Chapter 1921: Massacring Little Demons

—

On top of the library...

Mo Fan was already channeling his fourth Lightning Spell, constructing another magnificent Star Palace. Its strong presence gathered the Lightning Magic for a dozen kilometers around to him. The whole strait could see its brilliance.

A student with the Water Element hurried over and blurted out in a panic, “Miss...Miss Biling, sea monsters are approaching from the beach garden. There’s a whole lot of them!”

“The beach garden? Isn’t that just below us? What kind of sea monsters?” Miss Biling asked urgently.

“The Scarlet Soaring Demons! They were hiding in the water previously, so we didn’t notice them until now!” the student answered.

Biling frowned. She purposely glanced at Mo Fan, who was channeling the Super Spell.

Mo Fan did not lose focus even after he heard every word from the student. He believed anyone with a brain would understand why he had not assigned roles to the rest of the students!

The Scarlet Soaring Demons were not a brainless species. They were obviously going to attack the university when they realized they were being flanked and attacked!

The continuous blasts from Mo Fan’s Lightning Spells and the students with Elemental Magic were similar to a super magic cannon firing at the sea monsters. The army of sea monsters was obviously going to suffer great casualties if they did not take out the magic cannon as soon as possible!

Therefore, there was only one reason why they had sent a troop of sea monsters to the university: to kill everything that posed a threat to their plans of invading the city!

Biling saw Mo Fan had no intention of responding, but she now understood why he had asked them to be on standby.

“The rest of you whose Primary Element isn’t Elemental Magic, come with me to the outside! We can’t let the sea monsters reach the library!” Miss Biling took over the responsibility of defending the library. Her Sea Gong Fighter was already in position on the hill.

The Sea Gong Fighter roared when it saw a few Scarlet Soaring Demons approaching the hill. It intercepted them quickly and smashed them into pieces before the rest of the students arrived.

“There are more of them down there!” the student representative said. He was looking excited again, as if he finally had a chance to show his capabilities.

“Stay on the hill. Don’t go any further. Our job is to defend the library!” Miss Biling ordered.

The Scarlet Soaring Demons were having trouble climbing the hill with Biling's Sea Gong Fighter in the way. Many Scarlet Soaring Demons were immediately reduced to gore splashing across the place when they tried to sneak past the Sea Gong Fighter!

—

Mo Fan looked down the hill and was relieved when he saw the students sticking close to the Sea Gong Fighter while fighting the Scarlet Soaring Demons.

Mo Fan was not necessarily afraid of the Scarlet Soaring Demons, but he would not be able to cast his Super Spells so easily if the Scarlet Soaring Demons got too close to him. He was still not adept enough with the Super Spells!

The fourth Lightning Spell was completed. It went through the Space Bridge and killed a lot more of the sea monsters instantly. Happily, the Soul Remnants of the Scarlet Soaring Demons still ended up flowing into the Little Loach Pendant, even though they died over a kilometer away!

The blast came down after the number of sea monsters in the area peaked. The spell ended up killing even more Scarlet Soaring Demons than before!

"Qiu Zi is starting to get impatient. It has ordered the sea monsters to charge recklessly. If they waited a little longer and invaded the city through Wuyuan Bay and other places that were relatively lower, my spells wouldn't be able to kill so many of them!" Mo Fan grinned as he stared at the Scarlet Soaring Demons.

Qiu Zi was oddly furious. It kept screeching loudly, giving orders to the sea monsters and demanding they attack the bridge and the city. The sea monsters had no choice but to push forward recklessly despite their fear.

Normally, a Super Spell with a large area of coverage would only kill about a hundred Warrior-level creatures at most. It was rare for a Super Spell to kill almost five hundred creatures at once like Mo Fan was pulling off!

The sea monsters were packed too tightly. Normally, they would maintain a distance of a few dozen meters from one another, but in order to break through the defenses and invade Gaoqi Airport, the gaps between the Scarlet Soaring Demons were less than three meters. Some Scarlet Soaring Demons were even climbing on top of their comrades' bodies!

The creatures were densely packed together, without any reliable defenses. Mo Fan's Super Lightning spell with twelvefold damage amplification could easily ignore their numbers and kill every sea monster caught inside it!

The Lightning Tyrant was able to kill the Scarlet Soaring Demons instantly. The army of Scarlet Soaring Demons that was initially clogging the entry point to the Gaoqi Airport was thinned out by half.

This outcome was significant, since Mo Fan was only the first cannon tower at the front line. As a matter of fact, the numbers and strength of the students here were not comparable to a platoon of five hundred Battlemites, but Mo Fan's damage output had already surpassed that of a troop of five hundred Lightning Mages!

Lightning Magic was the deadliest among the Elemental Magicks, but not many divisions had enough people to form a force of five hundred Lightning Mages. The Scarlet Soaring Demons were supposed to be the sea monsters' main forces, but Mo Fan had eliminated too many of them before they even reached the shore. It was absolutely insane!

"Keep going, I need some rest!" Mo Fan's head was spinning after he completed the fourth Star Palace.

He had only become a Super Mage recently. His energy was still lacking, so he was definitely going to struggle after casting a Super Spell several times within such a short period.

"Commander, you've killed too many Scarlet Soaring Demons. Some of their leaders are coming after us! We don't have enough firepower at the beach garden to fend them off!" the teacher with the Wind Element spoke up.

"I'm aware of it," Mo Fan nodded.

The Scarlet Soaring Demons were finally treating him seriously. They had sent almost eight hundred Scarlet Soaring Demons to attack Jimei University. They were all Warrior-level creatures, and fairly close now. He could no longer take out a few hundred of them with a single blast like before.

"We might have to retreat. We won't be able to hold on for any longer," the Wind Mage continued.

"That won't be necessary!" Mo Fan shook his head and began searching for the director of the Water School. He noticed the man was not too far away from him. He said, "Ask the director of the Water School to come here."

His Lightning Element was currently out of gas, but it was not the only Element Mo Fan had. He might not stand a chance against powerful creatures like Qiu Zi and Qiu Chi, but he was definitely experienced at massacring little demons!

Chapter 1922: This is Mo Fan's Army

—

"What do you need from me?" Deng Yongchuan arrived with a straight face, but his tone had changed a lot.

It made a lot of sense. The director of the Water School was basically a peak Advanced Mage. It would be impressive if he could take on a hundred Scarlet Soaring Demons himself. However, Mo Fan had killed at least thirteen hundred sea monsters with just four spells. He was obviously no match for the young man!

"A lot of Scarlet Soaring Demons are coming our way. The students and teachers won't be able to hold them off, but if we lose the hill, we won't be able to attack the sea monsters anymore. We must hold our ground," Mo Fan said.

Range was no longer a problem with Lin Du's Space Bridge. Their spells could now reach the needed distance, but altitude still remained a huge factor.

The seawater had drowned many places, so the high ground was extremely important for Mo Fan. They could not afford to lose the library!

"I know that too, but these are all the people we have. If we don't retreat in time, we will be surrounded by the Scarlet Soaring Demons soon. The students are going to die!" Deng Yongchuan said.

"I have an army, but they aren't good at fighting in water. If you and your students can draw the water nearby away, they can easily defend the place," Mo Fan said.

"What army?" Deng Yongchuan asked.

"Don't worry about that, just tell me if you can make it work, and at least make sure the area below the hill is dry," Mo Fan said.

"That won't be a problem. If you need land to fight on, the Earth Mages can help by raising the ground too," Deng Yongchuan suggested.

