### [Chapter 771: Dragon Blood King Dan](#)

"This is simple, less dust, you come with me."

Under the leadership of Zhuo Qingfeng, Qin Chen quickly came to a vast refining room on the top floor of the Dan Pavilion.

"Little dust, what do you think of this place?" Zhuo Qingfeng said proudly.

"Yes, not bad." Qin Chen nodded.

The refining room in front of it was very large, covering an area on the top floor of the entire alchemy pavilion, and inside it was equipped with various alchemy facilities.

Moreover, because it was not fully utilized, the space was huge, and it was completely enough to set up a pill formation.

"Pavilion Master Zhuo, please help me prepare these materials."

Taking out the pen and paper, Qin Chen quickly wrote many things and handed them to Zhuo Qingfeng.

"Little dust, these are all formation materials, you are..."

Zhuo Qingfeng, who thought that Qin Chen was giving the list of elixir, was stunned for an instant when he saw the contents of the list.

I saw that the above was densely packed, all of which were materials for the formation.

"Yes, since this refining room does not have a pill formation, then I am going to arrange one myself."

"Arrange one yourself?" Zhuo Qingfeng was dumbfounded for an instant, "Little dust, are you going to arrange a pill formation yourself?"

The whole person was shocked.

You know, the pill formation is extremely complicated. Only some top pill refining can use the pill formation. Therefore, even the simplest pill formation cannot be arranged by an ordinary formation mage. The array mage of the array must also be a high-level alchemist.

"Just go and get ready, and Ben Shao is just arranging the most basic pill formation." Qin Chen smiled.

Zhuo Qingfeng was speechless.

The most basic pill formation?

That is not something ordinary people can arrange.

Although he was shocked in his heart, Zhuo Qingfeng didn't hesitate to do it, and immediately followed Qin Chen's instructions to prepare to go.

With Zhuo Qingfeng's ability, all the materials were ready soon.

With just the effort of the day, Qin Chen set up the basic pill formation, and Zhuo Qingfeng was stunned.

After finishing the basic pill formation, Qin Chen immediately pulled Zhuo Qingfeng to start the refining of the pill.

This time the pill he was going to refine was named Dragon Blood King Pill.

Dragon Blood King Pill is a seven-tier pill.

At the same time, it is also the easiest kind of refining process in the seven-pin pill.

The main material is dragon heart grass of the seventh order, and the auxiliary materials are elixir such as dragon's blood mushroom of the sixth order, serum asura, alfalfa purple leaf, etc., and in order to prevent one's own cultivation base from not being insufficient, the medicine cannot be fully effective in the process of refining. To play, Qin Chen also prepared to add a seventh-order Huazhu fruit.

This is why Qin Chen asked the Leng family for these elixir.

Although Qin Chen had several seventh-rank king-level elixir he obtained from the Black Death Marsh, the seven-level pill that was refined by those elixir was very complicated, and Qin Chen did not have full assurance.

As for the Dragon Blood King Grade, once Zhuo Qingfeng's help was given, Qin Chen was at least 80% sure that he could successfully refine it.

Dragon Blood King Pill, as the name suggests, is a very domineering pill.

Once a martial artist takes it, it is like receiving a dragon blood baptism, and the body will be transformed in all aspects, whether it is the internal organs or the skin and flesh, there will be a qualitative improvement.

Even the sea of Qi at the Dantian will be transformed and become stronger.

In fact, it is a kind of whole-body transformation pill, which can greatly improve the physical body and the sea of Qi of the warrior, rather than a breakthrough pill.

But for Qin Chen, his current cultivation base has reached the peak of the late stage fifth stage.

And the physical body has also reached a limit.

Before breaking through the late stage of the fifth stage, Qin Chen still took the Huazun Pill to break through.

If a martial artist takes too many breakthrough medicines in the process of training.

It will cause his breakthrough bottleneck in the future to become bigger and bigger, and in the future, there will be great restrictions.

So this time, Qin Chen deliberately refined this dragon blood king pill.

With his current cultivation base and physical condition, once the physical fitness has been improved, the cultivation base will naturally break through, and it will come naturally without any unnaturalness.

At the same time, it will not have much impact on future breakthroughs.

It can be said that Qin Chen has carefully considered what pill to refine this time.

In the refining room.

Qin Chen directly opened the pill formation in front of Zhuo Qingfeng.

"Om!"

The entire refining room was instantly covered by a terrifying breath.

Zhuo Qingfeng looked shockedly at the array of breath covering the refining room, and his eyes widened instantly.

Although it was the so-called basic pill formation, Zhuo Qingfeng had seen it for the first time, especially after perceiving the complex route of the entire pill formation, his mental power of the sixth-order peak was almost stunned. "It's terrible. I have heard that although the pill formation can greatly reduce the alchemist's control of the pill furnace, it is a great test for the alchemist's mental power. After all, he directly controls the pill furnace with his mental power. Although it takes energy, it is simple and clear, but if it is controlled by the pill formation,

Any trace of fluctuation needs to be urged by formations. Relatively speaking, it is a huge test for the fineness of mental power. "

Zhuo Qingfeng was shocked, and he could feel that even if the spiritual power of his sixth rank peak penetrated into this pill formation, he would definitely be messed up, let alone control it, he might not even be able to clear the situation.

Qin Chen, a Wuzong in the late fifth stage, can control the pill formation?

While he was in doubt, Qin Chen directly released his spiritual power.

"call!"

In the entire refining room, for a moment, it seemed like an invisible mental storm was rolled up.

"What a terrible mental power, how is it possible? Chen Shao is just a Wuzong in the late stage of the fifth stage, how can he have such a strong mental power?" Zhuo Qingfeng was stunned.

Although the strength of the mental power released by Qin Chen was not as strong as that of his half-step martial arts king, in terms of the original aura, it was not much better than his half-step martial arts king, and even exceeded it.

How is this done?

"Pavilion Master Zhuo, what are you still doing? What you have to do is to control the initial activation of this pill formation. I don't want even the activation of the pill formation to consume my mental power."

At this moment, Qin Chen's cold shout sounded, and he immediately pulled Zhuo Qingfeng back from the shock.

"And, no matter what you see, Pavilion Master Huizhuo, I have only one request, and that is your mental output. It must not be cut off. Can you do it?"

The activation of the pill formation requires a lot of mental power. If you consume too much in this respect, then the control of the pill furnace will naturally be weakened. At that time, if you want to make the dragon blood king pill, you will naturally become incapable. may. After all, Zhuo Qingfeng is a half-step Martial King powerhouse, and his mental strength is even higher than that of himself. As long as he can urge the pill formation to open, he only needs to control the reaction of the pill formation, so for Qin Chen , Will be a tremendous benefit.

#### [Chapter 772: Cold Home Project](#)

"Don't worry, Xiao Chen, leave these to me. The old man promises that there will never be any interruption." Zhuo Qingfeng said vowedly.

At the same time, he secretly cursed himself: "Zhuo Qingfeng, Zhuo Qingfeng, you are a figure from the Northern Heavenly Pill Pavilion, and you have lost such a big face in front of Young Chen. What about your arrogance?"

He was warning himself in his heart. The next moment, Zhuo Qingfeng saw that Qin Chen spurred the real fire instantly, and in the real fire, a blue lotus flame was also integrated.

As soon as this flame appeared, the temperature in the entire refining room immediately rose.

At the moment when the Qinglian Demon Fire was released, Qin Chen squeezed his hands and saw the Qinglian flame, which instantly divided into nine, turning into a pagoda suspended in mid-air, licking at the bottom of the pill furnace.

At the same time, the surrounding real fire melted into the tower body of the pagoda at the moment when the flames of the pagoda appeared, and then passed up layer by layer, and finally, completely merged into the flame at the top of the pagoda.

"Om!"

In an instant, the temperature of the entire flame skyrocketed, and an astonishing flame deterrent instantly swept out and filled the entire refining room.

puff!

Opening his mouth almost vomited blood, Zhuo Qingfeng's eyes were round, and the whole person went crazy with excitement.

What did he see?

That nine-story pagoda, could it be that the legendary pagoda cannot be divided into flames.

There is also the technique of real fire fusion, is it also the technique of congealing flame in ancient fire control technique.

Zhuo Qingfeng only felt that his heart was beating wildly, and his eyes could hardly move away.

The pagoda split pyrotechnic technique is said to be an extremely terrifying one of the ancient fire control techniques. It can make the alchemist's flames divided into nine flames in the shape of a pagoda. In this way, the power of the flames can be advanced layer by layer. The power is different, you can freely control the power of the flame under the pill furnace.

Moreover, when the flame of the pagoda condenses to the top, it can make the flame at the top get at least double the amplitude, which is an extremely sky-defying fire control technique in the alchemy technique.

And this condensing flame technique is also extremely terrifying.

