

Villain 611

Chapter 611: It's really like a dream, It can count as a little bit

Ah Qing was still dressed in the same attire she had when she was arrested. The coarse linen clothes were very worn out, stained with mud and blood as she followed Gu Changge with her head down all the way into this place, turning a blind eye to everything around him.

Although she had settled down in the past few days and did not need to continue fleeing, she had not cleaned up the dirt and blood on her face. Because this was also a good way to cover up for her, and she didn't have to worry about others seeing her true face, so as not to cause unnecessary trouble.

Gu Changge didn't display any dislike for her appearance.

"I couldn't bear the poor fellow I met on this hunt, so I rescued her." Gu Changge said casually with a faint smile on his face.

"I see." Everyone was stunned, they didn't doubt the words, but they were a little envious of Ah Qing.

In this way, she was a blessing in disguise, transformed from a captive. If she was by Gu Changge's side, even her previous hostile force the Great Yu Immortal Dynasty would not dare to say a word.

Of course, everyone didn't know Ah Qing's identity, even Yu Lie and others didn't know about it. They simply regarded her as an ordinary prisoner who was escorted here after being defeated in the borderlands like the others.

Ah Qing stood quietly behind Gu Changge, watching him chat casually with many young geniuses in front of him. All of them showed a respectful and flattering attitude toward him.

Even the future heir of the Great Yu Immortal Dynasty, who arranged this hunting game, was extremely respectful to him. This made her feel a little dreamy, difficult to distinguish true from false, making it difficult for her to calm down.

What was the origin and identity of Gu Changge who had rescued her?

In the past few days, Gu Changge didn't take the initiative to ask about her background and other things but occasionally showed interest. She was wary of everything around her, so she kept silent and never talked about her world.

Gu Changge also didn't look like he was in a hurry. But this made him even more unpredictable, and she didn't know how to repay the kindness.

She was a person who didn't like to owe favors, but Gu Changge was equivalent to saving her life twice, such kindness, even if it was to be paid with life, was not an exaggeration.

"Several geniuses of the Chi Lian sect have disappeared." A young genius suddenly noticed that some people were missing among the returning people, and his eyes shook slightly.

How could someone have an accident in this hunting game? And it was still a group of people?

Ah Qing's hands under the sleeves tightened slightly as cold sweat broke out. The group of people who chased and killed her before seemed to belong to the Chi Lian sect.

If the other party found out that the disappearance of those people was related to Gu Changge, then she would stand up without hesitation and bear it all.

“There are many dangers in the hunting ground, and it is normal to encounter dangers and accidents sometimes.”

Hearing this, the second prince Yu Lie didn't seem to be surprised, he waved his hand and smiled, telling everyone not to care.

Naturally, he had already gotten wind of it. After all, there were strong guards near the hunting ground, who were closely watching the situation.

When Gu Changge attacked to kill the group of people, the strong man sensed it, but he didn't dare to say anything, they could only pretend to have not seen it.

“Yes, there are indeed many dangers, even though we encountered many dangers and almost died. Brother Zhao Kang and the others are really unlucky.”

The people present were not fools, they understood that the second prince said this for a reason, this was to tell them not to care about the matter, just treat it as an accident, so they immediately agreed with each other.

Even the second prince needed to cover it up. How did that group of people disappear? Didn't they need to think about it?

Ah Qing stared at all of this in a daze, almost unable to react.

From her point of view, this would be a big problem, but it was just solved like this?

She was not stupid, it could be seen that the second prince was telling everyone not to care about this matter.

“Come here, take off this girl's shackles.” And when Ah Qing was in a complicated state of mind, the second prince Yu Lie suddenly glanced in her direction and said with a smile on his face.

This was a special forbidden weapon made by the Great Yu Immortal Dynasty, and it was engraved with a special prohibition formation.

If it was forced to open by any external force, it would only explode with a bang, destroying both body and spirit along with the prisoners. So most people would not touch it, let alone untie it.

Soon with a bang, the heavy shackles fell to the ground, and the long-lost divine power circulated in her body again.

Ah Qing felt all this in a daze, feeling more and more that it was really too dreamy.

Not only had the attitude of the future heir of the Great Yu Immortal Dynasty changed drastically towards her, but even the people around her cast envious glances at her.

Envious of her being a prisoner?

Although it hadn't been long since she came to this world, Ah Qing still understood what the future heir of the Great Yu Immortal Dynasty represented.

To put it bluntly, the other party even only needed a word, and they could dispatch the previous armies to attack the world she was in before, breaking it down and occupying it.

Such a character, standing in front of her now was speaking kindly to her, which was completely different from the previous indifference and ruthlessness.

Ah Qing raised her eyes subconsciously and looked at Gu Changge. But he was just sitting on the top seat, with his usual warm smile on his mouth, drinking tea leisurely, his eyes drooping as if everything was taken for granted.

It was only at this time that Ah Qing noticed that everything in this world was originally centered around him.

She suddenly understood in her heart why Gu Changge was able to kill those people lightly at that time. Even if the powerhouses behind the Great Yu Immortal Dynasty knew about it, they could only pretend to be ignorant.

After leaving this place, Ah Qing's mood had been in a trance, and the long-lost peace made her feel a little unreal.

The palace where Gu Changge lived temporarily was located in the northeast of the imperial palace. This place was extremely beautiful with misty mist and various exotic flowers blooming along the stretches of rockery and pavilions. It was incomparably grand and peaceful, far away from the noise.

After Ah Qing was brought here, she didn't see Gu Changge anymore. A maid took her to change and wash her clothes, cleaning up the dirt and blood.

She didn't resist and laid down in the bluestone-hewn bath, the surface was steaming with mist. There were many gorgeous petals falling down, and blue silky hair floated down like a ball of seaweed floating.

Ever since the demons invaded and her father disappeared, she hadn't relaxed like this for a long time. She was extremely lethargic. Her mind was empty and she didn't want to think about anything.

After coming to this world, she was reduced to a prisoner and lived a life of darkness. What she thought about every day was how to survive, find her father, and go home.

Clean water, food, spiritual fruits, and beautiful clothes, these things were far away from her, but now they were suddenly placed in front of her.

"It's like a dream."

Ah Qing murmured softly without closing her eyes. If this was a dream, then when she opened her eyes, would everything burst like a bubble?

"These are excellent remedies for wounds, and work well for scars on the arms."

At this time, the maid came over with a medicine box in her hand and put it beside the bathtub.

“Thanks.” Ah Qing took the ointment from the maid, thanked her politely, and looked at the parts she planned to apply on her arms and so on.

Although the injury had healed, some parts still had faint scars, which would take a long time to dissipate.

“No... You’re welcome, this is what we should do, and this is what Young Master Changge ordered.” The maid was obviously overwhelmed by Ah Qing’s thanks and shook her head with some trepidation on her face.

In her opinion, since she could be brought back by Gu Changge, the girl in front of her was no longer from the same world as her. No matter what her background was before, the order of respect could not be messed up.

Ah Qing was silent for a while, and then muttered, “Young Master Changge? Is that his name?”

“You... still don’t know the name of Young Master Changge?” Hearing this, the maid’s eyes widened in disbelief, as if she saw something incredible.

There was a feeling in her heart that she didn’t know what words to use to describe, she was jealous and envious. The girl in front of her didn’t even know who Young Master Changge was. How could she be brought back by him?

Ah Qing nodded and didn’t explain too much about her matter. “Can you tell me something about him? I know he is a good man, and I owe him a lot,” she said.

The maid struggled to come back to her senses, her eyes were complicated. However, she was selected here as a maid, which was naturally extraordinary.

Then, she recovered quickly, and said with admiration in her tone, “If you want to know about Young Master Changge, I’m afraid you won’t be able to listen to it all, but you just need to remember one thing.”

“What?” Ah Qing asked curiously.

“Young Master Changge stands at the top of the Upper Realm, regardless of his cultivation or power.”

“In the current Upper Realm, you only need to mention that you are Young Master Changge’s person, then even the leader of the Supreme sect and Immortal force will not dare to embarrass you. Not to mention walking sideways, but absolutely no one will dare to provoke you.” There was a longing light in the maid’s eyes.

“The top of the Upper Realm?” Ah Qing was extremely surprised, and then fell silent again, digesting the huge amount of information.

She still greatly underestimated the origin of Gu Changge’s identity, thinking that he was similar to the heir of the Great Yu Immortal Dynasty. But now it seemed that even the Emperor of the Great Yu Immortal Dynasty had to be treated as an equal in front of him.

Such a character had actually rescued her? No wonder so many people were so envious of her.

“Such a great kindness, I’m afraid I won’t be able to repay it in my life.” Ah Qing smiled wryly.

“Young Master, the news is completely correct. There is indeed a solid spatial crack at the border of the Great Yu Immortal Dynasty, and it has been maintained for almost a year since it appeared. The Great Yu Immortal Dynasty had many troops stationed around there, claiming to be on guard against hostile forces, but in fact, they were hiding the entrance to that ancient world.”

In the depths of the palace, Gu Changge casually flipped through a jade slip in his hand, while a confidant respectfully reported it.

“Great Yu Immortal Dynasty tried its best to hide this matter. It seems that they have already penetrated into that world. There should be some secret hidden in it. The water is not muddy enough, go and spread the news to attract the attention of other forces.” Gu Changge nodded, pondered for a while, and said again.

Since the Great Yu Immortal Dynasty wanted to monopolize this ancient world, Gu Changge would definitely not agree, he happened to find a suitable place for fishing and law enforcement. The world that suddenly appeared on this side was more suitable no matter how one looked at it.

“Yes, Young Master!” The confidant nodded, then thought of something and asked, “By the way, Young Master, the Fourth Miss of Tuoba Mansion has been shouting for the past few days to see you and said that she knows you are behind the scenes. Do you want to get rid of her?”

Gu Changge put down the jade slip in his hand, and said casually, “Then let her shout, I can’t kill her now. I need to keep her alive for a while.”

“The subordinate understands.”

Soon, the space blurred, and the confidant turned into smoke and left.

Gu Changge’s eyes were a little thoughtful. He gave Tuoba Xiaoyao half a month, but half of it had already passed.

After seven days, if Tuoba Xiaoyao still couldn’t hand over the Heavenly Sword, then Gu Changge would have to find another way. However, he was still very curious about where Tuoba Xiaoyao learned about the secret technique.

He had been looking up various ancient books these days and even ordered people to look them up, but there was no clue. It seemed that, as Tuoba Xiaoyao said, there was no solution in the Upper Realm.

“Could it be the secret method of other worlds?” Gu Changge thought of another possibility. Could it be that Tuoba Xiaoyao went to other worlds before he was reborn, and obtained the secret technique in that world?

“That’s it.” Gu Changge didn’t continue to take care of this matter and then ordered someone to bring Ah Qing. He still had a lot of things to ask her.

“Benefactor.” Soon, under the leadership of the maid, Ah Qing, who had freshened up, appeared in front of Gu Changge.

Compared with the disheveled hair and coarse linen clothes when he first saw her, now she was like a beautiful hibiscus.

She was dressed in a plain light-colored long dress. Her eyes were blue, her black hair was loose, her small face was upright and beautiful. The facial feature seemed to be a finely crafted work of art, delicate and fair. Her slightly raised eyebrows did not lose a sense of sharpness.

No matter who saw such a fierce and beautiful girl, they would have a sense of light in their eyes. Although she knew Gu Changge's identity, she was not as nervous as ordinary people and seemed very natural and calm.

"Sit!" Gu Changge smiled slightly and stretched out his hand to signal her to sit down.

Ah Qing was not pretentious, she sat opposite Gu Changge and looked at the many delicacies on the table. Spiritual fruits, and all kinds of meat that exuded the glow, suppressed the trance in her heart as they quickly returned to nature.

It had been a long time since she had seen such a delicacy. Any piece of meat in it exuded the power that makes her feel a little frightened.

"There are only two of us in the hall, you can let go of your vigilance." Gu Changge smiled and said.

"I'm just used to it, and I don't intend to doubt my benefactor's kindness." Ah Qing nodded, and then seemed to be afraid that Gu Changge might misunderstand, so she couldn't help explaining.

"Being vigilant is a good thing. If you are not careful in this world, you will not live long."

With a smile on his face, Gu Changge raised his glass to drink and motioned for her to move her chopsticks.

"Thank you, benefactor, then I will not be polite."

Ah Qing was not pretentious and started to move her chopsticks casually. She hadn't fully recovered her cultivation base. The spiritual fruits and meat in front of her were exactly what she needed.

First, it was the ointment, and now it was the meat that would help her restore to cultivation. Ah Qing was surprised by Gu Changge's meticulousness.

Obviously, given his status, he didn't need to think about these things at all, but he was extremely thoughtful. Was there really such a perfect person in this world?

"You should know why I had someone call you here, right?" Gu Changge asked.

"My benefactor said before that he wants to know about the world I live in..." Ah Qing nodded.

Taking advantage of this time, she told Gu Changge some information about her world. This was not a secret that could not be told to others.

She didn't like being owed anything, especially for saving her life. Of course, she didn't think that telling Gu Changge this information could offset his kindness.

But it could be counted as a little bit.

Chapter 612: The world from the previous life, There is not much time left for him

In Ah Qing's original world, practicing swords was at its peak. Everyone would be accompanied by a sword spirit when they were born. For this reason, since ancient times, they had divided the sword spirit into various levels such as Heaven and Earth, Spirit, and God.

