for their own aura.

Fortunately, it is a place full of killings, and there is no human affection at all, so the method of frontal entry is probably not feasible. "

"What about the second way?" Honghuang Zulong asked repeatedly. "The underworld is vast, and it is linked to any plane. It can be said that the fall of human beings in any plane in the entire universe will eventually enter reincarnation, and the soul will return to the underworld, so in some planes in this universe.

, there are occasional passages to the underworld. "

"These passages are similar to the trails on the borders of some small countries in the lower plane. If you can find such a passage, with the cultivation base of this seat, it will block the perception of the Dao of the Underworld, and it will not be a problem to bring you into the Underworld."

The Great Emperor Nether looked at Qin Chen: "So what you need to do now is to find out where there is a passage connecting to the underworld, preferably some remote places that no strong person knows about."

"Isn't this smuggling?"

Honghuang Zulong widened his eyes and looked suspiciously at the Nether Emperor.

One of the four great emperors of the underworld, who even took them into the underworld, had to smuggle them. Is this guy sure that he is really the four great emperors of the underworld? The Great Emperor Nether was immediately embarrassed when he was seen by Honghuang Zulong, and hurriedly explained: "I am also doing this for everyone's good, the underworld normally does not allow living people to enter, not to mention that this person is the descendant of the Empress Mingyue, if anyone knows span

Empress Mingyue and her descendants are in this world. I am afraid that as soon as they enter the underworld, they will be chased and killed by countless underworld powerhouses. Instead, they will enter through these unknown channels and will be more silent. "

"But where do we go to find such a passage?" Honghuang Zulong shook his head and said, looking at Palace Master Anyou and Tuoba Ancestor.

Young Master Chen and the others had just arrived at the Cosmos Sea, so they definitely wouldn't know where there was a passage to the underworld, and only Palace Master Anyou and Tuoba Ancestor might know.

Palace Master Anyou and Patriarch Tuoba shook their heads with wry smiles, and hurriedly said: "Young Master Chen, I have only heard of this underworld passage in legends, at least in this Southern Thirteen Star Region, it will definitely not exist, I'm afraid it is. ..."

"Dust, I'm fine, you..."

Chen Sisi wanted to say something, but was interrupted by Qin Chen covering his mouth: "Sisi, don't worry, I will never let you have any trouble. As for the passage to the underworld, I know where it is."

"Young Master Chen, you know?"

Everyone looked at Qin Chen in astonishment.

"There is a passage to the underworld in the chaos gods and devil seas of the devil world." Qin Chen said with narrowed eyes. When Qin Chen went to the devil world, the first person to enter was the Chaos God and Devil Sea. Back then, the ancestors of Yuanmo and the undead emperor of the underworld colluded and opened up a place of six reincarnations connecting the underworld in the center of the chaos **** and devil sea. in the universe

After the death of all races, they do not enter the underworld, but become the power of the demon race.

And that channel is definitely connected to the underworld.

"The Chaos God and Demon Sea, how could I forget that place, Lao Long." Honghuang Zulong suddenly became excited.

After thinking about it for a long time, it turns out that the nearest passage to the underworld is actually in the initial universe.

Qin Chen's eyes were deep. In fact, in addition to the Chaos God and Devil Sea, Qin Chen also thought of another place, that is the death canyon where Tianwu Continent himself fell.

When I fell into the canyon of death, my father rescued me. I remember that there was a passage to the underworld under the canyon of death. No matter which of the two channels is feasible, what Qin Chen needs to do now is to return to the original universe.

[Chapter 5227: Desire to survive](#)

Aside, after Honghuang Zulong was excited for a long time, he suddenly thought of a question.

"Young Master Chen, how are we going to return to the Chaos God and Devil Sea now?"

He blinked.

This is the sea of cosmos, and the initial universe is a force that has never gone through reincarnation and entered the sea of cosmos, and no one knows its position at all.

Hearing this, the Blood River Saint Ancestor and Qianxue were also stunned.

yes?

How to go back?

Because at this moment, they don't know where the initial universe is.