It can merge two different flames and greatly increase the intensity of the original flame.

It's just that these two fire control techniques have long since disappeared in the long river of history. Looking at the entire Northern Heavenly Pill Pavilion, you can't find even one kind of fire control technique. Now two kinds of techniques suddenly appeared. How can Zhuo Qingfeng not be shocked?

Who is this little dust?

In shock, Zhuo Qingfeng's mental power input immediately fluctuated.

"Pavilion Master Zhuo? Concentrated." Qin Chen frowned as he looked, and gave a low voice.

This Zhuo Qingfeng's concentration is too bad, how else is it refined below?

"Sorry Chen Shao, I was so excited, there will be no mistakes below."

Zhuo Qingfeng returned to his senses and wiped the cold sweat from his forehead.

But my heart was extremely depressed.

Thinking that he was also the pavilion master of the Dawei Dynasty Pill Pavilion, a well-known figure, and a sixth-rank peak alchemist, how could he be so unsure in front of Shao Chen.

But thinking of what Qin Chen had shown him, he was surprised again.

Pill formation, pagoda split pyrotechnics, condensing flames, which is not the technique of refining medicine against the sky, let alone him, even if the master comes over, I'm afraid it will be shocked.

With excitement in his heart, Zhuo Qingfeng took a deep breath and secretly warned himself that he must not make a mistake, otherwise, under Chen Shao's anger, he drove himself out, and his intestines of regret would be blue.

Zhuo Qingfeng was nervous and agitated on one side, while Qin Chen sank into emptiness and began the real refinement.

All kinds of elixir were thrown into the pill furnace by him one by one, and all kinds of medicine and fire control techniques were constantly displayed by him.

Under the control of the pill formation, the spirit power is continuously integrated into the pill furnace, participating in the reaction of the whole process.

It is impossible to say that there is no tension.

After all, what Qin Chen is currently refining is a Wang Pin pill that surpasses his own cultivation level.

But as the honorary elder of the pill pavilion in his previous life, Qin Chen refined too many pills, not to mention Wangpin pills, even the emperor pill, there are countless, and his mentality is in a very strange state.

This also caused him to be cautious in every step.

Qin Chen had gone through the entire refining process many times in his mind these days, and he could make sure that there were no errors.

All kinds of elixir entered the pill furnace one after another in the order, and the timing was perfectly grasped, and Zhuo Qingfeng was dumbfounded.

And what affects Qin Chen most is the control of his mental power. Although Qin Chen has deduced countless times in various details, he still feels that he has a lot of clues, and even some can't help.

This was Qin Chen. He was replaced by any other six-rank pinnacle alchemist. He might not even be able to hold on to half of his work, so he vomited blood on the spot.

Fortunately, Qin Chen's cultivation of the Immortal Eucharist made his physical body reach an extremely high level, causing him to feel physically overwhelmed.

After a series of operations, Qin Chen was completely plunged into refining.

At this moment, everything in his mind had disappeared, and all that was left was the elixir in front of him.

The feeling of being completely absorbed in, making him forget everything he has forgotten.

And when Qin Chen refined the Dragon Blood King Pill in the Pill Pavilion.

Leng Family Mansion.

After providing the elixir that Qin Chen needed, Patriarch Leng Feifan was finally released by the Dawei Dynasty.

"Trash, even a few disciples from the Five Nations can't solve it. What else can you do, the Patriarch of the Dignified Leng Family?"

Leng Pogong looked at the rather embarrassed Leng Feihua below, and was not angry.

In this incident, although the Leng family did not seem to have suffered any loss on the surface, Leng Feihua also returned to the Leng family safely.

But in the imperial city, it still had a great impact on the Leng family.

The Patriarch of the Tangtang Leng Family was actually imprisoned in the Heavenly Prison of the Dynasty, and had to let the other forces of the Dynasty to taste something.

Even Leng Pogong has received many inquiries from other forces in these days, which are obviously tentative.

"Ancestor, this time, the disciple didn't handle it well, and the disciple didn't expect that little Qin Chen could attract the attention of the three powers of Pill Pavilion, Device Hall and Bloodline Holy Land, and was caught by the Liu family. opportunity."

Leng Feihua had an ugly face, a hideous face, and a depressed heart.

"Do you know where you went wrong this time?" Leng Pogong said coldly.

"The disciple knows that the fault lies. He didn't check the background of that kid well, so he acted rashly." Leng Feihua gritted his teeth. If he knew Qin Chen had such a deep background, how could he act so rashly.

"Wrong." Leng Pogong looked at him coldly, and said angrily: "It seems that you haven't figured it out yet. This time your fault is not because you didn't investigate the background of that kid, but because I acted in the cold family. Do you need to use the hands of the dynasty official?"

"Ancestor, what do you mean?" Leng Feihua was taken aback. "If you let the city security department take the person, it is tantamount to taking the initiative and handing it over to the dynasty official. Could it be that my dignified Lengjia doesn't even have the ability to take this five-nation kid? If you just grab the kid back from the beginning, Even if Liu Xuanrui wants to prove something, there is no chance, how can he take it

What's coming? As for the three major forces such as Dange, my Leng Family is still afraid that they will fail? "Lengpao Gongzhong gave a cold snort.

"This time, that kid made my Leng family lose face in front of many forces in the dynasty. You can figure out a way to capture that kid in secret. I want him and the many forces in this dynasty to know that I will offend my Leng family. What a miserable ending." In Leng Po Gong's eyes, a cold glow suddenly shot out.

### [Chapter 773: Poison worship](#)

The Leng Family was so embarrassed by a small Five Nations, which made Leng Pogong's heart not be angry, and he was going crazy.

Leng Feihua's eyes were also cold, his teeth tickling with hatred, but after his anger, he said with a gloomy look: "But the ancestor, now that Qin Chen, I heard that he has been in the altar, and the old thing Zhuo Qingfeng is there. Together, our Leng family wants to get close. It is very difficult to capture that kid."

Zhuo Qingfeng, at any rate, was also an old imperial powerhouse, half-step martial arts master, and in the entire Leng Family, apart from Leng Pogong, almost no one could capture Qin Chen from Zhuo Qingfeng.

And it is impossible for Leng Pogong to act on Zhuo Qingfeng. After all, Zhuo Qingfeng is also the Pill Pavilion Master of the Dawei Dynasty. Once he dares to do anything with him, he will inevitably anger the Beitianyu Pill Pavilion.

Although the Leng Family was in the Dawei Dynasty, overwhelming the pill pavilion and occupying the vast majority of the pill, it was too fragile compared to the Beitianyu pill pavilion, and was not on the same level.

Therefore, Leng Feihua kept thinking about it, but couldn't figure out how to capture Qin Chen from the Pill Pavilion. "That kid has been staying in the Pill Pavilion. It is indeed very difficult to capture him, but it is not too difficult to kill him. You will deal with it immediately. I hope that after two days, you can hear The news of that kid's death, in this way, can also shock the many forces in the imperial city and tell him Guys, my Lengjia, it's not easy to mess with." Leng Po Gong coldly snorted.

"Kill him?"

Leng Feihua knew that the ancestor was really angry, and couldn't help frowning and thinking, but no matter what he thought, he couldn't figure out \*\*\*\* Qin Chen under the protection of Pill Pavilion.

After all, if you want to kill Qin Chen, you must bypass Zhuo Qingfeng, a half-step martial arts king, which is impossible.

"Old Ancestor, Zhuo Qingfeng is a half-step Martial King. With him, it is almost impossible for us to kill that kid." Leng Feihua said depressed.

"A rubbish, saying that you are rubbish, it is all overestimating you." Leng Po Gongqi was swearing at his mother: "Of course it is more difficult to rely on force. Can't you think of other ways?"

"Other methods." Leng Feifan thought for a long time, with an embarrassed expression, "I would like to ask the ancestor to express it."

Leng Pogong couldn't wait to slap Leng Feihua's heart with a palm, and said angrily: "Then Xu Bo, what did you do before?"

"Are you talking about poisoning?" Leng Feifan was taken aback, and then suddenly realized.

"Why didn't I expect?"

With a slap on the thigh, Leng Feihua looked excited.

The poisonous worship of their Leng family was terrifying, and even he was extremely jealous. The reason why he slowly poisoned Xu Bo was only because he was afraid of being discovered by Dan Pavilion, otherwise, how could Xu Bo survive now?

Who knows that in the end, everything fell short and Xu Bo was safe and sound, but Elder Jin Yuan was damaged inside.

Now, anyway, his face was torn, even if the poison worship directly assassinated that Qin Chen, what can Pill Pavilion do!

"Ancestor, the disciple understands, don't worry, the disciple will immediately go find poison to worship, let him kill that Qin Chen without knowing it, the ancestor will wait for the good news to come out."

With a look of excitement, Leng Feihua immediately hurried to find poison to worship.

