

Villain 1061

Chapter 1061: You still have someone you care about, the angry Eternal Protoss

“Do you think that I can easily use this method?”

Facing Wang He’s harsh questioning with a hint of dissatisfaction, the artifact spirit of the Book of Scavengers, did not continue to remain silent at this moment, and let out a specious sneer.

Wang He choked when he heard the words, and after thinking about it, it seemed to be the same reason.

Such means were not simple.

The Book of Scavengers was an artifact spirit that could not be completely controlled, so it should not be possible to use such methods all the time.

Otherwise, she would have escaped with the Book of Scavengers.

Thinking of this, he didn’t say anything more and looked at the cave on this quaint green hill.

This place had obvious terrifying suppression. After walking a few steps forward, Wang He felt that his shoulders and back seemed to be carrying a blue sky, and he was almost crushed down.

If it weren't for his great strength, he would not only focus on the cultivation of spiritual power like many cultivators in the immortal civilization.

He also cultivated painstakingly to train his physical body, so he resisted.

Otherwise, the moment he walked forward just now, his spine would probably be broken, let alone continue to move forward.

The green hills were steep, and many places were covered with jagged and strange rocks. The purple clouds were lingering, and the blue clouds were shining, which looked very magical.

The ancient trees there were dry and grew between the cracks of the rocks. They had grown for tens of thousands of years. The material was extremely strong, like gold and wood.

Wang He also saw that many corpses with weathered clothes were lying around. It was obvious that they were cultivators who found this place and wanted to enter the cave.

These corpses had existed for at least tens of millions of years, and some parts were still shining with divinity and chaotic brilliance.

"Although there is no existence in the Dao realm, the strength is at least comparable to the quasi-immortal emperor of the immortal civilization..."

"It's a pity that such an extremely powerful person who is so proud of the world died on the road like this. Many universes and several epochs may not be able to give birth to such a person."

Wang He was slightly moved, cheered up, did not dare to underestimate anything, and continued to go to the cave.

Since there were many corpses scattered there, it meant that at least there were many dangers that he did not expect.

Inside the Book of Scavengers, there was an empty and indistinct space, shrouded in a thin gray mist.

Around this space, there were many complicated and ancient patterns carved, like dragons and snakes, twisting and erratic.

A misty figure that blended in with the surrounding environment was looking outside through the Book of Scavengers.

These mist lingered around it, the moment she was about to touch the edge.

Those ancient runes suddenly lit up, and an inexplicable force appeared and suppressed them.

“Is it still not loose?”

She was talking to herself in a low voice, and there seemed to be a strong chill on her blurred face.

...

“Why are you ignoring me? I said that just now, are you a little angry?”

On the rugged mountain road, Mu Yan seemed to have returned to the cheerful woman she was before.

The corners of her skirt fluttered, her hands were pinned behind her back, her steps were light and fast, and she was talking to Gu Changge with a smile on her face.

For her, after a little discomfort at the beginning, she recovered quickly.

The past was past, and all kinds of karmic concerns were now cut off.

As Gu Changge said, she lived her second life in this way.

As for the baldness at a thought, Mu Yan also acted indifferent.

Compared with before, she looked cooler now, as if she was born in the wind and snow, and she was more free and easy.

Mu Yan herself really liked this feeling, it seemed that she was really living for herself now.

“You can cut your own second life, I am naturally happy for you, how can you be angry?”

Gu Changge's pace was not fast, and seemed very casual, as if he was just enjoying the scenery along the way.

Hearing what Mu Yan said to him at this moment, he smiled in surprise.

Mu Yan walked very close to him, turned her head to look at him, her eyes were shining, and said bluntly, "Because when I said that to you just now, you suddenly froze for a moment..."

"I can clearly feel that you are thinking about something."

Gu Changge smiled noncommittally, and said, "You can even see this, so tell me, what am I thinking?"

"I get the feeling that you're thinking of someone, but it's definitely not me."

Mu Yan wrinkled her nose, and then deliberately said in an envious tone, "I really didn't expect that you still have someone you care about in your heart."

"A person like you who is refined and detached, I always thought, should not eat the fireworks of the world, sit high above the nine heavens, overlook the world, and will not have real emotions and desires."

"Even if you treat people peacefully and warmly on weekdays, in fact, you are not in the same world as us at all. I can feel this very clearly."

When she said that, it was Gu Changge's turn to be surprised.

Mu Yan glanced at him, and continued, "You don't really think I'm stupid. I've been in the immortal civilization for so many years. I used to make enemies everywhere, and I was able to survive."

"In this kind of world, no one can survive easily. That's why when I first met you, I thought that you were a young master who had just been born and experienced in a hermit family. So I kindly wanted to persuade you. But who knows, you hide it so deeply."

Speaking of this, she felt a little impermanent in the world.

Hearing these words, Gu Changge was really surprised, he thought that Mu Yan's temperament had always been like this.

But thinking about it carefully, she grew up in such an environment, so how could she be really innocent and kind, without understanding anything?

However, he didn't explain much about it.

Mu Yan was smart, so she wouldn't ask too many questions, as if she had a tacit understanding with him.

"You can keep this Eternal Divine Furnace for yourself, although I don't know if it is of any use to you."

“But I really don’t want to see everything related to the past, including this Eternal Divine Furnace.”

Mu Yan lifted her wrist, and the Eternal Divine Furnace that Gu Changge had returned to her, together with the lid, appeared in her palm.

This was the artifact of the Eternal Protoss, but it had long been lost and had become a thing without an owner.

There were many opportunities in the world, and she doesn’t think that if she lacked the Eternal Divine Furnace, she would accomplish nothing in the future.

Mu Yan could clearly feel it when she fell into the previous state of near extinction.

Great changes had taken place in her strength, every inch of her body seemed to come alive, and she jumped for joy.

Mu Yan had already vaguely sensed what kind of path she should take next.

“Since you don’t want it, then I will accept it. It seems that if I have time in the future, I have to go to the Eternal Protoss and take the Eternal Divine Sword.”

Gu Changge nodded slightly but did not refuse.

He also expected that it was impossible for Mu Yan to continue to want this Eternal Divine Furnace.

After Mu Yan handed over the Eternal Divine Furnace to Gu Changge, she felt much happier and walked briskly ahead.

After crossing the ancient wood mountain in front, it was the area echoed by the Eternal Divine Furnace.

She felt that there should be one of the five eternal artifacts of the Eternal Protoss in that place.

If the Daoist named Wang He hadn't lied to her, the trip should have gone smoothly.

But at this time, outside the Blue Heaven Realm.

The terrifying portal that traversed the sky was still filled with rays of light, illuminating the nearby universe, and it was all gorgeous.

Although there was chaos everywhere, there were still cultivators and creatures rushing to come there, constantly flocking to the territory of the Blue Heavenly Realm.

But at this moment, an inexplicable terrifying aura suddenly rose up, and several terrifying figures walked out of a certain area.

Their faces were terrifyingly ugly, the time and space around them were blurred, and the chaotic energy collapsed.

“How can it be?”

These people were exactly the elders who left the Eternal Protoss with Li Yang.

All the creatures and cultivators nearby, no matter what kind of cultivation they were, could only face the giant dragons like lambs, trembling, trembling, not daring to move under this powerful and terrifying atmosphere.

The terrifying aura shocked the sky and the earth, and even the surrounding chaotic star field became dead silent.

They were real Dao realm existences, with one hand penetrating the universe, and moving thoughts opening up a small world in the chaos, so powerful that it was unimaginable.

Anyone was fully qualified to create an ancient great religion and be called the ancestor.

However, at this moment, they were furious, suppressing their anger and disbelief.

They didn't expect it at all. They thought the trip would be very smooth, but now they suddenly learned of Li Yang's death.

Li Yang, the contemporary hope of the Eternal Protoss, died in the Blue Heavenly Realm!

The news was so sudden that they were all stunned, and then realized that they couldn't believe their ears.

But this was the news from the family. Just now, Li Yang's life lamp was broken, which meant that he died in it.

The clan land of the Eternal Protoss was extremely far away, and it would take some time for the news to spread, which means that Li Yang had actually been dead for a long time.

"If Li Yang continues to grow, his achievements in the future will surely exceed ours, but now, he is dying in this for no reason."

"How is this acceptable to me?"

They felt enraged and aggrieved. As the Dao realm existences, they couldn't even protect the divine son of their own family group.

Looking at the Blue Heavenly Realm in front of him, an elder of the Eternal Protoss screamed angrily, and his big palms directly crossed over, trying to tear it apart.

The rest of the people saw this and hurriedly stopped it, but it was too late.

The terrifying aura of torrents pouring down and the universe collapsing, with a bang, seemed to shake the heavens through the ages, wash away the river of time, and suddenly rushed out from the portal of the Blue Heavenly Realm.

Hundreds of millions of rays of light soared into the sky, illuminating the dark and deep universe, as if turning into an eternal sword, and directly slashed at the elder of the eternal protoss!

Puff!!!

Even if it was as strong as the existence of the Dao Realm, it was still difficult to deal with the Blue Heavenly Realm in front of them.

The elder of the Eternal Protoss, whose hand was submerged by the sun's rays, shattered, collapsed, and exploded, revealing the dense finger bones, bloodshot, looking extremely terrifying.

He himself spurted out a mouthful of blood, and his figure almost flew out of this universe.

Chapter 1062: The pain of losing a divine son, the lion fights the rabbit with all his strength

This scene shocked the entire world, and many powerful creatures in the distant universe couldn't help trembling.

In some of the closer star fields, there was an instant dead silence.

If the existence of the Dao Realm was ruthless, it could completely kill all cultivators and creatures in a big world.

At this time, naturally, no one dared to touch his head.

“Block the surrounding universe, and do not allow any cultivators and creatures to leave.”

“I need to know how the Divine Son fell into it.”

“If someone murders the Divine Son, we will definitely make him regret it.”

The other elders of the Eternal Protoss shouted in a low voice with extremely ugly faces.

Although they didn’t make a move, they also ordered the rest of the clan to block this universe and not allow anyone to leave.

The entrance and exit of the Blue Heavenly Realm were there, they must find a way to investigate the truth about the fall of the Divine Son.

All of a sudden, the news that the Divine Son of the Eternal Protoss had fallen in the Blue Heavenly Realm spread like a hurricane, and spread from this universe, causing a great commotion.

But now, all ethnic groups in the immortal civilization were mud bodhisattvas crossing the river, and they could not protect themselves.

Even after hearing the news, they were not moved much. Many eyes were on the battle between the Zhuo, Hun, and Wu clans.

The Eternal Protoss would probably not be spared in the future and would be involved.

At this time, what if a Divine son died?

“Li Yang was killed by someone. He is connected to me by blood. I can clearly feel his fear and helplessness at the last moment.”

“At the beginning, I gave him a ray of true blood just to guard against this moment.”

“However, I never thought that I could perceive the fluctuation of the Eternal Divine Furnace and another eternal divine artifact.”

But at this moment, in the ancestral hall of the Eternal Protoss, a middle-aged man of extraordinary valor stood with his hands behind his back, and the palms under his wide sleeves were tightly squeezed.

He was imposing and extremely tall, and between the opening and closing of the dark golden eyes, it seemed that the sun and the moon were revolving, and there were infinite laws of the Dao circulating.

“This Blue Heaven Realm, I will definitely not be able to break through it.”

This person was the current patriarch of the Eternal Protoss and Li Yang’s biological father, Li Motian.

“Patriarch, think twice about this matter. Now that the immortal civilization is in chaos, the situation of the Zhuo and Wu clans has not yet been settled. I’m afraid it won’t be good if we enter rashly...”

Beside Li Motian, the rest of the elders of the Eternal Protoss were there.

After all, it was the death of the Divine Son, and many clansmen rushed over.

Li Motian devoted a lot of effort to Li Yang, hoping to train him to be the future successor of the Eternal Protoss.

But he never thought that during this trip, Li Yang would die so tragically in Blue Heavenly Realm.

Many of their clansmen would find it difficult to accept this result for a while.

