

Villain 211

Chapter 211-1: For the Demon Lord, it's hard to suppress the devilish nature; The staging for a bitter and tragic drama (1)

Translator: Fantasy World Online.

Gu Changge's father stood outside the Ancestral Hall, his face was very deep and calm, but he also had a faint worry.

From time to time, he looked into the deep Nirvana Pool and sensed the aura there.

Gu Changge's cultivation base made him unable to infer clearly, sometimes he revealed the True God Realm, sometimes Heavenly God Realm, and even the Quasi-Sacred... This was the first time he had seen this kind of change, and he didn't know what to say.

Gu Xian'er sat cross-legged there, with the immortal aura pervading her body, and among the newly born immortal bones, it was like a female immortal was sitting cross-legged, reciting scriptures for her rebirth.

Her aura was also increasing, but it was not as unpredictable as Gu Changge's.

As for the other three, they were completely negligible.

"Changge has his own fortune. As a father, I shouldn't ask too much, but I have to find a way to hide the existence of the demonic heart for him..."

His father whispered, and many visions appeared in his eyes.

Then he waved his hand, and a layer of fluctuations appeared, which separated the scenes here, and even the Ancestral Hall was also blocked.

Unless he walked in, it would be difficult for him to see what was going on inside.

This was also good, it could isolate the fluctuation of the aura to the greatest extent.

Because at this time, it was necessary to strictly prevent the curiosity of the rest of the clan, and stop them from rushing to the clan to have a look, especially those Ancestors who had nothing to do.

Gu Nanshan, the Ancestor behind Gu Xian'er, seemed to be quite idle recently. He was very concerned about Gu Xian'er's second nirvana and wanted to know how she had changed.

"If the old Ancestor comes here in a while, I have to find a way to hold him back."

Thinking of this, his father's expression gradually became serious, and with a wave of his sleeve, he closed the door of the main hall, while he was waiting outside the hall, not allowing others to approach.

"In order to be safe, this is the only way. I believe in Changge's perseverance, and there will be no accidents."

His father said to himself, this was the belief of a father in his son.

Boom!

At the same time, in the Ancestral Hall, there were thousands of Immortal fluctuations, divine lights, like a river, and even the faint light of immortality was permeating.

The momentum in the Nirvana Pool was even more astonishing.

Gu Changge's figure was brilliant, motionless, and the aura of the person seemed to devour and wrap all the people in the vicinity, which made one's heart palpitate.

His consciousness was very calm, and he did not want to be affected by the vision at this time like the others.

The Nirvana Pool was originally created for the bloodline of the Gu family, providing opportunities for future generations to transform.

But his talent was originally from a demonic heart, and many of the other talents were originally related to the system.

But now more or less because of the relationship between the bloodlines they were also changing.

Humm!!

Near the Nirvana Pool, layers of brilliance appeared, with different auras rising and falling, and many supreme talents such as reincarnation and space were manifested.

In addition, Gu Changge swallowed up many of the tyrannical talents of the young supreme.

At this time, they were also waking up. Gengjin, Zhiyang, Taiyin... all kinds of talents seemed to be mixed together which made it even more mysterious.

At the end, it manifested a feeling of opening the sky in chaos.

The detachment bones exchanged from the system store all roared at this time, and the order of the Dao burst out in it, falling like a waterfall of stars.

Of course, Gu Changge didn't really care much about this. The Nirvana Pool had a great effect, but at most it would push his current cultivation to the middle stage of the Sacred Realm.

"However, the feeling faintly conveyed to me from this demonic heart, and the feeling of the Eight Desolate Devil Halberds at the beginning, are a little inexplicably familiar."

"I am the Demon Lord?"

Gu Changge frowned, always feeling that the trouble caused by the other self in the demonic heart was definitely not just as simple as Gu Xian'er and Yue Mingkong.

Although, the system had solved the drawbacks of the demonic heart.

But whether it was the demonic nature or the current nature, it was all the same to him.

He didn't think that what he did was very different from the demon.

Speaking of which, this demonic nature was the root cause of Yue Mingkong being killed by him in her last life, and it was also the root cause of him digging out Gu Xian'er's Dao bone.

These things were indeed done by himself, even if Gu Changge didn't want to admit it, of course, he still had to throw the blame on the demonic heart.

"Just judging from this aura, the origin of the demon heart is very ominous... The Nirvana Pool can reflect the past life. Wasn't I a transmigrator in my past life? Is there anything that can't be done?"

Gu Changge frowned slightly and felt a little tricky.

It seemed to him that it had something to do with testing his heart.

Soon, he didn't care.

After all, whether it was Demonic Heart telling him the identity of the Demon Lord or anything else, it had nothing to do with him now.

On the second point, the demonic property was just a more indifferent state for him... Gu Changge could now let it possess his mind at any time, thus reaching the point where he was too oblivious.

In such a state, he would act absolutely indifferent, and he would no longer be like this, and he would not consider personal emotions.

When the demonic nature dominated, to what extent was emotional indifference? There would be no one other than himself in his eyes.

Gu Changge was definitely unwilling to accept this.

What was the purpose of his cultivation?

Naturally, it was for strength, not for betrayal.

If he was dominated by demonic nature, then it was not much different from the self in the timeline that Yue Mingkong experienced.

Gu Changge didn't think that he was a good person, but he didn't think he was that indifferent to emotions either.

More or less, Yue Mingkong and others were different for him.

"The demonic heart can't affect me. At first, my consciousness was suppressed by it, but it was only because of its backlog for a long time..."

Many thoughts flashed through Gu Changge's mind.

Bang bang bang! !

At this moment, he heard the sound of the demonic heart beating.

This momentum was like a strong drum, beating between heaven and earth, making a heart-pounding sound.

The monstrous demonic nature began to emerge from his heart.

In the weapon space, the Eight Desolate Demon Halberd burst into cheers, as if rejoicing for its master's enlightenment.

Hum!!

The misty black light contained a certain aura that could make all worlds tremble, spraying from the blood vessels!

As Gu Changge penetrated his own heart, he suddenly felt that there was a surging and ancient supreme aura in the demonic heart.

Indistinctly, the sound of strange scriptures resounded, and there were countless sounds of bowing and chanting, ringing in his ears.

If he looked closely, he would find that it was a Supreme Demon Lord overlooking the nine heavens and ten regions, the heavens and the world.

Behind him was a monstrous shadow, and amid the surging gray fog, he held a fierce halberd that threatened the universe and stood indifferently in the sky.

Boom!!

The halberd swept and fell.

Suddenly, time and space collapsed and even the reincarnation collapsed.

The entire universe seemed to be split open, as if the real immortals under it fell, and the immortal king was slain!

Although these pictures seem indescribable, they would make people crazy and fall into madness.

Even the face of the demon lord was blurred, but Gu Changge could be sure that it was himself.

"This is my so-called past life? I was the demon lord in my past life?"

"Or could it be a picture of the future?"

In the next instant, Gu Changge had an epiphany, and the scene disappeared.

In the dark, he felt that his demonic heart had transformed, producing an indescribable mysterious meaning.

Perhaps it could be called an Immovable Demon Heart.

However, it was up to him to find out what the benefits were.

Soon, Gu Changge opened his eyes, and he took the initiative to withdraw from the state of absorbing the mysterious creation in the Nirvana Pool.

After all... his simple purpose of entering the Nirvana Pool had been achieved, and then he would start with Gu Xian'er!

A tragic and bitter drama, otherwise how would it be staged!

Hum!!

In the next moment, Gu Changge's aura changed.

A wisp of demonic energy began to emerge from his body.

His face suddenly became indifferent, and the whole person's emotions seemed to be in nothingness, leaving only a shuddering indifference.

If Dao was ruthless, then Gu Changge's current state was similar to Dao's.

Too forgetful!

"Young master!"

"What's the matter? This is..."

This shocking change instantly caught the attention of the three young supreme beings of the Gu family who were cultivating and transforming their bloodlines by the Nirvana Pool.

They opened their eyes and saw this scene.

They couldn't believe it.

Their faces suddenly turned pale.

Then, they hurriedly withdrew from the cultivation state, feeling a terrifying killing intent that completely enveloped them.

The whole person was like falling into an ice cellar, their whole body was cold, and they didn't dare to move at all.

They seemed to be the most humble ant under heaven, and the slightest thought would crush them to death.

They couldn't understand why Gu Changge, who was cultivating so well, became like this?

Gu Changge's appearance made them tremble, their bodies felt cold, and their souls seemed to be frozen!

It seemed that as long as Gu Changge had a thought, the three of them would explode in the Nirvana Pool at this moment, and their body and spirit would be destroyed.

"Young Master, we are from your clan..."

"Young Master, wake up!"

They trembled and said, intending to communicate with Gu Changge, trying to wake Gu Changge up.

After all, it came too suddenly, and there was no preparation.

Who knew that Gu Changge would suddenly become like this?

Puff!

Gu Changge looked at them indifferently, as if watching a group of little ants at his feet.

It seemed that he didn't care about their lives, but the three of them still clearly saw that there was a clear struggle on his faces.

It seemed... Gu Changge was very reluctant to become like this.

"Could it be that the young master went into trouble and went wrong in his cultivation?"

One person's voice was trembling, and he suddenly guessed that, after all, the current Gu Changge looked like the so-called demon, which was too similar.

"How can a good person fall into a demon, go find the head of the family and the Clan Elder..."

The other person said that he was going to go outside the hall, intending to call someone. They would definitely not be Gu Changge's opponents, and they couldn't even resist.

But no one answered them.

Seeing them escape, Gu Changge's expression moved slightly, still indifferent, and then waved his hand, and the surging five-colored divine light burst out.

Puff!

With a sound, the three of them flew upside down while vomiting blood, slammed into the wall behind, and passed out, not knowing whether they were alive or dead.

"Gu Changge..."

This change also alarmed Gu Xian'er, who was in the cultivation state beside the Nirvana Pool at this time.

She was deeper into meditation than the rest, so she didn't perceive this change immediately.

Now that she woke up and saw this scene, she was immediately stunned, shocked, dazed, and completely puzzled.

She didn't know the life and death of the three, and she didn't have time to investigate.

However, her response was also quick.

She could see that Gu Changge's current state seemed very wrong, although it seemed normal, there was nothing strange about it.

But that indifferent expression reminded her of the time when he dug out her Dao bone in her childhood.

At that time, Gu Changge also looked at him indifferently.

Chapter 211-2: For the Demon Lord, it's hard to suppress the devilish nature; The staging for a bitter and tragic drama (2)

This similar scene made Gu Xian'er's back feel astonishingly cold.

"Gu Changge, what's wrong with you?" Gu Xian'er asked him, secretly vigilant in her heart.

The aura revealed by Gu Changge at this moment had already reached the Quasi-Sacred Realm, not the True God Realm that was usually revealed.

This surprised Gu Xian'er even more, and at the same time she became more and more vigilant.

Gu Changge was really too strong, a Nirvana Pool couldn't make his cultivation progress so much at once.

This only meant that Gu Changge's cultivation base had reached this level.

He was just hiding it.

And now, he had finally exposed it.

"I'm still almost breaking through the False God realm. If Gu Changge wants to attack me, with my strength, it's impossible to stop him." Gu Xian'er knew this very well.

Therefore, a round dark golden sword pill appeared in her palm.

There was a holy atmosphere in the air.

This was a secret treasure.

She felt that she could block Gu Changge for a while, and then she would take the opportunity to go outside the hall and call out to the rest of the clan.

Otherwise, it would be very dangerous today. Gu Changge didn't know what was going on, but he was in the middle of the transformation of her bloodline, and he became like this.

Did he forget the oath he made in front of the Great Elder in front of the Heavenly Dao Ancient City?

Gu Xian'er's brows were tightly wrinkled.

"Could it be the same as the secret back then, Gu Changge at that time was like this..."

Gu Xian'er was shocked and thought of this.

Suddenly, the expression she looked at Gu Changge changed.

Just now, she was still full of vigilance and confusion, confusion, and dazed, but now it was complicated, and she was relieved to find the truth.

"The immortal bone from the second nirvana, it almost became a disaster when I left you alone, but I didn't expect you to give a surprise to my brother."

At this moment, Gu Changge seemed to see through Gu Xian'er's intentions, and a terrifying and unusual sword light broke through the air between his fingers, and hummed the sword ball in his hand.

At the same time, he walked towards Gu Xian'er with an unusually indifferent expression.

Gu Xian'er didn't expect Gu Changge to react so quickly in such a state, and he noticed it the first time she took out the forbidden weapon and destroyed it.

Hum!!

With a wave of her small hand, she brought out a blue-black umbrella, which was extremely huge. It unfolded between the heavens and the earth, a radiance fell and tried to suppress Gu Changge.

This was also a very powerful treasure.

However, with the flick of Gu Changge, the terrifying divine chain of laws emerged through the void. This powerful secret treasure was torn apart in an instant and could not resist at all.

"How come, this guy is actually strong to this extent..."

Gu Xian'er's face turned pale. With her current strength, using a divine artifact consumed a lot of energy, and using two pieces in a row already caused a lot of consumption.

As a result, in front of Gu Changge, it was impossible to even block him.

Thinking of this, Gu Xian'er made up her mind.

At this time, for the sake of Gu Changge and herself, she couldn't hesitate any longer.

She planned to sacrifice the secret treasure bestowed by a master in Peach Village.

The power of that secret treasure was unparalleled...

However, he seemed to know what Gu Xian'er was thinking.

Boom!!

Gu Changge's movements were faster than hers, especially at this moment, the void seemed to collapse, with a terrifying stagnation feeling.

It was like a huge boulder of billions of miles had been crushed!

She couldn't move for a moment.

And couldn't even lift a finger.

Buzz!!

The void trembled, and Gu Changge walked slowly.

He quickly raised his palm, reached over in an instant, grabbed her neck, and lifted it up.

"Gu Changge..."

Gu Xian'er's face turned pale, and she was a little breathless.

Her newly born immortal bone had undergone a second transformation, and it contained a terrifying power that could make people palpitate.

This kind of power was extremely tyrannical, even a bit like the power of the legendary flying immortal, but it was the ultimate attack type supernatural power.

But now, under the terrifying suppression of Gu Changge, this immortal bone of hers did not wake up.

Even if it leaked a trace of aura, it was wiped off by Gu Changge, and it was impossible for it to play a role at all.

"It's stupid and pitiful. After so long, what means do you have that I don't know?"

Gu Changge spoke indifferently, with an indifferent mockery.

Gu Xian'er's face was pale, and she remembered the feeling of despair and powerlessness when she was a child.

Cold and darkness swept through her consciousness.

Against Gu Changge, let alone resist, she didn't even have a chance to speak.

The gap was really too big.

No matter how much she cultivated during this time, in fact, she couldn't catch up with Gu Changge.

He was so powerful that he could easily kill herself.

In particular, Gu Changge also clearly knew her trump card, and the divine weapons and secret treasures given by the masters.

She didn't even have a chance to use it.

"Am I going to die here today? At the hands of Gu Changge..."

In a trance, Gu Xian'er's consciousness became cold, and she murmured in her heart as she fell into darkness.

She suddenly remembered the slender and tall figure standing in front of her when Gu Changge appeared in the Ancient Immortal Continent and in front of the Heavenly Dao Ancient City.

It seemed like he could block all of her enemies.

That feeling made her nostalgic.

"No wonder he wanted me to practice hard, so that I can one day be strong enough to defeat him..."

"All his previous goals were actually for today... To let me have a better chance of surviving in front of him."

Gu Xian'er had figured it out.

Earlier, why did Gu Changge force her to practice by various means, even at the cost of offending the Great Elder, to force him to teach her a good life.

It was because he knew that one day... he would attack herself!

"Your brother will accept this new immortal bone with a smile."

Gu Changge said lightly, and seemed indifferent to Gu Xian'er's state at the moment.

Gu Xian'er looked at him, but her expression was surprisingly calm.

She didn't even complain about Gu Changge, she knew that he was in a very strange state now, the kind of aura that oozed from his bones, made her tremble.

"This immortal bone, if you want it, take it."

She was talking to herself, thinking that she couldn't break free. It wasn't unacceptable to die in Gu Changge's hands.

It was just a pity... She still had a lot of things she wanted to do that she hadn't done. The whereabouts of her parents and grandfather were unknown and had not yet been found.

Hum!!

Gu Changge raised his palm, and the other palm seemed to become a peerless immortal sword, the sword intent filled with brilliance, he wanted to pierce through Gu Xian'er's body and dig out her immortal bone.

But in the next moment.

A violent aura suddenly appeared on Gu Changge's face, as if an unparalleled devil wanted to slaughter the heavens!

"Get lost!"

He was roaring, his voice was low, with a meaning of struggle and coldness, which manifested on his face.

The hand that was about to tear Gu Xian'er apart suddenly stopped in mid-air, while trembling constantly.

It seemed to be fighting against another unknown and inexplicable terrorist force.

His expression remained indifferent.

But there existed more emotions such as anger, coldness, and violence.

"Gu Changge..."

"What's wrong with you?"

Gu Xian'er was stunned, but was suddenly released by Gu Changge and fell to the ground.

She widened her eyes, thinking she was going to die just now.

But she didn't expect that at a critical moment, Gu Changge would let her go? He did not continue to attack her.

How was this happening?

Another force was controlling his body and consciousness? And his original consciousness was fighting to regain control of his body?

Soon, Gu Xian'er reacted.

Otherwise, how to explain Gu Changge's amazing magical nature and what he was doing now.

"Gu Changge, what's wrong with you? How can I help you?"

Gu Xian'er couldn't help but feel a little anxious, her concern and worry were beyond words.

At this time, she was not worried about her own safety, but felt that Gu Changge needed help, and he had a big problem.

After all, judging from his actions just now, all this was involuntarily, he was not under his own control.

He had absolutely no intention of doing it.

"Go away, I told you to go away, don't you understand? Go as far as you want."

Hearing this, Gu Changge suddenly looked up at her.

His eyes were full of violent aura, and he roared in a low voice, as if he was struggling to control his body.

His other hand was tightly grasping his right hand, and many of the talismans were so bright that even the void was affected, and it was about to collapse, revealing a dangerous atmosphere.

It seemed that he was about to attack Gu Xian'er, but he was caught tightly by the other hand, making it difficult to move.

This was a very strange and incongruous scene.

But Gu Xian'er understood.

That hand was now out of Gu Changge's control, and he seemed to be almost unable to suppress that terrifying power.

"I'm not leaving, I can help you. What should I do, can I help you after this immortal bone is dug out?"

Gu Xian'er asked anxiously, it was not unreasonable for her to think so.

After all, judging from Gu Changge's actions just now, he had always wanted to dig out her own immortal bone, which meant that this immortal bone was very useful to him.

"Go away, you're a piece of shit, what can you do for me? I don't need your immortal bone."

"I don't want to kill you, so as not to contaminate my hand, Gu Xian'er, get out of here, as far as you can..."

Hearing this, Gu Changge looked at her coldly, and became even more violent.

"Gu Changge, don't deceive yourself, you are way too arrogant, it's already like this, you're still so proud, you still don't want to accept the kindness of others, don't accept the help of others..."

Gu Xian'er's voice trembled, she was about to cry at this time.

Boom!

But Gu Changge couldn't hear her words.

An even more terrifying demonic energy instantly enveloped him, making him look even more indifferent and ruthless, without the many emotions he had just now.

"It's stupid to have to wait for your death if you don't want to live." He calmed down and said lightly.

After that, he reached out with his big hand, and wanted to strike at Gu Xian'er again.

"Gu Changge, wake up, don't be occupied by demonic nature!"

Seeing this, Gu Xian'er turned pale and shouted, trying to awaken Gu Changge's original consciousness.

Obviously, Gu Changge's current consciousness was once again occupied by demonic nature, and this was not what he was just now.

"I am me, why should I wake up?" Gu Changge said lightly.

Seeing that this palm was about to land on Gu Xian'er.

In the next moment, his expression changed again, and it looked like he was schizophrenic.

His voice was violent and cold, "Don't touch her."

As the words fell, Gu Changge's expression was indifferent and decisive, and each rune suddenly disappeared.

Boom!

The entire arm suddenly exploded with a bang.

As a result, Gu Changge's state seemed to be relieved.

The terrifying aura also stagnated, and the demonic energy began to dissipate like a tide.

He closed his eyes, his expression returned to calm, and he stood silently on the spot without any movement.

This scene made Gu Xian'er stunned, and then tears fell silently down her face.

"Gu Changge..."

She was crying. In her opinion, Gu Changge was fighting against the demonic nature in his body in order to protect her.

Otherwise, how could he make such a move?

Gu Xian'er didn't see either, the peach blossom she hid under her sleeve, the glow on it suddenly disappeared, and it became dim.

It was a vague phantom that could not be seen.

If Gu Changge really wanted to kill her, the phantom on this peach blossom would definitely revive.

Gu Xian'er didn't know about this at all.

Chapter 212-1: He is actually a gentle person, About Gu Changges true strength (1)

At this time, Gu Lintian, Gu Changge's father, who was protecting Gu Changge from outside the Ancestral Hall, suddenly felt that the atmosphere in the hall was a bit strange.

He blocked the fluctuations here.

Whether it was him or the others, it was difficult for someone to notice what happened in the Nirvana Pool of the Ancestral Hall.

But at this moment a sense of uneasiness rose in his heart.

For a strong man like him, this kind of deep feeling was the most accurate.

Therefore, without any hesitation, Gu Lintian waved his sleeves and immediately opened the door of the Ancestral Hall.

But he hadn't entered yet and a surging demonic aura rushed towards his face, sensing that his expression could not help but change.

"Not good!"

The thing he was most worried about really happened. There were many things in the Nirvana Pond, which made Gu Changge's demonic heart transform again, thereby enhancing his demonic nature.

But it was clear that he was still half a step too late.

Judging from the strong demonic aura in it, this transformation would probably be a curse rather than a blessing for Gu Changge.

"Xian'er, are you alright?"

Gu Lintian quickly arrived at the depths of the Ancestral Hall, and saw Gu Xian'er with tears on her face beside the Nirvana Pool as he asked worriedly.

What he was most worried about was that Gu Changge would do something to Gu Xian'er.

It would be just like ten years ago.

Now, once Gu Changge couldn't suppress his demonic nature, what would happen? It just made him shiver.

Seeing that Gu Xian'er was fine now, he couldn't help but breathe a sigh of relief.

"Uncle, I'm fine."

Seeing Gu Lintian coming in, Gu Xian'er also reacted, and then said eagerly, "Uncle, look at Gu Changge, his state is not fine, and..."

