

## Valkyrie 711

### [Chapter 711: Difficult Shek Pik](#)

Wang Zhong also felt dizzy in his mind for a moment, and his whole body was soft, and instantly limp to the ground like mud.

He had always believed that Qin Chen was a liar, and now it seems that what the other party said is very likely to be true. It was he who harmed Master, and it was his illness that was getting worse and worse, and he almost died.

Thinking of this, Wang Zhong's face was ashamed.

"A little effort is not enough."

Faced with the gratitude of Xu Bo and others, Qin Chen waved his hand and was extremely calm. "Elder Xu Bo, although most of the toxins in your body have been removed by me, some of the toxins that have penetrated into the bone marrow have not been removed. After Xiao Ya gets the elixir, this Young Association will personally serve the elders. Refining a furnace of Eliminating Toxin Pills, the elders only need to take all the pills, half

Months later, it will heal, otherwise, the toxins in the elders' body will definitely recur. "

Qin Chen warned.

"Yes, then there will be Brother Lao."

Elder Xu Bo's heart tensed, thinking that his toxin might recur, his expression became more respectful.

He never wanted to go through the painful process again. Lying on the bed, he gradually felt the failure of his internal organs and the passing of life. The feeling was more uncomfortable than death.

Qin Chen smiled slightly.

In fact, based on his previous experience, he didn't need to refine the pill at all to get rid of all the toxins in Elder Xu Bo's body.

It's just that he still needs Elder Xu Bo's help after the meeting. The so-called words can't be full. Before he achieves his goal, he naturally won't just get rid of all the toxins in Xu Bo's body.

It was not that he couldn't believe in Xu Bo, but it was about everyone's comfort, and he had to be careful.

"call!"

Taking a deep breath, Xu Bo felt that his whole body was full of energy. The organs that had been exhausted these days have shown signs of vitality. He couldn't help but marvel that Qin Chen's treatment was terrifying, even if it was symptomatic. Eliminating poison and healing pills, but that's all.

"The little brother was so amazing just now, I don't know what detoxification technique was used?"

Curious in his heart, Xu Bo couldn't help but speak.

Xu Zheng and Wang Zhong also looked at them with concentration, stabbing a few swords at random to get rid of most of the toxins in Xu Bo's body. If they hadn't seen them with their own eyes, I would have never believed them.

"Haha, it's actually very simple. What Ben Shao just used was the golden needle pricking method, using external real power to stimulate the acupuncture points in Elder Xu Bo's body, forcing all the toxins into Elder Xu Bo's respiratory tract, and then removing them. ."

"Although Tianchan Huagu San is terrible, it transmits toxins through the bloodstream. It does not cause any damage to the respiratory tract, and the spread is not large. This is why everyone has been here for so long and has not been poisoned."

Acupuncture points with golden needles!

Everyone fainted madly and almost fainted to the ground.

Acupuncture with golden needles is an extremely scary treatment in rumor. It uses fine golden needles to stimulate the acupoints to heal injuries.

However, the difficulty of acupuncture with golden needles is extremely terrifying, because acupuncture points are the most mysterious part of the human body, and a slight difference will cause huge consequences.

That's why gold needles are used for stimulation. First, gold needles are extremely fine and as fine as cow's hair. Second, gold is extremely soft and extensible, and will not cause too much damage to acupuncture points.

But this Qin Chen...

Thinking back to Qin Chen's dancing mysterious rust sword, everyone almost vomited blood in shock.

Use sharp swords instead of golden needles to \*\*\*\* acupuncture points, how to listen, how to look like a heavenly book.

Only Xu Bo condensed his eyes, thoughtfully. He was the person who personally felt Qin Chen's action. At that moment, dozens of acupuncture points on his body were stimulated at the same time, and at the same time a real power poured into him. These real powers, like a command, are in all the meridians in his body. Has flowed over and over again without missing any corners. This is how

Toxins are removed.

This kind of magical technique and the accuracy of pricking acupuncture points, even if he was an early sixth-rank alchemist master, he might not be able to do it.

"The little brother is really outstanding, and the old man admires him."

At this moment, Xu Bo no longer dared to regard Qin Chen as a teenager, but as a master, a master not weaker than himself.

"Master." At this moment, Xiao Ya walked in from the refining room.

"Master, are you okay?"

Seeing Elder Xu Bo standing in the living room with vigor, Xiao Ya was taken aback for a moment, and then there was ecstasy on her face.

"Hehe, thanks to the little brother's action, the toxins on the teacher's body have been eliminated seven or eighty-eight. There is only a small amount of residue, and you need to get the elixir and let the little brother refine the pill before it can be eliminated." Xu Bo said. "That's great Master, I'll just say it, Shao Chen will make a move, it's definitely no problem." Xiao Ya was so excited, tears almost flowed down, and she saw that everyone was looking at her, and then she reacted and said. : "Small dust, I have found most of the medicinal materials you requested, but there are still two spirits

The medicines are relatively rare and difficult to preserve. They must be collected for immediate use, so there is no one in the pill pavilion, but I have sent someone to collect them. It is estimated that they will be delivered within two or three days. "

Two or three more days? Xu Bo's face was a little lost.

Since Qin Chen said that his toxin might recur, he couldn't wait to get rid of all the toxins.

It just seems that it's impossible to get rid of it today, and fortunately, it's not too long within two or three days.

"No hurry." Qin Chen also laughed: "The toxin on Elder Xu Bo's body is unlikely to recur in a short time, so it's fine to wait."

"Okay." Elder Xu Bo nodded his head seriously, then looked at Qin Chen, and said solemnly: "The old man's fate was saved by the little brother. No matter what the little brother wants in the future, the old man will definitely do his best."

"Speaking of requirements, Elder Xu Bo, this young man really has a request now." Qin Chen said suddenly.

"Oh?" Elder Xu Bo was taken aback, "Little brother, please tell me."

"As far as I know, any pill pavilion on the mainland has a difficult stone wall. I don't know if this great power dynasty pill pavilion has such a difficult stone wall?" Qin Chen asked.

"Difficult Shek Pik?" Elder Xu Bo nodded and said, "Of course we have these things in Dan Pavilion."

"There should also be questions raised by the current pavilion owner on this difficult stone wall?" Qin Chen asked again. "That's natural. The current pavilion master Zhuo Qingfeng is actually a person from the Beitianyu Dange branch. It is said that he has a lot of background in the Beitianyu. It was only because of a crime that he was demoted to my Dawei Dynasty Dange. In recent years, he rarely manages Dange matters, just concentrates on cultivating, but he is also in trouble

There have been questions on the stone wall. I wonder why the little brother asked this. "In fact, the purpose of my trip to Dan Pavilion is to break through this difficult stone wall. Qin Chen said solemnly.

### [Chapter 712: Challenge the patron](#)

"What, are you going to break a difficult stone wall?"

Hearing Qin Chen's words, Xu Bo, Xiao Ya, and Wang Zhong were all stunned for an instant. They looked at Qin Chen in shock one by one, their heads dizzy, even their face turned pale, and their bodies were shaking.

"Difficult Shek Pik, what is that?"

Xu Zheng looked over in confusion.

Among the crowd, he didn't even know this difficult stone wall. "The difficult stone wall is a special record of the difficult problems encountered in the refining process of the Dan Pavilions in various places. The problems that cannot be solved are basically left by the previous pavilion masters in the past 100 years. Of course, there are also some problems. The top elder proposed that even the previous pavilion masters could not solve it.

"Xiao Ya said in a deep voice.

"It contains difficult problems that Dan Pavilion has not been able to solve for a hundred years, and problems that even the Dan Pavilion master cannot solve?"

Xu Zheng was taken aback.

Although he doesn't know a pharmacist, he also knows that Zhuo Qingfeng, the pavilion of the Dawei Dynasty Pill Pavilion, is the sixth-rank pinnacle pharmacist, and is the strongest pharmacist in the entire Dawei Dynasty.

If it is said that the problems on the difficult stone wall cannot be solved by any pavilion master, wouldn't it be that no one can solve the problem of the whole Dawei Dynasty's alchemist?

"Yes....."

Xiao Ya nodded: "It's not just the current pavilion master who can't solve it. For hundreds of years, our alchemists, including the pavilion master, have not been able to solve it. Because of this, it is called a difficult stone wall..."

"It's just a place to record difficult problems, and you'll be able to break through once. Don't be so nervous!"

Xu Zheng was strange.

I thought it was a major event, didn't you just go to the place to record difficult problems?

It's a big deal that can't be solved, and it's just to quit, not to mention that Qin Chen so easily removed the eldest brother from his body so easily, maybe he could solve one or two problems. As for everyone, even the powerful elder brother, are all trembling, pale?

"Senior Xu Zheng, don't you know what this place represents..."