"Great, the Fire, Lightning, Wind, Light, and Ice Mages will keep firing at the sea monsters in the strait. I'll place you in charge of the Earth and Water Mages to create a suitable environment," Mo Fan nodded.

—

The hill was covered in fresh blood. The water at the beach was dyed red from the remains of the Scarlet Soaring Demons floating on it. There were dead bodies of students down there too.

"Miss Biling, we have to go!" a Fire Mage on the higher ground yelled.

Biling had already witnessed quite a few students being dragged away by the Scarlet Soaring Demons and torn to pieces. She knew that they had no chance of stopping the Scarlet Soaring Demons even if they insisted on staying behind. She immediately told everyone to retreat.

"Back off, my Summoned Beast will cover you," Miss Biling said.

The Sea Gong Fighter had killed dozens of Scarlet Soaring Demons in a short period of time, yet there were just too many Scarlet Soaring Demons. The Sea Gong Fighter was covered in wounds now.

The students gradually retreated to the library a safe distance from the sea monsters. They did not lack the ability to flee and soon returned to the plaza in front of the library.

Biling saw most of the students had reached a safe spot. She immediately gave the Sea Gong Fighter the order to retreat from the area.

However, she heard a few strange cries. The Sea Gong Fighter had just broken free from the surround of the Scarlet Soaring Demons when three fast-moving shadows intercepted it. Its lower limbs were brutally torn apart. Even its bones were broken.

The Sea Gong Fighter cried out in pain. It fell onto the ground and smashed heavily into a pool of mud.

Biling's face turned pale. She looked behind the Sea Gong Fighter and noticed three huge beasts emitting crimson lights rising among the Scarlet Soaring Demons. They had been waiting for the Sea Gong Fighter to lower its guard so they could cripple it!

The Sea Gong Fighter could not run anymore, and was soon drowned by a terrifying tide of Scarlet Soaring Demons. Their claws tore at the Sea Gong Fighter continuously. Its blood began pouring out like a fountain. Biling's eyes soon teared up.

"Scarlet...Scarlet Rending Demons!" The student representative was also grim now.

Three Commander-level creatures had shown up at once!

Biling wiped her tears. She rushed toward the Sea Gong Fighter before anyone could react.

"Miss Biling, don't go!" the students cried out in a panic.

The Sea Gong Fighter was completely surrounded, and had no chance of escaping. The woman was basically jumping into a burning pit if she rushed toward her Summoned Beast now.

The Sea Gong Fighter seemed to have sensed something. It rose to its feet even though the Scarlet Soaring Demons were all over it. It spat a gust of wind in Biling's direction.

The wind was not targeting the Scarlet Soaring Demons. It instead knocked Biling, who was no longer able to think straight, away from it.

The wind knocked Biling back, but her heart had shattered further into pieces!

The Sea Gong Fighter was the strongest on the defensive side. It was the biggest hindrance for the Scarlet Soaring Demons, so the sea monsters were obviously going to take the Sea Gong Fighter out first while it was by itself.

The Sea Gong Fighter's lower limbs had broken, but it did not sit and wait for its death. The beast kept swinging its sharp gongs around as the enemy kept coming from all directions, slaughtering the Scarlet Soaring Demons!

However, the sea monsters had not noticed the ground was rising and the seawater falling...

"AWOO!"

A series of thunderous howls suddenly came from behind the library. They burst out of the woods like a ferocious gust of wind and surged toward the beach!

The students trembled after hearing the howls.

A strong wind blew past as huge creatures with white fur poured down the hill. Some even jumped over the students' heads and sprinted at the Scarlet Soaring Demons like they had spotted some delicacies!

The wolves just kept coming. The students would occasionally see wolves built like giant bears ramming at the Scarlet Soaring Demons menacingly!

The students in the library were stunned when they saw the overwhelming number of wolves. Since when was there a wolves' den behind their library?

There were White-Marked Wolves, Enormous White Wolves, and Moon-Devouring White Wolves...

Mo Fan had collected a lot of Soul Essences recently. He had sacrificed half of them to the Magic Medium Ring and increased the capacity of the Beast Tide to three hundred and thirty-three Summoned Beasts!

There were around three hundred White-Marked Wolves, twenty Enormous White Wolves, and thirteen Moon-Devouring White Wolves!

There were only eleven Moon-Devouring White Wolves before, but each of them was a Commander-level creature.

Mo Fan had purposely given two Commander-level Soul Essences to two of the Enormous White Wolves so they were able to evolve into Moon-Devouring White Wolves for this battle. Therefore, he now had thirteen Commander-level wolves under his command!

If the spell did not have a time limit and was so energy-consuming, Mo Fan would not have treated these petty creatures seriously. His army of wolves could easily take care of the sea monsters. He did not have to lift a single finger!

This was his army!

Chapter 1923: Wolf Army vs Scarlet Soaring Demons

Thirteen Commander-level Moon-Devouring White Wolves led the way as the army of wolves charged at the Scarlet Soaring Demons. The water nearby had been drawn away constantly by Deng Yongchuan and other Water Mages. It looked just like the tide was falling rapidly away from the beach.

Shallow water was not much of a problem for the Moon-Devouring White Wolves and the White-Marked Wolves. The remaining puddles splashed everywhere as the Moon-Devouring White Wolves lunged at the Scarlet Soaring Demons, their claws tearing around and ripping at the sea monsters' throats with their fangs. The Scarlet Soaring Demons were just like ordinary Warrior-level creatures when there was no water around. The Commander-level Moon-Devouring White Wolves could easily massacre them all!

The Moon-Devouring White Wolves attacked multiple Scarlet Soaring Demons at once. Their fangs tore at the vulnerable parts of one Scarlet Soaring Demon, causing blood to splatter everywhere, while their claws crushed the bones of another Scarlet Soaring Demon to pieces. They promptly pounced at other Scarlet Soaring Demons nearby without having to confirm the deaths of the previous two. They wove through the Scarlet Soaring Demons, rending with their claws at every step, killing the Scarlet Soaring Demons in a straight line. Almost every Moon-Devouring White Wolf was capable of doing the same!

"Awooo!"

The Warrior-level Scarlet Soaring Demons were never Big Wolf's target. He had set his eyes on the three Scarlet Rending Demons, who were about the same color as lava.

Big Wolf let out a provoking cry. He was basically telling them, "Come at me, the three of you!"

The leader of the Moon-Devouring White Wolves was extremely proud, yet he did have the right to be full of himself, as he was now a Great Commander, and his strength significantly surpassed the rest of the Moon-Devouring White Wolves. Meanwhile, the three Scarlet Rending Demons were only Lesser Commanders. They were a lot weaker than the Scarlet Rending Demon that Mo Fan had bumped into at Wuyuan Bay.

Big Wolf had a hot temper. When he saw the Scarlet Rending Demons standing still, he simply cleared a path by shoving the Scarlet Soaring Demons in his way aside and took the initiative to attack them!

The three Scarlet Rending Demons were surrounded by over a hundred Scarlet Soaring Demons. They assumed they were safe, but the Aura of the Moon-Devouring White Wolf gave them a huge fright when it charged at them.

Second Wolf and Third Wolf did not have good tempers, either. As the second and third leaders of the wolf den, they clearly did not want to fall too far behind Big Wolf, so they also targeted the Commander-level Scarlet Rending Demons. As the Scarlet Soaring Demons were shoved away by Big Wolf, they also managed to clear paths toward the Scarlet Rending Demons!

"Awooo!"

