

Villain 261

Chapter 261-1: Mingkong, you have really changed, The identity of another inheritor of demonic art (1)

It was very quiet in the pavilion. Apart from the people from the Heavenly Emperor Mountain, Yue Mingkong was the only one seated. At this moment, her expression was calm and indifferent, as if she didn't care about this world, and her entire figure seemed to be carefully crafted from the finest jade.

She was dressed in a wide robe, with a picturesque immortal face without any makeup on her face, and her thousands of threads of silky hair were like a waterfall, tied with a simple hosta.

Even without the presence of the pendants, it was enough to make any beautiful girl of heaven pale in front of her. The kind of aura was like a peerless female Emperor, so that everyone from the Heavenly Emperor Mountain did not dare to have any contempt, and treated her with caution.

On the other hand, Yue Mingkong was Gu Changge's fiancée. He was currently a hero on the Heavenly Extinction Battlefield after saving the beauty, Ying Yu, which was widely circulated in various places, making many beautiful girls envious.

Today, Yue Mingkong's warning caused everyone from Heavenly Emperor Mountain to laugh bitterly, guessing that this matter was related, but they also knew that the other party was not unreasonable.

Some things were really not something they should think about. Gu Changge was extremely good. If there was no marriage contract on him, it might have been alright but with the presence of the marriage contract, their young lady should not have any impression on him in the end.

Because this was destined to be impossible.

"What is the meaning behind Princess Mingkong's words? Is it because you are afraid that I will take away your fiancé?"

At this time, Ying Yu also realized the meaning of Yue Mingkong's words. She frowned immediately and retorted. She chose tit for tat and didn't like the casual attitude of the other party trying to control everything.

She was also the daughter of heaven, and she didn't want to bow her head in front of the other party at this time. Although she did have a certain favorable impression of Gu Changge, but Yue Mingkong words didn't give her any face?

Hearing this, Yue Mingkong shook her head, her expression was calm, beautiful, and lustrous. Her words, as before, did not have any ups and downs.

"I'm advising you and doing it for your own good. If you don't want to suffer from pain in the future, stay away from Gu Changge. As for taking him away?"

Speaking, her tone was slightly mocking and dismissive.

From the beginning to the end, she was not worried that any woman could enter Gu Changge's eyes. Her own possessiveness was very strong, but it was also necessary to divide people. Some women were destined to be only Gu Changge's pawns, and could not threaten her at all.

Seeing her miserable state, she kindly persuaded her, but she didn't care whether the other party appreciated it or not. She had said everything that should be said. If Ying Yu went deeper and deeper in the future, it would be herself who would be hurt in the end.

Prince Ying became the inheritor of demonic art and he was an enemy of the entire world, and the siblings turned against each other.

She wouldn't believe that Gu Changge hadn't done anything during this time. And it was very likely that all of this was caused by Gu Changge. If Ying Yu became aware of the truth in the future, what would happen to her?

She would probably want to kill Gu Changge. At that time, with Gu Changge's temperament, he would not show mercy to Ying Yu.

Yue Mingkong thought that this calamity could be avoided, so she arrived to warn her. As for making Ying Yu feel that she was jealous or something, Yue Mingkong didn't really care.

However, Yue Mingkong didn't know that Ying Shuang had already been taken over by a horse-feeding boy and had exchanged identities. For Gu Changge, he was not at all afraid that Ying Yu would find out the truth.

"What do you mean by that?" Ying Yu frowned, not understanding why Yue Mingkong was seeing her with a little pity.

However, Yue Mingkong did not continue to speak and did not pay any attention. She was as quiet as a female immortal. Her eyes glittered, with an inexplicable look. Seeing Yue Mingkong no longer speaking, Ying Yu took a deep breath, calmed down.

"Young Master Gu is kind to me and the Heavenly Emperor Mountain. I will try to repay him. As for other things, Princess Mingkong, you don't have to worry too much." After that, she decided to say goodbye.

Yue Mingkong nodded, "It's good if you know this."

"Oh, Mingkong, you are here?"

However, at this moment, a slightly surprised voice suddenly sounded under the pavilion, followed by footsteps coming up.

The person was dressed in a moon-white robe, tall and straight, with a warm and jade-like smile on his face, followed by many followers with a strong aura.

It was Gu Changge.

During this time, the Heavenly Extinction Battlefield was not at all peaceful, so he simply left it, intending to find out the true identity of the inheritor of demonic arts first.

In addition, Gu Changge knew that Yue Mingkong had come to Southern Heaven, and he had something to ask her about. Speaking of which, after the last trip to the Lower Realm to eliminate the Human Ancestor, it stood to reason that the appearance of the next Child of Luck would not be very soon.

But according to the system prompts, the appearance of the witch in red seems to be unavoidable. So Gu Changge planned to gather some information from Yue Mingkong's mouth, maybe she would know something.

At this moment, upon hearing this voice, Ying Yu, who had planned to get up and leave, was also slightly stunned. Her footsteps could not help but stop, a little surprised.

She also didn't know if Gu Changge had heard what she and Yue Mingkong said just now.

"Young Master Gu..."

"Young Master Changge..."

Everyone from Heavenly Emperor Mountain hurriedly saluted Gu Changge with a very respectful expression.

Gu Changge nodded slightly, his eyes swept over everyone, and then he looked at Yue Mingkong who had been sitting at the back. The smile on the corner of his mouth was a little interesting.

Ying Yu didn't know if it was his own delusion.

Yue Mingkong, who had always looked calm and composed, suddenly seemed a little flustered and unnatural at this time, as if she was caught doing something wrong in front of Gu Changge.

But this feeling soon disappeared as Yue Mingkong's expression returned to calm again.

"Changge, are you looking for me?" She was the first to speak, slightly surprised, other than that, there was nothing at all.

She was not surprised at all about Gu Changge's sudden appearance.

Although this was the first time the two have met since the last Gu family banquet, Yue Mingkong was very clear that in the Heavenly Star Realm, Gu Changge had been paying attention to her whereabouts.

But Gu Changge never showed up. Today, she took the initiative to show up to find her because of Ying Yu's affairs. Was he afraid that she would destroy his plan?

There was a little doubt in Yue Mingkong's heart.

"I want to see you, do I need any reason for this?"

Gu Changge smiled casually, walked to her side naturally, and then gently held her delicate waist in the eyes of everyone, looking like a very loving old couple. This scene made everyone from Heavenly Emperor Mountain smile bitterly.

Ying Yu didn't expect Gu Changge to make such a move in public. In her opinion, this was no different from Gu Changge telling her that he only had Yue Mingkong in his heart.

For a while, she was inexplicably disappointed in her heart, but this emotion quickly dissipated. Yue Mingkong was stunned for a moment, staring at Gu Changge with cold eyes like flawless gems, "Are you afraid that I will be jealous of this little girl?"

If it was before, she would definitely be ashamed of Gu Changge's actions. But knowing that Gu Changge liked to make fun of her, she didn't care anymore. Because in front of this guy, the more shy she behaved, the more he would tease.

So she didn't want to let him succeed. Gu Changge shook his head, and his smile continued, "I know you are sensible, you won't care about this kind of thing, so don't scare people anymore."

Speaking of which.

He turned his head and smiled at Ying Yu, who had always been puzzled, "Mingkong has always been jealous. Whenever there is another woman around me, she will always be like this..."

"Gu Changge..."

Yue Mingkong suddenly interrupted him, looking a little annoyed. Gu Changge knew that she didn't mean it that way, but did she think it was too lively to say that?

Hearing this, Ying Yu couldn't help but laugh and cry at this moment.

She said hastily, "Young Master Gu, please rest assured, I will not take this trivial matter to heart. Since you and Princess Mingkong have met, I will not join in the fun as an outsider. If I have a chance next time, I will definitely invite Master Gu to come to Heavenly Emperor Mountain for a talk."

"We'll say goodbye first." After all, she took the people from Emperor Mountain and left without staying too long.

"Miss Ying Yu, be careful on your way back." Gu Changge kept a faint smile on his face as he watched them leave.

After they all left, the smile on Gu Changge's face gradually subsided, and he screened everyone away.

Then, he looked at Yue Mingkong with interest and asked, "Is Mingkong worried that I will hurt Ying Yu? In your heart, am I such a heartless and cruel person?"

He naturally knew that Yue Mingkong couldn't be jealous because of this kind of thing.

At most, she just did it out of kindness and couldn't help but persuade Ying Yu, but for Gu Changge, it was just a trivial matter.

To him, Ying Yu was just a pawn that he used at will, and it was actually not much different from Ying Shuang.

Chapter 261-2: Mingkong, you have really changed, The identity of another inheritor of demonic art (2)

No matter from which aspect, she was far inferior to Yue Mingkong's position in his heart.

"To you, she is just a pawn, but to her, you are her savior and admirer. She's also a pitiful person."

Yue Mingkong replied softly, not mentioning Gu Changge's plotting towards Ying Shuang, which caused the two brothers and sisters Ying Yu and Ying Shuang to turn against each other and break up.

Although she had never witnessed it with her own eyes, she knew that it was absolutely inseparable from Gu Changge.

Gu Changge smiled, "It doesn't matter if the chess piece is not a chess piece, I only know that you are jealous..."

Yue Mingkong stared at him, "So if I was jealous, would you consider my feelings?"

Gu Changge was very calm. Yue Mingkong gently rolled her eyes and ignored him.

However, the two of them tacitly did not mention the matter of the Lower Realm at all. Yue Mingkong's cultivation base had grown a lot because of the few Nirvana Lotus seeds left by Gu Changge.

Even in the face of Ancient freaks, she did not need to rely on other means, and she had the strength to fight by her cultivation alone.

"It seems that you don't want me to be your husband at all?" Then, Gu Changge noticed her expression.

He suddenly sighed and seemed a little sad, "I am very happy to be your husband here in Southern Heaven, but Mingkong, you seem too lazy to be with your husband. Do you know how sad it is for your husband?"

Hearing this, Yue Mingkong stared at him with her eyes so cold that she didn't open her mouth, as if she cherished these words like gold. After all, she knew Gu Changge's character well and understood that at this time, he was just making fun of herself, so she couldn't do what he wanted.

Gu Changge also seemed very helpless at this time, and continued to sigh, "Mingkong, you have changed, you don't care about me being your husband anymore."

Yue Mingkong's expression was calm, her peerless immortal face did not have a trace of waves, her eyes were as clear as water, and she stared at Gu Changge.

That look seemed to be implying her intention of wanting to see the duration that he would pretend. But in the next moment, Gu Changge suddenly shot, picked her up by the waist, and went directly to the depths of the pavilion.

"Changge..."

Yue Mingkong was startled by his actions and exclaimed softly. It was hard to keep calm like just now, after all, it was broad daylight.

Gu Changge said calmly, "You know how to call me now, but you forced me. If you call me husband, I will let you go!"

"Husband." At this time, Yue Mingkong was honest, and her appearance was still a bit cute. She knew that she was not Gu Changge's opponent, so she did not make futile struggles.

"You're kidding, you really believe it." Gu Changge couldn't help laughing.

Yue Mingkong couldn't help grinding her teeth, no matter how good her mood was, she was truly angry at this time.

Soon after that, there was a great battle here, the runes flickered, the palace towers glowed, the mountains shook, and many buildings collapsed into ruins.

Many cultivators were shocked and wanted to find out.

However, they was blasted away by Gu Changge's followers in the distance, breaking out in a cold sweat, knowing that this matter was not something they could investigate.

.....

"The inheritor of demonic art is Prince Ying..."

"Is it true? Or is there something wrong..."

At the same time, in Southern Heaven, in a very remote ancient city.

In a quiet mansion. A woman in white was wearing a veil while sitting on a stone chair and muttering softly.

Her facial features were exquisite, her eyes were like spring water, and her eyebrows were like distant stars. Although she was wearing a veil, it was difficult to conceal her cold and aloof temperament.

"How come there is another inheritor of demonic art? According to memory, isn't there only one person in each generation?"

She seemed to be talking softly to herself, but it looked more like she was talking to someone.

"Could it be that there is something unknown about this generation? Impossible."

At this time, a sneering voice suddenly sounded in her mind, revealing a terrifying sense of magic and evil spirits.

"Then why?"

The woman in white couldn't help frowning, and it seemed that it was still difficult to figure this out, "Could it be that this inheritor of demonic art is a fake, but a while ago, there was a lot of uproar."

"Whether it is in the Heavenly Dao Ancient City or the Ancient Immortal Continent, there are traces of the inheritor of demonic art."

"It was the same at Ancient Immortal Gu family not long ago. Did something go wrong?"

Her voice was full of doubts, and she couldn't figure it out.

"We don't need to worry about it. Anyway, now that this inheritor of demonic art is on the cusp of the storm, it is much more convenient for us to do things, and we don't need to be sneaky like before."

In the white-clothed woman's mind, the monstrous voice resounded again.

"That's right. Now, if you want to get a quota for the True Immortal Academy, you still need a lot of points."

"It seems to be quite chaotic during this time, and it's a good time for us."

Speaking of which, a trace of complexity appeared in the eyes of the woman in white, as if she had thought of something.

"What's the matter? Now the inheritor of demonic art has been disclosed as Prince Ying, and it has nothing to do with us. As long as we act a little bit secretly, no one will be able to find out the abnormality."

In her mind, the demonic voice sounded again, as if to comfort her. The woman in white nodded, but her expression was still full of complexity.

At this time, after a pause, the demonic voice said again,

"Actually, we just need to be bolder, with Gu Changege's trust in you, as long as we devour him, with his talent, we can..."

"Shut up."

Hearing this, the eyes of the woman in white suddenly turned cold. A terrifying power emerged from her body, causing the voice in her head to stop abruptly as if she didn't want to conflict with her.

"How many times have I said it, don't mention it, or you will know that with my current ability, I can completely devour you."

The voice of the woman in white returned to a cold and calm voice, but the words she said silenced another voice in her mind, and she was very afraid.

But soon, her voice sounded again, and she felt very unwilling.

"You are the inheritor of demonic art, and you are destined to stand on the opposite side of everyone in this world. Do you really plan to be in front of him all your life, just as a servant girl who pours tea and cuts fruits?"

"You must know that Gu Changege never treats you as his woman. In his eyes, you are just a plaything at best. He will tease you when you are in a good mood, and ignore you when you are in a bad mood."

"Su Qingge, you are such a smart person. You should know what Gu Changege has done during this time. If you let him know that you are the inheritor of demonic art, do you think he will let you go? No, he would not only let you go, he will kill you with his own hands."

"Shut up! Although the Young Master is not a good person, it is impossible for him to do such a thing. I know him very well."

The voice of the woman in white was cold and angry, and there was a trace of daze and trembling. It was as if she didn't even believe it when she said it.

"Hehe, she is really a self-assured woman, don't you really think that you hold a lot of weight in Gu Changege's heart? If so, why did he take you back to the Upper Realm for so long, so he would ignore you and leave you alone? After throwing you into the Divine Sect of Absolute Beginning, he won't care about you anymore..."

"You must know that we both feel the same way, and what I think is the same as what you think in your heart, but you dare not say it, but I dare."

"If you insist on thinking that Gu Changge will be on your side, then go and tell him that you are the inheritor of demonic art, and see what he will do..."

"Shut up!"

Hearing this, the white-clothed woman's expression suddenly became as cold as ice, and terrifying demonic energy circulated on her body carved from jade as if it devoured everything in the world.

Seeing that she was about to have a seizure, the voice in her mind gradually calmed down and stopped talking.

At this time, the woman in white couldn't help but feel confused and sad. Indeed, weren't these words what she thought in her heart?

Chapter 262-1: Regarding the plan of releasing the Demon, If you want to die then dont die in front of me (1)

And in the blink of an eye, several days passed.

The entire Southern Heaven was very uneasy because of the inheritor of demonic art.

The two major forces, the Qilin Clan and the Endless Fire Nation, were the most furious. During this time, they had been dispatching their clansmen to search for the whereabouts of the inheritor of demonic art.

After all, the three Great Sacred Realm existences that appeared at the beginning could not have taken Prince Ying far away. They believed that Prince Ying was still in Southern Heaven during this time, but they didn't know where he was hiding.

And Prince Ying had also become a street rat-like character. Almost every day, cultivators and creatures could be seen searching for his figure.

Although Emperor Mountain had said that Prince Ying had nothing to do with them, the incident of Prince Ying using the Ancient Golden Bell to kill many young supreme beings was still circulating in various places, causing a huge uproar.

This hatred couldn't be washed away by simply saying that they had nothing to do with Prince Ying. During this period of time, the Heavenly Emperor Mountain could be said to have suffered a lot.

Although it was the sacred land of the Ancient clans, its status was detached, and it was worshiped by the Ancient clans on normal days, but at this time, it was still beaten by many forces in the name of seeking justice.

In the end, it was inevitable to compensate for a lot of things before this hatred was settled. Heavenly Emperor Mountain was also bleeding heavily.

They also hated Prince Ying. So, during this time, another Prince from the Heavenly Emperor Mountain had also appeared, named Prince Huang.

On the day when the Prince Huang appeared, hundreds of millions of paths emerged on the road of immortality, thousands of divine splendors, and phantoms such as real dragons, white tigers, and immortal phoenixes descended all at once, and countless golden divine lotuses bloomed in the virtual space.

Between the heavens and the earth, the Ancient Emperor's chariot fell, like a young Emperor was descending into the world!

Regarding Prince Huang, many cultivators were no strangers to him. His father was an Emperor many times older than Emperor Ying, and was honored as the Emperor Huang by the Ancient clans.

Prince Huang also had his bloodline, and his pupils were a mix of vibrant colors, known as the eyes of gods that could see through everything in the world!

When Prince Huang was born, he immediately ordered the suppression of the lineage of Emperor Ying.

Afterwards, under all kinds of powerful means, everyone was overwhelmed! He even spread the word that he would personally suppress Prince Ying and wash away the shame of Emperor Mountain.

This news immediately caused a sensation in all directions. There was no doubt that the power of Prince Huang would not be weaker than that of any Ancient freak, and his words were indescribably convincing.

During this time, the place where the True Immortal Academy was located, an old antique emerged to the Heavenly Extinction Battlefield while tracing the scene at that time, he felt that there were some problems in this matter.

However, even this old antique did not find anything unusual, and his retrospective methods could not tell what happened at that time.

This only showed that the inheritor of demonic art was really cautious. If it wasn't for Young Master of the Qilin Clan leaving behind clues at the time, everyone probably would have been kept in the dark by Prince Ying and no one would be able to find out about his true identity

This kind of news also spread all over the world. Then, because of the birth of the inheritor of demonic art in the HBattlefield, True Immortal Academy had finally opened doors to the outside world.

Any young being who killed Heavenly Extinction beings in the Heavenly Extinction Battlefield could exchange points and secure a place to enter the True Immortal Academy.

For a while, a huge wave went off in all parts of Southern Heaven.

A group of young beings who were originally uneasy because of the inheritor of demonic art in the Heavenly Extinction Battlefield also took the initiative to leave this place after killing the Heavenly Extinction beings, for fear of being remembered by the inheritor of demonic art.

.....

At this time, in the depths of the land corrupted by Absolute Heavenly Extinction.

Gu Changge's figure emerged from the void. This was the third day after he and Yue Mingkong parted ways.

During this period of time, his cultivation base also broke through to the middle stage of the Sacred realm. Because of the relationship between the Reincarnation Seal and the Dao Treasure Bottle, the breakthrough speed was much faster than usual.

Generally, within the Sacred Realm, even if it was a breakthrough in a small realm, it would take tens of thousands of years at every advancement.

He did inquire about a lot of news from Yue Mingkong. The matter about the Witch in Red seemed to involve the Demon Burying Abyss that would be born later.

Demon Burying Abyss, as the name suggested, was where the True Demons of Nine Heavens were buried. Since ancient times, many Great Demons had been killed there, and over time, this place got this name.

The location of the Demon Burying Abyss was hard to find. Since it would change from time to time, it was not always fixed. There were ancient existences asserting that the depth of the Demon Burying Abyss was actually an unknown space seal.

Even the legendary Depth of Hell would not be as deep as the Demon Burying Abyss.

Even the most Ancient Immortals could not make their way out after being knocked down and buried in the Demon Abyss.

However, the location of Demon Burying Abyss involved the Golden Crane Temple, which was a mysterious temple on the top of Buddha Mountain.

For countless years, only a handful of people had seen the Golden Crane Temple. However, the Buddhists who walked out of the Golden Crane Temple had all made a great name in the outside world.

Every generation of Golden Crane Temple would send cultivators named Abyss Guardians, from the Abyss Guardian Town above the Demon Burying Abyss. They were responsible for guarding the changes in the Demon Burying Abyss.

What Gu Changge learned from Yue Mingkong was that soon, there would be a riot in the Demon Burying Abyss, destroying the Abyss Guardian Town above. This generation of Abyss Guardian would be buried in it, causing great chaos in the world.

Yue Mingkong didn't say it directly at the time, but Gu Changge also guessed it.

"It is estimated that the riot in Demon Burying Abyss has something to do with the Witch in Red."

"The first thing she would do after her emergence would be most likely to seek revenge on me. With my current strength, I don't have much chance of winning against her, but with such power behind me, I don't need to be afraid of her."

"According to the general routine, this kind of female Demon will not be too awake after birth. This is a good opportunity for me..."

Various thoughts flashed through Gu Changge's mind.

He had a bold idea in his mind. Release the Demon! The so-called blocking was worse than sparse. Now he already knew in advance where the Witch in Red was likely to be born, and also knew when she would be born.

Why couldn't he take the initiative to go? After all, he was very different from the rest of his previous life. Gu Changge was not afraid of being noticed by the Witch in Red.

The only thing to pay attention to was how to get there, with a suitable excuse by the way. A place like Abyss Burying Demon was not something that ordinary people could go to. Even if they go there, they would be noticed by the cultivators of the Golden Crane Temple.

Therefore, Gu Changge was still considering a surefire strategy. As for the consequences after releasing the Demon, he had not considered it. Even if he didn't do this, the Demon would be born sooner or later.

As for re-seal? Were his Luck Points and Destiny Value gone?

Gu Changge never thought about resealing. And this kind of thing, if it failed, it was bound to cause even more terrible consequences.

