### [Versatile Mage](#)

#### Chapter 921: The English Team

Old Bao blew at his mustache and cursed, "Do you have any idea how tiring it was just to handle the orb? You can keep it now."

"What? Keep it?" Mo Fan's eyes widened. "That thing is very dangerous. It tried to bewitch me at times. It's like a ticking time bomb!"

Mo Fan did not forget how twisted Mochizuki Chihaya had been. She had almost turned into a devil. Who knew if the orb would sneak into his soul without him knowing? There was no way Mo Fan was going to bring such an evil thing around with him!

"Do you seriously think I haven't done anything to it? I've already eliminated the evil presence inside it. It's only a container now. It's quite valuable, too!" replied Old Bao.

"Are you sure the strange voice won't appear out of nowhere and bewitch me again?" said Mo Fan.

Mo Fan clearly knew where the orb came from. It used to contain a super evil being from a place of evil. Anyone that touched it would suffer utter bad luck. Mochizuki Chihaya and Mochizuki Ken were too kind to simply chuck the orb over to him and let him handle it for them!

"Don't worry, it won't happen again. I was going to sell it and split the profit with you evenly, since there are people that are willing to spend a fortune on it. However, I heard Lingling mentioned that you almost used the Demon Element at the manor, so after thinking about it for some time, I decide it's better for you to take it," said Old Bao.

"What do you mean?" asked Mo Fan in confusion.

"You know that using the Demon Element is like a huge loan. The real demon will soon demand the payment from you, but with this orb that's able to store Soul Essences...You know how hard it is to find an abundant supply of energy to support the Demon Element. I've cleared the evil existence in the orb, and modified it into an energy container. If you happen to find yourself in a situation that you can't overcome with your current strength, you can use the Demon Element and use the orb to pay the price!" declared Old Bao.

Mo Fan was overjoyed!

Damn, it turned out that Old Bao had managed to modify the orb in his favor! Old Bao was impressive indeed. If the old man had been a young woman, Mo Fan would have immediately given him a few kisses on the face. It was something that he desperately needed for now!

"Who would have thought that the orb could be that handy, hahaha!" Mo Fan suddenly felt that both Mochizuki Chihaya and Mochizuki Ken were incredibly amusing, giving him such a great gift without them knowing!

“You have become the Black Vatican’s target after the calamity of the Ancient Capital. We will take good care of the people around you, but you like going wild on your own. The Black Vatican will surely try to get revenge on you, so before you grow into an independent Supreme Magician, the power of the Demon Element is your greatest weapon against the Black Vatican...” Old Bao reminded him sternly.

“I understand,” Mo Fan nodded.

“Go back to the national team. Our country doesn’t really have suitable sources to fill up the Essence Orb. Go find the sources elsewhere; the orb is like a magnet, it will guide you to the suitable sources. Mo Fan, no one knew what the side effects of using the Demon Element were. For your sake, and to prevent something worse than the Red Demon appearing in this world, I hope you will fill up the Essence Orb before you use the power of the Demon Element again,” said Old Bao.

Mo Fan held the empty orb in his hand and nodded firmly after seeing the serious look on Old Bao’s face.

It was obvious that Old Bao had spent quite a lot of effort on the orb just so he could have better control over the Demon Element. Mo Fan would definitely remember Old Bao’s advice!

“I will try my best to fill up the orb,” replied Mo Fan.

“Be careful out there. Salan knows what you’re capable of, so she won’t necessarily take the initiative to trouble you. She’s scared of your Demon Element, but I believe she will try every way to force you to use it, and get rid of you when you’re weak after using it. Therefore, it’s very important for you to focus on improving your strength. Only when you’re strong enough will you not find yourself being controlled by others!” added Old Bao.

Mo Fan rarely had the chance to have such a long discussion with Old Bao, yet every word that the old man said served as a great reminder to him.

It was necessary for him to grow stronger. The Demon Element was not reliable! If he assumed it was his trump card, with Salan’s capabilities, she could easily take his life!

“I understand, I will try my best to improve my strength too!” Mo Fan assured him.

--

After taking the Essence Orb with him and leaving the Clearsky Hunter Agency, Mo Fan suddenly felt that Old Bao was not just the person in charge of a private agency. He was totally clueless about the old man’s identity in the past...

Mo Fan did not really care about it. Old Bao’s advice had definitely given him a clear goal.

Fill up the orb! Improve his strength!

Once he was strong enough, he could easily handle any situation, even if Salan was setting her eyes on him.

“I should regroup with the others on the national team. I wonder where Ai Jiangtu and the others are at now,” said Mo Fan.

--

Mo Fan returned to the Training Hall. He was meant to take part in the last battle before he could rejoin the national team. The others were about to finish their current round of training. He had no idea who was going to be disqualified.

Meanwhile, Mo Fan had to win against another team before he could rejoin the national team.

As Old Bao mentioned, the Essence Orb did not show any reaction in the Magic City. It was obvious that there was no suitable source to fill up the orb nearby.

After entering the Training Hall, for some reason, Mo Fan felt that the atmosphere did not seem right. Everyone was wearing a gloomy look.

Mo Fan went up to the team and asked Mu Nujiao, "What's wrong? Are we going up against a lowly team like the Egyptians?"

"They are very polite and humble. It's just that our winning streak might come to an end today. We only needed one more win to reach five wins in a row," said Mu Nujiao.

Mo Fan lifted his gaze and looked at the group of people opposite their team. They were wearing casual clothes, some of the girls were even wearing antiques of China as accessories. It seemed like they were quite passionate about Chinese culture...

"Which country are they from?" asked Mo Fan.

"A strong country, England!"

Mo Fan's mouth opened. He could not find any word for a moment.

England, an extremely strong country!

Their pure, strong magic was considered to be the highest standard across Europe. The top Magic Association of the five continents, Saint Paul Church, was located right in England!

Chapter 922: Four Versus Four!

Having the English team as his final opponent, Mo Fan somehow felt that even the heavens agreed that life had been too kind to him lately, and had decided to give him a heavy blow. Otherwise, why would the English team be his last opponent when there were so many other countries?

The English team was likely to be in the top three, or at least top five of the whole world!

"Is anyone willing to take part in the duels?" Bai Dongwei scanned the defenders and saw half of them taking a step back.

Bai Dongwei was immediately enraged. He pointed at the students and scolded, "A bunch of useless idiots, eager to participate against weaker teams, yet immediately turn into cowards when a strong team comes. Being able to fight a strong team is a great chance to learn! It's more about the spirit, do you understand?"

“Instructor, we don’t want to be crushed. We just got our confidence back,” one of the defenders murmured.

Bai Dongwei looked helpless. As a matter of fact, when the English team entered the hall, he could already tell the students were in a bad position. Their opponent was being very polite, yet everyone on the English team was actually like a tiger or a wolf.

“What is the challenge going to be?” asked Mo Fan.

“Four on four, standard team battle,” said Bai Dongwei.

“It looks like they have decided who their representatives are, how about us?” asked Mo Fan.

“I’ll go,” Mu Nujiao knew the fight was extremely important to Mo Fan. If they lost, he had to wait until the next roster change of the national team. No one knew how long that was going to take.

“Humph, a strong country is nothing to be scared of, either!” Dongfang Lie stepped forward. He seemed pretty eager to fight the English team.

“We’ll need a Water or Light Element to be in charge of our defense,” Mo Fan said to the team.

“Can I try?” asked Li Kuang.

The four members representing the Chinese team were selected. When everyone was about to step onto the stage, three people showed up at the entrance of the Training Hall. They were all fairly aged...

Bai Dongwei was surprised. He did not expect the advisors to visit the Training Hall. He was totally taken by surprise.

However, his face immediately fell dark as a thought crossed his mind.

The advisors never visited when they were on a winning streak, yet they happened to come when their team was facing off against a strong opponent, the English team. The smile on Bai Dongwei’s face immediately vanished.

It did not matter who their opponent was, it went without saying that the advisors would not be happy seeing the Chinese team lose. If they were not happy, he would surely be scolded as the instructor!

“What kind of luck do I have!?” Bai Dongwei felt like tearing up. He immediately went to receive the advisors.

The advisors were Feng Li, Song He, and the vice-president of the Oriental Pearl Tower. Behind them were a few young Magicians, who were most likely their juniors; two girls and a boy.

Feng Li had thick brows and a thick beard. He was always accompanied by a domineering aura and background music. He looked at Bai Dongwei and uttered a cold harrumph, as if he was not fond of the instructor, and proceeded to the spectator seats.

Bai Dongwei had no choice but to keep the advisors in company.

“Feng Li, it’s Mo Fan,” Song He immediately recognized Mo Fan standing on the stage.

Song He was the dean of Imperial College. He was very familiar with Mo Fan’s achievements.

“Humph, that disrespectful, undisciplined, impolite kid; I can’t wait to see how screwed he’s going to be!” Feng Li pulled a long face. He seemed to have a huge grudge against Mo Fan.

Feng Li and Song He happened to be at the Magic Association. They decided to visit the Training Hall when they learned that the English team had come to challenge them. Even though the advisors were in charge of the national team, the Training Hall was still a part of their responsibilities.

“I was quite surprised that the English team came to Asia so soon. It seems like we are the first country they visited,” said the vice-president.

“Since our Training Hall’s winning rate improved, our ranking improved too. It went without saying that they are more interested in challenging the country with the highest ranking,” Song He smiled..

The Training Hall’s winning rate had skyrocketed since Mo Fan and Mu Ningxue joined the defending team. They had successfully grabbed the attention of other countries.

“Grandpa, can they beat the English team?” asked a young girl with a ponytail in a sweet voice.

“Of course not; even the people on the national team are most likely going to lose to the English team, let alone them,” replied Feng Li blatantly.

If the national team was considered the main team, the defending team would be considered a substitute team.

Their challenger today was the main team from England. Even the team led by Ai Jiangtu had no chance of winning against them. England was a strong country after all. Its ranking in the World College Tournament in the past had always been a lot higher than China.

“Does that mean the fight is going to be boring to watch?” murmured another young girl whose hair was dyed blonde.

“We aren’t here to enjoy the show. I’m mainly here to watch the English team, to observe their strength,” said Feng Li.

“(cough cough) Feng Li, please don’t say that...” Song He looked embarrassed.

Bai Dongwei’s face flushed after hearing the comments. Those words were too damaging to his dignity!

--

The representatives from the Chinese team were Mo Fan, Mu Nujiao, Dongfang Lie, and Li Kuang.

As for the English team, it seemed they had decided on their representatives randomly.

Normally, it was rare for the captain of a national team to participate in the challenge. Mo Fan only hoped that the English team did not send out someone too strong. If one of their representatives was as strong as Ai Jiangtu, his team basically had no chance of winning!

“They are all Advanced Magicians,” Mo Fan quickly reminded his teammates, frowning when he saw the four representatives from the English team.

“That’s fine, we can still fight them if they haven’t learned the Advanced Spells yet,” said Li Kuang.

“I have also reached the Advanced Level,” said Mu Nujiao.

