

## Valkyrie 811

### [Chapter 811: Crazy recruitment](#)

"Not only you, but also your children and grandchildren, in the future, you can also stand up tall, instead of living humbly in this slum." "I know, many of you are from other states in the dynasty. Come here, you come to the prosperous imperial city with your dreams in mind, want to stand out and make a career. Looking forward to one day, you can go home proudly and return to your hometown, so that those who once looked down on you will shut up."

"

"However, after coming to the imperial city, you only realized that the imperial drift is not easy."

"Yes, this is the center of the Dawei Dynasty, the most prosperous place in the entire dynasty. Every year, how many warriors from the dynasty will come? Want to break out of the world? There are countless."

"Before, you didn't have a chance, you could only fall here."

"But today, our Dan Pavilion is here."

"This is an opportunity for you to raise your head again, and even the only chance for you in the imperial city in your life, because I don't believe that there will be other top forces who are willing to come to this slum to recruit people and treat you equally."

"Is it to continue to degenerate and become \*\*\*\* in the mouths of those powerful and powerful, or to seize the opportunity, take the management of my Dange, become a part of my Dange, and raise my head to be a man again."

"All of this is in your hands."

"Now, recruitment begins!"

After Xu Bo finished all this, he turned and left the recruitment front desk.

silence.

The silence of the audience!

Immediately afterwards, there was a faint cry of crying, which kept ringing.

Slowly, the crying became louder and louder. Almost all the people in the slums had tears in their eyes. Xu Bo's words completely stung their hearts.

Yes!

Those of them who live in slums do not want to get ahead?

Most of them came from some remote states under the dynasty. They trudged mountains and rivers, risked their lives, came to the imperial city, and became an imperial drifter. Why?

Is it just here to fall down and be regarded as rubbish?

Do not!

They also have dreams.

There are also pursuits.

How many nights, they quietly told themselves that in the future they will be famous and will return to their hometown vigorously.

But the cruel reality knocks them into the dust, so humble that they are invisible.

In the middle of the night, they raised their eyes and looked around, but there was no hope in the darkness.

They are desperate.

They struggle.

They are suffering!

But now, Dan Pavilion is here and gives them a chance, maybe even the only chance to make a head start in this life.

They are afraid here and fall here.

For a moment, the warriors in each slum were silent, and gradually, a resolute light flashed in his eyes.

No, they don't want to be looked down upon, and they don't want to go on like this for a lifetime.

Even if they die, they have to get ahead.

In silence, ten neatly arranged teams lined up in front of Dan Pavilion's recruitment site, like a long winding dragon, with no end in sight.

A corner not far away.

Xu Bo looked at the changes in the group of people in surprise, with a light of surprise in his eyes.

These words were actually not what he thought of, but Qin Chen told him before he set off.

Originally, like Zhuo Qingfeng, he was not very optimistic about the people in these slums, thinking that no matter how restrained, it would be of no use.

But now.

He was shocked.

Qin Chen's words seemed to have magical powers, making this group of poor people who had always been scattered and caring nothing, turned out to be a different person.

The ten teams were quiet, solemn and tidy.

It is hard to imagine, it is the poor of the slums.

Even from this group of people, Xu Bo felt an unprecedented spiritual power, which he had never felt before in other people.

Xu Bo didn't know that because these people in the slums lived at the bottom of society, they were more eager to succeed than ordinary people.

As long as there is a glimmer of hope, they may even burst out with strength and determination several times more than ordinary people.

Dange's recruitment went smoothly, even more smoothly than originally thought.

In just one day, Dange recruited thousands of people, and this was only the first day.

In the next few days, Dan Ge was recruiting at the rate of thousands of people every day.

A few days later, Dange had recruited tens of thousands of people from the slums.

The Dan Pavilion went smoothly, but the other forces in the imperial city were completely stunned.

They originally thought Dange was in a slum, so they just recruited a few people, rested the building, and did some lowly work.

Unexpectedly, Dan Pavilion should be so crazy. Within a few days, almost half of the warriors in the slum were recruited.

It even continues to solicit.

For a time, in the imperial city, the major forces were discussing Dange matters every day.

They don't understand Dan Ge's approach at all, and they don't know what Dan Ge wants to do.

Lengjia.

Leng Pogong and others are also dumbfounded.

"What exactly does this Dange want to do? It's not because they want to rely on the untouchables in these slums, but open up new markets? Or sell the special effect pill to other dynasties?" Leng Feihua couldn't help guessing.

Under the joint efforts of Dange and Qin Chen, Leng's family has finally paid off all the debts these days. The whole family is already impoverished. Naturally, he hates Dange and Qin Chen so much. "If Dan Ge really does this, it would be great. Those guys in the slums have forgotten their benefits and let them take the pill to other dynasties. We only need to spend a little energy and easily deceive them. Even if it doesn't work, , As long as they intercept their team halfway, they can easily grab

Grab it. "Leng Pogong said grimly.

"Leng Pogong, I don't think you should focus on Dan Pavilion. Dan Pavilion is just a cover. Our true opponent is the Liu family."

A cold snort came from the side, Wu Chengfeng and others walked in quickly.

"I have seen Wu Chengfeng ancestor, Yan Wuji Sect Master, and Yue Leng Chan Yue Sect Master." Leng Feifan waited for the Leng family disciples, and hurriedly saluted the people who came.

"You guys step back first."

Leng Pogong waved his hand, and a group of Leng family disciples immediately retreated, but Leng Feihua, as the Leng family's patron, continued to stay here to serve several people.

"Hmph, I didn't expect that old man Liu Xuanrui was so despicable that he used the Pill Pavilion's affairs to directly attack my Leng family. Now my Leng family has lost the pill business and the family's belongings have been wiped out. It is really hateful. ."

Leng Pogong's angrily palm lined up on the table in front of him, blasting the table to pieces. "Don't worry too much. Although your Lengjia has lost the market, there are still many industries in the imperial city. The so-called starved camel is bigger than the horse. As long as these shops are there, plus our Promise , Gui Yuanzong, and Wu family work together, and it may not be impossible to make it back." Yan Wuji

Said coldly.

"That's true." Leng Pogong smiled triumphantly.

Their Leng Family has arranged many industries in the imperial city over the years, especially the shops in the core area, which can be said to be the most powerful of many forces. The value represented by these shops is a sky-high price.

#### [Chapter 812: Let go](#)

These fixed real estate are the most desperate assets of their top families.

As long as these shops and mansions are still there, the Leng Family still has hope of rising.

Not only the Leng family, but also the Wujizong, Guiyuanzong, and Wu family, all have large shops in the prosperous area of the imperial city. "Leng Po Gong, since your Leng family's pill business is temporarily experiencing difficulties, why not join hands with my Wu family in the business of materials and blood beasts. With your Leng family's sales channels, plus your Leng family's so many With the support of the pharmacist, our Wu family's business will definitely become more popular. Wait for this

After a difficult period of time, I will find a way to destroy Dan Ge. "Wu Chengfeng said coldly.

"It can only do this now."

Leng Pogong nodded coldly, and then a strong murderous intent shot into his eyes, "But Qin Chen, the old man will never let him go, he must be killed."

A terrifying murderous aura suddenly rose from Leng Po Gong at this time, like a storm.

And when the Leng Family and other major forces were discussing how to deal with Pill Pavilion and Qin Chen, Qin Chen did not idle.

While assisting the black slaves and You Qianxue in their cultivation, on the other hand, they urgently coordinated with the head of Yelu Hongtao, Nangonglihe Hall of Bloodline Holy Land, and discussed the relocation of the main store.

Because of Qin Chen's help, Nangong has made rapid progress in the attainments of the bloodline master these days, and is only one step away from the sixth-order peak bloodline master. After hearing Qin Chen's request, without saying anything, let the bloodline sacred place be in charge. Docking the Dan Pavilion and assisting Dan Pavilion.

And Yelu Hongtao also stepped into the half-step Wuwang peak, devoting himself to the development of the forging method of the seventh-order king soldiers. After hearing Qin Chen's request, he immediately coordinated the Dingqi Pavilion and discussed the relocation.