And when the Leng family was preparing to secretly assassinate Qin Chen.

In the pill pavilion, Qin Chen's refining had come to an end.

Hum!

In the entire pill furnace, the constant tremor, a strong medicinal fragrance, gradually passed out, and even gradually gathered into a cloud of medicine over the pill furnace.

"Yao Yunsheng, Wang Danxian, this...this..."

Seeing the medicine cloud above the alchemy furnace, Zhuo Qingfeng's body trembled with excitement, his eyes flashed brightly.

The Wangpin pill is already a very high-level pill. Once it is successfully refined, it will form an astonishing cloud of medicine, which will last for a long time.

Before Zhuo Qingfeng, when he was just watching Master refining the pill, a cloud of medicine appeared, and he had made it for the first time.

"How is it possible, how is this possible, Wuzong who has less dust than Tier 5 peak, no matter how strong his mental power, how can he refine a seventh-grade pill?"

Zhuo Qingfeng felt unbelievable. What Qin Chen did today completely subverted his previous cognition, making him unable to understand.

Zhuo Qingfeng was excited, but Qin Chen's expression sank.

"wrong."

He solemnly looked at the medicine cloud above the pill furnace in front of him, with cold eyes.

Although a medicine cloud appeared in front of him, the medicine cloud was lifeless and not agile. It clearly represented the lack of vitality in the medicine in his pill furnace. Even if it was successfully refined, it was a pseudo-king medicine, not a real king-pin medicine.

Although this kind of pill also has certain effects, it is a failure because of lack of agility.

"Where is the problem?" Qin Chen frowned.

In terms of mental power, although he only has the sixth-order peak, Zhuo Qingfeng is on the sidelines to assist him, and using the amplitude of the pill formation, although he has never stepped into the seventh-order realm, it can be said that he has reached the most basic level of refining the king-pin pill.

Regarding flames, although his Qinglian Demon Fire is also only as strong as the sixth-order peak, plus the true fire of the Nine Star God Emperor Jue, and the flames below the pill furnace, the three major flames are under his fire control secret technique. , Has also reached the most basic strength for refining Wangpin Pills.

As for the spiritual medicine level, not to mention, he carefully checked every spiritual medicine, and there was no problem.

And the refining process, based on his previous life experience, is the least likely to be wrong.

Then the only possibility is the fusion of Wangpin Pills itself.

One item is analyzed in the past, and one item is excluded.

Although Qin Chen's heart was not disturbed, a glimmer of understanding suddenly flashed in his mind:  
"Martial art artistic conception!"

Yes, it is the mood.

The refining of the Wangpin pill is completely different from the low-level pill. The reason why it is called Wangpin is because it incorporates the power of the Wangpin alchemist's artistic conception.

But now, Qin Chen, who is only Wuzong's cultivation base, can he integrate into the Wang Pin artistic conception in the process of refining?

"Do you just let it fail like this?"

"Do not!"

Qin Chen shook his head.

"Ben Shao has lived a lifetime, and has gone through all kinds of hardships, how can he be stumped and fall here?"

There was a sudden burst of brilliant light in his eyes.

"My cultivation is only level five, but the martial art conception can go against the heavens. With my martial arts to conquer the world and against my alchemy, why not do it?"

Qin Chen's previous life was stunning and stunning, with the strength of the eighth-order martial emperor, he resisted the nine-day martial emperor without fear. How terrible is the martial arts artistic conception?

Moreover, in his previous life, he had only an eighth-level cultivation base, but he could refine the nine-day emperor pill, which was already against the sky.

"Ben Shao didn't believe it. This time, Ben Shao Hui failed to refine."

His heart sank, Qin Chen's eyes burst with sharp light.

"boom!"

An unprecedented terrifying aura was released from him.

At this moment, Qin Chen's aura suddenly changed. His clothes were flying, his eyes gleaming, and the whole person was proud of the world, exuding a heart-palpitating breath.

It is like a Dandi, dominating the universe.

"This is..." Zhuo Qingfeng looked at Qin Chen who had suddenly changed his momentum. In an instant, there was an urge to kneel and surrender. His heart was shocked, and he was throbbing.

[Chapter 774: Start to break](#)

Buzzing...

In the refining room, Qin Chen squeezed the pill formula, filled the sky with spiritual power, and swept wildly, an astonishing mood, surpassing the heavens and suppressing the world.

The pill furnace that was about to condense pill was already a little calm, trembling again.

Huhuhu!

The pill fire burned, and Qin Chen's heart burned with it.

The refreshing fragrance of the elixir, madly dissipating, wisps of medicinal gas, rising from the pill furnace, crazily condensed into a cloud of medicine.

The cloud of medicine is full of colors, full of agility, as if a life of medicine pill was born.

This time the medicine cloud is more than a hundred times more agile than before?

Vaguely, there was even the voice of dragon chants in the pill furnace.

"Come!"

Qin Chen's eyes suddenly burst into a cloud of brilliant light, his hands were used forcefully, and the pill furnace trembled violently, immediately after the furnace cover rose up into the sky, accompanied by the furnace cover, there were twelve bright streams of light.

Buzzing buzzing...

As soon as these twelve streamers appeared between the heavens and the earth, an unprecedented horror aura erupted. If it weren't for the extremely terrifying sealing of Zhuo Qingfeng's refining room, this aura alone would inevitably spread throughout the entire Dan Pavilion and even the entire imperial city. Learned.

Qin Chen squeezed the pill formula with both hands, and these twelve streamers fell into Qin Chen's hands one after another as if being drawn by an invisible thread.

"puff!"

Opening his mouth, he spouted a mouthful of blood, and Qin Chen took two steps back.

"Less dust!"

Zhuo Qingfeng exclaimed and hurried forward.

"I'm fine."

Qin Chen waved his hand, but there was surprise on his face.

The seven-grade pill was too terrible. Qin Chen spent a lot of effort in the entire refining process, so the moment the pill was released, his mental strength was backlashed, causing him to suffer a little trauma.

But after spitting out a mouthful of blood, he was safe and sound.

"Okay, okay, this dragon blood king pill has finally been refined successfully."

Looking at the twelve pills in his hand, Qin Chen was extremely excited.

With the spiritual power of the sixth-order peak, the seventh-rank pill was refined, and before he succeeded, Qin Chen himself felt a little weird.

But now that he succeeded, Qin Chen's inner excitement was naturally beyond words.

After refining this furnace of elixir, Qin Chen vaguely felt that he had a deeper comprehension while on the path of the pill, and even on the basis of his previous life, he felt and improved.

Throwing away distracting thoughts, Qin Chen looked at the pill in his hand.

Twelve pellets of pill, the whole body is bloody, with a faint golden light, on the surface of the pill, there are a series of complicated pill patterns, which are simply unprecedented perfection.

Qin Chen originally thought that it would be extremely rare for him to succeed in refining, but he did not expect that six of the pill that he finally refined would reach the top grade, and the other six reached the middle grade. As for the lower grade, none of them. .

"With less dust, it succeeded, it really succeeded."

On the side, Zhuo Qingfeng's excitement was even more exaggerated than Qin Chen.

"Unexpectedly, Zhuo Qingfeng, I was involved in the refining of Wangpin's pill. It is incredible."

Zhuo Qingfeng looked dazed, and he still felt like he was in a dream.

"Pavilion Master Zhuo, thanks to you for refining this time, this dragon blood king pill is your reward."

Taking out a dragon blood king pill, Qin Chen handed it directly to Zhuo Qingfeng's hand.

"No, no, no, there is little dust, this is too precious, I can't take it." Zhuo Qingfeng waved his hand again and again, this time he refining, he just maintained the basic operation of the pill formation, and did almost nothing else, let alone, After witnessing Qin Chen's refining with his own eyes, Zhuo Qingfeng gained a great deal, but it is ten times, a hundred times more precious than a mere Wangpin pill.

oo. "Pavilion Master Zhuo, don't you want to break through to the realm of King Martial? For so many years, you have been stuck with King Martial in half a step. Pavilion Master Zhuo, your body has actually been exhausted for a long time, although your mental weakness has almost recovered. It is still not easy to break through the seventh-order martial king, and this dragon blood king pill,

It can save you years of hard work and restore your overworked body to its peak state. Are you sure? "

Qin Chen said with a smile.

"This....."

Zhuo Qingfeng's face suddenly became very tangled, as if constipated.

"Hahaha." Seeing Zhuo Qingfeng's expression, Qin Chen couldn't help laughing. After that, he stopped teasing Zhuo Qingfeng and directly stuffed the pill into his hands: "Pavilion Master Zhuo, please accept it. Maybe in the future, Qin still has a lot to trouble Pavilion Master Zhuo."

Zhuo Qingfeng took the pill, and his heart was extremely moved. His eyes were even moist.