Mo Fan's Beast Tide had not Summoned just the thirteen ferocious Moon-Devouring White Wolves; there were around three hundred White-Marked Wolves too! The lesser wolves sprinted down the hill toward the beach. Those watching felt like they had outnumbered the Scarlet Soaring Demons several times over, even though the Scarlet Soaring Demons still had an advantage in numbers. They were ready to reap a harvest!

The wolves charged ahead. The morale of the White-Marked Wolves peaked as their commanders were clearing paths ahead. They dove in and began to tear the Scarlet Soaring Demons to pieces!

A beast covered in blood and wounds slowly limped its way out of the pack of wolves amid the chaos.

Biling had returned to the beach. She burst into tears of joy when she saw her Sea Gong Fighter had survived.

The Sea Gong Fighter was very tenacious. Many of its bones were exposed after the Scarlet Soaring Demons tore its flesh apart, but it was still alive. However, if it weren't for the hot-tempered Big Wolf, Second Wolf, and Third Wolf, the Sea Gong Fighter basically had no chance of surviving. The three reckless creatures had traumatized the entire troop of Scarlet Soaring Demons so much that they had completely forgotten to deal the final blow to the Sea Gong Fighter.

"Where did so many Summoned Beasts come from?" the student representative blurted out in disbelief.

It was unbelievable! The ferocious wolves were like heavenly soldiers. The library that was going to fall had instead turned into a bloodbath for the Scarlet Soaring Demons. The escape routes of the Scarlet Soaring Demons had been removed by Water Magic, and now they were no longer able to retreat to the strait!

The Scarlet Soaring Demons totally lost their sense of security after the water in the area was drawn away, and were like a sheet of loose sand when the army of wolves charged in at them. It served as a great contrast to the wolves, who were becoming braver the longer they fought.

“These...these are all your Summoned Beasts?” Biling went back to the library. She was no longer able to shift her teary eyes away from Mo Fan.

Biling was a Summoner, with the Summoning Element as her primary Element. Her Beast Tide could only Summon fifty demon rhinos at most to trample the enemy within a certain area. Such numbers were limited in use against the Scarlet Soaring Demons, as the fifty demon rhinos would soon lose their momentum against the overwhelming numbers of the Scarlet Soaring Demons.

Meanwhile, this commander’s Beast Tide was not only Summoning a bunch of creatures to clear a path, but he had simply moved a whole den of wolves from the Summoned Beast Plane over to their world. These well-trained wolves seemed to have all come from the same tribe. They were massacring the sea monsters!

“Why can you Summon so many of them at once? How did you do it?” Biling knew now was not the best time to ask it, yet she could not hold the urge back.

Three hundred Summoned Beasts! It was impossible for a normal Summoner to Summon so many creatures at once. It was not even a Super Spell!

Mo Fan did not answer her. He looked like he was very focused.

The truth was, he was not really doing much, since he had let Apas control the wolves. He could just answer the woman, yet he believed he should be reserved at times so he would be more mysterious to others.

This Miss Biling had basically taken the bait!

“We’ll discuss it in private once we are done here.” Mo Fan grasped the situation perfectly. He gave Biling a glimpse of hope just when she was about to feel disappointed.

“Oh... Sure, either way, you’ve saved my Sea Gong Fighter. Thank you so much,” Biling told him.

“I understand the precious relationship between a Summoner and their Contract Beast,” Mo Fan said.

Biling nodded solemnly.

She looked at the wolves and suddenly thought of something. If this was only his Beast Tide, what about his Contracted Beast? He had yet to Summon his Contracted Beast!

Chapter 1924: Dark Moon Crystal

“Time to continue, I’m done resting. It’s time to give these things some wild blasts!” Mo Fan returned to the high ground on the library.

The students were still firing their spells at the strait from above the library. However, the damage inflicted by their Intermediate Spells was fairly limited. The number of Scarlet Soaring Demons they had killed until now was still less than what Mo Fan had killed with a single Super Lightning Spell!

Their eyes glittered when they saw Mo Fan had returned, especially Lin Du.

“Brother Mo Fan, you’re back,” Lin Du greeted warmly.

Mo Fan felt a little awkward when he heard how the man addressed him. Imagine a man in his sixties calling a young man in his twenties ‘brother’. How were the rest of the directors and teachers in their forties going to feel?

“Senior, we still need your help to hold the lines.” The teacher with the Wind Element sensibly changed the way he addressed Mo Fan.

They had around a hundred people, yet their damage could not even match a single spell from Mo Fan. His strength definitely deserved their respect, regardless of their age difference.

“Senior, do you already have two Elements at the Super Level? Are those wolves yours too?” a female student who was resting asked in admiration.

“You’ve truly embarrassed us all. Even with us all combined, we are still not as good as you. Your strength is comparable to a troop of soldiers!” Lin Du sincerely expressed how impressed he was.

When they were fighting the Number One Disastrous Beast, Super Mages like Lin Du felt like there was nothing they could do. They were unable to locate the enormous beast’s weaknesses, and they were afraid of dying to the beast.

However, Mo Fan had managed to Seal one of its bone whips, or more Super Mages might have died in the battle.

Even now, Lin Du could not help but admit how strong Mo Fan was after witnessing his Lightning and Summoning Elements.

“Not really, my destructive spells could only do so much too if it weren’t for your help,” Mo Fan replied humbly.

Mo Fan’s Lightning Element was running out of enough energy for him to use the Super Spell. He could only Cast it twice more at most. Unfortunately, there was no one with the Blessing Element among them. If someone like Xinxia was around to replenish his energy, he might be able to fire a few more blasts at the sea monsters. He would be able to kill around three thousand Scarlet Soaring Demons before they even reached the island!

The number of sea monsters that were entering the island was currently at its highest. Mo Fan fired two Super Lightning Spells at the strait and eliminated around seven hundred more Scarlet Soaring Demons. The mouth of the strait was choked with the dead bodies of Scarlet Soaring Demons. Not only were the students dumbfounded, even the military and the members of the Magic Association at Gaoqi Airport and Jimei Bridge were astounded.

—

“The energy of my Lightning Element has depleted. I can only use my Fire Element from here on.” Mo Fan took a deep breath. His face was a little pale.

“You should get some rest. Even though different Elements have a different energy supply, you will still wear yourself out if you keep using your magic. I can see that you’re a little overdrawn,” Lin Du said.

“I’m fine, my Fire Element won’t consume a lot of my energy. Oh, can I ask you something? I keep detecting an unusual aura from the school. I believe it’s Dark Magic. Is there a special place brimming with its energy in the school?” Mo Fan asked.

Mo Fan had sensed a strong dark Aura after he arrived at Jimei University. It was not an evil presence, but a pure source of dark energy. It was coming from the hill behind the library.

“You’re very sharp. Our school does indeed have a Dark Moon Pavilion. An ancient scholar built it to collect the dark energy over time, thus our school’s Dark Magic is quite outstanding, especially the Shadow Element. Unfortunately, our Shadow Mages can’t really do much in a battle like this,” Lin Du said.

“My Fire Element is greatly hindered due to the environment. It won’t be as effective as the Lightning Element, but the sea monsters are still invading the island. If we don’t control their numbers, it will result in huge casualties, so I’m wondering if I should try using the Shadow Element...” Mo Fan said.

“The Shadow Element? It’s not a destructive Element, though?” Lin Du and Deng Yongchuan were confused by Mo Fan’s suggestion.

“I have a Dark Material that can attack the enemy, but it needs time to spread and grow...” Mo Fan said.

