

## Villain 431

### Chapter 431-1: What an easy-to-satisfy guy, The identity of Jin Chan Buddha (1)

The Hanging Buddhist Temple was solemn as it emitted faint divine light. There was unspeakable righteousness that could suppress all evil.

One could faintly hear the bells trembling, and the Buddha's sound bursting, containing the truth.

It could even wash the mind of the cultivators, making people become peaceful and quiet, without arguing or irritability.

Many cultivators were sitting cross-legged to comprehend the Buddha Dharma. The Buddha's light flashed on their bodies with a golden glow which was very extraordinary.

They didn't pay much attention to the people who came from outside the mountain gate. After taking a look, they retracted their gazes, as if they only had the Dharma in their hearts.

Gu Changge and Jiang Chuchu walked side by side, their clothes fluttering like a pair of immortals, followed by many powerhouses, including Gu Changge's subordinates and cultivators from the Human Ancestor Hall.

Jin Chan Buddha walked in front and led the way for everyone. His face was calm but he couldn't help but feel something strange in his heart.

This time, in the Chaos of Demon Burying Abyss, he never expected that Gu Changge would come.

He knew that Gu Changge was not the kind of person who would care about the life and death of others. Even if the disaster of the Demon Burying Abyss swept all directions and caused chaos in the world, he probably wouldn't care.

A person like Gu Changge was even more selfish and indifferent than him. He would only act if it really touched his interests.

Therefore, Jin Chan Buddha's heart was a little condensed and he paid more attention to Gu Changge.

As for Jiang Chuchu, he still trusted her.

Although he didn't have much contact with her, when he was in the True Immortal Academy, Jiang Chuchu's integrity made him admire her.

The two of them were together, but if someone said that Gu Changge was just accompanying Jiang Chuchu, he wouldn't really believe it.

Soon, Jin Chan Buddha took everyone through the area in front of him and arrived at the depths of the Hanging Buddhist Temple, where the treasures were transpiring and the Buddha's light surrounded the mountain, which looked extremely holy and peaceful.

There were domes and towers in the front and one could even see many fierce beasts, but they were not fierce. In fact, they were even gentler than people with a kind of Buddhist nature.

Influenced by the Buddhist spirit of this place, even if it was a big ominous thing, it would also restrain its ominous light and become gentle and peaceful.

"It is rumored that there is a mantra within Buddha Mountain, which can save all things, even ferocious beasts and birds of prey."

"There is a black mountain in front of Buddha Mountain Gate, which once suppressed a Monkey Demon known as the Great Sage of Chaos. Later, Buddha recited scriptures day and night for thousands of years and finally made him lose his fierceness and converted him to Buddhism. He was named the Holy Buddha of Chaos. He is the monster in front of Buddha Mountain Gate, I wonder if this is true or not?"

Gu Changge glanced at the beasts entrenched on the tower and asked with some interest.

He actually understood the origin of the scriptures of the Human Beings, but it was the remains of a Demonic bottle.

In later generations, it was deduced and perfected by eminent cultivators in Buddha Mountain and formed a new divine power, which was said to be able to save all things which were hard to save.

In the past, many great cultivators converted to Buddhism for this reason.

There was even a battle to destroy the Buddha in the Upper Realm. It was a pity that the divine powers of Buddha Mountain were very strange.

And there were so many believers of Buddha Mountain scattered in the Upper Realm and even many Lower Realms, no less than the believers of the Human Ancestor Hall.

Some Great Sect leaders even worshipped the Buddha Mountain when they were young and converted to Buddha, but now many Dao traditions in the Upper Realm were inextricably linked with Buddha Mountain.

In Buddha Mountain, there were many handed-down artifacts suppressed and their background was Immortal.

There was once a Buddha who was born with a swinging divine pestle in his hand. He shocked the world in a battle and killed the Royal family in the cloudy sky. His power was not even weaker than the Ancestors of that time.

In short, the mystery of Buddha Mountain was far beyond that of the Human Ancestor Hall and the Emperor's mountain in the Upper Realm.

"Oh, what Brother Gu said was actually about the matter from many years ago? Today, the senior is not guarding the gate of Buddha Mountain, but there are his grandsons, who have been guarding the gate of Buddha Mountain for generations."

"As for the Scripture of Human Beings, it's actually a statement from the outside world. In my Buddha Mountain, it is the Supreme Scripture, and only a few people have access to it."

Jin Chan Buddha, who was walking in the front, smiled slightly when he heard the words and replied.

Gu Changge was not surprised by this. Buddha Mountain's moral appearance was at most half a kilogram compared to him, so there was nothing to say.

He just wanted to know how much the current Salvation Scripture was related to his Demonic bottle, and whether it could be used to change the evolution of the Salvation Scripture through the Demonic bottle so that the souls who had been saved by Buddha Mountain could be controlled by him.

Of course, this idea was just a thought. If it was really to be realized, it was necessary to find cultivators or living beings who had been saved by people.

He didn't have much time right now, so he could only bring it up later.

"At the beginning, the Great Sage of the Chaos was said to be because he did not respect the Buddha Dharma and looked down on Buddha Mountain before he was finally converted. A great cultivator from Buddha Mountain took action and turned it into a black mountain with one palm, suppressing him in front of the mountain. Day and night under the influence of Dharma..."

Jiang Chuchu thought that Gu Changge was interested in this matter, so she could not help telling him the ancient records she knew.

"Holy Maiden Chuchu is actually wrong, it's not that he didn't respect Buddhism, it's that the senior was unruly and disrespectful to etiquette. So my Buddha Mountain taught him a lesson. It was only then that he was grateful and decided to guard in the front of Buddha Mountain Gate."

When Jin Chan Buddha heard this, he couldn't help but turn around and shake his head to correct her.

Jiang Chuchu glanced at him and stopped talking when she heard the words. She knew that on the Buddha Mountain, it would be useless to talk about the rest.

Although she knew that this matter was Buddha Mountain's own opinion, the truth of the matter was actually recorded in many Dao traditions.

Gu Changge was not surprised by Buddha Mountain's shamelessness. Of course, if it were him, he would have done the same.

After all, for a gatekeeper monster with terrifying strength, no matter what lineage it was, it would pay attention to it.

Soon several people arrived to a courtyard. After Jin Chan Buddha brought them here, he ordered the rest of the cultivators to get up and leave.

Gu Changge and others would rest here for the time being and were to set off tomorrow to head to the Demon Burying Abyss to solve the calamity of the Great Demon that was born within it.

Buddha Mountain would also intervene in this matter and send many Buddhas with profound Buddhist teachings.

"Jin Chan Buddha gave me a feeling that my mind was not right and I don't know if it was my illusion."

Seeing that many cultivators had retreated, Jiang Chuchu couldn't help but say to Gu Changge, frowning slightly.

She possessed the Nine Orifices Immortal Soul and her perception of various auras was exceptionally strong.

It was also by virtue of this talent that she guessed Gu Changge's true identity. This time, she felt something was wrong with Jin Chan Buddha.

The other party might have other purposes in going to Demon Burying Abyss.

Gu Changge nodded in agreement and said, "So when you head to Demon Burying Abyss this time, you have to keep an eye on him. Maybe some trouble will come."

He didn't expect Jiang Chuchu to say that, but he thought of a good excuse.

Since there was a suspicion about Jin Chan Buddha, as long as this suspicion was confirmed, it would naturally have nothing to do with him.

"Since ancient times, Demon Burying Abyss has indeed sealed many peerless Demons. I heard that Buddha Jin Chan once visited it. Could it be related to it?"

Jiang Chuchu had no doubts about Gu Changge's words, but she didn't believe Jin Chan Buddha would dare to do so.

Once those peerless fierce Demons in the Demon Burying Abyss, they were bound to disrupt the existence of the Upper Realm and there might even be an existence beyond the Emperor Realm.

As a cultivator, was it possible for Jin Chan Buddha to be daring and monstrous to reach this point? Or maybe he himself didn't care about Buddha Mountain's strict rules.

"Who knows this?"

Gu Changge smiled and added, "You said so, the heart is separated from the belly. In short, be careful."

Jiang Chuchu nodded and hummed, thoughtfully.

"Let's do this for now, but now we have a problem before us. Shall we rest together tonight or separately?"

Then Gu Changge changed the subject and looked at her with a narrow expression.

Jiang Chuchu glanced at him, and there was a haze on her face. This was the Hanging Buddhist Temple, a Buddhist holy place.

What was he thinking?

"Let's... let's take a break, shall we?"

However, she didn't dare to refuse Gu Changge's request, so she could only ask in a negotiating tone, looking at him tentatively.

When she was in the Human Ancestor Hall, Gu Changge didn't ask her anything but she was still a little nervous.

After all, she personally promised Gu Changge.

"Fine."

Gu Changge himself planned to tease her and had no other plans. However, seeing her expression, she still showed some regret and disappointment and shook her head.

Jiang Chuchu was a little tangled and at this time she felt a little guilty for Gu Changge.

In her opinion, since she was Gu Changge's woman, she should obey him naturally. It was normal for her to stay and warm the bed. But she had a natural resistance to these things, and it was difficult for her to accept them for a while.

However, Gu Changge helped her a lot and solved a lot of troubles for her and he didn't get anything in return. Gu Changge didn't really force her.

His character was like this and after thinking about it like this, she felt that she owed Gu Changge a little.

### **Chapter 431-2: What an easy-to-satisfy guy, The identity of Jin Chan Buddha (2)**

"Or... I'll make up for you?"

Jiang Chuchu's eyebrows twisted, tangled, hesitated as she asked tentatively. It was all she could think of as a compromise.

"How will you compensate?" Gu Changge looked at her with interest.

In the next moment, Jiang Chuchu looked a little hazy, took a step forward and suddenly approached him.

She was warm and cool as jade but with a soft and faint refreshing sweet smell.

After doing all this, Jiang Chuchu hurriedly left the place as if fleeing, her skirt fluttering and her face hot.

Today, she felt bolder than ever. Gu Changge touched his lips, which seemed to still have the breath from before.

"What an easy-going woman..."

After Jiang Chuchu disappeared, he shook his head. The gentle expression in his eyes gradually disappeared and finally turned into a deep calm that remained unchanged.

Afterward, Gu Changge also returned to his courtyard. He sacrificed a few jade talismans and broke into the nearby void to prevent anyone from snooping as he sat down with his legs crossed.

A streak of golden brilliance flashed between his eyebrows and then a golden little man walked out brilliance. His face was exactly the same as his, but it seemed unusually indifferent.

In the little man's sleeves, there was also a faint golden brilliance flickering which was a Primordial True Feather that had cultivated a peerless edge.

**Buzz!!**

Soon the golden little man stepped into the void, turned around as it disappeared. Gu Changge opened his eyes, his eyes seemed a little thoughtful.

He was not worried that his Primordial Spirit would be discovered. After all, he was proficient in the power of space.

As long as there were no cultivators who were good at this way in the Hanging Buddhist Temple, it was naturally impossible to find his trace.

However, just in case, he still used a secret technique to cover up his breath.

When he stepped into the Hanging Buddhist Temple today, Gu Changge felt that someone was looking at him, but as he looked at him, the other party withdrew his gaze.

This was an existence with profound cultivation and powerful Dharma, so he still had to be careful.

Gu Changge wanted to know the purpose of Jin Chan Buddha's trip to the Demon Burying Abyss. If the other party's purpose was the same as his, it would be much easier.

However, he felt that Jin Chan Buddha should not be interested in the so-called seal. He was probably going to the Demon Burying Abyss to find something.

Many years ago, Jin Chan Buddha also went down there and it was said that he was almost buried in it.

Now, after many years, the seal had been loosened and the chaos in the Demon Burying Abyss was a good opportunity to fish in troubled waters.

If this was the case, Gu Changge could just find someone to take the blame. When the seal of the Demon Burying Abyss was broken, it was also suitable for Jin Chan to take the blame.

At the same time, in a side hall not far from the temple.

The lights were bright, the Buddha's light reflected on the four walls and the strings of Buddha beads were even more brilliant under the light of the lights.

An old cultivator whose eyebrows were as white as snow and falling to the ground was knocking on the wooden fish. The sound of the Buddha contained an indescribable charm.

Jin Chan Buddha stood behind him, his expression quite calm.

"You're in a mess."

The old monk opened his mouth and turned his back to Jin Chan, his tone was gentle and not too slow.

"Master Uncle..." Jin Chan Buddha shook his head and said, "I'm really upset."

"Because of Gu Changge and others who came over today?"

The old cultivator asked although he hadn't left this side hall for a long time. But he still knew a lot of news from the outside world. Naturally, he also knew who was coming to the Hanging Buddhist Temple today.

Jin Chan Buddha nodded and said without denying, "Yes, I don't know his intention for going to the Demon Burying Abyss this time, but Buddha Heart has been telling me to stay away from him, he is very dangerous."

The old monk sighed and said, "He is indeed very strong. Even if you use all your means, you will not be his opponent. Today, when he stepped into the Hanging Buddhist Temple, I noticed it. But he should have noticed me too, so I looked away."

Hearing this, Jin Chan was shocked, it was unbelievable.

The old monk said that he was not Gu Changge's opponent and he could not refute this, but even the old monk did not dare to continue to investigate Gu Changge, which made him feel incredible.

One must know that his uncle had a deep understanding of Buddha Mountain Six Passes.

Buddha Mountain Six Passes were the six extremely terrifying divine powers in Buddha Mountain; Heavenly Eyesight, Heavenly Ears, Other Mind Power, Fate Power, Divine Realm Power, and Leaking Power.

Among them, after cultivating Heavenly Eyesight and Heavenly Ears, they could see all the visible forms in the world and hear all the sounds in the world.

Even he only saw a glimpse of the Heavenly Ears.

In front of this great uncle, his insights on this path were beyond his reach. It could be said that as long as he thought about it, within a million miles, there would be no people he couldn't see or voices he couldn't hear.

But even he didn't dare to spy on Gu Changge easily.

"It seems that there are other hidden secrets in the rumors over the Boundary Monument."

Jin Chan Buddha sighed, his eyes a little heavy.

Gu Changge's display of power in the Boundary Monument could be said to have shocked many younger generations, including him naturally.

However, he knew that the Human Ancestor Hall had a secret technique and could use the Power of Faith to manifest the Dharma body across endless distances.

Such a secret technique had little to do with the practitioner's own cultivation. But now it seemed that Gu Changge did not do all this with secret methods.

"He shouldn't know about the secrets of Buddha Mountain, but you don't have to worry about it. For the matter of the Meditation Robe, it is created by you and no one can take it away. After all, you brought it down at the beginning, and only you can bring it up."

The white-browed old monk continued, but at this time, his eyes that had been closed suddenly opened as he turned his head to look in a certain direction. Wisps of divine light flashed and intertwined, reflecting in the virtual space.

Those were a pair of pure white eyes with no variegation. They looked quite terrifying. The light in their eyes seemed to penetrate the past and present and they could penetrate the three hells and six realms.

"What's the matter, Uncle Shi?" Jin Chan Buddha was a little surprised.

"The seal on the Demon Burying Abyss can last up to half a year. After you take away the Meditation Robe, you must use the Buddha's bones to suppress it, otherwise, the Hanging Buddhist Temple will definitely be destroyed."

The face of the white-browed old monk became heavier than ever.

Jin Chan Buddha nodded, knowing what the white-browed old monk meant.

Buddha Mountain had a special method of receiving and attracting, which could ensure that monks who had advanced Buddhism in their previous lives would be reincarnated with their previous wisdom after they pass away.

For example, in his previous life, he was the monk who founded the Hanging Buddhist Temple.

But until now, he had not awakened the memory of his previous life. According to Buddha Mountain, there was still a lack of opportunity.

And this opportunity was the Meditation Robe once brought into the Demon Burying Abyss.

That Meditation Robe was the Supreme artifact of Buddha Mountain. It blessed all kinds of mysterious Buddhist teachings. Countless cultivators with profound Buddhist teachings recited Buddhist scriptures every day.

As for why the Meditation Robe fell into the Demon Burying Abyss, it was a shame for Buddha Mountain.

No one had mentioned it until now.

"I know, Uncle Shi." Jin Chan's heart also calmed down at that moment. After all, the Meditation Robe was his opportunity, and that was his fate.

If others took it away, it would violate Buddha Mountain's predestined law and would encounter unimaginable disasters.

"Then I'll leave first."

After that, he respectfully stepped back and left the side hall.

"Um?"

But at this time, the old cultivator with white eyebrows suddenly frowned. He looked at a void with some doubts, feeling that there were eyes staring at him but when he looked, he found that there was nothing there.

This made him puzzled.

With his cultivation, could he still perceive something wrong but in the huge Hanging Buddhist Temple, who could spy on him in front of him?

He did not believe that Gu Changge had this ability.

"Am I going to be robbed..."

Afterward, the old monk with white eyebrows shook his head, knocked on the wooden fish unhurriedly, and sighed.

If the seal of Demon Burying Abyss was broken, he didn't know if he could survive.

This was also his fate, it was unavoidable and he needed to deal with this catastrophe.

For life and death, he took it very lightly, because Buddha Mountain's reincarnation method could shelter their previous memories.

The so-called death was nothing but a long sleep.

### **Chapter 432-1: Once confused an eminent monk, If she was sane, she would be fooled (1)**

In the early morning of the next day, on a mountain outside the Hanging Buddhist Temple, Gu Changge, Jiang Chuchu, Jin Chan Buddha and others stood there looking at the turbulent abyss in the distance.

The dark purple demonic energy was surging and vast, covering the sky like a dark cloud. It was like a dark world with not much light in it.

The Demon Burying Abyss sounded like an abyss, but it was actually more like a portal.

That terrifying giant portal was like a huge wound between heaven and earth and had a shuddering breath emerging from it. It seemed that once they stepped into it, they would step into another world of eternal darkness.

Within the deep portal, many terrifying corpses could be seen, some of which were as big as mountains.

Some even died, but they were still brilliant, like a small sun emitting a scorching divine splendor.

However, because of being contaminated by demonic energy, these corpses were densely covered with scars and covered with dry holes of various sizes.

There were also many world-shattering formations near the Demon Burying Abyss, which erupted with monstrous divine lights, turning into divine swords, celestial knives, halberds, etc... as they slashed into the abyss, preventing many of the creatures from rushing out.

In addition, there were many cultivators around Burying Demon Abyss. Although they didn't dare to get too close, they were also fighting against the Great Demon among them.

They didn't come here to maintain the peace of the world, but because after killing those Great Demons, they could get some substances containing rich energy crystals.

For example, materials such as divine cores, skulls and hand bones were often sold at high prices at outside markets or stalls.

Because these divine cores could not only be used to refine divine weapons, but also to arrange formations. And they could only be found near the Demon Burying Abyss, which was very rare.

Therefore, there were often many cultivators who were brave and bold and came here to take risks.

These cultivators noticed Gu Changge's group at this moment and were shocked. They didn't expect that other people would dare to come here.

However, some of them soon recognized Gu Changge, which made them even more shocked and puzzled at the same time.

With Gu Changge's noble status, how could he come to such a dangerous place?

"What is Young Master Changge doing here?"

"Does he intend to solve the calamity in the Demon Burying Abyss?"

"I can only say that it is Young Master Changge for you!"

Thinking of this possibility, the expressions of many of them changed, becoming extremely respectful.

How many young people of the Upper Realm were willing to risk their lives to come to such a place?

Their courage and deeds for the common people in the world made them admire him.

If it wasn't for the force of life, they wouldn't have come close to this place at all, but Gu Changge knew that there were tigers in the mountains, thus he preferred to walk in the mountains.

"In front is the entrance to Burying Demon Abyss, there is a formation set up by my eminent monks from Buddha Mountain, which can prevent the monsters from rushing out... Brother Gu, follow me closely, don't stray into the formation."

Jin Chan Buddha said and after talking with the old monk with white eyebrows last night, his heart had calmed down.

After saying that, he took the people from Buddha Mountain as they turned in a divine light before rushing forward. The golden lights flickered up on the mountain peaks on the ground.

There was a vast amount of demonic energy surging in front of him, but all of them were countered by a string of Buddha beads in his hand that radiated the Buddha's light.

At the same time, behind him, a phantom of a Buddha appeared with a solemn and dignified treasure emitting golden light. And a roar of Buddha's anger rippled like a knife, rushing away toward many monsters in front of him very powerfully.

Gu Changge, Jiang Chuchu and others followed behind him. They were not very close. Since Jin Chan Buddha wanted to open the way, it would save trouble for Gu Changge.

His eyes were inexplicable, remembering the conversation he heard last night.

At that time, he was almost discovered by the white-browed old monk, which really surprised him. Fortunately, he left early and there was no accident.

The cultivation of the white-browed old monk was at least in the Quasi-Emperor Realm, but he was an old monster who had lived for an unknown length of time.

Moreover, the divine powers he cultivated had a lot to do with perception. He could even understand the mysterious changes in space.

However, what Gu Changge thought was the most unexpected was the identity of Jin Chan.

He only knew that Jin Chan had the Buddha's heart and bones before, but he didn't know that he was actually the reincarnation of an eminent monk from Buddha Mountain.

"The Meditation Robe? It seems that it should have fallen in the Demon Burying Abyss, so Jin Chan planned to retrieve it."

Gu Changge was very interested in the Meditation Robe.

If he guessed correctly, it should be the Buddha Treasure that was taken to be buried in the Demon Burying Abyss and planned to suppress the demonic energy in it.

It was just that for some unknown reason it fell into it.

Moreover, after arriving here, Gu Changge not only did not feel any discomfort with these demonic auras but instead there was a strong familiar and natural aura. Even the runes of the Great Dao appeared in his blood, which kept disappearing, as if cheering.

It seemed that this aura was of the same origin as him.