Seeing Xu Zheng's depressed look, Xiao Ya couldn't help shaking her head.

She also didn't expect that Qin Chen's solution to the problem in the Dange was to break the difficult stone wall.

"Significance?" "Yes! Not everyone is qualified to break into the difficult stone wall. After all, the above question is extremely difficult. It's okay that the person who breaks into the stone wall can't answer it. Once the answer is correct, you can directly become the local place. The honorary pavilion master of the pavilion, if the answer is more than two correct, he can even directly become the local office

In the Dange Pavilion, inherit the position of Pavilion Master! Therefore, challenging the difficult stone wall is equivalent to challenging the current pavilion master again, which is a very serious matter. "

Xiao Ya explained solemnly.

"Challenge the position of the Pavilion Master?"

Xu Zheng felt black before his eyes.

what's the situation?

How to break a difficult stone wall is to challenge the pavilion master?

"The difficult problems remaining in the difficult stone wall are problems that have accumulated over time, and all the alchemists in the entire alchemy pavilion cannot solve them."

Seeing Xu Zheng's doubts, Xiao Ya gave a bitter smile, and continued: "If you want to become the master of the Pill Pavilion, you must be better at refining medicine than others, so that you can have supreme authority!"

Xu Zheng nodded.

The pharmacist, like other professions, wants to lead other people. He doesn't have strong strength and exceeds the level of ordinary people in refining medicine. How can it be?

Basically, the pavilion owner of any pill pavilion is the one with the highest level of medicine refining and the one with the deepest cultivation level.

There will not be some royal departments, and there will be weaker leaders with stronger ones.

"In many cases, alchemy is not like a martial arts contest. It can be directly compared. In martial arts contests, whoever is strong and who is weak is just a comparison. But pharmacists, such as Master and Jinyuan elder, are both in the early stage of the sixth rank. There is a slight gap, but who is stronger? There is no one standard."

"The same kind of six-grade pill can be refined by the master, but the elder Jinyuan cannot refine it. It does not mean that the master is definitely better than the elder Jinyuan. It is very likely that the elder Jinyuan can refine the pill. Zun also does not know how to refine, each has its own strengths and is different, and belongs to different specializations."

Xu Zheng nodded again.

In the martial arts competition, if you win, you win. If you lose, you lose. At a glance, you can tell that the elixir is different. Some people are good at this pill, and some are good at that. Unless they are directly distinguished in rank, The same rank, it is difficult to say who is strong and who is weak.

And sometimes, the rank may not represent everything.

For example, a sixth-rank martial master, with mental power reaching sixth-rank, as long as he works harder, he can naturally refine the most basic sixth-rank pill.

But in fact, his level of medicine refining and alchemy attainments are not necessarily high.

However, a Wuzong in the late stage of the fifth stage could not become a sixth-rank alchemist because he was unable to break through the martial arts for a long time. However, he was extremely skilled in alchemy, and he could even refine dozens or hundreds of fifth-rank peak pill.

To say that the sixth-rank pharmacist is better than the fifth-rank pharmacist, that's for sure, but to say that he must be higher than the fifth-rank one, but it is not necessarily.

"So inside the Dan Pavilion, the only one who verifies the skill of refining medicine is the difficult stone wall!" Xiao Ya continued: "The stone wall records the problems that were difficult to solve by the previous presidents of Dan Pavilion, Dan Ge In order to inspire the alchemists to work hard and forge ahead, the headquarters specifically stipulates that any alchemist who can solve a problem on the stone wall can directly become the honorary pavilion master of the alchemy.

The alchemist who can answer the two questions will directly replace the current pavilion master and become the new pavilion master of the Dan Pavilion. "

"This also leads to the fact that not any pharmacist can answer the question, at least like me. According to the regulations, at least the level of the elder of the pill pavilion can be used to answer the question, or the elder-level pharmacist must be guaranteed. ."

"This....."

Xu Zheng blinked his eyes and then realized.

No wonder everyone is so nervous.

Qin Chen really wants to go to the difficult stone wall, which is equivalent to challenging the current pavilion master. Whether he can answer it or not, it is a big deal. If he can answer it correctly, if he can't answer it, nothing else, just the current Zhuo Qingfeng. Chairman, will not spare him lightly.

As for the fate of Elder Xu Bo, who is on security, you will know without thinking. Moreover, once someone breaks into a difficult stone wall, he must notify the current chairman, Chairman Zhuo Qingfeng, who is committed to retreat and never cares about the internal affairs of the Dange. If someone disturbs him because of this, he cannot answer a single question, the chairman. Under the anger, even if Elder Xu Bo, I'm afraid he can't keep Qin

dust.

"Since it is a difficult problem that the pavilion masters of the past generations can't solve, no one knows even if Xiao Chen answered wrongly?"

After a dull moment, Xu Zheng couldn't help saying.

It is said that it is a difficult problem for a hundred years, and no one can solve it. If the answer is wrong, it can't be distinguished!

"If it's that simple, it would be fine..." Xiao Ya wryly smiled: "It is very important to break through the difficult stone wall. Any answer will be sent to the Dange headquarters as soon as possible, and there will be a seventh product king and even an eight product king. The level of alchemist's inspection, if the answer is reasonable, even if it is not the correct answer, there will be no consequences. However, if the answer is random, the headquarters will even punish the Dan Pavilion where it is located. This is also a difficult stone wall. Another important reason why you can't break through easily."

### [Chapter 713: Plan started](#)

"Dange headquarters conduct verification?"

"A random answer will severely punish the local Dan Pavilion?"

Xu Zheng was stunned for an instant.

Speaking of which, unless you have full confidence, you will easily be severely punished by the headquarters if you rush into difficult stone walls.

No wonder everyone was so surprised. He had also heard that the current chairman of the Dan Pavilion, Zhuo Qingfeng, came from a higher power and wanted to go back to the North Tianyu Dan Pavilion branch.

If this happened again, under severe punishment, Zhuo Qingfeng wanted to be transferred back, and the difficulty might be even higher.

How furious President Zhuo Qingfeng would treat his eldest brother, it was frightening just to think about it.

"There is little dust, do you have to challenge the difficult stone wall?"

Xiao Ya couldn't help saying.

Qin Chen nodded: "This is part of my plan. Only in this way can we gain a foothold in this powerful dynasty."

"Let's not say whether you can answer the question correctly, even if you answer the question correctly, or even answer more than two questions correctly, you really become the new pavilion owner of the Dan Pavilion. When the Dan Pavilion is verified by the Dan Pavilion headquarters and someone is sent to implement it, at least it's been two or three months."

Xiao Ya knew that Qin Chen's purpose in coming to the Dan Pavilion was to fight against the Leng Family and keep You Qianxue and the others.

If he really becomes the Lord of the Dan Pavilion, he really has this status to keep them, but it will take two or three months to calculate according to the fastest time. If the Leng family really wants to retaliate, how can he wait so long, so long? , Can't wait for the appointment at all, I am afraid that the Leng family has already targeted.

"At this point, I naturally have plans. I only need to be able to break through the difficult stone walls."  
Qin Chen said solemnly.

How could he not know these questions, but, he didn't challenge the difficult stone wall just to become the next Pill Pavilion master, but had another purpose.

"Xiao Ya, what is going on?"

Hearing the dialogue between Xiao Ya and Qin Chen, Elder Xu Bo looked suspicious.

"Master, it's like this..." Xiao Ya glanced at Qin Chen, and seeing that Qin Chen had no objection, she told the ins and outs of the matter.

When Xu Bo and the others heard the news that Qin Chen had led people to destroy the imperial family's Feng family, everyone was completely stunned.

"This....."

Xu Zheng looked at Qin Chen in amazement. He didn't expect Qin Chen to be such a terrifying person, and Wang Zhong was so frightened that his legs were weakened, thinking that he had angered Qin Chen repeatedly before, and his heart was full of fear.

I have offended such a murderous demon, so I won't kill him too. "Unexpectedly, so many things happened during the time when I was seriously ill. Several people from your five countries, Xiao Ya once told me that they have been passed down by the ancient southern capital and have become the fat in the eyes of the major forces in the imperial city. Meat. The Feng family is an aristocratic family under the Leng family. His actions certainly did not represent the will of the Feng family. There must be an order from the Leng family behind it. Other forces in the imperial city actually allowed the Feng family under the Leng family, yes. Your disciples from the Five Nations took action. Obviously, the Leng family must have secretly reached an agreement with some forces. And you destroyed the Feng family, I am afraid that it will be offensive, not only

It was the Leng Family, and other forces in the imperial city. "

Elder Xu Bo's face was solemn.

