Chapter 2851: Sky Splitting Arrow

The Ocean Serpent Demon suddenly went mad, and its tail swung around at the buildings. Steel bars, glass, and cement all turned to powder with the force of the tail.

Eagle-winged Shaoli's body shone with a purple brilliance, and they formed a gorgeous round shield, protecting the people on the street.

"Savage beast!" Eagle-winged Shaoli's eyes were fierce. He pointed at the Ocean Serpent demon's head.

Space splintered from his fingertips, as if infinite energy gathered at a point and then blasted away.

The Ocean Serpent Demon turned its head. The top of its head had fleshy horns like a coral crown. When the splintered space from Shaoli's fingertips reached its head, the fleshy horns shattered, and blood spewed out.

The Ocean Serpent Demon screamed and panicked. It was scared of Eagle-winged Shaoli.

"Sky Splitting Arrow!"

Eagle-winged Shaoli raised a hand. Black cracks appeared in the air. These cracks were in the shape of crossbow arrows. They hung upside down under the clouds.

The Sky Splitting Arrows flew and left terrifying black scars between the clouds and the street. They all shot at the Ocean Serpent Demon.

The Ocean Serpent Demon had nowhere to hide. The Sky Splitting Arrow was a Chaos Element magic. The strong dimensional power evolving from these Chaos Element cracks could penetrate against the defenses of most scales and thick muscles. The deep-sea cold pond scales of the Ocean Serpent Demon might as well have been made of paper when facing the Chaos Element cracks.

The Ocean Serpent Demon Could not dodge. It was wounded. It bled profusely. A Sky Splitting Arrow pierced through its ass and nailed it to the wall of a dark blue building.

"Wow, that's amazing!" Zhao Manyan exclaimed.

The Ocean Serpent Demon had been very difficult to fight. It had beaten them no matter how they joined their powers. However, Eagle-winged Shaoli had easily injured it within a few minutes. His every move had been damaging to the Ocean Serpent Demon!

The Ocean Serpent Demon was furious. The Star Bugs stuck to it began to work gradually. It could not regenerate its broken tail which unbalanced the Ocean Serpent Demon when it moved.

This area had many buildings. The Ocean Serpent Demon wanted to rage and rampage. However, it was afraid of the attacks of Eagle-winged Shaoli, so it could only vent its anger on the buildings where humans once lived.

The Ocean Serpent Demon began to cry. Low roars from all around them responded to its cries.

"It's calling other companions from the Ocean Godly Horde. Let's leave from here!" Eagle-winged Shaoli said to Jiang Shaoxu.

"Shaoli, we can't leave. We have an important task. We need to go to the Bund," said Jiang Shaoxu.

Mu Bai walked to them with Song Feiyao. The two of them were seriously injured, but they might still be able to get to the Bund.

"Nonsense! Do you know what's going on at the Bund? The Forbidden Curse Association is teaming up to fight against an Ocean Godly Horde. It is even more terrifying than all the Ruler-level demons we've met. You guys were almost defeated when you tried fighting the Ocean Serpent Demon. What can you do there?" Eagle-winged Shaoli chided them.

"Shaoli, we're not messing around. We found the Sacred Totem Beast. As long as we find Dean Xiao of the Pearl Institute, we can summon the Sacred Totem Beast," Jiang Shaoxu explained.

"Forget about the Sacred Totem Beast. Don't forget how Jiang Shaojun disappeared. Stop mentioning Sacred Totem Beast. I have an important task, so I can't waste my time here any longer," said Eagle-winged Shaoli angrily.

"Shaoli, why won't you believe in Shaojun and me? The Sacred Totem Beast does exist, and we have found it! Although Shaojun died when he looked for the Sacred Totem Beast, he never regretted it. Just like him, I won't regret it. You can continue to carry out your important task, and we will continue to walk to the Bund. We won't stop unless we find Dean Xiao." Jiang Shaoxu also did not want to entertain her bossy cousin any longer.

Eagle-winged Shaoli frowned.

The cry of the Ocean Serpent Demon echoed all around, and the roars of other powerful creatures responded one after another from behind the tall buildings. The roars were getting closer. They would arrive soon.

Eagle-winged Shaoli was not worried about an Ocean Serpent Demon. He could kill them. But if several Ocean Demons of the same level appeared here, he would waste valuable time fighting them.

"I came from the Bund. Dean Xiao of Pearl Institute is there. He assisted us in eliminating the magic disintegration ability of the Cold Moon Demon Lord. Dean Xiao can't leave the Bund though. The Forbidden Curse Association needs him," said Eagle-winged Shaoli.

Eagle-winged Shaoli looked at Jiang Shaoxu and Zhao Manyan. These two people were not students from the National Institute. Jiang Shaoxu and Mo Fan, whom he was looking for, were students from the National Institute.

"Dean Xiao needs Mo Fan's fusion magic to help him break the magic disintegration ability of the Demon Lord. You and Mo Fan know each other. Do you know where he is? I can sense that he is in the west," said Eagle-winged Shaoli.

"Huh? He needs Mo Fan's assistance?" Jiang Shaoxu was confused.

"What's going on?" asked Zhao manyan. "Can you elaborate? We know where Mo Fan is but..."

Eagle-winged Shaoli was overjoyed. He had not expected himself to be this lucky. Jiang Shaoli had a forbidden ability of the Divine Sense of Flying Bird. When he closed his eyes and concentrated, he could see everything the flying birds saw and sensed.

There were birds all over the place, so he could see many things that others could not. Although this ability was considered less powerful than others, there was no other perfect talent when one needed to find, search, hunt and peep.

That was why Eagle-winged Shaoli could easily find Dean Xiao even though he had been hiding his Water Element forbidden ability. So, it was easy for him to find someone.

He used the Divine Sense of Flying Birds to search for thousands of birds, but in the end, he only managed to capture the back of someone escaping on the plain at the east of Helan Mountain foothill from a goose migrating from the west to the east.

He had to find Mo Fan within eight hours. If Mo Fan was somewhere in a cave or a building or any other mysterious realm, it would be difficult to get a hold of his location.

Chapter 2852: Magic City's Choice

It was not very difficult to find someone especially if they weren't disguising themselves. However, time was of the essence.

Eagle-winged Shaoli was too anxious. He had very little time and did not want to waste it arguing with Shaoxu. He had to find Mo Fan.

Eagle-winged Shaoli let out a sigh of relief when he found out Mo Fan's whereabouts.

With his speed, he could bring Mo Fan back within eight hours. He could call many spirit birds and beasts to assist him with the Divine Sense of Flying Bird. He could save a lot of time if he talked to some strong spirit birds and beasts to bring Mo Fan to the east to meet him.

"I'll take you guys to a safer place first. Make sure you protect yourselves. I must find Mo Fan and bring him to the Bund now," said Eagle-winged Shaoli.

Several vicious and powerful ruler-level demons had been trampling on the neighborhood, ruining the prosperous city. The demons had hidden in another block.

"Shaoli, that's not the point." Jiang Shaoxu hurriedly stopped him.

"What do you mean? I must take Mo Fan to the Bund within eight hours. President Hong Wu, Chief, Fire God, and Dean Xiao are all waiting for me. Is there anything more important than dealing with the Demon Lord who is about to drown Magic Base City?" Eagle-winged Shaoli said sternly.

They exchanged glances. 'What's going on?'

They were in urgent need of Dean Xiao. Only his Forbidden Water Element magic could incite a heavy rain across several provinces and revive all the Ancient Great Walls to awaken the Sacred Totem Beast.

