

## Valkyrie 591

### Chapter 591 Liuhe Sacrifice Refining Array

"Your Excellency said that, is there any way?" Ge Peng didn't care what the old man said, he only cared about whether there was a way to break the formation and get Ku Yunzhi.

"There is one way, but the old man can't guarantee that he will succeed. Moreover, the old man himself will wear a lot of the formation method, I am afraid..." The old man said half of his words, but did not continue.

Everyone immediately knew that the other party was asking for benefits.

The old man did not mention it. After mentioning it, Ge Peng's hearts were let go, because the old man actively broke the formation before, but did not ask anything, it was a little weird.

"Okay, you needn't say more, as long as you can help us break this prohibition, I can guarantee you a share of this bitter yunzhi, you should also know the rareness of bitter yunzhi, we can totally hire a refiner The master refines, and the refined medicine is divided equally." Ge Peng said without hesitation.

"Haha, the old man will have no problem." The old man stroked his beard immediately and laughed.

After speaking, the old man immediately came to the front of the restriction, and continuously took out the formation flag and began to arrange the formation outside the restriction.

Qin Chen was proficient in formations, and at first he could see that this old man had arranged a "Liuhe Sacrifice Formation". This formation could use the strength of six people present to make simultaneous shots, and then break the restriction in front of him.

It's a fairly satisfactory way to break the prohibition.

But Qin Chen immediately discovered that the sequence of the "Liuhe Sacrifice Refining Array" arranged by the old man seemed to be a bit wrong.

Generally, in the "Liuhe Sacrifice Refining Array", everyone is particular about their position, and what is emphasized is the equal distribution of strength, so that they can be better integrated and burst out more powerful forces.

However, the old man added a reversal formation in addition to the Liuhe sacrifice refining formation, and this reversal formation also formed a certain formation with the formation flag he threw when he broke the two formations at first. contact.

The combination of these things turned out to form a real bite!

Qin Chen knew immediately that the white-haired old man was uneasy and kind.

Sure enough, after the white-haired old man finished setting up the formation, he said: "Everyone, what I set up is a Liuhe sacrifice formation. You will need to obey my orders and stand in the six formations of the Liuhe sacrifice formation. Eyes, by then, we will shoot together. There should be a great probability that we can break this restriction and pick Ku Yunzhi."

After finishing speaking, the old man directly occupied a corner of the Liuhe sacrifice formation, and then said to the other people, "You all occupy an eye too."

At the same time, the old man looked at Qin Chen and said, "Little brother, you are also a master of formations. You should know something about the Liuhe sacrifice formation. You choose the most comfortable formation you feel to control, so that we two will work together. It's also more convenient to control the formation."

Qin Chen sneered after hearing this. This guy clearly wanted to deceive himself, and even waved his hand: "Senior joked, this junior is just a Tier 4 mage, this Liuhe sacrifices the formation, the junior has never even heard of it, and don't know which one. It's best to control the battle. Seniors should make arrangements. Juniors only need to follow the orders of seniors."

"This..." The old man showed a trace of disappointment on his face, and said with regret: "If this is the case, then you stand on the front of the formation. Liuhe sacrifices the formation. The position of the formation is not very important, but the more you cultivate it's better for tall people to stand in front so that they can exert their power the most."

"Well."

After Qin Chen saw the old man pointed his eyes for a while, he stood up without hesitation.

Ge Peng and Fei Yang saw that the old man had also consulted Qin Chen's opinion, and their vigilance was immediately dispelled. According to the old man's instructions, they stood in front of the Liuhe sacrifice formation with the old man, while the enchanting young woman and Fang Tian were in harmony. Like Qin Chen, standing behind.

After everyone stood up, Fei Yang suddenly felt strange, but he couldn't tell where it was strange.

At this moment, the old man suddenly said: "Everyone, I am about to start the formation. Everyone is running their true power into the eyes of the formation. Don't stop or keep your hands. The stronger the true power, the Liuhe sacrifices the formation. The more powerful, the greater the possibility of breaking the defensive ban."

After speaking, the old man dropped the last formation flag to the center of the formation, and then took the lead in injecting real power into the formation.

"Om!"

The formation of everyone's body suddenly lit up, and at the same time a faint breath of real power filled the big formation.

Seeing that the big formation had been launched, everyone immediately began to pour real power into the eyes of the formation.

"Buzzing buzzing..."

The large formation that had received the real power of the crowd immediately started to circulate fiercely, and the terrifying aura of real power seemed to turn into waves of astonishing waves, frantically rushing to the prohibition ahead.

"Boom boom boom!"

When the power of the Liuhe sacrifice refining formation blasted on the restriction, the entire restriction immediately shook, and at the same time a terrifying force bounced back.

But as soon as this power entered the Liuhe sacrifice refining formation, it was absorbed by the formation and everyone, that is, the counterattack power shared by everyone was only a little bit of actual power.

Even so, such a violent attack made everyone feel extremely uncomfortable.

But at this time, no one flinched in order to obtain Ku Yunzhi.

As the crowd poured more and more true power, the restriction in front of them started to become unstable.

Qin Chen's heart moved, this formation was actually useful?

But then I realized that this underground relic has been passed for many years, and the spiritual pond has been dry for a long time. Although this prohibition is terrifying, the energy remaining in it is getting less and less after the long years, and the prohibition itself is also there. Some loosening, this Liuhe sacrifice refining formation can shake the restriction is not surprising.

The Liuhe sacrifice formation ran wildly, and the old man kept throwing out formation flags to increase the power of the Liuhe sacrifice formation.

The power of the Liuhe Sacrifice Refining Array broke out more and more, and the entire underground ruins even shook under the astonishing explosion.

Ge Peng and Fei Yang, who stood at the forefront, were also suffering more and more. Qi and blood in their bodies were surging, and severe pain came from their meridians.

Thinking of this, Ge Peng said quickly: "No, stop, we can't hold on anymore."

The white-haired old man smiled slightly and said, "Don't worry, you see that the prohibition has been shaken, so hold on again, it won't take long."

"No, stop."

But Ge Peng couldn't hold on anymore, because he felt that the force of the counter shock was getting stronger and stronger, and even his body was about to tear.

He was about to suspend the real power injection against the formation, but immediately he was horrified to find that he could not stop the real power injection. The formation, like a gluttony, was madly absorbing the true power in his body.

"Your Excellency, what's going on? Why can't I stop the injection of true power, this formation is constantly absorbing my true power?"

Ge Peng's face suddenly showed anger, and even said angrily.

Chapter 592

Except for Ge Peng, Fei Yang's formation impact was the second strongest, and although the enchanting woman and Fang Tian stood behind the formation, they were not as powerful as Ge Peng and Fei Yang, but there was a rush of blood.

Now after hearing Ge Peng's angry voice, they tried to stop the real power injection.

But they were also horrified to discover that even if they didn't want to inject true power into the formation, they were constantly absorbed by the formation.

"What the \*\*\*\* is going on? Why can't we stop the real power injection?" Everyone shouted in anger.

"Don't worry, the Liuhe Sacrifice Formation is like this. Once it's opened, you must break the restriction before it stops actively. Some people don't worry, as long as the restriction in front of you breaks, the formation will naturally stop. under."

While talking, the white-haired old man kept throwing the formation flag, and then activated the formation.

"Your Excellency, do you want to fight us? Stop the formation immediately, otherwise, don't blame us for being rude."

Even if Ge Peng and others weren't the formation mage, they felt something was wrong. The opponent didn't want to stop the formation at all, but didn't want to stop, obviously just wanting to swallow the bitter rhyme.

Qin Chen sneered and stopped the formation? Ge Peng and the others still don't understand the power of the Chuanzhen Formation. This Chuanzhen Formation is currently only absorbing true power. Once the formation has accumulated to a certain level, it will not absorb true power, but the essence and blood.

The other party was clearly prepared from the very beginning.

However, Qin Chen didn't mean to do anything. He also pretended that he couldn't break free from the formation, his face showed a look of horror.

"Boom boom boom!"

