

## Villain 271

### Chapter 271: Everyone loves to hear beautiful words, It seems like the King was born late

Listening to Gu Changge's words, Xi Yao's expression was still very calm, including the old stone beside her, who seemed to be unconcerned.

Although the events of 6,000 years ago were widely circulated, until now there were still many bad rhetoric rumors in various places. But apart from the powerhouses in the Demon Realm, who knew what actually happened?

Many rumors from the outside world had more or less discredited Xi Yao, which is also normal. They all naturally heard what Gu Changge said.

"Oh, I wonder what Young Master Changge thinks about these rumors?" Empress Xi Yao's eyes were very crystal clear and filled with divine light.

She looked at Gu Changge. Although it was only a Dharma Dao body, it also had the temperament of being in a high position and overlooking everything.

A Queen that was ruling the Demon Realm, and no one dared to disobey. If an ordinary young genius was seen by her like this, he would have been panicked long ago.

"The younger generation thinks that these rumors are all nonsense, and this is my opinion." But Gu Changge still had a calm smile, staring at her as if he didn't have to explain anything.

"Young Master Changge, what does this mean?" Xi Yao was slightly taken aback.

She was a little puzzled, and then carefully recalled his words, *all nonsense?*

If it was an ordinary young genius who said that, she would definitely take it as a flattering remark, and would not take it seriously. But these words came from Gu Changge's mouth, so it was different, and it was a bit unfathomable.

*Did he see something? Or did he understand my good intentions?*

To be honest, she was attracted to Gu Changge. If others didn't finish talking like this, she would have been impatient and slapped him to death.

How could she keep asking? At this time, even the Great Elder and Lao Shi looked at Gu Changge in surprise when they heard this.

Xi Yao's reputation in the Upper Realm was actually not good now, which had almost become common sense. Especially, the current younger generation had definitely heard of the chaos in the Demon Realm.

The most talked about was that Queen Xi Yao's generation was tyranny, her character was cruel, and she killed innocent people, so the people of the demon race were not living well.

The big demons from all over the Realm had united and rose up to resist. This also had the existence of characters such as the King of Peace and Chaos in the Demon Realm today, who could be called the executioner of Queen Xi Yao, with a sharp blade that nothing could break.

There were countless rumors. At this time, the eyes of the three people fell.

"Actually, before, the younger generation always felt that Queen Xi Yao was a tyrant who did all kinds of evil, and all the creatures in the Demon Realm were deeply affected by her." Gu Changge smiled slightly and said again with a calm expression.

At the same time, he looked directly at Xi Yao and saw that her expression changed slightly. He continued to smile again and said,

"But after thinking about it carefully, no matter what Dao lineage or Ancient force it is, how long it exists, how old it is, one thing will not change..."

"It won't change?" Xi Yao stared at him, trembling slightly in her heart, and said these four words carefully.

She felt a little unbelievable. Could it be that Gu Changge's idea coincided with her at that time?

Gu Changge nodded, "Yes, one thing will not change. That is, if they want a change, they have to pay, and this is the price that cannot be changed."

"Six thousand years ago, the six Emperors of the Demon Realm stood on top of each other, and wars and turmoil began. It was the common people who were struggling to survive. It was even more common for people to sell their sons to get something to eat."

"If the younger generation remembers it well in the Demon Realm, the territory was under the jurisdiction of the Emperors. The words of the demon clan were not the same. In order to survive, it was normal for the same clan to eat each other... There were all kinds of things happening in the Demon Realm. If you want to live forever, it's not difficult, but if you want to go further, it's almost impossible."

"The Great Demon Emperors rest on their laurels and cannot change. They only care about cultivation, occupying high positions, and disregarding the common people. If things went on like this, they would flourish and decline, and the fortunes of the Demon Realm would be exhausted."

"And after six thousand years of turmoil, the current Demon Realm would have evaporated, and after the realization of unification, the four corners became peaceful, the Demon Realm now lives in peace, all the demon clans have the same intent, cultivate humanism, and many other changes... What's the point? It was all the credit of Empress Xi Yao from the beginning."

"Everyone in the world is ignorant. It is only about faults and no merits. In the eyes of the younger generation, this is actually unfair to the Queen."

Having said that, Gu Changge's voice was still calm and did not change much. It gave the impression that he was simply stating a truth, a fact.

"Everyone is ignorant? The Master said this at the beginning..." After hearing this, Lao Shi was stunned, speechless for a long time.

Gu Changge's words even echoed in his mind. Although his cultivation base was high and his life span was infinitely long, in the chaos of the Demon Realm, he as the Master was behind her, and he actually helped Xi Yao a lot.

Even though he actually didn't understand Xi Yao's actions very well. For so many years, although he had thought about the reason, he couldn't figure it out. And although Xi Yao often came to see him, she did not mention the reason why she did so.

This puzzled Lao Shi. Today, Gu Changge's remarks unceremoniously made him find the bottleneck, and he thought of his Master to solve his doubts. The feeling of seeing the green hills when the clouds and mist spread out.

"It turned out to be that reason... I really didn't expect that, this old man is still really blind." For a while, Lao Shi felt extremely complicated.

Except for Gu Changge, it was estimated that no one would think this way.

"This guy's views are always very different from ordinary people's, but this explanation should be very close to what Xi Yao thinks..." The Elder also sighed with a complicated expression.

Looking at Xi Yao's deeply resonated and stunned expression, he knew that Gu Changge's remark was actually expressing Xi Yao's heart.

"Regardless of deeds or merits, all people in the world are ignorant..." Xi Yao, who was silent for a long time, suddenly smiled at Gu Changge, and there was a different look in her eyes.

For a time, the sky seemed to be brighter, and compared to her polite gesture at the beginning, her smile now clearly had sincerity.

"Young Master Changge said this, are you scolding those people for being stupid for me?"

She smiled slightly, and continued with a bit of intimacy, "After so many years, I never thought that Young Master Changge would be the first person to understand me. Before that, I never thought that someone would think like me."

At this moment, she actually had a feeling of meeting a confidant in a junior like Gu Changge. For more than 6,000 years, he was the first person to understand her painstaking efforts, which touched Xi Yao's heart a lot, it was unbelievable, like a dream.

Seeing Gu Changge today seemed to be destined. Even the closest female official around her could hardly understand her actions and countermeasures.

Everyone in the world said that she was cruel, but they never thought about what she had done for the Demon Realm.

Now that the Demon Realm was peaceful, the whole world was peaceful and prosperous, how much thought had she spent on this? And Gu Changge bluntly explained this and even scolded those ignorant people for her.

This made it difficult for Xi Yao's heart to calm down. The smile on Gu Changge's face remained unchanged, and he continued, "Perhaps it is because the Queen is in a high position, and no one dares to speak rashly not to mention the judgment from the later generation."

"A comment from later generations?" Hearing this, Xi Yao was stunned again, staring at Gu Changge with a little curiosity, "Oh? If I let the young master of Changge speak, how would he feel?"

As soon as she said this, Xi Yao felt a little regretful. After all, judgment on this kind of thing varies from person to person. Why didn't she ask her Master or the others, but she had to ask Gu Changge?

After all, this was the first time the two of them had met, and it seemed that she was too rude. As a Queen of a generation, she cared too much about gossip, and she inevitably lost her dignity.

Xi Yao didn't know why, but she suddenly cared about Gu Changge's opinion of her. In fact, at this time, not only Xi Yao, but Lao Shi and the Great Elder were also curious and wanted to know how Gu Changge would comment on Xi Yao.

Judging from what he just said, Gu Changge should be able to understand Xi Yao's intention.

"Oh? Let the junior comment?" Gu Changge also seemed to be a little surprised, but he did not refuse, and his expression was a little thoughtful.

Instead, his eyes fell. Then, he said almost word by word, "In the eyes of the younger generation, what the Queen has done may give her the title of an Eternal Empress, and this is the case for the Demon Realm."

"Eternal Empress?"

At this moment, not only Xi Yao was stunned, but Lao Shi and the Great Elder were also stunned. They were very shocked.

Eternal Empress? How high was this evaluation?

Because they knew that what Gu Changge said was not a real reference, but a general reference. This ancient saying was actually not much different from this, both of which highly praised Xi Yao.

"Eternal Empress?" Queen Xi Yao was also muttering these words.

These four words were like a bomb in her mind and they exploded with roars. It even made her feel humming just now.

However, Queen Xi Yao was not a simple person either. After more than 6,000 years of cultivation, her state of mind had already reached a very strong point. So soon, the expression on her face returned to calm.

"The four-character evaluation of Changge Young Master is really too high." Although she said so, she was actually smiling and was in a good mood.

Before, she had met people who were flattering, and she was almost tired of listening to all kinds of bullshit. Moreover, Queen Xi Yao knew that what they said was actually out of fear of her, not just like Gu Changge, who simply and easily explained everything.

After all, Gu Changge didn't need to be in awe of her.

"After all, this is what the younger generation wanted to tell the Queen..." Gu Changge smiled and didn't explain much.

Although he was a junior in front of Xi Yao, he didn't look like a junior at all. There was no fear and respect, it was more like talking to an acquaintance whom he had just met.

Queen Xi Yao didn't care about Gu Changge's tone either. She was used to hearing all kinds of words of awe, and now she found that kind of casual and natural feeling in Gu Changge again.

Just like just now... it was like meeting a confidant.

"Eternal Empress? I didn't expect that I would have such a high level in the heart of Young Master Changge. It's really unexpected." Queen Xi Yao smiled.

Gu Changge said with a calm expression, "Actually, before, the younger generation always wanted to see a strange woman like the Queen. But it's not too late to meet her today."

After all, it was something that could be brushed off with a few words. Naturally, Gu Changge would not refuse. No matter what kind of person, in fact, they liked to hear nice words.

First give an indescribable identity, a decent and elegant conversation, and a few casual compliments, and then arouse the other party's heart.

Even if she was a Queen of a generation, it was impossible to be untouched. And judging from the Luck of Queen Xi Yao, she was also a person of Great Luck.

What she did 6,000 years ago made Gu Changge think of something. With such a huge amount of Luck, he wondered if she would become the Daughter of Luck because of her relationship.

This kind of drama of poisoning a fiancé, let's keep an eye on it first.

"Isn't it too late?" Queen Xi Yao was stunned for a moment, and there was an unspeakable emotion in the expression on Gu Changge's face. Anyway, Gu Changge was just a junior, she was more than 6,000 years older than him.

Although the matter of age was not important for the world of cultivation. But Xi Yao still sighed in her heart.

After so many years, she finally met someone who could understand her, but it was a junior. This made her feel that she was born before the King, and the King gave her the feeling that she was old.

However, this feeling disappeared soon.

### **Chapter 272-1: Was he molested? She didnt even look back once (1)**

At the same moment when Gu Changge planned to get up and leave, after all, his purpose of coming here to find Lao Shi had been achieved. Su Qingge and others were still waiting for him, and he still had unarranged plans.

"Where is Young Master Changge next destination? You know, I used to live in True Immortal Academy, why don't I take you there? You just arrived, so you probably aren't familiar with many areas."

Xi Yao spoke again, with a smile on her face, a graceful and luxurious bearing as she seemed generous, decent and natural.

Gu Changge seemed stunned for a moment, then he shook his head and said with a smile, "This is just a trivial matter, so I will not bother the Queen."

Empress Xi Yao insisted while smiling, "This trivial matter is not troublesome."

"If that's the case, then I'll have to trouble the Queen. I'm really flattered that the Queen is willing to lead the way for the younger generation." Gu Changge's figure was tall and straight, his white clothes were not stained with fine dust, and he smiled a little helplessly in an otherworldly manner.

Empress Xi Yao was standing beside him, which made the Elders and Lao Shi look a little weird.

Why was it so awkward, yet so harmonious?

Then, Empress Xi Yao waved her jade-like hand, and bursts of immortal light spread out in front of her eyes, followed by an immortal aura that surged from beneath the feet of the two as they left the place.

With the ascending breeze, the light and shadow underfoot changed, and the mountains disappeared.

The green lake looked like an emerald while the mountains and rivers were like jade belts. And farther away, the chaotic fog shrouded everything as the heaven and earth were filled with aura, just like a paradise.

Various rays of light in different spectrum intertwined, rushing out from various mansions as they shone on the sky emanating a terrifying aura while piercing the clouds.

This was a vision caused by young monsters and freaks from all over True Immortal Academy when they cultivated.

Gu Changge and Empress Xi Yao stood side by side.

There was a faint fragrance on the tip of their nose, like an orchid or musk deer. It gave people a feeling of elegance and cleanliness resembling that of a clear spring flowing under the iceberg of nine days.

It was clear and cool, but also had a touch of charm.

"Why don't you tell me, Young Master Changge?" Queen Xi Yao smiled and said, "If you don't tell me, I won't know where we're going."

Hearing this, Gu Changge seemed a little helpless, and sighed slightly, "Does the Queen know what sitting in the arms mean?"

"Are you in a mess?" Empress Xi Yao was a little taken aback, why did Gu Changge suddenly say this? But soon, she realized the meaning of Gu Changge's words.

The look on his face made her even more interested. Was she molesting Gu Changge?

Gu Changge meant that he was trying to calm herself, and the reason why he didn't speak was that he was afraid that he would not be able to calm down.

*Why can't you stay calm? Is it because I a, so close to him?*

To be honest, this was the first time in more than 6,000 years that Queen Xi Yao had been so close to a man. Even her fiancé who was poisoned by her had never been so close to her.

Queen Xi Yao didn't know why this was today that she would take the initiative to lead the way for a junior like Gu Changge.

"Sit in a chaotic manner, that is to describe a gentleman. Although the younger generation is confident and magnanimous, he also knows that he has nothing to do with the gentleman. The Queen should stop torturing the younger generation." Gu Changge still said calmly.

This made Empress Xi Yao couldn't help but want to laugh, but she still held it back. Was Gu Changge telling her to stay away from him? But on the other hand, it was to say that she was very attractive.

It was a pretty neat excuse. As an Empress, Xi Yao was also a woman, so she naturally liked to hear these sweet words.

"Young Master Changge..." She was about to speak, when Gu Changge interrupted her again, "The Queen should call me Changge in the future, otherwise I'll always feel quite raw."

".....it is good." Queen Xi Yao was startled again, and strange emotions rose in her eyes.

She didn't understand what Gu Changge meant. However, she still looked at him seriously, then nodded. She suddenly found that her words and deeds seemed to be led by Gu Changge all the time, completely out of her control.

"Changge... What do you think about the pattern of the Demon Realm you mentioned before?" At this moment, Queen Xi Yao suddenly spoke again and asked a question that had been a headache for her recently.

This was also the reason why she came to True Immortal Academy to find her Master, and ask his opinion. But after hearing Gu Changge's words, she felt that Gu Changge and she were the same kinds of people, and suddenly wanted to hear what he would say.

"The pattern of the Demon Realm?" Gu Changge seemed a little surprised to hear that.

He didn't know everything, and the previous words were not because he was a transmigrator but it was in some views from his previous life.

Bullshit. He didn't know anything about the Demon Realm. However, at this time, he suddenly remembered something and felt something intriguing in his heart.

But on the surface, there was still no abnormality, and he casually said, "The Queen's headache should be the remnants of the Five Emperors, right?"

"After all, the Demon Realm has been passed down to this day. The original six Emperors, except the Youyue Demon Emperor, did not know the whereabouts of the other five Emperors. Are the forces behind them showing signs of recovery recently?"

What he said was actually just speculation. He had heard about things happening in the Demon Realm, but he didn't know much.