However, the Forbidden Curse Association needed Mo Fan's fusion magic to break the strange and powerful ability of magic disintegration. In any case, Mo Fan must be brought to the battlefield of the Bund of Magic City within eight hours!

Eagle-winged Shaoli listened to Jiang Shaoxu's explanation, and he was troubled.

"Maybe we should consider the greater good," Mr. Bai Mei said tentatively.

Eagle-winged Shaoli, Jiang Shaoxu, Mu Bai, Zhao Manyan, and Song Feiyao all nodded.

"Let Mo Fan come to the Bund," said Eagle-winged Shaoli.

"Let us take Dean Xiao away," said Jiang Shaoxu at the same time.

Everyone fell silent. Both had different perspectives and plans. It meant that there was a serious clash of opinion between the Forbidden Curse Association and the Sacred Totem Beast exploration team.

The Forbidden Curse Association would not let Dean Xiao leave. After all, the importance of a Water Element Mage who could complete the forbidden magic independently in Magic City surpassed that of several Forbidden Mages of other elements.

On the other hand, they were convinced that the Sacred Totem Beast existed and lived in China. The Sacred Totem Beast would appear again if only it rained with the Underground Holy Spring essence.

The strength and power of the Sacred Totem Beast could turn the tables on the current situation.

"You guys should obey the Forbidden Curse Association," said Eagle-winged Shaoli solemnly.

If the two sides disagreed, it would only continue to waste time.

Regardless of who held the authority, the Mages should obey orders especially in a time of crisis. So, considering that, they needed to deal with the Cold Moon Demon Lord first. After all, it had pierced through the sky, resulting in countless cold waterfalls. It had even summoned the Heaven-shaking Demonic Waves.

Magic Base City was in peril. Even if the Sacred Totem Beast existed, they could find it after dealing with the Cold Moon Demon Lord.

"Shaoli, it's useless to discuss this here. Let us meet the president and Dean Xiao so they can make a choice," said Jiang Shaoxu.

Eagle-winged Shaoli nodded. It was not something they could decide here.

"I'll take you guys there now but be careful not to come into the sight of the Demon Lord," said Eagle-winged Shaoli.

...

He took them towards the Bund. The Prime Waves were still standing, and they almost surpassed the landmarks of Magic City.

There was a vague outline of a face made of water. It looked cold and evil.

The Demon Lord was still calm and indifferent. It did not even bother to take action against the Forbidden Mages. It was more like a ruler standing on a higher plane and watching the weak and stupid species spend all their time trying to break through the labyrinth cage set by it.

“President!” Eagle-winged Shaoli arrived, but he did not dare to move closer with the fear of appearing in the line of sight of the Cold Moon Demon Lord.

“Why haven’t you looked for Mo Fan yet? When did you become such a reckless guy?” President Hong Wu said angrily.

“I must discuss this matter with you and Dean Xiao.”

“There’s nothing to discuss. Go and find Mo Fan now!” Hong Wu was furious. What they wanted now was action instead of futile discussions.

“President, let’s listen to him. We can’t rush it,” said Dean Xiao.

Dean Xiao saw Mr. Bai Mei, Zhao Manyan, Mu Bai, and Song Feiyao.

Dean Xiao remembered that Mo Fan had sent him a video of them riding the Green East Sea God before he went to search for the Sacred Totem Beasts. Only Mo Fan was missing from this group at the moment.

Dean Xiao knew exactly what kind of a person Mo Fan was. There must be an important reason if he did not make it back.

Eagle-winged Shaoli reported the matter of Sacred Totem Beast to the president and Dean Xiao.

After listening to him, Dean Xiao went silent.

However, President Hong Wu was enraged. “What a fool! Ancient sacred relics are indeed important, but the base city is about to go extinct. Is there a need to make a choice? Bring Mo Fan over now. Tie him up if you have to do so!”

“President,” said Dean Xiao.

“Dean Xiao, you don’t have to try to persuade me. I know your students did it for Magic City and all of us, but it is clear which is more important. Besides, all traces of Sacred Totem Beast are just guesses. As the president of the Magic Association, I can’t make such a hasty and unrealistic decision,” said President Hong Wu.

“President, I think you have misunderstood. It is not your choice or Mo Fan’s choice that matters, but mine,” Dean Xiao calmly said to President Hong Wu.

President Hong Wu was stunned. “What is your choice?”

“I’ll go and make the rain to awaken the Sacred Totem Beast,” Dean Xiao answered.

“Dean Xiao!” President Hong Wu could not believe his ears. “You would rather believe your students than the Forbidden Curse Association?”

“No, I don’t trust any of you. I only trust my own judgment.” Dean Xiao shook his head. Finally, he pointed his finger at the evil and extremely powerful Cold Moon Demon Lord. “That is deliberately wasting the time of Forbidden Mages.”

Chapter 2853: Waiting for The Sacred Totem Beast

President Hong Wu looked stunned.

He never thought that Dean Xiao would say such a thing. He could ask Mo Fan to cooperate with the Forbidden Curse Association, even order him as the president. But he could not force Dean Xiao to obey him.

In terms of strength, Hong Wu was stronger than Dean Xiao. However, Water Elements Mages could defuse and suppress the power of Ocean Demons far more easily. When the Ocean Demons fought with Water Elements Mages, they were not much different from the demons on the land. It was very crucial in the fight against the Ocean Demons.

“Dean Xiao, please think once again. Their plans for Sacred Totem Beast are just mere guesses. The most important thing right now is to fill the gap in the sky above Magic City and the incoming Heaven-shaking Demonic Waves. The Forbidden Curse Association swears by our souls that the Demon Lord will do all these things. If we defeat it, it will ease the current situation in Magic City!” said Hong Wu earnestly.

Several Forbidden Mages were fighting with the Cold Moon Demon Lord, and the situation on their side was not optimistic. Even if they had not thought of a way to defeat the Demon Lord, the mere presence of Dean Xiao, a Water Element Forbidden Mage, could reduce the pressure and offer some morale to the Forbidden Curse Association.

Regardless of whether Dean Xiao could deal with the Prime Waves or not, his presence here was of utmost importance. He could not let Dean Xiao leave.

“We also know nothing about this creature. Even if we can solve the threat of the Prime Waves, can we conquer the Demon Lord? It stands there so fearlessly, almost unbothered by everything. How do we ensure that a more terrifying Ocean Demon won’t appear after we solve the problem of the Prime Waves?” Dean Xiao asked.

Since everything was uncertain at this time, no decision was perfect.

Although it was the Forbidden Curse Association’s decision, it did not necessarily represent the solution. Dean Xiao knew very well that the Totems had once expelled the Ocean Godly Horde. If they could awaken them, they might be able to change the current situation in the Magic City!

As a Mage, Dean Xiao believed that the Sacred Totem Beast was important in such a desperate situation.

“Dean Xiao!” Hong Wu raised his tone, and his face darkened. “This matter is related to the survival of Magic City, and your choice is particularly important. No matter how things turn out, the Forbidden Curse Association will stand by you if you choose to stay. However, if you leave and Magic City falls, you and your students will be considered traitors in the future. I beg you to think about that!”

“President Hong, all Mages are responsible for the destruction of Magic City. Our neglect, and inattentiveness have led to today’s catastrophe. However, I have nothing to say even if you choose to

place the entire blame on me and my students. When a crisis and catastrophe emerges, the first thing you do is not reflect but find a person or a group to take responsibility for this matter and become the target of everyone's anger. It is the ignorance of thought and the retrogression of civilization, and there is no cure for this!" Dean Xiao was unmoved by President Hong Wu's attitude and retorted fiercely.

