Chapter 531 Emperor Star Academy

The fifth-tier Wuzong, the fourth-tier bloodline master, and the alchemist were actually nothing in the eyes of Qin Chen in the previous life, but Qin Chen knew very well that if two people hadn't arrived this time, he could not be so easily shocked. Other Xuanzhou martial artists, at least, people of the Blood Demon Sect would definitely not leave so easily.

"Xiaoxia Qin Chen doesn't need to be polite."

When the two saw Qin Chen, they didn't support it, and said with a smile.

"What are you discussing?" Qin Chen looked over curiously. When he walked over before, he obviously heard a lot of comments.

Xiao Zhan smiled bitterly and said, "Little dust, we are discussing how to deal with you disciples who have gained inheritance in the future is the best."

When Xiao Zhan said this, Qin Chen immediately understood what he meant, and knew everyone's distress.

Although many forces in Xuanzhou have temporarily retreated, it does not mean that they are all safe. Even once the news is passed on, the disciples who are passed on will become even more insecure.

The Tianwu Continent is a world where the weak and the strong eat the strong. No one will give up the opportunity to become stronger, even if there is a Pill Pavilion and Bloodline Sage.

What's more, at the level of the Dawei Dynasty, Xiang Wentian and Mu Lengfeng might not be able to represent these two forces.

In fact, this is what Qin Chen worried about.

Qin Chen didn't really care about his own comfort, but Wang Qiming, You Qianxue and the others were extremely concerned about Qin Chen's comfort.

Everyone said a word to me, but there is no good idea.

After all, You Qianxue's crisis is different from Qin Chen's. Qin Chen directly has to bear the threat and murder of Liuxianzong and other forces, while You Qianxue and the others are secretly attacked by many powerful forces in Xuanzhou.

But Xiang Wentian and Mu Lengfeng could not protect them from time to time.

What worries them the most is that once things spread throughout the Dawei Dynasty, all kinds of monsters and ghosts may appear for profit, and it is simply impossible to guard against.

"Actually, staying in the five countries is the most undesirable method." Qin Chen said suddenly.

Everyone also nodded, the Five Kingdoms is too deterrent, a few people stay here, it is equivalent to a meat target.

"But where can we go?" Wei Tianming and the others are bitter.

"Actually, if you want to avoid the secret pursuit of the major forces in Xuanzhou, in fact, going to the imperial city of the Dawei Dynasty is the best way." Mu Lengfeng said solemnly.

The imperial city of Dawei Dynasty?

Xiang Wentian's eyes lit up, "Hey, indeed, going to the imperial city is a good idea."

Everyone was stunned, with all their faces puzzled. It was the warriors of the Dawei Dynasty who wanted to kill You Qianxue and the others. Now when they go to the Dawei Dynasty imperial city, don't you give the other party a chance?

As if he knew the thoughts in everyone's minds, Mu Lengfeng explained: "The imperial city of the Dawei Dynasty is indeed like a cloud. There are many masters, and any one of them can easily kill a few of them. However, the same is true for the Dawei Dynasty. In the core place of the imperial city, the imperial city is heavily guarded, and no one dares to rush in the imperial city, even if they stay in Xianzong, they dare not at all."

"So, going to the imperial city is safer than other places."

"Secondly, in the imperial city of the Dawei Dynasty, the forces are complicated, but it has the Emperor Star Academy established by the Dawei Dynasty imperial family, as well as some other powerful forces. With the talents of several people, as long as they can join forces like the Emperor Star Academy, Those forces in Xuanzhou didn't dare to do anything at all."

Emperor Star Academy?

Xiao Zhan and others were puzzled.

"Yes." Mu Lengfeng nodded: "Emperor Star Academy is a royal academy established by the Dawei Dynasty royal family. It gathers the top geniuses of the Dawei Dynasty. It can be said that it is the cradle of the dynasty geniuses. Once you join, You can be protected by the Dawei Dynasty. It can be said that as long as you join the Emperor Star Academy, as long as you don't leave the Academy or the imperial city, the Xuanzhou forces will not dare to move you at all."

"Furthermore, the headquarters of my Dan Pavilion and Bloodline Holy Land in the Dawei Dynasty Branch are also in the Imperial City. At that time, they will be able to protect a few more."

Everyone was silent.

Qin Chen is also meditating. So far, this is probably the only way.

After finishing the conversation, Mu Lengfeng anxiously took Qin Chen to a separate room.

"Senior, this is..." Qin Chen was puzzled and looked at Xiao Ya on the side.

Mu Lengfeng opened the mouth and said: "Listen to Xiao Ya, you can make a third-grade pill, right?"

"Three-grade pill, it should be okay." Qin Chen said, he glanced at Mu Lengfeng, this person didn't want to refine the pill by himself.

But when I think about it, I find it impossible. The other party is a fourth-rank alchemist. If he wants to refine it himself, he should ask about the fifth-rank pill, not the third-rank.

"If this is the case, then you should first refine a furnace of third-grade sandalwood pill."

Without waiting for Qin Chen to speak, Mu Lengfeng quickly took out a few medicinal plants from his body, including "Sandal Vanilla", and then looked at Qin Chen fiercely.

Although he didn't understand what Mu Lengfeng's purpose was, Qin Chen took out a pill furnace and swiftly operated the real fire to heat the pot.

Qin Chen would naturally not take out the Qinglian Demon Fire. Although he didn't understand what the other party's purpose was, how could Qin Chen let it be easily exposed before a flame like Qinglian Demon Fire was unnecessary?

"Are you refining here?" Seeing Qin Chen directly took out the pill furnace to heat the cauldron, and used the most common real fire, Mu Lengfeng was stunned.

Real fire is the most common kind of flame of the most alchemist. It is a flame that relies on its own true power to burn. In terms of power, it is even worse than the fire, even if Mu Lengfeng, a fourth-rank alchemist, does not Dare to use real fire at will to refine the third grade pill.

In Mu Lengfeng's mind, Qin Chen should go to a special refining room and use the fire to refine, but he did not expect to refine it directly in this room.

Qin Chen didn't understand what Mu Lengfeng was shocked. For him now, it was enough to refine the third-rank pill, even the harder sandalwood pill of the third-rank, with real fire.

After the rapid heating up, Qin Chen opened the pill furnace and threw many medicinal materials into it.

Mu Lengfeng's mouth twitched again, almost speechless.

The order of refining pills and the medicinal materials is exquisite, like Qin Chen's brain throwing in, more than 90% are done by some laymen who don't know how to refining medicine.

Can't help but look at Xiao Ya depressed.

To be honest, the reason why he hurried to the Five Kingdoms from the Dawei Dynasty was because he learned from Xiao Ya that there was a genius in the Five Kingdoms with amazing accomplishments in refining medicine. This person could not only refine the third-class pill. She even made her breakthrough to the Fourth Stage Alchemist in just a few months, shocked, and she wanted to see this genius.

But now after seeing Qin Chen's alchemy actions, Mu Lengfeng was completely speechless. He even wondered if Xiao Ya was in love with the other party. He couldn't bear the other party's death under the hands of Xuanzhou Martial Artists, and deliberately gave himself a senior from the Dawei Dynasty. come.

Chapter 532

This thought was just a flash, and Mu Lengfeng felt something was wrong.

He knew that Xiao Ya was not such a person at all. When she was in the teacher's door, Xiao Ya never pretended to show off to boys, how could she fool herself for a man.

What's more, Xiao Ya's breakthrough in the fourth-rank alchemist is true, and there is absolutely no possibility of false.

So even though he was very speechless about Qin Chen's actions, Mu Lengfeng looked over attentively.

With Qin Chen's current Tier 5 mental power, coupled with the experience of the previous life, it would not be bothersome to refine the sandalwood pill all the way, so others need to put in the medicinal materials one by one, in strict order.

But he didn't need to do this at all. With his strong mental power and previous experience, after many medicinal materials entered the pill furnace, he quickly controlled them, each plant was refined, and the residue of those medicinal materials was isolated. Come, throw the pill furnace.

Although the refining of real fire is slower than other flames, Qin Chen is refining together, but the speed is not satisfied at all. After the medicinal materials are refined, many medicinal properties are quickly combined in the pill furnace.

"It was really refined by him, and there was no mistake."

Mu Lengfeng opened his eyes wide, looked at Xiao Ya in surprise, and said in surprise: "This Qin Chen is the most talented alchemist I have ever seen. There is no one."