"Signs of recovery? There are indeed signs of recovery recently. The chaos is far more than before." Queen Xi Yao nodded, she didn't hide anything about the secrets of the Demon Realm.

In her opinion, Gu Changge, as the young master of the Ancient Immortal Gu Family, would take over the Ancient Immortal Gu Family in the future, and he was bound to rule the boundless territory.

His power would only be far above her, the Queen of the Demon Realm!

"The signs of recovery may point to many things. In the eyes of the younger generation it should be due to some reasons. The Queen may wish to check carefully. Among the remnants of the year, which ones are not dead, and which ones are the biggest obstacles and have hatred for you. Maybe the five Emperors may have left something behind..."

Gu Changge said calmly.

"The Five Emperors?" Empress Xi Yao frowned, "If it's really caused by them, it's very likely, it's just the descendants of the five Emperors, and I'm close to solving that."

At this time, in Gu Changge's heart, the system's prompt sound suddenly sounded.

"Ding, trigger the random quest Luck event, Return of the Demon Emperor's Son."

Hearing this tip. Gu Changge was also stunned for a moment, this was a bit sudden, right?

Could it be because of what he said to Queen Xi Yao just now? After all, before this, the system might not have prompted it at all.

### **Chapter 272-2: Was he molested? She didnt even look back once (2)**

However, the Demon Emperor's Son suddenly returns? Interesting.

He immediately thought of the fiance that Queen Xi Yao had poisoned to death 6,000 years ago. Apart from this routine, there should be nothing else, right?

So now the Demon Emperor's Son wanted to take revenge on Empress Xi Yao. But what he said just now, by accident, reminded Queen Xi Yao. This cause and effect was there, and it triggered a random mission.

Thinking of this, Gu Changge's expression had a flash of playfulness, but it quickly returned to normal. He looked at Queen Xi Yao who was thinking, and said softly,

"The Queen might as well go and check to see if the original enemy has been wiped out. Some calamities can often be easily concealed. When you don't know it, it spreads like wildfire..."

He did not mention such a thing as rebirth.

*That would be way too obvious. Would Queen Xi Yao believe it? On the other hand, it would cause her unnecessary doubts.*

It seemed like this newly-appeared Son of Luck was inseparable from the Luck of the Demon Realm. Queen Xi Yao nodded and was a little thoughtful.

.....

Afterward, Gu Changge, Su Qingge, and others joined together.

After Queen Xi Yao brought him here, she left. Gu Changge's words touched her a lot, and she needed to go back and make arrangements.

"Young Master, this woman just now..." Su Qingge was a little surprised and felt a kind of imperial pressure.

That was another kind of pressure that was completely different from Yue Mingkong, but it was also in a high position.

"Queen Xi Yao of the Demon Realm." Gu Changge said casually.

He also didn't know what Queen Xi Yao thought about her fiancé, and he was not in a hurry for some things. Leeks naturally had to be harvested after they had grown fat.

If this newly-appeared Child of Luck was a simple rebirth scenario, it didn't really matter much. Gu Changge even killed the Human Ancestor.

He didn't need to care much about a small rebirth and revenge scenario at all. Now that Queen Xi Yao was going to explore the way first, he could also know what meaning this Son of Luck had.

Soon, an Elder from True Immortal Academy came and led Gu Changge to the area where the Candidate Disciples were located.

Candidate, Quasi-candidate, Inner Door, Outer Door.

True Immortal Academy had arranged different cultivation areas for the disciples of each level. As a Candidate Disciple, the location of Gu Changge's area was naturally the best, with a radius of almost ten thousand miles.

With endless ancient mountains, ancient immortal trees, and steaming clouds that were full of spiritual energy. Looking around, the palaces were built in pieces, rows upon rows, like the Immortal Palace that was covered by one side, it looked majestic and magnificent.

As for the immortal birds, auspicious animals, and holy medicines, there were countless more. Even among the Candidate Disciples, there were few people in the area where he was now.

Gu Changge asked Su Qingge and many other followers to choose their own palaces. His figure quickly left this place. Because Gu Changge had sensed the aura of his scapegoat, Prince Ying, that guy really came to True Immortal Academy.

When he let him go, the main purpose was to use him as bait to draw out the forbidden demonic organization hidden in the dark. Gu Changge didn't know much about the origin of this organization. If it could be used by him, it would be best. If it couldn't, then there would be no need for it.

The presence of such an organization would most likely affect some of his subsequent plans. Gu Changge's arrival at True Immortal Academy had already spread in the blink of an eye.

Hearing this news, many young geniuses had different expressions.

In the current younger generation, if anyone didn't know Gu Changge, he would be ridiculed by others. One could know how important Gu Changge was in the hearts of his peers.

Even among the other ten major candidate disciples, no one dared to underestimate Gu Changge. At this moment, in a mansion filled with purple air and divine light.

A young man with his hands on his back, dressed in a purple robe, with a crack between his eyebrows and was whispering to himself,

"Junior Sister, I am waiting for you at True Immortal Academy. In my previous life, I kowtowed in front of the Buddha in every possible way, but I couldn't get you to look back once for me."

"In the past, you refused to stop your footsteps chasing the Great Dao... I also refused to stop my footsteps chasing you. If my reincarnation of this life is fate, then between you and me, only one of us is bound to live."

"You refused to look back for me, that will be the biggest regret in your life."

"I just don't know if it is your Dao bone after Nirvana that is better, or my Hongmeng Dao bone, which is unparalleled in the world!"

Although his words were light, there was a sense of unwillingness and hatred. A rich purple aura wafted around his body, and it was like a large piece of Hongmeng fog, like an ancient universe.

The robes were embroidered with stars, sun, and moon, as if they were turning at any time, making a rumbling sound that the world trembled, with a vigorous and terrifying breath of terror.

### **Buzz!!**

Suddenly, a light appeared in the crack between his eyebrows, and then his third eye opened, and the void in front of him became foggy.

And a horrific sight emerged in it. This kind of celestial vision was extremely terrifying, and the moment he casted it, there was lingering purple energy and faint signs of time flashing.

Some fragmented pictures appeared in his eyes. It was a dark and inexplicable dungeon. It was very vague. Inexplicably, his heart trembled slightly.

In this cold and damp underground cage, a beautiful and unparalleled woman in blue clothes was covered in injuries, her limbs were penetrated by chains and hung on the wall.

Her expression was very stubborn, cold, determined, and hateful... In front of her, a young man was expressionless, holding a dagger to draw blood and filling a stone bowl in his hand.

Then, in front of the woman, he raised his head and drank it.

"The smell of blood has faded." The purple-robed man just heard such a vague and seemingly unclear sentence.

Immediately afterward, his eyes darkened, his mind seemed to explode, and then his eyebrows split open with blood stains appearing in them.

His complexion turned pale, hurting the origin. It was extremely difficult to use his current ability to spy on future fragments with the help of the Heavenly Eye of Immortal Dao.

But there was still a faint hint of her.

"How is this possible....." The purple-robed man was stunned, his fists clenched, and he couldn't believe it.

*Why did I see this shattered picture of the future?*

The woman he once loved and could not find, and pursued the Dao all his life, would have such a tragic ending in this world?

It was hard for him to accept all this. How long had he waited for this life?

He was born with predestined wisdom, accompanied by the bones of Hongmeng Dao, and he was from an Immortal Dao lineage.

Afterward, he self-proclaimed many lives, just to wait for her reincarnation.

### **Chapter 273-1: Destroying eight thousand states with one palm, Qing Fengs mysterious small bottle (1)**

In the cave, divine light bloomed, immortal haze intertwined, and there was a terrifying aura surging. Even the creatures kneeling outside the cave felt the terrifying pressure, which spread out from the cave.

They were pale and shivering as they didn't understand why their usually calm lord was so angry today. Because no matter what time it was, their lord was calm and indifferent, confident that everything was under his control, and he didn't care about anything.

Even if the sky fell, the expression of their lord would not change.

"Could it be that even the lord has encountered some problems? Could it be the one from the Gu family who suddenly arrived recently?"

They were speculating in their hearts. Because before that, their lord would ask about the guy from the Ancient Immortal Gu Family from time to time and was very concerned about it.

So they subconsciously think that their lord was afraid of the descendant from the Gu family. After all, judging from various rumors, that descendant of the Gu family was a bit too powerful.

Although their lord had once overwhelmed the world and won the top place in the Upper Realm. But since then, he never appeared again.

Who knew what the result would be when facing the descendant from the Gu family?

In the cave, the purple-robed man still couldn't believe the result, his eyes were full of disbelief and shock.

"It's impossible, isn't Gu Changge her cousin, how could he do such a thing..."

"I knew that Gu Changge wouldn't be a good person. The way he looks in front of all beings is just pretending. He is an indifferent and heartless person. The so-called digging of his bone to return to his sister was just a joke."

The purple-robed man had also calmed down at this time, and many expressions flickered in his eyes. He didn't doubt his immortal vision.

In the picture he saw, the young man was naturally Gu Changge.

Although the man in the purple robe had never seen Gu Changge with his own eyes, he had also seen his portrait, which was almost exactly the same as the person he saw in the picture.

And in the cold and damp dungeon, the woman in green who was sealed with an iron chain was hanging on the wall.

Wasn't it the little junior sister of his previous life, Dao Xian?

In this world, she should be called Gu Xian'er, the sweet daughter of the Ancient Immortal Gu Family. But when she was young, her cousin, Gu Changge, ruthlessly dug out her bone.

Her childhood was tragic, with twists and turns, and finally, in front of the Heavenly Dao Ancient City, Gu Changge was forced to help her, and he cleared up what happened in the past.

And dug up his Dao bone and returned it to Gu Xian'er. The purple-robed man was born late in this life. When he found out about this, Gu Changge had already returned the Dao bone to Gu Xian'er.

He thought that all these grievances had been resolved. But he never thought that he would see such a fragmented picture of the future today.

He let out a terrible roar in his heart, and it was difficult for him to calm down. He originally thought that this life was a fateful battle between him and Gu Xian'er. In his previous life, she not only refused to look back at him but even broke his hope of chasing after her.

At that time, the little junior sister, how proud she was, pursued the Dao wholeheartedly, with no distractions. Even the Masters of their Masters were finally thrown away by her.

But a sudden world, not only destroyed her, but also destroyed her sect, and naturally also destroyed his junior sister. The purple-robed man didn't even think that he could be reincarnated and reborn. His talent, in the original sect, could only be considered mediocre.

Compared with the dazzling brilliance of her junior sister, he was really far behind. As a result, he was unexpectedly reborn.

The era they once lived in had become an ancient history that no one dared to record. Even if he recalled it now, he couldn't help but be full of desolation, despair, and fear.

On that day, the whole world withered, and even the Immortals who once lived for a long time fell bloody under the halberd that traversed the universe and split the ages.

Thousands of Immortals died, and their Ancestors collapsed. Even the Immortal Palace, which overlooked all worlds and was located in the reincarnation, got destroyed in one day.

As for living beings? Destroy eight thousand states with one palm, leaving no one in nine heavens and ten places.

No one dared to mention that era since then. Even now, he only heard vague words, and then it became a taboo. Years had passed, and many epochs had been wiped out from the blooming of the flower of reincarnation.

And he was reborn. He believed in reincarnation, and even more in his belief that the talented little junior sister would follow him and reappear in the world one day in the future.

How long had he waited for this?

"Why did you end up like this in this life, this is not in line with your character..." Afterward, the purple-robed man gritted his teeth and used the Heavenly Eye of Immortal Dao again.

Although it was only a fragmented picture of the future. But for him, it costs a lot. After using the Immortal Dao Heavenly eyes twice, he probably would not be able to continue to use it again within half a year.

This source of injury was the price of a glimpse into the future, and no one could be spared. In the next moment, the brilliance in front of him became foggy again, and the signs of time flowed.

The complexion of the purple-robed man turned paler. Soon the picture emerged, it was still that cold and damp dungeon. Suddenly, he felt a gleam in his eyes, looking over from the picture of the future.

The young man felt something. He looked up, the corners of his mouth seemed a little interested. The plain eyes seemed to pass through layers of space and landed in front of him.

"Interesting." Hearing this sentence, the purple-robed man felt that his head was about to explode. The third eye between his eyebrows was even more scarred as streams of blood spurted out without showing any signs of stopping.

However, what frightened him the most was that the other party actually noticed him.

**Puff!**

He couldn't help spitting out blood. Although these pictures disappeared quickly, they still left him with lingering fears and trembling.

"Gu Changge is not as simple as it seems, he is a hundred times more terrifying than rumors... How can such a monster appear in this life..." The expression of the purple-robed man became unprecedentedly solemn.

.....

"Brother, all the Elders say that I have an Immortal body, what kind of body is this..."

In a mansion filled with rays of sunshine and immortal mist. The two people, Qing Xiao Yi and Qing Feng, who had refreshed themselves, were talking here.

The two people now had a big difference from the time in front of the mountain gate, they were no longer like the little beggars begging on the street.

Instead, there was a feeling of a great sect disciple, with a treasure glow enveloping their body. It could be said that the effect of the marrow washing and toughening was very good, it swept off all the dust and dirt from their body.

## **Chapter 273-2: Destroying eight thousand states with one palm, Qing Fengs mysterious small bottle (2)**

Qing Xiao Yi was wearing a clean and plain white dress, embellished with simple charms, her skirt flowing with a faint glow, there were various divine chains of laws intertwined, displaying the young girl's innocence and good behavior.

At this moment, she was asking Qing Feng about something, very curious about her physique.

Qing Feng smiled at her words and said, "Xiao Yi you just need to know that your talent is very powerful. You see, all the Elders are rushing to take you as a disciple, if it wasn't for your sake, I wouldn't be able to enter a place like the True Immortal Academy."

"It turns out that the various cultivation treasures we talked about before, compared to the True Immortal Academy, are way too worse. I'm afraid they are not even qualified to compare..... Nowadays even the water we both drink is from a divine spring that has never been seen before and is hard to find outside in terms of value."

Speaking of this, he sighed incomparably, without Qing Xiao Yi, he would really just be a small beggar with nothing now. Not to mention strengthening his foundation, learning the Dao, cultivating, all these things, in the past he would not dare to think about these.

Although he did not have a spiritual root for cultivation, in order to show goodwill to Qing Xiao Yi, those elders purposely transplanted a spiritual root for him.

In a flash, he became a young genius with good cultivation talent. Although in a place like the True Immortal Academy, he was not even comparable to the servants of those geniuses, he was already satisfied.

Without a doubt, Qing Xiao Yi's terrifying talent instantly made her a sought-after, fragrant commodity in the hands of various old monsters. Everyone wanted to take her, even though she was already 13 or 14 years old and had never cultivated before.

This was something that the rest of the geniuses would not dare to think about.

"But brother, I actually don't want to cultivate, the way those Elders look at me, it scares me, I feel like they don't treat me as a person, but like an object."

Qing Xiao Yi sniffed and said with a bit of unease and worry, "For me, I just want my brother and me to live a good life, to eat and not starve, not to be bullied, and then find the cultivator who killed grandpa back then and avenge him."

"The cultivation world is too cruel, I'm so afraid....."

"Xiao Yi, I know you are scared, it's this brother's fault for being incompetent, this brother can't protect you and let you live a carefree life ....." Qing Feng said guiltily.

"Brother, you don't have to say so. In fact, I think, that day in front of the mountain gate, if the Elders did not show up, couldn't we follow young master Changge? Young Master Changge is so nice, at that time I felt that he was the only one who looked at us in a normal way, and did not want to look at us like the rest of the people like two monkeys."

