

Villain 666

Chapter 666: Those who chant his true name will enter this realm and gain eternal life (6)

In a grand and simple palace, the new Emperor Yu Tianzheng was standing here, reporting something in a low voice. He was wearing a purple gold crown on his head, and a large dragon robe. His sleeves were decorated with many star patterns, flowing with brilliance, just like an unrivaled Emperor. But his expression was extremely humble and submissive, not daring to show any disrespect.

“The current Great Yu has six parts of the territory under my control. Except for General Zhen Guo and the former General who have not surrendered, the rest of the ministers have surrendered.”

In front of Yu Tianzheng, Gu Changge was dressed in white, holding a white jade wine glass in his hand, gently shaking the mellow wine in it, with an easy-going and natural expression.

“So it looks like you didn’t disappoint me.” He smiled and handed the white jade wine glass to Yin Mei who was beside him.

As the current new Emperor of the Great Yu Immortal Dynasty, Yu Tianzheng’s methods could be described as iron-blood. All the ministers who had any intention to resist were taken into prison. So compared to his predecessor Emperor Yu, he still admired Yu Tianzheng more.

Such a character was easier to control and more obedient. He would not choose to offend him or do stupid things without benefit.

Of course, Gu Changge did not have any worry, after all, Yu Tianzheng’s life was always in his hands. The current him was the true ruler behind the vast territory of the Great Yu Immortal Dynasty.

“I don’t dare to disappoint Young Master,” Yu Tianzheng said with a terrified expression when he heard the words. He could never forget how Gu Changge raised his hand to kill Emperor Yu that day, and the method was cold and cruel.

Now everyone under the Heaven of the Upper Realm had a deep fear of the Dark Heaven, like fearing ghosts and gods. If it wasn’t clear that those Enlightened beings in black were sent by Gu Changge, Yu Tianzheng would have wondered whether this matter had nothing to do with Gu Changge.

This depth of staying hidden was unimaginable. What was more, his little life had always been in the hands of Gu Changge. When he sought Gu Changge's cooperation for the first time, it was like seeking skin from a tiger. Now he had also fulfilled his wish and became the new Emperor of the Great Yu Immortal Dynasty, avenging his revenge hundreds of years ago.

"By the way, my lord, it seems that Yu Feiya has some suspicions about you. She thinks that there are many fishy things, even conspiracies behind Yu Tianyong's death. She has been stationed outside the Emperor's tomb these days, and asks to see the old Emperors in it to inform them about this. You see, should we find an opportunity to attack her?" Yu Tianzheng remembered another extremely important matter and said in a low voice.

As the eldest princess, Yu Feiya, even though her predecessor Emperor Yu, was dead, but in the palace, she was still honored beyond words. Even he didn't dare to take action against her lightly. Many of the royal family's children knew that on the day Yu Feiya was born, she touched the Great Yu Immortal Scripture and it bestowed on her a secret method.

Golden lotuses descended from the sky, clear springs emerged from the ground, and the divine light shone brightly, reflecting the sky. There were auspicious omens stretching for thousands of miles. There were even visions such as dragons and phoenixes leaping, and cranes holding mushrooms.

Several old Emperor Ancestors who had stepped into the Realm of Enlightenment were also shocked by such visions, and personally bestowed her with cultivation methods.

In terms of cultivation talent alone, there was absolutely no doubt that the eldest princess Yu Feiya overwhelmed the younger generation of the Great Yu Immortal Dynasty. Therefore, many old antiques in the Great Yu Immortal Dynasty all regarded Yu Feiya as a future successor, but Yu Lie was not favored by them.

Once something happened to Yu Feiya, many old antiques would be alarmed, and it would cause great trouble.

Hearing this, Gu Changge's eyes flashed strangely, then he shook his head and said, "It's nothing, you just need to tell Yu Feiya that you are doing something for me. She is very smart and knows what to do."

"What..." Yu Tianzheng was very surprised, when did Yu Feiya become Gu Changge's person?

If Yu Feiya knew that her father was actually killed by Gu Changge himself, what would she think? He suddenly shuddered a little.