Although Qidian occupies half of the shares of Dingqi Pavilion, it is still extremely cautious about the requirements for relocating the head office.

Even the pavilion owner of the Ding Qi Pavilion specially came to the Qi Dian to inquire about the situation.

But after Yelu Hongtao showed off his latest forging technology, the patron of Dingqi Pavilion was instantly speechless.

The cold-fire condensed weapon art is the ancient forging method in the legend. Using this method to forge weapons can greatly reduce the material cost, the time cost of forging, and even the labor cost. As far as the forces are concerned, it is simply cheating.

With this method, Dingqi Pavilion can even break out of the Dawei Dynasty market and enter the weapons market in the land of hundreds of dynasties in one fell swoop.

What a huge temptation this is?

Therefore, after seeing Yelu Hongtao's new forging technique, the owner of the Dingqi Pavilion directly agreed.

Even patted his chest: Not to mention moving their Dingqi Pavilion main store to another place, even if their Dingqi Pavilion sect was demolished, they would have nothing to say.

A week later.

Dan Ge recruited nearly 100,000 capable craftsmen and waiters in the slums.

These people, each cultivation base is above the fourth-order mysterious level, and they are young and strong, hard-working.

At the same time, the preliminary design drawings of the Xicheng Commercial Plaza were successfully released under Qin Chen's design.

"Little dust, now that we have recruited a large number of craftsmen and the design drawings are in place, when can we start work?" Zhuo Qingfeng said excitedly when he saw Qin Chen's first glance.

"You inform Liu Xuanrui, let him issue an official document, and start construction tomorrow." Qin Chen thought for a while and said.

"it is good."

Zhuo Qingfeng was eager to try.

"By the way, Pavilion Master Zhuo, everything is properly arranged now. Let Elder Xu Bo do these little things. The most important thing for you now is to practice and break through to the realm of the seventh-order Martial King as soon as possible." Qin Chen looked at Zhuo Qingfeng. I've been worrying about this for a while and couldn't help but speak.

Now, the threat of Leng's family has not dissipated, only enough strength can keep Dan Pavilion from falling.

"Little dust, I know this too, but it is too difficult to break through King Martial, and I have reached an amazing understanding of the will of martial arts. Even if the dark disease on my body is cured, I will want to break through for a while, but It's not easy either."

Zhuo Qingfeng sighed, he also wanted to break through to the seventh-order martial king as soon as possible, after all, only after becoming the martial king can he truly have the strength to compete with the Leng family.

However, it is easier said than done to become King Wu?

"You don't have to worry about this, so, starting tomorrow, I will make some preparations and try my best to let you break through King Wu within a month." Qin Chen said solemnly.

"What? Breaking through King Wu in a month?" Zhuo Qingfeng's eyes went round instantly.

Is this a joke?

Does Chen Shao think that King Wu is a family and break through when he breaks through? Qin Chen nodded and said in a deep voice, "Although this matter is difficult, it is not impossible. Moreover, Nangongli and Yelu Hongtao are also half-step pinnacle martial kings. It just so happens that the three of you can confirm it together. In this way, I You need some materials here. You can meet Nangongli and Yelv Hongtao.

Contact us, try to help me collect all within three days. "

"What material is so awesome?" Zhuo Qingfeng frowned when he took the list from Qin Chen.

"Little dust, why are there some formation materials in it?"

"I was going to arrange a formation." Qin Chen said solemnly.

"Formation?"

Zhuo Qingfeng was stunned. He had heard of ways to improve his cultivation level, including taking medicine pills, training awareness, and improving bloodlines, but he had never heard of using formations to break through the King of Wu.

But given the trust in Qin Chen, Zhuo Qingfeng dealt with it as soon as possible.

Everything is ready now. The city-in-city reconstruction plan of the Xicheng slums has been invested in the early stage, and it is no more than a million middle-grade real stones. Today's Dange has already made a lot of money and does not care about this small amount of money. Bo and others did it.

The next day, the imperial family of the Dawei Dynasty issued a notice like the entire imperial city. "From now on, the royal family of the Dawei Dynasty will transfer the title deeds and ownership of the Xicheng slums to Chendi Pavilion for processing. And entrust Dan Pavilion and Chendi Pavilion to comprehensively transform and upgrade the Xicheng slums. From now on, the royal family will treat Xicheng Slums, no longer have ownership, any matter, all

Find Chendi Pavilion and Dan Pavilion. "

As soon as this announcement came out, the whole city was in an uproar.

The royal family of the Dawei Dynasty actually handed over the old disaster Xicheng slums of the imperial city directly to Dan Pavilion? What's happening here? And what the \*\*\*\* is that Chendi Pavilion, why have you never heard of it before?

Many forces were surprised by the crazy recruitment of Lenovo Dange a few days ago.

In fact, even Liu Xuanrui himself didn't know what Qin Chen wanted him to go to the slums of Xicheng.

For him, using a slum that caused him a headache in exchange for 10% of the profit and initiative of the special effect pill is simply not too profitable. As long as Qin Chen didn't directly kill all the people in the slums, even if Qin Chen blasted the slums of Xicheng directly into scum, he would not have any opinions.

### [Chapter 813: Crowded](#)

What Liu Xuanrui did not expect was after the royal family had just announced the transfer of ownership of the Xicheng slums.

As expected, Dan Pavilion directly blasted all the buildings in the slums of Xicheng into scum.

More than a dozen martial artists, like a personal bomber, led nearly 100,000 workers. It took only half a day to tear down all the dilapidated slums and establish temporary residences.

Then, Dan Pavilion began a vigorous construction in the slum, and a magnificent building rose from the ground, which attracted the attention of the entire imperial city.

Originally, these warriors were extremely resistant to demolishing the slums, but because they had signed an agreement with Dange, they couldn't violate it at all and could only start working with pain.

But when they discovered that the temporary residence Dange had built for them was even better than the original house, they were all immediately energetic.

In the past, they lived in a messy shack, with all kinds of stinky gutters everywhere.

But now, they live in a four-person dormitory, which is very spacious and comfortable. Even if it is a temporary residence, the materials are extremely sophisticated. It is several times better than the shack they used to live in.

For workers with families, Dange also arranged a family dormitory. A family lives in a dormitory. The children will be educated by Dange, and the wife will be trained as a waiter or work in Dange.

And every worker also has free special effect pill for practice every day.

Under this circumstance, these workers still have the slightest complaint, and they work hard one by one.

In just three days, the embryonic form of the commercial plaza planned by Qin Chen has taken shape. A magnificent building with an area of a hundred pill pavilions, which is dimly presented in the eyes of many forces in the imperial city.

People in the entire imperial city are now discussing things in the slums every day.

Forces such as Leng's family are naturally no exception, and they have caught sight of them immediately.

No matter how they guessed, they couldn't figure out what Dan Ge wanted to do.

"Such a large building? Dan Pavilion has not made enough money. I want to build a new Dan Pavilion headquarters here, but the scale is too big? I'm afraid it is almost the same as the palace. , This is too extravagant." Leng Pogong couldn't help being speechless.

They don't know how much it cost Dange in order to win this land, but it's so extravagant to recruit almost all the people in the slums and to take such a large piece of land just to build a headquarters. Man has a toothache.

Naturally, Xu Bo and others would not care what the other forces in the imperial city thought. They arranged craftsmen to command 100,000 workers every day, and the construction was in full swing. The resources and medicine consumed every day were astronomical figures.

But the efficiency is amazing.

In just one week, the prototype of the commercial plaza has been formed.

In addition, the tender notice for the first phase has also been posted on all the bulletin boards of all streets in the imperial city. "We are now officially bidding for the lease of the shops in the Chendige Commercial Center in Xicheng District. There are four standards: Grade A, Grade B, Grade C, and Grade D. Grade A stores can rent 50,000 mid-tier shops according to their size and location. Real stone to 100,000 middle-grade real stones are located in the core area of the main building of the commercial center; Grade B shops rent from 30,000 to 50,000 middle-grade real stones a year, located in the outer area of the main building of the commercial center; Grade C shops rent from one year to two a year Wanzhong-quality real stone is located in the outer building of the commercial center; D-level shops rent from 5,000 to 10,000 middle-quality real stone a year, located in commercial

Inside the outer building of the center. The first day is to hire a big bargain, you can enjoy a 50% discount. "

As soon as this notice came out, the entire imperial city became a sensation, almost like an explosion.