As Qing Xiao Yi said this, her voice twisted and lowered, and seemed a little shy. The young girl was thirteen or fourteen years old.

That day, the only one who stood up for them to relieve the situation was the man who should be high up, untouched by their world.

This made Qing Xiao Yi always feel like a dream. During this period of time, that scene kept appearing in Qing Xiao Yi's mind. If no Elders appeared, perhaps she and her brother would be the guards of young master Changge.

With the identity of the young master Changge, absolutely no one would dare to bully them. That might not be bad either.

"Young master Changge is indeed different from others, but you should not think nonsense. At that time, for the young master Changge, it was just a matter of words. You have to remember, even now after becoming a disciple of the True Immortal Academy, our identity is still a hundred thousand miles away....."

"With such a big character he might not even remember our name." Seeing his sisters' look, Qing Feng at this time did not understand, could not help but let out a bitter smile, and was persuading her.

"Aiya..... Brother, don't talk nonsense, I'm not thinking anything. I'm just wondering in the future if there is an opportunity to repay the kindness of young master Changge. What are you talking about....." Qing Xiao Yi hurriedly waved her hand to deny, and her white face could not help but be stained with red, as if someone poked her heart into a panic.

Moreover, she was now accepted as a disciple by all the old monsters, and she might be able to see Young Master Changge again in the future.

"Huh....." Then, Qing Feng sighed, shook his head, and left.

He and Qing Xiao Yi had different mansions, and returned to his room, after making sure no one was around again.

Only then did Qing Feng carefully take out a bottle from his arms. This was a very antique bottle, palm-sized, without any lines, plain and simple. But the old beggar who adopted them was killed by the cultivator because of this bottle.

And he and his sister escaped that disaster because at that time they were not there. Subsequently, he found the bottle according to the clues left by the old beggar, in the broken temple where they usually live in the dry well.

As the old beggar's relic. Qing Feng naturally carefully put it away and did not know what was the use of this bottle.

But it wasn't until these days when he tried to cultivate that he discovered this bottle was absorbing his spiritual energy. Then it fed him a purer and more subtle aura.

That aura was heavy, wisp after wisp, pressing the void to collapse. Although Qing Feng had seen less, he also knew..... That aura was probably the Chaos aura that was rumored to be able to collapse a large mountain with a single strand.

Chaos's aura was nourishing his blood, bones, and lungs. Carrying such a heavy treasure, Qing Feng was naturally cautious and was afraid of being known by others.

In a place like the True Immortal Academy, there were many strong people, and even the slightest carelessness would be noticed.

So he didn't even tell Qing Xiao Yi about it.

.....

"Greetings, Young Master Changge!"

At the same time, in front of the mountain gate of the True Immortal Academy, Gu Changge's figure appeared here.

During these days, the True Immortal Academy had become more and more lively, and young geniuses from almost everywhere were rushing to come.

Young supreme beings of the current world and freaks from Ancient times, all gathered here, with a majestic and amazing aura and blood.

At the mountain gate, there were a few more old men in charge of checking the age. Seeing Gu Changge, the white-clothed old man named Wang Zhongyong, immediately looked heaped with smiles and came forward to greet the incoming guests.

"I don't know what is the reason for Young Master Changge's visit?" He inquired.

Gu Changge's arrival caused a considerable stir in this place, and almost all the young geniuses looked over and were incomparably surprised. Many of them were seeing Gu Changge for the first time, and their gazes were filled with reverence and curiosity.

But Gu Changge's body was draped with a layer of mist, it was difficult to see as if he was literally standing in another world. The sky was high and far away, everything was empty, and it seemed that the young man standing on the mountain rocks was profound and ethereal, just like a transcendent.

The eyes of many young women flashed with admiration.

#### **Chapter 274-1: The purpose of the bait has been completed, The first impression of Gu Changge (1)**

Among the crowd, the eyes of a slender young man dressed in dark golden armor flashed with colorful brilliance. When he saw Gu Changge, his expression was somewhat hateful and angry, but he quickly suppressed it and became calm.

Even the people who knew him the most didn't know that he was Prince Ying Shuang as he had changed his face and had become an unfamiliar young genius.

"What's wrong?"

Beside the young man in black gold armor, there was an old man in a wide robe, with a clear face and an immortal look.

Ying Shuang called him Mo Lao.

This was an unfathomable old monster. When he was taken away by the three Great Sacred Realm cultivators from the Heavenly Extinction Battlefield, he was thrown into a desolate place.

The other party said that someone would come pick him at some point. Ying Shuang naturally didn't believe it. He always felt that the three Great Sacred Realm cultivators were actually arranged by Gu Changge, including those words that were deliberately uttered under Gu Changge's influence.

According to him, Gu Changge intended to push the blame of the inheritor of demonic art on his head. But Ying Shuang didn't expect that someone would really arrive after that, claiming to be from the organization of the inheritor of demonic arts, and like him, they were all followers of the Demon Lord.

This Old Mo was one of the most terrifying and unfathomable ones. Ying Shuang wanted to explain that he was being wronged and that he was not an inheritor of demonic art. The real inheritor of demonic art was someone else.

But he also knew that once this kind of thing was confirmed, even if he had a Supreme weapon like the Ancient Golden Bell, he would not be able to escape death. Even the Emperor Mountain could no longer take responsibility for him.

He was already a character that everyone hated, like a mouse crossing the street. As long as his trace appeared somewhere, there would definitely be countless cultivators swarming to kill him.

This made Ying Shuang extremely angry, and he naturally hated Gu Changge, the great enemy who appeared in front of the mountain gate.

"Last time, you suffered a big loss from Gu Changge, this time in True Immortal Academy, it won't be like this. With our support with you, even if he is Gu Changge, he will have to be cautious."

Seeing the expression on Ying Shuang's face, the old man named Mo Lao couldn't help but smile slightly as he understood the situation. In addition to being the believer of Demon Lord, he also had another identity, that was, the Elder of the True Immortal Academy.

Even the other Elders of the True Immortal Academy did not know this.

Hearing this, Ying Shuang also calmed down as he nodded with approval. He didn't know if it was his own delusion or if Gu Changge, who was in front of the mountain gate, was looking at him all the time.

However, since he dared to appear in the True Immortal Academy, it meant that he had absolute confidence and was not afraid of being discovered.

"I heard that Mingkong is coming here, I am especially here to wait for her." Gu Changge smiled slightly, answering the question of the old man in white just now.

"It turns out that the relationship between the young master Changge and Princess Mingkong is really good."

Hearing this, the white-clothed old man couldn't help but smile with emotion. The rest of the people naturally heard this and many of the arrogant women became even more envious.

Mingkong that Gu Changge mentioned was his fiancée, the future Empress of the Peerless Immortal Dynasty, Princess Yue Mingkong.

"No way, this girl asked me to pick her up in person, do you think I can refuse?" Gu Changge's smile was still gentle and elegant. But his tone was a little helpless and filled with a slight doting.

Though for some reason, many young supreme beings, especially the arrogant daughter of the sky, felt very jealous and envious.

*This is inexplicable, have you eaten dog food?*

Regarding Princess Yue Mingkong, they were even more jealous. *There are still women in this world worthy of such treatment by Young Master Changge?*

Of course, Gu Changge must have made a fool of himself when he said that. His main purpose was because he sensed Ying Shuang's aura, so he came to the mountain gate to see who was with Ying Shuang.

The so-called organization of inheritors of demonic art, he felt their existence was not spontaneous, but they were gathered together because of a certain existence. As for the identity of that existence, it was actually not difficult for Gu Changge to guess.

Besides the creator of demonic art, who else could it be?

Therefore, he now wanted to know what this so-called organization of inheritors of demonic art was trying to achieve.

"Judging from the attitude of the people from the True Immortal Academy, the old man should be the Elder of True Immortal Academy, and his cultivation base should be at least at the Supreme Realm."

"Now doesn't it mean that Ying Shuang has the support of a Supreme being behind him?" Gu Changge's expression was somewhat intriguing.

He was considering whether to keep Ying Shuang, since he had changed his face, and helped him to attract the people from the organization of inheritors of demonic art.

That Ying leak... He actually didn't have much of a value. However, if Ying Shuang died, Emperor Mountain might notice it, which was a small problem for Gu Changge.

Therefore, he now had to think about how to kill Ying Shuang in an open and fair manner, without making people feel that the inheritor of demonic art was actually dead.

It required a little trick. To cause a kind of sign that the inheritor of demonic art had escaped on the brink of death. In addition, Gu Changge intended to let Su Qingge contact this organization first, after all, she was the real inheritor of demonic art, and this required a little manipulation.

Although Su Qingge was testing his attitude, she didn't reveal her identity either.

It was even more impossible for Gu Changge to explain all this to her. It was not that she wouldn't believe it, but this kind of thing that he couldn't tell others at will. Except for Yue Mingkong, Jiang Chuchu, and Hei Yanyu from the Ancient Immortal Continent, no one knew that he was the inheritor of demonic art.

And they, for various reasons, could not have leaked this matter.

"Next, Su Qingge will definitely secretly practice demonic art away from me. In True Immortal Academy, there are many geniuses, and those old monsters may not be able to take care of them all... Su Qingge will definitely be unable to hold back."

"This is the perfect breeding ground." As Gu Changge was thinking, bursts of high-pitched Phoenix cries echoed outside the mountains!

In the sky towards the east, there were nine black-headed Divine Phoenixes pulling a chariot. Their speed was very fast as they galloped through the skies and descended here.

Yue Mingkong was here. At this time, in another direction, a huge nine-headed Golden Lion, emanating a golden light, was also rushing from high in the sky. The sound of Dao reverberated as the Buddha's light shone, and it looked very bright.

An extremely handsome young cultivator with extremely strange lines between his eyebrows, wearing a moon-white cicada robe, with his hands folded, was seated on the top with a solemn appearance.

For a time, the bottom of the True Immortal Academy exploded, and it was extremely boiling. Many young Supremes were shocked, apparently recognizing who they were.

"Nine-headed Lion? This is the Golden Crane Temple on the top of the Abyss?"

"I heard that this generation of Buddha is named Jin Chan. Could it be him? I didn't expect that even Abyss town, which had been silent for a long time, would send Buddhists here. It seems it really is really a golden age."

"If it is really him, it is absolutely no trivial matter, Jin Chan Buddha, it is said that he has a total of 108 Buddha bones in his body. On the day of his birth, a phantom of the Buddha appeared among the nine heavens and smiled at him. "

"This Buddha is said to have been to the Demon Burial Abyss and walked out of it... I don't know if it's true or not!"

"Hey! A place like Demon Burying Abyss... He actually went there, it's too scary..."

## **Chapter 274-2: The purpose of the bait has been completed, The first impression of Gu Changge (2)**

Many young geniuses talked about it, and they were very shocked by the young cultivator. The status of Buddhists was no lower than that of the Human Ancestral Hall and the Emperor Mountain. Among them, the Buddha's heir had not been passed on for many generations.

From this, it was enough to see the powerful mystery of this Buddhist.

"Have you been to the Demon Burying Abyss?" Hearing the discussions nearby, Gu Changge's eyes narrowed slightly.

The place where the red-clothed witch was about to be born, he was planning to make a good plan, but he did not expect that this generation of Buddhist sons had already appeared in the world.

"Changge..." At this moment, a slightly surprised and familiar voice sounded in his ear.

Yue Mingkong walked lightly and arrived at his side. Several old men who were in charge of checking age did not dare to ask any more questions. She was still flawlessly beautiful, with an immortal face like a painting, without any makeup, tall, soft and smooth hair, with calm and deep eyes.

The dress made of silk surged with the aura of divine silkworms in the Quasi-Sacred Realm, shining with a hazy glow, interweaving with various laws and orders. It was known to be of great value and hard to find in the world at first glance.

Behind her, there were also a large number of followers.

Gu Changge looked sideways, smiled faintly, and smoothly held her small hand, "You're here?"

"Mm." Yue Mingkong stood beside him, side by side, and was a little surprised, "You came specifically for me?"

She couldn't believe that Gu Changge would be so kind to her that he would spare the time to come and specifically wait for her. However, seeing him as soon as she arrived at the True Immortal Academy still made her a little touched and happy.

"Then what else? Everyone here can testify for me." Gu Changge smiled.

All the young geniuses looked at this scene, their hearts were naturally envious, but the man and the woman were a match made in heaven, what more could they say?

Yue Mingkong's eyes grew suspicious and then swept through the many young geniuses below. And did not see any suspicious faces. She was a little relieved.

But soon, she looked at the golden Cicada sitting on top of the Nine-headed lion, and something swept through her thoughts.

It was the first time this mysterious Buddhist young master revealed his true face in front of the world. She still remembered that in her last life, the Golden Cicada helped a certain ancient freak to clear the suspicion of being the inheritor of demonic art, and seemed to be credited by Gu Changge.

And then during the Devil Burying Abyss riot, the Golden Cicada rushed there, seemed to be in it for a long time, and she never heard about him after that. In her last life, she did not know the reason behind Gu Changge choosing to seal the Devil Burying Abyss.

Although it was not fully successful, he still achieved great success and was delayed for some time. And some time ago, when Gu Changge asked her about some things, she informed him quite a few things about the Devil Burying Abyss in a sideways manner.

It was just that, there was still one point that she had not figured out. Many things would have been delayed for a long time, but she did not know what was the reason but they happened early in her life.

Including the appearance of the True Immortal Academy, which was also at least ten years earlier than in the previous life! The riot at the Devil Burying Abyss was even more so!

"Daoist Brother Golden Cicada?" And at this moment, Gu Changge looked at ease and took the lead to speak towards the Golden Cicada who had already landed on the ground, as if he was ready to greet.

The crowd looked at this scene, and couldn't help but be a little curious. As the current Buddhist young master, the Golden Cicada was very mysterious, but this Nine-headed Golden Lion of his had a Sacred Realm strength.

If he could subdue it, then he should at least have the strength of the Sacred Realm.

Gu Changge's power was even more unquestionable, even the Elders of the True Immortal Academy treated him with courtesy, there were rumors that Gu Changge even fought with the Great Sacred Realm existence and did not lose.

All of this made him even more mysterious and unpredictable. At this moment, when the two meet, would there be a big collision? Thinking of this, many people felt anticipation.

"Greetings, Young Master Changge." The Golden Cicada landed on the ground and bowed towards Gu Changge with folded hands, looking calm.

The Nine-headed Golden Lion behind him, however, was groaning quietly as its fur stood erect. It seemed very uneasy about Gu Changge in front of him, somewhat fearful and afraid.

"What is the meaning of this?" Gu Changge asked with interest.

"Shan Jing's perception of various scents is very keen, perhaps young master Changge or maybe princess Mingkong has scared him." Golden Cicada replied in a very calm voice.

Shan Jing was the name of the Nine-headed Golden Lion. It could take on human form at any time and was also a servant, and mount. He had an almost intuitive talent for perceiving all kinds of scents, whether they were good or evil, and he would know at the first argument.

The reason for this was that he felt a suffocating aura on Gu Changge as if a mountain of corpses and a sea of blood were rushing at him.

Under the elegant and gentle appearance, there were hidden palpitating and chilling horrible means. This was the first impression of Gu Changge on the Golden Cicada.

Although he had just come down from the Buddhist Mountain, he had heard rumors about Gu Changge, no matter which one, all of them were near-perfect praise.

But now it seemed that all these rumors, in fact, only tended to be superficial. The heir of the Gu family was by no means a good one.

"I didn't do anything, I see that this mount of Daoist Brother Golden Cicada is clearly quite critical of Gu and Mingkong." Gu Changge casually smiled, "But, after all, a mount is a mount, how can you be general with it."

