Chapter 641: A strange change, A land cursed by the Will of Heaven

“According to the investigation, Sword City, which once sunk into the depths, is buried in Mirror Lake. It is the birthplace of all sects in the current Jianxuan world...”

Another Enlightened being spoke softly at this moment, his eyes slowly sweeping across the ruins surrounded by silky mist in front of him.

Even at their level, it was difficult to see through the many restrictions at a glance, which showed how mysterious and weird this place was. And the most palpating thing was that the secrets here were extremely chaotic and full of ominous auras.

Gu Changge’s eyes were inexplicable, and he shook his head when he heard the words before saying, “I just heard about this place, and I don’t know much about it.”

The reason why he showed up in the way of helping Princess Xuandie was actually to let everyone help him find the entrance of Mirror Lake.

In this way, he would also have a chance to secretly sneak in. After all, no matter what, if the origin of the world fell into his hands, it would definitely cause great disturbances when he returned to the Upper Realm.

Although Gu Changge was not afraid of trouble, he still intended to seek the origin of the world secretly, adhering to the principle of being able to do less.

For those who were already standing in the Realm of Enlightenment, the temptation of the origin of the world was self-evident, it was enough to make them go crazy and fight for their lives.

“In that case, why don’t Young Lord Changge and I strike together to break open this place and see if we can find the entrance to that Mirror Lake?”

This old Emperor of the Great Yu Immortal Dynasty smiled, his gaze moved slightly, and he opened his mouth to ask.

While speaking, Princess Yu Feiya and others who were following behind the old Emperor of the Great Yu Immortal Dynasty alighted from the ancient warship.

Yu Feiya gave a slight salute to Gu Changge as a greeting. Although she and Gu Changge were considered acquainted, it was still not easy to go forward to say hello in this situation.

In fact, Yu Feiya also had a lot of doubt in her heart and wanted to ask Gu Changge if he knew the whereabouts of Tuoba Xiaoyao. After hearing the news of Tuoba Xiaoyao’s death, she sent people to investigate, but there was no clue.

Although she didn’t know why she had a weird intuition in her heart, she felt that Gu Changge might know about it.

“I won’t participate in this matter, I just came to join in the fun.” Gu Changge waved his hand and smiled faintly as he rejected the request of the old Emperor of the Great Yu Immortal Dynasty.

Hearing this, although the Enlightened beings of other forces and sects looked disappointed on the surface, they were relieved in their hearts. They were actually very worried that Gu Changge would meddle.

With his strength and background, no one here really dared to provoke him. When the time comes, if they really discovered the origin of the world, they might not be able to bear the temptation in their hearts and do something about it.

In this way, Gu Changge would inevitably be offended.

“With the strength of Young Master Changge, it is really a pity...” The old Emperor of the Great Yu Immortal Dynasty shook his head regretfully, but he was actually relieved like everyone else.

Gu Changge smiled slightly and didn’t say much. Alpha stood beside him, like a terrifying mountain on the periphery, not choosing to enter the ruins.

The Ancient Xuan ruins were huge, covering tens of thousands of miles. In addition to many broken Mountains, there were some collapsed structures, where the former palaces and many mural columns could be seen.

With the arrival of the so-called extraterrestrial demons here, the powerful sects of many forces who rushed here before did not dare to move around and did not dare to send their disciples to search for the whereabouts of Mirror Lake.

At the outermost periphery of the Ancient Xuan ruins, almost everyone from the Jianxuan world had gathered here.

Yi Jianxian, Snow Sword Immortal, and many other Sword Immortals also stood there silently, looking at the many powerhouses from the Upper Realm not far away, using various secret methods, and exploring the ominousness of this place.

“If they are the first to find the location of the Mirror Lake, the consequences will be unimaginable,” Yi Jianxian said softly, with worried eyes.

Snow Sword Immortal on the side looked at Gu Changge who was talking with many Enlightened beings from the Upper Realm not far away, his mood was not peaceful.

“Do you think that if Mr. Gu speaks out to stop all this, how likely will he succeed?” She asked Yi Jianxian.

Yi Jianxian also didn’t expect her to suddenly say that and was a little stunned for a while.

“Although Mr. Gu has no malice towards our world, how could he take action to save our world?”

Afterward, he shook his head, the possibility of this happening was basically zero.

Xue Jianxian also gave a wry smile, feeling that she was out of line, why should they be worthy of Gu Changge’s saving them like this?

Before that, they didn’t tell Gu Changge about Mirror Lake. And just when the people around the Ancient Xuan ruins began to explore this place, in the depths shrouded in thick silky mist.

Lin En was glowing all over, even his hair was golden, like the son of a god, standing solemnly in front of a collapsed ancient temple, with a shining key that floated up and down in his hand.

He could clearly feel that there was ancient sword intent intertwined here, and judging from his perception, there was definitely more than one sword intent. Perhaps many divine swords from the Ancient Xuan Dynasty were enshrined in this ancient temple, and the aura of those divine swords had been left over time.

The key given to him by the white-robed old man in the Boundless Immortal Valley, also exuded a misty brilliance after arriving here. It was clear that deep within this crumbling ancient temple, something was attracting it.

Lin En felt that it was the sword city buried in Mirror Lake, and there was definitely a hint of heaven and earth there.

“Besides the Ancient Xuan ruins, too many powerhouses have gathered, even the most powerful men among the extraterrestrial demons have descended, so I have to be careful.”

Thinking of this, Lin En took out the key, his heart gradually calmed down, and he began to walk toward the collapsed ancient temple ahead.

Buzz!!

Soon, bursts of rippling brilliance emanated from the front, as if there was an invisible portal in the void.

“There really is a hidden space here...” Lin En walked in, looking a little surprised, seeing the scene in the ancient temple.

There was a small world with vast forests, tall mountains, a vast sky, and a sea of clouds. And now he was standing at the entrance, surrounded by many mountains that were too high to see the top.

Going down the mountain, he could see a series of steps which were extremely sacred, leading to the bottom, as if a pilgrimage.

In the deepest part of this space, Lin En saw a sky-reaching tower which was golden, magnificent, and so high that he could not see the bottom as it stood tall among the clouds.

In addition, there were many birds and beasts in this space which looked extremely holy. Even their feathers were shining brightly like the divine beasts. They would not be surprised meeting people.

“Could it be that Mirror Lake is right next to the tower that reaches the sky...”

Lin En looked at the scene in the distance, and his figure moved along the mountain where he was, walking toward the stairs below before disappearing into the deep forest.

Near the tower, there was a silvery light. As if there was an ancient and flaming lake, reflecting the brilliance of the sky, which was extremely gorgeous.

Lin En felt that the world environment here and the world environment outside were two apart. There was a strong divine and holy atmosphere flowing, which could make people feel at ease.

One must know that when he was in the outside world, there was an astonishing ominous atmosphere, and even weird things happened. However, in this space, there was a completely different scene of tranquility, which was really unimaginable.

Lin En didn't have time to think about it now as he seized the time to go deep, planning to get to that high tower in the first place. And when Lin En stepped into this place, a huge change occurred in the Ancient Xuan ruins.

The terrifying whistling sound came from nowhere and accompanied by the howling all over the sky, many ghosts emerged, walking out from every corner of the ruins.

At the same time, the black mist surged crazily, overwhelming the area where cultivators from all walks of life gathered.

"What happened, why is this place suddenly like this..."

"Why are there so many ghosts?"

This sudden scene caused all the people in Jianxuan Great World to change their faces drastically. They went pale and terrified. They were very frightened and disturbed by all this, and retreated towards the edge area.

But the speed of this black mist was really too fast, and there was even a strange aura intertwined in it, which could cover the souls of cultivators, making it difficult for them to perceive the surroundings as their eyes were plunged into darkness.

The moment many people were swept in by the black mist, they screamed, and then the sound stopped abruptly. Immediately afterward, there was a sound of bones breaking and chewing, as if some terrifying beast was hiding in it, waiting for an opportunity to devour someone.

"What is in this black mist?"

Yi Jianxian and the others unleashed their divine swords, slashed out the towering sword energy. They tried to separate the black mist, but the result that followed shocked them and made them a little unbelievable.

The weird thing hidden in the black mist could even swallow their sword energy, like a mud cow entering the sea, it suddenly disappeared without a trace.

"Even the ice seal can't stop it?" On the other side, Snow Sword Immortal's brows frowned. She was also trying to create a cloud of ice and snow with her bare hands.

It contained absolute freezing laws, but when it touched this black mist, it also collapsed and broke with a click, turning into dusty ashes all over the sky.

Rumble!!

At the same time, the entire Ancient Xuan ruins seemed to come alive suddenly. There were vibrations everywhere, rocks broke, and ghosts emerged from the collapsed palaces.

The strange aura continued to permeate, making everyone terrified and frightened, and their skin became cold.

“Has a corpse come back to life?” Ah Qing and Princess Xuandie turned pale, and couldn’t help but retreat, feeling that everything in front of them was too illusory and unreal.

Just in front of them, several earthen tombs cracked open, filled with thick black mist, and then continuously cracked towards both sides.

This was a very strange scene. The old graves were cracking open, and rotten bones stuck out as they slowly climbed up. Such a scene was really unbelievable and terrifying.

Even the rotten and disfigured bone dregs were forming a skeleton as they were rapidly growing bloody flesh. Then the armor of the heavenly soldiers that had already turned into dust in the tomb also changed, clanging, before turning into battle clothes that covered their bodies.

Those heavenly soldiers were pale and expressionless. Their armor covered their bodies while they walked out step by step with weapons in hand, arranged in a square formation, and pushed forward.

“Resurrection of the dead? What a heaven-defying method is this?” This made everyone who witnessed this scene almost unbelievable. Their scalps exploded, and the pores were filled with cold air.

They couldn’t figure it out. How could someone really live forever? Or were these heavenly soldiers never dead and had always been sleeping in the Ancient Xuan ruins?

Could it be that they were the heavenly soldiers and generals of the Ancient Xuan Dynasty?

“There is indeed a strange place here. These corpses are in a half-dead state, and it seems that they still have some sanity.”

An Enlightened being who came here from the Upper Realm narrowed his eyes slightly, and strands of golden light filled the air as he provided an explanation. The other Enlightened beings also nodded. They didn’t do anything, but still stood at the outermost edge of the ruins. They didn’t intend to act rashly.

This place was extremely weird and even they were not very sure.

“These celestial soldiers should have been cursed extremely horribly. They cannot leave this place for life and death. They can only guard here in the state of the living dead.”

“The old man only saw it in some ruins in the Upper Realm, and the number of living dead at that time was far less than here,” the old Emperor of the Great Yu Immortal Dynasty said with a slightly gloomy face and tried to slap it away with a palm.

Suddenly thunder roared, and world-shaking power emerged. The vast force crushed and fell, destroying the sky and destroying the earth, directly crushing the heavenly soldiers in front into powder.

But at the next moment, those soldiers who had been turned into dust began to reorganize because of strange power and returned to their original appearance. Such a scene not only changed the faces of several Enlightened beings but also made Yi Jianxian and others who were not far away terrified and had cold hands and feet.

They never thought that there was such a terrible crisis in these Ancient Xuan ruins.

“It seems that ordinary methods won’t work, and they can’t get through. Someone must have entered the depths of the ruins in advance and touched something.”

There was a strange look in Gu Changge’s eyes, and then he calmly shook his head as if guessing. He felt that Lin En, the Son of Luck in this world, had found the entrance to Mirror Lake, which led to great changes in the outside world.

Contacting the memory of the Will of Heaven that had been devoured before, Gu Changge understood that it was because of the taboo of the Ancient Xuan Dynasty that he touched, and tried to build the ancestral temple and communicate with the ancient heroic souls, which were destroyed by the awakened part of the Will of Heaven.

All the living dead here, as well as many strange auras, could be said to be the handwriting of the Will of Heaven. But these things had nothing to do with him.

“Now that the entrance to Mirror Lake has been opened, things will be much easier...” Gu Changge didn’t intend to leave, he was still waiting as the time had not yet arrived.

“Don’t get caught up first.”

Hearing Gu Changge’s words, the old Emperor of the Great Yu Immortal Dynasty and other Enlightened beings trembled in their hearts, a little worried that they would be the first to get ahead and take away their fruits in advance.

At that moment, their eyes showed coldness, and they reached out with their big hands to cover the sky, and arrested several Sword Immortals, intending to let them go to explore the way first.

“If you don’t go in, then none of you will leave alive today.”

“All of you will be buried here.”

The incomparable indifference of their words, the unquestionable will, and the terrifying pressure caused everyone in the Jianxuan Great World to collapse and almost explode into blood mist.

Facing these so-called ants, they didn’t have any of the humble fear they had when they were in front of Gu Changge. Even Yi Jianxian, Snow Sword Immortal, and others were arrested and asked to explore the way ahead and venture deep into the black mist.

They had no choice, if they resisted, they would only be turned into a blood mist, and their bodies and spirits would be wiped out. At this time, they finally understood the gap between Gu Changge and the other powerhouses, and their hearts were even more bitter.

Gu Changge’s attitude was a million times better than this group of powerhouses. Maybe they were not as good as the real ants.

“If you want to live, don’t try to resist.” Gu Changge shook his head lightly with some pity and said to Yi Jianxian and the others.

The rest of the people in Jianxuan Great World were all trembling with fear, not daring to move, staying in a place like a group of prisoners.

Chapter 642: I killed him, The reappearance of the gray fog in the World

The black mist was as heavy as a lead cloud with wisps of it diffusing from the depths of the Ancient Xuan ruins, covering the place. A large number of undead heavenly soldiers rushed out from the graves, armed with various heavenly swords, spears, and other weapons as they attacked everyone who offended this place.

This was a terrifying scene, even a Sword Immortal was trembling with fear. They observed how these living dead quickly returned to their original appearance even after being blasted into powder.

With their strength, these living dead could not be destroyed at all. The only thing they could do now was to open up a path leading to the depths during the period when they were about to recover.

Chi, Chi, Chi...

Brilliant and astonishing sword lights intertwined like peerless heavenly swords condensing, crossing the sky before slashing toward the deepest part of this space.

One could faintly see a blurry phantom flashing there, and there was a shower of blood. It was mixed with gray hairs that arrived from an unknown place, looking ominous and weird.

The rest of the people leading the way ahead were equally timid and uneasy, holding the weapons in their hands tightly, proceeding cautiously.

Not only did they need to avoid the terrifying fog that was sweeping in, but they also had to beware of the weird monsters hidden in the darkness along with the army of many undead.

“It seems that the fluctuations from before originated from the deepest part of this place...” Yi Jianxian held a green longsword, and the glittering brilliance flowed on his sword, filled with the aura of the extreme as it fell forward, shaking away the thick black mist.

He was extremely powerful and as the patriarch of the Shu Sect, he was stronger than the rest. So he took the lead, opened the way first, and found out the danger ahead for everyone behind him.

Snow Sword Immortal followed closely behind, holding a crystal clear ice and snow sword tightly in her hand. The Ice and Snow domain descended around her, which had great resistance to the black mist.

Buzz!!

The shadow of the lingering sword made the sky collapse and the earth dead. The rest of the Sword Immortals also tried their best to survive. And several Enlightened beings from the Upper Realm were following behind them.

The godly aura beside them were as blazing and vast as the sea, surging out into a terrifying and majestic presence, suppressing everything here. Facing such an unfamiliar environment, they also seemed extremely cautious and did not dare to act rashly, so they let the people in front of them explore the way.

Just when many Sword Immortals were captured to explore the way, at the outermost periphery of the Ancient Xuan ruins, Gu Changge withdrew his gaze from the depths and whispered a word to Alpha who was behind him. With that Alpha's figure stepped into the void and disappeared in an instant without a trace.

