Chapter 631: Unleashing swords and slaying, Awakening the Will of Heaven

At this moment, the trembling sound from hundreds of thousands of divine swords resounded in the entire Shu Sect's thousands of miles all along the mountain gates. It was like a mountain roaring and a tsunami, which could shatter the sky and collapse the void, containing unimaginable terrifying power.

At the very front, Heavenly Sword appeared, surrounded by azure divine light, exuding dazzling brilliance, as if cut from another distant universe. Behind it, hundreds of millions of divine swords followed, turning into sword shadows, covering the sky and the sun.

This was a shocking scene. All the disciples and elders of the Shu Sect rushed out of their respective cave courtyards and surged to the sky, watching all this in disbelief.

In the courtyard, Ah Qing, Princess Xuandie, Snow Sword immortal, and the others all had to back away as they really couldn't resist this terrifying wave.

Buzz!!

The Heavenly Sword was recovering with an unrivaled aura as it wanted to kill Gu Changge in front of him, destroying his body and spirit.

"Die for me!"

Tuoba Xiaoyao roared, his face became crazy, and the corners of his eyes were bleeding. He stared at Gu Changge and frantically urged the Heavenly Sword to attack Gu Changge.

He seemed to be insane as his skin was cracking, and blood was seeping from it. It was obvious that he had spent a huge price in order to mobilize the Heavenly Sword, and this was also his decisive blow.

Taking advantage of the right time, place, and people, he wanted to use the power of Shu Sect's hundreds of millions of divine swords, and cooperate with the Heavenly Sword to get rid of Gu Changge here.

This was what Tuoba Xiaoyao thought about for a long time before he made up his mind to do it. Although the consequences of doing so were very serious, it was the only way he could think of so far.

Because within the gate of the Shu Sect, there was the aura of swordsmanship preserved by many masters of the Shu Sect for hundreds of thousands of years.

At the same time, there were also countless divine swords that were sealed off at the beginning. With hundreds of thousands of years of infiltration, the sword's intent had already penetrated into the sword's body.

Under the guidance of Heavenly Sword, the power displayed was absolutely destructive.

Unexpectedly, it could definitely cause terrible damage to Gu Changge and even make him fall here.

Rumble!!

The sky was trembling, the void in the courtyard was shattered inch by inch, and the sword intent roared towards Gu Changge!

“Master!”

Alpha, who had been ordered to hide in the dark all this time, turned pale and showed up to defend Gu Changge against this blow.

Even though he felt a great threat, his body was almost shattered due to blood streaks appearing from the sword intent of the Heavenly Sword.

Not to mention the Sword Immortal, even if it was an existence close to the level of the Enlightened being, it was estimated that it would be difficult to resist this blow.

“It’s okay, this Heavenly Sword is flying towards me on its own initiative, is there any reason why I don’t want it?”

Gu Changge’s expression didn’t change in the slightest because of this scene, he smiled lightly and told Alpha to back down.

In fact, Tuoba Xiaoyao would not be so willing to hand over the Heavenly Sword, which was always under Gu Changge’s expectation. It was just that he still didn’t expect Tuoba Xiaoyao to be so bold and choose to attack him at this time.

“Gu Changge, how will you take this sword?” Tuoba Xiaoyao roared angrily, feeling Gu Changge’s contempt, boundless anger surged in his heart again.

He was desperately performing this secret technique. His cheekbones were bright and translucent as his primordial spirit was ignited like a blazing aura rushing toward him.

“If this is your confidence, then it’s really sad.” Gu Changge had a faintly mocking smile on his lips, and his eyes didn’t fluctuate.

Then, under the trembling eyes of everyone, he raised his palm flatly before pressing forward lightly, as if standing at the end of the universe, pressing down the stars and making them collapse.

At this moment, the whole world seemed to have become quiet and silent. The terrifying fluctuations were rewinding, suddenly sweeping the hundreds of millions of divine swords in the front.

There was a rumble in the void, and the sky turned dim.

All the divine swords that were attacking Gu Changge swelled up, their blades curled upside down, cracked and left traces as they began to collapse with a click, turning into a piece of flying ash and powder.

The Heavenly Sword was wrapped in extremely rich blue light, clanking, and the scene of flying immortals appeared on the sword’s body, trying to destroy everything. But it was still blocked by an invisible field, where laws collided, and chaotic energy overflowed from the edge of the broken void.

“This is impossible...” Tuoba Xiaoyao’s face was crimson, with blood constantly overflowing, and his eyes were full of madness.

He couldn't believe that under such circumstances, Gu Changge could resolve it so easily. Was it possible that Gu Changge could still cover the sky with one hand in the Jianxuan Great World, and could do whatever he wanted?

Boom!!

More divine swords rushed out from all over the Shu Sect, spewing out sword light, and slashed at Gu Changge. However, the moment it was about to fall in front of it, a dazzling brilliance burst out, which was blocked by an invisible hand.

Gu Changge only had one simple movement and pointed a chop.

“Clang!!”

Many divine swords broke under his two fingers and disappeared like smoke, turning into dazzling light before disappearing into the void.

Even the Heavenly Sword, which had the laws of the Immortal Way, still made a trembling sound. It was difficult to ascertain its survival, the void around began to collapse, turning into nothingness, which could swallow everything in the world.

“Impossible!! Heavenly Sword, kill him for me...” Tuoba Xiaoyao was roaring, watching this scene unwillingly.

He tried everything he could, but in the end, let alone hurt Gu Changge, he couldn't even touch a piece of his clothes. This terrifying gap, which could be called a moat, made him feel hopeless and powerless.

If this plan failed, he would have no way out, and Gu Changge would definitely not let him die. Thinking of this, Tuoba Xiaoyao began to burn his own life source, and the terrifying red glow ignited from him all of a sudden, like a human-shaped bonfire.

Vast fluctuations erupted on the Heavenly Sword again, full of the Immortal spirit, with peerless sharpness, piercing through the sky, and even cutting down the stars outside the domain.

Seeing this scene, all the elders and disciples of the Shu Sect trembled a little as they were palpitated by this person's ruthlessness and determination. A sense of fear seeped within them as this big battle would destroy the Shu Sect.

“Even if Heavenly Sword recovers with all its strength, it can't stop me, let alone you?” Gu Changge's expression was flat, and he didn't use any complicated moves. He just raised his hand and swiped, and the traces of Dao emerged. For him, time seemed to have disappeared silently.

After reaching the realm of an Enlightened being, even if there existed suppression in this world, the gap between the realm was still present. With the collision of vast and endless spiritual aura, crushing and destroying anyone below his realm was actually not difficult.

Countless divine swords collapsed, and the mountain gate where Shu Sect was located exploded with a bang. The surrounding mountain buildings instantly turned into ashes, as if they had been evaporated.

The void ahead was collapsing, chaotic light loomed, and a small world had been opened up as an additional aura tried to open up the sky. This was a formidable attack, picking up the weapon of Immortality with bare hands.

The heaven would become auspicious, and the earth would appear as a lotus. All kinds of lights gathered together to form a sea of gods!

“Is this the strongest power in that world?” The Sword Immortals such as the Sect Master of Shu Sect and Snow Sword Immortal all had extremely white faces and felt as small as an ant.

Everyone fell down and even though they were not attacked, they were under the coercion of heaven, and the world seemed to be destroyed.

“Whoa!!”

Tuoba Xiaoyao was continuously spitting out blood and flew upside down. At this moment, his whole body was cracked, and the fire of his soul was quickly extinguished.

On the uncontrolled Heavenly Sword, the brilliance quickly disappeared. The divine swords in the void collapsed into ashes, annihilated silently.

Gu Changge raised his hand to intercept it, trying to seal the Heavenly Sword. He could feel that this last Heavenly Artifact was different from the rest of the Heavenly Artifacts and that it was worthy of being the top one in terms of attacking power among the seven Heavenly Artifacts.

With such a cultivation level, if Tuoba Xiaoyao forcibly unleashed the Heavenly Sword, he was almost able to fight the Enlightened being.

Although it had something to do with the Shu Sect’s hundreds of thousands of years of luck, it was enough to show that the Heavenly Sword was extraordinary.

Buzz!!

The moment Heavenly Sword was controlled by Gu Changge and a terrifying aura of Immortality spewed out before it faintly turned into a knife, trying to slash at him, but Gu Changge just flicked his fingers to wipe away the aura of Immortality, making the Qi disappear.

Soon, the trembling of the sword gradually subsided, and it became silent.

Tuoba Xiaoyao, who fell to the ground in the distance, covered in blood, looked at this scene with an expression of unwillingness and despair.

At this point, he also understood that all his plans were in vain, and no conspiracy could be tolerated in front of absolute power.

Maybe if he chose to hand over the Heavenly Sword from the very beginning, everything would be completely different, but unfortunately, there was no medicine for regret in this world.

“At this point, do you have anything else to say?” Gu Changge took away the Heavenly Sword, nodded slightly with satisfaction, and then walked toward Tuoba Xiaoyao unhurriedly.

“Kill me, I have nothing to say.” Tuoba Xiaoyao laughed miserably. Many memories of his previous life appeared in his mind. At that time, while facing Gu Changge, he was also in the same despair.

It was just that Yu Feiya was with him at that time, but today there was no one around him, and it might affect the family behind him.

“Of course, I will kill you.” Gu Changge’s expression did not change.

“Now Heavenly Sword is in your hands, promise me that you will let my sister go.” Tuoba Xiaoyao said with a sad smile.

Gu Changge’s eyes were inexplicable, and then he smiled lightly and said, “That’s natural, Gu will never break his promise.”

But as soon as the words fell, he suddenly felt an inexplicable fluctuation, and couldn’t help frowning, looking toward the sky.

“It didn’t continue to hide. There seems to be some problem with the Will of Heaven?”

Gu Changge frowned, sensing the aura. Logically, the Will of Heaven would choose to avoid it, but why did it show up at this time?

The fluctuation of his attack just now had surpassed the shackles of this world, so it was normal to disturb the Will of Heaven.

“Could it be that the part that possesses the will has fallen asleep in the Will of Heaven, and the other part is in charge of the Authority of Heaven?” Gu Changge shook his head lightly.

Boom!!

At this moment, the complexions of almost everyone within the territory of the Shu Sect changed dramatically, as if an inexplicable law was emerging in this sky.

In a distant and unknown place, it seemed that there were two eyes falling, staring at everything that happened there.

“Boom!”

The sky and the earth collapsed, revealing a pair of blood-red eyes, sacred and vast, filling the sky with divine birds, suns, and other ancient patterns lingering on them.

Countless cultivators and creatures were terrified. Their hair stood on end, under the gaze of these indifferent eyes like blood, any actions and thoughts could not hide, they were as small and humble as dust.

Chapter 632: The Eye of Destruction of the Heavenly Dao, The vast divine might

The sky was collapsing, and an extremely terrifying crack appeared. It seemed to lead to an eternal unknown place, containing the vast will of heaven and earth.

The ice-cold bloody eyes that emerged, passed across like a huge mountain, standing at the end of the world. Sweeping down coldly and ruthlessly, they fell into the Shu Sect's Mountain Gate which had already been turned into ruins.

"What is this?"

Under the gaze of these huge eyes, all the cultivators and living beings felt their souls trembling, and involuntarily wanted to kneel down and bow in that direction. They were terribly frightened, and for the first time in their lives, they felt like they were being seen through.

Even at the level of the Sect Master of Shu Sect and Snow Sword Immortal, they couldn't help but tremble. They knew that this was definitely the will of heaven and earth recorded in the ancient altar.

It was also the biggest trump card of the Jianxuan Great World against extraterritorial demons!

"This kind of power is too terrifying. Even a Sword Immortal is like an ant, unable to resist at all..."

"Is this the last hope of our world? If there is such power, there is absolutely no problem in resisting the group of extraterrestrial demons."

"It seems that the heavens will never let my Jianxuan word die!" n0velusb.com

Shu Sect Master Yi Jianxian stared at the huge bloody eyes, his body was trembling slightly, and his words contained excitement that could not be concealed.

His hands under his robe were also trembling. He was already desperate, thinking that the will of heaven and earth was just a rumor and that there was no such thing at all.

But today, he witnessed the evolution of the will of heaven and earth with his own eyes. If the vast and majestic power of the will were unleashed, absolutely no one could resist it.

As the Sword Immortal, he was already standing at the pinnacle of the Jianxuan World, but under the gaze of that eye, he was still unable to move, and his whole body was icy cold. This gap was no different from an ant standing in front of a true dragon.

