

## Valkyrie 791

### [Chapter 791: Bite back](#)

So my heart is extremely disdainful.

But disdain to disdain, they quickly passed the news back to Dan Ge.

In the Dan Pavilion.

"Leng Jia is finally going to sell a new type of pill."

Qin Chen stood up for the first time after receiving the news, with excitement in his eyes.

He had waited for this day for a long time, but he didn't expect the Leng family to be able to bear it. He waited for more than a week before it went on sale.

These days, I am afraid that the Leng Family has refined how many new types of pill, and he must have come prepared.

"There is little dust, now that Leng's new pill is on sale, can our brand-new pill be launched?"

Excitement was also on Zhuo Qingfeng's face. After learning the news of Leng Jia's new type of pill, there was no panic at all.

"Not in a hurry." Qin Chen smiled slightly: "Let the Leng family be proud for a moment."

It was exactly what Qin Chen had expected. At the door of Leng's shop at this moment, Leng Feihua was extremely proud. "Everyone, my Leng family has always been the number one pill power in the imperial city, and it has been for many years. A few days ago, because of some small forces plotting, our Leng family suffered a huge loss. I believe you should have heard of it. Fortunately, our Leng family responded urgently and finally managed to overcome this difficulty

Past. "

Leng Feifei's family is full of energy and spirit.

"Today, here, this Patriarch has an important thing to tell you..." At this point, Leng Feifan paused, and said angrily: "I believe everyone should know that Dange sold three new types of medicine a few days ago. Let's not lie to you, these three new types of medicines are actually the medicines developed by my Leng family. Who knows the medicine, and I don't know where I got the medicine.

However, before our Lengjia, three new types of medicine were released! "

Leng Feifan said this with a look of anger.

"What? The new pill that Dange sold before was actually developed by Lengjia?"

As soon as this remark came out, the whole audience became a sensation, and everyone's eyes were incredulous.

This is big news!

But there are also people who are skeptical.

According to the gossip, Phoenix Lancao is the main material for refining the three kinds of pill. If it was really developed by the Leng family, the Leng family would have already purchased the Phoenix Lancao in advance. How could it have been waiting until the Dan Pavilion had almost acquired it? Before the acquisition?

What's more, if the several new types of medicinal herbs were developed by Leng's family first, why was it that the Pills were released first, but Leng's family hasn't moved? "You may be wondering, why didn't our Lengjia sell those three new types of pill? That's because our Lengjia found that the three new types of pill, there are still defects, so we didn't rush into the market, the purpose is to let that The three medicines are more perfect, and they are bigger for the warriors of my dynasty.

Benefits. "

"Not long ago, our Leng family finally developed the most perfect prescription."

"Yes, that's right! Today, our Lengjia will grandly launch these three new types of pills, namely the new blood clotting pills, the new Zhenli pills and the new Chongyuan pills."

"Furthermore, the price of our Lengjia's three medicinal pills is only 10% off the three medicinal pills of Pill Pavilion, and the efficacy will be better."

Leng Feifan said loudly.

"What? It's cheaper and more effective than Dange's pill?"

"is this real?"

The crowd froze in an instant.

These days, Dan Ge has not been selling new types of pills, and the market is already hungry.

When I heard that Leng's family could provide better medicinal pills at cheaper prices, the whole crowd went crazy.

However, despite the excitement, many people were still skeptical before seeing the product. Leng Feifa smiled slightly: "Everyone's mood, the old man can naturally understand, the so-called hearing is not, seeing is believing, today, we will come up with 30 three kinds of medicinal pills for free trial. And, in order to win everyone's trust, The crowd will choose from the scene. Of course, the premise is that you must buy

I bought the pill before Dange. "

"what?"

"Take out thirty pills for free to test?"

"It deserves to be the first alchemy power of the dynasty, it really is a big deal!"

"Could it be that these three new types of pills were really developed by the Leng family, otherwise how could the other party have such courage?"

"It's a pity that I didn't buy the three medicines from the Pill Pavilion before, so I am not eligible to try the medicine for free!"

The crowd suddenly seemed like a pan exploded, and suddenly went crazy.

"I!"

"I bought Dange's new type of pill."

"And I."

Thousands of warriors emerged from the crowd in an instant. Each of these warriors was extremely excited while holding the new medicine bottle before the Dan Pavilion in their hands.

Last time, Pill Pavilion only sold 10,000 pills in total.

Therefore, the number of people who bought the new type of pill is actually not many, and many of them are warriors who happen to buy things in the market.

After seeing the power of the new type of pill, they all became enthusiastic. They wandered around the pill shop every day, and even asked their buddies several times a day when they would sell the new pill.

So when Leng Feifei made this request, at least a thousand people emerged in an instant.

Leng Feifei didn't expect the effect to be so good. With a big wave of his hand, he quickly selected thirty people at random.

Immediately after the thirty people came to power, a fellow from the Leng family brought up thirty pills, one for each.

"Really a new type of pill..."

Seeing the pill in their hands, the eyes of these people instantly brightened.

They are all users who have purchased the new pill of Dange, and naturally know the appearance and shape of the new pill.

The pill in his hand was almost exactly the same as the one bought in the Dan Pavilion before, and it looked more perfect.

One by one, they swallowed directly under everyone's eyes.

Then these thirty people ignored the eyes of everyone, sitting cross-legged directly, refining the pill.

In a short while, the pill that entered the abdomen was refined and poured into their limbs, a hundred corpses, and thirty people, and at the same time, a glowing light appeared.

"It's so strong."

"I have also taken ordinary Zhenli Pills. The Qi of this Zhenli Pill is indeed much stronger than before."

"Could it be that Leng's new pill is really that amazing?"

Seeing the powerful aura exuding from these thirty people, the voices of the onlookers were also increasing, and all of them were surprised.

After a stick of incense, these thirty people stopped practicing.

"It's so powerful, it's indeed one point stronger than Dange's new-type pill."

"It's incredible. I originally thought that the new type of pill before Dange was already the strongest Zenith Pill on the market. I didn't expect that the Zenith Pill now launched by Leng Jia would be even more terrifying.

"Although it's only improved a little, the effect feels too obvious." These thirty-odd people, with flushing complexions, were going crazy.

### [Chapter 792: Conscience family](#)

How did they know that in order to surpass the pill of Dange in effect...

These 30 medicinal herbs are refined from Lengjia's finest medicinal materials, and are specially refined by top refining masters. Although they are exactly the same as other medicinal herbs, the master's technique can make these medicinal herbs effective Medicinal properties, the most perfect play.

This has caused such an effect.

However, everyone in the audience did not know the specifics of the matter. They only saw the 30 warriors who had taken the 30 pills, all of them flushed, and they almost couldn't help themselves with excitement.

"The Leng family deserves to be the first alchemy force of our Dawei Dynasty."

"This time the Leng family will probably post it."

"It's no wonder that after the pill pavilion released a new type of pill, there has been no movement. It turns out that the previous new pill has defects."

"It's really a family of conscience."

For a time, all kinds of flattering sounds continued. Leng Feihua showed a complacent look on his face, and said proudly: "Everyone has seen our test just now and understands the characteristics of our Leng Family's new pill. Today, we are not trying to break the despicable behavior of Pill Pavilion. Down with Dan Pavilion, just to benefit the brothers and sisters of the Dawei Dynasty

Sisters. "Speaking of this, Leng Feihua's face showed heartache: "Our Leng family knows that every year because of accidents, because of cultivation bases, in the process of hunting blood beasts, too many warriors have fallen, and you are even going there. In other dynasties, they will be affected by warriors from other dynasties because of their cultivation.

humiliation. "

"As the representative of the Dawei dynasty, how can our Leng family watch such things happen without being indifferent? So for so many years, our Leng family has been committed to the creation of new types of pill. Today, these three new types of pill The medicine was finally successfully developed."

"From today, your safety will be guaranteed, and you will no longer be humiliated by others."

Leng Feihua spoke of excitement, waved his hand, passionate.

"it is good."

"Patriarch Leng is good."

"This is the conscience family of our Dawei Dynasty."