What an eye for him, even though he fell sick these days, he instantly analyzed the real shadow behind the incident. "If it was the Leng family alone, I might still be able to keep you, but now, after I became seriously ill, the power of Dan Pavilion was taken away by Elder Jin Yuan a lot, and there were very few elders who supported me, plus Elder Jin Yuan and Leng family. The relationship is extremely close, and with the consent of other forces in the imperial city, the old man

It may be okay to keep you alone, but it is difficult to keep all your people from the five nations! "

Xu Bo sighed, feeling deeply powerless.

Although Dan Ge was noble, he was only an elder after all, unable to decide too much.

"Elder Xu Bo, the purpose of my trip is not to need your protection. I only want you to let me break through the difficult stone walls. You don't have to worry about the rest." Qin Chen said.

He also knew the abilities of Elder Xu Bo, so he didn't put hope on him.

"Do you want to go through a difficult stone wall? Okay, no problem."

After learning about Qin Chen's situation, there was almost no hesitation, and Elder Xu Bo immediately agreed to Qin Chen's request.

Not to mention that his life is still in Qin Chen's hands, and the toxins have not been removed. Just because Qin Chen saved his life, he is not the kind of person who knows his favor and does not want to repay him.

Even if he offends the Pavilion Master for this, without Qin Chen, perhaps he is still lying in bed now and can only wait to die in pain.

"Well, besides that, I also need some information about the current pavilion master Zhuo Qingfeng, including the cultivation base, medicine refining attainments, and why he was deposed to the Dawei Dynasty..."

Qin Chen said excitedly.

"Do you want the information of Lord Pavilion Lord?"

Xu Bo was suspicious. He didn't understand what medicine Qin Chen's gourd contained, but he still said: "No problem, but I don't have much contact with Lord Pavilion. I don't understand a lot of news, but the basic information is still Yes. I don't know when the little brother is going to break the difficult stone wall."

"Now." Qin Chen said solemnly.

What he lacks most now is time.

"Now?" Xu Bo was startled and nodded, "Then please come with me, little brother."

Having said that, Xu Bo told Qin Chen some information about Zhuo Qingfeng, the current pavilion master, while taking Qin Chen to the Dan Pavilion hall quickly.

A group of people quickly came to the hall.

"Isn't this the elder Xu Bo?"

Seeing Xu Bo, who had been seriously ill for many days, appeared, the many pharmacists and waiters in the hall were all shocked, staring at the pedestrians dumbfounded.

"Where is Gu Xun in charge? Let him come to see me."

The location of the difficult stone wall is just behind the alchemy hall. The reason why it is placed in such a prominent position is to inspire all the alchemists.

For the assessment of difficult stone walls, one must pass the duty in charge of the cabinet, because only in charge of the cabinet can he have the key to open the difficult stone walls.

"Elder Xu Bo, you call me?"

Coming to Elder Xu Bo in a hurry, Gu Xun looked at Elder Xu Bo in shock, and at the same time saw Qin Chen and Xiao Ya and others on the side.

These days, he has been hearing that Elder Xu Bo is going to be dying, and now it seems that there is no such thing as that.

Such rumors are really killing people.

At this moment, he secretly rejoiced in his heart that he had not done anything to Qin Chen and Xiao Ya before. Otherwise, when Elder Xu Bo came, although he was in charge of the cabinet, how could he compare with Elder Xu Bo's status?

"Open the difficult stone wall right away." Xu Bo saw Gu Xun without any doubt.

Gu Xun was stunned.

"Elder Xu Bo, what are you talking about?"

He wondered if he had heard it wrong.

"Open the difficult stone wall, didn't you hear it?"

Xu Bo glanced at Gu Xun and said lightly.

Gu Xun's expression changed. This is the rhythm of major events. What happened to Elder Xu Bo? After this period of serious illness, it is said that he was suppressed miserably by Elder Jin Yuan and even the major disciples were imprisoned.

Now that his condition is better, he can't accept the reality, right?

"Elder Xu Bo, are you sure?"

Gu Xun couldn't help but remind.

"Why, challenge the difficult stone wall, as long as there is an elder as security, the old man, as the elder of the Dange, doesn't even have this right?" Xu Bo looked at Gu Xun coldly with cold eyes.

#### [Chapter 714: The Lord appears](#)

"Naturally not."

Gu Xun wiped the cold sweat from his forehead, "Since Elder Xu Bo insists on challenging the difficult stone wall, there is no reason for your subordinates, who are in charge of the cabinet, to stop him. However, please think about the consequences yourself."

Gu Xun was sure that as long as Elder Xu Bo challenged the difficult stone wall, Pavilion Master Zhuo Qingfeng would surely be alarmed. By then, Elder Xu Bo would not be able to please him, and he would not have any good fruits when he was in charge of the cabinet.

"At this point, you don't have to worry about Gu Xun's affairs." Xu Bo said lightly.

Gu Xun saw that Xu Bo was not dripping in, but had nothing to do, so he gritted his teeth and opened the entrance to the difficult stone wall.

"Elder Xu Bo, please consider it carefully. When you enter, the challenge bell will ring. When you want to look back, there is no way."

Gu Xun warned with anxiety on his face.

At this time, the actions here have attracted many pharmacists and customers in the hall. Some people who know the difficult Shek Pik know that Elder Xu Bo is going to challenge the difficult Shek Pik, all of them are shocked.

Everyone looked at here in amazement.

Some people who did not understand the difficult Shek Pik were all shocked after hearing the explanation of others.

Elder Xu Bo of Dan Pavilion is ready to challenge the position of Pavilion Master? This is a big deal.

In just a moment of effort, almost all the alchemists in the hall of the pill pavilion surrounded them, and there was a lot of discussion and uproar.

Gu Xun looked at Xu Bo nervously, and eagerly hoped that Xu Bo would change his mind.

"Little brother, the entrance to the difficult stone wall has been opened. If you want to challenge, please as soon as possible."

Seeing more and more warriors gathered around, Xu Bolian said.

"What, Elder Xu Bo, it's not that you want to challenge the difficult stone wall, but this kid?"

Gu Xun was taken aback and said hurriedly.

"Yes, it's little brother Qin Chen, I'll take care of it." Elder Xu Bo nodded.

"No." Gu Xun's expression suddenly changed, and he said angrily.

He thought that it was Xu Bo who was going to challenge the difficult stone wall. Although somewhat abrupt, Xu Bo was at least the number one elder of the Dan Pavilion. Whether he passed or failed, he could at least explain it to the Lord Pavilion.

But now, it was Qin Chen, a disciple from the Five Nations, who challenged the difficult stone wall, and Gu Xun could not agree to kill him.

Is this a joke?

How can there be a third-rank alchemist who goes to challenge the difficult stone wall?

This should really be put in, he Gu Xun, what did he consider Dange's previous pavilion master? Could it be said that the cultivation base of the previous pavilion masters of Pill Pavilion is not as good as a third-rank alchemist?

After the Lord Pavilion knew about it, in anger, it was possible to kill him.

"Why not? According to the rules of the Pill Pavilion, a difficult stone wall can be challenged only if it is a pharmacist and someone above the level of Pill Pavilion elders can protect him. Although this child is a pharmacist of the Five Kingdoms, he belongs My Dawei Dynasty Pill Pavilion is under the jurisdiction. This person's alchemist badge was also issued by my Dawei Dynasty Pill. Now with the old man as security, why can't I challenge it? It's ridiculous."

Xu Bo looked at Gu Xun coldly.

Gu Xun was speechless.

Indeed, according to the regulations, Qin Chen is qualified to challenge, but in actual operation, this is too trivial.

"Elder Xu Bo, that's what I said, but this son is only a disciple from the Five Nations, and he is only a third-rank. If you let him break through the difficult cliffs, wouldn't it be a trifling matter for the difficult cliffs?" Gu Xun said anxiously, almost mad.

"It's okay, little brother, you can go in." Xu Bo was too lazy to pay attention to Gu Xun, and said directly to Qin Chen.

In fact, without Xu Bo's command, Qin Chen had already walked towards the entrance of the difficult stone wall. Gu Xun eagerly wanted to stop him, but he was stopped by Xu Zheng. After this delay, he saw that Qin Chen had already walked into the difficult stone wall. In the challenge room, his figure disappeared.

"when!"

At the next moment, a loud bell rang throughout the Dan Pavilion. The sound of the bell was thick, heavy and extremely penetrating. It was not only spread throughout the Dan Pavilion, but even many buildings outside the Dan Pavilion. They were all clearly audible, and the sound rang three miles.

"It's over."

Gu Xun's face paled, his legs softened, and he almost collapsed.

The bell just now was the bell that triggered the difficult stone wall, which was equivalent to telling the entire Dan Pavilion that someone was going to challenge the difficult stone wall to challenge the pavilion master.

As soon as the bell rang, the challenge of the difficult stone wall was equal to the beginning, and nothing could be stopped, even if the current pavilion master came.