Mo Fan’s Dark Material was similar to the Plant Element, which required the Mage to plant seeds under the ground and wait for them to sprout and their roots to grow. Mo Fan was unable to spread his Dark Material two kilometers away and form the Swamp of Darkness in the area where the sea monsters were.

“We haven’t seen a lot of offensive Dark Material before, but if you can do it, we are willing to provide you with the dark energy. It is possible to share the Dark Moon Pavilion’s energy. I will go and get the Dark Moon Crystal for you!” Lin Du immediately turned around.

“Director Lin, I don’t think that’s a good idea...” Deng Yongchuan was a little hesitant.

Deng Yongchuan was obviously going to hesitate since the Dark Moon Pavilion needed a long time just to refine a single Dark Moon Crystal. It was the most valuable possession of Jimei University. They would only use it on occasions when their school was being assessed!

How could they give away their treasure so easily?

“Now isn’t the time to keep it to ourselves! Brother Mo Fan isn’t obliged to help Xiamen in the first place, yet he’s willing to risk his life for us. Are we going to wait until the city is destroyed just because we want to hold on to the Dark Moon Crystal?” Lin Du said righteously.

Lin Du had obviously recognized Mo Fan. He knew Mo Fan was the student who had won the World College Tournament.

“Err, I’m only borrowing its energy. Why do you sound like I’m going to destroy it?” Mo Fan asked with a confused face.

“Brother Mo Fan, you might not know this, but the Dark Moon Pavilion is a tower that absorbs the energy of the moon. Normally, students can cultivate in it to boost their efficiency, but its greatest power is the ability to refine a Dark Moon Crystal when there’s sufficient moonlight. The crystal contains an enormous amount of pure dark energy, but the tower has only produced a single crystal over the past few years. Your Shadow Element will improve greatly if we give it to you! However, it’s more of a consumable, so it will be gone once you use it...However, we are willing to give it away if you can take out another wave of those sea monsters. Besides, you won the World College Tournament for our country. You have more right than anyone else to claim the Dark Moon Crystal!” Lin Du explained.

Chapter 1925: Sea Monster Agate

Pearl Institute had the Three Step Tower, which served as the backbone of the school.

The Dark Moon Pavilion was Jimei University’s equivalent landmark. Mo Fan had only sensed a source of dark energy at first, and did not expect the school to have such a unique heritage.

“I didn’t know it’s a consumable. The school should hold on to it. After all, I’m not from this school.” Mo Fan belatedly realized how precious the thing was. He sounded a little apologetic.

He might say that, but what the others thought he meant was no longer within his control!

As he thought, Deng Yongchuan seemed a little embarrassed after hearing Mo Fan’s words.

“I...I’ll go get it now.” Deng Yongchuan finally agreed with Lin Du. If the city ended up as debris and became a part of the sea, it was meaningless for them to hold onto their valuables.

Even though it was a waste to use the Dark Moon Crystal’s energy just to cast a spell, it would not kill a single sea monster if it was just kept on display!

Time was running short. Deng Yongchuan placed his students in charge of keeping the water away before he quickly headed to the Dark Moon Pavilion.

The Dark Moon Pavilion was located further inland. Deng Yongchuan would need some time to get it. Mo Fan looked toward the beach as he was catching his breath and saw the battle between his army of wolves and the Scarlet Soaring Demons had reached the most intensive stage.

The Scarlet Soaring Demons were in a terrible spot. The Commander-level Moon-Devouring White Wolves were simply too strong for them. The White-Marked Wolves just had to stick with their leaders and pick on the injured Scarlet Soaring Demons.

Mo Fan roughly estimated that the Scarlet Soaring Demons were about as strong as the White-Marked Wolves on the land. It was difficult to tell who was going to win if a White-Marked Wolf was fighting a Scarlet Soaring Demon, but the Scarlet Soaring Demons had already lost their morale. In addition, the students on the library roof were giving the army of wolves a hand too!

The outcome was very obvious. It was a one-sided victory!

“Awoo!!”

A Moon-Devouring White Wolf suddenly withdrew from the battle. It ran up the hill where the library was on and landed in front of Mo Fan after doing a flip in the air. It was like a ninja among the wolves!

Mo Fan looked at the wolf. He was not sure which one among the thirteen Moon-Devouring White Wolves it was. He could only recognize the three leaders.

The Moon-Devouring White Wolf lowered its head onto the ground like a humble servant. It placed an object glowing with a bloody-red light in front of Mo Fan.

“What’s this?” Mo Fan stared at the object with a confused face. He picked it up from the ground.

“Brother Mo Fan, it’s a Sea Monster Agate, a valuable item that contains the sea monster’s power. It can improve a Water Mage’s control of the Water Element significantly...” Lin Du told Mo Fan with glittering eyes.

“Improve a Mage’s control? This thing here?” Mo Fan said.

“Yes, and it’s extremely rare. If you craft a ring or a bracelet with it, you can sell it for a high price,” Lin Du said.

“For how much?” Mo Fan asked.

“Depends on the buyer, but at least seven hundred million.”

Mo Fan dropped his jaw. The price took him by surprise.

Money!

He loved money the most!

The object was more valuable than a Commander-level Soul Essence. It seemed to have dropped from one of the Scarlet Rending Demons. The Commander-level Moon-Devouring White Wolf immediately knew it was valuable with just a little sniff. It immediately returned and offered it to its master!

“Well done, I remember you now, I won’t forget you if I have something good for you,” Mo Fan patted the Moon-Devouring White Wolf that had lost half of its right ear. He was extremely pleased with the sensible creature!

The Sea Monster Agate was rather fragile, and the battle between the wolves and the Scarlet Soaring Demons was very chaotic. It would be quite normal if some idiot happened to step on the Sea Monster Agate and break it. Luckily, the chop-eared wolf was quite intelligent. It immediately gave it to its master.

"I've brought the stuff!" Deng Yongchuan's voice came from behind them.

Mo Fan was still holding the warm Sea Monster Agate. Deng Yongchuan immediately noticed it when Mo Fan turned around. He immediately stood still and stared at the thing in Mo Fan's hand.

"A Sea Monster Agate!" Deng Yongchuan exclaimed.

"Yeah, my Summoned Beast found it from a sea monster's dead body," Mo Fan said. He immediately realized something when he noticed the passionate look in Deng Yongchuan's eyes. He took the initiative to speak, "How about this? I feel a little bad for taking the school's valuable. I shall give this Sea Monster Agate which my army of wolves risked their lives to acquire to you as a gift."

"No way, we can't accept it. It's your personal loot. Our school has offered you the Dark Moon Crystal to protect the island. It's not the same, so please put it away," Deng Yongchuan said sternly.

It was exactly what Mo Fan was waiting to hear. He nodded and put the object into his Space Bracelet.

"This is the Dark Moon Crystal. It's a consumable. Go ahead and absorb its energy. It can temporarily provide you with abundant dark energy and greatly increase your cultivation," Deng Yongchuan said.

"My Shadow Element has already peaked," Mo Fan said.

"Oh, it will still benefit you," Deng Yongchuan reassured him.

Mo Fan received the Dark Moon Crystal. He felt a soothing coldness flowing from his arm to his chest as soon as the crystal was in his hand. He felt the anxiety and worry in his heart cooling down. His thoughts were unprecedentedly calm and clear!

Darkness did not necessarily represent evil. Pure dark energy would actually provide a person with a sense of security, especially when their lives were being threatened. It would bring calmness and decisiveness when the person was surrounded by danger!

