

## Versatile 151

### Chapter 151: Old Friends, New Acquaintances

“Today is the time for you all to demonstrate your own abilities. First, I’d like to introduce the seven main characters of today, they are the new Summoner students!”

Dean Xiao didn’t have much to say, and he didn’t let other teachers talk after him. He firmly went right into today’s event.

Maybe there were a couple of new students holding onto the attitude of laying low in the beginning, and thus not wanting to participate in the Beast Battle Competition this time. However, after they heard that speech, perhaps the majority of them were no longer able to hold onto that same thought.

They had won against all of their competitors during their High School Magic Exams, so why did they have to hold on their tails now?

The school won’t give those rare resources to you for no reason, especially when you’ve done nothing. In this institution, you had to compete, harshly compete!

The seven brothers of the Gourd Evas walked onto the tall stage under the shouts of the audience.

“Perhaps there are a lot of people who are dissatisfied with this. Why should these Summoner students become the focal point of the entire school the second they enter the school?”

“Don’t worry! If you defeat them, you’ll be the real main characters of today!” Dean Xiao declared loudly.

The entire arena began to erupt, especially the new students. They were all impatiently wanting to jump onto the stage and fight a war!

“Eh, how come it’s you?” In the designated seating area for the Earth Elemental students, a sweet and gentle looking girl was filled with astonishment as she looked towards the Summoner students on the stage.

“Xiaomian, is there anyone you know?” Li Junwei, who had sat down shamelessly sat next to her, raised his eyebrow.

“Uh...I guess you can’t say that I know him,” Qin Xiaomian shook her head.

She really didn’t. Back when the guy had come to her Master’s shop to Awaken, he probably forgot the appearance of the girl apprentice who was present.

However, what Qin Xiaomian was astonished about was that the youth who was recommended by a Judge from the Magic Courts was actually a student at Pearl Institute like her!

-Master, Master!- Qin Xiaomian hurriedly fished out her phone as she sent a text message to her master, Guo Liyu.

-What is it, my apprentice?- the Awakening Master Guo Liyu quickly replied.

-I found the young Intermediate Magician that came to us for Awakening an year ago, precisely the one that was recommended by the Magic Court...- Qin Xiaomian typed her reply very quickly.

-Where? Aren't you in school?-

-Yes, he is actually one of the new students in Pearl Institute. Furthermore, he seems to be studying the Summoning Element!-

-Holy crap, this kid only Awakened the Summoning element an year ago, and he relied on that exact Element to enter the Pearl Institute?!?!?!- Guo Liyu replied back excitedly.

-Yes, yes, this person is strong!-

-Then go and get to know him and enter a relationship. Most of the people from the Magic Courts have an unlimited potential for future prospects!-

-Master, what are you saying?!- Qin Xiaomin's small face turned red, her mouth began to quiver.

All of this was naturally seen by Li Junwei's eyes.

Li Junwei's gaze immediately locked onto the only person among the seven summoner students who he knew, and his face immediately froze.

\_Qin Xiaomian is my dish, whoever dares to fight with I, Li Junwei, about it, will die a painful death!\_

"It's him, hmph." In the same area of the Earth Element, a boy whose body was clearly a bit chubby immediately turned gloomy.

This person was Luo Song.

He would never forget Mo Fan's face.

However, Luo Song did not want to meddle with Mo Fan due to today's situation.

A person who was an Intermediate Mage like him when they entered the school was definitely a person who was hard to deal with. Luo Song understood that he needed to take it slow with Mo Fan!

Furthermore, Luo Song didn't plan on participating in the Beast Battle Competition.

If he was to use his true strength, then he could single-handedly annihilate all of the Summoned beasts!

On the other side of the arena, in the Lightning area, a guy with his hair standing up opened his eyes wide. He didn't have a bit of confidence as he looked at the person in the middle of the seven people on the stage!

"Xu Zhaoting, what's wrong??" a girl sitting next to him couldn't help but ask. "Xu Zhaoting?" the girl pushed Xu Zhaoting's arm.

Xu Zhaoting regained his senses, but the astonishment from before left a hint of dullness on his face.

"What's wrong?" the girl asked worriedly.

"N...nothing, I happened to see my old classmate," Xu Zhaoting replied slowly.

“Old classmate? Are you saying one of the seven new summoner students is your old classmate? If that’s the case, there shouldn’t be a need for you to look as if you lost your soul,” the girl told him smartly.

“You don’t know about him, that’s why you didn’t react like me,” Xu Zhaoting answered with a pained face.

“Then why don’t you tell me? Although the Summoning Element is special, and could be considered the strongest Element at the Primary level, it doesn’t mean that he will definitely be stronger than us in the future. Our Lightning Element has never been afraid of any other Elements!” the girl said with pride.

Xu Zhaoting shook his head. “In that case... when I knew him, he didn’t have the Summoning Element.”

“Didn’t have the Summoning Element? I don’t under...” The prideful girl suddenly realized something, the expression on her face became the same as Xu Zhaoting from before, filled with disbelief.

“You...you’re saying... His main Element isn’t the Summoning Element... He....He is an Intermediate Magician?!”

Xu Zhaoting nodded, his gaze once again landing on Mo Fan.

To be honest, Xu Zhaoting had refused to accept Mo Fan in the past. He had thought of himself as the elite of his entire generation. However, Xu Zhaoting no longer had that kind of mindset. Whether it was the performance Mo Fan had made during the Practicals, the display of Dual Elements at the Mu Family, or the calm-headed actions he made during the calamity, they were all things Xu Zhaoting wasn’t able to do.

And now, Mo Fan had entered the Pearl Institute as a Summoner student. Xu Zhaoting really wished that person wasn’t Mo Fan. He tried to disbelieve it many times, but after he confirmed it was indeed Mo Fan, Xu Zhaoting had no choice but to accept this incredible thing!

“Then... then what Element did he have before? I heard that the Intermediate Magic requires a very complex array of Stars in their Nebula. Even if someone broke through the Intermediate level, it doesn’t mean they will be able to use Intermediate Magic. He shouldn’t be able to use the Intermediate spells, right?” the girl urgently asked.

Xu Zhaoting shook his head without replying.

Xu Zhaoting didn’t want to reveal too many things regarding Mo Fan. Since Mo Fan decided to conceal his others Elements and only display his Summoning Element, he must have his own reasons. If he revealed it, then he would be disrespecting the person who once saved the people of Bo City!

The girl noticed that Xu Zhaoting didn’t want to talk about the things in the past, and whispered reassuringly, “Since you haven’t seen him for more than a year, then his Summoning Element must have been recent. His strength shouldn’t be all that...”

“Yeah, shouldn’t be too strong,” Xu Zhaoting agreed, but his voice was unconvinced.

Chapter 152: Scheming Battle

“Who wants to be first?” Dean Xiao looked at the seven summoner students with a slight smile.

“Me! Each one of these people wants to beat our Summoned beast for their own reputation. I will make each one of them crawl on the floor!” Hai Dafu spoke up, as he did not want to pass his responsibilities onto others.

“Then we’ll let you have the spot.”

Hai Dafu strode toward the mid-point of the arena. By the entrance of the cage was a line of people, it stretched quite a ways back. They all seemed very impatient.

Hai Dafu’s gaze swept past a couple of students standing in the very front, seeing them currently fighting about who was going to go first.

“Why don’t you dregs come up together so we don’t have to waste time? The teachers will count the amount of challengers and add them to our end of the year grades. Why should first and last matter when you are all just numbers?” Fu Dahai didn’t try to hide his arrogance, while at same time, he was completely looking down on the students from other Elements.

“What did you say, brat? Watch me annihilate your summoned beast with a single move!” the young man with a dyed blue hair shouted back, clearly displeased.

“If your Summoned beast can even touch the corner of the clothes of me, the Wind Grandmaster, I will acknowledge you as my older brother!”

“I don’t accept trash little brothers like you,” Hai Dafu shot back in disapproval.

Hai Dafu’s speech immediately infuriated the two guys who were fighting over the first place in line. Soon after, the four people at the very front jumped into the cage together with unstoppable anger.

“Only four? That’s not even enough to put in between my Summoned beast’s teeth!” Hai Dafu mocked them.

Taking a slow step forward, Hai Dafu closed his eyes.

A faintly discernible moonlight glow appeared in Hai Dafu’s surroundings. At first, it had the radiance of the stars in the sky, they looked as though they were moving according to his wishes. Under the control of Hai Dafu, they quickly assembled into a dimensional Star Path.

