Chapter 371-1: Its better to live with a cheap name, Eventually going to the opposite side (1)

"Having said so much, in short, this girl is easy to feed, right?"

At this time, seeing everyone talking and arguing about the origin of Little Wang Yue, Gu Changge waved his hand and interrupted.

"It would be very easy to feed, and because Wang Yue itself is an Immortal beast, she only needs to devour all kinds of auras of the world to survive."

A clan Elder nodded.

"In this case, just find a star field and place it in it. With its ability, it should not starve to death."

Gu Changge said indifferently.

"Aren't you going to keep it to yourself?"

Hearing this, a clan Elder couldn't help but ask in surprise.

This was brought back by Gu Changge, and it was still a very rare descendant of Wang Yue, otherwise, they wouldn't surround it with curiosity.

"Since it's easy to feed, it's the same no matter how you feed it. I don't have that much time to keep her around."

Gu Changge shook his head and said. If it wasn't for this reason, why would he bring the descendent of Wang Yue back into the family?

It was not too troublesome.

When all the clan Elders heard this, they were also a little silent.

The descendant of Wang Yue belonged to Gu Changge, and it was up to him how to raise her, and they had no way to interfere.

Moreover, Wang Yue was an Immortal beast. Although she hadn't grown up yet, her own strength was far superior to the other beasts.

Even if she was left alone, she could live very well.

The Gu family's territory was boundless, and the rich star fields were even more numerous.

Unless those cultivators were bold and not afraid of their clans being exterminated, who would dare to snatch Wang Yue's offspring?

Little Wang Yue clearly understood the meaning of Gu Changge's words, and there was grievance in her big, clear eyes.

But she seemed a little afraid of him and didn't dare to show anything, so she had to lie there and stay still.

She remembered very clearly that Gu Changge didn't say that when he was in the Heavenly Palace.

At that time, he kept saying that it would be no problem to let it eat up the 100,000-star fields, but now he didn't even want to raise her?

Sure enough, she couldn't believe the words of beautiful men.

"What? Little thing, don't you want it?"

Noticing the change in Wang Yue's mood, Gu Changge couldn't help asking with interest.

Little Wang Yue didn't expect Gu Changge to ask herself, and she seemed to be frightened in an instant and retreated toward the back of the Taoist Platform.

She looked very weak, pitiful, and helpless, and in her big eyes, there was fear for him.

"This..."

All the clan Elders watched this scene and didn't know what to say.

Wang Yue didn't respond to them, but she was very afraid of Gu Changge.

Could it be that she had experienced something before?

Gu Changge couldn't help but smile, "If you stay here, you will eat delicious and spicy food, and I will even let you eat a whole star field, isn't it enough? Could it be that you really want to follow that trash?"

Hearing this, little Wang Yue hurriedly shook her head and looked at him with big eyes.

Although Gu Changge was scary, at least she won't go hungry after following him.

If she followed the mortal she saw in the Heavenly Palace before, she would probably starve to death.

"Then why don't you want to? Do you want to follow me?" Gu Changge asked with a smile.

Wang Yue looked at him hesitantly and finally nodded.

She knew that Gu Changge was dangerous, but her intuition told her that she would not suffer from following this man.

"Then you think I'll let a burden follow me?" Gu Changge asked back with interest.

Hearing this, Little Wang Yue lowered her head in despair and spit out bubbles from her mouth.

"If you don't want to raise it, I'll raise it for you."

However, at this moment, accompanied by a cold voice, a figure suddenly appeared in the palace.

The face was blurred and hazy, the figure was slender and tall, and the blue silk was flying in the air, with a transcendent and peerless temperament.

It was Gu Qingyi.

Many clan Elders obviously did not expect Gu Qingyi to show up, and they were a little surprised. Their attitude toward her was obviously different from that of Gu Changge.

Although Gu Changge was the Young Master, he was only a junior after all.

And Gu Qingyi's seniority was obviously much older than theirs, and her cultivation was unfathomable. There were rumors that she would be one step ahead of Gu Changge's father, Gu Lintian, who was the current Patriarch of the Gu family.

Of course, all the clan Elders did not know what kind of cultivation Gu Qingyi had now.

It wasn't even clear if this was her real body.

As soon as Gu Qingyi appeared, her eyes fell on little Wang Yue on the Immortal Jade Taoist Platform, which seemed a little complicated.

But this expression was also fleeting, and soon returned to calm.

"If that's the case, then I would like to thank Aunt Qing."

Gu Changge smiled. Although he was a little surprised that Gu Qingyi would take the initiative to show up, he didn't ask why.

Gu Qingyi glanced at him and nodded.

On the other hand, little Wang Yue in the pool of Immortal Jade Taoist Platform was quite affectionate to her and even swam a distance to get close to Gu Qingyi.

Gu Qingyi rarely showed a smile on her face, although it was only fleeting, Gu Changge could clearly see it.

He raised his brows slightly. He knew Gu Qingyi's character very well, and he rarely saw her with such an expression.

Could it be that there was something else between her and this little Wang Yue?

Thinking of this, he couldn't help but keep an eye on it.

"Since the little Wang Yue is yours, as her Master, give her a name."

Afterward, Gu Qingyi retracted her gaze, looked at Gu Changge, and said in a cold voice.

"Name?"

Gu Changge thought about it for a while, but did not hesitate, "Since it is white and beautiful, let's call her Xiao Bai."

Speaking of this name, he thought of the Eight Desolate Demon Halberd that when he found it, Gu Changge also named it.

Xiao Hei and Xiao Bai were quite easy to hear.

"Xiao Bai?"

Gu Qingyi turned her head to the side, and the blue silk fell down, covering the little half of her face, as if asking Gu Changge if he was sure.

And Wang Yue was very dissatisfied with the name.

Even though she was quite afraid of Gu Changge, she protested and kept shaking her head.

"Is this name bad?" Gu Changge smiled.

"How about a cheap name that can feed better?"

Gu Qingyi didn't care much about the name, but mainly sensed Little Wang Yue's dissatisfaction and grievance.

"Your naming skill is really hard to compliment."

Gu Qingyi shook her head, and her expression did not change.

But since it was little Wang Yue who was brought back by Gu Changge, Gu Changge didn't decide what to name her, and she didn't refute anything.

As for the cheap name or something, forget it. In comparison, Xiao Bai sounded much better.

In this way, little Wang Yue's name was fixed, and even if she was very aggrieved and protested, Gu Changge didn't have any intention of changing his mind.

It was not about bad taste, it was just a hassle.

Afterward, Gu Qingyi left with Gu Changge and Xiao Bai entered the small world where she usually cultivated.

In the huge world, it was full of clouds and mountains, vast and boundless, like a fairyland.

There was no end in sight, and the sea of ??clouds rose and fell as if breathing with the sky.

Apart from Gu Qingyi, there was no one else in this world.

Even the living beings present were ordinary beasts with born intelligence, flowers, and trees, although they were old, they had not touched the essence yet.

From Gu Changge's point of view, Gu Qingyi must have used some means to prevent the plants and other things in this world from being refined.

For her, it was easy to change the rules of heaven and earth.

And her temperament was cold and quiet, and she didn't like being disturbed by outsiders. If she hadn't led the way, Gu Changge would never have been able to find this little world.

After arriving in this world, little Wang Yue was released from the pool, and her slender and white body escaped into the sea of ??clouds, seemingly very happy.

Although this place was only a small world, the spiritual energy of heaven and earth here was extremely rich.

"Let her stay here. With that you should be relieved."

Gu Qingyi said.

She stood on the top of the mountain, her dress fluttering as she watched little Wang Yue regain her freedom, the corner of her mouth couldn't help showing a smile.

"I have nothing to worry about, even if I throw her out casually, no one would dare to hit her."

Gu Changge said with a smile, and then suddenly changed his tone, "By the way, what is your relationship with Immortal Palace, Aunt Qing?"

Hearing this, Gu Qingyi's expression froze.

Then she turned her head to look at Gu Changge, with a complicated look in her eyes.

"What did you remember?" She didn't ask Gu Changge why he asked about this but asked back.

Gu Changge nodded, but didn't answer either, he still smiled, "Aunt Qing, you haven't answered my question yet."

"When you remember something, come back and ask me again."

Gu Qingyi obviously didn't want to answer his question, and her face returned to a cold expression as if refusing people from thousands of miles away.

"Really?" Gu Changge smiled and didn't care.

Chapter 371-2: Its better to live with a cheap name, Eventually going to the opposite side (2)

From the test just now, Gu Changge had already determined that Gu Qingyi obviously had some kind of relationship with the Immortal Palace.

And she seemed to have known him from very early on.

And this self was definitely not his current self, as to whether it was the Demon Lord, it remained to be studied.

"Little thing, you can stay here honestly. If you dare to run around, I don't mind having a taste of what Wang Yue's meat tastes like."

Afterward, Gu Changge opened his mouth to intimidate little Wang Yue who was running around freely in the distance.

Seeing that she was so frightened that she didn't dare to move, and looked weak and pitiful. Gu Changge smiled and turned to leave this world.

Seeing this, Gu Qingyi slightly shook her head.

Although she felt that his actions to scare little Wang Yue were a bit hateful, on the other hand, it also showed that Gu Changge did not intend to leave her alone.

This more or less made her feel that Gu Changge had developed a human touch.

.....

After sending little Wang Yue to the family, Gu Changge returned to the True Immortal Academy.

During this period, the Hidden Ji Family honestly sent the Heavenly Wheel over and did not dare to delay too much.

In addition, the secret treasure he sent to the Divine Weapon Realm to build had also been completed.

It was just that the delivery process was a bit cumbersome.

Because he didn't know who leaked the rumors, many people knew that there was a world-shattering secret treasure born in the Divine Weapon Realm.

Among them, the caravan responsible for the transportation encountered a sneak attack by a thief in the Chaotic Star Region in the middle. Although the casualties were heavy, the good thing was that the things were saved and not lost.

"Someone dares to snatch my things, the thief of this Chaotic Star Region is courageous enough."

Gu Changge narrowed his eyes.

His slender and fair fingers unhurriedly tapped on the table.

He had always heard that the thieves in the Chaotic Star Region were bold, reckless, and evil, and many caravans had been attacked by them.

However, due to the terrain of the Chaotic Star Region, after this group of thieves escaped into it, they soon disappeared without a trace.

Therefore, it was extremely difficult to hunt them down, and even many Immortal sect masters suffered losses at their hands.

However, the thieves in the Chaotic Star Region were not stupid. After knowing that some of the escorts were from the Ancient Immortal Gu Family and the Immortal Sect, they would not provoke them.

And this time, since the other party dared to snatch his secret treasure, there were two possibilities.

One was that they didn't know that this thing belonged to him, and the other was that the interests were moving, and someone was behind it.

But no matter what kind of possibility it was, it was not the reason why these thieves dared to touch his things.

"Someone."

Thinking of this, Gu Changge engraved an order and summoned his followers to instruct him to go on.

For him, this could only be regarded as a small episode, so after the arrangements were properly arranged, Gu Changge didn't care about it anymore.

A few days passed in a blink of an eye, and the matter of his return to the True Immortal Academy was also spread out under the deliberate inquiries of many disciples.

Many people didn't know what Gu Changge had done these days after leaving the True Immortal Academy.

On the contrary, it was the Six Crowned King, Jun Yao, Jin Chan and others who heard the wind that the Heavenly Tower seemed to have fallen into Gu Changge's hands.

In addition to the Heavenly Bottle from the hands of Qing Feng before, the Heavenly Wheel was sent by the Hidden Ji Family.

That was to say, Gu Changge at least had three Heavenly Artifacts, which shocked them quite a bit.

Maybe the Seven Heavenly Artifacts would be collected by Gu Changge.

During this time, Gu Changge was also paying close attention to Qin Wuya's movements, according to the news from Tang Wan.

Although Qin Wuya had the intention to avenge his junior brother, there was nothing he could do.

And with Tang Wan tied up with him, Qin Wuya didn't choose to leave for a while and still served as a protector by her side.

Therefore, Gu Changge was considering Qin Wuya's final value.

Although Qin Wuya and Chu Hao were now hostile and had disputes with each other, Chu Hao had learned to be smart and had returned to the sect to retreat without showing up.

Although the battle between the two of them involved their chances, in general, they were inseparable from Tang Wan.

After thinking about it for a while, Gu Changge decided to place the two of them on hold for the time being, and then make the final harvest when the time comes.

And just as he was thinking about it, the sound of a report came from outside the hall.

"Master, the Holy Maiden of the Human Ancestor Hall is asking to see you."

"Holy Maiden of the Human Ancestor Hall? Jiang Chuchu or Wang Ziji?"

Gu Changge came back to his senses and guessed in his heart who among them was the one to have arrived here.

Jiang Chuchu was not very likely to have come here.

"Let her in."

Gu Changge said lightly, and at the same time, he got up and walked outside the outer hall.

True Immortal Academy had been peaceful for a long time.

Although there were occasional rumors about the appearance of the inheritor of demonic art, they had nothing to do with him.

So Gu Changge guessed that the person looking for him should be Wang Ziji, but he just didn't know what happened to her.

For this fellow tool worker, Gu Changge didn't want to deal with her unless he had to find her for something.

Picking up Luck points from her was simple, but he didn't get much.

On the other hand, Wang Ziji's temperament was indifferent to the world. Although she loved to join in the fun, once he wanted to get some opportunities from her, it would be very difficult.

Because her life was almost smooth sailing, and there was no shortage of opportunities, Gu Changge didn't bother to waste any time on her.

For Gu Changge, Wang Ziji's only role was the origin of her Immortal Body.

When her cultivation base would reach his level, the general physique would have no effect. Even if it was a special physique, it had to be close to the point of completeness before it could be useful to him.

Soon, the sound of footsteps emerged from outside the hall. The person who entered was dressed in a snow-white dress, her face was calm and her body seemed to be surrounded by mist, making it difficult to see her facial features.

It was not Wang Ziji, but Jiang Chuchu, another descendant of the Human Ancestor Hall.

Gu Changge was slightly surprised.

Although Jiang Chuchu tried her best to remain calm, he could see that she was showing such an expression on purpose, and she was not so calm in her heart.

In the past, Jiang Chuchu could only avoid him. But she dared to take the initiative to see him today.

"Did you have any trouble?"

Gu Changge waved his hand to send the crowd as he sat down at will, and asked with a smile.

Jiang Chuchu stared at him without speaking, and just stood there.

"Tell me, where did the utter calamity break out again, and did you find the origin of the calamity? But you have to agree in advance, don't think you can ask me for help about the good things like an empty-glove white wolf, the reward should be equally worthy."

Gu Changge asked casually, just recently, his cultivation had reached the peak of the Great Sacred Realm, and he almost broke through the Quasi-Supreme Realm.

If he could find the source of Absolute Heavenly Extinction, then he could quickly break through.

But having said that, Gu Changge remembered Jia Nan, the Princess of the Heavenly Extinction Imperial Court, who promised her the origin of Heavenly Extinction but had not yet delivered it.

A shred of her soul was in his hands, and Gu Changge didn't believe she would forget it.

Could it be that something happened to the Heavenly Extinction Imperial Court?

"Gu Changge..."

At this moment, Jiang Chuchu was obviously stunned when she heard this, but she didn't expect Gu Changge to ask such a question as soon as she came.

Could it be that in his eyes, the reason why she was looking for him was because of troubles that could not be solved? Was there no other possibility?

"Huh? Could it be that you really plan to be the white wolf and use me with empty gloves?"

Gu Changge noticed her emotional change but still asked with interest.

To be honest, Jiang Chuchu didn't come to him because of the calamity problem, which surprised him a little.

However, Gu Changge still did not intend to take the initiative to break this issue.

He could clearly feel that Jiang Chuchu no longer hated him like before.

"Gu Changge, can you stop being stupid? Can't I come to you for something else?"

Jiang Chuchu asked, looking at him calmly, but feeling a little wrong in her heart.

She originally planned to do as Wang Ziji said, but it turned out that if she really ignored Gu Changge, in terms of Gu Changge's character, he would really ignore her.

After returning to the True Immortal Academy for so many days, she never saw him ask for her.

This made Jiang Chuchu feel unacceptable.

It was clear that before this, Gu Changge was saving her and helping her solve the calamity of Heavenly Extinction, and he didn't even want to be famous.

But why was he still so indifferent to her?

"Can there be anything else between us?"

"Don't forget, you are the Holy Maiden of the Human Ancestor Hall, a beacon of justice, but I am the demon who is full of evil and harms the world."

"In the end, we have to go to the opposite side and kill each other."

Gu Changge laughed when he heard these words as if he was not polite.

Chapter 372-1: The vest of Human Ancestor's reincarnation arrives, We are grasshoppers on the same rope (1)

"You are the descendant of the Human Ancestor Hall who supports justice."

"And I'm the demon who harms the world."

"We are destined to be on opposite sides."

Jiang Chuchu opened her eyes wide, and the words echoed in her mind.

Before that, she actually just thought Gu Changge was joking, not serious. But thinking about it now, it didn't make sense for him to say that.

Because Gu Changge's identity would be revealed sooner or later, he couldn't hide it for the rest of his life.

The inheritor of demonic art had caused chaos in the world, and everyone wanted him to be punished.

And at that time, as the Holy Maiden of the Human Ancestor Hall, how should she deal with him, did she really have to kill him?

But Gu Changge wasn't so bad that there was no cure.

After all, he could have easily killed her, but he didn't do anything and even saved her again and again.

And she knew Gu Changge's biggest secret!

How could she possibly do such a thing?

Jiang Chuchu fell into silence and struggled for a while. When she came to find Gu Changge, she didn't think so much at all.

In her opinion, she wanted to see Gu Changge and wanted him to take care of her. It was that simple.

But after arriving at the palace, she realized that Gu Changge didn't care about her thoughts at all, and even said that she didn't know why she came to him.

This made Jiang Chuchu feel a little uncomfortable.

"Gu Changge, I can understand you, I know you're not that bad... Although you did that kind of thing to me, I know that I brought it on myself, and I don't blame you anymore."

"Even if you killed the Human Ancestor, I know it was not up to you. After all, your identity is destined to be on the opposite side of the Human Ancestor. Either he had to die or you would have died."

Afterward, Jiang Chuchu took a deep breath and packed up her mood. Her face had returned to calm, her eyes were fixed on Gu Changge, and she spoke softly as if she wanted to explain it to him.

Gu Changge waved her hand to interrupt her, smiling, "You are just overthinking, I'm not as good as you think, I have my purpose for all this."

Jiang Chuchu looked at him, sniffed, and seemed to feel betrayed.

She continued, "Then explain why you saved me in the land of Absolute Heavenly Extinction and solved the calamity of Absolute Heavenly Extinction for me..."

Gu Changge picked up the tea next to him, drank it unhurriedly, and then said with a calm expression, "Do I need to explain to you what I want to do?"

"Gu Changge, why can't you admit this?"

Jiang Chuchu frowned, feeling that Gu Changge was just trying to save face, trying to be arrogant and sophisticated, so he didn't even bother to think of an excuse to explain.

Gu Changge drank the tea quietly without saying a word.

Jiang Chuchu continued to speak again, and this time she was even more direct. From the first time she met Gu Changge to the time she was detained, she retold all the things that she had felt since this time.

At the same time, she was also explaining why she thought that Gu Changge did this.

Of course, this was her beautiful idea, and Gu Changge wanted to interrupt her, saying that she was thinking too much.

It was just that when he thought about it, Jiang Chuchu's thinking like this had no effect on him.

"Is that so?"

Gu Changge listened with interest, but the further back he went, the more strange his smile became.

Well, he turned out to be a really good man himself.

This was something he wasn't even aware of himself.

Gu Changge believed that although he was not a person who was evil for the sake of evil, everything he did had nothing to do with the so-called being a good person.

Before that, although he intentionally led Jiang Chuchu to misunderstand him, he did not expect that the misunderstanding would be so deep that Jiang Chuchu had already helped him clean up.

But wasn't that what she meant?

"Actually, when you persuaded me before, I already thought about it..."

After Jiang Chuchu said this, she also breathed a deep sigh of relief, seemingly letting go of the burden in her heart.

Even her eyes looked brighter.

"What did you think?" Gu Changge asked with interest.

"Didn't you persuade me not to commit suicide?" Jiang Chuchu looked at him quietly.

Gu Changge smiled, "How would I remember this kind of thing? You didn't really take it seriously, right?"

Jiang Chuchu didn't care about the sarcasm in his words, stared at him closely, and said seriously, "I still remember what you said at the time, ask me if I really plan to live for the Human Ancestor Hall in this life?"

"Oh, right? I seem to have said something like that." Gu Changge nodded suddenly.

