

## Villain 661

### Chapter 661: The mastermind behind the scenes, The fall of the Son of Heaven

“From today, the Great Yu will change hands.”

Emperor Yu’s face changed drastically, his whole body was filled with cold air. His limbs felt numb, and his hands and feet were cold. His entire being stood in the monstrous fog, not daring to move at all.

He looked at Gu Changge who was walking slowly while his mind and soul seemed to be frozen. He was about to suffocate, it was horrifying. Before this, he had never doubted Gu Changge, and even deliberately asked his daughter Yu Feiya to get closer to him. But he never expected that Gu Changge would show up at this moment and say such words.

Could it be he also arranged those men in black who attacked Gu Changge just now?

Even his serious injury was actually a disguise in order to deceive others. Thinking of these things, Emperor Yu’s scalp was really numb, and he couldn’t help trembling. Though he was the master of the Immortal Dynasty, he was still frightened for a while. What kind of terrifying method was this to control everything in secret?

“I didn’t expect that Gu Changge was behind you. It seems that the recent chaos was all promoted by you. You are the big mastermind behind the scenes? I really can’t imagine that you can hide so deeply, I really can’t imagine... Gu Changge, you are the greatest disaster of the Upper Realm!” Emperor Yu said in a deep voice.

After all, he was not an ordinary person. He was laughing miserably but quickly calmed himself down before looking at Yu Tianzheng and Gu Changge. He knew that with Gu Changge’s personality since he dared to show up in such an upright manner, he must be confident and not worried about him escaping.

He guessed that tonight’s battle would be more or less ominous. Gu Changge’s strength was so strong that he could even kill the Will of Heaven that was almost in the Immortal Realm. It would be very easy to kill him.

Unless he could fully recover the national weapon in his hand, he would never be able to compete against Gu Changge.

“It seems that you are not stupid, this Great Yu should have been handed over to me long ago.” Yu Tianzheng quickly swallowed a few divine medicines to restore his injuries. His whole body was radiant and his aura recovered quickly, he couldn’t help sneering.

Since Gu Changge appeared here, in his opinion, everything was a foregone conclusion, there would be no surprises. Even if Emperor Yu still had great means, he would still die bitterly, and his blood would be splattered in the sky.

“Sure enough, you have defected to Gu Changge. Are you planning to hand over the Great Yu territory to him?” Hearing these words, Emperor Yu was extremely furious, his words were somewhat resentful and even somewhat unwilling.

If Gu Changge hadn’t interfered with this battle, he would have killed Yu Tianzheng by now. How could there be so many things?

In the final analysis, he was just too stupid to be played by Gu Changge. He didn't even realize his intentions were not good.

Gu Changge's eyes were deep and indifferent, he just shook his head lightly and said, "Do you want to commit suicide, or do you want me to do it?"

"I should have believed Feiya's words a long time ago." Emperor Yu's face was ugly, and he felt very regretful in his heart, thinking of the time when Yu Feiya reminded him to be careful of Gu Changge.

Since Gu Changge was pretending to be seriously injured, what happened in the Jianxuan Great World probably had a lot of secrets. How the Enlightened beings of all ethnic groups were buried had also become a mystery.

"It's useless to talk too much, I'll kill you today. No one can save you." Yu Tianzheng roared angrily, and the blood all over his body boiled again. The endless runes emerged, wanting to attack Emperor Yu again.

**Boom!!**

It exploded again here, and the vast fluctuations seemed to repeat this universe.

"Attack! I will fight with you today!"

Knowing that he would die today, Emperor Yu roared, and an endless aura rushed out, intending to do his best to revive the Heavenly Dao Sword. The endless sword light seemed to split the darkness and slashed directly into the sky.

In the depths of the sky, chaotic dragon energy permeated the air, and the Dao sword bloomed with immeasurable light. The sharp edge was faintly visible, floating up and down, like suppressing the traces of imperial aura falling down at the beginning of the creation of the world, to protect Emperor Yu.

This was a national artifact belonging to the Great Yu Immortal Dynasty, and its sacrificial refinement was extremely special. It was not much less than an Immortal weapon.

Now the gods within it were awakened by Emperor Yu's blood, and their brilliance was shining, overwhelming the world. They wanted to wake up and kill all enemies to suppress the world.

**Buzz!!**

But at the next moment, a simple and mysterious rune flew out of the void, filled with the power of the Dao, like a black hole swallowing the heaven, directly making the Heavenly Dao Sword tremble.

Among them, the gods who were about to be revived gradually sank.

"What exactly is this..." Emperor Yu was terrified, and his voice contained fear. No matter what means he used, it would be futile to awaken the gods connected with him. This method was simply mysterious and unimaginable.

"After seeing that death is imminent, you are still thinking about resisting? You don't know how to live or die." Gu Changge's voice was indifferent, and he raised his palm to look. His eyes were deep as if they contained a vast sea of stars, bottomless.

The void in front of him suddenly burst, the endless wind rushed out, and chaotic light exploded, smashing all tangible things.

Yu Tianzheng felt cold all over his body, feeling that he was small and humble, if he didn't dodge, he would definitely be shocked to death by the aftermath of this palm. Was this the true strength of Gu Changge?

He was incomparably terrified, and he understood deeply what despair was.

"What!"

Emperor Yu's heart was about to burst, and he roared angrily. There were hundreds of millions of strands of dragon auras circling around him. The sea of laws was boiling, and the formation patterns on the sleeves of his robe were about to revive. It was an ancient treasure, and they all were about to manifest and emerge to counter the blow. However, facing Gu Changge's palm, he still looked weak and pale and collapsed in an instant, turning into dust all over the sky.

