

Valkyrie 731

[Chapter 731: Deputy commander](#)

"His Royal Highness is wise."

Leng Feihua suddenly smiled. Although the third prince didn't say it clearly, the hint was already obvious. He would stand on his Leng family's side and come forward for him.

"President Leng, don't forget your previous promise." Liu Yuanxin, the third prince, looked gloomy.

"Your Majesty, don't worry, Leng Mou has always spoken without any falsehood. What's more, how can you dare to play tricks with your Highness if you take the courage of the old man?"

Leng Feifan said respectfully.

The two looked at each other, and the next moment they all smiled knowingly.

City Guard.

After Qin Chen was brought over, he was directly imprisoned in an interrogation room, surrounded by icy mysterious steel walls, enough to withstand the bombardment of the sixth-order martial masters.

There are no windows around, except for a cold iron window and iron door, nothing is left.

In the center of the room, there was a cold iron table, and Qin Chen was tied to the iron table by an iron chain that pressed Zhenli.

On the opposite side of the iron table, there were two imposing city guards, looking at Qin Chen with a vigilant face, with their right hand resting on the hilt of the knife around his waist, as if Qin Chen would draw their swords to each other as long as he did anything.

After Guan Wei brought Qin Chen here, he left without saying a word.

Qin Chen knew that the other party was definitely going to report to his superiors. Since the Leng Family dared to mobilize the City Guard, he would definitely not be the leader of Guan Wei. Above him, there must be a higher-ranking person for Leng. Do things at home.

And because of the presence of Elder Xu Bo, Guan Wei and his superiors must have a headache, and they must make trade-offs.

After all, even though the Leng family is strong, Dan Pavilion is not a vegetarian. If one fails to manage it, it will inevitably cause big troubles. Qin Chen still has some understanding of these officials.

Just as Qin Chen had guessed, after hearing Guan Wei's report in a room of the City Guard, Geng Deyuan, the deputy commander of the City Guard who signed the arrest warrant, looked depressed at this time.

When Leng Jia told him, he only said that Qin Chen was a young man from five countries and had no background in the imperial city, just some strength.

But who would have thought that the Dange's people were actually provoked.

Although the Leng family is strong, Dan Pavilion is not an unknown person in the imperial city. It is only because Dan Pavilion has rarely participated in the competition between major forces in these years, which seems a little silent.

But Geng Deyuan knew very well that no matter how quiet the Pill Pavilion was, it was also Pill Pavilion. He was definitely not the deputy commander of the City Guards Department.

"Then Elder Xu Bo, have you said anything?"

Geng Deyuan had a headache.

"That's not true. It's just that Elder Xu Bo finally warned his subordinates that if they deal with it unfairly and injure Qin Chen, even if they are torn apart by the time, they will have to report to the dynasty and the superior Dan Pavilion and have a fight with us. Make trouble." Guan Wei said five to ten.

"Huh, then Xu Bo is too presumptuous. A Dange elder who dares to take care of the meddling of my city guard department really thinks that he can't be cured?"

Geng Deyuan snorted angrily.

It's just that although he was dissatisfied in his heart, he was helpless.

"I need to discuss this matter with Leng's family."

For the Leng family to offend Dange, this risk is not something that you can't take, but depends on the benefits and consequences. If the benefits and consequences are not proportional, then naturally there is no need to go too far.

When Geng Deyuan was in contact with Leng's family.

"Deputy Commander Geng, this is a handwritten script by His Highness the Three Princes."

At this moment, the order of the third prince finally reached the hands of Deputy Commander Geng.

Handwritten by His Royal Highness the Three Princes?

Deputy Commander Geng was shocked.

The three princes, but currently the most powerful prince of the Dawei Dynasty, it is very likely that they will become the prince of the Dawei Dynasty.

In today's dynasty, the princes are fighting extremely fiercely. Every official wants to find a backer, and the three princes are undoubtedly the largest among many princes.

However, with Geng Deyuan's identity, he couldn't enter the eyes of the three princes at all.

And he Geng Deyuan is not without pursuit, he wants to become the leader of the city guard, but suffers from no chance.

This is the only way to cooperate with the Leng family, and often earn some extra money. Now that I see the handwriting of the three princes, how can I not be excited?

This means that His Royal Highness the Third Prince has noticed him.

It's just that he didn't understand, why the Three Princes didn't know him at all, so why would he suddenly handwriting to him?

After opening the handwritten script and seeing the contents inside, Geng Deyuan understood what was going on.

"This Leng family is really a good method. After knowing that Dan Pavilion entered the field, he even contacted the third prince." Geng De Yuan's eyes bloomed with cold light.

If the third prince intervened in Qin Chen's matter, there was no Leng family's shadow behind him, and Geng Deyuan would not believe that he was killed.

After seeing the handwritten script of His Highness the Three Princes, Geng Deyuan also understood what he should do.

Na Dan Pavilion, although terrible, but even Leng's family may not be comparable. Now with the presence of His Highness the Third Prince, should he still consider it?

Not to mention the elder Dan Pavilion, even if the Dan Pavilion Master is standing in front of him now, he dare not sell the other party's account.

Once His Highness the Three Princes ascends the throne in the future, he will be the people of the Three Princes. As long as things are done for the Three Princes, what glory and wealth will be less?

"Go, call someone else, and immediately follow me to the interrogation room."

Excited, Geng Deyuan couldn't wait, and quickly walked towards the interrogation room.

In the interrogation room.

Qin Chen has been here for more than an hour.

When he was waiting to fall asleep, he creaked, and the door of the interrogation room was suddenly pushed open.

With the sound of footsteps, a dark-faced middle-aged officer with triangular eyes walked in. Behind him, a group of city guards followed.

This person's eyesight is narrow, his body is full of real power, and the chest armor is engraved with exquisite patterns. He has a breath and is extremely gloomy. He is actually a martial expert at the peak of the sixth stage.

As soon as he entered, the person looked at Qin Chen up and down, a cold light radiated from his small eyes, and it was not a good thing at first sight.

Behind him, followed by a few extraordinary city guards, at least at the captain level, the cultivation base is stronger than Guan Wei.

"Is this a gangster who violated the laws of my dynasty and blatantly killed people in the imperial city and brutally killed the Feng family?"

As soon as Geng Deyuan came in, he took a seat on the chair opposite Qin Chen, staring at Qin Chen with disdain, exuding a cold and malicious smell.

"Commander Geng, this is the guy who slaughtered the Feng family leader." Guan Wei, who followed behind, said respectfully immediately. "Looking at your young age, you don't look like a bad person. I didn't expect that you would be so cruel." Geng Deyuan glanced at Qin Chen coldly, and said coldly: "Let's say, what is your deep hatred with the Feng family? On the day of the Feng family's rejoicing, they came to the door and slaughtered all the Feng family members.

It's still so cruel, and I'm here today under this commander, giving me an explanation. "Geng Deyuan snorted coldly and said sharply.

[Chapter 732: Trouble the upper body](#)

"Going to the door deliberately?"

Qin Chen frowned and said with a sneer: "Your Excellency is wrong, it should be the Feng family who committed the crime. Forcing this girl to marry into his Feng family, this young man is just a legitimate defense."

It seemed that the person in front of him should be the senior official of the City Guards Department invited by the Leng Family, and Qin Chen didn't bother to talk to him.

Otherwise, there is no reason to label yourself. "It's ridiculous, the Feng family is noble, it is my powerful family, how can you force the untouchables of the first five countries to marry into his Feng family. You are the people of the five countries, climbing the dragon and attaching the phoenix, confusing the Feng family son, wanting to seize the Feng family property, As a result, on the day of the wedding, I was found out by the ancestors of the Feng family.

He was ill-intentioned, slaughtered the Feng family, and even took away many treasures of the Feng family, and told me honestly. "

Geng Deyuan sneered coldly.

"Commander Geng is right, kid, hurry up and find out how you confuse the Feng family, and you were found out, the fact that you brutally killed the Feng family members, I will tell you about it, let me be lenient in confession and strict in resistance."

A city guard behind Geng Deyuan shouted sharply and said with a beating.

Qin Chen shook his head: "I have nothing to confess. It is the Feng family that you call the murderer. This young master is just a legitimate defense and is not guilty at all."

"Presumptuous, guilty or not guilty is not your final decision, and you still don't tell me." The city guard slapped the table, furious.