"Swish!"

With the ringing of the bell, the entire Dan Pavilion was shocked. In an instant, powerful men with extraordinary aura appeared in the hall, and the black pressure came.

It was some elders who were retreating in the alchemy pavilion and came in time when they heard the bell.

"what happened?"

At this moment, besides the Dan Pavilion, the Yichen people who had left before were obediently following a few imposing elders, stepping into the Dan Pavilion respectfully, hearing the bells one after another, all showing surprise.

"Master, what sound was that just now?"

Walking in the forefront, it was Elder Jin Yuan who got news from Yichen and came to help Yichen.

"It seems to be the bell of the difficult stone wall."

Jin Yuan and the elders around him glanced at each other, with surprise in their eyes.

Hastily stepped into the Dan Pavilion and came to a place where everyone was watching.

"Xu Bo, why is he..."

Seeing Xu Bo standing at the door, Jin Yuan's eyes suddenly flashed with a gloomy meaning, and at the same time, there was a hint of surprise.

"What's the matter, didn't the Leng family say that Xu Bo can't live for a few days? Why is he standing here so vigorously now?"

Jin Yuan was shocked, his eyes were bitter, and he walked forward quickly.

Suddenly, the entire Dan Pavilion hall was overcrowded and noisy.

Those elders who arrived after hearing the bell didn't know what was going on, their faces were full of surprise, and they were about to ask questions.

"call!"

A palpitating breath suddenly spread from the top of everyone's heads, and immediately after that, an old man wearing a white pharmacist robe and exuding an astonishing aura appeared in everyone's eyes.

"Pavilion Master Zhuo Qingfeng..."

Seeing this person, almost all the well-known pharmacists on the field shook their bodies and their hearts slammed.

This person is the current pavilion master of the Dan Pavilion of the Dawei Dynasty, the pavilion master Zhuo Qingfeng who rarely sees the head of the dragon all the year round.

At this moment, his face was angry and his face was gloomy and terrible, and he immediately came to the center of the crowd.

"I have seen the Pavilion Master."

Including Xu Bo, all the elders' expressions changed drastically, and they saluted respectfully, not even daring to breathe.

"what happened?"

Waved his hand, ignoring everyone's salutes, Pavilion Master Zhuo Qingfeng had a sullen face, and asked in a cold voice, with surprising anger in his tone.

He was in retreat and refining before, and he was in just the right state. He suddenly heard the sound of a huge bell, which awakened him instantly. The furnace of pill that was originally refined was also instantly destroyed, so he didn't feel angry.

[Chapter 715: So bold](#)

But now seeing the bell ringing in the difficult stone wall, my heart is even more frightened.

The difficult stone wall is a very special place in the Dan Pavilion. It is often not opened once for decades. Once it is opened, someone will often challenge the pavilion owner.

The refining was disturbed and failed, and some people wanted to challenge his position, and the mood can be imagined.

Those gloomy eyes seemed to be murderous, so that everyone present did not dare to breathe and all looked nervously at Gu Xun.

"Return to the pavilion master, it was Elder Xu Bo who brought a five-nation pharmacist to challenge the difficult stone wall, and his subordinates couldn't stop him. This disturbed the pavilion master, and his subordinates should die." Gu Xun tremblingly explained, his voice heard. I almost cried when I got up.

Chairman Zhuo Qingfeng is grumpy, perverse, and often goes his own way. This can be seen from the fact that he serves as the chief of the Dange, but does not care about the business of the Dange, and never shows up.

Once angered him, it is possible to slap him in charge of affairs within minutes, and can only push the responsibility on Xu Bo.

"The Five Kingdoms Alchemist brought by Xu Bo? Challenge the difficult stone wall?"

Zhuo Qingfeng frowned, his anger gathered, and he looked at Xu Bo coldly.

This is challenging his position!

boom!

A terrifying momentum rushed towards Xu Bo instantly.

Xu Bo had just recovered from his injury. How could he resist Zhuo Qingfeng's imposing pressure, he snorted, took two steps back, his throat was sweet, and he almost spewed out a mouthful of blood. He hurriedly explained: "Going back to the pavilion lord, my subordinates dare not, but my friend, who has a life-saving grace to his subordinates, wants to challenge the difficult stone pike. The subordinates can't help but agree. I hope that the pavilion lord will forgive me. My friend is a genius alchemist. He wants to challenge the difficult stone wall. There must be his

intend. "

Xu Bo cried secretly in his heart. Although he didn't know why Qin Chen had to challenge the difficult stone wall, he could only answer that way in the face of the furious Zhuo Qingfeng.

"Genius pharmacist?" Zhuo Qingfeng snorted coldly.

On the side, Elder Jin Yuan and the others stared for a moment, thinking of the news that Yichen had brought back before, they couldn't help but look astonished.

No way?

A thought came to their minds, one by one, they were dumbfounded. Didn't Xu Bo vouch for Qin Chen to the difficult stone wall?

The gloomy mood before Xu Bo's injury improved, as if the clouds were scattered and the sun rose, and it was instantly bright.

Can't help being ecstatic.

"Xu Bo, Xu Bo, you are really brave, you can do this kind of thing, hahaha, this is just looking for death."

With ecstasy in his heart, Jin Yuan didn't care about Zhuo Qingfeng's words. He was eager to express himself. He immediately took a step forward, pointed at Xu Bo and shouted angrily: "Xu Bo, you are so brave, you dare to challenge the difficult stone wall. If you are dissatisfied with the Lord Pavilion Lord, do you want to replace it?!"

He looked angry, as if he was being insulted, and his body was shaking because of the excitement.

As soon as Jin Yuan said this, Zhuo Qingfeng's face was really cold again.

Indeed, some elders who want to challenge the difficult stone wall are often dissatisfied with him, the pavilion master, and want to replace them. Otherwise, he can notify him in advance and discuss.

"My Lord Pavilion, don't listen to Jin Yuan's nonsense, his subordinates don't mean that."

Xu Bo was furious. "That's not what it means, what does it mean?" Jin Yuan sneered. After finally seizing the opportunity, he was willing to give up, and hurriedly said to Zhuo Qingfeng: "Pavilion Master, Xu Bo is in peace, and manages many Dan Pavilions. Affairs, in the past few years, he almost regarded Dan Ge as his own home, thinking

Because of this, I felt that Dan Pavilion was the place of his family, so I wanted to replace the pavilion owner, huh, it seems that it was premeditated. "

"Jin Yuan, you fart." Xu Bo was furious, his eyes cold.

This golden source is so cruel. He was poisoned before, but now he has fallen in front of the pavilion master, clearly trying to put him to death.

"I fart?" Jin Yuan sneered, "Then tell me, why are you letting people go to the pill pavilion difficult stone wall today, don't tell me, it's just you on a whim?"

At this moment, Zhuo Qingfeng's face was extremely gloomy and terrifying, looking at Xu Bo's eyes as if looking at a dead person. Coldly said: "A genius pharmacist from the Five Kingdoms? Hu, Xu Bo, it seems that you have planned to deal with the old man. However, the old man has been in this powerful dynasty for some years and has never heard of it. What are the five countries? Which five countries are these five countries? Could it be the top five of my land of a hundred dynasties?

Dynasty, newly formed a five-nation alliance? "

Zhuo Qingfeng sneered.

He came to the Dange of the Dawei Dynasty. Although it has been a few years, he has been closed all year round and he is too lazy to manage the affairs of the land of a hundred dynasties. Therefore, he has

not even heard of the five northwestern countries. He thought that the five countries in the population, It is an alliance of five dynasties.

After all, since Xu Bo has the confidence to let the other party challenge him, the other party is at least the top pharmacist of a certain top dynasty in this Hundred Dynasty Alliance, and other characters are not even qualified to challenge him.

"Return to the pavilion master, my friend is a genius pharmacist in the five northwestern countries in the extremely remote area of Xuanzhou of my Dawei dynasty. He is not a pharmacist in the land of my hundred dynasties." Knowing that the pavilion master was misunderstood, Xu Bo hurriedly Explanation.

"The five northwestern countries in a remote place within Xuanzhou?"

Zhuo Qingfeng was taken aback, and seemed to be impressed.

That place is a very remote small place. It is said that even the masters of Wu Zong can't find one. Is it the alchemist in that place?

"Yes, and my friend didn't mean to challenge the pavilion master, please don't get me wrong."

Qin Chen said that he was not challenging the difficult stone wall to challenge the current pavilion master. Although Xu Bo didn't know what Qin Chen's purpose was, he believed that Qin Chen would never lie to him. "I didn't mean to challenge me? Then what is his purpose for challenging the difficult stone wall?" Zhuo Qingfeng felt a little dizzy in his head: "Wait, you said that guy is the alchemist of the Five Kingdoms, the five northwestern kingdoms in Xuanzhou? I remember that The Dan Pavilion of the place is also under the jurisdiction of the Dan Pavilion of the Dawei Dynasty.