“Oh? Not bad, not bad!” Mo Fan raised his brows at Mu Nujiao.

If Mu Nujiao was able to cast the Advanced Spell of the Plant Element, their team would be in a better spot. The Demon Tree Hand was quite a dominating spell!

However, it did not matter much if she still had not learned it. Her control of the Plant Element had still improved significantly regardless. When everyone was still unable to cast Advanced Spells adeptly, the control of their Element mattered the most. After all, it usually took a long time just to cast an Advanced Spell.

Mo Fan was quite surprised to learn that Mu Nujiao had reached the Advanced Level. He had not noticed her cultivation improving suddenly, despite staying in the same house... it seemed the Mu Family had decided to invest in her!

“Cheer up, we won’t necessarily lose the duel!” said Mo Fan after he saw the other three in low spirits.

Li Kuang forced a smile on his face. As a matter of fact, he only volunteered to get some experience from it. How could they possibly have a chance of winning against the English team?!

Dongfang Lie did not say anything. He was prepared to give his best. As for the outcome, he was prepared to face it. It was not like he had never lost before.

Meanwhile, Mu Nujiao was being extremely serious. This was the first battle she would be involved in after she became an Advanced Magician. She would definitely try her best!

Chapter 923: Golden Griffin

The English team consisted of three men and a woman. The woman stood out among them; even though she was wearing an ancient costume and accessories, she still had an elegant demeanor. Her golden pupils displayed a hint of nobility; humbling the others.

The golden-eyed girl was being modest and polite. She immediately greeted the crowd elegantly as she walked onto the stage.

Mu Nujiao responded politely, too. The atmosphere was a lot different than when the team was fighting the Egyptian team.

However, despite how polite the English team was, the pressure that the Chinese team felt did not fall even the slightest. It did not feel pleasant at all.

“My name is Ayleen. It’s my first time visiting China. I am pleased to meet you,” the golden-eyed woman smiled. She seemed to have a good impression of Mu Nujiao.

Mo Fan nudged Li Kuang on the elbow and said softly, “That woman is pretty tall, but her chest is quite big too!”

Li Kuang immediately glanced forward and was shocked to see the huge cleavage peeking through the round collar of the uniform the woman was wearing. It was rare to see someone with such a remarkable physique in their country!

“What are you two thinking about!?” snapped Mu Nujiao. “Focus on the battle, be serious!”

--

Bai Dongwei glanced at the advisors before hesitantly declaring the start of the battle hesitantly.

The four representatives of the English team did not attack first. They were smiling calmly, as if they were treating the Chinese team to a meal instead of having a duel.

“What the heck are they smiling at? Dongfang Lie, give them a big one!” said Mo Fan.

“Don’t tell me what to do!” Even though Dongfang Lie was not too pleased with Mo Fan’s order, he still gathered his flames right away.

It was not like Dongfang Lie had not improved lately. Everyone could tell that his Fire Element Soul Seed had grown a lot stronger. Its aura was already stronger than Mo Fan’s Rose Flame.

“Fiery Fist: Fiery Dragon!” Dongfang Lie immediately cast his strongest attack at the start of the battle!

The spell he cast was stronger than the fourth tier Fiery Fist: Nine Dragons. The nine dragons had all combined into a single fiery dragon, sweeping at the English team in a blaze of fire.

The Fiery Dragon sprang forward at a remarkable speed. The representatives of the English team were quite surprised by the spell.

Fifth-tier Fiery Fist? Mo Fan opened his mouth wide. He was quite shocked when he saw the fiery dragon ramming forward while uttering a menacing cry.

Dongfang Lie grinned. If he had not learned the fifth-tier Fiery Fist, he would never have dared to challenge the English team. The advisors happened to be watching the battle, too. Perhaps they would be impressed by his performance, giving him a better chance to join the national team.

The golden-eyed Ayleen opened her mouth slightly. The red light of the flames shone on her fair face.

“This is a country with concealed talents indeed! Even a talented person like him is only a mere defender at the Training Hall!” exclaimed Ayleen.

While giving the compliments, a purple-blue Star Pattern appeared under her feet. After the first Star Pattern was drawn, the second, and third Star Patterns appeared quickly. They circled around the golden-eyed woman Ayleen and formed a Water Star Constellation, setting off the sacred, glamorous woman with its brilliance!

“Water Curtain!” She tapped softly at the air in front of her. A watery rune spread swiftly and formed a barrier made from a waterfall hanging before the English team.

Even though the Fiery Dragon looked unstoppable, it was immediately extinguished by the Water Curtain when it collided with the watery barrier.

The seemingly unstoppable spell was gone within the blink of an eye. The Water Curtain perfectly nullified the Fiery Fist: Fiery Dragon.

“This...” Dongfang Lie was stunned.

How could anyone cast an Advanced Spell so quickly? What the heck could he possibly do? Even by using all he had, he had no chance of breaking through the defense of the Water Curtain set up by the golden-eyed woman!

“So fast!”

“She is so adept at casting the Advanced Spell. It’s a no-brainer who’s going to win the battle!”

“England is really a place with crazy talents. That girl is only in her twenties, yet she is already so adept at casting the Advanced Spell...”

The battle had only just begun, yet a sense of hopelessness and despair already surged through the spectators when the outcome suddenly became predictable.

—

“I’ll handle the offense, it’s been a while since my William last had his exercise,” said Sade, who was standing beside Ayleen.

As Sade uttered a chant, the Door of Contract slowly opened, and a griffin covered in golden feathers sprang out. It let out a long cry and soared rapidly into the air. The light from the ceiling of the Training Hall shone on the griffin’s feathers and reflected sacred lights across the stage.

The golden griffin beat its wings. Its sharp eyes locked onto Dongfang Lie, who had attacked the English team first.

The creature was like a giant, golden sword, diving down from the sky, aiming to slash the person on the ground in half!

Dongfang Lie was stunned. He quickly fled for his life.

“Save me, save me!” yelled Dongfang Lie.

“Forest of Kun!” Mu Nujiao reacted swiftly and quickly summoned a huge shrub consisting of dense thistles to block the golden griffin.

“You’re only getting yourself trapped!” Sade smiled.

The man in a handsome suit beside Sade smiled too. His eyes emitted a dark purple flicker, which turned into a cracking bolt of lightning flying to the space above Mo Fan and his crew.

“Thunderbolt!” The voice of the man in the suit sounded imperious. Lightning bolts struck down at the ground fiercely, each producing sparkles across the place.

The man’s Lightning Spell was relatively quick. Normally, Mo Fan’s Thunderbolt would only summon a dozen or so lightning bolts, but the man had already sent out more than thirty, and it still showed no

sign of stopping. The Forest of Kun was hindering the team's movements, and the lightning bolts were able to find their targets easily.

Mo Fan was in a fairly good spot, since he could endure some hits with his Lightning resistance. However, the others were all in a pinch. They almost had to use their defensive equipment.

"Attracting lightning by oneself!" A flicker of lightning burst out of Mo Fan's body, absorbing the energy of the Lightning Element around him.

It was quite easy to redirect lightning bolts. Mo Fan had turned himself into a lightning rod, forcing the lightning bolts to focus on him.

"Back to you!"

The lightning bolts surrounded Mo Fan. Before they inflicted any damage to Mo Fan, he quickly used his Lightning Seed Qianjun to unleash a horizontal lightning arc...

The lightning arc basically cleared a path for the other lightning bolts, leading right in the direction of Ayleen and her crew!

The man in a suit was stunned when he saw the lightning bolts coming back at them.

"Using lightning to direct lightning... interesting, let me handle the guy with lightning!" the man in the suit grinned.

The man left the team and constructed a Wind Track. He was guiding the lightning bolts away using the same method.

"Lightning Disaster!"

Mo Fan clenched his fist. He suddenly detonated the energy of the Lightning Seed Qianjun while the man in a suit was confidently playing with the lightning bolts.

The Lightning Disaster turned the lightning bolts into a cage entrapping the man in a suit. His face turned pale immediately as he summoned his armor in a panic to defend himself.

Fourth-tier Thunderbolt!

The man in a suit, Herbert, had a dark face when he realized he had been set up!

He did not expect his opponent to have the fourth-tier Thunderbolt, nor did he expect the man to have such outstanding control that he was able to hide the enormous energy of Lightning Disaster in just a single Thunderbolt...

"Herbert, you've been too careless," criticized Ayleen when she saw Herbert already pulling out his Magic Armor.

"Humph, as long as the outcome is the same, leave the lightning guy to me!" Herbert answered in a serious voice.

A golden, brilliant light encapsulated Herbert as several Star Patterns appeared under his feet. The Star Patterns intertwined and drew a complete Star Constellation.

The faces of the defenders turned paler when they saw the brilliance of the Star Constellation emitting from Herbert's figure.

Another Magician able to cast Advanced Spells adeptly, and he seemed to be an Advanced Lightning Magician!

"Plummeting Rays!"

Herbert already had his eyes on Mo Fan. Countless beams of light appeared around him and turned into arrows scattered across the place.

"Go!" Herbert fired all the light arrows in Mo Fan's direction.

Mu Nujiao, Dongfang Lie, and Li Kuang spread out immediately. Mo Fan was running away, yet the light arrows were chasing after him like homing missiles...

"Space Rhythm: Time Stasis!"

Mo Fan drew the silver Star Pattern when he realized he could not run away.

The space around Mo Fan came to a near-halt all of a sudden. Even the airflow had slowed down significantly.

The light arrows that were chasing after Mo Fan slowed down as they entered the field.

"Space Element!?" Herbert was astounded when he saw his Advanced Spell losing its effect.

"Telekinesis!" The light arrows slowed down after entering the space under the effect of the Time Stasis. Mo Fan immediately used his will to construct a wall to intercept the arrows...

"Damn it!" Herbert was annoyed when he saw his Advanced Spell being nullified by an Intermediate Spell and a Basic Spell.

"Griffin, attack him!" The summoner Sade gave the command to the golden griffin flying in the air when he saw Herbert's attack failing to achieve its goal.

"I don't need your help!" snapped Herbert furiously.

"Winning is our primary focus," Sade replied, ignored Herbert's temper.

The golden griffin swung its sharp claws as it ambushed Mo Fan from behind at a remarkable speed.

"Back off!" Mo Fan used his will to stir up a strong gust of wind, trying to drive the golden griffin back.

However, Mo Fan had underestimated the golden griffin's strength. It provided some resistance to the fierce beast, yet it was not enough to stop the beast's claws!

Chapter 924: Summoning the Beast Tide!

"Light Protection: Sacred Shield!" Li Kuang was able to react in time and applied a sphere of golden protection around Mo Fan.

The golden griffin realized that it could not penetrate the thick golden shield with a single move. It was forced to rise into the air and look for another opportunity to strike.

“Trying to run away?” Mo Fan stared at the golden griffin as it rose into the sky. He grabbed forward with his hand and dragged at the golden griffin’s tail...

The golden griffin stopped in the air, beating its wings heavily.