"What did he arrange?" Not far away, Princess Yu Feiya, who had been paying attention to Gu Changge's actions, also had a slight change in expression.

She felt that Gu Changge seemed to be out of the world, but he also seemed to be in control of everything. This was a very contradictory feeling. She didn't believe that Gu Changge would come to this world for no reason, just to join in the fun and not participate in it.

Gu Changge definitely had some unknown secret.

"I wonder if Young Master Changge has seen Tuoba Xiaoyao when he was in this world?"

After thinking about it for a while, Yu Feiya frowned slightly with her beautiful black eyebrows. She moved her lotus steps lightly, bringing a gust of fragrant wind as she walked over, and couldn't help asking softly.

"Tuoba Xiaoyao?" Gu Changge raised his eyebrows lightly, his eyes fell on her face, then he smiled and said, "Of course, I have seen him, but he is dead now."

"What?" Great astonishment appeared on Yu Feiya's face, she didn't expect Gu Changge to speak about it so bluntly.

She originally thought that Gu Changge would say that he didn't know, or that he hadn't seen it before. But Gu Changge said directly that Tuoba Xiaoyao was dead, which really caught her off guard, and she didn't even think about it.

"Then... Young Master Changge, do you know where he died?" Yu Feiya felt that her mouth was a little dry, but she still couldn't help asking.

Gu Changge still had a slight smile on his face when he heard the words, he shook his head and said, "He died in the forbidden area of the Jianxuan World, Boundless Immortal Valley..."

"Boundless Immortal Valley?" Yu Feiya was in a daze for a moment, she had naturally heard of such a forbidden place.

In the Jianxuan Great World, it was known as a place from which no one returned. It was shrouded in fog all year round. Even if a Sword Immortal stepped into it, it would be a dead end.

Tuoba Xiaoyao actually died there?

"Young Master Changge, do you know how he died?" Yu Feiya suddenly looked sad, thinking of some past events with Tuoba Xiaoyao.

Gu Changge's expression still didn't change much, he just smiled casually and said, "Of course, I know that. After all, I killed him with my own hands. Why? Are you planning to avenge him?"

"What?" Hearing Gu Changge's understatement, Yu Feiya was stunned for a moment but didn't react.

After hearing Gu Changge's words clearly, she couldn't help being shocked. Her eyes widened in disbelief, and she took a few steps back, almost wondering if she heard it wrong.

"Master Changge, you... You didn't lie to me, did you?" There was a slight trembling and fear in her voice.

This was rarely seen in Yu Feiya who had always been dignified and elegant. No matter what she encountered before, she always dealt with it calmly and indifferently.

Gu Changge's face remained unchanged, he glanced at her inexplicably, and said, "Is he worthy enough for me to lie to you about such a trivial matter?"

"No... I don't dare..." Yu Feiya's complexion turned pale, and she clenched her plain hands tightly, but she was afraid of Gu Changge's strength and power, so she could only keep silent and dare not say more.

Even if her father was standing here now, he would not dare to do anything to Gu Changge, let alone her. She just knew that there seemed to be a grievance between Tuoba Xiaoyao and Gu Changge.

But she didn't know that it had reached the point where Gu Changge would kill him.

Bitterness and powerlessness appeared in Yu Feiya's heart. She should have figured out long ago why Gu Changge said those words in public in the Great Yu Immortal Palace.

He had wanted to attack Tuoba Xiaoyao for a long time, and now he came to this world of Jianxuan, which happened to be a once-in-a-lifetime opportunity. No one would care about Tuoba Xiaoyao disappearing here, and no one would pursue this matter.

Just like just now, Gu Changge even said in front of her that he killed Tuoba Xiaoyao with his own hands, but what could she do?

Revenge? That was just a fantasy. Such a carefree attitude was the so-called real Gu Changge, not his gentle and elegant appearance. *n0vELusb.c0m*

Ah Qing and Princess Xuandie in the distance had been paying attention to the situation when Yu Feiya stepped toward Gu Changge just now.

Originally, they thought Princess Yu Feiya was also Gu Changge's admirer. But they didn't expect her expression at this moment to become so pale, revealing anxiety and fear.

"It seems that Mr. Gu is not so gentle with all women..."

"Then why did he show up to save me? Could it be that I am special to him?"

The scene of Gu Changge appearing to rescue her earlier appeared in Princess Xuandie's mind, and a rosy look appeared on her face as she began to think wildly in her heart.

Although she also knew that it would be wrong to care about such things when the enemy was in front of her and disasters were about to strike. But she couldn't help thinking about it.

In the next few days, the black mist in the Ancient Xuan ruins was even more terrifying, sweeping in all directions like a big wave covering the sky and rolling over. Because of the terrifying battle fluctuations in the depths, a terrible earthquake occurred as the ground cracked, and the mountain gate collapsed.

In some places, even ancient altars were revealed, which were incomplete and carved with many formation patterns. There were scenes of the ancestors praying to the sky, surrounded by the bonfire as if they were offering sacrifices.

On some broken totems, one could even see a pair of indifferent and huge eyes floating above the sky, watching all the ancestors praying below. There were too many scenes like this, with a weird and cold feeling, without the slightest holiness.

Many cultivators of extremely old generations in the Jianxuan Great World were caught by the people from the Upper Realm and were asked to study and interpret the meaning of these stone inscriptions.

Some people who had studied the altars were arrested and tried to repair these altars.

In the eyes of many powerhouses in the Upper Realm, these altars contained spatial fluctuations that had not dissipated. It could be seen that in an extremely distant time, there might have been a spatial portal here that connected to a certain space or world.

Perhaps the Mirror Lake, which had never been seen, had something to do with these altars.

“Looks like you finally found the entrance?” Gu Changge had been standing on the outermost ancient warship, looking at the depths of the ruins below where the black mist was billowing.

Although it was difficult for him to see the deepest scene clearly, he could feel the fluctuations in it. Judging from the magnitude of the fluctuation, it was easy to understand where the people who broke into it had gone.

Of course, the most important thing was that Gu Changge ordered Alpha to follow them in secret. Alpha himself was conceived and born from within the deepest part of the Demon Burying Abyss, and the ominous and strange aura here would not affect him at all.

So the monstrous black mist that everyone feared, to Alpha, was like walking on flat ground.

“It’s about time...” Gu Changge’s eyes moved slightly, and the vast spiritual thought swept away, covering tens of thousands of miles in an instant.

Boom!!

At this moment, almost all the cultivators in the Ancient Xuan ruins felt that there was an inexplicable suppression from the sky and the earth, like an invisible big hand, slowly descending from a distant latitude.

“What is this? Could it be that some kind of weird change has taken place here?”

Everyone’s complexion changed drastically, and they couldn’t breathe. Then they saw in horror that the sky turned black all of a sudden.

A strange gray fog covered the sky and the sun, sweeping from nowhere. It was even weirder than the black mist that permeated the Ancient Xuan ruins, and it contained a monstrous mechanism that could swallow everything in the world.

This gray mist arrived very quickly, it was extremely turbulent. One couldn't see the edge, and it submerged the entire Ancient Xuan ruins in one fell swoop. Even the many ancient warships that hovered around were instantly engulfed in it without a trace.

It was an eerie, chilling sight.

At this moment, whether it was the cultivators of the Jianxuan Great World or the army of powerhouses from various forces of the Upper Realm, they were all terrified to the extreme, feeling that their cultivation base, divine power, and soul were all being eliminated and were about to be swallowed up.

This gray fog was representative of ominous, strange, cold, and chaotic. Being in it would not only cause mental collapse but also make people's bodies dissipate, along with body and spirit.

Chapter 643: It's about time, This World is afraid

Many people screamed out and found that their physical bodies were disappearing rapidly. Their whole body became transparent, even the bones, flesh, and blood became crystal clear before turning into light rain and dissipating.

Such a terrifying scene was as if their skulls were being sliced open and a basin of cold water was poured down, making them tremble and fearful.

"Why does this gray fog look familiar?" Yu Feiya's face also changed drastically. She quickly flew back with the group of the Great Yu Immortal Dynasty and the others behind her, intending to return to the ancient warship.

She always felt that this terrifying and strange gray fog seemed to have appeared before. Although she hadn't seen it with her own eyes, she had heard it from various sources.

"Back then, when the Ji family rescued their Ancestors and headed to Mount Kun, it seemed that they encountered such a terrible fog, which almost killed the whole family of the Hidden An Clan... Even Enlightened beings will die in it, and they cannot escape death."

Yu Feiya's face was full of unconcealable fear. How could this kind of weird gray fog that only appeared in Mount Kun's forbidden area appear here?

She didn't have time to think too much, so she quickly ordered people to open the defensive formation on the ancient warship to avoid being swallowed by the gray fog.

Suddenly, a bright light flashed in her mind, which shocked Yu Feiya's whole body, and her expression was even more frightened and unbelievable. She turned her head with difficulty and looked in the direction where Gu Changge was before, but there was no one there, it seemed that Gu Changge had disappeared when the gray fog swept over.

"At that time, Gu Changge was also on his way to Mount Kun, and happened to be among the people who encountered that strange fog... This should... should be just a coincidence."

For some reason, Yu Feiya thought of an extremely terrifying guess, and couldn't help shivering, not daring to think about it any further. The entire Ancient Xuan ruins became frightened and uneasy because of the sudden terrifying fog.

Almost everyone was trying to find a way to retreat toward the outermost part. Compared with the previous black fog, this gray fog was obviously more terrifying.

"What happened outside? What's going on? This unconscious undead army is suddenly frightened?"

In the depths of the Ancient Xuan ruins, there were corpses and dilapidated ancient temples all over the place, collapsed into one piece, and their original appearance could not be discerned.

A Sword Immortal who was exploring the way turned his head back, feeling a little uneasy that the army that was chasing them was retreating quickly like a tide as if they had sensed something more terrifying.

"No matter what, this place is where the fluctuations from before originated, and the entrance to Mirror Lake must be ahead." Yi Jianxian said and his eyes fell on the front of this area.

There was a collapsed ruin, and an ancient temple with a faint light was hidden in it. There were still many vines growing around, some green and vibrant. Such a scene was really out of tune with the environment here.

"This kind of aura seems to be wrong. Could it be that something happened to the outside world? This feeling makes me a little uneasy. When I was in Mount Kun last time, I felt this kind of aura from afar. How could it appear here again?"

An Enlightened being frowned and uttered. There seemed to be a majestic and terrifying aura suppressing the outside world. Even an Enlightened being was frightened and couldn't calm down.
n0vElU**S**b.c0m

The last time the Hidden Ji family invaded Mount Kun to try to rescue the Ancestor, he was also among them, but he was not with the Ji family.

"I can't control the things outside too much... There are indeed spatial fluctuations there, and there are other worlds within it."

The old Emperor of the Great Yu Immortal Dynasty shook his head affirmatively. His eyes were like swords in the sky as he fell, trembling from the void, clanging.

"It is indeed a hidden space fluctuation."

The rest of the Enlightened beings were also looking at it. They couldn't help but show joy. It took no effort to get it, and they finally found it where Mirror Lake was.

"I don't know if there is any danger in it, let them explore the way first." The Enlightened being from Divine Spirit Mountain looked indifferently as he swept over Snow Sword Immortal and others, intending to let them enter the portal first.

Everyone agreed with his words as they all looked at Yi Jianxian and the others indifferently, not giving them a chance to choose.

“After we agree to open the way, let us leave...” Hearing this, a Sword Immortal’s face went ugly. His heart was full of humiliation and unwillingness.

In this world, he was the strongest standing at the pinnacle, but now he was being commanded like a dog. The other party had even gone back on their words, not fulfilling what they promised at the time.

“You are courting death.” However, as soon as the Sword Immortal finished speaking, the eyes of an Enlightened being from the Heavenly Emperor Mountain suddenly fell, as if a terrifying mountain of hundreds of millions had descended, covering and crushing this person.

In an instant, there was a blood mist, and accompanied by a scream, the sky exploded with bones. The Sword Immortal was directly destroyed by body and spirit.

A Sword Immortal, the strongest standing in this world, just died like this. This scene caused Yi Jianxian and the others to change their expressions suddenly. Many people were angry and wanted to fight desperately, but they were firmly held back by the people around them, not daring to act rashly.

Facing the Enlightened beings, which was what they called the Transcendent level, they had no chance to contend at all, and they were just like ants shaking a big tree.

“Let’s go.” Yi Jianxian laughed bitterly in his heart. He had no choice, and took the lead directly into the portal.

Then Snow Sword Immortal and others also followed behind silently. The old Emperor of the Great Yu Immortal Dynasty and others looked at each other as they felt relieved that they didn’t feel any fluctuations coming from the opposite side.

After passing through that portal, the scene there suddenly opened up their eyes, and they were even a little shocked.

“This is the aura of Heaven’s transformation... The Will of Heaven is definitely hiding here.” An Enlightened being shouted with surprise, trembling slightly.

At their level, they would naturally be able to clearly feel the holy aura permeating this place, which was left after the transformation of the Will of Heaven. As for why the Will of Heaven transformed, they were not interested. It was enough to have what they needed here.

“Is this the legendary Divine Realm, so sacred?”

“That high tower should be the Tower of the Heaven in the classics. It was once specially built by the Ancient Xuan Dynasty to worship the Heavens. It was said that praying on the top of the tower could make the Heavens hear their voice... For this reason, the Ancient Xuan dynasty became the most powerful dynasty in the history of the Jianxuan world...” Yi Jianxian’s voice was also full of shock, and he saw the silver tower in the distance at the first sight.

They were now standing on the top of a mountain, surrounded by misty clouds and mists, as if they were in a Divine Realm. This world was so peaceful, without the slightest aura of killing, everything was so reassuring as if he could give up all hatred.

“There’s a silver lake there, no, someone has already made it there first...”

The eyesight of the old Emperor of the Great Yu Immortal Dynasty was astonishing. Even though the cultivation was greatly suppressed here, he still saw the silver lake next to the Tower of Heavens at a glance.

Incomparably blazing without the border in sight, there was a nihility-like mist floating and surging on the surface, creating a silver mirror.

“The whereabouts of the world itself lies within.” The other Enlightened being was also greedy at the moment. He moved quickly, turning into a ray of light, and walked towards the silver lake.

However, before he took a few steps, a silver thunder suddenly descended from the sky and the earth like a mighty silver dragon. It directly hit him on the head, trying to knock him down from the sky.

The sound was too loud, continuous, and endless as if he had offended the Heavens.

The complexions of Yi Jianxian and the others changed. They remembered a rumor that one must be pious in the Ancient Xuan temple, otherwise it would trigger thunder and encounter the wrath of the sky.

Flying over here was even more disrespectful to the Will of Heaven!

“This is God’s punishment...” They were terrified and trembling all over. Under this kind of thunder, they felt like ants.

“A mere sky thunder, what can it do? I have been Enlightened for 30 million years, how can I be afraid of it?”

However, facing these silver thunders, the Enlightened being who stepped forward was extremely disdainful. He raised his hand towards the sky, smashing these thunders directly.

He could feel the aura of these thunders, but it was only in the Quasi-Emperor Realm, and it was far from Enlightened. Seeing this, the rest of the Enlightened beings did not hesitate, they stepped forward and turned into divine lights one after another, facing the thunder, descending into the Mirror Lake.

Snow Sword Immortal and the others didn’t dare to fly over directly like them, so they could only walk over obediently as if on a pilgrimage. Many people planned to take the opportunity to leave, but they suddenly discovered that the portal to leave this space seemed to be destroyed from the outside.

There was brilliance pouring down there, smashing everything, turning the void into dust.