The crowd exploded, and the several supporters that had been arranged a long time ago even loudly applauded, pushing the momentum to the extreme.

Looking at the crazy crowd below, Leng Feifei's eyes flashed triumphantly. What they wanted from the Leng family was this kind of reputation, a reputation that would allow the Leng family to flourish in the Dawei Dynasty.

When all the warriors were using their Leng family medicine, their Leng family would be the uncrowned king of the Dawei Dynasty, and even the royal family could not easily move them.

opposite.

The stewards and the guys in Dange's shop were all overwhelmed, looking at the location of Leng's shop in disbelief.

The greater the Leng family's momentum, the more uncomfortable they are.

"Okay, not much gossip. From now on, three new types of medicine will be officially launched!"

After Leng Feifan finished speaking, he waved his hand abruptly and crackled. The cold guy behind had long ignited the salute. After a roar, the Lengjia Pharmacy officially opened.

Wow!

Almost all the warriors squeezed past.

"I want 20 special effects blood coagulation pills, 20 special effects real power pills, and 10 special effects Chongyuan pills!"

"I want all fifty!"

"I want a hundred..."

The hunger and thirst market caused by the suspension of Dange's sale, like a barrel of dynamite, broke out in an instant.

In order to prevent Leng's family from selling like Dange, they stopped selling after only one day. Almost every warrior bought the entire amount that he could buy.

For a while, there was no place to stand at the entrance of Leng's shop. Everyone squeezed into the shop frantically for fear that they could not buy the medicine.

"Don't squeeze, don't squeeze. Our Lengjia has enough stock today to ensure that everyone can buy enough pills. Please rest assured."

Leng Feihua looked at the crowded scene and shouted loudly, but he was so happy in his heart, he took a breath, and the smile on his face almost bloomed.

Cool!

Very cool!

From today onwards, Leng's family will enter a period of rapid development. From now on, the entire market of medicine pills in the Dawei Dynasty will be controlled by his Leng's.

Soon, after their Leng Family suppressed the Dan Pavilion and stabilized in the Dawei Dynasty, they would even march into the entire Hundred Dynasties and become the famous top alchemy power in the entire Hundred Dynasties.

"President Leng, take a step to speak."

"Master Leng, congratulations, haha, I knew that Leng's house would not be broken."

"Patriarch Leng, on behalf of the Wu family, I am going to buy 10,000 new-type medicinal pills from your Leng family. How about the face of Patriarch Leng?"

"Master Leng, I still have a lot of phoenix orchids here. I am willing to sell it to the Leng family at a low price. I only hope that the Leng family can give some shares of the new type of medicine. How about?"

In addition to those warriors, the senior officials of other major families in the trading market also stepped up, greeted enthusiastically and coldly with a smile on their faces.

Originally, many families were still waiting to see the conflict between the Leng Family and Dan Pavilion.

But as soon as today's hand is released, almost all families know that the wind in the imperial city is about to change.

After all, the Leng family originally had the absolute advantage of the dynasty's pill power. Now that these three new types of pill are released, the Leng family may even rule all the pill business of the entire dynasty.

At that time, any force that wants to buy a large amount of medicine will need to go through the Leng Family.

What a huge market is this?

Enough to make Leng Jia become the overlord of the entire Dawei Dynasty.

But the facts are just as Leng's expectation. In just half a day's work, the 100,000 new-type pill that Leng's originally collected has sold nearly 50,000.

With such a sales volume, even Leng Feifan himself was shocked.

In other words, in just half a day, their Leng Family had already earned all the cost of refining these 100,000 pills.

The next thing is pure profit.

That's not counting, today's half day can only be regarded as a warm-up.

The pill is a consumable commodity. The warriors who have bought a large amount of pill today will inevitably improve their cultivation level once they take the pill. By then, more warriors will go to the mountains to hunt blood beasts and find elixir. After the sale, it will bring new wealth.

If things go on like this, profits from all walks of life in the entire Dawei dynasty will gather in their Leng family, making them a well-deserved financial hegemon and controlling the economic lifeline of the dynasty.

"Huh!"

Just thinking about it, Leng Feihua felt extremely excited.

The only thing that made him regret was that it had been a long time since their Lengjia sold a new type of pill, but Dan Ge had no reaction at all, which gave him no chance to get a face.

"It shouldn't? It stands to reason that our Leng family's new medicine pill was stolen from the pill. When Zhuo Qingfeng and the others got the news, there would be no reaction at all, right?" Leng Feihua couldn't understand why.

#### [Chapter 793: Liu Xuanrui's puzzle](#)

Since he didn't understand it, Leng Feifan didn't think deeply.

As long as their new pill is on sale, Dan Ge has no choice but to take them.

"In this way, you guys, go to the family that has Phoenix Lancao in your hands, and buy the remaining Phoenix Lancao at a low price."

Leng Feifan called several elders of Leng's family and sneered, "If they think the price is low and are unwilling to sell, then tell them that they will never want to buy any medicine in their Leng's house in the future."

Phoenix Lancao is an essential elixir for refining a new type of pill.

Originally Leng Feifei thought that the family had bought millions of catties of Phoenix Bluegrass, which was enough for a while.

But after half a day's sale today, he realized that nearly one million catties of Phoenix Bluegrass is still too little.

This is only in the imperial city.

Once the three new types of medicinal drugs are sent to the entire Dawei Dynasty through channels, the daily sales volume will be an unprecedented astronomical number.

So what the Leng family needs most is to hoard Phoenix Bluegrass, the more the better.

"Yes!"

Those elders also flushed with excitement, and immediately left with the huge profits they had just regained.

Looking at the lively scene, Leng Feifan's mouth showed a smug smile.

After such a long time, their Leng Family's general situation is considered complete, and now, even if the pill pavilion re-sells the new pill, it will not help.

Because Leng Feihua was confident that with their Leng family's medicine refining technology, the cost could be lower than Dan Ge's. In this way, no matter what Dan Ge used, it was impossible to compete with their Leng Family.

The imperial city, in the imperial palace.

"boom!"

Upon receiving the news, Liu Xuanrui stood up suddenly, his face pale and stunned.

"Did you hear me right? The Leng family released three new types of pill today? And said that the new type of pill before the pill pavilion was actually stolen from their Leng family?" Liu Xuanrui had an incredible look on his face. "Yes, your majesty, now the entire imperial city is crazy. The three new types of pill sold by Leng's family are lower in price than the three previously sold pill, but in terms of efficacy, they are even better. Well, according to statistics, in just one morning, Lengjia sold at least tens of thousands of new

Type pill, now the entire dynasty has no elixir power that can contend with the Leng Family, and even lacks the strength to fight. "General Manager Huang Huan knelt on the ground, leaning over and said.

"Then Dan Ge didn't move at all?"

"No, the minion sent someone to check it out. All the shops in Dange were deserted and there was no movement at all."

"What the \*\*\*\* is Dan Ge doing?"

Liu Xuanrui furrowed his brows deeply, his face was worried, and he couldn't help sighing.

What he fears most is to see forces like the Leng Family rise up.

This kind of power, like a malignant tumor, grows on the body of the Dawei Dynasty, constantly drawing on the blood of the Dynasty and strengthening itself.

If they are allowed to develop, then the entire dynasty will be in danger, and their Liu family may even be emptied.

but.

He didn't have enough reason, enough strength to take action against Leng Family.

Such a huge force does not have enough excuses. Once it arbitrarily moves the whole body, the whole dynasty will be plunged into chaos.

And once the surrounding dynasties such as Da Zhou learned about the invasion, it is very likely that the entire dynasty will be destroyed.

Unless there is enough strength, it can deter all the forces of the entire dynasty and quickly suppress the Leng Family.

But the ancestors...

"Ugh!"

With a deep sigh, Liu Xuanrui's face was full of helplessness.

Could it be that their Liu family can only stand by and watch, to no avail?

"Your Majesty, Dan Ge has a letter to submit to your Majesty."

At this moment, an anxious voice came.

At the same time, a little \*\*\*\* handed a letter up.

"Dange's letter?"

