Chapter 191: Wang Zijin, the Strongest Favoured Daughter of Heaven; This is the so-called Orthodox Way.

The Ancient Immortal Continent was in the midst of turmoil. Fear, war, death, and despair ran rampant all throughout. The peace before the people from Upper Realm entered seemed like an illusion.

Tranquillity cannot be easily regained once lost.

Just a few days prior, the Great Elder of Heavenly Dao Immortal Palace had even appeared in person, rushing towards the Dragon Island.

He was an ancient existence so old it'd be an insult to call them a living fossil.

And his unfathomable strength was enough to make anyone tremble.

No one knew what the Great Elder did when he finally arrived at the True Dragon Clan, nor did anyone understand why he ultimately fought against an ancestor of the True Dragon Clan, a legendary figure named Void Shadow.

But one thing was for sure. Their battle had shocked every Daoist Sect and Ancient Immortal Races, and even the stars outside the Upper Realm were shattered by the fluctuations, becoming streams of ashen powder floating in the night sky.

The Great Elder took action, shaking Heaven and Earth. The Qi in each of his strikes was as vast as a galaxy, submerging everything under its intense might.

So what if even the phantom of the True Dragon Clan's Ancestor reappeared?

He was simply no match for it.

The space within hundreds of thousands of miles of Dragon Island was blasted into dust in that battle, and the aftermath of the battle lingered on, making the hearts of many strong individuals tremble, not daring to go anywhere near.

After the war, the Great Elder showed his strongest methods and persecuted the Ancient Immortal Races, thinking that they needed to be unified, lest the other Daoist Sects come to take a piece of the pie.

The continent, which had survived since the Immortal Period, now needed a new ruler.

And although the Great Elder did not specify who the ruler was, every clan in the Ancient Immortal Continent realized that it must be the current Heir of Heavenly Dao Immortal Palace

Moreover, the identity of this heir was not a mystery to Ancient Immortal Races.

Wasn't it just a while ago that Gu Changge had raised a ruckus inside the Ancient Immortal Continent and pissed off the various Ancient Immortal Races?!

The incident caused shock and anger throughout the Ancient Immortal Continent, followed by a sense of deep unease. Gu Changge's backing was one that, as long as you knew about it, would already cause anyone to become terrified and fearful.

Yet now there was the Great Elder showing up to support Gu Changge as well?

It was simply unbelievable!

The many Daoist Sects in the outside world that noticed Gu Changge's ambition, gasped in astonishment.

'He intends to unify the Ancient Immortal Races!'

However, they were also puzzled, thinking that Gu Changge was still merely a young man.

No matter how powerful he was, could he possibly change the current situation of the Ancient Immortal Continent just using his own strength?

Not unless the forces behind him, such as the Ancient Immortal Gu Family and the Primordial Divine Sect intervene, and put their influence on the table.

Because it was a very unrealistic notion otherwise.

The troublesome piece called the Ancient Immortal Continent had a lot of meat for sure, but if one is not careful it would be difficult to swallow.

Furthermore, its bone might even make one bleed if one was not careful.

Hence, although many Daoist Sects were planning to conquer the Ancient Immortal Continent for a long time, they never took any actions, unlike Gu Changge.

This move of his truly shocked countless cultivators.

The Ancient Immortal Continent had a glut of inhabitants, with inheritances that have been standing since the Immortal Period.

Apart from the destroyed Tiangou Clan, which had surrendered, no substantial harm or loss had befallen the other clans at all.

That meant that the many Daoist Sects pouring into the Ancient Immortal Continent would not pose too much of a problem for the natives, since not every sect could kill everything in sight like Ancestor Gu Nanshan of the Ancient Immortal Gu Family.

— — —

[At the same time, in an endless mountain range.]

"The Great Elder gave the True Dragon Clan half a month to consider. If the True Dragon Clan has not given a reply by then, they will be suppressed by the Great Elder."

?The True Dragon Clan holds an extraordinary significance to the rest of the Ancient Immortal Races, and are arguably the most powerful. Once they choose to surrender, there are bound to be other clans that follow."

“Gu Changge’s idea to act using the Great Elder was smart indeed...”

Many ancient and huge warships floated in the sky, shrouded in golden mist, like immortal soldiers descending from myth.

The person who spoke was standing on the warship, his splendid golden eyes gleaming, the descendant and heir of the Immortal Wang Family – Wang Wushuang.

He was still in the Ancient Immortal Continent.

Besides him was an old but powerful elite of the Immortal Wang Family, with a stooped figure and terrifying aura.

After learning of the Fairy Gate’s appearance, this old monster had come to the Ancient Immortal Continent to look for opportunities.

However, he received nothing but near-fatal injuries in the end. He had lost almost half their life on this journey.

Yet he did not choose to immediately leave the Ancient Immortal Continent but instead chose to stay by Wang Wushuang’s side. They planned to look out for Gu Changge and fish in troubled waters to get some benefits.

“What a fine plan. Using the excuse of getting justice, not only did he pacify the Tiangou clan, but is now even intending to encroach upon all the Ancient Immortal Races...”

Hearing this, the old monster also sighed, incomparably amazed by the boldness of such a young junior, and feeling curious at the same time.

“Hah, apart from those Ancient Freaks or the Forbidden Demonic Arts’ Inheritors, I am afraid few people in the younger generation are qualified to fight against Gu Changge. We can only but speculate on what level of cultivation he might have already reached.”

Wang Wushuang’s body, hidden in the thick fog, looked very mysterious.

Revealing only those all-seeing golden pupils that flickered with runes from time to time.

He nodded solemnly.

Ever since his birth, he had prided himself on being invincible, yet he couldn’t help but be scared when facing Gu Changge, his heart palpating.

In a real fight with no holds barred, Gu Changge would crush him.

“Gu Changge is truly powerful, but he’s not necessarily invincible. Wushuang, have you forgotten about your sister? She should have left secluded cultivation and returned by now.”

The old monster standing near Wang Wushuang smiled slightly at those crest-fallen words, before casually mentioning the arrival of Wang Wushuang’s mysterious sister.

“My sister?”

Wang Wushuang was stunned for a moment, his reaction a bit sluggish, while all kinds of memories flashed through his mind like lightning. n0VelusB.c0M

He was actually very curious about this incomparably mysterious sister of his.

It was said that she had been picked up and taken away by the Human Ancestral Hall at a young age to undergo specialized training because of her extremely terrifying talent.

And during the practice which lasted more than 20 years, she had never once returned to the clan.

Therefore, many clansmen and even some senior members of the Immortal Wang Family did not even know about his sister's existence.

Even Wang Wushuang himself had only heard about it recently from a Clan Elder.

And it seemed like this elder sister of his had successfully completed her practice within the Human Ancestral Hall, and was now returning to the clan.

"Is she very strong?" Wang Wushuang asked after being silent for a while.

"Strong?"

The old monster smirked, shaking his head gently, **"To describe your sister only as strong is already considered an insult. Her talent is simply unparalleled."**

"You need only know that during the day when your sister was born, a peerless Heavenly Vision spread out across a million miles, and the Great Dao resounded for three days, three nights. It caused many cultivators to realize some bits of Dao on the spot."

"At that time, she directly devoured the essence of several star fields and was born at the level of a Sacred Realm Cultivation. It's just that she herself decided to destroy her cultivation base using her tremendous perseverance and willpower."

"This incident shocked several ancestors into awakening from their seclusion. Combining their strength, they then made a bold move to cover up all the secrets and seal the very heavens, to prevent the other Daoist Sects and Immortal Clans from noticing."

"Many clansmen who knew about this matter also sealed their memories; for fear that someone would realize your sister's terrifying talent in advance and assassinate her."

The words of this old monster, fuelled by deep admiration, dumbfounded Wang Wushuang.

It was unbelievable!

Born with a Sacred Realm Cultivation? What was this concept?

Even with his god-gifted talent, he was still only in the False God Realm after training for so long and wasting so many resources.

Yet his sister was born a Sacred Realm cultivator?

It was too shocking! If he had not heard this directly from the mouth of the old monster, he would never have believed it.

Horrifying. The news made him freeze in place, trembling slightly.

“It's no wonder that my sister's existence was hidden by the clan, with no news available about her. If it had spread out, it would definitely cause a major earthquake, and she would've most likely been assassinated before reaching maturity.”

Wang Wushuang suddenly felt a sense of admiration for his estranged sister.

“Yeah, at that time, many clansmen had their memories of this matter sealed. Thus, your sister's existence has always been kept a tight secret.”

The old monster nodded in agreement.

“So don't look at Gu Changge acting so victorious now, there are many more people with more monstrous talent than him in this world. For your sister, it won't matter how strong Gu Changge becomes, he'll probably never be worthy of being her opponent.”

“I remember hearing a few years ago that she was about to enter the God King Realm, and so it is estimated that she is not far from the Sacred Realm now...”

Hiss!

Wang Wushuang sucked in a breath of cold air, suffering another blow to his pride.

‘She was in the God King Realm a few years ago?’

‘Such monstrous talent!’

At this moment, he finally understood why those clan elders didn't pay much attention to him as an heir, putting little effort into properly raising him.

It turned out that his existence was purely a cover-up for his sister!

Thinking of this, Wang Wushuang couldn't help but smile bitterly.

But what could he say? Who asked his talent to be inferior to his sister?

“It seems my sister has left me a lot of trouble.” Wang Wushuang sighed in acceptance.

The old monster coughed slightly, **“I do have to say, though, that your elder sister strangely didn't cry or make trouble when she was born, which is different from other babies. It was as if she possessed life-transcending intelligence from her past life. The ancestors decided to investigate, but still couldn't find out the reason...”**

“Furthermore, her personality is, uh...”

Speaking until here, the old monster showed a weird tangled expression, as if it was difficult to describe exactly what he wanted to say.

He still remembered it vividly.

A young girl, with pink cheeks that looked like jade and skin as delicate and as flawless as a little fairy, opened her mouth to spill out “your mother’s...” and a various blend of exotic and expressive curses. The impact on his three views was simply immense that day.[1]

[1: Three views is a Chinese thing. One’s perspective over life, world, and value.]

These memories left a deep impression on him.

“By the way, what is my sister’s name?”

Wang Wushuang was becoming more and more curious about his sister.

It was unbelievable that this Clan Elder would show such an expression and say such words.

“Your sister? Her name is Wang Zijin... and you’ll see her soon enough.”

The old enchanting smiled menacingly and spoke.

“And soon, this name will shake the entire Upper Realm.”

— — —

[At the same time in the Heavenly Domain, Upper Realm.]

Within the most prosperous and ancient territory’s centre.

A majestic palace that stood in the sky, magnificent and sacred, like an immortal abode.

Tiles of flawless white jade and pure glazed glass, paired with eaves made of million-year-old purple gold sandalwood, lead up to a pavilion paved by Obsidian Star Stones.

It was an extremely luxurious atmosphere.

Domineering, yet quaint and solemn.

Filled with a thick sea of surging immortal aura.

A palace that oversaw the endless pond below the Ancient City.

Rising as the sun, and setting as the moon, countless gleaming runes intertwined between every breath and move in the Main Hall.

Reflecting the stars of the nine heavens, and viewing the universe like a supreme throne, it showed the transcendental status of this palace.

A huge Immortal Plaque hung in front of the temple gate, with purple Immortal Gold as the base and inlaid with Immortal Gold Glyphs.

Converging into three Archaic words.

Human Ancestral Hall.

Thousands of silver threads could be seen flowing from Heaven and Earth, rushing towards the palace crazily, as if they wanted to gather inside it, those lines of energy that appeared sacred and pure.

And inside these silver threads were countless chants, praises, and prayers. The culmination of the worship and recitation of Human Ancestor's achievements from cultivators all over the realm.

At this time, a beautiful woman dressed in flawless white clothes with a veil on her face was cultivating with her eyes closed in the main hall.

A vague immortal figure, so grand and mysterious, seemed to chant scriptures behind her. It looked ethereal and ephemeral as if it was crossing the space-time barrier from an Immortal Period.

Her complexion was fair and delicate. Her eyebrows were fair and sharp. And her eyes were a pair of flawless black gems, shining with a lustre that could move the souls of any being.

But her expression only showed a bone-chilling apathy.

A state of detachedness, like the abandonment of emotions and worldly desires.

"Reporting to the Saintess, Holy Maiden Zijin has left the Heavenly Domain and is on her way back to the Immortal Wang Family."

A man and woman suddenly appeared out of thin air.

The woman respectfully reported her piece.

"Wang Zijin... so she still left secretly ."

Hearing this, the woman in white seemed a bit surprised.

Yet, her expression was as calm as ever, as the receding waves of an ocean.

"Did she say anything?" The woman cloaked in white asked lightly.

"Holy Maiden Zijin also left a short message saying that she has no interest in finding the reincarnation of Human Ancestor and that it was purely a coincidence that she came to this place to cultivate, and that we... 'did her dirty'."

"So now she's leaving."

"She also said that she doesn't want the position of Saintess... and needed to go back to find a husband to marry..."

The woman who was reporting on the situation looked a little embarrassed.

For this type of remark to be said by the Human Ancestral Hall's Descendent was simply too shocking. If any outside ever heard about it, they would be completely disgraced!

Then again, considering the Holy Maiden's "unique" attitude, it did not seem too strange.

But even though the Holy Maiden talked about "marriage" so lightly, her words were shallow at best, since she barely had experienced the outside world.

"Wang Zijin's dreams truly are big, but I'm afraid this matter is not something she can decide for herself. Once you enter the Human Ancestral Hall, you'll be a member of the Human Ancestral Hall for

life. Assisting the Human Ancestor in restoring the world's peace becomes your lifelong obligation and duty."

The woman in white just shook her head slightly.

'Wang Zijin cannot escape her fate.'

'As for this "marriage" matter, although Wang Zijin said it so casually, she is actually a very arrogant person. Even in the Human Ancestral Hall where talents are abundant...'

'No one can hope to catch her attention.'

'Could the outside world possibly compare with the Human Ancestral Hall in this regard?'

As her words echoed in the spacious chamber, a hazy mist began to appear upon the face of the woman clothed in white, covering her whole body.

The voice became indistinct, and it was impossible to tell whether it was male or female.

To think that there would be two descendants of the Human Ancestral Hall in this life and that the descendants were both women! It was something deemed unimaginable in the past.

The Elders decided to elect them as a pair of descendants because the talent of both those women was just too good to waste

Whether it was Wang Zijin of the Immortal Wang Family or the woman in white named Jiang Chuchu, they were both terrifying monsters of the younger generation.

Moreover, in the eyes of many old generation powerhouses in the Human Ancestral Hall, Jiang Chuchu was very likely to be the reincarnation of an Ancient Immortal!

Although Wang Zijin was strong, it would be difficult for her to gain an upper hand in front of Jiang Chuchu.

"According to my prediction, the reincarnation of the Human Ancestor should have been born already. It seems that I have to leave this place."

Jiang Chuchu pondered for a while, her calm face showing otherworldly insight.

Because not every generation would herald the Human Ancestor's reincarnation.

For the descendants of the Human Ancestral Hall, their biggest task was to protect the Human Ancestor's reincarnation in his infancy and help him slowly become stronger.

To aid in awakening the Human Ancestor's past memory and guide him to become a powerhouse of the generation, in order to save the world and bring salvation to all races.

"The reappearance of the Forbidden Demonic Arts' Inheritor in this life will inevitably lead to chaos in the world. On the way to finding the Human Ancestor's reincarnation, I will capture the Demonic Arts' Inheritor and kill them first."

Jiang Chuchu muttered to herself. Bringing justice to the common folk and eliminating harm for the people was her primary moral code.

Righteous, Brave, and Benevolent. If Gu Changge was here, he'd definitely understand that this woman had the bearing of the True Orthodox Path.

— — —

Boom!

Horrifying pressure like a mighty mountain fell from the sky. A sea of suppression.

Shaking the Heavens and moving the Earth, the sun and moon lost their lights. It was like a supreme being, slashing forth a blow from the ends of the universe.

Yet in the next moment, the breath of Qi that made the sky tremble seemed to have been strangled by the throat, vanishing in the blink of an eye.

The monstrous force dissipated like the fading embers of a fire.

[Ancestral Hall, Divine Crocodile Clan]

Gu Changge stood there with his hands behind his back, clothed in black hunting clothes, with a smile on his face as he stared down at the kneeling ancestor of the Divine Crocodile Clan.

“Are you courting death?”

“Young Master Gu, please don't take my words seriously, you are a magnanimous and benevolent person. There is no need to listen to the ramblings of an old fool like myself...”

The Quasi-Supreme Ancestor of the Divine Crocodile Clan paled as cold sweat trickled from his scaly forehead and down his spine.

All the clansmen behind him were even more frightened, almost bathing in desperation.

They did not expect that their ancestor in the Quasi-Supreme Realm would be so helpless in front of Gu Changge, to the point where his life was in the palm of Gu Changge's hand!

This was no longer as simple as the prior deterrence.

He had now firmly controlled the lives of clansmen of the entire Divine Crocodile Clan.

“You seemed to be courting death, but I will spare you on the grounds that you still have some use to me. If there is a second offence, it will not only be you but also your entire Divine Crocodile Clan... that I will personally see buried.”

Looking at the ancestor of the Divine Crocodile Clan, Gu Changge spoke with a slight smile.

The contrast between his natural indifference and his bloody, threatening words, made all the Divine crocodile clansmen shiver, not daring to breathe a single breath.

“From today onwards, we will honour Young Master Gu as our Lord.”

They had no choice. It was either surrender or death by Gu Changge's hand.

And there was no doubt that they'd choose to surrender.

‘One should not take Gu Changge’s words so simply.’

Quite a few clansmen actually did not believe in his terror and had provoked him earlier. But just when they were about to attack him, their bodies collapsed, souls destroyed, dissipating as they died without taking a single move.

In Gu Changge’s view, it was necessary for the Divine Crocodile Clan to recognize the fact that he could kill them all without issue, lest they wonder if they might have a chance to break free from his control

It was impossible for him to appear like this unless he was completely sure of his abilities.

The terrifying control of the Immortal Binding Arts was not affected by the cultivation base.

Chapter 192: Not Naming Nonsense; The Trope of a Smooth Sailing Protagonist!

Gu Changge subdued the whole Divine Crocodile Clan with little effort; after all, under the terrifying control of the Immortal Binding Art, he could determine the life and death of the Divine Crocodile Clan's three Quasi-Supreme Realm ancestors with a single thought.

If it came to it, he could just kill a few more people again in order to make the rest of them more fearful and obedient.

Hence, Gu Changge was naturally not afraid of them rebelling.

Because even if they did, it wouldn’t make much of a difference.

He merely wanted a sword capable of killing and fighting for him.

He didn't actually care if the sword got damaged or shattered into pieces; he could simply discard it and replace it with a new one at any time.

In Gu Changge’s opinion, the major clans of the Ancient Immortal Continent were the best tools for the job.

They were especially blessed in terms of their innate bloodline talent, far exceeding the myriad collection of human cultivators and beasts races from the Upper Realm.

Therefore, Gu Changge intended to train a powerful army within the Ancient Immortal Continent, an army that would be capable of slaying Young Supremes and sweeping through the myriad realms in the near future.

Buzz!

Soon after receiving Gu Changge's orders.

“Greetings, Master!”

The Divine Crocodile Clan's three remaining Quasi-Supreme Realm ancestors knelt before Gu Changge and greeted him respectfully.

They assumed that they were being controlled by Gu Changge using the slave seal, never once doubting that the real culprit was the Ancient Technique that they had obtained from the Black Heavenly Eagle Clan with great difficulty.

Regardless of who it was, no one would be able to figure out that the root actual cause of their subservience was the Ancient Technique, no matter how hard they racked their brains.

And even if they did find out, they wouldn't dare to believe it.

Gu Changge's methods could only be described as meticulous, marvels of cunning; to call his plans seamless would be an understatement.

"I am not an indiscriminate killer; if you work hard for me, you will naturally enjoy some benefits..." Gu Changge replied to them nonchalantly, making hollow promises as his gaze drifted far ahead.

"Select all the brave and skilled fighters in your clan above the True God Realm." nOveℓUSb.COM

"Henceforth, they shall be known as my Divine Crocodile Army."

Gu Changge said with a deep, mysterious smile.

At that moment, a beam of light descended with a wave of his sleeve, and he bestowed them a skill known as the 'Great Art of Heavenly Creation.'

He didn't bother naming it something grand; being memorable and distinct was enough.

"Yes, master."

Although the three Quasi-Supreme Realm ancestors knew that Gu Changge wouldn't be so kind needlessly, who among them would dare to refuse him at this moment?

The people of the Divine Crocodile Clan, whose expressions were incomparably bitter, could but begrudgingly accept this technique.

'The Great Art of Heavenly Creation?'

If the technique was truly as the name suggested, how could that evil Gu Changge bestow it upon them so easily?

The clan members who hadn't reached the True God Realm yet were grateful at their incompetence and heaved sighs of relief.

There were many powerful people in the hall today, including up to thirteen Sacred Realm beings.

In Gu Changge's eyes, this was still a force that couldn't be underestimated.

Following that, the entire Divine Crocodile Clan received an order from their ancestors. The Divine Crocodile Clan had submitted to Gu Changge.

Soon after, recruitment for the Divine Crocodile Army started!

The entire clan was at Gu Changge's disposal.

At first, the whole clan was baffled by this order.

However, no one dared to disobey since it was the ancestor who ordered it so.

And as for Gu Changge, they were naturally not unfamiliar to him.

Which clan in the entire Ancient Immortal Continent was unaware of Gu Changge's terrifying reputation?

But they never expected that their great clan would actually end up submitting to Gu Changge.

The news was simply too unexpected.

A while later, news from the top echelon of the Divine Crocodile Clan was released, explaining that Gu Changge was the heir of the Ancient Deity of Reincarnation.

Back then, their ancestors followed the Ancient Deity of Reincarnation, so it was only logical that they would now follow his heir, Gu Changge.

For the sake of their old faces, they couldn't reveal that they were forced to do so by Gu Changge's slave seal.

Thus, Gu Changge had completely subdued the entire Divine Crocodile Clan in a mere three days, and immediately started training his army.

But the news of this did not spread. Gu Changge was deliberately keeping it under wraps.

He was waiting for the perfect opportunity to have this sword of his strike a fatal blow to the Ancient Immortal Continent as a whole.

Bringing along the Divine Crocodiles Clan's three ancestors, Gu Changge then left for the territory of the Ancient Serpent Clan.

Black Heavenly Eagle, Ancient Serpent, and Divine Crocodile. These three clans appeared to be united on the surface, but had a lot of friction with one another behind the scenes, contending with each other all the time.

Nonetheless, among the clans left behind by the Ancient Deity of Reincarnation, these three were the most powerful and long-standing

The rest of the clans were ultimately weaker than them.

Even in the vast Ancient Immortal Continent, there weren't many clans as strong as these three.

Soon, several terrifying forces tore through space and plunged from heaven and earth into the Ancient Serpent Clan's territory, as though the sky itself was crashing down.

“My lord, we are now in the Ancient Serpent Clan's territory.”

One of the Divine Crocodile ancestors who had led Gu Changge there bowed and stated.

‘Brother, even if you die, I won't die. Because why should I die, when you yourself will not?’

Basically: If I need to die, why not drag other people into the mud with me?

This was the mentality of many of today's Daoist groups.

This saved Gu Changge the trouble of finding them.

For a while, the entire Ancient Serpent Clan was in a huge uproar!

Many of the Ancient Serpent Clan's elders and senior members began gathering in the main hall.

There was a solemn and respectful expression on everyone's face as they looked at the young man in the centre.

They had already sensed Gu Changge as soon as he arrived. Especially since Gu Changge was currently accompanied by three ancestors of the Divine Crocodile Clan, making the purpose of their visit more than self-evident.

“My clan is willing to submit to the Young Master; we are willing to go through fire and water and be at the Young Master’s disposal.”

The Ancient Serpent Clan's senior members were all extremely intelligent and cunning.

Why would the Divine Crocodile Clan be so submissive if it was possible to resist?

Even if one thought only with their toes, one would definitely feel something amiss with the situation.

Now that it has come to this, they choose to just be smarter and avoid the unnecessary casualties.