This feeling was very familiar to him. It was the memory that was once sealed. It was constantly reviving and many fragments flashed away with many things in his mind.

It was like the clouds were cleared and he saw the sky.

"The demonic energy here is already very strong and the monks in the Sacred Realm have to be careful when approaching, so as not to be corroded by the demonic energy..."

A faint fairy light appeared on Jiang Chuchu's body, resisting the demonic energy here, she frowned and whispered to herself.

Gu Changge glanced at her as he waved his sleeves. A terrifying shock force spread out, dispelling the demonic energy around her.

"You should stay outside, your cultivation will cause trouble if you enter." He frowned slightly.

Jiang Chuchu glanced at him, shook her head and said, "No, I want to go in with you, you don't have to worry about me, I have my own means."

It was because of her relationship that Gu Changge was implicated in this matter. How could she stay outside and let Gu Changge in alone?

Seeing her persistence, Gu Changge didn't say anything.

Anyway, if there was an accident for a while, throwing her into the Inner Universe was the same.

Jin Chan was leading the way, but the road was not peaceful. Not only they had to be careful of the formation but also had to kill the creatures here that were contaminated by demonic energy and corroded their minds.

However, there were Masters from Buddha Mountain around him and the weakest person had the cultivation base of the Quasi-Sacred Realm. The Dharma surrounding him was profound and he was very good at dispelling demonic energy as it protected him very safely.

After passing through hundreds of miles in this way, the abyss in the front finally appeared before them.

A suffocating and depressing aura arrived, and everyone's faces were solemn. Their souls trembled.

As if facing some kind of great terror, they couldn't help but kneel down and bow down.

The demonic energy here had even reached the point of liquefaction, converging on the ground into a small lake.

In the small lake, there were still runes flickering and some dark purple divine stones were scattered, which were extremely rare and precious, exuding the original aura.

"My lord, there..."

Behind Gu Changge, a powerhouse in the Great Sacred Realm pointed to a lotus in the distance with surprise.

It was a deep purple lotus, rooted in a small lake formed by demonic energy. Although the small lake was less than a hundred miles away, it was fragrant like immortal purple gold.

"What is this?"

Some people were curious and walked over, but before they got close, they were enveloped by the deep purple mist that permeated the small lake.

Before he could even let out a scream, he turned into a blood mist. It was extremely terrifying, many people looked cold and couldn't help but take a few steps back.

"This is Soul Destroyer Lotus, don't get close."

Jin Chan frowned, then relaxed and explained to the crowd, "This kind of thing grows near the Demon Burying Abyss. It feeds exclusively on living beings and demonic energy. Although it looks beautiful, it contains great terror. Don't get too close to pick it."

He said this, making everyone look a little dreadful, knowing that the closer they got to the mouth of the abyss, the more dangerous it was.

"Soul Destroyer Lotus. This age should have surpassed tens of millions of years, and it had formed its domain nearby."

Gu Changge was a little interested as he walked over.

Everyone's expressions changed and the cultivators from Buddha Mountain frowned, but they did not stop him. Jin Chan had already persuaded him. If Gu Changge didn't listen to the persuasion, he would be the one who would suffer for a while.

But in the next moment, what surprised everyone was that, following Gu Changge, the Soul Destroying Lotus just shivered slightly, as if it was fearful.

Then, when he moved, it actually emerged from the lake. The purple light was shining under the feet and a purple glow was transpiring, which was very mysterious.

This scene made everyone's eyes widen, almost sluggish, unbelievable.

Even Jiang Chuchu was shocked. She then quickly recovered, looking at Gu Changge, and remembering his identity.

Could it be that this Soul Destroying Lotus was very spiritual and was actually afraid of him?

At this moment, everyone could even see that it differentiated its rhizomes into feet, and walked to Gu Changge's feet.

Gu Changge didn't care about the expressions of the crowd and directly grabbed Soul Destroying Lotus before throwing it into his storage ring.

This thing had spirituality. Knowing that it could not escape from his hands, it simply surrendered itself.

"What's the use of taking the Soul Destroying Lotus?"

Jiang Chuchu was a little curious. As far as she knew, the Soul Destroying Lotus had no medicinal effect except for its dangerous nature.

Gu Changge smiled and said, "Let's keep it. After all, the Soul Destroying Lotus that lasts for thousands of years is rare and it may not take long for it to transform."

Because of its particularity, Soul Destroying Lotus would possess the divine power to overcome the abyssal energy if it transformed.

Even if it couldn't transform into shape, he could devour it to refine his Primordial Spirit. Others feared it like poison, but in his eyes, it was a tonic.

"Raising the Soul Destroying Lotus?"

Jiang Chuchu nodded and didn't say much. Soul Destroying Lotus only fed on flesh and blood, and it was still massive.

### **Chapter 432-2: Once confused an eminent monk, if she was sane, she would be fooled (2)**

With Gu Changge's methods, this was nothing to him.

Although Gu Changge's attitude towards her had been much better recently, she had not forgotten Gu Changge's true face and original temperament.

"Let's go."

Jin Chan looked back and the fear of Gu Changge in his heart rose to a new level.

After arriving here, everyone became more and more careful. Even Jin Chan, who led the way, was extremely cautious, for fear of taking the wrong step.

Everywhere they could see the vein-like textures of Dao emerging, emitting a dazzling brilliance.

Moreover, there were more Great Demons here, arriving from the depths of the Demon Burying Abyss. Their strength was monstrous and they were extremely cruel.

After passing through another area, everyone finally came to the mouth of the Demon Burying Abyss. The surging and vast demonic energy rushed in front of them as if it could drown the entire world.

Even the existence of the Great Sacred Realm was trembling. His face was pale, devoid of blood.

Jin Chan stopped, turned back, and said to everyone, "Those who are not in the Great Sacred Realm will stay here for the time being. I will carve a space formation. If there is any accident, you can quickly return to this place and escape."

"At the same time, some people are requested to be here."

As he said that, he took out a purple-gold Buddha pestle and began to set up a formation here, laying out a lot of materials, very cautiously.

The cultivators of Buddha Mountain already knew the arrangement, so they quickly divided themselves into two groups. One group followed Jin Chan and the other group stayed there.

"Then you'll stay here." Gu Changge looked at Jiang Chuchu.

"I won't." Jiang Chuchu shook his head and stared at him, "I want to go down with you."

Although her cultivation had not yet reached the Great Sacred Realm, she still had other means to make up for the lack of cultivation.

Gu Changge frowned as if he was about to get angry, Jiang Chuchu felt a little lack of confidence for a moment, but still raised her eyes, summoned up her courage, looked at him, and said, "I don't want to stay here. It's my business."

Gu Changge sighed slightly and didn't seem to blame her but asked, "Then what's your business, isn't it also my business? What's the difference."

If Jiang Chuchu followed along, it would make his next plan difficult to perform, and it would also add a lot of trouble for him.

"I..."

Jiang Chuchu was slightly stunned, but she didn't expect Gu Changge to suddenly say this. A warm feeling surged in her heart and she didn't know how to refuse for a while.

However, she quickly reacted, Gu Changge said such words in front of everyone. Wasn't this acknowledging the relationship between the two of them?

This really made that thin-skinned girl like her a little shy.

Of course, as the Holy Maiden of the Human Ancestor Hall, her energy-raising skills in front of people were still very good and she returned to her natural state in an instant.

"Then you have to be careful, I will be waiting for you here." With that, she agreed.

Gu Changge nodded, his expression returned to normal and then he instructed the people behind him to choose a part to follow him while the rest were to stay here.

Soon, after the arrangement was complete, Jin Chan looked back at Gu Changge and said, "Brother Gu, we can head down."

After saying that, the Buddha's light on his body from the treasure turned solemn and he directly tore the demonic energy in front of him before entering into the Demon Burying Abyss.

Gu Changge's eyes flashed, the void was blurred and the mighty demonic energy automatically went away from the front of his eyes.

He also stepped forward and disappeared into the rich demonic energy, falling into the depths of the Burying Demon Abyss.

The Demon Burying Abyss was very large. It could be said that there was a unique cave. The terrifying atmosphere was rampant. One could see many monsters fighting in it and they were not even tired.

All the creatures here, whether they were physical or spiritual, would be infected with terror and would fight regardless of life and death.

Gu Changge could imagine that they had been sealed here for countless years, even countless eras.

For the Red-clothed Witch, it would be a lot of torture.

The Demons here, even the Great Demons with monstrous strength, were comparable to the Quasi-Supreme, but they did not have the slightest sense of sanity. They only knew how to fight and kill, either to kill others or to be killed by others.

If someone else stayed in such a dark place, they would probably go crazy. Once they appeared in the outside world, they would inevitably cause unimaginable disasters.

Bloodbath from all walks of life, this was probably not just talk.

"Brother Gu, what do you think of the mutation in the depths of Demon Burying Abyss?"

But just as Gu Changge was thinking about it, Jin Chan, who was leading ahead, suddenly moved his eyes slightly. He turned his head and asked with a smile.

"It should be that the seal of this place was broken, or the fierce thing here is about to be born." Gu Changge said with a calm expression.

He was planning to attack Jin Chan, but the other party's words reminded him.

Before seeing the so-called Meditation Robe, it was better not to make a move first.

Jin Chan didn't seem surprised when he heard these words and continued to ask, "The turmoil broke out here and all the Great Demons are fleeing outside which makes people feel strange. I wonder what Brother Gu thinks?"

He intended to test Gu Changge's purpose to see how much he knew about the Demon Burying Abyss.

If he also came for the Meditation Robe, then he could only use some means to let Gu Changge stay here forever.

Gu Changge's strength was terrifying but in Demon Burying Abyss, he was far from familiar with it.

"These monsters should be afraid of something, rather than a riot, in my opinion, it is more like a so-called escape."

Gu Changge seemed to see through his thoughts at a glance and said calmly, "Could it be that before coming here, Jin Chan did not take the lead in investigating?"

"Then what is Brother Gu's plan?"

Jin Chan's heart skipped a beat and he asked again. There was a looming Buddha's light on his robe, fighting against the terrifying demonic energy here.

Many cultivators around him were also fighting, opening the way ahead and all of them were injured.

Gu Changge said casually, "I came here naturally because I was worried about Chuchu's involvement with danger, but I couldn't persuade her. Could it be that Jin Chan thinks that I will be interested in solving the calamity of Burying Demon Abyss?"

"If that's the case, I'm afraid you're going to be disappointed."

In the end, he couldn't help laughing and it seemed quite frank, but a little mocking.

Jin Chan was a little stunned for a while, but he didn't expect Gu Changge to be so honest at this moment, he almost didn't say that he was just here to check the favorability and that he didn't intend to care about the matter of Demon Burying Abyss.

However, this was also in line with his understanding of Gu Changge. After all, how could such a guy care about the lives and deaths of others?

It seemed that he had a plot against the Holy Maiden Chuchu, so he sacrificed his life to accompany the beautiful woman to come here.

This made him more or less relieved. He felt that things were much simpler now.

"It turns out that Brother Gu is an honest person."

He smiled. Since Gu Changge didn't intend to intervene in the matter of the Demon Burying Abyss, then he definitely didn't know about the Meditation Robe.

"Then what is the purpose of Jin Chan's visit here? This Gu is quite curious."

Gu Changge asked with interest.

Jin Chan's complexion had returned to normal. At this time, he did not dare to lie, because once Gu Changge knew that he was dealing with it, he would doubt his purpose.

As a result, Gu Changge would be interested in the Meditation Robe. If he robbed him, wouldn't that ruin his big business?

Therefore, he decided to be calm, but some things had to be concealed.

"Actually, the little monk came here to retrieve a Buddha treasure that was lost here."

He opened his mouth to explain, seeing that Gu Changge did not trust him, and continued, "I'm ashamed to say, this matter involves a scandal of my Buddha Mountain. I was a Buddhist monk of Buddha Mountain and I had a big wish to be buried in the Demon Burying Abyss. As a result, I entered it and was fascinated by a fierce and powerful female demon in the depths of the Demon Burying Abyss. I

was bewitched by her and she stole the treasure from Demon Burying Abyss, hoping to relieve her suffering and pain, but unfortunately, that female demon was cruel..."

Having said that, he sighed.

Speaking of which, this was what he did in his previous life, but he had not fully awakened his previous memories, so he could only look at it as a bystander.

Just relying on his appearance, she was a confused eminent monk. How terrifying and unimaginable was this? It just happened to happen.

"And then she was killed here?"

Gu Changge asked calmly, but in his heart, he felt that things were a little tricky.

It would be fine if the Red-clothed Witch was unconscious.

If she was conscious, wouldn't the pain and torture she had suffered over the years come back to her the moment she saw him?

Not to mention the matter before being beaten into Demon Burying Abyss. This hatred was not so easy to solve in Gu Changge's view.

Hate was born out of love, and this hatred was indelible even in the deepest depths of hell.

Now it seemed that there were still two methods that he thought about earlier. This needed to be smoothed out slowly, or he had to find a way to kill her completely, once and for all.

But the only thing that Gu Changge could be happy about was that although the Red-clothed Witch didn't die after taking a hard blow from him, it wasn't that simple for her.

Even if there was a possibility of releasing her emotions at that time, the injury caused by the power of destroying the world might not be healed for a long time.

That was why Gu Changge was looking for a place to nourish her soul. If she was sane, she would be fooled. If she was insane, he would have to find another way.

"So in this matter, because of my scandal in Buddha Mountain, I have rarely been mentioned until now."

Jin Chan showed a bit of a wry smile on his face and seemed to be quite emotional. He then continued to lead forward, using the Buddha bones on his body to sense where the Meditation Robe was.

At this time, as he went deeper and deeper, Gu Changge felt a change in his Demon Heart. The Eight Desolate Demonic Halberd seemed to be recovering, not as quiet as usual.

The terrifying meaning of the entire Demon Burying Abyss suddenly seemed to fall down from the sky, suffocating and suppressing everyone.

The aura sealed in it made people feel like they were facing an existence that transcended Emperors and Immortals.

"Demon Burying Abyss is the result of a drop of true blood falling here when I was the Demon Lord..."

However, Gu Changge's eyes were dim. He felt that there was an aura that was very familiar to him in the deepest part of the Demon Burying Abyss.

It was not the Red-clothed Witch, but another aura, in a deeper place of origin.

### **Chapter 433-1: This long-lost and familiar atmosphere, The Red-clothed Witch Chan Hong Yi (1)**

The demonic energy in the Demon Burying Abyss was surging and the deeper they went, the more they could feel this terrifying fluctuation.

And there were countless skeletons hanging on the four walls, there were creatures of all races and they could feel the fear and tremors that penetrated into the soul. Even the flesh and bones were penetrated by the cold air.

This was not a place that ordinary people could travel to.

Demon Burying Abyss had existed for so many years, it could be said that only a few people had come to this place and there was no light here.

However, with Gu Changge's eyesight, it was easy to see the surrounding scenes. The walls were steep and covered with all kinds of weird plants.

There were still many Soul Destroying Lotuses rooted in the void, but they were not very old, as if they had just grown.

They came all the way down the mouth of the Abyss. Now they were near the bottom.

The strength of the Demons here was even more terrifying. Even the cultivators around Jin Chan were struggling. Many people were severely injured by the Demons here.

However, Buddha Mountain's Dharma was very subtle as it expelled the demonic energy from them in a few strokes, without causing much trouble.

"The depth of the abyss is where the real danger is... Young Master Changge, you can wait here for the little monk and I can go alone."

At this moment, a terrifying and vast fluctuation emerged from the front, like a sky falling from a high sky, destroying everything in the radius.

Seeing this, Jin Chan Buddha looked a little dignified as he looked back at Gu Changge, and said.

Although what Gu Changge said before had made him less suspicious, he was still very vigilant toward Gu Changge and silently guarded against him.

A person like him wouldn't really trust a person, let alone Gu Changge.

The best situation now was to avoid Gu Changge and enter alone, so as to prevent Gu Changge from coveting that Meditation Robe.

"Really? Since it's dangerous, this Gu can't leave. If something happens to you here, Jin Chan Buddha, won't Buddha Mountain blame me?"

Hearing this, Gu Changge's face remained unchanged and he replied with a smile.

He naturally knew what kind of game Jin Chan was playing.

"If that's the case, then there I will thank Young Master Changge in advance."

Jin Chan was a little disappointed in his heart but the expression on his face remained the same.

He was not surprised by Gu Changge's answer. He had already reached this stage, so how could Gu Changge leave?

He was just holding a little bit of fantasy just now.

Soon, Jin Chan took everyone through the place where the demonic energy was more vast in the front and finally arrived to the bottom of the Demon Burying Abyss.

Unlike the turbulent demonic energy in the rest of the area, this place seemed extremely peaceful.

They couldn't even see a Demon. Everything was extremely dead and they couldn't feel any breath of life as if they had passed through an invisible portal and entered the deepest part of hell.

"There's something odd and disturbing here..."

A cultivator from the Hanging Buddhist Temple opened his mouth. His brows furrowed, and he swept across the bottom of the abyss, which seemed to be extremely dead.

However, they could still see many traces of fighting here. Someone once came here, but in the end, they fell here.

Here, it could be seen that the denser demonic fog was shrouding this place and it could even blind people's consciousness and become dark.

"It's where the Meditation Robe is..."

Jin Chan Buddha felt that the Buddha bones in his arms were glowing slightly, conveying a sense of closeness.

This Buddha's bone was the relic that the last owner of the Meditation Robe turned into after he passed away.

However, Jin Chan's expression still did not reveal the slightest abnormality and he said, "This place is very special, why don't we investigate separately to see if we can find any clues? I wonder what Brother Gu thinks?"

Gu Changge felt the meaning of being close to nature from the depths of the Demon Burying Abyss.

He smiled casually, "Since Jin Chan said so, then it is natural for me to investigate separately, but if there is any danger, I am afraid that it will be difficult to provide support."

"This is something that can't be helped. Everyone, be careful and protect yourself. I suspect that the seal of Demon Burying Abyss is about to loosen and break. It has something to do with this place. If we can't find any traces for a while, we will come here to meet later."

Jin Chan said with some regret.

"If that's the case, then Gu will go this way to investigate first."

Gu Changge smiled when he heard the words, then nodded before he headed directly towards another area where the demonic energy was more turbulent.

Jin Chan gave him a deep look and after seeing Gu Changge's figure disappear, he turned around and walked in the direction the Buddha's bone felt.

However, he was worried that Gu Changge would return and thus he hid his figure to wait very cautiously.

"Looks like he really went the other way..."

Jin Chan breathed a sigh of relief in his heart. He waited for a long time, did not see Gu Changge's figure following and then walked towards the place where the Buddha's bones sensed.

He was extremely vigilant toward Gu Changge and never let his guard down, so he was careful in everything.

"Are you still foolishly waiting for me to turn back?"

After separating from Jin Chan and others, Gu Changge's figure appeared on a low mountain at the bottom of the abyss, with a faint mocking expression on his face.

How could he not think of things that Jin Chan Buddha could think of?

Just as Jin Chan did not want him to follow, Gu Changge also did not want him to follow, after all, there was still a drop of his true blood here.

Before that, he just went to take the true blood away. As for the Meditation Robe that Jin Chan was looking for, Gu Changge was not in a hurry.

Even after Jin Chan found it, he still had the means to let him hand it over.

And the energy contained in this drop of true blood in the Demon Burying Abyss was beyond imagination and could not be speculated.

With his current strength, it was estimated that it was difficult to integrate, even if he forcibly swallowed and refined it with the Great Dao treasure bottle.

However, as long as it was taken away, it was much simpler and integration was only a matter of time.

Gu Changge's figure passed through this place and arrived to the darker area ahead.

The terrifying fluctuations were revealed, this was the power of the Supreme being, as long as the blood was still surging, it was unparalleled, making many monsters in the dark tremble and dare not approach.

Even separated by a distance, there was a feeling of the body exploding.

During this process, there were many Great Demons who were in the Quasi-Supreme Realm, but in the end, they shuddered, did not dare to approach and crawled in place.

Today, Gu Changge's cultivation was only half a foot away from the Quasi-Emperor Realm. For the Quasi-Supreme in front of him, there was not much difference from the ants.

At this moment, they all felt like they were worshipping a True Dragon. The other party could shatter them with just a wisp of aura.

The land in front of him had already taken on a dark purple color, like the formation of countless blood stains filled with demonic energy and dead silence.

This place was very strange. It had been smashed in the past, he could even see the stars falling here one by one, smashing the place into a terrifying sinkhole.

Gu Changge went deep into this place, but did not perceive the scent of Chan Hongyi, and felt that she should be in the direction of Jin Chan and he was at the place where the drop of true blood fell.

He directly broke into the depths, as if entering an ownerless land.

There were even some inscriptions here. They were very old. He didn't know what they meant. Some were complete and some were broken.

Gu Changge glanced at it casually and soon lost interest.

There was no cave in the depths of the Demon Burying Abyss, the territory here was endless.

The residual power of that drop of true blood had even changed and reversed the laws of Heaven and Earth here, causing the environment here to be different from the Dao. He could even see many stars appearing above his head, the stars were rolling and the secrets of heaven were chaotic.

The sight was terrifying, it was an independent world that had fused in this place as one.

Finally, Gu Changge arrived to the depths of this place.

This was a sea of ??crimson fire or a sea of ??blood, boundless, full of divine energy, steaming, rolling into the sky, exuding blood-colored brilliance and wisps of powerful laws, intertwined and condensed in it.

If one looked at it from a high altitude, they could even see bubbles emerging one by one, tumbling into the sky as if it contained the ancient world.

When he arrived here, he felt like his body was about to burst, which showed how terrifying the atmosphere of this sea of ??blood was, and it could be called mighty.