Liu Xuanrui frowned, what the \*\*\*\* was Dan Ge doing? Can't help but open the letter.

"Ok?!"

Liu Xuanrui's eyes suddenly rounded.

In the Dan Pavilion.

"Almost done, let's go!"

An Ran sat for a whole morning, and Qin Chen, who kept receiving all kinds of information, finally stood up at this time.

"The Leng family has put on such a big battle. If you don't go to the scene, let them down too much."

Qin Chen said with a sneer, and walked out of the Pill Pavilion first.

Behind him, Zhuo Qingfeng and the others showed excitement, and each followed Qin Chen and walked out of the Dan Pavilion.

Imperial City Center.

Trading market, Dange shop.

"Pavilion Master, you are finally here, if you don't come, we don't know what to do."

Being able to serve as the steward of the Dange flagship store, in the Dange, naturally, he is not a nameless person, but at this time, these stewards all cried after seeing Zhuo Qingfeng.

Aggrieved!

It's too frustrated.

For most of the day, Leng's shops were in an endless stream, but Dange's shop was located in a very different way.

The key is that Leng's family has been sending people to Dange's shop to show off their power, and they are so angry that they can't wait to copy the bench.

"Don't worry, since the old man and Young Chen are here, they are all fine."

With a big wave of his hand, Zhuo Qingfeng said proudly: "Put all the brand-new pills of our Pill Pavilion on the counter."

Without his instructions at all, the people below have already taken the initiative to get busy, suffocating their stomachs long ago, their hands and feet are very quick.

With only half a pillar of incense, the entire Dange shop has been completely renewed.

"Opening!"

Zhuo Qingfeng spoke proudly and said loudly.

In front of Leng's shop.

Leng Feifei stood at the door still excited, unable to suppress his inner excitement.

As of statistics, more than 60,000 elixirs have been sold for one hundred thousand pills.

Although the sales speed slowed down significantly in the afternoon, it is expected that the total sales will reach at least 80,000 pieces by night.

This is just some scattered sales.

In addition, the major families of the imperial city have also placed many large orders and initially paid a deposit.

For most of the day alone, the family treasury that Leng's family had almost emptied due to the increase in price to purchase Phoenix Lancao has been replenishing again, even more so than before.

This is only less than a day.

And after this short period of layout, the Leng family has also bought the Phoenix Lancao secretly held by some other families in the imperial city at a very low price.

Today, the stock of Lengjia Fenglancao is more than one million catties. Once all the pills are produced, the profits will be enough to buy the original Lengjia.

readily!

This excitement of turning over in one fell swoop made Leng Feihua more refreshing than ever.

The excitement is almost climax!

Boom!

But at this moment, a loud roar suddenly sounded.

The Dange shop, which had been closed on the opposite side of the trading market, suddenly opened in an uproar.

when! The sound of a huge gong was instantly transmitted to every corner of the trading market, attracting all the warriors crowded in front of the Leng's shop.

#### [Chapter 794: Who want to fool](#)

"what happened?"

"what happened?"

"Dange's shop is also open?"

The crowd was restless, and they turned their heads, and saw that the door of the Dange shop opened wide, and Zhuo Qingfeng and a group of people walked out proudly.

"Everyone, walk around and take a look. It's rare for so many brothers and sisters to be present today. Taking this opportunity, our Dange fully upgraded store is also grandly opened today."

Zhuo Qingfeng shouted loudly.

With his half-step Wu Wang peak cultivation base, in an instant, the entire trading market resonated with his loud voice.

"What?" The trading market was in an uproar.

Since Dange sold three new types of pill more than a week ago, a direct sale disappeared in the following days.

Unexpectedly, today Lengjia just started selling a new type of pill, Dan Pavilion will open immediately, which caused everyone to talk about it.

"It seems that Pill Pavilion has received the news that Leng's family is selling pills, so I can't help it."

"You said, which force researched this new type of pill?"

"Follow him, no matter who researched it, as long as it is cheap and easy to use, it's ok. What we want is a high-quality and cheap pill, so what else do you do?"

"That's what I said, let me say, this pill pavilion is also made by myself. They obviously sold the three new types of pill first, but they didn't sell it after one day. Isn't this just killing yourself? We have bought a lot at Leng's house. Where can I still find money to buy from their Dange?"

"It seems that Dan Pavilion is not working this time."

The crowd looked at Dan Ge and couldn't help shaking their heads.

As ordinary warriors, they don't feel much about Pill Pavilion or Leng Family. Their only hope is to find a good and cheap shop.

"This old man Zhuo, finally can't help it. Unfortunately, the entire new-type pill market has been occupied by my Leng family. Now that they want to sell it, I am afraid it will be difficult."

Leng Feifan's mouth showed a smug sneer. In the face of many doubts, Zhuo Qingfeng did not have any worries on his face. Instead, he smiled and said: "Everyone, the new type of medicine that my Dange is

selling today is not the three previously sold. It's an improved product on top of the three classic medicinal pills, in order to distinguish the original

There are three kinds of medicinal medicines, which are now named 'Special Effect Pill for Blood Coagulation', 'Special Effect Real Power Pill', and 'Special Effect Chongyuan Pill'."

Is it different from the previous three elixirs?

Special effect coagulation pills? Special effects Zhenli Dan? Special effects Chongyuan Dan?

As soon as he said this, the entire market was stunned.

What the \*\*\*\* is this pill pavilion, how come three kinds of special effect pill have been developed?

Leng Feifan frowned and felt something wrong.

Just listen to Zhuo Qingfeng proudly said: "The price of these three new special-effect pills sold by our Dange will be 20% lower than the three new-type pills sold by Lengjia in the morning, but the effect is It's 1.5 times better."

"The sale of the pill this time is a revolution in the pill market of the Land of Hundred Dynasties by our pill, a reshuffle, and a historic leap."

Zhuo Qingfeng's loud voice echoed above this square, deeply hitting the hearts of everyone on the court.

The price is 20% lower, but the effect is 1.5 times better?

This.....

For an instant, everyone was sluggish, and there was only one thought left in his mind...

This Nima, Dan Ge is bragging right?

According to Zhuo Qingfeng's description, everyone can no longer imagine the efficacy of these three special effects, 1.5 times, what is this concept? And it is on the basis of Leng's new-type pill.

In other words, the wounds that were cured by ordinary blood coagulation pills in one day can be cured in half a day!

This is simply an impossible medicine.

Dan Ge, are you sure you are joking? In order to fight against the Leng family, are you tricking everyone on purpose?

"I know that you all have doubts in your heart, but I can tell you that our new special effect coagulation pill, crushed and externally applied, can stop the wound immediately and heal at a very fast speed. It can be taken one or two internally. Within hours, heal internal injuries."

"Of course, depending on the severity of the injury, the speed of healing is different, but even for those with broken tendons and fractures, as long as you take my Dange this pill, it will take half a day or as long as one or two days, and you will be able to recover. , Walking like flying."

Every word of Zhuo Qingfeng, like that Hong Zhong Dalu, struck deeply in everyone's heart, making it hard for them to recover.

God, if you really follow what Zhuo Qingfeng said, then the effect of this special effect blood clotting pill is indeed more than twice that of the original blood clotting pill on the market, and even, this is still to be said on the conservative side.

Even if Leng's new pill is injured, it will take a day to recover after taking it.

But the other party, it only takes half a day. Between the two, they can't speak the same day.

This is not just a question of half a day, but a revolutionary breakthrough.

think about it.

In the same death duel between two lives, all are injured. One can recover after a long time, and the other can recover in a while. What will the outcome be?

"Huh, Pavilion Master Zhuo, you are blowing such a big cowhide. Your Excellency is also the Pavilion Master of the Pill Pavilion anyway, a figure representing the orthodox of Pill Dao, who actually said such things to deceive everyone, who do you want to fool?"

At this moment, a cold snort sounded, and Leng Feifan led a group of Leng elders finally couldn't help but stepped forward with a sneer.

"Your Pill Pavilion, stealing my Leng Family's pill is not counted, and now you come up with such deceptive methods to deceive everyone. I really am a warrior of my powerful dynasty. Is it so easy to deceive?"

