

## Valkyrie 581

### Chapter 581 Powerful Ghost Beast

Excited, the black slave displayed the demon banner without hesitation, and the black demon energy in the sky was like pouring water, which immediately enveloped the few ghost beasts.

Only a terrible scream sounded, these ghost beasts were struggling and howling in pain under the envelope of the demon flag, and they continued to melt away.

In order to improve his strength, the black slave was simply too active when dealing with the ghost beast, and he had never been so active in doing other things.

Just when Qin Chen was quite speechless, he was suddenly shocked, as if something invisible was staring at him and was about to attack him.

At the same time, a strange gust of wind suddenly blew on his neck, and his whole body instantly chilled.

Qin Chen's scalp was numb. He believed his feeling too much. Once this feeling came out, he knew that he was definitely being stared at by something. It was most likely the ghost beast hidden in the dark, and the ghost beast had already turned towards him. He launched an attack.

Qin Chen knew that it was too late to make a move at this time. Didn't he have never seen the ghost beast's shot? He could turn two Tier 5 Wuzong into corpses in an instant. If he turned to fight back now, maybe the ghost beasts would have already attacked. Fell on him.

So he didn't even think about it, and instantly released the Qinglian Demon Fire in his mind.

Qinglian Demon Fire, an extremely mysterious flame, although its power has not reached the point of abnormality, Qin Chen has a hunch that only Qinglian Demon Fire can save him at this time.

The cyan flame, like a gorgeous lotus, instantly wrapped Qin Chen inside.

Qin Chen seemed to have become a cyan fireman in an instant.

And under the cyan flame, Qin Chen saw that a dark red shadow had approached behind him and was about to bite his neck.

The cold sweat flowed from behind Qin Chen's back. He swept away his soul just now. Except for the few ghost beasts in front of him, no other ghost beasts were found. Unexpectedly, there was another ghost beast hidden behind him. Bit him in the neck.

If it weren't for his strong soul power perception and cultivated the Nine Star God Emperor Jue, he was naturally sensitive and felt a touch of danger. Fortunately, he had a green lotus demon fire. Otherwise, what would happen if he waited for the ghost beast to stick to him?

At this moment Qin Chen thought about the two Tier 5 Wuzongs who had died before. Although he didn't know if he would be sucked out of his blood and turned into a corpse like them, he didn't want to have this kind of attempt once. .

In fright, Qin Chen urged the Qinglian Demon Fire in his body to the extreme without hesitation.

"boom!"

The cyan flame burned crazily, releasing an astonishing high temperature. The dark red ghost beast had already approached Qin Chen, but at this moment it showed a frightened expression and retreated madly.

Qin Chen felt very strange. This ghost beast was obviously just a shadow, without any facial features or expressions, but in Qin Chen's perception, he could feel that the ghost beast was in a state of panic.

"What? There is another ghost beast here?"

At this time, the black slave who was frantically refining the ghost beasts also saw the shadow behind Qin Chen, and was shocked. He hurriedly released the heavenly demon flag to the extreme, and a more terrifying black demon energy swept over it, instantly swept that. The ghost beast was wrapped in it.

But what Ling Nei Slave didn't expect was that after the dark red ghost beast was wrapped in the Heaven Demon Flag, it was still struggling violently, and he was about to rush out of the Heaven Demon Flag.

What the \*\*\*\* is this?

The black slave was shocked. It was the first time that he saw a ghost beast that was wrapped in a demon banner and could still struggle to escape. This dark red ghost beast was obviously too strong for the pure black ghost beasts before.

Fortunately, at this moment, the previous ghost beasts happened to be refined by the heavenly demon flags, and countless cold powers instantly merged into the heavenly demon flags, and the black slaves immediately felt that the power of the heavenly demon flags had increased a lot in an instant.

boom!

The more terrifying black devilish madly entangled the dark red ghost beast.

The dark red ghost beast kept screaming and screaming. This howl was actually not a voice in the conventional sense, but a wave of mental fluctuations, constantly rushing into the minds of the black slave and Qin Chen.

"dead!"

Qin Chen's eyes were cold, and the radiance of the Qinglian Demon Fire was even more intense. The scorching fire light was like a sharp blade, piercing the dark red ghost beast.

"Ah..." After a sharp scream, the dark red shadow under Qin Chen's Qinglian Demon Fire and Sky Demon Banner, like white snow under the scorching sun, disappeared and turned into ashes in a blink of an eye.

Qin Chen loosened his whole body, and the shocking feeling disappeared.

"Pump!"

At the same time, a thumb-sized black-red spar fell from the black magic energy and fell into the swamp.

After absorbing the power of the ghost beast, the demon streamer suddenly made a squeaking sound. The rays of light on it were even more terrifying. On the surface of the black streamer, black air currents flowed, and in this air stream, there was even a trace. The dark red color gives people an evil and hideous feeling.

What a powerful feeling!

The black slave felt that after absorbing the power of this dark red ghost beast, the power of the goddess was even more exaggerated than the previous absorption of six or seven ordinary ghost beasts. The black slave was sure that if he were to encounter it now The bloodthirsty demon can turn him into a corpse with a single stream, and his soul will be scattered.

It's just that the black slave was also faintly worried, because he discovered that after the Heavenly Demon Flag was ascended, he actually had a faintly uncontrollable feeling.

"This demon banner is a sacred object of the Blood Demon Sect. Although it is only an imitation, it should be an imitation that was refined by the Blood Demon Sect a thousand years ago. As it absorbs a large amount of resentment and evil forces, its power will become stronger and stronger.

"But if you can't improve your strength, when this Heavenly Demon Flag is strong enough, it will slowly invade your mind, and even be controlled by him, becoming a walking dead that only kills."

"If you don't have to force it in the future, you should try to use it sparingly."

Qin Chen looked at the black slave and said solemnly, warning in his tone.

This is also the drawback of the treasures of the magic way, if it is strong to a certain extent, it will backfire its master.

"Little dust, I understand." The black slave obviously knew this, and while excited, he also had a solemn tone.

Qin Chen nodded and didn't say much. Instead, he took the black and red blood crystal into his hand, wondering in his heart, what exactly is this ghost beast? The body can also generate blood crystals, is it really some kind of blood beast?

Qin Chen didn't bother to think about things he couldn't figure out, and immediately left with the black slave.

But suddenly, Qin Chen's complexion changed again. In his soul perception, two figures were approaching frantically, and one of them was extremely terrifying, clearly a martial arts powerhouse.

And these two forces gave him a very familiar feeling.

And the direction the two people are tracking is clearly the two of them.

"Go, come with me."

Qin Chen said anxiously to the black slave, and then quickly swept over the dense water and wild grass not far away.

Chapter 582

"Little Chen, what happened?" The black slave looked stunned, obviously not understanding Qin Chen's actions.

"Do not talk."

Qin Chen gave a low shout, and when he came to the wild grass, he quickly threw down the formation flags.

In an instant, a hidden formation was formed.

Qin Chen was not relieved. On top of this hidden formation, he added a few more hidden formations. When the opponent approached here and his perception was approaching, Qin Chen stopped the formation of the formation and waved his hand. The puddle immediately separated a small space.

"Come down!"

With a low drink, Qin Chen took the lead into the water, and although the black slave was puzzled, he followed Qin Chen and jumped down. Soon Shuize returned to calm, as if nothing had happened.

"Huh!"

At the moment when the two of them had just entered Shuize and had been hiding well, two streamers suddenly swept over from a distance, quickly approaching, and in the blink of an eye, they arrived at the place where Qin Chen and the others were fighting.

"It's Liu Ze from the Gufeng Chamber of Commerce."

Through the monitoring perspective of the hidden formation, Qin Chen instantly saw the incoming person, who turned out to be Liu Ze from the Gufeng Chamber of Commerce, beside him, and followed the bloodthirsty demon Dove Moxin.

No wonder it was these two people who felt so familiar before.