Even an Enlightened being's expression would change and they would dare not approach easily.

However, as Gu Changge's aura was revealed, this feeling of being torn apart disappeared. After all, the two belonged to the same origin.

At this time, not far away, several figures emerged, very vague, with equally terrifying auras.

However, their faces were not human, they were very weird as if all kinds of creatures were spliced ??together, with a human head and animal body, and the animal head with a human body.

At this moment, they stared at Gu Changge with surprise, awe, and submission at the same time.

This was a feeling from the bottom of their heart, because they were terrifying creatures bred in this sea of ??blood. They were also giants who dominated one side at the bottom of this Demon Burying Abyss. They rarely had enemies. In their eyes, other Demons were just their food.

"This familiar and long-lost aura..."

Gu Changge noticed the figures nearby but didn't pay attention.

He closed his eyes slightly and came to the bank of the sea of ??blood, his voice could not help but be filled with admiration.

At this moment, the sea of ??blood in front of them was boiling. There was a monstrous light of blood rushing out as if they were cheering and welcoming their original Master.

"Hoo..."

In the next moment, Gu Changge suddenly opened his mouth, screaming at the boundless sea of ??blood in front of him.

The terrifying momentum seemed to sweep across the world, shaking the heavens and the universe. Even space was about to collapse.

All the creatures near the sea of ??blood couldn't help trembling, kneeling on the ground, not daring to move.

### **Buzz!!**

Between his brows, the Heavenly Spirit was shining, brilliant and eye-catching, incomparably gorgeous and crystal clear. It was the power of terrifying energy and blood, penetrating the sky, entwined with five-color rays of light and chaotic energy.

This was the first time Gu Changge had displayed it. He could literally crack the sky, even the stars were as fragile as dust in front of him, they could collapse into ashes in one breath.

This was unparalleled power.

### **Chapter 433-2: This long-lost and familiar atmosphere, The Red-clothed Witch Chan Hong Yi (2)**

In the next moment, something terrible happened. With Gu Changge's roar, the sea of ??blood in front of him began to boil crazily, rushing towards Gu Changge.

He devoured the endless blood energy here and the red brilliance like a galaxy fell towards Gu Changge's mouth.

It seemed that a bottomless black hole had formed here, more like a dimly collapsed sun, gathering all the light in the world.

The sea of ??blood was rapidly disappearing. It was creating a stormy sea.

Such a scene was too shocking. Gu Changge even showed the Dharma body, as tall as ten thousand feet, standing up to the sky and all the sea of ??blood was like wolf smoke as he opened his mouth and screamed, swallowing them all.

All the creatures in the vicinity looked horrified. They were stunned by such a scene, trembling in place, terrified to the extreme.

They never thought that one day the origin of the sea of ??blood that bred them, the source of all the demonic energy, would be devoured by a human.

And the aura of this young man made them even more afraid, more afraid than facing the origin of this sea of ??blood.

At this time, a figure suddenly arrived at a place not far from Gu Changge.

It had blood stains on its body, he didn't know how it was stained, it was a tattered black battle suit, flowing with black light, some places were cracked, it could be seen that it had blue skin and was holding a tattered spear in its hand, a cracked black gold shield in other. Its aura was very terrifying, even reaching the first layer of the Quasi-Emperor Realm.

The rest of the creatures in the vicinity were very afraid when they sensed its arrival. Obviously, it was the absolute overlord of this place, stronger than the rest of the creatures.

When it came in front of Gu Changge, it put down the spear and the black gold shield in its hand, and there was a radiant light in its eye sockets as it bowed its head reverently, showing its willingness to follow.

Gu Changge had his eyes closed slightly, quietly engulfing the sea of ??blood here, knowing its surrender, he didn't care too much.

Seeing this, the rest of the creatures left the place silently, not daring to get too close. Normally, if they encountered this creature in front of them, they would become its food. It could be imagined that it was powerful and terrifying.

Its scars and tattered battle clothes were the best proof.

And just when Gu Changge was nibbling away at the sea of ??blood here, trying to take away his former true blood.

The entire Demon Burying Abyss was also undergoing shocking changes. A monstrous hostility swept out from a place far away from here.

This kind of ferocious power was so terrifying that it was indescribable. It even had an unrivaled demonic aura, rushing out of the Demon Burying Abyss, dimming all the star fields within a million miles.

All the essence of heaven and earth was flowing backward, countless big stars were trembling as if they were about to collapse one by one.

It was dark, and there was no light to be seen.

Such a scene shocked many sects and forces in the Upper Realm and many ancient existences who were good at deduction all changed their complexions and looked in the direction of the Demon Burying Abyss.

"Bleeding and bloody, this is the hatred and killing that will last forever... The sky in the Upper Realm is about to change..."

Both the Heavenly Mechanism Pavilion and the Secret Sky Family, who were good at deduction, had older generations. Their faces were solemn and dignified to the extreme, and the divination tortoise shell cracked in their hands.

Someone even let out a muffled snort, vomited blood and flew out backward, receiving a terrifying backlash with a horrified expression.

"The catastrophe, this time in the Demon Burying Abyss, is likely to have an unimaginable peerless Demon about to be born. This matter is really unimaginable... The seal has been worn down for so many years, is it finally going to be unable to resist? "

"But didn't we still have half a year? How could this be..."

Many forces frowned because it was difficult to separate their energy because of the battle in the Eight Desolation and Ten Territories.

But at this time, there was an accident in the Demon Burying Abyss.

If there was still half a year left, they could still think of a countermeasure, but from the current scene, there might be some abnormal changes...

"No, I have to send a powerhouse to take a look and take some time to solve the matter of the Demon Burying Abyss."

At that moment, they began to think of countermeasures and dispatched the powerhouses around them to investigate the Demon Burying Abyss.

All of a sudden, there was another disturbance in the Upper Realm. First, there was the catastrophe of the Absolute Heavenly Extinction ??and now there was the chaos of the Demon Burying Abyss, causing people to panic and feel quite uneasy.

"What happened?"

"Could it be because of the location of the Meditation Robe that the power of this seal has weakened..."

At the same time, Jin Chan, who was at the bottom of the Demon Burying Abyss, changed his face slightly. He almost suffocated just now and there was a trembling from his soul as if he was about to freeze.

That kind of hatred that could wipe out both aura and soul was monstrous, permeating this place as if it had been integrated with the environment.

With his state of mind, at this moment, he couldn't help but feel some fear, not daring to imagine the extent of the existence sealed in the deepest part.

However, he was not an ordinary person and his expression quickly returned to normal. He looked at a mountain peak not far away, which was not very tall, but there were many scriptures shining on it. Strings of ancient runes intertwined and flashed, branded everywhere.

Faintly, he could even see the divine light around the mountain peak and the phantoms of Buddha and ancient monks appearing, sitting cross-legged there, chanting scriptures.

On the top of the mountain, there was a moon-white Meditation Robe floating on it. The Buddha's light was shining, looking extremely holy as it emitted light to protect everything nearby.

When the demonic energy came here, it seemed to be contaminated by the scorching sun and it made a burning sound, turning into blue smoke and about to dissipate.

"Buddha, this is the seal barrier line, we can't go any closer..."

Many monks around Jin Chan's body had incomparably dignified faces, staring at the scene behind the mountain peak.

It was pitch black there, and there was no light as if it had fallen into eternal darkness. But there was a palpitating aura that made them tremble and they couldn't control it at all.

This feeling was like an ant facing a true dragon. That kind of unstoppable pressure was like walking on the edge of an abyss with their eyes closed, and if they were not careful, they would be wiped out.

In addition to the Meditation Robe, there were also all kinds of terrifying formations here, emitting bursts of golden light.

But with the contamination of the demonic energy, it also cracked inch by inch, obviously, it couldn't last for a long time.

They were terrified.

"I know, but the robe must be taken away."

Jin Chan's face was serious, and he walked towards the mountain ahead.

At the same time, he took out a Buddha's bone that was shining with Buddha's light, and when he was about to take off the Meditation Robe, he put this bone on it.

Otherwise, the seal here would definitely collapse soon.

But all of a sudden, Jin Chan's complexion changed drastically, his whole body felt cold, and he didn't dare to move as if he was being targeted by some extremely terrifying existence.

A terrifying cold air swept across his entire body, the spine was icy cold and the scalp seemed to explode.

He didn't dare to turn his head, but he saw the other monks looking behind him with terrified and horrified expressions.

"What is that!"

At this moment, the Buddha's heart belonging to Jin Chan was flowing with Buddha's light, and at the same time, the Buddha's bones were also blooming with dazzling brilliance, fighting against this frightening aura.

He turned his head with difficulty but saw a figure standing not far from him.

The other party seemed to be looking at him in doubt and confusion.

This was a beautiful figure, many descriptive words in this world fell on her body, but it looked blank and powerless.

This kind of beauty had reached an extreme, and people did not even dare to desecrate it, and it was a sin to even look at it.

She was dressed in red, tall and slender, with black hair like a waterfall, a small face with melon seeds and no flaws in her facial features. Her eyes were black and white, like flawless black gems, shining with luster.

However, the expression within it was very confusing. Standing there, looking at him, her eyes were out of focus, as if they were falling in the void farther behind him, looking at something.

"This is the original figure... The Red-clothed female Demon sealed in the Demon Burying Abyss."

Some memories emerged in his mind, and Jin Chan's calm heart started beating violently.

He looked away with difficulty, not daring to take another look, knowing how terrifying this existence was.

The woman in red stood within the lines, unable to come out, bursts of golden light fell on her body and bursts of blue smoke billowed up. It was obvious that she was in pain at first glance, but there was no change in her expression, still looking at the distance in confusion.

Moreover, she had a unique fairy charm, like a fairy flower soaring to the sky, or like a mustard seed flowing into the underworld, but the aura was so terrifying that it made his scalp tingle, and his legs were so weak that he was falling to his knees.

"This is the female demon in red that was recorded in the classics back then..."

"It really is her."

All the cultivators of Buddha Mountain looked very terrified, but they felt that the Red Witch still couldn't get out of the sealed place, and they gradually felt relieved.

The reason why the abbot of the Hanging Buddhist Temple died at the beginning was that he entered the formation by mistake.

They didn't dare to underestimate the woman in red in front of them. The horror of the other party was unimaginable. Just standing there made their spirits freeze.

But they didn't dare to look too much, they recited Buddhist scriptures silently in their hearts to calm themselves down, so as not to be distracted by the beauty of the other party.

"She can't come out..."

Jin Chan calmed down quickly, knowing that the female demon in red could not leave the sealed place, he was also relieved and planned to head toward the mountain ahead to take off the Meditation Robe.

But as he walked over, hundreds of millions of divine lights suddenly burst out from the formation patterns here, as if they had turned into beams of light, dazzling and bright, all blasting towards the red demon in the sealed place. It made her body emit bursts of smoke-like hissing sounds, more like water splashing into a frying pan, making one's teeth sour and shocking.

But the red-clothed female demon seemed not to feel the pain, as if she was used to it. She was still looking at the direction behind Jin Chan in a daze, she seemed to be able to sense who was there, someone who was important to her, she could hardly forget.

Even if she couldn't see him, she still knew where he was.

"Master... Master..."

She looked very confused, muttering these two ancient words.

But Jin Chan and others couldn't understand it. It felt very obscure and ancient, and they didn't know the characters and language of the era.

The Red-clothed female Demon seemed to want to get out of there but when she touched the light in front of her, horrible green smoke burst out from her body as if she was being burned by the flames and she couldn't help but shrink back, sensing the tenderness.

The faces of the cultivators of Buddha Mountain changed drastically. They watched as the hand of the female demon in red melted quickly when it touched the light and the flesh and bones melted away.

This kind of pain made them tremble uncontrollably, unimaginable.

Who set up the formation here back then? It was so terrifying.

And this formation pattern seemed to be specially set up to seal the Red-clothed female Demon or else she could easily walk to their side.

#### **Chapter 434-1: Appearing early with two dominant personalities, I'll let you out (1)**

The mountain in front was not high and there were many Buddhist scriptures engraved on it, which could suppress the evil energy, but it couldn't cover the sky. He had to climb to the top of the mountain step by step to take off the Meditation Robe.

Jin Chan looked devout, holding the Buddha's bone in his hand as he walked toward the mountain peak. Bursts of Buddha's light radiated out from him to resist the terrifying evil spirit here.

The many formations on the ground did not affect him. His speed was very fast. Although he was walking, he had already reached the foot of the mountain in just an instant.

"Once I get hold of the Meditation Robe, the little monk will leave this place. You should stay here with peace of mind."

He felt that the eyes of the female Red Demon seemed to be on his side, but after knowing that the other party could not step out of the sealed place, he was very relieved. He even proclaimed with a natural expression, regardless of whether the other party could understand or not.

Naturally, the Demon Burying Abyss was bound to become a place of concern for many Dao forces. At that time, there would definitely be many powerhouses arriving to reshape the seal to prevent her from breaking out of the seal and being born.

Otherwise, the Upper Realm would usher into a terrible disaster.

Hearing the words, the female Red Demon was still very confused and didn't know Jin Chan's intentions.

To her, that Meditation Robe was regarded as something which could provide a little bit of warmth in the dark underground.

Only when she was close to that Meditation Robe, could she feel a trace of peace.

However, she couldn't understand what this emotion meant now. She just knew that the Meditation Robe was helpful to her, but the other party wanted to take it away.

She suddenly felt uneasy and a shocking hostility suddenly appeared in her confused eyes, which turned cold, indifferent, filled with thick blood.

Immediately, the Demon Burying Abyss had another startling change. The terrifying hostility covered the sky, many stars and continents outside were trembling as if they were about to shatter.

The faces of countless cultivators and creatures changed dramatically.

"What the hell happened!"

"Could it be that the seal is weakening?"

Jiang Chuchu and others who were waiting outside the Demon Burying Abyss also watched this scene in shock.

Jin Chan was also stunned by the scene in front of him, but his feet kept moving. He already knew that the female Red Demon was not in good condition.

In his previous life, it was because of pity for Chang Yi that he disturbed his Buddha's heart and stole it from Buddha mountain. Trying to expel her Demonic nature.

But when he was about to approach her a little bit, she pointed at the center of his eyebrows and he died on the spot.

So in this life, his Buddha's heart was even more stable. He just wanted to take the Meditation Robe and leave this place, regardless of the Red Demon.

The Meditation Robe was the treasure of the Buddha Mountain and there was even a saying that it was not a thing of this world.

Such a precious thing naturally could not be reduced to this.

**Chi!!!**

The terrifying momentum came again as a dazzling brilliance erupted. The Red Demon seemingly wanted to come out. But facing the unrivaled power from the formation pattern under her feet, she had no way to resist.

Even with this degree of pain, her face did not change in any way and she was still trying to rush out.

There was a terrifying aura emerging from her plain white jade hand. Countless Dao Laws were evolving and at this moment, there was even the condensed essence of the origin but it was still difficult for her to rush out.

On the contrary, it was the hostility within her that gradually calmed down following the formations here.

Taking advantage of this opportunity, Jin Chan speeded up again and quickly climbed toward the top of the mountain. His Buddha's bone emitted a radiant brilliance, like a bright lamp.

All of a sudden, a terrifying aura rushed from a distance. It was a red spear stained with blood, piercing through the void as it descended.

**Boom!!**

This place exploded all of a sudden, runes filled the sky and many cultivators changed their faces drastically. They tried to resist but they were blown away by the waves, spitting blood and were severely injured in an instant.

"Who is it?"

Jin Chan was also shocked by this sudden scene and turned to stare coldly into the distance.

There was a figure wearing a black battle suit walking over. Wearing a tattered battle suit that emitted a glow, the aura was terrifying. His eyes were blazing with unparalleled power, causing his face to change again.

"Quasi-Emperor Realm existence..."

Jin Chan felt that majestic pressure and following the other party, it seemed that the mountains and seas collapsed to submerge him.

The attack just now was obviously from the opponent, suppressing and killing many monks behind him.

For a Quasi-Emperor existence, there was really no match for him at the bottom of the Demon Burying Abyss.

The most powerful cultivator he brought this time was only in the Quasi-Supreme Realm. The blow just now had already severely injured him. If he hadn't dodged quickly, he might have been pierced by the opponent's spear and killed on the spot.

However, Jin Chan's expression changed again in the next moment. It was even unbelievable that behind this black figure was his old acquaintance Gu Changge.

"Brother Gu, what is the meaning of this?"

Jin Chan's face sank, he was not sure about the relationship between this black figure and Gu Changge.

And he didn't know Gu Changge's intentions.

However, he didn't notice that with the arrival of Gu Changge, the bewildered eyes of the Red-clothed female Demon within the pattern gradually gained focus. Although she was still dazed and confused, her eyes fell on Gu Changge and never moved a bit.

"Master... Master...?"

There was an indistinct murmur in her mouth, which was so obscure that no one could understand it except Gu Changge.

However, Gu Changge's expression didn't change at all. He didn't seem to see her and was still staring at Jin Chan.

Chan Hong Yi's state was as he expected, she had been sealed here for countless years and her sanity was no longer clear.

But no matter when it was calm or when it was violent and murderous, it was definitely not something that ordinary people could get close to.

Her strength was so terrifying that even an Enlightened being would not have the courage to face it and would run away in despair.

This was the fear that seeped into the soul. But this was good news for him.

"Is Jin Chan planning to break the seal of this place and release the Demon who is sealed here?"

Gu Changge opened his mouth slightly. His eyes fell on the Meditation Robe behind Jin Chan Buddha.

At the same time, he walked toward there and the black figure was following behind him respectfully.

This was the guy who tried to surrender and follow him in front of the sea of ??blood before. The strength of the Quasi-Emperor Realm was the absolute overlord in the vicinity and his strength was powerful.

In order to save trouble, Gu Changge named him Alpha.

Jin Chan's complexion changed slightly. It was then he realized that Gu Changge had misunderstood his intentions, so he let the people behind him do it.

But this time was not the time for him to ask about the identity of the black figure.

"Brother Gu misunderstood, I didn't mean to break the seal of this place..." He was about to explain.

However, Gu Changge did not give him a chance to continue talking. His expression was very indifferent, the void changed with his steps and a blur appeared in front of him. He directly raised his hand and patted forward, Jin Chan was shaken as he spit out blood, his body almost exploded.

If weren't for the Buddha's bone in his hand, which emitted a faint Buddha light at the critical moment, blocking Gu Changge's blow.

Otherwise, just now, he would have been shot to death.

"As a monk, his mind is so vicious that he intends to unmask the Meditation Robe sealed here, release the Demon and bring disaster to the world. Jin Chan, you have disappointed this Gu so much." Gu Changge said lightly, his tone seemed cold, even more indifferent.

"Gu Changge... you..."

Jin Chan Buddha coughed up blood and struggled to get up from the ground with an extremely ugly expression.

The Buddha's light in his body was shining, intending to repair the injury. The blow just now almost killed him.

If Gu Changge struck again, he didn't know if he could block him with the Buddha bone in his hand.

Moreover, he didn't know if Gu Changge really misunderstood or if he was planning to kill him here.

This made his heart very cold. He took out the Buddha Mountain's Dharma Artifact Swinging Demon Pestle. This treasure contained the power to sway Demons. With his current strength, although he couldn't fully activate it, it could also provide a little more protection.

"I what? Why do I feel that Jin Chan, you have something to hide, so you plan to release this Demon?"

Gu Changge said lightly and stepped forward again as if to kill him here.

"Gu Changge, you don't want to spit blood, I just want to get back my Buddha Mountain's treasure."

Jin Chan's complexion was extremely ugly. He felt that Gu Changge's repeated deception was too much.

"Oh, that's a good excuse. In order to get back Buddha Mountain's treasure, you plan to release this Demon?"

Gu Changge's smile was slightly sarcastic, but his eyes were still indifferent and unwavering.

"Protect the Buddha."

The cultivators of Buddha Mountain were also very shocked when they saw this scene. They didn't expect that after Gu Changge appeared, he planned to suppress and kill Jin Chan.

They thought that Gu Changge had misunderstood, and thought that Jin Chan was going to open the seal of this place. So they all took action to stop it.

### **Chapter 434-2: Appearing early with two dominant personalities, I'll let you out (2)**

**Boom!!!**

A burst of Buddhist scriptures arose in an extremely brilliant manner like a star falling down, turning the void crystal clear and holy.

However, Alpha just glanced at them indifferently as if watching ants. Then the terrifying wave of the spear sent them all flying out.

Without Gu Changge's order, he did not choose to attack.

"Colluding with Demons and trying to bring chaos to the world. This crime should be punished. Kill them all."

Gu Changge ordered lightly, showing no mercy in his hands.

He just raised one hand and slapped Jin Chan in front of him. The Demonic Pestle in his hand emitted a dazzling Buddha light, like the wrath of thunder, trying to counter Gu Changge's blow.

However, the gap between Jin Chan and Gu Changge was too great and he was blown away in an instant, coughing up blood continuously, his body almost exploding.

The power of the Swinging Demonic Pestle couldn't compete with Gu Changge's palm.

He was seriously injured, and any means were useless in the face of absolute strength.

The rest of the cultivators of Buddha Mountain were no match for Alpha at all. Killing them was no different from killing so-called ants. They exploded in an instant and their souls were annihilated together.

"The riot in Demon Burying Abyss probably has something to do with your Buddha Mountain."

While Gu Changge was speaking, he attacked again.

But Jin Chan was very decisive this time and felt chills all over his body. Seeing Gu Changge's ruthless methods, he directly sacrificed the Demonic Pestle and Buddha bone in his hand.

At the same time, the formation patterns recorded before were called out and the huge Buddha lotus bloomed. A terrifying aura emerged and he fled into it while coughing up blood before he quickly disappeared.