Leng Feifan said angrily.

From his insight, he couldn't imagine that there would be a blood coagulation pill with this kind of effect in the world. If it was so, then it would not be a blood coagulation pill at all.

In his opinion, Dan Ge did this just to disgust his Leng family and prevent the people of the imperial city from buying their Leng family's medicine.

When Leng Feifan said so, everyone on the court also awakened.

Yeah, such a pill? Can Dan Ge really be developed?

Leng Feihua's words, although not pleasant to listen to, can suddenly wake up many warriors, who wouldn't speak big words? But there are always a few who have real skills.

"Haha." Zhuo Qingfeng's eyes were cold, and he looked at Leng Feihua with a smile, and said: "Since Patriarch Leng has doubts about the medicine in my pill pavilion, I would like to send someone to personally verify it and see my pill pavilion. Is his medicine pill real or fake? I wonder if Patriarch Leng dares?"

"What's not dare to do?" Leng Feifei sneered, and said to Leng Ming on the side: "Leng Ming, you go up and verify the pill."

"Yes, Patriarch."

Leng Ming smiled proudly and shook his figure before he came to Zhuo Qingfeng and sneered: "Pavilion Master Zhuo, you said that your pill pavilion has such a great effect. If you have the ability, you can use it to verify it." The housekeeper, Leng Ming, has certain accomplishments in elixir, and doesn't believe there will be such an elixir.

### [Chapter 795: Serious Problem](#)

"Okay, please pay attention."

Huh!

Suddenly a war knife appeared in Zhuo Qingfeng's hand, slashing to Leng Ming's arm abruptly.

Although Leng Ming was a Wu Zun in the early stage of the sixth stage, Zhuo Qingfeng was a half-step Wu Wang peak powerhouse. Before he could react, he snorted, and the blood burst, and there was already a nearly ten centimeter long line on Leng Ming's hand. The wound even cut a vein, and blood kept oozing out.

"What a big wound."

"Pavilion Master Zhuo is really ruthless."

"The veins are cut off. For normal injuries, it will take at least half a day to recover after taking healing pills, right?"

The crowd talked a lot.

Under the eyes of everyone, Zhuo Qingfeng directly took out a blood clotting pill, "Everyone is optimistic, this is our special effect blood clotting pill."

Everyone looked around, staring blankly.

The blood coagulation pills in Zhuo Qingfeng's hands are indeed different from the new type of blood coagulation pills sold before. On the contrary, they are very similar to the ordinary blood coagulation pills on the market. Except that they are covered with Dan patterns and appear extremely noble, almost Can't see the difference.

"Yes, this is indeed a blood coagulation pill, and it is a fifth-grade." Leng Ming looked at it carefully for a long time, and finally nodded.

Zhuo Qingfeng didn't talk nonsense, and directly crushed the blood clotting pill and sprinkled the powder on the cold wound. An incredible scene happened to everyone. After the powder was spilled, the wound on Leng Ming's arm stopped bleeding in the blink of an eye. At the same time, the long and narrow wound healed at a speed visible to the naked eye, with only a dozen breaths, cold There was a blood scab on Ming's wound

.

"Lengming, you can verify the effect now." Zhuo Qingfeng said indifferently.

Leng Ming frowned and moved his true power gently.

Hum!

The real power in the body flowed through the arm, and there was no place to adapt.

"Really...really better?"

Leng Ming was shocked instantly.

As the Leng family manager, it is the first time that he has seen such a terrifying curative effect.

This blood coagulation Dan Mingming has only five grades, and its curative effect is almost the same as some six grade healing pills.

"Magic medicine, is it a magic medicine?"

"These effects are indeed much stronger than Leng's new blood clotting pills."

"There is such an awesome blood clotting pill in this world? I am not dizzy, am I."

"Oh my God, I just bought 30 Leng's new blood clotting pills at one time. It's over, I've lost, and now I've lost a lot."

The crowd exploded in an instant, all went crazy.

Many people regretted the intestines after seeing the effect of Dange special effect coagulation pills.

Leng Feifan and others were also shocked at the location of the Leng family's high-level.

"Patriarch, where did Pill Pavilion come from such a powerful blood clotting pill?"

"It's even stronger than what our Leng family refines?"

"What exactly is going on?"

Many senior members of the Leng family were dumbfounded and panicked.

If the pill really developed a pill that was more terrifying than the original new type of blood clotting pill, then who would buy pill in their cold home in the future?

Is it that Tian Dan Pavilion has not released a new type of blood clotting pill these days, is it developing this new type of pill?

This is too deep.

However, in just half a month, Dan Ge unexpectedly developed six pill prescriptions that subverted the previous pill. Is this possible?

"There is definitely something wrong with it."

Leng Feifan's face was ugly, and his heart was also anxious.

"Everyone, apart from issuing a brand-new pill, there is actually another important thing to announce today. The importance of this matter is even higher than the special effect pill sold by our pill."

At this moment, Zhuo Qingfeng's face suddenly became serious, and he said condensedly to everyone.

The wind of his words suddenly turned, so that everyone was taken aback, and they looked over attentively.

What is it that made Zhuo Qingfeng, the owner of the Pill Pavilion, look so serious, even saying that it is more important than the sale of these three special-effect pills?

"Everyone, you should all know about our pill. More than a week ago, three new types of pill were sold, right?" Zhuo Qingfeng said solemnly.

Everyone nodded.

Who doesn't know this!

"And our Dange stopped the sale of the new pill after only one day on sale. I think you must be very puzzled."

Nonsense, can you not doubt it, can you even have the heart that smashed Dan Pavilion?

Many people couldn't help muttering in their hearts, but after seeing Zhuo Qingfeng's serious expression, they didn't make a sound. "I know that you must be very puzzled in your heart, and even curse our Dange every day, but you have ever known that the reason why our Dange stopped selling was not for the price, nor was it a deliberate hunger for making money. Sales, but found a very serious problem.

"

Zhuo Qingfeng's tone was heavy and full of grief, "That is, the three new types of pills developed by our Dange have a huge defect."

"This defect is not visible at the beginning, but taking these three new types of pills for a long time will have a huge impact on the body of a warrior, and even destroy a warrior's life."

Having said this, Zhuo Qingfeng's tone suddenly became extremely heavy.

The crowd was startled.

The previous new pill has serious flaws, will it even ruin the life of a warrior?

The crowd became agitated immediately.

You know, according to Leng's statement, Dange's so-called new pill was stolen from their Leng's family, and it was flawed.

The reason why the Lengjia was released later was to repair the defects of the pill. It was not sold until the defects were repaired.

So, did Dan Ge really steal Leng's pill?

It's just that, I learned from Zhuo Qingfeng Pavilion's master that Dan Pavilion's new pill was developed by Dan Pavilion itself. What's going on?

For a while, everyone was dumbfounded, not knowing who was right and who was wrong, but their hearts were inexplicably overshadowed.

"Pavilion Master Zhuo, Leng Jia said that this new type of pill was developed by them, and your new type of pill was the result of stealing Leng's results. Is this true?"

"What are the shortcomings of this new type of pill? I have bought your new type of pill before, but I don't feel anything. Will it still have an impact?"

"Yeah, what is the flaw?"

Seeing Zhuo Qingfeng's expression so dignified, many people who had bought Pill Pavilion medicines suddenly panicked and panicked in their hearts.

Aside, Leng's heart sank suddenly, and he couldn't help but panic.

Because they knew very well that the prescriptions for the new pill sold by their Lengjia were actually stolen from the pill.

If Pill Pavilion's so-called new type of medicine is really flawed, then... Leng's heart is instantly cold and his face pale.

#### [Chapter 796: Panic](#)

"You guys, don't worry, the new pill that our Dange previously sold will have a huge impact on the blood of the warrior, but don't worry, fortunately, our Dange only sold 10,000 pill."

"And taking this new type of pill in a small amount will not cause any problems, only a large amount, such as taking more than five or six martial artists, will have an irreversible effect on the blood."