Those with strong talents could produce twice the result with half the effort, and their future achievements were limitless. However, the God-level sword spirit had not appeared for many years. The Spirit-level sword spirit was already at the level of a genius that all schools and factions strived for.

Just like Ah Qing herself, she had a Spirit-level sword spirit, and this was because her father was a powerful Sword Immortal.

One must know that the Sword Immortal already stood at the pinnacle of their world, and they were only one step away from breaking the void and ascending. But how difficult it was to shatter the void.

The last old Sword Immortal of the Shu Sect who reached the peak of the Sword Immortal level failed to cross the tribulation in the back mountain of his home as his life and death disappeared while his soul scattered.

Since then, she had never heard of anyone who had reached that level.

"The Land of Sword Immortals?" Gu Changge nodded slightly, listening to the many news that Ah Qing said, feeling a little thoughtful.

Different worlds had different laws and environments. But the level of shattering void had obviously reached the maximum level that that world could bear.

As for what Ah Qing said about immortality, Gu Changge didn't care.

After all, this was affected by the environment of Heaven and Earth. Some worlds lacked immortality substances. If the powerhouses from the Upper Realm lived in them, it would be difficult to live for hundreds of thousands of years.

So in his opinion, the so-called Sword Immortal level should not have reached the Enlightened being. At most, it was between the Supreme Realm and the Quasi-Emperor Realm. But he wouldn't know for sure until he saw it with his own eyes.

"Thank you, benefactor, I will definitely find a way to repay your kindness." After getting done with wine and food, her cultivation had recovered a lot, Ah Qing was very satisfied as she said to Gu Changge.

Gu Changge was still thinking about the things she said, and waved his hands with a smile when he heard the words, "It's nothing more than a little effort, Miss Ah Qing, you don't have to be polite."

"It would be great if people in this world were as good as you, benefactor." Ah Qing's eyes fell on Gu Changge's face, and she said very seriously.

"Oh, isn't it too early for you to say that now?" Gu Changge smiled lightly.

A suspicious look appeared on Ah Qing's sharp and beautiful face as she felt that Gu Changge's words seemed to be inexplicable.

However, Gu Changge didn't explain anything to her, and said with a smile, "It's getting late, Miss Ah Qing, go to rest early. I see that you seem to have practiced swords since childhood, and tomorrow I will send someone to take you to rebuild a sword."

"This..." Ah Qing was a little taken aback, but still hurriedly waved her hands and said, "The benefactor has treated me well enough, I can't bother you anymore."

Although she did need a suitable sword now, she always troubled Gu Changge, which made her feel very sorry.

"It's all said and done with little effort." Gu Changge still had a faint smile on his face.

"It can't be like this, benefactor, I can't repay your kindness." Ah Qing insisted.

She had her own principles, and she owed enough to Gu Changge.

Gu Changge seemed to sigh and said, "Okay, since that's the case, Miss Ah Qing, you should go to bed earlier."

He could tell that the girl in front of him had that kind of stubborn and rigid personality, so she wouldn't easily change what she believed.

After a while, Gu Changge planned to go to the world she was in before, and she needed to be used for some things. Ah Qing glanced at him, seemed a little hesitant to speak, but still didn't say much, and left.

Her parents always told her that nothing good happens for no reason in this world.

Gu Changge, who had only known her for a few days, treated her so well, but she still couldn't figure out Gu Changge's intentions. However, Gu Changge's actions did not display any intentions, it seemed that he was simply showing kindness.

After watching Ah Qing leave, the smile on Gu Changge's face quickly disappeared, and a strange color flashed in his eyes.

From Ah Qing's mouth, he learned that her father was a Sword Immortal, but he disappeared while fighting against the so-called extraterrestrial demons, that was, the army of the Great Yu Immortal Dynasty.

She also had the purpose of finding her father's whereabouts, so she passed through the crack in space, and was caught by the Great Yu Immortal Dynasty afterward.

In her original world, she was still extremely famous and had a high status.

In the next few days, news about the traces of the ancient world in the territory of the Great Yu Immortal Dynasty suddenly spread like wildfire. It was unknown who spread the news, which alarmed many surrounding forces.

Many Immortal forces and Supreme sects paid attention and began to send people to investigate while some people directly came to ask Emperor Yu.

Emperor Yu was naturally furious about this and ordered a strict investigation into who leaked the news.

Of course, he also suspected Gu Changge, but there was no evidence that Gu Changge knew about it. However, among the people in charge of guarding the space portal, there was the eldest son of the Tuoba mansion, that was, the elder brother of Tuoba Xiaoyao.

Emperor Yu was suspicious by nature, a few days ago Tuoba Xiaoyao had left the general's mansion, and then went to the border to look for his elder brother, he naturally knew about this. So he inevitably had some doubts in his heart, would the exposure of the news have something to do with Tuoba Xiaoyao?

The timing was also right. But now that it had been exposed, Emperor Yu couldn't think of a way to monopolize that ancient world. Facing the envoys sent by various forces and the Dao sects, he revealed a lot of known information.

This ancient world that had never been explored meant abundant resources, and there was no force that did not covet it.

At present, all the forces began to send people to the place where the space portal was located, and at the same time to discuss with Emperor Yu how to capture that ancient world.

Because of the barriers of space and the laws of Heaven and Earth, going to that world could not bring out the original strength. But the various forces already had experience, but they just didn't want to delay and let the Great Yu Immortal Dynasty take the lead.

Taking advantage of this opportunity, the Immortal forces also sent outstanding disciples from the clan to head there. Compared with the existence from the older generation, even if the younger generation entered it, they would be less oppressed.

Moreover, as a representative of the sect, they had many treasures on their body, so they didn't have to worry about their life being in danger. Naturally, Emperor Yu was unwilling to be preempted by other forces, so he selected many of his descendants and planned to let them go together.

The second prince, Yu Lie, was the future heir of Great Yu, so no accidents could happen, so Emperor Yu didn't let him go with him. The marriage contract between the eldest princess Yu Feiya and the Absolute Heavenly prince Jia Luo had not yet been settled. And Jia Luo also left as he had something to report first, planning to come back after a while.

So Emperor Yu discussed for a while and asked Yu Feiya to take the lead in sending people there. That ancient world was very important, and might even contain divine objects such as the origin of the world. Emperor Yu attached great importance to it.

Ancient warships skimmed across the sky, carrying a mighty army, crushing the star field as they rushed to the distant border of the Great Yu Immortal Dynasty.

The young girl Ah Qing looked a little worried when she saw this scene. She learned the news these days from Gu Changge that the ancient world she lived in had been exposed to the eyes of various forces in the Upper Realm.

Before, only the Great Yu Immortal Dynasty sent an army to go there, but now the rest of the forces were also interfering. A more terrifying and terrifying disaster was about to befall her hometown.

In the face of such a disaster, it was impossible for them to resist. The only result was to fall and be divided up by these forces.

“Benefactor, isn’t the power behind you interested in this matter?” Ah Qing was suddenly a little confused, and couldn’t help asking Gu Changge beside him.

“Because I’m not interested, the forces behind me are naturally not interested either.” Gu Changge said casually.

Ah Qing nodded and understood. It depended on Gu Changge’s attitude. If he wanted to, he could also send such a terrifying army away like other forces. It was just that he didn’t seem interested in it.

“Do you have any plans for the future?” Gu Changge asked with a vague smile on his lips.

“I may have to go back. My mother must be very worried about my safety, and I want to prevent this disaster with my compatriots.” Ah Qing was silent for a while, and then replied.

Although she knew that her strength was insignificant in this disaster, she still wanted to do her part. She had been away from home for several months, and her mother must be extremely worried about her leaving without saying goodbye.

In addition, knowing that her father was not dead and survived, she was already very satisfied.

“It’s just the benefactor’s great kindness. I’m afraid it will be difficult for me to repay it in my life.” Ah Qing glanced at Gu Changge and said again.

Regarding this, Gu Changge just smiled and said, “Actually, have you ever considered that you can solve this disaster.”

“I can solve it?” Ah Qing was a little stunned. With her strength, she definitely couldn’t do all this.

Were there other options? *n0vE1usb.c0m*

The borderland of the Great Yu Immortal Dynasty was actually an extremely wide star field. There were many floating stars and continents around it, which was extremely vast, and there were many cities in the central area, scattered and inseparable.

As the mighty army descended from all over the place, this place became the focus of attention of all forces for a while. Even some casual cultivators arrived after hearing the news, trying to fish in troubled waters.

In addition to the Great Yu Immortal Dynasty, many forces and sects around them had also dispatched a lot of manpower, and they had already been stationed around the star field at this moment.

“Without the order of His Majesty Emperor Yu, we can’t pass through the space portal at will. There are many strong guards around, and I can’t easily approach it. So you can only wait for the armies from all sides to arrive before you can mix in and follow us together.”

In a city here, Tuoba Xiaoyao was talking to a young man with extremely tough facial features.

The facial features of the young man were somewhat similar to his. It was his elder brother Tuoba Feiyun who was in charge of guarding the space portal in the borderlands.

“There is not much time left for me, I must go find a way to rescue Qingyu,” Tuoba Xiaoyao said in a low voice, with a look of agitation on his face.

It had been several days since he came here, and he was now extremely convinced that the world behind the space portal was exactly the world where he lived and practiced in his previous life.

But it was less than five days before Gu Changge asked him to hand over the Heavenly Sword.

Chapter 613: Experience is appropriate, Tuoba’s biggest secret

“There’s no rush for this kind of thing. Since Gu Changge still needs something from you, it’s impossible to push you too hard. Unless he doesn’t want that thing anymore, she should be fine by now,” Tuoba Feiyun spoke slowly, and comforted him, telling Tuoba Xiaoyao not to worry too much.

“I know, but what if Gu Changge doesn’t care about anything? A person like him can do anything.” Tuoba Xiaoyao took a deep breath and rubbed his temples. If the time was not too urgent, he would not have done this.

Now Emperor Yu ordered that without his order, no one could easily set foot in that world. So even if his elder brother was guarding here, he couldn’t easily let him pass.

“Great Yu’s army will come over soon, and you shouldn’t have any problems if you follow inside.” Tuoba Feiyun said. n0v*ELuSB.c0m*

He actually didn’t know why Tuoba Xiaoyao was so sure that the way to save Tuoba Qingyu was in that world. But at this juncture, all he could do was trust Tuoba Xiaoyao.

During this period of time, he knew all the news about Tuoba Xiaoyao clearly, and he was both confused and relieved. But everyone had their own secrets, including him, so he won’t ask Tuoba Xiaoyao about these reasons.

“I understand, I’m going to make some preparations now. I will come here tomorrow to meet my elder brother.”

Tuoba Xiaoyao nodded, then got up and left, although he was sure that the world behind the space portal was the one where he lived and practiced in his previous life. But how long had it been since his soul came here? What happened in that world after that?

Whether his original master and brother were still there was still unknown. Even now, he suddenly felt closer to his hometown and timid.

In the star fields around the Borderlands, more and more armies gathered. Many chariots and even dragon boats galloped by. There were many figures standing on them, with strong aura and flying banners, which was extremely magnificent.

Among them, the most eye-catching ones were the Immortal guards of the Great Yu Immortal Dynasty, who rode ferocious beasts and wore armor. It was as if they had come all the way from a mountain of corpses and a sea of blood before finally being stationed in the depths of the star field.

The city was stretching, extremely ancient and tall, like a mountain stretching across it, which could resist foreign enemies. The powerhouses from all forces had rushed to this place, except for the older generation, the people from the younger generation could be seen everywhere.

On the streets, elite disciples from various major forces could often be seen passing by.

“Are these people going to attack my homeland?” On a pavilion next to the main street, the girl Ah Qing looked at the scene of people coming and going below through the window, and couldn’t help but whisper.

“Maybe it’s not suitable to use ‘attack’, they’re just going for the experience.” Gu Changge shook his head and smiled lightly.

“Experience?” Thinking about these two words, Ah Qing laughed at herself.

For their world, this was a terrible disaster like a catastrophe. But in the eyes of the cultivators in the Upper Realm, it was just a trivial little experience, and their life and death were not important at all.

“For the benefactor, maybe these things are normal, right?” Ah Qing said.

Gu Changge smiled speciously, and said, “That’s why I asked you to seriously consider what I said.”

Ah Qing was silent, the solution that Gu Changge said that day appeared again in his mind, it sounded crazy.

That was to let all the forces who went there be buried in it, but with her own ability, she couldn’t do it at all. Therefore, she needed to unite all the forces in that world to have a chance to contend.

As for how to unite, she could only rely on herself, Gu Changge just gave her such an opinion. Ah Qing actually didn’t know why Gu Changge said that to her. He was a person from the Upper Realm, how could he help her, an aborigine?

“Those who attain the Dao will be helped more than those who have lost the Dao. This is the cycle of Heaven and everything in the world cannot escape.” Ah Qing looked aside at Jiang Chuchu who suddenly spoke.

She didn’t know Jiang Chuchu’s identity, but she knew that everyone respected her equally. She and Gu Changge were almost inseparable, like a couple of gods.

“Heavenly justice, retribution?” Ah Qing nodded, her eyes were fixed on Jiang Chuchu’s face, and she looked at him.

It was an unparalleled jade face that could not pick out any flaws, beautiful like a dream. With long eyelashes, eyes like water, full of poetry, she was like an immortal flower, crystal clear and beautiful, extraordinary and refined.

