[Chapter 861: No humans and animals](#)

"What? The four major forces of Leng Family, Wu Family, Gui Yuanzong, and Wujizong secretly attacked and killed your Majesty today, and were eventually destroyed by the entire army of royal masters?"

"Leng Pogong, the ancestor of the Leng family and Wu Chengfeng, the ancestor of the Wu family, were killed on the spot, and blood was spilled in the sky. The whereabouts of Sect Master Yue Lengchan and Sect Master Wuji are unknown, life and death unknown?"

"Liuxianzong colluded with the Leng family and tried to rebel. The whole clan was destroyed?"

A piece of news came out, combined with the imperial family's thunder action, the entire imperial city shook, everyone was shocked.

In the Dawei Dynasty, in addition to Dange and other forces.

There are actually only two most terrifying forces.

One is the three major families headed by Leng's family, and the other is the Zongmen Alliance headed by the Wujizong and Guiyuanzong.

Today, these two forces have all been wiped out, which for the people of the Dawei Dynasty is no different from an earthquake.

What is even more shocking is that the Leng Family and other forces can become the top forces of the Dawei Dynasty precisely because of these forces, the supreme King of Martial Power is in charge.

But now, the ancestors of the Martial Kings of Leng Family and other forces have been completely destroyed by the royal family.

Is this true?

For a time, the dynasty shook, and everyone trembled.

It wasn't until someone secretly went to Liuxianzong's resident and saw the tragic scene and the Leng Pogong corpse hanging high on the gate of Liuxianzong Mountain, the imperial city couldn't help but breathe in the air.

After the Leng Family Alliance was destroyed, all the arrested senior leaders of the four major forces were pushed to the execution ground for beheading the next day.

On this day, the alleys of the imperial city were empty, and everyone rushed to the execution ground, and the entire execution ground was almost crowded.

The Leng Family, Wu Family, Wuji Sect, and Gui Yuan Sect have occupied high positions for so many years, and their disciples have been overbearing, which is extremely serious.

There are countless imperial warriors and forces who have suffered from them.

Now seeing the head of the Leng family, Leng Feifan, and others were beheaded to show the public, they were all celebrating with each other, and they were very excited.

What excites the people and the major forces is that after destroying the Leng family and other forces, today's His Majesty Liu Xuanrui announced that in the next three years, all taxes in the dynasty will be reduced or exempted. Except for the basic tax, ordinary people's taxes are exempt. Our taxes are also reduced by more than 50%.

As soon as this move was made, the whole country was jubilant.

The people all applauded.

What they didn't know was that after the royal family destroyed the four major forces such as the Leng family, they confiscated all the territories, mansions, and treasures of the four major forces and included them all.

Even Liu Xuanrui was shocked by the amount of wealth accumulated by these four major forces over the centuries, almost several times that of the dynasty's treasury.

With this wealth, the dynasty, let alone tax relief for three years, even if it is not taxed for ten years, it is completely fine.

What's more, after cooperating with Chendi Pavilion, the future wealth of the royal family will be greatly expanded. At that time, it will not be comparable to that of several forces in the search area.

In fact, after Liu Xuanrui searched the residences of the four major forces, he did not transfer them to the royal family. He wanted to give the property to Qin Chen, but Qin Chen did not accept it.

And the Mo family also announced that they would join the Chendi Pavilion in the future and become the Chamber of Commerce organization of the Chendi Pavilion in the land of hundreds of dynasties, responsible for transportation matters.

The Ding Qi Pavilion also announced that it would join the Chen Di Pavilion and become a division jointly held by Chen Di Pavilion and Qi Dian.

After this battle, the entire Dawei Dynasty did not survive any other top forces, and only the royal family remained.

And Chendi Pavilion, which only does business and does not expand its influence.

The entire Dawei Dynasty seemed to belong to the royal family, but what outsiders didn't know was that it was not the royal family, but Qin Chen who controlled everything behind the scenes.

The only thing that worried Qin Chen and the others was that both Yan Wuji and Yue Lengchan ran away, which was always a disaster.

They kept their hearts in mind, guarding against whether the other party would sneak attack.

But a few days later, someone found a corpse hundreds of miles away in Liuxianzong. After the final verification, it was the body of Yan Wuji, the lord of Wuji Sect.

Moreover, Yan Wuji has become a corpse.

"It seems that Yan Wuji was killed by Yue Lengchan."

Qin Chen was speechless, and Yan Wuji and the others wanted to subvert the imperial family of the Dawei Dynasty, but they did not expect that they would eventually die in the hands of the so-called own people.

However, since Yan Wuji was killed by Yue Lengchan, Qin Chen's heart was let go.

After so many days, Yue Lengchan had no news, and it seemed that he would not appear anymore.

After all, the current Blood Demon Sect is still lurking, and it is certain to bear such a big loss, but he certainly does not dare to make a public move.

"Your Majesty, Chendi Pavilion has sent the first batch of refined 100,000 sets of brand new equipment to the front line, along with the first batch of refined 300,000 special-effect pills."

In the chamber, Qin Chen said to Liu Xuanrui.

Liu Xuanrui stood up suddenly and said excitedly: "Master Qin, are you ready so soon?"

These days, because of the need to deal with Leng's affairs, the army of the Dawei Dynasty did not have any resistance to the invasion of the Dazhou Dynasty, but retreated all the way to preserve its strength.

Today, the entire Dawei dynasty has been occupied by the Dazhou dynasty in two states, and more than 100 cities have been lost.

Now that I heard Qin Chen said that the equipment and medicine are ready, why not get excited?

"Your Majesty, the army can be dispatched immediately, please go and enjoy it at that time." Qin Chen laughed.

The stronger the Dawei Dynasty, the better the Chendi Pavilion's natural development.

At the same time, Qin Chen also wanted to use this dynasty battle to open up the reputation and market of Chendi Pavilion in the land of a hundred dynasties.

"Well, this time, I want to let the Great Zhou Dynasty come and go."

Liu Xuanrui slapped the table with excitement, and a trace of hideousness flashed in his eyes.

Dingjuncheng!

Dingzhou state capital of the Dawei Dynasty.

At this time, outside the Dingjun city, the mighty army gathered, looking around, densely packed, endless.

"Marshal, this military city has no intention of surrendering."

At the barracks behind the army, a messenger walked in quickly and respectfully said to a strong man wearing battle armor and full of terrifying murderous aura.

The strong man, his whole body stagnant, sitting cross-legged, just like the king of this world, giving people a feeling that they dare not look up.

This person is the commander-in-chief of the Great Zhou Dynasty who invaded the Dawei Dynasty, Pingchuan King Zhouzun!

At the same time, he is also a seventh-order Wuwang powerhouse.

"Oh?" Zhou Zun furrowed his brows: "This is a military city, but he won't surrender?"

These days, wherever the Great Zhou Dynasty went, the army of the Dawei Dynasty lost their helmets and armor, and fled away. Except for the border at the beginning, this Dingjun City was the first city that wanted to resist.

A grinning smile was drawn at the corner of his mouth, Zhou Zun said coldly: "Through my order, the whole army will be dispatched and the Dingjuncheng will be taken. After the siege, the whole army will slaughter the city. I want this Dingjuncheng without people and animals."

The victory along the way made Zhou Zun not very excited, and now it is hard to have the city to resist, just having the opportunity to kill the Quartet.

"Yes!" The messenger had to leave.

[Chapter 862: Dawei strikes back](#)

"kill!"

Hearing Zhou Zun's order, the army of the 300,000 Great Zhou Dynasty was all excited.

The entire army slaughtered the city, and no humans or animals were left. This made the great Zhou army who rushed all the way to conquer the city these days, excited.

This kind of thing is undoubtedly their favorite thing for soldiers and soldiers.

"Niang Xipi, I heard that this Dingjun City is the Mansion City of Daweiding Prefecture. There must be a lot of treasures in it. When the gate is broken, you must search it hard."

"Hahaha, I haven't touched a woman for a month, so after going in, you have to find a woman to relieve your fire."

"Hey hey, hahaha!"

"Kill, quickly break the city!"

A group of big Zhou soldiers, all excited, rushed to the Dingjun City in front of them crazy.

Rumble!

Three hundred thousand soldiers were so magnificent. In the rumbling roar, all kinds of ladders and chariots trembled the ground and slammed towards Dingjun City.

In the eyes of these Dazhou soldiers, the army of the Dawei Dynasty was basically a group of soft-footed shrimps. In less than half a month, a total of one million three-way army has drove thousands of miles and captured two states. Multi-city.

On an average day, at least ten cities are occupied. What a speed?

Although most cities have no resistance, just abandon the city and fled, but in the minds of these warriors of the Great Zhou, they have long left an impression that they are powerful, bloodless people.

This Dingjuncheng seems to be majestic, desperate to resist.

But under the main force of their army led by King Pingchuan, I am afraid that they don't even have the idea of going out of the city to fight. If you just stick to the city, you will be attacked and run away in no time.

