

## Vampire 361

### Chapter 361 Identify your bride (2)

'Oh, there's pubic hair. Interesting.' Lith thought to himself as he felt the rough sensation on his hand.

Lith rubbed his fingers more on it and going down, the soft and mushy feeling was back. 'Yeah, that's definitely pubic hair. But...'

Just coming in contact with a lady having pubic hair made Lith wonder, what was normal? To have pubic hair or to not have pubic hair?

All his life, he's only ever seen the pussies of his ladies, with one exception to it being the lady from Senzal Clan. They all didn't have pubic hair for some reason and Lith didn't dwell much on it, thinking that it was normal.

To understand what was normal, Lith decided to see if there were other ladies who had pubic hair or was it just this one lady.

Lith rejected the lady and went ahead. He once again came across a thick and long leg. He touched it to examine whether it felt the same as any of his ladies and then made his hand go inside the curtain.

As his hands did, they touched something wet and warm and he pushed his fingers inside, he felt it get covered in juices and get massaged by the soft walls.

Lith chuckled and thought, 'the one behind sure is aroused.'

He took his fingers out and moving it up, he once again felt a rough sensation. There was pubic hair again, Lith deducted.

He rejected the lady and moved on. As he moved and touched a few more ladies, he realized that the ones having pubic hair were a lot in numbers. This confused Lith.

To clear up his confusion, Lith decided to ask Luna about it. He turned to look at Luna and said, "can you put a barrier around us? I want to talk to you about something."

Luna nodded her head and snapped her fingers. Immediately, a black opaque barrier surrounded them.

Lith asked, "Luna, is it normal for people in the world to have pubic hair or is it normal for them to not have it?"

Luna was surprised hearing such a question from Lith. She giggled and said, "Your Highness, what do you think would be normal in your opinion?"

Luna wanted to first understand what Lith was thinking. She would then answer him by correcting or modifying his answer.

Lith thought about it and said, "well, probably no pubic hair?"

Luna smiled hearing this. She then said to Lith, "Your Highness, you should look at this first and rethink."

She held the hem of her robes from the place where her leg was revealed and parted it to the side, revealing more of her lower region and finally her secret garden.

"What are you doing..." Lith said softly to Luna. Why was she showing him her pussy? And most importantly, "Luna, why are you not wearing any panties?"

Luna smiled and said, "this is done to entertain the groom and the brides. When the priestess moves around, she would end up flashing her private parts to them and so, they wouldn't get bored and be entertained. The priestess is usually liked by both the groom and the bride."

"Also, the groom or bride is rewarded by the priestess if they find her hidden panties before the end of the marriage ceremonies and hand it to her. The reward is usually something very naughty."

'Ah... I love vampire marriages. Whoever created this concept was a true man/woman of culture and a true chad.' Lith thought to himself. But then he had a question again.

"But Luna, wouldn't it be considered cheating if the groom or bride does it with the priestess?"

Luna shook her head. "As long as the groom or bride doesn't bite the neck of the priestess, it wouldn't be called cheating."

'Vampires... such lewd people...' Lith thought to himself. But it was nice, he didn't hate it. Culture was religion and he would follow it religiously. As long as the things he does don't hurt the sentiments of his ladies, he was fine with it.

"Now coming back to the topic, what do you think, Your Highness?" Luna said while flashing her pussy to Lith.

Lith looked at it and noticed her well trimmed hair. "Can I touch it?"

Luna chuckled and said, "Your Highness, I belong to you. You can do anything with me as you please."

"What a lewd priestess." Lith said while shaking his head.

Luna nodded. "Yes, Your Highness. You can punish this priestess for being so lewd."

Lith got close to Luna and put his hands over her pussy and grabbed it. He looked her in the eyes and said with a smile, "I surely will, but not now."

Lith was getting married, he wouldn't try to do it with some other woman other than his own at this particular event. This day belonged to his ladies fully.

Luna simply smiled and didn't say anything.

Lith rubbed his fingers on Luna's pink slits and then inserted his two fingers inside her dripping cunt. It surely felt tight and Lith was getting turned on by it. But, having done it with a lot of beautiful ladies, Lith had better control over his body and didn't get too aroused.

He calmed his boner and rubbing his hands over pussy and then her pubic region, Lith came to a conclusion.

"I guess, having pubic hair is common and normal?"

Luna nodded her head. "Having pubic hair is common everywhere for ladies and men alike as it is something natural. The majority of the people in this world like the natural and real bodies of their partners and so, hardly anyone would willingly stop the growth of pubic hair."

"It isn't difficult really to keep it well trimmed or to shave it off completely. Magic makes things easier and it doesn't even take a second to do something like that."

"But some ladies don't have pubic hair because either they might find discomfort in it or if their partner had asked them to not have it. In this case, they would simply inscribe a spell on their pubic region and no hair would grow until they break this spell."

Lith understood what Luna meant. So basically, the people in this world were all for the natural stuff and so having pubic hair was normal and more common. It was a good thing in Lith's opinion. But then he wondered why his ladies didn't have it and decided to ask them later on.

"I get it, thanks Luna." Lith nodded his head and said.

"Your Highness doesn't need to be so polite. It's my duty." Luna smiled and said with a bow, revealing her cleavage and part of her big milkers.

'Flashing again...' Lith thought to himself. But he shook this thought aside and asked Luna to cover up properly.

Luna corrected her clothes and dispelled the barrier, making Lith move on to the next person.

Since having pubic hair was normal, whenever Lith saw a long and thick leg, he put his hand straight inside the curtain and touched the pubic region to see if there was hair or not and quickly eliminated a lot of people.

Finally, after a few minutes, he came across someone who didn't have pubic hair and also had a long and thick leg. Lith had his fingers inside the soft canals of the lady and was checking how they would feel if he fingered.

Lith remembered the way the insides and the lips felt to touch and he also had a rough idea on how to identify his woman with just the consistency of love juices. He was a good observer and so, he didn't have too difficult of a time to figure out who was who.

His harem was small and he only had five ladies, these things were easy to remember.

As Lith fingered the lady, he felt her insides wrap around his finger in a certain manner. Noticing this, he smiled. He knew exactly who she was.

Lith took his fingers out and sucked on them to clean it. He looked at Luna and said with a smirk, "that's Lucy."

Luna smiled. "Let's see if His Highness is correct or not."

Luna put her hand on the curtain and soon, the leg went back and after a few seconds, a beautiful silver-haired lady wearing a black rose tiara on her head and in a black bridal dress walked out.

It was none other than Lucy and Lith had just gotten his answer right.

"Congratulations!" Luna said and clapped her hands.

Lith smiled and as for Lucy, she was actually a bit concerned. She walked close to Luna and pulling her to the side, she whispered in her ears,

"Hey, he just did that to me. People are watching right? Did they see him do that?"

Luna giggled hearing it. She could understand the troubles of Lucy.

"Your Majesty, don't worry, this whole event is done without any spectators. The only one watching would be me. All the men have been sent out of the ballroom on a drink break." Luna assured Lucy.

"When did that happen?" Lucy asked.

"Just when I brought His Highness towards the curtain, they left." Luna answered.

Lucy nodded her head. "It's okay then."

She looked at the seats away from the curtain and saw them to be almost empty. There were only a few maids sitting there and Lucy guessed that these were the ones who were eliminated by Lith.

Lucy walked towards the seats and sat on one of them and watched the event unfold.

Lith got back to checking out the legs and as usual, he put his hand inside the curtains and checked for pubic hair and also fingered the ladies.

A few minutes passed and Lith rejected a few people.

He then came across a leg that looked familiar. Lith checked for pubic hair and didn't find it. He then decided to finger the lady and as his fingers went inside her cunt, a lot of juices gushed out. A lot of it.

'Ah... who else could it be but...' Lith turned his head to look at Luna and said with a smile, "it's Alexandra."

"Bingo!" Luna said and chuckled.

Lith took his hand out from the curtain and sucked the juices off his hand. It was easy to find Alexandra since she was the only one among his ladies who would have a lot of juices come out just from a single touch of his.

A few seconds later, Alexandra walked out. She looked at Lith and said with a smile, "darling~"

Lith smiled back and walking close to her, he gave her a kiss on her lips. "I was correct, wasn't I?"

Alexandra nodded her head and giving a kiss back to Lith, she went to the seat beside Lucy and sat on it.

The next lady that Lith went to also seemed familiar to him. He touched the leg and the leg shivered a bit. Lith raised an eyebrow in interest watching this.

He slowly moved one of his finger from the toe to the thighs and as he did so, the leg kept shivering.

'Haha, who else could it be but her?' Lith thought to himself.

Lith then moved his hand inside the curtain and didn't even bother to check for pubic hair. He knew there won't be any. He directly made his fingers penetrate the lady's pussy.

Lith felt a soft yet tight feeling around his finger. It was very tight and this feeling was only given out by his mother, Lucy, or...

Lith looked at Luna and said, "Emilia. That's Emilia."

Emilia was still a virgin and Lith had fingered her a lot of times. He could easily tell it was her for that reason.

Luna made the lady walk out and as guessed, it really was Emilia.

Emilia glared at Lith as she came out. This guy... can't he control his evil hands even during a marriage ceremony? Emilia thought to herself.

Lith chuckled noticing her glare like that. He walked close to her and gave her a kiss.

Emilia didn't resist it anymore and simply kissed back. They were husband and wife now, it doesn't matter if Lith did that to her. She wouldn't feel as embarrassed as before.

"I'll be waiting for my reward." Lith broke off the kiss and said to Emilia with a smile.

"Sure." Emilia smiled back and left after saying so.

Lith then eliminated a few more ladies and easily found another familiar leg. This leg was so familiar that he didn't even need to touch it to know whose it was.

But, Lith didn't answer Luna yet. He wanted to have fun with it first.

Lith touched the leg and slowly moved his finger upwards. Just as he reached the place where he would need to enter inside the curtain, Lith took his hand back and looked at Luna with a smile.

"Luna, I think I'll need to do a few more things to examine who this person is." Lith said to her and winked.

Luna could understand what Lith was saying. She winked back and created a barrier around them once again. Nobody could see what was going on inside or hear anything from it. Not even Emilia.

Lith looked at the leg again and chuckled. "I can't let go of any opportunities that arise."

Chapter 362 Identify your bride (3)\*

Lith looked at the fair, long, and thick leg in front of him. He chuckled and touched it once again. This time, Lith moved his hand up and made it enter inside the curtain. He touched the lady's pussy and rubbed his finger along her slits.

He then made his two fingers enter inside her cunt and fingered her. The warm and soft walls wrapped around his fingers in a very tight manner and amazed Lith again.