Qin Chen's eyes were cold, he absolutely did not believe that these two people passed by here accidentally, looking at this posture, it was clear that they were coming towards him.

The black slave who was hiding in the dark was also taken aback, and was shocked: Why are these two guys?

Although he was confident of his own strength, the black slave knew that the difference between Wu Zun of Tier 6 and Wu Zong of Tier 5 was too great, even with the help of the Heavenly Demon Flag, he would almost never be Liu Ze's opponent.

What's more, Liu Ze is still the vice president of Gufeng Chamber of Commerce. As one of the top chambers of commerce in Bianzhou, is there no treasure in Liu Ze?

If it wasn't for Chen Shao's timely discovery, maybe he and Chen Shao had already been exposed.

Thinking of this, the black slave glanced at Qin Chen in shock.

These days, the dark ailments on his body have gradually healed, and his cultivation has clearly felt a slight improvement, and his strength has also improved by leaps and bounds after obtaining the Heavenly Demon Banner.

He even thought for a time that if he changed to the present, and then fought Qin Chen, he might not be trapped by Qin Chen like he was in the Heiling Mountains.

But after experiencing the ghost beast and the things at this moment, the black slave completely understood that even if his strength is strong, there is an insurmountable gap with Qin Chen.

Among other things, Liu Ze and the others didn't feel it at all, but Chen Shao was able to find out in advance. For this alone, he was far behind.

"President Liu, are they all?"

After falling, Dove Moxin immediately glanced around and couldn't help but wonder.

"Strange, the aura of the two of them before is obviously near here, why did the two of them disappear just after we came?"

Liu Ze held a disc in his hand and looked around, also showing doubts.

This disc was able to detect the location of Qin Chen and the black slave. It was on this that he was able to track it all the way.

Dove Moxin continued to scan the surrounding area, but found nothing, and frowned, "President Liu, is there something wrong with the instrument in your hand..."

"Huh!" Liu Ze's eyes were cold, and he looked at Dove Moxin coldly, and said coldly: "Are you suspicious of the president?"

Dove Mo's heart was startled, and hurriedly said in panic: "No, no... the subordinates dare not."

"That's good." Liu Ze snorted, his brow furrowed, holding the disc, while searching around.

Previously, the positions of Qin Chen and the black slave had been shown on this disk. They tracked for two days before finally catching up. But when they came, the breath of Qin Chen and the black slave disappeared, which made Liu Ze also Suspicious.

"Could it be that the two of them are dead?" Dove Moxin thought of a possibility.

Liu Ze shook his head: "Even if the two of them have fallen, according to this instrument, they can still find their remains, strange..."

Liu Ze continued to move forward while talking.

Seeing Liu Ze getting closer and closer here, the hearts of Qin Chen and Black Slave also suddenly hung up.

Although he was extremely confident in his concealment formation, after all, Liu Ze was a sixth-order martial artist, and Qin Chen himself was not sure whether he could hide the truth from him.

Once he found out, then...

Qin Chen was nervous, clenched the mysterious rust sword, winked at the black slave, and was already ready to fight.

At this time, Liu Zezheng walked slowly toward the water and weeds, looking like a torch.

He is step by step, extremely vigilant, and obviously a very meticulous person.

Seeing that Liu Ze was about to get close to Shuize and enter this wild grass.

"Chairman Liu, there are traces of fighting here."

Suddenly there was a cry of exclamation from the heart of Domo.

"what?"

Liu Ze stopped and swiftly moved towards the place where Dove Demon Heart said.

Under the water, Qin Chen and the black slave were soaked in cold sweat on their backs, and they all breathed a sigh of relief.

If it is discovered by Liu Ze, it will definitely be a \*\*\*\* battle.

After just a dozen breaths, Liu Ze came to the place that Dove Moxin said. He perceives it carefully, and his eyes condense: "There is really power left here, and there is also an extremely cold and hot breath. This breath, It hasn't dispersed yet, obviously it's not long before the battle has passed."

Liu Ze's tone suddenly rose sharply, his eyes were like electricity, he looked around quickly, and said in a deep voice: "So, this instrument is correct. The two of them have definitely experienced a battle here just now. For whatever reason, the symbolic aura that the president left on them has disappeared. Maybe they were destroyed in the battle!"

Dove Mo said, "Then what shall we do now?"

Liu Ze sneered: "According to the disc display, the two of them have been heading southeast for the past two days. In other words, their destination is in this southeast direction, where and where the underground ruins were found before. , Very close. That is to say, no matter what happened here before, as long as they are not dead, they will definitely go in that direction. We only need to track the past all the way."

Hearing this, Dove Moxin suddenly smiled and complimented: "Chairman Liu is wise."

"go!"

The two of them flickered and didn't stay here for a long time, and immediately flew towards the underground ruins where Qin Chen and the others were going.

After the two of them left, Qin Chen and the black slave walked out of the water.

"Little dust." As soon as the black slave came out, he looked at Qin Chen.

"Don't talk first."

Qin Chen's face was solemn, he closed his eyes, and the powerful soul power suddenly flooded out, exploring himself back and forth.

"found it!"

After searching several times, Qin Chen finally found an extremely hidden mark on his sleeve, and his face suddenly looked extremely ugly.

Chapter 583

This mark is very hidden, and the technique is so strange that his mental power has never been discovered.

In fact, when Qin Chen urged the Qinglian Demon Fire to cover his whole body, he had faintly noticed some weirdness, but at that time, his attention was focused on the dark red ghost beast, which caused him not to care.

In addition, the mark still remained on his sleeve, not on his body.

"What a cunning guy."

If the other party left the mark on him, with Qin Chen's care, I'm afraid he would have discovered it a long time ago, but if left on his sleeve, Qin Chen would not burn his body with the green lotus demon fire for no reason, but instead Protect your clothes so that you can't find it in the first place.

"Little dust, what's the matter?" At this moment, the black slave also looked over and said solemnly: "Did the other party leave a mark on us?"

He is not an idiot. Judging from the previous conversations between Liu Ze and the others, as well as Qin Chen's performance, he also understood that he should have been traced, otherwise it would be impossible for the other party to find it so quickly.

Qin Chen nodded.

And at this time, he already wanted to understand that the opportunity for the other party to place a mark should be when he gave the medicine in the Black Marsh Square.

No wonder that Liu Ze would take the initiative to say to compensate them for the pill, and the pill was not only placed in the medicine bottle, but also specially packaged in a jade box.

It seems that the hands and feet should be on the jade box.

"This despicable fellow, sooner or later I will let you know what regret is." The black slave said with a cold look.

Then he said to Qin Chen: "Shao Chen, since you found the mark, destroy it. I should also have it on my body. In this way, I see how these two guys will follow us."

"No way."

Who knew Qin Chen actually shook his head.

He looked solemn, and said coldly: "I can't throw away the imprint right now, and the most important thing now is that Liu Ze and Jiu Moxin actually know where we are going."

Qin Chen's tone was heavy.

This is where he worries the most. With Liu Ze's cultivation base, once passing by the underground ruins mentioned by the black slave, he may not fail to discover the clues.

If so, then the situation is dangerous.

Thinking of this, he hurriedly turned his head to look at the nigger, and said solemnly: "Nigger, I have a task for you, but there will be some danger."

"You said, Shao Chen, the black slave will definitely complete the task." The black slave is very decisive.

After so much experience, he also understood that relying on himself, it is too difficult to break through the sixth-order martial arts, but following Qin Chen, it is likely to be very simple.

"it is good."

Qin Chen didn't say anything, he cautiously punched out a series of restraints, peeled off the tracking mark on his sleeve, took out a jade box, and put it in.

Next, he also found the tracking mark on the black slave, and also stripped it out with the prohibition, and put it in the jade box.

"Here are the two tracking marks that Liu Ze put on before. I need you to take this jade box, leave here quickly, and walk in the direction of the quilt, as far as possible." Qin Chen handed the jade box to the black slave. , Shen said.

"Do you want me to lead Liu Ze and them away?"

