Chapter 1091: Turning Decay into Miracle, Will Use Everything To Protect The Lord of The Heaven Slaying Alliance

In Chen Jinhan's ears, the majestic and vast voice that was almost like a god and demon echoed.

She only felt that she had almost infinite power all over her body.

The broken spine, hand bones, and metacarpal bones kept shaking, like a reshaped dragon body, making crackling sounds like cracks.

The dead aura, miasma, and poisonous aura that devoured and tortured her were all transformed into pure abilities, which swam through her limbs and bones, and then immersed in the spiritual sea in her abdomen.

These forces were floating up and down and heavy, like chaotic air separated from turbidity.

At the same time, she felt itchy on her face.

Moreover, the rotten and blue skin on the arm was constantly falling off, and then growing out at a speed visible to the naked eye.

The newborn skin was white and delicate, and it could be broken by blowing a bomb, with a flawless luster like jade, beautiful and moving.

“I recovered...”

Chen Jinhan’s voice trembled slightly, and she stretched out her hand in surprise, touching her face.

Pieces of gauze wrapped around her face were also falling off at this moment, and the skin underneath was flawless and delicate, shining with luster.

This new skin was far more delicate and moving than her previous skin, and it was not an exaggeration to describe it as a saint.

She couldn’t care less about the powerful power filling her body now, she was full of surprises, and her palms trembled slightly as they touched her face.

Her broken hand bones and finger bones had already recovered before she knew it.

She could already stand up like a normal person, move freely, and no longer had any injuries.

“What a divine power...”

Chen Jinhan’s eyes were filled with the surprise and trembling of witnessing a miracle, and she kept watching the changes in herself.

She had already disregarded the gauze wrapped around her body when she stood up, and a large piece fell off.

The flawless and white perfect carcass was revealed in the temple like a white swan.

The brilliant silver light, like the stars all over the sky, lingers in the void, appearing sacred and solemn.

“Thank you, Lord, for giving me all this.”

Chen Jinhan had recovered from the surprise, and without hesitation knelt down devoutly again.

Who would dare to believe this almost miraculous power?

But now it really happened and appeared on her body.

She turned from decaying to magical.

Moreover, she did not forget that what the lord of the Heaven Slaying Alliance said just now and gave her an immortal body.

Did it mean that from now on, she would not die?

Chen Jinhan, who originally had some doubts and disbelief about such words, no longer had any doubts.

At this moment, she was the most devout believer of the Lord of the Heaven Slaying Alliance.

Even Tong Popo, who was in charge of all matters in the temple, was far less pious than her.

“I can give you everything, and I can take it back at any time.”

“From now on, you will no longer be you. You are the most pious guardian of the Heaven Slaying Alliance. You will use your life to maintain and guard the majesty of the Heaven Slaying Alliance. I give you the title of Heaven-Slaying Guardian.”

The majestic and vast voice seemed to come from the infinite and distant universe.

“Yes, I will use everything I have to protect the majesty of the Heaven Slaying Alliance.”

Chen Jinhan replied devoutly without hesitation.

She knelt down on the ground and kowtowed continuously. The moment she raised her head, she could see the vague figure standing in the light giving her a name.

Every sentence seemed to contain supreme meaning, causing the sky to vibrate and the entire universe to tremble.

Buzz!!!

The silver glow that filled the sky came and disappeared quickly.

On the blurred statue of an unknown face, the dead silence was restored again.

The temple suddenly became quiet, only a few long-burning candles flickered with not-so-bright flames.

“I don’t know, do I have a day when I can see the true face of the leader?”

Chen Jinhan still kowtowed and knelt on the ground.

It wasn’t until a long time later that she slowly got up, and the silver moonlight outside the temple window fell, making her flawless skin seem to be covered with a layer of frost and snow.

“Ha ha ha ha.....”

“What a turn of events, my good sister, you can imagine that I still have such a day.”

“Just wait at the Qingling sect, I will come soon and let you taste everything I have experienced.”

She suddenly raised her head and laughed wantonly without caring, the laughter mixed with tears.

This laughter contained endless resentment and killing intent.

At the same time, there was endless anger and the pleasure of revenge.

Even Chen Jinhan herself didn't expect that she could really get a response from the omnipotent lord of the Heaven Slaying Alliance, and possess the immortal body bestowed by him.

Although with her current strength, it might be a little difficult to take revenge.

But don't forget.

She had an immortal body. Every time she was killed, she could be resurrected, and she would be far stronger than before.

On Chen Jinhan's beautiful face under the veil, the smile was cold and creepy but also had a different kind of morbid and distorted beauty.

In the early morning of the next day, everyone, including Grandma Tong, was shocked.

No one expected that the woman whose whole body was wrapped in gauze, half of her feet had been buried in the soil, exuding a rotten smell, would be reborn overnight, as beautiful as the Nine Heavens' saint came into the world.

Her long seaweed-like hair was soft and shiny, with crystal-clear hair.

The face was flawless and delicate, like a finely carved work of art, and the skin was immortal.

Everyone was exclaiming as if it was the omnipotent leader of the Heaven Slaying Alliance who had manifested his sanctity, and they all knelt down and kowtowed devoutly in the temple.

During this time, everyone saw Chen Jinhan's devout prostration.

She could have such a miraculous change today, who else could do it except the omnipotent lord of the Heaven Slaying Alliance?

Chen Jinhan did not continue to stay in this small mountain village. She thanked Granny Tong for taking care of her during this time and planned to repay her for her kindness during this time when she had the opportunity in the future.

However, Granny Tong still shook her head with a smile, telling her that if she wanted to thank him, then she should thank the lord of the Heaven Slaying Alliance.

Chen Jinhan nodded silently.

She returned to the Qingling sect again, and when the disciple who had disappeared for more than half a year reappeared, the Qingling sect was shocked.

Moreover, Chen Jinhan had a special status and possesses the legendary Wugou Immortal Physique. As long as she did not fall in the future, she would definitely bear the destiny and lead the Qingling sect to glory.

During the period of her disappearance, many disciples were worried, thinking that something might happen to her, and she was secretly murdered by the hostile forces of the Qingling sect.

After all, the current Qingling sect was in full swing, and the rise of two peerless geniuses had made many sect forces around them feel great pressure.

The return of Chen Jinhan shocked the Qingling sect, and many disciples were delighted.

However, some elders' eyes were dark, and their hearts were shaken, which was hard to believe.

How did a dead person reappear in front of them?

Although Chen Jinshuang didn't say much about her younger sister's whereabouts, some elders could vaguely guess it.

They sighed in their hearts, so what if they knew? Would they blame Chen Jinshuang?

Chen Jinshuang's current momentum was too terrifying and even they had to avoid her for the time being.

They also didn't know how Chen Jinshuang cultivated, and her strength had far surpassed these elders.

You know, this was still in the Dharma-ending era.

If it was in ancient times when the laws of heaven and earth were complete and the aura was extremely strong, Chen Jinshuang's cultivation speed would be terrifying.

If the Qingling sect wanted to rise, it must rely on Chen Jinshuang.

Even the Sovereign and the Supreme Elder acquiesced in this matter.

They didn't know that Chen Jinhan had some kind of adventure to survive.

But if she wanted the sect to uphold justice for her, it probably won't work.

Chapter 1092: The Armor Corresponding to the Eight Desolation Demon Halberd, Liuhe Tianyuan

"My dear sister, I'm back again."

Standing again in the sect where he had lived for more than ten years, Chen Jinhan's beautiful and moving face had a clear and glamorous smile, but also a trembling chill.

All the disciples who were very close to her couldn't help shivering, as if they were approaching a piece of ice.

Although the current Chen Jinhan was more beautiful than before, she gave people a feeling that she didn't seem like a living person.

Deep in the back mountain of the Qingling sect, in a certain cave, Chen Jinshuang, who was cultivating with a veil and her eyes closed, seemed to sense something at this moment.

She opened her eyes, a look of disbelief flashed across her face, and her brows furrowed tightly.

“How can it be...”

“I obviously threw this disgusting guy into the Abyss of Thousand Souls, how did she survive?”

Chen Jinshuang's complexion was uncertain.

However, after she snatched Chen Jinhan's talent, her cultivation improved even faster, which was no longer what it used to be.

Even the elders of the Qingling Sect might not necessarily be her opponents.

Thinking of this, she regained her composure, her complexion calm.

In the half a year since Chen Jinhan disappeared, she had already shown her true face in front of her disciples and elders. Of course, what she showed was the face that originally belonged to Chen Jinhan.

So far, the previous rumors about her ugly appearance were self-defeating.

Her name was Chen Jinshuang, and her younger sister's name was Chen Jinhan. They were twin sisters and they looked almost identical.

But because of their different talents since childhood, they cultivated under different elders. Recently, the younger sister Chen Jinhan awakened the Wugou Immortal Physique, and the two planned to reveal their identities in the Qingling Sect.

But she never thought that her sister would suddenly disappear without a trace, suspected of being murdered.

Regarding Chen Jinshuang's remarks, no one in the Qingling Sect doubted it.

Only a few elders who knew the birthmark on her face back then vaguely guessed something.

Afterward, Chen Jinshuang went out many times on the grounds of looking for her sister's whereabouts. She looked worried and anxious about this, and even those elders couldn't help wondering whether they had guessed wrong.

"Even if you survived the catastrophe and returned to the Qingling sect, so what?"

"Now that the Qingling sect is gone, no one dares to oppose me."

A sneer appeared on the corner of Chen Jinshuang's mouth, and her figure disappeared into the cave.

When it reappeared, it was already in the main hall outside.

"Elder sister....."

"I haven't seen you in a few months, I don't know how you've been doing recently?"

And standing in the middle of the hall, the peerless and independent Chen Jinhan, who was far more beautiful than before, had a slight smile on her face when she saw her coming, and greeted her in a decent and generous manner.

Chen Jinshuang, who had already prepared to turn against Chen Jinhan and make a move, did not expect this scene at all and was stunned.

"I haven't seen you for several months, but my sister has been missing me very much." Chen Jinhan said with a smile.

Seeing her smile, Chen Jinshuang suddenly felt a chill down her back for some reason.

This was by no means the little white rabbit-like little sister she knew.

...

Immortal civilization, Gu Changge withdrew his gaze and smiled lightly.

That ray of faith was far more crystal clear and tenacious than before.

If it was as thick as a thumb before, it was now the size of an adult's arm.

Of course, what he cared about was not the power of faith.

After all, the power of faith of hundreds of millions of souls and cultivators from all over the world was so vast.

No matter how pious a person's faith was, it was still insignificant and incomparable in the face of all the power of faith in this vast sea of smoke.

The reason why he noticed this woman named Chen Jinhan was actually an accident.

Gu Changge accidentally heard her voice and accidentally cut off her reborn golden finger.