"I have actually thought about this matter carefully. The Human Ancestor has already died in your hands, but no one knows about this matter except you and me. But the Human Ancestor Hall cannot live without a Human Ancestor for a day. You can't go a day without a leader who can contend against the Absolute Heavenly Extinction..."

When Jiang Chuchu said this, her voice was extraordinarily calm. One must know how resistant she was when she first learned about Gu Changge's plan, and she didn't even think about it.

But now, she took the initiative to mention this to Gu Changge and wanted to discuss Human Ancestor's existence again.

"You mean to find someone to disguise as the Human Ancestor?"

Gu Changge raised his eyebrows, although he had long expected that she would agree to this matter, but he still did not expect that Jiang Chuchu would suddenly mention this matter at this time.

"No, I mean, you should be the Human Ancestor."

Jiang Chuchu stared at him boldly, and then couldn't stand Gu Changge's eyes that seemed to see through her completely, making her lower her eyes and voice.

"In this way, no one will suspect that you are related to the inheritor of demonic arts."

"Jiang Chuchu, don't you know what this means? From now on, you would be equivalent to betraying your sect and joining in with me. Are you still willing?"

Gu Changge's voice softened as if he didn't expect her to say that.

"It's nothing. I should have expected this day a long time ago."

Looking at Gu Changge's expression, Jiang Chuchu nodded, without any regret or entanglement on her face, she had already thought about all of this before.

She came to find Gu Changge today, but she just happened to explain all this.

Anyway, this day would have come sooner or later.

"Jiang Chuchu, you are really stupid. After doing this, you will be with me forever."

Hearing this, Gu Changge shook his head slightly, but from his voice, one could not hear much emotional change.

"I don't care, I just want to live for myself once and make my own decision."

Jiang Chuchu's face was very calm, without any waves.

Speaking of which, she suddenly stared at Gu Changge, and implied some expectations, "We will be grasshoppers on the same rope in the future."

In other words, she wanted to let Gu Changge stop bullying her and take care of her.

It was just that with her temperament, it was hard to say this.

"Hmm, grasshoppers on the same rope."

Gu Changge smiled as if he knew what she meant, showing pity.

He reached out his hand and gently pinned the few strands of hair that fell, behind her ears and then took her into his arms.

Jiang Chuchu broke free from his arms and left the palace as if fleeing, not daring to stay for long. Her face was hot, for fear that other disciples outside would see her abnormality.

Reincarnation of the Human Ancestor?

After watching Jiang Chuchu leave, Gu Changge's tenderness disappeared, his eyes were very calm, and he began to think about the next thing.

Chapter 372-2: The vest of Human Ancestor's reincarnation arrives, We are grasshoppers on the same rope (2)

Before, he had thought about pretending to be the Human Ancestor, but considering that Jiang Chuchu and Wang Ziji could not hide it, he put it down for the time being.

But now once Jiang Chuchu cooperated with him, things would become much simpler.

At that time, he would be the Human Ancestor, and the Human Ancestor Hall would naturally obey his orders, which would be even more powerful for his subsequent plans.

In such a huge Upper Realm, who would dare to oppose him?

After all, with the identity of the Human Ancestor, Gu Changge could hold the banner of justice for the common people in everything he does. Anyone who dared to stop him would be against the common people.

The reason why Human Ancestor built the Human Ancestor Hall was to make it easier to possess unparalleled power in his reincarnations in the future and to reach the peak more quickly.

It was just that everything that the Human Ancestor had worked so hard to manage now would be free for Gu Changge.

After returning to her original cave, Jiang Chuchu looked at Wang Ziji, who seemed to have been waiting for a long time.

"You went to see Gu Changge."

Wang Ziji opened her mouth, her eyes were bright, and she did not use a question, but a positive tone.

She stared at Jiang Chuchu closely, and also caught the joy in her eyes.

So she didn't even have to ask to know what she was going to do.

After all, Jiang Chuchu wouldn't leave the cave at all except for cultivating, and she didn't need to think much about why she left the cave.

Wang Ziji hated that iron was not steel.

She just said to Jiang Chuchu a few days ago that she shouldn't be too active, she should be arrogant and cold, and she promised well at the time. Yet in the blink of an eye, she completely forgot about this.

After knowing that Gu Changge had returned to the True Immortal Academy, Jiang Chuchu couldn't wait to find him.

Now there was joy in her eyes.

It was obvious that Gu Changge said something nice to her.

This made Wang Ziji not know what to say to her. Some time ago, she was so embarrassed, it seemed that she had a life-and-death feud with Gu Changge.

"Leave me alone. What are you doing in my cave?"

Jiang Chuchu asked Wang Ziji, but she was not polite, and there was a coldness in her words.

"Of course, I came here to find you."

"Is it Jiang Chuchu's restraint? You deserve to be eaten clean by Gu Changge. Who's to blame?"

With a smile on Wang Ziji's face, she competed with her.

If Jiang Chuchu heard this before, she would definitely start fighting with her.

But today she was very calm, raised her eyebrows slightly, and asked back, "Are you in a hurry?"

Wang Ziji obviously didn't expect her to say this, and her smile froze a bit, "Who is in a hurry? I just care about you, and I don't want you to be deceived by that scumbag."

Jiang Chuchu shook her head slightly, "You don't have to worry about these things, but I have to tell you something."

After all, Wang Ziji was also the Holy Maiden of the Human Ancestor Hall.

Although she didn't care much about Human Ancestor Hall, she still had to inform her at this time.

"What's the matter? Could it be that there is news of the reincarnation of the Human Ancestor?"

Wang Ziji smiled, looking as if she had expected it, but she didn't care about it, "It's said that I'm not interested in finding the reincarnation of the Human Ancestor. But if I find it, that's fine."

Jiang Chuchu glanced at her, nodded, and said in a calm voice, "The reincarnation of Human Ancestor is Gu Changge."

"What?"

Wang Ziji was shocked when she heard this, and her beautiful eyes widened, she couldn't believe it.

She knew at a glance that Gu Changge was not a good person, so how could he be the reincarnation of the Human Ancestor?

But if you talk about it carefully, there was indeed no one in today's younger generation who fit this identity better than Gu Changge.

The mind was powerful, the strength was superb, the background was terrifying, and the talent was even more unique.

He was the reincarnation of the Human Ancestor, which was also in line with the image of the Human Ancestor in everyone's heart, but why did she always feel that this matter was strange?

Wang Ziji looked at Jiang Chuchu suspiciously, "Are you sure this is not what Gu Changge told you to tell me?"

She felt that Gu Changge definitely did something to pretend to be the reincarnation of the Human Ancestor.

Before this, she hadn't heard any news about the reincarnation of the Human Ancestor. Today, after Jiang Chuchu went to see Gu Changge, she suddenly told her that Gu Changge was the reincarnation of the Human Ancestor.

Wang Ziji's first reaction must be to doubt the truth of this matter.

"No." Jiang Chuchu shook his head and said calmly, "We don't have to look for the reincarnation of the Human Ancestor in the future. Gu Changge has a green lotus body, which is already a good proof."

"Nirvana Green Lotus body?"

Wang Ziji's eyes were still a little suspicious. She naturally knew that this object was a divine object that could only be formed after Nirvana Green Lotus matured.

The reason why the Human Ancestor repeatedly reincarnated, was also for this thing.

Since Gu Changge had the body of a Nirvana Green Lotus, there was no doubt that he was the reincarnation of the Human Ancestor.

But Wang Ziji always felt that things were a bit weird. According to the records of Human Ancestor Hall and the rumors about Human Ancestor, Human Ancestor was a very powerful person, so how could he have something to do with an indifferent and heartless guy like Gu Changge?

"Jiang Chuchu, are you sure you aren't deceiving me with Gu Changge?"

Wang Ziji's eyes were fixed on her as if trying to see through her.

Jiang Chuchu said calmly, "Do you think I am such a person?"

Wang Ziji didn't say anything more after hearing the words. She still knew Jiang Chuchu's character very well, and she couldn't do anything to betray the Human Ancestor Hall.

It was just that what she suspected was not Jiang Chuchu, but Gu Changge.

"Was the reincarnation of the Human Ancestor assassinated by Gu Changge? He intends to replace him..."

Wang Ziji couldn't help but mutter in a low voice, of course, she just said it casually and didn't take it seriously.

It was just that Jiang Chuchu's heart skipped a beat, forcing herself not to show anything strange.

"Okay, since you said that Gu Changge is the reincarnation of the Human Ancestor, so he is. I don't hate him anyway. Compared to seeing someone else being the Human Ancestor, Gu Changge is more pleasing to the eye."

While talking, Wang Ziji walked out of the cave. Although she felt that this matter would not be that simple, she was too lazy to worry about it.

It was true that she was interested in Gu Changge, but now it was obvious that Jiang Chuchu and Gu Changge had a close relationship.

Was she digging a foot out of it?

Although she could do such a thing, it was obvious that Gu Changge didn't care about Jiang Chuchu.

A person like him didn't need her to dig at all.

Thinking of these things, Wang Ziji felt a little irritable for no reason, and then involuntarily took out a crystal clear jade pendant from her sleeves.

This was the jade pendant that Gu Changge carried with him outside the Land of Absolute Heavenly Extinction at that time and gave it to her, and at the same time promised that if she encountered any trouble in the future, she could go to him.

"Totally dead scumbag..."

Wang Ziji really wanted to throw this jade pendant away, but after thinking about it, she was still reluctant and sighed faintly.

She couldn't do it.

Chapter 373: The Great Upper Realm will no longer have any place for them to stand, The remnants of the Thirteen Great Thieves

In the next few days, news suddenly emerged from the True Immortal Academy and it quickly spread all over the place as if it had grown wings, alarming the entire Upper Realm.

Countless Dao traditions and forces were shaken by it.

The reincarnation of the Human Ancestor had finally appeared.

It was none other than Gu Changge.

As soon as the news came out, it caused an uproar as big as an earthquake. Many cultivators couldn't believe it.

One must know that the most popular figure in the Upper Realm today was also Gu Changge.

And no one thought that suddenly the descendants of the Human Ancestor Hall would announce this news.

Gu Changge turned out to be the reincarnation of the Human Ancestor. Was it true or false?

Everyone's hearts were shaken by the dazzling Gu Changge's character, it was difficult to describe in simple words.

Even the identity of the reincarnation of the Human Ancestor was at best only the icing on the cake.

But on the other hand, even if the reincarnation of the Human Ancestor was another person, it would be hard to stop Gu Changge's brilliance at this time.

Gu Changge was the reincarnation of the Human Ancestor, which seemed to be a smooth affair in the eyes of many people.

Of course, this was just the idea of ordinary cultivators. For many Taoist traditions and forces, it felt like cooperation between Human Ancestor Hall and Gu Changge.

After all, the announcement of the news by the descendants of the Human Ancestor Hall was too sudden, and there was no news about the matter at all before that.

It was very likely that the Human Ancestor Hall could not find the reincarnation of the Human Ancestor in this life, but out of various considerations they planned to let Gu Changge temporarily replace this identity.

There was no more suitable candidate than Gu Changge.

And for Gu Changge, this was not a loss-making business. He simply reached a condition with the Human Ancestor Hall. Otherwise, how could there be such a coincidence in this world?

In fact, there were not a few forces and sects with such thoughts.

Of course, it was one thing to know it, but another to say it openly. This matter was tacitly understood among the Dao forces, and no one would be stupid at this time to offend Gu Changge and the Human Ancestor Hall.

The True Immortal Academy also caused a stir because of this incident.

"Reincarnation of the Human Ancestor?"

"What are Gu Changge and Human Ancestor Hall doing?"

Jun Yao frowned, not feeling that Gu Changge had anything to do with the reincarnation of the Human Ancestor.

In his opinion, this was more like the Human Ancestor Hall taking advantage of Gu Changge's power to spread their sign among all spirits in the Upper Realm.

And Gu Changge could also just take advantage of the detached status of the Human Ancestor Hall.

It was a mutually beneficial thing.

After experiencing the Zi Yang Heavenly King incident, Jun Yao knew that Gu Changge was by no means a good person.

Nowadays, rivalry between peers was inevitable, and Gu Changge's reputation as the number one of the younger generation really placed a lot of pressure on him.

In the True Immortal Academy, the reactions of many young Supreme beings were similar to those of Jun Yao.

After learning the news, the Elders of Human Ancestor Hall were also skeptical and rushed to the True Immortal Academy to check the truth.

In this regard, Gu Changge naturally had no hesitation and directly revealed the body of Nirvana Green Lotus.

The majestic and vast vitality rose into the sky.

As the divine brilliance shone, there was a Green Lotus swaying within it, taking over the heaven and the earth, along with the vast chaotic mist.

The hearts of the Elders from the Human Ancestor Hall were shaking, and there was nothing to doubt.

As Gu Changge said before, what Human Ancestor Hall needed now was not a person like Human Ancestor, but such an identity!

Even if they had other ideas, they would force them down.

With this status, it didn't have much impact on Gu Changge. Human Ancestor Hall had a lot of resources, but now for him, the most important thing was not resources.

Time flew, and half a month passed in the blink of an eye.

After Gu Changge devoured a lot of Quasi-Supreme origin, his cultivation finally broke through the Quasi-Supreme Realm.

More than half of the 206 bones in his body were turned into Transcendental bones.

Under his evolution, the Inner Universe in his body was also developing from its embryonic form to the way of perfection. The profound changes were constantly evolving, and it had an aura of the heavens and the six realms.

During this period, a lot of things happened in the Upper Realm. The most shocking thing was that the Thirteen Thieves in the Chaotic Star Region were all wiped out, and no one survived.

The Thirteen Thieves, who had been in the Chaotic Star Region for millions of years, could be termed as notorious.

Not to mention fierce and strong, it was difficult for anyone to hunt them down as they were just like a loach.

Many Dao traditions and caravans had suffered great losses at their hands.

But less than half a month later, they were killed by a terrifying army, powerfully annihilated. The entire situation was bloody, and the killing sound shook the world, which really shocked many people.

The stars and rivers that were destroyed in this battle were stained with blood and piled up bones. Ancient warships had collapsed with their fragments scattered in all directions, and devastated.

The heads of Thirteen Thieves were now being hung outside the Chaotic Star Region as an example.

Later, a cultivator found out the reason.

It turned out that some time ago, a secret treasure that Gu Changge sent to the Divine Weapon Realm for refining was born.

In this way, the Thirteen Thieves offended Gu Changge, which led to this disaster, and they were completely wiped out.

This incident made many cultivators feel terrified and at the same time, they couldn't help applauding.

In the final analysis, it was because of their own sins that they could not live. Why would have thought that the Thirteen Thieves were so good at seeking death?

Of course, for Gu Changge, this incident was just an insignificant episode.

After solving the Thirteen Thieves, his secret treasure that was sent to the Divine Weapon Realm for refining was also delivered.

He named it Hongmeng Purple Mirror. From the outside, it looked like a page of ancient scripture. It was simple and natural. The whole body was entwined with purple rays of light. When the purple aura of Hongmeng hung down, it exuded an amazing Dao rhyme and had a mysterious atmosphere like the Dao.

This was a secret treasure that belonged to the deduction category.

The main refining materials were Hongmeng Dao Bone, Hongmeng Purple Aura, and Zi Yang Heavenly King's Immortal Eye.

In addition to this, there were countless divine talents, which could be called luxury.

Except for Gu Changge, there was no other person in the Upper Realm who had such a great spirit to refine such a secret treasure.

"It shouldn't be difficult to deduce the fragmentary scene from the future. In addition, there are other uses like deceiving the heavens and tracking the cause and effect..."

Gu Changge closed his eyes slightly, and strands of golden divine light flickered, refining this secret treasure.

The function of this secret treasure appeared in his mind.

As he expected before, deducing the future, deceiving the heavens, tracing the cause and effect... and even reversing the world.

Soon after the refining was completed, Gu Changge began to try its effect. As the misty purple aura fell, the Hongmeng Purple Mirror began to glow, and a mysterious fluctuation circulated.

Vaguely, Gu Changge saw ripples appearing like lake water on the very simple and natural page, and then spread out.

It was smooth as a mirror.

Immediately afterward, the picture began to emerge.

Between the barren and tattered star fields, blocks of majestic and heavy continents floated, exuding countless star wrecks and fragments of ancient warships.

There were corpses everywhere, and blood was scattered in the sky. It could be seen that there had been a terrifying battle here just now.

"This place is the Chaotic Star Region..."

Gu Changge squinted his eyes, he just tried to deduce the cause and effect related to him.

As a result, a Chaotic Star Region appeared in Hongmeng Purple Mirror.

Could it be that the cause and effect related to him will be in the Chaotic Star Region?

And in the next moment, Gu Changge thought about it.

The picture in Hongmeng Purple Mirror turned into a blind middle-aged man in purple, sitting in a wheelchair. His lower limbs seemed to be crippled and he was pushed through the void and quickly left the Chaotic Star Region.

According to the situation on the battlefield, this middle-aged man in purple clothes should be a person from the Thirteen Thieves. When the war broke out, he hurriedly fled the battlefield and disappeared in the end.

"Who is this man?"

Gu Changge squinted his eyes, and soon the picture in Hongmeng Purple Mirror disappeared. If he wanted to activate him again, he would have to wait for half a month.

After receiving the Hongmeng Purple Mirror, Gu Changge summoned his followers.

"Greetings, master. Please state your order."

The person asked respectfully.

"Go and investigate the remnants of the Thirteen Thieves from the Chaotic Star Region that have escaped."

Gu Changge thought for a while and then said lightly.

He was a little curious about the identity of the blind middle-aged man.

He suspected that the reason why the Thirteen Thieves attacked the caravan responsible for transporting the Hongmeng Purple Mirror was absolutely inseparable from the blind middle-aged man.

There should be something special about this blind middle-aged man.

At the same time, he summoned Yin Mei and asked her to help him search for the secrets of the Thirteen Thieves.

And soon, a piece of news that made Gu Changge a little interested came over.

"Behind the Thirteen Thieves, there was actually a mysterious gentleman?"

"It seems that this blind middle-aged man who escaped should be the mysterious gentleman.

"I just don't know if it will be related to any Child of Luck."

Gu Changge tapped on the table unhurriedly, and then gently crushed the jade slip in his hand.

There were many things in front of him now.

But the most important thing was to improve his strength, in fact, swallowing the general Quasi-Supreme Origin didn't help him much.

The origin of the Supreme Being was too difficult to obtain, because the Supreme Being was the ancestral existence of every clan, and would not easily show up, let alone kill and devour its origin.

This road was somewhat difficult.

Therefore, only a person with a special physique of Great Luck or a Child of Luck would have an effect on him.

And whether it was a Child of Luck or a person of Great Luck, the cultivation base should not be too low.

Otherwise, even if he swallowed their original cultivation, it would not help Gu Changge much.

Qin Wuya and Chu Hao, although both of them had Quasi-Supreme cultivation, Gu Changge had other plans to keep them.

And since the blind middle-aged man could be related to him, even if he was not the Son of Luck, he should be a person of Great Luck.

Therefore, Gu Changge then began to relay his order, and dispatched the forces behind him, such as the Ancient Immortal Gu Family, the Ancient Immortal Clans, the Heavenly Dao Immortal Palace, the Divine Sect of Absolute Beginning, and other forces to hunt down this person with all their strength.

For a time, there was a huge sensation in the entire Upper Realm, and countless cultivators and Dao forces were shocked.

Unexpectedly, Gu Changge dispatched such a large force in order to hunt down the remnants of the Thirteen Thieves, which was awe-inspiring and terrifying.

After that, Yue Mingkong also cooperated with Gu Changge's order, and the Peerless Immortal Dynasty dispatched many troops to start searching everywhere!

Everyone couldn't help trembling. Their whole body felt cold. In order to deal with the cultivators who offended him, Gu Changge used enough methods to make anyone tremble.

In the Great Upper Realm, there would no longer be any place for the remnants of the Thirteen Great Thieves!

This was so terrifying and desperate, even if they fled to the Lower Realm, there was no possibility of survival.

Chapter 374-1: The Son of the Demon Emperor who integrated with the rogues of the Chaotic Star Region and gradually turned into one (1)

Time flew, and days passed in a blink of an eye.

There was a lot of uproar in the Upper Realm because of Gu Changge's dispatch of the army to search for the Thirteen Thieves. This made everyone quite uneasy.

There were cultivators and creatures discussing this matter in almost every ancient city every day.

The Thirteen Great Thieves were evil and notorious, burning, killing, looting, and committing all evils. But because of the terrain of the Chaotic Star Region, it was extremely difficult to hunt them down.

After attacking the passing caravan, they robbed the supplies and fled, making the passing forces and caravans miserable.

