### Chapter 321 Official conflict with Shadow River Sect

Clap! Clap!

The sound of flesh clapping together was being reverberated throughout the bathroom in which Lith and Alexandra were. These two had been going on it for about two rounds now and Lith still showed no signs of stopping.

Alexandra's back was against the wall and one of her legs was raised by Lith which revealed her pink pussy being spread by Lith's dick. Her boobs jiggled with each thrust from Lith and she supported herself by wrapping her arms around Lith's neck.

"Darling~ Darling~ Darling~"

Alexandra moaned out in satisfaction and pleasure with each thrust from Lith. She was feeling too good and couldn't think of anything but Lith.

Lith had his mouth latched onto her neck and was sucking her blood. He was giving her twice the pleasure by doing this and also made her whole body sensitive.

A few minutes later, Alexandra cried out,

"Ahh~ Ahh~ Darling~ I am cumminggg~"

Spurrrt!

"Ahhhh~"

Alexandra climaxed and moaned. Her legs gave out and she wasn't able to stand properly.

Lith climaxed along with her too and he was still sucking onto her blood as he climaxed to prolong Alexandra's pleasure.

Alexandra's insides spasmed and tightened around Lith's shaft as her orgasm didn't stop. It finally ended only when it was a good few minutes and Lith stopped sucking her blood.

Lith let go of her neck and licked her wound clean. He then kissed Alexandra and opened her mouth to suck on her tongue.

After a few minutes, Alexandra recovered and Lith, feeling it was enough for today, he stopped kissing her and took her to shower now.

Turning on the shower, Lith applied the soap to Alexandra's shoulder, her boobs, underboobs, and made all his way down. He applied soap in her pubic region and groin area and turning her around, he applied it to her plump butt and spreading her butt cheeks, he applied soap over her asshole and pussy lips.

Lith then went down and applied soap on her thighs and then went all the way down to her toes. After everything was done, he washed her with water. Lith then applied a spell on his two fingertips and inserted those two inside her vagina. He cleaned his seeds from her and could now finally wash his own self.

Alexandra behaved like a good girl and didn't stop Lith from doing what he wanted. After he was done, she washed him by applying soap all over his body and then cleaned the soap with water.

The two finished bathing and after drying their bodies and dressing up, they left Lith's room and walked out.

Lith wore a simple black shirt and blue jeans and had his silver hair parted to the side. As for Alexandra, she wore the usual black core disciple robes of the sect and had her hair tied in a bun.

Lith was holding Alexandra's hand and was walking her to her training ground. After they reached, he kissed her goodbye and went to another private training ground to train in the 35th Ancient Sword Strike.

.....

Inside a well lit conference room.

The clan head of the Senzal Clan and the clan head of the Kenzal Clan were sitting opposite to each other around a round table.

The clan head of the Kenzal Clan had his brows furrowed. "So all out war is the only thing that's going to happen? Are you sure?"

The Senzal Clan's head, Hong Senzal nodded his head lightly.

"Why now of all times? The Shadow River Sect is even stronger than before." The Kenzal Clan's head, Tang Kenzal said.

"Enough is enough. I can't wait anymore. They killed my wife, my child, my nephew, and also my brother. It can't be halted anymore. They also haven't developed to the point of being stronger than both our forces combined. So it's the best time now." Hong Senzal said with a serious expression.

Tang Kenzal thought about it for a bit and said, "I won't blindly join you in without knowing about things."

Hong Senzal sighed. He knew that to make the other party work, he had to cough up benefits or there won't be any work that will be done.

Senzal explained everything and after he was done, Kenzal simply denied the request of declaring war by saying his judgement was too emotional.

Senzal then looked at Kenzal with a serious expression and said, "60% of the spoils of war will be yours and there won't be any of your members in the front line. How about now?"

Kenzal smiled. Now they were talking. He shook his head and said, "too low. I need 80%."

Senzal frowned. The audacity! But he kept his cool and said, "if you don't want to take it, you can forget about it. I've already lost my precious ones and if the Shadow River Sect comes to war in future, I'll simply make my clan surrender and not fight back. You'll be on your own then. The Senzal Clan won't support your clan even in the slightest."

Kenzal frowned this time. He knew that he couldn't win against the Shadow River Sect alone and he also had no doubts about Senzal's words. He gritted his teeth and said hatefully, "70%."

"60%." Senzal didn't back off.

Kenzal gritted his teeth again. He couldn't take advantage of this situation and it was showing. He hated when things weren't in his control.

After a few seconds, he sighed and accepted the deal. The two left the room and went to their respective clans.

A few hours later.

Lenz Tower, Espat.

Senzal and Kenzal met again but this time they were in the Lenz Tower. They were here to meet the officials of the CNC and take their permissions.

The Neutral Continent was a conflict free continent. Fights or any form of violence wasn't allowed here. It was a strict law that is implemented in the continent but it can be bypassed by using a few artifacts or by having connections. The easiest way to clear this restriction was to become an assassin in Scelestus.

The two clan heads were here to take permission to have an all out war with the Shadow River Sect. They were both just Saint Rank beings and weren't anything special. Thus they had to wait it out.

A few hours later, they were called into the office of a CNC official and given a meeting.

After a long talk with the official, they finally got permission but in return they had to agree to a lot of terms and conditions and also had to pay a conflict tax to the CNC, which, thankfully, wasn't too high.

The CNC took this because they had to take care of a lot of things. When these people would declare war, the city in which they were would become a temporary Conflict Zone, also called a War Zone, and all the people in the city would need to be relocated temporarily. Spells were also needed to cast that would ensure that whatever damage is caused in the city, it would repair itself.

The tax was therefore something which a common person definitely couldn't afford to pay and thus many avoided conflict by all means in the Neutral Continent.

A few hours later.

News about the Redstone City becoming a War Zone spread throughout the Neutral Continent, creating a heated discussion in this region. It was not everyday that a city would turn into a war zone and now that one did, people didn't get bored discussing it.

.....

The Shadow River Sect.

"So they finally did it huh." Wan said and stroked his beard.

Ling was reading a scroll and said to Wan without turning to look at him, "this was bound to happen sooner or later, dear."

"You're right. Thankfully, we were well prepared for this beforehand." Wan said and sipped on some rice wine.

"Do we release the videos now and make it public?" Ling asked.

Wan's gaze became serious and he said, "No. Not yet."

Ling didn't speak further on this matter and continued to read her scroll.

A few minutes later, an elder walked inside the administration hall of the sect. He cupped his fists and bowing, he first greeted the two Sect Masters and then said,

"Sect Master Wan, Sect Master Ling, there's a message. A message from the Senzal and Kenzal Clan."

Both the sect masters didn't feel anything regarding it. They had gotten intel beforehand from their spies that the Senzal and Kenzal Clans had confirmed their conflict with the Shadow River Sect with the CNC and would declare war on them anytime soon.

All that was needed was a formal war declaration and the two sect masters finally got it. It was no surprise to them for this reason.

"Go ahead, Elder. Read the message for us." Sect Master Wan said and continued sipping on his rice wine.

The elder nodded and said, "Shadow River Sect..."

## Chapter 322 War Declaration

"Shadow River Sect has been in conflict with the Senzal Clan and Kenzal Clan for the past 10,000 years. It has been an endless power struggle between the three parties, but was in controlled form. But, as of current, the Shadow River Sect has crossed all boundaries and broken this control by assassinating four important figures of the Senzal Clan."

"It is for this reason that the two clans have come to a decision to not follow the peaceful and non-violent approach anymore and with the approval of the Council of the Neutral Continent, Senzal Clan and Kenzal Clan declare the commencement of war, starting this winter, on the Shadow River Sect and shall enter into a direct conflict with the aforementioned party."

The elder finished reading what was on the scroll and waited for the two sect masters to speak on this.

Wan stroked his beard and said, "Interesting. It is indeed going to be an all-out war now."

Ling looked at the elder below and said, "the sect shall be in a temporary lockdown period. No disciples or elders are allowed to leave the sect during this period and all the members currently outside shall be called back. Make sure to pass on this message to everyone, elder."

The elder nodded his head and agreed to what Ling commanded him.

Ling gave a few more instructions and the elder after his job was done.

Ling then sighed and hugged Wan's arm. She put her head on his shoulder and said, "we are finally having an all-out war now, dear."

Wan patted Ling's head and said softly, "it was inevitable and was bound to happen sooner or later."

"Yes, it was inevitable." Ling added.

"We'll finally get our revenge after struggling for so many years." Wan said with a serious look on his face.

The two didn't speak further and just silently sat on their chairs and enjoyed each other's company.

.....

Core court, Shadow River Sect.

Lith was roaming the core court because he had nothing better to do. While doing so, he heard the few disciples present in this court talk about there being a war and also the sect being on lockdown.

He was a bit confused about this but Alexandra arrived right at this moment and he simply asked her about this. She explained that due to the war between the two clans and sect, the sect would be on lockdown for the safety of its disciples until the war was over.

Lith understood the gist of it and looking at Alexandra, he asked, "so now that it'll be on lockdown for who knows how long, do you want to roam outside? Somewhere far away from the war zone of course."

