Chapter 651: There is no value in continuing to resist, The appearance of the world's origin (1)

“Whose orders are you following, to lure us here like this?”

On top of the ancient warship, all the powerhouses of the Upper Realm felt chills all over their bodies. Their faces were frightened as they stared deadly at Yu Feiya with a murderous aura and anger.

At this time, even the most stupid people reacted to the fact that rescuing the Ancestors of the clans was a lie used to lure all of them to this place so that they would not return to the Upper Realm before the cosmic tunnel was closed.

At this point, probably all of them would be buried there, following the beings of this world, turned into the sustenance of sacrifice.

Yu Feiya's face was elegant and beautiful, standing at the top of the ancient warship.

At this moment, she was extraordinarily serene, her hair was dancing lightly, her face was like jade and her beauty was incomparable. She looked away at the deep dark place, then gently smiled and said, “By now, you still can't see who is leading all this behind the scenes?”

“What you mean is... Could it be Gu Changge?”

“It's him!”

“It's definitely him, no one other than him has the guts to take on such great karma.”

Hearing this, many ancient Quasi-Emperor existences first froze before reacting. Their faces changed drastically, permeated with fear, as well as disbelief. They concluded almost instantly that Yu Feiya was working for Gu Changge.

Even if there was a heavenly figure in this Jianxuan World, they would not dare to calculate against everyone like this, so after thinking about it, they thought of Gu Changge.

Because since his disappearance from the Ancient Xuan ruins, Gu Changge had not appeared, and no one knew for sure if he had returned to the Upper Realm. Besides Gu Changge, there was no one else who could do all this!

“Why would he do this? Isn't he afraid of this heavenly karma?”

“How dare he!”

On the ancient warship, the many young supreme beings who had not yet left this world had faces that were also filled with panic.

They didn't want to die here. They still had a bright and a glorious future waiting for them, to become an Enlightened being, to look down on a thousand ages, to be invincible.

Now, this world would be destroyed in the catastrophe, even if they had great talent, they would also perish here and turn into dust.

Yu Feiya gently shook her head and gazed at this group of young supremes with a little pity. By now they still couldn't understand, it was not a question of whether he dared or not.

Rather, the two of them were now at a different level long ago. In the eyes of Gu Changge, everyone was no different from a mole. They were just a tool for him to move further on the road to success.

When he was in the Upper Realm, Gu Changge did not dare to show it, but in this Jianxuan world, was there anything he did not dare to do?

"Then, in that case, the Ancestors of the clans that disappeared before were actually killed by Gu Changge as well?"

"Including that old Emperor of your Great Yu Immortal Dynasty who was also killed by him. Then why are you still acting as a helper for the tiger?"

Many people shook with rage, their words carrying fear and despair, completely unable to understand Yu Feiya's actions.

She had actually disregarded such a great feud and assisted in listening to Gu Changge's words to draw the armies of the various forces to this place. What exactly was her intention?

However, Yu Feiya no longer had the heart to answer the words of the crowd. She lifted up her long hair and looked far into the sky. The terrifying and vast aura of extinction was slowly descending.

n0VeLusB.c0m

Even though the many ancient warships around here emanated countless radiant runes before turning into surging energy, trying to resist, it was also in vain. Everything was rapidly crumbling and disintegrating, countless runes were worn away.

The terrifying world-extinguishing mill was incomparably large, spanning between heaven and earth, entwined with hundreds of millions of strands of red haze, slowly crushing down.

The void cracked, and meteors fell from the sky, scorching everything into ashes. An ancient warship tried to gallop away but was soon swept away by the fluctuations.

All of them were submerged in fear and despair. Their bodies kept cracking, swept away by the fire, burning up, together with their souls, turned into ashes.

Even the Jianxuan world was collapsing, the void was cracking, the earth was overturned, and volcanoes were erupting. Cultivators and beings could not survive in this.

On all sides of the earth and sky, an ancient ritual was ignited. There were ancient gods and demons in trance sitting at the end, chanting for all beings to live. These sights were so appalling that a dark fog descended, blotting out all the light.

"Ignite the sacrificial text, sacrifice everyone, and then condense the origin of this world. It seems that this is his ultimate purpose." Yu Feiya sighed softly and watched as an ancient warship by her side quickly collapsed. The light shield fragmented and then shattered as if it were a broken egg.

This kind of power was definitely not humanly possible to stop. Only a true Immortal might be able to resist it.

“This... This...”

“What exactly is this place?”

At the same time, in the midst of that deep and dark space, the vast army of the Jianxuan World descended, breaking through all obstacles, finally getting to see this place. But when everyone saw those ghastly dark cages, they all froze, unable to help themselves from trembling and shivering, their bodies chilled with fear to the extreme.

As far as the eye could see, it was as if the dark cages were suspended in the deepest hell, surrounded by a destructive aura with black fog surging. One was unable to see the edge, making people’s hearts palpitate and tremble.

“That’s one of my Mount Kong’s Ancestors, he was captured here.....”

“Master Ancestor, I’ve come to save you!”

Among the army, a middle-aged man dressed in Daoist robes trembled, recognizing the figure held in a cage in the middle not far away.

A few days ago, that Ancestor was taken away by the red chains that arrived from the sky. His cultivation had long entered the Sword Immortal level for many years, and had not come out of seclusion. But now, that figure was as dry and thin as wood, surrounded by black divine fire, emitting silent howls of misery, with incomparable despair and fear in his eyes.

In addition, in the surrounding cages, the crowd also gradually saw familiar figures.

Even Yi Jianxian, Snow Sword Immortal, and others changed their expressions. They saw many old acquaintances who were now suffering and delirious. This place was like the legendary nine hells, permeated with despair and destruction as everyone was shuddering.

“These cages can’t be broken, there are terrifying prohibitions on them...”

Some people saw this and tried to save the many Sword Immortals imprisoned in the cages, but before they could get close. They were split into ashes by a silver lightning bolt that fell from the depths of darkness, and it was too late to even scream.

Yi Jianxian and others were all aghast and hurriedly asked the crowd to stop, not daring to touch it again. Even the Sword Immortal, who was imprisoned in it, had no way to get out. They, who came from the outside world, were afraid that there was even less they could do.

“Then what should we do, should we just watch the seniors trapped in it and suffer?”

Princess Xuandie saw her own old Ancestor in a dark cage, also with a miserable and inhuman appearance. She felt unbearable and could not help but ask.

“It’s hard to open but it’s definitely not impossible. Since they were originally captured by the Will of Heaven to this place, then there must be a way to save them.”

“The most urgent task now is to find out where the Will of Heaven is and exterminate or seal it,” Snow Sword Immortal gently shook his head and said, indicating that Princess Xuandie, Ah Qing, and others should not be anxious.

Princess Xuandie saw her master saying this and did not continue to ask. Yet for some reason, her heart was always a little uneasy. Although this place had gathered all the power and powerhouses that could be gathered in the Jianxuan Great World. But that feeling of danger and uneasiness was always lingering in her heart.

“I heard that you are looking for me.” Suddenly, at that moment, deep in this deep space, a frighteningly cold sentence rang out, carrying a hefty heavenly power.

The void trembled, and a vast silver thunder descended from the sky, like a dragon of destruction, to sweep the world.

A tall indifferent figure emerged with thick black hair and deep eyes, surrounded by a blur of world light as if the god of the world. He appeared from the silver sea of thunder with a horrible aura that made everyone change their expression and they almost suffocated.

“The Will of Heaven is this guy?”

Yi Jianxian had gone through many canonical books during this period of time, so he concluded at first glance that this figure in front of him was definitely the Will of Heaven they were struggling to find.

At first, they had placed their hope of resisting the extraterrestrial Heavenly Demon on it. But unexpectedly, the Will of Heaven was even more indifferent and terrifying than the extraterrestrial heavenly demons. It actually intended to extinguish the world and destroy it.

“It is this person who is trying to destroy this world that once nurtured countless cultivator beings.”

The rest of the Sword Immortals’ expressions also gripped, staring deadly at this figure that had manifested.

“As long as we wear him out or seal him, all of this can be restored to its original state.” Someone roared lowly with a strong hatred surfacing in his eyes.

There was hatred and anger in everyone’s eyes, a murderous aura that wanted to shake this heaven and earth. They didn’t know why the Will of Heaven was destroying all this, and they didn’t want to know.

To them, it was this person in front of them who wanted to destroy their homes and their friends and family. The person in front of them was the culprit for the Jianxuan Great World to become like this.

Chapter 651-1: There is no value in continuing to resist, The appearance of the world’s origin (1)

Chapter 651-2: There is no value in continuing to resist, The appearance of the world’s origin (2)

“Humble ants, it is your last honor to become the sustenance sacrifice of this Heaven and Earth, and you still think of resisting.”

The Will of Heaven itself swept over everyone. Its face was cold, very different from the fearful look it had when in front of Gu Changge.

Even those who had become Enlightened were no more than that in his eyes, let alone such a group of Sword Immortals in front of him, who were simply no different from mole crickets.

“Since the Ancestors can seal you, we can do the same!” *n0veLusB.c0M*

“Don’t you dare underestimate us! Evil will not prevail, justice will prevail!”

Some veteran Sword Immortals were shouting, their bodies glowing brilliantly, their sword aura clanging, there were millions of Dao, slashing toward the body of Heavenly Will, wanting to fight with him.

“Attack!!!”

The rest of the Sword Immortals here also shouted in anger, turning into streams of light and attacking the front. The vast murderous swept through this space, like a vast sea lashing out.

“We have a special power within us, as long as we combine our strength, we can definitely defeat the Will of Heaven.”

A blue-colored Dao sword blossomed in his hand, seemingly capable of leveling the sky and destroying all things with a single sword.

At one time, an infinite army of people attacked, hundreds of billions of terrifying lights were blooming. There was a huge amount of runes intertwining, filled with the most powerful aura.

The blood and bones of every one were glowing brilliantly, and the essence contained in the deepest part of the divine soul was stimulated, to fight to the death with the Will of Heaven itself.

This was like a flood of water breaking the dam, the mountains and rivers rolled back the aura, overwhelming Heaven and Earth, breaking through all the rules.

A dark cage suspended here also trembled continuously, seeming to fall down.

“It’s this damn Ancestral talisman again”

Seeing this scene, the Will of Heaven’s face finally changed a little. He was not as casual as it was just now. He had actually suffered such a loss a long, long time ago.

The creatures of the Jianxuan Great World contained a gifted spirit sword within their bodies. This innate spirit sword was actually made from an innate Ancestral Talisman from an extremely ancient period.

That innate Ancestral Talisman was extremely mysterious, and some said it was the door of all wonders, the image of all beings, and could evolve everything, but no one was clear what exactly it was.

But later, for reasons unknown, the Ancestral Talisman broke up one day and turned into countless fragments, flying to the eight directions of Heaven and Earth as it integrated into the bloodline of all the spirits of Heaven and Earth.

The ancestor of the Ancient Xuan God Dynasty discovered this secret, and only then gathered the power of all beings to exterminate the Heavens and seal him.

“Even if you could seal me again, what would be the use of that? By the time you discover the truth, you will only be more desperate; it was all predetermined long ago, and there will be no possibility of changing it. Even if I am just a pawn, in the end, I will be the sacrifice,” the Heavenly Will’s body said indifferently.

A black hand appeared across the sky, behind a terrifying great grinding plate in the appearance, in which the six portals flicker light, and infinite mysteries emerged. This was the display of the authority of Heaven.

The mill wheel of extinction crushed through, and all the laws and orders that rushed in were quickly shattered.

Six of the portals opened up, like six ancient fierce demons opening their huge mouths, which could devour the universe. The flood, breaking up all the sword lights that came to attack.

Although the words of the Heavenly Will felt a little strange, at this time, the crowd could no longer care so much, and their heart was supported by a killing intent!

Yi Jianxian, Snow Sword Immortal, and others, all attacked crazily, with eyes full of hatred, determined to kill the Will of Heaven. This was an absolutely overwhelming strength gap, the black hand slapped down, like a huge wave from the deep sea.

Large swathes of cultivators could not even make a muffled grunt before bursting into pieces, turning into a blood mist. Their bodies and souls were destroyed, turning into majestic energy.

This battle was incomparably tragic and didn't last long. All of them attacked without fear of death, but they could not even touch a corner of the robe of the Heavenly Dao will itself. By the end, many people were even desperate, unable to see the slightest chance of survival.

"Attack!" Yi Jianxian and the others had already attacked with red eyes, their bodies covered with wounds and blood.

They roared, putting life and death on the line, at this time their essence and spirit vaguely emitted a resonant sound, as if there were mountain torrents flowing and the sea roaring.

Everyone's aura and blood seemed to be connected together, running through the heavens, as if the legendary star river was a pitcher, incomparably magnificent.

Boom!!!

A blurred ancient deity, wearing a beast skin dress and holding an ancient stone weapon, was actually coalescing and floating at this moment. It was incomparably tall, as if standing on the top of the dark clouds, to fight with the Heavenly Will itself.

"Ancestral Symbol Reincarnation?" The Heavenly Will's body changed its expression, and once again saw this suppressed sight.

Yi Jianxian and the others were also dumbfounded, not expecting that at this time, such an overwhelming figure could be summoned. That aura of swallowing all the ages was truly trembling. However, they did not have time to think too much, this worldly figure appeared in front of them, and already attacked the Will of the Heaven with them.