Zhuo Qingfeng said solemnly.

Affect the bloodline? And it must be five or six capsules or more to have a permanent effect?

Everyone felt relieved.

When the Dange was on sale, there was a huge limit on the quantity, a total of 10,000 capsules, but everyone got three or four capsules at most, which would not cause excessive consumption.

"Hush, it's fortunate that I didn't buy the new pill of Dange, which actually affected the blood."

"No wonder Dan Ge stopped selling."

"It seems that Dan Ge is really conscientious. If the general drugstore sells bad products, if they are not discovered? Will they speak out?"

"He doesn't dare to say it. Once there is a problem, if you complain to the higher-level Dan Pavilion, even Pavilion Master Zhuo can't walk around."

"makes sense."

On the square, the crowd discussed that those warriors who hadn't bought the new pill medicinal pill were all relieved.

But the warrior who bought the new type of pill has a trace of worry in his heart.

"Now, I would like to invite all the warriors who bought the new type of medicine in our Dan Pavilion to release their blood and see if there is any problem." Zhuo Qingfeng said solemnly.

There is no need for Zhuo Qingfeng to speak. The warrior who had purchased a new type of pill in the Dan Pavilion before had released his blood for the first time.

In an instant, countless exclamations were heard, and everyone found that their bloodline had become extremely unstable just as Zhuo Qingfeng said.

This has never happened before.

There was a panic in the crowd.

Although the new pill can greatly increase the training speed of a warrior, the bloodline is also a powerful influence on the strength of a warrior.

A warrior without blood, and a warrior with blood, the cultivation base between the two is the same, and the strength may even be worlds apart.

Now that there is a problem with his own blood, how can these warriors not panic and worry.

"Everyone, stay calm." At this moment, Zhuo Qingfeng waved his hand abruptly, and said in a deep voice, "We are deeply saddened by the impact of our new pill, but don't worry about it. My Dange bought a new type of pill and found that there was a problem with my bloodline.

The original proof of purchase came to our Dange for free treatment, and our Dange will be responsible for every customer. "

"Even if there is no problem, you can come to our Dange to return the product with the original evidence. Whether you have taken the new pill that you bought, our Dange will return the full amount to the original real stone."

"Now, please also come to register with friends who have bought a new type of pill in my Dange."

When Zhuo Qingfeng's voice fell, the crowd immediately became agitated. Many warriors who had purchased a new type of pill at the pill pavilion in the first place swarmed up, looking panic.

The remaining warriors were sorrowful.

"Fortunately, I didn't buy Dange's new pill."

"Pill Pavilion really picked up a rock and hit him in the foot this time. The defective pill was actually dared to sell it. I don't know if the special effect pill they just said is perfect as he said. "

"Who knows, I'll continue to buy Leng's pill. At least Leng's said that they have solved the defects and there should be no problems like Pills."

"Want to come too."

A group of warriors who bought Leng's medicine pill laughed.

No one noticed, the face of the Leng Feifan Patriarch and others in the Leng Family had become extremely ugly at this time.

They were panicked, and cold sweat broke out on their palms.

Because they know very well that their pill was stolen from the pill pavilion. If there is a problem with the pill pavilion, it is impossible for their Leng family's pill that there is no problem.

Just when they were panicked.

"Everyone, I heard that today Leng's family also issued a new type of pill that is almost the same as our pill before." At this moment, Zhuo Qingfeng spoke again and said in a deep voice, "This new type of pill is our pill. The old man did not know how Leng's family had developed this pill formula."

"However, here I give you a piece of advice. Based on the old man's experience in pill medicine, the shortcomings of these three new types of pill medicine are irreparable. As the master of the pill pavilion, I still have to remind you, it's best to look at yourself. Is there anything wrong with your bloodline?"

"Once a problem is discovered, it must be stopped as soon as possible. If it is discovered early, it can be remedied. Once it is discovered late, it may not be possible to restore it when the blood is completely damaged."

At the entrance of Dan Pavilion, Zhuo Qingfeng finally displayed his ultimate ultimate move.

As soon as these words came out, Leng Feihua's face instantly paled in the crowd.

Cold sweat came out from behind instantly.

It was those warriors who bought the medicine, but they didn't care.

"Hehe, thank you for the reminder of Pavilion Master Zhuo, but the Leng Family said that their pill has been repaired, and there must be no problem."

"Yes, we believe in the Leng family."

"Since Leng's family has only been on the market for so long, and it has been stated that the previous pill was defective, the problem must have been fixed."

Many warriors even said with a smile.

But there are also warriors who have taken Leng's medicine pill. When their heart moves, they can't help but activate their blood.

"What's the matter? Why can't my blood be stabilized?"

Suddenly, a horrified voice came from the crowd.

After a warrior released his bloodline, the power of that bloodline fluctuated continuously in his body, how could it not condense, and the symptoms of those who bought a new type of pill warrior in the pill pavilion were almost the same.

No way?

A trace of badness spread across the crowd in an instant.

In an instant, almost all the warriors who had taken Leng's medicine pill could not help but mobilize their blood.

At this moment, the entire square was in an uproar.

"What's the matter, why can't my blood be stabilized?"

"mine too."

"Didn't the Leng family say that the defects of the pill have been repaired? What is going on?"

"Could it be that as Pavilion Master Zhuo said, the defects of this new type of pill cannot be repaired at all?"

The crowd was full of panic, everyone panicked completely.

A bloodline problem is a major problem for every warrior, and it cannot be taken lightly. Almost instantly, everyone's eyes were concentrated on everyone in the Leng Family.

#### [Chapter 797: Destroy all](#)

"President Leng, what is going on?"

"Yes, didn't it mean that your Leng family's pill is okay?"

"What happened to my blood?"

The crowd was going crazy, and they were all crowded in front of Leng Feihua in an instant.

The people of the Leng Family who were triumphant before, had ugly faces at this time, and they didn't know how to answer.

"Everyone, stay calm, there must be some misunderstanding in this. Don't worry, if you really have problems because of taking our Leng family's pill, our Leng family will definitely be responsible."

Leng Feifan hurriedly shouted loudly to appease the other party.

"Appease, I don't know how the Leng family is going to appease? As far as Ben Shao knows, the destructive nature of this pill is irreversible. If you don't believe it, you can go to the Holy Land to inquire and see if Ben Shao is lying to everyone."

At this moment, a sneer came from the Dan Pavilion, and it was Qin Chen.

"You kid, what nonsense."

Leng Feihua had an ugly face, and his body was full of murderous intent.

"Nonsense? I think the nonsense is Patriarch Leng. Since Patriarch Leng said that your Leng family has already discovered the defects of this pill, please tell me how this defect occurred. What kind of impact?"

Qin Chen continued to sneer.

Leng Feihua's face was ugly and angry, but he couldn't say anything.

His pill was originally stolen from the pill pavilion, and he hadn't studied in depth at all. How do you know where the defect is and what is the damage to the blood?

"Patriarch Leng can't tell?" Qin Chen sneered, "I don't even know where the defect is, or any damage to the bloodline. How can Patriarch Leng determine that your family can definitely solve this problem, since Patriarch Leng I said just now how to be responsible?"

His words immediately attracted the approval of countless people.

"President Leng, what is going on?"

"Yeah, you said you would be responsible, how exactly are you responsible?"

"Why does your Leng family's pill and pill pavilion's pill have damage to blood vessels?"

The crowd was like a pot exploded, and the scene was almost out of control for a while.

"Damn it, this kid again."

Leng Feifei was angry and murderous all over his body, wishing to kill Qin Chen on the spot.

However, he was frantically surrounded by the crowd, but he couldn't even move at this time.

"Everyone, don't panic, let me tell everyone."

At this moment, Qin Chen yelled again, attracting everyone's attention.

After the previous events, the people who were originally quite angry with Pill Pavilion were full of trust at this moment, and they looked at Qin Chen and listened carefully.

"Everyone, this new type of pill was developed by our Dange. In fact, at the beginning, no defects were found. However, any pill that the Dange sells will have many demonstrations. Later, I discovered it. The problem is that an emergency call was made."