As she spoke, her voice began to tremble again.

"And he broke his arm so as not to hurt me..."

At this time, Gu Xian'er didn't need to say more, Gu Lintian also saw Gu Changge sitting down with his eyes closed.

Gu Changge's arm was empty, with colorful blood stains on the joints, astonishing divinity was intertwined, and vitality was surging.

His injuries were already starting to heal.

In the realm of Gu Changge, as long as his True Spirit was unhurt he was immortal, the rebirth of a severed limb was only a matter of thought.

This injury meant nothing to him.

Gu Lintian was not surprised, in his opinion, Gu Changge's aura was very calm now, no different from usual.

But he couldn't tell whether the current Gu Changge was the same as the previous Gu Changge.

He couldn't help Gu Changge even if he suppressed his demonic nature.

"Changge is fine, you don't have to worry about him, he'll be fine." Gu Lintian sighed and said to Gu Xian'er.

He saw the other three geniuses of the Gu family who had passed out in the corner. They were fine, and just passed out.

However, to be on the safe side, Gu Lintian still took action to erase their memory of this incident.

"Uncle....."

Seeing this scene, Gu Xian'er didn't know what to say, and now her mind was in a mess.

There were many doubts and puzzles. Although Gu Lintian didn't worry about Gu Changge, how could she not worry about him?

If it wasn't for Gu Changge giving up his arm at the critical moment, she would be dead now, right?

For so many years, Gu Changge had been fighting against his heart demon?

On the surface, Gu Changge seemed to have a lot of beauty, and was considered unparalleled in the younger generation.

But who knew what kind of torture he suffered in secret.

Gu Xian'er still clearly remembered that Gu Changge's violent expression just now seemed to be like slaughtering the heavens and the world!

To be able to stay awake and rational in that mood.

Especially just now, in order to protect her, how could Gu Changge not feel it?

Thinking of this, Gu Xian'er looked at Gu Changge's expression, which was extremely complicated, guilty, in a trance... all kinds of emotions emerged into her mind.

Usually, although Gu Changge was very bad and annoying, his attitude was still not that cold, everytime.

But he was actually kind and gentle with herself.

For a moment, Gu Xian'er felt that the truth she was searching for was right in front of her eyes.

"Uncle, why did Gu Changge suddenly do this? You seem to have known all this all along."

Gu Xian'er asked, Gu Changge seemed to be listening to everything now, sitting there cross-legged, and the wound on his arm was healing quickly.

She didn't know what kind of face he would make when he opened his eyes.

Hearing this, Gu Lintian first glanced at Gu Changge, then looked at Gu Xian'er, shook his head and sighed, "As you have seen with your own eyes, but I'll let Changge tell you about all this."

"I won't get involved in this kind of thing."

The demonic heart was very important, and even if he wanted to say it, it had to be decided by Gu Changge himself.

As a father, he would not go beyond meddling.

And even if she didn't say it, with Gu Xian'er's character, she could probably guess all of this.

Afterwards, Gu Lintian waved his sleeves and left this place with Gu Changge. Some things would only be clear if she asked Gu Changge in person.

"Maybe this is the secret that Gu Changge has been hiding for a long time." Seeing Gu Lintian, Gu Xian'er was not surprised.

She had also been very clear.

This might have something to do with Gu Changge's talent when he was born, which led to his deep-rooted demonic nature, which affected his daily consciousness and behavior.

That was why when she was young, he did something like digging her Dao bone, Gu Changge's cultivation became stronger and stronger, and he was able to gradually suppress this demonic nature without being affected by it.

"Perhaps Gu Changge dug my Dao bone in order to suppress his demonic nature, but over the years, he felt guilty and made up for it."

"And he seems to know that one day he may not be able to suppress his demonic nature, so let me cultivate hard so as not to let me be killed by him in the future..."

"He is obviously a very gentle person, but he has to disguise himself with indifference, how can you be so stupid, Gu Changge."

Gu Xian'er was whispering, thinking that she had talked back to Gu Changge because of all kinds of trivial matters, and she didn't understand his good intentions.

She couldn't help feeling a little guilty.

It was for these reasons that Gu Changge was so disappointed in her.

As smart as she was, she quickly figured out the ins and outs.

And today's incident was obviously Gu Changge's uncontrollable performance.

If it weren't for the critical moment, Gu Changge suppressed his demonic nature with amazing willpower.

"Could it be that my Dao bone can help Gu Changge suppress his demonic nature... But after today, with his character, he probably won't care about me any more..."

"I'm a piece of shit and can't help him..."

Gu Xian'er suddenly felt a little distressed and confused.

Although she found the clue, Gu Changge was born with a deep-rooted demonic nature, but she had no idea how it caused all this..

In other words, she only got the general idea. If she wanted to know more about Gu Changge, she had to personally ask him.

But based on what she knew about Gu Changge, it was absolutely impossible for Gu Changge to tell her.

Even if she already knew his deepest secret.

"Although the process will be difficult, I will definitely help you solve this problem."

"I won't give up on you, Gu Changge!"

Thinking of this, Gu Xian'er said with determination in her heart.

Because she thought that the masters behind her, who had far more knowledge than her, might have a solution.

And there was also the mysterious Peach Sister from ancient times.

Even Gu Lintian was hiding this for Gu Changge, so it was definitely not a good thing.

For Gu Changge's consideration, she couldn't easily say it.

But telling her masters, there was absolutely no problem.

.....

"Father."

In the Grand Ancient Hall.

The injured Gu Changge and Gu Lintian stood face to face.

Gu Changge said with a respectful expression, and his expression was no longer different from when he was in the Ancestral Hall.

His arm recovered without any impact.

"How did the Nirvana Pool affect you this time?"

Gu Lintian asked, looking at Gu Changge carefully, from his appearance, it was indeed difficult to see any changes.

He also didn't know how this demonic outburst would affect Gu Changge.

Fortunately, he was isolated from outside the Ancestral Hall at that time.

Otherwise the consequences would be unimaginable.

Hearing this, Gu Changge replied calmly, "It's fine now, I underestimated the influence of the demonic heart on me, but now it has been suppressed by me."

Although he said so, he was actually smiling slightly in his heart.

At this time, he would definitely not tell the truth, and even fool Gu Lintian.

How could something magical affect him?

In order to make Gu Xian'er fully trust him, Gu Changge made such a move, a routine that had won people's hearts since ancient times.

As for his acting skills, he did not have any flaws.

At that time, all the actions seemed crazy, but in fact they had a lot of meaning. Even the breaking of his arm at the critical moment was also in his calculations.

Gu Changge knew that if he did it again, the powerhouse behind Gu Xian'er would definitely show up.

He was convinced of this.

That was why Gu Changge chose this method.

A bitter plan and a tragic drama, not to mention Gu Xian'er, even Gu Lintian was saddened and had a sigh on his face at this moment.

Gu Changge didn't feel any guilt. If he didn't do this, he would leave a lot of hidden dangers.

Chapter 212-2: He is actually a gentle person, About Gu Changges true strength (1)

And now it seemed that the role and effect was very obvious.

Judging from the system's prompts, the Luck points from Gu Xian'er were about 10,000.

"Xian'er is probably going to ask you some things. You can think about how to talk about the demonic heart. As an elder, I don't want to get involved."

Hearing this, Gu Lintian nodded.

"Don't worry, father, next time, the demon will not affect me again." Gu Changge said again.

"As for Xian'er, I know how to deal with it."

"If you say that, then I'm relieved, but I'm just embarrassing you, all these years..."

Gu Lintian sighed slightly, after all, these things were not Gu Changge's original intention.

Otherwise he wouldn't have made the move of destroying his arm while trying to stop himself.

Gu Xian'er was smart and clever, so Gu Changge must not be wrong.

He also didn't want to see Gu Changge being misunderstood. It was not easy for him to suffer unprovoked hatred from Gu Xian'er all these years.

"If the hidden danger of the demonic heart is not eliminated, one day, it is going to be a big problem."
Gu Lintian remembered a lot of secrets about the demonic heart.

This was an ominous sign.

No matter where you were in any Dao Lineage, it would bring unimaginable and terrible consequences.

One shouldn't look at Gu Changge's current status, but once the matter of the demonic heart was exposed, although it was not like the inheritor of the demonic art, it would make him enemies all over the world.

Afterwards, Gu Changge left the hall and returned to his residence.

Along the way, many clansmen looked at him with puzzled and strange expressions.

Although Gu Lintian took the initiative to solve the matter in the Nirvana Pool of the Ancestral Hall, it was impossible to hide all of it. The stake was very important, and many Clan Elders were paying attention.

The fact that Gu Changge gave birth to the heart demon also spread in private.

This made many clansmen strange. They did not expect that Gu Changge, who had the talent of a true immortal, would actually have a heart demon, and even erupt in the Nirvana Pool.

This caused quite a stir.

It was not surprising for people who cultivate Dao to have heart demons, but they would usually appear when they were old and had been practicing for a long time.

Gu Changge was only in his twenties when he had a heart demon, what did this mean?

Many clansmen sighed, and they felt that it was very likely that about the time when Gu Changge dug out Gu Xian'er's Dao bone back then, and he still felt guilty and it was difficult to get rid of this feeling.

Even if he had already dug out his bone to repay his sister, this was still the case, so when he was in the Nirvana Pool and saw Gu Xian'er's newly born Dao bone, with distracting thoughts, he fell into the heart demon.

This statement had been recognized by many people, and it was spread privately in the Gu family for a while.

Many high-level officials also understood this, and felt that the truth was likely to be like this.

But on the other hand, this was normal, which made them a little relieved... If Gu Changge had no guilt about that matter, then there would be a problem.

Heart demon was also easy to resolve.

A few days passed in a blink of an eye.

The Nirvana Pool incident was like a small incident, and it did not continue to cause much movement.

On the contrary, Gu Xian'er took the opportunity to break through to the False God realm, her strength soared, and she surpassed many of her peers in one fell swoop.

Looking at the entire Ancient Immortal Gu Family, in terms of cultivation, there were only a few people in this generation who could compare with her.

In private, there was also news that Gu Changge's true cultivation had actually reached the level of a God King, or even the Quasi-Sacred Realm, but he had been hiding it from the world and never exposed it.

This kind of statement left a lot of people in shock.

The cultivation of the younger generation was the most concerning matter for any force.

Although Gu Changge acted in a high-profile manner, not many people actually knew about his true realm.

The strength he showed on the surface was only slightly higher than some young supreme beings.

But recently, they learned from the mouth of the heir of the Human Ancestor Hall, Zijin, that even she couldn't see through Gu Changge, and if they fought, the outcome would be hard to tell.

The Great Sacred Realm assassin who appeared during this time was obviously associated with the inheritor of demonic art.

Wang Zijin's Quasi-Sacred Realm cultivation also caused a sensation in the world. Countless young cultivators were all shocked and deeply affected.

Before, the young taboo Gu Changge, who was vaguely called the strongest person of his generation, was enough to make them despair.

He was like a big mountain, pressing on top of their heads.

But now, the descendant of the Human Ancestor Hall had appeared, and the Quasi-Sacred Realm cultivation base was shocking and unspeakable.

The so-called golden age, the stars were bright, but that was it.

Hearing these words from her mouth caused even more of an uproar, and the world became sensational.

Gu Changge's true strength had become a topic of discussion among all Daoists for a while.

Many people felt that something might have been missed before.

Ye Ling, the last inheritor of demonic art who appeared in the world, since he dared to blatantly infiltrate the Ancient Immortal Continent and attack the young supreme beings, it must show that he had something to rely on behind him.

But in the end, Gu Changge was hit hard and he escaped. Now it seemed that Ye Ling was no longer arrogant.

But the Gu Changge he met was too strong, and his cultivation at that time had obviously reached an unfathomable level.

For a time, all the great sects of the Dao Lineages began to study Gu Changge in depth.

Some people even said that when Gu Changge was in the Ancient Immortal Continent at that time, the means displayed by Gu Changge seemed to be the laws and order that only the cultivators in the Sacred Realm could control.

Various speculations appeared one after another, pushing Gu Changge to the forefront again.

And the initiator of all this, Wang Zijin, didn't seem to think that there was anything wrong, and felt that she was helping Gu Changge to become second in name.

.....

"Is this Wang Zijin really stupid, or being stupid on purpose..."

In the hall, Gu Changge frowned slightly when he heard the news.

Although his real cultivation base had reached the middle stage of the Sacred Realm, his superficial cultivation base had only reached the God King Realm, which was still far from the Quasi-Sacred Realm.

Gu Changge originally wanted to grow up in a wretched manner, but Wang Zijin made a name for him by being affectionate.

But for Gu Changge, what he wanted least right now was fame.

If there was too much attention, and someone discovered the flaws in his plans, it would be bad.

Moreover, Gu Changge had another purpose.

If at this time, one or two ancient freaks appeared, looked down on his cultivation, and came to slap his face and make a name, it would be even better.

It just so happened that he still lacked an opportunity to break through.

Those ancient freaks, Ancient Emperors and so on, since they had the guts to call themselves that, they must have something special.

Wang Zijin like this was equivalent to telling those ancient freaks who were about to appear that Gu Changge was not easy to provoke.

"It's a bad thing for me, I'll settle with you first."

Gu Changge couldn't help squinting his eyes. He knew these routines very well and was planning to use them.

But Wang Zijin also knew them, so she made her own decisions, thinking that she could make Gu Changge's life less troublesome.

Maybe Gu Changge would have some good feelings for her.

But she didn't know that Gu Changge planned to let these troubles arrive at his door.

Because of the competition of the younger generation, life and death were in his hands... That source of talent wasn't what he wanted?

"Young Master, what you ordered has already come to an end. Over the years, Miss Xian'er's parents have indeed been trapped in a dimension."

During this time, Yan Ji, who had been instructed by Gu Changge to investigate secretly about Gu Xian'er's parents, also returned with information.

"Very good." Gu Changge nodded.

"According to the young master's instructions, I sent a lot of people to protect them in secret, but Miss Xian'er's parents are very strong, and they discovered them..." Yan Ji continued.

"It's fine. I just want them to notice and make them feel that I have spent a lot of time secretly searching for their traces over the years." Gu Changge couldn't help but smile.

He didn't like to perform good deeds without leaving his name.

This kind of thing, he couldn't wait to let the whole Gu family know and let them understand his good intentions as the young master.

Hearing this, Yan Ji understood a little, and nodded her beautiful face.

"It's just that why didn't the young master show up in person? And you told us to be secretive, so the Gu family doesn't notice?"

She was a little confused, 'wouldn't it be better for Gu Changge to go there by himself?'

"After all, it is designed by people."

"If I go there in person, it won't work. Instead, it will have the opposite effect, making people feel like I have other plans. That's why I have to do it in secret, do you understand?"

Gu Changge smiled casually and said something that Yan Ji didn't understand.

Hearing this, her red-colored glass eyes revealed a sense of dizziness and confusion, and she looked a little dumbfounded.

Obviously, she didn't know much about the situation of the Ancient Immortal Gu Family.

Gu Changge's words made her even more at a loss.

But this time, she still nodded, "Understood."

Hearing this, Gu Changge looked at her and burst into laughter, "When did you even learn to talk nonsense in front of me, Yan Ji?"

"Sir..."

Being pierced by Gu Changge like this, Yan Ji's face couldn't help but turn a little red.

At the same time, outside the gate of the Ancient Immortal Gu Family.

A figure whose face was shrouded in mist, dressed in a moon-white robe, had arrived a long time ago. During this period, she first went to the Ancient Ye Clan, and finally came here.

She looked at the splendid and vast mountain gate in front of her, and said to the guards in front of the mountain gate, "Heir from the Human Ancestor Hall is here to visit young master Changge."

Chapter 213-1: The leek actually came to the door, The real inheritor of demonic art (1)

The magnificent mountain gate was extremely tall, like the gate of heaven during ancient times.

There were thousands of seasons in the middle, the clouds were steaming and the streams were shining, majestic, like a paradise.

One after another, the rainbows traveled through the heavens and the earth, bringing with them all kinds of rays of light, which seemed to have a long history and profound heritage.

Jiang Chuchu appeared here, with a light veil on her face, and a layer of mist hiding her whole face.

Judging from her appearance and voice, one couldn't tell whether she was male or female at all.

She was alone, standing alone, and had no followers, but she had a natural aura all over her body, which was not to be underestimated.

Hearing her words, the guards of the Gu family, who were patrolling in front of the mountain gate, came towards this place in shock.

"Heir from the Human Ancestor Hall?"

Their expressions were a little puzzled for a while. If they remembered correctly, wasn't the descendant of Human Ancestor Hall the mysterious woman from the Ancient Immortal Wang Family?

Why did someone suddenly appear again?

Or was this person impersonating?

They remembered very clearly that some time ago, during the birthday banquet of the mistress, the inheritor of the Human Ancestor Hall was assassinated by the inheritor of demonic art.

That incident caused a big stir, and there was a lot of uproar.

"Who is so bold and dares to pretend to be a descendant of the Human Ancestor Hall?" At that moment, someone opened his mouth and asked, his eyes were like a sword, and he seemed to want to pierce the void and look at Jiang Chuchu.

The majestic pressure fell instantly.

If it was an ordinary person, it would have been unbearable at this time, and his legs would have fallen to the ground.

But Jiang Chuchu was not, she looked unusually calm, as if nothing in the world could attract her attention.

Hum!!

She just raised her hand, and among her five slender fingers, an exquisite token appeared.

Human Ancestor Hall!

The three characters appear in the void, revealing their identity.

"Human Ancestor Order!"

Seeing this rune, the immortal guards in front of the mountain changed their expressions and recognized the token.

In today's Upper Realm, there was probably no one who did not recognize this order.

The Ancestor Order represented the identity of the Human Ancestral Hall, and sometimes it could even command many Taoist forces.

For a time, their expressions became suspicious and shocked, but they would not let this person enter just because of this token.

The Ancient Immortal Gu Family had strict rules.

So what if you were the descendant of the Human Ancestor Hall?

"In the Human Ancestor Hall, there is not only one descendant."

Seeming to understand why the several people looked puzzled, Jiang Chuchu said flatly, "I hope that you will report and tell Young Master Changge that the descendant of Human Ancestor Hall have something to ask for."

Even with her detached status, she also did not dare to be presumptuous in front of Ancient Immortal Gu Family's mountain gate, and everything had to be done according to the rules.

"Okay, please wait."

Several immortal guards looked at each other and turned into divine lights to leave, and it took a long time to pass from the mountain gate to the central island, and after passing through many teleportation formations.

"Gu Changge..."

Watching the group of immortal guards leave, Jiang Chuchu's crystal clear eyes flashed with bright runes and whispered the name softly.

During this period, after Jiang Chuchu left the Heavenly Dao Ancient City, she went straight to the Ancient Ye Clan, wanting to know about Ye Ling.

Since she had a unique secret technique, she could determine the exact location of Ye Ling based on the relatively similar blood of Ye Ling's clansmen.

With this idea in mind, Jiang Chuchu rushed to the Ancient Ye Clan. In her capacity, the Ancient Ye Clan did not dare to neglect, and tried their best to cooperate with her.

The Ancient Ye Clan also did not want to be associated with the inheritors of demonic art.

But in the end, after Jiang Chuchu performed the secret technique, the entire Ancient Ye Clan was shocked and discovered an unexpected fact and result.

Ye Ling's aura of life had already dissipated.

This matter shocked the entire Ancient Ye clan.

In other words, during this period of time, the inheritor of demonic art who had been making a lot of noise was actually not Ye Ling but someone else.

Although Jiang Chuchu was a little surprised by this conclusion, she already expected this... because she felt that there was something wrong with Ye Ling from the beginning, his actions were too passive, and there seemed to be someone behind him. And the invisible hand kept pushing him.

In Jiang Chuchu's view, Ye Ling's death was actually inevitable, it was just a matter of the time.

Moreover, she always felt that there was a big problem with Gu Changge.

However, this was only her intuition, and there was no evidence.

Therefore, in order to confirm the truth of this guess, Jiang Chuchu came all the way to the Ancient Immortal Gu Family. On the way, she also heard about Wang Ziji's assassination.

She heard that there was a huge organization behind the inheritors of demonic art, and even Heavenly Emperor Mountain was involved.

It just so happened that the Emperor of Heavenly Emperor Mountain had appeared during this period of time.

This series of events made Jiang Chuchu a little confused, and always felt that there were many doubts in it.

But since she was not the party involved and did not know the details.

"As long as I come to the Ancient Immortal Gu Family, I will be able to know what happened at that time, so as to determine the real suspect..."

Jiang Chuchu was thinking, waiting for the report, standing quietly under the mountain gate.

Many Gu family members who passed by glanced at her and were a little curious, but no one came forward to ask.

"I just don't know what Gu Changge's attitude is. After all, the rumors are unbelievable, and I have to witness it with my own eyes."

"I just hope that my guesses are wrong..."

Jiang Chuchu felt that if Gu Changge had a ghost in his heart, he would definitely not let her in at this time.

After all, she was different from Wang Ziji, who had not been deeply involved with the outside world.

She came here so rashly, so she had some confidence in her heart.

"The young master has prepared a banquet, waiting for the arrival of the descendant of the Human Ancestor Hall."

And just when all kinds of thoughts flashed in Jiang Chuchu's mind.

Soon, several immortal guards came back with a reply.

"So calm?"

This made Jiang Chuchu a little surprised. It seemed that Gu Changge didn't care at all.

"This thing is getting troublesome."

Afterwards, Jiang Chuchu followed a few people with a calm expression through the outer and inner islands.

After many teleportation formations, she finally arrived at the mountain peak where Gu Changge was.

The tip of the iceberg revealed by Ancient Immortal Gu Family made her mood surge with waves all day long, and ripples appeared at this time, making it difficult to continue for her to stay calm.

At this time, she even understood that if Gu Changge really had a problem, it would be an extremely terrifying disaster for the entire Upper Realm.

Now Gu Changge had already grown his wings.

She needed to find a way to stop this.

"The young master is waiting for the guest in the hall, so we will leave first."

The group of attendants and immortal guards who led the way quickly left the place.

Jiang Chuchu's brow couldn't help but frown, and a vague uneasiness suddenly arose in her heart.

The cloudy, fairy-like palace on the mountain peak looked like a magic cave to her at this time.

"If there is really a problem with Gu Changge, he should not dare to make a move on me at will, once I have an accident in the Ancient Immortal Gu Family, the Human Ancestor Hall will know..... At that time, the world will be alarmed..... Gu Changge will not be that stupid."

At this time, that uneasy intuition grew thicker and thicker, causing Jiang Chuchu's brows to furrow.