"Break it into pieces," Lin Du instructed him.

Mo Fan nodded. His eyes suddenly emitted a dark flicker with a unique iciness!

Mo Fan broke the Dark Moon Crystal. Its pieces began to spread into his surroundings while defying the law of gravity. They did not travel very far away, simply floating around Mo Fan. They were inspecting Mo Fan like they were alive, seeming to have found a suitable candidate for them to reside in. After a brief pause, the pieces entered Mo Fan's body.

The pieces seemed sharp, yet they transformed into a glowing liquid and dissolved into Mo Fan's body instantly!

Chapter 1926: The Super Level Shadow Element and its Unbearable Thirst!

Mo Fan already had the Flogging Curse and Fiendish Night in his body. He initially thought the Dark Material would absorb the pieces in no time, yet he noticed the energy flowing to different parts of his body, like they were trying to activate different acupuncture points across his body!

There were a few dozen pieces of crystal. A strange flow of energy circulated inside Mo Fan's body under their influence, following the path which the pieces were lined up in.

Mo Fan felt like he suddenly had extra blood vessels inside himself. The difference was that his blood vessels contained blood, but these meridians had a pure dark energy flowing in them!

The Dark Material in his body suddenly reacted like a bunch of little elves who had found a stream after coming out of a desert. They immediately dove into the dark energy meridians!

A huge area around Mo Fan was suddenly covered by darkness, as if a lunar eclipse was happening, only the dark energy meridian that were transparent on Mo Fan's body were emitting a strange light!

Lin Du, Deng Yongchuan, and Biling were startled. They had no idea what to do upon witnessing Mo Fan's transformation, nor did they know what was going on.

"Did the Dark Moon Crystal expire after so long? Why do I feel like he's going to melt at any second?" Deng Yongchuan said with a worried look.

"Err... let's observe it for a little longer. There shouldn't be any problem. The Dark Moon Crystal was refined during the month with the strongest exposure to the moonlight around ten years ago. We have no clue how pure the dark energy in it is," Lin Du said.

"Professor Lin, aren't you worried that the dark energy will overwhelm him instead? Why did you let him absorb the energy just like that?" Biling said with a concerned look.

Everyone knew that the Dark Magic was like a double-edged sword. It would have great consequences for the person absorbing it if it was not controlled properly. Many Mages who practiced the Curse and Undead Elements had died from the serious injuries their souls had suffered from practicing Dark Magic!

—

A while later, the phenomenon resembling an eclipse finally came to a stop, but the light Mo Fan was emitting previously had gathered in his eyes instead. His eyes were now like the cold moon hanging in the night sky. They would catch people's attention without them knowing!

"Brother Mo Fan, how was it? Are you alright?" Lin Du asked with a worried face.

"I'm great, I'm perfectly fine!" Mo Fan assured the man. Even though his expression was not telling much, his lips had curled upward slightly. It was a sign that he was brimming with confidence!

"Are you able to kill the sea monsters?" Deng Yongchuan asked.

A few waves of the Scarlet Soaring Demons had already reached Gaoqi Airport after Mo Fan stopped using his Lightning Spells. Even though the military was defending the airport, the soldiers struggled to stop every Scarlet Soaring Demon, as the creatures were invading the city from different points. There were also still a great many civilians in the city. Deng Yongchuan had begun to panic. If it had been

possible to transfer energy to others like a blood transfusion, he was more than willing to share all his energy with Mo Fan!

“Yes, I can kill many of them!” Mo Fan declared confidently.

“How?” Biling asked.

“The same old way. Try to gather the sea monsters in the same area and I’ll take them all out!” Mo Fan’s tone had changed too.

“Is it fine if they are underwater?” Lin Du asked.

“That’s fine, the water won’t hinder my Shadow Element, but I’ll have to get closer,” Mo Fan said.

“You sure? It’s very dangerous, those sea monsters can still attack you even if you’re in the air,” Deng Yongchuan said.

“I’ll give you a ride,” Biling did not ask too many questions. They had already witnessed Mo Fan’s strength. They were willing to help Mo Fan as much as they could if he was able to kill the sea monsters.

Biling quickly drew a blue pattern of the Summoning Contract in front of her. It resembled a gate, from which a mystical blue spirit quickly appeared.

The mystical spirit’s appearance was rather unique. They could only see a pair of wings and not its body and head from a certain distance away.

Mo Fan was astounded when he saw the creature.

“It’s a Magic Feather Imp. It can wrap its body around an enemy like a tentacle and lift them into the sky if they can’t fly. It will then drop the enemy and let them fall to their death... These imps aren’t too friendly, but they can be used as a flying tool,” Biling explained.

The mystical creature had already wrapped itself around Mo Fan like an octopus while they were talking. Its wings happened to be on Mo Fan’s back...

It felt like he was wearing a backpack with wings, but the backpack was actually a rare creature!

Mo Fan was quite surprised. He had never seen this kind of creature before. It must be a unique species among the Winged Beasts.

“It’s a mischievous creature, so I’ll have to stick close to you in case it doesn’t want to behave itself. I’ll go with you,” Biling said.

Biling cast a Wind Spell and Summoned a pair of Wind Wings onto her back.

Biling had the Wind Element, so the Magic Feather Imp was not that useful for her. She had almost forgot she had a second Contracted Beast.

“Alright, we’ll go together. We’ll stick to the plan...” Mo Fan nodded.

The Magic Feather Imp was in high spirits. It beat its wings and took off into the sky before Mo Fan could finish the sentence.

Normally, a flying creature would have great coordination between its body and wings to maintain its balance, but when Mo Fan took off with the Demon Feather Imp, it felt like the wings were separating from him. Well, the wings were not attached to him in the first place. As a result, it felt more like an eagle was holding a little chick in its claws, and Mo Fan was the chick!

—

Mo Fan finally recovered his balance after he was up in the sky. He glanced resentfully at the Magic Feather Imp lying on his back!

“Damn it, I was trying to act cool after having a breakthrough, but this idiot ruins it all!” Mo Fan held a strong grudge against the creature for embarrassing him in front of the others. The Magic Feather Imp was truly a problematic beast. He actually thought the creature was special and useful at first.

“Senior, we are almost there,” Biling said.

Mo Fan grinned once again.

It was time to satisfy the thirst of his Super Level Shadow Element!

Chapter 1927: Super Level: Dark Execution Ground

Mo Fan looked down at the water and saw bulging eyes sticking out from fishlike heads. They were staring up at the uninvited guest in the sky above them.

A Scarlet Rending Demon riddled with injuries suddenly starting shrieking among the sea monsters. It kept sweeping its claws in Mo Fan’s direction. Mo Fan was amused when he saw the Scarlet Rending Demon that had lost an arm. It was one of the Scarlet Rending Demons that had escaped from Jimei University.

The creature had recognized him. It was telling its comrades that he was the one who had been bombarding them with the Lightning Element. He was the culprit who had killed many of their comrades!

The Scarlet Soaring Demons were planning to invade Gaoqi Airport, but they immediately turned around after hearing the Scarlet Rending Demon’s screams. They started swimming toward Mo Fan.

“Here they come!” Biling’s face paled. She had never faced so many demon creatures at such a close distance before. The fishy stench of the sea monsters was so strong that she felt like she was going to faint, not to mention the pressure from their glares.

Mo Fan looked up and told Biling, “Go higher. I’ll wait until more of them take the bait.” Her slim legs were completely exposed from his angle.

“But you...” Biling was still worried about Mo Fan’s safety.

