Chapter 311: It turns out that Gu Changge will also be injured and prince Sheng is probably dead

"This....."

All the geniuses who arrived couldn't help but open their eyes wide and looked at the scene in front of them in shock.

In fact, just now, if it wasn't for the terrifying aura that suddenly penetrated the sky, reflected in all directions, and dispelled a large area of Heavenly Extinction aura. They won't be able to notice the movements here and come soon.

On one hand, the distance was too far, and many geniuses did not have the terrifying perception ability of Candidate Disciples such as Gu Changge. On the other hand was the influence of Absolute Heavenly Extinction.

Geniuses who rushed here not only had to be careful to watch out for the inheritor of demonic art. They had to kill the Heavenly Extinction beings that attacked them, so they had no time to care.

Now, a young figure was standing in the sky.

His black hair was like ink, his eyes were deep, and his whole body was glowing like an immortal god, surrounded by five colors of divine light. Between the gestures, the rhythm of Dao was hanging down, and the laws were intertwined as if he was the center of heaven and earth.

The scene was unparalleled.

But in contrast, there was a shocking and terrifying injury on this young figure and his robe had almost been dyed red with blood. Such a scene shocked many geniuses in place, their scalps tingling, and they couldn't believe that it was Gu Changge.

That otherworldly, almost perfect man who didn't have any flaws, how could he look like this now? What kind of terrifying war was going on here?

"Gu Changge..."

Gu Xian'er also froze in place and muttered, she couldn't believe it.

In all her memories, Gu Changge had always been so strong and confident, without any omissions, and calm. As if he would easily withstand it even if the sky fell.

She still remembered that the last time Gu Changge was injured was a long time ago.

In the Ancient Immortal Continent, in order to rescue Yin Mei, he was hit hard by the inheritor of demonic art and hurt his origin. But today, he was injured again, and it was also because of the inheritor of demonic art.

And compared to the last time, the injuries he suffered this time were even more terrifying. Even from a long distance, she could feel the paleness of Gu Changge's face and the rapid dissipation of his aura of life.

It wasn't that she couldn't see it, but now Gu Changge's state was very weak, his blood was extremely drained, and he was completely supported by the forbidden technique. This made Gu Xian'er feel very sad as if her heart was tightened.

The jade hand couldn't help clenching tightly, giving birth to the cold killing intent towards the inheritor of demonic art. It turned out that Gu Changge would also be injured.

It was not as she imagined, almost omnipotent.

Boom!!

The sky was trembling, and countless laws and orders were interwoven there as if it had become a boiling ocean. Following Gu Changge's celestial cover, the aura entwined with colorful rays of light spewed out.

Then it turned into a long dragon and gathered into the Golden Decree. It suddenly came to life with a buzzing sound.

Hundreds of millions of divine lights erupted, dazzling, splendid, and impossible to look directly at.

In the eyes of the many geniuses who came here, this was like a round sun reflecting in the heavens and the entire world.

Even the most terrifying Heavenly Extinction aura at this time became like melting ice that was quickly dissipating and disappearing.

Many people didn't even dare to look directly, their eyes were extremely painful. Even if they closed their eyes, it was very painful, and they couldn't help shedding tears.

Boom!

The Golden Decree lifted into the sky, and many of the sword lights were like a galaxy, rumbled and turned there, majestic and vast, and then suddenly slashed into the void.

The rune of Dao collapsed, accompanied by a few muffled hums. After that, the void broke open, and a terrifying and astonishing crack appeared, which spread out for thousands of miles in an instant.

However, even if such a terrifying divine might burst out, even the sky was submerged and covered by such fluctuations, the inheritor of demonic art still escaped, and with his four Great Sacred Realm cultivators, he disappeared soon.

Everyone watched in shock.

Jin Chan, who was recovering from his injuries in the distance, returned to his peaceful and unwavering image in front of people. He was chanting the Buddha's name without saying much.

In his opinion, at a critical time, Gu Changge showed such strength, in addition to deterring the inheritors of demonic art. His purpose was for reputation.

"Fame and reputation..." He couldn't help shaking his head slightly, not understanding why Gu Changge used such a method at that time.

Burning the origin and source of life, if one was not good, it was likely to fall into the root of the cultivation, and it would be difficult to make a breakthrough.

At this moment, the black fog was surging, and there were only the remaining fluctuations between the heavens and the earth, telling everyone what happened here.

In this kind of world-shattering battle, even the Great Sacred Realm cultivator would have a hard time surviving in it, and every inch of the void was filled with that kind of aura that made the soul tremble and almost crack.

The kind that could penetrate into the soul.

"It's a pity, I didn't have time to make a move in the end. If I got here earlier, I might have done something..."

Many people regretted that they did not expect to see the inheritor of demonic art fleeing as soon as they arrived here, and were not able to make a move against them.

However, it was also evident that in this case, even the old monsters who were most proficient in the laws of space could not intercept the inheritors of demonic arts.

Since the inheritors of demonic arts dared to plot against the geniuses of the entire heavens, they had arranged everything in advance. Among them, it naturally included such things as space portals.

Of course, many geniuses breathed a sigh of relief and felt a little fortunate. The power of the inheritor of demonic art had long been deeply appreciated, and it was already a blessing to be able to survive.

They didn't expect the inheritor of demonic art to be wiped out so easily. But soon, someone noticed the anomaly.

Although this battle was very terrifying, and the remaining aura was so heart-pounding, one person was missing.

Prince Sheng!

"Why can I only see Young Master Changge and Jin Chan? Where is Prince Sheng?"

A young supreme of the ancient royal family was a little puzzled, his eyes swept all over the place, but he didn't see any trace of prince Sheng.

"Yeah, I remember that Jin Chan and Prince Sheng came first, and then Young Master Changge came later. Could it be..."

The expression of this genius changed, his face turned pale, his voice stopped abruptly, and he didn't dare to say anything more. The followers of Prince Sheng, including Ying Yu, also panicked and felt very uneasy, and began to look around for traces.

"Prince Sheng's aura has disappeared. If I guessed correctly, Prince Sheng already had a lot of bad Luck." Heavenly Phoenix Maiden took the initiative to speak, her expression was very heavy.

Strands of immortal phoenix-like runes flashed in his eyes as if small immortal phoenixes dancing with her.

Her words made the expressions of the followers of Prince Sheng change greatly, and they lost all their blood with a swipe. They couldn't believe that it was real, it was like a thunderbolt, their feet were weak, and they were about to kneel down.

The geniuses who were paying attention to all this nearby were also horrified and shuddered.

"Prince Sheng's aura has indeed disappeared. I am afraid he is dead. I really didn't expect that it would end like this in the end."

"I wonder what the Emperor Mountain behind Prince Sheng would do if they knew that Prince Sheng died at the hands of Prince Ying?"

The Six Crown King nodded.

While saying this, his voice became intriguing, but his expression didn't fluctuate much.

Chapter 312-1: Buttoning the hat, adding fuel to the fire, Jin Chan triggers public anger (1)

"Prince Sheng has fallen..."

As soon as the Six Crown King said this, the place fell into a dead silence, and the expressions of many people changed greatly, revealing fear.

If there were still people who were doubting whether things were true just now, it was almost confirmed now.

After all, it was not only the Heavenly Phoenix Maiden who felt this way, but even the Six Crown King who had always been low-key and mysterious said this.

Were there any other possibilities? Neither of them was the type to talk nonsense.

"This..."

"Did Prince Sheng really fall here... No way, Prince Sheng is a descendant of the Emperor Mountain, son of the Divine Emperor, is powerful and has many trump cards, how could that be..."

"This time, the inheritor of demonic art planned a trick to kill everyone. It's really ruthless!"

Many geniuses who heard these words were stunned at the moment, their scalps were numb, and the cold air swept through their bodies. Someone couldn't help but mutter and ask in a trembling voice.

"Impossible, Master is so powerful, and with the protection of the Supreme weapon bestowed by the Emperor, how could he fall here..."

"This must be fake, Master must be in the rest of the world now, and he didn't come here."

Hearing this, the followers of Prince Sheng were stunned for a while if they were struck by lightning, their faces pale in fear, and it was even more incredible.

In their eyes, Prince Sheng was destined to be invincible, and he will pass by in this life and achieve the pinnacle. How could he fall into the hands of the inheritor of demonic art?

They dared not imagine what would happen if Heavenly Emperor Mountain knew about this.

It was estimated that the shocking waves and boundless earthquakes were not an exaggeration to describe it.

"Ugh..."

"After all, even young master Changge has been severely injured, and it is not impossible for Prince Sheng to fall here."

Many people sighed, their eyes were very heavy, their moods were complicated, and they all had a premonition of what would happen next.

The Upper Realm, which had been calm for a long time, would definitely cause a sensation again because of this incident.

"Given Gu Changge's strength, it seems that Ying Shuang is really not to be taken lightly."

The Six Crown King, Heavenly Phoenix Maiden, and the others didn't care about the followers of Prince Sheng. They quickly turned their attention to Gu Changge, with different expressions, and then they moved and walked over.

"Amitabha, it's time for you fellow Daoists to come. It's a pity that Prince Sheng has already encountered the poisonous hand of the inheritor of demonic art..."

On the other side, Jin Chan, who was almost in good condition, also came over. As he walked, there were bloodstains on his clothes, and the Buddha's light was looming.

There was a sense of detachment. Hearing him say this, the young geniuses, who were still holding a lot of hope, also had a gloomy expression.

"Jin Chan knows the cause and effect?" The Heavenly Phoenix Maiden couldn't help but ask.

With her slender and straight legs, she was much taller than the average female nun, giving people indescribable oppression when she speaks.

"I only know one thing, when this little monk came, Prince Sheng had already been killed by a poisonous hand, and even young master Changge had been seriously injured. This little monk doesn't know anything about what happened before this."

Hearing this, Jin Chan said with a slight smile, and the answer was not leaking.

"Really? Even Jin Chan doesn't know what happened here. No wonder Jin Chan is in good condition and has not suffered any injuries."

The Six Crown King showed a strange look, looked up and down at Jin Chan, and said with some interest.

In his opinion, Jin Chan's cultivation strength was at most similar to that of Prince Sheng. Previously, he clearly rushed into it together with Prince Sheng, but Gu Changge chased after him later.

As a result, Prince Sheng died and Gu Changge was seriously injured, but he was safe and sound, not even seriously injured. This was really strange, or he was really hiding deeply.

Either he was not involved in that war at the time and found a place to hide.

Jin Chan's statement was nothing more than an excuse for not wanting to admit that he had a premonition of danger and chose to retreat.

Many people thought of this, and their expressions changed slightly, but they did not break it, and their hearts were filled with fire. Hearing that, Jin Chan was not surprised at all, and still smiled and said, "The little monk is also very regretful, about why he didn't arrive earlier."

Afterward, everyone rushed to the place where Gu Changge was cultivating, but the mountain range was almost completely occupied by his followers. Everyone's eyes swept around vigilantly, in case someone suddenly burst out at this time and attacked the seriously injured Gu Changge.

After all, who knew if the inheritor of demonic art had any hidden alliance.

Many treasures shrouded the heavens and the earth, and even many holy artifacts could be seen floating, and various colors of rays and mists hung down, exuding a dangerous atmosphere.

Gu Xian'er, Yin Mei, and others rushed over as soon as they arrived here. At this moment, they all looked at Gu Changge with worried expressions.

Even Gu Xian'er, who was used to bickering with Gu Changge, held her pair of jade hands together. She was worried and was looking very uneasy.

It was the first time she had seen Gu Changge hurt so badly. But at this time, she didn't know how to help him. She could only watch him constantly fight against the demonic energy in his body, his face was calm but it was extremely pale.

This reminded her of when she was in Heavenly Dao Immortal Palace before.

In order to repay her for digging her Dao bone, Gu Changge asked her to attack him, and then he did not resist at all and abruptly took her blow. The same was true for that blow, which almost completely pierced and tore his entire body, and the injury was shocking.

"Senior Brother Changge has a strong cultivation base and a deep foundation. This injury should not be a problem."

Listening to these words, Yin Mei calmed down and comforted her. Gu Xian'er nodded, and her expression softened a little. But she also had another concern, that was, Gu Changge's injury was so serious, if he couldn't suppress his demonic heart, what should she do?

When that happened, apart from Gu Changge himself, no one here would be able to help him.

"How is Brother Changge?"

The Heavenly Phoenix Maiden, the Six Crown Prince and others also came here soon.

Heavenly Phoenix Maiden was the one who spoke out, and there were wisps of divine light in her eyes.

One after another immortal phoenix-like runes flickered around her as she looked at Gu Changge's current situation. The same was true for the Six Crown King, divine lights flickered in his eyes, and various runes circulated.

He was seriously investigating Gu Changge's aura, and finally shook his head slightly in his heart after finding that Gu Changge had indeed hurt his origin. And because Gu Changge cast a forbidden technique just now, burning his origin of life, causing the injury to increase, nobody knew he would be able to recover.

This was much more serious than the injury he had guessed when he just came here.

"This time, the plan of the inheritor of demonic art was really successful. Gu Changge will not be able to use his spiritual energy for half a month."

"Emperor Mountain is bound to be furious because of the death of Prince Sheng, but there is nothing they can do. After all, Prince Ying was once a descendant of Emperor Mountain..."

The Six Crown King pondered in his heart and gave Jin Chan a slightly different look. His expression was extraordinarily calm. Even with the Buddha's light looming, he didn't seem to care much about Gu Changge's injury.

Or he had known all this before.

"Amitabha, Young Master Changge, in order to compete with the inheritor of the demonic art, did not hesitate to burn his origin even when he was seriously injured. Such a heart and righteousness make this little monk really admire him."

Jin Chan said with a slight smile.

Then, he took out a crystal clear pale yellow medicinal pill from the Buddhist robe with many Buddha lights reflecting on it, creating a colorful light, which was very mysterious.

A holy light emerged from the void. It seemed that there were many eminent monks who had attained the Dao sitting there, chanting till rebirth and dispel everything.

"This is a unique holy Buddha pill from the Buddha Mountain. It is refined by the monks who have attained the Dao with the power of merit and virtue. It is very effective in expelling all kinds of evil and demonic aura. Perhaps it will help for the injury of young master Changge."

Gu Changge was sitting there cross-legged, his expression calm and unwavering, strands of black mist lingered, and he seemed to have an evil spirit.

However, apart from the serious injury, nothing different could be seen on him.

Hearing this at this time, he opened his eyes and glanced at him lightly, "Jin Chan's kindness is understood by Gu, but you should keep this Holy Buddha pill for your next use. Next time, if the Buddha's son encounters the inheritor of demonic art again, he will not be as lucky as he is now."

Although he said it lightly, the expressions of many geniuses changed. Many of the people present were not stupid, and they could all hear Gu Changge's dissatisfaction with Jin Chan, as well as a light mockery.

This made many people frown and they began to rethink the cause of the matter. Six Crown King also narrowed his eyes, a little interested. He vaguely guessed the reason why Gu Changge said this.

"What happened?"

"Why does Young Master Changge have such an attitude towards Jin Chan?"

Many geniuses looked over and looked confused, thinking that this should have nothing to do with Jin Chan.