"Very well. Dean Xiao, I'm looking forward to the Sacred Totem Beast. Along with the lives of millions that will be lost in the Magic City, the unimaginable wreckage and an ocean full of human blood, I will wait here for your Sacred Totem Beast!" Hong Wu said coldly. His bloodshot eyes showed his anger and despair.

He cared about Magic City. So did Dean Xiao.

Those families, who were hugging each other and crying silently in the shattered house, were all waiting for the Mages they revered and respected to eliminate the wandering Ocean Demons and find a solution to remove the Black Alert.

However, when two people with the same goal had a major clash, they became indifferent towards the common enemy.

Dean Xiao could not say that his way was the right way. No one knew the results when facing the unknown. He just followed his heart.

"Shaoli, send them away." Hong Wu was expressionless, and his tone was cold.

Dean Xiao bowed and turned to leave. Regardless of the outcome, Hong Wu's generosity on the edge of despair deserved Dean Xiao's salute.

However, Dean Xiao had become insignificant to Hong Wu.

...

Everyone left with the Green East Sea God.

Magic City became smaller and smaller as they flew further. They were lucky to survive and leave the Magic City at this time. But how many would be as lucky as them?

This place was also their home. Although they were outnumbered, everyone was fighting for their world against those Ocean Demons in their own way.

The Green East Sea God flapped its wings and increased its speed.

Finally, Magic City disappeared from their sights. However, Dean Xiao, Zhao Manyan, Mu Bai, Jiang Shaoxu, Song Feiyao, Eagle-winged Shaoli, and Mr. Bai Mei looked on with heavy hearts.

In Magic City, they felt at ease for some reason. But once they left Magic City, They felt sad and guilty.

What should they do to save Magic City from this disaster?

Those evil Ocean Demons did not slaughter ordinary humans but chose to kill the Mages first. It meant that their failure would be the beginning of a disaster. What kind of torture and humiliation would those powerless people face in the city at the hands of the Ocean Demons?

“Can we do anything to help?” Mr. Bai Mei asked in a daze.

No one could answer.

“At least we didn’t pin all our hopes on the Forbidden Curse Association, which is stronger and more authoritative than us. We are doing what we feel is right,” said Dean Xiao.

“Can the Sacred Totem Beast really save us? Aren’t we pinning all our hopes on it?” said Eagle-winged Shaoli.

At this point, it was pointless to argue.

“We’re too weak. Under the cruel survival law, we’re nothing but food for other races. Magic can never stop advancing,” said Dean Xiao.

“I finally understand why Mo Fan wanted to attack Asian Magic Association and kill Su Lu,” Mu Bai suddenly said.

Dean Xiao nodded. He knew what Mu Bai meant.

Many people felt that Mo Fan acted impulsively, and he was often reckless. But Mo Fan and the others were not looking at things the same way.

If no one stood up for certain things in life, it would continue unquestioned.

Chapter 2854: Make It Rain!

The vast territory was covered with beautiful mountains and rivers.

The Green East Sea God flew at a high altitude and overlooked the land of China. They could see the Ancient Great Wall guarding the land of Northern Xinjiang.

At the beginning of magical civilization, the monsters in Northern Xinjiang were the biggest threat to this land. People had experienced the same disaster and pain at that time.

Every period had its disaster and would endure the test of survival.

As the leader of the 20,000 km coastline, Chairman Shao Zheng had been transferred to the west. His transfer was to prepare for the counterattack in the future.

Even if the coast had been defeated, there was still a vast and boundless land. As long as they struggled and endured, they would survive.

After passing through various provinces, they saw the vast and magnificent mountains and plains. The heaviness in their hearts slightly abated.

They were focused on the important things that needed to be done.

“Dean Xiao, my Water Buddha Beads can make it rain heavily. However, there is not enough water in these provinces, so I need your skill as a Forbidden Mage to dispatch enough Water Element for me,” Zhao Manyan said to Dean Xiao.

"I understand. It's not easy to make it rain heavily on millions of square kilometers. Are you confident you can do it?" Dean Xiao asked.

"Absolutely!" Zhao Manyan nodded earnestly.

...

Mo Fan had been waiting at Beiguan town for a long time. When he saw the Green East Sea God in the sky, his face changed.

When he saw that Dean Xiao was on the back of Green East Sea God, he could not hide his joy.

Mo Fan knew very well how difficult it might have been to pull Dean Xiao away from Magic City, but he was here!

Everything was ready! It was not too late.

"Are you guys all right?" Mo Fan glanced at Mu Bai, Zhao Manyan, and Song Feiyao.

All three looked disheveled and injured. They looked pale. They probably needed time to recover and recuperate.

Everyone shook their heads.

"Let's start now. The situation in Magic City..." Mu Bai could not complete his sentence.

They needed to go to Magic City in person to be able to know the state it was in.

"Okay, let's get started. Manyan and I will make it rain, and you guys summon it." Dean Xiao did not want to waste a second more.

Mo Fan took out the Underground Holy Spring and gave it to Zhao Manyan and Dean Xiao.

Dean Xiao stood on the tower of Beiguan Town in his long robe. His hands slowly stretched out, and there were traces of blue water vapors on his fingertips. When his fingers moved, the water vapors followed the movement.

These water vapors were composed of blue crystals. They were not completely liquid. Every crystal was clear and bright, and contained powerful Water Element energy.

Beiguan Town had a vast land and sky. When the weather was clear, the sky would connect to the ground, presenting a long, soothing arc.

Dean Xiao slowly raised his hands to the top of his head and blue crystals flew up.

These blue water crystals were as fine as sand. At first, they were only scattered over a few kilometers in Beiguan Town. When Dean Xiao whispered, these blue water crystals multiplied at rapid speed.

After a while, blue water crystals surrounded the whole world. These countless blue water crystals were like ice. Each of the water crystals floated individually. The distance between each of them was the same.

Mo Fan and the others watched this incredible scene in Beiguan Town. They were in awe.

Many powerful Mages could shroud the world with magic. However, no one could cover dozens of kilometers of the area with magic particles like Dean Xiao. He was indeed a Forbidden Mage!

Mo Fan watched Dean Xiao manipulate millions of blue water crystals and use them to collide, arrange, absorb and gather. Finally, these water crystals made the windy and dry plain in Beiguan Town completely humid and immersed it in the suspended water crystals.

“Go!”

Dean Xiao raised his hands, and millions of crystals containing water energy were propelled with a strong flying force. The water crystals slanted and flew higher and further in the sky.

The blue water crystals left beautiful blue lines over the land of Northern Xinjiang. These lines were like the mysterious blue meteor shower that bloomed in the depths of the universe. It was exquisite and incredible and enthralled everyone who saw it.

All the water crystals dissipated and scattered in the sky for tens and thousands of kilometers. Some dark clouds appeared in the clear sky. The clouds were very high, and their numbers were increasing. They soon covered millions of kilometers of land.

“How it turns into rain is up to you,” Dean Xiao said to Zhao Manyan.

Zhao Manyan nodded. He held the Water Buddha Beads tightly and concentrated.

The Water Buddha Beads had a strong ability to control water and a capacity to cause natural disasters if not regulated. It would gather a large amount of cloud and moisture in a certain area. This extreme ability often only brought terrible disasters to lands, such as typhoons, rainstorms, hail, and snowstorms.

“Wind!

“Cloud!

“Rain!”

