

## Valkyrie 781

### [Chapter 781: shocked](#)

In Tianwu Continent.

The characterization of any kind of elixir is only successful after countless trials.

Phoenix Lancao, as a very basic elixir, can be said that it has been studied thoroughly and thoroughly for so many years since ancient times, and finally came to the conclusion that it is only suitable for making Beast Expelling Pill.

But now, Qin Chen's list directly used Phoenix Lancao instead of other elixir, how could he not be shocked?

What's more, what Qin Chen replaced was not one pill, but the three most perennial pill.

Blood Coagulation Pill!

Zhenlidan!

Chong Yuan Dan!

These three medicines are the three most commonly used medicines by martial artists in the world. They have different effects, pharmacology, and refining methods.

If Qin Chen's list indicated that Phoenix Lancao could be used to refine one of these medicines, Zhuo Qingfeng might still have some doubts.

But now, the order Qin Chen gave was actually using Phoenix Lancao instead of the three elixir, and the elixir was different. How could Zhuo Qingfeng believe it?

This is really nonsense!

If it wasn't for Qin Chen to give this order, Zhuo Qingfeng would have slapped the order provider into the wall.

This is pure entertainment for him.

At this time, everyone else on the field also saw the contents of the list given by Qin Chen, and they were all dumbfounded, looking at Qin Chen like an idiot.

Xiao Chen was detained by the city guard for so many days before, so he won't be insane, is he crazy?

"Little dust, are you okay?"

"Did you come up with this list? Or where did it come from?"

"Little dust, do you want the old man to check your body to see if there is a problem?"

Xu Bo and others were worried and said nervously.

If Qin Chen is really deranged by the City Guard, what can he do!

Among them, only Xiao Ya showed a strange expression on her face.

"My Lord Pavilion, maybe the list above is true?"

"Really? Are you talking nonsense?"

He didn't dare to rebuke Qin Chen Zhuo Qingfeng, but he was naturally rude to Xiao Ya and Zhuo Qingfeng.

"It's not that the old man of Fenglancao has never refined it. The old man also understands his effects clearly. How could it be possible to replace so many elixir and participate in these three kinds of medicine."

Zhuo Qing was so angry that he blew his beard and was depressed.

"Little dust, is that why you let us buy Phoenix Lancao before?"

When the list was put down, Zhuo Qingfeng and the others felt as if they were being pressed onto a large rock, which was extremely uncomfortable.

If Qin Chen asked them to buy Phoenix Lancao because of this, then this time the Dan Pavilion would really be over.

In order to purchase Phoenix Lancao, Dange spent a huge price, and the financial resources consumed were extremely alarming.

Originally, these losses may not be unbearable.

But now coupled with the sanctions imposed on them by the Leng Family, this is undoubtedly worse for Dan Ge.

Seeing everyone's ugly and mad expressions, Qin Chen couldn't help touching his nose, "I said you guys, you don't believe this is too much, right?"

Zhuo Qingfeng wanted to reply: This is not a question of whether we believe in each other, it is simply impossible!

It was just that the words came to his lips, and he hesitated again, what if what Qin Chen wrote was true?

Once Phoenix Lancao has so many effects, it will probably be a qualitative leap for Dan Pavilion's development.

"Little dust, the recipe you wrote is really feasible?" Zhuo Qingfeng doubted.

"Can you do it, don't you just test it?" Qin Chen didn't answer directly, but said lightly.

Yes, can't you just experiment?

Moreover, the current Dan Pavilion was in a difficult situation, and there was no other way except to believe in Qin Chen.

"Okay, let me try, Xu Bo, give me the elixir on the list, and prepare everything."

Zhuo Qingfeng shouted, all kinds of elixir in the pill pavilion are in stock, and it won't take much time to refining it.

Soon, Xu Bo took all the elixir on the list.

"Just refine it here."

Zhuo Qingfeng didn't evade, he started to refine directly in front of everyone.

The pill prescriptions mainly given by Qin Chen are all fifth-grade pill. With Zhuo Qingfeng's strength, they can be refined at will without special preparation.

The first thing he refined was the fifth-grade blood coagulation pills.

The blood clotting pill is a kind of medicine specially used to treat the injuries of the warriors. It can quickly heal the wounds on the warriors, and hemostatic and muscle growth. It is the most commonly used healing medicine for the warriors.

The pill of blood coagulation pills has been passed down for tens of thousands of years and has undergone countless reforms before reaching the current version. It is an extremely mature and perfect pill.

Therefore, in recent years, no one has dared to change the formula of the blood clotting pill without authorization. After all, even changing the most inconspicuous elixir of them will change the effect of the blood clotting pill, the refining process, and the final pharmacology. It has not been for many years. It is impossible to determine the effect of the clinical verification.

However, Qin Chen directly changed the four or five kinds of elixir in it, eliminated all those elixir, and directly replaced it with Phoenix Lancao, and simplified the refining process a lot.

In Zhuo Qingfeng's view, it is impossible to refine successfully.

After all, every kind of elixir has its effect in the blood clotting pill, and it will participate in the reaction of the pill. If one is missing, it will cause the pill to fail to form, let alone eliminate four or five types at once.

Not only Zhuo Qingfeng thought so, but Xu Bo and others naturally thought the same way.

They are all waiting for Zhuo Qingfeng's refining to fail.

But what shocked everyone was that when Zhuo Qingfeng was refining according to the prescription and method Qin Chen gave, the whole process was incredibly smooth, and there was no sign of failure at all.

"how can that be?"

Everyone's eyes widened, staring at the pill furnace in front of them, almost stunned.

"It must be an accident. Losing those pills is equivalent to losing several important pillars in the process of pill formation. In the final stage of pill condensing, it will definitely fail."

Everyone murmured.

Zhuo Qingfeng also had the same idea, but he waited until the end of the refinement without any accident.

Only half a pillar of incense was not enough, and this blood clotting pill had reached the stage of collecting pill.

"Come!"

With a low drink, twelve rounded pills fell into Zhuo Qingfeng's hands, and the rich pill fragrance instantly diffused.

"This this....."

Everyone was dumbfounded, one by one, dumbfounded.

It turned out to be a pill, and it was a perfect 12-grain pill, and it was impeccable and flawless in terms of gloss and medicinal fragrance.

"Try the effect."

"Yes, the pill can be successfully refined, but it may not have the effect of the blood clotting pill."

A group of people picked up a pill and tested it.

The final result made everyone shocked.

The blood clotting Danna replaced by Phoenix Lancao is indeed more effective than the original clotting Danna by 20 to 30%.

Zhuo Qingfeng and others were so excited that they exploded.

#### [Chapter 782: Revolution in the pill circle](#)

"This...this...this..."

Everyone shivered and couldn't control themselves.

"How is it possible, how can this be true."

"Phoenix bluegrass actually has such a terrible effect?"

"too exaggerated."

A group of people flushed and fell into fanaticism.

In addition to the efficacy, everyone also keenly discovered one thing, that is, when Zhuo Qingfeng refines the entire fifth-rank blood clotting pill, the total time spent is not even half of the incense.

What is this concept?

Even if Zhuo Qingfeng was a sixth-rank pinnacle pharmacist, it would take about a stick of incense to normally refine a pot of fifth-rank pill.

But now.

Cut the process directly by more than half.

This is definitely a revolutionary influence.

In addition, the price of Phoenix Lancao is very low, and it is almost negligible compared to the four or five elixir eliminated.

From the cost point of view, it is equivalent to directly reducing the cost by one third.

One-third of the cost, less than half of the refining efficiency, and two to three percent higher efficiency.

Once such a blood coagulation pill enters the world, the entire medicine refining world will cause shock.

The so-called superiority of Leng's family, I am afraid it will collapse instantly like a chicken.

The perfect pill system formed over the years is as fragmented as a mansion collapsed, and has no ability to resist.

At this moment, everyone's eyes looking at Qin Chen changed.

"Shao Chen, where did you get the pill? This is too abnormal, right?" Zhuo Qingfeng's face flushed, and Qin Chen's eyes were fiery, like a devout believer.

In the face of the enthusiasm of the crowd, Qin Chen was indifferent and said with a smile: "Pavilion Master Zhuo, you have just tested one pill, and there are two more, you can also try it."

"Yes, yes, there are two more pills."

Zhuo Qingfeng recovered, only feeling dry and dry.