In just a moment, more terrifying fluctuations were sweeping in, directly piercing through this space, allowing them to see the tragic scene outside the Jianxuan world. Countless sacrificial rites were ignited from everywhere, and all the cultivators who died were turned into surging energy and became sacrifices for this world.

"The power that sealed the Will of Heaven originally came from here, and it seems that this is the key to the origin of the world. The so-called sacrifices are only acting as a primer."

Gu Changge stood in the deepest part of this space, watching all this from a distance, and his expression did not fluctuate.

In his opinion, this worldly figure condensed out was obviously the origin that pervaded all parts of this Heaven and Earth.

In the next moment, his palm raised as it fell down, and immediately there was a vast sound reverberating throughout the world, covering millions of miles.

Buzz!!!

A mountainous and terrifyingly thick chain stretched across Heaven and Earth, passing through this universe, seemingly rooted in the deepest part of this world.

At the back, blinding and brilliant runes began to appear above these chains. A mass of laws and orders transformed into light and wrapped around them, drawing from all sides of Heaven and Earth.

All of the chains above were dragging a cloud of hazy light, only the size of a fist, but there was a world-like majestic aura in the surging and sinking. It could collapse in ten thousand years.

“The original prototype of the world, but it’s still not enough, maybe it’s just right...” Gu Changge looked at these chains held above the muddy glow and gently shook his head, followed by a step from this space.

As he walked past, a deep and dark avenue extended, swallowing up the many dark cages on either side. Many of the figures imprisoned therein were swallowed up in an instant, and not a trace of them remained.

Vast energy, guided by the sacrificial text, converged toward this place.

In the depths of the space, the figure that was fighting with the Will of Heaven was also affected by this dark aura. Its figure became blurred, making it difficult to continue to solidify.

“Not good...”

And in the moment of perceiving this aura, the face of the Will of Heaven immediately changed, with some shock and resignation.

“You promised me that you wouldn’t erase my spiritual intelligence as long as I do the work for you.”

As soon as he understood Gu Changge’s intention, his face was almost twisted as he stared into the dark depths, permeated with fear as well as anger.

The people of the Jianxuan Great World, including Yi Jianxian and Snow Sword Immortal, looked at this scene in shock, completely unable to understand what was happening.

Why did the Will of Heaven, who happened to be fighting with this unrivaled figure, make such a desperate and unwilling voice?

Such a voice really made them shudder, which contained much unwillingness and deep despair.

“I never said that I would let you go. You seem to be thinking too much. Besides, you have also assumed the karma that should be borne. You’re not letting me keep your worth right now.”

Gu Changge shook his head lightly, his expression seemed a little regretful, and his figure slowly stepped out from the darkness. He spoke lightly as if he was just explaining a simple fact.

But the information contained in the words made everyone feel chills all over their bodies, and they were so terrified that even their souls seemed to be frozen.

Yi Jianxian, Snow Sword Immortal, Princess Xuandie, and others were even more stunned, unable to believe everything in front of them.

“I caught everyone for you, and I took all the karma for you. After the incident, you just crossed the river and demolished the bridge like this. You are so cruel...”

Seeing that Gu Changge had no intention of letting go of himself, the Will of Heaven let out a miserable smile filled with strong resentment and unwillingness. His body constantly collapsed, turning into light rain and dispersing.

Originally, his life and death were under the control of Gu Changge. Now Gu Changge only needed one thought to destroy him. Even if he controlled the authority of Heaven, and had great spiritual energy and power, it was useless.

Chapter 652: The new birth after reincarnation, The end of this world

Boom!!

The world was overturned, and everything was reduced to ashes. In this space, all the laws and order were collapsing and shattering, crumbling into ashes. There was an endless sea of thunder intertwined here as the body of the Will of Heaven was constantly melting, and its sound gradually disappeared.

In the eyes of everyone, the last roar of unwillingness was like a desperate and unwilling roar of an ancient giant, denouncing the injustice in this world. But now that everything had settled, there were no surprises.

Such a terrifying Will of Heaven, which regarded all living beings as ants and was almost invincible, turned into a light rain just like this and dissipated before everyone’s eyes.

“Is it over? Is it all over?”

“The Will of Heaven has been wiped out, and our world has returned to normal?” Someone murmured in a low voice, and his mind was already blurred.

This scene was so unbelievable, like a dream, that it made everyone in the Jianxuan Great World tremble and fear. It was hard to believe that this would be real. Everyone looked at Gu Changge who was walking peacefully, with unconcealable fear and disbelief on their faces.

Yi Jianxian, Snow Sword Immortal, Princess Xuandie, and others knew Gu Changge quite well, but at this moment, they couldn’t help but tremble slightly. Their whole body was icy cold. This feeling was even more terrifying than facing the Will of Heaven.

If it wasn’t for Gu Changge’s sudden appearance, they wouldn’t even dare to imagine that all of this was actually controlled by him behind the scenes. Even the Will of Heaven was nothing more than a poor pawn in his hand.

Now that the value of this pawn was exhausted, Gu Changge ruthlessly discarded it.

“So, Mr. Gu, you let us go for this day?”

Yi Jianxian, Snow Sword Immortal, and the others had a strong bitterness on their faces. They figured out what it was like when they were imprisoned in the dungeon of the heavenly demons.

At that time, they still kindly thought it was because of Gu Changge’s soft heart, and he didn’t want to cause more killings. But they never thought that all of this was his plan. They were only released because he wanted them to lead the army here and become the nourishment for the sacrifices.

Everyone was his pawn.

“It seems that you are not stupid. Why? Are you still thinking about resisting?” Gu Changge shook his head lightly and replied. His expression was calm, without any emotional fluctuation.

Whether it was before or now, this group of so-called Sword Immortals were no different from ants in his eyes. They could be destroyed by raising a palm, so why stand in the same world with them and pay attention to principles?

“Is our resistance still useful?” The eyes of Yi Jianxian, Snow Sword Immortal, and others were full of despair.

Princess Xuandie, Ah Qing, and the others also had pale complexions, looking at Gu Changge who seemed very strange to them, not far away. It turned out that all of this was their own thinking after all.

From the very beginning, Gu Changge came to this world with a purpose, but they were too stupid to notice it. This situation, he had been spreading it for too long, so long that everyone was deeply involved in it without their knowledge.

They couldn’t help shivering, fear reached to the extreme. How could there be such a terrifying person in this world?

“Maybe you can try, after all, there is still hope.” Gu Changge smiled lightly, and walked slowly. Darkness spread behind him, but the depths of his eyes were filled with indifference.

“Master Gu, why are you doing this?” Princess Xuandie and the others laughed bitterly, unable to accept this fact.

However, Gu Changge’s eyes did not fall toward where they were, he seemed to have never heard this from the beginning to the end and was indifferent.

“Attack!”

A Sword Immortal with red eyes roared and rushed forward. His whole body turned into a dazzling sword light, ignoring the obstruction of the people around him, he wanted to fight Gu Changge desperately.

He watched those dark cages being swallowed by flames with his own eyes, and the many figures imprisoned in them disappeared without even screaming. How could he bear such a scene?

Now that he knew that the culprit of all this was Gu Changge, the only thought left in his mind was to kill Gu Changge. However, before this Sword Immortal approached Gu Changge, a burly and tall figure emerged and a spear swept across, pointed at his forehead as fast as lightning. It pierced through his eyebrows in an instant.

Then the wrist turned, the corpse flew out and exploded in the void, and he died on the spot.

Alpha appeared with an indifferent expression, wearing dark iron armor, like a god of war emerging from the depths of hell. His eyes were slightly scarlet, and he slowly swept across the people in front of him, without saying a word and just stood in front of Gu Changge.

All the cultivators who wanted to attack trembled when they saw this shocking scene. Not to mention Gu Changge, just his subordinate was enough to destroy everyone here.

At this point, they finally understood why the Will of Heaven would say that when they understood the truth, they would only become more desperate. Because they were already doomed, facing an enemy like Gu Changge, was there any hope of resisting it?

“Even if we know that there is no hope, we have to fight, otherwise how can we be worthy of the many seniors who died here.”

“How can we be worthy of the blood shed by them?”

Seeing the low morale and despair hanging over everyone’s heads, an extremely old Sword Immortal roared.

He stepped forward, away from the army, and even ignited his last energy before turning into a ball of flame, and rushed forward, fearless of death.

“Yeah, we can’t despair yet, we still have one last chance.”

“Isn’t it the same just now?”

Seeing this, someone came to their senses, back from despair as they gritted their teeth, and roared, igniting the light of hope again.

“Yeah, until the last moment, how can you say there is no hope?! Hope is in people’s hearts!” Yi Jianxian was also roaring, sweeping away the despair and depression just now as he attacked with the other Sword Immortals.

But at this time, it seemed that due to the influence of their emotions, the unrivaled figure that was already filled with darkness, which had already become illusory, suddenly burst into immeasurable light and became more and more resplendent.

All of a sudden, even the strands of his hair became thicker and thicker. Each strand was like a galaxy, shining brilliantly, extremely big, hanging down, surrounded by immeasurable light.

“Attack!!”

Everyone couldn't help looking at the unrivaled figure standing on the top of the dark clouds with hope in their eyes. This was the existence that was summoned when all people were connected together, and it contained the unyielding Will of people.

Just now, he fought thousands of rounds with the Will of Heaven and was almost invincible. The current aura was even more powerful and terrifying. With every gesture, endless rays of light and an auspicious aura resonated.

"The Ancestral Talisman mentioned by the Will of Heaven may be the origin of an existence that once stepped into the Immortal Realm..."

Looking at this ancient figure in an animal skin dress and holding a bone stick, Gu Changge suddenly realized something.

The reason why the Will of Heaven was born in this Jianxuan world was probably that this world was opened up by an Immortal Realm existence or conceived by a corpse after death.

After thinking about all this, Gu Changge didn't hold back and directly raised his hand to press it forward. The vast fluctuations surged, turning into a monstrous cloud of magic, instantly engulfing this space.

All the rushing cultivators and creatures collapsed under this force. Their bodies and spirits were destroyed, and their bodies cracked and turned into blood mist. Compared with the battle with the Will of Heaven just now, this battle was obviously more tragic.

A large number of cultivators and creatures charged toward Gu Changge. But before they came into contact with him, they were crushed by the majestic force, unable to groan, and directly burst into pieces.

It was like a dead leaf smashed by violent waves in the sea, it couldn't even stir up the waves, and it was incomparably small.

This was an absolutely crushing power. The void collapsed, the world dried up, and terrifying chains like mountains spread from the depths of darkness, absorbing the power of this world.

That ball of misty brilliance was also rapidly solidifying and growing, slowly transforming from a prototype to a mature one.

Gu Changge looked indifferently, watching many sacrificial rites around him being ignited before gathering all their energy. But in his opinion, the origin of this world still lacked something.

"It seems that I still need to swallow you in the end, only then will this origin become perfect."

Gu Changge took the initiative to strike, and the Eight Desolation Demon Halberd fell horizontally like a shattered light with the invincible power to overturn the ages and break the river of time.

Clang!

Clang!

Clang! n0Velu**S**b.c0m

In the empty space, endless halberd light emerged and bloomed. It was terrifying and vast, one ray could destroy a universe!

Boom!

In just an instant, all the laws and creatures in front of him were shattered, turned into ashes, and disappeared. This kind of divine power was unbearable even for the universe, let alone a living being.

Yi Jianxian and others who had been attacked exploded immediately, their spirits and souls were destroyed, and there was nothing left.

Rumble!!

In the darkness, big stars were spinning and condensing as they all fell down.

The unrivaled figure transformed by the power of the Ancestral Talisman, with cold eyes like a front, fell toward him as if he was about to wake up from a distant and unknown location.

He seemed to have heard the prayers of all living beings in this world, gathered the beliefs and hopes of all living beings, and walked out from the time channel.

The voice of the Great Dao resonated, various celestial phenomena appeared, ancient saints knelt down, and demons bowed their heads.

“Demon!”

There was the sound of the urn in his mouth, which was inaudible. It was not the language of this period, it was too old. But the meaning contained in it could be understood by everyone.

Boom!!

He was attacking Gu Changge, surrounded by vast runes. Countless lights turned into divine weapons, thousands of them, extremely bright, all rushed forward.

This was the power of the great destruction of the world, unpredictable and unspeakable. It could no longer be described in simple words.

Buzz!!

A halberd light traversed, extremely cold, and hundreds of millions of strands of demonic energy entangled and swept away, directly smashing away these runes.

The Eight Desolation Demon Halberd slashed down, crossing a distance of tens of thousands of miles in an instant, and slashed under the gap between space and time.

“This is a person who has passed away, so what’s the use of reappearing in this world?”

As Gu Changge walked away, the already decayed space immediately collapsed. Horrible visions emerged beside him, and all kinds of chaotic lights permeated and intertwined.

The palms were as clear as seven-colored divine glass, all kinds of ancient and powerful dharma signs emerged. In front of him was the golden road submerged in a dark fog. Gods and demons coexisted, like a god overlooking the Heavens, with indifference and majesty.

However, the figure transformed by this Ancestral Talisman was equally terrifying, and various ancient beasts seemed to emerge under his feet. They reappeared on this side of the world, let out a heaven-shattering roar, stretched their claws and flapped their wings before rushing toward Gu Changge.

“Sure enough, it’s the aura of the Immortal Realm...” Gu Changge whispered to himself. Facing this kind of existence that entered this field countless years ago, he did not use many Enlightenment artifacts.