Gu Xian'er, Heavenly Phoenix Maiden, and others were also staring at Jin Chan as if they wanted to see him give an explanation.

"Yeah, what happened at that time? Why did Jin Chan, who went in first, come out unscathed, but Young Master Changge was severely injured?"

"Could it be that the inheritor of demonic art did not attack Jin Chan?"

When the crowd first rushed over, they happened to see Gu Changge forcibly urging his origin, burning blood, showing a terrifying blow, and forcing the inheritor of demonic art to retreat.

At that time, many people didn't notice Jin Chan, and they didn't know what he was doing at that time. Thinking of this, many geniuses guessed something and felt a kind of contempt and disdain for him.

As a Buddhist, he did not show up at the critical moment, but let the severely injured Young Master Changge fight hard. In comparison, although Gu Changge was usually domineering, his righteous actions were even more admirable.

"I would like to thank brother Changge for your concern, but there are still a lot of Buddha pills on this little monk. If I unluckily encountered the inheritor of demonic art, there is a way."

Jin Chan did not expect Gu Changge to say such a thing, his expression changed slightly, but he quickly recovered and smiled slightly.

"Jin Chan was really lucky this time. Who would have thought that you would act separately at that time?" Gu Changge sighed slightly but did not deny it.

Then, he planned to get up, but this seemed to touch the injury, which made him pale again, coughing blood from his mouth, and he looked even weaker.

This scene made the hearts of many beautiful girls tighten.

Was this still the young master Changge they knew and admired? At this moment, he was more like a banished immortal left in the abandoned world, suffering all kinds of hardships.

"Gu Changge, are you alright?" Gu Xian'er hurried over to support him, her worry was evident.

"It's okay, it's nothing."

Gu Changge looked at her and smiled slightly, but before he could finish speaking, blood gushed out from the corner of his mouth, and his face became paler.

"Don't talk, you are still trying to be brave at this time." Gu Xian'er felt a little distressed, took out a clean handkerchief, and wiped off the blood for him.

Everyone's expressions were different. Many people know about Gu Xian'er's identity, so it was not surprising.

"What the young master Changge said is very true. The little monk should have been with Prince Sheng at that time. If he hadn't acted separately, he would not have encountered such a poisonous hand."

Hearing this, Jin Chan also sighed and didn't expect Gu Changge to say this. Was it an explanation for him? This made everyone look a little puzzled.

Chapter 312-2: Buttoning the hat, adding fuel to the fire, Jin Chan triggers public anger (2)

"Since Jin Chan knew that all this was the plan of the inheritor of demonic art, why didn't he stop Prince Sheng?"

Afterward, Gu Changge asked with ease, regardless of Gu Xian'er's staring at him. Anyway, in doing things like buttoning a hat, he was very good at it.

An accident happened to Prince Sheng.

The inheritor of demonic art bore the brunt, but Ying Shuang's identity was a bit embarrassing, after all, he was also a descendant of Emperor Mountain.

At this time, he naturally had to find a way to make Emperor Mountain build momentum. No matter from which point of view, Jin Chan was the best choice.

On the other hand, the Hanging Buddhist Temple was built on Buddha Mountain as a place to guard the changes in the Burial Demon Abyss. Gu Changge's action on Jin Chan was also for the consideration of his subsequent plans.

"Gu Changge, can you stop talking, it hurts..." Gu Xian'er said in a low voice.

"Young Master Changge, what does this mean?"

Hearing this, Jin Chan's expression changed slightly, but he remained calm. He knew that Gu Changge wanted him to feel guilty. At that time, he did know that all of this was the calculation of the inheritor of demonic art, but he still did not stop it.

He felt that Prince Sheng was overconfident, and he knew that he would not listen to what he said. Stopping him wouldn't work at all. Rather than wasting time, he let him fend for himself.

But now, Gu Changge holding on to this matter was tantamount to instantly pushing him to the cusp of the storm.

"Jin Chan knew that all of this was the plan of the inheritor of demonic art?"

The expressions of Heavenly Phoenix Maiden, Ying Yu, and others changed, but the expression of the Six Crown King remained the same as if he had already guessed it.

Many geniuses were also angry after hearing this, and they looked at Jin Chan very angrily, and asked him to explain. Especially the followers of Prince Sheng.

Since Jin Chan knew that this would be a conspiracy, why didn't he stop it? Wasn't this him wanting to kill Prince Sheng and Gu Changge? No wonder Gu Changge had such an attitude towards him just now.

"As a monk and a descendant of Buddha Mountain, you don't have compassion, but have such vicious thoughts... Jin Chan, shouldn't you explain it?"

The geniuses of Heavenly Emperor Mountain couldn't help but ask if they normally would not dare to ask Jin Chan like this. But today Prince Sheng was killed, and they won't be much better in the end. Naturally, they were not afraid of anything.

"Why did Young Master Changge say this?" Jin Chan asked again, looking at Gu Changge calmly. The others were ignored.

"This cultivator didn't lie, and I hope Jin Chan can frankly confess all this and give an explanation to prince Sheng." Gu Changge calmly looked at him.

Gu Xian'er was a little annoyed when she saw that he was ignoring her, but knowing that he was seriously injured now, she didn't care about him. At this moment, she looked at Jin Chan's eyes, and there was also faint wickedness in her eyes.

"I also hope that Young Lord Changge will do justice to my Master!"

"I implore Young Master Changge to do justice for my Master!"

Puff!

Seeing this scene, all the geniuses of Heavenly Emperor Mountain fell to their knees, knowing that Jin Chan would not care about them, so they begged Gu Changge to make decisions for their murdered prince.

They knew that, except for Gu Changge, no one here could seek justice for Prince Sheng. Buddha Mountain behind Jin Chan was not weaker than Emperor Mountain.

The Six Crown King and others also looked like they were watching the fun from the sidelines. Although the fall of Prince Sheng was related to the inheritor of demonic art, on the other hand, it was also related to Jin Chan.

"Get up, for Prince Sheng, Gu is really helpless." Gu Changge glanced at them and sighed, somewhat helplessly.

"Young Master Changge is really able to anticipate things like a god. This little monk did guess at that time that all this was actually a conspiracy of the inheritor of demonic art..."

Jin Chan also sighed at this time. The monk did not lie. Although his temperament was different from that of other monks, he still had to abide by many precepts.

Lying also meant breaking the precept. Otherwise, any profound Buddhist teachings that had been cultivated for many years would be in vain.

Hearing this, everyone's pupils shrank. They didn't expect Jin Chan to admit it so calmly, which shocked them.

"It seems that Prince Sheng did not die unjustly." The Six Crown King smiled and had expected this.

Although Jin Chan was a monk, he was actually very shrewd. In the face of the conspiracy of the inheritor of demonic art, he chose to retreat, and Prince Sheng did not notice this.

"My master has no enmity with you, why did you want to harm him, Jin Chan?"

When the geniuses of Heavenly Emperor Mountain heard his words, they stared at Jin Chan with anger and hatred and asked him to give an explanation.

"Prince Sheng insisted on sending himself to death. What does it have to do with this little monk? Even if I persuaded him at that time, I would not be able to persuade him."

"My condolences, everyone." Jin Chan replied with the same expression.

In the face of his answer, many geniuses became angry again. Compared with Jin Chan's usual dignified appearance, these words now seem extremely hypocritical.

Seeing death and not saving it in his mouth had become a persuasion? Prince Sheng was not an idiot. If he knew that this was a conspiracy, he would definitely choose to retreat instead of going to die.

On the contrary, it was Gu Changge who was seriously injured many times because of the inheritor of demonic art. He was usually a strong person, but in the face of such righteousness, he did not hesitate to stand up, which made many geniuses admire him.

In comparison now, more geniuses were convinced by Gu Changge.

What Jin Chan said already triggered public anger!

Even for the Heavenly Phoenix Maiden and the Six Crown King, at this time, it was difficult to say anything more.

Seeing that many people were filled with righteous indignation, they were about to seek justice for Prince Sheng, Gu Changge waved his hand at this time with a little helplessness,

"Forget it, since Jin Chan said so, I can't blame him for this. After all, persuasion is indeed beyond the ability of people."

The hatred was almost over, and Gu Changge naturally knew the truth of letting it go. In the eyes of many geniuses, the death of Prince Sheng was inseparable from Jin Chan.

And although what he said seemed to be persuading everyone, it was actually adding fuel to the fire. As a monk, he should be compassionate, but Jin Chan behaved like this, and he had to ask someone to contact him if there was any enmity between him and the Prince Sheng.

Otherwise, how could he just watch Prince Sheng go to die?

From today onwards, conflicts were bound to arise between Emperor Mountain and Buddha Mountain. This was also what Gu Changge wanted to see.

Although the geniuses of the Heavenly Emperor Mountain heard these words, even though they were not reconciled, they did not dare to say anything more. After all, Gu Changge was the one who said this.

Then they passed what happened here back to Emperor Mountain as Emperor Mountain should have known about such a big thing.

With Prince Sheng's broken soul lamp, the Emperor Mountain would notice it.

"Since young master Changge is no longer in serious trouble, the little monk will also retire first. The inheritor of demonic art has become more shrewd, and I am afraid that it will not be easy to deal with in the future."

Jin Chan said with a calm expression, and then saw Gu Changge nod. He smiled slightly, and the Buddha's light appeared under his feet, and he rode the Buddha's cloud away. He didn't seem to care about the opinions of many geniuses towards him.

"Jin Chan is a deep-minded person, not a person who is easy to get along with."

Heavenly Phoenix Maiden and others thought in their hearts, and their emotions were complicated, and then they also said goodbye to Gu Changge and planned to leave first.

In any case, the matter of the inheritor of demonic art would surely cause a huge sensation in the world again.

Naturally, Gu Changge wouldn't hold back any longer. After all, this place was still the place where the aura of Absolute Heavenly Extinction erupted, and it was not safe. He could guess everyone's thoughts.

"Don't worry, it won't take long for this injury to heal and it won't affect me. Let's get out of here too."

Gu Changge smiled at Gu Xian'er, Yin Mei and others. Afterwards, a group of geniuses turned into divine lights, rode the mist, and left one after another.

Soon, the matter here also spread through the mouths of everyone, as if it had grown wings. The moment the news came out, an extremely terrifying earthquake occurred.

Not only the True Immortal Academy, but even the many Supreme Dao Lineages and Immortal Great Sects in the entire Upper Realm were shocked, causing boundless waves.

No one would have thought that such a trial would involve so many terrifying things. Prince Sheng had fallen! Gu Changge's origin was damaged and he was seriously injured!

No matter which news it was, it was enough to make all monks and creatures tremble and feel chill all over their body. The daring actions of the inheritor of the demonic art simply made everyone stunned and panicked, and everyone was in danger.

In the eyes of many cultivators, this time, the inheritor of demonic art planned to kill many geniuses, so was it not a provocation of the many forces in the Upper Realm today?

For a while, many forces were considering whether to send the powerful members of the clan to follow the inheritors of demonic arts.

The degree of caution about this matter had risen to an unimaginable level. True Immortal Academy got the news and sent Elders to come. Although this trial was not over yet, it casted layers of shadows on the hearts of many geniuses.

And through this incident, Gu Changge's popularity once again reached a peak. Jin Chan suffered a lot of infamy, but he didn't care about it at all.

Back in the Ancient Xuanwu Kingdom.

Gu Changge naturally screened everyone, including Gu Xian'er and Yin Mei. At this time, he claimed that he was in seclusion and healing, and he saw no outsiders.

His injury was very similar in disguise, even the Supreme Being couldn't detect the truth, so Gu Changge had nothing to hide. At that time, all geniuses clearly saw what happened.

Even if his true identity was exposed in the future, many people would probably suspect that he was wrongly framed. Anyway, whoever wanted to visit him, the unanimous excuse was the seclusion for healing.

Currently, no one would be so stupid and plan to break in directly, unless they really planned to trigger public anger and plan to seek death.

During this period, things had always been uneasy, and the Kings of the major ancient kingdoms were even more frightened, for fear of being involved.

However, Yin Mei guessed Gu Changge's plan. She also cooperated very well, leading Gu Xian'er and many of Gu Changge's followers, using the power of the Wan Dao Business Alliance, and began to investigate the trace of Qing Xiao Yi.

Gu Changge hadn't forgotten about Zi Yang Heavenly King. When such a big thing happened, Zi Yang Heavenly King was also a mud bodhisattva crossing the river, and he could not protect himself.

Although he hadn't shown up yet, it was estimated that he had already received the relevant news. Then, taking advantage of this chaotic opportunity, Gu Changge quietly left the Ancient Xuanwu Kingdom and rushed to the place where Jiang Chuchu was located.

Because from the information he got from her, there was information about the origin of Absolute Heavenly Extinction!

It just happened to be taken away, and the layout plan would be arranged in the meantime.

Chapter 313-1: Qin Wuya is excited about his past life and present life, Do you really think I cant bear it? (1)

"This Zi Yang Heavenly King has been chasing me for so long, and it seems that he finally gave up."

At the top of a mountain, the figure of a woman in white appeared. She was ethereal like an immortal fairy, bright and clean, almost dreamlike with a slight smile on her flawless face.

But her smile seemed a little cold. It was Su Qingge.

On the same day, she left the Vermillion Bird Ancient Kingdom and explained to the "Senior brother" Chu Hao the reason she wanted to go back to her family. She came to the Ancient Xuanwu Kingdom, and through simple means, she easily solved a few geniuses with special physiques and harvested their origins.

Moreover, for Zi Yang Heavenly King, Su Qingge had a different purpose and did not intend to let him go. But with her current cultivation level, she was not yet an opponent of Zi Yang Heavenly King, so after thinking about it, Su Qingge thought of other countermeasures.

It was just that this countermeasure had been seen through by Zi Yang for some reason. He seemed to have the ability to see through everything. So far, she was now being chased by him.

It was just that as an inheritor of demonic art, she had a lot of methods, and the other soul in the sea of ???knowledge was not just a fuel-efficient lamp. Under the use of various means, Zi Yang suffered heavy losses, not only a lot of his followers were killed and injured, but he himself was also embarrassed.

During this period, Zi Yang was extremely angry, and he chased her all the way, almost never stopping. Su Qingge even led him to the land of Absolute Heavenly Extinction. But no matter what, Zi Yang Heavenly King never caught her.

On the contrary, it was the recent uproar that arrived, and even Su Qingge heard the wind and was greatly surprised. The inheritors of demonic art had conspired to kill many geniuses.

Zi Yang Heavenly King also seemed to sense something was wrong, so he gave up the pursuit. This incident caught Su Qingge's attention, and she finally guessed that it might be the work of the hidden organization of the inheritor of demonic art.

As for Ying Shuang's identity, she didn't get to ask Mr. Mo too as she was just worried about being suspected by him. She was worried that Mo Lao knew that she, the inheritor of demonic art, was far less powerful than they thought.

"Young master is actually injured, why do I always think this is his bitter trick. Forget it, it's good that the young master is fine. This situation is an opportunity for me."

Su Qingge was communicating with her other soul, and now all parties were in chaos, and she was in a state of fear for the inheritor of demonic art.

Otherwise, with her current cultivation, she couldn't even deal with a Candidate Disciple.

.....

At the same time.