He felt that if he didn't escape, he would definitely be killed here by Gu Changge at this time.

Now that things had come to this point, he naturally didn't dare to take the Meditation Robe anymore. But Gu Changge just watched this scene calmly and indifferently and did not continue to chase.

"If you don't run away, you won't be able to take the blame..."

He hadn't planned to kill Jin Chan here. After all, the seal of the Demon Burying Abyss would break ahead of time and the Red-clothed female Demon would also appear ahead of time. Such a major event would definitely cause a sensation in the Upper Realm and cause boundless waves.

If there was no one to take responsibility, it would bring him a lot of trouble.

And the moment Jin Chan escaped from this place, Gu Changge looked at Chan Hong Yi, then his expression moved slightly and he walked toward her.

In his memory, she timidly pulled the corner of his clothes. The little girl who liked to wear red clothes overlapped with her in front of him.

"Master... Master... Father?"

Chan Hong Yi's eyes were very blank as they fell on Gu Changge's face, feeling close, and wanting to get out of the range where the formation was located.

But when she got close to it, a scorching and terrifying aura suddenly swept over her, making a scorching sound from her body.

This kind of pain didn't stop her from moving, she was still walking toward Gu Changge, very stubbornly. She wanted to walk out through the seal.

**Chi chi!**

The burning sound here became more and more piercing, accompanied by green smoke, but after arriving here, it seemed that there was a moat stopping her.

Sadness appeared on her face.

Gu Changge noticed that the scars on her hands were obviously left when she touched the formation just now. Although they healed quickly, they were still terrifying.

The formations in front of him couldn't stop him. As long as he wanted to, he could destroy them at any time. Although it was laid by the Demon Lord, he was the Demon Lord, and the Demon Lord was him, so it was easy to destroy the formations.

"I'm going to let you out... From today onwards, you are free."

Afterward, Gu Changge spoke, and ancient and obscure language sounded from his mouth.

Chan Hong Yi turned her head to the side. Her blue hair drooping down, she understood what he meant but her expression was still very confused.

She stretched out her white and clean jade hand and tested the formation in front of her eyes. Then there was still a burst of brilliance, making a terrifying burning sound and a puff of green smoke came out.

However, she seemed to be used to the pain, she just looked at her hand. Her gaze was still blank and slowly her eyes fell on Gu Changge's face again.

She felt that she had forgotten a lot, but she remembered that the person in front of her was very important to her.

"In her current state, if she didn't have this formation to wipe out the Demonic and hostile energy, she might attack me immediately..."

"Although she is insane now, she has another personality that destroys the world and slaughters."

Gu Changge's eyes were a little thoughtful. He had seen another appearance of Chan Hong Yi just now, if it wasn't for the formation here, which wiped away her hostility at that time, she might not be so polite to him.

Thinking of this, Gu Changge still decided to give it a try, but before that, he moved his figure to get the Meditation Robe sealed on the top of the mountain. This thing was very effective in suppressing the hostility against Chan Hong Yi, so he had to get it first.

Many Buddha lights intertwined as they finally turned into a majestic and vast pressure, sweeping all directions.

As soon as the Meditation Robe was loosened, the many Buddha shadows in this place disappeared immediately. The Buddha's voice permeating everywhere finally returned to the Meditation Robe.

He had to say that this treasure of Buddha Mountain was very mysterious, as long as one gets close to it, one's mind would be at peace and the hostility would be dissipated.

And at the moment when Gu Changge took away the Meditation Robe, with a thought in his mind, all the formation patterns inscribed in the void and between the four walls collapsed and dissipated.

The seal was broken.

In the Demon Burying Abyss, there was the sound of thousands of Demons crying, which made one's scalp tingle. All the Demons were fleeing as if they felt something terrible.

The vast and terrifying Demonic energy suddenly soared into the sky, shaking the sky as it darkened the star field within a radius of tens of thousands of miles.

This was an extremely shocking scene, the stars went dim and the blood clouds were soaring.

Many cultivators of the sects and forces were shocked. They felt that there was a cloud of blood billowing in the distant sky, covering the sky and blocking out the sun, which was frightening.

"Attack!"

The moment Gu Changge finished doing this, he felt a surge of hatred and a murderous aura enveloping her.

Chan Hong Yi stood where she was, the confusion in her eyes disappeared and all of them turned cold and heartless, even her pupils were dyed blood red.

The hair fluttered and the terrifying hostility that seemed to have been accumulated for countless years, erupted like a mountain torrent bursting a bank. It could be called earth-shattering, shaking the past and the present.

At this moment, she only had Gu Changge in her eyes and she only had one thought, which was to kill him.

However, before she could make a move, the void in front of Gu Changge split open. He had anticipated and arranged Alpha. He then turned around and left this place, without staying for a long time.

At the latest, in half a year, the seal here would break and dissipate and at that time Chan Hong Yi would also appear

The Meditation Robe did have a miraculous effect on suppressing her hostility, but in conjunction with the formation here, Gu Changge did not take any risks. Once he got close to Chan Hong Yi at this time, it would definitely be a disaster.

Now he had let her be born half a year earlier, which could make things much easier.

Dominating Chan Hong Yi's current personality was already the indelible hatred in the deepest part of hell.

After seeing Gu Changge's disappearance, Chan Hong Yi's expression didn't change at all, she was still cold and heartless and didn't make any movements.

In the next moment, she opened her mouth suddenly and screamed at the bottom of the abyss. Countless streams of Demonic energy and monsters gathered towards her like a river flowing into the sea and rushed toward the Demon Burying Abyss together.

This was an incomparably overbearing method to plunder everything in the world.

The star field went dim and the large expanses of stars seemed to be swept away at this moment, leaving only barrenness in an instant. The lives of all creatures and cultivators were swallowed up.

"Chan Hong Yi's mind and soul are damaged, her memory is incomplete, her mind is confused. She only has nostalgia, the other is only hatred... Fortunately, she can't be like ordinary people, otherwise, she would have found my current identity easily."

"I'll let her vent for now."

After Gu Changge left the bottom of the abyss, he went to find Jiang Chuchu and the others to meet up and left the Demon Burying Abyss first. There were some things that didn't need to be explained to her too much.

She could guess it by herself.

"Just now Jin Chan escaped from the teleportation pattern after being severely injured..."

"Is the matter in the Demon Burying Abyss related to him?"

Jiang Chuchu asked, at that time she was about to take down Jin Chan, but he was very cautious and directly shook her away with the Demonic Pestle before fleeing to the distance without stopping.

She was worried that something might happen to Gu Changge down below, so she didn't chase after him.

"Buddha Mountain once used a treasure to seal the Demon at the bottom of the Demon Burying Abyss, but Jin Chan intends to take that treasure away, regardless of the consequences, he plans to release the Demon."

"I saw his actions and fought him, but he was severely injured and escaped..."

Gu Changge shook his head slightly and then explained what he understood in a different way.

Including how the abbot of the Hanging Buddhist Temple once stole the Buddhist treasure and how he left it at the bottom of the abyss.

So things turned out that, as the reincarnation of the former abbot of the Hanging Buddhist Temple, Jin Chan, who was still in the dust, tried to release the female Demon who was sealed under the Demon Burying Abyss.

After hearing this, Jiang Chuchu was in a restless mood. In other words, the horrific movement just now was a sign that the Demon of the Demon Burying Abyss was born half a year earlier.

## **Chapter 435-1: She will naturally stop when she is tired of killing enough, Push the blame to the scapegoat (1)**

"Is this the truth of the matter?"

High in the sky, streaks of divine lights pierced through the sky at a very fast speed.

After the earth-shattering changes from the Demon Burying Abyss, Gu Changge and others were quickly fleeing from the Demon Burying Abyss.

After listening to the explanation, Jiang Chuchu was extremely surprised. She didn't doubt Gu Changge's words, but she hadn't expected such a thing to happen.

Because she had a feeling at the time that Jin Chan's motives were impure. It turned out that this was the truth of what she had guessed at the time.

In this way, it explained why Jin Chan let everyone separate at that time. It turned out that he had other plans, planning to release the female Demon who was sealed off in the Demon Burying Abyss.

At that time, she still felt that Jin Chan didn't have the courage to do so, but unfortunately, she really underestimated Jin Chan's courage.

Moreover, it was the first time she had heard that Buddha Mountain had hidden such a secret over the years.

It was unbelievable that the former eminent monk of Buddha Mountain was bewitched by the female Demon from the Buried Demon Abyss which moved his Buddha's heart, thus betraying Buddha Mountain and stealing the treasure of Buddha Mountain.

If word of this got out, this matter would definitely cause a huge sensation and shock many sects and forces.

In this way, it was not for nothing that Jin Chan would do this.

"How strong is the Demon in the Demon Burying Abyss?"

Jiang Chuchu asked, remembering another important thing.

If the strength of the Demon among them was not high, it was possible to unite with the various Dao forces and send out powerhouses to seal it off again.

Gu Changge glanced at Jiang Chuchu when he heard these words. He shook his head, and said, "Her strength is terrifying. I guess ordinary Enlightened beings are not her opponents. At this time, you should not interfere. With her strength, it may take a while for her to emerge. There will be no peace in the Inner Realm."

Although Chan Hong Yi had not left the Demon Burying Abyss yet, Gu Changge believed that she would show up everywhere in the world before long.

The Hanging Buddhist Temple near the Demon Burying Abyss would definitely bear the brunt.

During this period, he didn't need to worry too much. Some other sects and forces would have a headache.

It was just that he had to think about how to solve the problem of her revenge. The Buddha Mountain was one way, but it was not enough.

"Chan Hong Yi's hostility will subside after a while. This is an opportunity. Judging from the situation, it was the power of the formation that drained her energy and allowed her to regain her composure. So as long as Chan Hong Yi is tired from killing enough, she will naturally rest for a while."

Gu Changge already had a countermeasure in mind, so he was not in a hurry.

As for how much slaughter would be caused by the birth of Chan Hong Yi in the Upper Realm, this was not something he considered.

He released Chan Hong Yi ahead of time and the essence didn't change much.

"General Enlightened beings are not her opponents?"

Jiang Chuchu frowned slightly. Her heart became more and more restless.

Even Gu Changge said that which only showed that the female Demon's strength was terrifying and unimaginable.

Otherwise, he wouldn't have taken everyone away from the place the moment he left Demon Burying Abyss.

This already showed how much Gu Changge feared her.

In the past, he had always been calm and his face would not change even when the sky was falling.

However, the black and terrifying figure suddenly appeared beside Gu Changge like a bodyguard and never left.

She was still a little curious, but it obviously involved Gu Changge's secret, so she didn't ask any more questions.

Judging from its strength, it had probably surpassed the Supreme Realm. The leaking aura alone was enough to shatter a person's body, which was very terrifying.

"During this period, you should head back to the Human Ancestor Hall and cultivate in peace first. Ignore the many things outside."

Afterward, Gu Changge looked at her and said softly.

Jiang Chuchu hummed softly. She was very obedient and she also knew that this matter was of great importance. It was not her time to be willful.

Gu Changge told her not to come out because he was worried about her safety.

At the same time, outside the Demon Burying Abyss, the Demonic aura was overwhelming, hostility was shocking and it was icy cold.

A faint snowflake actually floated between the sky and the earth. It was very crystal clear, mixed with divine light but mixed with blood and even a terrifying vision was reflected in the sky.

There were mountains of corpses and seas of blood filled with piles of bones.

Blossoming Blood-colored Lotus blossoms were incomparably gorgeous and eye-catching.

The beautiful Red-clothed woman with flying black hair and snow-covered bare feet, walked out of it. Her aura was cold and heartless, and her eyes like knives.

Standing under the sky, she opened her mouth and screamed.

All the anger and Demonic energy within a radius of ten thousand miles rolled in, covering the sky and the sun, like wolf smoke as it was swallowed by her into her mouth before turning into a gushing and vast energy.

Afterward, her indifferent eyes fell as she looked at the many cultivators and creatures who came here because of the changes in this place.

These cultivators and creatures were very powerful. They were not ordinary people. They were all big figures of various Immortal sects and ethnic groups.

But at this moment, they went cold. Their backs seemed to be frozen and they felt like they were being targeted by their natural enemies.

"Who is this? Could it be a fierce Demon born at the bottom of the Demon Burying Abyss..."

A group of powerhouses trembled all over because of the flawless face of the Red-clothed female Demon. They were slightly sluggish and then they realized that they couldn't help but want to retreat.

"Could it be that the seal of Demon Burying Abyss has been broken? But something is wrong!"

There were also people who were terrified and trembling, planning to leave this place, feeling frightened, wanting to escape.

Such a woman with a strange aura was obviously abnormal. Her strength was unfathomable, as vast as an abyss.

"No, she's following us... Hurry up, this place is dangerous, we can't stay here for long!"

"It's definitely the Demon who was sealed at the bottom of the Demon Burying Abyss, She... she was born!"

Many people came to their senses and felt that the female Demon's gaze was like a knife from the sky. If she wanted to see through them, even their spirit and soul would be annihilated.

What the other party was looking at was not them, but their souls!

After understanding this matter, they did not dare to stay at all.

Some people even burned their life essence, activated the secret technique, burned their whole body, turned into a divine light and fled away, terrified to the extreme.

"Who on earth released this Demon? Don't let this old man know, otherwise they will definitely be hacked into pieces. They will regret coming to this world for the rest of their lives..."

Someone was cursing, full of regret and fear, trying to escape from this place with all their strength.

If they had known that this kind of thing would happen here, they would not have come here out of curiosity. It was in line with a sentence that curiosity killed people.

But in the next moment, boundless hostility and Demonic energy covered the sky and enveloped the sky and earth.

"Not good!"

All the fleeing cultivators and creatures were terrified and desperate. Their souls were almost frozen and it was difficult to escape from the scope of this Demonic energy.

The eyes of the Red Witch were cold and heartless, without any fluctuations.

She just raised her palm and swiped forward with one finger. The red glow filled the sky, like blood-colored stars falling down.

Suddenly, the world seemed to be separated and the terrifying murderous aura swept across the region, making countless stars tremble.

**Boom!!!**

With just one flick, this finger caused chaos in the world. It was extremely frightening as it instantly penetrated everyone in front of it.

Then with a bang, everyone despaired and exploded into the void, turning them into a blood mist. Their bodies and spirits were wiped out.

The vicinity of the Demon Burying Abyss was immediately stained with boundless killing and blood.

The Red-clothed female Demon emerged from it and walked into the void with a flawless face and fluttering black hair, very slowly, but the laws of the nearby world changed because of her steps. The mountains and rivers flowed within a short distance.

She seemed to know where Gu Changge's aura was and walked slowly toward the direction he left, unhurriedly, indifferently.

All the creatures along the way were slapped to death by her until they reached the mountain gate of the Hanging Buddhist Temple.

Here she stopped, listening to the sound of the wooden fish knocking down, the Buddha's light shining in all directions, giving a sense of holiness and tranquility.

However, she frowned, as if she didn't like this kind of aura. She rolled up her sleeves, and the surging Demonic energy rushed in.

The brilliance in front of the Hanging Buddhist Temple dazzled the sky and figures of ancient monks and Buddhas appeared to resist this blow.

All the monks rushed out amidst a drastic change of expression but in just a moment, they disappeared, turning into ashes and collapsed into the void.

Including the formation of the Hanging Buddhist Temple, which only persisted for a while before it collapsed and exploded.

An old monk with profound Buddhist teachings resisted for a while but in the next moment, he coughed up blood and collapsed, destroyed in his body and spirit.

Under this terrifying power, they were as weak as ants. They had been cultivating for many years, but it was useless.

### **Buzz!!**

In the next moment, the vast Buddha light manifested, illuminating the sky brightly. The golden light surged and the precious appearance was solemn. An old monk with white eyebrows sat cross-legged with kind eyebrows and eyes. He opened his eyes and appeared in the sky.

"Amitabha, it's better for the female benefactor to let go of her hatred..."

He chanted the Buddha's name and saw what happened here. He felt sad and helpless, but he was still going to persuade the female Demon to let go of her hatred.

However, before he could finish his words, he felt that his mind went numb. A crystal-clear and flawless, slender finger-like green onion had pierced through his brows, making the rest of his words stuck in his throat.

The last aura of his astonishment and shock remained in the eyes of the white-browed old monk. He had no idea how the Red-clothed female Demon appeared beside him, and then the last brilliance in his eyes dimmed. His body and spirit disappeared.

### **Chapter 435-2: She will naturally stop when she is tired of killing enough, Push the blame to the scapegoat (2)**

The female Red Demon walked past his corpse. Her eyes were like knives and she was cold and heartless as if she felt an eyesore from crushing a small insect to death.

She stopped here. There was a sea of ??blood and corpses at her feet, which made her jade feet look crystal clear and white. Then she looked at the distant place and walked again.

On this day, there was great chaos in the Demon Burying Abyss and the Demonic energy was overwhelming.

The star field within a radius of tens of thousands of miles was dimmed. Many ancient life stars and ancient cities turned into barren and dead places in one breath.

This news quickly spread to all parties, causing a huge sensation. Many cultivators and creatures were shocked to the extreme.

The origin of the Demon Burying Abyss was very mysterious and ancient, even spanning countless epochs.

Many ancient existences had guessed that the existence time of the Demon Burying Abyss surpassed many Immortal forces in the Upper Realm today.

It could even be traced back to the taboo era that was buried in history for a long time.

Now, there was a terrifying aura in the Demon Burying Abyss as if an unrivaled fierce Demon had awakened and wanted to wash the world with blood.

The shock caused by this incident was beyond imagination.

A cultivator once went to the Demon Burying Abyss to investigate, wanting to know what kind of existence was sealed in it, but before getting too deep, he died tragically in it.

Over time, in the eyes of many creatures and sects, the Burying Demon Abyss had become no different from the so-called forbidden area.

Now the Demon among them was born, her origin was absolutely ancient and had not changed and her cultivation might even surpass the Emperor Realm.

The cultivators and creatures who went to the Demon Burying Abyss to investigate all died and none of them survived. The methods of the ominous demon could be called cruel and indifferent.

Moreover, the most sensational thing was that the Hanging Buddhist Temple responsible for guarding the Demon Burying Abyss was submerged in a sea of ??blood within a day and turned into ashes. All the monks in it were killed.

Even an old monk who had already reached the Quasi-Emperor Realm fell to his death. The center of his brow was pierced and he died tragically in an instant.

When this incident came out, boundless waves were set off immediately, everyone was shocked by it.

Behind the Hanging Buddhist Temple was Buddha Mountain, which had existed for countless years and was extremely ancient. It was responsible for guarding the evil spirits beside the Demon Burying Abyss.

But overnight, it turned into ashes and dust and disappeared.

Moreover, a monk in the Quasi-Emperor Realm, who had been cultivating Buddhism for countless years, died so tragically, which showed the horror and strength of the Red Demon.

Many people were in danger, worrying that the Red Demon would destroy the world after she was born. So far, they had not thought of any way to deal with her.

However, many people were also puzzled, because they knew that the seal in the Demon Burying Abyss could last at least half a year. Why was the Demon born early?

What the hell happened?

When the Demon of Demon Burying Abyss was born, Gu Changge, the Holy Maiden of the Human Ancestor Hall, Jin Chan and others all went to it to subdue the Demon in an attempt to solve the disaster.

Many people were wondering and doubting, wondering if this matter had anything to do with them. Otherwise, how could there be such a coincidence?

Moreover, there were very few cultivators who escaped from the Demon Burying Abyss this time. Many powerhouses who went with them all fell to the ground with blood.

Buddha Mountain suffered heavy losses. It was said that only Jin Chan escaped.

The turmoil caused by this matter was not small, but the forces behind Gu Changege, the Holy Maiden of the Human Ancestor Hall, Jin Chan, and others were all serious. No one dared to speak nonsense.

But there must be a way to deal with this matter. At the same time, the reason why the Red Demon escaped from the trap must be found.

But soon, a piece of news came out, shocking everyone again.

"What?"

"The Red Demon in the Burying Demon Abyss was released by Jin Chan?"

Many cultivators and creatures who received the news were shocked and stood there dumbfounded, not daring to imagine.

Many sects immediately caused a sensation, because the force that spread the news was the Human Ancestor Hall.

This had to make people cautious because it was impossible for the Human Ancestor Hall to frame Buddha Mountain for no reason. There must be some basis and reason for this.

"Jin Chan went to the Demon Burying Abyss, intending to take away a treasure of Buddha Mountain that was sealed at the bottom of the Demon Burying Abyss. It was because of this that the seal was loosened, and the Red Demon escaped."

"Furthermore, Jin Chan is the reincarnation of the abbot of the Hanging Buddhist Temple. It is said that he was bewitched by the Red Demon at the bottom of the Demon Burying Abyss, losing the Buddha's heart before he stole the treasure of Buddha Mountain and tried to dispel the evil spirits from the Red Demon. Demonic nature, in the end somehow lost in it..."

"I really didn't expect that the Buddha Mountain would hide such a scandal. It hasn't been heard in these years."

Countless cultivators and creatures were shocked, feeling that the news was too explosive. Buddha Mountain, which had always regarded itself as a noble place, unexpectedly had such a thing happen.

The abbot of the Hanging Buddhist Temple was said to be a genius rarely seen in Buddha Mountain in thousands of years. He possessed the heart and wisdom of a Buddha and was destined to become a saint and a Buddha. In the end, he went astray and was bewitched by the Red Demon.

Moreover, after such news came out, all parties were shocked and Buddha Mountain, who was the party involved, did not respond in any way.

In the eyes of many cultivators, this was Buddha Mountain's fault.

All of a sudden, righteous indignation filled many people and even a powerful person appeared and entered the Buddha Mountain to ask for an explanation because some of their clansmen died tragically at the hands of the Red Demon, but they did not dare to seek revenge from her.