Moreover, the Chaotic Star Region bordered another heaven, and it was the only way for the Divine Weapon Realm, which was famous for its refining, to transport goods. It could be called that the region was in a throat-like position.

For millions of years, the Thirteen Great Thieves had robbed many resources from the caravans of the Divine Weapon Realm.

Now after being annihilated by Gu Changge, the resources obtained by them made many Dao forces jealous.

Of course, many people knew that in order to destroy the Thirteen Thieves, the army that Gu Changge dispatched was enough to destroy ordinary forces.

And he also suffered a lot of losses. In this war, there were as many as a hundred ancient warships destroyed.

It was for this reason that in the eyes of many people, Gu Changge dispatched many forces to search for the Thirteen Thieves.

This incident also sounded the alarm in the hearts of many Taoists and cultivators, who could no longer treat Gu Changge as a young genius.

He had gradually grown his wings and begun to show his edge and minions in the Upper Realm.

Destroying the Purple Mansion was the best way to start.

Now, once someone offended Gu Changge, they must consider the terrifying consequences he would have to bear.

Afterward, after annihilating the Thirteen Thieves in the Chaotic Star Region, Gu Changge instructed the various clans of the Ancient Immortal Continent to secretly dispatch strong men within the clan to find the more scattered rogues near the Chaotic Star Region.

After all, if he didn't want a good resource, then he would be an idiot.

Gu Changge was naturally not a good person. After solving the Thirteen Thieves, he planned to support a new force to occupy the Chaotic Star Region.

Thirteen Thieves had become very rich over the years.

No matter which Dao force it was, it would look good in that area. Although they dare not say much on the bright side, it was just about moving in the dark.

Now that Gu Changge had secretly integrated this new force, the rest of the Dao Lineage would not dare to say anything more.

There were rogues who were supported by a power behind them, and rogues who were not supported by power, these were two completely different things.

The Chaotic Star Region was vast, located in the distance, bordering multiple continents, and there were countless caravans and cultivators coming and going every day.

Not to mention the many teleportation formations and ancient altars occupied in the middle, but any cultivator who had to pass through this place would have to pay an extra fee.

If things went on like this, naturally, in the eyes of many sects, it would become fertile land like a cornucopia.

And Gu Changge was optimistic about the favorable terrain here, and it was not troublesome for him to control the Chaotic Star Region.

Before that, in addition to the Thirteen Thieves, there were hundreds of rogues, large and small, within a radius of a million miles. Although they were scattered, they were more numerous.

Even for the Thirteen Thieves, it was difficult to integrate them together.

And this group of rogues was all savage and fierce. They had experienced many life-and-death battles, and their strength far exceeded that of the cultivators in the same realm.

As the Thirteen Thieves were wiped out, these rogues, big and small, also had ambitions and wanted to become bigger and dominate the surrounding area.

It was just that their ambitions did not last long, and they were quickly suppressed by the large army sent by Gu Changge, who gave them a very simple condition, either surrender or die.

With the lessons learned from the Thirteen Thieves, these scattered little rogues naturally did not dare to resist.

In this way, many rogues in the Chaotic Star Region gradually converged from scattered sand into a prototype organization.

Although it was still not as good as the Thirteen Thieves at their peak. But because Gu Changge was behind them, their overall strength was many times greater than the previous Thirteen Thieves.

Although many Taoists and cultivators in the Chaotic Star Region knew who was behind the scenes, they just dared not to speak out.

They could only pray silently that this group of rogues, under the control of Gu Changge, would be able to restrain themselves a little bit, and not be as ruthless as the previous Thirteen Thieves.

Gu Changge then arranged for Ji Qingxuan to go there and let her be in charge of the management temporarily.

After a period of observation, he had already seen Ji Qingxuan's ability and ambition.

It happened that this newly integrated bandit group could be used as a whetstone to help him test Ji Qingxuan's ability.

One or two vases were enough. Gu Changge still appreciated it more. It was useful to him, and it was best to be a woman who could help him.

In the beginning, Ji Qingxuan didn't expect Gu Changge to trust her so much and let her take on such a big responsibility. She was very nervous and uneasy for a while, but it was more of an expansive ambition and excitement.

She swore in her heart that she would never let Gu Changge down.

After all, this was also the opportunity that Gu Changge gave her to show her ability, and she must seize it!

Seeing that Ji Qingxuan left the True Immortal Academy with his token, and went to Chaotic Star Region, Gu Changge also looked back.

He silently picked up the tea on the table, took a sip, and then picked up the communication talisman.

The above was about Xiao Ruoyin's cultivation during this time that Yan Ji reported in detail.

What Gu Changge cared most about was whether Xiao Ruoyin had recovered the memory of the Prophet of Destiny.

But now it seemed that it would take a long time for Xiao Ruoyin to recover her memory. As for the realm of her cultivation, Gu Changge didn't care.

"Master, there is news about the remnants of the Thirteen Thieves that you want to arrest."

At this time, a follower outside the hall suddenly came to report.

Gu Changge's thoughts came back and asked lightly,

"Oh, what news?"

"The mysterious military advisor behind the Thirteen Thieves seems to be related to the chaos in the Demon World six thousand years ago."

The follower said with a respectful face, "According to the information obtained, the mysterious military advisor seemed to be related to the Demon Emperor Xuan Yang who used to be in the Demon World, and was then chased by Queen Xi Yao, who escaped from the Demon World. But they never would have thought that it would actually infiltrate the Chaotic Star Region and become the military advisor of the Thirteen Thieves."

"Such a relationship with the Demon World? Could it be the cause and effect that is related to me?"

Hearing this news, Gu Changge was somewhat surprised in his heart, and then waved his hand, "I see, you can go back. If there is any trace of it, send someone to arrest him as soon as possible."

"Yes, Master."

Soon, the followers left.

Gu Changge thought for a moment, then picked up a pen to write a letter. He felt that this matter might have something to do with the Son of the Demon Emperor from the Demon World.

According to what he had learned, there were six Demon Emperors in the Demon World, of which the Xuan Yang Demon Emperor and the You Yue Demon Emperor had the closest relationship.

The son of the Xuan Yang Demon Emperor, named Jun Bufan, and Empress Xi Yao, who was now in charge of the Demon World, were childhood sweethearts and had a marriage contract.

It was just that this marriage contract was abolished 6,000 years ago, and then the Demon World was in chaos. The Xuan Yang Demon Emperor's family died in this chaos, and the five Demon Emperors disappeared.

Although You Yue Demon Emperor was the mother of Empress Xi Yao, she was rarely seen.

It was claimed that she was in retreat, but whether she was under house arrest by Empress Xi Yao or had been killed long ago, no one knew.

As early as after the chaos of the Demon World 6,000 years ago, Queen Xi Yao's reputation was not good, and it was normal for many people to do such a thing.

The monsters who poisoned their fiancés, suppressed and resisted. The monsters who died in their hands were countless.

The cruelty of the means made people palpitate. There were even rumors that the voice of Queen Xi Yao could stop the effect of children crying at night.

Gu Changge remembered the Luck event triggered when he first entered the True Immortal Academy some time ago.

The son of the Demon Emperor who came back.

At that time, he reminded Empress Xi Yao, but he did not take this matter to heart because of something at the time.

"It now seems that the son of the Demon Emperor has become a condition? Sure enough, the Son of Luck will be involved with another Child of Luck. For me, it is also a good harvest opportunity."

When Gu Changge remembered the blind middle-aged man, he suddenly had such a guess.

"If this is the case, then this person is most likely to flee to the Demon World..."

Gu Changge squinted his eyes and called his followers again, telling them to always pay attention to the teleportation formations to the ancient cities in the Demon World.

After arranging this matter, Gu Changge began to write a letter, intending to find out Queen Xi Yao's opinion.

The last time he met Queen Xi Yao in the True Academy, although he flattered her with a few words, it seemed that he had a good relationship with her.

But Gu Changge knew that with her mind, it was impossible for her to easily trust him.

At most, it was a kind of appreciation at first sight.

Moreover, he didn't know what Queen Xi Yao's attitude was toward her fiancé who had been poisoned.

Therefore, it was necessary for him to decide on the next plan according to Queen Xi Yao's tone.

If Queen Xi Yao still felt ashamed of Jun Bufan, he didn't mind helping her destroy him.

Chapter 374-2: The Son of the Demon Emperor who integrated with the rogues of the Chaotic Star Region and gradually turned into one (2)

.....

In the Demon World.

A splendid palace shrouded in clouds and mist was standing on the top of the mountain.

A beautiful woman in a red dress was writing something on the slip in front of her.

Her facial features were beautiful and her eyes were deep and calm. There was a little red makeup between her eyebrows, which made her look a little strange.

Beside her, stood four tall, slender women holding a pen, ink, paper, and inkstone.

They were all different from each other. They were all beautiful with soft green silk and delicate features, and their expressions were either charming, cold, indifferent, or serene.

"Your Majesty, this is a letter from the Young Master of the Gu family from the True Immortal Academy of the Upper Realm."

At this time, a female official outside the hall entered with a letter along with a respectful expression.

Hearing this, the four female officials around the woman in the red dress seemed a little surprised.

Among them, a woman with a demure temperament hurried over, concluded the letter, and presented it to the woman in the red dress.

"Gu Changge? Why did he write to me?"

When the woman in the red dress heard the words, she also put down the memorial in her hand, her eyebrows raised slightly, and she seemed a little surprised.

At the same time, what Gu Changge said to her at the beginning could not help but emerge in her mind, "Maybe he can be called One Emperor through the ages."

Very rare, the woman's mouth curled slightly as she took the envelope lightly, unfolded it and looked at it.

The four female officials beside her watched this scene in amazement. As the closest female officials around Empress Xi Yao, they were also confidants, so they naturally knew the Empress's character very well.

She had been indifferent and majestic all year round. And it was only when she met someone who was not easy to get close to, she gave a rare smile.

And it was even because of a man.

They naturally knew who Gu Changge was, and knew that he was the most dazzling young genius in the Upper Realm in recent years, with enormous power.

Some time ago, he even destroyed a party of the Supreme Dao Lineage, making them tremble with shock, even trembling, feeling unbelievable, incredible, and dreamy.

Was this still something the younger generation could do?

Even the most dazzling genius of the Demon World was eclipsed with him in front, far from being comparable.

Moreover, when did their Queen meet Gu Changge? Did the two parties communicate by letter?

"You actually have time to care about how I'm doing now?"

The curvature of Xi Yao's mouth couldn't help but deepen, and she seemed to be in a good mood. The four female officials around her felt her emotions.

This made them a little stunned. How long had it been since the last time the Queen showed such an expression?

The last time was probably when there was a minister, who defied all opinions in the court, agreed with Her Majesty's reforms, and explained Her Majesty's good intentions.

Afterward, Xi Yao carefully read the contents of the letter again.

Only then did the jade hand lift the pen beside him as she began to write on the paper with her wrist down. It was rare to write by herself without letting the female official next to her write it.

This shocked the four girls again.

How much did Her Majesty take this seriously?

They were suddenly very curious and wanted to see the legendary character, the Young Master Changge, with their own eyes.

It didn't take long for Xi Yao to write the content and read it carefully again. Showing a very satisfied look, she handed it to the female officer next to her, saying lightly, "Send it to Young Master Changge as soon as possible."

"Yes."

The female official with a demure expression took the letter and quickly left the palace.

"During this period of time, keep an eye on the teleportation formations leading to the Upper Realm from all over the world. The remnants that were not killed six thousand years ago might have a tendency to recover again." Xi Yao then commanded lightly.

"Your Majesty, is someone going to return to the Demon World?"

The woman with a cold expression seemed a little surprised when she heard this.

Xi Yao glanced at her, she trusted her female officials very much, but she didn't mean to hide it from them as she said lightly, "Young Master Changge has killed the Thirteen Thieves in the Chaotic Star Region during this time, and one of the remnants is Bai Kun, the Demon Master who was beside Xuan Yang Demon Emperor six thousand years ago."

"After offending Young Master Changge, there will be no place for this person in the Upper Realm now, so he guessed that Bai Kun will abscond back to the Demon World."

"Bai Kun? It turned out to be this person? I heard that he has the ability to understand the secrets of heaven and reverse the universe. In the beginning, he was able to escape from the pursuit and siege, and he has disappeared since then."

"It turned out to be the Chaotic Star Region."

Hearing this, several female officials looked a little shocked.

Only the cold-tempered woman who asked the question just now had a slight change in her complexion and seemed a little nervous, but it was only fleeting.

Xi Yao was still reading Gu Changge's letter but did not pay attention to her expression.

"The remnants of the rebellion have shown signs of resurgence over the years. There should be someone leading the charge in secret. Who would that be..."

She frowned and began to consider the issues involved in the reply.

Facing Gu Changge, she had a feeling of "I was not born after you, but I was already old when you were born."

Therefore, many of the problems encountered were notified by him in letters, and there was no concealment.

When she first met Gu Changge at True Immortal Academy, she paid attention to what Gu Changge said.

So after returning to the Demon World, she began to give orders to search for the remnants of the five Emperors.

And Xi Yao was very cautious, arresting people with the same name and surname as her original fiancé in all parts of the Demon World.

She knew that this method was tantamount to finding a needle in a haystack, but it was the only method she could think of at the moment. She understood Jun Bufan's character and knew that if he hadn't died, he would probably continue to use his original name.

As for why Xi Yao suspected that Jun Bufan was not dead.

She discovered that Jun Bufan's tomb was empty now, and she didn't know when his body was stolen!

Facing this matter, she had no clue now, so she hoped to get a solution from Gu Changge.

Although Gu Changge was just a junior to her, some of Gu Changge's opinions and sayings gave her a sense of clearing the clouds and seeing the fog.

"Hehe, that's true."

"It seems that the son of the Demon Emperor has become a plague, and I have to find time to go to the Demon World."

"It's hard to see mature leeks, how can you easily let them go."

Inside the True Immortal Academy.

Gu Changge stood with his hands behind his back and smiled faintly. After reading Queen Xi Yao's letter, he was not surprised.

Some of the questions she asked were actually guessed by Gu Changge before that.

How could the son of the Demon Emperor return? How could he repeat the same mistakes as in the past six thousand years?

As long as Jun Bufan was not stupid, he would choose to develop in a low-key manner, minimize his appearance in front of Queen Xi Yao, and minimize his limelight.

In the huge Demon World, how difficult would it be to find a son of a Demon Emperor? It was more difficult than finding a needle in a haystack.

It would be strange that Queen Xi Yao could find him, and maybe even she was not sure whether Jun Bufan was dead or not.

Since she couldn't find it, letting him show up on his own initiative, wasn't that easy?

Then, Gu Changge started to write with a pen.

Since Empress Xi Yao looked to him for a solution, then there was a solution. In his opinion, Empress Xi Yao was still not cruel enough.

He had more ways to make Jun Bufan take the initiative to show up. If he remembered correctly, Jun Bufan had a sister back then.

His older sister had never participated in the turmoil in the Demon World six thousand years ago. She was located in a restricted area for the Demon World, and no one dared to approach her for thousands of years.

.....

At the same time, in the Upper Realm, in an ancient city.

A young man in disguise was setting up a stall on a remote street.

There were many weapon fragments stained with rust and soil on it, and there were many strange ores that could not be recognized. The age was very old, and it seemed to have just been unearthed, very fresh.

It was just that while setting up the stall, the young man would choose to take a look at the passing cultivators and geniuses from time to time, his eyes shining brightly.

"Gu Changge..."

"Unfortunately, the remnants of the Thirteen Great Thieves have nothing to do with me now."

Listening to the discussion of the nearby cultivators, the young man muttered to himself in his heart, thinking of something, hatred and anger flashed in his eyes.

This person was naturally Jiang Chen.

If it wasn't for the gift of Gu Changge, how could he be reduced to such a level now? It was necessary to dig a grave and hunt tombs, and the goods of the owner of the tomb were sold for a living.

If he was lucky, he could meet the owner of the tomb who died not long ago and devour the energy remaining in their body.

If he was unlucky, he would encounter a corpse that had been soaked in the spiritual energy of heaven and earth, and the essence of the sun and the moon.

Every time he went to the tomb, he had to worry about it, and he had to beware of being discovered by the family of the owner of the tomb.

The black-robed old man had not appeared for a long time in order to train him.

And Jiang Chen didn't know where the black-robed old man was now, so he could only search for the hidden tomb in the mountains, and along the way, cultivate the exercises that the black-robed old man left for him.

During this period of time, it could be regarded as a small success, and the spiritual sea had been activated.

Jiang Chen also planned to go to the major square cities to gamble according to his methods.

But when he thought that the final consequence would be that he couldn't take things away, he would probably be left there, so he gradually gave up.

In the past few days, he just happened to hear the news that an ancient tomb of the Gods was about to be born, and he planned to go to try his luck.

Chapter 375-1: Yue Mingkongs consciousness as a wife, Rounding up Demon Master Bai Kun (1)

Jiang Chen knew that the Tomb of Ancient Gods in this world were very different from the ordinary Void God and True God realm cultivators.

That was a race with a divine position, and extremely rare to find in the entire Upper Realm.

In such divine tombs, the opportunities contained were beyond imagination. He believed that with his and the Immortal Boat's ability, he could more or less reap a lot of benefits.

"Amitabha, where did you get all these things?"

And just as Jiang Chen was in a daze, a smiling cultivator suddenly appeared in front of him.

This cultivator didn't look very young, instead he was greasy and wearing a ragged robe, holding a somewhat tattered-looking mantle.

At this moment he was pointing to a few pieces of weapon fragments on the ground stall and asked.

Jiang Chen didn't even think about it before he spoke, "These are naturally all the ones I picked up."

"Is that so?" The cultivator asked rhetorically.

Jiang Chen nodded his head, "Naturally."

"Oh, in that case, the poor cultivator sees that the cultivator and my brother have a destiny, so why don't you come with this poor cultivator?" The cultivator said with a smile.

"What do you want?"

Jiang Chen raised his head and stared at him warily, quietly gripping a weapon in his sleeve.

These things on the ground stall, which he had picked out, didn't appear to be anything special.

And this cultivator in front of him, obviously saw what was coming, otherwise, he would not have spoken to him like this.

Hearing these words, the cultivator's gaze fell on Jiang Chen's face, noting his cultivation level, then he became interested and said, "The cultivator's methods are extraordinary, the poor cultivator just has the right thing here to cooperate with the cultivator."

"Don't worry, when the time comes, the benefits would not be less for the benefactor."

Jiang Chu's heart sank, only to feel that the monk's cultivation in front of him was unfathomable, the cooperation he said, at the end, which kind of cooperation, and how did he know?

"A monk does not deceive, please rest assured. The poor monk never deceives people in his life."

Seeing Jiang Chen move down in silence, the monk assured again with conviction, "If you do not believe this monk, then the poor monk can only apologize."

As he said so, how could Jiang Chen not understand that if he refused again, the cultivator in front of him would become violent?

He couldn't help but let out a bitter smile, "I'm just an ordinary person who sells these broken things, so why should the Master apologize?"

"No, no, no, in the poor monk's opinion, Mister. is not simple, his cultivation is not high, yet he can enter a tomb with such a horrible demonic aura and find these weapon fragments, how can his means be compared to ordinary people?"

The monk didn't care about Jiang Chen's self-deprecation, still smiling, directly opening the door and pointing out Jiang Chen's extraordinary features.

At these words, Jiang Chen's heart sank, but his face remained calm and collected.

When he went down to the tomb at that time, he did encounter a lot of trouble.

The fierce danger among them would generally cause cultivators to turn pale, there was the danger of bloodshed and fall.

In the tomb, although he got a lot of good things, he also nearly lost his life.

It was all thanks to the help of the Immortal Boat Spirit, otherwise, it would have been difficult for him to escape the sky.

The monk in front of him could see this at a glance, which meant that he was really not simple.

Subsequently, Jiang Chen had no choice but to follow the monk out of here, and even the stall was left there, anyway, it was not something precious.

The monk led him around the corner and arrived at a very grand and imposing mansion. The cultivators in charge of guarding the entrance were very powerful, their bodies were covered with divine glory and their blood was amazing.

After arriving here, the monk's attitude was also obviously much more cautious, not daring to be as casual as before.

"You should not talk nonsense, otherwise even this poor monk will not be able to protect you." The monk spoke in a low voice and said to Jiang Chen.

Jiang Chen's expression was also a bit cautious, somehow he was involved in this kind of thing, so he also felt very stifled.

"Who are we going to see?"

Jiang Chen couldn't help but ask in a low voice.

"Supreme God Clan."

The monk glanced back at him as if to make Jiang Chen pay attention, before explaining.