Gu Changge smiled slightly and said, **“Very good, you people are very clever. You have saved this Gu’s time.”**

The members of the Ancient Serpent Clan remained silent.

Gu Changge then established the Ancient Serpent Army in the Ancient Serpent Clan, selecting powerful people above the True God Realm and bestowing them with The Great Art of Heavenly Creation.

Gu Changge didn’t bother coming up with a proper name, as he was simply too lazy.

Although these forces were not yet fully prepared, they were already radiating with a terrifying might.

Unfortunately, when putting it bluntly, the Tiangou Clan, Black Heavenly Eagle Clan, and now the Divine Crocodile and Ancient Serpent Clan, were all merely Gu Changge's slaves.

He would need but one word to make these clans start a bloodbath for him in the Ancient Immortal Continent!

— — —

In the blink of an eye, several days passed.

By Gu Changge's prediction, it was about time for the Great Elder to receive the True Dragon Clan's decision.

So he sent out an order. A call summoning the powerful individuals of the Primordial Divine Sect stationed in the Supreme Peak. They came rumbling through space, driving the Ancient Warship, and descended right outside Dragon Island!

Directly above the city!

When the news broke, numerous cultivators and creatures were astonished by Gu Change's sudden action.

Gu Change, who had been away for a long time, abruptly returned to the Ancient Immortal Continent to stir up an endless bloodbath!

Buzz!

In a flash, a divine rainbow rushed forward and converged outside Dragon Island.

“I thank the Great Elder.”

Dressed in a feathery white robe, Gu Change's handsome figure emerged atop an ancient warship, smiling slightly at the Great Elder who was watching over the place.

“I hope you will keep your promise.” The Great Elder couldn't help but sigh, unable to do anything about the devious Gu Change.

This scene made numerous cultivators and creatures gasp, becoming even more terrified, it seemed that even the Great Elder was being coerced by Gu Change!

Dragon Island was now glowing. The clan had activated their protective array in the mountains, as all the clansmen knelt down to pray, sending out a heaven-shattering dragon roar.

— — —

[Meanwhile, hundreds of thousands of miles from Immeasurable Heaven. Within the Heavenly Domain.]

Clouds and mists swirled as mountains rose and fell. Beautiful landscapes appeared, with lakes as clear as jade, looking magnificent and breathtaking.

Pure white clouds, on a journey to the ends of the world.

In the sky above, a carriage with a red fiery trail was galloping along, driven by nine heavenly horses of the finest quality.

Behind it, a group of powerful armor-clad cavalymen followed, mounting all sorts of terrifying beasts, their aura domineering.

The carriage pressed its way through the rolling white snow of the sky, its body faintly flashing with what appeared to be the fluctuations of various powerful talismans.

The old coachman's face was calm and peaceful, carrying all the weight as if it were mere feathers.

A feat that undoubtedly highlighted the nobility and extraordinary nature of the person inside the carriage.

Many cultivators nearby witnessed this scene and chose to turn back instead of approaching.

From their viewpoint, the people in the carriage were either very wealthy or noble, people they couldn't afford to offend.

“I told you to quit following us! Go back and tell your Young Master not to waste his time, the Young Miss isn't interested in him in the slightest.”

“And if he still doesn't understand, then don't blame the Young Miss for being rude.”

At that moment, the curtain of the carriage suddenly lifted and the head of a small maid with bright eyes and white teeth peeked out, her braided hair flowing in the wind.

The little maid was around eleven or twelve years old and looked quite pretty.

She frowned and glared at the cavalymen following behind her, snorting with dissatisfaction.

“Miss Xiu'er, this matter was ordered by the Young Master, so we have no choice! Please don't give us a hard time. Once we escort Holy Maiden Zijin outside of the Heavenly Domain, we will return, absolutely not staying a moment longer.”

The leader of the cavalymen, a middle-aged man with a sturdy build wearing golden battle armor, smiled bitterly and replied.

“Tch. It's that annoying Zhao Tianxing again, why doesn't he ever give up?”

The maid named Xiu'er didn't look happy at all.

The Young Master behind this group of cavalymen was annoying as hell.

And the reason was very simple.

The one sitting in the carriage was one of the current descendants of the Human Ancestral Hall, Holy Maiden Zijin. The maid had always been responsible for taking care of the Young Miss's daily needs.

And the master backing this group was none other than the Primordial Zhao Clan's Young Master, Zhao Tianxing, a renowned Young Supreme in the Heavenly Domain.

‘I don't know where that Zhao Tianxing got the news that the Young Miss was leaving the Human Ancestral Hall. Sending his cavalry to escort her and acting like a self-righteous protector. What a creep!’

They could not hide from such things even if they wanted to.

This group of thick-skinned people came all the way to the border of the Heavenly Domain, and now they were almost at the boundary of the Inner Domain.

This matter had made Xiu'er's attitude towards Zhao Tianxing take a turn for the worse, but she still showed some courtesy due to his position.

Now there was absolutely none left.

Moreover, Xiu'er knew that her lady must have been very unhappy with Zhao Tianxing's constant harassment as well.

Previously, on several occasions, they were unable to help using some physical persuasion, and Zhao Tianxing was left seriously injured.

However, the more that happened, the more determined Zhao Tianxing became. He was completely undeterred in pursuing the Young Miss, simply like a masochist.

His cowhide-like face made her Young Miss feel immensely frustrated.

If Zhao Tianxing's father hadn't intervened and pleaded for mercy on his behalf at that time, this Zhao Tianxing would have been beaten half to death, unable to walk for months.

“Zhao Tianxing doesn't dare to show up himself, so he sent you guys instead. If not for the Young Miss's kindness, you would have been slapped to death by now.” Xiu'er humphed unhappily.

She was completely disregarding Zhao Tianxing's identity as the Young Master of the Primordial Zhao Clan now, her small face full of intense dissatisfaction.

‘Protection on the road? More like stalking, you mean.’

It made her feel utterly disgusted to the point of wanting to puke.

So she could only imagine how much more disgusted the Young Miss would be.

“Our master is the young master of the Primordial Zhao Clan, yet Holy Maiden Zijin has not been treating him with the respect he deserves. The young master did this out of the kindness of his heart. He was afraid accidents might occur on the way, so he has sent us all the way here.”

“Even if there's no merit to be had in this action, it still has many hardships.”

“Miss Xiu'er, along the way, do you know how many potential dangers were nipped in the bud by us? Or are you unable to see these things?”

Hearing her barbed words, the group of cavalymen also spoke up one after another in dissatisfaction.

“Tch, if you still don't understand, then don't blame me for speaking harshly. The Young Miss has so many suitors in the Heavenly Domain, where does this Young Master of yours even rank?”

Xiu'er's face darkened and she spoke with a cold tone.

Although she looked very young, her cultivation level wasn't weak in any way.

She even possesses a special kind of spiritual body and had been personally taught by the Young Miss, so her strength was actually quite impressive.

The expressions of the cavalymen changed in response to the young maid's insult. Their faces contorted, looking unsightly and infuriated, but they could only suppress their anger to avoid any conflict.

Having to escort a carriage until its destination with no merit or reward, wasting so much time and effort.

Yet they did not receive any semblance of a warm response from the protected party.

Like pasting a hot face on a cold butt.

If it wasn't for the fact that the other party was the heir of the Human Ancestral Hall, a dignified status which cannot be provoked, they would have most likely moved to teach them a lesson by now.

Especially the brat of a maid, who used the Holy Maiden Zijin as her backing and continuously mocked and sneered at them, causing them problems to no end.

Naturally, they didn't know the true origins of the Holy Maiden Zijin.

Even in the Human Ancestral Hall, not many people knew of the true power behind her.

Even the elder who brought her to the Human Ancestral Hall for cultivation didn't mention anything about this matter.

“I detest guys who act self-righteous the most. I’ll give you guys a chance to get out of here before I get angry, so I urge you to quickly grab it.”

Suddenly, from within the carriage rang out a melodious, sweet, and angelic voice.

However, the fairy-like voice carried a chilling murderous intent, accompanied by the surging ferocity of a runic ocean.

Sharp, blue ice crystals filled the space as a bust of icy light emerged from Heaven and Earth.

The frightening chill swept through all directions, causing the heavens to tremble as the divinity surged forward, as though it could submerge the entire realm.

As if a terrifying blizzard was about to descend on this place.

“Holy Maiden Zijin, you...”

The cavalrymen's expressions changed drastically, and their bodies went cold, a terrifying chill creeping down their backs.

It was the first time on the road that the Holy Maiden Zijin had spoken. Before this, she had treated them like air and ignored all of them.

And it seemed evident that the Holy Maiden was about to get really, really angry with them.

This made their expression grow increasingly unsightly, while at the same time making them reluctant and puzzled.

Acting self-righteous? When did they do that? Their minds were in a daze.

They were unable to figure out why their good intentions would cause her to be so displeased.

That said, their fear did not stem from the Holy Maiden's personal strength, but instead from the influence of the Human Ancestral Hall backing her.

In their opinion, although Holy Maiden Zijin's true strength was very mysterious, she rarely ever fought.

And the strength she demonstrated did seem more unfathomable than that of the other descendent who was claimed to be the Reincarnation of an Ancient Immortal.

But she was ultimately only a junior, so how could she compete with people like them who had cultivated for more than hundreds of thousands of years?

[Kshn: I bet this author-san never passed his Mathematics exams.]

Nevertheless, they would much rather not offend a supreme power like the Human Ancestral Hall, no matter how much they boasted of their great strength.

Especially with the recent news of the reincarnation of the Human Ancestor reappearing in the world.

“Scram! And tell Zhao Tianxing, if he dares to enter my line of sight next time, even his father won't be able to protect him.”

“That is what I, Holy Maiden Wang Zijin, decree. If he fails to comply with my decision, then I will take him on even if the Jade Emperor were to block my path.”

The angelic voice from the carriage, with a cold and domineering intent, sounded again.

Thousands of rattling Divine Swords formed from the chilling aura in the sky, dazzlingly bright. They seemed to emit a terrifying sharpness, wanting to cut everything in their path.

Such words made the group of cavalymen's faces pale even further, although her statement sounded a bit roundabout, they understood the implications hidden within.

The next time their Young Master dared to pester the Holy Maiden, he would be met with a fierce and merciless assault.

“If you wish to live, then get lost.”

“Once the Young Miss becomes angry, the consequences will be very severe.”

The old man who had been driving the carriage also opened his eyes.

Within his murky yet profound eyes was a wisp of golden intent. It was similar to a certain kind of snake...

He opened his mouth and spoke casually, but the mighty pressure of a Great Sacred Realm permeated and shook the dome of the sky.

“This... he turned out to be a Great Sacred Realm...”

Hiss!

“How can this be? Why is the strength of this old coachman so terrifying?”

This scene caused this group of cavalymen to stagnate, their eyes widening and souls trembling, unable to help but be horrified.

In the next moment, they regained their senses and rode on their mounts, not daring to stay any longer. The band of 'protectors' hurriedly turned into divine rainbows and ran off into the distance.

Prior to this, no one had ever told them that the old coachman of the Holy Maiden Zijin was a Great Sacred Realm being.

With such an existence at their side, the escort was no doubt unnecessary!

Thinking about their attitude just now, everyone shivered. A Great Sacred Realm Cultivator could absolutely capture them all in that place if he really wanted to!

It appeared that the Holy Maiden Zijin was far more mysterious than they had originally thought.

“I didn't expect that such things would bother Grandpa Snake.”

Then, after a brief moment of silence, the voice from the carriage rang out in a gentler tone, thanking the old man outside.

“Not at all, Miss. Please don't get angry over such a trivial matter. It's not worth it.”

The old coachman smiled slightly when he heard these words and regained his indifferent face.

“It seems like I was right, the real cultivation of Grandpa Snake is definitely not as simple as it seems on the surface...”

“He was concealing it until now.”

At that moment, the beautiful eyes of the woman inside the carriage flashed with cunning intent, her aqua-blue dress fluttering about.

As if she had just seen something extremely amusing.

When she spoke, her eyes couldn't help but narrow into a crescent shape, appearing extraordinarily delicate and charming.

Needless to say, she was a woman of the highest standard, at least in terms of appearance.

As if an orchid in an empty valley, a misty fog in an enchanting forest, she possessed an otherworldly and serene beauty that was outside of the mundane world, paired with cunning eyes that could see through anything and everything.

It was the perfect harmony of heaven and earth as if she was part of the natural beauty of the world.

A sense of flawlessness.

Her flowing, black hair gently danced; her long skirt swayed.

Not only did she possess an attractive face, but she also carried a temperament that was beyond comparison.

Untainted by mortal dust and worldly desires, it made all who viewed her feel ashamed as if all the beautiful scenery in the world had suddenly lost their lustre in front of her presence.

‘Absolute Perfection’.

That would be the two words that come to mind if a man ever saw her true face.

One of the two Descendants of the Human Ancestral Hall, Wang Zijin.

Such was her beauty.

At this moment, her charming features revealed a satisfied look, and it was impossible to see the anger and coldness from before.

“Miss... earlier you mentioned something about ‘acting self-righteous’. What did you mean by it?”

The little maid named Xiu'er peeked her head outside again and asked in confusion.

She had heard yet another word from the Young Miss's mouth that she failed to comprehend.

“Xiu'er, how come you have so many questions all day long?”

Wang Zijin tapped the little maid on the forehead with an expression of slight displeasure.

As for the name Xiu'er, she thought it was funny at first and chose it casually, but she didn't expect it to be used for all these years.

In fact, Xiu'er herself didn't think there was anything wrong with this name.

She even thought it sounded nice, filled with an aura of spirituality.

“Miss, you'll explain it to me, right?”

“Acting self-righteous? Hm. For example, if a man gifted you a spiritual elixir, divine medicine, or martial technique, then asked you to marry him, would you be willing?”

Wang Zijin smiled faintly and explained it as such.

In her opinion, the group of cavalymen before, including her numerous suitors before, were precisely the same type of self-righteous people who thought they were entitled to her hand in marriage.

To impose something upon her, and then make her have to repay them according to their own wishes.

Regarding such people, Wang Zijin only had one thing to say to them, “F**k you.”

[Zain: I like her already ?]

“Oh, so that's how it is. I would hate to have to marry them. ”

The little maid shook her head like an impersonation of a rattlesnake, showing a reluctant expression.

Her lady was always so intelligent and knowledgeable about these complex and hidden things.

Thus, Xiu'er had a deep admiration for Wang Zijin, as she felt that her Young Miss was capable of doing almost anything.

“Miss, you know so much!” Xiu'er exclaimed with an admiring expression.

“I know so much?”

At these words, Wang Zijin was suddenly slightly stunned and her expression became a bit dazed.

She was a bit saddened for a moment, as it had been more than 20 years in the blink of an eye.

It wasn't that she knew more compared to others, but rather that the people in this world were much simpler than the people she had come across in her previous life.

A lot of things that were common knowledge in her previous life, in this world, had to be explained carefully several times in order for people to understand.

Yes, that's right.

Wang Zijin was not from this world.

But from an era of information, an era of modernisation. She was from a green planet, from a historical country with more than 5,000 years of fascinating cultural traditions.

Based on a word she knew in her previous life, she was a bona fide Transmigrator.

In her past life, she was born into a wealthy family with successful parents. She had no concerns about food or water and was a rich girl that everyone envied.

However, God was also cruel to her, because when she came into the world, she was accompanied by several incurable chronic diseases, which made her body incredibly weak.

Up until the age of 20, Wang Zijin had spent all of her time on a hospital bed.

Her only happy days were spent learning about the outside world through the internet on the other side of a screen. She was a superb keyboard warrior who fought against the most powerful men and women in the world, and she also had two loving parents back in her homeland...

To say the least, there was no one in the entire world who was more nerdy than her.

There were only a few times in her life when she went outdoors.

As a result, on the day after her 20th birthday, Wang Zijin passed away from that world forever.

[TL/N: This is what happens when you don't touch grass for a long time.]

[Kshn: Really? I haven't left my house for 4 years now.]

When she woke up again, she had already become a child of one of the world's most powerful families, known as the Immortal Wang Family.

According to the information Wang Zijin obtained, not only had she traversed into a new world, she had traversed into a terrifying fantasy wuxia world.

In this world, the strong can shake the universe with a raised palm, and use one puff of air to split the sky, while the weak could also move mountains and shake the land, soaring away into the sky.

A cultivation world.

Furthermore, her innate talent was very frightening, a plotline that she was unfamiliar with in her previous life: the novels she read usually used the 'rise of a waste third princess against all odds' and other bullshit tropes...

In short, with regard to her sudden reincarnation, Wang Zijin held the attitude of 'whatever happens, happens'.

When compared to her previous life, this life gave her a more realistic and natural feeling, as she would no longer be lying in a hospital bed, only learning about the outside world via a screen.

Wang Zijin's position in this world was one that was different from the usual waste trope.

Born with an invincible physique, the favoured Daughter of Heaven and Earth, and far beyond many of her peers in terms of background and strength.

Her life did not have the various counterattacks and face-slapping schemes that she had in mind.

At first, Wang Zijin wondered whether she would have a fiancé who would fall from grace overnight, and her role would be the villainess who would break off the engagement.

But soon, she discovered that there was no such thing.

The reason being that her talent was too strong, so hardly any young heavenly genius could match her, and naturally, there was no such thing as a clichéd engagement rejection segment.

It would seem that her position was that of a smooth sailing protagonist.

Chapter 193: The Villain's Plotline isn't Going as Predicted

Wang Zijin felt that there was nothing wrong with her gut feeling.

Her current life had truly been smooth-sailing from the start, not even encountering a single setback thus far.

Since her birth, she showed a strong talent and possessed a Cultivation Base that directly reached the so-called Sacred Realm of this world.

However, thanks to her vast knowledge of the various male and female-oriented cliché writing routines in her previous life...

Wang Zijin ended up choosing the seemingly most foolish and unwise, but also most stable routine which is abolishing her own Cultivation Base, in order to raise the ceiling of her future achievements.

Later facts proved that her choice was indeed not wrong.

Every step of her foundation was now extremely solid.

Wang Zijin felt that she would definitely grow into a True Immortal in the future. And even the other descendant of the Human Ancestral Hall, Jiang Chuchu, who was claimed to be the Reincarnation of an Ancient Immortal, might not be her match in an actual fight.

Wang Zijin was very confident.

An unwavering arrogance that stemmed from strong personal strength and powerful trump cards.

Her plan to leave the Human Ancestral Hall and wander into the wide world was based on the foundation of her immense talent, so strong that ordinary Young Supremes would not be able to catch up to her in their entire lifetimes, even if she did not work hard to cultivate.

The so-called Young Supremes were nothing but existences that could be suppressed in the palm of her hand.

Wang Zijin didn't give a shit about them at all.

The magnificent world that she had longed for in her previous life, bizarre and beautiful, was now slowly unfolding before her eyes.

There was no way she could care about anything else but the moment in front of her.

This was the first time she had intended to go out after more than 20 years to experience this vast fantasy world.

Prior to this, she had always been practising, be it her family or the Human Ancestral Hall, with no chance to go out and take a look at the world. Now that she had finally grasped such an opportunity in front of her, she would naturally not let it go.

Wang Zijin remembered her only wish in her previous life.

'I want to see the world. I want to go outside and see the things I have missed.'

'The world is so big. So wide and filled with life.'

'I want to be a part of it too.'

And this world was countless times more exciting than her previous life. Full of competing Young Supremes, gorgeous sights and scenery, charming women and dashing men

There were thousands of scenes and more than enough to see.

“Ugh. Other female transmigrators always have some kind of cool icy Young Master, or some Domineering Devil King chasing them... But here? All brain-dead shrimp suitors who have no right to be arrogant.”

Within the carriage, Wang Zijin's dainty hand supported her delicate and flawless chin, staring at the magnificent sight outside, mumbling away in annoyance.

Wang Zijin felt that the world she now travelled through was absolutely not like those female-oriented novels she had known in her previous life.

Fortunately, she had also read a lot of male-oriented novels and so she felt that it was very simple to deal with all these kinds of broken routines.

And compared to the various intrigues and dramatic plotlines in the female-oriented novels, this world that pursued only power and the Dao was much simpler.

Power determined everything. Any conspiracy and tricks would be wiped out under absolute power.

“Miss, you said that you are going to find a Ruyi Staff[1] to marry. Is it true or not?”

[1: A reference to the Ruyi Staff that the Monkey King wields in Journey to the West. It means a man who would agree to her every request and demand. Basically a 'yes man'. Or a simp.]

Xiu'er suddenly blurted out loud.

The expression on her little face was tangled into a knot.

In her opinion, her own Young Miss was so beautiful and talented that it was no exaggeration to describe her as the brightest moon in the Nine Heavens.

'Is there really a man in this world who deserves the Young Miss?'

Hearing this, Wang Zijin rolled her eyes quietly, her mood growing worse as she replied, **"Xiu'er, why are you so stupid? Of course, those words were lies!"**

"Your Lady, I, will become a peerless True Immortal in the future. Using only one hand to fight against three thousand emperors, and two hands to push around the realm. A supreme existence! How can I be constrained by a useless man like them?"

Having said that, Wang Zijin also knew that she was completely different from other women, whether it be in terms of strength, background, status, or her knowledge of another world.

So she truly felt that she might end up dying alone at this rate.

The thought of passing through the men one by one, opening up a blooming male harem like in the female-oriented novels of the previous life, and flirting with all kinds of stunning and gorgeous males did seem quite the good scenario to Wang Zijin at that time.

However, when she really did cross over, she discovered that this kind of thing was actually a nauseatingly horrid idea.

Her standards were just too high.

The gruesome scene of one day cheapening herself to marry some big pig foot[2] raised goosebumps all throughout Wang Zijin's body.

[2: Big pig foot is a Chinese saying referring to a loathsome, unfaithful, insensitive or chauvinistic man.]

For her talent that was so great that even a reincarnated Ancient Emperor would not faze her, it would truly be the most wasteful possibility.

"Soloing three thousand emperors with one hand, and pushing the entire realm with two! Miss, your ambition is so big!"

"Yet I know that Young Miss has this ability."

Xiu'er nodded.

Ruyi Staff Husband? Although this kind of remark was one often spoken by her, Wang Zijin always had a nonchalant, ridiculing tone when talking about it.

"Indeed. But I can consider finding a Ruyi Staff to marry that Jiang Chuchu"

"Tch, her cold and indifferent face irks me. It's as if the world owes her something. That damn pretentious noble facade."

“A person like her deserves to get beaten up by a man, lest she feels as if all the men in the world are just so-so, only having eyes for the Human Ancestor.”

Wang Zijin shook his head for a while as she spoke of Jiang Chuchu.

Although the Saintess could be considered her only talking partner throughout the years of training, Wang Zijin’s opinion of her was not very good. She felt that Jiang Chuchu had a ‘holier-than-thou’ attitude and was too self-righteous.

In the words of her previous world... Jian Chuchu was basically a Virgin Mary.

Now, a normal Virgin Mary could be their own self, benevolent, but with the ability to uphold their own personal morality and ideals.

But a Crazy Virgin Mary like her who only had the two words ‘world-peace’ in mind... was just plain scary.

Wang Zijin would not say anything harsh to the Crazy Virgin, Jiang Chuchu’s face, but she naturally tried to avoid this kind of monstrous personality whenever possible.

If she truly spiralled down the path of ‘benevolence-for-all’, then she might as well stop breathing, since such a person was no good and would just waste resources and disgust other people.

“Saintess Chuchu... I think she is a good person, but her personality is too cold. She always wants to uphold justice no matter what”

Xiu'er spoke with a bit of distress.

“That’s right, she is innately a good person, so we should try our best to find a suitable Ruyi Staff Husband for her to marry.”

“Lest she falls into the fire-pit trap of the Human Ancestral Hall and burns herself into a crisp before that.”

Wang Zijin giggled and replied with an expression of approval.

Her total amount of contact with men was a big fat zero, be it in her previous life or now. However, in terms of theory, Wang Zijin was not behind anyone.

She could talk about these topics for days on end.

“Miss, you secretly left the Ancestral Hall this time and don't even plan on searching for the Reincarnation of the Human Ancestor. Won't this matter make the Elders in the Human Ancestral Hall angry?” Xiu'er remembered another matter and started getting anxious.