With such a mentality, the soldiers of 300,000 Great Zhou rushed up like crazy.

Dingjuncheng.

A hundred thousand fully armed soldiers, already shawls and armors, are murderous.

Behind them is the gate of Dingjun City, and on a high platform in front of them, Liu Xuanrui is staring coldly at this group of troops.

"Everyone, did you hear the shouts from outside? It was Da Zhou's beast, attacking my mighty land and destroying our homeland!"

Liu Xuanrui said with shame on his face and angrily said: "Here, I want to apologize to you soldiers. It is I. Let you all retreat all the way. I have lost a large part of the country. It has made my people and people ruined. My family is ruined. I am sinful. ."

The crowd below suddenly became agitated.

Under the eyes of everyone, Liu Xuanrui suddenly raised his head, "But what I want to say is that the reason why I did this was also helpless."

Liu Xuanrui's eyes were cold, and said: "I didn't expect that my mighty Wujizong, Guiyuanzong, Leng family, Wu family and other forces would collude with Da Zhou in order to subvert my mighty dynasty and let me have to vacate. Energy to deal with the Leng family and other forces."

The crowd became agitated. They withdrew all the way to resist Da Zhou's army these days. They didn't know much about what happened in the imperial city.

The Leng family and other forces actually colluded with Da Zhou with the intention of rebelling?

All were restless.

Wujizong, Guiyuanzong, Leng's family, Wu's family, which is not the top force of the Dawei Dynasty, stomping one foot, the whole Dawei will tremble.

The four major forces rebelled together. Is the mighty sky going to change?

Feeling the restless hearts of the soldiers, Liu Xuanrui smiled proudly, full of confidence: "But... don't worry, everyone, now that the reactionary forces in the dynasty have been destroyed by me, the Wujizong, the Guiyuanzong, the Leng family, and the Wu family All other forces were wiped out, and all the disciples were beheaded."

Liu Xuanrui's murderous aura, accompanied by the will of martial arts, spread to the hearts of every soldier, making them chill.

The Promise Sect and other forces have all been destroyed, but is that a dynastic terror force with a powerful King Wu? It was completely wiped out in just half a month?

Many soldiers looked at Liu Xuanrui, feeling the aura of killing and decisiveness in him, and the terrifying will of martial arts, they were shocked one by one.

"Now, I can also free up my hands to deal with these Da Zhou beasts who invaded my great might. Everyone, I am ready, are you all ready?"

An intent to fight suddenly rose from Liu Xuanrui's body.

"Ready."

Angrily sounded, all the 100,000 mighty soldiers said angrily.

For half a month, they held back their anger and had been waiting for this day.

"In that case, what are you waiting for? The city gate is in front, and behind the city gate are the beasts of Da Zhou. Let these beasts of Da Zhou see the **** nature of our great power and kill!"

Liu Xuanrui raised a sharp sword in his hand.

"kill!"

Accompanied by the roar of countless soldiers.

Rumble!

One hundred thousand warriors who put on a new type of armor and took special effect pills, like a trend, rushed out frantically from the opened city gate, and violently collided with the warriors of the Great Zhou Dynasty who happened to kill the Dingjun City. together.

boom!

The 300,000 warriors of the Zhou Dynasty are so spectacular, like the waves, they hit the 100,000 mightiest warriors killed from the city gate, there is a sharp contrast in number.

"Hahaha, these mighty soft-footed shrimps actually dared to kill them out and kill them."

"Hey, kill them all and let them see me from now on. They don't even have the courage to lift a knife."

"Hahaha, kill!"

Facing the active attack of the mighty army, the 300,000 Great Zhou warriors suddenly laughed excitedly after a brief surprise, waved the sword in their hands, and slashed down frantically.

The dazzling sword, with an astonishing whistle, fell crazily on the Dawei soldier.

The eyes of these great Zhou warriors are blood red, and you can even imagine the scene where the great warriors screamed frantically, and the corpses were everywhere, and the blood was flowing into a river.

But an unbelievable scene happened to them.

Qiang Qiang!

Astonishing sparks were flying everywhere, and when their swords slashed on the opponent's soldier, they couldn't cut the opponent's armor.

"how come?"

A soldier of the Great Zhou Dynasty was all stunned.

Those who were recruited to become soldiers were not really powerful figures in the major dynasties, and most of them were some prefecture-level or heaven-level warriors.

Of course, there are also Xuan-level martial artists, but they are generally at the captain level.

As for the fifth-order Wuzong, it can become the leader.

Rank 6 Wu Zun is already a general.

Every soldier wears a certain grade of armor.

A warrior at the heavenly rank is wearing a normal heavenly armor. It is impossible to say that a warrior at the heavenly rank will wear a mysterious armor.

There are too many soldiers in a dynasty. The annual maintenance cost of the soldiers' weapons and armor is an astronomical figure. If you want to raise their armor to a level, the difficulty is high. Even if the dynasty is ruined, it may not be able to do it. In the land of a hundred dynasties, the equipment between the lower dynasties is actually similar.

[Chapter 863: Why bother to go](#)

But now, after seeing that one of his strenuous swords could not cut the armor of the soldiers of the Dawei Dynasty, the warriors of the Dazhou Dynasty were all shocked.

How could this be possible? How could the Dawei Dynasty have so much financial resources to make their soldiers wear such powerful armor.

In the shock of the warriors of the Great Zhou Dynasty, the warriors of the Dawei Dynasty couldn't control so much, they just slashed the past with a single backhand.

Puff puff puff!

The dense knives light up, and the armor on the warriors of the Great Zhou Dynasty, like paper, was cut open in an instant, and the entire warrior was divided into two.

Some of the soldiers of the Great Zhou Dynasty reacted quickly and quickly put their swords in front of them.

But it was also useless. With a click, it was also a soldier. The standard war knife in the hands of the warrior of the Dawei Dynasty easily chopped the war knife in the hands of the warrior of the Great Zhou Dynasty into two pieces, and with a sharp knife, he directly cut the opponent. Turn to the ground.

"what!"

Suddenly, the terrible screams shook the world, and after a torrent of 300,000 Zhou Dynasty soldiers hit one hundred thousand powerful soldiers, it was like a wave hitting the reef, breaking up instantly, and looking at the reef, it didn't move.

"kill!"

"Kill all these big Zhou dogs!"

"Dare to invade my Dawei, kill without mercy!"

Dawei's soldiers all held up to fight, roaring frantically, rushing into the opposing torrent like a hungry tiger.

With one hundred thousand to three hundred thousand, the mighty fighters did not even have the slightest timidity, but had the upper hand.

Puff puff puff puff!

The swords in their hands were raised and lowered, and every time a Da Zhou soldier was cut to the ground, it was like cutting melons and vegetables, without any effort.

A fourth-order mysterious captain of the Great Zhou Dynasty roared into the crowd. The armor on his body was clearly stronger than that of ordinary soldiers, and his cultivation was even more terrifying. The mighty soldiers stepped back again and again.

Only in the next moment, several powerful soldiers rushed forward, and four or five people joined hands and suddenly cut the captain of the soldiers of the Great Zhou Dynasty to the ground.

Before he died, the soldier captain of the Great Zhou Dynasty opened his eyes wide, revealing a deep disbelief.

His dignified Captain Zhou would have been chopped to the ground by a few powerful soldiers. If he hadn't seen it with his own eyes, he wouldn't believe it.

This kind of scene also happened in other corners. In just an instant, tens of thousands of Zhou soldiers fell, but on the Dawei side, only hundreds of soldiers were injured.

"kill!"

"Kill all these big Zhou dogs!"

Even the soldiers of the Dawei Dynasty themselves were unbelievable. After ecstasy, they rushed up crazy.

These armors and war knives were only obtained a few days ago. After testing, they were indeed more than twice as powerful as the original weapons.

But I didn't expect the effect to be so good?

In addition to these armors and war knives, each of them also received three special effect pills.

After taking it these few days, almost half of them have achieved breakthroughs. Even the martial artists who failed to make a breakthrough have greatly improved their strength and cultivation.

Originally, the Dawei dynasty and the Great Zhou dynasty fought all the year round, and the strength and quality of the soldiers were actually comparable.

But now that the strength has been improved and the weapons have been improved, the gap between the two sides has rapidly widened.

Puff puff!

The stumps flew around, blood was splashing everywhere, and for a while, the soldiers of the Great Zhou Dynasty fell like wheat.

"There is little dust, this new standard weapon is really terrifying!"

Looking at the upside-down scene in front of him, Liu Xuanrui said to Qin Chen beside him, with shocking expressions in his eyes.

Although he had great confidence in Chendi Pavilion's armor and pill, Liu Xuanrui did not expect that the effect would be so terrible.

Looking around, the soldiers of his Dawei Dynasty almost swept all the way, and the Dazhou warriors had no resistance at all.