Lith took his fingers out at that time and sucked on them. He felt very aroused and immediately got a boner.

He looked at Luna and said, "Luna, I am not able to identify the person with just my hand touch. I wanna have a taste. Can you do something?"

Luna smiled hearing that. "It can be done, Your Highness."

Luna touched the curtain and soon, the lady's whole nude lower body was out of it, including both her legs and her dripping honeypot.

Lith chuckled looking at it. He bent down and holding her legs up, Lith started licking her pussy.

He couldn't put his thing inside her as he was saving it for his reward later. He had not done it in 8 years and abstaining for a few more weeks wasn't a problem. But, that doesn't mean he couldn't do other things.

Lith felt aroused as he licked and immediately had a boner. It was only natural and to calm it down, he thought of using his spiritual power. But then, he realized there was someone else here as well.

While licking the lady's pussy in front, Lith turned to look at Luna and said, "Luna, give me a handjob."

This would be the first time someone other than his ladies would ever touch Lith. But it was fine since he wasn't putting his things inside her and was just having her do his duties. From what he knew, maids were supposed to take care of all the needs of their master and it also included sexual ones.

Luna smiled and said to Lith, "Your Highness, do you want me to be clothed while doing it or unclothed?"

Lith chuckled. "Have your clothes on you but expose your naughty parts."

Luna nodded and snapping her fingers, her pussy along with her legs were exposed. Her big milkers came into view as well and looking at them, Lith could tell that they definitely were bigger than even his mother's, whose cup size was H.

But of course, they still couldn't compare it with Lilith's despite the size.

Luna now looked like a nun who had her boobs and lower body exposed. She walked towards Lith and hugged him from behind. Her boobs pressed onto him and she soon lowered his pants and started stroking his dick.

Lith continued to eat out the lady in the front and a while later, he put his two fingers inside her and finger fucked her while playing with her clitoris through his tongue.

A few moments later, the lady climaxed and so did Lith. He gulped down all her juices and licked her lower region clean.

Lith got up and wore his clothes. He smiled and looked at Luna. "I know who that lady is now. It's..."

"... definitely not one of my brides." Lith chuckled after saying so and Luna chuckled as well.

"Let's find out if your answer is right or wrong." Luna touched her toe with the curtain as her hands had Lith's semen on them. She didn't let it go to waste.

Soon, out of the curtain walked out a beautiful silver-haired lady wearing the Queen's crown and she had a smirk on her face.

"You got mama wrong, huh?" Lilith looked at Lith and asked.

Lith chuckled. "It seems so. It was very difficult to spot you."

Lilith chuckled and walked close to Lith. She held Lith's tie and pulling him close to her, she said with a soft whisper, "Mama is going to punish you then. It seems you need to be educated again to understand how to spot mama."

Lith smiled and said, "please do."

Lilith chuckled and gave Lith a kiss on his lips.

She then turned to look at Luna and noticed her holding Lith's semen in her open palms. "Oh?"

Lilith turned to look at Lith and asked, "did you finally use the services of the clan's maids?"

Lith smiled and said, "it was just a handjob."

Lilith chuckled and said, "All these maids are virgins. Mama didn't let them get tainted and kept them protected. Why don't you use their services properly? They also love you so much, you know? They'll be very happy to get touched by you and provide you their services. Right, Luna?"

Luna nodded her head. "Madam is right, Your Highness."

Lith smiled and said, "I am a married man now, mom. Don't make me do such things."

"Fufu, that's not considered cheating. We are vampires, my baby, not humans. The humans, if a man touches another lady or if a lady touches another man even slightly, they think it's cheating. But in our case, as long as you don't bite their necks, things are fine." Lilith explained.

Lith thought about it and said, "if that's the case mom, if I can do these things, the ladies can do it too, right?"

Lilith nodded her head. "They can. But don't worry about it because firstly, they don't like men, and secondly, at the end of the marriage, it'll be ensured that they won't do it with anyone else other than you. Of course, mama won't force them or anything, it'll be with their consent and understanding."

Lith was confused as he heard that. "What do you mean, mom?"

Lilith smiled and ruffling Lith's hair, she said, "when the marriage is at its end, you'll understand. Don't worry."

"If you say so." Lith nodded his head in understanding.

Lilith then kissed Lith again and breaking it off, she walked towards Luna.

Lilith grabbed Luna by her ass and squeezing and pulling her close, she looked at Lith and said, "Want to see something hot, baby?"

Lith had no idea what his mother was upto, but hey, judging from the position she was in, it definitely seemed like something good would happen. "Yes, why not?"

Lilith turned her head to look at Luna and said to her with a smirk, "feed it to me, Luna."

Luna smiled and nodded in understanding. She transferred all of the semen from her hands into her mouth and made her palms clean.

She held Lilith's face after that and kissed her, transferring Lith's semen from her mouth to Lilith's slowly.

"Oh damn..." Lith couldn't help but say. His mother sure was a very wild lady, but not to mention that, even his maid was wild and matched the energy of his mother. No wonder Luna was his mother's secretary.

Lilith kept squeezing Luna's ass cheeks while

Luna fed Lith's semen to her.

Lilith then turned Luna to the side and made her ass face Lith. Lith could now see his mother groping her own secretary clearly.

Pah!

Lilith spanked Luna's ass lightly with one of her hands, leaving a handprint on it.

Pah!

Lilith spanked the other cheek of Luna and noticing this erotic and hot scene, Lith felt amazed. What a wild mother!

Lilith then bent a bit backwards and Luna leaned forward. She spread Luna's ass cheeks and revealed her puckered pink butthole and her pussy that had its lips separated slightly. Luna's juices that were dripping down her parted lower lips were also seen by Lith.

Lith sucked in a breath of cold air as he noticed this. His mother was definitely a seductress who knew how to arouse him.

Lilith then turned Luna to the side again and moving her hands from her butt to holding her face, she broke the kiss by holding Luna's tongue with her lips.

She took Luna's tongue out of her mouth and sucked on it for a bit. She then licked her tongue and after finishing, she smiled and said to Luna, "Good job. Here's your reward."

She held Luna's face and made her bend down slightly. Lilith bent down as well and having her mouth directly over Luna's, she made Lith's cum coated in her saliva directly flow from her own mouth to Luna's.

Watching this scene unfold, Lith facepalmed. He knew he should be disgusted by watching this, but this was so fucking hot!

'Haiz, control your little brother or things would be bad!' Lith hissed as he tried to calm his boner down.

Lith didn't want to have sex right now, he wanted to have it when the marriage was over and together with all his ladies.

Lilith finished giving Luna her reward and made her get up.. She then spanked both her ass cheeks again and squeezing them, she said, "dress up, I am gonna break the barrier."

"Yes, Madam." Luna said in a calm tone with a smile, as if nothing had happened to her.

Lilith then walked close to Lith again and asked with a smile, "how was it? Did you like it?"

Lith smiled and said, "it was wild, I loved it. I didn't know mom had such a side to her as well."

Lilith chuckled. "Mama is gentle with her babies and daughter-in-laws."

Lith raised an eyebrow in surprise. "So do you mean you would only do it if there's maids present?"

Lilith shook her head. "You would need to train your ladies well for rough play if you want mama to do something like this with them. Until then, it's only the maids if you want to see mama be so wild."

"Alright, we'll see about this." Lith nodded his head.

Lilith chuckled again and gave a peck on Lith's lips. She dispelled the barrier after ensuring Luna was dressed and walked to the spectators seat.

Lith had calmed his raging boner and he soon went to see the other participants. He eliminated a lot of them and soon found Arya.

Lith didn't need to examine the leg in front of him to know it was Arya. The leg looked perfect with the right balance of thickness, fat, and length.

Still, he touched her leg. He had fingered all his brides, why should Arya be an exception?

Lith put his hand inside the curtain and soon touched Arya's slits. He rubbed his fingers on it and fingered her for a while.

Arya's walls tightened up and massaged Lith's fingers while her juices acted as a lubricant to decrease friction. Lith soon removed his hand and said to Luna that it was Arya.

As usual, Luna said that they'll see and after she touched the curtain, out of it, the bewitching lady, Arya, appeared.

Arya looked at Lith and smiling, she said, "you could've put something else instead of your hand, you know?"

Lilith smiled back and answered, "I'll make sure to put it after a while."

Arya chuckled and walking close to Lith, she had a passionate kiss with him for a few seconds and left after breaking it off.

Identify your bride ceremony was finally over with Lith winning all rounds except one where he 'failed' to identify Lilith.

The stage was changed back after the ceremony was over and the groom and bride were called back on it.

Soon, another ceremony began and the male servants were called back into the ballroom to watch it and the marriage was running again in full swing.

### Chapter 363 Final event

A lot of ceremonies happened after the 'identifying your bride' ceremony ended. They were all very fun to watch as well as participate in it.

After almost a month of doing one ceremony after another, the marriage was finally coming to an end. But there was still one ceremony left before the marriage went into its final stage.

For this ceremony, the venue was the arena present in the Queen's district\*. They needed a big location to conduct this ceremony as things were definitely bound to go wild.

There were two arenas in the Queen's district, both were 10,000 km<sup>2</sup> each in area. For this event, both arenas were joined together and this was something that hasn't happened in many years.

The arena became 20,000 km<sup>2</sup> in area and was made to be oval in shape, perfect for the ceremony that was about to take place. There were a lot of speakers present everywhere in the arena so that the music was audible well to everyone present.

In the air and around the people participating in this event, there were a lot of small and chubby birds flying while holding a small camera in their hands. These birds were cute and non violent in nature and they were raised by the Royal Servants to act as camera personnels whenever there was need.

The birds were covered in white fur and literally appeared from afar as if they were cotton flying around in the air.

Apart from these things, there were two long rows of chairs present facing opposite to each other and everyone attending the wedding was standing in front of one chair.

There were a total of 200 people and the chairs were just 198.

Judging the scene that was happening in the arena, it was obvious that the event that was about to be held was going to be Musical Chairs.

Musical Chairs is an elimination game where players fight for a seat among each other. The one who would be able to sit on the last chair would be the winner of this game.

The rules were simple for this game. The players were supposed to keep moving in a clockwise direction around the chairs and they cannot change the direction of their flow.

The music would soon stop and at this time, the players were supposed to sit on their nearest chair. The one who isn't able to sit on one would get eliminated and the number of chairs removed would depend on the number of participants eliminated.

Using magic was allowed, so was using their own prowess. However, to make it a fair game, everyone was given a wristband. This wristband was created by Lilith just a few minutes prior to this ceremony. It restricted everyone's prowess to Rank 9 and thus, it became an even playing field.

Lith was the one with the lowest magic rank and people had to adjust to that.