"We found that among these three new types of medicine, there is a kind of elixir factor, which will affect the induction between blood vessels. Taking it for a long time will cause the martial artist's induction of blood vessels to become lower and lower."

"In the beginning, it may just cause the blood vessels to be unstable and uncontrollable. In this case, just stop taking this new type of pill."

"But once there are more and more defective elixir factors in the body, slowly, the martial artist's induction of the blood will get worse and worse, and in the end, there will even be a situation where the blood cannot be sensed and the blood will collapse."

"Our Dange conducted a detailed research and investigation. Not long ago, we finally discovered that this problem occurred entirely because of the main material of the three kinds of pill-Fenglancao. resulting in."

"In other words, the elixir factor that damages the blood vessels is actually produced in Phoenix Lancao."

"All of these are problems caused by our Dan Pavilion. We will never back down and never shirk our responsibilities. In order to prevent this elixir factor from poisoning any warriors of any dynasty, our Dan Pavilion has made an important decision for this. ."

"Come on!"

Speaking of this, Qin Chen suddenly shouted.

The black slave behind him quickly walked up.

Seeing the black slave waved his hand, in front of the Dan Pavilion shop, a large amount of Phoenix Lancao was instantly occupied.

These phoenix blue grasses, piles of them, were piled up like small hills, giving everyone on the field a tremendous shock.

You know, although the price of Phoenix Lancao has fallen, it is still a sky-high price for ordinary people.

A pound of Phoenix Lancao, many Wuzong strong may not be able to afford it.

So many phoenix plants appeared all of a sudden, so everyone was not shocked or shocked.

"So many phoenix plants."

"At least several hundred thousand catties."

"Hundreds of thousands of catties of phoenix bluegrass, how much is it worth? Based on the previous price, at least two million middle-grade real stones, right?"

"Hey, these phoenix orchids should have been bought by Dan Pavilion at a high price. What do they want to do?"

Everyone looked at Qin Chen and the many phoenix grasses in front of him in shock, and didn't understand what Qin Chen wanted to do.

Qin Chen's face was painful, and he said angrily: "In order to prevent this kind of bad medicine that damages the martial artist from appearing on the market again, we decided to destroy all the phoenix grass we bought with a lot of savings, so as not to poison my great power. Warrior of the dynasty."

"Come on, destroy!"

With an angry shout, Qin Chen stepped forward first and banged, and a group of real fire, a thick flame, suddenly appeared in his hand, suddenly enveloping the pile of phoenix grass in front of him.

Under the violent high temperature, the pile of Phoenix Bluegrass was quickly burned to ashes and dissipated in the world.

Beside him, Pavilion Master Zhuo Qingfeng, Xu Bo and other Dan Pavilion elders all stepped forward, one by one, they displayed real fire and lit the phoenix haystack in front of them.

In an instant, the flame burned, and the entire imperial city trading market was filled with intense heat, and there was a smell of phoenix bluegrass everywhere.

God!

All the warriors on the field were completely stunned at this time.

Phoenix Lancao, worth millions of middle-grade real stones, was just burned directly? Don't even blink your brow?

Shock, an unprecedented shock.

Many people were heartbroken, and they even wanted to rush to grab a handful of Phoenix Lancao.

Inside, every catty is almost sky-high.

How much did this burn cost?

This is a few million middle-grade real stones? Even if it is a top family, the total value is almost only so much.

At this moment, the warriors who had some resentment towards Dan Pavilion before were all silent at this moment.

Dan Ge is willing to burn all the Phoenix Lancao worth millions of middle-grade real stones. What can they blame each other?

A spontaneous admiration is born from the heart of every warrior. Do you have the courage to think in another way and to be them? Burn all the Phoenix Lancao they bought at a high price?

#### [Chapter 798: Kid, you're looking for death](#)

"Everyone, these phoenix orchids were purchased by our Dan Pavilion at a high cost."

"For these phoenix orchids, our Dan Pavilion even consumed all our savings over the years."

"Everyone is a warrior of my Dawei Dynasty. You should also know the situation of our Dan Pavilion. In recent years, our Dan Pavilion has not occupied much of the dynasty's share in the sales of pill medicine. Therefore, even any real stone will treat us Dan Pavilion. For Ge, they are all extremely important and cannot be wasted."

"But our Dan Pavilion is the most formal Dan Dao force on the mainland. No matter how difficult the situation is, we have upheld the belief that we must never entrap any warrior."

"Our Dange thought so, and naturally did the same."

"Ben Shao announced here today that as long as the warriors who have taken our pill pill and any problems occur, our pill will be responsible for the end, and our pill will be responsible for the refund, healing, and losses caused."

"Our Dange is not big, but our goal is to create a harmless drug market, and at the same time, we will never allow any deceitful Dandao forces to run rampant in this market."

Qin Chen said loudly, his voice loud and loud, spreading across the entire trading market instantly.

"it is good!"

"well said!"

Qin Chen's preaching quickly aroused the fiery hearts of countless warriors, one by one, they roared wildly.

Everyone believed in Qin Chen's words.

After all, the other party directly destroyed hundreds of thousands of catties of Phoenix Bluegrass. With such a large amount of wealth, which force would have the courage to do so?

"Everyone, please be quiet."

At this moment, Qin Chen spoke again.

The original noisy scene unexpectedly calmed down strangely, and everyone looked at Qin Chen scorchingly.

This kind of appeal has made many people of the power look dark and startled.

This boy from Five Nations, using hundreds of thousands of catties of phoenix bluegrass, quickly gathered such a huge crowd of people, which no one had expected.

"Everyone, our pill pavilions are all over the mainland. Not only do they exist as a pill power, but they also supervise and maintain order in the mainland pill market."

"Today, you all have suffered a huge loss. As the leader of the mainland alchemy, our Dange naturally has no reason to stand by." Regardless of this, we will cooperate with the dynasty officials to supervise the follow-up of the matter. If you have any demands, you can say it. As long as it is reasonable and reasonable, our Dange will naturally

Call the shots for you all. "

Qin Chen said passionately.

On the opposite side, Leng Feihua's face completely changed.

What does this kid mean? Do you want to intervene in their Leng family affairs?

"it is good."

"Dan Pavilion is good."

"We have only one appeal. Leng Jia will refund the cost of the pill. We don't buy this new pill. We have to refund the money."

"Yes, refund the money, what kind of broken medicine, if you eat it, it will destroy the bloodline, and I dare to sell it, I!"

"Refund!"

Countless people suddenly went crazy under the agitation of Qin Chen.

As ordinary warriors in the imperial city, their living conditions are extremely cruel. In the face of this situation, what they first consider is not what compensation they want, but the most realistic request.

Refund!

"Okay, rest assured, this matter, our Pill Pavilion, will definitely take care of it, and will never allow any local Pill Dao forces to entrap everyone." Qin Chen said angrily, his expression excited, as if he was also a victim of entrapment.

His angry expression aroused everyone's approval even more.

For a while, there were angry voices everywhere, and the crowd flocked to Lengjia Pharmacy, angrily demanding a refund.

Cang Dang!

The plaque at the entrance of Leng's shop was quickly smashed. Some angry warriors even smashed the counter of Leng's house to pieces.

"Patriarch, what shall we do now?"

Faced with so many aggressive warriors, the many elders of the Leng family panicked and looked at Leng Feihua.

"Hurry up and call the ancestors over." Leng Feifan said in anger to a senior Leng elder, and he said loudly to the vast number of warriors: "Everyone, stay calm, don't crowd, there must be something in it. Misunderstanding, please rest assured that my Leng family, as the top family in the imperial city, will not harm you. Please give us the Leng family.

A little confidence. "

The cultivation base of Leng Feihua's sixth-order peak dissipated crazily, and the terrifying aura shook many warriors at the door one after another. "Misunderstanding, what can there be any misunderstanding? Right now, our majority of martial artists have only one appeal, that is, the Leng family will refund the money first, and then talk about compensation or something, otherwise, we will never give up." Qin Chen angrily shouted: "The money can be. It's all the hard-earned money we made at the risk of our lives.