When Qin Chen just left the initial universe, he was chased and killed by Emperor Heiyu of the dark clan all the way. Finally, he and Xiaoyao Supreme were forced to break into the dangerous wormhole and were swept away by the passage of time and space.

On the other hand, Qin Chen accidentally entered the secret realm of Returning Ruins from the crack in the void, and only came to the Southern Thirteen Star Territory after encountering Fang Muling.

To be honest, after this upheaval, everyone has no idea where the original universe is.

"Don't worry, I'll take a look."

Qin Chen closed his eyes and immediately felt it carefully.

He is a person who has integrated a trace of the origin of the original universe, and there has always been a faint connection between him and the original universe, but since entering the secret realm of returning to the ruins, the perception between Qin Chen and the original universe has been completely cut off.

Now that he has broken through the detachment, Qin Chen's perception has become much stronger. Now that he is fully aware, Qin Chen can vaguely feel the orientation of the original universe.

Suddenly, Qin Chen looked up at a certain direction on the southeast side.

"Small dust, could it be that the Chaos God and Devil Sea is in the southeast?" Honghuang Zulong said in surprise: "Is it far from us?"

"It should be...a little distance!"

Qin Chen hesitated for a while.

Because he is not very sure.

Although he can sense that the initial universe is in that direction.

However, his perception of the initial universe is very weak, and if there is nothing, he cannot completely locate it.

Moreover, in the perception, the initial universe should be extremely far away from here. If you follow this sense of induction all the way, although you can finally find the location of the initial universe, I don't know how much time and years it will take.

"What is a little distance?" Honghuang Zulong was a little confused.

"Boy, can you only sense the direction of the place you want to go, but don't know how far it is?" At this time, the Nether Emperor asked with a frown.

Qin Chen nodded. "This is definitely not possible." The Great Emperor Netherworld interrupted directly: "There are many dangers in the sea of cosmos. If you can sense the distance, that's fine. You can use the map of the sea of cosmos to vaguely judge where the place is, but if you can only sense the distance. to the side

Xiang, then no one can guarantee that you will arrive smoothly. "

"After all, no one can tell whether you will encounter any trouble on the way forward. Sometimes, if you encounter a dangerous place, it will take a lot of time to get through."

The crowd nodded.

indeed so.

For example, on the road ahead, there is a dangerous situation such as the Secret Realm of Returning to the Ruins, or a huge and dangerous force, I am afraid that I don't know how long it will take.

"If I can't go back directly, what should I do?" Honghuang Zulong scratched his head and said.

"I have a solution." Qin Chen said suddenly.

Honghuang Zulong and others came over one after another.

"Dark Continent." Qin Chen said solemnly.

"Dark Continent?" Honghuang Ancestor Dragon was stunned for a moment, then suddenly woke up and slammed his head: "Yes? Why didn't I think of it, old dragon, look at my stupid brain, haha, haha."

Honghuang Zulong suddenly became excited.

They can go directly to the initial universe from the dark family. The dark clan invaded the initial universe back then, and it was precisely because the dark clan found a channel to connect to the initial universe that they carried out the invasion. It's just because the dark clan is the cosmic sea clan, not the primordial universe.

The universe was born naturally, and it was impossible to forcibly enter the initial universe.

But they are different. They are all groups born in the initial universe. As long as they find this channel, they can naturally enter the initial universe directly.

Not only Honghuang Ancestral Dragon, but You Qianxue and the others also came to their senses.

"Senior, how long can Sisi last?"

Qin Chen suddenly looked at Emperor Nether.

"At her current rate of loss, I'm afraid she won't last long, but it's okay."

After the words fell, the Nether Emperor suddenly raised his hand.

Boom! In an instant, a terrifying source of death aura was born from the sky and the earth. This force appeared, and the void of the entire Dark Nether Mansion trembled. Under the eyes of the public, the Nether Emperor suddenly pointed to Chen Sisi and put this share capital.

The power of the source quickly penetrated into Chen Sisi's body.

"boom!"