"What? What commercial center did Dange build in the slum?"

"Commercial center, what the \*\*\*\* is that? The rented shop is a place to sell things?"

"Xicheng is so biased, and it's still a slum, who would go shopping there?"

For a while, the entire circle of influence in the imperial city was speechless. You know, even if it is a store in the most prosperous area of the imperial city, it will only buy a million middle-grade real stones, but what kind of first-grade store in Chendige Commercial Center, the annual rent is 50,000 to 100,000 middle-grade real stones Medium-grade real stone, that is to say, renting for ten to twenty years is enough to get the most

I have bought a shop in the bustling area, so this is such a devil who wants to rent here.

The Leng Family, Wujizong and other forces laughed even more after learning about this announcement.

"This pill pavilion doesn't think that if he has a special effect pill, he can sweep the market of the entire Dawei Dynasty and dominate the will of the people? Hahaha, now they will lose a lot."

Leng Pogong's tears of laughter almost shed.

I thought that Dan Pavilion was making such a big mess, and what big action should I do, but I didn't expect it was actually building a shop in a slum. Hey, he's laughing so hard, his stomach hurts to death, so Zhuo Qingfeng and Qin Chen's brains will not enter. Shit!

After all, Dan Ge took this piece of land from the imperial family, even if it was a slum, the price was definitely not low.

It also recruited so many workers, plus construction costs, and the cost of providing medicinal pills every day. How much do you lose?

All of a sudden, the Leng family and other forces almost stopped celebrating.

You really won't die if you don't die!

Not only the Leng family, but the other forces in the imperial city were also speechless, feeling that Dan Pavilion was flooded in the forehead.

Idiots go to slums to rent shops, and the prices are so expensive.

Sure enough, as everyone expected, none of the shops in the Chendige Commercial Center were rented out on the first day.

But early the next morning, things changed.

Because many people who went to the most prosperous trading market in the center of the imperial city to buy special effect pills, weapons, and bloodline reagents, unexpectedly found that they could not find a store.

In particular, Dan Pavilion, Ding Qi Pavilion, and Bloodline Sacred Land originally had the largest head office in the trading market, but none of them were open.

Just when everyone was wondering and wondering what happened, another shocking news came out.

The three major forces, Dan Pavilion, Bloodline Holy Land, and Ding Qi Pavilion, even moved their stores to the newly built Chendi Pavilion Commercial Center.

As soon as the news came out, the whole city was in an uproar.

My goodness, don't you all have to go to Xicheng for shopping in the future?

Especially the warriors who want to buy the special effect pill of Pill Pavilion are even more confused.

Today's special effect pill is extremely popular. The small shops in the imperial city are often not complete, so many people come to the pill main store of the imperial city trading center every day to buy the pill.

But now that the head office is relocated, they can only go to Xicheng.

All of a sudden, countless people flocked to the commercial center of Chendi Pavilion, plus some people watching the excitement.

The commercial center of Chendi Pavilion hasn't even officially opened yet. It was just the first day of the relocation of the three main stores. A dozen-storey building is crowded with people, just like a holiday.

#### [Chapter 814: Unprecedented experience](#)

Countless warriors visited this huge newly-built commercial center, all of them were shocked.

It was the first time they saw the whole picture of the commercial center. Before they came, they were extremely disdainful, but when they came in, they were all shocked.

Is this place too luxurious?

In the past, the shops in the trading market center were very messy, large and small, and various decoration designs were different.

Basically, they are all wooden structures, divided upstairs and downstairs, and everything is placed inside the counter, which is extremely inconvenient to observe.

But this Chendige Commercial Center is completely different.

When I walked in, all I saw was a smooth marble floor. The ground was polished so smooth that it was almost like a mirror, reflecting the faces of people walking by.

And the whole building is divided into more than ten floors, each floor is very grand, clean and tidy, which makes people feel pleasing to the eye.

And when everyone came to the brand-new Pill Pavilion, Bloodline Holy Land and Dingqi Pavilion Main Store, they were even more shocked.

In the past stores, everything was placed inside the counter. If you want to buy, you can only find the waiter, which is very troublesome and tedious.

In many cases, you can't see the whole picture of the pill that you buy.

However, in this Chendi Pavilion Commercial Center, one pill is placed in neat crystal boxes. These boxes do not prevent the martial artist's spiritual exploration, and you can clearly see the contents of each pill. The shape, appearance, color, and even mental power can be used to perceive the curative effect of this medicine.

In addition to not being able to pick it up and take it directly, it was simply the pill that they were about to buy, completely and clearly presented in front of every warrior.

In the main store of the Dingqi Pavilion, all the treasures are placed in the crystal box, which is clearly visible, and the various indicators and data are clearly marked.

There are even special samples for warriors to try and perceive.

The shops in the Bloodline Holy Land are also the same. All kinds of bloodline reagents and bloodline-enhancing products are placed intuitively, without any concealment.

Moreover, in each store, there are a large group of smiling waiters who respectfully serve, and if you want to buy something, you don't have to worry about finding a waiter.

Moreover, these waiters are extremely respectful in their respective attitudes, truly treating customers as gods, answering every request and answering questions.

This kind of magical experience drove all the warriors crazy.

Before they wanted to buy things, the most visited was the trading center in the Imperial City.

Probably those who opened shops there were almost all the top forces in the imperial city, and the shopkeepers and buddies inside were also the disciples of the major families.

They are all a group of guys with good eyes and low hands. They are not very respectful to customers who come to buy things. As for seeing some shabby clothes, they even ignore them.

Wanting to tell the other party to take things out for the customers to see, I was extremely impatient, and returned to his face at every turn.

But in this Chendige Commercial Center, the waiters are all people from the slums, even if they are not trained by Dange, these people often live at the bottom of the dynasty. They have always been humble, let alone look at them, and even lack the courage to make trouble.

Now that I have been trained by Dange, I have gained confidence, but the caring service is even more considerate.

Let every warrior who came to Chendi Pavilion feel the supreme service and enjoyment from the bottom of their hearts.

And what shocked the public is not this, but the price.

In the commercial center of Chendi Pavilion, everything is clearly priced, saying that one is one and will never be changed.

And the price is extremely moderate, unlike the shops in the trading center, which will mark a sky-high price, you have to bargain with the other party, and in the end, you will still be ruthlessly slaughtered.

But here, none of this, the price is one hundred lower-grade real stones, that is, one hundred lower-grade real stones, one more piece will not be collected, and one less piece will not be sold.

At the beginning, everyone was not accustomed to this transaction method, but after several purchases, they deeply enjoyed this wonderful shopping experience.

You don't need to bargain at all, you can understand your purchasing power at a glance, whether you can afford it.

This feeling is too comfortable.

And in order to celebrate the official opening of the Chendi Pavilion Commercial Center, Dan Pavilion, Bloodline Holy Land, and Ding Qi Pavilion have been offering a 10% discount on all products in their stores during these three days.

All of a sudden, every warrior who came to Chendi Pavilion made a big deal and bought many things.

There are many warriors who just come to see the excitement, and can't help but buy a bunch.

And the checkout is not in each store, but there is a special checkout counter, the procedure is very convenient, just take the order issued by the store and go to the counter to check out.

In an instant, I saw a long queue in front of every checkout counter, all of them were a group of warriors with lists and ready to pay.

By the time the checkout, many warriors received a new message, that is, the warriors who came the first day, as long as they consume ten middle-grade real stones, that is, one thousand lower-grade real stones, they can register as members of Chendi Pavilion. Enjoy the points policy.

This point can be used to deduct the real stone, which is very cost-effective.

And the membership level will be upgraded according to your consumption amount.

After getting the news, the warriors who were about to check out were suddenly crazy.