After explaining the rules and everything to everyone, the host, a Royal Servant, said cheerfully:

"The rules have been explained. The talks have been done. Without further ado, let's begin with the ceremony!"

"MUSIC!"

Just as the host finished his lines, loud pop music blasted off of the speakers present in the arena and everyone began walking in clockwise direction.

Lith, who was walking at a moderate pace just like everyone else, thought to himself, 'I thought they'll use some magic stuff and rush. But it seems everyone has a brain. Taking things slow is indeed the right approach.'

In front of Lith was Lilith who was also walking in a leisurely pace and in front of her was Lucy. Behind Lith was Emilia, following her was Sel, then there was Alexandra and at the last was Arya.

Behind Arya was Rain, following who was the light blue haired priest, Noman, then there was Ruben, the demon servant and also one of the four Emperor Ranks.

Behind Ruben was Arbour, the Supreme Rank who recently joined the Royal Servants and following him were the rest of the maids and butlers.

Almost everyone was participating in this ceremony and they were also very enthusiastic about it. Everyone except...

Arbour.

Arbour was in shock this whole time and he had no idea whether to laugh, cry, or curse his fate. He was truly unlucky yet lucky at the same time.

Unlucky because he would have to serve the queen forever and lucky because the person he would serve wasn't anyone weak but many times stronger than his own self.

Not to mention her, just looking at the monster she created walking behind her was enough of a proof to let Arbour know that things weren't going to end anytime soon.

What skills would you need to have to end up scoring an Emperor Rank and also a Supreme Rank? Not to mention that, from what he heard from the other servants, Lith broke through eight realms in just eight years of his ascension. What monstrosity was this!?

Nobody has ever heard or seen such fast cultivation and he probably was one of his kind. All these things, it made Arbour arrive at a conclusion that Lith was definitely going to be someone on the level of the Vampire Queen, or maybe even stronger than her.

But that's where his bad luck lies. If Lith becomes as powerful as Lilith, there was no hope for him to leave. But then again, it's not like he could stop Lith even if he wanted. There was no way he would mess with anything related to Lilith. Even if he was just a servant now, he cherished his life.

But on another note, being a butler and serving the Royal Clan wasn't as bad as he thought either. He had access to a lot of things like cultivation techniques, resources, and what not. Though Lilith made him a subordinate, she didn't treat him like a slave.

Lilith gave Arbour resources on the basis of his work. If he worked hard, he got better resources and that's what was happening with Arbour.

Add onto him meeting the other Royal Servants. He learned a lot from them despite being a Supreme Rank and understood that had he not been a Supreme Rank, he wouldn't even have the ability to look up to these servants. They were the best of the best in the entire world.

Life was not as bad as Arbour thought and there were some problems but—

"Kzzrk..."

Just as Arbour was having an internal monologue with himself, the music stopped and interrupted his thoughts.

Arbour was snapped back to reality and he realized that he was away from any of the chairs present. 'Oh shit! I need to hurry! I can't get eliminated like this!'

Arbour's reputation would go down the drain if he ends up losing right in the first round itself. He was a Supreme Rank, his reputation would take too big of a hit and he wouldn't be able to show his face to anyone if he lost right now.

Arbour immediately used his spiritual power and boosted himself to speed up.

He ended up running past a maid and sat on a chair before she could, thereby saving his image.

'Phew. I need to focus on the ceremony.' Arbour thought to himself. He couldn't just get his image sullied, could he? He had to persist till the end!

Lilith and his ladies and the secretaries of his ladies as well didn't get eliminated within the first round. There were a lot of seats for them to grab and the competition wasn't high yet.

The first round ended with two people getting eliminated and so, two chairs were removed and the total number of people playing were 198 and chairs were just 196.

The music started playing again, marking the commencement of the new round.

Everyone got up from their chairs and like before, walked in a moderate pace.

The music stopped after awhile and this time as well, nothing too serious was seen and two got eliminated.

This continued for a while until there were just 60 people and 58 chairs left.

The competition was now starting to heat up. Interestingly enough, Lith's group and the people behind his group, Noman, Ruben, and Arbour, these three weren't eliminated either yet.

Lith had a good look at all the participants participating and thought to himself, 'Interesting. I can't figure out who might end up winning. Perhaps mom? Arya? It's difficult.'

Lith then pushed these thoughts aside and focused on the game. Whatever the case, he wasn't going to lose before his ladies!

He readied himself for the coming round and a few seconds later, the music started playing again.

'Here we go.'

Bzzzz!

This time, nobody was walking in a moderate pace and everyone was hurrying. They used their prowess and ensured that they always stayed in front of a chair at all instants.

Everyone roamed clockwise for a while and a few seconds later, the music stopped and...

BOOM!

## Chapter 364 Lilith rewards Luna

BOOM!

The maids and butlers all used their explosive prowess to charge as fast they could to the nearest seat, causing chaos to ensue.

Luckily for Lith, he was already near a seat when the music stopped and took his position but the same wasn't for his ladies.

Lucy who was in the front had no seat and she had to charge forwards immediately to get one. Behind her, Lilith was in no rush as there was a seat present just a few steps right in front of her.

Alexandra, Arya, and Emilia had gotten a seat for themselves within the coming few instances and it was only Lucy who was still left.

Lucy charged with all her might and going around in full circle, she was almost close to her previous position.

To Lucy's suprise, the seat that was empty in front of her was about to be taken by her mother. She couldn't let her get it so easily and rushed.

Lilith knew Lucy was coming and just to give her a bit of stress, she used a little bit of her prowess and closed in on the empty seat.

'Noooooo!' Lucy panicked. The seat would be gone if she didn't hurry!

Lucy immediately used Lightning energy around her and charged.

Lilith, to tease her further, also made herself be closer to the chair and finally getting in front of it, she slowly made herself sit on it. "What a nice chair. Thankfully, I won't be disqualified this round."

"NOOOOO!" Lucy exclaimed and rushed closer to the chair.

Finally, just as she almost reached it, she saw her mother preparing to sit down on the chair slowly.

Not wanting to let herself get disqualified, she was about to push her mother away from the chair when...

Lilith looked at Lucy and taking a step to the side, she said with a chuckle, "Just kidding."

Lucy almost tripped as this happened but she ended up sitting on the chair and didn't get disqualified.

Buzz!

The buzzer went off as every seat got occupied and the ones who got eliminated in this round were Lilith and a maid.

Lith looked at his mother standing a few meters from him and couldn't believe that she was the first among all his ladies to get eliminated.

But then, judging from how his mother's nature was, she was bound to do this sooner or later. She wouldn't feel good about winning against her own son or daughter and would feel much happier to just give away her seat to them.

This thing was not limited to just this game, Lith knew that if there's any such situation that would arise in future that would have Lilith be in a spot where it was about her own benefits versus the benefits of her children, she would take a loss and let the two gain from it.

Lith smiled and shook his head. His mother was too emotional about everything related to them, and that is what made her happier. He still couldn't understand how the brain of his mother worked, but whatever, if she's happy, then so be it.

The host got on stage and soon announced the elimination of Lilith and this caused the crowd to get discussing things and be in an uproar.

How can the Queen be eliminated so early!? How was that possible!? Who was the one to take her seat!? Everyone had such questions in their mind and were shocked.

But the host soon explained how Lilith got eliminated and the crowd calmed down.

They became all smiles and laughed discussing this scenario. They all knew that their madam loved her children a lot and weren't surprised by how she gave away her seat this easily.

As for Lucy, she was slightly embarrassed. She was trying so hard to get a seat but realized that her mother was simply teasing her. She could now tell from her smiling face that her mother's intention was never to win against her.

Lucy secretly made a determination that she would definitely get back at her mother and tease her. She didn't know how she would do it, but she would definitely do it one day!

Lilith looked at Lucy and smiling, she said to her, "Enjoy your game. Mama will go rest."

Lilith walked close to Lucy and gave her a kiss on her forehead. She left after saying so.

Lucy waved goodbye to her mother and Lilith left after giving Lith a kiss on his forehead as well.

The game once again began after Lilith was eliminated and Arbour, who thought that he would focus on his game, was once again zoned out.

As he was walking in a clockwise direction around the chairs, he thought to himself,

'Damn! I didn't know that the Que— Madam would be the first to get eliminated among the Supreme Ranks. It's surprising but it's a good thing. I wouldn't have to hold back against anyone and can fully utilize my prowess.'

'Previously, I had doubts on what I would do if I was against her, but now she's not here, I can play without pressure now.'

The music stopped playing in a few seconds and made Arbour get back to his senses again.

This time, he wasn't too zoned out and so, it didn't affect his game. He used his spiritual power and got himself a seat and eliminated a butler present.

The round finished in a while with the elimination of two servants and the new round began once again.

At this time, Luna who was present near stage, walked away from it and towards Lilith who was sitting in the audience seats of the arena.

The seat was in the front row and it didn't take long for her to reach Lilith.

Standing in front of Lilith, Luna first ensured that there weren't any cameras or eyes on them. After that was done, she bowed and asked,

"Madam, this is the last event. Were all the ceremonies that were done upto the mark? Or were there things that could be improved?"

Lilith turned her head to look at Luna and smiled. "Everything was good. Though there were some minor things that could be improved, they aren't anything too important. So all I'll say is, you did well organizing everything."

Luna flashed a rare smile as she heard this. It wasn't everyday that you would be able to get such praises from the Queen.

She bowed again and thanked Lilith for her kind comments.

Lilith was about to nod back to her in response and focus back on the game when she saw Luna's cleavage and her nipples slightly. As Luna got up, she saw one of her legs out in the open and to its side, her private areas flashing slightly.

After thanking Lilith, Luna was now about to leave when Lilith chuckled and said, "You're going without taking your reward?"

Lilith wasn't stingy with her rewards and she also never discriminated any of her servants. If they worked hard and did a good job, she would always reward them with some or the other thing that would make them feel satisfied and happy.

The Royal Servants respected and were so submissive and obedient towards Lilith not just because they were trained from a young age, but also because she was so nice to them.

They were given freedom to do anything they liked as long as they got their work done and were also sometimes rewarded for doing a good job, just like what was happening with Luna now.

Luna shook her head and said, "Madam, this is my duty. I shouldn't be getting a reward for this."

Lilith simply smiled and looked at Luna.

Luna shivered noticing this. Lilith's smile was cold and her face literally read 'Now you'll tell me what to do?'.

Luna quickly bowed and said, "I am so sorry Madam."

Lilith chuckled and patting her head, she said, "Don't be like this. Never say no to rewards. You don't just get them out of thin air."

Luna got up and nodded her head.

Lilith moved a bit back on her seat and parting her legs slightly, she made space for Luna to sit.