Why lie to the past, don't the conscience hurt? "

"Yes, refund money first."

"These are our hard-earned money, I have all used it to buy Leng's pill, oh oh oh!"

"me too."

"Leng family killed this god."

Many curses were endless, and these warriors looked angry. If it weren't for the Leng Family's long-standing prestige, all of them would have liked to come up and fight hard.

"Boy, you are looking for death!"

Leng Feihua was trembling with anger, his figure shook, he suddenly appeared in front of Qin Chen, banged his palm, and slapped down towards Qin Chen.

It's all this Qin Chen, picking things up inside, otherwise how could the scene become so chaotic?

For a moment, new hatred and old hatred accumulated in his heart, with extraordinary cold expression, and he wanted to kill Qin Chen on the spot.

"presumptuous!"

An angry shout sounded, and then a figure appeared in front of Qin Chen instantly, slapped Leng Feifan with a palm.

There was a boom.

Leng Feihua was under the palm of the opponent, like a kite with a broken wire, and flew upside down in an instant, spouting a mouthful of blood.

I saw the master Zhuo Qingfeng exuding a terrifying aura. He looked at Leng Feihua, and said coldly: "Patriarch Leng, Shao Chen is a member of our Dan Pavilion. You attacked on the spot in the imperial city. Don't put our Dan Pavilion in your eyes, don't you take the law of the Dawei Dynasty in your eyes?"

"Pavilion Master Zhuo, I am slandering my Leng's family indiscriminately, encouraging everyone to take action against my Leng's shop. Didn't Pavilion Master Zhuo see it?"

Leng Feifan's eyes were cold, and he said angrily. He hated in his heart. Under his impulse, he even forgot about Zhuo Qingfeng. He wanted to kill Qin Chen with Zhuo Qingfeng. He wanted to kill Qin Chen. "Defaming your Leng family?" Zhuo Qingfeng snorted coldly: "Your Leng family, you are running the pill market decently, and the old man will not say anything. But now, your Leng family dares to sell inferior pill, causing so much imperial city. The warrior was personally wounded, and Zhuo, as the master of the Dan Pavilion sent to the Dawei Dynasty, should be

The right to safeguard the interests of the general public. Family Master Leng, if you have a leisure time to start with Shao Chen, you should first consider how to calm everyone's anger. Zhuo Qingfeng said coldly.

#### [Chapter 799: King Wu comes](#)

"you....."

Leng Feihua's expression was ugly, Zhuo Qingfeng and Qin Chen were originally in the same group, and he couldn't speak to each other in terms of words.

"Paradise Master Leng, Pavilion Master Zhuo said very much, you want to kill me, even if you do it, if Ben Shao frowns, he is not a man. However, before Leng Jia takes the initiative, Ben Shao advises Paid Master Leng to return everyone as soon as possible. The cost of purchasing Dan."

"My pill, knowing that the pill is defective, I am willing to destroy the phoenix bluegrass worth hundreds of middle-grade real stones. As the first pill power of the Dawei Dynasty, the Leng family is the first top family, not to mention destroying what you bought The Phoenix Lancao that arrives, won't you even be able to refund the cost of the medicine pills, right?"

"Such a family, what right does it have to gain a foothold in this dynasty?"

Qin Chen said angrily.

"you....."

At this moment, looking at Qin Chen with an agitated complexion and Zhuo Qingfeng with a sneer on his lips, Leng Feifei's heart suddenly raised a thought that made him extremely shocked.

Could this matter be a conspiracy of Dan Ge?

As soon as this thought came out, Leng Feifei's breathing instantly stopped.

This is not impossible.

That new type of pill, so important, how could Pill Pavilion not even have any precautions before.

Instead, it was stolen by the elder horse soldier so easily?

This is a big problem in itself.

It's just that he was excited at the time, he didn't think too much at all, and was wholeheartedly trying to develop a new type of medicine to overthrow the pill.

Looking back now, there are too many contradictions.

For example, the new pill was only sold for one day, and the pill was stopped.

Also, on the first day the Dange released a new type of pill, it limited the limit of 10,000 pills and restricted the number of purchases per person.

All of this is clearly a premeditated conspiracy.

"Damn Dange, too despicable."

Leng Feifei only felt short of breath, qi and blood surged in his body, and almost passed out without vomiting blood.

If the whole thing was really done by Dan Pavilion in order to frame their Leng Family, then Dan Pavilion is too cruel.

In order to frame them, he was willing to replace all the wealth that Dange had accumulated over the years with Phoenix Lancao and destroy it on the spot.

How much courage does this require?

wrong?

Suddenly, Leng Feihua woke up again.

I just feel cold in my hands and feet, and my eyes are dizzy.

These days, Dan Ge frantically acquired Phoenix Lancao, and the total amount acquired was more than one million catties? Even their Lengjia has acquired more than one million catties, and Dange's purchase volume is at least higher than that of their Lengjia.

But before, the phoenix bluegrass destroyed by Dan Pavilion was only a few hundred thousand catties in total.

Adding to the fact that they first refined 10,000 pieces of Phoenix Lancao consumed by the new pill, how much is that?

So where did the remaining Phoenix Lancao in Dan Pavilion go?

Recalling the days ago, Fenglan Herbs were extremely in demand, but the Leng family was able to purchase Daofenglan Herbs for a large amount from some inexplicable channels.

At the time, he didn't think too much.

Thinking about it now, this is really weird.

When Dan Ge frantically purchased Phoenix Lancao, how could there be so much Phoenix Lancao circulating in the Dawei Dynasty market?

What's more, if all this was really designed by Dan Pavilion, how could Dan Pavilion rot so much Phoenix Lancao in his own hands?

"Could it be that the phoenix grass that our Leng family bought at a high price was actually dumped by Dan Ge?"

"Zuo Qingfeng, you are so cruel!"

Staring at Zhuo Qingfeng fiercely, Leng Feihua's eyes were red, and he roared, and then he snorted. The whole crowd rushed to his heart. He couldn't get up at all. He opened his mouth and spouted blood and passed out.

"Patriarch."

"Patriarch, what's wrong with you?"

The remaining elders of the Leng family were panicked and didn't know what to do.

"Refund, quickly refund!"

What happened in the trading market at this time had already spread at an alarming rate, and countless warriors who had received the news swarmed over.

These warriors, all holding the pill purchased from Leng's family, looked angry and shouted loudly.

Many warriors among them even drew out their weapons, eager to enter the cold shop.

In order to fear that they would not be able to buy the new type of pill, they used almost all of their savings to buy Leng's pill. Now that they heard that the pill was defective, many warriors were anxious and almost lost their minds.

Some of them even rushed into the Leng's shop and began to \*\*\*\* them when they were angry.

Like a ignited gunpowder barrel, a single spark can start a prairie fire. In the entire trading market, almost all the warriors rushed into the cold shop as they went crazy.

"stop."

"Stop it for us."

The shopkeeper of Leng's shop and the guys wanted to stop them, they were beaten into pigs' heads in an instant, and they screamed and screamed.

In such a crazy scene, even the many elders of the Leng family who were not weak in cultivation did not dare to step forward, so they had to protect Leng Feifan, and shout angrily.

"Presumptuous, stop it for me."

At this moment, an angry roar suddenly sounded.

Boom!

The sound, like thunder, was deafening and made everyone pale.

At the same time, a terrifying breath of true vitality descended from the sky, like a mountain, instantly scattered on every warrior.

Pedal!

In the entire trading market, at least tens of thousands of warriors gathered at this time, but under this terrifying aura, each step was vain, retreating crazily, and even standing unsteadily.

Even some warriors with a lower cultivation level, under this breath, the body was injured, and the mouth was spurted with blood.

Under the eyes of everyone, a domineering figure appeared in the sky above the trading market and slowly landed down.

"Flying in the air, King Wu, is an expert of the seventh rank."

"Leng Po Gong, isn't this the ancestor of the Leng family?"

"Horrible, isn't this person the Patriarch of the Leng Family more than fifty years ago? He hasn't died yet? And he has become a strong man of King Wu?"