“So what if they get angry. Do you think I'll go back to look at their faces?” Wang Zijin looked unhappy.

“It's their business to find the Reincarnation of the Human Ancestor. I don't want to get mixed up in it. Am I their slave or something?”

In the beginning, when she was taken to the Human Ancestral Hall to practise she had no clue that there was such a task waiting for her.

Human Ancestral Hall? It sounded nice but was more like a glorified Slave Training Hall.

Wang Zijin didn't see any reason why she should find and serve the Reincarnation of the Human Ancestor for the Human Ancestral Hall.

'It'd be fine if us descendants were male, but seeing as both of us are female... doesn't this feel a bit like we're just here to help make a harem for the Human Ancestor?'

Thinking of this, Wang Zijin became nauseous, wishing to erase all traces of the Human Ancestral Hall from her body.

Perhaps for the rest of the female population, being part of this 'Human Ancestor harem' would make them feel extremely honoured, to the point of throwing themselves at him for a chance to get in.

But as for her? No dice. She wanted to stay away and avoid it altogether.

"Miss, look! That's the Inner Domain's Immeasurable Heaven! I heard that Young Master Wushuang is currently there, so why don't you go and see him?"

"Perhaps we'll meet lots of outstanding Young Geniuses!"

[Quick Recap: Young Genius are people whose talent is above average but not so much that they can be called Young Supreme.]

After passing through the starfields and teleportation array, Xiu'er opened the curtain and looked at the vast world outside, suddenly exclaiming in excitement.

They had received some knowledge of the outside world along their journey.

The Upper Realm, which was known to be infinite, could be roughly divided into the Heavenly, Inner, Middle, and Outer Domain.

Yet the big events that happen in each area still managed to spread everywhere with an incredible speed.

During this period of time, the events in the Heavenly Dao Immortal Palace have caused even the many remote places in the Upper Realm to be shaken.

The Inheritor of the Forbidden Demonic Arts appeared, and the Immortal Road for the Ancient Immortal Continent had revealed itself.

Each one caused a big wave, and even the two master and servant far away in Heavenly Domain had heard of it.

"Wushuang? My cheap little brother?"

Wang Zijin was slightly startled, stuck in remembrance.

'Younger brother...'

Before today, she had never seen this little brother of hers at all and he was no different from a stranger to her.

She had only learned about Wang Wushuang from the family.

But at any rate, he was her little brother in this life. Since she was passing by, there was no reason not to go and have a look.

In this life, he was her family.

Wang Zijin thought for a while before nodding, **“Then, let’s go see him.”**

“Well, the Heavenly Dao Immortal Palace is the oldest Daoist Sect in Immeasurable Heaven. This period of time can be called the gathering winds and clouds for many young geniuses and Young Supremes. Maybe you will find someone who catches your eye.”

Upon hearing her agreement, Xiu'er immediately giggled happily.

In reality, she herself was the one who wished to witness a group of Young Supremes.

“Hm. Wasn’t there a rumour saying that the current Heir of the Heavenly Dao Immortal Palace is the strongest person of the younger generation? I don't know if that's fake or not.”

She was still muttering under her breath.

Perhaps this was her true purpose in following the Young Lady outside...

“The best person in the younger generation? Isn’t that because the outside world doesn’t know me, your Young Miss? Otherwise, who would dare to call themself the best in the younger generation when I'm still kicking.”

Wang Zijin smiled as if he didn't care about these rumours at all.

She was born a Sacred Realm Cultivator, so she had confidence in being the best.

Although she was now re-doing her cultivation from the start, she already reached the Early Stage of the Quasi Sacred Realm. It was a kind of cultivation speed that would shock the entire world.

Everyone would become stunned if this news were to leak out.

As far as the information goes, the Young Supremes did not have anyone whose cultivation was higher than the False God Realm. Hence, the difference between her and them was as clear as a sunny day.

There was no need to worry at all.

“Miss, aren't you curious though? It is said that Young Master Gu Changge is a Young Asura with a True Immortal talent! His power in the Immeasurable Heaven is simply unmatched!”[3]

[3: It is not a talent like Void and Samsara Talent. She is saying, by Changge’s talent, he is bound to reach True Immortal Realm in his life.]

“He is the Young Master of the Ancient Immortal Gu Family, the Heir of the Heavenly Dao Immortal Palace, and also has the support of an Immortal Sect like the Primordial Demon Sect.”

“I can't believe that a single person alone possesses so many extravagant titles!”

Contrary to Wang Zijin's cool reaction, Xiu'er had a look of yearning and admiration plastered onto her face and seemed very excited and expectant.

It was completely opposite to her previous attitude towards the Young Master of the Primordial Zhao clan.

Wang Zijin's attitude, on the other hand, was very indifferent, and she even sneered, **"Xiu'er, what do you know?"**

"True Immortal talent? And who decided that? The Heavens above or his own father? I, for one, don't believe it"

"I'll tell you now, the Young Supremes who have such a reputation generally die very quickly, and they are cannon fodder who can't live for many chapters."

"Besides, his name is 'Gu Changge'? There's no way he can be the protagonist with that kind of name. In the male-oriented novel routines, you want a surname like 'Fan' or 'Hao', otherwise, you'll never be the protagonist.

"This guy you're so excited about is just some stereotypical cannon fodder, so don't get too worked up over him."

When Xiu'er heard the Young Miss say this, she was immediately dumbfounded. She didn't understand what many of those words meant, but she still understood what the Miss was trying to imply.

'Gu Changge, who is so powerful and possesses a terrifying momentum within Immeasurable Heaven, is nothing more than that in Miss's view...'

'Just a small character?'

"You don't understand that these are all simple routines. Hell, maybe there is someone surnamed Fan right now who is off to offend Gu Changge and is about to slap his face strongly."

Wang Zijin shook his head helplessly.

In her previous world, she had looked at various male-oriented online novels in her spare time, and knew that only inexperienced and naive authors would name the protagonist like so.

'This guy was obviously a cannon fodder character who is bound to get face-slapped.'

Yet Xiu'er did not look dissuaded at all.

"Hmph, Miss, you are not allowed to say that. Young Master Changge was the one whose Origin had damaged and almost died in the Ancient Immortal Continent trying to fight against the Forbidden Demonic Arts' Inheritor."

"He even rescued his Junior Sister who was in conflict with him from the clutches of the Forbidden Demonic Arts' Inheritor. Rumours say that Young Master Changge is a man whose divinity is like Immortal Jade, transcendent and free from vulgarity."

Xiu'er was full of enthusiasm, acting just like Gu Changge's little fangirl.

“Tsk! At this point, why don't you go to be his maid instead of mine?” Wang Zijin quickly told her to shut up upon seeing her almost boot-licking appearance, which made her feel speechless.

Compared with the rumoured Young Asura, she was actually more interested in the mysterious Forbidden Demonic Arts' Inheritor.

Boom!

Soon, the carriage squeezed through the two space barriers with a violent shudder.

Chaos, turbulence, and destruction., It was as if huge meteors had smashed down, sending out terrifying waves.

However, these horrible fluctuations were swept away by a mere flick of the old coachman's sleeves, as a layer of ripples spread, and the wind lightly blew. A scene that appeared extremely skilful, yet natural.

“Miss, we are approaching Immeasurable Heaven. Shall we leave directly, or go to the Heavenly Dao Ancient City first?” the old coachman asked indifferently.

“Grandpa Snake, let's go to the Heavenly Dao Ancient City.” Wang Zijin responded with a smile.

Boom!

The next moment, the carriage suddenly broke through the space once more, and instantly drove thousands of miles forwards, to the place where the Heavenly Dao Immortal Palace was.

The place had been quite lively these past few days.

Many Daoist Sects and Immortal Clans had sent their disciples and powerhouses there.

Especially when they knew that Gu Changge's appearance in the Ancient Immortal Continent was heralding the start of his plan to force the True Dragon Clan into surrendering in one fell swoop, a sensation that would shock many people.

Gu Changge was truly peerless in terms of bravery and courage.

A member of the younger generation, but still daring to attack the entire True Dragon Clan. So bold, the older generation powerhouses were stunned by his actions.

Wang Zijin, Xiu'er, and the old coachman quickly arrived at the Ancient City. However, in order to conceal their existence from the people's eyes and ears, the two servants and one master decided to use a clever tactic.

Wang Zijin roughened her voice and tone deliberately, trying to mask her gender and identity, though her voice still carried hints of softness and a more delicate touch than most.

“Miss” Xiuer was about to speak.

Pak!

Wang Zijin knocked hard on her forehead and then glared at her, **“Didn't I tell you to call me Young Master when we're outside?”**

“It hurts, Young Master.”

“Digging out his little sister's Dao Bones in his youth, before ripping it out and returning them in his maturity. What kind of routine is this?”

Wang Zijin squeezed her delicate and flawless chin, listening to some news that happened in Heavenly Dao Ancient City recently. She couldn't help but look taken aback.

The main reason she had come here was in order to see her cheap little brother.

But now, she suddenly felt that things were a little weird, Gu Change villain's cannon fodder plotline did not seem to be running as she predicted.

[Ancient Immortal Continent, outside Dragon Island]

Array patterns shine, brilliant and majestic.

The situation was tense, and the atmosphere turned extremely solemn.

Boom!

The ancient warships of the Primordial Demon Sect traversed the sky, like ancient monsters, absolutely terrifying.

Their devilish spirit was overwhelming, with domineering killing intent.

“The one surnamed Gu, you can only dream if you wish for us dragons to surrender. Since ancient times, my True Dragon Clan has been running rampant in the world. I would dare to fight even an Immortal! You are merely some snot-nosed brat, yet you dare to speak wildly in front of me?”

In the sky above Dragon Island, the void blurred, and a middle-aged man with a stalwart figure appeared, his face contortions with anger.

He wore the golden dragon crown of the True Dragon Clan on his head, and he possessed the unique dragon horns of the dragon race.

A supreme existence!

The patriarch of the True Dragon Clan!

“The Dragon Clan's Patriarch is mistaken, this Gu is just a junior, I would not dare persecute you.”

“Yet, on the other hand, the True Dragon Clan had issued the True Dragon Order that day and sent the Tiangou Clan to attack and kill this Gu. Now the Tiangou Clan has surrendered, how should this hatred be counted now?”

At this moment, Gu Change was standing there in the sky, his presence harmonising with Yin and Yang as he observed the many powerful dragons below him.

“Bloody lies! If you want a fight, we of the younger generation will fight. Dare you try and occupy the moral high ground, making our Clan look bad! This crime is punishable by a thousand deaths!”

A strong dragon within the clan was furious when he heard the words, his eyes filled with anger and hatred.

[Kshn: I mean, I know they're Dragon clan, but you can't just say it's a dragon in the True Dragon Clan author-san.]

They had never encountered such humiliation before! And it was all due to Gu Change's oppression!

“Ah, do not misunderstand me. This junior is not trying to preach morality, but is just trying to get justice for himself.” Gu Change smiled and shook his head lightly.

“And since the Dragons would rather die than surrender, then don't blame this Gu's men for being ruthless.”

As he spoke, his expression frozen into an icy indifference, and a round, bright black sun suddenly rose up from behind him.

A fluctuation that seemed to reflect the Nine Heavens. The burning black sun looked as if thousands of raven ink clouds were boiling in the sky, field by the strongest runes.

It was the replica of the Ancient Deity of Reincarnation's Dao Weapon, the Ancient Wheel of Samsara, which was obtained by Gu Change when he killed Ye Ling that day.

Of course, if it was the real Ancient Wheel of Samsara, he could have probably caused the revolution of the Six Paths of Reincarnation, holding life and death in his palm using the vast and infinite power of the gods.

But even if it was an imitation, it was still quite tyrannical, exerting a might far beyond the ordinary Sacred-grade Artifacts.

Boom!

At this moment, amid the roar of many runes, golden light swept across the world.

This was the perfect moment to show off to the world his fake identity as the Heir of the Ancient Deity of Reincarnation.

Moreover, the Ancient Deity of Reincarnation had an impressive significance in the Ancient Immortal Continent.

Having this identity attributed to himself could save Gu Change a lot of trouble.

“Wait, is that... ?”

“An imitation of the Ancient Deity of Reincarnation's Dao Weapon from back then!”

“It turned out to be this thing... I didn't expect Gu Change to have such an identity!”

The moment the black sun rose, many Daoist Sects' cultivators nearby were all shocked, their eyes widening.

‘How unexpected...’

If Gu Changge had not shown it off in person, they would never have imagined that he was the Heir of the Immortal Period's Ancient Deity of Reincarnation.

“How is it possible that Gu Changge actually owns this thing?”

“What is the relationship between him and the Ancient Deity of Reincarnation?”

Many Ancient Immortal Races, who were watching, were roaring in their hearts. The Ancient Wheel of Samsara had set off turbulent waves.

Their ancestors had more or less interacted with the Ancient Deity of Reincarnation at one point in time or another, and had received favours, help and so on.

So for Gu Changge to own this thing, it must mean that he was the Heir of the Ancient Deity of Reincarnation.

And if Gu Changge did not have Samsara Talent and its mystical techniques, then he would not be able to make this Dao Weapon's imitation at all.

In this situation, Gu Changge and the Ancient Deity of Reincarnation were absolutely inseparable.

No matter how strong the True Dragon Clan was, it was nothing more than a stubborn resistance. It was impossible to stop the forces behind Gu Changge, let alone the Great Elder standing beside him!

At this moment, many senior members of the Ancient Immortal Races started thinking about something. In today's turbulent situation, it was not impossible to follow Gu Changge.

“Damn it! This guy actually was the Heir.....”

“This is not good! In that case, it's better if we surrender!”

On Dragon Island, the faces of many dragon people changed drastically and turned pale.

There was not much hope left for them in this situation now.

They were no longer the True Dragon Clan of the past, glorious period.

“Junior, my True Dragon Clan is proud and eternal, and I would rather die than surrender. You can't make me surrender!”

Boom!

In the depths of Dragon Island, there was a heaven-shaking sound, and the auras of several Quasi-Supreme Realms were awakening, extremely tyrannical.

Moreover, this was by no means comparable to an ordinary Quasi-Supreme. The strongest existence was, at least, in the Seventh or Eighth Stage of the Quasi-Supreme Realm.

“Great Elder, please.”

Gu Changge smiled slightly and spoke to the Great Elder beside him.

The Great Elder had a complicated expression, as he glanced at him, and sighed helplessly.

Hum!

He stuck out a palm.

His strongest technique swept across the sky and the earth, and the sky and the earth had to be sunk.

Almost in an instant, the Quasi-Supreme Realm being was also presenting his powerful technique.

Countless dragons chanting and praying sounded from the heavens and the earth, brilliant scriptures filled the sky, it was the laws of the Quasi-Supreme Realm cultivator. n0v**ELUSb.COM**

Boom!

The void trembled, and the divine multi-coloured lights soared to the sky!

An Ancestral Weapon was awakening, its divine might shook the heaven itself...

Puff!

The next moment, he coughed up blood. He lost in an instant by the Great Elder's technique and flew upside down. Even the Ancestor Void Shadow's phantom was defeated by him previously, how can a mere Quasi-Supreme resist his blow?

Whoosh!

Whoosh!

Whoosh!

At this time, there were three more earth-shattering auras coming from different directions.

There was a vast army, oozing killing Intent, like a torrent.

This scene crushed the last bit of hope of the True Dragon Clan, making them desperate.

The Black Heavenly Eagle, Ancient Serpent, Divine Crocodile and many other mighty Clans came over in a vast, heaven-blinding manner.

But obviously, they were not here to help them!

"The True Dragon Clan is finished today..."

In the distance, all the Daoist Sects and Immortal Clans' cultivators who looked at this scene, thought this way with horrible expressions on their faces.

"Miss! Look at that, he is definitely Young Master Changge! His style is really different from ordinary people!" In the mountains further away, Xiu'er took Wang Zijin's hand, looking excited like a little fan. When she saw the person she admired the most.

Chapter 194: Such a Bold Approach is Truly Astounding; A Fellow Otherworlder!

Atop the nearby mountains, there were countless cultivators and creatures, all of them came from all over the world to witness today's excitement.

The True Dragon Clan has been standing since the Immortal Period with immense power and vast heritage, who would dare to offend them?

Usually, in the Ancient Immortal Continent, they were used to being arrogant and conceited, not putting anyone in their eyes.

However, now after meeting someone stronger than them, they were oppressed to such an extent.

Many cultivators were even looking forward to seeing the True Dragon Clan suffer a big loss and get their karma for acting arrogant all this time.

Many of them heard Xiu'er's words, but no one thought any differently.

It seemed perfectly normal to them. After all, it was Gu Changge. Which woman in the younger generation didn't admire him?

Hearing this, Wang Zijin looked at her speechlessly, then said with a nod, **“Look how excited you are. But this Gu Changge is indeed quite good-looking, his appearance is rather impressive. It gives people a kind of transcendent feeling.”**

“No wonder he has so many admirers.”

She didn't say anymore.

After all, who in the world isn't a dog for beauty?

Even she considered herself to be quite charming. Her appearance, naturally, needed no comments.

During her years cultivating in the Human Ancestral Hall, Wang Zijin got quite used to seeing all kinds of Young Supremes, and each one of them also firmly believed that they were invincible with formidable strength.

But, the moment they were defeated or suffered a huge blow, they became devastated and couldn't be compared to the big characters she knew from her previous world.

The kind of character to grow increasingly stronger with each setback, always unyielding. Characters such as Great Emperor, Ancient King, etc.

Wang Zijin didn't consider herself to be a superficial person. Naturally, she wouldn't judge a person at first sight.

She needed to get closer to Gu Changge in order to get a good grasp on what type of character he is.

“Yes, I was right, Young Master Changge is indeed the number one in the younger generation!” Xiu'er said with excitement.

‘With that appearance, he certainly can't be one of those ordinary fair-faced protagonists. And he's even forcing the True Dragon Clan to submit currently, what he's doing doesn't seem like something a righteous character would do.’

‘I wonder what kind of protagonist he has offended...’ n0v**ELUSb.COM**

Wang Zijin nodded, staring at Gu Changge's figure in the distance. A peculiar colour flashed past her eyes.

She was still thinking, trying to figure it out. Moreover, she always felt that Gu Changge seemed to be inexplicably different from the male-oriented novel routines she was familiar with.

'It's obvious that his cultivation is only at the True God Realm, but why does he give me a faint sense of danger?'

This was the first time she couldn't see through the cultivation of a young man.

In fact, in front of her, no matter what kind of a Young Supreme it was, it would be difficult for them to hide their true strength.

And they were easily defeated, making Wang Zijin think of them as nothing more than trash.

However, looking at Gu Changge, she discovered the existence of a special case that seemed to be shrouded in a layer of mist, making him seem very mysterious.

As a matter of fact, even Jiang Chuchu, who was known as the reincarnation of an Ancient Immortal, didn't give her such a feeling.

'This is very unusual.'

Wang Zijin's intuition was very accurate, she even used that intuition to find out the true strength of her old coachman.

And in her opinion, Gu Changge was very familiar with such things as oppressing people with power, he was obviously a repeat offender.

At present, ordinary Young Supremes were at most challenging their peers, getting into petty fights, while Gu Changge was actually plotting the entire Ancient Immortal Continent.

His courage and ability were obviously not comparable to those Young Supremes she had seen before!

Wang Zijin admitted that she had been underestimating Gu Changge so far, and things were obviously not as what she thought.

And she became increasingly curious about Gu Changge, he had piqued her interest.

"This Gu Changge isn't simple." Wang Zijin couldn't help but mutter.

"Hehe, Young Miss, this is the first time you've said someone of the younger generation isn't simple..."

When Xiu'er heard this, she was very surprised and appeared shocked.

Then she became even happier, it seemed that her Young Miss also realised the fact that there were people above people, and heavens above heavens.

Previously, she had spoken many times about the rumour regarding the Gu Changge, but Wang Zijin never cared.

‘Now that she has seen Young Master Gu in person, she must believe it, right?’

It was naturally impossible for Wang Zijin to explain anything to Xiu'er. In any case, she felt that her decision to leave the Human Ancestral Hall and come to the outside world was indeed correct.

As soon as she arrived at the Heavenly Dao Ancient City, she met a person that she found intriguing.

“Young Miss, the Immortal Wang Family warship is over there! Young Master Wushuang should also be there.”

Then, Xiu'er suddenly pointed toward a group of cultivators not far away and said in a surprised voice.

The ancient warship was floating in the sky, with brilliance soaring into the clouds, as many cultivators with tyrannical auras stood on top of it.

The banner of the Immortal Wang Family was fluttering, with a big, simple and imposing Wang character, demonstrating the strong heritage of the Ancient Immortal Wang Family.

The young man at the front appeared to be very mysterious and had golden eyes filled with pride.

But Wang Zijin saw through the mysterious aura at a glance, it was Wang Wushuang. Although she hadn't seen him before, she recognized him at once that he was her younger brother in this life.

“They're here.”

Afterwards, Wang Zijin couldn't help but reveal a smile on her face. Then, the two servants and the master rushed over there, with the intention to meet up first.

She put the matter of Gu Changge aside for the time being. After all, the two were complete strangers, they had never even met before and there was no animosity between the two.

There will be time to find out later.

[Far away on the other side]

The battle was fierce and thrilling, causing everyone in the surroundings to be filled with a chilling atmosphere!

High above, divine light soared into the sky, and the sound of slaughter shook all directions.

Such a terrifying force made countless Daoist Sects go pale.

At this moment, all the protective formations on Dragon Island glowed with brilliance, attempting to resist the incoming attacks.

The three major clans, Black Heavenly Eagle, the Ancient Serpent, and the Divine Crocodile Clan were all fighting. Following Gu Changge's instructions, at the critical moment, they became a sharp sword to break apart the situation in the Ancient Immortal Continent!

“Die!!”

“Kill for the Young Master!”

Leading a vast army of elites, they swept through heaven and earth like a torrent to slaughter the Dragon Island frontier.

The ancestors of the three major clans who were at the Quasi-Supreme Realm were also brutally slaughtering True Dragon clansmen.

The aftermath of their battle with the Dragon Clan's Quasi-Supreme beings shook the heaven and earth, causing all the mountains within a ten thousand-mile radius to collapse and turn into dust and ashes!

[Kshn: Yep, there you have it. The messed up sense of scale.]

All living beings could only perceive the astonishing aura that swept across the world from afar.

Beyond the sky, the stars trembled like grain, the sky shook, and the heaven and earth warped.

The roar of anger and resignation came from within, rattling countless creatures and cultivators.

One could imagine what kind of terrifying battle was taking place there.

Quasi-Supreme beings, which were the fundamental ancestors of the major clans, usually remain in seclusion to cultivate, and wouldn't appear unless faced with the most critical situation.

However, at present, the ancestors of these three major clans all appeared together, fighting against the True Dragon Clan for Gu Changge.

This scene shocked countless Daoist lineages and Major Sects beyond words, and their hearts were filled with a deep shock.

“During the Immortal Period, I heard that the ancestors of these three major clans were all followers of the Ancient Deity of Reincarnation. Looks like this rumour is indeed true.”

“I never expected that the Ancient Deity of Reincarnation actually left such resources for his heir; the three major clans for him to use as he pleases!”

“The Ancient Deity of Reincarnation simply did the best for his heir! No wonder Gu Changge is so powerful!”

Many cultivators had eyes filled with envy and jealousy.

These were the three major clans of the Ancient Immortal Races! And the background of each clan wasn't simple, with ancestors in the Quasi-Supreme Realm, who were now all being used by Gu Changge!

This kind of power, can not only be described as horrifying, but simply unimaginable.

This caused many Young Supremes to clench their fists and tremble, feeling disinclined, desperate, and even depressed.

Before they knew it, the gap between them and Gu Changge had grown to such an extent.

With such power, Gu Changge was almost on an equal footing with the Elders and Patriarchs behind them.

Initially, they were peers, but now, they can only look up to him.

Today, Gu Changge's identity as the Heir of the Ancient Deity of Reincarnation was solidified without a doubt.

After all, everything at present, with even the three major clans of the Ancient Immortal Continent following his orders.

Was there anything left to say anymore?

This was a battle that made the entire True Dragon Clan tremble.