"Come, sit here." Lilith said to Luna while patting the space in front.

Luna didn't hesitate and sat on the space there. She had no idea why her Madam made her sit like this but she didn't complain. Being this close to the Queen was a privilege almost nobody had.

After Luna got seated, Lilith focused back on the game and looked at how things were happening. While doing so, she rewarded Luna.

Lilith placed one of her hands on Luna's thick thighs that were out in the open and slowly made her way towards her secret garden. With her other free hand, she moved it towards her big breasts. She held Luna's nipple between her two fingers and pulling them away slightly, she said,

"They are already this erect and hard."

After she said that, her other hand moved inside Luna's robes and rubbing her fingers over her soft slits, Lilith inserted her middle finger inside her pussy.

"So I was indeed right. Luna, you..."

Lilith took her finger out of Luna's pussy and shifted her focus from the game to Luna. She showed Luna her finger and made her notice how wet it was.

Rubbing Luna's juices in between her fingers, Lilith said with a chuckle, "You have a praise kink, don't you?"

Luna froze on the spot as she heard that. How did her Madam find this out!? She had tried her best to never let her notice this!

Lilith chuckled again. She could tell what was on Luna's mind. "It's too obvious. Your erect nipples are visible when you bend and there's a tiny wet spot visible near your lower lips."

Luna looked down as Lilith said that and found a tiny wet spot. She became slightly embarrassed after noticing this. She had tried her best to not let anything leak out, but in the end, a tiny amount did and was noticed by Lilith.

"Madam, I—"

"Fufufu, it's okay. Different people have different kinks and fetishes, it's okay." Lilith said and focused back on the game.

While looking at Lith walking leisurely, she continued saying,

"You've been a good girl and working hard lately. You deserve this reward."

Just as Lilith said that, a bit of juices gushed out of Luna's honeypot. She also felt hot and aroused. Lilith's praise were too much for her to handle!

Lilith simply smiled as she noticed this but didn't call Luna out for it. She put her fingers covered in Luna's juices inside her mouth and made her suck on it. After having it clean, she put her hand back inside Luna's robes and caressed her well trimmed hair.

Lilith could easily multitask and despite having her full attention on the event happening, she knew whatever Luna's body was going through and she was feeling emotionally and physically.

The Musical Chairs event was happening in full swing and while watching that, Lilith readied herself to give Luna her deserved reward.

Chapter 365 Priestess is meant to be teased

The Musical Chairs event once again started. The trio behind Lith's ladies, the one consisting Noman, Ruben, and Arbour, was still there and so were the secretaries of Arya and Emilia.

There were a few other maids and butlers as well but the one who had the most attention on them were these few people.

Lith and his ladies were the important people of today's events and it was obvious that they were in the limelight. But, the trio behind them were in the limelight because of their flashy movements.

Noman, the Seraphim priest, appeared as cold as ice while he moved, Ruben's moves were all very demonic, and as for Arbour, he was crushing people via his spiritual power alone.

The eliminated maids and butlers were sitting in the opposite direction as Lilith and were watching the event unfold.

There was only Luna sitting in front of Lilith and no other people were present anywhere close to her.

Luna was sitting in front of Lilith and Lilith had her hands touch Luna's private areas. This erotic scene was sadly visible to no one as Lilith had casted a barrier around her that made it appear as if Luna and Lilith were sitting side by side and simply watching the event without talking or doing anything else.

Lilith squeezed Luna's big breasts and caressed her pink slit by rubbing her middle finger along it. While doing so, she asked, "So Lith wasn't able to find your panties yet?"

"N-no, Madam..." Luna tried her best to answer while ensuring she didn't just moan out loud.

Just a slight touch from the Queen was enough for her to have such a reaction, but the problem was, the Queen knew where her weak spots were without even her telling Lilith about it.

Lilith had a neutral expression on her face as she looked at the people moving clockwise on the tune of music. After hearing Luna's reply, she put her middle finger inside her dripping vagina and moved it deep into her tight and soft insides.

"Hmm... so if he doesn't find it before the end ceremony, you wouldn't be able to reward him, would you?" Lilith said in a neutral tone while caressing Luna's g-spot inside her pussy.

"Mhm~... Y-yes, M-Madam..." Luna's body was shaking but still she managed to answer.

"I see. No worries, he'll find it. You didn't hide it somewhere too difficult, did you?" Lilith said while lowering Luna's robes and watching her big tits jiggle in front.

"N-no..." Luna said softly while shaking her head.

Lilith kneaded Luna's big tits and moving her finger in and out of her pussy, she said, "Good. Let's see how much longer it'll be then."

Luna kept releasing muffled moans as Lilith finger fucked her tight cunt and played with her big jugs. There was nothing else that Lilith did but just this was enough to make Luna get lost in pleasure.

How good she was feeling, it was visible from her tongue that was out and the saliva dripping from the corner of her mouth. Her juices were coming out as well in large quantities and made Lilith's hand wet with it.

Lilith didn't mind it and kept moving her long, fair and slender fingers inside Luna. As she did that, she watched the Musical Chairs event and shifted her focus more towards it.

The music had stopped and Lith was now running around using Wind elemental energy. He had an All Elemental Affinity and could freely use it however he wanted here in his home. Lith quickly found a chair and sat on it.

BAM!

Someone crashed on the chair beside Lith and having a look at it, he saw Arya to be present there and a maid was staggering right in front of her. It was apparent that Arya had pushed her for the seat.

"Phew. Made it in time." Arya said and as she looked at the side, she saw Lith staring at her.

Arya winked at Lith through her beautiful blue eyes and said, "don't stare so much, babe, or I might end up doing something I didn't intend to."

Lith chuckled and said, "Oh I'll be glad to bear the brunt of it."

Arya chuckled as well and she was about to say something when...

Zzzzwiiip!

Two people rushed forwards while piercing the air around them. Soon, the two reached the empty seat and both knew that they had to push the other person down or away or they wouldn't get the seat.

The two people were Emilia and Alexandra and were looking at the empty seat.

Emilia looked at the seat and then at Alexandra and sighed. "It seems this is where I'll be eliminated."

"Hmm?" Alexandra turned her head to look at Emilia as she heard that.

Emilia smiled and said while shaking her head, "It's my loss. Go sit on it quick before someone else takes it."

Alexandra knitted her brows. Emilia was giving away her place this easily? "Aren't you going to fight for it?"

Emilia lightly chuckled as she heard that. "No, you're my sister now. I won't do such a thing."

That was true. Emilia was a kind person and she wouldn't fight over such things. She was, in the truest sense... an angel.

Alexandra shrugged and sat on the chair. If that's what her Sister Emilia wanted, then she would comply with her wishes.

Emilia got eliminated from this round and she decided to go join her mother-in-law and sit close to her.

Emilia walked towards Lilith and as she got close to her, the scene that she saw completely changed and she started hearing Luna's moan.

"Ahh~ Ahh~ M-Madam... n-not th-there..."

Luna was still in the same position as before, sitting in front of Lilith and Lilith was fingering her intensely. Luna had her hands on Lilith's and was trying to stop Lilith from playing with her clit as it was very sensitive and weak.

"M-Mother-in-law!?" Emilia couldn't help but ask.

Lilith turned to look at Emilia and smiling, she said, "Don't worry, this is normal, you'll get used to it. Come sit here beside me here."

Emilia didn't know what to reply to this and she had her face flushed slightly. The scene happening in front of her was embarrassing, but she didn't want to retort her mother-in-law for it. She knew that she must've had her reasons for doing this.

Emilia walked and quietly sat beside Lilith.

Lilith didn't take her fingers out of Luna's pussy, she continued to finger her.

Turning to the side to look at Emilia, Lilith said with a smile, "when the servants do a good job, they must be rewarded. Of course, the reward could be anything. My personal maid, Luna here, she likes to be touched like this by me the most. So this is her reward for doing things well."

"Ah, I-I see." Emilia nodded her red face lightly, agreeing with Lilith.

Lilith then chuckled and pulled Emilia close to her by holding her waist.

Emilia was surprised but she didn't voice it out.

Lilith licked Emilia's ear and said softly, "as I said, get used to it and don't forget to use their services. They've been trained well by me. I'll let Luna demonstrate her skills in a while and you'll understand how good she is."

Emilia's face was flushed and she said in a low voice, "M-Mother... you don't have to do this..."

Lilith chuckled again and said, "It's for your own good, my dear. If you don't want to use their services, you can deny it then. But first try it and then decide."

"Okay." Emilia said softly and nodded her head.

Lilith then shifted her attention to Luna and having two of her fingers lodged inside her, she started playing with her clit once again with her other hand.

Luna couldn't help it anymore. She was very close to climax. Her body fell back to get support, her toes curled up, and her eyes rolled back as Lilith fingered her.

"Ahh~ Madam... I-I... I am..." Luna said in between her moans.

Lilith nibbled onto Luna's ear lobes and said softly, "just relax and cum. No need to worry about anything else. This is your reward after all."

Though Lilith said that, Luna had already had four orgasms due to Lilith's touch. This one was a big one and so she was trying to warn Lilith about it as this one would cause a mess.

As Luna heard Lilith's words, she couldn't bother to suppress her climax anymore. She let go of everything and leaning back into Lilith's body, she enjoyed whatever Lilith was doing to her.

Back at the Musical Chairs event, the music had stopped and Lith wasn't close to any chairs.

He used Lightning elemental energy and dashed forwards.

Zzzzwiiip!

Golden streaks of lightning were present across Lith's body as he moved forwards. He soon came across an empty seat and just as he was about to sit on it...

BOOM!

He saw a white light flash across his eyes, followed by the sound of explosion, and then as everything returned to normal, he saw Arya sitting on his chair.

"Phew, made it in time." Arya said and dusted her clothes off.

She then looked at Lith, whose seat she had just taken and said with a smile, "Oh, it seems I took my husband's seat, hehe."

Lith chuckled hearing that. "Of course you did."

While looking at Lith with the same smile as before, she said, "do you want it back?"

Lith shook his head. "You won it fair and square, no need to be so humble like this."

Arya got up from her seat and walking close to Lith, she gave him a kiss on his lips. "I'll see you in a while, wait for me."

Lith nodded and went towards Lilith after saying his goodbyes to Alexandra and Lucy.

As he was walking, the event began once again.

Lith reached where his mother was and as he did, the scene in front of him surprised him.

"Ahh~ I am cu-cumming..."

Spurrrrt!

"Ahhhh~"

Luna gripped Lilith's hands tightly and her body shivered as she climaxed.

A lot of her love juices gushed out and the spot she was sitting at became wet along with Lilith's hands.

