### Chapter 231-1: If it was Change what would he do, Call out to the Master to listen (1)

"It seems that this Jiang Yang is not that stupid, surprisingly, he did not fall for it, I made so many arrangements, is it really going to be a waste of time?"

Inside a magnificent and ancient building, in the middle of the courtyard.

Yue Mingkong was standing with her arms folded, in a simple plain robe with wide sleeves, wearing a veil, many emotions were flashing through her cool eyes, and her delicate eyebrows were gently frowning.

It had been a total of three days since she sent the letter to Jiang Yang.

But there was no response from Jiang Yang.

Yue Mingkong had sent people to keep an eye on the Immortal Lun Sect, but they also did not see Jiang Yang leave, and he had been cowering, refusing to appear.

This was a bit out of her expectation.

It was reasonable that Jiang Yang would want to see someone from the Upper Realm to find him, he would be happy to meet her, and step into her long-established trap place.

But he didn't. Jiang Yang's caution was worthy of his identity as the reincarnation of the Human Ancestor.

This made Yue Mingkong sigh slightly in her heart, things were getting a little tricky.

She also began to think seriously.

If it was Gu Change, what would he do at this time?

With that guy's character, even if it was the reincarnation of the Human Ancestor, he would definitely attack, without caring about anything else.

But Yue Mingkong also did not want to let him get involved.

She had to be the one to bear the revenge, to let Gu Change develop peacefully for a period of time.

"Change's usual means are meticulously seamless. If it's him, there probably would not be a problem like this..... Compared to him, I am really still far behind."

Yue Mingkong couldn't help but shake her head.

"Now, I've already alerted the reincarnation of the Human Ancestor in advance, that mysterious Immortal, whether it's an enemy or friend is also unclear, things are getting more and more out of hand."

She said softly to herself, "Could it be that at this time, I can only lead people to attack the Immortal Lun Sect and overthrow it?"

But after thinking thoroughly, Yue Mingkong dismissed this possibility.

Because the Ancestor of the Immortal Lun Sect back then was the Immortal Lun Supreme, the many means left behind by a Supreme must be far beyond her imagination.

Jiang Yang was hiding in the land of Immortal Lun Sect and refused to come out.

She quietly came down to the Lower Realm, and if she openly attacked the Immortal Lun Sect, it would definitely cause a big commotion. If the cultivators of the Human Ancestor Hall rushed to this realm, then it would definitely expose her existence and whereabouts.

"If I can find the secret method of the Human Ancestor Hall, perhaps I can make Jiang Yang believe me....."

In the end, Yue Mingkong thought of the only way.

But the inheritance of the Human Ancestor Hall had always been mysterious and was only passed on to its heirs.

And how could she possibly know its secret method.

"Forget it, I'll just try it again, if Jiang Yang still doesn't arrive, then I will have to unleash a secret revolt, thus overthrowing the Immortal Lun Sect....."

Thinking of this, Yue Mingkong's expression became steeply cold and profound, and did not fluctuate in the slightest.

Now that she was secretly controlling several forbidden areas and Sacred Mountains in the Heavenly Domain, unleashing a secret revolt and ravaging the world was just a matter of her words.

At this point in time, using the secret revolt as a distraction would be a good way to conceal her intention to overthrow the Immortal Lun Sect.

After all..... a secret revolt would definitely affect all of the forces and creatures in the Heavenly Domain, no one would be spared.

Such a price might be great, involving all creatures in the Heavenly Domain would cause an unparalleled and terrifying scourge that would lead to the destruction of all living beings.

But since she chose to stand by Gu Changge's side, she already didn't care.

Afterwards, Yue Mingkong waved her hand, and the maid behind her respectfully handed over a paper and pen.

She began to write as a cultivator of the Human Ancestor Hall, to Jiang Yang to agree on a meeting place.

At the same time, Gu Changge also quickly found her location, based on the runes left on Yue Mingkong's hand at the birthday banquet.

With his skills, he could bypass many eyes to get close to the residence where Yue Mingkong currently was.

This made Gu Changge a little satisfied, it seemed that Yue Mingkong was still very cautious, not negligent in the slightest after arriving at the Lower Realm.

After that, Gu Changge casually found a pavilion nearby and his figure emerged there.

His distance to Yue Mingkong's residence was less than 300 miles.

At this time, he would definitely not go to look for Yue Mingkong, thus revealing his whereabouts.

Gu Changge was still waiting to reap the benefits, and if Yue Mingkong learned that he had also come to the Lower Realm, he would inevitably have to explain to her again, arousing her suspicion.

Now it was hard to get Yue Mingkong to drop her guard against him.

Gu Changge did not intend to ruin it just like that.

"Yue Mingkong still intends to give a final notice to Jiang Yang? The first time Jiang Yang did not believe it, what use would it be the second time? This way, Jiang Yang would not believe her without the slightest evidence."

Subsequently, Gu Changge noticed that some cultivators left this place and headed for the direction of Immortal Lun Sect.

This scene fell in his eyes and made him smile.

This Yue Mingkong was still as stupid as ever, trying to use such a crude method.

But soon, Gu Changge remembered its purpose.

He did not come here to laugh at Yue Mingkong, but to help her.

Wasn't it the lack of definite evidence that she came from the Human Ancestor Hall?

This was simple.

.....

**Buzz!!**

In the next moment, Gu Changge's figure appeared in the Inner World.

"Gu Changge, why are you here again?"

Jiang Chuchu, who was still sitting cross-legged on the bluestone, suddenly opened her eyes. She was dressed in dusty and aloof white clothes, three thousand blue silks were hanging down, and her skin was white and delicate, like a flawless jade.

On her beautiful face, her brows were tightly wrinkled, her eyes were cold, and she stared at the man in front of her, as if she wanted to see through him.

"I came to my own world. Do I still need to tell you the reason?"

Gu Changge sneered indifferently.

Then he walked up to her on his own, and stopped just a step away from her.

He was looking down with a bit of satisfaction as if appreciating that she belonged to him.

This look made Jiang Chuchu uncomfortable, feeling that she was not a person at this moment, but a personal item of Gu Changge.

This made her frown even tighter and made her expression colder.

If it wasn't for the fact that she couldn't beat Gu Changge, she might have already made a move now and would have attacked him.

The more she was trapped here, the more she felt uneasy.

Gu Changge had already asked a lot of things about the reincarnation of the Human Ancestor from her mouth, although those things did not involve the whereabouts of the reincarnation of the Human Ancestor.

But it still made her uneasy.

### **Chapter 231-2: If it was Changge what would he do, Call out to the Master to listen (2)**

Because according to Gu Changge's expression, he didn't care at all, as if he had already decided on the reincarnation of the Human Ancestor, and everything was under his control.

During this time, Jiang Chuchu knew a lot about Gu Changge, and the more she did, the more uneasy she became, and it even gave birth to a trace of fear that should not have been there.

This big demon had the title of the most dazzling strongest person in the current younger generation. The forces behind him were beyond imagination, but he was the hidden inheritor of demonic art.

At this time, she knew that it would be unbearable, her soul trembled, and her heart burst, and she was terrified.

It already took a lot of courage for her to face Gu Changge so calmly.

"Why?"

"Aren't you mine now? The way you look at me... it makes me uncomfortable."

Seeing Jiang Chuchu's silent expression, Gu Changge couldn't help but let out a faint smile, as if he could see through her thoughts, "If you look at me like this again, maybe you will regret it later."

Hearing this, Jiang Chuchu felt a chill on her back, gritted her teeth, and was forced by Gu Changge's power.

She had to lower her head and not look at Gu Changge.

"That's right, be obedient and sensible, and ask me a word or two, Master, will listen to you, maybe I'll consider letting you out when I'm in a good mood..."

Gu Changge looked at her, with a faint smile on his face.

With a wave of his hand, a stone table and a stone chair suddenly appeared behind him and a tea set made of jade was placed on it.

Then, he sat down in relief.

Hearing Gu Changge's words, Jiang Chuchu trembled and felt a little humiliated.

"Don't think about it!"

Call him Master?

She couldn't say such words even if she was beaten to death, especially for a big demon like Gu Changge.

As for letting her out?

She would not believe Gu Changge's words. At this time, unless Gu Changge was stupid, he would not release her.

"Now, I'm a little thirsty."

At this time, Gu Changge seemed to not care about her expression at all, and smiled lightly to himself, "At this time, Holy Maiden Chuchu won't show her tea skills?"

"I just wonder if this Gu will be lucky enough to have a drink?"

Hearing this, Jiang Chuchu glared at him coldly and angrily.

As a Holy Maiden of the Human Ancestor Hall, she had a detached status and was admired by all forces. Why would she ever make tea for others?

But under Gu Changge's casual expression.

She did not dare to refuse!

After all, she definitely didn't want to experience other things that were more humiliating than making tea.

Making tea was a trivial matter.

Since Gu Changge wanted to drink it, how about giving him a drink?

Immediately, Jiang Chuchu began to pour water for Gu Changge to make tea, and it could be seen that she was indeed doing this for the first time. She had never learned it before.

After all, she was the reincarnation of an Ancient Immortal, and she was destined to be aloof.

Soon, the tea was brewed.

There was a cloud of mist along with an elegant tea fragrance.

"This tea..."

Gu Changge glanced at the tea she carefully brewed, shook his head, and said a little disappointedly, "What a waste of my 800,000-year-old Wuling tea and Immortal leaves."

Seeing Jiang Chuchu's obviously unsightly cold expression, he didn't care at all, then raised his glass to his mouth and drank it all in one gulp.

Tsk.

"It looks like you really can't."

"Although it's a little hard to drink, it's not that I can't drink it. It's okay."

"But it doesn't matter, you can learn it slowly in the future!"

Gu Changge nodded and made a comment.

Seeing this, Jiang Chuchu was stunned for a moment, but she didn't expect that Gu Changge would actually drink it, she thought it was a method of Gu Changge which he deliberately used to humiliate her.

Otherwise, why would he let her make tea?

It was hard to believe that someone as deep as Gu Changge still had the time to be stupid and really thought that she knew how to make tea?

Jiang Chuchu's expression showed a trace of obvious disbelief, and even felt that the terrifying power in him was dissipated for no reason.

Gu Changge didn't seem as scary as she thought.

However, she quickly realized what Gu Changge said just now.

*You can learn later?*

Could it be that he was really ready to use herself as a maid?

This made Jiang Chuchu's expression not very good-looking.

"Gu Changge, what's your purpose? If you want to humiliate me, you've already done it."

At that moment, Jiang Chuchu asked aloud.

Her expression changed from anger to calmness.

She also didn't know why in front of Gu Changge, she couldn't keep her mind as calm as before, which would not be disturbed by external things.

"Humiliate you? No, I'm not that boring."

"I don't understand why you always think of me as so scary? I just want to see how you're doing in the Inner World. I think you're alone here, and you don't even have anyone to talk to. It's inevitable that you'll be a little lonely."

"I simply thought about having a word with you, lest you go crazy."

Hearing this, Gu Changge looked at Jiang Chuchu, and said with some regret and helplessness, as if he was deeply misunderstood.

"In front of me, you should stop pretending to be compassionate. A big demon like you is indifferent and heartless, but there is still a little humanity in your heart?"

However, Jiang Chuchu was unmoved and looked at him calmly.

Those pure water-like eyes seemed to reflect Gu Changge's true face.

"Humanity? What the hell did I do? What made you think that I have no humanity?"

"Could it be that it is human nature to be slaughtered by the others and wait for others to take their life?"

Gu Changge sneered when he heard these words, looking very disdainful about it.

Hearing this, Jiang Chuchu was a little stunned for a while, and it was difficult to refute.

She fell silent.

Gu Changge was right, would he really do nothing at this time and wait for the Human Ancestor to arrive and take his life?

But soon, she felt that Gu Changge was arguing. As the inheritor of demonic arts, he was destined to have such a day.

This path was chosen by him.

"But... this is not the reason for you to harm the common people." At that moment, Jiang Chuchu spoke again and said coldly.

"Excuse me, Holy Maiden Chuchu, when did you see me killing the common people?"

"If you say that, during your cultivation, when you encounter any opportunity, you pay attention to the word, and you don't fight or grab it, then how else do you cultivate?"

Gu Changge just laughed, "Others want to snatch everything from me, but my identity and my status is better than theirs, so they failed and died. And everything you saw, it's only after I survived..."

"Everything I do is to survive."

"It's hard to survive, is there anything wrong?"

Speaking of this, his expression gradually became indifferent, revealing an aura that made Jiang Chuchu's heart palpitate.

From Gu Changge's words, she felt a completely different belief than before.

Was it wrong to live?

That was right.

For a time, she felt that the Dao heart that she had cultivated for so many years was shaking.

Gu Changge noticed the change in Jiang Chuchu's expression, and a strange color flashed in his eyes.

Afterwards, he waved his hand, and said with some sullen interest, "Forget it, you probably don't understand what I said today."

Jiang Chuchu was stunned when she heard these words, then she looked at him with a complicated expression, and asked, "Why did you suddenly tell me all of this?"

At this time, Gu Changge didn't seem too lazy to explain, "Because I'm in a good mood."

Good mood?

Jiang Chuchu was stunned again. Why was Gu Changge in a good mood? Wasn't he busy with the reincarnation of the Human Ancestor during this time?

Or did he already know the whereabouts or clues of the reincarnation of the Human Ancestor?

Thinking of this, Jiang Chuchu's head buzzed and became a little blank.

The terrifying cold air jumped up from her back again, making her hands and feet feel cold.

Originally, Gu Changge's words made her head dizzy, but now he suddenly became very clear.

"Good mood?"

And soon, she reacted.

So Jiang Chuchu maintained her superficial expression, and there was nothing unusual compared to just now.

"Since you're in a good mood, why don't you let me go?"

She spoke lightly, but it was only a tentative question.

She wanted to take the opportunity to know something from him, and wanted to know what Gu Changge's attitude towards her was now.

From this, she could also guess what the situation outside was.

### **Chapter 232-1: The fish finally took the bait, The Immortal from the Upper Realm is suspected to have fallen into the Netherland Heavenly Pond (1)**

Hearing this, Gu Changge looked surprised.

"Letting you go is not impossible. But now's not the time, though it won't be long....." He said casually, with disapproval in his words.

However it was hearing these words that made the chill on Jiang Chuchu's back even more dense.

Didn't that mean that the reincarnation of the Human Ancestor was probably found by Gu Changge? Was that why he was so confident that this matter would be resolved soon?

Thinking of this, Jiang Chuchu's worry grew dense.

In any case, as the Holy Maiden of the Human Ancestor Hall, she was born in opposition to Gu Changge and could not possibly join forces with him.

Although Gu Changge's words made her Dao heart waver just now.

"You are underestimating the means of the Human Ancestor, Gu Changege, even if you have the upper hand now, but with the emergence of the Human Ancestor's many tricks, everything would be reduced to nothing....."

Jiang Chu Chu looked at him and said calmly, "As for letting me go? I do not believe that you will be so kind, in the end you will certainly find a way to kill me, so that your true identity would not get exposed....."

At these words, Gu Changege faintly froze, as if he did not expect her to say this.

Then he sighed and said, "Why do you believe in me so much? So what if I let you leave here? Since you don't believe me, then I will let you leave now..... But at most, I can only let you leave for a while."

"If you are obedient, then I can consider letting you out a little more in the future."

He looked like he was seriously thinking.

"What you said is true?"

Jiang Chuchu smiled a little surprised, she was just trying it out, but she didn't expect Gu Changege to really agree.

This suddenly caused an inexplicable emotion to arise in her heart..... Like guilt, and confusion, it was very complicated.

### **Buzz!!!**

In the next moment, Jiang Chuchu suddenly felt the scene blur before her eyes, she had left Gu Chang Ge's Inner World and appeared in an ancient and tall pavilion.

Outside, the sky was dark and the moon was hidden and the stars were visible.

"The aura here..... it's not in the Upper Realm....."

Jiang Chuchu's expression changed slightly, and she immediately noticed the abnormality of the rules of heaven and earth here.

This made her heart sink down.

Since Gu Changege had already come to the Lower Realm, that meant that her speculation had probably become a reality.

The location of the reincarnation of the Human Ancestor had already been found by Gu Changege.

"Well? I didn't lie to you, did I?"

"If you call me Master this time, maybe I will let you stay in the outside world a little longer....."

Gu Changege looked at her with a somewhat intriguing expression.

Since Gu Changege dared to let herself out, he must have the certainty and strength to not be afraid of her sudden escape.

So thinking about this, Jiang Chuchu's expression was extraordinarily calm.

"Gu Changge, it seems that you have already left the Upper Realm and found the reincarnation of the Human Ancestor?"

She opened her mouth to speak.

While sweeping over the magnificent buildings in front of her, it was evident that the location where she was now seemed to be in an ancient city.

As for which realm it was.

Jiang Chuchu had no way of knowing, Gu Changge had trapped her in the Inner World for so long that she didn't even know how Gu Changge actually came here, how many means had been set up, etc.

This made Jiang Chuchu's heart more and more uneasy.

As the Holy Maiden of the Human Ancestor Hall, she saw the reincarnation of the Human Ancestor in crisis at this time, but she could hardly do anything to stop it from happening.

This kind of emotion was like a thorn in her heart, which made her feel painful.

In the dark, it was as if a voice was telling her to stop all this, to stop Gu Changge.

"I really don't know how the Human Ancestor Hall brainwashed you, to offend me for the Human Ancestor, is it worth it?"

Gu Changge glanced at her with a calm expression, smiled casually, and stood on this pavilion with his hands on his back.

With a crimson fluttering overcoat, and aura like the abyssal sea that was so deep that made her heart palpitate.

And then, his hand slowly pointed across the frontier in front of him.

It seemed to be meaningful.

"See? This world, all of it is already under my control, tell me, how else can the reincarnation of the Human Ancestor escape?"

The tone of his voice was confident and he was overlooking it with contempt.

He didn't even care about the Human Ancestor.

Hearing these words of Gu Changge, Jiang Chuchu's face also paled slightly.

But she secretly gritted her teeth.

The faint fluctuations of ancient runes swept through her palms, turning into a strange aura and slowly dissipated in the void.

The only thing she could do now was to use the secret method of the Human Ancestor Hall, so that the reincarnation of the Human Ancestor could sense her presence.

She believed that as long as the reincarnation of the Human Ancestor had awakened some of his previous memories, he would be able to discern his current dangerous situation.

More or less, it could be a little helpful to the reincarnation of the Human Ancestor.

"Well, today I let you out to get some air, the time is almost up, otherwise, if you secretly did something to spoil my plan, then that would not be good....."

Gu Changge at this time, also seemed like he hadn't noticed Jiang Chuchu's action as well, and was still speaking.

It was just that the smile at the corner of his mouth looked a little deeper.

It seemed that this fish was finally hooked.

As soon as Jiang Chuchu heard that her face turned a little pale, her secret movements almost stalled.

But he also didn't wait for her to speak.