If he didn't interfere, the normal plot would be that Chen Jinhan would die after falling into the Abyss of Thousand Souls.

And that wisp of emptiness, the aura of destiny, unexpectedly fell from the long river of time to the era when she died, causing her to be reborn back to the past.

The next normal script was that the little white rabbit transformed into a completely blackened person and became a fierce lone wolf, making her sister who killed her in the previous life pay a heavy price.

After all, Chen Jinhan took the script of Daughter of Destiny.

Gu Changge only contributed to the flames secretly but did not forcibly interfere with her trajectory development.

As for the world called Kunxu Realm, it would take at least thousands of epochs, or even longer, to evolve and develop to a level comparable to the immortal civilization.

Gu Changge just ordered people to spread and sow the seeds of the Heaven Slaying Alliance, and he didn't intend to waste any extra effort.

Chen Jinhan's appearance was unexpected.

As for Heaven Slaying Alliance, it could be regarded as a pawn in Gu Changge's arrangement, but now it was a little earlier.

As for the next step, how Chen Jinhan would avenge her sister in the Kunxu Realm was no longer Gu Changge's concern.

Since the existence of the Heaven Slaying Alliance began to spread among some real worlds and ethnic groups around.

Now Gu Changge was also facing another problem, which was the response to the power of faith.

He naturally did not have the time and energy to answer this so-called pious prayer.

However, if the problem in this area was not resolved, it would affect his subsequent layout.

Whether the power of faith was pure piety or not depended on the response.

Regarding these matters, Gu Changge planned to re-sacrifice the ball of ambitions and bring it back to the Daochang Realm, and hand it over to Jiang Chuchu.

As the holy maiden of the Human Ancestor Hall, she condensed the power of faith to cultivate, and she also had experience in responding to the prayers of all living beings.

In addition, after the ball of ambitions was refined by Gu Changge, it could also store and condense the pure and vast power of faith and luck.

This was far more useful than the Golden Luck Cauldron he left in the Human Ancestor Hall before.

Naturally, the luck of the Heaven Slaying Alliance was not comparable to that of the Human Ancestor Hall.

The power of faith that a single believer in the newborn real world could provide was enough for Gu Changge to cultivate several immortal dharma bodies of faith.

The immortal body of faith he refined was naturally not the Dharma body.

As long as the faith persisted, the faith in the immortal dharma body could not disappear.

As long as there were enough believers within the territory of the Heaven Slaying Alliance, then those who believed in the Immortal Dharma Body could achieve true immortality.

Next, there would definitely be great turmoil in the boundless world. After the reputation of the Heaven Slaying Alliance was heard, it would definitely alert the rest of the powerful real world.

The existence of the Daochang Realm would inevitably appear in the vision of all parties, and it was inevitable that there would be forces who would regard it as the base camp of the Heaven Slaying Alliance and try to destroy it.

It's as clear as when Gu Changge searched for the headquarters of hell and Buddha in the upper world and then eliminated the troubles forever.

And with the immortal body of faith sitting in it, even if the multi-party supreme civilizations joined forces to attack, they could still resist for a period of time.

Of course, Gu Changge didn't believe it, some people dared to take such a risk.

Everything in the immortal civilization was developing in an orderly manner according to his plan.

As for the sacred materials for refining the Ball of Ambitions, he still had to wait for news from Luo Xiang.

Treasures such as the Ball of Ambitions and the Book of Scavengers were not actually the treasures of civilization in the first generation.

The treasure of the first generation of civilization was cast in an even older period when many existences at the end of the road were obtained from the blueprints that flowed from the real place.

That blueprint had not been handed down, because it had been destroyed long ago, and the civilization treasures behind were actually cast in imitation of the civilization treasures of the first generation.

And like the Eight Desolation Demon Halberd, its origin was even longer than the first generation of civilization treasures.

Corresponding to it, there was actually another armor called Tianyuan, whose full name should actually be called Liuhe Tianyuan.

Chapter 1093: I'll Take You to Find Your Old Buddies, only to make people willingly

Liuhe Tianyuan and the Eight Desolation Demon Halberd were both cast before the supreme treasure of the first-generation civilization.

Although it was not a weapon used to suppress the luck of the civilization, the power it contained far exceeded any civilization's treasure.

It was impossible for the boundless realm to forge armor and weapons such as Liuhe Tianyuan and the Eight Desolation Demon Halberd.

Because this itself did not belong to this realm.

This world also did not have any materials and substances that could be cast out.

The foreign immortal king that Gu Changge met in Xianyu back then was only because he had traced the divinity of a wisp of the Eight Desolation Demon Halberd.

Then, in the long years of later generations, they had been searching for materials and finally forged a fake.

But this alone could make him invincible among all the immortal kings.

Unless Gu Changge woke up the Eight Desolation Demon Halberd, no one could control it.

After the second calamity in the real world of mountains and seas, the Eight Desolation Demon Halberd drifted to the lower realm and was obtained by a supreme being.

But that supreme being was also frightened by his ferociousness from behind and was pierced through his body by the halberd, and died under the halberd.

The secret realm seen by many cultivators in the later generations was only caused by a little breath from the sleeping Eight Desolation Demon Halberd.

However, these things happened a long time ago. Gu Changge shook his head slightly. For the time being, there was no need to worry about the affairs of the immortal civilization.

As long as Hun Yuanjun, Zhuo Fengxie, Ling Huang, and others followed his orders, there would be no accidents.

Since Xi Yuanwen Civilization was so cautious, he had been reluctant to send people over to find out what happened.

Then he had no choice but to take the initiative.

Buzz!!!

The next moment, Gu Changge shook his wrist lightly, a black light emerged, and the Eight Desolation Demon Halberd was held in his hand again.

The dark black halberd body was thick and deep, far heavier than any material.

There were not many lines on the surface, but there was a cold and intimidating breath flowing.

Quiet and cold, the light of the halberd seemed to be able to shatter the ages and sweep the world.

“I’ll take you to your old buddy.”

Gu Changge shook his halberd lightly and pointed towards the south of the sky obliquely. The monstrous power soared into the sky and swept across the sky.

The Eight Desolation Demon Halberd suddenly groaned softly, as if cheering excitedly.

The entire immortal civilization seemed to tremble, and countless universes and ancient worlds were shaken by the inexplicable terrifying aura.

At this moment, all the Dao Realm existences in the immortal civilization felt a sense of horror and heart palpitations.

But this feeling came and disappeared quickly as if it was just their hallucination.

“What kind of peerless weapon is this...”

“Why do I always feel like I know it, but unfortunately, the memories of those ancient records are blurred and incomplete.”

Inside the Ball of Ambitions, the artifact spirit witnessed this scene with his own eyes and was also terrified.

It didn't know what level of treasure the Eight Desolation Demon Halberd belonged to, but it could feel the destructive aura that could destroy the world, enough to make one's scalp tingle.

Even if it was a prosperous and complete ball of ambition, it probably could be destroyed by it.

Afterward, Gu Changge went to call Ling Huang, Wan Yanxiu, Bone Ancestor, and others and ordered some things about the Heaven Slaying Alliance, asking them to continue to explore the wasteland in the vast world and expand the Heaven Slaying Alliance according to the previous plan influence and absorb more believers.

Mu Yan, Mo Tong, and others were born with great luck. Although they were progressing very fast in their cultivation and if they wanted to grow up.

The time required would take at least tens of thousands of years, or even longer.

Gu Changge didn't expect them to be able to play a role in a short period of time.

Mu Yan, Ling Huang, Bone Ancestor, and the others were a little surprised at why Gu Changge gave such orders.

In their view, the Heaven Slaying Alliance had only just been established, less than a few years old.

Although because of the relationship between the Hun, Zhuo clans, and other ethnic groups, it had become famous in the immortal civilization and had become the number one superpower in the world.

But in their view, it had only just been born, and there was still a long way to go.

With Gu Changge's order, was he planning to leave the immortal civilization? Hand over the Heaven Slaying Alliance to them, no matter what?

To be honest, Wan Yanxiu and other members of the spiritual royal family had great expectations for the establishment of the Heaven Slaying Alliance.

Because in their view, once the Heaven Slaying Alliance's sphere of influence was affected, those supreme civilizations would be included.

That would inevitably lead to subversive changes in the boundless world, and countless weak real worlds and ethnic groups would inevitably come to support it.

During this period of time, they were also sending their people to the boundless world to spread the teachings of the purpose.

How strong the power of faith that evaporated was enough to show that the vitality of the Heaven Slaying Alliance had already begun to take shape.

After reaching a certain level, even hundreds of millions of believers in Buddhism, Daoism, etc., might not be able to compare with the Heaven Slaying Alliance.

Naturally, Gu Changge would not waste too much thought and energy on the management of the Heaven Slaying Alliance.

He had always been used to being the shopkeeper. When he was in the upper realm, many things were handed over to Yin Mei, Yue Mingkong, and others.

He kept Mu Yan, Ling Huang, and others by his side, not for them to be vases.

At the critical moment, if even these things couldn't be handled well, then what was the use of keeping them?

"I believe that you can do all this well, and I am also very relieved to hand over the Heaven Slaying Alliance to you."

At that moment, Gu Changge smiled slightly and looked at Mu Yan and Ling Huang with a gentle tone.

Ling Huang had always regarded the existence of the Heaven Slaying Alliance as some kind of lofty mission.

Hearing what Gu Changge said at this moment, he suddenly felt that the burden on his shoulders was even heavier.

On the beautiful and flawless immortal face, the expression became serious, and said, "Don't worry, my lord, I will definitely live up to your high expectations."

Mu Yan also nodded, and she could also feel that Gu Changge had high hopes for her.

She had been troubled by this matter all along.

She did have other emotions for Gu Changge besides admiration.

But it was obvious that Gu Changge treated her, Ling Huang, and others no differently.

But Ling Huang was a real Dao realm existence, which was by no means comparable to what she currently had.

In front of Ling Huang, her role could be said to be dispensable.

In fact, Mu Yan also wanted to be like Ling Huang, who could relieve Gu Changge's worries and problems instead of causing him trouble all the time.

"It's not that I don't want to interfere with the Heaven Slaying Alliance anymore, it's just that there is one more important thing to do right now."

"Immortal civilization is not the end of the Heaven Slaying Alliance. You must know that the goal of the Heaven Slaying Alliance is the entire vast world." Gu Changge said with a light smile.

“My lord, do you need me to follow you?”

During this period of time, Bone Ancestor recalled many fragments of the past.

Originally, he had a natural resistance to many forces in his heart, but he regarded himself as a member of the Heaven Slaying Alliance.

The paranoia and fanaticism in his heart were definitely not comparable to Ling Huang, Mu Yan, and others.

“No need, you stay in the Heaven Slaying Alliance. Maybe Xi Yuan Civilization has a premonition that after I leave here, it will make a big move against the immortal civilization.”