"Little dust, from now on, I, Zhuo Qingfeng, will respect you for having less dust!"

Respectfully saluting, Zhuo Qingfeng said solemnly, his eyes firm.

At this moment, he made up his mind completely, and from now on, he will follow Qin Chen to do things without complaint or regret. Qin Chen didn't expect a dragon blood king pill to have such an effect. He smiled and said, "Pavilion Master Zhuo, I won't say more about it. In the future, if you eat less, you will naturally have Pavilion Master Zhuo. Drink it, but the most urgent thing is to ask Pavilion Master Zhuo to find a place for Qin to practice.

Closed-door practice. "

The state is just right now, and Qin Chen doesn't want to waste either.

"How does Chen Shao feel in this refining room? If it is possible, the old man will go to the door to watch for Chen Shao immediately, so that no one will disturb him.

"Also!" Qin Chen nodded.

Upon seeing this, Zhuo Qingfeng immediately walked out of the refining room, actually sitting cross-legged at the door, guarding for Qin Chen.

In the previous refining, he had too many things to comprehend, and he needed to understand, but he didn't want to destroy this inspiration.

After Zhuo Qingfeng left, Qin Chen also sat cross-legged and began to practice.

Although the refining of the Dragon Blood King Pill made Qin Chen's spirit extremely exhausted and even suffered some trauma, it made him feel better than ever.

After an hour.

The wounds on Qin Chen's body were completely healed, and at the same time, the state was also raised to the extreme.

"let's start."

Swallowing the dragon blood king pill directly, Qin Chen shot his eyes sharply.

"boom!"

The dragon blood king pill entered his abdomen, and an astonishing medicinal power instantly spread in his body.

How terrible is the seven-pin pill?

"Puff!"

In an instant, the muscles on Qin Chen's body split instantly, and his robes were shattered, and blood leaked from all over his pores.

"Chichichichi!"

The astonishing medical power flowed, the next moment, Qin Chen's muscles healed again, and then they cracked.

Every burst of medicinal power can instantly destroy his body, but at the same time, it can also instantly heal his body.

This continuous tearing and healing process made Qin Chen extremely painful, as if he had been tortured by thousands of swords.

If it hadn't been for Qin Chen to cultivate the Immortal Body, his physical strength was extremely astonishing, and he turned into another Wuzong to come, I am afraid that the convenience would burst and die in an instant, torn apart.

It was just another situation that also attracted Qin Chen's attention.

When the medicinal power in his body is excessive, the spiritual seeds in his mind will suddenly release an inexplicable breath, and all the remaining excess medicinal power will be absorbed.

"Bang bang bang!" The spiritual seed, as if it had life, continued to grow after absorbing the power of the medicine.

#### [Chapter 775: Breakthrough Wu Zun](#)

At the same time, after absorbing the power of the medicine, a more mysterious power instantly filled Qin Chen's body in the spiritual seed.

"This spiritual seed is too strong."

Qin Chen was shocked secretly.

After obtaining this spiritual seed from Ancient Southern Capital, Qin Chen was shocked by this spiritual seed.

With every breakthrough, this spiritual seed will grow, and it will feed back a stronger force into his body and nourish his growth.

Without this spiritual seed, his breakthrough would never be so smooth, nor so fast.

And when he was in the Black Death Swamp, if it hadn't been for this spiritual seed to exclude the terrifying old man's soul, I am afraid that he would have been taken away in the ancient temple.

The inheritance of ancient southern capital is really terrible?

Despite the shock in his heart, he now does not have much energy to study the spiritual seeds in his mind.

He ran the Nine Star God Emperor Jue frantically, constantly absorbing the terrible medicine power from the Dragon Blood King Pill.

Along with the fusion of the terrifying medicine power, Qin Chen felt the power in his body rising crazily. at last.

I don't know how long it has passed.

"Crack!"

Qin Chen felt as if something broke open in an instant in his body.

An unprecedented powerful feeling filled his whole body in an instant.

"Breakthrough, finally broke through the sixth-order Wu Zun!"

Qin Chen opened his eyes, an excitement suddenly shot into his eyes.

"call!"

Between the heaven and the earth, the boundless heaven and earth zhenqi condensed in an instant, turned into a whirlpool, and continuously gathered in Qin Chen's body.

Qin Chen waved his hand, and the middle-grade real stone he had obtained from many powerful men in the Black Death Swamp instantly appeared, and he was madly absorbed.

The middle-grade real stones exploded in Qin Chen's side and turned into ashes, and the true power in Qin Chen's body continued to condense.

Time goes by little by little.

The outside world is already dark.

Qin Chen didn't know how long he had been cultivating until he felt that the strength in his body had reached a peak, and when he could no longer make any progress, he stopped practicing and opened his eyes.

Everything in front of him became completely different from when he was in the fifth-order Wuzong realm.

Any trace of the air flow around him is clearly presented in his perception, as if he merged with nature.

Sixth-order noble state.

Zun, on behalf of the teacher.

It is an understanding of martial arts, reaching an extreme state.

Once you enter the Venerable Realm, the martial artist's perception will be greatly improved, the perception of the origin of heaven and earth will also be greatly enhanced, and the understanding of the martial art artistic conception will also have new perceptions.

And if the martial arts artistic conception is comprehended to a whole new realm, and the understanding of the origin of martial arts is the realm of the king of martial arts.

"Breaking through the noble state, I can start to try some of the subtle secret techniques I mastered in my previous life."

Qin Chen's eyes were bright, and the corner of his mouth was smiling.

Before, because his cultivation base was too low, many of the martial arts he had mastered in his previous life could not be used, but after breaking through the noble state, everything was completely different.

"Let's re-understand it first."

Breaking through the realm of Wu Zun once again gave Qin Chen a deeper understanding of this realm and couldn't help but feel it in detail.

At this time, the outside world was completely dark.

As the night fell, the entire imperial city gradually returned to silence.

In the alchemy pavilion, many guests have also left, and all the real lights have gone out. Except for some permanent lights, there are only a few pharmacists' refining rooms that are still brightly lit. It is the pharmacists who are working hard to refine.

On a building very close to the top of the Dan Pavilion outside the Dan Pavilion, the two figures suddenly appeared there quietly, coldly looking at the Dan Pavilion tower not far away.

The two men, dressed in black, the one on the left, had cold eyes, eagle-eyed birds, their faces had multicolored dark lines, and their faces were purple and blue, as if poisoned, playing with a colorful poisonous spider in their left hand, squinting slightly. From time to time, purple cold awns bloomed in her raised eyes.

The person on the right, dressed in linen clothes and a black scarf, showed only a pair of cold eyes, emitting a spiteful light.

"Poison worship, are you sure that as long as you stay here and don't need to enter the Pill Pavilion, you can poison Qin Chen?"

You Leng's voice came from the Ma Yi man on the right, it was actually Leng Feihua, the owner of the Leng family.

Poison worship is a strong man who took the initiative to come to his Leng family several years ago. His origin is mysterious, and even the Leng family does not know the true origin of the other party.

In recent years, the Leng family has expanded more and more, and it is inseparable from the contribution of poison worship.

Leng Feihua also knew the strength of poison worship very well, and he was definitely an extremely terrifying person.

Even Leng Feifan himself was quite jealous of this mysterious poisonous worship. The purple-green man smiled, the wrinkles on his face were twisted, and he looked even more hideous and terrifying in the dark: "Patriarch Leng, don't worry, the old man's poison is invisible, but it can move according to spiritual thoughts and moisturize things. Silent, if that kid is really just a fifth-order Wuzong, kill him

Like killing a chicken, even a sixth-order and three-tier Wu Zun, without precautions, can hardly escape death. "What's more..." The purple-green man sneered: "According to the intelligence, that kid has been

in Zhuo Qingfeng's refining room for a few days. Zhuo Qingfeng's half-step Wu Wang's cultivation base, if he perceives something, wouldn't it be exhausted?

abandoned? Do you think Zhuo Qingfeng can't display it! "

The cold light in Leng Feihua's eyes was even worse, and he snorted: "Then Leng Feihua doesn't know what the \*\*\*\* is going on, but he has been protecting the law for that boy. What kind of medicine are these two people selling in the gourd?"

Leng Feihua looked puzzled.

Although Elder Jin Yuan was dealt with by the Leng Family, the Leng Family was dedicated to annexing the Dan Pavilion, and there was far more than Elder Jin Yuan in the Dan Pavilion.

Although the loss of the elder Jinyuan is equivalent to the loss of a major benefit and no major event can be caused in the Dan Pavilion, it is still possible for other chess pieces to secretly investigate Qin Chen's position and Zhuo Qingfeng's movements.

When Dezhuo Qingfeng had been with Qin Chen these days and were in the refining room, Leng Feihua couldn't figure out what the two were doing.