Gu Changge directly waved his hand, and with a buzz, cracks appeared in the void in front of her once again and Jiang Chuchu's figure disappeared, returning to the Inner World once again.

She knew it was useless to resist.

So she didn't choose to resist either.

She already did not know how terrifying Gu Changge's true strength was, Jiang Chuchu's perception had always been strong, so she could feel that palpitating powerless feeling of despair.

Now her only hope was that the secret fluctuations she just transmitted could be detected by the reincarnation of the Human Ancestor.

With the same Human Ancestor Hall's inheritance, even if they were far apart, they should have sensed it.

"It wasted so much of my words, but it seems to be very effective."

After throwing Jiang Chuchu back in the Inner World, Gu Changge couldn't help but reveal an intriguing look.

During this period of time, his cultivation had already broken through to the peak of the Sacred Realm, and earlier, he had already exchanged his Luck points for a total of 60 pieces of transcendental bones, including the entire spine of the Great Dragon, Skull Cap bones, Limbs and Hand bones, etc.

Under all kinds of means and abilities, the Great Sacred realm cultivator might not even be his opponent.

Not to mention that he had many powerful cards.

Jiang Chuchu was smart and naturally would not make unnecessary resistance.

On the other hand, Gu Changge had already heard the system's prompting voice when he shook her Dao heart.

Jiang Yang, the Son of Luck, had his Luck points reduced as a result.

But then Jiang Chuchu's reaction was a bit surprising to him.

"It seems that the reverence for the Human Ancestor is too deeply rooted, this is only the reincarnated body....."

Gu Changge's expression was tinged with a different color.

This also confirmed his suspicion that the Human Ancestor Hall's methods were indeed not rightful.

"Now the evidence is also available, and the timing is almost right, even if this Jiang Yang is more cautious, he has to fall for it at this time....."

Gu Changge smiled.

The first plan was to let Jiang Chuchu show up, so as to trick Jiang Yang over, but if he said it directly, Jiang Chuchu would definitely not agree.

So he thought of such a method.

The next thing, Gu Changge would go to the Netherland Heavenly Pond according to the information he had received earlier.

He knew that there was an arrangement by the Human Ancestor there, but didn't care.

Other than the Immortal Lun Holy Sect, the Netherland Heavenly Pond was definitely the place Jiang Yang wanted to go the most.

When the time came, if he encountered danger, he would definitely have to flee to that place.

Gu Changge could just go there first and lay down his means.

Yue Mingkong definitely couldn't kill Jiang Yang, but it should be no problem to seriously injure Jiang Yang.

In order to make Jiang Yang's Luck points fall to the lowest value, Gu Changge still had to find a way to make the Daughter of Luck, Yaoyao, and Jiang Yang really break up.

In fact, when he left the Immortal Lun Sect and gave those words to Yaoyao, he was already setting up a plan.

### **Chapter 232-2: The fish finally took the bait, The Immortal from the Upper Realm is suspected to have fallen into the Netherland Heavenly Pond (2)**

On the other hand, after Jiang Chuchu secretly performed the secret technique of the Human Ancestor Hall.

Millions of miles away, in the middle of the Immortal Lun Sect.

Inside the cave, the strange fluctuations in the void were sensed.

Jiang Yang, who was sitting with his eyes closed, snapped open his eyes, in which there was a flash of brilliant light.

He looked at the letter set down on the stone table, and the corners of his mouth could not help but reveal a bashful smile.

"Surprisingly, it is the aura of this secret art....."

"Is it finally here? Wouldn't it have been better to reveal the aura earlier, instead of waiting until now."

About the secret technique of the Human Ancestor Hall, he naturally couldn't be any more clear.

Because no one other than the heir of the Human Ancestor Hall knew this secret technique, and within the Heavenly Star Realm, this kind of aura was like the best proof of the identity of the Human Ancestor Hall.

So this time he did not suspect again.

As for why the other party did not reveal his breath last time, Jiang Yang thought about it and felt that it should be because he was too cautious.

This made him somewhat satisfied.

Jiang Yang then gave a simple order as he called on the Supreme Elder Zhao Yi, looking relaxed he headed outside the Immortal Lun Sect to rush to the agreed location.

Once the Human Ancestor Hall intervened in the Heavenly Star Realm, then the next steps would be much easier.

Everything was back under his control.

As for Gu Changge, who had been away from the Immortal Lun Sect for several days, he no longer paid any attention. In a place like the Netherland Heavenly Pond, as long as he went there, he wouldn't be able to come back.

.....

"Grandma, what exactly is the Netherland Heavenly Pond? Master left four days ago, and there's still no news of his return."

At the same time, at the Immortal Lun Sect's mountain gate there, a small figure, with black jewel-like flawless clear eyes, revealed uneasiness.

It was Yaoyao.

At this moment, she was looking outside with a look of expectation and worry, wanting to watch the Master come back from the sky.

But for several days in a row, no one was seen.

Although she thought that the Master was so powerful, the possibility of an accident was unlikely, but who could have predicted it?

Moreover, that day when the Master left, the words that he said were clearly like his last words to arrange things after his death.

"Netherland Heavenly Pond..... That seems to be a very dangerous place, more frightening than some life forbidden areas..... However, don't worry, your Master has even destroyed the Sacred Mountains at will, that little danger of the Netherland Heavenly Pond is as simple as walking on flat ground for him."

Hearing this, the silver haired granny said comfortingly, but in her heart she was actually as worried as Yaoyao.

Since, even the Immortal was cautious.

So the danger of the Netherland Heavenly Pond needed no further explanation.

And now Gu Changge was not around, and now she and Yaoyao both knew in their hearts that Jiang Yang was taken over by someone, it was just that they had not yet torn their faces off.

From time to time, Jiang Yang appeared beside the two of them to show concern.

This made them even more uneasy.

The kind of mysterious power in Yaoyao's body was not under her control.

If Jiang Yang really intended to be detrimental to them, the two of them would not be able to resist at all.

"Grandma, do you think that Jiang Yang deliberately told Master, just to cause Master to be buried there....."

Yaoyao said with a worried face, afraid of Gu Changge's accident, if the Master was really gone, then what would she do in the future?

Would she have to do what her Master explained, go to Jiang Yang, and pretend not to know anything about him.

"If my Master encounters any accident, Yaoyao will not let Jiang Yang go....."

She said softly, and there was a flash of Peach blossom light in the middle of her eyebrow.

And several days passed in the twinkling of an eye.

Netherland Heavenly Pond, as its name suggested.

This was a vast and boundless clear Heavenly Pond, located on the top of a Divine Mountain, covering a radius of nearly 8,000 miles.

Among them, the light and shadow were gorgeous, with layers upon layers of mists lingering, making it appear ethereal and sacred.

Going down this divine mountain, one could see all kinds of laws, veins and divine patterns, as if they were natural, and densely distributed in all directions of the mountain.

It was towering and ancient, giving people a terrifying pressure.

In a deeper place, there was also a pervading Chaotic aura, like a land of open sky.

It was rumored that there was an invincible creature from the beginning of time, who had since ascended from here to the Upper Realm. Later generations even said that this creature had become an Immortal and was so powerful that it was unknowable.

Under all kinds of rumors, Netherland Heavenly Pond was considered extremely mysterious.

What was more, some people even said that the Netherland Heavenly Realm contained unparalleled Immortal power, which could make people transcend.

In the history of the Heavenly Star Realm, almost every year, cultivators with very little lifespans rushed to this place to transcend, intending to prolong their lifespan and live another life.

Of course, all the cultivators who came, no matter what their cultivation level was, all of them ended up bleeding outside the Heavenly Pond, and they couldn't get one step closer at all.

Some people even said that there were ancient beings living in it, one word could break the sky, and a single sentence could break the ground.

"In the past few days, there have always been earth-shattering movements in the Heavenly Pond... and it was also accompanied by dazzling green clouds. What happened?"

"Could it be that there is an Immortal in this Heavenly Pond? It's a pity that with our cultivation base, we can't even get close."

On the mountain far away from the Heavenly Pond, there were many cultivators and creatures from the Heavenly Realm gathering here.

They looked at this place in shock.

The thick chaotic air rolled, accompanied by the dazzling green clouds, the brilliance of the sky shone all over the place, and faintly, everyone also heard the wonderful sound when the world opened up.

Although they were far apart, many people had made breakthroughs under this voice, and their cultivation had improved in a large arc.

Many cultivators who missed these Dao sounds had their guts turning green with remorse.

So in the past few days, the area around the Netherland Heavenly Pond has become very lively.

### **Boom!**

There were chariots, warships, and flying boats rolling all over the sky, making shocking sounds.

Many powerful cultivators had arrived, but those without strength could only be on the outermost side, and they couldn't even get close.

Some extremely powerful forces came with divine artifacts, but in the end, they were only close to the outermost part of the Heavenly Pond.

Occasionally, some fluctuations came, which caused everyone's blood to tumble, almost vomited blood, and suffered serious injuries.

"There is a change here. It is said that even the Immortal who is in the Immortal Lun Sect is here. A few days ago, someone saw a golden divine light from the void coming through here, just like the Dao of heaven and earth..."

"That posture was too scary. A road appeared directly, tore everything apart, and extended into the depths of the Heavenly Pond. The figure above seemed to be the mysterious Immortal from the Upper Realm."

"Really? It seems that what appeared in the Netherland Heavenly Pond this time is not simple. Even the Immortal was disturbed..."

"Yeah, it can't be wrong."

"At that time, there seemed to be an earth-shattering battle that broke out. The sound was so terrifying, and even if it was so far away it still made my legs feel weak."

Many cultivators were talking about the big things that happened here these days.

In particular, the matter of the Immortal attracted countless people's attention.

**Boom!!**

However, just as all the cultivators were discussing, from the depths of Heavenly Pond something suddenly rushed to the sky with blood.

There seemed to be an accident there.

There were terrifying roars and slaughtering sounds, which spread outside.

Faintly, everyone saw the place shrouded in fog.

A figure shrouded in Immortality was fighting with a vague invincible existence, with a terrifying momentum, and when he raised his hand, there were all kinds of laws and rules, as if it could overturn everything in the radius of ten thousand miles!

Afterwards, everyone's eyes widened when they saw the shocking scene.

Even their scalp went numb!

The blood almost solidified, and their soul trembled to the extreme.

Then the blood light broke through the sky!

The figure of the Immortal exploded from it, and tore apart.

There was a monstrous bloody aura coming from that place.

"This....."

"Even the Immortal has fallen into it..."

"How can that be....."

"This Heavenly Pond is too dangerous, even the Immortal is dead, we have to leave, we can't stay here any longer..."

In response, everyone's spirits were trembling, and they were terrified.

Soon the news of the mysterious Immortal rushing to the Netherland Heavenly Pond and his suspected fall caused a sensation in the entire Heavenly Domain, causing an earthquake-like terrifying wave.

### **Chapter 233-1: Master is so strong that it is impossible for him to die, Fine then you can die (1)**

"Impossible, Master is so powerful, how could he fall there, this must be fake, impossible..."

"I don't believe it, I'm going to find my Master."

In the Immortal Lun Sect, Yaoyao's face was pale, her eyes were red and swollen, her little hands were clenched in her sleeves, it was very cold, she couldn't believe that these rumors were true.

In the Netherland Heavenly Pond, her incomparably powerful Master was suspected to have fallen into it?

Beside her, Granny Yinhua's face was also bitter and helpless, and she couldn't believe it either.

Because that Immortal had made a deep impression on her.

He had an unfathomable and terrifying confidence in every gesture.

How could such an existence fall there?

But the moment they heard this news, the jade pendant that Immortal had left for Yaoyao cracked.

All of these confirmed the authenticity of this news.

Therefore, she was even more bitter.

"Yaoyao, Mr. Immortal may not have really fallen. It's just a suspicion. At that time, it was very far away, and no one saw him really fall there..."

Afterwards, Granny Yinhua said and comforted Yaoyao, wanting her not to be too sad.

But she didn't even believe these words.

Although no one saw it with their own eyes.

But in the public, that earth-shattering terrifying phantom, unless their eyes were blind, who couldn't see it?

What she said was like only holding a fluke-like fantasy, that's all.

Hearing these words, Yaoyao's face was still pale, and at this moment, she was almost unable to stand still.

"Wooooooooo..."

Then, tears poured out of her eyes, like beads with a broken thread and they couldn't stop at all.

"Master, he is so powerful, he cannot die... He promised Yaoyao that he would not leave Yaoyao..."

She murmured, recalling in her mind the days she had spent with Master over the past few days.

He saved her and her grandma from the Black Wind Bandits.

Accepted her as his disciple and taught her cultivation techniques.

He took her through the ancient cities, across the sacred mountain, the forbidden area...

The man who was extremely gentle to her, who gave her infinite warmth and peace, and made her understand the beauty in this world.

The mountains and rivers were magnificent, the lights were brilliant, the wind and the clouds were light, the snow was bright and spring.

How could he just leave like this?

Did he just throw her away?

At this moment, Yaoyao felt that her eyes were getting dark.

She didn't want to believe that it was all true.

"Master, he knew that the Netherland Heavenly Pond is so dangerous, and he still went there..."

"This is all planned by Jiang Yang in advance. He told Master about this. And my Master clearly knew this, so he still wanted to go."

"He must have been forced for some reason... I won't let Jiang Yang go!"

Afterwards, Yaoyao calmed down and wiped away her tears, as if she had suddenly grown a lot.

She decided to go to the Netherland Heavenly Pond to find her Master.

Live to find his corpse to confirm his death.

She didn't believe that with her Master's strength he would really fall into it.

When she heard Yaoyao's decision, Granny Yinhua was shocked and unbelievable, but from Yaoyao's expression, she saw determination.

"Huh, if Mr. Immortal knew about it, he wouldn't let you risk it..."

She shook her head and sighed.

She understood that the current Yaoyao was completely different from the little girl who would hide behind her when she met a bandit.

She had become more mature and sensible, and no one could stop her.

"Your grandma supports you, Mr. Immortal is so kind to you, how can we ignore him when he has done so many things for us?"

Afterwards, the silver haired granny's smile became somewhat relieved.

And she didn't even notice that after Yaoyao made this decision, there was a faint pattern of Peach petals between her brows, glowing brightly, and then quickly disappearing.

Yaoyao had an ethereal aura on her body, as if she could fly away at any time.

During this period of time, what happened in the Netherland Heavenly Pond, quickly swept through the entire Heavenly Domain like a storm.

Countless forces and cultivators were shocked, horrified, and couldn't believe that such a big thing happened.

The mysterious Immortal from the Upper Realm who destroyed the Sacred Mountain at will, and finally rushed to the Netherland Heavenly Realm, and was suspected to have fallen into it.

On that day, the blood shone into the sky, reflecting the sky outside the Netherland Heavenly Pond, accompanied by a terrifying phantom that made countless hearts palpitate and terrified, they fought there, and a monstrous war broke out.

During this battle, many cultivators witnessed the figure of the Immortal from the Upper Realm getting torn apart, and finally the aura disappeared.

This news was way too scary.

The news of a miraculous phenomenon in the Netherland Heavenly Pond caused a sensation in all directions, causing many forces and cultivators to rush to it, but now there was a more terrifying atmosphere there.

Even the sky seemed to have turned bloody.

Even the Immortal could bleed here.

If they went, would they be any better than Immortal? It would only be worse in the end.

For a time, many cultivators and creatures retreated and hurriedly evacuated from the Netherland Heavenly Pond, daring not to stay there.

Even if a fetish was born, it must be taken with a life!

This incident directly made the Netherland Heavenly Pond in the Heavenly Domain thousands of times more terrifying than the restricted area!

Within a radius of 10,000 miles, no creatures or cultivators dared to approach.

.....

"What a stupid and arrogant guy, do you think you will be invincible when you come to the Lower Realm? Didn't I kill you in the Netherland Heavenly Domain in the end..."

At the same time, among the tall ancient trees, between the vast and magnificent mountains.

On the road in the remote town, Jiang Yang, who looked indifferent and wore a long gown, was smiling. While hearing the news from all sides, he couldn't help but say this.

He looked extremely confident, as if everything was under his control.

In his eyes, this was exactly how things should be.

After all, this was his calculation for Gu Changge.

How powerful was it?

Didn't he get killed by the pit he left behind?

In Jiang Yang's view, Gu Changge was extremely conceited, boasting that he was from the Upper Realm, showing contempt and indifference towards the creatures from the Lower Realm, and he didn't care.

Therefore, once he heard that a divine object was born in the Netherland Heavenly Domain, Gu Changge would definitely rush there immediately, even if he knew it was a conspiracy, he would not care.

Jiang Yang knew Gu Changge's temperament, so he was even more certain.

As a person from the Upper Realm, with Gu Changge's vision, he would definitely know that the thing in the Netherland Heavenly Pond was precious, so it was even more impossible for him to give up.

Even if he knew that there was probably a fire pit ahead, he still had to jump.

Moreover, it was impossible for Gu Changge to know that Netherland Heavenly Pond was actually related to him, and many of the traps were arranged by him back then.

It was not an exaggeration to say that except for Jiang Yang, any other creature who dared to easily set foot on the Netherland Heavenly Pond would only face a dead end.

Gu Changge was no exception.

"That Immortal from the Upper Realm was actually killed by Jiang Yang..."

Behind Jiang Yang, Zhao Yi, who was acting as a maid holding a sword.

Hearing these words, her eyes suddenly widened, and she was extremely shocked, and her heart set off a storm.

She really did not expect that with just a few words and orders from Jiang Yang at that time, the mysterious and powerful Immortal would be killed in the Netherland Heavenly Pond.

This terrifying and unpredictable method made her back feel cold, and she couldn't help shivering.

At the same time, the reverence for Jiang Yang in her heart had increased by several levels.

Jiang Yang was really unfathomable!

### **Chapter 233-2: Master is so strong that it is impossible for him to die, Fine then you can die (2)**

The terrifying power of that Immortal from the Upper Realm at that time was still vivid in her eyes, but in the blink of an eye, he had fallen into the Netherland Heavenly Pond.

Thinking of this, Zhao Yi couldn't help but sigh. Although Jiang Yang's cultivation was not as good as that of the Immortal, these methods were far more terrifying than his cultivation.

"A mere Immortal from the Upper Realm, what's your qualification?"

Jiang Yang noticed her expression, and couldn't help but smile lightly. In his words, he had already forgotten about Gu Changge in his heart.

In his eyes, Gu Changge was now a dead person.

According to the news that came, even if he didn't die, it would be soon anyway. How could his methods be able to compete with ordinary people?

Gu Changge had previously bullied him because of his profound cultivation.

Jiang Yang still remembered that he was not a narrow-minded person, but some hatred must be avenged.

Especially when Gu Changge blocked his way.

"It's a pity that I didn't kill him myself..."

Jiang Yang shook his head slightly, and quickly put the thought aside.

In his past reincarnations, he actually encountered quite a few enemies like Gu Changge, and the final outcome was similar to Gu Changge.