The Witch in Red hated him like her hatred was indelible in the deepest hell. Now he wanted to seal her again? His thoughts gradually returned.

Afterward, Gu Changge swept across the space in front of him that had obviously been corroded by the Heavenly Extinction Aura, and his eyes darkened.

This was an area that was very deep from the Heavenly Extinction Battlefield. If you looked at the distance, it was a million miles away. In the space in front of him, he could see many magnificent mountains.

However, due to the corrosion of the Heavenly Extinction Aura, there was no trace of vitality. The outline of a big power could be vaguely seen here.

Buildings and pavilions, and beautiful palaces, but now they had all become ruins, collapsing in the rich aura of Heavenly Extinction. There were no cultivators to be seen here.

It was just that the Heavenly Extinction beings were constantly appearing and their strength was also very strong, reaching the Heavenly King Realm and even Quasi-Sacred Realm.

If the younger generation dared to come here, they would be killed in minutes. Naturally, Gu Changge didn't come here to kill Heavenly Extinction beings.

Because he sensed the imprint left on Wang Ziji's body and knew that she had gone to the depths.

"As a descendant of the Human Ancestor Hall, she is likely to find the core area of ??the Absolute Heavenly Extinction. It would be much more convenient for her to find the way for me."

Gu Changge had this idea. It remained to be verified where the core place of the Absolute Heavenly Extinction was. Gu Changge wanted to refine the entire Heavenly Extinction now, but it was not very likely. But he could try to refine part of it first.

After having these experiences, he would have more confidence when he found the real location of the absolute Heavenly Extinction. And soon, Gu Changge disappeared again.

He hid with the power of the void and was not worried that he would be noticed by Wang Ziji.

Chapter 262-2: Regarding the plan of releasing the Demon, If you want to die then dont die in front of me (2)

.....

On the other side, the depths of the land of Absolute Heavenly Extinction were not quiet, the mountains were shaking, and even the sky looked like it would explode anytime.

The turbulent and vast aura of Heavenly Extinction was intertwined and diffused here, like a fog. There was a crack in the sky.

The brilliance was soaring to the sky, the runes were blooming and intertwined in the sky, and there were powerful methods and supernatural powers evolving.

The power of the Quasi-Sacred Realm broke out. Carrying an unparalleled force, it bombarded the Heavenly Extinction beings ahead like a tidal wave.

A pale golden tower floated up and down in the void, interweaving a terrifying divine light, and pressuring all directions. A slender figure with her skirt flying and an icy face, was standing proudly under the sky.

She was fighting with countless souls that were swarming like a tide as if they wanted to wipe her out.

"Jiang Chuchu, are you crazy? You plan to close this crack. With your current strength, you can't do it at all."

Behind this slender figure, Wang Ziji was also making her move, shouting at Jiang Chuchu in front of her, while constantly slapping the many ghostly creatures that were flying toward her.

But there were too many Heavenly Extinction beings here. In the high sky, the cracked sky was shrouded in thick gray fog, and it poured down like a gate.

With the strength of the two of them alone, it was impossible to deal with so many souls in front of them. Not to mention that there were many Sacred Realm beings among them, which were extremely difficult to deal with.

And at this time, behind the crack, there seemed to be a more powerful aura awakening. The existence of the land of Heavenly Extinction was not something they could contend against.

But Wang Ziji didn't know what went wrong. Instead of looking for the reincarnation of the Human Ancestor, or dealing with the inheritor of demonic art, she ran to the land of Absolute Heavenly Extinction.

It seemed that slaughtering Heavenly Extinction beings had become the only means for her to clean up the world and restore the Human Ancestral Hall. This made Wang Ziji confused, and she didn't know the reason why Jiang Chuchu was like this.

As a descendant of the Human Ancestral Hall, although she shouldered the responsibility of safeguarding the justice of this world, she did not need to go to this point.

"Wang Ziji you go back, this is my business, you don't need to worry about it."

At this time, hearing Wang Ziji's voice from behind, Jiang Chuchu also spoke. She looked back, her expression was very calm, but there was no regret or anything on her face.

In fact, at this time, it could be seen that her exhaustion was not as natural as it appeared. Her dress was also stained with blood, and in this fight, she was not at all relaxed.

Wang Ziji could not understand her. Now that the Human Ancestor was dead, Gu Changge, the inheritor of the demonic art, was at ease. There was absolutely nothing she could do about it.

So Jiang Chuchu thought that the only thing she could do was to come here to kill Heavenly Extinction beings, which could be regarded as worthy of her current status.

At that time, even if she died here, she would be worthy of the cultivation and support of her teacher's sect.

"What is it? How the hell is it only your business? I'm also a descendant of the Human Ancestor Hall, okay? Why do you have such a stubborn head? Can't you figure it out? Do you want to die here?"

Wang Ziji shouted speechlessly, feeling that the current Jiang Chuchu was like the abandoned resentful girl she knew in her previous life, and who wouldn't listen to any reason.

No matter how she persuaded Jiang Chuchu didn't care, she was determined to fight against these Heavenly Extinction beings, and she could hardly hold it any longer.

"Now the inheritor of demonic art has been found. You don't deal with him, you're wasting energy and time here, and I wonder what you are thinking..."

Wang Ziji sacrificed a divine weapon, which was powerful and mighty, reflecting heaven and earth in a brilliant light. She was still persuading her, and she felt that it was really impossible. She thought of a way to knock Jiang Chuchu unconscious and take her away.

However, the strength of the two of them was not much different. If she used her trump card, it might have the opposite effect, after all, it was difficult to control it.

"If I had called Gu Changge to find a way at the time, maybe it would be different now. But he doesn't seem to care about Jiang Chuchu's life or death. It's probably useless to shout."

Wang Ziji was a little distressed, and with her character, she couldn't ignore it.

"The inheritor of demonic art..."

Hearing these words, Jiang Chuchu, who was originally fighting against a Sacred Realm Heavenly Extinction being, was suddenly stunned, and then a touch of cold hatred appeared in his eyes.

She almost gritted her teeth. However, it was because of it that she was shot by the Heavenly Extinction being in the Sacred Realm, and flew out directly, vomiting blood in the void, obviously not seriously injured.

In fact, she had also reached the point where her spiritual energy was totally exhausted. She naturally knew who the inheritor of demonic art Wang Ziji was talking about. Prince Ying was nothing but an unlucky person who was blamed.

Gu Changge, the real inheritor of demonic art, was actually still at ease. No one even knew his real face, let alone that the Human Ancestor had actually died in Gu Changge's hands and will never reappear in the world.

For Gu Changge, Jiang Chuchu's mood was extremely complicated. If it was hatred, then it had to be the type of hatred to the core, but it was impossible to forget about it.

She couldn't forget her expression and tone that day, let alone her actions, and her indifferent and irresponsible attitude.

"Be careful....."

At this time, Jiang Chuchu seemed to be standing there in a daze, ignoring the large swathes of Heavenly Extinction beings attacking from behind.

Wang Ziji's complexion couldn't help changing, and she took out a crystal clear mirror and rushed forward to resist the next blow. However, during this period of time, Jiang Chuchu killed many Heavenly Extinction beings and was contaminated with a strong aura of Heavenly Extinction.

A large number of Heavenly Extinction beings, with red eyes, swarmed up with incomparable hatred to drown her.

She realized that it was too late. She resisted in a hurry, but also flew out in an instant, hurting her body.

Boom!!

The Heavenly Abyss above the sky, at this time, rioted again, and an even more terrifying aura came crashing down, and suddenly an incomparably huge gray giant palm was protruding from it.

Wrapped in gray fog, it didn't look like a humanoid. But its aura was the Great Sacred Realm!

This made Wang Ziji's expression change again. She didn't expect that it would attract the beings of the Great Sacred Realm. This was not something she and Jiang Chuchu could compete with at will.

If they didn't run at this time, and there were beings in the Great Sacred Realm appearing, it would be even more difficult for them to escape.

"Jiang Chuchu, don't be stupid, if you stay here, you will die..."

Wang Ziji couldn't help shouting, her expression was a little anxious, she noticed that the huge palm wrapped in the thick gray fog fell, and Jiang Chuchu was about to be photographed in a blood fog!

At this time, Jiang Chuchu didn't seem to have reacted yet, but when she did, this terrifying giant palm had already fallen in front of him.

The terrifying and overwhelming aura of Heavenly Extinction devoured and covered her! Her face turned pale. Although she was ready to die, how could she be calm when she was really facing it?

But at this moment, she realized that what appeared in her mind was not the teacher's sect, but the face of Gu Changge that she hated to the bone.

Buzz!!

Suddenly, between the heavens and the earth, there was a sudden sword chant, the light was like a chaotic light that broke everything, with boundless sword energy, it crossed the sky, separated the gray fog, and fell directly!

An infinite murderous aura rose to the sky!

Puff!

Accompanied by a scream, the terrifying giant gray palm was torn apart, and then it shattered in the void. Afterward, this sword kept going, like an ancient immortal sword that was slashed from the universe, and its sharpness was enough to split the universe.

It cut straight into that terrifying crack!

Countless Heavenly Extinction beings shattered into ashes under this sword light, before they could even scream!

"..."

Wang Ziji looked in the direction where the sword light came from in shock.

In the void, a young man with indifferent eyes appeared, raised his hand with shaking fingers, and a ray of sword light disappeared in the palm of his hand.

"Gu Changge, why are you here?"

After reacting, Wang Ziji asked in shock. Unexpectedly, Gu Changge would appear here in the end, and at a critical moment, he even rescued Jiang Chuchu.

Moreover, how could his blow be so terrifying? Had he already reached the Great Sacred Realm? Was this the true strength of Gu Changge? He really hid so deeply!

"Holy Maiden Ziji..."

Gu Changge looked at her, nodded, and then frowned. He did not explain why he came here. But Wang Ziji also guessed that it was probably for the land of Absolute Heavenly Extinction.

Well, was it for Jiang Chuchu? However, Gu Changge didn't let her think wildly, and said casually, "The land of Absolute Heavenly Extinction has appeared, I have come to see it, maybe I can do something."

He had actually been here for a while. It was just that he didn't expect that Jiang Chuchu would actually seek death like this, so she couldn't hold back the attack.

Although it was said that she did not care whether she lived or died, it was one thing to say, but another thing to do. Gu Changge didn't plan to really ignore her, after all, Jiang Chuchu had a relationship with him.

For a woman who had a relationship with him but could not threaten him, he couldn't let it reach the point of death. But hearing him say that, Wang Ziji didn't believe it.

After all, in this kind of place, unless there was a problem with the brain, who would come here? It was even more impossible for someone like Gu Changge to be helpless and stupid.

But he came. It was very likely that it was for Jiang Chuchu, something unknown happened between the two of them.

As for herself? She was still a little self-aware. She couldn't even move.

"Gu Changge..."

At this time, Jiang Chuchu also reacted, and noticed that the young man who came was Gu Changge. At the critical moment, he saved herself. This made Jiang Chuchu a little stunned.

But soon, a cold meaning appeared in her eyes, and she stared at Gu Changge, "Didn't you say that you have nothing to do with my life and death? Why did you save me?"

"I don't need your help."

However, Gu Changge didn't seem to notice her, his eyes were deep, and he was still looking up at the terrifying crack in the sky. There was still a large number of Heavenly Extinction beings gushing out from it.

If he guessed correctly, it was the real entrance that was connected to Absolute Heavenly Extinction! Hearing Jiang Chuchu's words, Wang Ziji immediately showed a melon-eating look.

There was indeed something between the two of them, otherwise, Jiang Chuchu would not have said such a thing. It seemed that Gu Changge... abandoned her.

"Gu Changge..."

Seeing that Gu Changge completely ignored her. Jiang Chuchu shouted again, her expression was very cold, almost gnashing her teeth. At this moment, Gu Changge turned his attention to her.

His expression was flat, without much fluctuation.

"If you want to die then don't die in front of me. It's an eyesore."

Chapter 263-1: Brother Gu is really a true man, Maybe I should let the Great Dao Treasure Bottle evolve (1)

Hearing Gu Changge's words, let alone Jiang Chuchu, even Wang Ziji couldn't help being stunned for a moment.

"You....."

Jiang Chuchu stared at Gu Changge's eyes, and her pupils couldn't help but widen again as if she hadn't reacted yet. However, Gu Changge's expression was still as calm as water, without the slightest turbulence. Anyone could feel the indifference of his hard heart.

"What do I need to say again?"

He stared at Jiang Chuchu again and said in an unhurried tone, "If you want to die, don't die in front of me."

"Do you really think I'm here to save you? It's ridiculous. What are you still fantasizing about? Do you need me to repeat what I said back then? Jiang Chuchu, you still can't change your self-righteous temperament. Did you think that I would care even if you died?"

His expression was slightly mocking, and his tone was even ruder. He almost pointed at Jiang Chuchu and scolded her for being amorous.

"Gu Changge, you bastard..."

In response, Jiang Chuchu could not help but grit her teeth in anger, her body trembled slightly, her expression was full of hatred, and she became colder. She really thought Gu Changge was here to save her.

According to his temperament, she never got along with Gu Changge before. Although Gu Changge said that he didn't care about her life or death. But when it came to her life and death, it was impossible for him to ignore her.

However, what Gu Changge said now could be said to have broken her fantasy. And he was still merciless, not giving her any face at all. Her death did not have any effect on Gu Changge, and there would be one less person in the world who knew his true identity.

It was too late for Gu Changge to be happy.

"I'm really an asshole, so are you done with scolding? You can get out then. It's really annoying to see you standing in front of me. I've never seen someone as stupid as you, with a brain that can't be used or something..."

Gu Changge interrupted her, the expression in his eyes seemed more indifferent than Jiang Chuchu.

"You... you can't scold me..."

Jiang Chuchu was suddenly stunned. For a time, she was a little dazed, and she couldn't help swallowing the words she wanted to yell at Gu Changge.

But in her heart, there was a sense of grievance that made her feel incredible. What right did Gu Changge have to scold herself? Wasn't it all his fault that she was like this now?

But at this time, Gu Changge was too lazy to care about her. He looked up at the crack in the sky, and there was a black and white light in his eyes.

Under the power of Reincarnation, the terrifying and turbulent gray aura of Absolute Heavenly Extinction became thinner and thinner, and some silhouettes and shadows could be seen there.

Apart from a large number of beings that were contaminated by the Aura of Heavenly Extinction, there was only a terrifying crack that stretched across it, like a wound between heaven and earth.

The Aura of Absolute Heavenly Extinction was leaking from it. Gu Changge's expectations were correct.

This crack did lead to Absolute Heavenly Extinction, but it was only a small part, and it was estimated to be hundreds of millions of times worse than the entire Realm of Absolute Heavenly Extinction.

His plan was to go there and see if he could refine this small piece of Absolute Heavenly Extinction first. Now it seemed that the only difficulty was that there were endless beings in the shadows, and there were quite a few of them in the Sacred Realm alone.

Because of Jiang Chuchu, a few terrifying beings that had reached the Sacred Realm were also drawn here, wrapped in a strong Heavenly Extinction Aura, and the gray fog was overwhelming.

"Brother Gu is really a real man."

At this time, Wang Ziji, who had an expression of eating melons, couldn't help but mutter softly. She never expected that Gu Changge would say such a thing.

Looking at the situation just now, there must be something hidden between Jiang Chuchu and Gu Changge, otherwise, why would Jiang Chuchu say such words to Gu Changge that she did not want him to save herself?

She thought that Gu Changge would comfort her for a while, and calm down Jiang Chuchu with his soft words. As a result, Gu Changge's answer made Wang Ziji sluggish for a long time, and then she couldn't help admiring it, and just wanted to say that it was worthy of him.

In front of him, a peerless beauty as if she was far from enough to describe the beauty of the world and the beauty of the moon, was scolded by him like this. It was simply incomprehensible.

In her opinion, he would have stepped forward and hugged Jiang Chuchu at this time, and then a gentle comfort of Balabala...

However, Gu Changge's approach seemed to be quite useful. Didn't Jiang Chuchu calm down now? But now, what Wang Ziji wanted to know more about was what happened between Jiang Chuchu and Gu Changge.

She was really curious, and it stood to reason that the two of them had only met twice, so why were they so familiar? But she also knew that she couldn't ask anything about this kind of thing, neither Gu Changge nor Jiang Chuchu would be the kind of people who would answer her.

At this moment, accompanied by a divine light reaching the sky, a monstrous sword light emerged from the front, like a mountain peak breaking through the sky.

Wisps of sword light bloomed from the heavens and the earth, as if hundreds of millions of divine swords emerged from all directions, and then cut directly into the terrifying gray fog ahead.

The sky crumbled and the earth trembled. The vast swathes of Heavenly Extinction beings were like snow melting under the scorching sun, in the presence of this aura. Before even their screams could be heard, they turned into ashes in an instant, vanished, and both their body and spirit were destroyed.

The terrifying creature that had just stretched out its palm from it couldn't help screaming, with rotten blood falling from the heavens and the earth, containing terrifying corrosiveness.

With a thud, even the void was corroded into an astonishingly large hole. This kind of scene was really amazing, ordinary Sacred Realm beings had to change their expression and they did not dare to approach.

Wang Ziji and Jiang Chuchu couldn't help being stunned. Beneath this crack, Gu Changge walked away, his body was dazzling with colorful divine lights, wrapped in a thick chaotic mist, like a young god.

At this moment, many terrifying visions appeared beside him, the True Dragon bowed his head, the Immortal Phoenix drooped his wings, the universe was destroyed, and thousands of calamities turned into ashes.

There was even a faint mysterious and vast world emerging, in which the immortal wood was tall, the divine mountain was boundless, and the immortal lake was vast.

As he took a step, a golden channel spread out from under Gu Changge's feet, and the power of the vast laws extended to the crack in the sky.

Buzz!!

Behind him, many golden Dao treasures unfolded, and among them, densely packed divine weapons and sacred artifacts appeared.

Sword, spear, sword and halberd, ax, hook and fork, bell, tripod, and mirror seal..... The divine might surge, containing unparalleled power, killing the Heavenly Extinction beings in the surrounding.

A fight that was many times more terrifying than Jiang Chu Chu's fight just now was staged here. Looking at the countless Heavenly Extinction beings that came in front of him.

"Get lost!"

Gu Changge shouted lightly, his expression was indifferent and calm, and many divine weapons emerged above his head, dropping down terrifying laws and orders.

At this time, he looked like he wanted to stop the Heavenly Extinction beings from descending for the sake of the beings of the world with an awe-inspiring look of justice, and killed them without the slightest fear!

All the Heavenly Extinction beings along the way could not even get close to him, and they were blown to pieces in mid-air by the various terrifying aura around his body.

"Gu Changge....."

Seeing his actions, Jiang Chu Chu and Wang Ziji both could not help but freeze, completely unable to figure it out.

On Wang Ziji's face, a touch of surprise surfaced, and it was hard for her to believe it. She even thought that she had thought wrong, in fact, Gu Changge's purpose for coming here was actually to stop the Heavenly Extinction beings from descending?

His purpose was exactly the same as Jiang Chuchu's?

"What exactly is Gu Changge doing? Could it really be that he is going to fight against the Heavenly Extinction beings just like that fellow Jiang Chu Chu, right? This is endless....."

"Is he crazy? Does he really think he will have a way, this is something that gives many Ancient existences a headache and they avoid them like snakes and scorpions. This is no different from going to your own death!"

Wang Ziji was shocked and couldn't understand Gu Changge's move. In her opinion, Gu Changge was an absolute egoist, not going to do things that would harm his self-interest.

There was absolutely no need to say how dangerous it was within the Absolute Heavenly Extinction. Like the Heavenly Extinction Battlefield they encountered before, it was only caused by some of the aura leaking out.

The dangers within the Absolute Heavenly Extinction, probably far exceeded the Heavenly Extinction Battlefield by a million times. The actual fact was, at this time, Gu Changge should not be far away, like the rest of the cultivators, afraid to get near, right?

"It seems that my thoughts of brother Gu are wrong, he is a true man, is not completely selfish and self-serving, and still has the world's great righteousness in mind"

Wang Ziji thought so and could not help but feel a sense of admiration for Gu Changge. With this point alone, the rest of the younger generation couldn't catch up with Gu Changge even if they beat their horses.

Chapter 263-2: Brother Gu is really a true man, Maybe I should let the Great Dao Treasure Bottle evolve (1)

As a transmigrator, she couldn't understand Gu Changge's heart for the world. But it did not affect her admiration for Gu Changge. Even she didn't have such guts.

"Brother Gu is not a reckless person, since he dares to do so, then he must have the confidence....."

Although Wang Ziji was worried, at this time, she had no choice but to wait. And contrary to Wang Ziji's thoughts, at this time, Jiang Chuchu was stunned.

In her opinion, Gu Changge was such a cold and desperate Great Demon, who did all the bad things and lost his heart. How could he possibly regard the safety and security of the world as a responsibility like herself?

He was stopping the Heavenly Extinction beings from descending? This was simply impossible. However, now he went to do so, and even went to it in front of the two descendants of Human Ancestor Hall, to stop the descent of the Absolute Heavenly Extinction.

"Gu Changge why are you doing this....."

Jiang Chuchu was frozen, her eyes couldn't help but stare, completely unable to understand. Finally, she thought of a possibility that was most likely and that made her heart and soul tremble lightly.

Gu Changge's purpose for doing so had a lot to do with her. Just now, he scolded her so much, it was actually because of the worry. After all, with Gu Changge's temperament, he couldn't possibly show anything, so he could only show his anger and worry through such a method.

And he was now going to stop the Absolute Heavenly Extinction from descending, in fact, he wanted to help herself, afraid that she would still stay here and end up losing her life.

Thinking like this, Jiang Chuchu could not help but bite her lips tightly. Her face could no longer show that cold look. Just now Gu Changge was scolding her a lot, but his behavior was not at all ambiguous either.

He was actually tough-mouthed, even though his mouth was scolding people without mercy, but there was actually warmth in his heart.

This made Jiang Chuchu look incomparably complicated, remembering the time when she was held in his small space by Gu Changge. He was actually like this, but in the end, it was because of her own actions that were too disappointing for him, and also exhausted his last bit of patience.

That was why he said those irresponsible words that he didn't care if she lived or died and there was no more connection between the two of them.