Heavenly Emperor Mountain lay was vast and boundless with many mountain ranges towering and ancient, revealing a wild atmosphere. In the deepest part, there were many pavilions and palaces, which were beautiful and grand and simple.

Under the shroud of chaotic mist that seemed to have existed since the world was born. There was a lot of terrifying atmosphere. The sky and the earth changed color, and various laws were filled between the mountain peaks and palaces.

Even the cultivators of the Sacred Realm were overwhelmed, their faces turned pale, and they were so frightened that they could only kneel on the ground. The Supreme beings of Emperor Mountain were angry!

Among them, there were even ancient beings who had awakened and almost become enlightened in the past. Their cultivation was unfathomable and no longer belonged to the level of the Supreme.

Changes in their emotions could easily trigger changes in the extraterritorial starry sky. Large swathes of stars would shatter and turn into powder. The ancient existence of Prince Sheng's lineage let out a roar, shattering many life stars hundreds of millions of miles away.

In fact, when Prince Sheng's life token shattered, the old man in charge of guarding the life tokens in the temple of Emperor Mountain noticed it. At that time, he was so frightened that his face turned pale, his soul was almost extinguished, and he couldn't come back to his senses for a while.

After Prince Ying betrayed Emperor Mountain, Prince Sheng was born, and his status and talent were no lower than Prince Ying's. Coupled with his many tough iron-blooded methods, he soon gained a great reputation in Emperor Mountain and had a large number of followers.

In the eyes of many people, Prince Sheng was likely to be in charge of Emperor Mountain in the near future. The future was limitless, and he was destined to be the most extreme figure in the upper realm.

But now he had fallen and was still in a small introductory trial at the True Immortal Academy. For many ancient existences in Emperor Mountain, this was like a bolt from the blue, and it was hard to believe.

Moreover, the most important thing was that the one who killed Prince Sheng was actually another descendant of Emperor Mountain, Prince Ying, who was a traitor.

This matter had already caused uproar in the Upper Realm.

Many forces were laughing at them.

Now that Prince Ying was willing to degenerate, he had become the inheritor of demonic art, abandoning his previous identity and status, and even killing the clansmen who came out of Heavenly Emperor Mountain with him.

This made Emperor Mountain angry, but there was nothing they could do, and they couldn't find a place to vent their anger. On the contrary, in the end, hearing that the death of Prince Sheng actually had a lot to do with Jin Chan.

Buddha Mountain behind it had naturally become a place to vent for by many ancient existences of Heavenly Emperor Mountain.

"You bald donkey, this deity will never give up."

At the moment, a roar resounded as a red rosy sky with an extremely terrifying aura appeared out from the sky, the Dharma body surpassed thousands of miles and rushed to Buddha Mountain to seek justice.

The sky trembled, and all kinds of red rays of light erupted, turning into runes, directly penetrating the void and traversing through the universe. The opportunities that Emperor Sheng had left behind for his heirs.

It was not as simple as inheritance and Supreme weapon. Among them, the most tyrannical forces were the various clans, who once fought alongside Emperor Sheng.

Everyone's cultivation was unfathomable.

But now that all the major clans heard this news, they all rushed to the location of Buddha Mountain, to discuss the explanation and the price for this matter. They would not let it go easily.

For a while, many Dao sects paid attention to it and felt that this was a good show that was not to be missed. The situation in the Upper Realm was ever-changing, and it was difficult to calm down.

In the Vermillion Bird Ancient Kingdom, in a magnificent and simple pavilion, several figures were here, talking about something.

"The inheritor of demonic art failed to kill Gu Changge in the end..."

Bang!

Chu Hao slammed the teacup in his hand heavily on the table. If he hadn't controlled his strength, everything in front of him would have been destroyed to ashes.

He looked very angry and obviously got the latest news. As the character he hated the most, he naturally wanted Gu Changge to die in it.

Unfortunately, he was still disappointed. The target of the inheritor of demonic art was another Candidate Disciple, and Gu Changge only injured his origin. In his opinion, his injury was not worth mentioning at all.

"Hao'er, don't get angry, why bother with a junior?"

Beside Chu Hao, an immortal, spirited, and long-bearded old man smiled slightly and put down the teacup in his hand. Tang Wan was sitting opposite the two of them. Hearing that, she didn't say anything and just thought that this matter was weird.

But she couldn't tell what was weird. Of course, she also wished that Gu Changge would die tragically so that the slave mark on her body would be gone, right? Chu Hao showed anger, but he calmed down quickly and said with a wry smile,

"Uncle, you don't know how arrogant and powerful Gu Changge is, and he deceives people too much."

"Even Wan'er... alas..."

When he mentioned Tang Wan, he recalled the scene he witnessed when he was hidden in the void. This made him mad, and it has become a lingering nightmare during this period of time.

Whenever he wanted to enter meditation and practice, he always felt uncomfortable in his heart, and couldn't feel calm. However, Chu Hao still did not mention this to Tang Wan.

Tang Wan naturally didn't know what he was talking about. It was purely something Chu Hao felt that the Tang family behind her was being forced by Gu Changge. Because of the existence of the slave seal, it was difficult for her to betray Gu Changge herself.

She could only be by Chu Hao's side and talk about persuading him to let go of his hatred from time to time. Although Chu Hao promised very quickly, in his heart, he already hated Gu Changge to the core.

"Hao'er, don't worry, although the background behind Gu Changge is terrifying, it doesn't mean you don't have the chance to take revenge. There is a big battle in the world, and when you become enlightened, you will naturally have nothing to do with the rest of the world."

"No matter how talented Gu Changge is, can he still surpass you?"

Afterward, the old man with a white beard said with a smile, his name was Bai Yang, and he is Chu Hao's uncle in Supreme Dao Cave. He usually treated Chu Hao very well, his cultivation was unfathomable, and he had already broken through to the Supreme Realm many years ago.

After learning that Chu Hao offended Gu Changge, he immediately emerged from the Supreme Dao Cave to support Chu Hao. In his eyes, what a young genius like Gu Changge did was just make small troubles.

Chapter 313-2: Qin Wuya is excited about his past life and present life, Do you really think I cant bear it? (2)

What really affected the changes in the situation of the Upper Realm were the real powerhouses within the powers of the Dao Lineages! Even the existence of the Supreme Being called them Emperors!

"Huh? Why is there a strangely familiar feeling all of a sudden..."

At this moment, Tang Wan on the side suddenly frowned, her expression became strange, and she felt a strange feeling in her heart. A scene from a long time ago suddenly flashed across my mind.

But it was very vague and incomplete, and it was impossible to see clearly at all.

"What's wrong, Wan'er?"

Chu Hao's expression moved slightly, and he asked with concern, thinking that she was not feeling well. But Tang Wan didn't answer him, she looked a little dazed, got up, and walked to the window of the pavilion, looking down, as if she was looking for something.

The feeling just now came way too suddenly and caught her off guard. It was as if someone close to her suddenly appeared beside her. The two of them met again after a long time.

It was just that the cultivators and creatures on the street were not much different, and she was not sure who she was looking for.

"Brother Chu Hao, I'm fine."

Tang Wan shook her head and quickly walked back, but after thinking about it, she asked, "Brother Hao, do you believe in the reincarnation of past lives?"

Chu Hao was stunned when he heard these words and was confused by Tang Wan's question, and he didn't know how to answer. Why did she suddenly ask such a question, did she notice something just now?

"Reincarnation of past lives naturally exists. Soldiers dissolve reincarnation, and the sea turns to ashes."

"There are many geniuses, and many people are born with the wisdom of past lives. This is not a strange thing."

"Like Hao'er, he was definitely an amazing person in his past life, but because of various relationships, he has not awakened the memory of his previous life. In the vast Upper Realm, there are actually very few cultivators who can awaken the memory of their previous life, which is extremely rare."

At this time, it was Bai Yang who smiled slightly and replied. Tang Wan nodded understandingly.

Chu Hao frowned, feeling a bad feeling in his heart, why did Tang Wan suddenly say this?

"That woman just now is her, I am sure about this! It's definitely Wan'er! It's really just like what Junior Brother Zi Yang said, she's also reincarnated in this era. That's great, I can finally make up for what I owed her in this life. God really helped me!"

At this moment, not far from the pavilion of Chu Hao, Tang Wan, and others. At the entrance of the alley, a man with a medium build and an ordinary face was clenching his fists excitedly and muttering.

It was the Senior brother who had returned from Nine Heavens, who was regarded as a strange stone by the Elders of True Immortal Academy.

Qin Wuya.

From his Junior brother Zi Yang Heavenly King, he learned that Gu Xian'er had not awakened the memory of her previous life, so he took the initiative to rush to Reincarnation Lake to fetch water there.

Reincarnation Lake was a forbidden place for life in the Upper Realm, it was extremely dangerous, and even Supreme beings did not dare to set foot in it easily. Because it involved the true meaning of life and the profound meaning of reincarnation.

The water in the reincarnation lake could help the cultivator remember his past life.

Although this rumor was a bit terrifying, it more or less proves its miraculousness. Qin Wuya spent a lot of time on this trip to the Reincarnation Lake, and only got a small bottle of Reincarnation Lake water.

And that was what he exchanged with the master of Reincarnation Lake through a divine object from the Nine Heavens. Afterward, he rushed back without stopping and learned that his Junior Brother Zi Yang was in the Ancient Xuanwu Kingdom and planned to reunite with him.

However, Qin Wuya really did not expect that he would be able to meet a woman who looked exactly like his Dao companion in his previous life in this place. For him, it was already an indescribable surprise.

It was his Luck! It was as if something was taking care of him in the dark!

"Wan'er's memory in this life should not have been awakened. This bottle of Reincarnation Lake is enough for two people. When Wan'er and Junior Sister Xian'er regain their memories, we will be able to reunite."

Thinking of this, Qin Wuya looked forward to being excited, and when he vaguely thought of the future pictures, a smile appeared on his face. However, he did not intend to show up, but decided to find out the identity of this world Wan'er first, and make a long-term plan.

Like the method of Zi Yang Heavenly King before, in his opinion, it was too rough and impatient. This caused Gu Xian'er's disgust and resentment.

After that, Qin Wuya's figure flashed and disappeared at the entrance of this alley, rushing to the place where the Ancient Xuanwu Kingdom was located.

In this matter, he had to find Zi Yang first, and through his power, he could help him find out the identity of this woman.

At this moment, Qin Wuya didn't know that Zi Yang had disappeared for many days.

.....

Deep in the south part of the Vermillion Bird Ancient Kingdom.

Mountains had dried. The aura of Heavenly Extinction was endless, trying to drown and cover everything, making it seem vast and turbulent.

A large tidal wave of Heavenly Extinction beings were raging below, causing an incomparable riot. But at this time, one could still see a crack emerging above the sky.

A lot of Heavenly Extinction Aura descended from it, one after another as if there was life being conceived. A beautiful woman was standing here.

Holding the Dao sword, the brilliance was dazzling, and it slashed down, looking like a peerless splendor. Her dress fluttered, like the flawless fairy in the Guanghan Palace dancing in the world, cold and moving.

It was Jiang Chuchu.

She raised her hands, and a large piece of divine light shone down, as white as the bright moonlight, with enormous power, turning the vast swathes of Heavenly Extinction beings into ashes.

Under her cuff, a messenger was tied. She got news about all kinds of things that happened in the outside world during this time. Naturally, it also included the fact that Gu Changge was seriously injured by the calculations of the inheritor of demonic art.

In this regard, Jiang Chuchu didn't believe a word. Gu Changge encountered the inheritor of demonic art? Wasn't that a thief calling others to catch a thief?

In her opinion, the matter of being severely injured was purely a bitter trick made by Gu Changge to frame others. She didn't know how many times Gu Changge had used this method before, and he didn't know how many arrogant creatures he had kept in the dark without knowing it.

However, during this period, she finally found the source of the Heavenly Extinction Aura's outbreak and passed the news of this place to Gu Changge. As for whether Gu Changge would come, that was his business, and she couldn't interfere.

In the final analysis, he was a real demon, and he had no duty to shoulder righteousness and save the world. That was not what Gu Changge should do. However, Jiang Chuchu still had some expectations in his heart, hoping that Gu Changge would come.

It was like the last time he solved the calamity of heavenly extinction for her.

Boom!

Suddenly, the place exploded.

Within the cracks.

A terrifying Heavenly Extinction creature rushed out, full of gray hair flying, with a sense of mind, showing the terrifying cultivation of the Great Sacred Realm, and attacked her. Jiang Chuchu's expression changed slightly, her eyes were slightly cold, her hands were imprinted, and the majestic power vented down.

A creature of the Great Sacred Realm, with her current means, she just had to be careful, and would still be able to compete for a little while. But soon, in the other direction, a roar sounded again.

Accompanied by the majestic pressure of the Sacred Realm!

"No, how come there is still a Great Sacred Realm creature..."

Jiang Chuchu frowned, her mind flickering, she planned to retreat first, she had already found the root cause of the outbreak. But at this time, with her ability, she couldn't solve it.

Puff!

At this moment, a ray of divine light suddenly flew, and the light was dazzling, crossing the sky, easily piercing the Great Sacred Realm creature just now, and it almost collapsed and exploded.

A figure came with terrifying fluctuations, vast and unpredictable, Gu Changge took a step, and his expression was slightly mocking.

"You can't even deal with the mere creatures of the Great Sacred Realm. You are really incompetent."

"Gu Changge... You really came?"

Jiang Chuchu was a little surprised and happy and didn't care about his sarcasm.

She really didn't expect Gu Changge to come, and also this quickly. Sure enough, Gu Changge said that he would not care about her. But it was just all talk and no bite.

But soon after thinking of something, Jiang Chuchu's expression turned cold, she snorted coldly from his nose and didn't say any more.

"You are such a waste, Holy Maiden Chuchu, this kind of thing can't be solved well. You have to embarrass me as a wounded person."

Gu Changge stepped forward, came to her side, looked up at the crack, and said casually.

"I didn't ask you to come here, I just told you." Jiang Chuchu said coldly.

"So if I didn't come, were you going to seek death here again?" Gu Changge smiled, "Do you really think I can't bear it?"

Chapter 314-1: I wont bully you today, The role of the Purple Crown of Luck (1)

Buzz!!

The ripples spread one after another, and the void became blurred as if there was endless divine light permeating. It was more like a door was opening.

Gu Changge appeared in white fluttering clothes, immortal and divine, aloof, walking from the void. There was a vast and terrifying aura spreading out from around his steps, looking strong and unpredictable.

At this time, no one could see the terrifying injury he had in front of everyone at all, and his face couldn't be better. In any case, the origin and bloodline of Prince Sheng were from the Emperor of an ancient royal family and contained many innate laws and rune bones.

After swallowing, it was more or less beneficial. Even if the Heavenly Phoenix Maiden, the Six Crown King, and others were here, they would definitely be shocked and horrified to the point of tingling their scalps.

They all believed that Gu Changge would not be able to use any ability for at least half a month, and could only hide in the palace to recover from his injuries.

Boom!!

Gu Changge reached out with his palm, and there was a multicolored glow, turning into a terrifying black grinding disc. It was as if the sea of stars fell into the human world, the many souls in the front collapsed and exploded in an instant, becoming a cloud of blood, and their bodies and spirits were destroyed.

