

Valkyrie 801

[Chapter 801: Dean of Emperor Star](#)

Although Zhuo Qingfeng is a powerhouse at the pinnacle of the Half-Step Wushu King, after all, he is only a Half-Step Wushu King, and the true power in his body has not completely transformed his true essence. How can he be the opponent of Lengpagong.

Only one blow was already injured.

"Leng Pogong, you are so bold. This is the imperial city. You want to kill people wantonly. Do you want to rebel?!" Although Zhuo Qingfeng was injured, his expression was not afraid, and he stood in front of Qin Chen angrily.

"Zhuo Qingfeng, I respect you as the lord of the Dan Pavilion, you let me go, this son provokes my Leng family again and again, today I will not kill him, and swear not to be a man."

Leng Pogong shouted coldly, his eyes were cold, and he looked at Qin Chen coldly, his eyes shot out a terrifying light.

But Qin Chen behind Zhuo Qingfeng was not afraid, just frowned and glanced at the palace.

Why is this Liu Xuanrui so slow?

"Young Chen is a member of my Dan Pavilion, if you dare to touch his hair, the old man will definitely recommend the North Heaven Domain Dan Pavilion branch to destroy your Leng Family." "Only you?" Leng Po Gong looked cold. Sneered and said: "You Zhuo Qingfeng, you are an abandoned disciple of the Beitianyu Dan Pavilion, other alchemy pavilion masters, if you say that, the old man might still respect him a bit, you, the abandoned Dan pavilion, how can the old man care? I'll give you a chance for three breaths, get out of it right away, otherwise old man

, Even your lesson. "

Zhuo Qingfeng was reprimanded by the Beitianyu Dan Pavilion. This point, Leng Paigong, the ancestor of the Leng family, couldn't be clearer, otherwise, he would not dare to be so arrogant towards Dan Pavilion these years.

not to mention.

Although Dange is strong, how many branches are there on the mainland?

In the entire land of the Hundred Dynasties, there are more than dozens or hundreds of branches like the Imperial City Dan Pavilion. The entire continent is boundless. As long as he does not kill Zhuo Qingfeng, he will not believe in the Northern Heaven Domain Dan Pavilion. To suppress his Leng family for a pariah from the Five Nations.

After all, the purpose of Dan Pavilion is not to interfere in the struggle between local forces.

If the Beitianyu Dange was really for a young man, he would kill his Leng Family, as long as it reached the supreme martial domain, it would definitely cause shock and bring huge trouble to the Dange.

"Leng Pogong, I think you are crazy." Zhuo Qingfeng roared angrily, but he was extremely anxious.

He alone couldn't stop Leng Po Gong at all.

What made Zhuo Qingfeng depressed was that he himself was very nervous, but there was no worry at all because of the dust.

"Zhuo Qingfeng, don't you let it? Okay, very good, I want to see, who can stop the person I want to kill!"

With a cold shout, Leng Pogong no longer talks nonsense with Zhuo Qingfeng, the cold light flashes in his eyes, and the whole person rushes up, grabbing Zhuo Qingfeng with a palm.

Boom!

In the void, the endless true essence condensed and turned into an astonishing force, like a giant hand, holding Zhuo Qingfeng tightly, no matter how much Zhuo Qingfeng moved, he couldn't break free.

"Is this the true power of Wu Wang? Is this the suppression of the will of the martial arts?"

Despair rose in Zhuo Qingfeng's heart.

At any rate, he is also a half-step Wuwang level powerhouse. There is a part of the true power in his body that has already begun to transform to true essence, but in front of the real Wuwang Leng Pogong, he is so vulnerable, even if he can't even move.

This kind of powerlessness made Zhuo Qingfeng feel a deep despair.

"Zhuo Qingfeng, remembering this feeling of martial arts will and the movement of true essence will be of great help for you to break through the realm of Martial King."

A voice came into Zhuo Qingfeng's ears, making Zhuo Qingfeng look speechless. At this time, Qin Chen was still talking to him in a leisurely manner.

"Little dust, run away, I will find a way to stop him."

Zhuo Qingfeng said anxiously.

"No, they are already here?" Qin Chen said with a light smile.

"Here? Who is here?"

Zhuo Qingfeng was taken aback for a moment, but only saw Leng Pogong's palm raising, exuding a terrifying aura, and directly grabbed and photographed Qin Chen.

"Boy, today is your death date."

Leng Po Gong has a hideous face, and his murderous intent is boiling.

Seeing that his palm was about to hit Qin Chen.

Suddenly a thunderous cold shout sounded.

"stop!"

At the next moment, an astonishing stream of light, like a meteor, instantly appeared in front of Qin Chen.

This is an old man with a gray-brown beard, his face is cold, his eyes are shining like stars, and his thin palms seem to have billions of stars blooming, colliding with Leng Pogong's attack instantly.

Boom!

Like a thunderstorm, it exploded in the entire trading market. The real yuan burst with amazing tearing power, and the warriors in the entire trading market retreated one after another, each of them dazzled with tinnitus.

"Leng Pogong, this is the imperial city, you dare to kill people in the street, so bold."

The old man snorted coldly, his eyes full of anger.

"Fu Xingcheng, is it you?" Leng Pogong's face sank, revealing a solemn expression.

Fu Xingcheng, Dean of Emperor Star Academy, a well-known powerhouse in the Imperial City.

This person, as early as more than 30 years ago, had already broken through the realm of King Wu, and his cultivation was unfathomable.

The key point is that this person, as the dean of the Emperor Star Academy, rarely has anything to do with the world, and even the deputy deans of the Emperor Star Academy rarely see him. Why does he suddenly appear here today?

After much deliberation, Lengpaigong only thought of one possibility.

That is the royal family.

Emperor Star Academy was the first college of the dynasty, but in fact, it was organized by the royal family, and the dean of Emperor Star Academy has always been loyal to the royal family. Only your Majesty can invite this person.

really.

The thought in Leng Pogong's mind just fell.

Boom boom boom!

The streets of the entire trading market trembled in an instant, and a group of armored guards rushed from outside the trading market, and instantly surrounded the entire trading market.

Immediately afterwards, the guards dispersed, and Liu Xuanrui, the current majesty of the Dawei Dynasty, walked slowly, looking at the scene in front of him with a gloomy expression.

"Cao Min has seen your Majesty, long live your majesty!"

Seeing Liu Xuanrui, all the warriors on the court knelt in panic and shouted respectfully.

"Everyone loves the courtesy!" Liu Xuanrui waved his hand and said solemnly: "I heard that you have been oppressed and wronged in the trading market. Don't worry, everyone. I am here to do justice to you. I am majestic. The dynasty is a dynasty governed by law. It will never tolerate any forces, show off their might and oppress everyone

On this point, I, Liu Xuanrui, promise everyone. "

Liu Xuanrui's loud voice echoed over the trading market, reaching the ears of every warrior, instantly making the warriors on the field excited and happy.

Your Majesty, have you come to give them justice?

The heart that was frightened and horrified because of the appearance of Leng Pogong, at this moment, instantly felt extremely warm.

"Leng Pogong, can you explain to me what the **** is going on here?" Liu Xuanrui walked forward, looking at the chaotic trading market, and said coldly to Leng Pogong. In his words, there was an imperial dominance. Will, soaring into the sky.

[Chapter 802: The strong gather](#)

"Leng Pogong, I've seen your Majesty, I don't know what your Majesty wants to know, the old do not understand?"

Seeing Liu Xuanrui's icy look, Leng Pogong was very angry, but he still bowed his hands.

Although he was a powerful king of Wu, Liu Xuanrui was the emperor of the Dawei dynasty, and his Leng family was also a citizen of the Dawei dynasty. The basic etiquette should be observed naturally.

Otherwise, his Leng family can't bear the charge.

But the attitude is not very respectful. "Leng Pogong, I ask you, your dignified ancestor of the Leng family is considered an old man of my mighty dynasty. You are in the imperial city, and you want to do something with the intention of murdering the people of my dynasty. Do you think you are the king of martial arts? The strong, why can't I stop you?" Liu Xuanrui said coldly, staring hard at it

With Lengpo Gong, the cold glow is exuded.

In front of so many people, Leng Pogong actually spoke to him like this, making Liu Xuanrui's heart a murderous intent. "What is your Majesty's saying?" Leng Pogong said solemnly: "Your Majesty, the reason why the old man took action on this son is because this son and the Dan Pavilion framed my Leng Family and made my Leng Family refine a defective pill. The medicine caused my Leng's family to fall into a state of invincibility. This son is extremely vicious and sinful, so he is old

The husband begs your Majesty to let the old man kill this son, in order to maintain the wind of the imperial city. "

Leng Pogong took a step forward, full of killing intent, staring at Qin Chen firmly.