This was absolute oppression, just like the gap between Immortals and Mortals.

**Boom!!**

The bloody light that filled the sky diffused and was soon swallowed up by the surrounding thick fog. Emperor Yu was extremely desperate. Under this palm, even if he tried all means, he would be torn apart and explode, destroyed both in his body and spirit. And his soul would also turn into ashes and cease to exist.

As the lord of the Great Yu Immortal Dynasty, he had a lot of things to protect his life, especially since he also had the body protection of the Heavenly Dao Sword, which made him innately invincible.

It was a pity that he met Gu Changge. This battle was already doomed, and there would be no surprises.

"Thank you Mr. Gu for making the move." Yu Tianzheng's face turned red because of excitement, and his whole body was trembling constantly.

Although he didn't kill Emperor Yu himself, seeing Emperor Yu fall in front of him with his own eyes was enough for him. The hatred for so many years had finally come to an end.

Gu Changge's expression was not too disturbed. Killing Emperor Yu casually would not have any impact on him, except for the influence of his identity, it was actually no different from crushing an ant to death.

Although Emperor Yu had the national artifact of the Heavenly Dao Sword, after all, he was only a Quasi-Emperor and had never entered the ranks of Enlightened being.

"For the rest, don't let me down." Gu Changge lightly glanced at Yu Tianzheng, and his figure quickly disappeared, as if he had never appeared before.

The Great Yu Rebellion was just beginning now, and he was just promoting everything secretly. With the fall of Emperor Yu, disasters would continue everywhere, this was also the opportunity for Yu Tianzheng to gain power and take advantage of the opportunity to control all directions.

Except for Yu Tianzheng, no one knew what happened tonight, let alone know that Emperor Yu actually died tragically at his hands. As far as the outside world was concerned, Gu Changge was now injured and was attacked by an unknown man in black.

How could he have anything to do with the killing of Emperor Yu? No one would associate this matter with him and speculate.

“Mr. Gu, please rest assured, leave the next matter to me.” Yu Tianzheng nodded very cautiously and replied in the direction Gu Changge was leaving.

Afterward, he frantically scanned the many things left in front of him. When Emperor Yu passed away, the Heavenly Dao Sword and other things left behind naturally fell into his hands. After all, he and Emperor Yu had the same cultivation method, so he could naturally control this sword.

Therefore, other cultivators, even Enlightened beings, would never want to take away the national artifact of the Great Yu Immortal Dynasty.

Gu Changge would definitely not take these things away. On the one hand, he was not lacking, and on the other hand, taking these things away might expose what he had done. The harm outweighed the benefits, and the gains outweigh the losses.

“That’s the best. It seems that those men in black were arranged by Mr. Gu. In this way, I have been fulfilled. Many people will definitely guess that it was arranged by Emperor Yu, and there is no proof...” Yu Tianzheng gazed through the thick fog and slowly swept down, with a sneer on his face.

The fluctuations in the battle here had already been smoothed out by Gu Changge, so even if the Enlightened being used the secret method to trace back, it was impossible to detect anything.

In this way, it could give everyone the illusion that he killed Emperor Yu through some kind of terrifying means.

**Chi chi chi...**

The fog was still pervasive in all directions, turbulent, and rolling. It came from nowhere, covered the sky of the imperial capital, and blinded the five senses of cultivators.

At this time, even Enlightened beings could hardly see the scene clearly, and they were inexplicably horrified. The rest of the cultivators had long felt that they were plunged into darkness, they couldn’t see their fingers, they just wanted to escape to the distance, and they didn’t know what happened. However, when Emperor Yu fell, there was a phenomenon, and blood rained down from the depths of the sky.

Many terrifying scenes were reflected in the sky of Great Yu, Gods and Demons wept together, Immortals and Buddhas kowtowed, stars were destroyed and the moon sank.

As the Emperor of the Great Yu’s generation, his own life was closely related to the Luck beliefs of hundreds of millions of cultivators and creatures in the Great Yu Immortal Dynasty. The involvement was so great that it was unimaginable.

At this moment, countless cultivators and creatures in the imperial capital froze and even doubted whether what they saw was an illusion. All the princes and princesses were also dumbfounded with their heads buzzing.

“This... this... How is it possible...”

“Has Your Majesty fallen?”

Some ministers who reacted were stunned, their voices trembled, and there was fear and sadness in them, and they couldn't believe that all this was true. From their point of view, there would be no suspense in this battle, even Emperor Yu could easily suppress and kill Yu Tianzheng.

What was more, Emperor Yu even arranged a backup. How could he fall?

For a moment, there was a mournful voice in the Great Yu Imperial Capital. Everyone couldn't believe that their invincible Emperor had fallen in this battle, and was killed by a competitor. His aura disappeared and both his body and spirit were destroyed.

Many people were shouting, deploring to the extreme, and even almost passed out. The cultivators and creatures of various forces were also shocked, and their emotions were extremely complicated.

Who would have thought that the result of this battle would be like this?

“Father, how could he fall, it's impossible...” Yu Feiya's complexion turned pale, and she clenched her fist tightly, making a crisp sound because of too much force.

Although Emperor Yu was extremely selfish, he only valued the interests of the royal family and regarded her as a bargaining chip. But he was still her father, and now that he had fallen like this, it really made her dizzy, almost unable to stand still.