The death of Li Yang basically meant that the Eternal Protoss of this era lacked the mainstay of the future.

All the resources poured into it went down the drain.

“There is no need to talk about this matter. I have made up my mind. I will take the Eternal Divine Sword to break through the Blue Heavenly Realm.”

“At that time, I will bring back the Eternal Divine Furnace and another Eternal Sacred Artifact by myself.”

“Elders, there is no need to persuade me anymore. If there is an accident this time, I am willing to bear everything.”

Li Motian’s face was not angry and prestige. He had accumulated power in the Eternal Protoss for a long time. Now that he said this, the elders couldn’t persuade him anymore.

In the depths of the ancestral hall, swords were clanging, and suddenly there seemed to be hundreds of millions of sword lights gushing out.

A rainbow-like divine sword, the sound of the sword’s chant shook the universe, flew out directly, and landed in Li Motian’s hands.

He held the Eternal Divine Sword, and the other hand tore apart time and space, and his figure disappeared instantly.

For an existence like his, the distance was meaningless, and it spanned several large universes in an instant.

“Although the patriarch has always been harsh to the Divine Son, he actually attaches great importance to love and family, but he never shows it.”

“At the beginning, the patriarch had such a deep-rooted love for the saint of the previous generation. If that person didn’t suddenly intervene and take the saint away, how could there be so many things behind...”

All the elders of the Eternal Protoss couldn’t help sighing when they saw this scene.

The fall of the Divine Son of this generation, for the Eternal Protoss, naturally, would not hurt the bones.

The reason why Li Motian was so angry was because Li Yang was his child with the previous saintess.

Clang!!!

A beam of sword light tore through the sky, seeming to illuminate the eternal night, making the river of time turbulent.

Time and space split, a road was pierced, and the patriarch of the Eternal Protoss descended with the artifact Eternal Sword Excalibur.

His strength was terrifying, from an infinite distance away, he slashed at the area where the Blue Heavenly Realm was located.

Under the brilliant sword light, even the aura of the Dao was obliterated, and the stars trembled, about to fall.

This sword shook the countless universes around, and countless cultivators and creatures trembled under this scene, trembling all over, and wanted to kneel down there.

“Crazy, is he going to kill everyone?”

Many cultivators in the nearby area were filled with ghosts, terrified, and tried to find a way to escape.

Many creatures were furious, but they had no choice but to escape by all means.

Although Li Motian was a newcomer, he was far inferior to Zhuo Fengxie and Hunyuan Jun, who were famous in ancient times.

But he was also not to be underestimated, his strength had already reached an unfathomable level, especially at this moment, the Eternal Divine Sword in the palm of his hand, which added three points of invincible power.

The sword light was really as if it was eternal and immortal, the endless sky thunder exploded, and the infinite sword light, tearing the void and the universe, descended.

The whole world was covered with sword lights, and along with the light of the Dao, it was about to shatter the portal of the Blue Heaven Realm.

“The patriarch has come...”

The elders of the Eternal Protoss outside the Blue Heavenly Realm were also shaken in their hearts.

They had taken actions to block the surrounding universe and time and space, and would not let any cultivators and creatures escape.

However, they did not expect Li Motian to come there with the Eternal Divine Sword, intending to break through the Blue Heavenly Realm.

At this moment, many of the most powerful figures of the immortal civilization had sensed it, and they could see it from afar.

On the battlefield between the Zhuo Clan and the Wu Clan, there were also strong people who felt shocked and horrified.

“I thought it would be an unspeakable event that the Zhuo clan and other forces would fight and cause chaos everywhere.”

“Unexpectedly, the patriarch of the Eternal Protoss was born with the artifact of the clan, and he wanted to break through the Blue Heavenly Realm.”

“The pain of bereavement, even he can’t escape it?”

Countless cultivators and creatures felt incredible and a little unbelievable.

Li Motian crossed many universes and time and space and came to the world where the Blue Heavenly Realm was located with his real body. Without saying a word, he slashed with a sword, and all the laws and orders were distorted and broken.

“From today onwards, there is no need for the Blue Heavenly Realm to exist in the world anymore.”

He spoke indifferently, the dharma body was extremely tall as if it was shoulder to shoulder with the universe, and the galaxy was far inferior to a strand of his hair.

This was a frightening and horrifying scene. He stood there, with the divine sword in his palm flying across the sky, slashing down continuously.

Just the escaping aftermath could destroy the surrounding star fields, obliterating them into dust.

If you were in it, it was unimaginable what kind of terrifying impact you would suffer.

“This is not like Li Motian’s style. Although it is normal to be angry when his son is dead, but he still does this at the risk of offending so many forces...”

“You have to know that in the Blue Heavenly Realm, there are still many young people from various forces and powerful clans...”

“I’m afraid there is something in the Blue Heavenly Realm that deserves his attention. This is just to cover up people’s eyes and ears.”

However, some powerful beings who had a good relationship with Li Motian had flickering eyes, guessing that this was Li Motian’s plan.

Beyond the border of the sky, there were constant shocks, and the sword light had hundreds of millions of points, which was as terrifying as the thunder that could destroy the world.

Li Motian smashed down with his sword, trying to spin a square universe, that kind of power was unparalleled and shocking.

“How does it feel, Blue Heavenly Realm shook...”

“What happened?”

At this moment, all the cultivators and creatures in the Blue Heavenly Realm felt the ground shaking under their feet.

Even the sky above the head trembled.

However, they couldn't see the scene outside the Blue Heavenly Realm clearly.

If they saw it, they would be scared to death, and they will be horrified.

The existence of the Blue Heavenly Realm was extremely special. It was said that it evolved from the treasure house of the Eternal God. The internal laws were perfected by him, which was equivalent to a small world created by him.

Here, any cultivators and living beings would be suppressed.

In the same way, the power from the outside world could never destroy it in a short period of time.

But at this time, a hidden force of resonance was dismantling the order and laws of this place from the inside.

Li Motian obviously knew this a long time ago, so he used the Eternal Divine Sword to try to break through this place.

“Is it an earthquake just now, or is someone attacking here from the outside world?”

Wang He, who stopped outside the quaint cave, looked up at the sky, frowned, and asked in thought.

He was very cautious. After coming there, he did not choose to approach the cave immediately.

The corpses scattered nearby were the best proof.

However, when he explored this place, the entire green hill including the cave mansion trembled.

Wang He even felt that in the cave, there was a strong aura waking up, echoing the outside world.

This power made him feel a little creepy, and he hesitated even more.

The saint of the Eternal Protoss must have no good intentions, otherwise, she would not have let me find that treasure for her.

“It doesn’t matter, first follow the original plan, find a place, and hide it first.”

“If the person surnamed Gu is with Mu Yan, he will definitely be able to find this place in the end.”

When Wang He was investigating this place, he was also deploying his own means.

Many places had buried some dilapidated formation patterns of the ancient period, which belonged to the real Dao realm formation patterns.

Once these formation patterns were activated, they could be called lore formations, with incredible power.

He was very cautious, since he wanted to deal with Gu Changge, he had to use all means, and he could not underestimate or relax.

After all, Gu Changge’s origin was mysterious, and he might have many means of protection on his body.

In addition, its strength was not clear, Wang He had already considered it as a half-step Dao Realm existence comparable to his own, and it was the most powerful force that the Blue Heavenly Realm could allow.

The lion fights the rabbit with all its strength.

Chapter 1063: Kill the opponent by surprise, you came?

Wang He was very cautious, sweeping around the corners and laying down many formations.

These formations were the ones he had encountered during all these years while traveling around and adventuring.

Among them, there were also some killing formations that existed in Dao realms in ancient times. The value was astonishing, and a ray of killing intent could shatter the galaxy.

“Just in case, I have to arrange some other means, otherwise I will always feel uneasy in the dark.”

Wang He was ruthless again and buried the few pieces of broken weapons he got everywhere.

These fragments of broken weapons were likely to be the prototype of a certain civilization treasure, stained with the blood of an unknown existence, even after tens of millions of years, there was no trace of dissipation.

On weekdays, Wang He would not dare to touch it, because he would be disturbed and suffer a backlash.

“You were cautious. You didn’t disappoint me.”

The voice of Artifact Spirit from the Book of Scavengers sounded again, witnessing this scene, it seemed to be mocking.

Wang He ignored her and was still arranging his own affairs.

Finally, he deployed at least dozens of desperate means around this quaint cave, and even he dared not set foot in those areas.

Afterward, Wang He found an area and hid himself for the time being, waiting for the cultivators from behind to arrive.

As for the treasures in this cave, he didn't want to think about them at the moment.

After all, after eliminating the opponent, there was plenty of time to investigate everything.

"This big one, if it fails, the consequences will be unimaginable. I was also persuaded by you to choose this method."

"Have you thought about what will happen to us if we fail?"

Wang He's eyes were calm, like a lion waiting for its prey to enter the trap, and at the same time, it was talking with the artifact spirit.

"You'd better not try to fail because I'm not like you."

The artifact spirit said indifferently and its tone remained unchanged.

Wang He frowned. This move of his was completely begging for wealth.

However, what the artifact spirit of the Book of Scavengers said was also correct.

After all, she was just an artifact spirit, and her end would not be miserable.

And if he failed, he would most likely die.

But if it succeeded, it would mean unimaginably rich resources and even digging out more powerful functions of the Book of Scavengers.

“There are gains and losses, but I don’t believe it. I will fail in this move. In the Blue Heavenly Realm, who can really threaten me?”

Wang He’s eyes flickered slightly, and various thoughts flashed through his mind.

The originally wavering thoughts stabilized again.

At this time, he suddenly sensed a wave of aura coming from the foot of the green mountain.

At the same time, it was accompanied by the sound of conversation.

“And I guessed right... Sure enough, it’s still here.”

A smile appeared on Wang He’s face, and with a look of joy, his figure flashed and appeared outside the cave.

“Is it finally here?”

However, to Wang He’s surprise, the artifact spirit of the Book of Scavengers also seemed to be a little uncontrollably surprised at the moment.

This was quite different from the cold and indifferent artifact spirit he was familiar with in the past.

Wang He shook his head and laughed in his heart. An artifact spirit was a weapon spirit, and there was a gap between people and weapons after all. She would only consider matters related to her own interests.

She didn’t seem to be so concerned about the rest of the things.

Then, Wang He put his hands away, frowned in thought, and paced back and forth as if he was looking at the special environment there.

His plan was to kill his opponent by surprise.

When the opponent relaxed and concentrated on the special terrain there, he would trigger the arranged formations.

Compared with hiding in the dark and acting by ear, doing so is naturally easier to succeed.

...

The green mountain was majestic, straight, and steep. Before walking up, Mu Yan saw many places, shining bright rays of light, and a burst of cloud splendor, which was very magical.

She had already handed over the Eternal Divine Furnace to Gu Changge.

So she was not really interested in what was on this mountain.

However, since she came to the Blue Heavenly Realm, she stopped by to see what was waiting for her on this mountain.

Could the former Daoist who claimed to have known her father and was an old friend be there too?

Gu Changge walked unhurriedly, walking behind Mu Yan.

He was also looking at this green mountain. Unlike what Mu Yan thought, he would come here, but it had nothing to do with the Eternal Divine Furnace.

Ever since it fell into his hands, the Eternal Divine Furnace seemed to have suddenly become dead silent, and there was no longer any abnormal movement.

Mu Yan thought that the Eternal Divine Furnace was guiding the direction, but in fact, there was someone else who was leading the way for Gu Changge.

When he was in the Gufeng Ancient City, Gu Changge would interrogate Zhuoyou and the others about the Chaos Inn, which was actually related to this matter.

However, during that time, he was focused on the Zhuo and Hun clans and didn't care too much about it.

Now that he had his hands free, the time was just right to solve them together.

Soon, Mu Yan led the way ahead, while being careful of the danger there.

It didn't take long for the two of them to reach the mountainside.

During this process, the Blue Heavenly Realm shook several times again.