If it weren't for Qin Chen, how could his Leng Family fall into such a situation? The killing intent to Qin Chen was unprecedentedly strong.

"presumptuous."

Liu Xuanrui was trembling with anger.

In front of him, this Leng Po Gong dared to be so arrogant, and deep in Liu Xuanrui's heart, an unprecedented anger emerged.

"Leng Pogong, you are lawless, violating the dynasty's laws and doing whatever you want in the imperial city. If you don't severely punish today, where do you place the dynasty's laws? Come, take him down for me."

With a wave of his hand, Liu Xuanrui said angrily.

"Wow."

Immediately, a squad of guards came forward mightily, their footsteps roared, the earthquake trembled, and they flocked to Lengpogong.

Leng Pogong's face changed.

He didn't expect Liu Xuanrui to be so cruel, he would directly let people do it, and would not give him a chance at Leng Family.

From this point of view, Liu Xuanrui seemed to have murdered his Leng Family.

If this is the case, then he will not be able to be captured. Once he is captured, the Leng family will have no leader, and will surely be destroyed by that time.

"boom!"

Leng Pogong suddenly released a terrifying aura of true vitality, and the astonishing true vitality power diffused, and the group of surrounding guards flew away in an instant, and fell to the ground one by one. Hum.

"Leng Po Gong, do you dare to resist?"

Liu Xuanrui said angrily.

"Your Majesty, it's not me who resisted the decree, but Dan Pavilion and this kid who framed my Leng family. Your Majesty does not punish them, but wants to deal with my Leng family. Why is this?" Leng Pogong said solemnly.

At this time, his attitude was already much gentler, because he knew very well that the Leng family did not yet have the strength to turn his face against the royal family.

"Leng Po Gong, it is clearly your Leng Family, who refined the defective medicine, but I have to blame it. Your Excellency is also a powerful king of Wu, do you not dare to be?" Qin Chen sneered.

"You said that Dange framed you, maybe you can show evidence?" Liu Xuanrui looked at Leng Pogong coldly.

"This....."

Leng Pogong's face was ugly, but he couldn't say a word.

This pill was secretly stolen from the pill by their Leng family. What evidence can there be?

Once it is said, it will only be more unfavorable to his Leng family.

"If there is no evidence, what can it represent." Liu Xuanrui's eyes were cold: "Come here, take away Leng's family and investigate carefully. If there is no problem, I will give the Leng's an explanation."

"Yes, Your Majesty."

A large number of imperial guards swarmed in an instant and surrounded the Leng family.

"Ancestor."

Leng Feihua, they panicked immediately, once they were taken away by the Guards today, it would be difficult to come out alive again.

On the other side, Fu Xingcheng fixed his eyes on Leng Pogong and refused to give him a chance to make a move.

"Your Majesty, do it slowly, is there any misunderstanding in this?"

At this moment, a loud voice suddenly sounded, accompanied by a domineering figure, descending on the trading market.

This person was wearing a gray-brown robe and a hair bun. His complexion was ruddy, and he looked majestic and generous. He had only a pair of small eyes, but it ruined the overall feeling and made people feel like a treacherous.

It is the three great families of the imperial city, the ancestor of the Wu family, Wu Chengfeng!

"Wu Chengfeng, I have seen your Majesty." As soon as Wu Chengfeng came to Liu Xuanrui, he saluted respectfully and sincerely, and then arched his hands: "Leng Po Gong is also a disciple of the dynasty. How can he frame the people of the dynasty? , There must be some misunderstanding, not to mention, in the imperial city now, the martial artist who has purchased Leng's pill

Many, if your Majesty brings all the people from the Leng Family in, how can he appease the many warriors who have purchased the medicine. According to the old man, it is better to let the Leng Family deal with the funeral first, and when the affairs of today are finished, then come to convict the Leng Family. How does your Majesty feel? "

Although Wu Chengfeng kept talking from the perspective of the dynasty, it was clear that he was justifying Lengpaigong.

"Huh!" "Huh!"

When Wu Chengfeng was speaking, two more streamers came in the distance, and instantly descended on the Exchange Square.

These two people, one wearing a white robe, a thin-edged sword hanging from the waist, the other with a grin at the corner of the mouth, and a burly figure, both of them exuded a breath of suffocation, and they were actually two powerful kings.

"Yue Lengchan and Yan Wuji have met your Majesty."

When the two of them came over, they arched their hands at Liu Xuanrui, but their expressions were extremely casual.

It is the suzerain of the two top sects in the Sect Alliance, Guiyuan Sect and Wuji Sect.

"Sect Master Yue, Sect Master Yan, don't come here without problems."

Liu Xuanrui's face was extremely ugly.

Yue Lengchan and Yan Wuji were the sect masters of the two most powerful sects in the dynasty, and they were all in the realm of the seventh-order martial king.

Moreover, it is rumored that the Guiyuanzong, the Wujizong, the Wu family and the Leng family have formed a secret alliance. The collapse of the original family back then was caused by these four forces.

Unexpectedly, I wanted to attack Leng's family today, and the suzerain of these two sects would come forward so soon, which made Liu Xuanrui extremely vigilant in his heart. The base camps of Guiyuanzong and Wujizong were not in the imperial city. Although there was a resident in the imperial city, how could the dignified sovereign stay at the imperial resident? But now, he has not had time to deal with the Leng family. The lord arrived so quickly, it can be seen that the two have been in the imperial city these days, only

It didn't show up.

The two dignified sect masters have been staying in the imperial city. What do you want to do?

Liu Xuanrui's eyes suddenly became extremely solemn.

"Brother Leng, we both got the news before, and thought it was a fake message. After many days of seeing it, why did Brother Leng become so embarrassed? It's not like Brother Leng's style to sell fake pills." The two told Liu Xuanrui. After the salute, he looked at Leng Pogong with a light smile, and said with a light smile.

[Chapter 803: Forced to retreat](#)

"Huh, the old man was framed."

Leng Pogong looked angry, but he was relieved in his heart.

The Leng Family, Wu Family, Guiyuan Sect, and Wuji Sect, the four major forces have formed an alliance a long time ago. Since Wu Chengfeng and others are here, the safety of his Leng Family is already guaranteed today.

"In this prestigious dynasty, anyone dares to frame you Leng Po Gong? Impossible?" Sect Master Yan Wuji chuckles. "How can't it be? Others are the masters of the Dan Pavilion, relying on the Dan Pavilion, nothing can be done, and there is a boy from the Five Nations, who is not afraid of heaven and earth, let alone the old man, I am afraid that the two may not be seen by the other party. In the eyes, if the old man remembers correctly, your vice-zong Liuxianzong under the command of Wujizong

Lord Hua Sheng was once beheaded by this person in public. "

"Oh, this kid?" Yan Wuji looked over coldly, his eyes instantly falling on Qin Chen.

A trace of cold killing intent flashed from the bottom of his eyes.

"Sure enough, the hero came out of a young age. Your Excellency is so young and you are already a rank six martial master. No wonder you dare to be so arrogant." Yan Wuji looked at Qin Chen coldly.

Qin Chen's cultivation level can be concealed from a general sixth-order martial master, but it is impossible to hide a seventh-order martial master like Yan Wuji.

"what?"

"This kid turned out to be a sixth-order Wu Zun?"

"How can it be so young?"

"A Tier 6 Wuzun at such an age, even in the entire land of a hundred dynasties, is still against the sky."

The crowd exploded, so everyone looked at Qin Chen in amazement, even forgetting the current situation.

In the Dawei Dynasty, before the age of twenty, when he entered the fifth-order Wuzong, he was already regarded as the top genius of the dynasty, and he could join the Emperor Star Academy and receive dynasty training.

For example, Huatiandu, Leng Wushuang, and Ditianyi of Xuanzhou are all of this level.

And the stronger ones are before the age of 20, entering the middle stage of the fifth stage, or even the late stage of the fifth stage.

And the late-stage fifth-tier genius at about twenty years old, among all the geniuses in the entire Emperor Star Academy, is already the top group.

But if you say that you can enter the sixth-order martial arts before the age of twenty.

That is rare in the entire hundred dynasties.

Back then, Xia Wushang, the Ninth Prince of the Great Xia Dynasty, Zhou Xun, the Sixth Prince of the Great Zhou Dynasty, and Zhou Zhiwei of Xuanyin Pavilion. These people were all around 19 years old. They were all Wuzongs at the peak of the late fifth stage and entered the black death. Swamp, also trying to find a way to enter the sixth-order Wuzun.