The seven-bodied immortal soul was already the most supreme talent in the world, which was rare in a thousand years.

But she had a nine-bodied immortal soul, and her talent in perception was so powerful that it was mind-boggling, and she even had the ability to foretell the future.

That was why all along, Jiang Chuchu had trusted her intuition so much.

And soon, Jiang Chuchu arrived at the mountain peak, inside the lofty and majestic hall.

As soon as she entered the hall, she noticed the young man at a glance.

Starlight drops, wisps, multicolored dense light pervaded, as if coming to the depths of the universe.

In the hall, Gu Changge was seated on top.

He was wearing a wide robe, his hair draped behind the head, and looked at ease, while showing dignity and a high temperament.

The bottom of the banquet had been set up, spiritual fruits, immortal wine, many ferocious beast meat, all kinds of food.

There were even many beautiful and powerfully gifted women, dancing in the hall.

Their bodies were exquisite, their dancing posture was moving, along with the zither and the thurible, and appeared a kind of quiet and lofty.

"I don't know how to address you? You have come all the way from a billion miles, I wonder what the reason behind this is?"

When Gu Changge saw Jiang Chuchu coming, he didn't seem to be surprised and spoke naturally, and then gestured for Jiang Chuchu to take a seat.

His face was warm with a perfect smile, letting people not find a single flaw.

Chapter 213-2: 7: The leek actually came to the door, The real inheritor of demonic art (2)

7: The leek actually came to the door, The real inheritor of demonic art (Part 2)

In fact, when the immortal guard arrived to inform him, Gu Changge guessed that the visitor was another heir of the Human Ancestor Hall.

In order to wait for her arrival.

Gu Changge had not moved or left the clan.

In fact, from Wang Ziji's mouth, he had already sidetracked a lot of news about Jiang Chuchu.

He knew that she was powerfully gifted and was known in the Human Ancestor Hall as the reincarnation of the Ancient Immortal.

And when he saw her today, that huge amount of her Luck points was already about several tens of thousands, so Gu Changge couldn't help but be a little heartbroken.

This living leek!

How dare she take the initiative and send herself to my door!

Although she was not a Daughter of Luck, but the heir of the Human Ancestor Hall was also a person with great luck, the number of such people in this world possessing such Luck were very few.

"It seems that the cultivators who are involved with the Human Ancestor should not be simple people."

Various thoughts flashed through Gu Changge's mind, and he could not see the slightest abnormality on her face.

In fact, he had already guessed Jiang Chuchu's purpose for coming to him.

In this regard, he did not know what to say other than that she was really brave.

Was she too smart and confident, or too stupid?

"Chuchu greets, Young Master Changge!"

At this time, in front of Gu Changge, Jiang Chuchu also dispersed the fog on her face and said in an originally calm and melodious voice, no longer concealing it.

She intended to open up to the truth.

The actual fact was that this kind of tactic was not very useful in front of Gu Changge.

Seeing him with her own eyes, she could know better how wrong the rumors really were.

Gu Changge's strength, indeed, could not be judged based on rumors.

This made Jiang Chuchu even more convinced of the idea that there was something wrong with Gu Changge.

However, she still remained calm, not believing that Gu Changge would dare to lay a hand on her in the grounds of the Ancient Immortal Gu Family.

"Chuchu?"

"That's a good name, really Chuchu, I feel sorry for her." Hearing this, Gu Changge sighed in admiration.

At this moment, although half of Jiang Chuchu's immortal face was hidden by the veil, her pair of eyes were as cold as a cold pool, like a lonely cultivator watching the world.

From the external appearance, it naturally went without saying.

If the Human Ancestor Hall was some kind of protagonist, then Jiang Chuchu was definitely the female protagonist associated with it.

Such boldness would not be what an ordinary woman should have.

"Young Master Changge, praises me too much."

Jiang Chuchu said indifferently, without being condescending, and then entered the seat and sat down, slightly drooping her eyes.

In those eyes, many strange runes started to appear lightly.

This was her tracing divine ability, which could trace many signs, causes and effects between heaven and earth.

She wanted to determine whether there was a problem with Gu Changge or not, and this was a wonderful opportunity.

Other than her, no one else in the world had this kind of talent.

Jiang Chuchu did not believe that Gu Changge could detect anything at this time.

Moreover, her movements looked very stealthy.

It looked like she didn't want to meet Gu Changge's eyes and naturally landed her eyes on the spiritual wine and melons and fruits on the table.

"I wonder what is the reason for Holy Maiden Chuchu's visit to the Gu family?"

At this time, it was as if Gu Changge had not noticed Jiang Chuchu's subtle movements.

He raised his cup to his mouth, looked natural and asked with a light smile.

Of course, he actually knew Jiang Chuchu's purpose, but he didn't care.

Jiang Chuchu was tracing Gu Changge's aura with her own talent.

Hearing him ask this, she was also slightly stunned for a moment, and then answered calmly.

"I heard that Young Master Changge fought with the Inheritor of the Demonic Art, and Chuchu has always been curious about that battle, so I wanted to come visit Young Master Changge and ask for some details."

"Asking for details? Could it be that Holy Maiden is also planning to go after Ye Ling?"

Upon hearing that, Gu Changge asked as if he was a bit surprised.

However, he did not wait for Jiang Chuchu to answer.

He continued to speak, with a tone of regret and pity, "However, I'm afraid that Holy Maiden Chuchu has come too late, Ye Ling is already dead. Were you really unaware of this matter?"

At these words, Jiang Chuchu fiercely raised her eyes to look at Gu Changge, her heart became slightly austere, a chill and alarm steeply rose at her back.

Gu Changge was that straightforward?

The first time she came, he said this kind of thing so directly? Could it be that Ye Ling was killed by him?

"What does Young Master Changge mean by this? How did Ye Ling die? Chuchu can not understand."

However, Jiang Chuchu still maintained calmness in her expression and said indifferently.

At this time, she was already eight percent sure in her heart that Gu Changge was absolutely inseparable to the inheritor of demonic art.

"It doesn't matter if you don't understand."

"Holy Maiden Chuchu will understand later."

Gu Changge shook his head, "Rather, Holy Maiden Chuchu has come from hundreds of millions of miles, so I'm sorry to miss out on welcoming you, so I'll accompany you to a drink."

Saying that, he took the initiative to pour the wine and drank it all in one go.

Jiang Chuchu was a little hesitant.

"What? Are you afraid that this Gu will poison the wine?"

Seeing her appearance, Gu Changge couldn't help sneering, and his words touched Jiang Chuchu's mind.

"Young Master Changge is worrying too much..."

Jiang Chuchu frowned. Although she really thought so, she naturally couldn't admit it at this time.

After all, this was equivalent to not giving face to Gu Changge, the host.

In any case, the faces of the two had not been torn apart yet, or they were still in false pretense.

They more or less considered the other side's face.

However, Gu Changge waved his hand in a sullen mood and interrupted her, "Forget it, don't drink it, it's normal for Holy Maiden Chuchu to be so vigilant, after all, I did poison this wine."

Hearing this, Jiang Chuchu was stunned for a moment, and when she realized the meaning of Gu Changge's words her pupils shrank suddenly.

At this time, even with her state of mind, her face turned pale.

She traced Gu Changge's aura with her special talent, and now she had finally succeeded.

Hum!!

At this moment, his aura was almost suffocating.

The whole person's mind was instantly filled with a maddening, indescribable gray fog, among which there was an indescribable terrifying existence, ancient and majestic, as if dragging all beings into it.

This kind of aura was majestic and chaotic, as if it was composed of countless origins and laws. Under the majesty of this, she was as small as an ant.

"He really....."

"Devoured a lot of origins..."

Jiang Chuchu's expression under the veil turned a little pale, but she was still restraining herself with strong willpower, so as not to display any strangeness.

Now she could be sure that Gu Changge was the most hidden inheritor of demonic art!

It was terrifying to the bones!

Guessing was one thing.

Now that it was confirmed, even her state of mind was trembling slightly, and things finally turned to the worst that she didn't want to happen.

Gu Changge looked at her with interest.

As if he didn't know what Jiang Chuchu did.

"Is something wrong with Holy Maiden Chuchu? Your face suddenly looks a little pale. What I said just now was just a joke, you don't have to take it seriously?"

Jiang Chuchu quickly regained her composure, and nodded when she heard the words, "Thank you for your concern, Young Master Changge, but it's better not to joke like this."

If it was outside, she would still have the confidence to fight Gu Changge.

But in the Ancient Immortal Gu Family, she didn't even dare to let Gu Changge notice her abnormality.

The premise that Gu Changge won't do anything to her was that she didn't know her true identity.

Now, once Gu Changge noticed it, would he let him go?

However, Jiang Chuchu was certain that Gu Changge would not easily attack her.

Once she had an accident in the Ancient Immortal Gu Family, then the Ancient Immortal Gu Family would become the target of public criticism.

Unless Gu Changge was willing to risk his identity being exposed.

All kinds of thoughts flashed in her mind, and Jiang Chuchu had already given birth to the intention of retreat at this time.

Her initial instinct was right.

It was just that after determining Gu Changge's true identity, how to expose him was a problem, because she had no evidence.

Tell the people of the Human Ancestral Hall?

But with her words alone, how could it be possible to shake Gu Changge and Ancient Immortal Gu Family.

At that time, it might be thought that she deliberately framed Gu Changge.

Because she couldn't come up with any evidence that Gu Changge was the inheritor of demonic art. If his identity was simple, then things would be a lot easier.

However, Gu Changge's identity and background was destined to be the highest figure in the Upper Realm.

Who dared to say such words without evidence?

This matter needed to be considered in the long run.

"Oh, don't care how?"

Hearing this, Gu Changge's smile suddenly became a little intriguing, "After all, the Holy Maiden Chuchu came all the way, this Gu will keep this kindness in my heart and take care of you, is there any problem?"

Jiang Chuchu just wanted to leave this place at this time.

"Young Master Changge is overly concerned."

"I'm in a hurry today, since Young Master Changge said that Ye Ling is dead, then I should go look for other clues."

She replied very tactfully, stating that she wanted to say goodbye to it.

But at this time, how could Gu Changge let her leave so easily?

Chapter 214-1: The person who pretended to be the descendant of the Human Ancestor Hall, Does not cry without seeing the coffin (1)

"All of you can go back."

The smile on Gu Changge's face finally disappeared, and he waved his hands to let all the dancers retreat.

"Young Master Changge..."

Jiang Chuchu frowned, not understanding Gu Changge's actions, and was vigilant.

What she was not sure about now was Gu Changge's identity as the inheritor of the demonic art.

Did the Ancient Immortal Gu Family know? What is their attitude?

"It's been so long, so don't pretend to be stupid. It's really boring like this."

Gu Changge spoke lightly, with a bit of mockery.

Compared to just now, his expression was completely different.

Hearing this, Jiang Chuchu was stunned, it was difficult for her to keep calm.

Listening to Gu Changge's words, was it a showdown?

Her back was cold, and she suddenly felt a sense of danger.

But before Jiang Chuchu could react, she felt Gu Changge make a move on her as he waved his sleeves.

Terrible spatial fluctuations appeared!

In the next moment, Jiang Chuchu's eyes flashed and a space crack suddenly appeared from her side as it expanded rapidly and shrouded her in an instant.

Buzz!!

Her figure disappeared out of thin air, being dragged into the inner world by Gu Changge.

This space crack quickly healed and disappeared, as if it had never appeared.

"It's stupid for the prey to enter door on your own initiative."

Gu Changge couldn't help laughing out loud, and then in the void in front of him, a beautiful figure emerged.

It was Yan Ji.

"How is your Aura Imitating skill?" Gu Changge looked at her.

Within the inheritance of the Ancient Heavenly Lord of Reincarnation, there were many methods of disguise that could even help one cover up their origin.

Jiang Chuchu usually wore a veil in front of people, and even hid her true face with fog.

It was really easy to imitate her aura and body shape.

Yan Ji didn't even need to change her appearance.

Hearing this, she nodded and said, "The secret method bestowed by the young master is really mysterious. After observing it for a short time, I can already imitate an aura by eighty or ninety percent."

As she spoke, a layer of radiance appeared on her body.

Yan Ji's figure started to change, and soon it looked no different from Jiang Chuchu from just now.

Even the tone of her voice was no different.

Moreover, her own cultivation was in the Great Sacred Realm, and ordinary people couldn't see through it at all.

Even if it was a Quasi-Supreme existence, it was impossible to see anything abnormal.

Seeing this, Gu Changge nodded with satisfaction, "In this way, the descendant of Human Ancestor Hall will now be your new identity in the future."

The reason why he talked so much nonsense with Jiang Chuchu was to give Yan Ji a chance to watch from the sidelines, so as to reach the point where the truth could be mixed with the fake.

"But young master, can I really hide from the Human Ancestor Hall like this?" Yan Ji was a little puzzled, and she firmly believed in Gu Changge's plan.

But if she really faced any cultivator of Human Ancestor Hall, she felt that she would still be exposed.

"It's nothing, you don't need to return to the Human Ancestor Hall, just walk outside and let the world know. As for the rest, leave it to me." Gu Changge smiled calmly.

Hearing this, Yan Ji nodded.

She was not good at acting and disguising herself. Gu Changge was a bit hard on her, but Jiang Chuchu's character itself was easy to imitate, because she had always spoken very little and had a flat personality.

As long as she didn't meet those familiar people from the Human Ancestor Hall, Yan Ji didn't think that she would reveal any flaws.

Then, Gu Changge's figure disappeared and appeared in the inner world.

Yan Ji wanted to pretend as a descendant of the Human Ancestor Hall, but there was still one thing missing, and that was Jiang Chuchu's Ancestral Order.

This was a must.

At the same time, in the inner world, Jiang Chuchu's expression was no longer as calm as it was at the beginning.

Gu Changge suddenly attacked, using his terrifying space power, then a space crack appeared in an instant, and engulfed her.

Then he trapped her in this mysterious and unknown world.

It all happened so fast that she didn't even have time to react.

When the scene in front of her was clear again, she was already standing in a vast ancient forest.

Looking around, it was full of majestic mountains and ancient trees, blue lakes like diamonds, and emeralds were inlaid everywhere.

Aura was like fog, green like a tide.

In the distance, there seemed to be an ancient and majestic Heavenly Palace standing on the horizon. It looked extremely huge and sacred. The pillars alone could hold up heaven and earth.

Like an ancient sky tower, it stood tall in the world.

"What on earth is this place? How did Gu Changge get me here?"

Jiang Chuchu frowned, and it was difficult for her to calm down for a while.

Here, she could not perceive a single aura from the outside world.

What was going on in the magnificent and sacred Heavenly Palace in front of her?

Could it be the remains of the ancient immortal garden?

Gu Changge actually had such a ruin?

Jiang Chuchu knew that there were many small-world-like instruments in this world, which could be carried around, and some supreme beings could even develop and refine them, which was mysterious.

One flower, one world, one grain, one cycle.

She accidentally followed Gu Changge's words.

Now Jiang Chuchu was very sure that she was trapped in such a space instrument by Gu Changge.

"If Gu Changge did this, it means that the Ancient Immortal Gu Family does not know his true identity, and he could not attack me in the Gu family... He is probably keeping everyone in the dark... .."

Jiang Chuchu frowned and whispered in her heart.

Afterwards, she found a place to sit cross-legged, and dazzling runes began to appear on her body. The brilliance was bright, simple and atmospheric, like a large area drizzling with light rain.

This place seemed to have become a land of flying immortals for a while.

Thousands of immortal lights shone like runes in the sea.

There was even a terrifying sound of thunder, crackling, and it turned into a haze in it, and various shapes appeared.

Axes and forks, swords, spears, halberds, real dragons probing their claws, divine phoenixes shaking their wings, basalt ground splitting, and white tigers roaring, all kinds of visions intertwined and surged.

These terrifying offensive forces, constantly deduced and evolved, trying to tear this space apart.

Boom!!

Jiang Chuchu's Quasi-Sacred Realm's aura began to surge out.

She knew that there was a limit to the power that this space could withstand, and as long as she broke that limit, this space would definitely shatter in response, and he wouldn't be able to trap her at all.

This was obviously the same as those space barriers.

But in the next moment, when some of her attacks fell into the void, they were like mud cows entering the sea, unable to generate even a single wave.

"How is this possible?" Jiang Chuchu couldn't believe it.

Under her all-out attack, she already had the power of the Sacred Realm, and even the barriers of many lower realms would not be able to bear it and would be torn apart.

But in this space instrument of Gu Changge, it had no effect?

"Could it be that his spatial divine weapon is of a high level?"

Jiang Chuchu tried again, but it was still fruitless, not to mention a trace of turbulence. She even felt that the space of the outside world was actually inferior to this world.

"I don't believe it, am I really going to be trapped here by Gu Changge for the rest of my life?"

Jiang Chuchu sacrificed a crystal clear mirror and was about to make a move.

Hum!!

The void in front of her suddenly became blurred, and then cracked.

"Don't waste your time, unless I let you out, you will die of old age here."

Gu Changge's figure walked out of it, sensing Jiang Chuchu's actions, he couldn't help frowning as he said lightly.

"Gu Changge..."

Jiang Chuchu stared at him, with infinite vigilance and fear in his eyes.

Boom!!

In the next moment, she suffered a big loss and took the lead in taking action against Gu Changge!

Since the barrier of this space could not be broken, as long as Gu Changge was killed, she would naturally be able to leave.

At this time, a mighty purple aura appeared behind Jiang Chuchu, and there was a faintly dazzling priest who shone with immortal light.

Holding the whisk in hand, sweeping it forward, the world seemed to be split open!

The strength of the Quasi-Sacred Realm was undoubtedly revealed!

"Who gave you the confidence to attack me?"

Gu Changge let out a sneer and didn't care.

He waved his sleeves, and a clear light shone down, turning into a surging moon wheel and crashed down.

At the same time, the cultivation of the Sacred Realm was impressively displayed, so powerful that Jiang Chuchu's complexion changed suddenly, and it was difficult for her to maintain the calm just now.

The moment Gu Changge smashed the moon wheel, the power of the whisk was shattered and the moon wheel remained unchanged, falling towards her!

"You have already broken through to the Sacred Realm..."

"You hid it!"

Jiang Chuchu's back was full of cold air, and it was a terrifying movement technique to use extreme speed.

Cultivation to the extreme could travel through countless spaces in one step, intending to quickly avoid Gu Changge's random blow.

Her talent was already so powerful that it was unknowable, and she thought she could stabilize Gu Changge.

But she didn't expect that the gap between the two people's cultivation would be so big!

Chapter 214-2: The person who pretended to be the descendant of the Human Ancestral Hall, Does not cry without seeing the coffin (2)

At the same time, Jiang Chuchu sacrificed a Dao seal.

There was light in the middle, there was a chanting sound of Dao, and the mighty purple aura covered the sky and blocked the sun, turning into a big seal with an extremely ancient word "Dao" on it!

The laws and rules were intertwined, densely packed, this blow was enough to kill a normal Sacred Realm cultivator!

But in the next moment, Gu Changge shook his fingers at will, and a wisp of sword energy rang out, wrapped in the aura of laws as it turned into a bronze immortal sword and fell towards Jiang Chuchu!

Boom!

The Dao seal she sacrificed was instantly pierced under this sword and turned into powder.

Jiang Chuchu also spat out a mouthful of blood because of the backlash, and her blood tumbled for a while.

From the perspective of strength, she was not Gu Changge's opponent at all.

If it was at the same level, she might have a chance, but Gu Changge was a lot stronger than her.

Moreover, from the beginning to the end, Gu Changge did not use his full strength, just like a cat playing a mouse.

"At this time, don't you still understand the gap between you and me? Holy Maiden Chuchu?"

Gu Changge said lightly, showing disdainful contempt, not in a hurry to suppress Jiang Chuchu.

In the inner world, unless the cultivation base was too much higher than Gu Changge, it was impossible to escape from it.

At the next moment, a black and white divine light burst out from Gu Changge's eyes, time passed and new life shattered, the void distorted and turned into a sword of reincarnation!

"Reincarnation power..."

Jiang Chuchu's expression changed slightly, and she sacrificed a sacred vestment, but it was soon torn apart by this black and white divine light, and she couldn't resist even a single wisp of its aura.

She vomited blood again and flew upside down, and at the same time, Gu Changge reached out with a palm, covering the world, surging with great strength, making Jiang Chuchu's expression change rapidly.

Boom!

From between her brows, the brilliance suddenly exploded, and a mysterious palace appeared.

A strange Dao sound appeared, as if there was an unparalleled female immortal, sitting cross-legged in it, radiant and dazzling.

She was the reincarnation of the Ancient Immortal, this statement was not groundless.

Gu Changge also sensed a hint of danger.

Hum!!

A mouth of the treasure bottle appeared, and the dark black brilliance hung down, trying to shock the gods from Jiang Chuchu's eyebrows.

That god was about to open his eyes, and there was an infinite divine light condensing in it.

The Eight Desolate Demon Halberd suddenly appeared in Gu Changge's hand.

Demonic!

His eyes were cold, and he slashed straight down, splitting the divine light of the god in an instant!

This scene made Jiang Chuchu's face pale, and blood dripped from the corner of her mouth, as she apparently hurt her consciousness.

Gu Changge was too strong. The blow just now had obviously surpassed the level of the Sacred Realm, and even reached the level of a Great Sacred Realm.

His murder weapon was very strange.

Jiang Chuchu knew that with her own strength, she could not be Gu Changge's opponent.

"Calm down, let me plant a slave seal that way you might still have a chance to live." Gu Changge's voice was flat.

"Don't think about it, unless I die. But if you kill me, the Human Ancestor Hall will surely notice, and your identity will definitely be exposed."

She opened her mouth and said, knowing this time, as long as Gu Changge was not stupid, he would not kill her.

If the life stone she left in the Human Ancestor Hall broke, it would inevitably attract the Human Ancestor Hall to investigate. At that time, they would know that she had come to the Ancient Immortal Gu Family. Even if Gu Changge tried to hide it, it would be difficult to do so.

"You are smart, knowing that you still have value."

"Don't worry, I won't kill you now."

Gu Changge said lightly, not taking Jiang Chuchu's words seriously.

"Hand over the token of your Human Ancestor Hall."

"Human Ancestor Hall's token?"

Jiang Chuchu looked stunned, what did Gu Changge want this for? Did he want to find someone to disguise as her?

It had to be said that she was very smart, and guessed Gu Changge's purpose so quickly.

"Impossible, the Human Ancestor token is of great importance, there is no way I can give it to you."