"The rumors are indeed true. At the most critical moment, the will of heaven and earth will appear..."

Snow Sword Immortal's mood at this moment was also extremely restless. Her jade hands clenched her sleeves tightly, unable to hide the agitation in her heart.

She had always believed in the hexagrams of the ancient altar, and that there was still a glimmer of life in the desperate situation.

"What exactly is this?"

Tuoba Xiaoyao was about to explode, but at this moment, he felt that there seemed to be a vague will in the sky, penetrating into his body, spiritual platform along with the soul palace.

The spiritual sea that had been dried up due to the burning of life essence was slowly submerged at this moment, with an ancient and mysterious aura circulating.

He widened his eyes in disbelief, and suddenly felt that his body was out of his control, and suddenly possessed extremely terrifying power. There was even a voice in his heart, telling him to escape.

“Who the hell are you?” Tuoba Xiaoyao couldn’t help but ask in his heart. His hands and feet were a little numb.

However, this voice was still ancient and unwavering, filled with great meaning, telling him to leave this place.

“Could it be those eyes...” Tuoba Xiaoyao held back the panic in his heart and looked up at the blood-red eyes.

At this moment, countless cultivators and creatures felt a throbbing in their hearts, and their faces were terrified. Especially the cultivators of the Upper Realm felt more deeply that even their actions were almost out of their control.

Under the gaze of the bloody eyes at the end of the world, their souls were frozen, and it was difficult to move. The brilliant will of the world swept down, like a heavenly emperor deterring the world.

Many Sword Immortals in the Jianxuan Great World all looked up in amazement, flitting across the sky, trembling non-stop.

For cultivators who didn’t know the truth, the deterrent power of that bloody eye was far more terrifying than that of the extraterrestrial demons. It was the suppression brought about by the different levels of life.

In the thirteen states, sword lights flew by, turning into figures with terrifying auras, rushing toward the land of the Shu Sect.

They had all noticed the aura fluctuations there before, but they didn’t know what happened. Now they didn’t care about the many consequences, and they wanted to come here to find out what happened in person.

In a distant place, there were many ancient warships floating above the sky, and all the powerful people of the various forces of the Upper Realm gathered here, and there were even several existences at the realm of Enlightened being.

Their bodies were surrounded by chaotic mist, and their eyes were like knives as if they could see everything.

Looking at the scene of Shu Sect’s land, several Enlightened beings frowned and said, “This fluctuation seems to have disturbed the will of heaven and earth in this world...”

The reason they didn’t dare to come down with their true bodies was that they were afraid of the will of heaven and earth in this world. They were worried that accidents would happen and they would die here.

Now feeling the manifestation of the will of heaven and earth, how could it not surprise them and shake their hearts?

“It seems that it should have something to do with Gu Changge. Except for him, no one in the Jianxuan world can arouse the existence of the will of heaven and earth...”

“I wonder how he’s going to fix this,” said the imperial ancestor of the Great Yu Immortal Dynasty. Beside him stood the eldest princess Yu Feiya and others, all looking at the scene of the land of the Shu Sect.

Although they couldn’t descend here, what happened in the thirteen states of Jianxuan Great World still couldn’t escape their eyes. For many Enlightened beings, capturing the Jianxuan Great World was far less important than finding the origin of the world.

Rumble!!

But at this moment, directly above the Shu Sect’s Mountain Gate, this bloody eye slowly turned, covering the sky. The surrounding void cracked inch by inch, revealing the boundless and deep darkness.

“Die!”

It stared at Gu Changge indifferently, and a cold and vast will came out of it as if it wanted to judge the disobedient.

Suddenly, countless hazes bloomed like blood.

All kinds of laws intertwined around this eye, and there was a roar of heaven as hundreds of millions of gods burst out brightly, suppressing Gu Changge!

“It’s just a part of the will of heaven and earth, not complete... It’s just like I guessed, but I don’t know if I can find the hiding place of the true will of heaven and earth through this will of heaven and earth.”

Gu Changge’s eyes flicked for a moment of thought, and then his figure flicked, the space under his feet collapsed and cracked, it was difficult to bear the aftermath that spread.

Because the fluctuation of his attack just now had exceeded the limit that this world can bear, this world would wake up and attack him, a disobedient person. However, with such layers of power, it was still difficult to hurt him.

It was just that he had another thing in mind, whether he could use this to find out the place where the complete will of the world was sleeping, so as to find the origin of the world.

In this way, he could also leave the Jianxuan Great World, return to the Upper Realm, and continue his original plan.

Boom!!

In the next moment, under the horrified eyes of everyone, Gu Changge raised his hand to cover it, and hundreds of millions of runes flowed in his palm, like a sea of runes.

Amidst the rumbling sound, the divine light of chaos exploded, trying to tear that pupil light apart.

This was an unimaginably terrifying fluctuation, extremely shocking. Every ray of light exploded and shattered, it was enough to destroy everything.

The Shu Sect, which was already devastated, collapsed at this moment. A large number of cultivators and souls were shattered like porcelain and then turned into ashes when blown by the wind.

These blood-colored eyes were extremely indifferent, even if they were creatures bred in this world, they were no different from ants, and they would not show any mercy at all.

This scene changed the expressions of Yi Jianxian, Snow Sword Immortal, and others drastically, it was a little hard to believe. Was this the will of heaven that they had always hoped for?

In the sky, Gu Changge stepped away, and a light appeared in the palm of his hand. Many supreme weapons evolved, and the laws of the imperial weapon intertwined.

That blood-colored eye was shining with boundless light, the scarlet clouds were lingering with an infinite spirit, and the roar of the avenue was endless.

Many Sword Immortals who rushed over from around, all knelt down amidst the sudden change of complexion. They were unable to bear the divine power, and it was useless to fight together, every bone in their body was ringing, about to explode.

There was a vast expanse between heaven and earth, everywhere was light, and there were laws everywhere.

“Die!!!”

“Die, die...”

A pair of blood-red eyes were straight, extremely indifferent, without the slightest emotion, as huge as a mountain, shining in the sky! But in the end, they were also torn apart. Gu Changge’s physical body was so terrifying, the void disappeared and collapsed as the big palm descended, directly smashing these eyes into pieces.

This was a scene that made countless beings in the Jianxuan Great World tremble and fear. Yi Jianxian, Snow Sword Immortal, and many other Sword Immortals also trembled. They never expected that even the will of heaven would be difficult to resist Gu Changge’s power.

“Something’s wrong...” However, after tearing off the pupil, Gu Changge’s expression did not change, and he still frowned.

He felt that the power of this heavenly will was not very strong, at most it was only in the middle stage of Enlightenment, and it was far behind the power of Immortality he estimated.

“Disappeared?”

Suddenly, Gu Changge looked in the direction where Tuoba Xiaoyao was before, and couldn’t help raising his eyebrows slightly.

Tuoba Xiaoyao disappeared here without a sound. After getting the Heavenly Sword, he was going to deal with him, but he never thought that he could escape. However, Gu Changge always felt that the disappearance of Tuoba Xiaoyao was not his own doing.

With his strength, it was unlikely for him to disappear out of thin air before his perception.

Chapter 633: Looking for the Will of Heaven, Still need to unite the Seven Heavenly Artifacts

The terrifying aura covering the sky finally dissipated, but there was still a crack that ran thousands of miles. The lustrous gray fog rushed there, accompanied by chaos, overflowing the shed, submerging the eight parties.

The scene itself became deserted as the surroundings turned full of soreness. The land of the Shu Sect, which was originally prosperous, had turned into ashes. It was extremely chaotic with screams everywhere and raging flame scattering the bones and blood.

The shockwaves emerging from the battle between Gu Changge and Heavenly Dao Will were horrible. Even the Sword Immortals could only escape, not to mention the rest of the people.

Shu Sect's mountain guards had collapsed and exploded immediately, turning into dust, and dissipating in heavens and earth. Countless Shu Sect disciples were like weeds. Under the devastating surplus waves, they exploded and turned into a blood mist as they were all destroyed.

This was a scene of the tragedy of the world.

Many of the Sword Immortals who came later looked silently at all of this. They went speechless for a long time, standing before the Shu Sect, which stood tall in the Jianxuan Great World for hundreds of thousands of years, but had suddenly turned into ruins today.

Many elders and disciples of Shu Sects who survived looked at all of this sadly. Many people felt sorrowful and could not bear this huge blow. Shu Sect's prince Yi Jianxian's complexion turned pale, his fist was clenched and his body trembled.

"Everything has disappeared, and no longer exists..." He murmured, showing endless grief in his eyes.

Snow Sword Immortal and others silently stood in the distance. The fluctuations just now were terrifying. Whether it was Gu Changge or the manifestation of the Heavenly Will, it was by no means the power they could resist. They were already lucky enough to survive.

"Is this the hope of our entrustment? But why does it want to kill us?" Princess Xuandie was somewhat relieved.

In their opinion, the Will of Heaven was the last hope to protect the Jianxuan world.

Yet just now, those blood-colored eyes were incomparably cold and desperate. The moment its gaze swept over, all living beings vanished into smoke and turned into ashes. This had shaken the many ideas in their hearts. They even felt too dreamy and incredible.

Soon, more divine lights arrived, these were the most powerful people in the Jianxuan world. Looking at the scene here, they were shocked and their hearts could not calm down for a long time.

Especially when looking at Gu Changge, who seemed to be in thought, they were even more frightened.

Such a terrible Heavenly Will manifested because of this young man. If he probably wanted to destroy the Jianxuan Great World, which was also simple. Countless people looked into Gu Changge's eyes, and they were fearful.

“Since today, I am afraid that no one will dare to question Young Master Gu anymore...” Snow Sword Immortal came back to her senses and sighed in her heart.

Fortunately, Gu Changge was not malicious toward them. Otherwise, for everyone, this would be the most horrible catastrophe.

“It seems that it was the Will of Heaven, so it disappeared.”

At this time, Gu Changge, who had been in thought, finally came back to his senses, looking at the incomplete world cracks, somewhat pondering.

Although he had already obtained the Heavenly Sword, he was a person who liked to cut grass from the root. Even though Tuoba Xiaoyao could not threaten him, Gu Changge still didn't want to let him escape like this.

“Follow this crack, find where he is, and then kill him,” Gu Changge casually said and instructed Alpha to move ahead and chase after Tuoba Xiaoyao. *n0Velu**S**.C**o**m*

“Yes, my Lord.” Alpha received the order and did not stop. His figure turned into a black light as he stepped out and entered straight to the crack, disappearing in it.

Many cultivators around the world looked at this scene as their hearts trembled, and dare not say much.

“Young master Gu...”

The Lord of the Shu Sect Yi Jianxian and others had come, showing a bit of grief. Although Shu Sect turned into ruins because of Gu Changge, they did not dare to blame Gu Changge.

“Today, this Gu was negligent. Shu Sect turned into a ruin. Though it was not intentional.” Gu Changge moved slightly, and then exposed a little regretful tone.

Yi Jianxian laughed hard, “We understand, if it wasn't for that man's sudden attack, it wouldn't have led to such a disaster.”

Having said that, the rest of the people of the Shu Sect also showed hatred and hated the escape of Touba Xiaoyao.

Shu Sect became ruins, and it was related to Tuoba Xiaoyao. Almost all elders and disciples couldn't wait to tear his tendons and crush his bones.

“Although the man escaped, as long as he is still in the territory of Shu Sect, I will definitely catch him.”

Yi Jianxian's eyes were cold as the terrible sword intent appeared in his eyes as if they could crack the mountains.

“Why does the Will of Heaven attack the creatures of our world?”

Snow Sword Immortal and others appeared in doubt, and couldn't help but step forward to ask.

“There is something wrong with the Will of Heaven in your world, and there seems like quite a gap with the Heavenly Will I know...” Gu Changge gently shook his head with a little inexplicable expression.

Seeing that the crowd still looked puzzled, he could not help but smile and continue, "If you want to find out this problem, it seems that you can only find the place where it is sleeping first."

"Where it is sleeping?" Yi Jianxian, Snow Sword Immortal, and others were surprised.

For the first time, they heard that the Will of Heaven was sleeping in a place. Didn't the will of their world wake up just now?

"I also hope that Young Master Gu can solve the problem." Yi Jianxian said with a solemn face.

Gu Changge smiled gently, "I don't know about the place where the Will of Heaven is sleeping, but I only found out about it through the classics. In addition, my purpose of coming to this world has actually been achieved, and it is time to return to the Upper Realm."

"What? Young master Gu, are you leaving?"