One blood coagulation pill can already revive the life of the medicine refining world. If two more are added, then...

Before he started refining, Zhuo Qingfeng's heart was already beating wildly, almost unable to bear it.

In full view, Zhuo Qingfeng quickly refined the other two pill.

As a result, everyone was shocked again.

The Zhenli Pill and Chongyuan Pill, which were replaced with Phoenix Lancao, were also successfully refined.

And the effect is the same as Qin Chen explained, it has increased by 20 to 30% compared to the original one, and the pill formation rate has also increased by more than 30%.

In an instant, Zhuo Qingfeng and others went crazy.

The previous depression was wiped out.

"Hahaha, what is Leng's family? With these three kinds of medicine, our Dange can close all Leng's stores within a month."

Everyone was full of spirits.

"Haha, Pavilion Master Zhuo, your ambitions are too small, are you satisfied if you defeat the Leng Family?" Qin Chen smiled.

Zhuo Qingfeng was stunned immediately.

Yes, with such a powerful prescription, is his pursuit just to defeat the Leng family? It really needs to be promoted vigorously, not to mention the Leng Family, the entire land of the Hundred Dynasties, and even the entire Northern Heaven Region, will be inspired by it.

"Haha." I couldn't help but smirk: "There is little dust, I haven't considered so much for the time being. For now, it is our main goal to destroy the Lengjia first. Don't worry, I will arrange Dange for production immediately. "

Zhuo Qingfeng patted his chest vigorously.

"Okay, then it's over to Pavilion Master Zhuo and Elder Xu, but I have a requirement that the total number of these three medicinal pills on the market cannot exceed 10,000 pills." Qin Chen said suddenly.

"Why is that?"

Everyone was stunned.

They all knew the elixir consumption ability of the imperial city. Ten thousand five-grade pill could be consumed in one day.

But Qin Chen actually said that only 10,000 tablets were allowed to be sold, which was far too few for the entire market.

"You can just listen to me." A meaningful smile flashed in Qin Chen's eyes.

Although they could not understand Qin Chen's purpose, Zhuo Qingfeng and the others had completely convinced Qin Chen now, and naturally they would not have any objections.

"By the way, you can't stop the purchase of Fenglancao." Qin Chen said again.

"Don't worry."

Zhuo Qingfeng patted his chest vigorously. They didn't know what Qin Chen's purpose was for purchasing Phoenix Bluegrass. Now that they knew, even if Qin Chen didn't say anything, they would be more active.

"Nigger, come here."

After instructing Zhuo Qingfeng and the others, Qin Chen called the black slave over again: "Your original family was in the Dawei Dynasty before being so large, even if it is now destroyed, there should be some secret forces and ways, right?"

According to the black slaves, the original family was once an aristocratic family larger than the Leng family, even if it were destroyed, it would not be possible for all the forces to be gathered and destroyed overnight.

The black slave nodded: "Yes, there is little dust. In the current Dawei Dynasty, there are also some forces that originally belonged to our original family, but after the original family was destroyed, they all disappeared and hid, and this escaped the Leng family. Pursue, but because the Leng family is too powerful, they don't dare to come out for activities at the moment. Is there anything Young Chen needs me to do?"

"Yes, come here."

Qin Chen whispered a few words in the ear of the black slave.

"what?"

Hearing what Qin Chen said, the \*\*\*\* looked at Qin Chen in astonishment, his face full of surprise and disbelief, as if he had heard something incredible.

"Can you do this?" Qin Chen asked.

"No problem, it's just that, Pavilion Master Zhuo and others..." the black slave said strangely.

"It's okay, you just need to do what I said. I will explain to them in the future. This is the Phoenix Lancao purchased from the entire imperial city. You will arrange it immediately." Qin Chen placed the altar in the imperial city All the Phoenix Bluegrass purchased, except for the next need to be refined by the Dan Pavilion, the rest were given to the black slaves.

"it is good."

The black slave nodded, "The subordinate will do it right away."

When the Dan Pavilion was tightly spreading the refining new-type pill, the Leng family secretly inquired about Dan Pavilion's purpose of buying Phoenix Lancao.

Because in the past few days, the Leng family has destroyed Dange's business in a mess, and there is almost no chance of breathing.

But Dange turned a blind eye to it, as if nothing had happened, and it was rumored that Dange was still purchasing phoenixgrass frantically, and even the phoenixgrass of the states under the Dawei Dynasty were buying.

"Ancestor, what the \*\*\*\* is this Dange doing?"

In the Leng Family Mansion, Leng Feihua was very depressed.

Pill Pavilion's pill business has almost been eaten away, but they are still buying some broken Phoenix Bluegrass, are these guys crazy?

Leng Pogong was also at a loss, and said in a deep voice, "If something goes wrong, there must be a demon. Have we found anything in the inside of the Dan Pavilion?"

"The disciple has already notified him to step up the investigation." Leng Feifei took out a letter: "This is the news from the other party this morning, saying that Dange seems to be frantically researching a new type of pill these days, three days ago A large number of core pharmacists are concentrated in one place

for refining, but Zhuo Qingfeng and Xu Bo are in charge of this matter personally. Those core pharmacists are not allowed to leave one step, so the only news we have so far is this. !"

### [Chapter 783: Dan Ge's counterattack](#)

"Research on a new type of pill?" Leng Pogong frowned, "What kind of pill can be studied in this pill pavilion?"

The research of a new type of pill can not be researched casually. After being oppressed by his Leng family, Dan Ge wants to abandon the current market and open up new markets?

"You inform the other party that you must figure out what the pill pavilion is doing, and what the pill you are studying is."

Leng Pogong faintly felt something bad in his heart, as if there was a conspiracy approaching their Leng family.

"Ancestor, Patriarch, it's not good."

At this moment, a disciple of the Leng family hurried in.

"What happened? Why are there no rules at all?" Leng Pogong's face sank.

"Ancestor, Pill Pavilion released a brand-new pill today, and now the entire imperial city has become a sensation." The disciple knelt on the ground, said with a panic expression.

"Pill Pavilion has released a new pill? What's going on?" "Old ancestor, this morning, Pill Pavilion Master personally announced that Pill Pavilion has sold three new pill medicines, namely the new type of blood clotting pill, the new type of Zhenli pill and The new type of Chongyuan Pill, now the entire market has exploded. The customers who originally bought the pill at our Lengjia all ran to the Dange store.

went. "The disciple almost cried when he said this.

"how is this possible."

Leng Pogong looked shocked and rushed out. Behind him, Leng Feifan also hurried out.

After a while, both of them came to the most prosperous part of the imperial city.

I saw where the Dange shop was, and the crowd didn't even have a place to stand, one by one, they were crazy about buying.

On the other hand, there is almost no one in Leng's shop, making the shop assistants who were too busy the previous two days to look stupid.

In front of the Leng's shop, Leng Pogong and Leng Feihua's faces were pale, they only felt that their foreheads were congested, and they felt dizzy.

how can that be?

Two days ago, their Leng family still had the upper hand. Why suddenly, Dan Ge developed three new types of pill, which instantly attracted everyone to the past?

Although I don't know what kind of pill the Dange sells, but it can attract so many people, the pill that Dange sells is absolutely extraordinary.

"Ancestor, what shall we do now?"

"This pill pavilion, where are the three new types of medicinal medicine developed? This is too exaggerated."

"Moreover, they are Blood Coagulation Pill, Zhenli Pill and Chongyuan Pill. Isn't this deliberately seizing our Leng family's business?"

All the people in the Leng Family breathed in air-conditioning, their faces pale.

At this time, there was a commotion at the entrance of the Dange shop.

"Why is it sold out so quickly?"

"Yes, I came here on purpose after hearing the news."

"I heard that the price of this blood clotting pill is only 80% of the normal blood clotting pill, but its efficacy is about 30% higher than that of the normal blood clotting pill. The price/performance ratio is simply against the sky."

"Not only the blood coagulation pills, the new type of Zhenli pills and the Chongyuan pills have the same effect. I got the news and rushed over as soon as possible. Who knew I still didn't buy them."

"Depressed!"

"This is selling too fast, what the \*\*\*\* is Dan Ge doing."

Countless customers who rushed in were gloomy and complained.

In the shop, Elder Xu Bo saw the scene in front of him, his eyes flushed with excitement, but his heart was depressed.