Chen Sisi's whole body was suspended, and the source that had dissipated quickly was shrouded in the source of death, which actually slowed down the speed of loss and quickly stabilized. "This seat has already shrouded her origin with the origin of death. The Empress Mingyue is one of the four great emperors. The origin of death in this seat can naturally bring a slight improvement to the origin of the Underworld Moon in her body, at least within ten years. she'll be fine

, but more than ten years..."

The Great Emperor Nether did not continue, but everyone already understood what he meant.

"Ten years?"

Qin Chen's eyes were bright.

For some powerhouses in the universe, ten years are as fleeting as a white horse, but for Qin Chen, it is enough.

"Boy, you have to hurry up. Besides... This Ten Tribulations Palace is extremely extraordinary. Since you have passed its test, you can refine it carefully. Once you can completely motivate this thing, its power will exceed your imagination."

"Thank you senior for reminding me."

Qin Chen nodded, no matter what purpose the Nether Emperor had, he at least helped a lot this time.

"Thank you senior."

Chen Sisi was also grateful.

"Haha, don't be polite, it is the blessing of this seat to be able to bring some help to your Excellency." The Nether Emperor immediately laughed.

Chen Sisi smiled slightly. Although this Nether Emperor was one of the four great emperors of the underworld, he was quite kind.

Seeing Chen Sisi actually laughing, the Great Emperor Nether's heart blossomed with joy.

Tsk tsk, this one is that one's daughter-in-law, if I can forge this good relationship, I am afraid that this seat will have no worries in the future.

At the same time as his heart was excited, the Nether Emperor's eyes fell on Tuoba Ancestor again.

"senior."

Ancestor Tuoba was startled and hurriedly saluted respectfully.

In front of such a giant, he would not dare to be too big.

"Who are you?" The Nether Emperor frowned, and there was a faint flicker of fierce light in his pupils.

A triple detachment, which can threaten Qin Chen's life.

The Tuoba ancestor was startled and hurriedly said: "The younger Tuoba Qi was once the ancestor of the Tuoba clan in the South Cosmos Sea."

"Tuoba Clan? Never heard of it!" Emperor Nether shook his head. Ancestor Tuoba looked embarrassed, but he did not dare to express any dissatisfaction, and said tremblingly: "Senior is in a high position and has an extraordinary position, so naturally he has never heard of the name of the junior. Compared with the senior, the junior is like a firefly and a bright moon. too

There are many, senior, you are the eternal and immortal star in the vast sea of cosmos, while the junior is just a speck of dust in the mortal soil, which is too much. "The Tuoba ancestor's desire to survive was directly full.

[Chapter 5228: You are very good](#)

"Hahaha." The Nether Emperor couldn't help laughing: "You are very good."

"Smooter."

Honghuang Zulong disdainfully glanced at Tuoba Ancestor, but this Tuoba Ancestor is still a triple detachment, it is almost like a licking dog.

No, it's worse than licking a dog.

The Great Emperor Nether smiled and said: "Your Excellency is a triple detachment anyway, and it can be regarded as the existence of a giant in this cosmos sea. What dust and stars can't be! However, you only have a remnant soul left, why are you here?"

The Nether Emperor can naturally see that Tuoba's ancestors only have a remnant soul, which appears in this universe sea, will only continue to wear out, and then disappear completely.

Ancestor Tuoba wiped his cold sweat and said, "Before the younger generation offended Chen Shao inadvertently, so he called out the younger generation, wanting to be detrimental to Chen Shao..."

"What? To be detrimental to Young Master Chen?" The Nether Emperor's face changed greatly when he heard the words, and a terrifying aura suddenly erupted from his body.

This breath was like a vast ocean, and it swept in in an instant, almost blowing away the ancestors of Tuoba.

Tuoba's ancestor hurriedly shouted: "Senior, calm down, this is just a misunderstanding. Previously, the younger generation has taught his younger generation hard, and now my Tuoba clan has followed Chen Shao, saddling the front and rear for Chen Shao, and emulating the power of dogs and horses."

The Great Emperor Nether nodded: "This is almost the same, you kid has a good eye!"