Several astonishing roars sounded again, the attack on the restriction became stronger and stronger, and the power that bounced back became stronger and stronger. Most of these powers fell on Ge Peng and Fei Yang.

Qin Chen noticed that the white-haired old man's face was also full of tension and attention.

"Puff puff!"

Under the tremor, Ge Peng directly spouted a mouthful of blood, and said angrily: "You beast, immediately stop the formation, otherwise...no, my blood..."

Only half of what he said, his complexion changed drastically, his right hand was offering a mace, and he blasted towards the left arm in front of him without hesitation. Obviously, he would rather destroy his arm and let himself Get out of the formation.

Seeing Ge Peng's actions, the white-haired old man immediately sneered, and then grabbed several array flags and threw them out.

Buzzing!

The whole big formation instantly lit up with bright light, and even connected together to form a brand new big formation. It was obvious that the white-haired old man didn't want to hide at all.

Under the terrifying light, Ge Peng's mace didn't even blast out, he let out a scream, wow, he spouted two mouthfuls of blood again, his face pale as paper.

"Under the old man Qi Yugang's formation, do you still want to resist? Naive!" The white-haired old man sneered and grinned: "You guys, just obediently become the old man's tool under the old man's formation, haha Haha!"

The old man's eyes were ferocious, staring at the restrictions outside the formation.

"Crack!"

And after such an attack, the ban from the outside world really cracked a gap.

boom!

A terrifying force rushed out of the restraint, and the entire formation suddenly shook violently.

At this moment, Fei Yang, who had a pale face and never spoke, flashed a fierce look in his eyes, and suddenly a talisman appeared in his hand and threw it out in an instant.

Hum!

An astonishing wave of true power suddenly swept out of the talisman.

After Qi Yu just felt the fluctuation of the talisman, his face changed drastically, and he hurriedly grabbed a handful of flags to trap the talisman.

But before he threw the formation flag out, with a bang, the whole talisman exploded suddenly, and the power that burst out was so terrifying that it immediately wrapped the entire Liuhe sacrifice formation formation in it.

Qin Chen only felt that a terrifying force rushed on him, as if he had suffered a heavy hammer, and his whole body flew upside down, flying directly out several tens of meters away, after breaking a thick stone pillar, Then he fell to the ground.

The smoke and dust dissipated, and the original location of the Liuhe Sacrifice Refining Array was turned into a ruin. Except for the old man standing there, the other five people were all lying around like Qin Chen, with blood on their bodies. Spotted and embarrassed.

"Unexpectedly, you still have a sixth-order talisman on your body, which actually broke the old man's Liuhe sacrifice formation. What a damn."

Wiping off the blood from the corner of his mouth, Qi Yugang looked at Fei Yang with cold eyes, glanced at the unopened restraint, and his voice contained endless anger.

"I'll just say why you were so calm just now. It turns out that there is such a terrifying treasure on your body. Huh, you just planned to kill the old man directly. It is a pity that the old man is still in this Liuhe sacrifice formation. With a defensive formation, your plan fell through."

While talking, the old man came to Fei Yang's body. After sweeping his eyes, his body exuded endless murderous intent. It was obvious that the murder intent was already in his heart.

At this time, Ge Peng and the others looked at Qi Yugang in horror.

Fei Yang's eyes flashed disappointment, and he sighed: "Yes, I did have such a plan just now, but I didn't expect that you were so afraid of death and set up a separate defense formation for yourself. I only hate, We were so idiots just now, we believed you so credulously, let you be such a white-eyed wolf to break the formation for us, long ago knew you were so mean, we should kill you first."

"White-eyed wolf? Haha!" Qi Yugang suddenly burst into laughter, and then said grimly: "This treasure in the prohibition is originally the old man's. You want to steal the old man's treasure. The old man did this, just wanting to get back what belongs to me. It's my own stuff."

"your?"

Ge Peng and others were all taken aback.

Immediately his face changed greatly, "You mean..."

"Otherwise, what do you think?" Qi Yugang cast a cold look at a few people: "This place was originally discovered by the old man. Even the previous two formations were arranged by the old man half a year ago. It is ridiculous that you guys actually thought the old man was the first. Once I came here, even in order to break the formation laid out by the old man half a year ago and let the old man join in, the old man naturally had no choice but to do his best to kill you all. You guys are really stupid."

"you....."

Ge Peng and others looked at Qi Yugang in shock, with an expression of chagrin in their eyes.

"And this kid is also an idiot. What kind of formation master, even the previous two formations were arranged by the old man, and the old man has also added a biting true formation in addition to the Liuhe sacrifice formation. , This kid didn't notice it at all, which is stupid enough."

Qi Yugang looked at Qin Chen again with a disdain and sneer.

Chapter 593: Counter-Control Array

He was originally worried that Qin Chen would see something, so he was extremely cautious when setting up the Liuhe Sacrifice Formation.

But he didn't expect that Qin Chen's attainments in formation were so bad that he could not see anything.

He was worried about the harm for so long, and he thought of a bunch of reasons.

At this time, Ge Peng and others also fully understood.

It turned out that this old man had been to this underground ruin half a year ago, and he had set up two formations outside of Ku Yunzhi, and he was going to wait for half a year before Ku Yunzhi matured before picking it.

And these idiots thought that the other party was undoubtedly breaking in, and even surprised that the other party was a Tier 5 Array Master.

Thinking about it now, there is endless chagrin in my heart.

"Well, since you know that the old man has been here before, you should also know that the old man is taking back what belongs to him."

Qi Yugang sneered and continued: "Originally, you guys joined forces, and the old man was a little worried, but now it's all right, all of them are abolished, and they have opened the corner of the prohibition for the old man, which really helped the old man a lot."

"Now that you know the truth, you can go to death. Kill you so that the old man can concentrate on breaking the restriction and take away Ku Yunzhi."

Qi Yugang took out a thin sword and slowly walked towards Fei Yang.

When Fei Yang saw Qi Yu just coming, his face sank, and he trembled: "Brother Qi, don't do it. I don't know the true mountain below. I don't know that this thing was discovered by Brother Qi first. Fei is willing to hand over the treasure, and The things in my storage ring, Brother Qi, please take it."

Qi Yugang sneered and said: "You are an idiot, you are really an idiot. Kill you, don't all the things in your storage ring belong to me!"

Fei Yang's expression suffocated, and said, "Brother Qi, it will be no good for you to kill me. As long as you let me go, Fei is willing to follow Brother Qi and do his best for Brother Qi."

Fei Yang couldn't care about other things in his heart at this time, just begging for life.

"Yes, I am willing to follow you and serve you."

Ge Peng and the others also shouted in horror. At this moment, they no longer had the arrogance at the beginning, and some were just fear.

Even the enchanting woman trembled and pulled her top down, revealing only half of her robes, her white and tender skin was immediately exposed to the air, and she trembled: "Don't kill me, as long as the seniors let me go, I can do anything for you."

Seeing the behavior of the enchanting woman, Qi Yugang sneered, and glanced at the enchanting woman, and finally fell on Qin Chen.

"They are all begging for mercy, why don't you beg for mercy?"

Qi Yugang was curious. Among so many people present, Ge Peng and Fei Yang were begging for mercy, but Qin Chen did not speak.

"Why am I asking for mercy?"

Qin Chen sneered suddenly.

Qi Yugang was taken aback for a moment. Obviously he didn't expect Qin Chen to dare to say such a thing. He frowned and said, "Aren't you afraid that I would kill you?"

"Did you kill me?"

Qin Chen didn't bother to put it on anymore, stood up slowly, patted the dust on his chest.

"You weren't hurt."

Qi Yugang looked at Qin Chen who was safe and sound, and couldn't help being shocked.

Ge Peng and the others also looked at Qin Chen in amazement.

what happened? This kid has the lowest level of cultivation. He was blasted out just now. Why didn't he hurt at all?

Qi Yugang's pupils shrank suddenly, and he could see that Qin Chen was clearly only a martial artist of the fourth-order Xuan-level peak.

And just now, even if he was protected by a defensive formation, he was slightly injured by the strike of the sixth-order talisman. As for Ge Peng and Fei Yang, they were almost destroyed, with no combat power at all, but Qin Chen saw He didn't have any injuries at all when he got up. How could this be possible?

