

## Valkyrie 571

### Chapter 571

Qin Chen sneered. He didn't know what the purpose of this Dove Demon Heart was in inviting him, but no matter what the purpose was, he was really not afraid of the opponent, a fifth-stage late peak Wuzong.

The fifth-stage late Wu Zong killed by him was not one or two.

As long as it wasn't a sixth-order martial master, Qin Chen wouldn't mind it.

And Qin Chen didn't believe that this Dove Demon Heart would really invite him to sit there. From the behavior of Shen Peng, it can be seen that this group of people are simply lawless guys.

As the boss of this group of people, Jiu Moxin would not be ignorant of Shen Peng's behavior, and he acquiesced to this behavior, which is obviously not a good thing.

What's more, this Dove Demon Heart also has the title of Bloodthirsty Demon.

Immediately he arched his hand and said, "Thank you, your Excellency, but Mr. Ben is not interested in where you are going to sit. If there is nothing to do, please, please."

The other party didn't come up to trouble him, and Qin Chen didn't bother to pester him.

It's just that Qin Chen didn't expect that as soon as his words fell, the face of Dove Demon's heart, who was still smiling before, instantly sank, and then an astonishing cold air enveloped the entire square. The rich murderous intent almost made the entire square The square has been swept over again.

"Little brother, what do you mean? I kindly invited you to sit there, but you refused. Is this not giving me face? Huh?"

Dove Moxin snorted coldly, and the murderous intent of his whole body became more intense. His eyes narrowed, and the surge of murderous intent even forced many around him to retreat. The Yin family brothers and sisters even snorted and their faces turned pale.

As soon as Qin Chen heard this, he felt this unbridled murderous aura, and he immediately became angry. This guy's modest attitude is basically just acting, and suddenly said coldly: "Yes, this young man just doesn't give you face. What can you do?"

"Good boy, you are looking for death!"

Hao Moxin originally thought that he was such a threat. No matter how arrogant the other party was, he would have to weigh it. Maybe he said something and agreed to his request, who would have said such a thing.

The anger in my heart burst out immediately, and I couldn't bear it anymore.

In his opinion, he is so good to speak, it is already a face to the other party, and it is because of the other party's young age and good cultivation base, maybe because of the backstage.

Who knows that the other party didn't give face at all, and refused on the spot, and even directly said that he didn't give face to himself. If he didn't do anything, how would he be mixed up in this city in the future, the bloodthirsty demon's nickname, I'm afraid it will become a laughing stock.

"It's you who is looking for death, get out of here!"

Qin Chen was too lazy to talk nonsense with the other party, snorted coldly, and the mysterious Rust Sword slashed past with a black glow.

The sky full of sword aura, turned into a terrifying sword intent, covering the whole body of Dove Demon Heart like a big mountain, sweeping towards Dove Demon Heart with head and face.

"So courageous!"

Hao Mo was so angry that his lungs were about to explode. He thought that no matter how big the backstage was, he would have to obediently and cautiously in front of him, but he didn't expect to say nothing, he would just do it.

This is just the opposite.

Before Qin Chen's sword intent was fully aroused, Dove Moxin instantly sacrificed a machete in his hand. This black machete instantly emerged into countless black lights and shadows, like a sheet of black ink that was so strong that it could not be melted. Qin Chen's sword qi was inside.

According to Dove Moxin's idea, once his sword technique is activated, the sword light can easily wipe out the opponent's sword aura, and while the dense sword aura brings harm to the opponent, it traps the opponent and finally strangles it into fragments.

"Puff puff!"

The sword aura inspired by the black scimitar collided with the sword aura that Qin Chen slashed, and there was a popping sound instantly, like a sharp weapon pierced into the cloth, and it felt like a deep mire.

"boom!"

In the end, the scimitar and the long sword collided, and there was a harsh rubbing sound, causing many warriors present to cover their ears in pain, and the terrifying murderous arousal made everyone back in horror.

Boom!

The place where the sword collided suddenly exploded, and Qin Chen was blown away more than ten meters away under the huge impact. On the other hand, Hao Demon's heart remained motionless, and he didn't even move. .

"This kid is so terrible, he actually blocked the blow of Dove Demon's heart, is it so emboldened?"

Everyone looked at the scene in front of him in amazement. Even though they had a certain understanding of Qin Chen's strength, seeing the scene in front of him still made everyone \*\*\*\* in the air, which was a little too slow.

This is the bloodthirsty demon Dove Demon Heart, a well-known figure in Black Marsh City. In the eyes of everyone, although it was just a random blow from Dove Demon Heart, it was completely enough to kill Qin Chen, or even blast it into scum. But I didn't expect that the ending would just make Qin Chen go back more than ten meters.

Although Dove Demon's heart had the upper hand, this ending was far beyond everyone's imagination.

"This is your strength, but so? I don't know where the arrogant capital comes from."

What made people even more shocked was that after stabilizing his figure, the kid actually sneered such a sentence to Hamoshin, and even the words were full of mockery.

Is this kid crazy?

Just now, Qin Chen took the shot first, and Dove Demon Heart just retaliated at will. That's it, Qin Chen was also blasted out, but Dove Demon Heart remained motionless, but Qin Chen didn't have the intention of being awed, but he even dared. Taunting Dove Demon Heart, what is this not looking for death?

Everyone didn't know. At this time, only Dove Moxin knew how much he suffered in the previous hit.

When the turbulent real power explosion spread, Qin Chen retreated for the first time, and at the same time used the strength of the retreat to remove all the impact, so he was not injured at all.

On the contrary, he stubbornly stayed motionless. Although he looked handsome, the meridians in his body had already suffered a bit of dark wounds, and even almost spurted out a mouthful of blood, he just held back.

"Boy, you are so bold, I won't teach you a lesson today, I won't be called a bloodthirsty demon."

Dove Demon's heart roared, and the murderous intent on his body erupted frantically. He knew that if he couldn't teach Qin Chen a lesson in front of everyone today, then he wouldn't want to hang around in Black Marsh City in the future.

boom!

An astonishing breath erupted from him like a vast ocean. He raised his scimitar, and for a moment the astonishing sword aura was like a flood that burst a bank, and instantly surged towards Qin Chen, and the shocking aura made him present. Everyone went backwards like crazy and couldn't bear it at all.

Is this the Wuzong at the peak of the fifth stage late stage? Is this the strength of a bloodthirsty demon?

Terrible, terrible!

Everyone was pale with fear, and looked at Qin Chen in amazement. They knew that no matter what Qin Chen had backstage, he would definitely die this time.

Chapter 572

With all eyes in full view, the attack of Hato Demon Heart was about to fall.

Suddenly, a thunderous roar resounded above the black marsh square.

"Who dares to hurt Little Dust and die!"

The roar and roar, like a thunderbolt on a sunny day, amidst the thunderous roar, a black cloud quickly covered it, and instantly swept the attack of the Dove's heart in it.

"boom!"

The black cloud collided with the black sword energy that Dove Demon Heart wielded, and suddenly there was a thunderous roar.

Dove Moxin only felt his own mind startled, and a cold chill enveloped him. At the same time, the sword energy he wielded was melted crazily. He immediately understood that the person who roared and shot was just like him. , At least a master at the peak of the late stage of Tier 5

He didn't even think about it, he was about to offer a defensive shield immediately, but before he offered the shield, he felt the true power around his body melted crazily and made a sneer.

Although the sound was soft, the Dove Demon's heart heard clearly.

The complexion of Dove Moxin suddenly changed. He instantly understood that his true power shield was being madly melted by the black mist. This black mist was extremely cold and terrifying. After blocking the light of his sword, it did not weaken at all, but instead Invading his body.

Not good, the opponent's strength must definitely be higher than him, and it's more than just stronger.

Thinking of this, Dove Moxin no longer cares about killing Qin Chen, and is about to retreat quickly, but as soon as he retreats, he feels a huge resistance behind him, and he immediately understands that he has fallen into this black mist. , If you want to escape, you must break through the black mist, otherwise there is no way.