Facing the anger and condemnation of all Immortal and ancient forces, Buddha Mountain responded with silence.

Many cultivators and creatures rushed to Buddha Mountain to seek justice.

If it wasn't for Jin Chan's loosening of the seal, how could the Red Demon be born early, catching everyone by surprise?

If the time was delayed a bit, they could figure out a way.

For this reason, many people went to Buddha Mountain to ask for an explanation. Anyway, this matter was inseparable from Jin Chan.

"This matter is my fault. I cannot stay in Buddha Mountain."

"But it doesn't have much to do with Jin Chan. I also believe what he said."

At this moment, in the resplendent hall of Buddha Mountain, many Buddha lights were shining, incomparably holy and the charm of Buddha was flowing.

Many highly cultivated monks gathered here, surrounded by merits and virtues, looking at Jin Chan kneeling in front of the Buddha, with complex expressions, including compassion, anger and sighs, but they were calm.

Many rumors from the outside world seemed to have nothing to do with them.

The one who spoke at this moment was a benevolent old monk, wearing some shabby monk robe, with faint breath.

If one closed their eyes, one would even feel that there was no one in front of them. This person did not exist in the Six Realms of the world.

His cultivation had reached an unfathomable level, it was hard to describe it in words, and his eyes were very calm and clear.

But it also contained endless vicissitudes and profundity, containing all kinds of mysteries and laws of the world, the evolution of the universe and the scene of the collapse of the heavens emerged.

"Master..."

Jin Chan's face showed guilt and he bowed his head and knelt on the ground.

The old monk in front of him was Ru Fo, the current abbot of Buddha Mountain.

"I believe you in this matter. You were just tricked by Gu Changge once. You are lucky to escape with your life."

The monk shook his head slightly with kind eyebrows and kind eyes, giving people a sense of peace.

Hearing this, Jin Chan also felt at peace, without any trace of uneasiness.

He also knew many things about the outside world. Even Buddha Mountain could hardly keep him and needed to give an explanation to many forces and sects.

This matter made him very angry, but more of it was powerlessness. No matter how much he defended, it would be difficult to change anything.

Even if he explained that when he took the Meditation Robe, he planned to use another treasure to suppress it, who would believe it?

On the contrary, they would feel that he was sophisticated, and would even be very angry.

No matter what aspect he was in, Gu Changge had beaten him to death.

He even felt that the reason why the Red Demon appeared was definitely caused by Gu Changge's greed for the treasure of Buddha Mountain and taking it away.

In the end, Gu Changge beat him up, framed him and even revealed the secret scandals of his previous life, which made Buddha Mountain feel ashamed.

Although this news came from Human Ancestor Hall, he did not believe that Gu Changge was not behind it.

All kinds of actions made him furious and at the same time, he felt chills in his heart, feeling that this opponent was extremely terrifying.

For a treasure, he did not hesitate to release the Red Demon to bring disaster to the people of the world, and he pushed all the blame away on a scapegoat.

Taking away the treasure by himself, while causing disaster to the world and also won a good reputation.

#### **Chapter 436-1: A very small space is enough, Start dealing with the Child of Luck (1)**

"My Buddha Mountain will explain this matter to the outside world. During this period of time, Jin Chan, you should take good care of your wounds. Announce to the outside world that you have already turned your back on the wall and thought about it."

Inside the treasure hall, Ru Fo shook his head lightly.

He placed his palms together, chanting the Buddha's name as he informed everyone.

Jin Chan was a descendant of Buddha Mountain and was also a candidate for the abbot of the next generation. They would not allow him to have an accident.

Even this time, many rumors from the outside world were not good for Jin Chan. They also had to find a way to protect him.

Heavenly Emperor Mountain, Endless Fire Nation and other forces all took the opportunity to attack together with the previous hatred, to settle accounts at once.

The situation was very unfavorable to them, but at this time, there was no other way but to do so.

Gu Changge was indeed a difficult guy, it was hard to believe that he was just a young man. Such methods had left many old monsters behind.

"I understand. Thank you, Master."

Jin Chan nodded since Ru Fo had already said so.

Naturally, he didn't have to worry about this anymore, he just had to take good care of his injuries.

This time, in order to escape for his life, he did not hesitate to use a secret technique that severely injured him. It was difficult for him to heal in a short time.

Moreover, after being bombarded twice by Gu Changge, his body had almost collapsed. He was hanging on thread due to the spirit pills, otherwise, he would have definitely fallen into the Demon Burying Abyss.

He was already wary of Gu Changge to an unprecedented degree, but he still fell into a trap.

Afterward, Jin Chan got up and left the hall, Abbot Ru Fo sent back the monks and said slowly, "Do as I said just now."

"But Abbot, do we really have to endure this matter so much?"

Some cultivators looked angry, knowing that this matter had nothing to do with them. Yet they still had to grit their teeth and swallow it.

This was not in line with their usual predestined cultivation. They were worried that if this matter was not resolved, it would give birth to heart demons.

"Gu Changge is indeed deceiving people too much, so he put the blame on us."

"This matter can't be settled like this..."

The rest of the ancient cultivators and monks also looked somewhat sullen.

It was true that they cultivated Buddhism, but they had not reached the point where they would be honest at a disadvantage.

What was more, it was well known that no matter what happened, Buddha Mountain must not suffer.

This matter had nothing to do with them but now they had to find a way to deal with it and solve it, which was extremely frustrating.

Gu Changge's identity and strength were not simple at all. In front of the background of the Ancient Immortal Gu Family, even if it was the mysterious Buddha Mountain they were extremely fearful.

The abbot was like a Buddha hearing the words. His expression remained unchanged, and he said, "It is true that this matter cannot be counted in this way, but this is the only solution now."

"Everything in the world has a destiny. Every drink and peck has its own cause and effect. Gu Changge will naturally deal with the consequences of his actions. You don't need to worry about it..."

Hearing what the abbot said, the faces of many cultivators softened a little, so they gave up.

Then, there was news from Buddha Mountain that because of what Jin Chan had done, they were willing to eliminate Demons from the world. They would send many cultivators with profound Buddhist teachings to suppress the Red Demon.

At the same time, they would pay compensation to many forces that had encountered the unforeseen disaster.

Needless to say, Buddha Mountain accumulated wealth over countless years and their believers were from all walks of life.

Their announcement made many forces relax their attitudes. Though many people felt that this matter would not be that simple.

The cultivation of the Red Demon had reached an unfathomable level, and it was no longer something that ordinary Enlightened beings could deal with.

Her birth was a catastrophe for the forces and sects along the way. Many ancient life stars and ancient cities had been turned into barren lands.

And her whereabouts seemed to have her own purpose.

This made many cultivators feel strange. She didn't attack every place she saw but walked in a certain direction after leaving the Demon Burying Abyss.

Because of this relationship, many sects and forces along the way felt the danger in advance and moved away.

However, there were also many cultivators who wanted to be famous and were not afraid of death, trying to get a glimpse of the true face of the Red Demon. Since it was rumored that she bewitched a proud figure of Buddha Mountain back then by virtue of her appearance, this made many cultivators curious and they wanted to know how beautiful she was.

But no one knew the answer, because there was no living person within the radius of the Red Demon.

...

At the same time, in the Ancient Immortal Gu Family.

The palaces were vast and there were spirit birds flying in the mid-air, accompanied by many streams of light and descending flowers, which were incomparably gorgeous.

Gu Change stood on the top of the mountain, dressed in white clothes like snow. He was spotless and unearthly. He looked into the distance, the mist surging and the red sun sank as if he was standing in an ancient divine realm.

Everything in the world was under his control.

"This glow is so similar to the color of blood, don't you think so? Alpha."

Gu Change admired softly, looking at the redness in front of him as he asked.

Alpha standing behind him was wearing a jet-black battle suit, flowing with immortal light, like a bodyguard. His face was hidden under the dark iron, his eyes were as bright as fire and he said respectfully, "Reporting to the Lord, it is very similar."

Gu Changge smiled, the maid at the side saw this and hurriedly brought the tea to the stone table.

He took a sip and said, "Unfortunately, this blood color is not enough."

After leaving Demon Burying Abyss, he separated from Jiang Chuchu and asked her to stay in the Human Ancestor Hall.

Then he brought Alpha back to the Gu family and asked the family to find icy things such as dark iron to recast Alpha's battle clothes and weapons.

After all, it was the existence of the first level of the Quasi-Emperor Realm. The weapons and battle clothes he used before were not even at the Supreme Realm, making it difficult for him to exert his full strength.

Nowadays there was a lot of noise about the Red Demon in the outside world. It was even comparable to the war in the Eight Desolation and Ten Territories.

Even the misfortune of Absolute Heavenly Extinction was not as shocking as it was now.

Compared with the Red Demon, it was not so important to avoid the disaster of the Absolute Heavenly Extinction.

Of course, this was because the Absolute Heavenly Extinction had not yet really erupted. Therefore, Gu Changge had to consider other things next.

He originally thought that Chan Hong Yi couldn't find him, but judging from the route she traveled after leaving Demon Burying Abyss, she clearly knew where he was. So no matter how far away she was, Chan Hong Yi would find him sooner or later.

However, before that. There were many things that Gu Changge could do first and he would only consider her matters when Chan Hong Yi wanted to find him.

Now that there were so many sects and forces in the Upper Realm who were planning to eliminate Demons, he wanted them to make a fuss first.

Anyway, judging by Chan Hong Yi's strength, in the current Upper Realm it might be very difficult to find someone who could hurt her.

During this period, he planned to deal with the affairs of the Hidden Ji family and the Tang family, and also deal with Qin Wuya, the Son of Luck, the elder brother who returned from the Nine Heavens.

Ji Qingxuan and Su Qingge could arrange it later.

After all, the leeks had been grown for so long and it was time to harvest them. There was also news from Yin Mei that they had encountered some troubles.

Because the affairs of the Tang family did not go as smoothly as Gu Changge expected at the time.

There was no problem with marrying immortals but at that time, there were many people with foreign surnames who had never cultivated, which led to disagreements in the Tang family.

Some people were controlled by Gu Changge, while others took the opportunity to attack the head of the Tang family.

Among them, Qin Wuya noticed the change in the Tang family and used his means to help Tang Wan and the Tang family resolve the matter.

Afterward, outside the gate of the Gu family mountain, the sound shook the sky and there were nine black dragons flying across the sky, pulling a white jade chariot away, piercing through the void, and going away quickly.

### **Chapter 436-2: A very small space is enough, Start dealing with the Child of Luck (2)**

...

The land of the Tang family was a small world like a paradise, very grand.

There were rows upon rows of palaces and pavilions, surrounded by a light mist and verdant trees, dotted with springs and waterfalls. Displaying great wealth.

Many people from the Tang family, whether they were members of the same family or people with foreign surnames, had gathered here to discuss the affairs of the Tang family.

In the main hall, a woman in white sat at the head seat, with a calm expression. She was very beautiful.

But this kind of beauty was full of strangeness and charm. Different from other women she had a frown and a smile that seemed to turn all living beings upside down.

Her melon-like face was not big, but the white and flawless suet jade was shining with a moving luster. And her bright eyes were like red gemstones, shining faintly.

The nine snow-white and fluffy fox tails behind her were supported by several maids, with serious and dignified faces.

Now the old lady of the Tang family was standing behind her respectfully.

The same was true for the rest of the higher members of the Tang family, who respected Yin Mei quite a lot.

Tang Wan was in the crowd, secretly anxious in her heart. For some reason, the family decided to hand over many properties to Yin Mei all of a sudden.

Even her grandfather, uncle and others had no objection to this. This was completely different from the people she usually knew and the most important thing was that all of this happened without her knowledge.

At that time, Yin Mei brought people to the Tang family and said that she would take over the important affairs of the Tang family in the Wan Dao Business Alliance.

She still thought that Yin Mei was just dreaming. Even if Gu Changge was standing behind her, she could not let the Tang family let go and abandon the family interests.

Unless Gu Changge ordered her to persuade the clansmen, it would be very difficult to succeed. Because she understood the character of her grandfather, uncle, and others. They would not be reconciled to entrusting the family business that had been in operation for so long.

This kind of thing was simply impossible.

However, Tang Wan was shocked and felt incredible that her grandfather, uncle, and others, after seeing the jade talisman handed over by Yin Mei, changed their complexions drastically and then turned pale for a while before agreeing in a slumped manner.

They didn't tell her what was in that jade talisman. No matter how she asked, they didn't explain it.

It was just that the good times of the Tang family were coming to an end, so they could only agree to Yin Mei's request. However, after this decision was made, it immediately caused a great commotion in the Tang family.

Although many people of the same clan were shocked, confused and puzzled by this, they would never refuse the old lady's orders.

Many people still think that the Nine-Tailed Sky Fox Clan had seized their lifeblood. Otherwise, the Tang family would not have responded in this way.

The Tang family decided to entrust the property to Yin Mei, but the people with other surnames refused to agree because many properties of the Tang family were handed over to them.

Now, after handing those over to Yin Mei, wouldn't it just cut off their lifeline?

So many clansmen with foreign surnames gathered together and came to the Tang family to ask for an explanation. Behind Tang Wan, Qin Wuya, who had changed his mind, stood quietly.

He knew the troubles Tang Wan had encountered this time. The Tang family didn't know what lifeblood was in the hands of the goddess of the Nine-Tailed Heavenly Fox Clan.

And what this lifeline was, he still had no idea. But he believed that as long as he thought of a way, he would be able to help her find it.

As the wife of his previous life, Tang Wan had seen the sorrow in her eyes and the pain in her heart.

For example, these people with foreign surnames in front of him were all secretly persuaded by him to come here. His purpose was to put pressure on the Tang family, and at the same time, Yin Mei would get into trouble and it would be difficult to solve the matter.

Fortunately, things went well, and according to his plan, the matter of entrusting the property to the Tang family was temporarily delayed.

Moreover, if the matter was not successful, he could only find another way. Either find a chance to kill Yin Mei or force her to tell the truth, about why everyone in the Tang family would be so jealous and respectful to her.

"Qin Ya, why did you say my grandfather listened to Yin Mei so much?"

Tang Wan looked at Yin Mei who was sitting on the first seat, feeling very puzzled, and couldn't help asking Qin Wuya who was behind her.

Qin Wuya changed his name to Qin Ya by her side. He was very calm, his eyes moved slightly and he said, "Maybe he was threatened by something."

Tang Wan sighed in her heart. She also guessed the reason, but everyone in the Tang family did not explain. And she knew that the person behind Yin Mei was Gu Changge.

It was not easy for her to stop this matter, for fear of being noticed by Gu Changge.

However, in the past few days, people with other surnames would come to the Tang family to make a fuss, asking for an explanation, which made Yin Mei exhausted. However, these people with other surnames still had a lot of resources in their hands, and it was not easy to get rid of them.

If there was a conflict, it would be a big blow to the entire Tang family's property and the gains would outweigh the losses.

This incident made her somewhat relieved, and she didn't want the property she worked so hard to fall into the hands of others.

"If this matter is related to Gu Changge..."

She sighed in her heart, feeling a headache and not knowing what to do.

Afterward, she and Qin Wuya left the hall and did not continue to get involved in this matter. Now she only wanted to solve this problem.

"Miss Wan'er, you don't need to worry too much about this matter. There must be a road ahead. The waterway and bridge are naturally straight."

Qin Wuya opened his mouth and vaguely guessed what Tang Wan was thinking. This made him firm in his plan. With his ability, it was not difficult to lurk quietly.

"Is there something you can do?"

Tang Wan looked at Qin Wuya, she knew Qin Wuya's purpose for staying by her side and could feel his most sincere concern for her.

But this kind of past life made it difficult for her to accept it. Although she was disappointed with Chu Hao, it didn't mean she would accept Qin Wuya.

Moreover, Gu Changge also ordered her to monitor Qin Wuya's actions and whereabouts.

So she only felt guilty towards Qin Wuya and had no other intentions. Hearing what he said now, she gave birth to some hope.

Qin Wuya nodded and said, "I have some ideas about this matter..."

But at the moment in the palace, Yin Mei didn't know that Qin Wuya was behind all this.

Having to deal with these people with other surnames every day, she couldn't help but feel irritable, so she informed Gu Changge of the matter and waited for him to handle it personally.

"Miss Yin Mei, these people with other surnames really don't give a damn, so don't get angry with them."

Seeing many clansmen with foreign surnames arguing and leaving, Elder Tang saw that Yin Mei's expression was not right. So he said hurriedly, feeling uneasy and worried.

The lives of their clan were still in Yin Mei's hands. If it made her angry and she destroyed their clan, wouldn't they cry when they wouldn't be able to find it?

He felt very bitter in his heart. For some reason, almost all the lives of the whole family were suddenly controlled by Yin Mei.

That was why he agreed to Yin Mei's request and handed over the family business.

It was a pity that until now, he still didn't know where she got such means.

"I'm not going to be offended by it."

Yin Mei glanced at him lightly.

She was just worried in her heart whether she would disappoint Gu Changge because she didn't handle this matter well.

"Just don't get angry, these guys have no eyesight. They don't deserve your seriousness."

"Don't worry, the old man will take back the many properties in their hands soon, and it doesn't matter if they have to be killed or cut."

Old Tang breathed a sigh of relief, and couldn't help but promise. Through this incident, he also saw the wolfish ambitions of these foreign clansmen.

Before that, they didn't know that they had this idea and planned to annex the rest of their family's property.

Yin Mei nodded and said, "I have already informed the Young Master behind me about this, and he should come here. Just get ready for it."

"Don't worry, the old man must be ready to meet him."

Hearing this, Mr. Tang's face turned serious, knowing that Yin Mei was actually just taking over for someone else and there was actually another person standing behind her.

As for who that person was, Yin Mei did not disclose it before. Although he had some guesses, he would not be sure until he saw the real person.

Then Mr. Tang rushed to make arrangements.

Yin Mei rubbed the center of her brows with some headaches, but because she was going to see Gu Changge soon, she felt a little happy again with a bright look on her face.

Today, she was specially dressed up, her nose was straight, her lips were bright red, and her hair was soft and smooth, charming all beings.

Even the fox tail had been carefully groomed, the fur was white and flawless and it was shaking gently, looking very fluffy.

Some time ago, Gu Changge ordered someone to send a Quasi-Emperor weapon, which surprised her and made her very happy.

It was not because of the preciousness of the Quasi-Emperor weapon. But Gu Changge still remembered her in his heart, and didn't forget her and discarded her in the corner.

She didn't have many extravagant hopes, and a small place in Gu Changge's heart was enough.

She wouldn't think about the rest, let alone ask extravagantly.

### **Chapter 437-1: Dont you want to? Found the warm feeling of the previous life (1)**

Elder Tang ordered that all members of the Tang family were to prepare for the welcome of an important person who would be arriving at the Tang family.

Although they didn't know who the big man was, it didn't prevent them from feeling a sense of respect in their hearts.

Although the Tang family was not as old as the other Great Sects, it could occupy a place in the Wan Dao business alliance, which was enough to show the strength of the masters of the Tang family in the past.

Moreover, their Tang family had unimaginable trust in the words of the Old Master Tang, and many members of the clan were shocked.

"A great man, could it be him?"

Tang Wan immediately thought of Gu Changge and was very surprised. Besides Gu Changge, who else could make Yin Mei respect someone so much?

"What is he doing in the Tang family at this time?"

She felt uneasy and felt that the reason why the old man of the Tang family and others surrendered to Yin Mei this time was probably Gu Changge was instigating behind the scenes.

This made her rebellious heart, which had been raised with great difficulty, gradually quiet down.

She was quite familiar with Gu Changge's methods and knew how terrifying he was. It was okay to offend anyone in this world, but not Gu Changge.

"He wants to control the Tang family's property, so who else can stop him?"

Her heart was bitter and desperate, extremely gloomy.

She didn't know what Qin Wuya could do. Even if Qin Wuya really had a way, would he be Gu Changge's opponent?

This was no longer necessary.

One must know that even Qin Wuya was under Gu Changge's control now, but he himself didn't know it.

"Is it finally over?"

She sighed softly, and her heart finally calmed down. However, she struggled for a while and decided to remind Qin Wuya.

During this period of time, Qin Wuya cared for her, moved her heart and she felt guilty at the same time.

And this time, the person Qin Wuya had to face was Gu Changge.

Although Gu Changge controlled her life and death, as long as she did not betray Gu Changge, Gu Changge would not care about her being a useless pawn.

Although what the Tang family did made her feel chilly, it was after all the family that gave birth to her and raised her, so it was hard for Tang Wan to sit idly by.

However, when Tang Wan went to Qin Wuya's residence to look for him, she found that he was not there and seemed to have gone to another place.

This made her surprised and stunned at the same time. She sighed in her heart, could it be that all of this was preordained?

She couldn't change anything.

...

On the second day, outside the Tang family's mansion, nine-headed blue dragons arrived across the sky and many powerhouses appeared, being led by Gu Changge.

Elder Tang and the others had already been waiting here respectfully.

Before that, he guessed that the person behind Yin Mei was Gu Changge, so he wasn't very surprised. He looked extremely submissive and dared not be disrespectful.

Tang Wan was also among the crowd, looking at Gu Changge who descended from the white jade chariot.

She hadn't seen him for a while, but his cultivation and aura were even more terrifying. It was far from enough to describe it as unfathomable.

What was even more frightening was that there was a terrifying invincible aura on him now. Although he didn't show it intentionally, it made the nearby people turn pale and feel suffocated and breathless while walking.

With every movement of his hands and feet, he was like a young immortal, with a surge of fairy light, auspicious clouds surrounding his body and a chaotic mist disappearing between his palms, which was so powerful that it was unimaginable.