Xiao Ya smiled slightly. She understood what Mu Lengfeng meant. Qin Chen threw the various medicinal materials for refining sandalwood pellets into the pill furnace at the same time, regardless of grade and order. This was not a conventional method of refining medicine at all, even if it was Mu Leng. Senior Brother Feng, who has been a fourth-rank pharmacist for many years, it is extremely difficult or impossible to achieve this.

What's more, Qin Chen's technique was unexpected, and the speed of refining was also very fast. In just a few breaths, he had already refined all the medicinal materials thrown into the pill furnace.

Mu Lengfeng was still in shock at this time and seemed unable to come out. You must know that Qin Chen uses real fire. Others use blast fire, or blood spirit fire, which may not be as fast as Qin Chen. .

"Brother, you haven't seen what Shao Chen is so good about."

Xiao Ya couldn't help but smile. When she was in Daqi Guodan Pavilion, did she get scared by Qin Chen? Now it was my senior's turn to be surprised, and suddenly there was a sense of excitement and joy in his heart.

When all the medicinal materials in the pill furnace were refined, Qin Chen threw the residue out of the pill furnace and began to control the fusion of the medicinal properties inside.

He squeezed the pill formula, and a wave of mental energy quickly merged into the pill furnace and participated in the response of the pill.

As soon as Mu Lengfeng saw Qin Chen's technique, he immediately understood that he had misunderstood Qin Chen. The whole process of Qin Chen's refining medicine was like running clouds and flowing water. Some of the techniques were not very clear to him, and he was completely shocked. Up.

In the pill furnace, various medicinal properties quickly merged, and soon a faint fragrance filled the pill furnace.

"Is it a pill so soon?"

Mu Lengfeng's eyes became more rounded, and the pill was fragrant, which meant that the pill was about to take shape, but how long has it been? Less than half a stick of incense, a pot of third-grade pill will take shape? What a joke.

Even if you want to refine a furnace of sandalwood pill, at least it is above a stick of incense.

Qin Chen, who was refining, naturally did not know what Mu Lengfeng was thinking. He stretched out his hand, but the furnace lid instantly rose to the sky. In a twinkling of an eye, twelve pills of pills rose to the sky and quickly fell aside. Among the prepared medicine bottles.

"It's done?"

Almost the moment the pill entered the medicine bottle, Mu Lengfeng immediately rushed up and poured out the medicine in the medicine bottle.

The pill was just formed, still carrying hot heat, a strong fragrance, penetrated into Mu Lengfeng's nasal cavity, but Mu Lengfeng didn't seem to notice it at all, just staring blankly at the pill in his hand, twelve pills, Moreover, there are still twelve high-quality pills, such a result, even if it is changed, he may not be able to achieve it.

If he hadn't seen it with his own eyes, Mu Lengfeng would never believe that these twelve pills were actually made by a teenager under the age of seventeen, who spent half of his time refined.

And it's so perfect, even better than what he refines, how is this possible?

"Okay, okay, I really am a third-rank alchemist, genius, genius!"

Mu Lengfeng was trembling with excitement.

Qin Chen saw that Mu Lengfeng was so excited, he couldn't help but curled his lips. What was going on with Mu Lengfeng, but it was just a third-grade pill, should he be so excited?

As early as in Wucheng, he was able to refine the fourth-rank pill. Now that his spiritual power has broken through the fifth rank, Qin Chen can't even refining the fifth-rank pill, how can he care about the fourth-rank pill.

However, Qin Chen also knew that Mu Lengfeng, as the deacon of the Pill Pavilion of the Dawei Dynasty, the fourth-rank alchemist, how could he care about the third-rank pill? There must be a reason for him to be like this, and he couldn't help falling into contemplation.

Sure enough, after being excited, Mu Lengfeng calmed down and looked at Qin Chen and said, "Little Chen, I have something to ask."

At this time, Mu Lengfeng even used the honorific title.

"Senior Mu, please tell me, what the **** is it?" Qin Chen was stunned. What was it that made Mu Lengfeng such a Dange deacon ask himself.

Suddenly a thought flashed in his mind, and he said, "Could it be..."

Sure enough, Mu Lengfeng said: "Young Chen may think that our alchemy pavilion is all-powerful, but in fact, the competition between alchemy pavilions is very fierce. The cabinet organization, so you can get more teaching and resources."

"However, because of the large number of alchemists and the limited resources on the mainland, these few places are very cherished. Therefore, between our Dawei Dynasty and many surrounding dynasties, we will compete between the alchemy pavilions. "

"and so....."

Qin Chen said: "So you want me to represent your alchemy pavilion in this dynasty medicine refining competition? Fight for quota?"

Mu Lengfeng smiled bitterly: "That's right."

Qin Chen touched his nose: "You Dawei Dynasty Pill Pavilion shouldn't even find a pharmacist, right?"

Mu Lengfeng smiled bitterly: "It's actually easy to find a pharmacist, but there are many reasons for it, especially young pharmacists, and if you are so young, you are already a third-tier pharmacist... and, as long as you join our pill The pavilion represents our Dan pavilion. Our Dan pavilion will not ignore the safety of your other disciples in the five countries. What's more, once you play on behalf of our Dan pavilion, our Dan pavilion will definitely give a lot of support. His cultivation base will inevitably be a breakthrough."

Qin Chen frowned and fell into thought.

This is a good idea. . .

Chapter 533 the wrath of Liuxianzong

Dan Ge could not arbitrarily intervene in the fights between other forces, so wanting them to protect Wang Qiming and the others is actually taking a great risk.

However, once he represents the Dange of the Dawei Dynasty to participate in the Dandao Competition of this dynasty alliance, no matter what conditions he makes, the Dange headquarters of the Dawei Dynasty will promise its own terms.

Moreover, Qin Chen also understood that the Pill Pavilion is one of the most resourceful forces in the entire continent. Although he was a ninth-rank emperor-level pharmacist in his previous life, he did not hold any position in the Pill Pavilion. No one speaks for himself.

In this life, I wanted to find Shangguan Xier and Feng Shaoyu for revenge. It was extremely difficult. Three hundred years later, in the vicissitudes of life, the two had already become the top giants in the entire continent, and their resources were extremely terrifying.

If he could win Dange, it would be better.

"Well, in that case, then I promised."

Thinking of this, Qin Chen immediately agreed without hesitation.

"Hahaha, well, Shao Chen is really bold, if so, we will set off for the imperial city of Dawei Dynasty tomorrow, how about?"

Seeing Qin Chen's promise, Mu Lengfeng clapped his palms excitedly, and said impatiently.

Qin Chen smiled and said: "Senior Mu Lengfeng, the alchemy between dynasties, shouldn't time be so tight?"

"It's not." Mu Lengfeng also found that he seemed too anxious, and said with a smile: "Actually, the time for the Dao Dao Competition will be a few months later, but my Dawei Dynasty Dan Pavilion is compared to other Dynasty's Dan Pavilion is not top-notch in strength. Although Chen Shao, you are a third-rank alchemist, to be honest, you may be worse than my junior sister Xiao Ya, so I hope you can rush to the Dan Pavilion headquarters in the imperial city as soon as possible. Retreat there to practice, and strive to upgrade the alchemy to the fourth rank, so that there may be a glimmer of hope."

Although Mu Lengfeng's words were very euphemistic, Qin Chen could still understand the meaning of his words. He obviously felt that his third-rank cultivation base was still a bit weak, and he wanted to get a certain ranking in the Dandao Grand Competition, at least it must also be a fourth-grade alchemist.

Qin Chen smiled in his heart. He was already able to refine the fourth-rank pill since he was in Wucheng. As for now, even the fifth-rank pill can be refined, which is nothing at all.

But Qin Chen didn't say it directly either. Some things just need to be done.

"Don't worry, I will rush to Pill Pavilion as soon as possible." Qin Chen said.

Mu Lengfeng was taken aback: "Little dust, don't you go with us?"

Qin Chen said in a condensed voice: "Yes, so many of us set out together. The goal is really too big. I killed Hua Tiandu and Ge Xuan of Liuxianzong, Liuxianzong will never let me go, and they might do everything in order to kill me. I am afraid that you and Senior Xiang Wentian will not be able to stop them. Instead of that, it is better for me to walk alone. I am alone with a small goal. Even if Zong wants to kill me, he doesn't know where to find me."

"This..." Mu Lengfeng said nervously, "How can it work?"