As a woman, she was a little envious. There really was such a flawless face in this world, which could make people forget the world.

Jiang Chuchu said calmly, “If you want to save your hometown, what Changge said is the only way.”

Regarding Ah Qing's background, Gu Changge only briefly mentioned a few words to her. But Jiang Chuchu still guessed Gu Changge's intention.

In the ancient world where the Great Yu Immortal Dynasty tried its best to conceal its traces, it was very likely that it had the origin of the world. Gu Changge knew forbidden demonic arts, which could devour and refine the origin of the Heavens.

And at his current state, a normal origin from a life had long been useless, and only the level of the world's origin could help her.

Ah Qing was an aborigine in that world, and her father was one of the strongest people in the world. Although she was young, he had a long-standing reputation.

In this situation where foreign enemies were present and the world was about to be destroyed, if she could stand up, she would naturally gather a lot of people's hearts. Under this premise, it was naturally much more convenient for Gu Changge to find the whereabouts of the origin of the world through her.

"I actually understand what my benefactor said, but with such a big gap, how can I resist?" Ah Qing's eyes looked a little sad.

"You have to understand the truth. If you don't resist, then you will have no chance at all. Only by resisting can you have a chance. After all, there is no end to the road, and there is always hope." Gu Changge smiled casually, with a peaceful expression on his face, then looked at Jiang Chuchu again, "Maybe I have to go to that world this time, so don't follow me."

Jiang Chuchu hummed lightly, "I will return to the Human Ancestor Hall in a few days."

Gu Changge smiled, "You're really obedient."

While the few people were talking, the sound of fighting suddenly arrived from the street not far away as the runes rushed out of the sky, shining brightly in all directions.

The fluctuation was very violent, and a large area was cleared in an instant. Many cultivators avoided it and looked at it in surprise.

"I heard that you have been keeping a secret all these years, but your real strength is comparable to the second prince of the Great Yu Dynasty. I'm going to give it a try today."

A young figure like a deep sea stood at the end of the street. He looked very burly, with black hair fluttering around, and eyes like knives. When he swept across the void, he even made a terrifying rumbling sound, which made people tremble with fear.

Standing in front of him was a slightly thin figure with a grim and gloomy face, it was Tuoba Xiaoyao.

The two suddenly started fighting on the street without any warning. If it wasn't for the strong formations engraved here, many pavilions and buildings would have been destroyed.

All the cultivators and creatures around watched this scene in shock, and more and more people heard the momentum and rushed over in the form of divine lights.

Among them were some successors of sects, as well as the older generation gathered here. Even a few living fossil figures, rubbing their chins, looking thoughtful.

Yu Feiya, Yu Ming, and the others rushed over upon hearing the news and appeared around, frowning at the scene.

“The young master of the Demon God’s Palace, the Crazy Demon God. It is said that he once fought with Yu Lie, the second prince of the Great Yu Immortal Dynasty, for three days and three nights, and the two were tied.”

“I didn’t expect it to be him, and he rushed here too. It is said that he went to the Demon God’s Cave in the Demon God’s Palace some time ago, and went deep into the thirteenth floor. .”

“After leaving this time, he planned to have another battle with the second prince Yu Lie, but the second prince Yu Lie stayed in the palace and did not leave.”

The people around talked a lot and recognized the identity of the burly figure.

The Demon God Palace was an ancient sect. Although its background was not as good as that of the Great Yu Immortal Dynasty, it was also ancient and unfathomable.

Regarding Tuoba Xiaoyao’s identity, he was quickly recognized by everyone. After all, some time ago, there was an uproar in the Great Yu Immortal Dynasty. No one did not know that the third son of General Tuoba’s mansion was hiding so deeply.

The young master of the Demon God Palace would suddenly knock on his door, probably because of this reason. He wanted to test out the strength of the second prince Yu Lie through the fight with Tuoba Xiaoyao.

But he forgot one thing, that was, being comparable did not mean that the two had fought against each other before.

There had never been any competition between Tuoba Xiaoyao and the second prince Yu Lie, who knew who was stronger and who was weaker?

And this was also the reason why Tuoba Xiaoyao’s face looked extremely gloomy now.

Soon on the long street, Tuoba Xiaoyao and the young master of the Demon God Palace fought fiercely again. The terrifying fluctuations spread, erupting with incomparable power. It was a battle between two young men.

Even many older generations were frowning, feeling deeply troubled. It was difficult to resolve the methods of the two of them.

In particular, Tuoba Xiaoyao could fight against the young master of the Demon God Palace with only a fine steel long sword without using other divine weapons. His accomplishments in the Dao of the Sword were really astonishing and shocking.

“How could he know Shu Sect’s swordsmanship?” Ah Qing’s startled voice sounded, it was the first time she showed such a startled expression after coming to this world.

Naturally, she was paying close attention to this battle, wanting to understand the gap between the younger generation of powerhouses in this world and their world. But she didn't expect to see such familiar swordsmanship in this world, and she was even a direct disciple of the Shu Sect.

Because she had fought against the successors of this generation of the Shu sect, she knew the ways of swordsmanship very well.

"Who are you talking about?" Gu Changge raised his eyebrows, he wasn't very interested in this fight.

As the Son of Luck, Tuoba Xiaoyao had a halo, and it was inevitable to avoid a fight wherever he went. This was nothing unusual.

But he didn't expect that Ah Qing would suddenly say this. Shu Sect's sword skills? Could it be that Tuoba Xiaoyao had been to her world in his previous life?

Or was he originally from that world? Could this be the secret that Tuoba Xiaoyao had been trying to hide?

Chapter 614: Not the slightest malice, Jianxuan Great World

"This is the swordsmanship that only the Shu Sect's direct descendants can display. If it is passed on privately, they will definitely be chased and killed by the Shu Sect. In such a scenario it will be difficult to escape death even if you head up to the Yellow Springs. He is definitely a direct disciple of the Shu Sect, and he has the aura of a Sword Spirit on his body..."

The girl Ah Qing stood by the window, watching the battle scene there as she explained.

At the end of the long street, the battle was raging as the two figures fought crazily. The momentum from the battle shook all directions. There were knives and sword shadows intertwined as various ancient runes were evolving, making the place blurred.

The onlookers were all palpitating while keeping away from them.

It was hard to imagine that this would be a battle between two younger generations. Even if it was said that the battle was between older generations, they would believe it.

The young master of the Demon God Palace was a well-known young supreme being, an invincible existence who swept away a party. And Tuoba Xiaoyao only appeared suddenly during this period of time. He used to be extremely low-key, but his own strength should not be underestimated in the slightest. He even fought hundreds of moves with the Young Palace Master of the Demon God Palace without losing the upper hand.

The eyes of many young supremes who were watching all this moved slightly, feeling that Tuoba Xiaoyao would be a great enemy.

"It seems that Tuoba Xiaoyao was reborn in this world, and it should not be accidental." Gu Changge put down the cup in his hand, his eyes suddenly turning interested.

From this point of view, Tuoba Xiaoyao practiced the secret technique of the Heavenly Sword Embryo, which should have come from the Shu Sect. That was, it came from the world of the girl Ah Qing.

He would come here as soon as possible, and he definitely wanted to pass through that space portal to return to that world.

Thinking of this, Gu Changge's figure suddenly moved and disappeared from the spot. When he reappeared, he was already at the place where Tuoba Xiaoyao and the young master of the Demon God Palace had fought.

"Greetings, Young Master Changge!"

Yu Feiya, Yu Ming, and others were paying close attention to this battle, and they didn't notice Gu Changge's arrival, so they hurriedly greeted him.

Even the faces of many from the older generations around him changed slightly. They dared not be disrespectful to Gu Changge.

"At the critical moment of capturing that big world, why are the two Taoist brothers clashing over a trivial matter? It's better to save face for the next time. If there is a conflict, we can resolve it later, okay?" Gu Changge looked at the two people who were fighting and said with a smile on the corner of his mouth.

Hearing this, everyone was taken aback for a moment, they didn't expect Gu Changge to stand up to dissuade them at this time. After his words, who dared to fight again?

That would mean not giving Gu Changge a face. Tuoba Xiaoyao didn't expect Gu Changge to show up to dissuade him. His face was uncertain, but he didn't continue to attack. His figure fell to the other side, looking indifferently at the young palace master of the Demon God Palace.

"Since Young Master Changge said it himself, how dare I dare to make a move again."

The young master of the Demon God Palace was also known as the Crazy Demon God, but he dare not disobey Gu Changge's wishes. He retreated on the other side with some unfinished business, and arched his hands.

Crazy Demon God was what everyone called him, and this also showed his temperament. He didn't respect even the ancient existence of the Demon God's Palace, he was extremely rebellious, like a madman that only wanted to challenge all young talents. But he was still very honest in front of Gu Changge, and he didn't want to offend Gu Changge.

"I'll give Young Master Changge face today, and next time we'll have a good fight."

The Crazy Demon God's eyes swept across Tuoba Xiaoyao like a sword in the sky, then he cupped his hands toward Gu Changge who was on the side before turning into a ray of divine light, not staying for long.

Tuoba Xiaoyao snorted coldly, feeling a little annoyed in his heart. If this person hadn't suddenly wanted to fight him, it wouldn't have caused such a big momentum and even attracted Gu Changge over.

In his original plan, he wanted to follow the Great Yu's army through the space portal in a low-key manner and then go to the Shu Sect to find a way to solve it. But since he had bumped into Gu Changge, he was worried that Gu Changge wanted to take advantage of the chaos and escape with the Heavenly Sword, regardless of Tuoba Qingyu's safety.

That was hard to explain. Now that he had met Gu Changge, he could just test how his sister was doing now. Tuoba Xiaoyao was very sure that the person who sent someone to take his sister away was definitely Gu Changge.

“It seems that you still have a big opinion of me.”

“Don’t worry, I don’t mean anything to you.” Gu Changge seemed to know what Tuoba Xiaoyao was thinking at the moment, so he smiled faintly.

“Thank you, Young Master Changge, for making the rescue.” Tuoba Xiaoyao snorted coldly in his heart, but he still didn’t dare to show any strangeness on his face and cupped his hands.

Gu Changge smiled lightly and said, “Brother Tuoba doesn’t have to do that.”

“Young Master Changge’s kindness in rescuing me today will definitely be repaid in the next day, but now I have other things to do, so I will take my leave first.” Tuoba Xiaoyao glanced at Yu Feiya and the others and then planned to leave first so as not to affect tomorrow’s plan.

“Then I hope Brother Tuoba won’t forget about it,” Gu Changge said casually.

“That’s natural.” Tuoba Xiaoyao cupped his hands, then turned and left.

He knew that this was Gu Changge reminding him not to forget about handing the Heavenly Sword and the agreed time. This scene, in the eyes of Yu Feiya, Yu Ming, and others beside him, was Tuoba Xiaoyao still brooding over what happened in the main hall back then.

Although he was imprisoned by Emperor Yu and has now been released, many circumstances at that time were spread to various places, causing quite a stir.

In the eyes of many cultivators and creatures, Tuoba Xiaoyao was a toad who wanted to eat a white swan. Especially at that time, Gu Changge had personally commented that he was too embarrassed, so it was only natural that Tuoba Xiaoyao didn’t have a good impression toward Gu Changge.

“After what happened that day in the main hall, it seems that this guy has given up, and he doesn’t pester you anymore.” Yu Feiya’s younger brother, Yu Ming, still looked unruly. Seeing that Tuoba Xiaoyao left without greeting them, he let out a cold snort of disdain, and then opened his mouth.

Yu Feiya sighed slightly, “I think Xiaoyao seems to be preoccupied, he must have encountered some troubles. But why did he appear here? Does he want to go to that world this time?”

She also didn’t greet Tuoba Xiaoyao, because after Emperor Yu’s grounding last time, she already understood. If she didn’t want to cause Emperor Yu to dislike Tuoba Xiaoyao again, she shouldn’t get too close to him.

“Is Young Master Changge heading to that world this time?” Yu Feiya stepped forward gracefully, dressed in snow-white clothes with black hair like clouds, looking dignified and elegant as she asked Gu Changge beside her.

Gu Changge said casually, “That’s exactly what I want to do.”

“That world has never been visited by cultivators before. There are too many unknowns and many dangers. Since this is the case, how about we go together, Young Master Changge?” Hearing that Gu Changge was going, Yu Feiya was a little curious and could not help but send an invitation.

It was because of Emperor Yu’s order that she would lead the younger generation of the Great Yu Immortal Dynasty there. But Gu Changge was obviously alone this time, and there was no one who followed from the Ancient Immortal Gu Family around him. Why did he go to that world?

“Gu is used to being idle, so I’m afraid I won’t be able to agree to Princess Feiya’s invitation.” With a faint smile on face, Gu Changge didn’t agree.

His purpose was different from that of Yu Feiya and others. If they went together, they would only bring him unnecessary trouble. What was more, there was a young girl Ah Qing by his side. Was this the first time Gu Changge had rejected her? n0Velusb.c0m

Hearing this, Yu Feiya was slightly astonished, even though she was bright and intelligent, it would be difficult to understand why Gu Changge rejected her for a while.

It was obviously much safer to head together at such a time. The world there was full of unknowns. Although Gu Changge was strong, he might not be able to resolve all crises.

Could it be that Gu Changge really hated her and kept rejecting her?