Once they can enter the sixth-order martial arts before the age of twenty, it will be enough to resound throughout the land of a hundred dynasties, and even join the more powerful forces in the northern sky.

But now, Qin Chen seemed to be less than twenty, or even sixteen or seventeen years old, and he was already a rank six martial artist, so everyone on the court was not shocked.

"Two, now, it is what I am dealing with with the Leng Family Patriarch. The two of them are changing the subject here, is it a bit too much?" Liu Xuanrui snorted coldly.

When Yan Wuji and Yue Lengchan came over, they completely ignored Liu Xuanrui, even if they were the suzerains of the two sects, Liu Xuanrui was angry.

"What your Majesty said is extremely true. In fact, waiting for my visit this time, I also believe that the Leng Family did not deliberately sell low-quality pills. There must be something hidden in this. I believe your Majesty will be able to see clearly."

"Moreover, as far as I know, the Leng family has sold a lot of pill to the entire market. The most important thing to do now is to recover the loss and immediately let Leng family reclaim the inferior pill. As for how to punish the Leng family, After the matter has been dealt with, the decision will be made."

"If the pill of the Leng family is allowed to continue to spread, it will be a huge damage to the warriors of my mighty dynasty. Now, only the Leng family knows who the pill was sold to. According to the old man, your majesty is better Let the Leng family take credit for atonement first."

"Your Majesty, what do you think?"

The three powers of Wu Ji Sect, Gui Yuan Sect, and Wu Family, all looked at Liu Xuanrui, their eyes glowing, and their eyes revealed brilliant colors. "Okay, as the three said, Leng Po Gong, your Leng family sells low-quality pill. Today I see that there are still so many people who need to make up for their losses. I first order you to take back all the inferior pill immediately, and Return the pill purchase money to each warrior who purchases the new pill. After everything is processed,

Then explain to me your Lengjia problem. "

Under the gaze of the great martial kings, Liu Xuanrui took a deep breath and could only give up his plan to attack Leng Family.

But the feeling of being intimidated by others made his chest rise and fall, and his whole person was bursting with anger.

"Thank you for your justice."

There were so many warriors on the field, but they didn't know Liu Xuanrui's thoughts, and they all knelt down and saluted with excitement.

"Commander Long, you lead the Imperial Guard to stay and supervise Leng's aftermath. The others, follow me back to the palace."

Liu Xuanrui looked ugly, turned and left the trading market.

"Let's go too."

Zhuo Qingfeng looked ugly, and said to Qin Chen.

Qin Chen glanced at the few Leng Pogong people who shot cold eyes, nodded, followed Zhuo Qingfeng and turned away.

He knew that it would be impossible to think about what to do to the Leng family today, but he also understood the real situation of the Leng family.

The Wu Family, the Promise Sect, and the Guiyuan Sect, even risked offending Liu Xuanrui to support Leng Pogong. It can be seen that the alliance between these four powers is by no means as simple as an

ordinary alliance, and has even reached a certain level. This important agreement has achieved the point where offense and defense are integrated.

With such a huge alliance, even Qin Chen frowned and couldn't help but feel a little gloomy in his heart.

However, even though the Leng family was not taken away by Liu Xuanrui in this confrontation.

However, the losses suffered were not reduced by this.

Many warriors who received the news came to the Leng's shop and demanded to return the pill that they had bought before.

Seeing a large number of real stones that have just been handed over, and have not even covered the heat, they have returned one by one. Everyone in the Leng family feels distressed, and their hearts are bleeding.

Moreover, in order to be able to refine more new types of pill, they also used a large number of real stones from the sale of pill to rush to purchase hundreds of thousands of catties of phoenix grass from other forces in the imperial city.

Now these phoenix grasses can only rot in Leng's warehouse, but the people in the imperial city have to return the real stones.

Under the double blow, when the Leng family returned the last real stone, the entire Leng family's treasury had been completely emptied.

He even borrowed a lot of real stones from the Wu family and other forces to repay debts, which was miserable.

"boom!"

In the palace, as soon as Liu Xuanrui returned to his bedroom, he shot angrily and smashed the things in his bedroom.

"Presumptuous, really presumptuous."

Liu Xuanrui's eyes were angry, and the whole body was lingering with real power, and he was about to explode. The emperor of his majestic dynasty, when has he suffered such humiliation?

[Chapter 804: Crazy expansion](#)

The Leng Family, the Wu Family, the Guiyuan Sect, and the Wuji Sect did not take him as a monarch in their eyes.

"Your Majesty, don't get angry."

Huang Huan was scared to hide at first, but after Liu Xuanrui's anger subsided, he came up to comfort him.

"If it weren't for the ancestor, his deadline is approaching, he can't make a move at all, otherwise, how can I let these guys run wild in my Liu Dynasty?"

The Liu family, being able to control the mighty dynasty and become a monarch, is not without background.

In fact, Liu Jiashang has an ancestor living, and his cultivation is extremely amazing, he is the veritable number one master of the dynasty.

This is also the reason why the Leng Family, Wu Family, Guiyuan Zong, and Wujizong alliances are extremely powerful and occupy almost half of the dynasty's top powerhouses, but they dare not completely fall out with the Liu Family.

It is because of fear of the hidden ancestor of the Liu family.

However, the Leng family did not know that Liu, the ancestor, was about to get old because of the approaching deadline.

"I asked Shadow Guard to look for the elixir and pill for longevity, have they found it?" Liu Xuanrui looked at Huang Huan.

"Your Majesty, the pill for prolonging life is too scarce. Shadow Guard has been looking for it urgently, but there has been no clue." Huang Huan smiled bitterly.

"Oh, how can this be good."

Liu Xuanrui looked worried.

Originally, today was a great opportunity to take down the Leng family, but who would have expected that Yan Wuji and the others would come forward strongly and keep Leng Po Gong.

He was forced to retreat, ostensibly to give the opponent a chance, but if Leng Pogong and the others guessed that their royal ancestor was in health, it would be extremely dangerous for their Liu family.

With Leng Pogong's wolf ambition, the dynasty will surely be turbulent, and Liu Clan will be overthrown from the throne of the throne.

The only good news is that this time, the Dan Pavilion secretly designed to suppress the Leng Family, who originally controlled the Qicheng Dan Dao forces of the dynasty, and lost most of the market.

Even Leng's wealth accumulated for hundreds of years was lost because of this, and his vitality was greatly injured.

Otherwise, Liu Xuanrui really didn't know what to do.

"Your Majesty, that Zhuo Qingfeng is a disciple of the Beitianyu Pill Pavilion. There is really no way. We can only turn to him. Maybe he can get a longevity pill from the Beitianyu, but that's not necessarily." Huang Huan sees Liu Xuanrui, with a sad look, suggested.

"Wait for a while, if it doesn't work, you can also try it." Liu Xuanrui sighed.

To be honest, he was unwilling to tell any outsiders about their Liu family ancestor's illness.

Once the news is leaked, it will be a catastrophic consequence for the entire Dawei Dynasty.

But if there is nothing to do, this may be the last hope.

Dan Court. "There is little dust. Although we suppressed the new type of medicine of the Leng family, what should we do next? The Leng family will never let it go after such a big loss. Next, you'd better treat it. Don't go anywhere else in the Dan Pavilion, otherwise, with Leng's character

, I don't know what to do. "

As soon as he returned to the Dan Pavilion, Zhuo Qingfeng said worriedly.

Although they suppressed Leng's pill market, they could not compare with Leng's in the top military.

Once Leng Po Gong tears his face and uses the method of assassination, Qin Chen's safety will become extremely dangerous.

In the Dan Pavilion, there is at least formation protection, no matter how arrogant Leng Po Gong is, it will not break into the Dan Pavilion to kill people.

"I know." Qin Chen said, narrowing his eyes.

Knowing the terrifying strength of Leng Family Alliance, Qin Chen also felt a trace of pressure in his heart.

After today's experience, he and Leng's family have long been immortal. Between the two, only one can survive, and there is no second possibility.

"Don't worry about the Leng family for now. Taking advantage of the Leng family's vitality, we will take advantage of the victory and first occupy the entire dynasty's medicine market." Qin Chen said solemnly.

The three special medicinal pills he gave to Dange were absolutely revolutionary in the land of a hundred dynasties. As long as they were promoted, they would definitely quickly occupy all the dynasty's markets, completely repelling Leng's family, and had no place to stand.

"I will arrange it." Zhuo Qingfeng nodded.

Next, Dan Pavilion began a vigorous promotion.

A large number of special effect medicines were quickly promoted, not only in the imperial city, but in just three days, they were distributed to every state in the entire dynasty.