Qin Chen sneered, too lazy to bother.

If you want to add a crime, why don't you have any trouble?

Seeing that Qin Chen didn't speak, Geng Ling stood up with a dark expression on his face: "Boy, you are like this. I have seen a lot, and I don't have so much time to waste with you. You can explain it or not. The truth is No one can change the facts."

After all, he threw out a piece of paper.

"The survivor of the Feng family has written down the process of your murder in detail, and attached the testimony of several eyewitnesses. Please take a look. If there is no problem, sign quickly. You can rest assured, our city health department. We will act strictly in accordance with the laws of the dynasty and deal with it absolutely and impartially."

Qin Chen looked down at the testimony, just glanced at it, and smiled coldly. I saw the above, reversed black and white, saying that You Qianxue saw the young master Feng Shaofeng of the Feng family, she had a bad heart, coveted the family property of the Feng family, deliberately seduced the young master Feng Shaofeng of the Feng family, and wanted to marry into the Feng family, but on the day of the wedding, When the Feng family saw through the treacherous scheme, a few of them saw that the conspiracy was seen through, so they had a bad idea.

Fighting against the Feng family, brutally killing many disciples of the Feng family, and taking away many treasures and properties of the Feng family is a heinous crime.

"Nonsense!" Qin Chen sneered: "This confession is reversed. I won't sign it."

Commander Geng slammed a fist on the table, and said furiously: "Qin Chen, this is the City Guard Office, so you can't let you go wild. For today's testimony, you have to sign if you want to sign, or if you don't want to sign, you have to sign!"

"Oh, isn't it?" Qin Chen looked at him coldly, suddenly spit out a real power, crushed the confession into shreds, and then said lightly: "I want to see, now how do you let me sign. "

Qin Chen's appearance and attitude made all the city guards furious.

"Good boy, do you really think that this rule can't rule you? Guan Wei, put this man in a black jail for me, when will he be detained, and when will he be brought over to see me, I want to see how long he can hold on." Geng Deyuan said coldly in his eyes.

"Yes!"

Guan Wei immediately replied, and with a few city guards, Qin Chen surrounded and escorted out.

Not long after, Qin Chen was taken to the black prison of the City Guard.

The black jail is a place where the city's security department detains repeat offenders. The prisoners who can appear here basically have no good things to do with them.

And generally being held in a black jail basically means that this person has nothing to do with freedom.

Because once he was put into a black jail, it was almost impossible to get out of there alive.

"Captain Tian, this is the main culprit of Commander Geng. He is stubborn. He toasts and doesn't eat or drink fine wine. Commander Geng said that he will be sent to the dark prison. When will he be willing to confess and be detained, and when can he come out.

The black jail is under the jurisdiction of a special person. He is a big man with a beard. His eyes are extremely cold. He has been in the black jail for a long time, and his whole body exudes a tyrannical meaning.

After Guan Wei brought Qin Chen over, he immediately handed it over to Captain Na Tian.

"Captain Guan, is this kid? What did this person commit? It's worth your effort to move the crowd like this?" Captain Tian glanced at Qin Chen, who was bound strictly, and saw that he was only a young man, but he was so solemn, and he was a little surprised. "Captain Tian, don't underestimate this kid. You must take care of this kid. The **** on your body is really locked and you can't untie it. You don't know. This person is cruel. Take the Feng family from the royal family. It was this kid who killed the door. Even the ancestor of the Feng family died in his hands, so be careful."

Guan Wei reminded.

He was afraid that Tian Tan would not know what to do, and if the real lock on Qin Chen's body was opened, it would be troublesome. With Qin Chen's cultivation base, he could escape from the black prison.

"He killed the Feng family?"

The burly Han Tian was taken aback, and he looked at Qin Chen several times. It was unbelievable that the man who wiped out the Feng family was such a young boy, with a small look on his face.

"Okay, don't worry, it is impossible for people to come to me and want to go out safely." Tian Tan grinned grimly, and the two city guards behind him also showed cold smiles.

"Then I'll leave the person to you, but Commander Geng said, you should understand if you want to take good care of this person." Guan Wei sneered coldly.

"Don't worry, leave it to me."

Na Tian Tan looked at Qin Chen up and down, sneered at the corner of his mouth, and after taking Qin Chen from Guan Wei, he led him into the black prison area.

"Captain, where do you send this kid?" one of the city guards sneered.

"Then you need to ask, now that Commander Geng has given an explanation, he is naturally sent to the severe punishment area." Captain Tian snorted coldly.

"Severe punishment area?"

The two city guards were taken aback for a moment, and immediately showed grim smiles.

The heavy punishment area, that is the most terrifying place in the black jail, is filled with a group of desperadoes, basically, some gangsters who cannot be released again.

It can be said that those detained there just walk through the scene, and it will not take long before they will be executed.

And these prisoners often knew their own destiny, so they were all extremely crazy and had no desire to survive.

A normal person is thrown into the severe punishment area, and I am afraid that within two days, he will not even know his parents. It can be said that it is the most scary place in the black prison.

"But before throwing this kid in, search for the things on this kid."

Captain Tian waved his hand, and the two immediately held Qin Chen in the corner, and they were about to search Qin Chen.

"Captain Tian, if I were you, I wouldn't let myself get into trouble." At this moment, Qin Chen suddenly sneered.

[Chapter 733: Hurt me too](#)

"What do you mean?"

Captain Tian, who was about to do it, was taken aback, stopped and looked at Qin Chen.

"What did you kid say."

"Boy, get into trouble with your upper body? I'm so courageous. At this time, I dare to threaten our captain and let you die."

The two city guards also sneered coldly, and one of them coldly walked towards Qin Chen, apparently trying to teach Qin Chen a lesson.

"Believe it or not, as long as you move one of my hairs, within two days, you will kneel down and beg me with tears."

Qin Chen suddenly raised his head and looked at him coldly, his tone was not so cold, his eyes were also extremely flat, but he fell into the eyes of the city guard, but he was covered with a hair as if he was stared at by some kind of prehistoric monster.

That gaze carried a condescending aura, as if the dragon was looking down at the ants, which made people shudder.

Pedal.

Unable to bear Qin Chen's gaze, the city guard retreated again and again, inadvertently bursting into cold sweat.

"Huh, in the dark prison, dare to threaten us, so bold?"

Tian Dan's face sank, and when he saw his subordinates so unbearable, he was angry and couldn't stand it anymore. After a faint glance at Tian Dan, Qin Chen said faintly: "Captain Tian, I haven't had much sleep recently. At midnight, the Yingchuang acupoint on the chest is painful and unbearable, like a bite by all insects. Paralysis? It will not be relieved until Chenshi? The whole process is really powerless

Fa cohesive, soft and painful? "

The two city guards were startled, wondering why Qin Chen suddenly said this.

However, when Qin Chen said these words, Tian Dan's body was shocked, his originally ugly expression suddenly appeared astonished, and his eyes shot out an unprecedented incredible light.

"Hey, Captain Tian is young, and his cultivation is already the peak of the late stage of Tier 5. According to this book, he is only one step away from the half-step martial arts, and it can even directly impact. It's a pity that there is a problem with his body. From now on, let's not talk about impacting the realm, I'm afraid I will be alive in a few days."

Qin Chen sighed.

"Boy, what are you talking nonsense."

"Our Captain Tian has a high level of cultivation and amazing strength. In the future, he will become a top-notch person. Your kid will only have a good life in a few days."

The city guards behind Tian Dan yelled again.

One of them raised his hand and was about to smoke Qin Chen.

"stop!"

At this moment, Tian Dan suddenly gave a cold cry, staring at Qin Chen coldly, his eyes were uncertain, as if he wanted to see Qin Chen clearly.

But from Qin Chen's face, he could not see the slightest clue.

"Boy, what exactly do you mean by what you just said? Today, if you don't explain clearly to the captain, don't say you are the prisoner given by Commander Geng. Even if it's not, the captain will make you feel sorry for being here and regret coming here. In prison!"