Gu Changge revealed his identity as the Heir of the Ancient Deity of Reincarnation and the Black Heavenly Eagle and other major clans were fighting against the True Dragon Clan under his orders.

[Kshn: We got it already author-san!]

This scene caused the Ancient Immortal Races, which were now on edge, to tremble and feel very uneasy.

They knew that as soon as the True Dragon Clan fell, Gu Changge would definitely use the opportunity to attack them next.

With the methods and temperament that Gu Changge currently displayed, he would definitely do it so!

Thinking of this, many clans became uneasy, feeling that after this war, the situation in the Ancient Immortal Continent would change drastically.

They could only stand in line and wait. If they tried to resist like the True Dragon Clan, it'll only result in the extermination of their entire clan.

Even the rest of the Daoist Sects and Immortal Clans, at present, wouldn't dare to offend Gu Changge!

This was true power!

"It's completely unimaginable, is this really a young man?"

Many cultivators of the older generation couldn't help but sigh.

Buzz!

Currently, Gu Changge's expression was calm, almost unusually indifferent.

The Ancient Wheel of Samsara resembled a black sun, its glorious majesty was almost earth-shattering, and the Divine Rune radiated its tyrannical might.

Under such an oppressive aura, he didn't need to do anything at all to deter many powerhouses of the True Dragon Clan, they simply didn't dare to attack him!

Not to mention, there were many powerhouses guarding him and even a Quasi-Supreme Realm ancestor following him closely.

Moreover, if needed, Gu Changge could also bring out the Great Sacred Realm puppets that the Ancient Deity of Reincarnation had left for Ye Ling at any time.

With so many methods at hand...

He didn't need to worry about anything, he had come here to do nothing more than to show his face. In addition, deter all the major leaders, in case some of them don't value their life and think of snatching his prey.

Originally, this was a plan he had arranged for a long time, and to call it a seamless plan wouldn't be wrong!

A flawless victory!

Even if the True Dragon Clan was not reconciled, they still wanted to keep up their face and would not give in easily.

But then, as Gu Changge slaughtered more and more of the True Dragon clansmen, they started feeling fear, realising their own stupidity.

It was the perfect example of not shedding a tear until one sees the coffin[1].

[1: Meaning: unknowingly on a bad course, though it should be obvious.]

Naturally Gu Changge didn't seem concerned.

Currently, all kinds of thoughts flashed through his mind, however, he was in fact thinking about something else just now.

In the system that hadn't changed for a long time, a new task prompt suddenly appeared.

This caused Gu Changge to be a little surprised. The leek that he was looking forward to had finally arrived, moreover, they even took the initiative and came to him!

Certainly, Gu Changge had recently been thinking about how to earn a large amount of Fortune Value and Destiny Points to prepare for his future plans.

As for Yue Mingkong and Gu Xian'er, he had other plans, that would have to proceed step by step, not something that can be done in a hurry.

While thinking about how to sleep, someone actually came to deliver a pillow.

Gu Changge felt a little moved.

'The leek this time seemed to be quite self-conscious.'

Not only that, the system prompt this time, made him a little intrigued.

[A new Favoured Daughter of Heaven has appeared, a fellow from another world]

'Tsk!'

'Another world?'

Obviously, there's no need to say more, a transmigrator like himself was the Favoured Daughter of Heaven this time.

For Gu Changge, the foremost thing to do when he meets his fellow transmigrator in this world would be to find a way to kill them.

Things related to one's origin should naturally remain in the stomach until it goes rotten, and it would be impossible for a second person to know.

Not to mention, the person in question also had a great fortune. Naturally, he had to find a way to plunder it all.

Gu Changge's idea was actually as simple as always, either to kill or subdue, the one most beneficial to him, he would naturally choose.

And since the system had already given a prompt, it would mean that this fellow transmigrator, without knowing, was already at odds with him.

When the time comes and a transmigrator meets a fellow transmigrator, they would certainly not have tears in their eyes.

If the other party knew that he was also a transmigrator, they would also never allow his existence.

Then it'd only depend on who possessed more methods.

Moreover, Gu Changge doesn't know what the other party's golden finger was.

What if they also have a system? It would certainly be amusing.

However, in Gu Changge's opinion, the possibility of such wasn't that big.

Since his system was able to prompt him, it's evident that his system was superior to the opponent's golden finger.

Therefore, Gu Changge was in no rush.

The system wasn't necessarily omnipotent. In fact, his reliance on the system wasn't that big. Only in the beginning, did he rely on the Fortune Value and the Heavenly Immortal Dao Codex for his cultivation.

After that, he just casually adds some points from time to time in order to fool people.

Gu Changge could, in fact, find replacements for everything in the system shop in the world.

Only, exchanging things from the system for Destiny Points was simpler and more convenient.

Now, the most important thing for him right now was that the other party was unaware of his identity as a transmigrator.

In this way, it's the same as him being in the shadows while the other party was in the light.

The other party believed herself to be the only transmigrator, but she could never have thought that he was a transmigrator as well.

Gu Changge revealed a smile laced with deeper meaning.

He planned everything to be under his control.

Of course, before that, Gu Changge needed a way to find this new Favoured Daughter of Heaven.

And since the other party was a transmigrator, her temperament and habits would definitely be different from the natives of this world.

It would naturally be pretty easy to find someone as such.

Not to mention, Gu Changge had a simpler and more intuitive method; Fortune Value! He could tell at a glance how much Fortune Value one had.

As long as the other party comes within his sight, they would definitely not escape his perception.

Thinking of this, Gu Changge decided to keep an eye on the matter but set it aside for the time being.

And soon, under the oppression of the Great Elder, the several top powerhouses of the True Dragon Clan were swiftly defeated and retreated.

Under the combined aggressive attack of the Primordial Divine Sect, the Ancient Serpent, the Divine Crocodile, and the Black Heavenly Eagle Clans, the protective array of Dragon Island finally dissipated and shattered.

It was a completely one-sided beating, like a broken bamboo stick.

On the sacred mountain of the island, all the clansmen were wailing, never expecting that their once mighty clan would eventually experience a day such as this.

Boom!

In the deepest part of Dragon Island, an Ancestral Artifact floated between heaven and earth, absorbing the power from the universe, before morphing into a pitch-black, lifeless void.

Ripples spread out, each ripple seemingly containing a small world, appearing extremely miraculous.

However, at the end of the day, the ancestors that had awakened it were depleted of their strength and it fell down with a loud thud!

“Our clan is willing to submit!”

“Our clan is willing to submit!”

Faced with all this, the Dragon Clan Elders, no matter how unwilling and unyielding they were, chose to submit, not wishing to see any more casualties among their clan.

The miracle didn't happen, the ancestor they were praying for, didn't come!

“If you were going to submit, why struggle so much to hang on?”

Gu Changge couldn't help but shake his head slightly, with a bit of regret and pity, but not surprised in the slightest.

The True Dragon Clan's strongest members turned blue with humiliation and trembled, but they dared not say more.

Gu Changge smiled faintly and gave the order for everyone to stop.

The area was still flooded with blood and bones, and many of the True Dragon clansmen were crying out in anguish.

After all, they brought this disaster on themselves, and there was no one else to blame.

If it wasn't in the name of righteousness, Gu Changge wouldn't be able to do it so easily.

Soon, the brutal battle of slaughter that rattled all directions finally came to an end.

Gu Changge sent his trusted subordinates to start the clean-up, planning to integrate the True Dragon Clan in one fell swoop, at that time his status as the Young Master of the Ancient Immortal Gu Family would come into play.

After all, he never once used the influence and power of the Ancient Immortal Gu family for any of this. Instead, relied entirely on his own methods to make the True Dragon Clan submit.

There was no Daoist Sect that would dare to refute!

At this time, no one dared to show up and snatch all that he had planned!

Moreover, from the start to the end, the Ancient Immortal Gu Family never intervened, nor provided Gu Changge with a single bit of help.

This did not touch the final bottom line between the various Daoist Sects at present, no one could say otherwise. However, once they dared to make a move against Gu Changge, it was tantamount to provoking the Ancient Immortal Gu Family itself, a situation far more frightening than the battle at present.

Today, the True Dragon Clan suffered heavy casualties, and in the end, they had no choice but to submit to Gu Changge, just like the Tiangou Clan!

The news shocked everyone.

Whether it was the Daoist Sects or creatures observing from nearby, or all the other Immortal Clans. Right now, a huge wave was stirring in their hearts!

In the end, the True Dragon Clan was unable to escape their fate.

Many clans began to regret why they hadn't united together with the True Dragon Clan earlier to resist Gu Changge, perhaps then the situation would've been different.

Unfortunately, it was a useless thought now.

The three major clans, the Ancient Serpent, the Divine Crocodile and the Black Heavenly Eagle Clan, acted as a sharp sword at the critical moment, dealing a fatal blow to the entire Ancient Immortal Continent.

But on the other hand, it allowed many clans a way out and a chance to survive.

The news soon began to spread rapidly, causing major earthquakes in all parts of the world.

— — —

[In the distance, Wang Family's Ancient Warship]

“Daoist Brother Changge's methods and courage are truly awe-inspiring.”

“In comparison to him, I’m far inferior.”

Wang Wushuang and his sister had finished catching up, witnessing the terrifying battle in person, Wang Wushuang couldn't help but sigh, his expression still slightly trembling.

And beside him, Wang Ziji and others, also had different expressions, all of them filled with various emotions.

Chapter 195: Not Afraid of an Evil Villain, Just Afraid of a Handsome One; An Irresistible Charm

The aftermath of the battle shrouded an area of ??nearly 300,000 miles, as heaven was turned upside down, and the sun and the moon shifted positions.

The universe itself trembled in place.

Many of the True Dragon Clan’s islands and mountain ranges were crushed into powder by the terrifying pressure, as even the Ancient Immortal formations filled with boundless killing intent were erased by the might of a Quasi-Supreme the moment they soared into the sky.

The other battle was also over.

Thousands of star fragments scattered in all directions, turning the land into a burial ground of stars, surging between Heaven and Earth.

The divine lights that covered the world, falling down!

Buzz!!

A golden Dao path stretched out towards the endless sky. The Great Elder had returned, his perfect white robe fluttering, looking like the paragon of an Orthodox Cultivator. Seemingly untouched, none could imagine that he had just fought an earth-shattering battle.

Behind him, the True Dragon Clan’s Quasi-Supreme existence was sealed within a huge palm!

[Kshn: Don’t ask me how someone can be sealed in a palm.]

“Are we done?”

The Great Elder's calm expression had hints of annoyance mixed in, showing his reluctance to take action from beginning to end.

With the sole exception of suppressing the Dragon Clan’s strongest existence, he didn’t even participate in any of the following battles.

Gu Changge’s sudden revelation about his identity as the Heir of the Ancient Deity of Reincarnation had also shocked the Great Elder. He originally imagined that Gu Changge would borrow the power of the Ancient Immortal Gu Family in order to face the True Dragon Clan, he didn’t think about the possibility of such an astounding matter.

'It seems that the identity as the Heir of the Ancient Deity of Reincarnation was Gu Changge's ultimate trump card all along.'

Thinking of this, the Great Elder couldn't help but take a deep look at Gu Changge.

'It is getting more and more difficult to see through him. Exactly how many methods has he secretly hidden in the dark, not known to the world?'

'The fact that Xian'er's grudge with him had already been resolved was a fortunate one, for if it had continued...' the Great Elder could not imagine how harsh Gu Xian'er's life would've been, attempting to face Gu Changge's onslaught alone.

'If it weren't for a group of old monsters like them supporting and backing Gu Xian'er, I'm afraid that Gu Changge would probably have eaten up all her bones by now.'

"It's over. My apologies for having bothered the Great Elder." Gu Changge smiled.

"Don't even bother. Just remember what you have promised this old man."

The Great Elder snorted coldly.

He waved his sleeves dismissively and the suppressed True Dragon Clan's powerhouse was momentarily released from his seal, appearing in front of Gu Changge.

"Please rest assured, Great Elder. I won't forget my promise..."

Gu Changge's face was apathetic as he glanced at the slumped True Dragon Clan's powerhouse.

Then, he looked at the horizon in the distance, his eyes sweeping across the many powerful cultivations in the vicinity.

His lips curved slightly.

"As the Heavenly Dao Immortal Palace's successor, Changge indeed has an obligation to clean up and pacify the chaos of the True Dragon Clan for the Palace."

The various Daoist Sects and Ancient Immortal Races watching from a distance burst into commotion immediately, not fully comprehending the meaning of Gu Changge's words.

"Huh?"

"Gu Changge, you..."

Even the Great Elder was confused for a moment, wondering why Gu Changge would decide to say that in front of the many Daoists present.

And only after the realization sank in—

"It's too ruthless! How goddamn shameful!"

His snowy-white brows jumped! A stormy kind of anger quickly rose within his heart.

Heavenly Dao Immortal Palace had always prided itself in being neutral, and its policy was to never interfere with the power struggles and grievances of other Dao Sects and Immortal Clans.

In fact, the Heavenly Dao Immortal Palace had not provided Gu Changge with a single iota of help in this fight, though he was their only heir.

Yet Gu Changge's current words were clearly meant to tell everyone that the Heavenly Dao Immortal Palace had taken the initiative to help him.

Instead of speaking about his and the Great Elder's personal agreement...

The Great Elder knew exactly what Gu Changge was plotting.

He had understood it almost instantaneously and it made him furious to the extreme!

Not only did that b*****d want to muddy the waters of the Ancient Immortal Continent, but he was also trying to find a way to drag the entire Heavenly Dao Immortal Palace alongside him, making them his accomplices!

If Gu Changge succeeded, forces from Immeasurable Heaven would feel that the matter of unifying the Ancient Immortal Continent this time possessed the direct involvement and intent of the Heavenly Dao Immortal Palace behind it.

Would this assumption not divert everyone's vision from Gu Changge?

Would it not let him gain benefits unharmed, while letting the Heavenly Dao Immortal Palace take the blame?

The Great Elder's face contorted with outright anger. He was furious!

And yet, he really could not refute Gu Changge's statement at the moment, since only a few people truly knew about the agreement they had that day.

"The Great Elder's kindness, Changge will keep it in mind."

Gu Changge's face showed a slight smile before melting back into indifference.

"However, Great Elder, it seems you still owe me a favour. So don't forget that either."

Although the Great Elder's cultivation base was not very evident, Gu Changge knew that it should be far beyond the Quasi-Supreme Realm, and might even be better than his father and Gu Nanshan's cultivation base if they were to be compared.

Hence, he must firmly take hold of this precious 'favour'.

Perhaps it would be used as his "Protective Talisman" one day. Moreover, he felt that there was nothing wrong with having the influential Heavenly Dao Immortal Palace block some incoming storms for him occasionally, so he just said it casually.

The many cultivators in the outside world felt that he coerced the elders into taking action in some way to achieve his goal.

And that was true.

Nonetheless, in Gu Changge's view, he needed something more. He needed the cultivators from the outside world to think that the Heavenly Dao Immortal Palace was taking the initiative to plan all these schemes.

After all, he had become quite famous recently. The limelight that was Gu Changge's was on the verge of overshadowing everyone. Unfortunately, the more those pesky cultivators and creatures pay attention to him, the harder it was for him to plan his schemes in secrecy; stealing the benefits for himself while pushing the blame onto others.

Gu Changge had always liked to make his fortunes secretly in the dark.

He treated Heavenly Dao Immortal Palace like a chess piece, no different from others, maybe even more than some.

Whether it might be effective or not was another matter entirely.

"If Great Elder thinks that Changge's approach was wrong... you could always explain it once more. I'm sure there are still many cultivators who would believe—"

Gu Changge continued to smile. His prediction of the Great Elder's temperament had been spot on, and he calculated that at this time, the Great Elder would not say much at all.

His goal... was thus achieved.

For him, angering the Great Elder was not worth caring about at all. It was better to consider how he would unify the Ancient Immortal Continent next.

"Ahem!"

The Great Elder, with an extremely gloomy face, interrupted his spiel, walking into the void angrily with his sleeves in a fuss, as the void quickly blurred around him and swallowed him whole.

He then decided that from today onwards, all Heavenly Dao Immortal Palace affairs would be left to the current Palace Master.

The shamelessness of Gu Changge was peerless underneath the Heavens. n0VeluSb.c0m

It was to the point where the Great Elder was helpless, unable to control him.

So why not just go into seclusion and cleanse his soul for a while?

Otherwise, one day, he really might become unable to resist killing this shameless junior.

"Come, clean up the True Dragon clan, and kill those who don't obey!"

"From today onwards, I just want to hear only one voice in the True Dragon Clan."

Gu Changge's faint smile now vanished completely.

"Yes, Master!"

A tsunami of sound rang out from behind him.

The mighty armies of the three major clans soon began to resolve the remnants of the rebellious True Dragon Clan, rooting out their stubborn nature like weeds in a garden.

Refusal to submit would result in death.

They killed them without any mercy.

Obedient creatures are what this world lacks the least, and are a dime a dozen. There was no reason to tolerate disobedience. It was simply too annoying.

“Master!”

“Your order has been completed. All the True Dragon Clan rebels have been put to death.”

Hum!!

As the words fell, a majestic and overwhelming might bore down upon the world!

On the other side, the Quasi-Supreme ancestors of the Ancient Serpent, Black Heavenly Eagle, and Divine Crocodile Clans had suppressed many True Dragon Clan powerhouses and were currently in the midst of running back to Gu Changege to present the fruits of their labour.

“Very good.”

“Well done.”

Gu Changege swept his gaze through the many sights below and showed his satisfaction.

Then he nodded and waved his hands to dismiss them.

The appearance of the three major clans would definitely arouse the fear of the other clans, but Gu Changege was considering hiding them in the dark for a while longer.

Finally after solving the issues of the True Dragon Clan, Gu Changege had time to start thinking about his ‘fellow otherworlder’.

In his speculation, even Yue Mingkong might not know of her existence.

The reason being, a transmigrator... was a massive anomaly, just like himself.

Yue Mingkong’s previous life experience wouldn’t help her here because it was unknown if the existence of transmigrators was there in that timeline or not.

But since she took the initiative to appear in front of Gu Changege, he would find her tracks eventually, even if he needed to dig a thousand feet under the surface.

‘Unless she is the unluckiest type of transmigrator, she must possess a golden finger[1] and would quickly become well renowned in this world.’

[1: Crazy-a*s system or Ability]

It’s just that Gu Changege did not know whether that transmigrator had come to this world before him or after.

The next thing to do was to facilitate the unification of the Ancient Immortal Continent's various clans. With this power, it can provide him with a lot of cultivation resources.

The True Dragon Clan alone would have no shortage of good things that are useful to him!

It might even be possible to obtain some of the essence and true blood left by their Dragon Progenitor back then. For Gu Changge, those were all great benefits he could easily reap.

Recently, his Immortal Devouring Demonic Arts' Cultivation Base reached the peak of the Quasi-Sacred Realm, only missing a bit of cultivation essence needed to breakthrough to the actual Sacred Realm.

Furthermore, Gu Changge would be able to condense many more Black Dao Bottles once he had reached the Sacred Realm, which would help him swallow and refine the remaining wisps of the Fairy Spirits.

His cultivation would soar by leaps and bounds by then.

— — —

[At the same time.]

Standing high in the sky, the powerhouses of various Daoist Sects and Immortal Clans had gathered here to witness the situation unfolding in the distant Dragon Island.

"Is this something a young man can do? If I had not seen it for myself, I would never have believed such a feat was possible..."

"The stars are shining! We are approaching the golden age of cultivation. But in terms of power, I am afraid that no one in the younger generation can compete with Gu Changge."

"In some ways, this Gu Changge is more terrifying than the Forbidden Demonic Art's Inheritor..."

"His schemes and methods send shivers down my spine, and my heart skipped a beat. To openly plan and devour an entire Ancient Immortal Clan like so—!"

The commotion droned on endlessly. Whisperings and rumours from one individual to another.

"According to the rumours, the Forbidden Demonic Art's Inheritor was defeated by Gu Changge after a long and harrowing battle but escaped his hands at the last minute. Furthermore, there has been no real trace of him found for so long. And though there are still Young Supreme existences being attacked or killed, they had all been targeted in a sneaky manner. Hence, we can conclude that the Forbidden Demonic Art's Inheritor was severely injured by Gu Changge, an injury not easy to cure at that."

"Yet, on the flip side, the appearance of Gu Changge utilizing the imitation of the Ancient Wheel of Reincarnation is casual and relaxed, with no difficulty nor visible complications. It is reasonable to assume that his cultivation is not as simple as it is on the surface."

Upon a lofty, ancient warship, Qi and vitality intertwined. A majestic scene.

Many Immortal Wang Family masters were currently discussing and debating. Whether it be the older or younger generations, their expressions were filled with amazement and slight envy, their hearts palpitating erratically due to the shocking nature of the developing situation.

Although they did not intervene in the prior battle, they were able to observe and scrutinize everything from beginning to end.

The wild joy and excitement that came from Wang Zijin's return from the Human Ancestral Hall felt as if it had been hit right in the face by a basin of cold water, cooling down immensely.

What an insane scene!

Wang Zijin wasn't the only younger generation cultivator who was dazzling beyond belief.

Her talent was unique throughout the ages, and she had practised in the Human Ancestral Hall, so her cultivation speed would eclipse most cultivators by miles.

Breaking through a small realm in half a month, and a big realm in half a year. A breakthrough was as simple as drinking water and eating food for the Young Miss of the Immortal Wang Family.

However, she was but a member of the younger generation after all and had not yet inherited the full might of the power backing her.

On the other hand, Gu Changge was already in charge of everything. The forces in his hands alone could make them all deeply fearful of him!

Not to mention anything else, but just the three clans; Black Heavenly Eagle, Ancient Serpent, and Divine Crocodile Clans were enough to contend against many Daoist Sects and Immortal Clans, able to sweep the world aside.

Three Quasi-Supreme ancestors were no mere joke!

A normal Quasi-Supreme was a peerless power who could lift a palm to shatter the stars, and rend the continent with a ray of breath, a profound existence even in the greatest of Dao Sects and Immortal Clans!

Without any Supreme Realm or Dao Enlightened[2] existence around, the Quasi-Supreme Realm was an invincible and unbeatable character!

[2: Dao Enlightened are existence in the realm above the Supreme Realm, which is Emperor Realm.*]

If they really compared, in terms of power, then they were afraid that the current head of the Immortal Wang family actually needed to be polite when he sees Gu Changge, right?

It was almost unimaginable.

“This method seems to be simple, but in fact, it is meticulously interlocking. Even I can only see some clues of its arrangement. If I really want to investigate deeper, I am afraid it can be traced back to when the Ancient Immortal Continent first opened...”

“This kind of long-term calculation really leaves this old man in admiration!”

“I am afraid there are not many people who can compare with him in this generation.”

On the ancient warship, hearing Wang Wushuang's words, the old monster of the Wang family couldn't help but say with a sigh.

The banner of justice wielded by Gu Changge played a big role in the battle of the True Dragon Clan and even they had to admit it.

It was obvious that he was plotting to secure the Ancient Immortal Races for himself, and not for some petty notion like justice.

But so what?

They were helpless and had no reason to take action. Would the Ancient Immortal Gu Family backing Gu Changge stand back like hapless chickens when they really took action?

Impossible.

Now Gu Changge was eating the biggest piece of meat in front of all the Daoist Sects and Immortal Clans, and yet they were all helpless to act, feeling depressed and in awe at the same time.

These kinds of methods fully expressed the charm and wiles of the Young Master of one of the Ancient Immortal Families, rather than a simple cultivation talent.

With such a young master there, how could the Daoist Family not be overjoyed?

On the other hand, because Gu Changge had revealed his sharp fangs, and controlled the terrifying powerhouses of the Ancient Immortal Continent, to the point where even the Quasi-Supreme ancestors obeyed him...

The various Daoist Sects and Immortal Clans might pay attention and unite against him in the future.

Gain and loss were intrinsically linked, virtually unavoidable.

In the past, it was mere battles of youth, but now...

The entire Upper Realm had gotten thrown into the mix!

Who wouldn't be afraid?

“Young Master, I'm afraid you'll have to learn a bit from Gu Change in the future.”

The old monster of the Wang family couldn't help but smile.