In fact, the power of Pill Pavilion is far more than just these ten thousand tablets, but Qin Chen's order is the first time it is sold, and it is not allowed to exceed ten thousand tablets.

Seeing so many customers who want to buy pills in front of him, Xu Bo felt that pain in his heart. But Qin Chen naturally didn't dare to violate Qin Chen's order, so he had to stand up and shout: "Everyone, be quiet, be quiet, I'm really sorry, these three new types of pills are still in the trial stage, so we Dan On the first day of the pavilion, only 10,000 tablets were sold, but please rest assured, with our Dan pavilion

The production capacity of 10,000 capsules is only an early promotion. Wait two days, our Dange will vigorously implement it. Then, you can buy these three types of Dange at any store in our Dange at the same price. medicine. "

Xu Bo shouted for a long time before pacifying the restless crowd.

Upon seeing this, Leng Pogong and the others looked at the empty crowd on their side, and then looked at the crowds on the other side, but complained about the warriors who had not bought the medicine, and almost vomited a mouthful of blood in depression.

"Dange is a good method, let's go back to the family first, and then make the final conclusion."

His face was ashen, and his liver hurt from cold Po Gongqi, so he turned and left the trouble.

And the news here, like a gust of wind, spread throughout the entire imperial city in an instant.

It caused a huge sensation in the imperial city.

"This Dan Pavilion really has two brushes."

Even after Liu Xuanrui heard the news, he couldn't help laughing.

A few days ago, he heard that the Dange was suppressed by the Leng Family very badly. When the pill market was almost unified by the Leng Family, he was also quite worried. Unexpectedly, it was only two days before the Dange counterattacked back, and directly impacted the main market of Lengjia.

Liu Xuanrui couldn't help but admire him.

At this time, the atmosphere of the Leng Family Mansion was gloomy and depressing.

According to statistics, their Leng's pill was sold only one-tenth of the usual amount today.

And these few pills were sold without the knowledge of many warriors before the Dange store opened.

Later, the flagship store of Lengjia Pharmacy in the center of the imperial city didn't even sell a single pill for an entire hour.

This data immediately made all Leng Family's hearts heavy, as if it was pressing on a big mountain.

Like a huge shadow, it instantly fell on the heads of all the Leng family members, making everyone depressed and almost unable to breathe, as if the end was coming.

In the Lengjia Chamber, all the high-level personnel are here.

In front of them, there were several porcelain bottles, which contained the three kinds of medicines sold by Dan Pavilion.

An old man carefully observed and analyzed these three kinds of pills, and he remained silent for a long time!

Leng Po Gong finally couldn't help but speak: "Master Cheng Kun, what are the effects of these three medicines?"

This person is Cheng Kun, the chief alchemist of the Leng family, the master alchemist of the late sixth stage.

In terms of refining skills, this person was even higher than Fei Leng, the chief alchemist of the palace, and in the entire Dawei Dynasty, second only to Zhuo Qingfeng, the main alchemist, was terrifying. "Oh, Lord Leng Po Gong, the three pill pavilions in this pill pavilion are simply miracles. This is the first time this old man has seen such a heaven-defying pill for so many years. Indeed, they are about 30% stronger than the pill sold by our Leng Family." Cheng Kun sighed again and again, his brows were filled with shock.

## Chapter 784: Reverse takeover

"Master Cheng Kun, I don't know if our Leng family can refine this kind of pill?" "It's difficult, it's as difficult as heaven." Cheng Kun shook his head: "These three kinds of pills, although they are also blood clotting pills and true strength pills. , Chongyuan Pill, but it seems that the prescriptions and refining methods are different from the conventional three kinds of pill, and the pill prescription has been improved, without knowing the pill prescription and refining technique.

If you want to refine it, it's impossible... If you really want to refine it, you must know the prescription and the refining technique, otherwise, it is absolutely impossible. "

"It's just that the pill of blood coagulation pill, true power pill and Chongyuan pill have been tempered for thousands of years. How could the pill pavilion upgrade all three pill medicines at once? I don't understand or understand."

Cheng Kun shook his head repeatedly.

Upon seeing this, Leng Pogong and others sank in their hearts.

Did it just make Dange up?

"Old ancestor, are these three pill formulas related to the Phoenix Lancao that the Dan Ge frantically purchased not long ago?"

Suddenly, Leng Feifan frowned.

When this sentence came out, everyone was stunned.

possible!

Pill Pavilion's biggest move these days is to buy Phoenix Lancao frantically. Now, these three new types of medicines suddenly appeared. It is hard to say that it has nothing to do with that Phoenix Lancao!

"Master Cheng Kun..."

Everyone looked at Cheng Kun.

Phoenix orchid?

Cheng Kun again savoured the three medicinal herbs, frowning slightly, "It seems that there is indeed the scent of phoenix bluegrass in this medicinal pill, but it seems that it has undergone special treatment and cannot be 100% sure."

"Don't be sure, it must be related to Phoenix Lancao." Leng Pogong's eyes sank.

There is no judgment at this point, so he doesn't need to be confused.

"Extraordinary, you immediately inform our shop to purchase Phoenix Lancao." Leng Pogong said solemnly.

Leng Feifan was taken aback: "Old ancestor, but even if the pill of Pill Pavilion is really related to Phoenix Lancao, we don't know the pill recipe. Even if the Pill Pavilion is snatched from Pill Pavilion, it is useless." Leng Po Gong squinted his eyes and said coldly: "Aren't we in the alchemy pavilion still have an inside

line? Tell him that he must get me the alchemy, 10,000 pills in a few days, the alchemist involved in the alchemy refining, Certainly not in the minority, he is a dignified elder, can he not even get a pill? Tell him,

Even if you fight to reveal your identity, you must get the Dan Fang. "

Leng Po Gong was completely spared.

Because he knew very well that Dan Ge's actions today had completely hit the core of their Leng Family. If they did not fight back, then the only way to face their Leng Family would be to perish.

"I understand." Leng Feihua also figured it out instantly.

Now, it is the life and death of their Leng family, as long as they get the pill, their Leng family can live, and even fight a Jedi counterattack, but if they don't get the pill, their Leng family will undoubtedly die.

Even if the inside line is exposed, the big deal is to directly let the other party withdraw into their Leng's house and do things for their Leng's house. Anyway, this condition has already been negotiated.

"The disciple will do it right away."

A trace of cold light appeared in Leng Feifan's eyes, and he quickly retreated.

"Dare to confront my Leng family, Na Dan Ge, think too much."

Leng Po Gong's eyes also showed a hideous color.

When the Leng family was worried.

In the Dan Pavilion.

But in ecstasy.

These days, Dan Pavilion was firmly pressed by the Leng Family, and many people had long been extremely unhappy, and now they have fought such a beautiful turnaround, how they are not excited.

Just as excited, Zhuo Qingfeng and Xu Bo were also depressed.

"There is little dust, why is it only allowed to sell 10,000 tablets? You don't know how popular our Dange store is today. If it weren't for your limit of 10,000 tablets, I'm afraid today's Dange's sales would burst into one. Unprecedented."

In the chamber, when Zhuo Qingfeng saw Qin Chen's first side, he couldn't help but say.

What a pity.

Without Qin Chen's restriction, I am afraid that the loss of Tian Dan Pavilion a few days ago can be restored in one day, and Leng's business can be instantly knocked down into the abyss.

"Yes, there is little dust, why can only sell 10,000 tablets?"

Xu Bo, Xiao Ya and others were also depressed and full of doubts.

"Ben Shao commanded this with ulterior motives. By the way, what did Leng Family do?" Qin Chen smiled, but didn't take it seriously.

"The Leng family? I'm afraid the Leng family is depressed today. You haven't seen the dust. The faces of the members of the Leng family are darker than the bottom of the pot, hahaha." Xu Bo excitedly said.

"That's right." Xu Bo said solemnly as if thinking of something, "I heard that the Leng family has also begun to purchase phoenix grass in private, and the price is high."

"Oh?" Qin Chen's eyes lit up: "How are we doing in the acquisition of Phoenix Lancao?" "Don't worry about the dust. Now the Phoenix Lancao in the imperial city has been purchased by our Dan Pavilion. Our Dange also collects a lot of phoenix bluegrass. The Leng family wants to start again and can only eat our ashes, haha, and even if they buy phoenix bluegrass, what can they do?"

In our place, they bought Phoenix Lancao and could only refine the Beast Expelling Pill. "Xu Bo said proudly.