"Greetings, Young Master Changge." Elder Tang and the others respectfully spoke.

"My Master." Yin Mei stood at the front with a smile on her pretty face.

Gu Changge nodded, glanced at them, and his eyes finally fell on Yin Mei, saying, "I already know the matter, since they are disobedient, then just kill them."

In his opinion, the matter of Tang family members with other surnames was insignificant, and it was not worth caring about at all.

The reason why he came to the Tang family this time was mainly to solve the matter of Qin Wuya, the Son of Luck.

With a smile on her face, Yin Mei nodded and said, "Since the Young Master said so, then I will order people to deal with these people with surnames outside the Tang family."

Since Gu Changge didn't care about the industrial connections controlled by those people with foreign surnames, she naturally wouldn't ask more questions.

In terms of Gu Changge's current status, it was impossible to waste any time on such matters.

Everyone, including the Elder of the Tang family, felt cold. In a few words, Gu Changge had already decided the fate of these people with other surnames.

For him, it was more like crushing an ant to death and he didn't need to care at all.

This made everyone in the Tang family even more fearful and respectful. Compared to people with other surnames, their life and death were also controlled by Gu Changge.

It was just that they still couldn't figure out how this happened.

They also never imagined that after Tang Wan's younger brother Tang Tian woke up from a coma, the extra mysterious scriptures in his mind would actually be problematic.

Until now, they still thought that it was a mysterious Immortal scripture with infinite value, which could be passed down from generation to generation as a family heirloom.

In this regard, they felt that Gu Changge's methods were mysterious and unpredictable. He controlled the life and death of their family without knowing it.

Many of them wondered if they were affected by some kind of secret control technique, such as poison pills, Gu worms, and so on.

It was a pity that they searched again, but couldn't find any clues.

"Young Master Changge, please follow me."

Afterward, Elder Tang led the way and led Gu Changge into a group of palaces. The mist was dense and the spiritual spring gurgled, the immortal spirit floated, the scenery was quiet and beautiful.

Even the bricks and tiles were not ordinary things, they were very solemn and ancient, shining with all kinds of rays of light, revealing the aura and dignity.

"Only the most distinguished guests from our Tang family will be invited here. In the beginning, my Tang family paid a lot of money to let an ancient architect be in charge of the construction. It belongs to the style of Ancient times..."

Elder Tang spoke respectfully, with some pride in his brows.

After all, such palaces and pavilions were rare, and every brick and tile was very particular.

Gu Changge nodded, glanced at it casually and said, "It's indeed a bit of the pre-Ancient style."

Seeing that Gu Changge didn't mean to say much, everyone in the Tang family was not surprised either.

"Young Master Changge, rest here and I won't disturb you later."

Soon, Elder Tang and others went back one after another, but Gu Changge opened his mouth to call out to Tang Wan and asked her to stay.

Many members of the Tang family were surprised. They looked at Tang Wan with different expressions. They didn't know when she met Gu Changge.

Elder Tang also had strange looks in her eyes, Tang Wan didn't even tell them that she knew Gu Changge.

The last time when the Tang family was plotted by Yin Mei, they didn't know that Gu Changge was behind it and they thought it was a confrontation between Yin Mei and Tang Wan.

Tang Wan didn't expect Gu Changge to leave her alone. She pursed her lips, feeling a little uneasy.

The rest of the Tang family also left wisely, not daring to ask more questions.

If Elder Tang hadn't known about the mutual affection between Tang Wan and the man named Chu Hao, he would have doubted whether there was something between Tang Wan and Gu Changge.

But judging from Gu Changge's identity, it was difficult for Tang Wan to catch his eyes.

"Greetings, Young Master Changge."

Tang Wan was a little embarrassed, she was afraid of Gu Changge from the bottom of her heart and she didn't even dare to raise her head.

And in front of Gu Changge, she felt that all her thoughts and secrets had been seen through and she was terrified.

Gu Changge found a stone bench and sat down gently. He then asked with great interest, "Do you know why I'm looking for you?"

Tang Wan's heart trembled and she hurriedly said, "Master Changge, I didn't violate your will. I have been monitoring Qin Wuya's actions during this time and I haven't revealed anything about you to him."

She thought that Gu Changge was aware of her intention to remind Qin Wuya.

This made her very terrified.

Now that the lives of everyone in the Tang family were under the control of Gu Changge, she dared not go against his will, fearing that it would bring disaster to the Tang family.

Gu Changge smiled and said, "Really? It's fine if you didn't do it, I don't believe you have the guts."

Tang Wan breathed a sigh of relief and was worried that Gu Changge would not believe it, and would ask her to prove it.

"This time I came to the Tang family to kill Qin Wuya. This is the Burning Immortal Water. You let him drink it. After the matter is done, I will let the Tang family go. If it can't be done, then your Tang family will accompany him together."

But at the next moment, Gu Changge's tone changed, he glanced at Tang Wan with great interest and then took out a small white jade bottle from his bosom.

Her complexion changed and her face turned pale. It was unbelievable and her fingers under the sleeves were trembling.

Even Yin Mei, who was obediently standing behind Gu Changge, changed her expression slightly, with a chill.

She looked at the white jade bottle, very apprehensive.

"Burning Immortal Water..."

Her voice was trembling, full of fear and at the same time, an astonishing chill emerged from her back.

Gu Changge actually planned to ask her to kill Qin Wuya by poisoning him.

Burning Immortal Water, as the name suggests, was a strange poison with unknown origin. It was said to be able to bury Immortals and just a drop was of a sky-high price.

Ordinary cultivators dare not touch it and were not qualified to touch it.

Because the water for burying Immortals itself contained terror and permeability. There were rumors that the water for burying Immortals was contaminated with the evil spirit of cultivators.

The cultivators who approached it would involuntarily suffer backlash and their internal organs would turn into pus and blood, which could not be cured by immortal medicine.

The water for burying Immortals had disappeared in the Upper Realm. Few people had seen it and it had only appeared in rumors.

Now, a bottle appeared in Gu Changge's hand.

Even if there was only one drop of Burning Immortal Water in this bottle, it was of unimaginable value.

"What? Don't you want to?"

Gu Changge had a faint smile on his face, and his facial features were so handsome that no one could pick out the slightest flaw. He even gave people a feeling of spring breeze.

But at this moment, Tang Wan felt chills all over her body. Her hands and feet were cold, and her whole body seemed to be thrown down by a basin of ice water, she was terrified to the extreme.

She wanted to take the white jade vial from Gu Changge, trying to calm down. However, her fingers were uncontrollable and trembled violently, like sifting chaff.

The white jade bottle in front of her seemed to be extremely hot and it was about to fall from her hand.

"You have to hold it steadily and don't drop it. It took me a lot of work to find such a small bottle. I didn't intend to be so troublesome, but this is your punishment for sympathizing with him."

Gu Changge smiled slightly, but his tone was somewhat regretful as if he didn't want to do this.

### **Chapter 437-2: Dont you want to? Found the warm feeling of the previous life (2)**

"I... I understand..."

Her complexion turned even paler and her heart became even more frightened.

At the same time, she was full of regret and despair. Sure enough, when she had the idea to remind Qin Wuya, Gu Changge knew it. She was lucky enough to think that he didn't care.

"After you arrange it, let me know. I don't want to miss this good show. Go back."

Afterward, Gu Changge smiled, waved his hand and asked Tang Wan to go back as if he had no intention of continuing to embarrass her.

"Yes."

Tang Wan's hands trembled. She tightly held the white jade vial, her heart was full of bitterness and despair as she left this place.

She didn't dare to hate Gu Changge, she just hated herself. Why did she have to be soft-hearted at that time and had such thoughts?

Unfortunately, there was no medicine for regret in this world.

She didn't dare to gamble with the fate of the family and the lives of all the clansmen, not to mention that Qin Wuya didn't have the slightest chance of winning when facing Gu Changge from the beginning to the end.

Everything was preordained.

After seeing Tang Wan leave, Yin Mei asked curiously, "Is the Young Master really planning to let Tang Wan poison that person?"

She felt that with Gu Changge's strength, it would be so troublesome to deal with one person. She knew Qin Wuya's identity, so she naturally knew the hatred between him and Gu Changge.

The once-destroyed Purple Mansion, as well as Zi Yang Heavenly King was inextricably linked with Qin Wuya.

Gu Changge looked at her with a smile on his face and stretched out his hand to signal. Yin Mei's pretty face was hazy, and she came into his arms obediently.

"I just want to know if she can kill someone. As for whether she poisoned him or not, it doesn't matter, because the moment I came to the Tang family, Qin Wuya was already a dead person."

Gu Changge smiled and didn't really care. He put his palm on Yin Mei's fox tail and stroked it lightly like a cat.

"It seems that she is not stupid, and she will know how to do it."

Yin Mei's complexion was full of haze, soft and boneless, charming and natural.

In fact, he had another purpose, the more desperate Qin Wuya was, the more Luck points and Destiny value he would get when harvesting.

After being raised for a long time, Qin Wuya had a lot of Luck points, and this Elder brother who returned from Nine Heavens might be hiding some secrets about Nine Heavens.

After the taboo era ended, the Upper Realm was shattered, the Immortal Palace collapsed and the Immortals died.

The remaining Immortals went to Nine Heavens, sealed off their Immortal Gate and the Heavens and Earth were beyond reach. Since then, no True Immortals had appeared in the Upper Realm.

Many forces today, such as the Ancient Immortal Gu Family, Buddha Mountain, etc., although they had a lot to do with Nine Heavens. But the era involved was too long, and few people knew about it. They could only look up some things in the classics.

Therefore, it was even said that the long river of time before the Forbidden Era actually collapsed.

In the previous era, before Immortal Palace, there was an even longer era.

However, due to the existence of the Taboo Era, many people kept that era a secret and did not dare to mention it, because just hearing those two words, they felt fear and trembling deep into their souls.

This was the reason why the world dare not reveal its name.

That was a kind of fear and palpitation that one did not know about his deeds, but could feel with just these two words.

"However, with Qin Wuya's cautiousness, he might notice it but it depends on whether he is willing to drink the poisonous water given to him by his wife in his previous life."

Gu Changge smiled, looking a little playful.

"My lord..."

But Yin Mei didn't have the time to listen to what he said at the moment, her voice trembled slightly.

The fox tail of the Nine-Tailed Heavenly Fox Clan was their lifeblood. If others dared to touch it, even if they risked their lives, they would cut off their palms.

She looked at Gu Changge with watery eyes and offered to put on her red lips.

...

After returning to her courtyard, Tang Wan's mood finally calmed down.

The white jade vial in her hand was no longer as hot as before.

She had no choice, if she refused, Gu Changge would not let her go, let alone her relatives.

"Burning Immortal Water..."

She murmured these three words softly and she had already made a decision in her heart. In fact, when her life was controlled by Gu Changge, she was already doomed.

Afterward, she took the initiative to go to the food hall, intending to cook for Qin Wuya herself, so as not to starve him on his way to the afterlife

Tang Wan knew that Qin Wuya was not in the clan now, but was outside, busy with her affairs.

She still felt guilty before, but now she dare not have this emotion. After all, she was just her, not Qin Wuya's wife.

Whether it was the flower of similarity or reincarnation, was not important to her.

What Qin Wuya did was just wishful thinking and she didn't take the initiative to ask Qin Wuya to do anything for her.

Soon, Tang Wan became busy in the food hall, processing all kinds of spiritual fruits, and all kinds of beast meat. The meal became fragrant and attractive.

Many of the spirit chefs here watched this scene in astonishment. They never thought that Miss Tang Wan would dare to come here in person and cook food for people in the middle of the night. They wondered who was so lucky.

The strong fragrance permeated out and the sun was shining brightly. There was a faint glow flowing on each piece of meat, which looked crystal clear full of color and fragrance and made people's index fingers move.

Tang Wan's eyes were complicated, she worked hard for an hour before she cooked a lot of food. At the same time carefully pour the Burning Immortal Water into it.

Although the Burning Immortal Water sounds scary, it did not look much different from ordinary spring water, pure and clear.

In fact, she also thought that drinking it with Qin Wuya would repay his kindness during this time.

But after thinking about it, she still gave up. After all, she was just using Qin Wuya's relationship, and she didn't want to end her life just like that.

"Take these to my courtyard."

Tang Wan gave orders to the servants, then got up and went to the courtyard where Qin Wuya usually rested. She knew that by this time, he should have returned.

**Boom boom boom!!**

After arriving here, she knocked on the door first and then waited quietly.

"Miss Wan'er... Why are you here in the middle of the night?"

Qin Wuya was wearing a robe, obviously, he just fell asleep but he didn't expect Tang Wan to knock on the door at this time.

He was very familiar with Tang Wan's aura, so when she approached, he noticed it. This made his heart move slightly, giving birth to a wave of anticipation.

After all... Lonely man and widow, visiting in the middle of the night?

What was more, Tang Wan's identity was his wife in his previous life, so Qin Wuya couldn't help but guess about that.

Tang Wan must have seen what he did during this period of time and it was impossible for her to remain unmoved.

"I prepared a table of food and wine. Please come to my courtyard."

Tang Wan smiled slightly, speaking concisely. There was nothing unusual about the expression on her face.

"Miss Wan'er, did you cook it yourself?" Qin Wuya was a little surprised, but more of a surprise.

Tang Wan nodded with a smile, then walked towards her own courtyard as she said, "I'm sorry for the recent affairs of the Tang family. I can't thank you enough, so I cooked it myself to reward you."

The reason why those clansmen with other surnames united to protest, in Tang Wan's opinion, was Qin Wuya's plan and push.

But today Gu Changge issued an order to let Yin Mei not need to take care of it. Since these people with foreign surnames were blocking them, they should be killed.

It was just that Qin Wuya probably didn't know about this matter yet.

"Thank you, Miss Wan'er."

Hearing what Tang Wan said, Qin Wuya was still a little moved, making him feel that what he did was worthwhile.

"By the way, Ms. Wan'er, I have already contacted a friend of mine regarding the matter of the Tang family this time and asked him to help me abduct Yin Mei to force her to explain how she controlled the Tang family."

On the way to Tang Wan's courtyard, Qin Wuya opened his mouth and took the initiative to talk about his plan.

There were many good things in him, all of which were obtained when he strayed into Nine Heavens.

So it was not difficult to find someone to help him.

"Abduct Yin Mei?"

Tang Wan was slightly taken aback, she didn't expect that this was Qin Wuya's plan. It seemed that he still didn't know that Gu Changge had come to the Tang family.

"Yes."

Qin Wuya nodded, with confidence and certainty in his heart, and continued, "Miss Wan'er, don't worry, I've made arrangements for this matter and no one will notice anything unusual, nor will anyone get evidence."

Hearing what he said, Tang Wan didn't say anything more.

Anyway, after tonight, Qin Wuya was already a dead person and the crisis of the Tang family would also be solved easily.

The methods he said would not have any effect at all.

Soon, the two came to Tang Wan's courtyard. The moonlight was mottled, the candles were dimly lit, the stone table was filled with all kinds of delicacies, the moon was shining brightly, there were meat, melons and fruits, all kinds of colors and fragrances, and there was a strong fragrance diffuser.

The wine and chopsticks were already prepared at the side and they were waiting for Qin Wuya to take his seat.

"Ms. Wan'er made all of these herself?"

Qin Wuya sighed in admiration, but it wasn't too much of a surprise that Tang Wan, who had a gentle temperament, would cook such a feast.

This scene made him find the warm feeling from his previous life.

"You don't want to try it?"

She smiled and motioned him to have a taste.

Qin Wuya looked at her, smiled and said, "Miss Wan'er, won't you try it yourself?"

Tang Wan shook her head slightly and said, "I've already tasted it when I was in the food hall, I'll just watch you eat it."

Having said that, she was still a little nervous, worried that Qin Wuya would notice something unusual.

However, Qin Wuya was very relieved upon hearing this, he just smiled and said, "Since that's the case, then I must eat all of these dishes tonight. Only in this way can I live up to Miss' kindness."

After that, he moved his chopsticks and started to eat, in order to let Tang Wan feel that he was enjoying and loving it, he seemed to be devouring it, for fear that someone would snatch it from him.

Seeing this, Tang Wan couldn't help shaking her head slightly and said with a smile, "Eat slowly, don't choke, there is still wine here, no one will grab it from you."

While talking, she filled his wine glass, seeing Qin Wuya raise his head and drink the wine in one gulp, the faint smile on Tang Wan's face also disappeared.

"What happened!"

But at this moment, Qin Wuya's complexion suddenly changed. It was unbelievable for him. The bowl and chopsticks in his hand fell to the ground with a clang, smashing into pieces.

At the same time, a mouthful of black blood containing many broken heart fragments spewed out. Terrible pain swept over him, leaving no blood on his face, and he fell directly to the ground.

### **Chapter 438-1: The last despair of the Son of Luck, The end of Qin Wuya (1)**

In the courtyard mottled with moonlight, the wind was rustling and the bamboo shadows were whirling.

A lot of food and wine scattered to the ground and even the stone table exploded.

Because the moment Qin Wuya fell to the ground, he couldn't control his aura and it leaked out, causing the surrounding area to explode. Even the void almost collapsed.

After all, he was in the Quasi-Supreme Realm, even if he was severely poisoned, he was not within the reach of ordinary cultivators.

He spat out a few mouthfuls of black blood mixed with internal organ fragments.

But the severe pain still did not stop. It was as if the body was about to be turned into pus and blood from the inside, which gave birth to terror and fear.

Qin Wuya's face turned pale and he quickly got up from the spot. Enduring the severe pain, he took out many pills from his storage ring and stuffed them into his mouth.

Then he sat cross-legged, trying to expel the poison out of his body. He knew he was poisoned.

The food and drink in front of him contained a terrifying poison, even a Quasi-Supreme could hardly escape it.

"Why are you so..."

While detoxifying, Qin Wuya looked at Tang Wan in pain and disbelief, his voice trembling.

He knew that the poisoning was all due to carelessness as he thought that Tang Wan would not harm him.

The vigilance he exercised in the Nine Heavens from the past was gone. So he didn't realize that Tang Wan had poisoned the food and drinks.

He couldn't believe that Tang Wan would harm him. Moreover, she prepared food and wine, especially for him and called him there in the middle of the night.

At this moment, Qin Wuya's heart felt very painful, because of betrayal, regret and sadness.

Although Tang Wan hadn't recovered the memory of her previous life yet, he had done so much for her during this time. Was it possible that she couldn't see it?

Qin Wuya didn't know why Tang Wan wanted to kill him. There was no hatred between the two of them at all.

"I am sorry! I had no choice but to do it."

Tang Wan's expression was calmer than Qin Wuya imagined. 0 And she just said such a sentence, indifferently.

Tang Wan's attitude caused Qin Wuya even more pain and despair.

Why would she do this?

"Who is threatening you? Can you tell me?"

Divine light rose from Qin Wuya's body, like golden flame clusters that were incomparably gorgeous, trying to evaporate the poison.

This was a secret technique from the Nine Heavens. But he found that the toxicity was terrifying and it had even penetrated into the soul.

This kind of poison could not be obtained by Tang Wan. So, someone must be secretly instructing her or threatening her, to force her to do this.

Tang Wan looked at him calmly. She didn't speak, just stood there.

She didn't expect Qin Wuya's strength to be so terrifying, this Burning Immortal Water was terrifying, needless to say. But Qin Wuya persisted for so long, even his expression turned a little bit.

Not only did he possess mysterious secret techniques, he even mastered various rare magical medicines, which eased his injuries.

"Qin Wuya, I actually knew my identity a long time ago. Thank you for your kindness these days, but it is impossible between you and me. I am not your wife. There should be no intersection between you and me in this life."

And just when Qin Wuya's heart ached unbearably. Tang Wan once again calmly stated a fact that made his mind roar and it almost went blank.

"What!"

Qin Wuya's eyes widened again, unable to believe it.

These words actually came from Tang Wan's mouth, especially now that she had said his real name in one go.

This made him accept this shocking fact.

"You knew a long time ago that you were actually my wife in your previous life?"

Qin Wuya's voice was trembling.

Didn't it mean that Tang Wan was just acting with him these days, but he was so stupid that he didn't even know it?

For a moment, Qin Wuya's face was distorted. It turned very ferocious, like a raging beast.

He never expected that tonight, he would know such a big fact, which would make him suffer, make him despair and make him even more angry and hateful.

Tang Wan nodded calmly, looking at Qin Wuya's current appearance, the guilt that had just arisen in her heart also dissipated.

In Qin Wuya's eyes, she was just his wife in his previous life and his actions towards her were the result of this. She was very clear about this.

"Who is behind all this? From the very beginning, I have been calculated by others. You could actually see everything I did... That's why tonight's incident..."

By now, Qin Wuya had thought through all of this and his gaze became very cold.

On the premise that Tang Wan knew his identity, she still treated him like this. This made him extremely angry, and the anger in his heart was hard to vent.

Moreover, how did Tang Wan know about this matter? She has never drunk the water of the Reincarnation Lake. Could it be that she herself awakened the memory of her previous life?

"You'll know sooner or later. You offended people who shouldn't be offended, and that's what happens to you."

Tang Wan said indifferently, as long as Qin Wuya was resolved, the affairs of the Tang family would definitely be resolved. For her, it was worth it.

"You... have murdered me so..."

Qin Wuya was so angry that he couldn't calm down. He couldn't help but spit out black blood again.

"You're wrong, it's not her."

And at this moment, a faint laugh suddenly sounded from outside the courtyard.

A slender figure manifested from the empty space as Gu Changge took the initiative to show up and walked over, looking very interested.

"You did not disappoint me."

Gu Changge smiled casually and then walked unhurriedly in front of Qin Wuya, who looked shocked and unbelievable.

"Don't dare to violate the will of the Young Master Changge."