"Don't worry, I won't make fun of my life." Qin Chen solemnly said.

With Qin Chen's insistence, in the end, Mu Lengfeng nodded and agreed.

Soon, the next day, Mu Lengfeng, Xiang Wentian and others took You Qianxue and the others, and left the ancient city of Tian, heading for the Dawei Dynasty, while Qin Chen also quietly left the ancient city of Tian and went on the road in secret. Up.

When Qin Chen and the others went to the Dawei Dynasty.

Xuanzhou tens of thousands of miles away.

Here is a sacred place surrounded by mountains, full of profound energy, and elixir everywhere, looking at it beautifully, like a fairyland.

And Liuxianzong, one of Xuanzhou's top forces, is located in the middle of these mountains.

The majestic buildings stood among the mountains, palaces lined up, carved columns and jade buildings, magnificent, at this moment in the Liuxianzong conference hall, but there was a big earthquake.

A well-known strong man sat in the conference hall with a solemn expression. Each of these strong men was magnificent, looking forward to the glory, and the terrifying true power rose, making people afraid to look up.

They are all high-level Liuxianzong, and the lowest rank is the fifth-order Wuzong-level elders. Under normal words, the earth will tremble three times, but at this moment, they are trembling and looking terrified.

"Who can tell me? Who let my son go to the Five Kingdoms? Is there no one else in the clan? Why is my son Huatiandu going to the Five Kingdoms, no one has notified me, can anyone tell me? "

An angry middle-aged man stared at the elders in front of him, with an angry expression and cold eyes.

The many elders below were silent and grinning.

This angry middle-aged man, named Hua Sheng, is the deputy chief of Liuxianzong and the father of Hua Tiandu.

In Liuxianzong, the deputy suzerain is a powerful existence second only to the suzerain, and if you want to become the deputy suzerain, one condition must be met, that is, to become a sixth-order martial master.

Therefore, in the sect, the deputy suzerain represents the top combat power of the sect and has absolute authority.

Even some deputy suzerains don't need to manage the affairs of the sect at all. They only need to retreat and practice, but they can have a lot of resources.

Hua Tiandu was able to become the son of Liuxianzong because his father, Hua Sheng, as the deputy suzerain, was able to obtain a lot of resources and was cultivated since childhood.

This time, after learning about the secret realm of the ancient southern capital of the five countries, Hua Tiandu's status would naturally not be pulled down.

I thought that Huatiandu's trip this time was just an experience.

Unexpectedly, what finally came was the news that many of Liuxianzong's disciples had fallen, which immediately shocked the entire Liuxianzong.

"How come, there is not even a master in the land of the five countries, and who can kill my son? Is the information wrong?"

Hua Sheng spoke in anger, and until this time, he didn't believe the information.

Not only him, but the other elders who received the news were also full of doubts and incredible.

"Vice Sect Master Hua, I can understand your feelings, but the source of this information is very reliable. I am afraid that Elder Ge Xuan and Tiandu have really been killed."

Above the first seat, a thin middle-aged man looked gloomy, but this person was Di Xuan, the lord of the Liuxianzong!

His face was gloomy, his eyes shot out a palpitating light, and he said coldly: "The one who killed Hua Tiandu and them was said to be a sixteen-year-old boy from Five Nations. His name was Qin Chen. A disciple of the Great Qi Kingdom."

"Furthermore, after the assessment of the ancient southern capitals of the five countries, people from Dan Pavilion and the Holy Land of Blood also appeared in the five countries and intervened."

"It was only a sixteen-year-old boy who killed my son? Sect Master, how could you possibly!" Hua Sheng said in disbelief, angrily said.

Chapter 534

Hua Sheng could not be clear about the strength of Hua Tiandu. He was the most talented disciple of Liuxianzong and one of Xuanzhou's three great arrogances. If he was counted dead by the Five Kingdoms, he would still believe it, but he would say When a sixteen-year-old boy was killed, he didn't believe it in his heart.

"Sect Master, is it possible that Dixin City and Tianheng Academy are making a ghost?"

Hua Sheng frowned. I heard that this time there were also people from Tianheng Academy and Imperial City, as well as other powerhouses in Xuanzhou. Could it be these people who had ulterior motives and killed Hua Tiandu, but Put the blame on the five countries?

Thinking of this, Hua Sheng felt more and more possible. This time it was Elder Ge Xuan in the sect who brought Tiandu over. With the cultivation base of Wuzong in the late stage of the fifth stage of the opponent, how could those guys from the Five Kingdoms treat Tiandu? create a threat? It was a land that was not even Wuzong.

When Di Xuan heard what Hua Sheng said, he knew that Hua Sheng had wanted to go elsewhere, and said with a wry smile: "Vice Sovereign Hua, I understand your feelings. Tiandu is the most talented disciple of the younger generation of the immortal family. I am also very distressed by the news of his fall. Moreover, Ge Xuan was also the core elder of my stay in Xianzong. However, it was indeed a teenager from the Five Kingdoms who killed him. The name of this son was Qin Chen, who was said to be the ancient southern capital. The champions of the big match, even Di Tianyi and Leng Wushuang are not his opponents."

While talking, Di Xuan handed the message to Hua Sheng.

Although the people who stayed in Xianzong had been wiped out when they were in the ancient southern capital, with the strength of the left Xianzong, it is easy to know the original situation.

"What, the ancient Nandu ruins are so terrible, and Qin Chen... and the blood demon sect that has been destroyed for thousands of years is resurrected?"

Seeing the news inside, Hua Sheng was shocked. He was awakened from the retreat and learned the news of his son's fall, but he did not expect that such a thing would happen in the Five Kingdoms.

"boom!"

A palm hit the table fiercely, shocking all the elders present to jump all over, Hua Sheng's hideous face shot out a faint light, like a hungry wolf that devours people.

After quietly waiting for Hua Sheng to vent, Di Xuan continued and said: "Vice Sect Master Hua also asks to calm down his anger. We never expected the fall of Tiandu. But rest assured, Tiandu is our immortal. The most talented disciple of the younger generation of Zong is the genius we cherish the most in Liuxianzong. This hatred will not be reported. How will I stay Xianzong in the future to gain a foothold in the Dawei Dynasty, this Sect Master promises that no matter who the other party is, this Sect will definitely be heaven Du asks for justice and smashes the other party's body into pieces."

After all, Di Xuan was the Sect Master of Liuxianzong, he said so, even if Hua Sheng was reborn, he could only restrain himself.

Hua Sheng stared and gritted his teeth and said: "If this is the case, what are you waiting for? Let's send someone to the Five Kingdoms and find out that Qin Chen for me, and that Qin Chen should be from the Great Qi Kingdom in the five countries. , This son dared to kill my disciple of the immortal sect. If my immortal sect had not washed the blood of these five nations, how would others look at us?"

Di Xuan's expression changed, and he said: "Hua Sheng, don't be impulsive. This time, the people from the Dange of the Dawei Dynasty and the Holy Land of Blood have also gone to the Five Kingdoms. It is strictly forbidden for any force in Xuanzhou to attack the Five Kingdoms. Pill Pavilion and Bloodline Sage angered down from the earthquake..."

"Is that forgotten? Then Qin Chen killed me and left so many people in Xianzong, what qualifications do Pill Pavilion and Bloodline Holy Land have to control us?" Hua Sheng said angrily.

Di Xuan smiled bitterly: "There is another piece of information that you don't know. Before Qin Chen did it, Ge Xuan and the others had stated that this matter was a personal grievance between Liuxianzong and Qin Chen. The same applies to the extinct Tianying Valley and Shanhe Gate. In other words, we don't have any qualifications at all to attack those five nations. At that time, people from the Pill Pavilion and the Holy Land of Blood were also present. If we stay in Xianzong, we really have to do it. Pill Pavilion and Bloodline Holy Land will find an excuse, that's fine, as long as Pill Pavilion and Bloodline Holy Land come forward, those forces in Xuanzhou will not seize the opportunity to target us desperately?"

"Sect Master, should we just forget it?"

"Naturally not." Di Xuan's expression sank, and said, "The most important thing is that Qin Chen has an extremely talented person, even above Tiandu, let him grow up. It will definitely pose a threat to me leaving Xianzong. Moreover, it is said that the ancient Nandu ruins are very terrifying. The disciples who can enter the inheritance can at least obtain the middle-level exercises. Originally, with the strength of Tiandu, they may even get the ground level. The superior technique was eventually killed by Qin Chen."