The black slave immediately knew Qin Chen's purpose, and said in doubt: "But if I leave, how do you find that underground ruin?"

"Didn't you give me a map, and, the specific location, you also marked it, although there is a very powerful hidden formation, but with this information, Ben Shao wants to find that place, it is still very It's easy, not to mention that there are spirit-seeking bugs on my body. Spirit-seeking bugs are extremely sensitive to genius treasures. As long as they get there, they won't find the location of the forbidden land."

After the black slave surrendered to Qin Chen, the spirit hunter naturally came to Qin Chen's hands.

"I understand." After the black slave pondered for a while, he immediately understood that this method indeed worked.

The only question is whether he can escape Liu Ze and the others.

"You don't need to keep running with this jade box, you just need to lead them a long enough distance, and put this jade box on some blood beasts in this black death swamp, and you can get away." Qin Chen said. .

The black slave's eyes lit up instantly: "I understand."

Just like the mud dragon before, he only needs to throw this jade box into the mud dragon's mouth. Then Liu Ze and the others will naturally only track the mud dragon's whereabouts, and he can get out of it smoothly.

After discussing the plan, Qin Chen threw a green lotus demon fire power into the black slave.

"In this swamp of black death, the most dangerous thing is the ghost beast. You have the sky demon flag and the power of the green lotus demon fire that I penetrated into your body. Even if you encounter the ghost beast, there is no danger. Once you get rid of Liu Ze and them, you can find a place to hide. After I get Ku Yunzhi, I will come to you as soon as possible."

"Hey, little dust, don't worry. This is very close to the location of the underground ruins I discovered. Old Hei, I was here a few years ago. I have been wandering for a long time. I am familiar with the terrain. Then Liu Ze wants it is not so easy to catch me. If so, there is little dust, then I will leave first."

After the black slave finished speaking, he immediately went out of the concealed formation, moved in the other direction, quickly flew past, and quickly disappeared.

It was hundreds of miles away at this time.

"Ok?"

Liu Ze, who was heading southeast, stopped abruptly.

"President Liu, what's the matter?" Ji Moxin also stopped in amazement.

Liu Ze frowned, looked at the disc in his hand, and said in doubt: "The tracking marks on those two guys can be sensed again."

"This..." Hatomo was stunned: "Then what shall we do?"

Liu Ze thought for a moment, and said in a deep voice: "The location of the tracking mark is just near before. It should be that the two of them entered some weird place, or for some reason, the instrument could not detect the signal of the tracking mark. After leaving that place, the signal appeared again."

"But the weird thing is that instead of going southeast this time, they went northeast instead."

Dove Moxin asked suspiciously: "Could it be that they found the tracking mark?"

"Absolutely impossible." Liu Ze shook his head and said to himself: "My tracking mark, even the sixth-order Wuzun, may not be able to detect it. How could they two fifth-order Wuzong find out? It should be an accident."

Speaking of this, Liu Ze grinned: "Go, let's go over immediately, let them escape a disaster before, this time, they are not so lucky."

When the voice fell, Liu Ze and Jiu Moxin changed their positions, and quickly flew towards the moving tracking mark.

Qin Chen waited for the concealment formation for a while before putting away the concealment formation and swept towards the east.

Half an hour later, Qin Chen had already arrived near the location marked by the black slave on the map.

"It's around here."

Putting away the map, Qin Chen flew by for a moment, and suddenly a lake appeared in front of him. It was said that it was a lake, but it was actually just a larger water.

"This is it."

Qin Chen's eyes brightened, and he blinked on the edge of the lake.

Chapter 584

In the black slave's narration, the forbidden area he said was in this lake. As long as you enter this lake, you can find the underground ruins.

But in the Black Death Swamp, waters and lakes of this kind are the most dangerous, because no one knows what will be there.

It is very likely that there will be some scary blood beasts hidden.

And in the Black Death Swamp, the penetrating power of the martial artist's perception is extremely weak, and he can't see what's in the lake at all.

Therefore, even a Tier 6 Wu Zun seldom would dare to dive into this type of lake, unless it was him who died.

The black slave also entered the lake after an accident several years ago and saw the underground ruins.

"Explore it first."

Qin Chen did not hesitate to release his soul power directly. In places like the Black Death Swamp, the soul power is still more reliable, and the penetration of soul power is much stronger than mental power.

What puzzled Qin Chen was that this lake was extremely ordinary, no matter how he explored it, it was just an ordinary lake, and there was no trace of traces at all.

"The black slave should not lie to me. If what he said is false, it will be exposed as soon as he gets here."

Thinking of this, Qin Chen didn't hesitate, his figure shook, and he rushed directly into the lake.

"Wow!"

The water splashed, Qin Chen felt cold all over, but the next moment, he no longer felt the resistance of the water, as if he had entered into nothingness.

Qin Chen immediately understood that this was indeed an advanced concealment formation, and even the level was higher than what he had imagined, otherwise he would not fail to see a clue.

Looking around, there was something underwater in front of him, and what appeared in front of him was really an underground world.

The sultry environment, the rich heaven and earth, the hard black rocks around, the rugged growth, and the feeling of the black death swamp, completely different.

But Qin Chen understood that this place should still be in the Black Death Swamp, but under the Black Death Swamp.

After falling on the ground, Qin Chen sighed in his heart, the pervert of the guy who arranged this hidden formation, can arrange such a high-level hidden formation, it is definitely not arranged by an ordinary formation master, or even a modern formation master. Look at this place. Looks like, I don't know how many years it has been.

What Qin Chen was puzzled was that since this guy had arranged a hidden formation, why didn't he arrange a defensive formation?

With the mage's cultivation base, even if only an ordinary defensive formation is added, let alone a black slave, even if a seventh-order martial king enters the lake, it will only rush into the real lake instead of coming to it. a place.

The underground world that appeared in front of Qin Chen's eyes was not big, like a huge square, only about a dozen miles in radius, but inside, there were some strange rocks everywhere, and huge stone pillars stood in it. Extremely messy.

And in the most central location of the underground world, there is a small dry pond. In the center of the small pond, there is a brown boulder standing there. In the center of the boulder, there is a small groove.

Qin Chen immediately understood that this should be where the black slave found Qinglian Demon Fire and Black Gourd.

The black slave once told him that his Qinglian Demon Fire was found in the groove on the black stone platform, and the black gourd was also near the Qinglian Demon Fire. The black gourd even contained fire control. Refining insects and other spiritual insects.

Qin Chen came near the pond, ready to take a look at the environment, and suddenly his eyes condensed, because he discovered that there were actually very subtle restrictions on the stone platform.

These prohibitions are very unique and hidden on the brown boulder. They are not extremely powerful masters of prohibition, and they are absolutely impossible to discover.

Even if Qin Chen hadn't learned about a brand-new method of prohibition and refining in Ancient Nandu, he would not have discovered such a prohibition.

How can there be prohibitions here? Qin Chen was shocked immediately.

The occurrence of the prohibition means that this place was not formed naturally. So, this green lotus demon fire and black gourd were all placed here, but what is his purpose here?

Qin Chen wanted to find a clue from these prohibitions, but he observed for a long time and did not find the slightest clue. What made him feel strange that these prohibitions were actually nurturing prohibitions.

The source is the pond below.

That is, someone put the green lotus demon fire and black gourd here, and then placed a restriction, using the spiritual water in this pond to accumulate the green lotus demon fire and black gourd.

It is a pity that the spiritual water in this pond has almost dried up, and it is impossible to see what kind of spiritual water was once in this pond.

What puzzled Qin Chen even more was that the prohibition on this brown stone platform had no defensive function except for the function of storage.

According to the horror of the formations outside the lake and the restrictions here, those who left the Qinglian Demon Fire would simply arrange a defensive formation or attack restrictions, not to mention black slaves, even if a seventh-order martial king came here, There is only hatred.

The opponent definitely has this strength.

