

# VILLAGE HEAD'S DEBAUCHERY

## Chapter 7: The hot village doctor (R18)

If she had refused his advances, he would have just walked away wordlessly, hoping to try again later. But now.... now, she just had to go ahead and touch his dick.

From his position, Orion could see the fingered nipples, and now, filled with a vast amount of conviction to explore the body of the woman in front of him as he bathed her nude body, Orion scooped a bowl of water and poured it down by the side of her breasts.

"Don't let the water go to waste, watch the stains off with your hands too" Greta said. She decided to take it easy with Orion and instruct him on what and what not to do. Hopefully, he would recover most of his memories before Celeste comes to pick him up tomorrow.

Orion nodded.

"Okay" He didn't need to be told those words twice, especially when he had already planned for it.

.....

I took scooped a bowl of water and poured it on top of her breast before I used my hands to gently press her abundant breast. I saw that she kept a blank expression even as my hands shaped a small portion of her breast into different sizes since her large mounds were truly too large for the hands of one man to contain.

I then moved to her nipples and held the thumb-sized vulgarity in two of my fingers, pinching and shaping it into any shape that I wanted.

Truly, this was wonderful! Like, why wasn't I born in this world the first? It would have made more sense to put a vulgar man like me in such a world instead of the earth!

No! I shook my head. If I was born here in the first place, then I wouldn't have understood how amazing their loose restrictions and rules are amazing.

"It seems that you are really trying to watch my body thoroughly. I am happy that you are taking your time and not behaving as though my big breast are a problem for you" Greta, the woman with thick abundant assets that would put all of his private masturbation art collection to shame with her body trembled slightly when I decided to use my fingers and pinch her nipples.

Instead of her to scold me, she was thanking me.

'I am glad my big breast is not a problem for you' I repeated that statement in my mind. Of course, I knew that my mother and Greta had problems getting Kushi which I now assumed was sex because of their curvaceous and fleshy bodies, but as a reincarnated man from earth, those words were like music to my ears and steroids for my penis.

Yes, my penis got bigger, and I decided to squat also because I could feel the strain caused by the prolonged erection, and my hands were unable to get anywhere else, other than her breast.

Seriously, these things were like a magnetic pull that dragged me towards it whenever I wanted to pull away.

My Penis poked her ass with excitement as I rubbed her flat stomach all the way to the back of her fleshy thighs.

"Hold on" Greta said. She stretched her hand to her back, held my dick and kept it under her ass, between her closed ass cracks. "That should do it. You know that thing has been disturbing me since the start of the bath" She turned

her head to me, and I could see the side of her wet cherry lips that called for me to kiss it.

She smiled and continued. "It should be safe down there since you can't perform Kushi with your current state". Then, almost inaudibly, she muttered under her lips "At least the best I can do for you right now is see if it can cool down after feeling the surface of my Vagina".

What? I froze for a second after I heard those words.

I looked down to see my Penis hanging underneath the large ass of a woman I barely knew and was currently getting close to understanding, offering me comfort by placing my Penis against her Vagina lips.

'ARE YOU TRYING TO KILL ME, WOMAN?' I can't have Kushi - 'sex' with you, yet I can only rub my Penis against your vagina lips, what if I accidentally penetrated you huh!

Hmmm....

I decided to test that fact and press my body closer to her, to which she leaned on my chest, further shoving my Penis in between her ass-cheeks.

Once again, I couldn't help but acknowledge the phat ass below me and how my Penis was currently fighting against its friction to arrive at its destination.

Using this opportunity, I used my left hand to scoop the water and my right hand to wash her inner thighs. My hands rubbed, felt, squished and slipped down until I finally came in contact with her hairy bush, and then, her Pussy.

"Ah~" She moaned. "Take it easy if you are washing down there, Orion. You should know that we women are sensitive down there even when we are not doing Kushi" She said, leaning further into my body, and spreading her legs wider.

I gulped a saliva down my throat as I started playing with her pussy lips.

"Okay, don't worry, I will be quick" Honestly, I didn't know if I had just lied as I fingered her pussy in the faked pretence of washing it while she writhed in pleasure on top of me.

And worst of all, we were out in the open with fences that would barely count as one, in the eyes of anyone lucky enough to pass by. And yet, the fact that this might just be the norm in the world made the situation more thrilling and pleasurable.

"Aunt Greta" I added another finger and made the fingers continue finger-fucking her.

'~~aHHH~" She moaned at the sudden intrusion and the increased number of fingers massaging her insides.

"It seems that your Pussy is very dirty so I will take my time to wash it properly. In the meantime, I will use my Penis to wash your buttocks".