Hearing this, Gu Changge shook his head slightly and said.

Xi Yuan Civilization hadn't moved for so long, probably because he heard the rumors from Xu Dan Civilization.

In the beginning, Gu Changge really underestimated the Xu Dan Civilization, peeped ahead of time, and was noticed and vigilant by him.

However, the existence of the Heaven Slaying Alliance would spread throughout the vast world sooner or later.

Even if the Xu Dan civilization united with many supreme civilizations, it would not influence Gu Changge's plan.

"Yes, lord."

There was some strangeness in the eyes of the Bone Ancestor, and he nodded respectfully.

Gu Changge's figure disappeared, and no one saw how he left, as if he disappeared out of thin air.

A bit of reluctance appeared in Mu Yan's beautiful eyes.

Ling Huang glanced at her, and she didn't even know when she felt that Mu Yan's existence threatened her.

Although because of her identity and strength, she couldn't show it clearly.

She also didn't know where this inexplicable threat came from.

But Mu Yan did spend a lot of time with Gu Changge during this time.

When she came to report some things, she could always see Mu Yan who was an eyesore, which made Ling Huang inexplicably irritated, and felt that the existence of Mu Yan affected her relationship with Gu Changge.

However, as the queen of the spiritual royal family, how could she care about such a little cultivator?

On the contrary, it would make Gu Changge feel that she was narrow-minded.

Gu Changge's figure disappeared, and Bone Ancestor also disappeared.

Mu Yan sighed slightly, looked away, then looked at Ling Huang beside her, and said, "Sister Ling Huang, why are you so hostile to me, I don't pose any threat to you."

She was ice-snow and smart and had lived in various harsh environments since she was a child. She was used to observing words and expressions, so she could naturally see some hostility and dissatisfaction from Ling Huang toward her.

It's just that when Gu Changge was there before, Mu Yan was also hindered for some reason, so she couldn't say much.

Now, as soon as Gu Changge left, she planned to open up a conversation with Ling Huang.

"Oh, how can I be hostile to you? You must be worrying too much."

Ling Huang smiled lightly and restored the elegance and nobility in front of others, which was unattainable.

How could she admit this kind of thing? It would be embarrassing for her to speak out.

Mu Yan knew that Ling Huang would not admit it, but she didn't care.

She said softly, "Actually, Sister Ling Huang doesn't have to be like this. Mr. Gu treats me the same as he treats Sister Ling Huang. Keep a distance from everyone, if you want to get close to him, you will find that he and you are separated by an unreachable distance, as if in another distant world."

Ling Huang was taken aback by these words, and then... incomparably agreed.

She drooped her brows and eyes, feeling a little disappointed in her heart, how proud she was, as the queen of the spiritual royal family, she was also the first genius of the spiritual real world after so many epochs.

All along, Ling Huang never thought that one day, she would have such a thing as lust for a man.

In front of Gu Changge, it was not like she didn't hint at expressing her feelings.

But Gu Changge either turned a blind eye or didn't care.

Ling Huang sighed deeply in her heart, glanced at Mu Yan, and suddenly felt a sense of sympathy for each other.

"I'm a little curious now. When I was in the Blue Heavenly Realm, Mr. Gu suddenly thought of that person who is so sacred. I really want to meet him." Mu Yan smiled.

“It is precisely because of this unpredictable but fascinating charm that people will be willing...”

Then, a hint of astringency and envy appeared at the corner of her mouth.

It was the first time Ling Huang had heard such a thing, and at this moment, she was slightly stunned, and her face couldn't help showing envy.

Chapter 1094: That is definitely a road to darkness, how dare they?

On the second day after Gu Changge disappeared from the fairy civilization, the situation of the entire immortal civilization changed subtly.

Zhuo Fengxie, Hun Yuanjun, and others clearly sensed that some ethnic groups seemed to be ready to move.

From nowhere, these ethnic groups learned that Gu Changge had left the immortal civilization.

You know, this matter was a secret of the Heaven Slaying Alliance.

Apart from them, few people know, how did these ethnic groups know about it.

Did someone deduce it? Or was it another reason?

Zhuo Fengxie and Hun Yuanjun were puzzled and guessed that there was something wrong inside the Heaven Slaying Alliance and someone leaked the news on purpose.

Because they also had this worry and felt that once Gu Changge left, it would cause many troubles and problems in the future.

During this period of time, although the immortal civilization was calm, it was only on the surface. After all, there were too many ethnic groups in the immortal civilization, and Gu Changge didn't have much energy to subdue them one by one.

This also led to the fact that once Gu Changge himself left the immortal civilization, the original calm situation would likely be broken.

A lot of ethnic group forces surnamed on the surface, had always been connected secretly, and they didn't want to be enslaved by the Heaven Slaying Alliance.

From their point of view, the so-called Heaven Slaying Alliance simply didn't know the so-called, life and death.

It was obvious that the immortal civilization belonged to the Xi Yuan civilization, and it only needed to pay tribute to resources and luck crystals every era, and you could sit back and relax.

If you follow the Heaven Slaying Alliance and fight against the Dao of Heaven, you would definitely go to the dark side, without any retreat or possibility of survival.

Although Gu Changge was powerful, could he really compete against the entire Boundless Realm, against the entire Dao of Heaven?

However, although Zhuo Fengxie and the others felt that the various clans were about to move, it was difficult to be sure. There was no evidence, so it was difficult to make a move.

Because there was no one family yet to take the lead.

“They really know how to choose the right moment. After the lord left...”

“It seems that we need to find a good time to clean up the inside of the Heaven Slaying Alliance first, and clear out those people who have been planted and have impure minds.”

They suspected that behind these ethnic groups, there were forces from the Xi Yuan civilization or other civilizations supporting them.

When Gu Changge was in the immortal civilization, Xi Yuan civilization did not show up, nor did he send any force to come.

However, there must be some kind of connection between these ethnic groups.

It was with the support of the Xi Yuan civilization that these ethnic groups dare to do this.

“Otherwise, with their strength, how dare they?”

“Or are you planning to muddy the waters of immortal civilization again?”

The situation of the immortal civilization was not under the control of Zhuo Fengxie and others.

They also did not have the strength and power of Gu Changge.

Although the individual heritage of each ethnic group was not comparable to that of the Zhuo and Hun clans, the combined strength could not be underestimated.

The situation of the entire immortal civilization was changing day by day. Afterward, even ordinary cultivators felt that something was wrong.

“It seems that the news we got is true, let’s let people test the reality of Zhuo Fengxie and others first.”

“What if there is fraud in this?”

In this way, half a month later, some ethnic groups finally couldn’t bear it anymore and took the lead in dispatching their clansmen to do it. The first step was to eradicate the strongholds and branches established by the Heaven Slaying Alliance in all universes.

Many temples built were also destroyed by them.

After one ethnic group took action, the rest of the ethnic groups followed. They had already made contact with each other and launched a lightning strike, intending to take advantage of the fact that

the Zhuo clan, Hun clan, and other forces were unable to react in time after the destruction of the Heaven Slaying Alliance bases in various places.

This unexpected battle broke out everywhere in an instant and immediately caused shocks among many ethnic groups in the immortal civilization.

And many believers of the Heaven Slaying Alliance were furious, how could they allow their beliefs to be destroyed by them? And they immediately started fighting with these ethnic groups.

This also included many young people who were extremely fanatical and respectful of the leader of the Heaven Slaying Alliance. When they learned that the ethnic groups in various places were in rebellion, they were immediately furious and wanted to put down the rebellion.

Zhuo Fengxie, Wan Yanxiu, and others were also responding, but the timing chosen by these ethnic groups was really a coincidence.

There were many dao realms of the Zhuo, Hun, and spiritual royal clans. At this time, they are not in the immortal civilization, but exploring the wasteland in the boundless world, and spreading the purpose and teachings of the Heaven Slaying Alliance.

Including Bone Ancestor, who was not in the immortal civilization now but was exploring the wasteland in the vastness.

After some ethnic groups made a move, the reality of the Heaven Slaying Alliance was instantly understood by the rest of the ethnic groups.

The current Heaven Slaying Alliance was strong on the outside and strong on the inside, without Gu Changge, the rest of the subjugated ethnic groups were even more obedient, and only the Zhuo clan, Hun clan, and other ethnic groups had retained some of their strength.

After hearing this news, the ancestor-level figures among these ethnic groups were even more pleasantly surprised.

In fact, they had already woken up and planned to join forces to deal with Zhuo Fengxie, Hun Yuanjun, and others.

Moreover, in order to prevent accidents, they also set up an incomparably terrifying and peerless formation, deliberately attracting Zhuo Fengxie, Hun Yuanjun, and others, and then, with the help of the formation, suppressed and refined them.

This was a premeditated plan that had been planned long ago, and it was launched suddenly just waiting for the right time.

The fluctuation of the war shook the entire immortal civilization, and many great universes trembled accordingly. Countless cultivators and creatures were panicked, feeling as if the world was about to be destroyed.

The monstrous aura swept from the outside world to the inside of the world, and one piece after another of the big universe was sunk.

Horrible giant hands reached across the sky and pierced through the boundary barrier.

One side of the world collapsed, and the cultivators and creatures in it had no chance of survival.

The ancestors of each race were very indifferent and cruel. They ignored the clansmen of other races in the immortal civilization and insisted on trapping Hun Yuanjun and others in the formation and refining and suppressing them.

The ancient large formations, engraved with Dao runes, had terrifying lethality. They were urged to sacrifice by them, and their power is unimaginably powerful.

The blood splashed, and the sword energy filled, far more majestic than the universe, directly slashed Hun Yuanjun's body, causing horrific injuries.

In the other direction, there were several ancestor-level figures who were slightly weaker than him, urging a large formation to deal with Zhou Fengxie.

This battle was extremely tragic, but the final result was doomed.

“The trapped beast is still fighting, you betrayed the Xi Yuan civilization, this is the consequence.”

With a sneer, these ancestor-level existences worked together to mobilize the formation, and finally trapped Zhuo Fengxie and Hun Yuanjun.

The two of them were the strongest in the Heaven Slaying Alliance of the immortal civilization. As long as they were trapped, without Gu Changge, the Heaven Slaying Alliance would naturally be on the verge of collapse.

And in another extraterrestrial battlefield, there were also several figures, joining forces and offering a killing formation to counter the other ancestors of the spiritual royal family.

Their plan was extremely meticulous, knowing who were the powerhouses in the Heaven Slaying Alliance, and who could react to such a thunderous blow.

Of course, this was also related to the support they received from the Xi Yuan Civilization.

On the second day after Gu Changge left the Immortal Civilization, some powerful people got the news and secretly contacted Xi Yuan Civilization.

The Wu clan was not the only one that voluntarily surrendered to the Xi Yuan civilization.