Alexandra flashed a small smile and kissed Lith's cheek. "Thankyou, darling. But, I can't do that right now. I have a training session with one of the officials from the academy."

'Academy?' Lith thought. But in the next instant, it clicked him that the person who is going to train with Alexandra must be the one who is ensuring her safety till she was a King Rank.

Lith was about to ask more on it when space fluctuated around him and in the next instant, Arya teleported out of thin air and hugged Lith from behind.

"Heyooo~ What's my lover doing?" She asked while swaying Lith and herself side to side.

Alexandra knitted her brows as she saw Arya interrupt the two. But, she had learned from the past a bit and didn't attack Arya. The reason being, Arya was family now.

Lith smiled as Arya hugged him and asked, "what brings you here, Arya?"

Arya let go of Lith and held his hand. "I had nothing better to do, so I just came here."

"Oh. I thought you were here for Alexandra." Lith put out his thoughts.

Alexandra had just mentioned that some official from the academy would arrive and now that Arya did, he thought that it must be her. Turns out it wasn't the case.

Arya was confused by hearing Lith's words. "Is something the matter?"

Lith nodded and explained things to her. Arya understood and letting out a small chuckle, she said, "Alright, it's a small matter. One second, I'll handle this."

Arya took out her phone and dialled Emilia's number. The phone rang for a few seconds and Emilia picked it up.

"Hello?" Emilia said from the other side.

"Yo, Emmy." Arya greeted Emilia.

"Hi, Arya. Do you need something?" Emilia asked.

"Yes. Our little sister was supposed to have a training session with an academy staff right now. He or she isn't here yet." Arya said briefly.

"Little sister?" Emilia was a bit confused.

Arya chuckled and asked, "did you forget what happened last to last night?"

Emilia blushed on the other side. Of course she knew! How can she forget...

"Ahem. What about it?" It still didn't click Emilia and she asked.

"Oof. How can you forget Alexandra is now yours as well as mine family now. She's our little sister." Arya explained.

"Ah. Oh, yes, right, right. Got it. One second, I need to check who was the one who was going to train her." Emilia said hurriedly to hide away her embarrassment and got to work.

Arya smiled and didn't speak further on this.

In a few seconds, Emilia said, "it's a King Rank instructor from the combat division. Also, from what I can see, do you want to know why little sister has someone appointed to train her even after she graduated from the academy?"

Emilia said little sister instead of Alexandra now. She adapted pretty quickly to the situation and understood that she now had a family member. Not only that, she also understood that Arya was her family as well. Thus, she became a bit more tolerant and talkative towards Arya.

"Oh? I didn't think much about this. Hmm... sounds interesting. Go on, tell me." Arya said.

Emilia narrated the story about how the academy messed up a few things and that resulted in the death of Alexandra's parents. Hearing that, Arya became enraged. How dare the academy make such a mistake!? She thought and was about to lash out on the academy when Emilia explained further that they rectified their mistake.

The academy provided a lot of benefits to Alexandra and also protection and training. This was the reason why she had a training session with a King Rank today.

"Ugh, Emmy. How can something so stupid happen when there were you and me both present at that time." Arya put out her thoughts.

This matter was something that happened just 8 years ago when Alexandra was 13 and had just joined the academy. Emilia and Arya were both present in the academy during this time.

"I don't know... I should've been more strict with everyone from the start and maintained discipline in the academy. Such a thing wouldn't have happened or else." Emilia said with a sigh.

She slightly regretted about what had happened in the past. Her little sister had suffered due to her negligence.

"Yeah anyway, that aside, who was the one who initiated that assassination?" Arya asked the important question.

"I don't know. You should ask little sister, maybe she might have an idea." Emilia said.

"Okay. Also, cancel the instructor's training with little sister, I'll personally train her and keep her safe as well." Arya said with seriousness.

"You'll do that? Then what about the academy work?" Emilia asked.

"Oh, that. I am leaving the academy from right this moment. Good luck handling the paperwork and everything Emmy. Bye-bye, love from my side."

"Hey! Hey! You can't just—"

Beep!

Arya hung up and put her phone in her ring. She ignored Emilia's words and walking close to Alexandra, she patted her head and said,

"I'll be the one to train you from today onwards. And also the one to keep you safe."

Alexandra looked at Arya for a few seconds and instead of answering her anything, she walked close to Lith and hugging his arm, she said, "I am not going to leave darling's side."

Lith and Arya were both surprised as they heard this. They both chuckled.

Lith patted Alexandra's head and said, "silly, she's not going to eat you."

Arya chuckled and said, "Yes. And also, you should trust your big sis here. I am very powerful, you know? I am a Supreme Rank now, fufu."

Alexandra's ears perked up as she heard this. It was only now that she became slightly interested in Arya and her attention was turned away from Lith.

She turned her head to look at Arya and stared at her with a curious gaze. It was a bit unbelievable for her to know that this bluish-silver haired lady wearing a blindfold on her eyes was a Supreme Rank. Do Supremes behave like this? Did they behave so normally? She doubted.

Arya could tell what Alexandra was thinking. She walked close to her and held her hand.

"Now, now, don't doubt your big sis so much. I am indeed a Supreme Rank. You'll be training with me from now on. I'll make you stronger than ever before."

Alexandra didn't know what to say. She turned to look at Lith who nodded lightly in response and said,

"You should trust her, honey. She's your family now. She won't say anything that is not in your best interest."

"But... I'll need to be away from darling if I went with big sis here." Alexandra accepted her relationship with Arya on Lith's request and said.

Arya chuckled and said, "do you think I can live without seeing him for months? I can't as well, like you. We'll be seeing him every night, don't worry."

"Oh. Okay." Alexandra agreed finally. If that was the case, she had no problem at all.

"Alright, let's go train now." Arya said to Alexandra.

Alexandra nodded and was about to leave when Lith looked at the two and said, "ladies, you're gonna leave your lover/darling/husband, without even giving a goodbye kiss?"

"First marry us to become our husband." Arya said with a smile.

Alexandra nodded and agreed with Arya's statement.

Lith chuckled and said, "that'll happen soon, don't worry."

He walked close to Alexandra and gave her a kiss on her lips. He broke it off after a few seconds and walked close to Arya.

Giving her a kiss as well, he lightly spanked her butt and said to her with a smile, "train her well, okay?"

"As you command, sir husband. Anything else you have to tell this weak little wife of yours?" Arya roleplayed.

Lith chuckled and said, "Nope. Have a good day."

Arya nodded and holding Alexandra's hand, she left the area.

Lith was now alone and having nothing better to do, he was about to roam the sect again when an elder of the sect arrived with some news and approached Lith.

Lith looked at the Elder in front of him and asked, "do you have something for me, Elder?"

Chapter 323 Lith joins the war

Lith looked at the Elder of the sect coming towards him with a curious gaze.

The Elder cupped his fists after coming close to Lith and greeted him. Lith greeted back by doing the same gesture.

The Elder then said, "Sir Ray, there is something important that is happening in Redstone City. If you aren't aware of it yet, please do give this elder a chance to explain it."

Lith roughly knew that there was going to be war happening. But he didn't have a good idea about it. Now that the elder had just come here on his own and was offering information, why would Lith deny it.

Lith agreed to get the explanation and the elder brief Lith on it.

There was basically war happening between the Shadow River Sect and the Senzal and Kenzal Clan. Redstone City would soon become a Conflict Zone and things would be very heated. After the elder was finished explaining, he said to Lith in a polite tone,

"If Sir Ray wishes to avoid having his hands into these waters, sir can just sit and watch this show from the sidelines. But do pardon us when war is going on as we may not be able to be much hospitable to you."

Lith shook his head and said, "No. I'll participate in this war as well."

The Elder's eyes lit up as he heard this. He became ecstatic knowing that the sect would have a powerhouse like Lith on their side.

Lith then smiled and continued, "but it obviously won't be free."

The elder nodded. "Of course, it's a given."

Lith continued, "I have a few demands and needs that the sect must fulfill. As long as those are completed, I'll do my best in this war."

The elder nodded. That's what everyone asked generally.

"Sir, I don't have much say over this matter. I think it would be best if Sir talks to the sect masters." The elder said in a polite tone.

"Very well. Let's go, I'll talk to them myself." Lith said and started walking towards the administration room where the two sect masters were.

This war that would happen soon, it would act as a good catalyst to help Lith cultivate and judging from the intensity of the war, it would end up giving Lith enough experience to break through to Rank 9 within the next 7-8 years.

For comparison, his sister became a Rank 9 when she was 24 and Lith had that benchmark to achieve. He had decided that he would try his best and hope to achieve Rank 9 by the time he was 21 and at that age, he would also marry all his lovers.

He had to hurry up and marry Emilia as he knew that if he had sex everyday with her and didn't do it in the main place, it would end up making her sexually tensed and things would be bad. Thus, Lith had to hurry up and marry her. While he was marrying her, he obviously wouldn't leave the others alone and so, he made plans to marry his lovers when he was a Rank 9 at the age of 21.