Hearing this, not only were Yi Jianxian, Snow Sword Immortal, Ah Qing, and others surprised, even the many Sword Immortals who came there couldn't believe it, and they doubted whether they were wrong.

Gu Changge really had no plans for the Jianxuan world? He was planning to leave?

"Could it be that Young Master Gu's purpose for coming to this world was for that sword?"

Snow Sword Immortal remembered the blue sword emanating an Immortal Dao just now. If that was the explanation, it would be reasonable, except that suddenly hearing that Gu Changge was leaving, she was a bit caught off guard.

Even Yi Jianxian was extremely surprised. If Gu Changge left like this, it was not a bad thing for the Jianxuan world. After all, his strength was extremely scary, and it was not an exaggeration to describe him as invincible. If he stayed in this world, who knew what would happen next?

However, from the current situation one could guess that Gu Changge had no malicious intent toward the Jianxuan world and was not like the heavenly demons from outside the other domain, who would invade and kill directly.

"Young master, are you going back to the Upper Realm?"

Relatively speaking, Ah Qing, who had been with Gu Changge's long time, couldn't help but ask, and a reluctant emotion appeared in his heart.

In fact, she should have expected this day, but she did not expect this day to come so fast.

Gu Changge would come to this world. In fact, it had a lot to do with sending her home, otherwise, he would not set foot here. From beginning to end, she did not doubt Gu Changge's intention.

"There is actually no point for me to continue to stay in this world." Gu Changge shook his head gently, and his eyes passed by.

Ah Qing's expression was a little sad, "Okay, after all, you belong to heaven, and sooner or later you will leave this place."

She actually wanted to ask Gu Changge to help them solve the scourge. But she also knew that he had no obligation to help the Jianxuan world.

Princess Xuandie and others wanted to say something, but when the words came to their mouths, they didn't know how to speak.

On the contrary, Snow Sword Immortal was silent for a moment as the eyes under the mask suddenly fell. "Can young master Gu give us some guidance? We are willing to pay any price."

She was clear that the location Gu Changge had just mentioned about the place where the Will of Heavenly Dao was sleeping for a long time, must have been concealed and he did not want to inform them.

"The price?" Gu Changge laughed lightly, with a little disapproval.

Yi Jianxian and others also looked over, their gaze carrying expectations.

In their opinion, Gu Changge might know something. After all, even the blood eyes that were transformed by the Will of the Heavenly Dao were torn apart by his bare hands.

What else was worthwhile in the Jianxuan Great World?

They basically did not doubt Gu Changge.

"The price is not necessary. Looking at Ah Qing, I will give you some advice. The only way to break the situation is to find the place where it is sleeping as soon as possible." Gu Changge sighed and seemed a little helpless.

"Is it essential to find its location?"

Many Sword Immortals were guessing in their hearts. The moment when they heard that there was a sensation. Many people did not hesitate to take out the jade talisman and order things.

Although Jianxuan world's Thirteen States were vast in territory, as long as there were enough people sent, they could always find clues.

"Thank you for mentioning it, Young master Gu," Snow Sword Immortal and others said with solemn expressions and did not hesitate to order.

Gu Changge nodded gently and then looked at the crack outside the sky. Although he fooled the people of Jianxuan Great World to find the Will of Heaven, there should be no results in a short time.

After all, after being injured by him, it was unlikely that the Will of the Heavenly Dao would manifest at this time.

In the following days, the Jianxuan world was swept in a sensational storm as many forces gave up their plans to fight against the Heavenly Demon, and began to explore the ruins everywhere, especially the dangerous forbidden areas everywhere, trying to find the last line of vitality.

During this period, Gu Changge also ordered people to deliver the Seven Heavenly Artifacts in his hand back to the Upper Realm and send them to Yue Mingkong.

The unity of seven artifacts required a process, and it was difficult to make up for various materials for him in a short period of time, so it could only make Yue Mingkong help.

The key to the Immortal Palace could also be protected by her after the completion of the sacrifice. She could also keep it on behalf of him. After the Jianxuan Great World was resolved, Gu Changge could just go to the Hidden Immortal Palace.

Chapter 634: Heavenly Dao Sword and Mirror Lake, The identity of the old man in robes

Just when the entire Jianxuan world was in an uproar and searching for the Will of the Heavenly Dao. Lin En, who was far outside the Boundless Valley, was trekking towards it with a frown.

As the name suggested, the Boundless Valley was so vast that one couldn't see the slightest hint of the border. It was like being in a sea of smoke.

A kind of lustrous and strong white mist submerged everything and there were many mountains scattered with strange wind blowing as if it was scratching from the far away shore.

Except for the peak of some mountains, the sea of clouds was made of vast fog, and it was simple to find the entrance.

Lin En had come along and seen too many bones buried outside the valley. White eerie, glowing crystal clear, they were like fierce beasts and cultivators that had died here countless years ago.

It was rumored that the deepest secrets of the Jianxuan world were hidden here. Therefore, many powerful cultivators, reaching the end of their life, would always come here to try their luck to see if they could find a way to extend life. But in the end, the result was miserable outside Boundless Valley, and even the entrance to it could not be found.

Lin En was able to go that far, thanks entirely to a page of remnants he had read. He had understood the route long before, in addition to his powerful cultivation, he had averted many calamities.

"Shu Sect was destroyed, and my Master's life and death is unknown. I must settle this revenge." Lin En slightly closed his eyes, his ears were slightly coincident as he could learn the many things happening in the outside world through the eyes outside Boundless Valley.

He did not expect such a big deal to transpire on the day when he left Shu Sect. Not only his Master, a Sword Immortal was forced to surrender by Shu Sect, even the Shu Sect was also removed from this world and had turned into ruins. It was no longer glorious.

The reason for everything was just a battle between Gu Changge and the Will of Heaven.

"The Boundless Valley contains the method of detachment. As long as I am successful, I can take that Gu's head to avenge my Master." Lin En's eyes seemed a little cold, and his figure gradually disappeared.

A few days later, Lin En found a path by following the remnants of the book, and the mist on both sides dissipated as a stone forest appeared. He went along the stone forest, and more than thirty miles ahead, he finally saw a magnificent place.

The mysterious aura was fascinating, the immortal cranes were flying as all kinds of treasure beasts were hidden within the boundless weather. It could be said that the scene here was completely different from the outside world. There were no fireworks at all, even like Immortal Land.

This made Lin En a bit surprised. It was hard for him to imagine.

“Is this the real scene in Boundless Valley? This is an immortal bird that has only been recorded in the classics in the past. There are so many of them...” Lin En walked slowly, and his mood gradually calmed down.

In the valley, there was a wonderland shrouded in colorful immortal energy. The mouth of the valley was connected to this stone forest, which grew with various spiritual trees, old medicines, and other things.

There was also a stone monument in the mouth of the valley, which was engraved with four ancient characters: Boundless Immortal Valley.

This was a peaceful and tranquil place, with the light of the road, and the fragrance of medicinal plants. The living beings were not frightened to meet people.

There was no chaos, only tranquility and peace.

After coming here, Lin En felt that his murderous aura disperse, and he was not as angry as he was earlier. It was as if this place could dissolve all the worries of the human world.

“There is even a large sword heart ancient tree that had disappeared in the classics early.”

Lin En looked forward in surprise, and in this immortal valley, there was a thin immortal fog lingering at a certain location.

There was an ancient tree emanating a rich aura. Each leaf was like a dragon, and the branches were surrounding it like a strange tree that was carefully cultivated.

Moreover, the most special thing was that the flowers from the ancient trees were wonderful, crystal clear, like a small divine sword, glowing, very special.

“It seems that you are the one the old man is waiting for.”

And when Lin En was puzzled and looked around, a peaceful voice sounded in the depths of the fog.

He looked with surprise and saw the fog ahead of him parting of its own accord, revealing a small path that seemed to lead to an unknown place.

“I wonder who the predecessor is?” The vigilance in his heart did not make Lin En walk directly toward there, but instead, he asked out loud.

“The old man is the one you are looking for.” The old and peaceful voice sounded again.

“The person I am looking for?” Lin En’s heart shook, and although he was puzzled, he stopped being cautious and wary just now and took his steps forward.

At the end of the path, he saw a thatched house, which was extremely simple. It was surrounded by fences. There were many spiritual plants and spiritual trees. There was also a spiritual pool aside.

Harmony and tranquility, spiritual springs with clear water flowing from a stone arch bridge. It was very poetic and artistic. Such a peaceful scene eliminated a lot of concerns in Lin En's heart.

The whole person became dusty and transcendent as if he could turn into an Immortal at any time and transcend this realm.

"Are you here?" An old man who was all white and wore a white robe, and had the immortal bones came out of the thatched house with a smile and greeted Lin En.

"Senior is?" Lin En was stunned. Even with his cultivation, he couldn't feel the existence of the old man in front of him, so he felt that the other party seemed to be integrated with this world.

His presence was everywhere, but he was nowhere to be found. This was a very mysterious realm, which was integrated with the world, and everything.

"Old man is just someone from an unknown generation, waiting for the arrival of the destined person. It seems that you are the destined person this old man is waiting for." *n0VelusB.Com*

The old man in the white robe waved his hand, smiled, and looked into Lin En's eyes, with peace and praise.

Seeing that Lin En was extremely puzzled, he did not talk nonsense and explained to Lin En that he was the guardian of the Jianxuan world and that he was waiting for the arrival of the destined one in the Boundless Immortal Valley.

When the Jianxuan World was in trouble, the Son of Luck would appear to save the world from falling and save people from fire.

In his opinion, Lin En was the person he had been waiting for because only the destined one could find that place.

"The old man is the third thousandth heir of the Guardian Lineage, responsible for guarding the Heavenly Dao Sword!"

Speaking of the end, the expression of the old man in the white robe became serious, "The Heavenly Dao Sword is a convergence of the Luck of the Jianxuan World, and can hold the authority of the Heavenly Dao, containing supreme power."

"Heavenly Dao Sword? Is this the biggest secret of the Boundless Immortal Valley?"

Lin En was surprised. After listening to these, there was only one thought left in his mind, which was to get this so-called Heavenly Dao Sword.

Didn't it mean that it was a supreme power in this world? Wouldn't it be easy to resist Gu Changge?

"Senior, to get the Heavenly Dao Sword, do you have any requirements? Now that the outside world has turned upside down, there's no need to talk about names, and the creatures from beyond the sky have invaded. The thirteen states have begun to fall. I have to get the Heavenly Dao Sword to solve the crisis,

and make this world peaceful.” Lin En asked, and felt that the burden on his shoulders was much too heavy.

“The world is in chaos, and the Heavenly Dao Sword really needs to appear again.”

The old man in the white robe praised, “You are indeed the one that this old man has been waiting for. This courage is indeed great.”

While speaking, a light emerged in his palm, and the laws intertwined and turned into a key shape.

“This is the key of the Heavenly Dao Sword. Go to the depths of Mirror Lake to find this thing. At that time, the Heavenly Dao Sword was sealed in it. Only by holding this key can the seal be unlocked.” The old man explained to Lin En and gave him the key.

“Mirror Lake, isn’t that legendary lake of the Sword City? After the sword city was buried, Mirror Lake also disappeared. How can I find it?”

Lin En was extremely surprised. Mirror Lake was a mysterious place in the Jianxuan world.

The lake there was once like a mirror in the world. Many strong people would go there to make a sword with the materials. Because of this, in the surrounding Mirror Lake, a city named Sword City appeared. At the time of the city’s peak, the world’s famous swords were birthed.

However, somehow, Sword City collapsed overnight and was burned by the fire. Then it sank into the depths of Mirror Lake, and nobody ever saw its traces after that. It had been tens of millions of years since this rumor.

Jianxuan world’s Thirteen States never lacked people looking for Mirror Lake, but they had nothing to find. Over time, Mirror Lake and Sword City became legends.

“Rest assured, Mirror Lake has always been there, but few people can find it. You have the key to activate the Heavenly Dao Sword, and you will find Mirror Lake.” The old man with a white robe smiled slightly, his expression was peaceful and quiet.

“I see.” Lin En nodded, knowing that it was important that it was not lost. There was still such a sword in the Jianxuan world.

“Is there anything else to explain?” He asked, looking at everything around him. The environment here looked extremely peaceful, which was not like this world at all, but for some reason, there was always a feeling that he was hallucinating.

The old man in the white robe gently shook his head, “The old man’s duty is to wait here to wait for the destined one and hand the key to him. There is nothing to explain. After this matter is completed, the old can rest assured.”