After a long while, Tian Dan said coldly, with a strong killing intent in his tone. "Captain Tian can't understand?" Qin Chen looked at Tian Dan with a light smile. He was not at all deterred by Tian Dan's threat, and said calmly: "Since Captain Tian doesn't understand, then Ben Shao should understand better. , Captain Tian should have just sprinted half a step into the Wu Zun realm not long ago? It's not a long time, probably in

It looked like half a month ago, if the unexpected is good, Captain Tian should have succeeded and successfully broke into the half-step Wuzun. However, before I had time to be happy, I found that the sea of qi in the body couldn't gather the true power, and even if it was barely gathered, it would suddenly collapse and dissipate. "

"Captain Tian is afraid, he should have taken some pill that stabilizes Qi Hai, um, the fifth stage Guyuan Pill, and the sixth stage Ninghai Pill. Tsk tsk, the Ninghai Pill is not cheap, although it is only the initial sixth stage pill. But the price is expensive and extremely scarce. Captain Tian should have spent a lot of money." Speaking of this, Qin Chen shook his head: "Although the effect of Ninghai Pill is amazing, even the damaged sea of Qi can be condensed. It's a pity. Captain Hotan, your question is not right, it's just a

waste of money. In the end, Captain Tian's half-step martial arts realm was not able to hold on for three days.

Xin fell into the Wuzong realm in the late fifth stage. "

"Moreover, the symptoms I mentioned before also appeared. Every midnight, the pain is very painful, and no medicine can be cured. Only when the hour is dawn, will it get better, this young master should be right."

Pedal!

Qin Chen was talking here, but on the other side, Tian Dan's face became paler and more ugly. In the end, he was the commander of the dignified city guard, even standing unsteadily, retreating again and again, while looking at Qin Chen in horror. .

The eyes were full of horror, as if he had seen a ghost.

"Captain, what's wrong with you!"

The nearby city guards hurried forward to support him.

"I'm fine." Tian Tan pushed the two away, looked at Qin Chen in amazement, and said in anger: "How do you know these things?"

"It doesn't matter how this young master knows it. The important thing is, Captain Tian Tan, you may be alive within a few days. According to Ben, Captain Tian should take care of the funeral as soon as possible. Otherwise, wait a few days. Suddenly died in the dark prison, and there is no time to deal with the funeral." Qin Chen shook his head.

"Boy, you are looking for death."

A city guard rushed towards Qin Chen angrily.

"Stop it." Tian Tan stopped him, glared at him angrily, and then looked at Qin Chen coldly, "Boy, do you think I will believe you?"

"Whether Ben Shao is talking about facts or nonsense, Captain Tian should have a good idea. If he still doesn't believe him, Captain Tian can press his Shenque, Tianchi, and Guanyuan three points, and he will naturally know the truth." Qin Chen sneered.

Tian Dan's eyes condensed, and he stared at Qin Chen coldly. Although he was extremely unbelieving in his heart, he subconsciously pressed them towards his three acupuncture points.

"hiss!"

With this press, Tian Dan screamed, and the three acupoints came with severe pain at the same time. The whole person's eyes went black, and the pain fainted instantly, and he fell to the ground.

"What did you do to our captain?"

When the two Tian Dan's men saw this, they were completely frightened and said in anger.

Qin Chen sneered: "Don't worry, your Captain Tian is fine, just pinch him a few times and he will wake up."

The two were skeptical, but in a panic, they still subconsciously obeyed Qin Chen's instructions and frustrated Tian a few times.

"It hurts me too!"

Tian Dan roared and woke up, with cold sweat all over his body, his face pale as paper, extremely weak, as if prostration.

"Captain Tian, you believe it now." Qin Chen said with a sneer.

"How did you tell? What do you want to do?"

Tian Dan stared at Qin Chen fiercely.

He didn't believe it, Qin Chen pointed out his problems just to anger him.

"If you don't talk secretly, your problem is very serious. Normally, you will die. Fortunately, you are lucky. God let you meet me, which is equivalent to finding a way out for you." Qin Chen indifferently said.

"You mean, can you cure my problem?" Tian Dan's eyes condensed in disbelief.

[Chapter 734: Almost kneel down](#)

At this moment, Tian Dan's heart was extremely tangled and extremely complicated.

The symptom that he had been hit by Qin Chen just now was a kind of gratitude as if he was struck by lightning, and he even wondered if anyone had revealed his symptoms to Qin Chen.

but.

Tian Dan knew very well that he hadn't even said about the symptoms on his body, and it was impossible for anyone to disclose it to Qin Chen.

The only possibility is the pharmacist he had consulted.

It's just that, in his capacity, the alchemists he visited were all of the more common types in the imperial city, not bad, but not top-notch.

After all, he is just a captain of the city guard. Although he is in charge of the black prison, the high-ranking alchemists can't find him at all. How can they look at him?

Therefore, he cannot afford to visit those high-level pharmacists, nor is he qualified to let others diagnose him.

As for the ordinary pharmacists, Tian Dan spent a lot of money and paid a lot of money, but none of them could tell the specific reasons for him.

Many pharmacists can't even see his illness, let alone leak it to Qin Chen.

What surprised Tian Dan most was that Qin Chen casually said the pills he had taken.

Those medicines are of amazing value, and Tian Dan tried his best to buy them from some special channels, and there is no possibility of leaks.

Summarizing these clues together, Tian Dan came to a conclusion that everything Qin Chen said was seen by himself.

How did this make Tian Dan not shocked?

Although the problem on his body did not last long, it has deteriorated faster and faster over the years.

There is a feeling of hopelessness.

At this time, Qin Chen suddenly lighted it through, as if a light suddenly appeared in the endless darkness, making Tian Dan an unprecedented hope in an instant.

Seeing Tian Tan's expression of gains and losses, Qin Chen's eyes were calm and indifferent: "Your Excellency is just a small captain of the City Guard Department. If there is anything worth deceiving, if you say that you can cure your problems, you will be treated naturally. Could it be that Young Master Ben can deceive you for any benefit?"

"It's not necessarily." Tian Dan snorted coldly.

At this time, he finally calmed down.

He looked at people like Qin Chen more. Many people went to the black jail and dared to say anything in order to seize the vitality. In fact, they were just trying to survive.

It is hard to guarantee that the boy in front of him said so, also to let himself open and get a bit of life.

"You said you can cure my illness, how can I believe you?"

Tian Dan said in a deep voice, staring at Qin Chen.

In the final analysis, it is still a sentence, how can you believe that the other party is not cheating yourself. Hearing Tian Dan's words, Qin Chen suddenly laughed: "How can you believe me? Captain Tian, Captain Tian, I'm afraid you're not very clear about the identity of this young man? Hehe, you can go to Dange to inquire, I'm Qin. Chen, who is it, even the pavilion Lord Dan will call me a master, I need to deceive

you? "To tell you the truth, this young man came to the city guard office today just to not want Dange to be embarrassed. In the end, your city security office will still send him back obediently. The reason why Geng Deyuan sent him here is because he wanted Borrow your hand to beat Ben Shao Qu as a trick, so Ben Shao will persuade you not to

If you want to get into trouble, do you really ask you for this? "

"If you don't believe me, put Ben Shao in the dark jail, Ben Shao is very busy, too lazy to talk nonsense with you."

With a cold snort, Qin Chen showed disdain.

Seeing Qin Chen's expression, Tian Dan was inexplicably surprised, even the Lord Pill Pavilion would call him a master? real or fake?

"You two, come here."

With suspicion in his mind, Tian Dan waved his hand and instantly called two of his men to his ears, and secretly ordered a few words.

The two city guards looked at Qin Chen again and again, and hurried out without knowing where they were going.

"Hmph, no matter if what you said is true or false, this team leader thinks you are relatively honest, so he won't put you in the black cell, and wait until the team leader has read your file."

With a cold snort, Tian Dan took Qin Chen into a separate room and was temporarily detained, while he himself stood by the door and personally guarded Qin Chen.

Qin Chen was not in a hurry, ignoring Tian Dan at the door, sitting cross-legged in the room slowly, closing his eyes and practicing.

He knew that Tian Dan must have gone to investigate himself.

After he knows his identity, he will not change his attitude if he doesn't believe it.

After half an hour.

The two city guards sent by Tian Tan hurriedly returned.

The two looked at Qin Chen in the room with a look of surprise, and then whispered in Tian Dan's ear.

"what?"

Tian Dan's expression became more and more shocked, and also more and more surprised. In the end, he looked at Qin Chen with astonishment.

The two city guards didn't go elsewhere, they just followed Tian Dan's order to go to Dan Pavilion to find out about Qin Chen.

How sensational was the news that Qin Chen rushed through the difficult stone wall in Dan Pavilion during the day? Not to mention Dan Pavilion, almost half of the people in the imperial city have heard of it.