Either they were killed by his own hands, or they were solved by his many tricks, which could not hinder him in the slightest.

And what he had to do next became much easier.

"The descendant of the Human Ancestor Hall in this life is a cautious generation. Even the agreed location is so far away from the Immortal Lun Sect. Are they afraid of the so-called Immortal?"

And soon, three days later, Jiang Yang took Zhao Yi through many mountains, and finally arrived at the agreed place.

This was a valley that looked extremely vast, and the surrounding mountains looked extremely majestic, with towering ancient trees and intertwined vines.

In the middle of the valley, there was an emerald-like blue lake.

After getting here.

Jiang Yang's brows couldn't help but wrinkle, and he felt a sense of danger in the dark.

An existence like him almost instinctively believed in the aura in the dark.

"Could there be any surprises?"

Jiang Yang frowned secretly, but this time he was not empty handed when he left Immortal Lun Sect, so he didn't care too much.

He had been through too many things.

Even if there was an accident, he could confidently settle it.

"I'm here, come out?"

Then, he spoke lightly and swept towards the mountain range ahead.

He had already sensed that there were fluctuations coming from there.

Obviously the person who invited him here was in the middle.

And with Jiang Yang's words falling.

Whoosh whoosh!

Figures appeared from all around, all dressed in golden armor, with powerful aura, and amazing killing intent.

"Someone from the Upper Realm."

"How can that be....."

Noticing the special aura fluctuations on these people, Zhao Yi's complexion couldn't help but change. He didn't expect Jiang Yang to come here, but it was someone who came from the Upper Realm.

What the hell was Jiang Yang's identity?

And at this time, Jiang Yang was still calm, not surprised at all, which shocked Zhao Yi even more.

Jiang Yang's origin was probably far more frightening than she imagined.

"What about the Master behind you?"

Jiang Yang didn't care about the status of the Upper Realm of the group of golden armored warriors in front of him, and said indifferently, "Let her come out to see me, it took a lot of trouble, but why is she so vigilant?"

He said in the language of the Upper Realm, not from this realm.

Fortunately, Zhao Yi had a strong cultivation base and could understand what he was saying. So she wasn't confused at this time.

"Master is in Huxin Pavilion, please come in person."

The Golden Armored Warrior at the head looked at Jiang Yang with a scrutiny, as if he wanted to be sure, and then said so.

Hearing this, Jiang Yang frowned. He personally came here to give some face, but at this time, she still hadn't come out to greet him?

This made him unhappy.

However, on the surface, there was still an indifferent expression, which could not show any emotion.

In his opinion, the descendants of the Human Ancestor Hall in this life were probably arrogant and had a somewhat unruly temperament, so they were not willing to submit to him like this.

Thinking like this, Jiang Yang figured out the unease he had just felt.

Maybe things would be less simple today.

But he didn't mind teaching a lesson to the descendant of the Human Ancestor Hall, so that she could understand the truth, how to greet the Elders, and how to greet the Human Ancestor.

"I hope she doesn't regret her disrespectful act today."

Jiang Yang said lightly, then took Zhao Yi and followed behind the group of golden-armored warriors, and headed toward the Huxin Pavilion.

As for the strange expressions of the group of golden-armored warriors around him, Jiang Yang didn't care.

At this time, he also wanted to understand why the current descendant of the Human Ancestor Hall asked him to come to such a remote place.

Instead of going to Immortal Lun Sect to visit.

All kinds of actions were extremely concealed and did not reveal any movement.

Wasn't this a sign of disobedience?

Soon, Jiang Yang saw the figure waiting in the Huxin Pavilion.

Although her face was covered with a veil, it was difficult to hide the peerless Immortal face, her expression was calm and deep, and the temperament was extremely detached and out of the world, with a kind of peerless meaning above all living beings.

She was looking at him with a strange expression.

It was Yue Mingkong who had been here for a long time and planned to catch a turtle in the jar.

She didn't expect him to come here, and after sending the letter, Jiang Yang actually believed it and left Immortal Lun Sect to come to the appointment.

Although there were some doubts and confusions.

But it didn't affect Yue Mingkong's idea of ??killing Jiang Yang.

So... she set up a net of heaven and earth here, which was a thousand times better than the last time she planned Ye Ling.

Even if Jiang Yang's methods were heaven defying, even if he didn't die this time, his skin would get peeled off.

"This is the current descendant of the Human Ancestor Hall? No wonder they would do such a thing."

When Jiang Yang looked at the figure in the Huxin Pavilion, he was a little surprised.

He had always been very accurate.

From the perspective of temperament, he could infer it from the stunning woman had in front of her.

She was probably unwilling to succumb to him.

So Jiang Yang didn't really care. He had met a lot of women with such a rebellious temperament before, and he knew how to make them surrender.

"You are Jiang Yang?"

And just when Jiang Yang's many thoughts passed by.

The woman in the Huxin Pavilion also spoke up, her voice was like the sound of nature, but it contained a cold killing intent.

"I'm Jiang Yang." Jiang Yang said indifferently, "That's the person you've been looking for."

"Are you the descendant of the Human Ancestor Hall of this lifetime?"

When he confessed his identity at this time, it was not a sign of his self-confidence, and he didn't worry about the other party's intentions at all.

"Fine, then you can die!"

However, Yue Mingkong only frowned upon hearing this, and did not answer him.

Then, accompanied by her words.

She suddenly waved her sleeves, her expression indifferent to the extreme.

**Boom!**

The mighty terrifying aura came from all directions, the blood was surging, covering the sky and the sun, and it was incomparably vast.

From all sides of the mountain range, many golden armored warriors descended like a torrent, suddenly attacking them.

**Chapter 234-1: Finally it's time to reap benefits, The Immortal Lun Sect wouldnt last (1)**

"Not good....."

Zhao Yi's expression changed, and turned a little pale, "These warriors are all God Kings, and there are also many cultivators in Quasi-Sacred and Sacred Realm."

Her words trembled.

Not to mention Sacred and Quasi-Sacred, even the ones in the Great Sacred Realm had appeared, and they wanted to kill Jiang Yang.

A Great Sacred Realm cultivator was already the pinnacle of power in the Heavenly Star Realm as it was today.

Except for the Immortal Lun Sect, the rest of the forces absolutely did not have a Great Sacred Realm cultivator, and their background was much worse.

But now, with a wave of the opponent's hand, there were many strong cultivators appearing to kill Jiang Yang.

Just now she thought that this group of people was here to greet Jiang Yang, but she didn't expect that the other party was already waiting here, planning to kill Jiang Yang.

This scene made Jiang Yang frown. Although it was unexpected, it didn't go deep.

"How dare you attack me! You will regret it."

He said lightly to Yue Mingkong, at this time, he thought that Yue Mingkong was the descendant of the Human Ancestor Hall.

"Stop talking nonsense, you must die today!"

Yue Mingkong's response was very short and indifferent. Between the sky and the earth, a thick fog began to appear as the surroundings blurred, like a chaotic mist, shrouding the place.

At the same time, she unfolded a golden decree!

**Boom!**

The world was shaking!

From the decree, there was a sword intent rising into the sky!

In the blink of an eye, a sword traversed the sky, chaos filled the air, as thick as a mountain, like billions of stars erupting at once.

That vast and terrifying energy was enough to destroy everything and the aftermath alone turned many peaks around the valley into dust.

At the same time she acted, wanting to kill Jiang Yang and take his life!

**Rumble!**

Her robe spread out, the radiance was bright, and the five-color divine light rushed to the sky. The giant mountains next to it were lifted up, and then turned into powder in the air.

"This....."

"Aren't you a descendant of the Human Ancestor Hall?"

Seeing this, Jiang Yang frowned and then his calm expression suddenly changed.

He was not stupid, no matter how he looked at this time, he felt that the other party had nothing to do with the Human Ancestor hall.

It was purely intended to kill him.

All his previous guesses were wrong!

And he actually stupidly sent himself to the door?

This made Jiang Yang's expression a bit ugly and things were out of his control again.

Before that, who told him that there was the secret method of the Human Ancestor Hall?

"Damn it, who is trying to trick me?"

At this time, Jiang Yang didn't have time to react. With his current state, it was impossible to resist such a blow.

Not to mention that there was a group of Golden Armored Warriors around.

It was a net of heaven and earth!

**Buzz!!**

Thinking of this, Jiang Yang's complexion also became very cold and he began to pinch his fingers together.

Rays of light rose behind him one after another.

It was brilliant and dazzling, atmospheric and majestic, as if the sun had risen.

That was a golden seal, incomparably blinding, that suddenly appeared in the high sky, and then suspended there. With wisps of divine light, it was made of the most powerful laws.

With this, even the continents could easily collapse.

It was just that with his current strength, it was difficult to use the Supreme weapon at its full power.

"Immortal Lun Seal?"

Almost immediately, Yue Mingkong recognized this weapon, the Supreme power in it was awakening, to explode the might of the Supreme weapon!

In the entire Heavenly Star Realm, there was definitely only one of these!

It was the Supreme weapon of Immortal Lun!

But she didn't panic, instead she became colder and colder.

**Clang!**

**Clang!**

**Clang!**

With a sound like a heavenly weapon being forged!

An aura of divinity and transcendence permeated this place.

She sacrificed an incomparably Sacred Golden Divine sword which the gods and goddesses used to revive on their own and did not need her to use it.

"Quasi-Supreme weapon..... You are rather well prepared....."

"Who the hell wants to kill me....."

Jiang Yang's expression changed once again, and the Immortal Lun Seal, which he used to carry around to protect his life, seemed to be useless.

**Rumble!**

Soon, the place instantly erupted terrifying incomparable fluctuations, as if one star after another exploded, more like one star field after another turned into dust.

It was more like a billion chaos waves slapping, like a heavy universe smashing down, directly making the void here shatter!

**Boom!**

In the next moment, Jiang Yang spat blood and flew backwards. Covered in blood, his body exploded and smashed a large mountain. His injuries were extremely heavy and he looked incomparably wretched.

Not only did he suffer from the attack of Yue Mingkong, but he also had to watch out for the golden-armored warriors attacking around him.

He had the Supreme weapon with him, but it was difficult to use one ten thousandth of its power.

He couldn't even resist the opponent's Quasi-Supreme weapon!

"Who the hell are you?"

"Why are you attacking me?"

Jiang Yang coldly shouted, wanting to know where Yue Mingkong came from.

But Yue Mingkong was not moved as she still attacked, feeling that today might be her only chance to wipe him out here and remove this big trouble for Gu Changge!

And this time, Jiang Yang also made the most correct choice..... He once again gritted his teeth, reluctantly broke the seal on the Reincarnation Seal, and then fled to the distance!

Jiang Yang stepped on the great momentum of this place and broke through the immediate obstruction with the Immortal Lun Seal. Except for Yue Mingkong who was holding the Quasi-Supreme weapon, the rest of them could not stop him at all.

"Jiang Yang, save me....."

He even had the means to take the incomparably miserable Zhao Yi on the other side with him, intending to break out of the heavy siege.

Yue Mingkong naturally noticed Jiang Yang's move to break the Reincarnation Seal.

For the reincarnation of the Human Ancestor, the Reincarnation Seal was something more important than life.

Because not every reincarnation could cultivate the Reincarnation Seal.

This showed that Jiang Yang had panicked and confused himself, unable to prioritize!

"Pass my order to the Sacred Mountains and forbidden areas to launch a secret revolt, targeting directly at the Immortal Lun Sect....."

"Its disciples are the thief of the Sacred Mountain's spiritual objects, make them hand over Jiang Yang!"

Then, Yue Mingkong's eyes became cold, her jade hand waved and instructed the people behind her.

She intended to delay the return of the Human Ancestor, now that she shattered his Reincarnation Seal to borrow power, that was just what she wanted!

After that, Yue Mingkong herself continued to chase and attack, not intending to let Jiang Yang go.

If she could really kill him, that would be great.

.....

And just when many cultivators and forces in the outside world panicked, talking wildly.

Deep inside the Netherland Heavenly Pond.

The Immortal mist was indistinct, appearing incomparably blurred, the pool water was clear, among which an incomparably tall Green Lotus was growing, the Lotus leaves were like face pots, absorbing the essence of heaven and earth, the sun and moon and stars.

Wisps were flowing here, as if into a blanket of waterfalls.

Accompanied by the monstrous demonic aura.

A vague and slender figure, entwined with an Immortal and demonic aura, was seated here.

Above his head, there was a big treasure vase floating, the dark light was flickering, and the big vein intertwined into the heaven and earth scriptures, which looked mysterious and terrifying.

If a cultivator saw this scene, he would be shocked beyond belief.

It would be hard to believe that deep in the Netherland Heavenly Pond, there was still someone there.

### **Chapter 234-2: Finally it's time to reap benefits, The Immortal Lun Sect wouldnt last (2)**

Of course this figure was naturally Gu Changge.

He closed his eyes slightly, there were black and white divine lights flowing out from his eyes.

A black rune was struck by his hand, branded in eight directions, like a small bright black sun, intending to turn the momentum of this place.

Soon, after completing these.

Gu Changge opened his eyes, looking somewhat puzzled.

"Surprisingly, I somehow received Jiang Yang's Luck points again. It seems that Yue Mingkong's plan has succeeded, with her methods. Even if Jiang Yang wants to escape, I'm afraid he will have to lose a layer of skin."

"In that case, it is also considered a blow to Jiang Yang's luck."

Gu Changge also planned to have Yue Mingkong help him stall Jiang Yang for a few more days.

It was just that, from the system's prompt, it seemed that he had underestimated Yue Mingkong's tactics.

By this time, Jiang Yang had already been hunted by her.

Under Gu Changge's calculation, Jiang Yang thought that the heir of the Human Ancestor Hall was looking for him, so he left the Immortal Lun Sect where he had been cowering and came outside.

As a regressor, Yue Mingkong should know a lot about Jiang Yang's methods, and under her layers of arrangement, Jiang Yang would have to honestly admit his fate even if he was the reincarnation of the Human Ancestor.

But with the means of Yue Mingkong, if she wanted to kill Jiang Yang, it was very difficult.

"But it seems that the Human Ancestor has gone to great lengths for the things in the Heavenly Pond, to the extent that he even destroyed his Reincarnation Seal, tsk tsk ....."

"Just the outermost layer had a whole three Great Sacred Realm vicious beasts, a Great Sacred Realm headless horseman guard....."

"It's just a pity that this little tactic can stop others, but not me."

Gu Changge swept over the many runes nearby and did not touch them.

These days, the outside world had caused those sensations, naturally, he also noticed them.

With his current means, it was actually not difficult for him to sneak into the deepest part.

When he was within the Ancient Immortal Continent, he had snuck in front of the eyes of countless old demons and old antiquities.

He was also able to calmly venture inside the Immortal Gate and snatch the Immortal Spirit away, without anyone noticing.

The arrangement within the Netherland Heavenly Pond was actually much worse than the one inside the Immortal Gate.

After all, the environment of heaven and earth was completely different, the rules of this place would not allow too much power beyond the burden of this world.

It could be said that the difficulty instantly dropped many times.

Gu Changge himself was proficient with spatial talent and incomparably good at concealment.

So he thought about it and created the illusion that he had fallen outside, which by the way could conceal the rest of the Human Ancestor's arrangement.

On the other hand, he could also let the outside beings and cultivators know that they should not come up and disturb his plans.

Of course, Gu Changge also took his plan into consideration. Wasn't Jiang Yang going to scheme against him?

Then this was exactly what he wanted, he could just take advantage of this time to cut off the opportunity that Jiang Yang had worked so hard to plan for many lifetimes, wouldn't that be wonderful?

Also for the breakup between Yaoyao and Jiang Yang, he tore the dough and poured the last oil.

Gu Changge now only had to sit here and reap the benefits, waiting for Jiang Yang to come here to deliver his head and reap the last wave of his remaining points.

**Boom!**

Afterwards, the Eight Desolate Demon Halberd appeared and took the initiative to recover.

With the monstrous demonic power, it wiped out many of the runes in front of him.

Gu Changge continued to take action, changing the general laws and making these runes for his use.

In the deepest part.

A very special Green Lotus was propping up the Lotus leaves, and strands of Chaotic energy were entangled on it, it was deeply rooted in the bottom of the lake, as if it wouldn't sway even if the sky and the earth were dead, and the universe was dead.

Nirvana Green Lotus.

It was just that it was not mature yet.

Looking at this thing from a distance, various thoughts flashed in Gu Changge's mind.

One last buzz!!

He chose to move forward, even if it was not mature, he had to occupy it first!

The Great Dao treasure bottle emerged actively, defending him against its terrifying pressure.

His bones rattled.

Gu Changge even heard the rumbling sounds of the ancient worlds spinning.

As if it could crush people to pieces.

But as the Great Dao treasure bottle fell, the Lotus leaves spread out one by one, and he fell into it one step at a time, and then he sat cross-legged.

The Lotus leaves closed, and all the aura fluctuations gradually disappeared.

On the open and boundless lake, soon only a Green Lotus was left standing and taking root.

It was silent.

And Gu Changge's current state was very strange.

His demonic heart throbbed, blood spurted out, and made a terrifying sound like a giant drum.

At the same time he felt a desire to devour it!

In a trance, Gu Changge saw a thumb-sized lotus seed with mysterious ancient traces wrapped around its surface.

It seemed to be the embodiment of the Great Dao, and it was also the cohesion of the laws.

Like floating in the boundless void.

Surrounded by a Chaotic aura, at the beginning of time, it could even display the traces from the long river of time.

The prototypes of the worlds, as the lotus seeds fell, bloomed in the Chaos, and then evolved into a vast world.

But in the end, as he opened his mouth and swallowed this lotus seed, the terrifying black hole engulfed the universe.

Many pictures began to collapse and shatter.

His Inner World, at this time, began to evolve.

Level up!

His Inner World had transformed into the Inner Universe!

Gu Change's most direct feeling was that he could control the power of the world!

The palm of his hand contained the universe, his fist embraced the universe!

Even his cultivation base had broken through to the Great Sacred Realm!

"What's going on? What happened?"

"This aura... Could it be that thing... Was it finally acquired by this devil?"

"Has the plan of the Human Ancestor become a gift for someone else?"

Jiang Chuchu, who was in the Inner World, saw that the Inner World was being submerged by the turbulent Chaotic energy, and only the Heavenly Court standing in the sky remained unchanged.

At this moment, she couldn't help but be shocked and couldn't keep calm.

In the end, her complexion turned pale and she sat down on the bluestone like a slump.

She was driven to distraction.

"Impossible, haven't I already warned the reincarnation of the Human Ancestor? Are all his tricks useless?"

Jiang Chuchu couldn't believe what she saw.

Or was it that Gu Change had become so powerful that he could ignore Human Ancestor's many tricks?

She couldn't stop it at all.

Everything was evolving in the direction Gu Change said.

.....

In the next few days, a major event that swept the entire Heavenly Domain happened again, alarming many forces and ethnic groups.