But the other party not only did not set up a defensive formation, but even placed the green lotus demon fire and the black gourd directly here, as if they were about to be taken away by those who found it, and left a sacrifice chain on the black gourd. The method of the spirit worm made Qin Chen wonder why.

Is this clearly cultivating Qinglian Demon Fire for others, or is that person so arrogant that no one can find this place?

After thinking for a while, Qin Chen, who didn't understand the reason, didn't bother to think about it, and continued to move forward.

The most important thing for him now is to find that Ku Yunzhi.

"It should be here."

After only a few kilometers forward, Qin Chen found the place the black slave had said.

This is an extremely flat sand and stone land, but there is a maze and a killing array on the periphery of the sand and stone land.

And this maze and killing array are actually only fifth-order formations, and only fifth-order intermediate formations.

A faint smell of elixir passed from that formation, and Qin Chen knew immediately that Ku Yunzhi was definitely still in this formation and had not been taken away.

And this kind of smell is clearly the ripe smell of Kuyunzhi, and it hasn't been long since it has just matured.

Qin Chen was pleasantly surprised.

What he was most afraid of was that someone had already taken the first step and took away Chu Yunzhi. It seemed that he hadn't already.

For Qin Chen, he could even arrange the formation of the fifth-order peak, and it would be no problem at all to break a fifth-order intermediate formation.

It's just the appearance of these two formations that made Qin Chen's heart sink.

Because in the black slave's notification, there is no formation here at all, otherwise, with this puzzle, the black slave would not have found the Kuyunzhi inside.

Obviously, after the black slaves left, there were others who came here.

And this person arranged a maze and distressed formation here, obviously because Ku Yunzhi was immature, or for other reasons, he could only leave here temporarily, and set up a formation to prevent others from discovering Ku Yunzhi.

Chapter 585

"This Kuyunzhi must be picked immediately, otherwise the person should also be able to calculate the time when Kuyunzhi is generally mature. It should be during this time and will come here."

Regardless of hesitation, Qin Chen immediately broke through these two formations.

But at this moment, he suddenly felt a wave of true power in the void.

"No, someone is coming."

Qin Chen was shocked, and before he could break the formation, he hurriedly found a dark corner of the boulder and hid.

The moment he just hid, a man in gray suddenly appeared in the void, with blood on his body, he was obviously being chased and killed, and the whole person was extremely embarrassed.

After this person appeared here, he was taken aback suddenly, apparently the first time he found this place, his face was surprised.

The next moment, swish swish, three figures swept in again. These three men were obviously hunting down the grey-clothed man. After entering the underground world, they were also stunned.

Looking around, the expressions of the four people all lit up, and one of the three people directly exclaimed: "Underground ruins?"

They are all adventurers in the Black Death Swamp, and naturally know that in this Black Death Swamp, the underground ruins represent treasures.

Qin Chen was also looking at the four warriors secretly at this time. Among them, the one who was hunted down was dressed in gray, with a sullen expression, and he didn't look big, but he appeared to be extremely vicissitudes of life. His cultivation was at the peak of the late stage of the fifth stage.

As for the three people who chased him, the leader was a middle-aged strong man, who looked extremely strong, and was also at the peak of the late fifth stage.

There are two remaining people, one is a woman in her thirties. She has a slightly beautiful length and reveals her clothes. She is extremely seductive. It may be because she has been practicing in this Black Death Swamp all the year round. Because it is not weak, in the late stage of the fifth stage.

As for the last person, also in the late stage of the fifth stage, Qin Chen was surprised to find that he actually knew this person. He was chased by the Anbei double demons when he was in the black cultivator, and then used the fifth stage of the late Wuzong to escape.

Qin Chen didn't have any favorable impressions of this person. At the beginning, this person threw himself a storage ring containing only a low-grade real stone in order to be able to escape in the Black Xiuhui, causing the Anbei Twin Demons to look at him and finally clashed.

If it weren't for this person's sly and cunning, how could he clashed with the Anbei Twin Demons? Although the Anbei Twin Devils could not bring any harm to him, Qin Chen was extremely disgusted with this person.

For this kind of people, for the sake of their purpose, they don't care about whether they hurt the innocent. For them, hurting the innocent is not a thing that will affect their conscience.

As soon as he saw these people, Qin Chen knew that these people must be martial artists who had been practicing in the Black Death Swamp all the year round.

After realizing that he had come to such a place, the man in gray who was hunted down quickly took out a black Ugan-like thing from his body, and threw it to the three people opposite without hesitation.

Then he said coldly: "Ge Peng, there is no grievance between us, so what can we do if you let this blackberry root? This is an underground ruin. Maybe there are some treasures. How about our cooperation?"

"Cooperation?"

The middle-aged brawny man named Ge Peng sneered coldly, and surrounded the gray-clothed man with the two around him secretly, and sneered: "Fei Yang, what qualifications do you have to cooperate with us now?"

The gray-clothed Fei Yang sneered, and looked at Ge Peng's trio with disdain, and said, "Ge Peng, you don't want to swallow things here alone? Let's not say if you have this ability, but here I will take you. You can only come in, otherwise, who knew that there would be such an underground ruin in that lake."

"Furthermore."

The gray-clothed man showed contempt and said: "It's not that I underestimated the three of you. I admit that you three are united and I am not your opponent. However, Fei Yang is not a friendly person, even if I can't beat you. Can you guarantee that you will be able to keep me? I will just send the news back then, no matter what you get in this underground ruin, do you think you can take it back to Black Numa City?"

There was a slight hesitation on the faces of the three of Ge Peng. Indeed, with the three of them joining hands, Fei Yang would not be their opponent at all.

But they can't guarantee that they will stay with each other. Once the news goes out, they won't pay for it.

"Then what do you mean?" Ge Peng said coldly, but his tone was obviously much relaxed.

"I found this underground ruin, so I don't want to have too much. Wulan root has already given you. Then, I want a quarter of the things in this underground ruin, how about it, isn't it too much? If you don't agree, I will immediately escape and spread the news outside." The gray-clothed man said coldly.

"A quarter? Well, I promise you."

Ge Peng paused, and finally said coldly.

"In that case, let's quickly find out what is there!"

Qin Chen thought that these four people would fight because of the underground ruins, but he didn't expect that they all put away their weapons in the end and began to look around in the underground ruins.

Qin Chen's heart immediately sank. If it was another time, he would definitely have to kill him when he met the kid who had framed him before, but at this critical moment, he wished the four of them would leave quickly.

Even if they have treasures like Wulangen.

Wulangen is a Tier 5 top elixir with amazing medicinal power, which can quickly improve Wu Zong's cultivation base, and even has a certain effect on Tier 6 Wu Zong.

But what Qin Chen needs most now is Ku Yunzhi. As for other things, I will talk about it later.

As I was thinking, suddenly there was an exclamation: "Brother, look here."

Obviously these four people have discovered the place where the Qinglian Demon Fire was originally placed.

"There is a stone platform here. There should be something in it. How could it be gone?"

"Did someone find out here first?"

"Damn, who the \*\*\*\* was here?"

Seeing the empty stone platform, the faces of these four people became extremely ugly.

"This place, someone has come, shit, what else is left here?"

"I'm afraid it's been searched away long ago."

The four were extremely angry.

Obviously, someone here has long said that if this is the case, there will obviously be no treasures in this underground ruin.

"Well, if the four of them become discouraged, they can leave immediately." Qin Chen prayed in secret.

"Look again, is there anything else."

But these four people obviously didn't make Qin Chen wishful. Although they found that someone had been here, they still searched around. The gesture was like digging three feet.

Qin Chen's heart suddenly sank, especially the revealing woman who gradually searched for the place where he was hiding, and even came to the side of the huge rock where he was hiding.

Chapter 586

In a hurry, Qin Chen had nowhere to hide. Once the opponent came near the huge boulder, he would definitely find him hiding behind the huge boulder.

Holding the mysterious rust sword tightly, Qin Chen's eyes were cold. If the other party really found him, then there would be no way, and then there would be only one battle.