The Star Path split space and opened the tunnel to a different world. A dark, chaotic, and cold aura burst forth like water from the inside of the split space, flowing around Hai Dafu...

The dust beneath his feet floated into the air. From the dusky area, you could see a body of steel suddenly appearing from within the crack. Its shoulders, back, and four limbs had extremely sharp corners. Its entire body looked like an assembly of weapons that could cut anything!

\_Chi~~~~~!\_

As a sound was emitted, the dust dispersed. Everyone could finally clearly see the Summoned beast.

Its triangular head was covered in sharp spikes. Its thick and solid forelimbs that looked like two heavy battleaxes covered its solid keratin armor. The gigantic scorpion’s main body was covered in long, visible

spikes. Its hind legs wasn't as eye-catching as its battle-axe front legs, but in place of its toes, there were actually bone scythes! They would cut people who wanted to attack it from behind into two!

"White... White Armored Battle Scorpion!" The blue-haired boy's face immediately changed once it saw the Summoned beast.

The students in Pearl Institute had an extraordinary and vast amount of knowledge beyond their combat prowess. They could instantly recognize what kind of Summoned beast was scuttling towards them.

However, the knowledge they'd learned from books was only from books. Books and pictures were unable to reproduce the impact of when the creature was standing in front of you...

"It seems like there really were challengers who came without intel... My White Armor Soldier is disobedient most of the time, don't come to me and ask for medical fees when you've lost your arms and legs!" Hai Dafu smiled.

\_Chiii~~~!\_

The White Armored Battle Scorpion didn't waste any time. It looked at the four challengers in front of itself, and made its move!

Its battle axe-like legs had already been raised, they could feel wind whipping past them when it did. From this alone, they could determine that the White Armored Battle Scorpion's strength was dreadful!

"Hurry up and disperse!" the blue-haired student cried out as he immediately dodged to the side.

The Wind Element Magician quickly used Wind Trails, rapidly distancing himself from the White Armored Battle Scorpion.

The other two were also escaping. Unfortunately, they were a bit slower, and the White Armored Battle Scorpion's target was precisely them.

At this time, it was mainly about who was the slowest to escape. At last, the White Armored Battle Scorpion locked onto a delicate boy who wore his cap on backwards. Its legs churned the wind and turned into battle axes as it ferociously chopped toward the delicate boy!

All of the students and teachers couldn't help but take a deep breath. This Hai Dafu really wasn't being lenient. If the scorpion chopped into the boy's head, he definitely wouldn't be able to survive.

By the arena, the Light element teacher Gu Han's forehead slowly creased. You could see a golden starlight beneath his foot as the White Armored Battle Scorpion was chopping down with its battle axes.

Gu Han was the guard teacher today. In order for the Beast battle Competition to run successfully, he had to save the lives of the students when they were in a life-threatening situation.

However, right when he was about to finish the Intermediate Light Magic, he saw an azure starlight flashing around the body of the slender student. Gu Han quickly cancelled his own spell cast.

\_Kang!!\_

When the axe forelegs heavily chopped down, people cried out... and a brown rock shield formed in front of the boy suddenly.

The gigantic axe leg was deeply lodged onto the rock shield, it looked as though it was stuck in it.

Beneath the shield was the delicate boy who had looked so scared that he was about to piss himself a bit ago. However, his eyes were now flashing with a crafty light, and he no longer had the appearance of someone struck by fear!

“Dazzle, Blind!”

The boy smiled in anticipation. In his hand was a ball of light that he had condensed without anyone noticing.

“Your Summoned beast will definitely be burned at this distance. Encountering me, Xie Wenfeng, can be considered your misfortune!” The slender boy raised his hand, and the golden ball that was already in his hands burst forth in front of the White Armored Battle Scorpion. The fierce and blinding light was like swords of light as it burned the White Battle Armored Scorpion’s eyes.

The White Armored Battle Scorpion already had its eyes closed, but they were forced open under the scorching of the light!

“Brilliantly done!” The blue haired youngster and the other two began to get excited.

If Dazzle: Blind was used right, it could be a godly spell. It could instantly shut down the sight of the enemy!

Even if a Magical Beast was stronger, as long as it lost its eyesight, it would turn into a waste. Dealing with it afterwards would only be a matter of time.

“That scheming bastard!” Mo Fan raised his eyebrows in astonishment.

Truly worthy to be called a student of Pearl Institute. They were on a completely different level compared to the classmates who weren’t even able to complete their casting when facing a Magical Beast!

Furthermore, the Light Elemental boy’s usage of the spell was extremely clever. First, he lured the scorpion close, and then used Dazzle: Blind at point-blank range. The original Primary spell that was considered useless instantly turned into the crucial point of his team’s victory.

At this moment, Mo Fan couldn’t help but get a little excited. If any random student in Pearl Institute had this level of control and response, then fighting them would definitely be extremely exciting!

### [Versatile Mage](#)

#### **Chapter 153: The Sudden Battle Scorpion**

.  
. .  
.

“Hai Dafu was tricked, this is going to be a bit troublesome,” the Summoner student Zheng Bingxiao remarked.

The student with the very long face laughed, "Isn't that even better? Eliminating one would leave the remaining five of us to fight for the Beast Refinement Blood."

"Big brother, we still have six people. Did a Magic Teacher teach you math?" Zheng Bingxiao wondered aloud.

"Is there even a need to include him? He doesn't even dare to summon his Summoned beast!" Longface glanced at Mo Fan, who seemed to be an outcast.

A couple of days ago, their teacher, Jiang Yunming, had asked everyone to Summon their beasts for an evaluation. Mo Fan's Spirit Wolf was still sleeping, and so naturally it wasn't Summoned.

Additionally, Mo Fan wasn't in the same dormitory as the other six students, and so he became the one who didn't fit in with the group.

"Don't say that, no matter what, the seven of us belong to the same Element. Furthermore, Jiang Yunming also said if we don't accumulate wins against a hundred people, then he will give the Beast Refinement Blood to those from other Elements. That would mean a big loss for us," Zheng Bingxiao reminded him.

The number of wins, that was just a statement for the Summoner students.

Right now, they were essentially fighting all of the Elements in the school by themselves. Mr. Jiang Yunming had very high demands for them. It was not them being able to win against all of the Elemental students in the school, but they had to defeat at least a hundred challengers.

This would mean each of them would have to win against an average of fifteen or so students of other Elements.

The first one to go out, Hai Dafu seemed to be on the losing side. From how Zheng Bingxiao saw it, reaching a hundred wins would be a relatively difficult task.

"Don't worry about it. If you guys can't reach the quota, then I will single-handedly take care of it!" the long-faced student declared with a devious smile as his Dongbei accent came out.

"Wang Liting, you sure know how to bullshit."

Hai Dafu was standing in the middle of the arena with astonishment on his face.

Although he was astonished, he did not panic. Instead, he looked at the delicate man who was rubbing his nose as he said with ridicule, "It seems like all of your energy was spent on this little trick. Did you not know that an Insect type Beast's vision is already bad to begin with?"

Just when Hai Dafu finished speaking, the White Armored Battle Scorpion emitted an angry sound.

It ferociously pulled its front legs out of the Rock Shield. It did not need to use its blinded eyes to locate its objective. The White Armored Battle Scorpion ferociously swept in the small student's direction!

The student's face suddenly turned white. He hadn't expected that this White Armored Battle Scorpion would still be able to accurately judge his location despite losing its vision.

*PU~~~~*

The student's chest was struck by the White Armored Battle Scorpion as he was sent flying, blood spurting out like a fountain.

He flew a bit more than ten meters away, his entire being was completely knocked out. His face turned as white as paper.

Soon enough, the Light Element teacher, Gu Han entered the arena and quickly removed the unconscious student to get treated. His student had instantly fallen unconscious, the blood in his mouth continuously bubbling forth.

"Ms. Ruan Ya, please take care of him." Gu Han put his student down as he indifferently spoke to the woman next to him wearing a white uniform.

"You should've gone and protected him, this wound is not light..." Ruan Ya helplessly shook her head.

"I don't want to waste my magic energy unless it's a life threatening situation."

As Hai Dafu watched the wounded student being dragged off the arena, he laughed even more splendidly than before.

"Have a taste of my Lightning Strike!" the blue-haired student yelled out, his face filled with rage.

He didn't stand too far away as he lifted his arm. The lightning that curled like a snake began to float above his head.

Under his command, all of the Lightning imprints frantically whipped toward the White Armored Battle Scorpion, the dazzling purple radiance shining brightly.