"Gu Changge....."

Jiang Chuchu couldn't help but murmur. For a while, she felt so confused in her mind, she obviously hated him so much, and she could not wait for him to die in the middle like this.

This way, the world would have one less horrible scourge. But why couldn't she help but feel worried?

"Jiang Chuchu, as the heir of the Human Ancestor Hall, how can you be in love with a Great Demon? You and him are destined to go on opposite sides."

She silently recited the Clear Heart Mantra in her heart, trying to calm herself down, but all the things she had learned after so many years of cultivation seemed to be useless at this time.

Her heart was in turmoil. This made Jiang Chuchu couldn't help but be bewildered.

.....

Deep in the Absolute Heavenly Extinction, the gray mist surged. Gu Changge looked somewhat interested.

At this time, he had actually vaguely guessed the thoughts of the two people outside, after all, it was his intention, whether it was Jiang Chuchu or Wang Ziji. It was impossible to guess his real purpose.

Since ancient times, as soon as the Absolute Heavenly Extinction descended, the first reaction of cultivators was to pull out their legs and run away.

Who would dare to go in it?

First of all, not to mention that in the Absolute Heavenly Extinction, there was no opportunity, and the degree of danger was much higher as compared to many ancient forbidden places.

Unless they wanted to die, who would come here?

So no one would think about his intentions, instead, they would think that he came here to stop the descent of the Absolute Heavenly Extinction.

"Thinking like that, that's good, and it will save me from going through all the trouble of pulling the big flag again."

The corner of Gu Changge's mouth could not help but reveal some smiles. Then, as he raised his hand, many divine weapons emerged, bursting out with terrifying divine might, shattering all the Heavenly Extinction beings around him.

He stepped towards it. The closer he got to it, the more powerful the creatures he encountered, who long lost their spirituality and only had the intention of killing and destroying.

The Heavenly Extinction Aura here was actually very dense. A Sacred Realm cultivator would be corrupted even if he comes in, and if he stayed here for a long time, he was bound to be affected.

But it did not affect him much. At this time, on the surface of Gu Changge's body, pitch-black vortexes appeared one after another, and the terrifying and heart-pounding runes of the Great Dao circulated.

Among them, there seemed to be indescribable ancient gods sitting cross-legged, and the sounds of the world, sacrifices, and chanting reverberated. All the Heavenly Extinction Aura was swallowed up by these vortexes as soon as it got close to him and could not affect him at all.

On the contrary, there were more and more Heavenly Extinction beings here, which made him frown. If there was no Wang Ziji outside, it would be fine. But if he used the forbidden demonic art, it was very likely that some aura would leak out and attract her attention.

Then, Gu Changge sacrificed something, the golden light surged, and it opened from this space in an instant, like a big seal of mountains and seas, but it was actually the Immortal Lun Seal that Gu Changge concealed.

This was a real Supreme Weapon.

With his current cultivation base, it was almost impossible to activate it with all his strength, but a single ray of divine power from the Supreme Artifact was enough to disperse the nearby Heavenly Extinction beings.

Then, there was also the Eight Desolate Demon Halberd.

The immortal seal appeared above his head, and a terrifying divine light hung down, like a galaxy, incomparably vast.

Gu Changge raised his hand and slashed down, and a creature in the Sacred Realm in front of him immediately collapsed and exploded, making it difficult to stop his pace.

Soon, this gray fog in the vast and boundless space was cleared by him to a clean road, leading directly to the deepest part!

That was the source of the Heavenly Extinction Aura!

Not long after that. Gu Changge found the place where the gray fog was most dense in the depths of that crack. The nearby Heavenly Extinction beings had been swept away by him, and almost no figures were seen.

At this time, it seemed a bit strangely peaceful.

"It seems that this is the source. As long as this place is refined, I can control this part of the Absolute Heavenly Extinction."

Gu Changge whispered to himself.

Suddenly. In his eyes, black and white divine lights flowed, and the power of time emerged, turning into two peerless immortal swords, clanging loudly, and slashing away!

The terrifying gray fog exploded from it as if it was torn apart by a terrifying power, and the increasingly dense and startling black substance slowly flowed in it. It was a substance like life, black as a starry sky, but it could devour the world barrier and cover everything!

At this time, if a cultivator was here, he would be so frightened that his skull would explode. This kind of aura clearly had not approached yet, but it was enough to break everything.

Even after the death of the Supreme Being, or even the corpse of the Emperor, it was impossible to have such aura. A single strand seemed to be enough to devour the heavens and crush all matter.

"This is an extremely rare source of Heavenly Extinction Aura in the core area of ??Heavenly Extinction. I didn't expect my luck to be good. Oh no, it should be attributed to Wang Ziji, thanks to her, I was able to find this thing."

Gu Changge's expression showed a little interest, at this time, there was also a sense of fear even with the Immortal Lun Seal. The gods in it sensed the danger, and were extremely afraid of the source of Absolute Heavenly Extinction, for fear of being swallowed and covered by it.

On the contrary, the Eight Desolate Demon Halberd was very quiet.

"I just don't know whether this source of absolute Heavenly Extinction is stronger or weaker than my Great Dao Treasure Bottle..."

"Maybe I can take this opportunity to make the it evolve again."

Chapter 264-1: The teacher would dig her out to accompany you, I can't stand seeing you like this (Part1)

Thinking like this, Gu Changge sat down and communicated with the system at the same time, intending to make a refining attempt with Destiny Point.

Buzz!!

At this time, black light began to emerge on the top of his head and strands of black light hung down.

One after another, the runes of Dao were intertwined and then fell towards the black substance.

The Dao treasure bottle began to rise and fall, like a black hole that was terrifying to the extreme, and then swallowed it down.

It's initiative was far better than ever.

Gu Changge underestimated its desire for this black substance, even when it devoured the Reincarnation Seal of Human Ancestor, it didn't feel that way.

"It seems that there is no need to use Destiny points."

Gu Changge sat quietly cross-legged in the empty space, a jade-like black light began to appear on his face, and there was a sense of solemnity.

The ancient world's sacrificial sound seemed to be echoing here in the dark.

Behind him, the demonic energy was overwhelming, and there was an unparalleled demon lord, whose eyes were indifferent and ruthless, intimidating the heavens and the world!

At this time, in Gu Changge's mind, something cracked like a click and began to break.

Some of the deepest memories came to his mind.

In front of the top of the mountain, the clouds and mist were rolling, and a very simple hut was located on the side.

On the bluestone, the little girl in red was dancing with a sword, her sleeves were rolled up, and the sword light was like silver, splashing across the sky and the earth.

In front of the hut, he stood with his hands behind his back, his red coat fluttering, and his silver hair flying.

Everything in this world seemed to be changing rapidly because of the sword in her hand.

After she finished dancing.

The little girl in red ran happily in front of her,

"Master, today I met the disciples of Jiutian Peak. They robbed me of things, and they said that my talent was mediocre, and at most I will only reach the realm of true god in this life."

"But they were all defeated by me, one by one."

"Who told you to defeat them?" His expression was calm, and his voice did not fluctuate much.

The little girl in red smiled stiffly and lowered her head, "I was wrong, Master."

"The sword that I taught you is not for you to defeat the enemy." His voice remained unchanged.

The little girl in red went down the mountain and came back with scars all over her body and a bunch of heads in her hands.

"Master, I'm back."

Although injured, she was still happy.

"This is your favorite roast chicken." He patted her head, "Jiutian Peak, together with Jiutian Continent, will no longer exist from today onwards."

"No one can bully my apprentice."

"Master, I made a friend at the foot of the mountain this time."

"Oh? Male or female?"

"Woman, but she's not human."

"Then what is she?"

"She is a little peach tree."

He smiled to himself, "Then the teacher will dig her out to accompany you."

Then, on the top of the mountain, there was another slender and clean little peach tree.

Then his memories came to an abrupt end.

Gu Changge was lost in thought.

.....

In a blink of an eye, several days passed in the outside world.

"The Heavenly Extinction creatures and Heavenly Extinction aura are greatly reduced. Is it possible that Gu Changge really has a way to stop this?"

Wang Ziji looked at the abyss in the sky in surprise.

In her perception, the monstrous gray fog in the abyss had become much thinner as compared to the beginning.

What did this mean?

It meant that Gu Changge was really certain to go there.

Gu Changge actually solved the Heavenly Extinction aura that was extremely difficult for all ancient existences. It was simply a fantasy.

"Since time immemorial, only Human Ancestor has a way to solve the Absolute Heavenly Extinction..."

"Gu Changge, shouldn't he be the reincarnation of Human Ancestor, right?"

Wang Ziji was a little puzzled.

She looked at Jiang Chuchu next to her, but there was not the slightest abnormality on Jiang Chuchu's face.

It was calm and composed, in addition to stillness, one could not see other emotions.

In the past few days, Jiang Chuchu's injury had almost recovered.

In addition to her initial concerns, she noticed that Heavenly Extinction aura was decreasing, and she understood that Gu Changge was not a big problem.

So she just relaxed.

Moreover, for all sentient beings, Gu Changge was able to solve the extremely difficult aura of Heavenly Extinction.

If it wasn't for knowing that Human Ancestor had been assassinated by Gu Changge.

Even she would suspect that Gu Changge was the reincarnation of the Human Ancestor.

At this time, Jiang Chuchu suddenly remembered what Gu Changge once said, that what the Human Ancestor Hall lacked was not the Human Ancestor himself, but the identity of the Human Ancestor.

Now that Human Ancestor was dead, no matter what, if the Human Ancestor Hall wanted to continue to stand, it must find the reincarnation of the Human Ancestor.

At this time, did she really have to find someone to pretend to be the human ancestor?

Jiang Chuchu had never thought about this, after all, doing so would mean betraying her teacher sect.

But at this time, she couldn't stop thinking about it.

"Jiang Chuchu, tell me honestly, what happened between you and Gu Changge?"

At this time, Wang Ziji suddenly opened her mouth and asked what she was most concerned about these days.

Jiang Chuchu had regained her composure at this time, and naturally, it was impossible for her to tell Wang Ziji all this.

Tell her that, in fact, Gu Changge was the inheritor of demonic arts, and the current Prince Ying was actually just a hapless bastard who was taking the blame for him?

Then tell her, that Gu Changge had imprisoned him for a long time? In the past, that person, the descendant of the human ancestor hall, was just a fake?

Although these were facts, she would definitely not believe it in terms of Wang Ziji's temperament.

Instead, she would think that why didn't Gu Changge kill herself who knew these secrets?

Therefore, Jiang Chuchu just said calmly, "You don't need to worry about this, Gu Changge is not a good person, you have to stay away from him."

"That's it?"

Hearing this, Wang Ziji rolled her eyes, "It's a shame I treated you as a best friend, so I didn't even tell me this."

"I naturally know that Gu Changge is not a good person."

She felt that Jiang Chuchu was thinking carefully now.

In the past, when she asked about men, she was always disgusted, and she almost had disdain on her face.

How could it be like this?

"Gu Changge is really dangerous, you'd better not get too close to him..."

Jiang Chuchu sighed softly, her calm tone contained something that only she herself understood.

"Forget it if you don't want to talk about it. Originally, I had a good impression of Gu Changge, but since you have an inexplicable relationship with him, then I'll forget it now..."

At this time, Wang Ziji also sighed, looking a little sad.

Hearing this, Jiang Chuchu froze a little.

What did it mean that she had an inexplicable relationship with Gu Changge?

Moreover, Wang Ziji said that she had a crush on Gu Changge?

"I don't!"

Wang Ziji noticed her expression and smiled speciously, "That's good."

That was, at this moment, there was another movement from the crack, which had been calm for a long time.

Immediately afterward, Gu Changge's figure walked out of it, and on the surface, it didn't seem to be much unusual from before.

Jiang Chuchu and Wang Ziji simultaneously looked at it, and their expressions changed.

"Are you okay? Brother Gu?"

Jiang Chuchu wanted to ask, but she didn't want Wang Ziji to speak first.

She glanced at Gu Changge, moved her lips, lowered her head, and swallowed what she was about to say.

"I'm fine."

"The matter of Absolute Heavenly Extinction here is temporarily resolved, but with my ability, I can only do this at most..."

Gu Changge shook his head, glanced at the two of them with a slightly strange expression, and said nothing.

He had indeed refined the source of Absolute Heavenly Extinction here.

Not only could he control the power of Absolute Heavenly Extinction, but even his Dao treasure bottle had undergone a mysterious change.

Chapter 264-2: The teacher would dig her out to accompany you, I can't stand seeing you like this (Part2)

However, Gu Changge didn't intend to make people pay attention to these things so quickly, so he didn't completely solve the remaining Heavenly Extinction aura.

After having the experience here, finding a new source of Absolute Heavenly Extinction and refining it would definitely be faster.

"Brother Gu, I sometimes suspect that you are the reincarnation of Human Ancestor, and you have done what no one else can do."

Wang Ziji said half-jokingly, with a smile in her bright eyes.

"What kind of reincarnation of Human Ancestor? I believe that the reincarnation of Human Ancestor is not an existence that a little cultivator like me can presume."

"As for this Absolute Heavenly Extinction, I just got lucky..."

"In the future, it is estimated that I will not have such good luck."

Gu Changge sighed slightly, but at this time, he didn't seem to be hiding anything.

With a screeching sound, his sleeves were torn open.

Then, from the position where his arm was, wisps of gray mist began to permeate, including bones and skin, showing a state of corrosion, which looked extremely terrifying.

It was shocking!

Of course, this injury must have been intentional and was not caused by it.

"This....."

Seeing this, Wang Ziji's expression couldn't help but change, and she was frightened by the shocking injury, "Brother Gu, are you corrupted by the aura of Heavenly Extinction?"

"Let me see."

As she said that, she didn't care about the difference between men and women, and she was not afraid of the corrosion of the Heavenly Extinction aura, so she grabbed Gu Changge's arm and wanted to investigate the injury.

Jiang Chuchu's expression changed slightly at this time, and she was a little worried.

But she could only stay out of it, like an outsider.

It was clear that Gu Changge's injuries were caused by her.

This made her feel a little guilty and uncomfortable.

And Gu Changge didn't even look at her, as he said before, she seemed to be an eyesore.

"Brother Gu's injury, it should be injured by some creature, right? The general Heavenly Extinction aura will not be mixed with the laws of the sacred realm..."

Wang Ziji frowned after checking the injury.

As she spoke, in her palm, a dazzling immortal light emerged, containing amazing vitality.

Chi.....

This immortal light was slightly triggered by the aura of Heavenly Extinction and made a screeching sound, almost like water was poured on boiling oil.

Gu Changge couldn't help frowning, but he remained silent, seemingly trying to endure.

"This injury was indeed caused by my carelessness at the time and was caused by a sneak attack by a Sacred realm creature, but I didn't expect it to be so difficult to expel..."

Having said that, his face became a bit paler, but his expression was still calm.

"Gu Changge..."

Seeing his appearance, at this time, Jiang Chuchu felt a little uncomfortable and wanted to say something.

But after calling out Gu Changge's name, she didn't know what to say.

It seemed that she hadn't spoken to Gu Changge properly other than calling him a despicable, shameless bastard.

"Holy Maiden Chuchu, is something wrong?"

Hearing this, Gu Changge glanced at her and asked casually, without mentioning anything about the past.

Jiang Chuchu felt the coldness in his tone, and grievances rose in her heart.

But on the surface, she still showed calmness.

"Thank you for your help earlier."

"Since you're fine, then I'll go first."

"I'm fine, so I won't bother the holy maiden. If you have time, you should be concerned about the safety of the world."

"Otherwise, more creatures will suffer the poisonous hands of the inheritor of demonic arts."

Gu Changge's tone revealed disapproval.

Hearing this, Jiang Chuchu's face turned pale.

However, she didn't say much.

Then, she glanced at Wang Ziji, turned into divine light, and left this place first.

"Brother Gu seems to be in conflict with Chuchu?"

Seeing this, Wang Ziji couldn't help asking with interest.

"It's just that I can't get used to her splendid and upright look, and she looks at the world more than anything else..."

Gu Changge shook his head and said casually.

Afterward, the two of them also left the place and did not stay.

In this Heavenly Extinction battlefield, the sudden decrease in the Heavenly Extinction energy and the number of Heavenly Extinction creatures had attracted the attention of many cultivators.

But the deep place was like a forbidden area for everyone, no one dared to explore at will, so not many people paid too much attention.

Neither Wang Ziji nor Jiang Chuchu liked to make things known to everyone.

Gu Changge was even more eager for this kind of thing to be low-key. At present, Absolute Heavenly Extinction had not really entered the eyes of some old monsters. If they knew that he had a way to solve the Heavenly Extinction aura.

That would surely come to him.

This was a major event that concerned the entire Upper Realm. Even if he was the young master of the Ancient Immortal Gu family, he would have to be arrested at this time, and he would have to go deep into the Absolute Heavenly Extinction with them.

Gu Changge naturally didn't want to encounter such a thing, it was troublesome after all.

Then, after parting with Wang Ziji, he returned to his temporary residence in Southern Heaven.

Gu Changge felt the strangeness of the power of Heavenly Extinction aura. He compared it inside his inner universe and found that this power had a particularly strong ability to swallow and cover space.

In particular, many formations were like paper paste in front of it which could be corroded casually.

Now, although he had only refined a piece of Absolute Heavenly Extinction Origin.

But the power of this source of Absolute Heavenly Extinction was enough to cover the territory of 100,000 miles!

That was to say, Gu Changge had now controlled the Absolute Heavenly Extinction in the range of 100,000 miles.

The size of 100,000 miles was enough to cover some smaller realms.

And during this time, Gu Changge also got the news from Yan Ji, about the things he asked her to inquire about became obvious.

"Sure enough, you weren't in the Divine Sect of the absolute beginning?"

Gu Changge whispered to himself, somewhat understanding.

He asked Yan Ji to go to the Divine Sect of the absolute beginning to ask about Su Qingge.

Both of them were from the lower realm, so Yan Ji would not be unfamiliar with them.

The result was that Su Qingge had already left the Divine Sect of Absolute Beginning some time ago.
About Su Qingge's two souls.

In fact, Gu Changge had always been paying attention to it, because Su Qingge's luck point was not fixed.

According to her own confession, every once in a while, some memories of the Upper Realm would appear in her mind.

Gu Changge noticed at the time that when Su Qingge's memory woke up, her luck point would rise.

There was a great connection between the two. Regarding Su Qingge's other soul, he had also investigated and even asked his mother to check it out.

But nothing was found in the end.

Gu Changge also let Su Qingge stay in the Divine Sect of the absolute beginning, and let her mother teach her.

"It's just a guess. If I want to prove it, I have to find the trace of Su Qingge."

Gu Changge then instructed to go back, and let his subordinates pay attention to the recent movements of the major battlefields in Southern Heaven.

If Su Qingge was the inheritor of the mysterious demonic art that Ye Langtian's brothers and sisters called, then she would definitely come to Southern Heaven during this time.

The existence of True Immortal Academy was naturally a perfect breeding ground for the true inheritors of demonic arts.

Not to mention that Southern Heaven was in chaos now, and Prince Ying was wearing the blame of the inheritor of demonic art.

For her, this was the perfect time to fish in troubled waters.

With Gu Changge's current power, it was too easy to find someone who hadn't hidden deliberately.

"If it's really Su Qingge, then she'll have to thank me. At least so far, the only people who know that there is a second inheritor of demonic arts are Ye Langtian and Ye Liuli."

"But speaking of it, will she covet my origin?"

Thinking of this, Gu Changge's expression became a little intriguing.

When she was in the lower realm, Su Qingge showed extraordinary intelligence and reason. At first, she surrendered to Gu Changge out of fear of Gu Changge.

But after a long time, if she changed her mind, then who knows?

It's not that Gu Changge didn't believe in Su Qingge, it's just that he didn't believe in her other soul.

If there was no other soul, he did not believe that Su Qingge could inherit the forbidden demonic arts.

Soon, several days passed, and Gu Changge also got news about Su Qingge.

As he expected.

She did come to Southern Heaven.

Chapter 265-1: Prepare a big surprise for Su Qingge, Who is inseparable from the inheritor of demonic art (1)

It was not difficult for Gu Changge to find Su Qingge's location. In the vast Southern Heaven, there were only a few places where the Heavenly Extinction Battlefield appeared.

He had eyes all over the place, so it didn't take much effort to keep an eye on one person. The main problem now was that Su Qingge did not know that Gu Changge had actually noticed her and was suspicious of her true identity.

So, for Gu Changge, what he needed to consider was what kind of face he would put on when he would meet Su Qingge.

"If I let her notice first, I might alert the snake." After that, Gu Changge left the place and headed to the place reported by his subordinates.

He did not intend to go to see Su Qingge directly. That person was very smart, she would probably feel something from a little clue.

Therefore, Gu Changge had to prepare a big surprise for her, so that Su Qingge would not know that he was planning something.

.....

And on the other side. Southern Heaven, in the middle of a recently emerged absolute Heavenly Extinction Battlefield.

The mountains were lofty, and the ancient trees were barren with a scene of exhaustion. The gray fog was constantly diffusing from the high altitude.

A large number of Heavenly Extinction beings were gathered here. Their eyes were scarlet, with their fangs exposed.

Many of them were human-like in appearance, but most of them couldn't show what their original race was, with a heart-pounding aura flowing through their bodies, and their strength was mostly at the True God Realm.

At this moment, a group of young men and women dressed in gorgeous clothes, shrouded in treasure glory, were fighting with this group of Heavenly Extinction beings. It was clear that this group of young men and women was very extraordinary, dressed in uniform clothing, from a supreme sect.

They were dressed in uniform attire and came from a supreme sect. The divine light shone in all directions, and the sound was earth-shaking. All kinds of divine weapons, carrying various colors of haze, rushed over from the high altitude to attack.

The terrifying light contained astonishing divine might as if a star exploded, and a large swath of Heavenly Extinction beings was blasted to death. Many mountains and peaks were turned into pieces and collapsed under this aura.

In this group of young men and women, there were a few people who looked extraordinary, their robes were draped with wisps of laws, all sorts of divine powers, and treasure techniques, and the list was endless.

Even if it was the Heavenly Extinction beings in the Heavenly God Realm, they could handle it with ease. Among these people, an elegant young man was dressed in a light blue tunic, and was particularly attention-grabbing.