It's just because the Wu Clan was too large and is one of the most powerful groups in the immortal civilization, so it was regarded as the leader and destroyed by Gu Changge.

The rest of the ethnic groups, frightened by Gu Changge's strength and oppression, could only be forced to surrender.

Chapter 1095: How could there be no backhand? They all jumped out at this time

"Now the so-called leader of the Heaven Slaying Alliance has long since left the immortal civilization, and this so-called Heaven Slaying Alliance is nothing more than that, like a foundation of sand, which can collapse with the snap of a finger."

"If it's interesting, the two of you should have been arrested earlier, and things might turn around."

These ancestor-level figures all sneered.

Zhuo Fengxie and Hun Yuanjun, covered in blood, were refined and burned by various Dao rules in the formation.

The two looked at each other, frowning, and said nothing.

But at this moment, the other ethnic groups in the immortal civilization who had never joined were extremely shocked.

Who would have thought that the original stable and peaceful situation would be broken again not long after?

Moreover, even existences like Zhuo Fengxie and Hun Yuanjun were trapped.

Several beings of the same level shot out and sacrificed a large formation. Who could compete?

In the depths of the clan of the Eternal Protoss, the ancestor was also hesitating now, and he had not intervened in these matters.

“How did he get caught with such a loophole?”

“Will there be fraud in this?”

He frowned, always feeling that this matter would not be so simple.

But he didn't expect that Gu Changge had left for less than half a month, and his opponent would have an opportunity.

Xi Yuan Civilization was not ignoring the affairs of the Immortal Civilization but was waiting for the right time, like a poisonous snake, to deal a heavy blow.

In fact, they all underestimated the Xi Yuan civilization.

However, he was still a little puzzled, Gu Changge just left? Didn't lay down a backhand either?

Logically speaking, it shouldn't be difficult for Zhuo Fengxie and Hun Yuanjun to join forces to counter these people, but they were still drawn into the formation.

All these signs showed that the two of them underestimated the Xi Yuan Civilization, but they didn't expect that the Xi Yuan Civilization was only intimidated by Gu Changge's power and didn't really ignore the fairy civilization.

Or was this just testing Gu Changge's actions and intentions?

When Gu Changge was there, Xi Yuan civilization pretended nothing happened, and it just left not long ago, and it incited these ethnic groups to rebel.

Apart from the Xi Yuan civilization, the ancestor of the Eternal Protoss also couldn't figure out, which other civilization had such a huge power.

Without the support of the Xi Yuan civilization, would these ethnic groups dare to do this?

But he always felt that with an existence like Gu Changge's, it was impossible not to expect such a thing, so how could there be no backup left behind?

Or, if he didn't care about the life and death of the so-called immortal civilization at all, what was the significance of establishing the Heaven Slaying Alliance?

At this moment, among the other ethnic groups, there were also existences of the same level watching and not intervening.

Although their strength was not as good as Hun Yuanjun and others, they were not weak, and they were comparable to the existence of the Dao Realm who had survived two or three heavenly declines.

If they joined the battle again at this time, it would definitely have a greater impact on the situation.

However, some of them, when they surrendered to Gu Changge, made a great oath and would obey his orders.

Now, Gu Changge was not in the immortal civilization, as long as they didn't take action against Hun Yuanjun and others, it would not be considered a breach of oath.

If it's not that they had no choice, they naturally just wanted to be an outsider and not interfere.

No matter which result it was, it was not good for them.

Boom!!!

The war continued, shocking and tragic, and all regions were swept into it. Compared with the battle between the Wu clan and the Hun clan, it did not give in at all.

These ancestor-level existences joined forces and could be said to be invincible, and no one could beat them.

Although Zhuo Fengxie and Hun Yuanjun were powerful, they had more opponents than them, and they had long been prepared to set up a big formation. Both of them were bleeding now, and it seemed that they were gradually exhausted.

“It only needs to suppress and refine them, and the Heaven Slaying Alliance will naturally disintegrate. The things promised by the Xi Yuan Civilization will definitely be done.”

These ancestor-level figures all showed coldness and fierceness in their eyes. They clapped their big hands and turned them into various powerful offensive methods, making Zhuo Fengxie and Hun Yuanjun constantly fly across the formation.

“Hehe, it seems that Zhuo Fengxie’s strength is nothing more than that, how strong I thought they could be.”

At this time, laughter came from another realm, and a terrifying aura rose again.

Another group of ancestor-level figures joined the battle.

He didn't make a move before, and while he was very cautious, he was also waiting and watching.

Now seeing that Zhuo Fengxie and Hun Yuanjun were no match and coughing up blood, it was difficult to parry, so they finally made a move.

"Haha, the overall situation has been decided, Zhuo Fengxie and Hun Yuanjun, seeking their own death, deserved to end up like this."

"It's just that I overestimated the strength of these two people. I thought they could join forces to sweep away the immortal civilization, but I never thought that they would be so vulnerable."

In other places, several auras appeared again, all cautious guys, worried about fraud, but now seeing Zhuo Fengxie and Hun Yuanjun in such a miserable state, being refined in the big formation, finally couldn't help it showed up.

Because they were worried about the destruction of the Heaven Slaying Alliance, and they did not have their share.

Seeing this scene, the rest of the ethnic groups in the fairy civilization were even more shocked and horrified.

Who would have thought that there were so many ethnic groups in the dark, they had already united and were waiting for the opportunity.

Moreover, they never made a move.

If they had made a move earlier, Zhuo Fengxie and Hun Yuanjun would probably be even more invincible.

On the distant battlefield, some elders of the Zhuo and Hun clans were also in bad condition. They were besieged by many people and kept coughing up blood.

“Brother Zhuo and Brother Hun, if we had known this earlier, would we have regretted it?”

An ancestor-level figure who was in the same era as Zhuo Fengxie and Hun Yuanjun stood outside the universe and let out a faint laugh.

He looked at the two people who were constantly being refined in the big formation, with mockery.

The rest of the existences were also urging mana, mobilizing the power of heaven and earth, and constantly refining and suppressing the two of them.

Zhuo Fengxie and Hun Yuanjun were seriously injured, with bone visible in many places and dripping with blood.

However, upon hearing this, some weird ridicule appeared on the faces of both of them.

“I wonder who will regret it?”

As the two talked, the aura on their bodies changed suddenly, far stronger than before.

Immediately ordered the several people who mobilized the formation to churn and almost flew out.

“What do you mean by that?”

“Do you think that even if you have some hidden cards, you can still change the situation?”

The ancestor-level existence who spoke just now, seeing this scene, couldn't help but change, a little ugly, and stared at the two of them coldly.

“The refining formation can suppress them, why do you need to say more?”

The people who had already shown up shouted loudly, and now they shot one after another without any hesitation, worrying that the night would be long and dreamy.

The power of the formation was completely activated, and this universe became a battlefield, completely dissolved, and nothing existed anymore.

This kind of power was beyond imagination and the fragments of time were blown into powder.

Although Zhuo Fengxie and Hun Yuanjun erupted with stronger power than before, they were still coughing up blood and injured, and they were no match for two fists.

This large formation was engraved by the existence of the ancestral Dao Realm. Although it was less than one-tenth, it was definitely not what they could destroy at present.

The entire immortal civilization was horrified and shaken by this battle, thinking that the two of them were destined to die.

Chaos began to erupt in many places, and the collapse of the Heaven Slaying Alliance was inevitable. This was a catastrophe that could not be overcome.

But at this moment, a terrifying palm suddenly appeared between the heavens and the earth, spanning time and space, covering the entire universe, and slapping down toward the bottom.

The entire battlefield outside the world seemed to be turned into a cage in an instant. The four levels of heaven and earth and the eight wildernesses of the universe were all covered by this palm.

“At this time, did they all jump out? It’s easy, I’ll look for them one by one.”

Gu Changge’s unhurried voice sounded without warning.

In the entire world, countless cultivators and creatures were suddenly terrified.

Chapter 1096: Deliberately Set Up a Game? They Are Just Pawns

At the end of the world, a majestic and boundless terrifying palm just directly covered and fell down, extremely powerful.

Hundreds of millions of gorgeous chains of laws were intertwined, trying to penetrate heaven and earth, penetrate the heavens and myriad domains, and wipe out everything.

The great formation that trapped Hun Yuanjun and Zhuo Fengxie was constantly collapsing, and it was difficult to maintain it at all.

In just an instant, it was slapped away by this palm.

The berserk energy poured out, destroying the world and destroying the earth. It was unimaginable that the devastated universe around it was instantly reduced to ashes.

And this palm, without any reduction in force, continued to fall towards everyone below, as if it was going to destroy the entire world.

At this moment, the forces of all races in the world felt terrified.

“If you don’t jump out, I will have to waste some more time on my part.”

“Now, it saves a lot of trouble.”

The figure of Gu Changge walked out from the end of the sky and looked at the crowd in the arena calmly.

“What?”

“Why is he still here?”

All the ancestor-level figures in the extraterrestrial battlefield also changed their complexions suddenly at this moment.

Many people were even more horrified, full of trembling, unbelievable.

“Xi Yuan Civilization was certain that he has left, how is that possible?”

“How could he still be in the immortal civilization, has he never left?”

The ancestor-level person who spoke just now had his eyes widened even more. Looking at Gu Changge who appeared, he couldn't believe it.

His voice trembled slightly, unable to hide the fear in his heart.

Could it be that all of them were deceived by Xi Yuan Civilization?

Obviously, the envoy from Xi Yuan Civilization who contacted them told them with certainty that Gu Changge had indeed left the immortal civilization and was not in this world.

If it weren't for the Xi Yuan civilization's guarantee, how could they have dared to launch a rebellion not long after Gu Changge left?

But now, Gu Changge really appeared in front of everyone.

Many ancestor-level figures who shot together just now had ugly faces and a burst of fear, knowing how terrifying Gu Changge's strength was.

They had absolutely no possibility of resistance.

"My lord..."

Hun Yuanjun and Zhuo Fengxie were covered in blood, and their injuries were terrifying.

But now, seeing Gu Changge appearing, they were all pleasantly surprised.

At the same time, they also breathed a sigh of relief, knowing that they guessed right.

With Gu Changge's ability and means, how could there be no backup? They were already wondering whether there would be fraud in this.

After all, Gu Changge left too suddenly.

Moreover, even if he really wanted to leave, how could he not have expected that the situation of the immortal civilization might be turbulent?

The two of them didn't try their best to fight against everyone at the beginning, they wanted to delay the time and make their opponents take it lightly.

Now that Gu Changge showed up, they finally breathed a sigh of relief, and the stone in their hearts fell to the ground.

Compared with the joy of Zhuo Fengxie and others, the rest of the various ethnic groups who participated in this rebellion were extremely terrified and frightened.

Many forces even believed that Gu Changge did this on purpose.