There was no difference between a powerhouse at this level and an Enlightened being. It was impossible to obliterate and devour it by ordinary means. However, in his opinion, this battle was already doomed. There was no second possibility, and it was only a matter of time before the opponent was wiped out.

Rumble!

The endless battle waves spread, and this space was collapsing. After an indescribable time and space, Gu Changge fought against him. The sky was turned upside down, and it could almost overturn everything.

His eyes were indifferent and calm, standing at the end of the darkness, shrouded in thick darkness and thick fog. An active and powerful treasure bottle of the Great Dao appeared, and the runes hung down, devouring the ages.

All the laws of order were destroyed. The thick chaotic mist spread, the laws broke down, and the place became a mess. All the creatures disappeared, leaving only countless lights.

Gu Changge swung his halberd again, and the terrifying brilliance seemed to tear apart the endless universe, shattering everything and destroying everything.

“Destroy!”

He looked indifferent, with only one word in his mouth.

The huge fluctuations spread, the worlds collapsed, and the unrivaled figure standing on the top of the dark clouds began to break inch by inch. This scene made everyone desperate, and they could no longer see a ray of light.

...

Time stagnated and space collapsed. All fluctuations were disappearing, and there was only chaos left in the world.

If it was said that this place was the beginning of the division of Heaven and Earth, it was not wrong, because the eight wildernesses were boundless, even without boundaries.

Only the vast and majestic aura of the world surged under his feet as if an ancient world was being conceived within it. An extremely ancient and tall land-like ancient warship passed slowly across this vast expanse.

Gu Changge stood on the bow of the boat, dressed in white clothes better than snow, spotless, detached like a god. Looking at the chaotic world of Jianxuan under his feet, he shook his head slightly, his eyes calm and unwavering.

After condensing and taking away the origin of the world, he did not obliterate the many true spirits scattered in this world.

That was to say, after a few years, maybe hundreds of millions of years, or even longer, this world would start to evolve again, and everything would go back to reincarnation, and it would start again and again.

“The reincarnation of each world means rebirth in the midst of destruction. Maybe this is the real reincarnation...”

Behind Gu Changge, a slender figure walked slowly, with complicated meanings on his demure and elegant face.

She was Yu Feiya, the eldest princess of the Great Yu Immortal Dynasty. She was actually a little surprised that Gu Changge actually followed the agreement and didn't kill her. But after thinking about it, Yu Feiya came to a sudden realization, because her living status had a greater effect on Gu Changge.

Especially this time, many of the forces of the Upper Realm that came to this world were all destroyed and buried here.

“Destruction after rebirth, rebirth after destruction, is this really reincarnation?” Gu Changge smiled softly, looked away, and disappeared within the bow of the boat.

With the origin of the world in hand, he would start refining and devouring it. After returning to the Upper Realm, he would probably face a lot of trouble.

Chapter 653: The troubles of the Great Yu Immortal Dynasty, It's time to change the Master

The Upper Realm, gathered within the Imperial capital of the Great Yu Immortal Dynasty were the Immortal forces and Supreme sects. Invisibly, flames of war surged in the air, and swords were on the verge of breaking out. Everyone was trembling and extremely uneasy.

Buzz!!

A vague and frightening figure stood in the depths of the Imperial palace of the Great Yu Immortal Dynasty, staring at the contemporary Emperor Yu indifferently, wanting an explanation from him.

Some time ago, the space passage leading to Jianxuan Great World was suddenly closed. Many cultivators guarding there tried to re-open the cosmic tunnel, but they all failed.

Some Quasi-Emperors tried, but it was in vain. They couldn't find the space node for that world, and couldn't open that passage. This matter caused a great commotion, leading many forces and sects around Heavenly Yu Domain to immediately dispatch their men.

Because their Enlightened Ancestors and successors had already gone there. If they were trapped in a world like this, it would be difficult to escape. For them, it was an incalculable and predictable loss.

Just when the forces of all parties were studying how to open this space channel, shocking and terrible news had suddenly arrived.

The soul lamp left by the Ancestors of all forces that descended to the world suddenly went out. Their aura disappeared, implying that they died in that world. This news caused a sensation in the entire Heavenly Yu Domain, no matter if it was an ordinary cultivator or a disciple of a Great sect, they shuddered and felt unbelievable.

In the current era, an Enlightened being could be said to be standing at the peak of all existences, his cultivation was unrivaled, and he overlooked the world. It was even blunt to say that as long as one side had an enlightened person, they would have no worries for millions of years, and no one dared to provoke them easily.

However, such a powerful existence actually died in it when he was fighting in a Lower Realm. And not just one person, but everyone!

What exactly was hidden in that great world? What kind of terrifying danger was contained in it?

The news was so shocking that everyone who heard the news widened their eyes in wonder, thinking if they had heard it wrong. Subsequently, the authenticity of this news was confirmed.

Not only the Enlightened beings who entered that world died, but even the rest of the army that went with them was wiped out. Like a stone being thrown into the deep sea, no news came back. There was no doubt that this news had aroused the wrath of all parties.

Many powerhouses departed for the Great Yu Immortal Dynasty as soon as possible. After all, the passage entrance to the Great World was discovered by the Great Yu Immortal Dynasty. That location was also within the territory of the Great Yu Immortal Dynasty.

It could be said that the Great Yu Immortal Dynasty was to blame for such a big incident. Although the foundation of the Great Yu Immortal Dynasty was extremely profound, it was difficult to uncover the truth. But with such a big thing happening, it needed to bear a lot of pressure, and it was impossible to treat it as if everything was alright.

Moreover, the old Emperor with the strength of an Enlightened being who went to that great world together with the Great Yu Immortal Dynasty's army was also one of the beings to have died.

Speaking of which, the Great Yu Immortal Dynasty didn't want to see this kind of thing happen either.

"Brothers, please calm down, such a big thing is not what we want to see. Not only did the Ancestors behind you perish, but one of my Enlightened Emperors from Great Yu also had his soul lamp extinguished..."

In the Great Yu Imperial Palace, Emperor Yu was wearing a purple gold crown, looking tall and burly, with a calm and majestic face. But now, with a sad face, he bowed his hands and apologized to the powerhouses of various forces.

Everyone here was the leader of various factions, they were either Patriarch or Sect Master and their identities were extremely unimaginable. It was not good for him to put up a show and be too contemptuous.

"Hmph! Anyway, the accident happened in your territory of Great Yu. It was also from Great Yu that the news spread that a great world was about to be born there. Now that something so big has happened,

your Great Yu, cannot absolve yourself of the blame,” an ancient resident of the Heavenly Emperor Mountain said with dissatisfaction.

One of his most promising descendants was also in the army heading to Jianxuan Great World. Now that he fell into it, his heart was bleeding.

The many cultivation resources that had been paid were now turned into a stream of water, all in vain. How could he be willing?

The powerhouses of other races also looked very ugly. They not only gained nothing from this trip to the Lower Realm but also lost many young geniuses and Enlightened beings, which could be described as a heavy loss.

Emperor Yu also sighed in his heart when he heard the words, knowing that this matter can't be good. He didn't know what happened in the Jianxuan Great World, which could lead to the downfall of Enlightened beings from various forces, forcing even the cosmic tunnel to close.

“Oh, Emperor Yu, you have to think clearly, it's still just us who came here. That one from the Gu family seems to have gone there too, and now his whereabouts are unknown. His life and death are unknown. If he also falls in there, your Great Yu, may not be able to bear the anger of the Gu family.”

An old man from the Divine Spirit Mountain opened his mouth with a sneer flashing in his eyes as he added with some unconcealed sarcasm.

As soon as these words came out, Emperor Yu's face immediately became ugly, and the palms under the robe couldn't help but clenched tightly.

In fact, this was also what he was most worried about. After all, among the younger generation who went down together at that time, Gu Changge was one of them. Although Gu Changge was powerful and even an Enlightened being was not his opponent. But what exactly happened in the Jianxuan Great World, no one could tell.

With so many accidents, who could guarantee that Gu Changge would be alive?

Gu Changge was now the Young Master of the Gu family. In a certain sense, he was no different from the Master of the Gu family. Not to mention his terrifying talent, it was not an exaggeration to describe it as unparalleled in all ages. It was only a matter of time before he reached the Immortal Realm.

Once Gu Changge died, the impact would definitely be countless times more sensational than the death of an Enlightened being.

At that time, the Ancient Immortal Gu family would definitely start an Immortal War with the Great Yu Immortal Dynasty.

Not to mention the other Immortal forces involved, it also included the Primordial Divine Sect from his mother's lineage, and the Peerless Dynasty behind his fiancée... There were too many.

Just thinking about it made people feel dizzy and restless.

“Emperor Yu should think about what to do next to solve this big trouble, or your Great Yu this time will definitely face a big disaster.”

The ancient existence of the Heavenly Emperor Mountain shook his head and replied, with some pity in his eyes.

Although the loss of the Heavenly Emperor Mountain was not small, compared with the Great Yu Immortal Dynasty, it was much better. Right now, many forces in various places of the Upper Realm were paying close attention to the situation here.

If the Great Yu Immortal Dynasty couldn't handle it well, the forces that would take action against it at that time would definitely not only be the few in front of them.

When many powerhouses were discussing this matter, in the borderlands of the Great Yu Immortal Dynasty, vast coercion suddenly appeared between Heaven and Earth.

Rumble!!

The sky trembled, the wind and clouds changed color, and an extremely terrifying crack suddenly appeared above the sky, as if torn open by a pair of invisible giant hands. From this crack, endless rays of light and chaotic energy rushed out, filling the wilderness in an instant.

This place seemed to be torn apart by an eternal light as all kinds of runes soared into the sky, illuminating the sky at once. Even the cold and dark depths of the universe were as bright as day for a while.

An ancient and majestic ancient warship came rumbling and crushing as it broke all the laws and order from the vast land.

"This is! This is an ancient warship of my Great Yu! How could it rush out from here? No, this seems to be one from the army that went to that great world..."

Such a loud noise and movement immediately alarmed all the cultivators and creatures in the vicinity. One after another, divine lights swept across the sky and came crashing down toward this place. Looking at this scene, one couldn't help but be astonished.

What happened in the Jianxuan Great World had not been completely spread in the Great Yu territory, but there was much gossip. So many cultivators didn't know that the forces in the Lower Realm of all parties had suffered heavy losses, which could be said to be bloodless.

"What's going on, what happened?"

"Quickly send back the news, and tell His Majesty Emperor Yu that my ancient warship of Great Yu has returned safely."

Secretly, after being shocked, many people of the Great Yu Immortal Dynasty reacted immediately and quickly spread the news here.

"I'm really back, this familiar aura of Heaven and Earth..."

On the ancient warship, Yu Feiya, the eldest princess of Great Yu, had a somewhat complicated face and felt a little at ease. However, she still knew that things seemed to be stable, but what was more important was the many troubles that would be faced next.

Because Gu Changge would not step forward, and as the leader of the younger generation of the Great Yu Immortal Dynasty who went to the Lower Realm, she was naturally the first to bear the brunt of the anger and blame from all parties.

It was precisely for this reason that Gu Changge chose to let her live.

“The realm of nirvana, also known as the realm of Enlightenment. I have entered this realm, although there are subdivided stages, in fact, there is only a little gap to reach above this realm, whether it is far or near depends on one’s talent.”

In a palace deep in the ancient warship, Gu Changge sat cross-legged, with a calm face and a body like a rock.

Wisps of black light hung down above his head and then trickled down every pore, like billions of stars intertwined. After devouring and refining the origin of the Jianxuan Great World, his cultivation had indeed increased a lot compared to before.

Before, it could only be regarded as the early stage at most, but now it had reached the point where it was close to the late stage. Of course, from the perspective of strength, the improvement was even more obvious.

Even Gu Changge didn’t know the extent of his current strength.

Although the unrivaled figure transformed from the Ancestral Talisman in the Jianxuan Great World had the power of the Immortal Realm, it was only a phantom after all, not the true body. It was difficult to compare it with a true Immortal. But compared to Remnant Immortal, it was still much stronger.

“Heavenly Heart Imprint and the Sacred Heart of the Sword Dao... These two things are of little use to me now, but they are better than nothing.”

Afterward, Gu Changge looked at the rewards that fell out after killing the two sons of Luck, Tuoba Xiaoyao, and Lin En. He opened the Heavenly Dao Treasure Chest after he left the Jianxuan Great World.

The Heavenly Heart Imprint was similar to the Imprint of Heaven. It was golden and incomparably hazy. It needed to be used in conjunction with the ownerless small world. One could refine that world into your own world incarnation and hold the authority of Heaven. However, to Gu Changge, this was still extremely tasteless.

He planned to give this object to Yue Mingkong when he had time. The Peerless Immortal Dynasty itself was blessed at the Dao of Space, and the use of this aspect was unique in the Upper Realm.

As for the Sacred Heart of Sword Dao, it was a kind of talent of Sword Dao, which could be used to train disciples or younger generations. This was even more useless to Gu Changge, but if he kept it, maybe it would be used in the future.

“Such a big event happened in the Jianxuan Great World, it is impossible for the Upper Realm not to pay attention... I still have to avoid the limelight for a while, if there is anything, I will let Yu Feiya handle it first.”

Gu Changge put away these two things, came to the side of the ancient warship as he looked down.

He was now in the territory of the Great Yu Immortal Dynasty, and he would be able to return to the imperial capital in a short time. There were five Enlightened beings who had fallen into the Jianxuan Great World, and they were from five Immortal forces and sects.

Therefore, if this kind of matter was not handled well, it might result in an Immortal War. After all, the fall of an Enlightened being was a major event for any force.