Tang Wan was very afraid of Gu Changge. She lowered her head when she heard the words and explained to Qin Wuya in disguised form, who was secretly planning all this.

"Gu Changge... why are you here? Are you secretly hurting me in all this?"

Among the people Qin Wuya hated the most, if Gu Changge ranked second, no one could rank first. He clenched his teeth, filled with hatred and could no longer maintain his usual calm and composed appearance.

Because he never thought that Gu Changge would appear here, nor did he think that Tang Wan would be instigated by him.

The scene of his younger brother Zi Yang Heavenly King tragically dying at his hands was still vivid in his mind, making it unforgettable for Qin Wuya.

Now that this big enemy showed up on his own initiative, Qin Wuya could not wait to get violent and fight him to the death.

"Qin Wuya, we meet again. The last time I let you escape, you didn't have a long memory, so you can't blame me now."

With a warm smile on his face, Gu Changge walked up to him and stopped, looking down at him with interest as if looking at a little insect struggling to die.

"Gu Changge, you are despicable and shameless... Harming me like this, you are pretending to be the leader of the Upper Realm!"

Qin Wuya's back went cold and he couldn't help but curse him. His eyes were full of hatred and anger.

Under Gu Changge's gaze, he seemed to explode, especially now that he was suffering from severe poison, it was difficult for him to display his true strength.

Moreover, Gu Changge's strength was obviously much more terrifying than before. It was as vast as the deep sea, which made him tremble.

"Do you know that you give me the feeling that you are like a drowning worm, who can be drowned by a wave at any time?"

Gu Changge didn't care about his scolding, there was still a calm smile on his face.

"Actually, I'm more curious. With your ability, how did you survive in Nine Heavens for so many years? Did you live in the outer area... Or did I overestimate you?"

### **Chapter 438-2: The last despair of the Son of Luck, The end of Qin Wuya (2)**

"You!"

Hearing this, Qin Wuya's complexion changed again. His experience of living in the Nine Heavens for hundreds of years was his biggest secret.

No one knew about this except himself. But now Gu Changge actually said it out loud.

This almost made his scalp tingle, he couldn't believe it.

"Who the hell are you?"

Qin Wuya's voice contained unprecedented tremor and fear.

He suddenly understood why Zi Yang Heavenly King met Gu Changge's murderous hands, and Tang Wan knew his identity from his previous life. This was definitely what Gu Changge told her.

"Who am I? You don't need to know that."

Gu Changge smiled. His smile was quite warm and natural, but there was no emotion in his eyes, they were indifferent and deep.

Seeing that Qin Wuya's Luck had dropped to the lowest point, he didn't bother to talk nonsense and directly slapped him.

The divine light surged and the terrifying aura, as if the blue sky had collapsed, fell on him.

"Gu Changge, I will fight with you!"

Seeing this, Qin Wuya simply gave it a go, disregarding life and death. He shouted angrily and a golden light jumped up behind him.

Chains of order, as sharp as heavenly knives, cut toward Gu Changge with a chirp. But before he touched Gu Changge, he was crushed by the aura behind him and he couldn't get close at all.

At the same time, Gu Changge's palm was extremely domineering, like the hand of a Heavenly Emperor, shrouded in divine light, capable of obliterating everything when it descended from the air.

All of Qin Wuya's countermeasures collapsed in an instant. They were not at the same level, and there was no chance of resistance.

In the next moment, he endured the severe pain and opened his mouth to spit out a golden flag.

This was a mysterious treasure that he obtained from the Nine Heavens. It was very powerful and possessed terrifying power.

The Golden Dharma flag rose against the wind, with some bloodstains and broken star fragments hanging on it. It quickly enlarged and appeared in his palm, buzzing, and the golden rays of light surged, shaking the world.

In the middle of the night, this scene was incomparably astonishing.

But it was firmly locked in the courtyard and it was difficult to pass it out. There was a misty chaotic mist spreading around it, sealing everything.

"Boom!!"

Qin Wuya's eyes were about to burst as he held the flagpole with both hands, waved it with his greatest strength and shook it violently.

In just a split second, there were vast fluctuations, the stars and the moon were dimmed, the universe was turned upside down and even the seal of this place was almost torn open.

The golden flag formation was very special, constantly fluttering with terrifying power, it slammed into Gu Changge's palm.

But the next moment, there was a scoff. Gu Changge's complexion did not change at all, and there was no unnecessary fluctuation in this palm.

It was just suppressed from a high altitude with a vast and magnificent ancient atmosphere, tearing up the golden formation flag.

"No... How is that possible!"

Qin Wuya was horrified, he had already fallen into the final doom. The Golden dharma flag was a thing of the Nine Heavens, it was extremely mysterious, how could it be destroyed by Gu Changge?

He couldn't believe it, but even if he didn't believe it, there was nothing he could do. This was a bloody fact.

Qin Wuya was in despair, there was no way to counter him. Gu Changge's strength was simply beyond his reach, even if he was not poisoned and was at his peak, it was the same.

In the next moment, this palm came crashing down and the void collapsed, completely covering Qin Wuya.

He was directly slapped to death with a palm and turned into a blood mist. His soul was also swallowed by Gu Changge and he planned to read some of Qin Wuya's memories about the Nine Heavens later.

As for Qin Wuya's remaining storage ring, it was directly taken by Gu Changge.

He knew that Qin Wuya had a lot of good things. When he explored them with his divine sense, he immediately found that they were colorful and dazzling.

In addition to many divine materials, all kinds of secret treasures, inscriptions on broken scriptures, etc., all from the Nine Heavens, not the things of the Upper Realm today.

Gu Changge even saw the divine pill sealed in the jade pot.

He opened it and saw that the Immortal pill aura was permeating and there was even a radiant glow, which manifested in the virtual space, as gorgeous as the Milky Way.

"Great Profound Pill..."

"Eight Trigram Yang Xu Pill..."

Afterward, he rolled up his sleeves and put away all these things. As for the Heavenly Dao Treasure Box, Luck Points, and Destiny Value, he also gained a lot.

The Heavenly Treasure Box dropped by killing Qin Wuya was obviously much dimmer than the previous battle with Immortal Li Xiu.

Gu Changge guessed that it was due to the difference in strength between the two at their peak.

Accompanied by bursts of golden light, the Heavenly Dao Treasure Box was opened, and what emerged from it attracted Gu Changge's interest.

It was a piece of inscription shrouded in purple, with many ancient characters written on it which were very vague. The atmosphere of chaos was submerged, giving it a grand and simple meaning.

"Space-Time Monument."

Gu Changge looked at the explanation that emerged from it and quickly understood the purpose of this object, which was very similar to the teleportation array.

But the teleportation array could only teleport to the same era. Although the distance could be far apart, even endless, the time it spanned was in a line without the slightest deviation.

However, the space-time monument could transport someone across time and space. Since the mystery of the long river of time was involved, this object could allow people to travel across time.

"It's somewhat similar to the Creation Immortal Ark, but the Time-Space Monument is just a coordinate which once determined cannot be changed. And this coordinate can only be found in the long river of time. Reversing the years is not something humans can do."

Gu Changge accepted the Space-Time Monument, maybe it would be used in the future.

After doing this, Gu Changge glanced at Tang Wan, who was still a little shocked. He then withdrew the seal around her and left the place directly without controlling her.

Tang Wan was actually not of much value to him now. But considering the matter of Chu Hao, keeping Tang Wan may have other effects.

"That's it."

After seeing Gu Changge's figure disappear, Tang Wan breathed a sigh of relief. The uneasiness and fear just now gradually dissipated, and her heart calmed down.

In her opinion, Qin Wuya's strength was already terrifying and the ordinary Supreme might not be his opponent. Although it was due to the severe poison, he couldn't even catch Gu Changge's palm.

Many rumors in the Upper Realm today also underestimated Gu Changge's true strength.

Qin Wuya's death was not a big deal to the Tang family. Apart from Tang Wan, no one knew what happened last night.

Elder Tang and the others didn't even know that there was someone like Qin Wuya beside Tang Wan.

After getting rid of Qin Wuya, Gu Changge didn't care much about the affairs of the Tang family.

And he had already explained to Yin Mei that those who disobey could be killed and they didn't need to worry about trouble.

People with foreign surnames in the Tang family, without the instigators behind them, naturally lost their confidence. After killing a few people, they were overwhelmed and obediently handed over their property behind them.

In this way, many industries of the Tang family were smoothly taken control by Yin Mei.

Afterward, Gu Changge sent a message to Bai Lian'er from the Spring Breeze Pavilion, asking her to come here. The most indispensable move was to let Yin Mei hand information to her.

In this way, the assassination efficiency of the Spring Breeze Pavillion could be increased by several levels.

#### **Chapter 439-1: This is not good news for me, The Demon Slaying Conference in the Upper Realm (1)**

In the resplendent hall, Yin Mei's radiant beauty and charming figure fascinated all living beings.

She was wearing a fiery red dress, her waist was as slender as a willow and her muscles were like snowflakes. The whole person seemed to be carved from flawless suet jade and she had an astonishing beauty.

"This is the Purple Gold Token of the Wan Dao Business Alliance. As long as there is a branch of the business alliance, with this order, you have the authority to dispatch the observer." She calmly opened her mouth and took out a mysterious purple token.

In front of Yin Mei, Bai Lian'er was dressed in black with cloudy hair and exquisite facial features like ice and snow, but there was a natural charm on her body.

Hearing Yin Mei's words, she raised her eyebrows slightly and looked at the purple token in front of her. This purple token was quite mysterious with many divine patterns lingering on it, showing simplicity.

Gu Changge asked her to come here to talk to Yin Mei and she rushed over immediately after receiving the order. She had to pay attention to the matter of the Spring Breeze Pavilion.

"The Purple Gold Token is actually something that has the authority of the Wan Dao Business Alliance..."

Bai Lian'er took the purple token from Yin Mei's hand and was a little amazed. In this way, the problem that had been troubling her all this time was easily solved.

If she wanted to develop her network in the Wan Dao Business Alliance before, it would take at least millions of years, or even longer.

At that time, it was still an unknown question whether the Spring Breeze Pavilion would still exist. But in the hands of Gu Changge, this problem could be solved with just one order, which really surprised her.

The more she understood Gu Changge, the more she found that the means and strength he had shown were just the tip of the iceberg.

Was there anything in this world that he couldn't do?

"In that case, the Spring Breeze Pavilion will be handed over to you. I don't think you will disappoint me."

Gu Changge, who was drinking by himself, suddenly raised his eyes to look at Bai Lian'er and said casually.

"You can rest assured."

Bai Lian'er snorted, feeling that she was being underestimated by Gu Changge.

Anyway, back then she founded the Spring Breeze Pavilion by herself. Even to the point where she was on equal footing with other assassin organizations, it could be seen that her skills were strong.

"Of course, I'm very relieved that you are taking charge."

Gu Changge smiled and then took out a very simple and unnamed ancient book from his bosom and handed it to her.

With the big silver and gold lines on it, there was a vast and magnificent atmosphere, and even a brilliant divine light permeated it. One could tell that this ancient book was extraordinary.

"What is this?"

Bai Lian'er looked at him in surprise, feeling that this ancient book was not simple and it made her feel terrified.

One must know that she was the descendant of the Killing Emperor, and the most things she learned in her life were all kinds of killing methods. But she could still feel the fear in this ancient book.

"When selecting personnel and training assassins, pass this technique on to them."

Gu Changge didn't explain anything and just ordered.

Regarding his order, Bai Lian'er was perplexed but she was sensible and didn't ask too much. Presumably, it was a special secret technique.

Either it could make the assassin's strength increase rapidly, or it could make Gu Changge easily control their life and death.

"Then I'll take my leave first."

Later, seeing that Gu Changge had no other orders, Bai Lian'er also had the intention to leave and planned to find some killer seedlings suitable for cultivation.

"Don't worry, this is for you."

Gu Changge shook his head slightly and took out a small white jade bottle. Before it was opened, a strong medicinal fragrance filled the air.

There were even brilliant visions emerging in the virtual space, such as palaces and pavilions and the rotation of the sun, moon, and stars, which was very divine.

"This is!"

Bai Lian'er was a little surprised and took a careful look at Gu Changge as if to see if he was joking.

She naturally felt the extraordinariness of the contents in this white jade vial.

At the very least, it was also a kind of rare divine pill and the shackles that allowed her to reach the pinnacle of the Supreme Realm showed faint signs of loosening.

At her level, there were not many pills in this world that could work on her. Otherwise, with her status and strength, what kind of pills couldn't be obtained?

"Barrier Breaking Pill."

Gu Changge said casually, "I think you've been stuck at the pinnacle of the Quasi-Supreme Realm for quite some time. If you want to break through by yourself, I don't know how long it will take. Since you are working for me, your strength should not be too low."

Hearing the previous sentence, Bai Lian'er still felt that it was Gu Changge's kindness that was willing to give her the breakthrough pill, but the next sentence really made her roll her eyes.

When was the cultivation level at the peak of the Quasi-Supreme Realm too low? Gu Changge even disliked her for being too weak.

"What kind of barrier-breaking pill is this that can allow me to break through?"

Bai Lian'er took the jade bottle, she had nothing to do with Gu Changge but she was still curious.

It was impossible to borrow the elixir that would loosen the shackles of her realm. A Barrier Breaking Pill? How could there be such a random name?

Gu Changge didn't explain. After all, this was the elixir he exchanged from the system mall, so it was hard to find in the Upper Realm.

He shook his head slightly and said casually, "Why are there so many questions? Just return it to me if you don't want it. Or are you worried that I will poison you?"

Bai Lian'er rolled his eyes at him and said, "I still have this little trust in you. Thank you very much. But such a pill can't make me give up on you."

After finishing speaking, she took the jade pendant and left. She was a smart person and knew that it was impossible for Gu Changge to harm her at this time.

And with Gu Changge's strength, it was too easy to kill her.

Gu Changge didn't care about Bai Lian'er. After giving her the elixir, he drank by himself, without looking up, thinking about other things.

"My lord, this is the route the Red Demon traveled recently..."

After Bai Lian'er left, Yin Mei took out a reduced version of the map of the Upper Realm from the other side.

Although it was difficult to compare with the real Upper Realm, many major areas and ancient cities were still marked.

This was what Gu Changge ordered her to investigate. For the Wan Dao Business Alliance, it was even easier to determine where the Red Demon was now.

"It seems that she really followed my aura."

Gu Changge looked at the ancient cities above with great interest. He had stayed in those places, but now they were all slaughtered by Chan Hong Yi, and there was no living person left.

"Huh? The speed has become faster, or is it that she has become sober, not as delirious as before and her strength is steadily recovering... That's not good news for me."

At this time, Gu Changge frowned slightly and noticed that on the map, the speed of the Red Demon's pursuit became much faster. Before that, she would stay in the ancient city for a day, devouring a lot of life energy.

But now, after arriving, there was almost no stop. This showed that she no longer needed to be like before. After devouring a lot of life energy, Chan Hong Yi's strength recovered a lot.

When she was weakest, even a Quasi-Emperor Realm cultivator was shot to death by her, but now her strength was even more unfathomable.

At the peak, Chan Hong Yi's strength definitely surpassed the Immortal Realm, there was no doubt about it. However, in her current state, if she encountered some terrifying and profound sect, she might suffer a disadvantage.

Gu Changge just wanted her to vent her hatred first and had no intention of hurting her. Otherwise, he would have gone to the Ancestor of the Gu family for help.

Chan Hong Yi's current strength was very strong. But compared with those extremely old Ancestors of the Gu family, it was hard to say who was stronger or weaker.

Not to mention that there were not many things in the Ancient Immortal Gu Family, but there were many Ancestors.

Even if there were no Immortals in the Upper Realm who couldn't beat her now, they could use the crowd tactics to force her to death.

"It looks like she's going to suffer a lot..."

Gu Changge thought for a while and felt that he could take this opportunity to drain Chan Hong Yi's hostility.

If he was not mistaken, then many Immortal forces in the Upper Realm should take action on this. It was impossible to remain indifferent and stay out of the incident after Chan Hong Yi's bloodbath.

During this period of time, the birth of the Red Demon could be said to have shaken the Upper Realm, setting off a boundless sea of ??blood.

Many Immortal sects' powerhouses were very busy because of this matter.

Especially those forces encountered by the Red Demon on the way were even more frightened and uneasy.

Some people did not believe in evil, did not want to migrate away from the tribe and tried to stop it. But after a long distance, they were slapped to death by the Red Demon, destroying both body and spirit.

Because of the matter of the Demon Burying Abyss, Buddha Mountain also dispatched many eminent monks to encircle and suppress the Red Demon, intending to put her to death.

In this regard, many sects in the Upper Realm had expressed their cooperation.

The Ancient Ye Clan, Heavenly Emperor Mountain, Endless Fire Nation, Primordial Lake, Ancient Immortal Qin Family, Ancient Immortal Wang Family... From the army dispatched to the Eight Desolations and Ten Regions, many powerful men were dispatched to hold a Demon Slaying Conference to kill the threat of the Red Demon in the cradle.

**Chapter 439-2: This is not good news for me, The Demon Slaying Conference in the Upper Realm (2)**

Once the news came out, it once again shocked all parties. Many cultivators were full of enthusiasm and righteous indignation as they expressed their willingness to participate in this battle.

Otherwise, when the time came, they would be attacked from both sides and they would lose.

However, because the strength of the Red Demon was really terrifying, cultivators who had not cultivated till the Great Sacred Realm were not eligible to participate in the battle.

As a result, many powerhouses of the older generation showed up and many old monsters who lived in seclusion for a long time were born from various parts of the Upper Realm. As well as the most powerful beings such as the leaders of various sects and the heads of Ancient Immortal families.

Some people were already suspected of having passed away, but because of the Demon Slaying Conference, they reappeared in the world. Their seniority was unimaginably old and it caused boundless waves.

In this Demon Slaying Conference, the younger generation could only wait and see from a distance at most and they were not qualified to approach.

This battle was incomparably huge, involving many people, and even the older generation, who took out the Emperor Realm artifact from the clan, vowed not to give up until they killed the Red Demon.

It was conceivable that this battle would turn the world upside down, turn the sea into ashes and destroy the star field with a radius of hundreds of millions of miles, which was really normal.

At the same time, in the South Heavenly Region, inside an ancient and magnificent tower.

An old man in a blue long robe was standing on the stargazing platform shrouded in sunlight and floating in the colorful mist, stepping on a disc a hundred feet high, overlooking from a height.

He was so old that he didn't know how many years he had lived, his face was full of traces of time. But his eyes were extremely clear, without any expression of vicissitudes.

At this moment, a Heavenly Eye suddenly opened between his brows and shot out a divine aura that seemed to penetrate the four poles of the world, looking at the distant place and sighed, "From the perspective of the sky, the sun and the moon alternate, the stars change and the sky are drying and the earth is ruined... This time, the Demon Slaying Conference may not go so smoothly."

Behind the old man, there were still many powerhouses standing. Their faces were blurred, their bodies were filled with chaotic energy, their auras were terrifying and light and shadows emerged, as if they were standing in another world.

This was not their real body, but a projected dharma body. Hearing this at the moment, their expressions were all solemn and dignified.

Then someone couldn't help sighing, "No matter how you say it, this time the Demon Slaying Conference is imperative. The celestial phenomenon is nothing more than a possibility. It's up to people to make things happen. Let's do our best."

The rest of the terrifying figures nodded upon hearing this.

They were all the real power holders of the Ancient and Immortal Great Sects, standing at the peak of the Upper Realm with overwhelming power and unfathomable strength.

They could not be compared to the ordinary leaders of those powerful sects.

The old man in front of him was the previous Pavilion Master of Heavenly Mystery Pavilion. His deduction skills were the best in the Upper Realm and no one could compare.

It was rumored that he failed to reach a higher realm and his body and spirit were destroyed.

But he never wanted to hide the secret and had been living in seclusion in the tower, subconsciously cultivating the way of deduction. His aura was ethereal and invisible, just like ordinary people.

Before the start of the Demon Slaying Conference, many powerful people came here to ask him about the turning point and chance of success this time.

It must be known that the old man in front of him asserted that the seal in the Demon Burying Abyss could only seal the Demon inside for half a year at most.

After half a year, the Demon was bound to break through the seal and rush out of it. But this time, there was an anomaly, which led to the premature birth of the Red Demon and bloodbath of all parties.

"Since that's the case, the old man still has a part formation here, which was obtained when he deduced the seal of the Demon Burying Abyss. Maybe it will be useful in this Demon Slaying Conference."

At this time, the old man in the blue robe seemed to have remembered something and suddenly took out a part of the formation pattern of divine light from under his sleeve.

The horn pattern was made of unknown materials, it was very eye-catching. The immortal light was shining and it was filled with an ancient and magnificent aura as if a Supreme being was sitting in it.

This made the faces of many of the most powerful people present look serious and there was a sense of shock as they looked at this pattern.

With their cultivation base, they even felt a kind of terrifying oppressive force.

"At the beginning, what kind of state was the existence of the Red Demon... I can't imagine that such formations still exist in this world."

The leader of an Immortal Great Sect stared at this part pattern with a solemn expression, as if he saw the supreme mystery evolving in it.

The rest of the people also stared at it without blinking and their hearts were shocked. What kind of existence was this that could arrange such a supreme formation?

Hearing the words, the old man in the blue robe frowned deeply, as if he was quite afraid and finally hesitated for a long time before uttering two words from his mouth.

"Taboo."

He just said these two words and dared not talk about the rest.

Because this part of pattern was obtained by accident when he deduced the events in the Demon Burying Abyss. It could only be regarded as an imitation, at most one percent of the original formation, maybe one-thousandth of its real divine power.