"When did I say I was seeking death? You think too much."

"And if you can be counted as a wounded person, I am afraid that there is no perfect person in this world. As for your reluctance, that has nothing to do with me."

After reacting, Jiang Chuchu looked at Gu Changge and said in a cold voice.

It was very mocking like divine ice was smashing a jade plate, extremely crisp and cold. But having said that, seeing that Gu Changge cared about her, she was actually very happy. After all, Gu Changge's character was like this, and she didn't expect to hear anything good from his mouth.

"You are so lively, it seems that you are not in danger yet. Then it seems that I shouldn't have come here being a bit self-indulgent." Gu Changge said casually, his figure flashed and appeared beside her.

Jiang Chuchu snorted softly and said, "Even if there is danger, I can handle it myself. Let me tell you it's because I can't solve the calamity in the depths of the Absolute Heavenly Extinction."

"You can't solve it. Of course, if you beg me, it's another matter." Gu Changge glanced at her and said calmly.

Then he looked up at the crack in the sky and narrowed his eyes.

At first, he was just trying it out, wanting to see if the blind cat could meet the dead mouse, he never thought that Jiang Chuchu would be able to help him find the source of Heavenly Extinction.

But he didn't expect that she even had her own treasure hunt attribute. Of course, this was a treasure for Gu Changge, and he could improve his own strength, and it could also increase the devouring power of his Great Dao treasure bottle.

The source of Absolute Heavenly Extinction, for the rest of the cultivators and living beings, was purely a terrifying scourge that could not be avoided. Their expressions would change, like avoiding snakes and scorpions, and they didn't dare to be contaminated.

Of course, it was impossible for Gu Changge to tell Jiang Chuchu this kind of remark. He also expected her to continue to be his tool person in the future, to find the origin of Heavenly Extinction, and he would enjoy it anyway.

It was a big deal when it was like now, he didn't have to work harder, and would only rush over after getting the news.

"I won't beg you. Besides, Gu Changge, you came over by yourself, I just reminded you, don't make a mistake..."

Jiang Chuchu's voice was cold, and she couldn't say what she wanted to ask Gu Changge, this despicable, shameless, and annoying guy.

However, Gu Changge smiled and interrupted her with a wave of his hand, "If you don't beg me, then I'll leave. As for the remaining calamity, you can take care of it yourself. Anyway, I'm too lazy to take care of it. It has nothing to do with me. However, don't you feel ashamed that the descendant of the Human Ancestor Hall have mixed up your stupid appearance?"

"Gu Changge, you are scolding me again... You... are too much!"

Jiang Chuchu was stagnant for a while, and some indignation appeared on her face. She didn't expect that after Gu Changge came, he would not solve the scourge of heavenly extinction first.

Instead, he used this matter to threaten and bully her and called her stupid. Why was this guy so annoying as always?

As a descendant of the Human Ancestor Hall, just with her detached status and prestige among the younger generation, it was hard to underestimate him. Did she need to say more about her talent? Jiang Chuchu still had this confidence and pride.

"If you don't ask me, it will save me some effort anyway." Gu Changge said calmly, she didn't have the slightest self-consciousness to bully her and pinched her weakness to the bone.

Of course, even if Jiang Chuchu didn't ask him, he would definitely rush to it in the end. After all, there was no reason to put the source of Absolute Heavenly Extinction on hold.

It was just that he won't say these words to Jiang Chuchu. Jiang Chuchu was also very angry when she saw that Gu Changge was planning to go home and leave at any time.

But what could she do now? After all, it was she who delivered the message and notified Gu Changge, and her purpose was to hope that he could solve the calamity here.

After all, Gu Changge came here to help her.

"I see, you just want to take advantage of the fire and make me soft. Gu Changge, you bastard, can't you just let me go?" Jiang Chuchu said coldly.

Gu Changge smiled, "It seems that you are not very stupid, and you have not damaged your head because of your cultivation."

"You..." Jiang Chuchu's eyes were like ice blades that had been quenched with cold air. They were cold and wanted to poke Gu Changge into a bloody hole.

If eyes could kill, Gu Changge would have been killed countless times by her long ago.

"Are you begging me?" Gu Changge still smiled lightly.

"Don't even think about it." At this time, Jiang Chuchu didn't know where the courage came from, and it was rare to get tough.

The cold and beautiful eyes stared at him so coldly. She felt that it might be because she had always been weak in front of Gu Changge. This led to Gu Changge taking pleasure in bullying her.

Therefore, at this time, it was impossible for her to be soft, even if it was for a while, it might cause Gu Changge to clean up. However, what surprised and stunned Jiang Chuchu was that after hearing what she said, Gu Changge was not angry, but smiled and said,

"Forget it, seeing how pitiful you are, I won't bully you today... Just wait for me here in peace."

After that, he didn't wait for Jiang Chuchu's answer, his figure flashed, and he took a step forward, already floating away.

In the next instant, Gu Changge appeared above the sky, and with a wave of his hand, the surging and terrifying pressure, like the star sea bursting the embankment, rumbled down.

Many Heavenly Extinction beings, who could not even get close to him, were crushed into a blood mist and exploded in the void.

"Umm... then you have to be careful." After reacting, Jiang Chuchu, who was still a little stunned, couldn't help but reply in a low voice, and then realized that something was wrong, how could she care about Gu Changge?

However, this surprise came a little too suddenly. How could Gu Changge suddenly be so nice to her today, and he wasn't angry when he said that?

Could it be because the last time she asked Gu Changge to be nicer to her? Gu Changge actually agreed, but this guy was very hateful, so he just said no.

Jiang Chuchu's personality was cold and calm, and she didn't like to talk too much. After thinking about this, Gu Changge was also very angry at this time. But soon she thought about it, the change in Gu Changge's attitude, on the other hand, meant that Gu Changge would actually consider her feelings with scruples.

Thinking of this, Jiang Chuchu suddenly felt a lot brighter and happier.

.....

Deep in the midst of the cracks.

Gu Changge's figure appeared here, but as soon as he took a step, he felt a tyrannical spirit sweeping over from behind him.

At the same time, a terrifying fluctuation emerged like a volcanic eruption, and it was unparalleled in strength.

Great Sacred Realm!

He didn't think much about it and just swung his fist towards the back.

The light of the fist filled the air, and the power was unpredictable, directly overturning the gray fog, and everything around it turned to ashes. Although the Heavenly Extinction creatures in the Great Sacred Realm were born with sanity, it was easily smashed to ashes by a punch and shattered directly.

With his current strength, Gu Changge could easily compete with the Quasi-Supreme even if he did not use his demonic art. If many means were used, even if it was the Supreme being, or even above the Supreme being, it could be called the existence of the Emperor, and he was sure to contend.

Chapter 314-2: I wont bully you today, The role of the Purple Crown of Luck (2)

Of course, this so-called Emperor could only be regarded as a Quasi-Emperor Realm at most. If it was someone after being enlightened and attaining the Emperor Realm, he must at least break through to the Quasi-Supreme Realm before talking about it.

Nine steps to the Supreme, one step to another. So even if it was the Supreme realm, the gap between them was still very large.

"According to Jiang Chuchu's words, there is an origin of the Absolute Heavenly Extinction in the depths. Judging from the fluctuation of this aura, it is obviously much denser than the source of Absolute Heavenly Extinction that I encountered last time."

Gu Changge went into the depths, and then his eyes became a little intriguing. Because he sensed the aura of the source of Heavenly Extinction was obviously much richer than the source of Heavenly Extinction he had encountered before.

That was to say, after devouring this source of the Absolute Heavenly Extinction this time, his cultivation could be improved again. At this time, he suddenly remembered the Purple Crown of Luck that he obtained a long time ago.

There was a limit to how many times that thing could be used. But Gu Changge didn't know how effective it was.

Just this time, he had the opportunity to try it. Thinking like this, in his palm, there was a flash of purple-gold light and a purple crown appeared like it was made of immortal gold.

After using it Gu Changge saw a phantom flash in front of him. In the dark, he felt that the aura around him became unpredictable and mysterious.

However, not long after he walked forward, he suddenly saw a figure rushing toward him in the gray fog. With unparalleled power, the entire space was rumbling and collapsing continuously.

It was a headless corpse covered in gray fog.

"The headless corpse of the Quasi-Supreme Realm, even the origin is complete... Jiang Chuchu's luck is really good, she can be called my lucky star."

Gu Changge couldn't help laughing. The space in the crack looked more like a small world, with no visible edge.

But there were mountains, lakes, mountains, and even pavilions and palaces.

This headless corpse had been contaminated by the aura of Absolute Heavenly Extinction for countless years and was even wearing broken armor and battle clothes, holding a spear.

When it swept in, the mountains and rivers collapsed, and all the peaks collapsed and turned into powder. The prestige of the Quasi-Supreme Realm was like the sky falling down and covering it, was terrifying to the extreme.

"Not only does the Heavenly Extinction aura remain in the body, but there's also the immortal aura..."

Gu Changge's figure moved and disappeared in place, still rushing toward this headless corpse.

Immediately afterward, he made a move, and the vast fluctuations suddenly enveloped all directions, wanting to suppress this corpse, intending to devour the origin that was still remaining in it.

The void collapsed and turned into a terrifying big palm print, even if it was a Quasi-Supreme, it would be difficult for him to break free from this bondage for a while.

The spirit of the headless corpse swept over and seemed to be very angry. But in the next moment, the world exploded and was shrouded in palm prints.

With a rumbling sound, many mountain ranges collapsed, and the ground shattered into countless cracks. He was directly covered and crushed by a palm, and the tyrannical Quasi-Supreme body almost exploded.

It didn't take long for the complete source of a Quasi-Supreme to be devoured up quickly, leaving only a piece of ashes in place. Gu Changge's figure flashed and left the place.

He was a little suspicious, and encountering the complete Quasi-Supreme source was inseparable from the Purple Crown of Luck.

"Huh?"

But at this time, Gu Changge suddenly felt that something was wrong. His figure swept away, quickly disappeared, and appeared in another direction. He saw a pitch-black boat emerging in the thick gray fog.

It was rusty, stained with blood, there are traces of various battles on it, broken battle suits, ancient armor... and other headless corpses. The boat was made of an unknown material.

The whole body was dark and without any luster, but it gave people an indescribable feeling of terror and palpitations. Who would have thought that such a strange boat would suddenly appear in the place where the calamity broke out in the land of Heavenly Extinction?

As long as it was a cultivator, at this time, there would be a burst of horror. Moreover, the fog rolled, like a terrifying deep sea, looking endless. It was this pitch-black boat that suddenly appeared, making no sound, which surprised Gu Changge.

He didn't expect to see someone breaking in here.

In the boat, there was a wave of divine sense, which suddenly swept over, and the gray fog burst, which was extremely terrifying. Even the headless corpse that attacked Gu Changge just now calmed down and knelt on the spot, as if bowing to the monarch.

On the boat, it could be seen that there were many figures, all of them were Heavenly Extinction beings and they were not weak, and they were all born with spiritual wisdom.

"If you can walk through the land of Absolute Heavenly Extinction it seems that you should be a member of the Imperial Court of Absolute Heavenly Extinction."

"The guesses of the old guys in True Immortal Academy were correct. This time, there are people from the Heavenly Extinction Imperial Court who are really behind the scenes."

Gu Changge's eyes narrowed slightly, with a thoughtful expression. He remembered the news he got from Yue Mingkong earlier.

The Imperial Court intends to establish Heavenly Extinction Reincarnation, trying to find the successor of Heavenly Lord of Reincarnation. In Yue Mingkong's last life, she witnessed with her own eyes that the people of the Heavenly Extinction Imperial Court were born and searched for the descendants of the Ancient Heavenly Lord of Reincarnation everywhere.

At that time, Ye Ling was very cautious and never showed any trace. As for whether Ye Ling came into contact with the Heavenly Extinction Imperial Court, Yue Mingkong didn't know that.

Gu Changge had heard a lot of news from her, but he didn't expect that the people of the Heavenly Extinction Imperial Court would be born so early.

"Could it be that the timeline has advanced a lot... Maybe it has something to do with the Purple Crown of Luck. Maybe I should give it a try."

Thinking like this, Gu Changge didn't look at all.

At the moment when the other party's consciousness swept over, a vague fog suddenly rose above his face, and only a pair of god-like eyes showing indifference were revealed.

Boom!

The next moment, an even more terrifying aura emerged as if the Lord of Reincarnation had fallen into the world. The fluctuations of the six realms of reincarnation were vast and boundless, evolving everything, and overturning the sky.

Boom!

A muffled buzz came, and there was a shudder in the boat. At the same time, several figures above flew out and fell directly, with a face full of horror and embarrassment.

"Hateful..."

An obscure voice came, and then in the boat, a man with a pale face and bloodless, wearing a purple-gold armor walked out. The cultivation base that appears was impressively the early stage of the Quasi-Supreme Realm.

He was a member of the Royal Family of the Heavenly Extinction Imperial Court.

Gu Changge almost recognized this person at first glance. Most of the Heavenly Extinction beings had different shapes, but only those of the Royal Family were the same as the human race.

In addition, the bloodline of the Heavenly Extinction Royal Family was enough to suppress the other Heavenly Extinction beings, making them walk on the ground in the land of Absolute Heavenly Extinction and go anywhere. The man in front of him didn't look very old, but in fact, he was very old, and even his clothes were very simple.

At this moment, he was looking at Gu Changge in awe, and the rest of the figures that appeared behind him were also shocked and stood there motionless. They also didn't understand why there were outsiders appearing in a place where the aura of Heavenly Extinction was so strong.

And he was still a young man. What made them even more incredible was that even His Royal Highness the Third Prince was not a match for this young man. The spiritual sense that investigated just now was severely injured the first moment it touched the opponent.

"Outsider?"

The man in the purple-gold battle uniform looked at Gu Changge with fear and said in the common language of the outside world.

Chapter 315-2: Jia Nan, Princess of the Supreme Court of Heavenly Extinction, Please send more warm things (2)

Soon, he had a plan in his heart, since the other party planned to find the successor of the Heavenly Lord of Reincarnation. Wasn't that him? All these coincidences were reasonable.

Of course, the Ancient Heavenly Lord of Reincarnation might not recognize him as a descendant.

"Who the hell are you?"

The woman in the black dress saw that Gu Changge didn't mention his identity at all, so her eyes became even more indifferent. Although she seemed cautious of the extremely mysterious Gu Changge in front of her, it didn't mean that she was really afraid of him.

Leaving the Heavenly Extinction Imperial Court this time because she had something to do, and she didn't want to have any troubles in such a place. So in the face of such a powerful enemy, she tried not to provoke it if she could.

"How did you see that I was using the divine power of reincarnation just now?"

Gu Changge still didn't answer, but instead asked with a slightly strange expression. Of course, he did it on purpose, just to see how the other party reacted, and to verify his guess.

"Divine Power of Reincarnation?"

Hearing that, the black-dressed woman's expression softened slightly, and she looked at Gu Changge up and down. In her indifferent eyes like a god, all kinds of divine lights flashed, intending to see through him.

But what surprised her was that she couldn't even see Gu Changge's face clearly. This method made her feel that things were a little tricky. She could only guess in her heart whether Gu Changge had some secret treasure that could hide his true appearance and conceal his aura.