"Junior dare not be!"

Tuoba's ancestor said with trepidation. Emperor Youming looked at Tuoba Ancestor carefully for a long time, and saw that Tuoba Ancestor had straight hair, only to see Emperor Youming frowning: "Well, a

triple detachment can indeed bring some help to Qin Chen, but unfortunately Your Excellency has only one left. disabled

The soul is naturally suppressed by the supreme rules of the cosmic sea, and I am afraid that it will die soon. Anyway, it seems Qin Chen's sake..."

The Nether Emperor suddenly shot.

boom!

An invisible breath of death instantly enveloped Tuoba ancestors.

In an instant, Tuoba's ancestor felt that his remnant soul had gradually become stable, and it was rapidly condensing.

After a while, the Nether Emperor withdrew his hand. "Okay, this seat has shielded you from the shackles of the rules of the cosmic sea, and also shielded the underworld from swallowing you. Your remnant soul should be able to stay in this cosmic sea for a while longer. come down and follow

Follow Qin Chen, saddle the front and back for him. With your current strength, you can also make him less troublesome in the process of going to the underworld. "The Nether Emperor said lightly.

"My remnant soul?"

At this moment, the ancestor Tuoba raised his hand and felt his body in shock.

What he left in the Tuoba family was just a remnant soul. Once it appeared, it would be oppressed by the universe sea all the time, and it would be swallowed up by the power of the underworld, and eventually completely dissipated.

But at this moment, both the rules of the universe and the devouring power of the underworld have become weaker by at least 90% in an instant, and his remnant soul has become much more stable.

It can be said that the Nether Emperor's action made his remnant soul stay in the universe sea for at least ten times longer.

"Thank you senior for taking action."

Ancestor Tuoba saluted in ecstasy, and his eyes were full of gratitude and surprise. His remnant soul is already his last support in this cosmic sea. If this remnant soul collapses, then his consciousness in the cosmic sea will completely dissipate. There is a little more in this cosmic sea possible.

"If you want to thank you, thank Qin Chen, and help this son well. If you can witness him grow up in the future, I believe that you will find that everything you do now is more correct than anything you have done in your life."

The Great Emperor Nether looked at Tuoba's ancestor with deep meaning.

"Yes, the younger generation will do their best to assist Young Master Chen, Young Master Chen will let me live, and I will live, Young Master Chen will let me die, and the younger generation will never be stubborn."

Ancestor Tuoba hurriedly saluted.

At this moment, there was a raging wave in his heart, and he glanced at Qin Chen secretly, and was shocked by his origins, so that the four great emperors of the underworld like the Great Emperor Nether could speak like this.

You must know that in the identity of the Nether Emperor, he is also a giant-like existence in the ancient cosmos sea.

On the side, Palace Master Anyou was dumbfounded. Before that, a Tuoba Xiongba came as a licking dog. How could even Tuoba ancestors become a licking dog in a blink of an eye?

"And this person."

At this time, Emperor Youming suddenly turned to look at Palace Master Anyou and Fang Muling.

"This person contains a trace of the power of the abyss, and I'm afraid it has some connection with the abyss." Emperor Nether narrowed his eyes.

"Senior, it's impossible, the little girl was born in Anyou Palace, how could she have a connection with the abyss?" The Anyou Palace Master changed color and hurriedly said.

From the previous conversation, Palace Master Anyou has already heard that the abyss must not be contaminated, and it is almost the public enemy of the entire universe.

"It's not just her, you are the same." The Nether Emperor sneered: "Otherwise, why do you think this person was able to enter the test of the Ten Tribulations Hall before, and under the power of the abyss, nothing will happen? He even got a lot. benefit?"

"The little girl has entered the Ten Tribulations Hall test?" Palace Master Anyou was stunned. "However, you don't have to worry too much, this Ten Tribulations Hall should be the treasure of your Anyou Palace Master. If I guessed correctly, it should be the ancestor of your Anyou Palace. Through the Ten Tribulations Palace, there is some connection with the abyss. , but fortunately,

The power of this abyss is not obvious, if it wasn't for the previous seat, which was also in the inheritance, this seat would not have seen it. "

"In the future, as long as you don't have too much contact with the abyss, there will be no problem." The Nether Emperor warned.