"Then the pill, have you preserved it?" "Naturally preserved. At present, except for a few of us, no one else knows about the pill. We also control the pill and the medicinal materials are processed during the refining. Many pharmacists involved in the refining also find it difficult to know key data such as the proportion of elixir." Xu Bo is extremely confident.

.

He still has this ability to control the Dan Pavilion for these years.

"By the way, there is little dust. The 10,000 pills of the first refining have been sold out. When will we continue refining and sell again?" Zhuo Qingfeng asked at this time.

"Waiting for my order, but in a short time, there will be no more sales."

"why?"

Zhuo Qingfeng and the others were taken aback, all of them were anxious.

With such a good opportunity, if you don't take advantage of the victory and directly defeat the Leng family, what do you do to give the opponent a chance to breathe?

"I have my own idea." Qin Chen said with deep meaning, and then suddenly said, "You said, what will Leng Family do in such a situation?"

"What can I do?" Everyone was taken aback.

Qin Chen sneered: "The Leng family is in our Dange, but there are insiders. If I'm the Leng family, what I have to do now is to get the Danfang in every way possible."

"Young Chen, do you mean that the Leng family's inside line will take action?" Zhuo Qingfeng and the others frowned.

"That's for sure. Rather than beware, it's better to lead the snake out of the cave. Pavilion Master Zhuo, since everyone is so happy. Tonight, it's better to hold a celebration banquet in Dan Pavilion and call all the people in Dan Pavilion to have a good time and celebrate together. How?" "Little Chen, I

understand." Zhuo Qingfeng and Xu Bo looked at each other and instantly understood what Qin Chen meant.

#### [Chapter 785: Insider appears](#)

I have to say that Xu Bo's work is very fast.

On the same day, Dan Pavilion immediately held a grand carnival.

All the elders, deacons, and stewards were invited over, and there was no shortage of them.

The whole Dan Pavilion is so lively.

Xu Bo looked at the excited people below and cheered frequently.

Even Pavilion Master Zhuo Qingfeng drank a lot.

This night.

Everyone was drunk. When the dinner was over, Xu Bo and others were almost unsteady.

During the whole process, although one of the elders in Dange drank a lot and looked drunk, in fact, the whole person was sober.

"Elder Xu, I can't think of our pill pavilion and such an amazing formula of pill. If the Leng family dares to deal with our pill pavilion, then he is looking for death."

"Hahaha, the Leng family is looking for a dead end."

At the dinner, many elders cursed the Leng family. "Hey, everyone is too right. The Leng family is indeed looking for death. This pill, but the old man obtained it from an ancient relic. Originally, he didn't want to take it out so quickly. He just kept experimenting in the refining room. Knowing that the Leng family dared to trouble me Dange, haha, so he went straight

Then came out. "

Xu Bo said triumphantly, and almost fell asleep immediately.

The speaker has no intention, the listener has the intention.

During the dinner, the elder suddenly showed a hint of excitement.

After the dinner is over.

Everyone left one after another.

In the dead of night, a silhouette of people quickly appeared in Elder Xu Bo's refining room.

The man carefully surveyed the surroundings first, and found that there was nothing wrong, then cautiously opened Elder Xu's refining room, and quickly searched inside.

At this time, the person didn't notice at all. In Xu Bo's refining room, a cryptic monitoring formation kept monitoring inside.

"Elder Ma, the traitor turned out to be Elder Ma Bing Ma."

After seeing the figure in the dark, Zhuo Qingfeng and Xu Bo suddenly showed anger on their faces.

Ma Bing, an elder who has served as an elder in Dan Pavilion for many years, can be said to have always worked hard and is gentle and gentle.

Moreover, he had conflicts with Jin Yuan, and the two were not in harmony, but the relationship with Xu Bo was okay.

Therefore, no one thought that he would actually be the traitor of the Leng family.

After looking for a while in the refining room, his eyes suddenly brightened.

In a secret place of the refining table, I quickly found a simple prescription, took a look, quickly put it away, and hurriedly left the refining room.

"Want to go, stop him."

Zhuo Qingfeng and Xu Bo flickered, they were about to rush out, but they were instantly stopped by Qin Chen.

"Let him go."

"Little dust, you are..."

Zhuo Qingfeng and Xu Bo were both stunned.

Immediately his eyes brightened: "Little dust, you won't put a fake prescription in my refining room, do you want to deceive Leng's family?"

Xu Bo knew very well that there was no prescription at all in his refining room. The reason for saying this was just to see who was the traitor.

But just now, the horse soldier actually found a prescription, so there may only be one, which is where Qin Chen placed it when he arranged the monitoring formation.

In addition, Qin Chen actually wanted to let the opponent leave, Zhuo Qingfeng and Xu Bo quickly made up for this possibility.

"Yes, I did give the prescription, but it is not a fake prescription, but a prescription for three new types of pill!"

"what?"

Zhuo Qingfeng and Xu Bo thought they had heard it wrong, their eyes widened, "What are you talking about, Shao Chen?"

"I said the prescription that the other party got is indeed true." Qin Chen laughed.

Zhuo Qingfeng and Xu Bo were completely stunned.

I almost cried for an instant.

What is Shao Chen doing? They don't understand at all now.

"I don't know what I am doing, right?" Qin Chen smiled and looked at the two of them: "Call everyone in immediately, and I will tell you what I am doing."

When Qin Chen summoned everyone to explain the reason.

Leng Po Gong and Leng Feifan were awakened in the middle of the night.

"What are you talking about? You have got three new types of pill recipes?"

In the chamber, looking at the simple prescriptions presented, Leng Pogong and Leng Feifan were stunned.

This efficiency is too fast, right?

The order they just issued this evening required the horse soldiers to get Dan Fang at all costs. How long has this passed? Actually got it?

"Are you sure this is really a pill?"

Up to now, Leng Po Gong and Leng Feifan feel a little unbelievable.

"Master Leng Pogong, Patriarch Leng, has someone deceived you?" Ma Bing said proudly.

"Invite Master Cheng Kun to come right away."

Soon, Cheng Kun was invited over.

After learning that he had obtained the pill, Cheng Kun was also a little dizzy, and quickly took the pill and looked at it.

"This, is it fake?"

After seeing the three elixir, Phoenix Lancao was used, Cheng Kun subconsciously said.

"Master Cheng Kun, I suspected that there was a problem at first, but Ma now tried it once, and found it to be true after successfully refining it."

Ma Bing took out a bottle of pill from him, "This is a new type of blood clotting pill previously refined by Ma based on the elixir above."

"Huh?" Everyone in the Leng family took the medicine bottle and opened it. There were a few pills inside, and they were almost the same as the new type of blood clotting pills sold by Pill Pavilion.

"I'll try."

Cheng Kun's face was solemn, and he immediately refined in front of everyone.

After an hour.

When the three new types of pills were successfully refined by him, everyone in the Leng family was stunned.

Really, it turned out to be real.

Cheng Kun was also shaking with excitement.

"It's no wonder that Dange dared to sell them at such a low price. These three kinds of medicinal herbs all use Phoenix Lancao instead of several auxiliary materials. The cost is directly saved by one-third, and after the refining process is simplified, the efficiency is improved. It's also doubled, incredible, incredible!"

Cheng Kun muttered to himself, almost incoherent.

Everyone in the Leng family was also dizzy.

Happiness comes too suddenly, making them even feel a little illusory.

"Master Cheng Kun, now that we have a pill, you think our Leng family can overcome the pill pavilion."

Leng Po Gong hurriedly said. "No problem at all." Cheng Kun is still in the shock of Danfang: "With our Lengjia technology and refining level, Bi Dan Pavilion can definitely save 20% in cost, and efficiency can increase by two. In other words, for the same pill, our Leng Family's price is 30% lower than the pill.

There is still a certain profit when it comes to sell, but Dange can't do this. "

"However, our Leng family currently faces a huge problem." Cheng Kun said solemnly.

"What?" Everyone looked around. "Materials." Cheng Kun said solemnly: "These three medicines all need phoenix grass, but the phoenix grass in the imperial city has already been collected by the Dan Pavilion, and even the phoenix grass from all over the dynasty is the same. In this way, if you don't step up the acquisition of Phoenix Bluegrass, Dange's consumption can be suppressed.

Live with us. "

"Fenglancao? I understand."