Now, after deliberately inquiring, how can't I find out, these two city guards clearly inquired how respectful Qin Chen was by Zhuo Qingfeng, the lord of the Dan Pavilion, after Qin Chen smashed the difficult stone wall.

In order to please Qin Chen, he directly abolished a Dange real power elder and sent him into the law enforcement hall for investigation.

What kind of behavior is this?

Moreover, the two of them also inquired about another piece of news, that is, before Elder Dan Ge Xu Bo, it seems that he had a serious illness. This month, it has become more and more serious, and it is even about to fall.

The pharmacists and physicians in the entire imperial city were helpless.

But after Qin Chen came over, he applied some medical skills to heal Elder Xu Bo's injuries. It only took a long time for him to lie in bed and live alive.

Now Elder Xu Bo has been appointed as the deputy head of Dange.

Moreover, there are rumors that Elder Xu Bo's condition is not due to some disease, but Elder Jin Yuan has given a kind of antiquity poison, which cannot be cured.

These news spread to Tian Dan's ears, shocking momentarily.

"Commander Geng, it really hurts me."

Shocked all over, Tian Dan burst into a cold sweat behind his back.

Fortunately, he did not drive Qin Chen directly into the black jail, and even the owner of the Pill Pavilion would honor him as a master. Such a character, not to mention that Qin Chen could cure his illness, even if he could not be cured, he would not dare to offend him.

If Dan Ge learns, how can it be done?

"Quickly, open the prison door for me."

Angrily, Tian Dan hurriedly walked in. Opening his eyes, Qin Chen didn't wait for Tian Dan to speak, and then said lightly: "Captain Tian, have you finished reading Ben Shao's dossier? If you are finished, please put Ben Shao in the dark prison quickly. Now, there are a lot of murderous gangsters in the black jail. The young master wants to see and know, staying here all the time.

Here, blame it's deserted. "Pumping", Tian Dan's legs softened when he heard this, and he almost knelt down.

[Chapter 735: Nether Leopard](#)

With an embarrassing smile on his face, Tian Dan said with a smile: "Master Qin, what are you talking about, before you are convicted, will you be thrown into a dark prison? This is a blasphemy against you, Master. , Is a trampling on the laws of the imperial city."

Tian Dan said indignantly.

Put Qin Chen in a black jail?

joke.

Even if he killed him, I would not dare to do such a thing!

He didn't know why Deputy Commander Geng wanted to offend Pill Pavilion and **** Qin Chen over, but he wanted to come, there must be some shady business in it.

If Qin Chen had no background, he would sell Geng Deyuan for a face.

But now that he knows that Qin Chen is the one who even the master of the Pill Pavilion would honor to be a master, how dare Tian Dan have any thoughts about Qin Chen?

If Deputy Commander Geng killed Qin Chen with a stick, it would be okay. If the conviction was not successful and he was finally released, then he would still have good fruit in the future?

Even though Dan Ge couldn't control their city guards, this kind of completely harmless offending people was nothing but death.

Seeing the flattering smile on Tian Dan's face, Qin Chen knew immediately that the other party must have inquired about his situation, so he changed his attitude, but on his face he pretended to be confused, and said in doubt: "Captain Tian, before it doesn't seem to be such a statement." "Ahem." Tian Dan looked embarrassed, and immediately said righteously: "Master Qin, I haven't read the master's dossier before, thinking that the master is a wicked person, so he must be punished severely. , But before, after reading Master Qin's dossier, I found that there were many doubts in it.

There are many places, and there is no explanation at all, so before investigating the truth, I feel that you can't treat you as a prisoner. "

At this moment, Master Tian Tan was directly addressing him, and he said in awe-inspiring manner: "Our City Guard Office enforces the laws of the dynasty, which represents the face of the dynasty. How can we give people a mess before the truth is known? conviction."

While talking, Tian Dan glared at the two people around him, and said angrily: "You two, what are you doing here in a daze, why don't you let Master Qin Chen loose?"

"Really, I don't have any eyesight. Master Qin hasn't really convicted him, so he tied it up like this, is it appropriate?"

Tian Dan said angrily.

"Untie?"

The two city guards were startled, and looked at Tian Dan in surprise.

Although they knew that Qin Chen was a distinguished guest of the Pill Pavilion, they also knew that it was the so-called master of the Pill Pavilion. Not long ago, he led people to destroy the Feng family. There were almost no masters in the Feng family.

Deputy Commander Geng might also be worried about the other party's hands, so he tied him with a real chain.

It's really going to be loosened, once you start, who can hold him here?

"Captain, this doesn't seem very good, but Captain Guan Wei said, Deputy Commander Geng is paying attention to this case, and he specifically explained..."

"Deputy Commander Geng?" Tian Dan's eyes widened, "Why, do you two think that Guan Wei is leaning on Deputy Commander Geng behind his back, and the captain is afraid that he will not succeed? This is

the black prison area, it's my Tian. In the waning site, the team leader can manage it as he wants, don't say what he Guan Wei said, it's Geng Deyuan

In front of me, the leader of the team didn't give him any trouble, and he didn't want to let the master loose. "

A kick on the two ass, Tian Dan was angrily.

What's the matter, these two people still can't listen to orders.

"Yes Yes."

The two had a bitter face and hurried up, and began to untie the real chain on Qin Chen's body.

The so-called county officials are not as good as the current ones. Although they are extremely afraid of Qin Chen and dare not violate the orders of Geng commander, they are after all the soldiers of Tian Dan.

Tian Dan is their immediate boss, and naturally he dare not violate Tian Dan's orders.

After carefully unlocking the real chain on Qin Chen's body, the two of them immediately hid in fright.

"Come, come, Master Qin, sit here." Tian Dan pulled Qin Chen onto the seat, and cursed at the two men: "You two guys, what are you guys trying to do? Prepare tea. Bring the snowy mountain peak tea that your team leader has prepared, one by one, all of them belong to pigs."

Tian Tan was about to explode in anger, these two guys, they seemed to be relatively clever in the ordinary days, why are they so ineffective today.

Soon, the hot tea was brought up, Qin Chen loosened his whole body and was arranged on the seat.

"Captain Tian Tan, are you not afraid that I will run away?" Qin Chen took a sip of hot tea and said with a faint smile.

"Run?"

Tian Tan shook his head: "Master Qin was joking. Master said just now. You were deliberately caught in the city guard office because you were afraid that it would be difficult for Dan Pavilion to do it. You will be able to leave after a while. When others say that, I am just him. It's bragging, but if the master says so, how can Tian not believe it."

"Haha." Qin Chen smiled, noncommittal.

"Master Qin, what do you think of my tea?" Tian Dan saw Qin Chen not speaking, and looked over carefully.

"It's okay." Qin Chen nodded. He didn't expect that in this dark prison, he could still drink such good tea.

"Master Qin is satisfied, that's good." Tian Tan rubbed his hands, and then looked over with a request: "Then what, Master Qin, you just said my problem..."

Qin Chen glanced at him faintly: "Don't worry, since I said that I can cure your illness, I won't lie to you."

"Little dust, then on me..."

"I don't know what attributes of Captain Tian's bloodline are?" Qin Chen asked with a smile: "If I guessed correctly, Captain Tian should have just upgraded his bloodline half a year ago."

"You... how do you know?"

Tian Tan was shocked.

"Not only do I know this, but I also know that the blood beast that Captain Tian uses to improve his bloodline should be a Tier 5 Ghost Leopard!" Qin Chen said again.

"Wow!"

Tian Dan stood up suddenly in fright, and the chair behind his buttocks fell to the ground in an instant. The shocked eyes of his whole person were almost glaring, with a look of horror on his face.

He was not surprised that Qin Chen could see his symptoms. After all, a powerful pharmacist could infer physical problems from a person's appearance.

But Qin Chen suddenly saw how long he had raised the bloodline and the blood crystal absorbed by the bloodline, which made Tian Dan had to be astonished.

This is simply god.

"In fact, Captain Tian's problem with you should be caused by this Nether Leopard's blood crystal."

Tian Dan suddenly said in shock: "How is it possible?"

He raises the bloodline level through the Holy Land of Bloodline, and it is very consistent with his own bloodline attributes. How could there be problems?