Lilith took her hands off and licked Luna's juices.

Looking at the erotic scene in front, Lith asked, "What's going on?"

Lilith turned to look at Lith and winked. "Come here, mama will tell you."

Lith nodded and walked towards Lilith. He sat beside her and had a good look at Luna's bare breasts and her wet pussy that was slightly flashing through her robes.

Luna was resting on Lilith's body and was breathing heavily. She had a massive orgasm and still hadn't recovered.

Lilith, after noticing Lith was near, she put her fingers inside his mouth and said with a smile, "taste the juices of the priestess."

Lith felt a sweet flavor assault his tongue as he sucked his mother's fingers. It sure was a good taste but he didn't understand why his mother was doing it with Luna here.

Lilith knew what was on Lith's mind. She smiled and explained the same thing she did to Emilia.

Lith then nodded as he understood the things.

Lilith then continued, "also, the priestess is meant to be teased and used in vampire weddings. But during our ceremonies, you didn't even tease Luna once."

"Is that so?" Lith asked.

Lilith nodded. "When we were getting the blessings of the moon, instead of having Luna sit on the side, you could've had her sit on your lap or you could've had your thing inside her as she chanted the verses. If not that, you could've at least put your hands inside her robes or groped her butt or breasts. There were a lot of things you didn't do."

Lith was stupefied as he heard that. He was supposed to do all of these things? That was something very new. Weren't marriages supposed to be holy?

Lilith then smiled and said, "not only that, you also didn't find her panties yet. Find it as quickly as you can."

Just as Lilith said that, Emilia, who was listening to the conversation, said from the side,

"Uhm... mother..."

Chapter 366 Luna wants to be punished

"Uhm... mother..."

"Yes, dear?" Lilith turned to the side and said while looking at Emilia.

Emilia blushed again. But nonetheless, she took out a piece of clothing from her ring and showed it to Lilith. "I found this while..."

"Ah..." Lilith let out a surprised chuckle as she saw the black laced panties in Emilia's hands. She took it from her and getting it in front of Luna's face, she continued,

"Fufufu... it seems she found it before Lith, right Luna?"

Luna who was still in her own world was brought back to her senses. Noticing that something important was going on, she got away from Lilith's embrace and stood in front of her.

Her big tits were still out of her robes, her pussy was still visible to everyone present and her juices were still dripping down. But she didn't bother to correct it as Lilith had asked her something and answering that was her priority.

Luna bowed, causing her big jugs to be noticed by Lith, and said, "Madam is right. Lady Emilia found it before His Highness."

"Fufufu, it seems my baby won't get a reward from you and it's Emilia who'll have it instead. Interesting." Lilith said with a smile.

Luna got up and nodded. She turned to look at Emilia and asked, "Lady Emilia, when do you want your reward? Now or later when the marriage is over?"

Emilia felt really embarrassed as she was asked this question. Had she known that the panties she found near the rituals on stage were meant for this, she wouldn't have picked it up and put it inside her ring. She only did that because she thought that someone might have dropped their panties by accident on stage and she put it in her ring so as to save the image of the family.

But who knew that it was present on purpose.

Emilia cleared her throat and said with a red face, "later."

Luna nodded. She then turned to look at Lilith and bowing once again, she said, "Madam, I must confess something."

Lilith raised an eyebrow. Did Luna do something wrong? That shouldn't be the case. She was a very loyal maid. "What is it?"

Luna continued, "Madam, you must punish me. While you were rewarding me, I started having impure thoughts about it. Please punish me for these atrocious deeds."

Hearing that, Lilith chuckled. "It's only natural to have such thoughts. No need to worry about it."

Luna shook her head. "No Madam, I have been a bad maid, you must punish me."

"Fine. I'll punish you later." Lilith said and let the matter slide.

Lilith then turned to Lith and said with a smile, "now she is free. You can do anything you want with her."

Lith smiled and replied, "Mom, I am first gonna do it with all my wives, and then only will I think of doing it with anyone."

Lilith chuckled. "Then, why don't we do this instead? Let's shift the neck biting ceremony and the nuptial chamber one to now and after it has ended, you'll be free to do as you like with the priestess."

"Oh? Sounds like a good idea." Lith nodded.

"Indeed, it is." Lilith nodded as well. "But the ceremony is still going on, so till then, do as you like with Luna here."

Lith nodded. "Alright. But before that, I'll have to ask my wives about it. I am almost married now, so I have to take their opinions into consideration as well."

Lilith patted Lith's head as she heard this. "Oh my, such a good boy I've raised."

Hearing their conversation, Luna was confused as to what she was supposed to do. Not having any idea about it, she just quietly stood in her place without moving.

As for Emilia, she was having a look at such a side of Lilith that she never knew existed. She didn't say anything on this matter and simply sat quietly in her place.

"Let's watch the event and wait until they come back." Lilith said and Lith nodded his head in approval.

He then got up and walked towards Emilia and sat in between her and Lilith.

Lith then held the two's waist and brought them closer to himself. "This position is better."

Lilith chuckled and Emilia didn't say anything in response to this.

Lith then looked at Luna standing in front of him with her private parts revealing themselves. He looked at his mother and asked, "is she going to just stay there like that?"

Lilith shook her head. "Not really."

Lilith held Luna's hand and made her sit on Lith's lap. She then said, "the priestess is meant to be teased, she'll be here till everyone comes back."

Lith nodded. "Alright."

Lilith then looked at Emilia and told her, "don't feel shy. Luna doesn't mind you touching her."

"Huh?" Emilia was confused.

Lilith chuckled and took Emilia's hand and placed it over Luna's breast. "Play with her until everyone comes."

Emilia became embarrassed again as she was made to do that. It would be her first time touching some stranger lady like this. But since this was a vampire tradition, she didn't mind it much and Luna was anyway their own maid now.

Emilia lightly squeezed Luna's breast and Lilith did the same thing with the other one.

As for Lith, since Luna's breasts were already taken by Emilia and Lilith, he went for her pussy that was out in the open. He placed his hand over her well trimmed hairy pussy and started feeling the rough and soft texture of it.

While doing that, Lith turned to the side and kissed Emilia. His lips felt the softness of her lips and his free hand moved to grab her ass.

This was such a nice feeling, to rub his hands over his maid's pussy while groping his wife's butt and kissing her. Who had such privileges? Definitely very few people.

Emilia just let loose and went with the flow. She didn't care anymore about what was happening with her. She put her tongue inside Lith's mouth and started having a passionate kiss with him while groping Luna's breast.

A few minutes passed and it was Alexandra who came back after getting eliminated. She was made to sit beside Lilith and was getting fingered by her until everyone else came back.

Lith then broke the kiss with Emilia and started one with Lilith while fingering Luna's pussy. He also switched the position of his hand from Emilia's butt to her front. He had it inside her panties and was feeling her pussy as well.

A while later, it was Lucy that arrived. She had been eliminated by Arya and was now here. She was made to sit beside Emilia and after understanding the situation, she started playing with Emilia's breasts.

Luna, Alexandra, and Emilia, these three released their moans as Lith, Lilith, and Lucy played with them.

Lith couldn't believe how tight Luna was. He knew his mother had just fingered her and loosened her up but she was back to her previous state almost instantly. It was really amazing to have his fingers lodged inside her.

While Lith finger fucked Luna, at the arena ground, Arya was fighting for an empty seat with Noman, Ruben, and Arbour.

Just these four were remaining now and there were two seats present. Two would be eliminated and in the next round, only one would remain.

Arya used her prowess to block Noman and send Ruben flying away, but because she was restricted to using prowess only upto Rank 9, she didn't do much damage to the two.

In the end, out of luck, Noman ended up eliminating Arya and Ruben and there was only Noman and Arbour left in the game.

The crowd looked excitedly at this final round and Arya, who got eliminated, walked close to where Lith was.

As she reached there, the scene she saw made her raise an eyebrow in surprise and say,

"What's happening? And why does it look like I wasn't invited?"

Chapter 367 Cleaning Ceremony\*

"What's happening? And why does it look like I wasn't invited?"

Lilith chuckled as she heard that. "We were waiting for you."

"Me?" Arya pointed at herself and said.

Lith took his fingers out of Luna and making her get up from his lap, he looked at Arya and nodded his head. "That's right, waiting for you. The ceremonies have been shifted and..."

Lith explained the things to Arya and she finally understood the situation. She nodded her head and said, "Oh, so it was for that. Alright, when is the neck biting ceremony starting?"

Luna, standing at the side while having her breasts and pussy exposed, said to Arya in a calm tone, "It can start whenever everyone wants, Miss Arya."

Luna called Emilia as Lady because she was married to Lith. Arya was yet to get married and so she called her Miss.

Lith looked at Luna and said, "Let's start it now. It can be done in the bedroom as well, right?"

"It can be done anywhere His Highness wants." Luna said in the same tone as before.

They agreed to do it in the bedroom and Lilith snapped her fingers, making everyone present here teleport to the Queen's chambers.

As they teleported away, there were still two people fighting for a spot.

It was Noman and Arbour.

The music had stopped now and they were fighting for the last seat.

Arbour used his prowess as much as he could but since they both were Rank 9s now, in the end, it was Noman who ended up defeating Arbour and taking a seat, thereby making him win in this event.

Arbour got the shock of his life when he saw that. He didn't know that if powers were made equal, he would end up losing against someone like this.

Arbour thus got determined to work hard and he finally understood that the Royal Servants weren't to be underestimated.

As for Noman, he felt nothing despite having won this. He was a calm and composed person and let out very mature vibes from himself.

The crowd dispersed when they were told that there was a break going on. They went to have food and drinks and chat over it.

Noman, Ruben, and Arbour, this trio went together and they also chatted. Arbour was becoming closer to Noman and Ruben and their relationship was now like acquaintances.

Noman usually didn't speak much and it was only Ruben and Arbour talking.

While all of this was happening, over in the Royal Castle, Luna had finally finished reciting the verses and the Neck Biting ceremony was coming to its end.

Lith was supposed to bite the necks of his brides and drink their blood while they did the same thing as well.

But, there was a problem. Lith looked at his mother sitting beside him and asked, "Mom, there won't be problems if I bite Emilia's neck?"

Lilith shook her head. "The taste of her blood won't feel good to you, but apart from that, there shouldn't be any problems."

Lith nodded his head. "If you say so."

Lith got up and walked towards Emilia.

The ladies were sitting on a chair in a straight line and the priestess Luna, she was sitting on a chair in front of them while holding a black book in her hands.

Emilia was at the extreme end and after reaching in front of her, Lith bent down and kissed her soft lips.