“I should take advantage of this opportunity to let Yu Tianzheng make a move, it’s time for this Great Yu to change Master.”

Many thoughts flashed through Gu Changge’s mind, and his gaze suddenly became extremely deep.

At this time, in the Great Yu Dynasty, there was absolutely a gathering of powerhouses from all sides. If the Emperor of Great Yu fell at this time, what would happen?

Presumably no matter who it was, they would be immediately suspicious of these forces. At the same time, in the imperial capital of Great Yu.

Emperor Yu, who was discussing the matter with the powerhouses of all parties, was also the first to know the news that the ancient warship of Great Yu had returned safely. He was taken aback for a moment in shock and couldn’t believe it.

“What?”

“Great Yu’s ancient warship returned safely?”

The most powerful people of various races beside him naturally heard these words, and their faces suddenly changed, including shock, anger, and suspicion.

In the eyes of many people, all their forces were buried in that world, and only Great Yu’s ancient warship escaped alone. What did this mean? Could it be that the Great Yu Immortal Dynasty pitted them to death?

“Brother, please rest assured. Please be calm and don’t be impatient. This Emperor only found out about this matter. We can just wait for the army to return to the imperial capital and ask what happened in it.”

“Don’t be in such a hurry.”

Emperor Yu was also a smart person, instantly understood what everyone was thinking, and hurriedly spoke to calm everyone’s emotions.

Chapter 654: The undercurrent surges, Seriously injured again

“Is this an order for me to make a move?”

Within the territory of the Great Yu Immortal Dynasty, in a certain cave, a middle-aged man whose face was about 70% similar to that of the current Emperor Yu looked at the letter in his hand, with a look of excitement and worry on his face.

It was Yu Tianzheng, the Emperor’s uncle who failed to compete with Emperor Yu for the throne.

During this period of time, he had been obeying Gu Changge's order, lurking here, waiting for the opportunity to do something. Now that he suddenly saw the letter sent by Gu Changge, how could he not be excited?

He had been waiting for this opportunity for a long time.

"Great Yu, it's time to change the master." He sneered, and then his figure turned into a streak of light and quickly disappeared. He intended to order the dark chess that had been laid out over the years to do it.

Now Great Yu was in troubled times, people everywhere were in panic and it was time to take the opportunity to start chaos.

"You should tell the landlord about the Young Master's return. My Young Master ordered half a year ago that after he returns, the Buddha and Hell should be banned by my Spring Breeze Pavillion."

After Yu Tianzheng left, in the void of this place, two shadowy figures like gray mist slowly emerged, communicating softly. They seemed to blend into this world, but there was always a murderous aura permeating the air as they walked, as if they could kill all the young kings.

The safe return of the ancient battleship of the Great Yu Immortal Dynasty caused a sensation in all parties almost instantly. Whether it was the many forces in the Great Yu Immortal Dynasty or the forces that had sent eyeliners to keep a close eye on this matter, they were all extremely shocked.

Many cultivators immediately went to the Great Yu Imperial Capital to find out the truth. At such a juncture, the ancient battleship of the Great Yu Immortal Dynasty returned safely, which was beyond everyone's expectations.

Even under the impetus of people with good intentions, a rumor that the Great Yu Immortal Dynasty killed all the forces and Sects quietly spread. For a moment, an undercurrent surged as murderous intent was revealed.

In the Imperial Capital of Great Yu, many large armies received orders and rushed from all over the place to guard and patrol every place. It was an eventful time, and no one knew whether a world-shattering war would suddenly break out in the imperial capital.

Before the powerhouses from various forces descended on this place, there was a wave of Emperor Artifacts that were revived and passed by, shaking countless cultivators.

Rumble!!

An ancient warship draped in blood and bones rolled across the sky with its flag waving as it slowly entered the depths of Great Yu Imperial Capital, attracting the attention of all parties.

"It seems that the rumors are true. The ancient warship of Great Yu Imperial Capital returned safely from that Lower Realm, but there is only one person left."

"What kind of danger is contained in that world? It caused so many people to die tragically, and even Enlightened beings were not spared."

The Great Yu Imperial Capital covered an area of a million miles, standing like an ancient sacred mountain with steaming mist, rosy clouds, and dazzling brilliance.

Flying waterfalls and spiritual springs were incomparably magnificent and majestic. Among the many pavilions and palaces, cultivators and creatures watched this scene with different emotions. Some were frightened and uneasy, and some were gloating.

“According to the news that came out, Gu Changge also went to that world. Do you think he also died in it?”

In a pavilion, many young geniuses were gathered together. There were people from all clans and their bodies shrouded in light, looking very extraordinary. One of them had a strange look on his face, as if thinking of something, he couldn't help laughing in a low voice before asking. n0VeLus6.c0m

Although at this time, it seemed like he was gloating a bit while mentioning this matter. If it was heard by other people and spread, it might offend Gu Changge. But this was what everyone thought.

If Gu Changge really died in that world like other Enlightened beings, it would be a blessing for all young people.

One must know that over the years, Gu Changge was like a terrifying divine mountain, lying on top of everyone of this generation. Even the ancient freaks who were born in this world were overwhelmed by him, and there was no glimmer of hope in sight.

Such a person living together in the same life as them was completely sad, and they were not even qualified to be a grass before such a huge tree.

“You guys underestimate Young Master Changge too much. When he was in the Eight Desolations and Ten Regions, he alone overwhelmed the Enlightened beings in that place. Will he fall into such a Lower Realm? What a joke.”

“You haven't seen that scene with your own eyes, so you don't know how terrifying he is. If you ask me, even if everyone falls in that world, Young Master Changge will be fine.”

But upon hearing this, the other young woman suddenly shook her head and laughed. She was very disdainful of the person who asked the question just now.

When the Upper Realm fought against the Eight Desolations and Ten Regions, she happened to be among them, and she witnessed the terrifying scene of Gu Changge holding the Enlightenment Weapon and fighting against many Enlightened beings from the Eight Desolations and Ten Regions.

So she firmly believed that it was absolutely impossible for Gu Changge to have an accident. Such a person was destined to become the protagonist of Heaven and Earth, leading Immortal existences for several epochs. How could something go wrong?

Just when many young supreme beings were talking, a misty brilliance flashed in the void in front of Great Yu Palace.

Immediately after, several vague and terrifying figures stepped forward. Everyone's aura was extremely monstrous, and their eyes were shining brightly, suppressing the surrounding laws to collapse. They

stood there like gods, with various visions flashing in their eyes, waiting for the ancient battleship of Great Yu to land.

The leader was none other than the contemporary Emperor Yu. Behind him were many ministers of the current Great Yu Dynasty, all of them looked dignified, watching the ancient warship slowly descending in the distance.

Now they all wanted to know what happened in that world and the survivors in this ancient warship might be able to tell all of them the right answer.

“Feiya has seen her father and all the seniors.”

Soon, the ancient warship landed, and Yu Feiya led a large army down first, with a heavy look on her demure face.

“Princess is still alive. It seems that from her mouth, we should be able to know what happened in that world.” The powerhouses of all races also turned their eyes to Yu Feiya.

Especially those terrifying figures standing at the gate of the imperial palace, the scene of the star sinking and the moon falling was emerging in their eyes.

“Feiya, you don’t need to be too polite. With you being safe and sound, it really makes me feel relieved. What happened in that world, please tell us in detail, you don’t know that this Emperor has really been worrying about this for the past few days, and I don’t know how to explain to brothers.”

Seeing Yu Feiya’s appearance of being safe and sound, Emperor Yu breathed a sigh of relief and then said with a gentle smile.

He glanced roughly, and this time, less than one-tenth of the army that went to Jianxuan Great World came back, which displayed the tragedy.

Yu Feiya had expected such a scene a long time ago, and when she thought of Gu Changge’s explanation, she once again showed a heavy expression and said, “Father, the appearance of that great world was actually bait, and its purpose was to attract all of us to come forward and take the bait. Presumably, except for me, the rest of the people were buried in it.”

“What? Bait?” As soon as these words came out, there was an uproar and shock here.

Everyone was stunned for a moment, but after realizing it, they couldn’t help but widen their eyes in disbelief. Who had the courage to use such a big world as bait to attract everyone and bury everyone?

They really didn’t dare to imagine, even in the current Upper Realm, who would dare to do this?

“What do you mean by that?” Emperor Yu frowned, puzzled, and was about to ask.

However, the most powerful members of the other forces had already stepped forward, staring at Yu Feiya closely with menacing eyes.

They didn’t really believe Yu Feiya’s words, and they didn’t think that there was anyone in this world who would dare to plot against them like this.

“Seniors, if you don’t believe me, just take a look at this memory stone. This is what happened in the Jianxuan Great World...”

“The Will of Heaven was revived, and it wanted to sacrifice the whole world to transcend. All the forces that went down to the Lower Realm became nourishment for it and were buried in it...”

Yu Feiya’s face was solemn, and while speaking, she took out the memory stone that had been prepared a long time ago.

Many powerhouses present could tell whether the scene in this memory stone was real or fake just by looking at it. She had already thought about the other words, without leaving any mistakes.

“The Will of Heaven was revived, intending to transcend?” Hearing this statement, all the people present were shocked, and they understood that this matter was not trivial.

Especially the powerhouses of all races, they were well-informed and knew the horror of the Will of Heaven.

“Is this the reason?” Emperor Yu didn’t think that his daughter would lie, and his expression became extremely cautious.

At that moment, they picked up the memory stone in Yu Feiya’s hand and carefully examined what happened inside.

Afterwards, their eyes widened and they gasped, witnessing the terrifying scene of the Jianxuan Great World collapsing and all living beings working together to fight against the heavens.

With that monstrous power, even an Enlightened being would feel a palpitation, a trembling fear from the soul.

“This kind of power, even judging from the scene at that time, I still feel palpitations. I can’t be wrong. The Heavenly Dao in that world actually had such a plan...”

“It is not surprising that all forces will be buried in it.”

After watching the scenes, the powerhouses of all races went silent for a long time, and were shocked. They were very sure that the Will of Heaven in that world had definitely touched the threshold of the Immortal Realm.

If it transcended, it was likely to threaten the Upper Realm.

To put it bluntly, even if they faced such a terrifying Will of Heaven, they didn’t have the slightest chance of surviving.

“After going to the Lower Realm, no one expected that there would be such a big game waiting for all of us...”

Afterward, seeing that everyone was not skeptical about this matter, Yu Feiya sighed again and told a lot of the process and details.

Gu Changge did not explain these things, but she still found a way to cover up all traces of it. But from the beginning to the end, Gu Changge existed as a person behind the scenes, and even the Will of Heaven made no move against him. So she didn't need to think too much about how to cover up these.

"Then how did you escape in the end?" The most powerful person was puzzled and asked with puzzled eyes.

Even those who became Enlightened died there so how did Yu Feiya and others escape safely and even tear apart the great tunnel of the universe, returning to the Upper Realm?

There were many doubts about this.

Originally, Emperor Yu breathed a sigh of relief knowing that this matter had nothing to do with the Great Yu Immortal Dynasty, but he still felt tense when he heard this question.

In fact, he really wanted to know how Yu Feiya and the others escaped from that dangerous place. With the Will of Heaven that was close to the strength of the Immortal Realm, how could it let them go safely?

Yu Feiya's face didn't change much when she heard the words, as if she knew that everyone would ask such a question.

She sighed lightly, and said with a bit of fear and luck, "Speaking of this matter, it is also thanks to Young Master Changge. If he hadn't helped us at a critical moment, we might have to be buried in that world together."

"Young Master Changge?" Everyone was taken aback for a moment, and many people realized that Gu Changge also went to that world with the army.

But until now, there had been no news of Gu Changge's death from the Ancient Immortal Gu family. From this point of view, Gu Changge should be safe and sound, and there was no life crisis.

Thinking of this, the complexion of many of the powerhouses turned serious. They really wanted to know what happened and where Gu Changge was now.

"Young Master Changge is fine."

Emperor Yu was always worried that after Gu Changge's accident, he would arouse the anger of the Ancient Immortal Gu family. Now that he heard the news, the stone in his heart finally fell to the ground, and a smile appeared on my face.

"Where is Young Master Changge now, didn't he return to the Upper Realm with you?"

The powerhouse of Heavenly Emperor Mountain asked with a strange look in his eyes, wanting to know Gu Changge's current whereabouts.

"Young Master Changge is in the ancient warship, but he is not in good condition and has suffered serious injuries..." Yu Feiya replied according to the arrangement of Changge.

Later, she told everyone the truth that when that world collapsed, it was Gu Changge who fought against the Will of Heaven in that world. He then wandered with them in the vastness, looking for the space coordinates of the Upper Realm.

However, when fighting against the Will of Heaven, Gu Changge injured his origin, and later forcibly tore the cosmic tunnel, adding more injuries. During this period of time, he had been recovering on the ancient warship, so he never showed up.

“Young Master Changge was injured?” Everyone was stunned when they heard this, and they couldn’t believe it.

But it was right to think about it. After all, no matter how strong Gu Changge was, it was impossible to defeat the Will of Heaven that was comparable to the Immortal Realm, and it was already unimaginable to escape safely.

For the rest of the Enlightened beings, they probably would have died long ago, let alone have the means to tear the great tunnel of the universe and return to the Upper Realm.

Yu Feiya’s statement also dispelled the doubts in many people’s hearts. The reason why they escaped safely was because of Gu Changge. However, some people still held a skeptical attitude and did not fully believe Yu Feiya’s words.