There was a cold sweat on the forehead of Dove Moxin. He understood that the opponent not only broke his sword attack at this moment, but also surrounded himself.

If he can't escape from the black mist in time, it is very likely that he will be melted inside by the black mist in a moment.

At the critical moment, Dove Demon Heart didn't even have a chance to beg for mercy. He only took care of the bloodline power in his body to explode crazily. At the same time, he opened his mouth and spewed a mouthful of blood. Seizing the momentary opportunity, he forcibly sacrificed a black shield.

Under the excitation of the essence and blood, the black shield burst into an endless black halo, instantly reducing the pressure on his body.

Dove Moxin had a chance to take a breath, but he knew that he was not really safe yet, and he even roared: "Stop, you have something to say, why fight and kill."

"Huh, have something to say? Do you dare to move less dust, what can I say to you, die for me!"

Outside of the black mist, the black slave controlled the demon banner, and shook down at the Dove Demon Heart inside.

He was so angry that he finally followed Qin Chen, with the hope of healing his injuries and even breaking through. It took him a moment to walk away, and Shao Chen was actually bullied by this guy.

In the eyes of the black slave, it was not Qin Chen that the other party wanted to kill Qin Chen, but wanted him to die. How could he agree?

Dove Demon Heart had just offered his shield, roared, and saw that the other party ignored his words at all. The black mist in the sky changed rapidly, and then a thicker black beam of light instantly fell towards him.

Demon streamers, a stream of demons!

The black light instantly illuminates the eyes of Dove Demon's heart, and even makes him feel deep in purgatory and want to be buried in it.

And the martial artists who were onlookers all watched this scene in shock. The cloak man who came suddenly not only defeated the attack of the bloodthirsty demon, but also enveloped the heart of Hato Demon with the black mist in the sky, and directly controlled his hands. The black streamer chopped down towards Dove Demon Heart.

The tumbling black mist made everyone feel trembling, and it was difficult to breathe. Some even felt that the black flag's attack was too majestic and shocking.

The only thing that was unconsciously shocked was the Dove Demon Heart. Under the envelope of the demon flag, he deeply knew how terrifying the attack was, even exceeding the limit of his defense.

"Damn, this guy is a lunatic."

In horror, Dove Demon Heart couldn't care about anything else. The essence and blood in his body burned crazily, puff puff puff, spouting a few mouthfuls of blood, blending into the black shield, and frantically resisting the attack of the heavenly devil flag.

"boom!"

In the next moment, the demon banner containing terrifying power instantly smashed the black shield, and then brought a puff of blood.

"puff!"

The blood splashed wildly in the void, and everyone saw that after the black flag fell, a figure flew upside down from the black fog and flew out for tens of meters before forcibly stopping the body, and then banged, a simple The black shield had been split in half and fell to the ground.

The Dove Demon's heart, who barely stabilized his figure, opened his mouth and spouted two mouthfuls of blood. His face was pale and withered. A long bloodstain was cut from his left shoulder and reached his thigh, almost splitting his whole person in half.

How embarrassed you are.

"boom!"

There was a stunned roar from the audience in an instant, and the loud sound rushed straight into the sky, almost breaking through the sky.

Everyone looked at the cloak man in horror, and couldn't believe that, in this short period of time, the bloodthirsty demon Hato Moxin, who had been famous for a long time in Black Marsh City, was beaten to death by the cloak man?

What kind of cultivation is this cloaked man? Sixth-order Wuzun?

At this moment, the people couldn't calm down at all and looked at Qin Chen in amazement.

If the cloak man is a sixth-order Wuzun, then what is the identity of this young man, there is actually a Wuzun strong guardian? And the honorable name is less dust?

What was even more shocking was the Dove Demon's Heart himself. He knew very well that if he hesitated the slightest a moment ago, he is already a corpse, instead of just being seriously injured and still standing.

"Little Chen, this kid really has two times. He can actually block the attack of this seat, but don't worry about Xiao Chen. This person dares to offend Shao Chen, and this seat will never spare him."

The man in the cloak snorted coldly, and the tenaciousness of Dove's heart was beyond his expectation. In his opinion, even if the opponent is a warrior at the peak of the late stage 5th stage, he should have a different body and head under the attack just now. Thinking of being blocked by him, it seems that this person really has two things.

Immediately waved the demon flag, and shot again.

"Stop it, you have something to discuss. It was the old man who had no eyes to know the mountain just now. Please be merciful."

Dove Moxin shouted in horror, he was very clear about his situation. Now he has suffered extremely serious physical injuries. If he comes back just now, he will definitely die.

"Now begging for mercy? Wasn't it arrogant just now? Even Ben Shao gave you face, do you have face?"

Qin Chen sneered, kicked the broken half of the shield and kicked the half of the shield straight away.

Chapter 573

When everyone heard this, the corners of their mouths twitched.

What an arrogant boy, so bold.

He said directly to Jiu Moxin, do you have face? This is obviously to let the other party give him a face before taunting Dove Devil's heart, and go sit there for a while.

When this sentence is said, regardless of whether the Dove Demon Heart survives or not, in the future, in this black marsh city, it will become a laughing stock, and it will no longer be faceless.

The corners of Domo's heart twitched. Although he felt extremely aggrieved in his heart, he didn't even dare to say a word, because he knew that once he said it, the other party might directly kill him.

"Little Chen, talk nonsense with this guy, let this guy kill him, so that he won't be awkward, and the two guys around him are in the same group with him, and this guy killed him together."

At this moment, the two Wuzongs in the middle stage of the fifth stage standing next to Jiu Moxin were already frightened to their faces. Hearing that the black slave was going to kill them, his legs trembled and his soul was almost gone.

"No need to."

Who knew Qin Chen stopped the cloak man suddenly and motioned him not to do anything.

The black slave frowned. He didn't understand what Qin Chen meant to stop him. He knew very well that Qin Chen was not a person who was afraid of things at all. Otherwise, when he was in the ancient southern capital, he would not have left the three powers such as Liuxianzong. Everyone was wiped out.

While he was puzzled, he saw Qin Chen's gaze, looking at a certain place in the square, and even turning his head to look over, he saw a group of people walking out from the depths of the square.

After seeing an old man in the lead, the black slave suddenly raised his brows and clenched the demon flag, his heart was instantly full of vigilance.

Wu Zun, among the few people who appeared suddenly, the leading old man turned out to be a sixth-order Wu Zun.

"Hehe, it's really lively here, but I, Kuronuma City, is a place of rules. If you can get along with each other in peace, it's better not to fight."

The destination of the old man was obviously Qin Chen's side, he smiled and said with a harmless expression when he came up.

"Vice President Liu!"

Seeing the visitor, Dove Demon Heart, who originally had panic and panic on his face, seemed to have taken a reassurance, his face suddenly eased, and he said in surprise.

"It's Liu Ze, vice chairman of the Gufeng Chamber of Commerce."

"The bloodthirsty demon group is cooperating with the Gufeng Chamber of Commerce. They usually invite guests to the Gufeng Chamber of Commerce. Vice President Liu will come forward. Are you planning to keep the heart of the Dove?"

"It should be correct, but I don't know if Vice President Liu will attack that kid."

"Yeah, that cloak man is so powerful, it is indeed terrifying, but Vice President Liu is a martial artist in the early stage of the sixth stage, and is one of the top masters in Bianzhou. If he wants to make a move, I am afraid that the cloak will hang. "

Seeing this group of people, the crowd immediately agitated.

"Vice President Liu, you have to take the charge for the next one. These two guys, I don't know where they came from, so they dared to go wild in the Black Marsh Square. They also killed one of my subordinates, and would seriously wound him, Liu Vice President, you can't let them go easily."

Dove Demon gritted his teeth and said, his face was full of resentment.

"Two, is it true that what Hato Moxin said is true, I'm Kuronuma City, but it's a place of rules, so people can't help it."

The old man ignored the words of Dove Moxin, but looked at Qin Chen and the black slave and asked with a smile.

Hearing what the other party said, Qin Chen couldn't help but sneer in his heart. Black Numa City is a place of rules? This is the best joke he has ever heard. Here, he has seen many things, but he has never seen any rules.