They calculated it carefully. They really want to become members and use their points to deduct. Even the most basic members will enjoy a 5% discount, while the highest-level members can even enjoy a 20% discount.

What is this concept?

In the past, when they bought things in the trading market, they bought different things in different stores. Even with such an event, it was difficult to accumulate many points, so they basically bought them at the original price.

But here, all purchases will be checked out at the counter. The vast majority of the warriors on the field gritted their teeth, spent ten middle-grade real stones, and became a basic member. That was completely fine.

Moreover, even if you are dissatisfied with the consumption on the day, you can register as a member as long as you top up ten real stones in your membership card, and you can enjoy a 5% discount at that time.

Such a big bargain, don't make money, don't make money.

And when they check out and prepare to take the other goods, they will be informed by the counter staff.

As long as you are a member of Chendi Pavilion, you can also redeem your points for door-to-door services.

You only need to fill in your own address, and there will be a dedicated person who will deliver the things you buy to the mansion or residence, so you don't have to bother yourself to go to the store to pick up the goods.

This kind of service stunned every warrior who was shopping.

They never even thought that there would be such a thoughtful service.

### [Chapter 815: Phenomenal hot](#)

Ever since, every warrior who came was crazy.

After finding that the things they had purchased were less than ten middle-grade real stones, they all went to buy again, or, directly recharged, and became members of Chendi Pavilion.

Almost every consuming martial artist does not want to miss the 5% discount, nor does he want to miss such a thoughtful service.

However, they were not the only ones who were shocked.

When a large number of warriors are crowded with sweat, the purchase is over and they are ready to rest.

It was also discovered that in this Chendige Commercial Center, there was actually a floor dedicated to eating.

However, because there are no stores yet, there is currently only one affordable restaurant operated by Chendi Pavilion, which covers an extremely large area.

Here, you spend a little money, you can eat delicious food that makes you support, if you are a member, you can also enjoy discounted prices.

Think about it, when you are tired and sweaty after shopping, there is such a comfortable place for you to sit, rest, and eat. How pleasant is it?

If you feel that this restaurant does not meet your identity and does not satisfy you, it does not matter.

In the commercial center, there are high-end restaurants to meet your needs.

Even outside the commercial center, there is a tall building that turned out to be a special inn and high-end dining place. It is known as a five-star chain inn. You can even spend money to go in and have a rest, just like the emperor.

Of course, the consumption inside is also amazing, and it is not affordable for ordinary people.

However, in the imperial city, the richest people are the most indispensable. Only on the first day, nearly half of the so-called five-star high-end chain inn lived there, and they were all dedicated to experience it.

In addition, in the commercial center, after more shops move in, there will be places to buy jewelry, high-end clothes, as well as various entertainment and practice places.

At the top level, a place for training has been specially opened. The spirit gathering array is currently being arranged. Once the spirit gathering formation is completed, it will be open. At that time, anyone who spends money can come in for cultivation.

This made some ordinary warriors, or small forces warriors, all stunned.

You should know that in the imperial city, there are very few forces capable of arranging training rooms, and only some of the top families have the financial resources to arrange the training rooms for martial artists to practice.

But these training rooms are extremely private, and it is not their ordinary martial artist who entered.

In addition, there are also some forces that run the business of the training room.

Like the Promise Sect and the Guiyuan Sect, these two sect forces both have training rooms in the imperial city, which are available to the outsiders to practice.

But the price is extremely expensive, and ordinary warriors can't get in at all.

And now, Chendi Pavilion has also begun to build a training room, and as long as it is a member and spends a certain amount of real stone, they can go in to practice and enjoy the training effect of several times the true energy. How can they not be shocked or excited?

After half a day, the entire imperial city was crazy!

Originally, countless people were very unsightly about any Chendige Commercial Center. Who would be willing to buy things in the ghost place of the slum.

But after the news spread, everyone went crazy.

They used to go to the exchange market to buy things, it was really buying things, coming and going in a hurry.

But now when I go to the commercial plaza of Chendi Pavilion, it is not shopping at all, but a kind of enjoyment, an experience, an unprecedented existence.

For a time, countless people in the imperial city flocked to the trading center of Chendi Pavilion.

One hundred thousand!

Three hundred thousand!

Five hundred thousand!

one million!

Before the evening, the total number of passengers received by the entire Chendige Commercial Plaza had reached a million.

Even the commercial plaza covers an extremely large area, and in a hurry, it cannot accommodate such a large flow of people, so it can only be restricted urgently.

Ever since, outside the Chendi Pavilion Commercial Plaza, there was an astonishing scene that had not been seen in the entire Dawei Dynasty imperial city for thousands of years.

In the Chendi Pavilion, there is a sea of people, and the head is full of people.

Outside the Chendi Pavilion, there were also crowds of people, and the people in line were crowded into the streets dozens of miles away, all thinking about going in and seeing.

It even alarmed the imperial family of the Dawei Dynasty and hurriedly mobilized all the imperial guards and city guards to urgently maintain order and prevent accidents.

On this day, almost half of the people from the imperial city flocked to Xicheng, which was spectacular.

The whole process continued until it was dark and the Chendi Pavilion Commercial Plaza was closed, and this subsided.

But the news about the Chendi Pavilion Commercial Plaza has not subsided. Almost every restaurant, every household, is discussing the Chendi Pavilion Commercial Plaza, which has become a phenomenon-level scene.

"Little dust, incredible, do you know how much our turnover is for one day?"

Cang Dang!

In the pill pavilion, Qin Chen's room was pushed aside, Zhuo Qingfeng and others swarmed in, his face flushed, and he couldn't help himself with excitement.

Behind him, Yelu Hongtao and Nangongli, who had received the news, could not calm down, and they all swarmed over.

"There is little dust. Today, our three major forces have a total sales of 7.69 million central real stones. After a rough calculation, there are probably more than 2 million middle-grade real stones, each of which is about one million, eighty Around ten thousand middle-grade real stones." Zhuo Qingfeng held the bill, his body trembling with excitement: "In addition, the number of members on the first day of the commercial plaza reached 97,565,867. , It's almost broken one million. Among them, only 500,000 people become members, and there are more than 400,000 people.

In the membership card, idle funds are left, and the total number is as high as more than five million middle-grade real stones. "

Zhuo Qingfeng looked at the report in his hand, almost crazy with excitement.

On the side, Yelu Hongtao, Nangongli, Xu Bo, Black Slave and others were all dumbfounded and dumbfounded.

In other words, today, their net profit is more than 2 million middle-grade real stones. In addition, there are more than 5 million idle funds. Even if all the members spend it, it is at least There are more than one million.

And the funds they spent in the early construction of the commercial plaza were only one million middle-grade real stones.

Everyone was stunned by such a comparison.

They never dared to imagine that money is so profitable.

It's not making money at all, it's just stealing money.

"This little profit scares you stupid?" Qin Chen glanced at Zhuo Qingfeng and others silently.

This is the first day. All the shops have not been rented out yet. The good show has not started yet, okay?

"Little dust, these are millions of middle-grade real stones!" Qin Chen was speechless, and Zhuo Qingfeng and the others were even more speechless. Qin Chen actually said that the business of millions of middle-grade real stones was such a profit.

#### [Chapter 816: Earn him 100 million first](#)

If it hadn't been for Qin Chen to bring all this, Zhuo Qingfeng and the others would even have the heart of letting lightning strike Qin Chen, which would be too pretending.

"Don't make a fuss." Qin Chen faintly waved his hand: "The commercial center I plan is just in its embryonic form. So, I set a small goal: earn him 100 million this year!"

Qin Chen said calmly.

A billion? !

Everyone's eyes turned round in an instant.

Naturally, they would not think that Qin Chen's 100 million refers to low-grade real stones, but definitely refers to middle-grade real stones.

"hiss!"

Inhaling the sound of air-conditioning, instantly one after another, everyone looked at Qin Chen in shock.

Is this still a small goal? If they really want to make a hundred million, then their Chendi Pavilion alliance can be said to be a wealthy country.