Suddenly frowned, "Is it really the blood crystal that I absorbed? But if there is a problem with the blood crystal, wouldn't the bloodline masters in the Holy Land of Bloodline see it? They didn't say anything?"

"That is. They are ignorant and too old-fashioned." Qin Chen shook his head.

[Chapter 736: VIP treatment](#)

Tian Dan was speechless.

The one who promoted him to the fifth-tier bloodline was not an unknown person. It seemed that he was still a steward in the bloodline holy ground, with a very high status, and Qin Chen actually described it as ignorant.

"Then what's wrong with the blood crystals that are absorbed below?" Tian Dan asked in confusion.

If it weren't for Qin Chen to explain his problem with a single word, he would definitely feel that this person is a liar at all.

"Actually, there is nothing wrong with the blood crystals you absorbed, and there is no problem with the bloodline master's operations, but your own problems." Qin Chen said.

"My own problem?"

"That's right." Qin Chen smiled faintly: "The technique you practice should be of the anger attribute, so your temper has always been a bit irritable, but your bloodline belongs to the Yin attribute, between the two, itself Not in harmony."

"But it's nothing."

"Bloodline is extremely fault-tolerant. Even a warrior with an ice bloodline may not be able to practice the fire attribute technique. Maybe you can create an original attack with the ice and fire attribute, but the problem lies in you. Above the blood crystal absorbed by the bloodline." "The second and third grade blood crystals you have absorbed are no longer visible, but when your bloodline breaks through the fourth grade, the absorbed blood crystals should be the blood of Tier 4 Ironclaw beasts. Jing, Ironclaw Beast, with a violent temper, amazing defense, and violent attack, it is one of the most terrifying blood beasts of the Mysterious level, but it belongs to

The sex, specifically, belongs to the heptagonal metal sex. And when your bloodline broke through the fifth rank, it happened to absorb Nether Leopard's blood crystals. "

"Nether Leopard, with vigorous action and cold temperament, it is the attribute of Yimu. Among the five elements, the golden gold and the Yimu. Your bloodline bears the power of these two blood crystals at the same time, and it will naturally conflict."

"However, this is not incomprehensible. Generally, when bloodline holy places improve bloodlines, bloodline attributes are tested, and preventive measures have been taken. Even if Geng gold is matched with Yimu, it is not necessarily impossible, but the most important thing for them is that there is no Count into your career."

"My profession?" Tian Dan was taken aback, what does this have to do with profession? "If you didn't do it, it was your profession." Qin Chen said lightly: "City Guards, although not a special profession, you are the captain of the black prison in the City Guard. The black prison is detained by the City Guard. The place of the death row, any place in the air here, is filled with despair, violence and a touch of

It's okay for ordinary people to be in contact for ten days and a half month, but you are stationed here all year round. Accepting this breath for years and months will make your body naturally gather something that ordinary people can't see. Yin is dead. "

"This evil spirit of death, combined with the blood crystal attribute of your body and the cultivation technique you have cultivated, is like an explosive barrel that has detonated, and your body will deteriorate instantly."

"Hiss!" Tian Dan was shocked. He didn't expect that his own problem would be so complicated.

The two city guards beside Tian Dan also looked at each other at this time, their faces were shocked.

Thinking of the evil spirits Qin Chen had said, the two of them felt that they were all fluffy and panicked.

After all, they also work in this dark prison all year round, so they won't be contaminated with anything unclean.

Tian Dan trembled: "Master Qin, how can we solve it?"

"It's actually very simple to solve. I'll prescribe a prescription for you first. If you follow my prescription and take the medicine for half a month, you will naturally get rid of this squalid spirit."

"Really?" Tian Dan's voice trembled a little.

"Do I need to lie to you?" Qin Chen smiled faintly: "Bring paper and pen."

Tian Tan immediately started, prepared paper and pen, and placed it in front of Qin Chen respectfully. Qin Chen was also unambiguous and wrote a prescription directly. "This is the prescription. You take the medicine. You don't need to ask a pharmacist to make it. You can just boil the juice together. After the juice is boiled out, you can swallow it directly. It's not just you, but the two of them. The city guards in the dark prison can take this prescription to get rid of the evil spirits in the body.

Lifeless. "

Tian Dan took the prescription subconsciously, and suddenly felt unbelievable. He couldn't help but mutter: "I'm sick, just take these concoctions?"

He was still a little unbelievable.

It's not that he can't believe in Qin Chen, but that the treatment process is too simple. "It's not that easy." Qin Chen smiled: "This prescription is just to get rid of the evil spirits from your body, but your problem is already very serious. Merely getting rid of the evil spirits cannot cure the root cause. Here I have a set of methods for refining qi. It is divided into two parts. You can follow

I practice the first part of this exercise for a week, and then I will press the part for a week to heal. "

"No, even if you are healed, when you raise your bloodline in the future, you should be careful not to absorb blood beast blood crystals that conflict with the previous blood crystals, so as to avoid recurrence."

"As for the first part of this qi refining method, I will pass it directly to you now, and the second part, after a while, you can ask me for it."

Qin Chen's voice fell, and directly brought a piece of Qi training method into Tian Dan's mind.

This Qi refining method is very simple, and Tian Dan can master it in just a few moments.

Subconsciously, it runs a week in the body.

After this week, Tian Tan only felt warm in his body, and inexplicably more vitality, and his whole spirit was obviously refreshed.

"You press the previous three points again." Qin Chen said suddenly.

Tian Dan was taken aback for a moment, and then cautiously pressed towards his three acupoints: Shenque, Tianchi, and Guanyuan.

The pain before was so terrible, it made him feel lingering, and a heart was raised in his throat.

"what!"

Only this time, Tian Dan was stunned for an instant. The three acupuncture points that were extremely painful before. At this time, warm and warm, although there was still some pain, it was more than ten times better than before.

"how come?"

Tian Dan was completely stunned. This Qin Chen's treatment technique was absolutely amazing. He simply ran the qigong practice Qin Chen had given, and the effect was so terrible.

"Don't be too happy too early. Although the pain has diminished a lot, your problem has not been completely resolved. Only according to what I said, taking the medicinal juice for half a month and practicing the Qi training method in the upper and lower chapters can he completely heal. , There will be no recurrence." Qin Chen said lightly.

"Yes!"

Tian Dan was extremely excited. Although Qin Chen said it was only temporary, but seeing the problems that had troubled him for so long, he got better so easily. How could he not be excited?

"Master Qin, don't worry, as long as I am here, you can do whatever you want in this dark prison area in the future."

Tian Dan worked hard, and while instructing a city guard to grab the medicine, he instructed the other to immediately organize a clean dark cell and prepare all kinds of daily necessities. Be sure to make it clean and tidy for Qin Chen. Comfortable and satisfactory to live. Enjoy the supreme VIP treatment.

[Chapter 737: Nangongli](#)

I have to say that Tian Dan's work efficiency is extremely fast.

Soon, a very comfortable single room was ready.

The sheets and bedding are all brand new, and there are even some tea sets, which can be used to make tea directly.

In addition, all kinds of food and snacks are also prepared and have everything.

The city guards who were preparing to watch were stunned.

This is like a black prison area, it's a sanatorium at all!

And when Qin Chen was being set up, all the medicinal materials in the prescription were also captured. After Tian Dan quickly boiled it, he couldn't wait to drink a bowl.

When the hot medicinal juice entered his stomach, a groaning warm current flowed throughout his body instantly, flowing in various meridians and acupuncture points, giving Tian Dan an unprecedented sense of comfort.

The feeling of paralysis was quickly swept away, and the condensed true power was full of power.

Even the real power in the body has a kind of urge to try, wanting to break through the half-step Wuzun again.

Suddenly Tian Tan burst into tears.

He didn't know how long he had been, and he had never felt this way anymore.

Although it is still impossible to break through to the half-step Wuzun, Tian Dan already believes that according to Qin Chen's instructions, not only will his injuries heal in half a month, but he may even return to the half-step Wuzun realm again. How is he not excited?

Besides Tian Tan, the city guards under his command also took a bowl of concoction.

Suddenly, everyone's body was warm, and one of the city guards, who had been stuck at the peak of the late fourth stage, unexpectedly started a breakthrough in an instant.

This made Tian Tan dumbfounded and shocked.

What he didn't know was that these city guards had been exposed to many violent negative emotions all the year round in this black jail, resulting in the accumulation of a lot of evil spirits in the body.