“What happened, the portal was destroyed?” Several Sword Immortals who tried to leave here turned pale and despaired.

Snow Sword Immortal and the others also stopped their steps down the mountain, frowned, and looked back, wondering who would destroy the entrance here at this time.

Were they going to trap everyone here?

“Why do I feel that the world is a little afraid?” Snow Sword Immortal frowned and raised her head, looking at the vast thunder sea in front of her. And just when they were puzzled, two figures suddenly walked out of the portal that had collapsed into nothingness behind them.

The leader was dressed in white, his hair twined with divine splendor. He was otherworldly, handsome, and elegant as if he was in the world of exiled immortals.

Behind him, followed by a tall figure as burly as a mountain, dressed in the god's clothes of iron.

"Gu... Young Master Gu?" Seeing the person, Snow Sword Immortal, Yi Jianxian, and others all widened their eyes in an instant, some couldn't believe it, and wondered if they saw it wrong.

Didn't Gu Changge say that he planned to return to the Upper Realm and that he came here just to join in the fun? How did he show up here and destroy the exit portal?

"Oh, it seems that you are still alive." Gu Changge seemed a little surprised that they were still alive, and smiled slightly.

However, this smile made Snow Sword Immortal and the others feel chills all over their bodies. They couldn't help trembling, feeling that the Gu Changge in front of them was completely different from the person they had known before. This was a fear that came from the deepest part of the soul.

"Young master Gu, you..." Snow Sword Immortal forced herself to calm down, wanting to say hello.

However, Gu Changge just smiled slightly and didn't intend to continue talking to them. He took Alpha a step forward and disappeared at the foot of the mountain. His speed was very fast, he disappeared out of thin air almost instantly and then appeared thousands of miles away.

But what made Snow Sword Immortal and others even more horrified was that there was no thunder here to punish Gu Changge.

"This world... Is afraid of him?" Yi Jianxian's mouth was dry, and his scalp felt a little numb.

Chapter 644: Are you worthy? The so-called Heavenly Dao Sword

"The world... is afraid of him." Yi Jianxian's voice trembled, and he thought of something in an instant.

Gu Changge was definitely not as gentle and jade-like as he seemed on the surface, and he was definitely not a kind person.

"Perhaps this is his real purpose. He destroyed the entrance, is he planning to destroy everyone here?" Snow Sword Immortal couldn't help but shudder slightly. The bright eyes under the mask couldn't hide the surprise.

She had explored the souls of those powerhouses from the Upper Realm and understood how terrifying Gu Changge's background there. It could also be seen from the fearful attitude of those Enlightened beings before.

Even if these Enlightened beings perished here, it probably would not have had any impact on Gu Changge. Since he dared to destroy the entrance and show up here, he must be fully prepared.

"Could it be that those strange fluctuations in the outside world were also caused by him?" Snow Sword Immortal thought of another possibility, her heart trembled, and she suddenly felt that Gu Changge was far more terrifying than she knew. She couldn't figure out his purpose and thoughts at all.

Under the sky, Gu Changge walked away, ignoring the astonished and fearful expressions of Yi Jianxian and others. He himself was not interested in this group of Sword Immortals, even if he killed them and swallowed their origin, it would just be a waste of time.

From the very beginning, he was using this group of Sword Immortals to find this place for him. Now their final value was gone and their life or death had nothing to do with Gu Changge.

Rumble!!

In front, there was a majestic and heavy aura surging, enough to make any creature standing under the sky tremble with fear. It was the wrath of Heaven, containing the aura and pressure of destroying the world.

In this small world, there was an endless silvery radiance pervading the sky. It was a vast sea of thunder, falling from the depths of the sky and falling toward the bottom.

A vast expanse spread, without seeing the edge at all, as if a thunder pool was hidden at the end of the world.

Boom!!!

Thunder dragons as huge as mountains, galloped past them, baring their teeth and claws, incomparably ferocious, containing a terrifying and destructive aura.

The old Emperor of the Great Yu Immortal Dynasty and others were splashed with countless sparks from their bodies, and they were all moving quickly, wanting to cross this sky and land on the bank of Mirror Lake.

Although these thunders couldn't cause substantial damage to them, they felt that there seemed to be inexplicable laws spreading in this sky. Obviously, the tower that reached the sky was not far away from them, it was as if they could reach it in one step. But no matter how far they went, the distance between the two had not changed in the slightest, and it would always be the same distance.

They knew that this was a Supreme Space Law, and if they want to step over, they must break the Laws of this place.

"It seems that the Laws of Heaven and Earth here are not simple. What remains after the transformation of Heaven and Earth can actually compete with us."

An Enlightened being's eyes were indifferent, and his whole body was surrounded by red clouds with hundreds of millions of strands. He raised his palm and slapped it down, steaming all the thunder.

He tried to break the Laws of this place, but the next moment he discovered that the void that was originally broken was actually being reshaped, and soon returned to its original state.

One must know that he was an Enlightened being, his cultivation base was unrivaled in the world and if he was in the Upper Realm, it was extremely easy to destroy the star field by raising his palm. But it was even difficult to break the space barrier in this place, and it could not completely break through the Laws of Heaven and Earth here.

This made his face a little ugly, he couldn't believe it, proceeding to slap it again. The unrivaled aura was suppressed, even billions of stars gathered, and the divine aura boiled like the sea, piercing through the void. But this scene didn't last long. The broken void in front of him was reshaped again, and it was stronger than before, with a faint aura of immortality.

"Don't make any more moves. This place is indeed weird. It is worthy of being a place where Heaven transformed. Even the space is contaminated by its aura, and it can be continuously regenerated and reshaped..."

The old Emperor of the Great Yu Immortal Dynasty shook his head, stopped this person with a voice. His expression gradually became dignified, not as contemptuous as it was at the beginning.

"That is..." At this moment, an Enlightened being suddenly noticed the scene behind him, and his eyes widened in surprise. When he looked carefully, he found that the figure walking was so familiar that he couldn't believe it.

"Gu Changge! Why is he here too?"

Another Enlightened being was also surprised, his eyes were shining brightly, staring at the scene behind.

The sky thunder there seemed to have been emptied, leaving only a vacuum-like area, and Gu Changge took his Quasi-Emperor subordinate and wandered in it.

"He really has other intentions, and he definitely didn't come here to join in the fun. Be careful with him."

The eyes of the old Emperor of the Great Yu Immortal Dynasty flickered, all kinds of thoughts formed in his mind as he became extremely cautious and vigilant.

The faces of the rest of the Enlightened beings also turned serious, but they hadn't discovered that the entrance here had been destroyed. They all speculated that Gu Changge's purpose of coming here was the same as theirs, that he came for the origin of the world.

"The thunder here has avoided him..." The old Emperor of the Great Yu Immortal Dynasty noticed this scene, and his heart became more vigilant and uneasy.

Judging from Gu Changge's many behavioral styles, he was definitely not a kind person. He did not believe that if a few people entered a conflict with him, Gu Changge would not kill him.

One must know that Gu Changge had cultivated all the way to this level, and many Enlightened beings had died tragically at his hands.

"The situation is not good."

Eyes of the old Emperor of the Great Yu Immortal Dynasty flickered, and he began to think about the way out. Perhaps the only way was to unite everyone here to fight against Gu Changge.

If he just gave up the origin of the world that might be hidden in this place, he would really not be reconciled. At that moment, his spiritual thoughts surged, and he sent a voice transmission to inform the other Enlightened beings here, telling them to beware of Gu Changge.

“He wouldn’t really have the guts to attack all of us?” Hearing this, several Enlightened beings were shocked, and some couldn’t believe it.

After all, they represented the Supreme sects and Immortal forces. If Gu Changge attacked them easily, it would be tantamount to declaring war on the forces behind them.

Although they were not Gu Changge’s opponents, it was definitely more than enough to escape, unless Gu Changge was sure to bury all of them here.

“Be careful, Gu Changge has come all the way to the present, and he is by no means a soft-hearted person. The forces that dare to block his footsteps have been wiped out.”

An Enlightened being from the Heavenly Emperor Mountain whispered, having the same thoughts as the old Emperor of the Great Yu Immortal Dynasty.

“Are you seniors waiting for me here?”

Just when many Enlightened beings had different moods, there was a chuckle sound behind them as Gu Changge quickly approached and appeared behind them.

When everyone heard this voice, their pupils couldn’t help shrinking. They felt a little horrified. With their strength, they couldn’t see how Gu Changge was advancing step by step. The Laws of Heaven and Earth here had no effect on him?

“Why did Young Master Changge suddenly come here?” An Enlightened being asked with a slightly unnatural expression.

He stood very close to Gu Changge, for some reason he always felt a chill down his back, and his hands and feet were slightly cold.

“I heard that this place may contain news about the origin of the world, so I came to take a look. I think your purpose should be the same as mine, right?” Gu Changge smiled faintly, with a slightly casual expression on his face.

“I didn’t expect Young Master Changge to be interested in this thing.” The Enlightened being from the Divine Spirit Mountain gave a dry laugh to conceal the vigilance and anxiety in his heart.

The rest of the people were also silent. They didn’t expect that Gu Changge didn’t even hide his purpose, and directly disclose that he was here for the origin of the world.

“This place is a small world that was born and conceived after the Heavenly Dao of this world transformed. It is indeed possible to hide the whereabouts of the origin of the world...” The old Emperor of the Great Yu Immortal Dynasty shook his head softly, as if Gu Changge purpose was being ignored.

“In that case, when the time comes to find the origin of the world, how about we share it equally? I wonder what young master Changge thinks about this?”

After hearing the words, the several Enlightened beings were all moved in their hearts, and thought of a solution. Since Gu Changge planned to intervene, they could only give up part of the origin of the world, and everyone would share it equally.

“Equal split?” Gu Changge seemed a little surprised when he heard the words, a smile appeared on his handsome face, he shook his head and said, “Do you have any misunderstanding about your own strength?”

“What?” Hearing this, the Enlightened being who made this suggestion just now had a frozen expression on his face, with a slightly ugly look on his face. He didn’t expect Gu Changge to humiliate him so straightforwardly.

The brows of the other Enlightened beings also frowned suddenly, and the vigilance in their hearts was extremely intense.

“Equal share with me, do you deserve it too?” Gu Changge still smiled lightly.

“What does Young Master Changge mean by these words? Are you planning to monopolize the origin of this world?” At this time, the complexions of many Enlightened beings also turned cold.

“It seems that you are not stupid,” Gu Changge said casually, his eyes slowly swept across the Enlightened beings in front of him.

Except for the old Emperor of the Great Yu Immortal Dynasty who was stronger, the rest of them were at most in the early stages of Enlightenment. For him, it was nothing to worry about.

“He has murderous intentions, we can’t just sit by and wait to die.”

The face of the old Emperor of the Great Yu Immortal Dynasty changed drastically, and he immediately sensed that something was wrong, shouted angrily and attacked Gu Changge.

Wearing a purple gold crown on his head, he was mighty and domineering. He unleashed a purple gold sword, slicing out the sword light that filled the sky. The divine energy was like a chain, shattering the sea of thunder, clanging.

Boom!!

The rest of the people did not hesitate to display the level of terror at the Enlightened Realm. The endless rain of light poured down here, gorgeous and dazzling, as if the world had been turned upside down.

They didn’t dare to be careless at all, because the person in front of them was Gu Changge. The number of Enlightened beings who had died in his hands in the battle of the Eight Desolation and Ten Regions was quite a lot.

Now, Gu Changge’s strength was even more unfathomable and unimaginable.

“You really dare to attack me.” Gu Changge’s face was still calm, and there was a rich chaotic light of five colors permeating his body, intertwined with terrifying waves.

He raised his palm and unleashed the Immortal Slaying Gourd. A red light flashed across it as if an Immortal sword was unsheathed, piercing through everything as fast as a phantom.

With a puff, blood rushed up all over the sky, and a large head suddenly fell down. With widened eyes there was an expression of fear, despair, and disbelief.

“No, this is the gourd from back then, it can easily kill Enlightened beings.”

Some people were frightened and recognized this murderous weapon that shined in the battle of the Eight Desolations and Ten Regions and killed many Enlightened beings.

The rest of the people also retreated hastily, not daring to strike forward, knowing the horror of this gourd. The sword energy meted out of it could be said to be unstoppable, it could kill the soul in an instant.

After Gu Changge unleashed the Immortal Slaying Gourd, a black light appeared in his hand, and the Eight Desolation Demon Halberd swept across as all the laws and order in front of him exploded and shattered into powder.

“This is...”

The complexions of many Enlightened beings changed drastically again. Although they didn’t know this fierce weapon, they could feel the undulating aura of slaughtering the Heavens and tearing apart the ages from it.

They didn’t dare to have any extra thoughts, so they could only try their best to resist.

A fight between Enlightened beings, even the aftermath, would be an unimaginable catastrophe for any cultivators around. Fortunately, this place was only a small world with special rules, and there were no other living beings, otherwise, it would definitely be a terrible catastrophe.

Yi Jianxian, Snow Sword Immortal and others in the distance trembled with fear and trembling when they saw this scene. It was a feeling from the soul. Even if they were separated by a long distance, their bodies would collapse.

They really didn’t expect that Gu Changge really planned to destroy everyone here and kill this group of Enlightened beings.

And judging from the situation, Gu Changge had always been calm and unhurried, he didn’t seem to be exerting his full strength at all. The other people were working together to fight hard, and some people had even fallen.

“His strength is too terrifying...” A Sword Immortal’s voice trembled, his fear reached the extreme.

The Enlightened being who could kill them like ants couldn’t even hold a palm on Gu Changge?

This was unbelievable.

Boom!!

Soon, endless brilliance erupted here again, and the Eight Desolation Demon Halberd just swept across, splitting everything, unstoppable.

One after another, the big hands crossed the sky and the earth, and were cut off by the light of the halberd, and the terrifying momentum swept all directions. nOvElus&.Com

Someone was roaring, his whole body was burning, and the laws and order he displayed seemed to penetrate the entire sky. That was an incomparably powerful method that could cut the sky and shake the earth. Even his Dharma body was far beyond ten thousand feet.

They all tried their best to use the strongest means of this life, otherwise, they would definitely be killed by Gu Changge in a while.

The blood rain splashed, someone's body exploded, the head cracked, and the white bone residue mixed with blood stains splashed everywhere.

Just when the terrifying battle broke out here, in the silver lake beside the Tower of the Heavens, there was a huge vortex turning. The endless fog was swallowed into it, as if leading to another world.

The entire lake seemed to be boiling and began to tremble violently. The lake water rolled back and poured into the vortex continuously.

In just an instant, the water level here began to drop at a speed visible to the naked eye, revealing a corner of the dead city that was sleeping and buried at the bottom of the lake.

In the depths of this dead city's square, Lin En's face was slightly agitated, standing there, the key in his hand glowed intensely. The four corners of the square were four bronze pillars made of unknown materials.

There was a faint brilliance on it, and the white bones of an unknown age were bound with chains, and they worshiped at the altar in the center of the square.

"Heavenly Dao Sword is here..." Lin En's eyes fell on the blood-stained ancient sword in the center of the altar, and it was difficult to hide the excitement in his heart.

He walked slowly, and could feel the key in his hand echoing with the divine sword there.

Chapter 645: You are a hero, Wanting to destroy the Will of this world

This was an ancient city sleeping in the deepest part of the lake, extremely silent. The whole city seemed to be forged from bronze, condensed into one body, without any brilliance, nor any vitality.

It was quiet, forever silent in the depths of the lake, if not for it drying up today, it would never be revealed to the world. The entire ancient city was full of broken utensils and cracked steles suspended in the air.

Those inscriptions were filled with red and black intertwined rays of light as if formed after the thick blood had dried up.