Today’s big battle on the long street was just an insignificant episode for the many surrounding forces because everyone’s attention was on that big world.

In the past few days, a lot of news about that ancient world had also been revealed, causing quite a stir. Many ancient existences were speculating that there might be Dao of the Sword in that ancient world, which led to the prosperity of the Dao of the Sword in that world.

Rumble!!

In the most central area of the star field, accompanied by dazzling and eye-catching divine light, turbulent and vast energy surged like an abyss as if a thick and majestic world was crushing the space past it.

A large crack in space that was thousands of miles long lay there and the surroundings were filled with various chaotic auras and storms. Many broken stars floated around, revolving around the big cracks in space.

Ordinary cultivators dare not even approach the fringe area, they would be crushed to death by the aura before turning into ashes with their bodies and spirit destroyed.

This place seemed to be a cosmic tunnel opened by the Supreme Immortal King, which could travel to another world, mysterious and vast.

At this moment, many ancient warships galloped with bright runes, resisting the space aura of this place, forcibly crossing over, and descending into the big crack. These ancient warships were full of figures wearing battle armor, holding heavenly swords, and war spears with evil spirits soaring into the sky and unrivaled brilliance.

The space portal was opened as various forces and sects dispatched armies to conquer this great world.

The Jianxuan Great World was an extremely vast and boundless continent. However, if one looked at it from a high altitude, they would actually find that this was an extremely ancient star of life. Apart from the vast land, it was surrounded by oceans and various islands dotted around.

The land was divided into thirteen states, and the territory of each state was boundless. Even a person with a cultivation level that reached the sky and the earth could hardly travel to the end of a state.

And in each state, there were many sects of great and small forces, which depended on each other to survive like several roots. Among them, there were also Immortal overlords who had stood for hundreds of thousands of years.

Shu Sect, Mount Kong,... These forces had an extremely ancient heritage, and every disciple who walked out was a powerful hero, admired by countless people.

Among these overlord forces, there were Sword Immortals with a lifespan of more than ten thousand years. This kind of existence was so powerful that it was difficult to describe its magnificence in words. With a sword, the thirteen states would be chilled, and everyone in the world would bow their heads.

However, with the drastic changes in the outer world half a year ago, many extraterrestrial demons descended and tried to capture this world.

Even the Sword Immortal who was born in the world was severely injured by the powerhouse among the extraterrestrial demons.

Countless cultivators lived in fear every day, worrying that this world would completely fall, and everyone would be slaughtered and enslaved by the demons outside the territory.

Chapter 615: There is still a glimmer of hope, The army is arriving

“The sky has changed again. It seems that the extraterrestrial demons will be even more terrifying this time. I don’t know if we can stop them.”

“We can only pray that there is hope.” *n0vELusB.c0m*

In the center of Jianxuan Great World, in an extremely splendid and tall pavilion, there were many powerful and incomparable figures. Around these figures, there were many altars.

The altar was made of strange stones of various colors, flowing with divine brilliance and intertwined with a divine glow. On the stone wall beside it, there were also many vague stone carvings.

Although it was very blurry, it could still be seen clearly that it was left by the ancient ancestors when they resisted the demons from outside the territory. There were very few such records, especially since millions of years had passed, only a few words could be found, making it impossible to reproduce the original tragedy.

It was also hard for them to find a solution.

“Can we only sit and wait for the day of our death?”

Some of these figures opened their mouths. Their eyes were flat, but there was a terrifying will like thunder.

“Before the last moment, who can tell clearly?” Another figure spoke, her voice was soft and her figure was graceful, but she wore a mask on her face, and only her beautiful eyes could be seen.

“What Snow Sword Immortal said is also reasonable. Until the last moment, who can tell clearly? After all, judging from this hexagram, there is still a glimmer of hope.”

A trembling white-haired old man spoke. He was dressed in a simple Taoist robe, his hair was tied up in a bun, and he was holding a wooden sword in his hand as if he could be blown away by a gust of wind. However, no one here dared to underestimate him.

There was such a saying circulating in the Jianxuan world that the Sword Immortals in the world came from the Shu Sect.

And the white-haired old man in front of them was an old Sword Immortal of the Shu Sect. In the depths of the boundless ocean, he had slayed the fierce beast in the lands of the Sword Immortal with one sword, shocking the thirteen states. Although his aura was weak now, his strength was extremely strong and unfathomable.

“The few Taoist brothers who went to wipe out the source of the disaster never came back, and there is no news at all. It seems that there is more danger than good luck. We still need to make preparations to fight the group of extraterrestrial demons.”

The other person also opened his mouth. He had a rough face, and there was a very obvious scar on his face, but there were wisps of sword light flowing in his eyes, which made people dare not look directly at him.

There was no doubt that this group of people was the only remaining Sword Immortals in the Jianxuan Great World, standing at the top. Although there were still some terrestrial Sword Immortals who were hiding too deeply and had never shown up, the number would not be too many.

It could be said that they were the last hope and the strongest fighting force in the Jianxuan Great World.

Although there were many other sword cultivators, they still could not play a key role in determining the outcome. If the final decisive battle broke out, everyone had to pin their hopes on them.

“According to the hexagram, there will be someone who will step forward to save the crisis, but who will that person be?” The old Sword Immortal of the Shu Sect muttered and his eyes fell on the altar.

This was the altar left by the ancient ancestors. It contained the Immortal will of the heroic spirits, which could be used at critical times. Now they used this altar for divination, trying to get a glimpse of the way ahead, but the result was that although the way ahead was bleak, it contained a faint light.

This faint light had also become their belief in persistence.

“Gather the army, let’s meet up on the battlefield first, I feel that the suppression of heaven and earth on the group of extraterritorial demons is gradually weakening.”

“The most powerful among them may come from the sky...” The old Sword Immortal sighed, and then his figure turned into a breeze and left the place.

The rest of the powerhouses also seemed extremely silent and left the place one after another, only a few people’s eyes flickered slightly with other thoughts.

More than half a year ago, a boundless and terrifying crack suddenly appeared in the sky, and from that crack, an endless stream of extraterrestrial demons descended, bringing them huge disasters.

But the only thing that was fortunate was that the will of this world was resisting the group of extraterritorial demons, making it difficult for the strong among them to enter, and they could only watch all this indifferently from outside the territory.

If they burst out with overwhelming coercion and aura here, they would be suppressed immediately by the laws of Heaven and Earth. They were very cautious and worried about accidents, so they never entered with their real bodies.

Boom!!

And at this moment, the creatures in the entire Jianxuan Great World felt an incomparably terrifying energy descending from the sky as if an eternal blue sky was about to collapse. The great will of the universe was crushing and falling, causing people to burst into pieces.

All the living beings felt cold all over their bodies, trembling to the extreme while looking out of the sky in horror.

“The army of extraterrestrial demons has descended again, and it is more terrifying than before?”

A strong man rose into the sky with two terrifying rays of light shooting out of his eyes, piercing through the world. As he looked out of the domain, he said with incomparable dignity.

From every place in the thirteen prefectures, immeasurable sword energy shot up into the sky, turning into human figures, looking at the scene beyond the heaven and the earth, their faces were very heavy.

“That’s the ancient warship of the Heavenly Demon from the Outer Territory. It’s full of figures, and there are more people behind it. The number of extraterrestrial demons that descended this time is unimaginable...”

Enduring the pain of his body about to collapse, a strong man couldn’t help but growl in a low voice, his voice full of despair.

“Those who submit will be spared.”

When everyone was trembling, there was a divine thought as vast as an abyss sweeping from beyond heaven and earth with indifferent thoughts, coming out as words.

This kind of fluctuation swept tens of thousands of miles from an endless distance. It was frightening, making their skin explode.

Ordinary cultivators even started bleeding, their spirits collapsed and they could not bear the aftermath at all.

“Don’t worry, our world is against them, they can’t come now. Don’t be intimidated by them.”

A strong man roared, his eyes were red as the words came, it revived many creatures who were almost in a coma.

“Hehe, you are really a generation of ants. If you accept the surrender obediently, you can still live.”

Incomparably huge ancient warships appeared from outside the domain, exuding cold and bloody fluctuations.

A figure resembling a Scarlet Divine Phoenix emerged, bathed in monstrous divine fire. It spoke indifferently, and an incomparably powerful aura swept across the heaven and the earth.

However, when he was about to rush down to the ground below, there was a sudden red glow intertwined between the sky and the earth, the laws and order turned into heavenly swords, slashing toward him and stopping him.

He snorted coldly, knowing that this was a creature under the protection of this world, so he had no choice but to give up.

Seeing this scene, many powerhouses in the Jianxuan Great World breathed a sigh of relief. When they saw so many ancient warships descending just now, they were all drenched in a cold sweat.

This was a desperate scene, but fortunately, the group of supreme beings were afraid of the will of this world and dared not continue to make a move.

“Attack!!”

Afterward, a large number of knights and soldiers rushed out of the ancient warships, either riding fierce beasts or driving magic weapons before rushing to the ground below.

A huge battlefield there had turned into a piece of red ground. There were spatial fluctuations spreading above the sky. It could be seen that ripples were spreading, and a large number of cultivators from the Upper Realm were rushing over.

Because there was that terrible will from this world that was recovering, which could resist the fluctuations of the strongest, the leaders of the various forces were very cautious and had not come down with the true body.

Below, the fighting was extremely brutal. The endless beasts and soldiers were charging with their sharp spear penetrating into the opponent’s body, spilling blood, and carrying the corpse forward for a long distance.

Farther away, the long sword slashed as the roar shook the wild. The light of the sword was like lightning, the sword energy soared to the sky and people screamed. Blood flowed like rivers, and dead bodies were everywhere. The creatures of the two worlds were engaged in a life-and-death battle.

Not far away, ancient cities stood majestically. However, the city wall had been broken, and there were bloodstains everywhere. There were powerful cultivators in the sky urging the ancient treasures as they were booming non-stop.

Although the barrier of the city was shining, it couldn't stop it. The light shield of the city had already cracked, and it was about to be breached.

“Boom”

At a critical moment, a sword aura descended from the sky, turning hundreds of cultivators into a pulp, and several young sword cultivators appeared above the city wall, holding divine swords. Divine soldiers descended from the sky, and slashed out an extremely powerful sword aura, sweeping away enemies from all directions.

“Are you going home first?” Not far from the city wall, he saw Ah Qing's silent and complicated expression. There was a faint smile on the corner of Gu Changge's face, and he said casually, walking through this battlefield like a stroll.

Alpha followed behind him, and the three of them walked here casually, with blood blooming on both sides, roaring, and corpses everywhere. But everyone around them seemed to turn a blind eye to them, even cultivators from the Upper Realm could not notice this scene.

“Yes, I want to go home and see my mother first. She should be very worried about me running away from home.” Ah Qing finally recovered from the silence and nodded.

The scene in front of her made her very dazed. It was obvious that her compatriots were fighting with the cultivators from the Upper Realm, but she seemed to stay out of it.

The last time she left the Jianxuan Great World, the battle was not so tragic. She never thought that she would set foot on this familiar homeland again under such circumstances.

Chapter 616: The second most beautiful woman in the Southern Barren State, The old man is in trouble

“This place is the southern barren state of the thirteen states. When the extraterrestrial demons descended, they appeared from under the sky outside the southern barren state.”

Gu Changge, Ah Qing, and Alpha walked casually on the battlefield, strolling in the courtyard as if there was an invisible field around them.

Even senior cultivators couldn't see them. All the means of attack and the aftermath, when they were about to touch the three of them, were resolved by an invisible force and dispersed like ripples.

Ah Qing understood that this was Gu Changge's method, mysterious and unpredictable, so looking at the scene of the battle ahead, she opened her mouth in a low voice and explained.

She knew that Gu Changge had no malicious intentions, and after taking her back to her hometown, he came alone with only one subordinate and did not walk with the army from the Upper Realm.

Gu Changge was a benefactor to her, completely different from other cultivators of the upper realm.

“The southern barren state of the thirteen states? That city in the distance is Southern Barren City?” Gu Changge nodded.

From Ah Qing's mouth, he knew that there were thirteen states in the Jianxuan Great World, and the territory of each state was extremely vast. Although it was far from being compared with the Upper Realm, it was not known to be much more vast than the territory of other ancient great worlds.

Moreover, since he came to this world, he felt that this world had a very clear will.

To be exact, there was a spirit in this world, and it could even manipulate the laws of the world, so as to counter the supreme beings in the Upper Realm and prevent their coming, which was by no means comparable to the will of the ordinary world.

Gu Changge's exercises were completely different from those of other cultivators. When he restrained all his aura, no one could detect him. Among all the sensations in this world, Gu Changge's existence was more like nothingness, vast and unknown.

He was not worried about being contradicted by this world. What was more, he came here for the origin of this world. If it was conscious, it would be easier to deal with.

"Yes, but it seems that it won't be long before Southern Barren City is destroyed. Those powerhouses were all sent by the Southern Ming Dynasty in the Southern Barren State."

"The Southern Ming Dynasty is attached to the Sword Sect, and it is also a well-known superpower in the Southern Barren State. They have been resisting the extraterritorial demons for a long time." Ah Qing said, looking at the ancient city in front of her.

Although all parts of the thirteen prefectures were sending powerhouses to come here, they were too far away from here. Even if they passed through the space altar halfway, it would take a lot of time.

And the number of demons outside the territory was really too much. They could not be wiped out at all. Even if they resisted a wave, there would be another wave of creatures coming after a while.