Qin Chen smiled faintly: "What's so strange about this, the place where the talisman exploded just now is the farthest away from me, so the power is naturally the smallest."

Qi Yugang watched Qin Chen's words lightly, but he didn't relax at all. If he still can't tell that Qin Chen is pretending to be a pig and eating a tiger, then he is too stupid.

No matter what method Qin Chen used to keep himself from being injured, but being able to do this quietly is definitely not something ordinary people can do.

"Pretending to be, if you weren't hurt, why didn't you run away? Do you think you can get Ku Yunzhi but not? Or do you want to save them?" Qi Yugang said solemnly.

While he was talking, several flags appeared again in his hand, and they threw them around.

He was extremely vigilant by nature. Although he saw that Qin Chen was only a fourth-order Xuan-level martial artist, he was able to suffer no injuries at all in the previous explosion, obviously not as simple as it seemed.

Therefore, even if he knew that his strength was far superior to Qin Chen, he hurriedly arranged the formation and repaired the formation that he had laid before.

"This bitter rhyme is mine. As for a few of them, I am not familiar with them. Why should I save them? Or I would like to thank you. If it weren't for you, I would kill some of them. How troublesome ."

What Qi Yugang did not expect was that Qin Chen ignored the formation flag in his hand, and instead walked towards where the restriction was. Obviously his goal was the Ku Yunzhi who was in the restriction.

Is this guy an idiot? Or do you have no idea what you are doing?

And Ge Peng and the others were completely dumbfounded at this time. They didn't understand why Qin Chen, a Tier 4 Array Mage, a Tier 4 Xuan Rank martial artist, had such a strong confidence.

Even let Qi Yugang arrange the formation.

They were all shocked. Qin Chen is also a master of formation. Don't you know that once Qi Yugang's formation is set up, no matter what hole cards he has, there will be no room for counterattack?

While Qi Yugang kept throwing out the formation flags, he always felt that things were a little weird, but they couldn't tell what was weird.

Seeing Qin Chen getting closer and closer to Ku Yunzhi, after a while, Qi Yugang finally completed his formation.

When the formation arrangement was completed, Qi Yugang immediately sneered: "Boy, I want to see, what are you capable of, dare to pretend to be like this in front of me..."

When the voice fell, Qi Yu urged his formation violently.

The originally dim array of light rose up again, instantly forming a huge formation that enveloped everyone in it.

"Hahaha, boy, now I will kill you first."

Qi Yugang's face was savage, but before his killing formation launched an attack on Qin Chen, he saw several formation flags appearing in Qin Chen's hand, throwing them into the formation he had just arranged.

Hum!

The light of the killing array that had flowed to Qin Chen instantly changed, becoming an anti-killing array.

Qi Yugang was stunned for an instant. In his perception, his control of the formation method had gradually disappeared because of those array flags.

No, not only those array flags, but also the many array flags that the kid broke through his two large arrays at first. At this time, he was completely integrated and integrated with the array he arranged, and he was counter-controlled. His formation.

"You are not a Tier 4 Array Mage."

Qi Yugang immediately exclaimed, his expression shocked.

Chapter 594 He Is The Strongest

In just a moment, Qi Yugang realized that he had lost control of the formation method, and even that endless murderous intent was rushing towards him.

"Impossible, who on earth are you, at the Profound Level, how can you have such a deep formation knowledge."

Qi Yugang was horrified, his face was shocked, and he couldn't believe everything in front of him.

The reason why he despised Qin Chen so much was completely because he clearly sensed that the aura on Qin Chen's body was indeed only a fourth-order profound level. According to the laws of the mainland, even if Qin Chen had a high level of formation, it would only be four at most. That's it for the rank mage.

Therefore, Qin Chen allowed him to arrange the formation before. Although he felt weird, he just thought that Qin Chen was not good at formation and could not stop him.

But now, Qin Chen formed a counter-control formation in the blink of an eye, and instantly counter-controlled the killing formation he had carefully prepared.

It instantly made him fully understand that the formation level of the Xuan-level martial artist in front of him was far surpassing him, and it was definitely not as simple as the fourth-order formation master.

But how is this possible?

His heart was screaming.

The opponent looks so young, how is it possible to have such a formation? It is impossible to do this step even if you cultivate the formation from the mother's womb.

The formation is endless. He has worked so hard and spent decades to become a mid-level formation master. However, the young man in front of him is clearly less than 20 years old, and he is only a martial artist of the profound level. It turned out to be at least the formation master of the fifth-order peak.

Not to mention that he hadn't seen it before, even if he saw it with his own eyes now, Qi Yugang still couldn't believe his eyes.

Ge Peng and the others were also completely stunned. They thought that Qin Chen would fall in an instant when Qi Yu just made his move. They didn't expect the development of things to change drastically in the blink of an eye.

Several people were completely stunned and didn't understand what happened.

"You are not a Tier 4 Array Master, you are a Tier 5 Master Array Master, you said you didn't understand Liuhe Jiji Formation, you were lying to me!"

After the shock, Qi Yugang woke up instantly, staring at Qin Chen, and roared ferociously.

Qin Chen faintly smiled: "Yes, I do know the Liuhe Festival Formation, not only the Liuhe Festival Formation, but even the Chuanzhen Formation that you secretly arranged, I also know it very well, but I didn't say it."

"you....."

Qi Yugang directly spouted a mouthful of blood, and he actually made small moves in front of a formation master who was stronger than himself, and now he finally knew why the opponent didn't do anything when he arranged the formation, because the opponent was completely confident.

"But why didn't you stop me before?"

Qi Yugang couldn't understand why he would let him take action if the other party saw through his plan?

Qin Chen smiled lightly: "I said, why should I take the shot? These guys are taking advantage of me. You and their dog bites the dog. I just need to watch from the sidelines."

Qi Yugang's expression became gloomy, and he finally knew that Qin Chen and Ge Peng were not right, and conflict would erupt sooner or later.

And his appearance gave this kid a chance. He knew very well that if he wanted to win Ku Yunzhi, he would definitely get rid of the opponent's Wuzong who was the peak of the fifth stage late stage.

So he stayed behind and waited until he was in conflict with these Wuzongs before taking advantage of it.

What a despicable kid!

Qi Yugang's heart was cold, and his scheming made him chill.

"Do you think you can kill me if you trap me by the formation? Let me go. I am willing to hand over what I have on me and not be an enemy of you."

Qi Yugang wanted to kill Qin Chen very much, but at this moment, he didn't dare to do it. It was because Qin Chen's scheming was too heavy, and the other party was so confident and fearless, there must be future moves.

He can only get out of the formation first, and after he gets out of trouble, he can figure out \*\*\*\* Qin Chen. He believes that it is not difficult for him to deal with a fourth-order Xuan-level martial artist with his cultivation base of the late fifth-order peak Wuzong.

"Let you go? Do you think it's possible?"

Qin Chen sneered, Qi Yugang's mind, would he not know?

With a thought in his heart, the terrifying killing array started instantly, and a large number of murderous arrays swept toward Qi Yugang like a vast ocean.

Qi Yugang didn't expect Qin Chen to say that he would do it. At the moment when the formation was activated, he suddenly threw out the formation flags that were secretly held in his hands.

After the formation flag fell into the formation, bursts of light were immediately emitted, which weakened the power of the killing formation a few points. At the same time, his whole person turned into a black light, holding a rapier, and instantly pierced towards Qin Chen.

"call out!"

A brilliant sword light turned into a horror, pierced through the sky suddenly, and appeared in front of Qin Chen.

"dead!"

Qi Yugang's complexion was savage, and he roared out loud with a bang. The real power in his body was boiling, and the power of blood in his body was mobilized to the extreme, and now his full combat power had exploded.

He knows very well that in this Tier 5 killing formation, his combat power will be greatly restricted. Once caught in the vast ocean of formations, he will definitely fall into the wind, only to violently strike and kill at the first time. Qin Chen could change the initiative.

So when he came up, he almost exhausted all his strength.