But after thinking about it carefully, Zhuo Qingfeng suddenly felt that it was impossible.

This is only the first day, and it has made more than two million yuan in profits before it has fully expanded. After one year, it makes him 100 million yuan, which does not seem to be a lot!

At that time, Chendi Pavilion was shaken, and the Dawei Dynasty would shake it a few times.

At this moment.

Zhuo Qingfeng suddenly admired and shocked Qin Chen for giving 10% of the royal family's profit in advance.

If it weren't for Qin Chen's deployment, such a threat, Dawei Dynasty would never allow them to continue to develop Chendi Pavilion, even if they had a good relationship with each other, they would frantically attack.

But now, the more popular the Chendi Pavilion, the greater the profit of the Dawei Dynasty. Liu Xuanrui is anxious that the Chendi Pavilion will become more and more popular, and even make the business a whole hundred dynasties.

Not only will it not stop it, but will help it secretly.

As a result, it was only a matter of time before Chendi Pavilion spread across the country.

"Your business belongs to the business, but don't forget what I asked for." Qin Chen suddenly reminded.

It's been a week, and he hasn't collected all the things he arranged. Although there are some rare materials in it, which are quite scarce in this hundred dynasties, the efficiency is too slow.

Now that Chendi Pavilion is hot, the Leng Family Alliance will not wait to die.

Qin Chen knew very well that once Chendi Pavilion was fully developed, it would not only be offended by the Leng Family and Wujizong alliance, but also the powerful and powerful forces of the entire Dawei Dynasty.

"Don't worry about the dust, things should arrive in these two days." Zhuo Qingfeng patted his chest.

"That's good." Qin Chen nodded: "You go ahead, I guess, it won't be long before the forces in the imperial city see that Chendi Pavilion is so popular, they will come crazy to rent the shop."

Qin Chen laughed.

As Qin Chen expected, at this time, after the popularity of the Chendi Pavilion Commercial Plaza spread, almost all the powerful forces in the entire imperial city were shocked.

"Patriarch Xu, how is your shop today? Our family's turnover today is only 20% of what it used to be, and it's almost impossible to open the pot."

"It's the same with me. This person is just as depressed as he disappeared suddenly."

"Yes, the flow of people in the trading center today is only 20 to 30% of the past. I don't think it was because the army of the Great Zhou Dynasty conquered the imperial city and everyone fled."

"It's hard to escape. I heard that the flow of people went to the Chendi Pavilion Commercial Plaza in the slum of Xicheng."

"I also heard about it. To tell you the truth, I also secretly went to the commercial plaza of Chendi Pavilion today. The crowds are like crazy."

"You went? I went too. Alas, I have to say, what people do is good. My Lu is also a shopping mall for decades. I saw this Chendige Commercial Plaza today and I know what business is. , The gap is too big."

When the major forces met each other, they were all talking about Chendi Pavilion.

At the beginning, the major forces in the imperial city watched the development of Chendi Pavilion with a cold eye.

I thought, Dange was too idiot, and he wanted to build a commercial center in the slums of Xicheng, where ghosts would go to buy things.

As a result, as soon as the lease announcement of Chendi Pavilion came out, almost no power came to negotiate.

But today, the opening of Chendi Pavilion is so hot, many people feel the mode of the commercial plaza, but they can't sit still.

They calculated their accounts, and today the turnover of the commercial plaza is at least close to 10 million middle-grade real stones, and the number of members is at least nearly one million.

In the blink of an eye, according to the profit conversion, the three powers of Pill Pavilion, Bloodline Holy Land, and Ding Qi Pavilion made millions of middle-grade real stones, and this was the first day.

Once there are more and more members after waiting for someone to settle in, what will be the flow of people at that time?

At the thought of such a huge benefit, all the forces were jealous.

Originally they were very upright and didn't care about Chendi Pavilion's lease announcement, and even laughed at them one by one.

But as soon as today passed, these forces were anxiously blushing and crowded into the Dan Pavilion, desperately wanting to lease the shops in the commercial plaza.

Only this time, Dan Pavilion became proud. All rents were adjusted to the highest level, and there were additional agreements. Every store must go from the commercial plaza. In addition to the rent, Chendi Pavilion Also draw away 10% of the running water.

As soon as this clause came out, these forces in the imperial city were anxious.

This is blatant blackmail.

But Dan Ge didn't care at all, his attitude was very tough, and there was only one, that is, love to sign, not to sign!

All of a sudden, the intestines of the major forces were all blue.

I knew how good it would be to rent out yesterday. Not only was the price cheap, but it also offered a 50% discount. But when I came here today, I lost at least tens of thousands of middle-grade real stones just the next day.

However, they were so angry that they had no choice but to sign a lease agreement with Chendi Pavilion.

In just one night, thousands of shops in the commercial plaza were rented out at once, and some hot locations have attracted looting.

Hundreds of shops were rented out, and tens of millions of middle-grade real stones were directly accounted for.

This is a real profit.

Seeing the crazy skyrocketing money on the books, Zhuo Qingfeng was almost numb.

This is so profitable, it's much faster than finding a large real stone vein and digging for real stone madly.

Even so, there are still some forces who rely on their own brand to be tough and want to negotiate terms with Dange, especially some restaurants that have a great reputation in the imperial city.

Xu Bo and the others returned the bird's place before, but now they directly ignore the other party's request and ignore the other party's request.

In their opinion, even if the commercial plaza becomes popular again, as the most famous restaurant in the imperial city, they are constantly crowded every day. How can they be threatened by others?

The imperial nobles in the imperial city would still go to their restaurants if they wanted to have a banquet, so they could go to places like slums. But the result surprised them.

#### [Chapter 817: Insidious means](#)

In just one week, Chendi Pavilion has become a phenomenal situation. As a large number of shops have moved in, the daily flow of people is amazing.

Even the first sentence of the warriors in the imperial city every day is: "Did you go to the Chendi Pavilion today?"

Many people will go to Chendi Pavilion to eat even if they don't buy anything every day, look here and there.

Coupled with the excitement, Liu Xuanrui directly stipulated that the official banquet of the Dawei Dynasty in the future must be held in the commercial square.

In just a few days, the traffic of the previously popular restaurants has actually reduced by more than half.

To know.

Although the food in your restaurant is delicious, when you come to you, you can only eat.

But in Chendi Pavilion, you can shop, practice, and enjoy all kinds of entertainment facilities, as well as food, clothing, housing and transportation. Who would go to you half of the imperial city just to eat?

Seeing that the flow of people is getting less and less, the big restaurants are suddenly anxious.

Hastily ran over again to find Dange rental shop.

Dan Ge did not embarrass the other party either, but this time the offer was more than several times more expensive than before.

This is not because Chendi Pavilion is trying to pinch the opponent, but after the commercial plaza has become popular, the value of its own shops has soared crazily.

If it is not because the lease rights of the commercial plaza belong to Chendi Pavilion, and other tenants are not allowed to sublet, some businesses in Chendi Pavilion can directly change hands and even earn several times the rent.

Although those big restaurants were depressed, they had no choice but to sign an agreement with Chendi Pavilion.

After spending several times more money, the leased location is not even as good as the original one. The owners of these large restaurants have regretted intestines.

Seeing that the Chendi Pavilion became more and more popular, but their wealth was drastically reduced, and the faces of Leng Jia and others showed extremely hideous expressions.

"No, I can't wait any longer."

The four Leng Pogong gathered together again.

This time, everyone's expressions are much uglier than last time, because in this half a month, the prices of all major stores in the Imperial City have dropped crazily. Compared with the opening of Chendi Pavilion, they have dropped by at least half.

In other words, the fixed assets of Wujizong, Guiyuanzong, and Wu's family have fallen by at least 50%.

In addition, after the commercial plaza of Chendi Pavilion opened, the Wu family's materials and blood beast business also fell sharply. Almost all of them went to the commercial plaza of Chendi Pavilion to do business, and they returned to Yuanzong at the same time. The cultivation industry of the Promise Sect has also fallen crazily, almost making ends meet.