The warriors in the imperial city, after being so tossed by the Pill Pavilion and the Leng Family, were lingering fears about the so-called special effect pill.

But the warriors in the states below the dynasty didn't feel anything. On the first day when the three special effects of Dan Pavilion were launched, they caused a huge sensation.

If you walk into the states below, you will find that the branches of the Dan Pavilion where each state is located are all swarming with warriors. The scene is so hot that it is even more exciting than a chicken blood.

In order to rush to buy the three special effect medicines, the whole hall was crowded, and there was almost no place to stay.

The first batch of people who bought the pill also tried it with suspicion.

This test shocked them immediately. The effects of the three medicinal pills launched by Dan Ge were not weaker than what they advertised, and even better.

This discovery instantly made all the warriors crazy. Some warriors who had already bought dozens or hundreds of pills of pill, took out their savings, and then went crazy to buy.

The curative effect is such a good, such a cheap pill, even if it is temporarily not used, it is good to stay on the body.

And once you bring it to another dynasty, you can even make a fortune.

Under this frantic rush, the first batch of pills distributed by Dange quickly sold out.

Even though they were fully prepared for the efficacy of the pill, Zhuo Qingfeng and the others were surprised by the explosive energy.

In order to prevent the special effects of the pill from being sold out, even Zhuo Qingfeng personally took the stage in the end, and a large number of alchemists in the pill pavilion rushed to make it overnight.

A large number of special effect elixirs crashed down the assembly line.

For seven days in a row, Zhuo Qingfeng almost didn't even have time to rest. He didn't know how many pills he had made, and he was exhausted enough to make him, a sixth-grade peak alchemist.

In these seven days, the pill of Pill Pavilion quickly occupied all the markets of the entire Dawei Dynasty.

All Leng's shops were quite empty and empty.

The Leng family, who had dissipated all his fortunes, could only watch the Dange quickly grab the dynasty's pill market, unable to organize a strong counterattack.

Seven days.

Just seven days. Leng's family, who originally occupied the Qicheng Qicheng pill market of the Dynasty, was broken into the abyss. Seventy percent of the market was left, but less than 10% remained. Pill Pavilion strongly occupied the remaining 90% of the market and was even expanding wildly.

[Chapter 805: Liu Xuanrui's plan](#)

After the news came back to the imperial city, the warriors in the imperial city were all crazy after they learned that the pill pavilion's special effects really had no side effects.

In an instant, all Dan Pavilion shops in the Imperial City were captured by a large number of warriors, and the daily transaction volume was astonishing.

And the hardest part is to count the core alchemists in the Pill Pavilion.

Crazy refining every day, ten days of crazy refining, one by one can hardly stand up.

It was just during the rest process that many alchemists were surprised to find that this kind of high-intensity refining had caused their mental power to increase so much in the past half month.

This discovery made these pharmacists crazy suddenly.

Any idiot knows that it is extremely difficult for a pharmacist to increase his spiritual power, and even a small amount of it will take at least a few months of cultivation.

However, in the process of frantically refining this pill, only half a month, they had their usual half-year improvement. This improvement made all the pharmacists stunned.

Originally, Pill Pavilion asked them to refine these special effect pills recently, but they were still a little dissatisfied.

After all, as a pharmacist, who is not very arrogant and wants to improve one's alchemy attainments instead of becoming an alchemy machine.

Even because of this, he was even a little dissatisfied with Qin Chen who had taken out the special effect pills. But now, the unique alchemy methods of these three special effect pills can actually increase their strength. This time, there is no need for Zhuo Qingfeng and Xu Bo to urge them to speak. These alchemists, who were originally tired into shit, are like It's like a chicken blood, and I haven't rested for a long time.

One after another took the initiative to start work.

Ever since-

A large number of special effect pills, like flowing water, madly swept the entire Dawei Dynasty.

Half a month later, more than 90% of the medicine market of the entire Dawei Dynasty was controlled by the Pill Pavilion, becoming a unique overlord.

Royal palace.

Liu Xuanrui who got the news shot the table excitedly.

"The Leng family is over."

Seeing that in the survey, more than 90% of the shops in the Leng family were already available, Liu Xuanrui knew instantly that the Leng family, the largest family of the dynasty, was finished.

Without the money-printing machine in the pill market, the Leng family can only shrink continuously.

Unless they can develop a brand-new pill that surpasses Dange, but this possibility is almost zero.

"The special effect pill developed by Pill Pavilion is really that amazing?" Putting down the information in his hand, Liu Xuanrui looked at Huang Huan.

"It's stronger than imagined. I heard that many soldiers of the Imperial Guard have purchased the special effect pill of the pill pavilion these days. In these short two or three days, the warriors who have made breakthroughs in their cultivation are actually There are more than three thousand people." Huang Huan said shockedly.

"More than three thousand people?"

Liu Xuanrui stood up all of a sudden, his eyes rounded.

How many people are there in the entire Janitor? Twenty to thirty thousand people are up to the sky, responsible for the safety of the entire palace, almost the top group of soldiers in the entire Dawei Dynasty.

Naturally, these people enjoy the best resources, and there is no shortage of all kinds of pills.

Therefore, it can be said that the state of each Janitor has been adjusted to the extreme in the past, and it is generally stuck in the bottleneck stage and cannot make progress.

But after purchasing Dange's special-effect elixir, in just a few days, more than 3,000 people got a breakthrough. What is this concept?

Liu Xuanrui felt terrible just thinking about it. "Your Majesty, for the specific figures, the old slave asked the commander of the Imperial Guard Long to register specifically. There should be 3,769 people, and this is because the Dange special effect medicine has no market. The result of the purchase, of course, is to prevent any defects in this special effect pill.

It caused damage to the entire Imperial Guard, so there were only 15,000 soldiers in the Imperial Guard who took special-effect pills in advance. Huang Huan continued.

Liu Xuanrui's eyes burst into sharp light.

15,000 people took the pill, and more than 3,700 people broke through.

my God.

This is almost a quarter of the Janissaries who have achieved a breakthrough in just a few days.

This is still the Imperial Guard who usually takes too many pills.

If this kind of special effect pill was extended to all armies of the entire Dawei Dynasty, what scene would it be?

I am afraid that in the entire Dawei Dynasty army, one-third to half of the soldiers will have a breakthrough, which is almost equivalent to the combat effectiveness of the entire Dawei Dynasty army, directly doubled.

"Huh!"

Eyes were red, and Liu Xuanrui's breathing instantly rose.

He paced back and forth in the hall, his eyes flickering and his fists clenched.

At this moment, he could already imagine the result of doubling the military strength of the entire Dawei Dynasty.

All dynasties that had disputes with their Dawei dynasty on the border will be crushed and crushed.

"No, you can find a time to make an appointment with Pavilion Master Zhuo Qingfeng for me. No, I should go to the Dan Pavilion personally. Now, it is now."

Liu Xuanrui already had an amazing plan in his heart, and he could no longer hold back his excitement, and hurriedly left the hall.

Dan Court.

Zhuo Qingfeng was also stunned at the speed of Dan Pavilion's development at this moment.

In just half a month, their pill pavilion shed all kinds of costs and circulation expenses, and with these three brand-new pill, they have earned a full five million middle-grade real stones.

And every day, this number is constantly increasing, which makes Zhuo Qingfeng and other Dange people feel dizzy and don't know what to say.

When was the money so good?

To know that their Dange's net profit in the past year was only a few hundred thousand middle-grade real stones, but now, in half a month, they have earned their usual profit for nearly ten years. In the past, I couldn't even think of it. .

In comparison, the profit made by Phoenix Lancao can only be regarded as a temporary profit.

"This is just the beginning. People's friendship will continue to rise. In the future, sales will slowly drop, but they will also stabilize at a relatively high level. Of course, all this depends on Dange's production and raw materials. Speed." Qin Chen smiled lightly.

If Dange has enough production volume and develops a route to sell to other dynasties, sales will even double or tenfold. It is not impossible.

"Little dust, here are the five million middle-grade real stones earned these days, all of which are given to you."

Zhuo Qingfeng took out the storage ring from his body and placed it in front of Qin Chen carefully.

Through Fenglancao, their Dange made a profit of one or two million middle-grade real stones. These five million middle-grade real stones, no matter what Zhuo Qingfeng thinks, he shouldn't take it for himself. "I'll take half of it. Pavilion Master Zhuo will take the remaining half." Qin Chen put away half of the middle-grade real stone.

[Chapter 806: Chendi Pavilion](#)

"Little dust, how can this be?" Zhuo Qingfeng suddenly became anxious.