These inscriptions were also engraved with many complicated and profound formation patterns, as well as some ancient characters, which seemed to contain some special meaning, which could not be interpreted by the world.

In addition to the ancient stele, there were too many Sword Casting Ponds, which were filled with dried molten iron, solidified into a ball, and many longswords that had not yet formed.

This place used to be called Sword City. It was a holy place in the eyes of countless cultivators and creatures in the Jianxuan Great World, and it had supreme significance.

Every divine sword that shocked the world came from this place, and it was refined by legendary swordsmiths after countless painstaking efforts.

Now in this city, apart from those broken ancient swords, there were many humanoid creatures that seemed to be frozen in time and space. One could no longer see their face and gender clearly. They could only be vaguely judged to be humanoid.

Perhaps tens of millions of years ago, they were also swordsmiths here, but an unknown catastrophe destroyed the city. Before everyone could escape, they were swept away by the supreme and unknown power, condensed into plaster. The secrets that accompanied this city were buried here forever.

Now, as Lin En set foot here again, the whole ancient city once again turned blue.

A long sigh sounded like it had come from an unknown place, filled with sadness as it reverberated here. Enough to affect the mood of the creatures who stepped into this place.

“Why was this ancient city buried in the first place? What happened?”

Lin En’s mood was also affected, but his cultivation base was strong, and his state of mind was even more unshakable, so he recovered quickly. He tried to use the key in his hand to open the seal on the altar and take out the bronze sword.

Although he had never seen the Heavenly Dao Sword before, Lin En was absolutely sure that this bronze sword was exactly what he was looking for. There was a vast aura of heaven surging above so that people who came here couldn’t help but worship.

“No... No... No...” And just as Lin En was trying to step forward, a misty and ancient voice sounded around him again.

Even the surrounding pillars were trembling, the withered figure bound on it, the direction of kneeling was changing. Blood and tears flowed out from the depths of the originally dry eye sockets, containing extreme sadness.

It seemed that they had done something wrong, so they knelt here after death, to atone for their original sins and pray for forgiveness.

Lin En was infected by this emotion, the hand that was about to open the seal trembled uncontrollably for a while. It was difficult to continue to let it go.

“What exactly is going on?” Lin En looked shocked, and couldn’t believe it all. Then he bit the tip of his tongue and spat out a mouthful of blood.

In this way, he felt that his mind became clearer, and it was no longer as vague as before. Then he didn’t hesitate any more and put the key in his hand on the groove before him.

Suddenly, Lin En felt pain in his palm, as if a hot flame was piercing his palm instantly, burning the flesh and bones. With a muffled snort, he hurriedly backed away, his eyes widened, and only then did he realize that the key was actually melting.

And his blood, with a hint of gold, was gathering drop by drop, falling into the groove above the altar.

“What is that? Why is there an ominous feeling?”

Lin En’s complexion changed drastically, and he felt that his vitality was draining rapidly. It flowed out from the cracked palm and was about to penetrate into the altar in front of him and become its nutrient.

He couldn’t believe it, it happened so fast that he couldn’t even react. And the Heavenly Dao Sword that he had always regarded as saving the Jianxuan Great World, at this moment, fine cracks appeared on it, and then turned into light rain before it began to collapse and dissipate!

“How is this possible! What happened?” Lin En couldn’t believe what he saw.

However, it was too late for him to react. As the bronze divine sword collapsed and dissipated, the altar in front suddenly collapsed. All the surrounding bronze pillars were trembling and collapsing as the chains were breaking.

A terrifying rift valley spread from this square, extending into the invisible darkness. There was a monstrous aura rushing out of it, accompanied by a terrifying evil spirit as if it could swallow the world and wipe out all the darkness.

The entire Sword City sleeping in the depths of Mirror Lake began to collapse. The originally solid and indestructible bronze pillars also collapsed one after another, turning into ashes and dissipating in the sky and the earth.

All the lake water in the Mirror Lake was swallowed by this crack and quickly disappeared. The entire sky seemed to be shattered, and the silver sky-reaching tower standing on the side suddenly fell into the great rift valley with the sound of rumbling.

Not far away, among the fluctuations that had gradually subsided, there was still the old Emperor of the Great Yu Immortal Dynasty who was resisting stubbornly. But he was dying, covered in blood, like a candle in the wind. He was coughing up blood continuously, there was not a single intact part of his body, some parts even had white bones visible.

Looking at this shocking scene, his complexion also changed drastically, a little unbelievable.

“This place is by no means as simple as a land abandoned by Heaven, this is the altar of sealing the city!”

He had a wide range of knowledge, he recognized the altar in the collapsed and shattered ruins, scattered in the void in pieces, shining with an ancient demon-destroying aura.

“What happened here before? Why is there a sealed altar? Was it used to seal the consciousness of Heaven?”

Even when it was a matter of life and death, the old Emperor of the Great Yu Immortal Dynasty felt that the water in the world of Jianxuan was far murkier than he had imagined.

“This is the Will of Heaven that you have been looking for.” Gu Changge chuckled, even though he had already killed several Enlightened beings, it did not affect him in the slightest.

He knew that the battle to destroy the Heavens took place here, and the Will of Heaven tried to sacrifice all living beings to achieve transcendence. But in the end, it failed and was sealed here, only a part of its consciousness escaped.

Lin En happened to be the descendant of the existence who sealed the Will of Heaven, his blood just happened to undo the seal here, which is why the incarnation of Heaven in Boundless Immortal Valley would attract him to this place.

“You knew this all along?”

The old Emperor of the Great Yu Immortal Dynasty was terrified, his whole body was icy cold, and he felt an invisible big hand strangling his throat as he could hardly breathe.

But it was too late for him to realize all this. Gu Changge raised his hand and slashed down with the halberd light, breaking the Law and Order, directly chopping him off.

At this moment, all the Enlightened beings who had rushed to this place were killed, and none escaped.

Yi Jianxian, Snow Sword Immortal, and others who had been watching the battle from a distance were also trembling and terrified to the extreme. They did not expect that this group of Enlightened beings would not be Gu Changge’s opponent, and they would be quickly killed here.

They had witnessed all of this with their own eyes, and Gu Changge would never let them live.

“What exactly is this?” Outside the collapsed Great Rift Valley, Lin En stared blankly at everything he had caused, still a little unresponsive.

He always felt that he had stepped into a situation and had done something that he regretted immensely.

“It’s all thanks to you, otherwise I wouldn’t be able to release this consciousness of the Heavenly Dao, and I wouldn’t be able to get the origin of the world.” Gu Changge’s figure appeared behind him, with a faint smile on his face.

“Thanks to me?” Lin En felt chills all over his body and looked back at Gu Changge in disbelief, his words trembling.

He didn’t know when Gu Changge had come here, but judging from the current situation, Gu Changge killed the rest of the people here.

“What a poor guy. Your ancestors finally sealed the Will of Heaven, but you released it so easily.” Gu Changge shook his head and chuckled. Although it was regrettable, there was still indifference in the depths of his eyes.

“My Ancestor?” Lin En was stunned and suddenly felt a strong sense of sadness coming from the surroundings. In the collapsed sword city, there were light spots all over the sky converging towards him, as if they were the Ancestors of ancient times and heroic spirits.

In just a moment, he understood the cause and effect, his face froze, and he murmured, “How is this possible...”

He was really used by the Will of Heaven, and he used his blood to break the seal of this place, making all the efforts of his Ancestors come to naught.

"I'm a sinner." Lin En laughed miserably, and knelt down on the ground, full of guilt and sorrow.

n0VElusb.c0m

"No, you are not a sinner, you are the hero who saved the Jianxuan world. If it wasn't for you, I wouldn't have found this guy's hiding place." Gu Changge patted him on the shoulder with a smile, and then took a step forward, already appearing above the great rift valley.

The terrifying wind was sweeping, and it contained a chain of destruction law that was difficult to describe clearly in words, enough to penetrate the flesh of any monk. But Gu Changge stood tall, his figure motionless like a prison, looking into the bottomless depths of darkness.

Puff!

All the cultivators in the thirteen states of the Jianxuan Great World were horrified, trembling non-stop, and their bodies went cold. They saw a crack in the depths of the world, like a cracked mirror.

It was like an egg with cracks emerging, it didn't break apart at this moment, straddled the sky, and then began to collapse!

The vast and boundless anger and killing intent was being vented there. It was cold and ruthless, almost destroying everything. The cultivators who saw this scene were all palpitating and shivering. What was that?

In the depths of the collapsed world, there was a glare. It was an eye pupil. That pupil was too scary, it seemed to be composed of broken universes and it was incomparably huge.

Deep and vast, dark and ruthless, it was black and red, densely packed as black blood was constantly oozing, making people feel creepy and cold from head to toe. And without the slightest emotion, indifference to the extreme!

At this moment, even their souls were frozen.

The same was true for some Quasi-Emperor existences who appeared from the Upper Realm. They didn't even dare to move, as if they were being targeted by indescribable existences. They were not even as good as ants... No, even worse than dust.

Outside the Ancient Xuan ruins, countless cultivators and creatures also saw this terrifying scene.

"Looks like it should be what we're looking for..." A Sword Immortal's voice trembled.

This was no longer just a location. They simply could not understand what it was. If they directly looked at it, their heads would even explode.

"Heaven is ruthless, and everything is a stray dog... It's not easy for you to be born with consciousness. If you hand over the origin of the world, I may spare your life."

Gu Changge glanced at the eye that emerged from the end of the world, but the figure did not move and still stood in front of the Great Rift Valley before he said calmly.

He knew that the pupil was just the manifestation and projection of the Will of Heaven. Its real eyes were actually hidden in this deep darkness. And as Gu Changge's words fell, there was a sudden riot under his feet as chaotic energy rushed out, trying to drown him.

The terrifying blood-red color arrived all at once, driving away the deep darkness, breaking through the thick black fog, and staring at Gu Changge firmly.

One eye slowly opened in the depths of the darkness, and the projection of the eye at the end of the world also looked in this direction.

Boom!!!

These two gazes seem to penetrate through the past, and the future, shattering everything. But obviously, its origin was even more terrifying, not only in the depths of heaven and earth but also in the depths of darkness.

No living beings or cultivators could describe all this, because, at the moment this light stared, it seemed that they had lost their souls and were frozen in the world. This was also the case with the Sword Immortal, their spirit disappeared, and time and space became absolutely still!

At this moment, only the Enlightened beings could break free from this bondage. The existence of other levels could only be imprisoned in place, waiting for catastrophe and death.

“Whoever is disrespectful will be punished!”

The cold and ruthless words, like the turning of the world-destroying millstone, contained destructive power as it slowly came out from the dark ground.

The entire Jianxuan world was trembling, countless cultivators were terrified, and their souls would fly out following these words only to be wiped out. Regarding this, Gu Changge smiled lightly and had no extra words.

Boom!!

At this moment, he suddenly stepped forward from the same spot. His robe unfolded, and his Dharma body was extremely terrifying. His huge body stood upright in the world, breaking through this world.

Immediately afterward, the sleeves shook slightly, and the chaotic aura shattered as if the order of billions of Heavens collapsed!

He stretched out a big hand as if he wanted to shatter the darkness!

That big hand covered the sky, crossed the boundless territory, covered the thirteen states, and hit the eyes, making them tremble.

Suddenly, there were billions of strands of chaotic light, as if they could tear apart the Heavens of all ages!

“This...”

Countless cultivators watched this scene as if they were facing a miracle, they knelt down on the ground and worshiped in that direction.

This was already a power beyond their imagination, and it was impossible to speculate at all.

Gu Changge made a move, intending to shatter the Will of Heaven and Earth in this world. At this moment, the mighty Emperor's might swept across the universe. He suppressed those terrifying eyes with his palm and pierced through the dark ground with a bang.

Chapter 646: A power comparable to a Remnant Immortal, Fearful to such an extent

This palm crossed countless mountains and rivers. It was as if a large part of the world had collapsed, and struck toward the blood-colored eye, making it tremble non-stop, with many terrifying blood-colored cracks appearing.

The aftermath rushed out, spreading and sweeping in all directions. The world barriers of the Jianxuan Great World began to shatter.

"It seems that it's because he just woke up. His strength is not as good as it was in its heyday. At best, it can only be compared to a Remnant Immortal. Even if I can't find the origin of the world, swallowing it will be of great benefit to my cultivation."

Gu Changge looked into the eyes transformed by the Will of Heaven and stepped forward. The void under his feet disappeared as he quickly appeared in the sky. He struck again, and the Eight Desolation Demon Halberd swept across as if sweeping across the entire universe, breaking all Laws.

The light here exploded, gorgeous like countless suns bursting together, releasing endless energy.

At this moment, a majestic vision instantly enveloped the sky and the earth. There were stars gathering in the sky, hundreds of millions of them circulating with the descending chaotic air falling down.

Boom!!

The sky and the earth seemed to collapse all of a sudden. There were cracks that could not be seen and chains that could destroy the world piercing through everything, as fast as light and shadow.

"Crack..."

Gu Changge kept attacking, all kinds of immortal lights appeared, and the chains collapsed. His white clothes and sleeves fluttered, like a young Emperor, who looked down upon the past and the present, and was unparalleled in style.

"Those who disobey will be beheaded!"

The pupils transformed by the Will of Heaven were still indifferent. Even if there were countless cracks appearing on them, it seemed that they had no effect.

The majestic and vast aura of the Heavenly Dao was intertwined, and the light of the avenue shone on the world, which manifested the Heaven and Earth, the Reincarnation of the Sun and the Moon, and the Star Sea of all beings.

In an instant, many terrifying scenes appeared one after another, ancient evolving tombstones with ancient coffins stretching across the sky as if burying countless sleeping supreme beings.

There was also the descent of the World-Exterminating Mill, constantly crushing, entwined with black fog, and slowly pushing forward, causing the whole world to tremble and shatter continuously.

This was a catastrophe-like scene. The sky not only collapsed, but also turned into a terrifying large millstone with a destructive aura, swallowing and crushing all living beings as it collapsed into a rain of light all over the sky.

The Will of Heaven broke free from the seal, displaying unprecedented strength. The power of vastness bloomed, life and death were disillusioned, reincarnation alternated, the heavens collapsed, and order died.

For it with its own will, Gu Changge's existence and attacks were the biggest challenges to its majesty. Its severity was even comparable to that of the original battle of extermination. However, the results of the two were completely opposite.

In the original battle of exterminating Heaven, countless cultivators and creatures, like moths to the flame, rushed toward it without fear of death. But in the end, they were all turned into ashes in the mid-air, their spirits were extinguished, and they disappeared forever from this world.

Those who disobeyed would suffer the pain of Reincarnation forever, and they would not be reborn. They knelt down on the Reincarnation platform and worshiped to eliminate their sins. But Gu Changge was completely different from those disobedient ones.

His strength surpassed the limit that this world could accommodate, and even broke the Laws of this world, so he really hurt it. Countless cultivators and creatures in the Jianxuan Great World knelt on the ground, trembling, their faces full of fear.

This was a battle that shocked the entire Jianxuan Great World, where it became chaotic. Endless chaotic energy rushed out, permeating the borders of the universe.

The void was pierced, devastated, and blurred as big stars fell one after another, falling from the sky.

"Is this a miracle or a catastrophe?"

Countless cultivators and creatures knelt on the ground, bowing in the direction of the fluctuations here. They were timid and fearful, but also worshipful and devout. Even the Sword Immortal standing at the pinnacle of the Jianxuan Great World felt the urge to kneel down in his heart.

In their view, this kind of fighting was beyond their own cognition. If they could get a glimpse of the mystery from it, it would be enough for them to break through the current shackles and improve their cultivation.