This was easier said than done. It took him a lot of time to be a Rank 3 and although he was showing signs of breakthrough, it was not a sure thing that he would be a Rank 9 by the age of 21.

Lith reached the administration room where the two sect masters were present. He greeted them and they greeted him.

The three sat and had a long discussion about the upcoming war.

Lith would be a great help to the sect since he was an assassin and could even silently infiltrate the enemy when needed and do assassinations. Add onto that, he was an Amethyst Card Holder, a one of its kind in the whole world, and was of great importance.

The sect masters tried their best to rope Lith into this war. But they also ensured that they were in their limits lest they offend Lith.

After a long discussion, it was agreed by the three that Lith would help them as much as he could and in return, the Shadow River Sect provide him with a certain amount of resources and continue to be hospitable until the end of the war.

As per what the sect masters had said, this war would last anywhere from the coming ten years to the next fifty years.

50 years was the time period the CNC gave them. They had to finish up their conflict within this given time. Redstone City can't be a Conflict Zone for longer than this.

Thus, it was decided that Lith would be associated with this sect until the end of the war. Of course, he was free to go in and out of the sect whenever he wanted. He wasn't isolated inside like the disciples.

He was an assassin and he had other things to do as well, the two sect masters knew about this. They therefore didn't restrict him. More like, they couldn't restrict him even if they wanted.

Lith bid them farewell and came back into his room. He sat cross-legged on the ground and started meditating.

A few hours later, Lith opened his eyes when he felt it was enough for today.

The first thing he noticed right as he opened his eyes were three figures. It was Emilia, Arya, and Alexandra.

"Cultivated well?" Arya asked with a smile.

Lith nodded. "Did you finish training Alexandra?"

Arya smiled and looked at Alexandra, who in turn cleared her throat and said, "big sis's training was good."

"Oh? Tell me more about it." Alexandra's praise made Lith curious to know what she did. Alexandra didn't generally compliment anyone.

"I fought and lost. We just did combat for the whole day." Alexandra said with a small smile on her face.

Arya chuckled and ruffling Alexandra's hair, she said to Lith, "she learns well when she's fighting someone."

Lith nodded. "I understand."

Lucy and him both were the same. He could relate with what Alexandra just said.

Lith then turned to look at Emilia and asked, "what about you, Emilia?"

Emilia sighed and said, "same old papers. There are so many papers I have to go through. Even though I am here now, I think I shouldn't be. There's a lot of papers left that I need to go through."

Lith and Arya chuckled as they heard this and Alexandra had a small smile on her face as well.

Lith walked towards her and hugging her, he put her face on his chest. He patted her head and said, "there, there. Rest is important as well. Don't overwork yourself."

"Mhm." Emilia hummed in understanding and hugged Lith. She had a satisfied smile on her face as she got back into Lith's embrace. This feeling was too nice and made her feel a lot of comfort.

A few seconds later, Lith said, "alright, let's have dinner. I am hungry."

Emilia's eyes lit up as she heard this and she turned her face up and looking at Lith, she asked, "are we cooking?"

Lith shook his head. "No, food will come from home."

"From home as in, from your home country Nightingale or from the Royal Castle?" Emilia asked, a bit curious.

Lith smiled and answered, "The Royal Castle."

Emilia was amused knowing this. Her boyfriend gets food from an entirely different continent on a daily basis, it felt so extravagant to her.

Arya and Alexandra had no reaction to this as they felt it was only natural that he got food from there. It was risky to eat elsewhere as he may get poisoned by people if they found out that he was the prince.

Speaking of prince, Alexandra didn't know yet that Lith was the Vampire Prince. She never asked and Lith never said about it. He kind of forgot letting her know about this as he felt that this wasn't something important. As for Alexandra, she didn't ask as well as it didn't matter to her what Lith's background was. All that mattered was he himself.

Lith texted on the castle's number and got himself seated onto the dining table present in his room along with his three ladies.

The four continued to chat while waiting for food and ten minutes later, space fluctuated near Lith and soon, a lean and tall handsome butler teleported out.

Looking at him, Emilia was about to get into a defensive stance to protect Lith and herself but she calmed her thoughts knowing that he wasn't an enemy or anything.

As for Arya, she was too strong to bother about the strength of the butler and as for Alexandra, she was too weak to know what strength the butler had.

Only Emilia, who was an Emperor Rank, knew what sort of monster was in front of her.

The butler had a smile on his face as he walked towards the dining table holding a cart full of food.

"It seems we have guests today, right, Your Highness?" The butler asked Lith politely.

Lith nodded and said, "Yes. But Noman, they aren't guests but my future wives."

The butler bowed and said, "then please pardon my previous comments. How should I address them, Your Highness?"

"Uhh... Well..." Lith had no idea what the butler should call his ladies.

Emilia cleared her throat to grab everyone's attention. "Miss would do fine for now."

"Alright, let's go with that." Lith nodded and said to Noman.

Noman nodded as well and he served the food on the table. After he was done serving, he said, "if there's anything that's needed, please let me know."

Lith nodded and said, "Thanks, Noman. We'll do that."

The butler bowed and said, "His Highness need not be so polite. It's the duty of this butler to serve the master."

"Alright, Alright, Noman, go away now. You talk too much sugar." Lith joked and made him go away.

The butler chuckled and left after bowing and showing his respect to Lith once again.

After he was gone, Arya poked her elbow on Emilia's body and said, "that was a nice reaction you had there, didn't you?"

Lith didn't know what the two were talking about, but since food had arrived and he was hungry, he ignored that bit and focused on food.

Emilia felt a bit embarrassed but said, "it isn't my fault. Anyone would have such a reaction if they see an Emperor Rank just teleport close to you out of nowhere."

Alexandra's ears perked up as she heard this. The butler was an Emperor Rank? She felt it to be unbelievable and looked at Lith.

Lith, feeling Alexandra's gaze, turned his head to look at her. "Yes?"

Alexandra asked curiously, "darling, was the butler who came just now an Emperor Rank?"

Lith sipped on some tea and said, "yes, why?"

"What!?"

Chapter 324 Communication is very important for a healthy relationship

Lith was confused to see Alexandra's exaggerated reaction. Wasn't it normal for royalties to have a few Emperor Ranks with them? Lith thought.

But right in the next instant, he realized that he had forgotten one thing. Alexandra doesn't know he's the prince!

Lith cleared his throat and looking at the shocked Alexandra, he said, "do you know who I am?"

Alexandra knitted her brows as Lith asked that, her shock to have vanished. "Isn't it obvious? You're darling, my darling."

Alexandra flashed a small smile as she said the last line.

Lith and Emilia facepalmed as they heard that. This girl... wasn't she too blinded by love?

Arya laughed out loud as she heard that and patting Alexandra's head, she said, "my little sister sure is cute, hahaha!"

Alexandra became a bit confused as she saw everyone show such mixed reactions.

To not make her too confused and enlighten her, Arya said, "don't be so blinded by love. I know you love him a lot, I do too, but you should know about him and tell him about yourself as well. Communication is very important for a healthy relationship."

Lith and Emilia nodded. It indeed is.

Lith saw Emilia nodding and looking at her, he said, "hey, why are you nodding? I don't even know anything about you. You didn't tell me anything."

Alexandra glared at Lith as he said that. "Same could be said about you, darling."

Emilia smiled lightly as she saw that. 'Phew, I am out of this crisis.'

Arya nodded, hearing what Alexandra said. Noticing her nod, Lith said, "hey, you didn't tell me anything as well."

"Oh my, I didn't?" Arya covered her mouth and said in a fake shocked expression.

"Obviously." Lith nodded.

"Ahem. Let's not blame each other for it. We can introduce ourselves now as well." Emilia cleared her throat and said.

"You first, darling. Tell me about you." Alexandra agreed with Emilia and said to Lith.

"Okay. What do you wanna know?" Lith asked.

"Everything." Alexandra smiled and said.

Lith nodded and said, "Alright. For starters, my full name is Lith Evure and..."

Alexandra nodded her head hearing that. 'Darling has a nice last name. But Evure...I think I've heard it somewhere. Hmm...?'

Soon, realization dawned upon Alexandra her eyes opened wide.

"WHAT!?" Alexandra slammed the table and asked in shock.

"HAHAHAHAHA! That's a nice reaction you have there, little sis." Arya wheezed, it felt too funny to watch this.

Emilia covered her mouth and giggled as well, noticing this.

Lith smiled and said, "what you're thinking is right. There's only three people in this world with that name, one of them being me."

Alexandra's hair stood on their ends and she became shocked once again. "Da-darling is really from the R-Royal Clan!?"

Alexandra couldn't believe it and asked again for confirmation. This was something too big of a news for her and also very important. She really needed this confirmation.

Lith nodded, affirming her words. "I am."

"So, you're the P-Prince!?" Alexandra asked with her goosebumps still being there.

"Yes." Lith confirmed it.

"Oh my..." Alexandra put covered her mouth and slumped down on the chair. Tears started dripping out of her eyes as she realized this information.

Lith, Emilia, and Arya, all three felt something was off when they saw Alexandra cry so suddenly. The three immediately became alarmed and rushed towards her.