The pinnacle pharmacist can go to a country in that place to serve as the pavilion master, so what grade is the genius pharmacist who is challenging now? "

"If you dare to go directly to the difficult stone wall and answer the questions, you must at least be a pharmacist in the late sixth stage. In those five countries, can such a strong pharmacist be produced?"

Zhuo Qingfeng was confused, frowned, and was dizzy.

Xu Bo wiped his cold sweat and said: "Pavilion Master, my friend, the certified alchemist ranks third grade, but this person is extremely talented, and his subordinates previously recommended this person as one of my great power dynasties this time. A contestant in the local pharmacist competition." "Level 3 pharmacist, dare to challenge me?" Zhuo Qingfeng said with a black line on his forehead, "Xu Bo, are you kidding me?"

#### [Chapter 716: Deprived of the position of elder](#)

"The subordinates dare not talk or laugh. If you don't believe it, you can ask Gu Xun in charge. The subordinates never intend to challenge the cabinet owner." Xu Bo said nervously.

Is there such a thing?

Zhuo Qingfeng was speechless, his anger gathered more, and he looked at Gu Xun coldly. Seeing Zhuo Qingfeng look over, Gu Xun hurriedly said, "Yes, the person who entered the difficult cliff challenge is indeed, as Elder Xu Bo said, he is a five-nation and three-rank genius alchemist, and he is only less than

twenty years old. I also dissuaded Elder Xu Bo before, but Elder Xu Bo insisted on doing this and his subordinates did not do it.

law. "

Gu Xun's nervous palms were full of cold sweat, and he almost cried.

What the \*\*\*\* is this!

This time the matter was over, if he hadn't been punished, he wouldn't want to be the head of the cabinet.

It's terrible.

"Pavilion Master, this Elder Xu Bo is so brave to let a third-rank alchemist go to the difficult stone wall. It is clearly dissatisfied with the Pavilion Master." Jin Yuan said when he saw this.

"Yes, Lord Pavilion, if you think about it, if the news here spreads to other dynasty pill pavilions in the future, or our superior pill pavilion, what will happen? Lord Pavilion Lord, you will definitely be laughed at by everyone, and your reputation will be discredited. This Xu Bo is so despicable."

Next to Jin Yuan, Elder Wu Ruifeng also hurriedly spoke.

He and Jin Yuan had long been the same raccoon dog, and he had a share of the poisoning Xu Bo. Naturally, he took this opportunity to beat the dog.

Hearing this, Zhuo Qingfeng's heart sank suddenly.

After he was sent to the Dawei Dynasty Pill Pavilion, he has been painstakingly researching refining medicine for these years, so that one day, he can return to the Northern Heaven Domain Pill Pavilion. But today, after the five kingdoms' alchemists rushed through the difficult stone walls, they gave random answers on it, saying that some truths were good, if it was just scribbling, once the answer was submitted to the Northern Heaven Domain Dan Pavilion, his Dan Pavilion Pavilion Lord, he will definitely be criticized and punished by the superior Dange, so that he

In the future, the chances of wanting to return to the Pill Pavilion of the Northern Heaven Region are even more slim.

Suddenly, Zhuo Qingfeng was extremely frightened and furious.

"Come here, this Xu Bo abused the power of an elder, first put him under control, and deprived him of the position of elder for the time being. After this difficult stone wall is over, the old man will decide."

In fright, Zhuo Qingfeng was too lazy to think too much, and drank coldly at the surrounding elders, looking at Xu Bo's eyes, full of coldness and chill.

"My Lord Pavilion, my subordinates absolutely don't mean this, so I ask the Lord Pavilion to give it a lesson."

Xu Bo was pale and hurriedly explained.

"Yes, Lord Pavilion, you have misunderstood my master." Xiao Ya also became anxious.

"My Lord Pavilion, now things have not come to the ground, and I have directly deprived Elder Xu Bo of his elder qualifications. Isn't it a bit abrupt? Should I wait for the kid to come out before making a decision?"

There was also an elder who had a good relationship with Elder Xu Bo, who stepped forward to speak for Xu Bo.

"Elder Gong Yangju, Elder Xu Bo is ambition, deliberately injuring Lord Pavilion Lord, and even wanting people to challenge Lord Lord Pavilion and forcing Lord Pavilion Lord to step down. You are still speaking for him at this time. Isn't it the problem of this time? Did you participate in this move?"

Jin Yuan snorted coldly, and even said.

Gongyangju has a very good relationship with Xu Bo. Even after Xu Bo was seriously ill, he failed to return to his side. Jin Yuan had long wanted to take him to the operation. Now he seized this opportunity and immediately framed and said.

"Elder Jin Yuan, what are you talking nonsense, the old man just thinks that Elder Xu Bo has always been extremely respectful to the Lord Pavilion Master, how can he do such things? There must be a reason for this." Gong Yangju said angrily.

"Who knows the reason? Lord Pavilion, this Ram Ju is still speaking on behalf of Elder Xu Bo. It is obviously dissatisfied with your orders. According to the subordinates, this person is also doubtful. It is better to put this Ram Take the elders and win them in one fell swoop. Investigate them carefully." Elder Jin Yuan snorted coldly.

Immediately, several elders, including Wu Ruifeng, who had been friends with Elder Jin Yuan, all spoke up.

"You..." The Rams were shaking with anger. These guys clearly wanted to use this opportunity to frame them.

"Well, this ram will be selected as an elder, and one elder will also be deprived of it. After the investigation, the old man will decide."

Zhuo Qingfeng was angry, and said directly in a cold voice.

At this time, he even felt that he had never appeared in the Dan Pavilion during this period of time. Is it true that these Dan Pavilion elders are not in awe of him? It is really lawless to do such things.

There are also those five-nation pharmacists, and the little third-tier pharmacists dare to challenge the difficult stone wall. They are too courageous. I really think that the difficult stone wall can be combined with the Dange superior, so I dare not move him?

"Pavilion Lord, now the five-nation kid has spurred Difficult Shek Pik. Regardless of whether he has answered the question or not, the news of the difficult Shek Pik's inquiries must have been sent to the headquarters. Should the subordinates go in now, catch that kid and punish him directly."

Elder Jin Yuan stepped forward and said with a cold voice.

But there was ecstasy in my heart.

This was a good opportunity. I heard that Qin Chen was the champion of the ancient southern capital. His inheritance secrets must be the most terrifying. I took this opportunity to capture him and exchange it with Leng Family, killing two birds with one stone and killing two birds with one stone.

Waiting for Qin Chen and Xu Bo to fall into his own hands, with the temper of the master Zhuo Qingfeng, in the future, this Dan Pavilion will not be covered by his own hand and has the final say?

Elder Jin Yuan was so excited that he couldn't even suppress his excitement.

"No way."

Unexpectedly, the Lord Zhuo Qingfeng flatly refused.

"When the bell rings and the difficult stone wall opens, the headquarters will be sent immediately, which is equivalent to the Beitianyu branch. It has already learned that the difficult stone wall has been opened here. If the old man uses his power to directly interrupt answering the question, it is likely to anger the headquarters."

Xu Bo pretended to open the difficult stone wall and let such a kid in. He had lost his face in the Dange branch of the North Tianyu. If he violated the rules of the Dange and directly interrupted the boy's answer, I am afraid that the North who learned the truth The Tianyu branch will directly sever his hope of returning to the superior Dan Pavilion.

After all, the rules of the difficult stone wall were set by the Wuyu Dange headquarters. Being challenged by a kid would only be a loss of face. If it violates the rules set by the Dange headquarters, once exposed, even the teacher will not be able to protect him.

"What should I do then? You can't let that kid answer indiscriminately and destroy your reputation, Lord Pavilion." Elder Jin Yuan pretended to be concerned.

In fact, his purpose was to capture Qin Chen as soon as possible, so as to avoid any mistakes.

"What can I do? The difficult stone wall is opened, and he can only wait for the end of his answer. If he answers indiscriminately, even if the old man is upset, he can only admit it."

Zhuo Qingfeng's face was pale. He could already predict that when the headquarters saw the messy answers, his expression of anger would be over.

### [Chapter 717: Start answering](#)

"correct."

Suddenly, he seemed to have thought of something, Zhuo Qingfeng continued to face Jin Yuan and said, "Elder Jin Yuan, let you handle the matter here first. After the kid comes out, you will hold him as soon as possible, and wait for the old man to turn around. , And deal with these people again."

When the voice fell, Zhuo Qingfeng's figure shook, and he already swept towards the top of the Dan Pavilion.

Seeing Zhuo Qingfeng leaving, everyone's faces were puzzled.