Never blindly overpraise your opponent, but never belittle them as well.

He spoke such words in order to spur his Young Master on, who would be compared with Gu Changge in many aspects, as they were both heirs of their families.

Of course, the Immortal families have a long heritage, and it is impossible for the young master of any generation to collapse so casually.

Not being as good as the other would not fundamentally harm them.

So why would they engage in this type of petty, malicious belittling?

“Gu Changge is indeed very strong. In terms of schemes and methods, I am far inferior to him. I will admit this without shame.”

“But Elder should not forget that these conspiracies are useless under absolute power. If Gu Changge didn't have the identity of being Heir of the Ancient Deity of Reincarnation, it would have been impossible for the three major clans to obey his orders...”

Wang Wushuang shook his head.

Although he did admire Gu Changge's intelligence, it was not a bone-deep admiration, and he thought that Gu Changge was just relying on this relationship to succeed in his schemes.

Without the help of those three clans, this battle would not be so easy.

Hearing his words, Wang Zijin, who'd been staring at the figure in the distance, shook her head silently. Her expression had become quite strange.

“Since the Young Master said so, then let me ask you, what does absolute power mean?”

The old monster of the Wang family was happy to use this opportunity, and chuckled slightly, intending to educate his Young Master.

The younger generation should have the will to fight, but this fight should not be one that was impossible to accept.

Ever since Wang Wushuang was born, there has always been arrogance in his heart.

His cultivation base was far inferior to his sister, who was born in the Sacred Realm. He recognized this and had nothing to say.

However, Gu Changge was obviously younger than him in terms of age.

Yet Wang Wushuang could not perceive his cultivation base clearly and was only able to vaguely see it, knowing it to be unfathomable.

To be honest, he was a little unwilling and unconvinced of Gu Changge.

Now that the Clan Elder was berating him, and in front of his sister no less, the Immortal Wang Family's Young Master could no longer bear it.

“Absolute power naturally refers to the true cultivation of an individual. No matter how strong Gu Changge is, it is impossible for him to surpass my sister in cultivation, right?”

Wang Wushuang spoke recklessly, the golden light in his eyes flowing, unable to sit still.

It was usually impossible for him to rattle off such claims, but he was currently in a state of frustration upon seeing his sister, and couldn't think properly.

Normal Young Supremes would never be able to accept such a situation. However, thanks to his far superior ambitions, Wang Wushuang was not too deeply affected.

“Wushuang. There'll always be a higher sky, and there will always be a taller mountain. You have to remember this sentence. It was one someone said to me long ago.”

At this time, Wang Zijin, who had been quiet for a long time, finally spoke up, with a voice like the sound of a Heavenly Chime.

With a smile on her face, she looked at Wang Wushuang.

Wang Wushuang, this younger brother, does not seem like he was an arrogant genius type, which made her a little satisfied.

Of course, the sentence was for her as well.

She used to think that she was very powerful but soon found that Gu Changge's methods and skills were unparalleled.

Perhaps the only two areas she could edge him out in were Cultivation Talent and Cultivation Base.

[Kshn: It's exactly the same thing dammit, why must you make it two?]

This made Wang Zijin more and more curious and interested in Gu Changge.

As a transmigrator, she was familiar with the various routines of novels, and also possessed a strong background and terrifying talent.

She had stood at almost the pinnacle of these cultivators ever since she was born.

So naturally, she got bored.

Wang Zijin actually wanted to find something that interested her, which was why she had planned to travel around the world.

And just happened to meet Gu Changge.

A native genius who did not seem to play by the rules of the system, completely different from the rest of the cannon fodder.

His meticulousness had surprised her.

Wang Zijin continued to speak, **“Gu Changge's cultivation is not only as simple as what you see. To be honest, even I myself can't figure out what his realm is.”**

“Sister, even you can't see his cultivation?!”

This time, Wang Wushuang and the rest of the Immortal Wang Family's Young Supreme around him were stunned, and couldn't help but stare.

Wang Zijin's strength had most likely already reached the Quasi-Sacred realm, according to those elders of the clan.

Yet she couldn't see through Gu Changge?

Wang Zijin nodded. For her, this kind of thing was not difficult to admit.

“Moreover, to easily utilize the imitation of a Dao Weapon, one's cultivation must surpass ordinary people by far. If I were to give you a replica of a Dao Weapon, could you utilize it as easily as Gu Changge did?”

“And as for your statement that he is relying on his identity as the Heir of Ancient Deity of Reincarnation, then can you be like Gu Changge and let the three major clans obey your order if you were the heir?”

“As long as the three major clans are not stupid, they won't agree to surrender to a young man so nonchalantly. If Gu Changge can make them surrender, that means that his methods are not simple at all.”

Wang Zijin revealed her analysis and her understanding of the situation.

A point of view that differed from others.

When she finished speaking, everyone in the Immortal Wang Family on the ancient warship was silent for a while and some people took a breath, extremely shocked.

“As expected of the Young Miss, you can see things so thoroughly...”

The old monster of the Wang family couldn't help but nod and laugh. He could see all this because he had lived a long time.

And since Wang Zijin could also see it, it could only mean that she was smarter than the average person and more talented.

“I see.”

Hearing this, Wang Wushuang went quiet for a while, and after thinking about Wang Zijin's words, he finally understood the difference between him and Gu Changge.

He really couldn't do what Gu Changge did.

Deep depression and unwillingness arose in his heart.

“It's a pity. I heard that this Gu Changge has a marriage contract, otherwise, he and the young lady are actually quite a good match.”

“But something like a marriage contract can be cancelled...”

The old monster of the Immortal Wang Family suddenly sighed, feeling moved.

If the two marry, it will definitely be a win-win situation.

Hearing this, Wang Zijin was slightly startled and her expression suddenly became a little weird. Why did he suddenly mention this kind of thing? Could it be that the fiance routine that she had been thinking about before was coming right now?

Gu Changge tore up the marriage contract of the original heroine, then forged a marriage contract with her instead?

Judging from what Gu Changge did, he didn't look like a decent person.

'Hmm, it doesn't seem impossible.'

"Elder, does Gu Changge have a useless fiancée or something..."

After thinking for a while, Wang Zijin worded her question well and asked tentatively.

What the Clan Elder had said just now was too much like the rhythm of some kind of bloody broken routine.

"This..." The Immortal Wang Family elder obviously did not expect Wang Zijin to ask such a question and was stunned.

On the other hand, Xiu'er promptly answered, **"Miss, Young Master Changge's fiancée is the famous and influential Future Emperor of the Supreme Immortal Dynasty, Yue Mingkong. She has the appearance of a fairy, along with the temperament of an immortal. How could she be a waste?"**

Wang Zijin was a little disappointed all of a sudden.

If she could nab a fiancé like Gu Changge, she would be fine, and won't get goosebumps just thinking about it like before.

There was nothing wrong with being greedy.

After all, no matter what world you are in, the most important feature is appearance.

Before that, Wang Zijin had always felt that she would never meet a young genius who would interest her and life would be smooth sailing like that.

After all, a protagonist's face was written as being unremarkable. A complete reversal from the type of man she wanted.

When she thought about various descriptions of the protagonist, her head started hurting and she lost interest quickly.

This world is clearly not the world of women-oriented wuxia novels.

On the contrary, it has a consistent male oriented and cultivation driven style. Thus, the protagonists must also be the ones who have to gradually become stronger, and climb up from being an underdog, fulfilling the so-called upgrade enthusiasm.

As for Gu Changge, although Wang Zijin has not contacted him yet, she could feel the subtle difference between him and the rest of those Young Supremes.

And her gut feeling was never wrong.

It might even be her golden finger ability in this new world.

Wang Zijin suddenly remembered a sentence from her previous life.

"Not afraid of an evil villain, just afraid of a handsome one."

"Miss, since you've all come here, how about we drop by to meet Young Master Changge?"

Seemingly becoming aware of Wang Zijin's disappointment, the Elder of the Immortal Wang Family suddenly asked this question.

Wang Zijin was stunned when he heard the words, her expression remained unchanged, but with a smiling undertone, **"If that is what the Clan Elder wishes."**

"Miss, did you not say before that you were not interested..." Xiu'er couldn't help but mutter when she saw this scene.

Wang Zijin flicked her forehead.

"You talk too much."

At this time, inside Dragon Island.

Gu Changge, who was searching for the secret treasury of the True Dragon Clan in a splendid and magnificent treasure house, suddenly heard a system prompt.

[Ding! The Favoured Daughter of heaven is interested in the host. Fortune Value increased by 1000 points, Destiny points increased by 5000.]

'Huh?'

Gu Changge's eyes narrowed.

'Does this work too?'

His charm sure was irresistibly it seems...

[*If you read our notes frequently, you might remember when the Ancestors of Black Heavenly Eagle Clan were introduced, there was a talk about how Supreme Realm can catch and Emperor Realm can identify the Immortal Devouring Demonic Arts and we said we don't know which is above or below cause it wasn't specified by the author. So now, there you have it. The Emperor Realm is above the Supreme Realm.]

Chapter 196: A Strange Man that Deviates from the Script; Do I Need to Act with her again?

The system's prompt sound was odd and unexplainable, but he had indeed gained a lot of Fortune Value and Destiny Points.

"It seems that my fellow otherworlder has noticed me and became interested? Is my charm really so great?"

"Or perhaps she feels that I am different from the natives of this world?"

The smile on the corner of Gu Changge's mouth carried a hint of intrigue.

He quickly swept his gaze across the magnificent divine palace in front of him, before giving out an order.

Many of his subordinates stepped forward and began to take away the treasures that the True Dragon Clan had collected over the years.

Afterwards, Gu Changge's figure shifted and went outside.

Now that his 'fellow countrywoman' had noticed him, it meant that she must currently be among the Daoist Sects or Immortal Clans present, maybe not far from the territory of the True Dragon Clan.

Gu Changge could understand Wang Zijin's mentality.

After all, every transmigrator would have a kind of contempt for the indigenous people of the new world, to the point where it was almost expected. If one were born a little taller, would they not look down on those who are shorter? Possessing a strong golden finger meant that their arrogance would soar to the high heavens.

It was good that the other party didn't seem to know that he was also a transmigrator.

'First, let's pretend to be a more "special" native.'

Gu Changge was already familiar with playing out this kind of thing. So naturally, he could guarantee a seamless act, one where it would be difficult to find any flaws. Only if the other party had a system similar to his, would she be able to figure out his origins.

Otherwise, she'd just be playing within the palm of his hands.

Gu Changge's smile was a bit meaningful, as if he already had a plan in his mind.

The other party thought she was smart and knew the entire script, but how could she know whether the people in the script are aware?

"There is always a taller mountain"

'Isn't she interested in me? Then if my guess is correct, this Favoured Daughter of Heaven will come to my door and deliver herself to me on her own accord.'

While Gu Changge was thinking of his plan, ripples appeared in the void, revealing a powerhouse of the Primordial Divine Sect.

Buzz!!

"Young Master, the heir of the Immortal Wang Family – Wang Wushuang – seeks an audience. He is currently waiting outside the Dragon Island."

The man glanced at Gu Changge and reported.

'It turned out to be the Immortal Wang Family?'

'Sure enough, she's very eager.'

Hearing this, Gu Changge nodded slightly and couldn't help but smile while saying, **"Let them in."**

"As the Young Master wishes." After receiving the order, the man left quickly.

"This is the first time I'm meeting a fellow otherworlder after coming to this world, I should prepare for it."

Gu Changge smiled playfully. Since they were competing with routine, then they should see whose routines are deeper.

Then, he took a step, a void appeared in the sky; a void passage. He traversed the sky and came to a mountain directly.

To be honest, though he had thought that someone would come to him—

He didn't expect her to be related to the Immortal Wang Family. For all those who could be called Immortal Families, their foundation must be absolutely unfathomable and unimaginable.

A cultivator once said that even the Immortal Families themselves do not know how terrifying their own background is.

This has been already confirmed by the past scenes within the Immortal Gu family.

Therefore, Gu Changge would not underestimate the Immortal Wang Family. There must naturally be a reason why these families were able to stand for generations and be labelled as 'Immortal'.

But before that, he was thinking about the relationship between the Favoured Daughter of Heaven and Wang Wushuang.

Although Wang Wushuang was a little mysterious in front of most people, and his true face was covered by mist, Gu Changge could see through him and even the origin of his physique at a glance.

As long as he wants to, there was no Young Supreme nor any other cultivator in this world who could hide from his eyes.

He had also previously considered plotting for Wang Wushuang's origin. His peerless battle physique and the peerless power were expressed by the golden lines inside his eyes.

This power of Wang Wushuang was equivalent to a terrifying secret technique, which can increase all aspects of the cultivator, including attack, speed, spirituality, defence and so on.

But Gu Changge gave up in the end because the difficulty was not small and it was not easy to succeed in such an endeavour.

[Kshn: Ya think?]

In Gu Changge's opinion, the person who wants to meet him right now was not Wang Wushuang himself.

And, if even Wang Wushuang had to listen to the other party's order, their status was obviously higher than him.

'His Onee-san?'

'Or is it one of the Ancient Freaks of the Immortal Wang Family?'

— — —

[At the same time.]

On the ancient warship of the Immortal Wang family; Wang Zijin, Wang Wushuang and others were standing, waiting for the word. It was not as simple to see Gu Changge now as in the past.

Especially since he was currently at the critical moment when the True Dragon Clan has just been suppressed, and who knew if there would be people who might take advantage to fish in murky waters.

Being cautious was normal and reasonable.

Gu Changge's identity wasn't like the others in the younger generation anymore.

“Miss, will we see Young Master Changge soon? I'm so excited!”

With an excited expression, Xiu'er shook her tiny fists in the air.

Her face was exactly like one of those diehard fans from her previous world when they finally met their idol. Wang Zijin couldn't help but shake her head.

She really wanted to cover this little maid's mouth.

“I've already told you to be quiet, why won't you be obedient.”

Wang Zijin spoke helplessly, but she didn't bother to care too much about this impertinent little maid, because she was used to indulging her like this normally.

“Got it, Miss.”

Xiu'er hurriedly nodded, like a chicken pecking at the rice, but ultimately still couldn't hide her excitement and anticipation.

But Wang Zijin didn't say anything more.

After all, she was simply following her Little Brother to visit Gu Changge, the so-called strongest person in the younger generation.

Since casually visiting others with her actual identity would cheapen her worth.

Hence, she was just going as a member of the entourage today and was dressed as a man to boot.

She didn't plan to expose her identity as the descendent of the Human Ancestral Hall so early on.

Wang Zijin was truly very tired of those suitors who did not know their own worth, yet acted like bigshots. She wished that no one would bother her on this trip.

“Everyone, please come with me, the young master is awaiting your arrival inside the Dragon Island.”

The man who had gone to report soon came back and replied.

“Okay.”

Wang Wushuang nodded calmly.

Everyone followed the man towards the depths of the Dragon Island. Many cultivators nearby looked at this scene with very surprised expressions.

‘Wang Wushuang, the heir of the Immortal Wang Family?’

'He's visiting Gu Changge?'

'I'm afraid this matter is not easy!'

And soon, under the leadership of the man, everyone in the Immortal Wang Family passed through many sacred mountain islands to a cloud-filled mountain top.

Buzz!!

Atop the mountain, several powerful men with terrifying auras were waiting for them, like guards.

There was also Gu Changge, sitting behind a stone table, his eyes were self-assured, looking calm.

On the stone table in front of him, the fragrance of tea was curling up, and five coloured steam permeated.

Obviously, the tea was prepared for them.

"Greetings, Brother Gu."

Wang Wushuang landed here and first said to Gu Changge cupped hands.

Wang Zijin, Xiu'er, the old coachman and others behind him were half a step behind, making Wang Wushuang look like their leader.

"Brother Wang came to visit in person, did something happen?"

"Everyone, please have a seat."

"Tea has been served."

Gu Changge smiled and raised his head, his eyes swept across the people in front of the Immortal Wang Family one by one, and motioned them to sit down.

Then, while looking at Wang Zijin, who was dressed in men's clothing and had a delicate complexion, he paused for a moment, revealing a slightly surprised reaction.

But he immediately quickly looked away.

He seemed to be a little curious, but not very concerned.

As for the rest of the Immortal Wang Family, he never paused to take a second look.

When she noticed this, Wang Zijin was not surprised. On the contrary, Gu Changge's attitude made her feel very curious and she became even more interested.

Gu Changge obviously noticed her difference.

But he didn't point it out, nor asked about it.

'He is a smart man, really different compared with other Young Supremes.'

'And from a closer look, there is indeed a kind of detached Immortal temperament, and it also reveals his elegant and extraordinary presence.'

'It was obvious that he had been doing villain activities up until just a few moments before, yet now in the blink of an eye, he had this "I am a righteous character" face on, looking dignified and classy. Could one even play with this?'

To be honest, Wang Zijin no longer expected that Gu Changge would have a miserable day in the future, since he was more than capable, and was evidently not the type of cannon fodder villain that will not survive many chapters.

At this time, after sitting down.

Hearing Gu Changge's question, Wang Wushuang couldn't help showing a smile and said, **"Seeing Brother Gu strategizing is a blessing to my eyes. Such a simple method to suppress the entire Ancient Immortal Races and make them surrender willingly. What an amazing method, Wushuang can't help but admire it. I would like to ask Daoist Brother Gu for advice if possible."**

This felt like a very sincere remark, though it in reality carried maybe only half its actual sincerity.

Wang Wushuang also understood that at this time, saying such a line was a way of helping his Big Sister. Wang Zijin was interested and wanted to meet Gu Changge. However...

As a descendant of the Human Ancestral Hall, if she acted so brazenly and cheaply like this, she would inevitably be criticized.

"Oh, it turned out to be this."

Gu Changge smiled, unabated, and then shook his head.

"It's just luck. Brother Wang has overpraised me. The True Dragon Clan had committed unrighteousness, this is what they brought up themselves. This is the law of heaven and earth."

"For countless years, they have deceived others, covering the sky with only one hand, running rampant in the Immortal Continent."

"This incident is entirely their own fault. A self-inflicted wound that I just added salt to."

Hearing this, the corners of Wang Wushuang's mouth twitched slightly, and he then smiled bitterly, **"No need for Brother Gu to be so modest. In my opinion, no one in the younger generation could use this method as you."**

Gu Changge still didn't care, shaking his head with a smile.

"This matter is not worthy of Brother Wang's attention. Even if I don't take action, there would've been some other people taking action against them."

"Furthermore, I'm just taking advantage of the Great Elder's abilities."

"The Heavenly Dao Immortal Palace is the biggest planner in this matter, and I was simply pushed out on the surface at most, taking the opportunity to make a name for myself."

What Gu Changge said was reasonable, and there was nothing inherently wrong with it.

However, everyone present was not part of the simple generation and was not stupid. They could clearly hear Gu Changge's evasive meaning.

He did not brag about his achievements, nor say that he had a part in those schemes.

The problem was neatly tied to the Heavenly Dao Immortal Palace without a single hitch.

Speaking of it this way, it almost seemed as if his move was made in order to eliminate harm for the Ancient Immortal Continent.

If one didn't look at the way he was basically swallowing the entire True Dragon Clan's lair and family whole, they might really believe it.

“Brother Gu is too humble. Others are eager to be famous, but you wish to avoid it. But then again, since the Black Heavenly eagle, Divine Crocodile and other clans are now under the control of Gu brother...”

“Your current power is already unmatched, so naturally, you wouldn't need to care about all that.”

Wang Wushuang couldn't help sighing with emotion, his words hiding genuine envy.

“Modest? Why should I be modest, it's just the truth.” Gu Changge couldn't help but laugh, **“Brother Wang, you really overestimate me.”**

The old monster of the Wang family couldn't help shaking his head silently at this moment.

Sure enough, judging people purely by their superficial surface was just asking for death.

He had grossly underestimated Gu Changge's ability to spout nonsense.

‘Does he think that people are blind and can't see his schemes and everything he does? Does he not think it would be good to be honest now and then? Don't pretend to be a sheep when you're actually a big-tailed wolf...’

Even he wanted to say this to Gu Changge.

At this time, Gu Changge also seemed to know what everyone was thinking.

Gu Changge spoke slowly, his voice containing lingering regret, **“I know that Brother Wang will think of this as me spouting nonsense, but it is indeed true that the only reason the Black Sky Eagle, Ancient Serpent, and other clans helped me was because of my relationship with Ancient Deity of Reincarnation.”**

“Now that the matter is resolved, the agreement between them and me will naturally become invalid. We will go our own way, and it will be difficult for me to have them take action for me in the future.”

His look of regret seemed so authentic that even the people around could not help but begin to believe him.

After all, the ancestors of the three tribes were in Quasi-Supreme Realm, their strength was enough to make the heavens tremble.

It was difficult for them to truly accept that existence of the Quasi-Supreme Realm would actually take orders from a young man.

Especially after witnessing their might as they worked together to attack. A force that managed to shake the sky and rend the earth!

Thus, Gu Changge's words made them feel the slightest tidbit of relief, as it was within the acceptable range of what they thought of as possible.

“Saying something so hypocritical really doesn't fit your ‘good person’ image.”

Wang Zijin had a strange expression. Hearing Gu Changge's words at the moment, she couldn't help but let out some laughter.

Pleasant to the ears, just like the mystical sound of nature. n0VeluSb.c0m

She didn't think Gu Changge's approach was wrong.

In this Fantasy wuxia world where the strong eat the weak, good people will never live long.

On the other hand, those like Gu Changge that held the banner of justice in hand while doing despicable acts could most certainly live for a long time.

This made Wang Zijin more and more interested, wanting to know more about Gu Changge.

And at this moment...

Gu Changge seemed to finally place his gaze upon Wang Zijin's face after hearing her laugh.

He spoke in an odd tone as if harbouring doubts and suspicions,

“Who...?”

“This is my Big Sister, Wang Zijin. She has just returned from her outside practice. She intended to travel back to our Family, however, while passing by the Immeasurable Heaven, she decided to visit me.”

Wang Wushuang briefly introduced her but did not reveal that Wang Zijin had come from the Human Ancestor Hall.

“Oh, it turned out to be Brother Wang's Big sis. I was a little surprised just now. You sure are well hidden.”

Gu Changge seemed a little surprised as if he just learned something new.

After speaking, Gu Changge raised his teacup made from White Jade, gesturing towards Wang Zijin as the fragrance of the tea wafted outwards.

Since Wang Wushuang didn't mean to introduce her, then he didn't want to ask about it either, so as not to have a counterproductive effect.

“I greet Brother Gu. I have heard many rumours about Brother Gu's strength and intellect. A well-deserved reputation in my eyes.”

Upon seeing this, Wang Zijin didn't think there was anything wrong with Gu Changge's behaviour and expression.

She returned the toast and drank the tea.

“Haha, Miss Zijin is exaggerating. It is nothing more than a false narrative.”

Gu Changge also spoke at will, chatting with her happily.

That Divine temperament. That jade-like, pure and graceful face, made Xiu'er subconsciously show a look of deep admiration and worship.

Afterwards, Gu Changge talked with Wang Zijin and others, his expression calm and without any abnormalities.

When he first saw Wang Zijin, he had already confirmed her identity as a transmigrator. The huge amount of luck, as high as tens of thousands, was just too conspicuous.

Moreover, the temperament of Wang Zijin was very different from the rest. She was indifferent and arrogant, and there was a kind of noble aura around her as if she didn't care about anything.

Gu Changge clearly recognized that this was very different from your average Favoured Daughter of Heaven.

So he planned to follow the original plan and set a few routines in place first.

Chapter 197: Why Doesn't Brother Gu Back out of This Marriage Contract; Brother Gu is Truly Unfathomable!

Wang Zijin's personality was indifferent and arrogant, showing a sort of aloofness carved into her very bones. Her temperament was actually similar to Gu Xian'er in that sense.

It's just that Gu Xian'er only acted cold and arrogant, especially in front of outsiders.

However, when she was in front of Gu Changge, she was just a silly kid that couldn't hide from his eyes.

Gu Changge was very familiar with these types of people and knew exactly how to deal with them.

Wang Zijin didn't know that he was also a transmigrator. As such, when dealing with anything related to her, he must always consider and be attentive towards the transmigrator's unique opinions and perspective.