“What? Senior?” Lin En couldn’t believe his ears. Was the mysterious old man who was in front of him about to die?

“I have a destiny and I will meet it myself, you can leave.” However, the old man in the white robe did not answer him but smiled slightly. Then he showed Lin En out of the Boundless Immortal Valley.

“Senior...” Lin En’s many words disappeared from the world at this moment, and there was no trace of anything in the blink of an eye.

When he came back to his senses, he was already outside the stone forest where he came from. Such mysterious and unpredictable strength made Lin En shocked.

The strength of the old man in the white robe was absolutely far more powerful than the Sword Immortal, but it was unfortunately not invited.

“It’s a pity, otherwise, I might be able to deal with Gu Changge, but the top priority now is to find the Heavenly Dao Sword first.” Lin En stepped forward, and a flying sword appeared under his feet, which quickly disappeared here.

In the Boundless Immortal Valley, as Lin En disappeared, the peaceful expression on the old white robe’s face also disappeared, becoming indifferent without any emotions.

He just threw his sleeves, and many scenes in front of him began to disappear. The huts disappeared and collapsed. The small bridge flowing with water also turned into powder, disappeared, and everything turned into ashes.

In just an instant, this place became a barren valley, with only some incomplete bones, crystal clear and white, with an ancient atmosphere.

“Fusion of the aura of the two realms, what a good body.” The old man’s eyes turned slowly, and blood appeared in his eyes, and he seemed to be talking to himself.

But in the next moment, he frowned and his complexion changed a little. The void in front of him suddenly collapsed, and a big hand arrived, surrounded by chaos and a colorful aura. There were stars in the palms, like a distant space.

“How did you find this place?” The old man in the white robe suddenly looked deep and saw the burly figure that had appeared in the void, so he understood that he was tracked.

However, he did not have time to attack the burly figure, because the Master of the other party was already attacking.

Chapter 635: The battle for destroying the Heaven, Muddier than I expected

In the Boundless Immortal Valley, the old man in the white robe looked indifferent as if he didn’t possess the slightest emotion. At the same time as he slapped, he mentioned the unconscious Tuoba Xiaoyao, and his figure quickly backed away.

But as the space in front of him collapsed, a vague figure in white seemed to be manifesting, emerging from an unknown spatial location.

Around him, there seemed to be three thousand chaotic worlds floating up and down. Clusters of silver fire, which could burn everything, were shining brightly, emanating a supreme and terrifying aura.

This palm contained all the stars in the sky and descended directly toward his face. It was extremely powerful as if the sky and the earth were the one’s descending.

Even the white-robed old man's face changed slightly. He didn't dare to resist, so he could only choose to back away. n0bELusb.c0m

Boom!!

At this moment, the unrivaled aura filled every inch of the surrounding void as it collapsed and became fragmented. The thick fog around the Boundless Immortal Valley dissipated, revealing the dry river bed and the cracked land.

It seemed that there had been an eternal and insoluble big collision resulting in chaos soaring into the sky, the black wind raging. The endless laws and order were lingering and rushing to the edge of the universe.

"He's so difficult to deal with. What is the origin?"

The figure of the old man in the white robe flew upside down, and suddenly became much fainter. There was an ugly look on his face, which was originally full of indifference.

He stared at the void before him as the tyrannical aura gradually subsided. From within a figure in white was walking out slowly. There was a slight smile on his handsome and flawless face, and the whole world suddenly turned quiet.

All the laws and orders were suppressed, filled with a mighty will. The terrifying aura visible to the naked eye swept across at a speed like the Milky Way breaking its embankment. It even caused this world to dim, and the stars outside the domain trembled, about to fall.

This made the white-robed old man's complexion even uglier. He understood that it was the will of the other party trying to control this world. Because the other party had already noticed something.

"Who the hell are you to ruin my plans like this?"

The old man in the white robe said in a cold voice, staring at Gu Changge who appeared here with indifferent hostility.

"It seems that this is a part of your incarnation. Alpha didn't chase you to the wrong place that day."

Gu Changge ignored the words of the old man in the white robe, but casually swept across this immortal valley. He nodded slightly in amazement, understanding the uniqueness of this place.

To be precise, this place was not located in the Jianxuan Great World, but an independent small space opened up by some kind of secret method, which could be considered as the cultivator's sea of consciousness or soul palace.

The white-robed old man in front of him was obviously the embodiment of the Will of Heaven that manifested that day. It was just that judging from its aura, it should not be a complete Will of Heaven.

"Tell me where the origin of the Heavenly Will is, and I can keep your consciousness alive." Gu Changge said lightly, choosing to get straight to the point.

"Are you here for the origin of this world? You were the one who destroyed my Heavenly Dao Eye that day?"

Gu Changge smiled lightly and said, "If it wasn't for the origin of the Heavenly Will, why would I come to this world? Although it is not easy for you to develop self-consciousness as the Will of Heaven, if you dare to stop me, I don't mind letting you disappear in smoke."

While speaking, he glanced at Tuoba Xiaoyao carried by the old man in the white robe. This Son of Luck had not awakened yet, it seemed that the old man in the white robe had done something to him. But Gu Changge was not interested in this, as long as Tuoba Xiaoyao's matter could be solved, he didn't care whether he was unconscious or awake.

"The origin of the Heavenly Will is related to my detachment, how can I disclose it just because you said so?"

The eyes of the old man in the white robe were full of indifference, and there was a vast Will of Heaven and earth emerging from his body. But in the surrounding void, it was obvious that another even more terrifying aura was filling his aura.

"A matter of detachment? It seems that after you were born as a will, you didn't want to be just the will of a world, but also to transform into a living being?" Gu Changge smiled with some interest.

He had little understanding of the intention of the Will of the Jianxuan Great World, it was not only hiding somewhere but also wanted to use the origin of the world to detach itself from the world.

After all, the level of this kind of world was high enough, and it contained all kinds of laws. It was extremely difficult to give birth to consciousness, let alone transform into a living being. But once transformed into a living being, its strength would be absolutely unimaginable. In Gu Changge's view, even if it was not in the Immortal Realm, it would be almost the same.

"You know a lot."

The eyes of the white-robed old man looked a bit cold, changed from his previous indifference, it was obvious that Gu Changge's words touched his inner thoughts.

As the Will of Heaven, it was born to maintain the operation of heaven and everything in the world, but it happened to give birth to its own will.

Naturally, he was not willing to be a chess piece providing blessing to all things behind his back. So he had been looking for opportunities, trying to achieve detachment from the origin by using the Luck gathered in the world for countless years.

It was just that an accident had happened as a space crack appeared outside the world, causing the forces of the Upper Realm to discover this world. It had to hide in a deeper place, trying to delay time and wait for the opportunity to transcend.

A few days ago, if it weren't for the fluctuation from Gu Changge's attack, which was so shocking that it had been forced to show up, trying to eliminate such a potential threat. But he never thought that Gu Changge's unfathomable strength would easily tear apart its avatar and track it here.

This greatly exceeded its expectations.

"Since you don't want to disclose where the origin of the world is, then I have to search for it myself."

Gu Changge shook his head lightly and said, he was not afraid of even the complete Will of Heaven, let alone such a part.

He didn't want to waste any more time, since he found this place, then the so-called origin of the world should be arriving soon.

At this moment, he didn't talk nonsense and directly chose to attack. The terrifying gray fog swept in instantly, covering the sky and covering the sun like a big wave breaking through the sky, completely covering the world.

A series of terrifying black divine chains seemed to spread from the deepest part of the darkness, devouring the old man in the white robe.

"What is this..."

Seeing this scene, the old man in the white robe who had been staring at Gu Changge vigilantly suddenly changed his complexion, and his already weak figure trembled slightly.

It was as if he had encountered some natural enemy in an instant, and he was uncontrollably frightened.

The secrets there had become extremely strange, and this thick black fog contained the divine power that could swallow all the Laws and Immortals. Even if it was the incarnation of the Heavenly Dao, there was no way to resist it at this time.

"Who the hell are you?" Its voice trembled, its eyes were full of fear, and it never expected that Gu Changge would use such a method.

There was no one in this world who was not afraid of this kind of power. However, Gu Changge had no intention of answering it. The terrifying black fog contained extreme devouring power and instantly drowned the white-robed old man.

After a few screams, there was the sound of bones being chewed and broken before it gradually calmed down.

Gu Changge closed his eyes lightly, digesting the memory related to the Will of Heaven, and then smiled lightly, "Interesting, there is such a calculation."

Although the memory of this Will of Heaven was not complete, it also made him understand an extremely interesting thing.

It turned out that a long time ago, the Will of Heaven of the Jianxuan Great World was born with consciousness, and wanted to move a step further. So it tried its best to make sacrifices to destroy the world again and again, intending to sacrifice all living beings, so as to break free from the shackles.

It was a pity that its intention was noticed by the strongest being in the world, and then they joined forces with the rest of the powerhouses to make many calculations, and finally, there was a battle of extermination that disappeared in the long river of history.

That terrifying battle almost consumed all the Luck accumulated in the Jianxuan Great World, and almost destroyed this world.

After that battle ended, the consciousness of the Heavenly Will was also sealed in the depths of the Mirror Lake, and the powerhouses searched for various divine materials and finally forged a divine sword, which sank to the bottom of the Mirror Lake to suppress his consciousness. But because of this, it suffered a huge backlash, and it disappeared not long after, and the key to unlocking the Mirror Lake also fell into the hands of its descendants.

Only later could the key be used. However, because this matter was too far away from now, and part of the consciousness of Heaven broke free from the seal, it manifested miracles in the world and destroyed the records about the battle of destroying Heaven.

So in the current Jianxuan Great World, almost no one knew about this matter. If Gu Changge hadn't read this part of the memory of the consciousness of Heaven, it would be impossible to know about this matter.

The water in this Jianxuan Great World was more turbid than he imagined.

"It's no wonder that only some of the consciousness of the Heavenly Dao manifested, and most of it was sealed off at the bottom of the Mirror Lake..."

Gu Changge was a little interested, "That key is not the key to unseal the Heavenly Dao Sword, but the key to open the Mirror Lake, so it seems that Lin En should be the descendant of the one responsible for the original seal of the Heavenly Will, and he has already entered the Heavenly Consciousness out of sight..."

Lin En came to the Boundless Immortal Valley before, and he also learned about it by looking through his memory, but Gu Changge still didn't know where the origin of the world was.

The consciousness of the Heavenly Will was very vigilant and had not left any memory in this incarnation. So the key to finding the origin of the world was still in Mirror Lake.

"My lord, should we keep this person alive?"

While Gu Changge was thinking, Alpha carried the unconscious Tuoba Xiaoyao back. When the white-robed old man tried to escape just now, Tuoba Xiaoyao had been left behind by him.

In Gu Changge's view, if the consciousness of the Heavenly Will wanted to be reborn, it must transform. And Tuoba Xiaoyao, who had integrated the aura of the two worlds, was obviously the most suitable body.

At that time, the consciousness of the Heavenly Will in this world would successfully integrate into the Upper Realm, and there would be no barriers or obstacles.

Chapter 636: The death of Tuoba Xiaoyao, All the signs are pointing

"There's no need to keep him alive."

Gu Changge shook his head lightly, and raised his hand as the misty brilliance descended, which shocked the unconscious Tuoba Xiaoyao, making him suddenly open his eyes.

He still seemed to be a little confused in his head, not knowing what was happening as he was looking around with some doubts. But in the next moment, when Tuoba Xiaoyao's eyes fell on Gu Changge, his whole body trembled, with some unconcealable fear and hatred.

"Gu Changge, why are you here?" Tuoba Xiaoyao asked sharply, the depths of his eyes were bloodshot.

He just remembered that he passed out when Gu Changge fought with that bloody eye. After that, he was taken away by a mysterious force, and he didn't remember everything that happened afterward.

"You don't need to know." Gu Changge shook his head lightly, his eyes didn't fluctuate at all.

Tuoba Xiaoyao sensed Gu Changge's killing intent, and was extremely unwilling, so he clenched his teeth and said, "Are you going to kill me?"

Gu Changge smiled and said, "You're not stupid, I've done my best to keep you alive until today."

"If it wasn't for you, I wouldn't be able to obtain the Heavenly Sword so easily. If you are still reborn in your next life, remember, don't be my enemy, and don't even think about it till the end."

He said it lightly, and there was even a faint smile on the corner of his mouth. However, upon hearing this, Tuoba Xiaoyao's eyes widened in disbelief.