"What do you mean by that Sect Master?" Hua Sheng looked over attentively.

Di Xuan smiled coldly and said: "Then Qin Chen asked Ge Xuan to admit that the conflict between us was a personal grievance with him, then we have the qualifications to act directly on Qin Chen. You will bring a group immediately. People, go to intercept the people in the Pill Pavilion and the Holy Land of Blood. According to my estimation, if Qin Chen wants to survive, he will definitely be with them. When the time comes, you will directly bring that Qin Chen back from the opponent."

"What if they stop it?"

"That would be better." Di Xuan sneered: "This time the Dan Pavilion and the Bloodline Holy Land are only two deacons, and they are also the cultivation base of the fifth-order Wuzong. With your strength, if the other party does it, we are completely Reasons to take action, after all, that Qin Chen has already been in front of everyone, saying that it was a personal grievance between the immortal sect with me. Even Pill Pavilion and Bloodline Holy Land, there is no reason to stop it. Once stopped, we can even take action against the Five Kingdoms. After all, this is Dan Pavilion and Bloodline Holy Land breaking the rules first."

A cold light shot from Hua Sheng's eyes: "I understand."

Di Xuan nodded: "You set off right away. There are only a few routes for the Five Kingdoms to come to my Dawei Dynasty. I will send people to look for news about this group of people. Once I find out whereabouts, I will send it to you as soon as possible. But you have to remember , Qin Chen inherited the first strength of the ancient southern capital, and the secret book he obtained must be above Tiandu. Now the entire Xuanzhou, and even the major forces of the Dawei Dynasty, will look for this group of people. When you see the other party, after you capture Qin Chen, you will directly bring it back to the sect. As long as you get the secret book on this person, you will be at your disposal for whatever torture you want."

"Sect Master, don't worry, I know what to do."

Hua Sheng's eyes were cold.

After a while, a team of strong immortals left by Hua Sheng quickly left the mountain gate and headed to the border of the Five Kingdoms and Xuanzhou.

When the Liuxianzong was shaking, news that the people of the Five Kingdoms killed Huatiandu, Tianying Valley, and Shanhemmen powerhouses also spread to other forces in Xuanzhou at the same time, which immediately caused a sensation throughout Xuanzhou, and even this news. , At an alarming speed, spread to the entire Dawei Dynasty, causing an astonishing wave.

Chapter 535

Shanhe Gate.

"Then Qin Chen is so courageous to kill the elders and disciples of my mountain and river gate. It is absolutely lawless. Does he really think that with the protection of people from the Pill Pavilion and the Holy Land of Blood, it can be against the sky?"

The master of Shanhe Gate was furious, and the sound shook the hall.

"Sect Master, what shall we do now?"

"According to my order, all Shanhemmen disciples, immediately set off and go to Xuanzhou and the border of the five countries to find Qin Chen. Once there is news, immediately take action. We must find Qin Chen before staying in Xianzong, otherwise we Shanhemmen want revenge. , I am afraid there is no chance at all."

"Yes."

Many elders of Shanhemmen have cold eyes.

"Remember, after seeing that Qin Chen, don't kill him. You must bring it back alive. Even if you can't bring it back, you must bring back the secret book he got from the ancient southern capital. This person killed me Shanhemmen elder, we How could he die so easily, and he must recover some interest from him." The sect master of Shanhe Gate said with cold eyes.

"Yes!"

At the moment, the master of the Shanhe Gate left Shanmen with many disciples and elders and quickly went to the border of the five countries.

Not only the mountains and rivers, the Valley Master of Tianying Valley was dispatched as soon as he got the news, and the entire Tianying Valley's disciples almost came out.

Their purpose is very simple, in addition to dealing with Qin Chen, they also want to obtain from Qin Chen the secret book he obtained in the ancient southern capital ruins.

In fact, they were even fortunate that their three major forces had the qualifications to deal with Qin Chen.

This is the No. 1 genius in the ancient south. According to the news, the worst of the twelve people who accepted the inheritance has also obtained a middle-level technique. According to Qin Chen's situation, this son is very likely to get It is a method of superior, even surpassing.

Just thinking about it makes them extremely excited.

However, the people at Tianying Valley and Shanhemmen also knew very well that if you want to get the secret book, you must catch Qin Chen before Liuxianzong, otherwise, once Qin Chen falls into Liuxianzong's hands, it has nothing to do with them. , With their strength, they couldn't fight against Liuxianzong at all.

Although apart from Tianying Valley, other Dawei dynasties had no reason to deal with Qin Chen and the others, when the news spread to Dawei dynasty, all the major forces followed.

This is an exercise method above the middle level. As long as one copy is won, it is enough to make these forces enter the ranks of the top forces in each state. How can they not be tempted?

In particular, these cheats have fallen on some young people who are only Xuan-level martial artists, and they are like children crossing the street holding gold bricks, making people jealous.

Pill Pavilion and Bloodline Holy Land are strong, but they don't believe that the people of Pill Pavilion and Bloodline Holy Land will always guard this group of young people. Once they seize the opportunity and take one away, there will be no limit in the future.

When the Dawei Dynasty people were tracking Qin Chen and the others.

After leaving the ancient wind city, Qin Chen quickly came to the mountains outside the ancient wind city and called back the iron feather eagle.

The Five Kingdoms are located in a remote place in the northwest, separated from the Dawei Dynasty Xuanzhou, separated by a stretch of mountains, which is called the Heiling Mountains.

Among them, blood beasts are rampant, very evil, and the environment is very harsh.

Even if the five countries used a large price to open up a walkable road, they would often encounter danger and attack by blood beasts.

Therefore, even a fourth-order Xuan-level martial artist is likely to fall on the road crossing the Black Ridge Mountains.

This has also led to the fact that the five countries have very little contact with the outside world, which is one reason why the five countries do not have strong players.

Here, information is blocked and resources are extremely scarce, so there has never been a fifth-order Wuzong strong born.

This also makes it extremely difficult for people from the Five Nations to leave the Five Nations and enter a higher world. Because only Wuzong of Tier 5 can guarantee absolute safety when crossing the Heiling Mountains. Or, like Master Yuanfeng of the Great Qi State, if you conquer a Tier 3 Heavenly Bloodclaw Blue Eagle, you have a certain chance. Cross the Black Ridge Mountains and leave the land of the Five Kingdoms.

It's just that how many animal trainers are there in this world, and even if there is a Tier 3 animal trainer, how many people can hunt the flying blood beasts that travel long distances?

In fact, almost all Xuanzhou forces, including Dan Pavilion and Xiang Wentian and Mu Lengfeng in the Holy Land of Blood, came to the Five Kingdoms through the excavated road.

And Qin Chen knew very well that Xuanzhou wanted to kill him. I don't know how many people. If he walked along the mountain roads from the Five Kingdoms to and from Xuanzhou normally like Xiang Wentian, he would definitely be ambushed by others. Feather Eagle passed directly over the Heiling Mountain Range, and there would not be much trouble.

"Wow!"

Along the sides of the excavated road, Qin Chen rode on Tie Yuying, soaring above the sky, flying towards Xuanzhou.

At this time, on the mountain road leading from the Five Kingdoms to Xuanzhou.

A man in black wearing a black cloak stood on a mountain top in the distance, staring coldly at Xiang Wentian and others who had just galloped past the mountain road, with a clear expression in his eyes.

"I guessed right, that kid is extremely cunning, he would never follow the people from the Pill Pavilion and the Holy Land of Blood. This person has a Tier 3 iron feather eagle. He must be riding the iron feather eagle across the Black Ridge Mountains. ."

The man in black had a gloomy face and a sneer at the corner of his mouth. It was the mysterious man in the cloak who was snatched from Qinglian Demon Fire by Qin Chen.

"The kid would be a little difficult if I want to follow the people of Pill Pavilion and Bloodline Holy Land, but now that he is walking alone, hehe, he is going to die and give the old man a chance."

The cloak man laughed coldly, his eyes flashed, and a small black bug flew out quickly from his body. This bug was similar to the gas-eater ant that was conquered by Qin Chen, but it was not the same kind of bug. With a few tentacles, after sniffing twice in the air, it turned into a black line and flew quickly towards the Black Ridge Mountains.