Zhao Manyan threw the Water Buddha Beads high into the sky of Beiguan Town, and the Water Buddha Beads hovered at the highest point. Layers of watermarks emerged like ancient inscriptions. Each of them was extremely huge!

When the strong wind hit, the temperature across the entire plain changed, and the airflow was affected. The air current swept the earth.

The clouds tumbled rapidly with the changes in the airflow. At first, they stopped in the sky. Then, they moved toward the land. The thick clouds were like a long black cloth. The central and northern parts of China were sunny, with the warm sunlight shining on the earth. But in just a short period, the whole situation changed!

A few bean-sized raindrops fell, hitting the stone ground with a crisp splatter.

Suddenly, the rain came down heavily, and the sound increased. Rain instantly shrouded Beiguan Town!

In the past, most of the rain in Beiguan Town was always turbid. The rain was mixed with the flying sand and dust. It became cleaner only after raining for a while.

But this time, the rain was clear. It took on a blue color that felt cleansing.

Blue rain.

Beiguan Town had never had blue rain.

Chapter 2855: Flying Pattern

The entire Northern Xinjiang was like a brown world. The Great Wall, the towers, the beacon, and the trenches gradually revealed their original appearance as the blue rain washed over them. It was quiet and tranquil.

At Yan Men City of Shanxi, the geese flew from the south to the north in the rain.

After the rain soaked their feathers, it was difficult for them to travel long distances. The flock of geese landed at a mountain in Yan Men City. They stood quietly on the ancient pine trees and stared at Yan Men City.

The rain washed away the dust in Yan Men City and revealed its glory. It had high walls and was entrenched on the ridges.

Yan Men City had lived through many weathers before, but never through blue rain. The essence of the blue rain had penetrated the ancient wall. The Ancient City Wall composed of soil, stones, and rock glowed with a mysterious luster. It looked sturdier than metals and contained more energy than magic stones!

Suddenly, the geese resting and avoiding the rain were startled by a sound from the mountain. The geese and other birds near the city flew away.

They did not know what was going on and only knew that such a violent noise meant that there was a predator around.

Nothing appeared. It looked like the mountains trembled as the wall of Yan Men City rose and moved.

...

Gansu of Jiayu City was once the most important and prosperous pass on the Silk Road. It was built with loess and bricks. The building was painted red and stood under the mountains. The structure was so magnificent and protected that enemies could never break in.

When the blue rain came, Jiayu City did not change much. The color of its walls and the eaves of its buildings had not changed at all.

People only saw a majestic figure standing on the city tower in the rain. It evoked the soul of the Great Wall, which was the guardian of China for centuries.

This soul awakened and was staring at the blue rain and the sky.

Finally, the quiet city began to shake like Yan Men City.

“J-Jiayu City has come to life!” some people exclaimed.

The city wall and tower rose up and became an ancient giant composed of loess, bricks, and towers. This ancient giant moved and flew toward the sky in the blue rain.

...

Each piece of soil near the historical Ancient Capital was covered with ancient rubble, and each piece of rubble had its own story to tell. Some stories had been passed down to this day and some had long been forgotten.

It did not take long for the blue rain to fall here. The small rubbles was mixed with the mud and soil of the ancient wall, and they glowed golden.

As the blue rain fell, the things guarded by people, put into the museum, and buried under the ground broke through the soil like flower buds.

People of the Ancient Capital were startled. The catastrophe in the past was caused by turbid rain, which triggered a riot of the Undead. The earth was restless again when the blue rain appeared.

However, they did not expect to see blue bricks, rock fragments, and special structured clay emerged from the soil.

It was raining, and the rubble kept flying to the sky.

The rain fell, and countless rubble flew. The two formed an incredible scene inside and outside the Ancient Capital. Such a scene was unexplainable, and it shocked everyone.

1

...

The maple leaves were all over the mountains and plains, the ancient roads were long, and the blue rain fell heavily.

The Great Wall was built in Badaling during the Warring States Period. After the Qin and Ming Dynasties, it had become the most spectacular cultural relic.

A majestic and dangerous juncture and tower were on the top of the mountain.

This blue rain also appeared on the Great Wall Ridge in the capital. The Ancient Great Wall Ridge stood above the mountains, as if it was about to touch the sky. Someone once drew a picture of the Great Wall on the clouds. However, he never expected it would fly up one day.

The rain constantly awakened every part of the Ancient Great Wall Ridge in the capital.

It rose from the ground and soared above the clouds. No one would have thought such a majestic and ancient building would come to life.

...

The blue rain did not last long. The magnificent Beiguan Town was suspended in the sky.

Mo Fan, Zhang Xiaohou, and others still remembered the shocking picture of the Ancient City Wall rising from the ground and forming the Shield of China. However, Beiguan Town did not do that. Instead, it broke away from the loess and flew toward the sky!

After the blue rain, the sky was clear like a pure crystal mirror. The dust, yellow sand, clouds, and mists were all gone. Beiguan Town was suspended in the air. When people looked from the ground, it was just as bright as the scorching sun.

Mo Fan and the others were all on the tower of Beiguan Town. Everyone looked at Bin Wei, the watchman of the Ancient Great Wall, with a confused look.

“Floating Pattern?” Bin Wei was also shocked. As an ancient inheritor, she had never heard of Beiguan Town and other Ancient City Walls having such a power.

Bin Wei only knew the Royal Sky Pattern.

The ancient spell that Mo Fan brought from the Deadly Bridge should be the Sacred Soldier Pattern. It should be able to turn the Ancient City Wall into an invincible ancient sacred weapon like Sky Observing City.

However, this was completely different from what they expected.

Beiguan Town floated into the air. Several other Great Walls with beacons were also floating in the air.

The sky was clear. On the top of the tower of Beiguan City, everyone could see from a distance that several other city walls that once displayed the Royal Sky Pattern were also in the air like a long fortress.

Dean Xiao could not believe his eyes and could not explain the current phenomenon.

There was no ancient sacred soldier. There were only some Ancient City Walls floating in the air.

“Oh my God! Yan Men City, Jiayu City, Juyong City, the Ancient City Wall, and several other Ancient Great Walls are all floating in the air! They are floating in the air!” Zhao Manyan exclaimed.

Chapter 2856: National Beast of China

Mo Fan grabbed Zhao Manyan’s phone and watched the video clip that had circulated on the internet.

In the video, he saw the mythical phenomenon that spanned all over the country. The majestic Ancient Great Walls of thousand meters broke free from their original place on the mountains and soared into the sky. They floated above the land, just like Beiguan Tower!

“Mo Fan, fly to the space above the sky and take a look from there!” Lingling shouted.

“Okay. But even if I reach the space above the sky, I doubt I’ll see the reappearance of the mythical phenomena,” said Mo Fan.

“We may have succeeded, but how do we transfer them from here?” Lingling was engrossed in her thoughts one moment and excited the next.

“This is an ancient spell. I can sense the aura of a Forbidden Curse.” Dean Xiao stared at the sections of the floating great walls.

The majestic Great Walls floated at the same height. After they broke free of the land, they flew to the sky and hovered there. They cast enormous shadows on the land below. The people on Earth were so awed that they started worshipping them.

...

Mo Fan flew into the sky. He looked down and saw the central plains of China. The area within his sight was limited because China was just too big.

Mo Fan paid close attention to the segments that came from various important cities. He was shocked to find that the Great Walls floating in the sky were not just the existing Great Walls, but also many other ruins of the Great Walls that had not been recorded in the present era.