"What happened!?" Lith held Alexandra's face and asked with concern.

Emilia and Arya asked her the same thing as well.

Alexandra didn't say anything and hugged Lith. She started crying again after she did that.

Lith might know this but Alexandra and the whole Constantine Clan was really grateful to the Queen and respected and revered them. Lilith had wiped out so many clans and also killed the King, what more could they even ask for? The Constantine Clan's vengeance was fulfilled by Lilith even before they did anything and for that, they were eternally grateful.

After Lilith's children were born, the Royal Clan was made and came into effect. The Constantine Clan then respected the clan as a whole and bound themselves to be eternally grateful to this clan till the end of their lives.

Alexandra wasn't born when Lilith wiped out everything but she had heard tales about everything ever since she knew how to understand words. She thus shared the same feeling as the other members of the Constantine Clan and now knowing Lith was from the Royal Clan, she couldn't help but cry.

She wasn't crying out of sadness, but out of pure joy. To meet the people of the Royal Clan was something she wished that happened before she died but who knew that she would end up entangling herself with one of the members itself!

Lith caressed Alexandra's back and said softly, "Don't cry. Don't cry. It's all okay."

Lith had no idea why she was crying and so he tried to console her. Arya and Emilia did the same as well.

Alexandra cried for a few minutes while hugging Lith. Her face was covered up in snot and tears and so was Lith's shirt. But Lith didn't care about it and nor did Alexandra.

A few more minutes later, Alexandra took her face out of Lith's embrace and looked him in the face to see if he was still there or she was just dreaming.

Lith looked at Alexandra's tears and snot covered face. He was holding her face and he simply rubbed his thumb on her cheeks and cleaned her whole face by using a cleaning spell.

"Don't cry." Lith said softly and kissed her forehead.

"Sniff... Sniff... are you... sniff... real?" Alexandra couldn't believe it and asked again to check whether she was dreaming or if everything was real.

Lith had no idea why she asked that but he didn't feel annoyed by it. He simply smiled and said, "Of course. Do I look like I am not?"

Alexandra hugged Lith again as she heard this and started crying again. This was the last thing she wanted to know. She had her full trust in Lith and didn't even bother to cross check if what he just said was true or not and believed him.

Lith, Emilia, and Arya, all were wondering what was up with Alexandra, but they knew they had to wait before they asked her anything.

A while later, Alexandra stopped crying and after ensuring that she was okay, Lith asked, "What made you cry like this? Did I do something wrong?"

Alexandra shook her head. "No, darling can never do anything wrong."

"Darling can. He's also a normal hu— vampire like you. Vampires aren't emotionless golems, they can make mistakes as well. Your darling, that is me, is no exception to it either." Lith almost said human in his previous sentence out of habit.

Alexandra shook her head and said firmly, "darling can never do anything wrong."

Lith sighed hearing that. He gave up convincing her about this and asked, "so... what was it that made you cry?"

Alexandra looked at Lith and smiled. She hugged him again and said, "You."

"Huh!?" Lith was dumbfounded.

Emilia and Arya facepalmed as they heard this.

Emilia looked at Lith and said while shaking her head, "You shouldn't make her cry like this."

Arya nodded. "Honey, she's your lover as well, you shouldn't do that."

"Hey! Hey! Wait a minute before jumping to conclusions. Alexandra, what did I do?" Lith said hurriedly.

Alexandra soon realized the blunder she made. She turned her head to look at Emilia and Arya and said, "My apologies. Darling didn't do anything."

Lith, Emilia, and Arya, all became very confused as they heard this.

Alexandra could see that she had made a mess and so to clear it up, she got out of Lith's embrace and said, "I am sorry, my emotions were a bit out of control. I'll explain the reason behind it."

Alexandra would become a love sick fool when she was with Lith but currently there were two other ladies present in the room as well and she was just a little bit rational and not too much lovesick.

It was just a little, however, and not too much.

Alexandra explained her backstory to the three and finally told them how the Constantine Clan was grateful to the Royal Clan and how much she wished to meet the members of the Royal Clan. She finally told them that she cried out of happiness as she realized that Lith was one of the members of this clan and not only that, he was the direct descendant of the revered Vampire Queen.

"Pfft! HAHAHAHAHAHA!" Lith laughed out loud as he heard that and Arya and Emilia laughed as well.

"It was just that!? HAHAHAHA!" Lith said and laughed again.

Alexandra blushed and became a bit embarrassed as she heard. She hugged Lith and buried her face in his embrace to hide her embarrassment. "Don't laugh..."

"Sorry, sorry. Hahahaha!" Lith wiped a tear from his eyes and said while laughing.

"You scared us there, little sis." Arya said.

"Indeed. You made us worry so much." Emilia added.

"Sorry..." Alexandra said with a flushed face.

"It's all good now." Arya said and smiled.

Emilia nodded, adding to Arya's reply.

Lith stopped laughing and looking at Alexandra, he sighed and said, "Ah, I should've introduced myself earlier. I regret not doing that."

Alexandra looked at Lith and said, "darling... don't say that."

Lith smiled and holding Alexandra's face, he said, "I am sorry."

"No, no, don't be." Alexandra hugged Lith and said while shaking her head.

Lith patted Alexandra's back and gave her a kiss on her forehead. He looked at Arya and Emilia as he hugged Alexandra they looked back at him.

The three just stared at each other for a few seconds and soon, all three smiled. They all got a similar idea and all three knew about it. They were so close to each other, they didn't even need to communicate.

The three nodded their heads and Lith took out his phone and texted a certain person.

Soon, in just a minute, space fluctuated near Lith and...

Chapter 325 Harem has increased

Space fluctuated near Lith and two beautiful silver-haired ladies wearing exquisite robes appeared out.

"Hi~ Did somebody miss mama~?" Lilith, wearing a black dress said as soon as she teleported out.

"Mom..." Lucy saw there being other people in the room apart from Lith and said to Lilith with a slightly embarrassed face.

Her mother should first see the room and then say things, were her thoughts as she said that.

"Hmm?" Lilith turned to look at Lucy only to realize her pointing towards the other people in the room.

Looking at Arya, Emilia, and Alexandra, Lilith smiled and said, "Oh my... it seems the harem has increased."

"Mom!" Lucy yelled while pulling Lilith's robes with a flushed face.

"Hahaha!" Arya laughed as she heard.

Emilia had a flushed face as well like Lucy and as for Alexandra, she noticed the commotion and turned her head to see who had just arrived.

She noticed Lilith and her first impression was that she looked a lot like her darling, Lith.

Her gaze then fell on Lucy and as it did, she first noticed Lucy's crown and then her face. At first she didn't feel anything as she noticed that, but soon, Lucy and Lilith's face seemed too similar to Lith and before she could guess who they were...

Lilith looked at Alexandra staring at her and Lucy intently. She smiled looking at her and said,

"Ara ara, it seems my son found someone of his age."

Alexandra's eyes widened with shock as she realized about Lilith and Lucy's identity. Her body shivered and she felt goosebumps all over her body.

Looking at the exaggerated reaction of Alexandra, Lilith became a bit confused.

She snapped her fingers and instantly made Alexandra calm down. She looked at her and asked, "Is something the matter, my daughter-in-law?"

Alexandra had a neutral expression on her face and a calm look even though she was called as daughter-in-law by no one else other than the Vampire Queen herself.

'Why do I feel so calm?' She thought to herself. But soon she shoved this thought aside and asked calmly to Lilith,

"Are you the Vampire Queen?"

"Yes. Is something the matter?" Lilith nodded and asked.

Alexandra was about to say more but Lith interrupted their conversation by saying, "Now, now, everyone, let's settle down first and then we can talk. Mom, come with me to this other room for a sec."

Lilith chuckled and said, "do you want to have a quickie with mama before we begin our conversation? My, my, how naughty you have become."

"Mom!" Lucy shouted again and pulled Lilith's robes. How shameless has her mother become!? Can she not see that there were people in this room!?

Lith chuckled and said, "Yes, I want to. You know how much energy young lads like me have, right?"

"Little brother!?" Lucy looked at Lith and called out. She didn't expect such shamelessness from him as well. She thought her brother was the same as her!

"No need to worry so much, big sis, I am not going to leave you alone. Come, join us there." Lith said and started walking towards the other room.

"I— ugh." Lucy's face flushed and she didn't say anything and simply rushed to the other room.

"What a lovely family." Arya said and chuckled as she watched Lith, Lilith, and Lucy go to the other room.

Emilia had a blush on her face and she was too stunned to speak. She didn't know that Lith's relationship with his family was like that...

Alexandra was confused and had a neutral look on her face. She didn't understand why Lith did that but she was also internally very happy knowing that all members of the Royal Clan were here. But for some reason, she wasn't able to express this happiness and was just calm throughout.

Lith reached the other room and Lilith and Lucy arrived as well. After they did, Lucy shut the door and said with a flushed face,

"Little brother... if you want to do it, we can go somewhere else..."

She wouldn't say no to Lith's advances and this time was no exception. She couldn't tell that they were joking.

Lith and Lilith chuckled as they heard this. Lilith spanked Lucy's butt lightly and said, "it seems the most naughty one among the two is you."