Jiang Chen's pupils shrank and his face changed slightly, suddenly associating with something.

The news that a piece of the Ancient Divine Tomb was about to be unearthed in the past few days was causing a lot of fuss everywhere.

And he heard that a powerful person of the Supreme God Clan was actually buried in the so-called Divine Tomb.

The Supreme God Clan was very mysterious.

In the entire Upper Realm, it also belonged to an extremely rare race, and the number of their clansmen was not much.

But to be called a God, it could be seen that they were powerful.

If the number of clan members were a little more, becoming the first strongest clan in the Upper Realm was not impossible.

And now the person he wanted to meet was actually from the Supreme God Clan.

This made Jiang Chen's heart thump up with some uncontrollable nervousness.

"Don't talk nonsense when you enter later."

The monk still seemed uneasy and turned back to carefully admonish Jiang Chen again.

Jiang Chen nodded, and cold sweat appeared on his palms.

Faintly, he saw a divine light shining in the depths of the mansion. There was an incomparable dignified slender figure sitting at the end, the gaze seemed to penetrate over, seemed to be able to see through him.

Seeing Jiang Chen step into this place, the eyes of the black-robed old man who had been hiding in the high sky moved and did not follow him over.

.....

In True Immortal Academy.

While Gu Changge dispatched a terrifying army to search for the remnants of the Thirteen Great Thieves.

A magnificent divine mountain in the middle.

Several Elders within the palace with blurred faces and shrouded in chaotic aura were also discussing matters.

"This time, a piece of the Supreme God Clan's burial place has been unearthed, and this is just a good opportunity for the geniuses of our academy to try out."

"Last time, the Absolute Heavenly Extinction was destroyed by the Inheritor of demonic art, let's hope that this time it will go well."

"Then how about the candidate for the leader this time is set as the Sixth Crown King, Jun Yao? Gu Changge is now gaining wings, and the True Immortal Academy can no longer accommodate him, so he probably won't take such matters to heart."

Several Elders spoke up, in order to decide on the leader of this trial.

Gu Changge had now been excluded, not because they felt that Gu Changge was not qualified.

Rather, it was a matter of considering Gu Changge's willingness or unwillingness.

The opportunity of the Divine Tomb was precious to the rest of the disciples, but for Gu Changge, it was not worth mentioning.

Soon, the decision was made, and once the news spread, it immediately caused the disciples of the entire True Immortal Academy.

The emergence of the Divine Tomb naturally meant opportunity and danger.

And this time the leader was surprisingly the Six Crown King, Jun Yao, not Gu Changge.

This caused many people to be astonished, speculating if Gu Changge had outshone recently, causing the True Immortal Academy to be determined to suppress him so that he would not be able to cover the sky with his hands within the True Immortal Academy.

However, this speculation was quickly overturned, as an Elder then announced that Gu Changge did not need to participate in this trial.

Many disciples suddenly realized that Gu Changge's status was now very different from theirs and he could not be treated as an ordinary disciple of the True Immortal Academy.

The gap between them and Gu Changge had already widened too much, and an invisible gap had appeared.

Gu Changge's status in the True Immortal Academy had reached the point where he could sit on an equal footing with a group of Supreme Realm Elders!

In the following days, the True Immortal Academy began to get busy with divine lights of different colors breaking through the air and aura breaking through the clouds.

Many disciples prepared for this trial.

The Six Crowned King Jun Yao, the Heavenly Phoenix Maiden, Gu Xian'er, Yue Mingkong, Jiang Chuchu, and the Jin Chan Buddha were all going to enter the Divine Tomb that had been unearthed and compete for their own chance.

When Gu Changge heard this news, he did not take it to heart, just as the group of Elders had guessed, even if he was allowed to participate, he would still refuse.

This level of the trial was just a waste of time for him now.

What he was more interested in were the whereabouts of the remnants of the Thirteen Great Thieves.

Of course, if he heard that something good appeared in the Divine Tomb, that would be a different story.

"Are you really not interested in the Divine Tomb of the Supreme God Clan?"

Inside the hall, Yue Mingkong was somewhat puzzled.

In her memory, this time within the Supreme God Clan, there was a divine position crystal, that was equivalent to something like the Supreme Dao fruit.

Gu Changge would not reasonably let it go.

"For now, I would prefer to catch that remaining thief, if some good appears in the Divine Tomb, I would naturally make my move." Gu Changge smiled and explained.

Yue Mingkong nodded, "Then I'll keep an eye out for you."

With this word from her, Gu Changge naturally felt at ease.

"It must be hard working so much." He smiled and said.

Yue Mingkong shook her head slightly, "This is what I should do."

Although the two of them had not yet been married, she was already self-conscious as a wife.

With that she left. Not long after Yue Mingkong left, a message arrived.

"Master, that mysterious warlord behind the Thirteen Thieves has been traced by us, and we are now sending our troops to intercept it." The follower respectfully reported

Gu Changge got up, narrowed his eyes, and asked, "Where is he?"

"Now in the ancient city of Northern Marsh, the surrounding teleportation formations have been blocked by us, and all cultivators and creatures have been blocked and are not allowed to leave the city."

"Even if that person grows wings, he will not be able to escape our net!" That person said confidently.

"Good. Well done."

Chapter 375-2: Yue Mingkongs consciousness as a wife, Rounding up Demon Master Bai Kun (2)

Gu Changge nodded as he waved his sleeves, and walked away from this place. Then his mighty figure rose into the sky. He directly opened up a space passage and rushed through the virtual space.

The terrifying momentum resounded in the sky.

The disciples and Elders of the True Immortal Academy watched this scene in shock, and they were speechless for a long time.

Then there were speculations about where Gu Changge was going and what purpose he was going for.

"It should be about the whereabouts of the remnants of the Thirteen Thieves."

Wang Ziji said firmly.

Jiang Chuchu next to her glanced at her and said calmly, "You seem to know Gu Changge very well?"

Wang Ziji smiled, "It's not that I understand him, it's just that I can guess what he's going to do."

"Do you suddenly feel that I know him better than you?" She provocatively revealed a pair of shallow vortex-like eyes.

Jiang Chuchu ignored her provocation, turned around and left.

Gu Xian'er, who had just broken through to the Sacred Realm, stared blankly at Gu Changge and led people away, then lowered her eyes, and there seemed to be some lingering melancholy in her eyes.

.....

Northern Marsh Ancient City.

This was a majestic and magnificent ancient city with a population of several billion.

It was nearly 100,000 miles across, like a beast crawling on the ground, and the city wall alone stretched like a mountain.

At this moment, outside the four gates of the Northern Marsh Ancient City, the dark clouds overwhelmed the city.

Among them, colorful feathers circulated with divine wings covered the sky, and scales flicked.

All kinds of powerful and terrifying creatures appeared in the sky, completely blocking all directions.

Rising through the clouds and fog, the body alone was like a hill, entwined with purple lightning and crimson rays of light. The resultant power was astonishing.

It was difficult for any cultivator or creature to leave this place for half a step, nor to enter the city.

Anyone who disobeyed would be killed on the spot.

Just now, a cultivator was dissatisfied and tried to resist, but he was shot to death from the sky, and his body and spirit were both destroyed on the spot.

Everyone was trembling, their backs were terrified, and their souls were trembling.

They wondered what had happened, why so many creatures along with an army would suddenly emerge.

Even the city lord of the Northern Marsh Ancient City appeared outside the city wall at this time, carefully wiping the cold sweat on his forehead, not daring to say a word.

He naturally recognized who the master behind these terrifying creatures in front of him was, so he dealt with them carefully and did not dare to offend them.

The cultivators behind him were all powerful figures of Northern Marsh Ancient City.

But now he was also carefully accompanying him, not daring to show any trace of dissatisfaction.

The huge Northern Marsh Ancient City seemed very dead at this time, and everyone was worried about the destruction.

This force outside the city was really terrifying, it was mighty and covered the sky and the sun.

Not to mention an ancient city, even a small Dao sect could be easily destroyed.

"My master has an order. Anyone who dares to cover up the remnants of the Thirteen Thieves will be regarded as opposing him and the consequences will be at their own risk."

At this moment, a creature in the shape of a Yaksha stood up and announced. The whole body was surrounded by red rays of light as he opened his mouth and sneered, and his voice echoed in the sky.

"Thirteen Thieves? Damn it!"

"Damn Thirteen Thieves, they are actually trying to drag me down!"

Hearing this, many cultivators changed their expressions, and then they reacted.

It turned out that this matter was actually related to the remnants of the Thirteen Great Thieves.

During this time, the matter of Gu Changge chasing and killing the Thirteen Thieves caused a stir in the Upper Realm.

As for who was behind this group of creatures, there was no need to say more.

Many cultivators smiled bitterly. Except for Gu Changge, in the current Upper Realm, who had such great power to send such a terrifying force in order to hunt down a person.

At the moment, many people were also being put down. Since it was to hunt down the remnants of the Thirteen Thieves, it must have nothing to do with ordinary people like them.

They didn't cover up the rest of the guilt, and naturally, there was nothing to worry about, and just hoped that they would not suffer an innocent disaster.

"Don't worry, everyone, since the remnants of the Thirteen Great Thieves have appeared in the Northern Marsh ancient city, then I will cooperate with you to search them out, and give an explanation to Young Master Changge."

The Northern Marsh city lord was somewhat relieved and then opened his mouth, swearing a promise. He also hated the remnants of the Thirteen Thieves in his heart.

If he didn't go to other places and ended up coming to the Northern Marsh Ancient City. Wasn't this simply causing disaster for him?

"If I had known that the remnants of the Thirteen Great Thieves were in this city, I would have sent people to search all over the place. How could I have bothered Young Master Changge to make such a move? If someone sheltered the remnants of the Thirteen Great Thieves, I would definitely arrest them without any mercy!"

After the Northern Marsh city lord finished speaking, the rest of the powerhouses behind him also spoke up one after another, stating their position. They definitely did not cover up and hide the remnants of the Thirteen Great Thieves.

Hearing this, many young cultivators were shocked.

They usually didn't get to see such powerhouses at all.

But today, because Gu Changge wanted to search the remnants of the Thirteen Great Thieves, they all showed up and made such a careful guarantee.

Such power was simply too terrifying and unimaginable.

"With the words of the city lord of Northern Marsh city, I can rest assured. We are not unreasonable people. The master told me to come here, just to arrest the remnants of the Thirteen Thieves, and not to embarrass everyone in the Northern Marsh Ancient City."

Seeing that Northern Marsh city lord and others were so knowledgeable, the creature with the appearance of Yasha also displayed a faint smile.

"Everyone, please rest assured, we will fully cooperate with the search and will not let any suspicious person leave." City Lord assured.

Afterward, a mighty army descended on the Northern Marsh Ancient City and began to search one mansion after another.

The entire Northern Marsh Ancient City was affected, and everyone felt uneasy, for fear that the remnants of the Thirteen Thieves were hiding beside them.

Spring Breeze Pavillion, Ting Yu Xuan.

This was the place of smoky willows in the Northern Marsh Ancient City.

But today it was very quiet.

In the inner room, a middle-aged man with a pale face was coughing blood, sitting in a wheelchair.

His eyes were covered with black cloth. In addition, his lower limbs were completely useless, and he had no ability to move.

This was not an ordinary trauma, even many sacred medicines would not be able to cure it.

Same went for his eyes, this was because he had seen too many secrets, and the backlash he had suffered was difficult to get rid of for his entire life.

Behind the middle-aged man, a young man with a sad face couldn't help but sigh, "Master, are we just going to wait for death today?"

During these days they were hiding here.

He was anxious and cautious at all times, like a mouse living in the darkness, unable to see any light.

This kind of life made him despair, and he didn't understand why his Master who was like a God would be chased like this.

The huge Upper Realm no longer had any place for him.

When the middle-aged man heard this, he seemed to have touched the injury on his body again and coughed out a mouthful of blood.

He shook his head slightly, his voice seemed very calm, as if he had expected it.

"I didn't expect Gu Changge to find me so quickly. I thought I could hide for a few more days. It's all my fault. If it wasn't for greed, how could this happen... "

"Master, let them take Lian'er, the person Gu Changge wants to arrest is me, and it has nothing to do with you."

"This is a secret treasure I made at the beginning. After you two use it, hide in the void and leave quietly, no one will be able to detect your traces. Then you take the opportunity to flee to the Demon World and find a man named Jun, and give this bag to him."

The middle-aged man spoke all this calmly.

At the same time, he took two things out of his arms.

A very ordinary-looking bag, a very ordinary jade talisman, there was nothing surprising, even if it was thrown on the ground, no one would notice it.

But now these two items were handed over to the two of them by him.

Behind the young man, there was also a woman with a graceful figure with an enchanting appearance. Her skin was as white as snow, her blue silky hair was like diamonds, and the light could pass from them.

At this moment, her expression seemed a little unbearable, but in the end, she didn't say anything more.

"Master, if we leave, what will you do? You are seriously injured now. Once we leave and you are caught by Gu Changge, it will be a dead end!"

When the young man heard this, his face became sadder, his eyes were red as if tears could fall at any time.

"Master, you have now obtained the true biography of being a master. Even if you are not a master, you can still live well. You don't need to bury your life in this place to be a master."

The middle-aged man's smile seemed a little relieved, but his words were firm and unequivocal, and no question was allowed.

"Lian'er, you... ah... father is most ashamed of you and your mother, but your father is doing this because he can't stop it. It's not because he doesn't want to see you that he hasn't come to see you over the years. I didn't want to hurt you."

"It's hard on you, you built the Spring Breeze Pavillion by yourself..."

Later, he looked at the beautiful woman again, feeling a little guilty. Although he couldn't see it, he knew that his daughter was actually watching him.

This somewhat made the middle-aged man a little relieved.

Who would have thought that the master behind Spring Breeze Pavillion, a well-known assassination organization, would be the daughter of this Demon Master Bai Kun?

Chapter 376-1: The mysterious Master behind Spring Breeze Pavillion is more useful to me when he is alive (1)

The sky trembled, and there was a roaring sound in all directions!

Boom!!!

There was a sensation throughout the entire Northern Marsh Ancient City for harboring the remnants of the Thirteen Great Thieves.

The mighty army headed straight in, like a black cloud as it descended here. Then began to search palace by palace to find the hidden remnants.

In addition, a number of powerhouses of Northern Marsh Ancient City also dispatched their subordinates to start a rigorous search and exclusion, blocking every teleportation formation and exit.

It was the first time for many cultivators to observe such a big posture, and they felt extremely uneasy. All cultivators, no matter what kind of cultivation, carefully stayed in their palaces at this time.

The streets that used to be very lively were now dead silent.

They were all armed with various heavenly swords, halberds, and spears as they were aggressively searching from house to house on their mounts.

Buzz!!

At this time.

In the sky, a rumbling wave surged, followed by an extremely bright door of light, as if connecting to another world.

Everyone looked up at this scene in amazement, and then saw many figures walking out of the gate of light.

Leading them was a man dressed in a black long coat. His robes fluttered, his face looked innocent, his eyes were deep, and his facial features were so handsome that one couldn't pick out a single flaw.

The temperament was extraordinary and refined, but it had the innate sense of superiority and dignity.

There were many figures behind him, all of which were extremely powerful. Riding on terrifying beasts, the brilliance was soaring into the sky as the clouds and mists were surging upwards.

Ordinary cultivators might even be frightened by such a scene.

"Greetings, Young Master Changge!"

"Greetings, Master!"

The person who arrived was naturally Gu Changge. After hearing that the remnants of the Thirteen Great Thieves were here, he immediately set out from the True Immortal Academy.

Seeing this, the lord of the Northern Marsh Ancient City and others flew up to the sky in unison, and greeted them with respect.

"It's Young Master Changge!"

"Apart from him, who else in today's younger generation could possess such power? I can't imagine that a young man could do this."

"Whether it is cultivation base or power, it has reached a level that no one can match!"

Many young geniuses in the Northern Marsh Ancient City, watching this scene, couldn't help but admire and respect him.

They wondered when they could get to this point.

A person who was known all over the world, and no one dared to disrespect!

Gu Changge nodded as he glanced down, and asked lightly, "Can you find their trace?"

The yaksha-like creature stepped forward and said respectfully, "Reporting to Master, we are searching the entire ancient city, blocking all exits and teleportation arrays, and even the void 100,000 miles. Today, this person cannot escape."

Gu Changge nodded, and the figure descended from the sky as it arrived on the street. The people behind him followed, a few steps behind.

Gu Changge frowned slightly.

He was actually a little surprised as to why this person would flee to this city and not go elsewhere.

In his previous speculation, even if Bai Kun wanted to escape, he would definitely flee to the Demon World.

The Northern Marsh Ancient City was really far away from the Demon World, and it should not be a suitable foothold for escape.

"Pay attention to the people around Bai Kun, he definitely has accomplices."

Gu Changge squinted his eyes, thinking of this possibility while he indifferently ordered.

At the same time, his vast and majestic spiritual sense also swept across the entire ancient city, unscrupulously investigating the changes in every corner.

Bai Kun was the former close friend of the Xuan Yang Demon Emperor.

This time Gu Changge intended to attack the Demon Emperor's son, so Bai Kun was bound to be the best candidate and the best entry point.

If he guessed correctly, according to the normal trajectory, Bai Kun would provide a lot of help in the subsequent rise of the Demon Emperor's son Jun Bufan.

In other words, it was normal for the Demon Master who once assisted the Xuan Yang Demon Emperor to assist his son again.

Jun Bufan had become a rat, and if he hid in the Demon World, he was bound to be hard to find. And Bai Kun was an indispensable piece of chess.

This was also related to Gu Changge's next plan.

With the arrival of Gu Changge, the whole Northern Marsh Ancient City became more and more sensational.

The cultivators and creatures of all ethnic groups and sects carefully stayed in their sect residences, daring not to be angry or to speak.

They could only watch a large group of knights rushing towards the mansion, and leaving after searching back and forth. It was only then they breathed a sigh of relief and felt relieved.

"Young Master Changge, the east and south sides of Northern Marsh Ancient City have been searched, and there are no suspicious faces."

The city lord of Northern Marsh Ancient City bowed his hands respectfully.

In terms of seniority, he was thousands of years older than Gu Changge, but his cultivation was far behind him.

In front of Gu Changge, he even had a kind of trembling fear like facing his ancestors.

"Then there are still no results from the search left in the west..."

Gu Changge nodded.

"The west side of this ancient city is not very big. It only takes half a day to search the west side. What will Bai Kun do in the remaining time?"

"Declare his last words?"

With a faint smile like a cat playing with a mouse on the corner of his mouth, he walked slowly.

The surrounding squares and pavilions were very quiet. Usually, the divine light would be surging, and the brilliance would be rushing to the sky, but today it seemed unusually deserted.

In the end, the two colors of black and white flowed in his eyes, and everything in the world became clearer and more rational under the insight of the power of reincarnation.

"The fortune here is odd..."

Gu Changge noticed an unusually brilliant group of pavilions, palace towers which were arranged in a row.

"What is this place?"

Gu Changge spoke.

"Reporting to Young Master Changge, there is the property of Spring Breeze Pavillion, and many cultivators come here to linger..."

The city lord of Northern Marsh looked at it in surprise, and then reported it truthfully.

"Where to?"

Gu Changge nodded slightly and walked toward it.

The followers behind him heard the words, looked at each other, and nodded tacitly.

Boom!!

Then with a wave of his hand, a large army and knights descended from the sky, and they surrounded the palaces and pavilions in the front.

Spring Breeze Pavillion was a newly rising force in the Upper Realm for nearly a thousand years.

The origin was very mysterious, and no one knew what the background composition behind it was, nor who the mysterious Master behind it.

On the bright side, although the Spring Breeze Pavillion was a place where willows seek pleasure.

But many cultivators were aware that it was secretly an assassination organization, specializing in undertaking the dark and shameful assassination activities of various Dao Lineages.

For example, assassinating the young geniuses, young seeds, Elders with infinite potential from the other party's Dao lineage, or cleaning up traitors, etc.

Compared with those assassination organizations that had been passed down for thousands of years, Spring Breeze Pavilion had a short rise time.

But the assassins in the organization were terrifying and cunning, making it hard for anyone to guard against.

The major assassination organizations regard it as a thorn in the side of the flesh, and they couldn't wait to pull it out.

The Dao forces were also very afraid, because they couldn't find the assassination headquarters of Spring Breeze Pavillion.

It was like weeds, it just won't burn out at all, and when the right time came, it would reignite again.

Over time, Spring Breeze Pavilion had gained a lot of fame in the huge Upper Realm.

There were even rumors that as long as the price was affordable, they would even dare to assassinate an Ancient Emperor!

Geniuses and cultivators who died in their hands could be said to be countless over the years.