Qin Chen gave them too much help to the pill pavilion. Just healed his injury, and he was saved by Zhuo Qingfeng, not to mention that these three pill prescriptions were all provided by Qin Chen.

What's more, without Qin Chen, their Dange made so much, and it is very likely that they have been swallowed by the Leng Family.

So what, Zhuo Qingfeng was unwilling to accept the remaining middle-grade real stone.

"Pavilion Master Zhuo, don't worry, listen to me slowly." Qin Chen said lightly: "These five million middle-grade real stones are just a small amount of money. My three kinds of alchemy are enough in this hundred dynasties. Initiating the revolution, I can guarantee that there is no elixir in the land of the hundred dynasties that can develop an elixir that surpasses these three special effects. No, not only the land of the hundred dynasties.

, I'm afraid that even Beitianyu may not have such alchemy forces to do this. "

"In other words, next, when your Dange completely stabilizes the market of the Dawei Dynasty and takes over, the Dange market will inevitably expand to other dynasties. Even if the Dange does not do it, there will be some smugglers sold these three medicines to other dynasties."

"So what Dan Pavilion needs to do next is to continue to strengthen itself and expand abroad. This requires a lot of financial resources, and even sometimes it has to introduce other partners, and even give the higher Dan Pavilion a certain amount. Share."

"And the remaining half of the profit is what you must take away from the Dange doing these things, otherwise, it will not be possible at all. What you have to do is to ensure that half of my profit will never change. It's okay."

Qin Chen knew very well how amazing the financial resources it would take to promote a brand-new pill.

It's not that your stuff is good enough, you can surely promote it, there are too many doors and ways.

And these are all Dan Ge needs to do.

"Less dust, I understand."

After listening to Zhuo Qingfeng, he also understood what Qin Chen meant.

Qin Chen nodded: "Next, I will form a force called Chendige, and sign an agreement with Dange to authorize your Dange to develop these three special effect pills, and limit the proportion of profits. Externally, Dange must make it clear that this Danfang is the product of our Chendige."

"Chendi Pavilion?"

Zhuo Qing was stunned and nodded, "No problem."

Not to mention limiting Qin Chen's half of the profits, even if he gave Qin Chen all the profits, Zhuo Qingfeng would not blink his eyes.

Qin Chen also knew that Zhuo Qingfeng would not lose half of his profit, but he had to do this.

Zhuo Qingfeng, after all, was only the pavilion owner of the Dan Pavilion of the Dawei Dynasty, and he was sent by the Lord Beitianyu Dan.

Once these three special-effect pill medicines are promoted, the Beitianyu Pill Pavilion will certainly not sit back and ignore the benefits, and will definitely step in.

If Zhuo Qingfeng was unwilling, the Beitianyu Dan Pavilion would even directly abolish Zhuo Qingfeng.

At that time, Zhuo Qingfeng couldn't do many things at all.

Once this type of agreement is signed, it is completely fine.

Even if Zhuo Qingfeng could not be the master, the Beitianyu Dan Pavilion would not be able to deprive him of Qin Chen's interests. If the other party really dared to do so, the Chen Di Pavilion represented by Qin Chen could directly cancel the authorization of the Dawei Dynasty Dan Pavilion.

At that time, the Beitianyu Dan Pavilion can only draw water from a bamboo basket.

Even with this agreement, the other party can't even use strong ones.

The reason why the Dan Pavilion can become the top alchemy power in the mainland, and the holy place that all alchemists admire, is because of the Dan Pavilion's discipline.

The pill pavilion is very important to the copyright of the pill owned by each pharmacist. Once a pill pavilion belongs to a pharmacist who dares to occupy the pill that a certain pharmacist owns, he will inevitably be strictly investigated by the pill headquarters.

Once, there was a first-level pill pavilion branch, equivalent to the pavilion owner of the pill pavilion headquarters in the mainland. In order to obtain a new pill of the seventh-order medicine king, he did not hesitate to kill the person and occupy its prescription.

As a result, after being known by the Wuyu Dange Headquarters, he immediately sent people down to conduct a rigorous investigation. After finding out the truth, he directly executed the pavilion owner who even had a major background in the Dange Headquarters.

The headquarter elder behind the pavilion master had never participated in it, but he was severely punished for it. He was directly deprived of his position as an elder, and he was imprisoned in the forbidden area of the Dan pavilion for a hundred years.

Since then, no one in the entire Dan Pavilion dared to violate this iron law.

"Little dust, what is this Chendi Pavilion?"

After the agreement was signed, the black slave couldn't help but ask.

"Chendi Pavilion is a force established by this young master. From now on, you will belong to my Chendi Pavilion." Qin Chen smiled, his expression relaxed, but his eyes were sharper than ever.

Chendi Pavilion was his first step in the Dawei Dynasty. One day, he would let this name shock the entire Tianwu Continent.

After signing the agreement, what Qin Chen and Zhuo Qingfeng are concerned about is how to expand operations and production, and expand the business of Chendige.

At the same time, Qin Chen also had a headache. Where was the Chendi Pavilion built in the headquarters of the Dawei Dynasty.

In the imperial city, every inch of land is golden. As Qin Chen's starting point, Qin Chen naturally doesn't want it to be unknown. He just wants to build another huge place like Pill Pavilion in the imperial city. It's really hard to find. .

"My Lord, your majesty is here."

At this moment, someone suddenly came to report.

"Pavilion Master Zhuo, Master Qin, don't come here without problems."

Seeing Zhuo Qingfeng and Qin Chen again, Liu Xuanrui was extremely enthusiastic.

"Your Majesty is a rare visitor, I don't know what is going on when your Majesty is here this time?" Zhuo Qingfeng smiled.

"Pavilion Master Zhuo is quick to speak, then I will be welcome." Liu Xuanrui went straight to the subject: "I would like to purchase three special effect pills from your pill pavilion, each with 100,000 pieces, and try to deliver them within three months. Please help from Pavilion Master Zhuo."

"One hundred thousand each?"

Zhuo Qingfeng was taken aback. This is not a small amount, and it will be delivered within three months. What does Liu Xuanrui want to do?

"Your Majesty, you have also seen our special effect pill. The market is very tight. Our pill pavilion has been fully refined, but the supply is still in short supply. Your Majesty directly asks for 300,000 pills. It is difficult..."

Zhuo Qingfeng didn't take advantage of Liu Xuanrui, but with the current size of the Dange, if the royal family were given priority to supply 300,000 pieces, it would definitely have a great impact on their Dange's own business.

"I also know that this is a bit difficult for a strong person. What are the requirements of Pavilion Master Zhuo, just mention it. As long as I can do it, Pavilion Master Zhuo will definitely be satisfied."

"This matter, Zhuo Mou really can't agree to your Majesty. If your Majesty really wants it, it is better to discuss with Chen Shao. The business of the three special effect pills has been taken over by Chen Shao Chen." Dige?" Liu Xuanrui looked surprised.

[Chapter 807: Who takes advantage](#)

"Your Majesty, this Chendi Pavilion is a force just established by Qin." Qin Chen laughed.

Liu Xuanrui frowned.

"Master Qin wants people from the Five Nations to enter my Dawei Dynasty?" Liu Xuanrui suddenly said something inexplicable.

Upon hearing Qin Chen's establishment of the Chendi Pavilion, Liu Xuanrui's first thought was the threat of this Chendi Pavilion.

You know, the three special effects of Dange now occupy 95% of the market for the pill of Dawei Dynasty.

If Dange was doing it, he wouldn't think there was anything. After all, Dange was just a neutral force and couldn't participate in local battles.

But once it was handed over to other forces, with the terrifying power of these three medicines, it was equivalent to instantly planting a terrorist force equivalent to the previous Leng family, even more so than the previous Leng family. Qin Chen, who naturally knew Liu Xuanrui's concern, said with a smile:

"Your Majesty, don't worry, I, Chendi Pavilion, will indeed accept the powerful and geniuses of the Five Nations, but there is no conflict with your Majesty's ambitions. According to Ben Shao, his majesty's goal should be to become the leader of the land of a hundred dynasties.

The sleeves even dominate the land of a hundred dynasties, but for Ben Shao, your majesty's pattern is too small! "

Qin Chen gave a faint smile.

"Small pattern?" Liu Xuanrui's eyes widened when Qin Chen said his thoughts.

"Yes, even if your Majesty rules the land of hundreds of dynasties, what does it mean, how many regions does Tianwu Continent have? There are not a few places that are stronger than the northern heavens, not to mention that the land of hundreds of dynasties is just an ordinary place below the northern heavens. It's just the ground."

Qin Chen said casually, with that expression as if the dominance of a hundred dynasties was just as worthless to him as Chinese cabbage.