Leng Pogong turned his head and looked at Leng Feihua: "Fujian, no matter what method you use, I need you to purchase all the Phoenix Lancao remaining in the dynasty before the Dan Pavilion can react. Do you understand?"

"Understood." Leng Feifei nodded his head heavily, a resolute light shot from his eyes.

### [Chapter 786: Defective elixirs](#)

In the Dange Chamber.

Zhuo Qingfeng and others gathered again.

After learning that Qin Chen deliberately leaked the prescription, Xiao Ya and others were almost confused. "There is little dust. With Leng's level of alchemy, once the pill is obtained by them, it will definitely be able to produce in a short time. At that time, Leng's refining by its own assembly line will inevitably reduce the cost to be lower than ours. Wouldn't the great situation that Ge finally formed in this way be completely destroyed?

Up? "

Zhuo Qingfeng was anxious and didn't understand what medicine Qin Chen sold in the gourd?

They were only allowed to sell 10,000 pills and deliberately leaked out the pill. This is simply self-destructing the Great Wall.

"Actually, my purpose is to let the Leng Family refining these three kinds of pills." Qin Chen suddenly smiled.

Everyone was speechless. At this time, Qin Chen was still laughing.

But some people looked at Qin Chen suspiciously and spent so long with Qin Chen. They knew Qin Chen very well. Is Shao Chen the kind of person who suffers?

Thinking about it carefully, it seems that Qin Chen has never suffered from someone else's hands since getting to know each other.

All the people who were once enemies of Qin Chen were either destroyed or rectified very miserably, unable to take care of themselves.

"Okay, okay, it's not for sale anymore."

Seeing everyone anxiously like ants on a hot pot, Qin Chen smiled and said: "The three new types of medicines made from phoenix grass are flawed. In other words, they are failed products. May be sold on a large scale."

The failed product? defective?

Everyone was taken aback.

"Less dust, no, I tried it before. Those kinds of medicinal medicinal herbs have very powerful effects. What are the flaws?" Zhuo Qingfeng frowned.

He was also a sixth-rank pinnacle alchemist anyway, and he could still see if a pill was defective. "That's because you take too little, and secondly, your cultivation level is too high, so the so-called flaw is actually nothing to you, but for those who are really in need of the medicine, it is no small thing. , Wang Qiming, I asked you to take two of this new type of Zenith Pill before, right?

You urge your blood to try. "

At this time, Qin Chen suddenly said to Wang Qiming on the side.

"Activate blood?" Wang Qiming nodded, "less dust, good!"

Hum!

As soon as his mind moved, Wang Qiming's blood was immediately urged.

I saw a layer of misty halo that instantly appeared in Wang Qiming's body, constantly beating, but what made everyone puzzled was that Wang Qiming's bloodline was a little unevenly rhythmic, and it felt like he couldn't catch his breath.

"Little dust, what's the matter with my blood? Why is it mobilized and not so comfortable? There was no such situation before." Wang Qiming said in shock.

Qin Chen smiled, "Actually, this is the side effect of taking that new type of Zhenli Pill. Phoenix orchid grass contains a special substance. This substance can replace a variety of elixir and participate in the reaction. "

"This discovery was originally a breakthrough in the history of refining medicine, but it was later discovered that although this substance can replace many kinds of elixir, it will have a certain impact on the bloodline stability of the martial artist." It's just a small amount, maybe it's nothing. Like your current bloodline situation, it only takes half a month to stop taking this new type of pill and it will naturally recover. However, if you take a large amount or take it for a long time, it will hurt you. The blood vessels cause irreversible damage, by then

, That's trouble. "

Qin Chen said in a deep voice.

In fact, this function of Fenglancao was discovered by a ninth-grade pill from a sly pill in the martial arts domain. At that time, it also caused a huge sensation in the martial arts alchemy world.

Many powerful alchemists, including the top Dan Pavilion, are all studying this characteristic of Phoenix Bluegrass.

In the Martial Domain, masters of refining medicine gathered, and this defect of Phoenix Lancao was soon discovered by some masters of refining medicine.

At that time, after discovering this defect of phoenix bluegrass, many alchemists were thinking of ways to see if there was any way to eliminate this defect of phoenix bluegrass.

Unfortunately, after several years of research, it has not been possible to find a reasonable solution.

Therefore, this discovery that had caused a sensation in the entire alchemy world soon disappeared.

Hearing Qin Chen's explanation, everyone was shocked.

These three new types of medicinal pills have such huge side effects. No wonder Chen Shao only asked them to sell 10,000 pills.

"But little dust, you know that these three medicines are flawed, but why did you take them out? Is it just to pit the Leng family? But in this way, our pill pavilion has been pitted, after all, we have already collected the pill pavilion. The vast majority of phoenix grass on the market, this is a sky-high price..."

Zhuo Qingfeng and the others were depressed.

A few days ago, Dan Ge used almost all his savings to buy Phoenix Lancao.

Qin Chen didn't answer directly, but smiled: "Pavilion Master Zhuo, do you think the Leng family has obtained the pill and what will he do after discovering that the pill is true?"

"Do you still have to ask? It must be the first time to refine a new type of pill."

"But refining a new type of medicine requires a lot of phoenix bluegrass, but most of the phoenix bluegrass on the market is already in our hands, and our Dange is continuing to purchase the remaining ones. The Leng family wants a lot of phoenix Do?" Qin Chen asked with a smile. .

"Little dust, you mean, the Leng family will increase the price and snap up?"

Zhuo Qingfeng frowned, he was puzzled at first, but immediately, his eyes lit up.

"Shao Chen, you mean, we will sell the acquired Phoenix Lancao to Leng's family?"

Everyone's eyes were bright, and they looked at Qin Chen dumbfounded.

Isn't this a big profit?

You know, after such a frantic acquisition by Dange, the price of Phoenix Lancao on the market has already risen a lot, at least several times. If Lengjia wants to compete with their Dange, he will definitely use a high price. Acquisition.

In this way, they can earn several times as much as Phoenix Lancao alone!

How many real stones is this? I'm afraid they can hollow out the entire Leng Family.

The most terrifying thing about Leng's family is that they have occupied the pill market of the Dawei Dynasty over the past few years and have extremely amazing wealth.

This wealth, even the royal family is extremely afraid.

The Leng family also used their wealth to form a terrifying alliance with the Wujizong, Guiyuanzong, and Wu family in the Zongmen alliance.

Once the wealth accumulated by the Leng family is wiped out, it will be a huge blow to the Leng family.

"Little dust, I understand, I immediately asked the people below to stop the purchase, and at the same time arranged for someone to secretly sell Phoenix Lancao."

Zhuo Qingfeng was so excited that he had to make arrangements in a hurry.

"Pavilion Master Zhuo, you can't do this, it is easy for the Leng Family to see the flaws." Qin Chen stopped.

"That should..." Zhuo Qingfeng frowned.

### [Chapter 787: The price is crazy](#)

"Dange can't stop purchasing Phoenix Lancao, but must continue to purchase, and raise the price of Phoenix Lancao again, while dumping it secretly. Of course, the quantity collected must never exceed the dumped quantity. You should understand. , A long flow of water can make a lot of money."

"At the same time, we have to secretly spread the news, let people talk, saying that the new pill of Dan Pavilion is actually refined with phoenix orchid grass, which muddy the water inside.

Qin Chen said with a smile.

"Let the price of Phoenix Lancao rise again?"

My goodness! After selling like this, the value of Phoenix Lancao has increased by at least tenfold.

"hiss!"

Everyone looked at each other and couldn't help taking a breath of air-conditioning. They were already speechless.

When a power can control 50% of the materials on the market, it already has the absolute pricing power of the materials, and now the Phoenix Lancao purchased by Dange has reached at least about 80% of the market. They want to make the game, and then it couldn't be simple.

In other words, on the Phoenix Bluegrass, they can get profits and increase it exponentially.

At this moment, everyone looked at Qin Chen weirdly, wishing to poke Qin Chen's mind away to see what was inside.

They originally thought that Qin Chen took out the defective pill just to pit the Leng family, causing heavy losses to the Leng family, and the pill would also suffer.

But now it seems that Dan Pavilion not only has no losses, but also made a lot of money, and it is a big fortune.

Zhuo Qingfeng was so excited that he couldn't speak, and he wished to act immediately.