"You fool, your Lightning is nothing!" Hai Dafu cursed at him.

The lightning scars lashed the carapace of the White Armored Battle Scorpion. The Lightning arc was continuously transmitting through the skin, and then directly passed into the bone marrow. This caused great damage as well as paralysis to the vast majority of the creatures.

However, this time, the Lightning whip was hitting the white carapace of the White Armored Battle Scorpion. Scorches appeared on its armor, but its effect was unable to reach the muscles of the White Armored Battle Scorpion.

The White Armored Battle Scorpion didn't even slow down. It took a step with its back legs while the Lightning prints were still electrocuting its body as it rammed into the blue-haired caster.

"F\*\*k off!" Hai Dufu shouted.

The Scorpion's triangular hammer of a head collided with the blue-haired man, and he was directly sent flying.

No one knew when Mr. Gu Han appeared in front of the blue-haired student, and he quietly dragged Lightning student away to the the healing instructor.

"There's only you two left!" Hai Dafu coldly swept his gaze past the other two guys.

The two guys clenched their teeth as they cowered. Unfortunately, their spells were clearly of no use against the Battle Scorpion with its armor.

The Wind Element student could perhaps rely on its agile body movement to evade the relatively slow White Armored Battle Scorpion. However, Hai Dafu was in no rush to command its Summoned beast to attack. He quietly waited until the other party's magic energy depleted.

At last, the Wind student surrendered.

.....

After he easily defeated four people, Hai Dafu's dominating performance immediately caused the challengers in the line to hesitate.

However, the Pearl Institute was not lacking in those who dared to fight, and so another five students quickly leapt up on the stage.

The five students had learned from the earlier match. Their group arrangement this time was clearly much better than last. Water Element was responsible for protection, the Wind continuously distracted it, and Fire constantly scorched it...

This battle lasted for a bit of time. However, they were unable to stand up against the ferocious White Armored Battle Scorpion in the end.

When the third challenger team came, Hai Dafu's White Armored Battle Scorpion's combat prowess had distinctly weakened. It no longer had that dominance it had in the beginning.

Hai Dafu clenched his teeth as he wiped the floor with the group of six people.

When it reached the fourth round, the White Armored Battle Scorpion was finally no longer able to withstand the waves of attack as it was defeated by a Fire element girl and sent back to the Dimensional space.

Hai Dafu was unable to accept it. In his previous school, he was able to defeat forty or fifty people without a problem. Who would've thought that he could only get rid of fifteen people at Pearl Institute!

With that score, he might not be able to obtain the Beast Refinement Blood...

"Your turn!" long faced Wang Liting glanced at the relatively short and skinny man.

The short and skinny man quickly shook his head, "I'm really bad, I don't even know if I can last a round."

"Don't worry, even if you can't defeat a single one of them, I will make up for it. I just want to know the numbers."

"How about letting Mo Fan go first?" the short and skinny guy said to Mo Fan.

"My Summoned beast is heavily injured, I'll rely on you guys to make up the numbers," Mo Fan didn't try to hide it as he directly declared the situation.

"I knew you were just a waste," Wang Liting sneered.

Mo Fan wasn't angry... but he silently took note of this hostility as he considered how he'd return that slap in the future.

*If you're that good, then you go. Stop bullshitting, do you want to bet that I can use lightning to directly destroy you?*

*You're really pampering!*

## Chapter 154: The Sinister Luo Song

When the short and skinny student entered the stage, he Summoned a Spirit Wolf.

Mo Fan had already seen this Spirit Wolf during class, it was clear that it was a Spirit Wolf that had not yet come of age. Its combat prowess was nowhere close Mo Fan's Spirit Wolf, maybe half the size of his.

After the student had entered the stage, it was clear that he seemed timid. The surrounding people looked at him in ridicule, he began to feel embarrassed.

As expected, he didn't live up to everyone's expectations. In the first round, a Shadow Element student played so many tricks on him that he began to pant.

He returned to the others with his face completely red as he whispered, "I... I will do my best in cultivating. In the future...this... In this kind of competition, I definitely won't make you guys lose face."

"Not bad, you finished off two idiots," the long-faced Wang Liting said with a hint of mockery.

"Don't worry, we will definitely make up for it. The next one will be me," Zheng Bingxiao declared.

Zheng Bingxiao's Summoned beast was a Rock Demon Soldier. Its combat prowess was a bit stronger than the White Armored Battle Scorpion.

The White Armored Battle Scorpion was relatively weak against Fire. Heat transmitted into its body through its carapace would roast it alive.

The Rock Demon Soldier was completely immune to the Fire element, and furthermore, even Lightning Element spells were completely ineffective against it.

The Rock Demon Soldier's biggest problem was its speed, it was simply really slow. They didn't have to use any movement spells to evade its incredible powerful punch.

However, the Rock Demon Soldier possessed the ability to control the earth. This ability allowed it to reach whatever it needed to go. It was able to annihilate four teams in succession.

"Good job, Zheng Bingxiao. As expected of our class representative, hahaha!" a couple of the Summoners shouted excitedly.

"Look at the Lightning and Fire Element people's expressions. They possess the strongest attack Element in the Primary level, so they are extremely arrogant. In the end, they have all been turned into children in front of Zheng Bingxiao's Summoned beast, this truly feels good!"

“We’ve already eliminated twenty-three people. The other Elements are just dregs!”

Zheng Bingxiao was standing inside the cage, the normally good natured student now exuding an aura that made people want to run away from him. At same time, it was also winning the favor of many girls.

However, the young men from other Elements were now in a bad spot.

They were being beaten within an inch of their lives. Soon enough, the fifth group came up, and they did not know whether the fifth team would be able to win against him.

“I didn’t know there was a Summoning Element at the Primary level, now I finally know that the Summoning Element is actually this abnormal. They are able to beat us in groups, how are other Elements supposed to fight against it?” Soon enough, the students sitting on the mats began to discuss things.

The Summoning Element was able to withstand all of the other Elements. Even the Lightning students had no choice but to admire them.

“They’re only strong at the Primary level, who knows if they’re strong at the Intermediate level. Didn’t you see that guy who Summoned a small Spirit Wolf? Most of the first time Summons are just like him, they rely too much on their Summoned beasts for their cultivation. It is very hard for them to capture a strong Summoned creature without the help of precious auxiliary tools,” a couple of people who knew of this spoke up.

“However, in school, it’s better to not mess with the Summoners.”

“This Rock Demon Soldier looks like it can’t endure anymore, it had been bombarded by so many experts continuously.”

“Yeah!”

Zheng Bingxiao finally could not endure the attacks of so many challengers, and he finally retreated after eliminating twenty-five people.

“I’ve heard that the Rock Demon Soldier is the strongest Summoned beast they have...” a student sitting in the audience muttered hopefully.

“If there’s no mistake, there should be a Bone Corpse Demon. That creature is extremely cruel, it should be the most abnormal one among all of the Summoned creatures. If the Primary Magicians don’t make a group of more than ten people, then they will be annihilated by it.”

“Let’s just find something easier.”

“I think so too.”

“It’s my turn. There should be about forty in number now. If I’m feeling good, then you guys won’t have to do anything,” Wang Liting took a step forward, his expression filled with arrogance.

Jiang Yunming, still standing off to the side, cast him a glance as he indifferently said, “The higher the head count, the more resources you will obtain.”

“Then you guys can lay down and obtain resources,” Wang Liting raised his eyebrows toward everyone as he strode toward the iron cage.

Wang Liting was not simply bragging, he quickly Summoned his beast.

As expected, his Summoned beast was just like the rumors, the cruel Bone Corpse Demon!

The Bone Corpse Demon’s was like a condor. It had wings on its back, and its combat prowess was not as high as the other Summoned beasts. However, its ability to fly was enough to shake its challengers.

It was quick, crafty, and it always chose the most fitting time to take action. It was fast enough to do a surprise attack on a Magician before they could finish linking their Star Path, and it was nimble enough to easily evade everyone’s Primary Magic...

If the Rock Demon Soldier was the type of creature that could endure the spells to its body, then the Bone Corpse Demon could make the spells miss continually, taking no harm whatsoever!

As the Bone Corpse Demon came out, all of the people immediately turned into weak hares that was waiting to get killed. All Wang Liting needed to do was to stand there and count the numbers.

“I’ve heard the Summoners have a quota. They need to defeat 100 of us or else their resources will be distributed to the students of other Elements who have performed well. Shit, this Bone Corpse Demon will probably fill half of the quota. No matter how many teams challenge it, it will still be of no use!” the people in the earth area, next to Li Junwei began to comment.