"Hehehe, I'm afraid this kid didn't know that there are other worms like spirit-seeking bugs on my body? Humph, although my spirit-seeking bugs haven't caught the breath of that kid, they smelled it in the Xuanzhong Mountains. The breath of the iron feathered eagle that the kid tamed, as long as you find the iron feathered eagle, you will definitely be able to find this kid."

The man in the cloak gave a cold smile and shook his figure. He quickly followed the black line and disappeared into the boundless mountains.

And not long after the cloaked man disappeared, hundreds of miles away, on a hillside beside the Heiling Mountain Road, several people in black were staring coldly at Xiang Wentian and others on the mountain road, their faces gloomy. Endless.

Beside these men in black, there is also a young man with extraordinary momentum, who has obtained the second magical power in the inheritance of the ancient southern capital.

"Several elders, it seems that Qin Chen didn't go with the people in the Pill Pavilion and the Holy Land of Blood." Mo Li stared at the many figures below, squinting his eyes and said.

One of the men in black had an ugly face and said, "What a shrewd boy, did he guess that we would ambush him here?"

Chapter 536

"It's very likely." A man in black nodded, "From the perspective of the kid who made the promises of the big sects of Xuanzhou and him a personal grudge, that kid is very cunning, knowing that many people are staring at him, so he deliberately Did not go with the people from Dan Pavilion and the Holy Land of Blood."

Ghost Ying said in doubt: "But the elder, it is definitely impossible for Qin Chen to stay in the Five Kingdoms. With his current cultivation base, staying in the Five Kingdoms is simply a waste of talent and life, but if he does not follow the Dan Pavilion and still have blood. How can the people of the Holy Land follow this official path and use his profound cultivation base to enter the Dawei Dynasty from the Five Kingdoms? Isn't it looking for death to cross the Black Ridge Mountains alone?"

"It's not necessarily." The black-clothed man in the lead sneered: "That Qin Chen can defeat Mo Li, and Li Shenfeng who stayed in Xianzong, it can be seen that his strength has long surpassed the ordinary Wuzong in the early stage of Tier 5, although his cultivation is only At the peak of the late stage Xuan-level, but I'm afraid that only Wu Zong in the mid-level 5th stage can confront him. If you want to kill him, it is only possible for the late-level Wu Zong to have this kind of cultivation. It's not like crossing the Black Ridge Mountains. It's not going to be successful, it's just that you can only follow this mountain path and not go too far into the Black Ridge Mountains."

"Then what do you mean, this Qin Chen is actually in the forest near this mountain road?" Ghost Ying's eyes lit up.

"It's very possible." The leader in black nodded.

Mo Li's eyes also shot cold light, and said: "Then what shall we do now?"

"Naturally, you can't let this kid leave safely. Judging from the secret skills you got from Moli, the inheritance that Qin Chen finally got even surpassed the ordinary ground-level techniques. The most important thing is that this person is likely to get something other than its ordinary exercises and martial skills, but an extremely powerful secret technique. This kind of thing, even for our blood demon sect, is extremely rare and must not be missed."

"Then what are you waiting for?" Mo Li became excited, exuding a cold murderous intent.

He has always been worried about the final defeat to Qin Chen in the arena, and Qin Chen has long been very upset in his heart because he refused the invitation of their blood demon cult.

Seeing Moli's excitement, the leader in black immediately poured cold water on him: "Moli, you can't go, I will take you and Ghost and them back to the sub-rudder as soon as possible. Don't worry about Qin Chen's affairs."

"Why?" Mo Li looked at the leader in black unwillingly, why not let him participate here?

The leader in black said solemnly: "Mo Li, you have to be clear, you have also benefited a lot from Ancient Nandu. It can be said that you are now the best godson of our sub-rudder, compared to chasing and killing Qin Chen. In terms of you, you are the most important thing, so your safety must be the first priority. You should be very clear about our current position in the church. Now the Sacred Religion has just recovered, it is the time to recharge. You finally let us see hope. I don't want you to have any accidents because you chased and killed Qin Chen."

"But the elder."

"It's nothing." Seeing what Mo Li wanted to say, the man in black immediately interrupted him, "I must bring you back to the sub-rudder safely, otherwise the rudder master will blame it and I can't afford it."

"OK then!"

Mo Li sighed unwillingly. He also knew that once the elders decided something, he couldn't change it.

"Then what about the two deacons in Pill Pavilion and Bloodline Holy Land? Previously in Gunan Capital, they were so arrogant, why..." Looking at Xiang Wentian, Mu Lengfeng and others on the mountain road below, Mo Li immediately wiped his neck. His movements made his body cold.

The leader in black shook his head: "Don't be reckless, my sacred church has just recovered, the rudder masters are basically still asleep, and their strength is far less than before. Now Dan Pavilion and Bloodline Holy Land already know our existence, but there has been no right. We do it. If we kill their people, once they are found out, it will definitely affect the plans of the rudder masters. At that time, we will be sinners of the Holy Church."

"Then let them have a way out first." Mo Li snorted coldly.

The leader in black turned and said to the rest of the people in black: "I will take the magic power and they will divide the rudder first. You guys, search for Qin Chen near this mountain road. Remember, once you see the other party, you will catch it if you can catch it. If you live, you can't catch alive, you should kill it, but you must get this person from the secret book passed down from Ancient Southern Capital. Remember?"

"Yes."

The remaining black-clothed men gave a low voice, sneered at the corners of their mouths, and instantly swept into the forest in front of them, disappearing, each of them looked like ghosts.

Above the sky of the Heiling Mountain Range, the Iron Feather Eagle took Qin Chen and flew quickly.

At this time, Iron Feather Eagle was quite embarrassed, with a lot of feathers missing, and even some wounds, and his mental state was not very good.

Qin Chen did not expect that there were so many bird-like blood beasts above the Heiling Mountain Range. Along the way, he encountered at least several attacks, many of which were Tier 4 blood beasts, and Qin Chen even watched it once. Arriving at a Tier 5 bird and blood beast, if it were not for his sharp soul power, he would have avoided it early, and once he was stared at by the opponent, it would be more fortunate.

Even so, after a battle, the iron feather eagle that Qin Chen tamed was already scarred and extremely tired.

"No, now the iron feather eagle is in a very poor state. If it continues to fly like this, once it is besieged by a group of Tier 4 bird and blood beasts, or encounters a Tier 5 bird and blood beast, then it will be completely impossible to escape."

Although Qin Chen has strong attainments in taming beasts, to tame blood beasts, the blood beasts must be trapped first, and then the bans must be set. The whole process is very cumbersome and not simple. During the battle, it is impossible.

Once Tie Yuying couldn't hold on and fell from such a high place, Qin Chen wouldn't dare to take risks even if he had swordsmanship.

call!

Qin Chen immediately controlled the Iron Feather Eagle to fall into the Heiling Mountain Range, and a moist breath instantly poured into Qin Chen's nose.

Because it is inaccessible, the whole mountain forest is very old and feels quite dark.

When Qin Chen landed, he suddenly felt a very uncomfortable feeling, as if he was being stared at by something.

I suddenly mentioned, what's going on? How can I feel this way?

Practicing the Nine Star God Emperor Jue coupled with the soul power to the point of gathering the soul, Qin Chen trusts his perception very much. This kind of feeling in the dark is definitely not groundless, but definitely something is wrong.

"Did someone put a prohibition or tracking mark on themselves?"

Qin Chen moved his brows and immediately urged his mental power to search his body.

Chapter 537

Qin Chen searched his body for a long time, but he didn't find any marks.

"It seems that there is no tracking mark on my body, but what's the matter with this feeling?"

As Qin Chen searched, the uncomfortable feeling did not disappear, but it became deeper and deeper.

Qin Chen knew what went wrong, but he didn't find it.

"Heal the Iron Feather Eagle first!"

Qin Chen took out some pills from his body and fed them to Tie Yuying. Tie Yuying pressed his head against Qin Chen's body, and then obediently ran to the side to heal his injuries.

Qin Chen took out some materials from his body and quickly portrayed the formation and formation flags. His technique was rapid, and Tier 5 mental power was integrated into it, and formation flags were quickly formed.

If an array master sees Qin Chen's movements at this moment, he will definitely be shocked, because Qin Chen portrays the array plate very fast. Although it is only a fifth-order array flag, it is far away in terms of speed and quality. Super ordinary level 5 array mages.

Every time he finished refining a formation flag, Qin Chen threw it into the mountains and forests in front of him. The magical thing was that as his array flags were thrown out, the originally clearly visible formation flag disappeared instantly. In the mountains and forests, let alone invisible to the naked eye, even the level 5 mental power is difficult to detect.