"Pavilion Master Zhuo, leave this to Elder Xu Bo to deal with, you have other important things to do!"

"Other important things?"

"I have three prescriptions here. These three prescriptions are the real prescriptions for the new blood clotting pills, Zhenli pills and Chongyuan pills." Qin Chen handed it over.

Zhuo Qingfeng took the prescription, and the whole person was stunned for an instant.

Sure enough, three new prescriptions were written on the above, and these three prescriptions are not like the previous ones, instead of using Phoenix Lancao instead of several elixir, but the original classic blood clotting pills, Zhenli pills and Chongyuan. Dan's prescription.

It's just that the refining sequence, ratio, and technology of the elixir in it have been optimized.

"The optimized prescription, because of the reduction in the use of materials, has prevented the loss of potency, so the cost is only 70% of the original prescription; the refining speed will increase by about 30%; the efficacy is 1.5 times that of the old pill And there are no side effects."

"Each pill has a core technology, and Pavilion Master Zhuo can control it in his own hands. In this way, there is no need to worry about the leakage of the pill."

"I hope that in the next few days, Dange will organize manpower to refine these three new types of pills and put them on the market in one fell swoop."

Qin Chen said lightly.

This is his killer!

"This....."

Zhuo Qingfeng and others looked dull and completely dumbfounded.

They have been able to imagine, but what a sensation it will cause when such a pill appears on the market.

At that time, Leng's family, who originally used a large amount of Phoenix Lancao to refine a new type of medicine, will completely fall into the abyss and will never get up again.

After all, from a comprehensive point of view, Qin Chen's new prescription was even stronger than the original prescription.

Enough to trigger a revolution in the medicine industry.

Once the accumulated wealth in the family is consumed, coupled with the original market being hit, it is strange that the Leng family can survive.

Next, Qin Chen gave all the things to Pill Pavilion to do.

I believe that after the previous things, Dan Ge must know how to do things best.

Zhuo Qingfeng immediately followed Qin Chen's instructions and began to develop the latest three types of medicinal pills, and Xu Bo was the first to understand Leng's dynamics.

Sure enough, the next day, Leng's family also began to secretly buy Phoenix Lancao.

Moreover, in order to purchase enough Phoenix Lancao in the first time, Leng Jia directly doubled the price of Phoenix Lancao after several rounds of price increases.

However, the phoenix bluegrass in the imperial city was almost completely purchased. Even so, the Lengjia still did not purchase much, only some sporadic phoenix bluegrass, not even the mass production quantity.

At the same time, although the Lengjia was very careful about the acquisition, the total market was so big, and the news that Lengjia was also purchasing Phoenix Lancao at a high price was quickly discovered.

The news that Leng's family and Dange had acquired Phoenix Lancao at the same time spread across all major forces in the imperial city.

"What's the matter? Why are the two major elixir forces of Leng Family and Pill Pavilion purchasing Phoenix Lancao?"

"The price of phoenix grass has doubled several times, right? These two forces are still desperately buying, what is the effect?"

"It's weird."

Quite a few forces secretly wondered, but they only feel that something is wrong.

Some forces saw that the price of phoenixgrass was soaring, and couldn't help but want to buy it, but they were a little wary before they figured out the effect.

At this moment, a piece of news, without knowing where it came from, came out quietly.

"Have you heard that Dan Pavilion sold three new types of pill not long ago? I heard that it was made from this phoenix herb."

"It is said that Phoenix Lancao is the main material of these three new types of medicinal herbs, and it is an indispensable one."

"It's no wonder that Pill Pavilion and Leng's family are buying Phoenix Lancao frantically. This is to occupy the source of the pill refining."

This news caused a huge sensation in the entire Dawei Dynasty.

For a time, the top forces of the entire Dawei Dynasty exploded.

No wonder Dan Ge and Leng Jia are frantically acquiring Phoenix Lancao for this purpose.

Almost instantly, other top forces in the imperial city entered the game one after another and began to secretly purchase Phoenix Lancao.

You know, the price of Phoenix Lancao is very cheap, even if it has risen several times, compared with the price of a five-grade pill, it is still a thousand miles away.

Almost any force in the dynasty knew that the Leng Family and Pill Pavilion were now dead. In order to \*\*\*\* the pill market, they could say they had tried every means.

As the key point of the confrontation between the two sides, the price of Phoenix Lancao will definitely continue to rise. As long as the acquisition is obtained, no matter if it is sold to Dange or Lengjia, there will be huge profits.

In an instant, the price of Phoenix Bluegrass began to soar.

Because the value of Phoenix Bluegrass is too great, and there is no more Phoenix Bluegrass on the market.

Only two days later, compared with the price before the acquisition by Lengjia, the price of Phoenix Lancao has soared several times again.

The Leng family and the major medicine gardens in the imperial city also began to plant phoenix grass.

However, the growth cycle of Phoenix Bluegrass is too long. It will take at least five years. Within five years, Phoenix Bluegrass of the Dawei Dynasty will be in short supply.

Lengjia.

"boom!"

Leng Po Gongqi severely smashed his beloved water cup.

"The news that Phoenix Lancao can make a new type of pill, on earth was it who passed it out?" He roared, his face terrifying, almost mad.

[Chapter 788: Panic buying](#)

Originally, he wanted to take advantage of Dan Ge's failure to respond and snap up all the remaining Phoenix Lancao on the market.

Who knows, how long it has been, how much the Leng family has confiscated and purchased, and the news that Phoenix Lancao can refine a new type of pill has spread.

it's good now!

Almost the entire Dawei dynasty forces are purchasing Phoenix Lancao frantically. Their Leng family wants to buy it again, and the difficulty is several times higher.

It happened that other forces bought Phoenix Lancao just to raise the price of Phoenix Lancao so as to make a profit.

However, their acquisition by the Leng Family was to refine a new type of pill, which was a completely different purpose.

After the price of phoenix grass rises, the final cost will be borne by their Leng Family.

The only thing that can comfort the Leng family is that Dange, like their Leng family, is said to be unable to buy Phoenix Lancao now, and they are all buying at a higher price.

"Old ancestor, we and Dange are the only ones who know the efficacy of phoenix bluegrass, do you think Dange passed it down?"

An elder frowned.

The timing of this news is really weird.

"Pill Pavilion passed out? Are you a pig brain?"

In the rage, Leng Pogong wanted to slap his opponent to death.

"What good is it for Dange to spread this news? Now they don't know the news that Danfang has been known by our Leng family. What good can this do, besides making myself spend more money?" Lengpo Gongqi Don't type it out.

"My ancestor, in my opinion, it should be the result of other forces who saw that our Leng Family and Dange were both acquiring at the same time." Leng Feihua said solemnly, "Moreover, they are probably just guessing."

"Of course I know this. These \*\*\*\* forces are really full and \*\*\*\* me off." Leng Po Gong slapped the table with qi.

As far as he knows, even the Wujizong, Guiyuanzong, and Wu family secretly bought Phoenix Lancao.

Who wants to miss this great opportunity to make money?

Moreover, before the acquisition of Lengjia, Guangdan Pavilion's large-scale acquisition, the price of Fenglancao has increased several times, and now Lengjia and Dange are buying together, if other forces can't reflect the business opportunities in it, I'm afraid it's impossible to be so big in the dynasty.

"What I want to know now is how can I get a lot of phoenix bluegrass instead of figuring out where the news came from. If we can't buy enough phoenix bluegrass, our Leng family will not be able to fight back. Ge." Leng Po Gong said in a huff.

"Old Ancestor, Dange made a shot too early than us. Many phoenix plants on the market are in their hands, and they are also buying at a higher price. We want to surpass Dange, it is very difficult."

Everyone in the Leng family was sad and depressed.

I finally stole the pill, but there was no raw material, and it was suffocating.

"Should we go to another dynasty to buy?" someone suggested.

Many people's eyes brightened.

This is a good idea.

Other dynasties still don't know the efficacy of Phoenix Lancao, and the price is still at a very low level. It will be easy to buy.

"The method is good, but not feasible." Leng Pogong's face was ugly.

The Leng family's power spread throughout the dynasty, and it's no problem for them to buy within the dynasty, but it's not easy to go to another dynasty to buy them.

First of all.

The acquisition of Phoenix Bluegrass is an extremely cumbersome task and requires a lot of manpower.

In other dynasties, the Leng family didn't have many channels.