It's just that the opponent has two great Wuzongs in the late stage of the fifth stage, and two Wuzongs in the late stage of the fifth stage. Without arranging the formations in advance, Qin Chen knew very well that it would be difficult to defeat the four by himself. may.

But for the sake of Chu Yunzhi, even if he was fighting danger, he would never give in.

Seeing that the woman was approaching, she was about to find Qin Chen.

"Look, there seems to be something here."

A low voice came, and immediately attracted the attention of the woman.

Qin Chen knew immediately that these four people should have discovered the formation of Ku Yunzhi.

Sure enough, after the low voice sounded, all four of them came to Ku Yunzhi's place.

"Huh? There seems to be a formation here."

"There must be some treasure in it."

"Hahaha, great."

All four of them looked excited, their eyes staring fiercely at the formation in front of them.

"Since the formation is set up here, there must be something in it. Otherwise, who would be okay to set up such a complicated formation here. Let me try it first." The stalwart Ge Peng came forward first and appeared in his hand. A black mace that was half a person tall, after an angry shout, it slashed towards the formation.

"boom!"

The huge black mace slammed heavily on the formation, and saw the brilliant array of light instantly shine, and quickly resisted the full blow of the strong man. At the same time, the amazing array of light, from that formation spit out suddenly, madly slashing where the strong man was standing.

Boom boom boom!

An astonishing roar sounded, and the place where the burly man stood was instantly shrouded in countless bursts of light.

The few people standing around were taken aback. They looked worriedly at the place shrouded in light, and exclaimed: "Big brother, how are you?"

The place where the light struck, exploded with a bang, and the burly man walked out of it with a look of embarrassment. Many parts of his robes were torn apart, his head and face were gray, and a lot of his skin was split by the light. Come, blood oozes.

"Brother, are you okay?" Wu Zong and the young woman hurriedly surrounded him.

"I'm fine, shit, this turned out to be a killing formation, but fortunately, I was prepared for it, otherwise it would be really dangerous."

The strong man said with lingering fear.

"What are we going to do now?" The thin Wu Zong who had pitted Qin Chen was the first to calm down and said while looking at the strong man.

"What can I do? There must be treasures in it. You have to break this formation before you know what's inside. Let me continue to try."

The sturdy man, aside from anything else, came to the front of the formation again. This time, he raised his mace high, an astonishing breath escaped from his body, and blasted down with all his strength.

"boom!"

This time, the burst of light was even more terrifying, and the entire underground world seemed to tremble under this blow, and the endless killing light suddenly surrounded the magnificent Han.

"puff!"

A mouthful of blood spurted, and the strong man stepped back two steps, his face was pale, and he apparently suffered some minor injuries again.

"Big brother, are you okay?" The thin Wu Zong and the \*\*\*\* young woman gathered around again.

"Damn, what kind of formation is this, why is it so perverted? There are no traces of damage?" The sturdy man doesn't matter at all to his injuries, just staring at the formation in front of him.

After two rounds of attacks by him, the aura of that formation didn't weaken a bit, obviously it was not destroyed to the slightest.

This made the strong man extremely depressed.

If they couldn't break the formation, they would have gone into Baoshan and returned empty-handed, which would make people crazy.

"Fei Yang, don't you just look stupidly, don't know how to think of a way? If you can't break this formation, you won't get anything." In his anger, the stalwart Ge Peng coldly faced the man in gray. Shouted.

"Let me try it."

The man in gray had been watching for a long time, and then he immediately stepped forward.

He didn't want to shoot like a strong man, but tried several positions of the formation, and then walked back with a gloomy expression.

"How is it?" The three of Ge Peng looked over. They knew that Fei Yang, although his cultivation base was similar to them, was extremely knowledgeable and even better than them.

Fei Yang's face was gloomy and said: "I just tried it. This formation is powerful enough to kill the fifth-order Wuzong, but for the two of us, as long as we take care of it, it won't kill us. Worry, obviously, the killing formation here is a fifth-order formation, but it should not reach the fifth-order peak level. Otherwise, with your cultivation base, it was more than just a slight injury."

"If it's just an ordinary Tier 5 killing formation, with our four cultivation bases, we will continue to take action. Sooner or later there will be time to break this formation. But I just observed it again and found that our attack entered this killing formation. After the middle and late, the loss of the killing array itself is extremely small, even negligible. Moreover, every time it is shot, it seems that the attack is in the same place of the killing array, but in fact it is not the case."

"It can be seen that there should be another formation above this killing formation, and the level is not below that killing formation, otherwise there will be no such consequences. As for the specific formation, I am not a formation mage, so it's not very clear either."

Ge Peng frowned and said: "From your point of view, how can the four of us break this formation?"

Fei Yang shook his head and said in a deep voice: "If there is a formation mage here, we may still have the possibility of breaking this formation, but with the four of us, when we encounter such a twin formation, we want to break it. almost impossible."

All four people on the court turned pale.

"Then what to do? Is it necessary to go out to find a formation mage, and then come in to crack this formation is not successful?" Ge Peng's face was stern, and he finally found an underground ruin that was not available, and his heart was naturally extremely angry.

"Apart from this formation, isn't there any other treasures here?"

In anger, Ge Peng slammed his mace to the surroundings. Numerous stick figures with amazing true power instantly blasted on the surrounding giant stone pillars. It was smashed and turned into ashes.

Countless rubble scattered and scattered, filling the entire underground ruins with smoke and dust.

The place where a large amount of rubble splashed is the direction of Qin Chen.

To be discovered!

Qin Chen sighed in his heart. He thought that the opponent could not break the formation and would leave here to find the formation mage. He didn't expect to destroy it everywhere. Once these rubble fell on him, no matter whether he avoided it or not, he would definitely be discovered. .

Sure enough, when the densely packed rubble fell on Qin Chen, both Ge Peng and the gray-clothed Fei Yang felt something was wrong, and their heads suddenly turned around.

Chapter 587

"who?"

There was a loud shout, and immediately after that, a murderous intent like a vast ocean rushed towards Qin Chen's place.

The two masters, Ge Peng and Fei Yang, stared at Qin Chen's position for an instant, with weapons in their hands raised suddenly, with vigilant expressions, murderous intent, apparently as long as there was something wrong, they would make a decisive move.

"Several people, don't do it, I just came here accidentally."

Qin Chen stood up hurriedly, raised his hand timidly, pretending to be harmless.

Is it a teenager?

Ge Peng and Fei Yang looked puzzled, how could there be a teenager hiding here.

While doubting, they all breathed a sigh of relief. They saw that although Qin Chen's cultivation was not weak, it was only a Tier 4 Xuan-level martial artist and could not threaten them at all.

"It's you?"

But the weak Wu Zong exclaimed.

"Fang Tian, do you know him?" Ge Peng, a sturdy man, looked over at the first instant.

"Yes, eldest brother, I met this kid in the Black Order before. At that time, there was a cloak man next to him, and that cloak man was also a master of Wuzong. At that time, the Anbei twins wanted me to hand over the black grass. I He threw a storage ring to this kid, and diverted the attention of the Anbei twin demons. Only then did he escape from the Anbei twin demons. I didn't expect that this kid was not dead."

"Oh? What's the matter?" Ge Peng sneered, and said coldly to Qin Chen: "Boy, what are you doing in hiding here."

As soon as the words fell, and suddenly, as if thinking of something, Ge Peng's expression suddenly became excited, and instantly came to Qin Chen, picked up Qin Chen, and said excitedly: "Is the treasure on the stone platform just now? You took it away and handed it over immediately."

As soon as these words fell, several other people woke up. Yes, since Qin Chen is hiding here, he must have come before them. In this case, it is very likely that the treasure here has been taken away by Qin Chen first, and the treasure is there. On Qin Chen.

All of a sudden, the eyes of several people became fiery.

"I..." Qin Chen said with trepidation, "No, I didn't take it. When I came here, there was nothing on the stone platform. You have also seen it. The aura around the stone platform has long been scattered. , If it's the treasure I just took away, how could it be so quick that the aura would be scattered."