The Ancient Xuan ruins collapsed at this moment, a terrifying rift valley emerged, spreading in all directions, and endless black mist surged, covering the sky and the earth, swallowing all cultivators around.

In just an instant, this place turned into a dead place as the cultivators who couldn't react were swallowed into it and became ashes.

“It seems that this is the Will of Heaven that we have been pursuing...” Yi Jianxian, Snow Sword Immortal, and others quickly rushed out of the collapsed small world, looking at the terrifying aftermath in that direction, with lingering fear in their hearts. *novelUsB.com*

They were very lucky because the fluctuation of Gu Changge’s attack directly shattered the barrier of this small world. So even if the entrance to this small world was destroyed, they rushed out to avoid the consequences of being buried and destroyed in it.

Lin En escaped with them. However, compared to the guilt and sadness before, he had recovered now, with a calm expression, suppressing his anger and killing intent.

Lin En understood that this was not what he wanted. The Will of Heaven was really too cunning, it waited for him to pass through the Boundless Immortal Valley, so as to set up this situation and release his true body.

He didn’t want things to get to this point either. The only solution now was to imitate the ancestors and seal the Will of Heaven again. Although this solution was very slim, it was also their last chance.

Otherwise, the Will of Heaven would be revived, and it would definitely do what it did before, sacrificing the entire Jianxuan world, so as to realize its own detachment.

At that time, everyone, including him, would not be able to survive.

“What the hell is going on with all this?” Yi Jianxian looked at Lin En and couldn’t help asking.

They had absolutely no idea what happened and why the place had changed like this.

The Will of Heaven was obviously the last hope that everyone in the Jianxuan Great World prayed for, but after recovering, it showed the intention of destruction, which was even more terrifying than those extraterritorial demons.

“The Will of Heaven is not what we think it is, it wants to sacrifice us all...” Lin En’s face was heavy as he began to inform Yi Jianxian, Snow Sword Immortal, and others about the truth that he learned.

Including the origins of Mirror Lake and Sword City, the reasons for the fall of the Ancient Xuan Dynasty, and the battle to annihilate the Heavens that sealed the Will of Heaven.

In fact, he didn’t know much about it, and he only knew about it through the many ancestral heroic spirits in Sword City. If they went back in time, it could be traced back to tens of millions of years ago. At that time, there were no forces such as Shu Sect and Mount Kong.

The only overlord in the Jianxuan Great World was the Ancient Xuan Dynasty, which almost unified the thirteen states.

It was a pity that because of a catastrophe, the Ancient Xuan Dynasty fell apart overnight, and had since disappeared in the long history of the Jianxuan Great World. And Lin En was a descendant of the Ancient Xuan Dynasty.

The reason why the Ancient Xuan Dynasty was destroyed back then was also because it touched the taboo domain and spied on the purpose of the Will of Heaven, and thus encountered the wrath of heaven.

“So there is such a secret?”

After listening to everything that Lin En said, Yi Jianxian and Snow Sword Immortal were all stunned in place, extremely shocked as huge waves were set off in their hearts.

They even felt that their worldview was broken. The Will of Heaven that they had been looking for all this time, actually intended to sacrifice everyone?

And a long time ago, there was a battle to destroy Heaven on this land. As a result of this battle, Sword City sank into Mirror Lake, and the Ancient Xuan Dynasty was destroyed overnight.

“It’s unbelievable...”

Both Yi Jianxian and Snow Sword Immortal felt terrified in their hearts, and it was difficult to calm down for a long time.

At this moment, looking at the terrifying blood eyes that stretched between Heaven and Earth, they no longer had the previous intention of worship in their hearts, but only endless anger and killing intent.

It was not just the extraterrestrial demons who wanted to break through and occupy this realm. Even the Will of Heaven bred by this world was trying to destroy all of this.

“Take them down, the aura of the Ancestors disappeared, and they came out of it alive. The recovery of the Will of Heaven is absolutely inseparable from them. Take them all down, and kill whoever dares to escape!”

At this time, an angry voice sounded from the ancient warship not far away. Many knights with powerful auras rushed out, armed with various heavenly weapons and swords, and attacked Yi Jianxian and others.

The leader’s eyes were cold and murderous, and he was about to take down Yi Jianxian and others.

In addition to these people, there were also many terrifying auras in other ancient warships.

Although the Enlightened beings of various factions and sects went deep into the ruins, there were quite a few Quasi-Emperors who were left behind. Because of the recovery of the Will of Heaven and the disorder of the Laws in this world, the suppression of them had been greatly reduced, and most of their strength could be exerted.

Facing the existence of a Quasi-Emperor, even if Yi Jianxian and others resisted with all their strength, it was futile and they would be quickly taken down.

“What happened in it? Why did the aura of our Ancestors disappear? And you came out alive?” The creature from Divine Spirit Mountain stepped forward, eyes filled with murderous intent as he asked angrily.

Powerhouses from other clans also stepped forward to force them. Even Yu Feiya was no exception, her eyebrows were furrowed tightly, feeling uneasy in her heart. She also sensed that the aura of her old Emperor had disappeared, and he probably fell into the ruins.

“They were all killed by Gu Changge.” Lin En looked around at the many powerhouses around him, took a deep breath, and then spoke slowly.

He understood that Gu Changge’s identity was no small matter in the Upper Realm, even the powerhouses in front of him were still afraid of him. But no matter what, it was an indisputable fact that Gu Changge killed those Enlightened beings.

Lin En didn’t want to take the blame for Gu Changge, nor did he have the ability. And if these people went to seek revenge on Gu Changge, they could also relieve him of some pressure and find a way out of trouble.

“You...”

The faces of Yi Jianxian, Snow Sword Immortal, and others changed dramatically. They never expected Lin En to be so decisive and bold, directly disclosing the fact that Gu Changge killed the group of Enlightened beings in front of everyone.

Although they witnessed everything with their own eyes, who would dare to say such words easily?

Gu Changge was a terrifying existence that could fight against the Will of Heaven!

If he wanted to kill everyone, he didn’t even need to do it himself. With just his subordinate, he could sweep everything away.

Lin En’s words made everyone in the Upper Realm change their expressions. Many people were even more murderous, they stepped forward and yelled angrily, “Don’t talk nonsense! How dare you frame Young Master Changge, you are courting death!”

Although Yu Feiya felt that these words were unrealistic, she couldn’t help but shudder slightly, thinking that Gu Changge could really do such a thing. Ever since he admitted that he killed Tuoba Xiaoyao, Yu Feiya knew that Gu Changge had no scruples at all, even if it was to destroy this world, he didn’t care at all.

So it was not impossible to kill those Enlightened beings.

“If you don’t believe it, you can ask other people. We saw it with our own eyes at the time. Do you think we can kill them?” Lin En said calmly, without any panic.

After all, it was an iron-clad fact, and he did not frame Gu Changge either, so they could tell if it was true or not.

“I think you just want to frame Young Master Changge, how could he do something to the Ancestor of my clan?” The powerhouse from Divine Spirit Mountain had a cold face, with killing intent, and displayed terrifying coercion. He didn’t believe Lin En’s words at all.

In his opinion, his Ancestor had flattered Gu Changge before, so how could he be killed by him? What Lin En said was nothing more than intending to stir up hatred between them and Gu Changge, so as to benefit from it.

“Death is imminent, and you still want to provoke the relationship between us and the Young Master Changge, it is simply ridiculous.”

A powerhouse from another clan stepped forward and spoke indifferently, the Quasi-Emperor's aura pressed forward, making Yi Jianxian and others unable to breathe.

The Laws of Heaven and Earth disappeared, and the Quasi-Emperor's aura was so vast that it couldn't carry it at all. The gazes of the other powerhouses were equally terrifying, and when they came here, they almost tore apart the sky.

Although the disappearance of their Ancestor's aura was of great importance, offending Gu Changge was also a big trouble.

And if their Ancestors were really killed by Gu Changge, once they found out the truth, Gu Changge would definitely not let them leave alive. So the best way was to pretend to be ignorant for the time being.

Wait until they safely return to the Upper Realm, and then find a solution to revenge.

Lin En didn't know what the people from the Upper Realm were thinking, so he still shook his head and said, "If you still don't believe it, you can search their soul and check it out. They all witnessed that with their own eyes."

As he spoke, he pointed to Yi Jianxian and the others behind him. The Sword Immortals who escaped from the small world were not only Yi Jianxian and others, but also other people.

Those people had nothing to do with him, so Lin En naturally threw them out without hesitation.

"Soul search?"

Hearing this, Yi Jianxian and the others all changed their expressions. The soul was the place where cultivators live and practice, and the slightest accident would endanger life and death.

At the least, they would become stupid, and at worst, they would be dead. Lin En's words were really vicious, and he was not afraid of being regarded by other sword immortals at all.

"You!"

Many Sword Immortals also glared at Lin En, extremely angry. However, Lin En's expression was flat, and he turned a blind eye to all of this. If he wanted to save the Jianxuan world, he had to make sacrifices.

"I think this person has ulterior motives. How could Young Master Changge do such a thing? It's nothing more than framing him out of thin air. Lock him up and wait for Young Master Changge to return."

However, the expression on Lin En's face froze quickly, feeling extremely surprised and unbelievable.

Everyone in this place didn't care about his words at all. They directly ordered him to be imprisoned, so were they so afraid of Gu Changge that they didn't even dare to doubt him?

Chapter 647: Controlling the Will of Heaven, Sacrifice is unavoidable

This day was definitely a catastrophic dark day for the cultivators and creatures in the entire Jianxuan Great World. All thirteen states were full of despair, and countless cultivators were weeping.

Blood and fire spread as the earth cracked, mountains and rivers rolled back. Even the sun and moon lost their light. The vast and terrifying fluctuations came from the end of the world.

There was a blur, only the sound of shouting and the collapsing chaotic light could be heard in the distance.

Boom!!!

In the end, it collapsed, and a large piece of the sky collapsed. The five-color divine fire flowed like the legendary heavenly fire, which could burn the sky and everything.

In the midst of this catastrophe, a terrifying big hand, iron-blue in color, wrapped around the Laws of Destruction, reaching down from the ends of the world before it grabbed billions of sentient beings.

Like a millstone of annihilation, it stretched across the sky and the earth, turning slowly, pushing all Laws and Orders to an end. Countless cultivators were wiped out into nothingness, disappeared in the cycle of reincarnation, and ceased to exist since then.

Even a Sword Immortal was as fragile as a firefly and would be annihilated in an instant.

The Will of Heaven of the Jianxuan Great World had revived and taken over the power of Heaven as it tried to destroy all living beings, sacrifice them, and thus transcend. But such a terrifying millstone of annihilation was also chopped off by a halberd light. It was torn apart, with black blood oozing out of it, which was incomparably terrifying.

Hundreds of millions of cultivators tremblingly watched this scene as if facing a miracle.

Gu Changge's dharma body was displayed in Heaven and Earth, spanning tens of thousands of miles. Even a strand of hair was bigger than a star, entangled with the vast chaotic energy, just like the god who split the chaos in the mythology.

He stretched out his hand and tore open the void, breaking through the endless restrictions and spaces in an instant as he entered the void of another latitude.

"Found you, how long are you going to hide?" He calmly stepped in.

In Gu Changge's view, this battle would end soon. The Will of Heaven was hiding from his pursuit within the ground to another space. But in the end, he discovered it.

The disparity in strength was not great, but facing him, all resistance would be futile.

"We have no enmity! Why do you keep chasing me?"

The Will of Heaven stood at the end of the dark world and manifested his true body, which was an extremely burly and tall black-haired man.

The pair of blood-colored pupils were cold and ruthless, and the light of merit and virtue was lingering around his body, surrounded by colorful auspicious clouds which then turned into a suit of colorful battle armor covering his body.

Surrounded by endless merits and virtues, the golden light set him off like a lord of heaven and earth, respected by all races. The shadows of the blurry world floated up and down as if standing on the endless divine light.

“It’s ironic that you still enjoy the light of merit. I am chasing you? You seem to be saying the wrong thing. Didn’t you attack me first?” The sound of footsteps resounded in this empty and dark space, Gu Changge said with a chuckle and attacked him step by step.

The Eight Desolation Demon Halberd pointed obliquely to the south of the sky, and everything it passed through was shattered. All the Laws were shattered. His aura was so terrifying that even this space couldn’t bear it, and it began to collapse.

“Who the hell are you?” The avatar of the Will of Heaven spoke indifferently, and there was a trace of great fear in his indifferent eyes.

Gu Changge’s strength was beyond his imagination. Even though he had the strength of a Remnant Immortal, he was at a disadvantage while confronting him.

It was only then that Gu Changge found his true body and attacked him. He thought that when he woke up, he could reopen this world, reshape his body, and take the last step. But he didn’t expect Gu Changge to suddenly pop out.

Even the rest of the Enlightened beings from the Upper Realm were insignificant in his eyes. Only Gu Changge was extremely difficult, no matter his origin or strength, he was unfathomable.

“It doesn’t matter who I am, if you hand over the origin of the world, you may be obliterated by me happily.” The smile on Gu Changge’s face disappeared, he said lightly, and walked forward, intending to refine and devour the Will of Heaven.

Boom!!

As his words fell, the space trembled and rippled. Immediately afterward, it seemed that a terrifying hurricane blew up, covering all directions.

At the same time, the monstrous black mist instantly enveloped the sky like a field. It was full of complex and chaotic auras, like a black hole in the universe, devouring everything.

“Who are you?” The face of the Avatar of the Will of Heaven changed again, feeling a strong threat.

Not only Gu Changge’s methods but Gu Changge’s aura also made him palpitate at this moment.

“I said that it doesn’t matter who I am, just hand over the origin of the world wisely,” Gu Changge said lightly.

With a buzzing sound, black light fell down, boundless and endless, covering this place.

The Great Dao treasure bottle emerged and although it was only the size of a palm. But there were countless gods in it, floating up and down, intertwined as they finally turned into a black hole swallowing the sky, condensed with the stars in the sky.

The true body of the Will of Heaven felt a great threat, and the palm-sized vase seemed to contain the most terrifying thing in the world, which could swallow him into it.

He didn't dare to be negligent, a pool of Laws emerged beside him, and the silver thunder boiled, turning into true dragons, divine phoenixes, and white tigers piercing through the sky as they charged toward Gu Changge.

Boom!!

However, Gu Changge just slashed horizontally with the Eight Desolation Demon Halberd, as if he wanted to destroy a big world. All the laws were cracking, like an egg touching a stone, splitting into pieces in an instant, blasting into nothingness.

Even the pool of laws collapsed instantly, unable to resist this kind of power.

“Roar...”

The avatar of the Will of the Heaven roared loudly, the colorful armor shone brightly, and his black hair danced angrily. He took the initiative and launched an attack, otherwise, he would be swallowed by this mysterious vase sooner or later, leaving no place for him to die.

Rumble!!

The atmosphere here was even more frightening, it was almost turning the world upside down again.

Gu Changge's expression didn't change, but a blurry outline of the world emerged around him, and silver flames were boiling around each world.

As the avatar of the Will of the Heaven came over, the silver divine flame beside him became more and more glaring, burning into the void, advancing toward the shocking attack, letting that big black hand slap him, without even dodging.

Boom!!

In the next moment, a terrifying void trill sounded, the big hand of the true body of the Will of Heaven which could even smash an Enlightened being, hit Gu Changge's body. Alas, there was only a trembling sound, and not only he failed to kill the enemy, but his palms and fingers were bleeding. His bones were broken, almost shattered.

“Your flesh...”

The face of the Will of Heaven true body changed again, he quickly pulled away, and retreated, sensing that something was wrong.

Gu Changge's physical strength was so strong that it even surpassed what this world could bear.