It was to let those groups and powerful people who were secretly planning to jump out, so that he would not go to find and suppress them himself, saving a lot of trouble.

This was too cunning and ruthless, deliberately setting up a situation to let them know the news of his departure, but he did not actually leave.

Among ethnic groups such as the Eternal Protoss, many people couldn't help but shudder.

“Xi Yuan Civilization lied to us?”

In this extraterrestrial battlefield, those ancestor-level figures who jumped out just now wanted to curse secretly, then turned around and tore apart the big universe, trying to escape, and one who can escape counts as one.

Nowadays, cultivators and creatures in the entire immortal civilization thought that Gu Changge had left and was not in this world.

Even Zhuo Fengxie, Hun Yuanjun, and the others were unable to determine the authenticity.

They had such courage because of the guarantee from the Xi Yuan Civilization.

But who would have thought that Xi Yuan Civilization would also be tricked by Gu Changge?

Or was it simply that the Xi Yuan Civilization deceived them, wanting them to deliberately test to see if Gu Changge was still in the immortal civilization so that they could consider the follow-up countermeasures?

At this moment, many thoughts flashed through their minds, and they simply regretted it.

But regretting it now was obviously useless. Everyone's face was full of fear and horror, without the confidence and smile just now.

Boom!!!

This extraterrestrial battlefield was overwhelmed by the far-reaching horror, and the entire immortal civilization was trembling. Gu Changge appeared in person and made a move, so naturally, there would be no surprises.

In the depths of the shattered universe, there were roars and screams. People at the ancestor level had already died tragically one after another, and the blood mist exploded in the sky.

Then, a vase of the Great Dao appeared, like a vast and deep black hole, devouring all the original essence of qi and blood.

In the immortal civilization, all the existences with a cultivation base beyond the Dao realm could feel the trembling and terrifying aura.

After this battle, the hidden dangers and troubles that the immortal civilization might have left behind had all been resolved.

Gu Changge's figure stood tall in the universe, with a very indifferent expression.

The treasure vase of the Great Dao sprayed out the vast black light, swept away all the essence of flesh and blood in this place like wolf smoke, and returned it to his hands.

The big universe and successive worlds where these ethnic groups lived collapsed, and the black light covered the sky and the sun, sweeping away like a wave, and hundreds of millions of living beings were all wrapped up in it.

Gu Changge actually wanted to make a move a long time ago, to liquidate the current immortal civilization, but considering that the Heaven-Slaying Alliance had just been established and its

foundation was not stable, there was no suitable reason to make a move, and it would only cause counterproductive effects.

That's why he hadn't moved.

However, to go to fetch Liuhe Tianyuanjia this time, he also needed to collect enough flesh and blood.

At this point, after thinking about it, Gu Changge felt that the ancestors of the immortal civilizations were just right.

Xi Yuan civilization must have been paying close attention to the situation on the side of the immortal civilization.

Therefore, once Gu Changge disappeared, it would definitely attract the attention of the Xi Yuan Civilization.

It's just that Xi Yuan civilization was not stupid, he would guess whether Gu Changge did this on purpose, and he would definitely not be stupid enough to send strong people over directly, so he had no choice but to contact these ethnic groups and find out the truth first.

It could only be said that these ethnic groups were not only calculated by Gu Changge.

It was also used by Xi Yuan Civilization and became an abandoned pawn.

This sudden turmoil did not last long, as the ancestors of various races who participated in it died one after another, blood staining the deep space of the universe.

Many people were full of fear and regret and wanted to escape, but it was too late, even if they wanted to beg for mercy, it was useless, the soul light collapsed, and the flesh and blood were directly scattered.

The chaos in various places also quickly subsided.

All the ethnic groups who participated in it felt a burst of fear, and at the same time regretted it very much, thinking that they would be liquidated.

And those groups who had been watching all the time breathed a sigh of relief, and the backs of many elders were wet with cold sweat.

When they saw several other ancestor-level existences appearing just now, they almost had the idea of sending their clansmen to participate in it, but fortunately, they forcibly held back.

Now, those ethnic groups would definitely be doomed and would follow in the footsteps of the Wu clan.

Almost everyone had seen Gu Changge's method. Although it seemed gentle, it was just an appearance.

He never gave those who disobeyed his orders a way to survive and how decisive he was to kill them.

“Who would have thought that this would be a game he set up?”

“Could it be because you want to take action against those forces, but you can’t find a suitable reason, so you deliberately set up a situation?”

“Not long after the Heaven Slaying Alliance was established, it was a time when it lacked background and resources. In this way, there is also a reason to search and occupy the background of these ethnic groups?”

There were speculations from all ethnic groups, thinking of these, it was a burst of timidity and fear.

Although Zhuo Fengxie, Hun Yuanjun, and others were seriously injured, it was only a matter of time to recover.

This chaos started quickly, and the suppression was also fast, and they were also sending their clansmen to deal with the many finishing matters that followed.

There were more than a dozen ancient great clans that participated in this rebellion, and some of them had ethnic backgrounds. Only under the Wu clan and other clans and they were also the ancient clans that were second to none in the immortal civilization, and their strength could be said to be extremely profound.

And the resources and heritage accumulated by these ethnic groups over the long epoch were now naturally all included in the Heaven Slaying Alliance.

The Heaven Slaying Alliance, which seemed to be lacking in foundation, suddenly seemed to become rich.

This made both Zhuo Fengxie and Hun Yuanjun start to wonder, could this be Gu Changge's purpose?

After Gu Changge appeared and killed the ancestors of the various clans who made trouble, he disappeared again and did not explain things to Zhuo Fengxie and others, as if he had left the immortal civilization again.

However, all parts of the immortal civilization were still in a kind of faint panic because of this incident.

Fortunately, after this incident, the rest of the power groups were obviously much more peaceful.

After all, no one knew where Gu Changge was, had he left the fairy civilization, or was he overlooking the world somewhere?

With the lessons learned from the past, who would dare to make trouble in the immortal civilization?

These destroyed ethnic groups must have received the promise and support of the Xi Yuan civilization in the dark.

What happened next? How miserable, it was nothing more than a chess piece that was discarded when it was used up.

...

“I clearly felt that the black mist covering the immortal civilization had dissipated a lot, and I thought that person had left.”

“I didn’t think about it much and made a mistake.”

In Xi Yuan civilization, Wang Chu City, Chu Gucheng looked at a crystal token that collapsed and exploded in front of him and frowned.

In front of him, the Eight True Gods and others also looked at all this solemnly.

This crystal clear token was a keepsake left by Chu Gucheng in the immortal civilization. He had traveled to the boundless world and stayed in the immortal civilization for a while.

And this crystal token was the token he gave to one of the clans back then.

Like the clan land of the Wu Clan, if it had not been destroyed, you should still be able to see the Enlightenment Monument he left behind.

It was tainted with the aura of Chu Gucheng, even if it was separated by a long distance, it could echo with it from afar.

This time, it was his order and plan to let the various races of the immortal civilization test it.

Chapter 1097: The Remnants of the Black Luck Come Back, Xian Chu's No. 1 Bully

In the palace, everyone's expressions were a little dignified. They wanted to pass this test to see if Gu Changge was still in the immortal civilization.

But who knows, he didn't leave, but hid in the dark, waiting for those ethnic groups to jump out.

This also caused the many eyeliners left by Chu Gucheng in the immortal civilization to be wiped out.

The change that Chu Gucheng perceived as the black mist receding was probably just Gu Changge's means.

That's why he deliberately fooled them, creating the illusion that he had left the immortal civilization.

From this point of view, it also showed that Gu Changge had actually noticed them, and was not afraid of the Xi Yuan civilization at all.

"And, he is probably in the immortal civilization, waiting for us to go..."

Chu Gucheng's face was solemn, and the bad feeling in his heart became more and more serious.

He thought of the unease he felt in the dark when he was in seclusion and the jade slip he got from the Xu Fan civilization.

Could it be that he was really doomed and would encounter an unprecedented catastrophe?

Originally, his plan was to not interfere with the affairs of the immortal civilization as much as possible.

But no matter how he comforted himself afterward, it was difficult to resolve the uneasiness and worry in his heart, it was like a stick in his throat.

If it was not eliminated, Chu Gucheng would definitely leave behind an indelible demon.

That's why he contacted the forces of the immortal civilization to make a move.

“My lord, the matter of the immortal civilization is indeed tricky and weird. Why don't we take advantage of your birthday banquet to inform the other forces of the Xi Yuan civilization?”

“That man surnamed Gu is really arrogant. He disregarded the rules and deliberately established the Heaven Slaying Alliance. He knew that such a thing is an absolute taboo in the boundless world.”

The Eight True Gods and others were also speaking at this moment, making suggestions.

At this time, no one dared to go to the immortal civilization in person, even Chu Gucheng was very afraid.

But the Xi Yuan civilization was a supreme civilization after all, and its background was beyond imagination.

If they could unite the strong men of all races and send a large army away together, even if the immortal civilization was now a dragon's pool and a tiger's den, it would be easily razed to the ground.

They didn't believe that the man surnamed Gu could counter the entire Xi Yuan civilization on his own.

Hearing these words from his subordinates, Chu Gucheng frowned and thought,

"It seems that this matter really needs to be informed to other forces, and my Xian Chu alone may not be able to solve it."

"Furthermore, once my Xian Chu Great Land is in trouble, the rest of the forces will surely be doomed. Judging from the many connections, I suspect that this so-called Heaven Slaying Alliance was actually established by the remnants of the black disaster that was never wiped out... .."

"Cutting down the heavens and becoming the Dao, clearing the way of the heavens, what a ridiculous doctrine, it's just to coax all spirits and common people to serve them."

"This method is very similar to the stronghold of the black disaster that I destroyed together with Saintess Xi Yuan and others. They captured countless cultivators and creatures and raised them in the Small World and the Middle World. Chanting scriptures day and night, brainwashing, and providing an endless stream of belief power..."

As soon as he said this, the complexions of the Eight True Gods and others also changed.

It seemed that the four words of black luck and evil contained some kind of terrifying magic power, which could make people feel palpitating.

“My lord, why don’t you go to the Xi Yuan Temple again, maybe there will be another turning point?”

On the other side, the white-browed star king with white eyebrows and beard frowned for a while at this moment and spoke persuasively.

The Xi Yuan Temple had an extraordinary status and significance in the Xi Yuan civilization.

And there was also the mirror of reincarnation, the treasure of civilization, sitting in town.

The last time he went there with a letter from Chu Gucheng, he also hit a wall and did not see the Holy Maiden Xi Yuan.

Later, Chu Gucheng went there in person, but the result was the same, no one was even seen.

Hearing this, Chu Gucheng’s complexion changed, as if he was also thinking about it.