With the aura of a scribe, holding a crystal clear folding fan. With a shake of his hand, a brightly glowing rune flew out, turning into a multicolored hurricane, attacking in the front.

Boom!

This multicolored hurricane was tainted with the power of the laws, even if there were many Heavenly Extinction beings in the front it instantly engulfed them.

In this terrifying power, even the True God Realm beings were instantly turned into pieces of dust, and both their body and spirit were destroyed on the spot. A group of young men and women were standing beside him and praising this elegant young man.

Many young disciples were looking at him with reverence and admiration.

"Senior Brother Zhao's strength is becoming more and more unfathomable, now that he has stepped into the True God Realm, even those Heavenly Gods are not good enough in front of him."

"Yes, Senior Brother Zhao is worthy of being the young supreme of my Ru Sheng Academy. Even compared to Senior Brother, it's not at all too much. Maybe in this trip to the Heavenly Extinction Battlefield, Senior Brother Zhao should get about the same amount of points as Senior Brother."

"Maybe in the future, we will have to change and call the Second Senior Brother Zhao as Senior Brother....."

At that moment, seeing this scene, many disciples opened their mouths and praised, admiring the elegant young man.

The man named Senior Brother Zhao, could not help but smile slightly while hearing these words at this time and then shook his head.

"It's just a small tactic, compared to the big senior brother, I'm still far from it. You guys just don't talk nonsense to cheer me up." His words were very humble and easygoing.

Hearing this, the rest of the disciples once again opened their mouths with a burst of flattery and praise, so that senior brother Zhao could not stop waving his hands, with a very helpless look.

The second senior brother of the Ru Sheng Academy was considered the best of the younger generation. And Rui Sheng academy was a sect specializing in refining the aura of the Dao with an

ancient foundation. Powerful people from this sect could easily shatter the stars with a mouthful of spiritual energy and crack the sky.

Zhao Yiyao now had the strength of the True God Realm, although he could not be compared to those Ancient freaks from other eras sealed in the academy. But his strength in the younger generation still belonged to the top.

This time, he was responsible for leading a team in the Heavenly Extinction Battlefield.

"Oh yes, Miss Su, where is your teacher? I think these divine arts and techniques of yours, seem to be quite unfamiliar, although their power is quite great, but I always feel it being related to a bit of swordsmanship," Zhao Yiyao suddenly said.

He looked slightly behind the team and asked a woman in white who was covering her face with a light veil. When he was fighting with the Heavenly Extinction beings just now, he paid attention to the woman in white behind him.

He was familiar with a lot of the Dao forces and seeing her moves and aptitudes, there was something different. So he couldn't help but be a little curious.

This woman in white, at that time, came in with them from the entrance of the Heavenly Extinction Battlefield. He saw that she was alone and her strength did not seem very strong, so he felt some compassion and invited her to take care of him.

After all, the Heavenly Extinction Battlefield was not like the outside world, the danger of Heavenly Extinction Aura was part of the danger, but Heavenly Extinction beings and secretly lurking inheritors of demonic art were more dangerous.

The woman in white did not have a companion, if she encountered more Heavenly Extinction beings, it was estimated that she would not be able to cope with it, and it would be very dangerous.

Not to mention the rest of the crisis..... But despite this, she still dared to come here alone, which made Zhao Yiyao a little impressed.

However, his invitation made many disciples misunderstand, thinking that he had some ideas for this white woman. This made Zhao Yiyao a little helpless, but he did not overly explain.

"My master instructed me that her name can not be easily told, I apologize Mr. Zhao." The white-clothed woman smiled and replied in a calm voice with a slight apology.

"So that's how it is, then it's me being abrupt. I'm sorry, Miss Su." Hearing this, Zhao Yiyao couldn't help but smile, "I think you have this ability, you shouldn't be a person of no reputation, your master must be a reclusive high ranking person."

He asked the name of the woman in white, but the other party only said the surname Su. He searched but did not find such a young supreme in his memory.

He could only give up on this, treating it as a casual cultivator with an old monster teaching behind him.

On hearing this, the woman in white shook her head, her voice as calm as ever, "Mr. Zhao overpraised me, I can't make any fame with this skill, I'm just a nobody."

"Miss Su is really modest, your skills are no weaker than some young supreme....." Zhao Yiyao smiled, as if he was very elegant and easy-going, "Maybe we still have to rely on you for this trip to the Heavenly Extinction Battlefield."

For this decent talk, stunning posture white woman, honestly, he still had some good feelings. Of course, these good feelings developed in the Heavenly Extinction Battlefield with their conversations during the past few days.

The other party, no matter who she talked to, kept a distance of more than three feet, so she was not the kind of woman who was casual. This coincided with the Ru Sheng cultivation practiced by Zhao Yiyao.

Moreover, he felt that this Su girl seemed to have a somewhat special physique, which he had seen by chance in the middle of a discipline's textbook at first. This gave rise to a strange feeling in Zhao Yiyao's heart, that the chance acquaintance between the two seemed to be destined to be the same.

"Senior brother Zhao really has a good feeling about this strange Su girl....."

"It's a pity that senior brother Zhao is so nice, it's still only the third day they've known each other."

"What's so good about this mysterious Miss Su that she deserves such treatment from Senior Brother Zhao?"

Seeing this scene, many young girls of the Ru Sheng Academy were envious and jealous. The first thing that they wanted to say was that I'm not sure if I'm going to be able to get a job.

During these years, countless genius girls admired him, but had not been answered. But now, this was only the third day of acquaintance, and he was so concerned about this Su girl, asking about her from time to time.

As long as she was a discerning person, she could see what Zhao Yiyao was thinking. But for these, the woman in white didn't seem to care.

Maybe she understood, but she still pretended not to know. This made all the female disciples even more envious and jealous. Why couldn't they be treated like this by Senior Brother Zhao?

And the woman in white was naturally Su Qingge.

If she wanted to get a place to enter the True Immortal Academy, she naturally had to kill these creatures to exchange for points. Su Qingge herself planned to be alone.

But considering the dangers and unpredictable dangers in the Heavenly Extinction Battlefield, it would be much more convenient if there were companions around at the critical moment. So she agreed to Zhao Yiyao's invitation at the entrance.

The second senior brother of the Ru Sheng Academy seemed to have a favorable impression of her, and Su Qingge could naturally feel this. However, she didn't show anything. To her, Zhao Yiyao was not much different from a stranger.

Afterward, their group quickly went deep, and all the Heavenly Extinction beings along the way were slaughtered. But when they got to the depths, they couldn't help but feel the difficulty.

On the one hand, the Heavenly Extinction Aura was getting stronger, and their body couldn't bear it anymore.

On the other hand, there were the creatures of Heavenly Extinction here, many of which had reached the True God Realm, and even the Heavenly God Realm. And among them, most of the disciples were only in the False God Realm.

Although there were all kinds of divine weapons and runes to protect themselves, they were not the opponents of this group of ghostly creatures at all. Zhao Yiyao looked around and said in a deep voice,

"Calculate how many points are left..."

"It's not enough, we still need a little more."

"There seems to be a piece of ruins ahead. It seems that it should be left by the forces that have been ravaged by the Heavenly Extinction creatures. We can go there to rest."

"Then we should rest first."

As he said that, he led all the disciples to go there, Su Qingge hesitated, and followed. But at this time, the voice of another soul was ringing in her mind.

"You should have also seen Zhao Yiyao's physique, right?"

"I know, it's a sacred body." Su Qingge nodded, with a trace of thought in her expression, "This physique doesn't seem to be very useful to me."

"It's not really big, but it's better than nothing." With an evil voice, she said again, "Do you really think you are a good person? You will be soft at this time? Su Qingge, there are quite a lot of geniuses who died in your hands."

Hearing this, Su Qingge just shook her head, "There are so many people here, it's not easy to fight. It's not worth the loss."

Then, she followed the group of Ru Sheng Academy to the ruins ahead, Zhao Yiyao and others were already calculating their points. Su Qingge also calculated her own, and found that she was still far from it. She rarely took action along the way, and when she encountered Heavenly Extinction beings, they were all dealt with by the disciples of Ru Sheng Academy.

So, she actually didn't have many points in her hand.

"Miss Su, do you have enough points?" At this time, seeing Su Qingge frown slightly, Zhao Yiyao couldn't help but ask with concern, "If it's not enough, I'll give you a little bit. I have plenty on hand."

Hearing this, many disciples of the Ru Sheng Academy looked over, and many disciples who still lacked points were jealous. Brother Zhao did not ask them first, but instead cared about such an outsider?

And Zhao Yiyao didn't seem to notice the expressions of the younger juniors behind him, and still said to Su Qingge,

"Don't be embarrassed, Miss Su, I see that you rarely made a move along the way, and gave us a lot of points. That's how it should be..."

However, Su Qingge just shook her head, "There's no need for that, I appreciate Mr. Zhao's kindness. As for the remaining points, I will get them myself."

After saying that, she turned around and planned to leave this place. Seeing this scene, everyone from the Ru Sheng Academy couldn't help but breathe a sigh of relief, feeling that it would make them very uncomfortable if Su Qingge stayed here.

"Miss Su..." But at this time, Zhao Yiyao's complexion changed slightly, and he hurriedly chased after her, but Su Qingge's speed was very fast, and she soon disappeared.

"Wait for me here, I'll find Miss Su, the Heavenly Extinction Battlefield is way too dangerous, how can I just sit around?" Zhao Yiyao said to the group of junior brothers and sisters behind him, and then his figure quickly disappeared, chasing in the direction where Su Qingge left.

"Brother Zhao really is..."

"What's wrong with this Su girl? She's being so indifferent to him, apart from being good-looking, what other advantages does she have?"

"I really can't figure it out."

"She's mysterious, I can see that she is definitely not a good person at first glance..."

Seeing Zhao Yiyao chasing after her, the disciples of the Ru Sheng Academy couldn't help but mumble. They couldn't figure out why Senior Brother Zhao, who was always calm and mature, was acting like this.

On the other side, Su Qingge, who had left the ruins, was very fast, turning into a divine light and rushed to the depths. Between the mountain peaks, there was a surging gray fog, as if it was night already.

She didn't want Zhao Yiyao to be entangled too much, so she didn't stop.

"It looks like that guy got lost, and he's really a waste. But it's good luck for him to be alive."

In her mind, another voice sounded. Su Qingge shook her head noncommittally and said, "Even if he follows, I can't kill him, since it will increase my suspicion."

Her words made the voice in her mind silent. At this time, she really couldn't attack the guy surnamed Zhao.

Chapter 265-2: Prepare a big surprise for Su Qingge, Who is inseparable from the inheritor of demonic art (2)

.....

"Miss Su's speed is so fast, the Heavenly Extinction Aura here is already so strong, why is she going even deeper..."

After following her for a long time, Zhao Yiyao, who was lost as a result, stopped on a mountain with a bit of depression, and his fists could not help clenching.

The gray fog in front of him was dense, and many scenes could not be clearly seen even if he poked out his consciousness. He couldn't see Su Qingge's figure, and naturally didn't know her whereabouts, so he was lost.

This made him feel very uncomfortable, a little melancholy, and lost. Zhao Yiyao didn't know if he would be able to see Miss Su again in the future. After all, this was the first time he had a good impression of a woman.

He really wanted to take her back to the academy, even if Miss Su didn't like him now, he wouldn't care. After all, good feelings could all come and be cultivated slowly.

Now that Miss Su couldn't be found, didn't it mean that it would be difficult for the two of them to meet again in the future?

"Why is Miss Su avoiding me?" Zhao Yiyao sighed, feeling a little sad, he knew that he should have stopped, even if he used force, he had to keep her.

What was the use of regretting it now? Going deeper, it would be difficult for him to save his life. At this time, he must not proceed at will.

"It's because she thinks that you look like a dog with nothing to do." Yet at this moment. In the void, a playful voice suddenly sounded.

"Who is it? Come out, don't play tricks in front of me!" Zhao Yiyao was stunned for a moment, but when he reacted, his face sank, and he stared vigilantly at the void in front of him.

The sudden sound made him uneasy, and a chill ran down his back. All kinds of thoughts flashed in his mind.

He subconsciously felt that someone was following him. Could it be that on the way, their every move was actually being watched?

"Come out? I'm behind you." However, in the next moment, the voice sounded again, causing Zhao Yiyao's scalp to explode.

An unprecedented sense of terror enveloped his entire body! His body went cold, and his soul trembled. However, before he could turn around, he felt that his eyes were dark.

The terrifying black light poured down instantly, completely drowning his whole being. Then he lost consciousness.

"Sure enough, the sayings are never wrong. In this world, no licking dog is innocent." You're even making some crooked ideas, that's why you can't leave her." Gu Changge's figure appeared in the void.

The look on his face was slightly intriguing. Now, what he was supposed to do was almost done. When Zhao Yiyao died, the disciples of the Ru Sheng Academy were bound to be furious.

He had already set up this stage for Su Qingge, even if she didn't want to go in, it was impossible. However, what surprised Gu Changge was that Su Qingge's actions from beginning to end did not look like the inheritor of demonic art.

Of course, it could be understood that Su Qingge was very clever, and her camouflage had no flaws.

"Qingge, I used to love you so much, don't let me down."

Then, with a little deep meaning on the corner of his mouth, Gu Changge's figure disappeared again.

.....

In the abandoned ruins, the atmosphere seemed very depressing.

"Brother Zhao has been chasing Miss Su for so long, why hasn't he come back? Could it be that he accompanied Miss Su to kill Heavenly Extinction creatures..."

"But if that's the case, it's time to come back!"

"Probably not. Brother Zhao couldn't have left us here. Could it be that there was an accident?"

It has been half a day since Zhao Yiyao left to go after Su Qingge. However, the disciples of the Ru Sheng Academy who were resting in the ruins had not seen Zhao Yiyao come back for a long time, which made them feel uneasy.

Many disciples opened their mouths one after another, with worried expressions on their faces, looking outside from time to time, wanting to see Zhao Yiyao's figure.

Except for the vast gray fog and the roaring creatures, there was no movement. This made their hearts sink continuously, and they felt that things were getting worse. Logically, no matter what he was doing, Zhao Yiyao should come back at this time.

But no, he disappeared without a trace like a cow of mud entering the sea.

"Could it be that Senior Brother Zhao really had an accident?" Thinking of this, the face of a female disciple suddenly turned pale, and it was difficult for her to accept this result.

"Impossible, Senior Brother Zhao is so powerful and has so many divine weapons, how could he have an accident... Let's wait..."

"Brother Zhao, he... will he encounter the inheritor of demonic art?"

Someone's voice couldn't help trembling, thinking of all the rumors during this time. The existence of the inheritor of demonic art was not a lie.

In the end, although the inheritor of demonic arts was forced to retreat by Gu Changge, it was very likely that he had not left the Heavenly Extinction Battlefield, and had been lurking in the dark.

That said, all of them felt that it was actually dangerous. It was not impossible for Senior Brother Zhao to encounter the inheritor of demonic art.

"You said, will that girl Su have something to do with the inheritor of demonic art? You see, she doesn't leave early or late, but she leaves at this time, leaving Senior Brother Zhao alone to chase her!"

"Yeah, I knew she's not a good person at first glance!"

"I think that she can't get rid of this matter! This time, it's really a coincidence."

At the moment, thinking of this, all the disciples were excited, very angry and hated. In any case, this matter was inseparable from that of Miss Su. If it wasn't for her, how could Senior Brother Zhao have an accident?

Soon, the sudden disappearance of the second senior brother of the Ru Sheng Academy caused a huge uproar in this Heavenly Extinction Battlefield.

Although this second senior brother from the Ru Sheng Academy was not as good as those Ancient freaks. But he was also a well-known young supreme, and he was famous for one party, so he disappeared without a sound, and not even the slightest ripple was seen.

This was really shocking and disturbing. If it was said that if he encountered a powerful and invincible Heavenly Extinction being, it was bound to leave traces of battle.

But he didn't, nothing was left, as if he disappeared out of thin air. In this way, many people were terrified.

The inheritor of demonic art!

Almost immediately, many people thought of these five words! Besides the inheritor of demonic art, who else had such means?

Afterward, in the narration of the disciples of the Ru Sheng Academy, all the signs pointed out that this matter was inseparable from the white-clothed woman surnamed Su.

For a time, this Heavenly Extinction Battlefield was silent for a long time, and another major earthquake occurred.

Many young beings, in anger, set off one after another, and spontaneously searched for the woman in white, and wanted to give justice to Zhao Yiyao of the Ru Sheng Academy.

The entrances to this Heavenly Extinction Battlefield were also controlled and guarded by many young cultivators to prevent the inheritor of demonic art from leaving.

The eldest disciple of the Ru Sheng Academy was named Jun Gou. He was a handsome, thin young man who looked like a thin scholar. But those who knew him would not dare to underestimate him.

Because at the time of Jun Gou's birth, three spiritual energies descended from the heavens, which were gathered in his body, and his every move triggered a great Dao power.

The brush strokes become mountains, the strokes become seas, and all kinds of mysterious methods were jaw-dropping.

"Junior brother died and was assassinated by the inheritor of demonic art!"

At this moment, his expression was very gloomy and angry, with killing intent surging.

"Senior Brother, you want to get justice for Senior Brother Zhao! If it wasn't for the woman in white surnamed Su, Senior Brother Zhao would not be like this..."

Beside Jun Gou, a female disciple cried, looking very sad. In her words, there was a deep hatred for Su Qingge.

"It seems that Miss Su is absolutely inseparable from the inheritor of demonic art!"

"Senior brother, we have to find her quickly, and we might find some clues! Find the clues of Senior Brother Zhao..."

"Yes, Senior Brother, if the teacher blames us, we will have an explanation!"

The rest of the disciples also opened their mouths one after another, asking the elder brother Jun Gou to call the shots for Zhao Yiyao, who was assassinated. All of them would be punished if they didn't explain it.

Even if this matter had nothing to do with Miss Su, she must be arrested to explain.

"I understand, the enmity of the junior brother must be explained."

"Whether it was the work of the inheritor of demonic arts, this matter is indeed inseparable from the woman in white!"

After a moment of silence, Jun Gou couldn't help but nod with a cold expression.

At this time. A disciple from Ru Sheng Academy suddenly came to report and said excitedly, "Senior Brother, we have found that woman in white, she is at the exit of the Heavenly Extinction Battlefield, and is now intercepted by us."

Hearing this, all the disciples here could not help but reveal their hatred, but more or less they also breathed a sigh of relief.

"That's just right!"

"Let's go! I think it's hard for her to escape now!"

Jun Gou took the lead and got up with an icy cold look and a killing aura, leading a group of disciples and going away in a mighty manner to give justice to his dead senior disciple.

Chapter 265-3: Prepare a big surprise for Su Qingge, Who is inseparable from the inheritor of demonic art (3)

And at this time, there were space fluctuations in front of a huge portal. Many young geniuses with powerful auras were gathering here.

They looked at a woman in white in front of them with a wary, scornful, measuring look. This place was exactly an exit of this Heavenly Extinction Battlefield, which could be left at any time to go to the outside world.

But now, more and more cultivators were rushing there, surrounding this with a lot of activity. Even the mountain peaks further away were occupied by the figures of many cultivators.

It was not too much to describe it as a multitude of attention. Many people came here with the purpose of watching the fun.

They knew that the second senior brother of the Ru Sheng Academy had been assassinated by an inheritor of demonic art, and that there was a lot of connection with the woman in white in front of them.

It was said that the second senior brother of the Ru Sheng Academy went after the woman in white, and disappeared. So, the biggest suspect was naturally this mysterious woman in white.

Of course, not many people thought that she was an inheritor of demonic art, at most, they thought that she and the inheritor of demonic art might have some relationship.

More people wanted to know how the Ru Sheng Academy was going to solve this matter.

"Surnamed Su, why did you try to assassinate our senior brother Zhao? He has no grudge against you, at most he is just kind to you, why did you do this to him?"

"Thanks to this look, you are simply a snake with a scorpion heart....."

"Our brother Zhao is really blind, at that time he saw you alone, wanted to help you out of kindness, the result is that you treated brother Zhao like this?"

"Hurry up and tell us, where is senior brother Zhao? Even if you are with the inheritor of demonic art, no one can save you today, be smart, or honestly explain all this!"

At this time, a group of disciples of the Ru Sheng Academy who had intercepted Su Qingge shouted in righteous indignation. Their eyes were filled with anger and hatred, and they looked like they would not stop.

Hearing these words, Su Qingge, who was standing in front of them, still looked calm and did not make any ripples.

She said flatly, "How many times have I said, this matter has nothing to do with me. After I left, I haven't seen Zhao Yiyao, where is he now? How would I know?"

Speaking of this, she frowned darkly in her heart, and was not sure why she had somehow been poured with dirty water.

After leaving at that time, she dumped Zhao Yiyao and headed to the rest of the areas out of kindness with the intention of exchanging them for points.

And after that, she hadn't seen him again. It was only in the past few days that she heard about Zhao Yiyao's untimely death.

During this time, it was too much of a coincidence that it happened. Su Qingge thought for half a day. In the end, she could only come down to the fact that she was too unlucky.

So now, she almost had a hard time explaining, and could not explain. If she fought, without using the Forbidden Demonic art, she would at most be at the True God realm.

As for the use of forbidden demonic art? That was like looking for death! It was hard to only be captured? Su Qingge's heart, at this time, was also full of tangles and helplessness, feeling that there was no way out.

"You are still sophomoric, if it wasn't for you, how could senior brother Zhao be in trouble?" Hearing Su Qingge say this, the disciples of the Ru Sheng Academy were even more angry, just short of directly taking action.

"Zhao Yiyao was the one who wanted to come along at that time, what does it have to do with me? It's obvious that you guys are unreasonable, and when things go wrong, you don't dare to go to the inheritor of demonic art, so you know to come and bully a weak person like me?"

Su Qingge's voice was still calm, but at this time, there was an additional coldness.

"What a sharp-tongued woman..... In the end, if you hadn't lured my junior brother out, how could that happen?" At this moment, a cold laugh came.

High in the sky, a burst of divine lights came over, and the person in the lead was none other than the Ru Sheng Academy's Eldest Senior Brother Jun Gou.