The creature’s wings were quite strong. Mo Fan could feel it slipping away from his Illusionary Claw.

“Space Rhythm: Gravity!” Mo Fan cast the spell quickly, immediately changing the structure of the space around the golden griffin as it was about to break free.

A rhomboid with a silver, glowing frame appeared in the air. The pressure inside the rhomboid was obviously different than that outside it. The golden griffin’s beautiful feathers were all pulled down by a mysterious force.

The creature beat its wings mightily, yet it was shocked to discover that its body was falling slowly, as if more than ten iron balls were hanging onto it, making it extremely difficult to stay in the air.

“Come down here!” Mo Fan quickly completed his Lightning Spell. He waved his hand and immediately summoned a thick, purple-black lightning bolt above the golden griffin.

The lightning descended and landed right on the golden griffin. The creature was already having trouble, and immediately fell to the ground. Some of its feathers even came off and floated in the air.

Mo Fan clearly knew an Intermediate Spell was nowhere enough to defeat the golden griffin. He slammed his fist onto the ground when the golden griffin reached the ground, bringing forth nine fiery pillars to burst out from the ground, and giving the golden griffin an enjoyable bath among the flames!

“I already said I don’t need your help!” screamed the frustrated Herbert.

Herbert gathered a strong wind and charged in Mo Fan’s direction. Apart from the Wind Track he was riding, a strong wind was following him, too. Once he was close enough to Mo Fan, the flowing air would immediately turn into a strong tornado, tossing Mo Fan into the air.

Herbert was rather confident with himself, actually treating himself as the eye of the storm, making up for the slow-moving speed of the tornado. He was basically a mini-tornado charging at a target.

Mo Fan simply decided not to dodge it when he saw the approaching attack. Flames started burning fiercely on his fists...

The Rose Flame and Calamity Fire appeared simultaneously. The two types of flames combined into one on Mo Fan’s fist, which he threw right at the moving tornado!

The flames completely surpassed Herbert’s imagination. He had never seen an Intermediate Spell almost as strong as an Advanced Spell. The storm around him was shattered by the fiery dragons rolling at him. The fierce flames struck him with great might.

Fortunately, the Magic Armor he was wearing still had not worn off. It managed to endure most of the damage on his behalf. Otherwise, he would simply have evaporated after receiving the punch!

Mo Fan's Meteorite Fist: Nine Dragons was so quick that it took everyone by surprise. It blasted Herbert down from the stage. The man was laid on the ground for quite a while before he could rise to his feet.

The members on the English team opened their mouths wide and stared at Herbert on the ground. They totally forgot to lend him a hand at that moment.

The golden-eyed Ayleen on the stage was startled. Her focus was on Mu Nujiao, as she did not expect the ordinary-looking man to possess such shocking strength. He even managed to defeat one of their members before any of them could react!

"That man is pretty strong. Don't let your guard down!" Ayleen instructed her other two teammates.

Sade was well aware of it. It took his griffin quite an effort just to break free from the man's control!

"Time to show them what we are really capable of!" Sade ordered the golden griffin to return to his side and started drawing a lunar-white Star Constellation.

The lunar-white Star Constellation formed a stunning, mysterious area. The others could vaguely see the outline of an illusionary door leading to a different dimension standing on the stage.

The door's outline gradually grew clearer. It was a tunnel leading directly to the Summoned Beast Plane. The door was still not open, but everyone could already hear a loud noise from the other side, eager to rush out of the door.

"Crap, this is bad!" Bai Dongwei was the first to shout out.

An extremely dangerous aura burst out of the mysterious door and spread across the place like a black tide. As a Summoner, Mo Fan clearly knew how dangerous the thing behind the door was. He subconsciously took a few steps backward.

"Blood Beasts of the Land, trample upon this place!" yelled Sade.

The dimensional door sprang open. A pack of bear-like creatures with blood-red hides rushed out from it. The Training Hall trembled from their roars. Their muscular limbs easily smashed the stage into pieces.

The Advanced Summoning Spell did not just summon a powerful creature, but a whole pack of them! They were like a formidable beast tide, trampling everything into ashes!

When the number of Blood Beasts reached a certain amount, they were basically unstoppable as they were stampeding. Mo Fan immediately fled for his life when he saw the terrifying scene.

It was the same for Mu Nujiao, Dongfang Lie, and Li Kuang; no one dared to face the beasts directly!

Mu Nujiao was pretty quick since her secondary element was Wind. Meanwhile, Dongfang Lie was in a bad spot. The pack of Blood-Colored Enraged Bears soon caught up to him and smashed him half a meter into the ground. His expensive armor was smashed into pieces, too...

There were lots of different Blood Beasts, including Blood Rhinoceros, Giant Blood Bears, Wild Blood Elephants, most of them as enormous and muscular as tanks!

One could imagine how destructive it was when a group of tanks was charging forward at a speed of almost a hundred kilometers an hour.

The Blood Beasts soon filled up the stage. They were chasing after Mo Fan, Mu Nujiao, and Li Kuang while ramming, stomping, and knocking everything they came upon. Li Kuang used all he had to protect Mo Fan and Mu Nujiao, yet his Light Element and Earth Element were not enough to hold the creatures off still!

“This...this is just too painful to watch!” said Yue Tangxin.

The other defenders nodded in agreement.

This was the Advanced Summoning Spell. The word violent was nowhere enough to fully describe it. The defenders were relieved that they were not involved in the duel when they saw the beast tide devouring the tiny Mo Fan and the others.

--

“The team always has to rely on me in times like this.” Sade had a confident smile.

“Being able to summon such a huge pack of Blood Beasts, you’re indeed crazy!” Ayleen rolled her eyes.

“It’s nothing! If I have enough energy, the Beast Tide Summoning can last even longer,” grinned Sade.

The creatures summoned to their world through Dimensional Summoning were unable to stay forever. For example, Mo Fan’s Swift Star Wolf had to return to the Summoned Beast Plane after a certain time. The creature was able to stay for a long time because Mo Fan had plenty of energy to support his consumption.

However, Contracted Beasts did not have the same restriction. Little Flame Belle could stay as long as she wished. After all, she was a creature from this world, too.

The Advanced Summoning Spell was able to directly open a giant gate connected to the Summoned Beast Plane and summon a beast tide to trample one’s enemies. In simpler words, it was the same as summoning a pack of large demon creatures to trample the area...

The spell was powerful, but it had strict time restrictions!

The whole stage was almost razed to the ground by the pack of giant bears, rhinoceroses, and elephants. However, as soon as the time limit was reached, the creatures were immediately dragged into a portal and vanished into thin air.

The beasts came all of a sudden and left pretty quickly, too. In the blink of an eye, the place was just spacious as it initially was, although it was now full of holes, marks, broken pieces...

Dongfang Lie totally lost his ability to fight after being stomped by the beasts. He was moved down from the stage to be treated.

Li Kuang also expended all his energy just to protect the team from the beast tide. He looked at Mo Fan and Mu Nujiao with a pale face and said, “The rest is up to you two now. Try dragging the battle out as long as possible!”

Li Kuang did give all he had. Otherwise, Mo Fan and Mu Nujiao might not even have survived the Beast Tide.

Two members on their team were eliminated in an instant. Mo Fan finally realized how strong the English team was.

However, he was not someone to be messed with, either!

“Little Flame Belle, let’s fly!”

Li Kuang had given Mo Fan lots of time. The Rocket Wings were ready to launch. Not long after the beast tide disappeared, the whole Training Hall was set aflame by Mo Fan’s fierce flames.

The burning feathers exploded on Mo Fan’s back, turning him into a missile...

“It’s the same move that defeated the vice-captain of the Egyptian team!” The instructor and defenders were excited.

The punch was able to destroy the vice-captain’s defensive Advanced Spell instantly. It was slightly stronger than most Advanced Spells!

The three representatives of the English team were stunned when they saw fiery wings approaching them rapidly. They had never seen any move like it before, but they were able to tell that the attack was stronger than the punch that had knocked Herbert flying, just from the heat of the flames!

“Rocket Wings: Meteorite Fist!” The flames burned fiercely as a meteorite swept forth. Mo Fan left the nine fiery dragons behind as if they were mere accessories.

Ayleen and her other teammate quickly set up their defense.

A Water Curtain appeared in front of them, followed by a layer of Sacred Light: Rampart, facing the direction Mo Fan was approaching from.

The two layers of defense failed to stop Mo Fan’s Rocket Wings, Meteorite Fist. They were shattered into pieces! Ayleen, Sade, and the third teammate were stunned. They quickly summoned their Shield Equipment...

There were five layers of defense in total. The flames finally stopped moving forward. The three members of the English team could feel cold sweat running down their cheeks. They did not expect their opponent to have a move even stronger than the Meteorite Fist: Nine Dragons he already used before!

Meanwhile, on the spectator seat, Dean Song He’s mouth was big enough to fit a goose egg in. Even Feng Li was stunned.

They kept hearing from the others how outstanding Mo Fan’s strength was. However, after seeing it in person today, it was not only outstanding, but totally unbelievable!

Chapter 925: Asking to Surrender?

--

“No...no way, how did they survive it?”

“Holy crap, if I took that punch, I would have died eight times in a row, yet these maniacs from England are still alive!”

Wasn't the English team's defense a bit too impressive to be true? An Advanced Water Spell, Water Curtain, an Intermediate Light Spell, Light Protection: Sacred Shield, and three sets of Magic Shields. Their teamwork was absolutely stunning!

If only one of the three representatives of the English team had summoned their Shield, Mo Fan's punch would still have been able to crush their defense, yet they somehow stacked the three shields together...

Everyone sighed. It wasn't like Mo Fan was not strong enough. It was just that the members of the English team were too good, and were well-trained, too!

“It's not done yet!” Mo Fan suddenly oared. As he landed on the ground, the wings behind him extended along his shoulders, with the feathers scattering across the place.

Thousand Piercing Fire Feathers!

The flames from the punch were still burning, but hundreds, maybe even a thousand fiery feathers, were already flying toward the three members of the English team.

The feathers exploded in waves, long-lasting flames surging at the three members of the English team before they could prepare themselves.

They had to Summon their Magic Armor in a panic, right after they used their Shields!

The defense of different sets of Magic Armor was almost the same. The good ones usually cost a fortune. As such, even among the members on the national team, it was unlikely that anyone would spend lots of their resources on Magic Armor, since it was not as reliable as their own cultivation.

Apart from Ayleen's red-green Armor that actually protected her from the explosions, the other two were injured after the explosions tore their Armor apart...

“I...I can't hold on any longer,” Sade's primary element was Summoning. He immediately jumped down from the stage when he found himself in a disadvantageous position.

The explosions were still continuing. If he stayed on the stage any longer, he would soon be burned badly. He did not want to suffer serious injuries in an unimportant battle like this, as it would surely affect his cultivation if he had to rest in bed for some time.

The other teammate had trouble resisting the explosions, too. The damage of the Thousand Piercing Fiery Feathers was even higher than the Fire Sword when they were focused on just a few targets. It was unlikely that a set of Magic Armor was enough to defend against it.