Afterward, everyone discussed for a while, planning to head to the ancient warship to visit Gu Changge in person, and see how he was now.

Yu Feiya had been ordered by Gu Changge, so she was not surprised. She led the way and led everyone to meet Gu Changge.

The sun was shining brightly, and the spiritual mist was surging in the palace. Gu Changge was dressed in snow white clothes, his black hair was crystal clear like ink, tied with a simple hair tie, and he was sitting cross-legged on the bed.

His face was slightly pale, and he looked extremely calm as he looked at the powerhouses of all races coming here.

“Greetings, fellow Daoists.” He said softly, as if he wasn’t surprised.

“I heard that after the battle between Young Master Changge and the Will of Heaven in that world, you were seriously injured, so I came here to take a look. I hope Young Master Changge won’t be offended.”

The powerhouse of the Heavenly Emperor Mountain spoke, his whole body was filled with monster aura. His eyes were bright, and there were quaint avenue runes flashing, carefully looking at Gu Changge’s current state.

While speaking, he took out a crystal-clear purple jade box as a visit gift, which contained the million-year-old medicine. Even for Enlightened beings, it was also an extremely precious healing item.

Chapter 655: Beginning of the Chaos, I miss you a lot

It was very quiet in the palace, only green smoke filled the air from the incense burner at the side. Gu Changge's white clothes were whiter than snow, and his face was handsome and flawless. Although his face looked a little pale, it was still extraordinary, just like an exiled Immortal.

He swayed his sleeves, took the jade box from the hands of the powerhouse from the Heavenly Emperor Mountain before nodding lightly, and said, "Thank you brother for visiting, the injury is much better now."

His words were calm, and his eyes were even more bottomless, making it hard to infer the truth. However, many of the powerhouses present were all existences standing at the pinnacle of the Upper Realm, with such amazing eyesight, it was natural to see that Gu Changge was now in a state of depletion of vitality and damage to the origin.

They looked at each other with strange expressions as various thoughts flashed in their minds before they took out the things from their arms. Anyway, even if Gu Changge was injured, at this moment, no one dared to easily offend him.

"In that case, then I will not bother Young Master Changge, and I will take my leave first."

"Concerning the matter of the Jianxuan Great World, Princess Great Yu has already informed us clearly, but there are still some details left. It seems that we can only inquire after Young Master Changge recovers from his injuries."

"Farewell."

After delivering the gift of visiting, the powerhouses of all races also left with their own thoughts. They did not stay for long. Although they still had a lot of doubt in their hearts, they already believed Yu Feiya's words.

If it was an ordinary person, they might have already searched their soul and explored many details by now. But behind Yu Feiya was the Great Yu Immortal Dynasty, whose status was very honorable.

This was even more so for Gu Changge; who in the current Upper Realm dared to say something about searching for his sea of knowledge. That was tantamount to provoking the Ancient Immortal Gu Family and Gu Changge, which would trigger a Immortal War.

"Brothers, go slowly." Gu Changge nodded without any change on his face.

After the powerhouses of all races had left, the eyes of Emperor Yu who was still in the palace moved slightly, and he couldn't help asking, "Young Master Changge, why don't you inform the Ancient Immortal Gu Family behind you about your current situation?"

Anyway, Gu Changge was injured now, and it was inevitable that there would be ghosts and snakes in the dark, or enemies who would dare to attack him.

Gu Changge smiled lightly when he heard the words, "It's okay, even if I am injured now, ordinary people are not my opponents, so there is nothing to worry about."

Hearing what Gu Changge said, Emperor Yu still didn't quite believe it. In his opinion, Gu Changge's injury was not simple, it had already hurt the origin. However, the ordinary people that Gu Changge

spoke of were by no means ordinary people, at least they had stepped into the level of an Enlightened being.

Since he had already spoken his part, and Gu Changge did not care, he could not do anything about it.

“In that case, then the Emperor will not bother Young Master Changge.” Emperor Yu then cupped his hands and planned to leave.

But before he left, he glanced at his daughter. There was a strange look in his eyes. After this trip to the Lower Realm, Yu Feiya seemed to have gotten closer to Gu Changge a lot.

This was naturally what Emperor Yu hoped to see. Until now, he had not agreed to the marriage request of the Absolute Heavenly Imperial Court, because of this consideration.

“How are things proceeding?” Soon, only Gu Changge and Yu Feiya were left in the hall as he casually glanced at Yu Feiya and asked.

“Everything is in accordance with the order of Young Master Gu, without any omissions,” Yu Feiya replied respectfully, completely different from her demure and elegant appearance in front of outsiders.

After experiencing the incident in the Lower Realm, she also figured out many things. So now she didn’t dare to discuss friendship with Gu Changge like before, appearing cautious and fearful.

“That’s good.” Gu Changge looked at the many jade boxes in his hand and then smiled lightly.

It was not the first time he had done such a thing as pretending to be seriously injured. Whether it was before or now, it could have a miraculous effect.

The current Great Yu Immortal Dynasty was just a cloud of muddy water. Now that there was news of his serious injury, many forces in the dark would probably be ready to move, no matter how difficult it was to contain it. This was what Gu Changge wanted to see most now.

In the next few days, a lot of news about the Jianxuan Great World spread from the Great Yu Immortal Dynasty, causing shocks in the Upper Realm.

The revival of the Will of Heaven who wanted to sacrifice all living beings, bury a world and achieve transcendence. All the forces that went to the Lower Realm suffered heavy losses, and none of them survived, even the Enlightened beings fell among them.

Even Gu Changge was almost killed, and now he was seriously injured. He was cultivating in the Great Yu Immortal Dynasty. The impact of this incident was like a meteor falling into the deep sea, causing infinite waves.

Every cultivator who learned of this was shocked and inconceivable. The memory stones related to this matter were also circulated among the major business alliances and markets. They were bought by the major Immortal forces and Supreme sects at high prices.

For a moment, the Great Yu Immortal Dynasty had been pushed to the cusp of the storm again. Some powerhouses made a move, trying to deduce the location of the Lower Realm. But in the end, they all failed, and they couldn’t deduce its location. In fact they couldn’t even perceive its location.

This matter was alarming, if that great world's Will of Heaven really succeeded in transcending, it was very likely that there would be an existence comparable to a true Immortal, thus threatening the current Upper Realm.

Another ancient world, another Immortal Dynasty standing at an endless distance from the Great Yu Immortal Dynasty. Even if the thunder and lightning were exhausted and the universe was dead, there had never been a sign of weakening, earning the moniker of Immortal.

It was the location of the Peerless Immortal Dynasty. An unparalleled woman in phoenix clothes was flipping through the memorials in the palace. A frown appeared on her beautiful face, and then said calmly, "Understood, I will secretly dispatch a million Shura guards to wait outside Great Yu."

"Empress Chu, this?" The female official kneeling under the palace showed a startled look, a little puzzled.

The Shura guard was a terrifying force secretly cultivated by the Empress over the years. It was extremely powerful, like a sharp blade that was indestructible. Shura guards went to solve many things that could not be seen in the dark. Now she wanted to use millions of Shura guards?

This was an unimaginable event.

"You don't need to worry about this matter, you just need to send Shura guards there." Yue Mingkong lightly waved her hand. Her eyes were calm and deep, and her body carried a palpating majesty.

"Yes." The female officer didn't dare to say anything anymore, and hurriedly took the order and left.

"It seems that he is planning to attack Great Yu." Yue Mingkong put down the memorial in her hand, and there was unconcealable longing in her eyes.

Although the news of Gu Changge's serious injury arrived from the Great Yu Immortal Dynasty, Yue Mingkong, who knew Gu Changge's character very well, knew very well that it was just a cover. For someone as strong as Gu Changge, it was never possible for him to do something he was not sure of, so it was absolutely impossible for him to be seriously injured.

Now, the Will of Heaven, which many forces and sects feared, had probably been solved by Gu Changge long ago. Even those powerhouses from all walks of life who were buried in the Lower Realm, probably died in Gu Changge's hands.

Judging from the current chaotic situation in the Great Yu Immortal Dynasty, Gu Changge should take action against the Great Yu Immortal Dynasty. That was why she sent someone to send the Shura guards.

These Shura guards were originally trained by her according to the training method given by Gu Changge, and they were extremely powerful.

"Farewell to you, I miss you very much..." Afterward, Yue Mingkong slightly raised her hand, picked up the pen and ink before she began to write a letter to express her lovesickness, a slight smile flashed in her bright eyes.

She planned to tell Gu Changge about the Shura guards. In addition, at that time, Gu Changge sent someone from the Jianxuan Great World to send over the Seven Heavenly Artifacts, and she was about to finish refining them.

When the time comes, she would be able to open the Hidden Immortal Palace.

In the blink of an eye, several days passed by. Although the turmoil of the Jianxuan Great World had subsided a lot, there was still a surging undercurrent.

During this period of time, several princes and princesses were assassinated as they almost died. Even Yu Lie, the future successor of Emperor Yu, was almost killed. This incident happened in the imperial capital of the Great Yu Immortal Dynasty, that was, under the eyes of Emperor Yu.

The Great Yu Immortal Dynasty was furious, and Emperor Yu immediately ordered the blockade of the imperial capital to catch those assassins. Such behavior was tantamount to audacity, which made the Great Yu Immortal Dynasty very angry.

However, now in the imperial capital of Great Yu, there was a mixed bag of good and bad people. All Immortal great forces and sects had their powerhouses here, carrying terrifying forbidden weapons.

Therefore, the search became extremely difficult as it might even offend other forces and morality. So after a few days of searching without results, Emperor Yu had no choice but to give up.

Buzz!!

At the same time, in the northeast corner of the Great Yu Imperial Capital, in a spacious street. A group of knights were slowly passing by, followed by a chariot carved with shapes of true dragons and divine phoenixes. The runes shone and the brilliance filled the air, making it look extremely dignified. However, at this moment, the void trembled slightly, and gray-black sword energy flashed here.

There was a sudden silence between Heaven and Earth as the space here seemed to be frozen. After a few breaths, the street resumed its bustle.

Boom!!

But at the next moment, there was a muffled humming sound in the chariot, and a rain of blood poured out, instantly splashing the surroundings red.

“Escort! Escort! Escort!”

This sudden scene shocked all the cultivators and souls on this street. The many knights who were in charge of guarding the chariot were stunned in place. After realizing it, they hurriedly roared and blocked all parties to catch the assailant.

One must know that the person sitting in this chariot was an heir whom Emperor Yu loved very much. Although not as highly regarded as Prince Yu Lie, compared to other princesses and princes, he was much more important.

Now he suddenly had an accident here. Everyone could hardly absolve themselves of the blame.

“The assassin must have been waiting here a long time ago, but he didn’t even touch the life-saving jade talisman His Majesty bestowed on the Sixth Prince...”

“It’s really hateful, these assassins are so arrogant, they simply don’t take us seriously.”

Many knights were furious, but they couldn’t find the assassin’s whereabouts. The depths of their eyes were full of violence and a murderous aura. Situations like this had been happening these days, which almost made them wonder if all the forces and sects were targeting Great Yu together.

The water was so muddy that no one knew which force was attacking Great Yu. Scenes like this were staged throughout the Great Yu Imperial Capital during this period of time. [n0VeLust.com](http://www.VeLust.com)

In the beginning, the princes and princesses were assassinated. Later, even some important ministers, their families, and women were assassinated as many people died tragically.

The entire Great Yu Immortal Dynasty was in a state of panic. Many ministers would send a large number of people to protect themselves when they went to court. Rumors began to appear in various places, saying that the Great Yu Immortal Dynasty had provoked public anger, and now all forces and orthodoxy were discussing how to deal with it.

The assassination these days was just a precursor. Regarding this, while Emperor Yu was angry, his head turned gray with worry. He couldn’t figure out where the problem was. Could it be that someone really planned to do something to Great Yu?

At this time, the instigator of this incident, Gu Changge, was still ‘healing his wounds’ in a quiet courtyard in the Great Yu Imperial Capital.

“Million Shura Guards, Mingkong still understands me...” There was a gentle smile in his eyes, and he was looking at the letter in his hand. Although the cultivators were far apart, they would use the messenger talisman to convey the message.

It would rarely be in the form of a letter. But every time Yue Mingkong told him something, she would write it by herself. The graceful and sharp handwriting faintly revealed the aura of a female Empress, overwhelming the world with the beauty that was peerless and breathtaking.

“With this million Shura guards, plus what I have done during this period of time, it is enough for me to change the owner of this Great Yu.” Gu Changge gently put away the letter and many thoughts flashed through his mind.

Although Yu Tianzheng was just a pawn, he was much easier to control than Emperor Yu Huang who had been hiding in the Great Yu Imperial Capital.

Of course, the most important reason was that Yu Tianzheng was imprinted with a slave seal and his life and death were under his control. If Yu Tianzheng was in charge of the Great Yu Immortal Dynasty, it meant that Gu Changge was in charge of this Immortal Dynasty behind the scenes.

After all, it was really inappropriate for him to face head-to-head, and it might not be successful.

The foundation of the Great Yu Immortal Dynasty was quite deep. I am afraid that in the depths of the clan, there were still Remnant Immortals who proclaimed themselves from the ancient era with even complete Immortal Artifacts.

It was impossible to shake its foundation with this power alone. So the only way left was to see if it could be disintegrated from the inside first. Whether it was Emperor Yu or Yu Tianzheng, both had the blood of Great Yu.