He then bit onto her neck and just as his fangs pierced her skin, he felt a bitter taste assault his tongue. The bitter taste then followed with a slightly sour taste and then he felt a salty taste. A few more seconds of drinking her blood, Lith felt a slightly sweet taste and finally, the sweet taste was gone and it was back to bitter.

Lith let go of her neck and licked her wound clean. He looked at his mother and said, "I didn't expect this taste."

Lilith chuckled. "That's how it is."

Emilia was now supposed to drink Lith's blood. It was her first time doing such a bizarre thing but she had herself composed. Lith was now her husband, no matter what, she was ready to do any bizarre thing he wanted.

Emilia bit onto Lith's neck and drank a bit of his blood. She couldn't drink much as the feeling of drinking someone's blood didn't feel good to her. She was almost going to puke as she had the blood in her mouth but forced herself to gulp it down.

Lith's blood had a bitter rosey flavour to it and Emilia didn't like it much.

After she finished, Lith patted her head and said with a smile, "I've got such a good wife."

Emilia could only smile with a little awkwardness. She was an angel, angels weren't supposed to drink blood like this.

After Emilia was done with the ceremony, Lith went to Arya, who was beside her.

Lith bit onto her neck and a wild and gamey flavor assaulted his tongue. It felt the same as having rabbit meat to him. Lith had the opportunity to have rabbit meat in his previous life and drinking Arya's blood made him recall its taste.

After Lith was done, it was Arya's turn. She bit him and as she drank his blood, she felt a mild rosey flavour on her tongue. It wasn't the best taste she felt and Lith's cum tasted better than this.

After Arya was Alexandra. As Lith bit onto her neck and had her blood gush into his mouth, he felt a sweet jasmine flavor assault him.

Then for Alexandra, she felt a sweet rosey flavor on her tongue.

When Lith bit onto Lucy, he felt a wild rosey flavor on his tongue and as for Lucy, she felt a sweet and wild rosey flavor from Lith's blood as well.

As for Lilith, her blood had a mild and sweet rosey taste to it and Lilith felt the same as Lucy when she drank Lith's blood.

With this, the neck biting ceremony was finally over and they could now move onto the nuptial chamber ceremony.

"Your Highness, let's begin with the nuptial chamber ceremony." Luna said to Lith. Her robes were now proper and nothing was getting flashed except for her leg and cleavage. She was back to being the priestess.

Lith nodded his head. "What am I supposed to do right now?"

Luna closed the book in her hand and said while looking at Lith, "you must take your brides to the washroom and have them pee first. After that is done, Your Highness, you are supposed to clean them and send them on the bed where the next step would begin."

Just as Luna said that, Emilia's face flushed. This time she was really very embarrassed. Just what was up with these vampire traditions!?

As for the others, they weren't really bothered by it and took this information from Luna calmly.

Lith smiled as he heard that. He was now sure that the vampire ceremonies were definitely made by some bored pervert. He didn't know who he was, but that guy was definitely someone who should get massive respect for this!

To begin the ceremony, Lith started with his mother, Lilith, first. The brides were supposed to lie half naked on the bed after he had cleaned them and so, Lith didn't begin with Emilia. He knew she would be very embarrassed to lie there just like that.

Lith took Lilith to the washroom and as they reached there, he held her hand and said with a smirk, "All this while, it was you who saw me pee, mom. Now it's my turn."

Lilith chuckled. "Mama never stopped you from watching her pee."

Lith shook his head. "The problem is, you never went to pee."

Lilith chuckled again. "Don't worry, you can see mama now. But, before that..."

Lilith turned to look straight in the eyes. She held his face with both her hands and bringing her face close to his, she said in a soft voice, "Call me mama. Say 'Mama I want to see you pee' and I'll do it."

Lilith was about to get married and she wanted to hear that from Lith. She knew that he could still call her mama after marriage as well, but she wanted to hear it before she got married. It was just a personal wish of hers.

Lith didn't understand why his mother had such a request at this time, but he didn't mind it. To him, it didn't matter anymore whether he called her mom or mama.

Lith looked his mother in the eyes and rubbing his fingers over her lower lips, he said in a soft voice as well, "Mama, I want to see you pee."

Lilith smiled hearing it. She kissed Lith's lips and said, "then what are you waiting for? Take mama's panties off and watch her pee."

Lith nodded his head and lifted Lilith's gown. He made her hold her gown and slowly took her laced panties off.

Lilith's beautiful bare pussy was visible to Lith as he took her panties off and as his face was close to it, he couldn't help but give it a lick and kiss her lower lips.

He then parted her labias to have a better look at her pink insides and saw her vaginal hole contract and relax while a little bit of her love juice dripped down from it. It seems his mother was slightly aroused.

Lilith didn't stop Lith from doing anything he wanted. She simply held her gown and let him do as he pleased.

Lith put his mouth over Lilith's pussy and inserted his tongue inside her vagina. He then sucked all of her cum present and after ensuring there was no more left, he got up.

He walked behind Lilith and as he reached there, he picked her up by holding her legs. He then walked towards the toilet and standing in front of it, he smirked and said to Lilith,

"You'll pee in such a position, mom. Are you embarrassed?"

Lilith was holding the gown from falling. She simply let herself be handled by Lith as he pleased. As she heard Lith's comment, she chuckled and said,

"Fufufu, why would I be embarrassed?"

Lith raised an eyebrow in surprise. No matter how much he tried, it was indeed very difficult to make his mother feel embarrassed.

Lith didn't talk anymore and just stayed still while holding Lilith. He waited for her to pee.

A few seconds later, Lilith started peeing and to Lith's surprise, her pee looked as if it was water.

"I thought it would be yellowish." Lith couldn't help but say.

Lilith chuckled. "Immortals don't need to pee or do anything else. We don't get our pee stored in our bladder and so, just for the sake of this ceremony, I am removing a bit of water from my body. Since it's coming out of my urethra, you can call it pee, but it's basically just water."

"Oh, I see." Lith nodded. So it means that when he became an immortal as well, if he had to pee, he'll basically just pee water.

That's nice. It would be a very good thing actually. What if he is lost in a place where water is scarce and there are no immortals present except him around the ladies? He can simply let them have his...Ahem. Let's save this talk for the future.

Lilith was done peeing and after she was finished, Lith put her down and turning her face to look at him, he started a passionate kiss with her while his hands did the job of cleaning her.

Lith imbued a cleaning spell on his palm and rubbed Lilith's thighs and her pussy. He also made sure to rub his finger along her slits and in a few seconds, fully cleaned her as it was expected by the ceremony.

After he was done, he broke the kiss and brought her out of the washroom while holding her hand.

Lith and Lilith walked out and Lilith was wearing no panties. Though that was the case, it was hidden by her gown and nobody knew about it.

Lith made Lilith lie down on the bed and he took Lucy to the washroom to wash her.

## Chapter 368 Cleaning Ceremony (2)\*

Getting Lucy inside the washroom, Lith asked with a smirk after standing in front of the toilet, "So big sis, how do you want to go about this?"

Lucy blushed slightly. But she composed herself and said after clearing her throat, "just do it as you did to mom."

Lucy's reasoning was, Lith must've done it nicely and with a lot of care if it was their mother, and so there shouldn't be any problems if he did the same to her.

Little did she know...

"Kyaah!" Lucy let out a surprise shout as Lith picked her up by holding her legs.

He then used magic and ripped her panties off, making her pale bare pussy visible to him.

Lith chuckled and said, "this was how mom peed. You're gonna do the same then, right, big sis?"

Lucy was too embarrassed to speak. What did she get herself into!? Had she known that this was what happened with her mother, she wouldn't have asked Lith to do this!

"Ugh.." Lucy groaned in embarrassment but there was nothing she could do now. She tried to relax herself and pee and get out of here.

Lith nibbled on her earlobes to make her feel comfortable and relaxed.

It took Lucy a few minutes to calm down and finally pee.

As Lith was holding her, he made sure that Lucy peed straight into the toilet and that it didn't splash anywhere else. He was a guy, all guys did such childish things from time to time.

After Lucy was done, he put her down and just like Lilith, he kissed her and wiped her clean.

Lith then took Lucy out of the washroom and made her lie next to Lilith.

He then took Alexandra inside and as they reached the toilet, Lith decided to change things.

He looked at Alexandra and smiling, he asked, "how do you want to go about this, honey?"

Alexandra smiled and said, "I don't have any particular choice. I'll let darling handle everything."

"Alright." Lith nodded. He lifted Alexandra's gown and made her hold it. Just like before, he removed her panties and saw her bare pussy.

Looking at that, Lith thought to himself, 'hmm... I should tell my ladies to let their hair grow naturally. I wonder how it would look then.'

After having her panties removed, Lith noticed that there was cum dripping down from her pussy.

He smiled and shook his head. Alexandra was Alexandra. Just a simple touch from him was enough to arouse her like this.

Lith extended his tongue out and inserted it inside Alexandra's pussy. He licked it clean and after he was done, he got up and went behind her.

Lith lifted her just like his other two ladies, but this time, he put his two fingers inside her vagina and watched her pee.

From what Lith had been taught, ladies had three holes. A pee hole, a fuck hole, and a butt hole.

Lith had his fingers inside her fuck hole, that is, her vagina, and was watching her pee.

Alexandra didn't really shy away and she peed while Lith fingered her pussy.

After she was done, Lith cleaned her in this very position and being fully done, he brought her outside and made her lie down next to Lucy.

Lith then took Arya inside and before he could say or do anything to her, he was pushed to sit on the toilet by Arya and Arya sat on his lap facing him.

She didn't say anything and simply held his face and started a passionate kiss with him.

Lith had no idea why his wife was so aggressive but he didn't mind it and kissed her back.

A few minutes of kissing later, Arya broke the kiss and licked the saliva off Lith's face. She then pulled back and said to him with a smile,

"I've been craving your kiss for a long time. It's been so long since we kissed in the ceremony. I really needed it now."

'Oh, so she just wanted to kiss. Had I known before, I would've given her lots of it.' Lith had no idea Arya was aggressive for that reason.

It's been a month since the ceremonies started and Arya had barely gotten a good passionate kiss from Lith. It was due to this that she craved it so much.

"So are we done?" Lith asked with a smile.

Arya nodded.

Lith, instead of getting up, made Arya get on her knees on his lap and took her panties off after lifting her gown. He then said to her with a smile,

"Let me see you pee."

Arya chuckled. "In this position? You sure? The pee will splash onto you."

Lith smiled and said, "don't worry about it. Just let it out."

Arya nodded her head. "If you say so."

It didn't take her long to pee and soon, a stream of clear water came out of her pussy. But instead of hitting Lith, it went straight down into the toilet as if there was some barrier preventing it from touching Lith.