“I’m fine, go ahead. From here on, I will kill every Scarlet Soaring Demon that shows up!” Mo Fan said confidently.

Biling nodded. She started rising to a safer height.

In addition to the huge groups of Scarlet Soaring Demons, there were quite a lot of Scarlet Rending Demons beneath Mo Fan now. They had stacked on top of one another like a platform so their attacks were able to reach him.

Mo Fan took his time when he noticed the trick the creatures were trying to pull off. However, the Magic Feather Imp on his back was a little intimidated. It beat its wings to escape from the area.

“Behave yourself, or I’m going to kill you first!” Mo Fan did not go easy on the Magic Feather Imp this time. He directly applied his Aura of dark magic toward the misbehaving Magic Feather Imp, forcing it to obey him.

The Magic Feather Imp realized Mo Fan was seriously going to kill it if it tried to run away on its own. It had no choice but to carry Mo Fan while staying at a dangerously low height.

“They are seriously holding a strong grudge against me,” Mo Fan murmured after glancing at the sea.

The Scarlet Soaring Demons were gathering toward him like they were organizing a protest. Even the water was unable to flow between them now. They were like demons crawling out of an abyss, trying to drag living creatures like Mo Fan down and tear him into pieces!

Mo Fan remained calm, using simple tricks to dodge the Scarlet Rending Demons’ attacks.

Biling was even more worried when she saw Mo Fan’s approach.

Mo Fan was simply playing with fire. She could already see the Scarlet Soaring Demons channeling their power to increase the height of the waves in the area. The Scarlet Soaring Demons were no longer just standing atop one another’s bodies. Even the water had formed a platform for the Scarlet Soaring Demons to climb up higher. Many of the Scarlet Soaring Demons could already reach Mo Fan with a jump.

“Strange, why do I feel like he’s fading away?” Biling suddenly noticed Mo Fan’s figure fading into the rain at times, like he had completely disappeared.

Biling realized Mo Fan was using himself as bait by staying at a height where only some of the Scarlet Soaring Demons, instead of the whole pack, could reach him. However, to her surprise, the duration of Mo Fan turning invisible grew longer as time went by!

Mo Fan would only disappear into the rain at times at first, but he was actually invisible most of the time now. She would only notice he was actually at the same spot the whole time after a while.

What is happening here?

Biling was utterly confused. She watched Mo Fan closely...

Mo Fan hovered in the rain, while his body kept turning invisible. Biling placed all her attention on him, yet she still did not understand what was causing it. Little did she know, a strong darkness had long spread through the area between the sky and the water!

When dusk arrived, people might not notice when the last glimpse of sunlight vanished below the horizon. Likewise, no one had noticed when the thick darkness in the air had appeared. Both the Scarlet Soaring Demons below and Biling higher up in the sky were not aware that the light in the area was slowly being devoured by something. However, the people further away could see nothing but darkness. It had a clear boundary, like it was a completely different world!

The Scarlet Soaring Demons still had no idea they were inside a zone of darkness. They kept lunging, biting, swinging their claws, spitting poison, and firing their spikes into the sky.

They were screaming with fury. Many dead bodies were floating in the nearby waters, and almost half of them were the brilliant work of Mo Fan. The vengeful creatures could not wait to swallow him alive!

“You petty creatures know about hatred and anger too?” Mo Fan was amused when he saw the expression on the ugly sea monsters’ faces.

The demon creatures on land were fighting humans to compete for the limited resources, but what conflict did the sea monsters in the oceans even share with humans?

They were just being greedy!

Did they really think humans were some prey they could slaughter as they pleased just because they could abuse the size of the oceans and the advantage the Creator had granted them?

Did they really come to a human city to hunt humans?

Mo Fan could not wait to see who the true prey was in the end!

“Dark Execution Ground!”

The Dark Moon Crystal had planted a lot of Seeds of Darkness for Mo Fan. The Scarlet Rending Demons were still enjoying the elegant view of the setting sun. Little did they know, the night curtain with a dangerous aura had already arrived!

Several Scarlet Rending Demons suddenly burst out of the water and lunged at Mo Fan.

Mo Fan’s figure vanished into thin air when the Dark Magic poured out, leaving only deadly darkness in the area!

Inside that darkness, an execution ground using the darkness to set up its boundary had appeared out of nowhere. Most shockingly, a shadow guillotine made up of countless shadow fiends was hanging at its highest point, almost reaching the clouds!

The shadow guillotine was as enormous as a magical artifact in the hands of a deity as it pointed down at the mundane sea. The Scarlet Soaring Demons in the sea lifted their heads and finally saw the icy shadow guillotine. Even though it was still hanging in the air, the sea monsters started suffering a mental breakdown, as if their heads were being held in place under it!

Chapter 1928: Group Execution: Shadow Guillotine

“Execute!”

Mo Fan was like the Executioner of the World of Darkness. His voice had an inviolable authority and an overwhelming killing intent!

The guillotine fell from the clouds and chopped down at the Scarlet Soaring Demons and Scarlet Rending Demons in the execution ground mercilessly.

To the naked eye, a huge shadow guillotine was falling from above, yet to the Scarlet Rending Demons, after the Dark Execution Ground bore down on them, they were like a bunch of slaves whose necks had been placed under a guillotine made specifically for them. They were suppressed by the Dark Magic and could only prostrate themselves feebly in the execution ground. When they turned their heads and looked up, all they could sense was death and the chill of their own fear!

There was nowhere to hide. Their minds and souls were massively suppressed. The countless Scarlet Soaring Demons had all been sentenced to death by Mo Fan, the Executioner!

These sea monsters might not turn into scattered souls from the descending blade, yet they would cease to exist between the sky and the sea. It was a true obliteration for them. It was worse than death!

With a loud snap, an eerie event took place in the strait that was still crawling with the Scarlet Soaring Demons. Their heads were chopped off their bodies, as if thousands of axe-bearing demons had executed all of the Scarlet Soaring Demons at the same time after receiving their order!

The sea monsters on the surface of the water, on top of the platform they had stacked up into, and hiding under the water had all lost their heads. Not a single drop of blood was spotted, only a puff of black smoke was rising from the cuts.

Certain execution grounds would use black gauze to slightly hinder the crowd’s vision, just so the scene would not be so gory to ordinary people and they would not feel so uncomfortable after witnessing an execution. It was exactly the same situation. The cloth fell to the ground after the headsmen were done with the execution. The people would only see a headless body and a head rolling on the ground. The main difference was that Mo Fan was not just doing it to a Scarlet Soaring Demon, but thousands of them at the same time!

The Dark Execution Ground was like a curtain falling away. Everything returned to normal after the execution was done, leaving no sign of the darkness behind. There were only lots of dead bodies in the strait. There was no blood, which made it even creepier!

“They are...all dead?” Biling was flying right above Mo Fan. She was able to survey the whole shocking scene just by looking down. The name of the spell had said it all. It was literally an execution ground, now full of the dead bodies of the sea monsters who had just been executed!

There was not a single living creature below her apart from Mo Fan, who was currently shrouded by a layer of darkness. The Scarlet Soaring Demons and the Scarlet Rending Demons were all dead. The deaths resulting from the Shadow Element had significantly surpassed the deaths caused by his Lightning Magic.

“Your...Your Shadow Element is at the Super Level too?” Biling stammered after some time.

“Thanks to the Dark Moon Crystal your school has provided me with. It helped my Shadow Element to improve in advance... Mm, I’m indeed a Super Shadow Mage now,” Mo Fan smiled. He remained hovering in place, waiting for the Soul Remnants that were flying towards him like a meteor shower.