The outside world said that he failed to break through to a higher realm, which led to the disappearance of life and death, but it was not the case.

This was the terrifying backlash he had suffered when deducing the origin of the Demon Burying Abyss. He could only faintly feel that desperate and terrifying aura.

It was definitely an existence above all sentient beings and its realm couldn't be guessed, but it stood on a level that they dared not imagine and could not touch.

That was why he called it taboo.

"With this pattern, my confidence is much greater."

The faces of the leaders of several Great Sects were heavy and their hearts were solemn and they did not dare to discuss more.

When they reached their level, they would naturally know what the two words said by the old man in blue robes meant, which was unpredictable.

Any extravagance would only bring ominousness and disaster to them.

Afterward, they left this place, and with this horn formation. They planned to go to arrange it and hold the Demon Slaying Conference.

Soon, the news of the Demon Slaying Conference spread all over the Upper Realm, and there was an uproar. Many cultivators even rushed back from the sea of ??Boundary Monuments where they were fighting and wanted to personally participate in this battle.

In the eyes of many cultivators, there was no rush to conquer the Eight Desolations and Ten Regions, and it would take time to wait for the sea of ??Boundary Monuments to dry up. At that time, it would be the time for the Upper Realm to invade on a large scale.

So the key thing now was to deal with the Red Demon who was born in the Demon Burying Abyss. Many forces were brutally wiped out by her, removed from the Upper Realm, and many ancient life stars were swallowed by her and turned into dead places.

Its evil must be punished.

A few days passed in a blink of an eye, inside a majestic and ancient huge divine city.

The glow of the sun was brilliant and eye-catching, the divine island was floating in the sky, the silver spring was like a waterfall, the clouds were steaming and the rosy clouds were shining. The atmosphere here was myriad.

One after another divine lights descended from all sides of the sky with divine lights on their bodies, their auras were terrifying, there was an avenue extending under their feet, and the void was blurred as if gods were descending.

In the rest of the place, a terrifying aura was running through like wolf smoke, extremely thick, entwined with chaotic mist which was a manifestation of unfathomable cultivation.

These were the most powerful people, whose cultivation had even surpassed the Quasi-Supreme Realm. They came here to discuss the Demon Slaying Conference together.

From far away, there was a huge roar and some ancient beasts descended with lightning and thunder, and golden rays of light.

Many reclusive old monsters had appeared.

"Did something big happen? Why are there so many powerhouses here today?"

"These existences are usually not seen at all."

Many cultivators and creatures were shocked, trembling under the aura they leaked at will.

Afterward, a golden and surging Dharma body appeared in the sky, its eyes swept across all the cultivators below, and its voice was loud like a torrent of bells, "This place will soon become a battlefield for the Demon Slaying Conference. I will hunt for the Red Demon here. The Demon has nothing to do with anyone, leave quickly and don't add unnecessary casualties."

As soon as these words came out, all the cultivators and creatures in the divine city were stunned and then they shuddered and felt chills.

During this period of time, almost everyone knew the horror and viciousness of the Red Demon.

How could this place become a battlefield for all the powerhouses to slaughter the Red Demon?

This made them terrified, the place exploded quickly and everyone began to flee, carrying valuables, not daring to stay for a long time.

"Amitabha, judging from the route the Red Demon traveled, she will definitely come here in the end."

"I just need to set up formation patterns here, make various arrangements in advance, and finally trap her here. Even if I can't deal with it for a while, after a long time, I will definitely be able to kill her."

In an ancient and magnificent palace, there were several ancient cultivators and monks surrounded by Buddha's light. The aura was unfathomable and unimaginable.

At this moment, one of the benevolent and kind-hearted ancient monks spoke.

His ears were big like jade stones, shining brightly with a kind of strange Buddha rhyme, as if he could listen to the Six Realms and the Three Hells.

They were all the strongest powerhouses of Buddha Mountain and the weakest one was also in the Quasi-Supreme Realm. They were holding Buddha treasures and were responsible for the crusade against the Red Demon.

"Then follow what the eminent monks said."

On the opposite side of them, there were still many powerful beings who nodded upon hearing the words, surrounded by divine light and ordered, from other Immortal Great Sects and Supreme Sects.

In addition, there were also various casual cultivators standing in the four corners of the palace and their strength was not weaker than theirs.

#### **Chapter 440-1: A trap has been laid out, I will not let their wish come true (1)**

This was an extremely powerful force and there were quite a few of them from various Immortal Great Sects, Supreme Sects, Ancient Immortal families, and Ancient Royal families.

Every stomp of their foot could cause shocks in all directions. Their strength and status were unimaginable. Usually, they were not seen at all.

Whether it was a reclusive casual cultivator or an old monster born out of this world, their cultivation bases were extremely terrifying. It was far from enough to describe them as unfathomable.

Just when the eyes opened and closed, there were avenues of divine Dao light, which seemed to evolve the universe and the heavens. But today they all gathered in the divine city to discuss how to slaughter the Red Demon.

According to their deduction and plan, the Red Demon would arrive in this area soon. And this divine city within a million miles was the best place, with a population of tens of millions and ancient existence.

Many palaces were engraved with extremely powerful formation patterns. Even the city walls were mixed with divine materials, the rays of the sun were shining brightly and there was a strong aura.

Fighting in the divine city could even withstand the fluctuations of the Quasi-Supreme, so this was the origin of the name for the divine city.

That was why they would set up formation patterns here, to ambush her and after the Red Demon arrived here, they would violently attack and besiege her here.

In this way, not only could the disaster of fighting her everywhere be solved, but it could also be slowly wiped away.

And they were only the first batch.

Afterward, powerhouses from various races would come, bringing various divine artifacts with them and secret treasures, which would definitely solve the disaster of the Demon Burying Abyss.

"This time, I will trouble everyone with the matter of encircling and suppressing the Red Demon."

Several ancient monks in Buddha Mountain were sitting cross-legged in place with solemn treasures and a faint golden light behind their heads. The Buddha's light was shining everywhere.

They spoke kindly and talked with many of the most powerful people in front of them.

"The eminent monks are being polite. The disaster of the Red Demon this time is something that all forces of the Upper Realm must face."

"Even if there was no incident in Buddha Mountain. After half a year, the Red Demon was destined to be born."

An old man with pale golden wings smiled and replied. He was very close to the eminent monks.

He was an ancestor of the Golden Winged Clan, with a Quasi-Supreme cultivation base. And the Golden Winged Clan was very close to Buddha Mountain and had a lot of roots.

This time, the Buddha Mountain was going to hold the Demon Slaying Conference and the Golden Winged Clan immediately supported it as they sent many powerful members of the clan.

Hearing this, the other powerhouses on the other side also nodded in agreement.

There were the Ancestors from the Golden Winged Clan, the Nine-Headed Lions, the Heavenly Demon Clan and the Yu Clan, all of whom had a close relationship with Buddha Mountain.

This group of people was very close to Buddha Mountain. Not far away, in a pavilion, there were also many powerful people gathered, with blurred faces and towering figures, as if standing in another time and space, surrounded by wisps of divine light. For a while, people couldn't help trembling, giving birth to the feeling of worship.

They were the real masters of the Great Sects, with unfathomable strength and great power.

Although this was not their real body but compared with their true strength, it was not much worse.

"If this matter is resolved, we can find a way to share a piece of the flesh and blood of the Red Demon. It is said that she comes from that era that cannot be mentioned."

"After being sealed for countless epochs, even if she was once cultivated to be unrivaled, there is no one left now. If we can find out the profound meaning of Taoism in her, it will be of great benefit to us."

"That's a very kind word. The Red Demon has done many evils, and it's hard to calm the anger of the heavens."

At this moment, they were all discussing in low voices, and they had other plans for the Red Demon.

Although they had plans to eliminate her from the world and kill the Red Demon, they also had other interests.

The cultivation base of the Red Demon had probably surpassed that of Immortals.

If they could get a small piece, it was truly a blessing for them. Especially in the era when the path to Immortality was not visible and the Immortal Gate was not open.

It might be possible to get a glimpse of the path to Immortality because of this, wouldn't that be an unimaginable opportunity?

And just as everyone was discussing, outside the palace, there was a sudden wave of breath coming through, causing many Great Sect leaders and Old Monsters to frown and look over.

Now the divine city was empty, and many cultivators had evacuated. No one would dare to stay here except for those who were bold and fearless about life and death.

Of course, there were still some young arrogant people behind them who wanted to see the world. Although their cultivation base was not enough, they were holding important treasures and could compete at critical times.

As long as they didn't participate, it was also a rare fortune to find a place to hide and observe.

Those young juniors were also quite favored by them, so they were brought here at such a dangerous time.

This was where they were confident.

### **Boom!!**

Above the sky, there were thousands of rays of light and a golden avenue extended from it. It was misty, with divine light shining and the chaotic light disappeared. With the two figures standing above.

The leader was dressed in black clothes, with a tall and slender figure, handsome features, a rich spirit like jade with a sense of transcendence, very young, compared with many Great Sect leaders and Old Monsters present, it could be said that he was like a child but age was negligible.

Behind him, a tall figure dressed in a dark iron battle suit with golden eyes and a black spear in his hand, stood like a guard. There was a terrifying and majestic aura about him, which made everyone present look solemn and dignified in their hearts.

Very strong! Stronger than ever!

This was the first reaction of many powerful people. They dared not underestimate them and felt that a great person had come.

"Young Master Changge..."

"He actually came here, is it possible that he plans to observe this battle as well?"

The young men and women standing behind some Patriarchs all recognized the young man on the golden road.

No matter whether it was men or women, shock and reverence couldn't help but appear in their eyes.

Although they were of the same generation, the opponent's cultivation base had reached the point where they couldn't even see a trace of his strength when they were chasing.

Gu Changge's current cultivation and power could be said to be unprecedentedly strong. He could even sit on an equal footing with the leader and others in front of them, and they could be regarded as peers.

In front of Gu Changge, they were not worthy of the word genius. Up to now, Gu Changge had been recognized as a leader in the Upper Realm.

Many people thought that if the path of Immortality was opened in this life, with his aptitude, he would become Immortal and no one would be able to stop him.

Of course, there were still many people whose eyes fell on the tall figure behind Gu Changge, trying to identify him carefully but they didn't know which strong man it was.

With such strength and cultivation, it was impossible to be nameless in the Upper Realm.

For a while, there was quite a commotion here. Whether it was the older generation or the younger generation, they all walked out of the palaces and pavilions.

Soon, Gu Changge landed from the sky and arrived at the pavilion.

There were already many people here, all of whom were the leaders of many Great Sects, looking at him with complicated eyes.

It was also the first time for them to see this young man with their own eyes, and even they couldn't figure out his strength, which shocked them a little.

"Greetings, Young Master Changge."

All the young geniuses were very restrained in front of Gu Changge, respectful and courteous, they didn't dare to treat him as peers.

"Changge greets many seniors."

Gu Changge smiled, nodded slightly, and then looked at the rest of the older generation, looking very casual.

Among the younger generation here, he even saw many familiar faces.

For example, Ye Langtian, the young master of the Ancient Ye Clan, and his younger sister Ye Liuli.

Ye Langtian, who used to discuss friendship with his peers, now just stood respectfully behind the Patriarch, looking at Gu Changge with extremely complicated eyes.

As for Ye Liuli, she also looked at him blankly.

It had only been a few years since they saw each other and the other party had already reached the same height as their parents which they needed to look up.

The things that happened in the Lower Realm would sometimes come to her mind from time to time.

"I wonder why Young Master Changge came here?"

At this moment, a rather elegant middle-aged man asked, holding a feather fan with an extraordinary bearing, quite literate and elegant, he was the leader of a Great Sect.

While speaking, many people were looking at Alpha who was standing respectfully behind Gu Changge and they were very jealous.

Because it was difficult to speculate on its cultivation, they felt that it was only stronger than them, not weaker.

Now such a powerhouse turned out to be just a guard beside Gu Changge, which made them feel unbelievable.

"I came here, naturally, like everyone else, I want to contribute my little strength to the extermination of the Red Demon. At that time in the Demon Burying Abyss, if I had stopped it in time, the descendants of Buddha Mountain would not have caused such a catastrophe. When I think about it, I feel ashamed."

With a smile on his face, Gu Changge explained to everyone with a somewhat regretful tone.

Many Great Sect leaders and old monsters were all human spirits, who had lived for countless years, and their eyelashes were all gone.

They didn't fully believe what he said and they were guessing whether he had any other purpose.

On the contrary, a group of young men and women felt awe in their hearts and felt that Gu Changge's actions could bear many rumors, which was admirable.

Even if the Red Demon's birth had nothing to do with him, he still wanted to come here and contribute to it.

In the other palace, a group of ancient monks from Buddha Mountain also showed up and walked over when they heard the voice of discussion here.

But when they saw Gu Changge and heard his words, their expression was a little unnatural.

### **Chapter 440-2: A trap has been laid out, I will not let their wish come true (2)**

Some people were even more sullen and very angry.

Others didn't know, but didn't they know?

Regarding the birth of the Red Demon, Buddha Mountain just had no way to justify it, and it was just that they took the blame for Gu Changge.

He was the real instigator. But now he still looked like a good old man, which really made them angry. They had never seen such a shameless person.

"Oh, all the eminent monks came at the right time. I'm a little curious. How did Buddha Mountain resolve such a wrong thing committed by Jin Chan Buddha?"

Seeing everyone from Buddha Mountain arriving, Gu Changge looked at them with a smile on his face and then asked, seeming quite concerned.

The faces of the rest of the Great Sect leaders and others had strange colors.

They didn't expect that Gu Changge would attack everyone from Buddha Mountain as soon as he came. He exposed their scars and then sprinkled salt on their wounds again in front of everyone.

If it was someone else, they might still be afraid of Buddha Mountain, so it was not easy to mention this matter.

But Gu Changge didn't have any fear in this regard and seemed very casual as if he was asking about an insignificant matter.

All the eminent monks of Buddha Mountain suddenly found it difficult to maintain the kindness on their faces, they were unnatural and sullen.

No matter how good their mood was, facing such a provocation like Gu Changge, it was difficult for them to remain calm.

Gu Changge was really deceiving people too much. Knowing the truth of the matter, it still felt humiliating in front of everyone.

At that time, Gu Changge did not hesitate to release the Red Demon in order to take away the treasure of Buddha Mountain, he was probably here now to make up for his mistakes at that time.

But he still humiliated them like this. They even saw the playfulness hidden in Gu Changge's smile.

"Young Master Changge won't worry about this matter. Jin Chan has received the punishment he deserved."

The old monk with very long eyebrows shook his head.

Hearing this, Gu Changge said regretfully, "Really? Then I feel sorry for those innocent lives who died tragically because of the birth of the Red Demon..."

Hearing this, not only the expressions of the monks of Buddha Mountain turned cold, but even the leaders of other Great Sects and Old Monsters had their hearts beating wildly.

They felt that there should be some conflict between Gu Changge and Jin Chan.

Otherwise, Gu Changge wouldn't have said this in front of everyone from Buddha Mountain.

This was obviously not about not giving face to the other party, but about attracting hatred.

"Young Master Changge's words are wrong. The Red Demon would have been born within half a year at the latest. From the perspective of time, it is not too far behind. Moreover, what Jin Chan did at that time, in my opinion, there may be some misunderstanding."

"Buddha Mountain will not let the Red Demon be born and ignore it. You are still young, and you see many things too one-sidedly, and you cannot understand Buddha Mountain's good intentions."

At this time, the Ancestor of the Golden Winged Clan saw that the situation was not right, he couldn't help frowning as he walked out, saying with persuasion.

In his opinion, as a young man, Gu Changge said this a little too impulsive. He was close to Buddha Mountain, and he was not as afraid of the power behind Gu Changge as the others.

So although these words sound polite, the implication was that he was just a young man, so what do you know?

Everyone in the room heard it and looked at the Ancestor of the Golden Winged Clan with a little interest.

"Really? Is it because I don't understand Buddha Mountain's good intentions? I wonder how to call the senior?"

Gu Changge's expression didn't change when he heard the words, but he took a look at the Ancestor of the Golden Winged clan in front of him and asked casually.

"I am Jin Yutian."

Although the patriarch of the Golden Winged clan was a little puzzled why Gu Changge asked his name at this time and he still replied.

"Oh, that senior just wanted to explain Buddha Mountain's good intentions to me, so I listened attentively."

Gu Changge smiled casually, his tone sounded quite serious.

Jin Yuntian's expression froze slightly, he just said what he just said casually and was going to try to persuade him, how could he know Buddha Mountain's good intentions?

"It seems that even the senior can't explain it."

Seeing his appearance, Gu Changge smiled, then his expression suddenly turned cold, and he said lightly, "Then are you trying to entertain me?"

As the words fell, everyone suddenly felt a terrible cold sweeping over them.

Even the leaders of many Great Sects felt a chill down their backs as if they were shrouded in terror and a murderous aura.

At the next moment, they saw Gu Changge slapping down Jin Yuntian in front of him. It was very simple and direct, with an extremely indifferent expression. Pieces of golden runes fell into the void as if they had evolved into a terrifying god, with the power to destroy the world.

"You!"

Jin Yuntian's complexion changed drastically, and he turned pale. He didn't expect Gu Changge to face his opponent suddenly, which caught him off guard.

Moreover, Gu Changge's strength shocked him with fear.

He was glowing all over and his golden wings manifested, like a hundred and eight thousand swords, extremely sharp and terrifying to the extreme, he slashed at Gu Changge, trying to counter his palm.

However, it didn't have much effect, Gu Changge just slapped him casually, as if a big wave swept across the sky, divine light shook the sky as it rumbled, the void collapsed, and all the sword energy was annihilated.

Then a palm landed on him, sending him flying upside down. With a bang, he exploded into the void, turning into a blood mist and collapsing.

Until the moment when the body and spirit were destroyed, the Ancestor of the Golden Winged Clan still had horror, disbelief and despair in his eyes. He didn't even let out a scream.

He couldn't believe that Gu Changge killed him with just one slap and annihilated him together with his soul.

At this moment, everyone gasped, even many ancient monks of Buddha Mountain constricted their pupils and their hearts were shaken.

It seemed that at that time Jin Chan was able to escape from Gu Changge, which was already a great fortune.

With one palm, Jin Yuntian, who was in the Quasi-Supreme Realm, was slapped to death. Gu Changge's strength might have already reached the Supreme Realm.

The rest of the leaders of the Great Sects were also full of chills, which was unbelievable.

Now that they had truly witnessed Gu Changge's strength, they had already raised the importance and vigilance of Gu Changge to an unprecedented height in their hearts.

The young supreme's eyes widened in astonishment, their mouths opened wide, and it was far from enough to describe their hearts as turbulent waves.

All the monks from the Buddha Mountain frowned and didn't say much.

Jin Yuntian was slapped to death by Gu Changge. Although they were angry, they even endured the fact that Jin Chan was framed.

What was this kind of thing?

The rest of the strong members of the Golden Winged Clan also looked terrified. They didn't dare to say anything, regretting the recklessness of this Ancestor.

He should have just been born, didn't know Gu Changge's ruthlessness and was deceived by his current appearance.

"With the help of Young Master Changge this time, the disaster of the Red Demon will surely be resolved."

At this time, a group of powerhouses rushed over not far away, with their sleeves fluttering and their robes fluttering.

The leader was an old woman in green clothes and unfathomable strength.

She was from the Qingluan Clan, and she was an Ancestor of the clan. Just now she witnessed the scene where Gu Changge slapped the Ancestor of the Golden Winged Clan to death.

It was not a secret in the Upper Realm that the Golden Winged Clan and the Qingluan Clan had enmity.

Now that Gu Changge had shown his terrifying strength, many Old Monsters dare not underestimate him and treated him with caution.

"I wonder, seniors, what plans do you have for this demon-slaying conference?"

Afterward, Gu Changge's expression returned to normal, as if it was just a fly that had been slapped to death just now. He glanced at many Great Sect leaders, smiled slightly, and asked.

Hearing this, everyone's expressions moved slightly. There was no secret about this plan.

After all, everyone who came here was going to deal with the Red Demon.

The middle-aged man with an elegant face just now smiled gently and explained, "A few days ago, I went to the Heavenly Mystery Pavilion to find the former owner of the Heavenly Mystery Pavilion and perform a deduction to see if things went well this time."

"As a result, he gave us a part of the formation that is closely related to the Demon Burying Abyss, saying that it can play a key role in the suppression of the Red Demon."

"Besides, we will lay a trap in the divine city. As long as the Red Demon enters this place and activates the formation, she will be unable to escape in her current state."

He explained to Gu Changge the plan this time, including where to set up the formation, who would guard it, how meticulous it was, and how to ensure nothing goes wrong.

This was also one of their confidences this time.

After hearing this plan, everyone here couldn't help but smile. They had already expected the situation where the Red Demon would be caught.

Not to mention that some of them came with the Imperial weapon, and even the more terrifying forbidden weapons were also carried. It was used to suppress the background, and the number of times it could be used was limited, but its power was terrifying and vast, far from being an enemy.

"A part of formation? Is it related to the Demon Burying Abyss?"

There was a strange flash in Gu Changge's eyes. He seemed a little surprised and said, "This is a perfect plan. No matter how advanced the Red Demon is, I'm afraid it will be difficult for her to escape. I don't know if the part of formation can be given to me." Can junior take a look?"

He was indeed a little surprised, he didn't expect these people to arrange so many methods to deal with Chan Hong Yi.

With Chan Hong Yi's current state, once she entered this situation, she would definitely suffer a big loss.

Of course, what attracted Gu Changge's attention the most was the part of the formation pattern related to the Demon Burying Abyss, which might be the key.

But since he was told about the plan, he would definitely not let them do what they wanted. How could he let someone other than him plot against his apprentice?