"Ding!"

What made Qi Yugang furious was that the rapier in his hand was about to pierce Qin Chen, and suddenly a thunder light and black shadow flashed through the void and suddenly collided with the sword light he pierced.

boom!

The terrifying power erupted, and Qi Yugang only felt an astonishing sword intent passed through, and the whole body couldn't stop his figure and flew backwards.

But only then did he see that it was a rust sword in Qin Chen's hand that prevented him from attacking.

how is this possible?

Qi Yugang was shocked. Qin Chen's attainments in formation were more terrifying than him. If he had already reluctantly accepted it, then now a mysterious-level peak martial artist on the other side actually blocked the full blow of Wuzong, a late-stage fifth-order peak, and Qi Yugang It feels like a dream.

Not only him, but also Ge Peng and others who were also enveloped by the formation were stunned, their eyes almost bursting.

They always thought that Qin Chen was the weakest one on the scene, so they didn't care about Qin Chen, and even threatened him to break the formation. Now they realized that this kid has been pretending to be a pig and eating a tiger, and his strength is terrifying.

He is the strongest.

"go!"

With just a sword, Qi Yugang woke up completely in his heart. He knew that it was impossible for him to kill Qin Chen in the killing array. Qin Chen's strength was far beyond his expectations.

In a crisis, only get out of the killing array first.

Thinking of this, Qi Yugang turned around and was about to rush out of the killing formation. Although Qin Chen controlled the killing formation, he arranged it after all. He knew the whole structure of the killing formation very well. It was not impossible to rush out from it. thing.

"Want to go?"

But how could Qin Chen let Qi Yugang escape?

A few more array flags were thrown out, and outside the entire killing array, the light flickered, and a sleepy array appeared again in an instant.

At the same time, a black gourd suddenly appeared in Qin Chen's hand. On the black gourd, a black light burst out. From the mouth of the gourd, countless black things burst out instantly and crazily wrapped towards Qi Yugang.

Chapter 595: Evil Array

As soon as the black mist appeared, Qi Yugang's entire body was erected, as if he was staring at something strange.

Then he saw that countless dense black bugs swept towards him like waves.

What the hell?

Qi Yugang was shocked. At this time, he was about to rush out of the killing formation. He didn't expect that outside the killing formation, a sleepy formation suddenly appeared. What's more terrifying is that the countless black bugs were extremely fast and arrived in the blink of an eye. In front of him.

He immediately understood that it was impossible for him to rush out of the killing formation.

It can only slash sword light towards the black worm swarm in the sky.

In an instant, countless sword lights swept across the sky with amazing sword energy.

Although Qi Yugang was extremely anxious at this time, he tried his best to calm himself down because he found that the formation Qin Chen displayed was terrifying, but it was not as powerful as he had imagined.

The reason why he was so anxious before was because he was completely unprepared. After seeing Qin Chen actually reverse his formation in an instant, this shocked him extremely. After all, Qin Chen was too young, and his formation level was so great.

But now that he has calmed down, he has calmed down a lot.

Being able to cultivate to the late stage peak of the fifth stage and become the fifth-order master of the formation, Qi Yugang has experienced life and death crisis more than once. He knows that only when he is calm can he have a ray of life.

And he also saw clearly that although Qin Chen's killing and trapping formations were stronger than his own, they were all Tier 5 formations, and they wanted to kill him in a short time with these formations. It is not easy.

What's more, he himself is also a Tier 5 master of the formation technique. Although he is not as good as Qin Chen in attainments, he only needs to give him a little time to find the flaws in the formation technique and escape.

Once he got out of the formation, he didn't have to worry. Although Qin Chen's strength was strong, he was surprised, but after all, his cultivation base was not high, and it was not easy to kill him.

After thinking about all this, Qi Yugang's heart finally calmed down.

Instead, he did not turn to escape, but urged the power of blood in his body to launch a more violent attack.

"Shoo, hoo..."

Suddenly, an astonishing atmosphere of terror emerged in this large array, and finally merged into the sword light in Qi Yugang's hands, turning into a monstrous sword light, intertwined with the swarm of insects in the sky.

Qi Yugang had already made up his mind to kill these disgusting bugs first, and then no matter how Qin Chen made his move, he took breaking the formation as the most important task.

But after the sword light he showed standing on the black worm swarm, he knew how naive he was.

The sword light that was enough to slay an ordinary fifth-order Wuzong smashed the insects, and it made a harsh creaking sound, as if it was not a bug, but a hard metal. The harsh sound made Ge Peng and others cover their ears in pain.

Then Qi Yugang saw that after entering the insect swarm, the sword qi he slashed out turned out to be gnawed away, and quickly melted away.

"Puff puff puff puff!"

After a piercing sound, Qi Yugang was horrified to see that the sword aura he had displayed had disappeared, and then the large swarm of insects swept towards him frantically.

He was terrified for an instant, and his true power spewed out desperately, trying to shake these insect swarms away, but what made him even more shocked was that once his true power swept out, he would be swallowed up immediately. Then it turned into nothingness.

"Boy, stop, or I will die with you."

Qi Yugang roared in anger.

Qin Chen sneered. At this time, he still wanted him to stop. How could this be possible?

The true power was injected into the black gourd more crazily, and Qin Chen's imperial movement technique, gas-devouring ants and fire-refining insects suddenly became more crazier.

Qi Yugang's eyes turned red in an instant, and he could even feel the sound of the fire worm gnawing his robe.

He knew that if he continued, he would definitely die.

"Boy, since you don't stop, then you die together!"

With a roar, a black formation suddenly appeared in Qi Yugang's hand and threw it forward.

This array, with a simple and evil aura, suddenly shook the entire array, and at the same time a feeling of palpitation rose in Qin Chen's heart.

"puff!"

Qi Yugang directly spit out blood on the formation plate, and the black formation plate suddenly circulated frantically, filled with the black atmosphere of his debut.

These breaths instantly entangled Ge Peng who were limp in the formation.

One of them is directly entwined to Qin Chen.

An unprecedented sense of crisis rose in Qin Chen's heart. Although he didn't know what the black aura was, he had a feeling that as long as he was caught in this black aura, he would definitely encounter unprecedented danger.

Without any hesitation, with a boom, Qin Chen immediately urged the Qinglian Demon Fire in his body. At this moment, his only thought was to use the terrible Qinglian Demon Fire to resist the erosion of this black aura.

It's just that Ge Peng and the others are not so lucky.

"Do not....."

They screamed bitterly, their bodies were cold, and the blood in their bodies was absorbed by the black aura as if they were desperately absorbed, and finally merged into the evil formation.

"help me....."

Several people opened their frightened eyes and stretched out their hands towards Qin Chen, wanting Qin Chen to save them. The enchanting woman even stripped off her clothes and cried out in fear: "Help me, just You save me, I...whatever...I can...give you..."

Without saying a word, the flesh and blood of the enchanting woman instantly shriveled, and several people turned black, with their hands still in an extended posture. The essence and blood in the body were instantly absorbed and turned into four dry corpses.

"Hahaha, brat, let's die together."

On the opposite side, Qi Yugang's blood quickly disappeared, turning into a skinny and shriveled body.

With his eyes protruding, he roared frantically, the last trace of blood was also absorbed by the evil array, his eyes dimmed, and there was no sound.

Buzzing...

After absorbing a large amount of essence and blood, the black array immediately screamed, trembling crazily, and a black aura, like a surge, undulates on it. The original black lines bloomed with blood-colored light lines. It's like an evil thing in purgatory.

There were even bursts of ghosts crying and howling, and a large amount of black mist turned into black skeletons, enveloping Qin Chen layer by layer.

"Jie Jie Jie..."

Qin Chen even heard bursts of cold laughter in the black mist, constantly impacting his mind, and the Qinglian demon fire on his body trembled violently, and he couldn't hold on to it.

Chapter 596

What the \*\*\*\* is this?

Qin Chen's heart was stunned, and the strands of black aura continued to erode, and penetrated into his body through the green lotus demon fire, causing him to chill and his soul seemed to freeze.