“Indeed, could it be that there is no one who can defeat this Bone Corpse Demon??”

“There are definitely experts, however, they may not want to make a move...”

While the few people were discussing this, a prominently fat head popped out and asked, “Did you say that the Summoners have a quota?”

“Yeah, they need to withstand the attacks of one hundred people,” that person said.

A sinister smile emerged on Luo Song’s face, his eyes fixed on Mo Fan, who had yet to come on stage.

“So if we don’t let them reach their quota, then the resources that were originally for them will be given to our Earth School? Luo Song asked further.

“Naturally, you’d be getting a lot. However, our Earth Element is of no use against that Bone Corpse Demon...”

“You don’t need to thank me later,” Luo Song stood up from his chair as he slowly walked toward the challenge registration entrance.

“Thank you for what?” they asked in confusion.

Luo Song continued to walk forward. He had already arrived at the entrance for challenge registration. Due to the Bone Corpse Demon being too excessively domineering, the challengers couldn’t help but give way, it was clear that they did not want to mess with the Bone Corpse Demon.

Luo Song smoothly moved to the front of the line.

Originally, Luo Song didn't want to make his move. The competition itself was not something an Intermediate Magician like him should participate in.

However, after knowing it would affect the resources obtained by the Summoning Element students, Luo Song immediately changed his mind.

"Luo Song? You want to have a go?" When Dean Xiao saw Luo Song, his face revealed a bit of irritation. He continued, "Didn't you promise me to not provoke Mo Fan anymore?"

"I'm not challenging him," Luo Song directly said.

At this moment, Dean Xiao didn't know what to say. Luo Song was also a new student, and the rules said nothing about not letting Intermediate level students participate.

After speaking, Luo Song stood in front of the entrance.

Indeed, he did promise Dean Xiao that he would not take the initiative to mess with Mo Fan, who was also an Intermediate Mage...

Luo Song didn't plan on fighting against Mo Fan's Summoned beast. However, he planned to completely annihilate Mo Fan's classmates!

He wanted to see how Mo Fan planned on having his trash Spirit Wolf deal with the large difference in numbers!

"The resources of your Summoning School will be given to us, the Earth School!"

### [Versatile Mage](#)

#### **Chapter 155: Intermediate, Emerge!**

.  
. .

Ice Element vs Lightning Element, it was clear that the Lightning Element was much stronger in terms of combat prowess...

Luo Song already had a hard time dealing with Mo Fan in terms of Intermediate Magic. Thus, he definitely could not allow Mo Fan's Summoned beast to grow. If his Summoned beast was to increase in strength, then he wouldn't be able to contest against it.

How could Luo Song let that happen?

Thus, if there was something that could obstruct Mo Fan's road of cultivation, then Luo Song would definitely make his move. It just so happened that he did not like the person who was controlling the Bone Corpse Demon. How dare he have such a domineering attitude when he only had a trash Summoned creature?

Hilarious!

“You’re Earth Element? The Earth Element is of no use against a Bone Corpse Demon. Why don’t you wait for the next team to come?” A couple of people who seemed to be wavering said as they saw Luo Song coming.

Luo Song didn’t even glance at these couple of people as he walked up, “Did I say I was going to be in the same group as you?”

“F\*\*k, you must be amazing, huh? If you’ve got the ability, then why don’t you go and deal with that Bone Corpse Demon by yourself.”

“Yeah, arrogant. I despise those kind of people,” the two people immediately cursed.

Luo Song didn’t need anyone. He entered the colossal cage.

At this moment, the Bone Corpse Demon was circulating arrogantly in the space above Wang Liting. Wang Liting squinted his eyes to size up Luo Song, before lughing and saying, “Little fatty, do you know what my Bone Corpse Demon’s favorite thing is? It just so happens to be someone with lots of fat like you!”

“Do you know how many pieces an icicle would shatter into if it was dropped from a thirty or so meter height?” Luo Song looked at Wang Liting.

“I think you’ve got a problem with your brain!” Wang Liting didn’t know what Luo Song was trying to say, so he commanded the Bone Corpse Demon to attack Luo Song.

“You should pray for your Bone Corpse Demon’s bones to have some endurance, or else dealing with its corpse will be quite troublesome,” Luo Song maintained his arrogant aura.

While he was speaking, Luo Song had already closed his eyes.

When he opened his eyes again, an aura of great pressure suddenly bubbled forth and covered the entire Beast Cage.

*Creak creak creak...*

White frost suddenly appeared on the floor. At first, it was just some star-shaped frost scattered around, which rapidly and aggressively froze everything in its way. In just the blink of an eye, Luo Song had covered the surrounding area in a layer of ice.

“Ice Lock!”

Luo Song finished the links. Beneath his frozen legs, a magnificent Ice Star Atlas rotated as it displayed an incredible energy, spreading out with Luo Song in the center.

“Rise!” With a shout, the frozen ground around Luo Song suddenly ruptured!

Within the ruptures, there was a clanking noise, followed by thick chains of ice flying out.

“Holy crap!”

“Int...Int....Intermediate level...”

“This fatty is an Intermediate Mage!!”

At this moment, everyone was astonished.

Everyone was overwhelmed with shock as they watched Luo Song control the shocking ice chains, their expressions displaying disbelief.

Luo Song's classmates' chins dropped down so hard that they nearly shattered. They finally understood what he meant by "No need to thank me!".

So what if your Summoning Element is dominant at the Primary level. Once an Intermediate Mage appears, there won't be any competition!

Wang Liting's face was frozen.

In the past, he had heard that there was someone among the new students who had already reached the Intermediate level, and hadn't quite believed it. However, who would've known there really was someone like that. Furthermore, it just happened to be the fatty right in front of him!

"Crap!"

Wang Liting's expression changed as he tried to recall his Bone Corpse Demon.

The Ice Chains let out a chaotic noise before flying out into the air under the control of Luo Song.

Even though the Bone Corpse Demon was very nimble, it was still not able to shake off the Ice Chains that surrounded it from all directions.

The ice shackles wrapped around the Bone Corpse Demon tyrannically. Furthermore, it was suspended in mid-air, and the icy energy from the chains quickly entered the Bone Corpse Demon's body.

The Bone Corpse Demon's physique wasn't much stronger than low-level Magical Beasts, and it was completely unable to resist the powerful Intermediate Magic. Its skin was covered with icy frost, slowly spreading toward into the interior of its body.

Finally, the Bone Corpse Demon became an ice statue in the air.

At the same time, the Ice Chains suspending it in the air broke, and the frozen Bone Corpse Demon directly fell down from a height of thirty or so meters.

*Boom!!*

When the ice statue hit the ground, it immediately cracked. This crack stretched from the Bone Corpse Demon's claws all the way to its wings...

As a result, the wings and claws were turned into smithereens, the ice was spread all over the ground.

"No no...no!!!" Wang Liting wasn't even able to speak anymore, his looked as though he was going to kneel down for Luo Song.

His family had expended a lot of effort to help him acquire this Bone Corpse Demon. Once it died, Wang Liting would become a waste with no way to make a stand in Pearl Institute.

The arrogance on his face had vanished. Wang Liting ran toward his Summoned beast with his eyes showing his broken spirit.

Luo Song's gaze was cold, with not a single hint of sympathy in his eyes.

In the real world, there were only the strong who survived and the weak who became food. Luo Song didn't have the habit of showing mercy to the weak, so his actions were completely merciless.

"Classmate, calm down! Your Summoned beast shouldn't have died yet." Gu Han walked over and swiftly delivered the large block of Demon ice statue to the Healing teacher, Ruan Ya.

Ruan Ya helplessly shook her head, and quickly linked her Healing Star Atlas.

Luo Song watched the Intermediate Healing Magic as his lips twitched. With this Healing Teacher present, the Bone Corpse Demon's life would definitely be saved.

The entire fight had actually ended very quickly, the commotion amongst the audience had been ongoing since the beginning

The incredible power of an Intermediate Magic was something the students seemed to understand now. The Bone Corpse Demon that they couldn't do anything about had been destroyed like trash.

"Why don't the two of you come at same time so we don't waste time," Luo Song pointed toward the leftover Summoner students with domineering arrogance.

The leftover two people were extremely angry. They didn't have any intention of backing down, they wanted to take revenge for Wang Liting.

"His Intermediate Ice Magic is only able to deal with one of our Summoned beasts. I'll let my Summoned beast withstand his attack, and you take that chance to deal with him," the two discussed.