Gu Changge's smile deepened upon thinking of this.

All he wanted to do now was accompany Wang Zijin's plotline and act like a somewhat special Young Supreme.

Wasn't she interested in him?

One must know that being interested in a strange man was a fatal attraction for a woman.

A fact that even Wang Zijin did not realize.

Gu Changge would never keep someone who was a threat to him by his side.

Of course, Gu Changge had another method to deal with this. As long as Wang Zijin wasn't aware of his identity as a fellow transmigrator, he could devise a very useful plan and catch her unawares.

Wang Zijin was still a woman, after all.

It was not too difficult to make her submissive to him and use her for his own purposes.

[After a few hours.]

On the mountain peak filled with dense mist, the gnarly ancient trees grew towards the heavens, and many priceless medicinal herbs could be found scattered all around.

An ethereal divine land.

Originally, it was Wang Wushuang who had come to visit Gu Changge.

And his sister, Wang Zijin, had only come to join the fun, intending to be a spectator on the sidelines and take a look at this so-called strongest of the younger generation.

And yet...

Wang Wushuang and the others didn't expect the tables to suddenly turn, and that they would be the ones to keep the two of them company.

Gu Changge and Wang Zijin were now talking very leisurely, raising and clinking their cups together.

With a smile on her face, Wang Zijin discussed the various aspects of cultivation and life with Gu Changge, as if she had completely forgotten about her surroundings.

This made Wang Wushuang, Xiu'er and others a little shocked, feeling dumbfounded.

Although Wang Zijin usually acts very approachable, she was very haughty in reality and was prideful down to her bones. She would not put any ordinary Young Supremes in her eyes at all.

Xiu'er knew that even if a descendant of an Ancient Emperor in Heavenly Domain, with a distinguished status and thousands of vassals, were to come to visit the Young Miss, she might still not bother with him at all. It was possible that the Young Miss would dismiss him without even saying a word.

That said, Wang Zijin's attitude towards Gu Changge could be said to have changed a lot. Since she had previously considered him as mere cannon fodder.

Now, she had instead taken the initiative to engage in a conversation with him. This change made Xiu'er's eyes widen in disbelief.

But Wang Zijin didn't care about the opinion of the Wang family around her.

At this moment, she had already noticed the difference between Gu Changge and the rest of the ordinary Young Supremes.

There were a shocking amount of similarities between their views on cultivation and other things.

This feeling surprised her and she became more and more interested in Gu Changge.

For the first time after arriving in this world for more than 20 years, she felt like she had finally found a confidant.

In this strange fantasy world, she found a sense of familiarity.

Gu Changge's refreshing perspective, whether it was his speech, insight, or opinion, astounded her.

He was completely different from the other young Supremes she had seen.

Even those old monsters who have been cultivating for a long time were far inferior to Gu Changge in this aspect.

His views were so similar to hers that Wang Zijin doubted whether he had the same origin as herself, though Gu Changge's words and actions soon dispelled those doubts.

Although she and Gu Changge possessed many similar opinions, on other topics, Gu Changge's perspective was actually no different from those of the native Young Supremes.

Gu Changge was just a little special.

But... these similarities were already enough to make her have a strong interest in him, to the point where there had never been a moment when she wanted to dig deep into one person's past more than now.

'Although he truly doesn't seem like a decent and upright fellow. He's still much better than the kind of people who keep two-facedly upholding justice and virtues...'

Within Wang Zijin's eyes, that strange gleam was getting cleared, growing ever more intense, showing the high evaluation of Gu Changge she had in her heart.

It was not easy for anyone to make her this interested, not to mention that today was only their first time meeting each other.

"Miss Zijin's insights are really enlightening. This Gu truly found our conversations refreshing."

At this time, Gu Changge couldn't help but sigh, **"Only after meeting Miss Zijin today, did I understand what the phrase "meeting a fated one late" means."**

After saying that, he looked at her as if he had just found a confidant.

Hearing this, Wang Zijin pursed her lips and spoke with a smile, **"Brother Gu seems to be the same as me. In the future, brother Gu will surely become a supreme being, standing on top of the world. Someone who can overlook all worldly matters."**

Her words shocked everyone in the Wang family behind them, especially the old monsters of the Wang family, setting off a huge wave in their hearts.

Wang Zijin was bound to become a True Immortal in the future because of her special physique.

Hence, her views have always been completely different from the rest. She doesn't even take Young Supremes with the bloodline of an Ancient Emperor to heart, let alone mention those ordinary Young Supremes. n0vεlUsb.c0m

Yet she still spoke highly of Gu Changge, though this was their first meeting.

Those words, if spread out, were enough to cause a sensation among the Young Supremes and within the Heavenly Domain, sending great waves everywhere.

This only shows that Gu Changge's true strength was by no means as simple as it seems.

They had been deceived.

The hearts of the old monsters of the Immortal Wang Family were restless for a long time.

'What kind of ability does Gu Changge possess to make Miss Zijin evaluate him so highly?'

Gu Changge couldn't help but be stunned at these words as he chuckled lightly.

After thinking of something, he couldn't help but show a regretful expression, **"It's just a pity that I didn't meet Miss Zijin sooner. It might be one of the greatest regrets in my life."**

Hearing this, Wang Zijin was full of smiles, and the shine in her eyes began to stir. The cheeky Favoured Daughter of Heaven smirked.

"Oh, Brother Gu. If you say this, aren't you afraid your fiancée will hear it and become jealous?"

"Hm. Well, it's not too late to know each other now. So Brother Gu, why not we go and cancel the engagement together? How about you marry me instead?"

She could also see that Gu Changge was merely being polite and nothing more.

Such a domineering man couldn't be tempted by a woman so easily. His so-called greatest regret or whatever, was in fact, simply a superficial remark.

In the blink of an eye, the woman of the past may be forgotten.

Even if the woman was as dazzling as she was.

This was enough to show the firmness of his Dao Heart, unlike the rest of the Young Supremes, who are easily disturbed by external objects.

So Wang Zijin's intentions when asking that question were just to tease him a bit.

"Elder sister..."

"Miss..."

When Wang Zijin finished speaking...

Gu Changge hadn't even said anything yet, but the faces of Wang Wushuang, the old monster of the Immortal Wang family, and the others behind her had already changed drastically. Their eyes widened in extreme shock.

How bold Wang Zijin was to say those words so casually!

'If this remark is heard by someone with even a little bit of intelligence, they would definitely think that the Immortal Wang Family is deliberately provoking the Supreme Immortal Dynasty.'

'There's no need to say such a thing so casually in public even if she really did appreciate Gu Changge, right?'

It was unthinkable. Both as a woman and as the Humans Ancestral Hall's descendant. Her careless words were practically begging people to criticize her.

Everyone was dumbfounded, including both the Immortal Wang Family and the powerhouses of the Primordial Divine Sect behind Gu Changge.

Even the man himself seemed stunned as his expression shook from its usual indifference.

He reacted a moment later, **"Miss Zijin's words are really hard for this Gu to accept. That said, even if this Gu wanted to agree, the forces behind you probably won't allow it..."**

He naturally knew that Wang Zijin was merely teasing him.

Which normal girl would dare to say such bold words like her?

Gu Changge didn't take it to heart.

Thus, he used this topic to counter-ask a question to see if he could get some information about the forces backing Wang Zijin.

Hearing this, Wang Zijin said with a wry smile, **"Brother Gu rejected me so straightforwardly, how sad."**

She was actually not surprised that Gu Changge would say that.

How can it be so easy to break off a marriage between forces?

She was indeed interested in Gu Changge, but not to the point where she wanted him only for herself.

As a transmigrator with an ancient power backing her and a terrifying talent, even the direct descendant of the Ancient Emperor can't get into her eyes, let alone normal Young Supremes.

She also had no intention of taking advantage of some big pig's foot[1].

[1: Big pig's foot is a Chinese saying referring to a loathsome, unfaithful, insensitive or chauvinistic man.]

Moreover, Gu Changge pointing out the forces behind her meant that he had obviously guessed her identity.

This surprised her. One should know that even members of the Immortal Wang family might not know about her backers.

"Brother Gu, you don't have to worry about the forces behind me. Whatever I want to do, they can't stop me."

Afterwards, Wang Zijin continued to speak, with a bit of self-confidence and arrogance in her words, like she didn't take her identity as the descendent of the Human Ancestral Hall as important.

Hearing this, Gu Changge's eyes flashed with a strange glint.

He really didn't know what Wang Zijin's backers were since he didn't even investigate her yet.

He had been spouting pure nonsense.

There were so many forces in this world, how could he know where Wang Zijin was cultivating before?

But according to Wang Zijin's calm words, it seemed the forces behind her did not affect her decision.

And it happened to go against him?

Was it the Ancient Immortal Gu family's enemy? Obviously not.

Then it was most likely... against the other identity of his, being the Forbidden Demonic Arts' Inheritor.

Almost instantly, Gu Changge guessed the identity of Wang Zijin.

'Human Ancestral Hall's descendent? After all, apart from the Human Ancestral Hall, "Gu Changge" didn't know any power in this world that could oppose the Forbidden Demonic Arts' Inheritor.'

'How interesting... Even the Human Ancestral Hall is beginning to intervene in worldly matters.'

While thinking of this, Gu Changge retained a calm expression on his face. No one could detect anything unusual about him.

He nodded and replied, **"Miss Zijin is so talented and strong. Indeed, you don't need to care about the forces behind you."**

This time, it was Wang Zijin's turn to be surprised.

She was unable to see through Gu Changge's true strength, but from what Gu Changge said, it seemed that he had seen right through her?

She understood that her talent isn't weaker than any Young Supreme that has existed since ancient times.

But now... Wang Zijin found out that Gu Changge was hidden under a heavier fog than she initially imagined.

Combined with previous rumours about Gu Changge, his actions of digging up his cousin's Dao Bones while he was still young, or how he showed his identity as the Ancient Deity of Reincarnation's heir, one must wonder how many unknown means in the dark he still had left?

She wasn't able to tell.

"Brother Gu is really unfathomable!"

Wang Zijin had to say so at the moment, acknowledging Gu Changge's strength.

She had really underestimated the native Young Supremes of this world, and Gu Changge had taught her an important lesson.

At this moment, Gu Changge also heard the system prompt.

Thousands of Fortune Value and Destiny Points were obtained.

As a leek, Wang Zijin was obviously way easier to harvest than the other Favoured Daughters of Heaven.

These Fortune Values and Destiny Points came one after another, and they were so abundant that even Gu Changge was a little surprised.

However, his face remained without abnormality, and his smile was natural.

Fortune Value and Destiny Points were but one aspect.

He saw another useful thing in her outside of being an easy farm.

After chatting for a while, everyone in the Immortal Wang family soon decided to leave. Today's events made them see Gu Changge in a new light.

His methods, talent, and cultivation base were all unfathomable and mysterious.

Everyone was immersed in their own thoughts.

“Brother Gu, we will meet again.”

Wang Zijin left her parting note, and then bowed slightly, lightly smiling. The Holy Daughter turned around and left in a leisurely manner.

“Take care, Miss Zijin.”

Gu Changge faintly smiled and said, standing on the top of the mountain as the mountain wind blew, his hair shining like crystal. An otherworldly scene like an immortal from myth.

After watching the Immortal Wang family leave...

The smile on his face quickly disappeared, replaced by an unfathomable expression.

“Lets go.”

Gu Changge ordered.

Buzz!

Inside the void behind him, several Heavenly God Realm powerhouses arrived, all of whom were members of Gu Changge's Inner circle.

They respectfully saluted.

“Young Master.”

“Go and observe what Mingkong is doing recently. You are required to report her every movement to me at all times.”

Gu Changge thought for a while and decided to start with Yue Mingkong, but not because he wanted to 'spend a night' with Yue Mingkong again.

But because Yue Mingkong, as a regressed person, should possess some information about the future. Knowing her whereabouts would also allow Gu Changge to roughly see what situations might happen and enable him to prepare for them.

And he needed information more than anything now that even the descendants of the Human Ancestral Hall were coming out.

Gu Changge naturally knew about the rumours regarding the Human Ancestor, so he had to make some arrangements in advance.

He must guard against that person, and most importantly, plot against them. This was because he harboured a sneaking suspicion that this fabled Human Ancestor carried the highest amount of luck in the Upper Realm.

As for whether he was the Favoured Son of Heaven, it doesn't matter, as long as he had a great amount of luck, it was enough for Gu Changge.

Fortune plundering cards could not only plunder the luck of Favoured Sons of Heaven, but also the luck of the person with a great amount of it.

As the descendant of the Human Ancestral Hall, Wang Zijin's appearance in the outside world meant that the Human Ancestor of this generation will soon be born.

Gu Changge will definitely not leave such a big hidden danger alive for the future he planned to craft.

The Forbidden Demonic Arts' Inheritor and the Human Ancestor had always been life and death enemies.

Since Immortal Period, there have been many Forbidden Demonic Arts' Inheritors who have died at the hands of this Human Ancestor.

Adhering to the ideal of purifying the world, once the Human Ancestor was reborn, he would definitely make a move on him.

Gu Changge was actually very clear about this. Although he had put the blame of the Forbidden Demonic Art' Inheritor on Ye Ling's head temporarily, this was not a lifetime solution.

Especially, if the Human Ancestor possessed the means to identify the Forbidden Demonic Arts' Inheritor, making it a huge potential danger to him.

Gu Changge plans to get rid of the Human Ancestor before they could even get a chance to rise.

Whether it was to replace him or to kill him quickly, they were both good options.

"Yes, Young Master."

These subordinates left the instant they received the orders, ready to inquire about Yue Mingkong's whereabouts.

Gu Changge had planted someone at Yue Mingkong's side before, but after the incident in the Baiheng Mountain Range, Yue Mingkong seemed to have noticed his trick, so she carefully cleaned up the people around her.

In the end, she found out who Gu Changge had planted.

Regardless, Yue Mingkong didn't exactly care too much about this. After all, in her opinion, doing this type of action was perfectly in line with Gu Changge's temperament. She just replaced all of Gu Changge's spies the day after.

And Gu Changge's trust in Yue Mingkong was high as well, so her replacing those spies did not bother him either.

The reason why those people were placed beside her last time was mainly because Yue Mingkong refused to tell him where the Fairy Gate was.

If there was anyone else in this world that Gu Changge trusted the most besides his parents, it would definitely be Yue Mingkong.

No doubt about that.

[After a few days.]

The turbulent situation in the Ancient Immortal Continent had undergone tremendous changes. Following the fall of the True Dragon Clan, the other major clans hesitated for a long time before finally making a decision.

The Ancient Serpent, the Divine Crocodile, and the Black Heavenly Eagle Clans slaughtered the remaining traitors in every cardinal direction, cleaning up the dregs of resistance remaining in the Ancient Immortal Continent.

As for who the traitors were? It didn't really matter. As long as one did not surrender to Gu Changge, they would be branded as traitors. And traitors would be hunted down and killed.

Under such oppression, the rest of the Ancient Immortal Races also made their choice and decided to surrender to Gu Changge, latching onto the life-saving boat that was the Immortal Gu Family.

The entire Ancient Immortal Continent was henceforth a fully united front. One with both the Heavenly Dao Immortal Palace and Ancient Immortal Gu family backing it.

This decision caused a huge sensation throughout the Upper Realm.

Of course, in the eyes of many Daoist Sects and Immortal Clans, this matter was quite normal, and it was bound to happen eventually.

The Ancient Immortal Continent itself was created by the ancestors of the Heavenly Dao Immortal Palace. Conceived during the Immortal Period with his supreme power, a fact that has allowed them to survive until today.

Once the True Dragon Clan was defeated, the rest of the Ancient Immortal Races would not have the guts nor the ability to contend against the forces behind Gu Changge.

And in this battle, Gu Changge's momentum has once again reached an unprecedented peak. The title of strongest in the younger generation was also circulated among the cultivators of the Dao Lineages. The roar bustled with a great sensation as the waves reached everywhere at once.

His identity as the Heir of the Ancient Deity of Reincarnation was also exposed to the world.

No one had thought that Gu Changge would have such an identity.

This made who knows how many cultivators envious and jealous, especially those from the younger generation.

Gu Changge's talent was already outrageously powerful, and now that he was the Heir of the Ancient Deity of Reincarnation, it was like giving wings to a tiger.

Subsequently, the battle details were relayed to the world from various sources.

Countless cultivators were shocked beyond words, deeply shaken, not daring to imagine how one person could achieve so much.

— — —

[Within the territory of the Royal family of the Vermillion Bird Clan]

Inside a grand palace, with rune-like clouds and looming treasure lights.

“Wheel of Samsara. An imitation of a Dao Weapon...”

“I didn't expect Daoist Brother Changge to be the Heir of the Ancient Deity of Reincarnation. He has hidden it well.”

“No wonder Ye Ling used powers that seemed related to the Laws of Time that day. It turns out that he knew about this matter long ago, and planned to put the black pot of being the Forbidden Demonic Arts' Inheritor onto Daoist Brother Changge...”

[Kshn: Author made her an idiot.]

Chi Ling, the Holy Maiden of the Vermillion Bird Clan, had a cold expression on her face, as she spoke in a soft voice.

After leaving the Ancient Immortal Continent, she had been looking for the traces of Ye Ling but found there were apparently none that could be seen.

However, some time ago, the Forbidden Demonic Arts' Inheritor appeared again and attacked many Young Supreme of various Daoist Sects and Immortal Clans. Most of them were found dead with their Origins sucked dry.

This alerted her.

These incidents showed that Ye Ling hadn't gone far, but was instead secretly hiding somewhere.

Chi Ling felt uneasy.

She had not found any trace of Ye Ling after all this time.

But she knew that Ye Ling's methods were amazing, especially his concealment technique, which could deceive even the Heavenly Insight. Back then, he could hide his origin and even disguise himself as the Heir of the Ancient Deity of Reincarnation.

Finding out Ye Ling's whereabouts was immensely challenging, like looking for a needle in a haystack.

Thinking of this, Chi Ling sighed and decided to look up the relevant books. She could only accept the fact that people like her could do nothing when faced with the Forbidden Demonic Arts' Inheritor.

After all, it was impossible for everyone to be like Gu Changge, who could deal fatal injuries to the Forbidden Demonic Arts' Inheritor.

Facing such a legendary figure, unless they have innumerable means to save their lives, they would most likely end up dead.

Chapter 198: Ensnaring Believers All Throughout Heaven; The Beginning of a Tragic Drama.

[On the other side, The Supreme Immortal Dynasty.]

“Reporting to the Empress, the spatial coordinates of the Tianchen Realm have been determined...”

“The Supreme Army already has 500,000 listed candidates, and a second group is now being formed.”

A female general had her hands clasped respectfully.

Inside the palace, Yue Mingkong, standing with her hands behind her back, was staring out of the curtained window. Her face was a mask of unfathomable depth and calmness, but it was difficult to hide the proud posture that radiated from her flowing dragon robes.

She was currently immersed in her thoughts, her beautiful, fairy-like features looking a bit dazed as the solemn words interrupted her daydream.

Yue Mingkong nodded. **“Very good.”**

The Tianchen Realm was exactly the information she had learned from the memory of her previous life. The Human Ancestor's reincarnation had walked out of that realm before he finally returned to the upper realm.

She had spent a lot of time confirming its location.

In addition, the Supreme Army's formation, which she had spent much of her energy on, had not yet been fully consolidated.

Yue Mingkong planned to solve this hidden danger for Gu Changge first.

If she couldn't do it herself, then it was best to just find Gu Changge and tell him about it, letting him deal with the matter himself.

But it would not benefit Gu Changge to be noticed by the Human Ancestor Hall early on.

Once his identity as the Forbidden Demonic Arts' Inheritor was exposed, he would be bound to face a situation where the entire world turn into his enemy.

‘If I go to Tianchen Realm now, I might miss some matters over time...’

Yue Mingkong's expression showed some rare reluctance and entanglement.

On the one hand, she was afraid of losing some opportunities due to time constraints, but on the other hand, the Human Ancestor's reincarnation would be at its weakest during his infancy. Dealing with him would be the easiest at this stage.

If people from the Human Ancestral Hall begin their search for him, it would become tougher for her to deal with them, and the difficulty might increase exponentially.

That said, Yue Mingkong didn't plan to rely on her current strength to deal with that Human Ancestor's reincarnation either, and could—at most—attempt to delay his return for a while.

'Tianchen Realm is infinitely far away from the Inner Domain, and the Human Ancestor will not be found by the Human Ancestral Hall so easily...'

'If they wish to determine where the Human Ancestor is, they'll have to spend much time and effort.'

Yue Mingkong thought about it for a long time but ultimately decided to wait before leaving for Tianchen Realm.

Because Gu Changge's mother would hold a birthday banquet for herself in a few days.

And Yue Mingkong had always been grateful to this person, who treated her like her own daughter, in her previous life.

Her biological mother passed away early, so the only familial affection she'd experienced in her past was actually from Gu Changge's parents.

Thus, she did not want to miss her birthday banquet in this life when she still had the chance, since going to Tianchen Realm would definitely delay her business for quite a while.

During this period of time, she had also been carefully paying attention to the situation in the Ancient Immortal Continent.

The final result was not much different from the direction of her previous life.

The only difference was that in the previous life, Gu Changge did not reveal himself as the Heir of the Ancient Deity of Reincarnation, but instead utilized other means to control the Ancient Serpent, Black Heavenly Eagle, and other races.

Ye Ling had died to Gu Changge earlier on in this life, so he naturally took the easy route and blatantly changed his identity.

Yue Mingkong was not surprised by this.

It was simply a flawless approach.

'The descendant of Human Ancestral Hall will soon leave seclusion to enter the outside world, and their strength is unfathomable. Only those Ancient Freaks can match them... with my strength as it is now, I cannot be their opponent.'

'It seems that I have to go to the Ancestral Land to receive the sorely needed Emperor's Qi empowerment, and refine the remaining wisps of the Fairy Spirit along the way...'

After that, Yue Mingkong pondered for a moment, before commanding her generals to resolve some court matters. She then set off for the Ancestral Land of the Supreme Immortal Dynasty.

Every supreme Immortal Emperor had an opportunity to empower their Emperor Qi.

This was the Supreme Immortal Dynasty's inheritance method, which has stood as its lasting foundation of immortality since the beginning.

Needless to say, each generation only had one such chance to enjoy the benefits of Emperor's Qi empowerment.

Yue Mingkong was originally planning to accept it only when she broke through the Sacred Realm.

But now, with the arrival of the Human Ancestral Hall's descendants, she felt a strong pressure telling her that she needed to improve her cultivation.

In addition to the Emperor's Qi, there were still the wisps of Fairy Spirits given to her by Gu Changge.

Yue Mingkong had an ominous premonition that if she did not refine and fully absorb these two things, there would not be a place for her in the future world of Young Supreme and Ancient Freaks.

— — —

Following the unification of the Ancient Immortal Races, Gu Changge was still quite busy as he began his search for treasures everywhere, though he obtained a lot of good things in return.

Ancient Scriptures, Wisdom of former Sages, Supreme Stone Glyphs...all kinds of Rune Formations, Divine Elixirs and Immortal Medicines, Divine Weapons and Daoist Tools...countless of them at that.

The cultivation resources Gu Changge had after that were abundant, far incomparable from before.

The resources accumulated by the major clans of the Ancient Immortal Continent were truly amazing. Even a Quasi-Supreme Realm existence would be jealous of this unimaginable wealth.

Gu Changge obviously took this opportunity to initiate a breakthrough into the Sacred Realm in one fell swoop.

On the surface, the Heavenly Dao Immortal Codex cultivation base had also broken through to the True God Realm. A power strong enough to cheat and lie his way out of tricky situations.

Gu Changge knew that many people had suspicions about his true cultivation, which must be far more than the True God Realm. But what was the use of doubting? They weren't capable of revealing his true strength anyways.

Moreover, Gu Changge didn't care about it himself either.

His momentum had already reached a level unmatched by the younger generation. Even if the descendants of the Human Ancestral Hall were to arrive, they would still need to bow their heads down when they saw him.

During this time, Gu Changge also looked up information about the mysterious Human Ancestor's reincarnation.

Combining the previous classics and novel tropes, he was trying to speculate how likely it would be to replace that reincarnation of the Human Ancestor.