"I have always heard of the mystery of the Buddhist Mountain, its many divine powers and great strength. My heart longs for a visit, but I do not have the opportunity to explore the truth."

"Today, in front of the mountain gate, I happened to meet Brother Golden Cicada. I wonder if you can give me some advice?" His voice was natural and easy, and his words were not too loud, but they still spread in front of the mountain gate.

"What?" Everyone was shocked for a moment.

Reacting to the meaning of Gu Changge's words, he was planning to fight with the mysterious Buddhist young master Golden Cicada of the Buddha Mountain in front of him.

**Boom!!!**

Almost instantly, the place boiled over. On everyone's face, apart from shock, there was only excitement and thrill.

After all, the number of times they had seen Gu Changge fight in person was only a handful, and many people were curious about how strong he really was.

And now, he was actually going to fight the mysterious Buddhist young master in public, and issued a challenge to fight.

Needless to say, this was too shocking, even Yue Mingkong was also surprised and did not understand Gu Changge's intentions.

**Chapter 275-1: Im going to stand up for a showdown, Im a million times better than you (1)**

"Young Master Changge will fight against Jin Chan?" Several old men in front of the mountain gate looked at each other after being shocked, not knowing what to say for a while.

It stood to reason that Gu Changge was one of the current top ten candidates, and the same was true of Jin Chan in front of him.

Shouldn't the two of them be very cautious?

After all, if there was a slight disadvantage, it would easily lead to an impact on one's position in the True Immortal Academy, and it would no longer be stable.

"Young Master Changge, is this true?" For the first time, Jin Chan's face showed an expression other than calm, staring at Gu Changge very seriously.

He didn't expect Gu Changge to be so sharp. And they were still at the gate of True Immortal Academy.

Jin Chan thought to herself, *Did I offend Gu Changge? No, this is the first time the two of us have met.*

"This Gu Changge is too arrogant. He doesn't take the rest of the geniuses in his eyes, so he is so arrogant." Among the crowd, Ying Shuang clenched his fists tightly and couldn't help but secretly mutter.

He became more and more convinced that Gu Changge was the real inheritor of demonic art. The purpose of his shot was probably just to test Jin Chan's strength, or to show his terrifying power in public.

In the future, at True Immortal Academy, Gu Changge might cover the sky with only one hand like the Heavenly Dao Immortal Palace.

"It's just a test, so Brother Jin Chan, don't have to worry too much." Gu Changge still smiled lightly, "But if Brother Jin Chan refuses, Gu will not force you."

"There are very few young people today who can make me interested in fighting." Although what he said was simple, it made everyone here feel suffocated as if there was an invisible mountain above their heads, and they could not breathe.

Random and strong! And it was the kind of ignorance that didn't take his opponent seriously at all! They knew that it wasn't that Gu Changge was conceited, but that he really had the confidence to say such a thing, and people couldn't refute it.

But this was not an endorsement. It was already a great honor for them to be brought up by Gu Changge's interest in fighting!

"If that's the case, then I'm much obliged!" Hearing this, Jin Chan also knew that this battle was inevitable, and sighed in his heart.

He came to True Immortal Academy not to be competitive, but Gu Changge in front of him put a lot of pressure on him. And soon this news spread like wildfire.

One after another, colorful divine lights kept coming from all over the True Immortal Academy, and the silhouettes flickered, appearing all over the mountain, all of them coming to watch the battle.

It was rude to say that this was a battle of the pinnacle of the current younger generation! The battle between the two candidates of True Immortal Academy!

### **Buzz!!**

In the depths of the sky, the chaotic fog spread, the golden lights of Dao extended all the way, and there were figures of Elders emerging. They were also looking forward to this battle and were very curious.

Many people had guessed the purpose of Gu Changge, he took the initiative to challenge, wasn't it for authority?

As they just arrived, the current True Immortal Academy did not have an accurate order level. He took the lead, which was completely equivalent to telling the rest about his strength so that they would have self-knowledge and know who should be respected in True Immortal Academy.

Of course, this was everyone's guess. On the top of a mountain, a woman with fiery red Phoenix wings on her back and a similar dress had her arms wrapped around flames.

She looked from a distance, with a beautiful face, a kind of natural dignity, like an unparalleled Phoenix carved with red fairy crystals. She was an Ancient freak from Huangling Mountain, who was also one of the top ten candidates from the Heavenly Phoenix clan!

It was said that she had a lot to do with Immortal Phoenix, and there was even a saying that she was the reincarnation of Immortal Phoenix.

"Gu Changge..." She whispered these words softly.

Instead. The Phoenix Wing shook behind her, her figure blurred, and she left this place.

"Gu Changge took the initiative to fight Buddhist?" In the cave, the purple-robed man's brows were wrinkled, "I should take this opportunity to find out the truth. How true are the rumors? I still have to witness them with my own eyes."

Thinking like this, his figure also moved, and he left this place, soaring into the sky with a mighty purple aura, and headed for the mountain gate.

"Even Heavenly King Zi Yang rushed over?" This scene attracted the attention of many people and was very shocking. Heavenly King Zi Yang was the first candidate Disciple who rushed to True Immortal Academy from the purple mansion.

At the same time, he was also an Ancient freak who had been in hibernation to this day.

And purple mansion was also the most mysterious Immortal sect in the Upper Realm today, and its inheritance was extremely long and ancient. For a time, many scenes of this kind appeared in the immortal islands and mountains in True Immortal Academy.

In front of the mountain gate, it was even more lively. The figures flickered, and they all had a tyrannical aura. In the outside world, they were the invincible young supremes!

Among them, there were the inner disciples and quasi-candidate disciples, and many candidate disciples had not come to True Immortal Academy yet. For example, the two descendants of the Human Ancestor Hall were still missing, and the mysterious Six-Crown King had never appeared before.

In addition, the remaining several major candidate disciples were also very mysterious and hard to find.

"I don't know who will win this battle. I feel that Jin Chan is very mysterious. Before this, I had never heard of his rumors, but it must be an extraordinary person to be chosen as a candidate by the True Immortal Academy."

"This battle is not going to be simple."

"Not necessarily, without using other means, just relying on his strength, I think Young Master Changge is better. After all, he is the only existence that has competed against the inheritor of demonic art."

"There are rumors now that Young Master Changge may be the reincarnation of the Human Ancestor."

"Hey! No wonder..."

Many people were discussing it, and when it came to this, they couldn't help but take a breath of air and were shocked.

"Young Master Changge!"

"Excuse me!"

Just when everyone was talking about it, Jin Chan, who had been sitting on the Nine-headed Golden Lion, made his move, and his voice was calm.

Golden light filled the air intertwined with the Buddhist chant, and it looked extremely sacred and bright. As soon as he made a move, an incomparably mysterious and profound Buddha Dharma appeared, and a divine ring formed in his mind, like an Immortal Buddha.

Moreover, he did not dare to take it lightly, and the strength he showed was already in the Sacred Realm.

The incomparably tall golden Buddha appeared, dazzling and compelling. The terrifying aura made many of the young geniuses present at the scene change their colors, and they felt the feeling of their bodies being torn apart.

"So strong!"

"The strength of the Sacred Realm, is this the tyranny of this generation of Buddhists? It has far surpassed me and I waited too long!"

They were horrified and trembling! Such strength, if demonstrated before, would definitely shock all parties.

**Boom!**

The huge golden body of the Buddha rolled down towards Gu Changge as if to suppress him.

"Brother Jin Chan, are you looking down on Gu? If it's just this way, it's really disappointing to me."

However, Gu Changge still had a smile on his face, as if he didn't care.

**Buzz!!**

He just raised his palm slightly! The other hand didn't even move. Instead, gently pressed it forward!

There was a roaring sound in the void as if it was about to explode. In the next moment, the palm was extremely real, and the void collapsed in one fell swoop.

Like the hand of the sky, the aura of the heavens circulated, the immortal brilliance was rich, and it was entangled with colorful divine light and immortal mist!

The illusory image of the Buddha with a height of a thousand miles, with a majestic appearance, ruptured in an instant under this palm and disappeared directly.

**Chapter 275-2: Im going to stand up for a showdown, Im a million times better than you (2)**

"What!? It shattered in one palm..."

"It's just hopeless, it's too powerful, isn't it?"

This scene made everyone here tremble, and they couldn't help but feel terrified.

"It can't be judged by common sense."

Even the heir from the Heavenly Phoenix Clan and Heavenly King Zi Yang were slightly frowning, and when they compared secretly, they found that neither Gu Changge nor Jin Chan had used their full strength.

Soon, Jin Chan shot again, and a golden bowl flew out from under his robe. The Buddha's light was dazzling, reflecting the four directions, containing the meaning of Doa, which seemed to purify everything.

This was an ancient Buddhist artifact, which contained the power of the Sacred Realm, and shot the terrifying divine light of laws like a galaxy.

Gu Changge's move was even simpler. He just flicked his fingers, and a wisp of sword energy burst out. But there was a terrifying sword sound, and in a trance, everyone seemed to see a peerless immortal sword, piercing the universe, and the sword light fell dazzlingly!

Everyone could not help but close their eyes. In the next moment, only a click was heard, and there seemed to be hundreds of millions of rays of light blooming, and the golden bowl was cracked.

Soon after, the cracks spread as if it was about to collapse. If it wasn't for Jin Chan seeing that the situation was not good and hurriedly took it back, he probably would have lost an ancient Buddhist artifact today.

"Young Master Changge is powerful, and Jin Chan is no match for Young Master Changge now."

"I am willing to admit defeat." Jin Chan's expression changed slightly, but he still sighed and chose to admit defeat instead of continuing to shoot.

"Brother Jin Chan is really boring. But since you have said so, then Gu will naturally not make another move." Hearing this, Gu Changge seemed a little surprised, but the smile on his face still didn't change.

Jin Chan would choose to admit defeat, which he expected. At such a time, there was no grievance or enmity, who would use all means to fight for life and death?

He just wanted to test Jin Chan's strength to estimate the feasibility of the subsequent plan. Of course, it was also to let everyone know that even if they were the same candidates, there was still a big gap between them.

Gu Changge actually didn't like the feeling that people could be compared with him. In the past, it was because he was afraid of being noticed by others, which would lead to unnecessary suspicion.

But now that ancient freaks appeared one after another, and the inheritor of demonic arts was also someone else, no matter how strong his cultivation base was, he would no longer attract attention as before.

Even if he was still competing with the younger generation, he should let them understand that the gap between him and them was not small.

In layman's terms, it was a showdown to determine who was better, also with more than 100 million points. Although Gu Changge didn't like the various resources of True Immortal Academy, it didn't mean he didn't care.

The stronger the strength, the more naturally he could gain. Hearing this, Jin Chan shook his head and said nothing, and his expression seemed very calm.

There was no unwillingness or anger after defeat. He still had many means, but he also knew that even after all those means were used, it would still be difficult to defeat Gu Changge.

He was too strong, the kind that penetrates deep into the bones! It was his own bad luck to wake up in this era, and he just happened to bump into Gu Changge. If he met the rest of the candidate disciples, Gu Changge would also say so.

He just wanted to stand out and make people fearful. Fortunately, the True Immortal Academy would only cover the sky in the future.

"It's not unreasonable that this guy would be so strong and confident. You have become the only inheritor who has been suppressed by the rest of the geniuses."

Outside the mountain gate, Mo Lao, who was silent for a long time, had a slightly solemn expression and opened his mouth to Ying Shuang next to him.

For the first time, he felt the difficulty of things. He thought that it would be much simpler to find the inheritor of the demonic art of this life, but why did such a Gu Changge appear?

His strength was also outrageous. Ying Shuang's expression was also very unnatural. Gu Changge's strength really made him despair.

He estimated that even the former Prince Ying could not be Gu Changge's opponent.

This made him clench his fists tightly, and he was very unwilling. Now, what reassured him a little was that he was hiding in the dark, and Gu Changge was in the light, and he didn't know that he had also come to True Immortal Academy.

He will definitely repay this revenge!

"This matter needs to be figured out slowly. Before that, I have to find a way to tell Gu Xian'er about the danger of Gu Changge. Although she used to be so indifferent to me, I haven't reached the point where I can't help her."

Heavenly King Zi Yang frowned, his face was heavy, and he whispered in his heart. He also didn't know who would win and who would lose if he decided to go all out to fight against Gu Changge.

The first time he didn't know his bottom line, he didn't have any confidence, Gu Changge was indeed many times more terrifying than the rumors.

On the other side, the Heavenly Phoenix Lady stared closely at Gu Changge, as if to remember him firmly, and then she flashed and disappeared soon.

"This Jin Chan is really unlucky." Yue Mingkong whispered, knowing Gu Changge's purpose.

"It's not bad luck, he's already lucky to be alive after the fight." Gu Changge's smile was a bit intriguing.

Yue Mingkong glanced at him and felt that he seemed to be calculating something again. Could it be related to Demon Burying Abyss?

And soon, the results of the battle in front of the gate of True Immortal Academy spread. Not only did it cause a big stir in True Immortal Academy, but it also caused a big earthquake in the entire Upper Realm.

The younger generation was naturally the focus of the major sects. And the fight between Gu Changge and Jin Chan was even more eye-catching.

The results of this battle were recorded by the memory Stone and circulated in various ancient cities. For a time, Gu Changge's momentum once again reached a peak.

Before, many people still felt that he did not have enough time to cultivate, and he was no better than those ancient freaks. But today's battle had shocked many people and it was difficult for them to calm down.

Even those ancient freaks, it was estimated that in front of them, they were far from enough. Many from the older generation felt that they were no longer Gu Changge's opponent, and before they knew it, he had grown to the point where the older generation would be jealous of him.

In the blink of an eye, several days passed since the battle.

"Qing Xiao Yi really went to True Immortal Academy."

"The so-called Immortal Body."

"If my memory is correct now, the bottle is now in her brother's hands."

It was very close to a magnificent palace in the area where Gu Changge was located. Yue Mingkong whispered, and there were various expressions in her eyes.

Regarding Qing Xiao Yi, a very legendary figure, she was actually very impressed in her last life. Her rise shocked all the Dao forces in the upper realm, and she was one of the two most proud disciples of the True Immortal Academy.

There was also a strange stone that had been sealed for a long time in True Immortal Academy.

### **Chapter 276-1: The method to obtain the origin of the Immortal Demonic Body, Gu Xianers inexplicable methods (1)**

"Qing Xiao Yi, also known as Immortal Qing Yi in her last life, bearing the Immortal Demonic Body, even though she only began to cultivate at the age of fourteen, she had since risen to the top, her cultivation caught up with many ancient freaks and advanced by leaps and bounds. I never even heard of her losing a battle."

"And the True Immortal Academy had a strange stone called the True Immortal Twin suspected of falling from the land of the Nine Heavens."

"I wonder if Qing Xiao Yi will still suffer at the poisonous hand of the Changge in this life?"

"Speaking of her fall, in her last life she was the most brilliant and radiant which triggered the anger of True Immortal Academy. The result, in the end, was that nothing was found, and it became a headless unsolved case. So..... She was actually tragically poisoned by Changge."

"On the contrary, after the disappearance of Qing Xiao Yi, the piece of strange stone bowed to the light, it became more and more low-key, and there were only a few people who had seen its true appearance."

"But I heard from Changge that piece of strange stone was the only one he fought, and his whole body suffered as a result. So it seems that its cultivation must be at least the Sacred Realm or above..... But I can only believe a part of Changge's words."