That's right. Qin Chen is now arranging a Tier 5 sleepy formation. He felt uncomfortable and guessed that there must be something wrong, but he could not find the source of the discomfort. If this matter is not resolved, then Coming down will definitely affect his actions, so Qin Chen didn't say anything, and immediately prepared to set a trap here.

Because he knows very well that with his current strength, the ordinary Wuzong in the early stage of the fifth stage dare not follow him at all, and the ones who dare to attack him are at least the Wuzong in the middle of the fifth stage, and even, it may be the late stage of the fifth stage. Wu Zong.

However, the highest is Wu Zong in the late stage of the fifth stage, because now it is only two or three days from the ancient southern capital. Even if the news is sent back to the Dawei Dynasty through some channels, the Wuzun powerhouse of the Dawei Dynasty will not have time in such a short time. Come here.

In other words, the person who followed him was at most Wu Zong of the fifth stage late stage.

Although he is not yet an opponent of Wuzong in the late stage of the fifth stage, if the formation and other means are added, it may not be able to teach the opponent a severe lesson, but if the problem is not solved now, once the Dawei Dynasty is attracted, For the sixth-order martial master, Qin Chen is

sure that even if he uses all his means, he cannot be the sixth-order martial master's opponent. At that time, he will have no chance to escape.

Thinking of this, Qin Chen accelerated the speed of refining the formation flags. Under his refining, the formation flags were thrown into the original formation. In a short time, a Tier 5 trapped formation was formed. Up.

But Qin Chen didn't stop. After setting up the trapped formation, he began to arrange a second killing formation based on the trapped formation.

The trapped formation only has the ability to trap the opponent, but the killing formation can attack the opponent and cause damage to the opponent.

When Qin Chen arranged his formation, the cloaked man was flying quickly in a forest hundreds of miles away.

"This kid can really run, it's exhausting me."

The man in the cloak was gloomy and panting. How fast Qin Chen rode the Iron Feather Eagle, one day was at least equivalent to a Wu Zong running full day.

The key is that the opponent has been flying in the sky, even if the cloak man traces Qin Chen, he can't cause Qin Chen any harm.

However, the man in the cloak who traversed the Heiling Mountains knew very well that Qin Chen's Iron Feather Eagle couldn't have been soaring in the sky. Let's not talk about whether the Iron Feather Eagle had this physical strength, just the flying blood beast above the Heiling Mountains. Enough for the other party to eat a piece of pie.

Once the iron feather eagle is injured or encounters danger, it will definitely land and enter the forest.

The man in the cloak who understands this has been following Qin Chen for the past two days. Fortunately, he entered the Hengling Mountains earlier than Qin Chen, and with the spirit-seeking bugs, he would not lose Qin Chen's position, otherwise he would stay for two consecutive days. Tracking, he gave up long ago.

But even so, the cloaked man was exhausted from the two days of tracking. In order not to chase Qin Chen, he didn't think about how to go easily. He rushed all the way and encountered a lot of obstacles from blood beasts. If not for his strong strength I'm afraid I can't hold on anymore, but despite this, I'm still tired. Tracking for two consecutive days is a huge test for my body.

Originally, the cloak man would take a break every two hours he tracked. Just before it was time to rest, the spirit seeker suddenly became excited, and the cloak man immediately understood that the spirit seeker should have sensed the iron feather eagle, and it should be there. Not far ahead, and it is very likely that this iron feather eagle has already landed in the Hengling Mountains.

It's hard to see how the cloaked man was willing to give up with such an opportunity, and he naturally urged his true power with all his strength and followed him like crazy.

He knew very well that if this opportunity was lost, next time he wanted to wait for the iron feather eagle to land, he probably didn't know when he would wait.

"Hmph, that kid really made me run. When the old man catches it, he will not only take back the Qinglian Demon Fire from him, and interrogate the treasures inherited by the ancient Nandu, but also torture him well to relieve my hatred. ."

The cloak man's eyes were cold, and the murderous aura in his whole body was chilling.

What the cloak man didn't know was that when he was tracking Qin Chen, at this moment, in a mountain forest thousands of miles away from him, several men in black also followed.

It is a group of blood demon cult.

"The traces here continue to go forward. This person should have only passed an hour or two, and we will continue to follow." The leading black-clothed man gave a low cry, glanced at the traces in the forest, and quickly followed.

Another black-clothed man said depressed: "Big brother, how can this guy run like this? Isn't he just a martial artist of the profound level? Even if the strength is comparable to that of the Wuzong in the early stage of the fifth stage, the speed can't be so fast? Are we? Wrong tracking?"

The men in black were so tired that they were going crazy.

In fact, they didn't know Qin Chen's traces at all.

Although the Blood Demon Cult had its own set of tracking methods, Qin Chen was riding a flying blood beast, and even if the Blood Demon Cult had a way, it was impossible to stare at the target in the air.

But fortunately, in order to track Qin Chen, the cloak man had no time to hide his deeds. Sometimes, to prevent losing the target, he rushed madly, naturally leaving a lot of clear marks.

These marks were discovered by their group of blood demon cultists who were also searching nearby. Although several people didn't know if this was a trace of Qin Chen's passing by, but at this time, they could only act as a dead horse doctor and immediately follow Up here.

Who knew that this chase was two days, and both tired legs were shaking.

"Whether it is that kid or not, we have to keep up. It's hard to get such a clue. We must not stop here."

The leading man in black gritted his teeth and vomited blood in a depressed heart.

Chapter 538

In fact, the initial thought of the people of the Blood Demon Cult was to find the person who left the trace as soon as possible to see if it was Qin Chen's.

But after tracking for a long time, they found out that the speed of the other party was too fast. They worked so hard and could only barely keep up with the other party, and they could only follow the other side depressed.

After two days, all of them were so tired that they didn't even see the other side.

But they can't give up, they can only follow closely and come all the way.

At this time, Qin Chen was still laying down array flags in the mountains and forests. So far, he didn't know how many array flags had been laid down. It is estimated that at least hundreds of array flags were hidden in the entire mountain forest.

Qin Chen stopped until almost all the materials used in the storage ring to refine the formation flag were used up.

But he still didn't dare to be careless, because he knew very well that since the other party dared to catch up, he must be sure to deal with him. Qin Chen didn't believe that those forces that only had Wuzong at the beginning of Tier 5 would look at him. They don't have this ability. The strength he showed in Gunan before, the other party should know that even if Wu Zong at the beginning of Tier 5 catches up, he can only find death.

But the other party is still looking at him, so he must have full confidence.

In the face of life and death crisis, Qin Chen did not dare to be careless.

Just when he just stopped refining the formation flag, a slight fluctuation suddenly came from a distance.

It really came.

Qin Chen immediately understood that it should be the monitoring array flag he set up around him, and someone passed by the array flag he set.

Before Qin Chen could react, he saw a black figure rushing towards here like lightning.

When Qin Chen saw the other party, the man in the cloak also saw Qin Chen instantly, and immediately laughed excitedly: "Hahaha, as expected, I was really caught up by me. It seems that God treated me well. Hahaha."

After seeing Qin Chen, the man in the cloak who had been tired for two days completely let go of his heart. Standing more than ten meters away from Qin Chen, he sneered at Qin Chen with a cat and mouse expression.

Since meeting Qin Chen in Wucheng, he has been played by Qin Chen too many times. When he was in the ancient southern capital, he was forced to be Qin Chen's slave for a while and dealt with Xuanzhou for him. The strong man now surrounds Qin Chen again, not to mention how cheerful he is.

"It's you... how did you find me?"

Seeing that the man in the cloak had been following him, Qin Chen couldn't help but blurt out.

It was not that he had never thought that it was the man in the cloak who followed him, but he could not understand how the other party stared at him, but as soon as the voice fell, Qin Chen saw that the cloak was lifted by his hands, and an extremely fine black thread quickly entered the opponent. In the sleeve.

Although the speed of the black silk thread was so fast that the naked eyes could not catch it, Qin Chen's mental power had already seen the black silk thread, which was a very strange insect.

It turned out to be a spirit seeker?

Qin Chen was shocked at once. The Spirit Seeker is also a kind of insect blood beast, and it ranks very high on the strange spirit insect list. In terms of strength, it cannot be compared with the Qi Devouring Ant that can devour the true energy, but the Spirit Seeker The most powerful thing about insects is that they are particularly sensitive to various breaths, and they can even easily find many treasures.