His expression was tinged with coldness as he looked directly at Su Qingge, as if he wanted to see her through. Seeing that Su Qingge did not speak.

He continued coldly again, "In my opinion, you can't be unrelated to the inheritor of demonic art, if you want to prove all of this, then let go of your sea of consciousness, let me know if I am really wrong about you. Then we'll apologize to you and let you go in peace?"

Hearing these words, both Su Qingge and many of the nearby young talents had a change in expression.

After all, the sea of consciousness was the most secretive place of cultivators, involving the soul and many secrets. For cultivators, probing the sea of consciousness was like the most humiliating thing, it was better to die.

"But this is a good way....." However, many young geniuses looked somewhat intentional. This was considered the only way to look at it at the moment.

"You dare!" Su Qingge's voice was very cold. Probing her sea of consciousness?

The secrets involved in her sea of consciousness were far greater than Zhao Yiyao's death, so how could she let someone easily probe it?

"Oh? Then are you unwilling? Since that's the case, don't blame us!" Jun Gou's voice was still cold, underneath his scholar-like appearance, had a terrifying might that caused heart palpitations.

Along with his words, a terrifying Heavenly God Realm's pressure instantly descended, to crush towards Su Qingge. His cultivation level had already reached the Heavenly God Realm, far exceeding many young supreme beings.

Su Qingge's face, at this time, could not help but turn pale, and her hands clenched. She was very reluctant, did she really have to expose her forbidden demonic art at this time?

In her current situation was there a way to break away in addition to this? Suddenly, in Su Qingge's mind, Gu Changge's figure suddenly emerged.

If this time, if she told them about her relationship with Gu Changge, with his current power, who would dare to make things difficult for her?

However, when Su Qingge was about to open her mouth.

Outside this spatial portal, there were suddenly fluctuations coming from many young figures, and their expressions all shook up.

A cultivator's figure emerged from it, and his voice said excitedly, "Great!"

"Young master Changge heard about the appearance of the inheritor of demonic art here and is rushing to come here!"

Chapter 266:

"Young Master Changge joked, how is this possible? "How could we doubt you?" Jun Gou's face turned pale, his head buzzed, as if it exploded, and he said hurriedly. The voice trembled a little, and it was incomplete.

He finally realized the terrifying power of facing Gu Changge, which was heart palpitating and trembling.

"Qing Ge, let go of the sea of knowledge and let them take a look at your relationship with the inheritor of magic power.

But at this moment, Gu Changge ignored him and repeated it again, his voice still had no waves.

"Since they don't dare to explore my sea of knowledge, then I will go to the door another day, and then go to the Confucian Sage Academy, and find someone who has the courage to explore it."

Let alone a disciple of the Confucian Academy.

At this moment, all the cultivators here couldn't help but shudder, their faces changed drastically, and they felt the terrible chill in Gu Changge's words. I am afraid he is really angry! Mat does it mean to go to the door in person as Gu Changge? I'm afraid that because of this, he will start a longevity war with the Confucian Academy? At every turn, kill hundreds of millions of miles across the sea. Explore Gu Changge's sea of knowledge? Even the founder of Confucian Sage Academy, he dare not! My did you suspect that the inheritor of magic power was the winning prince, but no one dared to investigate? It was also for this reason. As the young master of the longevity family, he represents the face of the longevity family! And Gu Changge's identity is even worse than winning the prince. Hearing this, Jun Gou and others trembled with fright, their mouths and lips were white, their calves were spinning, and everyone was going to be stupid. To put it bluntly, although the Confucian Sage Academy is also an ancient great religion, it has a long heritage. But in the longevity family, in front of the unfathomable behemoth like the longevity Gu family, it is not much different from the ants. "It's the son."

At this time, Su Qingge also listened to Gu Changge's words, obediently closed his eyes and let go of the sea of knowledge. But there was dead silence here, no one dared to speak, and even the breath was deliberately lowered. Let alone explore the sea of knowledge of Su Qingge, who dares? "Are you entertaining me?"

Gu Changge's voice sounded again, revealing indifference. His gaze slowly swept towards the people in the Confucian Academy in front of him. In an instant, it seemed that there were many terrifying visions,

appearing between heaven and earth, even if they were far away, everyone couldn't help feeling palpitations. In front of Gu Changge, the people of the Confucian sage institution felt even more profound. Puff! The next moment, including Jun Gou and others, even if they are not reconciled and humiliated 24, they can't help kneeling down, their voice trembling, "This matter is our fault You shouldn't have wronged Miss Su so much. [hope you, Master Changge, have a lot, and forgive us. "We will give Miss Su an explanation on this matter." This scene made everyone in the vicinity feel different and could not help but feel palpitations. The degraders are always humiliated, and there will be such a result, and they are also asking for it. Compared to exploring the sea, kneeling down or something, it's actually much lighter. There was silence for a quarter of an hour. Everyone present did not dare to speak at will. Everyone in the Confucian Academy, their souls were trembling, and they were scared into a cold sweat by the possible consequences. "Finally, about the inheritor of magic arts, Gu has a good idea. If Qingge really has something to do with him, I will act as soon as possible and will not show mercy." "However, if someone dared to bully her at will, don't blame Gu for turning her face ruthlessly. After that, Gu Changge waved his hand, his expression has returned to calm.

"Thank you Young Master Changge for his magnanimity!" Everyone in the Confucian Sage Academy looked like they were fished out of the water, and they were all wet with cold sweat. After that, this misunderstanding was resolved, and everyone from the Confucian Sage Academy compensated Su Qingge for many things, including Magical Rem holy medicine. Su Qingge silently followed Gu Changge and left here. As for the inheritor of magic skills that appeared before, no one knows what he is now disguised as. %Then I was in Xianggu Continent before, there was a situation where the inheritors of magic arts disguised themselves as other people's faces and mixed in, so at this time, everyone had no way to do it. You can only be careful, so as not to place orders like Zhao Xiaoyao, giving the inheritors of magic skills a chance to take advantage of. Today, everyone in the Confucian Academy was embarrassed and did not say anything. They offended Gu Changge, and their regrets were blue. For a time, there were all kinds of discussions and opinions. Gu Changge's approach, in the eyes of many people, was not wrong. In this matter, the fault lies with the Academy of Confucian Needs. After all, before the matter is clear, the conclusion will be made first. After leaving the Battlefield of Absolute Yin, Gu Changge took Su Qingge back to his usual temporary residence. He didn't talk to Su Qingge much along the way, and his expression was very calm and deep. Many thoughts passed through his mind. In this arrangement, no matter the timing or the method, the slightest flaw could not be found. Even if Su Qingge was brilliant, she didn't notice this black pot, but it was Gu Changge who knocked her head up. At the critical moment, it was Gu Changge who appeared again to relieve her, and forced her good impressions.

Now, Gu Changge has almost concluded that Su Qingge is the inheritor of this generation of magic skills.

His Dao Aquarius had a very clear perception of the breath of magic power. Although Su Qingge was not aware of his existence, Gu Changge could perceive the great aquarium she had condensed with rune if she was not far away. This feeling is like seeing the fake on the painting, the key is that The paintings are still very vague. Gu Changge wanted to ask her, is there one percent of the forbidden magic skills she learned? It is estimated that it is far from it. The inheritance of taboo magic skills is not only as simple as condensing the Taoist treasure bottle cultivation, but also involving many secret methods and so on. Such as the wedding dress fairy decision, the Wanhua Demon Body, the thoughts of being too comfortable

It is estimated that Su Qing's songs have never heard of these things, let alone cultivation and learning.

Gu Changge doubted the inheritance she had received. Perhaps it was just that. The inheritors of taboo magic skills in the past may have been like this. The founder of the first generation of taboo magic arts, this Tibetan private is too serious. From various indications, Gu Changge has always felt that it is a certain vest of his own. The personality of this Tibetan private is exactly the same as him.

Seeing Gu Changge's expression is very calm and deep. Su Qingge who followed, also faintly guessed what he was thinking. But she didn't know how to speak at this time. The siege was solved.

But it is obvious that Gu Changge's words at the time were based on what he saw. Before that, he had no idea that he would come to Nan Shengtian. What was told by his mother that he wanted to find him? This was just an excuse he made up casually in order to understand the surrounding area.

Su Qingge was very clever and understood Gu Changge's intentions, so he answered along. And now, Gu Changge is obviously waiting for her to take the initiative to explain all this. After thinking about this, Su Qingge's eyes blinked brightly, and he took the initiative to pull Gu Changge's sleeves, with a slight hint of coquetry in his voice. "The son-" "Sorry, Qing Ge deceived you today." "Oh? What are you deceiving me?" Gu Changge's thoughts flew back, did not look back, and asked casually, as if he was waiting for Su Qingge to take the initiative to open his mouth. "My son, Qing Ge shouldn't deceive you by saying that he came to Nan Shengtian to look for you. She replied bluntly, knowing Gu Changge's temperament very well. If you don't tell the truth in front of him, she might upset him. "E, then you come to Nan Shengtian and don't look for me, because you don't want to see me at all?" Gu Changge asked lightly. "The son doesn't want to see me anyway. If I come to you, what should you do if you don't see me?" Su Qingge's voice has a little grievance. Gu Changge asked with interest, "Why don't I want to see you?"

"The son, you threw me in the God Sect of the Beginning for so long, and never came to see me. I thought the son had forgotten me. People like son, there is no shortage of outstanding heavenly daughters, such as Princess Mingkong. For a woman like the descendant of Renzudian, Qingge knows that she has no place in the young man's heart." "I came here just to kill the deadly yin creatures, and to be able to enter the True Immortal Academy to cultivate

"It's not that I want to see the son.

At this time, Su Qingge was rather calm and composed, speaking out all the thoughts in his heart. She is not afraid of Gu Changge's blame at all. "Okay, Su Qingge, you are so courageous, you dare to talk to me like Yin & Yang weirdly." At this time, Gu Changge finally turned his head and pinched her delicate and flawless chin. The look on his face did not show the joy or anger. "When you come to Nan Shengtian, you don't come to see me directly, and you still cause all these troubles for me. I think you just owe it. "The son, take care of me.

Su Qingge's guts from nowhere, perhaps today, Gu Changge unconditionally chose to believe her, which moved her very much.

Now, instead, he looked at him provocatively and blinked. "You guy, you know I can't bear it, so you provoke me..." Hearing this, Gu Changge shook his head helplessly. "Young Master" Su Qingge deliberately dragged the ending sound very long and smiled super happily. "My son, can I ask you a question?"

"What's the problem?" Gu Changge raised his eyebrows slightly. "If I really were the inheritor of magic power, what would you do to me?" "Why do you ask such a strange question, doesn't the inheritor of magic power win the prince? Could it be that you really have a relationship with him?" Gu Changge asked casually, not caring very much. "No, no, son, I just ask casually, wanting to [mow my place in your heart Su Qingge pressed him tightly. "Then do you still need to ask? It must be a slap that slapped you to death, lest it become a disaster and harm the people of the world." Gu Changge looked at an idiot in his eyes. "My son, you are too ruthless." Su Qingge's expression was a bit sad, "But it's okay to die in the hands of the son like this." "If you are really the inheritor of magic skills, you can't get rid of it with me. After all, I brought you to the upper realm, so after [shoot you to death, maybe [will come to accompany you. Gu Changge smiled casually, and squeezed her Qiong nose. "My son, don't talk nonsense. You are destined to be the most outstanding figure in this world. This is not worth it at all." Although Su Qingge knew Gu Changge's words and was joking, she looked at him seriously. "I know it's nonsense, do you still care so much?" Gu Changge smiled disapprovingly, but he was a little intriguing in his heart. Time passed quickly, and quickly, several days passed. The birth of the inheritor of Nan Sheng Heavenly Demon's merit, as the winning prince gradually disappeared, during this time, it also became peaceful.

Many young Tianjiao, whether it is contemporary young supreme or ancient freak, have formed their own small groups. Going to hunt the Jueyin creatures, they all set off almost together, which avoided a lot of being alone and encountering the inheritors of magic power. In this way, it appeared to be very effective. For a long time, [no longer heard the news of attacks by inheritors of magic power.

The Zhenxian Academy in Hong Yutian finally began to recruit disciples, covering the entire upper bound area.

No matter what force, tradition, or race creature, as long as the bone age is not more than fifty, you can go. But the only condition is to kill enough dead-yin creatures in exchange for points and qualifications. All of a sudden, young beings who had obtained sufficient qualifications rushed to Hong Yutian one after another. In the sky, the majestic and amazing divine ships and flying boats that can be seen every day are crushed and rumbling. Various ancient feral beast mounts swept across the country, covering the sky and the sun, and the momentum was amazing. It can be called a golden age, with all parties moving and stars gathering. Hong Yutian, whose name originated from a strong existence named Hong Yu, some people say that his Cultivation Base has surpassed the real fairy and reached another Realm. But it is impossible to verify whether it is true or not. Hong Yutian's terrain is vast and vast, mysterious and vast, with all kinds of gods and fairy trees, extremely tall.

Looking from a high altitude, you can see a lot of xenon hydrogen fairy gas, rising from all over the place, (Jilin leaping, fairy phoenix shaking wings, various visions, countless, like a place of immortal home.

It is not without reason that Zhenxian Academy is located here. Regardless of the resources for cultivation, the supreme engravings, the mansions of the emperor, or the fate of luck, the sacred tree of immortal medicine, and the iron of immortal spring, they are the most generous places in the upper realm.

As a place where immortals are going to be built in this world. In the real fairy academy, it is quite unquiet at the moment. An ancient palace standing in the void, rusty and mottled, surrounded by chaos. Several elderly people with extremely terrifying auras and chaotic auras between the opening and

closing of their eyes were looking through ancient books. In the case next to him, there are all kinds of records about the young supreme who are under fifty years old in the world today. There was silence on their faces.

Even looking at 450 to see the reincarnation of ancient sages, born supreme, ancient gods, Wushuang combat body, and lianxin psychic, there is no change.

In their eyes, these terrifying young existences seem to be ordinary, and it is difficult to fluctuate. Suddenly, an old man's eyes flashed with a look of surprise, and after a closer look, his expression changed again, and it seemed to be a little shocked. The person next to him also frowned and murmured, "The fairy and the devil are in the same body, you can turn to Yin & Yang, and you can turn to Samsara." "Fairy Demon Body, this kind of physique hasn't appeared in many years," another old man approached and whispered softly.

"I can't remember it."

The gaze of the old man next to him was full of surprise, "It seems that another monster will appear in this life"

"Now that the quasi-sage strength is revealed, except for the one from the Gu family, the one from the Wang family, the one from Huangling, the god prince born on Tianhuangshan, the Buddha of Jinchan Temple, and the inheritor of magic skills who may be hidden in the dark" "Maybe there will be a unique dark horse. "Moreover, the strange stone in my Zhenxian Academy that has been sealed for countless years should also be born."

"The ten major sequence battles, let's start with them first, but I don't know what will happen to the descendants of the demon world in this life."

When mentioning the demon world, their expressions couldn't help being a little dignified and jealous. Actually is not because of fear of the demon world. It's a monster in Zhenxian Academy with a very old generation, who came from the monster world. The apprentice he once taught is now the Empress Yao Xi who unifies the demon world. Except for the Empress Yaoxi, he never accepted an apprentice again, which led to an embarrassing situation. Whenever a descendant of the demon world came to the True Immortal Academy, no one would dare to accept an apprentice. He doesn't accept the person who exists, regardless of his aptitude, he doesn't care about it. The rest of Elder is not easy to go beyond the generations. As a result, it is rarely seen that there are descendants from the Demon Realm to the True Immortal Academy. So they were wondering, in this generation, will anyone come from the demon world.

"Young Master, what are you talking about? Empress Yaoxi's name, you can't call her name. We will be beheaded."

She stammered, very frightened. "what The demon man on the bed suddenly became a little dull when he heard this, and was full of disbelief. It took a long time to recover. He is the parent and child of the Demon Emperor Xuanyang of the six demon emperors in the demon world, and Yao Xi is the child and daughter of the Demon Emperor Youyue, who grew up with him. Didn't he drink Yao Xi's poisonous wine and was killed by her with a single sword? How come back to life? And Yao Xi has established herself as the queen?"

Chapter 267

The young Yaozu man looked at all the strange things in the room, he was full of disbelief, and he couldn't return to his senses for a long time. At the last moment, he was still in the courtyard of Xuanyang Palace, admiring flowers with Xiyao and discussing their wedding date. Both of them are the most dazzling young talents in the demon world. Even the heirs of the other four demon emperors, in front of them, are a bit inferior. The two are childhood sweethearts, and they have a close relationship. In the eyes of outsiders, they are a match made in heaven, and there is no such thing as a match like them in the world. But he couldn't think of why Xiyao would poison his wine, and finally his eyes were cold and mocking, with a sword piercing his heart. Could it be that everything Xi Yao did to him before was disguised, just to murder him in the end? Why? He couldn't figure out why Xiyao did this. "I died, but now I am alive again, and now I am also called Jun Bufan." "It's just that the identity is no longer the demon emperor's parent and child, but the third Young Master of a big clan in the Nine Regions. He has mediocre talent and is not seen by his father. There is also a brother and Big sis on it."

"Now that the demon world has achieved great unification, there is no longer a situation where the six great demon emperors rule the world and the six legs stand together. To me, six thousand years have passed." "These six thousand years have been regarded as a dream, and now that this dream wakes up, I am still a Jun Bufan. And Xiyao has become the queen of the demon world now, but this hatred, I will never forget, there will always be One day, I will come to her and ask her all this personally." "To revenge her for this sword." Jun Bufan closed his eyes and muttered to himself softly, sorting out the memories in his mind. As the demon emperor's parent and child, he was the best talent in the demon world back then. His acceptance of things far surpassed ordinary people. So I quickly accepted this situation. Now what he wanted to know most was what happened that year and why the other five monster emperors were gone. With the help of the big demon world, it was now reduced to a situation where Xi Yao was in charge. She also said that her ambition is so big, in order to unify the demon world, she will not hesitate to kill herself cruelly, for her, this is tantamount to losing one of the biggest competitors. What happened next, Xi Yao was just a young Tianjiao, how did she make the other five monster emperors disappear? You must know that the Cultivation Base of the five demon emperors is far from what Xi Yao can compare. It is impossible for her to kill the five demon emperors. Is it possible that all of this is the conspiracy of Youyue Demon Emperor?

"I don't know how the emperor father is now With his Cultivation Base, it should be not far from that Realm. Will my rebirth be arranged by the emperor father? NS" Jun Bufan kept whispering. Speaking of the back, the light in his eyes flickered, and he thought of many things.

The little girl next to the meal is also very white. In her opinion, Young Master was suddenly wicked, otherwise why would he say such a thing. Talking about Empress Xiyao at will is a big crime in the demon world, beheading at the slightest, and ransacking the family and afflicting the whole clan. At this moment, Jun Bufan seemed to notice the little maid next to him. His expression gradually became serious, and he said, "Qing'er, remember these things that I heard today, don't mention it to anyone." "Young Master, don't scare me. If you say these things, you will be beheaded and ransacked, although the owner is now highly regarded by Empress Xi Yao. The voice of the little maid trembling more and more. "So remember, don't mention it to anyone. At that time, neither you nor I will escape death." Jun Bufan's voice is also unusually calm. Only then did he remember the memory in his mind. His current father is a big figure in one of the nine domains and is highly regarded by Empress Xi Yao. He was even

named the King of Peace and Chaos because of his continuous efforts over the years to clean up the remnants of the previous demon emperors. And he is now the son of the King of Peace. This level of identity makes Jun Bufan feel ironic. "I know, Young Master, don't worry. I won't say these things today. The little maid nodded like a chicken pecking at the rice, and didn't dare to say anything more.

Regarding this, Jun Bufan is still very relieved. For him now, what he has to do is to cultivate and explore the traces of his father by the way. If there is anything left behind, it's okay to say. Even if he has no successor, he is not afraid, believing that he will rise again with his identity as the demon emperor's parent and child. Eventually, there will be a heavenly hall standing right in front of Xi Yao, questioning her, and telling the world what happened six thousand years ago, so that everyone in the demon world will be clear. What is the real face of Queen Xi Yao whom they believe in now? "This is the demon emperor status left by my father? My c V At this moment, Jun Bufan's expression was suddenly taken aback, and he noticed that a misty golden brilliance appeared in the sea of own knowledge. His whole person's consciousness seemed to be drawn into it, and he couldn't resist it at all. It seems to be an empty place, but there is an endless and stalwart figure appearing in it. Here seems to have a world, boundless, the sky and the ground are all creatures of the monster race.

The roar, the sound of chanting, the sound of sacrifice, and the blending together constitute a vast world sound.

No matter it is any creature, this time can not help but give birth to a sense of worship. The terrible divine light, like a vast and infinite waterfall, obscures everything and rumbling. "Father" Jun Bufan's voice trembled, and he looked hard at the blurry figure in front of him. Although it was sitting there, it was still extremely majestic, shrouded in endless traces of the avenue, it was not real, it was very vague. Sitting high), on the Ninth Stage, overlooking the eternal vicissitudes of the world. It was his father Xuanyang Demon Emperor, one of the six strongest existences in the demon world. At this moment, it seemed that he sensed Jun Bufan's figure, the stalwart figure who had been sitting cross-legged, opened his eyes. His eyes are extremely majestic, but they are full of peace. "Children, are you here? Now what you see of me is nothing more than a photo. There are not many things I can say for you, but you have to remember that now you are related to the survival of the entire demon world, this space Everything in it is what I left for you, which can help you grow up quickly." "In the outside world, I have also arranged a lot of methods for you. You need to find it by yourself. When those powers are large enough, it will be when you come to find me. Although at that time, I may have disappeared. The only thing you have to remember is not to reveal your identity. Jun Bufan was about to ask his father what happened over the years, but he never thought that Demon Emperor Xuanyang just said these things for him. Is he related to the survival of the Demon Realm? For a moment, Jun Bufan was dumbfounded, unbelievable.

He thought it would be a simple revenge, but now his father told him that all this seems to involve a lot.