"He said that the other party retreated with his complete body. That was likely only in the case that he did not use his real skills."

In the palace hidden by the divine light, the immortal mist was dense, Yue Mingkong was sitting on the bed, slender body, immortal face like a painting.

She squinted her eyes, and her bright eyes flashed with various thoughts. She was not only thinking about her next plan but also how to obtain the ancient weapon from Qing Xiao Yi's brother.

Many memories from her previous life swept through her mind. As for Qing Xiao Yi, she had nothing to do with her, so Yue Mingkong naturally did not want to care more.

She did not care what would be her end in this life. And then with her hand suddenly raised, an ancient bronze mirror, which appeared a bit rusty, appeared in her palm.

This ancient mirror looked ordinary, without any pattern. But Yue Mingkong urged her divine power which rushed to mask the mirror as soon as it emerged.

Just like the rain washing a street clean, it washed away the lead and removed the dirt and rust on its surface until it became crystal clear.

### **Buzz!**

This crystal-clear ancient mirror was reflecting the void, and there was a destructive aura flowing within it. Looking at this ancient mirror, Yue Mingkong's eyes moved slightly and whispered to himself.

"Now among the Heavenly Seven artifacts, I already have two in the body. The Heavenly Bottle is in the hands of the brother of Qing Xiaoyi. In my last life Long Song had the Heavenly Jar in his hands. The whereabouts of the rest of the pieces are still unclear."

"It is said that once collected the Seven Heavenly Artifacts, have the power of Heaven, and can even find the Immortal Palace relics that were once collapsed in the long river of time."

The preciousness of the Immortal Palace relics was naturally needless to say, even for the Elders it was the pursuit of a lifetime. But they were not so easy to find.

The Seven Heavenly Artifacts were the keys to the Immortal Palace Legacy. Seven pieces of Heavenly Artifacts, including the Heavenly Mirror and Heavenly Seal were already in her hands.

The rest were the Heavenly Sword, Heavenly Wheel, Heavenly Vase, Heavenly Jar, and Heavenly Tower.

According to the memory of her previous life, she had already found the whereabouts of the Heavenly Mirror and Heavenly Seal, and was the first to seize them in her hands.

As for the Heavenly Jar, it seems she heard that it would appear in an auction house, but she did not go there, knowing that it would end up in the Gu Changge's hand.

After all, once she gathered these Heavenly Artifacts, her purpose was actually also for Gu Changge, so this saved her some trouble. However, she was afraid of arousing Gu Changge's unnecessary suspicion, so she did not inform him yet.

And while Yue Mingkong was thinking about her subsequent plans, on the other hand, Gu Changge was also working on his next plan inside his cave.

*Prince Ying still has to carry the blame. In any case, there is no candidate who is more suitable than Prince Ying.*

Before that, Gu Changge planned to contact the so-called demonic organization first. In his opinion, this organization was at best a convergence comprising the Demon Lord's followers, and they didn't know much about the Demon Lord and the inheritor of demonic art.

But more or less, they still had a little role. So in a short period of time, Ying Shuang did not dare to reveal his own whereabouts, and the Elders of the True Immortal Academy were also protecting him.

It was because of these reasons that Gu Changge was considering letting all the young geniuses know that the current inheritor of demonic art was in fact mixed in the True Immortal Academy. This would create a situation that would cause panic, anxiety, and more confusion, and it would be better for him to fish in the muddy water.

When the time comes, if something happened to a genius. Ying Shuang would only have to accept that he did it, after all, he was the inheritor of demonic art for the demonic organization.

In this premise, Su Qingge could only dare to do something in the dark. Gu Changge was also creating an opportunity for her.

Of course, he himself would be moving in the dark, and along the way he would push Su Qingge out, thus making the people of the Demonic Organization pay attention to her. With this Ying Shuang would no longer be valuable and he would have no value to continue to exist.

"Before this, my strength should also break through to the peak of the Great Sacred Realm, ready to impact the Supreme Realm. I wonder if the origin of the Immortal Demonic Body can receive the Dao fruit from the past."

The Dao Fruits of guidance were something he obtained from the Lucky Treasure Box that fell out when Gu Changge resolved the Human Ancestor. To put it in layman's terms, it was a means similar to copying.

Nowadays, there were many old monsters and old antiques around Qing Xiao Yi, so if Gu Changge made a direct move on her, it would probably cause great suspicion.

This was not worth the loss. And he felt that Qing Xiao Yi had a good feeling for him, if he made a little use of it, it would actually be of greater value than directly devouring her origin.

So he planned to obtain the origin of the Immortal Demonic Body in a different way. Afterward, Gu Changge sat down on his knees, a cloud of immortal haze rose up all over his body, from every pore, spurting out like a starry sea of spiritual energy.

The location of the Heavenly Spirit was even glowing, his Innate God had become an Ancient God, one of the mysterious Ancient Gods. Its single look would make people palpitate and go crazy, and they wouldn't help but want to kneel down.

Finally, these terrifying forces coiled in the cave, which should have rushed out of the sky and shattered the heavens, but were suppressed by Gu Changge.

This kind of aura was incomparably horrible, even if a real Great Sacred Realm cultivator stood in front of him, he would feel his muscles cracking as if they were about to explode.

Gu Changge first exchanged the recently acquired Destiny value according to his old habit, although there were many things in the system mall. But what he cared about most was the transcendental bone.

Now, there were 60 pieces of transcendental bones all over his body, and each bone was interwoven in a mysterious color. The dense intent spread and the divine haze was shining brightly, just like the immortal aura of ten thousand calamities.

Of course, this statement was not accurate, but rather like a substance that had been metamorphosed to the extreme it contained the supreme aura of heaven and earth from the beginning of time, Xuanhuan, the universe, chaos, Hongmeng, etc..

This was no longer a simple bone.

**Buzz!!!**

And then, a familiar aura enveloped down, followed by many fantastic and mysterious lights diffusing into Gu Changge's flesh, blood, skin, and lungs.

Ten bones once again metamorphosed into transcendental bones.

"The law perceptions brought by the seventy transcendental bones are already far beyond ordinary Great Sacred Realm cultivators, and even some Quasi-Supreme beings would be slightly inferior."

Gu Changge's expression was a bit thoughtful.

**Chapter 276-2: The method to obtain the origin of the Immortal Demonic Body, Gu Xianers inexplicable methods (2)**

.....

Soon, there were only three days left before the True Immortal Academy closed its doors. During this period, almost all of the young geniuses from all over the Upper Realm had converged in to apply.

Including the heir of the Human Ancestor Hall, Divine Emperor, Son of Heavenly Emperor Mountain, the mysterious Six Crown King, all of them had arrived. But except for the Demon Realm that still had no heirs showing up, which seemed strange as hell.

And at this moment, outside the tall and magnificent mountain gate, Gu Xian'er's gait was light and fast. Her beautiful and stunning little face with porcelain white complexion looked cold and lonely, stepping with light steps, picking up the pace.

It had attracted a lot of nearby young geniuses to look over, with their eyes showing amazement. This young girl also did not look big but her already visible posture reminded the people of her woes.

She was in a light green dress, her slender and long hair was soft, and she was carrying a big red bird on her shoulder. After leaving the Peach Village and rushing to the Heavenly Extinction Battlefield to kill some Heavenly Extinction beings, she arrived at the True Immortal Academy located in Hong Domain.

As the heavenly daughter of the Ancient Immortal Gu Family, she was not as high-profile as Gu Changge was when she came. Even with a bird by her side she looked a bit poor and simple.

"During this time, I've broken through to the God King Realm, and it really feels good to break through and then stand again. I'll soon be able to catch up with that Gu Changge!"

Gu Xian'er was in a good mood, her footsteps seemed light and fast as she was heading towards the mountain gate. Many young geniuses wanted to come and strike up a conversation with her, but they were all turned away by her lonely demeanor.

As soon as they saw her, they were amazed at her aura, so they couldn't help but feel palpitations, knowing that they were no match for this young girl.

The old man in white who was responsible for checking the age was Wang Zhongyong, he was very shrewd and immediately recognized this young girl as she had a relationship with Gu Changge.

All the more, he did not dare to be negligent.

"Isn't it Miss Xian'er?" His voice was obsequious.

"You know me?" Gu Xian'er raised her eyebrows slightly, and there was a slight confusion in her clear, cold voice.

Could it be that her Gu Xian'er's great name had even spread here in the True Immortal Academy, that even the Elders in front of the mountain gate knew about her?

"This old man knows young master Changge....." Wang Zhongyong smiled and said.

The look in Gu Xian'er's eyes looked slightly happy, but she still asked in a clear and cold manner, "Then he told you to come here to pick me up?"

"Uh..... This....." Wang Zhongyong's smile froze and was a little embarrassed.

*How should he say this?*

Gu Changge hadn't said anything to him about this at all, and it was only after he heard about Gu Changge's deeds that he purposely saw the portrait of his cousins, and that was how he recognized Gu Xian'er.

"....."

Gu Xian'er knew at first glance that she was happy for nothing, and she was a little indignant in her heart, but she still couldn't see anything on the surface. She thought Gu Changge would wait for her, even if she didn't come, then she should have sent someone to pick her up, right?

However, that didn't happen. How dare this guy ignore her again!

Then, with such indignation in her heart, Gu Xian'er followed the procedure, first checked her age and redeemed the points before entering the True Immortal Academy. According to her current strength, she should be a Quasi-Candidate disciple, and there was still quite a gap from the Candidate level.

However, Gu Xian'er had only entered the True Immortal Academy for a short time and had fallen from between a mountain peak when she felt a few young geniuses in front of her, their eyes looking toward her with an unkind expression.

The cultivation level of these young geniuses had already reached the Heavenly God Realm, which was considered the Inner Disciples of the True Immortal Academy, and the man in the lead had the strength of the God King Realm, which was very powerful.

They seemed to have been here for a long time, and their eyes had been surveying the new disciples who had entered the mountain sect nearby.

"Are the rules of the True Immortal Academy like this now?"

"Is this how it is for disciples who have just entered the mountain gate?"

Seeing their expressions, Gu Xian'er was having some doubts in her heart. But then, she saw those few young geniuses, who seemed to have lit up in front of her eyes, taking the lead and walking towards her, seemingly aiming at her in general.

"My name is Song Fan. I wonder what the name of the senior sister is?"

The young disciple at the head of the group was tall and upright, shrouded in divine radiance, but he was good-looking. The rest of them looked like his followers, and he walked up to Gu Xian'er, and in his gaze, with appreciation, he stopped and took the initiative to speak and smile.

In the vicinity, the young geniuses who saw this situation did not dare to stay in the slightest, and hurriedly stepped away. Gu Xian'er's eyebrows were furrowed with confusion.

How come she just entered the True Immortal Academy and was inexplicably targeted? The young prince in front of him seemed to be very confident in himself. The actual fact was that he was greedy for her beauty and her own body?

Gu Xian'er's expression also turned cold. She did not open her mouth, just looked at him coldly, the temperature in the air dropped sharply, as if there was frost coalescing floating.

"Why doesn't senior sister say something? Is it because you look down on this Song? We are the same Quasi-Candidate disciple, I think you and I can get closer."

When Song Fan saw this, he froze slightly, seemingly somewhat displeased, and the smile on his face disappeared.

However, Gu Xian'er still did not open her mouth and just looked at him coldly.

This person in front of her, was there something wrong with his brain? How did he get into the True Immortal Academy? Or did he not know her at all?

Seeing that Gu Xian'er was still not paying attention to himself, Song Fan frowned and his tone was not polite.

"Senior sister, you have just entered the True Immortal Academy, there are some rules that I'm afraid you need to understand, among which the most important thing you need to remember is that you should respect your senior brother."

And at this time, hearing these words from him, the group of young geniuses behind him slowly surrounded Gu Xian'er.

"Respect senior brother?" At this time, Gu Xian'er finally spoke up, as if she was looking at an idiot, "Just you? What qualifications do you have?"

Her voice was very cold and calm, but with a cold intent, a person could feel her disbelief and mockery.

"Senior sister, it seems that you have never suffered a loss and do not know that there are people outside of people and there is heaven outside of heaven. Today senior brother will teach you to understand this truth....."

Song Fan also had an ugly look on his face at this time, as if it was the first time he had seen someone who gave him so little face.

"What? Just you want to teach me a lesson?" However, Gu Xian'er's face was still cold as if frozen, even her words were also with the implication of ice slag, so that people could not help but want to shiver.

"This little girl doesn't know how high the sky is, how dare she reject senior brother Song's kindness? I think she just needs a beating."

"Senior Brother Song, I think it's just right to take this opportunity today to make her understand the cruelty of the True Immortal Academy. She should understand that there is no one from her family here....."

Several young geniuses next to him were also laughing at this time, with mockery and contempt.

"Ahh, if you had just told senior brother your name, this matter would be much simpler, now you have to make things this way. If word gets out, I guess it will be said again that I bully the small with the big, but..... This is what you asked for."

Song Fan shook his head, seemingly helpless, but as the words fell, his expression cooled down.

**Buzz!!!**

The terrifying aura of the God King Realm erupted from his body, and a golden surging shadow emerged behind him, like a golden raven, stern and compelling!

"You are looking for death!" Gu Xian'er's voice also had a terrifying chill, she did not expect the other party to be so arrogant, and make a move on her only because she didn't tell her name.

**Boom!!!**

The same radiant light emerged from her body, the amazing aura was like a small Immortal Phoenix, emerged from her jade hand, turning into a plain white fist, the void trembled and blasted forward.

Like a wave lapping general, so that the void seemed to explode.

This power was incomparably amazing, far beyond the ordinary God King Realm cultivators.

"Stop!"

"How can there be such an arrogant person in broad daylight? Is it that you don't put the rules of the True Immortal Academy in your eyes?"

However, just at this moment, a cold hum suddenly sounded from high in the sky.

**Chapter 277-1: Self-directed and self-acting hero to save the beauty, What are you? (1)**

As the words fell. Immediately, the purple aura surged in the air, like a surging vast galaxy. She saw a huge purple palm as if it was lifting the sky, covering and pressing down, like the hand of God, with terrifying laws of the Sacred Realm.

While falling down, it seemed to crush everything! All the divine powers and moves, under this palm, turned into powder in an instant, dissipated directly, and could not even resist a breath at all.

**Puff!**

"Not good....."

"It's the Heavenly King Zi Yang, why is he here?"

Expressions of Song Fan and the others changed suddenly, and they felt unbelievable. After being directly hit by this palm, Song Fan spurted out a mouthful of blood in an instant and then flew upside down, knocking down many buildings.

His expression changed suddenly, extremely horrified, and very pale as if he had encountered some terrifying existence. His voice and body trembled uncontrollably.

In the next moment, the giant palm fell on them without stopping, causing them to scream and vomit blood again, extremely embarrassed. The aftermath of the collision here exploded in an instant, uprooting many ancient trees and causing terrifying cracks in the earth.

Many mountain buildings collapsed and became ruins. This scene made Gu Xian'er stunned but she still frowned, staring at Song Fan and the others, and her eyes were indifferent.

"If I hadn't happened to pass by this place, I'd be hard-pressed to see you bullying the new juniors. It's just breaking the rules of the True Immortal Academy and disgracing the disciples of the True Immortal Academy."

Along with the words, there were fluctuations in the sky. Immediately afterward, a purple-robed man surrounded by the purple aura emerged. He was tall and handsome, with a purple crack between his eyebrows, which added to his might.

It was Heavenly King Zi Yang!

At this moment, he looked very cold with his face frowning tightly as stared at Song Fan and the others who were coughing blood below, and said coldly, "If you let me encounter you bullying others next time, I will not be merciful. The identity of the disciples of True Immortal Academy is not for you to bully the weak."