The crowd was shocked, looking at the figure falling in the sky in amazement, with a look of horror in their eyes.

King Wu.

In the land of a hundred dynasties, that is the absolute king.

Turning hands is cloud, covering hands is rain, a single thought is enough to make countless warriors fall.

The appearance of Leng Po Gong, like a basin of cold water, instantly poured on the heads of all the angry warriors, and poured out their anger instantly.

You must know that the seventh-order martial king masters the will of martial arts, integrates his will with heaven and earth, and can fly in the air.

Moreover, the martial artist breaks from the sixth-order martial master to the seventh-order martial king realm, and the power in the body will condense from ordinary true power to even more terrifying true essence.

Although the sixth-order Wuzun and the seventh-order martial king are only one step apart, they represent a world of difference. In a real battle, a sixth-order martial master might even have three moves in front of a seventh-order martial master. If you can't catch it, kill it with your fingers.

Now that King Leng Jiawu appeared, the originally angry people only felt cold and terrified, and they didn't even have the courage to speak.

"Say, what's going on?" The figure fell, Leng Pogong coldly looked at the chaotic scene, and his eyes contained cold killing intent, and asked the elders of the Leng family coldly.

### [Chapter 800: Angry Lengjia](#)

Before Leng Pogong received a letter from Leng's elder, he didn't care about listening to what happened, and rushed to the trading market the first time.

But he saw a scene that made him so angry.

So many warriors have beaten and smashed their Lengjia shops. Is this preparing to rebel?

At this time, endless killing intent enveloped him, and in an instant, the breath of the entire trading market seemed to have entered a cold winter instantly, and it made people feel trembling.

"Ancestor, it's like this."

Several Leng parents did not dare to conceal it, and immediately trembled, telling what happened.

"What? Our Leng family's pill is actually defective, which will cause irreversible damage to the bloodline?"

Leng Pogong was shocked.

He is very clear that the importance of blood to a warrior can be said to be at least equivalent to the half-life of a warrior.

When Qin Chen was in the Great Qi State, he was humiliated because he could not awaken his blood.

If the medicine of their Leng family really caused damage to their blood, it would cause unprecedented damage to their Leng family's reputation.

"It's troublesome now."

Leng Pogong frowned. Faced with such a situation, even he didn't know what to do?

Kill all these troublemakers?

If their Leng family really dared to do this, then they would never want to continue to gain a foothold in the Dawei Dynasty in this life.

"By the way, what's the matter with Extraordinary?"

Leng Pogong looked at Leng Feifan who was in a coma again, frowned and asked.

Looking at Leng Feihua's appearance, it is clear that he was injured by someone, but Leng Feihua is the sixth-order peak martial artist. These casual cultivators on the field really have the ability to damage Leng Feihua?

"Old ancestor, Zhuo Qingfeng from Pill Pavilion and that kid Qin Chen!"

An elder stepped forward angrily.

"Where are the people from Dan Pavilion?"

Leng Pogong coldly glanced at Zhuo Qingfeng and Qin Chen who were not far away, and threw out a few pills, "First save Extraordinary, don't worry about other things."

There was a strong killing intent in his heart, but he knew very well that what he had to do now was to deal with Leng's troubles first, not to kill.

However, Leng Pogong was not going to kill Qin Chen, but Qin Chen did not intend to let him go.

"Your Excellency is the ancestor of the Leng family, hehe, so majestic, you deserve to be the first family of the dynasty. Selling inferior and defective pills, not only does not compensate, but instead wounds the warrior who is asking for justice. This is your Leng family. The way to deal with things? Ben Shao has seen it, amazing, amazing!"

Seeing Leng Pogong came up, he directly used martial arts will to shock many martial artists, Qin Chen immediately sneered.

After many ordinary warriors on the court were shocked by Leng Pogong, they all dared not speak because they were afraid of Leng Pogong's identity and cultivation base. Now I heard that Qin Chen dare to speak for them, one by one. Very moved.

"Boy, keep your mouth clean."

Looking at Leng Pogong Lengshou, a terrifying aura spread out from him instantly.

Is this the kid named Qin Chen? Sure enough, he was so bold, and even speaking to him like this, Leng Pogong had made up his mind and taught Qin Chen a severe lesson.

The terrifying aura representing the seventh-order Martial King, like a vast ocean, came to Qin Chen in an instant, and then, like a big mountain, it was crushed down.

"Leng Po Gong, what are you doing?"

Zhuo Qingfeng's expression changed, and he shouted angrily, hurriedly to stand in front of Qin Chen.

But it was too late.

"boom!"

The terrifying King Wu's coercion instantly suppressed Qin Chen.

How terrible is the coercion of the seventh-order Wuwang? In the face of such a terrifying breath, the ordinary warrior might have turned pale and trembling, and even knelt down on the spot.

When Qin Chen's face remained unchanged, like a spring breeze, under the martial arts will like a raging wave, his figure remained motionless. "Your Excellency is such a great prestige. Relying on your high cultivation level, you dare to act so recklessly. The Leng family is really powerful. No wonder you will become the first family of the Dawei Dynasty. Even the laws of the dynasty dare to ignore the laws. What else Can't get things done? I'm afraid that the real stone who deceives so many people present doesn't want to

Give it back. "

Qin Chen said with a sneer.

Suppress him with martial will? It's ridiculous.

Although he was only at the peak of the initial stage of Tier 6, he was more than a hundred times stronger than Leng Po Gong in the understanding of martial arts will.

If Leng Pogong uses the seventh-order true essence to suppress him, he may not be able to stop him, but with the will of martial arts, ha ha, in Qin Chen's eyes, such a fragile will of martial arts is as ridiculous as a child.

"Ok?"

Seeing that Qin Chen's expression remained unchanged under his martial arts will, Leng Pogong was taken aback, his eyes suddenly became extremely ugly.

what happened? If a pinnacle half-step martial arts king like Zhuo Qingfeng can block his martial arts will, then he would not feel anything, but a teenager in his ten-year-old can actually block his martial arts will, making Leng Pogong almost think he is dazzled. Up.

"Ancestor, this incident is basically Dan Pavilion's conspiracy."

With the help of several senior Leng parents, Leng Feihua, who had been in a coma before, had already regained consciousness at this time. After seeing Leng Pogong, he looked excited and hurriedly gritted his own guesses.

"What? You mean that the pill of this new type of pill was deliberately leaked by the pill. It was originally flawed? It was deliberately made by our Lengjia, and after it was sold, it was targeted at our Lengjia?" Leng Pogong's eyes suddenly Yi Han.

"Old ancestor, this is just a disciple's guess, but according to my disciple's estimation, it is very likely to be the case, and it is very likely that the many phoenix grasses purchased by our Leng family were actually dumped to us by Dan Ge deliberately." Extraordinary gritted his teeth.

Thinking of this, Leng Feihua felt very distressed. In other words, the Phoenix Lancao that the Leng family had spent all of their financial resources bought was actually bought from Dange.

Dan Ge had already made a lot of money after such dumping. No wonder that the hundreds of thousands of catties of Phoenix Langrass burned before had no heartache at all.

Thinking of this, Leng Feifei was so angry that he was about to vomit blood again.

"This \*\*\*\* Dange!"

Leng Po Gong was also trembling with anger, "Dead!"

With an angry shout, Leng Pogong's figure shook, and he was about to kill Qin Chen.

He couldn't move Zhuo Qingfeng, but at this moment, his heart was full of murderousness. He had to kill someone. He immediately set the target on Qin Chen. It was this kid who caused their Leng family's reputation to fall sharply. Don't kill him today. This ancestor of the Leng family, what face is there to stay?

Boom!

The terrible blow representing the coerciveness of the seventh-order Wuwang burst out suddenly and came to Qin Chen in an instant.

"Little dust, be careful!" Zhuo Qingfeng yelled, and his figure shook. This time he was prepared and stopped in front of Qin Chen instantly. He only heard a loud boom, Zhuo Qingfeng stopped Leng Pogong's attack frantically, and the whole person He kicked back, opened his mouth and spouted a mouthful of blood.