There were even more rumors that the mysterious Master behind Spring Breeze Pavillion was the descendant of the murderer who once killed the Emperors.

At this moment, within the pavilion, thinking of his current situation, Bai Kun sighed endlessly.

He saw what his daughter Bai Lian'er had achieved over the years.

Sometimes when he saw a crisis, he would cover it up for her. So the enemy would not find and attack her.

It was just that he never told Bai Lian'er about these things.

He was a fugitive from the Demon World. Over the years, Queen Xi Yao had been chasing his traces in order to hunt down the remnants of the five Emperors.

And precisely because of this, he couldn't involve his daughter, Bai Lian'er in this matter.

"You've suffered because of me for all these years..."

Bai Kun sighed.

Hearing this, the enchanting woman who was standing behind the young man and had been silent all the time seemed very unbearable, and finally spoke up.

She lowered her eyes, and although her eyes were cold, they still couldn't conceal her sadness.

"Father, I actually understand your hardships."

Her voice had a strange charm, and if a cultivator heard this, he would probably go crazy. Although the young man had seen her several times, he still felt a little red-faced at this time.

He knew that this was not deliberately done by Bai Lian'er, but because of her physique. For a cultivator, there was this natural charm.

Bai Kun heard the words and displayed a relieved smile, "Over the years, I have been really sorry for you as a father. Sometimes I really want to come and see you, but I am worried that people in the Demon World will notice the traces... Alas... I guess I will never see you again in my life after this incident."

Bai Lian'er nodded, lowered her eyes and said, "Father doesn't need to say more, I can understand you."

"Okay, the things I want to explain are almost done. Next, you should leave this place. Soon, Gu Changge's people will search this place."

The middle-aged man looked solemn and said cautiously, "But you have to remember it well, don't take revenge for me. This disaster was caused by my temporary greed. You can't be Gu Changge's opponent, so don't make him your enemy."

"Remember what I told you, go to the Demon World and find a person named Jun Bufan. Give him that bag, he is the man of destiny."

He obviously said this last sentence to the young man.

Although Bai Lian'er was confused, she didn't ask any more questions at this time.

Jun Bufan... Didn't he also die 6,000 years ago? How do you want us to give him this bag?

She sighed inwardly, her thoughts were complicated.

"I understand Master, I won't let you down."

The young man nodded solemnly, and then the two of them endured the grief as they urged the jade pendant, concealed their breath and figure, and left from the back door of the pavilion.

Chapter 376-2: The mysterious Master behind Spring Breeze Pavillion is more useful to me when he is alive (2)

Bai Kun, on the other hand, sat on the wheelchair with a calm expression, and his thoughts gradually dispersed.

Back then, this Demon Master, Bai Kun, was also a powerful figure in the Demon World.

With this courage and daring valor, he had become known as Demon Master in the Demon World, and even the major Demon Emperors had a lot of respect for him.

And because of his familiar relationship with the Xuan Yang Demon Emperor since childhood, he finally came under his command, making the Xuan Yang Demon Emperor vaguely known as the head of the six Demon Emperors in the Demon World.

No one could match the scenery at that time, but he didn't blame others when he fell into the fields like today.

"All cause and effect, one drink and one peck, there is a cycle..."

Bai Kun sighed, his face unusually calm, waiting for Gu Changge's arrival.

He knew that since Gu Changge knew that a military advisor like him escaped from the Thirteen Thieves, he must have the means to find him.

There was no doubt about that.

Gu Changge, this young man, was really evil. He had deduced his destiny, but the only result was... backlash.

After lying down for half a month, it finally got better.

At that time, if he hadn't sensed the birth of a world-shattering secret treasure in Divine Weapon Realm, that perfectly fit him.

How could he be so greedy?

How could he bring about the calamity of the Thirteen Great Thieves, and how could he be hunted down by Gu Changge?

He hid from the Demon World for six thousand years, but while hiding from Gu Changge, he was found by him within half a month.

Boom!!!

At this time, Bai Kun suddenly heard a huge noise emerging from outside the pavilion.

Terrifying and huge fluctuations sounded, as if the sky was falling down.

The golden surging palm print suddenly penetrated the sky and fell towards a certain void, and suddenly it seemed like many stars exploded.

Countless pavilions and palaces turned to ashes under the aftermath, and all the cultivators trembled as if they were facing a catastrophe.

Boom!!

It looked like the void was about to break apart.

Endless light and runes intertwined, and finally turned into broken swords falling in all directions.

Gu Changge frowned slightly, watching the flickering fluctuations there, "Escaped..."

After taking a slap from him, they could still escape safely. This strength was at least Quasi-Supreme.

"Block this place, and don't allow anyone to approach."

Gu Changge commanded lightly to the people who were still in shock behind him.

Afterwards, an extremely terrifying knight rolled in with a gust of wind and descended quickly, instantly surrounding the Spring Breeze Pavillion.

The cultivators and creatures who were watching from afar looked at all this with great shock. The palm of his hand just now felt like the sky was falling.

They were deeply shocked. *Is this the true strength of Gu Changge?*

In the attic. Although Bai Kun was blind and disabled, he was a cultivator who was in the Quasi-Supreme Realm, but he had not shown his cultivation for many years.

At this moment just now, he clearly felt the outbreak of terrifying fluctuations that surpassed the general Quasi-Supreme.

If it weren't for the formation pattern in the Northern Marsh Ancient City, otherwise the attack just now would have destroyed many pavilions.

"Could it be that the traces of Lian'er and Bai Hua were noticed, it's impossible..."

"Have you finished your last words?"

And just when Bai Kun was going to make the last desperate fight.

In this pavilion, the sound of footsteps suddenly arrived.

Then a young man's voice sounded, although it sounded with a chuckle.

But it seemed extremely calm and indifferent, without any emotional fluctuations.

The moment he heard this voice.

"Gu Changge..."

Bai Kun's scalp went numb.

The first feeling turned out to be like facing an icy iron stone, with a kind of uncontrollable trembling.

He didn't expect that Gu Changge would find him so quickly, and would utter such words as soon as he arrived.

Finished your last words?

Could it be that Gu Changge really heard something?

However, he was a long lived character, and he quickly calmed down.

After all, the jade pendant he gave to the two of them was not a simple thing. It was impossible for anyone to find their aura and stop their escape.

Thinking of this...

Bai Kun looked at the location at the entrance of the stairs and asked calmly, "Young Master Changge is so aggressive for a useless person like me, it's really an honor."

Gu Changge walked up unhurriedly.

Then he smiled lightly, "I generally don't like to leave a way for someone who dares to offend me, so sometimes, even if I have to search the entire Upper Realm, I have to find their hiding place and kill them."

What he said was an understatement, but Bai Kun felt a shuddering feeling, this young man was far more terrifying than he imagined.

And his strength was unfathomable, he suspected that the fluctuations he sensed just now come from Gu Changge's hands.

At such an age, to have such a cultivation base was simply unimaginable. Then, Bai Kun was about to speak, but Gu Changge interrupted him.

"However, after seeing you today, I suddenly changed my mind. I won't kill you. It will be more useful to me if you are alive."

While speaking, Gu Changge sat down on his own, looking at the still warm tea, a glimpse of clarity flashed across his eyes.

He said it very calmly and directly, and did not mean to hide anything. But Bai Kun's expression changed, and he felt a sense of unease and strangeness.

What did Gu Changge want to do?

He spent such a price to search for his traces in the huge Upper Realm.

Wasn't it because he instigated the Thirteen Thieves to attack the caravan carrying Gu Changge's secret treasure, thus incurring his revenge?

"Gu Changge, what do you mean? If you want to kill me do as you wish and this Bai will never frown."

Bai Kun's face was also cold at this moment. He no longer planned to fight with Gu Changge, and was very tough and authentic.

He felt that Gu Changge seemed to have an ulterior motive, and didn't simply want to get revenge on him. But he also didn't want to drag down his apprentice and daughter.

"It's nothing interesting, I'm just curious, what did you explain at this time?"

"The two of them escaped very fast. It seems that you gave them the amulet so that they could slip away from my eyes."

Gu Changge smiled slightly, as if he knew what Bai Kun was thinking at a glance.

Although he had expected it just now.

But he still slightly underestimated Bai Kun's means, to allow the two of them to hide their aura and slip away under the eyes of many cultivators and creatures.

He had to say that this method surprised Gu Changge a little, but it also made him think about leaving Bai Kun alive.

Of course, Gu Changge was not worried about the impact. The two of them could escape for a while, but they couldn't escape forever.

As long as Bai Kun was in his hands, he had a way to make the two of them appear.

"What do you mean? I don't understand what you're saying?"

Bai Kun looked at Gu Changge coldly and said, although he was blind, he was not left without any means.

"It doesn't matter if you don't understand. You only need to understand one thing, even if you want to die today, you can't die."

"From now on, your life is mine."

Gu Changge smiled lightly.

Immediately, he shot quickly, black runes flickering in the palm of his hand, and the runes fell like lightning, directly hitting Bai Kun's abdomen.

"What is this..."

Bai Kun's complexion changed, and before he had time to fight, he felt a strange force that penetrated his lungs, bones and blood as he fell directly towards the place where his spiritual sea was.

This strange force was too terrifying, with deep greed and malice, like a worm, rooted in the wheel of his life.

It was like a huge black net woven, which instantly sealed his spiritual sea.

There was a sense of death and exhaustion spreading, constantly devouring his aura.

"What kind of power is this..."

"You blocked my cultivation."

Bai Kun was so angry that he touched his wounds, and he couldn't help but let out a curse, and spit out blood again with his face suddenly turning pale.

Gu Changge glanced at him lightly, but didn't pay much attention to it.

He turned around and walked downstairs, and instructed, "Do your best to investigate the Spring Breeze Pavillion, and take Demon Master Bai Kun back to the True Immortal Academy."

Spring Breeze pavillion was definitely inseparable from Bai Kun.

There was no doubt about that.

If Gu Changge guessed correctly, one of the two who escaped just now should be Bai Kun's apprentice.

As for the other person, it should be related to Spring Breeze Pavillion. As for who it was, it remained to be investigated.

If there was no result from the investigation, he could always search Bai Kun's soul.

Hearing this, Bai Kun's pupils couldn't help shrinking. He didn't expect that Gu Changge would not stop after catching him, and would continue to investigate Spring Breeze Pavillion.

He couldn't help but feel a little worried.

Although his daughter Bai Lian'er had never shown her face in front of people all these years, very few people knew that the mysterious owner behind Spring Breeze Pavilion was her.

But Gu Changge had many methods, who knew that he couldn't investigate it?

Afterwards, Demon Master Bai Kun was arrested, his cultivation base was sealed, he was escorted out by a group of knights that threw him directly into the prison prepared in advance.

Seeing this scene, the cultivators and creatures in the entire Northern Marsh Ancient City also breathed a sigh of relief and felt relieved. The mountain hanging above their heads also fell to the ground.

Otherwise, whoever faced an existence like Gu Changge would have to tremble with fear.

"Today's events have frightened you all, Changge is a bit sorry."

When leaving the Northern Marsh Ancient City, Gu Changge smiled slightly and said to the city lord of Northern Marsh and others who were sent to the outside of the city.

"Young Master Changge, you're joking, Demon Master Bai Kun doesn't know whether to live or die, and he was against you. Me cooperating with your search. That was what it should be."

The city lord of Northern Marsh and others hurriedly waved their hands and said with a very humble attitude.

"And the Thirteen Thieves have been troubling us for many years, and it is also a virtue that you eliminated these thieves."

Although they were not sincere, everyone couldn't help but say that, at this time, who would dare to complain more?

"If that's the case, then Changge will say goodbye first."

Gu Changge smiled slightly, and didn't care about it. From beginning to end, he seemed as rich and graceful as jade, elegant and polite.

After saying this, he glanced somewhere in the void.

Suddenly, there was a slight click, as if something had broken.

Afterward, he left with the mighty army, and did not stay for a while.

The city lord of Northern Marsh city and others kept watching Gu Changge leave, then heaved a sigh of relief and returned to the city below.

The ancient city of Northern Marsh began to return to its former bustling and noisy, but everyone would deeply remember this day, even to their death.

Chapter 377-1: Bai Lianer is unbelievable, Your daughter came here to save you (1)

As the events transpired, on a mountain 100,000 miles east of the Northern Marsh Ancient City.

Within the void, a wave of fluctuations emerged as two figures fell out of it.

The one who landed first was a pale young man with a pale face. His blood rolled for a while, and he only felt that his internal organs seemed to be split open. It was extremely painful.

He was Bai Kun's disciple, Bai Hua.

Beside Bai Hua, the enchanting woman who fell out of the void was Bai Lian'er. Her condition was not much better than Bai Hua's. There was no blood on her delicate face, and a lot of it was smothered on her dress.

"This Gu Changge's strength is so strong... If it wasn't for my quick reaction, I would have probably died there."

Bai Lian'er's eyes were very indifferent, and she quickly took out a large number of medicinal pills from her storage ring before swallowing them, and started recovering from her injuries.

She ignored Bai Hua who was looking at her worriedly.

Instead, she was silently conditioning her own injuries and quickly healing broken bones and organs.

The cultivator at the peak of Quasi-Supreme Realm was suddenly slapped by Gu Changge just now.

She was caught off guard and didn't have time to resist, so she just sacrificed a divine weapon to resist, and as a result, suffered a serious injury.

This also displayed how terrifying Gu Changge's strength was. And Bai Lian'er had no idea how Gu Changge noticed her and Bai Hua's trail.

It was obvious that she used a unique secret technique, and also urged the jade pendant her father had given her, but even so, Gu Changge still noticed their traces.

At that time, Bai Lian'er's heart was really shaken, it was unbelievable.

She had naturally heard a lot of rumors about Gu Changge among the younger generation.

Whether it was some time ago or this time, he was in an invincible limelight with a bright halo and his peers had to lower their eyebrows in front of him.

But Bai Lian'er didn't take it seriously. After all, he was just a young junior.

If Gu Changge wanted to reach her level, even if it was the fastest, it would take at least a hundred years.

But... this time.

With the outbreak of the Ancient Immortal War and the destruction of the Purple Mansion, she began to pay attention to Gu Changge.

She tried to make Spring Breeze Pavilion's assassins not take on tasks related to the Ancient Immortal Gu Family and Gu Changge.

As an assassination organization living in the dark world, she had naturally experienced various tasks.

For example, the attack and assassination of Gu Changge.

Because there were too many Dao Lineages in the Upper Realm, the trees that were higher would be destroyed by the wind. Since Gu Changge's light was too bright, there were always Dao Lineages who were jealous and wished to destroy him.

This was also a normal thing.

But Bai Lian'er didn't expect that one day her father would offend Gu Changge, and would even urge the Thirteen Great Thieves to snatch the secret treasure forged by Gu Changge.

With such a big hatred, Gu Changge would definitely not let it go.

However, she was powerless to stop it.

For her father, offending Gu Changge would definitely not be easy.

Thinking of this, Bai Lian'er couldn't help but feel a faint sadness in her heart. Although her character was indifferent, it did not mean that she was ruthless.

Although she once hated and complained about her father, it had been six thousand years since the incident. As her only relative in this world, how could she be indifferent to him?

In the next moment, Bai Lian'er suddenly waved her hand, and a crystal clear mirror emerged from her sleeve.

"Sister Lian'er, what is this..."

Although Bai Hua grimaced in pain, he couldn't help but ask.

Bai Lian'er glanced at him indifferently and said nothing. As her aura surged, the brilliance on the mirror surged, and a picture suddenly emerged.

"Master..."

Bai Hua's eyes widened and he couldn't help exclaiming.

The scene that appeared in the mirror was exactly the scene in the Northern Marsh Ancient City, where Gu Changge dispatched the cultivators to escort Bai Kun into the cage.

Although Bai Kun's face was natural, in this picture, he was bound by chains and was extremely embarrassed.

This scene made Bai Hua burn with rage. His fists were clenched, and he became extremely angry to the point that he hated it.

"Fine..."

Bai Lian'er glanced at him lightly as she frowned, and continued to stare at the picture in the mirror.

However, in the next moment, her expression suddenly changed.

She even took a few steps back, and the mirror in her hand almost fell to the ground.

In the picture, a young man wearing a black long robe, rich and godlike, with hair shining brightly like a god, suddenly raised his head and smiled at her, as if the endless distance between them had vanished and he was able to see her.

Immediately afterward, the mirror in front of her blurred and then shattered with a click.

"How could... how could he sense the means I left at that time..."

Bai Lian'er took a deep breath and calmed down.

She frowned tightly, and was a little suspicious as she fell into a deep unease.

How terrifying is Gu Changge's perception? For him to even notice this?

How can it be so unfathomable? Is he really just someone from the younger generation?

"He shouldn't have seen me, he just sensed my means."

Soon, Bai Lian'er regained her composure, glanced at Bai Hua with an indifferent expression, and said, "Let's go."

"Sister Lian'er, where are we going now, are we going to the Demon World?"

Bai Hua got up and asked. He also swallowed a lot of medicinal pills, and his injuries had almost recovered.

"I'll go find someone first. Since Gu Changge didn't kill my father on the spot, he must be keeping my father temporarily imprisoned."

"I can't ignore my father's life or death."

Bai Lian'er said lightly, as the owner of Spring Breeze Pavillion, she had developed a lot of connections over the years.

And this was when it came in handy.

"Didn't Master say that we should not care about him and that we should not seek revenge from Gu Changge? Why..."

Bai Hua asked in confusion.

He was in awe of Bai Kun from the bottom of his heart, so he never violated his Master's words.

Although he also really wanted to save and avenge his Master, considering what Master said, he felt that he still had to obey his Master's instructions.

"That's on the premise that my father was killed by Gu Changge. Now Gu Changge has no intention of killing him, so there is a way to save my father."

Bai Lian'er explained indifferently, "After I make arrangements, we will head to the Demon World to find the Jun Bufan that my father mentioned."

Having said that, she glanced at Bai Hua and shook her head slightly in her heart.

Why was the gap between her and Gu Changge of the younger generation so big? It was simply a world of difference.

Although Bai Hua had inherited her father's mantle, in her opinion, he was just a very innocent young genius who had not seen much of the world.

Possessing the Heavenly Body and the ability to spy on the Heavenly Secrets gave him the ability to elude nothingness?

This kind of talent was very tasteless to her, and it would only be a burden to carry around.

It was only because he was his father's disciple that Bai Lian'er had no choice but to bring him along.

"Okay, I will listen to Sister Lian'er. By the way, Sister Lian'er, have you met Jun Bufan that Master said?"

Bai Hua nodded, and then he thought of something before he asked inexplicably.

Bai Lian'er's expression changed slightly, but she did not answer his question.

For her, even if Jun Bufan was not dead, he could only be regarded as a stranger at best.

Six thousand years ago, her heart had already been broken once.

Afterward, the two of them turned into a divine light and quickly left this place, crossing many mountains and ponds, without stopping.

.....

Bai Kun, the remnant of the Thirteen Great Thieves, was arrested by Gu Changge in the Northern Marsh Ancient City. This news soon spread to all parties in the Upper Realm, causing a huge sensation.

Bai Kun was no stranger to the Demon World.

During the previous regime, the famous Demon Master had enormous power. Because he saw too many Heavenly Secrets, he was blinded.

Later, after the rebellion in the Demon World, he was designated as a traitor by the current Queen Xi Yao. He was hunted down for many years and disappeared.

Now that the Bai Kun reappeared in the world, it caused quite a stir for all ethnic groups and traditions.

Many cultivators and creatures were guessing how Gu Changge would deal with Bai Kun after imprisoning him.

Chapter 377-2: Bai Lian'er is unbelievable, Your daughter came here to save you (2)

Of course, why Bai Kun ended up in such a situation was self-inflicted in the eyes of many people.

Daring to snatch Gu Changge's secret treasure in a good manner, wasn't this slapping on your own face? Did he have a death wish?

This incident caused a lot of uproar in the Upper Realm, and some people speculated that the Demon World might even intervene.

Because of this, the True Immortal Academy specially vacated an underground prison for Gu Changge, which was especially responsible for detaining Bai Kun.

However, Bai Kun's cultivation had been sealed by Gu Changge, and he was not worried that anyone would dare to take a huge risk and enter True Immortal Academy to save him.

After returning to the True Immortal Academy, Gu Changge started the next plan while contacting Queen Xi Yao in the Demon World.

During his investigation, Spring Breeze Pavillion rose 6,000 years ago, when the Demon World was in chaos.

Except for the You Yue Demon Emperor, the other five Demon Emperors were missing.

And Bai Kun, the Demon Master who was under the Xuan Yang Demon Emperor, were close friends.