However, since the other party does not have a domineering look, Qin Chen will naturally not provoke him. He snorted coldly: "Then you have to ask the guy behind you. Ben Shao came here, just thinking Find a teleportation channel, but this guy has to pull me over and walk through the channel of the Gufeng Merchants Association. Is it possible that people who come to Kuronuma City cannot rely on any channel to enter the Black Death Swamp, but must obey the arrangements of others Huh? If this is the rules of Kuronuma Castle, it would be less knowledgeable."

"Is there anything like this?" The old man turned his head, looked at Domo Moxin coldly, and said in a stern tone.

"Vice President Liu, I'm just going to take him to understand the situation, and I don't mean to force it." Jiemo explained hurriedly.

"Humph."

The old man snorted heavily, and the breath of the sixth-order martial arts suddenly spread, and all the martial artists present changed their colors in this breath, and even had difficulty breathing. Even Qin Chen's true power in his body also slightly stagnated. a bit.

Then I saw the old man turned around and said to Qin Chen: "It turns out that this is the case. It seems that it should be a misunderstanding. This person is a promoter of the Gufeng Chamber of Commerce, but my Gufeng Chamber of Commerce is a serious business association. Dynasty, is also the top ranking, naturally will not do this kind of forced buying and selling, maybe you have some misunderstanding before. Now the little friends have also been killed, and the anger has gone out. Please be merciful and stop fighting. Now, what is the matter, just let it go, so as not to complicate things, I don't know what the little friends think?"

Qin Chen sneered in his heart. This old man said that he had no choice but to release his martial arts power unscrupulously just now, obviously with a slight threat.

"Since Vice President Liu has said so, then forget it, but I also ask Vice President Liu to take care of his own people. Ben Shao believes that the Gufeng Chamber of Commerce is a serious chamber of commerce, but if the people below are scornful, they will treat Gufeng Chamber of Commerce. Fame will also have a certain impact."

Qin Chen paused, and continued to sneer: "But if this kind of thing happens to Ben Shao again in the future, then Ben Shao is not welcome."

The old man narrowed his eyes, revealing a hint of chill, but he quickly converged, and said with a smile: "The little brother said that in the future, my Gufeng Merchants Association will definitely manage the following personnel, even if it is some peripheral personnel, I will never let him He ruined the ethos of our Gufeng Merchant Association."

"correct."

Then it seemed to have thought of something. The old man took out two jade boxes from his body, pushed them lightly, and volleyed them to Qin Chen and the black slaves. "There are two bottles of pills here. It is my Gufeng Merchant Guild's two Compensation, please accept both of you."

"Pills?"

The black slave opened the jade box, and there was a jade bottle inside, with three words written on the jade pendant, "Qing Yuan Dan"!

"hiss!"

The black slave immediately took a breath of air, and it turned out to be a fifth-grade Qingyuan Pill, this guy is such a big hand.

The other martial artists around also took a breath of cold air, and they talked about it. Qingyuan Dan is a fifth-grade pill, which can purify the true power in the martial artist, and it has great effects even on the peak of the fifth-stage late martial artist.

This kind of pill is absolutely amazing in value.

"You don't have to apologize."

Qin Chen lifted his hand, and the jade box immediately returned to the old man's hand. He didn't believe that Liu Ze from the Gufeng Chamber of Commerce would be kind enough to take the pills given by others.

Chapter 574 Heaven Array Gate

Seeing that Qin Chen returned the pill back, the black slave was reluctant to give up, but he also threw the pill back to Liu Ze.

Liu Ze's eyes flashed, but the jade box turned out to be nothing more.

"let's go!"

Qin Chen was too lazy to talk nonsense with this Liu Ze, and said to the stunned Yin family siblings: "Find a place and tell me about this transmission channel."

"Yes!"

The Yin family brothers and sisters came back to their senses. They did not expect that a young man they casually reminded would have such an identity and strength. They were not even afraid of Vice President Liu of the Gufeng Chamber of Commerce, and they even took Qin Chen away in fear. The square.

Looking at the back of Qin Chen and the others, Liu Ze squinted his eyes, a cold light flashed under his eyes, and then turned his head to coldly hummed at Dove Moxin: "You can't do a little thing well, and make such a big noise. This is a healing pill, you can take it first."

"Yes, Vice President Liu!"

Ji Moxin took the healing pill and hurriedly swallowed it, but he was embarrassed and angry.

Liu Ze ignored the thoughts in his heart, and said loudly to the warrior who had not yet dispersed on the field: "Everyone, today I am the Gufeng Chamber of Commerce who is not strict in imposing it. Let you guys read the joke. Please rest assured, I The Gufeng Chamber of Commerce is one of the largest chambers of commerce in Bianzhou. It has a history of thousands of years. It is fair to do business. It can be said that you are innocent. If you want to enter the Black Death Swamp through the teleportation channel in the future, you can enter from the channel of the Gufeng Chamber of Commerce. I, Liu Ze, promise here that if anyone suffers a loss in my Gufeng Chamber of Commerce, he can find an old man, and he will be fair to him."

"it is good!"

As soon as Liu Ze said this, there were a lot of applause on the court, and many people even clapped their hands.

But there were also some people who sneered. These people were all warriors who had spent a long time in Kuronuma City, and they knew all the forces very well. To say that the Gufeng Chamber of Commerce is fair in doing business, so let's lie.

After Liu Ze said this, he left the square with Dove Demon Heart and others.

Walking on the road, Dove Moxin said unwillingly: "Vice President Liu, those two guys, have you let them go like this?"

"Hmph, you should take care of your own business." Liu Ze snorted coldly, with a cold light on his face: "Let you invite guests, you can see what you are doing. These days, warriors entering the Black Death Swamp will be more and more. The more, if you ruin the name of my Gufeng Chamber of Commerce, how can you attract customers? In the next few days, you will give me a peace of mind, and try to constrain the previous methods. Did you hear that!"

Dove Moxin lowered his head and said, "Yes, the subordinates heard it."

"As for those two guys."

There was a cold glow in Liu Ze's eyes, a sneer was outlined at the corner of his mouth, and he said in a cold voice, "It's so easy to offend my Gufeng Merchants Association. Just forget it? I'm just not in a hurry to deal with them. It's not time to wait for them. Entering the Black Death Swamp, there are opportunities, or something urgent."

A light of excitement burst into the eyes of Dove Demon's heart, licked his tongue, and said: "The subordinate understands that when the time comes, the kid who pretends to be forced will leave it to me. No matter what kind of genius he is, my Dove's heart will let him He knows where the nickname of my bloodthirsty demon came from, Jie Jie Jie."

Dove Demon's heart grinned coldly.

At this time, Qin Chen had come to a corner of the square under the leadership of the Yin family's brothers and sisters. There was no traffic here, so it was very quiet.

"Thanks to both of you for reminding me just now. In Xia Qin Chen, this is my black slave, I don't know the two?" Qin Chen asked as soon as he stopped.

Yin Feng hurriedly handed his hands over: "Yin Feng has seen Shao Chen, this is my sister Yin Hong."

"Yin Hong has seen Young Master Chen and this senior." Yin Hong also hurriedly said respectfully.

"You are welcome. Tell me what is going on with these four transmission channels?" Qin Chen waved his hand and said straight to the point.

Yin Feng hurriedly replied: "There is little dust, this is the case. In our Black Marsh City, there are four transmission channels, which are controlled by four forces. No matter which transmission channel you go from, you must benefit these four forces. The previous Gufeng Chamber of Commerce was one of these four forces, and different forces charge different fees."

"The fees are different?" Qin Chen was stunned. Since he was a unified transmission channel, the charges were the same, but he didn't expect it to be different.

"Yes, the cost is different." Yin Feng nodded and said: "These four forces are the Black Order, Gufeng Merchant Guild, Tianzhenmen, and Muxin Mansion. Among them, the Black Order is a local force in Kuronuma City. The Gufeng Chamber of Commerce is one of the top chambers of commerce in Bianzhou. Before the passage was established, it was mainly engaged in the business of the Black Death Swamp; Tianzhenmen was the top formation sect of the Dawei Dynasty; as for the Muxin Mansion, it was our Bianzhou The power of Muxin City City Lord's Mansion in the prefecture."