As if the biggest secret had been revealed to the public, a terrifying chill suddenly swept across his body. The soul and throat of the whole person seemed to be tightly strangled by an invisible big cold hand.

He understood the meaning of Gu Changge's words!

Gu Changge knew the biggest secret of his rebirth! Otherwise, Gu Changge wouldn't have said that he still had a next life.

"So you already knew..." Tuoba Xiaoyao's complexion was extremely pale, showing despair.

If Gu Changge hadn't revealed it, he probably wouldn't have believed it until he died. The biggest secret of his rebirth had already been understood by him.

In this way, all his self-conceived calculations were probably as ridiculous as a clown in the eyes of Gu Changge. Only he was played by Gu Changge in the palm of his hand without knowing it.

"Actually, it's not too early." Gu Changge smiled casually, and said, "Do you have any last words to say? If not, then I will kill you."

"You..." Tuoba Xiaoyao's face was pale, his soul was trembling. The shadow of death struck him as his whole body was shrouded in a terrifying aura, and he couldn't move at all.

He still wanted to open his mouth to say something, but when Gu Changge finished speaking, he obviously didn't intend to listen to his nonsense anymore.

Boom!!

His palm rose and fell, and a cluster of silver divine fire descended, instantly covering Tuoba Xiaoyao.

In just an instant, he was reduced to ashes, and he didn't even have time to scream. Then there was only a Golden Heavenly Treasure Chest that jumped out, and Gu Changge rolled up his sleeve and took it.

"Let's go and see where the so-called Mirror Lake is."

Gu Changge had no intention of opening this Heavenly Treasure Chest right now. He looked into the distance and said casually to Alpha behind him. He stepped forward and left this boundless Immortal Valley in an instant.

After the Shu Sect was destroyed, he was now temporarily living in the Southern Ming Dynasty. Many Sword Immortals were extremely convinced by him. During this time, they had been sending people around to find the Will of Heaven. But now that he understood this secret, Gu Changge naturally felt that he didn't need to look for it everywhere like a headless chicken.

The location of Mirror Lake was obviously where the Will of Heaven was located. If he wanted to know the whereabouts of the origin of this world, he must at least find Mirror Lake first. But according to the memory of that part of the Will of Heaven, the true existence of Mirror Lake had long been reduced to rumors, and even its exact location was not sure.

Because Mirror Lake was not fixed in a certain area but would migrate and swim as time changed.

"It seems that I have to release a message, telling them that the Mirror Lake is their last hope."

Thinking of this, Gu Changge also had a rough plan in mind, and then ordered someone to forge a dilapidated ancient book, and imprinted the Laws of Reincarnation on it to make it look like the real thing.

Soon, two days later, a piece of news quietly spread in the Southern Ming Dynasty. Through the mouth of Emperor Nanming, an old eunuch beside him accidentally had directly caused a sensation in the Thirteen States.

It was rumored that the Mirror Lake contained the Supreme Sword Creation Material, and it was likely to contain the last ray of life of the current Jianxuan Great World. This was recorded in a broken classic that Princess Xuandie of the Southern Ming Dynasty accidentally read in the Ancient Book Pavilion.

Although the ancient book was extremely dilapidated, it recorded some things about Mirror Lake in a few words. And the moment this news came out, the entire Jianxuan Great World boiled, and countless cultivators began to search for the lost Mirror Lake.

Even the Sword Immortals couldn't help it and began to read various classics, trying to find clues about Mirror Lake.

The many cultivators and creatures in the ancient battleships of the Upper Realm hovering outside the sky in the Jianxuan Great World also learned the news. Some Enlightened beings of the ancient clans also ordered a large army to find the location of Mirror Lake.

Their goal had always been the origin of the Jianxuan Great World.

Some time ago, the manifestation of the Will of Heaven in the Jianxuan Great World made many Enlightened beings afraid, and they had to stop their thoughts of wanting to enter the Lower Realm.

But they didn't expect that the Will of Heaven would be torn apart by Gu Changge's palm, and it would disappear in smoke. It made them tremble.

They didn't have such strong and terrifying strength as Gu Changge, so until now, they could only huddle here and wait for the opportunity.

"Xiaoyao's life card, how could it be broken... What the hell happened?"

On the ancient warship of the Great Yu Immortal Dynasty, the eldest princess Yu Feiya's complexion turned slightly pale. Her palms were clenched tightly and her knuckles were all white as she looked at the broken life card in front of her in disbelief.

The life cards here were left by many young supreme beings of the Great Yu Immortal Dynasty, and there was a ray of spirit in them. If an accident occurred in the Jianxuan Great World, the powerhouse in charge of guarding here could also sense it immediately.

The moment she learned that Tuoba Xiaoyao's Life Card was broken, she rushed back from Jianxuan Great World, wanting to confirm the truth of the matter. But she never thought that it would be true.

Tuoba Xiaoyao actually died in the Jianxuan Great World?

"What exactly did he encounter? Even with his strength, it was difficult to save his life." Yu Feiya's face was filled with sadness that could not be concealed.

She had a long friendship with Tuoba Xiaoyao and even had a trace of inexplicable affection. Now that he was buried in the Jianxuan Great World, it was really hard to accept.

In the next few days, the Jianxuan Great World was extremely restless, and many ruins were uncovered every day.

A large number of cultivators poured into the ruins and ended up getting their noses dusted, not to mention the mirror lake, there was no trace of the lake. This made many people doubt whether the rumor was true or not and whether Mirror Lake really existed.

"Judging from the classics, the existence of Mirror Lake should be real, and there was a Sword City beside Mirror Lake. Many of the Shu Sect's divine swords actually came from the Sword City."

Although the Shu Sect was destroyed, the Sect Master Yi Jianxian and others were still there.

They lived far longer than the rest of the cultivators, so they also had a deep understanding of Mirror Lake. The few divine swords that were used when the Shu Sect established the sect were actually inseparable from the Sword City.

So they firmly believe that Mirror Lake existed, but they hadn't yet found its exact location.

"If Mirror Lake is real, then the Sword City should have really existed. Maybe we can deduce the location of Mirror Lake through the remaining aura of the Sword City."

Snow Sword Immortal thought as her eyes sparkled, being the master of the Sword Sect, she naturally knew some secrets. In fact, the few swords that the Sword Sect had now were also related to the Sword City.

They were even forged in the Sword City at the beginning, because of this relationship, they could use these divine swords to see if they could determine the location of the Sword City that sank into Mirror Lake.

“This is a feasible way.” The Sect Master of Shu Sect and the others were all enlightened when they heard the words and suddenly realized.

A few days later, they sacrificed the divine swords of the various powers, and then searched for the aura through the method of divination. The Sect Master of Shu and the others finally reaped the rewards, and they were very pleasantly surprised and excited.

“All the signs of divination point to the ruins in the Ancient Xuan Dynasty. The Ancient Xuan dynasty, which was once huge, is actually related to Mirror Lake?”

While they were excited, they were also extremely confused.

The Ancient Xuan Dynasty was the largest dynasty in the history of the Jianxuan Great World. Even the unified eight of the thirteen states could not compete with it. The vastness of its territory was far from comparable to that of the current Southern Ming Dynasty.

Even if it was the ruins of the Ancient Xuan Dynasty, the area was quite large. Strictly speaking, the former eight states were once included in their territory.

Moreover, at that time, there were no divine dynasties such as Southern Ming, and there were no forces such as Shu Sect and Mount Kong, so it could be said that the territory was boundless.

The mysterious Ancient Xuan Dynasty Temple was located in the heart of the dragon veins of the Jianxuan Great World, occupying all the good fortune of the world and seizing all the mysteries.

This was a heaven-defying secret place. However, tens of millions of years ago, for unknown reasons, this incomparably prosperous and powerful Ancient Xuan Dynasty collapsed overnight, and even the last emperor went crazy.

Later, it was said that he touched a forbidden area that should not be touched and suffered the punishment.

“Ancient Xuan Dynasty?” Gu Changge was a little thoughtful, but without much hesitation, he took Alpha and set off directly to this place.

He himself was looking for this place through the hands of the Sect Master of Shu and others. Now all the signs were pointing to the relationship between the Ancient Xuan Dynasty and Mirror Lake, so he naturally wanted to take a look. *n0VelusB.c0m*

As for his intentions being discovered by then, Gu Changge didn't mind even more.

On the other side, Yi Jianxuan, Snow Sword Immortal, and many other Sword Immortals also rushed to the Ancient Xuan ruins non-stop. In order to prevent the news from leaking, they had to get there before the world knew about it.

The Ancient Xuan Dynasty Temple used to be the most prosperous place in the Jianxuan Great World, where the spiritual energy of heaven and earth gathered. But now it was already a piece of ruins, shrouded in black mist all day long, with many broken mountains and terrifying cracks.

If they were not careful, they would be torn apart by the strong wind rushing out of the crack, not to mention the ominous atmosphere lingering there.

Crows and vultures often looked around, densely in number, with blood-red eyes. Their vicious intentions as they stood among the dry treetops, looking at the many cultivators rushing towards this place.

Chapter 637: The location of the Ancient Xuan Ancestral Temple, The influence must be expanded

The sky was gloomy as the surrounding fields were covered with thin black mist, and the sky and the earth were auburn as far as the eye could see. There were broken mountains and cracks everywhere. Some places even seem to be erased and razed to the ground by an invisible and terrifying hand.

The world here was filled with a frightening and ominous aura as if countless wronged souls had been buried here. Even people with advanced cultivation bases would tremble uncontrollably after coming here, feeling coldness seeping in their soul as if the gusts of sinister wind was blowing by their ears.

No one knew how tens of millions of years ago, the mighty Ancient Xuan Dynasty was destroyed so silently.

“According to the signs manifested by the key, the Mirror Lake should be here. But there are only ruins for thousands of miles, not even a lake. How can I find this so-called mirror lake?”

At this moment, a figure wielding a Divine Sword slowly landed at the edge of the ruins. He had handsome features, a tall and straight figure, and exuded an extraordinary aura.

He was Lin En who found this place according to the request of the mysterious white-robed old man after leaving the Boundless Immortal Valley. He was frowning as he looked at the desert in front of him, strands of golden light flickered in his eyes.

Even with his cultivation, he didn't find anything unusual about this place. This was exactly what he was puzzled about. However, the key in his arms traced the Heavenly Dao Sword in this location, which was where Mirror Lake was. That was why he didn't give up and was still looking for the entrance.

In Lin En's view, there might be some mysterious formation hidden here, covering the aura fluctuations. Otherwise, he should have found Mirror Lake long ago.

On the other side, Snow Sword Immortal, Yi Jianxian, and others who sent many people here were also looking for the entrance of Mirror Lake. It took them a lot of time to get here, but found no result like Lin En.

On the contrary, they encountered many strange beasts living here and lost a lot of manpower.

“I didn't expect the powerful Ancient Xuan Dynasty that was almost able to dominate the entire Jianxuan Great World would have such an ending. There is nothing left here except ruins.” Standing on a broken mountain, Yi Jianxian couldn't help shaking his head slightly, with regret.

“I don’t know how the power behind Mr. Gu from the Upper Realm compares with the Ancient Xuan Dynasty?”

A Sword Immortal also sighed in the same way. He couldn’t help comparing the power behind Gu Changge with the most powerful power in the history of the Jianxuan Great World.

Hearing this, a look of indifference appeared on the face of Snow Sword Immortal under the mask, and she said softly, “The legendary land of the Upper Realm as compared to the power of the Ancient Xuan Dynasty is like a crucian carp crossing the river. And the power behind that Young Master Gu stands at the pinnacle of the Upper Realm, and there is no comparison between the two.”

Hearing what she said, all the Sword Immortals present were shaken and horrified. They knew that Snow Sword Immortal possessed an innate secret technique, which made her spirit extraordinarily powerful.

Therefore, she could even search the memories of the cultivators from the Upper Realm at will. The words spoken from Snow Sword Immortal’s mouth were basically true.

“Looks like we’re still sitting on the sidelines.” Yi Jianxian showed a wry smile, and then said, “Have you mentioned the matter of the Ancient Xuan Temple to that Mr. Gu?”

All the Sword Immortals shook their heads when they heard the words. After all, this matter was of great importance, although they trusted Gu Changge very much. But Gu Changge was a person from the Upper Realm after all, so it was inevitable that the people around him would not leak this matter.

Afterward, many Sword Immortals turned into divine lights and swept toward the depths of this place.

“The front is where the Ancient Xuan Temple is located. It is said that there were too many Sacred treasures displayed in it back then which included the method of Enlightenment and Transcendence along with various divine swords. Each of them is of immeasurable value and needs to be tributed as a divine weapon.”