As for the golden-eyed Ayleen, her Armor was obviously of superb quality. The explosions of the Thousand Piercing Fiery Feathers only managed to leave some scratches on the Armor instead of inflicting any real damage to her. It turned out that this Ayleen was the strongest of the four representatives.

After two of her teammates withdrew from the stage, she was the only one left on her team.

As the smoke finally dispersed, Ayleen seemed to have gone through a lot of hardship. Her beautiful hair was disheveled now.

Despite that, she retained her graceful demeanor and said, "I had heard that the Chinese Training Hall had a very talented candidate. I suppose it's referring to you, but to be honest, you're even stronger than I imagined."

"Two on one, you have no chance of winning, just surrender," replied Mo Fan.

Mo Fan had revealed all his trump cards today. It was not a good thing for him, since they would have to meet again during the finals at Venice. Most representatives were unwilling to show their true strength so early, but Mo Fan was left with no choice. He had to defeat the English team if he wanted to rejoin the national team!

"Not necessarily," Ayleen tied her hair back, displaying her stunning face. Her golden eyes were remarkably attractive, highlighting the beauty of a foreigner.

"Don't be like that, it's just a friendly match. Just let us win, it doesn't benefit any of us if we show all our trump cards here..." replied Mo Fan.

Mu Nujiao immediately rolled her eyes. Their opponent had obviously decided to take the battle seriously judging from her words, yet was he seriously trying to convince her to surrender like that!

"You still have other trump cards?" Ayleen blinked, looking surprised, and intrigued.

"Of course, just ask any person you stumble into in China what kind of a Magician I, Mo Fan am! I know you still have moves that you haven't used yet, but it's clearly not wise to go all out here... and besides, we still have two people on our side," said Mo Fan.

Ayleen looked at Mo Fan and fell into deep thought.

The crowd watching the duel was left speechless. Was Mo Fan seriously asking his opponent to surrender? Was that even allowed?

"Alright, losing a stamp doesn't really matter to us. I believe you will surely join the national team, let's have a rematch when the time comes," Ayleen agreed.

Saying this, Ayleen walked down the stage under the crowd's astounded gaze, indicating that she had conceded the duel.

The atmosphere exploded instantly!

"Did...did that really work?" Dongfang Lie, still in great pain, screamed out excitedly.

"We won? Did we win?" Mu Nujiao stood stock still in shock. It took her quite some time to recover from her astonishment.

Mu Nujiao seriously thought Mo Fan's asking their opponent to surrender was utter nonsense, yet the golden-eyed girl was even more unreasonable!

Anyone could easily tell that she was the strongest among the four representatives on the English team. However, apart from casting the Water Curtain twice, she basically did not use any of her other spells. She even managed to block Mo Fan's strongest move. As such, her strength was surely even more outstanding than what she had shown. However, Mo Fan managed to convince her to surrender when everyone thought she was about to fight back fiercely...

Not only were the defenders left utterly speechless, even the people on the English team looked totally stunned!

"I'll buy you some delicious food later, authentic Chinese delicacies, hehe!" Mo Fan smiled. He suddenly found this golden-eyed Ayleen fairly interesting.

"Sure, I really like the food here!" Ayleen's eyes sparkled. From her Chinese outfit, it was easy to tell that she was quite a fan of the Chinese culture...

"Ayleen, are you sure about that?"

"Did he really convince you like that?"

Ayleen glared at the people talking to her. They immediately shut their mouths despite having conflicting thoughts in their minds.

*-Alright, you're the little princess, whatever you say...-*

Either way, their team was not worried that they could not make it to the finals at Venice. Having one less stamp did not really make any difference.

That being said, they were indeed surprised by Mo Fan's outstanding strength. It was quite shocking to find such a strong Magician at a Training Hall. It went without saying that he would surely join the national team. As such, he would eventually become an opponent worthy of their extra attention!

—

"Grandpa, I think they won," exclaimed the girl with a ponytail.

Feng Li slowly closed his mouth. Even he was unable to say anything about the duel.

Mo Fan's strength was absolutely shocking, without a doubt. Even a strong team like the English team had trouble resisting his Rocket Wings Fiery Fist, followed by the Thousand Piercing Fiery Feathers!

If the guy was a little bit more disciplined, Feng Li would surely have complimented him for his performance.

"It's surprising to see how strong he is now..." Dean Song He fondled his beard.

It was very impressive that Mo Fan was able to win against the English team, not to mention that he basically led a team consisting of mostly peak Intermediate Magicians and won against a team of Advanced Magicians!

Feng Li walked down from the spectator seats and came up to Mo Fan.

“Are you going to stay here, or move your ass back to the national team?” Feng Li asked in an unpleasant voice.

“Don’t be so harsh, of course I’m going back to the national team. An old man like you shouldn’t be pulling a long face all the time. You look like everyone in the world owes you a few hundred million,” replied Mo Fan.

“Where are your manners when talking to a senior!?”

“Grandpa, look, I wasn’t the only one telling you that, you shouldn’t be pulling a long face all the time, hehe!” the girl with a ponytail giggled.

Feng Li had totally lost his temper in front of his granddaughter. Knowing that Mo Fan had earned some glory for their Training Hall, he decided not to be too fussy about how Mo Fan demanded to leave the national team without his permission.

“Pack your stuff, we’re going to South America in a few days,” Song He said to Mo Fan with a smile.

Song He’s attitude was totally different than Feng Li’s. Mo Fan had no idea why the two advisors were so different in terms of temperament. One was stinky, like a rock in a latrine pit, and the other was gentle and friendly.

“Sure,” Mo Fan nodded.

—

Mo Fan was a man of his words. He already gave his promise to treat Ayleen to a meal, thus he brought her to a local lobster restaurant. Ayleen was hesitant when she saw the next table eating the red, spicy lobsters wildly, but when Mo Fan peeled one for her to have a try, she could not stop eating. She ate a whole kilogram of lobsters on her own, leaving chili oil all over her mouth.

“That was so delicious, I have never eaten anything like it before!” Ayleen could feel her stomach protesting. The lobsters did not have much meat, so it was quite shocking that she actually felt bloated from the meal.

Mo Fan brought the little princess from England, who was both a foodie and a thrill seeker, to other interesting places. The English team almost thought Mo Fan had kidnapped her away.

—

“It’s time for us to leave, the training is still a long way ahead, the next time we meet is most likely going to be at Venice. I’m looking forward to seeing your true strength,” Ayleen had totally enjoyed her time here, but still spoke to Mo Fan in a serious voice.

“When the time comes, I won’t go easy on you just because you’re a beautiful woman. Speaking of which, I’m going to South America tomorrow too!” Mo Fan clarified his stance.

“Our next stop is Japan, see you again!”

Ayleen bade Mo Fan goodbye. Mo Fan also packed up his stuff and prepared for his trip to South America early the next morning.

The lands in South America had retained their primitive appearance. The deserts, forests, and rivers still looked the same after more than a thousand years. The place was not very developed.

That being said, it was not like the humans were not planning to expand their cities, factories, and roads, but South America was actually a giant nest for demon creatures. The demon creatures there were well known for their brutality and enormous numbers!

#### Chapter 926: Ambushed by Demon Creatures in the Air

--

“Our beloved passengers, our plane has encountered some turbulence. Please remain seated and fasten your seat belts...” a sweet voice came over the speakers in the plane.

The cabin was shaking vigorously, alternating with being weightless at times. However, most passengers on board the international flight were frequent air travelers. Turbulence was pretty common to them. It basically happened during every flight in their country.

Mo Fan was sitting close to a window. He could feel his chair rocking violently, as if it was about to come loose.

“Isn’t this turbulence a bit too strong?” asked a woman sitting beside Mo Fan softly.

Mo Fan frowned too.

The cabin was shaking stronger than before. Some of the passengers that were calm initially looked worried now.

“What is going on!?”

“Don’t tell me that something has happened to the plane?”

“At this rate, the plane is going to fall apart!”

Several passengers yelled out. Even the stewardesses had gone back to their seats with seat belts fastened. None of them dared to walk around in the shaking cabin.

“Our beloved passengers...”

“Beloved my ass, what the heck is going on!?” screamed a hot-tempered passenger.

It felt like his scream brought the others great misfortune, as the lights in the cabin suddenly went off and oxygen masks started falling from above!

The oxygen masks implied that something was definitely wrong. The cabin was filled with cries and screams. Some of the female passengers even burst into tears.

“Are you serious? Am I going to be involved in an aviation accident, even though it’s only my first time on an intercontinental flight?” Mo Fan was stunned too.

He subconsciously looked out of the window and saw the wing was seriously off-angled. It kept moving up and down, unable to maintain its balance...

With another rumble, the plane started falling. The sense of weightlessness immediately had the passengers screaming at the top of their lungs.

The cute girl sitting beside Mo Fan subconsciously grabbed onto Mo Fan's arm and dug her head into his chest.

Mo Fan only had a brief chat with her before the plane took off. He knew her name was Fenfen, but they were definitely not close at all!

Did his ability to hit on girls suddenly reach an outstanding level even he was unaware of?

Unfortunately, it was obviously not the time to hit on a girl. Mo Fan saw a strange current through the clouds outside the window. It had to be preventing the plane from flying normally.

Mo Fan unfastened his seat belt and rose to his feet.

"What...what are you doing?" Fenfen asked in fear.

"I'll go take a look. There's a strange current out there. There might be some big problem," Mo Fan headed for the pilot cabin.

"Sir, please don't walk around now... it's too dangerous!" A stewardess tried to stop Mo Fan.

Mo Fan continued forward. The stewardess unfastened her seat belt and quickly chased after him.

As Mo Fan was approaching the pilot cabin, Mo Fan saw the head steward and the substitute pilot. Both of them had gloomy looks.

"What's going on exactly?" asked Mo Fan sternly.

"Are you a Magician?" asked the substitute pilot.

Mo Fan nodded.

"That's great, we've discovered that a demon creature capable of controlling airflow has intercepted our flying path. It's preventing the plane from flying. We've now entered the strange airflow, and we are having trouble flying out of it," said the uniformed pilot.

"Why didn't you tell us when the situation is so serious? Aren't you afraid that the plane is going to crash?" said Mo Fan.

"There's nothing we can do. The Air Space Magicians are on their way, but we are pretty deep into the Pacific Ocean, it's going to take them some time to reach us. We can only keep the plane under control temporarily, and ask the passengers to stay calm," replied the head steward.

A few stewardesses beside them had pale faces. If such a huge demon creature had intercepted them, even though the plane was made of a special material that helped it avoid their attention, it did not necessarily mean the creature was unaware of their presence!

Mo Fan entered the pilot cabin and saw the two pilots in cold sweat. They had no time to talk to Mo Fan, as they were focused on controlling the plane, preventing it from falling...

"That thing is behind us!" yelled the co-pilot.

"Stay calm, pick up the pace and get rid of it!" replied the main pilot in a deep voice.