"Your Majesty, this is just the beginning. This time the fight is still a bit hasty. If my Chendi Pavilion provides special medicinal pills for these soldiers all year round, I am afraid that within a month, the overall strength of these soldiers can be doubled. After half a year, it can be doubled. As for a year later, I am afraid that any soldier you see, your Majesty, is a Xuan-level martial artist!"

Qin Chen smiled faintly, but didn't care about it.

For a warrior, weapons and cultivation are the two most important factors. Now the soldiers of the Dawei Dynasty surpassed the Great Zhou Dynasty in these two aspects. It is also normal to cause such a result.

What's more, these 100,000 soldiers are elite veterans selected from the millions of troops of the Dawei Dynasty.

If it weren't for the time given to them, Qin Chen believed that with the help of the special effect pill, within a year, all the lowest-ranked soldiers of the Dawei Dynasty would become the fourth-order profound level powerhouse.

"Any soldier you see is a Xuan-level martial artist?"

Liu Xuanrui looked at Qin Chen in shock with a look of shock!

At present, in the entire Dawei Dynasty, more than 80% of the soldiers are earth-level or heaven-level martial artists. As for the fourth-order Xuan-level martial artists, only less than 10%, and Wu Zong and Wu Zun, even less. Up.

If the 100,000 army in front of you are all Xuan-level martial artists, then...

Liu Xuanrui's blood boiled instantly, and his breathing almost stopped.

In this way, in the entire hundred dynasties, who else is his mighty opponent? In addition to the top dynasties, at the military level, his mighty dynasty can even sweep across a hundred dynasties.

When Liu Xuanrui longed for it.

On Monday, all senior soldiers were shocked.

"What exactly is going on?"

Zhou Zun also stood up suddenly, his face was full of anger and disbelief.

Under his eyes, the 300,000 great Zhou army quickly defeated and retreated frantically, but was chased and killed frantically by the number of powerful soldiers far fewer than them.

"Who can tell me what exactly happened?" Zhou Zun shouted angrily.

He didn't understand why Dawei's soldiers, like those who had taken an aphrodisiac, were so much stronger than his Dazhou soldiers?

"Marshal, the situation is not good, should we trumpet and retreat?"

A general was on the side, and said in fear.

In just half an hour, they have received the battle report. A total of 300,000 troops have been killed and injured more than 100,000. On the other hand, the number of people on the side of Dawei has not been reduced.

Did the other party use sorcery to fail?

"Retreat immediately and retreat three hundred miles."

With a pale face, Zhou Zun hurriedly ordered.

As a martial king, although he has the ability to change the situation, the scene is too chaotic now. The morale of Da Zhou has fallen to the extreme in just half an hour. With his own power, he may not be able to turn the tide.

Even if he could kill the opponent's general, at that time, his 300,000 army, I am afraid that only a few tens of thousands will be left dead.

The most urgent task at the moment is to retreat and understand the situation before making a decision.

"Retreat, retreat!"

The loud drink accompanied the retreat horn, frantically sounded.

The Da Zhou army, which was still frightened and resisted, suddenly retreated like a tide.

"Let's go too!"

Zhou Zun said coldly, a group of high-ranking generals suddenly wanted to retreat with the army.

"Zhou Zun, since I'm here, why bother to leave in such a hurry?"

At this moment, a loud laughter resounded between the world and the earth. In the sky, a figure exuding a towering aura instantly landed and appeared in front of Zhou Zun and the others.

It is Fu Xingcheng!

[Chapter 864: King Wu showdown](#)

"boom!"

Fu Xingcheng was full of dazzling murderous intent. At this time, like a **** of war, standing proudly in the sky, looking down at the Great Zhou Barracks indifferently.

His face was arrogant and domineering.

"It's a seventh-order Martial King master."

"The Dawei Dynasty actually sent such a powerful man?"

"It seems that the Dawei Dynasty is ready to fight back with all its strength."

In the barracks, several left-behind generals changed their colors.

"Who is your Excellency, dare to stop this seat?"

Zhou Zun walked out of the camp, looked up, his eyes were squinting, and he saw a man with a deep temperament standing proudly in the sky, with the breath of the king of war revealed on his body, like a **** of war.

"Zhou Zun, you, as the king of the Great Zhou Pingchuan, this time the chief of the Great Zhou army, invaded my Dawei, don't you even recognize the old man?" Fu Xingcheng said solemnly.

"Hahaha, there are so many masters in the world, don't you think this commander wants to know one by one?"

Zhou Zun's heart was gloomy, but his mouth sneered.

Dawei and Dazhou are at war, and they have heard of each other's masters, but few have actually met.

Fu Xingcheng smiled faintly, but didn't get angry, and sneered: "That's what I said, but the old man can guarantee that you don't know me now, and you will remember the old man's name forever, Fu Xingcheng!"

"Fu Xingcheng? It turns out that you are the dean of the Dawei Emperor Star Academy, a dignified teaching bookmaker. What kind of battlefield is you going to run? Hahahaha! If this is the case, I think you will be disappointed!"

Zhou Zun let out a cold snort and immediately laughed.

In fact, he didn't know Fu Xingcheng, even if he hadn't seen the other party, the information given by the Leng family contained information about Dawei masters, but he deliberately ignored the other party.

"Your influence?" Fu Xingcheng chuckled: "Your Excellency thinks too much. The warriors of the Great Zhou Dynasty are all beasts. They can be kind to people and can be kind to people, teach kindness, and how can they influence beasts? Old man today, yes. To kill you!"

As the words fell, Fu Xingcheng burst into killing intent, and a sharp light suddenly rose in his eyes.

"Zhou Zun, can you dare to fight?"

The spear in his hand pointed at Zhou Zun far away, and Fu Xingcheng was wild and domineering and majestic.

Not long ago, together with Liu Tai and others killed Leng Pogong and his entourage, he, a mighty martial king, soared like a flying spirit, and his spirit and spirit had become completely different.

"court death!"

boom!

A terrifying coercion broke out on Zhou Zun, and the whole person rose up into the sky, staring at Fu Xingcheng, and said coldly: "Your Excellency, if you want to die, that handsome will make you perfect. A teacher can do it within ten moves. Defeat you!"

Dawei sent the Wuwang strong, Zhou Zun knew that he and the opponent must have a battle today, otherwise, he would not be able to leave.

Fu Xingcheng squinted his eyes and smiled, stretched out a finger, shook it gently, and sneered, "Why do you need ten tricks? Within eight tricks, the old man can defeat you."

Zhou Zun's face was angry, "Your Excellency is too self-confident. Is it possible that your Excellency thinks that the commander's "Tian Zun Sword Technique" only has seven moves, so he can defeat me with eight moves?"

"Haha, it's often heard that Zhouzun's "Tianzun Sword Technique" of the Great Zhou Pingchuan King is majestic and overbearing, unmatched, but the old man doesn't think so. The "Heaven Sword Technique" is just a boast. , Defeat you!"

"Then let this commander teach your superior skills!"

Zhou Zun's expression was furious, and he couldn't bear it anymore, his true essence exploded, and his whole person rushed towards Fu Xingcheng instantly like a rainbow light.

Boom!

Because the flight speed was too fast, there was even a sonic boom in the air, and Zhou Zun's body dragged a long wave of air in the void.

In the blink of an eye, he came to Fu Xingcheng.

"Chang!"

In Zhou Zun's hand, a sword appeared at some point, and the sword appeared, and the sharp sword intent rose to the sky. In an instant, it merged with the atmosphere of fighting on the battlefield below, forming an extremely tragic atmosphere of sword intent.

Zhouzun, King Pingchuan, was a master of Wu Wang who came out of the battlefield.

It took more than forty years to progress from a cannon fodder soldier all the way to the captain, commander, partial general, general, and eventually the marshal of the Great Zhou Dynasty.

Along the way, with blood on his hands, there are countless people who have killed.

This person's swordsmanship also came out of the battlefield, and as soon as he shot it, he was completely integrated with the entire scum field, partly with each other.

He doesn't have any flaws in his body, and he can even use the general trend of fighting on the battlefield to kill the opponent.

A real master showdown is not just a confrontation of one's own strength, but also a grasp of the mentality and use of the surrounding environment.

In the distance, Liu Xuanrui's eyes narrowed on the city wall.

This Zhou Zun, it was rumored that King Wu was killed from the battlefield, and he had two shots.

"I wonder if Dean Fu, will this Zhou Zun's opponent be?" Liu Xuanrui frowned.

In terms of cultivation base, he is much worse than Fu Xingcheng's veteran martial artist, after all, the true essence in his body is condensed, and he is ready to shoot at any time. At the same time, he is also very curious how Fu Xingcheng will respond to the opponent's attack and break the opponent's general trend.

Not only him, but at this time the entire battlefield below has stopped, and hundreds of thousands of people are staring nervously at the battle in the sky.

Especially the soldiers of Da Zhou clenched their hands, because they knew that the result of the battle between Zhou Zun and Fu Xingcheng represented whether they could survive in the end.