"Don't dare, don't dare. We don't dare anymore..."

"Please forgive me, Zi Yang Heavenly King!"

"Heavenly King Zi Yang, spare our lives, we know we are wrong, we will never dare to bully others, we will no longer dare to bully the weak..."

Song Fan and the others were extremely embarrassed and hurriedly shouted.

They no longer displayed their previous strength and arrogance. Their expression was extremely frightened and afraid as they were shaking. It was as if the person in front of him was not an ordinary person, but a terrifying existence.

"It's good that you know." Zi Yang Heavenly King nodded, as if he was satisfied, and then said coldly, "Why don't you quickly apologize to this junior sister?"

After that, he looked at Gu Xian'er. With a very natural expression, he asked with the natural concern of looking at ordinary junior brothers and sisters, "Is this junior sister okay?"

"I'm fine." Gu Xian'er shook her head, her expression softened slightly, and she glanced at the purple-robed man in front of her with some doubts.

*Zi Yang Heavenly King? This name is somewhat familiar.*

She seemed to have heard of it before she came to True Immortal Academy. This was a powerful ancient monster and a Candidate level existence.

"However, I didn't need your help in this matter, I could have solved it myself." Gu Xian'er spoke again, always feeling that today's events were a little inexplicable.

Zi Yang Heavenly King seemed a little taken aback when he heard the words. But in fact, there was a sure-looking expression in his heart. This proud temperament was really the same as that time.

Then, he smiled slightly and said, "It seems that my help was a bit redundant. This junior sister is so confident, she must be powerful."

"I am Zi Yang, a descendant of the Purple Mansion, known as Zi Yang Heavenly King. I don't know what junior sister is called? With such strength, junior sister must not be an unknown person."

He asked again, with a very natural expression. At this time, even if there were other people around, it would not look weird. Hearing this, Gu Xian'er was stunned for a moment, her eyes were a little puzzled, and she did not speak.

She didn't know why, but she always felt weird today. Although she reached out her hand not to hit his smiling face, the other party was a hero saving the beauty, helping her to solve these annoying guys in front of her.

But this move made her feel unnatural. Seeing that Gu Xian'er didn't speak, Zi Yang Heavenly King didn't bother, there was still a calm and indifferent smile on his face.

He turned to look down at the trembling Song Fan and the others who were still kneeling on the ground, and said lightly, "If I hadn't happened to pass by here today, I'm afraid you won't be this good. The strength of this junior sister is not enough for you to challenge. You guys really don't know whether to live or die."

"We understand, thank you, Zi Yang Heavenly King, we will never dare to do this again!" Song Fan and the others said in succession, very frightened.

Hearing Zi Yang Heavenly King's words, Gu Xian'er was stunned again, her brows furrowed even tighter. In fact, she didn't know if Zi Yang Heavenly King was just like that, or if he had other intentions.

But she didn't expect this ancient freak to say such a thing.

*He was so optimistic about her? Did he think that these people were not her opponents?*

Could it be that he saw through her? Before that, Gu Xian'er had only heard some news about Zi Yang Heavenly King and knew that he seemed to be the strongest in the Upper Realm, overpowering the world, and his strength was extremely powerful.

But the two had never met before. She felt that Zi Yang's passing from here was some coincidence, but she did not think deeply. Could it be that this ancient freak was waiting for her here on purpose?

"Why don't you quickly apologize?" Zi Yang Heavenly King snorted again and was very dissatisfied.

Song Fan and the others turned pale when they heard what Zi Yang Heavenly Emperor said, and quickly apologized to Gu Xian'er. They were extremely embarrassed and frightened as if they were afraid of Zi Yang Heavenly King.

Seeing this, Gu Xian'er frowned, but she didn't pursue anything. After all, she was not the kind of person who would not let go without taking revenge. The other party had been seriously injured, and had already paid the due price along with an apology.

Of course, she couldn't blame them anymore.

"Then what happened today, that's it, you can get out of here, don't continue to be an eyesore here..." Seeing this, Zi Yang Heavenly King nodded in satisfaction and waved Song Fan and the others to get out.

The drama of the hero saving beauty arranged today was old-fashioned. But as the first time he and Gu Xian'er met in this life, he was still very satisfied. Only then did it seem reasonable and natural, with just the right chance.

Moreover, not many people knew that Song Fan was actually his follower. So Zi Yang Heavenly King was not afraid of being noticed by Gu Xian'er, he arranged, directed, and acted in all of this.

Hearing that, Song Fan and the others sighed in relief, and they were about to leave.

"Hold on." However, at this moment, a faint voice suddenly sounded.

In the void, there was a wave of fuzzy fluctuations as a man in white with indifferent eyebrows appeared.

"Did this Gu allow you to leave?" The figure of Gu Changge appeared here. His voice did not fluctuate much as always.

He didn't look at Gu Xian'er who was a little surprised and stared at him but looked at Song Fan and the others who were kneeling below. His eyes looked very indifferent.

When Gu Xian'er arrived, Wang Zhongyong at the mountain gate had already informed him. Gu Changge was too lazy to come, but considering the character of this girl, if he didn't come, she would run in front of him to provoke him.

As a result, he came here and saw this scene. This Zi Yang Heavenly King was really tired of living. Self-directed and acted in a scene of a hero saving beauty, this little girl hadn't reacted yet, thinking that the other party had good intentions?

It seemed like those few old monsters taught her in vain. If they saw this scene, they would not be half-hearted. Gu Changge wanted to open her head to see what was inside.

However, he didn't pay attention to this Zi Yang Heavenly King before, but now he looked like a person of Great Luck and even had a faint feeling of being a Child of Luck.

"Gu Changge..." At this time, Zi Yang Heavenly King's expression changed slightly, and he felt that something was wrong, and beyond his control. However, he still looked a little surprised on the surface, as if he didn't expect Gu Changge's figure to appear here.

"Young Master Changge, why are you here?" He asked in surprise as if he didn't know the relationship between Gu Xian'er and Gu Changge.

"Gu Changge..."

### **Chapter 277-2: Self-directed and self-acting hero to save the beauty, What are you? (2)**

The surprised look on Gu Xian'er's face flashed by, but she quickly returned to being cold and snorted coldly, "What are you doing here? Did you come to pick me up?"

However, Gu Changge completely ignored her, his expression was indifferent, overlooking Song Fan and the others below.

As for Song Fan and the others, the moment Gu Changge appeared, their faces became snow-white and they lost all their blood. If the fearful expressions just now were faked, then their expressions now were genuine fear.

Even their souls could not help trembling. Under Gu Changge's gaze, they felt that their souls were frozen and cracked, like a humble ant, or even worse.

The fear that Gu Changge brought to them was far more than anyone else's! Subconsciously, they wanted to turn their attention to Zi Yang Heavenly King, but they dared not.

After all, this was equivalent to exposing Zi Yang Heavenly King's plan, and the consequences were equally terrifying. At this time, Gu Changge spoke again and asked lightly, "Do you recognize this Gu?"

His eyes fell, and he looked at Song Fan and the others, without any change in his expression.

"We recognize... recognize..."

Song Fan and the others only felt their scalps go numb, their skulls were about to be opened, their bodies were cold, and they were terrified, and their voices trembled as they replied.

In True Immortal Academy, who didn't know Gu Changge?

"It's good that you recognize me." Gu Changge nodded, his tone still light, "Do you recognize her then?"

He pointed to Gu Xian'er who was staring at him. The expressions of Song Fan and others became more and more frightened, and at this moment there was even despair.

"I know now..."

They could only bite the bullet and dare to do so.

"Now? It's not too late." Gu Changge said lightly, "But Gu has said before that, except for me, no one in this world can bully her. So... how do you want to die now?"

Hearing the word "die", Song Fan and the others couldn't help but tremble, their souls trembled, and they were even more frightened and desperate. Gu Changge's words were not a joke to them.

For a time, everyone was shivering with fear, and their words were incomplete, and they almost kowtowed and cried.

"Young Master Changge, spare our life! Before that, we didn't even know she was your sister!"

"Yeah! Young Master Changge, please spare our life! We don't dare anymore, please spare our lives! All of this is a misunderstanding!"

"If we knew, we wouldn't dare to do this even if we have the courage..."

At this moment, Song Fan was too frightened, full of panic and despair, and kept begging for mercy.

"Gu Changge, you're too much, what does it mean that only you can bully me..."

Gu Xian'er was dissatisfied, so she almost angrily smashed her jade fist on him. But she also knew that it was Gu Changge who was venting her anger on her behalf. As soon as she entered the mountain gate, she encountered this kind of thing.

Since the other party apologized, she also held back her anger. Of course, what Gu Changge said about 'die' was a bit too much in her opinion. After all, this crime was not enough to die.

However, in terms of Gu Changge's temperament, this was his style, which made Gu Xian'er both moved and helpless. As for Gu Changge's concern, most people really dared not accept it.

"Young Master Changge, isn't this punishment too much? Although they were rude, they didn't cause any harm to Xian'er. And those who didn't know were innocent. Before that, they didn't know Xian'er in front of them was your sister."

At this time, Zi Yang Heavenly King had to speak, frowning and persuading. Gu Changge's ruthless character made him a little helpless, and he would kill people at every turn.

He never imagined that things would develop to this point. As soon as Gu Changge appeared, he broke all his plans and expectations. However, Heavenly King Zi Yang still felt that Gu Changge would give him a little face.

After all, he was also a Candidate Disciple, so he had already made excuses.

"They have been punished?" Hearing this, Gu Changge raised his eyebrows slightly.

Then he said lightly, "I don't think about letting them die like this, I think it's cheap for them. Although this girl Xian'er is a bit stupid, not everyone can scheme against her."

"If you dare to calculate against her, then you will have to pay the price. In my opinion, all of them together are not as good as a single hair of this stupid girl."

"My family members, especially this Gu Changge's sister, what kind of cats and dogs can bully them?"

Hearing this, Gu Xian'er was stunned and looked at Gu Changge suspiciously, was she tricked?

*Could it be that all of this was directed and acted by Zi Yang Heavenly King? What was his purpose?*

After all, the two of them had never met before. But soon, she reacted to Gu Changge's next sentence, only to feel her head buzzing and blank again. Her complexion became angry.

*It was going so well, why did he suddenly say such a thing? These people couldn't compare to a single hair of hers? Was there such a compliment?*

This guy, Gu Changge, really became even more annoying.

"Young Master Changge, why don't you give me some face? Today, a few of them will give Miss Xian'er a satisfactory apology. We are all disciples of True Immortal Academy..."

Seeing Gu Xian'er's expression, there was a flash of gloom on Zi Yang Heavenly King's face, but he quickly recovered as he spoke again, very calmly, and said in a deep voice.

"Give you face? What are you?" However, before he could finish speaking, he was directly interrupted by Gu Changge. Gu Changge's expression was as indifferent as always, without the slightest wave.

"Even if I give you face, do you dare to ask for it?"

**Buzz!!**

Hearing this, the place suddenly became quiet, like even a needle could be heard falling. Song Fan and the others were even more astonished to the extreme, trembling all the time, their souls terrified.

And as Gu Changge's words fell, he directly made a move that was extremely powerful.

Accompanied by the multicolored divine light, a palm descended from the air, the divine light surging like a world-annihilating grinding wheel, just like the move of Zi Yang Heavenly King just now.

But the terrifying aura caused the skin to explode and the soul to shatter.

"Gu Changge, you..." Zi Yang Heavenly King's expression was so gloomy that it was hard to see the extreme, and his fists were clenched. He never thought that Gu Changge would say so without giving him any face.

Moreover, he was even more powerful, and he would shoot the few people in front of him to death. However, he still forcibly endured it.

"Zi Yang Heavenly King, please save me..."

"We don't want to die!" In the face of this giant palm, Song Fan and the others were desperate to the extreme, their souls were about to burst, and they wanted to resist.

But they were suppressed by the terrifying aura, and they couldn't even move.

"All of this was arranged by Heavenly King Zi Yang! It has nothing to do with us!"

Seeing that Heavenly King Zi Yang didn't make a move, they forced themselves to endure. At this time, their last hope was gone, and they couldn't help shouting that they wanted to tell the truth.

"What nonsense are you talking about? I was kind enough to save you before..."

Zi Yang Heavenly King's expression also changed slightly, and then he was very indifferent, "At this time, how dare you throw dirty water on me."

**Puff!**

However, Gu Changge didn't give Song Fan and the others a chance to talk more, knowing that Zi Yang Heavenly King had already disregarded their life and death, so naturally, he would not admit it.

This palm fell, and several people suddenly collapsed and exploded, the blood mist drifted away, and their bodies and spirits were both destroyed.

Suddenly it became quiet.

## **7: The Elder Brother returns from the Nine Heavens, Even if you sit at home you are blamed by the sky (Part 1)**

Star Ancestor.

This name was actually not unfamiliar to the ears of many old timers in the True Immortal Academy and even represented a frightening existence from a certain era.

### **Rumble!**

In another direction, insane fluctuations emerged from the extremely terrifying existences from the True Immortal Academy's generation. Even the stooped dark old man, transformed by the old stone, was among them.

His appearance surprised the girl in white named Star Ancestor. The rest of the old antiquities looked even more shocked and saluted towards him.

"Greetings, Old Lao Shi!" The girl in white bowed slightly to the old stone.

Lao Shi smiled faintly, "There is no need to be polite, Star Girl, after not seeing each other for so many years you have become young again."

The girl in white named Star Ancestor smiled bitterly and said, "Elder Shi don't tease the junior, as you know, with this body of mine, it can't be helped."

At this, the Lao Shi smiled, and did not say anything else. He looked at the strange stone below and said, "Speaking of which, this strange stone and I can be considered of the same origin, we are all stones. It's just that he has not been out of the world, even I can not see through its origin."

"Elder Shi must be joking. You even say you can't see through it, then how can we?" The Star Ancestor smiled helplessly.

"I am not saying so blindly." Old Shi laughed. If not for this reason, he would not have come to this place.

In addition to them, this place also gathered many Ancient existences from the Dao Lineages, even the Supreme beings were among them, almost all of them had come to watch the birth of this strange stone.

For a while, almost all eyes were on it!

### **Click!**

In the next moment, the crystal and splendid strange stone suddenly trembled, permeated with a mysterious aura with various dao vein runes surfacing from time to time, appearing mysterious and unpredictable.

The stone began to fall down from above. A crack, surfaced above. There was a brilliant light, reflecting out, even accompanied by a chaotic aura, appearing strange and extraordinary.

A mysterious rune danced in the air.

In a trance, the beings seemed to see the appearance of a mysterious and vast world with Immortal birds and beasts, Divine mountains and Ancient trees, appearing incomparably ancient.

"The movement of this birth is so frightening, could it really be an offspring of the True Immortal....."

"Even if it is not, it is estimated to be almost the same..... Will have a lot to do with Immortality, just this movement, it is comparable to the emergence of many Supreme beings..... This world, could it be the legendary Nine Heavens?"

"But I heard that with regards to the phenomena during the birth, the genius maiden of the Wang family was the most frightening. It's just that Ancient Immortal Wang Family had hidden it well"

"After all, she is the heir of the Human Ancestor Hall. A born Saint, indeed, can not be compared....."

The crowd discussed this, their eyes fell in unison, with incomparable anticipation, shock, and curiosity. No one stopped the process, all of them were waiting for the emergence of the creature in the strange stone.