The ruins were buried underground in the past. Their fragments had blended into the soil, but the blue rain had summoned them into the air.

The Ancient Capital was at the top of the wall. Countless rubble, soil, stones, and rocks coiled up in the sky above the capital. They formed a gigantic skull with two horns. The skull was completely made up of soil and stones. It stood with an air of divinity in the middle of the sky.

The segments of the Ancient Great Walls from other areas were composed of beacon towers, stone towers, and walls. But, when Mo Fan looked down from the space above the sky, the segments connected and formed a long body that covered the central plains of China!

He looked further to the east and saw a tail.

The tail resembled a snake's tail. It looked very similar to that of the Black Totem Snake!

1

As the Ancient Great Walls connected to one another, he noticed the horns of the Divine Deer, the face of the White Tiger, the body of the Black Snake, and the claws of the Green East Sea God...

'No! This was not the Black Totem Snake. This was the Great Serpent on the Cloud! This was the sacred totem beast!'

Buzz!

Mo Fan was astounded when he was greeted by such a phenomenon. The pendant on his chest vibrated.

Usually, Little Loach remained as a black creature with no luster. It would only glow slightly when it advanced to the next level.

At that moment though, Little Loach turned dark green. It floated before Mo Fan and slowly uncoiled itself.

It was the Ancient Great Walls' companion vessel. It was the symbol of the sacred totem Azure Dragon. It was a part of the sacred totem beast.

Mo Fan's eyes were teary.

“You’re the one they speak of, right?” Mo Fan asked while staring at the floating Little Loach before him. “The Underground Holy Spring and the sleeping Ancient Capital have been waiting for you instead of me.”

Little Loach did not answer him. It could not answer him, after all.

“This is the reason why I can absorb the totem beast’s power.” Mo Fan marveled at this fact.

There were signs everywhere. All of the answers had been right in front of him. Still, he had to take one step at a time in this arduous journey to find the totem beasts.

Mo Fan finally understood everything. The reason Little Loach accompanied him was because Mo Fan was the one destined to complete and protect it. Everyone could own Little Loach, but not everyone could awaken it.

“Since you’re awake, let’s go to the Magic City now!” said Mo Fan to Little Loach.

This time, Little Loach did not return to Mo Fan’s chest. It broke free of the necklace and slowly implanted itself on his forehead.

Little Loach gradually fused with Mo Fan and formed a visible dark green seal. The seal was the scar of the sacred totem beast. It glowed as bright as the sun or the moon. Mo Fan stood suspended in the sky like a God. He glowed in green with splendor.

Green light spread on the lands of China and rested on the segments of the spectacular and divine Ancient Great Walls.

Boom!

The floating pieces began to move. They rolled up like monstrous waves and sailed like an enormous ship towards Mo Fan.

The horns and skull were of the Ancient Capital. The body and torso were of the Yan Men City. And its tail was of the Emperor Qin’s Island.

...

The Ancient Great Walls gathered together and gradually formed a gigantic green dragon. The green dragon floated in the endless Milky Way across the universe.

The Ancient Great Walls that had risen from the ground to stop Khufu’s Undead army in the past had been just a part of the green dragon’s chest.

The historic city walls and buildings from the Ancient Capital as well as the debris and tombs buried underground across the lands were the green dragon’s flesh and blood.

The unknown ruins were buried under the vast land of China. After the ruins were summoned, they flew to midair and fused to make the green dragon’s muscles and scales.

The giant shadow of Yan Men City was one of the green dragon’s claws.

The majestic long walls of the Imperial City formed the green dragon’s bones!

Si Matai, Green Mountain City, Arrow Buckle Great Wall, Tiger Mountain, and Jiu Meng Gate from the east eventually formed a part of the green dragon and joined with the Emperor Qin Island's segment.

Mo Fan felt shocked and awed at the sight before him. Mo Fan had navigated the country's great rivers and mountains. He had set foot in numerous famous historical sites. He had either stood guard or explored these places. He had been to many places overseas such as Egypt, Arabia, Italy, and Greece. These places had their own ancient civilizations with great national beasts recorded in their literature.

Mo Fan used to wonder what China's national beast would be like. And he finally had the answer to that question.

This was China's national beast!

It had been sleeping in various places and mountains. It had been guarding China's great lands. It was the country's true national beast—Azure Dragon!

Roar!

The Azure Dragon's roar echoed like thunderbolts. Its roars transmitted from the western land to the eastern coast. Its roars sent shock waves across the lands.

He saw green lightning in the sky. The lightning covered the space above the sky and gradually spread all around. For a moment, people from every province witnessed the miracle.

The Azure Dragon was far in the space above the sky. Even so, people on Earth saw its magnificent body. After all, it was made up of the Ancient Great Walls.

Meanwhile, Mo Fan stood on the Azure Dragon's horn. He turned around and saw the Azure Dragon's seemingly endless body in the vast blue sky.

Faith and hope sprouted in his heart. Mo Fan said to the awakened National Beast, "Let's go to the Magic City!"

Chapter 2857: The Country's Guardian—The Sacred Dragon

The Azure Dragon traveled in the space above the sky. Mo Fan could easily reach the stars. The Azure Dragon's magnificent shadow was cast in the vast lands of China.

The Azure Dragon flew between heaven and earth. It flew across the sky and mountains. Even the glory of the sun and moon paled in comparison to its glow.

Mo Fan stood between the Azure Dragon's horns. They passed by the central plains. The intersection between the horizon and the skyline was visible. Pieces of the awakened Ancient Great Wall flew toward the Azure Dragon to complete its scales, horns, claws, etc.

The sacred totem Azure Dragon grew increasingly majestic. It flew above China like an ancient godly ruler patrolling the earth where its people lived.

The ancient rocks and the engraved statues made up of the sacred rocks that had been sprinkled with the Underground Holy Spring seemed to have waited for the arrival of this day. They had waited for the summoning from heaven. The Azure Dragon's roars awakened their imperishable souls!

The Ancient Great Walls were made from generations of wisdom, blood, sweat, and tears. Disasters and wars could destroy humans because they were made of flesh and blood, but they could never destroy the brave souls that had blended into the mountains and streams.

The Ancient Great Walls segments contributed to the sacred totem Azure Dragon's scales, flesh, blood, bones, and horns. The Azure Dragon flew in the sky. Every single piece of the rubble that made up the Azure Dragon contained its own glorious and depressing story. The rubbles was what made the Azure Dragon glow with such splendor. They bestowed the Azure Dragon with infinite power.

The Azure Dragon flew past the Yellow River and to the Chang River.

It continued to move along the Chang River and drew closer to the Magic City. The sky above the Magic City was totally different from the clear sky in the west. The Magic City was enveloped in darkness, as if the devilish creatures were devouring the city whole. Icy cold sea water continued to pour onto the city.

The city was in turmoil. Ocean Demons were all over the streets. Even though Mo Fan had watched these sights in various clips on the internet, his eyes turned red with anger at the Magic City's deplorable state.

Jing An was a place he was very familiar with. It was where the Pearl Institute was located.

Jing An had turned into a white nest. Mo fan saw many humans trapped upside down in chrysalises. They were hung on both sides of the buildings as well as on the trees. The buildings and trees were densely packed with human chrysalises. They were barely alive.

They could not break free from the chrysalises. They had no choice but to endure the humiliation and hang in the middle of bone-chilling coldness and rainstorms. They felt hopeless.