Jiang Chuchu calmed down and sat in place, and from her ring, a lingering small tower appeared, a layer of golden light faintly surfaced, and enveloped herself.

"Although I will not kill you, I can let you know that some things are more hard to bear than death."

Gu Changge said indifferently, intending to force Jiang Chuchu.

It was indeed not good for him to kill her at this time, and there was still a use in keeping her alive.

The first thing he had to do was to plant a slave seal or a demon bottle, which would definitely touch her sea of consciousness.

Just now Gu Changge had sensed the mysterious palace within Jiang Chuchu's consciousness that was considered forbidden.

There was a vast and dangerous power hidden in it.

Although Jiang Chuchu couldn't use it, it didn't mean it was useless to her.

If Gu Changge rashly invaded her sea of consciousness, he might touch that palace, resulting in Jiang Chuchu's death.

This was a troublesome process and he could not kill nor plant a slave seal, even the treasure bottle was useless.

After all, once Jiang Chuchu died, it would inevitably cause a lot of trouble for Gu Changge.

On the other hand, Yan Ji could not continue to disguise her identity, affecting Gu Changge's follow-up plans.

So Gu Changge planned to retreat to the second best, the so-called warm water boiled frog. Letting Jiang Chuchu understand the huge gap between her and her own strength, removing her thought of escaping.

Anyway, while being trapped in his inner world, there was nowhere she could go.

The first thing she had to do was get out of this world and letting her out or not was just a matter of thought.

At these words, Jiang Chuchu's eyes became very cold and she looked at Gu Changge, knowing what he meant by this.

She didn't think that Gu Changge wouldn't try this kind of thing.

"You have three breaths of time to think about it." Gu Changge said indifferently.

Jiang Chuchu herself definitely didn't want to die or submit to him.

But before that, as the Heavenly Maiden of the Human Ancestor Hall, she was bound to value her reputation and chastity over everything.

Compared to the first two, this was also the least likely that she would touch that forbidden palace within her sea of consciousness.

Instead, Gu Changge could start with this aspect and force out what he wanted.

"Gu Changge, you're too despicable!" Jiang Chuchu could hardly keep calm, her eyes were incomparably cold and she was gritting her teeth with hatred.

Buzz!!!

Gu Changge slashed down his halberd without saying a word.

The golden circle of light in front of her suddenly made a light trembling sound, followed by layers of cracks that instantly exploded.

Jiang Chuchu's face instantly turned pale.

"My patience is limited." Gu Changge said indifferently.

"I can't give you the Human Ancestor token, you trapped me here and want to find someone to disguise me so as to hide it from the world, Gu Changge there's no way I am going to let you do that!"

"I won't help my enemy."

Jiang Chuchu looked at him coldly, with a look as if she was ready to die.

Even if she broke her own body and died here.

She would not let this devil Gu Changge achieve his goal and thus wreak havoc in the world.

"Stupid, you asked for this."

At these words, Gu Changge's eyes deepened, his big palm rushed down, the devilish light was monstrous, and the divine talisman was concealed, like a huge millstone of extinction it suppressed down on Jiang Chuchu.

Boom!

In this instant, the entire void seemed to be suppressed by the power of billions of tons, turning stagnant, as if it was frozen and solidified there.

"Gu Changge, I won't let you get away with this!"

Jiang Chuchu's face turned icy cold.

At this time, all her power began to converge toward her Spirit Sea, brilliant runes appeared, rules intertwined, as she was intending to self-destruct her body.

At this time, her only move to bring trouble to Gu Changge was suicide!

The only way to get the attention of the Human Ancestor Hall was to kill herself, so that they could investigate and find out that something was wrong with Gu Changge.

"Ridiculous, in my world, how can your life be controlled by yourself?"

Seeing this, Gu Changge could not help but let out a cold laugh, looking contemptuous.

For this kind of person who wasn't afraid of death, there were ways to deal with it.

Jiang Chuchu might not have understood that Gu Changge was only afraid of the forbidden palace within her sea of consciousness.

In fear of accidentally touching her sea of consciousness, triggering that forbidden palace to riot, thus leading to Jiang Chuchu's death.

It was obvious that Jiang Chuchu's own strength was unable to bear the power of that forbidden palace.

Unless she could break through that palace and shatter her True Spirit, it was useless.

It was really a case of not shedding the tears until seeing the coffin.

As this palm fell, Jiang Chuchu's face directly changed, and she discovered that it was hard for her to condense her own power, and it scattered immediately!

Even her death..... seemed to be out of her control!

"I'll give you the Human Ancestor token, stop"

Seeing Gu Changge seemed to be telling the truth, at this time, Jiang Chuchu's expression changed greatly, she turned very pale, and could not be as calm as before.

"It's too late....."

Gu Changge looked cold and indifferent.

.....

Outside the palace, Gu Changge's figure walked out from the void.

"Is the Human Ancestor token such a thing?"

He surveyed the golden token in his hand, which seemed to have the aura of all beings converging on it.

Then, he handed it to Yan Ji beside him.

"Master, did you kill that heir of the Human Ancestor Hall?"

Yan Ji was a little curious about what happened to Jiang Chuchu.

"No, she can't die yet."

Gu Changge shook his head, "A person who doesn't see the coffin, keeping her is still useful."

Inside the inner world.

Jiang Chuchu hugged her knees, her expression was cold with a bit of bewilderment.

She looked at her right arm to see that the guardian sand, which she had kept for more than twenty years, had now disappeared.

The successive generations of holy maidens of the Hall of the Human Ancestors must all be pure.

"Gu Changge....." She was gritting her teeth.

Chapter 215-1: The assassination list prepared by Mingkong? A secret push (1)

With the Human Ancestor Hall's token, things became even simpler for Gu Changge.

Yan Ji pretended to be Jiang Chuchu, the descendant of the Human Ancestor Hall, and walked around the world. She could take the opportunity to publicize his various achievements against the inheritor of demonic art.

At this time, there were no idiots who would dare to jump out and suspect anything.

On the other hand, Wang Ziji, another descendant of the Human Ancestor Hall, never doubted Gu Changge's identity at all.

At that time, under the promotion of the two descendants of the Human Ancestor Hall, Gu Changge would be able to develop steadily for a while.

What did it mean when the descendants of the Human Ancestor Hall spoke?

It meant authority!

As the oldest Dao Lineage to contend against the inheritor of demonic art, there was no other force that knew as much about the inheritor of demonic art as the Human Ancestor Hall.

As long as Yan Ji didn't meet an old friend or teacher who knew Jiang Chuchu well, it was impossible for her to be found abnormal.

Jiang Chuchu was trapped in the inner world by Gu Changge, so he didn't need to care about her at all.

Unless she suddenly burst with some forbidden power, it would be impossible for her to break the shackles of the inner world and escape.

Therefore, Gu Changge didn't need to care about her for a short period of time, and could concentrate on the reincarnation of the Human Ancestor.

"I have Emperor Ying Shuang to take the blame for me. During this period of time, it is not easy for him to clear his suspicions. It is estimated that he appeared for a brief moment before retreating back to Heavenly Emperor Mountain."

"Compared to other Children of Luck, this guy is actually quite vigilant..."

"But in front of me, what's the use of such vigilance? Even the shell of the turtle has to be broken for me."

Inside the palace, Gu Changge couldn't help laughing.

A jade slip appeared in front of him.

It clearly listed the names of the Emperor.

In addition, there was a lot of information about Princes of Ancient Emperors, Heirs of True Immortals, Ancient Freaks, and even a lot of Young Emperors who had been crowned in many eras.

"This girl, Yue Mingkong, even prepared an assassination list for me? It seems that she knows my plan."

"But it is exactly what I want, and it saves me a lot of trouble from investigation."

Gu Changge scanned these names, this jade slip was specially reserved for him by Yue Mingkong when she left Ancient Immortal Gu Family.

He didn't bother at that time.

Looking at it now, he found that those ancient and peerless monsters who were about to appear were really his best cultivation resources.

"I probably had such a list in my last life, so it was written down by Yue Mingkong."

Gu Changge whispered and began to plan his next whereabouts.

Either follow the direction of Yue Mingkong and cut off the reincarnation of Human Ancestor, or go to find the place where the Absolute Heavenly Extermination appears.

"I can send someone to look for it on a cloudy day. This matter can't be rushed, so the top priority now is to find the reincarnation of the Human Ancestor..."

Soon, Gu Changge decided what to do next.

Human Ancestor was reincarnated with a huge fortune, and he doubted that Yue Mingkong had good foresight.

But it was very likely that the bamboo basket would be empty, and it would end up being fishy.

Just like the last time she let Ye Ling escape, the tyranny of the Child of Luck was not something that Yue Mingkong could have expected, especially an old monster like Human Ancestor who had reincarnated many times.

"Let me do this kind of thing."

Thinking of this, Gu Changge showed a deep smile and planned to leave, but before that, he decided to go to the Purple Immortal Pill Sect first.

"Old Ming."

Soon, Gu Changge summoned the old confidant Ming, who had been with him in the Lower Realm.

"Greetings, young master!"

An old man dressed in black arrived respectfully.

Now that Gu Changge was highly regarded, his identity had undergone earth-shaking changes.

Even if he was a retainer with a foreign surname, many Gu family members paid attention to him and did not dare to despise him.

And he knew very well who gave him all of this.

"How is Qiuhan doing during this time?"

Gu Changge stood with his hands behind his back, and asked casually, saying that he threw Lin Qiuhan in the Purple Immortal Pill Sect for a long time, and it was time to pay her a visit.

"Qiuhan had a very good life in Purple Immortal Pill Sect and was trained as a future sect master. Her current alchemy skills are unmatched by her peers in Purple Immortal Pill Sect."

"She also misses the young master very much."

Hearing this, Old Ming's face couldn't help but show a touch of relief, and he spoke excitedly and happily.

After all, Gu Changge took the initiative to ask about her, which meant that Gu Changge did not forget Lin Qiuhan.

A person of Gu Changge's identity, as long as he said a word in the Upper Realm, countless girls from the heavens would take the initiative to come to his door, breaking the threshold.

In the final analysis, Lin Qiuhan only came from the Lower Realm. No matter how outstanding her alchemy talent was, she was not as good as those genius girls in terms of background.

It was normal for Gu Changge to forget about her.

Now, Gu Changge said this, obviously it was him who thought wrong!

How could this not make Old Ming excited? He also hoped that his younger generation would be valued by Gu Changge.

"Oh, Qiuhan didn't disappoint me."

Gu Changge smiled slightly, which was not surprising. After all, she was a person with great luck. After she came to the Upper Realm, she began to show her alchemy talent.

"I have time recently, I'll go to Purple Immortal Pill Sect to see her."

Gu Changge continued.

The main thing was that he let Purple Immortal Pill Sect train Lin Qiuhan for him for so long, it was time for her to play her role.

"Thank you, Young Master. If Qiu Han heard that the Young Master would visit her, she would definitely be very pleasantly surprised."

Old Ming said excitedly.

.....

"What? Where are my parents and grandpa?"

On the other side, under Gu Changge's intentional arrangement.

After many twists and turns, a piece of news also reached Gu Xian'er's ears.

Inside a palace.

She looked at the clansman in front of her who reported the news.

Emotions such as joy and excitement appeared uncontrollably on her face, and she couldn't hide it at all.

This was the second thing that made her happiest in this period of time.

And the first thing, of course, was to figure out what Gu Changge had been hiding all along.

Since the Nirvana Pool incident, Gu Xian'er had never seen Gu Changge again, and she didn't know what Gu Changge was doing.

Gu Xian'er already understood everything that day when she witnessed the scene where Gu Changge couldn't suppress his demonic nature and was controlled by it.

Why did Gu Changge dig her Dao bone back then, wasn't it because of being controlled by the demon?

But now, Gu Changge would rather give up his arms than hurt her.

This made Gu Xian'er extremely moved and warm.

Especially when Gu Changge said "Don't touch her", it seemed like he was yelling at the other guy, and that low roar still echoed in her ears from time to time, making her heart tremble.

So Gu Xian'er could understand what Gu Changge had done over the years.

Now that he was deliberately avoiding her, maybe it was just that he couldn't keep his face down.

Thinking of this, Gu Xian'er didn't care about Gu Changge's actions at all.

"Miss, the news should be correct. At that time, some cultivators noticed the whereabouts of the Patriarch and their whereabouts, and they seemed to be in a Lower Realm..."

"Judging from the news, it seems that the situation of the homeowners and theirs is not a problem."

The clansman who reported the news replied with a determined expression on his face.

"Who told you this news?"

Gu Xian'er was a little puzzled and curious.

"This is not clear, because the source of the news has gone through many twists and turns, and it is impossible to determine." The person replied respectfully.

Gu Xian'er was slightly startled.

After reacting, she nodded, glanced in the direction of Gu Changge's place, and then said, "Okay, I'll set off today to find my parents and others."

She had just returned to the Ancient Immortal Gu Family and she heard about the whereabouts of her parents?

Was it really a coincidence? Or was she just lucky?

Gu Xian'er was not stupid.

Over the years, someone must be secretly helping her investigate this.

And who would this person be?

Soon, Gu Xian'er guessed who did it.

"Gu Changge is really proud as always, he clearly cares about me in his heart, but he still looks indifferent, hum..."

With this thought.

Gu Xian'er led many strong men of her lineage and started to set off to the place where her parents were.

Chapter 215-2: The assassination list prepared by Mingkong? A secret push (2)

.....

"Holy Maiden."

At the same time, in the mountains outside the Ancient Immortal Gu Family's territory.

Yan Ji, with a veil on her face and a layer of mist covering her face, was standing here. From the perspective of appearance, she was completely no different from the previous Jiang Chuchu.

At this time, even if Wang Ziji, who was cultivating with her, was here, it would be difficult for her to see the abnormality.

The Heavenly Lord of Reincarnation was also a notorious person when he was young, so he researched such a secret technique to change his face, and even his origin could be disguised.

Perhaps even the Heavenly Lord of Reincarnation himself did not think that one day his secret technique would be used by Gu Changge in such a way.

At this moment, in the void, an old woman wearing gray clothes appeared, and with her Great Sacred Realm cultivation base, she respectfully said.

She also didn't notice anything unusual about Yan Ji.

Yan Ji nodded slightly, her expression indifferent as if there was no trace of emotion.

Following Gu Changge's instructions, after she left the Ancient Immortal Gu Family, she rushed here as a descendant of the Ancient Immortal Hall.

The target was the territory where the Ancient Clans lived.

"Holy maiden, is this investigation fruitful?" The old woman in gray couldn't help but ask curiously. Before that, Jiang Chuchu insisted on going to the Ancient Immortal Gu Family to ask Gu Changge.

This seemed really unnecessary.

Now the biggest suspect of the inheritor of demonic art was the emperor.

At this time, shouldn't it be to investigate the Emperor Ying Shuan?

Hearing this, Yan Ji's face showed a hint of apology, and she shook her head and said, "I was overthinking, young master Changge has the world in his heart, and he is kind to the people. He has sacrificed a lot to fight against the inheritor of the demonic art. I shouldn't have doubted him."

Hearing this, the old woman was a little stunned, and she was worried that the Holy Maiden was still obsessed and would get to the horns.

It was not too late to wake up now.

"Holy maiden, are we heading to Heavenly Emperor Mountain now? It's probably the Tiger's Den there now, so it won't be stable." The gray-clothed old woman said worriedly.

She was very worried that the Heavenly Emperor Mountain would take the opportunity to take action against Jiang Chuchu.

Yan Ji shook her head and said, "The inheritor of demonic art is very important, and Heavenly Emperor Mountain does not dare to risk the consequences of being enemies of the entire world, so don't worry."

As she said that, she couldn't help but display a bit of a trance in her expression.

When she first returned to the Upper Realm with Gu Changge, she actually didn't know the identity of Gu Changge as the inheritor of demonic art.

It wasn't until recently that Yan Ji understood all this.

Was she following more than just a hero? This was simply an unparalleled demon who used the world as a chessboard and planned for the common people.

She had no objection to that.

After all, she was following Gu Changge, not his identity.

Under such a life-and-death secret, Gu Changge didn't do anything to her. Instead, he trusted her a lot and entrusted her with many important things.

The grace of knowing the encounter, the grace of reshaping the body... There was so much kindness that Yan Ji couldn't repay.

"Knowing the Holy Maiden, let's go to the Emperor Mountain now. Are we still looking for the reincarnation of the Human Ancestor?"

When the old woman in gray heard the words, she also looked solemn, swept away her previous worries, and then asked about another matter.

This was something Jiang Chuchu had always cared about before, and it was the top priority just like the pursuit of the inheritor of demonic art.

If she were to go to Emperor Mountain, then the reincarnation of the Human Ancestor would definitely be put on hold.

"The reincarnation of the Human Ancestor will appear sooner or later. We don't have to interfere too much, let nature take its course. Too much interference may even hinder the Human Ancestor."

Yan Ji remembered Gu Changge's explanation, and couldn't help shaking her head slightly, explaining this.

Of course, even if she didn't go looking for the Human Ancestor's reincarnation, the rest of the people in the Human Ancestor Hall would not be able to help but leave.

After all, the first step to find the reincarnation of a Human Ancestor was supreme honor, but were there rewards or something?

"Our top priority now is to determine the identity of the inheritor of demonic art..."

Yan Ji spoke again and said lightly.

After all, Emperor Ying Shuang was the one who was now taking the blame for Gu Changge. Naturally, her purpose was to find a way to make Emperor Ying Shuang take the blame firmly.

"Understood."

Hearing this, the gray-clothed old woman nodded, not suspecting her at all.

Soon, a master and a servant, two people turned into divine lights and rose into the sky, heading towards the Heavenly Emperor Mountain.

.....

At the same time, in the Heavenly Emperor Mountain.

With a gloomy and unwilling face, Ying Shuang was walking back and forth in the palace, and he seemed to be in a bad mood.

"Hateful!"

"Gu Changge framed me like this! I must avenge this disgrace!"

His fists were clenched tightly, and his face was very unwilling, but there was a deep fear, panic, and worry hidden in his eyes.

During this time, as Gu Changge had guessed.

Just two days after he appeared, he planned to show off his majesty. Not long after Ying Shuang left Heavenly Emperor Mountain, he was attacked by many cultivators and creatures, causing a mess.

Wearing a hat associated with the inheritor of demonic art, no matter where he went, it was impossible to be welcomed, but rather aroused hatred.

If it wasn't for the fear of the Emperor Mountain's background forces behind him, many cultivators and great sects would be ready to make a move against him.

There were various indications that the Emperor and the inheritor of demonic art had an inseparable relationship.

No matter how Heavenly Emperor Mountain explained this, it would have no effect. Instead, he accidentally killed many cultivators and creatures who attacked them, making this matter more and more dark.

This incident made Ying Shuang look ugly and angry to the extreme. Although he had never inherited the memory of his original body, he also knew that he had nothing to do with the so-called inheritor of demonic art at all.

There was no demonic power in his body at all.

All of this was framed by Gu Changge and the descendants of that Human Ancestor Hall.

Distorted facts, despicable and shameless, and poured dirty water directly on him.

However, he still had no way to deal with it, nor did he have many strategies and means of the original body to deal with it.

There was no other way, Ying Shuang had to turn back halfway and go home.

Moreover, he sent someone to investigate the little servant next to Yin Mei, who was the original him.

It turned out that the little servant disappeared in the end, and the place where he disappeared was the Ancient Immortal Gu Family.

This made Ying Shuang feel creepy.

It was estimated that other than him, no one would pay attention to such a nameless servant.

And the disappearance of this little servant would not cause any waves, and no one would care about anyone like him who had no relatives or friends.

"I suddenly disappeared, Yin Mei may be sad, and no one will feed her horses in the future."

"This Gu Changge actually made Yin Mei sad, he deserves to die!"

But at that time, Ying Shuang still had this idea, thinking that no one except Yin Mei would care about his disappearance.

In his opinion, Yin Mei was the light when he was most desperate and helpless.

If Yin Mei didn't care about him, why would she help him so much?

And Ying Shuang naturally put all the grievances on Gu Changge's head.

Gu Changge might have discovered something, otherwise why would he suddenly attack a servant.

This made Ying Shuang feel cold all over, and it felt like Gu Changge suddenly had the upper hand.

His previous body was likely to be occupied by the former emperor.

And Gu Changge had the means to learn the whole story from the Emperor's mouth.

Therefore, Ying Shuang was terrified and planned to return to Emperor Mountain to hide from the limelight for a while.

After all, he was just a little servant who had never even seen the world before, but suddenly he became the most envious and aloof bigshot from his daily life.

The change of identity did not mean that the mentality could be changed.

Moreover, before he could enjoy it, he took the blame of the inheritor of demonic art and became the devil that everyone cursed.

This made Ying Shuang feel uneasy, and he almost yelled out!

Therefore, it was not good for him to continue to stay in the outside world. With his current ability, it was not enough to cope with such a situation.

During this time, Ying Shuang's sudden change of mind and his return to Heavenly Emperor Mountain shortly after he appeared, attracted ridicule from many neutral clans of the Royal Sword clan.

They felt that the Emperor who appeared this time was very embarrassing and disgraceful to his father.

Even many high-level and old antiques of Emperor Mountain were also frowning now and then.

After all, Ying Shuang was determined to appear before, but now he ran to Emperor Mountain after encountering some difficulties.

What the hell was this? Even their faces felt dull.

This move was quite different from Ying Shuang in the past, making them guess that he had made a mistake in his cultivation.

But they didn't think deeply.

Because Ying Shuang, as the heir of Emperor Ying, was protected by the imprint of his own imperial way, his soul was very firm, and it could not be easily taken away by any existence.

If someone really dared to take over, it would be amazing and attract their attention.

For a time, Ying Shuang's prestige in the Heavenly Emperor Mountain was swept away, but Gu Changge gained a lot of Luck points and Destiny value for no reason.

In Gu Changge's view, all of this was also expected, and he had also contributed to the flames.

After all, the current Ying Shuang was just wearing the skin of a big shot, and he was just a horse feeder inside.

In the face of this situation, it was not bad to be frightened and paralyzed.

Chapter 216-1: Feeling that something big will happen, Gu Changge rushes to Heavenly Star Realm (1)

"Brother, what's the matter with you recently? Many Clan Elders are very disappointed with you, thinking that your seclusion has made your head stupid."

In the Palace of the Heavenly Emperor, Ying Shuang was thinking about many countermeasures.

At the palace gate.

A beautiful girl with silver hair appeared, with a glow all over her body as she looked extremely divine. It was Ying Yu.

She frowned, with dissatisfaction and doubt written all over her face.