Mo Fan took a glance at the detector. On the screen was a trembling airplane model, and around two kilometers away, a creature with a size comparable to the plane was gradually approaching. Judging from the creature's silhouette on the scanner, it was some kind of enormous bird with a huge body and relatively small wings...

"We can't increase our speed. The air current is too strong!" said the co-pilot.

"We can't let the creature touch the plane!" exclaimed the main pilot.

" *MT332, this is headquarters, what's your status?*"

"We have an emergency. We are being chased by a strange bird in the air and the plane is caught in turbulence. Please send a patrol jet and Air Space Magicians over at once!" responded the head pilot.

"*MT332, the closest patrol plane and Air Space Magicians will need at least twenty minutes to reach you. Ask the head steward to call for an Advanced Magician among the passengers... you must wait until the Air Space Magicians arrive,*" the headquarters replied.

The head steward and co-pilot immediately stared at Mo Fan in the pilot cabin and asked, "Are you the Advanced Magician he mentioned? Judging from your age..."

"There should be another one. I didn't clarify my strength. Use the speakers to alert the Advanced Magician. I can't fly," replied Mo Fan.

The head steward immediately asked the Advanced Magician to lend a hand through the speakers.

Not long after, a man with thick glasses around the age of thirty came forward. He looked rather impatient.

"Why didn't you notify me in the first place!?" The man had the usual temperament of high-ranking personnel. His tone was incredibly heavy.

"Let's talk later; we need to handle the strange bird first," said Mo Fan.

The man in glasses looked at Mo Fan and uttered a cold harrumph, "Nonsense, what is a student like you doing here? Go back to your seat; do you think you're a hero after learning a spell or two in school?"

Mo Fan was too lazy to communicate with the man after seeing how arrogant he was. He was more concerned about the safety of the plane. He did not want the plane to fall into the Pacific Ocean. It would be impossible to find them!

The head steward and the substitute pilot brought the two to the back of the plane. There was a special door with three layers, granting access to the tail section of the plane.

Mo Fan and the teacher surnamed Jia from some Magic Institute made their way onto the tail section through the special door.

The plane had to maintain a certain speed to keep flying. It was pretty fast. Even though there was no sign of turbulence, the wind was still shockingly strong. Mo Fan almost felt his face being blown away by it...

Mr. Jia seemed like he knew what he was doing. He jumped onto the body of the plane and found himself a solid foothold in the strong wind.

“I asked you not to come. If you’re blown away by the wind, even if you managed to survive the fall, you’re still going to get lost in the Pacific Ocean,” snapped Mr. Jia angrily.

Mo Fan looked to be in his twenties. It was unlikely that the young man was a strong Magician. It would be impressive if he had reached the Intermediate Level!

Mo Fan seriously had no time to waste with the man. He jumped onto the wing. The strong wind sounded like the roar of a surging flood. It could blow a person off at any second. Luckily, Mo Fan was a Magician, and was able to set his feet firmly.

--

The clouds about them were split into two layers. One layer was high up in the air, as thin as a veil.

The other layer was below the plane, thick like cotton. It extended all the way to the horizon, and looked like a white, soft land that someone could step on.

Mo Fan and Mr. Jia were standing on the tail section of the buffeted plane. As a matter of fact, Mo Fan had never experienced anything as thrilling as this. He looked back and saw an enormous bird around two kilometers away. It was following the plane, and gradually getting closer.

Its wings were beating at a high frequency, so fast that they were almost transparent. They were making a loud, buzzing sound. The wind the wings produced while beating at such a high frequency was preventing the plane from flying normally!

“Wind Wings!” Mr. Jia drew the Star Constellation of the Wind Element. Wind spirits soon formed a pair of wings on his back. The wings spread apart in a stunning manner.

Mr. Jia jumped into the air and rose into the blue sky while beating the wings.

“Hey, bring me along!” yelled Mo Fan.

The arrogant Mr. Jia ignored Mo Fan. He would not let a naive student get himself killed.

Mr. Jia flew in between the plane and the enormous hummingbird. From Mo Fan’s angle, the view of the man and the strange bird resulted in a weird contrast...

Mo Fan could see magic light flashing in the air. It seemed to be the brilliance of Star Patterns aiming at the strange bird.

Intermediate Spells were obviously not very effective against the bird. Just the wind circling the creature was enough to resist such spells.

Mr. Jia started channeling an Advanced Spell, yet judging from his casting speed, he was still not familiar with the Advanced Earth Spell. It allowed the strange bird to get closer to him.

Mo Fan was unable to keep calm after seeing that. “Damn it, why did he have to be a show-off!?”

It was not the time for Mo Fan to preserve his strength. He took out a scroll of the Lightning Star Constellation and quickly inserted his energy of the Lightning Element into it.

The speed constructing the Star Constellation with the help of the scroll was only average. After he finished drawing the Lightning Star Constellation, Mo Fan unleashed all his energy and drove the spell out.

A sharp bolt of lightning swept across the sky, heading for the strange bird.

The lightning bolt looked unstoppable in the vast sky. It struck the strange bird almost a kilometer away in less than a second.

The strange bird was unable to react in time. The lightning bolt punctured the area between the wings and arms of the creature and left a hole behind.

The bird let out a painful cry. It immediately gave up on the idea of picking a fight with the plane after realizing that it was not something it could afford to mess with.

Mr. Jia was stunned when he saw the powerful stroke of lightning from behind him! He turned to the student that looked to be more than ten years younger than him on the tail section...

“Advanced...Advanced Lightning!” The pride that Mr. Jia had before completely vanished into thin air.

### [Versatile Mage](#)

#### **Chapter 927: Treating Me as a Punching Bag?**

—

The enormous bird flew off into the distance. The airflow around them immediately returned to normal, allowing the plane to recover and stabilize itself.

As they went back into the cabin, the head steward, stewardesses, and the substitute pilot received them and said joyfully to Mr. Jia, “Well done, you managed to drive that terrifying demon creature away!”

As the plane was able to fly normally, the passengers gradually calmed down too. When they learned the Magician had saved everyone’s life, they rose to their feet and gave him a round of applause with grateful looks.

Mr. Jia felt awkward. He pointed at Mo Fan and said, “I didn’t do much, it was this Lightning Magician that drove the creature away.”

The people in the cabin were stunned. Mr. Jia was older, and had the impressive demeanor expected from a Magician. The head steward also mentioned through the speakers that he was an Advanced Magician. As such, everyone assumed he was the main contributor to driving the bird away. To their surprise, the young student beside him was their true savior.

Mo Fan returned to his seat without saying anything.

Mr. Jia felt even more awkward. He remembered how he was talked down to the young man, and recalled how helpless he was against the strange bird. He was even more impressed by Mo Fan's talents.

"Did you really drive that strange bird away?" asked the girl named Fenfen sitting beside him.

"I guess so," Mo Fan smiled. He could see the adoring look in the girl's eyes.

He sighed to himself; he was indeed a giant among men. Even riding a plane could get him so much attention. He did not even have the chance to stay low for a couple of days.

Forget it, he had to start getting used to being in the limelight for the rest of his life!

--

Mo Fan's destination was Peru in South America. The national team was already waiting for him in Hanmi City in Peru.

Hanmi City was located in the south of Peru. It was not a rainforest, but scorching dry land and desert. It was common to see huge orange rocks extending endlessly into the horizon, connected with the blue sky. At times, there would be mountains standing alone on the barren lands with nothing else within a few kilometers. The long shadows of the mountains were like giant black swords slashing the ground in half.

The temperature increased dramatically after reaching Hanmi City. Mo Fan immediately regrouped with the national team as soon as he landed. Mo Fan was having trouble adapting to the scorching heat, feeling like he was being baked inside an oven. On the other hand, Little Flame Belle was enjoying herself. It felt like she had returned to the North Burning Valley.

Mo Fan found Ai Jiangtu and the others inside an inn in Hanmi City. They were chilling in the bar while enjoying local beers. Everyone seemed to be pleased with themselves.

Perhaps because of the hot weather, Mo Fan was not surprised to see Jiang Shaoxu in skimpy clothes. A third of her breasts were exposed, setting off the open-mindedness and unruliness of the locals in South America. Her short, tight pants made her buttocks look even more alluring.

"Yo! Mo Fan!" Jiang Shaoxu was the first to notice him. She immediately donned a seductive grin.

"Come, give me a hug," Mo Fan burst out laughing as he strutted forward and took advantage of the woman.

Jiang Shaoxu did not mind at all. She gave Mo Fan a pleasant-smelling and soft hug. It was meant to be a normal way of greeting people in foreign countries, yet Mo Fan purposely squeezed the soft flesh that was about to burst out from her chest!

Bouncy! They were extremely bouncy!

Jiang Shaoxu's goods were really impressive. Mo Fan was sure that she was not stacking anything underneath them. He could easily tell from the touch alone.

"Pervert!" Jiang Shaoxu rolled her eyes at Mo Fan seductively. She did not seem to be bothered by Mo Fan's perverted act.

"Humph, she was greeting you, what the heck were you doing, pervert!" snapped an unfamiliar voice.

Mo Fan turned around and saw a face he had never seen before.

However, he could easily guess that the person was Lu Yilin. Mu Nujiao and the others already mentioned him when he was still at the Training Hall. After Mu Nujiao and he left the national team, Lu Yilin was the one that took their place.

"She didn't mention a word, who do you think you are to criticize me?" replied Mo Fan unpleasantly.

"She's a woman, so of course she would feel embarrassed if she pointed it out, but you better watch yourself! By the way, shouldn't a rookie like you respect the seniors on the team? Is that how you talk to your seniors!" snapped Lu Yilin furiously.

Mo Fan glanced at Jiang Shaoxu and saw her wearing a cunning smile. He immediately came to a realization.

This Lu Yilin must have fallen for Jiang Shaoxu after being teased by her vixenish temperament. As such, he was surely not happy when he saw Mo Fan taking advantage of the woman he was interested in.

"Senior?"

"HAHAHA, Mo Fan, you're a junior now," Jiang Yu burst out laughing.

Mo Fan was left speechless. Did he seriously have to waste his time on an idiot when he just came back to the team? Didn't he only take slight advantage of her, not to mention how willing she was!

"Lu Yilin said something to Jiang Shaoxu after drinking some alcohol, but it looks like he has been rejected, so he is still pissed. You happened to arrive and stepped on his tail!" Zhao Manyan went up to Mo Fan and informed him.

Mo Fan understood. Now it made sense why someone would pick on him when he just arrived. It seemed like this Lu Yilin was in a bad mood after he was placed in the friendzone.

What an idiot, treating him as a punching bag? Was this guy out of his goddamn mind?

"You have three seconds, keep a distance of more than ten meters away from me. Otherwise, the smell of booze and your fragile little princess temperament are urging me to beat you up!" said Mo Fan.

"HAHAHA, fragile temperament of a little princess!... Mo Fan, do you really have to go so far?" Zhao Manyan immediately burst into laughter.

Some among the group chuckled after hearing the comment, too.