The red land outside Southern Barren City was all caused by the war during this period. In the past, there were many forces here, and the city stretched and flourished. But now it was a piece of ruins, all turned into ruins, and there was nothing to observe.

Not to mention the blood flowing into rivers, it was almost the same.

While the two were talking, a loud noise suddenly sounded from the towering ancient city in the distance. The tall city wall collapsed, and the light curtain also collapsed, making it difficult to continue to resist the surrounding attacks.

A golden cauldron descended from the sky, carrying wind and thunder as it was unleashed by a powerhouse, smashing the protective cover. The few young sword cultivators who made the attack before also coughed up blood, and then flew out backward, drenched in blood.

Everyone was yelling, some were terrified, some were desperate, and some were furious, wanting to fight desperately with the army of the Upper Realm.

"Attack!!"

Shouting to kill and shaking the sky, the ancient city was destroyed, and the Upper Realm's army shouted loudly, rushing forward like wolves and tigers, taking the absolute initiative to occupy Southern Barren City.

On the other side, the army was defeated and fled like a tide, showing fear and despair. Still the army of the Upper Realm was besieging those powerful sword cultivators. For those soldiers with weaker cultivation bases, they didn't take much care.

"Cover up the four princesses and escape! Fight with this group of extraterrestrial demons!! Don't let the princess fall into their hands!"

Someone in the Southern Barren City roared, and several terrifying sword auras rushed out. Several figures held long swords and attacked the strong man in the sky.

For a moment there was chaos with a shining brilliance reflecting the sky. The shadows of swords swayed in all directions as countless people were fighting.

"Is that the fourth princess of the Southern Barren Dynasty here?" Ah Qing looked up at the Southern Barren City, which was gradually collapsing, with a look of surprise on her face.

Not only did she recognize the fourth princess, but the relationship between the two of them was not bad. They had discussed swords and discussed the way of swords together before, and they seemed to have similar ambitions. But at this juncture, even if she wanted to rescue the fourth princess, she was unable to do so.

The figure that unleashed the golden cauldron in the sky was really too strong. Just standing there had an invincible power, sweeping away many sword cultivators around without losing the wind.

They were now in the chaos of the army. Although everyone around them turned a blind eye to them, Ah Qing could still feel the terrible and tragic situation.

"Is that fourth princess your old friend?" Hearing her words, Gu Changge smiled lightly.

Ah Qing nodded as she looked at Gu Changge and said, "Yes, she is the fourth princess of Southern Ming Imperial City, also the first genius and second beauty of Southern Ming Imperial City."

"The first genius and the second beauty?" Gu Changge seemed a little surprised.

"She is a very nice person. After learning about the invasion of the extraterrestrial demons, she immediately followed the army to resist at the border." Ah Qing said.

Boom!!

The fluctuations that erupted in front became more and more terrifying, the towering walls collapsing as they cracked destroying the endless brilliance. They were unable to resist the army of the Upper Realm at all.

The immeasurable sword energy soared to the sky, and each one was as big as a mountain, slashing horizontally. But before the figure holding the golden cauldron, it shattered like a bubble and turned into ashes.

Everyone was coughing up blood and retreating. Even with all their strength, it was difficult to resist the opponent's footsteps. This was a scene of despair and trembling.

Soldiers riding ferocious beasts attacked aggressively, screaming and attacking. All the defenses along the way were destroyed, like a terrifying indestructible sword.

In the city that was about to collapse, a chariot was lifted into the air, surrounded by many figures protecting it as if it wanted to take the opportunity to break through.

Besides the chariot, an old man with a white beard held a Dao sword and stood in the air, trying to block the terrifying figure holding a golden tripod.

"Don't think about it!" He uttered a low shout, and the Dao sword shone brightly, spurting out terrifying sword lights, shining in all directions.

"Ignorant ants, how dare you stop me?" The terrifying figure holding a golden cauldron said indifferently. He didn't look like a human being, with vertical eyes between his brows and thunder streaks around him.

There was no doubt that his strength was extremely powerful, and he was one of the strongest powerhouses sent by the Upper Realm to the Jianxuan Great World this time.

In this direction, the two quickly began to fight, terrifying waves swept across heaven and the earth. The countless surrounding mountains trembled, cracking gray cracks, and rushing out endless evil spirits.

This level of fighting, even if it was just the aftermath, was a devastating disaster for all the creatures and cultivators below.

Facing the ruthless slaughter of the Upper Realm's army, the cultivators in the Jianxuan Great World had almost no room to contend as they retreated steadily and were constantly defeated.

The Southern Barren City, which was still standing majestically before, completely collapsed at this moment and turned into ruins.

Ah Qing watched this scene, and clenched her little hands tightly, she couldn't bear it and turned her head away.

In such a fierce battle, Jianxuan Great World had no way to resist. And she was very clear that the army in front of her was only a small part of the manpower sent by the Upper Realm this time. More armies were still stationed outside the sky, and there were more powerful people there.

"It seems that your old friend cannot escape."

Gu Changge's expression did not change, he smiled faintly, and led Ah Qing across the ruins of the ancient city ahead. His speed was not considered fast, but the ground under his feet seemed to be changing, and he appeared thousands of miles away in the next moment.

"Benefactor, can you help her?" Ah Qing also noticed the changes in the battle situation there at the moment, with some pleading eyes.

The old man with the white beard was obviously not the opponent of the man from the Upper Realm. He coughed up blood and fell into a disadvantage. His body was covered in blood and his breath was weak.

The next moment, as the golden cauldron descended from the sky, it brought a terrifying thunder. The old man's face was full of death, and with a scream, he was directly shaken into a blood mist, his body and spirit disappeared.

This scene made the army on the tragic battlefield even more desperate, but after killing the old man, the figure did not stay longer. It unleashed the big cauldron, and chased forward again.

He could tell that there was an extremely important person in the chariot ahead, otherwise, the old man would not delay time by dying.

“Boom!”

In the sky, more knights rushed down, the bell roared and the sound waves spread like swords like the scythe of death, frantically harvesting lives. Not only were many sword cultivators in the air shattered, but even the army on the ground fell to pieces. Heaven and earth were filled with a breath of despair.

“Fourth princess, the elder has fallen and was killed by the demons from outside the territory.” Several people in the chariot felt the fluctuations in the distance, and couldn't help showing grief.

A maidservant with a pretty face turned pale, trembling unceasingly.

In their eyes, that elder was already among the top powerhouses, he was sent by the emperor of the Southern Ming Dynasty to protect the princess. However, under the hands of that terrifying extraterrestrial demon, he was also killed very quickly, and he couldn't even delay the time.

In the chariot, a calm voice sounded, “The extraterrestrial demon that descended this time is far more terrifying than the previous ones. That elder was already in the seventh realm, but he is still no match for that person. The opponent has probably half a foot into the eighth realm.”

In the Jianxuan Great World, the realm of practice was divided into nine realms, and only when the nine realms were complete could one have the possibility of stepping into the realm of Sword Immortals. The seventh level was enough to look down on the world, and it was hard to find an opponent.

The girl who spoke had black hair like clouds, bright teeth, and a smile that captivated the city. It was so beautiful that it was dreamlike, and her blue hair fluttered like an exiled immortal.

She was the number one genius in Southern Barren State, Princess Xuandie who was known as the second beauty. Even in such a desperate situation, she still maintained a calmness far beyond ordinary people, looking at the scene behind her with a sword pill hidden under her sleeve.

She would not let the other party catch her. If she was faced with death, she would immediately end her life. As a princess, she would not be humiliated until she died, and she would leave with dignity!

“Princess, what should we do, that extraterrestrial demon will catch up soon.” The rest of the people in the chariot were pale and terrified and were frightened by the scene just now. *n0VElusb.com*

Although the chariot had the function of traveling through the void, it was obvious that the opponent's speed was also very fast, and it was only a matter of time before they caught up. There were not many guards around them, and they could not be opponents of each other.

The soldiers who came here with Princess Xuandie had all died during this period of time, and now there were not many people left by her side, and the elder was the last card. It was a pity that he was already dead, with both body and spirit gone.

Now facing everyone, there were only two paths, either to be captured or to be killed.

"Don't be afraid. At worst, we will die when the time comes. As citizens of the Southern Ming Dynasty, why should we be afraid of death?" Princess Xuandie showed no despair on her face, on the contrary, she was calm, showing no fear at this juncture.

However, her words were obviously not of much use. The rest of the people trembled even more violently. They could feel the terrifying aura chasing after them, sweeping the sky and the earth, making people's skin collapse.

"Let's see where you're going to run."

The figure with the golden cauldron in his hand chased after her, and with just a single palm, he blocked the void and made it stagnant, making it impossible to move an inch.

"Protect the princess!"

"Don't let him go any further!"

Several figures around the chariot roared, their eyes turned red, and they rushed out, wanting to fight each other desperately.

Princess Xuandie also took the initiative to come out at this moment. With calm brows she was holding a delicate long sword tightly in her hand, with a green light shining, facing all this directly.

Women didn't give way to men. Even though she knew she was invincible and might die here, she was extremely calm.

"It turned out to be a princess, and it seems to be of some value."

The figure holding the golden cauldron sneered, standing in the air, with a terrifying power permeating his body, which made people tremble.

Princess Xuandie looked at him calmly and said, "Why are you trying to invade our world? What is the reason?"

"Do we have to care about the reason when we trample ants to death?"

The figure sneered, without any intention of talking nonsense, he stretched out his big hand and crossed over, trying to catch Princess Xuandie. The attitude was extremely contemptuous and casual.

The rest of the people saw their eyes tearing apart and tried to stop them, but under the huge gap, they could only cough up blood and fly upside down, with scars all over their bodies, about to collapse and shatter.

Princess Xuandie's expression changed and wanted to fight, but soon found that the surroundings were like mud, and she couldn't fight at all. As for urging the sword pill, it was even more impossible.

"Could it be that I can't even die today?" Princess Xuandie felt powerless over her own weakness.

But in the next moment, the big hand that was about to reach out in front of her suddenly stopped.

The figure with the golden cauldron hanging over his head also froze, his expression seemed to be somewhat uncertain, then his face changed, he cupped his hands towards a certain direction, not daring to stay, and hastily turned into a divine light and fled away.

"What happened?" Princess Xuandie's face was also full of surprise and uncertainty, not knowing what happened.

The rest of the people also looked confused, completely unaware of why the strong man left suddenly and spared their lives.

"Which direction?"

Princess Xuandie suddenly remembered that the strong man looked in a certain direction just now, and then his expression changed before he escaped.

She looked over, with doubts and incomprehension. But soon, she couldn't help but widen her beautiful eyes, feeling a little unbelievable as her words were full of surprise.

"Ah Qing?"

Chapter 617: What is his origin? The master from outside the sky

Princess Xuandie's face was full of surprise, she had never expected to see Ah Qing again one day.

Originally, when she learned that Ah Qing broke into the crack in the sky alone and tried to find her father, she was very worried and even felt that the two would never see each other again.

Seeing Ah Qing here today was really a surprise to her, and it felt a little incredible.

"Xuandie." With a rare smile on Ah Qing's face, she walked toward Princess Xuandie and the others.

Seeing that Princess Xuandie and others were in danger, she asked Gu Changge to save them. The reason why the powerhouse from the Upper Realm retreated just now was that he sensed Gu Changge's existence.

"Who are these two?"

A hint of surprise appeared in Princess Xuandie's beautiful eyes, looking at Gu Changge and Alpha behind Ah Qing, she couldn't help asking. She didn't forget how the strong man retreated just while she just glanced in the direction where Ah Qing was.

And the attitude was extremely respectful and fearful. Could it be related to this handsome and extraordinary man in front of him?

This made Princess Xuandie feel inexplicably vigilant. It was impossible for her to be able to scare away such a strong man who stepped half a foot into the eighth realm.

Although saving her was a kind gesture, if the other party was from beyond the sky, it was difficult to tell whether they were an enemy or a friend. Moreover, Gu Changge gave her an extremely mysterious and powerful feeling. Even the burly figure behind him who looked like his subordinate exuded a trembling aura.

Combined with the fearful attitude of the strong man just now, this person's background was absolutely extraordinary.

"This is Mr. Gu, and also my benefactor. Don't worry, although he is from outside the world, he has no malice towards us."

Ah Qing didn't know how to explain Gu Changge's reason for coming to Princess Xuandie, so she could only make a long story short and introduce it casually.

Princess Xuandie nodded. Although Ah Qing said so, she still felt a little uneasy. However, the life-saving grace just now was true. If Gu Changge hadn't shown up to startle the strong man away, she and many of her followers would have died tragically here.

At this moment, with a solemn face, she cupped her hands to Gu Changge and said, "Thank you for saving my life, young master. If there is a chance in the future, Xuandie will repay it."

With an easy-going and indifferent smile on Gu Changge's face, he smiled and said, "It's just a little effort, the princess doesn't need to worry about it."

Everyone else could see that Gu Changge's identity was not simple. What was more, judging from the current situation, it was not clear whether he was an enemy or a friend, so after thanking them, they all remained silent, feeling a little vigilant and uneasy.

Although Gu Changge looked gentle and elegant, he was not from the Jianxuan Great World after all.

Looking at this scene, Gu Changge still had a faint smile on his face, and he didn't seem to care. He did not have any malice towards the creatures of this world, after all, he came for the origin of the world.