"Junior dare not, and senior, the younger girl has been asleep all the time, you see..." At this time, Palace Master Anyou hurriedly stepped forward.

"It's okay, she's fine, she even got a lot of benefits and will wake up soon."

Speaking of this, the Great Emperor Nether looked at Qin Chen: "Before this seat has spent a lot of source, if there is no major event, try not to wake me up, otherwise I'm afraid there won't be much time left in this world."

The voice fell, and the Nether Emperor suddenly returned to the ancient tower and disappeared.

Between heaven and earth, the endless breath of death instantly vanished, as if nothing had happened.

"dust!"

Sisi and the others gathered around and leaned on Qin Chen.

Qin Chen stroked the skin and hair of several people, raised his hand, and with a bang, the Temple of Ten Tribulations quickly floated above Qin Chen's head, and it quickly became smaller and entered Qin Chen's body.

"Little friend, what do I need to do next?"

Ancestor Tuoba stepped forward and asked.

"Yes, what do you want us to do?" Palace Master Anyou also hurried forward, unwilling to fall behind.

Qin Chen was just about to speak.

At this time, Fang Muling suddenly snorted, woke up, and met Qin Chen's eyes. A face, instantly became very pretty red.

[Chapter 5229: very wrong](#)

As soon as he saw Qin Chen, Fang Muling thought of everything he had experienced in the inheritance of the Ten Tribulations Palace, the strong feeling and the picture, and Fang Muling was still impressed until now.

For a moment, Fang Muling felt only wisps of electricity surging through his body, and his body couldn't help but numb.

Seeing Fang Muling's appearance at the moment, Qin Chen couldn't help touching his nose, faintly embarrassed.

At this moment, he also understood that what he had experienced with Fang Muling in the Palace of Ten Tribulations was not an illusion, but that Fang Muling's soul had really entered the test.

But before myself...

Thinking of the scene where he forced Fang Muling to do it, Qin Chen felt extremely embarrassed.

After this, how can you be friends with each other?

"Cough, are you awake? Are you okay?"

In order to hide the embarrassment, Qin Chen asked quickly.

"I'm fine."

Fang Muling spoke quickly, but after saying this, she didn't know what to say, but she blushed and lowered her head, pinching her skirt. Until now, she can still clearly recall the impact she had suffered before. The heavy waves hit, and it felt as if she had become a delicate lamb, under the jaws of a mighty and huge tiger. assisted by

Fiddled, but was completely powerless to resist.

As long as he thinks of such a scene, Fang Muling's whole body can't stop getting hot.

Seeing that Fang Muling stopped talking again, Qin Chen touched his nose again, not knowing what to say.

On the side, Qianxue and the others looked at Qin Chen jokingly, but no one spoke.

If you do a good job yourself, of course you have to wipe your ass.

"No, there is a situation."

At this time, Honghuang Zulong suddenly came forward suspiciously: "Young Master Chen, what's so weird between the two of you, is there something we don't know about?"

He stared at the huge dragon's eye, glanced at Qin Chen, and then at Fang Muling, and couldn't help but lift his chin.

On the side, Palace Master Anyou and others were also stunned.

Indeed, the expressions between Qin Chen and Fang Muling were very strange, and the atmosphere was very wrong.

Could it be that there is something going on between the two?

"Oh, I understand." Suddenly, Honghuang Ancestral Dragon suddenly screamed, as if thinking of something, he hurriedly said: "I remembered, the Nether Emperor said earlier that Fang Muling had entered the test of the Ten Tribulations Hall, Is there anything special about the two of you during the test?

experience? "

"That's not right, you have traveled through the secret realm of Returning Ruins together. Even if you have gone through some tests, you won't have such a strange expression? Why does this expression seem like Young Master Chen has strengthened you?"