The terrifying Shark Men and Hunter Dirty Demons had made Xu Hui City their hunting grounds. Citizens were enslaved and trapped inside the buildings. The Shark Men and Hunter Dirty Demons brutally killed the Mages. Even the powerless, newly awakened trainee Mages were not spared.

Treasure Mountain had turned into an ocean. More than half of the city was soaked in sea water.

The sea water was red. The floating corpses in the water made one sick. The Ocean Demons had revealed their true brutal nature. They slaughtered all living things in their path. They enjoyed showing off their Ocean Godly Horde's power. They enjoyed smelling the blood from other hordes. On top of that, they enjoyed watching humans sink into despair.

Mo Fan caught sight of several glowing figures.

Many people longed for a little hope. Today, the Magic City could no longer protect them and granted them the hope that they needed. Still, these people struggled to hold on to their beliefs.

The Ocean Demons were far stronger than the humans. The number of Ocean Demons outnumbered humans. If the humans could not even find the faintest magical glow within the Magic City, it was evident that the city would soon be completely destroyed.

Mo Fan noticed a swarm of terrifying silvery white creatures in the direction of Pudong. These creatures had replaced the murky sea water and were striking the Huangpu River's northwest bank in waves. The endless number of Salamanders and Shell Demons collapsed the buildings, robust fortress and the

defense lines the moment they reached that area. They razed the city streets to the ground without mercy.

Meanwhile, the Ocean Demon Serpent continued to patrol around the skyscrapers. And the Chief Shark rampaged between the overpasses.

The traffic was a tumbling torrent. The Shark Men chased after the Mages in the middle of the waves.

A pile of ruins towered in the middle of the largest city. The ruins were made up of countless residential buildings, commercial buildings, and office buildings. As a result, the mountain of ruins could be seen from more than a dozen kilometers away.

The Demon King illuminated in bluish golden shell armor prostrated on top of the ruins. It squinted its eyes. Its two unusually thick and flexible whiskers swung actively like two ancient white snakes.

The Demon King opened its eyes. It moved its neck. It seemed to have smelled an imposing aura that came from the space above the sky. The flesh on its neck opened, revealing layers of colorful poisonous horns that resembled whiskers. For a moment, the poisonous horns looked like a sea of gorgeous corals.

However, those were not corals. Touching them would mean instant death. This was the Demon King's fatal weapon.

The Multicolored Demon King stared begrudgingly at the sky. Unbeknownst to all of them, the sea water stopped pouring from the sky. The sky above the city had turned dark.

A majestic silhouette slowly revealed itself from the misty clouds. The sky was riddled with holes, and the water poured down through them. The pouring revealed a part of the Azure Dragon's magnificent green body. It hid a large part of its body in the mists. It coiled in the space above the clouds.

1

...

A claw appeared from the clouds. The Multicolored Demon King became alert and screamed in panic before attempting to flee from the ruins.

However, the Azure Dragon had targeted the Multicolored Demon King with its claw. Its claw was comparable to that of the mountain of ruins. It grabbed the Multicolored Demon King and carried it above the clouds.

The Multicolored Demon King screamed miserably in the sky. It frantically shot its poisonous horns from its neck. The poisonous horns expanded in the sky and formed a forest of corals.

The corals were sharp and poisonous. They darted toward the clouds. Yet the mighty claw remained unharmed as it continued carrying the Multicolored Demon King above the clouds.

The Magic City was crowded with Ocean Demons. The Multicolored Demon King was protected by countless Ocean Demon chiefs. The Ocean Demon chiefs alone could dominate the city, let alone the Multicolored Demon King!

However, the unbeatable Multicolored Demon King was taken into the clouds by a mysterious creature, like a chick in an eagle's talon.

The sky was dark. It was so dark as if the sky above the Magic City was entirely covered with a cloth. Glimpses of light shone on the creature's body through the gaps.

Chapter 2858: The Two Greatest Emperor-level Demon Kings

Squawk!

The Ocean Serpent Demon groaned. It had lost one of its horns, so it grew increasingly violent. It attacked every creature regardless of whether they were Mages or its own disagreeable kind.

The icy cold, elegant, and calm queen—Ocean Serpent Demon—had turned into a brutal, bloodthirsty, and crazy monster.

When the Ocean Demon chiefs and ruler-level Ocean Demons saw the Multicolored Demon King lifted up into the sky, they became fearful. They were so scared that they buried their heads under the city. Even the Hunter Dirty Demons burrowed into the underground sewers.

All of them tried to flee, except the Ocean Serpent Demon. Its head was covered with blood, and it frantically searched for the main culprit who had attacked it. It bit whatever came into its path.

The silhouette in the sky became the Ocean Serpent Demon's target.

The Ocean Serpent Demon roared before spreading itself and swimming upstream along the transparent waterfall to confront the mysterious creature above the clouds.

The Multicolored Demon King was touched to learn that the Ocean Serpent Demon was so kind enough to lend its helping hand without caring much about others.

Little did it know that the Ocean Serpent Demon's horn was its sensory hub. It could sense heat and danger through its scales. In fact, the Ocean Serpent Demon's regulation of temperament came from its special horn.

Without its horn, it would turn mad and insane. It could not identify its enemies and allies.

The Ocean Serpent Demon swam upstream into the sky. It reached below the mysterious dark creature.

Just then, the mists dissipated. A green and huge abdomen was revealed. The abdomen was several thousand meters long and coiled up multiple rounds in the clouds. They could not see the rest of its body, as if the rest of its body spanned the other end of the sky.

The Ocean Serpent Demon was enormous. It could coil up around high-rise buildings. Its height was around five or six hundred meters. It was considered a gigantic figure in this international and prosperous city.

However, when the Ocean Serpent Demon was at the same height as the creature in the sky, it looked nothing more than a roach in the mud. Meanwhile, the green creature looked as magnificent as ever, like a holy mountain that stretched across the sky.

The Ocean Demon Serpent turned stiff, as if it had accidentally scurried into the realm of an ancient ice river. Its body, scales, and blood froze.

The Ocean Serpent Demon's frenzies and violence were nothing in the face of such a powerful opponent. Even though it had lost its sensory ability, it was aware of the green creature's level of supremacy after witnessing its green body which resembled a dragon. It would be stupid if it still could not understand how powerful that creature was.

Zap!

Countless lightning appeared in the clouds. It was only then that the stiffened Ocean Serpent Demon recovered its senses and realized its end. It gave its best to flee from the sky above the Magic City.

Green lightning arched across the sky and tore the Ocean Serpent Demon's body apart. The powerful ruler-level Ocean Demon suffered from a catastrophe as it swam upstream. The lightning wiped out its hard scales, bones, and demonic aura.

The Multicolored Demon King was still struggling. The Ocean Serpent Demon was of a lower level, it lacked the skill to fight the Emperor-level sacred dragon in the sky.

The city was teeming with ferocious Ocean Demons. The demons had fixed their eyes on the dark sky to see the green silhouette's true form. But, after the Ocean Serpent Demon was executed, the other demons' hissing and roaring came to a halt. The ferocious and arrogant demons hung their heads and tried to flee.

The Magic City turned silent all of a sudden.

The canopy covered the earth, ocean, and the large city. At that moment, it landed. The dark shadow in the sky had seemingly covered the sky and the sun.

Just then, there were some changes in the sky. The sky had not only darkened but turned terrifying. The people were too small to see it clearly. They instinctively became fearful. They felt as if they were suffocating.

The creature was right above their heads. They summoned their remaining courage and looked at the edge of the sky ahead of them to find its barely visible green body.

When they turned around in panic, they noticed a moving green tail in the endless sky.