"If you want to know what that kid is doing inside, just wait for the old man's Thousand Chance Poison to enter. The Thousand Chance Poison contains a trace of the old man's mental thoughts, and he can spy on the surrounding situation. No matter what the kid does, there is nothing to hide. ."

"Then I will wait for the poison to enshrine the good news." Leng Feihua stopped asking.

"Yes, tonight, is that kid's death date."

With a grinning grin, the purple-green man let out a sigh of relief, and a dark green porcelain bottle appeared in his hand. When he opened it gently, a wisp of blue smoke drifted in from the porcelain bottle. Poison Enshrine's eyes were solemn, five fingers spread, an invisible force emerged, pulling the blue smoke, quietly blending into the darkness, and drifting away quietly towards the refining room on the top of the alchemy pavilion.

#### [Chapter 776: Who else](#)

The cyan poison did not have the slightest impurity, and gradually faded in the void, gradually becoming thinner, and finally reached the point of invisible and colorless, following the gap between the Dan Pavilion buildings, slowly drifting in.

Although the pill pagoda in the middle of the night was extremely quiet, there were still many alchemists in the refining rooms, but no one noticed it. A deadly poisonous gas entered through the cracks in the pill pavilion, and finally drifted to the top of the refinery. System room.

Outside the refining room, Pavilion Master Zhuo Qingfeng was closing his eyes and knees, feeling the previous harvest, and he didn't feel it at all. A trace of invisible and colorless poison was floating beside him.

Poison worship carefully bypassed Zhuo Qingfeng's body and swayed outside the refining room for a while, as if a spiritual poisonous gas found a gap in the refining room, it quietly floated into it.

In the refining room, poisonous gas floated in, without alarming anything.

There was no faint sound.

Like invisible air, there is no such thing in this world.

Silently, the poisonous gas drifted towards Qin Chen in the middle of the refining room, and slowly drifted towards his nose.

"That kid is actually cultivating, which is great. It seems that God is destined to be his death date today."

Outside the Pill Pavilion, Poison Enshrine saw Qin Chen cultivating cross-legged, and a hint of excitement suddenly appeared in his eyes.

When the martial artist was immersed in cultivation, his perception was the weakest, as long as Qin Chen inhaled even a trace of the poison of the Thousand Chance, his life and death would no longer be controlled by him.

At this moment, Qin Chen was comprehending the body of this Wu Zun realm.

"My true power is at least several times stronger than before. If I fight now, a sixth-tier mid-level peak martial artist like Feng Yuan, I don't need to use any secret skills. My true power alone is enough Rolling."

"As for the strength, at this moment, I will meet the Leng Family Patriarch, which is enough for a head-on confrontation."

With a sigh of relief, Qin Chen opened his eyes again.

As he was about to inhale, a sense of crisis suddenly appeared in his mind.

"In danger? Where did it come from?"

The spiritual power of the sixth-order peak swept out instantly.

"Well, nothing?"

Under the sixth-order mental power, no source of danger was found at all.

"wrong!"

But at the same time that the spiritual power was spreading out, Qin Chen's soul power also swept out, and instantly felt something wrong in the air in front of him.

"No, it's poison gas!"

Qin Chen condensed his eyes and held his breath instantly.

"boom!"

Lifting his right hand, the terrifying martial arts will was released from Qin Chen, and he slammed out a punch.

Boom!

The strong wind swept through, the air burst, and a light blue halo burst in the void in front of him, and the poisonous gas radiated everywhere.

"Huh, mental storm!"

With a cold snort, Qin Chen's eyebrows suddenly radiated a tyrannical mental power, which quickly circulated and turned into an invisible barrier, isolating the trace of cyan poisonous gas and quickly disappearing.

On the building outside Dan Pavilion.

A look of consternation flashed across Poison's face.

"What's wrong?" Leng Feifan asked. Poison worship's face is ugly: "This kid is terrible than imagined, even my Thousand Chance Poison was discovered by him, damn, how could this son's perception be so terrible? How could I find my Thousand Chance Poison? And, even if he found out, How can his true power be so strong, it can even cut off my poisonous gas invasion

? "

The poisonous offering was shocked.

His Thousand Chance Poison is extremely powerful and invisible, not to mention Qin Chen as a kid, even if he is a half-step martial artist like Zhuo Qingfeng, he may not be able to find it if he is careful.

Even if you find out, it's nothing. His poison gas can corrode most of the true power and kill people invisible. In the previous situation, even a general sixth-order martial artist has nothing to do, and can only be poisoned to death.

But now, a teenager who is only more than ten years old, not only discovered his poison gas, but also instantly annihilated his poison gas. How could he not be shocked?

And what shocked the poison worship is still to come.

"Om!"

In an instant, an invisible mental power filled his body in an instant.

"No, someone was spying on us and was found."

Poison worship exclaimed and stood up suddenly.

"what?"

Leng Feifan was also shocked, "Is it Mr. Zhuo?"

Dan Pavilion, located in the inner city of the imperial city, is strictly forbidden to kill. Once Zhuo Qingfeng catches them, they start to murder Qin Chen and fall into the hands of the opponent, even the ancestors can't save them.

"go!"

Huh!

The two of them didn't hesitate, and their bodies flickered, like a bereaved dog, instantly disappearing on the top of the building.

After two moments of leaving.

"Huh!"

A figure shot out from the alchemy pavilion, and instantly fell on the place where the poisonous worship and the extraordinary cold air stood.

It was Qin Chen.

It's just that he came a step late, and when he fell, only two dark shadows were seen. In the darkness in the distance, they flashed away and disappeared.

"The other party escaped too fast!"

His eyes were cold, Qin Chen's eyes were ugly. The body style just now was extremely shocking, indicating that the two people standing here were at least Tier 6 and Tier 3 martial arts, otherwise it would be impossible to escape from his own spirit in a short moment. Force perception.

"Less dust, what's the matter?"

At this moment, Pavilion Master Zhuo's shocked voice sounded, and his figure fell beside Qin Chen.

Before, he was feeling that when he was suddenly awakened by the roar, he saw Qin Chen rushing out of the Pill Pavilion in an instant, and hurriedly chasing him up.

"Nothing, someone just wanted to poison me." Qin Chen said solemnly.

"Poisoned?" Zhuo Qingfeng was startled, a sharp light suddenly shot from his eyes: "Who is it? Where are they?"

"I have already left, both of them have cultivation bases above the sixth and third level." Qin Chen said solemnly.

His right hand was holding the void, and a little green poisonous smoke floated slowly in a group of invisible mental power, looking beautiful and insidious.

The poison appeared, Zhuo Qingfeng was shocked, and a strong sense of crisis also appeared in his heart.

"What a strong poison, who is actually doing it?"

The poison gas that can make him feel the sense of crisis shows that even it can cause certain harm to him.

"I don't know, this poison is terrible, invisible and colorless, and its power is amazing. From a preliminary point of view, once a Tier 6 and Triple Martial Venerable inhales it, I am afraid that it will die suddenly. As for the Pavilion Master Zhuo, you will be injured at most. There is a worry about life, the other party's purpose should be me."

"You are less dusty? Who on earth wants to kill you?" Zhuo Qingfeng's face was ugly.

At this moment, he had long regarded Qin Chen as his true benefactor, how could he allow others to harm him?

"Other than them, who else?"

Qin Chen sneered. He was vaguely familiar with one of the two figures, and seemed to be somewhat similar to Leng Feihua, the owner of the Leng Family.

What's more, in the imperial city today, the one who hates the most is to the bone, and the one who has to be removed soon, except for the Leng family, there will be no second one. Coupled with this poison, it is very weird. A non-ordinary poison master can use it, combined with the poisoning of Elder Xu Bo, is there a second answer?

### [Chapter 777: Phoenix Bluegrass](#)

"Young Chen, you mean Leng Family?" Zhuo Qingfeng said solemnly.

"Yes, it's them."

"The Leng family is so brave, that he dared to kill Chen Shao you secretly. It's too lawless. Wait, Xiao Chen, the old man has to go to Lengjia to make a statement."

Angrily, Zhuo Qingfeng was about to rush towards Leng's house, but was stopped by Qin Chen.

"Little dust, what are you doing?" Zhuo Qingfeng said angrily.

"Pavilion Master Zhuo, even if you arrive at Leng's house, what can you do? People weren't caught by us, and you passed this way. Instead, they were caught by the other party. Then it would be bad."

"But isn't there evidence here?" Zhuo Qingfeng pointed to the poisonous air channel controlled by Qin Chen.

Qin Chen shook his head: "What kind of evidence can this be, as long as the other party denies it, we have nothing to do."

"Does that leave it alone?"

Zhuo Qingfeng was angrily.

"Forget it? How could it be?" Qin Chen's eyes shot a cold light.

In the past few days, he didn't bother with Leng's family. Instead, Leng's family came to him. If he could bear it, it would not be him Qin Chen.