“It seems that you still can't see the situation clearly?” Gu Changge chuckled, his eyes didn't fluctuate, and he was still indifferent and emotionless.

The expression of the Will of Heaven changed. Since the birth of the will, it was the first time that he felt so uneasy, and his life was greatly threatened. He shouted angrily again, terrifying chains of Laws appeared around him. The avenue roared, and the universe shattered.

Each root seemed to be entangled with an ancient world, extracting the original law from it, rushing and trying to drown Gu Changge.

“Tell me where the origin of the world is.” Gu Changge’s expression was indifferent. His white clothes were whiter than snow, his hair glowed with brilliance, and he was so handsome as he walked in this dilapidated world.

All the means of attack were swallowed up by layers of black light when they fell in front of him. This was different from the invincibility of ten thousand dharma, which was devouring everything, and even being immune to everything.

After all, even the Laws that connected to the Immortal Realm were useless.

“Hehe, if you want to know the origin of the world, then you have to destroy this world, can you do it?”

“The origin of this world is contained in countless sentient beings. Only by sacrificing all of them can it be condensed. If you want to obtain the origin of the world, it is very simple, just destroy this world.”

The true body of the Will of Heaven manifested in the distance, his body was tattered, thick black blood was permeating in many places, and he sneered. He suffered quite a lot of injuries, and the power emanating from the vase of the Dao was really terrifying.

Even if he absorbed the Laws of various places to repair his injury, it seemed futile. Seeing that Gu Changge was so determined to get the origin of the world, he simply told all this and made Gu Changge give up.

Sacrifice a world? Who else could do it but him? After all, it sounds insanely crazy.

What was more, doing so will not only incur endless karma but also damage merits and virtues, making it difficult for future cultivation.

“I have to destroy this world?” Gu Changge frowned slightly and then relaxed quickly.

He didn’t doubt the words of the Will of Heaven. Judging from his last act of destroying the world, it was obvious that sacrificing all living beings was his only chance to escape.

And this time after he regained consciousness, the first thing he did was to try to destroy this world, using all living beings as nourishment to make sacrifices.

Seeing that he was silent, the avatar of the Will of Heaven thought that Gu Changge was afraid, so he couldn’t help laughing, and said, “I’m not the same as you cultivators. I launched the war to destroy the world, which is in accordance with the cycle of heaven and the cycle of karma. Not only will it not incur karmic fire, but it will also provide merit. And once you do this, you will definitely be entangled in karma and leave endless disasters. Have you thought about it clearly?”

Gu Changge shook his head lightly, and sighed, “It’s good that you reminded me, otherwise, it would have really caused trouble. From this point of view, I can’t kill you yet.”

“What do you mean?” The black-haired man transformed by the Will of Heaven stared at Gu Changge with cold eyes.

He had a bad premonition in his heart.

“This catastrophe of destroying the world has to be initiated by you.” Gu Changge’s face was calm, without any waves, and the depths of his eyes were even more indifferent. n0VElu8B.c0M

Buzz!!

The treasure vase of the Great Dao was floating up and down, with wisps of black light, and this space froze all of a sudden. The vast and terrifying demonic energy surged forward, covering everything, and rushed toward the incarnation of the Will of Heaven.

At the same time, Gu Changge stretched out his hands. Hundreds of millions of red brilliance bloomed like a cage of Heaven and Earth, making the sound of the avenue, wanting to suppress it.

This was a powerful blow, unpredictable and vast, and it was difficult to describe it in words. All kinds of Dao fruits and flowers were blooming and even evolved into a scene like opening the sky.

For a while, the place became blurred, and various laws and orders were intertwined. The avatar of the Will of Heaven had shown the most powerful power after recovery, to resist Gu Changge’s suppression.

However, after a few hundred moves, the monstrous devilish energy penetrated, corroding the light of merit and virtue around him, turning it into star-like chains, binding his body.

No matter how hard he fought, it was difficult to break free, and he became a fish on the chopping board.

“Although it was transformed by the Will of Heaven, the true body is no different from a living being, so it is easier to control it this way.” Gu Changge whispered, black and white light blooming in his eyes.

It fell from the void, and the darkness behind him spread like a tide, swallowing the will of heaven at once.

One after another, the avenue runes flickered and intertwined, penetrating along the chain as they slowly entered into its body, like a seal imprint, which could control its life and death in a single thought.

“If you don’t want your consciousness to be wiped out right now, then you’d better listen to me obediently.” Gu Changge looked indifferent.

After all, the Will of Heaven controlled the power of heaven in this world, which was the representative of invincibility in this world.

Sword Immortals were no different from ants. As long as he didn’t stop it, it was only a matter of time before he sacrificed the common people and condensed the origin of the world.

“What? You!”

After listening to what Gu Changge was about to explain, the avatar of the Will of Heaven suddenly felt a little terrified, looking at Gu Changge with horror.

He originally thought that Gu Changge would give up the origin of the world, but he didn’t expect that Gu Changge planned to use his hands to destroy this world, so as to obtain the origin of the world.

In Gu Changge's eyes, the survival of the Jianxuan Great World really didn't matter, and Gu Changge's method was much more ruthless than his, basically using everyone as a tool.

After controlling the Will of Heaven, Gu Changge had no intention of talking nonsense with him. Then the space cracked, and he took a step forward and quickly disappeared.

This place was actually in the Jianxuan Great World, but it existed in another latitude, and ordinary cultivators couldn't perceive it at all. Now, no matter how inevitable the coming catastrophe was, Gu Changge just needed to wait quietly.

"There are so many Enlightened beings who died from the Upper Realm. I guessed that he did it. Now I don't dare to say more. After returning to the Upper Realm, it will inevitably cause trouble."

Gu Changge's figure left this space and appeared above the outer sky, thinking for a while, planning to take this opportunity to solve these disasters together. Looking at the devastated land below, he shook his head slightly.

This battle between the Will of Heaven and him nearly destroyed half of the Jianxuan Great World.

The borders of the thirteen states had been sunk for five states, not to mention the overseas borders, which had been evaporated, leaving only the terrifying river bed. But there were still many cultivators left in this world, so it shouldn't have much impact on the sacrifice.

Buzz!!

The void was blurred, Gu Changge disappeared with a step, and rushed to the place where the ancient warship hovered outside the sky.

When he was in the Ancient Xuan ruins, Yi Jianxian and others were let go on purpose by him, just to have an excuse now, so as to attack the various forces that came to this world.

What was more, even if he killed Yi Jianxian and others at that time, all forces would have a way to deduce that he was the one who killed many Enlightened beings.

Chapter 648: A dark and desperate day, The best sacrificial nourishment

On this day, endless blood and fire swept the entire Jianxuan world. Desperation and mourning were everywhere as the world was dark and the end was nearing, bringing catastrophe and disaster.

The original territory of the thirteen states had been sunk, and the terrifying Great Rift Valley had spread for tens of thousands of miles. The volcano erupted, and the red fire was densely packed like a meteor falling from the sky and destroying a large area of the territory.

At the other far end, the ocean broke its bank and rushed in frantically, submerging the earth. Countless terrifying beasts crawled out of the deep sea and rushed toward the land.

This world had been torn apart, and all the forces and sects were filled with thick clouds and bleakness, incomparably hopeless.

"Heaven is going to destroy my Jianxuan!" Many old men with advanced cultivation were lamenting, kneeling at the foot of the mountain, praying to their ancestors, hoping to see a glimmer of light.

At the foot of the former Sword God Mountain, countless cultivators knelt down and prayed to the sculpture on the top of the mountain.

A terrible disaster once happened in the Jianxuan Great World, which almost wiped out all ethnic groups. However, at that time, a hero was born out of nowhere and ruled the world. He was honored as the Sword God of the world. With his own strength, he saved everyone and solved the catastrophe.

Later generations of cultivators cast Sword God Mountain here, carved sculptures for it, and prayed day and night. But to this day, many people had discovered in despair that the original golden sculpture of the Sword God had now faded, with too many cracks appearing.

Boom!!

At the back, under the terrified and disbelieving eyes of many people, the sculpture collapsed with a bang. Even Sword God Mountain was struck down by a terrifying thunderbolt from the sky.

The gravel fell from the sky, cracked cracks, and quickly fell apart.

“There is really no hope, even the Sword God Mountain has collapsed...”

The countless cultivators kneeling at the foot of the Sword God Mountain roared with incomparable sorrow and despair, unable to believe what was happening before them.

Scenes like this were still happening all over the Jianxuan world. The catastrophe was arriving, and the power of the gods descending from the sky was vast and boundless.

The chains of red Laws ran through the sky, like dragons, trying to traverse everything. The Sword Immortals hidden in various parts of the Jianxuan Great World were terrified to the extreme at this moment.

These red chains fell from the sky, with a scorching and terrifying destructive aura, they burst into the void and came straight to the place where they were hiding.

Boom!!

The gorgeous brilliance exploded, and under this vast heavenly power, everyone was as weak as ants.

“What!”

All the Sword Immortals were roaring in despair, trying to break free from these chains with all their might. But in the end, it was futile. Everything, including the soul, were all tied up and couldn't move.

This was the power of Heaven, it was vast and endless as long as it was a cultivator born in the world of Jianxuan, it was difficult to escape. However, this kind of power was only aimed at the existence that had reached the realm of the Sword Immortal.

Many cultivators who had already reached the Ninth level were frightened with lingering fears in their hearts.

Many people even saw with their own eyes that their ancestors who had been living in seclusion in the deepest part of the clan land were tied up by a chain, dragged away, and disappeared at the end of the world.

This kind of power created desperation, the gap was too big, and it was impossible to compete.

On this day, many Sword Immortals who had never appeared in the world were captured by the red chains and disappeared without a trace. No one knew where these Sword Immortals were taken, and what would happen to their life and death.

Whether it was for them or for the common people, this was a hopeless and dark day.

Outside the sky of Jianxuan Great World, where the crack of the world barrier was located. Many ancient warships were suspended here, the surrounding big stars were floating up and down. The nebula was shrouded, which was incomparably vast and deep.

Many forces who came to capture this world were now stationed here. With such a sudden change in the Jianxuan Great World, even they felt palpitations, and were terrified to approach at will.

Some Quasi-Emperor beings tried to go to the Lower Realm to find out what happened. But they were quickly repelled by the power of that world, and it was almost difficult to get out and come back.

n07eLusb.c0mm

So they gave up and planned to wait and see what happened here. After returning from the Ancient Xuan ruins, the powerful people of various forces were stationed there.

After all, the purpose of capturing the Jianxuan Great World had not yet been completed, so they naturally would not choose to return to the Upper Realm.

Buzz!!

There was a sudden tremor in the void outside the sky, and then ripples spread, and Gu Changge's figure stepped out of it. His speed was very fast, and he arrived on the ancient warship of the Great Yu Immortal Dynasty almost instantly.

"Young Master Changge?" The many soldiers who were in charge of patrolling recognized Gu Changge at first sight, they were extremely surprised, and they all saluted.

The news about the disappearance of the aura of the old Emperor from the Great Yu Immortal Dynasty was not spread, for fear of causing panic, so many people still didn't know about it.

They also didn't know that the current Great Yu Immortal Dynasty was extremely wary of Gu Changge.

"Where is your princess now?" Gu Changge's figure landed on the ancient warship as he walked slowly, and asked casually in a soft voice.

"Reporting to Young Master Changge, the princess has been in the main hall since she returned from the Lower Realm, and has never left." A soldier reported respectfully.

"The main hall?" Gu Changge nodded slightly, and then his figure disappeared from the spot, appearing thousands of miles away.

"What do you think Young Master Changge is looking for the princess?" Seeing Gu Changge leave, the patrolling soldiers couldn't help but look at each other, feeling that something was wrong.

The main hall was located in the depths of the ancient warship with clouds and mist, mountains and pavilions standing tall and straight, silver waterfalls swirling among the lingering colorful mist.

Yu Feiya was dressed in white with a graceful figure, a dignified and elegant face, silky hair, and no makeup. Her face was calm, and she was standing quietly in the main hall.

Hearing the sound of footsteps coming from outside the hall at this moment, she turned her head and looked at the slowly approaching figure with an expression that didn't seem to be the slightest surprise, more like she had been waiting for Gu Changge here for a long time.

"Greetings, Young Master Changge."

Afterward, Yu Feiya saluted lightly, her manner was dignified and elegant, showing the calmness of a disciple of the royal family, appearing neither humble nor overbearing.

Gu Changge nodded slowly and said, "Have you been waiting for me here for a long time?"

"Yes." Yu Feiya nodded, admitting frankly.

She had known for a long time that Gu Changge would return to this place, and the Will of Heaven of the Jianxuan Great World could not stop him. Moreover, she understood that Gu Changge dared to kill many Enlightened beings without fear.

Obviously, his purpose was to bury everyone here. So he will definitely make his move, all of them would not escape death, even if the person who had become Enlightened was no match for him, let alone others.

"Oh, you are waiting for me, it seems that you know the purpose of my return here?" Gu Changge smiled slightly as if a little interested.

Yu Feiya said with a complicated gaze, "Young Master Changge must be planning to bury all of us here so that he can swallow the origin of the Jianxuan Great World alone?"

She was very clever. In fact, after Gu Changge killed many of the ancestors and other people, she guessed it.

The kind of thing like the origin of the world was enough to make the Enlightened beings crazy. How could Gu Changge not be moved when he was in this realm now?

"Since you know this, are you waiting for me here, are you planning to wait for death?" Gu Changge asked with a smile.

Yu Feiya shook her head, and her expression gradually became dignified. "Young Master Changge can actually change the method. If you kill everyone here, it will inevitably cause suspicion when you return to the Upper Realm."

She understood that if she was resistant at this time, she would only die faster, so the only way was to let Gu Changge understand the value of her alive.

“I know what you mean, do you want me to let go of the group from the Great Yu Immortal Dynasty? But how do you guarantee that the rest of the forces will not cause me trouble?” Gu Changge was slightly different.

Although he intended to destroy everyone here, considering the condensation of the world’s origin, he needed to sacrifice heavenly beings.

At that time, if the sacrifice was not enough, the many forces of the Upper Realm here would be a good choice.

“Young Master Changge may have planned in his heart because the dead will not cause trouble.” Yu Feiya said calmly.

Gu Changge smiled, and then smiled, “It seems that since you dare to wait for me here, you are sure. Now that you want me to let go of the Great Yu Immortal Dynasty, I can. But I want you to bring the army of the forces to the Jianxuan Great World. ”

“Bring to Jianxuan World?” A shock appeared on Yu Feiya, and suddenly guessed Gu Changge’s purpose.

“Why? Can’t you do it?” Gu Changge asked her at a glance.

Yu Feiya felt a bit dry, but she nodded, “I will try my best, but because of the existence of Heaven, I am afraid that many people will be forced to retreat before they approach the Jianxuan Great World.”

Gu Chang heard the words gently, “You don’t have to worry about this problem, the Will of Heaven will not embarrass them.”

“Will not embarrass them?” Yu Feiya was stunned and did not respond to Gu Changge’s meaning.

But soon, she couldn’t help but shiver as an extremely bold possibility emerged in her mind. Was the Will of Heaven of this world controlled by Gu Changge? He intended to use it against the army of various forces, thereby burying them in one fell swoop?

After leaving the main hall, Gu Changge went to the dungeon according to the news from Yu Fei Ya’s side. Yi Jianxian, Snow Sword Immortal, Lin En, and others were now being held in that place, waiting for him to return.

This was the process of dealing with the unanimous decisions of the strong forces. The adults of all ethnic groups were now slim and their aura had almost disappeared.