"Is the Heavenly Formation Sect that set up a teleportation array?" Qin Chen said suddenly.

"Yes." Yin Feng explained: "Actually, the four teleportation formations from Black Marsh City to the Black Death Marsh were all set up by the Celestial Formation Gate. Because of this, the Celestial Formation Gate can occupy a teleportation channel in Black Marsh City, but The forces of the Tianzhenmen are not actually in Bianzhou."

"And here, if you want to use the transmission channels of the Black Order, the Gufeng Merchant Guild, and the Muxin Mansion, the charges are the same. They all transmit 30 real stones per person at a time. At the same time, the harvest in the Black Death Swamp must be 30% turned in."

Qin Chen frowned suddenly and said, "Do you still turn in 30% of the harvest?"

If so, this is simply too profitable.

"Yes, if you go through these three transmission channels, you need to turn in."

"Then how does the other party determine how much you have harvested?" Qin Chen frowned. For example, if I got ten elixir, but only said that I got five, the other party wouldn't know, right?

"I don't know exactly how to do it, but no matter which channel we enter from the Black Death Swamp, which channel will come out at that time, there will be a detector at the entrance of the channel, as long as there is a black death in the storage ring. Whatever the swamp gets, it will be detected, so there is no way to avoid it."

It seems that Qin Chen doesn't know about Black Numa City, so Yin Feng explained in detail.

"You mentioned three passages before. Isn't the passage of the fourth heavenly formation gate like this?" Qin Chen suddenly said again.

Yin Feng nodded and said: "The charges of the Heavenly Formation Gate are indeed different from the other three powers. They only charge the teleportation fee, 100 real stones at a time, but they won't let you turn in what you get in the Black Death Swamp."

"His, so much?" Qin Chen gasped.

A hundred real stones don't seem to be many, but in fact, it's not every time you get something, and it's not a small number after a few times.

Hearing what Yin Feng said, he finally knew the doorway inside.

Chapter 575 The Excitement of Yin Brothers and Sisters

The difference between one hundred lower-grade real stones and 30 lower-grade real stones is only 70, which is nothing for many powerful Wuzongs.

However, many of the warriors who are discussing life in this Black Swamp City are some without background. For them, even a low-grade real stone needs to be saved and not wasted.

Although the Black Order needs to extract 30% of their costs, but for many warriors who used to discuss life in Kuronuma City, they can save a little, and only save a little. Only those warriors who don't care about the real stone will take the teleportation of the heavenly formation gate. aisle.

And such warriors are actually relatively rare in number.

But for Qin Chen, let alone one hundred lower-grade real stones, no matter how many lower-grade real stones he lowered, he would not go to the transmission channel of the three powers such as the Black Order. He is not used to others to check his storage. The ring, although there is nothing shameful in it.

"What happened to the cheating you mentioned before?" Qin Chen asked again suddenly.

Yin Feng explained: "Little Dust, the scammers we talked about are actually Shen Peng who pulled you before. They are not from the Gufeng Chamber of Commerce at all. They are just helping Gufeng Chamber of Commerce to attract customers. If it's just to attract customers, it's nothing. But they are very despicable. The last time we were dragged by them to enter through the passage of the Gufeng Chamber of Commerce."

Speaking of this, Yin Feng's expression suddenly fluctuated. Obviously, he couldn't get out of that anger. He said angrily: "Originally, we said that after entering from the Gufeng Merchant Guild, we only charge 30 lower-grade real stones, 30%. However, my sister and I had better luck, and found a black lotus in it."

"A sunspot lotus has seven chains. Originally, we only need to hand over two lotus seeds. But after Shen Peng and others saw it, they asked us to hand over four lotus seeds to them first, saying that we were them. If you bring in and get good things, you naturally have to divide them in half."

"My sister and I naturally refused. This Shen Peng and others actually acted on us, not only snatched our Heizilian, but also wounded us. This is simply a bunch of villains."

"We later went to the Gufeng Chamber of Commerce, but the people from the Gufeng Chamber of Commerce said that Shen Peng and his group are not from the Gufeng Chamber of Commerce, so they can't control it. Let us find them, but how about Shen Peng and my sister? Opponents, blame it, we are too naive and believe in them, so I saw that Shao Chen was dragged by Shen Peng before, and I was so angry that I rashly said it. I didn't expect to cause you so much trouble. ."

Having said this, Yin Feng and Yin Hong bowed to Qin Chen and said, "Speaking of which, Shao Chen, you killed Shen Peng, you can be regarded as revenge for us. Our two brothers and sisters are so grateful to Shao Chen."

Qin Chen shook his head: "Thanks, I should thank you. If you didn't stop me, maybe I would really go to the passage of the Gufeng Chamber of Commerce."

"But." Qin Chen sneered and said: "You said that Shen Peng and the others are not from the Gufeng Chamber of Commerce, I don't believe it at all."

With a hint of anger in Yin Feng's eyes, he gritted his teeth and said: "In fact, we also understood some later. Today, when we saw Vice President Liu Ze come forward, it confirmed the thoughts in his heart. Gufeng Chamber of Commerce and Dove Moxin were just like Together."

"It's fine if you know." Qin Chen smiled, it seems that the Yin family brothers and sisters are also smart people.

"Little dust, you offended the Gufeng Merchant Guild before. You have to be careful when you go to the Black Death Swamp. I heard that the Gufeng Merchant Guild's rise is based on some ill-conceived means, and they will report it. They lost such a face, and with the spirit of Gufeng Chamber of Commerce, they will definitely not let you go." Yin Feng worried.

Qin Chen sneered and said, "Don't worry, I know this naturally."

He has made too many enemies now, staying in Xianzong, Yu Beast Villa, Gufeng Merchant Association, etc., so he has to find Ku Yunzhi as soon as possible. After breaking through Wuzong, even if he meets Wuzun strong, he will not be so worried. .

"I have some pills here. You can take them for cultivation. Later, I will enter through the passage of the Heavenly Formation Gate. If you want to go to the Black Death Swamp, try not to come with us, so as not to cause trouble."

After inquiring clearly, Qin Chen gave the brothers and sisters of the Yin family some pills, and then followed the direction pointed by the two with the black slave, and walked towards the teleportation channel of the Heavenly Formation Gate.

After Qin Chen left, Yin Feng and Yin Hong sighed and said, "Little Chen doesn't know which force it is. At a young age, his strength is so terrifying. Is this a genius?"

They all came from poor backgrounds and came up step by step. They encountered so many dangers before they reached this point. Seeing that Qin Chen was so young but even more terrifying than them, he naturally felt infinite emotion.

"I don't know what pill Chen Shao left us." While feeling emotional, the two opened the medicine bottle. After seeing the pill inside, they couldn't help but stare wide and exclaimed.

In the medicine bottle, there are a lot of four-tier pill, and even a small amount of five-tier pill.

"hiss!"

The two of them took a breath and looked at each other.

Unexpectedly, I kindly reminded that they actually got such a big benefit. The value of these pills is even higher than the value of everything in their storage ring. With these pills, their strength can definitely be improved.

"Who is this Shao Chen who can even take out the fifth-grade pill?" The two murmured, completely shocked.

"By the way, brother, what shall we do next?"

But after the surprise, the two became nervous again. Black Numa City was extremely chaotic. They had offended the bloodthirsty demon just now, and they certainly have no good end. Even if there is a pill, they will only become the opponent's spoils.

Yin Feng also had a solemn expression. He groaned for a long time before gritting his teeth and said in a deep voice: "Karkuma City must not be able to stay any longer. It is very dangerous to stay here, but it is impossible to escape. We have to be the same as Chen Shao. From the passage of the Heavenly Formation Gate into the Black Death Swamp, we will find a place to retreat and use these medicines to break through to the late stage of the fifth stage. At that time, we will find a way to leave Black Swamp City and go to other places."