"Don't say that..." Lucy said in a low voice. How was she naughtier? It was clearly Lith and not her.

Lith made the two sit down on the couches present in the room and sat on one opposite to them himself.

"So, baby, did you call me mama here because you really missed her or was there some other reason?" Lilith asked with a smile.

Lith texted her that he missed her and his big sister. He wanted to see them urgently for that. Lilith obviously knew that it was a lie but she still hurried and brought Lucy along with her.

Lith cleared his throat and said, "It's partially true. It's been a long time since I last saw you and big sis and there was also another reason. Since that was the case, I texted you that. I hope I didn't disturb you two too much."

"Not really. We both were together in the castle." Lilith said.

Lith nodded. "It's all good then."

"Yes. So, what's the other reason?" Lilith asked.

Lith explained to the two the case about Alexandra and then at the end he said that he wanted to fulfill her wish and have her meet the Queen. That was pretty much the main reason.

Lilith and Lucy didn't interrupt Lith as he spoke and listened intently to whatever he said. After Lith was done speaking, Lilith asked,

"So she's really from the Constantine Clan?"

"Yes." Lith confirmed.

"Fufufu... you found a hidden gem then, baby. Such geniuses are really hard to find." Lilith said.

Lith and Lucy both raised their eyebrows in interest as they heard their mother say that. It wasn't everyday that she praised someone like that and it also wasn't everyday that she would call someone a genius.

Lilith could tell what was on their minds. She smiled and asked, "you don't believe mama? It's understandable. But you should know, she's a Rank 8 even though she's just 21. She almost matches your cultivation progress."

Lith fell silent as he heard that. It seems that really was the case.

Lith soon felt the urgency to cultivate harder and progress. His future wife was a vampire like him and also of similar age. It would be embarrassing if he, as the prince of this main race, was beaten by her in cultivation.

He would obviously be proud of her to achieve so much but he would also be ashamed of himself for slacking. It would all be his fault that he didn't cultivate hard enough. Lith soon made up his mind to speed up his progress.

Lilith smiled as she saw this. She could still tell, even without reading Lith's mind what he was thinking.

The three talked for a bit and after they were done, Lith got up and said, "alright, mom, big sis, you know about the whole situation well now, right? Let's go and have a chat with them then."

The two nodded and the three left the room to meet with the other ladies.

Chapter 326 A condition given to Alexandra

Lith, Lilith, and Lucy walked into the room where Arya, Alexandra, and Emilia were present.

As Lith arrived, he noticed that the food on the table wasn't finished and he had gotten up midway. Lith looked at his ladies and said with a smile, "Let's talk over food."

The three joined Arya, Alexandra, and Emilia on the dining table and sat near them.

To Lith's one side was Alexandra and his other side was Lilith and Lucy. Beside Lucy was Emilia and to her other side was Arya.

Emilia poured tea for Lilith and Lucy and served them that.

Lilith took the cup and looking at Emilia, she said with a smile, "Ara, my daughter-in-law is so thoughtful."

Lilith was good to everyone associated with Lith without exception. It was even more so when it came to his harem since she herself was a part of it. Harmony was needed in harem and she was the one to teach Lith that.

Lucy thanked Emilia as well and took a sip of tea.

Emilia just smiled awkwardly as she had no idea what else to do. She just got called daughter-in-law by the Vampire Queen herself, it was... well, she never would've imagined that there would be such a day even in her wildest dreams. The other reason for being awkward was that she wasn't her daughter-in-law yet. Lith was yet to marry Emilia.

Lith forked a piece of chicken and gulping it down, he said to Lilith, "Mom, there's no one here that you should call as your daughter-in-law. There's still time for that."

Lilith chuckled and said, "Right, right. So, when are you going to marry them?"

Everyone's ears perked up as they heard this. They wanted the answer as well.

Lith could see that they were curious and to satisfy their curiosity, he answered, "When I become a Rank 9."

"Oh." Everyone said in unison.

They were surprised knowing that he really did have plans to marry them. Not only that, if they weren't wrong, it was such a short period as well.

Judging from how Lith was a descendant of a Supreme Rank bloodline, he should be a Rank 9 before he is around 40 years old. This means that in just a few years, he would marry them!

It felt amazing to know!

The happiest person among all was no one else but Emilia. She would soon be worry free and can have Lith do her anywhere he pleases. She wouldn't have to worry about falling from grace and she also will finally feel the 'pleasure' from doing it there. From what she heard from Arya, it feels really amazing over there and she was itching to try that.

Emilia's face had a slight blush as she thought about this and it didn't go unnoticed by Lilith.

Lilith took a sip of tea and smiled while looking at Emilia. "Someone's having naughty thoughts, it seems."

Everyone turned to look at Emilia as they heard Lilith.

"Eh?" Emilia was surprised for being called out so suddenly. She noticed the gazes on her and clearing her throat, she shook her head and said calmly while trying to hide her blush, "I am not having any naughty thoughts."

Lilith smiled and replied, "I never said you were the one with naughty thoughts, did I?"

'Oh shoot.' Emilia cursed in her mind as she realized her blunder. She became embarrassed and looked down on the tea, trying to avoid meeting the gazes of anyone else.

Everyone giggled as they noticed it. Except Alexandra who only had a small smile on her face.

Lith looked at Alexandra and holding her hand, he said with a smile, "Alexandra, I didn't introduce myself properly last time, so I'll do it again now. I am Lith Evure, son of this lady sitting beside me, Lilith Evure, and also brother of the lady there, Lucy Evure. I am the Vampire Prince, she is the Vampire Queen, and over there, Lucy is the Substitute Queen, currently handling and managing everything in the Vampire Continent."

Alexandra, had she not gotten a calming spell applied on her by Lilith, she would've passed out by knowing all of this. She was too happy and too shocked with everything. Thankfully, due to the calming spell, she was calm and digested all information Lith gave her properly.

Alexandra got up from her seat and walked close to Lilith. She then kneeled down and was about to thank Lilith when,

"No need to do such things. I understand your sentiments. I'll be your mother-in-law in future, no need to be so tense and formal in front of me, okay?"

Lilith made Alexandra get up and said with a smile while patting her cheek lightly.

Alexandra had a drop of tear come out of her expressionless face. She held Lilith's hand and going down on her knees again, she looked Lilith in the face and said in a calm yet sad tone, "I am so grateful for everything you've done for my clan, Your Majes—"

Lilith put a finger on Alexandra's mouth and sealed her lips. "Silly, I told you to not be so formal with me, didn't I? Call me mother-in-law, I'll like that more. And don't lower yourself so much. Always look a person in the eye and speak, no matter what the circumstances. You're now my son's lover, this is the etiquette you should always follow."

Alexandra got up and nodded her head in understanding.

Lilith smiled and wiped her tears off her face. "Go take your seat. No need to be so emotional over such a small thing."

It was indeed a small thing for Lilith as she had no idea that she accidentally ended up taking revenge for the Constantine Clan. At that time, she was just enraged and had no idea that the Constantine Clan suffered due to politics among the nobles.

After Alexandra was seated, Lith looked at her and asked, "so now that you know me, that is, who your lover is, you also should know that it's very easy to wipe the Valentine Clan off. Just one word to me and I can have them be gone forever. Do you want such a thing to happen?"

Lith knew Alexandra was a strong girl. She wouldn't opt for such easy means and would always strive for vengeance herself, no matter the situation. Still, as her lover and future husband, it was his duty to give her this option and ask her about it and so he did.

Alexandra may act like a love sick fool when with Lith, she was in no way like that in reality when away from him. She was a sadist battle maniac, one who had the mindset that violence solves everything and always went in for the kill whenever possible.

Just as Lith finished his question, Alexandra shook her head and said, "Thank you for being so considerate, darling. But no, I don't want that to happen. If possible, I want to destroy the Valentine Clan myself. They have given my clan thousands of years of suffering and hardships."

Lith nodded. It was as he had expected. He took a sip of his drink and as he was doing that, he suddenly had an idea. He put his glass down and looking at Alexandra, he asked with a smile, "Honey, I have an idea to propose. Do you wanna hear it?"

Alexandra nodded. Of course, was it even a question.

Lith smiled and said, "the Valentine Clan right now is just a Viscount Clan, it does not have the same former power as before. They were a Duke Clan before, right?"

Alexandra nodded. "What of it, darling?"

Lith continued, "If you want, I can have them slowly restored to their former strength. But, there will be a catch."

Alexandra became confused as she heard this. She tilted her head and asked, "What catch?"

"The catch is that there will be a certain time limit. If you don't defeat the Valentine Clan by that time, I'll be the one to personally wipe them out and you won't be able to take your vengeance. How does it sound?"

Everyone smiled hearing this. They roughly understood what was going on and Lith's condition was very amazing.

Lith was smart to propose this as this would ensure that Alexandra had a healthy amount of pressure on her despite being the lover of the Vampire Prince and her growth wouldn't stagnate and she also wouldn't slack.

Not only her, even Lith will have to cultivate hard with this condition.

"I don't understand." Alexandra said with a confused expression on her face.