Even if many Ancestors didn't want to see such a situation, they wouldn't try to stop it.

Then, Gu Changge ordered someone to send the Heavenly Heart Imprint obtained a few days ago to Yue Mingkong. And inform her of the situation on his side so that she didn't have to worry.

With the matter on Great Yu Immortal Dynasty's side settled, he would head to the Peerless Immortal Dynasty to discuss the wedding date with her.

Chapter 656: The last remaining worth, Xianer's trace

The Great Yu Immortal Dynasty was in complete chaos, since many princes and princesses, as well as important officials and their family members were attacked and killed by assassins.

Beacons were lit everywhere in the territory, and murderous intentions arose from all directions. Some feudal lords from all over the town began to take sides, trying to establish a state within a state.

As an Immortal dynasty that lasted from the ancient era to the present, the Great Yu Immortal Dynasty produced Immortal figures who were Immortal. Its territory was even more vast and boundless. There were too many feudal lords bestowed on normal days.

Now in the imperial capital of Great Yu, disasters were rampant everywhere. Emperor Yu was so busy every day that even if he wanted to send an army to suppress it, it would be beyond his reach.

The feudal lords from all over the dynasty also saw this situation and felt that Great Yu had encountered an unprecedented disaster and was on the verge of falling apart. Only then did they cut themselves from all sides, trying to fish in troubled waters.

"My lord, I have followed your orders and ordered to have the rebels from all over the place killed. I will make Emperor Yu abdicate in the name of clearing up the chaos. If he refuses to give way, I will fight him in the imperial capital. I am eighty percent sure that I can kill him."

In Great Yu Imperial Capital, in a quiet courtyard. Gu Changge stood under an ancient tree with falling red mulberry leaves and nodded slightly.

He was dressed in white, like snow, tall and slender, with ink-like hair, radiating brilliance, transcendent and refined, surrounded by vague three thousand worlds, faintly standing in a legendary Immortal Realm.

In front of him, Yu Tianzheng reported respectfully, with respect and fear deep in his eyes. Now, he finally understood how terrifying Gu Changge's methods were.

If he hadn't seen it with his own eyes, he wouldn't have believed that Gu Changge was safe and sound. It was by no means that his origin was injured. He didn't even seem seriously injured as rumored by the outside world.

That was to say, the injury suffered by the Will of Heaven, and the serious injury in order to help the eldest princess Yu Feiya were also fake. Even in Yu Tianzheng's view, the destruction of the so-called Lower Realm might have been caused by Gu Changge.

Just thinking about it made him feel extreme fear and shudder.

"Are you really 80% sure to win against Emperor Yu?" Gu Changge's gaze was flat, looking at the falling mulberry leaves he glanced at Yu Tianzheng before asking.

"Reporting to my lord, I know Emperor Yu very well, and I know very well what methods he can use. I'm 80% sure about this battle."

Yu Tianzheng solemnly assured upon hearing the words.

In his original plan, he planned to sneak into the capital of Emperor Yu and assassinate Emperor Yu. But after Gu Changge found out, he asked him to give up the plan. From Gu Changge's point of view, Great Yu's imperial capital absolutely had many crouching tigers and hidden dragons, especially in the palace.

Emperor Yu had been in charge of the imperial palace for many years, and he absolutely understood and controlled the many restraining methods in it. What was more, the imperial palace was close to Great Yu's forbidden area.

If there was a battle there, it was impossible not to disturb the many ancient existences sleeping in it. The chance of a successful assassination was very small and almost slim.

Therefore, instead of assassinating Emperor Yu, it was better to take advantage of the chaos, in the name of helping the world to set things right.

In this way, even the ancient beings of Great Yu wouldn't stop them, and they wouldn't mind.

"In my opinion, your eighty percent certainty is only ten percent," Gu Changge shook his head lightly, looking up and down at Yu Tianzheng before adding.

In terms of cultivation, Yu Tianzheng was indeed stronger than Emperor Yu. But in terms of means, as well as the right time, place, and people, the two were not on the same level at all. *n0VεLusB.c0m*

"My lord, I..." Yu Tianzheng was taken aback for a moment, not understanding why Gu Changge would say that and why he had only a 10% chance of winning against the current Emperor Yu. However, he did not dare to question Gu Changge's judgment. In terms of strength, it was easier for Gu Changge to kill him than to crush an ant.

"I will give you a secret technique that will allow you to kill him in a duel with Emperor Yu in a few days." Gu Changge glanced at Yu Tianzheng casually, without any intention of explaining too much.

Then with a finger point, a dim light emerged. There were many simple and mysterious runes flickering as it turned into a brilliance, grazing directly into Yu Tianzheng's eyebrows.

Suddenly, an extremely obscure, ancient, and terrifying scripture full of demonic power appeared in his mind. Every word was as bright as a divine star, shining bright and dazzling brilliance, reflecting and washing the eternal sky.

In a trance, Yu Tianzheng saw the boundless demonic energy emerge, vast and endless, flooding the Heaven and the Earth. He was extremely astonished, he felt trembling, and felt a great sense of fear, as if his soul had been swallowed up by this scripture.

“Thank you, my lord.” Yu Tianzheng’s forehead was covered with cold sweat. His mind felt chaotic and it was hard to calm down as there was incomparable turmoil.

He understood that this scripture was absolutely terrifying and its origin was unimaginable, so he didn’t dare to be negligent, and hurriedly expressed his gratitude in a respectful voice. Since it was provided by Gu Changge, it could not be simple.

He had a deeper grasp of the life-and-death battle with Emperor Yu in a few days.

After Yu Tianzheng left, Gu Changge looked away with a thoughtful expression.

“The secret method bestowed by Young Master is probably not that simple, right?” At this time, a soft, charming voice sounded from the side.

A woman in white quietly hugged her nine soft and fluffy fox tails and stood behind Gu Changge. A little doubtful expression appeared on her face. She was tall and slender, with a fair face, delicate and white complexion. Her sparkling eyes emanated with a bewitching beauty, shocking others.

It was Yin Mei, the Heavenly Maiden of the Nine-Tailed Heavenly Fox clan who came here after learning that Gu Changge had returned to the Upper Realm.

“It’s just over-drafting his remaining life in advance, but for him, this is enough. This is the last value he can give me.” Gu Changge shook his head lightly.

“My lord, you are as cold-blooded and ruthless as ever...” Yin Mei pursed her lips and smiled, not surprised.

She didn’t think that Yu Tianzheng could bring much value to Gu Changge.

“It’s not cold-blooded, it’s just recycling. To control Great Yu, I just need such a suitable chess piece. Yu Tianzheng has ambition and skill, but he lacks luck. And the part of luck he lacks, I can just give him.”

Gu Changge smiled and stretched out his hand to take her into his arms. In front of his own woman, he would not hide this kind of thing.

“I understand, then I will arrange for people from the business alliance to take over the business roads in various parts of Great Yu...”

Yin Mei tilted her head, her glittering eyes fixed on his face, showing admiration and reverence, she said, “Young Master, the harvest does not seem to be small this time, I feel that if the Remnant Immortal of various Immortal forces are still present in the world. I’m afraid they are not your opponent anymore.”

This was her intuitive feeling. Although she had never seen Gu Changge make a real move, guessing from what happened in the Jianxuan Great World, she could guess a thing or two.

Gu Changge’s palm landed on her beautiful cloud-like hair, and he smiled, noncommittal.

“By the way, my lord, during this time, Miss Xian’er seems to have disappeared, and no trace of her has been seen anywhere in the Upper Realm...”

Afterward, Yin Mei seemed to have remembered something, and suddenly said with a worried face.

Chapter 657: The battle for the throne, The Emperor’s invitation to a battle

Yin Mei’s words made Gu Changge’s expression change slightly as she asked, “What happened to that girl Xian’er?”

Although he hadn’t returned to the Gu family for a long time, he had sent people to keep an eye on the traces of everyone around him. Gu Xian’er returned to Peach Village after her trip to Mount Kun and went to a certain place to cultivate according to the requirements of several masters.

Judging from the strength of her Luck, there should be no crisis. Therefore, Gu Changge didn’t care too much.

“I guess Miss Xian’er may be trapped in a secret place, and I haven’t heard about her in this period of time,” Yin Mei replied.

She knew that Gu Xian’er was very important to Gu Changge, so she paid special attention to this matter.

“Trapped in a certain secret place?” Gu Changge was a little taken aback and a subtle feeling arose in his heart.

How could Gu Xian’er be trapped in a secret realm? It was obvious that some kind of opportunity had appeared for her. However, he then shook his head and put the matter aside for the time being.

In a short period of time, Gu Xian’er should not be in any danger, after all, her Masters were not some easy-going lamps. What was more, she still had Taoyao’s imprint on her body.

If any accident happened, it would be a breeze to rescue her with Taoyao’s means. Gu Changge planned to wait until the matter on the Great Yu Immortal Dynasty’s side was resolved before thinking about it.

Soon, several days passed, and during this period, an event that caused a sensation in the Great Yu Immortal Dynasty also happened, shaking countless cultivators and creatures. The ministers all over the country were trembling and couldn’t believe it.

A golden war letter flew from thousands of miles away, unfolding over the sky of the Great Yu Imperial Capital, with a monstrous and terrifying aura of the Emperor’s Dao emerging.

In that war letter, there was only one word of war condensed in ancient characters, which was floating up and down like hundreds of millions of stars gathering, shining brightly in the sky.

The fighting spirit shown in it made everyone shudder. Even the stars outside the domain trembled as if they were about to fall.

Obviously, this came from a terrific and unrivaled figure, at least an existence that had stepped into the Quasi-Emperor Realm. Moreover, judging from its aura, it still belonged to the royal family of the Great Yu Immortal Dynasty.

At a time when chaos was raging everywhere in the Great Yu Immortal Dynasty, the arrival of a war letter really shocked everyone. All the forces stationed in the imperial capital were also terrified, wondering who did this.

“It’s Yu Tianzheng. After so many years, he still hasn’t given up.”

“He wants to fight in front of so many cultivators, it seems that he has a lot of confidence.”

Many ministers in the Great Yu Imperial Capital had heavy eyes. They immediately recognized who wrote this war letter. Speaking of which, Yu Tianzheng and the current Emperor Yu were brothers, and they had a very deep relationship.

When they competed for the throne, he was only defeated by a single move.

Now Yu Tianzheng was making a comeback, even sending a war letter, in front of all the forces, it seems that he intended to fight Emperor Yu for life and death.

“Yu Tianzheng actually declared a duel? Could it be that the chaos during this period is actually related to him?”

In the palace, behind Emperor Yu stood an old eunuch with a white beard, watching this scene with a sinking face. Soon, he reached out with his big hand, and hundreds of millions of strands of dragon aura lingered, covering the sky as it directly peeled off the war letter in the void.

In front of countless cultivators in front of the whole city, it was impossible for him to choose to back down. In his opinion, all of this was probably caused by Yu Tianzheng. If he could be defeated in an open and honest manner, the chaos in Great Yu could be solved this time. [n0VεLu&B.c0m](http://www.17k.com)

“Since Yu Tianzheng is coming to die in person, I will help him. He has been hiding all these years, and the grievances between me and him should be resolved.” Emperor Yu sneered, very confident in his own strength.

It was not that he underestimated Yu Tianzheng too much, but that over the years, as the lord of the Great Yu Immortal Dynasty, he had controlled many Taoism and divine powers, especially in the territory of the Great Yu Immortal Dynasty, it could be said that he occupied the right time, place and people.

Even if Yu Tianzheng had a heaven-defying chance, he didn’t have the slightest chance of winning in front of him.

“Your Majesty still has to be careful, since Yu Tianzheng dares to declare war at this time, he must be sure. In my opinion, you should not underestimate the enemy, you still have to be fully prepared,” the old eunuch beside Emperor Yu said softly.

Seeing that Emperor Yu didn’t care much about it, he was a little worried.

“This Emperor naturally knows, but Yu Tianzheng has always been self-willed, and now he dares to invite me to fight. He must have arranged everything, and it happens that this Emperor will be able to eliminate him.” Emperor Yu nodded, his eyes were full of confidence as he waved his big hand.

Seeing this, the old eunuch didn't dare to say anything more. The date and place of the invitation to fight in the war letter was the top of the imperial city seven days later.

In his opinion, Yu Tianzheng definitely had some confidence in making such a choice when he knew that after coming to the imperial capital, Emperor Yu would not have the slightest advantage in life and death. So while leaving the palace, he went straight to the depth and wanted to report this matter to the old Ancestors.

The battle for the throne was actually quite normal. However, compared to Yu Tianzheng, Emperor Yu was more suitable to hold the throne. He was assisted by several generations of previous Emperors, and his eyesight was astonishing. This invitation battle was obviously filled with an extremely obvious conspiracy atmosphere.

"This is someone who wants to attack Great Yu, who is it?"

The figure of the old eunuch gradually disappeared into the depths of the imperial capital, into an extremely dark cemetery.

Seven days later, the news that Yu Tianzheng was going to have a life-and-death fight with Emperor Yu on the top of the imperial city soon spread in the Imperial Capital of Great Yu, causing a huge commotion.

Many cultivators still didn't know Yu Tianzheng's identity. They just thought that this person was really daring and trying to court death like this.

Emperor Yu was an invincible figure in charge of an Immortal Immortal Dynasty now, stomping his feet would cause a big earthquake.

In the current Upper Realm, only the sect masters of the Immortal forces and the patriarchs of the long-lived family were qualified to be side by side with him. Then who was Yu Tianzheng?