The Multicolored Demon King's Sea of poisonous coral attack was shockingly powerful. The people felt as if they were facing a death phantasm when they saw its striking demonic colors. However, its multicolored coral attack was nothing compared to the powerful green claw above the clouds.

The Multicolored Demon King struggled to break free. It hissed and tried to fight back.

It tried to fight the Azure Dragon with all its might. However, the Azure Dragon grabbed it even tighter. Green lightning in the sky struck the Multicolored Demon King, and it suffered in excruciating pain.

The Magic City crowded with Ocean Demons fell silent. At that moment, wisps of white ghost silk flew from the white monster lair. It weaved an enormous white tentacle in midair and slammed at the Azure Dragon!

The white tentacle was so huge that it could wipe out the entire city in a single sweep. It contained endless demonic energy. It pierced the canopy and cut through the Chaos Dimension!

The appearance of the white tentacle was unprecedented. The Forbidden Mages had been fighting with the other demon kings and were extremely shocked when they saw this. If the white tentacle had attacked them from the start, the Forbidden Mages, super-level Mages group, and advanced Mages group basically would have died a long time ago.

After all, who would have thought the demon that had turned Jing An into a white monster lair was an emperor-level demon?!

It was clear that the demon that created the white monster lair decided to launch its attack at that moment was all because of the Multicolored Demon King. It refused to let the mysterious creature in the cloud tear the Multicolored Demon King into shreds.

The enormous white tentacle must have come from another terrifying dimension. To make things worse, it appeared in this peaceful world, hence doing a lot more damage. The Mages team from the Magic Association had intended to barge into Jing An to kill the white demon. They were dumbfounded when they saw this.

If the demon was capable of summoning such a white tentacle, the fact that it had remained silent was actually a trap. It was waiting for the Mages to fall into its trap!

“It’s an Emperor-level Ocean Demon! The white demon in Jing An is an Emperor-level Ocean Demon! Retreat now! Everyone, RETREAT!” The teacher from the National Institute cried out in shock. He hastily ordered the Mages behind him to stay away from Jing An.

The Enforcement Union in the Magic City launched a full-scale demon slaying operation. They had to get rid of several key potential problems to increase their survival rate.

Saving the people from the white monster lair in Jing An was part of their rescue plan. But to think they had almost fallen into the Ocean Demon’s trap...

If it had not been for the fact that the Multicolored Demon King had been attacked by the mysterious creature suddenly, the white demon would have continued to hibernate while carrying out its hidden, greedy, and ruthless agenda!

Chapter 2859: The Demonic Ruins White Spider Emperor

The white tentacle struck the sky. The great force pushed the clouds away and revealed the Azure Dragon’s body.

The white tentacle struck the Azure Dragon’s abdomen. The white tentacle contained countless antennas that resembled suction cups. They clung onto the Azure Dragon’s abdomen.

Boom!

There was a loud bang. The next moment, the white monster lair in Jing An expanded. White gigantic legs broke out of the white membranes and landed in the city area, causing a slew of terrifying sinkholes.

There was not much sea water around the white monster lair. But, after the white demon broke out of its nest, the city fell. Sea water from nearby cities gushed in and flooded Jing An.

The White Demon King stood in the middle of the tumbling city. It extruded the terrifying white tentacle from the spinnerets at its back. The white membrane that covered the entire Jing An also came from its enormous spinnerets.

At first glance, the White Demon King looked like an enormous spider. Its legs were thin and long, and the spinneret on its back was as large as a whale's belly. The thin filament of silk extruding from the spinneret could turn a city into a terrifying white lair!

"It's the Demonic Ruins White Spider Emperor!"

Feng Li was shocked after he saw the demon's true form.

Demonic Ruins was a horrific forbidden place found in the south of Japan several decades ago. The ruins were found under the sea of unknown origin. The ruins seemed to exist in the folding of space. When one entered, the ruins seemed much bigger than from outside.

The China Forbidden Curse Association had once joined forces with Japan Forbidden Curse Association and explored the inside of these ruins. The mages who entered the ruins were either dead or became delirious. It took them a very long time to recover. However, by the time they recovered, they had forgotten everything about the ruins under the sea.

In the past few decades, the humans had not given up exploring the Demonic Ruins under the sea. They finally discovered the traces of several powerful Ocean Demons, and the White Spider Emperor was one of them.

Even the White Spider Emperor that had never left the Demonic Ruins under the sea heeded the Ocean Godly Horde's instruction. It was no wonder the Ocean Demons had become so fearless!

The Demonic Ruins White Spider's white tentacle grabbed the Azure Dragon tightly. Its tentacles sank into the ground to secure itself. The expanded white monster lair had turned into a gigantic city machine. It had become the Demonic Ruins White Spider Emperor's armor.

For a moment, the Demonic Ruins White Spider Emperor grew incredibly huge. It was above Jing An, with densely packed buildings right under its body and feet. It had traveled for several kilometers.

The sticky membrane was no longer soft. It quickly hardened and became as hard as iron and steel.

The Demonic Ruins White Spider Emperor's snow-white color radiated an icy cold aura. When it rose, it could easily reach the sky. The prosperous high-rise buildings stood underneath its belly.

There were countless thin, white filaments of silk under its belly. Each silk carried a large mass of flesh chrysalises. Each chrysalis contained a living human. They had been stuck together like insect eggs. They formed many gigantic white chrysalis groups under the Demonic White Spider Emperor's belly, and it was about the size of a classroom crowded with a few hundreds of people. It was as big as a stadium. The humans were trapped within the white spider silk. It was humid and disgusting.

When Feng Li and the rest of the Enforcement Union members were greeted by this sight, they were stunned! 'Could this be the white monster lair's true form? What should they do to kill such a demon?'

The Demonic Ruins White Spider Emperor tried to pull the Azure Dragon down from the clouds with its white tentacle extending from the spinneret at its back.

With the help of the Demonic Ruins White Spider Emperor, the Multicolored Demon King unleashed its poisonous coral thorns and pierced the Azure Dragon's claws and abdomen.

Roar!

The Azure Dragon hissed. The Multicolored Demon King was in midair, and it slowly flew down onto the city.

The Demonic Ruins White Spider Emperor made a strange cry. It increased its power. The thin, white filament of silk all over its body became harder than iron and steel.

Countless white, steel-like brackets appeared in the sky above Jing An. The steel-like brackets acted as the Demonic Ruins White Spider Emperor's tentacles. The white tentacle clinging on the Azure Dragon's abdomen became more powerful and pulled the sacred totem Azure Dragon down from the clouds.

The sky above the Magic City was riddled with holes, and the sea water poured onto the city like a waterfall. The air was misty and foggy. The Azure Dragon dropped down slowly but still, they could not see its skull and tail.

There were two giant claws in the sky. One of them grabbed the Multicolored Demon King tightly while the other claw approached the ground.

Just when they thought the Demonic Ruins White Spider King was about to slam the Azure Dragon onto the ground, the Azure Dragon grabbed the Demonic Ruins White Spider King with two of its claws close to its abdomen and tail. The Azure Dragon grabbed it and yanked it to the sky!

The earth was lifted up. The buildings were thrown into the sky. The Demonic Ruins White Spider Emperor wanted to slam the Azure Dragon down, only to end up being caught like the Multicolored Demon King.

The Azure Dragon had not been dragged down. It just approached the land with its hind claws.

Just then, the white monster lair expanded again. Countless white silk transformed into long white snakes and wrapped around the Azure Dragon's hind claws.