"No worries, I'll explain again. See, you'll have, hmm... let's say, 5,000 years to defeat the Valentine Clan. The Valentine Clan would keep growing, I'll ensure that, but... so will you. You'll have your magic rank increased as well."

"To defeat them, you'll need to surpass their strength and that you have to do within the next 5,000 years. You are free to attack them whenever you want within the next 5,000 years, but let's say if you fail to wipe them out completely by the end of this time, I'll be the one to personally do it. Okay?"

5,000 years was a decent amount of time for a Viscount Clan to become a Count Clan. It basically meant that one person in the clan has undergone ascension from King Rank to Half Emperor Rank if that happens..

Generally, it takes roughly 5,000 to 10,000 years for an elite to become a Half Emperor and so Lith took the lowest value of it and gave it to Alexandra. He wanted her to be a Half Emperor by that

time and doing so, he not only ensured that he put pressure on her, he also ensured that he put it on himself as well.

Lith had to be stronger than the entirety of the Valentine Clan by the coming 5,000 years or it would be a big shame. He set this goal so that he doesn't slack and cultivates hard.

Alexandra understood what Lith was saying finally and nodding her head, she said, "let's go with what darling has proposed. I like this."

Lith smiled and patted Alexandra's head. "Consider it done."

After he was done talking with her and after everything with Alexandra was sorted, he looked at Emilia and then at Alexandra and said, "ahem, there's another thing I forgot to mention."

'What was it now?' Not only Alexandra and Emilia, but the others wondered about it as well.

Chapter 327 Lith says the truth to Emilia and Alexandra

Lith looked at his ladies and explained to them that his mother and sister were his partners and that was the thing he had forgotten to share with Emilia and Alexandra.

He knew he shouldn't hide such things for long as it would only bite him in the ass later if he did that.

Just as he finished speaking, Emilia and Alexandra were a bit shocked to know this. The reason wasn't that Lith had his mother and sister as his partners but rather, the shock came from the fact that the revered Vampire Queen was in an incestuous relationship with her own son.

Emilia and Alexandra both knew about Lilith's terror. Emilia was there when it was happening and even though Alexandra wasn't there, she had heard tales of it from her parents and calm members. It thus came as a shock when they realized this fact.

However, soon the two's shock died down and everything felt normal to them. They both realized a fact and that was that the person they were dating wasn't someone normal. Lith really was an extraordinary being who even ended up scoring the Vampire Queen. It was a given that this would happen.

They actually started feeling a bit proud of their lover's achievement and were internally happy that they chose the right partner for themselves and fell in love with Lith only.

The mindset of these two ladies was a lot different than the ones from the Human race. Lith expected to see a bad reaction from them but it all turned out good in the end and not only that, the two ladies ended up becoming happy instead.

Humans were the ones who loathed such relationships the most. They had their reasons for it and as for the Angels, it didn't matter to them. Love had no boundaries and as long as two people loved each other wholeheartedly and married, it was fine to have any relationships. They were very open to everything.

Though that was the case with Angels, it was still very rare for even them to have couples committing incest. The reason was that they were very pure. They don't feel much lust like the average person in the world and they usually only had sex for procreation and not recreation.

These pure beings lived in their own happy world, free and detached from the normal worldly pleasures.

But of course, change is inevitable and due to coming into contact with the world through the internet and other things, these pure beings were getting a bit corrupted by other beings. The majority of the corruption came from the Demons and Devils.

These demons would make young Angels come into contact with self pleasure and have them buy their tools to pleasure themselves. These tools were equipped with potions and spells that awakened lust in the young angels and made them almost as lustful and corrupted as a succubus or incubus from the Demon race.

Everything aside, Emilia, even though she was an Angel, she didn't feel disgusted or irked by this and was in turn happy.

Lith sighed in relief as everything went well. He picked up a glass of water and was about to drink it when he suddenly realized something. He put the glass down and looking at Lilith, he smiled.

Lilith smiled back and asked, "Is something the matter?"

"Yeah, I am thirsty." Lith smiled again, this time showing a bit of his fangs to Lilith.

Lucy and Alexandra shot a look at Lith as they heard that. They both knew what this meant.

"Little brother."

"Darling."

Lucy and Alexandra glared at Lith.

Lith looked at them and while doing so, he held one of Lilith's hands and brought it close to his mouth. "Get your minds outta the gutter, I am just thirsty. It's nothing lewd."

He bit onto Lilith's wrist after he finished saying that, inserting his sharp fangs into her arteries present in the wrist and started drinking her blood.

Lucy and Alexandra still glared at him as they obviously knew that Lith said one thing and did another. He definitely was going to do something naughty but changed halfway!

Lilith on the other hand just chuckled in response, and as for Arya and Emilia, they didn't understand the joke because they weren't vampires.

Lith let go of Lilith's wrist after drinking her blood for a few seconds. He knew that he couldn't take more than a sip as doing so would make him lethargic.

He took his fangs out of her wrist and licked her wound clean. He let go of Lilith's beautiful pale arm and looking at his ladies, he said, "now then, since everything's good, I guess it's time to get back to work."

Arya shook her head. "Why so early? We have only just met. I mean, I did meet mother-in-law before as well but I was in a rush and didn't get time to talk to her properly. I want to talk more."

Lith raised an eyebrow as he heard that. "Oh? You met mom before?"

Lucy, Alexandra and Emilia, everyone's ears perked up as they heard that. They were interested in knowing this too.

Arya nodded. "Yes, I did. It went like..."

Flashback to a few days ago.

On a certain mountain peak, Arya was meditating and consolidating her cultivation. She had finally ascended to Supreme Rank and while doing so, she ended up creating an elemental energy rich zone in her surroundings.

The elemental energies were she was standing currently was so thick that it the pressure alone was enough to crush a King Rank to death. Even a thousand kilometres away from this place, anyone below Rank 9 won't be able to survive. The energies were just that dense.

The sky wasn't visible anymore and everywhere around, there were just six shades of colors visible. These six shades and colors were from the six elements Arya was affiliated with. Her affinities were: Death, Destruction, Dark, Space, Time, and Water.

The colors in the surroundings appeared like shades of blue. Where Arya was, it was pitch black and as one ventured away from that point, it started become brighter shade of blue and at end, that is, a hundred thousand kilometres away, it there was the edge present where the colors vanished and the surroundings appeared normal.

Arya got up from her meditative position and stretched. "Yaaa~ Who knew it would go like this." Arya said to herself and laughed.

She was in blue daoist robes and after she was done stretching, she was about to take her blindfold out and wear it when she felt two figures close in on her.

She knew who these two were and didn't put her guard against them. She took her blindfold out and was about to wear it when,

"What's the rush, daughter-in-law. I haven't had the chance to see you up close yet." Lilith's figure was visible to Arya and Lilith chuckled after she finished saying that.

Arya chuckled as well and said, "then take a good look, I'll wear this in a bit."

Mayzin appeared right after Lilith's figure was fully visible. She looked at Arya and said with a happy smile, "a Supreme Rank finally huh."

Arya chuckled and said, "there was a seal on me that was halting my progress. But my lover took it off and now here I am. Crazy, isn't it?"

Mayzin knitted her brows as she heard that. "What seal?"

Arya yawned and said, "give it a break Zinzin. I am too tired to speak right now, we'll talk later. I have some work, I need to go."

Lilith shook her head as she heard that. "You can't go yet."

"Why?" Arya asked in a casual manner.

Lilith walked close to Arya and looking at Arya's belly, she said in a neutral tone, "there's something that needs to be done."

Chapter 328 Two shameless beings meet

"What is it?" Arya asked, a bit confused as she saw Lilith stare at her belly.

Lilith put her hand forward and placed her palm just a few inches above Arya's belly button. This was where her core was. She turned her head to look at Arya and said,

"You can't go outside with an unstable core."

"But, I just stabilized it." Arya said.

Lilith shook her head. "That's not it. There are more problems that are about to occur."

Arya became more confused as she heard this.

Mayzin from behind cleared her throat and said, "Do you know that us Supreme Ranks are not supposed to exist?"

"Yeah, obviously. It's not just Supreme Rank, according to nature, nobody is supposed to cultivate and ascend, everyone is just supposed to stay a mortal." Arya nodded and said.

"That's right. Despite us comprehending the laws of nature and its elements, nature still doesn't accept us doing this. Anyway, for that reason, we get calamities and tribulations. You may or may not get a tribulation during ascension as that depends on how well your comprehension with the laws is. But, you are bound to get those later in your Magic Core, which, Lilith just said, should happen soon and will make your core unstable." Mayzin explained.

Arya realized what Mayzin meant and nodding in understanding, she said, "makes sense. But I see no signs of tribulations or calamities happening."

Lilith chuckled and pinching Arya's cheeks, she said, "you've just ascended, you are bound to feel this way."

Arya was surprised to see Lilith act so playful. Wasn't this the revered Vampire Queen? Wasn't this lady the one that the entire world feared? Is that really true?

Arya smiled and said, "I appreciate your kindness, Vamp—"

"Mother-in-law. It's mother-in-law, not Vampire Queen or anything else." Lilith said with a smile.