Master Pavilion Lord, where are you going to go, shouldn't you stay and wait for Qin Chen to come out at this time?

Everyone could see that Zhuo Qingfeng was really furious, and he directly dismissed two elders, and he was still a powerful elder like Xu Bo. This was the first time in the history of Zhuo Qingfeng taking office.

According to the truth, Zhuo Qingfeng should be impatient to wait for Qin Chen to come out. What happened when he left suddenly?

Everyone was puzzled, but Elder Jin Yuan was ecstatic. As soon as Zhuo Qingfeng left, he came to Elder Xu Bo with a sneer, and sneered: "Elder Xu Bo, haven't you been ill recently? Why do you look like you are in good spirits? There is also leisure time to come to the difficult stone wall, hehe, if you are Be acquainted and stay in your own refining room.

I'm going out to die, now it's alright, I have offended Lord Pavilion, and see how you will fight the old man in the future. "

Jin Yuan was triumphant, so excited, he didn't even care that there were so many elders and alchemists on the court.

Originally, because Xu Bo was seriously ill, he had already controlled the power of Dan Pavilion seven or eighty-eight, and at the same time attracted many elders. Now, Xu Bo even offended the pavilion master and was directly removed from the position of elder. From Yuan's point of view, Xu Bo is completely ineligible to confront himself.

"I, Jin Yuan, you despicable villain, you wait, the old man will not give up."

Xu Bo looked at Jin Yuan coldly and said coldly.

"Yeah, my temper is not small." Jin Yuan sneered, and the expression on the back was suddenly cold: "Come here, take the Elder Xu Bo and the people around him to me, hold them here, I want to see Look at how hard you are, how you can't let go of the old man."

When Jin Yuan's voice fell, the elders and guards of Dan Pavilion immediately stepped forward to capture Xu Bo and others.

"You dare to move my eldest brother a try." Xu Zheng was furious, full of murderous intent.

"This one, shouldn't be from our Dan Pavilion?" Jin Yuan narrowed his eyes and sneered: "Elder Xu Bo, I heard that this person is your second brother, a famous adventurer in the imperial city? You say, he If you move your hands, what will the old man do with him?"

With a sneer, Jin Yuan sneered and said: "Everyone is stupefied to do everything, I have taken it all. If there is resistance, it will be killed."

Suddenly these elders and guards stepped forward again.

Xu Zheng was so angry that he was about to do something, but he heard Xu Bo solemnly say: "Second brother, don't resist."

"Big Brother!" Xu Zheng was anxious.

"This is Dan Pavilion, don't be caught by Jin Yuan."

Xu Bo shook his head, his eyes filled with helplessness.

He knew very well that now the Lord Pavilion Master handed over the power of disposal to Jin Yuan in full view. If they dare to resist, Jin Yuan will be ruthless and kill them directly, and no one will speak for them.

Suddenly, Xu Bo and a group of people were captured by many guards and held aside, like a prisoner, unable to move.

A trace of regret flashed in Jin Yuan's eyes. He was waiting for Xu Bo and the others to resist, and then he thundered and killed him. Who knew that the other party was so foolish, he didn't even dare to resist. Being captured, on the contrary, there is no reason to shoot.

For a moment, everyone could only wait here, staring at the door of the difficult stone wall, waiting for Qin Chen to answer the question, and then capture him.

"By the way, if that kid answers the difficult stone wall, can we see it here?"

At this moment, someone in the crowd asked. "Of course." An elder in the crowd nodded: "The problem of the difficult stone wall is normally hidden from outsiders and is only open to people of the Dange elder level, but if someone breaks into the difficult stone wall, after the answer is over, Will appear directly on the wall, and everyone can see

To the answer. "

"To end the answer?"

Some people are puzzled. "Yes, the answer is not over, it means that the other party has not affirmed the answer, and there is still the possibility of modification. Therefore, the final answer will usually appear after the end of the answer, but there is one exception. In the monitoring room of Dange, you can see it. The person's answering process, but it can cover difficult stone walls

In the monitoring room, only the Lord Pavilion can enter..."

Speaking of this, the elder was taken aback.

The Lord Pavilion left hurriedly just now. Didn't he go to the monitoring room to see that kid answer the question?

Jin Yuan and the others were also stunned and looked at each other. This is really possible.

After all, in the Pill Pavilion now, Lord Pavilion is the person who cares most about whether the kid will write silly.

Just as they guessed, Zhuo Qingfeng came to the main monitoring room of the Dan Pavilion for the first time, and directly transferred to the formation monitoring in the room of the difficult stone wall.

After seeing the picture in the difficult stone wall and Qin Chen's face, Zhuo Qingfeng was dizzy and almost fainted.

Although he learned from Gu Xun and other people that Qin Chen was not old, he never expected that the one who drove through the stone wall was such a young boy.

This is less than twenty.

Are you clearly only 17 or 18 years old?

Such a little kid also came to break the difficult stone wall, where is this to answer the question, obviously it is to make trouble!

At this time, Zhuo Qingfeng could already imagine the angry expression of the headquarters.

The only thing that made him thankful was that Qin Chen hadn't started answering questions yet, and seemed to be observing many questions over the years.

And when Zhuo Qingfeng opened the monitoring formation.

Qin Chen in the room at the difficult stone wall seemed to feel something suddenly. He raised his head and glanced at the surrounding surveillance formations, a smile was drawn from the corner of his mouth.

"The formation is open. This means that the Lord Zhuo Qingfeng of the Dan Pavilion is paying attention to this place?"

With a slight smile, Qin Chen, who had not answered the question, started to answer in an instant.

Before he came to one of the topics, he began to write.

This is a problem of refining a certain sixth-grade pill. It is a problem faced by several former Pill Pavilion masters. This pill is only a middle-stage pill of sixth-grade, but it is rarely refined. Uncommon kind of pill.

But according to the pill pavilion master's cultivation base of the late sixth-rank pill, refining this mid-sixth-rank pill should not be a problem.

The result was that he had refined it many times, but found strangely that after refining according to the pill recipe, every time he reached the final stage of collecting the pill, there would be faults, and he could not refine a complete pill. This problem has troubled him for a long time, until he gets old and can't solve it, so he stayed here and became a problem.

### [Chapter 718: Shocked Zhuo Qingfeng](#)

Later, after several new Pill Pavilion Masters came to power, they also tried refining, but found that they could not succeed in refining. Until now, this problem has not been solved.

When Zhuo Qingfeng took office, he naturally came to see this difficult stone wall, and tried to refine this pill.

The result is also a failure.

Now that Qin Chen actually answered above, his expression was immediately furious.

He is a third-rank alchemist who also wants to answer the sixth-rank pill refining. This is not deliberately making trouble, what is it?

I was furious, but couldn't help but look at Qin Chen's answer.

"The main function of the Qingxin Pill is to restrain the martial artist from the real power riots caused by a momentary ignorance during the practice, and at the same time improve the resistance of the human meridians to the real power of the riots. It has two main effects, which are to suppress the real power of the violent and improve the meridians. Resistance."

"Among them, the Mengxincao in the prescription is just an auxiliary material, but its function is to perfectly integrate the main materials, such as Jingling Liquid, to completely combine the properties of each other. It can be said that it is extremely important. "

"And Mengxincao has an extremely serious property, that is, it is extremely active. Under high temperature conditions, only three breaths can stimulate all the medicinal properties. Once more than ten breaths, the medicinal properties will pass. More than fifteen breaths will completely lose the effect."

"Therefore, the time for Mengxincao to join must be about three breaths before harvesting the pill. If it exceeds, the efficacy of the Qingxin Pill will decrease or even fail."

"And the process of a normal alchemist's harvesting pill often takes more than ten breaths. This is why it is impossible to refine a perfect heart-clearing pill."

"There are two ways to solve this problem."

"First, use the cold pill method to harvest the pill. In the case of non-high temperature, the medicinal properties of Mengxincao will not pass quickly, and it is easier to refine a complete pill."

"Second, add bitter orchids when harvesting alchemy. The bitter orchids can inhibit the activity of Mengxincao, so that it can maintain its medicinal properties at high temperatures, and does not affect the pill formation of Qingxin Dan, and can even improve the quality of Qingxin Dan... "

Originally, Zhuo Qingfeng was extremely angry when he saw Qin Chen's answer, but after seeing the content of Qin Chen's answer, the whole person was completely stunned.

"Due to the activity of Dream Heart Grass, the Qingxin Pill cannot be successfully refined?"

His eyes were dull, the corners of his mouth murmured, and his heart seemed to startled a stormy sea.

Because in his deduction, Qin Chen's answer was perfect, not like scribbling, but full of reason.

He even felt that the reason why the past pavilion masters of the Dawei Dynasty Pill Pavilion could not refine the Qingxin Pill was precisely what Qin Chen wrote.