Lu Yilin blushed when he saw the team laughing after his rejection was exposed. His burning eyes glared at Mo Fan.

“Looks like I’ll have to teach you how to behave as a member of the national team!” Lu Yilin’s eyes emitted a golden light.

A few patterns appeared around him and swiftly combined into a golden Star Pattern.

“Star...Star Constellation, it’s an Advanced Spell!”

The people in the bar were shocked when they saw the brilliant golden light. It was incredibly rare to see an Advanced Magician in an average city like Hanmi City!

Lu Yilin’s expression recovered slightly when he heard the people exclaiming. The world was pretty blatant after all. Strength meant everything in this world; he could pick on anyone as long as he was strong enough!

“You were just promoted to the national team from the Training Hall. You’re still too weak compared to the rest of us. You better...” Lu Yilin gave Mo Fan a righteous stare.

“Piss off!” Mo Fan’s eyes emitted an imperious, silver glow.

As Lu Yilin was about to finish his golden Star Constellation, a strong force rammed into him and sent him flying before he could react...

He flew from the center of the bar to the middle of the road outside the inn, sweeping dust into the air.

The people who were making noise in the bar immediately fell silent.

Even the members of the national team were stunned. They looked at the mysterious silver glow around Mo Fan in disbelief.

“Space...Space Element!” Jiang Shaoxu was the first to scream out in surprise.

Nanyu, Ai Jiangtu, Jiang Yu, Guan Yu, and the others fixed their gazes on Mo Fan, too. No one even cared whether Lu Yilin who was knocked flying was injured or not.

Since when did Mo Fan have access to the Space Element? Judging from how he was able to unleash the strong force within an instant, he was already familiar with using it, too!

“Humph, Double Innate Elements, you finally showed your innate talent. However, aren’t you overreacting to using it on your teammate in the middle of a quarrel!?” Guan Yu condemned in a jealous voice.

Mo Fan’s Double Innate Elements was not really a secret. The reason he did not show it when he was still on the team was that his Space Element was still too weak back then. He only got better at it after focusing on training it when he returned home.

“I only used a Basic Spell, but he was trying to cast an Advanced Spell on me. It’s been months since I last scolded you, are those fish bones of yours itching already? Do you want me to send you out there to keep that idiot in company?” Mo Fan looked at Guan Yu and replied with a hollow laugh.

*{TL Note: The Yu in Guan Yu's name means fish.}*

Guan Yu harrumphed coldly, but he did not dare say anything further.

If he actually fought Mo Fan, it was unlikely for him to win against Mo Fan. Guan Yu felt there was no need to provoke Mo Fan directly for now. Once his cultivation improved further, he had plenty of chances to teach this smug Mo Fan a lesson!

“So you’re that guy with Double Innate Elements!” Jiang Shaoxu’s smile blossomed like a flower. Her seductive eyes admired Mo Fan even more.

Jiang Shaoxu was the kind who was willing to flirt with someone strong who managed to intrigue her. As for someone like Lu Yilin, who was arrogant, proud, and close-minded, she was too lazy to even waste a few glances on him.

“Mo Fan, no infighting on the team,” Ai Jiangtu told him softly.

Mo Fan shrugged, implying that it was Lu Yilin who attacked first. He was only defending himself.

Lu Yilin was not injured from the brief exchange. After all, the spell was mainly used to knock back the target. The physical attributes of an Advanced Magician were not that weak. However, Lu Yilin felt humiliated by it. He was like an erupting volcano ready to challenge Mo Fan to a duel.

“Come out here, we’ll go somewhere with more space. I’m going to teach you the consequences of enraging me!” Lu Yilin yelled at Mo Fan after he came into the bar with dust all over his face.

“Lu Yilin, if you really have the energy for a duel, save it for our trip to Halami Desert tomorrow. Mo Fan isn’t a rookie, he was already on the team before. In fact, he’s your senior,” Nanyu rebuked him.

“Everyone, let’s calm down.” Jiang Shaoxu also realized that it would turn into a huge problem at this rate. She proceeded to cast Pacify on both Mo Fan and Lu Yilin.

The spell was rather effective. Besides, Jiang Shaoxu was the one casting it. Lu Yilin finally withheld his anger and said to Mo Fan, “You just wait!”

“Are you going to complain to your parents or the teacher, little baby?” Mo Fan mocked tight back.

The words immediately set Lu Yilin off. Even Jiang Shaoxu’s Pacify was unable to calm him down. In the end, Ai Jiangtu had to step in to put an end to the farce.

Nanyu glared at Mo Fan, silently asking him to control his sharp tongue for once...

Chapter 928: Peru Desert Valley

The wind blowing at Mo Fan was scorching hot. There was also a little furnace standing on his shoulder. Mo Fan had no clue how he was going to survive.

“Little Flame Belle, can you go back to sleep in your nest?” Mo Fan was dying from the heat. He immediately negotiated with Little Flame Belle.

Little Flame Belle instantly felt unhappy. The wronged look in her eyes was implying that she was annoying him.

“Alright, just lie on my shoulder, but stop drooling please,” Mo Fan caved helplessly.

Hanmi City was not very big. It was basically the size of a second or third-tier city in China. However, the population of the city was a lot lower compared to a city of the same size in China. There were not many cars and pedestrians on the main street, perhaps because it was not the peak hours yet.

“Are you guys in some sort of trouble?” Mo Fan asked Nanyu.

After enjoying the refreshing beers, the team kept mentioning something that happened recently. They were complaining to one another while trying to come up with a plan. Mo Fan had just rejoined the team, so he had no clue what they were talking about.

“Well, there are some ancient ruins around seventy kilometers away from Hanmi City. The locals mentioned wind and lightning, and rare phenomena across the place. There might be something useful there. The resources distributed by the advisors are obviously not enough for us, so apart from challenging the Training Halls, the team has been busy searching for treasure, too,” said Jiang Yu.

Despite the backgrounds that everyone was from, no one would complain about having too many resources. The secondary objective of their world-wide adventure was to search for valuable treasures too!

Considering how big the world was, it was possible to dig out rare and valuable loot. Many famous Magicians had stumbled into incredible finds during their training, allowing them to embark on a path to success. It showed how important searching for treasure was!

“Wind and lightning, ancient ruins in a desert... that sounds quite interesting...” Mo Fan mumbled to himself.

He lowered his head and glanced at the Essence Orb in his hand.

As a matter of fact, the Essence Orb was already showing some reaction after the plane landed in South America. Its light was pointing exactly in the direction of the ancient ruins. It seemed like there was something that could fill up the energy of the Essence Orb at the ancient ruins!

“Interesting my ass, there’s a long desert valley right in front of the ruins, stuck in between two fault lines. It’s our safest path to the ancient ruins, but we already tried it, and things almost went out of control. There’s a pack of Earth Elemental Creatures residing in the valley. Their flesh is sturdy and thick, and they are incredibly strong. There’s no chance we can pass their territory,” explained Jiang Yu with a troubled look.

They had already tried to cross the valley, yet they were almost stuck in it forever.

Even though the rare phenomena at the ancient ruins clearly implied there was an incredible treasure there, they had no chance of finding it if they could not find a way to cross the valley.

“Let’s just give up, we can’t even cross the valley, who knows what other dangerous things there are inside the ruins. We don’t have to risk our lives for something we aren’t even sure of,” said Zu Jiming.

“You’re just a coward!” snapped Jiang Shaoxu mercilessly. She actually held a grudge against Zu Jiming. She would never forget how the man had left her behind at the East Maritime Fortress in order to save his own life.

“I’m a coward? Tell me, what smart idea do you have that can help us cross the valley? If not, we should just move on instead of wasting our time here!” shot back Zu Jiming.

“Don’t, I feel like that place must have some incredible loot. What if it’s something like a Soul-grade Seed?” said Mo Fan.

Everyone’s eyes flickered after Mo Fan mentioned a Soul-grade Seed.

A Soul-grade Seed was something that even those with formidable backgrounds had trouble getting their hands on. A Soul-grade Seed would multiply the strength of any Advanced Magician. Not only was it handy for increasing the power of spells, it might even grant the Magician a stronger Domain.

Everyone knew how strong Domains were. They were able to instantly multiply the Magician’s control of their Element, allowing them to use their magic in any form as they wished!

“Yeah, we can still detect how abnormal the Wind Element and Lightning Element are from such a distance away. We’re lucky that the city isn’t very populated. No other Magicians have noticed the place yet. If we missed out on this opportunity, we might regret it for the rest of our lives!” Jiang Yu tried to convince the team.

“Is a Soul-grade Seed something to be found so easily? How naive!” Guan Yu snorted disdainfully.

Mo Fan could not tell if there was a Soul-grade Seed there or not, but it surely had the thing he needed to fill up the Essence Orb. He was definitely going to pay the place a visit.

However, Jiang Yu had also mentioned that the valley was the territory of some Earth Elemental Creatures. Crossing the valley was definitely going to be troublesome!

If only Lingling was here, the little girl’s intelligence was inhuman. She could easily come up with a better plan!

“Actually, crossing the valley isn’t as difficult as we thought. They don’t have eyes, and their reflexes are incredibly slow too. They basically use the vibrations of the ground and walls to detect the presence of intruders,” Nanyu pointed out.

“Forget about flying, there are a bunch of Sun Bats along the walls. We would be surrounded instantly if we tried to fly over, not to mention flying inside the valley. The demon creatures are very strict with their air space,” explained Zhao Manyan, shaking his head.

A wealthy man like him owned some Magic Wings, yet flying was actually the most dangerous approach. The eyes of the demon creatures within a few dozen li would be locking onto him like the spotlights of a prison...

“I’ve spent a few days making a kind of device that can alter the vibrations in the ground. With these devices, we can cross the valley without startling the creatures. However, we need someone to place the devices by spreading them out like a tangram. We can only walk between the devices...” said Nanyu.

“Try it then!”

“Mmm, I don’t want to miss out on the chance, either.”

How the devices that Nanyu had invented worked was fairly easy to understand. Two devices would be sending faint waves into the ground, further stabilizing the ground so the team would not shake it when they were walking on it.

The Earth Elemental Creatures were very sensitive to vibrations. Even a kitten walking past would awaken them...

Leaving Hanmi City, the team headed for the desert valley.

As they arrived at the valley, Mo Fan noticed that the Essence Orb was showing a stronger reaction. Mo Fan was overjoyed, as there was indeed something in the ancient ruins that could fill up the Essence Orb.

If he was able to collect more energy to fill up the Essence Orb, he was basically unstoppable!

“Alright, what do we do now?” Guan Yu held his hands in front of him and stood before the valley.

He did not dare to take a step further. The geology had changed significantly after entering the valley. The ground was no longer the dry orange-yellow, but mixed with a slight red. The whole valley was dark red!

Speaking of which, the view of the desert valley was quite spectacular, too.

The spacious land was split into two layers, the ground rising suddenly to the west, forming cliffs extending to the horizon. The cliffs were like the walls of a marvelous city, completely blocking off the flat ground, as if they were the boundary of a different world.