Liu Xuanrui was speechless, this Qin Chen, with a big tone, the monarch pattern of the land of a hundred dynasties was still small, so what would it cost?

He also knows that the Land of Hundred Dynasties is nothing in the Northern Heavens, but for him, who was born in the Land of Hundred Dynasties, it is not easy to maintain the development of the Dawei Dynasty, let alone Said to open up the territory.

Seeing Liu Xuanrui's bewilderment, Qin Chen didn't explain it either. Naturally, his ideal could not be explained by Liu Xuanrui.

"Your Majesty, you only need to know that our Chendi Pavilion has no ambition to ban the dynasty. It will become a force similar to the Dan Pavilion. You and me will only grow together without conflict." Qin Chen said with a smile.

"Of course, if your majesty is still not at ease, I have a condition here, I believe your majesty will definitely be happy."

Seeing Liu Xuanrui still a little jealous, Qin Chen suddenly laughed.

"What conditions?" "These three special effect pills are now jointly developed by Chendige and Dange. The production capacity has not kept up. In addition to the lack of manpower, there is another important reason, which is the raw materials. Has been insufficient, so if your majesty can provide the raw materials of the three medicines, I can

On behalf of the Chendi Pavilion and the Pill Pavilion, 10% of the profits of the three special effect pills are distributed to the Dawei Dynasty. How about? "

"What? Give me 10% of the profit to the Dawei Dynasty?" Liu Xuanrui suddenly exclaimed. "Yes, your Majesty should know the effects of our three special effect pills. Once the production capacity is up, we will definitely put them in the entire hundred dynasties. Your Majesty wants to open up the territory and expand the land. How much financial resources will be consumed, I think your Majesty should be very clear. , With this profit, what your majesty can do, should not be

Let me talk more. "

"Furthermore, since the Dawei Dynasty has become a part of our relationship, in the future, which dynasty will be given priority and which dynasty will not provide these three special effect pills, will naturally have a certain right to decide. Taking advantage of this condition, I think your Majesty is in the land of a hundred dynasties, I am afraid there is a lot we can do."

Qin Chen said with a smile.

Liu Xuanrui was completely unable to sit still at this time.

He naturally knows the benefits of being able to join.

Just being able to make these three medicinal herbs not supply the dynasty of the powerful and hostile is already extremely terrifying, not to mention that he can also use these three special-effect elixirs to unite a large number of dynasties, which is for the Dawei Dynasty. , Will be an extremely huge temptation.

"Of course, if your Majesty is worried that we will not believe our words, we can sign an agreement with the three parties, with the pill pavilion as the guarantee, what else is your Majesty worried about? Moreover, your majesty's palace alchemist can also participate in the refining of the pill and control it. How does your Majesty feel during the whole refining process?"

Qin Chen squinted and dropped another blockbuster.

"This....."

If Liu Xuanrui had any doubts before, this time, it was completely dispelled.

If the three really signed the agreement, Qin Chen and Dange wanted to cheat him, as long as they took the agreement to appeal to the superior Dange, Zhuo Qingfeng and the others would not even think about it. This simply gave him a handle.

"Then Master Qin, what do you want?" Liu Xuanrui took a deep breath, but still didn't rashly agree and looked at Qin Chen intently.

Qin Chen hasn't said his conditions yet

"Actually, I don't want anything. I just need all the businesses of Chendi Pavilion in the Land of Hundred Dynasties to be protected by His Majesty. At the same time, I also want the right to develop the slums of Xicheng."

"The right to develop the slums in Xicheng? What do you want this to do?" Liu Xuanrui was stunned.

"Your Majesty will naturally know then, but I don't know whether your Majesty agrees."

"Okay, I agree."

Without any hesitation, Liu Xuanrui made a decision directly.

This is simply a benefit, as long as Qin Chen's Chendi Pavilion does not have the ambition to subvert his powerful dynasty, then he is a fool to disagree.

Soon, the three parties formally signed an agreement.

Looking at the big seal on the pill of the agreement, Liu Xuanrui's heart was completely put back in his stomach.

"Little dust, what do you want the Xicheng slums to do? And directly give the Dawei Dynasty 10% profit, which is too cheap for him?"

As soon as Liu Xuanrui left, Zhuo Qingfeng couldn't help asking.

"Pavilion Master Zhuo really thinks Liu Xuanrui is cheaper?" Qin Chen looked over with a smile. "Is it right? As long as Liu Xuanrui provides the raw materials, he can get 10% of the profit. Compared with the value of the raw materials, this 10% of the profit is far too much, and he can also allow the palace alchemist to participate in the refining process and control the pill. For him, the sales channel of medicine is not a big profit."

? "Zuo Qingfeng was speechless."

"Since you said he made a lot of money, then I ask you, what is the biggest bottleneck we want to develop now?" Qin Chen did not answer directly, but asked with a smile.

"Capacity, raw materials, and channels." Zhuo Qingfeng said.

"Isn't that all right?" Qin Chen said with a light smile: "No matter how big the channel of the Dan Pavilion is, can Liu Xuanrui be as big as you? You know, Liu Xuanrui is the emperor of the Dawei Dynasty after all, and he has secret connections with other dynasties in the Land of Hundred Dynasties. With his presence, the problem of raw materials can naturally be solved."

"Let the palace alchemist join, on the surface, he is in control of the refining process. In fact, it is twice as much as our free alchemist labor force." "As for the channel, because every dynasty has a Dange branch, if it is in the name of Dan Pavilion, rushing into other dynasties will definitely trigger a rebound of these Dan Pavilions. Then, what can you do if you submit a letter to the Dan Pavilion in the North Tianyu? You can only give up a portion of the profit obediently, but let the Dawei Dynasty and I dust meaning."

If the court comes forward, it will be unimpeded. "

"Let the Dawei Dynasty join, and all three problems of production capacity, raw materials and channels will be solved. Moreover, we have saved the cost of raw materials, but only 10% of the profits have been let out, and we have received the full support of a Dynasty. Who is it?"

Qin Chen looked at it with a smile. Zhuo Qingfeng aside, he was completely silly.

[Chapter 808: Solicit untouchables](#)

At the beginning, he felt that Qin Chen's conditions were simply extremely wronged, and Liu Xuanrui made a lot of money for nothing.

But now after such an analysis, how did Zhuo Qingfeng feel that it was Liu Xuanrui who was brought into the pit instead, and he and Qin Chen made a lot of money for nothing.

Once the problems of materials, production capacity, and channels are resolved, their Dange can quickly expand, and even in a very short period of time, it is possible to expand several or ten times.

"In fact, when doing business, sometimes you can't just consider the immediate profit, but look at the long-term."

"Liu Xuanrui's ambition is very simple. Like any emperor, he wants to open up the frontiers and expand the land and control the entire land of a hundred dynasties."

"But our goal is different. This land of a hundred dynasties is just the place where my Chendi Pavilion rises."

Qin Chen's eyes were bright.

The land of a hundred dynasties is too small in his eyes, but it is an excellent place for nurturing.

Here, no one notices him, he can continue to grow himself, until one day, appear in front of the world.

The so-called wind starts at the end of Qingping.

Sometimes, a single spark can also start a prairie fire.

Zhuo Qingfeng looked at Qin Chen in shock. At this time, Qin Chen stood there quietly, but there was a pressure that made him unable to look up.

He was a bit out of breath for this half-step peak martial king.

"Who is Shao Chen? I have never felt this breath even in Master. He is so old that he can exude such a terrible breath, it is incredible."

Zhuo Qingfeng felt an incomparable shock in his heart.

"But there is little dust, what do you want the Xicheng slum? The place is smelly and broken, and it is a trouble to come over." After a moment, after recovering from the shock, Zhuo Qingfeng was a little speechless.

Xicheng slums have always been a headache for many forces in the imperial city.

Especially the royal family.

Such a poor and dirty place is located in the imperial city, which can be said to be like mustard moss. It can not be cut off with a single knife, and it is difficult to manage. It is a very troublesome place for the monarchs of the past.

Now Qin Chen actually asked Liu Xuanrui for such a piece of land, immediately making Zhuo Qingfeng extremely speechless.

Although such a place is very large, it is of no use at all, and it is not valuable at all. It is completely inconvenient to manage, just like a burden.

"I am going to build the Xicheng slum into the headquarters of my Chendi Pavilion in the Dawei Dynasty." Qin Chen smiled.

"what?"

Zhuo Qingfeng's eyes widened: "You want to build the Chendi Pavilion headquarters in a slum?"