The sky seemed to have become much more transparent, and the earth kept shaking.

Terrible rift valleys appeared in some places, and space-time rifts spread thousands of feet wide.

Below was a bottomless abyss, dark and eerie.

Even Mu Yan heard the crisp sound of the sword that roared across the universe and arrived with a roar.

She suspected that there were powerful existences outside the Blue Heavenly Realm, trying to blast this place.

Mu Yan was a little worried at first, but seeing that Gu Changge's expression remained as usual, she gradually relaxed.

Although she didn't know the extent of Gu Changge's strength, she always felt inexplicably at ease when she was by his side.

As if even if the sky was falling, nothing would happen.

Mu Yan didn't know where she got this inexplicable sense of security.

Outside the Blue Heavenly Realm, Li Motian stood between heaven and earth with a sword across the sky.

He kept waving the Eternal Divine Sword, and the sword glowed like a tide, flooding the entire universe, and bombarding the portal of the Blue Heavenly Realm with countless threads.

The entire world was shaking violently as if it was about to fall down together with the stars in the sky.

In a distant place, many eyes were watching closely, watching Li Motian's every move.

The expressions of many creatures were extremely indifferent. In the territory of the Blue Heavenly Realm, there were disciples with forces behind them, but no one cared about their life and death at this moment.

Li Motian used the Eternal Divine Sword, and there were several elders of the Eternal Protoss by his side. From their point of view, this was definitely premeditated.

The Blue Heavenly Realm had always been rumored to have a great relationship with the ancestors of the Eternal Protoss.

Now, Li Motian personally appeared and descended, and he wanted to split this place, most likely to get something in the Blue Heavenly Realm.

At this time, when the Zhuo, Hun, and Wu clans were fighting, the heavens were in great turmoil.

All races might be involved at any time, and their lives were very unsettled, and they could not protect themselves, so naturally they dare not intervene in the affairs of the Eternal Protoss.

On weekdays, you must know that even the Zhuo clan and other forces dare not easily provoke this group, which showed the horror and depth of its background.

On the more distant battlefield, many elders of the Zhuo and Hun clans gathered there, confronting the Wu clan far away.

Hun Yuan Jun and Zhuo Fengxie were also there, their power overwhelmed the universe, and all creatures in the world could clearly perceive the terrifying aura of the two as if they were about to destroy the world.

This was an extraterrestrial void battlefield, where fights were everywhere. Up to now, there were already Dao realms that had attacked, and between the fights, Dao ripples spread, and the long river of time had evaporated.

With their fingers, the world was born and the world was destroyed, and a world that bred countless lives could be destroyed with a flick of their fingers.

There were countless fallen cultivators and creatures. This was an unimaginable terrifying battle in the countless years of the immortal civilization.

Now the scope of influence was only around the territory of the Gou clan, and it did not cover the entire immortal civilization.

“What happened in the Blue Heavenly Realm? Why did the Eternal Protoss attack suddenly?”

The existence of Zhuo Fengxie and Hunyuanjun had not really attacked yet, they were just watching from the sidelines.

However, compared to the battle in front of them, what they cared more about was what happened in the Blue Heavenly Realm.

They clearly remembered that Gu Changge went to the Blue Heavenly Realm after giving them instructions that day.

Will the actions of the Eternal Protoss affect Gu Changge and cause unwarranted disasters?

“This matter is beyond our control. Judging from the Wu Clan’s actions, it should have been reported to Xi Yuan Civilization.”

“It’s impossible for Xi Yuan Civilization to not respond. I guess, at this moment, there are already strong people who are crossing the boundless and rushing here...”

“We must make a quick decision to take down these two races as soon as possible to stabilize the overall situation of the immortal civilization.”

The two hadn’t planned to make a move at first, waiting for the key existence of the Wu and Gou clans to show up.

But looking at it now, the situation of the immortal civilization would only become more chaotic, and without hesitation at the moment, he joined the battle between steps.

On this battlefield, countless armies collapsed like a torrent.

In an instant, it disappeared in smoke, and hundreds of millions of living beings were destroyed and disappeared.

For a time, all the universes and big worlds under the jurisdiction of the immortal civilization were affected and affected.

Even though there was an infinite distance, countless cultivators and creatures, trembling and fearful in their hearts, could feel the wave of fighting at the level of destroying the world, which could be called destroying the sky and destroying the earth, as if they wanted to reopen the universe.

...

Blue Heavenly Realm, in front of that quaint cave mansion.

As Mu Yan expected, from a distance, she saw a young-looking man in Daoist robes over there.

And he seemed to have known she would come a long time ago, he seemed to be exploring the surroundings, and he seemed to be waiting for her.

Wang He looked away, as if he happened to see Mu Yan, and was a little surprised by Mu Yan's changes during this period of time.

However, without showing the slightest abnormality on his face, he took the initiative to say with a smile, "You came?"

At this moment, Wang He was wearing a Daoist robe and a star crown, which seemed to have a sense of immortality.

Chapter 1064: Is it possible that women have a little love brain, isn't it time to show up and see them?

Mu Yan didn't get too close, she nodded lightly, and asked, "The Daoist priest, you left me the box, just because you want me to come here?"

Wang He's smile froze slightly, and instead of answering, he looked at Gu Changge beside her.

He always felt that the provocative words he said to Mu Yan at that time were in vain, otherwise she would not have gotten so close to Gu Changge.

And in front of him and Gu Changge, she took the initiative to mention the box. Could it be that she also told Gu Changge those words?

This future Empress Pingtian made him a little disappointed.

Or, when a woman encountered this kind of situation, would she be a little bit in love? Couldn't tell the truth?

Wang He glanced at Gu Changge with a casual expression and turned his gaze back.

Although many thoughts flashed through his mind, there was no abnormality on his face.

“This must be Mr. Gu who was famous in Gufeng Ancient City some time ago?”

“The impoverished Wang He greets Mr. Gu.”

Wang He didn't answer Mu Yan's question directly but nodded and greeted Gu Changge.

Gu Changge swept across the place casually, with a faint smile on the corner of his mouth.

He nodded slightly, and said with a faint smile, “Don't be too polite, Master Wang He. I heard Yan'er mention something about Master Wang He, and I know that Daoist Master Wang He has a lot of friendships with Yan'er's father. Before Yan'er was trapped in the hands of Wu, Daoist Wang He intends to help you, and I thank you for Yan'er.”

Wang He's expression froze when he heard Gu Changge call Mu Yan “Yan'er”.

Mu Yan didn't expect Gu Changge to suddenly call her that.

She was stunned for a moment, then a haze appeared on her porcelain-like delicate face, and she gave him a soft look.

“Mr. Gu, you are welcome. Mu Yan's father, after all, had a life-and-death friendship with this subordinate. Seeing his own flesh and blood being reduced to such a state, how could he stand idly by?”

Naturally, Wang He was not an ordinary person, and he had a lot of energy-raising skills, so he recovered in an instant, waved his hands, and said with a smile.

He could see it now, Mu Yan probably told Gu Changge everything related to him.

The previous methods of sowing discord were useless at all.

In the future, Mu Yan would become a generation of the Pingtian empress who would destroy the eternal gods with one hand. Why couldn't she even pass the emotional test?

As soon as he thought of this, Wang He planned to change his previous thinking, and he couldn't directly express hostility to Gu Changge.

“Daoist Wang He can think about Yan'er so much, I think Yan'er's father, the spirit of heaven, can also be quite comforting, and it is not in vain that he made friends with Daoist Wang He back then.” Gu Changge still smiled lightly.

Wang He didn't want to say more on the topic of Mu Yan's father, lest he talked too much and revealed flaws.

He quickly changed the subject and mentioned the cave in front of him.

However, Mu Yan still expressed curiosity and puzzlement about why he left the box.

Wang He could only sigh slightly, and explained,

“Although the cultivation base of Daoist is not very advanced, there are still some attainments in deduction and divination. When I first cultivated, I accidentally obtained the immortal civilization, the legacy of an ancient Dao realm ancient cultivator, and then I cultivated a little. This is considered an artifact of the Eternal Protoss, and it has fallen into your hands.”

Mu Yan was a little taken aback by his explanation.

Compared with the immortal civilization, the immortal civilization was naturally inherently deficient in methods such as deduction and divination.

She knows some powerful Daoist cultivators who had the ability to penetrate the heavens and could deduce and understand the fate and future of others.

From the way of heaven, predicting one's own misfortune and fortune, seeking good fortune, and avoiding evil, and was almost immortal.

“When I met you for the first time, I didn't know what gift to give, and poor Daoist also just calculated that another eternal artifact will be in the upcoming Blue Heavenly Realm, so I left the box to inform you...”

Wang He smiled and continued to explain.

What he said was flawless, even if Mu Yan still didn't believe it, it was impossible for Mu Yan to detect the flaw.

“The Eternal Divine Artifact mentioned by Daoist Master Wang He, does it mean the Eternal Divine Furnace?”

While Gu Changge was speaking, the Eternal Divine Furnace emerged from his palm, simple and natural, carved with many ancient patterns.

“Eternal Divine Furnace?”

“Why is this thing in the hands of... Mr. Gu?”

Wang He was startled, and couldn't help asking, he really didn't expect the Eternal Divine Furnace to be on Gu Changge.

Could it be that Mu Yan even told him about this kind of thing?

She even handed over the Eternal Divine Furnace to Gu Changge.

An inexplicable sourness suddenly appeared in his heart.

This Empress Pingtian whom he admired so much, for a man, how could she do this for his sake?

Wang He had the Book of Scavengers, and when investigating other people's lives, he could always see some vague records about Empress Pingtian.

Even in other people's lives, she played a role like a protagonist in the world with a bright aura.

She was the most talented woman since the modern era of immortal civilization! Second to none!

At the same time, she was also the number one strange person since ancient times.

Powerful and immortal, even the eternal protoss would be destroyed by her.

The Zhuo clan also shunned her. During the years when she became enlightened and took charge of the power of the immortal civilization, all clans respected her and all spirits worshiped together.

Those weird places and mysterious restricted areas that hatred for her were even more sealed off, and they dare not send any of their clansmen to the world, which showed the fear of her.

Among them, the most shocking thing was another event that shocked the past and the present.

The remnants of the black misfortune that once caused boundless misfortunes intended to make a comeback, and a wisp of black mist descended on the immortal civilization, trying to invade and corrupt the countless great worlds there.

At the critical moment, it was Empress Pingtian who appeared, suppressing and killing the remnants of the black disaster with one hand, standing outside the world, and attacking many ancient and modern enemies.

Although Wang He could only understand Empress Pingtian by understanding other people's lives.

But this didn't have any effect on his admiration for Empress Pingtian.

“Perhaps the Empress Pingtian in the future will be able to be reborn from the ashes after the second life is truly cut off...”

“For her, all of this will definitely be a catastrophe that will be cut off in the future.”

Many thoughts flashed in Wang He's mind, and his thoughts came back.

“It seems that Daoist Wang He also recognizes this item. Since Yan'er entrusted it to me for safekeeping, then I will keep it for the time being.”

Gu Changge noticed the surprise on Wang He's face, said casually, and then put away the Eternal Divine Furnace again.

This Wang He didn't seem to care much about the Eternal Divine Furnace.

Then he lured Mu Yan to come here on purpose, he should have other intentions.

If it wasn't plotting against the Eternal Divine Furnace, then it should be plotting against Mu Yan herself.

Gu Changge just mentioned it casually just now, and deliberately referred to Mu Yan as “Yan'er”.

He could clearly feel the violent fluctuations in Wang He's mood.

This guy was also an existence born with great luck, and there might be some treasures on his body that could detect the fate or personality of others.

"It turns out that the Eternal Divine Furnace is a divine weapon of the Eternal Protoss. Once they find out, this thing is in Mu Yan's hands. Then they will definitely do everything possible to snatch it."

"However, if Young Master Gu takes care of it on her behalf, then even if the Eternal Protoss have some guts, they probably wouldn't dare to snatch it."

Wang He returned to normal, smiled, and said.