"I have my own intentions in this matter, you don't have to worry about it."

Ying Shuang heard the words, his face was dull, he turned back and said lightly.

In front of Ying Yu, his brother's majesty was still very useful.

This was the only thing that was somewhat gratifying in his current very bad situation.

His younger sister, Ying Yu, although she seemed to be strong, was still very obedient in front of him.

When he insisted on going back to the mountain, Ying Yu was reluctant in every possible way, but she was finally called back by him on the grounds that his eldest brother was like his father.

Now, by his side, only Ying Yu could help him.

He had no impression of the followers left by his father at all, and he had to think carefully before he dared to order them.

"Since my brother said so, then I won't ask any more questions. Now it is rumored that you are afraid of Gu Changge, and you dare not confront him face to face, and dare not clear your suspicions..."

"After all, Gu Changge really is the root of this matter. If he speaks, it will be a lot easier for you to clear your suspicions, brother. I don't know what your plan is."

"But it is impossible for the Heavenly Emperor Mountain to be framed for no reason, especially the title of the inheritor of demonic art, which has been detained."

At this time, in Ying Yu's eyes, a trace of disappointment at Ying Shuang flashed, and she said lightly.

Hearing this, Ying Shuang's expression changed slightly, and he understood what Ying Yu meant.

She planned to go to confront Gu Changge herself, to clear the suspicion of being the inheritor of demonic art for the Heavenly Emperor Mountain.

"No, since Gu Changge has ulterior motives, how can you believe his words? You are not allowed to go."

Ying Shuang's face sank, and he felt uneasy in her heart.

He was not sure whether Gu Changge knew his secret, but the key point was that Gu Changge was definitely not a good person!

Ying Yu was so simple, who knew if she would go wrong this time?

"Why not? Brother, are you afraid of Gu Changge?"

"Although his strength is very strong, and his power is even more powerful right now, he is someone from the younger generation, and the most taboo thing for the younger generation is to compete with him... Brother, as the most important son of father, you are now being framed, and you don't even have the courage to confront them."

"To be honest, I'm very disappointed in you. This is completely different from you before."

Ying Yu frowned, her voice was very crisp and clear, cold, and not polite at all as she said everything in her heart.

Hearing this, Ying Shuang's face turned pale, and he felt like he was being pricked.

But he still forced himself to calm down, and then showed a bit of a wry smile, "Ying Yu, you misunderstood me, I actually have my own hardships."

"What's the trouble?"

Ying Yu seemed a little suspicious, but Ying Shuang seemed a little convincing while saying this.

Ying Shuang looked at her, suddenly took a deep breath, looked outside the hall, and then lowered his voice in a suspicious look, "During this period of time, during my cultivation, I accidentally cut off some of my memories..."

"What?!"

Hearing this, Ying Yu's eyes suddenly widened, she was a little unbelievable.

"Brother, are you telling the truth?"

She looked back again, trying to make sure it was true or not.

"It's true, I only told you about this because you are my most trusted person."

Ying Shuang sighed and said a little helplessly.

In fact, this was already in his plan. After all, no matter how he pretended to be, he would always be found to be flawed and different.

So he simply confessed and thought of a saying that he accidentally lost a part of his memory while cultivating.

He believed that Ying Yu would believe it, because his spirit aura had not changed, and even the weapons in his spirit had not noticed anything abnormal.

"Why didn't you tell me earlier?"

Ying Yu's eyes became very complicated.

She was relatively simple minded, although she felt strange, but she did not worry too much.

However, she understood a little bit why Ying Shuang's actions during this period were quite different from those in the past.

"I've been trying to get that part of my memory back all this time, so I didn't tell you."

Ying Shuang replied, with a sigh of relief at the same time, it seemed that this statement was temporarily concealed from Ying Yu.

"It's alright, since there is a problem with your cultivation, brother, then you can rest assured to cultivate in the temple first, and see if you can retrieve that part of the memory. Let me clear the suspicion of the inheritor of demonic arts."

After a moment of silence, Ying Yu spoke again, with a firm tone that was beyond doubt.

Seeing this, Ying Shuang's expression changed slightly, and he wanted to say something to stop her, but found that he couldn't find any legitimate reason.

If he stopped her again, it would arouse Ying Yu's suspicion.

"Okay, but you have to beware of Gu Changge. Judging from his actions of framing the Heavenly Emperor Mountain, he shouldn't be a good person, you have to be careful..."

Ying Shuang sighed slightly on the surface, but his heart was tight, giving birth to a deep sense of unease.

He always felt that something big would happen when Ying Yu went out this time.

He only hoped that Ying Yu would not easily believe Gu Changge's words.

Otherwise, there would be a lot of trouble.

"I know, don't worry, brother."

Ying Yu replied lightly, then left the hall and began to call many of her followers, ready to leave the mountain and confront Gu Changge.

.....

Outside the mountain gate of Purple Immortal Pill Sect.

Gu Changge stood with his hands behind his back, with only Old Ming behind him. Now, with his status and power, he didn't need to bring extra people.

No matter where he went, no one would dare to neglect him.

"Compared to the last time I came here, this Purple Pill Sect seems to be a little more prosperous. It seems that it should be a relationship with someone strong in recent years."

Gu Changge nodded slightly, and his eyes swept across the vast and magnificent mountains in front of him.

The scene became more and more meteoric.

In the high sky, the rays of the sun were bright, and the aura of Immortal Pills were constantly reflecting various visions.

The mountains and rivers, the palaces and pavilions, everything was magnificent.

Just when all kinds of thoughts passed through Gu Changge's mind.

"Young Master Changge, please wait a moment, Sect Master and the others are on their way."

Soon, the disciples who went to report also rushed back, with a sincere expression on their faces.

After all, the person standing in front of the mountain gate was Gu Changge!

The most astonishing and terrifying young man in the Upper Realm today!

No matter who saw him, it would probably be difficult to keep their calm.

Now, hearing that Gu Changge was coming to visit, the entire Purple Immortal Pill Sect was sensationalized, and every Elder hurriedly put down what they were doing and left to greet him.

Hearing this, Gu Changge nodded slightly, but he was not in a hurry.

"It's really an honor for my Purple Pill Sect to have Young Master Changge."

Boom!

Several divine lights arrived!

With a burst of gentle words, a beautiful woman in a palace dress brought many Elders of the Purple Immortal Pill Sect and arrived in a mighty manner.

It was Zi Yan, the current sect master of Purple Immortal Pill Sect.

Behind her was Elder Crazy Fire and others.

There was also a woman in a blue dress with a beautiful and impressive face, gentle like water, and her eyes were looking at Gu Changge with surprise.

It was Lin Qiuhan, whom he hadn't seen for a long time.

Her cultivation had reached the King Realm. Although she was not as good as many young supreme beings, she was not sure how much stronger she was than when she was in the Lower Realm.

Of course, the most important thing was her alchemy cultivation base, which could already refine God-level medicinal pills.

The so-called God-level medicinal pills corresponded to the needs of the cultivators in the Godly Realm. False Gods, True Gods, Heavenly Gods, and God Kings were all Gods, but they were just general names.

She even had a good chance of refining the elixir for a Quasi-Sacred Realm cultivator, with the help of the Elders.

From this one could see her powerful alchemy talent.

Chapter 216-2: Feeling that something big will happen, Gu Changge rushes to Heavenly Star Realm (2)

At her age, the rest of the alchemists were still tinkering with medicinal herbs, most of which were refining simple medicinal pills.

It took at least thousands of years, or even tens of thousands of years, to refine the pills of the Godly level.

"Sect Master Zi Yan! Let me see Qiuhan."

Gu Changge nodded slightly, with a warm smile on his face.

Afterwards, he looked at Lin Qiuhan in the crowd, his smile did not change, "Qiuhan, I haven't seen you for a long time, it seems that your cultivation has improved a lot."

"Young master."

Lin Qiuhan looked at him tenderly, and was very pleasantly surprised. She never expected that Gu Changge would come to the Purple Immortal Pill Sect in person.

This made her a little flattered, and it seemed like she thought wrong that she had been forgotten by Gu Changge.

Usually, she still felt a little self-pity for she couldn't help Gu Changge, and was useless to him.

Now that Gu Changge came to see her in person, he immediately doused all these speculations.

It seemed that Gu Changge still hadn't forgotten her, but there were too many things, and he was too busy, and couldn't make time to come.

"Young Master Changge, please!"

Sect Master Zi Yan smiled and led the way for Gu Changge. The last time Gu Changge arrived, it was only one Elder who came to greet him.

But now it was her who took the lead, and the whole family went together, which was enough to show the vast difference between Gu Changge's power and status.

During this period of time, Gu Changge's limelight could be said to overshadow the entire Upper Realm.

However, her smile was a little reluctant.

In the opinion of Sect Master Zi Yan, Lin Qiuhan was sent by Gu Changge, and everyone knew what purpose he was holding at that time.

However, Lin Qiuhan's talent for alchemy was very strong, making it difficult for them to refuse.

Originally thinking of cultivating Lin Qiuhan for a few years, she would develop feelings for the sect.

But Sect Master Zi Yan later found out that their views were very wrong. In Lin Qiuhan's heart, Gu Changge had always been the first priority, and even her master and the sect were second.

It left them speechless.

No wonder Gu Changge sent Lin Qiuhan over so confidently at that time, and dared to say that he had already poured ecstasy soup on him.

This made the Elders of Purple Immortal Pill Sect helpless, and finally they could only recognize it by pinching their noses.

They also hoped that Gu Changge would forget Lin Qiuhan, so that Lin Qiuhan would understand that Gu Changge was not a good person and then they would pin her thoughts on the sect.

Everyone was eager for Gu Changge to not come.

But when he came, they had to make a very welcoming gesture.

This made the Elders of the Purple Pill Sect feel uncomfortable and depressed.

"These days, I would like to thank Sect Master Zi Yan and the Elders for their concern and care for my Qiuhan."

"This Gu is very grateful."

On the way to the depths of Purple Immortal Pill Sect, Gu Changge couldn't help but smile.

He could naturally see the thoughts of many Elders, but he didn't care.

Beside Gu Changge, Lin Qiuhan, who heard the word "my Qiuhan", suddenly turned red and her head went dizzy.

A lot of things that she wanted to say to Gu Changge were buzzing and turned into a mess.

"What can you say, Young Master Changge, Qiuhan is the descendant of my Purple Immortal Pill Sect after all, so I should take care of her."

One of the Elders had a slightly unnatural expression on his face, and he was about to scold Gu Changge for being shameless.

Therefore, Zi Yan deliberately emphasized her tone on the sentence that Lin Qiuhan belonged to their Purple Immortal Pill Sect.

Otherwise, if they spent a lot of energy and resources to cultivate Lin Qiuhan and Gu Changge took her away in a blink of an eye, wouldn't they be depressed to death?

The expressions of the other Elders were also very unnatural, unlike the beginning, who welcomed Gu Changge very much.

Gu Changge smiled disapprovingly, and looked at Lin Qiuhan who was beside him, talking about the past, and asked about her time here.

Lin Qiuhan, who was now the descendant of Purple Immortal Pill Sect, was completely incomparable with her original identity.

But from Gu Changge's point of view, she still looked the same as before, not much different.

After a few words, she was dizzy and couldn't discern the north from south.

Stupid, yet very simple.

This scene fell in the eyes of the Elders of Purple Immortal Pill Sect, which made them sigh secretly, but if they were other women, under the care and inquiry of Gu Changge it would be difficult for them to control themselves.

Soon, Purple Immortal Pill Sect held a Pill banquet for Gu Changge's sudden visit.

It was said that it was a pill banquet, but it was actually a simple competition of pill refining.

This was a form of hospitality from the Pill Dao lineages.

The outstanding disciples of the younger generation all made appearances, showing their own cultivation of alchemy.

For a while, in the sky, the rays of light were bright, and the Pill aura filled the air.

Although Lin Qiuhan was not very old, in terms of the cultivation of alchemy, she was a well-deserved senior sister of the current generation, and was considered unparalleled.

There were quite a few admirers of her, but in front of Gu Changge, they were all so filthy that they didn't even dare to lift their heads.

Soon, the banquet was over.

Gu Changge was dressed in blue clothes, gentle and elegant. After thinking about it, he bestowed the top three with some rather precious instruments, which was a lucky draw.

This move attracted the envy of the younger generation. With such wealth, he was indeed the young master of the rumored Gu family!

Many people even thought of following, and then they estimated in their hearts whether they were qualified.

Afterwards, they returned to the resting hall.

Lin Qiuhan also had the opportunity to talk to Gu Changge alone and told him about her many experiences in this short period of time.

Gu Changge responded with a smile, showing his concern, and then he revealed his purpose this time.

"Purple Extreme Elixir?"

Lin Qiuhan's expression was a little puzzled, and she had never heard of the kind of medicine Gu Changge suddenly asked about.

Judging from the name, it seemed to be related to the Purple Immortal Pill Sect.

But she practiced here for a period of time and had never heard of this name at all.

"It's okay, you are cultivating in Purple immortal Pill Sect, just pay attention to this in the future." Gu Changge smiled and didn't explain anything.

After all, the Purple Extreme Elixir was only a legend, and whether it was true or not still remained to be verified.

In addition, he still had something to leave to Lin Qiuhan.

Afterwards, Gu Changge took out a page of simple-looking pill recipes from his arms, which recorded many refining methods of a mysterious ancient pill.

"Didn't you say you've always felt useless? Then I'll find you something to do now."

"Lest you always belittle yourself like this."

Gu Changge smiled and handed the ancient pill recipe to Lin Qiuhan.

"What kind of ancient pill is this? It seems that there is nothing surprising except that it is a little troublesome to refine! Even if you comfort me, young master, please come up with some challenging pill recipes."

When it comes to the field of alchemy, Lin Qiuhan's expression suddenly changed.

She studied the recipes and found that there was nothing very difficult except that it would take some time to refine it.

She felt that Gu Changge took it out to comfort her.

Such ancient pills could be refined by many alchemists.

Gu Changge didn't need to look for her at all.

This made Lin Qiuhan a little moved, and at the same time she secretly blamed herself. During this time, she thought that Gu Changge had forgotten her, and she felt a little resentful.

How could Gu Changge, such a delicate person, be like what she thought?

She misunderstood Gu Changge!

"It's not easy to refine this ancient pill, otherwise I wouldn't be looking for you." Gu Changge smiled casually without explaining anything.

After all, a secret control technique like the treasure bottle needed such an ancient pill as a medium, and only then he could plant a rune to refine it successfully.

That was why Lin Qiuhan needed to refine these ancient pills for him.

She was of great use.

In the Purple Immortal Pill Sect, it could also save him the troublesome process of finding materials.

"Don't worry, young master."

Hearing Gu Changge trusting him so much, Lin Qiuhan immediately assured him with a serious look on her face.

Afterwards, Gu Changge stayed in the Purple Immortal Pill Sect for a few days.

Only after he left did Sect Master Zi Yan and a group of Elders sighed with relief, and Lin Qiuhan left with her many followers with a reluctant gaze.

His purpose this time was the Heavenly Star Realm that Yue Mingkong had already rushed to.

But after all, it involved the reincarnation of Human Ancestor, Gu Changge didn't intend to be too ostentatious, so as not to cause unnecessary trouble.

So Gu Changge planned to go alone.

The news to the outside world was that he was in seclusion and cultivation in the Ancient Immortal Gu Family, and while he was cultivating, he wouldn't see any outsiders.

So much so that Ying Yu, who came from Heavenly Emperor Mountain with a lot of powerful ancient clansmen, planning to confront Gu Changge, also had to return from the door.

She was stopped in front of Ancient Immortal Gu Family's mountain gate.

Ying Yu was also stubborn, so she led a group of people and waited at the gate of the mountain for more than half a month, but Gu Changge did not appear.

This made Ying Yu unwilling. As the daughter of Emperor Ying, her status was extremely noble in the entire Upper Realm, and it was inhuman.

But in the end, she couldn't even see Gu Changge once.

In front of Ancient Immortal Gu Family's mountain gate, she did not dare to be presumptuous, and in the end she could only leave with unwillingness.

During this period of time, it was the Heavenly Emperor Mountain behind her, which was increasingly considered to be closely related to the inheritor of demonic art.

Because of rumors, another person who appeared, the descendant of the Human Ancestor Hall, stopped outside the Heavenly Emperor Mountain, stood for a long time, and finally chose to go back.

As for the reason, there were all kinds of guesses, but what was finally agreed was that there was a problem with Heavenly Emperor Mountain, and the descendant of the Human Ancestor Hall had sensed the danger in advance.

This statement made the faces of many high-level officials of Heavenly Emperor Mountain turn green.

At that time, they didn't know why the descendant of Human Ancestor Hall would finally leave silently outside the mountain gate without saying a word after revealing Human Ancestor Hall's token.

Many kinds of things had caused the Upper Realm to become more and more restless.

And the Sky Family, who were good at deduction, even released news during this period, saying that the Absolute Heavenly Extermination would reappear soon!

For a time, the senior leaders of the Dao Lineages all changed their expressions and began to discuss the solution.

In the end, many Supreme cultivators, Immortal Great Teachers, and Ancient Immortal Families unanimously decided to build True Immortal Academy.

As soon as this news came out, it immediately set off stormy waves, and all of the forces were sensational.

At this moment, the Lower Realm was an endless distance from the Inner Realm of the Upper Realm.

A certain domain in the Heavenly Star Realm, in the sky.

A ray of divine light suddenly passed through, as if tearing apart the sky.

Chapter 217-1: Why did the Immortal descend to this mortal world, So as not to be like a man on the demon's way (1)

Boom!

This divine light that pierced through the sky seemed to have broken through many universes and spaces as it suddenly landed here.

After taking back the Domain Breaking Artifact, Gu Changge's figure walked from the crater.

His face was blurred, and the real face could not be seen in the fog.

His white robe was fluttering, the sleeves were wide, the immortal bones were beautiful, and he stood with his hands behind his back. His expression was calm, and he overlooked the magnificent mountains, rivers and territories below.

With such an appearance, he seemed to be more and more rich, divine and otherworldly.

"It seems that the spatial coordinates were not wrong."

Gu Changge nodded slightly and closed his eyes to perceive the laws of Heaven and Earth here.

The Heavenly Star Realm was a Lower Realm that was infinitely far away from the Upper Realm.

If Gu Changge had not depended on Yue Mingkong and followed her aura, it would be difficult for him to imagine that the reincarnation of the Human Ancestor from this life would come out of this place.

Judging from the space obstacle avoidance here. At most, cultivators at the level of the Sacred Realm could appear in this world, and the upper limit was the Great Sacred Realm.

There might also be some Quasi-Supreme existences who, due to special reasons, sealed their blood, did not choose to ascend, and were hidden in this world.

"However, since the Son of Luck like the reincarnation of the Human Ancestor could be born here, this world must not be too simple. The world's fortune in the first place seems magnificent and prosperous."

While Gu Changge was talking to himself, a mist rose up all over his body, which became more and more vague and mysterious.

Unless it was someone who was particularly familiar with him, it would be difficult for someone to recognize him by this appearance.

In the Heavenly Star realm, apart from Yue Mingkong and the people she brought, there should be no one who would recognize his identity for the time being.

But to be on the safer side, Gu Changge still didn't plan to reveal his true face easily.

Otherwise, before this, he might startle the snake.

At the same time, Gu Changge also wanted to prevent Yue Mingkong from noticing something, and also prevent the powerhouses in this world from noticing the abnormality.

After all, the people from the Human Ancestor Hall would find them sooner or later. If they found out that Gu Changge was also here... it would be very troublesome to explain.

At that time, his intentions toward the reincarnation of the Human Ancestor would become very dangerous once exposed.

It was even more detrimental to his plan to replace the Human Ancestor.

"The most urgent task now is to understand the information of this world, and then find out where Yue Mingkong is... Since she came to this world first, she should already know something."

Gu Changge guessed in his heart.

And soon, he also had a careful plan in his mind.

"The light just now...how could it be human?"

"Could this be an Immortal from the Upper Realm?"

At this time, many creatures and cultivators who were attracted by the divine light appeared from all directions.

They looked at Gu Changge in front of them in shock and astonishment, who obviously hadn't reacted yet.

The divine light soaring into the sky just now seemed to tear the sky apart, and the momentum was terrifying. The forces and cultivators in a radius of nearly 10,000 miles were aware of it.

"Greetings to the Immortal!"

"Greetings to the Immortal!"

After that, many people bowed their heads with great piety and respect, as if witnessing the legendary Immortal descending to the earth.

Indeed, Gu Changge's body was drenched of celestial light making him seem extraordinary and unpredictable.

In their eyes, this was no different from the exalted mentioned in the classics and rumors.

At first, they were all attracted by the divine light here, thinking that some artifact appeared but the vision was shocking.

Yet they didn't expect to see such a mysterious man in white.

This man's cultivation base was unfathomable. Just standing there, there was a feeling like he was the center of the world, which made their hearts palpitate.

The rumors of ascending to the Upper Realm had always been circulating no matter which Lower Realm they were in, so they naturally knew the existence of the Upper Realm.

The so-called soaring was easy, but descending to the Lower Realm was difficult.

They also understood this.

So in their opinion, the mysterious young man in front of them was far more powerful than any old monster that was about to ascend, thus they naturally treated him as an Immortal.

"Can we ask why Mr. Immortal came to this mortal world?"

At this moment, some brave cultivators asked Gu Changge.

His expression was extremely respectful, revealing a strong sense of awe and caution, for fear that one would accidentally offend the other party.

Gu Changge's eyes swept across the many cultivators and creatures who were shocked, but he was not surprised.

Even with the use of a Domain Breaking artifact, its momentum in the Lower World was still astonishing. It would be detected from at least within a radius of 10,000 miles.

Before that, Gu Changge had already figured out the countermeasures, so he didn't care.

"Is this Heavenly Star realm?"

Now, hearing their words.

Gu Changge's eyes moved slightly, and he quickly understood the language of this world as he asked lightly.

Understanding the language of this world was not a problem for him as a cultivator in the Sacred Realm.

"Mr. Immortal, this realm is indeed Heavenly Star realm."

The cultivator who asked Gu Changge just now was a bearded man with cultivation in the True God Realm.

Within a radius of tens of thousands of miles he was also a hero, and his sound was shocking.

Hearing this, he immediately said with great respect.

The rest of the cultivators and creatures which appeared in all directions, watched this scene with their mouths tightly closed, daring not to make a sound, so as not to disturb this Immortal.

"Oh, looks like I'm in the right place."

Gu Changge nodded, his expression very calm.