With this level of relationship, Gu Changge could speculate very well that the people behind Spring Breeze Pavilion also left the Demon World that year.

"Bai Kun only had one wife in his life, because he spied on Heaven's Secrets and incurred a curse, causing his wife to die prematurely... In addition, Bai Kun also has a daughter named Bai Lian'er, who also went missing 6,000 years ago. ."

Gu Changge flipped through a lot of news and fell into deep thought.

Yin Mei did not let him down. Among the many pieces of information investigated, there was one more main point.

Because of her mother's early death, Bai Lian'er believed that her father killed her mother, so her relationship with her father was like water and fire.

"It seems that among the two people who escaped from the Northern Marsh Ancient City that day, there was one other person who was Bai Lian'er. I wonder if she is the mysterious owner behind Spring Breeze Pavillion. I have to find a chance to meet her."

Gu Changge narrowed his eyes.

At that time, she took his palm in a hurry, and her strength was least in the Quasi-Supreme Realm.

What he was not sure about now was whether Bai Lian'er would save her father. After all, according to the data, the relationship between Bai Lian'er and her father Bai Kun was like water and fire.

Gu Changge planned to find an opportunity to test Bai Kun's tone.

During this time, all the disciples of the True Immortal Academy had already gone to the tomb of the Supreme God Clan to cultivate, but they seemed rather quiet.

Yue Mingkong would send him some news from time to time, about some opportunities that appeared in the tomb of the Supreme God Clan.

In addition to the True Immortal Academy, other Dao Lineages and Great Sects also dispatched young geniuses from the clan.

For example, the Hidden Ji Family, the Hidden Wang Family, and some more mysterious ethnic groups were now gradually showing their traces.

In the huge Upper Realm, there had been many innate races since the beginning of the world, but until now, they were rarely seen.

It was not that those races had disappeared, but that they were hiding in some small worlds and had no contact with the outside world.

The power of these ethnic groups should not be underestimated, and their inheritance was long, even spanning countless epochs.

Like the Supreme God Race, it was such a group with the Supreme Divine Will flowing in the blood, a mysterious power comparable to the light of the flying Immortal.

With this kind of power in the body, they could have unparalleled combat power, and it was difficult to find an opponent in the same realm.

The tomb of the Supreme God that appeared this time not only disturbed the rest of the ethnic group, but even the mysterious Princess of the Supreme God Clan had appeared.

Moreover, what made Gu Changge most interesting was that according to the report of the demonic puppet, Jiang Chen was also mixed in with the group.

Beside him, there was not only the Princess of the Supreme God Clan but also a somewhat mysterious monk.

It could only be said that it was worthy of being the Son of Luck. Wherever there was an opportunity he would appear there.

Originally, Gu Changge didn't intend to enter the tomb of the Supreme God, but if the Son of Luck appeared, something good would definitely appear.

In this case, he had to go. During this time, he could send someone to investigate Bai Lian'er's trace and wait for Queen Xi Yao's reply.

The extraordinary matter of the Demon Emperor's son, Jun, had to be considered before venturing to the Demon World.

Everything he had to do now could only be considered as planning ahead.

"If Bai Lian'er is the master behind Spring Breeze Pavilion, then following this normal trajectory, she will definitely come into contact with Jun Bufan, the son of the Demon Emperor."

"Six thousand years ago, when Bai Lian'er was still in the Demon World, she should have known Jun Bufan. If I follow this routine, it may be the rhythm of the heroine's template..."

Thinking of this, Gu Changge entered the dungeon just in case.

Bai Kun was sealed and was being thrown here. Although he was blind and disabled, he immediately felt Gu Changge's arrival.

"Gu Changge, what are you doing here? It's still the same sentence, if you want to kill or cut, go ahead and this old man will never frown."

Bai Kun raised his head very stubbornly, those empty eyes staring at Gu Changge looked very scary.

If there was an ordinary person, they would be frightened by this appearance.

It was just that Gu Changge's face didn't change from beginning to end. He casually sat down on the stone next to the dungeon and shook the dust on it with his robe.

"The environment here seems to be a little dark, and it seems quite lonely alone. But I don't think you can feel it, senior."

He said to himself.

Seeing Bai Kun's complexion changing, Gu Changge continued to laugh, "Of course, if senior feels lonely, I can help you find a partner."

Bai Kun frowned and asked, "What do you mean by that?"

"I just feel that this place is too dark and there is no sunshine all day long. Senior stays here alone, and he will feel lonely. The junior feels a little sorry, so after thinking about it, I think I should do something for the senior."

Gu Changge smiled lightly, with a calm tone in his voice.

However, Bai Kun felt a terrifying cold air coming up from his tailbone.

An ominous foreboding arrived at his mind.

Gu Changge was definitely the most terrifying character he had ever seen.

Even Empress Xi Yao, who he had expected back then, was far behind.

"What the hell do you mean?"

Bai Kun asked with his scalp numb.

He found that from the moment Gu Changge entered the dungeon, he was in control of his emotions, making him anxious and even giving birth to ominous premonitions.

"Your daughter has come to rescue you."

Gu Changge said with a smile.

"What..."

Bai Kun heard this, his head buzzed as if he had been knocked by a hammer, and there was a buzzing sound.

He couldn't believe his ears.

Didn't I tell her and Bai Hua to leave him alone and not avenge him?

Why didn't she listen and come to save himself?

"No, you're lying to me. My daughter can't come to save me. She and I haven't seen each other for 6,000 years."

However, Bai Kun was also someone who had experienced strong winds and waves, and soon calmed down, thinking that Gu Changge was probably just deceiving himself.

"Really? Senior, your memory is really bad, why don't I remind you."

"Aren't the two people who escaped from the Northern Marsh Ancient City, your apprentice and daughter Bai Lian'er? Who would have thought that she has now become the master behind Spring Breeze Pavillion."

"Do you think there is a coincidence in this world?"

Gu Changge said with a smile, his tone did not change much.

But Bai Kun's forehead had gradually drenched with cold sweat.

"What did you do to my daughter?" he couldn't help but ask.

Gu Changge smiled lightly, "I didn't do anything to her, I was just wondering if I should reunite both father and daughter, senior. This dungeon is not very big, but it should be possible to accommodate two people."

"Gu Changge, what do you want to ask? I'll tell you, don't hurt my daughter, she has nothing to do with this matter, she has nothing to do with this..."

At this moment, Bai Kun finally realized Gu Changge's purpose, and couldn't help but say with grief.

His daughter Bai Lian'er was definitely his weakness. Before that, he wasn't worried about Gu Changge searching for his memory.

Because some of his soul was sealed, once it was touched, it would all be destroyed, including him and the soul.

And Gu Changge would naturally get nothing.

Chapter 378-1: Its just a chess piece, Xiao Ruoyin and Jiang Chen meet again (1)

In the dark and damp dungeon, Bai Kun stood there with a sad expression on his face.

His only movable hand was bound by a chain, and he couldn't help clenching it tightly, but currently he still seemed extremely powerless.

Now that he had determined that Gu Changge already knew a lot of information about his daughter, he could not hide anything from him.

As the mysterious owner of Spring Breeze Pavillion, Bai Lian'er had been very low-key over the years and has almost never shown a trace in front of outsiders.

But Gu Changge was so sure that his daughter was the master behind Spring Breeze Pavillion.

This only showed that Gu Changge had already investigated a lot of information.

And Bai Kun knew her daughter's character.

It was impossible for her to do what he said before. If she knew that he was not killed by Gu Changge, she would definitely try to save him.

As for Gu Changge, he only needed to use himself as bait and cast a net, so that his daughter Bai Lian'er could throw herself into the net and send herself to his door.

Bai Kun had no doubts about Gu Changge's intentions.

"Gu Changge, what do you want to know?"

Soon, Bai Kun packed up his emotions and couldn't help asking, "If I know something, I will definitely tell you."

"Very good, I like smart people. If the senior cooperates with me obediently, maybe one day I'll be in a good mood, and I'll let you go so that you and your daughter can truly reunite. You don't even have to worry about being hunted down by the Demon World."

"For me, if I am in a good mood, it's just a word."

Seeing Bai Kun's appearance, Gu Changge already knew that his heart had been shaken, so he couldn't help but smile.

A person with a weakness in his heart was not afraid of death, but as long as one had grasped his weakness, he would naturally be easy to deal with.

Hearing this, Bai Kun's face moved slightly.

Although he knew that Gu Changge was probably just talking casually, there was still a glimmer of hope in his heart.

Ants were still alive, let alone people?

Moreover, as Gu Changge said, he really only needed one sentence to make the Demon World give up their pursuit of him.

In this way, he didn't need to run around and hide like a mouse living in the dark in the future.

"What do you want to ask?" Bai Kun said.

Gu Changge smiled and asked, "Why did you let your daughter and apprentice flee to the Demon World? As far as I know, the Demon World is not friendly to them now, and this is not a wise decision. "

Bai Kun's complexion changed slightly, but he didn't expect Gu Changge to directly ask about the Demon World as soon as he arrived.

This involved what he promised the Xuan Yang Demon Emperor at the beginning. Why was Gu Changge, an outsider, concerned about this?

However, Bai Kun didn't dare to hide something from Gu Changge, and said in a low voice, "I asked them to send something to the Demon World. This is what I promised my old friend."

Hearing this, Gu Changge's heart moved slightly, and he instantly thought of the Demon Emperor Xuan Yang.

The old friend Bai Kun mentioned was naturally the Demon Emperor Xuan Yang.

"Who was it intended for?" he continued.

Bai Kun hesitated, sensing that Gu Changge's expression seemed indifferent, he couldn't help laughing bitterly, "I don't know what it is, it's just a bag, and I don't know what it contains."

He didn't lie, the original package was handed to him by the Xuan Yang Demon Emperor himself so that he would find a suitable time in the future to give it to his son Jun Bufan.

Bai Kun had never opened it.

Now that he had offended Gu Changge and was behind bars, he couldn't go anywhere, so he could only entrust this task to his apprentice.

"Do you want to hand that over to the son of the Xuan Yang Demon Emperor, Jun Bufan, who died 6,000 years ago?"

Gu Changge smiled lightly and had no plans to continue listening. He shook the dust on his robes and arose to leave the dungeon.

He had got the information he wanted.

From this point of view, the Xuan Yang Demon Emperor did indeed set up a lot of back-ups for his descendants.

Gu Changge once thought that with the Luck of the Demon World, the six Great Demon Emperors that were born would actually only be in the Quasi-Emperor Realm.

But now it seemed that he underestimated the strength of these Great Demon Emperors.

If it was only the Quasi-Emperor Realm, how could it be deployed to this era?

Therefore, the son of the Demon Emperor was actually the Son of Luck combined with the rebirth stream and the inheritance stream.

"What..."

Bai Kun's face changed drastically, and he blurted out, "How did you know about this?"

Except for the people from the Demon World, how could the rest of the Dao lineage be concerned about Jun Bufan?

Six thousand years ago, the Xuan Yang Demon Emperor set up many backups and then disappeared, leaving a Dharma body to inform him of this matter.

Therefore, Bai Kun kept guessing that Jun Bufan was just in suspended animation.

But... where did Gu Changge hear about this and why was he so certain?

There was an uproar in his heart, and he could not calm down for a long time.

Gu Changge ignored Bai Kun's trembling and left the dungeon directly. With his absence, this place returned to dead silence.

Bai Kun was stunned, and until now, he still hadn't reacted.

Faintly, he felt that he had been drawn into an invisible vortex of terror.

This made him deeply guilty and annoyed.

After leaving the dungeon, Gu Changge did not intend to inform Queen Xi Yao of the news.

Earlier, he was only interested in Jun Bufan, the Son of Luck.

But now, after listening to what Bai Kun said, he felt that the Demon World seemed to be hiding a great secret.

The chaos of the Demon World 6,000 years ago did not seem to be an accident.

This secret intrigued him.

"Empress Xi Yao... maybe she's just being used as a pawn..."

"It seems that only by completely controlling her will there be a chance to make a move in this chess game."

Gu Changge looked at the cold tea and slightly shook his head.

Ji Qingxuan was not around, so he was really uncomfortable with the chores. It seemed that he had to find a satisfactory maid again sometime.

He already had an idea in his heart, and planned to visit the Demon World after the matter of the tomb of the Supreme God was resolved.

Afterward, he summoned a group of followers, and his figure broke through the void and left the True Immortal Academy.

Many Elders noticed this scene, they were stunned for a moment, but then they couldn't help but smile.

"It seems that Gu Changge still intends to enter this trial..."

"I'm afraid it's going to be lively."

.....

At the same time, in the tomb of the Supreme God, which was at a countless distance, there was a scene of chaos at the moment.

Whoosh whoosh!!!

Divine Lights broke through the sky as they crossed the mountains and rivers in an instant, and rushed to this place.

Various golden ancient chariots rumbled across the sky like a sun hanging in the sky, looking extremely dazzling.

In the distance, there were also the white jade chariots that were as cold as the moon, majestic and heavy like Primordial Demon Mountain, and the splendid pavilions and palaces were suspended in the air and hidden in the clouds... These were all signs of the powers of the Great Dao Lineages. There were

many geniuses and cultivators standing on these, which was extremely lively and could be called a sea of people.

The birth of the Supreme God's tomb caused shock to many Dao traditions and aristocratic families in the Upper Realm and dispatched the powerhouses of their clan to come here, intending to share a piece of the pie.

From farther away, it could be seen that many powerhouses would be arriving here, by many young people.

These powerhouses were bright and blurry as if they had divine power and were incredibly powerful.

The vast and majestic pressure shrouded the heavens and the earth, and there was a terrifying difference in strength and power from the younger generation.

Between the mountains and the swamps, a gray miasma rose. It was mixed with the roars of some unknown beasts that shook from all directions, making the land within a thousand miles tremble.

There were cracks in some mountains emerging a red glow, and then terrifying beasts like fire unicorns rushed out of them with the Sacred Realm's might as they spit out magma falling from the sky, submerging thousands of miles of ground.

The scene here was very amazing and terrifying. If one was not careful, there would even be a danger of death.

Therefore, many geniuses and cultivators were grouped together, and the respective Dao traditions were also using various means to contend with the pressure of this place.

At the same time, one had to be careful of the beasts that rushed out from time to time, so as not to lose their lives.

Before that, a powerhouse in the Sacred Realm rushed to the depths.

As a result, everyone saw that the fierce beast, which was like a fire unicorn, opened its mouth and spit out magma, burning it to ashes, instantly destroying its body and spirit.

Although it was said to be a tomb, it was actually more like a ruin.

Farther away, you could still see the outlines of some cities that had long been broken, and some imprints of array formations were still shining brightly.

"I heard that the Ancestor of the Supreme God Clan was in the tomb of the Supreme God this time. His cultivation base has already surpassed the Supreme Realm, and he might have entered the Emperor Realm."

"Divine position, that is the Supreme treasure. Once we get it, even if it's Gu Changge, we can still resist him."

Chapter 378-2: Its just a chess piece, Xiao Ruoyin and Jiang Chen meet again (2)

Between the mountains, a group of young geniuses from an Immortal sect were gathering together, led by the Elders of the sect as they were rushing to this place.

At this moment, the person speaking had a strong desire and fiery color in his eyes.

Being the head of the Supreme God Clan was equivalent to having the cultivator's Dao fruit.

It contained Supreme Good Fortune, and it could even make people sanctified on the spot, inheriting some of the cultivation bases of the original Ancestor of the Supreme God Clan.

Even the leader of the Great Sect would be moved by this kind of thing, and it was impossible for them to sit still.

Therefore, knowing that it was the thing from the Ancestor of the Supreme God Clan, it still attracted countless cultivators.

In the face of this kind of good thing, even the Supreme God Clan couldn't stop the others from arriving to compete.

After all, this Supreme God tomb was not under the jurisdiction of the Supreme God Clan.

"It is said that this place used to be the training ground of the Ancestor of the Supreme God Race. I don't know why the training ground fell apart. But there are a lot of opportunities left. The Supreme Treasure... is also the Supreme Creation."

Hearing the discussions of the disciples, the Elder in charge of the leadership also said with yearning and longing.

He looked at the distant mountains, swamps, and lakes that were constantly spewing rays of light, and his heart was full of fire.

Cultivators and geniuses like them could be seen almost everywhere in the tomb of the Supreme God.

"Junior Sister Ruoyin, be careful, the miasma here is very dangerous. If you get affected by it, it may corrode your skin..."

The ancient trees were quiet, the vines were like clouds, and the light gray mist shrouded the sky and the earth.

Several old men emanating an immortal hue with clear faces and Taoist robes were walking through the mountains with a group of young cultivators and quickly heading toward the tomb of the Supreme God in the front.

The one who spoke at this moment was a girl with a petite figure and attractive facial features.

There were many young women beside her, all of them were beautiful and moving, followed by a group of male disciples.

"I see, I will be careful, Senior Sister Song Qin."

A slim, beautiful woman with slender legs nodded when she heard the words.

Her pure white dress fluttered gently in the wind, and there was an aloof fragrance as if she didn't care about the fireworks of the world.

It was Xiao Ruoyin.

Whether it was in the previous world or in this world, she was extremely beautiful.

Perhaps it was due to her cultivation, her skin now shimmered with a lustrous luster, snow-white and delicate, like a creamy jade.

Even in the Heavenly Dao Immortal Palace, she was regarded as a fairy by many young disciples and many secretly admired her.

Among the many disciples who arrived at the Supreme God's Tomb, she also belonged to the very dazzling one, and many elders took good care of her.

Of course, it wasn't because of her cultivation, and Xiao Ruoyin also knew this.

Many people knew that it was because of Gu Changge's relationship that she was able to become a disciple in the Heavenly Dao Immortal Palace.

As a stranger, she naturally knew what the Heavenly Dao Immortal Palace meant in this world.

She had no power and no background. If it wasn't for her relationship with Gu Changge, she wouldn't even have the chance to get close to the Heavenly Dao Immortal Palace.

How could she be as valuable as she was now?

"Song Qin is right. You have to be careful here. With your current cultivation, you shouldn't have come here."

"But since you want to gain some knowledge, it's not wrong to come here and have a look."

"Though remember to listen to our words and don't act on your own. Otherwise if something happens to you, I will not be able to explain it to Young Master Changge..."

At this moment, hearing this, one of the elders also turned his head and carefully warned her.

To be honest, Xiao Ruoyin insisted on coming here, and they were also helpless.

Because her cultivation base was not high, and there were many dangers here. It was easy to encounter these dangers.

If something happened to Xiao Ruoyin, they couldn't imagine the terrifying consequences.

But she was curious and insisted on coming, and promised that during this process, she would obey their orders and would not run around indiscriminately.

It was not easy for the Elders to refuse.

After all, Xiao Ruoyin was really beautiful, and since she was sent over by Gu Changge, it was inevitable for people to suspect the close relationship between her and Gu Changge.

Considering this relationship, all the Elders of the Heavenly Dao Immortal Palace attached great importance to her.

They didn't dare to let her have any accidents and even sent a few more Elders here.

"Well, Elder, don't worry, Ruoyin will definitely listen to your words and won't run around."

Xiao Ruoyin nodded and agreed.

She wasn't stupid either, she knew that she could only have such enviable treatment because of Gu Changge's relationship.

Therefore, she usually worked very hard when she cultivated, and she didn't want to embarrass Gu Changge.

And this time, she rushed to the tomb of the Supreme God entirely because she was very curious about this kind of experience, and she also wanted to use it to hone her knowledge.

"Elders, don't worry, since Junior Sister Ruoyin is by my side, she is safe, and I will be protecting her."

Beside Xiao Ruoyin, there was a petite woman.

At this moment, she couldn't help but smile, revealing delicate white teeth.

Her name was Song Qin, and she was also a little-known girl in the Heavenly Dao Immortal Palace, with a strong cultivation base.

However, Xiao Ruoyin knew that the reason why Song Qin was so kind to herself was that she wanted to help her to speak something nice in front of Gu Changge.

Today, Xiao Ruoyin finally understood what the three words Gu Changge represented in this huge Upper Realm.

How lucky she was to meet such a noble person!

Suddenly, Xiao Ruoyin's expression froze, her expression a little surprised, and she noticed two figures in the mountains not far away.

It was a cultivator in a tattered monk's robe, holding a bowl in his hand, which felt a little nondescript.

Next to the monk, there was a young man standing. Judging from his figure, Xiao Ruoyin felt that he was very familiar and resembled an old friend of hers.

It was just that the face was different, it had a bit of vicissitudes and felt unfamiliar.

"What's the matter, Junior Sister Ruoyin? What are you looking at?"

Noticing her abnormality, Song Qin couldn't help but follow her line of sight.