The Demonic Ruins White Spider Emperor frantically spit various filaments of silk onto the ground so that the sticky silk could stick to the city ground.

However, all of its effort was in vain. The Azure Dragon was enormous. Its body was magnificent. The Demonic Ruins White Spider Emperor was just as the size of the Azure Dragon's claws.

The Azure Dragon grabbed the Multicolored Demon King with its front claws and the Demonic Ruins White Spider Emperor with its hind claws.

...

Many people in the city saw the terrifying sight.

The sky was dark. They had no idea how long or huge the green creature was. It grabbed the Multicolored Demon King with its front claws on one side of the city and the Demonic Ruins White Spider Emperor with its hind claws on the other side of the city. The Multicolored Demon King continued to struggle to break free of its grasp. Meanwhile, the mighty Demonic Ruins White Spider Emperor looked furious. It tried to break free but still ended up being dragged away from the ground.

Nobody could figure out what sort of a creature the green thing in the sky was.

The Multicolored Demon King and Demonic Ruins White Spider Emperor were powerful Emperor-level Ocean Demons. They had dominated the entire Magic City.

Even so, the two were helpless when confronting that green creature...

Chapter 2860: Absolute Divine Power

Roar!

The Azure Dragon's roars shook the sky. Air waves surrounded by icy cold fog blasted in the sky.

The air waves blew past the Demonic Ruins White Spider Emperor and melted its sticky white filaments of silk.

The flesh chrysalises hanging on the Demonic Ruins White Spider Emperor's belly fell to the ground in front of the Enforcement Union members.

Each chrysalis contained a living human. Every flesh chrysalis basically contained a mage. They looked skinnier than before. Their internal organs were weakened. It was clear that the Demonic Ruins White Spider Emperor had absorbed their vitality in order to weave its magnificent white lair!

"Save them now! Quick!" Feng Li said to the rest of the Enforcement Union members with great urgency.

Large piles of flesh chrysalises fell to the ground. Feng Li and his group quickly stripped the filaments of silk from their bodies and throats. Fortunately, the humans trapped inside the chrysalises were still alive. They broke themselves free of the chrysalises. They were weak, but they could walk.

"Jing An is safe! Jing An is safe!" The people hiding inside the buildings jumped for joy.

The Demonic Ruins White Spider Emperor had taken control of Jing An all by itself. Everyone had witnessed it being captured. They felt relieved, as if the death scythes above their heads had finally vanished.

"Calm down! Everyone, calm down! We're in this situation together, so we must unite and face the enemy. Those who are still capable of fighting the war, follow me. We're going to stop the Ocean Demons from surrounding us. Those who have lost their magic power, help the rest who are still trapped inside the chrysalises and the refuge. We have to work hand-in-hand to stand guard over the refuge. Citizens stay there. We cannot let them be involved in this disaster. We must hide them somewhere safe!" Feng Li shouted at the rescued people.

"What exactly is that green silhouette above the sky? Is it here to help us?" several mages from the Magic Association asked in confusion.

They had not returned to their senses. Whatever had transpired a while before was still shocking.

Two claws appeared from the clouds and grabbed the Multicolored Demon King and the Demonic Ruins White Spider Emperor. The sight had stunned the Ocean Demon chiefs, Ocean Demon rulers, as well as the super-level Ocean Demons.

‘Was God watching over the citizens in the Magic City? Was there still a glimmer of hope for the citizens?’

“I’m afraid it could be a more powerful Emperor-level creature. We haven’t seen its true form. Even though it is an enemy of the Ocean Demons, it might not necessarily be our ally either. We can’t simply jump to any conclusion,” Feng Li spoke solemnly.

Most people assumed the enemies of the Ocean Demons were naturally their protectors.

But Feng Li was a wise man. He was aware of the country’s current situation.

There were no Forbidden Mages in the country who could summon such a divine beast to take on the Multicolored Demon King and the Demonic Ruins White Spider Emperor. Hence, its appearance was a mystery.

‘Why did it appear in the sky above the Magic City? Why was it the Ocean Demon’s enemy?’

What worried Feng Li the most was that the powerful green silhouette might not have arrived with the intention to help humans but rather to show off its power.

If the green creature cast its divine power on humans and crushed the cities with its magnificent body, the Magic City would be destroyed.

...

The Demon Lord was still standing at the Bund of the Magic City. It was taller than the skyscrapers.

The sky above the skyscrapers was covered in darkness. The black Heaven-shaking Demonic Waves were approaching. The shocking wave line in the sky was approaching the international city!

It looked like a tsunami. It was as though a majestic ocean was hanging upside down between heaven and earth!

A pair of icy cold, bright eyes appeared. The eyes were narrow and eerie. It no longer fixed its gaze on the flying Forbidden Mages.

Instead, it placed its attention on the clouds, as if it was looking for something. In fact, the creature that it was searching for was the Azure Dragon. The Azure Dragon coiled up in the space above the sky. It saw everything. It was above the sky and the clouds!

The sky was dark. A gap slowly appeared in the middle of the dark clouds.

Suddenly, a mass of poisonous and colorful corals was smashed against the Prime Waves, as if throwing a group of sea urchins at it.

The next moment, a gigantic white creature fell from the sky and smashed at the Demon Lord!

The Forbidden Mages looked up and were caught in surprise.

‘Weren’t they the Multicolored Demon King and the Demonic Ruins White Spider Emperor?!’

The two great Demon Kings had each occupied a prosperous city in the Magic City. They had gone on a wild rampage. The Forbidden Curse Association had to assign members to keep these Emperor-level Ocean Demons in check. However, the Demon Lord posed a tremendous threat to the humans, hence the Forbidden Curse Association assigned the Forbidden Mages to restrain it.

There were very few Forbidden Mages who could fight a brutal Emperor-level Ocean Demon alone.

However, they had never expected the Multicolored Demon King and Demonic Ruins White Spider to be smashed at the terrifying Demon Lord like soccer balls!

Bam! Bam!

The Demon Lord’s Prime Waves served as an indestructible shell. Even though the Multicolored Demon Lord and Demonic Ruins White Spider Emperor were flung at it, the two Demon Kings just bounced away.

The Multicolored Demon Lord was covered in blood. Its neck that was filled with poisonous flesh had been ripped to shreds. On its back were shocking claw marks. Its tail and forelimbs had been severed. It died in agony.

Meanwhile, the Demonic Ruins White Spider Emperor’s spinneret had been torn apart. White blood gushed out like a flowing stream.

The filaments of silk all over its body that were as hard as iron had been shattered. The Demonic Ruins White Spider Emperor landed at the Huangpu River. As it got up, it was still a bit shaky. It half-prostrated its body as it looked up at the dark shadow in the sky in panic.

“Who lured these two Emperor-level Ocean Demons over here?!” Fire God shouted.

The Forbidden Mages had exhausted their energy in fighting the Demon Lord. With the addition of the two Emperor-level Ocean Demons in the fight, how were they supposed to take on these Ocean Demons?

“They look like they are severely wounded,” said an elder Forbidden Mage.

President Hong Wu frowned as he stared at the two Emperor-level Ocean Demons. He was confused, too.

He wondered why the two Emperor-level Ocean Demons rampaging through the cities would appear here of all places. More than that, he was confused why those demons were so severely wounded.

The two Emperor-level Ocean Demons had lost their arrogance and demonic aura. They stared at the clouds as if their great enemy was approaching them.

‘Was there something more terrifying above the clouds? Was that the reason the two Ocean Demons were so afraid and panicked?’