After saying this, Honghuang Ancestral Dragon suddenly felt inappropriate, and hurriedly said to You Qianxue with a smile on his face: "Several mistresses, Laolong, I don't mean that, just make an analogy, cough, make an analogy."

"Okay, as long as you talk a lot, don't be fooled anymore, why don't you go back to Guyu Pagoda?"

Qin Chen gave Honghuang Zulong a blank look.

Damn, this guy is talking a lot of nonsense.

When the words fell, he did not wait for Honghuang Ancestral Dragon to respond, grabbed Honghuang Ancestral Dragon and threw him back into the chaotic world in the tower in an instant.

In an instant, the world was clean.

"That..." Qin Chen came to Fang Muling, scratched his head, and hesitated: "Sorry, I didn't do it on purpose in the illusion, I hope you don't mind."

"I know."

Fang Muling lowered his head and dared not look up into Qin Chen's eyes, his voice was like a gnat: "I don't mean to blame you, it's all because of the illusion, I know, and I won't be swayed by this matter. entangled..."

When Fang Muling said this, she suddenly felt a little pain in her heart. She gritted her teeth and didn't say anything, but the meaning was very clear.

On the side, how do Palace Master Anyou and Dangmo Shenzun feel? Although Fang Muling's voice was extremely low, he heard such a conversation and couldn't help but jump in his heart.

There is a situation!

"Ling'er, what's going on?" Palace Master Anyou hurriedly stepped forward, looking anxious.

The heart is ecstatic.

Could it be that what happened to Young Master Chen and Ling'er during the test in the Hall of Ten Tribulations?

This...

It's just a big happy event!

"Father, nothing!"

Fang Muling blushed.

"What's nothing?" The main board of Anyoufu raised his face, but his heart was burning with anxiety: My good daughter, why don't you understand? It's not a good thing for girls to suffer outside, but it also depends on who suffers.

What is there to say?

It is a blessing to suffer! He thought so in his heart, but he looked at Qin Chen with righteous words on his face, showing an angry expression, and cupped his hands: "Young Master Chen, did the little girl break into your test before and did something bad to you? The thing? Destroyed the dust less you test? Don't worry, I will teach her a good lesson when I look back and let her know how to behave. You can't be lawless and do not understand the rules just because you have been taking good care of her, Young Master Chen. "

Qin Chen hurriedly said: "Senior Palace Master Anyou, nothing..." Palace Master Anyou waved his hand and looked stern: "Young Master Chen, don't say it, I know you are kind in your heart and you are a

good person, even if it's a little girl doing something. You're not blaming her for anything wrong, but you can't be so used to her, boy

, I am too fond of her, holding her in her hand for fear of falling, and holding her in her mouth for fear of melting. If she does something that is sorry for you, you will teach her a hard lesson. Rest assured, as a father, I will never have any dissatisfaction. "

Qin Chen: "..."

This is so special, I can't take it.

"Young Master Chen, Palace Master Anyou, put other things aside now. Mistress is still injured. Shouldn't it be better to do the following preparations earlier?"

Ancestor Tuoba obviously felt Qin Chen's embarrassment and could not help but take a step forward and reminded him.

Everyone came back to their senses.

Only Palace Master Anyou looked at Tuoba Ancestor angrily, and cursed in his heart: This guy is doing bad things and good things.

Fang Muling, who didn't know what happened, couldn't help but glanced at Chen Sisi. After feeling the source of her weakness, she couldn't help but be taken aback, "She... what's wrong?"

Tuoba's ancestor said in a deep voice: "Previously, Chen Shao was in crisis during the test of the Ten Tribulations Hall, and it was a few mistresses who took action to save the danger, but this mistress was also seriously damaged because of this, and if it was not treated in time, then ..."

Ancestor Tuoba shook his head.

Fang Muling felt extremely self-blame in her heart. What she thought at this moment was that she had suddenly entered Qin Chen's test for some unknown reason. Could it be that Chen Sisi and the others were injured because of herself?

There was a moment of guilt and unease in her heart and deep in her eyes.