In the end, he concluded that such a possibility was unlikely, though that did not mean that it was impossible.

He needed to find the Human Ancestor's reincarnation first if he wished to enact such a plan.

But how big was the Upper Realm and how vast was the Lower Realm? He had no clue how many world planes were included in the lot.

To the point where it was called an endless world.

Therefore, Gu Changge didn't plan to search for them by combing the realms one by one. It was not realistic at all and he also found it immensely troublesome.

Currently, Gu Changge was surrounded by these troubles.

He thought of two ways to fix the issue and find this so-called reincarnation of the Human Ancestor.

The first was to obtain some clues through Yue Mingkong. However, his confidants, who had gone to investigate Yue Mingkong's whereabouts, all reported that she had left for the Ancestral Land.

She had not taken a step away from the Supreme Immortal Dynasty's territory as of now.

And the second option was to find the Human Ancestor's reincarnation through the Human Ancestral Hall itself, cutting their opportunity and using it as his own.

Unfortunately, this method was chock full of difficulties, as it was impossible for the Human Ancestor Hall to have no means of protecting themselves.

Gu Changge might even end up losing both his head and his army there, with his identity as the Forbidden Demonic Arts' Inheritor exposed to the whole world.

Furthermore, judging from Wang Zijin's attitude, she didn't seem to have much interest in finding the Reincarnation of Human Ancestor. Though it was expected, how could a bonafide transmigrator with a golden finger be willing to be a slave?

Therefore, Gu Changge was trying to figure out exactly how to turn Wang Zijin into his pawn.

This process cannot be completed in a short time.

He temporarily put the matter regarding the Human Ancestor's reincarnation on hold, intending to wait for Yue Mingkong to return from her Ancestral Land before thinking about it.

In addition, during this period of time, Gu Changge carried out some evolution to his Inner World using Destiny Points.

Based on past observations, a magnificent ancient scene of the Immortal Garden from myth was soon constructed.

In the vast, boundless world of mystery, many golden palaces were formed from tiny fragments, as sacred lights shifted and moved like the sea.

Hundreds of millions of stars fell to the ground, while chaos rampaged in the scenery.

An unparalleled, brilliant atmosphere.

Even a Sacred Realm existence would be suppressed in this divine land, unable to help but kneel down in worship under this kind of coercion, much less ordinary people.

Gu Changge's next plan would require the involvement of this Inner World.

As such, he had to arrange it properly, otherwise, the force would not be enough to scare and intimidate others, and he wouldn't be able to attract the leeks he wanted.

“Everything is ready, I need only wait for a suitable time and place, it's time to find someone to test it out on.”

Thinking of this, Gu Changge set his target on Hei Ming of the Black Heavenly Eagle Clan.

The former waste young master had now transformed into a dazzling star of the Black Heavenly Eagle Clan, with monstrous power and prestige.

His status was second only to his sister Hei Yanyu.

This made Hei Ming become overly proud, and he even began to think about how he could help the family get out of the sea of misery that was Gu Changge.

He had no idea that all this was all because of the scourge he himself had brought upon his entire race.

“I greet the master!”

Soon, Gu Changge appeared in the Black Heavenly Eagle Clan.

His arrival alarmed the entire Black Heavenly Eagle clan, and everyone came to pay their respects in unease, not knowing what he was here for.

“No need to be so polite.”

Gu Changge nodded in return and took a look at the training results of the Family during this period of time.

He was quite satisfied that the entire Ancient Immortal Races were now under strict control and had begun operations to secretly train a terrifying force for him.

With these large armies in place, he would be considered a powerful force in the future when he finally bares his fangs.

However, that was not what he came here for.

“Is Hei Ming here?”

Gu Changge asked with a deep smile.

“Reporting to the master... Hei Ming is present, might this lowly one know what business the master has with him?”

The clan elder's complexion quickly changed as he hurriedly replied, his voice trembling.

Gu Changge was no doubt terrifying to the extreme.

“Bring him to me.”

Gu Changge spoke lightly with an inscrutable expression, his back turned to everyone as he just silently stood in the hall.

No one could guess what he was thinking.

This kind of overwhelming presence made everyone terrified to the point of trembling like they were walking on thin ice.

“What has Hei Ming done...”

The expression of Hei Yanyu in the crowd changed slightly, her face turning pale as potential possibilities churned in her head, worrying that Hei Ming had offended Gu Changge.

Because Hei Ming had told her just a while ago that he would definitely find a way to rescue the family and escape from Gu Changge's claws.

Thus, the first thing Hei Yanyu thought about when trouble arose was this matter. What if Gu Changge had noticed this scheme of his and was now planning to kill him?

And soon, amongst the uneasy and frightened expressions of the Black Heavenly Eagle Clan, Hei Ming was brought up by several clansmen.

Nowadays, he was no longer the mediocre, helpless, and useless boy that he used to be.

There was a confidence and spirit in him that differed from the rest.

But even Hei Ming's face was confused. Shock, fear, and worry filled up his expression like raindrops filled up a cup.

He didn't understand why Gu Changge wanted to see him so suddenly.

Against this young man who was in charge of the life and death of his entire clan, Hei Ming felt fear from the bottom of his heart. But he also felt a burning hatred towards him, as he did not want his own life and the life of his clan to be controlled by him.

Gu Changge's demand to see him truly made him uneasy.

“Master, Hei Ming is here.” A Black Heavenly Eagle Clan member's voice trembled slightly as he reported.

“Alright. Hei Ming stays, you all are dismissed.” Gu Changge ordered them casually.

“Understood.”

Following his command, the Black Heavenly Eagle Clan members quickly retreated, leaving only Hei Ming and Gu Changge were left in the hall.

“Master...”

Hei Ming opened his mouth first, forcing himself to calm down and relax.

But Gu Changge didn't seem to hear him speak.

He still didn't turn around.

Hei Ming didn't dare to speak another word. His forehead was covered with sweat, his face pale, and his body shaking.

“I've heard from someone that you wish to unlock your clan's slave mark...”

Finally, when Hei Ming couldn't take it anymore, Gu Changge finally spoke up.

He turned around with a faint smile on his face.

For a while, Hei Ming's whole scalp seemed to explode.

He had just thought about this matter in his heart and only told it to his sister Hei Yanyu.

So how in the world did Gu Changge know?

At this moment, Hei Ming's expression instantly turned desperate. He subconsciously thought that after Gu Changge understood his intentions, he would kill him on the spot, in order to make an example out of him.

Under the control of the slave seal, it would be impossible for him to escape even if he tried. He would be easily suppressed by Gu Changge.

And then he would die.

Even ancestors who are close to the Supreme Realm can't resist!

“Don't worry, I won't kill you for your mistake. You are the one chosen by the Supreme Being after all...”

At this time, just as Hei Ming was becoming desperate, Gu Changge spoke again with a somewhat playful smile.

‘What?!’

Hei Ming's eyes widened when he heard this, incredulous and shocked.

Did he just hear the two words, “Supreme Being”, from Gu Changge's mouth?

Buzz!

It was as if his head had been hit by a giant bell, as its roar deafened and made his mind blank!

‘Could it be that... Gu Changge is also one of the Supreme Being's followers?’

Thinking of this, Hei Ming was even more shocked, and it was difficult to describe his emotions at the moment.

“You...”

This was Hei Ming's biggest secret. He didn't expect it to be revealed by Gu Changge like so.

But Hei Ming also figured it out soon enough.

No wonder he had always felt a sort of familiar aura around Gu Changge before. It turned out that he was also a follower of the Supreme Existence!

“The Supreme Being has sent me to tell you that as long as you think sincerely, everything can be achieved.”

“Whoever recites his true name will see eternal life in reincarnation!”

Gu Changge looked at Hei Ming and his shocked face, the smile on the corner of his mouth deepened

After all, the involvement of his Inner World was the key component in his plan to fool others into thinking he was a “Supreme Being”.

It's enough for the Supreme Being to show up once. If the elusive show up often, then wouldn't it be too outrageous?

So he needs to act as such a spokesperson. Who would think that the real Supreme Being was actually he himself?

What was the identity of the Supreme Being?

Does it really matter? Lord God, or Immortal King? What about some indescribable deity from ancient times?

Too many options...

Of course, during this process, Gu Changge used Destiny Value to build a grand place for communicating with the so-called Supreme Being.

After all, Destiny Value was omnipotent within the system mall and the Inner World as well.

And it didn't take too much Destiny Points for him to do that.

The most important thing was the strength of the individual and the spatial distance between them.

Obviously, there will be a lot of consumption.

But Gu Changge didn't plan to have this consumption come out of his own pocket.

For any creature, to see the legendary “Supreme Being”, they must first have faith in him.

Gu Changge could absolutely establish a lot of tricks in this. For example, when a creature is talking about its 'true name', he would immediately know and judges its position according to the place of belief.

Through this method, he could also know the amount of Fortune Value that person had.

After determining the amount of Fortune Value, Gu Changge would then decide how to harvest them.

But how did faith come about?

This was simple. Through the Immortal Binding Art, it will spread to the heavens and the earth, using itself as a net to cover all planes and Lower Realms.

As long as they practice the Immortal Binding Art, then these beings were all believers of the “Supreme Being”.

‘The so-called belief is just a saying. It is only a line, a line that connects back to me, so that I may control them all.’

Gu Changge had already thought of a plan.

So he planned to experiment with Hei Ming first.

At this moment, hearing Gu Changge's words, Hei Ming suddenly became ecstatic.

His expression became extremely excited, sweeping away the previous depression.

Sure enough, the last time he saw the Supreme Being was completely by accident.

If you want to see the Supreme Being on normal occasions, you need to recite their true name.

“The Supreme Being has now given you a task.”

“Within three months, find thirty devout believers for the Supreme Being.”

“And when the time comes, you will be able to see the Supreme Being again by reciting his true name.”

Gu Changge smiled lightly and began to announce the first task for Hei Ming.

Whether it can be done or not, it didn't matter.

He was just experimenting.

Gu Changge didn't care how Hei Ming went about completing this task, if he can't even do this, then the pawn will no longer be used.

“Please rest assured, master, I will definitely complete the task of Supreme Being!”

Hei Ming accepted the order and exclaimed with enthusiasm.

Gu Changge nodded and took a step. The void blurred as he disappeared from there.

If this experiment goes well, he could then start the second step of the plan.

“The All-Devouring Sky is near, and the Human Ancestor is now...”

Gu Changge's expression became profound and unreadable.

For the people of the world, the All-Devouring Sky was a great terror that couldn't be avoided, but in Gu Changge's eyes, it was a great opportunity to bring good fortune.

Leaving behind the Ancient Immortal Continent, Gu Changge returned to the Heavenly Dao Immortal Palace. He needed time to digest all the various harvests he had obtained.

The strength that had already broken through to the Sacred Realm stabilized again after he swallowed a few Physique refining resources.

In addition, Gu Changge used his Destiny Points and purchased four more pieces of Transcendent Bone, making it a total of thirteen pieces.

From physical form to transcendent form, the control over the rules of Heaven and Earth and the Origin of many Laws of Dao will obviously become higher.

With his many methods at hand, Gu Changge would not need to be afraid even in the face of a Great Sacred Realm existence.

Time passed quickly.

Everything was peaceful.

With the exception of when Gu Xian'er would run to the foot of the mountain to provoke him from time to time.

But Gu Changge's attitude towards her was one of indifference. He simply ignored her completely, which made Gu Xian'er gnash her teeth in anger.

On the other side, Gu Nanshan had chased and killed all the way to the depths of the Sea King Palace, finally forcing the Sea King Palace to seal off the Endless Sea so that no sea creature was allowed to leave within the next 100,000 years.

This incident caused a huge sensation. At that time, there were even people who witnessed a black sword light piercing through the heavens and earth.

A Supreme Realm existence from the Sea King Palace was struck hard by that sword.

Some say that the sword light was sent out by an ancestor of the Immortal Gu Family, who found it hard to see that their family member was being bullied.

But more think that it came from a mysterious powerhouse.

“It seems that one of the masters behind Gu Xian'er has finally appeared...”

Gu Changge was not surprised when he learned about this.

At this moment, there was also a letter from the Immortal Gu Family in his hand, a jade slip that quietly unfolded.

“Mother's birthday banquet. Let us take Gu Xian'er back there together.”

With a calm expression, Gu Changge scanned the contents written above.

His eyes narrowed.

In his view, this was an opportunity.

A good opportunity to get in touch with the Peach Village behind Gu Xian'er.

It would be a wonderful start to the tragic drama that he had paved for Gu Xian'er.

Chapter 199: Finding a Second Scapegoat; Gu Xian'er, Stop Acting so Full of Yourself!

Gu Xian'er had never returned to the Gu family since her childhood.

And although she had relatives and masters in the Peach village, there must still be some deep-rooted wish to go home inside of her. After all, that's where she was born, where her family originally lived.

Therefore, in Gu Changge's opinion, this birthday banquet was an excellent opportunity for him to completely eradicate the estrangement between the various lineages of the Gu family that had developed over the years, and finally, take full control of the family.

Gu Changge had never forgotten about this matter from the very beginning.

Because his mother and father had gotten married late.

His mother was now five thousand years old. That said, due to her high cultivation, she still retained her unparalleled beauty.

Furthermore, because of his mother's identity, it would definitely be a big event for even the Immortal Gu Family and the Primordial Divine Sect.

They'd invite all the Daoist Sects and Immortal Clans to attend the banquet.

At that time, it was inevitable that the Young Supremes of all the great forces would gather together, which might lead to some disputes between them.

And Gu Changge, being the gracious and fair host he was, would not be able to personally solve those disputes.

Though these were trivial matters to Gu Changge.

For he was more concerned about something else.

The Human Ancestral Hall was likely to start moving next, meaning many Ancient Freaks, or Heavenly Prince may come into the light at this time.

Their talents, needless to say, would be formidable.

It was a timely blessing, as Gu Changge just happened to be lacking some Origin Essence recently. He had been worried about finding sufficient prey to temper his Sacred Realm Laws with.

On top of that, the title Forbidden Demonic Arts' Inheritor needed a new scapegoat, so he had to search for another person he could push the blame onto.

Ye Ling's death would soon be discovered by the Human Ancestral Hall.

Since Ye Ling was from the Immortal Ye Family, the Human Ancestral Hall, with their mysterious techniques and abilities, could figure out his whereabouts in an instant using his bloodline.

When the news of Ye Ling's death spreads, it would certainly affect the credibility of Gu Changge's words by a considerable amount.

Therefore, Gu Changge now had to initiate the second part of his plan.

'I will have some time to arrange. But before that, I need to find the unlucky sob who will carry the black pot this time...'

Gu Changge's expression slowly grew darker. The faces of all the Young Supremes quickly flashed through his mind, from Wang Wushuang to Ye Langtian, and the others, as he dismissed them one by one.

He was continuously searching for the right person to choose.

Firstly, the status of the target must be high enough, as an ordinary Young Supreme would definitely not fit the mould of being the Forbidden Demonic Arts' Inheritor.

The strength of the target must be very strong, otherwise, it would be difficult to explain the matter of Ye Ling's death otherwise.

Furthermore, the target must have a background and cultivation far beyond the reach of people like Ye Ling, or it would be difficult for Gu Changge to devise a perfect plan.

'The level of strength I fabricated for Ye Ling was a little too strong, to the extent that I enabled him to compete against me, and even escape from my hands...'

Gu Changge felt a slight headache.

At that time, in order to act as if Ye Ling was strong, he had even severely wounded himself and acted with Yin Mei to deceive everyone.

As a result, almost every cultivator became aware of Ye Ling's strength, which was strong enough to escape from his hands.

He was no longer able to put the blame onto any random person

Because even if he did, no average Young Supreme would be able to contend with Ye Ling's strength.

To have the capability to kill Ye Ling, the new pot bearer must possess great strength.

Gu Changge wanted to create an illusion that Ye Ling had died and that the Forbidden Demonic Arts were inherited by someone else, or that there was a mysterious organization acting behind the scenes.

This limited his choices of potential candidates.

In terms of cultivation, besides Wang Zijin, Gu Changge couldn't think of anyone else for the time being.

However, it definitely can't be Wang Zijin, as she was the descendent of the Human Ancestral Hall. Putting the black pot on her head would be equivalent to actively digging one's own grave.

'Looks like I have to find out which Ancient Freak or Son of the Ancient Emperor are going to emerge soon, then start with them.'

Gu Changge soon thought of a possible target.

His mother's birthday banquet would inevitably attract all major clans, Immortal Sects, and Ancient Emperors to attend.

After all, no one in the entire Upper Realm's Daoist Sects and Immoral Clans would dare ignore an invitation from the Immortal Gu Family.

An incomparably lively scene was sure to occur.

'And considering Mingkong's personality, she'll certainly attend the banquet too. I can attempt to pry some information out of her then.'

'I should also take advantage of this opportunity to make preparations and find out in which realm the Human Ancestor's Reincarnation will take place, as well as information about the mysterious Peach Tree behind Xian'er...'

These days, Gu Changge didn't give as much thought to Gu Xian'er as he did in the beginning.

He was more interested in the mysterious Peach Tree instead.

No matter whether it was according to Gu Xian'er's plotline as a Favoured Daughter of Heaven or any other plotlines, the mysterious Peach Tree was bound to be an existence that had survived many great ages.

Therefore, in order to plot for that mysterious Peach Tree, Gu Changge had to start with Gu Xian'er.

'Xian'er's attitude towards me will largely determine the attitude of the mysterious Peach Tree and the masters behind her towards me as well.'

Gu Changge had been planning all this for a long time.

Without creating a tragic drama, it would probably be hard to move those old fogies who have been alive for countless years, not to mention getting them to actually believe in him.

Gu Changge hadn't forgotten the time when he sent Yan Ji to check out the Peach Village, only to have her, a Great Sacred Realm existence, come back seriously injured by a Peach Blossom. It was entirely possible that if she hadn't escaped using the Domain Breaking Talisman, she might have fallen in that place.

Such a powerful existence. What if he could use it as his own? Or even take over it and devour its origin?

Thinking of this, Gu Changge's smile could not help but deepen.

Soon, news of the Immortal Gu Family hosting a birthday banquet spread throughout Immeasurable Heaven, and even amongst the other Dao forces, causing a great sensation.

Gu Changge's mother was a renowned Goddess in the past. She was the last Holy Maiden of the Primordial Divine Sect, with a formidable talent that was hard to rival.

When the news of her birthday banquet spread, it immediately shocked countless cultivators, leading to numerous heated discussions.

Only then did many people realize that the Goddess, who was once renowned throughout the world, had already turned 5,000 years old.

And even her son had already become an unrivalled leading figure of the younger generation.

For a while, countless cultivators lamented.

Many Daoist lineages and Great Sects, including the Vermilion Bird Clan, the White Tiger Clan, the Heavenly Dao Immortal Palace, the Immortal Wang Family, and the Immortal Ye Family, sent their clansmen bearing congratulatory gifts to the territory of the Immortal Gu Family.

[Meanwhile...]

On the top of the mountain where the Great Elder usually cultivated.

A young girl with a beautiful face was currently hugging her knees, staring blankly at the clouds below, seemingly stuck in a daze.

Occasionally, the wind would blow, making her skirt flutter and revealing her delicate and flawless calves, not unlike pure lotus roots.

Her figure looked as if it had been born out of an untainted earthly spirit, walking out from the full mountains and clear rivers. A clear and cold temperament, without a trace of dust, seemingly carrying the most wonderful blessings of heaven.

She resembled a darling of Heaven and Earth.

It was none other than Gu Xian'er, who had just finished her cultivation.

After being Gu Changge's sandbag, her cultivation progress had advanced by leaps and bounds, and now she was on the verge of breaking through to the False God Realm.

It was as if she was growing stronger and stronger after each defeat.

Such speed shocked even the Great Elder.

However, Gu Xian'er wasn't happy with it.

No matter how much she provoked him, Gu Changge remained indifferent towards her, not even bothering to say a word.

It was the same even when she went to Supreme Peak where Gu Changge stayed and challenged him personally.

It was an attitude similar to facing a stranger who had absolutely nothing to do with her.

Gu Xian'er was clearly hurt by this, though she would never say it out loud to anyone.

Yet she also understood that Gu Changge might have also felt this way when she treated him with such indifference and hatred at the start.

However, she believed that Gu Changge was deliberately acting like this now in order not to let her get close to him and dig deeper into his hidden secrets from the past.

Therefore, she didn't mind it and continued to chase him relentlessly.

But when a letter from the Immortal Gu Family suddenly landed in front of her, Gu Xian'er's mood turned sour, and her posture immediately slumped.

“Return home?”

Gu Xian'er muttered softly. She looked at the letter in her hand with a dazed expression.

Similar to Gu Changge, she was also sent a letter from the Immortal Gu Family.

And judging from the handwriting and aura on it, the letter surely came from Gu Changge's father, Gu Lintian.

The eldest uncle that she was very much in awe of in the past.

Frankly speaking, Gu Xian'er really didn't expect that her eldest uncle would personally write her a letter at this time, in which he sincerely expressed his concern and guilt for mistreating her all those years.

Although Gu Changge's father didn't mention the reason for the incident back then, Gu Xian'er could also understand his hardship.

This was something she had already figured out, so she naturally wasn't surprised.

What surprised her instead was Gu Lintian's approach.

As the head of the Immortal Gu Family, he showed an obviously apologetic attitude towards her, a mere member of the family.

That said, even if Gu Xian'er was able to understand his situation in her heart, there was still ultimately an unresolved knot.

It already happened so it wouldn't matter if she understood because it'd be impossible to pretend that it never happened in the first place.

The one who expelled her from the Gu family back then was Gu Lintian, and the one who was letting her return to the Immortal Gu Family now was also him.

In the past, when her father was vying for the position of Patriarch, the one who defeated him was also Gu Lintian.

In truth, Gu Xian'er longed for the day she could finally return to the Immortal Gu Family, her home.

There were still some of her relatives and clansmen there that she couldn't possibly part with.

“When Gu Changge acknowledged my identity as a member of the Gu family that day, I should've expected all this. Don't you think so, Ah Hong?”

Gu Xian'er asked with a sigh, speaking to the little red bird on her shoulder.

The little red bird glanced at her obliquely, as if to say – ‘stop pretending so much, you obviously want to go back in your heart, but you just aren't showing it on your face.’

Seeing the red bird's ridiculing expression, Gu Xian'er gritted her teeth with annoyance, wanting nothing more than to pluck off its hairs, roast it, and then eat it right that instant.

It truly didn't give her any face at all.

Nonetheless, the little red bird was spot on with its assessment of Gu Xian'er's inner thoughts.

As Gu Changge had previously noted, Gu Xian'er possessed an arrogant personality, and she sometimes valued her face more than anything else.

If the Immortal Gu Family had sent a luxurious carriage, pulled by nine dragons alongside numerous powerful individuals to invite her home, then maybe she would "reluctantly" nod her head and agree.

But now it was merely a letter from home and nothing else?

'That's it? That's it?! That's it?!?!'

Gu Xian'er truly wanted to throw the family letter at her uncle's face and ask him if there was any sincerity and apology in this invitation at all?

If she returned to the Immortal Gu Family like this, where would she place her face?

Gu Changge already took the initiative to acknowledge her identity and clarify the events of the past in front of the whole world, so now it should be the Immortal Gu Family inviting her back in the same fashion!

"There's no sincerity at all! They're looking down on me..."

Gu Xian'er let out a cold snort, a disdainful sound rising from pouty lips.

Speaking of which, this was indeed some poor consideration on Gu Lintian's part.

In his opinion, that year's incident was something the Immortal Gu Family should feel sorry for Gu Xian'er about, and if such a matter was made too high-profile, it might make Gu Xian'er feel that the Immortal Gu Family was putting on a face for the rest of the forces to see and wasn't being sincere.

Thus, after careful consideration, he decided to personally write a letter to Gu Xian'er.

Unfortunately, he didn't realize that Gu Xian'er actually had such a face-loving character.

"Go back? Who wants to go back, I won't be going back anyway!"

Gu Xian'er calmed down her mood, but couldn't resist mumbling out her grievances.

"Oh? Not going back where?"

Gu Xian'er suddenly heard a faint voice at that exact moment.