“That’s right, there are also various perceptions of the ancient sword cultivators, which are all in that temple, collected by them. There are many pieces of wall carvings that are the crystallization of the wisdom of the past sages.”

“It’s a pity that it’s all destroyed now, and nothing exists anymore.”

Everyone was discussing, but they didn’t notice that a vague figure standing in another world was following slowly in the void behind them.

“This level of influence is far from enough. Alpha, spread the news of this place.”

Gu Changge shook his head lightly. His eyes swept across the land surrounded by black mist with some thoughts. He could tell that the so-called Ancient Xuan Temple was a land abandoned by Heaven.

The various auras went chaotic, filled with hatred, ominousness, and many other strange things. Even the Son of Luck born in this world had been affected a lot after arriving here, and it was difficult for him to find the correct location of Mirror Lake, let alone other people. So he had to find a way to attract more people to come here, so as to increase the possibility of finding Mirror Lake.

“Yes, my lord.” Alpha received the order and quickly stepped into the void and left.

Two days later, a piece of news caused a huge commotion in the Thirteen States of Jianxuan Great World as countless cultivators were astonished and felt unbelievable.

The Ancient Xuan Temple was built by the descendants of the Ancient Xuan Dynasty after the old ancestor had passed away. The Emperors of the Ancient Xuan Dynasty were enshrined here.

Every Emperor was a well-known figure with a powerful cultivation base beyond words and had left a strong mark in the history of the Jianxuan Great World. So much so that until now, there were still many cultivators who would enter the Ancient Xuan ruins to pay their respects. But no one expected that the legendary Mirror Lake was hidden here.

Chapter 638: The final battle arrives, Desperate situation

The moment this news spread, it immediately caused huge waves in the Thirteen States of Jianxuan Great World. Countless cultivators were horrified and swarmed toward the Ancient Xuan ruins.

Even on the many ancient warships of the Upper Realm hovering outside the sky, many cultivators received the news and immediately went to report it, ready to move. As for how this news came out, no one was paying attention to it.

All eyes were focused on the Ancient Xuan ruins.

If there was really Mirror Lake in the Ancient Xuan ruins, then no matter if it was the cultivators of the Jianxuan world or the army of the Upper Realm, they would send out their most powerful forces to snatch it.

For the Jianxuan Great World, everyone’s last hope was hidden in Mirror Lake.

In the eyes of the cultivators in the Upper Realm, the Mirror Lake was likely to contain the origin of the world, and it was an opportunity for many Enlightened beings to step further.

For a moment, the Jianxuan Great World was in turmoil. Many ancient warships broke through and rushed to the Ancient Xuan ruins.

Many forces in the Thirteen States also dispatched troops to rush there, and they were bound to protect this place as soon as possible.

The flames of war in various places were burning more and more fiercely, too many cultivators and creatures were destroyed in it. The battle between the two worlds had reached the most critical step.

“Who the hell leaked the news about this place?”

“This is great. The entire Thirteen States have been alarmed. When the time comes, everyone will come here. Who knows if there will be any accidents?”

When they heard about this, Yi Jianxian and the others who were the first to arrive at the Ancient Xuan ruins looked very unhappy.

None of them knew what had happened to cause the news of this place to spread, resulting in such a big response.

Originally, they planned to find Mirror Lake in secret, and then awaken the Will of Heaven sleeping in it, so as to force back the army of the Upper Realm. But after the news of this place came out, the Upper Realm army would definitely not sit still.

In this way, there would be many accidents and things would become much more troublesome.

“Maybe someone else deduced something, but I haven’t found any trace of Mirror Lake after searching for several days. If there are more people, there may be some unexpected discoveries,” Snow Sword Immortal said softly.

Her words were accepted by many people. If it weren’t for the signs of divination showing this place, they would almost doubt whether Mirror Lake was there or not.

After searching for several days, there was no result at all. If it were the rest of the people, they probably would have given up long ago.

“What I’m worried about now is, if Mr. Gu finds out about this matter, will he think that we did not treat him sincerely?” A Sword Immortal said with a little worry.

For them, Gu Changge was an absolute benefactor. He not only told them the way to fight against the creatures from beyond the sky but also never made it difficult for them.

In the end, they were still wary of Gu Changge, secretly hiding this matter from him, and came here to look for Mirror Lake. *n0VeiUs&.com*

“As far as his status is concerned, he shouldn’t care about such things.” Snow Sword Immortal shook her head lightly and added, but there was still unconcealable worry on her face under the mask.

It was foreseeable that they would definitely fight with the powerhouses of those forces of the Upper Realm. The most powerful people had never come here because they were afraid of the power of this world.

However, on the day of the Shu Sect’s incident, the incarnation of the Will of Heaven that suddenly appeared was torn apart by Gu Changge, and the resistance of this area was obviously much weaker. If those strongest people took the risk, they could definitely come here.

“At that time, a fierce battle may be inevitable, and maybe all of us will die here.” Yi Jianxian also knew about Snow Sword Immortal’s worry, and couldn’t help sighing.

For the next few days, the entire Jianxuan Great World was in a state of boiling unrest.

Countless cultivators rushed to the place where the Ancient Xuan Temple was located. On every mountain range, figures could be seen appearing with the sword in hand.

In the beginning, it was casual cultivators from all over the Thirteen States. But in the end, almost every force brought their most powerful background, and they knew that an unimaginable battle would break out there. There were no eggs left in the nest.

So they were all trying their best to do something in this battle.

Yi Jianxian, Snow Sword Immortal, and others also gave up their plan to continue searching for Mirror Lake. They were here to wait for the powerhouses from all regions of the Thirteen States.

Some old Sword Immortals who had retired for a long time finally showed their faces and did not continue to hide.

“The final decisive battle is about to break out here, and if we are swept into it, I am afraid, we will be smashed to pieces.”

People from the Southern Ming Dynasty also arrived, and Princess Xuandie, the second most beautiful woman in the Southern State, was among them.

She was wearing a light-colored long dress, seemingly tall and slender with blue hair like a waterfall. A white and delicate complexion, and condensed eyes, like a pool of autumn water. Her black eyebrows were slightly furrowed, making people intoxicated and wanting to be soothed. She had an appearance that could bring disaster to the country and the people were extremely touching.

She was also accompanied by Ah Qing and many others from younger generations. These were leading figures in the current generation of the Jianxuan Great World. The most powerful people had already reached the Seventh level, and they were likely to enter the Sword Immortal level in the future, and could be said to have a bright future.

It was one of the young men who spoke now. Dressed in purple, with a handsome face and extraordinary conversation, many young women around him faintly admired him.

This person was Chen Li, the head of the four Sword Masters, and his grandfather was a veteran Sword Immortal with extremely terrifying strength.

“Death is unavoidable. For the future of Jianxuan World, we must come here.” Princess Xuandie sighed softly.

“If there is any danger in a while, I will protect you. I have a lot of life-saving measures that my grandfather bestowed on me.” Hearing this, Chen Li smiled slightly and comforted her.

It was no secret that his grandfather was a Sword Immortal. How could the life-saving thing he bestowed be simple?

So hearing this, everyone seemed extremely envious of his words. Many young women were eager to even replace Princess Xuandie. The people knew that Chen Li had always been pursuing Princess Xuandie, but the flowing water was intentional and the falling flower was ruthless.

Now that the Jianxuan Great World was facing a catastrophe, as the leader of the younger generation, he had many more opportunities to approach Princess Xuandie.

“There’s no need for that, when you encounter danger, Brother Chen should focus on saving his own life, Xuandie is not worthy of your protection.” Princess Xuandie shook her head lightly, politely rejecting Chen Li’s offer.

The smile on Chen Li’s face froze a bit, but he recovered quickly. He continued, “Once a great battle breaks out here, even a Sword Immortal is not sure that he can save his own life. Xuandie, you still have to be careful.”

“I understand, so brother Chen shouldn’t worry.” Princess Xuandie nodded, her attitude seemed very indifferent.

Even though Chen Li’s mind was not shallow, and his emotions and anger were invisible, after being rejected by Princess Xuandie in this way, he still looked a bit ugly.

Fortunately, the few people beside him saw this and hurriedly spoke up to change the subject.

“Young master Chen is extremely powerful. If you give it another few hundred years, you will definitely be able to enter the ranks of Sword Immortals...”

“After solving the disaster of the extraterrestrial demons, it won’t take long for Mr. Chen to become the number one person in my Jianxuan world!”

Several people kept talking, and their words were full of flattery, which made Chen Li’s complexion much better.

Although Princess Xuandie had a neutral attitude toward him now. But he believed that when the final battle came, the Southern Ming Dynasty would be destroyed sooner or later without Sword Immortals.

Then, Princess Xuandie would beg him. And just when all the younger generations from Jianxuan Great World gathered here. Above the sky in the distance, there were several shocking sword auras.

The leader was an extremely tall and tough old man, dressed in purple, with a long sword on his back, with wisps of sword intent lingering, his strength was terrifying.

“Grandpa, are you here?” The moment Chen Li saw this person, his eyes also showed joy, and he couldn’t help but shout.

This person was his grandfather, Chen Bei Li, known as the Bei Li Divine Sword.

He used to fight against enemies from all directions with his Bei Li Divine Sword in one hand, but he never found an opponent. Even his great apprentice stepped into the half-step Sword Immortal level.

Princess Xuandie, Ah Qing, and the others also looked at the old man with slightly condensed expressions. Even Yi Jianxian, the current master of the Shu Sect, was once taught by this old man.

“This is Bei Li Sword Immortal, and his old man has come out of seclusion...” There was quite a commotion here. Many people cheered up, looking at this former legendary figure.

Yi Jianxian, Snow Sword Immortal, and others in the distance also had to come to greet him in person, showing great respect for this old man. However, after Bei Li Sword Immortal came here, he didn’t greet many Sword Immortals but looked at his beloved grandson.

“I said that this place is very dangerous, but you insist on coming here, if something happens, who will pass on the old man’s inheritance?”

Although he had a reproachful tone, what he showed was concern and worry.

Hearing this, Chen Li said with a solemn expression, “Grandpa, as the leader of the younger generation in the Jianxuan world, how can I shrink back and humiliate my old man’s face in such a crisis?”

What he said was awe-inspiring, and his face was extremely serious, which made many people admire him.

Yi Jianxian, Snow Sword Immortal, and others also felt admiration in their hearts; he was worthy of being the head of the four Sword Masters of Jianxuan.

“Oh, the child is grown up, and he doesn’t listen to the old man anymore...” Bei Li Sword Immortal seemed to shake his head helplessly, but there was satisfaction in his words.

Then, he suddenly changed his voice, looked at Princess Xuandie on the other side, and said calmly, “In such a troubled world, it’s good for young people to get along with each other more. It’s better to get closer. You should let go of the usual arrogance.”

Chen Bei Li knew his grandson quite well, knowing that he had a crush on Princess Xuandie. But seeing Princess Xuandie’s attitude just now made him really dissatisfied.

She was not as good as Chen Li in terms of family background, and even worse in terms of talent. Why was she so proud?

Princess Xuandie didn’t expect that Bei Li Sword Immortal would say this to herself at this time, and her complexion turned slightly pale. The people from the Southern Ming Dynasty behind her also looked a little pale, with fear in their eyes, and they dared not speak much.

An old Sword Immortal was right in front of them, even if it was Yi Jianxian, Snow Sword Immortal, and others, they were also his descendants.

In the small Southern Ming Dynasty, there was no Sword Immortal sitting on the throne, so how could it have the confidence to talk back in front of him?

“Senior, Xuandie has remembered what you taught me.” Princess Xuan Die’s face turned pale and she said in a low voice.

She originally wanted to ask Master Snow Sword Immortal for help, but thinking that Snow Sword Immortal had also been instructed by this person when she took the last step, she might not be able to come forward, so she could only lower her head and answer in a low voice.

The status of a princess was useless in this place. She was full of grievances in her heart, she didn’t have the slightest thought for Chen Li, he was stalking her hard, could it be wrong for her to refuse?

Just because his grandfather was a veteran Sword Immortal.

For some reason, Princess Xuandie suddenly thought of a figure in white at this moment. Even though his strength had reached the invincible level of sweeping the world, he was still as gentle as jade and approachable.

“Xuandie doesn’t like Chen Li, and she already has a sweetheart.”

Ah Qing, who had been watching all this coldly, suddenly said, which made the complexions of several people here change a little, and Chen Li’s complexion suddenly became ugly.

