

Village Head 57

Chapter 57 A Volunteer (2) (R18)

"UHH~~" Fiona's body trembled as she let out a sudden moan, taken aback by the unexpected size of my penis intruding into her inner walls. Nevertheless, she persisted with her lecture. "Now that you have entered your partner's vagina, begin moving your penis in and out slowly. This will widen her vagina, making it easier for you to reach her womb and release your seed inside. And when you are done, please remember to wait a few days to confirm if your partner has gotten pregnant or not." As Fiona finished her instructions, I had already fully entered her constricting fleshy walls and was kissing her womb, eliciting a loud cry from her lips.

Although I couldn't help but be aroused by Fiona's moans, I controlled myself and focused on following her instructions and moved my penis in and out of her vagina slowly. Each movement seemed to bring her closer to the edge, and I could feel her vagina getting wetter with each passing moment. "aHHHHH~~" Her cries were like a beautiful symphony to my ears, and it only fueled my desire to bring her to the brink of pleasure. As I continued, I could feel my veiny shaft responding with increasing vigour.

"Pah~~" "Pah~~" "Pah~~"

"Uh~~ Ah~~ aHH~~" As Fiona became more and more lost in pleasure, she seemed to forget about the lecture and let out hushed moans depending on the area of her pussy that I was stroking.

A few minutes later, as I felt my penis begin to pulse with increasing intensity, I knew that I was getting closer and closer to releasing my semen inside Fiona's dripping pussy. It seemed that she had also noticed, as she began to moan louder and move her hips in sync with my movements.

Fiona's attempt to speak was stifled by a sudden surge of pleasure as I continued to tease her vagina, causing her to gasp for air and stick out her tongue in desperation. After a moment of intense sensation, she finally regained her composure and shared another lecture with the boys present "Don't forget, for maximum semen release, make sure to penetrate deeply and keep your penis in place until fully emptied." With a knowing glance in my direction, she then gave me permission to indulge in my desires, but not without a crucial reminder to be patient and thorough when emptying my balls.

'You don't need to tell me twice' I thought. I couldn't help but feel a sense of satisfaction as I released my semen deep inside Fiona's womb, watching as she curled her toes and tensed up in pleasure. Her loud breathing and gasps only served to heighten my own pleasure, and I felt a rush of excitement as I finally emptied myself completely.

As Fiona slowly regained her composure, straightening her back and breathing deeply, "Haaaa... Haaaa..." I pulled my shaft out of her pussy with a satisfying 'plup' sound.

She then expertly adjusted her dress to cover her partially exposed voluptuous buttocks, before she turned to me with a warm smile and complimented me, "You performed perfectly, just as I instructed." With a pointed finger, she directed my attention towards the trio of middle-aged, slender and attractive women in the corner, explaining that I would receive an extra point for volunteering and another for flawlessly executing her instructions while demonstrating for the others.

Grinning with satisfaction, I wore back my tulga and made my way over to the three women, each of whom wore a standard tulga for women, but with unique embellishments adorning the fabric around their waist and midriff tube top.

"Name?" asked the woman with a deep V-cut cleavage that almost revealed her pointy nipples.

"Orion," I replied confidently.

"And your parents' names?" she inquired further.

"I only have a mother, and her name is Celeste," I explained with a shake of my head.

The woman nodded and proceeded to dip a pointed wooden stick into a wooden ink bowl held by another teacher. She scribbled something down on the piece of paper in her hand and then looked back up at me.

"You currently have seven points," she informed me. "To receive a gift from the village chief, you'll need to earn a total of thirteen points. Do you understand?" she asked.

I nodded in response and made my way to my mat, sitting down between Ursa and Sura who immediately gravitated towards me. "You have a very big penis," Ursa complimented me. "The most suitable for kushi," she added.

"Yes, with a penis like that, it would be hard for your semen to spill outside once you release inside deep inside your partner's womb," Sura remarked.

Although I wanted to grin like an idiot, I maintained my composure and picked out another meaning to their words, which translated into 'We can't wait to have you inside us and experience what Teacher Fiona felt.'

And I couldn't help but agree with their sentiment internally, 'Me too.'

As Fiona asked for the first partners to come forward and re-enact what she had instructed, a girl eagerly volunteered with her male partner in tow. Though I wasn't particularly interested in watching another cock in action, my curiosity to see how two individuals who grew up in a society with barely any kind of sexual education would perform was at an all-time high.

However, as they removed their tulgaz and prepared for kushi, I became confused. 'What is going on?' I couldn't help but think.

Why had they been staring at each other for over two minutes now? It seemed like all the boy was doing was pumping his flaccid penis while the girl has already bent over with her perky buttocks him, waiting.

"Take your time, don't force it. Time is not an issue," Fiona said with a knowing smile, as she looked at the boy, who returned her gaze with a nod of understanding.

However, as time passed, I couldn't understand why everyone was patiently waiting for the boy to achieve an erection, which took over five minutes.