### **Boom!**

And soon, along with the last crack opening up, a divine talisman rushed to the sky. Immediately afterward, only a figure wrapped in runes, incomparably blurred, unable to see the real face, was sitting in the middle.

What attracted the most attention was the radiant immortal intent emanating from his body. As if a dusty Ancient Immortal from ancient times.

It was evident that this was a man with incomparably ancient clothes, something from many eras ago. But exactly which epoch it was, for a moment, it was not possible to say.

"I've finally come out in the world... This familiar heaven and earth aura, this familiar laws of heaven and earth, I finally left that hellish place in the Nine Heavens. It's not easy to stay there for three hundred years, but it's really a torture."

And at this moment, the man in the strange stone seemed to be talking to himself, his emotions were very excited and emotional. His words were also very old, and not the words of this era.

Even the old stone and others could not hear what he was saying for a while. Vaguely, it felt as if he was talking about the Nine Heavens?

This awed Lao Shi's heart; this language seemed to come from that forbidden era long buried by the long river of time?

This man, could he be a contemporary of him? His expression became incomparably complicated at once, with different thoughts.

"Finally, the day has reappeared, I just don't know how much time has passed in the outside world now. Three hundred years have passed in the Nine Heavens, the outside world should not be very long."

The man in the strange stone was still talking to himself, looking as if he didn't care about everyone who seemed to be nearby. His attention was all focused on the memories in his mind at this moment.

Back in the day, his name was Qin Wuya, and he was still the Eldest Senior Brother of the Endless Dao Sect. His talent was outstanding, was favored by his master, his disciples admired him, he had a young sister who was dedicated to the Dao and had no distractions, and a gentle partner who loved him dearly.

Everything was very happy. But one day, he went out for training and accidentally touched a crack and fell into it. The crack led to the most mysterious place in the legend, the Nine Heavens.

At first he didn't expect that he would be so unlucky, but the Nine Heavens, which was a legendary place that countless people dreamed of, just happened to be encountered by him.

In the land of the Nine Heavens, he encountered many dangers and opportunities, life and death together, misfortune and fortune, suffering there, struggling to live for three hundred years.

Finally, he found an Immortal Origin Stone and tried to find a way to seal himself into it. Because the Immortal Origin Stone was the only thing that could cross the barrier beyond the Nine Heavens and descend to the outside world.

Qin Wuya knew that it was the only way he could leave the Nine Heavens and to search for his division, to find his master, his daoist partner, his junior brother, and his little sister and reunite with them.

Therefore, Qin Wuya was sighing and didn't even notice that many people nearby were sizing him up with different expressions.

"This bloodline, it seems wrong....."

Within the pupils of Lao Shi, there were dao runes flashing, and he frowned, "This aura, it seems to be human. And it's still from a very ordinary human race. What's going on, did I judge it wrongly?"

The little girl named Star Ancestor, who was also nodding, said in confusion, "Yes, his aura is indeed human, and his cultivation level is not very high, could it be a mistake..."

They were surprised and found it a little hard to believe. Because they found that after the light on the man's body dissipated, it looked... he was really too ordinary.

There was nothing out of the ordinary except that his clothes were very old. His appearance was ordinary, his body was ordinary, and even the cultivation level seemed to be only that of the Heavenly God Realm.

This was completely and utterly an ordinary cultivator who could not be anymore ordinary.

The many visions just now seemed to be entirely caused by this strange stone itself, and coupled with the various aura materials piled up by the True Immortal Academy over the years, it caused such a sound.

"Just like this, is it still an heir of the True Immortal?"

"Come on, it's too disappointing."

And among the nearby peaks, many young female disciples were also disappointed, it was completely different from what they had in mind.

"I thought it would be the same as Young Lord Changge, but that's it, this guy is not even close to a True Immortal."

"Rather, it is the Changge young master who looks like he is related to Immortality, but young master Changge is known to have a talent of the True Immortal and it is not just a rumor....."

Whether it was the young geniuses or the old antique, their expression was a little stiff, hard to believe. Under all the expectations, finally appeared such a man, the contrast was more or less was a little big.

### **Chapter 279-2: 8: The Elder Brother returns from the Nine Heavens, Even if you sit at home you are blamed by the sky (2)**

#### **8: The Elder Brother returns from the Nine Heavens, Even if you sit at home you are blamed by the sky (Part 2)**

Compared with the expectations in their hearts, it was a complete avalanche. As the saying goes, the greater the expectation, the greater the disappointment. If his cultivation was high that was okay.

But whether it was the aura or temperament, were not connected with immortality, but like a do not know what the cause, he fused with this piece of strange stone.

"This....." The Heavenly Phoenix Maiden, who was originally looking forward to it, as well as the Divine Emperor, had a bit of a stiff expression, not expecting things to be so reversed.

"This strange stone from the True Immortal Academy that supposedly fell from above the Nine Heavens is a bit disappointing." The Divine Emperor could not help but gently shake his head, a bit deeply skeptical about the word supposedly.

The Heavenly Phoenix Maiden also did not say anything, but the look in her eyes still betrayed her mind. She had thought that this would be a formidable enemy, but in the end, it turned out that it was really a little too ordinary.

Of course, this person was considered ordinary in the True Immortal Academy, if placed outside it should be a genius.

"According to reason, it should not be that simple to..." Old Shi was still seriously measuring Qin Wuya, feeling that this man seemed to be hiding a lot of secrets.

In cultivation words, it also looked a bit odd, he was sealed for so many years, day and night with a variety of heaven and earth spiritual energy watering his body, but he should not be like this.

Could it be that this man was deliberately hiding his clumsiness? At this moment, Qin Wuya finally reacted to his current state, and noticed that many people nearby were watching him.

In his heart, he quickly realized that everyone doubted and despised him. But he didn't care either. Having lived in Nine Heavens for three hundred years, he had learned a lot of truth. Being low profile was the best.

Moreover, his own strength was definitely not just as simple as the Heavenly God Realm, this was just the realm before he mistakenly fell into the Nine Heavens. In the Nine Heavens, his Realm increased sharply, and he also brought back many Immortal objects unique to the Nine Heavens.

So he didn't care about the opinions of the people, unless they really came forward to provoke him.

"Next, first I have to figure out where I am now, how long has it been since I strayed into the Nine Heavens, that's the most important thing." Qin Wuya whispered in his heart, thinking about what he would do next.

And it was extremely lively in the depths of True Immortal Academy, when many geniuses and old monsters gathered to rush. Gu Changge's figure was on the top of another very majestic mountain.

His majestic divine consciousness was like a galaxy, enveloping all directions, and he couldn't feel anything nearby enough to detect his existence, so he was slightly relieved.

"This is the perfect time for me." The smile on the corner of Gu Changge's mouth seemed a bit profound.

Then, his eyes fell, and he quickly noticed Ying Shuang, who was sitting cross-legged and practicing with closed eyes in the cave below. At this time, he didn't plan to do anything to Ying Shuang, because Ying Shuang still had the purpose of staying.

But the water wasn't muddy enough. He needed a secret help.

Afterwards, Gu Changge set his target on the cave not very far from Ying Shuang's cave, but there was still a secluded forest separated by caves of a few geniuses on the way.

The mountains and forests were silent, and the rays of sunshine were only a few. There were a lot of ancient medicines growing outside, and a rich purple haze was spewing out between the stone cracks, transpiring in virtual space.

There was also a cave house here with breath fluctuations, obviously at the critical juncture of cultivation. One of the young geniuses was seated cross-legged, cultivating. He even had a special physique. He didn't even notice Gu Changge's falling gaze.

**Buzz!!**

On the top of the mountain, Gu Changge stepped forward and disappeared into the void in an instant.

"You....." In the cave, an astonishing and unbelievable voice sounded, and it soon became quiet again.

Not long after, Gu Changge's figure appeared again, and there was no wave in his expression. And in the cave, it had fallen into a dead silence, without any aura and fluctuations.

Naturally, there was no arrogance. After that, Gu Changge took another look at the cave where Ying Shuang was located, with a somewhat inexplicable smile, which soon disappeared.

"Reporting to the master, the strange stone of True immortal Academy was born, but it seems a little strange that although the origin of the genius that was born was very ancient and mysterious but his cultivation base was not high."

"It seems to be only at the Heavenly God Realm, which makes many people return in disappointment." After returning to the palace, Gu Changge was a little surprised when he heard the report of the followers below.

"Heavenly God Realm cultivation base? Attracted so many people to go, will this be the result in the end?" He raised his eyebrows.

Gu Changge naturally knew the news, but he didn't go to watch it. After all, he had to take this opportunity to help Ying Shuang "prove" the identity of the inheritor of the demonic art.

"Yes, at that time, many old antiques and Candidate disciples rushed out, but they were very disappointed, and the mysterious genius was finally taken away by the Elders, and it seemed that they had something to ask."

The followers below reported respectfully. Gu Changge nodded, a little thoughtful, and then waved his hand to let him go down.

For some reason, he always felt that this genius that was sealed in the strange stone would not be too simple.

If you talk about cultivation, wasn't Heavenly God Realm too low in True Immortal Academy? And it was just these days that the strange stone was born, a piece of news came out from the mouths of many disciples of the True Immortal Academy, causing a great uproar!

A young genius with a special physique disappeared silently! When a person was cultivating in the cave, he disappeared out of thin air, leaving no aura or fluctuations in place.

Even those Elders, who went to trace the scene at that time, did not find the slightest problem and were helpless. Once the news came out, it shocked many people and caused a lot of panic.

Combined with recent events, many people instantly contacted it with the inheritor of demonic art! After all, many previous deeds had shown that the biggest feature of the inheritor of demonic art was that his shot was to select some genius with special physique, and there was no fluctuation left in the end.

Therefore, many geniuses and Elders came to a conclusion with heavy expressions. There was no doubt that the young genius was murdered by the evil hand of the inheritor of demonic art.

And this matter showed that the inheritor of demonic art had already mixed in, and he was hiding among the geniuses, changing their faces, and no one knew their true identity.

This incident once again caused a huge sensation and panic, and some geniuses were alerted. Many Elders also began to inspect, trying to find the inheritor of demonic art.

"This time, you were too impulsive and reckless. It was not long after entering the True Immortal Academy, and you started to do it. Although you have good concealment methods, at this time, it is too bold. What if someone bumps into it?"

At this moment, in the cave dwelling intertwined with Immortal aura, the figure of Mo Lao appeared here, talking to Ying Shuang with a solemn expression, a little worried.

There was a genius who was poisoned by the inheritor of demonic art. He immediately thought of Ying Shuang. After all, he brought it in himself. Although Ying Shuang had never shown the forbidden demonic art in front of him before,

But combined with the many deeds and rumors that had happened before. Ying Shuang had the identity of the inheritor of the forbidden demonic art, and he could not escape it.

And this time, the inheritor of demonic art reappeared, so he thought that it must be Ying Shuang. That was why he came here and asked him, a little worried that his identity would be exposed.

Hearing this, Ying Shuang said calmly, "I know in my heart, there will be no problem."

Having said that, the fist he hid under his robe was clenched tightly, very angry and unwilling. Although he really needed the identity of the inheritor of demonic art right now, so that Mo Lao would protect him from behind.

But inexplicably, he was once again blamed. This still made him angry and unwilling. When people sit at home, the blame comes from the sky.

*I didn't even leave the cave for half a step, and became the murderer of the young genius again. And I even had to admit it.*

*Was there anything more frustrating than this in this world?*

"If that's the case, then you should be careful and not be too arrogant." Hearing this, Mo Lao nodded, put his mind at ease and left.

"I hate you... You framed me again!"

After seeing Mo Lao leave, Ying Shuang's expression suddenly became twisted and ferocious, angry and aggrieved to the extreme.

## **Chapter 280-1: 09: Even if the Demon Lord is really gone, the world dare not leave my name (1)**

### **09: Even if the Demon Lord is really gone, the world dare not leave my name (Part 1)**

The reappearance of the inheritor of demonic art in the True Immortal Academy soon swept all the disciples. During this period of time, whether they were the Elders, the Candidate disciples, or the Quasi-Candidate, the inner or outer disciples, they all panicked and felt an inexplicable fear.

A young genius with a special physique disappeared in his cave. This incident made many people tremble with fear as a terrifying chill was birthed in their hearts. An inheritor of demonic art was hiding beside them.

Who could be sure that the next disciple to be brutally murdered would not be them? Even Candidate disciples such as Heavenly Phoenix Maiden were extremely vigilant about the inheritors of demonic arts hidden in the dark.

After all, the inheritor of demonic art was an existence who could escape from Gu Changge's hands. He himself had many powerful means and a Supreme weapon. If they really faced the inheritor of demonic art, who could ensure that they would be safe?

"Prince Ying Shuang used to be the descendant of the Heavenly Emperor Mountain, but now he practices forbidden demonic art and has betrayed the Emperor Mountain. As a descendant of the Emperor Mountain, my Ancient freaks will definitely find him and restore peace to this world."

On the contrary, the Son of the Divine Emperor rode the Four-Spirit chariots, rumbling past in the sky with his whole body filled with brilliance, like a God. He used such a voice with the intention of wanting to suppress the inheritors of demonic arts.

The rest of the young geniuses in Emperor Mountain, including Ying Shuang's younger sister Ying Yu and others were searching all over the True Immortal Academy during this period of time with the clues in their hand, trying to find Ying Shuang who disguised himself.

It was just that even the Elders of True Immortal Academy were helpless. Their search was even more ineffective.

"Ying Shuang has fallen into the demon's way. In his eyes, you are no longer his sister... Do you think he will still show mercy when he meets you?" Seeing Ying Yu's silver pupils, his expression was very sad.

The voice of the Son of the Divine Emperor was even colder, leaving no room for her imagination. Hearing this, Ying Yu's expression turned even sad.

"If I meet him, I won't show mercy to him." She nodded, knowing that the Son of the Divine Emperor was warning her, worried about her being emotional.

"It's good that you understand this. I don't want to take action and clear the door again." The Son of the Divine Emperor said lightly.

His own bloodline was not weaker than Prince Ying, or even Emperor Ying. If it weren't for Prince Ying's betrayal of Emperor Mountain, maybe he would not have been born yet, and he would still be sealed.

Moreover, his father was an existence older than Emperor Ying, and his status among the Ancient clans was even higher than Emperor Ying. The Son of the Divine Emperor appeared in person and said such words, but it also made many young geniuses breathe a sigh of relief.

Following him, Gu Changge, the most recognized and strongest among the younger generation today, naturally stood up and spoke out.

"Everyone who inherits the demonic art will be punished. This Gu will definitely cooperate with the Elders to track down his whereabouts and seek justice for the young genius who was brutally murdered."

As soon as he proclaimed, it was like a reassurance pill, which made many young geniuses feel relieved. After all, Gu Changge was already involved with the inheritor of demonic art hidden in the dark, he should have restrained his fears a lot, right?

Many people regarded the actions of the inheritor of demonic art this time as his provocation to everyone.

*Gu Changge said this? Isn't it a blatant response to him?*

"This guy is stealing my show, I obviously said it first..." The brows of the Divine Emperor's son could not help but wrinkle slightly. He was born late, and he did not spread his limelight like Gu Changge.

And during this time, he often heard a lot of young geniuses comparing him with Gu Changge, and he was always the one who was inferior to the other. Although he knew that Gu Changge was indeed very strong, it was really unpleasant that he had been reduced to being a foil for someone.

"This time, I must find out about Ying Shuang, I don't believe Gu Changge can keep pressing me. His strength is at least above the Sacred Realm, and now I'm probably not his opponent."