"Daoist Wang He was wrong about this matter. Not long ago, the contemporary son of the Eternal Protoss was killed by me because he wanted to snatch the Eternal Divine Furnace."

"If the Eternal Protoss wants to come, I won't let it go." Gu Changge also smiled lightly.

"What?" Wang He was shocked again when he heard the words, the smile on his face froze a bit.

If he hadn't glanced at Mu Yan and found that she didn't care about it, he would have wondered if he had heard it wrong.

Wasn't the contemporary Divine Son of the Eternal Protoss Mu Yan's younger brother?

Did she just let Gu Changge kill him?

Moreover, Gu Changge didn't think about the subsequent consequences at all, and even told him directly.

For some reason, thinking of these, Wang He's back suddenly felt a little cold, and he felt a bad premonition.

Gu Changge ignored the change in Wang He's expression, and casually swept across the place.

"In this cave, there must be another eternal artifact sealed up. However, the formation patterns around it are a bit commonplace in comparison, and they can't play any role if you think about it. I don't know what the Daoist priest Wang He thinks about it?"

He smiled lightly, but his tone remained unchanged.

The coldness on Wang He's back grew stronger, his hands and feet felt cold, and he was a little afraid to move at this moment.

He didn't know what Gu Changge meant.

Could it be that he had already seen the formation patterns around him?

“There are indeed some dangers here. Those formations should have been left in ancient times, and some of them are already incomplete. As long as they are not touched, there should be no problems.”

Wang He forced himself to calm down, let himself calm down, frowned and thought for a while, and replied.

After all, he was in the half-step Dao realm, even if he was suppressed in this Blue Heavenly Realm, he could still display great strength.

In the same realm, he was very confident in his own strength.

After all, along the way, it was rare to be able to threaten his existence in the same realm.

“Oh, if that’s the case, then I can rest assured.”

Gu Changge still smiled faintly when he heard the words, and he took a few steps forward.

Not far away, there was a murderous intent that soared into the sky, and a formation pattern lit up, evolving into vast stars, and the universe bombarded him.

However, with just a swipe of Gu Changge’s hand, the formation pattern was annihilated and dissipated soundlessly, like smoke blown away by the wind, and instantly turned into dust.

Seeing this scene, Wang He's face was a little pale, and the palms under the wide Dao robe were covered with cold sweat.

“By the way, I almost forgot. The one who attracted my attention in Gufeng Ancient City, shouldn't it be time to show up and see him?”

But at this time, Gu Changge, who had walked a few steps and was about to reach the cave, suddenly stopped, looked back at Wang He, and asked casually.

Chapter 1065: An unfamiliar white-eyed wolf, are you worthy of making me surrender?

The cave was simple and unsophisticated, and the two stone gates made of unknown stone materials were tightly closed.

Wisps of the divine light of order lingered around the cave, permeating a dangerous aura.

“You lured me to this place, shouldn't it be time for you to show up now?”

Gu Changge asked casually, stopped in front of the cave gate, and looked back at Wang He with a slight smile on his face.

Wang He was terrified by Gu Changge's tyrannical means of obliterating the formation on the ground just now, so he didn't expect Gu Changge to ask such a question suddenly.

“What?”

He was stunned for a while, and he still didn't react.

In the Gufeng Ancient City, did he attract Gu Changge's attention and lead him all the way there?

Who is he talking about?

Mu Yan was also a little surprised, but she had never heard Gu Changge mention such a thing.

Could it be that there were other people besides Wang He?

But at this time, Wang He was shocked, and finally came to his senses, his face suddenly became extremely ugly.

"Artifact Spirit of the Book of Scavengers..."

He growled in his heart almost like gnashing his teeth, and immediately thought of this guy.

Except for the artifact spirit, Wang He couldn't think of anyone else who would secretly attract Gu Changge's attention and lead him along the way.

But the artifact spirit never told him.

From the very beginning, Wang He was wary of the artifact spirit of the Book of Scavengers, worried that she might do something secretly.

He was careful, after all, most of the time, the Book of Scavengers was clever, and she just ignored him.

She often wanted to take the Book of Scavengers and get out of his control.

Wang He never really trusted her.

However, when he followed the plan of the artifact spirit of the Book of Scavengers and went to visit Mu Yan and gave him a box, he didn't encounter any danger.

Wang He gradually became more at ease with the spirit of the Book of Scavengers.

Moreover, along the way, apart from being a little anxious, the Artifact Spirit of the Book of Scavengers did not show any abnormalities. She also helped him many times, which also made Wang He's vigilance lower and lower.

However, Wang He never expected that this guy would make a deal with him to deal with Gu Changge, and at the same time attract Gu Changge's attention.

It was a while ago in Gufeng Ancient City.

In other words, during this period, the artifact spirit of the Book of Scavengers was completely treating him like a monkey.

Thinking of this, Wang He's face became even uglier, a little pale and hard to hide, and he tasted the feeling of being betrayed for the first time in his life.

Buzz!!!

The Book of Scavengers was not under Wang He's control and trembled slightly.

Then, a faint shadow emerged from it.

It was the artifact spirit of the Book of Scavengers. Her figure was like a scattered and impermanent mist, and there was no definite figure. It seemed that she was completely bound in the Book of Scavengers and could not be separated too far.

Wang He looked at her coldly and angrily, wishing he could find a way to get rid of this guy.

"Artifact spirit?"

Gu Changge looked at the artifact spirit of the Book of Scavengers and was a little dazed.

"Greetings Mr. Gu."

The Book of Scavengers was clever, with a gentle voice, and her attitude was not as indifferent as talking with Wang He.

“It was you who showed a strange aura in the Gufeng Ancient City and let me notice it?”

Gu Changge glanced at her and smiled faintly as if asking questions knowingly.

It was because he sensed this abnormal aura that he suddenly asked Zhuoyou and the others about the Chaos Inn and learned about Wang He’s history.

At that time, Gu Changge was more concerned with Mo Tong and Zhuo clans and was not very interested.

It wasn’t until recently, outside Blue Heavenly Realm, that he sensed that abnormal aura again.

It’s just that Gu Changge really didn’t expect that the existence that attracted his attention would be the artifact spirit in Wang He’s hand.

“It’s me, I am the current artifact spirit of the Book of Scavengers, the treasure of civilization.”

The spirit of the Book of Scavengers explained her origin bluntly, “The Book of Scavengers is a treasure created by a powerful civilization in the last era of civilization, and it contains the inheritance of a powerful civilization...”

Hearing such an explanation, Mu Yan was also extremely surprised.

She looked at the livid and angry Wang He, but she didn't expect him to have a treasure of civilization.

This was also the first time she had heard of such a thing as a treasure of civilization.

At this moment, Wang He never imagined that the artifact spirit of the Book of Scavengers would introduce her own origin like a few treasures.

When he got the Book of Scavengers, he didn't even know that this civilization's treasure had an artifact spirit, let alone know these many mysterious origins.

If it wasn't for a coincidence that he discovered the function of the Book of Scavengers, the Book of Scavengers would still be regarded as the "soft armor" of his body until now.

As a result, when facing Gu Changge, the artifact spirit's attitude changed so much.

If he had known earlier that the artifact spirit would have such a personality, whatever she said, he would find a way to control it.

"Civilization Treasure?"

Gu Changge's expression was calm, and he didn't show any surprise when the artifact spirit introduced her origin.

The origin of the treasure of civilization could be traced back to a more ancient period.

Moreover, the civilization treasures forged by each supreme civilization were different, with different emphasis and power.

In the oldest time, there were actually several treasures of civilization known as the first generation.

Many of the later civilization treasures were re-deduced and cast based on the prototypes of these first-generation civilization treasures.

However, there was nothing wrong with what the artifact spirit of the Book of Scavengers said.

Only the supreme civilization with a profound foundation was qualified to forge the treasure of civilization.

Gu Changge's current resources alone could not forge the treasure of civilization.

Things there were pretty much handled, Gu Changge actually intended to take away the treasure of civilization in Chu Lian's hands.

However, judging from the current situation, it seemed that the artifact spirit of the Book of Scavengers had plans to choose a new owner.

For Gu Changge, this could just save some trouble.

“It seems that Daoist Master Wang He, even if he got the book of scavenging, he didn’t fully get her approval.”

Gu Changge glanced at the ugly Wang He and said with a slight smile.

Wang He knew that Gu Changge probably knew his purpose and intention from the very beginning.

Just now, he made a deliberate move to erase the lines in front of him.

He didn’t hide it now, and snorted coldly, “This unfamiliar white-eyed wolf, thanks to my trust in her, actually framed me secretly.”

“However, Mr. Gu, don’t be fooled by this guy’s appearance. She can betray me today, and she can betray other masters in the future.”

“Besides, I wouldn’t have come here if I hadn’t been instigated by her.”

“Maybe Mr. Gu doesn’t know, but it’s this guy who has been urging me to deal with you. Originally, there was no enmity between you and me.”

Wang He couldn’t see Gu Changge’s strength clearly, but the method of erasing those formations just now really made him palpitate

This was definitely not something that could be done at the immortal level.

But in the territory of the Blue Heavenly Realm, how did Gu Changge exert power beyond the existence of ordinary Dao realms?

“If this guy hadn’t said that Mr. Gu, you have the energy substance that can restore the Book of Scavengers, how could I have taken such a dangerous move?”

Thinking of this, Wang He glanced at the artifact spirit of the Book of Scavengers with cold eyes and directly said the original words she had urged him to deal with Gu Changge.

All he wanted to do now was to distance himself from the artifact spirit of the Book of Scavengers, as much as possible.

“Oh, so it seems that Daoist Wang He is also a victim...” Gu Changge smiled noncommittally.

It was not at all surprising that Wang He would expose himself in such a way that Wang He would expose the spirit of the Book of Scavengers.

Her voice was light, and her tone seemed very indifferent, and said, “I am an artifact spirit, why do you use human values and emotions to restrain me? To help each other, it will take at least a few tens of epochs, maybe even longer, to grow to the overlord level of the immortal civilization.”

“Why should I go far away and recognize you as the master? This will only waste my time. Besides, I have also given you a chance. If you can kill Mr. Gu, it proves that you have the strength to be

recognized by me in the beginning, you didn't even have the guts, you are no different from trash..."

"What do you think is something about you that deserves my surrender and recognition?"

The tone of the artifact spirit of the Book of Scavengers did not fluctuate much, and it was calm as if explaining a trivial matter.

But because of these words, Wang He's face became more and more ugly.

He didn't expect that in the eyes of the artifact spirit of the Book of Scavengers, he would be so worthless, without any value.

Nearly belittled for nothing.

Moreover, the artifact spirit of the Book of Scavengers, even said that he wanted to kill Gu Changge in front of Gu Changge. From Wang He's point of view, it was simply reckless. how could it be said casually?

"You can't even pass a little test, and you want to become the master of the treasure of civilization, are you worthy? Besides playing tricks to fool people, what else can you do?"

Speaking of the latter, the artifact spirit, the Book of Scavengers, smiled indifferently, dismantling Wang He's plan to plot Mu Yan.

“You...” Wang He’s face was furious, and he wished to take action immediately to wipe this guy away.

If this kind of thing was said, he would know that today’s matter was impossible to be good.

When Mu Yan heard these words, she was so shocked that she was almost speechless.

Judging from the explanation of the artifact spirit of the Book of Scavengers, Wang He came into contact with herself because he used the Book of Scavengers to see how extraordinary she would be in the future, and wanted to take her as an apprentice or something.

What she said was old and friendly with her father was pure nonsense.

He also found out about these past experiences through the Book of Scavengers.

At this time, the Book of Scavengers shook violently, and a layer of radiance appeared, trying to break free from Wang He’s hands.

Wang He hastily made a move to suppress it, but he didn’t know if it was because the spirit of the Book of Scavengers was interfering. The current Book of Scavengers was not under his control at all.

Boom!!!

The green mountain trembled, the rocks rolled, and the book of scavenging sprayed out a chaotic mist, shaking the king crane, and then quietly suspended in midair.