"As expected of King Pingchuan, kind of interesting!"

At the moment Zhou Zun's sword fell, Fu Xingcheng gave a chuckle, then the light in his eyes lit up, and he slammed a shot in an instant.

"boom!"

The tip of the gun carried the horrible breath of tearing everything, tearing the air into a long wave of air. At the top of the wave, there was even a flame blooming, and it instantly collided with Zhou Zun's sword.

"Crack!"

The energy exploded, and there seemed to be a thunder in the sky. The air between the two was emptied instantly, and a violent sound burst, which shook the two of them apart and broke Zhou Zun's general trend.

"Boom!"

Fu Xingcheng's body collapsed like a bow, and there was a bow in the body, which was a vibration of tendons.

And the long spear in his hand seemed to be transformed into an arrow, and the sharp arrow hit the string. When it was condensed to the extreme, it shot out suddenly and directly pierced Zhou Zun.

The trembling sound of the meridians in the body hummed and shook the eardrums of the lower soldiers, dizzy, and shocked, almost unable to stand.

"Total Annihilation!"

Zhou Zun's face was solemn, and he swept out. In an instant, the sword in his hand exploded densely, forming a large army, whizzing towards the past.

Fu Xingcheng laughed loudly and directly broke into the thousands of swords.

A shot was pierced, and the shadow of the gun hit the ground like a comet, shattering the void and flashing across the eye.

"boom!"

The dense knives exploded, and the two of them were almost in their extreme form. The countless soldiers below stared wide, but they couldn't see the shadows of Zhou Zun and Fu Xingcheng at all.

Boom boom boom boom!

Thousands of knives shattered, and after the two figures intertwined, they suddenly separated, like falling leaves in the wind, fluttering back a hundred miles away.

[Chapter 865: Big week shock](#)

"Awesome, just one move, it broke my thousands of sword energy." Zhou Zun stood in the void, his eyes solemn.

His sword intent is overbearing and bloodthirsty, and the general martial king is shrouded in sword intent, and he is often frightened, and his combat power is ten percent but not eighty percent.

But Fu Xingcheng was not affected at all.

How did he know that Fu Xingcheng had felt the terrifying sword intent displayed by Qin Chen in the martial arts formation, it was the sword intent of Emperor Wuyun Sword Emperor.

Compared with Fengyun Sword Emperor, Zhou Zun's sword intent was overbearing, but it was still too weak and elementary.

"war!"

Fu Xingcheng stabbed a second shot, and the air in the whole world condensed crazily, and it swept out like a wave.

Hum!

The starry sky burst out from the long spear in Fu Xingcheng's hand. There was originally only one spear shadow in the sky. In an instant, it turned into two. Then, four more appeared...

In the end, there are totally innumerable gun shadows, like thousands of soldiers, swinging their guns in the sky, turning into a flood of gun shadows.

The soldiers below were already shocked.

The dense shadows of guns in the sky completely stunned them. Is this really a person shooting? Instead of fighting together?

"The same martial artist, why is the gap so big?"

Countless soldiers looked shocked, fighting on the battlefield, the most desperate, even the sixth-order martial arts, if they want to kill, they have to enter the crowd, crazy shots, one move can kill a dozen or dozens of people, it is the limit.

But they were all shocked when they saw the King Wu in the sky fighting against each other.

Under this move, I am afraid that an army of thousands of people will be beheaded and turned into blood mist.

King of Wu Wang, well-deserved reputation.

In the shock of everyone, the two sides finally made contact in the sky.

The thousands of gun shadows that shocked them were in front of Zhou Zun, but they were all shrunk by a sword light that was used to the extreme, like a blooming flower returning to the bud.

Boom boom boom!

The two figures crazily intertwined in the sky, and every shot fell, there was an amazing roar, shaking the sky.

Fortunately, the two of them did not rush into the battlefield, otherwise any blow would shake countless soldiers into blood mist and turn them into nothingness.

In the sky, after several collisions, the two figures separated again.

"Seven moves are over, the next move will defeat you!"

Fu Xingcheng's eyes were bright, his body's momentum surged again, every pore on his skin spit out rich true essence, took a deep breath, in an instant, the heaven and earth true energy within a few kilometers was completely evacuated and entered him. Of the body.

Zhou Zun felt the powerful aura of Fu Xingcheng, holding the knife in both hands, his eyes were crazy, and a terrifying killing intent also rose from his body.

At the same time, there were also two men's bloodlines that were strong enough to be terrifying, and they all merged into the fighting spirit.

"kill!"

"Boom!"

The two forces collided together, and the sky was flooded with endless streamers. A terrifying shock wave came down from an altitude of thousands of meters, and sank into the ground with a thud.

Puff puff puff...

Below the battlefield, thousands of soldiers were shaken out, spouting blood, and at the core of the impact, thousands of soldiers of the Great Zhou Dynasty were shaken into dust, blood shed all over the ground, forming a circular blood lake. .

"Puff!"

Zhou Zun flew upside down, his body armor shattered, blood spurted out of his mouth, and his eyes showed incredible color.

He couldn't believe how he was defeated.

With this blow, Fu Xingcheng's vitality penetrated his body, shook the meridians in his body to pieces, and suffered serious injuries.

But on the opposite side, Fu Xingcheng was also uncomfortable. He muffled, his face pale, but he was much better than Zhou Zun, and the corners of his eyes were full of joy.

Zhou Zun, the peak martial king in the early stage of the seventh stage.

It was the army **** of the Great Zhou Dynasty, and existed like a butcher.

Among the several dynasties in the northwest, there is a huge reputation, and many masters of Wuwang meet this person, and they are also frightened.

Before the change, with his cultivation base, even if he tried his best, he would only be able to draw against the opponent, and even fall short.

However, after Qin Chen's martial arts formation was improved, Fu Xingcheng clearly felt that his strength was gradually improving.

If it weren't for this time alone, he might not have noticed it.

"Damn it, retreat!"

Zhou Zun shouted angrily, ignoring the soldiers below, while flying upside down, the whole person rose into the sky.

Although he was defeated, Fu Xingcheng might not be able to stop him if he wanted to leave here.

Only after going back, slowly recuperate, wait until the injury recovers, and then take revenge.

"Hahaha, if you want to go, can you go?"

At this moment, two laughter sounded again, and suddenly two figures shot out from the sky from a distance.

It is Liu Tai and Liu Xuanrui who have been gathering for a long time.

"what?"

Zhou Zun was shocked. He didn't expect that in addition to Fu Xingcheng, the Dawei Dynasty also had two martial kings hiding nearby.

As far as he knows, there are not many powerful kings in the imperial family of the Dawei dynasty. They all came here. Isn't it afraid that the imperial city will be empty and be found by the Leng family and other forces?

In fright, Zhou Zun hurried to flee.

"Stay!"

Liu Tai's eyes condensed, his figure was as fast as lightning, and the strength of the seventh-order mid-stage Wu Wang burst out for the first time, and he slapped Zhou Zun with a palm.

With a bang, Zhou Zun, who was seriously injured, had no time to react, so he was slapped and flew out, blood spurting wildly, he fell heavily into the ground, and his bones were broken.

"boom!"

Rushing into the ground, Liu Tai grabbed Zhou Zun abruptly, imprisoned his true essence, and rushed to the sky.

"what!"

Zhou Zun screamed, struggling hard, trying to escape from Liu Tai's hands, but it was useless. He, who was already seriously injured, was so badly injured by Liu Tai that he was unable to resist.

"Your Excellency invaded my Dawei Dynasty, maybe you didn't expect this day?"

Liu Tai looked at Zhou Zun coldly and laughed excitedly.

The purpose of this attack is to make Zhou Zun come and go. Otherwise, why bother to let Fu Xingcheng fight Zhou Zun first?

The reason why he didn't attack all at the first time was because he was afraid that something happened to Yan Wuji and others before, and Zhou Zun fought hard and escaped here in a state of victory.

Now, let Fu Xingcheng seriously injured Zhou Zun first, and then he attacked suddenly, which really had a miraculous effect.

The dignified military **** of the Great Zhou Dynasty, King Pingchuan, had been captured by himself without even being able to react.

It might not necessarily have such a good effect if he played himself at the beginning and directly suppressed Zhou Zun.

"No, the marshal was captured."

"Run, run away!"

Below, after seeing Zhou Zun being captured, the soldiers of the Great Zhou Dynasty were all stunned and retreated madly!

"Kill, kill all the soldiers of the Great Zhou Dynasty, leaving none."

Looking indifferently, Liu Tai waved his hand and gave orders to the army below.

A slaughter began.

The Dazhou army was already unable to resist, and now its morale has fallen, and it even lacks the courage to resist.

Fleeing all the way.

But how did they escape the chase of the mighty army?

Half a day later, the 300,000 troops of the Great Zhou Dynasty that invaded Dingzhou were all annihilated, and none of them survived. The corpses were piled up like mountains and blood flowed into rivers.