Countless cultivators and creatures were so frightened that their faces turned pale.

A terrifying secret revolt suddenly occurred.

There were no signs.

In the major Sacred Mountains and forbidden areas, there were ancient beings who said that there was a young disciple in the Immortal Lun Sect who stole their Sacred object and asked the Immortal Lun Sect to hand him over.

Many terrifying old antiques, whose cultivation base had reached the Sacred Realm, had begun to recover, and they were approaching the mountain gate of Immortal Lun Sect.

Many people speculated that this incident might just be an excuse, and that the disciple was just a small lead.

In fact, the major Sacred Mountains and forbidden areas had always wanted to attack the Immortal Lun Sect.

It was just that it hadn't started yet.

"Now even the Immortal Lun Sect can't last for long... Why did the phantom left by the Immortal Lun disappear?"

In the hall of Immortal Lun Sect.

The atmosphere was depressing and heavy.

Jiang Yang, who used many means along the way to escape back to the Immortal Lun Sect with heavy injuries, felt a strong malice right away.

The major Sacred Mountains and forbidden areas were forced to come, they were obviously ordered by the mysterious woman who almost got rid of him that day.

Jiang Yang originally planned to arouse the phantom of the Ancestor of Immortal Lun Sect and cooperate with Immortal Lun Sect to fight against the mysterious woman, but he failed.

Because the phantom of the Ancestor Immortal Lun seemed to have disappeared, and he was not moved by him at all!

This incident made his identity in the Immortal Lun Sect suddenly reversed.

Moreover, the matter of him stealing the Immortal Lun Seal was noticed by many elders in the Immortal Lun Sect.

Under the internal and external troubles, there were almost big problems.

This made Jiang Yang's complexion very ugly, and he was no longer as indifferent as before. He felt that someone was secretly plotting against him!

"No, at this time, I have to go to the Netherland Heavenly Pond..."

"Immortal Lun Sect wouldn't last..."

## **Chapter 235-1: I learned to oppress others from Gu Changge, The power of the Nirvana Green Lotus Body (1)**

"Jiang Yang, what the hell is going on here? Why are all the major Sacred Mountains and forbidden areas saying that you stole their divine object?"

In the hall, the atmosphere was oppressively silent like a volcano that was about to erupt.

All the Elders and disciples were angry, frightened, uneasy, and panicked, as if a great calamity had appeared.

The Holy Master of the Immortal Lun Sect was the first to speak up.

His face was also very gloomy and angry as he was staring closely at Jiang Yang, wanting to see through him completely.

Now outside the Immortal Lun Sect, all the major Supreme existences were converging, bringing a vast number of cultivators from Sacred Mountains and forbidden areas, descending in front of the mountain gate, demanding them to hand over the disciple who stole the divine artifact that day.

The secret revolt was said to have started leading all the way to the bloodbath. This had alarmed the entire Heavenly Domain, countless cultivators and forces moved to be emboldened.

And the cause of all of this was Jiang Yang.

Although the outside world was saying that this scourge had in fact already planted the root of the disaster, Jiang Yang's matter was only a small trigger. The major Sacred Mountains and forbidden areas wanted to take advantage of the opportunity to send chaos.

But the Immortal Lun Sect was very clear, this matter was actually not related to the Immortal Lun Sect at all.

All of it was Jiang Yang's fault!

They had the Supreme weapon as their trump card, unless those forbidden areas and Sacred Mountains were really stupid, at this time, they wouldn't dare to fight on their mountain.

Now they did not care in the least..... it could only mean that Jiang Yang made the major Sacred Mountains and forbidden areas angry to the extreme. They already didn't care if the Immortal Lun Sect had the Supreme weapon!

A few days ago, Jiang Yang was covered in blood, wretched from outside the mountain gate and escaped back, Holy Master of the Immortal Lun Sect still remembered it. Even the Supreme Elder Zhao Yi, also appeared to be seriously injured.

What did this mean?

It meant that the two sneaked into those forbidden areas and the Sacred Mountains and stole their divine objects, even the Supreme weapon was also carried by the Supreme Elder Zhao Yi.

This statement was unanimously approved by a group of Elders from the Immortal Lun Sect.

"Jiang Yang, you must give us an explanation for this matter, otherwise you will be suppressed and sent outside!"

Several Elders opened their mouths and snapped, their expressions were cold, and they were not ready to suffer this unwarranted implication because of Jiang Yang's relationship.

"Yes, it's all this guy's fault, he is the one who brought us this scourge, if the major Sacred Mountains attack, who can stop it? Now even the Ancestor's phantom is not manifesting!" Some Elders were angry.

"I think Jiang Yang was just lucky to deceive everyone in the first place, why don't we take this opportunity to expel him from the sect, otherwise it will cause even more terrible calamities!"

For a while, the hall was filled with the voices of scolding and blaming.

And at this time, the only one still standing beside Jiang Yang was the Supreme Elder Zhao Yi, but her majesty was no longer the same as before, and several Supreme Sacred Realm Ancestors were present.

Her words were not effective at all.

Zhao Yi had the intention to help Jiang Yang, but it was useless.

She was also the only person who still believed in Jiang Yang, after all, she witnessed Jiang Yang being ambushed and getting attacked by the mysterious woman from the Upper Realm that day.

But what was the use of her explanation?

Even her position as the Supreme Elder was not stable anymore.

"The major Sacred Mountains have framed me, and you guys actually believe it, now even if the Phantom of the Immortal Lun Ancestor does not appear, with the Immortal Lun Seal suppressing everything, do you still need to care about the major Sacred Mountains and forbidden areas?"

This scene made Jiang Yang, whose face was already not very good, even harder to see.

It was really a family banter.

Now even the Immortal Lun Sect was messing with him.

The fortune of the entire Immortal Lun Sect gradually shifted and no longer fell on him.

Jiang Yang even felt that in the dark, it was like there was an invisible hand that took away his fortune.

This made him feel uneasy.

It was the first time that this feeling was so strong and he had never encountered it before.

However, Jiang Yang was so strong-minded that he was still forcing himself to calm down.

"Who is really counting on me? The mysterious woman that day, what exactly is her origin? Why did she already know my identity?"

His heart was gloomy.

"It's useless to talk more, at this time, you still want us to be implicated by you? To take the blame for what you have committed?"

Hearing these words of Jiang Yang, the expressions of the rest of the Elders in the main hall changed drastically and they looked even more furious.

It was close to pointing at Jiang Yang and cursing for his shamelessness.

The Immortal Lun Sect had kindly cultivated him, but he had not only caused trouble for the Immortal Lun Sect, but at this time, he still acted as if he was rightfully prepared to let everyone bear the burden along with him?

What the hell was this? Even the white-eyed wolves were not like this.

Jiang Yang smiled, frowned even more tightly and shouted, "Shut up, it's just a bunch of fools who can't tell right from wrong."

The Ancestor of the Immortal Lun Sect had a great connection with him, and he had even helped him to enlighten the clan back then.

Without him, where would the Immortal Lun Sect be?

How dare these fools turn around and blame him now?

"Arrogant!"

"You are seeking death!"

It was fine if Jiang Yang didn't speak, but as soon as he did, the crowd was even more shocked and angry, their faces turned iron blue, not expecting him to dare to be so arrogant.

The day Jiang Yang offended that mysterious Immortal from the Upper Realm, it already made many people angry with him, but because of the identity of Yaoyao, they did not dare to blame Jiang Yang too much.

Now with his temperament, he really wanted to invite a big disaster for the Immortal Lun Sect!

"At this time, there is no need to say more, someone, bring Jiang Yang and escort him to the mountain gate and hand him over to the people from the Sacred Mountains and the forbidden areas."

"From today Jiang Yang is expelled from the sect, what he did has nothing to do with my Immortal Lun Sect."

At this time, the Holy Master of Immortal Lun Sect, whose face was already hard to see, waved his big hand and said directly to forcefully take Jiang Yang down.

As his words fell, strong auras of several Elders immediately surged in the middle of the hall and surrounded Jiang Yang in unison.

"Stop....."

Seeing this, Zhao Yi's expression changed slightly to make a move to stop it, but a Supreme Sacred realm Elder coldly snorted and his big hand probed out towards her to be treated as a traitor.

Recently that mysterious Immortal from the Upper Realm was suspected of falling within the Netherland Heavenly Pond, resulting in a change in the situation in the heavenly domain.

Many forces and cultivators were affected by the situation, and were eager to move.

The first to bear the brunt was naturally the Immortal Lun Sect.

Now the outside forces all knew that the cause of the secret revolt was because of the Immortal Lun Sect.

If handing over Jiang Yang could calm the outside world's anger, they would be relieved.

"Expel me from the sect?"

A cold flash appeared in Jiang Yang's eyes, he did not expect that the Immortal Lun Sect would really dare to do it?

The words of the Holy Master of Immortal Lun Sect contained great divine power, which instantly spread out from the main hall and echoed outside under the sky dome.

Everyone heard these words and had different expressions, shocked, puzzled, dumbfounded, etc.

Jiang Yang was expelled from the Immortal Lun Sect?

That Immortal Lun Sect was about to compromise?

During this period of time, the secret revolt broke out, and the Immortal Lun Sect became the most eye-catching place in the Heavenly Domain, and many forces and cultivators gathered outside.

"It seems that this Immortal Lun Sect is still smart and knows what to do at this time."

Outside the mountain gate of the Immortal Lun Sect, a burly, double-horned creature, shrouded in thick black fog, couldn't help but sneer and said with a powerful divine aura on his body, and he was the Lord of a Sacred Mountain.

The mighty creatures were like a large black cloud, surging, covering the sky and blocking the sun, standing on the horizon, wanting to attack the Immortal Lun Sect.

"Hand over that disciple, or Immortal Lun Sect will be buried here today!"

The Lord of the Sacred Mountain opened his mouth and stood on the edge of the sky. His voice was like thunder, and it exploded in the sky, making countless hearts tremble.

In the other direction, there was also the forbidden area, the Lord of the Forbidden area had appeared, his aura was surging and it was amazing, and he wanted to besiege the Immortal Lun Sect.

This secret revolt had swept across the sky, and today it was even more eye-catching. Everyone's eyes were gathered here.

The words of the Holy Master of Immortal Lun Sect were not showing his attitude?

"Jiang Yang was expelled from the Immortal Lun Sect?"

Yue Mingkong's expression was deep and calm. Her figure appeared on the top of a mountain, standing far away, but she could clearly see everything that happened outside the Immortal Lun Sect.

Behind her, a group of terrifying creatures were kneeling down, either shrouded in dark mist or the runes or shrouded in the laws and rules.

If the rest of the powerhouses of the Heavenly Domain were here, their eyes would widen in shock.

These creatures were all terrifying existences in the major Sacred Mountains and forbidden areas.

Now they were actually kneeling in front of a woman?

This was so shocking.

### **Chapter 235-2: I learned to oppress others from Gu Changge, The power of the Nirvana Green Lotus Body (2)**

"But that's not enough, unless Jiang Yang uses all means, he won't be able to escape..."

Yue Mingkong said lightly.

She knew the origin of Jiang Yang and the Ancestor of Immortal Lun Sect, so she would not despise Jiang Yang. She also understood the power of Jiang Yang's Reincarnation Seal.

It was unlikely that she wanted to kill Jiang Yang, but she could use her many means to get rid of Jiang Yang's tricks.

Now, didn't the Immortal Lun Sect have to break their relationship with Jiang Yang?

This was just as she expected, Immortal Lun Sect could not be an enemy of the entire world just because of a disciple!

Her way of framing people was completely learned from Gu Changge. Although she didn't have the enthusiasm of Gu Changge, it was enough to oppress Jiang Yang at this time!

After receiving the order of Yue Mingkong, the group of powerhouses who were kneeling got up one after another and rushed outside the Immortal Lun Sect.

"Hand over that disciple, otherwise Immortal Lun Sect will be destroyed here today!"

A mighty voice sounded outside the Immortal Lun Sect.

Accompanied by the shocking murderous aura, many disciples of the Immortal Lun Sect below went pale and extremely frightened, as if they had encountered a disaster.

### **Boom!**

There was a Quasi-Sacred Realm cultivator, who raised his palm which was falling towards the bottom.

The runes were vast and evolved into powerful laws!

It was as if the sky was falling down, covering everything, causing the mountain protection formation of the Immortal Lun Sect to make a terrifying cracking sound.

At a critical moment, a tyrannical divine aura rose from the Immortal Lun Sect into the sky, blocking the palm, and did not let it fall, so as not to destroy the mountain protection formation.

How terrifying was the presence of the Sacred Realm?

If it was outside the domain, just a breath could shatter the ancient star of life, and it was boundless.

At this moment, all the creatures felt a dazzling light, as if it contained the power of countless laws, and it exploded with a bang!

In the sky, it seemed like a dazzling sun had burst.

The light was extremely dazzling, and the void was blasted, leaving a vast expanse of white.

The forces and powerful beings that were secretly watching were now all stunned and felt a chill!

"No, the mountain protection formation is cracked..."

In the Immortal Lun Sect, countless disciples were shocked and stunned when they saw that scene from a distance.

Afterwards, everyone was terrified and desperate!

Because with the rupture of the mountain protection formation, the mighty creatures in the forbidden area of ??the Sacred Mountain outside the Immortal Lun Sect were killed.

This was a pure land-like area.

At this moment, it was full of murderous intentions and unwilling roars, and the God Kings collapsed, turning into robbed soil and broken walls.

The runes were shining like an ocean.

The battle was fierce, blood filled the air, ruins were everywhere, and there was a sound of fighting.

At this time, everyone was cursing and resenting Jiang Yang.

Why did he cause such a disaster and cause them to suffer together with him? To make them lose their life?

"Jiang Yang is so damn good! Hurry up and hand him over to quell the anger of those Sacred Mountains and forbidden areas! I don't want to get buried with this guy..."

"Jiang Yang, you deserve to die..."

"Let Jiang Yang get out of my Immortal Lun Sect, and don't let everyone get buried with him!"

Everyone was yelling.

For a time, a strong sense of resentment began to appear in the buildings on the peaks of the Immortal Lun Sect.

"Since you insist on doing this, there is no need for the Immortal Lun Sect to exist today!"

In the hall, seeing someone shoot at him, Jiang Yang's expression suddenly became very cold.

He had already given Immortal Lun Sect the last chance. He had planned to drive back the enemies outside before heading to the Netherland Heavenly Pond.

But at this time, Immortal Lun Sect had become his enemy!

It was the first time such a thing had happened since he reincarnated so many times.

As the words fell, Jiang Yang started to make a move!

His methods were amazing, the dazzling brilliance emerged under the palm of his hand, like a piece of light rain, accompanied by a great aura.

The Immortal Lun Sect was trembling!

Under the ground, as if there was something that was about to wake up, the four directions were rolling in, turning into a surging and amazing power of heaven and earth, used by Jiang Yang!

"What?"

"What's going on? How did Jiang Yang's strength suddenly become so strong?"

"How is this possible... How could Immortal Lun Seal be used by Jiang Yang, this..."

The expressions of the Elders of the Immortal Lun Sect, including the Holy Master, changed greatly, and they were shocked by Jiang Yang's methods.

Then their backs froze, their souls trembled, and they felt a deep sense of danger.

Under this kind of aura, they almost fell to their knees, and their body collapsed!

**Boom!**

It was at this moment that a terrifying aura that was about to destroy the world appeared from the depths of the Immortal Lun Sect.

One side of the incomparably crystal clear big seal was hanging down with a terrifying chaotic aura, which circulated the Supreme aura and rose there.

Under the help of many tricks, Jiang Yang once again urged Immortal Lun Seal, and this time the divine might was far more terrifying than the last time!

"This is... Immortal Lun Seal..."

"How can that be....."

"Who the hell are you? Why can you easily use this thing, even for the Quasi-Sacred Realm, it is difficult to use it like this!"

The Lords of the Sacred Mountain and the forbidden area who appeared on the horizon were extremely shocked and something unexpected happened.

They didn't know Jiang Yang's identity, but with the existence of the Upper Realm behind them, they would naturally not dare to ask more if they wanted to kill Jiang Yang.

They didn't expect that Jiang Yang would be able to use such means at this time.

To be honest, Jiang Yang's move had shocked the world!

At this time, when Jiang Yang heard the words, he simply flew into the horizon, looking at the enemies from all directions, his expression was indifferent, and he was contemptuous.

"Just you? You dare to take action against me. All of those who come here today will be destroyed here."

"You're worthy to question me, Jiang Yang?"

At this moment, he no longer explained, and just took the opportunity to let the world understand that he was not a soft persimmon, could anyone really bully him in the face?

As the words fell, Jiang Yang raised his hand, and the terrifying terrain turned into a surging force, rushing into the Immortal Lun Seal.

This was the Luck of heaven and earth from the four directions accumulated by the Immortal Lun Sect for millions of years!

Now, all of them were for his use!

"Very good, at this time Jiang Yang used this means, then I do not believe that he can still have much of any tricks left ....."

"Once all his tricks are exhausted, the chances of killing him will be even greater. Fortunately, he was not allowed to return to the Upper Realm, within the Heavenly Star Realm, there are not many means that the reincarnated body of the Human Ancestor can use."

Far away, Yue Mingkong looked at the scene with a calm expression, and various thoughts flashed in her mind.

She wasn't surprised at all, and even gave birth to a strange feeling.

Her plan and action to calculate Jiang Yang this time wasn't too smooth?

So much so that she had a feeling that there was someone in the dark who was helping her?

Then how else would she explain the previous accident.

Jiang Yang went ahead to the appointment and mistook her for the heir of the Human Ancestor Hall, was it really a coincidence? Yue Mingkong did not believe Jiang Yang would be that stupid.

And she subconsciously thought of Gu Changge.

Could it be that Gu Changge noticed her whereabouts and secretly followed her and headed to the Lower Realm?

Yue Mingkong thought of the mysterious Immortal from the Upper Realm from some time ago.

The more she thought about it, the more she thought it was very likely.

First, he descended to the Xuan Domain and unified all the powers there, then in the name of recruiting disciples, he was actually searching for the reincarnation of the Human Ancestor?

It was just that, in that case, there was a big loophole.

If that mysterious Immortal was Gu Changge, then why didn't he take action to solve Jiang Yang after he came to the Immortal Lun Sect, but stayed until now?

So Yue Mingkong felt that either she was overthinking, or there was something else that she hadn't considered.

Wasn't that Immortal suspected to have fallen in the Netherland Heavenly Pond?

This kind of news, not seeing it with her own eyes, she actually did not believe it.

"Not good!"

"This Jiang Yang is so ruthless, he wants to kill everyone, including us!"

"Why is he able to activate the Immortal Lun Seal....."

And in the next moment, everyone within the Immortal Lun Sect reacted and became terrified, their faces turned pale, desperate, horrified, unable to believe and so on.

Along with the blinding divine light that emerged from the Immortal Lun Seal, it appeared incomparably bright.

"You all brought this on yourselves." Jiang Yang said with a cold and indifferent expression.