Then he nodded slowly, and said in a deep voice, “Holy Maiden Xi Yuan doesn’t want to be contaminated with karma and avoids seeing it, but if it is related to the remnants of the black disaster, then no matter what she says, she can’t just stand by and watch.”

“I have already contacted Mr. Jin and others from the Xu Dan Civilization. This matter is of great importance. I really need to borrow the mirror of reincarnation.”

Hearing these words, the expressions of the people there also turned solemn.

They knew what Chu Gucheng meant.

The implication was that if Holy Maiden Xi Yuan still insisted on not seeing him, then Xian Chu might have no choice but to use strong means.

After all, this was an important event related to the future of Xian Chu and the fate of Chu Gucheng, and it could not be sloppy.

“Regarding the matter of the Heaven Slaying Alliance, you should follow my instructions and inform the other forces, saying that this is the remnant of the black disaster and that it is making a comeback again.”

“Besides, you, Bai Mei, and the other star kings, personally invite the powerful people from various forces of the Xi Yuan civilization to participate in my 130th birthday.”

“People from Zixiao Mountain, Yuxian Palace, Lingshen Cave, Guangming Temple, Endless Demon Realm, and Buddha Realm are bound to be invited.”

Chu Gucheng said.

With his hands behind his back, he looked out of the hall with deep eyes, as if the sun and the moon were turning, and his expression was terrifying.

Although he didn't have any evidence, indicating that this Heaven Slaying Alliance had something to do with the remnants of the previous black disaster.

But if he didn't say that, the rest of the forces were likely to stand by and won't want to intervene, thinking that this had nothing to do with them.

If there was any trouble caused by Xian Chu, it would naturally be resolved by Xian Chu, and the rest of the forces were also happy to see it succeed.

"Yes, my lord."

Soon, in this Ling Xiao Temple, the Eight True Gods, Star King Bai Mei, and others, respectfully retreated as instructed.

After everyone left, Chu Gucheng's frown relaxed a little.

Looking outside the hall, he couldn't help murmuring, "I rose in the world of Yanyang. When I was weak, I was betrayed and almost died. Without the help of the master, it was almost difficult to survive. Afterward, I experienced many hardships and catastrophes and finally became enlightened, and with my clansmen and beauty, I ascended to the Middle World and established the Great Chu Kingdom in it."

"Later, I continued to cultivate painstakingly for several epochs and finally entered the ranks of the Dao Realm. After a hundred years of epoch, my cultivation level improved by leaps and bounds.

Even if I encountered the calculations and killings of many ethnic groups in the Xi Yuan civilization, I can save myself from danger. Thanks to luck in the dark.”

“This crisis is really the most troublesome one I have encountered in my long years of cultivation. There is almost no way out.”

“Who is that man surnamed Gu?”

But Chu Gucheng was concentrating on contemplating, constantly guessing about Gu Changge’s origin.

A slender figure came from a distance, with a gentle demeanor and a beautiful face.

It was Chu Gucheng’s married couple, named Wang Xuexin, who met Chu Gucheng when she was in Yanyang Realm, and they were very affectionate along the way.

“Husband is worried about this matter, why not go to find the senior Dharma Sage, ask him to act, and deduce it.”

Wang Xuexin’s gentle voice came.

As the queen of Xian Chu, she was the mother of the world, so she naturally knew the crisis that Chu Gucheng was facing this time.

And the Dharma sage she mentioned was actually the master of Chu Gucheng, an old monster with unfathomable morality.

When he was in the Yanyang Realm, Chu Gucheng accidentally obtained an ancient jade, which contained a ray of the remnant soul of the Dharma Sage.

It was also at that time that he worshiped the Dharma Sage as his teacher and received many pointers and teachings from the Dharma Sage so that he was able to resolve those crises many times.

Then, Chu Gucheng grew step by step from a mediocre boy to the current powerhouse of the Xi Yuan civilization, the master of a generation of Xian Chu who was in charge of hundreds of millions of living beings and the birth and death of countless universes.

To put it bluntly, if there were no master, there would be no him today.

“Xue Xin, tell me, let me look for the master. But I don’t know where the master is now. Although he has great powers, he is also facing the catastrophe of the eighth heavenly decline. Last time he said that he would go to the dimensional time and space. In the depths of the world, he is looking for an opportunity to break through and now it has been dozens of epochs since he left, and I have not been able to contact Master.”

“What’s more, my current cultivation is not necessarily inferior to Master, even Master may not be able to do anything about it.”

When Chu Gucheng saw his wife coming, he couldn’t help but sigh and shook his head.

It's not that he didn't want to look for the master, but he couldn't find him, and it was useless.

"I see."

Wang Xuexin was taken aback when she heard this.

Her cultivation was far inferior to that of Chu Gucheng.

With all kinds of natural treasures and rare items piled up, there was still a long distance from the Dao Realm.

She thought it would be the same trouble as before, but she didn't expect Chu Gucheng to be so worried.

"Forget it, let's not talk about this matter, Xue Xin, you came to see me, is there something else?"

Chu Gucheng shook his head lightly, then asked with a smile.

Although he and Wang Xuexin were extremely affectionate, she was not the only one who married him.

Along the way, Chu Gucheng met a lot of heavenly girls, and there were also many beauties and concubines around him.

Wang Xuexin showed a bit of helplessness on her face, and said, “I came here because I wanted to tell you about Xiao’er. He didn’t listen to dissuasion, took advantage of me not paying attention, and left Xian Chu privately. Although I told Uncle to follow him, I was still worried that Xiao’er would have an accident...”

Hearing this, Chu Gucheng was taken aback for a moment, and then a bit of a sullen expression appeared on his face.

“This rebel...”

“Relying on the doting you and I have for him, at this juncture, he still dares to leave Xian Chu privately, let Uncle Fu catch him back quickly, and don’t allow him to cause trouble outside.”

He couldn’t hide the sullen and helpless hatred on his face.

Chu Xiao was the youngest son of him and Wang Xuexin, and at his current level of cultivation, it was already difficult to give birth to an heir.

But Chu Xiao’s birth was completely an accident.

When he accidentally found out that Wang Xuexin was pregnant, Chu Gucheng was also very pleasantly surprised, and then resorted to many methods, fearing that it would be difficult for Chu Xiao to give birth smoothly.

Although there were some twists and turns on the way, fortunately, everything went smoothly in the end.

He was already the figure of an ancestor, and now he had a young son again, so he loved him very much.

The entire Xian Chu regarded Chu Xiao as a treasure in their palm.

All the members of the Chu clan cared for this real little ancestor to the extreme.

If you want wind for wind, you want rain for rain, no matter what request Chu Xiao put forward, they would satisfy him as much as possible.

As for Chu Gucheng and Wang Xuexin, they naturally doted on this youngest son beyond words.

It's just a pity that Chu Xiao didn't inherit Chu Gucheng's talent, and his talent for cultivating Daoism could only be regarded as mediocre.

His current cultivation was also built up with many treasures from heaven and earth.

On weekdays, he was surrounded by flattering clansmen and subordinates and had also developed his domineering and arrogant character.

He often did some behaviors of bullying men and women, fish and meat township.

It was also secretly called the number one bully by many cultivators in Xian Chu.

Chapter 1098: The treacherous Xi Yuan civilization, is this something she can do?

However, no matter how much of a bully Chu Xiao was, who made him have a good father?

The rest of the brothers and sisters were also the ancestors of Xian Chu.

They loved this younger brother so much that they would stand behind him and solve all the troubles he had caused.

“I have asked Uncle Fu to follow Xiao’er to protect his safety. He sneaked out this time as if he wanted to give you a surprise, husband. After all, your birthday is approaching, and Xiao’er is going to find a birthday present. After all, this is Xiao’er’s kindness, husband, don’t be angry.

“After all, Xiao’er doesn’t want to rely on others, he just wants to use his own strength to find you a gift to celebrate your birthday...”

Seeing that Chu Gucheng was so angry, Wang Xuexin couldn’t help smiling and explaining.

Hearing this, Chu Gucheng snorted, and calmed down his anger, and said, “That bastard, if he doesn’t cause trouble for me, he will give me the best gift.”

But having said that, he was still slightly relieved.

He didn’t love that kid in vain, and he knew his birthday, so he wanted to surprise him.

“However, it is the critical juncture you mentioned, my husband. I was wondering if there would be any danger for Xiao’er to leave without permission, so I came to talk to you.”

“It’s better for you to be in the dark, husband, and send some people to protect Xiao’er. It’s rare for him to be so caring, so don’t hurt this child.” Wang Xuexin said again, with some worries on her face.

Chu Gucheng frowned all of a sudden, and he was also a little worried and thoughtful.

After all, Xian Chu was now facing an invisible crisis, and he didn’t know how this crisis would come.

So what could be done was to order Xian Chu to make preparations early, and at the same time strictly prohibit many clansmen from going out.

On the territory of Xian Chu, Chu Gucheng was born invincible, with the fate of the country in his body, brilliant and inviolable, with insight into everything, even the secrets of the way of heaven, could not escape his prying.

If there was any existence, detection, insight, or layout and planning, he could perceive it.

But once he left Xian Chu, in the outside world, Chu Gucheng will not be able to do so.

“Xiao’er’s strength is low, and he sneaked away again this time. It shouldn’t have any impact on the entire Xian Chu. I’m just worried about his safety.” Seeing Chu Gucheng lost in thought, Wang Xuexin said again.

Chu Gucheng nodded slightly, suddenly there were many terrifying scenes rising and changing in his eyes, and the Dao runes kept flickering as if he could see everything.

After a long time, he said, "I will send some more people to follow Xiao'er. My actions have covered the secrets in him. No one can detect and deduce his origin and follow. Back then, the Ancient Jade of Master that I got by accident is also on Xiao'er's body, if someone plots to harm him, it will manifest a vision, and I can feel it."

He couldn't tolerate any carelessness, Chu Xiao was his most beloved heir now.

Moreover, Chu Xiao's strength was low, if someone had scouted him when he left Xian Chu quietly, he might be plotted against.

Although Chu Gucheng established the Xian Chu, along the way, there were many enemies who were secretly offended.

"My husband has such an arrangement, so I feel relieved." Wang Xuexin also let out a long sigh of relief and smiled when she heard this.

...

Under Chu Gucheng's deliberate order, the news about the Heaven Slaying Alliance quickly spread among many ancient forces in the Xi Yuan civilization.

In fact, during this period of time, some forces on the side of the Xi Yuan civilization understood what happened on the side of the immortal civilization.

But after all, it was a subsidiary civilization of Xian Chu, and it had little connection with them, so no one cared about it.

But now, Xian Chu suddenly informed many forces that the immortal civilization had been captured by the remnants of the black luck, and the so-called Heaven Slaying Alliance was actually the remnant of the black luck.

This incident immediately caused a great commotion in the Xi Yuan Civilization.