Secondly, going to other dynasties is too far away. It will take at least several months to go back and forth. This is still in the case of flying birds.

Coupled with the purchase time, when the purchase comes back, the daylily will be cold.

Moreover, crossing the dynasty is too dangerous. You will encounter many blood beasts and bandits on the road. Once you encounter any trouble, it will immediately cause huge losses.

The gain is not worth the loss.

For a moment, everyone in the Leng family was full of sadness, and they were almost angry.

"Ancestor."

At this moment, an elder who was responsible for contacting the lower states hurried in.

"The disciple received the news that several forces in the lower states of the dynasty had a lot of stocks of Phoenix Bluegrass in their hands and were in contact with us." The elder said hurriedly as soon as he came in.

"What? There are a lot of phoenix plants in stock, are you right?"

Leng Pogong's eyes lit up instantly.

"Yes, according to the family members below us, those forces heard that Dange had bought phoenix grass on a large scale in the imperial city. After the price of phoenix grass had risen several times, they secretly bought them in their own state. A lot."

"How many is it?"

"Rough estimate, I heard that there are hundreds of thousands of catties in total!" The elder said hastily.

Huh!

In an instant, the breathing of Leng Pogong and the others rushed.

Hundreds of thousands of catties?

This is definitely an extremely terrifying number. The number of Phoenix Bluegrass in the entire Imperial City was probably only so much.

"How come there is such a large amount?" Leng Feihua asked subconsciously in doubt. "According to our personnel, those families heard that Dan Pavilion was buying on the imperial city, so they secretly purchased them in advance. They were originally prepared to wait for the price of phoenix bluegrass to rise and sell them to Dan Pavilion. Leng's family is also acquiring, so I found our Leng's family secretly and wanted to inquire

Let's take a look at the price and see if our Lengjia is really buying. "

"Then what are you waiting for? Just buy it." Leng Pogong said anxiously.

"The other party's asking price is very high. Based on the current price, it has doubled, and it is unwilling to let it go. The second is that there are not enough real stones on the personnel in the states below. The third is that the amount is too large, and they do not Dare to call the shots easily..." said the elder.

"Are you a pig brain?"

After Leng Pogong heard the words, he trembled with anger.

Nowadays, the price of Phoenix Bluegrass is rising every day. The key is that the Leng family is in short supply of Phoenix Bluegrass. Such a good opportunity, these guys hesitated, and almost mad at him.

"Immediately mobilize our Leng family's savings, and be sure to buy those phoenix grasses before the Dange sells them. The price is more expensive. I tell you, if you can't buy it, you can see me with your head." Leng Po Gongqi You have to raise your hand, wishing to hack the opponent to death here.

"Yes, the disciple will do it right away."

Seeing that the ancestor was so angry, wherever the elder dared to stay, he stood up and ran out.

"Remember, if the same situation occurs in the future, the most important thing is to buy Phoenix Lancao as soon as possible. Others will be discussed later. Leng Feihua, immediately give him the right to mobilize family savings. This is a battle with Dan Pavilion. In the competition between acquisitions, we must be ahead of Dange and market

The remaining phoenix orchids on the board are purchased, otherwise, even if there is a pill, they are not qualified to compete with the pill pavilion, have you heard? "

Leng Pogong angrily said.

"Yes." Many senior Leng family nodded and shouted.

### [Chapter 789: Longing of the Leng Family](#)

Dawei Dynasty, Liangzhou.

In a very private teahouse.

A steward of the Leng family sat with a few middle-aged people.

"Patriarch Li, the price you gave is really too high, and our Leng family is also under a lot of pressure. Why don't you give a face and be cheaper?"

Leng Jiaguan said to the other party with a wry smile.

The other party is the Li family in Liangzhou, who has a lot of phoenix. "Leng Qingfeng is in charge, I'm really sorry, you know, our Li family secretly bought these phoenix bluegrass, we took a lot of risk, and even offended Dange for this, but it took a lot of pains inside and out. , To be honest, this price is not expensive." The man who was called the Li family

, Shook his head and said.

"Patriarch Li, I know this too, but at present, there are only two middle-grade real stones for a pound of Phoenix Bluegrass. You directly ask for four yuan. This price is really a bit expensive."

Leng Qingfeng begged and said, but his heart was depressed.

He was dignified and indifferent. When did he ever suffer such a crime? To a small family in the state capital, he must have such a low voice. "Leng Guan, you can't say that. Half a month ago, a pound of Phoenix Bluegrass was worth a few dollars? I'm afraid it's only a dozen real stones. But now, it's not what it used to be. The cost of our Li family's acquisition, It's very big, 80,000 catties of phoenix bluegrass. My Li family mortgaged all the family's stores.

All the savings have been taken out. If you don't sell at a better price, I'm afraid I won't be able to survive for two days, my Li family will go bankrupt, and you have to understand our Li family. "

Patriarch Li also sighed and said, as if he was at a loss.

Leng Qingfeng was so angry that he wanted to slap the opponent to death.

But he dare not.

Eighty thousand catties of phoenix bluegrass, such a big deal, if he shoots the Li family to death, then the news is passed back to the family, and what is waiting for him is probably the end of the ancestor's slap.

"But, your price is really a bit high. How about Patriarch Li let it be?"

Leng Qingfeng was still a little unwilling.

"Wow!"

Unexpectedly, several members of the Li family stood up directly. "It seems that the cold manager still thinks that the price we paid is high. If that is the case, let's forget it. Let's go to Dange to ask if it can be accepted. If everyone can't accept it, let's wait a few days. Look. Take care of things coldly, what you do in business is that you love me, you can't take care of things coldly.

I can't bear it, we have to sell it to you. My Li family is also a businessman, and I still can't do this kind of thing. Say goodbye. "

As soon as he waved his hand, the Li family leader took the Li family and left immediately.

"Hey, don't tell me."

Seeing that the other party was really going to leave, Leng Qingfeng panicked, "Forget it, four middle-grade real stones per catty, four middle-grade real stones per catty, 80,000 catties, our Leng family wants them all, too. It's a friend of Patriarch Li."

Leng Qingfeng said bitterly, his heart hurting and blood was about to drip.

With one-handed payment and one-handed delivery, Leng Qingfeng soon took out 320,000 middle-grade real stones, and 80,000 catties of phoenix grass were added to the storage ring.

"The cold manager is really proud. If we have the opportunity in the future, we will cooperate again."

After the transaction was completed, Patriarch Li quickly left the teahouse with his men.

"Cooperate again? When my Leng family lays down on the Dange, you will be unlucky. For those three hundred and two hundred thousand middle-grade real stones, I want you to spit it out for me."

Staring at the back of Patriarch Li leaving, Leng Qingfeng's eyes were ferocious, like a snake, gritted his teeth in anger.

"However, I finally completed the task of the ancestor."

Looking at the phoenix bluegrass piled up in several storage rings, Leng Qingfeng sighed again, and couldn't help but feel a little delighted.

Qingzhou!

Golden State!

Yuanzhou!

Such a scene also happened in several other states of the Dawei Dynasty.

The Leng family ate hundreds of thousands of catties of Phoenix Bluegrass at one time from some families who secretly stocked Phoenix Bluegrass. "Okay, okay, immediately call up all the pharmacists in the family, stop the work at hand, and start refining three new types of pill, hundreds of thousands of catties of Phoenix Lancao, it is enough for our Leng Family to refine millions of new pill. , I hope you can refine one hundred thousand new types of pills within a week,

In one fell swoop, Dan Ge's market was wiped out. "

Leng Po Gong, who received the news, was ecstatic and said excitedly.

"Ancestor, my disciple will do it right away."

Leng Feihua felt extremely pressured. One week, one hundred thousand new-type pill, almost mobilized all the alchemists in the Leng family to refine it with all their strength.

Moreover, with continuous refining, each alchemist himself needs to consume a lot of resources.

Originally, in order to purchase these phoenix orchids, the Leng family had already consumed a huge amount, and had already used all of his savings and treasury. If he continued to refine it like this, he would be desperate.

Obviously, the purpose of Leng Pogong is only one, that is, before the Dan Pavilion gets up, to destroy it in one fell swoop, so that it will never stand up.

"Old ancestor, shall we collect the remaining Phoenix Langrass?" Leng Feifei just wanted to leave, and then asked again.

"Receive, of course, you must purchase. Remember, you can collect as much as you have."