"As for me hiding here, I saw that there are two formations here, so I tried to break the two formations here, who knows you are here, I really didn't take anything."

Qin Chen looked terrified, and was carried by Ge Peng, with no resistance at all.

Hearing this, everyone was taken aback.

They have lived in this Black Death Swamp for so long. Naturally, they are not idiots. Although there are grooves on this stone platform, there is no aura around them. Obviously, even if there are treasures, they have been taken away for a long time. Taken away.

If Qin Chen was still in the black cult a few days ago, it is really possible that he didn't take the treasure on the stone platform.

"Hmph, whether you took it or not, you are sneaking around here. You must be uneasy or kind. Maybe you're still waiting for your elders to come over and kill you first."

Ge Peng's eyes were cold, and he was about to kill Qin Chen.

Qin Chen felt cold. The reason why he pretended to have no strength to fight back was because he wanted to paralyze the opponent.

Unexpectedly, the other party would kill him if he didn't say anything. Qin Chen quickly glanced at the positions of several people. He quickly calculated that if the other party did it, how he would do it in order to gain the advantage in the shortest time.

"Ge Peng, stop!"

At this moment, the man in gray suddenly stepped forward and stopped Ge Peng.

"What do you want to do?" Ge Peng looked at Fei Yang coldly.

Fei Yang ignored Ge Peng, squinting his eyes and said to Qin Chen: "What did you just say, can you crack the formation here?"

Ge Peng was taken aback, and immediately understood why Fei Yang didn't let him do it.

Qin Chen nodded hurriedly and said: "Yes, I am an array mage, and I am a Tier 4 array mage."

When Qin Chen said that he was a Tier 4 Array Mage, everyone was excited.

"Then can you break the formation here?" Fei Yang said, pointing to the formation ahead.

"I can try, but the two formations here are all fifth-order formations, and I definitely can't break it alone..." Qin Chen said timidly.

"Don't worry, there are still us, as long as you can break this formation, we will spare your life, how about it?" Fei Yang winked at Ge Peng.

"Haha, little brother, he is right, as long as you can break this formation, we will spare your life."

Ge Peng put Qin Chen down and said with a smile.

"Yes, the juniors will do their best to break the formation, as long as you don't kill the juniors." Qin Chen nodded hurriedly, like a drowning man who has caught the straw.

"By the way, where is the man in the cloak who was with you in the Black Xiuhui before?" Fang Tian, the thin Wu Zong suddenly said.

Qin Chen's face suddenly showed a trace of anger and sadness, but he was quickly restrained, and said in a low voice: "That's my master. When I was in the Black Order, you gave me a storage ring, An Beishuang The devil thought that something was on me and wanted to kill me. My master was killed by the Anbei twin demons in order to protect me. When I was afraid, I hurried to the Black Death Swamp..."

"The man in the cloak turned out to be your master? Alas, it's a pity that I blamed him for being killed by the Anbei Twin Demons. You won't resent me?" The thin Wuzong Fangtian patted Qin Chen on the shoulder and sighed. .

"No, no, my master's death has nothing to do with the predecessors. It is the Anbei twin demons. They are despicable and shameless. Sooner or later, I will kill them and avenge the master myself." Qin Chen gritted his teeth and showed hatred. Said.

Speaking of this, Qin Chen said timidly: "It's a pity that Senior's storage ring was taken by the Anbei Twin Demons, otherwise the younger generation will definitely return it to Senior."

"Forget it, lose everything if you lose it." Fang Tian shook his head and said, "You only need to concentrate on breaking the formation now."

"Yes, senior, junior must do my best to get rid of this formation."

With all eyes in full view, Qin Chen immediately came to the formation and focused on the deduction.

This fifth-tier mid-stage formation is still a twin formation, which is quite good, but this formation is too far behind if it wants to stump Qin Chen.

Within a moment of effort, Qin Chen had already peeked out the essence of this formation, and had a clear understanding of the position and loopholes of each formation flag.

But Qin Chen did not break the formation rashly, but continued to investigate inside. Through these two fifth-order formations, Qin Chen suddenly discovered that behind this formation, there really is a piece of sand and stone, on this sand and stone ground, There was a palm-sized Kuyunzhi faintly growing, and that Kuyunzhi had turned purple.

Wannian bitter rhyme!

Qin Chen immediately took a breath.

Chapter 588

Ku Yunzhi has extremely bad growth conditions. Although its rank is only six, it is a panacea for the top experts in the entire Tianwu Continent.

Because its efficacy is only effective for warriors below the seventh-order martial king, Kuyunzhi is designated as a sixth-order panacea, but it does not mean that Kuyunzhi has no rank.

Judging by its growth time, Kuyunzhi is divided into Centennial Kuyunzhi, Millennium Kuyunzhi and Wannian Kuyunzhi.

Among them, the color of Hundred Years Kuyunzhi is red, and with the passage of time, after absorbing more and more aura of heaven and earth, it will slowly become Millennium Kuyunzhi, and the color will gradually deepen.

When the year of Kuyunzhi reaches ten thousand years, it will become purple all over.

And the year of the Bitter Rhizome in front of me has turned purple, which means that this Bitter Rhizome has been alive for at least 10,000 years.

The centuries-old Kuyunzhi only helps the martial artist to cleanse the erysipelas and relieve the unstable foundation.

After the millennium, on this basis, the martial artist's body can be transformed to a certain extent.

And the legendary Ku Yunzhi, who has reached ten thousand years, even possesses the ability to be reborn.

Of course, this is just a legend.

After all, in the Tianwu Continent, the thousand-year-old Ku Yunzhi is extremely rare, let alone ten thousand years. Qin Chen has never seen it even if he is famous in the Wuyu in his previous life.

And the Kuyunzhi in front of me, turned out to be the purple of ten thousand years. How long had it been cultivated?

"Huh? Outside of this Ku Yunzhi, there are even restrictions."

Qin Chen's attention was completely attracted by Wannian Ku Yunzhi at the beginning, but suddenly, he discovered that there were many restrictions outside of Ku Yunzhi.

The structure of these prohibitions is very similar to the prohibitions on the stone platform before, but their functions are quite different.

The prohibition on the stone platform only helped Qinglian Demon Fire to absorb the aura in the pond, but this prohibition was a defensive prohibition, obviously preventing others from taking away Ku Yunzhi.

Moreover, the restrictions outside of Ku Yunzhi are very complicated. Even Qin Chen can only look at the clues at first glance, but cannot understand the specific structure at a glance.

Who is it that stored the Qinglian Demon Fire and this Kuyunzhi in this relic world?

Qin Chen was full of doubts, and he was definitely not an ordinary person who was able to cultivate a 10,000-year-old bitter rhyme and plant such a complex restriction.

"Little brother, how about it, you have been observing for so long, can you break this formation?"

Just when Qin Chen was stunned, Ge Peng and others on the side could not wait, and shouted coldly.

Qin Chen circled around this formation for several times, but didn't say a word. Several people even doubted whether he was a real formation mage.

Qin Chen came back to his senses and said, "There should be no problem. I observed it. There are two formations in it."

"Nonsense, we also know this." Ge Peng said with an ugly face, this view Fei Yang had said earlier.

Qin Chen didn't care, and continued: "These two formations, one is killing formation, the other is maze formation!"

"Mission?" Fei Yang said suddenly.

"Yes, it is a maze. The so-called maze is a form of confuse the martial artist. Under this maze, whether it is a martial artist or a mages, the observation of the formation method will cause errors. When attacking and cracking at the same time, It will also be disturbed by the maze. It is an extremely professional formation that can not be arranged by an ordinary formation mage. Its purpose is to prevent others from cracking the killing formation."

Fei Yang nodded, if it weren't for this maze, maybe some of them Wuzong, without Qin Chen, might break through that killing formation.