Above the cliffs were rocks baking under the scorching heat of the sun. The temperature was just too shocking; even Advanced Magicians felt like they were walking on fire. It was not a viable option.

The only path with acceptable temperature was the long canyon. The sunlight could not reach inside it, so the temperature there was a lot lower than at the top.

The ancient ruins were located at the other end of the canyon, like a holy sacred ground separated from the world, protected by the scorching cliffs. An unexplored place that even demon creatures had trouble visiting was the perfect place to search for incredible loot!

It was the main reason why the team had spent several days trying to come up with a plan.

“We only have three devices. Their coverage is around one hundred meters, so we’ll need a person to place a device at the front, and another to retrieve the device at the back as we are moving forward,” said Nanyu.

“I’ll take the first baton!” said Ai Jiangtu.

“Mmm, the Earth Elemental Creatures at the front aren’t strong, your Space Element shouldn’t startle them,” said Nanyu.

“Can’t we use our wills to place the device in front of us?” asked Mo Fan.

“It wouldn’t work, we’ll need to manually adjust the device by tuning the frequency according to the geology,” said Nanyu firmly.

“Fine...”

Nanyu buried a device that looked like a gyroscope at the entrance of the canyon. She adjusted the device until a green light on it lit up before she signaled Ai Jiangtu to make his move.

Ai Jiangtu immediately constructed a Star Constellation. He was covered in a mysterious silver glow.

Space shuddered as Ai Jiangtu vanished into thin air, appearing a hundred meters away in the canyon ahead of the team.

As soon as Ai Jiangtu landed on the orange-red ground, weird sounds immediately came from the walls on both sides, as countless faces popped out from the walls. They gradually took shape, their heads almost coming out from the walls...

Mo Fan opened his mouth wide when he witnessed the shocking scene. Judging by the number of the heads that had popped out from the walls, he could easily tell how overwhelming the number of Earth Elemental Creatures in the canyon was...

“These are the Forbidden Moon Rock Demons; each is as strong as a little Warrior-level creature. They are not a fan of the moonlight, we initially tried to take advantage of the moonlight at night, but the canyon is just too narrow. We are also in the southern hemisphere, and the orbit of the moon makes it harder for the moonlight to enter the canyon. It explains why there are so many Forbidden Moon Rock Demons living in this canyon.” Jiang Yu was very interested in demon creatures, and immediately explained the situation to the clueless Mo Fan.

“Quick, adjust the frequency to match the land!” blurted out Nanyu when she saw the Forbidden Moon Rock Demons about to wake up.

Ai Jiangtu’s face turned slightly unpleasant when he saw the number of Forbidden Moon Rock Demons around him.

He quickly turned the dial, helping the device adapt to the surrounding stone in order to transmit signals back to the first device at the entrance.

“Damn it, does this thing even work...” murmured Zu Jiming.

The Forbidden Moon Rock Demons already had half of their bodies out from the walls, yet the devices were still not working. The team felt like giving up when they realized how much harder it was to set up the devices than it sounded.

“It’s green!” Ai Jiangtu finally yelled.

“Press the button!” shouted Nanyu.

Chapter 929: Rumble in the Canyon, Awaken!

The Forbidden Moon Rock Demons let out deep cries with confused expressions.

As Nanyu mentioned, the Forbidden Moon Rock Demons did not have eyes, and their hearing was quite bad, too. They were only able to sense moving objects around them through vibrations on the ground.

Ai Jiangtu was clearly right in front of them, yet after being on alert for some time, the creatures returned to the walls and went back to sleep.

“It’s working!” Ai Jiangtu raised his thumb at Nanyu.

Nanyu said to the others with a wide smile, “Let’s continue!”

The team stepped onto the orange-red ground in the canyon, yet the Forbidden Moon Rock Demons in the walls did not wake up.

Using the same method, the team advanced around five hundred meters before the path started to meander. They had to work together to successfully set the path. Luckily, the team had a rather unique Contracted Beast, the Night Rakshasa. The little, intelligent cat demon was quite reliable!

The journey was fairly smooth.

However, judging from the presence of the Forbidden Moon Rock Demons in the walls, it was obvious that the number of Forbidden Moon Rock Demons had increased significantly, not to mention that the creatures this far into the canyon were a lot stronger. The team was almost got into trouble at times when the devices were not connected properly.

“We’ll be there soon. We can leave this canyon after turning the next corner,” said Nanyu.

“The corner is quite sharp. It will be tricky to place the devices. We can only continue moving forward after someone retrieve the device at the back,” said Ai Jiangtu.

“I’ll go take it,” said Mo Fan.

Mo Fan happened to be at the back of the team. He decisively turned around to retrieve the device at the back just so the team could turn the corner successfully.

“After you retrieve the device, you have to regroup with us immediately. Don’t stay there for too long,” warned Nanyu.

“Don’t worry, I’m not slow either,” said Mo Fan.

Nanyu nodded. She signaled the team to move forward and stayed behind the corner...

It was only the safe spot. Otherwise, once Mo Fan retrieved the device at the back, the whole place would be filled with danger.

Mo Fan went to the back and glanced at the sky that was slightly orange-yellow from the canyon. The sky looked stretched from the gap of the cliffs. It was quite a spectacular view.

“Aren’t you going to apologize?” Lu Yilin’s voice came from behind.

Mo Fan turned around and saw Lu Yilin standing around seventy meters away from him with a dark face.

“Apologize for what?” asked Mo Fan in return.

“Hehe, what do you say?” Lu Yilin slowly walked toward the second device with a mocking grin.

Lu Yilin was obviously showing his intentions. If Mo Fan did not apologize to him, he would deactivate the second device and let Mo Fan be surrounded by the Forbidden Moon Rock Demons.

The others had already turned the corner. They did not realize what was going on.

“Oh, I will apologize, I’m sorry for calling you a little princess that can’t even stand any shock, as not only did I discover that you’re an arrogant little princess that can’t handle the slightest grievance, you’re also a narrow-minded retard threatening me with such a childish act,” Mo Fan was completely speechless at the man’s actions.

“Do you think I don’t dare to do it?” said Lu Yilin in a cold voice. His eyes flickered with strong anger.

“It’s up to you, but you should think about the consequences before you do,” answered Mo Fan.

Saying this, Mo Fan turned around and continued walking toward the device he was going to retrieve. He was still around ten meters away.

Mo Fan remembered Nanyu mentioned that he had to reach the corner within two seconds after he retrieved the device. He had already planned how he was going to leave at his quickest pace.

However, before Mo Fan reached the device, the walls on both sides started shaking.

Countless jagged faces popped out from the rocks with stern looks. Following the faces came the creatures’ bodies, densely poking out from the walls; there were simply too many of them!

Mo Fan immediately turned around and saw Lu Yilin picking up the device at the corner. The man was watching him with an evil grin.

Mo Fan was stunned. Frankly speaking, he never thought Lu Yilin would really dare to pick up the device, as he had a self-willed yet cowardly face!

Mo Fan had to admit that he had underestimated how narrow-minded he was. He also underestimated how vicious the man’s heart was!

“Are you trying to get me killed?” asked Mo Fan.

“Humph, so what? Who’s childish and young now?” Lu Yilin gave Mo Fan a last disdainful look and left.

Lu Yilin did not dare to stay any longer, as the place would be flooded with the Forbidden Moon Rock Demons in seconds.

The walls started shaking. Countless Forbidden Moon Rock Demons were awakened in the walls. Even though the creatures did not have eyes, they were still directing their anger at the intruders still.

Lu Yilin had removed the device in the middle. Not only did he place Mo Fan in danger, the others that had turned the corner were in danger too, since the devices only worked when they were transmitting signals between one another.

“Crap, they have all woken up, run!” yelled Zu Jiming.

“They are trying to trap us in here, hurry to the exit!”

“I’ll clear the path, stay closer!”

The whole canyon shook violently as the Forbidden Moon Rock Demons sprang out from the walls. They were like giant gates blocking the path ahead.

Magic light shone brightly in the canyon. Everyone on the team immediately used all they had, knowing how grave the situation was while desperately making their way to the exit.

Luckily, the team was not far away from the exit. They were able to prevent themselves from being surrounded by working together in the grim situation.

Ai Jiangtu and Li Kaifeng opened the path as the others followed behind. The Forbidden Moon Rock Demons on the cliffs were throwing rocks over five meters wide into the canyon. They were planning to bury the intruders straightaway!

The Forbidden Moon Rock Demons ahead of them stood in a row and stacked together into a thick gate, trying to seal the exit. Ai Jiangtu and Li Kaifeng used all their might to shatter the creatures in order to clear a path for the team.

“Lu Yilin is still behind!”

“Help him out.”

The team slowed down slightly. After Lu Yilin regrouped with them, they immediately ran for the exit.

However, Nanyu suddenly remembered that Lu Yilin was not supposed to be the person at the back. It should be Mo Fan who went to retrieve the device.

“Mo Fan, where’s Mo Fa!n?” screamed Nanyu.

Huge rocks kept falling above them while the Forbidden Moon Rock Demons attacked from both sides. The whole place was in an utter mess. No one noticed that Mo Fan was not with the team.

“We don’t have time to waste here. If we don’t get out now, we are all going to be stuck in here!” yelled Zu Jiming.

“No way, go back now!” said Nanyu.

“Take a look at the path behind us yourself, do you think we can make our way back?”

Nanyu turned around and discovered that the corner they had turned previously was already flooded with the Forbidden Moon Rock Demons.

The Forbidden Moon Rock Demons were around four meters tall and three meters wide. They had already stacked up into walls and filled up the canyon. It was impossible to turn back now.

How could they possibly go back there?

As more Forbidden Moon Rock Demons appeared, the team had no choice but to run for the exit.

The clean and cold moonlight shone at the exit of the canyon. Their vision cleared up as they reached the exit. The place ahead was flat just like the other end, except the ground was still orange-red. They were able to see the horizon now...

The moonlight descended upon the orange-red land and formed a boundary line at the exit. The Forbidden Moon Rock Demons were stuck in the shadows of the canyon. Even though the intruders were only less than ten meters away, they did not dare to leave the shadows, as if they would instantly turn into ashes after being exposed to the moonlight.

Everyone was soaked in cold sweat. They looked at the canyon that was almost sealed up. No one spoke for a moment.

“Damn it, what the heck happened!” cursed Zhao Manyan.

“Mo Fan is still inside, what shall we do?” said Jiang Shaoxu worriedly.

“What can we do, he’s dead for sure! We can’t possibly be thinking of going back there to save him?” said Lu Yilin.

“Damn it, was it you that set him up!?” Zhao Manyan dragged Lu Yilin’s collar and glared at him.

Lu Yilin shoved Zhao Manyan away and snapped coldly, “What do I have anything to do with it? Maybe he was stupid enough to mess up the device, he almost got the whole team killed!”

Zhao Manyan withheld his anger.