Leng Po Gong said without hesitation.

This is an equipment competition between the two sides. The more phoenix grass acquired by the Leng Family, the less phoenix grass acquired by Dan Pavilion. This is a battle against the current.

"The more phoenix grasses we buy, the more new pill medicines we can refine. Think about it, how big is the pill market for the entire dynasty? Once the pill pavilion is destroyed, all the liquidity in the dynasty will be gathered. Our Lengjia, what will our Lengjia become?"

"At that time, even Lao Liu dare not treat our Leng family, because we can destroy the entire Dawei dynasty's economy and become the uncrowned king of the entire dynasty in one fell swoop."

"Furthermore, it is really going to be that point, our Leng family will dump this new type of medicine into other dynasties with all our strength, do you think this will happen?"

Leng Pogong's face flushed, looking towards Leng Feihua.

"Huh!"

Hearing what Leng Pogong said, Leng Feifan also had a short breath, his face flushed.

These three new types of pill, not only in the Dawei dynasty, can be called against the sky, in the entire hundred dynasties, I am afraid that there is no elixir power that can conduct a head-on confrontation.

Once you enter other dynasties, you will inevitably subvert the alchemy forces of other dynasties with a destructive attitude.

At that time, their Leng family will become one of the most terrifying forces in the entire land of hundreds of dynasties. In a word, they can determine the life and death of many dynasties.

Leng Feihua just thought about it, his hard work boiled and he couldn't calm down.

"Old ancestor, disciple understand." Turning around excitedly, Leng Feihua quickly arranged to go. At this time, he could already imagine the extremely bright future of the Leng Family.

## [Chapter 790: On sale](#)

When the Leng family was frantically refining a new type of pill, ready to destroy the pill pavilion in one fell swoop.

Dan Court.

The black slaves who were arranged to do errands finally returned to the imperial city.

"There is little dust, here is the real stone obtained from the Leng family that sold hundreds of thousands of catties of Phoenix Bluegrass. You can check it. There are more than 2.7 million middle-grade real stones."

When the \*\*\*\* handed the storage ring, the whole person was still a little confused.

Born from the original family, he can be regarded as someone who has seen the world, but this time, he was shocked by Qin Chen.

Nearly three million middle-grade real stones!

What is this number?

I am afraid that the Leng family has accumulated more than one-third of the wealth accumulated over the years!

Leng's family, as a top family that has been in business for hundreds of years, monopolized 70% to 80% of the sales of the medicine of the Dawei Dynasty. It can be said to be a profiteering industry.

But after so many years of accumulation, he has so much wealth.

However, there is little dust, and after flipping his hands, he has obtained nearly two million middle-grade real stones in profits, which is more than a good description.

With a snap of his fingers, the worth of a few giants has been earned.

It's just against the sky!

"There is little dust, our Dange has also made a profit this time, haha, the original investment has at least doubled." Zhuo Qingfeng was also excited.

"However, the price of Phoenix Langrass in the market now seems to be on a downward trend, and it is not easy to sell."

Zhuo Qingfeng could clearly feel that with the secret shipment of Dange, the price of Phoenix Lancao still fluctuated, not as firm as it had been before.

"It's almost the same indeed." Qin Chen smiled slightly.

So far, Leng's family has almost consumed at least one million catties of Phoenix Langrass. The demand for Phoenix Langrass is not so great, and the Leng's savings are almost consumed.

In addition, Dan Ge has been secretly releasing goods.

The two acquisitions that were the most crazy all of a sudden slowed down their acquisitions, and prices will naturally fall slowly.

It can be expected that the peak of the price of Phoenix Bluegrass has passed, and the next price will fall further.

"How much Phoenix Lancao does Dan Ge still have?"

"About four to five hundred thousand catties." Zhuo Qingfeng estimated.

"It's almost done, sell some more, you can stop selling." Qin Chen thought for a while.

"Stop selling?" Zhuo Qingfeng was stunned, "There is little dust. According to the current market price, these phoenix orchids are worth nearly a million middle-grade real stones. They are left in our hands, but they are completely broken!" "We have made almost all of them. Moreover, the Leng family may not be able to eat it anymore. If it is released at once, the price of Phoenix Lancao will definitely plummet. Then the Leng family may notice and make them proud for a while. What we have to do now is to step up the refining Three brand new elixirs,

Waiting for Leng's shot. "

Qin Chen laughed: "As for the remaining hundreds of thousands of catties of Phoenix Langrass, keep it first, I have my own magical use."

Qin Chen sneered.

In the next few days, the entire imperial city gradually calmed down.

But everyone's eyes were on the pill pavilion, because the pill pavilion sold no more than 10,000 new pills on the first day.

This makes many warriors who are waiting to buy new medicines anxious.

Moreover, Leng's and Dange's efforts to purchase Phoenix Lancao have also been reduced.

This made many families who had already stocked a lot of Phoenix Bluegrass in their hands nervous.

Leng Pogong and Leng Feifan, the people of the Leng family, are also a little bit confused, and don't know what Dan Ge wants to do.

"Is there any problem with this new type of pill? It's not very similar, otherwise Dan Ge would not continue to buy Phoenix Lancao before."

"Let the horse soldiers find out."

Although Leng's family didn't know exactly what medicine was sold in Dange Gourd, it was a good thing for Leng's family.

As long as Dange does not sell new pill a day, then Leng Jia will have one more day to prepare.

In the Dan Pavilion.

These days Ma Bing was arranged by Zhuo Qingfeng to deal with Fenglancao. With a bunch of people under his command, he was busy handling a lot of Fenglancao every day.

As the dignified elder of Dange, he was arranged to do something without technical content, so he was naturally extremely dissatisfied.

"Hmph, wait, you'll be out of luck when Leng's releases the new pill."

Ma Bing thought of mockingly in his heart, and sneered at the corner of his mouth.

These idiots, Dan Ge wouldn't even dream of thinking that the formula of the new pill had been leaked out by him.

The Leng family has already said that after this order, he can get at least a million middle-grade real stones in return. In addition, the Leng family will have an elder position reserved for him, and in the future, he will find ways to help him Push to the position of Dan Pavilion Pavilion Master.

Just thinking about it, Ma Bing was overwhelmed and excited about his decision to take refuge in the Leng family.

After a week.

Leng's family finally stocked up enough pill.

"Boom!"

In the downtown area of the imperial city, the most prosperous area, in the Lengjia Dan Pavilion that had been deserted for a few days, a deafening roar suddenly came that morning.

The Leng family is the top family in the imperial city.

Therefore, the square market they own is also the most prosperous place in the entire trading center with the best geographical location. This roar immediately attracted countless people in the downtown area and watched it.

I saw at the entrance of Lengjia Dange. I don't know when a piece of red cloth had been hung up, and there was even a small booth at the entrance. The host of the Leng family, Leng Feifan, already stood on the booth and said with a smile on his face: "Everyone, take a walk and take a look. It's rare that so many relatives and friends are present today. Take this opportunity, our Leng family these days, The strongly upgraded storefront will carry out discounts and big bargains today, and there will be new upgrades

Class-level medicinal pills are sold. Don't miss it if you pass by. "

what? Leng's family also has a new pill for sale?

The people in the market were stunned.

Since Dan Pavilion sold three brand-new medicines for more than a week, not many people in the entire imperial city paid attention to Leng's shop.

After all, the price of the three new types of pill of Dan Pavilion is lower than Leng's Blood Coagulation Pill, Zhenli Pill and Chongyuan Pill, but in terms of efficacy, it is even more than 30% stronger.

In this case, the idiot will go to Leng's shop to buy the pill.

So even these days, the pill pavilion did not continue to sell new types of pill, but the people in the entire imperial city still waited hard, even if there is no pill, no one wants to buy it at Lengjia.

But now, Lengjia is also about to launch new models, which instantly excites everyone.

The Leng family was able to put on this posture, obviously very confident in himself, the pill sold at least can not be worse than the Dange, there will be a market, which makes everyone can not help but excited and curious.

"This Leng family is actually still alive."

The Dange shop opposite was located, and the movement here also attracted several Dange shop stewards, with a sneer drawn out of the corners of their mouths.

As shopkeepers and buddies of the shop, they are not at the highest level of Dan Pavilion, and naturally they don't know what Dan Pavilion is doing these days. It's just that in their opinion, the Leng family would never have introduced a pill that could surpass their new pill.