At the same time, in his hand, a corner of the supreme formation pattern revived, beams of light intertwined, as if it were turning into the only color in heaven and earth.

### **Chapter 235-3: I learned to oppress others from Gu Changge, The power of the Nirvana Green Lotus Body (3)**

Everyone's expression changed, frightened to the extreme, at this time, there was no other emotion except despair, resentment, regret.

"Something big has happened..... The Supreme Weapon of the Immortal Lun Sect is revived and it's going to exterminate everyone."

"This guy is crazy..... He won't even spare the Immortal Lun Sect, this is to deceive the Master and destroy the Ancestor!"

All living beings and cultivators were fleeing to the distance for fear of being affected by this aura, their faces pale and horrified with fear, their hearts palpitating.

### **Rumble!**

In the next moment, no matter what kind of existence, as long as they dared to block in front, they were blown into pieces, within a hundred thousand miles, everything turned into pieces, dissipated in the dust.

Even the most powerful creatures and cultivators watching the battle in the distant sky were also terrified and appalled to the extreme.

Watching with their own eyes, the Immortal Lun Seal exploded with Supreme divine might, destroying the heavens and earth, trembling and shaking the universe, wiping out all incoming enemies!

Of course, including the place where the Immortal Lun Sect was originally located, it also turned into dust under this breath.

The power that had been passed down for more than a million years, including all the disciples and Elders, could not even resist under the divine power of the Supreme Weapon, and were instantly destroyed in smoke.

Jiang Yang's move horrified everyone and sent chills down their backs!

How many enemies had he killed? Even the Immortal Lun Sect was not spared?

"Jiang Yang really escaped after this....."

Runes flickered in Yue Mingkong's eyes, and the Quasi-Supreme weapon behind her erupted with dazzling light, resisting these aftershocks and penetrating deeper into the ruins of the Immortal Lun Sect.

But Jiang Yang's figure was actually not there.

After overwhelming the surrounding enemies, Jiang Yang had already left.

As for where he would go, Yue Mingkong had actually guessed, except that Jiang Yang's move of destroying his own walls made her somewhat shocked.

She could only say that he was worthy of the reincarnation of the Human Ancestor, his means were really tough and ruthless, treating the Immortal Lun Sect was same as treating the enemy.

It was just that in this way, Jiang Yang lost his most favorable helper, equivalent to breaking his own arm.

The most advantageous help was the loss of the Immortal Lun Sect, she did not believe that Jiang Yang had any other stronger trick.

Soon, the Immortal Lun Sect was destroyed, turned into ashes, millions of years of heritage was destroyed in a single day, causing a shock to the entire Heavenly Domain.

Including the many Lords of Sacred Mountains, forbidden areas and other people who launched the secret revolt that day, were also all destroyed in the middle, shocking everyone, and causing countless people to be terrified.

Of course, those guys were the ones that Yue Mingkong found to use as cannon fodder to consume Jiang Yang's move.

Even if they did not die here, in the end, she would find a way to solve them, so as not to leave traces of her existence.

For a while, the story of a disciple of the Immortal Lun Sect who had deceived his Master and destroyed his Ancestor, using the Immortal Lun Seal and exterminated the Immortal Lun Sect, spread all over the world, causing countless people to be appalled.

As for how he activated that Immortal Lun Seal, it had become a mystery and suspense that no one knew about!

The Supreme weapon left behind by the Immortal Lun Supreme ultimately destroyed the sect he left behind.

How ironic was this?

And in the underworld, a kind of great momentum had changed, and the fortune that the Immortal Lun Sect had accumulated for millions of years was shifting because of this matter.

The change in the Luck of the Heavenly Star Realm was especially clear.

Gu Changge, who was in the depths of the Netherland Heavenly Pond, also felt this change in the underworld most profoundly.

"Ding, Jiang Yang, the Son of Luck, has broken up with the Immortal Lun Sect....."

"Ding, the Son of Luck destroyed the Immortal Lun Sect....."

With a series of system prompts, he inexplicably obtained a large amount of Luck points from Jiang Yang.

Although these were all things done by Yue Mingkong, Yue Mingkong was his person, and her changes were also closely related to Gu Changge.

The number of Luck points alone was more than 20,000, and the Destiny value even reached a huge 100,000.

Honestly, Jiang Yang was worthy of being the Reincarnation of the Son of Luck, just the Luck points he carried had reached a level that could be called unbelievable.

With the surfacing of Jiang Yang's many tricks, his Luck points were still growing and changing.

It was just that, now, no matter how much more Jiang Yang's Luck points grew, it had fallen to a level that could be called low!

In Gu Changge's eyes, only the last hint of grass to collapse the camel was missing.

After all, according to the normal trajectory, the Immortal Lun Sect would definitely serve as a springboard for Jiang Yang's development, allowing him to pass through this preliminary period peacefully.

Now that Jiang Yang destroyed his springboard with his own hands.

This would be tantamount to destroying the walls of the city itself.

"This girl Yue Mingkong has saved me some effort this time, she's a lot smarter than before and knows how to carry a big momentum in order to press people....."

"By the way, it gave me a lot of time to delay again."

Gu Changge couldn't help but smile, still seated within the Lotus body of that Nirvana Green Lotus, intending to completely refine it away.

The strength of the Nirvana Green Lotus body lay in the power of the world.

Nowadays, Gu Changge was devouring this horrible talent with his demonic heart, and all the 60 trillion cells in his body were undergoing metamorphosis.

Later, a single cell would be an ancient and vast universe world, infinite power could suppress everything.

This kind of body could accommodate the power of the Human Ancestor of all worlds.

Otherwise, the Human Ancestor would not have calculated for so long, and spent so much effort.

With this kind of body, why worry about the power that he could not withstand.

Now, Gu Changge easily got this good thing without any effort.

Although his own physical strength was strong, it was not yet to the point where it couldn't be compared with anyone.

With this Nirvana Green Lotus, his power could definitely transcend to another horrific level.

In the blink of an eye, several days passed, the area outside the Netherland Heavenly Pond, the mountains and rivers were magnificent, ancient trees were in the sky.

An old woman and a young girl, two people, came rushing here, the younger one wearing a simple dress, her face was exquisitely flawless, with a resolute look.

It was Yaoyao.

Next to her was her grandma, the two of them left the Immortal Lun Sect, and then rushed all the way here, because there was no warship, flying boat, etc., so their speed was not very fast.

It took many days to get here.

About the life and death of her own Master, Yaoyao wanted to personally determine the truth, even if her Master fell, she still wanted to find the remains of the Master in order to bury him.

With such thoughts, she now looked ahead with her own eyes at the majestic mountain range shrouded by a Chaotic mist, her face was also a bit white, and could not help but give birth to a kind of palpitation.

Within a radius of 10,000 miles, it seemed very quiet, not to mention the cultivators, even the ferocious beasts could not be seen.

With this deadly silent atmosphere, it could be seen that the Netherland Heavenly Pond was definitely a dangerous place, and this journey would not be too smooth.

"Master is inside, I should not be afraid, Master also said that I am a great person, I want to move forward to find him!"

Yaoyao was talking to herself, clenching her little hand and cheering herself up to not be afraid at this time.

"Yaoyao, you really are here, how can you come to the Netherland Heavenly Pond? Brother has searched for you for a long time."

"After I returned to the Immortal Lun Sect, you disappeared and didn't let anyone give your brother a word, it really made me worry a lot."

However, just at this time, Yaoyao, who was considering where to go ahead, suddenly heard a familiar voice.

Granny Yinhua beside her, who was on alert, suddenly became sweaty and felt a chill.

Behind a huge mountain rock, accompanied by the sound of footsteps.

Jiang Yang's figure appeared, with the once Immortal Lun Sect's Supreme Elder Zhao Yi behind him, looking at Yaoyao with surprise, concern and other emotions.

It was a surprise to him to find Yaoyao here.

He guessed that this girl would definitely not be able to sit tight and would rush to the Netherland Heavenly Pond to look for her Master.

Jiang Yang's surprised expression was not a fake, he did not care about the destruction of Immortal Lun Sect, as for things such as power, it was completely no match for the Netherland Heavenly Pool.

The existence of Yaoyao, for him, was also like this.

### **Chapter 236-1: Brother and sister torn apart, I can finally start to close the net (1)**

Jiang Yang's appearance caused Yaoyao to become frozen for a while.

She didn't expect him to arrive at the Netherland Heavenly Pond in order to find her.

Soon, she reacted and her small face involuntarily surfaced with anger along with a strong ice-cold look, she didn't say anything.

After all, this was the culprit who pitted her Master against the Netherland Heavenly Pond.

During this time, if the person she missed the most was Gu Changge then the person she hated the most was definitely Jiang Yang!

If it wasn't for Jiang Yang, why would her Master rush to the Netherland Heavenly Pond, and why would he have been in danger there leading to his death.

Not to mention that the current Jiang Yang was not her brother, but an old demon who took over her brother's body, the former Ancestor of the Immortal Lun Sect.

During this period of time, she and the silver haired granny both heard about the Immortal Lun Sect encountering the siege of the major Sacred Mountains and forbidden areas.

But at the end, Jiang Yang activated the Immortal Lun Seal, overwhelmed all the incoming enemies and even destroyed the Immortal Lun Sect which had the inheritance of a million years.

This move really shocked the two of them.

Everyone did not know why Jiang Yang was able to activate the Immortal Lun Seal, but they were clear, because the divine soul that was inside Jiang Yang's body was the Immortal Lun Supreme!

The Immortal Lun Seal was originally his weapon, so why couldn't he activate it?

At that time, after Gu Changge informed Yaoyao, Yaoyao informed Granny Yinhua.

So both of them were very clear.

Immortal Lun Supreme was the extremely legendary figure of the Heavenly Star Realm, it was said that he was not born in this realm, and no one knew where he came from.

After finally founding the Immortal Lun Sect, he was nowhere to be found.

But that day, in order to kill all enemies, Jiang Yang even did not hesitate to destroy the Dao Lineage once founded by his own hand.

Through this matter, one could see how heartless Jiang Yang really was!

This made the two of them uneasy in their hearts, and their scorn for Jiang Yang became even deeper.

The silver haired grandmother saw the icy cold look of Yaoyao, could not help but pull her back, gently shook her head, indicating that she should not be impulsive.

Before the life and death of Gu Changge was determined, if Yaoyao and Jiang Yang tore apart the last remaining face, it would probably lead to bad luck.

Because at that time, if she went in that strange state, she could lose control at any time.

Yaoyao also understood this, gritting her teeth to death, squeezing her small hands tightly, forcing herself to calm down at this time and not to fight hard with Jiang Yang.

"Brother, how did you know that I would be here....."

Then, she spoke softly, condensing poetic rhyme in her eyes, only calm.

"I know that you are worried about the safety of that Master of yours, so as soon as I guessed, I knew that you would come here."

Jiang Yang smiled, noticing the icy cold look that Yaoyao just had, he didn't really care.

In his eyes, Yaoyao was just a little girl, now the Master she relied on had fallen dead, who else could she rely on except her brother?

The little girl might be distant and cold to him because of something, but he felt that this kind of thing was going to change with time.

In Jiang Yang's heart, after erasing the previous consciousness, there were actually also two remaining obsessions of that consciousness, one was the hatred for the Immortal Lun Sect. As he was unwilling to be thrown to dig the Immortal Road for so many years and had almost died in the middle of it.

The second was as a responsibility of the older brother towards his young sister, he wanted to take care of her and let her live happily.

Jiang Yang did not seriously care about these two obsessions before.

After all, his soul was incomparably strong; these obsessions could not affect him at all.

But now, he felt that if these two obsessions were not resolved, it would trigger unimaginable consequences.

Even his divine soul would be unstable.

Jiang Yang had reincarnated many times, but it was the first time he encountered such a situation, and in the end he felt that the reason probably lay in Yaoyao.

Because this little girl's existence involved the Luck of the Realm that originally belonged to him.

"As an older brother, I would definitely worry about you. You just left without saying goodbye, it really made me uneasy. I was afraid that you would encounter any trouble."

Jiang Yang smiled and continued to speak, walking closer to Yaoyao.

Zhao Yi, who was following behind him, had a complicated face.

This little girl, Yaoyao, was obviously hiding big secrets, otherwise Jiang Yang would not have such an attitude.

These days Jiang Yang's strong pit after killing all enemies and the kind of invincible aura had deeply shocked her.

But Jiang Yang was like this to Yaoyao, which was even more shocking to her.

Jiang Yang was really too strong and too mysterious!

Even that terrifying Immortal was killed by him in the Netherland Heavenly Pond. Zhao Yi felt that she had made the right choice in life by following Jiang Yang.

And Jiang Yang had a Great Sacred Realm maid that would solve many small troubles along the way, so he naturally didn't mind letting her follow.

"Brother doesn't need to worry about Yaoyao, the two of us, me and Granny, will find my Master."

Hearing this, Yaoyao shook her head softly, "He is so powerful, I don't believe that my Master will die here."

Jiang Yang did not refute, understanding that this little girl belonged to the kind of heart that would not die until it reached the Yellow River.

Then he revealed a faint smile and said, "Yes, after all, the strength of the Immortal is so strong, how will he be easily buried here?"

"If one only looked at the rumors then that would be wrong. As the saying goes, live to see the dead, since I have come here, then I shall help you look for the Immortal together."

The many tricks of the Netherland Heavenly Pond were far more terrifying than the Immortal Lun Sect, and that Immortal would have perished here even if his methods were heaven defying.

He had said this, but not in order to deal with this little girl and then let her die.

Yaoyao also knew that she could not refuse at this time, if she said too much it might cause Jiang Yang's suspicion, so she nodded, "Thank you brother."

Jiang Yang smiled, "Why thank me, helping you with this is the right thing to do."

Yaoyao pursed her lips, and did not speak.

Soon, a group of people headed towards the middle of the Netherland Heavenly Pond.

Nearby mountains were unusually steep, all kinds of strange ancient trees, incomparably gnarled, hanging vines were hanging down from all directions.

High in the sky there existed layers of white mist floating down, giving birth to a chill and uneasiness in people's hearts.

If it was normal, there would be more or less some living creatures, such as fierce beasts and other existences, but now it was way too quiet, in addition to the sound of wind, there were no movements.

The entire Netherland Heavenly Pond was silent as if it was dead, except for their party, no more creatures appeared!

Above many mountains, some Dao patterns intertwined, flowing there, like strange patterns, emitting brilliant and eye-catching light.

Deeper down, a thick Chaotic mist was visible, shrouding the heavens and earth in gray, as if they had come to the place where the heavens were stretched open!

Jiang Yang gave them the explanation that there was a great battle here that day, and all living beings were estimated to have died in the aftermath.

But Yaoyao and the silver haired Granny did not believe it!

"The fish is finally here, it seems that I can close the net."

"From today onwards, the Human Ancestor will not exist in the world."

Deep inside the Netherland Heavenly Pond, Gu Changge sat within the Lotus body, devouring and refining the essence of the Nirvana Green Lotus. His eyes were profound, in which many mountains and seas sinking like terrifying scenes emerged.

At this moment, Gu Changge spoke to himself, his smile carried a vague deep meaning as he had already noticed several auras rushing outside.

Yaoyao, silver haired Granny, Jiang Yang and his Supreme Elder maid, Zhao Yi.

There were four of them!

If he hadn't interfered, according to the normal plot, these four people would have been in the same boat, providing all kinds of help to Jiang Yang.

But now, the pair of relatives, Yaoyao and Granny Yinhua, were already very hostile to Jiang Yang and were just about to tear their faces off.

As for that Zhao Yi, normally, she should be taken in the harem by Jiang Yang later, after all, she had followed him to such a point.

Gu Changge was not interested in her at all. Although she looked good, in fact she had exhausted her potential, and she could be slapped to death with one palm.

Now, under his layers of arrangement, the Human Ancestor left his tricks in the Netherland Heavenly Pond back then and a very large part of it was now under his control.

But at this time Jiang Yang was still unaware of it.

**Swish!**

Soon, Gu Changge's figure stayed still, a powerful and terrifying divine sense just like an unspeakable ancient god clad in a monstrous gray fog took the form of a Soul Palace that rushed out from between his eyebrows.

Under his method of visualization, the power of the gods alone could swallow the heavens and the earth and easily slaughter the Great Sacred Realm cultivators!

Even a Quasi-Supreme would not necessarily be something to be afraid of!

Steeply, a bizarre fluctuation began to appear above the Netherland Heavenly Pond.

**Buzz!!!**

A dense black demonic cloud covering the sky emerged from all directions and began to coalesce there, as if it was pushed by an invisible hand!

The dome of the sky was obscured!

**Rumble!**

"Under my Lord's order!"

"Attack!"

A headless horseman, as if he sensed something, rushed out violently from within a blood-stained cliff with a monstrous aura!

"As my Master commands!"

In the other direction, an incomparably blurred blood-red shadow emerged from within the deep valley, with scarlet pupils, staring out with monstrous killing intent.

"This place is really odd, but you and granny must pay attention, don't get too far from me, if something dangerous happens at this time, I simply wouldn't be able to help you....."

And at this time, on the mountain path, Jiang Yang walked in the front and said with an indifferent expression, walking through something that looked like a strange light evolving.

Every inch of this place was filled with a terrifying aura.

Formation patterns were pervasive and killing intent was rampant.

But he was able to walk out of it unharmed, leading to the depths.

Many terrifying auras surged only in the vicinity, and did not come near him a little.

If ordinary people were here, their legs would probably go weak and they wouldn't dare to move.

But Jiang Yang was incomparably calm on the road.

Did he say that he had no means? Who would believe it?

In fact, at this time, without having to say much, Yaoyao had already understood through the Netherland Heavenly Pond that Jiang Yang was deeply related to this place.

He must know a lot about the hidden secrets of this place.

Otherwise, he would not be so confident to send out the news and let Gu Changge come here, right?

And now although Jiang Yang said that he came here while looking for her, but in fact, he came to the Netherland Heavenly Pond, to find his opportunity!

Thinking of these, the icy cold look in Yaoyao's eyes became more dense.

Even she did not notice the change that was happening to her.

On the contrary, the silver haired grandmother on the side saw the peach blossom-like pattern starting to emerge between her eyebrows, the same as the last time when Yaoyao suddenly stormed out.

This was completely without any reason!

It was more like being stimulated in the same way.

Her face couldn't help but change, after all, Jiang Yang was holding a Supreme weapon in his hand, would Yaoyao be a match for Jiang Yang even if she turned into that state?

"This journey, in addition to seeing the traces of the great battle of that day, I did not see any corpses, although the Immortal has divine power, but I am afraid that he also had bad luck."

Jiang Yang walked in the forefront, looking at the Heavenly Pond nearby, and could not help but reveal a faint smile as he said.

He finally arrived here.

In the boundless Heavenly Pond, ripples spread continuously, with a layer of white mist, floating in it.

In the deeper part, the Immortal fog was indistinct, the blue waves were rippling, and there was a green haze rushing to the sky.