As soon as he saw this spirit-seeking worm Qin Chen, he understood why the other party could find him, he must have remembered a certain aura of himself or something, but he was very careful, even when he was on the way With all the restrictions, there will be no aura leaking at all. Even if it is a spirit seeker, it is impossible to feel any aura. How did the other party find himself?

Suddenly, Qin Chen saw the iron feather eagle not far away, and immediately woke up. What the spirit seeker should remember was not his own breath, but the iron feather eagle's breath.

Qin Chen smiled bitterly in his heart. He thought that relying on Iron Feather Eagle, he would be able to quickly pass through the Black Ridge Mountains and escape other people's tracking. He didn't expect that it was this spirit-seeking bug that led others to find him in the end.

The only thing that shocked Qin Chen was that there were too many treasures on this cloaked man. Not only was there a green lotus demon fire, but there were also gas-eater ants and spirit-seeking worms. Even if they were in the Martial Domain, these things were not casual. You can see it.

"Hahaha, how did you find you?" The man in the cloak sneered coldly. "It's not easy for this seat to find you? Do you think you can get out of the palm of this seat with the iron feather eagle? So naive, kid You robbed me of my blood, spirit and fire before, ruined my gas-eater ants, and humiliated this seat. How can you escape now?"

When the words fell, the figure in the cloak suddenly jumped, and a series of black tentacles instantly diffused out of him, heading towards Qin Chen madly.

He knew that Qin Chen had an iron-feathered eagle blood beast. For fear that Qin Chen would escape again, he didn't give Qin Chen any chance at all, so he made up his mind to catch the opponent first.

Boom!

I saw countless black tentacles dancing frantically between the sky and the earth, turning into a black cloud, crushing strongly towards Qin Chen.

Qin Chen sneered. He only wanted to know how the other party found him. Now that he knew the reason, he naturally didn't take it to heart. If this cloaked man appeared suddenly, Qin Chen might still be worried. But he has already laid a net here, and the other party dared to rush forward, really looking for death.

Thinking of this, Qin Chen didn't bother to talk nonsense with the cloak man, although the cloak man's cultivation was at least the Wu Zong in the late stage of the fifth stage, but at this time he was not afraid, and when he raised his hand, the mysterious rust sword had appeared in his hand.

"Good boy, I still want to do something with this seat, thinking that I am invincible after winning the first place in the ancient southern capital? Humph, this is not a relic of ancient southern capital. I want to see what you have. Dare to do something with this seat, knowing whether you live or die."

Seeing Qin Chen facing him, instead of begging for mercy and fleeing, instead he took out his weapon, the man in the cloak suddenly sneered.

"Don't worry, I won't kill you right away. I will torture you slowly and let you know what pain is."

The man in the cloak laughed gloomily, and the black tentacles turned into a net of heaven and earth, suddenly wrapping up towards Qin Chen.

"Really? Then I want to see, how do you let me know what pain is." Qin Chen also sneered.

Seeing the sneer drawn from the corner of Qin Chen's mouth, the cloak man felt a little uneasy in his heart, and immediately felt that there seemed to be something wrong with him.

He knew Qin Chen too well. When he was in Wucheng, he pitted several big families in Wucheng, even trapped himself in the formation, and even killed his own gas-eater ants. Run away under his nose.

When he was in the ancient southern capital, many forces in Xuanzhou were also severely injured by his pit, and even the top forces like Liuxianzong were completely destroyed.

Now facing him, there was no panic on his face, and immediately made him feel that something was wrong, as if he had fallen into a trap.

With a jump in his heart, the man in the cloak immediately perceives and scans the surroundings, trying to find out where the tricks are, but his perception has just been released...

boom!

In the entire mountain forest, an astonishing roar immediately sounded, and at the same time countless streams of light burst into the sky, turning into a mighty torrent, covering everything.

Chapter 539

Countless streams of light rose into the sky, covering a radius of several tens of meters. The man in the cloak immediately saw a hazy surrounding, and the bright streamers quickly surrounded him, and a lot of faint mist rose around him.

What the **** is this?

The man in the cloak was startled. This kid had already set ambush a trap nearby. Could it be that the other party knew that he was tracking him? How could this be possible?

However, the cloak man also knew that it was not a time of shock at all. The countless streamers, exuding a majestic aura, looked like an extremely powerful formation.

When he was in Wucheng, he had seen the power of Qin Chen's formation, and he immediately completed the fourth-order peak formation of Wucheng Zhu's family to the fifth-order. At this time, he naturally did not dare to be careless, and his black tentacles danced wildly. Bang-bang-bang, the entire large array that was drawn violently shook, trying to break it open before it formed.

But how could Qin Chen give him this opportunity? Swish, a ray of sword light slashed directly into the air while the mysterious rust sword waved.

puff!

The sword light fell on a black tentacle, and the black tentacle shook suddenly, and the black light on it even collapsed, making the cloak man surprised.

When Qin Chen was in Wucheng before, although Qin Chen was strong, his attacks could not threaten him at all, but now, how long has passed since this kid's attacks could actually hurt him? The horror in the cloak man's heart suddenly increased.

He deeply understood that if he didn't kill Qin Chen this time, he might not have a chance to kill Qin Chen next time.

Thinking of this, he no longer dared to hide the least bit of clumsiness, and saw that the black tentacles all over the sky became even more crazier, like a demon with teeth and claws.

Whoops whoops!

Qin Chen didn't care what the other party was thinking, as soon as he raised his hand, countless sword lights fell like raindrops.

Puff puff!

Countless sword lights fell on the cloaked man, and the black light bursting into the cloaked man's body immediately burst into light, overflowing with light.

"What kind of technique does this guy cultivate? The black tentacles are too weird, and the defense is so terrible?"

Qin Chen was secretly stunned. He knew the power of his sword light. Not to mention that he could sweep everything. At least he could severely injure a Wuzong in the early stage of Tier 5 with a single sword, but now he hit the opponent with dozens or hundreds of swords. This cloak man turned out to be just a little sluggish in his breath, this kind of defensive power, I am afraid that it has reached the peak of the fifth stage late stage.

Qin Chen had to be grateful that he had a hunch, and arranged the formation in advance, otherwise, once the opponent arrives, he rushes to shoot, I am afraid it will be dangerous.

Qin Chen was surprised, but the cloak man was frightened.

He originally carried Qin Chen dozens of swords, just want to rush out of the formation for the first time, but what he didn't expect was that this formation was formed too fast, but the first white light rose. At that time, he had already stepped into the range of the formation, as countless white lights flowed together, an astonishing force of restraint pressed against him.

At first, he wanted to use his cultivation to break through the restraints of this formation, but later he discovered that the speed of the restraint of this formation was so fast that he had no time to react.

boom!

But when the last white light came up, the entire mountain forest was misty. The man in the cloak immediately felt that all parts of his body were murderous and vague, and his body seemed to be trapped in a mud, and he moved continuously. It becomes difficult.

"It's a terrifying formation. This is at least a fifth-order formation. How can this kid improve his cultivation so quickly?"

The man in the cloak was so depressed that he almost vomited blood. He guessed at first that Qin Chen's arrangement should only be a Tier 4 peak formation. After all, he was outside Wucheng before, and Qin Chen only repaired the formation of others before deducing that formation. For the fifth-order, a new fifth-order formation is really arranged from the beginning, and the difficulty is at least ten times higher than repairing.

Following all the way by myself, the other party didn't have any powerful formations at that time.

But what he didn't expect was that what was trapping him now was the fourth-order formation, clearly a fifth-order formation, or even the extremely terrifying formation in the fifth-order.

"Boy, do you think a Tier 5 formation can trap me? How can there be such a simple thing."

The man in the cloak roared and attacked frantically in the large formation. In his opinion, even the formation of Tier 5 with his cultivation base, under his continuous attacks, will gradually break apart, just like the original battle. It's the same in the city.

What he didn't expect was that, no matter how he attacked, the big formation didn't mean to be broken at all, it actually became even more terrifying. Outside the big formation, layers of halo gradually lit up, and with the excitement of the big formation, even more sluggish murderous intent permeated and locked him.

The cloak man was completely stunned. It turned out that he entered not one formation, but several formations, and these formations were superimposed before, and he didn't realize it at all.