Especially after the practice room of Chendi Pavilion was opened, there were almost few martial artists who went to the practice rooms of Promise Sect and Guiyuan Zong to practice. Every day, a large number of practice rooms were empty, which was a waste of nothing.

And it's impossible for them to enter the commercial plaza, because Qin Chen's Chendige Commercial Plaza bans any business from the Leng Family, the Wu Family, the Guiyuan Zong, and the Wujizong, and will never allow business from these four major forces. Entered the commercial plaza.

In other words, the paths of these four major forces have been completely sealed.

"Leng Pogong, how can we deal with this Chendi Pavilion?" Yan Wuji asked angrily.

These days, Yan Wuji watched his sect's wealth continue to shrink, and he was about to vomit blood with anger.

On the other hand, Chendi Pavilion, the speed of making money is too fast, if you let the other party continue like this, how much is it?

"Sect Master Yan Wuji, I have found out that this so-called Chendi Pavilion is actually the property of the five-nation boy Qin Chen, and the plan for this commercial plaza was also proposed by the boy, but now this boy has been He Zhuo Qingfeng stayed in the Pill Pavilion, and even the Lord Yelu Hongtao of the Nangongli and Qidian Temple in the Holy Land of Blood was also with them. It is almost impossible for us to secretly kill."

If it weren't for being unable to move, Leng Pogong would have assassinated Qin Chen himself.

But they dare not move, because if they do, as long as they fail, they will be immediately caught by the royal family, and they will inevitably face a more dangerous situation.

Just waiting like this, the Leng Family could only watch Chen Dige getting bigger and bigger, and he continued to weaken.

At this moment, Leng Feihua suddenly showed a vicious look, and said grimly: "Old Patriarch, isn't that kid from the Five Kingdoms? This person is in the Great Qi Kingdom among the Five Kingdoms, and there are a group of clansmen. We can't touch him. Can't he move his people?"

"People of the Five Nations?" Leng Pogong raised his eyebrows, a faint light flashed in his eyes.

"Yes, his tribesmen have such a low cultivation base, and there is no one in the Five Kingdoms, even Wuzong, we only need to send people to take down his tribe, then Qin Chen will not let us deal with it?" Tao.

"A group of Wuzongs are not members of the clan, would that kid care?" Yan Wuji frowned.

Clan members who weren't even Wu Zong were cumbersome at all. In Yan Wuji's opinion, what would happen even if he was killed?

Many of his people still live at the bottom of the dynasty, but he has never been in control. His eyesight is only a higher world, and he becomes the strongest of the Dawei dynasty. He can sacrifice everything else, let alone eight. Clan people who can't reach the pole, even the parents.

"The people of Yan Wuji don't know, that Qin Chen cares about his people very much, and also cares about the people of the Five Kingdoms. At the beginning, he killed the people who left Xianzong and Tianyinggu in Gunan, just didn't want to stay Xianzong and anger. The Five Nations, that's why I deliberately started to carry everything on my own." Leng Feihua said confidently: "That's why he was so angry when he heard about You Qianxue and the others. He even rushed directly to Feng's family and took Feng's family. It's gone."

"In that case, Qin Chen really cares about his clansman, can we threaten him with his clansmen?" Yue Lengchan said meditatively.

If Qin Chen really cares about his people, then they can start from his people.

"However, the land of the Five Kingdoms is protected by the laws of the mainland after all. We rushed over. Once we are caught by the Dan Pavilion and other forces, it is easy to be punished by the Dan Pavilion and other top forces. We must think of a sure way." Wu Chengfeng frowned. .

Although the land of the Five Kingdoms is weak, it is not something they can destroy if they want to.

"This is easy to handle. We can let Liuxianzong and Tianyinggu and the others do it. With the strength of Liuxianzong and Tianyinggu, there is no way to use Qin Chen, but it is still very simple to destroy a land of five countries, and even if When it spread out, Liu Xianzong and Qin Chen had a deep hatred, even if they were discovered, there would be rhetoric." Leng Feifei sneered.

"good idea."

Everyone's eyes lighted up, and Yan Wuji smiled directly at that Leng Feihua, "I can't think of any other way you can do it. Okay, I'll immediately notify the Di Xuan master who stayed in the Immortal Sect and let him sneak into the Five Kingdoms, secretly. I have controlled all of Qin Chen's clans, but I want to see that Qin Chen will have any confidence and arrogance with us."

Everyone laughed grimly.

### [Chapter 818: Alien power](#)

In the pill pavilion, Qin Chen naturally did not know that the Leng family was plotting against his people in the five countries.

Instead, sitting in a training room, mentally perceiving the situation in front of him.

In front of him, the four black slaves, You Qianxue, Wang Qiming, and Yu Wenfeng, their eyes closed tightly, and the whole body was soaked with blood, exuding a breath of horror that made the heart palpitating.

After these days of hard work, the black slaves have already raised their cultivation base to the mid-stage peak of the sixth stage, and You Qianxue, Wang Qiming, and Yu Wenfeng have also raised their cultivation bases to the late-stage peak of the fifth stage, and now they all take Qin After Chen's Dragon Blood King Pill, he was ready to attack a higher realm.

I saw a strong blood lingering around the four of them, all of them showing painful colors on their faces, their strength soaring, and their bodies as uncomfortable as burning fire.

The Dragon Blood King Pill is a seven-rank king pill. The medicinal power contained in it is so powerful that it is terrifying. An astonishing medicinal power madly impacts the bodies of the four people, smashing the meridians of the four people.

but.

The four of them gritted their teeth, all fighting intently, without the idea of giving up, but frantically refining the medicine in the body.

Even so, the powerful medicinal power of the Dragon Blood King Pill is not something that the black slaves can withstand, and the flesh and blood in their bodies are also torn apart from the crazy impact.

In the beginning, the four of them were just lingering blood, but later, all the pores on their bodies leaked blood, and several of them almost became \*\*\*\* people.

"boom!"

That terrifying medicine power, like a wave, came with heavy shocks, and whenever the four of them couldn't hold on, Qin Chen would secretly input a true power to dissolve this medicine power.

At the same time that he shot, Qin Chen was also secretly surprised.

The performance of the black slave is still normal, and his cultivation base has reached the peak of the sixth-tier mid-stage, and he is the highest cultivation base among the four, so he can control the drug conflict in his body with a few tricks.

But the condition of You Qianxue's body was beyond Qin Chen's expectations.

In Qin Chen's view, the three people of You Qianxue's cultivation base were only the peak of the late stage of the fifth stage, and under the terrifying power of this seventh-rank Wang Dan, it was very likely that they could not hold on.

But the result surprised him.

After swallowing the Dragon Blood King Pill, the condition of the three You Qianxue was even better than that of the black slaves.

Whenever the three of them can't hold on, a mysterious power will emerge in the three of them. This mysterious power will instantly absorb the violent medicinal power of the Dragon Blood King Pill, and then feed back a more pure stream. Strength, transform the body of the three people.

And this pure power was stronger than the medicinal power emitted by the Dragon Blood King Pill, but it did no harm to the three of You Qianxue.

Qin Chen frowned and muttered to himself: "What kind of treasure is this spiritual seed bestowed by the ancient South that can absorb all kinds of power and feed back more pure power?"

Qin Chen knew that this happened because of the spiritual seeds contained in the three of them.

However, even in his previous life, he had never heard of such a magical thing as spiritual seeds.

The world is really amazing.

When the three of them were practicing, Qin Chen's mental power continuously merged into the three of them, spying on the whole change.

Suddenly, Qin Chen discovered a strange situation: "Hey, why is there an inexplicable alien power in the power fed back from the spiritual seed?"

Before, when the spiritual seeds in Qin Chen's body exuded power, he didn't have much energy to investigate because he was in the game.

But now, looking at it from the perspective of a bystander, I immediately discovered something that I had never discovered before.

"This alien power is not like true power, nor is it like the power of blood. On the contrary, it is like some kind of alien power that has never been seen before, strange, strange!"

Qin Chen frowned slightly.

He wanted to track this alien power and see the effect of this alien power, but found that after it merged into the bodies of the three of them, it immediately melted away without a trace, as if it had never appeared before.