"No, go and see if anything happened to Qian Xue and the others!"

Suddenly, as if thinking of something, Qin Chen was startled and quickly swept towards the Dan Pavilion.

After a while, You Qianxue and others were awakened by Qin Chen, and after seeing Xiao Zhan and others safe and sound, Qin Chen's heart was also let go.

So hanging!

At this moment, Qin Chen's heart was just fortunate.

Fortunately, the Leng Family was only dealing with him. If the Leng Family had set the target on You Qianxue and his cultivation base, how could he sense the existence of this poisonous gas? I am afraid he would have died long ago.

And after learning what happened, You Qianxue and others were also furious.

"Don't worry, everyone, this account will definitely be counted, but not now."

Qin Chen's face was gloomy and terrifying.

Next, he first arranged a hidden monitoring formation in the Dan Pavilion. Anything, even the invisible poison gas before it, would be discovered by him as soon as it entered the Dan Pavilion, which was a little relieved.

After doing all this, Qin Chen and a group of people gathered together again. "Pavilion Master Zhuo, I have observed before. The position where the opponent is standing is the closest to your refining room. It is the most suitable place for sneak attack on the refining room. That is to say, the opponent knows Ben Shao's position from the beginning. , Pointing directly to Ben Shao." Qin Chen said solemnly: "Explain the situation of our Dan Pavilion.

The other party had been in control early on. "

"Shao Chen, do you mean that there is a traitor from the Leng family in the Dan Pavilion?" Zhuo Qingfeng's face was ugly, and he also thought of this possibility.

"Yes." Qin Chen nodded, his eyes gloomy.

The other party's method of spying was definitely not a normal snooping method. Otherwise, with his and Zhuo Qingfeng's perception, how could he not be able to sense the snooping of others? The only possibility is that someone whistleblower.

And the news that he and Zhuo Qingfeng were in the refining room was not secret, but it was not known to any alchemist. It can be seen that the status of the traitor in the pill pavilion was not too low.

"Xu Bo, go and investigate immediately, who is this gangster!" Zhuo Qingfeng said with an ugly expression.

"No." Qin Chen waved his hand suddenly: "Elder Jin Yuan and his subordinates have been arrested by the Law Enforcement Hall, but someone still leaked the secret, indicating that this person is extremely hidden in the Dan Pavilion and cannot be so easily. It was found out."

"But can he just make him do evil like this?" Zhuo Qingfeng said angrily.

"Naturally not." Qin Chen smiled coldly: "I remember that the biggest foundation of the Leng family is the pill business, right?" "Yes, little Chen." At this moment, the black slave suddenly spoke, with hatred in his eyes, cold. Coldly said: "Actually, the original pill business of the Leng family is average, and it can only be regarded as a good one. It is about the same as the share of the pill. My original family is the real pill giant of the Dawei Dynasty. It is a pity, my original family. Be destroyed

After that, all the shops and pharmacists were gathered by the Leng Family, which led to the Leng Family's pill business becoming bigger and bigger, spreading throughout the Dawei Dynasty. "

"It turns out that there is still this kind of thing." Qin Chen sketched out a sneer at the corner of his mouth, "Since the core of the Leng family is the pill business, then we can start with the pill business of Leng's family."

"As long as the other party's main business can be completely destroyed, the Leng family, even if there is a king of war, is nothing."

Qin Chen said coldly.

"This....."

Zhuo Qingfeng, Xu Bo and the others listened, and they were stunned. Xu Bo couldn't help saying: "There's little dust, it's unlikely. To be honest, I know the Leng family very well. The reason why the Leng's pill business is strong is that it has developed over the years. A large number of extremely amazing pharmacists have been gathered. These pharmacists, although their cultivation level

It must be very high, but it can mass produce several of Leng's main elixirs. "Furthermore, after so many years of development, Leng's sales ability is extremely strong, and its sales channels are spread throughout the Dawei dynasty. In addition, most of the elixir needed by Leng's refining pill are self-produced. , Self-produced, self-sold, and form a huge business system, only this can become a powerful king

It is very difficult for a giant family to strike a blow to their pill business. "

Over the years, Dan Ge has been Xu Bo's supervisor, so he has always paid close attention to the Leng family.

After some research, he also admired Leng's model very much.

The pill market, which can occupy 60 to 70% of the Dawei Dynasty, is not a waste of name.

Don't look at the overall strength of the alchemist in the pill pavilion, but it is really necessary to fight it together. There is the master of the Zhuo Qingfeng pavilion. In addition to the high-end pill market, the pill pavilion can barely mix, and it is in the low-end and the middle-end. The market simply cannot compete with Leng's.

This is not something that can be reversed just by a few high-level alchemists.

Zhuo Qingfeng also said solemnly: "In the past few days, I have also learned about Leng's medicine market, and found that this Leng's family does have two brushes, which should not be underestimated."

Being despised by the City Guards Department before, also made Zhuo Qingfeng feel quite angry, and wanted to make the Dan Pavilion, but after studying the Leng Family, he also had to sigh that Leng Family did have something to gain in terms of elixir.

Even if he didn't dare to say, he would be able to lead Dan Pavilion and surpass the Leng family.

"Hehe, Pavilion Master Zhuo, Elder Xu, what you said, would you not know that Young Master Ben knows the pill that Leng Family sells, but Young Master also knows something about it, so he is naturally confident, so he said that." Qin Chen smiled coldly.

In his previous life, he was a dignified ninth-order medicine emperor. If he couldn't handle even a small family of medicine pills, wouldn't he have lived on a dog for half his life? But I saw Qin Chen's thoughts: "Although the Leng family is strong, they have been aggressive in these years, and they have offended many businesses. It is just that the financial resources of the Leng family have become extremely terrifying after these years of development, and it is not comparable to any other force. , So if you want to crack down on the Leng family, you must first crack down on Leng's economy. "

"In this way, Pavilion Master Zhuo, we need you to do something." Qin Chen looked over.

"Said Shao Chen, no matter what, as long as Shao Chen tells you, our Dan Pavilion will do our best to do it." Zhuo Qingfeng said solemnly.

"I need your Dange to go to the entire Dawei Dynasty to buy Phoenix Lancao on a large scale." Qin Chen suddenly smiled mysteriously.

#### [Chapter 778: The more the better](#)

"Phoenix orchid?"

Hearing Qin Chen's request, everyone was stunned.

Zhuo Qingfeng looked surprised and said: "There is little dust, what do you want to buy Phoenix Lancao for?"

Phoenix Lancao is an intermediate elixir, and it is not very rare, but because Phoenix Lancao has a relatively long maturity period and is difficult to cultivate, the quantity has not been very large.

And the effect of Phoenix Blue Grass is not great. It has a weird smell, which is extremely annoying to blood beasts. Therefore, it is often used to make a beast-repelling medicine for warriors to drive away blood beasts when they venture outside.

This kind of elixir is usually not seen at all. Almost every store can sell it, but there is no professionally planted medicine field.

So when Qin Chen suddenly said that he wanted to buy Phoenix Lancao, Zhuo Qingfeng and the others were suspicious. Qin Chen asked them to buy Phoenix Lancao. What did he want to do?

"I have my own magical use." Qin Chen said: "And when buying, try to keep it secret."

"How much phoenix grass do you want?"

"Of course, the more the better, I will have as much phoenix in the market." Qin Chen said mysteriously.

Everyone really doesn't understand, what can so many Phoenix Lancao do?

"I have some money here, you take it first." Qin Chen took out a storage ring from his body.

"There is little dust, let us take care of this matter. As for the money, let's put it up first, and we can spend a few dollars to buy Phoenix Lancao. We can still take out this little money from the Dan Pavilion." Zhuo Qingfeng said with great air.

Although the pill pavilion of the Dawei Dynasty is relatively declining, it is one of the three major forces after all, and the patron of the pill pavilion is dignified. If this amount of money is not available, that would be strange.

"This won't work. The financial resources needed this time are extremely huge. It should be mine. It must be mine. Of course, I will take the profit at that time. Pavilion Master Zhuo should not be polite to me."

Qin Chen was already talking about it, and Zhuo Qingfeng naturally didn't want to say anything. After he took the storage ring and opened it, his whole person was stunned.

"This....."

In the storage ring, there are countless real stones densely piled up. Among them, there are millions of low-grade real stones. What is even more exaggerated is that there are millions of middle-grade real stones.

These real stones were blackmailed by Qin Chen from the Great Zhou Dynasty and the others in the Black Death Marsh. Those many low-grade real stones were obtained from the opponent's storage ring after killing Gu Feng Shanghui Qiu Lengfeng.

In addition, there is also a huge amount of wealth from Feng's family, all in it.

"Pavilion Master Zhuo, this time I came out, I didn't have many real stones on my body, so many, so let's buy Phoenix Lancao first. As for the rest, Pavilion Master Zhuo will put it on."