"it is good."

The two glanced at each other, and immediately made a decision, and then the back figure disappeared in a hurry.

Qin Chen and the black slave came to the teleportation channel of the Heavenly Formation Gate. As expected, as the Yin family brothers and sisters said, one person only needs to pay one hundred real stones for the transmission.

It's just that the number of people who can transmit at a time is one hundred, so it will take a while.

And these days there are a lot of warriors who have come to Black Marsh City. In just a few moments, Qin Chen's group of 100 people has already gathered.

Chapter 576

Standing on the teleportation formation, the many warriors who teleported together seemed to know how powerful Qin Chen and the black slave were, and no one dared to provoke them.

Rarely leisurely, Qin Chen secretly probed the teleportation formation under his feet.

The entire teleportation array is very complicated. There are about a thousand formations, and the complexes are gathered together. Initially, it should be the fifth-order peak formation.

The transmission range of this formation is often thousands to tens of thousands of miles, but considering the need to ensure accuracy, Qin Chen estimated the transmission distance of thousands of miles.

At such a distance, ordinary warriors do need at least a few days to arrive.

Although Qin Chen possessed the Iron Feather Eagle, in the Black Death Swamp, ordinary blood beasts from the outside would be poisoned to death by the terrifying miasma as soon as they entered, so riding the teleportation array was indeed the most convenient method.

"Little dust, are you okay if you don't take Jiedu Pill?"

The black slave glanced at Qin Chen worriedly.

After he bought the Detoxification Pill and Miasma before, Qin Chen only took a look, but did not take it, which made him quite worried.

Qin Chen smiled and said: "Don't worry, I took a look at the miasma you just brought, it is indeed very powerful, but it may not poison me, as for the specifics, wait until we enter the Black Death Swamp. "

The \*\*\*\* can only nod his head.

After the people arrived, soon, the people at the Tianzhen Gate urged the teleportation formation.

Hum!

A white light rose up, completely enclosing the 100 people in the teleportation formation.

Qin Chen only felt dizzy in his mind, and his body seemed to have entered a passage of nothingness. When he slowed down, he had already appeared between the vast and gloomy world.

"This is the Black Death Swamp?"

Looking around, there is a black world in front of him, and under the gloomy sky, there is an endless black swamp. There are mud, puddles, and black water plants everywhere, spreading to an endless distance.

The first feeling Qin Chen came in was desolate and cold.

Here, it's like entering hell, which makes people feel very uncomfortable.

At the same time, Qin Chen also discovered that there was a faint black aura lingering between the heavens and the earth. This aura dissipated in the heavens and the earth. It seemed harmless, but contained extremely strong toxins that could destroy the martial artist's in a very short time. Physiological function.

"This should be the extremely terrifying miasma in this black death swamp."

As soon as Qin Chen's thought fell, a scream suddenly came from his side, only to see a warrior who came with them, scratching his face frantically with his hands, his face quickly festering, and soon a Blood hole.

But he didn't realize it, still scratching frantically. After a while, his entire skin was completely ulcerated. He knelt on the ground and said in horror at a martial artist beside him: "Help me...please...you... help me!"

However, the surrounding martial artists were all scattered in horror, as if watching a plague. The man stretched out his hand in pain. After seeing Qin Chen not moving around, he stretched out his right hand toward Qin Chen with difficulty, while his eyes There was a ray of desire and survival, and it seemed that he wanted to say something.

However, before his words came out, his body froze there, completely silent.

But his body was still festering. After only a moment, it turned into a pile of mud, even his bones turned into saprophytic mud. If it weren't for the storage ring, no one could even tell that there was one here. Musha.

"Hmph, this kid is too bad luck, he was killed by the miasma so quickly, what he bought is a fake detoxification pill!"

A middle-aged martial artist with a cultivation base in the late stage of the fifth stage snorted coldly, his tone was full of mockery, and at the same time, his gaze was staring at the storage ring not far in front of Qin Chen. It was after the death of the previous martial artist. Stayed.

Not only him, there are also some warriors staring at the storage ring with twinkling eyes, obviously quite coveted.

"Everyone, I'm leaving first."

At this time, a Wu Zong at the peak of the late stage of the fifth stage hugged Qin Chen and everyone, chose a direction, and quickly disappeared.

Seeing this person's actions, everyone was taken aback, and then quickly reacted. In front of these two guys, they were in Black Marsh Square before, and even the bloodthirsty demon Dove's heart dared to kill people in front of him. Going to the storage ring, isn't this looking for death?

Among the many warriors left immediately, many people formed teams and left one after another.

With the separation of the crowd, the hundreds of warriors here soon became sparse.

"Senior, this person who died before is our friend. We want to take his storage ring back to his family, can you..."

At this moment, two Wu Zongs in the middle stage of the fifth stage cautiously walked up and looked at Qin Chen nervously.

"Your friends? Why didn't you see you helping me just now?"

The black slave sneered and raised his hand, the storage ring fell directly into his hand, and then his eyes were cold, and he sternly said: "Get out!"

"Yes, yes, this junior will get out of here!"

The two dared not say anything, and hurried away.

"Return friends!" Looking at the two people leaving behind, the black slave sneered. If the three of them are really friends, how come only this guy's detoxification pills have a problem, something happened, but the two of them are all right?

Obviously, the three of them were not taking a kind of detoxification pills. It can be seen that even if they were friends, they were not particularly close friends, otherwise they would not die, and even the detoxification pills they took were different.

"Little dust, are you okay?"

At this time, the black slave looked at Qin Chen nervously, because he knew that Qin Chen had not taken detoxification pills.

"I'm fine."

Qin Chen frowned. The reason why he didn't take the Detoxification Pill was because he knew that he was cultivating the Nine Star God Emperor Art and he also cultivated the Immortal Eucharist. These two techniques have great effects on toxins. Resistance.

However, after entering, Qin Chen realized that he underestimated the miasma inside.

Although the Immortal Eucharist and the Nine Star God Emperor Art could prevent the invasion of the miasma, in fact, the miasma here slowly penetrated into his body from his pores.

Nothing can be seen in a short time, but over time, it will definitely cause huge damage to his body.

But Qin Chen was not in a hurry for the time being, he planned to take time to study the miasma here, and then formulate a special detoxification pill.

"Let's go too."

Just when Qin Chen and the black slaves were also planning to leave, another scream came. All the warriors who did not leave stared at the place where the screams were made in amazement. The two Wuzongs who were driven away by the black slaves were suddenly miserable. With a cry, the skin and flesh on his body quickly dried up, then turned into two mummy corpses, and fell to the ground.

Qin Chen also stared at the place where the two of them had fallen, his eyes condensed and his expression was solemn.

His mental power didn't feel anything at all, so the two Wu Zongs died directly?

Chapter 577

Qin Chen's gaze became serious.

There is no abnormality here, and the behavior of the two is not like poisoning. How could they suddenly fall? And it turned into a mummy directly.

But Qin Chen knew that these two people certainly didn't fall for no reason, there was definitely a reason.

"Ghost beast!" At this moment, a fifth-stage late peak martial artist called out in horror.

The expressions of the other warriors also changed drastically, one by one, as if they were approaching enemies, they drew out their weapons one after another, and they didn't even dare to move, all staring at the surroundings.

Even the black slave next to Qin Chen's expression changed, and the Heavenly Demon Banner instantly appeared in his hand, looking around vigilantly.

Obviously, these people had heard of this ghost beast, and even feared it extremely.

"Do you know this ghost beast?" Qin Chen looked at the black slave suspiciously.

The black slave said solemnly: "There is little dust, the ghost beast is a blood beast unique to this black death swamp. Some people say it is formed by the fusion of miasma and blood beasts in this black death swamp, and some people say it is caused by Being transformed by the wrathful souls of warriors who die in this black death swamp, they can absorb human essence and blood and turn warriors into corpses. One of their most terrifying characteristics is that they are without a trace, and they can't be captured by the naked eye and mental power."

Speaking of this, the black slave has already used the Heavenly Demon Banner, a black mist, and instantly wrapped the two of them, obviously to prevent an attack in nothingness.