"Alright!"

"It's better if you don't go," Mo Fan told them with good intentions.

"Why don't you sit here and stick your head into the ground like an ostrich, you useless thing!" The two people were dorm mates of Wang Liting, and their relationship could be considered quite good. They were in the middle of a fit of anger, so it was natural they didn't bother with what Mo Fan said.

Mo Fan had already done his best to persuade them. There's nothing he could do if they refused to listen to him. This world certainly did not lack idiots who cursed at their teammates and then delivered their own heads to the enemy.

### [Versatile Mage](#)

#### **Chapter 156: Awaken, Spirit Wolf!**

"You want to use a pincer attack?" Luo Song looked at the two summoner students with ridicule in his eyes.

Mo Fan's two Summoner classmates were really naive. They thought that the Intermediate Ice Magic was only able to deal with one of them, so the other could take advantage of the opportunity...

The fact is, Luo Song had no need to use Intermediate Magic.

The Primary Magic, Ice Spread, first covered Luo Song's surrounding area. The intensity of the Ice Spread was enough to greatly reduce the speed of the two beasts.

Following this move, Luo Song used Earth Ripple to move himself somewhere more safe. When he found a good position, he once again used the formidable and terrifying Ice Lock.

The Ice Lock was clearly not a single target spell. The thick shackles forcefully locked the two Summoned beasts down and quickly turn them into ice blocks. Luo Song dealt with the two beasts without expending much effort.

"There's only one more Summoner student left. I never thought that there'd be an Intermediate Magician in this competition."

"Yeah, the last Summoner is just cannon fodder, he's no match for Luo Song."

"We also want to demonstrate our skills, who would've thought all the attention would be stolen by this person!"

After Luo Song had finished off the three Summoner students, all of the gazes in the audience was focused on the last one remaining, Mo Fan.

Mo Fan wasn't stupid. He could clearly see that this fatty Luo wanted to make trouble for him.

Luo Song didn't linger, he immediately walked off the arena.

He had already achieved his goal. Furthermore, he had also complied with Dean Xiao's order to not provoke Mo Fan, who was also at Intermediate level.

After Luo Song left, everyone was all confused.

He should have been able to easily sweep the stage of all seven of the Summoners with his strength as an Intermediate Mage. So why didn't he just deal with the last one, too?

Or did that mean that this guy thought the whole thing was boring, and thus he intentionally left the last one for the Primary Magicians to play with?

"Good, there's still one left."

"We still have an opportunity to display our skills. With the Bone Corpse Demon gone, we won't have anything to be afraid of."

"Let's go!"

Li Junwei stood up, his eyes intentionally glancing at Qin Xiaomian to the side.

The main character today was definitely Luo Song, who had displayed the power of an Intermediate Magician. However, the rest of these people couldn't just be swept away by the light of the Intermediate Magic. It was time for them to make a move!

"You guys want to challenge him?" Qin Xiaomian was slightly flabbergasted as she looked at the young men who always surrounded her.

"Is it inappropriate?" Li Junwei asked.

“No...no, good luck!” Qin Xiaomian felt she wasn’t in position to say anything.

Luo Junwei brought his squad along and walked down to the arena of the Beast Battle Competition.

After getting to the entrance, there were already people from other elements waiting.

These people had the same thought as Li Junwei. Intermediate was Intermediate. Although his cultivation speed was indeed extremely astonishing to everyone, it did not mean that everyone else should just linger around and do nothing.

Breaking through the next level was something that was hard to understand. Perhaps they would be able to touch upon the doors of the Intermediate level through this battle?

All of the people who came to Pearl Institute had the intention of attacking the Intermediate level!

“This Luo Song is indeed tactful. However, Mo Fan, it is clear that you are trying to cause trouble for me,” Luo Yunming coldly humphed.

It was clear that Luo Song came to destroy the public venue of the Summoning Element. Jiang Yunming knew of the events that happened between Mo Fan and Luo Song during the day of their tests.

“I know, but my Summoned beast...” Mo Fan shrugged.

There’s nothing he could do about this, especially when his Summoned beast was hibernating. Today, he was no different from a waste, so Luo Song had expended all that effort for nothing...

Eh??

It woke up??

Mo Fan had attempted to communicate with his Spirit Wolf without too much hope. Who would’ve known that the Spirit Wolf had already woken up? Furthermore, he looked relatively energetic.

“I really don’t want to give in,” Hai Dafu clenched his teeth.

The other Summoners were also very gloomy. Originally, their Summoned beasts were supposed to be the main characters of the Beast Battle Competition, they could display their superior strength as much as they wanted. Who would’ve thought that there’d be an Intermediate Magician who would take care of three of them in one go. This turned all of the Summoners into side characters very quickly.

It didn’t matter anymore because they weren’t able to complete the demands set by the teachers and the school. The distributed resources would all be sent to the Earth School which Luo Song belonged to.

The resources of Pearl Institute were quite significant, or else, the people from those noble families would not come here and desperately contest for them. The Summoning Element’s resources for half a year would essentially be given away! They were very unreconciled.

“Teacher, how about...” At this time, Zheng Bingxiao looked at Jiang Yunming, but was stopped in his speech.

Jiang Yunming shook his head, “The students who have left the stage can no longer go back on. Mo Fan, are you able to summon your Summoned beast? If not, then this will be it for today.”

“So what if he can do it?” Wang Liting exclaimed, his eyes red. “Teacher, could we ask the school to be lenient? My family spent a large amount of money to help me summon a good Summoned beast. If the school doesn’t give me some resources, then I’m afraid most of us won’t be able to reach the Intermediate level.”

“It’s impossible for them to be lenient, if you want to obtain resources then you have to rely on yourself... Alright, let’s go back everyone, this will be it for the competition today. Although you were completely annihilated by an Intermediate Magician, I am thoroughly satisfied with your performances. The Beast Refinement Blood will be given to Zheng Bingxiao.” Jiang Yunming didn’t talk too much about their feelings, he was clear on the positive and negatives.

After hearing this, the Summoner students all began to cry.

There were no resources from school, and they’d be losing a teacher as well. This made the wonder what they’re going to do in the future!

“Mr. Jiang, it seems like my Summoned beast has woken up!” Mo Fan spoke up abruptly.

“Oh? Then you can go ahead. If you perform well, then the second Beast Refinement Blood will be given to you,” Jiang Yunming raised his eyebrow.

“I just happen to want the Beast Refinement Blood,” Mo Fan said.

“Alright, you can go and take back some face for us in the Summoning School,” Jiang Yunming said.

Mo Fan slowly walked onto the Beast Battle arena while he communicated with his Spirit Wolf.

“Our objective today is to defeat sixteen people,” Mo Fan said to the Spirit Wolf.

Zheng Bingxiao won against twenty-five people, and Hai Dafu got rid of fifteen. Wang Liting was supposed to have the highest numbers, but he was completely annihilated by Luo Song after his sixth person.

Thus, if he wanted to obtain the Beast Refinement Blood, then he just had to surpass Hai Dafu’s number.

“Awoooo~~~!!” The Spirit Wolf let out an fearless and energetic howl in reply to Mo Fan.

After hearing the energetic and vigorous howl, Mo Fan was astonished.

Along with the Spirit Wolf’s howl was a wild and savage aura, and this aura...

It seems like sixteen people wouldn’t be too hard!!

## Chapter 157: Evolving Spirit Wolf (1)

“Come, call your Summoned beast,” Li Junwei represented the team of challengers, his face was filled with a sense of pride.

“As long as your Summoned beast isn’t a Bone Corpse Demon, I will definitely let you have a taste of my abilities!”

“This guy seems to be the only person we don’t have any intel on, we don’t know what kind of Summoned beast he has.”

Mo Fan looked at the team of five who seemed to be prepared, his face displaying a lazy smile.

Although he was also a guy who enjoyed fighting, this was not the time for him. This was the time for the Spirit Wolf to display its prowess!

“Fight for me!”

The moonlight Star Path emerged in front of Mo Fan and turned into a space crack. A dimensional bridge summoned forth a creature from the unknown plane!

From within the dimensional crack, a deep blue head stretched out.

Soon after, a robust and mighty body stepped out. The fur-covered body was fluttering in the space crack, following a bestial aura pervading the whole arena. The Spirit Wolf instantly became the focal point of the whole chamber!

“It’s a Spirit Wolf!”

“What a feral aura! This is like a completely different creature compared to the tiny Spirit Wolf from before!”