Although the Heavenly Extinction Imperial Court was located in a completely different place from the outside world, the cultivation methods and many divine powers in it were all in the same way as the outside world.

It was absolutely impossible for ordinary cultivators to appear in the land of Absolute Heavenly Extinction, and it was impossible for Gu Changge to show such powerful strength.

Her incompetent younger brother, who had cultivated for so many years, was in the Quasi-Supreme Realm anyway. As a result, he couldn't even resist a single blow, and was seriously injured in an instant.

"What do you want to ask?" Gu Changge asked lightly.

"Are you the descendant of Heavenly Lord of Reincarnation?"

The woman in the black dress spoke again, her indifferent tone slightly eased. In her heart, she was still somewhat suspicious.

After all, her purpose to leave the Heavenly Extinction Imperial Court this time was to find the successor of the Ancient Heavenly Lord of Reincarnation. But she had just left and planned to follow this temporarily opened passage to the outside world.

As a result, she met a person who could use the Divine power of Reincarnation here. This was too coincidental. But apart from the Royal family of Heavenly Extinction Imperial Court, almost no one knew her purpose this time, and Gu Changge shouldn't be waiting for her here.

Was all this really just a coincidence? Or was she just lucky?

"Oh? So what if I am, and what if I am not?" Gu Changge asked calmly with strange eyes.

At this time, he also understood the role of the Purple Crown of Luck. Although he didn't know what the relationship between Ancient Heavenly Lord of Reincarnation and Heavenly Extinction Imperial Court was. But there was no doubt that the Emperor of Absolute Heavenly Extinction was looking for him.

If at this time, Ye Ling, the true successor of the Ancient Heavenly Lord of Reincarnation, was not dead. If he encountered Heavenly Extinction Imperial Court, it wouldn't be so easy to talk about. After all, no matter how powerful Ye Ling was, he couldn't be the Eldest Princess' opponent at this time.

Not to mention the Eldest Princess, even the purple-gold armored man in the Quasi-Supreme Realm just now could easily suppress Ye Ling. But Gu Changge was different. He could easily negotiate terms with the Heavenly Extinction Imperial Court, and even ask for a large sum of resources.

This would be of great help for Gu Changge to control the Absolute Heavenly Extinction in the future.

"It turns out that the effect of the Purple Crown of Luck is like this..."

He thought to himself, his eyes fell on the woman in the black dress, and he began to think about how to make a fortune from her first. The establishment of the Heavenly Extinction Imperial Court was actually inseparable from the origin of Heavenly Extinction.

It just so happened that he really needed this thing right now. Judging from the current situation, the woman in the black dress in front of him was also very jealous of him and was reluctant to open up about many things. However, Gu Changge was not in a hurry.

"It seems that you are the descendant of the Ancient Heavenly Lord of Reincarnation. Except for his descendants, no one can use the Divine power of Reincarnation. Don't worry, I don't have any malicious intent against you."

The woman in the black dress spoke again, and her tone became much softer than before. In order to show her sincerity, she even dissipated her Supreme power.

Gu Changge raised his eyebrows when he heard her words, and smiled intriguingly, "I did get the inheritance from Heavenly Lord of Reincarnation. If you say that I am his descendant, it should be reasonable."

Although the woman in the black dress did not know why Gu Changge said that. But from these words, she also understood that Gu Changge in front of her was the person she was looking for, and she was relieved.

As for why Gu Changge appeared in this place, this was not something she had to consider.

"Princess!"

"Queen..."

The black boat came galloping from a distance, separated by a lot of gray fog, and rushed over. The woman in the black dress and Gu Changge just fought and went thousands of miles away in an instant.

Many of the Heavenly Extinction beings, including the purple-gold armored man just now, didn't know what happened.

Why did the two people who were fighting suddenly stopped?

"How about we make a deal?" The woman in the black dress said directly without caring about the people behind her.

Gu Changge also asked directly, "What deal?"

"Actually, this time I left the Heavenly Extinction Imperial Court to find Your Excellency, the Heavenly Lord of Reincarnation's descendant with the Reincarnation Law..."

The character of the woman in the black dress was also very straightforward, she simply told Gu Changge her purpose and did not intend to beat around the bush. If Gu Changge didn't agree, she could only choose another tougher method.

"You don't have to tell me these things, I'm not interested, I just want to know what kind of deal you want to make with me?"

However, the expression of the woman in the black dress was slightly stagnant, and it was somewhat unexpected that Gu Changge interrupted her and did not listen to her explanation.

This kind of character somewhat surprised her. Was he too confident in himself, or was Gu Changge only interested in his own interests?

"My clan needs the Heavenly Lord of Reincarnation to help my clan to build the Reincarnation Platform. The Heavenly Lord of Reincarnation has disappeared, and we don't know whether he is alive or dead. Now this kind of thing can only be found by Your Excellency."

"As for the conditions, as long as my Heavenly Extinction Imperial Court can satisfy you, it can be accomplished, even if it is to help you destroy the other Dao sects, there is no problem." The woman in the black dress said with some pride in her tone.

"Building the Reincarnation Platform?" Gu Changge suddenly realized that this kind of thing involved the secrets of the Heavenly Extinction Imperial Court.

The woman in the black dress definitely wouldn't tell him, but he didn't really care. What Gu Changge valued was only the benefits that Heavenly Extinction Imperial Court could bring to him.

Destroy the rest of the Dao sects? This kind of tone was quite big, but considering the particularity of Heavenly Extinction Imperial Court, maybe they can really do it.

"No problem, I agree to this deal." Gu Changge didn't hesitate. After all the other party had come from millions of miles away to give away things like this, he just wanted to say that please bring a little more.

"Agreed?" The woman in the black dress was taken aback for a moment, she didn't expect him to agree so quickly.

But since Gu Changge agreed, things would be much easier.

Afterward, the two of them swore directly on their Dao Hearts, which was considered to be the most terrifying oath. Even the creatures of Absolute Heavenly Extinction had things to be afraid of, and the woman in the black dress was no exception.

She had no superfluous ideas, and naturally, there was no possibility of forgery. And there was no doubt that Gu Changge naturally swore countless times by his Dao Heart.

As for the consequences, he naturally made up random things, anyway, the more ruthless the better, after all, it couldn't be of any use to him. Seeing that Gu Changge's attitude was sincere and did not seem to be fake, and hearing the consequences of breaking his oath, she felt a chill on her back.

The woman in the black dress also felt relieved, and she had a more favorable impression of Gu Changge. Such a straightforward and direct character suited her very well.

"Then is it time to perform the transaction first?" Gu Changge then looked at her again. The woman in the black dress nodded, not knowing what Gu Changge asked for.

"My name is Jia Nan, I wonder what Your Excellency is called?" She took the initiative to introduce her identity.

Chapter 316: Making a plan to devour the origin of Absolute Heavenly Extinction under the tiger's skin

He inexplicably glanced at Jia Nan. Gu Changge was silent.

Naturally, he would not tell his name, after all, he even concealed his true appearance. Even if the Eldest Princess of the Heavenly Extinction Imperial Court investigated this kind of matter, she might not know his identity at the moment.

After all, right now he was supposed to be recuperating in the Ancient Xuanwu Kingdom, and he couldn't go anywhere. Therefore, Gu Changge ignored her question.

Instead, he made his request.

"The origin of Absolute Heavenly Extinction in the land of Absolute Heavenly Extinction, how many of these things do you have?"

"The origin of Absolute Heavenly Extinction?"

Jia Nan was stunned for a moment, but she didn't really care that Gu Changge didn't explain his origin. But to be honest, she was a little surprised when she heard these words.

She didn't know why Gu Changge asked about this.

Logically, Gu Changge, as a human cultivator, no matter how mysterious and powerful he was, should avoid something like the origin of Heavenly Extinction that could devour many substances.

Could it be that the purpose of his visit is to find the origin of the Absolute Heavenly Extinction and to find a way to solve it?

Other than that, what other explanation was there for his actions?

Thinking of this, Jia Nan admired his courage a bit. The origin of Heavenly Extinction was something that even the Heavenly Extinction Imperial Court did not want to be contaminated.

And the birth of the origin of Absolute Heavenly Extinction was very mysterious, even if it was the origin of Absolute Heavenly Extinction that they had sealed, there were actually not many.

In some cases, in order to create some disasters, it had to be used and placed in a certain area. Because once the origin of Absolute Heavenly Extinction spread, it was like a mountain fire encountering a strong wind, which was unstoppable and could not be resisted at all.

It seemed that most of the Absolute Heavenly Extinction Aura that appeared in the Upper Realm now had nothing to do with the Absolute Heavenly Extinction Imperial Court. Her arrival this time was thanks to the disaster that suddenly erupted here.

"We also have a very scarce quantity with regards to the origin of Absolute Heavenly Extinction, but if you want, I can give you some. As for the consequences of touching the origin of Absolute Heavenly Extinction, you should be clear. I don't want you to be swallowed up by the origin of Absolute Heavenly Extinction before the transaction is completed." Jia Nan said.

Gu Changge nodded slightly and said, "Princess is worried, I know these things very well."

"That's good." Jia Nan nodded, and at the same time took out a black token from under her sleeve.

It looked like a chess piece, but Gu Changge felt the spatial fluctuations contained in it.

"This is space chess. When there is something, I will use this to inform you, and at the same time, the source of Absolute Heavenly Extinction you need will be sent to you through this thing."

Jia Nan said and handed this dark black chess piece made of unknown material to Gu Changge. Gu Changge took it and looked at it, then nodded, "Void beast bone casting, no wonder it has such a miraculous effect."

Seeing this, Jia Nan had a strange look in his eyes, but she didn't say anything more.

Casting the Reincarnation Platform would not be that simple, there were still many things to be arranged, and Gu Changge's current cultivation base was not enough in her opinion.

So then, Jia Nan said goodbye and left with the dark boat and the people of the Heavenly Extinction Imperial Court back the same way, and did not plan to come to the outside world.

The man in the purple-gold armor gave Gu Changge a wary look from a distance, the fear and terror just now lingered in his heart, and he couldn't forget it for a while. He didn't know what the Royal Sister said to him, so she chose to turn around and return to the Heavenly Extinction Imperial Court.

But the shadow Gu Changge left him might become a haze for a while.

"It's a bit interesting, the existence of the Heavenly Extinction Imperial Court, to me, is indeed a chess piece."

Seeing Jia Nan leave, Gu Changge looked back, looked at the dark black chess piece in his hand, and smiled intriguingly. Afterward, he threw the chess piece into his storage ring casually, and at the same time sealed off any perception in it.

Jia Nan's careful thoughts could not be concealed from him. She actually left her perception on this chess piece, and of course, it could also be a part of her divine soul.

As a Supreme being, she really had many means. Gu Changge was too lazy to find it out, maybe this part of her divine soul would have other value in the future.

However, considering that Jia Nan's divine soul might detect his traces, Gu Changge sealed the chess piece to seal off her perception. It was equivalent to trapping it in it.

At this time, Jia Nan might not even know that she had given up her weakness to Gu Changge on her own initiative. As for the information that Jia Nan passed on to him, Gu Changge didn't plan to control it at all. When the origin of Heavenly Extinction was in his hands, it was not up to her to decide what to do.

After that, Gu Changge's figure flashed, and he entered the area of ??the origin of Absolute Heavenly Extinction that he had perceived before. There was a mighty dark aura surging there, and the gray fog was surging, and it was extremely dense.

Many runes were flickering, looking extremely ancient, like the purest origin of the universe. Its origin was untraceable, and it was composed of billions of black lights that could devour everything.

The nearby laws, Dao, and rules were all shattering and reorganizing, and then the convergence became chaotic. Even the Supreme being in such a place would feel palpitations in the deepest part of their soul.

The origin of Absolute Heavenly Extinction!

And from the perspective of size, it was still respectively large, at least five times the size of the piece of the origin of Heavenly Extinction that Gu Changge encountered last time. Between spreading and devouring, the laws of void ruptured and collapsed, and even all kinds of immortal innate runes would be eliminated in it.

Buzz!!

The Great Dao Treasure Bottle appeared above Gu Changge's head, exuding a terrifying brilliance as if it could devour everything.

Even the origin of Absolute Heavenly Extinction was trembling slightly at this time as if it had encountered a natural enemy, and then the strands of the Dao bottle fell, and the light was like a galaxy drowning everything.

Gu Changge remained silent while sitting here cross-legged. The boundless divine light fell, wrapping him up and down. Like an immortal god that lived forever.

His aura was constantly improving, and every cell of his body seemed to wake up, spewing out colorful rays of light, with mist flowing, and chaotic mist spreading out.

The whole person was extremely hazy, revealing aloofness, and mystery.

.....

The pitch-black boat galloped fast in the gray fog, leaving this area as a passage that was difficult to find emerged, quickly separating the space barrier, along with another mysterious world.

Ordinary cultivators couldn't see this kind of passage at all. This was the Absolute Heavenly Extinction passage that belonged to the Heavenly Extinction beings!

"Princess..."

In the boat, the man in purple-gold armor stood in front of Jia Nan with a look of fear.

"Stupid."

Jia Nan sat on the throne with a delicate face, with her black hair like a waterfall, and her eyes were noble and indifferent like a god. Hearing this, the man in the purple-gold armor changed his expression and became even more terrified.

"Please forgive me, Elder Princess, that human was too deceiving. I didn't provoke him at all."

He spoke with a trembling voice, incomparably fearful and afraid of Jia Nan. In the Heavenly Extinction Imperial Court, who did not know her Eldest princess' iron-blooded prestige?

Even the Old Emperor of the Heavenly Extinction Imperial Court was still afraid of her by three points.

"I don't want to pursue this matter. That human is a distinguished guest of my Heavenly Extinction Imperial Court. If you meet him in the future, you must not provoke him." Jia Nan looked at him indifferently and said lightly.

"Yes, ma'am." The man in the purple-gold armor hurriedly replied, although he was aggrieved, he didn't dare to say anything more.

Obviously, the other party took the initiative and seriously injured him. As the Eldest Princess, and his sister, she did not avenge him, and said that the human was actually a distinguished guest of her Heavenly Extinction Imperial Court?

This made him very resentful, but he was even more panicked. What kind of identity did that human have?

"You can go back." Jia Nan glanced at him lightly. She didn't know what he was thinking, but she didn't care and sent him back.

After the purple-gold armored man left. Jian Nan's brows suddenly wrinkled, and a hint of surprise flashed across his indifferent face.

"Is it discovered by him?" She didn't expect that the wisp of divine soul that she was hiding in the space device would be detected by Gu Changge so quickly, and her perception was directly blocked.

Jian Nan herself had no doubts about Gu Changge's oath of heaven at that time. After all, the oath of Dao heart was the biggest poisonous oath for cultivators.

No one dared to ignore it. But what Gu Changge promised at the time was really too simple, which made her feel that something was wrong, and felt that she needed to investigate and pay attention to his movements. Because of the special nature of space chess, even if she hid her soul in it, ordinary cultivators wouldn't find out even if they tried to check.

Jia Nan's original plan was to observe Gu Changge for a while first, even if he noticed it later, it didn't matter. But she really did not expect that this strand of divine soul would be noticed by Gu Changge so quickly and he would cut off all her perceptions.