After doing all this, the dignity on the black slave's face was slightly relieved, but he was still wary: "It is said that these ghost beasts are extremely difficult to deal with. Even the sixth-order martial masters can hardly feel it. They can only wait to die. In this swamp of black death, the ghost beast is one of the most terrifying existential threats, even above the miasma."

"Because no one can sense their existence, when they encounter them, they don't even know how to resist."

Not everyone on the field has been to the Black Death Swamp, and there are some who have come in for the first time. The warriors who have never heard of the ghost beast look at each other. There are such terrible ghosts in the Black Death Swamp. What else are you looking for? treasure?

Qin Chen obviously also had such doubts. If this ghost beast is so terrifying, then who would dare to come in, wouldn't it?

As if knowing Qin Chen's doubts, the black slave also frowned, "Actually, there are not many ghost beasts in the Black Death Swamp, and in the past, ghost beasts only appeared in extremely deep places. Although the black death has gone deep here. The swamp is thousands of miles away, but as far as the entire Black Death Swamp is concerned, it should only be in the outer area. In the past, it was impossible for ghost beasts to appear. This time, I don't know why, there are ghost beasts!"

"Then what do we do? Has the ghost beast left?" A warrior asked in horror.

"Possibly, you can try to move first, the ghost beast has absorbed the blood of the two previous people, and may have eaten and left." A warrior said with a blink of his eyes.

"Then why don't you try it yourself?" This warrior is obviously not an idiot, and asked rhetorically.

"Well, don't make any noise. I heard that although the ghost beast is extremely terrifying, it is not unkillable. It is just without a trace. It is difficult to find its trace. Moreover, the ghost beast often likes to attack. We just need to gather together, This ghost beast may not dare to do it." A Wu Zong at the peak of the fifth stage late said in a deep voice.

After he said this, many people immediately looked at Qin Chen and the black slave.

They didn't dare to be with Qin Chen before, but when they were in danger, they all thought of Qin Chen. Because of the events in the Black Marsh Square, everyone knew that the cloaked man beside this young man was extremely powerful, and the black banner was obvious. It is a very powerful true treasure, and the mist that it emits can completely envelop people.

If you can follow them, the probability of survival will definitely increase a lot.

Qin Chen saw the eyes of everyone, and of course he understood what these people meant.

However, he knew that he could not team up with them at all. He came here to find Ku Yunzhi. If he was with strangers, what else would he do? What's more, he didn't even know the details of these people. It is impossible to go together.

Qin Chen ignored the gazes of these people, but continued to sweep his spiritual power towards the place where the two warriors had fallen.

The fifth-order mental power was like a big net, without any gaps missing, but after scanning it, Qin Chen still didn't sense anything nearby.

"Is this ghost beast really without a trace?"

Qin Chen frowned. He knew very well that there is absolutely nothing in this world that is completely without a trace. The reason why it can't be found is only because of the wrong method. Perhaps these ghost beasts, like air, swept through them with mental power. There won't be any obstacles, so naturally it will not be discovered.

But the mental power can't be found, doesn't mean that other things can't be found either.

With a flash of gaze, Qin Chen suddenly swept a soul force toward the place where the two Wu Zongs had fallen.

In fact, Qin Chen originally planned to use the Qinglian Demon Fire to burn it, but considering the large number of people here, the Qinglian Demon Fire could not be exposed, so he could only use his soul power to sweep it first.

What surprised Qin Chen was that after his soul power was swept away, a faint shadow was swept across the two fallen warriors.

This shadow is a bit like a human, and he is lying on one of the two Wuzongs at this time, with the mouth attached to the back of one of them, the posture is like sucking blood.

Without even thinking about it, Qin Chen struck it directly with a sword, and directly activated the power of blood in his body.

"Crack!"

The sword light with thunder light instantly fell towards the two Wu Zongs.

Everyone was stunned. What is this young man doing? He actually hacked the bodies of the two who died before, so that they were to be cut into ashes?

Before the doubts in my heart had time to fall, I saw that after the thunder light sword light fell beside the two Wu Zongs, a faint shadow let out a harsh scream, revealed under the thunder light, and then rose into the sky in horror.

"Black slave, do it!" Qin Chen shouted in a low voice.

In fact, the black slave had already moved without Qin Chen's words. Phew, the heavenly devil flag swept out with an astonishing demon energy, covering the shadow under the heavenly demon flag.

The shadow suddenly screamed even more sternly, rushing from left to right in the black fog, but could not break free from the envelope of the demon flag, and finally screamed, completely swallowed by the black demon energy released by the demon flag, and turned into nothingness.

"puff!"

Some black scum fell from the void, fell into the swamp of black death, and disappeared all at once.

After the Heavenly Demon Flag swallowed the ghostly soul beast, the runes on it became clearer, as if it had been greatly supplemented, and its power became even greater.

## Chapter 578

In just an instant, the ghost beast was killed by the demon flag, leaving no trace.

"Less dust."

The black slave looked at Qin Chen in surprise, and felt the celestial demon banner in his hand, showing ecstasy.

The benefits of this ghost beast to the sky demon banner are too great, and the nourishment obtained by killing a ghost beast is even higher than that of killing the Anbei twin demons before.

This is simply the nourishing holy medicine of the Heavenly Devil Banner!

If you kill a few more ghost beasts, the power of the demon streamer can even increase by a large margin. When the time comes to deal with the bloodthirsty demon, the demon heart, you will not let the other party escape from the envelope of the demon streamer as before. Absolutely one blow can kill.

More than a dozen warriors who had not had time to leave were shocked when they saw that Qin Chen could find the ghost beast.

At this time, no one doubted Qin Chen's origins anymore. This person was definitely a genius of some of the top sects or forces in the dynasty.

The ghost beast crosses the black death swamp. It has never been seen that anyone can find the location of the ghost beast at will. It has no trace of its personality. Even if it is encountered by the sixth-order martial master, it must be carefully guarded, but Qin Chen suddenly found it.

No one thinks that Qin Chen's attack was unintentionally displayed. The sword light shrouded in a very precise position. It happened to be aimed at one of the martial artists who turned into a corpse. If it was cast at will, he would never find it. So accurate.

As for the black slave's ability to kill the ghost beast, it didn't make people feel so surprised.

"Your Excellency, you can find the ghost beast, it really makes Xu admire it." At the beginning, Wuzong, the peak of the fifth stage late stage, who was wary of defense, immediately arched his hand to Qin Chen, his brows full of admiration.

Others looked at Qin Chen with awe.

Qin Chen scanned the surroundings with soul power, and after finding that there were no other ghost beasts, he said to everyone: "Apart from the ghost beast that was killed just now, there are no other ghost beasts here. You can leave with peace of mind. "

"Thank you little brother."

Everyone is grateful.

They knew that Qin Chen said this and was deliberately taking care of them.

"Let's go first." After Qin Chen finished speaking, he quickly flew out with the black slave, and quickly disappeared into the depths of the Black Death Swamp.

"What a powerful young man, this son must be the top genius of some big power." The fifth-stage late peak Wuzong looked at Qin Chen's back and said in amazement.

The other warriors nearby also nodded and said, "I heard that even the sixth-order martial masters can't find the ghost beast. This child can find the ghost beast and kill it. How can it be an ordinary person? ?"

"I just don't know how he discovered the ghost beast. If he can master this method and go to the depths of the Black Death Swamp in the future, then the danger will be much less, and the treasures will definitely be much more then." A warrior envied. .

"Huh, the method of discovering the ghost beast must be this person's exclusive secret method, how can you say it casually? I didn't see the man in the cloak beside him, and didn't find the ghost beast at first, or after the young man forced the ghost beast out , The hand just moved."

Someone sneered.

Everyone felt the same.

Although they also wanted to know how Qin Chen discovered the ghost beast, no one dared to ask. A master who can spot the ghost beast at will is not something they can offend. Once the other party gets angry, they might even die. Don't know.

Under the leadership of the black slave, Qin Chen swiftly swept to the depths of the Black Death Swamp. They needed to rush to the underground ruins that the black slave had discovered as soon as possible.