In the beginning, it was this light that attracted countless cultivators and living beings, including that Immortal, who eventually fell here.

Thinking of this, Jiang Yang looked more and more calm, but there was regret in his heart that he did not personally take action to eliminate the Immortal from the Upper Realm.

After all, that was the only person who had given him such shame.

This way he did not intentionally touch the tricks left back then, lest the abnormalities were seen by Yaoyao, and with his aura, those terrifying beings hiding in the shadows, would not dare to strike him.

And at this time, Jiang Yang's brow suddenly frowned slightly.

Outside the Netherland Heavenly Pond, there was a divine light rushing to the sky. He had thought that his speed was fast enough, but he didn't want to be followed.

Jiang Yang did not know why the other party could repeatedly sense his movements.

## **Chapter 236-2: Brother and sister torn apart, I can finally start to close the net (2)**

### **2)**

And it was obvious that the group was brought by the same mysterious woman who planned to kill him in the first place, pursuing him relentlessly. They had actually arrived here.

"It's been so many days, why haven't the people from the Human Ancestor Hall come here? Even other people know where I am, why doesn't the Human Ancestor Hall know? Is it possible that the Human Ancestor Hall has had an accident?"

A vague feeling arose in Jiang Yang's heart that something wasn't right, that feeling of being schemed against, surfaced again.

However, that day, he could not wrongly perceive that secret fluctuation from the heir of the Human Ancestor Hall.

But in the end, he did not see the person, but the other side used it as bait to attract him?

It was not likely that the heir of the Human Ancestor Hall would fall into their hands, right?

"Master disappeared from here?"

"Master is really not here anymore....."

And at this moment, at the edge of the endless heavenly pond.

Yaoyao was staring blankly ahead, her face was white, muttering and looking incredulous.

The turquoise like lotus leaves were laid one after another, one could not see the edge and the seam.

Each one was green, as big as a face basin.

Especially a dazzling Chaos Green Lotus, it was incomparably tall, accompanied by the Immortal spirit Dao rhythm, propped up there, emitting the rumbling sound of the world.

All these various divine things were not relevant to her anymore.

Because she did not see the Master, not to mention the figure, even the trace left at the beginning was missing.

"Ooooooooooooo..... Master, you really do not want to die young....."

Steeplly, bean-sized teardrops, like a broken line, slipped down from her face, and it was difficult for her to accept this fact.

The silver haired granny's face looked bitter, she also did not know how to comfort her.

Within a short period of time, Yaoyao's Master was already in Yaoyao's heart and had an unparalleled status.

Now she had to face the fact that her Master died? Could she accept it?

"Yaoyao, Mr. Immortal might have really fallen. You have to mourn and change. It was rumored that his body was beaten to pieces. There are many beasts here. I am afraid that he has been eaten completely, and there are no bones left."

"I actually don't understand... Why did he insist on coming to this place? He made you so sad..."

At this time, seeing Yaoyao crying there, Jiang Yang frowned slightly in his heart, feeling a little irritable.

He knew that this was the emotion left after the strong fusion of the consciousness.

However, it didn't affect him.

On the surface, he still said with a regretful expression, trying to comfort Yaoyao.

However, he didn't care at all, and even made a slight mockery.

The person he wanted to kill had never lived!

A mere Immortal from the Upper Realm, what the hell was this?

"Shut up! It's you who caused my Master to be like this. If it wasn't for you, how could Master come to such a place? It's all your fault!"

"At this time, you are still pretending to be pitiful, obviously you are the one who murdered my Master!"

However, at this time, upon hearing Jiang Yang's hypocritical words, Yaoyao suddenly turned around.

Her small body was trembling, with an icy expression she stared at Jiang Yang with incomparable hatred.

How could she bear it, Jiang Yang still said that about her Master at this time?

"Yaoyao, what do you mean by that? It's all my fault?"

Jiang Yang frowned and said displeased, "I'm just telling the truth as a big brother."

As he said that, he closed his eyes and his voice was a little low.

"Could it be that this brother, in your eyes, is completely inferior to your Master?"

Jiang Yang could feel the changes in Yaoyao at the moment.

What did she seem to really notice?

Or what did Gu Changge tell her when he left for the Netherland Heavenly Pond?

"You old monster, not only occupying my brother's body, but now you are also planning to assassinate my Master..."

"Now, what are you pretending to be?"

Yaoyao's voice suddenly became very cold, it was hard to imagine that this expression would appear on a little girl like her.

One must know that not long ago, she was still frightened by a gangster and her face turned white.

Of course, this kind of change was not surprising to Gu Changge. After all, Yaoyao was the real Daughter of Luck in the Heavenly Star Realm. Even without him and the reincarnation of Human Ancestor, she would have undergone a huge transformation.

After all, her original destiny template came from the most talented woman in ancient times, and she was also the fruit of the mysterious Peach Tree.

At this moment, he heard Yaoyao's words.

Jiang Yang's expression suddenly changed, and then he became indifferent.

"Yaoyao, what are you talking about? I'm your brother, have you forgotten about our childhood? At that time..."

"Don't talk nonsense, at this time don't be bewitched by demons and forget your own identity..."

He spoke warmly, ready to play the emotional card.

When Yaoyao said this, she planned to tear her face off with him. To be honest, Jiang Yang was very surprised, and he didn't expect things to develop like this so suddenly.

He guessed that Gu Changge said something for Yaoyao at the beginning. Otherwise, how could she be so sure?

Therefore, Jiang Yang's heart was gloomy, and he hated that he didn't kill Gu Changge earlier, causing so many twists and turns for no reason.

**Buzz!!**

"Damn you!"

"Yaoyao is going to avenge Master today!"

However, Yaoyao had changed a lot, the place between the eyebrows was bursting with dazzling light, the Peach blossoms were blooming, it was extremely gorgeous, and she didn't listen to his nonsense at all.

She rose into the sky.

Her dress fluttered, her bare feet were like snow, the strands of laws and rules hung down, delicate like a flawless elf, but her face was as cold as frost.

At this moment, there was a kind of power that could break the sky and the earth that emerged on her body.

In the next moment, with a swipe of her small hand, strands of Immortal light emerged, turning into peerless Immortal swords, containing the strongest attacking power, sweeping towards the bottom, destroying Jiang Yang!

"When in the world did she notice me, did the Immortal tell her this from the beginning? It's really bad for me, and it's not a pity to die."

"And it's much stronger than the last time..."

Seeing this, Jiang Yang's expression became gloomy, Yaoyao actually had a fall out with him and planned to kill him.

As a result, many of the arrangements he had already thought of were completely in vain.

Things had been like a wild horse, and were completely out of his control!

But at this time, his top priority was to stop Yaoyao, so as not to affect his biggest plan.

"Let me block her for you!"

Jiang Yang's expression was very ugly, he waved his hand and a small crystal clear cauldron flew to Zhao Yi's hand behind him.

At the same time, he implemented the many tricks in his hand and this piece of Netherland Heavenly Pond began to rumble.

On the outermost side, there was a murderous intent soaring to the sky, along with all the awakening patterns, it had evolved into a place of lore, to resist the mysterious woman who came to the Netherland Heavenly Pond.

The tricks he arranged had started to work!

"Netherland Heavenly Pond is even more dangerous than the Immortal Lun Sect. It seems that Jiang Yang really intends to use this strange place to fly to the sky. If he succeeds, won't he escape from this world?"

Yue Mingkong, who saw this scene outside the Netherland Heavenly Pond, her brows wrinkled, and the mighty Golden Armored warriors behind her stood on the horizon, like heavenly soldiers and generals, fighting in all directions.

She felt a sense of misunderstanding.

In the Netherland Heavenly Pond, there was the biggest fetish needed by the Human Ancestor.

In addition, there was also its biggest arrangement. If she entered this place by mistake, her body and spirit would probably get destroyed if she was not careful.

Human Ancestor was still a cunning man, so he could not be ignored.

**Boom!**

At this time, the sky suddenly darkened, as if there was the most terrifying Chaotic demon, awakening in the deepest part.

The terrifying gray fog rose to the sky, and a pair of indifferent eyes appeared in it, overlooking heaven and earth!

The entire Netherland Heavenly Pond, with a vast territory and no boundaries, was trembling at this time.

Farther away, there were countless terrifying beasts, waking up everywhere, looking up into the distance, and were extremely frightened.

**Chapter 237-1: The unparalleled Demon revives, I have been waiting for you for a long time, Human Ancestor (1)**

This terrifying scene shocked not only Yue Mingkong, but also Jiang Yang.

"What is this?"

"What the hell is hidden in the Netherland Heavenly Pond..."

At this time, Yue Mingkong's face became very solemn.

She was a person from the Upper Realm. As the future Empress of the Peerless Immortal Dynasty, she would rule the territory of hundreds of millions of miles in the future. The identity of her fiancé was even more precious.

But at this time, she still felt palpitations, tremors, and chills.

This definitely shouldn't be something that would appear in the Lower Realm.

Even in the Upper Realm, it was an existence that would make countless ancient Dao sects tremble.

But in it, she felt an inexplicable sense of familiarity.

"How is it possible, when did Netherland Heavenly Pond give birth to this kind of thing..."

Jiang Yang's expression also changed drastically, and he couldn't believe it.

How could there be such an existence where he arranged so many tricks. That kind of aura was maddening, chilling, trembling, even making the soul freeze.

This was even beyond his cognition as someone who had reincarnated so many times.

Jiang Yang's expression was extremely gloomy.

Now the entire Heavenly Pond had changed from the Immortal aura just now to a demonic aura, making people unable to see the scene in it.

He was a little worried about his Nirvana green lotus.

*Was there an accident?*

*And what the hell is that?*

He saw that in the monstrous gray fog, covering the sky and the sun, it was surging, as if there was an incomparably ancient, invisible, and indescribable terrifying true demon reviving.

Someone broke into his territory, woke up from eternal sleep, opened his mouth and swallowed, and the whole world had turned into darkness.

At this moment, not only Netherland Heavenly Pond, but even in the farther territory of Heavenly Domain, there were scenes that terrified and horrified countless cultivators and creatures.

Countless powerful existences were terrified under this aura, they got goosebumps, and even their souls were frozen.

In the distant sky, all demons revived and swallowed the sky.

The world turned black in an instant!

The light was gone, the sun and the moon lost their light!

It's as if the world was going to an end.

"Could it be that the Immortal fell into the hands of this unknown creature..."

Zhao Yi's voice trembled, and her soul trembled to the extreme.

As an existence in the Quasi-Supreme Realm, she was once the goddess of heaven, but now she was like an ant, with fear emerging from the soul.

Even with the weapon given by Jiang Yang in hand, it was difficult for her to feel the slightest sense of security.

"Attack!"

At this time, a headless horseman rushed out from the cliff with the bloody light, he suddenly attacked Jiang Yang.

"Follow my lord's orders!"

In the deep valley on the other side, a bloody figure swept in, as if a sea of ??corpses and blood rushed towards Jiang Yang.

"Aren't these the two creatures I suppressed back then?"

"Why are they out of my control?"

Seeing this scene, Jiang Yang's expression changed drastically again.

As soon as they appeared, it was shocking and unbelievable.

He was too familiar with these two creatures. Before he arranged them, they were caught and suppressed by him, and they all had the strength of the Great Sacred Realm.

In the entire Heavenly Star Realm, it was an unmatched power.

But now, they wanted to kill him?

Obviously, many of the surrounding patterns were under his control?

This made Jiang Yang's head a little stunned, what happened?

But he had been through all kinds of major events for a long time, and he responded quickly, greeting Zhao Yi to block the changing Yaoyao.

That little cauldron, no matter how bad it was, it was a Great Sacred weapon. It should not be a problem to compete with the current Yaoyao a little bit, motivated by her power in the Quasi-Supreme Realm.

**Boom!**

And he himself, wrapped in the stream of laws and rules here, activated the Immortal Lun Seal, floated on the top of his head and went to the depths of Heavenly Pond to find out.

The two Great Sacred Realm creatures attacked, and the terrain here sent off a huge earthquake. There were many strands of avenues, radiating light, to drown everything.

Jiang Yang borrowed these methods to resist the attack of the two great creatures.

But some time ago, he just shattered the Reincarnation Seal and killed all the enemies in the Immortal Lun Sect. If he used the Reincarnation Seal now, it was very likely that one Reincarnation Seal would be shattered directly, and all of his hard work would be wasted.

Therefore, Jiang Yang could only endure, and did not dare to act rashly.

On the other side, the war between Yaoyao and Zhao Yi broke out. Although Yaoyao's state was strange at this moment, her power had not surpassed that of the Great Sacred Realm.

Zhao Yi mobilized the Great Sacred weapon, which was still tolerable in a short period of time, but her complexion was also extremely pale, and she couldn't last for long.

"The Netherland Heavenly Pond has changed, so don't go in yet."

"We'll talk about it when the situation becomes clear."

Yue Mingkong appeared high in the sky, the mist around her filled the air, her breath was full of powerful aura, and the radiance was bright.

A powerful forbidden weapon was floating between her sleeves.

She instructed the confidants and the Golden Armored warriors behind her, waving her hands to let them retreat.

And the sudden appearance of the monstrous gray fog made her heart palpitate.

Especially the pair of eyes that were so indifferent that they did not contain the slightest emotion, as if they regarded all living beings as ants, which could be easily erased.

Yue Mingkong frowned.

She didn't know if it was her own illusion. She felt that the unknowable existence seemed to be warning her not to approach it.

This made her even more confused, coupled with the lingering familiarity just now.

This obviously did not look like an indescribable god of human beings. Could it be an existence she was familiar with?

But for a while, Yue Mingkong didn't know if she was thinking too much.

**Boom!**

At this time, the gray fog covering the sky became more turbulent, and the aura in it seemed to engulf the entire sky.

A big hand suddenly descended from it, and it looked like it was shrouded in a vast gray fog, like a world-annihilating millstone, intertwined with the laws of the Great Dao, and fell down easily.

Zhao Yi, who was fighting against Yaoyao, changed abruptly, and before she could react, the palm covered her, like a piece of heaven and earth turned upside down!

**Boom!**

The void burst!

The Great Sacred weapon she sacrificed that suddenly attacked, clear cracks appeared on it, and the runes were dim.

"Jiang Yang, save me..."

Her expression was horrified, full of despair and pale.

**Puff!!**

In the next moment, she was directly covered and smashed down by this palm, and before she could touch her, her body exploded instantly.

Jiang Yang, who was rushing to the depths, frowned, showing dissatisfaction, but thinking of something.

With a wave of his sleeves, a cloud of clear light emerged, instantly wrapping Zhao Yi's remnant soul and saving her.

At this time, if Zhao Yi died here, he would inevitably be distracted and exhausted. After all, she was a Quasi-Supreme Realm cultivator.

And after smashing Zhao Yi's body, the big hand had not stopped, it was still looking towards Yaoyao below, as if to grab him.

Yaoyao's current state was very strange, her expression was icy, like an aloof goddess.

She could feel her presence, but she couldn't fully control the power.

And her temperament, affected by this power, became extremely indifferent.

Even if this palm fell, his expression did not change, and she even planned to fight.

However, with a bang, her small body was sent flying into the Heavenly Pond, and fell into it with a thud.

"Yaoyao ....."

The silver haired granny was incomparably worried and wanted to go forward to save her, but was incomparably afraid of the terrifying deity in the sky and did not dare to move.

### **Chapter 237-2: The unparalleled Demon revives, I have been waiting for you for a long time, Human Ancestor (2)**

But to her surprise, the terrifying deity did not care about her.

This made the silver haired granny breathe a sigh of relief, and could not help but smile bitterly. Being treated as an existence that was even inferior to ants she did not know whether to be grateful or what.

For a while, the Netherland Heavenly Pond once again returned to dead silence.

In addition to the gray fog still shrouded in the high sky, there was no longer any presence, but the terrifying aura of this place was spreading towards the entire Heavenly Domain.

A more terrifying power seemed to be born in the deepest depths.

This made Yue Mingkong's expression even more gloomy.

She led the people to appear at the outermost part of the Netherland Heavenly Pond, not daring to approach at will.

Moreover, she felt that there had been a pair of cold eyes in the gray fog, staring at her, as if warning her not to make any rash moves.

"What's happening?"

"What's going on? Why is the heaven and earth shattering and the entrance has disappeared!"

And at that moment, the sudden change in the Netherland Heavenly Pond caused all the cultivators outside to be stunned.

Countless people's faces turned white, and they noticed it from afar, and they could not sense the slightest breath of life.

This made them incomparably frightened.

The gray fog was so huge that it obscured everything.

The sky and earth were cracking and collapsing as it then peeled down. Fire rushed to the sky, melting everything, like a meteorite sweeping down.

The whole sky was like a mirror in pieces, the wind blew, the four sides were dark and there was nothingness.

Among them was a sea of nothingness, boiling with chaotic turbulence, rumored to be living in its many ancient ferocious beasts.

Even a cultivator at the Quasi-Supreme Realm must also be careful when crossing, there were terrifying laws to suppress, and they would die miserably.

The scene that happened at the Netherland Heavenly Pond shocked many of the most powerful cultivators from all sides of the Heavenly Domain.

Everyone's eyes were wide open, and they were horrified.

The heavens and earth ruptured, all kinds of laws filled the air, and the divine light of laws seemed like a blazing flame, scorching everything.

"Is there some kind of heavenly demon born in it?"

"Even heaven and earth have been burst..... No wonder even that Immortal from the Upper Realm fell in it....."

Many powerful beings, with white faces, looked away from there, feeling that this day was a catastrophe for the whole Heavenly Domain.

if ordinary cultivators got into contact with the wind that blew from there, they would probably die instantly.

In addition, if there were all kinds of disasters from outside the realm, then the whole Heavenly Star Realm would have to suffer.

Thinking of these, countless cultivators and living beings began to despair.

And at this time, in the deepest part of the Netherland Heavenly Pond.

Along with a thick chaotic mist, a Green Lotus that entwined with Chaotic aura took root there, dropping down a thick worldly aura.

"It seems that things are not completely out of control....."

Jiang Yang, who had sacrificed the Immortal Lun Seal and resisted everything with its Supreme divine might, had finally arrived here.

The figure hidden in the monstrous gray mist high in the sky did not strike at him, which made him slightly relieved.

Although he was a little puzzled at this time, he could no longer care.

Only by fusing the Nirvana Green Lotus and borrowing the power of the Dao fruit would he be able to resist that bizarre existence.

What happened today was really beyond his imagination.

Jiang Yang even felt a great confidence that at that time if Gu Changge dared to come towards the Netherland Heavenly Pond, there would only be a dead end, but he did not expect that he would meet such a bizarre existence here.

He couldn't see his real body.

It was even a bit like a Dao law body, but that kind of vast divine might was definitely the general Dao body that could not be compared.

Jiang Yang suspected that it was an Ancient God or a True Demon that slept here when he didn't know.