“It feels like it’s not easy to deal with that. I never thought the last Summoner student’s Summoned beast would be a fully grown, robust Spirit Wolf. I’m not sure if Li Junwei and his team can possibly contest that.”

In the backstage, the six Summoner students mouths had dropped open, they displaying their astonishment.

“It looks... It looks like it has gotten stronger since the last time,” Jiang Yunming murmured to himself.

They could hear the sound of the wind.

A ferocious wind was rolling around, the Spirit Wolf in its center. The dust had turned into a golden wave as it washed out, sweeping along the colossal Beast Battle Arena and blowing into the faces of the five challengers.

For some reason, their legs began to shake. The man in the lead with a big head turned around to look at his leader, Li Junwei...

“What’s there to be afraid of? It’s just a Spirit Wolf, not a Bone Corpse Demon!” Li Junwei cursed while feeling dissatisfied.

“I just keep feeling this isn’t your average Spirit Wolf.”

“Feelings my ass, go kill it!”

The five people were clearly very coordinated with each other. Facing Mo Fan’s Spirit Wolf, they quickly got into formation.

The Wind users were in the front, Water in the back, Lightning and Fire by the Earth user in the center.

With all five Elements in one team, Wind, Water, Lightning, Fire and Earth formed a very well coordinated team. Lightning users in the Pearl Institute were not rare, so forming a five element team wasn't too difficult.

It was obvious that Li Junwei's team was prepared. If it wasn't for the appearance of Luo Song, they would've attacked one of the Summoned beasts by themselves.

Now, there was only the very last Summoner student, Mo Fan. They naturally would not continue waiting!

"Big head, restrict it. Remember, the Spirit Wolf's burst damage is relatively strong, so you need to be quick when you use Flash Steps or else it'll be able to slice you in two once you get to the other side," Li Junwei said with a solemn expression.

"Yeah, I'll just use Wind Trails, Floating Shadow!" the big headed guy in the very front said.

"Pimples, just because the Spirit Wolf is far from us doesn't mean it can't attack us. The Spirit Wolf has a breath attack."

The girl with pimples on her face nodded quickly.

"Alright, let's start. How could a little Spirit Wolf possibly stop the five of us from becoming famous. Let's show those previously unorganized and useless people our coordinated battle strategy!" Li Junwei's face displayed a great smile.

Those who treated a battle as a 1v1 conflict could only be deemed to be unsuitable with others.

During the Primary level, most of the people would only have a single spell, and so they would have to form a team. Being the chief of the Classical Elements, the Primary Lightning spells were indeed very strong, but they definitely did not have the ability to deal with a Magical Beast by themselves. The Water element did not have any attack prowess, but it was the only Primary ranked element that had a protective spell, making it one of the most crucial parts of a battle. In Li Junwei's eyes, there was no Element that was trash from the start, only a group of retards who didn't understand how to cooperate!

Mo Fan saw the opponents formation and a smile formed on his face.

Interesting. The five people's battle experience was in no way inferior to the Hunter Squad he was a part of it back then.

"Be careful, they should be very knowledgeable..."

"Awooooo~!"

Mo Fan didn't say another word. The Spirit Wolf let out a domineering howl.

The warlike Spirit Wolf began to attack without a response from Mo Fan. The amount of time it took for the Spirit Wolf to go from complete stillness to as fast as a cheetah was only a second. This bursting power afoot was not something a One-eyed Magic Wolf could compare to.

The Spirit Wolf was charging violently. Its objective was precisely the Wind member standing at the very front of Li Junwei's team.

Although the big-headed Wind member of the group seemed relatively nervous, his steps were still nimble.

The third level of Wind Trails created several Wind Tunnels in the caster's surroundings, creating a bunch of high speed Wind passages that belonged only to himself. With them in place, he was as lithe as a swallow.

Floating Shadow had a much bigger range than Flash Steps. It looked as though there were Wind Trails everywhere. It made the Magician seem like wind, impossible to catch and impossible to pursue.

The Spirit Wolves first attack caught only an empty Wind Shadow. The big-headed guy had already floated to a location twenty meters away when the Spirit Wolf had attacked with its claw.

The sound of the wind was heard again...

The Spirit Wolf quickly retracted its claws. His body slid through the ground for a small distance before he once again stood up with his four limbs. He had actually changed the course of his tracks in a single second toward the big-headed Wind Magician!

"Second attack!" Li Junwei's face revealed amazement.

Normally speaking, when the Spirit Wolf used its full strength to attack, it would take a while to stop. It was just like when a person has used a frantic charge, they would need some time to catch their breath.

However, this Spirit Wolf had actually been able to regain its energy right after its first burst attack. Additionally, its speed even remained the same as it began its ferocious attack the second time.

"Pimple, protect him! Quick!" Li Junwei commanded.

Spirit Wolf's second attack was definitely going to cause an enormous threat to the Wind Magician. After all, the big-headed guy believed he was in a safe zone after only moving around twenty meters away.

Numerous water droplets coalesced out of nowhere. They were all in motion, and quickly combined in front of the Wind element student to form a Water barrier defense!

Yet another howl of the wind was heard.

The Spirit Wolf saw these Water beads as he was halfway there, and his eyes showed a hint of disdain. His heavy claws ferociously smashed towards the Wind Magician once more!

[Versatile Mage](#)

**Chapter 158: Evolving Spirit Wolf (2)**

.

.

.

Woosh!!

The ferocious claws split open the shield formed by numerous water droplets. The sharp claws streaked right through the body of the Wind elemental student.

An incredible blood scar emerged on the chest of the Wind elemental student.

“Oh...”

The Wind member of the group fell backwards, and the overflowing blood from his body mixed with the dust as it flowed into the distance.

“How... how could this be!” The eyes of pimpled girl went wide as they were filled with astonishment and fear.

Her Water Barrier had clearly reached the third level already, why was it unable to defend against the attack of the Spirit Wolf?

She had also been through numerous fights, and she had always been able to defend against all kinds of Magical Beasts' attacks.

“You were too slow. You should know how to protect in situations like this next time without me telling you!” Li Junwei said with a gloomy face as he excoriated her.

Indeed, the Water elemental girl had cast it a bit slow. The Spirit Wolf's claw had already slashed through the Wind student's body before the Water Barrier had been formed. The Water Barrier that looked as though it was formed in time had only blocked the attack power that came afterwards!

“You bastard, taste my Lightning Strike!”

The purple Lightning was crackling furiously as they ferociously bombarded the location of the Spirit Wolf.

The Lightning dazzled their eyes. As the snake-like Lightning began to lash across the area, it looked like it had completely surrounded the Spirit Wolf.

The Spirit Wolf could smell the ozone in the air.

It stomped heavily with its back legs, and its body smoothly jumped to the side...

In the next second, the place where the Spirit Wolf had been standing was completely covered by Lightning Strikes. A patch of burned ground appeared immediately thereafter.

Small bits of static were jumping around the Spirit Wolf's deep blue fur, but they didn't pose any threat to it. The Spirit Wolf turned around, its verdant eyes locking onto the person who had unleashed the Lightning Strike.

“Awuuuu~!”

With its head loftily raised, and with its throat that seemed as deep as a cavern, a demonic wind suddenly came forth!

The demonic wind began to wantonly sweep across the sands on the surface of the ground, which rose into the air in thick clouds.

“Shit, is this still Flying Stones!?” As Mo Fan saw this scene, he couldn’t help but feel shocked.

The very first time Mo Fan had seen Flying Stones, the grains of sand were like a wide spread of bullets as they shot toward him. For a normal person, this would leave behind numerous holes in their bodies.

However now, the Flying Stones were being spat by his very own Spirit Wolf...

The area of this was more than double the size he had seen it before. It was like the Spirit Wolf had howled out a sandstorm...

“Hurry up and scatter!” Li Junwei’s complexion immediately changed.

For something like the Flying Stones, they could easily evade it by just quickly rolling around. Furthermore, the Spirit Wolf had used it from a distance.

However, against something of this scale that covered a fourth of the entire Beast Cage, they simply had nowhere to run and could only receive the damage.

Li Junwei slammed both of his hands on the ground as he tried to overcome his shock.

“Earth Wave!” Where Li Junwei was standing, ripples of earth began to spread into the surroundings.

The ripple quickly carried Li Junwei and his Lightning and Fire comrades to the two sides of the cage.

“Pimples, get behind me!” Li Junwei shouted.

After pushing his two comrades away, Li Junwei knew that he couldn’t rely on the Water Element girl to cast the second level of Water Barrier in such a short amount of time.