He exclaimed, his expression as if he had seen a ghost, full of horror. "Yes." Qin Chen nodded and said, "I thought about where the headquarters of Chendi Pavilion should be built, but after thinking about it, there is no suitable place in the entire imperial city. I can build a similar one. Dange's place is the only slum with a large area and a very low price.

Those who live in are poor people, and the house does not have its own property rights, which is very suitable for development. "Little dust, you are really too impulsive, I thought you would do what you want in the slums." "Zhu Qingfeng looked speechless: "With the terms we just discussed with Liu Xuanrui, you can directly ask him for a set of the most golden shop as the headquarters in the trading market in the center of the imperial city. Now you have such a

The broken place, although it is very easy to develop, there is no trouble. But the Chendige headquarters is there, who will come to do business? I guess no one is willing to come. "

Zhuo Qingfeng smiled bitterly. He knew that Qin Chen had this idea. He would also stop Qin Chen from killing him.

Although other places are expensive, at least there are people there, there are markets, and the slums, let alone the nobles in the imperial city, even normal civilians are unwilling to step in for fear of tainting their feet.

If the headquarters of Chendi Pavilion were opened there, there would probably be no one.

"Pavilion Master Zhuo don't worry, I have a way to turn that slum into a golden zone." Qin Chen said very confidently, with a mysterious smile on his face.

"Turn the slum into a golden zone? How to change it?" Zhuo Qingfeng looked suspiciously.

Even if he believes in Qin Chen's methods, he does not believe that Qin Chen can solve the problem that the royal family of the Dawei dynasty has suffered for thousands of years.

Qin Chen did not answer directly.

"Pavilion Master Zhuo, if our Dange business wants to expand, we need to recruit a large number of people. Shouldn't we be hiring people crazy these days?"

"That's right, you have given too many special effect medicines, Chen Shao, and we need manpower in various places. We have already recruited a lot of people, but in many places, there is still not enough manpower. I hope that Liu Xuanrui will join in to alleviate the problem of some personnel. Right."

Although I don't know why Qin Chen asked so, Zhuo Qingfeng answered carefully.

"Then I ask you, those people in the slums usually find it difficult to find a job, right?" Qin Chen asked again.

"That's for sure. If they have a stable job, they won't have the ability to rent a house together in the imperial city. They can only stay in a slum." Zhuo Qingfeng said contemptuously.

"Then you say we give him a job, would they do it?"

"That's not enough. It must be done for robbing heads. We are Dange, not anyone can come in." Zhuo Qingfeng's eyes widened, "There is little dust, you are not trying to recruit all the people from the slums. Come to our Dan Pavilion and Chendi Pavilion, right?"

"No, no." At this point, Zhuo Qingfeng hurriedly waved his hand: "Absolutely not."

"Why not?" Qin Chen asked back. "You don't know the dust, these people in the slums are not that we look down on them, nor that there are no characters in them, but that they have always been good and lazy. They can only do some lowly work, and they are extremely sloppy, like our Dange Hechendige, how can such an important job be

Do it for them. Zhuo Qingfeng hurriedly said. "I don't think so." Qin Chen said indifferently: "No one wants to be a lifetime dregs, trash, or a pariah who is scolded by others, and they are looked down upon everywhere they go. The reason they are like this is just lack of an opportunity, as long as we can give them one. Opportunity, a truly respectable

Yan's opportunity, instead of giving them a low job like other forces, I believe they will definitely change."
"

"Okay, even if you are right about Xiao Chen, they will do it seriously. The slums are so rubbish. If you built the Chendi Pavilion, who would be willing to come?" Zhuo Qingfeng said again.

Qin Chen smiled and looked at Zhuo Qingfeng, "Let me ask you first, how many large powers are in the imperial city? How many medium powers and small powers are there?" "Like the three big families, the Zongmen Alliance and our Dan Pavilion I am afraid that there will be a dozen such large forces, there may be hundreds of medium forces, and even more small forces, at least thousands of them." Zhuo Qingfeng said slightly mentally.

[Chapter 809: Business center](#)

"Do these forces have shops in the imperial city?" Qin Chen continued to ask. "How could it be possible that every inch of land in the imperial city, the core shops in the most prosperous trading market in the imperial city center, are priced at least one million middle-grade real stones, and no one has sold them. As for the relatively remote streets of Dongcheng and Nancheng, they must Seventy to eighty thousand middle-grade real stone, half of the entire imperial city

The fact that the forces have their own shops is great. "

Zhuo Qingfeng thought for a while and said.

These days, in order to expand the Dan Pavilion market, he has made up for the situation in the imperial city. He still has a clear impression of these data.

"Well, according to what you said, only half of the forces in the imperial city have shops. Then I ask you, how do the remaining half of the forces do business?"

"It can still be done, such as partnering with other forces, or being a downstream for some forces, and some simply relying on some forces." Zhuo Qingfeng did not understand what Qin Chen said. "Then you said, if I build a square, um, it's the kind of super huge commercial building. There are all shops in it,

some buying pills, some buying weapons, some improving blood, and some trading blood. Beasts, selling materials, selling cheats, and even eating places

Fang, places of entertainment, and inn where you live, all the places are gathered in such a large commercial plaza, do you think anyone will come?" Qin Chen said with a smile.

Zhuo Qingfeng was stunned by Qin Chen's description. He had never imagined that there would be such a huge commercial center.

He almost blurted out: "Well then, as long as the contents are genuine, it must be crowded with people."

At present, the trading market in the Land of Hundred Dynasties still maintains a relatively primitive situation, that is, on a street, there are shops of various forces, there is a street of pill medicine, and a street of blood beasts.

Moreover, some valuable industries are gathered together, such as entertainment, eating places, and inns, which are extremely remote and far from the center of the imperial city.

This has caused some warriors to travel several blocks and find them for a long time when they need to buy medicine pills. If they want to buy some materials and weapons, they have to go to other blocks and find them for a long time. Finally, they have to wear them when they want to eat. After several blocks, I was exhausted.

If there is such a huge commercial center, and everything can be found in one place, then people must be crazy.

"Little dust, you don't want to build such a commercial center? But even if you build it, who will come? Our Dange only sells elixirs and nothing else. There will only be a large shop empty. No one bought it at all." Zhuo Qingfeng was speechless.

Qin Chen's idea is good, but in a place like a slum, even if a shop is built, there will be no power to buy it. "It's simple. You said that I will pull our Dange main store, and then pull the main store of the Bloodline Holy Land and the Hall of Artifacts, and put them in the center of the square, and then the other stores next to it will only be rented but not sold. According to the location of the store, the annual rent is 10,000 middle-grade real stones to 100,000 middle-grade real stones

, Do you think there will be forces to rent? "

After hearing Qin Chen's words, Zhuo Qingfeng looked at Qin Chen blankly.

If the Dange main store is pulled over, and the Bloodline Holy Land and the Dingqi Pavilion are pulled over, well, the Qidian and Dingqi Pavilion are actually the same, this...

Zhuo Qingfeng was completely stunned.

This is absolutely attractive.

And the rent is so cheap, 10,000 middle-grade real stones, many forces that don't have shops will not lose much even if they try it.

And because of the relationship between Shao Chen and the Holy Land of Bloodlines and the Hall of Instruments, let them move the head office there, it's no problem properly.

"However, even if we build the commercial plaza very well, it is surrounded by slums, so there won't be many visitors." Zhuo Qingfeng couldn't help but said.

"Who said that there are slums around?" Qin Chen laughed: "We recruited all the slums who are still worthy of renovation, and built a spacious and beautiful dormitory area for them, and there is safety guarantee. No forces dare to enter at will. Deceptive, do you think they would like to live?"

Zhuo Qingfeng rolled his eyes. Isn't that necessary? Now that the slums are so chaotic, let alone protect them, even if they just build a new house for them, idiots will live in. "I will renovate the rest of the slums, eradicate all the places, dig out artificial lakes, and build artificial gardens. Um, I will build them at the level of the palace. Finally, I will build buildings in the scenic area. Single-family mansion, sold at half the price of the Imperial City

, Do you think someone will buy it? "

Qin Chen looked over with a smile.

At this moment, Zhuo Qingfeng was completely stunned, and his breathing stopped.

This.....

Zhuo Qingfeng couldn't imagine such a scene anymore.

A commercial plaza containing countless shops, countless beautiful scenery, and the same garden style as the imperial palace, and it is still a single-family mansion. Isn't this completely renovating the entire Xicheng slums and building a private royal mansion? ?

If Qin Chen could really build it so well, and the house was sold for a cheap price, I am afraid the nobles in the entire imperial city would go crazy to buy it.

I even want to buy a house to live in!