But all in all, as long as this Nirvana Green Lotus was still there, everything was okay.

"Jiang Yang, what do we do now?"

When one reached the Quasi-Supreme Realm, as long as the true spirit was complete, it was no problem to be reborn with a drop of blood.

Zhao Yi was saved by Jiang Yang at the critical moment, and now that she had reshaped her body and appeared beside him, she couldn't help but worry and ask.

"Help me to protect the law, no matter what it costs, block this place, no one is allowed to come here."

Jiang Yang's expression became very heavy, permeated with cold hard majesty, not to be questioned.

This was also the main purpose for which he saved Zhao Yi.

Once someone broke in, things would probably be lost.

Although Jiang Yang was confident in his own arrangement back then and there were layers of array patterns guarding the outside, but now, he was also worried about problems.

Since the anomaly had appeared.....

Hearing this, Zhao Yi's expression also gripped up and said, "Understood."

And at this time, Jiang Yang frowned and thought carefully before deciding to give her the Immortal Lun Seal, telling her how to activate it and awaken the artifact spirit in it.

With her Quasi-Supreme Realm strength, she could barely push it a bit.

The special thing about the Immortal Lun Seal was that the artifact spirit in it was not born on its own, but was refined with the True Soul of the living spirit when it was first refined.

This was also one of Jiang Yang's considerations for his trick.

With the Immortal Lun Seal in hand, Zhao Yi would feel a little more secure.

And soon, Jiang Yang looked calm again, walking towards the Lotus body of the Nirvana Green Lotus, layers of Chaotic mist surging down, all scenes were incomparably blurred.

The fusion process seemed to him to be incomparably easy, he just had to spend a little more time.

As long as the Nirvana Green Lotus Body was fully fused and a trace of the power of all the worlds returning to one erupted, he would be able to have great strength.

The mysterious woman who had been chasing him outside could also be easily suppressed and killed.

However, just at the moment when Jiang Yang's figure stepped into it.

"What....."

His eyes widened abruptly, his face changed drastically, his entire scalp was almost lifted off, and he was cold from head to tail.

His soul started trembling.

"How is this possible....."

Jiang Yang's words trembled for the first time, unlike before, he couldn't remain calm, as if everything was under his control.

He simply could not believe that the figure that had already fallen would appear here.

And looking at his appearance, he seemed to have been waiting for him?

At this moment, Jiang Yang's whole head buzzed, like being blasted by a bell, emitting a sound that was hard to set.

He opened his mouth with difficulty, and his voice was hardly calm, "You..... How come you are here?"

Gu Changge was sitting above the Nirvana Green Lotus, his figure was covered by a layer of blurred fog, the monstrous demonic aura, constantly penetrating and intertwining, filling every inch of the void.

He looked at Jiang Yang, with a gaze raked with interest, "Why can't I be here?"

"I've been waiting for you for a long time, Human Ancestor."

### **Chapter 238-1: I know who you are, An incomparably desperate Human Ancestor (1)**

Within the vast and boundless lotus body that was filled with chaotic aura as if arriving into a new world.

Gu Changge sat cross-legged here, with his eyes filled with interest, overlooking Jiang Yang who stepped into this place.

His star-like light robe was fluttering and there was an incomparably terrifying power brewing within.

The mountains and seas were whistling, the sun and the moon turned dark, and the sky collapsed.

At this moment, each of his cells seemed to have transformed into an ancient and vast universe, making a heart-pounding rumbling sound.

Now the Nirvana Green Lotus had been completely refined by him with the tolerance of the demonic heart.

All of the origins were no longer chaotic and mixed, and they even looked strangely natural.

No matter how monstrous the surrounding demonic energy was, he was imposing.

A wisp of light emerged as if even if the sky collapsed and everything was destroyed, he would be Immortal. It was like the power of his flesh could resist the collapse of the world!

And these were the physical changes that Nirvana Green Lotus brought him.

There were strands of chaotic mist outside, which were intertwined, isolating all of the aura fluctuations of this place.

This made Jiang Yang even more horrified, his back was cold, and his scalp was almost numb.

He even handed over the Immortal Lun Seal to Zhao Yi outside, which was his biggest reliance before, which meant that his only method now was the Reincarnation Seal.

Gu Changge was waiting here, waiting for him to come for his death.

This made Jiang Yang's heart sink continuously, sinking into a trough.

This was the first time he had encountered such a situation since his previous reincarnations so many times, and it was also the most dangerous situation.

Didn't Gu Changge fall into the Netherland Heavenly Pond? With his calculations, he was killed by a pit, and even his bones could not be found.

Who would have thought that he would appear here unharmed, and occupying the Nirvana Green Lotus that originally belonged to him?

And it seemed that he had been here for an unknown time.

Perhaps the phantom that everyone in the outside world saw at the time was intentionally made by Gu Changge, so that everyone could see it. Thus he deceived everyone including him.

Jiang Yang was not stupid, he was someone who had lived so many lives.

He had experienced a lot of things, he immediately realized that something was wrong.

He was calculated by Gu Changge, to be precise, he was calculated by him.

It was a pity that he lived so long, but he was kept in the dark without knowing it.

Soon, Jiang Yang forced himself to calm down, knowing that at this time, he couldn't be in a mess.

"I've been waiting for you for a long time, Human Ancestor."

But in the next moment, as Gu Changge spoke with interest, Jiang Yang's pupils could not help but shrink again.

His skull seemed to be lifted, cold water poured in directly, and the more terrifying chillness swept through his limbs, almost making him shiver all over, standing still.

"You know who I am... how is it possible..."

"When did this happen?"

His voice trembled faintly, and his face changed drastically.

Gu Changge even revealed his identity and said that he had been waiting for him for a long time!  
With a bang, his head went blank, which meant... Gu Changge knew his true identity a long time ago.

It was just that he had been pretending not to know, and there was no showdown to inform him?

Before that, what Gu Changge did was clear at a glance.

Thinking of this, Jiang Yang didn't even realize that his hands trembled uncontrollably.

Why couldn't he see any abnormality before this at all?

He just treated Gu Changge as an ordinary person from the Upper Realm, at most a little trick, and thought that he was nothing to worry about.

Who knew that he was the one who hid the deepest.

"When? Does it matter?"

"What's wrong? You're so surprised, I thought you already knew?"

"Human Ancestor, your performance disappointed me too much."

"At this time, shouldn't you be as self-confident and arrogant as before?"

At this moment, Gu Changge spoke again, looking at Jiang Yang, who was astonished, with a smile, his words were still so indifferent.

He slowly got up.

The terrifying power swept in like a tide.

The monstrous gray fog outside the dome of the sky made a sound like a mountain and a tsunami. It was so terrifying that the world trembled.

The stars outside the realm sent out ocean-like fluctuations, turning them all into ashes!

It was because of Gu Changge's breathing!

"What the hell happened? Why do I feel that Jiang Yang's breath is changing and weakening?"

Yue Mingkong stared at the terrifying gray fog in the sky with fear, and was unwilling.

In her perception, Jiang Yang disappeared in the deepest part, and his target was definitely the Nirvana Green Lotus.

But with this terrifying figure, she couldn't stop it.

"Is there something wrong with Jiang Yang? It seems that he is not very relaxed. The weakening of his aura may be an accident..."

"Jiang Yang is so confident that he has set up a lot of tricks here, but now it is beyond his control."

"Why does it look more and more like Changge's actions... This strangely familiar feeling... Did he really secretly follow me?"

Yue Mingkong frowned, she could only think like this, with a wave of her jade hand, she instructed the men behind her to watch out, to avoid some stinky fish and shrimps slipping in at this time.

At this moment, when he heard Gu Changge's words, Jiang Yang's face was faintly ugly. Compared with the contempt at the beginning, the mockery now made him even more angry.

But he couldn't do anything about it.

When he was in Immortal Lun Sect, he thought that Gu Changge dared to do this because he didn't know his identity.

But who would have thought that Gu Changge actually knew it at that time, but he just pretended not to know and played with him in the palm of his hand.

"Who the hell are you?"

At this time, Jiang Yang's voice had calmed down, and his mood was very strong, after all, his biggest trump card, the Reincarnation Seal, was still there.

He didn't believe that Gu Changge had a way to kill him.

At most, all his efforts in this life would be in vain.

But he could still reincarnate.

"It doesn't matter who I am, what matters is that you're going to die today."

"Before I die, I can give you a chance to say a few more last words."

Gu Changge smiled lightly, knowing what Jiang Yang was actually thinking.

He didn't mind letting Jiang Yang despair before this. After all, in a desperate situation, the chance of success of plundering his Luck would be greater.

Since ancient times, villains have died because of too many words, right?

That was because their methods were not meticulous enough!

In Gu Changge's eyes, Human Ancestor's Luck was passing quickly, especially when his protector and Yaoyao fought, it had already reached the lowest point.

After breaking up with Yaoyao, who was supposed to be on his side and helping him expand his territory, it was enough to break Jiang Yang's last reliance.

In the Heavenly Star Realm, many of the back-hands he arranged had now vanished under Gu Changge's calculations, and they had all disappeared into nothing.

How much Luck was left with Jiang Yang?

He was so stupid that he even destroyed his own city wall, Immortal Lun Sect.

He was still too arrogant and stupid.

He just felt sorry for the reincarnations that he had lived for so many lifetimes.

However, Gu Changge still did not take action against Jiang Yang in front of Yaoyao and many people outside, after all, if he did this then his persona as a Master, would collapse.

When the time came, he would appear with the excuse of being trapped in the middle, the timing was just right, and he would pinpoint it.

Moreover, Yue Mingkong was still outside the Netherland Heavenly Pond watching everything here.

So Gu Changge warned her with his Innate Divine God, so that she would not barge in and ruin his plans.

The main thing was, Gu Changge thought that with her means, she might even suffer a big loss from the Human Ancestor inside the Netherland Heavenly Pond.

What she had to do was done, now Gu Changge just needed to close the net.

"Last words? You are still the first person who dares to say this to me..... Since you already know my identity as a Human Ancestor, it should be clear that you can't kill me."

"No matter how many times you kill me, I will reincarnate and return again."

Jiang Yang's expression, becoming incomparably calm, and he said indifferently.

Knowing that the many tactics of this life were useless, he also gave up resistance.

Although this was counted as a stain among many reincarnations, he did not expect to suffer a big loss on Gu Changge and fall here.

But now it did not matter, he was already planning to shatter the Reincarnation Seal and disappear into reincarnation again.

When the time arrived, his past life memories would wake up, when he remembered all this, he would let Gu Changge understand, what was called regret.

His methods as a Human Ancestor was not for him to speculate.

"It's already this time, and you are still pretending."

"Didi you forget what I said to you before, young men should less pretend? Especially in front of me."

Gu Changge could not help but let out a snort at his words, and was not surprised at all.

He turned his big hand towards the front, runes flickered, laws and rules fell down, immediately emitting a mountainous sound, transforming into an incomparably solid, sky-covering giant hand, slapping down towards Jiang Yang.

**Puff!**

"Damn it....." Jiang Yang frowned and wanted to dodge backwards, however it was simply too late.

The horrible force smashed down, and he immediately coughed out a mouthful of blood, his internal organs ruptured, and half of his body exploded.

Gu Changge held back, so as not to let him die so easily.

The so-called Son of Luck, always with innate and inexplicable confidence, and the Human Ancestor's confidence, was that he could not kill him?

It was simply ridiculous.

"It's useless even if you kill me now, I will still return when I should return, no one can stop this."

"You can stop me for a lifetime, but not forever."

Jiang Yang's eyes were incomparably gloomy, cloaked, and wretched.

At this moment, he was covered in blood, lying on the ground unable to stand up, but still had a proud bone that could not be humiliated.

"You can reincarnate many times and return, don't you feel very old?"

### **Chapter 238-2: I know who you are, An incomparably desperate Human Ancestor (2)**

Gu Changge smiled lightly and said something that Jiang Yang could not understand, but it was clear that it was not a word of praise. He wanted to speak again amidst his ugly face, even if he could not resist at this moment, his mouth would not yield.

#### **Rumble!**

However, Gu Changge did not allow him to speak.

This time it was even simpler, he directly grabbed Jiang Yang in the palm of his hand, just like grabbing a small mole that wanted to jump.

"Just kill me, even if you annihilate my True Spirit, it won't be of any use."

"My immortality lies in the fact that there are people in all the Heavenly Realms extolling my name!"

"You are still too young to kill me with your tactics!"

Jiang Yang thought that Gu Changge was annoyed and wanted to directly crush him to death, so thinking this, he could not help but reveal a faint mockery on his face.

After all, this was the only confidence he could find in front of Gu Changge.

So what if he was being calculated?

Even if he had to die in this life, so what?

He had a long history of pride and would not yield!

"Now you are like a fool."

"Don't you want to know who I am?"

"When you're dying, you still think you have a chance? Just how stupid are you?"

The smile on Gu Changge's face did not change, it was still faint.

As his words fell, Jiang Yang frowned, and his mocking words also staggered. He felt that something was wrong.

He suddenly felt, what did he think wrong?

At this time, Gu Changge was still so confident?

Could it be that he had a way..... to kill him?

Jiang Yang did not believe it.

**Buzz!!!**

But in the next moment, his face changed violently and dramatically, his eyes were about to pop out as his face turned gloomy quickly and tragically with a strong sense of horror and disbelief.

A dense dark light diffused out, accompanied by palpitating Dao laws, dropping down, forming a waterfall-like astonishing sight.

It was the Great Dao treasure bottle that was floating up and down, being dragged in the palm of Gu Changge's hand.

As the dark light flickered, it seemed as if heaven and earth could be swallowed up!

"Great Dao treasure bottle....."

"How is it possible....."

"You're actually an inheritor of demonic art?"

Jiang Yang couldn't help but tremble.

His voice carried an undisguised tremble and terror, feeling fear for the first time in his life.

Why did he go to such length in search for the inheritor of demonic art in every life, to purify the peace for the world and return a peaceful environment for the living beings to cultivate?

Because the Great Dao treasure bottle was the nemesis of his reincarnation method, and also the only nemesis!

So he couldn't let the inheritor of demonic art to grow up and threaten him in the future.

For the sake of the world's life? That was all bullshit!

He just wanted to kill the existence that threatened him in advance in the cradle!

"Now you know who I am....."

Gu Changge smiled lightly as always, and with a buzz, the Great Dao treasure bottle sank, dropping down from the sky and enveloping Jiang Yang.

Terrible aura surged up, like a dark divine light that covered the universe.

"How is it possible..... You are actually an inheritor of demonic art....."

Jiang Yang's face became incomparably pale, full of horror.

There was no longer the confidence that he had just now, feeling that he could still return from reincarnation.

He felt the threat of death for the first time, and he was never expecting Gu Changge's true identity to be the Inheritor of demonic art.

It seemed that the terrifying figure that appeared outside should also be the Universal Transformation of the demonic body that Gu Changge performed.

He now figured out why Gu Changge had calculated him from the very beginning and wanted to kill him.

"How is it possible..... The inheritor of demonic art of this world, how could it be that powerful....."

Jiang Yang's voice trembled slightly, still finding it hard to believe.

None of the inheritor of demonic art he had encountered were as powerful as Gu Changge, so powerful that even he could not resist.

"No, it's you who is too weak."

Gu Changge's voice was still light, and as his foot fell, instantly trampling Jiang Yang underfoot.

"No..... Impossible, you can't be the inheritor of demonic art....."

Jiang Yang was incomparably unwilling and in those eyes, there was a fierce explosion of multicolored divine light.

However, in his current state, let alone contending, it even took effort to speak.

Under the terrifying suppression, there were many mysterious rays of light falling out from the Reincarnation Seal.

But with the suppression of the Great Dao treasure bottle, the light of the Reincarnation Seal began to dim, and even cracks appeared, as if it were about to collapse.

"This is the real Great Dao treasure bottle, and it's not just a replica condensed from the cultivation method..."

"I understand."

"I see."

"So that's how it is."

"I know who you are..."

Jiang Yang was paying attention to the treasure bottle that shrouded him, and suddenly smiled miserably, as if he just noticed it.

Suddenly, his expression was not as unwilling and unbelievable as before.

Everything seemed to be taken for granted, so he was calm and able to accept it all.

"Sure enough, you never died."

He smiled miserably, desperate.

"Why would I die?"

Gu Changge raised his eyebrows slightly.

He didn't care what Jiang Yang said, and still smiled faintly.

Although he was at a loss, he also knew that the existence of the Great Dao treasure bottle was related to his origin.

After all, many memories were likely to be sealed by him in the past.

Even he didn't know when or what would emerge.

What the Human Ancestor said was obvious that the Great Dao treasure bottle he possessed was a real existence, cast with endless divinity and immortal rhythm.

At this time, Gu Changge was naturally too lazy to explain anything.

"It seems that the descendants of the Human Ancestor hall in this life have also fallen into your hands..." Jiang Yang was still smiling miserably, very desperate.

He thought of all the things he experienced after he was led out of Immortal Lun Sect.

The secret aura of the Human Ancestor Hall that he sensed at that time was obviously something that Gu Changge had secretly done.

"Oh, do you want to say that to her?"

Hearing this, Gu Changge smiled lightly and waved his sleeves.

The space in front of him suddenly cracked, and Jiang Chuchu's figure fell out of the Inner Universe that had already evolved from the Inner World.

She was cultivating on a bluestone.

During this period of time, she felt uncomfortable in her heart, and it was difficult for her to be at peace. She felt that the reincarnation of Human Ancestor was likely to have an accident.

But she wasn't sure either.

Every day was like a torment, and many complicated emotions flashed in her heart, making her sigh, not knowing what the future would be like.

Now that Gu Changge suddenly released her from the Inner Universe, Jiang Chuchu's expression was still a little puzzled.

With eyes as clear as lotus, she looked at Gu Changge beside her, looking like she was asking.

Could it be that Gu Changge was really merciful and was going to let her out?

"Gu Changge..."

Jiang Chuchu was about to speak and asked why.

Gu Changge had already spoken, and naturally wrapped her arms around her waist, smiling faintly, "Meet the Ancestor you want to see the most, this will be your first and last meeting with him."

"Don't say I didn't give you this chance."

Hearing this, Jiang Chuchu's expression was suffocated, a little unbelievable, as if she wanted to confirm again.

Then she looked at Jiang Yang, who was suppressed by Gu Changge, covered in blood and couldn't make out his face. She couldn't believe it.

This person who was stepped on by Gu Changge and was embarrassed to the extreme, could be the reincarnation of Human Ancestor?

"He... he is the Human Ancestor..."

Jiang Chuchu's voice trembled uncontrollably, unable to calm down at all.

In the teachings of Human Ancestral Hall, what a mighty existence Human Ancestor was, and all kinds of great achievements were praised by all beings.

The painting hanging in the Human Ancestor Hall was still imprinted in the eyes of all the disciples of the Human Ancestor Hall.

That stalwart figure with his back to all beings, as if no one in this world was worthy for him to turn his back.