Hearing this, everyone's heart suddenly tightened.

Needless to say, how difficult it was to go to the Lower Realm, it was thousands of times more difficult than flying to the Upper Realm.

As a result, the Immortal in front of him just said that he was in the right place.

It seemed that going to the Lower Realm was only a very simple thing for him, and he could do it with a wave of his hand.

Thinking of this, everyone was even more in awe of Gu Changge, their heads were almost down to their necks, and they didn't dare to look up.

Gu Changge's indifference with a high-spirited look that didn't put everyone in the eye was very normal to them.

Although the voice was very young, it might be the kind of great power of eternity who had been practicing for countless years.

It was already a great grace that ants like them could talk to such an existence.

"Tell me about this world."

Afterwards, Gu Changge glanced at the middle-aged cultivator in front of him, and said.

"Reporting to Senior Immortal..."

The middle-aged cultivator was shocked, and he didn't dare to ask any more questions, and he didn't dare to hide anything.

Afterwards, he honestly explained it to Gu Changge in front of everyone.

At the same time, he breathed a sigh of relief.

After all, many powerful beings with eccentric personalities would not waste time asking like Gu Changge.

They usually grab people directly and conduct a soul search.

Therefore, he subconsciously believed that the Immortal in front of him had a relatively good personality, and was not someone who killed innocent people indiscriminately.

"The Heavenly Sacred Realm is divided into the eight domains, and the place where we are now is the Xuan domain."

"Xuan domain is boundless, with vast terrain. There are large forces that have been inherited for hundreds of thousands of years, or even close to a million years. There are many Ancient Clans, Sacred Places, and Sacred Mountains..."

"The ruler is a force called Taixu Sect. Their ancestors flew to the Upper Realm 800,000 years ago, leaving behind their cultivation technique."

"In addition to this, there are three major forces that compete against each other, but these forces are slightly inferior to the Taixu Sect."

Soon, Gu Changge's eyes flashed slightly, and he also understood some power information from the explanation of the middle-aged cultivator.

It was similar to the routine he had always known.

And the reason why he didn't directly use the method of searching souls was mainly because he found it troublesome.

After all, there were many people here, and he had just entered the Realm, and many things had not yet been arranged. Although such a ruthless method was simple and convenient.

But it also seemed that he cared about someone like a man in the demon's way.

And it was not good for his next plan.

If he wanted to know the whereabouts of the reincarnation of the Human Ancestor, relying on one person's strength was definitely not enough.

He didn't know what methods Yue Mingkong had.

But what Gu Changge had to do was to first control the strongest forces in this domain for his use.

As for the excuses that were easy to control, it was to find some broken forces waiting for revival, and then slowly develop and grow, it was purely a brain problem.

Wasn't it useful to directly control the already developed forces?

If one couldn't control it, it was purely a matter of lack of ability and means.

Gu Changge also didn't understand why among those developmental routines in the previous life, they always liked to start from the bottom.

He also thought that it was not good either.

"This Xuan Domain, and it seems to be just right."

Afterwards, Gu Changge nodded, his expression still flat, and asked, "Where is the Taixu Sect?"

"This deity and their Ancestor are old acquaintances, and I owed him a favor back then. Now while passing through this world, I happened to repay this favor together."

"Guide this deity, and I will reward you."

As he said that, a terrifying seal with runes shrouded in golden light appeared in Gu Changge's palm, filled with a palpitating sacred prestige.

His voice was flat, without ups and downs, as if he was talking about something small and unimportant.

But in the ears of many cultivators and creatures nearby, there was undoubtedly a thunderous explosion, which made their heads buzz, and they were extremely shocked and horrified.

Chapter 217-2: Why did the Immortal descend to this mortal world, So as not to be like a man on the demon's way (2)

Especially looking at the big golden seal in Gu Changge's palm.

Everyone suddenly sucked in cold air, their eyes widened, filled with fiery light.

Hiss!

Did they hear it right?

That was a divine artifact!

Just show the way and be gifted with a divine weapon, what kind of terrifying identity was this?

One must know that the power behind them had been passed down for tens of thousands of years, and there was at most one Divine artifact or even Divine King artifact as their trump card.

As a result, the mysterious High Immortal in front of him gave this kind of thing at will.

What kind of wealth was that?

For a time, their eyes were turning green, and they were so jealous that they went crazy, and they almost shouted that they were willing to lead the way.

"What? Immortal has something to do with Taixu Sect?"

Hearing this, the middle-aged cultivator in front of Gu Changge was stunned for a moment, as if he didn't react.

Immediately afterwards, he displayed a burst of ecstasy, looking extremely shocked and excited.

Because of his identity, he happened to be an Outer Sect Deacon of Taixu Sect. He was ordered to guard an Ancient city and was the city ruler.

Today, he saw the divine light rushing into the sky in the great wasteland, thinking that the Divine artifact was born, so he hurried to this place.

That was what happened just now.

He didn't expect that his luck would be so good. The mysterious and incomparably High Immortal in front of him actually had an old relationship with the Ancestors of their sect.

One must know that their Ancestors 800,000 years ago were like a mythical figure!

Didn't that mean that the Immortal in front of him was also a figure from that era?

Thinking of this, this middle-aged cultivator with a full beard was filled with awe.

He also doubted whether Gu Changge would be their Taixu Sect's enemy, who came to attack from the Upper Realm, to destroy the lineage left by their Ancestors.

But the possibility of this was very small.

Gu Changge could descend to the Lower Realm, how terrifying his strength was? it was simply a matter of convenience.

Did he need to go through such a big fuss?

This was obviously a close relationship with their Taixu Sect Ancestors!

"Mr. Immortal, there is no need for the Divine artifact. This villain does not deserve to have such things. Since you are going to Taixu Sect, it is just right, the villain can lead you."

"Because the villain happens to be a Deacon of the Outer Sect of Taixu Sect, and the dog is also a famous genius in Taixu Sect."

The middle-aged cultivator's name was Zhao Wu. Looking at Gu Changge at this moment, he said with a humble and flattering expression, and immediately began to call himself a villain.

It was extremely difficult for him to look away from the Divine artifact in Gu Changge's hands.

Not to mention that there were so many cultivators watching here, even if he wanted it, he couldn't keep it.

After all, this was a Divine artifact!

Although it was extremely rare, it was extremely attractive and if he was not careful, it would lead him to his death.

Many forces were short of Divine weapons to guard their heritage. If they knew about this, they would definitely try their best to grab it.

Did they still expect this Immortal to protect him? Dream it.

Secondly, he felt that a Divine weapon that was unstable was not as valuable as the one that was valued by the Immortal in front of him.

At this moment, listening to what Zhao Wu said.

Many cultivators and creatures were also extremely shocked.

Within a radius of 10,000 miles, Zhao Wu, as the city lord of Heiwu City, had always been known for his ruthless methods.

Now that he called himself a villain in front of Mr. Immortal, they were not surprised.

It was just that they didn't expect that he would take the initiative to give up such a handy Divine weapon. It really made them envious and jealous!

"Oh? Little True God, are you actually indifferent to a Divine artifact?"

Gu Changge seemed to have a slight appreciation in his dull eyes at this time as he nodded and said,

"Not bad. Lead the way, then."

With just a look of admiration, a person in this small world would do things for him with all his heart, it was not a loss if you think about it.

Hearing this, Zhao Wu's face immediately displayed ecstasy, and he saw Gu Changge's slightly admiring expression.

This was extremely important to him!

He still knew very well which one was more important when he gave up a Divine artifact to gain the attention of this Immortal.

Maybe today was his chance to soar!

Thinking of this, Zhao Wu was even more excited.

Of course, they didn't know at all that Gu Changge never planned to give out the Divine Artifact from the beginning to the end.

After all, Gu Changge swept away at random just now, and found that there were many cultivators in front of him, and the strongest one was only in the realm of True God.

So who had the courage to ask for this Divine artifact?

And Gu Changge's purpose was just to make everyone understand that he had a very close relationship with the Ancestors of Taixu Sect, and he could even give away a divine artifact.

Of course, he didn't know or wasn't interested in who the Ancestor of Taixu Sect was.

What Gu Changge wanted was just such a justifiable reason, so that Taixu Sect could relax its vigilance and save a lot of time for his next plan.

Presumably the entire Taixu Sect did not know when their Ancestors had friendship with Gu Changge.

The matter of the Upper Realm was not something Gu Changge would interfere with. They knew that even if they believed... or not, it would not affect Gu Changge at all.

Afterwards, there was a divine light here.

Zhao Wu led the way for Gu Changge to return to the ancient city where he was stationed.

There was a teleportation formation to the Taixu Sect, which was for returning to the mountain gate.

He had expected that he would be valued by this Immortal, and his identity would rise in Taixu Sect.

This made Zhao Wu extremely excited and delighted.

A city lord who was in charge of an ancient city with a population of one million, in front of Gu Changge, was like a dog hugging master's leg, very humble and flattering.

People who didn't know the whole story would think that their eyes were dazzled and they were having hallucinations.

However, many cultivators and creatures were still very envious of this, they only hated the fact that they were timid at the time, and didn't go to ask a question first.

Maybe the dog beside Gu Changge now would be them!

"One slip of a step can lead to eternal hatred!"

Many people beat their chests and feet, and missed a good opportunity to hug the thigh of this Immortal.

And soon, what happened in this great wasteland, as if it had grown wings, spread rapidly among the Major Ancient Cities and forces, causing a huge sensation.

An Immortal who descended from the Upper Realm, mysterious and terrifying, beyond words.

He had an old relationship with the ancestor of Taixu Sect and owed him a favor, and was now heading to Taixu Sect.

This matter was like a meteorite smashing into the deep sea, quickly setting off a terrifying frenzy, like a big earthquake!

The cultivators who heard the news were all shocked, their eyes widened, and they were dumbfounded.

The Taixu Sect was now a powerful force in the Xuan Domain, with a strong foundation and profound strength, and it was vaguely known as the top sect.

If there were no other three sacred places to compete with it, then presumably the entire Xuan Domain would become the world of the Taixu Sect.

But now, there was a strong Immortal who had come, and he was a friend of their Old Ancestor.

This news made the other three Sacred places despair, and felt that their good days to compete with the Taixu Sect were coming to an end.

After all, there were many cultivators and creatures who witnessed this incident with their own eyes, so they couldn't be fake.

The white robe of the High Immortal fluttered, his face was blurred, and the immortal mist was lingering, and his head and feet were full of otherworldly auras, as if even the heavens and the earth could be covered by his palm.

Under such astonishing rumors, it caused huge waves in the entire Xuan Domain.

On the other side, the flood domain, that was hundreds of millions of distances away from Xuan domain.

In an incomparably tall ancient city, Yue Mingkong, dressed in plain white clothes and wearing a veil on her face, was in a quiet and remote pavilion.

She frowned slightly, crossed out the names of some forces in her hands, and muttered to herself.

"According to the timeline, reincarnation of the Human Ancestor at this time should have been a little famous. Why have I investigated so many forces and have never seen a genius with such a name."

In fact, she didn't know the exact location of the reincarnation of the Human Ancestor.

The only way to do it was to exclude one by one by name.

The information she had was only two points.

One was the name of the reincarnation of the Human Ancestor in this life, Jiang Yang.

The second was that the reincarnation of the Human Ancestor had a certain powerful physique, which was suspected to be a rumored Holy Body.

But she didn't know exactly what kind of physique it was.

Therefore, Yue Mingkong subconsciously thought about which extremely famous genius would be.

But she searched for the forces in the whole Domain but she had never heard of such a name.

Yue Mingkong was a little worried for a while, and planned to go to other domains to look for it.

"Emperor Chu, news suddenly came from Xuan, saying that there is a powerful existence in the Lower Realm, who seems to have some origins with the Ancestors of Taixu sect in Xuan Domain..."

At this time, outside the pavilion, there was a sudden wave of subtle fluctuations.

Then, the report sounded.

"Xuan Domain?"

Yue Mingkong frowned slightly.

The location of the Heavenly Star Realm was very remote, and there were almost no Dao Lineage and large churches in the Upper Realm that noticed it.

So she came quietly to the lower world, and did not attract anyone's attention, and even concealed it from Gu Changge.

So Yue Mingkong didn't care about this news, thinking that it was just a coincidence.

The ancestor of Taixu Sect, was probably someone from hundreds of thousands of years ago, and had nothing to do with her at all.

At this time, the Human Ancestor Hall might not have found this place.

Yue Mingkong was slightly relieved.

"The famous place of extreme sun in the Heavenly Star Realm, you must also pay attention to it. According to rumors, the Nirvana Green Lotus that grows in it seems to be very important to the reincarnation of the Human Ancestor."

"It can help the Human Ancestor's reincarnation to undergo physical transformation."

She began to think about her next plan, but it was really impossible. First, she had to search all the eight Domains.

After all, she quietly descended to the Lower realm this time, and she brought enough manpower, all of which were powerful, and there was no problem in sweeping one side.

Chapter 218-1: Taking the initiative to use it for yourself is equivalent to condoning the evil (1)

When the whole Xuan Domain was in a commotion because of the arrival of the Immortal.

At this moment, in Taixu sect.

Among the layers of pavilions, in the middle of the magnificent and tall hall.

The atmosphere was serious and solemn.

The current Sect Master and many Elders were gathered here, with a respectful expression on their faces, with a bit of curiosity and doubt.

Above them were several Old monsters who had emerged from seclusion after hearing the news.

At the same time, they were the incomparably powerful existences of Taixu Sect over the years, and they would not easily show up.

Today, they were awakened by the shocked Sect Master and rushed to the main hall, wanting to preside over the entire situation.

After all, the news was so shocking that they had to take it seriously.

Outside the main hall, there were outstanding disciples of the Taixu Sect's current generation, young geniuses and other figures.

They were equally curious and shocked.

Looking at it, Gu Changge, who was closing his eyes and resting, had an unusually calm and indifferent expression as he didn't care about the outside world at all.

With awe and wonder.

"Is this the one who was rumored to be the Immortal?"

"Aloof like he's located in another world, and we are not on the same level."

"It's terrifying. It's the first time I've seen such a character."

A proud woman said with shock and yearning in her eyes.

"This kind of existence is simply unfathomable, but just an inadvertent wisp of aura can make people unable to help but tremble. It is much more terrifying than when facing someone from the Sacred Realm at the beginning."

"I am afraid that the Immortal has already heard about us and it was because of our Ancestors!"

They were talking in a low voice, and when they heard the rumors, they were extremely shocked.

A person who had friendship with the Ancestors from 800,000 years ago actually arrived at the Lower Realm in person and said that he would repay the favor.

It was so amazing, they wouldn't even dare to imagine it if they hadn't seen it with their own eyes.

Gu Changge didn't pay any attention to these words of admiration, flattery.

To be honest, he kind of hoped that someone would jump up and question him at this time, so as not to make this boring and uninteresting.

"Reporting to the Sect Master, this is the way things happened."

In the hall, Zhao Wu looked excited, his voice trembled, as he reported everything that happened.

He led the way for Gu Changge to Taixu Sect.

Although Gu Changge didn't say anything on the way, he could feel that Gu Changge still appreciated him a little.

Therefore, Zhao Wu spared no effort to tell and restore the scene when Gu Changge descended to the Lower Realm.

No one suspected that this was false, but, like Zhao Wu, they were equally excited.

"I wonder what the name of the senior is?"

Hearing this, the Sect Master of Taixu Sect also reacted quickly, and his voice trembled slightly.

There was no doubt that Zhao Wu's words were true.

The Ancestor of Taixu Sect was also a legendary figure, who left a splendid name in Xuan domain and even in the Heavenly Star Realm.

It must be a normal thing to be able to get to know someone like Gu Changge after flying up to the Upper Realm.

After all, even the old antiques behind him couldn't notice the depth of Gu Changge's cultivation.

It could be seen that Gu Changge was powerful!

This convinced him of his guess.

"No need to talk about the title."

At this moment, Gu Changge finally opened his eyes, his expression was flat with a hint of impatience.

Between the words, he seemed very lonely and indifferent.

He swept over everyone in the hall, and his gaze made the old antiques in the Sacred Realm feel heartbroken.

Their souls were trembling, and they couldn't help but take a few steps back, unable to bear this look.

Not to mention the rest of the people, who almost collapsed under this aura.

"I will return the favor of Chu Taixu today. This is the cultivation method of Taixu's creation. It is the method that your Ancestors deduced with me that day. It was difficult for him to descend on the Lower Realm. Today, I will teach you this method for his sake."

Gu Changge said lightly with a calm expression on his face.

The name Chu Taixu was what he saw when he entered the Taixu Sect and casually glanced at the magnificent statue on the square.

According to the routine, if there was no accident, this was the name of the Ancestor of Taixu Sect.

Gu Changge's nonsense was not without basis.

Hum!!

Then, with a wave of his hand, ancient golden runes suddenly appeared in the void in front of him.

It seemed that the vast and deep galaxy was constantly evolving and deducing.

Seeing this scene, everyone in the hall held their breath.

The young disciples outside the hall also widened their eyes and breathed faster.

They really did not expect that this High Immortal would be so direct.

An extremely precious scripture was directly displayed in front of everyone as it manifested in the void.

At this moment, everyone stared at those ancient runes without blinking, trying to gain insight into its true meaning.

"It's not as simple as... the Holy Scriptures..."

"Contains the true meaning and mystery of transcending the Sacred Realm..."

Soon, an old antique of the Sacred Realm noticed the mystery, opened his eyes wide, and exclaimed in disbelief.

He was extremely excited.

Seeing this, the rest of the people stared at it for a moment, for fear of something falling.

They never doubted whether Gu Changge's words were true or not. After all, who would go through so much to come here, just to give this scripture.

Unless there was a problem with their brain.

Gu Changge's attitude gave them a feeling of belief, but this was what they thought a superior person should have.

And after giving this scripture, Gu Changge quietly closed his eyes again, no matter what, he didn't say much.

In the eyes of everyone, this was the image of an Immortal, aloof, withdrawn and indifferent.

But Gu Changge's mind was filled with various thoughts, and he was very interested.

A sentence was right, there was no free lunch in the world, and there was no big pie that would fall from the sky.

The Taixu Creation Method was naturally something he named.

The purpose was to deceive these idiots to practice it.

Although Gu Changge's plan looked rough and simple, in fact, no flaws could be found in every step, even in the exercises.

Even if it was a cultivator in the Quasi-Supreme Realm, at this time, they had to be recruited and practice this method obediently.

Of course, at this time, ordinary people would definitely not doubt anything as they would hold the attitude of benefiting and wanting it for nothing.

And in terms of control, this cultivation technique bestowed by Gu Changge was even more effective than slave seals.

It was exactly the same as the Immortal Binding technique.

The Taixu Sect had been passed down for hundreds of thousands of years, and it was deeply rooted. If Gu Changge wanted to occupy it directly, it would take a lot of effort.

If he directly oppressed it by his own cultivation, it would inevitably arouse strong resistance, and it might even attract the attention of other forces at that time.

That would be contrary to Gu Changge's original intention.

After all, the purpose of his visit to the Lower Realm this time was mainly for the reincarnation of the Human Ancestor, and before that, he had to keep a low profile.

That was why he used this method to let Taixu Sect take the initiative to cultivate and use it for him.

Soon, under Gu Changge's plan, everyone in the hall more or less noted down this scripture.

The same was true for many young disciples outside the hall.

His expression was calm, but he was actually sneering in his heart.

The Sect Master of Taixu Sect was even more scheming. Hearing that this was deduced by their Ancestors and Gu Changge together, he immediately took action and traced it down, preparing it as an inheritance and leaving it for later disciples to cultivate.

In just a short time, they already knew that the mystery of this cultivation technique far exceeded any cultivation technique they had practiced before.

Gu Changge also didn't seem to care about their general appearance, which made the Taixu Sect Master relieved.

"Mr. Immortal is so kind, we are grateful."

"We are grateful!"

Soon in the hall, and even outside, such grateful voices sounded.

They admired Gu Changge's act of personally bestowing the cultivation technique to the Lower Realm for the sake of a favor, thinking that this might be for the so-called Dao heart!

"In this way, my favor with brother Taixu has been settled."

Hearing this, Gu Changge said with a fleeting and intriguing expression on his face.

Afterwards, Gu Changge lived at the highest peak of Taixu Sect with peace of mind, despite the intentional stay of the Sect Master of Taixu Sect and others.

But within a few days, the control effect of this cultivation technique started to take effect, and the scope quickly enveloped the entire Taixu Sect, and even the Ancestor with the strongest cultivation base in the Taixu Sect was also involved.

The cultivation of the Sacred Realm could simply sweep through the entire Xuan domain.

Any one in the Great Sacred Realm was almost invincible!

Chapter 218-2: Taking the initiative to use it for yourself is equivalent to condoning the evil (2)

But without exception, they could not resist the temptation of this cultivation technique.

As a result, in the entire Taixu Sect, except for those unqualified disciples who were not accessible, the rest began to practice this cultivation technique.

This scene looked very similar to Gu Changge.

Wasn't this the case when he controlled the Black Heavenly Eagle Clan and other groups in the Ancient Immortal Continent?

It was just that the Elders and disciples of Taixu Sect had not noticed it at all. They were still excited, and they felt that there were signs of a breakthrough in their cultivation.

Gu Changge was slightly amused and did not choose a showdown.

Then, he directly controlled the Sect Master of Taixu Sect through this cultivation technique, and ordered a series of instructions.

In the entire Xuan domain, nearly half of the domain was actually under the control of the Taixu Sect.

And now it was like everything was under his control.

The first thing Gu Changge had to do was naturally to search for people with great Luck everywhere, the reincarnation of the Human Ancestor was definitely hidden in them.

As a giant force in the Xuan domain, Gu Changge received a lot of news after the layers of the Taixu Sect's search.

But it wasn't enough. In order to further narrow the scope, Gu Changge thought of Jiang Chuchu who was trapped in the inner world by him.

There should be many means on her body to determine the reincarnation of the Human Ancestor.

.....

Hum!!

Inside the inner world, on a huge bluestone.

Jiang Chuchu, who was sitting cross-legged with her eyes closed, her whole body shrouded in a layer of fairy light, suddenly felt a layer of spatial fluctuations.

She opened her eyes suddenly.

In her cold eyes, there was hatred and killing intent.

Then it quickly returned to calm, as if the expression just now was an illusion.

A layer of ripples spread as Gu Changge's figure walked in, not paying any attention to her expression.

Jiang Chuchu closed her eyes, did not look at him, did not want to see this man who gave her endless humiliation.

"Open your eyes and look at me."