After all, they were not stupid, and they knew that they were not Gu Changge’s opponent, but still offended Gu Changge. If they returned to the Upper Realm, they would have to deal with discussions.

“Young Master Changge, this person has been trying to frame you, what do you think of it?”

Within the dungeon, a supreme powerhouse from the Divine Spirit Mountain took the road ahead and pointed to Lin En, who was detained aside.

In addition to him, the people who accompanied him here, as well as the other powerful people of the forces, were termed as extraordinary, and their blood was amazing, like a terrible melting furnace.

“I see.” Gu Changge nodded, staring at Lin En’s eyes, a little different.

Originally, he still wanted to see how much the Son of Luck could reverse. But what he was quite disappointed about was not only that he was bewildered by the Will of Heaven, but he was even unclear about the current situation.

In addition to being an experienced baby, brushing the treasure chest of the sky, it would be useless. Honestly, in this realm of his present state, there was no Son of Luck that could have a great impact on him or his work.

Gu Change could only think about it once the Immortal Gate opened and he entered the Immortal Realm. Only then there would be surprises.

“Why are you here?” Lin En stared at Gu Change, and his calm face gave birth to waves. He was healed and was detained in the dungeon.

He did not expect that Gu Change, who had killed the Enlightened beings of all ethnic groups, would return here so calmly. He was also so respected by the powerhouses of all ethnic groups. However, Gu Change’s eyes ignored them and swept around at will.

Yi Jianxian, Snow Sword Immortal, and others were detained on the other side.

In this large dungeon, they were actually detained, even including Sword Immortals. The figures who once stood at the peak of the Jianxuan world could only be reduced to prisoners, and life and death couldn’t help themselves. Their complexion was extremely complicated, somewhat uneasy, but more lost.

“Now the world of Jianxuan is suffering from great difficulties, maybe you have already known for a long time, the Will of Heaven will slaughter the souls of this world, so as to achieve its detachment plan... When it is detached, it will be the collapse of this world. On the day of the death of all beings, all of you will die.” Gu Change looked around and then said slowly to inform the hidden secret.

He did not want to kill this group of Sword Immortals for the time being. After all, this group of people had cultivated to this day, and their bodies had already been contaminated by the aura and Laws of this realm.

In other words, in fact, the Sword Immortal was the most suitable nutrition for sacrifice. But there was too little cultivation to exist at this step.

Gu Change asked the Will of Heaven to catch all the Sword Immortals hidden in the Jianxuan world. In fact, it was also because of this purpose. Yi Jianxian, Snow Sword Immortal, and others were the top powerhouses of the Jianxuan world. If they were killed, wouldn’t it be a waste?

When he heard Gu Change’s words, the strengths of the various forces were all moved, which was a little shocking and incredible. They didn’t know that there were still such secrets.

The Will of Heaven of the Jianxuan Great World had such ambitions.

“I am afraid that when it gets detached, is when it enters the Immortal Realm. After all, this kind of heavenly existence is different from me and other cultivators.”

A very old-fashioned powerhouse seemed to be very heavy and even worried. After all, there was no hearing that there was an Immortal Path in the Upper Realm today, and this might also threaten the Upper Realm.

“From this perspective, maybe the disappearance of the Enlightened beings of our ethnic groups is related to this matter. It seems that we will have to visit this Jianxuan Great World again.”

Yu Feiya, the eldest princess of the Great Yu Immortal Dynasty, frowned slightly at this time, seemed to think of something, and couldn't help but sigh.

As soon as she said this, she immediately moved the strong people of the various forces and they looked at each other.

In fact, they were not willing to believe that Gu Changge killed their Ancestors.

Instead, they would rather believe that their Ancestors were trapped in the Jianxuan world for some reason and that they could not get out of trouble for the time being.

Chapter 649: The catastrophe descends, Waiting for the arrival of the sacrifice

In the dungeon, everyone was shocked by Yu Feiya's words. Yi Jianxian, Snow Sword Immortal, and others also stared wide-eyed and their backs couldn't help but feel cold.

They witnessed with their own eyes that those Enlightened beings were attacked and killed by Gu Changge. It also included an old Emperor of Yu Feiya, and now she turned a blind eye to this matter and planned to lure the rest of the people to go to the Lower Realm.

What was her intention?

“Looking at it this way, seniors do still have a chance.” Gu Changge smiled slightly upon hearing this, as if not surprised.

He didn't expect Yu Feiya to say that, but it was just right. It could attract the cultivators from all forces here, and become the nourishment for the sacrifice.

“Maybe they are trapped somewhere?” Yu Feiya's words made the powerhouses of various forces and sects fall into deep thought.

If there was still a glimmer of hope, they didn't want to see their Ancestors fall here.

“It seems that we will have to enter this Jianxuan world to find out sooner or later.” A powerhouse from the Divine Spirit Mountain said, nodded, and made a decision.

Thinking of this, many people had the intention of retreating and planned to order them to descend and arrange their hands to go down to the world.

With such a catastrophe happening in the Jianxuan Great World, blood and fire everywhere, it was a good time for them to take advantage of the chaos and leave.

Afterward, many figures in the dungeon left, leaving only the people from the Great Yu Immortal Dynasty and Gu Changge.

“You can go.” Gu Changge shook his head lightly, swayed his sleeves lightly, and a gust of breeze swept by, immediately removing the restraints on Yi Jianxian, Snow Sword Immortal, and others.

“This! Mr. Gu, what do you mean by this?”

They were so shocked that they didn’t understand Gu Changge’s actions and intentions. They looked at each other, and they all saw incomprehension and doubt in each other’s eyes.

Gu Changge didn’t kill them, but lifted the restraint on them, intending to let them go.

“The Jianxuan Great World has encountered such a catastrophe, and people are dying. As the most powerful people in this world, it’s time for you to exert your strength and play your role,” Gu Changge said lightly, the world was a melting pot, and all living beings turned into nourishment.

As the best sacrifice, it was indeed time for this group of Sword Immortals to play their role.

“Thank you Mr. Gu for not killing me today. If I have a chance in the future, I’ll repay it.”

Hearing Gu Changge’s words, Yi Jianxian, and the others were taken aback for a moment, then their expressions suddenly became extremely complicated, and they bowed their hands respectfully.

They didn’t know that the current Will of Heaven had been controlled by Gu Changge. They thought that Gu Changge was merciful and soft-hearted, and he didn’t want to kill again.

This made them, who previously thought that Gu Changge was unfathomable, cruel, and ruthless, feel ashamed in their hearts. They really used the heart of a villain to save a gentleman.

Because of Gu Changge’s order, the powerhouses of the other forces did not dare to continue to embarrass Yi Jianxian, and others as they watched them leave the ancient warship, and return to the Jianxuan Great World.

However, compared to the good luck of Yi Jianxian and others, Lin En was not so lucky. He was full of resentment and regret.

Gu Changge slapped him to death casually, and a Golden Heavenly Treasure Chest jumped out, which he accepted casually. He didn’t care about the other Destiny value.

“Yu Feiya will continue to spread rumors, and let people from various forces enter the realm.” Seeing this scene, Yu Feiya’s heart skipped a beat, but she still restrained her fear and said respectfully.

After experiencing these things, she finally recognized Gu Changge’s true nature. Under the handsome and elegant appearance of an Immortal, there were actually ruthless and unscrupulous methods hidden.

She used to be curious about him and had a little admiration for him, but now Yu Feiya just wanted to keep him at a respectful distance.

“Three days, I will only give you three days. After three days, everyone should lead to the Jianxuan World.” Gu Changge glanced at her indifferently, as if he knew what Yu Feiya was thinking.

Three days was almost enough, and this final sacrifice should also come. When the time came, he would not continue to wait any longer.

Yu Feiya said respectfully, "Yes, it will be done in three days."

Gu Changge nodded, his figure turned into light and rain, and disappeared in place.

The news of the imminent catastrophe in the Jianxuan Great World quickly spread, causing a huge earthquake.

There was an aura of despair everywhere. A few days ago, a series of terrifying chains of laws appeared in the depths of the sky as they captured the Sword Immortals everywhere. This was already a sign for the common people.

The only Ninth level and Eighth level existences of Shu Sect, Mount Kong, and other forces gathered together, with extremely heavy faces, discussing how to solve it next.

Some people thought that only by fleeing from this world and going to other living ancient stars could they escape this catastrophe. There were also people who felt that it was better to submit to the group of extraterrestrial demons and be taken away by them, even if they became slaves than to die like this.

Otherwise, no matter how they choose, they would probably die. Even the Sword Immortal could not escape those chains of laws, let alone other people, so the only way to survive was to surrender.

However, there were only a small number of cultivators who had such thoughts, and most of them still believed that they should unite and fight against the law of heaven.

After all, the heavens had the virtue of good life, and they didn't believe that everyone would die tragically in this catastrophe.

Afterward, Yi Jianxian, Snow Sword Immortal, and many other Sword Immortals who were captured by the extraterrestrial demons returned, and the panic-stricken people gradually calmed down, feeling that this battle was not hopeless.

"The only way is to be united. A long time ago, the Will of Heaven was sealed by our Ancestors. Now it's our turn. Why can't we do it?" Yi Jianxian encouraged, informing the secrets learned from Lin En.

When everyone heard this, they were naturally encouraged and their morale was greatly boosted.

"The most urgent task now is to find a way to rescue those Sword Immortals captured by the Will of Heaven. It must be afraid of us, so it will choose to act first and weaken our strength."

Another veteran Sword Immortal spoke with dignity and convincing words. The crowd did not dare to be negligent and began to try their best to find out where the Sword Immortals who were taken away were being held.

Because their soul lamps had not been extinguished, they must be imprisoned in some mysterious and unknown place now.

"It seems that the only way now is to search for Mirror Lake the same way as last time..."

In the end, they thought of the only way, which was to determine the exact location through the aura, just like when divining for the location of Mirror Lake.

At the same time, in the distant Upper Realm. At the entrance of Jianxuan Great World, bursts of incomparably terrifying sounds emerged, as if the world was collapsing.

Rumble!!

The void was violently turbulent, and the big crack that spanned tens of thousands of miles was slowly healing, the radiance converged, and the power of the world's laws permeated as black blood flowed out.

Such a scene shocked countless cultivators guarding this place, and then they were terrified.

"What the hell happened? How did this happen? How could the entrance of that world be closed suddenly! My family heir is still inside!" An old servant with supreme morality couldn't help shouting, extremely anxious.

One must know that the cracks in the world were not fixed, and as the entrance was closed, no one knew how to enter it later. And most importantly, the entrance of this space rift was suddenly closed as black blood flowed out. Did it mean that something ominous happened in it?

The successors of many Immortal forces of the Upper Realm had entered it, and there were also several Enlightened beings who had descended. If an accident happened, they didn't know what to do, and they couldn't go back and explain it.

"Let's wait and try together." The Quasi-Emperor of an Immortal force who had been guarding here before suddenly spoke, with a very solemn expression, and discussed with the Quasi-Emperors of the other forces. n0v**ELusB**.c0m

"The vision here is not trivial. Let's try together and see if we can crack this space..."

The rest of the Quasi-Emperor cultivators nodded with affirmation. Their serious expressions turned into a little uneasiness in their heart.

Boom!

The next moment, they made a move, and the mighty aura shook all directions, rolling up monstrous waves, but they couldn't stop the healing of the crack.

Seeing this scene, a young man from the Great Yu Immortal Dynasty couldn't help worrying and said, "Elder Princess and the others are still inside!"

"And Young Master Changge is also among them. If something happens to him, will the Ancient Immortal Gu family blame Great Yu?"

"Gu Changge should be fine."

"It's just that we don't know if the eldest princess and the others will face any accidents. The jade talisman left by the old Emperor has dissipated. This makes me very disturbed."

The Quasi-Emperor of the Great Yu Immortal Dynasty looked calm, knowing how powerful Gu Changge was.

Even if everyone was buried in it, Gu Changge might be able to escape safely. However, he was still contacting the Great Yu Immortal Dynasty, telling him that there was an accident here, and worried that Yu Feiya, the old Emperor, and the others might die.

At the same time, on this day, in the Jianxuan Great World. The darkest day had arrived, and there was a terrifying scene, far greater than ever before. The world was dyed pitch black and horrible visions appeared everywhere. The sky was dim and lost its color.

Then the black mist floated, covering the sky and the sun. It was endlessly mighty, like a surging black continent, coming down.

“The sun is swallowed up, all light is gone...” Countless cultivators and creatures were shocked and stared blankly at all this.

Click!

A series of cracks appeared in the sky like a mirror, and black blood flowed down.

At the same time, the black substance fell down with a bang, flooding all directions.

In the only places left in the Jianxuan Great World, too many powerful cultivators were suddenly shrieked and convulsed by the black substance and fell to the ground.

It was as if this black substance was alive, continuously drilling into their facial features and nostrils, and even made the sound of biting and chewing, which was extremely shocking.

In just an instant, these cultivators and creatures were all turned into ashes, screaming and vanishing into ashes.

At this moment, the Jianxuan Great World was in chaos!

Rumble!

Ancient warships descended from the sky and landed again, with the mighty Upper Realm army standing on them.

There were the Great Yu Immortal Dynasty, Divine Spirit Mountain, and Heavenly Emperor Mountain... They could be said to be all the forces that attacked the Jianxuan Great World this time.

Yu Feiya didn't dare to disappoint Gu Changge, so she worked hard, and finally used the excuse of finding the place where the old Emperor was trapped to mobilize all forces to come to the rescue.

“The aura of the Emperor is in the center of this world. Taking advantage of the chaos in this world, it is just right to rescue them.” Yu Feiya spoke softly, her dress was like snow, her figure was slender. Her black hair fluttered, and she was looking extremely beautiful and elegant.

“This aura is not right, it seems that this world is about to collapse...” A Quasi-Emperor had a dignified face and extraordinary insight, perceiving the changes that had taken place in the Jianxuan Great World at this moment.

The sky darkened all of a sudden, as if there was the most terrifying chaotic real thunder, exploding in the deepest part. The entire Jianxuan Great World had boundless territory with no boundaries, but at this moment, every piece of land was trembling.

Countless terrifying beasts woke up from the depths of the deepest ocean and looked up into the distance, terrified.

“What happened?”

“What’s going on? Why are the sky and earth collapsing? And the sun and stars are gone!”

The sudden change in the Jianxuan Great World shocked countless cultivators.

On the ancient warship, the cultivators from the Upper Realm turned pale. They noticed that the previous entrance disappeared, and they couldn’t sense the slightest aura of the Upper Realm.

That cosmic tunnel was also gradually closing, and everyone was trapped in this realm, and it would be difficult to escape back to the Upper Realm. This made them extremely frightened, and unsure.

Rumble!!

The sky and the earth were splitting and collapsing, and then peeling off, the flames were soaring into the sky, melting everything, like meteorites sweeping and falling down.

The sky of the entire Jianxuan Great World had torn apart like a mirror, and when the strong wind blew, all directions were filled with pitch-black bottomless nothingness.

Among them was a sea of nothingness, and a boiling chaotic turbulent current, where many ancient beasts lived. Enlightened beings also had to be careful when crossing, there were terrifying laws to suppress them, and they might die tragically.

This scene shocked all the cultivators in this world, and everyone opened their eyes wide in shock. The sky and the earth were broken, various laws were pervading, and the divine light of order was like a flame, burning everything.

Some cultivators were contaminated with this kind of aura, and they were instantly turned into a ball of powder as their bodies and spirits were destroyed.

This was an extremely terrifying and frightening scene. The entire world was shrinking and collapsing. At the same time shrinking toward the center like a collapsed continent.

The parts near the edge melted into the sea of nothingness and chaotic turbulence, turning into dust.