The Son of Divine Emperor's expression was a bit gloomy, not as confident and calm as many outsiders saw. Ying Yu and the others behind him were also stunned when they looked at the Prince of Heavenly Mountain's expression.

After the Son of Divine Emperor emerged from his seal he had been very tough, and the line of Emperor Ying was severely suppressed. Now even Ying Yu could only obey the Son of the Divine Emperor's orders and arrangements, and could not act at will.

With this, True Immortal Academy became more and more restless. Of course, many Elders had anticipated this incident before, after all, the inheritor of the demonic art, Emperor Ying Shuang, had a strange method.

As long as he concealed his true identity, he could infiltrate safely.

The identity of the inheritor of demonic art was really difficult to detect, even if it was someone from the Human Ancestral Hall who often contended against the descendants of the forbidden demonic arts, it was difficult to find them.

In the blink of an eye, several days passed.

**Ding!**

**Ding!**

**Ding!**

Accompanied by three bells. On the high platform with immortal haze flowing as white mist filled the air. An old man with white hair and beard, with a blurred figure and chaotic energy, was sitting there cross-legged.

This was a very profound Elder. He preached to the many disciples below.

For a time, wonderful whispers sounded from over the world with a golden lotus blossoming, immortal flowers were blooming brightly and blooming in the void, looking very mysterious!

On the nearby mountain peaks, silhouettes flickered, densely packed and it was extremely lively. Many disciples were fascinated and intoxicated as they were filled with amazement when they heard it below. They felt the powerful heritage of True Immortal Academy and the power of the Elders.

There was an unparalleled truth hidden in this gong of the bell alone. Many geniuses had benefited a lot from here, and they had an epiphany on the spot, and even their cultivation base had soared.

Before True Immortal Academy, they couldn't get in touch with people like Supreme beings, but now almost every day, there was a Supreme preaching for them. This treatment was almost completely different.

It was indeed the True Immortal Academy that all the cultivators in the younger generation worshiped.

"Changege, why does the descendant of the Human Ancestor Hall keep staring at you? Did something happen between you two?"

On a huge piece of bluestone, Gu Changege had a slender figure and a handsome face. He had his hands on his back and was listening with interest at the bells of the Elders on the high platform.

For the disciples who had just entered the True Immortal Academy, daily preaching was almost an unmissable practice content. Although Gu Changege didn't care much, many disciples had rushed to come here, so he could also search for some targets.

At this moment, he suddenly heard Yue Mingkong's words and acted as if nothing had happened as he replied casually, "Maybe she knows my identity and is thinking about how to expose me."

Yue Mingkong stood side by side with him and said suspiciously, "Really? But why does that look different to me?"

The two descendants of the Human Ancestor Hall, one was Wang Ziji of Ancient Immortal Wang Family, and the other was Jiang Chuchu. Yue Mingkong had met Wang Ziji earlier, and knew that she was just a pawn used by Gu Changege, so she didn't take it to heart.

However, this descendant of the Human Ancestor Hall in front of her almost exposed Gu Changege's identity in the last life. She had been staring at Gu Changege, had she seen something?

That look had a complex and evasive expression, and seemed as if she did not want to be noticed by Gu Changege. This made Yue Mingkong feel a little puzzled and suspicious.

"However, the Human Ancestor has disappeared, and it is not a cause for concern for the descendants of the Human Ancestor Hall."

Soon, thinking of this matter, Yue Mingkong was relieved again.

"What's the matter? Are you worried about what I did to her?" Gu Changege glanced at Yue Mingkong with interest, and then asked, Jiang Chuchu and Wang Ziji were naturally in True Immortal Academy.

It was just that he didn't want to go and greet them, because the two of them didn't have much value left. Gu Changege couldn't use them for the time being. The Luck points on Wang Ziji and Jiang Chuchu were far less important than the Zi Yang Heavenly King who had recently appeared.

Whether it was Wang Ziji or Jiang Chuchu, Gu Changege didn't need to spend too much time on them.

"That's possible." Hearing this, Yue Mingkong did not deny it.

Gu Changege smiled, "The other party is a descendant of the Human Ancestor Hall, how could I have the ability to attack her?"

Yue Mingkong didn't believe his nonsense. The more Gu Changge said it, the more it showed that something was wrong.

However, she didn't say anything.

Recently, she had already inquired about the cultivation habits of Qing Xiao Yi and Qing Feng, and knew that there were many old monsters around them. If she wanted to seize the bottle in Qing Feng's hands, she still had to wait for a suitable time, and she was also not clear about Gu Changge's plan.

He still seemed to be letting Ying Shuang take the blame and had no plans for the rest. Then, the Elders on the high platform finished their preachings. Many young geniuses had a face of regret as they were still unfulfilled.

"After half a month, True Immortal Academy will conduct the first trial after admission. Everyone's cultivation resources will be determined by this test."

"At the same time, the Elders will also choose apprentices based on this trial."

The Elder announced before leaving. After just entering the mountain gate, many young geniuses were divided according to their Realm of cultivation, but the actual combat ability did not equal the Realm.

Therefore, this was the introduction to the trial. Hearing this, many people were stunned for a moment but soon the place boiled up, and almost everyone was excited. The younger generation was young and energetic, how could there be less competition? Their purpose was to be famous among all parties.

Before that, many people were already holding back and had nowhere to vent. Wasn't this trial an opportunity to show their strength? The first trial after admission would be held half a month later!

Soon, the news spread, triggering a small earthquake. Many young geniuses had already started to prepare, planning to shine in the trial after half a month! Even Candidate disciples were no exception and were preparing for this.

"Although it has not been said how this trial will be held, this may be another opportunity for me." Gu Changge's gaze fell on a distant mountain top, where the purple aura was steaming, and a purple-robed man stood like a small purple sun.

## **Chapter 280-2: 0: Even if the Demon Lord is really gone, the world dare not leave my name (2)**

### **0: Even if the Demon Lord is really gone, the world dare not leave my name (Part 2)**

It was Zi Yang Heavenly King. During this time, he had sent someone to investigate his origin. Formerly known as Zi Yang, he was born in Purple Mansion, an Immortal sect.

He overwhelmed his peers and became the number one in the Upper Realm, and then he made himself the only one who was born in this era. Logically speaking, he and Gu Xian'er should have nothing to do with each other.

But among the origins that Gu Changge found, the day Zi Yang Heavenly King was born, the purple energy spread to 30,000 miles away, and he seemed to be accompanied by a mysterious Dao bone. His talent was terrifying, and he was far more mature and stable than his peers.

"He should be born with predestined wisdom and a mysterious Dao bone. It just so happens that Gu Xian'er was also accompanied by a Dao bone..."

Gu Changge's expression was somewhat inexplicable. Many thoughts flashed through his mind. Although such a routine was rare, it was not like he had not encountered it before.

Zi Yang Heavenly King might have known Gu Xian'er in his previous life.

In this life, if he hadn't dug out Gu Xian'er's bones, Gu Xian'er might have awakened some kind of past life memory.

"Gu Xian'er has some kind of strange template. Could it be that she was a big boss in her previous life?" Gu Changge's smile was a bit intriguing, there were really all kinds of routines, and this God really liked facing him too much, and had deep malice towards him.

However, when a leek arrived at his door again, he smiled. "System, the template on Zi yang Heavenly King's body is actually in line with the setting of the Son of Luck, and his own Luck points are enough. But why wasn't the corresponding quest triggered?"

Gu Changge asked the system in his mind about something he was more concerned about.

Logically, the existence of Zi Yang Heavenly King should be regarded as the reincarnation or rebirth of the Son of Luck, and it still conformed to the usual Son of Luck template.

However, compared with the so-called "30 years in the east and 30 years in the west", it was relatively rare. Could it be for this reason? Gu Changge was thinking.

The system responded proactively, "Zi Yang Heavenly King doesn't possess enough Luck points to trigger the system quest. During this time, the Luck is so weak that there are too many people with Great Luck. The Child of Luck that the Master needs to trigger is actually someone else."

"Someone else?" Gu Changge raised his eyebrows slightly, revealing his thoughts. The system had prompted this, which meant that this so-called Son of Luck was not far from him.

In other words, it was in the True Immortal Academy?

"That strange stone that fell from the Nine Heavens?" Soon, Gu Changge locked the target. After all, except for the strange stone, the other genius's Luck points were not related to the Son of Luck in his opinion.

Even the Son of Divine Emperor, Jin Chan Buddhist, Heavenly Phoenix Maiden and others were like this, at most they had Great Luck.

"Could that stone be a strong man who returned from Nine Heavens?" Gu Changge couldn't help shaking his head slightly. The usual style of this routine was to pretend to be a pig and eat a tiger.

He was way too familiar with it. Therefore, the man who came out of the strange stone was definitely not only in the Heavenly God Realm, but he was probably a very terrifying powerhouse.

But it seemed to be ordinary, with a face that was easy to be ridiculed and despised.

"That is to say, he was originally supposed to be a character in this world, but due to some accidental reasons, he strayed into the Nine Heavens, stayed in it for many years, and then was enclosed in a strange stone, and then he fell out..." Gu Changge's smile was somewhat intriguing, and he quickly analyzed its origin.

This way, things were much simpler. The return of the powerhouse?

Such a routine, the most common one was the so-called return of the Immortal Emperor, finding that his daughter lives in a hut, and was still single, millions of Heavenly Soldiers from the Immortal Realm rushed to...

Of course, what Gu Changge met this time was not the so-called Immortal Emperor, but the strength of that mysterious man should not be underestimated.

"Ding, the return of the Son of Luck triggers the quest, senior brother who has returned from the Nine Heavens."

At this time, after Gu Changge figured out all of this, the system prompted, which was not bad as he expected.

"Senior brother who returned from Nine Heavens?" Gu Changge slightly raised his eyebrows.

He asked, "What about the system prompt this time?"

**Buzz!!**

And as Gu Changge's words fell, the familiar feeling emerged once again, light and shadow passed in front of him, and the picture was still emerging. In front of the tall and magnificent mountain gate, the three words of Endless Dao Sect were extremely ancient, revealing vicissitudes and antiquity.

Although these three big words were not the words of this era, Gu Changge recognized them at a glance. This made him a little puzzled, thinking of something.

"Master, big brother has been gone for so long. Misfortune has stuck him. You also have my condolences." In front of the mountain gate, a young disciple in a purple robe said sadly.

"Impossible, Wuya's soul lamp hasn't been extinguished, it is impossible for him to have a life crisis... He must be trapped somewhere, and he will definitely come back. Master is here waiting for him to come back!"

An old man who did not look angry and arrogant, shook his head when he heard the words, his eyes were full of determination, and he did not believe in this matter at all.

After all, Qin Wuya was his favorite disciple, and he was also his adopted son since childhood. He was mature and steady, shouldering the heavy responsibility of restoring the Endless Dao Sect.

How could he have an accident?

"Father, if Big Brother is okay, he will definitely come back. Don't worry too much."

A woman with beautiful and upright features who was very gentle was persuading the old man. But when she mentioned the big brother, a ray of sadness flashed in her eyes.

"If the big brother is not there, you still have a little sister... Senior Sister and Master, don't be too sad. I think Senior Brother will be fine." The young disciple wearing a purple robe changed his tune at this time and said quickly.

Hearing this, the old man shook his head, sighed, and turned his eyes to the distance.

On one side of the bluestone, a woman in blue clothes was sitting cross-legged, her expression was cold, and there was no trace of superfluous emotions, and she was cultivating very hard and earnestly.

"Dao Xian didn't let the teacher down..." In the eyes of the old man, there was relief and satisfaction.

### **Boom!**

But at this time, in the distant universe, there was a sudden loud noise, which made several people in front of the mountain stunned. Immediately afterward, the sky cracked open, creating unimaginably large cracks, and then collapsed piece by piece like melting snow.

Among them was the scene of the Great War of Ten Thousand Immortals, which was so terrifying that it made the heavens tremble. Asgard, standing in the center of the Endless Universe, collapsed and cracked, turning into dust.

An existence with a Purple Gold Immortal Crown on his head, whose aura covered the ages, was pierced by a halberd as his entire body split open, and his blood spattered on the universe!

"What is this....."

"All the immortals are bleeding, Asgard has collapsed, and the Immortal Lord has also lost..."

This scene stunned everyone, and their expressions became desperate, fearful, and horrified.

In the picture, they saw a giant hand wrapped with hundreds of millions of demonic energy, terrifying to the extreme, as if it had emerged from across the infinite universe, the sky crumbled, and the universe collapsed.

Even the legendary river of time had dried up and turned into countless fragments! Countless Dao lineages and clans were all turned into ashes under this palm, and hundreds of millions of living beings disappeared between heaven and earth.

Destroying eight thousand states with one palm, and there would be no one left in nine heavens!

Then the scene ended.

After observing all of this, Gu Changge's expression did not waver.

"Endless Dao Sect? No wonder I recognize those ancient characters. It turned out to be the era buried in the long river of time..."

He whispered to himself, from this prompt he had already understood many things. The woman who was meticulous and focused on the cultivation while sitting on the bluestone should be Gu Xian'er in her previous life.

As for the purple-robed young disciple, it was obviously Zi Yang Heavenly King. And the disappearing senior brother fell into the Nine Heavens and then walked out of the strange stone in this life.

In this way, things became much more coherent.

"The so-called system prompts are actually dug out from my memory. Maybe even the origin of this system has a lot to do with me." Gu Changge quickly thought of other things in his mind.

Judging from these memories, the matter of the Demon Lord's annihilation was not so simple. As for why? It didn't really matter to him.

Speaking of which, the trouble caused by his Demon Lord's vest was really a lot, and all of them were involved in this life. No wonder even Lao Shi, the stone monster who was originally his butt pad, was so jealous and afraid of him.

"The final boss of the forbidden era of daring love is actually the Demon Lord. Time has passed, and even the world's dare not leave my name... The demise of the Endless Dao Sect only affected the pond fish... However, if you trample an ant to death, what should you care about."

As these images emerged. Gu Changge felt a throbbing pain from the depths of his soul as if a spontaneous memory was about to wake up. The Eight Desolate Demon Halberd in the weapon space was also trembling slightly, giving off a feeling of excitement and thrill.

"Those who should come back will come back sooner or later. I am the Demon."

Gu Changge whispered to himself, feeling the beating of the demonic heart gradually calming down. Afterward, his figure turned into a divine light and he left this place to prepare for the next plan.

The Child of Luck must be harvested, but the return stream involved this time was far more troublesome than before. Of course, dealing with Zi Yang Heavenly King was quite simple, but that guy was not stupid, he was very patient, and he did not directly conflict with Gu Changge.

It was also impossible for Gu Changge to act directly on him in the name of the wrong person. Not to mention whether it could be successful or not, the Elders of True Immortal Academy and the Purple Mansion Immortal Sect behind him would not sit still.

Therefore, he still had to be crushed by the general trend, just like before, holding the banner of justice, so that people know his intentions, but they wouldn't stop him.

Of course, by the way, let him lose his reputation and have a relationship with the inheritor of demonic art, then even Purple Mansion would not dare to protect him. At the same time, Gu Xian'er, who had listened to this preaching, was rushing to the cave where she was, with a look of comprehension.

It was the exact opposite of the direction Gu Changge left. She only got up after seeing Gu Changge disappear. During this time, she had been avoiding Gu Changge and not meeting him.

And Gu Changge was more straightforward than her, so he didn't bother to care about her at all. This gave Gu Xian'er a sigh of relief, but at the same time, she felt a little lost in her heart, and she became a little angry at Gu Changge.

Obviously, she was the one who took advantage of him, how could it seem like she had suffered a big loss?