Even the blood in the body is slowly passing away.

After absorbing a lot of essence and blood, the black evil formation became even more eerie and terrifying.

"Boom boom boom..."

An astonishing explosion sounded, and the surrounding flags exploded one after another under this terrifying force, making a roar.

On the ground, Ge Peng, who had turned into mutilated corpses, shattered and disappeared under the explosion.

Qin Chen was the only one left in the entire underground ruins.

But the situation Qin Chen faced was hundreds of times more dangerous than before.

In the void, the black evil array trembled crazily, like a demon who walked out of purgatory, constantly releasing amazing black aura.

If it hadn't been for Qin Chen to possess such a sky-defying flame like Qinglian Demon Fire, he would have been like that Qi Yugang and others, with all his blood and spirits gone.

But even so, Qin Chen now has reached the end of his force.

He clearly felt that Qinglian Demon Fire's resistance to that black aura was getting weaker and weaker, and he even felt like he couldn't resist it.

"No, this black aura is too weird. If this continues, once I get invaded by the black aura, I'm afraid I will definitely die."

Although he has a lot of cards, Qin Chen has a faint feeling that as long as he is invaded by this black aura, he will definitely not be able to hold on, and he will also turn into a corpse.

This is a kind of self-consciousness, and Qin Chen has always believed in his intuition.

He is now turning the Nine Star God Emperor Jue to the extreme, and the terrifying true power in his body immediately radiates endless power. At the same time, the Qinglian Demon Fire is also driven to

the extreme by him, and even the power of the thunder bloodline is also driven by him. Wandering wildly in the body.

boom!

At this moment, Qin Chen used all the defensive skills on his body, even more crazy than when he dealt with Qi Yugang before.

Sure enough, after Thunder's bloodline came out, Qin Chen clearly felt that the intrusion of the black aura had weakened a lot, and the sound of strange laughter resounding in his ears seemed to be much weaker.

"go!"

After accomplishing this, Qin Chen didn't escape, but walked hard toward the evil formation.

If he wants to break through the fifth-order Wuzong, he must get Ku Yunzhi. Now that he has finally come here, how can he just leave?

What Qin Chen wanted to do now was to get close to the black evil formation, to see what the formation was, and to see if he could use his own formation skills to destroy it.

It's just that as soon as Qin Chen took two steps closer, the evil black aura suddenly became more gloomy and cold, and he even wanted to freeze his soul.

In horror, Qin Chen even urged the gas-devouring ants and the fire-refining insects to wrap up the evil formation, trying to use the gas-devouring ants and fire-refining insects to destroy the evil formation.

What surprised Qin Chen was that the gas-eater ants and fire-refining worms were not killed by the black aura because they had no blood in their bodies, but they couldn't destroy the evil array. The black aura shook the air and shook the air. Ants and fire worms couldn't get close at all, and they were constantly being shaken out.

Even part of the black aura entered the bodies of the gas-eater ants and the fire-refining insects, causing the aura of the gas-eater ants and fire-refining insects to become gloomy and cold, as if they had come out of hell.

Do you really want to give up?

Qin Chen's heart was full of bitterness, and finally came here, but at the last moment, such a situation appeared.

He was extremely unwilling in his heart, but Qin Chen also knew that if he did not leave here, once he was invaded by the black aura, then it would not be as simple as not getting Ku Yunzhi, but would die here.

Thinking of this, Qin Chen immediately turned and left.

But just as he was about to retreat, the evil formation suddenly seemed to possess wisdom, and there was a whining sound, and then a large amount of black aura spewed crazily from it, turned into a huge black skeleton, towards Qin Chen. Furiously rushed down.

Obviously, I don't want him to leave here at all.

Qin Chen's complexion changed drastically, and he backed away hurriedly, but it was too late. The black aura became more than twice as strong in an instant, and it suddenly penetrated his Qinglian Demon Fire's defense, and instantly penetrated into his body.

"not good."

Qin Chen was shocked, and hurriedly urged the power of Thunder's bloodline, and the sky full of thunder light bloomed on him, but it was also useless. He clearly sensed that an ice-cold force was rapidly invading his body and devouring him. The blood in the body.

Seeing the essence and blood in the body, it was about to be swallowed by this black breath.

Suddenly, the mysterious rust sword in Qin Chen's hand suddenly became hot.

"Om!"

Immediately after.

Above the mysterious rust sword, the light was shining, and a mysterious suction suddenly appeared, which turned into a whirlpool, emitting an astonishing swallowing power around it.

Although the black aura had no facial features, Qin Chen felt strangely that these black auras showed a panic at this time, and then madly retreated from Qin Chen's body, trying to leave his body.

But the devouring power on the mysterious rust sword was too strong. In an instant, all the black aura was swallowed by it, and even from the evil array, the black aura continued to flow back out, unable to stop being rusted by the mysterious Sword swallowed.

The evil array that was originally suspended in mid-air, with its powerful magic power, was shaking violently at this time, like a shivering child, showing a panic and desperate emotion.

With a click, I don't know how long it took. After all the black aura was absorbed by the mysterious rust sword, the light on the evil array instantly dimmed, and eventually it shattered, turned into ashes, and dissipated in midair.

After absorbing all the evil auras, the mysterious rust sword became dimmed again, and the body of the sword was no longer hot and restored its original primitive luster.

"This....."

Qin Chen held the mysterious rust sword in his hand blankly, his expression blank.

This is not the first time this has happened.

When Qin Chen entered the Ge family in the Great Qi Kingdom to search for the Dragon Soul Jade, he was once taken away by a terrifying existence, and in the end it was the ancient book who showed his power and expelled the terrifying existence.

In the end, the soul of the strong man was absorbed by the mysterious Rust Sword, and the scene was almost exactly the same as it is now.

Looking at the mysterious rust sword in his hand, no matter how Qin Chen snooped, he couldn't see any clues.

But Qin Chen knew that this mysterious rust sword unearthed from the ancient ruins was definitely not as simple as it was on the surface.

Otherwise, as his master craftsman, the rust on the mysterious rust sword would have been removed long ago, but he had tried many times before and could not remove the rust. It was extremely strange!

But this time, after absorbing a lot of black aura, the rust on the mysterious rust sword seemed to be faint, and the blade seemed to be brighter.

## Chapter 597

After observing the mysterious rust sword for a long time, and after finding nothing, Qin Chen had no choice but to put away the mysterious rust sword.

As for the evil formation, after being absorbed all the black aura, it also turned into powder in the sky, and nothing was left.

Only the Fire Refining Insects and the Qi Devouring Ants still have an evil aura. It seems that under the transformation of this black aura, some mysterious changes have taken place.

Qin Chen probed for a long time worryingly, and found that these black auras had no harm or influence on the gas-eater ants and fire-refining ants, and only then did the fire-refining ants and gas-eater ants return to the black gourd.

Where Ge Peng and the others were, the corpses had already turned into ashes, and only a few storage rings were left there. Qin Chen raised his hand and put them in the bag.

They are all Wuzong experts who have been in the Black Death Swamp all the year round. They must be very rich, right?

Apart from other things, the black grass that I heard before in the Black Xiuhui, and the Ulan root I just saw, are already extremely valuable.

It's just that Qin Chen didn't have much time to check the storage rings of a few people. After putting them away, he quickly looked at the location of Ku Yunzhi.

The entire underground ruins were in a mess, with broken stones and broken flags everywhere, but Ku Yunzhi, who was in the ban, was extremely safe and was not affected by the previous explosion.

At this time Qin Chen was even grateful for the defensive restriction. If it were not for this defensive restriction, it would be impossible for Ku Yunzhi to be safe and sound.

At this moment, the restriction had already been blasted away in a corner by the previous Liuhe sacrifice refining formation. Qin Chen came to the front and carefully observed the restriction.

Restriction and formation have something in common, but they are much simpler than formations. Some powerful warriors can set up simple restrictions, but the real high-level restriction is no simpler than complex formations, and even more powerful.

Qin Chen thought that this restriction was not a problem at all for him, but after he thoroughly saw the entire restriction, he immediately knew that he was grossly wrong.