"Ah Qing, after you went to that rift in the sky, what did you encounter later? Did you see those seniors and the source of the disaster there?"

Princess Xuandie seemed to have remembered an important matter, and despite the fact that Gu Changge was still at the side, she couldn't help asking Ah Qing.

The rest of the people also became solemn when they heard the words, and they pricked up their ears to listen. This was something they cared about very much.

Back then, four terrestrial existences at the level of Sword Immortal set foot on the rift in the sky together to find the source of the disaster and wipe it out. But after entering, they disappeared without a trace like a mud cow into the sea, and no news came back.

Many people speculated that they fell within the crack because the soul lamps left by the four Sword Immortals were inexplicably extinguished in the end. Later people tried to find their whereabouts, but none of those who went to find them came back safely.

It could be said that except Ah Qing, no one came back alive. So they were eager to know what happened to Ah Qing there.

“When I just passed through that crack, I was caught by the group of extraterrestrial demons, and then I was taken to that huge world, where I was imprisoned for several months. If Mr. Gu hadn’t saved me, I’m afraid I would have died by now, and it would be impossible to come back.” Ah Qing recalled that experience, with a complex expression on her face.

For her, it was an extremely dark and hopeless past. She was imprisoned in a dark dungeon without even the slightest light. In that hunting game, Gu Changge’s appearance was like the first ray of light in the darkness for her.

“I see.” Princess Xuandie didn’t expect Ah Qing to almost die there. Listening to her experience, the princess felt a bit of fear lingering in her mind..

The rest were a little disappointed, they thought they could get a lot of news about that world through Ah Qing’s mouth.

“Then your father and the others?” Princess Xuandie asked again, somewhat concerned.

“I don’t know. I haven’t found any news about them.” Ah Qing shook her head.

Afterward, she threw bomb-like shocking news to everyone, “The power of that world is beyond our imagination. The large-scale invasion army this time can only be regarded as negligible to that world.”

“Negligible?” Princess Xuandie felt a bit bitter in her mouth, it was just an army with a negligible strength, and it was by no means something they could compete with.

This was really a hopeless situation.

“Princess!”

At this time, there was a sound piercing the sky in the distance, and several figures quickly approached before descending from the sky, their faces full of anxiety. *nOveLUsb.cOm*

Ah Qing looked over, and the person who rushed over had reached the eighth realm. He was a Royal enshrined in the Southern Ming Dynasty, and the rest of them were also at the sixth level with Sword Sect’s logo.

The Southern Ming Dynasty was the most powerful kingdom among Sword Sect’s affiliated powers. It was impossible for the Sword Sect not to send their disciples when such a big event happened that Southern Barren City was destroyed.

In the entire Southern Barren State, the Sword Sect was the well-deserved overlord. The current master of Sword Sect was Snow Sword Immortal who was known as the most beautiful woman in Southern Barren State, and Princess Xuandie was also her disciple.

“Minister Chen?” Princess Xuandie and the others also let out a long sigh of relief when they saw the strong man in the eighth realm.

It seems that the emperor of Southern Ming had immediately sent this minister Chen to rescue them after learning the news that Southern Barren City had fallen.

“Princess, it’s good that you are fine.” Seeing that Princess Xuandie was safe and sound, Minister Chen was completely relieved.

“Junior Sister Xuandie is fine.” The rest of Sword Sect’s disciples who were following behind Minister Chen also surrounded him with worried faces.

“Hey, isn’t this Ah Qing?” Suddenly, someone recognized Ah Qing and was very surprised.

As one of the four young masters of the Jianxuan Great World, many younger generations had been defeated by her sword. Her father was even a hidden Sword Immortal, whose strength was so powerful that he could overlook the world! It was rumored that she stepped into the rift outside the sky to find traces of her father, why did she appear there?

They all had doubts in their hearts, and they were very puzzled.

“Princess, who are these two?” Minister Chen, who was in the eighth realm, looked at Gu Changge and Alpha, who was casually looking at them, but his heart skipped a beat and he couldn’t help asking.

In his perception, this smiling young man was like a deep and vast unknown space, filled with an aura that made his heart tremble. This feeling was even stronger than when he faced that Snow Sword Immortal.

He didn’t dare to underestimate him, and he felt extremely cautious.

“This is Young Master Gu. He was the one who saved our lives just now. If it wasn’t for him, we would have been killed by that extraterrestrial demon just now, just like the elder.”

Princess Xuandie explained, repeating what Ah Qingyuan said just now, and briefly introduced the process.

“What? The elder is dead?” Minister Chen and the others were taken aback and then looked sad. A strong man in the seventh realm was killed before they arrived.

It seemed that it was pure luck that Princess Xuandie and the others survived. Thinking of this, they were afraid for a while. Without Gu Changge’s help, Princess Xuan Die might have turned into a pile of bones when they arrived.

“Thank you for the kindness of this young master. After returning to the imperial capital, His Majesty will definitely thank you for your kindness.”

Minister Chen didn’t know Gu Changge’s origin, so he cupped his hands with respect on his face.

“It’s fine, you don’t have to be like this.” Gu Changge only smiled slightly at this.

“This gentleman is so young, yet his strength is unfathomable, I wonder about his master?” A tall and straight young disciple from the Sword Sect, with curious eyes, couldn’t help asking.

They felt that Gu Changge’s age was about the same as theirs, but being able to push back an existence that could easily kill a strong man in the seventh realm was obviously at the eighth realm or above.

So they were very curious about Gu Changge's background and succession.

Hearing this question, Princess Xuandie frowned, her hair danced lightly, white skin and lustrous beautiful eyes on her melon face contained a strange aura, fresh and refined.

She hesitated to speak, she didn't know how to explain to everyone that Gu Changge also came from beyond the sky. However, when she was about to explain, Gu Changge smiled slightly and said, "I came from outside the sky. As for my master, it's hard to tell, after all, my path is complicated."

"What?"

"Beyond the sky?"

It was said that no matter whether it was the Sword Sect disciple who asked just now or Minister Chen's expressions, they were all stiff and a little dull.

After reacting, a gust of cold air swept from his spine, causing their expressions to change drastically, and they looked at Gu Changge in disbelief with fear on their faces.

"Beyond the sky?" Several disciples of the Sword Sect had pale faces, their voices were trembling, and they couldn't help but back away.

Minister Chen stared at Gu Changge with great fear, intentionally or unintentionally keeping Princess Xuandie behind him.

"Actually, those creatures and cultivators outside the sky are not what you think. Mr. Gu is a good person and has no malicious intentions." Seeing this, Ah Qing sighed.

She had anticipated that things would turn out like this, and couldn't help explaining so that everyone could be relieved without having to be afraid.

Afterward, Princess Xuandie also added, informing Minister Chen and others to relax, there was no need to be like this.

Even so, minister Chen and the others did not dare to treat Gu Changge as casually as they did just now, and there was always a feeling that was making their hair stand on end, trembling all over.

"About Ah Qing, let's talk about it after we return to the imperial capital. The Southern Barren City is broken, and we can't defend here anymore." Princess Xuandie concluded.

The Southern Barren State was extremely vast, while the Southern Ming Dynasty was located in the depths, with a vast territory. After leaving this place, everyone used space runes to cross the void several times, bypassing endless mountains and rivers before arriving at the imperial capital.

This ancient city was incomparably majestic, and covered a vast area like an immortal city in the sky, exuding the atmosphere of ancient vicissitudes. The city gate was tall, like a hill, even if a large group of beasts walked side by side, it would not be crowded.

The walls were mottled, and there were fluctuations on them. If an enemy invaded, it would overflow with divine light and protect the entire ancient city. The purple aura in the center of the city was soaring into the sky, dense and it had turned into a dragon shape. At first glance, it was the place where the

dragon veins gathered, and the aura of heaven and earth flowed. It was an excellent place for cultivation. Many sword cultivators gathered around, with powerful auras, turning into streaks of light, flying across the sky and earth with the sword under their feet.

The silhouettes of Princess Xuandie, Minister Chen, Gu Changge, and others, transmitted through the space formations, emerged outside the city gate.

Chapter 618: Thinking of things too terribly, Seemingly giving them something

The Southern Ming Dynasty's capital was also an ancient city with a very long history in the entire Southern Barren State. It was said that in ancient times, it was immortalized through terrible turmoil.

Because of the invasion of the extraterrestrial demons, the Southern Ming's capital was filled with awe-inspiring scenes. Soldiers could be seen patrolling everywhere, and above the sky, strong men wielding longswords ran back and forth, alert to any disturbance.

After returning to the imperial capital, Princess Xuandie took Gu Changge and others, heading straight for the palace.

The current Emperor Nanming was waiting for Gu Changge in the palace. On the way, Minister Chen and others had already informed Emperor Nanming of what happened, so that the Emperor Nanming would be extremely cautious and dare not slack off.

The origin of Gu Changge's identity was not trivial, and from the message sent by Princess Xuandie, it could be known that Gu Changge's status in the world where the extraterrestrial demons were located was extremely respected and precious.

"I just don't know if this person is an enemy or a friend. I heard that he saved Chen Ah Qing's life..."

Emperor Nanming was wearing a light golden dragon robe and a purple gold crown on his head. He had a very heroic demeanor and a strong physique. He paced back and forth in the hall and whispered to himself.

In addition to him, there were several elders from the Sword Sect in the hall today, all of whom had entered the eighth realm. He was also a well-known powerhouse in the entire Southern Barren State, stomping his feet could change the color of mountains and rivers as he had great power.

They also heard the news from Princess Xuandie, so they rushed from the Sword Sect in a hurry, wanting to see the visitor from beyond the sky.

The Sword Sect attached a great importance to this matter, and even Snow Sword Immortal, who had rushed back from the ancient altar had a sudden change of expression.

"If he displays hostility, I will immediately take him down." An elder from the Sword Sect said with a ruthless look.

Emperor Nanming showed a worried look, and waved his hands, "I hope it's a friend rather than an enemy, otherwise I can't imagine the consequences. Minister Chen said that the young master's subordinate is at least in the ninth realm. Unless the Sword Immortal makes a move, no one can stop him."

Having said that, he couldn't help but sigh, there was nothing he could do.

Even in the huge Nanming Dynasty, there were only a handful of existences who had entered the ninth realm, and even he had to treat them with respect. But besides that young man, he could only be reduced to a subordinate, not to mention that the young man's cultivation was unfathomable. If such a character showed hostility, could the Southern Ming Dynasty stop him?

"A subordinate of the strength at the Ninth Realm?" The complexions of the elders of the Sword Sect suddenly changed. They took a deep breath and looked at each other, and their scalps felt a little numb.

The elder whose eyes were ruthless just now turned pale. His lips trembled slightly, and he didn't dare to speak anymore.

There were nine realms, one realm, and one heaven, not to mention the gap between these latter realms.

To put it bluntly, the existence of the ninth realm was almost invincible except for Sword Immortals. If one wanted to kill a cultivator in the eighth realm, they only needed to blow one breath to make them lose his soul.

"Since he saved Chen Ah Qing's life, then he doesn't look like a villain..." *n0veℓUsb.c0m*

"I can only hope that he has no other intentions." Several elders sighed.

"Chen Ah Qing's father stepped into the rift outside the sky at that time. Unfortunately, there has been no news until now. His life and death are unknown. Our world has completely lost the existence of four terrestrial Sword Immortals. The hope of this battle is even slimmer."

When Chen Ah Qing was mentioned, an elder from the Sword Sect couldn't help but shake his head and sighed, with a tone of great regret.

After all, it was a Sword Immortal-level existence, comparable to their sect master. Even among superpowers like the Sword Sect, there were only two or three, and missing one would be a huge loss.

"By the way, what did the sect master say about the ancient altar?" At this time, Emperor Nanming's expression suddenly became solemn.

He knew a lot of secrets about the ancient altar. It was said that the future could be predicted and divined there. The evolution of the Jianxuan Great World could be predicted.

It was just that the place where the ancient altar was located was extremely mysterious, and it needed the joint efforts of several Sword Immortals to open it. In the eyes of many creatures, that ancient altar was their last hope.

"Sect Master just nodded and shook her head, and didn't answer our question." Several elders looked extremely regretful. They didn't know what the result would be.

At this time, a voice came from outside the palace, Princess Xuandie walked in front, followed by Gu Changge, Ah Qing, and others.

"Father!"

Princess Xuandie greeted Emperor Nanming and was about to introduce Gu Changge to them.

However, Emperor Nanming had already waved his hands first, his eyes fell on the young man in front of him, he cupped his hands and said, "The Emperor of the Southern Ming Dynasty greets this young master."

His attitude was very low, extremely humble, not like the emperor of a country at all.

The rest of the elders of the Sword Sect were also sizing up Gu Changge, with cautious and careful eyes, not daring to make any overstepping movements, for fear of arousing Gu Changge's displeasure.

In terms of appearance, he really didn't look like a villain, on the contrary, he had a detached and refined meaning, like a banished immortal who accidentally left the world. It was a little reassuring for them, as sometimes the first sense was.

"The emperor of the country does not need to be too polite, I have no malicious intentions. You don't have to be so cautious." Gu Changge said with a slight smile, his expression seemed easy-going and gentle.

"Let Your Excellency laugh, it's really because the pressure you give is really too much." Seeing Gu Changge's attitude, Emperor Nanming breathed a sigh of relief and forced a smile.