There was no handwriting on the quaint pages, but it seemed to carry all the secrets between heaven and earth.

Chapter 1066: The Five Elemental God killing formation, and someone is watching them

The figure of Wang He was directly hit and flew out, causing the mountains to shake violently, and countless rocks rolled down.

If it wasn't for the special place, he would have to fly tens of millions of miles across at this moment.

He stabilized his figure, stood up, and unwillingly looked at the Book of Scavengers in mid-air.

It was only by relying on the Book of Scavengers that he was able to get to where he was today step by step from a small casual cultivator at the beginning, but now, the Book of Scavengers would also leave him.

“What doesn't belong to you, you can't get it by force.”

Gu Changge stood in front of the cave gate, calmly overlooking Wang He in the distance.

He shook his head slightly, stretched out his hand, and the Book of Scavengers suddenly turned into a stream of light and flew toward him.

“The artifact spirit of the Book of Scavengers would like to recognize Mr. Gu as the master. From now on, I will try my best to assist Mr. Gu, and will not have any second thoughts.” The artifact spirit of the Book of Scavengers, with a figure like fog, and a slightly respectful voice sounded at the same time.

Seeing this scene, Wang He’s eyes were flushed, and his teeth were clenched.

In front of him, Gu Changge stretched out his hand and took away the Book of Scavengers.

And the artifact spirit of the Book of Scavengers also “shamelessly” recognized him as the master.

This unprecedented anger and humiliation made Wang He mad with hatred, and his eyes were full of hatred and anger.

“You forced me to do this, even if it destroys the Blue Heavenly Realm, so what.”

“Five Elemental God Killing Formation.”

Wang He let out a low growl, and a sealed ancient sword pill suddenly appeared in his sleeve.

Without hesitation, he threw it toward Gu Changge and Mu Yan.

Buzz!!!

The misty sword glow spread far and wide, covering the sky and covering the earth, appearing from his side, as if turning into a boundless ocean, submerging the past.

At this moment, the entire green hill was filled with endless killing intent.

Every killing intent was solid and real, thick and boundless, bright and bright like the sun, like the real Dao of the sword.

All the formations that Wang He had arranged before came back to life in unison, assisting the sword pellet that Wang He sacrificed.

This was a terrifying sword pellet obtained by Wang He in the early years, which sealed the last sword intent of an ancient swordsman.

That ancient master of swordsmanship had unfathomable strength, and his sword intent could break the universe and cut the years.

From Wang He's point of view, at least it was also an existence that had survived four catastrophes.

This sword intent was then sacrificially refined by Wang He through various methods, and then he found some ancient methods of forming formations that were jointly trained by him as the main formation of the Five Elemental God Killing Formation.

The cooperation of the main formation and the auxiliary formation served as his life-saving means to suppress the bottom of the box.

Even in the face of the existence of the real Dao Realm, there was still a chance to resist.

Although the Blue Heavenly Realm was special, the power it could carry was limited, and it was currently being bombarded by external forces.

At this moment, Wang He's mind was full of madness, he just wanted to unite these two terrifying forces, destroy this place, and let Gu Changge and the Book of Scavengers be buried here together.

“Hehe, since that's the case, it's good for you to be buried here...”

Wang He let out a deep laugh, and hundreds of millions of boundless sword lights flooded the sky.

This green hill looked like a lonely boat, which might collapse at any time.

However, the moment when these sword lights were about to fall in front of Gu Changge, a vague glow appeared around him.

It was a starry sky, deep, vast, vast, and isolated from everything. At this moment, he seemed to be standing in another universe, overlooking Wang He.

The vast aura came overwhelmingly as if a large universe was being suppressed, but in front of Gu Changge, it collapsed in an instant.

The invisible radiance was like a paradise untouched by the world, which could isolate everything.

The artifact spirit of the Book of Scavengers saw this scene, her heart shook secretly, and she began to calculate again.

Although the process of her accepting Gu Changge as the master just now went smoothly, it didn't mean that the matter was over so simply.

Gu Changge's strength was even more terrifying than what she had guessed at the beginning.

The Blue Heavenly Realm could suppress all cultivators and living beings who entered this place, even existences such as Zhuo Fengxie and Hun Yuan Jun were no exception.

Because this was the world perfected by the original Eternal God, leaving his rules, unless he was of the same level, he would be suppressed and restrained.

However, Gu Changge couldn't be restrained in this piece of Blue Heavenly Realm, and it showed some signs of disorder and collapse at the moment.

When Gu Changge came there, the artifact spirit of the Book of Scavengers did not show up immediately. In fact, she wanted to test Gu Changge's strength.

What if her initial guess was wrong?

But judging from the current situation, her previous guesses and worries were completely unnecessary.

If she wanted to break free from the shackles of the Book of Scavengers and take revenge.

The only thing she could do now was rely on and rely on Gu Changge's strength.

Boom!!!

The unparalleled power bombarded and fell again, and hundreds of millions of sword lights blared together, each of which was like a falling star, which could easily destroy a star field.

In contrast, this steep green mountain was not at all eye-catching, and a ray of sword light was enough to smash it into pieces.

However, Gu Changge just stretched out his hand and pressed forward at will.

Immediately, in this piece of sky, endless yin and yang aura flowed, scrolling the stars, forming an incredible scene, and falling forward.

Including the entire Blue Heavenly Realm, it also trembled, which was far more terrifying than the fluctuations when it was bombarded by the outside world.

All the sword lights and sword shadows collapsed in an instant, and Wang He yelled, bearing the brunt of it, coughing up blood continuously, and his body was also broken in an instant.

The space around him was even more cracked, and the terrifying real regulations turned into a strong wind, tearing him apart, trying to wipe away his body and spirit.

He couldn't believe it, the secondary formation and the main formation turned into powder in an instant without even sustaining a breath.

It was impossible for such a powerful force to appear in the Blue Heavenly Realm.

Even existences like Zhuo Fengxie and Hun Yuan Jun couldn't do it!

Puff!!!

The blood mist that filled the sky exploded and was submerged in an instant, turning into dust.

Around these damaged spaces, the phantoms of the long river of time flashed by and evaporated in an instant, which showed the horror of this kind of power.

Mu Yan stood behind Gu Changge, her beautiful eyes widened, watching this scene in shock.

This was the first time she had seen Gu Changge take action in person, just a random blow had the power to sink the world and destroy the heavens.

If she hadn't seen it with her own eyes, she wouldn't have dared to imagine that the strength of Gu Changge standing beside her was so terrifying.

Outside the Blue Heavenly Realm, all cultivators and creatures clearly felt that the portal that spanned the entire sky was shaken violently.

Even Li Motian, who kept slashing his hands, was a little suspicious at this moment.

"This fluctuation came from the Blue Heavenly Realm, could it be that some unfathomable accident happened?"

Many powerhouses whose strength was not weaker than Li Motian's were paying close attention to this side, and they were also extremely shocked now.

Judging from the fluctuation of the collision and shock just now, some unexpected major events might have happened in the Blue Heavenly Realm.

"The force just now just helped me blast away the Blue Heavenly Realm."

Li Motian recovered, his eyes were cold, and he shot again in a low voice.

The Eternal Divine Sword was as bright as daylight, reflecting the dark universe, the bright sword light, and scrolling the galaxy, like pieces of galaxies hanging down, cutting down.

His strength was comparable to a Dao Realm existence who had survived three Heavenly Declines.

Under the full force, the long river of time was turbulent, countless fragments of the order of the Dao were flying around it, and the dharma body stood in the universe, mighty and overbearing, shocking the world.

In the Blue Heavenly Realm, many cultivators and creatures hadn't recovered from the earthquake just now, and they felt that the whole world was trembling again.

Bright cracks stretched across the sky, like a crystal mirror, about to explode and collapse.

They became terrified and frightened.

In front of the quaint cave, Mu Yan, who had recovered, was following Gu Changge, trying to open the two stone doors in front of her.

The entire mountain shook violently again, and the rocks rolled down as if a major earthquake had occurred. She almost lost her balance and fell to the ground.

The spirit of the Book of Scavengers had returned to the Book of Scavengers.

"This is someone from the outside world, trying to break through the portal of the Blue Heavenly Realm..." she said, feeling this wave several times.

"These guys are really bad guys."

Gu Changge said casually.

His face was dull, one couldn't see his emotions and anger clearly, he raised his head and glanced outside the sky, his eyes seemed to pass through the layers of time and space in the Blue Heavenly Realm, and landed on the outside world.

Boom!!!

Then, the stone door in front of him was pushed open by him, and many restrictions collapsed like mist, unable to affect him in the slightest.

Gu Changge walked in first.

“Wait for me...”

Mu Yan didn't feel anything and followed him briskly.

The Artifact of the Book of Scavengers couldn't help but shudder. Others couldn't feel it, but she could perceive it very clearly.

The moment Gu Changge looked beyond the Blue Heavenly Realm, she felt that her soul light was about to die out.

But at this moment, outside the Blue Heavenly Realm, Li Motian, who was making a move, suddenly had a feeling of chills all over his body, as if he was being targeted by some terrifying existence.

Many powerhouses in the distance also felt this way, and their scalps were about to explode.

At that moment just now, they seemed to see a pair of indifferent eyes.

Those eyes were terrifying as if opening up the world, causing the space to collapse, time to distort, and the heavens to return to death.

In that darkness, nothing could be seen.

Only those terrifying eyes, boundless in terror, indifferent, looking down at the heavens, stared at them.

Although it was only for a moment, it disappeared quickly, like a hallucination, but they were extremely sure that they would never be wrong just now.

In the Blue Heavenly Realm, there was an unimaginable and incredible existence, watching them just now.

Chapter 1067: The road to transcendence is inherently dangerous, are you going to use it to fish or cast a net?

“What was that... just now?”

Many powerhouses outside the Blue Heavenly Realm looked at each other with lingering fear.

Someone's voice was still trembling slightly.

Although that scene had dissipated, the creepy and chilly feeling was like a glow on their backs, making their backs still shiver.

It was even more difficult for them to forget the indifferent and terrifying eyes just now. Their soul light seemed to be extinguished along with time, space, and the universe.

The worlds withered, the ages died, and time and space were completely distorted and collapsed.

“What exactly is in the Blue Heavenly Realm, this is too frightening...”

When they came back to my senses, many powerhouses were whispered, their hearts were chilling, and they just wanted to leave this area and not get involved in this muddy water.

Leaning across the sky with his sword across the sky, Li Motian was extremely powerful and frightened the world.

But at this moment, he didn't dare to move anymore, and his whole body seemed a little stiff.

His face was still indifferent, and his Dharma body stood in the universe, as high as the sky and the earth.

But if you look closely, you will find that there seemed to be sweat on his forehead, and his face was also a little pale.

The rest of the people might have seen the scene just now, but they definitely didn't feel as deep and appropriate as him.

That horrible sense of oppression, like an unknown place, a terrifying creature slowly opened its eyes and began to gaze at the world, overlooking the vast and infinite creatures.

And the eyes just fell on him.

After many years of cultivation, it was the first time that Li Motian felt such a humble and frightening feeling.

Like a tiny bug, facing the real dragon in the nine heavens, trembling under the dragon's might.

He could hardly believe all of this. As the patriarch of the Eternal Protoss, he held the Eternal Divine Sword.

Even in the face of a character like Zhuo Fengxie, it was possible to resist.

In the entire immortal civilization, was there any existence that could make him feel timid and fearful?

“What is hidden in this Blue Heavenly Realm?”

Li Motian didn't dare to act rashly anymore, he felt that his actions, trying to blast away the Blue Heavenly Realm, offended and annoyed the unspeakable existence in it.

Before this, he never thought that there would be such great terror in the Blue Heavenly Realm.

The Eternal Divine Sword clattered, hundreds of millions of sword lights converged, and the entire universe returned to dead silence again.

Li Motian didn't choose to attack again but stood there as if thinking.

And many ancient existences who were watching this side quietly retracted their gazes, and then left quickly, unwilling to stir up this muddy water.