If this is the case, then she will never forgive herself in this life. Qin Chen immediately looked at the Anyou Palace Master and Tuoba Ancestor: "Senior Anyou Palace Master, please prepare immediately, I will go to the Tuoba Family, and then you and the Tuoba Family will join forces to attack the Dark Family immediately. ,I hope

With the fastest speed, the dark clan will be occupied and the entire Southern Thirteen Star Territory will be unified. "

The Dark Continent has a passage to the initial universe, and Qin Chen naturally does not want other accidents to happen. As the bridgehead of the initial universe, the Southern Thirteen Star Territories must be unified.

[Chapter 5230: Immortal origin](#)

Palace Master Anyou hurriedly cupped his hands: "Yes, little friend... No, it's Young Master Chen!"

"Senior Palace Master Anyou, we don't have to be so polite." Qin Chen said with a smile.

Palace Master Anyou glanced at Fang Muling, then at Qin Chen, and said with a smile: "It's okay, although you and Mu Ling have a good relationship, it's okay, we have our own opinions."

On a different level?

Qin Chen: "... " Palace Master Anyou saw Qin Chen's strange expression, and hurriedly smiled: "Young Master Chen, you have passed the test of the Ten Tribulations Hall with great difficulty, and you are probably very tired. It is better to go back to the mansion to rest and wait for this mansion. After handling the affairs of the government, the first time

Mobilize all the strong, go to the dark family. "

After finishing speaking, Palace Master Anyou immediately looked at Fang Muling: "Ling'er, you are not ready to bring Chen Shao and... Mistresses to rest, remember, don't neglect."

"Yes."

Fang Muling lowered his head and said. Palace Master Anyou smiled again and said to You Qianxue: "Several mistresses, Ling'er is a little sensible, but she has a good heart and no bad intentions. I also asked a few mistresses to have a lot of Haihan. Teach her how to behave reason. "

"Senior Palace Master Anyou is polite."

Qianxue and the others cupped their hands.

In any case, if it weren't for the dark and forbidden land this time, they would not be able to enter the detached realm so easily. When the ancestors of the dark family came, it would definitely be more dangerous.

Palace Master Anyou was startled and waved his hands again and again, naturally he didn't dare to take You Qianxue and the others.

Next.

Fang Muling immediately took Qin Chen and the others to the Anyou Mansion for a rest, while the Anyou Mansion Master began to lead the Demon God Venerable and the Kong Kong God Venerable to sweep the battlefield.

What happened this time is indescribable. The Sifang God Venerable betrayed and led the Sifang Guards to kill in the core of the Darkness Mansion. As a result, he died, and the entire Darkness Mansion also suffered heavy casualties and blood flowed into rivers.

The Darkness Palace Master needs to reorganize the Darkness Palace as soon as possible, and organize an invasion army.

Although the dark clan is not a particularly powerful force in the Southern Thirteen Star Territory, it is also a top force with double detachment. If you want to fully capture it, you must make sufficient preparations to reduce casualties.

Moreover, Palace Master Anyou knew deeply that on the surface, he and the Tuoba clan attacked the dark clan together, but it was actually a military training.

The Tuoba family has such a triple detachment as Tuoba's ancestors. If the Anyoufu wants to leave a deeper impression in Qin Chen's mind, it must make enough credit in this dark clan battle. "I hope Linger's side can progress smoothly, so that she doesn't have to struggle so hard for her father. The old husband of Chen Shao, tsk tsk, after walking in the universe sea with this identity, maybe other people can give some face. not necessarily.

"

Palace Master Anyou held his chin and said lewdly in his heart.

"Lord Palace Master, what are you talking about?"

Aside, Dangmo Shenzun and Zhengkong Shenzun said in doubt. "You two haven't left yet?" Palace Master Anyou came back to his senses and was shocked, "It's nothing, I'm thinking about how to capture the Dark Continent as soon as possible for Young Master Chen. You two, one to rest. The site of the four gods, one

A strong man who mobilized all the Dark Nether Mansion, we must do a good job this time. "

Palace Master Anyou waved his hand fiercely.