After the victory of the Dawei dynasty, it was pursued by victory.

Chased and killed Da Zhou's army for thousands of miles.

There were 700,000 troops left in Great Zhou. After learning that Marshal Zhou Zun had been captured, he didn't even have the courage to fight and fled in panic.

In less than ten days, the one million Great Zhou army who invaded Dawei suffered heavy casualties and had fewer than 100,000 soldiers alive. They were driven into Dazhou territory.

The Dawei army began to assemble at the border, obviously intending to launch an invasion of Dazhou.

The news came back to the Imperial City of the Great Zhou, and everyone was shocked and pale!

[Chapter 866: Defeated again](#)

The army of one million was almost wiped out.

Such news came back to the Great Zhou, and the entire Great Zhou dynasty was shaken by it. The government and the public, the ministers, were dumbfounded and silent.

"How is this possible?"

"How can the Dawei Dynasty be so powerful, a million army, this is not a mere 10,000 people, a full one million."

"I didn't say I heard that my Dazhou army, under the leadership of Lord Pingchuan, has captured the two states of Dawei, and it won't be long before it can even enter Dawei Imperial City? Why did it suddenly happen? ?"

"It is said that even His Majesty King Pingchuan died, Lord King Pingchuan, who is my Great Zhou Army God, the King of Wu, would fall so easily?"

The crowd shook, the entire Great Zhou Dynasty was stunned, and countless people who received the news were dumbfounded and almost dumbfounded.

A few days ago, good news came one after another. They also heard the news of Dawei and Dazhou using force on the border, but they couldn't think of how long it took? The entire army of the Great Zhou Dynasty was destroyed, but it was the Dawei Dynasty, and the army was on the scene.

For a while, people were panicked and all panicked.

Imperial City of Great Zhou Dynasty.

The palace!

"boom!"

Smashing the Nine Dragon Jade Rod in his hand to the ground, the Emperor Zhou Tianxun of the Great Zhou was furious, staring at the many courtiers in the hall with an angry expression.

"The army of a million, the army of a million dignified, was completely wiped out in one day, and they fled back alive, only tens of thousands, even Zhou Zun died in the territory of Dawei, who can tell me? What is going on?"

Zhou Tian looked down coldly, trembling with anger, almost unable to breathe.

Below, many ministers were silent, no one dared to speak, and they were all unbelievable.

The development of the situation far exceeded their expectations, so they could not imagine.

"Your Majesty, don't worry, the dragon body is important."

The old **** around Zhou Tianxun stepped forward anxiously, and said worriedly.

"Dragon body? Now I am going to die in Da Zhou, and I still have the dragon body?" Zhou Tianxun stood up from the dragon chair and walked in front of everyone. Under the circumstances, is it easy to destroy Dawei? Why do you stop talking now?"

Zhou Tian looked anxious, the fire in his mouth was about to rise.

Now that the border is in a hurry, Zhou Tianxun is almost crazy when he asks for support.

The only fortunate thing is that after the Dawei army destroyed the Dazhou army, it did not take advantage of the victory to pursue it, but gathered at the border, giving Zhou Tianxun some chance to breathe.

"Your Majesty, could it be that the Leng family deliberately framed my Da Zhou, deceived my Da Zhou to pass, deliberately set a trap, and caused my Da Zhou defeat?"

An old official doubted.

"The Leng Family?" Zhou Tianxun snorted, his face was ugly, and his eyes were cold: "Among Dawei, there is no Leng Family anymore. Not only the Leng Family, including Wu Family, Wuji Zong, and Gui Yuan Zong, have been exhausted. All were wiped out by Liu Xuanrui's old man."

"Your Majesty, is this news accurate?"

The ministers of the great Zhou were shocked one by one, looking at each other in disbelief.

The Leng Family, the Wu Family, the Promise Sect, and the Guiyuan Sect were the top forces of the Dawei Dynasty, equivalent to the three major sects of the Great Zhou Dynasty. Therefore, the Great Zhou would send troops immediately under the action.

Unexpectedly, the four major forces such as the Leng Family would be destroyed by the Dawei Royal Family within half a month, which made the Da Zhou's courtiers unbelievable.

To become the four powers of Dawei, at least a master of the Wuwang level is required. How can these forces be so easily destroyed?

"The news is naturally true."

Zhou Tianxun's face was pale, and he did not expect that the Leng family who encouraged them to send troops would be destroyed so quickly. If he had known this, he would not have sent troops so hastily without preparation.

What shocked him even more was that he sent someone to inquire about the news of the demise of the Leng family, but he couldn't find out the specific news, which made him extremely worried.

"Immediately send someone to inform the three major factions. At this time, I need the full support of the three major factions."

"At the same time, all states are conscripting troops and going to the border. We must not allow the Dawei Dynasty army to invade our territory."

"Also, immediately notify the Dachen Dynasty, I Dazhou, I will discuss important matters with Dachen."

"Finally, you must figure out how the four major forces such as the Leng family were destroyed. The mighty army, I heard that all weapons and equipment have been amazingly improved, why is it so terrible suddenly?"

Looking at the many courtiers below, Zhou Tianxun's face was pale, and said with a cold voice.

As a hero, I have to say that Zhou Tianxun's response was quick. Under his order, Da Zhou's soldiers quickly assembled at the border. At the same time, the three major factions also sent top masters to the border between both sides.

At the same time, one by one Dazhou spies quickly entered Dawei's territory, preparing to explore Dawei's inside story.

In just a few days, Da Zhou once again assembled a large army of one million troops, quickly gathering at the border, preparing to resist Dawei's attack.

And on the second day of the Great Zhou army just assembled.

The mighty army, guarding the surrounding area, had never done anything, but suddenly dispatched.

Taking advantage of the moment when Da Zhou's army had not had time to react, they attacked quickly.

The Da Zhou army was originally mobilized from various states, and it was exhausted after traveling long distances. Now, under the sudden attack, how is it the opponent of the predominant army that has been ready for a long time.

The millions of troops assembled again did not last for even a day, and they collapsed in an instant, and more than ten border fortresses were breached by Dawei.

For a time, blood ran into rivers, and bodies piled up like mountains.

As a result, the big Wednesday faction, which arrived in time, had no chance to make a move, so it could only retreat with the Da Zhou army.

Although the three major factions of the Great Zhou were the sects within the Great Zhou territory, after all, they were only attached to the Great Zhou, not the lackeys of the Great Zhou, just like the Lengjia and Wujizong forces.

It is naturally very happy to let them eat meat and soup with Da Zhou, but let them sacrifice their disciples for Da Zhou, but they would never agree.

"Hehe, after this battle, Da Zhou's vitality should be greatly damaged. In a short period of time, I am afraid that there will be no more troops to gather."

Standing at the head of the Great Zhou Fortress, Liu Tai looked at the Great Zhou army retreating in a hurry in the distance, and said with a light smile.

In fact, after Dawei defeated Dazhou's millions of troops at the beginning, he was able to invade Dazhou.

However, Liu Tai did not act rashly. Instead, he let the Dawei army rest and regenerate its energy.

I have been waiting for the Great Zhou to take action, to mobilize new troops from all states, and have just arrived on the battlefield, before they have a firm foothold, and then attacked strongly, instantly defeating the enemy's re-assembled millions of troops, causing heavy casualties.

After this battle, the Great Zhou Dynasty wanted to gather enough troops again in a short time, and the difficulty was probably more than ten times stronger than before.

There is no longer enough living army in the Great Zhou area.

[Chapter 867: Beginning of Fame](#)

The millions of troops gathered in the Great Zhou finally collapsed again, and the news spread to the surrounding dynasties, all shocking and inexplicable.

At the border of the land of hundreds of dynasties, the dynasties of Dazhou, Dawei, Daxia, Dachen, and Dashang are actually almost the same.

In particular, Da Zhou and Dawei have been fighting all year round, which can be described as a sea of blood and deep hatred. Both sides want to annex each other. The hatred between each other may be traced back to a thousand years ago.

For hundreds of years, Dazhou and Dawei have had conflicts on the border every year. Even if it is a large-scale conflict, there will be one every few decades, but each other is you and me, and no one can do anything.

But now, the Dawei Dynasty actually defeated Dazhou's millions of troops twice in just one month, resulting in Dazhou's two million troops and less than two or three million survivors.

The news reached the ears of all the courts, and the court was shocked.

You know, the strength of Dazhou and Dawei has always been between the two, not only the two dynasties, even some of the surrounding dynasties, but also half a cat.

If Dawei has the ability to destroy Dazhou, doesn't it mean that the Dawei Dynasty wants to defeat their army easily and effortlessly?

As soon as this thought came out, the royal families of all dynasties were shocked.

For a time, the major dynasties frantically inquired about news about the Dawei Dynasty.

And everything about Chendi Pavilion was naturally discovered by them.

News about special effect pills and new types of armor also leaked to these dynasties.