However, many older generations who understood the battle for the throne in the Great Yu Immortal Dynasty didn't think so.

When Yu Tianzheng was young, he always dominated Emperor Yu. If it hadn't been for Emperor Yu's conspiracy during that battle for the throne, he might have already controlled the current Great Yu Immortal Dynasty.

In terms of cultivation talent alone, Emperor Yu was not as good as Yu Tianzheng. And in the past few days, a large number of rebels gathered from all over the Great Yu Immortal Dynasty.

The smoke of the wolf rose to the sky as the aura covered all directions. The clouds shattered, approaching the Great Yu Imperial Capital. This was an extremely astonishing and terrifying force, even if there were some Quasi-Emperors, they were frowning and apprehensive. However, many people had not noticed that amidst this terrifying army, there was still a hell-like torrent roar hidden.

In order, the iron cavalry rolled, and the monstrous evil spirit filled the air. All the cultivators along the way became horrified as if they were trembling and terrified when they saw soldiers crossing the border.

In the blink of an eye, seven days passed, and the battle at the top of the Great Yu Imperial Capital attracted the attention of all the orthodox forces. Every day, a large number of powerful cultivators rushed over from all over the world to witness this great battle with their own eyes.

In the face of this level of fight, the younger generation's struggle was no different from children's slapstick, and it was even worse than playing house. Many cultivators even felt that a major event that would be recorded in the annals of history was about to happen in the Great Yu Immortal Dynasty.

Even in the past, there had never been anyone who dared to challenge the Lord of the Immortal Dynasty like this.

Chapter 658: The time and place are favorable, All involved are baits to create chaos

Seven days passed quickly.

The current Great Yu Imperial City was extremely lively, a mighty army descended outside the city, patrolling in the clouds. The black mist surged as an overwhelming evil spirit. The cavalry rolled as if they were going to enter the imperial city at any time.

Troops from all parts of Great Yu also gathered quickly outside the city wall holding heavenly weapons and wearing armor, waiting in full force.

There were Great Yu's armies on both sides, but the people they belonged to were different. Many powerhouses from the Great Yu did not wish to see the scene of both sides fighting. The best way was to wait for the end of this battle and for everything to settle.

After the news came out, countless cultivators flocked from various ancient cities. They had already filled the inns, pavilions, and halls of the Great Yu Imperial Capital, waiting and watching from nearby.

A shocked Supreme cultivator swept his divine sense, and then his face was full of surprise. Billions of cultivators were gathered in this ancient city!

The Ancient Royal family, the Supreme sects, the Immortal forces, the long-lived family, and the Immortal dynasty. Among these standing forces, there were disciples and ancient existences, which were hardly seen during ordinary times.

On the thousands of meters wide ancient street, there was a lot of bustling. A mythical beast, Vermillion Bird, Azure Dragon... These ancient beasts, which were hardly seen in ordinary times, were all present.

There were also ancient beasts and flying vessels arriving from all over the place to witness this great battle. It was reasonable for the throne of the Immortal Dynasty to overlap, but it touched on a secret of the Great Yu Dynasty.

It was likely to lead to a major reversal of the situation and a change in the situation of all forces. This had to be taken seriously.

Many important ministers of Great Yu's court had already been waiting in various places, dispatching powerhouses of the clan to guard the surroundings to prevent people with malicious intentions from sneaking in. nOVℰℓuSb.cOM

In addition, many concubines and children of Emperor Great Yu had also gathered here to witness this battle with their own eyes.

In their view, Emperor Yu was the master of the Great Yu Immortal Dynasty, ruling over an endless and vast territory. Every time he stomped his feet, the world would shake and tremble in all directions. Anyone who dared to provoke him would pay a terrible price and die here.

They couldn't wait, they wanted to watch the scene where Yu Tianzheng was shot to death by Emperor Yu himself.

"That Yu Tianzheng was nothing more than a defeated general under my father's subordinates back then. He dared to come here to die. He really doesn't know how to differentiate between life or death."

A prince who was still young but had already shown his sharpness uttered with a face full of hatred and disdain for Yu Tianzheng.

There were many princes and princesses standing around him, all of them had extraordinary bearing, and possessed bright eyes along with a formidable strength. However, none of them spoke much, they just silently looked toward the direction of the city wall, as if they were waiting for something.

Time flowed slowly, the sun set in the west, the full moon rose in the east, and everything was silent. The entire imperial capital was shrouded in a layer of misty rays of light. Formations appeared and lit up everywhere, dazzling, as the glow was transpiring, just like an immortal city from mythology.

Countless eyes fell on the top of the imperial capital, and they all held their breath, not daring to speak softly. Even the ancient existences of the various Immortal forces frowned and did not speak, fearing to disturb all of this.

"Cough..."

Suddenly at this moment, from the end of the quiet long street, a slight cough suddenly sounded, breaking the dead silence.

Many cultivators and creatures couldn't help but look over, with surprised expressions. People from the Ancient Royal family, the Supreme sects, and the Immortal forces were also shocked, thinking of something, and looked over.

"Gu Changge!"

"He also came here!"

A group of young lords clenched their fists secretly, tense all over, feeling extremely uncomfortable.

In that direction, a young man wearing a moon-white robe and a slightly pale face could be seen. The stunning woman beside him was wiping the blood from the corner of his mouth with a clean white silk scarf.

On the long street, almost all the cultivators and creatures saw this scene, they couldn't help but back up a few steps. They didn't dare to block the way, and hurried out.

Many people only heard the news that Gu Changge was seriously injured and his origin was injured, but they never saw the real person. Now, no one expected that at this time, he would show up to watch this battle.

Even the ancient existences of various races changed their complexions slightly, turning uncomfortable all of a sudden. They no longer were as casual and natural as before.

Although Gu Changge was injured and coughed up blood in front of everyone, no one dared to underestimate him. Under such circumstances, Gu Changge definitely still had the strength to suppress and kill Enlightened beings.

“It seems that we arrived at the right time. This battle at the top of the imperial city has not yet started.”

Looking at the situation in front of him, Gu Changge seemed a little surprised and smiled slightly at Yin Mei beside him.

“If Young Master had come a little later, wouldn’t he miss it?” Yin Mei was dressed in white, her hair was like clouds, she pursed her lips and smiled sweetly. Her graceful demeanor was breathtakingly beautiful.

Many young men cast amazed glances at her, secretly envious and jealous in their hearts.

“Young Master Changge came at the right time.”

“How could Young Master Changge be missing in this battle of the imperial capital?”

Seeing this, the powerhouses of all races also appeared from their hiding locations one after another, inviting Gu Changge to stand with them at the highest point of the pavilion. This was the most advantageous position, so that they could watch the battle to their heart’s content.

Before, they were just hiding in the dark and did not reveal their real bodies. No one expected that Gu Changge would come over suddenly. Everyone knew that he was currently injured, and if someone suddenly attacked him later, they would be the object of suspicion if they hid in the dark.

This scene made many young lords here bitter. They were lost and desperate. Still secretly thinking of Gu Changge as their target, but even the Ancestor-level figures behind them had to be cautious and uneasy in front of Gu Changge.

“It seems that the people on both sides have not shown up yet.” Gu Changge stood on the highest point of the pavilion. When the night wind blew, his robes fluttered lightly, like an exiled immortal, he seemed a little surprised as he spoke authentically.

“The time is up, it seems that Yu Tian is afraid to show up.” At this moment, as his words fell, a majestic voice suddenly resounded through the world.

A tall figure wearing a purple gold crown and a purple gold dragon robe appeared on the city wall. He walked slowly, and the void behind him seemed to be intertwined with an imperial dragon aura. There were thousands of strands of Dao, resonating continuously, sending out a terrifying momentum that shook the world.

All the cultivators and creatures felt huge coercion, they couldn’t help but tremble with fear as if facing the collapse of mountains and seas along with the collapse of the universe.

They almost wanted to worship in that direction and kneel down.

Even an Enlightened being frowned, his face full of surprise and uncertainty, feeling that at this moment, Emperor Yu seemed to have established himself as an Enlightened being, not Quasi-Emperor.

Emperor Yu finally showed up very casually as he walked slowly, and landed on the top of the imperial city. Surrounded by hundreds of millions of strands of dragon aura, the heaven and the earth resonated with many visions intertwined, powerful and terrifying, making him innately invincible. However, many ancient beings still felt that there was another powerful force hidden behind Emperor Yu.

They guessed that there might be a lot of old antiques of the Great Yu Immortal Dynasty hidden in the dark, but they didn't show up, and they planned to take action when some kind of unexpected accident happened.

"It seems that Emperor Yu is relaxed on the surface, but secretly he is quite cautious." Many ancient existences of immortal forces looked away, thinking so.

Boom!!!

And with the appearance of Emperor Yu, the originally quiet Imperial Capital of Great Yu suddenly boiled up. Many courtiers felt excited, chanting 'His Majesty was invincible, and would surely suppress the incoming enemies!'

In the eyes of many cultivators and souls, under the rule of Emperor Yu, the Great Yu Immortal Dynasty's power was booming, and all ethnic groups were peaceful and prosperous.

At this time, the sudden chaos was obviously caused by Yu Tianzheng. They naturally hoped that Emperor Yu could kill this former competitor and return Great Yu to peace.

"The time has come, Yu Tianzheng, where are you?" Emperor Yu stood on the top of the imperial capital, with deep eyes, and let out a shout.

At this moment, his spirit had reached a peak, and there were faint signs of breaking through the shackles. Many subjects were whispering his name. The power of faith and Luck gathered, and it was even more terrifying. How would Yu Tianzheng fight against him?

"Tonight's battle seems to be doomed. Under such circumstances, it is difficult for us to defeat Emperor Yu."

"What's more, he still has many methods and weapons in his hands. This will be a battle without any suspense."

The several ancient beings all shook their heads and added. They thought that this battle was already doomed and it was a wise move for Yu Tianzheng not to show up. The terrifying army outside the Great Yu Imperial Capital might soon be wiped out or surrendered.

"However, there may be accidents. Yu Tianzheng is not like a fool. He should have the confidence if he sent an invite for the battle at this time."

Another ancient existence disagreed with this. He had lived for a long time, and his eyelashes were all empty, so he faintly felt that there was an indescribably strange feeling in this engagement.

“Things may not be that simple, let’s just wait and see.”

“What does Young Master Changge think about this?” Several other ancient beings all looked at Gu Changge aside, wanting to know his thoughts.

Gu Changge seemed to have just come to his senses after hearing the words. He smiled in surprise, and said, “No matter what the result is, this is an internal matter of the Great Yu Immortal Dynasty. As an outsider, I think it’s better to be just cautious and watch from the sidelines.”

Boom!!

And not long after Gu Changge’s words fell, outside the Great Yu Imperial Capital, suddenly there was a monstrous evil spirit rising to the sky. A terrifying figure whose aura overwhelmed the Heavens and the Earth, destroyed the clouds and shattered the stars outside the realm, striding in to attack.

With disheveled hair and cold eyes, like an invincible Emperor, holding a golden heavenly sword, he directly split the formation outside the city wall and broke into this place all the way.

“Yu Tianyong, it’s time to settle the relationship between you and me. Either you die or I die today.” Yu Tianzheng finally showed up as he said, coldly looking at Emperor Yu.

Yu Tianyong was Emperor Yu’s real name, and no one had called him by this name for many years.

Chapter 659: It’s you, Great Yu should change master from today (1)

On the top of the imperial capital, countless eyes gathered on the fight as everyone felt extremely excited.

“Today, I will take your life!”

Yu Tianzheng, the instigator of the duel had finally appeared. His eyes sparkled with cold lightning, his hair danced wildly, and there was an unrivaled aura rising and falling, filling every inch of the void around him.

He walked into the void, striding to attack. The momentum behind his move was so terrifying that even the space in all directions trembled. All the present cultivators and creatures felt a burst of fear, their souls seemed to be shaken as they trembled in horror.

It was as if this kind of terrifying aura could make the sky and earth collapse. Even when compared to Yu Huang, it was not much worse.

In the eyes of some ancient existences, Yu Tianzheng’s strength was definitely stronger than that of Emperor Yu.

After all, Emperor Yu’s ability to reach the current level largely depended on the Luck and faith of the Great Yu Immortal Dynasty and the special nature of the imperial capital. If it was a fair fight, Emperor Yu would definitely not be Yu Tianzheng’s opponent.

“You really dare to come here and disturb the order of my Great Yu. Even if you share the blood of my royal family, you will not be able to stay today.”

Emperor Yu didn't expect that Yu Tianzheng would actually dare to show up. His face displayed a bit of coldness, the vision of the Son of Heaven appeared above his head as the nine dragons soared into the sky while the heavenly phoenix worshiped. This was beyond words.

He approached the front, surrounded by hundreds of millions of imperial dragon auras that sent out a terrifying momentum capable of cracking mountains and rivers, as if there was an unrivaled dragon about to recover.

"Then you can try it. You once took my throne with vicious means. Today is the time to deliver justice," Yu Tianzheng said indifferently, with a murderous aura and chill permeating his body.

The golden longsword slashed down horizontally like a rain of majestic golden rain, covering everything, and it was extremely powerful. In just an instant, countless runes and principles intertwined before they exploded here, bursting out with dazzling brilliance, surging and vast.

If it wasn't for the powerful formations carved around the Great Yu Imperial Capital, the aftermath of the battle alone would have wiped out all the creatures in this place.

"You can't differentiate from life or death," Emperor Yu said coldly.