Then she just happened to see the monk and the young man.

She frowned suspiciously, a little puzzled.

"Jiang Chen...how can he be so much like him? I wonder how Niu Tian, ??Jiang Chen, and the others are doing now..."

Xiao Ruoyin slightly shook her head, the young man was dressed in shabby clothes, with a disheartened face, as if he had just come out of the ground.

Although in terms of body shape, it looked like Jiang Chen, but he did not seem like him to her.

That was right.

Jiang Chen, Niu Tian, and the others had no talent for cultivation, so how could they appear here?

Now they were probably living their own lives in a mortal kingdom.

Thinking like this, Xiao Ruoyin withdrew her gaze and went to the depths with everyone from the Heavenly Dao Immortal Palace. This matter was quickly put down by her and she didn't care too much.

"Donor Jiang, what are you looking at? Why is this expression..."

"Although that female benefactor is beautiful, she is obviously not from the same world as you. The poor monk advises you to be less distracted."

Looking at the figures of Xiao Ruoyin and others, the monk not far away seemed to have noticed something, and couldn't help asking with interest.

Jiang Chen's clenched fist slowly loosened, but his heart seemed to be holding a sigh of relief, extremely uncomfortable.

Hearing this, he shook his head slightly and said, "Why does Master Pu Du meddle in other people's business?"

The monk's name was Pu Du, and Jiang Chen had gotten more familiar with him in the past few days.

Jiang Chen really didn't expect to see Xiao Ruoyin again in this place, and in this way. She was more beautiful than ever.

And her cultivation base was also very powerful, even a bit stronger than him who obtained the Demonic Art of Ten Thousand Transformations.

This made him feel a little relieved. It seemed that Xiao Ruoyin was still safe for the time being, and she was doing well. She had not encountered Gu Changge's poisonous hand.

Just now Jiang Chen really wanted to go up to meet her and let her see Gu Changge's true face.

But his rationality made him hold back and silently watched Xiao Ruoyin leave.

"If I meet her now, it will not only hurt me but also her. The Elders of the divisions around her will definitely kill me as soon as possible."

Jiang Chen secretly said in his heart as he had calmed down.

Noticing his abnormality, Monk Pu Du's smile became somewhat intriguing.

"Donor Jiang and the fairy just now know each other. You must know that the group of people just now belonged to the Heavenly Dao Immortal Palace."

"Donor Jiang, I'm afraid that the origin of the fairy you know is not simple." He couldn't help laughing.

Jiang Chen glanced at him, shook his head, and said, "Why is it not simple? It's all the same. Before that, we still have to help Jiang Luoshen find the true tomb of her Ancestor, otherwise, we will both die."

Chapter 379-1: The Supreme Opportunity in the Tomb of the Supreme God (1)

Hearing this, Pu Du's expression also changed a bit, turning a little unnatural.

Jiang Luoshen whom Jiang Chen mentioned was naturally the Princess of the Supreme God Clan.

When he took Jiang Chen to meet her that day, he swore that he would be able to find the tomb belonging to the Ancestor of the Supreme God Clan.

Jiang Luoshen also trusted Monk Pu Du very much. Thus, she agreed to his request, and promised to give them generous remuneration for their hard work.

Then they immediately departed.

With the help of the Immortal Boat Spirit, Jiang Chen quickly found a way out and broke through many restrictions and formations, which made the many powerhouses of the Supreme God Clan look at him in a more capable manner.

However, just when they thought they would find a place to rest, an accident happened.

The terrifying seal broke out instantly as if the sky was collapsing and the earth was destroyed. Many powerhouses of the Supreme God Clan were too late to escape, and their bodies and spirits were both destroyed on the spot.

Even Jiang Luoshen, the Princess of the Supreme God Clan, was severely injured and furious.

Jiang Chen was saved by the Monk Pu Du, who took him away from the tomb. Only then did he realize that everyone was looking at the wrong place.

In the tomb of the Supreme God, the true tombs were mixed with fake tombs, and it was difficult to distinguish the real from the fake ones.

And it was just that they were unlucky to have stumbled upon a fake tomb that looked like the real one.

It was in that fake tomb, they suffered from the crises with amazing lethality.

Originally, the Princess of the Supreme God Clan planned to kill them to calm her anger.

But under the plea of Monk Pu Du, her anger subsided a little, and she agreed to give them another chance.

If this opportunity was screwed up again, it would be very difficult to save the lives of Jiang Chen and Monk Pu Du.

There was no doubt that the power of the Supreme God Clan was enough to make many cultivators fear.

"Donor Jiang, whether we can survive this time depends on you."

"You must not disappoint the poor monk."

Monk Pu Du also had a headache at the moment, and with his ability, he did not dare to fool and offend the Supreme God Clan.

Knowing how troublesome this matter was, he volunteered to agree.

Jiang Chen nodded and communicated with the Immortal Boat of Good Fortune in his mind. And while he was talking with Monk Pu Du, a golden cloud rolled over in the sky.

Many creatures appeared, including giants who were several feet tall with scales on their arms.

There were also bright and radiant creatures that emitted a strong aura. Along with a giant snake, there were beings with feet under their abdomens.

Such a group of terrifying creatures had arrived with golden clouds.

And above the golden clouds, there were dozens of humanoid creatures with golden bodies and hair.

There were old and young, male and female.

Their appearance was similar to that of a human race, with beautiful features and monstrous strength, but they had a pair of golden wings on their backs.

Four beautiful female creatures, holding divine weapons, looked indifferent, standing like golden armored guards.

Behind them was a curtain of clouds.

A beautiful figure sat there, her face was not visible but it revealed her innate dignity.

It could be seen from this vague outline that this woman might be gorgeous. She was Princess Jiang Luoshen from the Supreme God Clan.

"Greetings, Princess Luoshen."

Jiang Chen and Monk Pu Du changed their expressions, and the two hurriedly greeted each other.

"Did you find something?"

From the curtain, Jiang Luoshen's voice sounded very flat, revealing her innate superiority, looking at the eyes of the two, with a look of indifference.

"Not yet, but I feel that as long as we enter the depths of the tomb, there should be other clues."

Monk Pu Du replied with a smile.

On the other hand, Jiang Chen was standing there honestly, his eyebrows lowered to his eyes, and he didn't dare to look up.

When he followed Monk Pu Du to visit Jiang Luoshen in the mansion, he was hurt by a cold snort from the maid next to her because he looked up one more time.

So even though he felt angry and cold in his heart, he could only endure it.

In front of such a strong powerhouse, he was just a tool to find a way.

"I hope you don't let me down this time, or you won't have such good luck this time."

Jiang Luoshen said lightly, and her eyes looked very indifferent.

Monk Pu Du couldn't help but smile bitterly.

Afterward, the Supreme God Clan, Jiang Chen, and Monk Pu Du set off again and continued to go deep.

Whoosh whoosh!!!

In the sky, divine lights were rushing here one after another.

More and more cultivators and Taoists were arriving at the tomb.

Many people saw the beings from the Supreme God Clan, and although their expressions changed slightly, they soon became unconcerned and continued to venture deeper.

Many Immortal Dao lineages and Ancient Immortal families had also stepped in.

Such as Heavenly Emperor Mountain, Buddha Mountain, Human Ancestor Hall, Ancient Immortal Gu Family, Ancient Immortal Wang Family, Heavenly Dao Immortal Palace, Ancient Ye Clan... The rest of the slightly weaker forces naturally wanted a share of the piece of pie.

Although there was no meat, there was absolutely no problem with them drinking some soup.

Seeing this scene, the expressions of everyone from the Supreme God Clan were very ugly.

Above the golden clouds, a sixteen or seventeen-year-old boy with a pair of golden wings and fluttering blond hair looked very rebellious.

His facial expression was very ugly at the moment, he couldn't help snorting coldly, "This tomb originally belonged to my Supreme God Clan, but now all the Taoists and cultivators want to get involved, they really don't take us seriously."

"Sister Huang, I think we need to teach them some lessons."

The young man's name was Jiang Ming, he was the younger brother of Jiang Luoshen, of course, not her own younger brother.

Jiang Ming was from the Royal family of the Supreme God Clan, the son of an uncle, and usually had a good relationship with Jiang Luoshen.

When Jiang Luoshen heard the words, her eyebrows also wrinkled, and her face became colder and colder, "Since they dare to touch the place where our Ancestor is, they will regret it later."

"Princess, the power of Dao forces who intervened this time should not be underestimated. We still need to be cautious."

Next to Jiang Luoshen, an old blonde old woman with an unfathomable cultivation base spoke with a persuasive tone.

Jiang Luoshen nodded, her eyes still cold, "I know, but there are some lessons that must be learned, and they shouldn't blame us for that."

At this moment, in the depths of the tomb, a brilliance suddenly ascended to the sky.

The multicolored divine light lingered, accompanied by the sound of Taoism resounding in all directions, shocking everyone.

Everyone saw the divine light rushing into the sky and cracking the sky.

The dazzling and radiant glow gushed out, the earth cracked open, and endless brilliance emerged.

Faintly, everyone saw a crystal clear palace, flickering with brilliance, floating up and down there, like a colorful immortal jade forged, with immortal sounds reverberating.

Suddenly, it caused a huge sensation here.

All the cultivators and creatures went crazy as they rushed there one after another.

In addition, one could also see the cracks, spewing out all kinds of divine weapons.

Swords, spears, halberds, axes, yakuza, hooks, bells and cauldrons, and pagoda seals... The amount of weapons was dizzying.

"This aura, it can't be wrong, it must be the place where the Ancestor resided."

The expressions of the people of the Supreme God Clan changed, and when they noticed the fluctuations and aura there, they didn't have time to react and hurried to the place.

Jiang Chen frowned as he communicated with the Immortal Boat Spirit in his mind, feeling that the fluctuation was very wrong and a little dangerous.

However, before he could say anything, he was grabbed by the Monk Pu Du around him and they turned into a divine light before running away, for fear of falling behind half a step.

"This must be the tomb of the Ancestor of the Supreme God Clan, I can't go wrong this time."

"We are going in!"

Monk Pu Du's eyes were now braving with a wolf-like green light. Jiang Chen was speechless, but he didn't say much.

At this moment, a lot of powerhouses and creatures had arrived near the cracked earth.

In the sky, the ancient chariot descended and the divine mountain was suspended.

Many high-ranking figures with the sect leader and patriarch level appeared, their eyes were burning, and they were all staring at them.

Behind them were many young geniuses.

Boom!!!

In the cracks, the ancient crystal palace could be seen floating up and down, revealing a majestic aura that made people palpitate. The colorful divine light was lingering, which felt very extraordinary.

Each piece of divine weapon, entwined with various divine inscriptions, rushed out from it, falling from the sky like rain.

Many cultivators were madly fighting around, feeling that these weapons were extraordinary.

There were even Quasi-Sacred artifacts emitting their Quasi-Sacred pressure, which directly shook many cultivators who were fighting for it into a bloody fog, destroying both their body and spirit.

Even so, many cultivators didn't care at all, as if they had gone crazy.

"This is definitely the tomb of the Ancestor of the Supreme God Clan. He was buried here after being incarnated in the past, and now we are touched by the general trend of this place, making it suddenly crack open..."

A sect leader-level figure with a ray of divine light in his eyes was seriously inquiring about the situation of the palace, and then took a breath of cold air before saying excitedly.

His cultivation base had already reached the peak of the Great Sacred Realm, and even compared with the Quasi-Supreme Realm, he was only one step away.

Now that he said this, many people were shocked. Although they guessed it, it was another thing to confirm it.

Many people were even more excited.

After all, this was the tomb of the Ancestor of the Supreme God Clan!

That was a person who was beyond the level of Supreme, and even a True Enlightened being.

It was hard to imagine how many good things were buried in such a mausoleum.

The weapons scattered on all sides in front of them were the best proof.

An old man with a hunched waist appeared in the mountains.

He held a compass in his hand and looked at the palace carefully as he said with some fear, "Although the existence is buried, this place is extremely dangerous. There are many formations hidden in the palace. Once touched, even a powerhouse in the Sacred Realm won't be able to escape."

Chapter 379-2: The Supreme Opportunity in the Tomb of the Supreme God (2)

As soon as these words came out, there was a huge uproar.

The expressions of many young geniuses changed slightly, and they took a few steps back, very afraid.

The chance here no longer belonged to them.

These hierarchy-level figures could destroy the sky and the earth at every turn, and the aftermath alone was enough to kill them countless times.

This time, the Ancient Immortal Gu Family also sent a lot of powerhouses, and their cultivation base was very strong.

The younger generation of the Gu family also had young geniuses rushing to them, shrouded in all kinds of treasures, their aura was amazing, and their eyes looked confident and calm.

Many powerhouses of the forces noticed them, and their expressions were a bit unnatural and fearful.

Everyone looked different, when they were staring at the cracks in the ground.

Above, the sky boomed with a loud voice.

The golden clouds rolled, and everyone from the Supreme God Clan arrived here.

"This place is the resting place of my Ancestor of the Supreme God Clan. I hope you don't disturb us, otherwise don't blame me."

Several of them swept around coldly and warned.

At the same time, an unparalleled power erupted, and the monstrous golden aura shattered the sky before shattering in all directions.

Many cultivators with slightly weaker cultivation bases could not bear this aura, their faces turned pale for a while, their qi and blood surged, and they almost fell to the ground.

Jiang Luoshen, Jiang Ming and others looked around indifferently, with a gesture of facing everyone.

However, the powerhouses of the Dao forces, such as Emperor Mountain, Buddha Mountain, Human Ancestor Hall, Ancient Immortal Wang Family, Heavenly Dao Immortal Palace, Ancient Ye Clan, Primordial Lake, etc., never cared.

Their eyes were still fixed on the ancient palace in the front, waiting for any change at any time, so that they could break into it.

The expressions of Jiang Luoshen and others were very ugly, and they were abnormally cold.

"What a terrifying posture..."

Jiang Chen, who arrived later, was also stunned by the scene in front of him.

When had he seen so many powerhouses? Everyone could easily crush him into pieces.

But here, he also saw Xiao Ruoyin again. She was being protected by the powerhouse of the Heavenly Dao Immortal Palace and did not notice him.

"This is left by the Ancestor of my Supreme God Clan. Are you planning to fight for it?"

At this moment, a powerhouse from the Supreme God Clan stood up and asked indifferently.

The terrifying pressure of the Great Sacred Land swept in all directions, suppressing many young geniuses causing their faces to turn pale and unable to breathe.

At the same time, something appeared in his hand. It was a golden token with ancient divine inscriptions on it, which was very bright.

A vast and majestic aura emerged on this token.

Many formations around the mausoleum began to gather and interweave, like a star map.

"This is what was left by the Ancestor of the Supreme God Clan, and it can mobilize the heaven and earth formations here..."

A Great Sect leader's face changed, and he recognized this thing, and he was a little afraid.

"Since ancient times, the treasures have been inhabited by virtuous people. Although this place is said to be the place where your Ancestor of the Supreme God Clan lived and transformed, but innumerable years have passed, why have you been waiting until now? It was only until recently, when this place was born, why was there no movement?"

"In the eyes of this old man, these are things that have no owner, and everyone gets it according to their abilities. If it wasn't like this, why did the Supreme God in the past choose to live here?"

An old man said with a smile, he originated from Emperor Mountain, his seniority was very ancient, and his cultivation was even more unfathomable.

His words were immediately recognized by many people, after all, this place was not in the region of the Supreme God Clan.

Opportunities come with time.

If the Supreme God Clan wanted to take it alone, they had to ask many cultivators if they were willing.

"How arrogant, this place is left by our Ancestors. You forced in and disturbed my Ancestor's spirit in the sky. Now you still want to snatch the relics left by him, what a robber's attitude."

When Jiang Luoshen heard this, he also spoke at this moment.

Her voice was very pleasant, like smashing a jade plate, but it was very cold.

The geniuses of True Immortal Academy, led by the Six Crown Prince Jun Yao, were also on the hill not far away at the moment.

Hearing this, someone immediately sneered, "I wonder who this is? Is this the illusory God Clan that is still planning to use its own strength to compete against all Dao forces?"

Yue Mingkong, Heavenly Phoenix Maiden, Jin Chan Buddha, Jiang Chuchu and others were all here, but they didn't move forward.

"The tomb within the tomb, the real tomb is not this one, but the depths of the earth, where there is that Godhead that existence..."

Yue Mingkong's eyes flashed with contemplation, but she didn't make a statement, intending to find the right time to enter the tomb.

After all, they were only the younger generation. This time, the birth of the Supreme God Tomb had even shocked the older generation and the leaders of the Great Sect.

Even with their identities, it was difficult to interject at this moment, and they could only watch from a distance.

Boom!!

However, at this moment, there was a terrifying shock.

From the crack in front, suddenly there was a brilliance that soared into the sky.

The crystal clear palace seemed to be touched.

The chaotic haze shrouded on it dissipated, and many patterns were also disappearing, and began to slowly fall toward the ground.

Suddenly, the expressions of all the big figures in front changed, and the aura in the ancient palace felt much weaker and safer than before.

At that moment, many people did not hesitate to turn into divine lights and rushed into it. They were too lazy to discuss anything with the people of the Supreme God Clan.

Seeing this, Jiang Luoshen's expression changed, and just as he was about to rush into it, Jiang Chen below felt that something was wrong, and hurriedly shouted, "Princess Luoshen, wait a minute."

Hearing this, Jiang Luoshen frowned and was dissatisfied.

However, remembering the mysterious means that Jiang Chen had shown before, he snorted coldly and stopped abruptly.

"If the Ancestor's relic is taken away, I will not spare you." She gave Jiang Chen a cold look.

Jiang Chen smiled bitterly, "Princess Luoshen, I just suddenly felt that something is wrong. If you rushed in, you might get hurt."

Jiang Luoshen glanced at him lightly and didn't say anything more.

It was just that she believed Jiang Chen's words a little bit.

At this moment, although there were many powerhouses who had broken into the ancient palace, there were still many people who chose to wait and stay outside for a while.

Ancient Immortal Gu Family, Ancient Immortal Wang Family, Ancient Ye Clan, Emperor Mountain and other Dao lineages were not impulsive, and their eyes flashed with strange colors, staring at the ancient palace.

Boom!!!

Suddenly, from the crack ahead, there was a more violent momentum, as if there was some kind of terrifying river flowing within it.

Immediately afterwards, to the shocked eyes of everyone, a ray of sunshine burst out from the cracks.

The colorful and six-color rays of light shone in the sky, and many divine soldiers, sacred medicines, jade pots... burst out like a volcanic eruption, rushing out from it.

For a while, everyone was stunned.

In the next moment, the crowd began to rush frantically.

Even many of the older generation who kept calm just now had red eyes now, and could feel the preciousness of the things contained in these brilliance.

How could such an opportunity be easily missed?

Not to mention the younger generation, even the geniuses of the True Immortal Academy had begun to turn into divine lights, constantly snatching these good things.

"Little Chen, do you see it? That lavender tablet is definitely a good thing. Go grab it while no one is noticing it now."

In Jiang Chen's mind, the Immortal Boat Spirit was also constantly urging, very excited and anxious.

Hearing this, Jiang Chen's eyes narrowed, and he immediately saw the lavender tablet that the spirit was talking about.

Sure enough, because of mediocre reasons, no one was fighting for it at the moment, and it was flying out of the crack and was about to fall somewhere.

As soon as his figure moved, he hurriedly chased in that direction. Fortunately, there was too much brilliance in the sky.

No one was watching him carefully.

"This guy, did he see something good..."

The rebellious young man of the Supreme God Race was also among those who were vying for these treasures, but he noticed Jiang Chen, and his eyes were a little malicious.

"Jiang Ming, what do you want to do to him?" Jiang Luoshen noticed his gaze and asked lightly.

Jiang Ming smiled shyly, "Sister Huang, that guy must have seen something good."

Jiang Luoshen frowned and didn't say much.

"What the hell is this lavender inscription..."

Jiang Chen asked the Immortal Boat Spirit in his heart, but his movements did not stop at all, and he quickly chased after it.

"I don't know, the good things should be hidden in that inscription, and the ones outside are all fake." The Good Fortune Immortal Boat Spirit said.

Hearing this, Jiang Chen's eyes became even hotter, his eyes were fixed on the inscription, watching it fall from the sky and smash in a certain direction.

His figure quickly fell from the sky, but his excited expression soon froze on his face, and his movements were stagnant.

A pair of small hands as white as jade bent down and picked up the lavender inscription.

This was a beautiful and suffocating girl, wearing a wide-sleeved fairy dress and hair like clouds.

The facial features were clean and delicate, no flaws could be picked out, and the skin was as white and delicate as the most flawless suet jade.