After she was done, Lith rubbed his fingers on her pussy and after cleaning it, licked it as well to give it a final clean sweep.

Arya was then brought out and made to lie next to Lilith.

Lith then took Emilia inside and as they reached in front of the toilet, Lith could tell that Emilia was embarrassed to do this.

He held her hand and locked his fingers with hers. He then brought her close and hugging her, he said while looking her in the eyes, "if you don't want to do it, you can choose to not do it. I'll not force you."

Emilia was the only one among his harem members currently that needed patience and gentleness. She was a pure being and Lith couldn't just shamelessly do as he pleased with her.

Sure, Emilia would agree to do anything as per her husband's wishes, but Lith had to take care of her comfort and not make her feel uncomfortable.

Thus, Lith asked this beforehand like the good husband he was.

Emilia felt shy but she was a mature lady and knew how to handle situations well. She pulled back from the hug and holding Lith's hand, she said softly, "it's okay. I'll do it."

Lith smiled. He patted Emilia's head and said, "my wife is so understanding and nice."

Emilia hummed in agreement and hugged Lith. Even though Lith was much younger than her, she really liked to get praises from her husband.

A few seconds later, Lith pulled back and sat on the toilet seat. He then made Emilia sit on his lap with her back facing him and after she was settled, he took her panties off.

Emilia did feel embarrassed, but she didn't resist Lith's advances and let him do as he pleased.

After her panties were taken off, Lith made Emilia hold her gown and rubbed his fingers on her pussy.

"You can pee now, wifey." Lith said with a smile and kissed her neck.

Emilia was slightly tense and couldn't pee. This was her first time doing something like this and there was also Lith's finger on her pussy. She didn't want to pee on it.

Lith let her have her sweet time and didn't disturb her. Until she peed, he put his fingers inside her vagina and slowly started fingering her.

Emilia, after a few minutes, finally peed and to her surprise, her pee didn't hit Lith's hand which was still fingering her.

After she was done, Lith brought his fingers out and licked it clean. He then cleaned Emilia and after being done with her, he brought her out and made her lie next to Arya on the bed.

Now that they all were clean, Lith looked at Luna and asked, "so we can begin the nuptial chamber ceremony now, right?"

Luna shook her head. "Your Highness, they are clean, but you aren't yet. You'll have to be cleaned as well."

Lith nodded. "Alright, I'll go clean myself up now."

Luna shook her head again. "You can't do it on your own, Your Highness. It's the job of the priestess to clean the groom."

"Oh, I see. Let's go then." Lith walked towards the washroom and Luna followed.

As they left, Alexandra wasn't very happy with this.

Lucy who was beside her could notice this and chuckling, she said, "don't worry, nobody is going to take Lith away from you. He'll come back soon and give you lots of attention."

Alexandra slightly calmed down after hearing that.

Lucy chuckled, noticing this. Alexandra was a sadist of the highest level possible and was very strong in her own ranks. But, when she's together with Lith, she would have her personality flip completely and would become a submissive kitten in front of him.

The other ladies didn't have much thoughts on this apart from Alexandra as they were already kind of used to Luna's presence.

Inside the washroom, Luna and Lith were standing in front of the toilet.

Lith looked at Luna and asked, "so, what am I supposed to do now?"

Luna replied calmly, "Your Highness, you need to pee and then I'll clean it up."

Lith nodded his head.

Luna got close to Lith and took his pants off. As his semi erect shaft was in front of her, she didn't grab it, but instead, turned to face Lith and asked,

"Your Highness, where would you like to pee?"

"Hmm?" Lith was confused. What sort of question was that?

Noticing Lith's confusion, Luna got up and went towards the toilet. She lifted her robes up, revealing her hairy pussy, and sat down on the toilet seat and made her legs be in an M shape. This caused her pink puckered butthole to be visible as well and she said,

"Your Highness, you can pee inside anywhere you want. All my holes belong to you. As per the tradition, the groom can use the priestess to pee and after he's done, the priestess is supposed to clean him up."

'It was indeed made by a bored pervert, it seems.' Lith thought to himself and sighed.

He didn't argue with Luna about this and walking in front of her, he held her hand and made her get up.

Lith then turned Luna and having her shaft squished by her butt, Lith lifted her robes and made her hold it. After doing that, he rubbed his shaft on her pussy lips and made her thighs get closer.

Lith then squeezed both of Luna's breasts and said while rubbing his shaft on her pussy, "it seems my priestess is very lewd. But you see, I have taken a pledge to not put my cock anywhere until I take my reward. So, we'll do this ceremony again next time, okay?"

Luna flashed a small smile and said, "We'll do as His Highness wishes."

"Good. I'll make do with this till then." After saying that, Lith peed inside the toilet while having Luna in such a position in front of him.

After he was done, Luna got down and licked Lith's shaft clean.

Once they were done, they got out and Lith saw a very nice scene.

All his ladies were lying on the bed without their panties and in just their bridal gowns, waiting to be devoured by him.

He took his clothes off and handed them to Luna.

Luna sat quietly on a chair near the dining table of the bedroom and waited for any further instructions that may be given to her.

Lith walked in front of the ladies and asked with a smile, "ready?"

Chapter 369 Nuptial Chamber Ceremony\*\*

"Ready?"

The ladies nodded their heads in unison.

Lith chuckled and ripped his clothes off, revealing his Greek god-like body. The ladies couldn't help but be amazed again as they looked at the 195 cm tall Lith that had a perfect body and well defined abdominal muscles.

Lith gave them a good show of his body for a few seconds and then went towards Emilia.

Getting on top of her, he smiled and asked, "you ready, wifey?"

Emilia nodded again.

Lith smiled and put her legs up on his shoulder. He then pushed her gown behind and had a look at her beautiful pussy. He then bent down and rubbed his shaft on it and in a few seconds, his shaft was erect.

Lith was then about to insert it inside Emilia's pussy but he stopped. He suddenly felt this position wasn't right.

Emilia was under him and it appeared as if she was the submissive one. That wasn't the case. Both were equals in this relationship.

Lith held both of Emilia's hands and looking at her, he smiled.

Emilia blushed as she watched him and turned her face to the side.

But right at this moment, Lith suddenly pulled her up and caused her to let out a surprised shout.

Emilia glared at Lith for doing this. How can he do such a thing at this moment?

Lith simply smiled and said, "It's your first time, right? I don't want to do it in that position. It makes you appear submissive, when in reality, you're my equal."

Hearing this, Emilia stopped glaring at Lith. It took a few seconds for her to process everything and she realized what he had just said, her heart melted and she felt warm.

"I-I see." Emilia said with a slight blush on her face.

Lith chuckled and prepared himself to put it inside Emilia now. But then he noticed, Emilia's bridal dress was too big and he couldn't see anything below him.

Lith turned to look at Luna and said, "Luna, come here, help me take this dress off."

Luna got up from her chair and walked towards Lith.

Lith and Luna removed Emilia's gown and she was now fully naked. She couldn't bear to let others watch her like that and so she hugged Lith and tried to cover herself up.

Lith noticed that she wasn't wearing any bra. He looked at her and asked, "no bra?"

Luna, who was standing beside Lith, answered in Emilia's stead, "No one is supposed to wear a bra, Your Highness, not just Lady Emilia."

"What? No one?" Lith asked, a bit surprised.

Luna nodded. "Not even the guests attending the wedding."

"What!?" Lith was shocked. What kind of a dress theme was this? What the fuck!?

Luna flashed a small smile and said, "Your Highness, this is nothing. This wedding was still very tame. If you ever plan to see the unrestrained and 'normal' vampire weddings, I can take you there."

Lith sighed hearing that. Vampires sure were a crazy bunch.

"We'll see about that later. Anyway, help the ladies take off their dresses, I should've take it off in the washroom itself, but I forgot." Lith said and focused back on Emilia.

Luna nodded and left to do her work.

Lith then held Emilia's face and looking her in the eyes, he said some loving words to her and then kissed her.

Emilia put her hands on his shoulder and kissed him back. To her, it was as if there were only these two people present in the room.

Lith then moved his hands to Emilia's plump ass and placing his hand on one peach each, Lith slightly lifted her up.

Lith then broke off the kiss and looking Emilia in the eyes, he said softly, "from now on, you'll forever be mine and I'll forever be yours."

Emilia nodded her head. She then positioned herself right above Lith's shaft and got ready to be one with him. Today would be the day she would finally and officially be Lith's wife and have him as her husband!

Emilia looked Lith in the eyes and said softly, "I love you, Lith."

Lith gave her a peck on her lips and said, "I love you too, Emilia."

Emilia then slowly lowered her body and soon, Lith's shaft broke her hymen and penetrated her deep inside.

Blood trickled down and Emilia felt a sting down there. It sure pained a bit but it wasn't unbearable to her.

Lith soon felt a connection to have established between him and Emilia and a blood bond to have formed. He closed his eyes and tried to feel Emilia's thoughts.

'I am finally one with my husband...' Lith heard Emilia's thoughts.

'My wife is so cute.' Emilia heard Lith's thoughts as well.

They both looked into each other's eyes and one chuckled noticing this and the other felt slightly embarrassed.

Lith then started moving inside Emilia and Emilia's soft walls wrapped around Lith's shaft and massaged it.

While moving, Lith felt slight friction. To lube Emilia up properly, he started playing with her clit and her nipples. Her nipples were her sensitive spot and it caused her to be aroused almost at all times.

Lith changed positions and put Emilia down on the bed. He took her virginity when they were equals, now it didn't matter if they were in this position or not. He moved his hips faster and bent down to bite her nipples.

"Mhm~" Emilia couldn't help but let out a muffled moan as Lith bit her nipple.

Lith was gentle with Emilia and not very rough. This was sensual sex and not rough sex and he was only doing it because he didn't want to hurt her or give her a bad experience as her first time.

While he did that, he realized that his other ladies are waiting for him and that they must've dried up slightly and he would need to use lube.

Lith didn't want to use lube, but he had to solve this problem. He had an idea for it as well. He turned to look at Luna and called her to him.

"Yes, Your Highness?" Luna stood beside Lith and asked.

"Luna, make sure the ladies are wet and ready to be pounded." Lith instructed her.

Luna nodded. "Should I use lube?"

Lith shook his head. "Use your mouth and hands."

Luna nodded her head. "Anything else, Your Highness?"

Lith shook his head and made her do her work.

Luna left Lith's side and walked to the other side of the bed. She got on top of it and there was Alexandra lying in front of her.

Luna put her one finger inside Alexandra's pussy and checked if she was wet or not.

Alexandra was already very wet.

Luna skipped her and then put her finger inside Lucy.

Lucy wasn't as wet as Alexandra. This meant that she needed to be lubed up.