Gu Changge spoke lightly with a tone that could not be resisted, "You are very clear about the consequences, if you go against my will here, you will be worse off than dead."

Jiang Chuchu gritted her teeth and looked at Gu Changge.

She understood the consequences and didn't dare to disobey his words at this moment, and said coldly, "Gu Changge, what the hell do you want to do with me, you demon?"

All this time, she has been thinking of ways to break out of this world.

But she had been unsuccessful, and even despaired for a while, feeling that she could only be trapped here for the rest of her life.

And now there was someone in the outside world, walking in the world with her identity, colluding with Gu Changge, and causing chaos in the world.

But she was powerless to resist at the moment, there was nothing for her except suffering.

The only chance was the forbidden palace within her Sea of ???Consciousness, but with her current cultivation level, she couldn't touch it at all, let alone use its power.

As for surrendering to Gu Changge?

That was even more unlikely. She would rather die of old age, or get tortured to death!

"Tell me how to find the reincarnation of the Human Ancestor." Gu Changge went straight to the point, and was too lazy to talk nonsense.

Hearing that, Jiang Chuchu's expression changed slightly, and she couldn't believe it.

Not only did Gu Changge find someone to pretend to be her, but now he even had the idea of ?scheming against the reincarnation of the Human Ancestor?

He is so brave!

"I have no idea."

Jiang Chuchu directly shook her head, saying that he had no choice.

"Oh, you really don't know or are you pretending that you don't know?" Gu Changge couldn't help laughing.

"If I knew where the reincarnation of the Human Ancestor was, I would have gone to find him long ago, why would I be trapped here by you?" Jiang Chuchu said coldly.

When she thought of this, she felt that she was totally destroyed in the hands of this demon.

This gave birth to a burst of sadness and hatred, wishing her to die.

"As a descendant of the Human Ancestor Hall, don't you know? Saintess Chuchu, it's come to this point, do you still think you have the possibility of getting out of this?"

Gu Changge said lightly, mocking mercilessly.

Jiang Chuchu said calmly, "So what if I can't get out of this? Even if I knew, I wouldn't tell you. I won't help my enemy, so just give up Gu Changge."

At this moment, she didn't know that Gu Changge had left the Upper Realm and rushed to the place where the reincarnation of the Human Ancestor would appear.

Because even she didn't know anything about it.

The search for the Human Ancestor relied entirely on the secret methods and instructions of Human Ancestor Hall, as well as her talent.

And most of the time, there was no need for the Human Ancestor Hall to intervene. The reincarnation of the Human Ancestor would stand out from all kinds of trials and battle, and it was dazzling enough to overwhelm his peers.

Gu Changge frowned, it seemed that Jiang Chuchu really didn't know.

After all, in his inner world, Jiang Chuchu's subtle emotional fluctuations could not be concealed from his perception.

The most important thing was that, in his opinion, the secret method of the Human Ancestor Hall was not as easy to use as the system's exploration.

From the number of Luck points, he could judge easily.

But in this way, it was tantamount to looking for a needle in a haystack.

Before that, Jiang Chuchu, like him, had never seen the reincarnation of the Human Ancestor .

"Gu Changge, do you already know the place where the reincarnation of the Human Ancestor appeared?"

At this time, seeing Gu Changge's expression, Jiang Chuchu couldn't help but slightly change her expression, and guessed.

Gu Changge's speed was actually faster than the Human Ancestor Hall?

How on earth did he do it?

"Not only do I know, I'm already there."

At this time, Gu Changge had nothing to hide.

He smiled lightly, with a bit of interest, "Why, are you worried that the reincarnation of the Human Ancestor will be found by me and get killed first? If you ask me, I might be able to give him an easier way to die."

Hearing this, Jiang Chuchu suddenly felt a chill on her back, her face paled, and she felt an understatement of terrifying murderous aura.

"You can't even think of the means that the Human Ancestor possesses. Even if you can kill the reincarnation of the Human Ancestor in this life, there are other ways for him to return. You can't fight the Human Ancestor."

She couldn't help but say this, by growing up in the Human Ancestor Hall since childhood, she understood how powerful the Human Ancestor was, almost omnipotent.

Although Gu Changge had the upper hand from the current point of view, it was still impossible for him to be the opponent of the Human Ancestor who had been reincarnated countless times.

At this time, Gu Changge couldn't help but sneer and said lightly,

"Speaking of which, I'm your man anyway. If I get killed by the Human Ancestor will you stay indifferent?"

"I really don't know what kind of fascinating soup the Human Ancestor Hall gave you. It's just the Human Ancestor, and it makes you look in awe. Jiang Chuchu, what was the purpose of your cultivation since childhood?"

"To be a tool man of the Human Ancestor?"

"You are despicable and shameless..."

Hearing Gu Changge's first sentence, Jiang Chuchu's complexion suddenly changed, and she couldn't be as calm as before.

He was so shameless that he still had the face to say it.

Gu Changge had an indifferent attitude.

However, these words still made her a little confused... Gu Changge was right, what was the purpose of her cultivation since she was a child?

And no matter what, the relationship between her and Gu Changge had become very complicated.

She hated Gu Changge to the core.

Because Gu Changge, as the inheritor of demonic art, had caused chaos in the world, she was obliged to clean up everything for the common people and restore peace.

This was the concept that was instilled in her childhood.

"You are just a tool for someone, you haven't considered living for yourself?"

Seeing Jiang Chuchu in confusion at this time, Gu Changge didn't think it was a big deal, he smiled and said so.

"A tool for someone? Wang Ziji also said this to me at the beginning, saying that she is not a tool."

Jiang Chuchu was slightly stunned, and quickly drove these distracting thoughts out of her mind.

Her expression returned to calm, and she looked at Gu Changge coldly, "But I am a descendant of the Human Ancestor Hall. The purpose of my birth is to maintain the justice of the people, the peace of the world, and to kill a demon like you."

"Oh, then I'm standing here, but do you have the ability to kill me? You're trash, and you have the guts to speak madly." Gu Changge sneered, looking very disdainful.

"You can't even kill me, how dare you maintain justice in the world? How many people in this world are virtuous and act justly?"

"Why didn't I see you kill them?"

In his opinion, Jiang Chuchu's Dao heart was not stable.

There was a great opportunity.

"You....."

Hearing this, Jiang Chuchu's expression was suffocated, and she almost gritted her teeth.

It was the first time she was scolded as trash, but she couldn't refute it.

"Am I wrong? You're just a piece of shit, staring at me alone, but you can't do anything, and you don't care about other people who are doing the real evil deeds."

"When you say that you are like this, is it the same as condoning the evil in this world? Is it worthy of your identity?"

"What's the difference between you and me?"

With a slight smile, Gu Changge asked such a rhetorical question, with sincerity in every word.

He found an interesting thing, part of the Luck of the reincarnation of the Human Ancestor would be damaged by Jiang Chuchu's unstable Dao heart.

It seemed that the fate of the reincarnation of the Human Ancestor was related to the creatures in heaven and earth who revered him.

Hearing these words, Jiang Chuchu's face became paler for a while.

Chapter 219-1: The routines are too old, he should come up with new tricks, Building the immortal road to the sky (1)

Through Jiang Chuchu's body, Gu Changge saw the plan against the human ancestor.

The faith of the beings in heaven and earth was a great source of luck for the human ancestor.

And such a thing as faith was very illusory.

The means of smearing sounded easy, but when implemented, they were actually very unrealistic.

If the plan to replace the human ancestor failed, Gu Changge would consider this, reversing right and wrong, confusing black and white, this kind of thing was something he was always good at.

"That said, the merits of the human ancestor is not that easy to discredit, after all, it's kind of a brilliant role, if I really want to stain it, it's not going to be easy, in the history of the long river of time, many truths were covered up."

"Human Ancestor Hall prefers to establish such an image, so that the beings of heaven and earth would worship and chant for them."

"It's not like it's not rewarding, maybe this guy's cultivation style of the human ancestor is related to faith."

Afterwards, Gu Changge left the inner world and went back inside the Taixu Sect.

From Jiang Chuchu, he didn't get any effective method, but the scope of the Heavenly Star Realm was only eight domains.

There was no hurry.

If the forces of the Human Ancestor Hall really wanted to descend into this realm, he could consider ambushing a handful of people and finishing them off here.

The actual location of the reincarnated body of the human ancestor could not be found by Jiang Chuchu, but she could sense the people of the Human Ancestor Hall.

Gu Changge would have all the means to make her talk.

"In addition to that, it is necessary to keep an eye on the whereabouts of Yue Mingkong....."

Gu Changge closed his eyes, the eyes on Yue Mingkong, again played a great role at this time.

Soon, he sensed the exact area of Yue Mingkong.

Flood domain.

It was at least a hundred million miles away from the Xuan domain where he was now, so it wasn't too much trouble if he wanted to rush there.

He just didn't plan to show himself in front of Yue Mingkong.

In the following days, the whole Xuan domain was in a terrible turmoil.

A profoundly cultivated and mysterious superior immortal descended to the Taixu Sect, and even had an old relationship with the ancestor of the Taixu Sect from 800,000 years ago.

This news swept all around.

For a while, it caused the other three major powers to become anxious and precarious, fearing that the Taixu Sect would suddenly attack and unify the entire Xuan domain.

After all, in this situation, no matter who it was, one would certainly swell up with ambition.

The Taixu Sect was already strong and domineering, and now with this Supreme Immortal sitting on top of them, they would not make a move towards the rest of the forces?

In everyone's opinion, it was only a matter of time.

And soon, along with an oracle that came out from the Taixu Sect, the entire Xuan Domain was in uproar.

"The Xuan domain needs to be unified."

It was a very simple, understated voice, delivered by the Taixu Sect Patriarch himself.

Hearing this news, all cultivators and creatures were shocked and stood frozen in place.

To them, it seemed that although it was transmitted by the Taixu Sect Patriarch, it was clearly the meaning of that Upper Immortal.

That mysterious superior immortal was going to help the Taixu Sect unify the Xuan domain!

Soon, this news quickly swept through like a big earthquake!

One of the other three forces in the Xuan Domain, the Heavenly Forest Sect.

Inside the main hall.

The current Saint Lord of the Heavenly Forest Sect was speaking to a group of elder disciples in front of him with a grave expression, saying.

"The Taixu Sect will definitely not let us go, that superior immortal can easily break the barrier of realms, his strength is absolutely unfathomable, reaching an unknowable realm."

"Even if we wake up our oldest ancestors, it probably won't help. Now it has reached a critical moment of survival....."

His voice was heavy, as was his mood, and he slowly finished these.

"How can this Taixu Sect be so lucky that such a terrifying superior immortal has descended to help them!"

"I'm not willing! Could it be that the foundation of my Heavenly Forest Sect for hundreds of thousands of years is now going to be destroyed?"

"Why? Why? Isn't it good to stay in the upper world? Why did he have to come down to....."

"He's clearly an immortal from the nine heavens, why is he in this mortal world? Meddling with the affairs among the mole crickets."

Hearing these words, many elders had a face of despair.

They did not want the sect that they had painstakingly operated for hundreds of thousands of years to fall into the hands of the Taixu Sect, nor did they want to submit to the Taixu Sect, but what could they do?

Resist?

With such actions, the consequence was tantamount to burying the entire Sect.

The entire Heavenly Forest Sect was enveloped in this desperate, unwilling emotion.

Against Gu Change, they could not resist in the slightest, nor did they dare to resent!

In the Xuan domain, they were high and mighty figures who could easily decide the life and death of countless creatures and cultivators.

But in the eyes of that immortal, they were not even enough to be ants.

Things like the Heavenly Forest Sect were still being played out in the rest of the major powers today.

Under this oracle, the entire Xuan domain was plunged into this oppressive atmosphere of fear.

The rest of the powers, except for the Taixu Sect, were incomparably worried, especially the cultivators who personally witnessed that Upper Immortal descending into the world that day.

How far was the strength of an upper immortal who could give a divine weapon at will? Who could know?

What should we do at this time? Naturally, it is to honestly obey the order, show the intention of submission, do not try to resist, because there is only a dead end.

With such thoughts, many of the great powers in the Xuan domain were not stupid and began to take the initiative to surrender to the Taixu Sect, willing to submit.

Many cultivators realized that the Xuan domain, which had been in constant strife, had begun to achieve unification at this time.

This news also alarmed several other domains.

In terms of the entire Heavenly Star Realm, the overall power of the Xuan Domain could only be considered to be at the upper middle level.

Except the Heavenly Domain, where the Dragon Veins of the Heavenly Star Realm converged.

The rest of the top powers of the domains, at this time, were more or less aware that a mysterious Immortal had appeared in the Tai Xu Sect of the Xuan Domain.

Many rumors about this immortal also began to spread among the cultivators.

Some said that he was an old acquaintance of the ancestor of the Taixu Sect 800,000 years ago, and that he was an ancient being who had lived for millions of years, with an unfathomable cultivation.

Others said that it was an immortal posture, divine bones of the exiled immortal, immortal intent dazzling, and one simply could not see the appearance.

For a time, the Heavenly Star Realm became dark and turbulent.

The forces led by the Taixu Sect also searched for all kinds of talented and powerful young heavenly talents during this period of time under the pretext of recruiting disciples.

If one suffered a setback when he was young and then soared to the sky, it was even better, and would be given preferential treatment.

The Xuan domain was vast and boundless, and the number of cultivators and living beings was simply too many to count.

But there were very few young talents who met these conditions.

The Taixu Sect would do this, in many people's opinion, there was no excuse.

After all, after the unification of the Xuan domain, they urgently needed a lot of manpower and wide recruitment of disciples or something was too normal.

"His luck is indeed quite a bit more than the average geniuses, but obviously compared with the reincarnation of human ancestor, it's still far from the same, it's simply a difference of the worlds."

"There is no comparison."

"However, it is better than nothing, a few thousand luck points are better than nothing."

Inside the main hall, Gu Changge shook his head slightly, looking a little disappointed, and waved his hand to let the Taixu Sect Patriarch go back.

He stared at the young genius who looked shocked and appalled, still unaware of what was about to happen, and looked a bit puzzled.

Hearing this young genius's origin, Gu Changge was a little interested at first.

Because this young genius had also been down and out for a while, suffering a fiancée's withdrawal and betrayal by his childhood sweetheart.

His mother, a young lady from a large family, was passing through a certain place and was attacked by the enemy and was seriously injured.

As a result, his father stepped forward and saved her.

The two then got attached, got married, and gave birth to this young genius, and then the usual drama.

The mother's identity was discovered, the clan forcibly sent people to take her away, seriously hurt his father, but cut the grass and not remove the root, forcibly pulled a brainless hatred.

The bitter teenager carried the powerful bloodline of his mother's clan, but because of his father, resulting in meridian depression, was treated as a waste of time for many years.

It was not easy to get a divine blood grass by chance, and was cheated by his childhood friend.

What happened after that, Gu Changge did not ask anymore.

He had thought that it would be good leeks, but it turned out that there were not many luck points at all, no, for him now, the luck points could only stuff his teeth.

"I don't know what's the matter that the superior immortal summoned me here?"

This young genius still looked somewhat calm in front of Gu Changge, and did not panic.

After all, he was a son of luck, and still had an edge in terms of guts.

However, Gu Changge was too lazy to talk nonsense, and didn't even bother to pay attention to him.

With a puff!

A palm directly covered down!

After casually harvesting the thousands of luck points of this scrappy reverse stream son of luck, Gu Changge soon fell into thinking again.

He looked thoughtful and began to consider what went wrong, looking around, but not many sons of luck appeared.

Still the usual routine was too old.

This time the reincarnation of the human ancestor should have some new tricks, right?

"It seems that waiting for the rabbit is not going to work, I have to go around to do it, if I only rely on these people, I'm afraid it will not work."

Thinking of this, Gu Changge then got up and left the Taixu Sect, appearing outside in the high sky.

With a single step, he blurred the void and was gone in an instant.

.....

At the same time, the Heavenly Star Realm, the Heavenly Domain.

In the middle of a remote and vast deep mountain, the mountain was lofty and stretched endlessly.

Spiritual aura was dense, ancient trees were in the sky, the aroma of divine medicine was incomparably fragrant, and the spiritual aura of heaven and earth was rising up everywhere, transforming into various fierce beasts.

True Dragon, divine Phoenix, Black Tortoise, Qilin

If there were proficient in the direction of the terrain, dragon line cultivators here would certainly be shocked to stare at this place to find the anomaly to come.

The various mountains were like resurrected and appear majestic.

Looking down from high altitude, a dragon vein converged and warms this place.

If it were in the upper world, it would definitely be a place to fly to immortality, which would attract all parties to fight for it.

And at this moment, many cultivators and creatures were gathered here, all kind of races with majestic bloodlines.

In the excavation of the mountains below, they seemed to be building something.

High in the sky, a strong man shrouded in divine glory and aura was standing.

He was wielding a whip, and scolding the cultivators below.

Apparently, the crowd of cultivators and living beings below were all treated as slaves and were doing hard labor here.

Their expressions were dull and indifferent, just like the walking dead.

They only knew to build altars and other things here, seemingly unaware of the hard work.

A powerful being with two wings on his back, like a blue-colored stern ghost, looked down on the people below, and with a smug face, said to the few people next to him.

"Today I have captured another group of slaves, this merit, when the time comes, I must let the patriarch give me a reward!"

"Definitely take note, definitely take note, Brother Qing Gui just don't worry."

"You have joined my Immortal Lun Sect for less than a hundred years, and you have already made great achievements, and you have been promoted to the position of deacon, which makes us envious."

"In the future, when the road to immortality opens, among the great events of my Immortal Lun Sect, Brother Qing Gui will definitely take the lead and soar to the upper realm....."

Chapter 219-2: The routines are too old, he should come up with new tricks, Building the immortal road to the sky (2)

Next to several strong people, they heard the words and laughed.

In the words of this strong man named green ghost, there was a little flattering and ingratiating.

The reason was also very simple, because the creature named Green Ghost, had already reached the cultivation level of the God King realm.

They were only at the Heavenly God realm, which was more than a chip away.

On the other hand, this Green Ghost was now highly valued by the Immortal Lun Sect, and his future success was unlimited.

Now he was responsible for guarding this place of the old antiquities, which was also very important to its reassurance.

Many important things were given to him.

On hearing this, the green ghost also smiled smugly, after getting bragged about, he appeared to be in a good mood.

Then, remembering what the Sect master had explained, he looked right and said.

"There is no mistaking the echo this time, this is the perfect time for us to raise our clan to ascend to the upper realm, the ancestors of Immortal Lun are waiting for us up there!"

"Forge the road to immortality, cut down the sky and ascend, today!"

His words also ignited the emotions in the hearts of the people beside him, and when they thought of what was going to happen in the future, they couldn't help but become overwhelmed with emotions.

They also became incomparably excited.

The rest of the people also spoke up, their expressions were angry and resigned, but with emotions such as yearning and longing.

"Yes! Forging the path to immortality, such great achievements, who can think of it?"

"Nowadays, it is difficult to ascend to the upper realm, in the entire Heavenly Star Realm, it has been almost 200,000 years since anyone has ascended, and now they are all wondering if the path to the upper realm is broken?"

"Since the heaven wants to stop us, then why should we obey the heaven!"

"Casting the road to immortality is the best chance for our Immortal Lun Sect to raise our faction to the upper realm! No one will know that we have found the perfect place to fly to immortality in the canon here....."

For a while, thinking about this matter, they all had hot eyes and could not wait for that day to come soon.

To ascend to the upper world, that was almost all cultivators' lifelong dream and pursuit.

They were naturally no exception.

Now, there was such an opportunity in front of them, how could they not be excited and thrilled?

The Immortal Lun Sect was an extremely mysterious and powerful force in the current Heavenly Star Realm, with an incomparably long heritage.

The sacred realm elders known to the world alone were nearly ten, sitting in the secret, no one dared to offend them.

In addition to this, there were also the Great Sacred realm ancestors and other existences, and it was suspected that there was a great sacred realm existence sealed deep in the sect.

This kind of heritage was astonishing in the Heavenly Star Realm, strong and prosperous!

And at its peak, there were rumors that there was a supreme being in the Immortal Lun Sect, the ancestor of the current Immortal Lun Sect!

Among the rumors, it seemed that this Immortal Lun Supreme was not the original character of the Heavenly Star Realm, and had a very odd origin, not a human race.

On the contrary, it was a kind of congenital birth, born with an extremely terrifying strength.

Later, he created the Immortal Lun Sect and disappeared, and he is said to have left this realm and ascended.

Under the many rumors, no one was clear about the truth.

But about the powerful mystery of the Immortal Lun Sect, there was no doubt.

In the Heavenly domain, only a few forces dared to provoke the Immortal Lun Sect, and had also disappeared into the dust and smoke of history.

"I heard that an incomparably mysterious upper immortal has recently appeared in the Xuan domain, could it be that he came down here because he sensed movement in the upper realm?"

At this moment, a strong person suddenly spoke up and mentioned this matter, instantly attracting everyone's attention.

The Green Ghost was no exception.

An immortal coming from the upper realm, just these words alone gave an unparalleled terrifying deterrent effect.

"It's unlikely, if the ancestor didn't have a feeling and entrusted a dream to the patriarch to let us forge the path to immortality. How could we possibly know such things? I think this matter should be a coincidence, right?"

The person next to him shook his head.

"Anyway, it's better to be careful, don't let anyone notice what's going on here in the Flying Immortal Mountain. Especially that immortal of the Xuan domain, I just hope it leaves soon!"

"Understood, the matter is important, when catching the hard labor, I will also be careful. The repercussions and ominousness of destroying the terrain of the Flying Immortal Mountain is not something that ordinary cultivators can bear, several batches of hard laborers have died....."

They said, with a worried gaze, swept over the crowd of toilers below who were reclaiming and digging to build the altar, intending to forge the road to immortality.

The matter of casting into the immortal road, in fact, began more than ten years ago, except that the natural terrain of the Flying Immortal Mountain, involving a lot of mysteries.

It always invited a lot of ominous, causing the process to push back.

"Hey, how is this guy still alive! I remember the toilers who came with him, all died, and he had boiled three groups of people to death....."

At this time, a strong man suddenly noticed a tall youth with a pale face and tattered and blood-stained clothes below, but with an incomparably resolute look, and could not help but be a little surprised.

This somewhat tall youth, who looked 18 or 19 years old, was gritting his teeth and digging at the mountain rocks in front of him.

His face was full of stains and looked dirty, but it was hard to hide his beautiful face.

And there was an inexplicable aura about him that could not be concealed even in the midst of a crowd, and one could not help but notice him.