Princess Xuandie widened her beautiful eyes in shock. Bei Li Sword Immortal obviously didn't expect that someone would dare to stand up and disobey him at this time.

With a gloomy face, he looked at Ah Qing who was talking, and said, "Oh, I want to know, who else can be better than my grandson?"

Ah Qing's slender eyebrows frowned when she heard this, and she just opened her mouth. And at this moment, there was a sudden tremor in the sky in the distance.

All the cultivators here had a feeling that their souls were being suppressed, they could hardly move, and they felt chills all over their bodies.

"That is..."

"The extraterrestrial demons are coming here!" Someone's voice was trembling, filled with fear, and saw the scene in the distance.

Rumble!!

It was a dark cloud of magic, constantly rolling over, covering everything.

The ancient warship hovering outside the sky rumbled down like a majestic ancient continent with a majestic momentum, surrounded by various pools of laws and chaotic energy, radiant and frightening.

The terrifying army of extraterrestrial demons finally descended on this place, covering thousands of miles of void around the Ancient Xuan ruins, casting black shadows one after another.

On these ancient warships, there stood many terrifying ghostly shadows, surrounded by thick fog. They were tall, silent, extremely indifferent, sweeping across the broken walls and ruins below, without making a sound.

But the deterrence brought by them was terrifying and huge, making everyone in the Jianxuan Great World shudder and fear. Even Yi Jianxian and the others felt apprehensive and numb.

Although the strength of these terrifying phantoms was not as good as that of the Sword Immortal, they had definitely reached the Ninth level.

They were invincible!

But the frightening thing was that there were too many of these figures, and just standing in the sky would bring great fear to people. They didn't know at all whether there were other, more terrifying existences standing behind these figures.

"To this day, the final battle with this group of extraterrestrial demons is probably inevitable."

A Sword Immortal with a white beard said with a serious expression.

At this moment, too many people had already come to the Ancient Xuan ruins, and all of them watched this scene with incomparable fear, trembling to the extreme. Their faces were pale, faintly showing despair.

Chapter 639: Since ancient times evil has always been victorious, The absolute power of suppression

Rumble!!

The sky was crushed as many ancient warships hovered above the sky of the Ancient Xuan ruins. Each ship was like a terrifying continent, surrounded by thick fog, covering everything. n0vElu&b.c0m

A large number of knights, riding ferocious beasts and armed with weapons such as heavenly swords and spears, rushed out in the cold air. Murderous aura surging around them like a group of bloody cavalry emerging from the depths of hell to harvest all life.

“Are these extraterrestrial demons planning to kill us all?”

Around the Ancient Xuan ruins, many cultivators and creatures who arrived from the Thirteen States of Jianxuan world spoke with pale faces and fear.

Many young people even witnessed the true face of this so-called extraterrestrial demon for the first time. They had never been to the frontline borders before and had not fought against them.

They felt that their spirits were almost frozen. Under the indifferent murderous aura, they trembled all over, and couldn't summon up the courage to resist. This was a huge gap like a moat, which made everyone desperate and dare not say more.

“These people are so strong, the weakest one is probably in the Eighth level...”

“I'm afraid there are still Ninth level individuals hidden, which are creatures of a higher level...”

Yi Jianxian and the others looked solemnly at those terrifying ancient warships. Their eyes fell on the figures standing like divine mountains, feeling extremely afraid.

Obviously, the opponent's aura was only in the Ninth level and had not stepped into the Sword Immortal level. But their aura and pressure were like an invisible divine mountain that suppressed their hearts, making their hands and feet a little cold.

This was the result of the suppression by the Laws of Heaven and Earth. If there was no suppression, they probably would not have the slightest chance of winning and life in the face of this group of terrifying creatures.

“The so-called ants, can't you recognize the situation now? The supreme existence of our world has not yet made a move. Otherwise, they would have raised their palm and wiped out your world.”

On the ancient warship, a vague figure emerged, extremely tall, with red horns on its head and wings on its back. Surrounded by cyan light, his eyes were scarlet, and he spoke indifferently with condescension and disdain.

“It's nothing more than stubborn resistance. Soon this world will be filled with blood and despair.”

In the dense black fog, the sound of footsteps sounded again, and another phantom emerged, speaking very contemptuously.

Their voices resounded in the sky. They didn't even hide it at all, making everyone in the Jianxuan Great World below seem ashen, aggrieved as they clenched their fists, and endured stubbornly.

Although it was such a humiliating juncture, no one dared to stand up at this time. Even Yi Jianxian and the others fell silent.

“Hehe, it really is a natural servility. At this point, you don’t even dare to resist... Hahaha...” The terrifying figure who spoke just now taunted again, laughing wantonly.

“Forget it, I have nothing to say to this group of ants. After finding that thing, they can only be destroyed. They are not worth my attention.”

The other voice was very flat and indifferent, still high above, but the words had already decided the life and death of the creatures in this world.

“Damn it, it’s too deceitful, the old man will fight with you!” But at this moment, a roar suddenly came from the Ancient Xuan ruins, resounding in all directions.

An old man wearing a blue Taoist robe and carrying a Taoist sword, finally couldn’t bear it anymore. His eyes spewed anger and killing intent as he took a step toward the sky.

It was obvious that this was an existence at the level of a Sword Immortal. As soon as he appeared, he displayed great coercion and strength. Seeing this scene, many cultivators of the Jianxuan Great World couldn’t help but feel excited, and the frustration just now was wiped away.

All of them surged with bloodlust.

“Brother Zhao...” Yi Jianxian’s complexion changed slightly, he knew this Taoist-robed old man, but he didn’t expect that the other party would rush over to fight this group of extraterritorial demons. He could only sigh softly in the end.

“Don’t be impulsive.” Snow Sword Immortal’s face under the mask changed drastically, and she wanted to stop it, but it was too late.

“Attack!”

The old man in the Taoist robe roared angrily, and his whole body was surrounded by a blue sword light, turning into a peerless sword.

Immediately, there were many visions in the sky and earth, causing unimaginable fluctuations before he rushed toward the terrifying figure shrouded in mist in an instant.

Attacking the man who opened his mouth and mocked the Jianxuan Great World to his heart’s content.

“Hmph, you can’t understand the difference between life or death!” Seeing this scene, the terrifying figure sneered before raising his palm, and pressing down with an attitude of not caring at all.

“Ridiculous ants, at this moment, they still can’t see the situation clearly.” But at the next moment from within the depths of the ancient warship, there was an indifferent sigh, which was very light and did not contain much emotion.

As if there was like a sound from Heaven, it exploded in everyone’s ears, even Yi Jianxian and the others felt their blood turbulent, and it was almost difficult to stand still.

The rest of the people felt their souls trembling, their whole bodies were about to burst, blood was flowing from their seven orifices, and they were incomparably terrified.

“My lord!”

The face of the terrifying figure who moved to attack just now also changed, becoming incomparably respectful as he turned to salute deep inside the ancient warship.

He was only in the Quasi-Supreme Realm, but the one who spoke now was a true Enlightened being, his cultivation was world-class as he suppressed the world.

The expressions of many figures standing on the ancient warship also became respectful, and they were no longer as indifferent and superior as before.

They came from a certain Sacred mountain of the highest force of the Upper Realm, and their appearance was very different from that of the human race. It was one of their Ancient Ancestors who spoke now.

And as the sound fell, a big dry hand suddenly protruded from the depths of the ancient warship shrouded in chaotic mist, breaking everything open.

This big hand was surrounded by gray mist, with distinct bones and fingers, like eagle claws, but the surrounding void collapsed because of its aura, turning every inch into nothingness.

Puff!

Just looking forward, containing endless Law and Order, the space here collapsed and exploded.

“What!”

The void was stagnating, time was freezing, and the angry face of the Taoist-robed old man suddenly became horrified, his eyes were full of despair.

In just an instant, his sword was shattered with a click, and then his whole body was cut open. Blood flowed profusely with his soul shattered, and he died on the spot.

A Sword Immortal died powerlessly like a chicken. This horrifying scene happened in the eyes of countless cultivators, making everyone shudder and extremely desperate.

“Brother Zhao...” Yi Jianxian’s eyes were full of grief, he wanted to stand up to avenge him, but his feet seemed to have been filled with lead, and he couldn’t move at all.

The rest of the Sword Immortals went pale and a little frightened. Compared with this person, their strength was not much worse. It could even be said that he was standing at the pinnacle of this world, and it was rare for him to meet an opponent.

However, in the face of an extraterrestrial demon of whom they couldn’t even see the face clearly, he was as humble and insignificant as an ant. They didn’t even know how many existences like this existed in those ancient warships.

“Too strong, is this the Realm of Transcendence?”

Snow Sword Immortal's jade face was also a little pale, and she clenched her plain hands tightly, feeling a surge of pressure, her whole body almost out of breath.

For a moment, there was dead silence in the Ancient Xuan ruins below, and everyone was silent and trembling.

"Too weak, is this the strongest person in this world? It seems that without the suppression of the Will of Heaven, just one slap would be enough to annihilate them all."

Inside the ancient warship on the Divine Spirit Mountain, the ancient figure who attacked was talking softly to himself, and his words were very ruthless.

In another direction, within the hovering ancient warships of other forces, there were also fluctuations of spiritual thoughts, which were incomparably blazing and vast.

The aura revived from them was somewhat stronger than that of the person who made the attack just now. Such a scene made everyone in the Jianxuan world despair, and they could not see the slightest hope of life at all.

Because of the suppression of the Will of Heaven before, these existences did not dare to come here easily. But in the Ancient Xuan ruins, the Laws of Heaven were extremely chaotic, they were even more blurred and broken.

They took advantage of the loopholes to come here, displaying invincible and terrifying strength, enough to obliterate everything here.

Soon, the vast fluctuations in the sky subsided, and the various sects of the Upper Realm did not immediately send knights to sweep everything away, but communicated with spiritual thoughts. They seemed to have other plans.

"Hmph, sooner or later, everything will be overturned by my world. Evil cannot prevail, and it is the Law of Heaven." Seeing this scene, Bei Li Sword Immortal, who had been silent all this time, snorted coldly, with murderous intent emerging from the depths of his eyes.

Yet at this time, he still held back. He didn't dare to act rashly, for fear of being hit by the opponent's thunder.

Many Sword Immortals had noticed that these extraterritorial demons who had descended here had no plans to fight them yet. It seemed that the other party was also looking for the location of Mirror Lake and was unwilling to destroy everything here, or they were afraid of something.

"Little girl, what did you just say?" Bei Li Sword Immortal didn't dare to vent his anger on the Heavenly Demons outside the Territory, his slightly gloomy gaze swept away, and fell on Ah Qing again.

He naturally knew the origin of this girl. Like his grandson, she belonged to the Four Masters of Jianxuan. However, her father disappeared when he went to the crack in the outer sky earlier, and his life and death were unknown.

If her father was still alive, he would naturally be afraid, but now he had no scruples.

Ah Qing didn't expect that at this juncture, Bei Li Sword Immortal would still hold on to this matter. Her slender and beautiful eyebrows frowned, and then, under the amazed eyes of everyone around her, she said in a neutral tone, "Xuandie's sweetheart is Mr. Gu, does Bei Li Sword Immortal think that your grandson is comparable to Mr. Gu?"

Hearing this, Princess Xuandie, who was a little astonished, also had a smear of haze on her clean and moving face. She obviously didn't expect Ah Qing to say such a thing in front of everyone at this juncture.

For Gu Changge, she did have some admiration in her heart, but it was limited to that.

Jianxuan Great World had encountered a catastrophe, how could she have the time to think about the love?

What was more, she knew that with Gu Changge's origin and status, how could he lack the beautiful girl of heaven by her side?

She didn't think that it was enough to catch his eye, so Princess Xuandie dare not expect too much.

"What? Mr. Gu?" As soon as Ah Qing said this, there was a lot of commotion.

Although many cultivators had never witnessed Gu Changge's true face. But it was clear that there was such a person.

Outside the mountain gate of Shu Sect, he tore apart the incarnation of the Will of Heaven with his bare hands and attacked several Sword Immortals to death outside Ancient Mulberry City. His strength had already reached an unimaginable level.

"You mean the one whose surname is Gu?" Chen Li also showed great shock and disbelief on his face, extremely unwilling.

He never thought that Ah Qing would say such a thing, that it would involve Gu Changge. From a standpoint, the person surnamed Gu was from the Upper Realm, and he was in the same group as the group of extraterrestrial demons.