When he stood in front of Gu Changge just now, he couldn't breathe. When he was almost unconscious, his back was already wet with cold sweat. This had nothing to do with cultivation strength, but a difference in level, a gap that naturally arises.

It was like an ant standing in front of a true dragon and trembling involuntarily. Although Gu Changge looked gentle and refined, Emperor Nanming had been in charge of the dynasty for thousands of years, so he still had the vision.

This was just indifference and overlooking them, just like looking at a stone on the side of the street, without the slightest fluctuation in his heart. So he knew very well that it was impossible for Gu Changge to put them on an equal footing, the only thing he could do was to lower his attitude and be as humble as possible.

"They are?" Gu Changge ignored the change in Emperor Nanming's expression and looked at the elders from the Sword Sect on the other side.

The Southern Ming Dynasty was not the master of the Southern Barren State, Gu Changge was very clear about this, what he was looking for was the real master of the Southern Barren State, not the Emperor.

"We are the elders of the Sword Sect, and we greet the Young Master." The elders of the Sword Sect didn't dare to relax in the slightest and hurriedly cupped their hands.

"The elder of the Sword Sect?" Gu Changge nodded in a daze, and then smiled, "I heard that the sect master of the Sword Sect is the number one beauty in Southern Barren State. She is also an existence who has stepped into the Sword Immortal level, I wonder if I can see her today?"

Hearing that Gu Changge specified that he wanted to see their Sect Master, the elders of the Sword Sect jumped in their hearts, and they could only bite the bullet and reply, "Reporting to the young master,

the Sect Master is busy with something and I'm afraid she won't be able to make it to the Nanming Dynasty today."

"Oh, since I can't see her today, forget it, I think there will be a chance in the future." Gu Changge smiled lightly, not looking very concerned.

However, Emperor Nanming kept an eye out, what was Gu Changge's intention in meeting Snow Sword Immortal?

Although he looked really different from other extraterrestrial demons, how could he come from outside the sky for no reason?

It was just that he didn't dare to ask Gu Changge the reason, because that would only cause Gu Changge's displeasure.

"Thank you for saving Xuandie's life, my lord. If you have any orders or requests, just ask me. Anything that my Southern Ming Dynasty can do, I will definitely do for you."

Emperor Nanming then glanced at Princess Xuandie who was at the side and arched his hands again with an extremely sincere attitude.

In any case, it was an unchangeable fact that Gu Changge had saved Princess Xuandie's life.

Princess Xuandie stood quietly beside Emperor Nanming. She was slender and slim with bright cherry lips, a straight nose, black and white eyes, looking extremely beautiful. Her long hair fluttered like an immortal flower. She was the second most beautiful woman in the Southern Barren State, second only to her master Snow Sword Immortal.

Gu Changge smiled lightly when he heard the words, "It's just a matter of raising my hands, there is no need to give orders."

"Actually, you don't need to be so cautious about me. You just need to know that in the Upper Realm, not all forces like to fight for hegemony and aggression. There are also many families who pay attention to immortality and long-term vision, and don't compete with the world."

"In your eyes, the extraterrestrial demons look terrifying, but in our world, they are just ordinary cultivators. You think things are too complicated, and they are too scary."

Seeing Gu Changge's sudden words, everyone in the hall was stunned. There was even a gleam in the eyes of Emperor Nanming, and it seemed that Gu Changge was pointing them to something.

Chapter 619: The will of Heaven and Earth, Without efforts

Everyone in the hall, including Princess Xuandie and Ah Qing, looked at Gu Changge in surprise, they didn't expect him to suddenly say that. Princess Xuandie was thinking to herself, thinking carefully about these few words from Gu Changge.

Not all factions and forces liked to invade and fight for hegemony. Was he talking about the forces behind him? Was that why he had no malice towards the Jianxuan Great World? And what did he mean by that?

The cultivators in the Jianxuan Great World thought things were too complicated and terrifying as the extraterrestrial demons were just a group of ordinary cultivators.

The elders of the Sword Sect were also lost in thought, feeling that there was something in Gu Changge's words as if he was reminding them of the way to break the situation.

"Please tell me, my lord!"

At that moment, Emperor Nanming's expression became extremely solemn, and he bowed respectfully toward Gu Changge.

The expressions of the rest of the elders of the Sword Sect also became more serious than ever, their ears pricked up – for fear of missing a word.

Gu Changge was not surprised by everyone's reaction, he just smiled lightly and said, "Didn't you discover something during your defense against the so-called extraterrestrial demons?"

"What does Young Master mean?"

Emperor Nanming was taken aback for a moment, and the rest of the elders of the Sword Sect were also confused, they looked at each other and saw bewilderment in each other's eyes.

To them, this group of extraterrestrial demons was terrifying in strength, and their means were endless. There were not only terrible secret treasures but also various powerful and fierce mounts.

The number was even more inexhaustible. After resisting a wave, the next wave would arrive soon, and their strength would be even more terrifying than before. That was why they fell into despair, unable to find the slightest solution.

On the contrary, Ah Qing suddenly became thoughtful, because when she was in the Upper Realm, Gu Changge mentioned to her that karma reincarnation and retribution were not good.

Could it be that the invasion of the extraterrestrial demons would lead to consequences and that consequence was the turning point for the Jianxuan Great World?

"Heaven has the virtue of good life, and there is always a chance of life in everything. Although there are many demons outside the territory, there are no real strong ones coming here, because they are afraid of the will of this world. I don't know whether the experts in your world noticed it?" Gu Changge smiled lightly.

"The will of this world?" Emperor Nanming and the others were all shocked, their eyes showing a bit of astonishment.

In fact, at his level, he had more or less come into contact with the existence of the Sword Immortal level. Therefore, he had heard some words about the will of Heaven and Earth from someone, but he didn't understand them very well.

Originally, they were still wondering why there was a terrifying aura that seemed to be able to shatter the universe, but in the end, it did not enter the Jianxuan Great World. Was there a reason for this?

“Then what does Mr. Gu mean? The will of Heaven and Earth in our world is the key to our defense against demons from outside the realm?” Princess Xuandie’s bright eyes flickered, and she couldn’t help asking.

Emperor Nanming and the others also looked thoughtful. Could this be what Gu Changge wanted to point out? What did he mean by saying that?

“Actually, it can also be said that you can also ask the experts in your field about this point, they should have contact with them.” Gu Changge said with a strange look in his eyes.

“The will of Heaven and Earth?” Ah Qing frowned, suddenly thinking of the things her father had mentioned to her back then.

There was indeed an unpredictable and mysterious power in the Jianxuan Great World, which was protecting the cultivators in this world. Although her father didn’t mention what kind of power it was, judging from the current situation, it should be the will of Heaven and Earth that Gu Changge mentioned.

“Thank you, Mr. Gu, for reminding us. We will report this matter to the Sect Master truthfully,” Several Sword Sect elders said solemnly.

“Your sect master should be clearer than you on this matter, but as far as I know, although the world has a will, it will not be manifested easily, unless it really reaches a certain point, or you can find something that manifests the will of Heaven and Earth.”

Gu Changge smiled faintly and mentioned this secret to them intentionally or unintentionally.

Generally, the ancient world with the origin of the world would give birth to a part of the will. However, a clear will of Heaven and Earth like the Jianxuan Great World was still extremely rare.

There were only two possibilities for this. One was that the origin of the world was extremely huge. The second was that the will of Heaven and Earth was born in an extremely ancient time, which could be traced back to an extremely distant time.

So he could use the hands of these people to find the origin of the world, thus saving some time.

In addition, if the cultivators of the Jianxuan Great World awaken the will of Heaven and Earth, the various forces that come to this world will inevitably have a war with them.

Gu Changge could take this opportunity to make a profit.

The elders of the Sword Sect had extremely serious faces, and they didn’t dare to stay any longer. Then they turned into divine lights and left, intending to return to the Sword Sect to report the matter.

Emperor Nanming didn’t dare to be negligent and ordered to send more troops to resist the demons outside the territory. Because of Gu Changge’s words, hope rose again in his heart.

This battle was not without the slightest chance, after all, they still had the last trump card, which was the will of Heaven and Earth.

“We should inform the other thirteen states about this matter. Only by uniting can we persist until the day when the will of Heaven and Earth will be manifested.” Princess Xuandie also said, with a ray of hope emerging in her beautiful eyes.

“So this is what the benefactor said before?” Ah Qing finally came to her senses at this moment.

After this incident, the Southern Ming Dynasty regained its confidence, and the emperor personally ordered the mobilization of large armies from various places to support the various sects fighting against the demons outside the territory in the border areas.

Immediately, a mighty army rushed out from all the cities, driving flying boats and divine swords as they charged to fight against the demons from outside the territory.

A tragic battle that spread throughout the Southern Barren State broke out at the ruins of the Southern Barren City.

The various factions and sects that descended from the Upper Realm were shocked to find that the creatures in the Jianxuan Great World, who were originally in despair, now fought desperately with them as if they had been slapped with chicken blood. This was a kind of tragedy and courage to die and survive. *n0v3lUsb.c0m*

“I heard from the Supreme of the Silver Feather Clan that when he broke through Southern Barren City and wanted to take down the princess, he met Gu Changge and was startled by him. It is impossible for Gu Changge to come to this world for no reason. He definitely has some purpose. But what is his purpose? Why did he bring that girl with him?”

Yu Feiya, the eldest princess of the Great Yu Immortal Dynasty, was leading many young geniuses to rest in an ancient city in the Southern Barren State.

She frowned, and her heart was full of puzzlement.

When she was in the Great Yu Immortal Dynasty, she hadn't thought about it carefully, but she didn't realize it until she heard that the Supreme of the Silver Feather Clan was startled away by Gu Changge.

Gu Changge must have had some purpose, but no one knew about it. After all, conquering the Jianxuan great world was not difficult for them, at most, it would take some time.

The ancient city in front of them had been captured by them, and the army from the Upper Realm was everywhere.

Even though the cultivators in the Jianxuan Great World resisted desperately, they collapsed quickly in the end. Their struggle would not last long. The gap between the two sides was too big, and there were still troops coming from beyond the crack. It was only a matter of time before the Southern Barren State fell completely.

“Tuoba Xiaoyao, since he came to this world, he also disappeared...” Yu Feiya's younger brother Yu Ming said unhappily at the side.

He didn't like Tuoba Xiaoyao himself, but during the battle with Jianxuan Great World, that guy disappeared without a trace. This made him even angrier.

“He should be in there.” Yu Feiya shook her head lightly, and couldn’t help guessing.

On the other side, Tuoba Xiaoyao was now dressed in disguise as he left Southern Barren State and headed straight for the territory where the Shu Sect was located. He wanted to go to the Sword Pavilion of the Shu Sect before the appointed time to find a way to break the embryo.

In his previous life, he was originally the core disciple of the Shu Sect, but now that he had changed his appearance, it was extremely easy for him to get in.

In addition, he was very familiar with the Jianxuan Great World, understood the environment and terrain of various places, and even if he encountered any crisis, he could find a way to resolve it.

So this journey was safe and sound, and Tuoba Xiaoyao also found out that it had been five hundred years since he died while watching the ancestor crossing the catastrophe in his previous life.

In other words, there were probably not many old acquaintances of him in the Shu Sect. This made him quite regretful. Although he experienced reincarnation and changed his body, his original soul was still a disciple of the Shu Sect.

“This time, the Jianxuan Great World has encountered a catastrophe, and I might be able to do something about it.” Tuoba Xiaoyao looked at the vast territory in the distance, and he couldn’t bear the thought of how devastated the place would be after the flames of war raged on.

For a moment, he felt that the responsibilities on his shoulders were heavier, not only related to the fate of his relatives in this life, but also the survival of his hometown in the previous life.

“Reporting to the Sect Master, this is what Mr. Gu himself said at that time.”

The location of Sword Sect, on a precipitously cold peak, two figures stood tall.

One was dressed in a Taoist robe and had his hair in a bun. He looked extremely old, but his eyes were extremely clear and energetic, like a divine sword that had been honed for countless years.

The figure next to him was extremely graceful, dressed in simple plain clothes, with a moon-white mask on her face. Her skin was as crystal clear as snow, only revealing a pair of clear eyes, the blue hair fluttering like thousands of sword lights in the void being intertwined.

She was the Sect Master of the Sword Sect, the number one beauty in Southern Barren State who was called Snow Sword Immortal by the world.

The old man was an old Sword Immortal of the Shu Sect, whose strength was unfathomable.

“The will of Heaven and Earth?”

Listening to the Elder’s report, Snow Sword Immortal frowned slightly, thinking about these four words.

“It seems that the world already knows us very well. It is not a good omen to know that our world has given birth to a will. They definitely will show us no kindness.”

“However, what he said is unreasonable. Judging from the omens on the ancient altar, the will of Heaven and Earth is indeed our last hope.” Snow Sword Immortal’s eyes under the mask revealed thoughts.

“Do you believe in such a guy too?” The old Sword Immortal frowned.

Snow Sword Immortal shook her head and said, “I just think what he said has some truth, and I caught an extraterrestrial demon to search his soul, and found out that in their world, that Young Master surnamed Gu has a monstrous background. Even bluntly speaking, if he wants to, it wouldn’t take much effort to destroy our world.”

Chapter 620: Unusual Ancient Mulberry City, Butler

“With his means, it is not difficult to destroy our world. Then why didn’t he do this, and what is his purpose in coming to this world?”