The scene just now was too shocking, and for a while, many people felt that the Blue Heavenly Realm would not be too simple.

Li Motian seemed to be standing still, but in fact, he should be in a dilemma.

After all, he came there forcefully, carrying the Eternal Sword, with the appearance of vowing not to give up until he splits the Blue Heavenly Realm.

The most powerful figures of many forces and ethnic groups were also watching, but now, wouldn't it be a bit embarrassing to retreat like this?

In this way, in the eyes of others, wouldn't he be scared away?

In a distant place, in the extraterrestrial battlefield of the Zhuo and Wu clans.

Although Zhu Fengxie, Hun Yuanjun, and others were fighting with beings of the same level, they also paid attention to the situation on the other side of the Blue Heavenly Realm.

“It seems that we don't need to worry about it anymore...”

“The patriarch of the Eternal Protoss, this move has obviously angered Mr. Gu.”

When the two were fighting with their opponents, they did not forget to look at each other, and they both saw heart palpitations in each other's eyes.

Boom!!!

In this place, the fighting was extremely fierce. In front of the two of them, the same level of people from the Wu and Gou clans were equally terrifying in strength, and their real bodies were uncertain.

One person was surrounded by thick fog, surrounded by fragments of order, while the other person was wrapped in shackles and wielding iron chains, as if dragging the heavens, with great force, destroying everything.

Zhuo Fengxie made a move and collided with the opponent, clanging, countless Dao patterns, the sky was broken, stars were shining, and they kept falling down.

This was a special area, where the extraterrestrial stars fell down, causing the river of time to surge, sweeping across the world, and countless shattered energy lights scattered everywhere.

If it weren't for the void outside the world, this piece of ground would have collapsed long ago.

Even so, the fighting there also affected the entire immortal civilization.

Cultivators of other levels fell down one after another like leeks and turned into fly ash. In the aftermath of the confrontation between Dao realms, even the immortal emperors would find it difficult to protect themselves.

A lot of time and space were directly cut away, and the strong men who hid in it died before they even had time to scream.

The big universes nearby were even more dilapidated, and they had long lost the aura of life.

...

In the Blue Heavenly Realm, Gu Changge had already taken out another eternal artifact from that cave.

This was an ancient book like a catalog, but the moment he touched it, it unfolded directly and turned into a picture scroll, surging with the aura of the Dao, vast and unpredictable.

The Eternal Divine Map, which carried a real ancient world inside, had the effect of sealing the town and trapping the enemy.

However, for Gu Changge today, it was not very useful, and he just accepted it casually.

In the cave, there were also some rare treasures, jade books, ancient scrolls, rare five elemental immortal gold, chaotic materials, and so on.

He asked Mu Yan to pick some by herself, and then took them all away with a shake of his hand.

Then, Gu Changge casually flipped through some books and essays left by the owner of this cave, the ancestor of the Eternal Protoss, the Eternal God.

This place was just a cave where the Eternal God would retreat when he occasionally enlightens and cultivate and not his dojo.

So these notebooks and essays were just some of his insights from time to time.

These perceptions, if seen by the people of later generations, would be extremely mysterious, extremely rare, and hard to find in the world.

However, Gu Changge just glanced casually and was not interested.

Most of these records were the deduction of the immortal substance and the creation substance. I want to understand why this substance was and why it could affect the cultivation and strength of the existence of the Dao Realm.

However, judging from the state of Eternal God at that time, he was only vaguely aware of the importance of these substances, and it took a long time to extract and condense some of them from illusory luck.

Luck meant change and nature also meant possibility.

In the eyes of the Eternal God, the process of cultivation was the process of constantly understanding changes and shaping possibilities.

Of course, in Gu Changge's view, this was only a rough explanation and understanding of Dao.

But being able to get to this point was enough to show that this Eternal God was extraordinary.

Judging from the records in these manuscripts, the Eternal God was an existence who had almost achieved supreme shattering, that was to say, he had gone through nine catastrophes and was about to shatter the door of transcendence.

The ninth decline of the Dao realm was actually the last great realm before transcendence.

After stepping on the Nine Tribulations, you could walk to the end of the road. At the end of the road, you could see the door of transcendence. After breaking the door of transcendence, you would achieve supreme transcendence.

To be precise, Supreme Transcendence had not yet achieved detachment and had not really established itself in that field.

It was just to blast open the door of that field and get a glimpse of the scene.

The Eternal God could only be regarded as an existence at the end of the road, and there was still a distance from the supreme transcendence.

As for why he fell, there was no record in these manuscripts. After all, when these were written, the Eternal God had not yet fallen.

Even if he could sense misfortunes and blessings in advance and know his own catastrophe, he still couldn't calculate when and what would cause him to fall.

However, when Gu Changge was flipping through these manuscripts, he made an unexpected discovery.

His eyes gradually became strange.

“The road to detachment is inherently dangerous, and there is no general outline and shortcut. It is an evil book, and it will only lead people to the road of no return...”

“I have to destroy it...”

“It cannot exist in the world.”

There were only a few words, but it was difficult to conceal the anxiety and uneasiness of the Eternal God at that time.

However, apart from this passage, there were no extra words, and the handwriting was also very scribbled as if he were struggling to write.

“The general outline of the path of transcendence? The Book of Evil?”

Gu Changge looked at the notebook in front of him, and the strangeness in his eyes became more and more intense.

He suddenly thought of something. When he met the spiritual royal family before, he felt that God's will once slashed all spirits.

So much so that when it came to heaven slaying, many cultivators were at a loss.

You must know that such a taboo title was disrespectful to the boundless world.

The memories of the heaven slayers were cut off abruptly from their minds.

At that time, Gu Changge had faintly noticed that there seemed to be an unspeakable existence, and he made some moves about it.

He began to try to use the remaining aura to deduce and reshape the scene at that time, the time was blurred, and the endless scene passed by his eyes.

However, when Gu Changge wanted to touch the original scene, he was unexpectedly blocked.

The blurry fog, blowing from nowhere, covered all the scenes in front of me.

The time and space there were broken and hazy, and many colorful mist surges, vaguely, as if there was a vague and hazy figure standing upright.

But if you look closely, you will find that there was nothing there, it was still a vast fog.

Gu Changge deduced this point, thought for a while, and chose to stop.

“The entire space-time is covered up, and everything involved in this object, once touched, will be perceived by it...”

“Even the extreme existence of the road has been affected.”

“Are you planning to use this to fish? Or cast a net?”

Gu Changge suddenly let out a light smile with an unknown meaning, and he had already guessed the handwriting of some existence.

If he hadn't come across this handbook by accident, he probably wouldn't know about it, and maybe he would suffer a small loss in this matter in the future.

At this moment, Mu Yan looked around quite seriously, and saw some vague handwriting on some tall ancient stones, as if someone had written them down by accident.

Every handwriting was blurred.

But the moment she looked at it, it turned into thousands of scenes.

It seemed that there was a stalwart figure sitting cross-legged in front of her, reciting the ancient scriptures there, expounding the essence of the Dao, explaining the truth of detachment, mysterious and mysterious.

Mu Yan's forehead shone brightly, and her cheekbones became somewhat transparent.

She felt that the flow of her blood had become much faster, and at the same time, many scenes appeared in her mind.

In the blood, strange runes flew out one after another, resonating with the scenes in front of him.

“Is it a bloodline passed down through countless epochs? The good fortune left by the existence of the end of the road saves me the time to guide her.”

Gu Changge glanced at it but was not surprised.

Mu Yan did have her opportunity there.

Chapter 1068: Making a Deal According to the Rules, the Situation Has Been Powerless

While Mu Yan was accepting the inheritance there, Gu Changge was not idle either.

He thought of something else, accepted all the letters and records around him, and walked out of the cave.

Buzz!!!

The Book of Scavengers, filled with chaotic mist, appeared in his palm.

The mist filled the air, and the spirit of the Book of Scavengers, as if knowing that he would tell her something, turned into green smoke and appeared in mid-air.

“Young Master Gu, do you have something to explain to me?”

The artifact spirit's voice was slightly respectful.

Compared to her indifference in front of Wang He, she was simply outrageously well-behaved at this moment.

Of course, this was also due to the change in mentality after witnessing Gu Changge's powerful strength.

"You're smarter than I thought." Gu Changge glanced at her and said casually.

It's not that this guy judged the situation, but that she was choosing a suitable "master" in a way that was almost a conspiracy.

She chose to say those words to Wang He on the way of the Book of Scavengers, because she wanted to use Wang He's to speculate on his strength.

If his strength did not meet his expectations, she might immediately turn against him and help Wang He.

This guy was not an artifact spirit, but rather a spirit trapped in the Book of Scavengers.

Gu Changge glanced at the artifact spirit of the Book of Scavengers. For some reason, it felt like all the secrets in her body had been seen through.

"I don't know why Mr. Gu said this, but I wish to assist Mr. Gu wholeheartedly from now on, without any second thoughts." She said, showing her loyalty.

Gu Changge smiled lightly, “The loyalty you show is useless to me, and I won’t trust anyone. Let’s follow the rules, make a deal between you and me, and after it’s done, I’ll help you get out of the Book of Scavengers, how about being unfettered from now on?”

The spirit of the Book of Scavengers was shocked when she heard the words, a little unbelievable.

She almost wondered if she had heard wrong.

How could it be? Did I hear him right?

What does Gu Changge mean by this?

How did he know her condition? She never mentioned these things before, how did he see it?

At this moment, the spirit of the Book of Scavengers was very shocked, and she couldn’t believe it, she just recognized Gu Changge as the master, and it was less than half a day ago.

How did he figure out that she was actually trapped inside the Book of Scavengers?

Gu Changge’s reaction to the spirit of the Book of Scavengers was not surprising at all.

If she was really an artifact spirit of the Book of Scavengers, how could she say something that wasted her time?

In itself, she and the Book of Scavengers were one, and the two depended on each other to coexist.

What's more, Gu Changge could clearly see that there were fluctuations in the seal pattern on her body, and the so-called Book of Scavengers was more like a cage responsible for imprisoning her.

“Young master Gu has great powers, which I admire. If what you say is true and can help me escape from the Book of Scavengers, no matter what the deal is, I can agree to it.”

Although the spirit of the Book of Scavengers was shocked, she quickly recovered and agreed directly without thinking about it for long.

Gu Changge's methods were unpredictable, and his strength was even more terrifying.

If she could get help from him and break free from the shackles and oppression of the Book of Scavengers, it wouldn't be a problem.

“Okay, I appreciate a direct person like you.”

Gu Changge smiled lightly, and said, “But before that, you may still need to stay inside the Book of Scavengers and continue to play the role of an artifact spirit.”

“As for what the transaction is, you will know later.”

“Of course, there is no problem.” The spirit of the Book of Scavengers said directly.

She had been sealed inside the Book of Scavengers for countless years, so she could afford to wait for this amount of time.

However, Gu Changge didn’t ask at all, why she was trapped by the seal still made her a little confused.

Logically speaking, shouldn’t Gu Changge ask about these things?

But he looked like he wasn’t interested at all.

Afterward, the spirit of the Book of Scavengers talked about the functions of the Book of Scavengers for Gu Changge.

Every treasure of civilization had a focus and difference, and its power was also different.

The biggest feature of the Book of Scavengers was that it could break the trajectory of life.

For example, the function that Wang He had been using before, to deduce his life, was actually a kind of life trajectory.

It’s just that the part he deduced was not complete.

The real trajectory of life was a certain period of time that could be chosen, not the general future.

Sometimes, the occurrence of some things outside the trajectory would affect the entire future direction.

And that kind of future life was actually inaccurate.

Wang He had never been in touch with these functions, and the spirit of the Book of Scavengers had never been told to him.

“Every time the Book of Scavengers is used, energy will be consumed, and this energy is actually luck...”

“The treasure of civilization can capture the power of luck in the dark and use it as energy, but the efficiency of letting it capture itself is far inferior to actively collecting it.”

Gu Changge quickly understood the function of this treasure of civilization.