These dynasties took advantage of various relationships and quietly bought some special medicines from the Dawei Dynasty.

After each experiment, I was shocked.

The three special-effect medicines developed by Qin Chen are much more powerful than the current medicines on the market in the Land of Hundred Dynasties. Once such medicines spread in their dynasty, it only takes a year to let the overall strength of their Dynasty Warriors at least double.

At the same time, some of the armors and weapons used by some Dawei soldiers against the Dazhou army were secretly obtained by the major dynasties.

"Kang Dang!"

Seeing the treasure soldiers and armors of the same level being easily torn apart by the mighty weapons, all these dynasties were stunned.

No wonder the Dawei dynasty defeated the one million army of Dazhou with hundreds of thousands of people. The weapon gap between them was too great.

Equipment and strength are not on the same level, how can this be played?

These surrounding dynasties can fully imagine that in a few years, the great power of the country will completely override them and become the overlord among them.

For a while, the hearts of the major dynasties were extremely nervous and nervous.

"Chendi Pavilion?"

These forces, one by one, looked solemn and tense.

Although the Chendi Pavilion created by Qin Chen has not yet been promoted, it has spread slowly in this corner of the land of hundreds of dynasties.

At the same time, Qin Chen's name was quietly passed on in some dynasties.

When each dynasty explored the great power.

In a fortress in the Great Zhou Dynasty, Qin Chen, Liu Tai and a group of people also gathered together again.

"Little dust, what shall we do next?"

Looking at Qin Chen, Liu Tai, Liu Xuanrui and others, with questions on their faces.

In today's Dawei Dynasty, although Liu Tai is the number one powerhouse, in terms of real influence, it is actually Qin Chen.

Qin Chen smiled, and said, "I don't understand the affairs between dynasties. Dawei still needs to rely on Dawei himself. But what Ben Shao can guarantee is that in addition to the three special medicines, our Chendi Pavilion will also constantly develop new types of pill to improve the overall strength of the Dawei Dynasty. Only when the overall strength is up, can it truly gain a foothold."

Qin Chen knew very well that it was impossible to gain a foothold in a hundred dynasties by relying on a group of powerful soldiers.

Soldiers can only conquer the four directions and open up the territory, but want to defend this territory, so that no one dare to use their brains, more they need the protection of the strong.

Only by gathering more Wuwang powerhouses can the Dawei Dynasty fully grow, otherwise, it will always be very imaginary.

For example, now, the army of the Dawei Dynasty has enough strength to penetrate into the territory of the Zhou Dynasty and annex a large amount of land, but if it wants to truly destroy the Zhou Dynasty, it is not enough to rely on Liu Tai.

After all, the imperial family of the Great Zhou Dynasty and the three major sects unite, and Liu Tai alone may not be able to destroy each other.

This is also the reason why Liu Tai has been so slow now.

What's more, he also heard that the Great Zhou Dynasty had contacted the Dachen Dynasty.

Da Zhou and Da Chen have been friends with each other for many years. Once the two powerful dynasties join forces, even if he is the seventh-tier mid-level martial king, he must be careful.

Seeing Liu Tai's worry on his face, Qin Chen said lightly: "Although Dawei is stronger now, in fact, there are still some gaps from the truly powerful dynasty. It takes time to grow up, and allies are needed! "

"Shao Chen, what do you mean?" Liu Tai and others looked over.

"The Great Zhou Dynasty must be destroyed as soon as possible. This is for sure, and this also represents the rise of Dawei. However, to destroy the Great Zhou, we may not need our own efforts. Those in the land of the court, otherwise they will definitely become the target of the public. In that case, why not win over some allies first and let them do their best for me?"

Liu Tai's eyes suddenly lit up.

Indeed, the Dawei Dynasty and some neighboring dynasties were not completely hostile. For example, the relationship with Daxia was fine.

"Moreover, how the Dazhou dynasty treated us, I think the ancestor Liu Tai should have not forgotten. Since Dazhou can collude with the Leng family, why can we not bring the three major factions of Dazhou together? I believe that the forces that can gain a foothold in this land of hundreds of dynasties all know the truth that those who know the current affairs are brilliant, and know that the Great Zhou has fallen, how can they be tied to them?"

"Less dust, we understand."

Liu Tai and others were all excited.

At first, they were all a little bit distressed thinking that they would destroy Da Zhou.

After all, with Dawei's own strength, after all, the development time is too short to defeat Da Zhou, but it is extremely difficult to destroy Da Zhou.

But now, Qin Chen's proposal made them suddenly clear.

How can the real overlord take his own hands this time, and will often draw a large group of allies together, just need an order, and naturally someone else will do it for them.

What's more, the Dawei Dynasty, after all, is only an inferior dynasty. If you want to become truly strong, you must unite all its allies in order to fight against the overlords in the land of a hundred dynasties.

After the discussion, Qin Chen no longer paid attention to the state affairs of the Dawei Dynasty, but returned to the imperial city and practiced hard in seclusion.

Chendi Pavilion, Zhuo Qingfeng and the others are in charge, and although Zhuo Qingfeng and the others cannot act for the Dawei Dynasty, they are more than enough to protect Qin Chen.

[Chapter 868: Secret Realm](#)

In the following period, Qin Chen practiced hard in retreat, and each retreat lasted half a month.

And every time the practice is over, Qin Chen's cultivation base and strength will make huge progress.

As for the black slaves and others, they were put on the battlefield of Great Zhou by Qin Chen.

You Qianxue's strength has improved extremely quickly, even with the help of Qin Chen, the foundation is actually quite unstable, but after experiencing **** battles on the battlefield, they will be transformed.

As time passed, Qin Chen's cultivation level improved extremely quickly under the endless supply of the royal family.

After a month and a half, Qin Chen finally broke his cultivation base to the middle of the sixth tier.

After spending more than a month, Qin Chen raised his cultivation base to the mid-stage peak of the sixth rank.

At the same time, the Thunder Bloodline also reached the sixth-rank realm under Qin Chen's promotion.

"Crack!"

Under the full speed of the thunder bloodline, Qin Chen's speed reached 330 meters per second, almost close to the speed of sound, almost comparable to the seventh-order Wu Wang.

The Immortal Physique was also cultivated to the fourth peak by Qin Chen.

"Indestructible Eucharist has cultivated to the fourth peak, my physical strength is stronger than the average half-step Wuwang, almost comparable to the Wuwang at the early stage of the seventh stage, combined with the different demon armor, now my defense, even if it is the middle of the seventh stage. King Wu could barely resist with a single blow."

Qin Chen took a deep breath, clenched his five fingers, and felt the power transmitted from his body.

"Flap!"

The bones and muscles seemed to burst.

Even if he doesn't use martial arts, the power of his punch is enough to compete with the average half-step martial king.

"It's a pity that the difficulty of the Nine Star God Emperor Jue I'm cultivating is too high. I have twelve main meridians in my body, which require at least ten times more energy than ordinary martial arts."

Qin Chen was also bitter in his heart.

While the Nine Star God Emperor Jue made him powerful, it also made his cultivation much more difficult than ordinary martial artists.

After practicing for another half month, Qin Chen clearly felt that he had reached the bottleneck.

"I thought I would be able to step into the late stage of the sixth stage, now it seems that if there is no adventure, the difficulty of wanting the late stage of the sixth stage is not ordinary."

Shaking his head, Qin Chen walked out of the secret room.

"Little dust, are you out?"

As soon as Qin Chen came out, Liu Xuanrui and his party hurried over.

Liu Xuanrui was holding a newspaper in his hand, his face was full of excitement, and he was excited to Qin Chen, and said incoherently: "Little dust, half a month ago, our army of the Dawei Dynasty conquered the imperial city of the Zhou Dynasty, Liu Tai ancestor led my Dawei and Daxia coalition

forces and defeated the Da Zhou Dynasty. The three major factions of the Da Zhou Dynasty rebelled on the spot. The Da Zhou ancestors Zhou Xingyun and Zhou Tianxun were beheaded on the spot. Now the entire land of the hundred dynasties, Da Zhou The dynasty has become history, and the big Wednesday faction has also attached to my great power."

"Da Zhou lost?" Qin Chen was surprised.

For more than three months, he had hardly heard anything outside the window. Although he had been prepared for Dawei's defeat of Da Zhou, he did not expect that it would be so fast.

"Hahaha, this is the "Hundred Dynasties" of the Land of Hundred Dynasties. It records our Dawei's record."

Liu Xuanrui's face was red, too excited.

He unfolded the newspaper in his hand, turned to the middle page, and read: "The important news in the land of a hundred dynasties: the northwest of the Hundred dynasties, the Dawei Dynasty destroyed the Great Zhou, and became the overlord of the lower dynasties in the northwest of the land of the hundreds In the midst, the rising mysterious power Chendi Pavilion issued a variety of special effect pills in the land of a hundred dynasties, causing a sensation, and it is suspected that there is a top medicine king to help out."