"There is little dust, so many phoenix bluegrass, I am afraid you can buy the entire imperial city phoenix bluegrass, what do you want so many phoenix bluegrass for?"

Zhuo Qingfeng was completely stupid.

Phoenix orchid grass is not expensive because of its scarcity of uses. Qin Chen took out so many real stones that he might be able to wipe out the Phoenix orchid grass on the city.

Xu Bo and the others swept over curiously, and they were all dumbfounded when they saw the real stone in Qin Chen's storage ring.

Rich, too rich, so many real stones, even if the Dan Pavilion is taken out at once, I am afraid it is not an easy task.

"It's not a big deal to scan the phoenix bluegrass in the imperial city, Pavilion Master Zhuo, what I hope is that you can buy all the phoenix bluegrass on the market of the Dawei Dynasty, the more the better, at least you must control the Can you do it with more than 90% of Phoenix Lancao?" Qin Chen said solemnly.

Seeing what Qin Chen said so solemnly, Zhuo Qingfeng was taken aback for a moment, and finally nodded: "There is little dust, don't worry, although Dan Pavilion is not available in the pill market, it can be found in every state, every large city, and even towns in the dynasty. If there are branches, let us do this."

Although it is not clear what Qin Chen's purpose was to purchase Phoenix Lancao, after seeing Qin Chen's ability to refine the Dragon Blood King Pill, Zhuo Qingfeng was completely convinced by Qin Chen and would not have any doubt.

That night, after several people discussed the countermeasures, Zhuo Qingfeng and Xu Bo hurriedly arranged to go.

However, Qin Chen left You Qianxue and others to check everyone's cultivation.

These days, after Qin Chen was imprisoned in the city guard office, You Qianxue and others were all anxious. They knew that they couldn't help them, and they practiced in retreat one by one.

With the improvement of Kuyun Pill and Huazun Pill, the cultivation of You Qianxue and others has also been amazingly improved, almost all of them have broken through to the late stage realm of the fifth stage.

When this was in the Five Nations, no one dared to imagine. "In the late stage of Tier 5, it is already good, but in this land of hundred dynasties, it is far from enough. However, Wu Zong needs to have a certain understanding of martial arts to break through Wu Zun. These days, I will be in Dan Pavilion. What are your questions? Anyone can come to me and ask, I hope you all can enter the realm of Wu Zun as soon as possible.

Qin Chen said solemnly.

In the imperial city, Wu Zong's realm was still too low, and Qin Chen was not worried about them going out. Only after breaking through to Wu Zun, Qin Chen was relieved that Wang Qiming and the others would do things.

"Qianxue, Wang Qiming and Yuwenfeng, the three of you, try to consolidate your cultivation base. After you reach the peak of the fifth stage, come to me, and I will find a way to make you break through."

"There are also black slaves. I will prepare some body refining pills for you. These days, you will increase your physical strength and come to me."

Of these four people, the black slaves were already strong at the mid-level sixth stage, and the three of You Qianxue, all possessing spiritual seeds, could try to take the Dragon Blood King Pill, so Qin Chen was going to use the remaining Dragon Blood King Pill to make They break through.

As for Xiao Zhan and others, there is no other way. The Dragon Blood King Pill is the basic pill of the seventh stage. Its power is terrible. Once it is taken by them, once it is too late to absorb it, it will inevitably explode and die. This is what Qin Chen does not want to see of.

When Qin Chen tried to improve everyone's overall strength.

After learning that the mission failed, the ancestor Leng suddenly went crazy with anger.

"Waste, all of them are waste. What is the use of you."

In the rage, everything in the room was smashed to pieces.

Tangtang Lengjia, even a teenager can't solve it, making him vomit blood with anger.

"Since you can't kill that kid, then sanction Dange and send me an order. From tomorrow on, all shops in my Lengjia will begin to sanction Dange. All the medicines sold by Dange will be sold at a price lower than Dange. , I want to see how long Dan Ge can last!"

In the past, the Leng family was still worried about Dange's identity and did not dare to directly target it.

Leng Pogong would never have thought that when he was targeting Pill Pavilion, a scheme against the Leng family had already begun.

Early the next morning.

In the major medicinal stores in the imperial city of the Dawei Dynasty, a group of mysterious people ushered in.

These people are all different in appearance, there are alchemists, merchants, warriors, etc. They buy phoenix grass frantically in these shops, as much as they want. In just half a day, many phoenix grass stocks that could not be sold in the imperial city stores in a few years were wiped out.

### [Chapter 779: Big promotion](#)

Originally, the fact that Phoenix Lancao was out of stock did not attract many people's attention.

But Qin Chen's requirement for Zhuo Qingfeng was to buy Phoenix Lancao as quickly as possible without considering the price. Therefore, when these people bought it, almost all of them were large-scale purchases. According to the market price, they purchased all at once, and there was no time for people to react. .

The circle of medicinal materials is big and big, and small and small.

Therefore, when the news that a mysterious force was crazy purchasing Phoenix Lancao spread out, it only took a long time to spread to every medicinal material dealer.

"Who are these guys, and what is the use of buying so many phoenix plants?"

"I seem to have seen the guy who bought Phoenix Lancao in our shop. It seems to be a manager of Dan Ge."

"Could it be that Dan Ge is buying Phoenix Lancao frantically? But what do they want Phoenix Lancao for?"

Phoenix Lancao has no other effect besides making the animal expelling medicine. Pill Pavilion is not a holy place of blood. It needs a lot of blood beast blood crystals to improve blood.

Therefore, Dan Ge's actions made everyone suspicious.

Someone roughly estimated that in just one day, Dan Ge bought hundreds of thousands of catties of Phoenix Bluegrass in the entire imperial city. This figure was shocking.

Moreover, after some medicinal material merchants ventilated each other, they found that Dange not only bought all the phoenix grasses in the major drug stores, but also all the phoenix grasses in some medicinal bases. The rest are some half-cooked. , Phoenix Lancao that has not grown.

Although Phoenix Bluegrass is not precious, it has a long growth cycle. It can be said that Phoenix Bluegrass in the imperial city will be in short supply within the next five years.

Moreover, there is still a rumor that secretly, that mysterious force is still buying Phoenix Bluegrass and collecting as much as it can.

This made many medicinal material merchants excited. Although they didn't understand the purpose of Dange's purchase of Phoenix Lancao, they understood the reason why the strange goods could be bought and the price was raised.

The only thing that made them depressed was that the opponent didn't give them this opportunity at all. The speed was so fast and the multi-line attack had already bought out the Phoenix Lancao in the imperial city.

Of course, the Phoenix Lancao incident is just one of the major events that happened in the imperial city today.

And it only circulates between the medicinal material merchants and the elixir power.

At the same time, there was an event that far surpassed Phoenix Lancao, and even caused a sensation in the entire imperial city.

The second major event, far beyond Phoenix Lancao, was initiated by the Leng Family.

Early this morning, the Leng family announced at the main store in the most prosperous area in the center of the imperial city that in order to give back to the majority of customers, to repay the dynasty's favor to the Leng family over the years and the support of many people in the dynasty.

From now on.

The medicinal medicinal products operated in Lengjia's major stores are discounted, and the most powerful one is even 40% off.

This news shocked all the forces in the entire imperial city.

"Is the Leng family crazy? So many elixirs are discounted, and the biggest discount is even 40% off. What's the situation?"

"Unbelievable, in recent years, the last time Leng's pill was discounted, or a few years ago, in order to expand the scale of business, but it was only a 10% discount. This time, some pill will be directly discounted at 40%, which is too exaggerated. ?"

"What is Leng Family doing?"

All forces and people are crazy.

The pill has always been the most precious treasure in the Tianwu Continent, and it is also an indispensable treasure for every warrior.

It can be said that at least 40 to 50% of the wealth consumed by a warrior in a lifetime is spent on the pill, and the remaining 50 to 60% is spent on blood, weapons, techniques, secrets, etc. on.

This shows the terrible immortality market.

Today, Leng's sudden promotion of such a huge intensity instantly detonated the entire pill market.

On this day, countless people and warriors all swarmed into Leng's many pharmacies all over the imperial city to make crazy purchases.

According to incomplete statistics, on this day alone, Leng's sales of these pills have reached the previous month's sales.

Can be called abnormal.

However, not all forces were shocked by Leng's actions, and there were some forces, but they saw the clues for the first time.

They keenly discovered that the several elixirs promoted by the Leng family were not the main elixirs of the Leng family, but the ones that the elixirs had been dominating the market.

And after Leng's crazy discounts regardless of cost, some shops in Dange were very pitiful with few customers in just half a day.

This discovery made the major forces in the imperial city dumbfounded and shocked.

Leng Family, is this the rhythm of preparing to meet Dan Pavilion?

