

Village Head 31

Chapter 31 Fucking My Elder Sister (R18)

Gina noticed my reaction and asked, "Do you like it?" She then wrapped her arms around mine, sandwiching them between her plump immature breasts. "Since you didn't get your first Kushi as planned, I decided to arrange something else for you," she continued. "And because our lovely sister decided to do it herself even after you rejected her, I didn't need to barter any Kalna fruits to find you a partner."

Gina then surprisingly stood on her toe and whispered into my ears "Most of all, I believe that sister is still hurt since you rejected her the first time, so please don't make that mistake again if not, if sister Reena gets angry at you, we will have a much harder time surviving" She then pinched me my arm briefly "So don't mess this up, brother".

Gina's words echoed in my mind as I watched Reena sexually sway her body towards us. My heart was racing with excitement, and my throbbing erection was now impossible to ignore. I couldn't believe this was actually happening. I had the opportunity to have sex with my beautiful, naked sister right in front of my family.

I have the chance of fucking my flat yet sexy sister who would be angry if I don't because I rejected her the first time, in front of my busty mom and plumpy junior sister. The more I pondered about it, the more blood kept pumping towards my dick.

"Let me help you get your cloth off then".

As Reena dances her ass enticingly towards our direction, Gina took notice of my arousal, and moved closer to me, helping me to quickly work to remove my tulga. I let her pull down my cloth and willingly stood naked in the hut. I felt exposed, but the thought of what was to come made my cock twitch with anticipation.

Gina suddenly held my cock and stroked it a few times "It's my first time seeing your penis so I didn't know that it was this long and gritty" She muttered a few times before she squished it a little and released it.

I turned to the side and watch as my mother ate some fruit while she watched her children play with each other private parts.

I shook my head and remembered the logic of this world. 'Alright let's go' I warmed my mind and body up for the exercise that was about to take place.

Within seconds, I was at the back of Reena with my cock postured on the rear end of her back, near her ass, and I did nothing but stared at her as she proceeded to grind her ass around my waist, with my pulsing dick well-balanced on her back.

As Reena continued to grind her hips against me, I let out a low groan of pleasure. This was better than anything I had ever experienced before. Well, not better than everything, but it was a new wonderful experience nonetheless.

.....

Because Orion was tired and needed to rest, he didn't think much of it and simply towards the literally sand coloured ass in front of him. With his hands stretched forward, he grabbed it.

At first, he had already thought of many various easy ways to easily get his elder sister's body under his control, he didn't expect it to be this quick, and most of all, the idea didn't stem from him.

"How is it?" Reena turned her head to the back and asked him, "How does it feel to have your palm fully contain an attractive woman's buttocks?"

"It feels good" Orion answered. He couldn't deny that there was something special about feasting upon a body like Reena's. His hand then moved towards her breast, massaging it, and Reena squirmed as he trailed his hand down to her pussy and did the same

After a few minutes of her body being stimulated by Orion's hands, Reena began to feel restless. 'Huh! What is going on? Why is my temperature rising?' She thought, feeling her tiny nipples erecting and becoming more prominent.

Yet, despite the overwhelming emotions she was experiencing at that very moment, the only thing that she knew that she wanted right now, was her junior brother's scalding penis.

"What are you waiting for Orion, put it in?" Reena cried in pleasure.

She didn't also want to instinctively quench the sudden itch in her vagina by herself, but wanted to show her brother how it felt to stroke the vagina of a real woman so that he would make a better choice when he becomes more mature enough to choose a partner for himself.

Meanwhile, Celeste observed from the end of the room with a prideful smile on her face as she watched her daughter and son having Kushi together. Such a sight almost brought a tear of joy to her eyes because it shows how close the siblings would become in the future, unlike other families where everything is also ruled by bartering.

So what her kids were showing her right now was something that she would always be proud of. At least, Orion would have the opportunity to have kushi whenever he wants and save up his wealth, while Reena can try as much as she can to give birth without weighing the option of losing her wealth.

'Mom, what is Orion doing?" Gina asked. Although she wanted to give her virginity to her elder brother and be the one to have Kushi with him, she knew that she was not yet of age to do so, as such, she fingered her vagina to ease the discomfort in it while she observed as her brother strokes her elder sister's vagina with his throbbing large penis.

Celeste furrowed her brows at her daughter's question. The truth was that she didn't know where her son learnt to do Kushi like this.

'Is he acting on instinct?' She wondered. It was the only conclusion she could draw, having encountered numerous men throughout her prime with peculiar habits who followed their bodies' strange behaviour as though guided by intuition. But this time was different. Her daughter appeared to be relishing the experience, and Orion's motivations seemed to extend beyond mere self-gratification - his own pleasure.