Later, there is a quarrel between Da Zhou and Dawei, and the confrontation between the two sides for many years.

"Records of Hundred Dynasties, what is this?" Qin Chen was stunned, took the newspaper, opened it, and found that the records were all about the great events in the land of the Hundred Dynasties, including the Dawei Dynasty. Was placed in the middle position.

""Hundred Dynasties" is a publication issued by the entire Hundred Dynasties. Some of the lower dynasties in our northwest have not been listed in "Hundred Dynasties" for many years. Now I am on the "Hundred Dynasties". "Record" represents that our Dawei dynasty has become famous. Not only among the dozen dynasties in the northwest, but also in the entire land of hundreds of dynasties, it can also be regarded as small and famous enough to enter the vision of those middle and upper dynasties. ."

Liu Xuanrui said excitedly.

"Stories of the Hundred Dynasties" is a newspaper published by Tianji Pavilion, the top power of the Hundred Dynasties. It is published every month and mainly contains major events that have occurred in the entire Hundred Dynasties.

The more important things are, the more they are ranked ahead.

For example, ranked second is a top martial king of the top dynasty in the land of a hundred dynasties. He made a strong shot and severely injured a middle-tier seventh-tier ancestor of the middle dynasty, causing him to flee. Currently, his life and death are unknown.

The middle dynasty shook, and was besieged by the surrounding large middle dynasties, losing one third of its territory.

This important event was placed second.

Compared with the confrontation of these middle dynasties, Dawei is located in the northwest of the Land of Hundred Dynasties, a more remote place. Here are some lower dynasties, so even if a dynasty is destroyed, it can only be ranked in the middle position.

Because the collapse of an inferior dynasty, although significant, will not have much impact on the overall pattern of the Land of Hundred Dynasties.

In the land of a hundred dynasties, it is divided into lower dynasties, middle dynasties, and upper dynasties.

Among them, the inferior dynasty possessed the seventh-order early Wu Wang and reached a certain national power.

The middle dynasty has the seventh-tier mid-term Wuwang ruler and reaches a certain national power.

The upper-class dynasty possessed the post-ranking seventh-order Martial King and reached a certain level of national power.

Today's Dawei Dynasty, although Liu Tai broke through to the middle stage of the seventh-tier, but in terms of national strength, there is still a gap with some middle dynasties, so it can only be regarded as the overlord of the lower dynasty.

When the Dawei Dynasty completely annexed Dazhou and developed for a period of time, it may be able to squeeze into the ranks of the middle dynasty.

Of course, there are two ways to re-elect ratings.

The first one is the dynasty evaluation of Tianji Pavilion once every ten years.

The second is to go to Chaotian City, the core of the Land of Hundred Dynasties, to apply.

Both methods can be used.

The Dawei dynasty was founded more than a thousand years ago, but the number of times recorded in "The Record of Hundred Dynasties" is very few. The last time it was listed was more than 500 years ago.

Now that he is on the list again, how not excited Liu Xuanrui and other Liu family members.

When Liu Xuanrui was excited, Qin Chen set his sights on the first news of "Hundred Dynasties".

"The secret realm of the land of a hundred dynasties-the secret realm of the heavenly demon, it is confirmed that the seal has begun to loosen. According to the estimation of the Tianji Pavilion, it is expected that there will be about one and a half months before the secret realm of the heavenly demon will open again."

A simple sentence squeezed the news that the life and death of an ancestor of a middle-class dynasty was unknown and was almost destroyed. This shows the importance of this news.

"Devil Secret Realm? What is that place?"

Qin Chen was taken aback, and suddenly looked at Liu Xuanrui.

[Chapter 869: Mystery legend](#)

"The Heavenly Demon Secret Realm is the most important secret realm in our land of hundreds of dynasties. It has a long history and no one knows how many years it has existed."

Seeing Qin Chen's question, Liu Xuanrui's eyes suddenly became solemn, and his original excited tone also instantly became solemn and serious.

"According to legend, the Heavenly Demon Secret Realm was the battlefield between the Human Race and a certain terrifying alien race in ancient times, and the last remaining dilapidated space. This space secret realm has been closed for countless tens of thousands of years, and it was not revealed until thousands of years ago. In the land of a hundred dynasties, it is also the place that the strong in my land of a hundred dynasties value most." Liu Xuanrui said solemnly.

"Foreign battlefield?" Qin Chen frowned.

Is it the alien race that Gu Nandu will say?

It is not impossible. After all, the land of the Five Kingdoms is very close to the land of the Hundred Dynasties. On the mainland, it can be said to be a corner of the land. At such a close distance, the same people are of different races. It was a certain battlefield where the human race was against the alien race that the ancient Nandu said.

"Yes, the Heavenly Demon Secret Realm is an alien battlefield hidden in the depths of time and space. Since thousands of years ago, every hundred years, it will be in line with my land of hundreds of dynasties. The seal on it will also begin to loosen, and a channel for warriors to enter. And every time when the Heavenly Demon Secret Realm is opened, it is the most important day in the Land of Hundred Dynasties. Almost all the powerhouses in the Land of Hundred Dynasties will gather for this reason and go to Chaotian City to gain access. Secret Realm quota."

"Although there are many dangers in the secret realm of heavenly devil, every time it is opened, countless top powerhouses fall, leading to the destruction of a large number of dynasties, but it still attracts countless powerhouses from the land of a hundred dynasties to gather, and even some tops outside the land of a hundred dynasties. The forces will also come to Chaotian City to compete for the opportunity to enter the secret realm."

All the strong will gather?

Qin Chen was startled.

The so-called top powerhouse in the Land of Hundred Dynasties must be at least the seventh-order martial king level, and the secret realm that can make a group of seventh-order martial kings crazy is absolutely extraordinary.

"In fact, it's not just the masters of the king of martial arts, the mystery in the heavenly demon secret realm, in fact, even some of the top forces outside the land of a hundred dynasties are also coveted. However, the entrance to the seal of the heavenly demon secret realm is very weak. What kind of danger will be encountered, and the passage can be safely passed, but once the Wuhuang masters approach the seal, they will be torn to pieces by the violent aura in it, so there is no Wuhuang strong to participate, otherwise, those Wuhuang strong will miss such a good thing. "

The violent breath can tear the Wuhuang strong to pieces?

Qin Chen nodded, he could understand that many secret realms actually have strength limitations.

After all, the general secret realm is often the broken space left by the ancient power in time and space. These broken spaces are incomplete due to the passage of time, so they cannot withstand much energy fluctuations.

And the stronger the martial artist's cultivation base, the greater the spatial fluctuations he can cause, which will eventually cause the entire secret realm to collapse.

This is also the reason why many secret realms often restrict cultivation.

Of course, the secret realm set up specifically for the selection of geniuses, like Gunandu, is different.

"Speaking of which, my great power would also like to thank you Shao Chen." Liu Xuanrui and Liu Tai even respectfully saluted Qin Chen.

"You are..." Qin Chen was stunned.

"According to the rules of the Hundred Dynasties, the number of places to enter the Heavenly Demon Secret Realm is very limited. After all, every time the Heavenly Demon Secret Realm is opened, the number of people who can enter is limited, and one of the restrictions on the dynasty is that it needs to have a seventh-tier mid-stage Martial King.

"Only strong dynasties above the middle dynasty are eligible to enter the heavenly demon secret realm."

Liu Xuanrui smiled bitterly, "Before, the warriors of my Dawei dynasty were not qualified to enter the heavenly demon secret realm. Thousands of years ago, they had never entered the heavenly demon secret realm. Now after our ancestors broke through, our Dawei dynasty has this qualification."

Speaking of this, both Liu Tai and Liu Xuanrui's faces showed excitement.

"As long as the ancestors and I can enter the mysterious realm of the heavenly devil, once we have an adventure, we may even enter a higher level again in a short time."

Speaking of this, Liu Xuanrui was extremely excited.

"This Heavenly Demon Secret Realm is really so magical?"

Qin Chen was puzzled. He could feel that Liu Tai and Liu Xuanrui's interest in the mysterious realm of the heavenly devil was even more exciting and exciting for them than the destruction of the Great Zhou Dynasty.

"You don't know the history of our land of hundreds of dynasties. In fact, our land of hundreds of dynasties was a wild land thousands of years ago. The so-called wild land is actually equivalent to the five countries where you were originally. The five countries are stronger, but in fact, they are not much stronger."

"Let's put it this way, thousands of years ago, in our land of hundreds of dynasties, there was actually not even a strong king of martial arts, and the strongest was only a half-step martial king, until the mysterious realm of Heavenly Demon appeared thousands of years ago."

"On the record of the Land of Hundred Dynasties, at that time, there were about two hundred martial artists who entered the secret realm of the heavenly devil, but only dozens of them survived in the end, and among the dozens of martial artists who survived, Seven powerhouses broke through King Wu and caused a huge sensation in the land of a hundred dynasties. Those seven King Wu also established the first seven dynasties in the land of a hundred dynasties."