Immediately afterwards—

She felt the heavens and the earth abruptly turn silent, as if an immensely terrifying pressure had descended, rumbling like the mountains and seas.

Time and Space, and even the cycle of Samsara throughout Heaven and Earth froze!

Buzz!

High up in the sky, the space blurred as a passage emerged, piercing through the surrounding space.

From within it, stepped out Gu Changge's figure, standing with his hands behind his back. He looked calmly upon Gu Xian'er, whose face was as stiff as a rock.

“Gu Changge...”

Gu Xian'er finally managed to react. Her eyes slightly narrowed at Gu Changge, having no clue as to why he had just appeared.

‘Wasn't Gu Changge still acting as cold as a block of ice to me? Not paying any attention and making my teeth itch in frustration?’

‘So why was he here now?’

Gu Changge stood aloof in the sky, looking down on Gu Xian'er indifferently.

A long, flowing immortal robe, coupled with wide sleeves that sparkled as if embroidered with stars from heaven, appeared extremely elegant and magnificent.

Carrying a noble, lofty temperament.

“Where did you just say you wouldn't go back to?” Gu Changge repeated himself in a casual tone.

Gu Xian'er's gaze moved away from Gu Changge's body, and she didn't dare to look at him directly.

Because she couldn't beat Gu Changge and the Great Elder also wasn't currently on the mountain peak.

After returning from the Immortal Continent, the Great Elder was enraged and only gave her instructions on what to do next, before disappearing without a trace.

Gu Xian'er felt that the Great Elder must've been enraged by Gu Changge inside the Ancient Immortal Continent.

Hence, if Gu Changge really wanted to teach her a lesson at this time, no one would be able to stop him.

Especially since she had been provoking Gu Changge a lot these past few days.

Although Gu Changge didn't pay much attention to it, with his vengeful personality, he most likely kept my transgressions in mind.

He was simply waiting for an opportunity to get his payback.

“Did I say something?”

Gu Xian'er couldn't withstand the terrible pressure emitting from Gu Changge's body and muttered softly.

At this time, playing dumb was the best option.

That said, Gu Changge had probably heard her ramblings just now, or he wouldn't have suddenly appeared like this.

However, she wasn't afraid of Gu Changge either.

“Oh, you won’t tell me? Seems like your cultivation has been going well for some time now. Did you start having delusions again?”

Seeing that Gu Xian’er didn’t admit it, the calm on Gu Changge’s face also disappeared, and he asked with mockery.

“Gu Changge you...”

Hearing him speak, Gu Xian’er’s delicate face slightly changed, and she immediately felt that something was wrong.

She reacted quickly, and a layer of silver brilliance appeared on her body as if the immortal light was flowing, and various runes were being intertwined, forming a true phoenix with its wings spreading behind her back!

The glittering light was brilliant, the aura was amazing, and even heaven and earth seemed to be torn between the wings.

It was a movement technique, she quickly spread her wings, and fled to the space behind her.

Because she sensed that Gu Changge was about to strike.

Buzz!

However, Gu Changge’s speed was faster than hers by far, and at the moment Gu Xian’er was about to retreat, a vast and terrible wave rose from the space nearby.

Like a roaring sea, it suddenly turned into chaos, with every inch of space as dense and heavy as a mountain, locking her figure firmly in place!

“This is bad—!”

Gu Xian’er let out a low cry, realizing that with her current cultivation, she couldn’t break free at all.

Even if her cultivating speed was very fast, she still couldn’t resist in the slightest when facing Gu Changge.

“This girl, after a few days of not receiving a spanking, has become arrogant again. This won’t work...”

Looking at the situation, Gu Changge slightly shook his head, and said so in words of pity and regret, though his tone was as indifferent as always.

Buzz!

The void suddenly surged, and as he put forward his palm, a terrifying massive palm print appeared in the void, and then descended down from the sky!

There wasn’t any surprise.

Gu Xian’er was again suppressed to the ground by his palm, and no matter how her nascent Fairy Bones glowed and wanted to awaken, it was all futile.

The simple Fairy Bones, Gu Changge suppressed her with the power of rules. Naturally, it didn't take much effort, since the two just weren't on the same level.

Gu Xian'er obviously wasn't aware of this.

Otherwise, she would've shouted that it was unfair.

Frankly, Gu Xian'er's current strength was in fact quite strong in Gu Changge's opinion, and her cultivation speed was worthy of being the Favored Daughter of Heaven.

Nevertheless, Gu Changge pursued greater results; how can Gu Xian'er with such strength, meet his requirements.

Thus, his words still remained cold, and he said with mockery, **"Gu Xian'er, this is the result of you provoking me every day? Unable to withstand even one of my palms. You've disappointed me too much."**

"If it was a real battle, you would be dead right now."

Gu Changge stood tall, looking down on her indifferently.

"Gu Changge, you have the ability to suppress your cultivation to the same realm as me, but you bully me by relying on your high cultivation base, what kind of ability is that?"

Gu Xian'er gritted her teeth with extreme anger at his remarks. Even after the amount of effort she took, she was defeated in one palm once again.

No matter how much she cultivated, she just couldn't catch up with Gu Changge.

On the contrary, she was easily suppressed by him every time.

This made Gu Xian'er very upset.

She knew that Gu Changge was definitely much stronger than his apparent Cultivation Base, perhaps he was close to breaking through the Sacred Realm.

"In a real battle, no one will be fair." Gu Changge said indifferently.

"I know you won't kill me..."

Although Gu Xian'er was suppressed on the ground, after hearing the words, she said so.

She looked as if she was sure of Gu Changge.

"Oh?"

Gu Changge didn't deny it, and his expression was slightly playful.

"Gu Changge, remember this, sooner or later I will catch up with you, and you won't be able to bully me anymore."

Gu Xian'er said viciously, and an expression reflected on Gu Changge's eyes that appeared very rude.

However, this time, Gu Changge didn't say any more.

“Father sent a letter and ordered me to take you back to the family.” He said lightly, and at the same time lifted the suppression of Gu Xian'er.

He had already predicted Gu Xian'er's intentions.

With her arrogant personality, she certainly wouldn't be willing to go back easily, even if she wanted to go back in her heart, she still wouldn't agree.

Hence, Gu Changge came to make her realize the reality of the matter.

“I'm not going back, it's your father, not mine.”

Gu Xian'er heard his words, and her expression quickly returned to cold and calm, and she said indifferently.

“Gu Xian'er, I'm afraid you're mistaking something.”

“I'm ordering you to go back with me, not asking if you'll come or not.”

Gu Changge couldn't help but laugh.

For this tough-mouthed girl, he naturally had to take tough measures.

Obviously, if Gu Xian'er resisted, then Gu Changge would strike again, similar to a few moments ago and suppress her.

And even if she was knocked unconscious and stuffed in a sack, she must be brought back to the family.

Hearing this, Gu Xian'er gritted her silver teeth, knowing that at this point, she couldn't do anything.

Gu Changge definitely had more methods.

“This is not that I want to go back, but you're forcibly taking me back, Gu Changge, don't mistake this point.”

Finally, seemingly having figured it out, Gu Xian'er agreed.

Only her attitude seemed quite reluctant, and her small and delicate face looked very unhappy.

“I understand, you begged me to take you back, not that I wanted to take you back.”

When Gu Changge heard her, he nodded his head in understanding.

“Eh???”

Hearing this, Gu Xian'er was stunned, and then directly exploded with anger.

Chapter 200: Sugar Daddy; One became Emperor, one became Horse-feeder.

Looking at Gu Xian'er with a blown-up look.

Gu Changge's expression was rather plain, not surprised at all.

However, when Gu Xian'er was about to rush over to fight him desperately, his expression moved slightly, he flicked his sleeves, and the void in front of him was blurred.

A spatial channel appeared.

Gu Xian'er felt the sky spinning.

The scenery in front of her changed drastically, the magnificent mountains and rivers, the belts like rivers, and the emerald lakes quickly moved away.

Gu Changge's aura came from behind her.

When she reacted, she realized that Gu Changge had wrapped around her waist and quickly walked through the spatial channel.

Buzz!!

At this moment, Gu Xian'er's head became blank.

She even forgot to think about where Gu Changge was taking her.

She could feel the gentle and rhythmic breath of Gu Changge from behind her, like warm sunshine in clear winter-spring, with a faint cold touch.

The next moment, the scene changed, mountains and rivers reversed.

It suddenly became noisy with loud voices coming from all directions.

The two of them had already disappeared from the Heavenly Dao Immortal Palace and came to a very noisy street in the Heavenly Dao Ancient City.

On the sides of the streets, cultivators of various forces and creatures were walking in and out of majestic and grand palaces and pavilions.

The sudden appearance of Gu Changge obviously caused a great sensation here.

Many creatures and cultivators looked at him in shock with their eyes widening and frozen in place.

"It's... Young Master Changge!"

A cultivator exclaimed.

Almost instantly, the surroundings around Gu Changge and Gu Xian'er cleared in an instant.

During this period of time, Gu Changge's power shook the entire Immeasurable Heaven, leaving no one who hadn't heard of him.

Any appearance outside nowadays would cause a great shock.

Soon, they were surrounded by many cultivators and creatures who heard of the news.

Many Young Geniuses from extraordinary origins looked there with reverence and whispered, **"Is this Young Master Changge? I didn't expect to see him in person today!"**

"Is the woman next to Young Master Changge his cousin? She is a beauty, she's gonna become a disaster in future, starting fights everywhere because of her beauty."

[Kshn: That flat board? I don't believe it.]

Many young women's eyes were attracted to Gu Xian'er, and they seemed very envious for a while.

“What are you in a daze for?”

At this moment, Gu Changge didn't care about the people nearby, and spoke lightly, interrupting Gu Xian'er's daze.

She recovered quickly, but she didn't expect Gu Changge to bring her here suddenly.

The breath just now made her heart beat so fast that she felt a little nostalgic and unwilling to let go.

“Why did you bring me here?”

Gu Xian'er swept around, a little puzzled.

This was obviously a square market that can be seen everywhere in major ancient cities, nothing special.

She didn't understand Gu Changge's intentions.

“What else do you think? You reek of poverty.”

Gu Changge glanced at her, frowned, and said in a cold tone.

“Are you gonna wear that blue dress for a lifetime? My Gu Family will lose face if you appear like that when you go back.”

Gu Changge left Gu Xian'er hanging for a long time so now, it was time for her to realise how good he was to her.

Gu Changge thought carefully.

A simple girl like Gu Xian'er can't always be bullied, she has to taste the sweetness sometimes too.

Otherwise, Gu Changge wouldn't go through the trouble to bring Gu Xian'er to such a place personally.

This approach was similar to what used to happen in his previous world. People like Gu Xian'er, who is a fan of money can be tricked easily by letting them understand what being wealthy is.

Being a sugar daddy sometimes wasn't bad.

It just so happens that the wealth on Gu Changge's body was so much that it could shock the world.

“Poor...”

Hearing this, Gu Xian'er suddenly became a little unhappy.

Gu Changge truly couldn't speak any good words.

Reeks of poverty?

Wearing a dress for a lifetime?

These sentences obviously hit her sore point. She just likes the colour blue. How could it be possible for her to wear one piece for a lifetime as Gu Changge said?

It seemed that she didn't like to be clean but still smelled fragrant.

'No, don't make a mistake Xian'er. This is the perfect opportunity to get revenge on Gu Changge for all the bullying!'

Gu Xian'er told herself so.

Afterwards, she scolded Gu Changge bitterly in her heart, which made her feel better.

Gu Changge looked calm as if he hadn't noticed the change in Gu Xian'er's expression.

And then, Gu Changge took Gu Xian'er into and out of various high-end pavilions, wherever he went, Gu Xian'er usually had the highest level of treatment that she couldn't get on normal days.

This made her itchy with hate, knowing that Gu Changge was deliberately showing off.

But it was just envy!

The Purple Gold Card of the Ten Thousand Dao Commercial Alliance, the Purple Order of the Sacred Pill Sect.

From clothing, Divine Weapons, Scripture, and Relics, to the Elixir of Sacred Medicine

As long as Gu Xian'er saw it, Gu Changge bought it at once without hesitation and he didn't even see what it was.

This attitude made Gu Xian'er suspect that did Gu Changge finally got a conscience, and planned to compensate her?

Adhering to the idea that Gu Changge must bleed heavily.

At the end of the day, Gu Xian'er's eyes widened and she couldn't stop spending money, her small hands trembled slightly.

She finally found that money was really omnipotent.

And this was only a fraction of Gu Changge's huge wealth, not even a fraction to be exact.

Gu Xian'er's envious eyes were all green, and she couldn't wait to rob Gu Changge directly.

She usually doesn't dare to look at the wide-sleeved Immortal Clothes, embroidered with a variety of Immortal materials, exquisite and gorgeous, like the intertwined stars on Nine Heavens, radiant and colourful, it was an invaluable treasure.

There were rumours that it was left by a certain female Supreme from the Immortal Period.

But it was very expensive, and besides being good-looking, it wasn't really useful.

However, she didn't care about those things today.

Gu Changge only noticed the movement in her eyes, and immediately bought it without hesitation.

Gu Xian'er couldn't help but get shocked of this wealth.

At this time, she finally discovered Gu Changge's sinister intentions. From now on, she can no longer be as diligent and thrifty as before.

She will definitely be short of money.

Was it possible for her to go back to being an old sap if she could get all these if she just hugged Gu Changge's thigh?

After all, after eating the delicacies of mountains and seas, who can still eat leftovers?

'This guy is so bad! He dares calculate these kinds of things too!'

"Gu Changge, you are so despicable." Gu Xian'er couldn't help being angry.

Gu Changge didn't expect this lass to see through his intentions, it seems that her head was still in place.

"Then? Are you going to return everything you bought?"

he asked flatly.

"I'm not." Gu Xian'er glared at him quickly.

'He wants me to drop all these and go back empty-handed? Hah! Not happening.'

'There's a reason why I'm getting these things so why should I return them?'

[At the same time]

[Nine-Tailed Celestial Fox Family, Ancient Royal Family]

There was an extremely magnificent room in the palace pavilion and beside it was a relatively rudimentary stable.

There was a stunned young boy with plain clothes and a youthful face, strikingly white, who reacted suddenly.

He had the look of someone who just recovered from a long period of daze.

"Why am I here?"

The boy was muttering to himself.

He had a confused expression for a while before he suddenly covered his head and it started to feel like exploding.

"Argh!"

"It hurts!"

"It hurts so much!"

All kinds of memories started flowing into his mind, like broken fragments, beginning to reunite and regroup.

After a long time, the boy widened his eyes in shock and looked around for some time, staring at the strange environment in front of him.

He was still cultivating in the Emperor's Hall just now but in the next moment, his vision went black...and this is where he ended up; being a stable boy in charge of scrubbing and feeding the sky horses.

“Why did I suddenly become a stable boy? Even this face is not mine? Except for my memories, I have nothing.”

The boy's expression was full of various complex emotions including shock, unwillingness, and disbelief.

He was muttering, he couldn't believe that all this would be true.

“Could it be that a senior is joking with me? My father is Emperor Ying...” the young man's face sank, and he said to the invisible void in front of him.

Although his face was ordinary, there was a terrifying aura around him.

This terrifying aura can only be possessed by those of the upper ranks. Only someone like them could display such an aura.

However, even after the young man's words were finished, there was still a dead silence in the void in front of him.

Except for the stable behind him, the surrounding was so quiet he could even hear his breathing.

His words didn't make any difference.

“Why did I suddenly become a different person? I don't even have any of his memories, is there any reason behind this?”

The expression of the boy suddenly became very ugly, and he couldn't help clenching his fists.

“Could it be that my and this stable boy's soul got exchanged; he became me, and I became him?” The boy calmed down quickly and analysed it seriously.

But the more he analysed, the more upset he became, and the angrier he started to get.

He couldn't understand what exactly was this at all.

How can the soul of the two people get exchanged, he had no idea about it.

Even in the heyday of his father's ancestors, it was impossible to have such a method.

He was the son of an Emperor, the most talented in the past, always invincible...

But his father felt that his enlightenment at that time would affect his subsequent achievements, so he sealed him up ever since.

He has been cultivating in the Emperor's Palace, not even taking half a step outside, and has never encountered an enemy.

“Why did I suddenly encounter such an unpredictable method?”

“Could it be that my father's enemy did it?” The young man was unwilling to reconcile but he was a noble man, his identity and bloodline were indescribable, and no one in this world could match up to him.

As long as he appeared in the outside world, he would be able to dominate the various Ancient Immortal Races of the Immortal Period, having unmatched achievements.

[Kshn: Is it only me or the author just boasted about his own MC again indirectly?]

But now, having to be stripped of his good qualities and become a low-status stable boy, how can he be willing?

“Don't let this emperor know which thief dares to take everything from me...” He muttered with a cold voice while gritting his teeth.

Just as he gritted his teeth, a little maid's voice came from outside the stable.

“Chu Fan, have you fed Young Miss' Heavenly Horse? She is going to the Ancient Immortal Gu Family to participate in the birthday banquet of Young Master Changge's mother. Don't delay Miss' big event.”

Hearing that, the young man named “Chu Fan” clenched his fists even more tightly.

‘I'm not Chu Fan, I'm Ying Shuang!’

He thought in his head but now, he must use this name.

— — —

[At the same time, in an endless void far away.]

A magical rune flickered and floated in the grand palace chaotically.

“I... I turned out to be the son of Emperor Ying?”

A young man with a handsome face and an Immortal aura, dressed in colourful Immortal Clothes, suddenly muttered after opening his eyes.

He felt a strong sense of ecstasy at this moment.

The whole person's voice was trembling, as if being hit by an extremely huge thunderbolt, his head was dizzy.

He never expected that after he slept at night, he'll wake up again just to become the person he dreamed of becoming!

Before this, he was just an ordinary horse-feeding teenager, without a father or mother, and was adopted by Miss Yin Mei.

Then, he got a Cultivation Technique from her and finally embarked on the road of cultivation.

Otherwise, he didn't know when and where he would've died.

“I am now the son of Emperor Ying, the most honourable person of the Ancient Royal Family.”

His heart was full of excitement and ecstasy, and he also felt the terrifying power and talent possessed by his current body.

Although he had no previous memory of this body, it didn't matter!

'I just need to be careful so that no one can spot this abnormality!'

Thinking of this, Chu Fan couldn't help laughing ecstatically in his heart, no, now he was called Ying Shuang!

He didn't care at all why he would wake up from sleep and become the son of Emperor Ying who practised in the Emperor's Palace...

But there was no need to care about such things.

Now he has replaced the original son of Emperor Ying.

He was now the Emperor!

"Yin Mei, you are mine"

At this moment, an emotion that had never been seen before appeared in his eyes.

This emotion was also called possessiveness!

[Half a month later]

The fact that Ancient Immortal Gu Family's matriarch**[1]**

wanted to hold a birthday banquet, shocked everyone in the Upper Realm.

[1: Wife of Patriarch is also called Matriarch]

During this period of time, almost all forces were sending their elites with various gifts.

For a time, outside the territory where the Ancient Immortal Gu family was located, it became very lively.

Every day, one could see all kinds of Ancient Warships, Chariots and Flying Boats passing by.

In front of this all, every other occasion faded in the back.

The brilliance was dazzling and radiant.

There were white jade flying boats and star-sized warships at the mountain peaks.

Immortal aura was swirling and natural Dao chants could be heard because of all the Daoist Sects and Immortal Clans coming from all over the Upper Realm.

Nowadays, no one dares not come to the invitation from the Ancient Immortal Gu Family.

The rest of the uninvited forces, even if they were unqualified, would send powerhouses to send gifts.

Although, for them, it was impossible to enter the Mountain Gate of the Gu Family, leaving a gift was something they must do to send their regards to the Gu Family.

— — —

[At the same time.]

[At Gu Family's Mountain Gate, Outer Island.]

Countless divine lights travelled through, making it lively and extraordinary.

The huge, godly islands were floating up and down, and there were thousands of rays of brilliance and tens of millions of lucky stars.

The Immortal aura was dense and surging.

Among the mountain gates, all kinds of wild and ancient giant beasts that cover the sky and the sun were roaming. Their Qi and Vitality were monstrous but they were used as mere transport vehicles to escort goods.

“The envoy of the Golden Rhinoceros Clan is here, and I present a pair of Primordial Golden Rhinoceros Horns!”

“Present Ninety Immortal Essence Pills!”

“Present Three million bottles of Eternal Spring Water!”

Many guests congratulated and shouted outside the Ancient Immortal Gu Family's Mountain Gate and sent congratulatory gifts.

“A pair of Primordial Golden Rhinoceros Horns? This is a divine object that can refine secret treasures. I am afraid I won't see it again in this lifetime.” Outside the Mountain Gate, a Great Sect Elder sighed.

Behind him were many younger generations. It was the first time for them to witness such a scene as the Ancient Immortal Gu Family's, which shocked them.

“This Primordial Golden Rhinoceros Horn appears to be a first-class treasure, but in the Ancient Immortal Gu Family, it's not even worth mentioning. I'm afraid they'll think that even hanging it in the Treasure Pavilion is a waste of space.”

“However, the Eternal Spring Water is said to come from the heart of the Falling Moon Ice Lake in the Northern Land of the Immeasurable Heavens. It takes 100,000 years for such a spring to produce and it is also in small quantities.”

“I heard that Young Master Gu enjoys tea very much, the Golden Rhinoceros Clan seems to have planned this for a long time.”

Many cultivators who came to give gifts couldn't help but talk at this moment and were very shocked at each gift.

In contrast, the things they brought seemed very crude.

At this moment...

Screech!

Suddenly there was a cry of Phoenix from the east.

A Nine-headed Black Divine Phoenix was pulling a chariot, flying at great altitude.

Many guests turned toward the sound, their eyes glued to it.

“Which Daoist force is this? They can cause such a scene in the Ancient Immortal Gu Family.”

“If there’s no one to stop, that doesn’t mean you can go on a rampage!”

“And no one has stopped them yet?”

Some Young Supremes from far away were shocked.

Many people next to them, who came here for the first time, were also obviously shocked and puzzled.

The Gu Family member who was leading the way for them couldn't help but smile and said, **“That is Princess Mingkong's chariot, she is the Young Master Changge’s fiance....”**

Hearing this, everyone was stunned.

Many Young Supremes couldn't help but look in admiration.

They naturally heard the name Yue Mingkong.

She was famous in the whole Upper Realm but they could only admire her from far away.

With the arrival of the Divine Phoenix, a terrible pressure permeated the surroundings.

And soon, all the cultivators of the Daoist Sects and Immortal Clans rushed to the Inner Island.

On the Divine Islands below, there were Immortal Mists and Lights rushing into the sky, and there were waves of Immortal sound echoing, making it extremely mysterious and shocking.

A Sacred Bridge emerged with a burst of flowers with fragrance.

The crystal clear sound of Immortal Rain and Dao chants were heard in unison, revealing a Mysterious Dao Vision.

[Kshn: Even I have no idea what the author is saying at this point. I think he just randomly selected words and created a vision.]

“Guests, please!”

Many Gu Family members showed up, smiling, to welcome Yue Mingkong.

“This is just the tip of the iceberg of the Ancient Immortal Gu Family's heritage! It really can't be underestimated!!”

“This kind of vision is much more ancient than that of our Immortal Wang Family.”

Dressed up in men's clothing, Wang Zijin, with Xiu'er, was following the guests of the Immortal Wang Family. As she stepped inside, she couldn't help but laugh softly when she saw the surroundings.

Soon, all the guests who came here first boarded the Sacred Bridge.

The light of the bridge below their feet was shining as if crossing the space before arriving at the destination.

In front of them was the Holy Land.

The clouds were ethereal, and in the high sky, the people vaguely saw a huge Palace.

The white clouds and Immortal Mist were ethereal, vaguely blocking the majestic Palace.

In front of the Palace, Gu Changge, who had already returned to the Ancient Immortal Gu Family, was dressed in a clean white robe, making him look transcendent and otherworldly.

With a smile on his face, he was greeting many of his peers.

“Brother Gu! We will meet again!” Upon seeing this, Wang Zijin couldn't help but step forward and speak with a smile.

[Kshn: Me, who is criticised for not being able to do anything, doing all the work alone. :sob:]