"call!"

Subconsciously, a pill furnace appeared in Zhuo Qingfeng's hands, and at the same time, a large amount of materials for refining the Qingxin Pill appeared in his hands.

Under the rush of hard work, Zhuo Qingfeng couldn't help but start to refine the Qingxin Pill, to verify the truth of Qin Chen's answer.

Zhuo Qingfeng was originally the alchemist at the pinnacle of the sixth rank, and the Qingxin Pill was only a mid-stage sixth-rank pill. With Zhuo Qingfeng's alchemy attainments, after only half a column of incense, the Qingxin Pill had reached the most critical stage of alchemy harvesting.

"According to what this kid wrote, you only need to use the cold pill method to refine the heart clear pill."

With a heart move, Zhuo Qingfeng condensed the real fire and pinched his hands to make the temperature of the pill furnace drop instantly.

The cold pill method is a relatively remote method of harvesting pill, but it is not difficult, basically every alchemist knows it.

The pill that only uses cold pill method to harvest pill is often inferior in quality. Therefore, in reality, there are not many alchemists who use this method to harvest pill, and it is a method of harvesting pill that is about to be eliminated.

"Om!"

Zhuo Qingfeng collected the pills abruptly, and saw a refreshing fragrance in the monitoring room instantly, and then twelve full and round Qingxin pills had fallen into his hands.

"Success?"

Zhuo Qingfeng opened his mouth wide with his eyes wide.

The problem that Dawei Dynasty Dange's previous pavilion masters could not solve, was actually solved by this kid?

If he hadn't personally refined the Qingxin Pill and killed Zhuo Qingfeng, he wouldn't believe it was true.

At this time Zhuo Qingfeng had already believed that Qin Chen did not come to make trouble as Elder Xu Bo said.

Apart from other things, just solving this problem shows that this child has real skills and his refining skills are extremely terrifying.

Once the answer is submitted, the Beitianyu Dange branch will verify it and immediately issue the honorary pavilion master token.

In an instant, the anger in Zhuo Qingfeng's heart disappeared in half.

"Huh? What is this kid doing?"

But the next moment, Zhuo Qingfeng was dumbfounded again.

Normally, as Qin Chen wrote here, the question has been answered, and he only needs to submit it last before submitting it to the superior Dange for verification.

But in the monitoring formation, Qin Chen suddenly erased the previous answer and did not submit it.

How is this going?

Does this kid think that his answer is wrong? So don't want to submit?

Zhuo Qingfeng was taken aback.

But immediately felt impossible.

Those who can answer these answers definitely have a very in-depth understanding of Qingxin Pill. It is impossible to say that after answering, they don't know whether the answers they submitted are correct or not.

Just like the second method written by Qin Chen, although Zhuo Qingfeng only verified the first method, the second method was not verified.

But he didn't even need to try, he was sure that Qin Chen's second method was absolutely correct, and he would surely be able to successfully refine the Qingxin Pill.

Just when Zhuo Qingfeng was surprised, Qin Chen came to the second question again and started to answer.

This question was raised more than fifty years ago by a pavilion master of the Pill Pavilion. During the refining process, he was unable to control a spin pill method.

This spin pill method belongs to the ancient spin pill method, and it was also obtained by this person from a certain relic. However, he tried many times according to the method of the secret method, but he could not master it, so he could only make it public and brainstorm.

It is a pity that over the years, the pavilion master who took office thereafter, according to his secret method, has not mastered this spin pill method, so he has stayed on this difficult stone wall.

When Zhuo Qingfeng took office, he was also extremely interested in this ancient spin pill method. He also practiced for a period of time, but unfortunately he could not master it, so he could only give up regretfully.

Now seeing Qin Chen's answer, his eyes widened.

"The method of distracting spin pill is a very special kind of ancient spin pill method. It is mainly used for the refining of heterogeneous pill. Its core is not spin pill, but distraction."

"If you want to master the technique, you must achieve two divine divisions. This so-called divine division is not a simple one-hearted two-purpose, but requires the mind of a pharmacist. When using the technique, one left and the other right is used. In the opposite way, smelt..." Seeing the answers Qin Chen kept writing down, Zhuo Qingfeng's heart shook again.

#### [Chapter 719: Last question](#)

"It turns out that this is the case. When this Divine Rotation Pill Method needs to be performed by a pharmacist, it will be performed in the opposite way at the same time. Why didn't I expect..."

Zhuo Qingfeng's expression was dull, while naturally starting to practice.

This practice, the spin pill technique that could not be formed before, unexpectedly did it in an instant.

day!

Who is this kid?

Zhuo Qingfeng's heart shook wildly, and the whole person was almost stupid.

In this difficult stone wall, the records are all difficult problems that the Dan Pavilion has been unable to solve by countless pavilion owners, but this kid has solved two in a moment.

Is this the hell?

Moreover, according to the Dange headquarters regulations, as long as the examiner can answer more than two questions correctly and get the verification of the superior Dange, he can immediately become the new pavilion head of the Dange of the Dawei Dynasty and replace him.

In other words, as long as Qin Chen is willing, he can replace him at any time and become the new head of the Dan Pavilion.

At this time, Zhuo Qingfeng's heart was filled with fear and anxiety.

What was shocking was that Qin Chen was so young, but his knowledge in refining medicine was so terrifying, even he was even above his sixth rank peak pharmacist.

If Qin Chen answered one item correctly, it could be considered a fluke, then answering two items at once would definitely not be explained by fluke.

The worry is that once Qin Chen submits these two answers, he will instantly replace him and become the new chief of the Dan Pavilion.

And his wish to return to the Northern Heaven Region Dan Pavilion Branch will be completely impossible to realize.

In shock, Zhuo Qingfeng saw that after Qin Chen answered the second question, he also did not submit, but completely erased the answer again, and came to the third question again.

What is this kid doing?

Zhuo Qingfeng was shocked, but his eyes couldn't help but look at the answer written by Qin Chen.

At this look, I was crazy again.

"It turned out to be like this, the refining process of the refining pill turned out to be like this, no wonder I have been unable to succeed before, idiot, I am really an idiot, I didn't even see the simple reason!"

After answering the third question and erasing the answer, Qin Chen came to the fourth question again.

"What, it turns out that in the refining of the Tianyuan Pill, such a kind of elixir needs to be added, oh, I didn't think of it.

"Hey, such a refining, let me think about it, it's a genius, Nima, there is such a smart person in this world, this step is impossible for non-geniuses to imagine."

"This question is so simple, just switch the order, and it will work? God, how did this kid come up with it."

Fourth question!

Question 5!

Question 6!

Zhuo Qingfeng looked at the answer written by Ye Xuan quickly, and his whole person had fallen into it.

Except for the shock, there is nothing else in my mind.

Many of the answers Qin Chen wrote were actually very simple, but they were like a layer of window paper. Before they were pierced, they couldn't see through them. Once they pierced them, they felt so simple.

The so-called stand high, you can see far away.

At this moment, Zhuo Qingfeng completely admired Qin Chen's knowledge in refining medicine.

Don't underestimate the answers to these questions. Although simple, they don't seem to be a big deal.

But you have to know that these issues are all difficult problems that have plagued the pavilion owner of the Dan Pavilion of the Dawei Dynasty for hundreds of years.

Many of the answers seem simple on the surface, but behind them, they represent an incredible knowledge of refining medicine and an incomparably thorough understanding of refining medicine.

Not to mention the Dawei Dynasty, even some alchemists in the Northern Heaven Region branch of the higher power he came from before, in some respects, this young man may not have a better understanding.

Is this son really just a five-nation alchemist?

impossible!

Zhuo Qingfeng shook his head.

Being able to answer so many questions can no longer be described by luck. Behind this, there must be an extremely terrifying master alchemist teaching, and even that master alchemist's cultivation level is definitely above his master. .

Shocked in his heart, he saw that after answering so many questions, Qin Chen suddenly stopped before the last question on the difficult stone wall.

Zhuo Qingfeng's breathing instantly held his breath.

No way.

His eyes widened, his heart beat wildly, and even his thoughts seemed to be still.

This last question was written when he came to the Dawei Dynasty, and it has troubled him over the years, an important question about himself.

It can be said that this issue is not only closely related to his refining medicine, but also related to his future and his life.

I saw only a short line of words on the last question on the difficult stone wall, which seemed very simple.

"Innate mental weakness and lack of perception have caused the soul sea to shield the martial arts will perception and affect the integration of the high-level pill's artistic conception. How to solve it?"

Standing in front of the difficult stone wall, Qin Chen carefully observed the problem, then glanced at the open monitoring formation, a faint smile was drawn at the corner of his mouth.

"Not surprisingly, this question should be the problem facing the current cabinet master Zhuo Qingfeng."