The defensive ban in front of him is very complicated, and the dense structure makes him dazzled, and it is beyond his expectation.

Even Qin Chen was sure that even in his previous life, he couldn't arrange such a restriction at all.

Moreover, if it hadn't been for learning a new prohibition method in the ancient southern capital, Qin Chen even felt that he might not even understand the prohibition in front of him.

"Who arranged this?"

Qin Chen's scalp was numb. He had only seen the restriction outside the formation before. Although it was very complicated, he thought that it would not be difficult to break through with his restriction cultivation base.

It now appears that this is simply extremely difficult.

Qin Chen's heart sank immediately. He didn't expect that after experiencing this life and death, there is still such a difficult problem to get Ku Yunzhi.

Suddenly, my heart felt extremely bitter.

"This prohibition is indeed very complicated. I want to untie it. It is not an easy task. However, since the Liuhe Sacrificial Array can open a gap in this prohibition, it means that this prohibition has become extremely weak over time. It is not impossible to break open."

After only being depressed for a moment, Qin Chen quickly came over.

Restriction, like formation, also requires energy.

Once a ninth-order formation loses energy, it will lose its effectiveness, even worse than the first-order formation.

The prohibition is the same.

Qin Chen knew very well that if this restriction was still in its intact state, let alone the Liuhe sacrifice formation, the stronger formation would never break it.

But the Liuhe Sacrifice Refining Array was able to break the corner of this restriction. Obviously, although this restriction is strong, the energy contained in it is likely to have almost dissipated due to the passage of time.

If you change to another formation master, even if there is only a small amount of energy left, you can never easily break it.

But these are only for others. Since Qin Chen knew that this restriction had flaws, he believed that after his research, he would not fail.

Thinking of this, Qin Chen immediately settled and studied the formation in front of him.

The general array mage must first understand the restrictions and then break them down one by one, but Qin Chen did not do so, because he knew that the restriction in front of him was so complicated that he wanted to understand that it would be impossible to do it in a short time. To.

What he did first was to attack the prohibition in front of him.

"Boom boom boom!"

In an instant, the entire underground ruins once again rang with a fierce roar.

Every time Qin Chen attacked, it was not a random attack, but a repeated attempt. After about a stick of incense, Qin Chen already had a clear understanding of the entire structure of the restriction.

Knowing the complexity of this prohibition, Qin Chen took another breath.

Although this prohibition was just an ordinary defensive prohibition, the complexity was much stronger than he expected.

Knowing the structure of the entire prohibition, Qin Chen began to consciously probe the prohibition.

After another half of the incense, Qin Chen finally found the source of energy for this prohibition.

This is because the prohibition itself is missing a corner and is missing, otherwise it would take at least ten times more time to do this.

At this moment, Qin Chen was so grateful that Qi Yugang had come. If it hadn't been for Qi Yugang's arrangement of the Liuhe sacrifice formation, he had broken the corner of the prohibition by accidentally hitting it, and he wanted to find the source of the energy source for this prohibition. Said impossible.

After knowing the source of forbidden energy, everything is simple.

After half an hour, the restriction in front of him made a bang, and Qin Chen was overjoyed. He knew that he had broken the restriction in front of him. Although the restriction in front of him was still intact, its energy connection had been severed by himself. Can't be activated anymore.

Qin Chen cautiously stretched towards the banned Kuyunzhi. When he picked the Kuyunzhi out, Qin Chen's heart was suddenly full of surprises.

After so long and so much effort, it finally succeeded.

The purple bitter rhyme, lying quietly in Qin Chen's hands, exuded an intoxicating breath.

Just taking a breath, Qin Chen felt his whole body fluttering and ecstatic, and the true power in his body was circulating wildly, as if he was about to break through.

Qin Chen no longer hesitated immediately, took out the pill furnace and began preparations for refining bitter rhyme pill.

Although Kuyunzhi is taken directly, the effect is also extremely strong, but after being refined into a pill, its effect will be enhanced to the extreme.

After a while, all the preparations were completed, Qin Chen took a deep breath, directly sacrificed the Qinglian Demon Fire, and began to refine.

There is only one Kuyunzhi. In order to prevent the refining from failing, Qin Chen is extremely careful in every process, even more careful than when refining the nine-grade pill in the previous life.

Chapter 598

Although Qin Chen's cultivation is only the peak of the fourth-stage late stage, his mental power has reached the fifth-stage late stage, coupled with the help of Qinglian Demon Fire, and the experience of alchemy in the previous life.

An hour later, a strong fragrance of medicine filled the underground ruins.

This fragrance was unprecedented, even far above the seventh-grade Wang Dan, making Qin Chen extremely intoxicated.

"It deserves to be the pill made by Wannian Kuyunzhi."

Qin Chen was shocked. The fragrance alone was so strong. It can be seen how terrifying the Wannian Kuyunzhi is. You know, in the Tianwu Continent, Kuyunzhi is only a panacea below the sixth order. No matter how old it is, it is of the same order. It will not change.

At this point in the refining process, it was already at the last juncture. Qin Chen did not dare to be careless, carefully controlling the fusion of the green lotus demon fire and the medicinal properties in the pill furnace, and then urged the recovery alchemy to carry out the final harvest.

"Om!"

After a while, the furnace lid burst open.

In an instant, purple clouds rose from the sky, and the entire underground ruins were filled with a dreamlike purple smoke, like a fairyland.

In the fragrance, the purple smoke disappeared.

Twelve pellets of elixirs with bright purple light fell into Qin Chen's hands, each pellet was full and round, mellow and translucent, almost flawless.

"It turned out to be a perfect 12-grain pill."

Qin Chen was pleasantly surprised.

In the world of refining medicine, one elixir can be a perfect pill, and the maximum is twelve pills. Some alchemists can only succeed in a pot of nine pills for the same elixir, and some even have only six or three pills. , Or one pill.

But now this furnace of bitter rhyme, Cheng Dan turned out to be twelve, which is already the largest number.

What surprised Qin Chen even more was that of the twelve pills, three of them were special pills, and the remaining nine pills were all first-class, so perfect refining, even Qin Chen himself did not expect it at first.

"Since the bitter rhyme pill has been made, let's make a breakthrough in this underground ruin. Now that it has been so long, I don't know what happened to the black slave."

The black slave alone led away Liu Ze from the Gufeng Chamber of Commerce and the bloodthirsty demon Dove Moxin. Even if he had the Heavenly Demon Banner, Qin Chen was quite worried and had to go to support him as soon as possible.

Immediately, Qin Chen sat cross-legged in the underground ruins, and then piled up all the real stones beside him.

After slaying the many people of Wuzong, Qin Chen's real stone has reached an extremely astonishing number. Even if it is a middle-grade real stone, he has a lot of it. The massive pile of real stone is filled with powerful real power, Qin Chen surrounded him.

Then Qin Chen arranged a fifth-order spirit gathering formation outside the real stone, and after all this was done, he sat in the middle of the real stone and swallowed a bitter rhyme pill.

Boo!

When the bitter rhyme pill entered his abdomen, Qin Chen immediately felt as if his body was burning. The powerful force instantly turned into astonishing medicinal power and rushed into his limbs.

In an instant, Qin Chen felt every cell in his body burning.

"what!"

The strong medicinal power made him utter a low voice.

At this moment, Qin Chen felt that his body was being madly torn apart, and every cell seemed to rupture, but after the severe pain, it was not weakness, but an unprecedented sense of transparency that haunted his whole body.

If someone stood outside and looked outside at this moment, they would see that Qin Chen was slowly oozing some black silt-like dirt. In addition to these foul-smelling dirt, there was also a trace of black smoke filled with smoke. Out and disappear into the air.

If Qin Chen could see the abnormality on his body, he would definitely know that these black dirt and pitch-black smoke were the erysipelas remaining in his body over the years, as well as some impurities.

This is Qin Chen who has experienced the baptism in the blood spirit pool, cultivated the immortal body, and obtained a transformed body.

Even so, there are still a lot of impurities, erysipelas, and dirt accumulated in Qin Chen's body, not to mention the many martial artists who have taken the pill from a young age to cultivate to the fifth-order Wuzong.