"Why do I always feel that this so-called descendant of the Ancient Heavenly Lord of Reincarnation is not a good person? If you seek others while donning the skin of a tiger, you have to be prepared to be swallowed by a tiger..."

Jia Nan frowned, sighed slightly, and quickly recovered from this wrong mood, and kept her mind calm.

.....

In the blink of an eye, seven days passed. Beyond that crack, Jiang Chuchu looked at the decreasing aura of Heavenly Extinction, and breathed a sigh of relief in her heart.

"It seems that Gu Changge has solved this calamity."

Even though she had already seen Gu Changge's method to solve the calamity of Heavenly Extinction, Jiang Chuchu was still a little worried. After all, the calamity this time was several times more serious than the last time.

Last time, Gu Changge was also contaminated with the aura of Heavenly Extinction and suffered serious injuries. Even if it went well this time, Gu Changge probably won't take it easy, and it also involved Heavenly Extinction beings at the Quasi-Supreme Realm.

Facing the existence of the Great Sacred Realm, the young geniuses could only choose to retreat and flee, not daring to contend. In front of the Quasi-Supreme existence, it was as weak as an ant, and with a single strand of their aura, they could separate their flesh and spirit from their soul, and destroy their body and spirit.

Although Gu Changge was powerful, he was not invincible.

However, seeing that the mist of Heavenly Extinction was getting thinner and thinner, and the Heavenly Extinction beings were becoming less and less, Jiang Chuchu also knew that Gu Changge should have successfully solved this scourge of Heavenly Extinction.

This made her feel relieved and she heaved a sigh of relief. Solving the calamity of Heavenly Extinction was obviously the task of the Human Ancestor and the descendants of Human Ancestor Hall, but now it was Gu Changge, the inheritor of demonic art, who was the one to complete it.

Thinking of this, Jiang Chuchu's mood was very complicated. If it wasn't for her, Gu Changge probably wouldn't have gotten involved in this kind of thing.

And just when Jiang Chuchu was thinking wildly, within the crack, a piece of immortal light emerged, turned into a golden channel, vast and boundless, and the aura of Heavenly Extinction couldn't even get close.

Gu Changge emerged. His aura didn't seem to be much different from usual, but Gu Changge knew that after swallowing this piece of origin of Absolute Heavenly Extinction, his cultivation had improved greatly.

Chapter 317: All day long, Jiang Chuchu is thinking of getting good things for free

Gu Changge's figure appeared outside the crack and there seemed to be a floating light flickering beside him as he appeared beside Jiang Chuchu in a single step.

"Are you okay?"

Jiang Chuchu's figure flashed, stepping forward as she asked, her eyes fell, and she looked up and down at Gu Changge. She found that his breath was peaceful and stable, not like he was injured, so she breathed a sigh of relief.

She still remembered the shocking injury when Gu Changge was corroded by the aura of Heavenly Extinction last time.

"I'm fine." Gu Changge waved his hand and smiled naturally, "I didn't expect that Your Highness, the Holy Maiden, would care about me, the demon. It's really flattering."

"You're thinking too much since it's my fault. If something happens to you, I'll be sorry."

Hearing this, the concern on Jiang Chuchu's face disappeared, and she glanced at Gu Changge, and explained showing a cold face.

"Okay, okay. I know you care about me." Gu Changge smiled and reached out to embrace her slender waist.

Jiang Chuchu was about to deny it, but suddenly, her body stiffened and her expression froze. The whole figure was like a clay sculpture, standing there, very unaccustomed to Gu Changge's intimate behavior.

A layer of redness appeared on her delicate white skin. She didn't know what she was feeling now. She clearly felt that Gu Changge was extremely annoying, but she just couldn't refuse.

Moreover, Gu Changge bullied her again and again, and when they first met, he suppressed her and imprisoned her in his small world. It was the darkest and most helpless time for her.

Afterward, she even witnessed the process of Gu Changge calculating the reincarnation of the Human Ancestor and killing him. It had an indescribable impact on Jiang Chuchu's more than 20 years of cultivation.

Gu Changge was really horrible and terrifying, but he didn't kill her, even if she knew many secrets of Gu Changge. He even took the initiative to rescue her and solved several calamities of Absolute Heavenly Extinction for her.

"Chuchu?"

At this time, Gu Changge suddenly called out softly, making Jiang Chuchu who was in turmoil, suddenly come back to her senses, looking at him suspiciously with her cold and beautiful eyes.

"Huh?" Jiang Chuchu motioned for him to continue.

"You didn't say anything?" Gu Changge smiled.

Jiang Chuchu was stunned for a moment, then said softly, "Thank you."

"That's it?" Gu Changge raised his eyebrows and seemed a little dissatisfied with her answer.

"Then what do you think of me?" Jiang Chuchu looked at him, and after tasting the sweetness last time, she became more and more daring to fight against Gu Changge.

"Then it seems that you want something for free, huh?" Gu Changge asked with interest.

Hearing that, Jiang Chuchu thought about it seriously. It seemed that she was really just waiting to get things for free without doing anything. As a result, Gu Changge came all the way, and it took so many days for him to solve such trouble.

But she just said thank you. It was kind of embarrassing to say this. However, she had no regrets about the hateful Gu Changge. Jiang Chuchu thought about these words and felt that there was still some sincerity, and maybe she would have to continue to trouble Gu Changge next time.

So she said lightly,

"I don't care about that. This matter has nothing to do with you. If you didn't kill the Human Ancestor, there wouldn't be so much trouble. However, thank you very much... woo woo..." But she didn't say the rest because her mouth was gagged.

Jiang Chuchu's beautiful eyes widened, and her jade fist slammed on Gu Changge's body, sending out terrifying fluctuations like mountains and seas. If the ordinary cultivators were there at this time, maybe they would all explode, and their bodies and spirits would be destroyed.

Her strength should not be underestimated. When caught off guard, her subconscious power was still very terrifying. However, no matter how hard Jiang Chuchu struggled, she couldn't get rid of it.

In the end, she hummed out of her nose and didn't bother to struggle. Anyway, Gu Changge didn't bully her like this once or twice. Jiang Chuchu was also used to it.

"Chuchu?" Gu Changge smiled and called out.

"Um?" Jiang Chuchu looked at him with her beautiful eyes, but she seemed very calm at this time.

Even if Gu Changge didn't care about her current nickname, it felt normal. Gu Changge had always been very picky about women, and there were naturally fewer women who made him interested.

Jiang Chuchu was not only useful to him, but also helped him obtain the origin of Absolute Heavenly Extinction, and made him love her. At this time, Gu Changge would naturally not begrudge some tenderness.

"Chuchu, do you want me to do something to you?" But the next moment, Gu Changge smiled, and in a flash, he appeared in another direction.

Jiang Chuchu had already closed her eyes, her eyelashes trembling slightly. But she didn't know that when Gu Changge suddenly said this, her whole person was stunned, she opened her eyes and realized all this.

Then, on her delicate face of immortal jade, two groups of red clouds suddenly appeared. She became angry and annoyed, and her eyes suddenly became cold.

"Gu Changge...you're really a bastard!" Jiang Chuchu said in a cold voice with anger.

"What? Are you disappointed, Chuchu?" Gu Changge smiled and stood in the void in the distance. The white clothes were moving, and they were looking extraordinary and immortal as if they were going to step on the immortal road and fly away.

The smile on his face, in the eyes of Jiang Chuchu now, was almost exactly like a bastard, and it was extremely hateful.

"Why do you always like to bully me?" Jiang Chuchu felt all kinds of grievances in her heart, but her face was still cold.

She had given in to this extent, but Gu Changge was still teasing and bullying her. This made her, who had always been disinclined to be noisy, couldn't help but want to grind her teeth and curse at Gu Changge.

But she abruptly endured it.

"When did I bully you again?" Gu Changge said calmly, "It's too late for me to love you."

Jiang Chuchu was very angry at his shameless words.

Which man loved his woman like him?

"However, this can be regarded as the reward I want. Don't think about getting good things for free in the future. If you want me to help you, then you have to pay the price, understand?" Gu Changge spoke again.

With a wave of his sleeve, the void blurred, and a portal appeared. In a blink of an eye, he left this place and disappeared without a trace. Although he claimed to be in seclusion to recuperate. But in fact, apart from Jiang Chuchu, no one knew that Gu Changge had been here.

But just in case, he had to go back first.

"I....."

Jiang Chuchu was stunned by Gu Changge's words, and infinite resentment arose in her heart. What do you mean, don't think about getting good things for free?

All of her people belonged to Gu Changge, so Gu Changge still intended to take advantage of her? Did that mean that in the future, she would be bullied by Gu Changge just like she was today?

"The scourge of Heavenly Extinction was obviously solved by him, but at this time, the credit is all on me. He doesn't want anything."

Then, Jiang Chuchu thought about something else and looked fixedly in the direction where Gu Changge left. Ripples were born in her heart, and she couldn't calm down for a while. Before that, she had never thought about letting Gu Changge replace the Human Ancestor.

Even if Gu Changge took the initiative to mention it, she would directly refuse it, and she never hesitated or wavered. But now, as soon as this thought appeared, it was like a raging fire, and it was difficult to stop.

With Gu Changge's current reputation, she only needed to announce at that time, who would know if it was true or not?

.....

"How is Young Master Changge's injury now?"

"I saw that Young Master Changge's complexion is much better than before."

"It can only be said that it is worthy of young master Changge, even if he suffered such a serious injury. He recovered within a few days. Such a powerful vitality is stronger than some ancient freaks."

"Yeah, if it were us, we would probably have died long ago with such an injury."

In the Ancient Xuanwu Kingdom, a magnificent palace was very lively, and many people came here. Many geniuses gathered, including Yin Mei, Ying Yu, Gu Xian'er, Qing Feng, and others.

There were also several Elders of the True Immortal Academy who had heard the news and rushed here. At this moment, it was the few geniuses who were speaking, all with sighs and admiration.

In the center of the palace, Gu Changge greeted everyone with a smile and a slightly pale face. It was the first time he had appeared in front of outsiders in this period of time.

In front of him, there was also a chessboard that was black and white. When everyone came to visit him, he was playing chess with Ji Qingxuan to pass time.

After returning to this place, Gu Changge began to prepare for his next step. The fight between the two Sons of Luck, Qin Wuya and Chu Hao, could not be triggered so easily under his secret guidance.

What Gu Changge had to do was to take out Zi Yang Heavenly King first.

Of course, only he knew this. In the eyes of everyone at this moment, Gu Changge's cultivation and aura were slightly better than some time ago. But it still hadn't reached the point where his wound was fully healed.

This injury was no small trouble for him.

"Young Master Changge has injured his origin. To recover, it will take a little longer..."

The Elder who spoke slightly shook his head and withdrew his hand to inquire about Gu Changge's injury. With Gu Changge's identity, naturally, he would not lack all kinds of divine materials and holy medicines, but it was still such a case, which showed how terrifying his injury was.

Everyone had different emotions when they heard these words.

"The Elders are over-concerned." Gu Changge smiled slightly, "This injury will heal in half a month at most, it's nothing big. However, during this period of time, I wonder whether Elders have any news about Qing Xiao Yi?"

"Or is it... the news of Heavenly King Zi Yang?"

Then, Gu Changge took the initiative to speak, directly mentioning another matter, and asked. Hearing this, the atmosphere in the palace changed abruptly, even the Elders who were smiling just now, their expressions stiffened, and they were suddenly speechless.

The faces of many geniuses also showed complex fears.

Zi Yang Heavenly King!

During this period of time, if the inheritor of demonic art was the most popular, then Zi Yang Heavenly King was definitely the second most popular. Even in the eyes of many people, Zi Yang Heavenly King might repeat the mistake of Prince Ying.

Not only did he kidnap Qing Xiao Yi who had the Immortal Demonic Body, but he also seemed to be related to the inheritor of demonic art! Zi Yang was going to hunt down the inheritor of demonic art, but he ended up kidnapping Qing Xiao Yi in secret.

In addition, during this period of time, various rumors and speculations arose, causing a sensation all over.

But Zi Yang Heavenly King still did not show up.

In the eyes of everyone, it was a manifestation of silent escape.

Chapter 318: Young master Changge is really worthy of admiration, the clues of Zi Yang Heavenly King

"During this time, we also asked Purple Mansion about the whereabouts of Zi Yang Heavenly King, but even Purple Mansion does not know a thing."

"We will not forget about Qing Xiao Yi's matter, but Zi Yang Heavenly King's whereabouts are unknown. It is even more difficult to find Qing Xiao Yi. It is like looking for a needle in a haystack."

"It's not that we are slacking off, but this kind of thing is beyond human ability."

An Elder couldn't help sighing. Although the Supreme being was strong, if you want to find the other party when the other party was deliberately hiding their traces, it was also very difficult, and there was almost no possibility of success.

They also tried to deduce where Qing Xiao Yi was based on the bloodline of Qing Xiao Yi's brother. But the two were not biological siblings and were not related by blood.

In the end, there was no choice for them but to give up. His words also changed the expressions of many geniuses present here, and they sensed a subtle meaning.

"Looks like there's going to be a good show."

"Young Master Changge still didn't let it go."

As the Supreme sect behind Zi Yang Heavenly King, how could Purple Mansion not be aware of his traces?

After all, the inheritance of Zi Yang Heavenly King's cultivation came from the Purple Mansion, and the Purple Mansion only needed a little means to determine where Zi Yang Heavenly King was.

"It seems that Purple Mansion intends to protect Zi Yang Heavenly King."

"As a Supreme sect, it does have such courage and strength."

Several geniuses looked at each other and understood the meaning in each other's eyes.

Hearing what the Elder said, Qing Feng also said with a bitter expression, "Purple Mansion doesn't care about a little guy like me at all, in front of them, let alone my sister who was kidnapped, even if she dies

tragically, they wouldn't care. Standing tall and overlooking everything, in their eyes, Heavenly King Zi Yang is their only hope for the future... And my sister and I are just little ants that can be pinched to death."

His words made many geniuses silent, feeling the sadness of a small person. Obviously, his sister was kidnapped, but he was powerless and was not even qualified to resist.

Everyone fell silent.

The Purple Mansion behind Zi Yang Heavenly King would rather offend the rest of the Dao lineages and protect a ruthless descendent like Zi Yang Heavenly King. After all, Heavenly King Zi Yang might be related to the inheritor of demonic art.

And this "maybe" could be erased at any time because of the existence of Purple Mansion! At that time, who would go against the Purple Mansion because of this?

"It seems that the Purple Mansion is deliberately concealing the traces of Zi Yang Heavenly King. Could it be that Purple Mansion is planning to risk the world's justice and plan to protect Zi Yang Heavenly King?"

Gu Changge pondered for a while, sighed slightly, and then said, "But don't worry. Since I promised something, I naturally won't shirk it."

"Zi Yang Heavenly King and the Purple Mansion behind him are so arrogant, maybe this time the inheritor of demonic art has infiltrated the True Immortal Academy and has an inseparable relationship with Zi Yang Heavenly King."