Many adventures in the vast world were actually created through the deduction and creation of civilization treasures at the beginning.

At first glance, the function of the Book of Scavengers had many similarities with the golden fingers of many lucky children.

An ordinary person suddenly acquired the ability to break the trajectory of the future and the script of life. As long as he was not stupid, he could use this to make a fortune, soar to the sky, and reach the pinnacle of life.

Thinking of this, Gu Changge used the Book of Scavengers to deduce Mu Yan's life trajectory.

“Recent trajectory: In the Blue Heavenly Realm, I got the legacy of the ancestor of the eternal gods, so I broke through the cultivation of the Immortal King and realized the primordial vicissitudes...”

This kind of function, to the current Gu Changge, could only be said to be extremely tasteless.

As soon as he moves his mind, not to mention the future trajectory of a single living being, even the fate of the entire world and the entire universe would emerge in his eyes, in every detail.

Half a month later, Mu Yan, who successfully accepted the inheritance of the eternal ancestor's legacy, woke up.

Her cultivation, just as the trajectory showed, broke through to the realm of the Immortal King.

However, this was still far from the point where Gu Changge wanted to train her to be the future master of the immortal civilization.

When leaving the Blue Heavenly Realm, the star field outside was also calm, and the powerhouses of various races, including the Eternal Protoss, had already retreated.

At first, Mu Yan thought that after leaving the Blue Heavenly Realm, she might encounter a fierce battle.

After all, Li Yang and other members of the Eternal Protoss all died in the Blue Heavenly Realm and were killed by her.

Some time ago, the Blue Heavenly Realm was vibrating one after another. It was obvious that there was a strong presence in the outside world, and it was using means to try to blast that portal and destroy the Blue Heavenly Realm.

But why they stopped later, she didn't figure it out.

“My lord...”

And when Gu Changge and Mu Yan left the Blue Heavenly Realm.

In the distant universe, the Bone Ancestor and Ling Huang also rushed over with Mo Tong.

Gu Changge nodded slightly and glanced at Mo Tong.

This snow-like gray-haired girl, after being guided by the bone ancestor king, was like a sharpened and consecrated sword, finally showing her sharpness.

“Greetings young master.”

Although the emotion on her face didn't change much, she still respected Gu Changge who brought her out of the Ten Thousand Clans Arena.

"From now on, you will stay by Mu Yan's side." Gu Changge said.

Mo Tong glanced at Mu Yan at the side, not knowing what relationship she had with Gu Changge, so she nodded, "Yes, my lord."

Gu Changge and others returned to the Gufeng ancient city, watching the turbulent battle of the immortal civilization like outsiders.

The battle between the Zhuo, Hun, Wu, and Gou clans spread widely, and it could be said that it swept the entire immortal civilization.

The surrounding large universe, no one was spared, was implicated.

Those ethnic groups in the galaxy of life were trying to find a way to migrate and move away from the clan land during this time.

Even so, the aftermath of the war still turned many living universes around into ruins.

During the migration of these ethnic groups, they were affected, and many clansmen and warships were instantly engulfed by the flames of war.

Everywhere in the immortal civilization was now such a tragic scene.

Only those forces and ethnic groups with the most powerful background could still have some power to protect themselves.

With the cooperation of the Zhuo and Hun clans, the Gou clan was not an opponent at all. Since the war, there had been existences comparable to the Dao realm that had fallen.

As for the Wu Clan, they had been trying to find a way to delay the time for the Gou Clan.

Refusing to send real power to deal with it, it was only a few heavyweights in the clan who were working together to delay Zhuo Fengxie and others.

In various Dao realm battlefields, the Hun and Zhuo clans were in a state of overwhelming momentum, approaching the territory and base camp of the Gou clan.

Many of the vassal groups of the Gou clan were now constantly retreating, and some forces could only choose to surrender in order to save their lives.

Under such a crushing situation, the Wu Clan was still trying to find a way to let the Gou Clan delay the time and refuse to really help.

This had completely angered the Gou clan. Some of the tougher clan members couldn't stand the bad breath, and they were already discussing whether they should choose to surrender or not.

The Wu clan had obviously already thought of a way out, and they were using them as cannon fodder.

Especially now, there were tragic scenes everywhere. Some Daoist elders had suffered heavy injuries in the struggle against the enemy, so they could only escape to the depths of time and space, and return to take revenge later.

Dao realm's strength was unpredictable, and it was already difficult to kill it completely unless it was crushed by strength and the gap was very large.

The greater the number of elders who fled, the less power they could continue to contend with, and one would ebb and flow.

This situation was basically difficult to recover, and there was no way for a comeback.

Even later, several ancient existences of the Gou clan who were not as powerful as Zhou Fengxie were born one after another, but it was of no avail.

Zhuo Fengxie and Hun Yuan Jun teamed up, unless they met several people of the same level, no one could be their opponent.

But at this time, a powerful force suddenly came from outside the immortal civilization, which shocked all parties and became the last straw that overwhelmed the Gou clan.

Many elders of the Gou clan discussed and reached an agreement, intending to choose to surrender.

Chapter 1069: The Situation of the Immortal Civilization, the Culprit “Mr. Gu”

In the eyes of many cultivators and creatures, this unprecedented battle would last at least hundreds of years, or even longer.

At such a juncture, the Gou clan suddenly chose to surrender, which was indeed beyond everyone's expectations.

Many elders of the Wu Clan did not expect Gou Clan to be so decisive and chose to surrender cleanly.

They were very unwilling, and they hadn't delayed until the arrival of the Xi Yuan civilization's powerhouse.

However, the Gou clan was not stupid, they had already seen through their intentions, and that's why they surrendered so resolutely.

Of course, at this time, outside the immortal civilization, the powerful force that suddenly intervened also played a vital role.

No one expected that there was a terrifying force dormant outside the immortal civilization, which became the last straw that overwhelmed the Gou clan.

For a while, many clansmen and strong men of the Wu clan began to retreat towards the territory, planning to guard the clan land to death, waiting for the strong men of the Xi Yuan civilization to come and clear up the turmoil.

The Hun and Zhuo clans came to the territory of the Gou clan and began to take over the place. As for how to deal with the Gou clan, this was not what they needed to consider now.

Of course, there were still many members of the Gou clan who were unwilling to surrender and were desperately resisting.

However, their strength was limited after all, and it was impossible to have any influence and effect on the outcome of this war.

Outside the immortal civilization, a group of ancestors of the spiritual royal family led an army to come, mighty and mighty, covering many universes, with a mighty and amazing momentum.

The Hun and Zhuo clans had already been informed that there would be external forces to help them. When these forces converged, some affiliated forces of the Gou and Wu clans began to be liquidated.

Although the Gou clan surrendered, the bloody storm that swept through the immortal civilization showed no sign of stopping.

All ethnic groups and forces witnessed all this with their own eyes, and they were all horrified.

Before, no one thought that there was such a terrifying power dormant outside the immortal civilization.

Of course, you don't even need to think about it at this time. Anyone with a discerning eye knew that it was definitely related to that "Mr. Gu".

After he came to the immortal civilization, the Zhuo clan and the Hun clan began to approach gradually, and they joined forces to deal with the other two groups, causing huge turbulence in the situation of the immortal civilization.

Now, the arrival of this external force was most likely due to his handwriting.

This made many forces and ethnic groups feel uneasy, not knowing what kind of reshuffle would happen to the situation of the immortal civilization.

Of course, many forces also felt that the Zhuo clan and Hun clan would definitely find a way to unify the immortal civilization and hold the power in their hands.

For so many years, the four ethnic groups stood together, and the forces of various ethnic groups were intertwined.

The immortal civilization had always been in a situation where all parties were separated and monopolized one territory.

Although the Zhuo and Hun clans are powerful, they were definitely not to the point where one family dominated and covered the sky with one hand.

But looking at it now, if these two clans work for that “Master Gu”, they would definitely find a way to integrate all the power of the immortal civilization in the end.

At that time, could the various races and forces still be independent and unaffected as they were now?

The Gou clan in front of them could be said to be the best example.

That “Mr. Gu” single-handedly dominated all of this, causing great turmoil in the immortal civilization, causing the universe to be devastated, and countless cultivators and creatures, all of which disappeared into thin air. It was not an exaggeration to describe it as the culprit.

But he never showed his figure in front of the world from the beginning to the end.

This made many ethnic group forces secretly jealous and fearful.

Those who had seen Gu Changge’s true face at the welcome banquet of the Zhuo clan back then were even more difficult to connect that handsome and innocent young man in white with the culprit who caused all this.

The owner of the Ten Thousand Clans Arena, Hong Gui had already learned about Wang He’s death, and her heart trembled.

She could control the arena of ten thousand races, and thrive in the Gufeng ancient city, so she was naturally not a simple person.

A lot of things happened during this period, and when she contacted them some time ago, Gu Changge inquired about Wang He’s origin, which made her dare not think about it.

Of course, Wang He was nothing more than an insignificant person to the huge immortal civilization.

Even if he fell, it won't be able to stir up any ripples.

And at this moment, in the Gufeng Ancient City.

Many elders of the Gou clan whose cultivation bases were comparable to the Dao realm, as well as the contemporary patriarchs, whose cultivation bases were sealed, came to see Gu Changge in person under the escort of Zhuo Fengxie and Hun Yuan Jun.

What would happen to the fate of their family was in Gu Changge's decision.

This was something that had long been doomed.

Zhuo Fengxie and Hun Yuanjun were accompanied by many elders of the Zhuo and Hun clans. In this battle, they made a great reputation and shocked the world.

The existence of their series had already stood at a level that ordinary people couldn't even imagine.

It was unprecedented for so many people to be born and fight together. In other civilizations, it was absolutely unimaginable power.

In Gu Changge's eyes, whether it was the Zhuo clan or the Hun clan, even the Gou clan that had just surrendered, they were all his "family property" in the future.

The existence of the Dao Realm was naturally the mainstay. If you could subdue it, you would never kill it.

Therefore, his attitude toward the elders of the Gou clan was still very gentle, and he did not embarrass them.

Then, they were also given a chance, as long as they do things for him, after a hundred thousand years, they would be allowed to be free.

This result shocked all the elders of the Gou clan, including the current patriarch, and it was completely different from what they expected before they came.

On the contrary, it was Zhuo Fengxie and Hun Yuanjun who had expected this, but there were still things they couldn't figure out.

What exactly was Gu Changge trying to do to subdue all races of the immortal civilization?

Was it true to unify the immortal civilization?

Or was it used for something else?

Are you going to let them do other things?

They could also see that Gu Changge was giving them “preferential treatment” as much as possible.

As long as they submit obediently and made a great oath, he would basically not make things difficult for them.

However, they were not stupid to exist for such a long time.

Although the so-called 100,000-year deadline sounded fast, it was only a blink of an eye, but did Gu Changge look like an idiot?

This was obviously to restrict them, in order to prevent them from having two minds during this period, which would only increase trouble.

These one hundred thousand years would probably not be so easy to survive.

Moreover, compared to these, they wanted to know more about Gu Changge’s origin.

A “lunatic” like Bone Ancestor didn’t pay attention to any living beings, but in front of Gu Changge, he was honest and respectful.

The extremely powerful force other than the immortal civilization obviously came from an ancient civilization. Although the background was not as good as the immortal civilization, it must not be underestimated. Now it was also working for Gu Changge.

However, they could only hide these questions deep in their hearts, and dare not ask more.

The surrender of the Gou clan went much smoother than everyone imagined, and it could be said that there were almost no clan members who resisted.

The elders and members of the Gou clan originally thought that they would suffer some humiliation and unfair treatment.

But soon after learning that the Hun and Zhuo clan were actually the same as them, they needed to “sell their lives” for Gu Changge for 100,000 years, without any special treatment, and many people suddenly felt balanced in their hearts.

After all, it was only a hundred thousand years. For them, retreat usually took a million years to start.

What was this?

And the fact that the Gou clan surrendered to Gu Changge soon caused a huge sensation in all parts of the immortal civilization.