In fact, the erysipelas and dirt in their bodies are even more terrifying.

Of course, at this time Qin Chen naturally did not know the changes in his body surface, and the strong medicinal power was integrated into his body. He closed his eyes tightly, refining frantically, and had no spare time to think too much.

"Boom boom boom!"

The strong medicinal power constantly impacted his body. Every tissue and every cell has been transformed. This is a rebirth-like experience, reborn, shampooing and cutting the marrow.

"Is this the effect of Kuyunzhi?"

Feeling the changes in his body, Qin Chen was shocked, that trace of medicinal power was incorporated into every part of his body, and the changes that took place made him, the nine-rank alchemist master in his previous life, shaken.

Ku Yunzhi is indeed an extremely terrifying treasure in the Martial Domain.

After a while, the efficacy of the first pill was about to disappear, but Qin Chen found that his body was only one-tenth and had been transformed.

Is the effect of a bitter rhyme pill not enough?

Qin Chen was stunned, and his mind trembled.

This is Wannian Kuyunzhi. The effect of one pill is probably equal to the effect of twelve ordinary Kuyun pills, but now, it can only transform one-tenth of its own physical body.

Without hesitation, Qin Chen swallowed a bitter rhyme pill again.

The amazing medicinal power appeared again, but after a while, the medicinal effect of this bitter rhyme pill also disappeared.

The third one!

Fourth grain!

...

In the end, after Qin Chen took ten bitter rhyme pills, the amazing medicinal power finally lingered in every part of Qin Chen's body.

Click! Click!

In the body, there is an astonishing sound, the meridians, flesh and blood, cells, fur, bone marrow, any part of it seems to be reborn and transformed.

boom!

At the same time, the true power that was originally stagnating at the late stage of the fourth stage immediately broke through to the fifth-order sect, as if breaking some kind of shackles, the rich true power flowing freely in his body, extremely free and casual.

An extremely powerful feeling stirred in Qin Chen's mind.

At the same time, between the heaven and the earth, a large amount of true power crazily poured into his body, and the spirit gathering formation was activated, and at the same time the true energy in the surrounding real stone poured into Qin Chen's body desperately, strengthening Qin Chen's body little by little.

What shocked Qin Chen even more was that when the effect of the bitter rhyme pill was completely dissipated, there was a mysterious power that was retained, and the Qinglian Demon Fire in Qin Chen's mind felt this mysterious power. Suddenly, like a person who has been hungry for a few days, with excitement, madness swallowed that mysterious power into himself.

"this is....."

In Qin Chen's shocked perception, the Qinglian Demon Fire that had originally been in his mind seemed to have been transformed, violently surging up, and a scorching breath swept out of his body madly.

The heat is so terrifying that it shocked Qin Chen. He was sure that if he had not just broken through the fifth-order Wuzong, even if he had refined the Qinglian Demon Fire, he would most likely be melted by this flame. ash.

Chapter 599

After absorbing the power in the Wannian Bitter Rhythm Pill, Qinglian Demon Fire also seemed to be transformed.

"Cracking!"

A series of explosions erupted in the Qinglian Demon Fire, and the scorching heat almost made Qin Chen unable to bear it.

Qin Chen quickly controlled the heat spread of the Qinglian Demon Fire. After only a few breaths, Qin Chen realized that the blue Qinglian Demon Fire had started to change color, and the outer end of the lotus gradually turned dark blue, and then turned into Lavender, like the color of Kuyunzhi.

And the lavender is still gradually spreading inside.

However, this purple silk did not spread to the interior of the lotus in the end, just staying on the periphery.

At this time, the terrifying heat finally abated.

At this time, the mysterious power escaping from the bitter rhyme pill was finally exhausted, unable to be absorbed by the Qinglian Demon Fire.

At this moment, Qin Chen suddenly had a hint of understanding.

The reason why the person who left the Qinglian Demon Fire here has cultivated this bitter rhyme in this underground ruin is most likely because of this Qinglian Demon Fire.

In Kuyunzhi, there is an energy that can evolve Qinglian Demon Fire.

And the reason why I swallowed ten bitter rhyme pills before letting my body get transformed is also most likely because my physical body has experienced the tempering of the Qinglian demon fire, so I need to consume so much bitter rhyme. Dan.

Otherwise, no matter how strong one's body is, a 10,000-year bitter rhyme pill will definitely be enough.

"boom!"

With a thought in his mind, a lavender green lotus suddenly appeared in Qin Chen's hand. This green lotus was green inside but purple outside, and it was jumping in the palm of his hand.

Although the shape has not changed, Qin Chen clearly knows that his Qinglian Demon Fire has been promoted. If the original Qinglian Demon Fire is only equivalent to the fifth-order blood spirit fire, then the current Qinglian Demon Fire is definitely comparable to the sixth-order blood spirit fire, and it is also the leader in the sixth-order blood spirit fire.

Now, when he meets Qi Yugang and others before, he doesn't need to expend so much energy at all. He only needs to use this transformed Qinglian Demon Fire to kill the opponent.

Putting away the Qinglian demon fire, Qin Chen focused his attention on his body.

At this time, his body was still undergoing crazy transformation, and a large amount of heaven and earth true energy poured into him crazily, causing his cultivation base to grow continuously.

After breaking through to the fifth rank, in a short period of time, his cultivation has reached the initial peak of the fifth rank, and is even continuing to climb.

In addition to the cultivation base, Qin Chen's mental power has also been madly improved under the transformation of Wannian Bittersweet Pill.

From the original fifth-order mental power, it instantly entered the sixth-order realm, and was even improving.

Wannian Kuyunzhi has experienced a long time, and the spiritual aura contained in it has reached the extreme. Such treasures, Qin Chen has never seen before in the Martial Domain, it can be seen how amazing it will be!

The essence contained therein has not only transformed Qin Chen's physical body and improved his cultivation base, but also transformed his spirit and rejuvenated him.

"My background is too deep. In fact, as early as the ancient southern capital, I was able to break through to half of Wuzong, or even directly into the realm of Wuzong. However, in order to prevent the foundation from being unstable, I have been suppressing it. Now I have suffered thousands of years. The nourishment of rhyme pill, the power hidden in the body, burst out all at once."

"Now that we can break through, why not cover up? It is better to make a breakthrough at once."

Facing an enemy like Liuxianzong, now that the hidden danger of the foundation has been eliminated, Qin Chen naturally didn't want to stop halfway through his cultivation.

He quickly took out the pill furnace, and at the same time several materials appeared in his hands.

Among these kinds of materials, there is a dark taste, which is like a spiritual medicine, exuding a strong aura.

It was the Wulangen that Ge Peng and the others were fighting for.

Wulangen is the top level 5 elixir. It contains amazing medicinal powers. It can quickly improve Wuzong's cultivation base, and even has a certain effect on the sixth level of martial arts. Such a treasure is exactly Qin The dust is most needed now.

"call!"

With a wave of his hand, Qinglian Demon Fire had already appeared in front of Qin Chen, and at the same time a large amount of elixir was thrown into the furnace by Qin Chen.

At this time, if other people were to see this scene in front of them, they would be stunned and fainted.

When the pharmacist refines the pill, he must be calm, return to the origin and keep one, and must be free of foreign objects.

At this time, Qin Chen made a breakthrough while making alchemy, which was completely beyond ordinary people's imagination.

This is also OK?

But to Qin Chen, this is nothing.

Now his Qinglian demon fire and spiritual power have entered the sixth-order realm, and coupled with the experience of previous perverts, refining a furnace of fifth-grade pill in the breakthrough is not a big deal.

With the real power running in his body, Qin Chen broke through while controlling his mental power and integrating it into the refining process.

After only half of the incense, a furnace of Wuyuan Pill was successfully refined, and twelve black pills exuding strong true power instantly fell into Qin Chen's hands.

Without hesitation, Qin Chen swallowed a Wuyuan Pill directly into his belly.

"boom!"

A large amount of rich true power instantly flooded Qin Chen's limbs and all the meridians in his body.