"As for the remaining martial artists, although they failed to become the king of martial arts, their cultivation bases have also advanced by leaps and bounds. Among them, more than a dozen people have also broken through to the half-step martial arts king, accounting for one-third of the surviving martial arts. The land of a hundred dynasties at that time caused a huge sensation."

"Since then, people in the Land of Hundred Dynasties have finally learned the power of the Heavenly Demon Secret Realm. After the opening of the second Heavenly Demon Secret Realm, more warriors swarmed in, and more powerhouses were also born."

"The opening of the mystery of the heavenly demon one after another has led to more and more powerful kings of the land of a hundred dynasties, and this is how many dynasties have been established, which is called the land of a hundred dynasties."

"It's just that, over the past thousands of years, many places in the periphery of the Heavenly Demon Secret Realm have been explored, and there are fewer and fewer adventures inside, but in the same way, the probability of surviving is much higher."

"However, this does not mean that the heavenly demon secret realm is not attracted, because according to the records, the area that has been explored in the heavenly demon secret realm is actually extremely small, even occupying only about one-fifth of the heavenly demon secret realm, and there is still a large area. Haven't been explored yet."

Listening to Liu Xuanrui's narration, Qin Chen was stunned. There is such a powerful secret realm in this land of hundreds of dynasties.

"And the most crazy thing is the one that opened the Heavenly Demon Secret Realm more than a thousand years ago." Liu Xuanrui said suddenly: "Blood Demon Cult, Shao Chen should also know something about it. Thousands of years ago, it once ravaged me in the land of a hundred dynasties. The army formed by occupying many dynasties and the entire land of a hundred dynasties cannot stop the expansion of the Blood Demon Sect."

[Chapter 870: Get a place](#)

"The leader of the Blood Demon Sect is said to be a powerful martial emperor who swept invincibly. Even the martial emperor masters of other top forces near the land of the Hundred Dynasties at that time were difficult to fight. In the end, it was the powers such as the Dan Pavilion and the Holy Land of Blood. The news, sending a mighty power to kill him, only to dissolve the raging blood demon cult."

Speaking of this, Liu Xuanrui's face showed a dignified look, "But you probably haven't heard of Young Chen, where did the Blood Demon Sect come from?"

"Where did it come from?"

Qin Chen was also aroused by Liu Xuanrui.

"In fact, the leader of the Blood Demon Sect was originally just an ancestor of a middle dynasty in the land of my hundred dynasties. Back then, after the opening of the Secret Realm of Heavenly Demon, he broke into it and obtained adventures, and finally broke through the realm of Emperor Wu and came out. After that, all the hostile forces of the middle dynasty at that time were wiped out, and blood flowed into rivers. Then, the Blood Demon Sect was established with the intention of annexing the entire land of the Hundred Dynasties, occupying the secret realm of Heavenly Demon, and becoming the overlord of the Northern Heavens."

"This person has not only obtained a breakthrough in the mysterious realm of the heavenly devil, but also obtained many evil intentions, making his strength extremely terrifying, and many veteran martial emperors in the northern sky can't resist. Therefore, Chen Shao should understand that the mysterious realm of heaven is against My warrior in the land of a hundred dynasties, why is there such an attraction, right?"

Qin Chen's eyes narrowed.

Zhuo Qingfeng, You Qianxue and others who followed around were also stunned, taking a breath of air-conditioning.

The leader of the Blood Demon Sect is actually the ancestor of a middle dynasty in the land of a hundred dynasties?

Each one was stunned and unbelievable.

Now they all know that in the land of a hundred dynasties, the ancestors of a middle dynasty are generally only the martial kings of the middle stage of the seventh stage, but because they entered the mysterious realm of the heavenly devil, they broke through and became the strongest of the eighth martial emperor. The veteran martial emperor of some of the top forces in Tianyu is difficult to deal with, this...

It sounds like a fantasy.

"This incident is not fabricated, but in the historical records of my dynasty, there are few records. At this time, it is also a taboo in the land of a hundred dynasties." Liu Xuanrui explained.

This kind of thing is a secret in the land of a hundred dynasties. Outsiders such as Zhuo Qingfeng, naturally don't understand. Even many local masters in the land of a hundred dynasties don't know it. Only Liu Xuanrui and other dynasty monarchs have heard of it. .

"Now, you should know why the top forces in the land of my hundred dynasties only allow forces above the middle dynasty to enter the secret realm of heavenly demon. In the secret realm of heavenly devil, there are many adventures and even can easily change the pattern of the land of hundreds of dynasties. Today's power holders naturally do not allow some accidents to destroy their status."

"If even the Martial Kings of the lower dynasties can enter the secret realm of heavenly devil, the impact on the land of the hundred dynasties will be too great. The land of the hundred dynasties can't stand such turbulence at all."

"At the same time, every person in power also hopes that he can become the next master to break through the Martial Emperor after the leader of the Blood Demon Sect."

"At that time, as long as you don't die like the leader of the Blood Demon Sect, and fight against the entire northern sky, you will set off a **** storm in the land of a hundred dynasties. As long as you operate in secret, you may not be able to unify the entire land of the hundred dynasties and establish a terrible dynasty. Become a decisive top force in the Northern Horizons."

Liu Xuanrui's narration made everyone instantly understand the importance of this heavenly demon secret realm.

This is definitely a secret realm that can easily change the pattern of a hundred dynasties.

"Your Majesty, can I enter this Heavenly Demon Secret Realm?"

After listening to Liu Xuanrui's account, Wang Qiming suddenly showed a sense of war and said excitedly.

These days of **** fights gave him a sturdy aura, and his killing intent was haunting him, just like a **** of killing.

You Qianxue and the others also looked around, their eyes nervous.

These days of experience made them understand that with the help of Qin Chen, although they quickly reached the realm of Wu Zun, they would not be able to reach the realm of King Wu in one day.

If there is no adventure, with their talent and cultivation, it would take at least ten years to become a king of martial arts.

Ten years is too far away for them who are still young.

"Wu Wang strong people want to enter the heavenly demon secret realm, at least the qualifications of the middle dynasty, but like Wu Zun genius, inferior dynasties also have recommended places, one inferior dynasty has three places, and the middle dynasty has ten."

"Ten?"

You Qianxue's hearts were tight. Ten spots seemed to be a lot, but for a dynasty, they were almost insignificant.

On the court, Qin Chen and the others alone would probably be close to ten.

"Don't worry, everyone, you are all people with little dust, and naturally have the qualifications to enter the heavenly demon secret realm. I can be the master. If I really get ten places, as long as I have reached the sixth rank, I will give priority to entry. Heavenly demon secret realm. As for it is not the sixth-order martial master, I am afraid it will be difficult. It is not my stingy, but based on past experience, those who cannot reach the sixth-order martial master and enter the secret realm of heaven demon will die. So far, no one can survive. of."

Liu Xuanrui affirmed.

"Thank you, Your Majesty."

You Qianxue and they were extremely excited.

Ten places, counting, Qin Chen, Black Slave, You Qianxue, Wang Qiming, Yu Wenfeng, are five places. However, Qin Chen on the side had a heavy gaze.

"Your Majesty, is there no other way to get more places?" Qin Chen asked suddenly.

In fact, after learning about the horror of the Heavenly Demon Secret Realm, he also wanted Lin Tian, Zhang Ying, Xiao Ya, Zi Xun, and Zhao Lingshan to have a chance to enter it.

Sixth-order Wuzun is only, although they only have the peak of the fifth-stage late stage, Qin Chen believes that as long as he thinks of a way to make them break through to the sixth-order Wuzun, it shouldn't be a problem.

There are also grandpa and second uncle, and sister Ying.

Since they came to the Dawei Dynasty, Qin Chen would naturally not forget them.

What's more, Chendi Pavilion Qin Chen does not have much time to manage. In the future, it will be grandpa and the others to help him take care of it, and Chendi Pavilion wants to gain a foothold in the land of a hundred dynasties. With grandpa and the others' cultivation base, after all, it is still much worse. .

This Heavenly Demon Secret Realm is an excellent opportunity.

"More places?" Liu Xuanrui was taken aback, and meditatively said: "As far as I know, there are indeed, but the difficulty is very high. I don't know how to do it."

Speaking of this, Liu Xuanrui smiled bitterly: "After all, in the past, my powerful dynasty was too weak and I didn't dare to expect more extra places."

"Since there is a way to get more places, it's better to fight for it."

Qin Chen's eyes condensed, his idea is to bring everyone into the mysterious realm of the heavenly devil.

"Also, if this is the case, you should prepare early. I have already sent someone to Chaotian City. According to the news from "Hundred Dynasties", there is only more than a month left before the mysterious realm of the heavenly demon opens. How much time can be wasted, we must start as soon as possible."

Liu Xuanrui said: "I will give you three days. After three days, we will set off together."