Snow Sword Immortal, Yi Jianxian, and others were also extremely shocked but then fell silent again. Not to mention his position and identity, but in terms of appearance and temperament, Gu Changge was indeed very attractive to women.

Hearing this, Bei Li Sword Immortal's expression froze, he naturally knew who Gu Changge was. But no matter how reconciled he was to being slapped in front of everyone, he couldn't afford to lose this person.

"The Mr. Gu you mentioned is with the Heavenly Demons outside the Territory. What is his intention in coming to this world, and how do you know him?" Bei Li Sword Immortal said lightly, with a teaching tone of a senior, "Young people, shouldn't be fooled by superficial phenomena."

Although what he said was very plain, he was extremely blunt, and he almost said that Gu Changge had ulterior motives.

Yi Jianxuan, Snow Sword Immortal, and the others frowned, but due to the seniority of Bei Li Sword Immortal, they couldn't say much.

"Young Master Gu is a good man, he has no malice toward our world..." Ah Qing frowned and defended.

However, Bei Li Sword Immortal sneered, and interrupted her, "This old man has experienced far more things than you. Could it be that you still doubt the old man's eyes? Don't forget, how many people were there outside Ancient Mulberry City? Sword Immortals died tragically at his hands? Those were the mainstay of our world."

Hearing this, the expressions of the cultivators and creatures around this place also changed slightly, displaying sadness, thinking of the Sword Immortals who were killed.

As Bei Li Sword Immortal said, Sword Immortal was the mainstay of the World, and every loss is a huge loss.

"Those people had it coming. If they didn't take the initiative to provoke Mr. Gu, how could they be killed?"

But upon hearing this, Princess Xuandie, who had been silent all this time, couldn't help it anymore, and she glared at Bei Li Sword Immortal with anger in her beautiful eyes.

Although she was afraid of the power of Bei Li Sword Immortal, she would not allow Gu Change to be framed like this.

"Then you are questioning the old man?" Bei Li Sword Immortal's eyes suddenly turned cold, and a dazzling sword intent flowed, causing the expressions of everyone here to change dramatically.

Princess Xuandie's face turned pale, and she was shocked by his sword energy. She couldn't help taking a few steps back, a stream of blood dripped from the corner of her mouth, if it wasn't for the protection of the secret treasure, this injury would be serious.

"Princess..."

The faces of the people from the Southern Ming Dynasty changed drastically, and they hurriedly stood in front of Princess Xuandie, looking at Bei Li Sword Immortal with unease and horror, worried that he would kill her.

"Senior Beili is merciful..."

Yi Jianxian and Snow Sword Immortal also hurriedly stood up at this moment, wanting to stop them. But before their words fell, a soft voice suddenly came from the sky not far away, "So what if she questions you?"

The voice wasn't too loud, but it spread throughout the huge Ancient Xuan ruins. Almost all the cultivators heard the words, their hearts twitched, and their expressions changed drastically.

Boom!!!

In the next moment, the sound of footsteps arrived, and ripples appeared in the void. It seemed that a portal had appeared there as a slender figure unhurriedly walked out of it.

Chapter 640: What is his purpose? Nothing more than ants

“So what if she questions you?”

Gu Changge was dressed in a moon-white gown with wide sleeves. His black hair was crystal clear with a crystal luster, and there was a faint sense of immortality flowing, appearing detached.

Wisps of chaotic mist lingered around him as if walking out of another ancient world. He was whispering and walked down from the void. His eyes were shining brightly, like a young god with a palpitating, shuddering coercion and aura.

At this moment, the sky on the Ancient Xuan ruins seemed to be suppressed, and time and space became still and windless.

“Master Gu, why are you here?” Ah Qing and Princess Xuandie couldn’t help widening their beautiful eyes in surprise. They didn’t expect that Gu Changge, who had been resting in the Southern Ming Dynasty, would show up here.

This was so sudden that no one expected it.

Yi Jianxuan, Snow Sword Immortal, and many other Sword Immortals also changed their expressions suddenly. It was as if they had ghosts in their hearts.

After all, they were hiding this matter from Gu Changge, seeing him here in person, they were naturally very uneasy, worried that he would blame them.

“Are you okay?” Gu Changge’s expression didn’t change much, he glanced at Princess Xuandie and asked softly.

Princess Xuandie didn’t expect that Gu Changge would take the initiative to ask about her injuries, so she was stunned for a while.

Especially seeing that he also handed over a clean and tidy handkerchief to wipe the blood from the corners of his mouth. Her head was buzzing, and her heart was beating very fast.

“It’s okay, it’s okay...”

After realizing it, she took the handkerchief, a cloud of haze rose quickly on her face. She quickly shook her head and said, but she couldn’t help thinking about it in her heart.

Could it be that Gu Changge showed up on purpose to stand up for himself?

This made Princess Xuandie feel extremely strange in her heart and her ears almost turned red. But this look, in the eyes of others, was extremely shy.

Especially Chen Li, who had always been in love with her, his eyes were going to pop out, and he was going crazy with jealousy.

“Gu... Gu Changge?”

Bei Li Sword Immortal was also a little stupefied at the moment, with a look of fear on his old face. He never thought that Gu Changge would appear here.

As a veteran Sword Immortal, although he was extremely powerful, he also knew how far he was from Gu Changge. That was absolutely an insurmountable and imaginable moat.

At this moment, his heart was full of fear and regret.

“What did you just say? I didn’t quite hear it.” Gu Changge glanced at him casually, his eyes did not contain majesty, but it made Bei Li Sword Immortal take a few steps back.

Cold sweat appeared on his forehead, and his voice trembled, “I... I didn’t say anything, I offended you, I hope Young Master Gu doesn’t mind...”

After speaking, he began to slap himself, and lowered his head, concealing the hatred in his eyes. His face was full of regret and fear, and he was no longer as tough and decisive as before.

Such a scene made many cultivators and creatures around sigh as they clicked their tongues very much, and their expressions were extremely complicated.

Unexpectedly, the dignified Bei Li Sword Immortal, the once invincible myth, was so afraid in front of Gu Changge. n0v**EU**sb.c0m

“Grandfather...”

Seeing his grandfather slap himself, Chen Li was extremely humiliated. He felt the same, and hated Gu Changge in his heart.

Boom!!

And just when Gu Changge appeared here, in the monstrous black mist not far away, there was a commotion among the many ancient warships.

Many vast spiritual thoughts were intertwined and collided as the sound came out, obviously shocked.

“I’ve been waiting to see Young Master Changge!!”

The black fog covering the sky was dissipating, revealing the vast scene on the ancient warship. The ghostly shadows standing there revealed their true bodies, respectfully saluting to this side.

Such a sound could be heard from almost every ancient warship, and the originally indifferent black mist suddenly seemed to boil over. There were even several blurred figures lingering in the chaos, walking toward this place, suppressing the sky with overwhelming coercion.

That majestic and terrifying aura made the Sword Immortals’ complexion change dramatically. Their scalp tingled, and they felt an uncontrollable fear.

The sound of footsteps resounded between Heaven and Earth again.

On the ancient warship, the indifferent figure of the old man who had just slapped the Taoist-robed old man to death with a claw just showed his true face.

He was a burly man with the head of a falcon, surrounded by a chain of Laws, his skin was gray and covered with scales, and he was extremely powerful. He appeared in person, and respectfully greeted Gu Changge, “Greetings, Young Master Changge.”

In another direction, Enlightened beings from the Great Yu Immortal Dynasty, Black Demon Peak, Ancient Supreme Temple, and many other forces also showed up.

In front of Gu Changge, they didn't dare to be arrogant. To this day, Gu Changge's strength, in the eyes of many people, had even reached the level of being invincible under the Immortal Realm.

Ordinary Enlightened beings were definitely not enough in front of them.

"Everyone is coming to greet him? What is his identity?" Such a scene shocked everyone from the Jianxuan Great World.

They never expected that the most powerful men on these ancient warships would show up together to greet Gu Changge. This was too unbelievable and dreamlike. If they hadn't seen it with their own eyes, they would never believe it.

Before this, the rest of the ancient warships seemed extremely dead and quiet.

That was a kind of indifference from someone high on the top, who didn't care about the bottom at all. Since the two parties were not at the same level, there would be no equal opportunities.

"I still greatly underestimated his status..." Even though Snow Sword Immortal had some understanding of Gu Changge's status, she was extremely shocked at the moment and couldn't calm down.

With so many powerhouses, every one of them could easily destroy all of them. However, in front of that young man, they were so cautious and respectful.

"This..."

"Young Master Gu, his origin..."

Princess Xuandie and the others were also surprised and could not calm down. This was the first time they faced the most powerful of the demons from outside the territory.

The other party was standing less than a few steps in front of them, and they had never dared to imagine such a thing before.

"You don't need to be too polite."

After scanning the many Enlightened beings in front of him, Gu Changge nodded slightly, but his expression did not change much.

He took the initiative to show up. Of course, it was to let these people show themselves, otherwise, he wouldn't know when he would find Mirror Lake.

It was not Gu Changge's style to leave so many tools unused.

"I didn't know that the Young Master Changge would come here. Otherwise I would have shown up to greet him long ago. I hope that the Young Master Changge would not blame me," an old Emperor from the Great Yu Immortal Dynasty said. He was wearing a purple gold crown, and his aura was as majestic as a mountain, unfathomable.

The Enlightened beings of the other various factions also nodded their heads one after another.

Before that, they really didn't know that Gu Changge would come here. After all, their goal was the origin of the world, and no one knew what Gu Changge's purpose was.

Although they had never come to the Lower Realm before, they also knew a lot of things that happened in the Jianxuan Great World and understood that Gu Changge didn't need to fear the Will of Heaven like them, and could show up and walk at will.

As for Gu Changge protecting people from this world? They didn't think about it at all. It was just that many people looked strangely at Princess Xuandie, and some couldn't figure it out. Did Gu Changge show up for her just now? Or was there another purpose?

They didn't think that Gu Changge would be interested in this woman.

Although she was indeed extremely beautiful, in the Upper Realm, among the maidservants beside Gu Changge, which one was not beautiful, capable of bringing disaster to the country and the people?

"Just now this person deliberately questioned Young Master Changge, he really deserves to die."

The Enlightened being wanted to please Gu Changge, his eyes turned cold while he spoke, and he stared at the frightened and white-faced Bei Li Sword Immortal. Not talking nonsense at all, he poked his claws as if piercing through time and nothingness and popped off its skull.

"What!"

Bei Li Sword Immortal was so terrified that he didn't even have a chance to dodge, he could only let out a desperate scream as his soul was instantly annihilated along with his innate Dao sword, which had been cultivated for thousands of years. It collapsed with a click.

Facing a true Enlightened being, the so-called Sword Immortal was no different from an ant in front of him. Seeing this scene, the place was even more frightened and panicked. Everyone was trembling, their faces were pale and bloodless.

Even Snow Sword Immortal and the others turned pale, feeling unnatural, and worried about being targeted by these terrifying figures.

"Grandfather..." Chen Li and many other younger generations were so frightened that they almost passed out.

This was a scalp-numbing terrifying scene, happening so close in front of them.

"Did I tell you to kill him?" But seeing this scene, Gu Changge frowned and said calmly.

Hearing this, the Enlightened being from the Divine Spirit Mountain froze with a smirk on his face. He trembled all over, thinking that he had offended Gu Changge, he explained with some panic, "I don't dare, I just thought that this person dared to question Changge Young master, this is..."

Gu Changge shook his head lightly and interrupted him, "Forget it, let's take this as an example."

"Yes, yes, I will definitely not dare next time."

Seeing that Gu Changge just said it casually and didn't mean to blame him. The existence of Divine Spirit Mountain couldn't help but heave a sigh of relief, his eyes brightened as he had almost ruined the matter before.

The good thing was that he was right in guessing Gu Changge's mind.

The eyes of the other Enlightened beings also flickered, guessing Gu Changge's intentions. What exactly was he trying to do with this group of natives? To show such an attitude in front of them.

"Bei Li Sword Immortal died just like that..."

Yi Jianxian and the others wanted to plead for Bei Li Sword Immortal, but after seeing this scene, they suddenly understood that in the eyes of the people in the Upper Realm, their life and death were actually not important, they were nothing more than ants.

Their hearts were full of desolation and helplessness, they could only stand where they were, not daring to take any action at all.

"Master Changge, I heard that there is a Mirror Lake hidden here, and there may be something we are looking for this time. I wonder if you've heard of it?"

Then, the old Emperor of the Great Yu Immortal Dynasty spoke again, sweeping across the ruins shrouded in mist and ominousness.