He knew now was not the time to quarrel with the annoying man. He had to find a way to save Mo Fan! The Forbidden Moon Rock Demons would be unable to kill him in such a short period of time since he had five elements.

“We’ll go up there and pull Mo Fan out,” said Zhao Manyan.

“No way, it’s even more dangerous up there. It’s the territory of the Sun Rock Demons; they are worse than the Forbidden Moon Rock Demons!” Nanyu immediately shook her head.

“We’ll rest up for a bit and clear a path!” suggested Zhao Manyan.

“You’re asking us to go back there when it took us so much trouble to get out?” Lu Yilin immediately disagreed.

“He’s dead for sure. The whole team is going to die if we’re stuck in there, let alone him being all alone. We should just move on and continue our journey. I told you we shouldn’t come considering how dangerous it is, but Mo Fan insisted on coming...” sighed Zu Jiming. He was the typical kind of person that was afraid of death.

“Rest up, we’ll clear a path to him. Either way, he’s still our comrade. Even if he’s dead, we have to find his body,” their captain Ai Jiangtu finally declared.

**Chapter 930: The Undying Mo Fan!**

Not long ago, when Mo Fan raised his head and looked at the sky through the gap of the canyon, he had marveled at the spectacular view. However, when he saw the whole canyon being filled up by the Forbidden Moon Rock Demons, he suddenly felt he was stuck in the worst place in the world!

Considering the situation, Mo Fan did not dare to preserve his strength. He immediately asked Little Flame Belle to Possess him, and utilized his strongest power.

“Meteorite Fist: Nine Dragons!”

Mo Fan was engulfed in fierce flames. The fist formed from the Calamity Fire and Rose Flame rocketed forward!

Nine fiery dragons charged at the Earth Elemental Creatures wildly. The flames surged across the place. It was the strongest attack that Mo Fan had, yet it only managed to clear a path fewer than twenty meters long when used against the Forbidden Moon Rock Demons.

The move with a strength comparable to an Advanced Spell only managed to kill six Forbidden Moon Rock Demons!

-Such an outstanding defense!-, Mo Fan groaned inwardly.

He now understood why the national team was at risk of being wiped out when they were stuck in the canyon before. These Forbidden Moon Rock Demons were as sturdy as the orange-red cliffs!

If Mo Fan was fighting these Forbidden Moon Rock Demons on open ground, he would not be afraid of them, since they were extremely slow, and he could easily run away from them. However, he was currently in a narrow canyon. The Forbidden Moon Rock Demons were basically crushing machines approaching him from all directions. It did not matter how agile or how fast he was!

Mo Fan could feel his adrenaline rising. With such an overwhelming number of demon creatures, and such an extreme terrain, any other Advanced Magician would be crushed into minced meat in a few minutes!

“Giant Shadow Spike: Thorns of the Shadow Rose!”

Six shadow spikes flew out and sealed off the movements of six Forbidden Moon Rock Demons approaching him from behind.

The six Forbidden Moon Rock Demons were rooted to one spot. They roughly formed a wall blocking the other creatures coming from behind...

However, it was only a temporary solution. These were all Warrior-level creatures, the Giant Shadow Spikes would not hold them for long!

Two Forbidden Moon Rock Demons over five meters tall raised their arms and swung them at the tiny Mo Fan. Their fists were like rock hammers, smashing holes in the ground.

Mo Fan hid inside his shadow and moved past the Forbidden Moon Rock Demons between their legs. He managed to advance another ten meters.

The Forbidden Moon Rock Demons were quite sensitive to the presence of the Shadow Element. Mo Fan was planning to sneak forward along the walls when he saw a fist of red rock coming right at him. He quickly left the shadow in a panic and kicked the wall to launch himself into the air...

“Blood Tabi!”

Mo Fan activated his Blood Tabi. His legs were covered in a blood-red light.

He nimbly jumped onto the Forbidden Moon Rock Demon’s fist and used it as a platform to launch himself ahead.

After kicking the wall on his left, Mo Fan launched himself onto the head of a Forbidden Moon Rock Demon. However, before he could stabilize himself, a huge rock fell from above.

“Telekinesis!” Mo Fan quickly lifted his gaze and used his will to stop the rock in the air!

Mo Fan’s eyes emitted a silver glow as he used his will to control more than ten rocks that were falling down from above.

The rocks were covered in a silver light. They were tossed ahead of him, knocking a bunch of Forbidden Moon Rock Demons to the ground. Mo Fan quickly took hold of the opportunity to move another ten meters forward.

“Gravity!”

The silver glow of the Space Element burst out of Mo Fan once again, and immediately formed a rhomboid ahead. Space was being compressed, and a strong pressure pushed down on the Forbidden Moon Rock Demons.

The Forbidden Moon Rock Demons’ weight was shocking to begin with. After the gravity field was applied to them, they had trouble even lifting their arms. Their heavy bodies were slowly sinking into the ground.

“Fire Sword! Die!”

Fierce flames rose from his hand and formed a burning sword over ten meters long. Mo Fan lifted the sword with both hands and slashed ahead.

The slash sent waves of flames in both directions. The fire completely filled up his vision ahead within an instant, knocking the Forbidden Moon Rock Demons to the ground.

“Lightning!”

Mo Fan continuously altered between his Elements. Knowing that he had cleared the danger around him, he took out a Lightning Constellation Scroll and poured his energy into it.

He was grateful for the Star Constellation Scrolls that Miss Tangyue had given him, enabling him to draw Lightning Star Constellations without needing to divert his attention when he was in great trouble.

“Death upon you!” Mo Fan roared.

The Lightning Constellation was blindingly bright, the strong presence of Lightning stopped the Forbidden Moon Rock Demons from getting any closer.

The Lightning Beam sprang forward and blasted a scorching hole through the Forbidden Moon Rock Demons, killing the creatures instantly!

A large group of Forbidden Moon Rock Demons ahead fell to the ground, giving Mo Fan a clearer view of the path ahead. He had finally reached the corner...

He had only moved a hundred meters forward, yet only he knew how difficult it was to advance a hundred meters in the canyon. When he recalled the mocking grin on Lu Yilin's face, his heart was immediately filled with raging flames!

However, did Lu Yilin seriously think he could kill him without any evidence, even assuming that his body would be crushed into pieces?

There was no way he would die in a place like this!

"What is that?" Mo Fan suddenly noticed a different color from the orange-red cliffs on the wall close to the corner. The thing was smooth and clean like a crystal, it looked completely out of place.

The Lightning Beam had blasted a hole on the wall, revealing the diamond-like substance underneath it. Mo Fan could even feel an enormous energy being kept inside it...

Mo Fan used his quickest speed to reach the corner. The Lightning Beam had given Mo Fan some time to catch his breath, and also helped him to discover the crystal inside the wall!

"I'll check it out later," Mo Fan pulled the crystal the size of a goose egg out of the wall and put it away.

After turning the corner, Mo Fan subconsciously gasped...

There were so many of the Forbidden Moon Rock Demons that the whole path was completely blocked off. He could not see even the slightest gap!

Such a narrow space stacked up with so many Warrior-level creatures, he simply had no chance of getting out alive!

Taking a deep breath, Mo Fan knew he had no choice but to clear a path out. He had to do it no matter how numb his scalp was.

"Rocket Wings Flying Punch!"

Mo Fan turned into a missile engulfed in flames. It felt like he was drilling into a thick wall, every step forward felt extraordinarily difficult.

The strongest Rocket Wings Flying Punch had shattered the Forbidden Moon Rock Demons into pieces, yet he had only managed to move twenty meters forward.

"Thousand Piercing Fire Feathers, fire!"

Mo Fan's eyes had turned bloodshot from killing the creatures mindlessly. His ears were constantly deafened by the echoes of the deafening explosions.

As soon as the Blood Tabi's duration ended, Mo Fan put on the Black Snake Armor.

Even when he was smashed into the ground by the Forbidden Moon Rock Demons, he sprang up to his feet immediately. At times, he was knocked a few meters deep into the walls, yet he continued to smash the Forbidden Moon Rock Demons into pieces with his unyielding might!

"There's fire ahead of us, there's fire!" yelled Zhao Manyan in excitement.

Ai Jiangtu was leading the team as they made their way back into the canyon. Everyone was low in spirits, as they all assumed Mo Fan was dead for sure.

However, as they advanced around fifty meters, they immediately saw flames rising ahead of them. Zhao Manyan was incredibly familiar with the combination of blazing red Rose Flame and brown Calamity Fire!

"Are you serious? How is he not dead yet?" exclaimed Li Kaifeng.

"Regroup with him!" Ai Jiangtu was as unstoppable as always. He continued to lead the way.

Unfortunately, both his Space Element and Curse Element were not as effective against the thick walls of rocks. As a result, even though he was the strongest on the team, he was having trouble clearing a path.

"Tone: Kill!" Nanyu used both hands to fire sonic projectiles with her invisible bow.

The attack was surprisingly effective against the Earth Elemental Creatures. The vibration of the sonic wave was able to swiftly shatter their thick stone bodies to pieces!

"Mo Fan, Mo Fan, don't you f\*\*king die!" Zhao Manyan's eyes were bloodshot too. He quickly moved past more than ten Forbidden Moon Rock Demons.

He finally caught a glimpse of Mo Fan.

The Black Snake Armor was dangling from his body like scrap metal. His body was covered in bruises and bloody wounds, yet he remained standing. Two Forbidden Moon Rock Demons were trying to smash him into minced meat, yet they were blasted into pieces by Mo Fan's lightning!

When everyone saw Mo Fan, he was being surrounded by lightning, standing on the corpses of the Forbidden Moon Rock Demons with an imperious aura.

"It took you guys... long enough," Mo Fan turned around with a grin on his filthy face.

The smile was extremely spooky to Lu Yilin! He could not believe his eyes at all...

-Mo Fan's not dead!

-The guy was trapped inside the canyon for so long, yet he's still not dead!-

-How is this possible, he only reached the Advanced Level recently. How did he manage to stay alive until now?-

"Did...did you kill all of these?" Jiang Shaoxu's mouth was wide open.

The path was fully stacked with countless corpses of the Forbidden Moon Rock Demons. It was the same all the way to the corner, and there seemed to be more around the corner, too!

They had all become Advanced Magicians recently too; how did he even do it!?

This time, even Ai Jiangtu was stunned. He was completely astounded by Mo Fan's strength...

It felt like, even if they had not come back, Mo Fan could still make his way out of the canyon on his own!

"Plummeting Rays!" Zhao Manyan cast the Advanced Light Spell that Summoned more than a thousand glowing seals. They were like golden scales as they flew at Mo Fan and attached to him.

Zhao Manyan was well aware of his role. Even when he was practicing the Advanced Spell Plummeting Rays, he had been treating it like a defensive spell. The seals of light circled around Mo Fan. Even if ten Forbidden Moon Rock Demons were attacking Mo Fan, it would take them some time to break through the defense.

With Zhao Manyan's defensive spell, Mo Fan was like a tiger with wings. He proceeded to annihilate all the Forbidden Moon Rock Demons standing in his path!