Arya smiled again knowing this. "Right, mother-in-law it is. Speaking of that, I've heard some things about you from Lith."

Lilith became interested in knowing this. "Oh? What is it?"

Arya chuckled and said, "your relationship with him. He told me the truth."

Lilith chuckled this time. "Yes, it's no secret. What of it?"

"Haha! Then aren't you a part of his harem too?" Arya laughed and asked.

"I am indeed." Lilith chuckled and nodded.

"Then doesn't that make us sisters instead of in-laws?" Arya smiled and asked.

"Fufufu, it does. You can call me big sister if you want but my personal preference is mother-in-law. It feels good to hear." Lilith chuckled and explained.

"Ah, I see. No worries then, mother-in-law it is." Arya nodded and agreed.

"Speaking of harem, what do you think will be Mayzin's future with Lith?" Lilith asked with a smile.

"Hey! Hey! Don't just add me into your conversation." Mayzin said from the side.

Arya thought about it and said, "If they meet, then I am sure Zinzin would end up falling for Lith."

"Hey! What are you even saying!?" Mayzin shouted.

Lilith nodded. "Yes, I think the same. Fun fact, Mayzin and I had a bet and she ended up losing it. She now has to go on a date with Lith within the coming hundred years. Fufufu, isn't it amazing?"

Arya raised an eyebrow in surprise. "You're his wingman or what."

Lilith chuckled, "I am his mother, I'll always look into his best interest."F

She didn't speak much on it as she couldn't tell Arya that she had the memories of the future and knew that Mayzin would be in Lith's harem even if she didn't do anything.

What Lilith was doing was that she was just speeding up the process. She was surprised to see the future harem members of Lith but knowing Mayzin was one of them and since she had already met

Mayzin right now, why not just speed the process up a bit and have fun? These were her thoughts and she ended up fixing Mayzin's date with Lith.

Arya turned to look at Mayzin and smiling, she said, "Good luck, Zinzin. In future, make sure to call me big sis when we become a part of the same harem, haha!"

Mayzin knitted her brows as she heard that. "I am many thousand years older than you. And no, I won't fall for him."

"We'll see about that."

"We'll see about that."

Lilith and Arya both said in unison.

Lilith and Arya, surprised, looked at each other and started giggling.

As for Mayzin, she was just surprised to see how well these two bonded. It had just been a few minutes since they first met and now their relationship was almost as good as being sisters now.

Lilith, after a few seconds, asked, "So, did you have sex with my baby?"

Arya shook her head. "I had to rush for ascension and we only had one kiss."

"Oofs, that's sad. Go, go, hurry up then. He's free currently and you can do it right about now." Lilith said and made her leave.

"Got it." Arya said and immediately vanished from her spot without even saying goodbye to Lilith.

As for Lilith, she just chuckled again as she saw Arya leave in such a worry. 'I wonder how he'll handle these three ladies together?'

Lilith, to get more entertainment, she made Arya visit Lith just when he was about to have sex with Alexandra. As for Emilia, it was just a coincidence that she ended up visiting him at that time.

Mayzin had seen the whole conversation and she couldn't fathom the shamelessness of these two. 'Just what would happen if these two shameless beings were free and sat together in the same room?' She wondered.

.....

"So that was what happened and now we are here." Arya finished with the flashback and said to the people in the room.

Arya obviously hid the bits with Mayzin and only told Lith and the other ladies about her conversation with Lilith. She didn't mention anything about Mayzin falling for Lith as doing so would only ruin the fun in future. It would be for the best if everything was natural when it came to Lith and nobody asked or suggested him to date Mayzin.

Lith turned to look at Lilith and asked, "So you were the reason why Arya and Emilia arrived at the same time?"

Lilith shook her head. "I only made Arya visit you. It was totally a coincidence that Emilia would visit as well."

Everyone turned to look at Emilia as they heard this.

Emilia became embarrassed and had a slight blush on her face. But she soon cleared her throat and said, "I liked him, so I used cooking as an excuse to meet him."

Emilia knew that lying won't help here and it was better to be honest. It would save her from further embarrassment.

Everyone laughed as they heard that with Alexandra only smiling a bit.

"Haha, Emmy-chan, you've become honest, haven't you? Was sex with Lith this good that it changed you?" Arya laughed and asked.

Emilia continued to sip her tea and refused to answer Arya's question. Though that was the case, her flushed face gave away her answer, making everyone laugh once again.

After a while, Lilith looked at Lith and said, "Now that your whole harem is here, do you feel like having sex with all of us right now?"

## Chapter 329 Abstinence from having sex

"Now that your whole harem is here, do you feel like having sex with all of us right now?"

Silence.

The entire room turned silent just as Lilith finished speaking this. They couldn't believe what they had just heard. The revered Vampire Queen just said what to her son!?

Lith chuckled hearing this question and said, "I would love to, mom. But time is of essence and I need to cultivate."

Lith wanted to be Rank 9 as soon as he could. At Rank 6, Lith's lifespan, which was already very long, would become even longer and he would partially leave the mortal realms. He won't need to have food for sustenance as from Rank 6 onwards his body would use the elemental energies to nourish itself and grow.

No major changes happen before and after Rank 6 until Rank 9. At Rank 9, one is close to leaving the mortal realms fully and finally venturing towards immortal realms. The body undergoes a qualitative change and that's about it that happens in Rank 9 as well.

All in all, because of no major changes occurring, Lith felt that he could easily reach the Rank 9 benchmark by just doing a few things. He could just meditate and comprehend things and he would reach Rank 9 but it would take time. So what he had in mind was to do assassination missions and gain experience from it.

He also had plans to gain experience by participating in the war between Shadow River Sect and Senzal and Kenzal Clan but from what he had gotten news from the sect masters and the elders, the war was just in the initial stages. It would take at least 8-10 years for the main battle to happen.

It was then that Lith understood once again that the world he was living in, everything usually happened slowly as people's lifespan was just too long. 10 years may feel a lot to him since he was a mortal human in his previous life, but here in this world, even an average child would sometimes simply pass time by taking a nap for a few weeks to months.

As Lith finished saying his words, the room fell silent once again. Everyone once again couldn't believe their ears. Lith just rejected the proposal of doing it with everyone here? Why? They all wondered.

Lith's thoughts were simple. He would cultivate quickly, be Rank 9, then he would marry everyone and as a reward for breaking through to Rank 9 and cultivating for so many years, he would do it with all five of them during the wedding night. It would be a great time together with them and thus, Lith rejected Lilith's proposal for now.

"You sure?" Lilith asked once again to get confirmation.

Lith nodded. "100% sure. I'll abstain from having sex until I am Rank 9. I'll be cultivating hard till then."

"Oh."

Everyone said in unison. So it was for this reason, they thought. Most of them were very high rank beings and they didn't need to cultivate day and night to have a breakthrough. They thus slightly forgot that Lith was just a Rank 3 right now and needed to cultivate most of his time to make a breakthrough.

Lith looked at them and said, "It'll just be boring cultivation. To speed up things, I'll do some assassination missions. Oh by the way, did I tell you guys that I am an assassin now?"

"You're what?" Arya was slightly surprised as she heard this.

"Assassin." Lith repeated with a smile.

Emilia and Lucy were a bit surprised as well. As for Alexandra and Lilith, they weren't as much.

"Which organization?" Arya knitted her brows and asked.

In her opinion, it would be troublesome if he joined some stupid organization as most didn't protect the identity of their assassins to a high degree. Another thing was that a lot of cheating may happen if one is not careful enough and Arya knew that Lith was very new to everything and may get scammed.

"Scelestus." Lith just said one word.

Arya turned silent hearing that.

After a few seconds of silence later, she asked, "show me your card."

Lith didn't understand why she was so interested but he took his black card out and gave it to Arya.

Looking at the card, Arya became a bit confused. Since when did Scelestus issue such types of cards and what rank was this?

She looked at Lith and asked, "is this your first card?"

Scelestus had a promotion type thing available with them and Arya was well aware of it. Lith could be a bronze card member and could be promoted to silver or gold card if he did a few things in the organization.

Lith nodded. "I had an Amethyst Card but they took it and gave this one to me."

"Oh." Arya smiled hearing that. Then it means this card was something newly introduced. As per Arya's knowledge, there were no cards above Amethyst in Scelestus and Lith getting this meant that they created a new card.

Lith was confused due to Arya's questioning. "Why'd you ask?"

Arya smiled and said, "I know a thing or two about Scelestus. So just curious."

"Alright." Lith nodded in understanding.

Arya gave the card back to Lith and Lith started talking with everyone.

After a while he said, "So, I have a few resources given to me by Shadow River Sect and I'll be doing assassinations for experience. If I need something more, I'll just call Freya and ask her to send me those."

"This sect has a lot of places where one can enter in seclusion. So yeah, I guess, no more meeting each other for the coming 7 to 10 years, haha."

"So you're really very serious about this?" Emilia asked.

Lith nodded.

Emilia sighed and said under her breath, "I'll miss you..."

"Me too."

"Me too."

"Oh me too as well."