These evil spirits will not only affect their emotions, but also make their cultivation level stagnant and unable to advance. Now that the evil spirits within the body begin to dissipate, the true power is liberated, and it will naturally increase naturally.

This made Tian Dan more determined and determined to serve Qin Chen well.

And when Qin Chen was imprisoned in the City Guard, Elder Xu Bo also returned to the Pill Pavilion angrily.

He originally figured out about the situation of the pavilion master Zhuo Qingfeng, Qin Chen, and wanted the pavilion master to come forward and tell someone.

But what Xu Bo didn't expect was that after Qin Chen left the Dan Pavilion and appointed him as the deputy pavilion master, Zhuo Qingfeng closed the deadlock because Qin Chen rushed into the difficult stone wall and gave him too much inspiration.

Xu Bo, who couldn't see the pavilion master, could only rush to the Holy Land of Bloodline according to Qin Chen's instructions.

The center of the Imperial City Bloodline Holy Land.

Outside a magnificent bloodline, a middle-aged man stands outside, respectfully waiting for something.

I don't know how long it took, and with a squeak, the blood vessel opened, and an astonishing wave came out. At the same time, an old man with extraordinary momentum came out.

This person is wearing a Tier 6 bloodline master robe, with a pair of piercing pupils, like a cold star, exuding cold light.

It is the president of the Imperial City Bloodline Holy Land-Nangong Li.

This Nangong Li is also a legend in the imperial city. He is indifferent to fame and fortune. He rarely interacts with the major forces. He lives in simple terms, concentrates on the knowledge of blood, and is a research madman.

"Subordinates have met the president."

Seeing the old man come out, the middle-aged man hurriedly bowed to salute.

"Manager Chen, are you okay?" Nangong Li, who was thinking, was awakened by the middle-aged man. He frowned and said displeased.

Nangong Lixi is quiet, and most taboo is to be disturbed. Every time after studying the blood, he needs a quiet space and atmosphere to give him enough time to think.

And this rule is the most clear to the bloodline masters of the entire bloodline holy land. Seeing the president's dissatisfaction, Guan Shi's face suddenly paled. Knowing that he was rashly disturbed, he had already made the president unhappy. He hurriedly said carefully: "President, there is indeed something wrong, there is a Dange elder named Xu Bo outside. , I want to see you, I heard that you are cultivating and have been waiting outside for almost one

It's an hour. "

"Elder Dange?" Nangongli squinted.

With his status and status, in the Pill Pavilion, apart from Chairman Zhuo Qingfeng who has some friendships, he is not familiar with other elders at all, and he has no contact with him. Why is there suddenly an elder begging to see him?

In the outside world, the status of Elder Dan Pavilion is definitely considered good, but in front of Nangong Li, how can he care about a mere elder.

Suddenly his face sank: "Manager Chen, I didn't tell you, if you have nothing to do, don't bother me. Why are you coming to bother me when an elder Dan Pavilion asks to see you, don't you think? ?? Even a Dan Pavilion elder is free to meet?"

He could guess it without even thinking about it. Ninety-nine percent of the so-called Elder Pill Pavilion's request was to improve his bloodline. He didn't bother to care about this kind of thing. "No... the subordinates dare not... the subordinates have already rejected him and explained your situation as the president, but, for some reason, this person just doesn't want to leave, saying that he will be looking for you if there are important things, and , This person also said that he was the deputy head of Dan Pavilion, and his subordinates looked at him really anxious.

Thinking if something really matters, just..."

"The deputy chief of Dange?" Nangongli sneered: "Although I am not very familiar with old man Zhuo, I still know a little bit. This person, like the old man, doesn't care about anything at all, so I have never set up a deputy chief. The imperial city knows it, don't you know? Does any Dange elder say that he is a deputy

Lord, will you believe? "

Nangongli's complexion sank and she was unhappy.

The promotion of Chen Xiang to the position of manager was because he felt that he was still sensible, with some insight, how could he be so unreliable to do things this time.

He was even considering whether he should change to a more reliable manager. "No." Manager Chen Xiang wiped the cold sweat from his forehead and saw Nangongli's gloomy expression. Knowing about Nangongli, he knew that the president was already very unhappy, and hurriedly said: "The next subordinate didn't believe it at the beginning. But he took out the token of the Dan Pavilion Zhuo Qingfeng Pavilion Master.

Pavilion Master Qingfeng has something to send him to, it is not good to be directly blocked by his subordinates, so he came to ask you for your instructions. Since the president of the president, you said you didn't see him, the subordinates will chase him away immediately. "

Xu Bo was annoyed at his heart, and Chen Xiang turned around and left.

"Zhuo Qingfeng's token?"

Nangong Li frowned, waved his hand and said, "Forget it, since they are all here, the old man will see him. You can take him to the old man's reception room. The old man will come after the meeting. , A Dange elder, what can you do!"

Nangongli sneered. "Yes!" Guanshi Chen wiped off his cold sweat before leaving carefully.

[Chapter 738: Tianda good fortune](#)

In the reception room of Nangongli, Xu Bo and the black slave were brought in by Chen Xiang.

"Elder Xu Bo, the president will come over right away. If there will be anything later, you can tell the president directly, don't make any detours, the president is very busy with time, but there is no time to listen to you."

After guiding the two to the seats, Chen Xiang said with a sullen face, with a hint of impatience in his tone.

Nangongli was given a lesson before, and he still feels a little worried now, how can he give them a good face?

Not long after, Nangong Li walked in.

"Junior Dange Xu Bo, visit the chairman of Nangongli, if you offend, please forgive me." As soon as Nangongli entered, Xu Bo hurriedly stood up and said respectfully.

Don't look at him now as the deputy pavilion master of Dan Pavilion, but he is very clear about how his position as deputy pavilion master came from, and there is still a big gap between Nangong and such a top power giant.

What's more, he is now asking for help and has to act low-key. "Is it because you have something to see me?" Nangongli glanced at Xu Bo and said indifferently: "The president is very busy. If you have nothing to do, but you waste my time, don't think you are the elder of Dange. I can't do anything about you, believe it or not, the old man kills you now, and Pavilion Master Zhuo won't fight for you.

The old man makes a noise. "

Nangongli snorted coldly.

"Junior knows that when the younger generation is here, they actually have something to ask for." Xu Bo hurriedly said.

"If you want the old man to improve your bloodline, then don't say it, the old man is very busy, I don't have this effort." Nangongli frowned, and when he heard something to ask for, he subconsciously thought Xu Bo was here to ask for improvement. Bloodline.

Nangong Li sees too much of this kind of thing. As the president of the Holy Land of Bloodlines, Nangong Li is the strongest cultivation base among the bloodline masters of the Dawei Dynasty. In the entire Dawei Dynasty, I don't know how many powerful masters ask him every day. Help, they were all turned away by him.

Now Xu Bo speaks, he subconsciously refuses.

"The president is misunderstood. The juniors are here not to improve their blood."

Seeing Nangong Li's anger, Xu Bo's expression changed, and said hurriedly in fear.

He was here to seek help for Qin Chen. Although he didn't know what Qin Chen wrote to Nangongli, he was worried, but he didn't dare to provoke Nangongli.

"It's not for improving bloodline, but for what?" Nangongli sneered.

There was disdain on his face. Although he didn't say anything, the contempt in his words was obvious.

The black slave finally couldn't stand it anymore.

He had also heard of Nangong Li. He had a perverse temper and an extremely strong personality, but he was the president of the Holy Land of Blood, with a noble status.

It's just that no matter how noble their status is, they won't give such a face when they come to see you?

Moreover, before writing this letter, Qin Chen specifically asked the black slaves about Nangong Li's situation, and knew very well about it.

Therefore, Xu Bo knew nothing about the content of this letter, but his black slave knew a little about it, and he had already guessed the purpose of less dust.

Therefore, his brows frowned, and he immediately said in a deep voice, "Nangong Li, the chairman, we are here now. It is our young master who has a letter to hand to you."

"Your young master?"

Nangongli glanced at the black slave and sneered: "Who is your young master? Do you know the old man? In front of the old man, dare to have such an attitude, Guan Shi, see off the guests!"

With a wave of his hand and too lazy to ask any more, Nangongli directly issued the eviction order.

"President Nangong." Xu Bo hurriedly shouted, but he was very anxious in his heart, complaining about the black slaves. In front of President Nangong, he even dared to have such an attitude. Doesn't this guy know what their purpose is? If you do this, you offend President Nangong, what about Shao Chen?