For the next few days, Gu Changge stayed in this palace, claiming to the public that he was recuperating, but in fact he was building the prototype of the Dark Heaven in his Inner Universe.

In fact, he had planned to do so a long time ago. However, the embryonic form of the Inner Universe was not yet complete at that time, even if the Ancient Heavenly Court and the Southern Heavenly Gate were manifested in the world, the effect would be minimal.

Gu Changge still remembered that when he was in the Ancient Immortal Continent at that time, in order to find the inheritance left by the Ancient Heavenly Lord of Reincarnation, he happened to meet a good-for-nothing boy named Hei Ming from the Black Heavenly Eagle Clan.

It was not right to say that he was a good-for-nothing boy, after all, in terms of talent, he was much better than ordinary cultivators. It was just that in their family, it seemed a bit mediocre.

Through the hands of that young man, he passed on the Immortal Binding Technique, thereby controlling the clans of the entire Ancient Immortal Continent. And the way of that manifestation was through the embryonic form of Heaven constructed in the immature Inner Universe.

Later, although he ordered Hei Ming to recruit believers under the Heavens and all regions, he could use this to contact the 'Supreme Being.' But it had been so long, and there was no sign of it, which showed that this matter was not going well.

After all, Gu Changge was just trying, and didn't expect to succeed. Now that the Dark Heaven was present in the world, it was like a shadow shrouding the Upper Realm. For him, it was an excellent opportunity to snare and harvest.

Boom!

In the next moment, a bright light burst out in front of Gu Changge's eyes, and a silver portal emerged, which was astonishingly brilliant, as if connecting to another ancient world.

Inside the portal was another completely different world. The three silvery ancient characters of 'Southern Heavenly Gate' seemed to be reflected in the long river of time and space with brilliant and indelible power.

The majestic and solemn Immortal Palace stood on the top of the clouds, and just one of the pillars seemed to be able to open up the sky and the earth. The surrounding clouds and mist were tumbling as the chaos was surging, like the peak of the ancient and vast universe.

This was enough to make all living beings tremble. Just a strand of the aura of this place seemed to be able to crush all time and space, destroying the Heavens and eternity.

And as Gu Changge stepped in, the energy here became more blazing and bright, rushing in like a vast sea. On the top of the Immortal Palace, a blurry figure slowly condensed, sitting there cross-legged. He was incomparably hazy, unreal, surrounded by three thousand ancient worlds.

Countless true dragons and immortal phoenixes were entrenched, white tigers and basalts were crawling, as if overlooking the eternal, sitting on the reincarnation. The long river of time was surging, galloping at its feet, as if gathering and flowing through the heavens and worlds. The dao body in the Dark Heaven was far from enough.

“It’s still far from enough to shock the world...” Gu Changge frowned at this scene. However, it was still only a prototype, and it had yet to be gradually perfected.

Afterward, in the Inner Universe, ancient stars of life gathered together with Gu Changge’s thoughts, turning into a majestic universe of stars, surrounding them.

Among these ancient stars of life, buildings, pavilions, palaces and pagodas began to rise from the ground. They were magnificent and ancient, filled with the aura of the great Dao.

The various cultivation resources collected by Gu Changge before, such as colorful altars, ancient sacred monuments, Emperor scriptures, Supreme insights, turned into light rain, and descended into those buildings, forming the foundation .

“Those who recite the true name can lead a ray of their true soul to this world, enter the Dark Heaven, and obtain eternal life. I am the Emperor of Heaven and Earth, the great self-sufficiency and supreme good fortune...”

While burning sacrificial rites, Gu Changge strengthened the Laws of Heaven and Earth in the Inner Universe, while sacrificing the vast power of faith from the Human Ancestor Hall, which aroused the resonance of cultivators outside.

Although he was like the Master of Heaven and Earth here and could control everything, it would inevitably cause accidents.

Now that the Immortal Path would appear, all kinds of old monsters would start to appear. Maybe one day the aura of the Immortal Realm would descend, touch this world, bringing troubles to some extent.