Over the years, with the development of the Leng family, the Dange of the Dawei Dynasty has long been at a disadvantage.

Had it not been for the royal family and dynasty's official medicinal products, which had always been provided by the Dange, and the Dange still occupied the high-end market and several types of medicinal drugs, I am afraid that the entire dynasty's market would have been swallowed by the Leng Family.

But now, such a move by Leng's family instantly smashed the pill market that was originally used as the main force in the Dange.

In addition to the high-end market Dange barely able to hold, since then, all the pill market of the entire Dawei Dynasty, almost 90% of the Leng Family has eaten it all at once.

When the news came back to Leng's family, Leng's family was instantly ecstatic.

"Huh, this Dange, do you really think that you are the leader of the alchemy? In the Dawei Dynasty, I want to fight against my Leng Family, and don't weigh my own weight."

Leng Pogong no longer had the violence of last night on his face, and when he received the final report, he sneered and was arrogant.

"Hahaha, ancestor, your trick is amazing. I went to see it today. All the shops in our Leng's house were overcrowded. All the medicinal medicines that were promoted in the initial promotion were all sold out. Looking at the medicine shop in Dange, haha No one cares about it at all."

Leng Feihua was also ecstatic.

A few days ago, he had suffered too much and suffocated too much resentment in his heart. Today, he finally released it all at once.

"Don't take it lightly, today is the first day. Can the follow-up medicines keep up?" Leng Pogong said in a deep voice.

"Ancestor, don't worry, I have already arranged it a long time ago to step up the production of those kinds of medicinal pills, and there must be no supply problems."

Leng Feifa smiled triumphantly: "I estimated that our Lengjia medicine pill production has already formed an industrial chain, and we have our own medicinal fields and bases. The cost can be controlled to a very low level, even at a 40% discount. You can also have a meager profit." "But Dange will not work. The 40% off price is almost their cost price. If they are priced the same as ours, they can only lose money, but if the price is high, it is impossible. Someone went to buy from them. This time, our Leng family is determined to win."

#### [Chapter 780: New type of medicine](#)

I have to say that this time Leng's family had fought a joyful turnaround, and there was an atmosphere of ecstasy in the entire mansion.

"By the way, what's the reaction from Dange?" Leng Pogong looked.

"What's the reaction?" Leng Feihua snorted: "Old ancestor, you don't know that the shops under Dan Pavilion are all stunned today, and their faces are as ugly as their dead parents."

His words immediately caused the laughter of many elders of the Leng Family on the court.

The feeling of easily stepping on Dan Pavilion under their feet made them feel extremely wonderful, and an unprecedented sense of accomplishment was bursting. "By the way, something strange happened today, and it was about Dan Pavilion. I received the news that today there is a mysterious force that bought phoenixgrass on a large scale. In just one day, all the phoenix orchids in the world were destroyed. Eat it, according to reliable sources, this large-scale acquisition of Phoenix Bluegrass

Power is Dan Ge. "Leng Feihua said suddenly.

"Dange is buying phoenix grass on a large scale?" Leng Pogong was taken aback: "What are they trying to do? The news must be inaccurate?"

Leng Feifan nodded and said: "We have secretly verified that this power that acquired Phoenix Bluegrass should be Dan Pavilion, but I don't know what it is for."

"What is Dange doing?"

Leng Pogong looked suspicious.

As a family of elixirs, Leng Pogong is also very knowledgeable about various medicinal materials, far surpassing ordinary families.

After racking my brains, I couldn't understand what Dan Ge's purpose was to purchase Phoenix Lancao.

However, from the experience of Leng Pogong, it is obvious that it is not simple, and it reveals a breath of conspiracy.

You know, there are so many phoenix grasses in the entire imperial city. If you want to eat them all, the funds mobilized are absolutely huge. Dan Ge can't be reckless and do something that you don't understand at all.

There must be a problem here.

"Investigate, send me an investigation right away, what is the purpose of Dan Ge's purchase of these phoenix bluegrass!" Leng Pogong's face sank and he gave a death order.

"Ancestor, don't worry, I will arrange this as soon as possible, and there will be news soon."

Leng Jingfei believes himself.

When Leng's family was in ecstasy.

In the Dan Pavilion, it was extremely bleak.

"Lengjia, so brave enough to run against my Dange like this."

Zhuo Qingfeng's face was blue with anger, and his whole body was shaking.

Below, Elder Xu Bo and others are also sad.

They never thought that the Leng family would be so arrogant, and directly use this method of commercial competition to defeat his Dan Pavilion.

In just one day, the revenue of Dange's major stores dropped by more than 80%, which can be described as a sharp drop in morale.

"This Leng family, pricing those medicinal pills at such a low price, clearly wants to desperately kill our pill pavilion, but they really have this ability."

Zhuo Qingfeng was depressed, and looked at Xu Bo and others coldly: "Is there no other way for us in Dange?"

silence.

Silence like death!

Everyone knows that in terms of cost control, the Lengjia has been in business for so many years, and its commercialization has long been extremely mature. Compared with the price war, Dange is really not an opponent of the Lengjia.

Although there are high-level pharmacists such as Zhuo Qingfeng in the pill pavilion, the success rate and efficacy of the pill that is refined far exceeds that of Leng Jia.

But the competition in the entire medicinal market was conducted from a macro perspective, and one or two pharmacists alone would not change much.

Suffocated, extremely suffocated.

The dignified pill pavilion was forced to this point by a family of medicine pills in a dynasty, and if it spread out, it might become the laughing stock of the entire continent.

Zhuo Qingfeng also looked sad. Although he intended to promote Dan Pavilion, he had fallen behind too much before. In a short time, it was impossible to surpass Leng's family.

And if this continues, the Dange market will be compressed smaller and smaller. In the end, it can only hold the weakest point of the market, and it will eventually be forgotten by the public.

"Hehe, I don't think you need to be so pessimistic."

Suddenly, a chuckle came from Qin Chen.

Dan Pavilion had purchased hundreds of thousands of catties of Phoenix Bluegrass in just one day. While Qin Chen was quite excited, he also saw Dan Pavilion's combat effectiveness.

At least in this respect, Dan Pavilion still has the power to fight.

Zhuo Qingfeng smiled bitterly: "There is little dust. It is not that we are pessimistic. It is that at present, our Dange is relatively backward in all aspects. In terms of cost control, we can't compare with Leng Jia. She has the strength, but we can only watch. Let others cannibalize the market, and be aggrieved!"

Zhuo Qingfeng didn't care about the Dange transaction before, this time it was the first time he felt the depression of being the owner of the Dange. "It's okay." Unexpectedly, Qin Chen smiled faintly: "Actually, I took a look. The several types of pill that our pill pavilion mainly launched are not the main force in the pill market. They are all types of pill and partial pill. Even if the door pill is taken away by the Leng family, it will be taken away, but it is the market occupied by the Leng family.

It is the mainstream of the whole pill market. He can do the first year of junior high school, we can do the fifteenth, and take their market. "

There are actually many types of the medicine market, such as healing, cultivation, breakthrough, auxiliary, detoxification, and so on.

The several types of pills recommended by the main pill are all types of pill, which are equivalent to auxiliary pill.

However, Leng's main medicines include the three largest markets of healing, cultivation, and breakthrough. Zhuo Qingfeng smiled bitterly: "There is little dust, it's easy to say, but difficult to do. I learned about the several medicines of Leng's family. They are really awesome and have unique techniques. I will refine those several medicines. , The cost is definitely lower than that of the Lengjia, and the effect is even better. However, the Lengjia can achieve

However, the alchemist in our pill pavilion, the same pill, maintains the same effect, but the cost is 1.5 times that of the other party, and there is no competition at all. "

The other elders also sighed.

"You can see this, how can you not see this? I have a few new prescriptions here. Pavilion Master Zhuo can take a look."

Qin Chen stretched out his hand and took out a piece of paper, and directly passed it to Zhuo Qingfeng, with a mysterious smile on the corner of his mouth.

"Ok?"

Zhuo Qingfeng took it, and was stunned for an instant.

"New type of blood clotting pills!"

"New Zenith Pill!"

"New Chongyuan Dan!"

I saw that there were three prescriptions written on this list, and all of them were actually the three medicines recommended by the Leng family, covering the three main types of healing, cultivation, and breakthrough.

However, the prescriptions on the list, compared with the pill prescriptions that the normal world knows, have fewer medicinal materials, and the process of refining is much simplified.

And those medicinal materials were all replaced with a new type of medicinal material, that is-Phoenix Lancao!

It is also noted above that the efficacy of the medicinal pill after being replaced by Phoenix Lancao is at least 20 to 30% higher than that of the traditional three medicinal pill.

"how can that be!"

Zhuo Qingfeng blurted out directly with shock on his face. How could Phoenix Lancao have such an effect?