The black slave searched everywhere, trying to find the second ghost beast. Knowing that Qin Chen could find the ghost beast, he no longer worried about encountering the ghost beast. Instead, he was eager to find the ghost beast and improve himself. The power of the True Treasure Heaven Demon Banner.

Only after half a day, the black slave did not find a ghost beast, not only a ghost beast, even some valuable elixir.

This place is like a barren swamp world, except for the black mud swamp, there is nothing else.

When Qin Chen and the others searched in the Black Death Swamp.

Hundreds of miles away from the teleportation channel of the Tianzhenmen, there is another level area.

Hundreds of figures appeared here at the same time.

These warriors all came here through the transmission channel of the Gufeng Chamber of Commerce.

"Everyone is arranged according to the team. Since our Gufeng Chamber of Commerce has brought everyone in, we will not let everyone encounter any danger here. Every team should register and report the number of people. Our Gufeng Chamber of Commerce will have a master. Lead you to hunt for treasure in this swamp of black death."

"Of course, it doesn't matter if you want to hunt for treasure on your own. At that time, you only need to bring our Gufeng Merchant Guild's jade card and come back here, and you will be able to take our Gufeng Merchant Association's teleportation channel back to Kuronuma City."

"The purpose of our Gufeng Chamber of Commerce is to bring you in, and we must take you out safely."

As soon as everyone came to the Black Death Marsh, the Gufeng Merchant Guild quickly arranged the warriors, and seemed to put the safety of these warriors first.

Many warriors who came to the Black Death Marsh to try their luck for the first time were immediately grateful, and after some discussion, they followed the Gufeng Merchants Association and entered the Black Death Marsh.

"Vice President Liu Ze, what shall we do now? The two previous guys have already passed through the teleportation channel of the Heaven Array Gate and entered the Black Death Swamp for a long time."

In a corner, Dove Moxin followed Liu Ze anxiously, with a spiteful expression in his eyes.

Obviously the two people he was talking about were Qin Chen and the black slave who nearly killed him in Black Marsh Square before.

Liu Ze smiled coldly, "Dove Devil Heart, how many times have I told you, don't worry, since I put them two into the Black Death Swamp, I will naturally find a way to find them. Otherwise, the Black Death Swamp, you think I am How to find them two?"

Jiemo's eyes lit up: "Vice President Liu, could it be that you are on both of them..."

Liu Zeyin smiled coldly: "You don't have to worry about this. You should focus more on these warriors who have entered the swamp of black death. Let you pay attention. Once they find that someone has found a good elixir, they should know what to do. How to do it!"

Dove Moxin patted his chest and said, "Vice President Liu, don't worry. I have already arranged this. You are the same as before. Just wait for the collection."

"Good." Liu Ze nodded in satisfaction immediately, quite relieved.

It is not without reason that he chose to protect Dove Demon Heart in Black Marsh Square. Dove Demon Heart is very sophisticated in this aspect. In the past few years, he has basically not made him bother, otherwise, he would not choose to come forward. Up.

"If that's the case, then follow me."

Liu Ze took out a disc from his body, took a look, then took the Dove Demon Heart, found a correct direction, and quickly disappeared into the Black Death Swamp.

Chapter 579: Detoxification Pill

Qin Chen naturally did not know that Liu Ze and Jiu Moxin of the Gufeng Chamber of Commerce had also entered the Black Death Swamp, and tracked them towards him.

At this time, under the leadership of the black slave, he was flying quickly towards the ruins.

After another half day, Qin Chen felt that the miasma around him became more and more intense, and at the same time, some ordinary elixir began to appear in the swamp.

These elixirs grow in the Black Death Swamp, and they all carry a kind of cold power, as if they have been infected, and they are still somewhat different from the normal elixir.

However, after Qin Chen's investigation, he found that these cold powers were nothing. The properties of the elixir itself were exactly the same as those grown in other places in the outside world. In the process of refining the pill, as long as the alchemist is willing, he can use it first. When the fire refining these cold powers, the cold power inside will naturally disappear.

After finding some elixir, Qin Chen fell down on a slightly drier mound.

In one day, he felt that his body had been invaded by some miasma. If it was not eliminated in time, it would slowly accumulate in his body and destroy his body.

Therefore, he must prepare a special detoxification pills as soon as possible.

However, just after Qin Chen fell, roar, from the hill, a fifth-order mud dragon came out directly.

It is said to be a mud dragon. It is actually a kind of terrifying blood beast that looks like an earthworm, but is extremely huge, with a length of several meters. One end of it burst out from the ground, and it split immediately, forming a huge round tooth. Mouth, swallowed towards Qin Chen in one mouthful.

At the same time, a terrifying suction force was about to pull Qin Chen into the mud dragon's mouth.

Seeing those dense teeth, Qin Chen felt a chill all over his body. He reacted extremely quickly. The moment the mud dragon was unearthed, he slashed out with a sword.

Puff!

Who knows that the defense power of this mud dragon is extremely terrifying, Qin Chen's full-strength sword only left a few feet-long fine marks on its body, and even its thick skin did not break open.

At this moment, Qin Chen was already eager to break through to Tier 5. If he had a Tier 5 cultivation base, how could he not even be able to break the defense of a Tier 5 mud dragon?

Seeing that Qin Chen still dared to resist, the mud dragon was furious and boomed, and the remaining half of his body was pulled out of the mud, taking a puff of black mud, and his thick torso drew towards Qin Chen fiercely.

"court death!"

At this time, the black slave had also reacted, yelling, and the heavenly devil flag rolled out instantly.

call!

The black magic energy immediately enveloped the huge body of the mud dragon.

"Boom boom!"

The black slave originally thought that the Heavenly Demon Flag would be easy to deal with the ghost beast, and it should be easy to deal with this mud dragon, but he did not expect that the mud dragon was extremely resistant to the black demon energy of the Heavenly Demon Flag. , Even rushed out of the black magical package.

Qin Chen frowned, and he suddenly remembered that although the mud dragon is also a kind of blood beast, in fact, its wisdom is extremely low, only instinctively devouring desire.

The devil flag is actually a kind of evil thing that can target the soul.

But this mud dragon has no thinking. In addition to living with the black mud all the year round in this black death swamp, and swallowing a lot of miasma, it is naturally extremely resistant to such evil things. .

So that the demon banner could not take the opponent for a time.

The mud dragon was trapped by the demon flag, and became angry too, opening its big mouth, roaring angrily, and at the same time spraying a large amount of sludge mucus towards Qin Chen.

Seeing these disgusting things, Qin Chen hurriedly backed away, and saw that after the sludge and slime fell on the Black Death Swamp, he suddenly made a sneer of corrosion, and a black stench came from the black mud on the Black Death Swamp. , Have been corroded into big holes.

Fighting this disgusting thing, Qin Chen was not interested at all, took out the black gourd directly, opened the gourd stopper, only heard the buzzing sound, dense air-eater ants and fire-refining insects instantly Flew out.

Qin Chen was also worried that the gas-eater ants and the fire-refining insects would not be used to the environment of the black death swamp, but unexpectedly, after coming out, the gas-eater ants and the fire-refining insects became obviously excited, and then turned into a black cloud. Wrapped the mud dragon to Tuantuan.

The mud dragon, which was able to persist under the black magic qi, was attacked by the gas-eater ants and the fire-refining insects, and suddenly uttered a painful cry, the body rolled violently, and at the same time, it spit out poisonous mucus frantically.

However, the gas-eater ants and fire-refining insects are obviously not afraid at all, and even the slime that can corrode the Black Death Swamp falls on these insects, but they cannot be corroded at all.

Within a short period of time, the mud dragon that had been flaunting his might completely slumped down, and finally lost its sound.

The power of the blood beast on it has been completely absorbed by the gas-chewing ants and the fire-refining insects, and nothing is left.

"Black slave, find me the blood crystal of this mud dragon."

Qin Chen said to the black slave after recalling the Qi Devouring Ant and the Fire Refining Insect.

"what?"