The Water Elemental girl ran behind Li Junwei’s back. However at this moment, the Flying Stones had already charged over. His cheeks were painfully scratched by those little grains of sands.

“Vine Wall!”

Li Junwei moved his intent and activated his own special Defensive Magic Equipment.

An azure ray flashed, and multiple strange black rattan vines emerged in front of Li Junwei. The vines began to intertwine while giving birth to new, thin vines that also integrated into the existing ones.

The sandstorm finally came to an end, followed by an ear-piercing sound.

If there hadn’t been a vine wall in front of Pimples and Li Junwei, then their weak bodies would definitely have been utterly smashed by the mighty storm.

.....

“This student is not bad.” Dean Xiao watched the dust-filled arena as his face revealed a gratified smile.

The face of Zhou Zhenghua, the Dean of the Earth School, was also showing a bit of radiance.

Just moments before, Luo Song had given the Earth Element students a tremendous amount of face. Who would’ve thought that among the Elements, there’d also be someone like Li Junwei who knew how to cooperate amongst the different Elements.

Using the Earth Ripple to push the Fire and Lightning members who didn't have any way of defending themselves to a safe area, and then use his own Magic Equipment to protect himself as well as the Water comrade behind him...

The Flying Stones from the Spirit Wolf were evidently strong enough to completely annihilate the four of them. However, that was completely prevented by an Earth Magician, Li Junwei!

There are too many Primary Earth Magicians who didn't know what to do, nor their roles in a battle nowadays. Li Junwei's display had essentially given a lesson to all the Earth Magician students who were still completely blank.

The Earth Element could be called the core of a squad. Their ability to move the surface of the ground meant they were the link between the squad members, and would also allow the squad to be much more flexible.

"Too bad they've lost," Dean Xiao secretly added.

The Earth Element Dean, Zhou Zhenghua was slightly shocked as his gaze locked onto the cage filled with dust.

The dust came fast, and settled fast.

Li Junwei's display was indeed very outstanding. However, in front of such a formidable power, their strategies and spells were completely useless.

Within the yellow mist, an eminent and ferocious silhouette was standing in front of Li Junwei. The dark green eyes were only meter away from him as it loomed over Li Junwei.

Li Junwei and Pimple both raised their heads. The two of them, who had just evaded the sweeping Sandstorm, felt like they had been soaked in cold water. Especially Pimples, she looked like though she was going to faint from the scene that greeted her eyes.

"Third stage Burst..." Li Junwei raised his head, his eyes filled with disbelief.

He originally didn't want to believe this was an evolving Spirit Wolf. However, now he was not able to question it anymore.

A Spirit Wolf that could complete a third stage Burst was most definitely at the evolved stage. This was a vicious creature that was a half step into the Warrior level!

The five of them could deal with a normal Magical Beast without a problem. However, dealing with a creature that was in the evolving stage would only make them seem like children; they could easily get slaughtered!

## [Versatile Mage](#)

### **Chapter 159: I Want It All**

.....

After the sand had thoroughly dispersed, the entire audience saw an incredibly stunning scene.

The Spirit Wolf that suddenly disappeared was standing right in front of Li Junwei. Its four limbs was stepping on the vine wall, and its head was only a meter away from Li Junwei.

It signified that if the Spirit Wolf had any slight desire to kill, then it could easily snap Li Junwei's head off with its fierce teeth.

"Come back," the Summoner spoke up at that moment.

The Spirit Wolf was clearly very obedient, as it jumped down from the vine wall and returned to the side of Mo Fan without even glancing at the group of challengers.

Its slow steps, the haughty rise of its head and eyes that showed it was not fully satisfied seemed like it was saying, "Humans? Weak..."

"Xu Zhaoting, are you sure you haven't seen him in only a year?" The girl sitting next to Xu Zhaoting asked him in disbelief.

Xu Zhaoting himself was even more dumbstruck!

Is that person even Mo Fan?!

Even if that guy was to break into the Intermediate level soon after the destruction of Bo City, it still wouldn't make sense for him to be able to cultivate his newly attained Summoning Element to this level in just a year's worth of time. The Spirit Wolf in front of him had easily defeated Li Junwei's squad of five, showing it was much stronger than your average Magical Beast. If their Primary Vanguard squad had encountered something like this on the road, then they would've been completely annihilated.

"I also don't know, he... he always seem to become stronger somehow," Xu Zhaoting realized he just couldn't understand Mo Fan. This person was far too unfathomable.

.....

"\*\*\*k, that Spirit Wolf has gotten even stronger!!" Luo Song, who had wanted to cause trouble for Mo Fan, abruptly swore.

Originally, this Spirit Wolf was nothing to be afraid of. His Ice Shackles were enough to defeat it.

Now, the Spirit Wolf have reached the evolving stage. If Luo Song didn't completely direct his attention towards it, then there was a chance he might die in its jaws. Furthermore, there was also its Summoner Mo Fan, who possessed Intermediate Lightning!

"It seems like I'll have to take the resources of my brothers and sisters, or else the difference will be even larger!" Luo Song thought to himself.

The faster Mo Fan's strength increased, the more Luo Song didn't feel at ease. He had already lost once against Mo Fan, he definitely could not allow a second time!

.....

Li Junwei and his comrades walked out of the iron cage with fallen spirits.

This was not the result they wanted. They definitely could've finished off at least one Summoned beast. However, they were completely oppressed by an evolving stage Summoned beast.

This feeling was unbearable.

At first, there was an Intermediate Magician who had heavily shocked all of the students in the audience, and now there was a Spirit Wolf at the evolving stage. They were simply too strong!

Li Junwei had completely experienced the saying of "crouching tigers and hidden dragons" at Pearl Institute. He wasn't sure what kind of laughingstock he was as he walked out of the Beast Battle Cage, and nor about how Qin Xiaomiao would view someone like him.

"Mo Fan, you're way too cool. You made up for the numbers we were missing!" the short and thin Summoner student called out to Mo Fan up on the stage excitedly.

Zheng Bingxiao also had a joyous smile on his face. This Spirit Wolf's strength was definitely not any weaker than the Bone Corpse Demon. If Mo Fan was able to ward off attacks from the coming students, then they would definitely be able to keep their resources.

Although Hai Dafu and Wang Liting did not like Mo Fan, they still put their hopes on Mo Fan. Even if their faces did not display it, their hearts let out a sigh of relief.

"You guys are a bit too optimistic. You do know that there's nearly fifty more people before you reach a hundred. If the squads are comprised of five people, then do you think Mo Fan's Spirit Wolf is capable of dealing with ten waves of challengers?"

"It seems like that. Ah, it's all the annoying guy's fault! Wait until I reach the Intermediate level, I will definitely take revenge!"

Mo Fan turned his head around to glance at the students of same Element as him. To be honest, if the whole resource thing concerned the entire Elemental department, then he'd directly leave after finishing off sixteen more people.

There's nothing he could do, who could he blame for being poor? He couldn't buy anything, so he came to Pearl Institute to squeeze resources from the teachers and the school. Since the Spirit Wolf's strength had increased exponentially, then might as well let it fight until it was satisfied!

The Spirit Wolf could be considered as having escaped from a calamity and then obtaining a fortune.

After going through a cruel and brutal battle, the Spirit Wolf had broken through to the evolving stage.

The evolving stage signified the stage of time where the creature evolved from Minion class to Warrior class. A creature at this stage was far superior to a Minion class creature, but also still a long way from a Warrior class creature.

The Beast Refinement Blood was extremely potent for evolving stage creatures. It just happened that they could obtain the Beast Refinement Blood if they displayed their excellence... Obviously, the Beast Refinement Blood wouldn't be enough for the Spirit Wolf to step into the Warrior class, that still required a large amount of resources.

In fact, what Dean Xiao had said was extremely grand, and it had stirred many hearts. However, from how Mo Fan saw it, there was an extremely important point in what the old Dean had said. The demonstration of the Beast Battle Competition had actually displayed the lifestyle of Pearl Institute!

Resources could be plundered!

You could forever stand in the back and use your weak gaze to look at other people displaying their prowess on the stage, or you could clench your teeth and increase your own strength so that you could amaze the whole world one day and receive the attention of millions!

The more you withdraw, the more you will be forgotten in the corner. The more you are willing to fight, the more you will bask in radiance!

“Dean Xiao, I have a question!” When Mo Fan saw the mass of challengers standing by the exit, he took this little time to loudly ask a question.

“Speak!” Dean Xiao answered promptly.