Biling stared at Mo Fan blankly.

Two Elements at the Super Level!

The Lightning Element!

The Shadow Element!

It had not been that long since the World College Tournament ended. The participating countries had yet to hold selections to choose their candidates for the next World College Tournament, yet the young man had already become a Super Mage with two Elements at the Super Level. It was unbelievable!

The Dark Moon Crystal was indeed a valuable possession of Jimei University, but it was nowhere enough to turn an Advanced Shadow Mage into a Super Mage. It still depended on the person’s cultivation and their compatibility with the Shadow Element. The Dark Moon Crystal was not necessarily suitable for every Shadow Mage.

“What...what should we do now?” Biling was a little lost, but her thoughts were still focused on their mission.

The goal of their mission was to thin out the sea monsters’ numbers in the strait, and had already gone beyond her expectations. They did not just thin out the army of sea monsters. It almost felt like they had wiped out the majority of the invaders!

“There’s still some energy of the Dark Moon Crystal left. I can use the Dark Execution Ground twice, but these Scarlet Soaring Demons...” Mo Fan pointed at the remaining numbers of the Scarlet Soaring Demons.

Countless heads were floating on the sea. Mo Fan had slain a spectacular number of sea monsters with that group execution, but it was only a small number compared to the entire army of sea monsters that were invading Xiamen. Mo Fan could not possibly defend the entire city alone. All he could do was to thin out the number of sea monsters as much as possible.

“They are scattering. They are no longer invading through the strait!” Biling exclaimed after observing the movements of the Scarlet Soaring Demons.

“Mm, this isn’t the only entry point into the city. Wuyuan Bay is a great entry point too, and the Sea Magical Beasts are there, too. The tide must have risen by now, so the Scarlet Soaring Demons should be heading there now,” Mo Fan said.

“There’s nothing we can do about that. However, as long as the Scarlet Soaring Demons aren’t invading through Gaoqi Airport, the people heading to Jimei Bridge are going to be safe. Even if the sea monsters invade through Wuyuan Bay, the areas nearby have long been evacuated. Our efforts here weren’t wasted!” Biling declared.

The Scarlet Soaring Demons were obviously intimidated by Mo Fan’s magic, and in response had scattered to invade the city through other areas. The strait was quite a distance away from Wuyuan Bay. The people would all be gone by the time the creatures reached the city!

Mo Fan nodded. Biling was right, they had done plenty of good work for the city.

He looked down at the corpses blanketing the water. A pungent stench rose into the sky. Even the rain could not cover the smell!

“Super Shadow Element... I thought my Fire Element would reach the Super Level first, I didn’t think the Shadow Element would reach the Super Level first. This trip was definitely worth it!” Mo Fan was overjoyed as he observed the outcome of the battle.

Now that he thought about it, if his Dark Material had not been strengthened lately by acquiring the Soul-grade Flogging Curse, he might not have been able to achieve the Super Level so easily. After all, the breakthrough from the Advanced Level to the Super Level was extremely difficult.

Jimei University had seriously given him a huge gift!

Now that he had two Elements at the Super Level, whoever claimed to be the youngest Super Mage no longer stood a chance against him!

Chapter 1929: Elder of the Darkness Tribe

—

Mo Fan did not hover above the sea for too long. It was not like he didn’t want to contribute to the battle anymore, but he might have caught the attention of some powerful sea monsters after using such a strong Shadow Spell.

The horde of sea monsters obviously had quite a number of Commander-level sea monsters. There might even be more Ruler-level creatures there. His Lightning Magic had already depleted, and his Shadow Element had just had a breakthrough. He had not learned how to draw the Shadow Star Palace, so it was unlikely he would stand a chance against a Ruler-level sea monster!

The Dark Execution Ground had beheaded at least nine hundred Scarlet Soaring Demons. The spell had greatly reduced the size of the army of sea monsters and lifted the pressure from the shoulders of the military at Gaoqi Airport.

“Let’s go back to the library,” Mo Fan said.

“Alright...” Biling maintained her altitude as she followed Mo Fan back to the library.

Fierce waves were still rolling below them. They looked like sand dunes moving forward rapidly. Mo Fan did not have the chance to familiarize himself with his potential new spell after his Shadow Element reached the Super Level. The Dark Execution Ground was actually just a variation of the Plaza of Death, established with the energy of the Dark Moon Crystal. It was not actually a Super Spell!

“Strange, I keep feeling like something is watching us!” Mo Fan looked behind them anxiously.

He purposely glanced in Qiu Zi’s direction. The creature was far away from him. Mo Fan was a little confused. Why was he feeling so uneasy?

It felt extremely strange. It was not like he had sensed something was hiding nearby, nor were his instincts telling him that he was being preyed on based on his experience. He did not notice anything out of ordinary, either. Mo Fan had never felt like this before. He was unsure where the feeling had come from.

A gray shadow suddenly burst out from the water below. It sprang up like a phantom and almost instantly reached Mo Fan’s altitude.

Mo Fan was taken by surprise. Even though he was already on alert in case some powerful sea monsters showed up, being on alert was not necessarily enough to guarantee his safety. He could not even see the shadow clearly because of its incredible speed.

“Shadow Partition!”

The thought suddenly came out of nowhere when Mo Fan was in danger.

Mo Fan spread his arms apart like he was acting subconsciously. He somehow disappeared as he sank into a dark layer of shadow!

The sea monster slammed into the dim screen. It was just a thin layer of shadow, but to Mo Fan’s surprise, the sea monster simply went right through it. He was just like a mere reflection in the sky, and the sea monster had gone right through his body, but it did not harm him in the slightest.

Mo Fan turned around and saw the Ruler-level creature behind him.

He managed to get a close look at the Ruler-level sea monster. It was the same species as the Scarlet Soaring Demons, but the difference was that it had a metallic dark green skin. Its back was covered in extended coral-like crests. It was standing upright, but its upper limbs were like blades, while its lower limbs were built like the legs of a frog!

The creature did not have a very outstanding appearance. It was just as ugly as the Scarlet Rending Demons, but the coral-like crests on its back were astonishing. They clearly displayed how dangerous the creature was, as they corresponded to its noble status in its tribe!

“Mo Fan, are you alright?” Biling was terrified. She initially thought the creature had shredded Mo Fan to pieces.

Mo Fan looked at Biling and realized the danger she was in. He quickly yelled to warn her, “Go now, this thing is a Ruler-level creature!”

Biling had stopped because she wanted to help. To their surprise, the Ruler-level creature with coral reef fins immediately switched targets. It was supposed to be falling in the air, yet it managed to propel itself in a new direction with its powerful lower limbs!

Its kick slammed against the air, forcing a strong gust of wind at the sea. The force launched the Ruler-level creature higher into the air, like a menacing ray of light!

Biling immediately realized she was in danger. She quickly beat her wings to fly higher.

Mo Fan felt like his heart was on fire as he watched this.

He had used an ability he had learned out of nowhere to dodge the deadly strike from the Coral Fins Ruler, but Biling did not have the chance to dodge it. The Ruler-level creature was extremely cunning. It had switched targets as soon as it failed to kill Mo Fan first!

Fresh blood squirted like a fountain, dyeing the rain red.

Mo Fan was on the other side of the Dark Partition, like he was separated from reality. There was nothing he could do, as he could not even use his other Elements.

Mo Fan was infuriated by the scene before him when he returned from the Dark Partition.