At this time, his heart sank completely, knowing that he was too careless, and even entered the other's ambush, if he was careful, how could such a thing happen.

He knew very well that it was too late to regret at this time, and the most urgent task was to find a way to get out.

Hum!

Thinking of this, the man in the cloak lifted his hand directly, and a black thread came out of his hand. It was the spirit seeker. As soon as the spirit seeker appeared in the formation, he shook his head and shook his head, seeming to be looking for something. thing.

Seeing this spirit seeker, Qin Chen's heart sank suddenly, and suddenly felt a bit of a nuisance. The spirit seeker's perception is very keen and can sense what it can remember, but at the same time, the spirit seeker can also search for aura. And the source of innocence.

The formation of a formation must have a source of stimulating the formation. The vast majority of formations in this world either use real stones to activate, or absorb the true energy between the heavens and the earth. The energy source of the formation is often one The key to the operation of the

formation, once the cloaked man finds the key point of the formation, he may be able to destroy the formation in front of him. Once the formation is broken, he will definitely be in danger.

Thinking of this, Qin Chen couldn't care too much anymore. He even squeezed the formation to urge the temporary kill formation in the entire big formation. At the same time, he lifted his hand, 咻咻咻, three black streams of light instantly turned into black shadows towards it. The spirit-seeker in front of the cloak man was cut off.

At the moment Qin Chen shot his hand, the man in the cloak understood his thoughts. He smiled and raised his hand. A weird black cover wrapped the spirit-seeking worm in it. At the same time, the black tentacles on his body danced wildly and turned into A net of heaven and earth protects the spirit-seeking worm in it.

Puff puff!

Countless murderous auras and three throwing knives stood on top of the black tentacles in the big formation, and only a dull sound rang out. The black tentacles were only split by a slight gap, but they were quickly moved by the cloak man. , And completely healed, it was impossible to bring any harm to the spirit seeker who was protected in the middle.

Chapter 540 Bloodworm Demon

"Hey, kid, you want to hurt the old man because of your cultivation base, stop dreaming?" The man in the cloak laughed grimly.

He looked triumphant, but didn't dare to relax at all in his heart, as the black tentacles danced, blocking all murderous and flying knife attacks outside, and he carefully protected the spirit seeker in front of him.

Now the Spirit Seeker is the only key to let him break through this formation, how can he put the Spirit Seeker in danger.

Qin Chen's heart sank. Because of time and materials, the killing array he set up was just an ordinary fifth-order killing array. It might not be a problem to deal with the general fifth-order Wuzong, but against the cloak man, the late Wuzong of the fifth-order, It's much worse.

And his throwing knife attack is also released according to his fifth-order mental power, and in terms of power, it can't hurt the opponent.

If this continues, once the spirit seeker finds the key to the formation and is broken by the opponent, it will be troublesome.

If it was before the test of the ancient southern capital, Qin Chen might have no other way but to flee here again with the iron feather eagle, but after passing the ancient southern capital inheritance, Qin Chen sneered at this moment.

"Do you think you are safe from hiding in the turtle shell?"

Qin Chen sneered, and raised his hand, a powerful soul power immediately merged into the mysterious Rust Sword.

In the big formation, the man in the cloak was actually most worried about whether Qin Chen would escape in the iron feather eagle. In this way, he would chase the opponent next time. He didn't know when he would wait, but he didn't expect it, Qin Chen. Instead of running away, he raised the rust sword in his hand.

"This kid, doesn't he want to enter the big formation to fight himself?"

The cloak man suddenly felt happy. If so, that would be great. As long as Qin Chen also enters the big formation, he is fully capable of capturing Qin Chen directly. When that happens, he doesn't even need to break the big formation.

It's just that the surprise in his heart hasn't fallen yet, and he is stunned.

After Qin Chen lifted the mysterious rust sword, he didn't enter the big formation, but directly stabled and threw the rust sword into the formation.

Isn't this kid stupid? Throw the weapon directly into the big formation, thinking that you can hurt yourself by throwing it like this? The cloak man felt inexplicable, but the next moment, a sense of crisis suddenly rose in his heart.

call out!

The mysterious rust sword entered the big formation, its speed suddenly increased, turned into a pike, and slashed down at him, with a chuckle, a black tentacle on his body was directly cut off by two-thirds, almost Two breaks with one sword.

what happened? Before the cloak man could react to what had happened, the rusty sword flashed with light, and it flew again out of thin air, slashing towards the spirit seeker in his hand.

"Not good!" Although he didn't understand what was going on, the man in the cloak had no time to react. He shielded the spirit-seeking worm in the middle and snorted. This sword, the sword light shining brightly, directly took half of the tentacles of the cloak They were all cut apart and split on the shield outside the spirit seeker, almost splitting the shield in half.

The man in the cloak was taken aback. It was a terrifying attack. At this moment, he had no time to reflect how Qin Chen could control the Rusty Sword in the air to attack. He even had a solemn expression to fight with the Rusty Sword controlled by Qin Chen.

Puff puff puff...

A large amount of sword light was constantly shining, and the cloaked man kept resisting under the dancing of the sword light, shocked in his heart, what kind of swordsmanship was this, and was able to volley the sword to fight him, is there any reason for this special?

What shocked the cloak people even more was that this sword light was extremely powerful. Although it was also a volley, it was simply not the same as the previous flying knives, and the gap was too great.

If the previous throwing knife attack was nothing more than a child's dancing, then this sword attack is more than several times more powerful, and even has an amazing sword intent, permeating from the sword light, and real people There is no difference in battle.

What kind of sword trick is this? Is this rust sword a real treasure? But even the real treasure, this son is so young, how could it have such power? What's more, True Treasure's attack completely relies on True Treasure itself, which is like this, even sword intent appears.

The man in the cloak boasts that he is well-informed, but he has never seen such a weird sword move. What makes him even more depressed is that under such a sword move, even though the opponent is unable to bring him because of his strength it will cause fatal damage, but you don't need to take action personally, just stand outside the formation and control it, and it is basically invincible.

If you continue like this, what else is there to start?

What makes the cloak even more shocking is that although Qin Chen's power to control the Rust Sword is not too strong, it is almost impossible to kill him, but at this moment, he is in the formation, combining the formation and the sword. Attack, he can only passively resist.

Why does this kid have so many hole cards?

Just when the cloak man was shocked, he suddenly felt dizzy in his mind, and a powerful mental force immediately rushed into his mind.

"not good!"

The cloak was shocked and suddenly woke up. In addition to being a master of formation and a master of alchemy, the kid in front of him had terrifying spiritual attainments. He urged his will to wake himself up from the dizziness.

As soon as he returned to his senses, he saw a sword light that had already appeared above the spirit-seeking worm. The man in the cloak could no longer hesitate and took the spirit-seeking worm back, so as to prevent the spirit-seeking worm from being killed by the opponent. However, when Qin Chen was unsuccessful in killing the spirit-seeking worm, he even used his mental power to attack him while launching a swift attack.

In just a moment of effort, the cloaked man's body was colored, and a few blood stains appeared. If he did not react in time and was resisted by treasures, I am afraid that the few swords just now would be enough to kill him.

The man in the cloak was shocked, while Qin Chen's gaze was cold. He frantically mobilized his mental power and true power, and made up his mind to kill the man in the cloak today.

This cloak man is really too strong. Not only is his strength amazing, but he also seems to have a lot of treasures on his body. Qin Chen is sure that even if Ge Xuan who stayed in the Immortal Sect fights this cloak man, he will not be the opponent of this guy. Will be killed by this guy.

Such a master wants to deal with himself, if he does not kill him, he will definitely be a disaster in the future.

"Good boy, you have a kind. I didn't expect you to have so many methods. I underestimated you."

The cloak man looked at Qin Chen's gaze at this time, and there was no more drama, some were just solemn and cold.

"But you want to kill this seat, it's still far away. This seat is known as the bloodworm and the human demon. I have never seen any scenes. If you were killed by a little bit like you here, wouldn't it make people laugh."

The cloak man's voice fell, and a black gourd suddenly appeared in his hand. The black gourd was placed in front of him, immediately exuding a weird breath.

Bloodworm Demon? Qin Chen didn't know the cloak man's nickname until this time, but now he has no time to deal with these things. In the big formation, after the cloak man took out the gourd, he immediately opened the stopper of the gourd mouth. , The deep hole suddenly gave Qin Chen an extremely uncomfortable feeling, and a layer of goose bumps aroused all over his body.