"Stop talking, the old man has seen a lot of people, pretending to be, don't leave, believe it or not, the old man took you down on the spot." Nangong snorted coldly.

"You two, leave quickly. If you don't leave again, I'm going to do my hand at the Holy Land of Blood." Guanshi Chen was angry when he saw the chairman, and said in a cold voice. Xu Bo wanted to say something, but was grabbed by the black slave, and said coldly: "Since President Nangong doesn't want this good fortune, then forget it. With such a vision, it is no wonder that this person has been stuck in the sixth-order bloodline master. Realm, he can't make progress all the time, I'm afraid he will be the president of the Holy Land of the Dawei Dynasty in this life.

It's the end, Elder Xu Bo, let's go! "

After that, he took Xu Bo, turned and left.

"Wait a minute."

Nangongli's voice was cold, and she looked at the black slave coldly. A terrifying aura, suppressed, instantly fell on the black slave, and said coldly: "Boy, what are you talking about?" "Isn't it?" The black slave turned Looking over, he said indifferently: "Nangongli, you were born from the Dawei Dynasty. When you were young, you were just an ordinary bloodline master at the Bianzhou Bloodline Holy Land. However, you are lucky. When you were in your twenties, you were passed by a hundred In the phase of the bloodline master in the land of the dynasty, he followed him and worked as an apprentice for a few years. Later, the bloodline master left the land of a hundred dynasties and returned to a higher region. But you were left because of your low talent, but With the experience and vision of those few years, your journey as a bloodline teacher has been smooth sailing. It took decades of effort and finally

To be a Tier 6 bloodline master, to become the president of the Dawei Dynasty Bloodline Holy Land, am I right? "

On the side, Xu Bo was taken aback.

Elder Dan Pavilion in his imperial city didn't know these news very well, how did the black slaves know? "You..." Nangong Li's eyes fell for a moment, a fierce murderous intent filled the two of them instantly, and said coldly: "Did you investigate the old man clearly? Say, what is the purpose of the two of you? Today? If you don't make it clear, you two don't want to leave safely, just ask Zhuo Qingfeng to come over.

It's useless. "

Nangong Li was full of chills. The news that the black slave said was the greatest pain in his heart. When the bloodline master left, he deliberately took Nangong Li away. However, Nangong Li had too little talent, so he had no choice but to give up. He just told Nangong Li if he was alive. , Can break through to the realm of King Wu, and have a bloodline

, Can reach the peak of Tier 6, you can go to the South China Region to find him.

For this reason, Nangong has practiced frantically and hard in these years with the goal of being able to do all this.

However, his talent is indeed limited, and he has been stuck in a bottleneck over the years.

King Wu's cultivation is okay. He is already a half-step Wu King. It is not impossible to reach him. However, although his bloodline cultivation base has broken through to Tier 6 early, his progress has been slow over the years, and he is still a little short of the peak of Tier 6. Become the biggest pain in his heart.

Now that the black slave says it is broken, how can he not be angry?

"Purpose?" The black slave looked at Nangong and said, "We are here, indeed, there is a purpose, but it is also a huge good for you, if you don't believe it, you will understand after reading the letter of the young master. ." Nodding to Xu Bo, Xu Bo reacted immediately and handed the letter Qin Chen had given.

[Chapter 739: Ancient Bloodline](#)

After receiving the envelope, Nangongli showed a sneer on his face: "Pretending to be a fool, if I let the old man down, I will let you know what regret is."

Taking the envelope smoothly, Nangong Li opened a glance, and suddenly raised his brow slightly.

Looking down again, Nangongli's eyes suddenly rounded, and there was an incredible expression in his eyes. Seeing half of it, Nangongli suddenly stood up.

"Wow!"

He couldn't help but reveal his true power because he was so excited, the table in front of him was knocked down instantly, and the things on it suddenly fell to the ground.

But he didn't realize it, and the hands holding Xin trembled slightly, obviously in a state of incomparable shock.

Because in that letter, it turned out to be an ancient blood technique.

This kind of bloodline technique, Nangongli had heard of it, did not require high bloodline master's talent, but it could greatly improve the level of bloodline master.

For this reason, Nangongli had been searching for a long time.

It's just that this bloodline technique is very secretive. Nangong Li has tried his best. Apart from having a simple understanding of this bloodline technique, he hasn't inquired into the specific content at all.

He even doubted whether this ancient bloodline technique really existed.

But now, this letter clearly wrote down the ancient bloodline technique that made Nangong Li not excited.

"It's incredible, this blood technique actually exists."

Nangong Li murmured, his face flushed, as if drunk.

His look shocked Chen Xiang, who was in charge of his side, and it was the first time that Chen Xiang saw the president so excited after so many years of leaving Nangong.

I was wondering what the content of the letter was.

After reading the letter, Nangong Li's face suddenly changed. The next moment, with a cry, Nangong Li came to the black slave in an instant, with an anxious look in his eyes.

"Quickly, who is your Young Master? Where are the others? Quickly!"

This unexpected behavior shocked Xu Bo, thinking that Nangong Li was about to kill.

It was only after seeing Nangong Li's anxious face that he didn't look at the black slaves, but eagerly inquired about Qin Chen's whereabouts, and then vaguely guessed that maybe this letter is really not easy.

How did he know that Qin Chen only wrote more than half of the ancient bloodline in the letter, but the core content was not included, so Nangong Li was not anxious.

According to what Qin Chen wrote, Nangong Li clearly felt that if he really mastered the ancient bloodline technique, it was very likely that he would be among the ranks of the sixth-order peak bloodline master within a few years.

Now, he is a half-step Wuwang powerhouse, and within a few years, he has completely entered the seventh-order Wuwang, and it is not impossible.

In this way, he is qualified to go to the South China Region to find his master and enter a stronger region.

What glory is this?

Therefore, after seeing only half of the ancient bloodline recorded in the letter, during the Nangong centrifugation, it was anxious like an ant on a hot pot, and it was going crazy for a while.

"President Nangong believes it now? Don't you drive me out?" Facing Nangongli's impatient look, the black slave said calmly and calmly.

Nangong Li seemed to realize that this shocking behavior of her was too reckless, and she was too arrogant before. He smiled and said to the black slave and Xu Bo: "Ahem, misunderstanding, just a misunderstanding. ."

Then he glared at Chen Xiang and said angrily: "What are you doing in a daze? Hurry up and go to the old man's office, take out the best tea from the old man, and pour tea for the two distinguished guests!"

This difference in attitude made Chen Xiang almost fainted. "There is no need to pour tea." The black slave waved his hand, "In fact, our young master asked Zai to send this letter for a reason. Our young master admires the character of President Nangong. After hearing about the deeds of President Nangong, I wanted to fulfill my wish for President Nangong, so I wrote this letter and let me send it

For President Nangong, as for the other part of the secret technique, because it is more special and inconvenient to write down, our young master is going to meet and communicate with President Nangong in person. "

"Your young master is really thoughtful. Where is your young master now? The old man is waiting for him now, no...no...the old man should visit him personally. If you bother to lead the way, the old man will visit him personally. ."

Nangongli rubbed his hands in a hurry, unable to wait even for a moment.

"Originally, our young master planned to meet with President Nangong in the past two days, but unfortunately, there was an accident in the middle." The black slave shook his head.

He was so roundabout, in fact, deliberately to make President Nangong's heart pick up, so that the other party would be curious and actively ask.

"What was the accident?" Sure enough, after hearing the accident, Nangong Li's brows instantly frowned.

"Our young master's friend was insulted by a family in the imperial city. Our young master came to the door for someone, and the other party wanted to attack our young master. As a result, our young master was angry and destroyed the family. "

The black slave said in a deep voice: "This was originally a very simple matter, but the family, with a large background, actually mobilized the city guard to arrest people. Now our young master has been taken away by the city guard. "

"Our young master is willing to help President Nangong, so I deliberately asked Xi to give this letter to President Nangong first, so that President Nangong will understand first, and wait for our young master to get out of the city guard, and then come to the Nangong meeting. The leader personally discussed."