Qin Chen continued: "The killing formation in these two formations should be a Tier 5 sword killing formation. It uses formation aura to imitate sword aura and attacks the enemy. The power is terrible. As for the confusion formation, I didn't see it. The specific formation method, but I have observed some of the operation rules of this puzzle formation. If it just breaks open, it is not impossible."

"Okay, okay, so what are you waiting for, without telling us how to break it."

Ge Peng was extremely excited, they were helpless with this formation before, but now, at least they have found some clues, and immediately urged them.

"Yes, with my current formation, it is impossible to directly crack these two formations, but I can destroy the protection of the maze against the killing array first, so that several people can directly fight against the killing array. Attacking will naturally destroy the formation, but once the killing formation is broken, the confusion formation will naturally lose its effect." Qin Chen explained.

"In that case, don't hurry up." Ge Peng urged.

Qin Chen hesitated and said, "But there is one more question..."

"what is the problem?"

"If you want to isolate the protection of the maze from the killing array, you must refine some formation flags, and these two formations are both Tier 5 formations. Only the formation flags refined with some

high-level materials are effective. Refining more advanced materials for the formation flag..." Qin Chen said weakly.

Ge Peng glanced at each other.

They all doubted whether Qin Chen was cheating, but after thinking about it, they found it impossible, not to mention losing some high-level materials for the treasures of this formation.

They roam the Black Death Swamp all the year round, and they have more or less advanced materials.

"We have it here, here you are."

In the end, Ge Peng, Fei Yang and others took out all the advanced materials they had on them, "Is this enough?"

"Enough, enough."

When Qin Chen saw the high-level materials in front of him, he was immediately delighted and sneered: These idiots, the banners refined from these materials, will kill you after a meeting.

While talking, even began to refine.

I have to say that these guys have been roaming the Black Death Swamp all the year round, and there are really a lot of high-level materials on their bodies, many of them, even Qin Chen didn't expect it at first.

But Ge Peng and others looked at Qin Chen coldly, if Qin Chen dared to play tricks in front of them, they would take action without hesitation.

In order not to make the opponent suspicious, Qin Chen refined some Tier 4 formation flags, and the speed was not fast. After more than half an hour, he had refined more than ten formation flags, and instantly threw them into the formation in front of him. In the law.

Hum!

A burst of light flashed, and Ge Peng and the others clearly felt that there seemed to be a slight difference in the formation in front of them, but they couldn't see the specific difference.

"Several people, you can do it now." Qin Chen said, standing aside.

He didn't need to speak at all, Ge Peng couldn't wait to step forward, and a mace fell.

boom!

The formation in front of him fluctuates instantly, a huge force hits, the killing array is excited, and Ge Peng is instantly enveloped by countless arrays of light, kicking back a few steps, but the fifth-order killing array in front of him is under his attack. , There was a slight tremor.

It really works!

The eyes of a few people all lit up instantly.

Chapter 589

Before they attacked this formation, the biggest problem was that once they attacked the formation, they would not cause any damage to the formation.

In this case, they consume real power, but the formation is safe and sound.

And now, although the killing array still exists and its power has not changed, their attacks are firmly on the killing array. No matter how powerful the killing array is, they will always be broken under continuous attack. when.

Thinking of this, Ge Peng and a few people took action one after another.

I only heard the continuous roar, and after the killing array was attacked, it continued to shoot out an astonishing formation, attacking several people, but the killing array itself, also under continuous attacks, began to gradually shake.

After ten or so attacks, it was visible to the naked eye that the light on the killing formation was obviously weaker.

"Hahaha, it seems that this method is really effective." Ge Peng laughed excitedly, and at the same time glanced at Qin Chen, a cold stern flashed in his eyes, and then winked at the thin Wu Zong Fang Tian, killing intent. reveal.

Although this move was slight, Qin Chen could see clearly.

He suddenly sneered in his heart, he knew that Ge Peng was going to kill the donkey, but now he hasn't even broken the formation, this guy is too anxious.

With a sneer in his heart, Qin Chen kept moving his hands. When Ge Peng and his team stopped their offensive, they continued to throw two flags into the formation, and at the same time pretended to be very strenuous and said: "Several guys, don't stop. My formation flag is only a Tier 4 formation flag. If you want to influence this maze, you must continuously throw it into the formation flag. You can break the killing formation as quickly as possible, otherwise once I refine the formation flag If you don't have enough materials to control the fascinating array, then all your efforts will be lost.

Fang Tian, who had already stopped the attack and withdrew to prepare to take action against Qin Chen, was taken aback for a moment, and he even glanced at Ge Peng.

"You mean we don't break the killing formation in time, this maze will re-shroud the killing formation?" Ge Peng frowned.

Qin Chen nodded and said, "That's what I mean, and I don't think I can hold on for long. You have to hurry up for a stick of incense at most."

"Made!" Ge Peng cursed, and Tian angrily said: "What are you doing in a daze? Come over and break the formation."

Qin Chen sneered in his heart. He knew that Ge Peng had temporarily dispelled the idea of killing himself, but once the killing array broke through, he would definitely do it the first time.

But by that time, his own arrangement is over, and who will die is not necessarily.

At the moment, Ge Peng and others attacked even more rapidly.

Under the continuous attack of several people, the killing array kept shaking, and cracks even began to appear on the surface of the light.

"It's almost time to do it."

And Qin Chen has also finished setting up his formation flag.

Although the array flag he threw before was only a Tier 4 array flag, a few extremely obscure restrictions were added to the array flag. Once it broke out, a brand new array method would be formed.

This formation combines the previous maze and kill formations to form a serial formation in an instant. At that time, the combined power of the three formations is definitely not as simple as one plus one equals two.

Just when Qin Chen was about to do it.

Hum!

In his perception, a wave of true power suddenly appeared.

someone is coming.

Qin Chen's heart sank immediately, and he stopped his actions. He did not expect that someone would come over at such a critical moment.

Ge Peng and the others obviously also sensed the fluctuations in their true power, and stopped their hands one after another, and looked at the entrance warily.

I saw in the void, a figure suddenly appeared and landed in the underground ruins.

Lai Ren is an old man with gray beard and hair. He seems to be more than sixty years old. He has a strong aura, no weaker than Ge Peng and Fei Yang.

As soon as this person entered, he directly saw Qin Chen on the court, and at the same time saw the formation that had begun to break, his eyes condensed instantly.

"Where is this place?" He looked around suspiciously, seeming to be extremely shocked by the underground ruins.

"Who is Your Excellency?"

Ge Peng ignored the attack and immediately surrounded the old man.

boom!

As soon as they stopped their attack on the formation, Qin Chen waved his hand and quietly changed the formation flag in the formation when his attention shifted, and then stood aside.

But without the offense of Ge Peng and others, the formation that had been shaken before, immediately recovered.

"The old man is a master of formation. I accidentally discovered this place. I didn't expect to meet a few people. Don't worry, the old man is not malicious."

The white-haired old man hurriedly raised his hand and said gently.

"No malice?" Ge Peng sneered and looked at each other with Fei Yang.

The aura on this old man's body is not weaker than that of them. If you want to do it, the two of them must do their best to leave the other side behind. Even so, it may not be possible.

"Don't be nervous, I just came here unintentionally. I don't have any thoughts about the treasures here. I think a few of them seem to be attacking a formation. The old man is a Tier 5 formation master. If possible, old man I am willing to help some of you."

"Are you a Tier 5 Array Master?" Ge Peng and the others were shocked.

In these years, how come all individuals are array mages, and when are array mages so rampant?

"Yes, the old man is a Tier 5 formation master. He is quite curious about the previous attacking formations. If a few are willing, the old man can help you break through that formation. As for if there is any treasure inside, old man I don't take it at all. Of course, if a few consider the old man's hard work and give him even a little bit, the old man will naturally be more grateful and disrespectful."

"If you can't believe in the old man, the old man can leave now, and it will never cause the slightest trouble to them."

Ge Peng and the others secretly communicated, and it was obviously impossible to let the old man leave, and the news would inevitably be leaked.