"Yes."

The two left quickly.

"Hehe." After the two left, Palace Master Anyou didn't know what to think, and an excited smile appeared on the corner of his mouth again.

At this moment, Qin Chen and the others, under the leadership of Fang Muling, returned to the resting place in Anyoufu.

"Qin Shaoxia, Fang Muling, are you all right?"

As soon as Qin Chen and the others approached the small building, a graceful figure rushed over and appeared in front of Qin Chen and them in an instant, looking anxious.

It is the Linglong Goddess. Goddess Linglong did not follow this time in the dark and secluded area, so she was trapped in the small building where the guests were resting. Later, a huge battle took place in the dark secluded area. block in an instant

, The Dark Nether Mansion's guest area was naturally blocked with a large formation for the first time.

The great formation of Anyoufu cannot be broken with the cultivation base of Goddess Linglong, so despite being anxious, she can only stay inside. Now that the formation is dispersed, and Goddess Linglong can't wait to rush out when they see Qin Chen and the others coming back. .

Because of the rapid running, the chest of the Linglong Goddess is even more violent ups and downs, and the waves are magnificent.

"Dust, who is this?"

Qianxue and the others glanced at Qin Chen with smiles on their faces.

And Goddess Linglong also saw You Qianxue and the others behind Qin Chen. Even as a woman, Goddess Linglong was amazed by the looks of You Qianxue and others.

"Cough, Qianxue, don't get me wrong, this is the Linglong Goddess, the saintess of Linglong Xianzong." Qin Chen hurriedly explained.

"Linglong Goddess? Tsk tsk, Chen, you have a palace master's daughter and a goddess on your side. It seems that you are having a good time after coming to the cosmos sea?" You Qianxue said with a smile.

"This..." Qin Chen was in a cold sweat, and hurriedly said: "Qianxue, it's not what you think, before in the secret realm of Returning Ruins, Linglong Goddess had displayed the power of destiny, and that power was the same as that of the pavilion master of Tianji Pavilion. extremely powerful

Similarly, there was no news from the Heavenly Secret Pavilion Master when he came to the Universe Sea, and I suspect that the Linglong Goddess might have something to do with the Heavenly Secret Pavilion Master, so she..."

"Master of the Heavenly Secret?"

Qianxue and the others were thoughtful. Naturally, they had heard of this name. Together with Senior Sword Ancestor, they were one of the most powerful people in the human race back then.

"Anyway, you have the heart to accompany the two of them, and you don't know how much to accompany us. Hmph, tonight, you must accompany us, especially Sister Sisi, do you hear me?" You Qianxue snorted coldly.

Qin Chen: "..."

Although Qianxue looked fierce, in fact she did not embarrass Qin Chen. After returning to the small building, several people quickly rested. In the previous battle, they were all seriously injured and needed to be recuperated as soon as possible.

While Qin Chen and Sisi were recovering from their injuries and preparing to attack the Dark Continent.

Underworld.

This is a barren world, and there are cold winds blowing everywhere. Every cold wind is like a sharp blade.

At this time, in the depths of this dark and barren world, a figure radiating demonic energy sat cross-legged in a cave deep in the ground.

If Qin Chen is here, he will be shocked, because this person is the ancestor of Yuanmo who escaped to the underworld.

At this moment, blood is everywhere on his body, and he is extremely embarrassed and scarred.

However, his expression was extremely ferocious, and he did not show the slightest pain because of the injury, but a terrifying sternness flashed in his eyes. Surprisingly magical energy was surging around him.

In front of him, a black skull crystal was suspended. The crystal exuded a heart-pounding dark power. In the depths of the crystal, strange death runes circulated. together

All contain the avenues of heaven and earth, and the power of the rules slowly merged into the body of this figure.

"The origin of immortality, after going through all kinds of difficulties and dangers, I finally got this thing. With this thing, I can completely comprehend the rules of death in this underworld and achieve supreme detachment." The ancestor of Yuanmo closed his eyes, The breath of the death runes melted into his body, which made his power crazy.