Was it this kind of person, who was now being stepped on by this big demon, and who couldn't even lift his head?

But she was a descendant of Human Ancestor Hall, practicing the exercises of Human Ancestor Hall, and the person in front of her was the reincarnation of Human Ancestor.

The origin couldn't be wrong.

Jiang Chuchu felt that her world was about to collapse.

She thought that although Gu Changge could gain the upper hand, Human Ancestor would not be too weak. After all, he had a lot of arrangements, and he had reincarnated many times.

In terms of strength and means, how could Gu Changge be his opponent?

However, things were just the opposite of what she had guessed.

Gu Changge was so powerful that not even the Human Ancestor was his opponent, so he was crushed by force.

"How is it possible..." Jiang Chuchu murmured, her face was frosty, as if struck by lightning.

She thought about saving the Human Ancestor.

But even the Human Ancestor was not Gu Changge's opponent, so what could she do?

Jiang Chuchu was also desperate.

"Why isn't it possible? He's just a rooster, and I haven't stepped on it yet."

"Your Human Ancestor Hall, the people you believe in, are now under your nose?"

"But... do you dare to save him?"

Gu Changge looked at her and smiled casually.

Jiang Chuchu's face was pale and her body was trembling. If it wasn't for being surrounded by Gu Changge, she would probably have collapsed to the ground.

At this time, Jiang Yang naturally saw Jiang Chuchu.

This was the real descendant of the Human Ancestor Hall!

Speaking of which, this should be the woman who protected him in this life, but now, judging from her appearance, it seemed that she had already been suppressed by Gu Changge.

She was not even perfect.

This made Jiang Yang desperate, aggrieved, and resentful...

"You..." Before he died, he was going to scream and faint.

It was at this moment that Gu Changge's eyes narrowed slightly, feeling that the time was almost up.

"There will be no afterlife, nor will you have a chance." He smiled softly.

**Buzz!!**

In the next moment, the Great Dao treasure bottle trembled and began to fall. The terrifying black light drowned down, instantly swallowing Jiang Yang's body.

**Chapter 239: What an amazing harvest, Gu Changge, just kill me**

**Boom!**

The terrifying aura even suppressed the chaotic air.

The space here made a cracking sound.

After all, this was the real Great Dao treasure bottle, the divine light was surging as it was condensed with Dao, and it was falling and suppressing everything.

Even if the Reincarnation Seal glowed and tried to resist, it was also overwhelmed by the black light.

"Ahh....."

Jiang Yang let out a scream, and the voice quickly disappeared and he gradually became lifeless.

Including the Reincarnation Seal of the Human Ancestor that became dim, and was shrouded in black light, the Immortal meaning was bright, showing a rare balance.

This balance was quickly broken.

Of course, this devouring process would not be simple, and it would even take time to slowly digest it.

After all, it was the accumulation of the Dao Fruit of Human Ancestor over the years. Even if the Great Dao treasure bottle could swallow it, it had to go through a process.

At this time, Gu Changge also heard the prompt sound from the system in his mind.

The moment he made his move, he had already used the Luck Plundering Card.

Jiang Yang was beaten into this state, and it was a good time to plunder.

"Ding, the plunder is successful, and you have obtained all the Luck from the reincarnation of Jiang Yang, the Son of Luck and the reincarnation of the Human Ancestor, and obtained 8,000 Luck points and 40,000 Destiny value."

"Ding, you successfully killed the reincarnation of Human Ancestor, the Son of Luck, and triggered the protocol of clear drop of Luck. Rewarding an extra treasure chest of Heaven."

"Ding....."

A series of system prompt sounds came.

Gu Changge didn't care much about his Luck and Destiny.

What he cared most about now was the extra treasure chest of Heaven he received after the Human Ancestor's death.

Dao fruit? Reincarnation Seal? Or something else?

"Do you want to open the Treasure Chest of Heaven?"

"Open."

Gu Changge didn't hesitate at all.

A familiar golden treasure chest fell out, but this time the treasure chest had an extra purple halo compared to the other treasure chests.

"It actually brought purple luck..." Gu Changge was a little surprised.

It seemed that the Human Ancestor's Luck had indeed reached a relatively high level in the system.

**Buzz!!**

Soon, only Gu Changge could see that in front of him.

A layer of golden light erupted, followed by a layer of mysterious lines, simple and atmospheric, flowing slowly.

There were three things floating up and down, shrouded in a dense layer of light.

"Ding, congratulations to the host for obtaining the Reincarnation Seal x1, the Purple Crown of Luck x1, and the Guidance Dao fruit x1."

Huh? Reincarnation Seal?

Gu Changge's eyes narrowed slightly.

He remembered the Reincarnation Seal that he had condensed when he absorbed the reincarnation Dao platform left by the Heavenly Lord of Reincarnation in the Ancient Immortal Continent.

This kind of thing was a life-saving item.

That was to say, now he had another life, unless he encountered the same inheritor of demonic art as him, who also had the Great Dao treasure bottle.

Of course, it was just a metaphor, this kind of thing was impossible.

And as his mind moved.

Gu Changge felt that a vague and mysterious mark disappear in his True Spirit and then slowly landed on it.

"One more life, two Reincarnation Seals, and one more trump card."

Gu Changge was quite satisfied.

As for the Purple Crown of Luck, what was this?

Afterward, when Gu Changge checked its introduction, his expression became somewhat inexplicable.

The Purple Crown of Luck turned out to be a mysterious item of Luck, even if his Luck was black, it was not controlled by this side of Heaven, representing unpredictable and unknown.

But he could still use it.

When wearing the Purple Crown of Luck, he could have the Luck of the purple level.

As far as Gu Changge knew, Purple Luck was the highest level of Luck he knew so far.

Of course, there were requirements for wearing items, as well as intervals, and there were many restrictions.

At a critical time, it might be a prop with an extraordinary effect.

After Gu Changge accepted it and didn't care much.

Finally, he looked at the Guidance Dao Fruit he received.

Judging from the name, it was quite strange. The surface was covered with a strange and simple rune, which was deep and boundless.

"It seems that this is the talent of the Human Ancestor. The talent of Guiding is related to the soul. Using the method of Dao Fruit is actually an extension of this talent..."

Soon, Gu Changge understood the function of this Guidance Dao Fruit, and was a little surprised.

Then he chose to fuse with it.

This was a strange talent, and it belonged to the soul alone, and could lead others to the fruit.

And this Dao Fruit naturally included cultivation base, True Spirit and so on.

Speaking of which, copying talent with a different name, of course, was not guaranteed to succeed, it was a test of Luck.

However.....

The Purple Crown of Luck and the Dao Fruit of Guidance could be combined.

This was really a necessary means of digging a hole and throwing a pot.

"No wonder the Human Ancestor's divine soul could hold so many Reincarnation Seals. It turns out that there was such a talent."

Gu Changge felt an inexplicable aura that permeated his soul.

In the inheritance of the Ancient Heavenly Lord of Reincarnation, there were methods of concealment and there were also methods of imitation.

In the beginning, based on these methods, on the day of the Ancient Immortal Gu family banquet, he threw the black cauldron of the inheritor of demonic art on the head of Heavenly Emperor's family and his son Ying Shuang.

But now that there was the Guidance Dao Fruit, this was even simpler.

Gu Changge wanted to trick people and throw the pot, which was a thousand times more convenient.

He felt that it was tailor-made for him.

The harvest this time was amazing.

"You killed the Human Ancestor..."

At this time, Jiang Chuchu seemed to have just recovered after seeing Gu Changge taking away the Great Dao treasure bottle.

Her voice trembled slightly.

Her face was pale, and was filled with fear and disbelief.

Seeing Human Ancestor die in front of her with her own eyes, she couldn't do anything but watch him die.

This made her feel that her beliefs and the world were collapsing, and the majestic palace in her spiritual sea was even beginning to shine, and there was a tendency to break through.

"Kill or get killed."

"Could it be that I should be waiting for him to kill me?" Gu Changge glanced at her and said casually.

Jiang Chuchu had a hard time accepting this scene, and she was full of guilt, regret, loss, doubts...

If she had been braver and fought against Gu Changge just now, would the ending have changed?

Would the Human Ancestor still die?

However, Gu Changge seemed to know what she was thinking, and said lightly, "No, you would have died here just like him."

Jiang Chuchu's face turned pale, she was not afraid of death, but what Gu Changge said made her feel palpitations and fear.

However, Gu Changge changed the subject at this time, "However, I won't kill you, after all, I promised you."

Having said that, he showed an intriguing smile again and continued,

"Besides, you are my woman anyway, and I won't do anything to kill my own woman."

Jiang Chuchu was stunned when she heard these words, she didn't expect Gu Changge to suddenly say that since she was his woman, so he would not kill herself.

For a while, she was a little silent, with a complicated expression.

After all, for the outside world, there was a descendant of the Human Ancestor hall walking around the world. Since Gu Changge had the means to make the Human Ancestor disappear silently, wouldn't it be easy to make her disappear silently?

Therefore, she didn't doubt the truth of Gu Changge's words, and it didn't matter.

"Human Ancestor is dead..." she murmured, remembering the purpose of the Human Ancestor Hall since its existence, and now even the Human Ancestor was dead.

Did the Human Ancestor Hall still need to exist?

How would she explain to the world at that time?

The Human Ancestor Hall will fall from the altar, and it would be irreversible since then, and it would be difficult to return to its former glory.

Thinking of this, Jiang Chuchu's expression was even more miserable.

She didn't know what to do next.

"Gu Changge, just kill me..."

Simply, she opened her mouth, her eyes fixed on Gu Changge, intending to beg for death, not knowing the purpose of her future cultivation anymore.

After all, from the moment she was born, she was taught that she must work hard for the glory of the Human Ancestor Hall in her entire life, and to be a descendant of the Human Ancestor Hall, she must shoulder her responsibilities.

Human Ancestor was now dead.

It was conceivable that the Human Ancestor Hall would soon fall apart. Where would she go then?

"What a poor fellow, do you plan to live for the Human Ancestor Hall all your life?"

"I said, I won't kill you."

"However, I have a way to help you."

Hearing this, Gu Changge showed some pity, and reached out to help her pin the falling strands of silky hair behind her ears.

#### **Chapter 240: Not Human Ancestor but such a person, as if it was left for her**

Hearing this, Jiang Chuchu was stunned, looking at Gu Changge's gesture of helping pin her hair, her expression was even more complicated.

She didn't expect Gu Changge to act so gently.

For a while, she was a little flattered, because Gu Changge was usually a cold and heartless person, and she could never see the slightest warmth in his eyes.

"What can you do?"

Jiang Chuchu looked at him with sparkling eyes.

She didn't know why, but her voice lowered, and it was not as cold and hard as usual.

Hearing this, Gu Changge smiled slightly and said, "The method is very simple."

"Isn't it the Human Ancestor? The world needs such a belief."

"Now, apart from you and me, who knows that he has been killed by me? As for the Human Ancestor Hall behind you, they won't know about it. You can rest assured about my methods."

"So, no one other than you and me will know that Human Ancestor is dead."

"What all creatures in the world need is not the Human Ancestor himself, but a person like Human Ancestor."

With a smile, he was persuasive.

Of course, if he hadn't killed Human Ancestor, there wouldn't be so many things.

However, he murdered her Human Ancestor on the one hand.

But now, he was kindly helping Jiang Chuchu.

If there were still outsiders at this moment, they would be horrified to hear this, their eyes would widen, and a terrifying chill would appear, thinking that Gu Changge must be crazy.

Jiang Chuchu was also stunned, and her eyes widened.

She quickly shook her head.

"No... how can this be... Human Ancestor is irreplaceable, how can you find someone to disguise him?"

"In this way, what's the difference between me and a traitor?"

She gritted her teeth, rejected Gu Changge's statement, and disagreed.

Gu Changge's interruption was to find someone to act as Human Ancestor.

It was as if he had now found someone who was pretending to be a descendant from the Human Ancestor hall, walking the world, and deceiving every creature.

This kind of thing made Jiang Chuchu uneasy, not only betraying her sect, but it was more like she and Gu Changge were in the same boat and went down the wrong path together.

It was more likely that she and Gu Changge murdered the Human Ancestor and replaced him.

This was something she didn't want to accept.

Hearing that Gu Changge was not surprised. If Jiang Chuchu agreed like this, then he would be really surprised.

He didn't change his smile and continued, "I just thought of a way for you. As for whether you accept it or not, that's your problem."

"And it's a good thing for me that the Human Ancestor Hall is falling apart. I can just let it go. So, don't try to make me accommodate you."

Jiang Chuchu went silent with a complicated expression.

She knew what Gu Changge meant, what did the existence of the Human Ancestor Hall have to do with Gu Changge?

He just killed him with his hands.

At that time, who would know that he killed the Human Ancestor, and who would know that he was the inheritor of demonic art?

In this case, why would Gu Changge ask for trouble?

For a while, Jiang Chuchu was a little stunned that Gu Changge said this because of her relationship.

Speaking of which, Gu Changge didn't do anything after that, except that he treated her badly at first.

She did have deep malice towards Gu Changge from the very beginning, not believing that he would be a good person.

In fact, in some ways, he was still bad in the end.

Thinking of this, Jiang Chuchu's expression was extremely complicated, and so was his mood.

But... she really couldn't do this kind of betrayal to her sect and join forces with this demon.

"Gu Changge, you should kill me!"

Therefore, after thinking about it for a long time, Jiang Chuchu decided and planned to die.

Hearing this, Gu Changge frowned.

The smile on his face also disappeared, and he became indifferent, "Jiang Chuchu, don't try to challenge my patience."

This time, he directly addressed Jiang Chuchu by her full name.

Before that, he always called her Holy Maiden Chuchu.

Jiang Chuchu's expression had returned to calm, but changed again.

She naturally felt the difference in this title, and it was obvious that her disrespect made Gu Changge a little angry.

For a while, she couldn't tell whether it was Gu Changge's kindness or something.

Then, Jiang Chuchu gritted her teeth slightly,

"Don't force me, Gu Changge, I'd rather die of old age than betray my Master. You killed the Human Ancestor, and I didn't take action against you..."

"Speak like this if you dare to attack me."

Gu Changge interrupted her indifferently, and then said lightly, "You want to die, but I wouldn't kill you. In other words, you used to be dead, and now this life is given to you by me."

"What do you want to use it for? Without my permission?"

Hearing this, Jiang Chuchu's eyes suddenly widened, and she was obviously stunned.

Why did it sound like it made sense?

But this was obviously because it was Gu Changge's words.

In the next moment, Gu Changge waved his sleeves, and the portal to his Inner Universe suddenly opened, and he casually threw Jiang Chuchu in.

Then, he also walked in.

"Gu Changge, you are despicable and shameless..."

And soon, in the Inner Universe, Jiang Chuchu was so angry that she couldn't help shouting.

The calm state of mind that she practiced in the past was completely useless in front of Gu Changge.

.....

In the deepest part of the Netherland Heavenly Pond.

Zhao Yi, who has been protecting Jiang Yang, looked a little tired. At this moment, she suddenly felt the chaotic mist in front of her disperse, and she couldn't help showing joy.

"Jiang Yang, you succeeded..."

However, before she could finish her words, she froze there and was extremely horrified.

Her eyes widened, and she stared at Gu Changge who came out of it in astonishment. She couldn't believe that this scene would be real.

Wasn't this Immortal already rumored to have fallen into the Netherland Heavenly Pond and was trapped to death by Jiang Yang?

But now, how could he suddenly come out of it?

What about Jiang Yang?

Nine times out of ten, the odds were worse.

"Not good....."

Zhao Yi's expression was so horrified that she subconsciously planned to deal with Gu Changege by using the method taught by Jiang Yang to activate the Immortal Lun Seal.

But in the next moment, before she had time to react, her eyes went dark, and she felt a giant hand that covered the sky approaching and covering her in an instant.

**Puff!**

In the next moment, Zhao Yi was desperate and couldn't help begging for mercy.

"Mr. Immortal, please spare me! All of this was arranged by Jiang Yang, and it has nothing to do with me..."

She couldn't bear the fluctuation, and her body exploded instantly. Gu Changege intended to keep her True Spirit alive, just to cause trouble for Jiang Yang.

Now that Jiang Yang was dead, there was no need for Zhao Yi to stay.

Immediately, her soul was smashed into ashes, and her body and spirit were both destroyed.

The artifact spirit in the Immortal Lun Seal also sensed that something was wrong, and wanted to take the opportunity to break through the void and escape, but Gu Changege had already expected it.

The Golden Divine Weapon Collection unfolded!

The vast world in the middle was like a picture scroll, covering all directions, and the heaven and earth hum with a mighty sound, opening up the endless brilliance!

Immediately Immortal Lun Seal was unable to escape, and fell directly into it.

After Gu Changege received this Supreme weapon, he was not in a hurry to refine it, because now he still had things to do.

As for Jiang Chuchu, he was not in a hurry, knowing that she would choose sooner or later.

**Boom!!**

And soon, the terrifying gray fog over the Netherland Heavenly Pond became even more astonishing and monstrous, and could almost break through outside the realm.

In a faraway place, many powerful cultivators looked here, their expressions still horrified, and it was difficult for them to calm down for a long time.

At this time, the terrifying aura of the Netherland Heavenly Pond swept in all directions like a big wave. Once again, many cultivators who were planning to come to find out were stopped, and it was difficult to get close.

There were also subordinates dispatched by Yue Mingkong to be in charge of guarding in the four directions, but no one dared to break in. Now, in this situation, it must be a dead end.

"Jiang Yang's aura disappeared... What happened?"

Yue Mingkong frowned, and then her figure flickered, urging a forbidden weapon to resist the residual aura around her, and quickly rushed into the Heavenly Pond.

Because she saw that the terrifying figure in the sky seemed to have disappeared, and she couldn't even feel the aura.

As if the world had evaporated, which was also too strange.

Moreover, the aura of Jiang Yang that she noticed couldn't be felt suddenly, and she didn't know what happened.

But soon, when Yue Mingkong rushed to the place where the Nirvana Green Lotus was, she was stunned, and her doubts deepened in her eyes.

The vitality of this Nirvana Lotus had already disappeared, and it was obviously absorbed by someone.

The first thing Yue Mingkong ruled out was Jiang Yang.

If Jiang Yang's fusion was successful, he was bound to rush out and seek revenge for himself.

But from the current situation, Jiang Yang failed, and might even have died here.

This caused a stormy wave in Yue Mingkong, which was unbelievable.

Who had the means to kill Jiang Yang in this place, or lay it on Jiang Yang's tricks?

"There are still seeds of Nirvana Green Lotus in this place? Did someone forget to take them away?"

Soon after noticing one of them, Yue Mingkong was a little shocked.

She discovered the extremely precious Nirvana Green Lotus seeds. Currently, there were still a lot of them but they were not taken away and left there in the lotus body.

Many of the Immortal spirits and rhythms in it were all there and were not affected in the slightest.

As if it was left here and was not taken away... Was it left for her on purpose?