It even reached the fate of the entire demon world. "I know my father" Jun Bufan nodded secretly and clenched his fists. Later, after confessing these words, the figure of the Demon Emperor Xuanyang disappeared in this space, as if he had completed the task Then, many chaotic waterfalls separated in front of me. Jun Bufan saw the scene. He was a man for two lives. At this time, he couldn't help but breathe in the air. The things his father had left for him were simply too much. Just the crystal-like substance, it piled up into a hill. In addition, there are countless immortal treasures, immortal medicines, god springs, spiritual roots that are hardly found, and even various rare elixir. In the palace,

there is also recorded a stunning array of Spiritual Qj, gathering endless treasures, divine light rushing into the sky, fairy clouds, like colorful fog.

Farther away, there is also a spiritual field, in which various magical medicines are planted, and the spiritual spring flows. There are too many magical resources, much more than the resources he has seen in his previous life. Especially Jun Bufan also saw it. The Xuanyang Heavenly Sword that his father left for him was exuding brilliant majesty and was inviolable. "With these resources, I find Xi Yao revenge, so why is it difficult?" At this moment, the heart of Jun Bufan was filled with pride. A few days passed in a blink of an eye. Gu Changge, who was in Nan Shengtian at the moment, didn't know what was happening in the demon world.

In the following days, he explored several Jue Yin battlefields, but none of them found the origin of Jue Yin, which made him a little disappointed.

Sure enough, the first time it was because of Wang Zijin, not because of him. Except for the son of luck or the daughter of luck, others don't want to touch this thing. This also made Gu Changge's mind temporarily dispel this thought, planning to go to Zhenxian Academy first. The matter of Nan Shengtian was almost resolved. As for Winshuang, Gu Changge has been paying attention, knowing that he has now come into contact with the mysterious forbidden magic organization. The effect of this decoy made him feel a little relieved. In a blink of an eye, half a month passed. Hong Yutian. An incomparably towering and ancient mountain gate stands upright, like the first mountain since the beginning of the world, revealing its desolation and ancient times. The body's surface is drooping with strands of chaos, and there are billions of rays of glow blooming here, very Sacred. Among them, the mountains stretch and the Shenyue is tall, as if supporting the whole world. All kinds of xenon and hydrogen gas, rising from various places, show the mysterious vastness. The fairy waterfalls are hanging down, the weather is varied, the sacred mountains and fairy islands are floating in the high sky, there are many fairy, birds and beasts coming and going, showing the unfathomable background. "Is this the True Immortal Academy? With such a weather, it deserves to be called a place to make immortals." "In this life, I am bound to make a name here and spread my name throughout the upper realm." There are young people, full of ambition, high spirits, and firmly believe that they are invincible, and they are bound to sweep the world. "However, I heard that this time, the ten major sequences have been set internally. From the Cultivation Base, they all have the actual strength above the quasi-sage.

"In addition to the sequence, there is also the division of quasi-sequence. The following point is the division of ordinary inner Outer Sect, the Cultivation Base of quasi-sequence disciples, at the level of the gods, and the Cultivation Base of the disciples of Inner Sect, at the level of the gods, Those below the Heavenly God Realm can only become Outer Sect disciples. This division, in the rest of the forces, is simply something that you can't even imagine. The younger generation can become true gods.

Which one is not Young Supreme, but here, he can only become an Outer Sect disciple." "But its not that I didn't have the opportunity to become a sequence. I challenged sequence seeds in the academy. As long as we succeed, we can get the same resources as them." "I have also heard about this. The ten major sequences, except for the Young Master Changge and a few people from the descendants of the Ancestral Hall, the rest are young existences that have been sealed since ancient times, and there is even a six crowned and peerless king, listen. It is said that every time he is born, he will fight against the strongest contemporary, but without exception, he has never been defeated. It is simply outrageous." "I

heard that he intends to challenge Young Master Changge, saying that only Young Master Changge can be his opponent in this life. This is a big tone. Don't you put the rest of the sequence in your eyes?"

At this moment, many young talents are gathering here, marveling at the constant discussion in front of the mountain gate, feeling their own insignificance. Even if they have an extraordinary background behind them, they still feel the horror of the True Immortal Academy. "The young Tianjiao who is redeeming points, come here to undergo a bone age examination. If you are older than fifty, don't come, so as not to be embarrassed for a while." At this time, in front of the mountain gate of Zhenxian Academy, there was an old man in white clothes standing in front of the gate of Zhenxian Academy. It seems that Cultivation Base is not very strong, but no one dares to take it lightly. His eyes swept across the many Tianjiao in front of him, his voice was not loud, but he spread out from a distance. For a while, everyone in this place moved after hearing the sound and rushed to go there. After all, there is no quota, even if they have a terrifying background behind them, they dare not arbitrarily enter the Zhenxian Academy. According to the rumors, there are countless old monsters in the True Immortal Academy, from all over the upper realm. Maybe in it, they will also meet the ancestors in the family behind them. For the younger generation, entering the True Immortal Academy is a great opportunity. For those old guys, the same is true. "-Bone age is fifty-one years old, are you blind? You still dare to fish in troubled waters, come, and blast him out for me." Suddenly, the complexion of the white-clothed old man became very ugly, his brow furrowed, and he scolded the middle-aged man in front of him, unceremoniously. The middle-aged man's expression was also anxious, and he couldn't help but said, "I'm just one more day, exactly fifty years old and one day. Whether it's Cultivation Base or points, I have enough, can't I make it easy?"

The voice of the old man in white suddenly became very cold, "Don't waste my time anymore, the rules are the rules, you are not qualified to break. "What kind of shit is the real fairy college, don't even talk about this point of reason."

The middle-aged man's expression changed abruptly, cursing, but before he finished his next sentence, his eyes widened, unbelievably, and he was frightened. When the white-clothed old man waved his sleeves, the middle-aged man exploded in the air, turning into a cloud of blood.

This scene made the originally lively Zhenxian Academy suddenly become quiet and silent. Everyone couldn't help but swallowed their saliva, a little bit cold behind their backs. There were some cultivators who were in trouble and planned to fish in troubled waters. At this time, they couldn't help but fought a cold war and had the intention to retreat. This is more than not being emotional, it is simply not paying attention to it. There is no shortage of Tianjiao in Zhenxian Academy. "We continue to provoke the end of Zhenxian Academy, that's it." The old man in white continued to speak, his voice still calm. But it also made the hearts of everyone stunned, knowing the strength and dominance of the True Immortal Academy, they would not even care about the background behind them. Here, the words of Zhenxian Academy are rules. Afterwards, the white-clothed old man held a crystal-clear ancient mirror, on which the divine light flickered, a burst of xenon hydrogen, and a brilliance fell on everyone. Then, the bones, blood, spleen, lungs and organs of the person who were photographed afterwards were all crystal clear, as if they had become transparent. This method can detect the bone age of the cultivator, which is to avoid people fishing in troubled waters. At this time, in a relatively rear position, a man and a woman were here, whispering. The girl looked like she was thirteen or fourteen, with a beautiful and well-behaved face, fair complexion, soft hair, and she was wearing a very simple and clean skirt. But there

are so many patches on the skirt. Compared with the many glamorously dressed and face-faced young Tianjiao (Ma Li's) Tianjiao nearby, it looks like a little beggar. The teenager next to her was slightly older than her, but he was only seventeen or eighteen years old, and the clothes he wore were even more shabby, and looked worse than the girl next to him. Many young Tianjiao deliberately avoided them. They looked like they saw a little beggar on the street. However, the two of them seemed to be very used to the eyes of everyone and didn't care. "Big Brother, Zhenxian Academy is so powerful, it kills people at every turn, or let's not go in, I'm a little scared... The girl whispered with some worry and fear, shocked by the scene just now. "No, we finally had such an opportunity, how could we give up. Xiaoyi, your talent is very good, once you enter the Immortal Academy, you will definitely be respected." "It will be a simple matter to avenge grandpa and live a good life at that time."

Hearing this, the young man shook his head and said with a firm expression in his eyes. His name is Qing Feng, a girl named Qing Xiaoyi who is not related to the Big Brother. The two were adopted by an old beggar and grew up. Now, not far away, tens of thousands of miles away, I came to the gate of Zhenxian Academy just to be able to worship in it. Because the girl Qing Xiaoyi's talent is very good, although she has not practiced, but the ordinary cultivator is not her opponent. Hearing that Zhenxian Academy will accept a lot of talented young girls this time, so he came here with Qing Xiaoyi. I think that as long as the people at Zhenxian Academy are not blind, they will definitely accept him as Little Sister. When that time comes, he will enter the True Immortal Academy with Xiaoyi as a follower. "I know a lot about Big Brother. Hearing this, Qing Xiaoyi nodded, and it was very difficult to overcome the fear and anxiety in her heart. boom! However, at this moment, in the high altitude, there was a trembling dragon's roar. Immediately afterwards, a huge and incomparable blue dragon model came out in the air. The nine-headed blue dragon pulled a white jade cart, and rumbling across the sky, the momentum was amazing, majestic and raging! Behind the white jade chariot, there is the mighty young supreme, or driving a warship, riding a fierce beast, and follow all the way. The pomp is so big that many young sages below the True Immortal Academy can't help but breathe.

Chapter 268-1: Jun Bufans lofty pride, Qing Xiao Yi at the mountain gate of True Immortal Academy (1)

The young demon man looked at all the strange things in the room with disbelief. He couldn't come back to his senses for a while. During his last moment, he was still present in the courtyard of Xuanyang Palace, enjoying wine with Xi Yao and discussing their wedding date.

Both of them were the most dazzling young talents in the Demon Realm. Even the heirs of the other four Demon Emperors were inferior in front of them. The two of them were childhood sweethearts and had a close relationship.

In the eyes of outsiders, they were a pair made in heaven, and there was no other existence like them in the world. But he couldn't imagine why Xi Yao would poison his wine, and with her cold and mocking eyes she pierced a sword through his heart.

Could it be that everything Xi Yao did to him before was a disguise, just to murder him in the end? Why? He couldn't figure out why Xi Yao would do this.

"I died, but now I am alive again, and now I am also called Jun Bufan. It's just that my identity is no longer the son of the Demon Emperor, but the third young master of a certain big family in the Nine Regions. He is mediocre in talent and is not welcomed by his father. There is also a brother and sister..."

"Now that the Demon Realm has achieved great unification, there is no longer a situation where the six great Demon Emperors rule the world. For me, six thousand years have passed."

"These six thousand years have been regarded as a dream. Now that I have awakened from this dream, I am still Jun Bufan. And Xi Yao has become the Queen of the Demon Realm, but I will never forget this hatred. There will be a day when I will visit her and ask her all about it myself."

"Vengeance for her sword."

Jun Bufan closed his eyes and whispered to himself, sorting out the memories in his mind. As the son of the Demon Emperor, he was the second best in the Demon Realm back then, and his mentality was far beyond that of ordinary people.

So he quickly accepted the situation. Now what he most wanted to know was what happened back then, and why the other five Demon Emperors disappeared without a trace.

The huge Demon Realm had now been reduced to a situation where Xi Yao was in charge. Her ambition was so great that she would kill him cruelly in order to dominate the Demon Realm. For her, this was tantamount to losing one of her biggest competitors.

What happened after that, Xi Yao was just a young genius at the time, how did the other five Demon Emperors disappear?

With the cultivation of the five great Demon Emperors, it was far from what Xi Yao could match, and it was impossible for her to kill the five great Demon Emperors.

Could it be that all of this was the conspiracy of the Youyue Demon Emperor?

"I don't know what my father is doing now. Based on his cultivation, he should not be far from that Realm... Was my rebirth arranged by the father? After all, the same name and the same surname. It's way too coincidental..."

Jun Bufan kept whispering. Speaking of the past, the divine light flashed in his eyes, and he thought of many things.

The little girl next to her was also very pale. From her point of view, the young master just suddenly fell into evil, otherwise why would he say such a thing.

To arbitrarily talk about Empress Xi Yao was a serious crime in the Demon Realm, ranging from beheading at light to looting their family and exterminating their entire clan.

At this time, Jun Bufan seemed to notice the little girl next to him. His expression gradually became serious, and he said, "Qing'er, remember these things that you heard today, don't mention it to anyone."

"Young master, don't scare me. If you say these words, you will be beheaded and the house will be raided. Although the owner of the house is highly valued by Queen Xi Yao..."

The little girl's voice trembled more and more.

"So remember, don't mention it to anyone, or both of us will die." Jun Bufan's voice was also unusually calm.

Only then did he remember the memory in his mind. His current father was a big figure in one of the Nine Regions, and was highly valued by Queen Xi Yao.

He was even named the Heavenly King of Chaos because of his continuous efforts over the years to clean up the remnants of the previous Demon Emperors. And he was now the son of the King of Chaos. This level of identity made Jun Bufan feel ironic.

"I know, young master, don't worry. I won't say these words..." The little maid nodded as if she was pecking at the rice, and didn't dare to say a word at all.

In this regard, Jun Bufan was still very relieved. Now for him, all he had to do was to cultivate, and along the way, he could explore the traces of his father.

If there was something left behind, that would be fine. Even if there was no successor, he was not afraid and believed that he would rise again by virtue of his identity as the son of the Demon Emperor.

There would be a day when he would stand upright in front of Xi Yao, question her, and reveal to the world what happened 6,000 years ago so that everyone in the Demon Realm would know.

What was the real face of Queen Xi Yao they believed in now?

"This is... this is the Demon Emperor status my father left to me? Why..." At this moment, Jun Bufan's expression suddenly froze, and he noticed that a golden brilliance appeared in his sea of consciousness.

His whole person's consciousness seemed to be drawn into it, and he couldn't resist it at all. It seemed to be an empty place, but there was an endless stalwart figure in it.

It seemed that there was a world here, that was boundless, and the sky and the ground were full of monsters. The sound of roaring, chanting, and sacrificial offerings blend together to form a vast world sound.

No matter what kind of creature it was, at this time, it couldn't help but feel a sense of adoration. The terrifying divine light was like a vast and endless waterfall, covering everything and rumbling.

"Father....." Jun Bufan's voice trembled, trying to look at the blurry figure in front of him.

Although he was sitting there cross-legged, he was still extremely majestic, shrouded in endless traces of the Great Dao, which could not be seen clearly, but was very vague.

Sitting high and overlooking the vicissitudes of the world. It was his father Xuanyang Demon Emperor, one of the six powerful beings in the Demon Realm.

At this time, it seemed that he felt the figure of Jun Bufan, the stalwart figure who had been sitting cross-legged, opened his eyes. His gaze was majestic, yet peaceful.

"Child, you're here? What you see of me is just a phantom. I can't say much for you, but you have to remember that you are related to the survival of the entire Demon Realm. This space and everything in it is what I have left for you to help you grow up quickly."

"In the outside world, I also arranged a lot of means for you, you need to find it yourself, and when those forces are strong enough, you can come to find me. Although at that time, I may have disappeared....but you have to remember, you must never reveal your identity."

Jun Bufan was about to ask what happened to his father over the years, but he never thought that the Demon Emperor Xuanyang just said these things for him.

Was he related to the survival of the Demon Realm? For a time, Jun Bufan was stunned and was unable to believe it. He thought it would be simple revenge, but now that his father told him, it all seemed to involve a lot.

It even reached the fate of the entire Demon Realm .

"I know my father..." Jun Bufan nodded secretly while clenching his fists.

Then, after explaining these words, the figure of Xuanyang Demon Emperor disappeared, as if he had completed the task. Then, many chaotic waterfalls separated in the front.

Jun Bufan saw the scene, although he was a man of two lives, he couldn't help but take a deep breath. The things his father had left for him were simply too many, and things like immortal crystals had piled up into hills.

In addition, there were countless immortal treasures, immortal medicines, divine springs, spiritual roots that were almost impossible to find, and even various rare elixirs.

In the palace, there was also a world-shattering divine formation inscribed, which gathered endless spiritual energy. With treasures everywhere, divine light rushed into the sky, and immortal energy filled the air, like a colorful mist.

In a farther place, there was also a spiritual field, where all kinds of divine medicines were planted, and the divine spring flowed, which was very miraculous... There were too many more resources than what he had seen in his last life.

Jun Bufan also saw that the Xuanyang Heavenly Sword that his father had left for him was exuding glorious majesty and was inviolable.

"With these resources, why would it be difficult for me to seek revenge from Xi Yao?" At this moment, Jun Bufan's heart was filled with pride. A few days passed in a blink of an eye.

Gu Changge, who was in Southern Heaven at the moment, still didn't know this little thing that happened in the Demon Realm.

In the days that followed, he explored several Heavenly Extinction Battlefields, but none of them had the Origin of Heavenly Extinction, which made him a little disappointed.

Sure enough, the first time was because of Wang Ziji, not him. Except for the Son of Luck or the Daughter of Luck, other people couldn't touch this thing. This also made Gu Changge temporarily dismiss this thought, and he planned to go to True Immortal Academy first.

Southern Heaven's matter was almost resolved. As for the matter of Ying Shuang, Gu Changge had been paying attention to it, knowing that he had come into contact with that mysterious Forbidden Demonic organization.

The effect of this bait gave him a little peace of mind.

Chapter 268-2: Jun Bufans lofty pride, Qing Xiao Yi at the mountain gate of True Immortal Academy (2)

.....

In the blink of an eye, half a month passed.

In Hong Domain. An incomparably majestic and ancient gate stood erect like the first mountain since the creation of the world with traces of desolation from the ancient times.

Threads of chaotic energy hung down from its surface, and there were hundreds of millions of rays of light blooming here, which looked extremely sacred.

Among them, the mountains were stretched and tall as if they were supporting this world. All kinds of immortal spirits were rising up in various places, displaying their mystery and vastness. Immortal waterfalls were falling, and the weather was nice. The various sacred mountains and immortal islands were floating in the sky.

"Is this the True Immortal Academy? With such an atmosphere, it deserves to be called a place where immortals are created."

"In this life, I will definitely make a name for myself here and spread my name throughout the Upper Realm."

There were young people, smug, high-spirited, convinced that they were invincible, and were bound to sweep the world.

"However, I heard that this time, the ten major candidates have been determined by default. From the perspective of cultivation, they all have the strength above the Quasi-Sacred Realm."

"In addition to the candidates, there are also Quasi-Candidate points. The following point is the ordinary division of inner and outer sects. The cultivation of Quasi-Candidate disciples is at the level of the God King Realm, and the cultivation of inner disciples is at the level of the Heavenly God Realm. Those below this Realm can only become disciples of the outer sect. This kind of division, in the rest of the forces, is simply unimaginable. The younger generation at most can attain the True God Realm, which one is not a young supreme, but here, it can only be an outer sect disciple..."

"But it's not like I didn't have the opportunity to become a candidate. Challenge the candidates in the academy. As long as we succeed, we can get the same resources and treatment as them..."

"I have also heard about this. The ten major candidates, except for the young master Changge and the descendants of the Human Ancestor Hall, are all young existences that have been sealed since ancient times, and there is even a Six-Crowned Peerless King. I heard that every time he is born, he will fight against the strongest, but without exception, he has never been defeated, which is simply outrageous."

"I heard that he intends to challenge young master Changge, saying that only young master Changge can become his opponent in this life. He didn't even put the rest of the candidates in his eyes."

At this moment, many young geniuses were gathering here, and they couldn't stop discussing and marveling in front of the mountain gate, feeling their own insignificance.

Even though they also had extraordinary backgrounds behind them, they still felt the horror of True Immortal Academy.

"Young geniuses who have redeemed their points, come here for an age test. If you are over 50 years old, you are not to approach, so as not to be embarrassed."

At this time, in front of the mountain gate of True Immortal Academy, there was an old man in white with a childlike appearance and a spirit. It seemed that his cultivation base was not very strong, but no one dared to despise it.

His eyes swept across the many geniuses in front of him, his voice was not loud, but it spread far away. For a time, everyone here heard the sound and rushed to go there.

After all, with no merit, even if the background behind them was terrifying, they would not dare to arbitrarily break into the True Immortal Academy. According to rumors, there were countless old monsters in True Immortal Academy, from all over the Upper Realm.

Maybe in it, they would also meet the Ancestors and other existences from the family behind them. For the younger generation, entering the True Immortal Academy to cultivate was an unparalleled opportunity.

It was the same for those old guys.

"Your age is fifty-one years old, are you blind as an old man? You dare to fish in troubled waters, come and drag him out..."

Suddenly, the white-clothed old man's complexion became very ugly, his brows were wrinkled, and he scolded the middle-aged man in front of him, not being polite at all.

The middle-aged man's expression was also anxious, and he couldn't help but say, "I only have one more day, just fifty years and one day, whether it is the cultivation base or points, I have enough. Can't I be admitted?"

The voice of the old man in white suddenly became very cold, "Don't waste the old man's time, rules are rules, you are not qualified to break them."

"What kind of bullshit is True Immortal Academy, it doesn't even make sense..." The middle-aged man's expression changed suddenly, and he scolded, but before he could finish his next sentence, his eyes widened, unbelievable, revealing panic.

As soon as the old man in white waved his sleeves, the middle-aged man exploded in the air, turning into a cloud of blood, destroyed in both body and spirit.

This scene suddenly made the originally lively front of the True Immortal Academy become quiet and deadly. Everyone couldn't help but swallow their saliva, feeling a little chill on their backs.

Some cultivators who were hanging around and planning to fish in troubled waters, at this time, couldn't help fighting a cold war and had the intention of retreating. This was more than being rude, it was simply ignoring it.

True Immortal Academy would not lack geniuses.

"Let's continue, for those who want to provoke True Immortal Academy, that's it."

The old man in white continued to speak, and his voice was still very calm. But it also made everyone stunned, knowing the strength and domineering of True Immortal Academy, and they would not pay attention to the background behind them.

Here, the words of True Immortal Academy were the rules.

Afterward, the old man in white was holding a crystal clear ancient mirror, the divine light on it flickered, and there was a burst of brilliance, and this brilliance fell on everyone.

After that, the bones, blood, spleen, and lungs of the people captured by the mirror were all crystal clear, as if they had become transparent.

In this way, the age of the cultivators could be detected, which was to prevent someone from fishing in troubled waters.

At this time, in a relatively back position, a man and a woman were whispering here.

The girl looked like she was thirteen or fourteen years old, with a beautiful and well-behaved face, fair complexion, smooth hair, and wearing a very simple and clean skirt.