Many people were still speculating before, thinking that Gu Changge had promised many benefits to the Zhuo and Hun clans, which made the two tribes unite together.

But now that the situation was gradually becoming clear, no one would have thought that the Zhuo and Hun clans had already surrendered to Gu Changge in secret.

It was because of Gu Changge's order that the Zhuo and Hun clans took the opportunity to attack the Wu and Gou clans.

This matter immediately caused a monstrous wave, and many powerful existences were shocked and felt unbelievable.

What kind of ability did Gu Changge rely on to make forces such as the Zhuo and Hun clan willing to serve him?

Countless cultivators and creatures were puzzled and wondered whether Gu Changge had some origin, that he came here on behalf of a certain powerful civilization.

However, one must know that behind the immortal civilization, there was also a supreme civilization standing there.

Did Gu Changge's actions also mean provoking Xi Yuan civilization?

After Xi Yuan civilization knew all this, how could it sit idly by?

It was for this reason that the Wu Clan recalled many clansmen, and after defending the clan land, they publicized it, saying that Xi Yuan civilization already knew about this and that the envoy was on his way to lead the army. The turmoil in the spiritual civilization would subside.

At the same time, the Wu clan also persuaded other ethnic groups to join forces with them to fight against Gu Changge.

After the arrival of the envoy of the Xi Yuan Civilization, everything would be wiped out and the traitors would be wiped out.

All the factions that joined forces with the Wu clan would receive rewards from the Xi Yuan civilization at that time.

As soon as this news came out, it also caused an uproar in the immortal civilization.

Many ethnic groups had begun to move their hearts.

After all, the Xi Yuan civilization had accumulated power for a long time. This was a truly powerful civilization, and its background could only be described as unimaginable and incredible.

As strong as the immortal civilization, it could only be attached to the Xiyuan civilization. In each era, the powerhouses were sent to pay tribute, like a courtier meeting the king.

Of course, there were lessons learned from the Gou clan, and many ethnic groups also held a wait-and-see attitude toward this.

They felt that the Gou clan would lose so quickly, to a large extent, they were tricked by the Wu clan and used as cannon fodder to delay time.

The Wu Clan only informed of this at this moment, and it was obvious that they wanted to draw in the rest of the Clans as cannon fodder to delay their time.

“The Wu clan has always been vicious, so it is impossible to be so kind...”

“However, if we don’t help the Wu clan, will Xi Yuan Civilization treat us as an accomplice and liquidate them together?”

Many ethnic group forces had begun to think carefully, analyzing the pros and cons, and constantly considering.

And the Hun and Zhuo clans didn’t stop fighting, they had been sending large armies to attack and kill the frontier workers of the Wu clan.

Chapter 1070: You are really confident, there is no need for a neutral tone

Taking advantage of this opportunity, Gu Changge took Mu Yan to the Eternal Protoss, intending to take away the Eternal Divine Sword.

The Eternal Protoss immediately felt as if they were facing a formidable enemy, and many elder-level figures, vigilant and trembling, all showed up and rushed over.

Many clansmen watched from a distance, equally astonished.

They didn’t expect to see Mu Yan, who was expelled from the group by them back then, coming to the door again in this way.

Many members of the Eternal Protoss felt that Mu Yan was elated after being respected by Gu Changge.

That's why she came back on purpose, wanting to avenge her shame and return all the humiliation she had suffered in the Eternal Protoss to them.

Thinking of this, many clansmen's faces became more and more ugly, and they felt extremely humiliated, but they didn't dare to attack, so they could only endure it forcefully.

The "bastard" that they all looked down upon before, had transformed into a character that no one dared to provoke in the immortal civilization by following Gu Changge's side.

Everything that was almost dreamlike almost happened, and it appeared before their eyes.

Mu Yan looked at those familiar faces, but she acted calmly and indifferently, without any hatred or concern.

After she personally killed Li Yang and the others in the Blue Heavenly Realm, she let go of the past.

In Gu Changge's words, she had cut off the past and lived out her own second life.

The Eternal Protoss people in front of her belonged to her past memories.

It had already been cut off, and there was no connection or relationship with her.

Mu Yan followed Gu Changge to the Eternal Protoss. In fact, she wanted to return to the courtyard where she used to live and take another look.

And she personally told Li Motian and others that Li Yang was killed by her own hands.

Li Motian, who had just experienced the pain of bereavement, came back from the Blue Heavenly Realm in “disappointment”.

Although this matter seemed a bit embarrassing, it was normal for the many powerhouses who witnessed the shocking and horrifying scene at that time, and there was nothing embarrassing about it.

He also did not elaborate on the scene at that time with the clansmen.

It's just that Gu Changge's sudden arrival still made Li Motian and the others, a little unclear and secretly vigilant.

Although the Eternal Protoss was ancient and profound, it was still inferior to the forces of the Zhuo clan.

If Gu Changge took action against the Eternal Protoss, they would most likely follow in the footsteps of the Gou Clan.

Li Motian glanced at Mu Yan and a trace of pain and hatred flashed in his eyes.

Mu Yan's eyebrows were somewhat similar to the previous Eternal Saintess.

This inevitably made him think of the painful past that he couldn't love, but in front of a group of people, he had to show generosity and didn't care, otherwise, he would have thought many times, take that little girl back then, directly strangle.

"I killed Li Yang."

Mu Yan knew that Li Motian hated her.

Li Yang would hate her, which was largely influenced by Li Motian.

But at this moment, she opened her red lips lightly, looked at Li Motian calmly, and said this very calmly.

After accepting part of the legacy of the Eternal God in the territory of the Blue Heavenly Realm.

Her state of mind was more or less affected.

In the past, when facing Li Motian, she would only dodge his eyes weakly, unlike now, she could face Li Motian calmly.

"You..."

Li Motian didn't expect that Mu Yan would dare to speak to him like this, a hint of anger appeared on his indifferent and calm face.

However, on such occasions, he still forcibly endured it, and glanced at Mu Yan indifferently.

The rest of the elders were shocked.

No one expected that Mu Yan would suddenly speak like this, admitting that Li Yang was killed by her own hands.

“I have already done my best for Li Yang. Since he wants to kill me, he must be prepared to be killed by me.”

“But Li Motian, if you don’t kill me now, you won’t have a chance in the future.” Mu Yan said calmly.

When she was young, she had sensed Li Motian’s malice toward her many times.

There were several dangers, but she relied on luck to avoid them cleverly.

Due to his status and face, Li Motian said that he would protect her and her mother’s safety, but in fact, he always wanted her to die.

Today’s words were also what Gu Changge told her before, asking her to cut off the demons of the past.

After thinking about it, Mu Yan felt that this demon should be based on her childhood fear of Li Motian.

“Very well, Mu Yan, I underestimated you, do you really think that you have found a backer, so you have nothing to fear?”

Li Motian’s face was ugly, gloomy like water.

In front of all the clansmen, Mu Yan’s words made him feel ashamed.

“I did say this out of fearlessness.”

Mu Yan suddenly smiled, her face bright and brilliant, “I also suddenly realized that the Li Motian who threatened me back then was nothing more than that.”

What she said was a bit of a villain’s success.

However, many Eternal Protoss members including Li Motian had ugly faces, but it was difficult to refute anything.

This was how the world worked.

Especially for a beautiful woman, once she was with the right person, no matter how humble her past status and strength were, she could undergo earth-shaking changes in an instant.

In the ancestral hall of the Eternal Protoss, the atmosphere was still heavy and oppressive.

Everyone was on alert, looking at the man in white who was detached and refined in front of them.

If they hadn't seen it with their own eyes, who would be able to connect this perfect person like a banished immortal with the culprit who caused the chaos of the immortal civilization?

Some female clansmen were secretly surprised that the appearance of the eternal gods was quite similar to that of the human race, and their aesthetics were also similar.

In their eyes, this was a man with a more perfect face than a woman.

And he just stood there quietly without speaking, but it made everyone breathless as if there was an invisible and terrifying mountain pressing down on their heads.

"I wonder why Mr. Gu came to our Eternal Protoss?"

Finally, in the ancestral hall, an elder couldn't hold back and asked first.

"I'm here on this trip, and I have two things to do. One is to persuade everyone to submit to me, and the other is to borrow the Eternal Divine Sword of the Eternal Protoss."

Gu Changge finally spoke, and he smiled slightly as if he was talking about two insignificant things.

But these words made all the clansmen of the Eternal Protoss in the ancestral hall change drastically.

Many people were almost outraged, almost unable to restrain themselves.

He showed up in person in the ancestral hall of the Eternal Protoss, and in front of many of their clansmen, said something to make them surrender.

Moreover, was he planning to borrow the Eternal Divine Sword?

How arrogant and powerful this was that even the Eternal Protoss was not taken seriously.

“Young Master Gu, are you serious?”

The elder who asked the question just now had an ugly expression on his face, apparently trying to suppress his anger.

“Do you think I seem to be joking with you?”

Gu Changge glanced at him and smiled lightly

Just now, Li Motian had been suppressing his anger, because of Gu Changge's words, he was already on the verge of fury.

But when he saw Gu Changge's gaze sweeping toward him, he was shocked.

The feeling of being terrified, cold all over, and the soul's light was going to die when he was outside the Blue Heavenly Realm came back again.

He shivered suddenly, his expression became a little horrified and unbelievable.

Could it be that the terrifying existence that was watching all of them at that time was Gu Changge in front of him?

He was also in the Blue Heavenly Realm at that time?

"Could this be the reason why the Zhuo and Hun clan surrendered to him? Isn't it because of some origin and background?"

Li Motian suddenly figured out the key to everything at this moment, and he was even more frightened when he thought about it carefully.

"Young Master Gu, since you want to borrow the Eternal Divine Sword, there is naturally no problem..."

He took a deep breath and spoke.

The expressions of the elders on the side changed, and they were about to speak, but they were interrupted by him waving,

“However, can you give us some time to consider the matter of letting our family submit to Mr. Gu?”

As soon as these words came out, the complexions of all the Eternal Protoss people there changed.

Many people looked at Li Motian in disbelief, not understanding why he suddenly agreed, and also agreed to lend the Eternal Divine Sword.

You must know that this was the last eternal artifact of the eternal protoss.

This so-called borrowing, but when it would be repaid, had become unknown.

Faced with the shocked and puzzled expressions of the crowd, Li Motian didn't explain much but just looked at Gu Changge, as if waiting for a definite answer from him.

The Eternal Divine Sword must be borrowed. There was no room for it. As for why he intended to consider it, he actually wanted to test Gu Changge's tone.

Gu Changge's reaction to Li Motian was not surprising.

Regardless of the reasons and considerations, the Eternal Protoss had no other choice.

“Okay, I'll give you half a month to think about it, and after half a month, give me an accurate answer.”

Gu Changge didn't want his image of walking outside to become too domineering, so he agreed to Li Motian's request.

Otherwise, he could force the Eternal Protoss to make a choice now.

It's just that it was not conducive for him to create a “positive” image and to subdue the remaining forces and groups of the immortal civilization.

Soon, Gu Changge took away the Eternal Divine Sword and left the Eternal Protoss.

Li Motian was full of helplessness and bitterness. Facing the puzzlement of the crowd, he had no choice but to explain.

He did this for the consideration of the Eternal Protoss.

The most underestimated of all the forces in the immortal civilization was actually the strength of this Gu Changge.

After learning all this, all the elders of the Eternal Protoss were speechless for a long time, and the shock in their hearts was no less than that of Li Motian.

And the news there, without any surprise, spread to all races and forces in the first place.

At the same time, Gu Changge asked the Zhuo Clan to pass on the message, and the other clans could follow the example of the Eternal Protoss and give them half a month to think about it before making a choice.

He didn't need the immortal civilization to have a neutral tone.

During this period, there were forces protesting and dissatisfied with this, so Gu Changge asked Hun Yuan Jun to take people to wipe it out directly, leaving no room for them to regret it.

He gave them the right to choose, but that didn't mean they could refuse.