Everyone's expressions changed when they heard the words. They didn't expect that even if Gu Changge was injured, he would still stand strong and never forget this. Many people still thought that he might be at ease and recuperating, and he had no time to take this matter into consideration.

But now it seemed that Gu Changge was determined to find out Zi Yang Heavenly King.

"Young master Changge made a promise to that girl and still cares about her, with such a temperament, he is truly worthy of admiration!" All the geniuses sighed.

"Thank you, Young Master Changge." Qing Feng understood what Gu Changge meant, and immediately said with gratitude.

Gu Changge waved his hand. Several Elders looked at each other and smiled bitterly. Anyway, they did not dare to intervene easily. Lightly, the two sides were unflattering, and at worst, the body and spirit would be both destroyed.

Afterward, after seeing Gu Changge, everyone retired one by one. In the end, only Gu Xian'er stayed, and she seemed a little hesitant to speak.

"In front of me, don't beat around the bush." ??Gu Changge had a calm expression, holding a teacup in his hand, and took a sip.

In addition to Gu Xian'er, Ji Qingxuan was standing beside him.

"With your current situation, can you intervene in this matter?"

Gu Xian'er frowned slightly, worried about Gu Changge's injury, but Gu Changge himself didn't care at all.

"It's just a matter of dealing with a Zi Yang Heavenly King, what's there to care about." Gu Changge didn't care about that.

Gu Xian'er's brows were still tightly wrinkled.

"Don't be so brave. If I hadn't agreed to Qing Feng casually, I wouldn't have involved you..." She felt a little guilty and remorseful.

Gu Changge laughed suddenly, put down the teacup, and said unhurriedly, "Don't be sentimental, and think I'm here for you. It's just that Zi Yang Heavenly King is blocking my way. Besides, I suspect that he has colluded with the inheritor of demonic art."

"Maybe I can find the inheritor of demonic art because of him. Gu Xian'er, if you don't change your character, one day I will sell you off, and you may have to count the money for me."

"Well, I'm being selfish. It's your body, not mine. Do you think I'll care if it hurts?" Gu Xian'er didn't care about Gu Changge's sarcasm and looked at him coldly.

At this time, her eyes were as cold as ice. After saying that, she turned her face away, her skirt fluttered, and she looked aloof and vulgar and left the hall with a burst of immortal energy.

"This girl is really helpless. She's still cute when she is angry." Gu Changge shook his head slightly, and Ji Qingxuan, who was beside him, quickly filled the teacup for him.

"Zi Yang Heavenly King's junior brothers and junior sisters, are they still in the Ancient Xuanwu Kingdom?" Gu Changge glanced at her and asked lightly.

"They are still there and haven't left. Could it be that the young master wants to do something to them?" Ji Qingxuan nodded and asked curiously.

Purple Mansion was a behemoth with a long heritage and was extremely ancient. Even among the many Immortal sects and Supreme sects, they could be ranked at the forefront. This was also the reason why many Elders were afraid to take action.

Although the Hidden Royal Family behind her was less ancient, it had declined, even if it had not declined, it was far less than the terrifying ancient heritage of Purple Mansion.

"Make a move? No, how can I attack them when I am elegant and easy-going? I just want to invite them over for a cup of tea." Gu Changge smiled and said casually.

Ji Qingxuan was stunned for a moment, then nodded, although she didn't follow Gu Changge as fast as her sister Su Qingge. But she was very smart, and some things were easy to understand, and there was no need to say more.

For example, she also understood some of Gu Changge's personality habits more clearly. Ji Qingxuan felt that Gu Changge had actually seen her abnormality long ago, but she had never been able to spot it.

From some of his usual words, she could feel Gu Changge's interest, like he was teasing a small pet. For her, that time was the most disturbing and tense.

This made Ji Qingxuan's back often wet with cold sweat, and her heart was almost raised to her throat. It turned out that Gu Changge just asked casually and didn't care. This kind of feeling was like walking on the edge of a cliff.

Ji Qingxuan felt that Gu Changge did this on purpose. She had been following Gu Changge for a while, and many rumors from the outside world seemed unreal to her.

Whether it was gentle or elegant, or strong and arrogant, all of them were wrong.

Unpredictable.

Only this word could describe him.

"Pass on my instructions, go to the residence of the Purple Mansion disciples, and invite all of them here. If they don't come, then you're welcome to suppress those that should be suppressed, and disable those who should be beaten."

Afterward, Gu Changge spoke again and asked Ji Qingxuan to instruct this matter. Ji Qingxuan did not dare to delay and hurriedly went down to give orders.

Gu Changge rubbed the teacup made of white jade. His eyes gradually deepened.

He started to think about other things.

During this period, in addition to the powers of the Dao Lineages, he began to pay attention to the existence of the inheritors of demonic art and sent major powerhouses to search for their traces.

Another thing also shocked the entire Upper Realm.

The two ancient beings in Heavenly Emperor Mountain and Buddha Mountain fought against each other. It was said that these two beings were both characters who had failed to become enlightened.

Their current cultivation was only half a step away from enlightenment.

In the battle that took place outside the sky, there were still vast fluctuations even hundreds of millions of miles away, the sky and the earth were torn apart, shocking everyone.

The stars within a million miles were turned into ashes and dust.

As for the outcome of that battle, no one knew a thing about it. Some people said that the Buddha of Buddha Mountain was slightly better, and some people said that the existence of Emperor Mountain was stronger.

All in all, there were different opinions.

And through this incident, Jin Chan was also pushed to the forefront of the wind and waves, and many people learned what happened from the mouths of many geniuses.

The reason for the war between Emperor Mountain and Buddha Mountain. Speaking of which, it was entirely caused by this Jin Chan.

As a monk, not only was he not merciful, but he did whatever he wanted. As a result, Prince Sheng was killed by the inheritor of demonic art. Many people called him a demon monk!

"Demon Monk? It seems that the grievances of Emperor Mountain have not been digested, so they just wanted to find a place to vent."

Gu Changge thought of Purple Mansion, and at this time, he had to find a fool to charge him first. After thinking about it, it was still best to take advantage of Emperor Mountain.

"As long as the hatred of Emperor Mountain does not disappear, Purple Mansion will definitely be noticed at this time, and I can give them a signal."

Gu Changge smiled, raised the chess piece, and dropped it, the entire chessboard changed vertically and horizontally, suddenly like a thousand atmospheres, mysterious and unpredictable.

"Checkmate!"

.....

At the same time, in a tall mountain range not very far from the Ancient Xuanwu Kingdom. Among the craggy rocks, the cliffs, the ancient trees were tall and lush, and their branches were covering the sky.

Large swaths of fog drifted here. In the void, there was a constant flickering of light. If one looked closely, they would find that this was a very hidden and mysterious rune. These runes covered all directions and were condensed into hidden patterns.

At this time, even if there was a Spiritual Sense of a Supreme being sweeping down in the sky, it was impossible for it to find the anomaly here. Because these hidden patterns were extremely superb, in addition to the surrounding mountains, there were also various hidden divine weapons.

In the land shrouded in formations, there was a ruin that had been abandoned. The collapsed palace buildings, pagodas, and temples were covered with moss, looking very ancient and vicissitudes.

A heroic man in a purple robe, with black hair and a shawl, with facial features exuding a sense of righteousness, was sitting cross-legged on the ground.

Threads of brilliance seemed to pour down from the sky and were finally absorbed by the lines between his eyebrows.

There were many geniuses near the purple-robed man, both from the human race and the ancient races, with a strong aura, and they were guarding and patrolling around, and they were extremely vigilant.

The man in the purple robe was Zi Yang Heavenly King.

He was planning to refine the immortal aura so as to solve the problem of his immortal eye and see if he could find a way to solve it.

Contrary to what everyone thought, in fact, Heavenly King Zi Yang did not go too far from the Ancient Xuanwu Kingdom.

Chapter 319: Invitation for tea, Even if I am injured, I can still cover the sky with one hand

There was actually a reason for Zi Yang Heavenly King to appear here. First, he didn't know where to go. Secondly, because he wanted to know the latest news, he was waiting here for the arrival of his Senior brother Qin Wuya.

When he learned that he was being accused of kidnapping Qing Xiao Yi, and had a lot to do with the inheritor of demonic art. Zi Yang Heavenly King was completely stunned as if he was struck by lightning, his head was buzzing, and he couldn't come back to his senses for a while.

His first reaction was that these rumors were all false, and he was being framed. After all, he was chasing the inheritor of demonic art. Although he could not catch up, his many followers were injured. But kidnapping Qing Xiao Yi? Had a lot to do with the inheritor of demonic art? How could he do that?

Later, when he got the details of those rumors, Heavenly King Zi Yang was extremely furious and hated the heavens. He directly roared and shattered the mountains and rivers in a radius of ten thousand miles. He was framed by someone!

He didn't do anything, and was accused of such huge blame? The followers around him could attest to this kind of thing. Since he came out from the Ancient Xuanwu Kingdom's Capital to hunt down the inheritor of demonic art, he almost never acted alone.

How did he rush to the Ancient Qinglong Kingdom and kidnap Qing Xiao Yi in such a short period of time? This simply could not be done. But from the many details in that news, it also included the scene recorded in the memory stone. It made Zi Yang Heavenly King feel dumbfounded and his eyes would pop out.

If he hadn't been very aware of what he had done during this time, he might have suspected that he had taken Qing Xiao Yi away. After all, it involved the power of Hongmeng!

The person who took the shot at the beginning had the same power as him. But as far as Heavenly King Zi Yang knew, apart from him, there was no other person in this world who had this kind of power.

And the situation at the time was even more coincidental. If the other party deliberately framed him, how would he know that Qing Feng possessed the Heavenly Artifact, the Heavenly Bottle?

If there was no Heavenly Bottle, Qing Feng would have died at that time, and it was even less likely to reveal the existence of the power of Hongmeng. All of this seemed to be a complete coincidence, and still logical. There were no flaws and explanations that could be found. Moreover, in conjunction with another sensational event, it almost blocked Zi Yang Heavenly King's last retreat.

Didn't he go after the inheritor of demonic art at that time? But why would the inheritor of demonic art appear in the Ancient Xuanwu Kingdom, and in front of all the geniuses, attract people to the land of Absolute Heavenly Extinction?

Prince Sheng died, and Gu Changge was seriously injured! The sensation caused by this incident was tens of thousands of times more shocking than that of Qing Xiao Yi being kidnapped, and the impact was even more unimaginable.

This made Zi Yang Heavenly King feel chills all over his body, and his eyes almost went dark. The terrifying cold air rushed from his tailbone to his head, and it was almost impossible for him to move.

Fright, anger, unease... and most of all, fear. For this kind of thing, no matter how he explained it, it was impossible to wash away, unless he could find the real murderer who kidnapped Qing Xiao Yi.

Find that mysterious person who, like him, possessed the power of Hongmeng. But the difficulty of this kind of thing was even more difficult than clearing the suspicion. The other party was planning to kill him.

When he said he was going to hunt down the inheritor of demonic art, the inheritor of the demonic art appeared and slapped him in the face. In this way, everyone would think that he and the inheritor of demonic art had actually negotiated it a long time ago.

With layer upon layer of calculations, interlocking, terrifying to the point of making him palpitate.

"Qing Xiao Yi has an Immortal Demonic body, except for the inheritor of demonic art, no one will kidnap her... And the person I was chasing at that time turned out to be a fake inheritor of demonic art. , the purpose of all this is to calculate me... Damn it, don't let me know who is plotting against me!"

Thinking of these things, Zi Yang Heavenly King was extremely angry and unwilling. His fists were clenched, and the killing intent was so monstrous that even the sky seemed like it would be shattered at any time. But then, he calmed down, after all, he was not an impulsive and mindless person, knowing that this kind of anger was just in vain.

"The most urgent task is to know who the enemy is. The Purple Mansion behind me cannot give up because of this!"

Zi Yang Heavenly King calmed down and began to seriously think about countermeasures. Because his identity was similar to the rest of the ancient freaks, the family he was born into was the power line in the Purple Mansion. So he was not very worried that if such a thing happened, he would be abandoned by the forces behind him.

Afterward, Zi Yang Heavenly King hesitated and struggled for a moment, intending to use a secret technique, but this would wear down the immortal runes in his immortal eyes.

If he wanted to use it later, it would be more difficult.

"There's no other way. If you don't even know who the enemy is, even if there is a countermeasure, so what?"

Zi Yang suited himself.

Buzz!!

Suddenly, in his blood, there were many runes emerging, constantly surging, and they all converged in the sky. Then, the rune between his eyebrows split open, and a radiance emerged, incomparably bright and solid as if all kinds of divine lights were emerging.

Followed by the appearance of a hazy scene. It was a broken corner of the future. Although it was blurry, Zi Yang Heavenly King could see the figure of that person clearly.

"What? That's... Gu... Changge!?? Why is it him again."

Zi Yang Heavenly King's eyes widened, and the corners of his eyes were about to split, making it hard to believe this scene. Although it was just a vague figure, how could he not recognize that kind of temperament and appearance and such a face?

This was his great enemy, Gu Changge! Could it be that Gu Changge was dealing with him again? Was all this actually calculated by Gu Changge? Zi Yang Heavenly King couldn't figure it out at all, his head was a mess, and he still wanted to see the details.

But in the next moment, those heartfelt horrors came again. In the faint, he saw the scene when the mountain gate was shattered and destroyed by a palm from the eight thousand states across the sky.

Every inch of his cell, flesh, and bones trembled, creating unspeakable fear. Zi Yang Heavenly King turned pale, sweating profusely, and his whole body was wet as if he had been fished out of water.

"How is it possible..." His voice trembled, and his eyes were horrified and filled with fear.

Zi Yang Heavenly King couldn't figure out why he suddenly saw that nightmarish, indelible scene that accompanied him from generation to generation.

.....

The Holy Maiden of Purple Mansion was named Zi Yan, but her original name was actually Liu Zi Yan. His father was the current patriarch of Purple Mansion, and he was powerful in the Upper Realm.

Although Liu Zi Yan was not among the ten Candidate disciples of True Immortal Academy. She was also a Quasi-Candidate level, though very low-profile and only a few people had seen her make a move, and her strength was definitely not weak.

There were even people who collected the portraits of all the beautiful girls in True Immortal Academy, and finally selected the ten most beautiful girls and named them ten beautiful pictures.

Liu Zi Yan was also one of them.

She had a beautiful face, and a slender figure, and was wearing a long purple dress, embellished like flowers. The lotus strides were gentle like immortal flowers swaying, glamorous and noble, and exuding an amazing beauty.

In the residence of all the disciples of the Purple Mansion in the Ancient Xuanwu Kingdom.

Inside the palace.

Liu Zi Yan stood in the first place, her brows furrowed, her voice cold.

"Gu Changge invited all of us to have tea?"

Behind her, there were the rest of the disciples of the Purple Mansion, their faces were heavy and uneasy. They were very nervous, and they all worshiped the True Immortal Academy. This time, they followed Zi Yang Heavenly King and came to the Ancient Xuanwu Kingdom for the trial.

It was just that because of Zi Yang Heavenly King's high vision, many people did not become his followers but stayed here.

"This is the Master's order, and I hope Holy Maiden Zi Yan won't make it difficult for me to make him wait."

"Master said that if the Holy Maiden Zi Yan rejects his kindness, then I can only use force to take you away."