"Oh? Isn't this the young man I took when I passed by a small village? I still remember that his name was Jiang Yang."

At this moment, the strong man named Green Ghost said with a dazed expression, carefully identifying and recognizing the youth.

"At that time, I found that his physique seemed to be a bit special, his aura and strength far exceeded that of ordinary people, so I thought I might have found a miracle talent and brought him back to the Sect. But I did not expect that it would be the kind of cursed desolate sacred body, difficult to break the shackles of cultivation....."

"Even with the resources of my Immortal Lun Sect, he can not be cultivated, that is a bottomless pit, thinking that he has good strength, thrown here to cut the mountain....."

He continued, explaining the origins of that youth for the crowd.

At these words, the crowd all dawned.

They turned to look at that youth's eyes, which have changed, with a strong regret.

After all, the Desolate Sacred Body, as can be seen from the name, was a waste physique, cursed by a certain existence in ancient times.

No matter how many resources were consumed, there was no possibility of a breakthrough in cultivation.

"This kind of physique, how long has it been seen? No wonder it could boil so many batches of hard labor to death, this strength is indeed amazing."

Several people nodded their heads and soon did not continue to care.

After all, a small cricket-like character would, sooner or later exhaust their essence and strength, and die here.

It was not worth their care.

If it was the Desolate Sacred Body without curse, they would probably still treat it as a treasure and do their best to cultivate it.

But after being cursed, this was a wastrel, without power and authority, only worthy of being a laborer here!

"I can't die here, I have to go back, I have to see my sister and granny....."

"Sister is still so young, if I die here, what will she do?"

"Grandma is also so old, frail and sickly, older, but there is no one who can take care of her."

And at this moment, the young man named Jiang Yang below, his eyes muddled, his body stained with blood, was struggling to reclaim the mountain rocks in front of him, his mouth muttering.

He was like a walking corpse, his fingers were already bloody, but he still didn't give up, there was a belief and strength that was holding him up.

The strong man in charge of this place told him that if he survived three years, he would be able to leave.

There were still one year and 300 days left until three years.

He kept that in mind for all this time.

"Why bother? You just need to accept my existence and you don't have to suffer this torture anymore."

At this time, a voice rang out in Jiang Yang's mind.

Like with helplessness and sigh, more like a kind of compassion for the world sublime and great.

"I am me, why should I accept you? Who the hell are you? Get the hell out of my body!"

Hearing this voice, Jiang Yang's spirit, which was still a bit muddled, was suddenly shaken.

He shouted in his heart with anger, telling this voice to get the hell out of his body.

"This is obviously my body, except that before I awakened, this consciousness of yours was born. I don't want to do anything to erase you."

This voice, with helplessness and a few vicissitudes, sounded again.

Faintly, an arrogant figure with his hands on his back appeared in Jiang Yang's mind.

He stared in shock, this was the first time since this voice appeared and explained.

"You just need to accept my existence, then I can fulfill all your long-cherished wishes for you, and take care of your young sister as well as your aged grandmother."

I have to say, this voice, directly poked Jiang Yang's weak point, so that his expression greatly changed up.

"Sister and granny....." He was muttering, looking torn.

And the voice, too, was bland and seemed to be in no hurry.

Then, Jiang Yang asked in his mind, "Accept you, or be erased by you, does it make a difference? By then, I'll already be gone, right?"

"There is a difference, there is a difference between you accepting me voluntarily, and being erased by me."

"What is not the same?"

"The principle is not the same."

At these words, Jiang Yang was silent, then smiled bitterly, "So in the end, I will still not be there, right? At that time, am I still the real me? I won't promise you that."

This voice, seemingly slightly stunned, then asked rhetorically.

"Do you know who I am? What will you gain by accepting me....."

Jiang Yang was silent for a moment, and his face flashed with a touch of determination.

He thought of his sister, and the elderly grandmother who took care of both of them growing up.

"I don't know who you are, but I know you are not simple, but as long as there is still a glimmer of chance, I will not give up!" He said steadfastly.

"You are a stubborn kid, it's just that this body is not going to last a few days, when the time comes, you will understand....."

Letting out a disinterested laugh, this voice faded away.

No one could stop his return in this life.

Although many of his reincarnation memories had not been fused yet, it would not affect him in the least.

Chapter 220-1: The Peach Heart is burning, Finally found it (1)

In the blink of an eye, one month had passed.

From the Xuan Domain, to several major Domains outside the Hong Domain where Yue Mingkong was, all of them were searched by Gu Changge.

First of all, with the exclusion method, those cultivators who were older than thirty years old did not need to be considered, which also saved him a lot of time.

In this process, Gu Changge did find a few cultivators with quite high Luck.

Although they were not related to the Son of Luck, they were barely considered to be people with Great Luck.

At his command, the Tai Xu Sect's reputation grew more and more, and the widespread acceptance of disciples even spread to the rest of the Domain.

So much so that a version that the Immortal from the Upper Realm wanted to accept disciples to take back to the Upper Realm, attracting countless geniuses to rush here, so much so that even some old guys had shown up.

Gu Changge also did not bother to correct anything, and did not even show up.

The more this kind of thing was described, the more confusing he would become and the more difficult it would be for people to see his true purpose.

After all, it took a bait to catch a fish.

In this way, there were rumors that the Immortal was aloof and indifferent, and those who could enter his eyes must be gifted and proud of the past and present.

After that, Gu Changge directly moved, and chose to go to the farthest Domain from the Xuan Domain, the Heavenly Domain.

That was, in his opinion, the most central area of the map of the Lower Realm, where the Dragon Veins converged.

He would not be surprised to find the reincarnation of the Human Ancestor in the rest of the Domains, but felt that the greatest possibility would be in the Heavenly Domain.

This kind of search method was slow but victory was meticulous, there would not be any big mistake.

On the other hand, he was also paying close attention to the whereabouts of Yue Mingkong, knowing that she was actually as clueless as he was about the news of the reincarnation of the Human Ancestor .

On the contrary, she stirred up some trouble and was nearly detected by some powers who doubted her origin to the Upper Realm.

In the end, it was Gu Changge who stepped in and helped her to remove these traps.

All these things made Gu Changge sigh secretly.

This foolish fellow, Yue Mingkong, really thought her foresight was invincible?

If he didn't follow, with her little means she wouldn't even find where the reincarnation of Human Ancestor was, so how could she deal with others?

On the contrary, she would place herself in a very dangerous situation.

Gu Changge felt that after returning to the Upper Realm, he had to let Yue Mingkong understand one thing.

If there was anything, she must consult with him as a husband first, and act only after he agreed.

And soon, midway through several twists and turns, through quite a few transmission formations.

Somewhere in the Heavenly Domain of the Heavenly Star Realm, Gu Changge's figure appeared.

He was still alone, not intending to bring a large group of people around him, who were not even as useful in the Heavenly Star Realm as a Great Sacred Realm puppet that he had taken out with his hands.

Thinking of this, the void distorted for a moment.

A puppet with a tall, waxy face that looked no different from an ordinary person appeared beside Gu Changge and respectfully shouted, "Master."

"Acting as a slave or something, it's completely sufficient."

Gu Changge nodded slightly, with a servant of the Great Sacred Realm, all the cultivators and creatures in the entire Heavenly Star Realm would be scared silly if they saw that.

Then the master and a servant left this place and headed for the more populated areas.

This Domain was different from the rest of the Domains, the overall cultivation realm here was much higher, the rest of the Domains mostly had cultivators in the Sacred Realm, Heavenly Domain could only act as a first-class, while others were second-class forces.

It was not long after arriving at the Heavenly Domain, and was about to find a place to settle down.

But Gu Changge suddenly heard the prompt sound from the system again.

"Ding, you triggered the quest of finding hints about the Reincarnation of the Son of luck."

"Do you want to accept it?"

Gu Changge's expression was a bit peculiar as he nodded, "Accept."

It seemed that as his own Luck points increased, the range of the system's sensing the Sons of Luck would also expand.

Of course the more likely reason was that the place where Gu Changge was now, and the characters of this quest were not very far.

And as Gu Changge choose to accept the prompt.

Buzz!!!

The scene in front of him became blurred.

A colorful and splendid peach tree opened up in the middle of the chaotic ocean, and a thick, mountain-like divine thunder struck down, shaking the heavens and earth with a terrifying sound.

In the end, this divine thunder became a vast and continuous scene like a galaxy.

Each ray of lightning seemed to split the world itself, causing the entire universe to break apart, terrifying to the extreme.

And this peach tree, after facing the divine lightning, was sinking as if to undergo a transformation.

Finally, the picture shifted.

The scene here disappeared, the peach tree was scorched and torn, as if it had lost its vitality and fell down from the universe.

And there was a cloud of hooded light wrapped in the middle of it, falling down to a vast unknown place.

"Baby girl?"

Gu Changge saw clearly, that cloud of hooded light, clearly wrapped in a small baby girl.

This made him frown.

The moment he saw this peach tree, he first thought that it was that peach tree in the Peach Village where Gu Xian'er was at first.

After all, according to the template of taking care of Xian'er, that peach tree must have had an extraordinary origin, perhaps it was the ancestral sacrificial spirit of the oldest era as well.

Gu Changge had never doubted this point.

And now, seeing this image, especially seeing that mysterious baby girl, made Gu Changge couldn't help but associate it with the rest of the things.

The reincarnation of the Son of Luck, that was obviously said to be the reincarnation of the Human Ancestor .

In that case, this mysterious baby girl, and the Human Ancestor, the Son of Luck were related?

Soon, Gu Changge had a vague guess in his mind.

"Of course, it still has to be determined."

He smiled, and his expression looked a little deeper.

Boom!

Taking the puppet with him, his figure crossed this area and headed for the nearby ancient city.

At the same time, under his eyes, the many movements of this terrain were manifested.

In this way, Gu Changge could also narrow down his scope.

Since the system prompted this image, the mysterious baby girl should be in this place.

Since it was related to the reincarnation of the Human Ancestor, judging from her age, she should not be very big.

.....

"Granny, brother didn't come back today, it's been a year."

"Do you think he forgot about Yaoyao?"

In the middle of a remote village called North Mountain Village.

A little girl with a goat-horn braid and a face smeared with mud was looking at the village head and asked the old woman with a stooped figure and silver hair next to her.

The little girl's clothes were very old.

Many places were still patched, but it was very clean, her eyes were black and white, like the most flawless and purest of gems.

Her face was deliberately smeared with mud, looking at her appearance she should only be four or five years old.

But people in the village who were familiar with the little girl knew that her real age was more than four or five years old.

The little girl was very understanding, but also very poor.

She had a strange disease. Over the years, she had not grown at all, and her appearance had always been only four or five years old.

"How is that possible? Even if your brother forgets everyone, he can't forget Yaoyao!"

"Yaoyao, don't worry!"

"Brother was just taken away by the cultivator, and he will come back soon after learning. At that time, he will also be a cultivator who can fly in the sky, so he can take you everywhere and eat a lot like candied fruit, okay. Things to eat....."

Hearing the words, the old woman showed a kind smile and said to the little girl.

"Hmm, I'll listen to grandma, then I'll wait in the village for my brother to come back."

"Wait for him to take me to fly like a cultivator and eat delicious food."

The little girl named Yaoyao nodded her head wisely, but she couldn't help but glance at the entrance of the village again, showing a look of longing.

For so many years, it was her brother who took care of her sick grandma and her.

Now that his brother had been favored by strong cultivators and taken to practice for more than a year, but no news had come back.

Although she looked young, she actually understood everything in her heart. Every time she came to the village to take a look, apart from missing him, what did she have to worry about?

The outside world was very dangerous. Although her brother was taken away by a strong cultivator, he was not necessarily safe.

She had heard a lot of stories about the cultivation world since she was a child.

"Yaoyao, don't worry about your brother, the cultivator said, he was from Immortal Lun Sect."

"And your brother's physique is very powerful in the cultivation world. At that time, he will be vigorously cultivated by the sect. Now he should be busy with cultivation, so he has no time to come back to see us."

Seeing that the little girl still had the same expression, the silver-haired old woman couldn't help but smile and comforted her.

She found the baby girl under a blooming peach tree that year.

At that time, she was shrouded in a layer of light, which looked very extraordinary.

But it was more like being thrown there.

The scene at that time was very suitable for these words, so she adopted him and named her Yaoyao.

It took so many years to raise her, but Yaoyao stayed at the age of four or five, and never grew up.

This made the silver-haired old woman helpless. She tried many methods, but none of them had the slightest effect.

As if God made a joke for this little girl.

Yaoyao was also very sensible and never made her worry.

Another child she adopted was also doing well.

One year ago, he was valued by the cultivators from the Immortal Lun Sect who passed by here, and took him with them to cultivate, saying that he had a promising future.

Thinking of this, the old woman's smile deepened.

Tremblingly, she led the little girl to the house.

North Mountain Village was in a remote location, and it was backed by the mountains to the north. From time to time, monsters would come out and run into the village to cause trouble.

To the south was a desert, where bandits could often be seen running around, looting the meat and some spiritual stones of the villages.

The villages were deeply affected and miserable.

Otherwise, the old woman wouldn't smear some dirt on Yaoyao's face, because she was afraid that the deranged bandits would notice her.

The little girl Yaoyao followed her grandmother and greeted acquaintances in the village along the way, while walking towards the house.

The villagers liked Yaoyao, a well-behaved and obedient little girl.

Chapter 220-2: The Peach Heart is burning, Finally found it (1)

Boom!

However, at this moment, the sound of horses' hooves suddenly sounded outside the village, like a galloping army of thousands of horses.

The momentum was shocking and extremely frightening.

From a distance, one could see a terrifying aura rising up in the sky, which was extremely terrifying.

"No, it's bandits! The bandits are rushing towards the village. Female, children and the elderly, hurry back to the house and don't show up."

"Damn it! Didn't we just give them the spirit stones? These bandits are here again?"

"These renegade robbers! Everyone take up arms!"

This scene shocked everyone in North Mountain Village.

They responded quickly.

Everyone's complexion changed greatly, they were extremely pale, and they shouted, asking the elderly and other weaker people to hurry back to the house.

Young and middle-aged people and some people who had a little cultivation picked up weapons and converged at the entrance of the village.

Bandits looting villages, this kind of thing was normal, and one couldn't expect them to talk about friendship and credit.

"Grandma, the bandits are here again..."

The expression on Yaoyao's face also turned a little scared.

Bandits were notorious for killing people without blinking an eye.

"Don't be afraid, Yaoyao, grandma is here."

At this time, the silver-haired old woman was much calmer, holding Yaoyao's hand tightly and comfortingly said.

However, there was still a hint of worry in her eyes. After all, judging from the momentum, this group of bandits seemed to be different from the previous ones.

Boom!

Accompanied by the yellow sand in the sky.

At the entrance of North Mountain Village, there was a large group of bandits riding fierce beasts, covering a large area, and they were rushing here.

The bandits sitting on the beasts were all very agile, with amazing murderous aura, flashing divine brilliance, and grim faces.

The aura was powerful and amazing, far exceeding that of ordinary people and cultivators. It was impossible for ordinary bandits to have this kind of momentum.

"This... how is this possible..."

"This is... the Black Wind Bandit!"

"Black Wind... Bandit, this is the most powerful bandit in the vicinity, and many forces who came to crusade against them were killed by them!"

"It is said that their head is an almighty god!"

"How come, how can the black wind bandits come to our village, this is completely impossible!"

Recognizing the identity of these bandits, all the villagers in North Mountain Village were stunned, and their faces turned pale with fright.

Some people were even more unbearable, and their feet went soft and fell to the ground.

A group of villagers who were still holding weapons and were about to confront this group of bandits had no courage at this time, and they were almost stunned.

This monstrous aura alone will drown them and suffocate them.

Some people were timid, rolled their eyes, couldn't bear the fluctuation, and fainted directly to the ground.

"Black Wind Bandit, why did you come here... Although it's just a group of people, how could it be something that ordinary villages can resist..."

The expression of the silver-haired old woman also changed slightly, a little she couldn't believe it.

"Grandma, they all said that the head of the Black Wind Bandit wants to eat people, and he likes to eat children the most..." Yaoyao's big eyes showed fear.

After all, she was just a little girl.

Although she was more sensible than his peers, how could she not be afraid in front of this black wind bandit who killed people like insects and even took pleasure in eating people?

"Don't be afraid, Yaoyao, those are all rumors that are made up by adults to deceive you. With Grandma there, no one will hurt you."

The silver-haired old woman gritted her teeth slightly, and protected Yaoyao behind her to prevent the group of black wind bandits in the distance from seeing her.

She didn't know why, but a powerful bandit like the Black Wind Bandit would send a team to a remote village like them.

In the vicinity, apart from North Mountain Village, there were still Black Stone Village, Wolf Village and other villages. Could it be that those villages had also been looted?

What was there to care about in North Mountain Village?

Just as the silver-haired old woman had all kinds of thoughts in her heart.

At the door of the village, a bandit with a strong aura opened his mouth, his face was horrific, and there was a scar running through it.

The cultivation base alone had reached the holy land realm, which was enough to sweep around at will and do whatever you want!

"Get the chief of your village out!"

He said indifferently, with an ant-like look overlooking them.

The many bandits behind him also looked indifferent, sitting on top of the beast, as if they would slaughter the village if they didn't cooperate.

The villagers of North Mountain Village had never seen such a terrifying posture, their faces were pale and bloodless, and they could not speak.

"Little old man is the village head of North Mountain Village, greeting!"

Accompanied by a panic.

A trembling old man came out and said with a terrified expression on his face.

It was the mayor of North Mountain Village.

When he was young, he practiced outside, but his foundation was damaged, so he returned to the village and served as the villager.

Usually, he also instructed the villagers to polish their muscles and bones and strengthen their bodies.

But in front of such a fierce black wind bandit, they were the same as paper, and there was not much difference.

"Oh, so it's a cultivator, but it can't even reach the Soul Palace, so what's the use of it?"

The leading bandit glanced at him and sneered.

The old village chief's face turned pale, and he did not dare to retaliate.

Afterwards, the bandit saw awe, worry, fear, and panic among all the villagers.

He swept over everyone coldly, and said slowly, "Our boss has an order. In the nearby villages, all girls under the age of fifteen must submit offerings! He wants them all!"

"Three days later, I will bring someone to fetch them. If anyone dares to run away or resist, then we will... slaughter the village! Not a single one will be left!"

A wicked crack appeared at the corner of his mouth.

Saying such words, combined with this appearance, had a terrifying deterrent.

Ahh!

At this moment, many children were frightened and cried.

Not to mention children, at this time, even the adults looked extremely frightened.

Some people held their children tightly in despair.

Against the black wind bandits resistance was a dead end?

Do they have to hand over their children at this time? Why would they want to?

Although the reputation of the black wind bandits had not been good these years, they had never seen them arresting children! And also called for girls under the age of fifteen.

This made many people despair, thinking of the rumors that the black wind bandit's boss wanted to eat people!

After saying this, the black wind bandits in front of them also left in a mighty manner.

With the sky-high yellow dust, they rushed to the rest of the villages with great momentum.

Leaving behind a group of desperate and terrified North Mountain Villagers.

"Why? Black Wind Bandits deserve to die, why must they steal our children!"

"Even if I die, I can't give it to them!"

Soon, the place resounded with bursts of sobs, and the sound of angry hisses of resignation.

Many villagers were yelling.

The old village headman's face was desperate and he fell to the ground.

Not to mention the Black Wind Bandits, even the ordinary bandits, who were much weaker than them, were not something they could fight against with their small village.

What did it mean to disobey the Black Wind Bandits' orders?

It meant slaughtering the village, leaving no one behind!

Escape? Relocate?

In three days' time, how could a group of ordinary people outrun the Black Wind Bandits on their ferocious beasts?

"Grandma, I'm afraid....."

In the middle of the northern mountain village, naturally, Yaoyao also heard the words of this leader of the black wind bandits, stained with mud on her small white face.

Less than fifteen years old girls, did not this also include her?

She remembered the rumor that the leader of the Black Wind Bandits would eat people, and bit her lips tightly in fear.

"I don't want to be eaten."

"Yaoyao, don't be afraid, with granny around, no one can snatch you away!"

Silver-haired crone's voice slightly trembled in the middle, hugging her tightly.

Her tone was determined, as if there was some great bottom line.

And just when the black wind bandits appeared in the nearby major villages, asking them to give a confession.

In the place where the Black Wind Bandits were stationed, on a dark and awe-inspiring mountain peak.

A lofty palace stood.

In it, the current Black Wind Bandits' leader was bending down and pointing at the unconscious maidens captured below, and reported to the young man above with his hands behind his back and said, "Your honor, these maidens were all captured from the nearby villages and cities according to your orders."

"Are you satisfied?"

"All of them are useless, do not hurt them, and let them go back."

Hearing this, the young man whose back was turned to the Black Wind Bandits' leader, did not answer, but shook his head slightly and said.

There was an inexplicable meaning in his tone.

Hearing this, the black wind bandits's leader was a little puzzled, he went through so much trouble, and now he had to send them back?

Is he looking for someone?

But he also did not dare to ask the reason, and hurriedly said, "My lord, please rest assured, we will not hurt their lives."

After saying that, he hurriedly took a group of young girls below and left, not daring to stay any longer.

Some time ago, this mysterious and incomparable young man came to the place where he was practicing out of nowhere and asked him to do something for him.

At that time he was in shock, had not reacted and saw this young man beside, the indifferent servant in the middle looked over.

And the mighty pressure of Great Sacred Realm crushed down!

At that time, he was scared silly, he got scared out of his wits, and his Dao heart almost shattered.

For the outside world, the current rumor that he wanted to eat people, the black wind bandit leader also felt helplessness and bitterness.

He could not deny this rumor

Who told this young lord to command such a thing?

And now, in the whole Black Wind Bandits, except him, no one knew the existence of this young lord.

"Could it be that my location speculation is wrong?"

And in the middle of the main hall, after seeing the Black Wind Bandit's leader leave.

Only then did Gu Changge frown and ponder in his mind if there was something wrong.

He had narrowed down to such a small range? But he still haven't found the baby girl, that's not right.

"Instead, I should wait a bit."

Gu Changge closed his eyes and fell into deep thought.

These days, the young girls captured by the Black Wind Bandits did not have the slightest points of luck, nor was there anything out of the ordinary.

But he believed in his deduction.

And soon, three days passed.

A piece of news made Gu Changge interested, a small team sent by the Black Wind Bandits was surprisingly wiped out.

"It seems that I have finally found it."

Almost instantly, Gu Changge thought of it, and he couldn't help but have a smile on his face.