“If our Summoning school doesn’t reach a hundred people, then the resources will be given to another Elemental school. Isn’t that a bit too unfair for us? If we lose, then the resources that belonged to us will be given to others. If we win, then all we do is retain the resources that would have already been given to us,” Mo Fan asked loudly.

After Dean Xiao heard this, he couldn’t help but smile. His gaze swept past the Deans of the other Elements.

“Mo Fan, that is a very good question. We have actually already considered this. Once you’ve reached a hundred people, there will be another reward. If a Summoning student can withstand the attack of two hundred people, then all of the resources that would be distributed to all of the other Elemental schools will be given to the Summoning school!” Dean Xiao replied in a loud voice.

After this was said, the colossal arena began to erupt.

All these people knew was that if the Summoning school did not reach their objectives, then they would receive a huge penalty. However, what they didn’t know was that if they were to defeat two hundred students of other Elements, then the resources that belonged to every other school except for Summoning school would belong to them!

Shit, just how colossal would the resources be if the ten or so Element school were put together!

The Summoning School had very few people, only seven of them. The students of other elements together totalled at least four thousand people!

The resources of four thousand people would be in the hands of the seven people of Summoning school... Wouldn’t the Summoning school essentially be in paradise?

“The reason we didn’t announce this rule is because there hasn’t been a single new student in all these years who has been able to do something like this. Thus, it didn’t really matter...” Dean Xiao said with a gentle smile.

“Dean, even I didn’t know about this,” the Earth Element Dean, Zhou Zhenghua, spoke up with a bitter expression.

The Dean of the other Elements all looked at each other. The younger Element Dean really did not know that was this kind of shocking rule after the first!

“Alright, I’ve answered your question. Do you have anything else you’d like to ask?” Dean Xiao continued.

“I don’t have a question,” Mo Fan replied. He had a subtle calm before, but in the next second, his face slowly displayed a tiny smile. “However, I just want to make a statement toward the students of all Elements.”

Make a statement?!

The five thousand or more new students didn’t know what this Summoning student wanted to do.

“I burn more resources compared to your average Magicians, thus, I’m sorry...” Mo Fan slowly cupped his fist as he bowed to them.

“Your resources will belong to me!”

When Mo Fan raised his head once more, he took off his innocent mask and put on an incredibly arrogant face!

## Chapter 160: Reason to be Arrogant

The atmosphere seemed to have frozen.

The expressions of ten thousand teachers and students from the whole school were frozen at this time, too!!

What kind of talk was this!?

This brat... is he freaking crazy!?!

Dean Xiao mentioned it before, not a single person had been able to pull this off in all of these years. How dare you, a small little Summoner student, dare to be so arrogant? What right do you have to not put the four to five thousand new students in your eyes?

There were still many old students at the Azure campus. Among them were Magicians who have already been at the campus for three or four years, and they were now staring at the new student who had provoked the entire school. This caused them to lose their senses for a long time!

You want to act? Who can’t do that? You should first take a look at the situation of your Summoner school. You haven’t even reached fifty people, and now you’re telling me you’re going to get to two hundred?

You want to get rid of a hundred and fifty people by yourself?

The evolving stage Spirit Wolf is indeed very impressive, its combat prowess is much higher than your average Magical Beast. However, it is simply impossible for you to defeat a hundred and fifty challengers from other Elements with just that!

.....

“Damn, did you have to be that arrogant? Not even I dared to say those words!” Luo Song blurted out, his face extremely ugly.

Originally, Luo Song was definitely going to be the main character of the day. There would have been many people revering him after the competition.

In the end, Mo Fan’s sentence directly provoking all of the Elements in the school had caused Luo Song’s actions today to seem like nothing.

If it was possible to enter the arena for a second time, then Luo Song would be the first person to battle Mo Fan to death!

“Damn, I hate these kinds of people who believe they’re unfathomable. So what if you have an evolving stage Spirit Wolf. Brothers, let’s go, let’s destroy it!” A new student with a rather explosive temper stood up as he hurriedly rushed toward the iron cage.

“He really does not know his place.” A couple of subtle eyes flashed with ridicule. Pearl Institute was definitely a place where hidden dragons and crouching tigers existed. Just minutes ago, Luo Song, an Intermediate Magician, had emerged. There would definitely be more people than Luo Song who had reached the Intermediate level.

There had been occasional Intermediate Magicians emerging among the new students in Pearl Institute in the past. They would naturally not participate in things like the Beast Battle Competition. However, when a Summoner student said things like that, did he really think those hidden experts would calmly let him fight with clowns and show off his prowess?

Mo Fan stood in the middle of arena and heard the swearing coming from all seats of the audience.

There were more than ten thousand people in this battle area. No matter where he looked in this place, he was facing at least a thousand people. Their voices were coming at him like thunder from all sides, it was an unprecedented feeling.

However, since this was a decision he had made, Mo Fan would definitely fight each one of them until the very end.

Ms. Tangyue was not wrong. For someone like Mo Fan, who had an innate Dual Element, if he did not have a colossal amount of resources, then it’d be just like doing things half-assed and achieving nothing.

If the Little Loach Pendant hadn’t absorbed the Underground Holy Spring, then Mo Fan definitely would not be able to take care of all four of his Elements.

Even after he obtained such a exquisite treasure, Mo Fan still felt like he was incredibly poor.

To use the Spirit Wolf as an example, the animal had already reached the evolving stage.

Could he really let a Summoned beast that was capable of reaching the Warrior class remain stuck at that level?

No!

Then he would have to obtain resources that could allow the Spirit Wolf to successfully break into the Warrior class. A small Beast Refinement Blood was definitely not going to be enough!

Doing things like this looked like he was being impulsive.

However, there was such an incredible opportunity being laid in front of him. An opportunity that allowed him to take the resources of over four thousand new students for himself. Was it even possible for him to not even attempt to strive for it, and let it slip by in front of him?

If he lost, then he would at most have been cursed at a few times. You don't die from being cursed at, so who cared?

If he won, then his bowl would be completely filled up!

Perhaps even the disciples from those major families and other powers wouldn't be able to sit on any resources!

"Spirit Wolf, don't you love fighting... today, the two of us will fight until we're satisfied!"

Come, give me all you got!

Mo Fan's gaze swept past the vast crowd of people.

The feeling of being surrounded by the gaze of ten thousands of people was...just meh!

"I will go and beat him until his own mom won't recognize him!"

"Make his Spirit Wolf into a soup! Damn, how dare he be more arrogant, wild, and shameless in front of me, Long Aotian?"

(Translator Note: Long Aotian's name in Chinese basically means 'The Heavenly Arrogant Dragon')

"I'm the cure for all kinds of braggarts!" ...

A large crowd of students began to appear by the arena entrance. Mo Fan's words had instantly sent five thousand or so new students into a rage.

Perhaps there would still be many who were afraid of Mo Fan's evolving stage Spirit Wolf before, but now everyone wanted to rush to the stage. If not, then it would signify that their Elements did not have not a single strong person.

Soon enough, five people entered the arena. Their faces were filled with anger, it was evident that they couldn't endure his words.

They've seen those who stole resources. However, they'd never seen anyone who stole the resources of new students when they had only just been admitted, he must be tired of living!

“Hmph, it’s merely an evolving stage Spirit Wolf, it’s not a Warrior... shit!” Before Long Aotian could finish his words, the Spirit Wolf burst out at fearsome speed. With a single swipe of his paw, he reached Long Aotian and sent him flying.

He had a piece of Defensive Magic Equipment, but the force of impact still sent him flying over five meters away. After collapsing, he was no longer able to get up.

His comrades watched all that in awe.

When they were watching this from the audience, the Spirit Wolf’s speed didn’t seem this incredible. However, after facing it, its speed was actually more than just double?!

“They really are a group of people with a temper,” Mo Fan looked at these people, unable to help himself from thinking it was funny.

I’m an Intermediate Magician, and that’s why I dared to make this bet! You guys are like a bunch of fools compared to Li Junwei’s squad, and yet you still dare to come up here and be a disgrace?

The Spirit Wolf didn’t mess around as it pursued the remaining people. If Mo Fan hadn’t instructed the Spirit Wolf to be lenient from the beginning, then they wouldn’t just lose their arms and legs, who knew if their lives would still be intact!

After sending those people off, the next wave quickly came forth. Mo Fan just stood there without moving.

His Spirit Wolf could easily deal with the abundance of students who let their emotions take control of their actions.

However, Mo Fan refused to believe that Pearl Institute only had trash. He was just waiting there, waiting for a true expert to appear!