However, there were many patches on her skirt, and compared to the many brightly dressed and beautiful young geniuses nearby, she looked like a little beggar.

The boy next to her was a little older than her, but he was only seventeen or eighteen years old, and the clothes he was wearing were even more shabby, and he looked even worse than the girl next to her.

Many young geniuses deliberately avoided them, and they looked like they saw little beggars on the street. However, the two of them seemed to be very accustomed to everyone's eyes and didn't care.

"Brother, True Immortal Academy is very strong. If you don't want to kill people, why don't we go in? I'm a little scared..."

The girl whispered worriedly and fearfully, frightened by the scene just now.

"No, we finally got such an opportunity, how can we give up? Xiao Yi, your talent is very good, once you enter the True Immortal Academy, you will definitely be valued."

"It's a simple matter to avenge grandpa and live a good life at that time." Hearing this, the young man shook his head and said with a determined look in his eyes.

His name was Qing Feng, the unrelated brother of the girl Qing Xiao Yi. The two were adopted by an old beggar. They had traveled tens of thousands of miles away through mountains and rivers to reach the gate of True Immortal Academy, just to be able to worship it.

Because the girl Qing Xiao Yi's talent was very good, although she had never cultivated, ordinary cultivators were not her opponents. He heard that True Immortal Academy would accept many talented young girls this time, so he brought Qing Xiao Yi here.

He felt that as long as the people of True Immortal Academy were not blind, they would definitely accept his sister. At that time, he would enter the True Immortal Academy with Xiao Yi as a follower.

"I understand. Brother." Hearing this, Qing Xiaoyi nodded, and it was very difficult to overcome the fear and anxiety in her heart.

Boom!

However, at this moment, in the sky, suddenly there was the sound of dragon roars that shook all directions.

Immediately afterward, an incomparably huge dragon emerged from the sky.

Nine-headed dragon pulled a white jade chariot and rumbled across the sky. The momentum was amazing, majestic, and turbulent!

Behind the white jade chariot, there were mighty young supreme beings, or driving warships, riding fierce beasts, and following them all the way.

Its pomp and circumstance made many young supreme beings below True Immortal Academy suffocate.

Chapter 269-1: ??The ups and downs of the plot development, The harvest method for people with Great Luck (1)

"Who is this brother?... What a big show... Even the old man in white from True Immortal Academy's expression became much more submissive."

Qing Xiao Yi's eyes widened, and she was shocked to see this scene. It was the first time she saw the arrival of a young genius that was like this.

Dragons were pulling the cart! She couldn't help showing envy as she looked with a yearning in her eyes.

"Look at the character Gu on it, it should be the one from the Ancient Immortal Gu Family!"

The young man named Qing Feng, at this time, could not help but show a kind of envy and reverence in his eyes.

"People are born as real dragons above the nine heavens, not like us, from humble soil... Don't look at him, Xiao Yi, it will be bad for people to think that we are disrespectful to him."

Qing Feng hurriedly said, making her sister bow her head, it would be too conspicuous to keep looking at him like this.

"The one from the Gu family... Is it the young master Gu Changge who is now recognized as the strongest person in the younger generation? I've heard a lot of rumors about him..."

Qing Xiao Yi's eyes were full of reverence, and she always felt that they were characters that belonged to a completely different world. Just standing there gave people an unparalleled feeling that the world was revolving around him.

The other party was like the immortals of the Nine Heavens, and they were the ants of the red dust.

"Young Master Changge!" At this moment, the chariot descended in front of the mountain gate of True Immortal Academy.

The old man in white who was in charge of checking the age was stunned and a little shocked at first, but then he couldn't help but put on a smile and stepped forward with a very amiable attitude.

Nine-headed dragon's terrifying holy pressure swept all directions, causing the expressions of many young supreme beings to change greatly again, turning a little pale.

They didn't expect Gu Changge's arrival to be so big. Nine-headed Sacred Realm Dragon was pulling the cart, and the weakest also had Quasi-Sacred Realm cultivation!

Then, the curtain of the white jade carriage was lifted by Su Qingge. Gu Changge's figure walked out of it, his expression was warm, he nodded slightly towards the white-clothed old man in front of him, and smiled.

"Changge greets the elder!"

"Young Master Changge, don't be polite." When the old man in white saw Gu Changge calling him an elder, the smile on his face became deeper and his expression became more amiable.

Compared with the real elder, his identity in True Immortal Academy was not known by how much. But Gu Changge called him that, which made him feel a little overwhelmed for a while.

His weight was not the same in the same young generation, in the hearts of True Immortal Academy. For example, Gu Changge in front of him, if he was notified in advance, there would definitely be elders and other old monsters who would show up and greet him in person.

That was why he was a little dazed just now, a little hard to believe that this was the arrival of Gu Changge. However, in the younger generation, apart from Gu Changge, there were not many people who could afford such a posture.

"Young Master Changge came from the distance of hundreds of millions of miles, and you must be tired. Why don't you go to the mountain gate to rest."

The old man in white then spoke with a respectful expression. This appearance made the young supreme beings at the gate of the mountain uneasy, but they were helpless.

The attitude of the old man in white towards them just now was not like this. What do you mean by 'tired'? Didn't he see them coming here, was he waiting for a long time?

Accompanied by beautiful women, in the white jade chariot, there was inner space. They also wanted to be so exhausted. This was really maddening.

For this kind of "queuing" behavior, they were very helpless, but they did dare not say no.

"Now it's time to check age, right?" Gu Changge's expression was calm, but he didn't care about the expressions of the young supreme beings behind him.

His gaze fell on the ancient mirror in the hands of the old man in white and asked. Behind him, Su Qingge stood quietly, her pretty face was white, her eyes were crystal clear, and she was as quiet and beautiful as an immortal fairy.

The expressions of her followers were also very quiet, but the momentum was amazing.

"There's no need, Young Master Changge only needs to show his points. Age is too much trouble." Hearing these words, the old man in white hurriedly waved his hand, smiled and said, omitting this step.

As for the followers behind Gu Changge, whether there would be anyone over fifty years old, didn't really matter. Because of Gu Changge's identity and strength, True Immortal Academy could make concessions for him and break the rules.

Seeing this scene, the expressions of many young supreme beings changed for a while, and their hearts were helpless. This kind of differential treatment really made them feel depressed.

"Brother... When will we be able to do this..."

In the crowd, Qing Xiao Yi saw this scene and was very envious. Her brother Qing Feng was also the same, with fascination in his eyes.

Then, he sighed, "Don't fantasize about it, Young Master Changge, that's a character we'll never get to touch with..."

"If that's the case, then I would like to thank the elders." Hearing this, Gu Changge smiled slightly but did not refuse, after all, it could save some time.

Soon, he showed enough points from killing the Heavenly Extinction beings, and many of his followers, including Su Qingge, had a lot of points.

Back then, when he was on the Heavenly Extinction Battlefield in Southern Heaven, Gu Changge had gone to the deepest part.

The Heavenly Extinction beings who died in his hands were far less than everyone in front of him. He just randomly selected some of the more powerful corpses of the Heavenly Extinction beings to exchange for points.

However, after entering the mountain gate of True Immortal Academy, Gu Changge did not choose to continue. He stopped here with a slightly intriguing expression on his face.

"What's wrong, master?" Su Qingge looked at him curiously.

"Let's see if there are any good seedlings this time." Gu Changge said casually, and his eyes passed over the many young supreme beings below.

In the end, he stopped at a beautiful girl with her head lowered and a patch on her long skirt. Another Lucky person.

The system had not prompted, so it should not be the Daughter of Luck. This huge Luck, even with a lavender color, was still far from Jiang Chuchu and others, but it was still amazing.

This made Gu Changge's expression a little moved, but he didn't speak and was still watching.

What's so special about this girl? Why was there such a huge amount of Luck?

Soon, according to the order, the people who were getting their age checked were Qing Xiao Yi and Qing Feng.

"One's age is thirteen, and the other's age is seventeen."

"It's just that with this cultivation level. I'm afraid you are fooling the old man. One has never cultivated, and one has no spiritual roots at all. What are you trying to do?"

The old man in white frowned, his voice was a little rude, and he felt that the two of them were here to make fun of him. Although he felt that this girl's talent might be extraordinary, she had never cultivated before and her strength was not enough at all.

As for this boy? Where did this little beggar come from?

At this time, the words of the old man in white also attracted the attention of many people, and their eyes fell one after another, with ridicule and sarcasm, as well as interest.

In this world, there was no shortage of people who would watch the fun and think that it was a big deal. They were even more so. Just now, many people were observing this pair of shabby, beggar-like brothers and sisters.

Looking around, the malicious eyes made Qing Xiao Yi's complexion a little pale, and she couldn't help shrinking her head, feeling a little scared and uneasy.

But at this time, a young man named Qing Feng stood in front of her, gritted his teeth, and said, "Elder, although my sister has never cultivated, her strength is stronger than some cultivators..."

Puff!

Before he could speak, he heard the laughing voices coming from all around him, which made him blush and he wanted to shout out loud and ask them what they were laughing at? But he dared not.

"You are making fun of this old man!" The white-clothed old man's voice sank, and he didn't believe him at all. Although the girl in front of him looked a bit extraordinary.

But the best time had been missed. True Immortal Academy was made to cultivate True Immortals, not to teach her how to cultivate from scratch.

"Elder, this is true, I dare not lie to you, please accept my sister." At this time, Qing Feng was also a little dumbfounded and quickly pleaded for mercy.

He didn't expect this result. They came from not far away for tens of thousands of miles, traveled through mountains and rivers, and in the end, were they going to be rejected like this?

"Look at you, poor siblings, the old man doesn't want to do anything, just leave if you are interested." The old man in white sighed, and his tone was a little helpless, if it wasn't for Gu Changge watching here, he would probably have made a move.

"Elder, please give my sister a chance..." However, upon hearing this, Qing Feng gritted his teeth, knelt down, and pleaded.

Chapter 269-2: ??The ups and downs of the plot development, The harvest method for people with Great Luck (2)

"You....." The expression of the old man in white changed again, and then he continued to sigh and asked, "Then let me ask you, do you have the points from killing the Heavenly Extinction beings? If you want a place in the True Immortal Academy, you must kill at least three or more beings in the True God Realm. You can do it..."

Hearing this, Qing Feng's head hummed and became blank, and his complexion suddenly turned white.

"Brother... let's go back." At this moment, Qing Xiao Yi also understood the meaning of the old man in white and pulled Qing Feng's sleeve.

Before they came here, they didn't understand anything, they didn't know how to enter the True Immortal Academy, and there were these requirements, thinking that it was the same as the rest of the ordinary sects.

Just checking talent and age was enough. They were really naive.

"Isn't there another chance?" Qing Feng still asked a little reluctantly.

"No, go back, don't force the old man to drive people away." The voice of the old man in white was very cold, without any fluctuations.

At this time, although many young supreme beings had not spoken, they looked at the two with a hint of mockery and pity.

These people are obviously not from this world, I want to run over and smash him into a bloody head.

True Immortal Academy is not open for people like them.

They also won't open their mouths to ridicule anything, after all, that was something that would lower their identities.

Looking at the nearby group of young supreme beings who were high above, had not spoken, but had a mocking look.

Qing Feng and Qing Xiao Yi, the brothers and sisters, could not help shaking their bodies, clenching their teeth, and their hearts were filled with hesitation, anxiety, and fear.

"Elder..." At this moment, a warm voice suddenly sounded in front of the peaceful mountain gate, breaking the silent and restless atmosphere.

"Young Master Changge!" The old man in white hurriedly smiled and looked at the source of the sound.

Everyone looked over, including Qing Xiao Yi and Qing Feng, both brothers and sisters who were very uneasy and frightened. They didn't understand why Gu Changge suddenly spoke at this time.

Gu Changge's eyes fell on them, and he said calmly, "I will give these points to these siblings. It just so happens that I need two bodyguards next to me."

Hiss!

"What....." Hearing this, not only did the white-clothed old man's eyes widen, he took a breath of cold air and felt unbelievable.

Even the other young supreme beings in front of the mountain gate stared wide-eyed and looked extremely shocked.

Bodyguards? The bodyguards beside the Young Master Changge?

This was a relationship that was closer than followers, and even they were probably far from qualified to enter the eyes of Gu Changge.

The two little beggars in front of them, what virtues and abilities did they have to get such qualifications and opportunities?

For a time, many young supreme beings were envious and jealous, and the expressions they looked at Qing Feng and Qing Xiao Yi changed, unlike the mockery just now.

Even the followers behind Gu Changge looked a little surprised.

"What....."

"This, this....."

Qing Feng and Qing Xiao Yi were far more shocked than everyone else, and until now they had not been able to react.

They just felt dizzy, like being hit by a huge pie. Gu Changge's bodyguards?

Before this, this identity was far beyond their imagination, and they didn't dare to think about it at all. Because they knew that they and Gu Changge couldn't be characters from the same world, and they couldn't even get in touch with them.

They never expected that now, he would take the initiative to say so, to save the two siblings, and also say that he needed two sword-carrying guys.

This made Qing Feng's heart full of unprecedented gratitude. Qing Xiao Yi also raised her head timidly and looked at the overly good-looking young man not far away.

At this moment, in their hearts, Gu Changge seemed to be shrouded in a layer of divine light, as holy as an immortal.

"Young Master Changge, being your bodyguard is no trivial matter, at least it must be an invincible existence that could sweep away his peers. As your sword-holding guys, what virtues and abilities do they have?"

The white-clothed old man couldn't help but persuade him softly, he didn't expect Gu Changge to speak like this all of a sudden.

Hearing this, Gu Changge just shook his head lightly and said, "I don't think it's easy for them to be two siblings. How many cultivators can get here with the perseverance of mortals?"

"If True Immortal Academy wants to make an exception to blame for this, this Gu is willing to bear it."

Hearing these words, the expression of the old man in white changed slightly, and he hurriedly said, "What is young master Changge talking about? How can we blame you for such a trivial matter..."

"Then I'll have to trouble the elder." Gu Changge nodded slightly, but his expression did not change much.

Even Gu Changge said so, how dare the white-clothed old man continue to let Qing Xiao Yi and Qing Feng leave.

At this time, the other young supreme beings also cast envious expressions toward them.

Seeing that this matter had almost settled down, it was solved so easily by Gu Changge in one sentence, making Qing Feng and Qing Xiao Yi unable to react for a long time, and they were a little stunned.

It felt like a dream. This was the terror of power. Even the True Immortal Academy would choose to compromise!

"Thank you, Young Master Changge, for your kindness today!"

"Qing Feng and Qing Xiao Yi will never forget about this!"

Afterward, Qing Feng looked at Gu Changge nervously and excitedly. He was about to hold his sister and knelt down to express his gratitude.

However, Gu Changge frowned, and an invisible force appeared, making the two of them unable to kneel down.

He said with a calm voice, "A man has his pride under his knees, how could he kneel to someone so easily? I don't need you to kneel to me either."

His tone was still flat, without the slightest fluctuation. However, it made Qing Xiao Yi and Qing Feng even more grateful.

Gu Changge's identity was far nobler than the young supreme here, but he was the only one who treated the two of them as people, not ants.

This kindness would be remembered by both of them. However, at this moment, from the depths of True Immortal Academy, a divine light suddenly rushed into the sky, and an Immortal aura filled the air.

Immediately afterward, several incomparably terrifying auras emerged, descending towards the mountain gate!

In the high sky, several people came quickly, the void was blurred, and they were all old men with extremely old faces.

There was even a chaotic aura lingering on the surface of their body, obviously, their cultivation base had reached an unimaginable level, and it was strong and scary.

This scene shocked everyone, and all the young supreme beings in front of the mountain gate couldn't help but look up, looking at them all.

"Greetings, elders!" The old man in white in front of the mountain gate changed his expression and hurriedly saluted, very respectful.

"Are you the one from the Gu family?" After the group of old monsters arrived here, they first noticed Gu Changge and looked a little stunned. They didn't expect that he wouldn't say hello first when he arrived.

"Changge greets the elders." Gu Changge's expression still didn't change much, and he slightly greeted them.

"The rumors seem to have underestimated your strength..."

"Very good, you are worthy of being a descendant of the Gu family."

All the old monsters looked at Gu Changge with amazement, as if they were looking at some treasure.

"However, we are not here for you today..." An old monster dressed in a gray robe, with his eyes open and closed, with strands of golden thunder light, said with a smile.

Gu Changge looked slightly surprised and smiled, "That's interesting."

Then, in the shocked gaze of everyone, several old monsters with unfathomable cultivation bases in front of them all looked at the pair of little beggar-like brothers and sisters.

"Immortal body... That's right, it's this kind of body. The Heavenly Sword family's deduction skills are well-deserved."

"We came at the right time, who will teach it, let's discuss it later."

Naturally, they looked at Qing Xiao Yi, with different expressions in their eyes, with wonder, thinking, and so on.

This scene made everyone, including the Qing Feng, startled again, and their scalps went numb as if they were petrified.

Their eyes almost fell to the ground, and they were speechless for a while. Things were really bumping up and down.

No one expected that this unremarkable little beggar had a peculiar physique that would be favored by several elders, and they actually rushed to the mountain gate in person.

Even if Gu Changge didn't say anything just now, it was estimated that this brother and sister would be left behind. After all, these were the real elders of True Immortal Academy!

"This Gu is clumsy..." Gu Changge was also a little surprised at this time.

"Young Master Changge's great kindness, we two brothers and sisters will forget it!"

Although Qing Feng realized that they had been operating from time to time, he still did not forget the kindness of Gu Changge just now and was very grateful.

"Thank you, Young Master Changge!" Qing Xiao Yi's voice was very low, and she seemed very timid and shy, but she was still secretly looking at Gu Changge.

Hearing this, Gu Changge couldn't help but smile, "You don't have to thank me, this is what you deserve."

"However, that's fine. If you are taught by the elders, it's more promising than being a bodyguard by my side." Of course, he actually knew it long ago and knew how things were going to happen.

These old monsters didn't come here for him, but for the girl named Qing Xiao Yi in front of her. Gu Changge had long expected this.

With such a huge amount of Luck, how could she not even be able to enter the True Immortal Academy?

The actions and words just now were to take a look at the changes in this Luck point, and by the way, to make waves.

Although the person with Great Luck was not as good as the Son of Luck, in Gu Changge's view, it was also a kind of leek.

It was just that the way of harvesting was completely different from Child of Luck.

Chapter 270-1: What bullshit similar flower? Rumors say that the Queen is ruthless (1)

Afterwards, several old monsters said something, they left with Qing Xiao Yi and Qing Feng, ready to check their physical constitution and lay their foundations along the way.

After all, neither of them had ever cultivated.

Naturally, Qing Feng was also blessed by his sister and was brought in for cultivation together with his sister, which made many people present envy him. Probably, from today onwards, this little beggar would be transformed into a figure they would not be able to reach.

Soon after, the place returned to tranquility, the immortal mist surged, the mountain wind blew, and the fragrance of Immortal Fruits seemed fragrant.

"Thank you, Young Master Changge, for helping just now."

The old man in white wiped the cold sweat on his head, and thanked Gu Changge with some lingering fears. He almost shut out a great genius just now.

If it wasn't for Gu Changge to plead for him, saying that he did everything according to the rules, he would have been punished by several elders. So towards Gu Changge, he was even more grateful.

"You are welcome, Elder." Gu Changge nodded slightly, not paying much attention to his words.

"The old man's name is Wang Zhongyong. In the future, if Young Master Changge needs anything, he can just send someone." The old man in white smiled and said respectfully.

Gu Changge nodded, and then stopped. He then took Su Qingge and the others to True Immortal Academy.

In his mind, he was still thinking about Xiao Yi. It stood to reason that she had such a physique, and she should not have borrowed from an unknown person before. As long as a cultivator had a little eyesight he would notice that she was very special.

Could it be that there were some secrets hidden in this brother and sister? However, when Gu Changge saw her brother Qing Feng, there was no obvious change in his Luck.

But with such a sister, his Luck should be higher than most of the people present. However, what happened in front of the gate of True Immortal Academy today was just a minor episode for Gu Changge.

Immortal Demon Body, he had vaguely heard this kind of physique, it was said that it had only appeared once since ancient times.

But the only time, it created an Immortal and True King...

This was an incomparably powerful being. Some people said that his cultivation had surpassed that of Immortals and had reached another unfathomable level. The particularity of this physique was that it could integrate Immortals and Demons, reverse Yin and Yang, and break through Reincarnation.

Even if a person with an Immortal Demon Body had never cultivated, his body would be nourished by various substances between heaven and earth, far exceeding that of ordinary cultivators.

As for this reversal of Yin and Yang, Gu Changge felt that it was related to the reversal of life and death, and it might also be to reverse the years and the innate nature.

In short, he first kept an eye on Qing Xiao Yi. And soon, the fact that Gu Changge came to True Immortal Academy soon spread from the mouths of many young geniuses at the mountain gate, causing quite a stir.

As for the Qing Xiao Yi and Qing Feng, although many people paid attention to them, they were far from causing a major earthquake like Gu Changge. Although he was not the first cultivator to arrive, he was very noticeable because of his status.

Before that, there were rumors that Gu Changge was one of the top ten candidates. His strength, in the eyes of many people, could even overwhelm the other major candidates.

For a time, all the peaks and immortal islands of True Immortal Academy were alarmed, and many young existences showed up, planning to come and see his true face.

The terrain of True Immortal Academy was very vast, the islands were in the sky, and the mountains were ups and downs, like an ancient world that had existed since the beginning of the world.

Whoosh whoosh!

Between the heavens and the earth, divine lights swept across the peaks, all of them were the best of the younger generation, with independent cave dwellings and sacred mountains.

Like some quasi-candidate disciples, they had a large area, surmounting an ancient city.

In the vicinity were all kinds of majestic palaces and mansions where their followers lived. Among them, the spiritual energy of heaven and earth was dense as it fell from the mountains like waterfalls with the phenomenon of Immortal Phoenix, Basalt, Unicorn and so on.

But soon, these people were disappointed because they couldn't not see Gu Changge at the mountain gate. They came while being happy, and returned with a little disappointment.

The realm of the True Immortal Academy was really too big, and no one knew where the other geniuses were before they determined their respective areas.