He learned from the elder Xu Bo that Zhuo Qingfeng, the current pavilion master of the Dan Pavilion, is from the North Tianyu. He has a martial arts cultivation base, up to a half-step martial arts king, and the alchemy cultivation base is also as high as the sixth rank peak. It is a great power dynasty. The first alchemist.

After he came to the Dawei Dynasty, his biggest dream was to break through the realm of King Wu, become the King of Seven-Rank Medicine, and return to the Northern Heavenly Domain Dan Pavilion Branch.

However, over the years, the current pavilion master Zhuo Qingfeng's martial arts cultivation base has always been stuck in the half-step Martial King realm, and he can't get out of it with a single kick, and has never been able to break through to the real seventh-order Martial King realm.

And can't break through the seventh rank martial king, let alone become a seventh grade medicine king.

This is also his most troubled place.

Qin Chen was still wondering before, that a pharmacist from the Northern Heaven Region branch would actually be unable to break through King Wu after entering the half-step Martial King realm.

This is simply a fantasy.

Now that I saw this subject, it suddenly became a stunner.

When a martial artist breaks through the martial king realm, he must feel the will of martial art. Only when the will of martial art is integrated into himself can he transform the sea of energy, transform his true power into a more terrifying true essence, break this martial art shackles, and become the king of martial artists.

This process is extremely difficult, and some warriors may not be able to do it throughout their lives.

Zhuo Qingfeng was originally a half-step martial arts king. It can be said that he has already started in martial arts will, and what he needs to do next is to continuously deepen his understanding of martial arts will. It should not be too late to break through.

Now that I saw this topic, I realized that Zhuo Qingfeng was born with weak mental strength and lack of perception.

This kind of warrior, no matter how talented he is, he can get started in martial arts will and become a half-step martial king.

However, due to the lack of perception, the martial arts will of the comprehension cannot be continuously completed to perfection. In many cases, it will even go astray, resulting in no way to enter the Martial King realm. And because of its innate mental weakness, when refining high-level pill, the pill cannot be perfectly integrated into the martial arts mood. Even if you break through to the Martial King realm in the future, you want to refine the king-grade pill, which is better than ordinary alchemists. It's more than ten times more difficult!

#### [Chapter 720: Hold him](#)

The warriors who normally get this disease have basically bid farewell to the realm of King Wu.

Since Na Zhuo Qingfeng can step into the half-step Wuwang realm, it can be seen that his talent is still quite terrible, and in the northern sky domain, the background is relatively deep, and he has taken a lot of natural treasures, otherwise it is impossible to enter the half-step Wuwang. realm.

It's a pity that even if you step into the half-step Wuwang, you can't solve the fundamental problem, and it's useless.

This hurdle of the seventh-order Martial King will be like a gully, which will firmly block it from the realm of Martial King.

Moreover, in a remote place like the Northern Skyland, it is difficult for a master alchemist to solve it.

"However, it's not unsolvable because of innate mental weakness and lack of perception."

The ordinary master alchemist could not solve it, but for Qin Chen, it was not a problem.

He had seen many such cases in his previous life in Wuyu, and almost most of them had already been resolved.

A fixed plan has even been formed.

Raising his hand, Qin Chen answered directly on the difficult stone wall.

"It's simpler to solve this problem. Naturally weak mental power and lack of perception are actually not a problem of mental power, nor is it a problem of mental sea, but the lack of acupuncture points in the human body and defects in the meridians. "

"If you treat it from the perspective of enhancing mental power and improving perception sensitivity, it is tantamount to treating the symptoms but not the root cause. No matter how much effort is spent, it will be a waste of work in the end. The only way to restore the defects in the body is to make the defects disappear. Then the problem will be solved naturally." "And to solve the defects in the body, it is also very simple. Generally, it causes weak mental power, lack of perception, and often defects. It is Tianchi, Baihui... and other acupoints in your mind. Ask questions What the user needs to do is to first use the method of real power to find acupoints, find the defective acupoints, and then benefit

Adjust the acupuncture points with the corresponding Zhenli training exercises, ranging from ten and a half months to as long as three to two months, and all the problems can be solved. "

"The following is Zhenli's method of finding acupoints..."

Below, Qin Chen briefly wrote down Zhenli's method of finding acupoints.

monitoring room.

For a moment, Zhuo Qingfeng stared at the answer on the difficult stone wall, his whole face was pale, and his body was even trembling slightly. "Innate mental weakness and lack of perception. It turns out that it is not a problem of mental power, nor is it a problem of the spirit sea, but a problem of the acupuncture points and meridians of the human body. This is simply too unexpected. No wonder I have been searching for secrets over the years. , Tiancai Dibao, want to enhance mental power and enhance perception

, But it never worked, it turned out to be such a thing..."

Seeing the answer written by Qin Chen, Zhuo Qingfeng seemed to be initiating, and his whole body was trembling.

Although it has not been verified yet, Zhuo Qingfeng instinctively feels that Qin Chen's answer is very likely to find the right key point.

"There is also the real power method of finding acupuncture points, I will try it first."

With a move of mind, Zhuo Qingfeng immediately started to operate according to the real power method of finding caves written by Qin Chen on the difficult stone wall.

With this movement, he really felt that a few acupuncture points in his brain were a bit stagnant, exactly the same as the defect state Qin Chen said.

"Really, it turned out to be true."

Zhuo Qingfeng was completely stunned.

If the answer he had put forward to Qin Chen before, there were some doubtful things, then at this moment, he completely believed it.

"That's right, the kid said, as long as you use the corresponding real power training method, you can completely cure the defect. Let me see, my acupuncture points, what method should be used for conditioning."

Excited, it took Zhuo Qingfeng a long time to recover, and hurriedly looked at the monitoring formation, only to find that Qin Chen hadn't written down the method of real power conditioning at all, but erased the answer and left the difficult stone wall long ago. , I don't know where to go.

"No, but don't conflict."

Thinking of his departure, after instructing the elder Jin Yuan to immediately capture the person who answered the question in the difficult stone wall, a cold sweat broke out behind Zhuo Qingfeng.

After so many years of hard work, I can't solve the problem. Now I finally see hope. If I offend the master and make the other person angry with one of my own orders, then I really will die.

At the moment, Zhuo Qingfeng couldn't care about anything else, rushing out of the monitoring room frantically and rushing towards the hall.

At this time, in the hall of the Dan Pavilion, Elder Jin Yuan and the others had long been staring at the wall outside the room of the difficult stone wall for a long time.

Elder Xu Bo and others also stared at the wall outside the difficult stone wall.

After Qin Chen angered the Pavilion Master, their hopes all fell on Qin Chen.

As long as Qin Chen enters the difficult stone wall and answers a question correctly, it means that Qin Chen challenged the difficult stone wall, not to make trouble. After the Lord Pavilion knew the reason, although he was angry, he would naturally not punish them too severely.

Thinking of Qin Chen's terrifying knowledge of detoxification, Xu Bo and the others carried a trace of expectation in their hearts.

Not only them, but the other pharmacists and customers present all looked at the wall. They all wanted to see, what level of the talented pharmacists of the Five Kingdoms who dared to openly challenge the difficult stone wall, dare to do such a thing. .

What made everyone depressed was that one minute passed, half a stick of incense passed, and even half an hour passed, on the wall outside the difficult stone wall, not even a single answer appeared.

"This kid can't even answer a single question, right?"

Some people can't help being depressed.

"Does this need to be said? You don't really think that he, a boy from five countries, can answer the difficult questions on the stone wall? Is it an idiot when Dan Pavilion has served as the pavilion master?" Someone sneered.

"Even if he can't answer, he has to submit an answer when he goes to the stone wall so swearingly?"

"Yeah, walk in and submit no answers. Isn't this for fun?"

Everyone looked at the wall in front of them speechlessly.

Very depressed in my heart.

Only Elder Jin Yuan was excited. The more Qin Chen didn't answer anything, the more it represented that the other party came here to make trouble. When the pavilion master was furious, Xu Boyan would have good fruit? When he shot Qin Chen, it was more logical and would not attract any sound.

Everyone is talking about it.

"Squeak!" With a sound, Qin Chen walked out after the door of the difficult stone wall opened.

"Hold him."

Elder Jin Yuan, who had been waiting for Qin Chen a long time ago, was so excited that he roared and didn't wait for others to react. He had already rushed towards Qin Chen with a group of guards. In Elder Jin Yuan's imagination, facing his sudden attack, Qin Chen should be shocked, and then fought hard, but what made him puzzled was that after seeing so many people in the hall, the kid's face was also surprised. , But facing the capture of Dan Ge's guards, there is no responsibility at all.

He's resistance was immediately detained. The whole process is extremely calm, it seems that all of this has been expected long ago.