In front of the palace gate, a tall young man with divine light all over his body said in a deep voice. His name was Wang Zhong. His eyes contained divine inscriptions, and wisps of divine light, and there was great majesty between opening and closing.

There were also many geniuses behind him, all of them with strong cultivation and amazing aura. In the entire True Immortal Academy, almost no one knew about them. The mighty pressure shrouded this place, causing many cultivators and creatures on the street to be extremely shocked.

"Gu Changge is such a good man!" Hearing this, Liu Zi Yan frowned, and her voice was like a thousand years of mysterious ice, crisp but cold.

In terms of identity, she and Gu Changge were from the same generation, but Gu Changge had such an attitude and didn't take her seriously. For Liu Zi Yan, these were actually not important.

What worried her was whether the matter of Zi Yang Heavenly King would even involve them now. When he was in True Immortal Academy, there was a conflict between Gu Changge and Zi Yang Heavenly King.

Afterward, Gu Changge even took action, humiliating Zi Yang Heavenly King in front of all geniuses and the Elders. This feud was not so easy to solve. Now was an eventful time.

The matter of Zi Yang Heavenly King was known to the whole world, and Gu Changge even threatened them to seek justice for Qing Feng. Liu Zi Yan had already guessed Gu Changge's purpose.

And now, someone was sent to invite them to drink tea. Drinking tea was just an excuse, and Hongmen Banquet's house arrest was probably the real thing.

"Holy Maiden Zi Yan, please!"

"My Master has prepared a tea feast, and I'm just waiting for everyone from Purple Mansion to go."

"In addition, Master also asked me to wait for a word by the way. He is injured, and he may be a little ill-mannered at that time. I hope that the Holy Maiden Zi Yan will not take offense!"

Wang Zhong spoke again and was very polite, but there was no doubt in his words. This was already an unabashed threat. And if Liu Zi Yan dared to refuse, he and the people behind him would immediately start to suppress everyone.

Liu Zi Yan's body trembled with anger, and her silver teeth clenched tightly.

"What a great young master!"

Even if Gu Changge was seriously injured, he was definitely not something she could resist. Not to mention that Gu Changge's words were already obvious. If she dared not to obey, he would order to directly suppress everyone here.

Such a strong attitude made Liu Zi Yan extremely angry and unwilling, but there was nothing she could do. The many disciples behind her were also pale and extremely frightened.

After all, the arrogant group in front of her was sent by Gu Changge!

In this Ancient Xuanwu Kingdom, who would not be afraid? Even the Elders who came to preside over the overall situation would not dare to offend Gu Changge!

"Even if he is seriously injured, he can still cover the sky with one hand! Okay, please wait for a while, Young Master Change, Zi Yan will be here soon."

After taking a deep breath, Liu Zi Yan calmed down and spoke to Wang Zhong in front of her. Zi Yang Heavenly King was an ancient freak from the lineage behind her. If one counted it according to her seniority, he could be ranked many generations above her ancestors.

Liu Zi Yan did not believe that Heavenly King Zi Yang would do such a thing. Under the guidance of Heavenly King Zi Yang, she learned an ancient cultivation method that she had been cultivating for many days and could not be leaked to the outside world.

She had also heard Zi Yang Heavenly King talk about his ambitions and Dao, and did not believe that he would be the one who would work with the inheritor of demonic arts and kidnap Qing Xiao Yi.

"Holy Maiden Zi Yan misunderstood. My Master's intention is to ask everyone to come over now. Master's time was precious, and he didn't want to waste it on such trifles."

However, what Wang Zhong said at the next moment made Liu Zi Yan freeze, and endless humiliation and anger arose in her heart. How powerful and bullying was this? He just said this. It was unabashed contempt and indifference!

Although the rest of the Purple Mansion's disciples were equally angry, they only dared to be angry but did not dare to speak, and did not dare to say a word. Seeing this scene, mockery flashed in Wang Zhong and the other's eyes.

In front of their Master, they still dare to pretend?

"Okay, let's go now!"

Afterward, forcing herself to calm down, Liu Zi Yan almost gritted her teeth and said, this was the first time she had felt this powerlessness and humiliation since she grew up.

And soon, Liu Zi Yan and others left and rushed to the palace area where Gu Changge was located. After they got there, Wang Zhong led them into the hall. They finally met Gu Changge who invited them to drink tea.

"Master, you can't let me..."

"So cruel every time."

There was a chessboard in the hall, and the two people were sitting opposite each other. The beautiful woman was looking aggrieved, looking at her white face, which was smeared with ink.

On the other hand, the man on the other side, in white clothes and white socks, with loose black hair and a sloppy expression, didn't even realize it, as if he did not do all of this.

He glanced over here and smiled slightly.

"Oh, Holy Maiden Zi Yan is here? Qingge, go and make tea, don't neglect my distinguished guest."

Chapter 320: Its just the tip of the iceberg, in fact, you misunderstood

Hearing this, Ji Qingxuan didn't have time to wipe off the ink smeared on her face by Gu Changge, and hurriedly got up and went to make tea. She had asked Gu Changge before if he wanted her to prepare something in advance, after all, he was inviting her to come over for tea.

If he didn't even have tea when she came, wouldn't he seem to look down on them too much? But Gu Changge just waved his hand and said that he didn't need it, drinking tea or something was not important.

Ji Qingxuan didn't care too much. She guessed that the Holy Maiden of the Purple Mansion might not be able to leave this place today. Even if she could get out, they would probably have to pay a terrible price.

"Zi Yan greets Young Master Changge."

Liu Zi Yan's expression was ugly at the beginning when she entered the palace, but she soon recovered her calmness and greeted Gu Changge. When she came here, she thought about Gu Changge's many ways to make things difficult.

But she didn't expect him to be like this, even though the tea was freshly boiled, and there was no preparation at all. Such a contemptuous attitude made Liu Zi Yan very angry. But she still had to hold back and smile politely in return.

He was even too lazy to prepare something for the Banquet, this Gu Changge is really strong and arrogant, exactly the same as the previous rumors.

Liu Zi Yan thought so in her heart and calmed herself down. If there was a real conflict, she would definitely not be Gu Changge's opponent.

Even though Gu Changge was injured.

For the rest of the geniuses, even if Gu Changge was in such a state, he was still an unmatched terrifying mountain.

"Greetings Young Master Changge!"

The many disciples of Purple Mansion behind Liu Zi Yan were also extremely nervous and uneasy at this moment and greeted Gu Changge with great fear. Although Gu Changge in front of him looked harmless, he even had an extraordinary demeanor and was not like a mortal person.

But the shadow of a man.

Only when you really face him could you feel the terrifying pressure and heart palpitations.

"Take the rest of the disciples to another place to entertain them. I have something to talk about with Holy Maiden Zi Yan."

"However... I really didn't expect that the Holy Maiden Zi Yang would come so quickly, Qingge, I knew that this girl was lazy, and I even asked her to go to prepare the tea earlier, but she just didn't go... Well, I'll have to teach her a lesson in time."

"I hope that Lady Zi Yan will not take offense to my poor reception."

Gu Changge smiled very casually, instructed Wang Zhong at the entrance of the hall, and then he got up and walked down.

When Ji Qingxuan, who was not far away, heard this, she just wanted to roll her eyes in her heart. She knew how to be lazy all day, and she was so diligent. She really appreciated Gu Changge's method of throwing the blame with ease.

"Young Master Changge is joking, this sweet girl is honored to see the true face of Young Master Changge."

"To be able to drink tea with the young master Changge is really a blessing for Zi Yan, which is something that countless girls can only envy."

Hearing this, Liu Zi Yan's heart skipped a beat. But she was still forcing herself to remain calm, she replied with such a smile like watertight. She didn't believe that Gu Changge was so bold and dared to do anything to her at will.

Even if he had a grudge against Zi Yang Heavenly King, it was impossible for him to vent his anger on her. If something happened to her here, Gu Changge wouldn't be able to escape the responsibility.

After all, many cultivators saw her coming to Gu Changge's side with their own eyes.

"Holy Maiden..."

Many disciples of Purple Mansion looked at Liu Zi Yan with worried expressions.

If they were taken away, it would take them a while to take action if something happened to her. Their support would be too late.

"Could it be that you can't even trust the character of Young Master Changge?" Liu Zi Yan said lightly.

The implication was if something happened to her. Gu Changge was inseparable from this matter, so they could rest assured. As for character, from the rumors, Gu Changge's character was not very good.

Hearing this, the disciples of the Purple Mansion couldn't help but feel relieved and asked Wang Zhong to take them away.

Although Gu Changge was talking about hospitality, none of the people present were idiots, and they all understood that it was actually house arrest.

Now the entire Ancient Xuanwu Kingdom was under the control of Gu Changge, although the place he chose for the trial at that time was the Vermillion Bird Ancient Kingdom. But as soon as Zi Yang Heavenly King disappeared, the Six Crown King was low-key and mysterious and did not like to fight for power. As

a result, no one in the Ancient Xuanwu Kingdom dared to disobey Gu Changge's words, even if they were disciples of Purple Mansion.

Now Gu Changge wanted to place them under house arrest.

Even if the Elders of the True Immortal Academy knew about it, they would not dare to say anymore, instead, they would turn a blind eye.

"It seems that Holy Maiden Zi Yan has misunderstood Gu a little bit, she is so vigilant and suspicious of my good intentions..."

Gu Changge shook his head and smiled helplessly, then pointed to the seat in front of him and motioned for Liu Zi Yan to take the seat.

Liu Zi Yan nodded and sat down, naturally not believing Gu Changge's words.

She was not a three-year-old child, she had her own set of standards for right and wrong, let alone judging whether a person was good or bad.

Suddenly, she looked at the chessboard not far away and asked curiously, "Does Young Master Changge also like to play chess?"

She had dabbled in chess, and although she couldn't be called over by every one, she had a good vision. Black and white were distinct and crisscrossed. From this simple chessboard, one could actually glimpse heaven and earth, and many mysteries.

One could even see the cultivation level of the person who fell on the chessboard.

In a trance, she actually saw the chessboard come alive, black and white, suddenly rising into the sky, like a sea dragon breaking out of the water, the strong wind turned black and white, and it soared up to 90,000 miles.

Darkness and light combined into chaos, and chaos opened up and separated heaven and earth.

Every chess piece on it had become blurred, as if it had been transformed into a living being, transformed into various Dao forces, transformed into Ancient Supremes, transformed into Supreme Master...

"Take all beings and spirits as chess..."

In Liu Zi Yan's heart, her voice trembled slightly. At this moment, she couldn't find any more words to describe her mood other than the stormy waves.

Unfathomable.

It was only the tip of the iceberg.

Everything he had shown now was like the tip of the iceberg above, how much was hidden under it? No one knew this except Gu Changge.

This made Liu Zi Yan's mind unable to calm down for a while, and she never expected to see such a scene today. Gu Changge looked at her expression and vaguely guessed everything she saw.

But he didn't care, he just smiled and said, "It's not like I like it, I'm just bored to pass the time. After all, I'm seriously injured now, so I can only stay in the palace honestly, and I can't go anywhere."

Liu Zi Yan looked at him deeply, and then sighed, "I wonder why young master Changge invited me here?"

She had already made up her mind, not to offend Gu Changge. This was not a matter of intuition, but the sight she saw on the chessboard just now made her feel a bone-chilling fear.

It seemed to have touched some terrifying secret. How deep was this hidden, so that there was such a grand spirit, using heaven and earth as a chess piece?

Even those who had become enlightened did not dare to be like Gu Changge, and didn't have such courage.

"I just wanted to invite the Holy Maiden Zi Yan to come to drink tea, why can't you believe me?"

Gu Changge smiled helplessly, his eyes were calm and indifferent, giving people a very reassuring feeling.

"Master, the tea is ready!"

At this time, Ji Qingxuan also came up with tea, steaming hot, boiled with 8 million years old tree heart spring, fragrant and incomparably rich.

The tea leaves were like the ancient tea of enlightenment, with all kinds of divinities hanging down, and the rhythm of the Dao was flowing, but they were not the same, and there was a big gap.

Some were shaped like ancient bells, and with a slight trembling, the bells would ring out, and some were like a big cauldron, a sword, an ancient seal...

The five-color divine light shone around the tea water as if a divine weapon had been opened in the void.

Axes, forks, swords and whips, everything... All kinds of divine weapons were all in illusion as if they were about to emerge solidly, with clanging noises, and surging treasures.

"This tea is really strange."

Liu Zi Yan was a little stunned for the first time. As a saint of Purple Mansion, she had seen a lot of things.

But this was the first time she had seen such tea, let alone the preciousness of the tea, she had never seen these rare tea leaves. She really learned a lot today.

For a while, she was a little confused about Gu Changge's purpose. Did he really invite her to come over for tea? But seeing how arrogant the attitude of the servants and followers sent by Gu Changge before was, she couldn't be sure.

Comparing the two, Liu Zi Yan felt that it was likely that his people were used to being arrogant and domineering. After all, with the identity of Gu Changge's followers, who would dare to provoke them easily?

"This is an unnamed ancient tea that I planted and cultivated myself. I used the branches of the ancient tea tree to enlighten the Dao and then grafted the branches and leaves of other ancient teas. Finally, I came up with such a different thing..."

Gu Changge smiled warmly and spoke elegantly, and then took the initiative to introduce the tea to Liu Zi Yan.

Of course, these words must be nonsense, and he had a lot of interest in drinking tea. But planting and cultivating ancient tea was too troublesome. Gu Changge still liked the process of picking the final fruit directly.

This unknown ancient tea was exchanged by him from the system mall. As for the purpose, it only served as an introduction.

"I see, I didn't expect the young master Changge to be so leisurely... However, being able to think of this method to cultivate ancient tea is really admirable for Zi Yan."

Liu Zi Yan's eyes were a bit strange, these words were from the bottom of heart, very sincere, and were not flattering.

She herself was not very interested in cultivation. Compared with other hobbies, such as piano, chess, calligraphy, painting, tea art, dancing, etc., she had studied them more thoroughly.

She knew a lot of ancient teas in this world, so she could better judge whether Gu Changge's words were true or not. She really did not expect that Gu Changge had such a profound insight into the art of cultivating tea.

"It seems that the Holy Maiden Zi Yan is also a person who understands tea."

"Please!"

Gu Changge smiled slightly, then motioned Ji Qingxuan to fill it up, and at this time he also stated his intentions.

"Actually, there is another thing I invited Holy Maiden Zi Yan for."

At this time, even if Gu Changge didn't say anything, Liu Zi Yan actually knew what he was talking about. She smiled bitterly and said, "I know that Young Master Changge is looking for the traces of Heavenly King Zi Yang, but in fact, even I can't contact him."

"I informed him about something more than half a month ago, but until now, there has been no reply about him. If Heavenly King Zi Yang is really related to the inheritor of demonic art, I will definitely not be merciful."

"Oh? Is that what Holy Maiden Zi Yan said? However, you seem to have misunderstood."

However, what Gu Changge said in the next moment made Liu Zi Yan's expression stiff, and she was a little surprised.

Didn't Gu Changge intend to inquire about Zi Yang Heavenly King's clues and traces from her? Did she misunderstand?