“This is not just as simple as destroying the world. It is to reopen this world and return to nothingness and chaos. All creatures in this world will die.” On the ancient warship, a supreme existence uttered in amazement. His soul trembled as he was extremely afraid and worried.

As powerful as him, he was also terrified by this aura, like an ant, without any resistance. Not to mention the rest of the cultivators, their legs were weak and their faces were pale.

And, to make them even more desperate, they couldn’t find the slightest way out. The secrets here were chaotic, the laws were broken, and the aura of the Upper Realm could not be sensed at all.

At this time, someone noticed that the speed at which the sky collapsed was not fast. Only the central area of the Jianxuan Great World remained intact and seemed unaffected.

“Go to the very center. There, maybe there is hope of survival.”

All over the Jianxuan world, everyone shouted, glowing all over, wrapped in runes, and rushed away at extreme speed.

At this moment, both the cultivators and the living beings were terrified and headed toward the central area, thinking that it was possible to survive there.

Rumble!

The mountains collapsed, the ground cracked, and the volcano erupted, from which a crimson true fire gushed out and burned everything. The catastrophe descended, and all the living beings, cultivators were buried and wiped out.

And when the entire Jianxuan Great World was destroyed, in extremely deep and dark space. The strong destructive aura was intertwined, with chaotic light escaping, and all kinds of vast and majestic forces went up and down, enough to crush ordinary people into meat paste, destroying both body and spirit.

A series of dark cages were suspended here, in which many Sword Immortals captured from the Jianxuan Great World were imprisoned, all of them looked ashen and hopeless.

When they looked at the dark throne in this space, their hearts trembled even more, and their fear reached the extreme.

A man in white was sitting on it as if waiting for someone to arrive here. Beside him, the black-haired man transformed into the avatar of the Will of Heaven, speaking in awe.

Chapter 650: With all things as ruminants, This is a death game

Dark and profound fog surged in this space, filled with an aura of despair and death. Overhead, the stars flowed, and the chaos was vast as if a precursor to the end of the legendary universe.

Many incomparably strong dark cages, forged from unknown dark gold, were suspended in the surrounding void, floating up and down. From time to time, purple thunder would strike down, causing the struggling cultivators and spirits in them to grunt and tremble.

Not to mention the Sword Immortal, even if an Enlightened being was imprisoned here, it would be impossible to break free. This space was incomparably vast, and the surrounding area was even more boundless with an unknown latitude.

Everyone looked desperately at the blurred white figure in the distance, fearful to the extreme. They had never thought before that the person who single-handedly caused the ultimate catastrophe of the Jianxuan World would be such a young man.

This was simply unimaginable, no matter who it was and who knew this truth, they would tremble in fear with chills all over his body.

In the center, a dark throne was suspended and Gu Changge was sitting on it. His face was blurred and ancient, with a god-like indifference and majesty. His gaze fell and slowly swept over all the Sword Immortals being held here, finally nodding gently.

In these few days, the only remaining Sword Immortals in the Jianxuan World had all been captured by the Will of Heaven and were held here. There was almost no one left behind, except for some missed fish whose aura couldn't be sensed.

"Dare I ask Your Excellency, when will this sacrifice begin?"

The black-haired middle-aged man transformed by the Will of Heaven still had the same sturdy and tall appearance, with thick hair and eyes like stars, as profound and vast as the vast ocean. But in front of Gu Changge, he was still incomparably respectful and fearful. After all, his life was being held in his hands and could be dissipated at any time.

For Gu Changge's arrangement, he also did not dare to hesitate to refuse.

"Wait a little longer, there are still some people who have not arrived." Gu Changge gently shook his head. Although his gaze was calm and waveless, the depths of his eyes were indifferent, without the slightest emotional fluctuation.

"I know." The Heavenly Will incarnation was silent and nodded.

At this moment he even felt that Gu Changge was even more like the Heavenly Dao than he was. Cold and indifferent, treating all things as ruminants and ants.

Buzz!!!

As Gu Changge's sleeve flicked, the void in front of him became blurred, and then a scene emerged from it.

Everything that happened in the entire Jianxuan world was reflected and manifested here. With calamities sweeping across the land, the sky crumbling, the sea drying up, and the rivers devastated.

Stars fell from beyond the sky, dazzled with red fire, constantly smashing down on the earth, followed by horrible deep craters and cracks. Many cultivators and beings were too late to escape and were hit by these stars, instantly turning into ashes and mud, their bodies and souls were destroyed.

Billions of beings wailed as they watched the entire world collapse and shrink as if held tightly by an invisible hand which was slowly closing up. The vault of heaven was shattered as large chunks collapsed and fell off. The divine fires spread to all parts of the earth as everything along the way was burned into ashes.

It was a desperate and dark scene. Even if it was a powerful cultivation generation, at this juncture, the heart and soul would also be trembling in fear and they could only think of ways to escape to the central area. But when the collapse of the area swept to the central area, the world would be not far from destruction.

At that time everyone would die, and no one was an exception. In addition to the Jianxuan Great World's native cultivators and spirits fleeing for their lives, the armies of the Upper Realm that had descended to this world were also fleeing.

Ancient warships turned into streams of light and sped through the heavens and the earth at a great speed, dodging the crumbling void turbulence and the falling stars. Heaven and earth collapsed, order and laws destroyed, and the aura of destruction was everywhere.

One of the most unsafe areas was beyond the sky now that the cosmic tunnel back to the Upper Realm was closed. Everyone was left with only one way back, and that was to escape to the central region of the Jianxuan Great World.

Or to rescue the Ancestors of the clans who were trapped somewhere to see if there was a ray of hope for survival. The black fog that arrived from the unknown land spread and enveloped many cultivators.

Soon they spewed blood from their mouths and noses, quickly drying up, as if all the vitality and essence were being swallowed up, turned into the black fog's nutrients. Such a black fog was now enveloping every corner of the Jianxuan world.

And it was still surging toward the most central area at a terrifying speed. There was almost no way to stop it.

"It seems that the only way now is to save the Ancestor first. Otherwise they will definitely be trapped in this world and will not be able to return to the Upper Realm."

On the ancient warship, many figures stood, staring at all of this with grave faces.

They did not know Yu Feiya's purpose yet, but only thought of taking advantage of the chaos in this world to help their Ancestors who were trapped somewhere.

After all, only with the power of an Enlightened being could one have a chance to find the coordinates of the Upper Realm, reopen that cosmic tunnel and return safely.

Yu Feiya's heart was somewhat awe-inspiring as she seemed oblivious to the many voices of conversation around her. She looked at the terrifying scene below, and also felt her heart palpitating. This was an ancient world in the process of collapse, like a horrible black hole spreading and swallowing everything.

All the living beings and cultivators were buried in it. Even the ancient beasts living in the deep sea could only let out a scream of resignation before being swallowed by the ruptured void turbulence.

The world's majestic power rumbled down, even the stars were tiny as dust, let alone living beings.

"I just hope that he will keep his promise and let us go, otherwise all of us will not be able to leave alive." Yu Feiya sighed softly in her heart.

She wasn't sure if Gu Changge could spare them either, but following Gu Changge's orders was indeed the only way to survive.

"The place where the old Emperor is trapped should be just ahead, when the time comes, I hope all of you will join forces."

Soon, Yu Feiya rectified her mood and regained her composure as she spoke to the powerhouses of the clans behind her.

Up ahead was the central area of the Jianxuan Great World, and the area that had not collapsed now. Countless cultivators and beings, as if crazy, were flocking there, trying to find hope of survival.

Yu Feiya listened to Gu Changge's arrangement and drew armies of various forces to this place. She already had a guess in her mind, a feeling of what would happen next, so she felt a wave of palpitations and chills.

If she hadn't seen it with her own eyes, she wouldn't have believed that such a ruthless person would be the leader of the young generation of the Upper Realm, the strongest person revered by countless young geniuses.

At the same time, in the central area of the Jianxuan World, a magnificent and tall palace.

Yi Jianxian, Snow Sword Immortal, and others, who had been released, were also discussing matters with the only remaining powerhouses in this world today.

In this palace, there was a square Sword Casting platform, surrounded by various multicolored sacrificial stones, emitting a haze of light. A path was reflected in the darkness, which seemed to be pointing somewhere.

"It seems that the rest of the Sword Immortals are being held there, so if we follow this path, we can find them," a Sword Immortal said with some cheer.

When the rest of the people, such as the Yi Jianxian, heard this, they also nodded and breathed a long sigh of relief, it seemed that there was no other way. Before projecting that space, they had prepared everything long before, so after finding the path, the vast army outside the palace arrived, along with all of them heading there to attack.

This was almost the most powerful force that could be assembled in the Jianxuan Great World now. All of them held the determination to duel with the Will of Heaven to live and die.

"After seeing Young Master Gu from afar outside the Ancient Xuan ruins at that time, I never saw him again."

"It seems that he should have returned to the Upper Realm, perhaps we will never see him again."

In the army, Princess Xuandie and Ah Qing were also present. She looked at the distant sky dome that was breaking apart and couldn't help but sigh softly with regret.

Three days ago, an old Emperor of the Southern Ming Dynasty who had been secluded for a long time was also captured. Before this, they did not know that the Southern Ming Dynasty had such an old Emperor who had entered the Sword Immortal level.

So this time to rescue the old Emperor, the Southern Ming Dynasty almost sent out all its forces, and even she, the princess, was not spared.

"This time to rescue many Sword Immortals, I'm afraid that we will die ten out of nine, perhaps then the Ancient Xuan ruins will be the last place to survive."

A Qing's small face also had a touch of regret, shaking her head with emotions hidden. Which girl was not nostalgic?

She was naturally no exception. But this admiration had never been revealed and she also understood that this was impossible.

In Gu Changge's case, the action at the beginning was just a simple compassionate feeling. The two were not even in the same world, if not for that chance, there would not have been any encounter.

Wooooooo!

The ancient sound of trumpet blowing sounded, everyone's heart surged, and their morale uplifted.

The army of the Jianxuan Great World assembled and opened up the path, following the one deduced to rescue the Sword Immortal who had been captured by the Will of Heaven.

Yi Jianxian, Snow Sword Immortal, and others took the lead and opened the path ahead. This was a terrifying force that could not be underestimated, the vault of heaven was trembling as the vast army was covering the sky and sweeping everything away.

The number was not exactly trillions, but a hundred billion was definitely possible.

"Attack!"

Endless and endless roaring voices arrived from a distant land, containing an endless murderous aura that seemed to run through the ages and wash everything away. The vast army finally came to this place and broke open all the scenery, to find this deep and dark place.

The dark cages were suspended with dense laws of order intertwined, trapping all the captured Sword Immortals. Around this space, a cluster of dark divine fire was burning, incomparably horrible, refining the figures in the cage.

"What?"

Everyone was stunned and stood frozen in place, having trouble believing all of this.

Snow Sword Immortal, Yi Jianxian, and the others, even turned pale. Their bodies densely covered with cold air, trembling uncontrollably as if they had fallen into a terrifying layout.

"Are they finally here?"

In the dark and secluded space, Gu Changge sat on the throne, looking at the scene in front of him and a faint smile appeared at the corner of his mouth. And as his words fell, from the depths of this space, there was a heavy sound of clicking, a terrifying chain pierced out, directly penetrating everything.

And then, these chains spread out, each one thick as a mountain range as if forged by the supreme immortal gold emanating different colors, faint immortal light drawing the origin of this world.

"My lord, should I also make a move?" Seeing this, the true body of the Heavenly Will was aghast in his heart and hurriedly arched his hand.

He understood that Gu Changge was starting to extract the origin of this world and intended to sacrifice this world, all living beings would become his nourishment. The maturation of the origin of the world was so difficult.

Even he had gone through a lot of trouble to find such a glimmer of opportunity, intending to take advantage of this time to break the seal and condense the origin of the world, so as to take the final step. But he didn't want it all to be a dowry for Gu Changge.

"Let's do it." Gu Changge said indifferently, with no emotional fluctuations in the depths of his eyes.

He was only condensing the world's origin, as for the sacrifice of this world, it actually had nothing to do with him. Therefore, even if there was a great cause, it would only fall on the body of the Heavenly Dao.

When the world's origin was in hand, erasing the Will of Heaven was just a small matter for him. The catastrophe, the heaven and earth's reincarnation was also in accordance with the laws of order.

When countless years later, this world in chaos reopened, everything would also be reborn, after all, this was reincarnation.

"In that case, let it begin, I have waited for this day, and I have waited for too long."

At these words, a morbid intent appeared on the face of the Will of Heaven, looking at everything that was filled with despair and destruction. It began to use the authority of the Heavenly Dao, pushing the mill wheel of extinction, rumbling and rolling down to crush.

Endless black fog diffused out, and in an instant, it enveloped tens of millions of miles of territory. At this moment, the Jianxuan World finally came to an end.

The endlessly large world-extinguishing grinding disk with no visible boundaries, rumbled down from the sky, slowly pushing, grinding away all traces and rules.

All the cultivators and living beings were wailing, breaking, and rotting, returning to ruins into everything, black blood filled the sky, like a fiery hell on earth.

"What the hell is this?" Among the armies of the Upper Realm, there was panic at this time, and everyone was horrified.

Even Quasi-Emperor existences were crushed by this aura and then submerged by the black mist, wailing and then choosing to explode themselves, trying to get away.

It was a horrifying sight of annihilation. In all directions, ancient sacrificial texts suddenly lit up.

Along with a blood light rushing to the sky, miserable cries and despair filled the air. Large swaths of cultivators and creatures were too late to hide as they turned into energy.

The strange rituals were ignited and turned into formation patterns, spreading to all directions of heaven and earth. The mountains collapsed, the earth crumbled, and the vault of the sky broke and it was an appalling and shocking sight.

At the same time, there were words flickering in the pitch-black void space, like immortal gold imprints, more dazzling than the stars. This was an ancient sacrificial text.

In ancient times, these were the words that the Ancestors chanted when they offered sacrifices to the heavens.

At this time, everyone heard the sound of chanting scriptures resounding in heaven and earth, vicissitudes and ancient, like crossing the epochs, with gods and demons sitting in the sky, huge and boundless, compassionate for all beings.

“The rescue of the old Ancestors of the clans was a bait, attracting all of us here, taking advantage of the closure of the passages of two worlds, lending the lives of all people, igniting the sacrificial text”

“With the power of the sacrificial text, it will sacrifice one side of the world to nourish this place.”

“This is too ruthless, using all of us as nourishment to nourish something else! What the hell is this?”

On an ancient warship, all the cultivators of the Upper Realm looked dumbfounded, their faces shocked and pale, incomparably horrified and desperate. Even the Quasi-Emperors were trembling, terrified to the extreme.

“You...” Staring at the calm-looking Yu Feiya, many powerhouses shook with anger, all the anger as well as hatred after being deceived.

“I was just following orders, so don’t blame me, gentlemen.” Looking at the world-destroying grinding disk that gradually fell toward this place, Yu Feiya stood on the ancient warship with an extraordinarily calm expression.

Many people instantly figured out Yu Feiya’s move, this was completely a setup to lure everyone here!

Now, it was the real call of the day and no one could save them! Even if the Upper Realm learned of the situation here, they could not rush over to rescue.

They were cold, sacrificing a great world in order to nourish something. This kind of thing, in fact, happened before the ancient era. But it was only Immortal Masters who had fallen into the darkness that would do this kind of harm to heaven and earth because it would be like a revolt by heaven and earth.

Especially in the ancient Jianxuan world, which had a terrifying fortune, the repercussions were even more terrifying. The true Immortals couldn’t stand it, and it was unimaginable.

No one expected that this trip down to the world to conquer would become a deadly situation, and everyone would be turned into nutrients.