Arya said right after Emilia said her words and Lucy and Lilith joined in as well.

Emilia became slightly embarrassed noticing this but she covered it and stood still like the responsible and mature lady she was.

Alexandra who was quiet all this while, looked at Lith and asked, "darling, what will I do without you all this while?"

Before Lith could answer, Arya chuckled and wrapping her hands around Alexandra's shoulders, she said, "What else? I'll be training you and you'll be working just as hard as Lith to improve your cultivation."

"No, I mean, I'll feel very lonely without darling. What am I gonna do about it?" Alexandra clarified.

"Oh that. That I don't know." Arya laughed as usual and let go of Alexandra.

Lith looked at her and holding her hand, he said, "Just bear with this for a while, please? You won't feel too lonely as now you aren't alone. You have so many sisters with whom you can talk anytime you want. Isn't that right?"

Lith looked at his ladies as he asked that.

Arya, Emilia, and Lucy nodded their heads.

Lilith chuckled and said, "you also have your mother-in-law. You can talk about anything you want with me."

Alexandra nodded her head slightly. "I understand. Cultivate well, darling. I'll miss you."

Lith smiled and patted Alexandra's head. "I'll miss you too."

Lilith turned her head to look at Lucy and asked, "dear, is there something important that requires my assistance?"

Lucy could tell where Lilith was getting at. Lucy shook her head and said, "not really, mom."

Lilith smiled and asked, "then can I stay with your little brother for a while?"

Lucy nodded. "Sure, go ahead. If I need something, I'll just call you or visit you."

Lilith chuckled and kissed Lucy's forehead. "So understanding and thoughtful."

"You're going to stay with me, mom?" Lith asked.

"Yes, baby." Lilith nodded.

"Alright, I guess I'll just ask you if I need some resources."

"Yes. That's why I am here." Lilith smiled and said.

Lith then turned to look at Emilia and asked, "What will you be doing all this while?"

Emilia sighed and said, "the same academy related work."

She felt that there was too much work in the academy and thus felt tired just even thinking about it.

Lith nodded. "Say hi to Ralph and Dennis when you reach there."

"Sure." Emilia nodded. After Arya left, Lith and them became Emilia's students. But now Lith left as well and she just had Ralph and Dennis as her students. It was an easy task to forward Lith's message.

Lith got up after he was finished speaking and stretched. "Have fun, ladies. I'll go cultivate for a while, I mean, a few years. I'll see you later."

Everyone nodded their heads.

Lith turned to his side and held Alexandra's face. He gave her a gentle kiss on her lips and said, "take care, okay?"

Alexandra nodded. She hugged Lith and said, "I'll miss you."

Lith patted her back and consoled her a bit. He then walked towards Arya and kissed her as well and said the same thing he said to Alexandra.

Arya chuckled and said, "have fun cultivating."

She then bent forward and close to Lith's ears and rubbing her hand on his shaft, she said, "I'll miss not just you but this as well. Come to me quick, okay?"

Lith chuckled and getting close to her ear, he whispered, "don't worry, I'll be back soon. Next time I see you, it's not just this one that'll get filled."

He put his hand over Arya's soft nether region and rubbed his finger along her slit and said.

"I'll be waiting." Arya chuckled as well and said.

Lith then went to Emilia and gave her a kiss on her lips. Emilia was embarrassed to get kissed in front of so many like this but then she realized that she had done something even more bold than this and her embarrassment vanished.

Lith asked Emilia to take care as well and moved towards Lucy.

He did the same, kissed Lucy and asked her to take care.

Lucy hugged Lith and asked him to come sooner to her.

Lith then walked towards Lilith and as he did, Lilith got up and said, "let's go, shall we?"

Lith nodded. He turned back and waving his head, he said, "bye everyone."

"Bye." Everyone said in unison and waved their hands.

Lith held Lilith's hand and left the room.

He would now begin his journey of doing some serious cultivation.

Chapter 330 The position of the continents

Inside a spacious and dimly lit cave, Lith was sitting crossed-leg on a pedestal, cultivating. Just a few meters from him Lilith was seated on a chair and was using her phone. It had been a few hours since the two had come here. This place was in the territory of the Shadow River Sect but was far away from the main sect buildings. This place was almost at the edge of Uklov, bordering Espat.

As this was a secluded region, there were no disturbances and Lith meditated in peace. He was currently comprehending the Lightning laws and a few sparks of lightning could thus be seen around him from time to time.

Lilith was worry-free as she knew that there were hardly any problems that would arise. Lith's potential was something that ensured that he had no problems in his breakthroughs and also that it consumed a lot less time.

Lith had been drinking Lilith's blood for a long time and its effect was bound to show up soon. Not only that, but he also had trained with her and Lucy for quite a while and there was his personal experience of almost half a year present as well.

He could do it easily. Lilith had faith in him. It shouldn't take more than ten years for him to reach Rank 9 in her opinion. It would be faster but definitely not more than ten years even if Lith didn't go out of this cave.

Ten years was nothing for people of this world. Almost little to no change occurred in ten years. It was as if a day had passed and a new day had dawned. Though changes would happen at such times, they wouldn't be anything too exaggerated or noticeable.

Lilith continued to use her phone while Lith continued to meditate. The cultivation process was boring but it was what it was, it couldn't be helped.

.....

Days passed.

News of Arya becoming a Supreme Rank spread everywhere and the world was in shock and awe as the dragons got another Supreme Rank to themselves.

The Dragons were celebrating in their respective places and it was a joyous atmosphere everywhere in the Dragon Continent.

The Dragon Emperor Dagassi and The Dragon Empress Mayzin had a formal meeting with Arya in the Star Dragon City. They were having talks to get Arya to be recognized by everyone officially and also what share of the Dragon race and Continent she would handle and get.

There were a lot of tribes in the Dragon race and Arya only took the Death, Water, and War dragon tribes under her. The Dragon Continent got divided into three parts now and each Supreme Rank had one each.

After settling everything, the joyous atmosphere in the Dragon Continent began again and the Death, Water, and War dragon tribes did a lot of fun events and invited other tribes to join in on the fun. Their events were being live streamed and a lot of people all around the world watched that and donated hefty amounts and funded the tribes to celebrate even further.

Arya, when she was done ensuring that everything was running smoothly, she extended her wings out and flew away from the Dragon Continent, towards the West instead of the East.

East of the Dragon Continent was the Neutral Continent and the West, well there was nothing but the ocean present there. The world was a globe and since that was the case, if one kept flying in a single direction continuously, they would end up reaching the same place.

The problem with Arya going in the West instead of the East was that she would reach the Human Continent if she kept flying. But this wasn't the main issue, the main issue was that it was a very arduous task.

The world had 9 continents and the Neutral Continent was in the middle of all the other continents present. This could be imagined in a manner such as:

In Lith's previous world, that is, Earth, there were other planets present in the same system as it. One of these other planets was called Saturn. This planet looked like a sphere that had a large ring around its diameter that ran from East to West.

The same could be imagined with the continents in this world.

The continents were present on the world in a ring-like manner. The only difference was that in Saturn, the ring ran from East to West, but in this world, the ring runs from North to South.

For an ever better understanding, one can just imagine that a ball has a rubber band attached to it. We then turn the ball so that the rubber band now looks as if it's on the side and we are currently looking at the surface that has no rubber band on it.

This is exactly the same situation in the world Lith was in.

At the Western part of the world, there was:

Witch Continent in the upper side.

Dragon Continent in the middle side.

Demon Continent in the lower side.

Then at the opposite of this place, that is, at the Eastern part of the world, there was:

Elven Continent in the upper side.

Human Continent in the middle side.

Angel Continent in the lower side.

At the extreme North and South of the world, that is at the top and bottom part of the world, there was the Vampire Continent and the Werewolf Continent.

These continents all look like the rubber band we attached to the ball. Now, as the rubber band is attached to the ball, the ball has two free surfaces.

At the middle of one of the two surfaces, there is the Neutral Continent and at the other surface, there is nothing.

Thus, if one flew in the opposite direction of the Neutral continent from their own continent, they wouldn't be able to have a stop over and would need to continuously fly until they reached a certain continent. The continent being any of the eight continents other than the Neutral Continent.

The people knew about this fact and they all couldn't help but question, 'why isn't there a continent just opposite to the Neutral Continent? Why is that place empty?'. This was one of the questions that nobody knew the answer to except a few, who obviously didn't want to share such a secret.

Also, it was almost impossible for a person below King Rank to even think about venturing in the sea to explore. It was a dangerous feat as the oceans were unexplored till date and there could be unknown powerful monsters present there.

Nobody thus knew about the answer to that question.

But Arya, she was currently flying in that direction and now that she was a Supreme Rank, her speed was very fast.

Arya flew over the oceanic waters and the next morning, she finally halted when she saw a certain island having nothing but a sandy shore and a few palm trees on it with pieces of rocks of various sizes spread around.

She descended down and walked towards one of the two palm trees. After reaching there, she saw three rocks present around it at its base. She turned the rocks and moved them one by one. Just as she finished arranging them in a specific manner, she vanished from her spot.