According to the market price of normal mansions in the imperial city, a mansion with at least tens of thousands of middle-grade real stone, a discount, even if two to three thousand, one or two hundred were built in the early stage, and sold, this is four to five million. The real stone of middle grade.

The wealth of the Leng family, a top-notch family, was immediately available.

Zhuo Qingfeng was already shocked by this number.

One 20,000 to 30,000 middle-grade real stones, two hundred, is not it four to five million middle-grade real stones?

It's not wrong at all.

my God! As long as it is sold like this, all the construction costs for slum upgrading in the early stage will be paid, right?

This is far more than that, how big is the slum of Xicheng? That is equivalent to one twentieth the area of the imperial city.

Not to mention two hundred mansions, even if it is to build two thousand mansions, there is no pressure at all. In this way, wouldn't it be...

Zhuo Qingfeng was already completely speechless, he was even so scared to death as a half-step peak martial king.

Looking at Qin Chen mumblingly, he no longer knew what to say.

Who said that asking Liu Xuanrui for a slum in Xicheng is a loss? This is really not too profitable.

"The initial investment must be large, and the nobles in the imperial city must see our determination. We must first transform the slums into a garden place." "Secondly, once the commercial plaza takes shape, the commercial center of the imperial city, There will inevitably be a tilt. At that time, the land of the West City will be an inch of gold, and other places will inevitably depreciate. And the Lengjia, Guiyuanzong, and Wujizong who previously had a lot of heavy assets in the center of the imperial city, I am afraid

The lost blood will be lost. "

Qin Chen showed cold light in his eyes.

He built the land of the West City not only to make money, but also to combat the Leng family and other forces.

For the current Leng Family, the funds on the books are probably completely wiped out. If even the shops and mansions they own are greatly depreciated.

Then there is no need for Qin Chen to do anything, forces like the Leng Family and Wu Family will naturally decline and become a history of the Dawei Dynasty.

"Don't worry, little dust, I will arrange someone to do it right away."

Excited, Zhuo Qingfeng and Qin Chen discussed some details, and immediately hurried out to do something. He couldn't wait to see Qin Chen's plan come true.

[Chapter 810: Executed on the spot](#)

Half a day later, Dan Ge issued a strange announcement: "A large number of craftsmen are recruited, and there is no limit to whoever comes."

Because of the popularity of the special effect pill, today's pill pavilion has long become the focus of the entire imperial city, attracting countless people's attention.

As soon as this announcement came out, all the forces in the entire imperial city were stunned.

What's happening here?

The pill pavilion is a place for refining pill. It has always only recruited pharmacists and apprentices. This time it suddenly recruited a large number of craftsmen, and the number was unlimited, which made the imperial city's many powers unable to understand.

"Dan Pavilion is not because the business is too hot, the original place is not enough, you want to build more shops?"

Many people can't help but doubt.

It's just that in the imperial city, every inch of land is gold, even if Dan Pavilion finds a craftsman, there is no place to build a shop for him, and soon this doubt is rejected by themselves.

"Or did the Dan Pavilion make enough money and want to tear down the original Dan Pavilion building and repair it again?" Someone could not help but guess.

As soon as this speculation came out, many people immediately recognized it.

Dan Pavilion had been suppressed by the Leng Family before. Whether it was the headquarters or the many shops all over the imperial city, they were very old and very dilapidated.

In the past, the Dan Pavilion could not occupy much of the market in the imperial city, and few people went to the Dan Pavilion to buy the medicine. In addition, Zhuo Qingfeng did not manage the specific matters of the Dan Pavilion, so no one felt that there was anything wrong.

And even if Dange wanted to rebuild the building, he didn't have the financial resources.

But now, the special effect pill is so popular that many people feel that the buildings and shops of the pill pavilion are not up to date.

At this time, Dan Pavilion wanted to repair the original shops and buildings, which was naturally normal.

Just when everyone thought so, Dan Ge did another thing that made everyone confused.

He even sent a recruitment department directly and entered the slums of Xicheng to recruit. The main recruits were craftsmen and waiters.

Dan Ge, is this crazy?

Who are the people in the slums? Saying it's delicious and lazy, it's nice, but it's a bit ugly. There is simply a bunch of scum in the slums that can't be helped.

To recruit such a person into the Dan Pavilion, isn't this smashing your own brand?

And what shocked everyone even more is still to come.

After learning that the elixir came to recruit people in the slums, the whole slums boiled instantly.

People in the slums have always been looked down upon in the imperial city. They used to go out to find jobs and basically did some low-level jobs. The better ones were thugs, or even dangerous jobs that normal warriors would not do.

Moreover, they are often looked down upon by people, and they are inferior to the people wherever they go. The employers are also a kind of garbage force in the imperial city with a bad reputation.

When I said it, my face didn't shine.

But now, Dan Ge actually came to recruit people, which is as shocking as the sun hitting the west.

Where is Dan Pavilion?

Today's Dan Pavilion is said to be the most powerful force in the imperial city, and no one will veto it.

Several special-effect medicines are setting off a huge storm in the Dawei dynasty. The demand is in short supply everywhere. With their original status, they usually don't even have the courage to step into the Dan Pavilion. Now they hear that the Dan Pavilion is recruiting. Not crazy.

In an instant, almost all the warriors in the slums rushed to the recruitment site of Dan Pavilion madly, all going crazy.

The entire recruitment site is crowded with people everywhere.

"Everyone is quiet. Those who want to join Dange's work immediately line up ten long queues and register in order. They will not be hired if they find that they have jumped in. If anyone dares to make trouble, they will be severely punished on the spot and executed on the spot."

Xu Bo, who is in charge of recruiting, shouted loudly, and the rumbling voice came to everyone's ears.

For a while, the crowd was restless, and the slum people who had always been very scattered, unexpectedly quieted down unexpectedly and quickly lined up.

However, during the whole process, some people in the back were worried that it was not their turn. After all, Dange would not be able to recruit many workers. Being in the back was basically hopeless.

Anxiously, there are some old fried dough sticks, relying on themselves to run rampant in the slums, secretly trying to get in front.

Xu Bo also heard some of Qin Chen's plans and knew the importance of his position. This group of people from slums, in the future, would develop into the main service force of a commercial center, and they had to get rid of their lax and unruly habits.

After discovering the actions of these people, he immediately asked Dange's guards to capture several people and beheaded in front of the recruitment site on the spot.

With blood splattering, the originally noisy recruitment scene instantly quieted down.

Everyone looked at Xu Bo in amazement. They didn't expect that the other party would kill when they said they would kill.

Although this is a slum, basically not protected by the imperial city, but at any rate, it is also a warrior of the Dawei Dynasty, how can it be so cruel, kill it?

Feeling the frightened and angry gazes of everyone, Xu Bo snorted and sternly said: "Everyone, the old man has already said that this time our Dange recruitment requires a lot of manpower. Everyone queues up patiently and has the opportunity to join our Dange. But my ugly words are ahead..."

"Our Dange is not the forces that recruited you in the past. What we need is a team that strictly obeys the command and strictly abides by the rules. If there is anything that can't be done, leave immediately. The old man won't say anything."

"But those who want to stay and continue to line up will all obey the rules and act according to our Dange rules. If I see someone who doesn't follow the rules and execute them on the spot, I will never show mercy."

"If you are dissatisfied, or think that our Dange is killing innocent people, just go to the city guard office and go to the palace to sue the old man. Xu, I will continue here." Xu Bo sneered.

The crowd immediately became agitated.

Originally, the warriors in the slums were very excited when I heard that Dan Pavilion was about to recruit people, but now seeing Xu Bo's cruel methods, many people are frightened and can't help but retreat.

The other party made a fierce move. In case he got in, he made any mistakes and was killed directly. I am afraid that there is nowhere to talk about it, and no one will give him a chance. Looking at the crowd below, Xu Bo sneered disdainfully at the corner of his mouth: "You may think that the old man's methods are cruel and cruel, but I tell you that the old man doesn't think so. The old man walked along, and others heard that my Dange was going to recruit in a slum. People, the first reaction is that our Dange is crazy because

They all felt that the people in the slums were a bunch of scum, rubbish, cancer and waste in the imperial city. "

"But I, Xu, don't think so much. I believe that everyone has an uplifting heart, a desire to be admired and valued by others." "Today, my Dange is recruiting workers here, and I don't need much. Say, I think you all know the status of my Dan pavilion. As long as you enter my Dan pavilion and become a member of my Dan pavilion, your identities will immediately become different. Walking in the imperial city, no one will use it anymore. Looking at you with strange eyes, you will no longer look down at you with contemptuous eyes. You can behave with your heads high. Whether it is a high-end restaurant or a top inn, you can walk in proudly, because you are from my Dan Pavilion."