With a cold expression, the whole person was full of immortal energy, as if she could take advantage of the wind to transform herself into immortals and go to the legendary Immortal Palace.

"What do you want to do?"

The girl glanced at him lightly. Although her voice was cold and pleasant, it contained a coldness.

The big red bird on her shoulder also gave him a cold look.

Chapter 380-1: The powerful and overwhelming Gu Xianer, Kill him (1)

Jiang Chen didn't know why, but in front of this amazingly beautiful girl he always felt a terrifying feeling of oppression.

Although the other party's expression was indifferent, Jiang Chen keenly sensed a murderous aura!

It was just that right now, he could only bite the bullet, "This... this lavender inscription..."

As he said that, he pointed to the broken inscription in Gu Xian'er's hand, which was self-evident.

"Is this yours?"

Gu Xian'er asked lightly, her voice was very cold. She lowered her eyes and carefully looked at the inscription in her hand.

Although the piece of paper was very incomplete and ancient, it seemed to contain a strange energy that was filled with strange fluctuations.

And it was also engraved with some broken ancient divine inscriptions which seemed mysterious.

She didn't expect that the inscription beneath her feet was actually a bit extraordinary.

Hearing this, Jiang Chen was dumbfounded for a moment and shook his head.

There were many opportunities here, all of which are unknown.

Although he had noticed it first, and chased it all the way here.

But now the very same object was in the hands of the girl in front of her.

There wasn't even a need to ask.

And he could sense that the girl in front of her was unfathomable, far beyond what he could match.

If he accidentally provoked her, it might even lead to his death.

"I saw a ray of light rushing over there just now. I thought it would be something good, so I chased after it. I didn't expect it was just a broken inscription."

So after thinking about it, Jiang Chen replied with a dry smile, and his tone was a bit regretful.

He hoped that the girl in front of him had just picked it up out of curiosity and didn't know the actual value.

In this way, if the girl discarded it casually, he would be able to pick it up logically.

"Really? I looked at this inscription, and it didn't look simple."

Hearing this, Gu Xian'er glanced at Jiang Chen lightly, as if she could see through what he was thinking at a glance.

"Da Hong, how is this thing?"

She waved the inscription in front of the big red bird on her shoulder and asked.

The big red bird hurriedly nodded, with a humanized surprise in his eyes.

Turning to look at Jiang Chen's eyes, it was even more unkind.

It already felt that the weak man in front of him seemingly wanted to grab the good things in their hands.

Seeing this, Gu Xian'er snorted and a trace of mockery appeared on her beautiful little face, "You still want to lie to me, do you really think I don't know anything?"

Hearing this, Jiang Chen also snorted in his heart, secretly thinking that it was not good.

He seemed to have underestimated the ability of the girl in front of him.

Jiang Chen's thoughts turned, and he was about to find an excuse to explain.

"Jiang Chen, run, this little girl has murderous intentions towards you, maybe she wants to rob you..."

Suddenly, the voice of the Immortal Boat Spirit sounded within his mind with a burst of anxiety.

"What...!"

Hearing this, Jiang Chen's expression changed. He didn't have time to react. He subconsciously exerted his utmost strength, and ran away.

At the same time, from his sleeve, he sacrificed a tattered divine weapon and turned it into a divine light, trying to stop Gu Xian'er.

"You want to rob me, but now you dare to do something to me, you are really bold."

Gu Xian'er was thinking about whether to attack or not, but she couldn't help being stunned when she saw a divine light suddenly attacking her.

She didn't expect that the man with very weak cultivation in front of her would dare to attack her.

Immediately, the expression on her little face suddenly turned into a look of anger and murderousness that was despised.

Buzz!!!

The void trembled!

From her sleeve, she brought forth a crystal clear jade sword.

The laws on it intertwined, and the edge was amazing as it smashed through the void, directly attacking Jiang Chen who was running forward.

Even if Jiang Chen had the first move, he was far from Gu Xian'er's opponent.

Almost instantly, the jade sword behind him descended and crossed the void, looking extremely powerful.

The terrifying cold aura swept through his whole body, attacking him within the void.

In an instant, Jiang Chen's complexion changed drastically. Even his soul seemed to have been enveloped in the fear of death.

"Why is she so strong..."

His face could not help but show despair.

But at this crucial moment.

Boom!

A golden spear swept down from the sky. It was as high as ten thousand feet, and imbued with great power as it blocked the sword for him.

"It's really a waste. The good things you get can still be snatched away."

The blond person from the Supreme God Clan descended from the sky.

His eyes were golden, and even the strands of his hair seemed to be shining brightly with a reckless expression as he coldly glanced at Jiang Chen.

Only then did he look at Gu Xian'er who had attacked him from behind.

Jiang Chen walked before the gate of hell, covered in a cold sweat. His whole body slumped to the ground as he panted heavily.

He didn't expect this girl with an immortal spirit to be so ruthless, and she planned to directly take his life.

If Jiang Ming had arrived half a step later, he would have died tragically on the spot.

He didn't care about Jiang Ming's mocking words.

On the contrary, he was a little scared and cold to his bones as he looked at Gu Xian'er with a cold expression. He felt the awe-inspiring murderous aura, and the calmness in her heart.

He naturally knew the power of the Supreme God Clan.

If the mysterious girl in front of her was sensible, she would not dare to continue to attack him.

"You stole this guy's treasure?"

Jiang Ming looked at Gu Xian'er carefully, and there was a look of surprise in his eyes.

Even if the Supreme God Clan was full of handsome men and beautiful women, it was the first time he had seen a girl who was so beautiful and refined. Her appearance was enough to harm the country and the people at a young age.

However, his words still seemed very unrestrained and indifferent.

Gu Xian'er emerged from behind, her dress fluttering and her blue silky hair like a waterfall.

With a frosty face, she just glanced at him without saying much.

The blond person's strength was indeed very strong. In her opinion, he had already broken through to the Quasi-Sacred Realm, and he was only one step away from the Sacred Realm.

But she still didn't care. If he dared to stop her, she didn't mind taking action and killing him here.

Seeing Gu Xian'er ignoring her, Jiang Ming's expression couldn't help but turn a little ugly.

After all, he was the proud genius of the Supreme God Clan, and his sister was Jiang Luoshen. Her strength was superb, and her identity was terrifying.

When was he despised this much?

"If you are sensible, hand over your things, and I can spare your life, otherwise no one will be able to save you today."

At this moment, Jiang Ming said coldly.

Gorgeous golden runes flickered on the golden spear in his hand, terrifying and astonishing.

In his opinion, Gu Xian'er was just alone.

Even in such a dangerous tomb, there were no companions.

Obviously, her background could not be too high.

"You are so arrogant, you have forsaken the concept of life and death."

Hearing this, Gu Xian'er frowned, feeling that the blond person was very arrogant.

The way he looked at her made her very uncomfortable.

But since he wanted to die so badly, she didn't mind fulfilling his wish.

Thus, she directly attacked with a terrifying aura on her body.

Her fist, which was as white as jade, was seemingly small and beautiful, but it was cast like an immortal jade.

Gorgeous rays of light erupted and terrifying fluctuations swept in all directions.

The mountain range collapsed and the ancient trees turned into ashes, which instantly alerted many cultivators who were fighting for treasures.

"How dare you attack me! You are courting death."

Jiang Ming did not expect Gu Xian'er to directly attack him without saying a word, which was very straightforward.

He was instantly furious, and a terrifying feeling of suffocation appeared on his face.

Chapter 380-2: The powerful and overwhelming Gu Xianer, Kill him (2)

Boom!!!

As he attacked, the golden divine light intertwined in his body turned into a terrifying golden dharma, standing in the sky.

Immediately after that, a spear swept across with a momentum of ten thousand pounds, golden light surging above as it directly attacked Gu Xian'er.

Boom!

Gu Xian'er's expression remained unchanged and her face was still as cold as frost, she directly waved her jade fist to fight with his attack.

Although she looked very thin and slender, her strength was indeed terrifying.

Her aura was shocking, and even the sky was covered in a long dragon of spiritual energy spewing out, running through the sky.

In the distance, many cultivators' expressions changed. They felt the aura of battle emerging from here, and there was a feeling of shivering in their souls.

Even some Great Sect masters looked down and frowned.

Boom!!

There was a huge momentum as if the earth was split open, the universe was fighting, endless laws were intertwined as they finally came together.

In the next moment, a figure flew out upside down, with disheveled hair and a trace of blood on the corner of his mouth.

"This is all you can do? I'm really disappointed."

Gu Xian'er approached and spoke lightly, her dress fluttering.

The whole person was as beautiful as a fairy from the Nine Heavens, refined and aloof.

However, the means and strength displayed shocked many cultivators nearby.

"Impossible..."

Jiang Ming's complexion changed drastically, and his figure kept retreating backwards, only to fall into the disadvantage with one blow.

At this moment, he felt the tingling sensation in his arm, which was unbelievable for him.

With her flesh and blood, the opponent collided with his weapon, but his weapon was the one that emitted a cracking sound, as if it was about to burst.

What kind of terrifying physical power was this?

As soon as he thought about it, he felt inconceivable and unwilling in his heart.

Obviously the age of the other party didn't seem to be older than him.

"I don't believe that I'm not her opponent."

He couldn't help but grit his teeth and planned to attack again.

Among the peers of the Supreme God Clan, he was also a leader who couldn't find an opponent.

Why was a girl whom he casually encountered in this tomb so powerful?

A terrifying golden divine flame emerged from Jiang Ming's body. At this moment, he was like a golden god descending into the world, with a terrifying divine might that could burn thousands of miles around.

Even the void became blurred, as if to melt in this heat.

This was a talent belonging to the Supreme God Clan.

Supreme Divine Flame.

Even among the many divine fires in the Upper Realm, it ranked at the forefront, with unparalleled power.

"Now, let me see how you can fight against this."

Jiang Ming displayed his powerful means, holding a long spear, and rushed forward.

The void exploded, like a star bursting, and the light was dazzling, attacking Gu Xian'er again.

At the same time, the golden light in his eyes shone in all directions, and the Supreme Divine Fire turned into a golden dragon, descending from the sky, burning everything, making all the cultivators nearby tremble and palpitate.

"The strength of these two people is very strong, and the aftermath alone can kill me countless times."

Jiang Chen was horrified, and kept running away, for fear of being involved in this battle.

However, in the face of Jiang Ming's extremely powerful means, Gu Xian'er's expression remained unchanged.

When she raised her hand, thousands of swords appeared, like the flower of the world blooming.

Swish!

Each petal was as crystal clear as jade, with a terrifying murderous intent as it intertwined in the void space. Each of these petals could easily split the void.

This was an extremely powerful divine technique, and in its beauty, it also contained amazing murderous intent.

Boom!!!

For a time, there were monstrous fluctuations as the mountains collapsed, and the ancient trees cracked.

All the cultivators and creatures who were robbing treasures were horrified and fled in all directions, avoiding the center of the battle.

Many young geniuses also watched this scene in shock.

However, the location where the battle was fought, the light was so dazzling that many people couldn't see what was happening there even if they looked carefully.

On the contrary, many Great Sect leaders looked at it with great interest, and obviously noticed that the golden divine flame was the Supreme Divine Flame of the Supreme God Clan.

That means that among the two who fought, one of them was bound to be the genius of the Supreme God Clan.

The young talents of the True Immortal Academy also looked at them with different eyes.

"The genius of the Supreme God Clan is amazing, but he doesn't know who his opponent is..."

A Quasi-Sequence disciple opened his mouth, his eyes like a torch, staring in that direction.

"This aura, is that Xian'er?"

Yue Mingkong slightly raised her eyebrows, sensing the subtle fluctuations from the virtual space.

Looking from a distance, she was not worried about Gu Xian'er.

"What is Jiang Ming doing? I let him protect Jiang Chen, so why is he still fighting with people?"

Jiang Luoshen was staring at the changes in the ancient palace.

At this moment, noticing the fluctuation of the fight from a distance, her eyebrows could not help wrinkling, and a trace of chill passed through the indifferent face.

However, most of her attention was still on the ancient palace and the crack that was spewing rays of light.

She was very relieved about Jiang Ming's strength, so she was not worried that he would be injured.

However, at this moment, there was a shrill scream.

The expressions of many geniuses and cultivators who were closely watching the battle over there changed.

The dazzling golden light dissipated, and Jiang Ming was clutching his arm, his face full of resentment and disbelief.

His divine powers were broken, and even his weapon was easily shattered by this girl, turning into pieces in the sky.

For him, this was completely unbelievable.

"Impossible, your cultivation is similar to mine, how could it be possible..."

His voice trembled and his face was bloodless.

Everyone looked at this scene in shock.

At this moment, Jiang Ming was seriously injured, and half of his body had almost exploded, dripping with blood.

The girl opposite him still had a frosty face, with a little blood stained on her snow-like skin, but it was obviously not hers.

"Nothing is impossible, you don't know the difference between life and death."

Gu Xian'er's voice did not waver, and her dress fluttered. She rushed forward again, slapped her palm down, Jiang Ming coughed blood, and his body exploded again, attacking him in the sky!

"What is the origin of this mysterious girl? Even Jiang Ming is not her opponent."

Jiang Chen's eyes widened in shock, and his back was full of cold air.

If it wasn't for Jiang Ming's sudden appearance to save his life, he would have been killed by this mysterious girl long ago.

"Is it her...?"

Monk Pu Du's voice was filled with shock.

He, who was elusive, appeared next to Jiang Chen again, and also saw this terrifying battle.

"Who is it?" Jiang Chen looked at him in confusion.

However, Monk Pu Du frowned tightly and did not answer his question, but glanced at Jiang Luoshen with a cold face.

"We're probably in serious trouble." He sighed.

"The opponent of the genius of the Supreme God Clan turned out to be her."

"I'm afraid this matter will not be simple..."

At this time, many geniuses of the True Immortal Academy also recognized Gu Xian'er, and their expressions were very shocking.

"How dare you attack me!"

"I'm from the Supreme God Clan!"

At this moment, Jiang Ming, who was vomiting blood frantically, couldn't believe it when he saw Gu Xian'er attack again.

Chapter 380-3: The powerful and overwhelming Gu Xianer, Kill him (3)

There was horror and despair on his face.

In the public, under the witness of everyone, would she dare to kill himself?

Didn't she not know who he was?

"So what?"

However, Gu Xian'er's expression still did not fluctuate in any way, her means were strong and fierce, and she wanted to kill him here.

"Stop!"

Seeing this, Jiang Luoshen, who was on top of the golden clouds, also looked a little ugly. She didn't expect that Gu Xian'er would not hold back after knowing Jiang Ming's identity, and would not give them any face at all.

She sounded with a chilling voice, "He is a member of the Supreme God Clan. How dare you attack him?"

Boom!!

As the words fell, a golden figure rushed out behind her, and the aura was extremely powerful.

The pressure of the peak of the Great Sacred Realm enveloped tens of thousands of miles, and the chaotic fog emerged with a palm in the air, trying to save Jiang Ming.

"The pinnacle of the Great Sacred Realm, a figure at the level of a leader..."

All the cultivators and creatures couldn't help but change their expressions, and they felt like they were trembling, and they almost couldn't help kneeling down and bowing in that direction.

Even many big figures had a condensed expression, a little fearful.

The powerhouses of the Supreme God Clan were more powerful in the same realm and rarely had enemies.

"Hmph! Do you dare to protect the person my Gu family wants to kill?"

However, in the next moment, in the shocked eyes of everyone.

Among the Ancient Immortal Gu Family, a stern-faced old man snorted coldly and took a step forward.

As the sleeves turned, the whole world seemed to be shrouded, and there were thousands of them, all of which were filled with Immortal energy.

The monstrous Great Sacred Realm's peak pressure erupted, and he competed with the powerhouse of the Supreme God Clan.

"Ancient Immortal Gu Family..."

Jiang Luo's expression changed slightly. He didn't expect this mysterious girl to be a member of the Ancient Immortal Gu Family. No wonder she didn't take them seriously.

His expression was a little gloomy.

There were not many Dao forces in the Upper Realm that could make the Supreme God Clan jealous, but the Ancient Immortal Gu Family was definitely one of them!

"Ancient Immortal Gu Family..."

"Is this girl a member of Ancient Immortal Gu Family?"

Jiang Chen also looked at all this in shock as he asked the monk Pu Du next to him in disbelief.

Monk Pu Du nodded and said in a heavy voice, "You may not know the identity of this girl, but you must know her cousin."

Jiang Chen's heart thumped, and a terrifying chill suddenly appeared.

"Could it be Gu... Gu Changge?"

He asked in a trembling voice, mentioning this name that he feared and hated immensely.

Monk Pu Du's voice was not too loud, but Jiang Luoshen could hear it clearly at this moment.

He said solemnly, "This woman's name is Gu Xian'er. She is Gu Changge's cousin, he is very fond of her, and she is the little princess of the Ancient Immortal Gu Family."

He did not expect that Jiang Ming would fight against Gu Xian'er, and was almost killed by him on the spot.

Offending Gu Xian'er was not terrible.

What was scary was that there was Gu Changge behind her!

Now, as long as the Dao forces in the Upper Realm had a little background, they all would know the existence of Gu Xian'er and understand the relationship between her and Gu Changge.

Only a group like the Supreme God Clan that rarely showed up in the outside world knew very little.

Hearing this, Jiang Luoshen couldn't help feeling a little headache.

Jiang Chen's face was also very cold, no wonder this girl was so cruel, it turned out to be Gu Changge's cousin.

At this moment, many geniuses and big figures were watching this scene with great interest.

High in the sky, the Great Sacred Realm powerhouse of the Supreme God Clan and the Great Sacred Realm powerhouse of the Ancient Immortal Gu Family competed against each other, and the extremely powerful aura swept through all parties.

Whether it was the Ancient Immortal Gu Family or the Supreme God Clan, they were all powers with profound and long-standing heritage in the Upper Realm.

Especially the mysterious and powerful Ancient Immortal Gu Family needed no explanation.

Now that the two forces were in conflict, no matter what happened for a while, it would attract many factions.

Jiang Luoshen obviously also took this into consideration, and there was a slight embarrassment on her indifferent face, and it was difficult to ride a tiger.

"Your Majesty, save me."

Jiang Ming was also in a state of shock now. He never imagined that this girl, who seemed to have no background, would actually be the little princess of the Ancient Immortal Gu Family.

Then why did she act alone before, not with the people of the Ancient Immortal Gu Family?

This made him want to yell in his heart.

Of course, he still had to figure out how to survive. He didn't want to die here like this.

"Let go of Jiang Ming, we can still talk about this matter."

Jiang Luoshen frowned, if Jiang Ming died here, it would be difficult for her to explain to her uncle after returning.

At this moment, her tone softened, no longer as tough as before.

Gu Xian'er looked at Jiang Ming coldly. She liked to be alone, and she didn't intend to let the family behind her get involved in this kind of thing.

But now, if Jiang Ming was killed, it would relieve her anger for a while.

But it was more likely that the Ancient Immortal Gu Family and the Supreme God Clan would get in conflict, allowing the rest of the Dao Lineage to take advantage of the fisherman and applaud.

So after thinking about it, although she was a little unwilling, she finally decided to let Jiang Ming go.

"What the hell happened just now?"

Jiang Luoshen glanced at Jiang Chen coldly, in her opinion, this matter was caused by Jiang Chen.

"So it's like this..."

At this time, Jiang Chen couldn't hide it, so he bit the bullet and narrated the whole story.

The reason why Jiang Ming made his move was actually because of the lavender inscription, which had little to do with him.

If the inscription hadn't been obtained by Gu Xian'er and fell into his hands, it would have been snatched by Jiang Ming in the end.

About this, Jiang Chen was still very clear.

After listening to this, Jiang Luoshen's brows could not help wrinkling, and she knew that he was wrong.

The reason why this conflict happened was entirely because of Jiang Ming.

She was not ignorant either.

At the moment, she planned to speak and was willing to give Gu Xian'er some compensation to express her apology.

Of course, the premise was that Gu Xian'er released Jiang Ming.

"We made a mistake in this matter first. As an apology, we will give you some compensation, but you have to let Jiang Ming go."

Jiang Luoshen opened her mouth and put the curtain down. Her voice had softened a lot.

It was the first time she spoke in such a tone of voice.

Gu Xian'er frowned, originally planning to let Jiang Ming go.

But when she heard this, she felt uncomfortable. Did she need their compensation?

Moreover, if she agreed, it would appear that she was very weak.

Was it possible that she was still afraid that the Supreme God Clan would fail?

Just when Gu Xian'er was tangled in her heart and it was difficult to decide.

From the high sky in the distance, a faint voice suddenly emerged.

"Kill him."