Luna bent down and looking at Lucy while having her face close to her pussy, she said, "Your Majesty, please forgive me for this, but it's the order of His Highness."

Lucy smiled and said, "don't worry about it. Do your job well."

Luna nodded and licked Lucy's pussy. She put her tongue inside her and made Lucy wet and ready to be pounded.

Luna then went to Lilith's side and said the same thing she said to Lucy. Lilith didn't mind as well and asked Luna to do her job.

Luna inserted her finger inside Lilith and felt her to be wet enough.

She skipped her and went towards Arya.

Luna inserted her finger inside Arya and found her to be a bit dry in there. She bent down and started finger fucking Arya while licking her pussy.

While getting eaten out by Luna, Arya turned to look at Lilith and said with a smirk, "mother-in-law, isn't this your personal maid?"

Lilith nodded her head.

"You seem to have trained her well." Arya said with the same smirk on her face.

Lilith chuckled. "Of course."

Arya chuckled as well and got back to looking at Luna eating her out.

Lith didn't listen to what they were saying. He was busy pounding Emilia. It had been a few minutes since he did that and Emilia felt so good about it, she was close to climaxing.

Emilia knew how it felt to take it in the butt and now having taken in her pussy as well, she liked this one more. This feeling was so good, she was going to climax at any moment now.

"Ahh~ Ahh~" Emilia moaned a bit loudly.

A few seconds later, she extended her hands forward and said, "Ah~ husband... My husband... kiss..."

Lith obliged with it and bent down to kiss her. As he did so, Emilia immediately ended up climaxing.

She held Lith tightly and her body shivered as she orgasmed. Her toes curled up, but since Lith was above her, she didn't shake much.

Emilia broke the kiss a few seconds later and was breathing heavily.

Lith noticed that Emilia ended up climaxing already. He could tell that she was still recovering and definitely won't be available to go for another round anytime soon. He slowly took his shaft out of her and as he did so,

"...slowly..." Emilia said softly. It stung her as she was very sensitive right now and any movement from Lith made her feel like this.

Lith nodded and slowly got his shaft out.

After it was out, he saw Luna to be still there and eating out Arya. He made his way close to Arya and grabbed Luna's butt and squeezed her.

"Clean it, Luna." Lith instructed her.

Luna stopped eating out Arya and turned to lick Lith's shaft. While licking, she looked at Lith.

Lith smiled and patted her head. "You can take it in your mouth now."

Luna nodded her head and took Lith's shaft in her mouth. She wrapped her tongue around his cock and coated it with her saliva.

Luna tasted Emilia's cum on Lith's cock and didn't really feel much about it. Rather, she was happy knowing that Lith trusted and liked her enough to have her take his cock in her mouth.

Luna finished cleaning Lith's cock and after she was done, Lith said, "good job. Wait here a bit, you can have your reward."

Luna nodded and quietly stood near Lith.

Lith went towards Arya and bending down, he kissed her on the lips and asked, "ready?"

Arya put her hands over Lith's shoulder and brought him down to kiss him again. She broke it off a few seconds later and said,

"I am. But don't be as gentle as you were with Emmy."

Arya brought her face close to Lith's and looking in him in the eyes, she said seductively,

"Be rough and fuck me as hard as you can."

Chapter 370 Lith takes his reward\*\*

Lith smirked and said, "sure."

He kissed Arya immediately after saying so and started a tongue battle with her. While that happened, he moved his hand down towards her pussy and rubbing his palm over it for a bit, he slapped her pussy lightly.

"Umff..." Arya's body jerked due to the sudden surprise she got.

Lith didn't let her go and held her down. He once again did the same motion as before and slapped Arya's pussy.

Lith then broke the kiss and getting up, he turned Arya on her stomach. He held her hips and raised her butt and brought it close to his shaft.

He then turned to look at his mother and said, "mom, get below Arya."

Lilith happily did as she was asked and got below Arya.

After being in the proper position, Lith directly inserted his shaft deep into Arya's cunt in one single thrust, causing her to let out a moan. He then started moving his hips and his cock slid in and out of Arya's wet and warm vagina.

Pah!

"Oh!" Arya let out a surprised shout as Lith spanked her ass.

"Is this rough enough?" Lith asked while spreading Arya's pussy.

"Ahh... yes... but... harder..." Arya said in between her moans as she got pounded.

Lith increased his pace and spanked Arya's cheeks a few more times. While doing so, he looked down at his mother and said,

"Mom, don't be idle. Play with Arya."

Lilith nodded her head and took one of Arya's nipples into her mouth and sucked on it. She pinched the other nipple and with her free hand, she moved it to her clit and rubbed it aggressively.

"Ahhh!~ Fucckkk... so intense... Ahhh..."

Arya's body shivered as she said that and she felt her legs become weak.

Lith held her waist and supported her, not letting her fall off.

The view in front of Lith was amazing. He could see Arya's ass cheeks jiggling right in front of him as he slapped his thighs with her butt. Not to mention that, he could also see her pussy being spread and then there was his mother present below her as well.

While pounding Arya, his gaze fell on his other ladies. He could see that they were just lying idly and watching him with curious gazes.

Emilia, Lucy, and Alexandra were surprised to see Lith do such things with Arya. They had never experienced getting their butt spanked like that and wondered whether it felt good or just pained.

While they were in their thoughts, they heard Lith say,

"Big sis, get on top of Alexandra and play with her. I'll attend to you in a few minutes."

Lucy was surprised to see her little brother take the lead like this and instruct them. But then she realized that he was almost their husband now and had the right to do so.

She nodded her head and got on top of Alexandra.

Alexandra slightly resisted Lucy's advances as she only wanted to be touched by Lith. But then she gave up as she realized that Lucy was her family now and all she was doing was keeping her company till Lith attended to her.

Lucy kissed one of Alexandra's nipples and squeezed the other boob. She then moved one of her hands down towards her pussy and lodged her two fingers inside her dripping cunt and fingered her.

While these two got busy with their work, Lith looked at Emilia and said while pounding Arya's pussy, "you feeling okay now, wifey?"

Emilia nodded her shyly.

Lith smiled and extended his hand. "Come here."

Emilia got up and went towards Lith.

Lith held her waist and brought her close to him. He then kissed her and while doing so, squeezed her big plump butt.

A few minutes later, Lith broke the kiss and turning to look at Luna, he said, "Luna, get down on Emilia."

Luna nodded her head. She made her way towards Emilia.

After she reached there, Lith patted Emilia's butt and said, "stick it out, honey."

Emilia felt shy but still did as Lith asked her to and stuck out her butt. Luna parted her legs slightly after she did that and now finally having a better access to her, she moved her mouth close to it.

Luna skillfully inserted her tongue inside Emilia's honeypot and started licking her. It didn't take her long to find her sweet spot and started hitting it constantly.

"Mhm~" Emilia let out a muffled moan as she kissed Lith once again.

A while later, Lith let go of Emilia and focused his attention fully on Arya.

He grabbed her hair and pulled her back and rammed his dick harder and faster into her pussy.

"Ahhh~ Ahhh~ Li... Lith... slow... Ahhh~" Arya wanted Lith to slow down. This felt too good and too rough to her!

"It's husband now, my dear wife." Lith chuckled as he pounded her.

"Ahhh... yes... husband... slow... little slow..." Arya said in between her moans.

"But didn't you want it rough?" Lith asked.

"Yess... but... ahhh... slow... I am close..." Arya was about to cum and so she asked him to slow down a bit.

Lith smiled. He knew exactly what his wife was going through and so, instead of slowing down, Lith went even faster.

Lilith below Arya pinched and pulled her nipples. She also aggressively rubbed her hand on Arya's clit and simulated her further.

A few seconds later...

"Ahhh~ Stop! Ahhh~ I am cumming! Cum..."

Spurrrrt!

Arya's body jerked intensely and she pushed Lith away to stop him.

Lilith below her held Arya down and Arya had a big orgasm. Her cum squirted and splashed onto Lith's lower body and also into Lilith.

She felt weak and slumped on Lilith present below her.

Hugging Arya and having her in her embrace, Lilith smiled. She could tell that Arya enjoyed it a lot.

Lith had his orgasm climaxed along with Arya's and had cummed inside her.

He took his shaft out and his cum leaked out of her pussy and fell on Lilith's thighs.

Lith pulled back and looked at the erotic scene in front of him. He was proud of the mess he created and nodded his head in satisfaction.

'My wife definitely enjoyed it.' Lith thought to himself and nodded.

Emilia was still beside him and holding him. He turned his body to face her and held her ass with both of his hands.

Lith parted Emilia's ass and made his shaft get close to her pussy.

Luna was still licking Emilia's pussy and Lith made his shaft get close to her mouth.

He rubbed it on Emilia's lower lips while kissing Emilia.

Luna understood what she was supposed to do and she took Lith's cock once again in her mouth.

Lith was getting his cock cleaned by Luna while kissing Emilia and squeezing her butt. He squeezed it with a bit of force and his red handprints were visible on her butt.

A few seconds later, Lith let go of her and took his cock out of Luna's mouth.

Lith then pointed at Arya's pussy and said to Luna, "there, Luna, more cleanup is needed."

Luna nodded her head and went to suck all of Lith's cum out of Arya's pussy.

She moved towards Arya and bent down, sticking her butt out, and licked Lith's semen.

Lith lightly spanked Luna's butt and chuckled. "What a nice priestess, I'll definitely need to reward her generously."

Luna kept licking Arya's pussy and couldn't reply to Lith for it.

Lilith moved Arya a bit to the side and looking at Luna, she said, "Luna, give it to me as well."

Luna sucked all of Lith's semen from Arya's pussy and it was drenched in Arya's cum as well. She didn't mind it at all though.

Luna moved towards Lilith after cleaning up Arya and waited to see how Lilith wanted it from her mouth.

Lilith didn't make her wait long. She held her face and kissed her, taking all of the cum in her mouth.

Luna was surprised by this and her eyes opened wide. She didn't expect to get kissed by the Queen!

Not only Luna, Emilia was surprised as well as she watched this. She didn't know that her mother-in-law had this side to her as well...

As for Arya, she had her eyes closed and was resting, not looking at what was going on in her surroundings.

Alexandra and Lucy were busy with each other and also didn't look at this scene.

Then there was Lith who felt nothing by watching this. He knew his mother was wilder than he thought and simply kissing Luna might be nothing.

Lith then went towards Alexandra and Lucy and prepared to do them.

He made Lucy lay on Alexandra and have their pussies touch each other.

Lith rubbed his dick in between their pussies and said with a smile,

"Ready?"

Both nodded their heads in unison.

"Here I go then..."