Just the name of the Heaven Slaying Alliance shocked many forces and made them feel unbelievable.

How much courage did it take to take such a name? Who dared to bear the karma of such horror?

In the age of ancient mythology, why did the heavenly court collapse, encounter a catastrophe, and turn into a catastrophe?

Wasn't it because the word "Heavenly Court" touched a taboo?

Ordinary people would naturally have nothing to do with establishing such a power, but after reaching a certain level, this obviously had a taboo intention, and naturally, it was easy to cause catastrophe and punishment.

Xian Chu could be regarded as one of the few great forces in the Xi Yuan civilization.

At such a juncture, the spread of such news also shocked and frightened many cultivators in the great universe, and some places began to panic.

Because it involved the remnants of the Black Disaster.

For ordinary cultivators, this was almost an indelible shadow of terror, which changes color when they heard it, and trembled when they understood it.

Many epochs ago, the remnants of the black calamity swept across the multiverses and worlds of ancient civilizations.

Many cultivators were involved and arrested as believers, providing them with endless vows.

And in this disaster, the slaughter and disaster caused were simply unimaginable.

However, these were just the tip of the iceberg of disasters.

Once the black disaster spread, the order of all worlds and universes would collapse.

Like a plague and curse that could not be driven out, like tarsal maggots, it kept spreading to the rest of the world.

Ordinary cultivators would be corroded and contaminated once they touch the weird black mist.

No one knew how the black disaster came about, but they knew that the source of the black disaster once caused boundless disasters in the entire boundless world, and almost overturned it.

Now, the remnants of black luck had made a comeback again, and not only one side of the real world would be robbed.

All forces and civilizations in the vast expanse were not spared.

“Hehe, if it’s really the remnants of the black luck, so what? The remnants of the black luck that have appeared since the ages, are there still few, and there is no trouble at all. Xian Chu, just at this time, The news of this kind of news spread out is nothing more than wanting me to help.”

“However, this Heaven Slaying Alliance has a big tone and dares to take such a name.”

Xi Yuan Civilization, another powerful force, in Zixiao Mountain.

A majestic mountain range that seemed to be running through the universe stood in the vast sea of clouds.

The surrounding mountains were majestic and stretching endlessly, the sun was transpiring, the purple aura was lingering, and countless buildings and pavilions were located in the depths of the mountains.

In some places where the chaotic mist hung down, the entrance of the ancient world and the time and space of the dimensional universe could be seen, and there was a mysterious atmosphere spreading.

In the middle of the mountain range, several figures that seemed to be nothingness stand in a palace with no boundaries.

The one who spoke now was one of them, a tall figure wearing a purple gold crown and a wide sun and moon sleeve robe.

There was a faintly mocking smile on the corner of his mouth, and he seemed to be indifferent to the many news from the outside world.

“This person in Chu Gucheng is very wise and scheming. He deliberately spread such news and caused panic everywhere. In fact, he wanted to force us to help.”

“I don’t know what he is planning. Could it be that there is something in the immortal civilization that makes him afraid?”

Several other figures were also speaking, with some doubts in their words.

“The immortal civilization is covered by a mist, and the current situation is difficult to find out. There is indeed something weird there.”

“However, Chu Gucheng’s calculation is so good, I don’t want to let him do what he wants.”

The figure wearing the purple-gold crown said with a touch of sarcasm.

As the current owner of Zixiao Mountain, he had a lot of grievances with Chu Gucheng, so naturally, he would not let Chu Gucheng's calculations go his way.

The immortal civilization was attached to Xianchu Haotu, and now encountering disasters, it should be resolved by Xian Chu.

But Chu Gucheng was afraid and didn't want to send people there. Instead, he planned to let other forces take action because of the remnants of the Black disaster.

Zixiao Mountain was not stupid, so how could he not see through this thought?

And a similar scene was also being staged among the other forces of the Xi Yuan civilization at this moment.

Although all parts of the Xi Yuan civilization felt panic because of the sudden appearance of the Heaven-Slaying Alliance.

The Zixiao Mountain and other forces all sent out words at the same time, reassuring everyone, saying that this was just a small rebellion.

Xian Chu only needed to send some strong men to suppress and solve it easily.

Although the Xi Yuan civilization was vast and boundless, it was not an exaggeration to describe the universe and time and space under its jurisdiction as boundless.

But the composition of forces could be described as intertwined and complicated.

Any one of the most powerful forces, the time of inheritance, was often described in tens of millions of epochs, and there were struggles between them. Although they were peaceful on the surface, in reality, the situation was treacherous in the dark, and every step implied calculations and plans.

“One hundred and ninety-eighth year: You spread the tenets and teachings of the Heaven Slaying Alliance, successfully harvested trillions of believers, and received a compliment from him. You are very happy, thinking that your plan to feed demons with your body is getting smoother.”

“One hundred and ninety-ninth year: You conquered a real world and successfully spread the purpose and teachings of the Heaven Slaying Alliance, but you didn’t get his praise. You were unhappy for a whole year.”

“Stop...”

In the Xi Yuan Temple, the Holy Maiden Xi Yuan looked at the increasingly outrageous life trajectory in the mirror of reincarnation, and her flawless white face turned black.

She had no choice but to stretch out her slender jade hand to stop the deduction on the mirror of reincarnation.

Although this was a simulation of her future life trajectory, in her opinion, it was as if she had experienced it herself.

Therefore, she always felt weird, especially about the trajectory of the next few years.

In the beginning, she was only able to live for a few decades, and gradually, she found a way to live for more than a hundred years, or even longer.

But Holy Maiden Xi Yuan didn't expect that the trajectory of her life in the following years would be so outrageous that she found it incredible.

How could it happen?

Because she admired the relationship of the strong, she gradually developed a good impression of that mysterious enemy and wanted to know his origin and past.

When seeing this trajectory of life, with the cold and detached temperament of Holy Maiden Xi Yuan, she wanted to pooh and smash the mirror of reincarnation.

Obviously, this was the treasure of her civilization, but when it comes to deducing her current life trajectory, it seemed to be the mysterious enemy.

In order to survive, she gave up resistance and cut off all causal connections with Xian Chu.

Afterward, serving tea and water, bustling around, serving that mysterious enemy, gained enough goodwill, and then struggled to live to a hundred years.

Thinking of these life trajectories, Holy Maiden Xi Yuan gritted her silver teeth, trembling with anger.

This was her character, was this something she could do?

Chapter 1099: The Sealing Place of the Source of Black Disaster, Yanyang Realm

After calming down, Holy Maiden Xi Yuan's expression returned to normal, and her eyes flickered slightly.

Judging from the future life trajectory simulated and deduced by her in the mirror of reincarnation, as long as she didn't take the initiative to provoke that mysterious enemy, there shouldn't be any danger.

Moreover, according to these clues, that mysterious enemy was actually the leader of the Heaven Slaying Alliance.

It was also during this period of time that the mysterious existence was making a fuss in the Xi Yuan Civilization.

Although the Holy Maiden Xi Yuan had not left the Xi Yuan Temple, the believers and eyeliners of the Xi Yuan Temple were all over the heavens and all parts of the universe, and she only needed to sense a little bit to know many things happening outside.

However, in such a situation, she did not show up and stayed in the Xi Yuan Temple.

After all, this trouble was caused by Xian Chu, and it should be solved by Xian Chu.

The various forces in the Xi Yuan civilization also took a wait-and-see attitude toward this and did not want to get involved.

This naturally included the Holy Maiden Xi Yuan.

Judging from the future trajectory of life, Xian Chu would face a terrible catastrophe, which was in danger of being destroyed, and it would also sweep through the entire Xi Yuan civilization at that time.

It's just that compared to Xian Chu who would bear the brunt, the impact on the rest of the forces could be said to be negligible.

Judging from the current situation, the Xi Yuan civilization had not yet been affected.

If the Holy Maiden Xi Yuan didn't help Xian Chu and cut off the causal connection with her, then naturally she wouldn't have to worry too much.

Although the future life trajectory deduced by the mirror of reincarnation was a little outrageous, Holy Maiden Xi Yuan still believed in it.

So, now she was wondering what the identity of the mysterious leader of the Heaven Slaying Alliance was.

If it was really related to the remnants of the black luck as Xian Chu said, then due to her status, she could only find a way to take action, and it was impossible to be aloof and stand by.

“During this period of time, we can only wait and see what happens, or should I go to the sealed place where the source of the black disaster is, and investigate it clearly?”

Holy Maiden Xi Yuan frowned slightly with her slender eyebrows.

The omens from the Xu Dan civilization made her feel a little uneasy. It was really troublesome now.

Not only did the Heaven Slaying Alliance suddenly appear, but even that strange black mist descended again.

And was there a connection between these two things?

After all, judging from the purpose and teachings of the Heaven Slaying Alliance, it was indeed somewhat similar to the Remnants of the Black Disaster.

As the Holy Maiden of the Xi Yuan Temple, she shouldered the important task of suppressing evil and eradicating everything.

Even though she knew it would be a dead end, she had to stand up. This was the principle and responsibility that Master had always taught her.

However, this concept was somewhat contradicted by the views of the Holy Maiden Xi Yuan.

“Your Majesty, outside the holy temple, Chu Gucheng, the lord of Xian Chu, is here again and wants to see you.”

At this time, the sound from outside interrupted the thoughts of the Holy Maiden Xi Yuan.

She came back to her senses, and the faint voice also spread out, saying, “Let him go back, and tell him that I am in a critical moment of seclusion, and I will not see guests now.”

This was already the third time that Chu Gucheng had come to visit her in this period of time.

However, Holy Maiden Xi Yuan avoided seeing her on the grounds of seclusion.

She guessed that Chu Gucheng might be in the dark, and he had a premonition of guessing something, so he came to her for help.

However, once Holy Maiden Xi Yuan agreed, wouldn't her consequences be exactly the same as the future trajectory seen on the mirror of reincarnation at the beginning?

She and Chu Gucheng did have some friendships, but those friendships were not worth making a joke of her own life.

Obviously, this was caused by Xian Chu.

She didn't want to get burned either.

Outside the Xi Yuan Temple.

Standing on the cloud with his hands behind his back, Chu Gucheng sneered at the words of the maid who came to reply.

However, there were still not many emotional fluctuations on his face, as if shrouded in a layer of mist, his eyes were deep.

“It seems that the Holy Maiden Xi Yuan insists on avoiding me and is unwilling to help.”

“In that case, don't blame me...”

His eyes flickered slightly, but he didn't stay for long, turned around and tore apart the universe, and left this place.

Several months passed in the blink of an eye, and Xi Yuan Civilization was panicked by the rumors from Xian Chu.

They had a deep fear of the Heaven Slaying Alliance, which seemed to be inextricably linked with the remnants of the black luck.