But Qin Chen knew that this power did not completely disappear, but merged into the bodies of the three of them, forming a strange change.

"I don't believe that this strange power will disappear mysteriously, and the sky will open!"

Putting away his spiritual power, Qin Chen urged the soul power in his mind, a powerful force instantly condensed between his foreheads.

If there is a pharmacist above the seventh-order king rank standing here at this time, you can see that the invisible soul power above Qin Chen's eyebrows has formed a void eye, which opened in an instant.

"Om!"

The powerful soul power seems to be able to spy on everything in the world, instantly blending into the bodies of the three.

"what?"

Qin Chen immediately saw clearly that the bodies of the three of them seemed to be enveloped by a hazy power, and their bodies were undergoing transformation.

And when Qin Chen's soul power penetrated in, the power seemed to be spied on, as if frightened, shrank suddenly, and suddenly disappeared completely, as if it had never appeared before.

That power shrank extremely quickly, and disappeared in a flash. Even a seventh-order martial king could not capture the traces of the opponent, but Qin Chen had a keen feeling in the dark. This power seemed to shrink. The spiritual seeds in the minds of the three of them.

At the same time, the spiritual seed became lifeless, motionless, as if pretending to be dead.

"Is this spiritual seed inexplicably alive?"

Qin Chen was shocked. Although this spiritual seed didn't have the slightest aura of life, it seemed to have life, not like a dead thing at all.

Thinking of such a living thing in his mind, Qin Chen felt his whole body hairy, and his back was chilly.

If possible, Qin Chen would rather not have this spiritual seed, and did not want to have any living things in his mind.

However, this spiritual seed was entered by the will of Gu Nandu, and Qin Chen didn't know how to remove it.

And what shocked Qin Chen even more was the bodies of the three You Qianxue.

Compared with the time when they were assessed in Gunan Capital, the physical fitness of the three You Qianxue is more than several times stronger than before.

Especially You Qianxue's body, there was a kind of dusty temperament, which was more icy and jade than before, floating like a fairy.

On Wang Qiming's body, the domineering aura is also stronger and his will is amazing.

As for Yuwenfeng, he is also personable and mysterious.

"This kind of aura represents You Qianxue's potential that has been amazingly improved. Is this spiritual seed too amazing?" This change was so amazing that Qin Chen couldn't help but shock.

### [Chapter 819: Sword Intent Freely](#)

You know, even though You Qianxue and the others are geniuses of the Five Kingdoms, they are extremely amazing.

But the level of genius is actually equivalent to the level of arrogance in the normal land of a hundred dynasties, even if it has been, it will not be too much.

But now, judging from the aura of these three people, You Qianxue and their aptitudes, in this land of hundreds of dynasties, can be called sky-defying, and it can be said that they are the best.

At least, it was more terrifying than Zhou Zhiwei, the top genius in Xuanyin Valley that Qin Chen had seen in the Black Death Swamp before.

This makes Qin Chen not shocked.

Qualification is the essence of a martial artist. The average martial artist can break through a realm in ten years, but genius can break through in one year. This is the importance of aptitude.

Although the qualifications of martial artists are inherent and difficult to change, they are not impossible to improve, and they need to be transformed by various treasures of heaven and earth.

For example, the blood spirit pool Qin Chen had experienced at the beginning can improve the martial artist's own qualifications.

However, during this period of time, You Qianxue and the others did not encounter any adventures. They just immersed themselves in painstaking practice, but their qualifications were rapidly improving there, which had to shock Qin Chen.

"In just a few months, You Qianxue's aptitude has been improved so much, what exactly is this spiritual seed?"

It can speed up the training of the martial artist, and improve the qualification of the martial artist, even when he was in the underground palace of the Black Death Swamp, he also protected himself from the soul of that mysterious man.

Everything that the spiritual seed produced even made Qin Chen's heart palpitations inexplicably.

"boom!"

At this moment, the aura of the four black slaves suddenly rose, as if they had broken some kind of shackles, an astonishing qi of heaven and earth condensed in this room and poured into the four of them.

After absorbing the Dragon Blood King Pill, the four broke through at the same time.

Click!

The terrifying aura permeated the black slave, and in an instant, he entered the sixth-order and triple-fold realm, and then, the aura continued to climb until it reached the sixth-order and triple-fold peak, and then stopped.

Opening his eyes, an electric light burst out, and the black slave exuded surging real power.

It is only one step away from the half-step Wu Wang.

On the side, You Qianxue and the three also broke through almost simultaneously.

The real power aura that represents the sixth-order martial master, instantly permeated. After the three of them entered the initial stage of the sixth-order, there was no pause, and the cultivation base was still rising.

Bang bang bang!

In the end, the three of You Qianxue broke through the initial peak of the sixth stage in one fell swoop, and directly entered the middle stage of the sixth stage.

Among them, You Qianxue even reached the mid-stage peak of Tier 6.

"Huh!"

A long sword appeared in his hand, and You Qianxue lightly stabbed the wall in front of him. The light of the sword flickered and turned into countless streams of light. It flashed away. There was an astonishing kendo will in the air, all slashing on the wall in front of him.

Chi Chi Chi Chi Chi!

I saw that on the wall of the opposite training room, it was undamaged, but on the stone pillar of the corridor behind the wall, countless sword marks appeared instantly, clearly emerging.

"Sword intent is through the wall, is this the realm of sword intent?"

Qin Chen was shocked.

Generally, the Martial King in the early stage of the seventh stage may not be able to control this state. This is the will of kendo. Only after having a deeper understanding of the sword can he use the moves.

That is to say, You Qianxue's insights on the kendo are comparable to those of some kendo experts who have just entered the realm of the seventh-order martial king.

During her absence, You Qianxue's growth was shocking.

"Little dust, I actually broke through the middle stage of Tier 6."

On the other side, Wang Qiming was shocked to feel the cultivation level in his body, with a shocked expression on his face.

As a disciple of the Five Kingdoms, the entire Five Kingdoms did not even have a Wuzong. Once his dream was to become a Tier 5 Wuzong in his lifetime. Who would have expected that in just one year, he actually broke through to the sixth rank. Wu Zun in the middle stage.

This kind of growth, even for himself, is like a dream.

"The dragon blood king pill is a seven-tier pill that can greatly transform your physique. As a king-pill pill, it is nothing strange to raise you to two levels." Qin Chen smiled and explained to Wang Qiming.

But he knew in his heart that although the Dragon Blood King Pill was strong, it was not the top Wang Pin pill after all. You Qianxue and the others were able to break through so quickly, not only because of the Dragon Blood King Pill, but also because of the spiritual seed.

Just thinking of the weirdness of that spiritual seed, Qin Chen was inexplicably covered with a haze.

But with his current cultivation base, he still couldn't see the true nature of this spiritual seed, and it was impossible to solve it. He had to put it down temporarily.

After the black slaves broke through, Qin Chen immediately relaxed a lot.

Before, although he established He Chendi Pavilion, no one has ever managed the affairs of Chendi Pavilion, but now that the black slaves break through, Qin Chen can completely delegate the affairs of Chendi Pavilion to them, and at the same time, it can also be experienced. To them.

In Qin Chen's expectation, the Chendi Pavilion in the future will be an extremely large organization, and it must require some reliable manpower to help. It is a pity that Xiao Ya, Xiao Zhan, Zhao Lingshan, and Zi Xun have a low level of cultivation. Although they have reached the late stage of the fifth stage, they have no spiritual seeds in their bodies, and Qin Chen did not dare to let them take the Dragon Blood King. Dan, you can only spend more time to consolidate your cultivation, and wait until the time is right Cook, then make a breakthrough.

Thinking of Zhao Lingshan and the others, Qin Chen couldn't help but think of his grandfather who was still in Daqi, and his good brothers Lin Tian and Zhang Ying.

At the beginning, I taught the two Wanying Tianjing and Immortal Chaos Art. I don't know how they are now? But with their talents, it should not be too bad.