In order to give geniuses the many opportunities to experience and compete. True Immortal Academy could be said to have made painstaking efforts, and even in the area where one usually cultivated and rested, they had to fight by themselves, the phrase "the strong eat the weak" was more vivid.

On the other side, after Gu Changge left the mountain gate, he went straight to the palaces in the depths of True Immortal Academy. There was a chaotic fog floating there, the sky and the earth were blurred, like a sky tower emerging between heaven and the earth, and it looked very mysterious and ancient.

He asked Su Qingge and other followers to wait for him in place. And he went ahead. Because when he was in Peach Village in the Land of Immortal Abandonment, Taoyao gave him a token, saying that it could solve his Demon Heart problem.

After Gu Changge accepted it, the Old Guy Taoyao had mentioned that owed her favor was in True Immortal Academy, so that Gu Changge could come to him when he arrived.

For Gu Changge, there was no need to think about the question of the Demon Heart at all, so what he cared about now was how to use this favor. Although Taoyao's state was problematic and her memory was incomplete, the kindness she mentioned was at least what she owed when she was at her peak.

The origin of this old guy in True Immortal Academy should not be too simple. And soon, Gu Changge's figure passed through many sacred and ancient mountains, and arrived at a lonely peak in the void.

No one stopped him on the way. Now in the entire Upper Realm, not many people didn't knew him. This place already belonged to the forbidden area of True Immortal Academy, and usually only the Elders would come here.

Gu Changge's figure fell from the sky and appeared at the gate of the palace.

It was a very simple palace, covering a radius of nearly 100 miles, but Gu Changge knew that there was definitely a different realm, and it would not be simple.

At the gate of the palace, there were many guards dressed in golden armor and immortal clothes, with swords in front of their knees, guarding this place.

Everyone's cultivation base was in the Great Sacred Realm. When their eyes opened and closed, there were wisps of terrifying divine light as the powerful Sacred Realm aura would converge every inch of space.

"Young Master Changge?" Seeing Gu Changge here, they were a little surprised, but they didn't have any hostility.

Obviously, they already knew what monsters would come to this generation of True Immortal Academy. It was rude to say that the young man in front of him was one of the strongest beings in the True Immortal Academy's generation, and even some Elders would not dare to pose in front of him.

Therefore, their attitude towards Gu Changge was very respectful.

"I came to find an Elder." Gu Changge nodded slightly, speaking concisely.

These few guards did not dare to stop him and let Gu Changge go.

In the hall, there was a deep and vast expanse, as if entering the boundless universe, the galaxy was falling, the universe was intertwined with chaos surging!

In the central position, there were many books with glittering divine light on the desk, divine books made of silver and gold. Several old guys with very old faces, blurred faces and chaotic energy, were discussing something.

Suddenly, an old man with a fluttering Dao robe and an immortal style, raised his eyebrows slightly, and seemed to sense something.

"What is this guy doing?" His expression was slightly unnatural.

"What are the seniors talking about?" An old man with a pair of dry Dragon horns on his head beside him was stunned for a moment, a little puzzled, and was still reading an ancient book in his hand.

"That guy from the Gu family, what is he doing?"

However, the old man in the Dao robe looked slightly uncomfortable, and snorted coldly, "This guy will not be peaceful no matter where he goes."

"According to the rumors, the gentleman of the Gu family has a gentle and elegant temperament. How did he fall into the mouth of a fellow Daoist?"

"Could it be that the rumors are wrong? But that's right. After all, when he was a child, he was able to dig the bone of his sister from the same clan, and he didn't necessarily have a bright heart."

The other old antiques also looked a little surprised, and then nodded slightly. They still respected the old man in the Taoist robe, and they were even more convinced of these words.

At this time, Gu Changge's figure appeared at the door of the main hall.

He stepped in, smiled slightly at the group of Elders in the middle, and saluted, "Disciple Gu Changge greets all the Elders."

Now that he entered True Immortal Academy, he was naturally a disciple of True Immortal Academy.

The few old antiques in front of them came from all over the Upper Realm. Although he was not familiar with them, if he called them Elders, they would not blame him for trespassing.

"Not bad, such a cultivation base... According to the rumors, there are quite a few deviations."

"What are you here for?"

At the moment, the eyes of the old guys looked very peaceful, and they carefully looked at Gu Changge.

Afterwards, he found that a layer of mist-like aura gradually emerged from his body, and the whole person seemed to be standing in another world.

Suddenly, even they couldn't see through. This method surprised them a little. After all, they were the real Supremes, and they were even those close to the Quasi-Emperor Realm.

Chapter 270-2: What bullshit similar flower? Rumors say that the Queen is ruthless (2)

However, they did not bother and did not continue to investigate. Gu Changge was the young master of the Ancient Immortal Gu Family.

If he didn't have any ability or divine weapon, he couldn't justify it. It was normal to hide his breath and block others' perception.

"Great Elder, long time no see, your complexion is much better than before." At this time, Gu Changge looked a little surprised, as if he just noticed the old acquaintances.

The Great Elder of Heavenly Dao Immortal Palace was also here. That look still disliked him very much.

"As long as you're not in front of the old man, why will the old man look bad?"

The Great Elder snorted coldly, and Gu Changge poked at his scar as soon as he came. When he was in Heavenly Dao Immortal Palace, Gu Changge was not less angry with him.

He still remembered that the day Gu Changge left Heavenly Dao Immortal Palace, he even came to the top of the mountain where he was, and told him that he still owed him a favor, for fear that he would not accept it later.

"What does the Elder want to say about this? As the heir of the Heavenly Dao Immortal Palace, Changge asked himself whether he did anything wrong to the Immortal Palace."

Gu Changge said calmly, "In the Ancient Immortal Continent, I even helped Heavenly Dao Immortal Palace to unify the Ancient Immortal Clans and realize the peace and tranquility of the Ancient Immortal Continent..."

"Don't say it, in front of us, there's no need to go around in circles."

The Great Elder hurriedly waved his hand, with a look of "If you talk too much, I will drive you out of the palace".

He was the one who had seen Gu Changge's shamelessness the most. Although he really admired Gu Changge, his shamelessness and unwilling to suffer any loss really made him helpless.

However, he was also the heir of his Heavenly Dao Immortal Palace, and now he had come to True Immortal Academy to serve as an Elder.

Gu Changge would naturally take care of him. Moreover, he also heard that this time the Gu family sent three Ancestor-level figures, and it seemed that they were about to arrive at the True Immortal Academy.

The other forces all sent Ancestors.

As a result, they were the only ones who came from the Gu Family, who were still very old. He didn't know what age they were. It seemed that he was afraid that the younger generation of the Gu family would suffer in True Immortal Academy.

"Haha, the relationship between Senior and Changge seems to be pretty good."

"Yeah, it's rare to see a senior talk to a junior like this." Several old antiques in the hall couldn't help laughing when they saw this, and they respected the Elders very much, with the tone of a junior.

The way the Great Elder and Gu Changge spoke now made them a little surprised, and even envious.

"After all, when the Great Elder was in Heavenly Dao Immortal Palace, he cared a lot for the younger generation." Hearing the words, Gu Changge still smiled and said, gentle and elegant, as rich as jade.

"Good relationship, tell me, what did you come to see us this time?" The Great Elder snorted coldly and spoke concisely, knowing Gu Changge's character of going to the Three Treasures Hall for everything.

"Actually, Changge came here to find someone from the Elders."

Hearing this, Gu Changge's expression turned slightly positive, "I just don't know if you guys know each other?"

After that, he took out the token Taoyao gave him. This was a crystal clear Peach Leaf, intertwined with laws and order, and there were even various avenues flowing on it.

"This is....."

"Leaving the existence of this Peach Leaf, the cultivation base is unfathomable..."

Seeing this thing, the expressions of many old antiques in the hall changed a little, and they were a little dignified.

"Is this the mysterious Peach Tree behind Xian'er?" The Great Elder's expression changed slightly as he recognized it.

His knowledge was obviously far beyond the rest. He had heard the rumors about the Peach Tree.

Gu Xian'er had never lied to him, and told about all the masters from Peach Village. It was because of one of her masters that he accepted Gu Xian'er as his apprentice.

"This token is related to the Demon Realm. If the person you are looking for is in the True Immortal Academy, it should be that guy."

In the eyes of the Great Elder there existed a little doubt, and it was not clear why Gu Changge was looking for it.

"Oh? Then I hope that the Elder can take me there by the way." Gu Changge raised his eyebrows slightly, but things were going well, and the result was so soon.

He thought he would ask for a few more days. But this was also good, and saved a lot of trouble.

"That guy has a quirky temperament, if you are not someone from the Demon Realm. You should think twice?" The Great Elder shook his head slightly and looked at Gu Changge, "Don't blame me for not reminding you first, if you get kicked out later, the old man won't help you."

"That's fine." Gu Changge didn't care, this token was given by Taoyao, saying that the other party owed her favor.

Unless the other party didn't give Taoyao any face, he would definitely meet him. Afterwards, the Great Elder waved his sleeves, the space in front of him blurred for a while, and the two figures disappeared instantly.

When he reappeared, he was already in front of an emerald green lake. Immortal fog was dense, tender grass was green, and many auspicious beasts appeared in the distance. Drinking water by the lake in a very natural manner.

In front of the green Lake, a half-human-high rock fell there motionless. It didn't have any acupuncture points, it didn't accept the stars of heaven and earth, it was very ordinary, and there was nothing strange about it.

However, Gu Changge felt that the rock was not simple at a glance. Among them, there was a surging vitality like a vast sea of stars, which was silent, and there was no movement.

Like the hardest stone in the universe, even if it experienced thousands of calamities, it would not be damaged in the slightest! Beside this rock, stood a slender woman in a wide Phoenix robe.

The woman had her hands back, her facial features were beautiful, her eyes were deep and calm, and there was a little red makeup between her brows, which made her look more bewitching.

But there was more grace and dignity, like a queen who commanded the heavens. She looked at the two people who had suddenly come here, but she didn't open her mouth, her eyes were thoughtful and strange.

"Fellow." After the Great Elder brought Gu Changge here, he did not look at the woman.

Instead, he bowed to the stone and said lightly, "Is this token related to you?"

Saying that, the Peach Leaf lightly fell towards it. And Gu Changge's eyes also swept over the woman, and he didn't care.

He frowned slightly, always feeling that this rock was strangely familiar, as if he had seen it before.

At that time, when refining the source of Absolute Heavenly Extinction. Fragments of memory flashed through his mind.

On the top of the mountain, the little girl in red was practicing swordsmanship, watching by herself, sitting on... this stone?

But it wasn't as old as it was today.

"..."

For a time, his expression was a little inexplicable. Logically, the Demon Lord's vest had no direct connection with him, Gu Changge.

Many memories were vaguely emerging. If this rock had memory, it should not be in such a silent state, it seemed to be damaged.

Although unlike Taoyao, it was not complete. Gu Changge felt that his vest seemed to have left a lot of mess, maybe this rock had some cause and effect.

However, he did not make a sound and chose to deal with it randomly.

Buzz!!

And soon, as Peach Leaves fell, there was a soft trembling sound. This deadly rock moved for a moment, followed by a terrifying aura that permeated and intertwined from it.

An astonishing demonic energy, as if to cover the sky, and the whole universe was in turmoil. Faintly, it seemed that there was a Great Demon who wanted to wake up and cause chaos.

However, this aura arrived and disappeared quickly. This rock was shrouded in a layer of black light, and then changed into a little old man with a hunched waist, a dark complexion and a dull expression.

He took the Peach Leaf in front of him and looked at it carefully, his plain face suddenly changed, and became a little happy.

Then, he couldn't help but murmur, "Old friend, did you make it through?"

Speaking of which, he seemed to have a splitting headache.

"I can't remember anymore..." He sighed and looked at Gu Changge in front of him, his pupils suddenly sank, he couldn't help but take a few steps back, and couldn't believe his eyes.

"The Demon Lord isn't dead yet?" He almost blurted out the words. Immediately, his face turned pale with shock, and his originally dark face turned a little pale.

"Master..." The expression of the woman in red also changed suddenly, and she didn't understand why her Master suddenly did this.

She looked at Gu Changge again, and had already vaguely guessed his identity in her heart. With such a cultivation, there were probably not many of the younger generation today.

And the Great Elder, who had been staring at the dark old man with a vigilant expression, also changed his expression drastically. Because of the word Demon Lord, he felt a great shock.

He couldn't help but look away and his eyes landed on Gu Changge. The existence of the taboo of the Demon Lord was no stranger to them. Even if the world was wiped out, they could find the mark left by it in the long river of time.

Even at his level, his mind couldn't help but tremble. This was a kind of terror and heart palpitations that didn't know about its deeds, but he could feel it just by these two words.

Because of its existence, and even its actions, it had deeply affected this piece of heaven, earth, time and space, and affected all heavens and ten thousand domains.

Recite the real name, and feel it in your heart. The higher the level of life, the deeper the fear that could be perceived.

"What do you mean?" The Great Elder asked in a deep voice.

"It turned out to be a similar temperament, and that thing, no wonder..." The dark-skinned old man, staring at Gu Changge at this moment, calmed down and said to himself.

"If there are really similar flowers in this world, it is impossible for my master to appear on him."

"Ugh....." The dark old man's expression became more and more calm, ignoring the words of the Great Elder.

He asked Gu Changge, "The old man's name is Lao Shi, I don't know what the young master is called?"

Gu Changge, who had always looked at ease, replied calmly at this moment, "Gu Changge."

In his heart, it was actually not as peaceful as it appeared on the surface.

Just now, the dark old man blurted out the moment when the Demon Lord was still alive. Gu Changge felt a terrifying chill that enveloped his whole body.

Even his Great Dao treasure bottle could not help but emerge from the spirit sea, intertwined with terrifying black light, intending to contend. But this aura disappeared soon.

Therefore, there was a faint guess in his heart, combined with the memory fragments that emerged in his mind since this period of time.

'I am the Demon Lord.'

At that time, what he did was probably not very different from the life that Yue Mingkong experienced. Logically, the old stone in front of him shouldn't have such a big killing intent and cold aura towards him.

The only possibility was that his current state was likely to be caused by himself. And what kind of favor did Taoyao owe her?

The blood revenge was a bit vulgar, maybe it was the kindness that blocked the attack in the first place. Of course, all of this was just Gu Changge's guess. The Red-clothed Witch, Taoyao, the old stone in front of him... should all have a lot to do with his Demon Lord vest.

It made him feel that things became intriguing.

Chapter 270-3: What bullshit similar flower? Rumors say that the Queen is ruthless (3)

"Gu Changge? Sure enough, it's him!" The look of the woman in the phoenix clothes was somewhat clear.

"Gu Changge? So it's you? I hope... it can reflect a similar flower."

"If that's the case, it's reassuring." Lao Shi was stunned again, saying what the woman in red and the Great Elder couldn't understand, but sighed, "Did Taoyao ask you to come to me?"

"Yes, Taoyao said that you might be able to solve my physical problems." Gu Changge answered truthfully, but there was no abnormality in his expression.

The other party's name for Taoyao was Taoyao, so it seemed that his guess was not wrong. There were many problems with Taoyao and Lao Shi's memory.

Otherwise, there would be no misnomer. At this moment, the Great Elder also remained silent.

Gu Changge was born with a demonic nature, he knew it. And the old stone in front of him was obviously a Demon, so why did he have such a great demonic nature?

Could this be the reason why Gu Changge came to look for him?

"Actually, I'm not very clear about this issue... The Peach Demon may think that I was not controlled by the Demon after being soaked by the Master's heart and blood. But that's just luck..."

"By the way, with Taoyao's current state, she shouldn't be able to remember anything."

Lao Shi laughed at himself, "You can't rely on others for this, you can only rely on yourself, and no one can help you."

His voice was very ruthless, born with a demonic heart, how many times had it appeared in this world? But without exception, there were no good endings, and they ended up ominous.

"Master?"

The shock in the Great Elder's heart was even deeper. *The old stone in front of him called him master? How does that exist?*

How did Gu Changge have anything to do with him? Similar flowers?

At this time, even his heart was full of doubts. Obviously, the origin of Lao Shi was even longer than him. Although the Great Elder claimed to have lived a very long life, the years were long.

But only he himself knew that his length was not worth mentioning in front of the old guy who had survived across the epochs at every turn.

The era of the Demon Lord? How far was that? No one could tell, that was a chaotic, unrecorded ancient history.

Gu Changge looked calm, nodded, and didn't say much. What Lao Shi said was actually exactly what he wanted to hear. He didn't need to solve the problem of the demonic heart, all he wanted was the favor of this old stone.

What kind of shit was similar to a flower, the Demon Lord was basically his vest.

Of course, Gu Changge won't say this. According to the current situation, apart from Taoyao, the old stone in front of him, and the red-clothed witch who was about to bury herself, all had deep feelings of hatred for him.

Lao Shi regarded him as a similar flower, so he didn't make a move. But according to the system prompt, the witch in red would not.

That was the Demon whom she wanted to seek her revenge on! However, Gu Changge was not worried that Lao Shi would dare to do something to him. With his current status, unless Lao Shi had nothing to worry about and wanted to die, he planned to pull him down with him.

"Senior, have we met before?"

At this moment, Gu Changge's mind flashed with many thoughts, but his face was calm and asked, "Why do you give me a sense of familiarity?"

"What?" Lao Shi's face changed slightly, and he was a little surprised.

He frowned and asked inexplicably, "Familiarity?"

"When I was cultivating in the family, for some reason, the younger generation always liked to sit and practice on some blue stones... But those bluestones were not very satisfactory."

"The Fang Qingshi that I found at the end was very similar to the original shape of the senior just now."

Gu Changge's face also showed a trace of confusion, and then said, "That's why it's familiar."

Hearing Gu Changge's words, Lao Shi was stunned and was speechless for a long time. He didn't doubt the truth of Gu Changge's words.

Many long and beautiful memories emerged, and finally he let out a sigh, and his mood was extremely complicated. Things in the world had two sides.

One good and one evil, one beautiful and one ugly. If it wasn't for the red-clothed girl and silver-haired man who often sat cross-legged on top of him, how could it give birth to spiritual wisdom?

Compared to those Seven Immortal Stones, the Holy Spirit Stone... it was just an ordinary and uncommon rock.

A peck and a drink were all cause and effect.

"Perhaps, this is the so-called fate." The look of Lao Shi looking at Gu Changge was much gentler for no reason.

In his opinion, the Demon Lord was the evil existence in the world, and the Gu Changge in front of him might be the flower that reflected the similarity on the other side.

"If the young master doesn't mind, in the True Immortal Academy, if you have any business in the future, you can come here to find the old man. In the True Immortal Academy, the old man's words are still somewhat useful."

"If I'm outside, the old man can't help much. Because of the current state of the old man, I can't leave True Immortal Academy..."

Lao Shi then continued to speak and said to Gu Changge. His words not only surprised the woman in red, but also puzzled the Great Elder.

Just because of those words? Does Lao Shi have such an attitude towards Gu Changge?

In his opinion, this was too far-fetched.

"Senior's words... what does it mean?" Hearing this, Gu Changge had a slightly surprised expression, and said puzzledly, "This is the first time we have met."

"It's just repaying Taoyao's favor..." Lao Shi smiled and waved his hand, "You don't need to mind, Young Master."

As he said that, he pointed to the woman in red next to him and introduced her.

"This is the old man's apprentice Xi Yao."

"Oh? So this is the current ruler of the Demon Realm, Queen Xi Yao?"

"The younger generation greets Queen Xi Yao." Gu Changge's eyes seemed to have noticed her, and he was a little surprised.

Of course, he could see that the Empress Xi Yao in front of her was just a dharma body, not a real body.

As the ruler of the Demon Realm, how could she easily leave the Demon Realm. But her Dharma body's strength was at the Quasi-Supreme Realm.

She herself had already achieved the Supreme position. The six thousand-year-old Supreme. This talent could be described as transcendent.

Six thousand years ago, in the chaos of the Demon Realm, the name of Queen Xi Yao spread from the Demon Realm to the Upper Realm, shaking all parties. Then, under internal and external troubles, she fought in all directions, cleared up the chaos of the demon clan, and achieved great unification.

The power of her wrist was far beyond the reach of ordinary women. Since the birth of the Demon Realm, there have existed many Demon Emperors and even Demon Immortals.

But her background was naturally unfathomable, even if it was the Supreme teaching and the Immortal Taoism, they did not dare to provoke her. Six thousand years ago, there were six Demon Emperors in power in the Demon Realm.

Although those Demon Emperors, in Gu Changge's view, could not be the True Emperor Realm, at most they were Quasi-Emperors.

The Luck of the Demon Realm was not enough to support the birth of the six True Emperors. Empress Xi Yao was able to unify the Demon Realm under the difficult situation at the beginning. This method shocked many people.

"Young Master Changge, don't be polite."

"Although I am far away in the Demon Realm, I have still heard a lot of rumors about the young master Changge. When I saw you today, I found that these rumors are really unbelievable."

"In today's world the Luck of the younger generation, the young master of Changge is afraid that he will have seven points."

At this time, seeing Gu Changge say this, Yao Xi couldn't help but smile, looking very graceful, noble and decent. As the Queen of the Demon Realm, she naturally couldn't be as flattering as ordinary women.

But these words were still with a good intention. With her identity and strength, she didn't have to be this way.

But the scene she saw today that even her Master was like this, made her feel very shocked. There were many Dao sects in the Upper Realm, but there were not many of them that could compare with the Demon Realm.

Because the Demon Realm was an independent big world, it was included in the center of the Upper Realm, where Dragon veins converged and Luck was added to the body.

After all, Gu Changge was just a junior in front of her.

"Empress Xi Yao is joking. In the younger generation, there are many people who deserve the Queen's praise."

Hearing this, Gu Changge said calmly, "But before, I heard many rumors about the Queen. What I saw today, I found that these rumors are indeed nonsense."

Seeing him say that, Xi Yao also became interested, stared at him curiously, and asked, "I wonder, what rumors did Young Master Changge hear?"

She also knew that what she did 6,000 years ago was spread by some forces and appeared in various places, causing bad influence.

For example, she was rebellious, murdering her father and poisoning her fiancé, etc...

"The rumors all said that the Queen was ruthless, vicious, and disrupted the balance of the Demon Realm..."

Gu Changge smiled casually.