“That’s what I can not figure out.” Snow Sword Immortal’s tall and slender figure with blue hair like a waterfall stood on the top of the cliff, dancing lightly in the cold wind, with a strange beauty.

n0veℓUsb.c0m

At this moment, her eyebrows under the moon-white mask were furrowed, and her words carried an inconceivable meaning to herself.

“That guy’s background is so big? That’s even more unbelievable.” The old Sword Immortal frowned even tighter, and his heart was even more puzzled.

If Gu Change had no purpose, then he wouldn’t believe it even if he was beaten to death. No one had ever displayed good intentions for no reason in this world. Not to mention this group of demons from beyond the sky.

According to the information he had learned, the group of extraterrestrial demons had already captured and occupied many ancient worlds like the Jianxuan Great World. Anything that emphasized immortality, long-term vision, and aloofness from the world was bullshit in his opinion, and he couldn’t believe it at all.

“Maybe not necessarily. If he really has any plans for our world, there is no need to go through so much trouble.” Snow Sword Immortal lightly shook her head.

“Are you really going to trust him?” The old Sword Immortal frowned and said, his gaze was like a sword, making the void tremble, and his words were somewhat dissatisfied. He looked extremely serious.

“Xue girl, in any case, you are the current Master of Sword Sect, you have to think twice before you act, and you can’t be as reckless as before.” In terms of seniority, he and Snow Sword Immortal’s master were actually of the same generation.

In the early years, Xue Jianxian was taught by him personally. So he still had a little understanding of Snow Sword Immortal’s character, knowing that what she said was actually planning to meet Mr. Gu. But according to the information obtained, the subordinate next to Mr. was suspected to be a powerhouse in the ninth realm.

Not to mention Mr. Gu’s strength was even more unfathomable and unimaginable. Although Snow Sword Immortal had stepped into the Sword Immortal level, in front of Mr. Gu, it was definitely far from enough.

If the other party had evil intentions, wouldn't Snow Sword Immortal be a sheep entering the mouth of a tiger?

"At this time, is there any other choice?" Snow Sword Immortal said without any fluctuations in her expression,

"I have already considered the consequences very clearly, so you don't have to worry about it, uncle."

"You..." The old Sword Immortal looked sullen, he stretched out his hand and pointed at the Snow Sword Immortal, trembling uncontrollably, obviously he was very angry.

In the end, seeing Snow Sword immortal's expression remained unchanged, he couldn't help sighing, then turned into a sword light and left with a flick of his sleeves.

Snow Sword Immortal had already decided, and it was difficult for him to persuade her. But he didn't believe Mr. Gu.

In the eyes of the old Sword Immortal, since his status was so terrifying in the Upper Realm, if he was caught, it would definitely make the forces in the Upper Realm afraid to throw in the towel. At critical times, it might still work wonders.

"It's time to take out the Sword Immortal Token and unite all the Sword Immortals to defeat the demons..."

In the eyes of the old Sword Immortal, there were thousands of sword lights circulating, skimming the sky, and walking in the void. In an instant, he disappeared thousands of miles away and headed back in the direction of the Shu Sect.

Seeing the old Sword Immortal disappear without a trace, Snow Sword Immortal who had been standing for a long time sighed softly. Immediately, her figure turned into a puff of white mist with a bang and was already thousands of miles away when she reappeared.

She actually understood the old Sword Immortal's worries, but there were some things that must be tried. For the entire Jianxuan Great World, that was the only chance.

There were thirteen states in the Jianxuan Great World, and in each state, there were giant powers like the Sword Sect and Shu Sect. This kind of power had a very long inheritance, surpassing hundreds of thousands of years, and there were at least two Sword Immortals among those powers.

Therefore, the news of Gu Changge's appearance in the Southern Ming Dynasty quickly spread among these big forces, causing a great commotion.

As a visitor from outside the sky, he was even in the same category as the group of extraterrestrial demons. But he didn't have any malicious intentions, as if he came here especially to have fun and relax.

Afterward, many details, including Gu Changge's origin, intentions, etc., were constantly interpreted by various forces, causing many speculations. Although he saved Chen Ah Qing and Princess Xuandie of the Southern Ming Dynasty, people still couldn't believe it.

After all, he was not one of them, so his heart might be different. Some people expressed worry, while others expressed disdain. They felt that Gu Changge's intentions were unclear, and he had absolutely no good intentions, so they needed to be extremely vigilant.

However, the emperor of the Southern Ming Dynasty trusted Gu Changge's words extremely and began to gather many forces around him, and sent people in search for the will of the Jianxuan Great World.

According to what Gu Changge said, the will of the world would not wake up all the time but would appear at a certain period, and it would choose to be in slumber at other times. Unless they could find its location, it would be difficult for them to wake it up.

In the next few days, a terrorizing battle broke out in the Southern Barren State.

The vast army of the Upper Realm came here and fought against the Southern Ming Dynasty and many surrounding forces at the ruins of Southern Barren City, which was extremely tragic.

This battle destroyed the mountains and caused rivers to change color, piling up mountains of corpses as blood pooled into a river, and many corpses floating in it. The entire world was in a daze.

The forces in the rest of the states also immediately dispatched large armies to support them. It could be said unceremoniously that this battle was the real beginning of the capture of the Jianxuan Great World by many Dao forces in the Upper Realm.

The entire Jianxuan Great World was shrouded in the shadow of horror, too many powerful people had been sacrificed, and large areas of the territory had fallen, turning into a piece of red land, full of devastation.

In this battle, many young supreme beings from the Upper Realm also performed extremely well, sweeping one side like a broken bamboo.

They did not fight with the army, but went to various cities alone, inviting the young generation of Jianxuan Great World to fight, with an extremely arrogant attitude, and completely ignored the young generation in this world.

The ending was naturally doomed, even if they were disciples of the Sword Sect, Shu Sect, Mount Kong, and other forces of the Jianxuan Great World, they were not opponents of the younger generation of the Upper Realm.

Either they were defeated and fled, or they were killed on the spot, dying in the sky, and blood spattered in all directions.

Meanwhile, on the other side. Ancient Mulberry City, located in the extreme north of the Northern Region of Jianxuan Great World, became famous because of an ancient mulberry tree in ancient times.

However, tens of thousands of years had passed, and the ancient mulberry tree in the current ancient mulberry city had long since died, leaving only a dry stump.

Gu Changge followed Ah Qing to leave the Southern Ming Dynasty and returned here, waiting for her to meet his mother.

The city was dilapidated, the two gates were about to collapse, and the moat was also turbid, full of silt, about to dry up. It could be seen that some loaches were drilling around, looking extremely dilapidated.

“Stop, who are you?!” There were more than a dozen soldiers on the ancient city wall full of cracks.

Their armor was not complete, holding an iron spear and a rusty long sword, they were very vigilant, shouting at Gu Changge and others with them.

Now that the heavenly demons from outside the territory were invading, although the ancient mulberry city was far away from the place where the battle took place, news had already come back, making everyone extremely cautious, and the grass and trees were all soldiers.

Moreover, Ancient Mulberry City was extremely remote and experienced many disasters during this period. Even the common people among them lived extremely hard.

It was rare to see Gu Changge’s well-dressed, handsome and refined characters. At this moment, they were extremely vigilant, with runes shining on their bodies, and they were always ready to strike.

At this time, Ah Qing looked at the ancient city in front of her with a complicated expression. She walked out from behind Gu Changge as she said, “I am back.”

Ancient Mulberry City was originally an ancient city taken over by her grandfather. Although it was remote before, it was not as dilapidated as it was now. It must have happened during the time she disappeared.

After her father stepped on the rift outside the sky, she and her mother moved to the Ancient Mulberry City from her seclusion to live with her grandfather. And half a year ago, she quietly left this ancient city and embarked on the road to find her father.

“What happened in Ancient Mulberry City? Why did it become like this?”

Princess Xuandie who came here was also surprised, because of Ah Qing’s relationship, she had also been to the Ancient Mulberry City before.

Although the Ancient Mulberry City was not very prosperous, it was not as dilapidated as it was now. It was like two different cities.

“This city is kind of weird.” Gu Changge’s eyes were a little strange, there were black and white colors in the eyes, and he looked carefully.

“What?”

“It’s really Miss?! Miss is back?”

Several soldiers standing on the city wall recognized Ah Qing, their eyes widened in shock, unbelievable.

The news about Ah Qing had not come here from Southern Barren State, they always thought that the young lady died in the sky, and the old city lord almost passed out, it was difficult to accept this fact.

They never expected to see Miss today, and they all suspected that all this was an illusion.

“It’s me, I’m back.” Ah Qing nodded with a complicated and dazed expression.

“Great, it’s really Miss. Miss, she is safe and sound, go and report to the city lord!”

All the soldiers on the city wall were boiling, extremely excited.

Soon, the entire ancient mulberry city was alarmed. The young lady who had disappeared for more than half a year suddenly appeared and came back safe and sound, which caused a great commotion.

Divine lights swept over, and everyone in the city lord’s mansion showed up, and the old city lord who heard the news rushed over immediately. There were tears running down an old man’s face, and he was extremely excited.

“Grandpa...” Ah Qing looked at her grandfather, who was much older than before, with a sore nose, and said in a low voice, “I’m sorry.”

“It’s fine, it’s fine, Ah Qing, it’s fine if you come back, it’s fine if you come back, it’s fine if you’re fine.”

The old city lord’s figure was a bit hunched with silver hair like steel needles like an old lion who was not angry. He exuded a great majesty, it could be vaguely seen that he was heroic and extraordinary when he was young.

He stretched out his palm like a cattail leaf fan, and gently stroked Ah Qing’s head, his eyes full of satisfaction.

“I’m sorry for making you worry. I shouldn’t have secretly left Ancient Mulberry City to find my father without telling you and my mother...” Ah Qing said with guilt.

“It’s over now, as long as you’re safe and sound. Your mother was worried about you during this time and almost became sick from fatigue. After knowing that you’re back, she can finally relax.” The old city lord sighed.

While speaking, his eyes fell on Gu Changge behind Ah Qing, with inquiries and doubts.

“And this one is?” He naturally recognized Princess Xuandie, but he felt that Gu Changge looked extremely strange.

The granddaughter suddenly came back with such a young man by her side. Anyone else would be confused.

And with his cultivation level, he couldn’t see through Gu Changge’s reality, which made him very awe-inspiring.

“Mother?” Ah Qing was a little worried, but she still explained, “This is Mr. Gu, my benefactor. If it wasn’t for him, I wouldn’t be able to come back safely.”

“Benefactor?” The old city lord was stunned for a moment, suppressing more doubts in his heart, and asked Ah Qing to lead people into the city.

On the way, he briefly told Ah Qing what had happened during this period, including how the Ancient Mulberry City had become so dilapidated.

In the final analysis, it was the enemy that Ah Qing’s father provoked back then. After hearing that he had disappeared, he came to seek revenge.

“Father’s original enemy?” A look of coldness appeared on Ah Qing’s small face, and she clenched her delicate white fists tightly.

Her father was an existence at the level of a Sword Immortal, and his enemy was at least a master of the eighth realm or even the ninth realm. And her grandfather was only in the seventh realm, so he couldn’t compete at all.

“Are those enemies still coming?” She asked with a bit of a murderous look on her face.

Hearing this question, the old city lord also showed a smile on his face, shook his head, and said, “I don’t know what happened a while ago, those enemies who came to provoke and seek trouble suddenly disappeared. I suspect that it was your father’s former friends who helped us.”

“I see.” Ah Qing breathed a sigh of relief, since her father was gone, she should now protect grandpa and mother.

“This place is actually a place where the spiritual veins of Heaven and Earth meet...”

After entering the ancient mulberry city, Gu Changge’s expression became more and more strange.

Although coming from the outside, this place was extremely remote, in his eyes, he could see the purple aura steaming, flooding the world, just like ten thousand immortals returning to their nests and dragons rising into the sky.

This kind of terrain was obviously the source of myriad veins, the source of beauty, and it was even more valuable than the palace of the Southern Ming Dynasty.

“Could it be that there is something hidden here, or is there something special?” Gu Changge was thoughtful.

Soon, in the city lord’s mansion, Ah Qing and her mother were separated for half a year and finally saw each other again. She couldn’t hide her excitement, and it took a long time for her to calm down.

“You left without saying goodbye, do you know how worried I have been for the past six months?” Ah Qing’s mother held her daughter’s hand tightly with a reproachful tone.

“I’m sorry mother, now that I have come I won’t leave. Father, he probably didn’t fall into the hands of those extraterrestrial demons. According to the information I got, at the critical moment, my father’s cultivation level broke through again, and he escaped into the space crack...” Ah Qing took a few deep breaths before speaking slowly.

“I knew your father wouldn’t get into trouble so easily.” Hearing this, Ah Qing’s mother and grandfather breathed a sigh of relief.

Then her eyes fell on Gu Changge, and she couldn’t help asking, “Is this young master the benefactor you mentioned?”

Although Gu Changge looked handsome and gentle, she always had an indescribable feeling that this kind of person should not appear here, and they were not in the same world.

“Yes, Mr. Gu saved me. He actually came from beyond the sky...” Ah Qing looked a little grateful, then thought for a while, then nodded and said, intending to explain.

“From beyond the sky?”

But at this moment, a slightly surprised voice sounded from outside the hall. A young man of medium build and dressed in butler clothes was standing there with tea in his hand, as if he was a little surprised.