After I have resolved the affairs of the Dawei Dynasty and Chendi Pavilion is on the right track, I can also bring a few of them here to manage Chendi Pavilion.

Just thinking of his grandfather and the others, Qin Chen felt an inexplicable panic in his heart.

what happened?

Qin Chen had a bad feeling in his heart.

His sixth sense has always been extremely effective. How can such emotions suddenly appear? Could it be that someone wants to make a ghost?

His eyes fell, Qin Chen thought slightly, could it be said that after the Leng family was hit by him, he wanted to attack his relatives and friends in the five countries?

Thinking of this, Qin Chen's heart suddenly sank.

This is not impossible.

It's not a secret that he comes from five countries. These days, the Leng family has been hit so hard by him, I am afraid that he will have his heart alive.

But he has been staying in the Dan Pavilion, and the other party can't make any move, so it is very likely that he will be hit from other places.

And his family is a breakthrough.

Thinking of this, Qin Chen shot a sharp light in his eyes.

If the Leng family dared to do something to his family, he would never make them feel better.

"Little Chen, what's the matter?" Seeing Qin Chen's face suddenly changed, the black slave asked suspiciously.

#### [Chapter 820: Visit together](#)

"Black slave, you immediately go to the Land of Five Kingdoms with You Qianxue and see how my family is? If possible, bring my family from the Great Qi Kingdom." Qin Chenlian ordered.

Qin Chen thought for a while. If Leng Jia wanted to do something with the Five Nations, he would definitely not do it himself, because the risk was too great. Moreover, a seventh-order martial king like Leng Pogong must sit in the imperial city and cannot leave.

Therefore, if the other party really does something, the one to be dispatched must be a master of Tier 6 Wuzun level.

After all, in a place like the Five Kingdoms, there is a sixth-order martial artist who has swept away.

But now the black slaves have broken through, even if the Leng Family Patriarch Leng Feihua personally goes there, as long as there are black slaves, the Leng Family will not take any advantage in the land of the five countries.

"Black slave, you take this black gourd first, and you will also do deworming. With this treasure, your trip should be much safer."

Just in case, Qin Chen temporarily gave the black gourd to the black slave. There were fire-refining insects and gas-eater ants. Even if there were a few great sixth-order peak martial arts, the black slaves could handle it.

"Little dust, do you suspect that the Leng family will do anything to our five nations?" You Qianxue's expressions also changed.

The five nations are their roots, and they will never allow anyone to harm the five nations.

Qin Chen nodded: "You have also broken through the sixth-order martial arts, you can go back with the black slaves, and Xiao Zhan and the others, also go back together. By the way, help me bring Lin Tian, Zhang Ying, and my family. , Whoever is willing to come, also bring them."

Hearing Qin Chen's words, the black slave's heart stunned, knowing that this matter is not trivial, it is related to the life and death of Qin Chen people!

Chen Shao's friends are all in the five kingdoms, and their cultivation bases are not very high if they want to come. If the Leng family wants to attack those people, the situation will be terrible!

"I'll go right away!"

The black slave immediately turned around and arranged to go.

After finishing all these arrangements, Qin Chen's heart settled down a bit, but he knew that his relatives would never be safe unless the Leng Family and the Promise Sect were wiped out.

"Pavilion Master Zhuo, how is the preparation of the materials I want?" Qin Chen asked Zhuo Qingfeng and the others in a deep voice.

"There is little dust, and all other materials have been prepared, but there is no news about the emperor spar, and none of our three powers' treasury." Zhuo Qingfeng's faces were ugly.

It is rare for Qin Chen to tell them one thing, but they couldn't accomplish it, and they were extremely ashamed.

"Emperor spar? Are you sure not?"

Qin Chen frowned. If other materials are missing, it's okay to say, but the emperor spar is an extremely important material for the arrangement of the martial arts formation. If there is no such emperor spar, then his martial arts formation , It is difficult to arrange it. "I have looked for it, and indeed there is none. The emperor spar is already extremely scarce. Let alone our Dawei dynasty, it is rarely heard in the land of the Hundred Dynasties. It is easier to find it only when you go to higher-level places in the Northern Horizon . We have sent someone to inquire, if you bring it back from the northern sky, it will probably take

It takes three months. "

"Three months? Too long!"

Qin Chen shook his head. According to the current situation, he didn't think that the Leng family could endure for three months. After Chendi Pavilion was completely up, he might do anything crazy in order to get rid of him.

"By the way, there may be another place." Zhuo Qingfeng said suddenly.

"Where?"

"Imperial Palace." Zhuo Qingfeng said, "Among the imperial family of the Dawei Dynasty, there are many treasures, maybe there are emperor spars."

Qin Chen's eyes lit up.

He has forgotten this. The Liu family has ruled the Dawei Dynasty for so many years, and there must be many treasures.

"Then let's go to the imperial palace." Qin Chen nodded, anyway, after setting up the big formation, if they want Zhuo Qingfeng to break through, they need the help of the royal family.

Moreover, Liu Xuanrui is also a half-step master of the Wuwang pinnacle, it is impossible not to break into the Wuwang realm.

"Hehe, what wind is blowing today, Master Qin."

Hearing that Qin Chen, Zhuo Qingfeng, Yelu Hongtao, and Nangongli were visiting together, Liu Xuanrui hurried out to greet them.

In the past, he respected Qin Chen only because of Zhuo Qingfeng and others.

But now, Liu Xuanrui completely admired Qin Chen.

In just one month, the business of a top-notch family like Leng's family was destroyed in an instant, and the entire imperial city was undergoing earth-shaking changes, which shocked Liu Xuanrui's heart as never before.

Originally, he had great confidence in his management of the Dawei Dynasty, but now he was compared with Qin Chen, but he felt extremely ashamed.

The slums that had plagued them for hundreds of years in the Dawei dynasty were in Qin Chen's hands. In only half a month, they turned waste into treasure. Not only did they deal with it rationally, but they also created the monarch of his Dawei Dynasty. Shocking wealth.

In just over half a month, the wealth allocated to his royal family alone was nearly a million middle-grade real stones.

This is only 10% of the profit, how much can Chendi Pavilion make? Liu Xuanrui couldn't imagine.

This invisible power shocked Liu Xuanrui the most.

The two sides sat down in the hall, and soon some \*\*\*\* brought tea.

"Go and go, all withdraw."

Liu Xuanrui waved to the eunuch, and he took out four cups from his storage ring. These four cups were crystal clear, white and green, giving people a refreshing feeling.

Then, he took out a few delicate leaves and put them in the cup, and then took out a simple and delicate teapot. After heating the teapot, he slowly poured the water in the teapot into the cup. The clear water in the middle flushed a few tender leaves away, and an elegant fragrance immediately rushed to his face.

"This tea is called Sacred Mountain Jade. It is produced in the most famous heavenly sacred mountain in the land of the Hundred Dynasties. Only the monarchs of the land of the Hundred Dynasties can buy it. The old man only has that little bit here. Such a small tender leaf, A real stone worth 50,000 middle-grade."

"And this water is taken from the snow water from the upper reaches of the Tianhe River in the North Tianyu. A pot like this would cost tens of thousands of middle-grade real stones."

"This sacred mountain jade is soaked in the snow water of Tianhe River, it will produce an amazing aura that can wash the flesh, nourish the yin and nourish the yang, strengthen the spiritual power, and give people an unprecedented enjoyment!"

Liu Xuanrui carefully put the teapot away, then handed three cups of tea to Qin Chen and the others, smiling and saying: "Come on, Master Qin, Lord Zhuo, President Nangong, Lord Yelu, I wish our cooperation more and more Big, business is getting prosperous, please!"

He picked up the teacup, the four of them looked at each other and took a sip, and suddenly a scent of the whole body poured into the whole body, and every pore of the body was instantly relaxed, and the aura was compelling.

"Sure enough, good tea."

Qin Chen laughed.

This Liu Xuanrui is really enjoyable. A few cups of tea like this are worth 100,000 middle-grade real stones, which shows how rich this royal family is.

"I don't know what happened to the four of you here?" Liu Xuanrui asked with a smile after a cup of tea was finished.