In terms of appearance, the two were very similar, except for their different temperaments, it was even difficult to tell them apart. But now they were fighting to the death here, to resolve the grievances from hundreds of years ago. Both Emperor Yu and Yu Tianzheng wanted to kill their opponents.

Boom!!

The endless brilliance kept colliding and intertwining, terrifying everyone. It was like big stars falling from the sky and exploding, trying to shatter everything.

Whether it was Emperor Yu or Yu Tianzheng, at this moment, they were really motivated to kill each other as soon as possible.

"You used to be my defeated opponent. Even if you won the throne by evil tricks, you are still a clown," Yu Tianzheng said indifferently.

The golden aura soared to the sky, like an unrivaled Emperor, and the golden heavenly sword was condensed with endless runes and dazzling sharpness. Every cut made the world tremble as if it was about to explode. The terrifying energy surged like a vast sea, trying to shatter this place.

"It's useless to talk too much, I'll kill you here today." Emperor Yu's face was deep and calm, with the royal dragon spirit in his body, he was innately invincible.

An endless stream of energy rushed toward him, turning into all kinds of divine weapons, giant cauldrons, divine bells, and heavenly axes... They all rushed toward Yu Tianzheng.

This was a world-shattering battle. Although neither of them had entered the Realm of Enlightened beings, the fluctuations they caused when they fought did not belong to cultivators of this realm.

The battlefield became chaotic as the cultivators and creatures around couldn't see what was going on. Except for the Enlightened beings, the rest were not qualified to watch the battle at all.

The Great Yu Imperial Capital was extremely special. If it were changed to other places, this level of fluctuation would have spread to the outside world long ago, shattering countless stars.

“It’s no wonder Yu Tianzheng is so courageous, he dared to come here alone, even sending an invitation to fight with Emperor Yu.”

People from various factions and forces were staring at this side, feeling that Yu Tianzheng could not be underestimated.

Gu Changge seemed to smile lightly as he said, “It seems that there will be a good show in a while.”

The ancient existence from the Heavenly Emperor Mountain had doubts in his heart, and he said, “What is the meaning Young Master Changge’s words? Although Yu Tianzheng’s strength is not simple, in the Great Yu Imperial Capital, even the Enlightened beings have to restrain their hands and feet. It is difficult to exert their true strength...”

“He is definitely not Emperor Yu’s opponent.”

“Oh?”

Gu Changge watched all this with a faint smile on his face.

Yin Mei, who was at the side, brought him some tea. He took a sip and sighed leisurely, “It’s really like the tip of a needle is right against the wheat.”

“Master, do you think there will be any accidents in this battle?” Yin Mei chuckled, pinching his shoulders for him.

Gu Changge shook his head, glanced at the surrounding ancient beings, and said, “Of course, there will be no surprises.”

How could he allow accidents to happen if he set up this situation and let so many forces fall into it?

“The world is destroyed, the world is about to be destroyed!”

The top of the imperial capital was full of splendor as if the sky was about to shatter. Many little cultivators had never seen such a big scene before, their faces went pale with fright, and they couldn’t help screaming.

The scene at this time was too frightening. Yu Tianzheng danced wildly with astonishing means, directly using the stars in the sky as weapons. Pieces of starlight covered the sky and the earth as it completely became a sea of stars.

All the blazing light finally converged into a river and entered his hand before he hit Emperor Yu in front with overwhelming power.

Emperor Yu’s complexion changed slightly. The secret treasures he unleashed could hardly bear it, and it made a crackling sound. However, he was not an ordinary person, dragon energy surged around his body as if he was about to condense out. He opened his mouth and roared, shattering all tangible things.

All the starlight shattered in front of him, turning into ashes.

“Yu Tianzheng is amazing. He has great courage. Before he took that step, he used all the stars and other celestial bodies as weapons in the palm of his hand. It’s really amazing!”

There were ancient beings who were amazed and felt that if Yu Tianzheng’s strength had soared. He would definitely enter the Realm of Enlightened beings and become an unrivaled existence among them. *n0VeℓuSb.c0m*

Compared with it, Emperor Yu relied too much on the dragon energy of this place and foreign things.

“Your Majesty, why do you need to do anything? Since it is a remnant of evil, I should take action and come to suppress and kill.”

And when Emperor Yu and Yu Tianzheng were fighting to the death, in the surrounding darkness, several indifferent voices suddenly sounded. A few very vague figures appeared, dressed in black robes. They seemed to be hidden in the dark fog, which could not be seen clearly.

They strode forward, like messengers hiding in the depths of hell, exuding a murderous aura. Even the Enlightened beings became a little timid, their spirits trembling slightly as they felt that these figures were not simple. Their origins were extremely mysterious.

“Yu Tianyong, you even arranged for people to hide in the dark, but this is really your shameless style.”

Seeing this scene, Yu Tianzheng, who was fighting with Emperor Yu, changed his face. He did not expect Emperor Yu to be so insidious. He really did not keep his promise, sending so many powerhouses to protect him in the dark.

The countless cultivators around were also in an uproar and were extremely shocked. Obviously, they did not expect that at such a juncture, someone would come to kill and destroy this appointment. But this was in the Great Yu Imperial Capital, so they dared not say anything more.

“Your Majesty originally arranged for such a method. It seems that there is nothing wrong with it. I was too worried.”

Many ministers of the Great Yu were a little surprised, and then they realized that this was the manpower arranged by His Majesty Emperor Yu, just to ensure everything was safe.

Although it is indeed a bit of a loss of prestige to do so, as long as Yu Tianzheng could be killed, who dared to say anything?

“It seems that the old slave is worrying too much, His Majesty has already made arrangements for this.” The old eunuch who had been following Emperor Yu heaved a sigh of relief. For this matter, he went to the depths of the clan to ask several old Emperor Ancestors.

As a result, the old Emperor even mentioned that this matter was an internal matter of the royal family, and it was not easy for them to intervene and break the rules of the royal family.

Chapter 660: It’s you, Great Yu should change master from today (2)

Whether it was Yu Tianzheng or Emperor Yu, they were all descendants of their descendants, and their blood was flowing through them. As for who was the Emperor, it was actually the same for them, and it would not affect their status.

“Hmm?” However, Yu Huang, who was fighting Yu Tianzheng, frowned at this moment and was also a little confused.

Although he was a bit unscrupulous, he didn't need to go to this level to deal with Yu Tianzheng. What was more, he was very confident in his own strength, so he didn't arrange for the others to hide in the dark.

In his opinion, this should be arranged by several Ancestors of the royal family, just to worry about his accident. Therefore, he quickly put this matter behind him and concentrated on dealing with Yu Tianzheng.

A few men in black suddenly appeared, rushed over in an instant, and joined the battle, making the already chaotic scene even more blurred.

At this time, the sky and the earth went dark, and the misty fog arrived from nowhere, covered and drowned it as it even began to engulf the place.

All the cultivators changed their expression, they felt that something was wrong. A feeling of cold birthed all over as they retreated to the distance.

“What happened?”

“Where did this fog come from? Could it be that someone wants to make a move?”

Many people were shocked and didn't know why. In the highest pavilion, many ancient beings snorted coldly and reached out with their big hands, trying to drive away the thick fog. But at the next moment, there was a sword light piercing through the thick fog, which was so dazzling that it directly smashed their big hands, and even slashed towards this place!

“How dare you!” Someone's face changed, he was extremely furious. His eyes were cold, and he was ready to attack. He didn't expect someone to make a move at this juncture. But what made them even more horrified was that the target of these sword lights was Gu Changge who was at the side!

“My lord...” Yin Mei exclaimed and her little face turned pale.

“No, this is someone who wants to attack the seriously injured Gu Changge!”

The Great Yu Immortal Dynasty is so brave, they dared to do this in front of everyone...

Many ancient existences were shocked, they never expected that someone would be so bold as to attack Gu Changge, who was seriously injured, regardless of the consequences.

Their first reaction was that this was the Great Yu Immortal Dynasty's tactic. After all, those men in black not only wanted to kill Yu Tianzheng, but also Gu Changge. If something unexpected happened to Gu Changge, maybe even they would be implicated and get burned.

“You really dare to touch me?” Gu Changge slightly raised his eyebrows as if he was extremely surprised. His sleeves were rolled up, the void in front of him trembled and became blurred, and the sword light that came to him immediately was cut off in every inch.

This was a vast mighty force, it was the divine effect of the Laws of Space, which could break mountains and rivers and split Heaven and Earth.

“These people are crazy, they don’t care about the consequences.”

“Crazy, they are all crazy.” The faces of several ancient beings were all ugly, feeling that things had become troublesome, after all, no one could clear up the suspicion.

Who could guarantee that the forces behind him would not attack Gu Changge?

At that moment, someone’s figure disappeared from the spot and walked directly into the thick fog in front of him, intending to take down the group of men in black and torture them about their origin. This sudden scene was really astonishing. Many cultivators’ faces were still turning pale, and they were extremely frightened.

“They took the initiative to attack the seriously injured Changge. Are they really planning to kill him at this time?”

“Tonight’s event will definitely cause a sensation in the entire Upper Realm. It’s unimaginable...” Many cultivators were horrified and had a premonition that a big event was about to happen.

This thick fog came from nowhere, it was extremely dense as it contained terrifying laws, which could deceive a cultivator’s five senses. Many people couldn’t see the scene in front of them clearly at once, and could only retreat into the distance.

“I want to see who dares to attack me.”

Gu Changge also seemed to have a bit of coldness on his face. He looked in the direction where the men in black disappeared. His eyes flashed strangely, and then he took a step from the pavilion and quickly chased after him, submerging in the thick fog.

“Clang!!”

The top ranking members of the dynasty were now in chaos. Although Emperor Yu was shocked, he didn’t care about what happened around him. He let out a low shout, and with a brilliance flashing between his brows, he shot out a small golden sword about an inch long and slashed at Yu Tianzheng.

Peerless and sharp, with thousands of chaotic dragon energy hanging down, it was very terrifying.

Yu Tianzheng in the distance let out a long shout and cast the secret method given by Gu Changge. He started to burn, and his skin, flesh, bones, and blood became bright and gorgeous.

Especially when a fiery red star clock flew out from between his brows. A blazing light erupted between the two, sweeping in all directions. The surrounding pavilions and palaces, like paper, turned into ashes. The fog was thick and extremely turbulent.

Everyone had already hidden further away, afraid of being affected, it was extremely shocking.

n0vεlusb.c0m

“Dang!!”

The sound of a golden bell resounded through Heaven and Earth as the fiery golden bell body radiated blazing power which was quickly amplified, and hung above Yu Tianzheng's head.

This star bell was a Quasi-Emperor weapon, and it had even been intertwined with the Emperor's pattern at birth, which was extremely terrifying.

On the opposite side, Emperor Yu was surrounded by the aura of the Emperor, standing with a sword in his hand. The Dao sword flying out of his eyebrows was tens of feet long. He was as majestic as an invincible Emperor.

This sword was made of Chaotic Divine Stone, which was naturally capable of attracting a Chaotic aura. It was engraved with runes, gathering Great Yu's Luck, and now it had turned into a shocking Dao sword, cutting everything!

With a loud roar, he struck with the Chaos Dao Sword in his hand, sweeping across all directions. His hair was fluttering and his eyes were terrifying, like a Human Emperor who was capable of swallowing the Sun and the Moon.

Boom!!

Yu Tianzheng vomited blood and flew backward, almost bursting. He could only shake the big bell on his head hardly. It was also made from a divine silver, although not as good as the Chaos Dao Sword, it was also extremely terrifying.

Now when he cast the secret method, his whole body was dyed red by the red blood light, which looked dazzling and majestic. The two of them finally used the most terrifying method, causing the void here to collapse and become a vacuum.

Puff!!

Yu Tianzheng's face turned pale. Even with the technique bestowed by Gu Changge, he was not the opponent of Emperor Yu today, the Quasi-Emperor's weapon cracked, and terrible cracks appeared.

The Chaos Dao Sword was the national weapon of the Great Yu Immortal Dynasty, and in some respects, it was comparable to an Immortal weapon. Although it had not fully recovered, its power was vast, mysterious, and difficult to contend with.

"You should understand the gap between you and me..." Emperor Yu looked at him indifferently, his whole body was glowing. The Chaos Dao Sword was about to cut down and kill Yu Tianzheng.

Yu Tianzheng was covered in blood, his breath was dying. He had already been defeated, and he looked like he was exhausted. He couldn't stop laughing miserably, he didn't expect to try everything, even using the secret method given by Gu Changge, but he still failed.

It was not that his strength was inferior to Emperor Yu's, but that he was inferior in terms of weapons. But at the next moment, his eyes widened suddenly, a little unbelievable, and he even wondered if he had read it wrong.

"Young Master Gu..."

Yu Tianzheng was on the verge of despair, but he didn't expect that a slender figure not far away was slowly approaching. Although he was in the thick fog, there was an air of detachment and refinement. He couldn't help shouting out, hope rekindled in his heart.

"What a waste." Gu Changge looked at the defeated Yu Tianzheng as he shook his head lightly, and uttered. His eyes were calm and emotionless.

"It's you... Why are you here?"

Looking at Gu Changge arriving, Emperor Yu's face also changed drastically at this moment. It displayed a hint of fear, no longer calm and indifferent just now. He really didn't expect that Gu Changge would show up at such a juncture. Wasn't he badly injured and attacked by someone?

Gu Changge didn't intend to explain to him, his eyes were deep and indifferent, "From today on, Great Yu should change its master."