A pair of legs covered in blood fell from the sky. They were cut off around fifteen centimeters above the knees, and belonged to Biling.

Biling's legs had been severed. Her cry amid the rain was heart-wrenching. Her blood mixed with the rain was pouring down right in front of Mo Fan.

"Die!"

Mo Fan was enraged. The meridians of the dark magic scattered across his body were activated suddenly!

A bolt of white lightning flashed across the dim sky and lit up the raindrops. The light it produced reflected Mo Fan's shadow.

The shadow was oddly visible in the curtain of rain. It spread together with Mo Fan's Dark Magic and went from the length of a normal human being to the size of the clouds!

The shadow caught up to the Coral Fins Ruler, which was still trying to attack the woman, and transformed into an elder of the Shadow Tribe!

A Shadow Tribe Elder was a rank higher than a Dark Swordmaster. Mo Fan did not just summon a weak rebelling shadow like he normally did. This was a true dominating entity from the Dark Plane!

The Shadow Tribe Elder was just like most phantoms. Its lower body was like a puff of smoke, but its upper body was a dozen times thicker. The Shadow Tribe Elder waved its hands at one another after sensing Mo Fan's wrath.

The Coral Fins Ruler tried to escape after it became aware of the approaching danger. However, when it looked around it, it noticed the Shadow Tribe Elder's hands were as enormous as the sky. It had no chance of escaping the hands, no matter how quick it was!

BANG!

The force was utterly terrifying. The Coral Fins Ruler was smashed between the hands. It began screaming an unpleasant cry in pain!

Chapter 1930: Preparing to Kill Qiu Zi!

Black smoke was rising continuously from the Coral-Crested Ruler's body. The Shadow Tribe Elder's claws had a strong corruptive energy in them. The Coral-Crested Ruler's body was rotting rapidly, while its bones were cracking under the force exerted by the hands!

"Kill it!" Mo Fan ordered the Shadow Tribe Elder coldly.

The Shadow Tribe Elder let out an eerie chuckle as it separated itself from Mo Fan's shadow. Mo Fan's own shadow disappeared right away. The lightning flashing in the rain now projected the complete silhouette of the Shadow Tribe Elder. It flew in the direction of its extended arms while its head enlarged significantly!

It was like a primordial demon that had captured some delicious prey. When the Shadow Tribe Elder crushed the Coral-Crested Ruler's bones, it treated the creature that was no longer able to defend itself as its tasty food. The Shadow Tribe Elder shoved the sea monster into its mouth and chewed it. Cries of agony echoed across the sky.

—

Mo Fan flew toward Biling, who was suffering from serious injuries. She had already fainted. The remaining energy of her Wind Wings was stopping her from falling into the water.

The Demon Feather Imp did not dare to behave mischievously. It obediently carried Mo Fan and Biling back to the Jimei Library.

The wolves were done with their battle, and were chasing the Scarlet Soaring Demons that were fleeing back to the sea. Since the duration of the Summoning Spell had run out, a small portion of the Scarlet Soaring Demons ended up escaping.

"Biling!"

"Miss Biling!"

The people immediately gathered toward them. Their faces turned pale when they realized her legs were missing.

"Is there a Healer here? Treat her wounds, quick!" Mo Fan ordered.

"I'll bring her over," one of Lin Du's students said.

Mo Fan watched Biling being carried away. He was not sure if she could survive. The injuries left by a Ruler-level creature were difficult to heal. Biling was still in danger, even if a Healer began treating her. It all depended on whether her wounds were going to threaten her life.

“Did you just Summon an Elder of the Shadow Tribe? How did you do it?” Lin Du stared at Mo Fan in disbelief.

The Shadow Tribe Elder was a powerful being from the Dark Plane. Lin Du had spent a long time researching Dark Magic, but he had never seen anyone Summoning such a rare creature from the Dark Plane and merging it with his shadow!

“I’m not sure either; perhaps the Dark Moon Crystal has something to do with it. It seemed very interested in its energy,” Mo Fan answered helplessly.

“That might be a possibility, but I believe the main reason is because your Rebellious Shadow is rather compatible with its kind!” Lin Du said.

“Maybe, but I have no idea if I can Summon it again,” Mo Fan shrugged.

The Shadow Tribe Elder was extremely powerful, and even the Coral-Crested Ruler had not stood a chance against its attack. Mo Fan knew the Coral-Crested Ruler was still alive. It managed to escape from the Shadow Tribe Elder’s jaws after being severely injured, but the Shadow Tribe Elder’s attacks were not just physical! It had damaged the Coral-Crested Ruler’s soul!

The Coral-Crested Ruler’s soul was no longer complete. Its lifespan had dropped significantly, and its organs would deteriorate in just a few years.

The damage dealt to its soul was incurable. Most Ruler-level creatures were extremely tough, with outstanding regenerative capabilities, but they were still afraid of their souls being injured. The hourglass of death was already in place, and the countdown had started!

Mo Fan was struggling to understand why the Shadow Tribe Elder had awakened from his shadow, but he had a feeling that it had something to do with his Dark Material. The Shadow Tribe Elder was fond of the Dark Material related to the Shadow and Curse Elements. It might have something to do with the Flogging Curse Feng Zhoulong had merged with his Dark Material. On top of that, the Dark Moon Crystal had also provided him with abundant dark energy...

“If I can control the Shadow Tribe Elder, my Shadow Element will definitely be unstoppable among the Super Shadow Mages...” Mo Fan looked at his shadow.

Lightning kept flickering in the sky. Mo Fan’s shadow was projecting out into the curtain of rain seemed darker than everyone else’s. It felt like his shadow now had its own consciousness.

The shadow...

It was still his shadow. However, Mo Fan felt like it was like a cunning and ruthless demon servant standing still in the dark. Even though he knew it was not going to harm him, he still had an urge to keep an eye on it!

The Shadow Tribe Elder was definitely stronger than him. Even if it was supposed to be his servant, it could still overwhelm him. Mo Fan knew another dangerous existence would be following him around from today on. He only hoped that the Demon Element in his body could keep it at bay.

—

A loud bellow came from the sea over ten kilometers away.

The people saw a sea monster with rotten flesh leaving a great trail of blood behind as it swam quickly away to the east. Its cries were filled with pain.

“It ran away?” The Sound Mage on Jimei Bridge managed to learn some information from the Number One Disastrous Beast’s cry.

Meanwhile, Baxia had also returned to the surface around ten kilometers away. The water in the area he was in was tilting to one side, most likely the aftereffect of their battle.

Baxia did not chase after Qiu Chi. He turned around and stared at Qiu Zi, who was still causing a huge scene, and suddenly sped himself up.

“He’s going to kill the Number Two Disastrous Beast?” The Sound Mage received a message from Zhao Manyan, which he had delivered on behalf of Baxia.

Qiu Chi had escaped to the ocean to stay alive, so Qiu Zi was the only threat left. Baxia would flank it from the rear to cut off its escape. They might have a chance to kill it if he worked together with the Super Mages on the human’s side!

The president of the Donghai Magic Association was a little hesitant at first. After all, it was almost impossible to kill creatures like Qiu Zi and Qiu Chi. It was already a miracle that they were able to drive them away, but their hearts began to pound heavily when they saw Baxia approaching with a strong murderous aura.

Sure, why couldn’t they kill the beasts?

The sea monsters had been stirring up a lot of trouble lately because they thought humans were weak. Would the sea monsters dare to invade them again if they killed a Great Ruler?