Looking at the ugly mud dragon in front of him, the black slave turned blue immediately. He would rather Qin Chen let him fight with a martial master than to cut the mud dragon open and find its blood crystals.

But Qin Chen's instructions, he naturally couldn't help listening, he could only dig out the blood crystal with a weeping face.

Then he was very depressed and washed it with a lot of water before handing it to Qin Chen.

This mud dragon is extremely large, but the blood crystal is smaller than the fist of a normal person, like a black crystal, with a faint black breath lingering in it.

"Don't underestimate the blood crystal of this mud dragon, in this black death swamp, it can save your life."

After Qin Chen said to the black slave, he directly took out many elixir from his body and began to refine it.

"What is Shao Chen doing?" The black slave was puzzled.

I saw that Qin Chen took out all the elixir obtained from the Black Death Swamp, and some of them were obtained from the Anbei Double Demon storage ring, and quickly threw them into the pill furnace.

After a stick of incense, a faint breath emerged from the pill furnace.

Qin Chen put the blood crystal of the mud dragon into the pill furnace.

Then began to refine with Qinglian Demon Fire.

After obtaining the Qinglian Demon Fire, the black slave himself was quite accomplished in medicine and bloodline, but after seeing Qin Chen's refining, he couldn't understand how he refined it at all.

In just a moment of effort, Qin Chen stopped refining, and at the same time there were twelve black pills in the furnace.

"These are six detoxification pills, you take them and take one first." Qin Chen said after taking out six pills to the black slave.

"Little dust, I have already taken detoxification pills." The black slave asked in doubt.

"Let you take it and use it, there is so much nonsense." Qin Chen glared at him.

The black slave could only obediently swallow a pill.

But as soon as this detoxification pill entered his abdomen, a sharp pain instantly passed from his stomach.

"Little dust, don't you want to poison me?"

The black slave screamed, his face turned green and his body was convulsing.

Chapter 580

This is so terrible, it hurts too much.

Is this really a detoxification pill? Not Killer Dan?

The black slave was dripping with sweat and had bruises on his forehead. This kind of colic almost crushed his body.

"I want to kill you, do I still need poison?" Qin Chen glanced at the black slave and said speechlessly: "I can't bear this pain, and I want to become a strong one? Hold my breath and concentrate on refining this medicinal power in his body. in."

"Yes!"

The black slave was crying, sitting cross-legged in a hurry, struggling to refine the medicine in the body.

If he didn't know that Qin Chen wanted to kill him, he didn't need to work so hard, he thought Qin Chen was going to poison him.

My heart is speechless, what a pain, it's like a thousand cuts on my body, and I said that I can't bear this pain, you can try it if you have the ability.

The one that Chen Shao refined didn't know what Poison Pill it was, so he actually allowed himself to experiment, and he wouldn't fester and die by then?

While he was thinking about it, he saw Qin Chen also picked up a pill, swallowed it directly into his abdomen, then sat cross-legged and began to refine.

The whole process was extremely calm. He didn't see Qin Chen humming at all, as if he had swallowed it, not the same medicine as his own, but a candy.

Isn't it?

The black slave was dumbfounded. If he hadn't seen Qin Chen swallowing the detoxification pill he had made with him, the black slave would have never believed that after the pill entered the body, Qin Chen would behave like this.

"I don't believe it, less Chen can persist, but I can't persist."

Gritting his teeth, the black slave began to frantically refine the medicine in his body.

With the refining of the medicinal power, the sharp pain came and went quickly, as if the tide was low, and it disappeared in an instant.

Immediately afterwards, an extremely comfortable feeling was transmitted from the black slave's body, ecstatic.

"So comfortable, how could it be so comfortable?"

What shocked the black slave even more was that the originally depressive black death swamp air made him feel extremely fresh after taking the detoxification pills given by Qin Chen.

At the same time, a thin layer of black matter appeared on his body, exuding from the pores, covering his body surface, and shaking slightly, it turned into ashes and dissipated in the air.

"Little dust, the detoxification pill just now..."

Seeing Qin Chen opening his eyes and refining the detoxification pills he had taken, the black slave hurriedly asked, there are too many doubts in his heart now.

Qin Chen glanced at him and said, "The detoxification pill I just gave you was made by Ben Shao after analyzing the composition of the miasma of the Black Death Swamp, using the blood crystals of the mud dragon and the elixir of the Black Death Swamp. ."

"Although the detoxification pill you took before also has the ability to relieve the miasma, the refiner is obviously only a fourth-rank pharmacist, and the method he used to refine the detoxification pill is the general method of removing the miasma."

"On the surface, it can prevent the miasma from invading your body. In fact, it is not completely done, so there will still be some miasma remaining in your body."

The black slave was surprised: "You mean, my detoxification pill just now has no effect?"

"It's not without effect, but the effect is not so thorough."

Qin Chen explained: "If you live in this black death swamp for a long time, the miasma that enters your body, although not many, will slowly erode your meridians and your body, once it accumulates to a certain amount. When the time comes, poisoning reactions will begin."

"Even if the accumulated amount is not enough to poison you, after the Black Death Swamp, these miasma will continue to remain in your body, like a dark disease, which will have a huge impact on your future breakthroughs."

"The Detoxification Pill I am refining now is to completely remove the toxins remaining in your body, so that your body can be restored from a certain state."

Hearing Qin Chen's explanation, the black slave couldn't help taking a breath. He didn't know that his detoxification pills could not completely remove the miasma and would cause such great damage to his body.

No wonder there was such a layer of black matter on his body, obviously the miasma remaining in his body as Chen Shao said.

After taking the Detoxification Pill given by Xiaochen, the black slave felt like his body was washed, and he felt relaxed and transparent.

Obviously, the miasma that had remained in his body for so many years had been completely removed.

It was terrible. It was the first time that Mr. Chen came to the Black Death Swamp. After just one day of observation, he was able to refine such detoxification pills. How terrible is Mr. Chen's knowledge in refining medicine?

Once again, the black slave was shocked by Qin Chen's refining skills.

"Let's go, although my detoxification pills have extraordinary effects, they are not omnipotent. The miasma in this place is too serious. If you feel a little uncomfortable after half a month, take another one, six detoxification pills. It's enough for us to stay here for at least three months."

Qin Chen didn't take this matter to heart, and brought the black slave forward again. Compared with this detoxification pill, Qin Chen was obviously more concerned about Ku Yunzhi.

After the dark diseases in the body were relieved, the black slave and Qin Chen flew faster in the Black Death Swamp.

Two days later, the two of them were only a short distance away from the underground ruins mentioned by the black slaves.

"Little dust, the place where I found the Qinglian Demon Fire was thousands of miles ahead. There was a cryptic formation. I only entered by accident. Now it seems that other people in this Black Swamp City found it. A certain part of the underground ruins of "I hope not to be discovered."

The black slave worried.

"Let's go!"

Qin Chen's heart was also quite nervous, and he flew out immediately, and the distance of thousands of miles was only half an hour for the two of them.

It's just that Qin Chen was just about to start, and suddenly felt something wrong in the void ahead.

Qin Chen, who was paying attention to the surrounding situation at the moment, swept through a soul power without hesitation, and several faint shadows appeared in front of him instantly, not only the speed was as fast as a ghost, but there was no murderous intent at all.

It really was a ghost beast.

Qin Chen immediately took a breath.

This ghost beast was too terrifying. When it shot, it didn't have any murderous intentions. It was impossible to defend against.

If it weren't for him to be vigilant all the time, paying attention to his surroundings, waiting for the few ghost beasts to stick to his body before reacting, it might be too late.

As his thoughts flowed, Qin Chen chopped out the mysterious rust sword without hesitation, and the sky of lightning and sword light instantly enveloped a radius of several meters.

Crackling!

The few ghost beasts suddenly let out a stern cry under the surging of thunder light.

"Haha, it's a ghost beast!"

The black slave was overjoyed. These days, he had been looking for ghost beasts and wanted to strengthen his own demon banner, but he had never found the trace of ghost beasts. He didn't expect five or six ghost beasts to appear suddenly.