The true power that was originally stagnating at the peak of the early stage of the fifth stage instantly broke through the original obstacles and suddenly entered the middle stage of the fifth stage.

But Qin Chen did not stop practicing.

Continue to swallow a pill of Wuyuan Pill.

In the end, when the six Wuyuan Pills entered his abdomen and Qin Chen felt a sense of saturation in his body, he finally stopped breaking through.

"call!"

Exhaling a long breath, Qin Chen's body made a rumbling roar, like thunder, and every bone in his body made a crackling sound.

"At the peak of the middle stage of the fifth stage, it was a little bit closer to the late stage of the fifth stage!"

Perceiving the majestic true power in his body, Qin Chen was delighted.

Although he failed to enter the late stage of the fifth stage in the end, he was quite satisfied with the state of the peak in the middle of the fifth stage.

What excites him most is that after taking Wannian Kuyun Pill, all the erysipelas in his body have been cleared away, and the foundation has never been stronger.

"Now my body is much stronger than when it was in the realm of the previous life, Shangguan Xier and Feng Shaoyu, wait for you, before long, my Qin Chen will stand in front of you again."

Qin Chen clenched his fists tightly, and shot a cold lightning in his eyes, sharp and frightening.

As soon as he finished speaking, a smell came, and Qin Chen frowned.

I saw black dirt everywhere on him, sticking to him, and the whole figure seemed to crawl out of the mud.

Qin Chen suddenly became dumb.

#### Chapter 600 Black Slave Crisis

After that, Qin Chen was stunned, and even more dumbly laughed, because he only saw at this moment that the mountain of real stones that were originally arranged around him were exhausted...

Thinking of this, Qin Chen sighed secretly. He thought that he had plundered so many real stones from others and it was enough to break through, but he did not expect that the consumption would be so terrifying.

Fortunately, he still possesses such rare elixir as Wulan root, so that he has not been restrained in the principle of breaking through. Otherwise, if the cultivation base is suspended because of the lack of absorption of heaven and earth, it will be depressed.

However, Qin Chen was also shocked, how could the consumption of his breakthrough be so terrifying?

With so many real stones, he has already calculated it, let alone breaking through Wuzong from the fourth-order Xuan level, even breaking through the Wuzun realm from the peak of Wuzong is far enough, but he did not expect to be consumed by himself.

The ability of the Jiuxing Divine Emperor Jue to absorb the true stone was simply abnormal.

This is just a breakthrough from Tier 4 to Tier 5. How many real stones will I need to break through Wu Zun, Wu Wang, or even Wu Huang in the future?

Just thinking about it, Qin Chen felt a headache.

"It doesn't matter, there must be a way for the car to reach the mountain. With my strength, how can I be stumped by some real stones?"

Immediately Qin Chen was relieved again. He was a master of bloodline, medicine refining, tool refining and formation refining. It is not difficult for him to make money, but now his time is tight and he does not consume too much energy.

"It's time to go."

After clearing up the field, Qin Chen shook his figure and rushed directly to the top of the underground ruins.

In an instant, a feeling of space reversal was born. With a thump, Qin Chen suddenly found himself in the lake at the previous entrance.

This lake is extremely cold, with a hint of chill.

Qin Chen was pleasantly surprised. After all, there was a lot of dirt on his body and he was extremely uncomfortable. After a wash, Qin Chen rose from the lake.

"Wow!"

Water splashed everywhere, Qin Chen stared at his hands and found that he seemed to be a lot whiter. Standing by the lake, looking into the lake, he saw his body, like mutton jade, which can be described as ice muscle. Jade bone!

"puff!"

Almost spitting out a mouthful of old blood, Qin Chen was a little startled, it was almost messy in the wind.

Who is that handsome boy in the lake?

The former Qin Chen was handsome and handsome, with a fortified face, but his skin was full of masculine aura after all, especially after practicing the Immortal Physique, he had a unique aura that is unique to men.

But now, the complexion is as gentle as jade, although the appearance has not changed, but it seems to be two years younger, handsome and handsome at the same time.

This is simply...

It's unacceptable!

"Forget it, that's it."

finally.

Qin Chen had no choice but to accept this fact, put on clean clothes, and closed his eyes slightly.

In the black death swamp, the breeze blew, blowing the hair of his forehead. After a while, Qin Chen's eyes suddenly opened, and cold electricity was shot out.

"That direction!"

When his figure shook, Qin Chen rushed towards the left front like a flash of lightning. The speed was as fast as an electric flint and disappeared from sight in the blink of an eye.

At this time, in a swamp thousands of miles away from here.

The black slave is frantically urging the demon banner.

In front of him, Liu Ze and the bloodthirsty demon Hato Moxin were staring at him coldly. Liu Ze had a simple bronze mirror in his hand. On the bronze mirror, the white light of his debut continued to bloom, covering the black. The slave's demon banner is located.

The unrivaled and invincible Heavenly Demon Banner, under the shining of the white light mirror light, kept whimpering, crazily twisting and flowing, trying to break out of the white light, but couldn't get out.

"Don't waste your efforts. My Likan Holy Mirror is a most masculine treasure. I specialize in such evil things as you. No matter how you struggle, it is impossible to escape the old man's Likan Holy Mirror. Well, where did this kid go, tell me, the old man might consider letting you die."

Standing on the hill, Liu Ze sneered, squinting his eyes and said.

"Liu Ze, you hypocrite, want to know where Chen Shao is, let's dream about it." The black slave sneered and said angrily.

"Smelly boy, he's all here, he's still crazy here, looking for death."

The bloodthirsty demon shouted angrily, rushed into the battle group suddenly, and slashed at the black slave. The black sword light instantly turned into a match and appeared in front of the black slave.

The black slave's face changed slightly, and he hurriedly urged the demon flags, and the sky swept through the sky crazily, trying to block the attack of the black sword gas, but after Liu Ze sneered, he urged the ancient mirror in his hand more violently, and immediately lingered in the black. The black mist on the side of the slave was suppressed.

"Puff!"

Losing the protection of the black mist, the black slave was immediately cut on the surface of the body by the knife, a dull roar sounded, the black slave made a muffled sound, and blood spattered from his chest.

"Boy, wasn't you crazy when you were in Black Marsh Square? Why are you so embarrassed now?"

The bloodthirsty demon Hatomo grinned and attacked frantically. The dense blades of light attacked like the ocean, forcing the black slaves to retreat again and again, splashing blood on their bodies.

The black slave stared at the Dove Demon's heart, even at this time, he grinned and said: "Trash, who was beaten by me for fear of death and begging for mercy, but now he is showing his power again? Hahaha, no matter how you yell, it is in my eyes Here, you bloodthirsty demon, always just a waste."

"you wanna die!"

Dove Demon's forehead burst with blue veins, and the scene where he was hit by a black slave in the Black Marsh Square was his most embarrassed moment and the biggest stain in his life. Now black slaves have repeatedly mentioned it, adding to the anger in his heart.

"Roar!"

The cold murderous intent was revealed, the Dove Demon Heart attacked more fiercely, and it seemed that he would not stop without cutting the black slaves thousands of times.

Puff puff!

Under the frenzied attack, the black slave's injuries intensified again. If he had the support of the gods, he would have died in the hands of Liu Ze and Jiu Moxin.

But even so, he obviously couldn't hold on for long.

Seeing the black slave who was still persevering, Liu Ze sneered: "Why are you? With your cultivation base, wherever you go, you are not a good man. Why do you need to be a servant? Where do you tell me? I will let you go. I Liu Ze keeps saying everything, you should not trust me."

Liu Ze's eyes flickered.

Before he was played around by black slaves in the swamp of black death, he finally found the black slave, only to find that there was only one black slave, so he was naturally dissatisfied.

He knew very well that of the black slaves and Qin Chen, Qin Chen was the one in charge, and only if he caught Qin Chen could it be regarded as leaving no harm.

As for what he said to the black slave, it was naturally just a stopgap measure. Once Qin Chen was found, the black slave would naturally be killed. How could he let him go?

However, he believed that under the current circumstances, the black slave should know how to choose, which is the most correct.