"What, what's the matter? Then when can your Young Master come out?" Nangong Li was anxious. "It was originally a very simple matter, but the family background is too powerful, and wants to use this matter to turn the imperial city into an unjust, false and wrongful case. Therefore, our young master may still need some time to come out. Please also invite President Nangong. Don't worry, we are thinking of a way. When our young master comes out,

Will definitely come to Nangong President as soon as possible. "The black slave said in a deep voice. "This city's security department is so brave. It doesn't distinguish between right and wrong, black and white. Is there no king's law?" "Nangong Li furiously said: "What is the name of your young master's house and which family was destroyed?" The old man immediately sent someone to the city security department to understand the situation.

"

"Our young master's name is Qin Chen. Speaking of which, Dongfang Qing and Xiang Wentian, who are in the Holy Land of your blood, have some friendship," said the black slave.

"Dongfangqing? Xiang Wentian?" Nangongli squinted, vaguely remembering in his mind that there are such two bloodline masters in the Holy Land of Bloodlines.

However, this kind of bloodline master, there are tens of thousands in the bloodline holy ground, and Nangong Li is only a vague feeling, I have heard of this name.

"Because the young master is now in a dangerous situation, the two of us will not stay too much. This letter will be left to the president of Nangong as a memorial. As for the remaining content, when our young master comes out, we will discuss with the president in person. "

After handing in the letter, the black slave and Xu Bo didn't stay much, and soon left the Holy Land of Bloodlines. Only the anxious Nangong Li was left.

[Chapter 740: Cold fire](#)

After the black slave and Xu Bo left, Nangongli quickly called Chen Xiang over.

"In our blood sanctuary, are there two blood masters named Dongfang Qing and Xiang Wentian?" Nangong Li asked in a deep voice.

"Dongfangqing? Xiang Wentian?" Chen Xiang frowned for a while and nodded immediately: "There are these two guys, and Dongfangqing is the president of the Bloodline Holy Land Branch of the Great Qi Kingdom of the five northwestern countries. Tier 4 bloodline master, Xiang Wentian, is the manager of the Xuanzhou Bloodline Holy Land branch, Tier 4 bloodline master, the two of them are currently being locked up

How about reflecting in the confinement room of the branch? "

"Reflecting in the confinement room, what's going on?" Nangong Li was taken aback.

"I'm not very clear about this, but I heard that the two of them seem to have been involved in disputes between the imperial city because they sheltered a few disciples from the five nations, so they were locked up by the people of the Discipline Hall."

"That's right." Chen Xianglian said after thinking of something, "Dongfangqing, because he quickly mastered the new generation of blood vessel issued by Beitianyu, he submitted a report on the use of the new blood vessel to the Holy Land of Blood. President, you praised it yourself."

"The new blood vessel? I remember."

Nangong Li suddenly realized it, no wonder he felt that Dongfang Qing's name was a bit familiar. At the beginning, the new bloodline instrument was not used by many people in the bloodline holy place of the Dawei Dynasty. The president of a branch of the five countries was so proficient. He himself was extremely skilled. Amazed. "Shelter a few disciples from the Five Nations? What's the mess." Nangong Li said in a deep voice: "You immediately bring that Dongfang Qinghe Xiang Wentian over, and then, send me to investigate a person named Qin Chen. This person seems to be with Feng. There was a conflict at home, but now I'm in the city's security department. You can find out how to get back

thing? "

"Yes."

As the chairman ordered, Chen Xiang naturally dealt with it immediately.

With the status of the Holy Land of Bloodline, and with quick effort, many pieces of information about Qin Chen were also submitted one by one.

Seeing Qin Chen's information, Nangongli frowned slightly.

He did not expect that Qin Chen was only a disciple of the Five Nations.

A disciple from the Five Kingdoms, but he had come up with the ancient bloodline art he dreamed of, just let him think about it, it was incredible.

If it weren't for the content of the ancient bloodline technique, he was still in the letter on his body at this time, and he even wondered if the other party had deliberately deceived himself.

"Subordinate, meet the chairman."

Not long after, Dongfang Qing and Xiang Wentian were also brought over. When they saw Nangongli, they all trembling and saluting in fear.

Although they are both bloodline masters in the Holy Land of Bloodlines, the status of the two of them is far from that of Nangong Li. Normally, there is no possibility of the slightest overlap. Nowadays, I heard the president summoned, how uneasy in my heart.

"Don't be polite, the old man asks you, do you know a young man named Qin Chen?" Nangong Li said in a deep voice.

"Less dust?"

Hearing this, Dongfang Qing exclaimed and blurted out.

"Do you know him?" Nangong Li said in a deep voice.

"Subordinates know it naturally." Dongfang Qing said hurriedly: "This person is a genius from the Great Qi Kingdom among my five countries, and he has an amazing understanding of blood."

"Oh? Amazing understanding? Where do you start?" Nangong Li asked in confusion.

When Dongfang Qing was about to, Qin Chen arbitrarily manipulated the new blood vessel, and he said it out. "The new bloodline instrument was only applied for by the subordinates from the dynasty bloodline holy land. The subordinates can guarantee that in the entire five countries, there are no other bloodline holy places except for the old man. Moreover, the bloodline instrument, except for the family Apart from being eligible to use it, I have never seen other bloodline masters.

, But Chen Shao, but he controlled it at will when he came up. The control methods of his subordinates were actually taught by Chen Shao. "

Speaking of this, Dongfang Qing said with excitement on his face: "Guild President, has Shao Chen already come to the imperial city? Where are the others now?"

As Nangongli, if Qin Chen did not come to the imperial city, he would not be alarmed at all.

"It turns out that Qin Chen taught you how to use that new blood vessel?" Nangong Li was shocked when he heard what Dongfang Qing said.

At this moment, he was more determined that Qin Chen possessed the ancient bloodline technique.

"Others did come, but now they are at the City Guard Department. A lot of things have happened in it. Manager Chen Xiang will tell you later, you and Xiang Wentian have been confined for too long, so go back and rest first. "

Nangongli waved his hand, and then said: "Chen Xiang!"

"Subordinates are here!"

"You go to the city security office immediately and tell them that Qin Chen is the bloodline master of our bloodline holy place, and ask them to release the old man immediately, and you can understand if it is."

The president of the dignified bloodline holy land, that is a big figure counted in the entire imperial city, and even in the imperial palace, he has a certain right to speak.

He Nangongli ordered that even if he was the director of the City Guards Department, he had to sell him a bit of face. Even if the Feng family had a relationship with the Leng family, Nangongli believed that, he spoke, and the City Guards Department dare not refuse. give face.

"Yes, the subordinate will go now."

Chen Xiang could see Nangongli's attitude from the excitement of Nangongli before, and turned around and left without saying a word.

And when Nangongli was investigating Qin Chen and preparing to rescue Qin Chen.

Xu Bo and the black slave had already arrived at the Imperial City Weapon Hall and met the head of the Weapon Hall.

"In the hands of your young master, do you really have the forging technique of ancient cold-fire condensing weapons?"

Yelu Hongtao, the lord of the Palace of Vessels, was a burly old man with a stubborn beard. After seeing the letter Qin Chen had written to him, his face instantly became extremely flushed, and his whole person suddenly stood up.

Cold Fire Condensation of Weapon is a very special and powerful tempering technique in ancient times, and it can be regarded as a treasure among refiners.

Rumor has it that this forging technique is terrible. The same material and ordinary forging techniques can only forge treasures of the same level. However, the treasures forged with this cold-fire condensed weaponry have a certain probability of forging even more. High-ranking soldiers are coming.

How terrible it is.

Think about it, they are all first-order refining materials. Other refining masters can only refine first-tier treasures. They can be forged by cold-fire condensed weapons, but they may refine second-tier treasures. Soldiers, even the most **** among the second-order treasure soldiers, are enough to cause a sensation in the entire world of refiners.

Therefore, in the entire Tianwu Continent, almost all the refining divisions are extremely yearning for this cold-fire condensed weaponry.

But this kind of military training technique is said to have long been lost, and it hasn't appeared in thousands of years. Its power is only spread in some ancient books.

But now, knowing from Qin Chen's letter that there is a cold-fire condensing military technique, how can Yelu Hongtao not be shocked?

The black slave smiled slightly, "Our young master knows that the hall master may not believe it, so we specially let our subordinates bring this weapon."

When the voice fell, a treasure soldier appeared in the black slave's hand and handed it to Yelu Hongtao.

"This is..." Yelu Hongtao's eyes froze after receiving the precious soldier from the black slave, and there was a look of horror in his eyes.