Fortunately, during this period of time, the universe and time, and space of the Xi Yuan civilization were still calm, and there was no sign of disaster.

This also made many ordinary cultivators and creatures feel a little relieved, thinking that Xian Chu might be worrying too much.

The Xi Yuan civilization was one of the few powerful civilizations in the boundless world, and its strength and heritage were beyond imagination.

How could he be afraid of the so-called Heaven-Slaying Alliance?

Many cultivators know that among the nine heavens in the boundless realm, there was also a force called Heavenly Sect.

It's just that the forces on that side were extremely special and detached.

Because it was located in the nine heavens, it was not afraid of being backlashed by heaven and entangled in karma, so it could survive in the world forever.

But it was obviously impossible to confuse the Heavenly Sect and the Heaven-Slaying Alliance.

However, because of the rumors from Xian Chu, many factions in the Xi Yuan civilization noticed the existence of the Heaven-Slaying Alliance.

During this period of time, some cultivators left the Xi Yuan civilization and went to the boundless world, hoping to get a glimpse of the reality of the Heaven-Slaying Alliance.

There were also some core disciples of immortal forces in the true sense, young masters, the next successors they had cultivated, and so on.

The word “Heaven Slaying” was not tolerated in the world, and sooner or later the Heaven-Slaying Alliance would be punished by the heavens and would be liquidated by a terrible calamity.

...

“Heaven-Slaying Alliance, this is really a big tone, dare to take such a name in the boundless world, and have not yet encountered the scourge of heaven.”

“It seems that the mysterious leader of the Heaven-Slaying Alliance has unfathomable strength.”

Yanyang True Realm, the depths of Zhou Mie Mansion.

Sitting cross-legged on a vague piece of ancient black jade, the middle-aged figure in brocade robes was listening to the reports of the subordinates below with some interest.

The Yanyang Realm was also a Supreme Realm, and it could also be called the truly immortal Supreme Realm.

Because there was once a detached person born in this real world.

However, the current Yanyang Realm was already on the decline, and its strength was far worse than before.

Some civilizations whose birth dates were far inferior to Yanyang Realm had shown signs of catching up with it.

In addition, since these epochs, civil strife had continued in the real world.

The Zhou Mie Mansion and the Jiesheng Palace, and the once unified situation collapsed. In all the time and space of the universe, there were separate immortal forces.

The immortal forces in the Supreme Realm were by no means comparable to those self-proclaimed immortal forces in the Small World and the Newborn Realm.

Among those small thousand worlds, the inheritance had exceeded tens of thousands of years, hundreds of thousands of years, and they dared to call themselves immortal.

But in the Supreme Realm, only those forces that had gone through many times of calamity and liquidation and passed down time, calculated by thousands of years and ten thousand years, and truly stand still, could they dare to be called immortal.

“What the master said is very true. We suspect that the leader of the Heaven Slaying Alliance may be related to Jiutian. The power established is very similar to the Heavenly Sect controlled by Daoist Eternal Monarch.”

“Could it be that this is also the handwriting of the Daoist Eternal Monarch?”

In this vast mansion and palace, many figures stood tall, and none of them could see their faces clearly, but they exuded a brilliant majesty like an ancient god, shocking the nine heavens.

Hearing the words of the mansion master of Zhou Mie Mansion, one of them couldn't help but guess.

Chapter 1100: Going to Destroy the Real World of Mountains and Seas, the Person Barbara Wants to See

Because the other party was the strongest real world of the boundless world.

There had been many conflicts between Yanyang Realm and Nine Heavens.

Some time ago, the Heavenly Sect in the Nine Heavens, the sect master Daoist Eternal Monarch, even tried to meddle in the affairs of the Yanyang Realm and wanted to support the Jiesheng Palace to counter the Zhou Mie Mansion.

Zhou Mie Mansion and Jiesheng Hall were originally the forces left by the transcendent person of the Yanyang Realm.

Then, due to many reasons, it split into two forces, the Zhou Mie Mansion, and the Jiesheng Hall.

The previous Master of the Jiesheng Palace, before he had a premonition that the catastrophe of the eighth heavenly decline was coming, he forcibly broke through the pass, but he was backlashed, and then he died and disappeared.

At this point, the Jiesheng Hall was in chaos, and the other deputy hall masters were ready to move.

External forces were also trying to get involved and infiltrate.

Afterward, thanks to the action of the Palace Master of Zhou Mie Mansion, the situation was stabilized and the situation in the Yanyang Realm was not allowed to continue to be in turmoil.

“Daoist Eternal Monarch doesn’t have that ability. If he dared to recruit talented talents outside the nine heavens, in the name of slaying the heaven, he wouldn’t be able to shrink in it all the time.”

“He doesn’t dare to bear the karma and backlash.”

Hearing this, the mansion master of Zhou Mie Mansion sneered a little contemptuously, obviously disdainful of the actions of the Daoist Eternal Monarch.

Everyone nodded thoughtfully.

“Then Palace Master, this so-called Heaven Slaying Alliance, should we send people to investigate its reality?”

“I heard that there are rumors from the Xi Yuan Civilization that the Heaven Slaying Alliance and the remnants of the black disaster are closely related.”

However, there were still people who thought of other things and asked with some doubts and worries.

Hearing these four words, the remnants of the black luck, the expressions of the people there all changed, and they felt a little terrified.

The Palace Master of Zhou Mie Mansion frowned as if he was also thinking about it.

He got up from a high place, put his hands behind his back, paced around the hall, and said,

“Wait and see what happens. If it is really related to the remnants of the black disaster, then the situation in the entire boundless world will be turbulent.”

“The Shangyin Realm, since these epochs, has also been quite inflated, trying to achieve the only real realm, on par with the original realm. However, I already have a hunch that the Shangyin Realm may encounter an unprecedented situation in this calamity.”

His words made the faces of all the powerhouses there change drastically again, which was very shocking.

However, the Palace Master of Zhou Mie Mansion didn't say much anymore and waved his hand to make them all retreat.

The Yanyang Realm and the Shangyin Realm, as could be seen from their names, had their origins with each other, and their origins were related to the first ray of innate Yanyang aura and Shangyin aura at the beginning of the birth of the vastness.

However, compared to the Yanyang Realm, which had been going downhill all the time, the Shangyin Realm was the opposite, with luck transpiring and extremely prosperous.

Now the background of power and influence was even more prosperous, and it was enough to rank at the forefront in the entire boundless world.

“Even if you once planned the luck and origin of the Yangyang Realm, you can’t stop the trend of exhaustion. Could it be that the law of prosperity must decline, and it is difficult to change? Even the long river of fate has shown signs of drying up.”

“I just hope that there is still time, and finally cultivate a variable, and all future hopes are pinned on her.”

The Palace Master of Zhou Mie Mansion sighed slightly, and thousands of scenes flashed in his deep eyes.

While talking to himself, he seemed to think of something, and soon a slightly stooped old man rushed to the hall.

“I wonder why Palace Master called me here, what do you want to tell me?” The old man said respectfully.

“Barbara’s recent cultivation, how is it going?”

The master of Zhou Mie Mansion asked plainly, his face was not angry and majestic, and there was no sign of happiness or anger.

Barbara was one of his many descendants.

in the beginning, like many descendants, she was sent to various places in the vast world to undergo reincarnation experience.

Whoever could break through the cycle of reincarnation, understand the cause and effect, and understand everything would be qualified to become the next master of the Zhou Mie Mansion, and even the world of the entire Yanyang Realm.

At first, the master of Zhou Mie Mansion didn't care about Barbara, because he had so many children, and he couldn't remember the names of many children.

Only heirs with outstanding talents and strong luck could be remembered and valued by him.

If it wasn't for Barbara, it would be because when he was planning to plan against the underworld realm, he paid more attention and remembered the location of the newborn real world where she was.

Otherwise, it will be difficult to remember later that he still had such a daughter.

However, Barbara became his first heir who successfully participated in the experience of reincarnation and passed the assessment. He was still in a good mood.

This meant that among his descendants, there would be an existence who could be the leader of the Yanyang Realm in the future.

Later, he also investigated and deduced, and learned that Barbara's fate was covered by fog, and even he couldn't see clearly.

He was even more pleasantly surprised by this strange scene.

You must know that the detached person in the Yanyang Realm was also an odd number with unpredictable luck.

The master of Zhou Mie Mansion had great expectations for Barbara and hopes that she would be able to reach that step in the future so that the Yanyang Realm could be restored to its glory...

"Reporting to Palace Master, Miss Barbara's cultivation is progressing very quickly, but she insists on going back to the world where she has experienced reincarnation and wants to meet someone. According to the Lord's order, it can only be grounded, and it is difficult to take half a step out of the cave."

The hunched old man still replied respectfully.

The master of Zhou Mie Mansion nodded lightly and said,

"You guys are doing great."

"Her main task now is to cultivate, and the rest of the things are all side matters, which can be completely discarded."

“The world she was in at the beginning was called the Mountain and Sea Realm, and it was just a weak newborn Realm. I once felt the aura of the immortal fire in it, but at that time, I was too busy calculating the true spirit of the Underworld Realm, and I had no time to care about him...”

“Although Barbara has gone through many reincarnations, she is not very old in her heart. She is just at the time when she is in love, and she may have met someone during her experience in the real world, and she has a good impression. As a father, I can understand these things.”

“However, she shouldn’t be so concerned about a person because of such a trivial matter, so that she disobeys her father and wants to leave the Yanyang Realm.”

“You take someone to the boundless coordinates of the real world of mountains and seas, just erase it, and bring me back the immortal fire seed by the way. Barbara shouldn’t be in that place, and still has past experiences and memories.”

His voice was indifferent, without much emotional change.

Barbara’s fate was covered by the mist, and the master of Zhou Mie Mansion couldn’t deduce anything about Barbara, and he didn’t know who the person she was thinking of was.

Barbara did not tell him about the many experiences in the real world of mountains and seas. After returning to Zhou Mie Mansion, he had very little conversation with his father.

But as a father, he couldn’t let anything affect Barbara’s cultivation.

It would be great if he could find that person and erase him.

If he couldn't find it, it would be a big deal to destroy that newborn real world and erase all relevant traces and past.

The master of Zhou Mie Mansion did not want the current Yanyang Realm to follow in the footsteps of the Underworld Realm.

Once upon a time, the Underworld Realm was also an extremely powerful civilization, which was extremely prosperous, but it continued to decline afterward, and its luck was exhausted, and it was plotted by all parties.

Back then, the Underworld Realm would be destroyed, and the reason why there was a shadow of the Mountain and Sea Realm was actually entirely the handwriting of the Palace Master of Zhou Mie Mansion.

It's a pity that the last clan in the Underworld Realm had long been extinct.

Its young master, Ni Chen, even blocked a disaster for Gu Xian'er, and it had long since disappeared.