For the current plan, we can only leave the other party before making plans.

"In this case, your Excellency, see if you can break the formation in front of you!" Ge Peng said with squinting eyes.

"Haha, let the old man take a look."

Before coming to the two formations, the old man took a closer look, suddenly glanced at Qin Chen on the side, and smiled: "This little brother is also a master of formations?"

"In front of the senior, the junior dare not call himself a master, but the junior is indeed a Tier 4 array mage." Qin Chen said.

"Interestingly, if the two formations in front of you are right, they should be the fifth-order sword slaying formation and the lost track formation. Your Excellency can destroy the connection between the two with the fourth-order formation flag. Very deep."

"Don't dare, it just happened to be lucky." Qin Chen looked a little embarrassed when he was praised by the old man.

"Your Excellency, can you break this formation?" Ge Peng said solemnly.

"Hehe, it can be broken naturally."

Without saying a word, the old man threw out more than ten array flags. As soon as these array flags fell into the large array, I saw the array of lights rising up, and the two large arrays that originally flashed with terrifying light suddenly collapsed. Open.

## Chapter 590

Seeing the old man's method of throwing the formation flag, Qin Chen's eyes suddenly condensed.

And Fei Yang and Ge Peng also showed solemnity and vigilance in their eyes.

In the previous formation, a few of them only found some flaws after breaking through for so long, and this old man, in just a few moments, had already found a way to break the formation, and quickly broke it, apparently an accomplishment. The fifth-order Array Master is extremely behind him.

Originally, the cultivation base of the opponent's fifth-stage late peak Wuzong was not enough to make the two vigilant, but coupled with the identity of the master of the formation, it has already made the two pay attention.

"Well, your Excellency really deserves to be a Tier 5 master of the formation, a good method, if there is any treasure in this formation, I will definitely not treat you badly."

Ge Peng and Fei Yang said in a deep voice.

For the current plan, you must first stabilize the opponent.

"A few are polite, the old man is just a little curious about this formation, his hands are itchy, if there is a treasure, he will never compete with a few."

The old man said gently, but his gaze was staring at the formation in front of him, as if he was observing the composition of the whole formation and then learning.

Qin Chen sneered in his heart. As soon as the old man came in, he had already felt something wrong. Now that he saw the old man's method of breaking the formation, he immediately understood the reason.

What is the first time this old man came to this underground ruin? Although his method of breaking the formation is well hidden, Qin Chen has such a look, he can tell at a glance, the other party is very familiar and understanding of these two formations. .

Qin Chen understood in an instant that this old man not only came to this underground ruin for the first time, but even the two fifth-order formations that trapped Ku Yunzhi were arranged by him.

It is very likely that when he first discovered this place, Ku Yunzhi was not yet mature, so he laid out these two formations and prepared to come when it was mature.

Who knew that after coming in, they found that someone had already made the first step, so they deliberately pretended that it was the first inadvertent break in, the purpose was to paralyze Ge Peng and the others.

Then he participated in it in the name of pretending to break the formation.

What a deep method, Qin Chen sneered in his heart, no matter what abacus the old man was playing, he had to be extremely careful.

As the old man kept throwing out the formation flag, the light that had originally enveloped this place quickly disintegrated, and after a stick of incense, all the light had completely dissipated.

The scene before him was also presented in front of everyone.

Seeing that there was only one elixir in the formation, Ge Peng and the others suddenly showed disappointment, but after seeing the true face of the elixir, they were all shocked.

"Bitter Yunzhi, it turned out to be Kuyunzhi."

"The legendary medicine that can remove erysipelas and eliminate all the unstable foundations?"

"Purple Kuyunzhi, what age is it? It is rumored that Kuyunzhi is not red? How could this Kuyunzhi be purple?"

"I don't know, but this is definitely Ku Yunzhi."

The faces of several people flushed with excitement, and they couldn't even breathe.

As long as it is a warrior from the Tianwu Continent, there is hardly anyone who doesn't take pills.

Especially ordinary martial artists like Ge Peng. Although their talents are not weak, they are not amazing. Wu Zong who can reach this point and become the peak of the late stage of the fifth stage has experienced too much danger and suffering.

He even took a lot of medicinal pills in order to advance to the first level, and went through inhuman experience.

And now, still in this black death swamp seems to experience and explore.

What for?

It is not one day that you will be able to knock on the door of the Venerable and enter the realm of the sixth-order Wu Zun!

But they all know that with their talent and body, it is almost impossible to reach the realm of Wu Zun.

It wasn't for other reasons, but for the first half of their lives, they had taken too many pills, and there was too much erysipelas accumulated in their bodies.

With such a physique, it is no accident that he can achieve half a step of martial arts in this life, which is already considered as thankful.

Let alone how to become a sixth-order Wuzun.

But now, all of this will be changed.

Kuyunzhi can eliminate all erysipelas and change the state of the warrior's unstable foundation.

It can be said that this is a kind of magic medicine, which is only effective for warriors below the seventh rank.

Once taken, no matter how much erysipelas there is in the martial artist's body, it will be completely eliminated, and the foundation will become stronger than ever.

By then, entering the sixth rank of Wu Zun will no longer be just a dream.

Even if there are adventures in the future, it is not impossible to snoop into the legendary state of King Wu.

"Okay, great, brother, I'll pick it up."

As soon as his figure moved, Fang Tian, the thin and weak Wu Zong, was the first to bear it, and the first to rush forward, he was about to take off Ku Yunzhi.

However, without waiting for him to come to Ku Yunzhi's body, suddenly, bang, countless lightning surges, a series of terrifying restraints, instantly emerged on the gravel surrounding Ku Yunzhi.

Suddenly, Fang Tian was wrapped in a large number of restraints, and his armor was shattered. With a bang, his whole body flew out heavily, spouting a mouthful of blood.

"Didn't the formation have been broken? What the \*\*\*\* is this?" Ge Peng was a little dissatisfied with Tian impulse's shot at the other side. After seeing this, he was shocked.

"It's a ban. If I'm not mistaken, there is a ban on the periphery of Ku Yunzhi." Fei Yang stared at the Ku Yunzhi in front of him, and said in a deep voice, and at the same time he lost his original excitement.

"Prohibition, what kind of ban? I don't believe it, the fifth-order formation is broken, and the mere ban can hardly stop me."

Ge Peng raised his mace and faced the restraint outside of Ku Yunzhi.

It was just a muffled sound. Numerous prohibitions resurfaced. Ge Peng flew out with a bang, blood was overflowing from his mouth and nose, but the prohibition outside of Ku Yunzhi did not even cause any damage, even the surrounding areas of Ku Yunzhi. The sand and gravel were not damaged at all.

Several people suddenly gasped.

Ge Peng is already one of the top three people on the scene. With his full blow, he failed to make a sensation even with a grain of sand. On the contrary, he was seriously injured. How terrible is this restriction?

"This prohibition is definitely not something that can be broken by a strong attack. If you attack, let alone those of us, even the Martial Master of the sixth-order peak, I am afraid there is no way to break this place." The gray-bearded old man suddenly said.

Fei Yang and Ge Peng's faces twitched a few times, but they couldn't get such a treasure. How strong was their inner aggrievedness?

At this time Qin Chen finally understood why the black slave said that Ku Yunzhi was dangerous. Although this prohibition was only a defensive prohibition, once it was attacked, an unprecedented counterattack force would definitely erupt.

Ge Peng had already stepped forward again at this time, he wiped the blood from the corner of his mouth, and said to the old man: "Your Excellency, since you know this is a restriction, is there any way to break him."

For a moment, everyone looked at the gray-haired old man.

The old man was stared at by everyone, frowned and said: "This prohibition level is extremely high, and it must be higher than the previous two fifth-order formations. Although the old man is a fifth-order formation master, he dare not say anything. There must be a way to break it. Fortunately, this prohibition should be a defensive prohibition, so as long as it is not for our reckless offense, there will be no danger to life."
